

**Wicked Chicken**

**3/19/19**

It is my intention to extend our ability to serve food, beer, and wine on the patio to match our current operating hours. We have had zero issues with the patio over the last 16 or so years and want our patrons to enjoy the beautiful outdoors. In order to maintain control of the outside eating area we have placed it in plain view of our registers, directly in front of the store. Our ability to maintain the outdoors will be regulated by our managers and staff all of which are trained in alcohol management.

Sincerely,

A handwritten signature in black ink, appearing to read 'MGM', with a long horizontal line extending to the right.
