Are you associated with any Organization/ Employment that might be deemed a conflict of interest in performing your duties if appointe position?* C Yes | + Contribute to recommendations that priority throughout the city. + Utilize my analytical skills to thoroughly reinitiatives. + Support the committee's goal of encourag friendly infrastructure improvements. + Help foster constructive dialogue among of the committee's goal of encouraged friendly infrastructure improvements. | ize safe, convenient, and well-designed view proposals and data related to bike ng recreational and commuter cycling a | /pedestrian projects and safety and walking by advocating for user- |
| Beyond my direct interest in pedestrian and cyclist needs, my professional experience as a Senior Engineering Managi involves leading teams and analyzing complex systems, which I believe is relevant to evaluating infrastructure plans within the broader context of the city's transportation network. My educational background is somewhat unique, combining technical engineering degrees with a Master's in Conflict Analysis and Resolution. This blend equips me to understand not only the technical aspects of facility design but also the human factors and community dynamics crucial for successful bike and pedestrian initiatives. My informal training a a mediator complements this, offering practical process skills for committee work.
