May 1, 2025

Honorable Mayor, City Council and Residents of Santa Clara,

The Proposed Biennial Operating Budget for fiscal years (FY) 2025/26 and 2026/27 is presented for consideration and continues our 2-year budgeting process that alternates between the operating and capital budgets. This year's budget focuses on our day-to-day operations that support vital City services, and important amendments to the second year of the biennial capital budget that you approved last year.

As part of the budget deliberation process, two City Council study sessions are scheduled for May 13, 2025, and May 27, 2025, before the public hearing and planned budget adoption on June 10, 2025. Additionally, you have already received and taken action on amendments to the City's Municipal Fee Schedule at your April 29, 2025, meeting. The effective date of those fee changes aligns with the July 1, 2025, start date for the Proposed Biennial Operating Budget that is being transmitted to you through this letter and its attachments.

For FY 2025/26, the Proposed Operating Budget totals \$1.2 billion. The enterprise funds that are used to manage the City's utilities (Silicon Valley Power, water, sewer, and solid waste) represent the largest share of the budget at 57.9%. The General Fund budget totals \$333.6 million, or 19.5% of the budget, and is used to fund many direct services, such as police and fire public safety services, libraries, parks, community centers, and streets maintenance.

The City's financial position has improved since the adoption of the last biennial operating budget. When looking at projected revenue and expenses, the Ten-Year General Fund Forecast is positive by \$9.3 million in FY 2025/26 and projects a deficit of \$0.1 million in FY 2026/27. Small deficits and surpluses are projected for the remaining years of the forecast as summarized in the *Ten-Year Financial Forecast and Economic Outlook* discussion below and described in further detail in the *Ten-Year Financial Forecast* section of the budget document. This outlook depicts a stable General Fund budget; however, the forecast does not include the capacity to fully restore prior cuts, add capacity to support new service areas and growth in the City, and to fully fund capital infrastructure maintenance and replacement.

This improved financial picture provides for targeted investments that fund many of the City Council's identified priorities as well as enhance the City's operating reserves, restoring the Budget Stabilization Reserve (BSR) to the Council policy level of 25% of expenditures. The budget includes enhancements to key City services and funding for the implementation of Measure I – General Obligation (GO) Bond approved by the voters in November 2024.

#### **Budget Milestones:**

**May 1:** Release of Proposed Budget

**May 13:** City Council Study Session on Proposed Budget

**May 27:** City Council Study Session on Proposed Budget

**June 10:** Public Hearing and Adoption of FY 2025/26 and FY 2026/27 Biennial Operating Budget and Amendments to the FY 2025/26 Capital Budget

**July 1:** Start of Fiscal Year 2025/26

## Budget Overview: What Does This Budget Do?

This Proposed Budget focuses on City Council priorities identified during Council Priority Setting sessions as well as improvements to vital City services. The budget proposals also address existing service gaps and restore and maintain public safety positions. This includes the continuation of 12.0 firefighter positions that were funded by the Staffing for Adequate Fire and Emergency Response (SAFER) grant as well as the restoration of 3.0 frozen police sworn positions. The City continues its recruitment efforts for sworn staffing, which will also enable the restoration of services as Police positions are filled. In addition, this budget helps prepare the City for the future by supporting planning efforts, restoring the BSR to the 25% level, and funding modest annual contributions to support the City's capital infrastructure.

City Council Priorities	City Services	GO Bond Implementation	Prudent Fiscal Approach
<ul style="list-style-type: none"> <li>• Restore library materials</li> <li>• Public Art Master Plan</li> <li>• Fiber Optics Network Study</li> <li>• Tasman / Lafayette walkway Study</li> </ul>	<ul style="list-style-type: none"> <li>• Enhance Fire and Police response (12 Fire and 3 Police positions)</li> <li>• Homelessness staffing</li> <li>• Development services improvements</li> <li>• Support utilities services and growth</li> </ul>	<ul style="list-style-type: none"> <li>• Staffing to support implementation</li> <li>• GO Program Management and Coordination</li> <li>• Project Management, Oversight and Delivery</li> </ul>	<ul style="list-style-type: none"> <li>• Restore BSR to 25% of expenditures</li> <li>• Use one-time source for one-time uses</li> <li>• Fiscal Sustainability Plan</li> <li>• Begin annual contributions to support capital infrastructure</li> </ul>

The Proposed Budget also includes funding to staff positions to ensure that the City can successfully deliver the capital projects funded by the \$400 million General Obligation Bond measure approved by the voters in November 2024. These projects will significantly improve the City's infrastructure by replacing facilities that are well beyond their useful life.

The Proposed Budget also includes one-time expenses, and associated reimbursement, to ensure the safety of our community during major events planned at the Stadium, including the Super Bowl and World Cup matches.

## Total Budget Summary

The expenditure budgets total \$1.5 billion in FY 2025/26 and \$1.4 billion in FY 2026/27, which are down from the \$1.6 billion in FY 2024/25. Changes in planned debt issuances, enterprise funding, and capital budget funding are major drivers of the variances from year to year. The budget for capital funds in FY 2025/26 is currently well below FY 2024/25 primarily because the carryover of capital funds from FY 2024/25 to FY 2025/26 has not yet been factored into the budget. These carryover adjustments will be brought forward as part of the FY 2025/26 budget adoption actions in June 2025.

The Enterprise Funds, consisting of SVP, Water and Sewer Utilities, Solid Waste, the Convention Center, and

the Cemetery, represent the largest share of the City's budget. With the exception of the Cemetery Fund that relies on General Fund support, the budget for each enterprise is balanced within the resources available for that enterprise. These functions are primarily supported by user fees and charges.

Table 1 summarizes the total proposed budgets by fund type.

**Table 1: FY 2025/26 and FY 2026/27 Proposed Budget**

FY 2025/26 and FY 2026/27 Proposed Budget			
Fund Type	FY 2024/25 Adopted Budget	FY 2025/26 Proposed Budget	FY 2026/27 Proposed Budget
General Fund	\$310,698,189	\$333,645,699	\$342,802,597
Special Revenue Funds	41,458,963	42,154,763	38,806,836

<b>Subtotal Operating Budget</b>	<b>\$1,078,481,920</b>	<b>\$1,183,635,771</b>	<b>\$1,254,916,711</b>
Capital Funds	568,932,159	367,743,203	150,763,062
Less (Transfers, Contributions, and Reserves)*	(1,818,315)	(1,454,000)	(1,454,000)
<b>Subtotal Capital Budget</b>	<b>\$567,113,844</b>	<b>\$366,289,203</b>	<b>\$149,309,062</b>
<b>Total Budget</b>	<b>\$1,645,595,764</b>	<b>\$1,549,924,974</b>	<b>\$1,404,225,773</b>

\* Adjusts for transfers, contributions, and reserves to avoid double counting of the same funds (e.g., internal service funds are excluded)

The FY 2025/26 and FY 2026/27 Proposed Budget incorporates actions to address needs throughout the organization within the available resources of each fund. Staff has carefully analyzed all department budget proposals, considering the fiscal year projected resources, anticipated service impacts to Santa Clara residents and businesses, and City Council goals, principles and priorities. The Proposed Budget also factors in recommended changes to FY 2025/26 capital projects.

## Guiding Framework

The actions recommended in the Proposed Budget were informed by Council priorities and budget principles.

### Priority Areas of Focus

On an annual basis, the City Council meets for its Council Priority Setting session. The goal of the annual session is to formulate the City Council's priorities and initiatives and establish priority areas of focus and key initiatives for the City organization. The process identifies important and critical priorities which establishes the policy framework for budget decisions and how City resources are aligned to support these objectives.

As part of the 2025 City Council Priority Setting session held on April 3, 2025, the City Council agreed on the following priorities as the most important for the next 12-18 months.

### Budget Principles

The Proposed Budget includes a set of Budget Principles that provide a general framework and approach for developing the City's budget, ensuring fiscal stability by considering both the short and long-term impacts of any funding decisions. In recent years, the Budget Principles have included an exception to the Council policy that would set the BSR at 25% of expenditures, allowing the BSR to be set at a minimum of 15% given the City's fiscal challenges. For FY 2025/26, this exception has been removed along with other changes that reflect the current forecast. These principles are incorporated as part of the actions considered in this Proposed Budget. The FY 2025/26 Budget Principles can be found in the *Budget and Fiscal Policies* section of the budget document.

### **Summary of Budgeted Positions**

The FY 2025/26 Proposed Budget funds 1,198.50 positions and reflects the addition of 39.25 positions from the FY 2024/25 Adopted Budget level as shown in Table 2. This includes Base Budget adjustments of 18.25 positions and recommended additions in this Proposed Budget of 21.0 positions. The FY 2025/26 Base Budget adjustments were approved by the City Council during FY 2024/25 and include the following: the addition of 15.0 positions funded by SVP, including 12.0 in the Electric Utility Department, 1.0 in the City Attorney's Office, and 2.0 in the Finance Department; the addition of 2.0 positions in the Human Resources Department, an increase of 0.25 FTE in the Parks and Recreation Department, and the unfreezing of 1.0 position in the Department of Public Works. The Proposed Budget changes include additions in the Community Development, Finance, Fire, Information Technology, Parks and Recreation and Public Works Departments, the City Attorney's Office, the City Manager's Office, and Non-Departmental.

In FY 2026/27, there is a net reduction of 2.0 positions. In the Fire Department, there are currently 18.0 firefighter positions funded by the Staffing for Adequate Fire and Emergency Response (SAFER) grant through FY 2025/26. Grant funded positions included 12.0 positions previously frozen during the pandemic and 6.0 positions to fill vacant positions at the time of the grant application. After the conclusion of the grant, this budget continues 12.0 of those on an ongoing basis, resulting in a net reduction of 6.0 grant funded positions. The 12.0

recommended positions align with the number of firefighter positions previously frozen in 2021. The addition of 4.0 positions is also recommended, including the unfreezing of 3.0 sworn positions in the Police Department, and the addition of 1.0 position in the Public Works Department.

A detailed summary of Base and Proposed Budget position changes can also be found in the *Budgeted Positions* section and the *City Department* sections of the budget document and in the *Proposed Budget Highlights* section of this letter that starts on page 11.

**Table 2: Summary of Position Changes (All Funds)**

<b>Total</b>	<b>1,149.25</b>	<b>1,159.25</b>	<b>1,198.50</b>	<b>1,196.50</b>

<sup>1</sup>The IT Department partners with a service provider to meet citywide technology needs.

<sup>2</sup>The City Manager's Office also oversees the Non-Departmental functions (e.g., citywide administration, Stadium Authority support, communications, community/special programs and initiatives, economic/real estate development, State and federal legislative coordination, etc.).

## Ten-Year Financial Forecast and Economic Outlook

The Ten-Year General Financial Forecast (Forecast) provides policy makers and the public an updated assessment of the City's fiscal health and serves as a strategic planning tool to assist the City Council, staff, and the public with decision-making as they work to adopt the budget and consider long-term financial strategies for the City. The Forecast also identifies known risk factors and vulnerabilities, and it provides a foundation for evaluating priorities and understanding trade-offs moving forward.

The Forecast compares anticipated General Fund revenues with base expenditures, which include the projected costs of providing the current level of service. Individual projections of revenues and expenditures are developed based on trend analyses, input from available economic reports, consultant recommendations, departments, updated salary and benefit information, and non-personnel costs. The most current information available is incorporated into the Forecast and refined on a moving forward basis.

This Forecast shows a General Fund surplus of \$9.3 million in FY 2025/26, followed by small surpluses and shortfalls in the remaining years of the Forecast. The projected surplus in FY 2025/26 is equivalent to 2.8% of forecasted expenditures, while the shortfalls and surpluses in the out years ranging from -\$6.7 million to \$6.2 million equate to -1.8% to 1.4% of expenditures annually. The Forecast does not factor in the FY 2025/26 and

FY 2026/27 Proposed Budget actions and is used as the starting point in the development of the budget.

**Table 4: FY 2025/26 – FY 2034/35 General Fund Forecast (April 2025)**

	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	2032/33	2033/34	2034/35
<b>Projected Revenues</b>	\$337.7	\$340.0	\$351.4	\$363.9	\$378.6	\$396.5	\$411.9	\$426.9	\$442.4	\$459.4
<b>Projected Expenditures</b>	\$328.4	\$340.1	\$353.2	\$370.6	\$383.5	\$398.7	\$409.9	\$425.0	\$437.2	\$453.2
<b>(Shortfall)/ Surplus</b>	<b>\$9.3</b>	<b>(\$0.1)</b>	<b>(\$1.8)</b>	<b>(\$6.7)</b>	<b>(\$4.9)</b>	<b>(\$2.2)</b>	<b>\$2.0</b>	<b>\$1.9</b>	<b>\$5.2</b>	<b>\$6.2</b>
<b>% of Expenses</b>	<b>2.8%</b>	<b>0.0%</b>	<b>(0.5%)</b>	<b>(1.8%)</b>	<b>(1.3%)</b>	<b>(0.6%)</b>	<b>0.5%</b>	<b>0.4%</b>	<b>1.2%</b>	<b>1.4%</b>

The Forecast compares ongoing revenues and expenditures to address the existing staffing and service levels. It does not factor in one-time funding sources or items funded on a pay-as-you-go method with one-time sources. The Forecast also does not address many unmet service needs including the following:

- The cost to fully fund capital infrastructure needs;
- Additional costs to restore frozen positions, add positions to address growth in the City, and add new services (e.g., homelessness response, public art program);
- Permanent funding for pilot programs such as Via Shuttle/SV Hopper and Vision Zero;
- Enhanced funding to address the City's pension liability (the City is below the State average in pension funding); and
- Additional contributions to Reserves (e.g., Budget Stabilization Reserve, Pension Reserve).

Historically, the City has funded many capital infrastructure and equipment needs with one-time funds on a pay-as-you-go basis. The lack of sufficient one-time funding has resulted in a backlog of unmet/deferred infrastructure needs. In November 2024, Santa Clara voters approved a \$400 million GO Bond to address the most critical needs. There remains a need for ongoing funding to replace the City's infrastructure. This Forecast begins to address that need with modest funding growing from \$1 million in FY 2025/26 to \$10 million in FY 2034/35. The ongoing need to fully fund capital maintenance in the City is much larger, and staff will continue to evaluate options to create additional capacity for additional funds in this area.

In addition to the elements described above that are not factored into the Forecast, the City has identified various risk factors that could have a potential impact on the Forecast. These include:

- Uncertainty regarding results of tariffs and other federal actions;
- Potential for an economic downturn or recession;
- State/federal legislative changes and legal challenges;
- Labor costs outside the budget assumptions;
- CalPERS actuarial changes or reform actions; and
- Unanticipated critical capital/infrastructure needs.

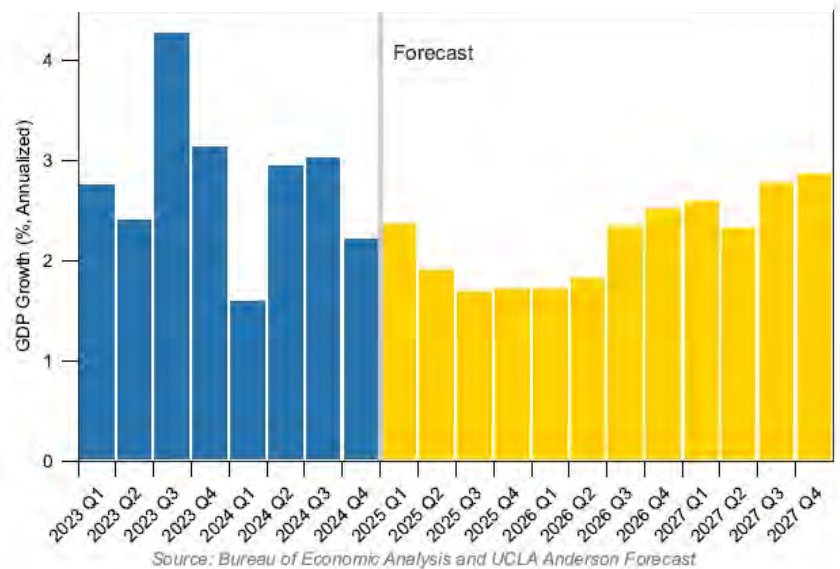

It is important to note that all forecasts have a level of uncertainty. Given the decreasing precision in later years of a forecast, those values provide a multi-year perspective rather than a precise prediction. As the City has

experienced in the past, General Fund revenues may exceed or fall below expectations based on changes in economic or non-economic conditions. Various cost elements can also vary from year to year, such as retirement costs that are impacted by the earnings assumptions and performance of the California Public Employees Retirement System (CalPERS).

## ECONOMIC OUTLOOK

In its Spring 2025 Forecast, the UCLA Anderson Forecast points to significant uncertainty related to trade tariffs, fiscal policy, and geopolitical risk with the new administration. The Forecast predicts higher unemployment and higher prices in 2025 with some potential upside in 2027 and beyond. “As a result of the combined effects of deportations and tariffs, we expect GDP and productivity growth to decline in late 2025 by about 1 percentage point and to recover by the end of 2026. (2025Q1 negative productivity growth is due to U.S. Census data adjustment to the size of the labor supply.) The unemployment rate will simultaneously rise and hit 4.5% by the first quarter of 2026 and gradually recover afterwards to 4.0% in 2027. We expect inflation to remain elevated around 3 percent throughout 2025 and 2026. Tariffs will be the main cause of higher prices in 2025, while deportations will drive prices in 2026 via higher food and wage inflation of around 4 percent.”<sup>1</sup>

**U.S. Quarterly Real GDP Growth Forecast  
(UCLA Spring 2025 Economic Forecast)**

In the fourth quarter 2024 third estimate, the Gross Domestic Product (GDP) increased by 2.4%, following a GDP increase of 3.1% in the third quarter. The increase in real GDP primarily reflected increases in consumer spending and government spending that were partially offset by a decrease in investment.<sup>2</sup>

Given the uncertainty and evolving conditions surrounding the impact of global tariffs and consumer confidence, the additional contributions to the General Fund Budget Stabilization Reserve and its restoration to 25% of expenditures is an important safeguard for the community and our workforce.

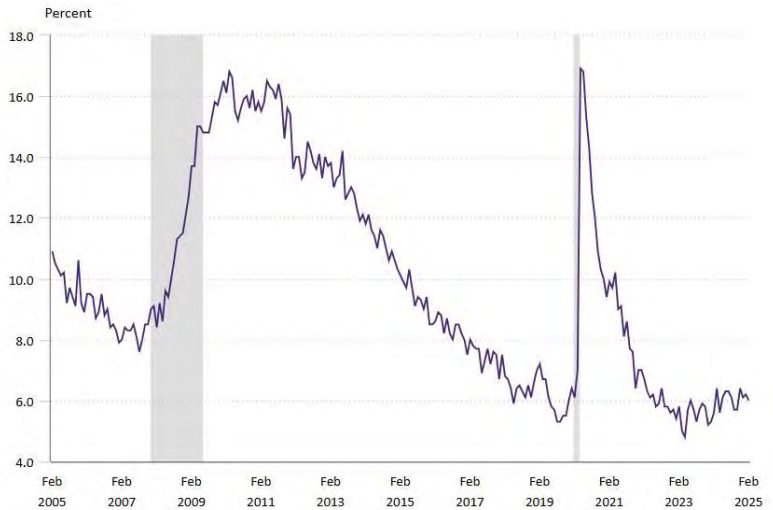

<sup>1</sup> UCLA Anderson Forecast Spring 2025 Economic Forecast, “A Tariff Amount of Uncertainty”, Clement Bohr

<sup>2</sup> <https://www.bea.gov/news/2025/gross-domestic-product-4th-quarter-and-year-2024-third-estimate-gdp-industry-and>

Employment data has remained positive with low unemployment rates. On a national level, the unemployment rate was 4.1% in February 2025, which is slightly above the 3.9% in February 2024. The unemployment rate has remained in a narrow range of 4.0% to 4.2% since May 2024<sup>3</sup>.

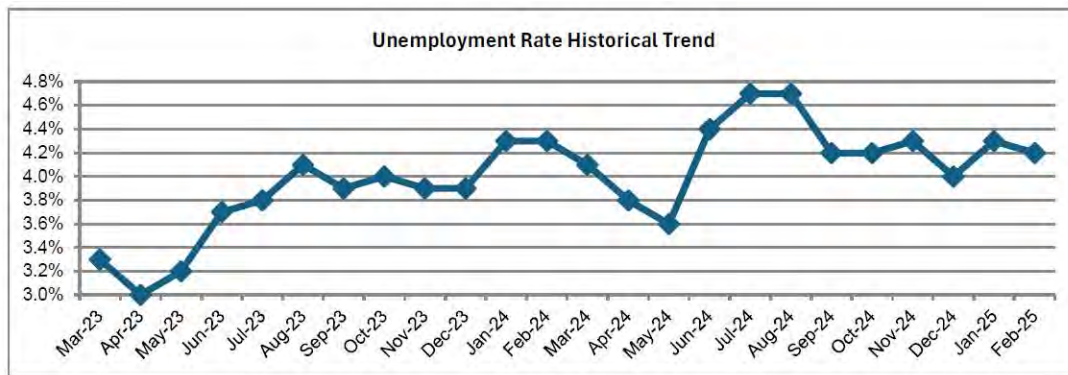

The unadjusted unemployment rate in the San José-Sunnyvale-Santa Clara Metropolitan Statistical Area (MSA) was 4.2% in February 2025, down slightly from a revised 4.3% in January 2025, and below the February 2024 estimate of 4.3%. Between February 2024 and February 2025, employment in this region decreased by 5,300 jobs, or 0.5%. Notable employment reductions were in professional and business services (down 5,100 jobs), manufacturing (down 3,000 jobs), information (down 3,000 jobs), and leisure and hospitality (down 2,200 jobs). The largest increases were in private education and health services (up 8,900 jobs).<sup>4</sup>

### San Jose-Sunnyvale-Santa Clara Metropolitan Statistical Area

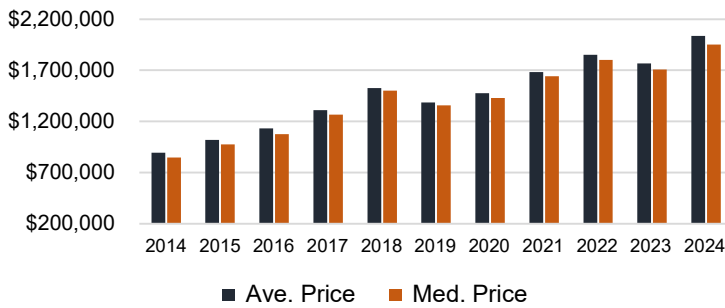

Property values in Santa Clara remain high. In 2024, the median price of a single-family home totaled \$1.95 million, which was up from the 2023 level of \$1.7 million as shown in the Single-Family Residential Home Sales chart. The number of closed sales also increased from 380 in 2023 to 418 in 2024. However, this sales volume remains below historical levels.

## General Fund Budget Balancing

With the projected General Fund surplus of \$9.3 million in FY 2025/26 and small shortfall of -\$0.1 million, the budget balancing strategy for the FY 2025/26 and FY 2026/27 Biennial Operating Budget includes targeted investments and contributions to the Budget Stabilization Reserve as shown in Table 5 below.

**Table 5: FY 2025/26 and FY 2026/27 General Fund Balancing**

	FY 2025/26	FY 2026/27
<b>Forecast Surplus/(Shortfall)</b>	<b>\$9.3 M</b>	<b>(\$0.1 M)</b>
<b>Funding Sources</b>		
• Beginning Fund Balance (Stadium Performance Rent)	\$10.1 M	
• Beginning Fund Balance (Additional Revenue)	\$3.6 M	
• Reserve for FY 2026/27 Budget Balancing		\$6.5 M
• Overhead/Reimbursement/Use of Reserves	\$0.1 M	\$0.8 M
<b>Total Funding Sources</b>	<b>\$23.1 M</b>	<b>\$7.2 M</b>
<b>Expenditure Changes/Changes to Reserves</b>		
• City Council Priorities	\$1.0 M	\$0.1 M
• City Department Proposals	\$2.8 M	\$2.8 M
• General Obligation Bond Implementation	\$1.0 M	\$2.0 M
<b>Total Expenditure Changes</b>	<b>\$4.8 M</b>	<b>\$4.9 M</b>
<b>Changes to Reserves</b>		
• Reserve for FY 2026/27 Budget Balancing	\$6.5 M	
• Budget Stabilization Reserve	\$11.8 M	\$2.3 M
<b>Total Changes to Reserves</b>	<b>\$18.3 M</b>	<b>\$2.3 M</b>
<b>Total Expenditure Changes/Changes to Reserves</b>	<b>\$23.1 M</b>	<b>\$7.2 M</b>

The recommended General Fund budget actions are intended to address Council priorities identified as part of the Council Priority Setting session and other high priority needs while also maintaining the City's fiscal stability. Following is a summary of the budget balancing components that are also discussed in more detail in the individual department sections of the budget document:

- **Funding Sources:** The funding available for allocation in the Proposed Budget includes the FY 2025/26 forecasted surplus of \$9.3 million along with additional fund balance from FY 2024/25 generated from the Stadium performance rent and higher than budgeted revenue, particularly in the Sales Tax category. It is assumed that a portion of this additional one-time funding will be set aside in a Reserve for FY 2026/27 Budget Balancing and carried over from FY 2025/26 to FY 2026/27 to balance the FY 2026/27 budget. A limited amount of reimbursement funding from the Technology Fee Reserve to support a Business Analyst in the Community Development Department and from the Utility Funds to support Finance positions in the Municipal Services Division is also factored into the Proposed Budget.
- **Expenditure Changes:** The expenditure changes address City Council priorities identified during the Council Priority Setting session, as well as limited departmental proposals and General Obligation Bond implementation staffing. These investments are summarized below under the Proposed Budget Highlights and described in the department sections.
- **Changes to Reserves:** The Proposed Budget allocates a portion of the one-time funding to the Budget Stabilization Reserve and brings the reserve to the Council policy level of 25% of expenditures. This is a prudent use of one-time funding and better positions the City to address unexpected revenue and/or expenditure fluctuations in the future.

## Proposed Budget Highlights

Highlights of the City's budget and recommended budget proposals are provided below and are aligned to priority areas of focus.

### Excellent City Government

- **Restore Library Materials** – This budget restores funding for library materials in FY 2025/26 and FY 2026/27.
- **Levi's Stadium** – The Stadium Authority's stand-alone Fiscal Year 2025/26 Operating, Debt and Capital Budget was adopted by the Stadium Authority Board on March 11, 2025. The budget provides the necessary funding to administer the duties of the Stadium Authority, including support for operating the Stadium for Non-NFL events through a management company, advancement of the FY 2025/26 work plan, payment of debt service obligations, and maintenance of a five-year capital plan. It also reflects the revenues and expenses necessary to operate the Stadium in the context of planning for major events scheduled for the upcoming year which include the 2026 FIFA World Cup and Super Bowl LX.

- **Development Services** – Fee-supported budget proposals are recommended to improve service and efficiency and support the high volume of development activity. In the Building Division, additions include 1.0 Plans Examiner and 1.0 Senior Inspector to help address the development workload and 1.0 Business Analyst to help improve the use of technology. In the Fire Department, proposed additions include 1.0 Fire Protection Engineer, 1.0 Fire Prevention Specialist, and 1.0 Management Analyst as well as funding for contractual plan review and inspection services.

- **Municipal Services Support for City Utility Operations** – budget actions are recommended to add 1.0 Utility Field Service Worker, 1.0 Customer Service Representative, 1.0 Meter Reader, and 1.0 Accounting Technician (75% utility support) in the Finance department to improve customer service and response times as well as address the increased workload in the Municipal Services Division.
- **Administration** – budget actions are recommended to support the overall operations of the City, including the unfreezing of 1.0 Legal Office Specialist position in the City Attorney's Office, funding for election costs for a potential Charter amendment measure, improved tools for performance management and recruiting in the Human Resources Department, the addition of 1.0 Senior Information Technology Services Manager to support numerous technology projects, and the addition of 1.0 Accountant in Finance and 1.0 Management Analyst in Public Works to revise the capital project accounting to better reflect total capital project costs and improve transparency.

## Reliable Infrastructure

- **General Obligation Bond Implementation** – In November 2024, Santa Clara voters approved a \$400 million General Obligation Bond Measure. A phased delivery of the expenditure plan will be implemented. The addition of 1.0 Deputy City Manager position in Non-Departmental and 1.0 Principal Engineer, 1.0 Senior Civil Engineer, and 1.0 Management Analyst in the Public Works Department are recommended in this budget to support the implementation of the bond program.
- **Capital Improvement Program** – Work will continue on improving the City's infrastructure through the implementation of capital projects approved as part of the FY 2024/25 and FY 2025/26 Biennial Capital Budget.
- **City Fiber Network** – Funding is included for a study to explore the potential expansion of the City's current fiber network.
- **Walkway/Stairway from Tasman to Lafayette** – Funding is included for a feasibility study for a walkway/stairway with carve-out under the bridge for rideshare services.
- **Capital Infrastructure Maintenance and Replacement** – Ongoing funding is included for capital infrastructure maintenance and replacement.

## Outstanding Quality of Life

- **Unfreeze 3.0 Sworn Police Positions** – The unfreezing of 2.0 Police Officer and 1.0 Police Sergeant positions is recommended in FY 2026/27 to align with ongoing recruitment efforts, offset by an increase in the vacancy rate. These positions will increase the Department's capacity in the Field Operations and Special Operations Divisions, with particular focus on traffic, regional task forces, and the Aerial Response Team.
- **Continue 12.0 Firefighter Positions** – This budget continues 12.0 relief firefighter positions that were originally unfrozen with the SAFER grant.
- **Fire Department Training** – Funding is included to train Fire personnel on the use of the new Tractor-Drawn Aerial apparatus.
- **Public Art Master Plan** – The budget includes funding to develop a Public Art Master Plan and policies to promote public art in the community.
- **Homelessness Response** – The addition of 1.0 Management Analyst is recommended to help manage the Homelessness Response Plan, set up a pilot Safe Parking Program, assist with managing overnight warming location or a hotel respite program, seek out grant funding, and manage the City's outreach team.
- **Housing Element** – 1.0 Staff Analyst II is recommended to support the implementation of the Housing Element. State law changes have added more requirements to the Housing Element, resulting in a heavier workload in order for the City to remain in compliance and ensure continued certification of the Housing Element.
- **Community Development Block Grant (CDBG) and Housing Funds** – The City remains committed to maintaining its housing programs to provide aid to its most vulnerable residents. The City's Annual Action Plan for FY 2025/26 includes CDBG funds for various public service activities (e.g., family therapy and advocacy, educational services, senior adult legal assistance, and providing meals to seniors and adults with disabilities) along with funding set aside for capital projects for affordable housing and public facility improvements. The budget will be aligned with the Annual Action Plan that is scheduled for City Council approval on May 13, 2025, with amendments brought forward as part of the budget adoption in June 2025.
- **Parks and Recreation** – The addition of 1.0 Recreation Manager is recommended to provide Parks capital projects, GO Bond, and program support.

## Thriving Community

- **Sustainability** – The addition of 1.0 Management Analyst is recommended to support sustainability efforts. This position will report to the City's Director of Economic Development & Sustainability and assist with the implementation of and future amendments to the City's Climate Action Plan.

- **Convention Center** – The Convention Center is projected to have 176 events, with approximately 211,624 in attendance in FY 2025/26. In FY 2026/27, the Convention Center is projected to have 228 events, with approximately 306,989 in attendance.

### Fiscal Sustainability Plan

The Proposed Budget adds consultant services funding for a Fiscal Sustainability Plan that will include and in-depth analysis of the City's financial condition. This analysis will be used to develop a blueprint for moving forward to ensure fiscal stability and will include potential strategies to address projected budgetary shortfalls, provide capacity to fund service and infrastructure needs, and plan for future growth and expansion of City services. These strategies may include revenue enhancements, expenditure reductions, service/program eliminations, and service delivery model changes. The goal of the Fiscal Sustainability project will be to develop various strategies for the community and the City Council to consider and establish an Implementation Action Plan.

### Amendments to the FY 2025/26 Adopted Capital Budget

The City Council approved the FY 2024/25 and 2025/26 Biennial Capital Budget in June 2024. This action approved a two-year capital budget and presented a five-year capital improvement plan. While the focus of this year's budget is operations, several budget amendments to the FY 2025/26 Adopted Capital Budget are also recommended. Further detail can be found in the *Appendices* section of this document. The key budget amendments are summarized below:

- **Public Art Master Plan:** Funding of \$120,000 from the General Fund is included for a Public Art Master Plan; this addresses a City Council priority.
- **Parks and Trails:** Mitigation Fee Act (MFA) funding is added for the construction phase of the Henry Schmidt Park Rehabilitation Project that will also be partially funded by the General Obligation Bond. Construction is expected to begin in FY 2025/26. Additional MFA funding is also added for the Central Park Access and Parking Improvements project based on updated construction estimates. This project is currently in the design phase, which has been updated to incorporate additional ADA improvements. The construction award is expected in FY 2025/26.
- **Streets and Highways:** Funding from the General Fund of \$200,000 is recommended for a new Walkway/Stairway Tasman to Lafayette Feasibility Study; this addresses a City Council priority.
- **Sewer Utility Projects:** Additional funding of \$900,000 is recommended for the Sanitary Sewer Improvements project (from \$1.1 million to \$2.0 million) to replace additional sewer mains as a result of the sewer mains assessment. Funding of \$500,000 is also recommended for a new Public Works Paving Project Support – Sewer project to account for costs associated with raising manholes as a result of work completed through the Annual Pavement Project.

- **Water Utility Projects:** Additional funding of \$1.5 million is recommended for the Distribution System Replacement/Restoration project (from \$3.0 million to \$4.5 million) to account for higher main replacement costs. An increase of \$500,000 (from \$2.3 million to \$2.8 million) is also recommended for the Buildings and Grounds project to address a new Bay Area Air Quality Management District requirements to have generators at Tier 4 instead of Tier 3. In addition, funding of \$500,000 is recommended for a new Public Works Paving Project Support - Water to account for costs associated with raising water valves as a result of work completed through the Annual Pavement Project.

The carryover of unexpended capital project funds from FY 2024/25 to FY 2025/26 is necessary in order to continue or complete projects beyond the current fiscal year. As appropriations lapse annually on June 30<sup>th</sup>, recommendations to carryover funding will be brought forward for City Council consideration as part of the budget adoption actions in June 2025.

### **Status of Reserves**

The Proposed Budget incorporates reserves in various funds as reflected in the Source and Use Statements.

#### **General Fund Reserves**

- **Budget Stabilization Reserve (BSR)** – This reserve is used as an allocation for weathering economic downturns, emergency financial crises or disaster situations. Per Council policy, the Budget Stabilization Reserve target is equal to the cost of the City's General Fund operations for three months, or 25% of the expenditure budget. In recent years, the City Council adopted budget principles that allowed this reserve to drop to 15% of budgeted expenditures given the City's budget challenges. With the improved fiscal condition and the availability of one-time funds, the Proposed FY 2025/26 and FY 2026/27 Biennial Budget brings the reserve to the Council policy level of 25%. In the Proposed Budget, the BSR is set at \$80.9 million in FY 2025/26 and \$83.2 million in FY 2026/27.
- **Land Sale Reserve** – The City Council established the Land Sale Reserve with net proceeds from the sale of City-owned land. The Land Sale Reserve currently has a balance of \$10.3 million and is available for appropriation by City Council action. This reserve was temporarily used to support the International Swim Center (ISC) capital project in FY 2024/25 and is expected to be replenished once bonds are issued for the ISC project.
- **Capital Projects Reserve** – The Capital Projects Reserve (CPR) earmarks funds for the Capital Improvement Program (CIP). The minimum target for this reserve is \$5.0 million. This reserve increases from \$8.8 million at the end of FY 2025/26 to \$10.8 million in FY 2026/27. The Proposed Budget assumes a \$1.0 million contribution in FY 2025/26 and a \$2.0 million contribution in FY 2026/27. The Ten-Year Forecast assumes additional increases to the annual contribution of \$1.0 million annually to fund ongoing infrastructure needs, increasing the ongoing allocation to \$10.0 million by FY 2034/35.

#### **Utility Fund/Other Reserves**

The Utility Funds incorporate various reserves to cover potential shortfalls in operating revenues, maintain strong bond ratings, cover day-to-day operating costs, and ease the burden on ratepayers associated with large rate increases. These typically include an Operations and Maintenance Reserve (generally set at three months of operations), a construction reserve and a rate stabilization reserve. The Utility Funds also include a Pension Trust Reserve. Select other reserves are set aside in various funds as necessary.

## Stadium Authority

The Stadium Authority exists as a public body, separate and distinct from the City, and is established to provide for development and operation of Levi's Stadium. It is structured so that the City will not be liable for debts or obligations of the Stadium Authority. The Stadium Authority's stand-alone Fiscal Year 2025/26 Operating, Debt and Capital Budget was adopted by the Stadium Authority Board on March 11, 2025 and can be found at <https://www.santaclaraca.gov/our-city/santa-clara-stadium-authority/financial-reports#Stadium-Budget>. This budget reflects the revenues and expenditures related to the support of the Stadium; expenditures related to the Stadium Authority can also be found in the **General Fund Non-Departmental** section of this document.

## Next Steps

As part of the budget deliberation process, two City Council study sessions are scheduled for May 13, 2025, and May 27, 2025, before the public hearing and planned budget adoption on June 10, 2025. An overview of the Proposed FY 2025/26 and 2026/27 Biennial Operating will be presented at the May 13<sup>th</sup> Study Session.

## Summary

This document is intended to provide the City Council and the community with a transparent plan that facilitates discussion of City services and the alignment of proposals with City Council and community priorities. The Proposed Fiscal Year 2025/26 and 2026/27 Biennial Operating Budget reflects improvement from the prior biennial budget and allows for targeted investments to address City Council priorities and other high priority needs. This budget also uses one-time funding to increase the Budget Stabilization Reserve to the Council policy level of 25% of expenditures. In addition to the General Fund, balanced budgets are presented for the City's many other operating and capital funds. This includes the City's utility funds that represent the majority of the City's budget and are primarily supported by user fees.

While the financial picture is better, it is important to note that there is increasing economic uncertainty in the rapidly changing environment. In addition, there is not sufficient funding to restore all the frozen positions, add funding to support new service areas and growth in the City, and to fully fund all the capital infrastructure maintenance and needs. The City will continue to pursue strategies to address these needs and recommends funding for a Fiscal Sustainability Plan to develop a framework for moving forward.

City departments worked together as a team to prepare this fiscally responsible, balanced budget. The hard work and dedication of City's Department Heads and employees are greatly appreciated. I would also like to thank the City Council for our continued strong partnership in supporting vital City services while also ensuring the fiscal health of the City.

Respectfully submitted,

  
Jövan D. Grogan  
City Manager  
Kenn Lee  
Director of Finance

## **SANTA CLARA AT A GLANCE**

The City of Santa Clara (City) has always reflected the progressive, bellwether nature of California. It is one of the oldest cities in the state, an agricultural powerhouse in the 1800s, and the birthplace of many of the technology innovations that created Silicon Valley in the 1900s. Today, it maintains its leading-edge status as a community that is nationally recognized for its livability and a city that has a sustainable, bright future powered by the private investment of billions of dollars in new development and growth opportunities.

### **History**

Santa Clara was incorporated in 1852 as a Charter City with a Council/Manager form of government although it existed as a community for hundreds of years prior to that as a village for the Ohlone and their ancestors. European explorers came to the area in the mid-1700s and settled it as a military and religious outpost. It is called the “Mission City” in reference to the Mission Santa Clara de Asis, which opened in 1777 as one of 21 Spanish missions established by Franciscan padres along El Camino Real in California.

### **Size**

Santa Clara encompasses 18.28 square miles in the heart of Northern California’s Santa Clara County, also known as Silicon Valley, in recognition of the region’s leadership in technology innovations that changed the way the world lives, works, learns, and plays. It is part of the burgeoning South Bay metropolitan area that includes the City of San José, the 13th largest city in the U.S., and the wider nine-county San Francisco Bay Area.

### **Population<sup>1</sup>**

The 2024 population of the City of Santa Clara is estimated at 132,048 and is one of the most diverse in the nation with about 45% of residents born outside the U.S. The City’s residents are highly skilled and educated, with approximately 65% of adults holding a bachelor’s degree or higher. The median age is 34 years and the median household income is reported at \$173,670.

## Business<sup>1</sup>

Businesses in City of Santa Clara range from entrepreneurial start-ups to longstanding family-owned firms and to the international headquarters of Fortune 500 corporations. Millions of square feet of new office and retail projects are under development or in planning stages, greatly expanding the City's capacity to accommodate businesses that want to start, relocate or expand in a high energy, dynamic environment. Some of the largest employers within the City include Advanced Micro Devices Inc., Applied Materials Inc., California's Great America, Intel Corporation, Kaiser Foundation Health Plan, and Nvidia Corp.

## City Services

Santa Clara is a full-service city with its own police and fire departments and electric, water and sewer utilities. Other core services include libraries, parks, award winning services and recreational programs for seniors and youth, neighborhood beautification, free citywide outdoor Wi-Fi, special events and support of history and art museums. The City also provides development and planning services, housing programs, and maintenance of the City's transportation infrastructure.

## Housing<sup>1</sup>

There are approximately 48,601 households in the City and housing stock continues to expand through new transit-oriented developments that offer lifestyle alternatives to the City's traditional single-family neighborhoods and carefully preserved historic homes. The City is in a metropolitan area that is one of the highest priced housing markets in America. As of March 2025, the median price of a single-family home was \$2,065,000, and the average rent for a one-bedroom apartment was \$3,125. Santa Clara has invested millions of dollars in affordable housing projects and oversees long term affordability compliance for 6,399 rental units for seniors, families, homeless and disabled residents.

## Transportation

In addition to approximately 590 lane miles of City-owned roadways, Santa Clara is crisscrossed by State Highway 101 and El Camino Real (Highway 82) and two regional County of Santa Clara expressways. Public transit services in the City include Santa Clara Valley Transportation Authority buses and light rail, Caltrain, Altamont Corridor Express (ACE), Capitol Corridor, and Amtrak. A future extension of BART into the South Bay is underway and will terminate in Santa Clara, and the Norman Y. Mineta San José International Airport borders the City. In late 2023, Santa Clara partnered with the City of Cupertino and launched a multi-year public on-demand electric vehicle rideshare service, also known as Silicon Valley Hopper. Phase I of the service covers southern Santa Clara, and in the fall of 2026, Phase II will expand the service area to include all areas north of the railroad tracks, providing service to the entire city. Santa Clara has also placed a priority on enhancing multi-modal transportations for residents and businesses by providing additional bicycle facilities throughout the City.

based on the Bicycle Master Plan, adopting a Pedestrian Masterplan, creating a Shared Mobility Permit Program (bicycle and scooter share), and is in the process of completing a Creek Trail Network Expansion Masterplan for future expansion of trail facilities to complement the existing San Tomas Aquino Creek Trail.

### Education<sup>1</sup>

Public schools serving residents of Santa Clara are under the authority of independent school districts. The City works closely with the school districts to provide quality educational opportunities for grades K-12 and students attending Mission College for a two-year degree or professional development. Santa Clara University, the oldest institution of higher learning in California, is in the historic Downtown Quad area of the City and enrolls 6,115 undergraduate students and 3,063 graduate students.

### Infrastructure<sup>1</sup>

Each year, the City makes significant investments in maintaining, expanding, and improving civic infrastructure for the benefit of residents and businesses. The City has the lowest combined water, sewer, and electric rates in the nine Bay Area counties. The City-owned electric utility, Silicon Valley Power (SVP), is recognized as a Smart Energy Provider from the American Public Power Association for demonstrating a commitment to and proficiency in energy efficiency, distributed generation and environmental initiatives that support the goal of providing safe, reliable, low-cost and sustainable electric service. Over the past few years, the City's water storage and delivery system has been upgraded and it is one of the most successful purveyors of recycled water with 33 miles of recycled

water pipelines within Santa Clara's city limits and about one billion gallons each year. The City is a partner in the San José-Santa Clara Regional Wastewater Facility and is investing approximately \$109 million over the next 10 years to update the aging facility and expand capacity. The Water & Sewer Utilities is a past recipient of the California Municipal Utilities Association (CMUA) Resource Efficiency Award for its recycled water program – retrofits for developments. The Water & Sewer Utilities also received the Clean Water Environment Association's Collection System of the Year 2024 award for medium-sized utility in the wastewater field.

## Economic Development

The City of Santa Clara welcomes business, and that strategic attitude is paying off with billions of dollars in private investment currently under construction or in the pipeline. As projects come online, the City's economic base is broadened and diversified, ensuring greater fiscal stability in the future as well as increased revenues to the City's budget.

Development projects approved over the past fiscal year include several housing, mixed-use, and commercial/ industrial projects:

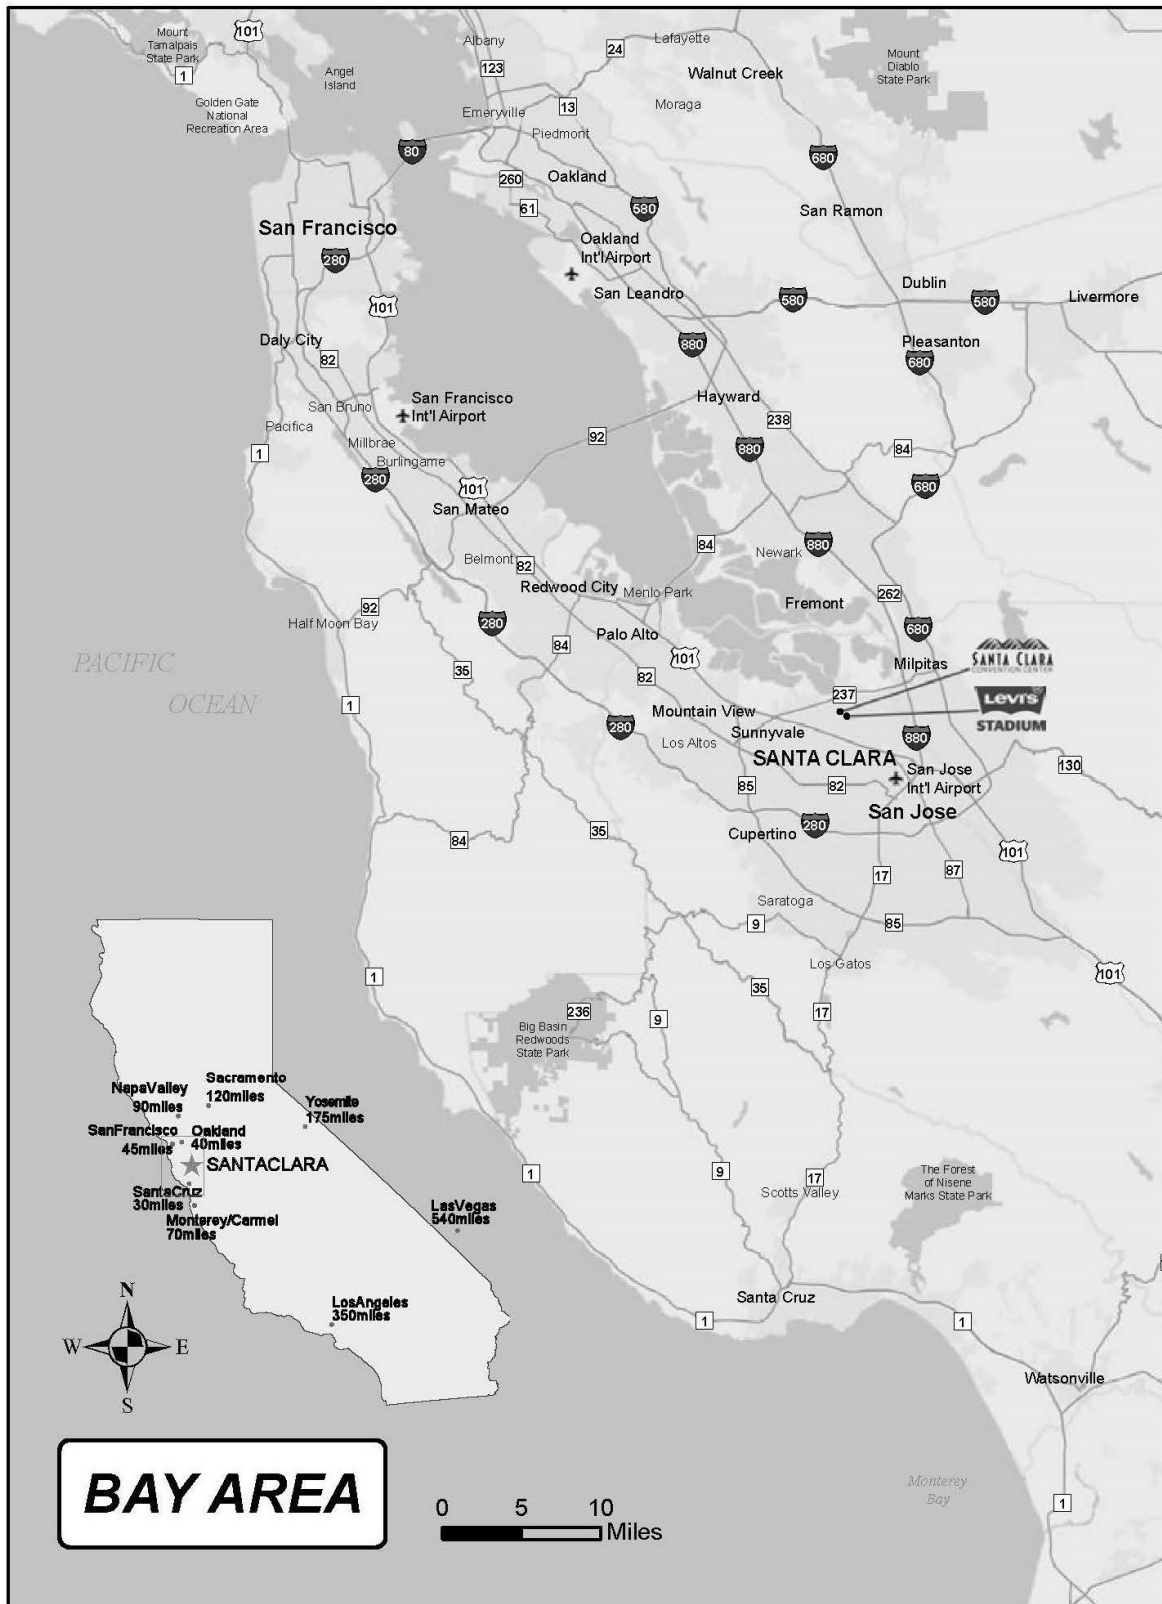

- 1125 Coleman Avenue received an Architectural Review permit to allow an eight-story hotel with 225 rooms;
- 5200 Patrick Henry Drive received an Architectural Review permit to allow a new four-story office building;
- 4590 Patrick Henry Drive received an Architectural Review permit to an eight-story, 284-unit multi-family residential building;
- 1231 Comstock Street received an Architectural Review permit to allow a four-story 111,978 square foot data center;
- 3575 Stevens Creek Boulevard received Architectural Review permit approval a new Starbucks café with a drive-through;
- 840, 868, & 870 Parker Street received an Architectural Review permit to allow a new one & a half story 20,284 square foot industrial building;
- 2518 Mission College Boulevard received approval on a General Plan Amendment, Rezone, and Vesting Tentative Subdivision map to allow development of 1,792 residential units in the Freedom Circle Focus Area; and
- 3005 Democracy Way received approval for a Planned Development Rezone, Vesting Tentative Subdivision Map, and Development Agreement for the Mission Point by Kylli Mixed-Use Project Located to allow the development of up to 1,800-2,600 multi-family residential units; 2.2-3 million Square Feet of Office/Research-and-Development (R&D); up to 100,000 square feet of commercial retail; and open space.

In addition to projects receiving planning approval, 2,946 residential units were constructed this fiscal year in 12 multifamily residential buildings.

More information on new development projects can be found on the City's website <https://www.santaclaraca.gov/business-development> under the "Development Projects" link.

# SANTA CLARA COMPARISON TO OTHER LOCAL CITIES IN THE LOCAL REGION

The following graphs compare FY 2024/25 per capita revenues from key sources and total budgeted expenditures for FY 2024/25 in the City of Santa Clara to other cities in the local region. Sales tax, property tax, and transient occupancy tax categories are included as they are the largest economically sensitive General Fund revenue sources for the City.

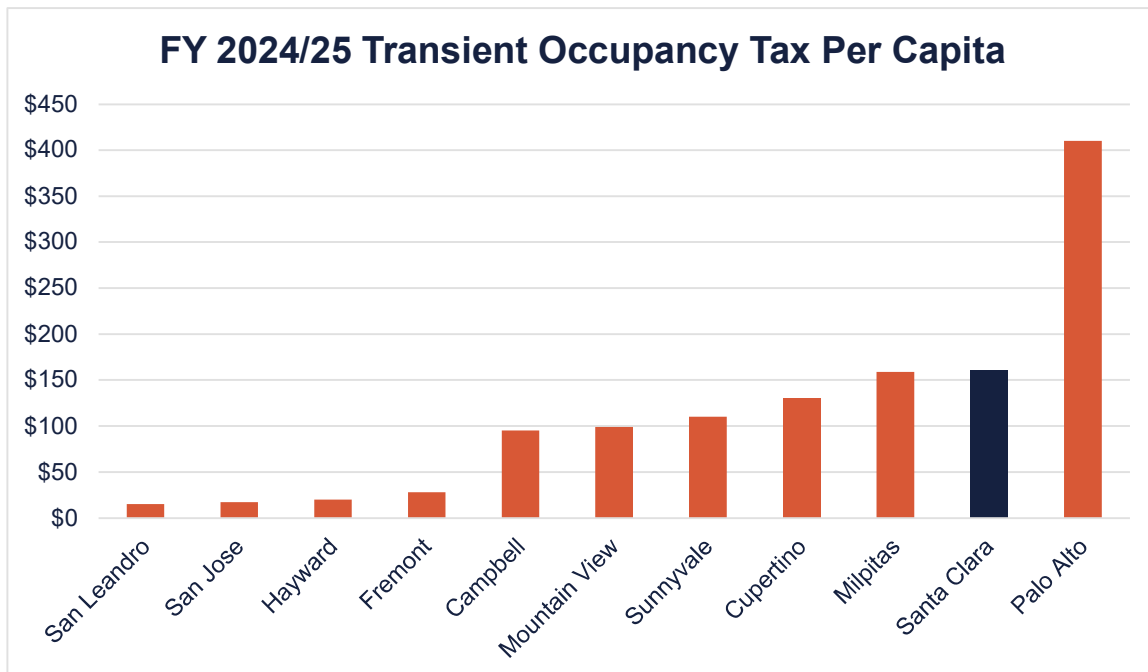

Expenditure data for selected city budgets in relation to their respective population is included for all funds and the General Fund for FY 2024/25. The assets per capita for FY 2023/24 are also shown. It is important to note Santa Clara and Palo Alto include City-owned utilities that result in relatively higher budgets and assets per capita.

# City Organization by Department/Division/Program

## Mayor and City Council Offices

### *Mayor and City Council*

1611 – City Council Program

## City Attorney's Office

### *City Attorney*

2411 – Program Administration

2412 – Program Litigation

## City Clerk's Office

### *Elected City Clerk*

2314 – Elections

### *Assistant City Clerk*

2311 – Council/Administration Support

2312 – Public Information/Legislation

Records Management

2313 – Political Reform Act

## City Auditor's Office

### *City Auditor*

3352 – City Auditor Administration

3353 – City Auditor Services

## City Manager's Office

### *City Council Support*

1021 – Policy Support for Decision Making

1022 – Intergovernmental Relations and  
Advocacy

### *Leadership and Management Services*

1031 – Day-to-Day Operations

1032 – Strategic Planning

1033 – Community Outreach and  
Engagement

## Community Development Department

### *Building*

5532 – Plan Review and Permit Services

5533 – Field Inspection

5534 – Housing Inspection

### *Housing and Community Services*

5542 – Federal State Grant

5543 – Neighborhood Conservation and  
Improvement Program

5544 – Community Development

5545 – Affordable Housing

5546 – Housing Authority

5547 – City Affordable Housing

5548 – Community Development Housing  
Successor

### *Planning*

5522 – Development Review

5523 – Advanced Planning

5524 – Historical Preservation

5525 – Code Enforcement

### **Electric Utility Department \***

#### *Administrative and Business Services*

- 1311 – Financial Services
- 1316 – Administrative Services

#### *Engineering and Project Management*

- 1361 – Engineering

#### *Resource Planning and Engagement*

- 1312 – Public Benefits
- 1313 – Key Accounts
- 1315 – LCRE Program
- 1317 – Fiber Program
- 1319 – Electric Vehicle Program
- 1325 – Greenhouse Gas Program
- 1356 – Resource Management
- 1358 – Risk Management and Settlements

#### *Revenue and Resources*

- 1321 – Revenues and Resources Costs
- 1326 – Resource and Production

#### *Utility Operations*

- 1324 – Utility Compliance
- 1351 – Systems Support
- 1362 – Power System Controls
- 1371 – Metering
- 1372 – Substation Maintenance
- 1376 – Transmission & Distribution
- 1377 – Generation

\* This reflects various program and division changes effective FY 2025/26. For more information, refer to the Electric Utility Department Section – Budget Summaries.

### **Finance Department**

#### *Accounting*

- 3322 – General Accounting

#### *Administrative Services*

- 3362 – Citywide Fiscal Planning

#### *Budget*

- 3315 – Budget and Financial Analysis

#### *Municipal Services*

- 3332 – Utility Billing Services
- 3333 – Revenue Receipting/Cashiering
- 3334 – Business Certificate
- 3335 – Field Services
- 3336 – Administration
- 3337 – Contact Center/Communication

#### *Purchasing*

- 3341 – Warehouse
- 3343 – Purchasing
- 3344 – Mail Services

### **Fire Department**

#### *Administration*

- 7811 – Administration
- 7812 – Special Operations

#### *Community Risk Reduction*

- 7831 – Administration / Investigation / Education

- 7835 – Non-Development Services
- 7836 – Development CUPA
- 7837 – Non-Development CUPA

#### *Emergency Medical Services*

- 7861 – Emergency Medical Services

#### *Field Operations*

- 7822 – Emergency Response

#### *Training*

- 7841 – Training – Fire

### **Human Resources Department**

#### *Employee Benefits and Records*

- 2514 – Records – Compensation
- 2515 – HR Workers' Compensation & Safety

#### *Recruitment, Classification and Staff Development*

- 2521 – Selection – Classification
- 2525 – Recruitment, Staff Development and Labor Relations

### **Information Technology Department**

#### *Contract Services*

- 1931 – Contract Services

#### *Enterprise Services*

- 1911 – Application Services
- 1912 – IT Web Services
- 1913 – GIS Services

#### *Infrastructure and Support*

- 1921 – Infrastructure and Support

#### *Telecommunication Services*

- 1941 – IT Telecommunication Services

### **Library Department**

#### *Administration*

- 1221 – Administration
- 1263 – Literacy Grants

#### *Adult Services*

- 1234 – Read Santa Clara
- 1241 – Reference and Adult Collections
- 1244 – Local History

#### *Branch Services*

- 1233 – Mission Library
- 1235 – Northside Branch
- 1236 – Bookmobile and Mobile Library Services

#### *Customer Services*

- 1245 – Customer Services

#### *Facilities*

- 1271 – Facilities

#### *Technical and Technology Services*

- 1251 – Technical Services
- 1272 – Technology

#### *Youth Services*

- 1231 – Youth Services
- 1232 – Library – Young Adult

### **Parks and Recreation Department**

#### *Administration*

- 1121 – Administration
- 1122 – Park Development
- 1123 – Park Projects
- 1171 – Citywide Special Events

#### *Cemetery*

- 0125 – Perpetual Care
- 0131 – Endowment Care
- 1162 – Maintenance of Grounds
- 1163 – Maintenance of Buildings
- 1164 – Operations

#### *Parks*

- 1132 – Parks
- 1133 – Pools
- 1134 – Buildings
- 1135 – Operations

#### *Recreation*

- 1141 – Health and Wellness
- 1142 – Recreation – Administration
- 1143 – Youth Activity Center and Programs
- 1144 – Senior Center & Therapeutic Recreation Programs
- 1145 – Community Recreation Center and Programs
- 1146 – Youth Sports
- 1147 – Aquatics
- 1148 – Sports and Athletics
- 1149 – Youth and Teen Center

#### *Senior Nutrition Program*

- 1112 – Senior Nutrition Program

### **Police Department**

#### *Administrative Services*

- 7742 – Administration
- 7744 – Professional Standard
- 7745 – Department Support
- 7746 – Community Services Police
- 7747 – 911 Dispatch/Communications
- 7752 – Police Grants

#### *Communication Acquisitions*

- 7781 – Communication Equipment  
Amortization

#### *Field Operations*

- 7722 – General Patrol
- 7723 – Traffic
- 7724 – Emergency Response/Temporary  
Holding Facility
- 7765 – Reserves

#### *Investigations*

- 7732 – General Investigation
- 7733 – Special Enforcement Team
- 7734 – Records

#### *Special Operations*

- 7761 – Special Operations General
- 7764 – Special Operations – Specialized  
Teams

### **Department of Public Works**

#### *Engineering – Administration*

- 4411 – Administration – General Services
- 4412 – Administration – Developer Projects
- 4413 – Administration – Capital  
Improvement Projects

#### *Engineering – Design*

- 4441 – Design – General Services
- 4442 – Design – Developer Projects
- 4443 – Design – Capital Improvement  
Projects

- 4462 – Field Services – Developer Projects
- 4463 – Field Services – Capital  
Improvement Projects

### **Department of Public Works**

#### *Engineering – Land and Property Development*

- 4451 – Land and Property Development –  
General Services
- 4452 – Development Support

#### *Engineering – Traffic*

- 4431 – Traffic – General Services
- 4432 – Traffic – Developer Projects
- 4433 – Traffic – Capital Improvement  
Projects
- 4434 – Traffic Signal Management
- 4435 – Traffic Striping and Signing

#### *Facility Services*

- 2222 – Maintenance Repair
- 2223 – Janitorial
- 2961 – Convention Center Maintenance  
District

#### *Fleet Management*

- 2111 – Fleet Acquisitions
- 2123 – Fleet Operations

#### *Streets*

- 2911 – Street Maintenance
- 2921 – Storm System Maintenance
- 2924 – Non-Point Source
- 2931 – Garbage Collection
- 2932 – Clean Green Collection
- 2933 – Clean Up Campaign
- 2934 – Residential Recycling
- 2935 – Street Sweeping
- 2936 – Household Hazardous Waste
- 2941 – Parking District Maintenance
- 2951 – Landscape Maintenance
- 2952 – Street Tree Program
- 2971 – Traffic Maintenance

### **Water and Sewer Utilities Department**

#### *Recycled Water Program*

- 1522 – System Maintenance
- 1525 – South Bay Water Recycling  
Maintenance

#### *Sewer*

- 1511 – System Administration
- 1512 – System Maintenance
- 1514 – Operations
- 1515 – San José-Santa Clara Water  
Pollution Control Plant
- 1516 – Storm Pump Maintenance

#### *Solar Utility*

- 1532 – Solar – System Maintenance

#### *Water Construction, Maintenance, Operations*

- 1422 – Water System Maintenance
- 1423 – Water Construction
- 1424 – Water System Operations

#### *Water Engineering, Compliance, Conservation*

- 1411 – Administrative Design
- 1412 – Water Quality
- 1413 – Water Resources

### **Non-Departmental**

#### *Citywide Programs*

- 3611 – Citywide Programs
- 8011 – Sports and Open Space Authority
- 8014 – Santa Clara Convention Center

#### *Citywide Strategic Programs & Initiatives*

- 3631 – Citywide Strategic Programs &  
Initiatives
- 3632 – Office of Emergency Management

#### *Stadium Operations*

- 3621 – Stadium – General Administration
- 3622 – Stadium – Police
- 3623 – Stadium – Fire
- 3624 – Stadium – Public Works
- 3625 – Stadium – Information Technology

## **BUDGET AND FISCAL POLICIES**

We present the relevant policies and practices that specifically define the way the City manages its budget, reserves, interfund loans, investments, and debt with the goal of long-term fiscal sustainability. The City Council reviews and approves budgetary policies as part of the annual budget process. Investment and debt policy statements are referenced in this section; however, reviewed and approved by the City Council under separate cover.

### **Appropriation Control**

The City Council is responsible for approving the appropriation of fiscal resources to cover estimated expenditures for each fiscal year. Expenditures are appropriated in each fund to departments, offices, and agencies for various goods, services, and capital projects described in the budget. The legal appropriation control is established at the department level in each fund. For select funds where expenditures are not allocated to a specific department, the appropriation control is established at the fund level. For capital funds, the appropriation control is at the project level. Transfers of funding between budgetary funds require City Council appropriation and approval. City Council approval is required for a budget amendment during the fiscal year which may include the use of reserves or fund balances, and approval of appropriations of grant monies. Per Article XIII, Section 1305 of the City Charter, appropriations lapse at the end of each fiscal year; therefore, unencumbered funds allocated for specific projects, donations, and grants require City Council appropriation for use in the following fiscal year.

Budgetary transfers between accounts or expenditure category may be done through Finance Department or City Manager's Office approval as long as they are conducted within the legal appropriation control limit set by the City Council.

### **Balanced Budget**

The City Council considers General Fund budget decisions with long-term implications based on information from the Ten-Year Financial Forecast. One-time sources are used to cover one-time uses. The budget is structurally balanced when forecasted ongoing sources cover ongoing uses. Budgets shall be structurally balanced to the extent possible. Reserves should be considered to balance a budget only in the context of a plan to return to a structural balanced budget.

### **Budget Monitoring and Reporting**

Financial reports on actual performance in relation to budget are prepared by the Finance Department through monthly financial statements. These reports are prepared and presented to the City Council per City Charter Section 802(e) that requires the City Manager to keep the City Council advised of the financial condition and future needs of the City. City Departments are responsible for reviewing these monthly financial reports and identifying potential budget problems and recommending corrections through budget amendments.

### **Long Term Financial Forecast**

The Finance Department prepares a Ten-Year General Fund Financial Forecast which is incorporated into the budget planning process and presented to the City Council annually. This forecast is updated annually and considers current and future economic conditions, revenue projections, and spending scenarios based on the

latest available assumptions. Capital improvement plans are created and published on a five-year basis to provide a long-term plan of the City's capital funding plan.

### Municipal Fees and Charges

User fees are reviewed and adjusted on an annual basis with the goal of maximizing cost recovery. The City Council may consider and approve any fee that is below 100% cost recovery, requiring a General Fund subsidy if it is in the public's best interest. User fees are adopted by the City Council annually through the Municipal Fee Schedule. Utility fees and certain other fees and assessments can also be approved separately from the Municipal Fee Schedule. Parks and Recreation fees are established by the Parks and Recreation Director and published in the Activity Guide.

### Capital Planning

The City Council reviews and adopts a two-year Capital Improvement Program Budget which includes a five-year Capital Improvement Program (CIP). Projects included in the CIP are to be consistent with the City's General Plan. Per State Government Code Section 65401, the Planning Commission reviews the CIP for conformance to the City's General Plan and proposes recommended considerations for the City Council. Funding sources are identified for all projects included in the CIP.

The CIP is submitted by City departments and reviewed by the City Manager's Office, the Finance Department, and the Public Works Department. The review process considers City priorities and identifies the most urgent projects for capital funding by program area, master plans, or needs assessments which identify the most critical projects for repair and replacement.

Department of Public Works staff reviews project estimates and evaluates the current bidding environment. Project contingency reserves are established based on the type of project and the project estimate type (engineering or preliminary estimates). Operating and maintenance costs are identified for planning purposes when projects are completed and come online.

### General Fund Reserves

The City Council allocates available resources to General Fund contingency reserves through various reserves designated for emergency use or restricted future uses. Restrictions are established by policy, or through legally segregated development-related fee reserves collected from users.

- Budget Stabilization Reserve – is used as an allocation for weathering economic downturns, emergency financial crises, or disaster situations. The reserve target is equal to the cost of the City's General Fund operations for three months (90-day working capital reserve).
- Capital Projects Reserve – is used to support the City's CIP. The minimum target is \$5.0 million with a goal of having sufficient funds to fund capital projects included in the City's biennial capital budget and five-year CIP.
- Land Sale Reserve – this reserve allocates proceeds from the sale of City-owned land.
- Advanced Planning Fee Reserve – this reserve allocates a portion of user fees for the update and amendment of the City's General Plan. Individual user fees are included and approved under separate cover as part of the Municipal Fee Schedule.

## Utility Funds Reserves

The City is responsible for operating and maintaining several utilities, including electric, potable water, recycled water, and sewer. Regular cost of service studies are performed to evaluate rates and charges for each utility with forecasted revenue requirements and projected expenditures. One component of this analysis is the determination of adequate reserve levels to cover shortfalls in operating revenues, address unforeseen operating and capital expenditures, cover day-to-day operating costs during emergency situations, maintain strong bond ratings, and ease the burden on ratepayers associated with large rate increases. The following reserves address these needs:

- Operations and Maintenance Reserve – this reserve is used to cover day-to-day expenses, address unforeseen cost increases or revenue shortfalls, and protect against emergency financial crises or disaster situations. The reserve target is equal to the cost of the individual utility's operations for three months (90-day working capital reserve). Due to large fluctuations and variability in the energy market, the Electric Utility Operations and Maintenance Reserve has a target ranging from 90 to 180 days of operations. For the Electric Utility, the Operations and Maintenance Reserve, together with the Rate Stabilization Reserve (as described below), comprise the Electric Utility Rate Stabilization Fund established and maintained by the Electric Utility for purposes of its bond indenture.
- Infrastructure Reserve – this reserve is used to support each utility's CIP or fund unforeseen and unbudgeted capital costs. The reserve target is equal to an average annual CIP budget, as calculated over a 48-month period of budgeted CIP expenses as presented in the Biennial Capital Improvement Program Budget. At minimum, the target is to reserve 20% of the average annual CIP budget amount. For the Electric Utility, this reserve is based on an analysis of critical infrastructure, the likelihood for replacement, and the estimated replacement costs, evaluated regularly by SVP.
- Rate Stabilization Reserve – this reserve is used to absorb short-term revenue shortfalls and is designed to stabilize utility rates and avoid wide swings in rates charged to utility customers over time. The minimum reserve target is a balance equal to 10% of each utility's projected current year rate payer revenue. For the Electric Utility, the Rate Stabilization Reserve, together with the Operations and Maintenance Reserve (as described above), comprise the Electric Utility Rate Stabilization Fund established and maintained by the Electric Utility for purposes of its bond indenture.
- Special Projects Reserve – this reserve sets aside funds for large or longer-term CIP projects or other special purposes to lessen fluctuations in rates and support long-term planning efforts. While no general target is established for this reserve, the amounts will be established by each utility based on need.

In addition to the reserves cited above, reserves may be established to address specific needs or requirements of an individual utility. This may include required reserves in restricted funds, such as the reserves in the Electric Operating Grant Trust Fund for public benefits, low carbon fuel, and greenhouse gas.

## Other Reserves

The City may include additional reserves set aside for specific purposes based on legal, policy, or budgetary purposes. Some of these include reserves for historical preservation, pension costs, vehicle or fleet replacement, workers' compensation costs, or to fund potential future general liability claims against the City.

- Pension Stabilization Reserve – this reserve sets aside funds to address the City's pension unfunded accrued liability. The targeted annual funding contribution is 1% of the City's unfunded pension liability.

## Interfund Loans and Advances

Interfund loans are loans from one City fund to another City fund for a specific purpose, with a requirement for repayment. Interfund loans should be short-term in nature and shall not be used to solve ongoing structural budget deficits. The department managing the borrowing fund should complete the interfund loan agreement. The agreement should include the amount requested, loan period, description of the loan, and repayment terms. Interest shall accrue at the City's pooled investment rate at the time of the loan approval. A summary of any outstanding loans is included in the City's Annual Comprehensive Financial Report and Biennial Budget. In addition, advances from the General Fund that have been approved by the City Council may be paid back by other revenue sources.

## Investment Policy

The City undertakes investment related activities that are made with prudence. On an annual basis, the City formalizes these activities in the Investment Policy Statement which is adopted by a resolution of the City Council (<https://www.santaclaraca.gov/home/showpublisheddocument/86007/638737535996622213>). The policy is to invest public funds, including bond proceeds, reserves and other special City funds, in a manner which will provide maximum security while meeting the daily cash flow demands of the City and providing the highest investment return and conforming to all state and local statutes governing the investment of public funds.

The City of Santa Clara Charter gives the Director of Finance the authority and responsibility to deposit and invest all City funds. It authorizes the Director of Finance to invest the City's idle cash in allowable investment vehicles with a maximum remaining maturity of five years by settlement date. The City Council may grant express authority either specifically or as part of an approved investment program to invest in vehicles with remaining maturity that exceeds the five-year restriction. Authority must be given to the Director of Finance at least three months prior to the investment. California Government Code also allows the City to invest in the same investment vehicles as authorized by the City Council. The Director of Finance establishes written depository and investment policy procedures for the operation of the investment program consistent with the City Investment Policy, establishes a process of independent review by an external auditor, and provides monthly investment reports to the City Council.

## Debt Policy

The City believes that debt is an equitable means of financing projects and represents an important source of meeting fiscal responsibilities. The City obtains and maintains long-term debt for large capital improvement projects. The Finance Department manages the City's debt with prudence, diligence, and attention to prevailing economic conditions and applicable laws. It manages issuance of debt, administers debt proceeds, prepares ongoing disclosure, handles debt and tax compliance, and makes debt service payments. City departments with debt-financed capital programs coordinate with the Finance Department in implementing and handling debt related transactions. Semiannual updates are prepared by the Finance Department on outstanding debt for the City of Santa Clara, its Agencies, and Corporations. This report is presented as a standard management practice that provides a valuable overview of the current status of the City's long-term debt obligations. The current City Council approved debt policy can be found online at:

(<https://www.santaclaraca.gov/home/showpublisheddocument/63748/636916928072330000>).

## Donation Policy

Donations may be offered in the form of cash, real or personal property. "Designated" donations are donations where the donor specifies intended use by a particular City department, location, or purpose. "Undesignated" donations are given to the City as a whole, for an unspecified use. Donations of any kind which might be perceived or interpreted as an attempt to influence actions of the City Council or City Administration will not be accepted. All donations are presented to the City Manager for compliance with the policy. As part of the annual budget process, for anticipated monetary donations, staff will bring forward for Council consideration a balanced appropriation for revenue and expenditures to facilitate the acceptance of donations throughout the fiscal year. Donations valued at \$100,000 or greater require City Council acceptance and appropriation of funds. Donations valued less than \$100,000 may be accepted with the monetary donations available to departments for expenditure as part of the adoption of the annual budget. A report of all donations received by the City is presented to City Council as part of the Monthly Financial Report. The appropriation of anticipated donations can be found in each respective City department and corresponding Source and Use of Funds Statement in this document.

## Community Grants Policy

The budget includes an allocation for Community Grants to offset the cost of City fees in support of the Council approved Community Grants Policy. Annually, and subject to availability of funds, the City Council shall establish grant appropriations as part of the approval of the budget. Community grants, subject to availability of funds, shall not exceed \$10,000 per applicant, per year. To receive grant funds, grant applications must be submitted at least 90 days before the planned event/activity being funded, regardless of the form of the grant, and will be evaluated by the City Manager's Office on a case-by-case and "first come-first served" basis, throughout the fiscal year. Applicants are encouraged to submit their applications at the beginning of the fiscal year, for events or activities occurring at any time during that fiscal year, to maximize opportunity for availability of funds. The City Manager's Office shall approve or deny an applicant's request based upon eligibility criteria, and subject to funding availability as approved by the City Council through the adoption of the annual budget. Grants for community events shall not be provided for waiver of or reimbursement for already discounted permit fees. Grants for attendance at youth state, national, or international competitions or performances shall be limited to costs of registration, hotel, transportation, and food for participants and coaches/chaperones only. Due to short notice, to advance to state, national, or international competitions, applicants shall submit an application within one week of advancing to such competitions. In all cases, the City reserves the right to reject any and all applications in the event the City Manager's Office identifies a potential conflict of interest or the appearance of

a conflict of interest. Submission of an application in no way obligates the City to award a grant and the City reserves the right to reject any or all applications, wholly or in part, at any time, without penalty.

### Stadium Authority Policy

The Stadium Authority exists as a public body, separate and distinct from the City, and is established to provide for development and operation of Levi's Stadium. It is structured so that the City will not be liable for debts or obligations of the Authority. The governing board duties and the fiscal policies that govern the Stadium Authority are included in the stand-alone Operating, Debt, and Capital Budget that is adopted by the Stadium Authority Board. This can be found at <https://www.santaclaraca.gov/our-city/santa-clara-stadium-authority/financial-reports>. This budget reflects the revenues and expenditures related to the support of the Stadium and can also be found in the General Fund Non-Departmental section of this document titled Stadium Operations.

### Policy Development

Staff has established this Budget and Fiscal Policies section in an effort to improve governance, transparency, and establish policies to govern the budget. These policies will be reviewed annually and enhanced as capacity allows.

## BUDGET GUIDE

The following information is presented to help the reader understand the way the City allocates budgets and accounts for the operations of the City. Explanations are presented in two categories: Budget Book Details and Fund Accounting.

### UNDERSTANDING THE OPERATING BUDGET

#### Budget Definition

The budget of the City is a detailed operating plan that identifies estimated costs and program benefits in relation to estimated revenues. The budget is prepared in accordance with Generally Accepted Accounting Principles (GAAP), except encumbrances which are recognized as expenditures when legal contracts or commitments are entered into. The budget for governmental funds has been prepared on a modified accrual basis, recognizing revenue when they are measurable and available to be used to finance expenditures in the fiscal year. Expenditures are recognized when they occur, regardless of when cash is received or disbursed. The budgets for proprietary funds are prepared on a full accrual basis, recognizing revenue and expenditure activity for the fiscal year for which the activity occurred. The budgetary accounting basis and the consolidated annual financial reports include the reconciliation between GAAP modified and/or full accrual accounting for the financial reports and the budgetary basis budget. All of the year-end financial reports are kept on the basis of modified or full accrual accounting. The budget includes the approved services to be provided during the fiscal year and the associated appropriations to cover the costs of the programs, projects, services, and activities. These are funded by the estimated revenue and/or fund balance available to finance the approved service levels.

#### Budget Process

The budget process is the mechanism through which policy decisions are made, implemented, and controlled. The City Charter requires that the City establish a budgetary system for general operations and prohibits expending funds for which there is no legal appropriation. The City is required to adopt an annual operating budget on or before June 30 for the ensuing fiscal year that begins July 1.

The procedures to establish the budget are as follows:

1. Departments review their annual budget to determine what their base budget needs to be for the following year, in order to keep the City Council-approved level of service currently provided. Once these adjustments are identified, base budget requests are submitted to the Finance Department for review.
2. After receiving all base budget requests and corresponding back-up documentation to support the requests, the Finance Department meets with the City Manager's Office to review all department requests. Once these meetings take place, the base budget is established for each department.
3. The City Manager's Office, along with the Finance Department, coordinate a citywide presentation to kick off the budget process to provide a brief overview to departments of what is expected in their submissions as well as a timeline of due dates for service level change requests.

## Budget Process

4. Departments submit to the Finance Department all service level change requests for the operating budget, as well as any critical needs for adjustments in their capital budget. The Finance Department reviews all submissions, working with departments to resolve any questions or outstanding issues.
5. Budget meetings are held between the City Manager's Office, the Finance Department, and departments to review all service level change requests. After these meetings have taken place, decisions are finalized based on the items presented, balancing each fund's budget and incorporating City Council priorities.
6. In the spring, there is typically a City Council strategic priority setting retreat. Any recommendations that come forward during this retreat are incorporated into service level change requests. During this timeframe, the City Council is also briefed on the Ten-Year General Fund Financial Forecast.
7. The City Manager submits to the City Council a proposed operating budget for the two following fiscal years, as well as any capital adjustments for the following fiscal year, commencing July 1. Submission to City Council is at least thirty-five (35) days prior to the beginning of each fiscal year.
8. Public hearings are conducted to obtain comments from City Councilmembers and residents. Copies of the proposed budget shall be available for inspection by the public in the office of the City Clerk at least ten days prior to these hearings.
9. The budget is legally enacted through passage of a minute order.

From the effective date of the budget, the amounts stated therein as expenditures/expenses, become appropriations to the applicable funds. In order to amend the budget during the year, departments must submit a Report to Council, explaining the need for the change and budget implications. Upon review and approval of the City Council, the budget may be amended. For the Operating Budget, the legal level of budgetary control is at the fund and department level. For funds that do not have an associated department, the legal level of budgetary control is at the fund level.

In addition to the biennial appropriated operating budget, every other year a biennial capital budget is adopted and a five-year capital needs plan is updated and accepted by the City Council for the City's anticipated capital projects to be funded over the next five years. For the capital budget, the legal level of budgetary control is at the project level.

## Budget Book Details

The Operating Budget includes a ***City Manager’s Transmittal Letter*** that provides an overview of the organization, the short- and long-term issues facing the City, City Council priorities and the changes to the budget as they align to strategic initiatives.

The ***City Profile and Organization Chart*** section provides basic facts about the City, a detailed roster of elected officials including Boards and Commissions, the City’s executive team, comparison of key revenue and expenditure data to other local cities and the City organization chart.

The ***Budget and Fiscal Policies*** section provides detailed policy framework driving the development of the budget, including a glossary and acronym index.

The ***Budget Summary*** details the total City budget across all funds, with adjusting entries reconciling to a total net City budget.

The ***Summary of Budgeted Positions by Department*** details the City’s budgeted positions and reconciles changes throughout the year.

The ***Statement of Sources and Uses of Funds*** section details revenues, expenditures and fund balance position including prior year actual activity, current year budget and estimated revenue and expenditures, and two budget years. This section is organized by accounting fund type detailed later in this section.

The ***Debt Service*** section details the City’s debt policies, long-term debt obligations, legal debt margin, the ten-year debt service schedule for all outstanding debt issuances, and the statements of sources and uses of funds for the debt service funds.

The ***Ten-Year Financial Forecast*** section includes overviews of the General Fund and selected other funds forecasts. These overviews include revenue and expenditure assumptions.

***Department*** sections detail each department mission and objectives broken into divisions and programs. A summary of accomplishments from the past year, objectives for the next two years and budget highlights are included. A table summarizing Dollars by Division and Program, Dollars by Fund, and Dollars by Category provide multiple views of the budgeted dollars. Position budgets are developed initially in the fall of the preceding year with an interface of salary and benefits data with the Human Resources/Payroll system. These positions are reviewed and amended based on Council-approved service levels with allocations reflected by fund, division, and program. A summary of positions by division and program, by fund, and by job classification are included in each department. Budget reconciliations are included in each department section. This section summarizes changes from the prior Adopted Budget, including one-time and ongoing changes to the Base Budget and Service Level Changes. After the budget reconciliation are the service level change items. This portion of the department section includes a description of the action, the dollar amount in each budget year and any associated position change. Each service level change discusses the performance impact and notes the alignment to the City Council priorities represented in a strategic pillar.

## Categories of Expenditures

**Salaries** – Includes regular salaries, overtime pay, vacation pay, holiday, separation payouts, and premium pays such as Police Officer Standards and Training (POST) pay, out-of-class pay, night differential pay, hazard pay, evidence tech pay, and paramedic pay. These costs are primarily driven by the number of positions budgeted within the program.

**Benefits** – Includes Medicare, social security, health allocation, other post-employment benefits (OPEB), and CalPERS retirement costs. Other benefits such as Voluntary Employee Beneficiary Association (VEBA), dental, life insurance, uniform allowance, meal allowance, employee assistance program, auto allowance, mobile phone allowance, and professional development are included, if applicable.

**Materials/Services/Supplies** – Includes all expenditure items that the department has direct control over such as contract costs, supplies, equipment purchases, and utility charges. For the second year of the Biennial Operating Budget, a 2% increase to costs has been applied to most line items.

**Resource and Production** – Consists mainly of costs related to the purchasing or generating of electricity, water, or recycled water as well as disposing of solid waste matter and sewage effluent for the respective City utilities.

**Services from Other Funds – Cost Allocation Plan** – Includes central services costs (e.g., Human Resources, Finance, City Manager's Office, City Attorney's Office) that are allocated to funds as calculated in the Cost Allocation Plan. The Cost Allocation Plan costs, which are typically termed "citywide overhead", are allocated to departments and funds receiving the support based on an allocation factor, such as employee count or budgeted expenditures. The Cost Allocation Plan is typically updated by a third-party consultant every two or three years and include modest increases between updates.

**Interfund Services** – Includes allocated charges for services provided by various departments or central costs as budgeted in the City's internal service funds. Citywide liability claims costs, vehicle maintenance and replacement, unemployment insurance, workers' compensation costs, communications equipment, and information technology costs are reflected in internal service funds and the costs are apportioned to departments or funds in the City based on an appropriate allocation factor for each internal service fund.

**Capital Outlay** – Includes small capital expense purchases not budgeted within the capital budget. Most individual capital purchases with a cost of less than \$5,000 are expensed in this category.

**Transfers to Other Funds** – Includes all money moving to other funds. Transfers can be between the operating and capital improvement program budget to provide funding for capital projects or between different operating funds. Transfers to other funds are included in the department budget sections.

**Debt Service** – Funding provided to pay for the City's Debt Service obligations. These costs have been excluded from department budgets and detailed in a separate Debt Service section in the document.

## Strategic Pillars

The following are the strategic pillars established by the City Council to provide a framework for this budget document. In each department section, service level changes and performance and workload measures aligned to one of the Council-approved pillars below:

Enhance Community Engagement and Transparency

Deliver and Enhance High Quality Efficient Services and Infrastructure

Manage Strategically Our Workforce Capacity and Resources

Promote and Enhance Economic, Housing and Transportation Development

Promote Sustainability and Environmental Protection

Enhance Community Sports and Recreational and Arts Assets

Ensure Compliance with Measure J and Manage Levi's Stadium

## Performance and Workload Measures

In program budgeting, Performance and Workload Measures are used to measure the performance of the department. These measures align budget dollars allocated to provide services with City Council priorities through Strategic Pillars in an effort to drive budgetary decision making. These measures provide insight into how efficiently or effectively the City is providing services in each major program. They are the measures through which the value of services can be assessed by Council and the public. Workload measures provide insight into the volume of effort that is required to provide each service.

Performance and Workload Measures tend to remain the same year after year to provide longitudinal data which allows trends to be evaluated. There are, however, some programs which do not have performance measures and/or workload measures. These are in areas where quantifiable results are either not available or where it would be too costly to gather the information. Additionally, there are programs where there are no results/budget for particular years, as noted by "N/A". This typically indicates that the measure was: (1) new for the budget year, (2) the program is closed/closing for the budget year, or (3) the measure moved to another program due to a department reorganization of structure. All measures are tied to a strategic pillar, displayed by the icons in the Performance and Workload Measures tables. Performance and Workload Measures added or deleted are noted on each measure.

## Fund Accounting

The accounts of the City are organized and operated on the basis of funds, each of which is considered a separate accounting entity. Government resources are allocated to and accounted for in individual funds based upon the purposes for which the resources are to be spent. A general description of each follows:

### Governmental Fund Types

Governmental funds are those through which most governmental functions of the City are financed. The following are the City's Governmental Fund Types:

**General Fund** - Used to account for the general operations of the City that are not accounted for in another fund. Examples of departmental operations accounted for in the General Fund include Police, Fire, Library, and Parks and Recreation.

**Special Revenue Funds** - Used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specific purposes. Examples of Special Revenue Funds include the Downtown Parking Maintenance District Fund and the Housing Authority Fund.

**Debt Service Funds** - Used to account for the accumulation of financial resources to be used for the payment of principal and interest on General Government Operating and Capital long-term obligations, which are not accounted for in proprietary funds.

**Capital Improvement Program Funds** - Used to account for financial resources to be used for the acquisition, improvement, replacement and/or upgrade to the City's infrastructure. There are various capital funds set up for different types of capital projects.

### Proprietary Fund Types

Proprietary funds are used to account for the City's ongoing organizations and activities which are similar to those often found in the private sector. Proprietary Fund Types include Enterprise Funds and Internal Service Funds and are described as follows:

**Enterprise Funds** - Used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs and expenses, including depreciation, of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Examples of Enterprise Funds include the Electric Utility Fund and the Water Utility Fund.

**Internal Service Funds** - Used to account for the financing of goods, services or facilities provided by one department or agency to other departments or agencies of the City, or to other governments, on a cost-reimbursement basis. Services provided include vehicle replacement, vehicle maintenance and operations, information technology, communications equipment, public works capital projects management, special liability insurance claims, workers' compensation insurance and claims, and unemployment insurance. Examples of Internal Service Funds include the Special Liability Fund and Workers' Compensation Fund.

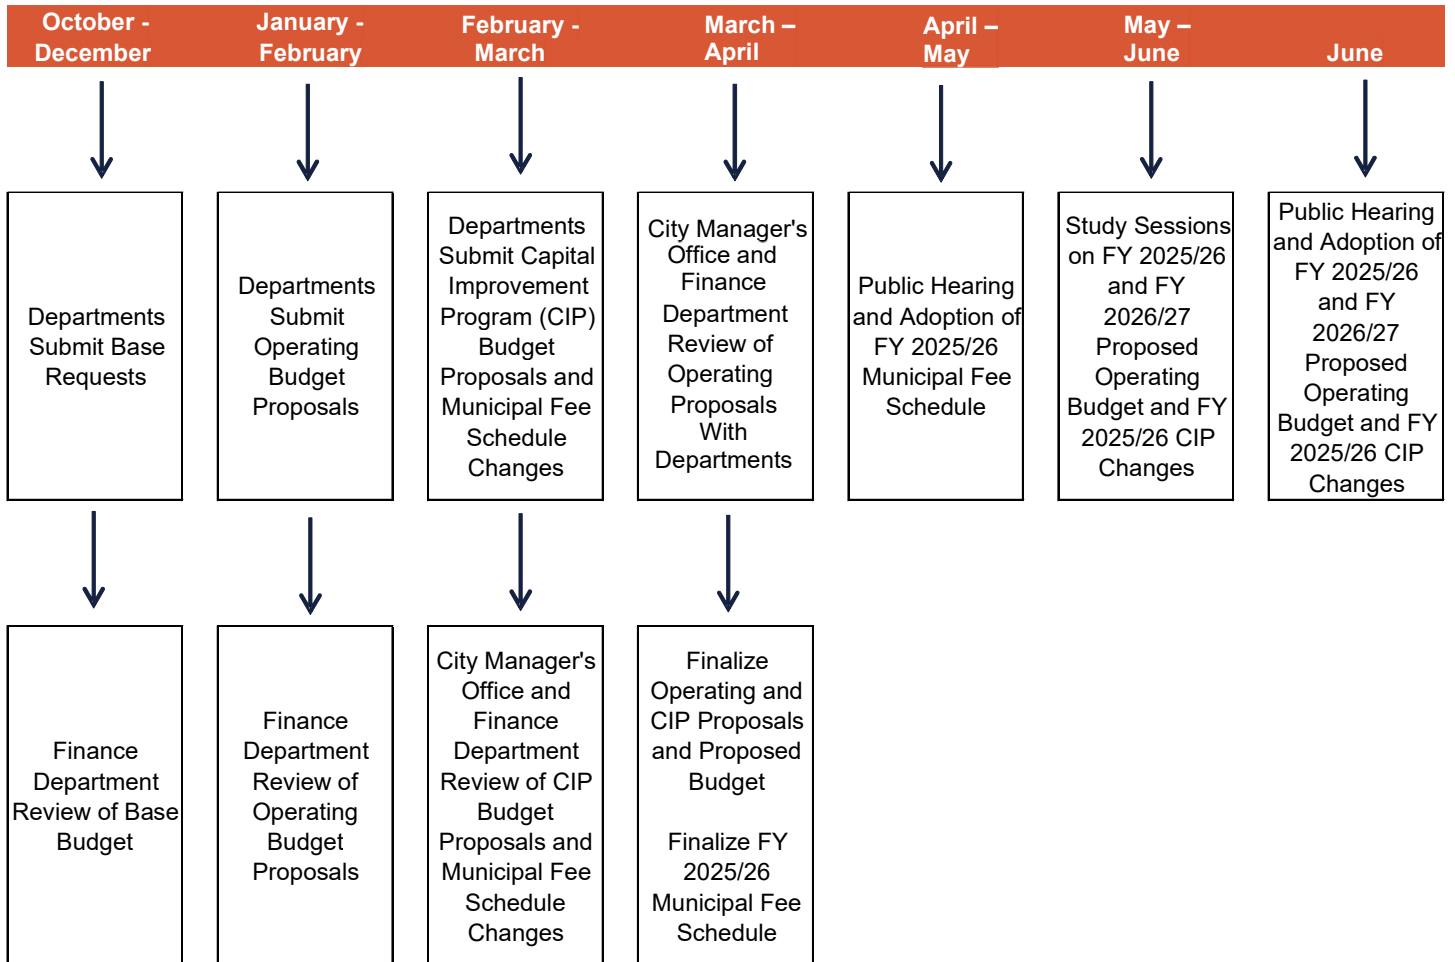

### Fiduciary Fund Types

The City has three types of Fiduciary Funds: Agency Funds (e.g., Employee Benefit and Liability Clearing, Deposits), the Other Post Employment Benefit (OPEB) Plan Trust Fund; and the Private Purpose Trust Funds (e.g., Successor Agency). These funds are excluded from the budget because the City cannot use these resources to finance its own operations.

While each department section provides for a budget breakdown by fund, this budget document also includes statements of sources and uses for all of the City's funds, categorized by the type of fund as described above. Each of these financial statements includes the 2023/24 Actuals, 2024/25 Amended Budget, 2024/25 Estimate, and the 2025/26 and 2026/27 Proposed Budget. The 2024/25 Amended Budget is the adopted budget in addition to any budget amendments that were approved by City Council throughout the fiscal year, while the Estimate column shows what the expected revenue and expenditures will be for 2024/25. The Proposed Budget columns take into account the base budget plus all service level changes included in this document.

## BUDGET CALENDAR

## **BUDGET PRINCIPLES FOR FY 2025/26**

1. Make decisions within the context of the City's Code of Ethics and Values, especially being Fiscally Responsible, Communicative, and Service-Oriented.
2. Consider budget decisions with long-term implications taking into account data from the Ten-Year Financial Forecast.
3. To the extent possible, align ongoing expenditures with ongoing revenues to avoid negative impacts on future budgets and maintain the City's high financial management standards.
4. When considering budget augmentations and service restorations, factor in the long-term ability to support the additions and the potential community and organizational disruption if funding is not available in the future.
5. Focus on projects and services that benefit the community as a whole.
6. Pursue economic development objectives and strategies to foster new public and private investment within Santa Clara, and to create employment opportunities.
7. Balance between compensation adjustments to retain and attract employees and funding for positions.
8. Use one-time unrestricted revenues (e.g., annual General Fund surplus) for one-time uses such as increasing reserves, funding capital or Information Technology projects, paying off debt, and/or paying off unfunded pension or other post-employment benefits liabilities.
9. Inform and communicate clearly and broadly to residents, businesses and employees regarding the City's fiscal position and budget; schedule hearings to promote active participation in the City Council's budget deliberations.
10. With limited exceptions, establish fees based on full cost recovery where individuals/businesses rather than the community at-large are benefitting from City services. This preserves limited unrestricted resources for providing services that benefit the community as a whole.
11. Focus on business process redesign in order to improve employee productivity and the quality, flexibility, and cost-effectiveness of service delivery (e.g., streamlining, simplifying, reorganizing functions, and reallocating resources).
12. Explore expanding existing revenue sources and/or adding new revenue sources.
13. Engage employees to contribute new and innovative ideas during the department budget development process.
14. Use the General Plan as a primary long-term fiscal planning tool and link the ability to provide City services to development policy decisions.

## GLOSSARY

The following explanations of glossary and terms are presented to aid in understanding the information included in this document:

**Abatement** - A complete or partial cancellation of a levy imposed by a government and usually applied to tax levies, special assessments and service charges.

**Accounting System** - The total structure of records and procedures which discover, record, classify, summarize and report information on the results of operations and the financial position of a government or any of its funds, fund types, balanced account groups, or organizational components.

**Accrual Basis of Accounting** - A method of accounting that recognizes the financial effect of transactions, events, and interfund activities when they occur, regardless of the timing of related cash flows.

**Adopted Budget** - The annual City budget as approved by City Council on or before June 30 for the fiscal year beginning July 1. This adopted budget establishes the legal authority for the expenditure of funds. This formal action by the City Council sets the spending path for the year.

**Agency Fund** - To account for assets held by the City as an agent for individuals, private organizations, other governments, and/or other funds.

**Allocation** - To divide or share out financial resources or expenditures for a specific purpose to particular funds or departments.

**American Recovery and Reinvestment Act (ARRA)** - An act established by the federal government in February 2009 whose intent is to create and save jobs, spur economic activity and focus on long term growth through the funding of various projects and initiatives.

**Annual Comprehensive Financial Report (ACFR)** - The official annual report of the City's financial condition at the conclusion of the fiscal year, June 30. The report is prepared to conform to Generally Accepted Accounting Principles (GAAP) for governmental units and provides a quantitative look at the operating success, financial health, and compliance of the City's reporting units.

**Appropriation** - A legal authorization granted by the City Council to make expenditures and to incur obligations for specific purposes. For purposes of the Capital Improvement Program (CIP) budget, appropriations are automatically renewed, for the life of the project, unless altered or revoked. For the operating budget, appropriations lapse at the end of the fiscal year to the extent they have not been expended or encumbered.

**Appropriations Limit** - The California State Constitution limits a city's appropriations growth rate to two factors: changes in population, and either the change in California per capita income or the change in the local assessment roll due to non-residential new construction.

**Assessed Valuation** - A valuation set upon real estate or other property by a government as a basis for levying taxes. In California, the assessed valuation subject to ad valorem tax levy is governed by Proposition 13 and AB8 (1978).

**Assets** - A probable future economic benefit obtained or controlled by a particular entity as a result of past transactions or events. This includes financial resources such as cash, receivables, inventory and plant and equipment, net of depreciation.

**Audit** - A formal examination of the City's accounts by an independent audit firm to determine whether the City's financial statements fairly present the City's financial position and results of operations in conformity with Generally Accepted Accounting Principles.

**Authorized Positions** - Regular positions authorized in the budget to be employed during the fiscal year.

**Balanced Budget** - The budget for a fund is balanced when total budgeted resources, including revenues, transfers in from other funds, and available fund balance from the previous year, meets or exceeds total budgeted uses of resources, including expenses and transfers out to other funds.

**Base Budget** - The ongoing expense level necessary to maintain service levels previously approved by the City Council.

**Basis of Accounting** - The timing of recognition, that is, when the effects of transactions or events are recognized for financial reporting or budgeting purposes. The three bases of accounting for governmental agencies are: (1) cash basis (when cash is received or paid), (2) accrual basis (when the underlying transaction or event takes place), and (3) modified accrual basis (revenues are recognized in the accounting period in which they become available and measurable and expenditures are recognized in the accounting period in which the fund liability occurred).

**Beginning Fund Balance** - The amount of prior year's unappropriated funds used to finance appropriated expenses in the current budget year.

**Biennial Budget** - A consolidated budget document presented on a biennial basis that includes the City's Operating Budget and CIP Budget. The Operating and Capital Budgets are presented in alternating years to the City Council for approval.

**Bond** - A city may raise capital by issuing a written promise to pay a specified sum of money, called the face value or principal amount, at a specified date or dates in the future, together with periodic interest at a specific rate.

**Bond Rating** - An evaluation of a bond issuer's credit quality and perceived ability to pay the principal and interest on time and in full. Three agencies regularly review city bonds and generate bond ratings: Moody's Investors Service, Standard and Poor's and Fitch Ratings.

**Budget** - A plan of financial operation embodying an estimate of proposed expenditures for a given period and the estimated financial resources available to finance them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year.

**Budget Public Hearing** - A public meeting at which any member of the community may appear and be heard regarding any item in the proposed budget as presented by the City Manager to the City Council.

**Budget Transmittal Letter** - A general discussion of the budget as presented in writing by the City Manager to the City Council. The message contains an explanation of principal budget items and summaries found in the budget.

**Budgetary Control** - The control or management of a government or enterprise in accordance with an approved budget for the purpose of keeping expenses within the limitations of authorized appropriations.

**Capital Asset** - Land, buildings, equipment, improvements to buildings, and infrastructure (i.e., roads, bridges and other immovable assets). The City's policy is to capitalize equipment with a cost exceeding \$5,000 and building, improvements and infrastructure with costs exceeding \$20,000. A capital asset is defined as an asset with a useful life extending beyond a single accounting period.

**Capital Improvement** - A permanent addition to the City's assets, including the design, construction or purchase of land, buildings, facilities, or major renovations of the same.

**Capital Improvement Program (CIP) Budget** - A plan of annual appropriation for capital improvements and various kinds of major facility maintenance. These projects are often multi-year in length, which requires funding beyond the two-year period in the biennial budget.

**Capital Outlay** - A budget category which includes all equipment having a unit cost of \$1,000 or more, and an estimated useful life of over one year or capital improvements costing less than a certain dollar amount. Capital Outlay is budgeted in the operating budget in the Other Operating Expenditure Category.

**Certificates of Participation (COPs)** - This financing technique provides long-term financing through a lease, installment sale agreement or loan agreement. Certificates of Participation (COPs) allow the public to purchase participation in a stream of lease payments, installment payments or loan payments relating to the acquisition or construction of specific equipment, land or facilities. The lending agreement is secured by a lease on the acquired asset or other assets of the City.

**Charges for Services** - Fees and charges levied by City departments for services rendered (example: utility charges to customers, recreation program fees, engineering fees, etc.).

**Community Development Block Grant (CDBG)** - Provides eligible metropolitan cities and urban counties with annual direct grants to revitalize neighborhoods; expand affordable housing and economic opportunities; and/or improve community facilities and services, principally to benefit low- and moderate-income persons.

**Community Facilities District (CFD)** - A special district that can issue debt for the planning, design, acquisition, construction, and/or operation of public facilities, as well as provide public services. Special tax assessments levied by the district are used to repay the debt. A CFD can be formed only if approved by the majority of affected property owners.

**Consumer Price Index (CPI)** - A statistical measure of a weighted average of prices of a specified set of goods and services purchased by wage earners in urban areas.

**Contingency** - A budgetary reserve set aside for emergency or unanticipated expenditures, revenue shortfalls, and/or unknown expenditures.

**Council Priority Setting Session** – annual meeting of the City Council to formulate the City Council’s priorities and initiatives and establish Priority Areas of Focus and key initiatives for the City organization.

**Debt** - Obligations of the City to repay, with or without interest, in installments and/or at a later date, some amount of money utilized resulting from the borrowing of money or from the purchase of goods and services. Debts of governments include bonds, notes and COPs.

**Debt Financing** - Issuance of bonds and other debt instruments to finance municipal improvements and services.

**Debt Service** - Payment of the principal and interest on an obligation resulting from the issuance of bonds, COPs or other debt instruments.

**Deficit** - An excess of expenditures or expenses over revenue (resources).

**Department** - An organizational unit comprised of divisions and/or programs. It is the basic unit of service responsibility encompassing a broad mandate of related activities. Department directors generally report directly to the City Manager's Office, for instance, Fire and Finance.

**Depreciation** - An allocation of the cost of fixed assets (buildings, plant or equipment) over the estimated useful life of the asset.

**Designation** - A portion of fund equity set aside by Council Action for a specific purpose.

**Dissolution Act** - Also known as Redevelopment Dissolution Act; on December 29, 2011, the California Supreme Court found the Dissolution Act (ABx1 26) constitutional in the California Redevelopment Association vs. Matosantos case. The Act continued the suspension and prohibition of most redevelopment activities in effect since late June 2011; dissolved RDAs as of February 1, 2012; created successor agencies and oversight boards; and established roles for the County-Auditor Controller, the Department of Finance, and State Controller’s Office in the dissolution process and satisfaction of enforceable obligations of former RDAs.

**Division** - An organizational unit within a City department. For instance, Fire Field Operations, Fire Community Risk Reduction, and Fire Training.

**Encumbrance** - Obligations in the form of purchase orders, contracts or salary commitments which are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid.

**Enterprise Fund** - Used to account for operations: a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs and expenses, including depreciation or capital replacement, of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

**Environmental Impact Report (EIR)** - An assessment of the likely influence a project might have on the environment.

**Equity** - The net assets of a fund (i.e. the assets less the liabilities on a fund balance sheet).

**Expenditure** - Actual cash disbursements for the cost of goods delivered or services rendered to the City in a Governmental Fund.

**Expenditure Object Category (Expenditure Category)** - Expenditure categories are a group of similar expenditure objects.

**Expense** - The cost incurred from providing goods or services related to the City's operations in Proprietary Funds.

**Fee** - The payment for direct receipt of a public service by the party who benefits from the service.

**Fiscal Year** - The time period designated by the City signifying the beginning and ending period for recording financial transactions. Consistent with all cities and counties in the State of California, the City of Santa Clara has specified July 1 to June 30 as its fiscal year.

**Franchise** - A special privilege granted by a government, permitting the continued use of public property, such as city streets and usually involving the elements of a monopoly or regulation, for example cable TV, gas, refuse, and others.

**Full-Time Equivalent** - Refers to one full-time equivalent position, which equals 40 hours per week, 52 weeks per year.

**Fund** - An independent fiscal and accounting entity with a self-balancing set of accounts recording its assets, liabilities, fund equity, revenues and expenditures or expenses and other changes in residual fund equity or balances, segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, limitations or public policy.

**Fund Balance** - The amount of financial resources immediately available for use. Generally, this represents the difference between unrestricted current assets over current liabilities.

**Fund Type** - A category into which funds with similar characteristics are grouped. The fund types used in the City budget are General, Special Revenue, Capital Projects, Enterprise, Internal Service and Debt Service funds.

**Gas Tax** - State tax received from gasoline sales utilized solely for street related purposes, such as new construction, rehabilitation or maintenance.

**General Fund** - The primary fund of the City used to account for all revenues and expenditures of the City not accounted for in another fund. Examples of departmental operations accounted for in the General Fund include the City Council, Police and Fire Departments, Library, Parks and Recreation, and others.

**Generally Accepted Accounting Principles (GAAP)** - Uniform minimum standards and guidelines for financial accounting and reporting that govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules and procedures necessary to define accepted accounting practice at a particular time. GAAP provide a standard by which to measure financial presentations. The primary authoritative body on the application of GAAP to State and local governments is the GASB (Governmental Accounting Standards Board).

**Governmental Accounting** - The composite activity of analyzing, recording, summarizing, reporting, and interpreting the financial transactions of governments.

**Governmental Accounting Standards Board (GASB)** - The authoritative accounting and financial reporting standard-setting body for government entities.

**Governmental Fund** - A fund type to account for tax-supported activities. There are four different types of governmental funds: the General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds.

**Grant** - Contributions of cash or other assets from another government entity to be used or expended for a specific purpose, activity or facility. An example is the Community Development Block Grant given by the federal government.

**HOME Program** - Federal housing assistance program that provides funds to low- and very low- income families for both rental units and privately-owned dwellings.

**Housing and Urban Development (HUD)** - The Federal agency whose mission is to increase home ownership, support community development and increase access to affordable housing free from discrimination.

**Housing Authority** - The City of Santa Clara Housing Authority was established by Resolution 11-7827 on February 22, 2011, to ensure the provision of safe and sanitary housing for persons of low income.

**Indirect Cost Allocation Plan** - The City uses an indirect cost allocation plan to ensure that enterprises and certain special revenue-supported operations pay for themselves and are not subsidized by City taxpayers. General Fund-supported central services costs such as payroll, accounting, data processing, personnel, city management and facilities maintenance are allocated to those funds benefiting from these services based on statistical data reflecting use of these support services.

**Infrastructure** - Facilities on which the continuance and growth of a community depend on such as roads, water lines, sewers, public buildings, parks and airports.

**Interest and Rent** - Interest income on investments and rental income received on property owned by the City.

**Interfund Services** - Services provided by one fund within the City for the benefit of another fund for which the benefitting fund is charged a fee (e.g., payroll services for the Electric Utility Department).

**Interfund Transfers** - With Council approval, resources may be transferred from one City fund to another. The purpose of the majority of transfers is to reimburse a fund that has made expenditures on behalf of another fund. Less often, a transfer may be made to open or close a fund.

**Intergovernmental** - Revenue received from other government entities (e.g., grants).

**Internal Service Funds** - These funds account for special activities and services performed by a designated department for other departments in the City on a cost reimbursement basis.

**Legal Debt Limit** - Per section 6.07 of the City Charter, bonded indebtedness of the City may not exceed 10% of the total assessed valuation of property within the City, exclusive of any indebtedness incurred for the purpose of water supply, sewers or storm drains.

**Levi's Stadium** - The stadium is located at 4900 Marie P. DeBartolo Way, Santa Clara and is the home of the San Francisco 49ers professional football team. It has a permanent seating capacity of approximately 68,500 seats with expansion to approximately 75,000 seats for larger events, such as an NFL Super Bowl. The stadium was built based on the City of Santa Clara approved Measure J, the Santa Clara Stadium Taxpayer Protection and Economic Progress Act, on June 8, 2010.

**Levy** - An amount of taxes, special assessments or service charges imposed by a government for the support of government activities.

**Liability** - Probable future sacrifices of economic benefits arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events. That is, a financial obligation or claim of financial resources of a specific fund to be liquidated at a future date.

**Long-term Debt** - Debt with a maturity of more than one year after the date of issue.

**Mission** - The overriding purpose of the department, division, or program.

**Modified Accrual Basis of Accounting** - Revenues are recognized in the accounting period in which they become available and measurable; expenditures are recognized in the accounting period in which the fund liability is incurred (if measurable), except for unmatured interest on general long-term debt and certain similar accrued obligations, which should be recognized when due.

**Municipal Code** - A compilation of City Council approved ordinances currently in effect. The Code defines City policy in various categories, for example, Civil Service rules, traffic regulations, sanitation and health standards, building regulations and planning and zoning regulations.

**Object Category** - See Expenditure Object Category.

**Operating Budget** - The portion of the budget that pertains to the City's daily operations and activities engaged in to provide services to the community. The operating budget contains appropriations for such expenditures as personnel (salaries, wages and benefits), supplies and materials, utilities, travel and fuel.

**Ordinance** - A formal legislative enactment by City Council. It has the full force and effect of law within City boundaries unless pre-empted by a higher form of law (State or federal). An ordinance has a higher legal standing than a resolution. Revenue raising measures, such as the imposition of taxes, special assessments and service charges are some examples of actions that would require the enactment of an ordinance.

**Other Financing Sources** - Changes in residual fund equity or balances not arising from revenues or expenditures/expenses. Includes governmental fund general long-term debt proceeds, amounts equal to the present value of minimum lease payments arising from capital leases, proceeds from the sale of general fixed assets and operating transfers in.

**Performance Measures** - This is a non-financial measurement of activity such as number of meters read, number of bills sent, number of customer service calls handled and response time to emergency calls. Performance-based budgeting incorporates performance measures into the budget process.

**Program** - A program is a specific service or activity that falls under departmental divisions. Programs provide for a lower level of detail regarding a Department's function. For instance, the Traffic Program under the Police Field Operations Division.

**Property Tax** - An ad valorem (based on value) tax on real property and tangible personal property levied by the local government on the property located within the City's jurisdiction. Property tax is determined by two factors: the assessed value of the property and the tax rate for the area in which the property is located.

**Public Facilities Financing Corporation (PFFC)** - The City of Santa Clara Public Facilities Financing Corporation (PFFC) was formed in 1997 for the purpose of issuing Certificates of Participation (COPs) to provide financing for the construction of major City facilities. Members of the City Council are also members of the PFFC Board. Debt service on the COPs is secured by lease payments made by the City's General Fund to the PFFC for the use of the constructed facilities for public purposes. In accordance with lease agreements, the PFFC assigns lease payments received from the City to the trustee for payment to the certificate holders.

**Redevelopment Dissolution Act** - See Dissolution Act.

**Reimbursement** - Repayments of amounts remitted on behalf of another party, or interfund transactions that constitute reimbursements to a fund for expenditures or expenses initially made from it but properly applied to another fund.

**Reserve** - An account used to earmark a portion of fund balance to indicate that it is not available for expenditure or legally segregated for a specific future use.

**Resolution** - A special or temporary legislative order of the City Council/Agency/Authority. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the City. A resolution requires less legal formality and has a lower legal status than an ordinance.

**Revenue** - Resources received by the government available for use in supporting services including such items as taxes, fees, permits, licenses, grants and interest.

**Risk Management** - An organized attempt to protect a government's assets against accidental loss in the most economical method. The City is exposed to various risks of losses related to torts, errors and omissions, general liability, injuries to employees and unemployment claims. Claims, expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated using actuarial methods or other estimating techniques. These losses include an estimate of claims that have been incurred but not reported.

**Sales Tax** - A tax imposed by the government on retailers at the point of sale for the privilege of selling tangible personal property. It is usually calculated as a percentage of the selling price and collected by the retailer from the consumer. The rate in the City of Santa Clara is 9.125%.

**Silicon Valley Power (SVP)** - The City's Electric Utility Department provides electricity to City residents and businesses under the name Silicon Valley Power.

**Special Assessment** - A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

**Special Revenue Fund** - A fund in which revenue collected is restricted by the City, State or federal government as to how the city might spend its resources.

**Sports and Open Space Authority (SOSA)** - The City of Santa Clara Sports and Open Space Authority (SOSA) was created by the City Council in 1974 for the acquisition and development of open space within the City. The members of the City Council are also members of SOSA's Board of Directors and, as such, are authorized to transact business and exercise power to purchase, lease or otherwise obtain and dispose of real and personal property, to acquire, construct, maintain, repair, manage and operate real and personal property, including leasing to private operators for commercial purposes, surplus space which is not economical to use for open space planning.

**Stadium Authority** - The Stadium Authority was established by the City Council in 2011 to provide for the development and operation of Levi's Stadium. The Stadium Authority's governing board is the seven members of the City Council. The Stadium Authority will own, develop, construct, operate and maintain the Stadium, and have all powers granted to it by the City. The Stadium Authority is a separate and distinct legal entity, and the City is not liable for the debts or obligations of the Stadium Authority.

**Strategic Pillar** - The City Council adopted seven focus areas for City operations: 1. Enhance Community Engagement and Transparency; 2. Deliver and Enhance High Quality Efficient Services and Infrastructure; 3. Enhance Community Sports, Recreational and Arts Assets; 4. Promote and Enhance Economic, Housing and Transportation Development; 5. Ensure Compliance with Measure J and Manage Levi's Stadium; 6. Manage Strategically our Workforce Capacity and Resources; and 7. Promote Sustainability and Environmental Protection.

**Subsidy** - A grant by a government entity to another government entity to pay all or a portion of an activity of the government deemed advantageous to the public.

**Successor Agency to the Former Redevelopment Agency of the City of Santa Clara** - Pursuant to State legislation ABx1 26, the "Dissolution Act," the Redevelopment Agency (RDA) of the City of Santa Clara was dissolved effective February 1, 2012. The City has elected to become the Successor Agency for the RDA non-housing functions, responsible for paying off the former Redevelopment Agency's existing debts, disposing of the former Redevelopment Agency's properties and assets to help pay off debts, returning revenues to the local government entities that receive property taxes, and winding down the affairs of the former Redevelopment Agency. The City has also elected to retain the former Redevelopment Agency's housing functions, including retaining all of the housing assets, rights, power, duties, obligations and functions previously performed by the Redevelopment Agency in administering its Low and Moderate Income Housing Fund.

**Surplus** - An excess of revenue (resources) over expenditures or expenses.

**Taxes** - Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. The term does not include specific charges made against particular persons or property for permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges as, for example, water service charges.

**Ten-Year Financial Plan** - A strategic planning document showing the estimated results of operations and capital improvement project requirements over the next ten years. This plan is reviewed and accepted by Council and no appropriations result from that acceptance.

**Theme** - The capital budget is aligned to twelve categories (Administrative Facilities, Community Facilities, Convention Center, Electric Utility, Other Community Projects, Parks and Trails, Sewer Utility, Solid Waste, Storm Drain, Technology and Equipment, Transportation, and Water and Recycled Water Utilities).

**Tourism Improvement District (TID)** - The Santa Clara Tourism Improvement District was established in 2004 as a marketing revenue supplement to assist the Santa Clara Convention and Visitors Bureau (CVB) with marketing the City of Santa Clara to hotel and convention center groups and visitors. The activities to be provided to the district will be funded by the levy of assessments.

**Transient Occupancy Tax (TOT)** - A locally controlled tax imposed on travelers who stay in temporary lodging facilities for stays thirty days or less. The rate in the City of Santa Clara is currently 13.5%.

**Trust Fund** - Used to account for assets held by the City in a trustee capacity.

**User Charges** - The payment of a fee for direct receipt of a public service by the party benefiting from the service.

## **BUDGET SUMMARY | SUMMARY OF FUND ACTIVITY**

### **\*Explanations for FY 2025/26 Beginning Fund Balance and Ending Fund Balance Changes Greater Than 10%**

1. The accumulation of surplus revenues and/or expenditure savings is being used for budget balancing purposes.
2. The beginning fund balance includes carryover of the prior year's budget. If these carryovers are removed, the change in fund balance is less than 10%.
3. The accumulation of savings is being used for various one-time uses.
4. This fund's expenditure budget is determined using rates, fees and charges estimates for cost recovery; reflects anticipated activity.
5. The accumulation of savings is being used to support future years' uses and/or also to establish recommended reserve levels.
6. The establishment or elimination of the fund.
7. The planned draw down of accumulated fund balance and/or reserves.
8. The revenue and expenditure activity in this fund are provided and/or managed by an outside agency.
9. Changes in expenditure levels related to timing changes in capital expenditures.
10. This fund's activity relates to grant activity, that may fluctuate based on the grant parameters.

### **\*Explanations for FY 2026/27 Beginning Fund Balance and Ending Fund Balance Changes Greater Than 10%**

Non-Departmental	5.70	6.90	7.75	0.85	7.75
<b>Total Budgeted FTE by Dept./Office</b>	<b>1,149.25</b>	<b>1,159.25</b>	<b>1,198.50</b>	<b>39.25</b>	<b>1,196.50</b>

Note: The positions above represent all funded positions. This excludes 30.5 positions that remain frozen as described in the Summary of Frozen Positions by Department included later in this section.

### **FY 2025/26 Proposed Budget Changes (Addition of 39.25 positions from FY 2024/25 Adopted to FY 2025/26 Proposed)**

Base Changes: 18.25 positions were added during FY 2024/25 after the adoption of the budget (13.0 positions added through Report to Council 24-742, 1.0 frozen position restored through Report to Council 24-510, 2.0 positions added through Report to Council 24-831, and 2.0 positions added through Report to Council 25-1053), including the following:

- 1.0 Principal Electric Utility Engineer position, 1.0 Senior Electric Utility Engineer position, 1.0 Assistant Electric Utility Engineer position, 1.0 Electric Division Manager position, 3.0 Electric Utility Engineer positions, 1.0 Senior Resource Analyst position, 1.0 Principal Power Analyst position, 1.0 Senior Business Analyst position, and 2.0 Power Contract Specialist positions in Silicon Valley Power and 1.0 Deputy City Attorney in the City Attorney's Office (funded by SVP)
- 1.0 Associate Engineer position in the Department of Public Works
- 1.0 Division Manager position and 1.0 Management Analyst position in the Human Resources Department
- 1.0 Chief Storekeeper position and 1.0 Materials Handler position in the Finance Department (SVP supported)
- Increase of a Recreation Coordinator position, from 0.75 FTE to 1.0 FTE, in the Parks & Recreation Department, offset by a reduction to the As Needed budget

Proposed Changes: 21.0 positions are recommended as part of the FY 2025/26 and FY 2026/27 Proposed Operating Budget, including the following additions:

- 1.0 Legal Office Specialist position in the City Attorney's Office (restore previously frozen position)
- 1.0 Management Analyst position in the City Manager's Office
- 1.0 Management Analyst position, 1.0 Staff Analyst II position, 1.0 Business Analyst position, 1.0 Senior Inspector position, and 1.0 Plans Examiner position in the Community Development Department
- 1.0 Accounting Technician position, 1.0 Meter Reader position, 1.0 Customer Service Representative position, and 1.0 Utility Field Service Worker position (3.75 FTE Utility supported), and 1.0 Accountant position in the Finance Department
- 1.0 Management Analyst position, 1.0 Fire Protection Engineer position, and 1.0 Fire Prevention Specialist position in the Fire Department
- 1.0 Senior Information Technology Services Manager position in the Information Technology Department
- 1.0 Deputy City Manager position in Non-Departmental
- 1.0 Recreation Manager position in the Parks & Recreation Department
- 1.0 Senior Engineer (Civil) position, 1.0 Principal Engineer position, and 1.0 Management Analyst position in the Department of Public Works

**FY 2026/27 Proposed Budget Changes (Net Reduction of 2.0 positions FY 2025/26 Proposed to FY 2026/27 Proposed)**

Proposed Changes: The net reduction of 2.0 positions reflects the following:

- Addition of 1.0 Police Sergeant position and 2.0 Police Officer positions in the Police Department (restore previously frozen positions)
- Addition of 1.0 Management Analyst position in the Department of Public Works
- Net reduction of 6.0 Firefighter positions due to the completion of the SAFER grant. A total of 18.0 Firefighters were added from the SAFER grant (Report to Council 23-170, February 7, 2023), including 12.0 positions that were originally frozen on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402) and an additional 6.0 positions. This budget continues 12.0 of the 18.0 positions that were funded by the SAFER grant effective FY 2026/27 when the SAFER grant term will be completed. This continues the restoration of the 12.0 positions that were previously frozen.

## Summary of Budgeted Positions by Fund

	FY 2023/24 Adopted	FY 2024/25 Adopted	FY 2025/26 Proposed	FY 2025/26 Change	FY 2026/27 Proposed

Non-Departmental	Deputy City Manager	1.00
Non-Departmental	Office Specialist III	1.00
<b>Total Positions Frozen</b>		<b>30.50</b>

The list reflects the frozen positions by department, including the following:

- The remaining 17.50 positions as approved by City Council on March 9, 2021 as part of the COVID-19 Phase 1 Budget Rebalancing;
- 5.0 positions frozen on June 22, 2021 (Agenda Item 5.0 – Report to Council 21-526);
- 7.0 positions originally funded by Related but are frozen beginning in FY 2023/24 based on discussions with Related, including 1.0 Senior Inspector in the Community Development Department, 1.0 Deputy Fire Marshal II and 1.0 Fire Protection Engineer in the Fire Department, and 1.0 Associate Engineer, 1.0 Principal Engineer, 1.0 Senior Civil Engineer, and 1.0 Public Works Inspector in the Department of Public Works; and
- 1.0 position frozen as part of the FY 2023/24 and FY 2024/25 Adopted Operating Budget (1.0 City Auditor).

The list excludes all positions that have been restored, including the following:

- 1.0 Deputy City Clerk position in the City Clerk's Office
- 1.0 Assistant City Attorney position and 1.0 Legal Office Specialist (recommended as part of this budget) in the City Attorney's Office
- 1.0 Assistant City Manager position in the City Manager's Office
- 12.0 Firefighter positions in the Fire Department
- 1.0 Office Specialist II position, 2.0 Police Records Specialist positions, 2.0 Police Officer positions and 4.0 Community Service Officer positions in the Police Department. An additional 1.0 Police Sergeant position and 2.0 Police Officer positions are recommended to be restored as part of this budget
- 1.0 Associate Engineer position in the Department of Public Works

## DEBT SERVICE

### Overview

Under the authority of the City Manager, the City executes debt instruments, oversees the accounting and reporting of debt, administers debt proceeds, manages continuing disclosure and debt compliance requirements, and makes debt service payments, while acting with prudence, diligence, and attention to prevailing economic conditions.

The City of Santa Clara uses debt financing as a tool to maintain its long-term financial stability by paying for certain expenditures over time. Debt financing is also a tool for managing cash flow when large, one-time outlays are required as in the case of constructing a new building or large-scale upgrades to infrastructure. This section provides a summary of the City's debt service for the ten-year forecast period. Included is the Computation of Legal Debt Margin, which calculates the City's debt limit as defined by the City Charter. Also included is a debt service schedule representing the currently outstanding debt of the City. The City does not currently have any outstanding general obligation debt.

### Debt Policies

The Santa Clara City Charter, Section 1309, limits the allowable bonded indebtedness of the City to 15% of the total assessed valuation of property within the City, exclusive of revenue bonds or any indebtedness that has been or may be incurred for the purposes of acquiring, constructing, extending, or maintaining municipally owned utilities, for which purposes a further indebtedness may be incurred by the issuance of bonds, subject only to the provisions of the State constitution and the City Charter.

Section 1321 of the City Charter further provides for the issuance of revenue bonds when authorized at an election as provided therein. The City Charter also gives City Council the power to issue revenue bonds to finance the generation, production, transmission and distribution of electric energy, including the acquisition and/or construction of lands and facilities therefor, without authorization at an election.

The City's Debt Management Policy provides guidance for the issuance of bonds and other forms of indebtedness to finance land acquisition, construction, equipment, and other capital requirements of the City. While the issuance of debt is an appropriate method of financing capital projects and major equipment acquisitions, such issuance shall be carefully monitored.

The issuance of debt shall be closely aligned with the cash flow requirements of the projects being financed. Within the limitations of the City Charter, determining the amount of indebtedness the City can afford begins by assessing the sufficiency of future revenues. The amount of debt issued is based on the requirements of the approved Capital Improvement Program, subject to the condition that sufficient revenues are projected to be available to pay debt service. Factors such as debt service coverage requirements outlined in the bond indentures, the impact on the residents (tax rates), and any impact on the bond ratings will be carefully considered. Different factors are considered for each type of credit. For example, electric, water or sewer bonds will take into consideration the impact on customer utility rates. Other factors such as providing debt capacity for future programs and existing and forecasted fund balances, including reserves, will also be taken into consideration.

The City believes that debt is an equitable means of financing projects and represents an important source of meeting fiscal responsibilities. The City obtains and maintains long-term debt for large capital improvement projects. The Finance Department manages the City's debt with prudence, diligence, and with attention to prevailing economic conditions and applicable laws. It manages issuance of debt, administers debt proceeds, prepares ongoing disclosure, handles debt and tax compliance, and makes debt service payments. City departments with debt-financed capital programs coordinate with the Finance Department in implementing and handling debt-related transactions. Semiannual updates are prepared by the Finance Department on outstanding debt for the City of Santa Clara, its Agencies and Corporations. This report is presented as a standard management practice that provides a valuable overview of the current status of the City's long-term debt obligations. The current City Council approved debt policy can be found online here: [Debt Management Policy](#).

## Long-Term Debt Planning

The City employs a comprehensive multi-year, long-term capital improvement planning program that is updated every two years. Debt management is a major component of the financial planning model which incorporates projected financing needs for infrastructure development that is consistent with the City's growth, while at the same time measuring and assessing the cost and timing of any debt issuance.

## Credit Rating

The City seeks to obtain and maintain the highest possible credit ratings for all categories of short- and long-term debt. The City's bonds are rated favorably by major bond rating agencies, Fitch and Standard and Poor's (S&P Global Ratings). S&P Global Ratings assigned City of Santa Clara its 'AA+' issuer credit rating (ICR) in June 2022 and affirmed City's Certificates of Participation 'AA' long-term rating in May 2022. The City's Electric Revenue Bonds, Series 2018A and Series 2024A, are affirmed and rated 'AA-' by Fitch and S&P in September 2024. The City's 2023 Wastewater Certificates of Participation was rated 'AAA' by S&P. Maintaining high bond ratings has resulted in a broader market for the City's bonds and lower interest costs to the City.

## Public Facilities Financing Corporation

The City of Santa Clara Public Facilities Financing Corporation (PFFC) was formed in 1997 for the purpose of issuing Certificates of Participation (COPs) to provide financing for the construction of major City facilities. Members of the City Council are also members of the PFFC Board. Debt service on COPs is secured by lease payments made by the City's General Fund to the PFFC for use of the constructed facilities for public purposes. In accordance with lease agreements, the PFFC assigns lease payments received from the City to the trustee for payment to the certificate holders.

## Long-Term Debt Obligations

Certificates of Participation (COPs) are a debt instrument evidencing a pro-rata share in a specific pledged revenue source, usually lease payments. These lease payments are typically secured by an installment sale or leaseback agreement. Revenues are pledged to pay lease payments, and such lease payments are used to pay debt service on the COPs. The lessor typically assigns the lease and the payment to a trustee, which distributes the payments to certificate holders. These obligations do not constitute indebtedness under the State constitutional debt limitation and are not subject to voter approval.

Lease Revenue Bonds are a lease obligation secured by a leaseback arrangement with a public entity, where general operating revenues are pledged to pay the lease payments, and in turn are used to pay debt service on the debt. These obligations do not constitute indebtedness under the State constitutional debt limitation and are not subject to voter approval.

In connection with COPs and Lease Revenue Bonds, payments to be made under valid leases are payable only in the year in which use and occupancy of the leased property is available, and lease payments may not be accelerated. Lease financing requires the fair market rental value of the leased property to be equal to or greater than the required debt service or lease payment schedule. The governmental lessee is obligated to place in its annual budget the rentals that are due and payable during each fiscal year the lessee has use of the leased property.

Installment Sale Agreements are debt obligations secured by the assignment of installment payments required to be paid by the City from certain pledged revenues, such as revenues from an enterprise, in an amount sufficient to pay the installment payments, including interest. The City's outstanding Installment Sale Agreements are payable solely from the City's Sewer Utility and is not secured by any pledge of ad valorem taxes or General Fund revenues of the City. These obligations do not constitute indebtedness under the State constitutional debt limitation and are not subject to voter approval.

Revenue Bonds are obligations payable from revenues generated by an enterprise, such as electric, water, or wastewater utilities. The City's outstanding utility Revenue Bonds are payable solely from the City's Electric Utility Enterprise Fund and are not secured by any pledge of ad valorem taxes or General Fund revenues of the City.

## Summary of FY 2025/26 and FY 2026/27 Debt Service

The Proposed Biennial Operating Budget Operating Budget includes \$27,222,944 in debt service for FY 2025/26 and \$27,232,680 for FY 2026/27. A ten-year debt service schedule is shown herein.

### 2013 Refunding Certificates of Participation (Central Park Library Project)

On March 28, 2013, the PFFC issued \$18.54 million of Refunding Certificates of Participation (2013 COPs) to provide funds to refund outstanding 2002A Certificates of Participation, which were originally issued to provide financing to build a new Central Park Library. The 2013 COPs mature annually beginning February 1, 2014 through February 1, 2032 and bear coupon rates ranging from 2.00% to 3.75%. Debt Service is secured by lease payments to be made by the City to the PFFC for use of the library site. The PFFC assigns the lease payments to the certificate owners.

### Installment Sale Agreement, Series 2016 (Trimble Road Sewer Project)

On March 8, 2016, the City entered into a \$12.0 million Installment Sale Agreement (the “ISA”) with the PFFC in order to provide funds for the Trimble Road Trunk Sanitary Sewer Improvement Project. The PFFC entered into a separate Assignment Agreement with DNT Asset Trust, a wholly owned subsidiary of JPMorgan Chase National Association (the “Agreement”), to assign its rights under the Installment Sale Agreement to DNT Asset Trust. The Agreement has an interest rate of 2.14% and semiannual payments are due beginning August 1, 2016 through February 1, 2031. Installment payments on the Agreement are secured by a pledge of net revenues of the Wastewater System.

### Installment Sale Agreement, Series 2020 (Regional Wastewater Facility)

The City co-owns the San Jose/Santa Clara Regional Wastewater Facility with the City of San José. The facility is being rebuilt, with the City’s portion of the costs budgeted as a separate project in the current Capital Improvement Program budget. The Water and Sewer Utilities Department works with the City of San Jose to oversee the project. On June 11, 2020, the City entered into an Installment Sale Agreement (the “ISA”) with the PFFC to provide funds for the San Jose/Santa Clara Regional Wastewater Facility Project (the “Project”). The PFFC entered into a separate Assignment Agreement with JPMorgan Chase Bank, N.A. (the “Assignment Agreement”), to assign its rights under the ISA to JPMorgan Chase Bank, N.A. The ISA in the amount of \$50.0 million carries a variable rate of interest equal to 80% of Term SOFR (Secured Overnight Financing Rate) plus SOFR adjustment of 0.10%, and plus 0.95% per annum.

The City drew down an initial \$20.0 million on the date of closing and did not make any additional draw downs. Installment payments on the Agreement were secured by a pledge of net revenues of the Wastewater System on a subordinate basis to the Trimble Road Installment Payments. This agreement and the \$20.0 million outstanding balance were refunded and defeased on October 24, 2023 by the debt issuance discussed immediately below.

### Wastewater Revenue Certificates of Participation, Series 2023 (Green Bonds – Climate Bond Certified)

On October 24, 2023, the PFFC issued \$34.59 million of Wastewater Revenue Certificates of Participation (2023 Wastewater COPs) to refund \$20.0 million outstanding Series 2020 ISA and fund an additional \$15.0 million of improvements for the San Jose/Santa Clara Regional Wastewater Facility Project (Project). The 2023 Wastewater COPs mature annually beginning February 1, 2025 through February 1, 2049 and bear coupon rates ranging from 4.25% to 5.00%. Debt Service is secured by a pledge of net revenues of the Wastewater System in installment payments to be made by the City to the PFFC for use of the Project. The PFFC assigns the lease payments to the certificate owners. This new issuance is on a parity with the obligations of the Series 2016 Trimble Road ISA.

### Senior Revenue Bonds, Series 2018A, Series 2024A

- Electric Revenue Refunding Bonds, Series 2018A

On December 18, 2018, Silicon Valley Power (SVP) issued \$48.80 million of Electric Revenue Refunding Bonds, Series 2018A (Electric 2018A Bonds) to refinance \$54.58 million outstanding principal amount of Variable Rate Demand Electric Revenue Bonds, Series 2008B and terminate a related interest rate swap transaction. The Electric 2018A Bonds mature annually beginning on July 1, 2019 through July 1, 2027 and bear coupon rates of 5.00%. Debt service on the Electric 2018A Bonds is secured by a pledge of net revenues of the Electric Utility Fund.

- Electric Revenue Refunding Bonds, Series 2024A

On October 23, 2024, SVP issued \$112,175,000 of Electric Revenue Bonds, Series 2024 A (Electric 2024A Bonds), to provide funding for several of its capital projects in the System Expansion Plan. These projects include Kifer Receiving Station (KRS) rebuild, Scott Receiving Station (SRS) rebuild, and Northern Receiving Station (NRS) upgrades and expansion. The Electric 2024A Bonds mature annually beginning on July 1, 2025 through July 1, 2044 and bear coupon rate of 5%, with optional redemption for bonds with maturities after July 1, 2035. Debt service on the Electric 2024A Bonds is secured by a pledge of net revenues of the Electric Utility Fund.

Subordinate Electric Revenue Refunding Bonds, Series 2020-1, 2020-2, and 2020-3

- Series 2020-1 Bonds

On April 10, 2020, SVP issued \$52.985 million of Subordinate Electric Revenue Refunding Bonds, Series 2020-1 (Electric 2020-1 Bonds) to refinance \$54.83 million outstanding principal amount of Electric Revenue Refunding Bonds, Series 2011 A. The Electric 2020-1 Bonds bear 1.74% coupon rates, mature annually beginning on July 1, 2028 through July 1, 2032, and were sold at an All-In True Interest Cost of 1.43%.

On April 2, 2021, the Electric 2020-1 Bonds were converted to tax-exempt basis, which now bear 1.36% coupon rates. Debt service on the Electric 2020-1 Bonds is secured by a pledge of Available Electric Revenues of SVP on a basis subordinate to outstanding Senior Electric Revenue Bonds, if any.

- Series 2020-2 Bonds

On April 10, 2020, SVP issued \$34.315 million of Subordinate Electric Revenue Refunding Bonds, Series 2020-2 (Electric 2020-2 Bonds) to refinance \$30.725 million of outstanding Electric Revenue Refunding Bonds, Series 2013 A. The Electric 2020-2 Bonds bear 1.31% coupon rates, mature annually beginning on July 1, 2023, through July 1, 2028, and were sold at an All-In True Interest cost of 1.21%.

On December 28, 2022, the Electric 2020-2 Bonds were converted to tax-exempt basis, which now bear 1.02% coupon rates. Debt service on the Electric 2020-2 Bonds is secured by a pledge of Available Electric Revenues of SVP on a basis subordinate to outstanding Senior Electric Revenue Bonds, if any.

- Series 2020-3 Bonds

On April 10, 2020, SVP issued \$16.72 million of Subordinate Electric Revenue Refunding Bonds, Series 2020-3 (Electric 2020-3 Bonds) to refinance \$19.413 million outstanding principal amount of Subordinated Electric Revenue Bonds, Series 2014. The Electric 2020-3 Bonds bear 0.58% coupon rates, mature annually beginning on July 1, 2020, through July 1, 2024, and were sold at an All-In True Interest Cost of 0.70%. Debt service on the Electric 2020-3 Bonds is secured by a pledge of Available Electric Revenues of SVP on a basis subordinate to outstanding Senior Electric Revenue Bonds, if any.

### Electric Debt Planned

SVP intends to issue additional new short term credit facility and/or long-term debt in FY 2025/26, in the amount of \$246 million, to finance several of its capital projects in the System Expansion Plan. These projects include Kifer Receiving Station (KRS) rebuild, Scott Receiving Station (SRS) rebuild, and Northern Receiving Station (NRS) upgrades and expansion. KRS was constructed in 1955 and the project will expand capacity to over 600MVA from 372 MVA plus other associated work. SRS was constructed in 1975 and the project will also expand capacity to over 600MVA from 372 MVA plus other associated work. NRS was constructed in 2002 and the project includes installing additional transformers and reconfiguring/expanding associated air insulated switchgear to increase station reliability and capacity. This new issuance and preliminary debt service amounts are reflected in the City's Debt Service Schedule.

**CITY OF SANTA CLARA

Note:

(1) Section 1309 of the City Charter of the City states: "Bonded Debt Limit. The bonded indebtedness of the City may not in the aggregate exceed the sum of fifteen percent (15%) of the total assessed valuation of property within the City, exclusive of revenue bonds or any indebtedness that has been or may hereafter be incurred for the purposes of acquiring, constructing, extending, or maintaining municipally owned utilities for which purposes a further indebtedness may be incurred by the issuance of bonds, subject only to the provisions of the State Constitution and this Charter."

## DEBT SERVICE FUNDS

Under the authority of the City Manager, the City executes debt instruments, oversees the accounting and reporting of debt, administers debt proceeds, manages continuing disclosure and debt compliance requirements, and makes debt service payments, while acting with prudence, diligence, and attention to prevailing economic conditions.

The City of Santa Clara uses debt financing as a tool to maintain its long-term financial stability by paying for certain expenditures over time. Debt financing is also a tool for managing cash flow when large, one-time outlays are required as in the case of constructing a new building or large-scale upgrades to infrastructure.

### Public Facilities Financing Corporation (431)

The City of Santa Clara Public Facilities Financing Corporation (PFFC) was formed in 1997 for the purpose of issuing Certificates of Participation (COPs) to provide financing for the construction of major City facilities. Members of the City Council are also members of the PFFC Board. Debt service on COPs is secured by lease payments made by the City's General Fund to the PFFC for use of the constructed facilities for public purposes. In accordance with lease agreements, the PFFC assigns lease payments received from the City to the trustee for payment to the certificate holders.

### Electric Utility Debt Service Fund (491)

The Electric Utility Debt Service Fund is used to pay principal, interest, and related service charges on obligations resulting from the issuance of debt by the Electric Utility. Bond proceeds are used to pay for capital costs associated with the Electric Utilities' generation, transmission and distribution facilities. Debt service is payable from Adjusted Net Revenues of the Electric Utility.

### Sewer Utility Debt Service Fund (494)

The Sewer Utility Debt Service Fund is used to pay principal, interest, and related service charges on obligations resulting from the issuance of debt by the Sewer Utility. Bond proceeds are used to pay for capital improvements associated with the Sewer System, including the Trimble Road Trunk Sanitary Sewer Improvement Project and the San José-Santa Clara Regional Wastewater Facility Project. Debt service is payable from Net Revenues of the Sewer Utility.

The following section details the City of Santa Clara's Debt Service Funds' Statements of Sources and Uses and the Proposed Budget for Fiscal Year 2025/26 and Fiscal Year 2026/27.

# **Ten-Year General Fund Financial Forecast 2026 - 2036**

**April 2025**

## PURPOSE

The Ten-Year General Fund Financial Forecast (Forecast) provides policy makers and the public an updated assessment of the City's fiscal health. The Forecast includes projections of ongoing General Fund revenues and expenditures for a ten-year period beyond the adopted biennial budget.

The Forecast serves as a strategic planning tool to assist the City Council, staff, and the public with decision-making as they work to adopt the budget and consider long-term financial strategies for the City. The Forecast also identifies known risk factors and vulnerabilities, and it provides a foundation for evaluating priorities and understanding trade-offs moving forward.

## GENERAL FUND OVERVIEW

The Forecast compares anticipated General Fund revenues with base expenditures, which include the projected costs of providing the current level of service. Individual projections of revenues and expenditures are developed based on trend analyses, input from available economic reports, consultant recommendations, departments, updated salary and benefit information, and non-personnel costs. The most current information available is incorporated into the Forecast and refined on a moving forward basis.

This Forecast shows a General Fund surplus of \$9.3 million in FY 2025/26, followed by small surpluses and shortfalls in the remaining years of the Forecast. The projected surplus in FY 2025/26 is equivalent to 2.8% of forecasted expenditures, while the shortfalls and surpluses in the out years ranging from -\$6.7 million to \$6.2 million equate to -1.8% to 1.4% of expenditures annually.

	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	2032/33	2033/34	2034/35
<b>Projected Revenues</b>	\$337.7	\$340.0	\$351.4	\$363.9	\$378.6	\$396.5	\$411.9	\$426.9	\$442.4	\$459.4
<b>Projected Expenditures</b>	\$328.4	\$340.1	\$353.2	\$370.6	\$383.5	\$398.7	\$409.9	\$425.0	\$437.2	\$453.2
<b>(Shortfall)/ Surplus</b>	<b>\$9.3</b>	<b>(\$0.1)</b>	<b>(\$1.8)</b>	<b>(\$6.7)</b>	<b>(\$4.9)</b>	<b>(\$2.2)</b>	<b>\$2.0</b>	<b>\$1.9</b>	<b>\$5.2</b>	<b>\$6.2</b>
<b>% of Expenses</b>	<b>2.8%</b>	<b>0.0%</b>	<b>(0.5%)</b>	<b>(1.8%)</b>	<b>(1.3%)</b>	<b>(0.6%)</b>	<b>0.5%</b>	<b>0.4%</b>	<b>1.2%</b>	<b>1.4%</b>

The Forecast compares ongoing revenues and expenditures to address the existing staffing and service levels. It does not factor in one-time funding sources or items funded on a pay-as-you-go method with one-time sources. The Forecast also does not address many unmet service needs including the following:

- The cost to fully fund capital infrastructure needs;
- Additional costs to restore frozen positions, add positions to address growth in the City, and add new services (e.g., homelessness response, public art program)
- Permanent funding for pilot programs such as Via Shuttle/SV Hopper and Vision Zero

- Enhanced funding to address the City's pension liability (the City is below the State average in pension funding)
- Additional contributions to Reserves (e.g., Budget Stabilization Reserve, Pension Reserve).

Historically, the City has funded many capital infrastructure and equipment needs with one-time funds on a pay-as-you-go basis. The lack of sufficient one-time funding has resulted in a backlog of unmet/deferred infrastructure needs. In November 2024, Santa Clara voters approved a \$400 million General Obligation Bond to address the most critical needs. There remains a need for ongoing funding to replace the City's infrastructure. For the first time, this Forecast begins to address that need with modest funding growing from \$1 million in FY 2025/26 to \$10 million in FY 2034/35. City staff recognizes the ongoing need to fully fund capital maintenance in the City is much larger, and staff will continue to evaluate options to create additional capacity for additional funds in this area.

The Forecast also does not take into consideration potential additional revenue from the Related project (future project phases) or revenue and staffing impacts of development projects. These revenue sources may improve the Forecast in the future, but the timing is not yet known. They will be factored in future Forecasts when there is more certainty.

In addition to the elements described above that are not factored into the Forecast, the City has identified various risk factors that could have a potential impact on the Forecast. These include:

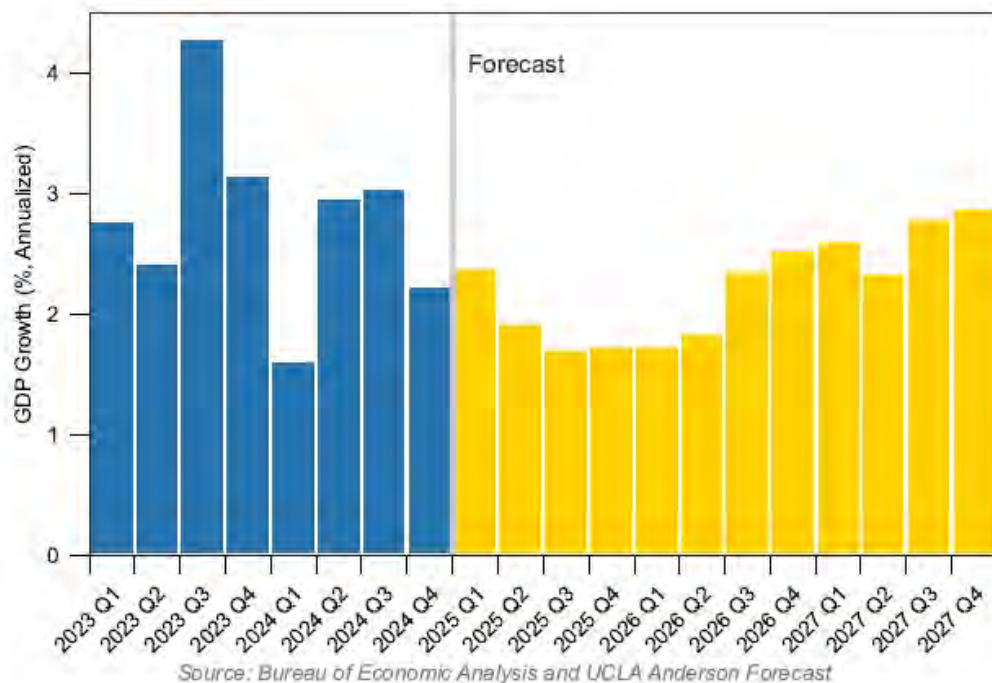

- Uncertainty regarding results of tariffs and other federal actions;
- State/federal legislative changes and legal challenges;
- Labor costs outside the budget assumptions;
- CalPERS actuarial changes or reform actions; and
- Unanticipated critical capital/infrastructure needs.

It is important to note that all forecasts have a level of uncertainty. Given the decreasing precision in later years of a forecast, those values provide a multi-year perspective rather than a precise prediction. As the City has experienced in the past, General Fund revenues may exceed or fall below expectations based on changes in economic or non-economic conditions. This type of volatility has been seen in the City's largest General Fund revenues, Property Tax, Sales Tax, and Transient Occupancy Tax (TOT). For example, TOT receipts were the most severely impacted by the COVID-19 pandemic. Various cost elements can also vary from year to year, such as retirement costs that are impacted by the earnings assumptions and performance of the California Public Employees Retirement System (CalPERS).

## ECONOMIC OUTLOOK

In its Spring 2025 Forecast, the UCLA Anderson Forecast points to significant uncertainty related to trade tariffs, fiscal policy, and geopolitical risk with the new administration. The Forecast predicts higher unemployment and higher prices in 2025 with some potential upside in 2027 and beyond. “As a result of the combined effects of deportations and tariffs, we expect GDP and productivity growth to decline in late 2025 by about 1 percentage point and to recover by the end of 2026. (2025Q1 negative productivity growth is due to U.S. Census data adjustment to the size of the labor supply.) The unemployment rate will simultaneously rise and hit 4.5% by the first quarter of 2026 and gradually recover afterwards to 4.0% in 2027. We expect inflation to remain elevated around 3 percent throughout 2025 and 2026. Tariffs will be the main cause of higher prices in 2025, while deportations will drive prices in 2026 via higher food and wage inflation of around 4 percent.”<sup>1</sup>

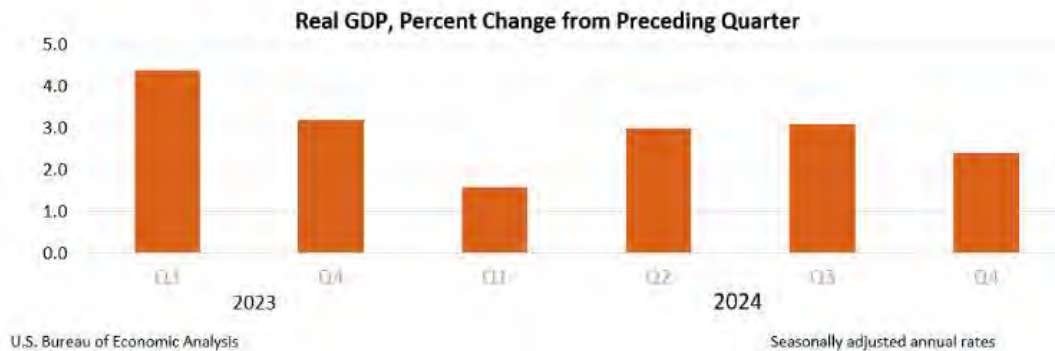

### U.S. Quarterly Real GDP Growth Forecast (UCLA Spring 2025 Economic Forecast)

In the fourth quarter 2024 third estimate, the Gross Domestic Product (GDP) increased by 2.4%, following a GDP increase of 3.1% in the third quarter. The increase in real GDP primarily reflected increases in consumer spending and government spending that were partially offset by a decrease in investment.<sup>2</sup>

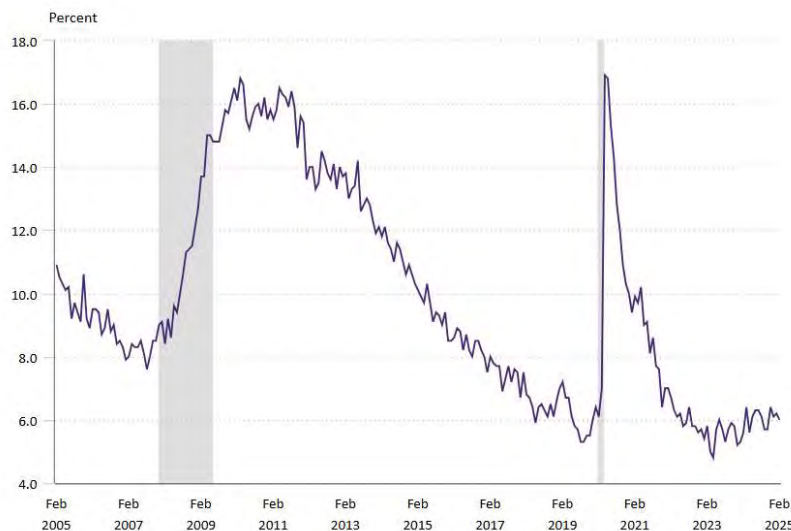

<sup>1</sup> UCLA Anderson Forecast Spring 2025 Economic Forecast, “A Tariff Amount of Uncertainty”, Clement Bohr

<sup>2</sup> <https://www.bea.gov/news/2025/gross-domestic-product-4th-quarter-and-year-2024-third-estimate-gdp-industry-and>

Employment data has remained positive with low unemployment rates. On a national level, the unemployment rate was 4.1% in February 2025, which is slightly above the 3.9% in February 2024. The unemployment rate has remained in a narrow range of 4.0% to 4.2% since May 2024<sup>3</sup>.

### U.S. Civilian Unemployment Rate, seasonally adjusted

Note: shaded area represents recession, as determined by the National Bureau of Economic Research  
Source: U.S. Bureau of Labor Statistics

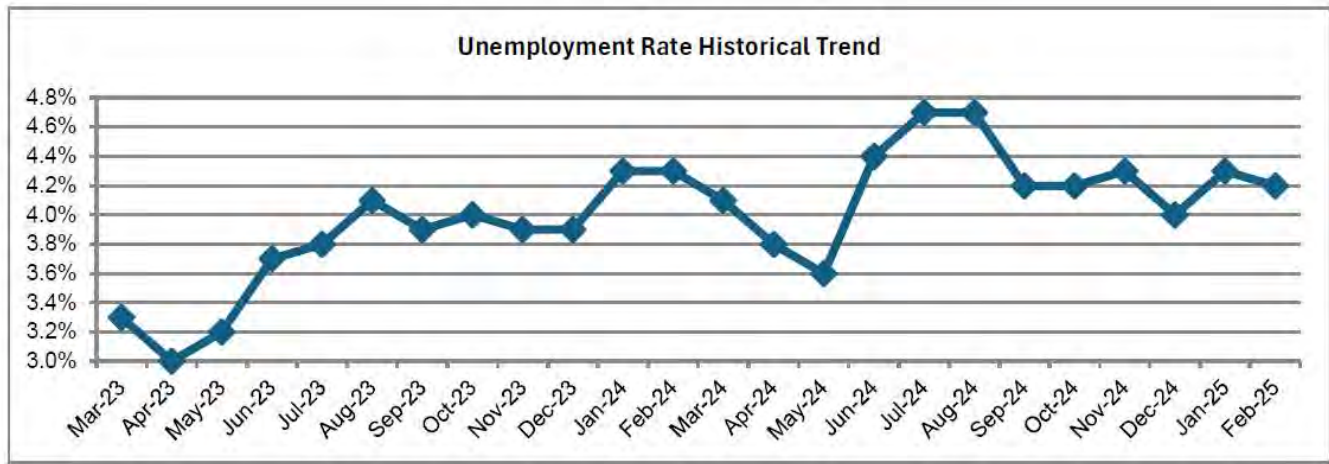

The unadjusted unemployment rate in the San José-Sunnyvale-Santa Clara Metropolitan Statistical Area (MSA) was 4.2% in February 2025, down slightly from a revised 4.3% in January 2025, and below the February 2024 estimate of 4.3%. Between February 2024 and February 2025, employment in this region decreased by 5,300 jobs, or 0.5%. Notable employment reductions were in professional and business services (down 5,100 jobs), manufacturing (down 3,000 jobs), information (down 3,000 jobs), and leisure and hospitality (down 2,200 jobs). The largest increases were in private education and health services (up 8,900 jobs).<sup>4</sup>

## San Jose-Sunnyvale-Santa Clara Metropolitan Statistical Area

Property values in Santa Clara remain high. In 2024, the median price of a single-family home totaled \$1.95 million, which was up from the 2023 level of \$1.7 million as shown in the Single-Family Residential Home Sales chart. The number of closed sales also increased from 380 in 2023 to 418 in 2024. However, this sales volume remains below historical levels.

Data Source: Santa Clara County Association of Realtors

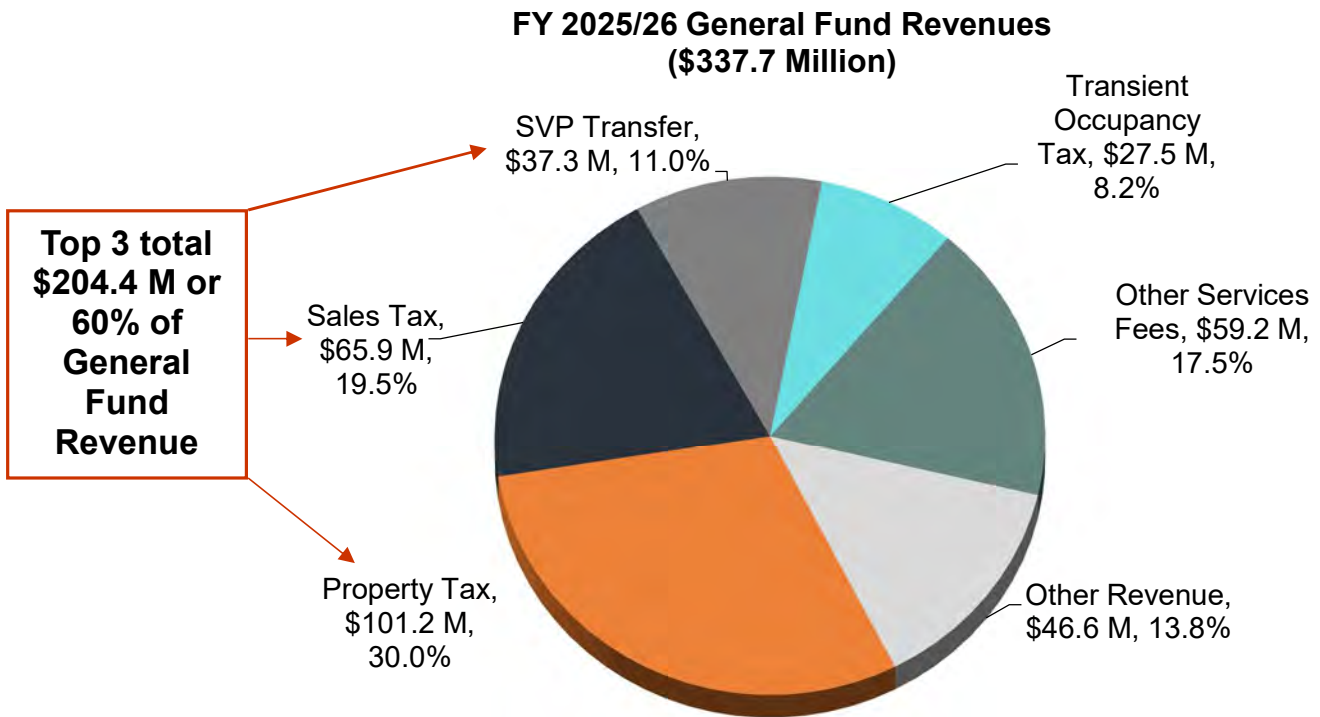

There are significant development projects underway in Santa Clara that will bring new revenues as well as new costs. The financial impacts of these developments have not been factored into this forecast given the uncertainty regarding the timing. However, it is anticipated that this additional development activity will have a positive impact on the forecast.

## GENERAL FUND REVENUES

There are several General Fund revenue sources supporting the City's activities as shown in the table below.

	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	2032/33	2033/34	2034/35

<b>Total Sources</b>	<b>\$337.7</b>	<b>\$340.0</b>	<b>\$351.4</b>	<b>\$363.9</b>	<b>\$378.6</b>	<b>\$396.5</b>	<b>\$411.9</b>	<b>\$426.9</b>	<b>\$442.4</b>	<b>\$459.4</b>
<b>% Change from Prior Yr</b>		0.7%	3.4%	3.6%	4.0%	4.7%	3.9%	3.6%	3.6%	3.8%

Sales tax and property tax comprise the largest individual sources of General Fund revenues, representing a combined \$167 million in FY 2025/26, or approximately 50% of the total. These categories along with the Silicon Valley Power (SVP) Transfer account for approximately 60% of the General Fund revenues.

Following is a discussion of the major General Fund revenue categories:

### Property Tax

The Property Tax category includes Secured and Unsecured Property Taxes. The County of Santa Clara Office of the Assessor and the Controller-Treasurer Department meets quarterly with cities to review property tax revenue allocated to Santa Clara County cities. The Controller-Treasurer Department provides projections on the current year property tax receipts, including updates on the assessed valuation and estimates on anticipated adjustments made from property tax appeals. The current year estimates are used as the starting point in the forecast. The County Assessor's Office also provides information to cities on a monthly basis on the status of the assessment roll for the upcoming year.

In FY 2025/26, property tax revenue is projected at \$101.2 million and includes secured property tax of \$98.0 million and unsecured property tax of \$3.2 million. Assessed valuation growth on secured property is projected at 5.0% and reflects the annual inflation factor based on Consumer Price Index (2% increase in FY 2025/26), growth due to property sales, and a general allowance for new construction projects being added to the tax rolls. In the remaining years of the forecast, annual assessed valuation growth

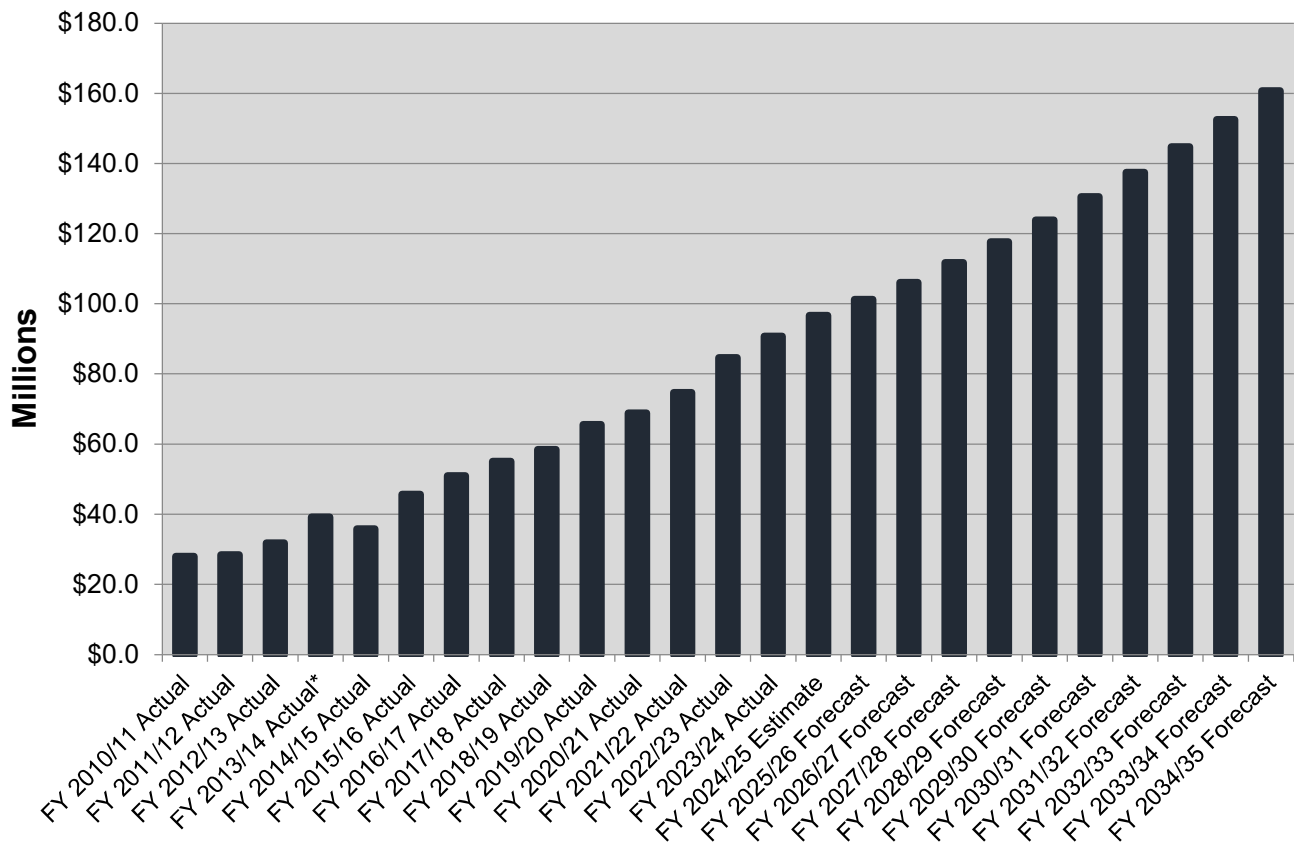

ranging from 5.0% to 5.5% is projected. By the end of the forecast period, Property Tax receipts are projected to reach \$160.7 million.

Secured Property Tax receipts include general secured property tax along with supplemental property tax (retroactive collections back to the point of sale for reassessments of value due to property resale), residual Redevelopment Agency (RDA) receipts, and excess Educational Revenue Augmentation Fund (ERAF) funds (under Proposition 98, a portion of property tax receipts are allocated to the ERAF beginning in 1992 and once there are sufficient funds in ERAF to fulfill the obligation to the school districts, excess funds are returned to the taxing entities that contributed the funding). The excess ERAF funds are projected at \$6.7 million in FY 2025/26. The County of Santa Clara has indicated that approximately 18% of the ERAF receipts are at risk due to legal challenges regarding the allocation of these funds. Given this risk, the ERAF funds in dispute are set aside in an ERAF Reserve in the General Fund. In FY 2025/26, the contribution to this reserve totals \$1.2 million.

Unsecured Property Tax receipts are projected to increase 2% annually over the Forecast period.

Collections are expected to grow at an average annual rate of 5.3% over the forecast period.

**Property Tax Actual and Projected Collections**

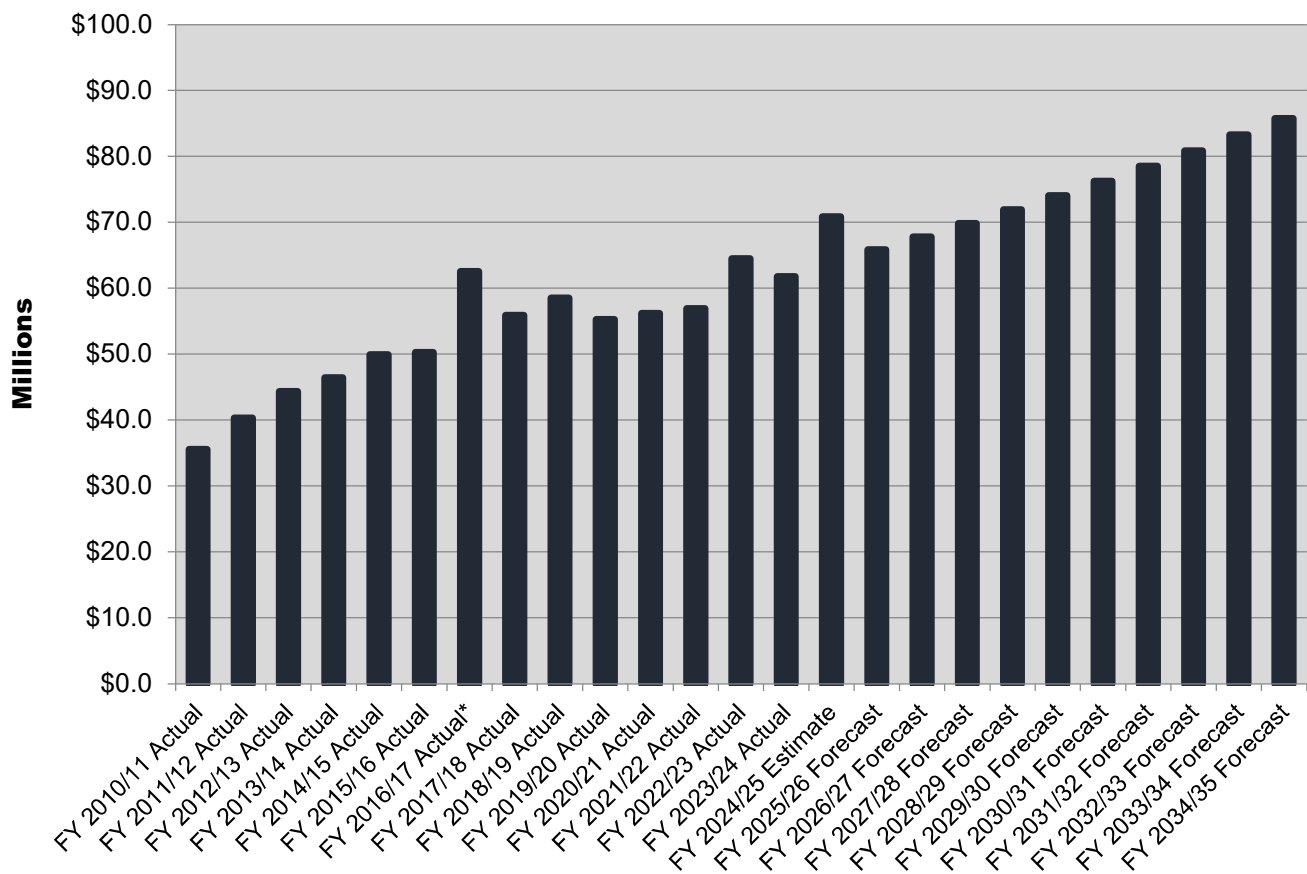

Note: FY 2013/14 includes one-time \$6.1 million due to Redevelopment Agency dissolution

## Sales Tax

Santa Clara's sales tax collections are directly influenced by local, regional, national and international economic and business cycles. Because of this, sales tax collections are one of the most economically sensitive General Fund revenue sources. This category is also one of the most volatile with significant changes from year to year.

As shown in the chart below, sales tax collections are expected to total \$70.9 million in FY 2024/25, which is up from the \$61.8 million received in FY 2023/24; receipts experienced unusually high growth of 32.5% in the first two quarters of FY 2024/25 due primarily to increases in the business-to-business sector. This Forecast conservatively assumes that a portion of that growth is one-time in nature. Sales tax revenue is projected to decrease to \$65.9 million in FY 2025/26. Annual growth of 3.0% is projected in the out years of the forecast as the sales tax growth rates normalize over this period. Based on these projections, annual collections will reach \$85.7 million by FY 2034/35. These projections are informed by data provided by the City's sales tax consultant, Avenu Insights & Analytics.

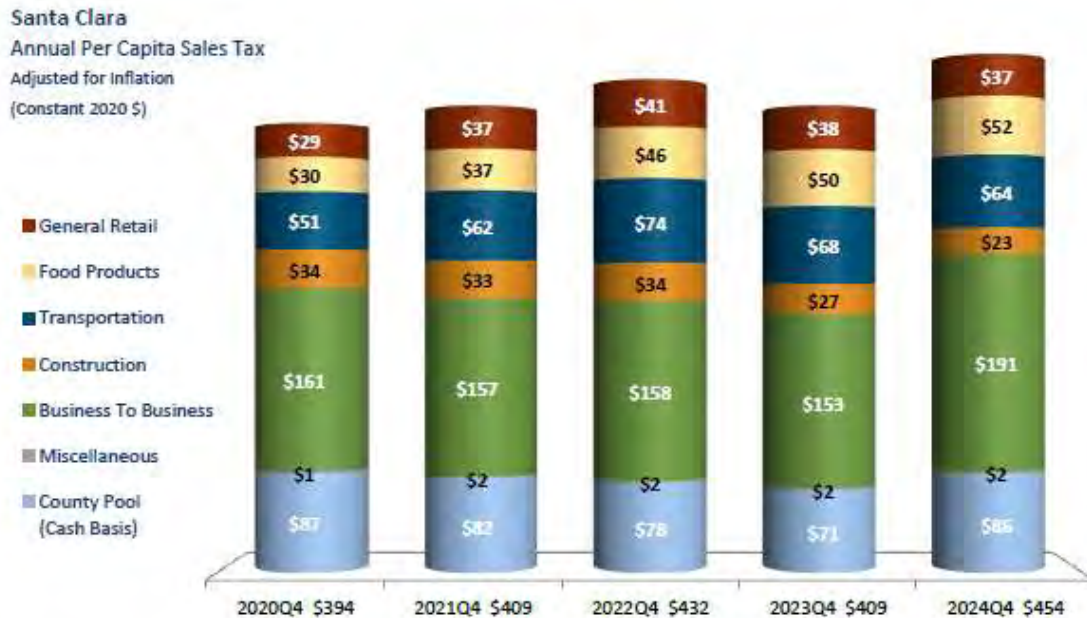

**Sales Tax Actual and Projected Collections**

Note: FY 2016/17 includes a one-time true-up payment due to the unwinding of the State's Triple Flip.

To provide context on how the City generates its sales tax revenues and the performance in recent years, the chart on the following page breaks out the sales tax per capita for the fourth quarter of each calendar

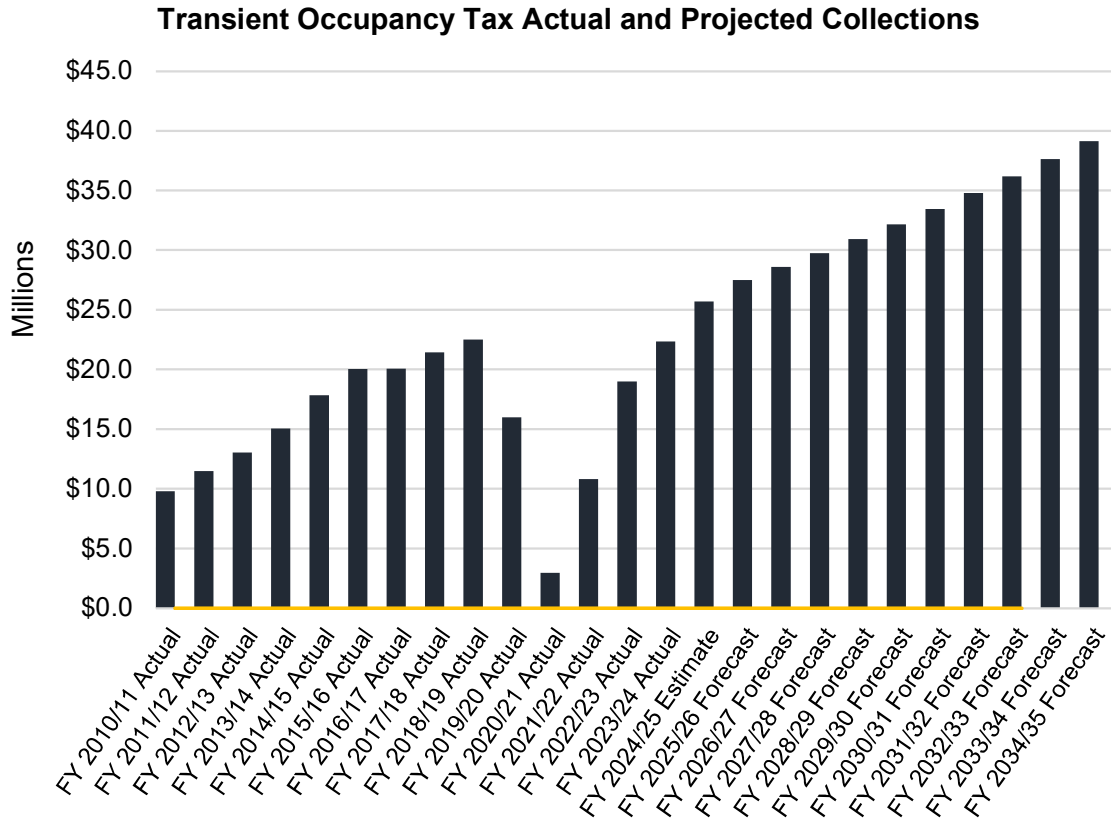

year for the past five years, adjusted for inflation. As shown in the chart, the City's largest sector is Business-to-Business, which continues to provide the foundation for the City's tax base.

## Transient Occupancy Tax

Transient Occupancy Tax (TOT) is calculated as a percentage of City hotel/motel room charges. The City's current TOT rate is 13.5%. This rate increased from 12.5% to 13.5% effective January 1, 2025. As with sales tax, TOT is sensitive to business cycles and can vary greatly from year to year based on occupancy levels and room rates. Prior to COVID-19, this category had experienced tremendous growth as shown in the TOT chart on the following page. With the COVID-19 safety restrictions, TOT receipts plummeted at the end of FY 2019/20 and through FY 2020/21. Of all the City's revenue categories, TOT was the most impacted by the pandemic. Actual collections over the last few years continue to make up some of the lost ground but remain below pre-COVID levels when factoring in the rate increases that have been implemented (from 9.5% to 13.5%).

TOT collections are projected to continue to increase over the forecast period with estimated receipts of \$27.5 million in FY 2025/26. This figure factors in the TOT rate increase from 12.5% to 13.5% in January 2025. In the remaining years of the forecast, annual growth of 4.0% is projected. By the end of the Forecast period, TOT receipts are projected to reach \$39.1 million.

## Other Taxes

Other Taxes include the Franchise Tax and Documentary Transfer Tax. The Franchise Tax revenues are projected at \$5.6 million in FY 2025/26 with annual 4% increases in the out years of the Forecast. The Documentary Transfer Tax, which is imposed on the transfer of the title of real property, is projected at \$1.6 million in FY 2025/26 with 2% annual increases in the out years of the Forecast.

## Licenses and Permits

Licenses and Permits are projected to total \$9.1 million in FY 2025/26, including business licenses at \$6.2 million, fire permits at \$2.0 million, parking permits at \$850,000, and encroachment and miscellaneous permits at \$26,000. Average annual growth of 2.4% is projected in the out years of the Forecast, with revenues reaching \$11.2 million in FY 2034/35.

## Fines and Penalties

Fines and Penalties are projected at \$1.6 million in FY 2025/26 and annually throughout the Forecast period.

## Interest Income

The City invests all funds not needed for current cash requirements in accordance with the City Council-approved Investment Policy. These funds are invested in securities having a maximum maturity of five

years. The factors that directly influence General Fund interest income include prevailing interest rates, the size of the portfolio and the relative percentage of the portfolio allocated to the General Fund. Based on the projected interest rates and cash balances, the General Fund is expected to receive \$6.2 million in interest in FY 2025/26. In the remaining years of the Forecast, interest earnings are projected to fluctuate annually primarily due to interest rate assumptions, ranging from \$5.4 million to \$6.4 million.

## **Rents**

The Rents category includes property rents and leases as well as right-of-way rental fees charged to the water, recycled water, and sewer utilities. In FY 2025/26, rent revenue is estimated to total \$16.5 million, including \$10.0 million from property rents and leases and \$6.5 million from right-of-way rental fees. This category factors in projected lease revenue from the Related project (\$0.9 million in FY 2025/26 increasing to \$1.8 million in FY 2034/35; assumes Phase I of the project. This category also includes Stadium performance rent, which totals \$2.2 million in FY 2025/26 that varies throughout the forecast period. Growth projections for the out years of the Forecast are based on individual lease agreements. Rent revenue is projected to reach \$22.5 million by FY 2034/35.

## **Other Services Fees**

The Other Services Fees category includes fees charged for various City services provided by the departments of Community Development, Fire, Police, Parks and Recreation, and Public Works as well as cost allocation plan reimbursements and Stadium-related reimbursements. This category is estimated to generate \$59.2 million in FY 2025/26 and includes one-time Host Committee reimbursements for City costs. This category is expected to drop to \$50.4 million in FY 2026/27 and reflects the removal of one-time reimbursements. Growth is expected in the out years of the Forecast and reach \$57.3 million by FY 2034/35.

## **Transfers from Other Funds**

The Transfers from Other Funds totals \$1.6 million in FY 2025/26 and includes the following: a transfer of \$1.4 million from the Storm Drain Capital Fund to support storm drain operations; and a transfer of \$0.2 million from the Building Development Services Fund to cover a portion of the Code Enforcement costs that support development activity. In the out years of the Forecast, the transfers total \$1.7 million and include the transfers from the Storm Drain Capital Fund and the Building Development Services Fund.

## **Silicon Valley Power Transfer**

In accordance with the City's charter, Silicon Valley Power pays 5.0% of gross revenues to the General Fund. Contributions are estimated at \$37.3 million in FY 2025/26 and are projected to increase to \$57.8 million by FY 2034/35, increasing at an annual rate of 5%. Growth in this category is primarily driven by market projections for electric consumption, resources costs, and any retail rate increase assumed for the Electric Utility.

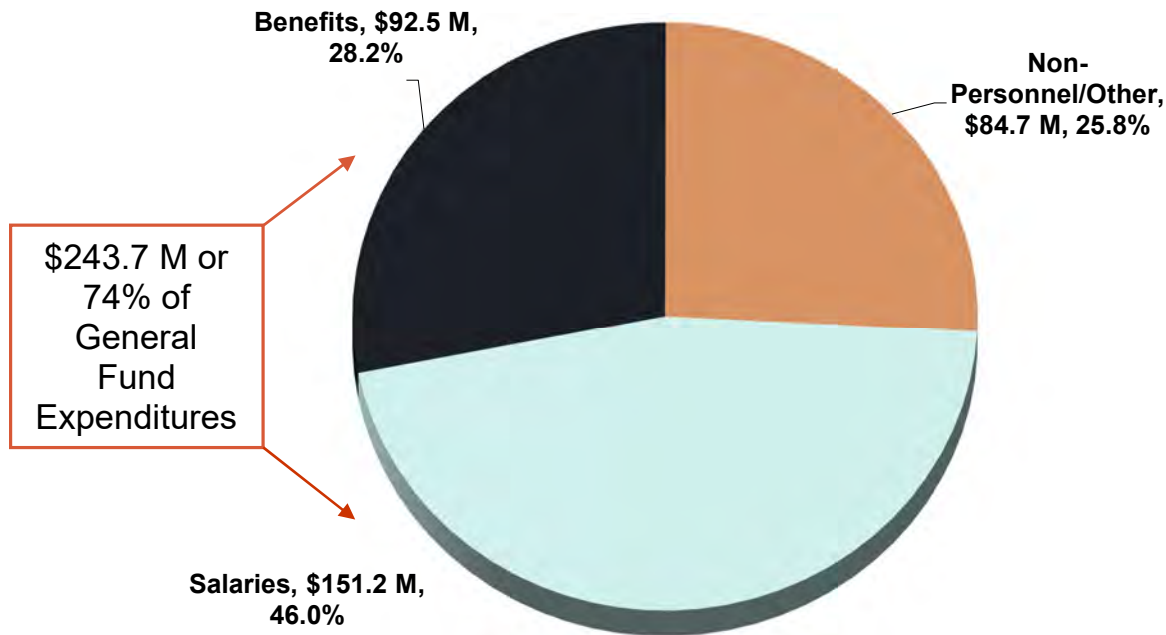

## GENERAL FUND EXPENDITURES

Expenditures are projected to grow from \$328.4 million in FY 2025/26 to \$453.2 million by the end of the forecast period. FY 2025/26 expenditures are 5.0% above the FY 2024/25 Adopted Budget of \$312.6 million primarily due to the higher salaries and wages, retirement, health, and interfund services costs.

	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	2032/33	2033/34	2034/35

**FY 2025/26 General Fund Expenditures by Type  
(\$328.4 Million)**

### Labor Costs

Labor costs, which include salary, retirement and other benefit costs, are projected at \$243.7 million in FY 2025/26. These costs are derived from a position-level analysis of City staffing, including actual salary and benefit information, negotiated salary and benefit adjustments for bargaining groups that have current Memorandums of Understanding with the City, projected adjustments for the out years of the forecast, and retirement information from the California Public Employees Retirement System (CalPERS) and the City's actuary.

Over the Forecast period, these costs are projected to increase an average of 3.4% annually and reach \$327.8 million by FY 2034/35.

### Retirement Costs

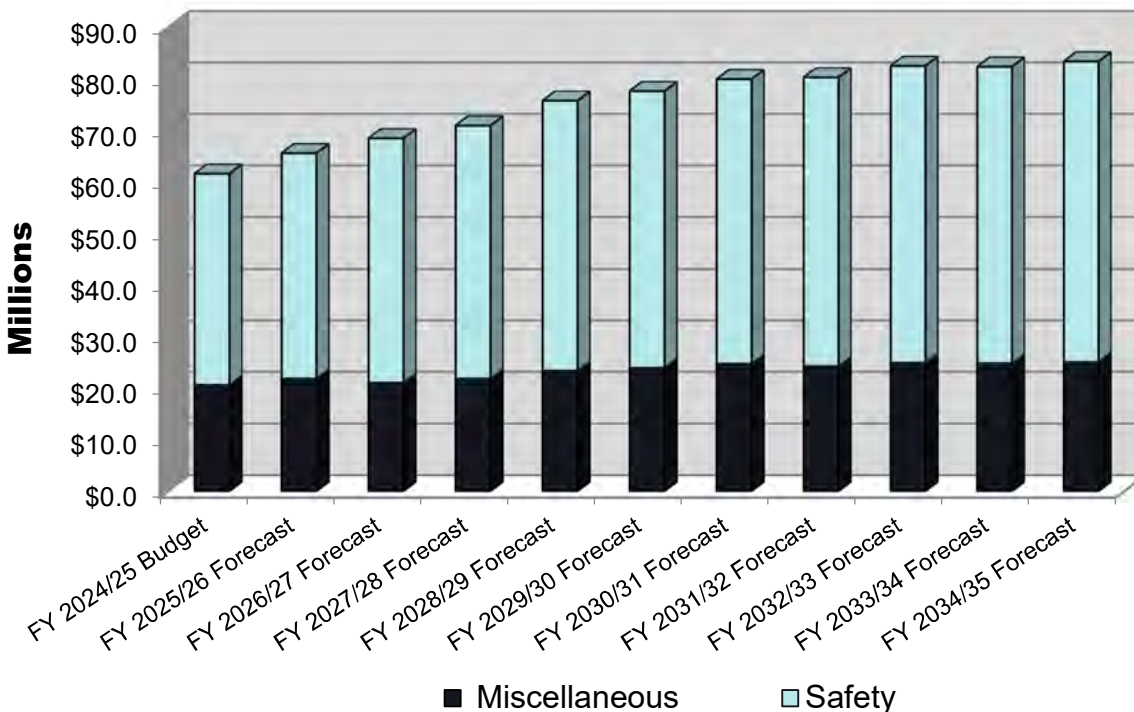

Retirement costs represent one of the largest components of labor costs. The City contributes to CalPERS, which provides a defined benefit plan for participating public entities within the State of California. CalPERS offers a menu of benefit provisions that are established by State statutes within the Public Employee Retirement Law. The City selected its benefit provisions from the benefit menu by contract with CalPERS and adopted those benefits through local ordinance, following negotiations with employee bargaining groups.

CalPERS retirement costs rose sharply as a result of the market losses in the early 2000s followed by benefit enhancements in the mid-2000s. In FY 2011/12, General Fund pension costs were \$18.9 million; by FY 2025/26, pension costs are projected to be \$65.4 million. By the end of the Forecast period, PERS expenditures are projected to reach \$83.3 million and will account for an estimated 20% of General Fund expenditures.

On December 21, 2016, the CalPERS Board approved lowering the investment earnings assumption (discount rate) downward from 7.5% to 7.0% over a three-year period. This change increased rates beginning in Fiscal Year 2018/19. In February 2018, the CalPERS Board approved shortening the period over which actuarial gains and losses are amortized from 30 years to 20 years for new pension liabilities. This policy became effective as of the June 30, 2019, CalPERS actuarial valuations. Beginning in FY 2022/23, the investment earnings assumption was lowered to 6.80% per year. In April 2024, the Board took action to modify the Funding Risk Mitigation Policy to remove the automatic change to the discount rate when the investment return exceeds the various thresholds. Rather than an automatic change to the discount rate, a board discussion would be placed on the calendar. Additional actions may be implemented in the future as part of a risk mitigation strategy to move to more conservative estimates over time to reduce volatility, including additional downward revisions to the discount rate.

Year-by-year pension rate projections are shown below. These projections incorporate rates provided by CalPERS and by the City's actuary.

### General Fund PERS Costs

## **Materials, Services, Supplies and Capital Outlay**

The materials, services and supplies budget for FY 2025/26 is \$40.0 million, which is above the FY 2024/25 Adopted Budget level of \$39.7 million and reflects anticipated increases in costs. The budget also reflects the elimination of one-time costs budgeted in FY 2024/25, including those that were carried over from FY 2023/24 to FY 2024/25. Expenditures are projected to reach \$56.5 million by FY 2034/35. Certain costs occur every other year, such as election costs, and are reflected in those years. Starting in FY 2027/28, approximately \$1.0 million in expenditures that have historically been budgeted in the capital budget are assumed to be shifted to the operating budget due to the nature of these expenditures (street tree services; storm drain repairs and maintenance; and storm drain pump station motor and control maintenance, repair and replacement).

### **Capital Outlay**

The Capital Outlay category accounts for equipment with a unit cost of \$1,000 or more and an estimated useful life of over one year or minor capital improvements. This category totals \$0.6 million in FY 2025/26 and primarily includes ongoing costs shifted from the capital budget for personal protective equipment, defibrillator replacement, and thermal image camera replacement for the Fire Department.

### **Interfund Services**

Interfund services include the General Fund contribution to several internal service funds, including Communications Acquisitions, Fleet Operations, Information Technology Services, Special Liability Insurance, Unemployment Insurance, Vehicle Replacement, and Workers' Compensation. In FY 2025/26, these costs are estimated at \$34.3 million and increase to \$45.0 million by FY 2034/35. These estimates are based on an evaluation of the activity levels in each internal service fund.

### **Loans and Transfers**

This category includes debt service payments, transfers to the Cemetery Fund, transfers to capital funds for Public Works Capital Project Management, and the City's contributions to parking maintenance and Convention Center maintenance, and limited funding for capital projects. These costs are estimated at \$7.6 million in FY 2025/26 and remain relatively steady throughout the forecast period. This category does not reflect the one-time funds transferred from the General Fund Capital Projects Reserve to support capital projects.

### **Reserves/Fund Balance**

This category includes contributions to the Property Tax Education Revenue Augmentation Fund (ERAF) Reserve. As discussed in the Property Tax revenue section above, excess ERAF funds are projected at \$6.7 million in FY 2025/26. The County of Santa Clara has indicated that approximately 18% of the ERAF receipts are at risk due to legal challenges regarding the allocation of these funds. Given this risk, the ERAF funds in dispute are set aside in an ERAF Reserve in the General Fund. In FY 2025/26, the contribution to this reserve totals \$1.2 million and increases to \$1.9 million by FY 2034/35. Through FY 2024/25, the reserve balance totals \$6.7 million.

Starting in FY 2025/26, funding is assumed for capital projects (\$1.0 million in FY 2025/26 that increases to \$10.0 million by FY 2034/35) that is set aside in the Capital Projects Reserve. This provides ongoing

funding to address the City's capital infrastructure needs. In the out years of the Forecast, funding is also set aside in the Unrestricted Fund Balance to address any higher than anticipated costs that occur during the year.

## RESERVES

Reserves have generally been established with one-time funds and are not reflected in the Forecast figures. Reserves, however, are an important component of the budget. Following is a discussion of the major General Fund Reserves.

**Budget Stabilization Reserve:** During FY 1985/86, the City Council established a policy regarding use of the City's General Contingency Reserve funds. Under that policy, two separate reserves were established, a Budget Stabilization Reserve (formerly known as the Working Capital Reserve) and a Capital Projects Reserve. The Budget Stabilization Reserve (BSR) is set aside to protect vital General Fund services through economic downturns, emergency financial crisis, or disaster situations. The reserve target is equal to the expenditures of the City's General Fund operations for three months (90-days or 25% of budgeted appropriations). In recent years, the City Council has approved an exception to the 25% BSR target level to address the impacts associated with COVID-19, allowing the reserve to drop to 15% of expenditures. The BSR reserve currently totals \$69.1 million in the FY 2024/25 Amended Budget; this equates to 23% of the expenditures in the FY 2024/25 Amended Budget and 22% of the expenditures in the FY 2025/26 Forecast.

**Capital Projects Reserve:** This reserve is set aside to fund the portion of the City's Capital Improvement Program (CIP) that has no other funding sources to support it. The projects funded from this critical reserve provide basic City infrastructure and quality facilities. The Council adopted a policy in FY 1996/97 to maintain a minimum of \$5.0 million in the Capital Projects Reserve (CPR). The CPR reserve currently totals \$7.8 million in the FY 2024/25 Amended Budget. The Forecast assumes annual contributions to the Reserve, from \$1.0 million in FY 2025/26 and increasing to \$10.0 million by FY 2034/35.

**Land Sale Reserve:** This reserve sets aside proceeds from land sales to be used for land-related purposes or other General Fund needs as determined by the City Council. This reserve currently totals \$18.5 million in the FY 2024/25 Amended Budget.

**Pension Stabilization Reserves:** These reserves in the General Fund and other City funds have targeted contributions that would fund 1% of the City's unfunded pension liability annually to address the City's pension unfunded accrued liability. For the General Fund, this reserve currently totals \$34.6 million in the FY 2024/25 Amended Budget.

## CONCLUSION

The Forecast provides policy makers, the public, and City staff an updated assessment of the City's financial condition that considers the latest projections of economic conditions. It serves as a starting point in the budget development process by providing the necessary context for making budget decisions. The Forecast also identifies known risk factors and vulnerabilities, and it provides a foundation for evaluating priorities and understanding trade-offs moving forward.

The Ten-Year General Fund Forecast shows improvement with a surplus in FY 2025/26 followed by small shortfalls and surpluses in the remaining years. This improvement is the result of stronger revenue growth since the last Forecast that was realized during a period of solid economic growth. However, there is now a significant amount of economic uncertainty related to trade tariffs, fiscal policy, and geopolitical risk with the new administration. It is unknown how these factors will impact our local economy.

While the Forecast is close to being in balance, there are elements of the City's budget that are not included in the Forecast. These include the costs to fully fund capital improvements that rely on General Fund, restore all frozen positions, fund new positions for core services to address growth, and make additional contributions to reserves. The Forecast also does not incorporate the financial impacts of new developments that may have a positive impact given the uncertainty regarding the timing.

This Forecast serves as a strategic planning tool to help meet the City's long-term goal to plan for additional fiscal capacity and bring forward sustainable funding strategies to address these unmet cost elements.

This page is intentionally left blank.

## GENERAL FUND

The General Fund is the primary fund of the City that is used to account for all revenues and expenses that are not restricted by law or policy to be accounted for in another fund. The General Fund supports many of the most visible and essential City services including libraries, parks, police, and fire protection. The General Fund also includes many departments that provide central services including the City Manager, City Attorney, City Clerk, Mayor and City Council, Finance, and Human Resources offices and departments.

### General Fund Sources

General Fund sources total \$505.0 million in FY 2025/26 and \$511.8 million in FY 2026/27. In FY 2025/26, this consists of \$167.5 million in fund balance estimated to be carried over from FY 2024/25, \$335.8 million in revenue, and \$1.7 million in transfers from other funds. Total sources are up \$26.5 million from the FY 2024/25 Amended Budget, reflecting an increase in revenues and transfers (\$29.3 million), partially offset by a slight decrease in the beginning fund balance (\$2.8 million). The increase in the beginning fund balance is primarily due to additional fund balance from the close out of FY 2023/24 to the Budget Stabilization Reserve and the Pension Stabilization Reserve as well as the carryover of one-time performance rent and excess revenue from the Stadium and additional projected sales tax revenue from FY 2024/25. The growth in revenues primarily reflects increases in Property Tax, Transient Occupancy Tax, and Other Services Fees, including one-time reimbursements for City costs related to the Super Bowl and FIFA World Cup events. As part of the budget process, estimates are developed for each line item, taking into consideration activity projections, historical trends, and the economic environment.

The table below summarizes the projected sources of General Fund revenues and transfers in this budget.

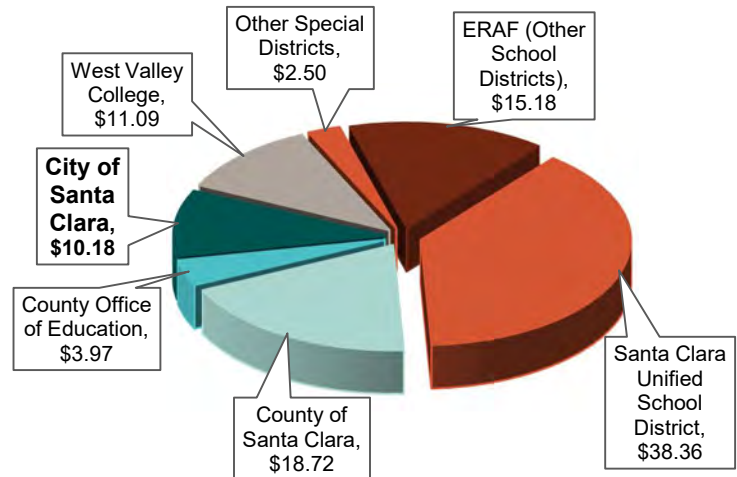

Funding Source	FY 2023/24 Actual	FY 2024/25 Amended	FY 2024/25 Estimate	FY 2025/26 Proposed	FY 2026/27 Change	FY 2026/27 Proposed
Property Tax	90,710,410	94,391,000	94,391,000	101,181,000	4,837,000	106,018,000

The largest economically sensitive revenue categories (property tax, sales tax, and transient occupancy tax) account for approximately 60% of General Fund revenues. Following is a discussion of these categories as well as other major General Fund revenue categories.

## Property Tax

Property tax is the largest revenue source for the City, representing approximately 30% of revenues. Under Proposition 13, the assessed valuation of properties held by the same owner from year to year is adjusted each year by the lesser of 2.0% or the percent change in the annual California Consumer Price Index (CCPI). For FY 2025/26, the adjustment factor based on CCPI is 2.0%. Beyond the inflation adjustment, growth in property tax receipts is driven by reassessments upon the sale of properties and new construction projects being added to the tax rolls. In FY 2025/26, assessed valuation growth on secured property is projected at 5.0%

**Property Tax Distribution per \$100 Collected**

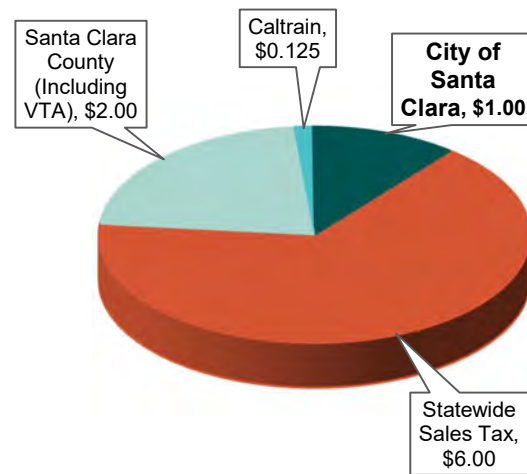

In FY 2025/26, property tax revenue is projected at \$101.2 million and includes secured property tax of \$98.0 million and unsecured property tax of \$3.2 million. Collections are projected to increase 4.8% in FY 2026/27 to \$106.0 million. Secured Property Tax receipts include general secured property tax along with supplemental property tax (retroactive collections back to the point of sale for reassessments of value due to property resale), residual Redevelopment Agency (RDA) receipts, and excess Educational Revenue Augmentation Fund (ERAF) funds (under Proposition 98, a portion of property tax receipts are allocated to the ERAF beginning in 1992 and once there are sufficient funds in ERAF to fulfill the obligation to the school districts, excess funds are returned to the taxing entities that contributed the funding). The excess ERAF funds are projected at \$6.7 million in FY 2025/26 and \$7.0 million in FY 2026/27. The County of Santa Clara has indicated that approximately 18% of the ERAF receipts are at risk due to legal challenges regarding the allocation of these funds. Given this risk, the ERAF funds in dispute are set aside in an ERAF Reserve in the General Fund. The contribution to this reserve totals \$1.2 million in FY 2025/26 and \$1.3 million in FY 2026/27.

Unsecured property tax is assessed on personal property that is tangible or moveable and is not attached to real estate (e.g., office equipment, planes, boats). Unsecured property tax receipts are projected to increase 2% annually to \$3.2 million in FY 2025/26 and \$3.3 million in FY 2026/27.

## Sales Tax

Sales tax is the General Fund's second largest revenue. The City's current sales tax rate is 9.125%, of which the City of Santa Clara receives 1%. Santa Clara's sales tax collections are directly influenced by local, regional, national, and international economic and business cycles and are therefore one of the most volatile General Fund revenues. Sales tax revenue is projected at \$65.9 million in FY 2025/26, which is below the FY 2024/25 estimate. Collections in FY 2024/25 have experienced unusually high growth due to increases in the business-to-business sector.

**Sales Tax Distribution per \$100 Collected**

## Transient Occupancy Tax

Transient Occupancy Tax (TOT) is calculated as a percentage of City hotel/motel room charges. The City's current TOT rate is 13.5%. This rate increased from 12.5% to 13.5% effective January 1, 2025. As with sales tax, TOT is sensitive to business cycles and can vary greatly from year to year based on occupancy levels and room rates. Prior to COVID-19, this category had experienced tremendous growth. Of all the City's revenue categories, TOT was the most impacted by the pandemic. Actual collections over the last few years continue to make up some of the lost ground but remain below pre-COVID levels when factoring in the rate increases that have been implemented (from 9.5% to 13.5%). TOT collections are projected to continue to increase with estimated receipts of \$27.5 million in FY 2025/26 and \$28.6 million in FY 2026/27.

## Franchise Tax and Documentary Transfer Tax

The Franchise Tax revenues are projected at \$5.6 million in FY 2025/26 and \$5.8 million in FY 2026/27. The Documentary Transfer Tax, which is imposed on the transfer of the title of real property, is projected at \$1.6 million in FY 2025/26 and \$1.63 million in FY 2026/27.

## Licenses and Permits

Licenses and Permits are projected to total \$9.1 million in FY 2025/26, including business licenses at \$6.2 million, fire permits at \$2.0 million, parking permits at \$850,000, and encroachment and miscellaneous permits at \$26,000. The revenue estimate for FY 2026/27 totals \$9.3 million. The Business Tax category factors in annual CPI adjustments.

## Rents and Leases

The Rents category includes property rents and leases as well as right-of-way rental fees charged to the water sewer and utilities. In FY 2025/26, rent revenue is estimated to total \$16.5 million, including \$7.9 million from property rents and leases, \$6.5 million from right-of-way rental fees and \$2.15 million from Santa Clara Stadium Authority performance rent. The property lease revenue includes Phase 1 of the Related project (\$898,000 in FY 2025/26). Rental income for the Commerce and Peddlers Plaza is not assumed in this budget. In FY 2026/27, the Rents category increases to \$17.8 million.

## **Other Services Fees**

The Other Services Fees category includes fees charged for various City services provided by the departments of Community Development, Fire, Police, Parks and Recreation, and Public Works as well as cost allocation plan reimbursements and stadium-related reimbursements. This category is estimated to generate \$59.2 million in FY 2025/26 and \$51.0 million in FY 2026/27. This includes one-time revenue of \$12.8 million in FY 2025/26 and \$1.4 million in FY 2026/27 for reimbursements related to the Super Bowl and FIFA World Cup events; associated expenditures are also factored into the budget.

## **Silicon Valley Power Transfer**

In accordance with the City's charter, Silicon Valley Power pays 5.0% of gross revenues to the General Fund. Contributions are estimated at \$37.3 million in FY 2025/26 and \$39.1 million in FY 2026/27. Growth in this category is primarily driven by market projections for electric consumption, resources costs, and any retail rate increase assumed for the Electric Utility.

## **Transfers From**

The Transfers from Other Funds totals \$1.7 million in FY 2025/26 and FY 2026/27 and includes the transfer of \$1.45 million from the Storm Drain Capital Fund to support storm drain operations and a transfer of \$0.2 million from the Building Development Services Fund to cover a portion of the Code Enforcement costs that support development activity.

## General Fund Uses

Overall, General Fund uses total \$505.0 million in FY 2025/26 and \$511.8 million in FY 2026/27. In FY 2025/26, \$322.7 million accounts for operational expenditures, \$11.0 million are transfers to other funds, and \$171.3 million represent fund balance and reserves. The following table summarizes the General Fund expenditures and transfers.

The following table summarizes the General Fund expenditures and transfers.

Expenditures	FY 2023/24 Actual	FY 2024/25 Amended	FY 2024/25 Estimate	FY 2025/26 Proposed	FY 2026/27 Change	FY 2026/27 Proposed
Salaries	130,522,064	137,675,834	137,675,834	152,620,133	4,799,958	157,420,091
Retirement – Safety	35,300,245	40,903,942	40,903,942	43,488,022	4,255,179	47,743,201
Retirement – Misc.	18,209,349	20,549,729	20,549,729	22,047,073	(813,096)	21,233,977
Other Benefits	20,582,791	24,603,716	24,603,716	27,724,266	2,291,587	30,015,853

<b>Total Expenditures</b>	<b>264,659,594</b>	<b>295,421,941</b>	<b>295,421,941</b>	<b>322,666,210</b>	<b>9,673,643</b>	<b>332,339,853</b>
Transfers To	21,141,424	20,600,666	29,238,597	10,979,489	(516,745)	10,462,744
<b>Total Expenditures and Transfers To</b>	<b>285,801,018</b>	<b>316,022,607</b>	<b>324,660,538</b>	<b>333,645,699</b>	<b>9,156,898</b>	<b>342,802,597</b>

As a public service organization focused on delivering high-quality services to our community, labor costs reflect the highest level of investment at approximately 74% of the expenditure budget. Following is a discussion of the General Fund expenditure categories.

### Salaries and Benefits

The expenditures in this category account for full-time and part-time salaries, retirement, health, social security, other employer benefits, and overtime costs. The Proposed Budget for FY 2025/26 and FY 2026/27 factors in the latest negotiated salary adjustments known at the time the budget was developed and updated retirement and benefit costs. Salaries and benefits total \$245.9 million in the FY 2025/26 and \$256.4 million in FY 2026/27. This also includes funding for proposed budget actions that are described in the City Departments section of the document.

The City of Santa Clara participates in the California Public Employees' Retirement System (CalPERS) under the Miscellaneous Retirement Plan and the Safety Retirement Plan. Retirement costs in the General Fund are budgeted at \$65.5 million in FY 2025/26 and \$69.0 million in FY 2026/27. These figures reflect the latest information from CalPERS on the rates for FY 2025/26 and estimated rates for FY 2026/27.

## **Materials, Services, and Supplies**

The budget for materials, services, and supplies totals \$41.3 million in FY2025/26 and \$39.9 million in FY 2026/27. This budget reflects Base Budget adjustments to account for the updated cost of providing existing services, the removal of one-time funding approved for FY 2024/25, and FY 2025/26 and FY 2026/27 budget actions.

## **Interfund Services**

Interfund services are citywide in nature and funded through internal service funds (Information Technology Department services, special liability fund, workers' compensation, Public Works capital project management, vehicle equipment and maintenance, fleet purchases, and communications equipment) that are apportioned to City Departments and funds. This category totals \$34.7 million in the FY 2025/26 and \$35.5 million in FY 2026/27.

## **Capital Outlay**

This category includes small capital expense purchases not budgeted within the capital budget. This category totals \$0.8 million in FY 2025/26 and \$0.6 million in FY 2026/27.

## **Transfers to Other Funds**

This category includes transfers to other funds to support capital projects, the City's share of assessment district costs, other services, and debt payments. The transfers total \$11.0 million in FY 2025/26 and \$10.5 million in FY 2026/27. In FY 2025/26, transfers include \$6.3 million to capital funds to support capital projects, \$1.4 million for debt payments, \$1.1 million for assessment district payments, \$1.1 million for the Cemetery Fund, \$0.8 million to the Fire Operating Grant Trust Fund to pay for a portion of the positions funded by the Fire SAFER grant (the SAFER grant generates net General Fund savings due to Fire overtime savings), and \$0.3 million for other services.

## **General Fund Reserves**

The General Fund includes several reserves established by City Council policy or to segregate restricted revenues. Additional detail regarding reserve policies can be found in the Budget and Fiscal Policies section of this document.

### **Budget Stabilization Reserve**

This reserve is used as an allocation for weathering economic downturns, emergency financial crises or disaster situations. Per Council policy, the Budget Stabilization Reserve (BSR) target is equal to the cost of the City's General Fund operations for three months, or 25% of the expenditure budget. One-time funding is allocated in this Proposed Budget to bring the reserve to the 25% level. The BSR is set at \$80.9 million in FY 2025/26 and \$83.2 million in FY 2026/27.

## **Capital Projects Reserve**

The Capital Projects Reserve (CPR) earmarks funds for the Capital Improvement Program (CIP). The minimum target for this reserve is \$5.0 million. This reserve increases from \$7.8 million in the FY 2024/25 budget to \$8.8 million in FY 2025/26 and to \$10.8 million in FY 2026/27. This budget begins to allocate ongoing funding to support capital improvements, with additional funding of \$1.0 million in FY 2025/26 and \$2.0 million in FY 2026/27.

## **Land Sale Reserve**

The City Council established the Land Sale Reserve with net proceeds from the sale of City-owned land, with interest earned on these funds being available to be appropriated for General Fund operating expenditures. The Land Sale Reserve has a projected ending balance of \$10.3 million for FY 2025/26 and FY 2026/27 and is available for appropriation by City Council action. This reserve was temporarily used to support the International Swim Center (ISC) capital project in FY 2024/25 and is expected to be replenished once bonds are issued for the ISC project.

## **Advanced Planning Fee Reserve**

The advanced planning fee is collected as a portion of planning and building fees. These funds are set aside for long-range planning activities. The Advanced Planning Fee Reserve has a projected ending balance of \$4.9 million in FY 2025/26 and \$4.7 million in FY 2026/27. Starting in FY 2023/24, this reserve funds 1.0 Senior Planner.

## **Technology Fee Reserve**

The Technology Fee Reserve sets aside the technology fee revenue collected with the development fees and other applicable fees. This reserve is used to fund Accela licensing costs and other technology improvements for the fee programs that assess this fee. The Technology Fee Reserve has a projected ending balance of \$2.4 million in FY 2025/26 and \$2.2 million in FY 2026/27. In the Proposed Budget, use of this reserve is recommended to support 70% of the cost of a new Business Analyst position in the Community Development Department to support the Accela program and other technology efforts.

## **Other Reserves**

By Council Policy, other reserves are set aside in the General Fund. For FY 2025/26 and FY 2026/27, the Pension Stabilization Reserve is projected to total \$34.6 million. Contributions to the Pension Stabilization Reserve are typically recommended as part of the Year-End Report to allocate interest earnings and other funding, if available. No additional contributions are assumed as part of this Biennial Budget. The Proposed Budget also includes a Development Fee Reserve (\$1.5 million) that was established in FY 2022/23 to transition new development funds, an Accrued Liability Reserve (\$1.9 million) established in FY 2023/24 to account for liabilities against the City earned by not yet paid, and a Property Tax Education Revenue Augmentation Fund (ERAF) Reserve (\$7.9 million in FY 2025/26 and \$9.2 million in FY 2026/27) to set aside the portion of the excess ERAF property tax receipts that are subject to legal challenge. In FY 2025/26, a Reserve for FY 2026/27 Budget Balancing is recommended to set aside funds to bring the FY 2026/27 budget into balance.

# **Special Revenue Funds and Other Funds**

This page is intentionally left blank.

## **SPECIAL REVENUE FUNDS AND OTHER FUNDS**

Special Revenue Funds are established to account for specific revenue sources that are legally restricted or committed to particular purposes. The City of Santa Clara has various revenue sources that require separate Special Revenue Funds to be set up. The Other Funds relate to special assessments funds.

### **Bridge Maintenance District #2 Fund (463)**

The Bridge Maintenance District #2 Fund sets aside revenue received through the apportionment of secured property tax as well as the Redevelopment Agency (RDA) revenue distribution. This funding is then transferred to the Streets and Highways Capital Fund to cover costs associated with the Bridge Maintenance Program project.

### **Building Development Services Fund (155)**

The Building Development Services Fund was established in FY 2021/22 to account for building development-related fee revenue and associated building development services costs. The Building-related revenues and expenditures were previously reflected in the General Fund.

### **Building Special Programs and Training Fund (220)**

This fund was formerly the Certified Access Specialist (CASP) Certification and Training Fund but was retitled to incorporate additional changes to the fund starting in FY 2021/22. The fund now incorporates Building Seismic/Strong Motion Fees and Building Standard Fees, in addition to CASp fees. All three revenue streams are related to State-mandated building permit fee surcharges (Building Standard and Seismic) or from the City's business license tax (CASP) and are for specific uses such as updating building code manuals or training related to updates in accessibility designs.

### **City Affordable Housing Fund (165)**

The City Affordable Housing Fund accounts for the City's Below-Market Price Purchase Program, which helps low- and moderate-income families achieve the goal of homeownership. This fund promotes and facilitates the construction and retention of affordable housing, fulfilling State mandates to produce housing for all income levels. Revenues in the City Affordable Housing Fund are received from developer in-lieu fees, principal, and interest repayments on housing loans, as well as interest income on pooled investments.

### **Community Facilities District No. 2019-1 (Lawrence Station) Fund (027)**

A resolution was adopted by Council in March 2019 to form a new Community Facilities District Fund (CFD) to finance maintenance of roadways, parks, parking spaces and enforcement, landscaped parkways and medians, trails, a highway overpass and a community clubhouse and garden located within the development at Lawrence Station. In accordance with the resolution, a special tax is levied on the properties located within the CFD. These special taxes are used to fund the authorized public services. Pursuant to Report to Council 19-249, the Fund also maintains funding necessary to replace facilities near end-of-service life (straight line depreciation of 15 years) in a capital reserve of 20%. The property assessments increase annually by the Consumer Price Index (CPI).

### **Convention Center Maintenance District Fund (026)**

This fund provides maintenance and landscaping to the common grounds within the Santa Clara Convention Center Complex. Funds are received by means of a Special Benefits Assessment levied against the property owners in the district.

### Developer Traffic Payments Fund (124)

This fund was established in FY 2020/21 and is managed by the Department of Public Works. The Developer Traffic Payments Fund is funded by developer contributions collected for specific jurisdictions and locations. Funding is allotted to non-City agencies for eligible projects or transfers to a capital project. Prior to FY 2022/23, this fund was titled the "Traffic Fair Share Fund".

### Downtown Parking Maintenance District Fund (025)

The purpose of the Downtown Parking Maintenance District is to maintain the grounds of the Franklin Square complex. The Franklin Square complex is bounded by Monroe Street to the west, Jackson Street to the east, Benton Street to the north, and Homestead Road to the south. Maintenance of the landscape infrastructure is paid for by the General Fund. Extraordinary repairs to the asphalt parking lot and concrete walkways are funded by property owner assessments that are capped at \$14,200 per year.

### Endowment Care Fund (077)

This fund holds the non-expendable account of the fees collected from cemetery patrons. Interest earned from the cash maintained in the fund is contributed for the current maintenance of the cemetery.

### Engineering Operating Grant Trust Fund (144)

This fund accounts for revenues received from other governmental agencies that are designated for specific uses in the Community Development Department. Grants are appropriated as they are received by the Department and approved by the City Council.

### Expendable Trust Fund (079)

The Expendable Trust Fund accounts for assets held in a trustee capacity where the principal and income may be expended in the course of the fund's restricted/designated operations. Funds are appropriated as they are received by departments and approved by the City Council.

### Fire Certified Unified Program Agency (CUPA) Fund (159)

The Fire CUPA Fund was established in FY 2024/25 on December 3, 2024, as part of the FY 2023/24 Budget Year-End Report to account for CUPA related non-development and development activities managed by the Fire Department. The Fire-related non-development CUPA revenues and expenditures were previously reflected in the General Fund, while the development CUPA revenue and expenditures were previously reflected in the Fire Development Services Fund.

### Fire Development Services Fund (158)

The Fire Development Services Fund accounts for fire development-related fee revenue and associated fire development services costs, excluding CUPA development services. Starting in FY 2025/26, the development CUPA revenue and expenditures will be moved from the Fire Development Services Fund to the Fire CUPA Fund.

### Fire Operating Grant Trust Fund (178)

This fund tracks revenues from other governmental agencies received by the Fire Department for fire safety and medical services activities. The grants are provided by federal, state, and County agencies. Grants are appropriated as they are received by the Fire Department and approved by the City Council.

### Gas Tax Fund (121)

The Gas Tax Fund accounts for revenues and expenditures received from the State of California under Street and Highway Code Sections 2105, 2106, and 2107. Gas tax is imposed by the State as a per-gallon excise tax on gasoline and diesel fuel. Cities and counties receive an allocation from the State based on population and the proportion of registered vehicles. This funding is restricted for street maintenance, construction, and a limited amount for engineering.

### Housing and Urban Development Fund (562)

The City of Santa Clara receives annual funds from the U.S. Department of Housing and Urban Development (HUD) to administer the Community Development Block Grant (CDBG) and HOME Investment Partnerships (HOME) programs. The CDBG program funds various nonprofit agencies and other City departments to implement services that benefit low- and moderate-income persons. The HOME program funds a wide range of activities including building, buying, and/or rehabilitating affordable housing for rent or homeownership or providing direct rental assistance to low-income people. Grantees are generally selected through a competitive process and provide such services as senior services, homeless outreach, housing rehabilitation, accessibility improvement and code enforcement.

### Housing Authority Fund (164)

The Santa Clara Housing Authority (SCHA) was established by the City Council to assume responsibility for managing and monitoring housing assets from the dissolution of the Redevelopment Agency (RDA). SCHA also assumes the responsibility for housing loans, which provide affordable housing and were made under various programs, for qualifying individuals and groups. The SCHA receives its main source of revenues from program income, which is used to support loan monitoring, administration, and other programs and projects of the Housing and Community Services Division of the Community Development Department.

### Housing Successor Agency Fund (169)

All California Redevelopment Agencies (RDA) were dissolved on February 1, 2012. Following the dissolution, the City of Santa Clara was designated as the Housing Successor to the former RDA, responsible for paying off the former RDA's existing debts, disposing of the former RDA's properties and assets to help pay off debts, returning revenues to the local government entities that receive property taxes and winding down the affairs of the former Redevelopment Agency. The City has also elected to retain the former RDA's housing functions, including retaining all of the housing assets, rights, power, duties, obligations and functions previously performed by the RDA in administering its Low and Moderate Income Housing Fund.

### Library Donations Trust Fund (072)

This fund accounts for donations that are received and accepted by the City of Santa Clara's Library Department. These donations are for designated uses. Donations are appropriated as they are received by the Library Department and approved by the City Council.

### Library Operating Grant Trust Fund (112)

This fund accounts for revenues received from other governmental agencies that are designated for specific uses in the Library Department. Grants are appropriated as they are received by the Library Department and approved by the City Council.

### Other City Departments Operating Grant Trust Fund (101)

The Other City Departments Operating Grant Trust Fund accounts for any financial award given by the federal, State, or other local government to the City for Citywide eligible operating programs. Grants that are designated for department-specific functions are deposited into the respective departments' operating grant trust fund. Grants are appropriated as they are received by departments and approved by the City Council.

### Parks and Recreation Operating Grant Trust Fund (111)

This fund accounts for revenues received from other governmental agencies that are designated for specific uses in the Parks and Recreation Department including the Senior Nutrition Program. The Senior Nutrition Program provides a congregate meal setting where seniors can improve their health through balanced meals and socialization and is funded through a grant from the Santa Clara County Social Services Agency's Senior Nutrition Program and the General Fund. Seniors are encouraged to access the many services available at the Senior Center while on site and are given the opportunity to engage in Health & Wellness programs at the Senior Center. Grants are appropriated as they are received by the Parks and Recreation Department and approved by the City Council.

### Perpetual Care Fund (076)

This fund accounts for current fees collected from cemetery patrons for maintenance in perpetuity of the Mission City Memorial Park when the facility reaches full capacity. Interest earned from the cash maintained is contributed for the current maintenance of the cemetery.

### Police Operating Grant Trust Fund (177)

This fund tracks revenues from other governmental agencies received by the Police Department for law enforcement activities. The grants are predominantly provided by the State with a smaller portion received from the federal government. Grants are appropriated as they are received by the Police Department and approved by the City Council.

### Prefunded Plan Review Fund (157)

Before any major real estate development project moves forward to construction, extensive studies are conducted (environmental, economic, and traffic) to ensure that the project's impact on the community is well understood. The cost of these studies is generally paid for by developers with the funding provided to cities to ensure proper oversight of this process. This fund, established in FY 2020/21, accounts for this activity.

### Public Donations Fund (067)

The Public Donations Fund accounts for various donations the City receives from the public that are designated for specific uses. Per the City's Donation Policy, the City Manager is authorized to make funding available to departments for donations valued under \$100,000. Donations of \$100,000 or greater are appropriated as they are received by departments and approved by the City Council.

### Public, Educational, and Governmental Fee Fund (221)

This fund accounts for the Public, Educational, and Governmental (PEG) fees the City receives from telecommunication companies in accordance with the Cable Communications Act of 1984 and the Digital Infrastructure and Video Competition Act of 2006. PEG channels broadcast public meetings, news conferences and educational programming about City departments and programs as well as government-sponsored community events. PEG fees can be used for capital-related expenses including video production and streaming equipment as well as television monitoring technology and technical support. These funds can also be used for the renovation and construction of facilities such as Council chambers, public meeting rooms and recording spaces.

### Road Maintenance and Rehabilitation (SB1) Fund (122)

The Road Repair and Accountability Act of 2017 (Senate Bill 1) is a significant investment in California's transportation system which was signed into law on April 28, 2017. The funding from this investment must be used to fix roads, freeways, and bridges in communities across California, putting more dollars towards transit and safety. The majority of this revenue is from the Road Maintenance and Rehabilitation Account (RMRA), where cities have to prioritize repairing their existing infrastructure before addressing other transportation needs.

### Traffic Mitigation Fund (123)

The Traffic Mitigation Fee is levied to fund improvements or programs to mitigate the City's traffic problems that result from development projects.

The following section details the City of Santa Clara's Special Revenue Funds and Other Funds' Statements of Sources and Uses and the Proposed Budget for Fiscal Year 2025/26 and Fiscal Year 2026/27.

# Enterprise Funds

This page is intentionally left blank.

## ENTERPRISE FUNDS

Enterprise funds are used to finance and account for operations and activities performed by designated departments in the City or through third party agreements. The operating revenues and expenses result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. Principal operating revenues of the City's enterprise funds are charges to customers for services. Operating expenses for the City's enterprise funds include the costs of sales and services, administrative expenses and maintenance of capital assets.

### Cemetery Fund (093)

This fund is managed by the Parks and Recreation Department and provides planning, development, operation, and maintenance of the City's two cemetery properties with one located on North Winchester Boulevard and one on Hope Drive. This fund is supported by charges for these services and transfers from the General Fund.

### Convention Center Enterprise Fund (860)

This fund was established in 1984 to account for the operations of the City's Convention Center through third-party agreements. In February 2019, the City entered into an agreement with Global Spectrum, LP, dba Spectra Venue Management (Spectra). Spectra was subsequently acquired by Oak View Group (OVG360) and now manages the Convention Center. As part of the agreement, OVG360 provided the City with a recommended operating budget for FY 2025/26 and FY 2026/27. These submittals have been incorporated into the source and use documents.

### Electric Operating Grant Trust Fund (191)

The City's Electric Utility Department, known as Silicon Valley Power (SVP), initially established the Electric Operating Grant Trust Fund for the Public Benefits Program. For the Public Benefits Program, SVP is required to collect and spend 2.85% of its electric sales revenues (customer service charges from Electric Utility Fund) in accordance with assembly bill AB 1890 on cost-effective energy efficiency, new renewable power generation, low-income energy programs, and new electric technologies research and development.

In addition to the Public Benefits Program, the Electric Operating Grant Trust Fund also includes the Low Carbon Fuel and Greenhouse Gas (GHG) programs. These programs also use restricted revenue and have annual reporting requirements. The Low Carbon Fuel program is aimed at participating and complying with the California Air Resources Board (CARB) Low Carbon Fuel Standard (LCFS) Program to develop, educate and foster the adoption of electrification as transportation fuel. Program expenses are allocated and required to be spent within three primary groups: Clean Fuel Rewards Program, Equity Projects, and Customer Programs. The purpose of the Greenhouse Gas Program is to comply with Cap-and-Trade Regulation requirements to spend proceeds from selling allocated allowances, consistent with the goals of AB 32, and to provide benefit to retail ratepayers in the form of GHG reduction.

## Electric Utility Fund (091)

The Electric Utility Fund is managed by SVP and is the primary operating fund for electric utility service provided to City customers. SVP provides these services on a user charge basis to residences, businesses, and industrial customers, including large data centers.

The primary revenue source in the Electric Utility Fund is electric rates which are approved by the City Council. SVP typically submits a recommendation for rate increases annually. The rate increase recommendation is based on SVP's ten-year forecast which includes SVP's revenue and expenditure projections to cover operating costs, reserve requirements, debt service, capital improvement projects, and other legal obligations. At the same time, for low-income customers who have difficulty absorbing the rate increases, SVP continues to offer financial assistance and also offers energy conservation programs and rebates to help all customers reduce their electricity usage. Any proposed rate increase will be brought forward to City Council for approval with an effective date of January 1, 2026 based on information available at that time and will include consideration of the expense drivers further described below.

SVP has over 60,000 customer accounts in the City (rounded): 86.0% residential, 11.4% commercial, 2.1% industrial, and 0.5% other. The proportion of revenue contribution is reversed: 90.2% of revenues are generated by industrial customers, 5.9% from residential customers, 3.5% from commercial customers, and 0.4% from others. Industrial customers include many publicly listed technology companies headquartered in the City and data centers hosting servers for these companies. Load growth and forecasted energy sales are based on a combination of historical data and forward-looking opportunities, especially from large key industrial customers. Additional revenues are generated through energy sales from SVP owned or jointly owned resources, capacity sales, Congestion Revenue Rights (CRR), Renewable Energy Credits (RECs), and ancillary services. Given the high concentration of revenue generated from industrial customers, SVP's revenue growth prospect is highly correlated to Silicon Valley's economic growth.

SVP's primary expense drivers are electric supply and distribution costs. For FY 2025/26, all of SVP's power supply is expected to be hedged by SVP owned or jointly owned resource, and power purchase agreements (PPAs). However, SVP constantly balances its load with resource production. When the actual load is higher than forecasted, or resource production is lower than forecasted, it will result in net power purchases within the California Independent System Operator (CAISO) market. When the actual load is lower than forecasted, or resource production is higher than forecasted, it will result in net power sales within the CAISO market. Power market prices are highly correlated with natural gas prices and are subject to the same market volatility.

If natural gas prices spike, higher than forecasted prices to procure power from the market would be expected. The transmission access rates that apply to electric energy that SVP receives via the PG&E transmission system are expected to increase year over year. PG&E collects the transmission fees to fund the growing cost of maintenance and infrastructure improvements to the transmission grid. In addition, a significant part of SVP's electric distribution cost is the capital improvement needed to maintain the aging system. These capital costs are also expected to increase due to higher commodities costs caused by supply chain issues across the world.

Per the budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, Infrastructure, Special Projects (as needed), and Pension Stabilization. In FY 2025/26, the Grizzly Project and Tie Line Reserve is established to cover costs to replace the transmission line interconnected with PG&E's transmission system (referred to as the Grizzly Tie Line) and other Grizzly project facilities.

### Sewer Utility Fund (094)

This fund is managed by the Water and Sewer Utilities Department and accounts for the maintenance of the City's sewer lines and related facilities. The Department provides these services on a user charge basis to residences and businesses.

Each operating budget cycle, the Department develops a ten-year forecast based on their revenue and expenditure projections. Revenue in the Sewer Utility Fund is dictated by the utility rates approved by the City Council. An annual rate study is conducted by a third-party consultant selected by the Water and Sewer Utilities Department; this information is then used to determine both revenue and expenditure projections in the forecast. Revenue projections are based on a trend analysis and take into consideration historical data, expected activity, and anticipated rate increases. These rate increases will be presented to City Council for approval on June 10, 2025, with an effective date of July 1, 2025. Anticipated expenditures also play a role in the development of the revenue projections. Expenditure projections are based on historical data and the capital project needs included in the City's Capital Improvement Program budget. Additionally, the City co-owns the Regional Wastewater Facility with the City of San José. Estimates are provided by the City of San José for Santa Clara's share of the facility rebuild, and these estimates are also used in determining the expenditure projections in the Sewer Utility Fund.

Per the budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, Infrastructure, and Pension Stabilization. It also includes a Replacement and Improvement Reserve.

### Solid Waste Fund (096)

This fund is managed by the Department of Public Works and accounts for the administration of the City's garbage, yard waste, residential recycling, and Clean-Up Campaign services. The revenue projections are based on anticipated increases in solid waste rates due to increases in agreements for solid waste collection and processing services. Rate increases will be presented to City Council for approval on May 27, 2025, with an effective date of July 1, 2025.

Per the budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, and Pension Stabilization.

### Water Recycling Fund (097)

This fund is managed by the Water and Sewer Utilities Department and accounts for the ongoing maintenance and operations of the City of Santa Clara's wastewater reclamation system. The Department provides these services on a user charge basis from the sale of non-potable water for irrigation and landscaping.

Each operating budget cycle, the Department develops a ten-year forecast with their revenue and expenditure projections. Revenue in the Water Recycling Program Fund are dictated by the utility rates approved by the City Council and the actual recycled water usage by customers. An annual rate study is conducted by a third-party consultant selected by the Water and Sewer Utilities Department; this information is then used to determine both revenue and expenditure projections in the forecast. Revenue projections are based on a trend analysis and take into consideration historical data, expected activity and anticipated rate increases. These rate increases will be presented to City Council for approval on June 10, 2025, with an effective date of July 1, 2025. Anticipated expenditures also play a role in the development of the revenue projections. Expenditure projections are based on historical data and capital projects needs included in the City's Capital Improvement Program budget.

Per the budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, Infrastructure, and Pension Stabilization.

## Water Utility Fund (092)

This fund is managed by the Water and Sewer Utilities Department and accounts for the operation of the City's water utility services. The Department provides these services on a user charge basis to residences and businesses.

Each operating budget cycle, the Department develops a ten-year forecast with their revenue and expenditure projections. Revenue in the Water Utility Fund are dictated by the utility rates approved by the City Council and the actual water usage by residences and businesses. An annual rate study is conducted by a third-party consultant selected by the Water and Sewer Utilities Department; this information is then used to determine both revenue and expenditure projections in the forecast. Revenue projections are based on a trend analysis and take into consideration historical data, expected activity, and anticipated rate increases. These rate increases will be presented to City Council for approval on June 10, 2025, with an effective date of July 1, 2025. Anticipated expenditures also play a role in the development of the revenue projections. Expenditure projections are based on historical data and capital projects needs included in the City's Capital Improvement Program Budget.

Per the adopted budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, Infrastructure, and Pension Stabilization. It also includes a Replacement and Improvement Reserve and a Water Conservation Reserve.

The following section details the City of Santa Clara's Enterprise Funds' Statements of Sources and Uses and the Proposed Budget for Fiscal Year 2025/26 and Fiscal Year 2026/27.

# **Internal Service Funds**

This page is intentionally left blank.

## INTERNAL SERVICE FUNDS

Internal Service Funds are used to finance and account for special activities and services performed by a designated department for other departments in the City on a cost reimbursement basis.

### Communication Acquisitions Fund (048)

This fund is managed by the Police Department and accounts for the maintenance and replacement of communication equipment used by various City departments. The source of revenue for this fund is fees charged to the departments that require this type of equipment. The City's inventory of radios was no longer serviceable by the end of December 2023. The City applied for and received State and federal grant awards and a transfer was approved from the General Fund in order to address the critical replacement needs. This funding covered the public safety radios that reached their end of useful life and will be deployed in spring/early summer 2025.

### Fleet Operations Fund (053)

This fund is managed by the Department of Public Works and accounts for the maintenance of City-owned vehicles and equipment used by all departments. The source of revenue for this fund is fees charged to the departments requiring vehicle maintenance.

### Information Technology Services Fund (045)

This fund was established in FY 2019/20 and managed by the Information Technology Department (ITD). This fund accounts for general information technology services provided to all City departments, citywide costs associated with computer and telephone equipment replacement as well as other services including new or upgraded software and additional licenses for new users. The source of revenue for this fund is fees charged to the departments. There are several CIP projects managed by ITD that have been shifted from the General Government Capital Fund to this internal service fund, which include funding for cybersecurity and the replacement of network equipment and computers.

### Public Works Capital Projects Management Fund (044)

This fund was established in FY 2019/20 and is managed by the Department of Public Works. This fund accounts for the Public Works staff time and non-personnel costs to manage and work on specific capital improvement programs of the City. The source of revenue for this fund is fees charged to the departments requiring Public Works capital project management services.

### Special Liability Insurance Fund (082)

This fund accounts for liability exposures to the City, including general liability, errors and omissions, and employment practices. The Special Liability Fund covers claims costs and excess liability insurance costs. The source of revenue for this fund is charges to the departments citywide as well as transfers from the General Fund and Enterprise Funds.

### Unemployment Insurance Fund (087)

This fund is managed by the Human Resources Department and accounts for the cost of unemployment insurance claims. The source of revenue for this fund is fees charged to the departments citywide.

### Vehicle Replacement Fund (050)

This fund is managed by the Department of Public Works and accounts for the lifecycle, replacement, procurement, up-fit, and disposal of all vehicles used by City departments. The source of revenue for this fund is fees charged to the departments requiring these services.

### Workers' Compensation Fund (081)

This fund is managed by the Human Resources Department and accounts for the costs of premiums, claims administration, and claims expenses related to injuries or illnesses sustained by members of the City's workforce. The source of revenue for this fund is fees charged to departments citywide. Department allocations are determined using actual workers' compensation claims history.

The following section details the City of Santa Clara's Internal Service Funds' Statements of Sources and Uses and the Proposed Budget for Fiscal Year 2025/26 and Fiscal Year 2026/27.

# **Capital Improvement Program Funds**

## CAPITAL IMPROVEMENT PROGRAM FUNDS

Capital Improvement Program Funds are established to account for specific revenues and expenditures that are earmarked for major improvements to the City's infrastructure, replacements and upgrades to City assets, and improvements and upgrades to the City's utilities. The City of Santa Clara has various capital funds set up for different types of capital projects.

### Cemetery Capital Fund (593)

The capital projects included in this fund are related to construction, engineering, repairs, and design of the two City-owned cemeteries.

### City Affordable Housing Capital Fund (565)

This fund accounts for housing impact fees collected by the City. These housing impact fees are eligible to be used for any items in compliance with the Affordable Housing Ordinance.

### Convention Center Capital Fund (865)

This fund was established in FY 2020/21 through Report to Council 21-1176 approved by the City Council on January 12, 2021. This fund accounts for the capital improvements to the Convention Center. Improvements to the Convention Center are funded by the initial City capital contribution from the General Fund; developer contributions from the Convention Center operations management team, OVG360, and the food and beverage operator, Levy; and transfers from the Convention Center Enterprise Fund.

### Electric Utility Capital Fund (591)

This fund accounts for projects pertaining to system improvements, substation construction, and technology projects. Customer service charges, developer contributions, debt financing, and transfers from other enterprise funds are the primary sources of revenue for these projects.

### Fire Department Capital Fund (536)

This fund accounts for projects that support Fire Department operations, including the replacement of firefighting equipment, firehouse safety systems, and fire station improvements. Grants and the General Fund provide the funding for these projects.

### General Government Capital Fund (539)

This fund accounts for projects primarily related to the implementation, maintenance, and upgrades for technology applications used by various departments. The funding sources are mainly from grants and transfers from the City's enterprise funds and the General Fund.

### Library Department Capital Fund (537)

This fund tracks projects associated with the capital maintenance, construction, safety, and appearance of library facilities, funded by the General Fund.

### Parks and Recreation Capital Fund (532)

This fund accounts for the projects associated with the acquisition, development, and capital improvement of neighborhood and community parks, recreation facilities, and open space to meet the needs of City residents. Funding sources for these projects include developer contributions, grants and donations, parks Mitigation Act fees (MFA), Quimby Act fees, and the General Fund.

### Patrick Henry Drive Infrastructure Improvement Fund (542)

This fund was established in FY 2021/22 through the Report to Council 22-90 approved by the City Council on March 22, 2022, and is managed by the Department of Public Works. This fund accounts for impact fee revenues and project expenditures related to the Patrick Henry Drive Specific Plan.

### Public Buildings Capital Fund (538)

The projects in this fund are associated with repairs and capital maintenance for public buildings, including mechanical and electrical systems, primarily funded by the General Fund.

### Recycled Water Capital Fund (597)

This fund tracks projects related to the installation of recycled water mains, including extensions to existing service and for new developments, supported by recycled water customer service charges.

### Related Santa Clara Developer Fund (540)

This fund tracks the financial resources from the Developer to fund City staff in pre-development and permit processing efforts and third-party consultant work for the Related Santa Clara project.

### Sewer Utility Capital Fund (594)

This fund tracks projects related to the construction and upkeep of the City's sewer system including sewer mains and the City of Santa Clara/San José wastewater treatment facility. These projects are funded through customer service charges, connection charges, debt financing, and the sewer conveyance fee.

### Solid Waste Capital Fund (596)

The capital projects included in this fund are related to the construction of wells, well abandonments, erosion, maintenance of landfill gas, and miscellaneous landfill monitoring requirements. Funding sources for these projects include lease revenues, customer service charges, and developer contributions.

### Storm Drain Capital Fund (535)

The projects in the Storm Drain Capital Fund contribute to the expansion, construction, and rehabilitation of the City's storm drain system. Primary funding sources include the General Fund and developer-funded storm drain charges.

### Street Lighting Capital Fund (534)

This fund accounts for projects related to the replacement and installation of citywide street lighting to provide adequate lighting for streets, new developments, and parking lots. These projects are funded via customer service charges, developer contributions, and electric public benefits charges.

### Streets and Highways Capital Fund (533)

This fund tracks the City's projects that are related to the maintenance of local transportation facilities, traffic infrastructure, street rehabilitation, sidewalk, curb, and gutter improvements. Primary funding sources for these types of projects include traffic mitigation fees, gas tax, Road Maintenance and Rehabilitation Account proceeds, and the General Fund.

### Tasman East Infrastructure Improvement Fund (541)

This fund was established in FY 2020/21 through the Report to Council 20-787 approved by the City Council on November 17, 2020, and is managed by the Department of Public Works. This fund accounts for impact fee revenues and project expenditures related to the Tasman East Specific Plan.

### Water Utility Capital Fund (592)

The projects in this fund pertain to the construction and upkeep of the water system including water mains, hydrants, wells and pumps, storage tanks, and the asset management system. Customer service charges and developer contributions are the primary funding sources for these projects.

The following section details the City of Santa Clara's Capital Improvement Program Funds' Statements of Sources and Uses and their Amended Biennial Capital Improvement Program Budget for Fiscal Year 2025/26.

## **OTHER AGENCY FUND**

The Sports and Open Space Authority (SOSA) of the City of Santa Clara was created by the City Council in 1974 to establish a separate entity to acquire and develop open space within the City of Santa Clara. The members of the City Council are also members of SOSA's Board of Directors and, as such, are authorized to transact business and exercise power to purchase, lease or otherwise obtain and dispose of real and personal property. This includes the ability to acquire, construct, maintain, repair, manage and operate real and personal property, including leasing to private operators for commercial purposes and surplus space which is not economical to use for open space planning.

### **Sports and Open Space Authority Fund (801)**

This fund accounts for the acquisition and preservation of open space within the City and the development of local sports activities.

The following section details the Other Agency Fund's Statement of Sources and Uses and the Proposed Budget for Fiscal Year 2025/26 and Fiscal Year 2026/27.

## Mayor and City Council Offices Description

The City Council consists of a Mayor who is elected at-large and six Councilmembers that are elected by district and serve staggered four-year terms. The Council, as the legislative body, represents the residents of Santa Clara and is empowered by the City Charter to formulate Citywide policy, enact local legislation, adopt budgets, and appoint the City Manager, City Attorney and City Auditor. The Council conducts City Council meetings and study sessions as required.

The Mayor and Councilmembers serve on county, regional, and State organizations representing the City's interests. The Mayor and Councilmembers also serve as Agency and Authority Board Members, Commissioners or Directors of the Bayshore North Project Enhancement Authority, Housing Authority, Industrial Development Agency, Joint Financing Authority, Public Facilities Financing Corporation, Sports and Open Space Authority, Stadium Authority, and Oversight Board for Successor Agency to the City of Santa Clara Redevelopment Agency.

## Divisions and Services

The Mayor and Councilmembers are supported by the Mayor and City Council Offices staff. The Mayor and City Council Offices are organized under the Mayor and City Council Division.

<b>Mayor and City Council Division Mission</b>	Assist the Mayor and Councilmembers with implementation of established policies, goals, and objectives.
<b>Division Objectives</b>	Assist Mayor and Councilmembers in administrative support including scheduling appointments, making travel arrangements, and corresponding with legislators, constituents, and members of the community.
	Provide staff support with the coordination of meetings for several City Council Committees and several area wide/outside agency committees.
	Coordinate constituent concerns from members of the community in an effort to increase transparency and responsiveness.
	Maintain compliance with applicable requirements, e.g., calendar disclosures, public records requests, and other government transparency requirements.
	Support the Mayor and City Council on ceremonial items and recognition requests, based on Council Policy, and coordinates for special events and site visits from community groups or delegations.

## Significant Accomplishments

- Provided administrative support for day-to-day operations of the Mayor and Council offices including scheduling of Council briefings, Committee meetings, constituent meetings and travel, in accordance with Council policies.
- Supported the coordination of the annual appointment process for City Council Committees and Outside Agency Committees and the timely distribution of meeting agendas.
- Facilitated and supported the development of Newly Elected Official Orientation materials and onboarding process.
- Maintained compliance with applicable requirements, e.g., calendar disclosures, public records requests, and other government transparency requirements.
- Provided administrative and agenda development support for City Council Committees, including: Governance and Ethics Committee, City/Santa Clara Unified School District School Liaison Committee, and City/Mission College Committee.
- Managed, reviewed, and analyzed a high volume of Public Record Act (PRA) requests assigned to the Mayor and Council Offices.
- Managed site and tour visits from international delegations, Santa Clara Sister Cities Association, local school groups and others.
- Responded to constituent concerns and inquiries in a timely manner and within three business days and tracked progress of constituent inquiries through the MySantaClara application.
- Coordinated and developed agenda reports for all Special Order of Business recognition items, processes proclamations, commendations, and recognition requests in time for City Council meetings and events under City Council Policy 020.
- Responded to scheduling requests for Mayor and/or Council's appearance within one to two business days.
- Provided logistical support for all City Council meetings and other annual public events including the State of the City, Pride flag raising ceremony, Sister Cities delegation events, and AB1234 training.

## Mayor and City Council Travel

In accordance with the City's administrative policy on official travel by elected officials, Council Policy 043, official travel is approved in advance annually with the Mayor and City Council Offices' Operating Budget. The following are the conferences, meetings and events that are anticipated for Mayor and Councilmembers' attendance:

Conference	FY 2025/26 Budget	FY 2026/27 Budget
National League of Cities Annual Conference	4,877	4,975

## City Attorney's Office Description

The responsibilities of the City Attorney's Office (CAO) include: attending and providing legal advice at meetings of the City Council and major Boards and Commissions; providing oral and written legal advice or opinions to the City Council and staff; reviewing or drafting and, ultimately, "approving as to form" all City contracts; reviewing or drafting City ordinances, resolutions and policies; representing and appearing on behalf of the City and any City officer or employee in all legal actions or proceedings in which the City is concerned or is a party; providing the City Council with information and advice regarding ongoing litigation and legislation affecting the City; prosecuting cases for violation of the Charter and City ordinances; assisting and providing training on current issues in the law and City policy as needed; hiring and managing outside legal counsel where necessary and appropriate; and performing such other duties as may be required to provide legal advice and options to the City in the conduct of its business.

## Divisions and Services

The City Attorney's Division operates within the City Attorney's Office and is overseen by the City Attorney. There are several areas of practice within the Division with different lawyers focused on those areas. The Office's primary mission and key practice areas are summarized below:

<p><b>City Attorney Division Mission</b></p>	<p>Provide professional municipal legal services to the City Council, policy makers, boards, commissions, and staff in their official capacities.</p>
<p><b>Division Objectives</b></p>	<p>The litigation practice represents the City in all lawsuits and administrative proceedings, both on the defense and plaintiff/prosecution sides. The Office frequently engages and manages outside counsel in such matters. Communications within the City Council involve the preparation and delivery of confidential risk analysis memoranda and the provision of advice and recommendations for action in closed session. In collaboration with the City Manager's Office, the City Attorney's Office also has the authority to evaluate and settle claims up to \$50,000. The primary objective of this practice is to represent the City zealously but also fairly and ethically, in all disputes.</p> <p>The advisory and transactions group provides advice and services to the various City departments and utilities regarding applicable legal requirements, risk management issues and transactions with outside parties. Assistance includes negotiating and preparing both standard and complex agreements, and responding to legal inquiries from City departments, other agencies, and third parties. The advisory group reviews all staff reports to the City Council and the City's primary Boards and Commissions for legal and risk management issues. As part of this, the Office assists with the preparation of all City ordinances, resolutions, regulations and policies. Specialty areas within the advisory group include City land use and permit approval, advice to the Human Resources department, support for the City's public works and water/sewer utilities, police and fire advisory services, real estate and housing assistance, and support for the City's electric utility, Silicon Valley Power (SVP). The primary objective for this group is to provide high quality and timely legal advice to support the efficient and lawful delivery of City services, mitigate risks, and protect taxpayer resources.</p>

## Significant Accomplishments

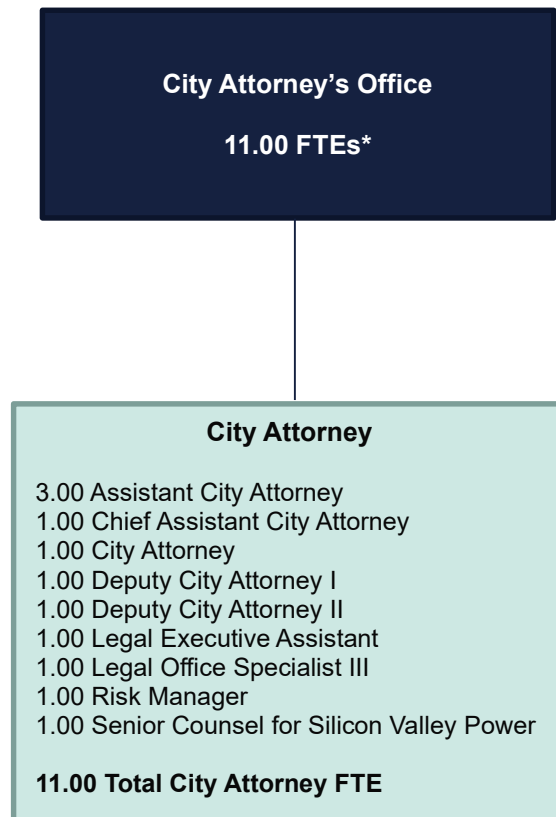

- Examples of significant City accomplishments during FY 2024/25 where the City Attorney's Office has played a prominent role include:
  - Housing Element Update
  - Zoning Code Update
  - Resolution of numerous significant litigation matters, including ongoing litigation with the 49ers and a significant hazardous materials case
  - Voter approved \$400 Million General Obligation Bond (Measure I)
  - Multiple SVP financings, programs and projects, including power purchase arrangements, system improvements and consultant contracts
  - Benton and Lawrence HomeKeys/Transitional Housing project support and negotiations
  - Agreements for the Levi's® Stadium Hosting of the FIFA World Cup in 2026
  - Creation and support of the Stadium vendor licensing/compliance program
  - Levi's® Naming Rights Agreement extension and related agreements
  - Multiple real estate dispositions and acquisitions for both the City and SVP
- To support the City's day-to-day operations, the City Attorney's Office completed approximately 2,200 legal service requests, which included legal advice, review and negotiations of contracts, leases, licenses, policies and many other documents related to the day-to-day operations of the City of Santa Clara, including all major projects and policy initiatives. General litigation support included management and oversight of approximately 175 claims and litigation matters.

## Significant Objectives

- Assist with ongoing Stadium issues including enhancements to Stadium Authority oversight of Stadium operations and 2026 major event planning and agreements
- Implement all aspects of the Measure I Expenditure Plan, including possible redevelopment of the International Swim Center
- Provide support for the Governance and Ethics Committee Work Plan and Council actions to update City Council policies, codes and, potentially, Charter provisions
- Improve and add to training programs, including AB 1234 Open Government and Ethics Training, Personnel Conduct and Public Records Act response
- Assist with City Administration improvements in various policies and programs, including Records Retention and response to Public Records requests
- Continue with internal CAO process improvements
- Provide support for all City Council priorities and objectives
- On-board and integrate new CAO employees, including two additional attorneys, a Risk Manager and additional administrative support

## Budget Highlights

- The Proposed Budget includes the following action to provide additional administrative support to the Attorney and Risk Manager positions in the City Attorney's Office:
  - Unfreeze 1.0 Legal Office Specialist III

\*The positions above represent all funded positions, including the 1.0 Deputy City Attorney position that was added during FY 2024/25, as approved by the City Council on August 20, 2024 (Agenda Item 7.0 - Report to Council 24-742). Additionally, it includes the reclassification of 1.0 Assistant City Attorney to 1.0 Senior Counsel for Silicon Valley Power, the reallocation of 1.0 Risk Manager position from the Human Resources Department, and the addition of 1.0 Legal Office Specialist III recommended as part of this budget.

Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Restoration of 1.0 Legal Office Specialist	1.00	0	129,555	0	169,150

Program: 2411 – Program Administration

This proposal unfreezes the 1.0 FTE Legal Office Specialist position that was frozen in the FY 2021/22 and FY 2022/23 Operating Budget to provide additional administrative support due to the increased number of positions in the City Attorney's Office over the past few years. The number of positions to be supported has increased from five to nine which includes an additional Silicon Valley Power (SVP) specialist attorney that was added in FY 2021/22, an additional Deputy City Attorney for SVP that was added in FY 2023/24, the unfreezing of an Assistant City Attorney position in FY 2024/2025, and the proposed Risk Manager position shift from the Human Resources Department to the City Attorney's Office as part of this budget.

Performance Impact

The attorney and risk management positions require administrative staff support to perform the work of their positions effectively and efficiently. These positions therefore create a great deal of work for the administrative staff in the office. An additional staff person will increase efficiency in the office and serve necessary support functions for the Executive Assistant, Attorneys, and Risk Manager.

# **City Clerk's Office**

This page is intentionally left blank.

## Elected City Clerk's Office

The Elected City Clerk duties are to (a) be the custodian of the seal of the City and (b) have charge of all City Elections. The Elected City Clerk would maintain sole responsibility for administering all aspects of City elections (e.g., Mayor, City Council, and Chief of Police).

## Divisions and Services

The Elected City Clerk's Office is a division organized under the City Clerk's Office.

Elected City Clerk Division Mission	Ethically serve the needs of the citizens of the community by facilitating all aspects of City elections in accordance with the City Charter, Municipal Code, California Elections Code and Political Reform Act.
Division Objectives	To develop and execute strategies to broaden outreach throughout the community to increase transparency and education.
	To design and implement new City initiatives related to Measure N, which changed the method of elections from at-large to by-district voting for City Councilmembers, excluding the Mayor.
	To increase voter registration in the City through effective community engagement programs such as citizens outreach.

## Significant Accomplishments

- Successfully completed the November 2024 General Municipal Election in collaboration with the Assistant City Clerk's Office, which encompassed four council district seats, the Chief of Police, the City Clerk, and one ballot measure.

## Significant Objectives

- Continue to focus on election related efforts in FY 2025/26.

## Budget Highlights

- The Proposed Budget includes a budget action to increase the FY 2026/27 elections budget to provide capacity for a potential City Charter amendment measure.

Program: 2314 – Elections

This proposal increases the election budget by \$100,000 to support a potential Charter Amendment Measure for the FY 2026/27 election cycle.

Performance Impact

The City Clerk’s Office is anticipating no service delivery impact with this proposal.

## Assistant City Clerk's Office Description

The Assistant City Clerk oversees the day-to-day operations of the City Clerk's Office. The Office of the Assistant City Clerk processes the agendas for and attends all meetings of the Council and Authorities Concurrent and Stadium Authority meetings, maintains accurate and up-to-date records of the proceedings of those meetings, and makes those records open for public inspection. The office also processes and maintains copies of City contracts, ordinances, resolutions and other official documents. The Office of the Assistant City Clerk manages and compiles City records in accordance with the Records Retention Schedule and in response to Public Records Act requests. Additionally, the Office of the Assistant City Clerk administers campaign and disclosure laws, the Campaign Finance Ordinance, Regulation of Lobbying Activities program and the Calendars of Certain City Officials program. The office also administers oaths of affirmation pertaining to the affairs and business of the City and certifies copies of official records.

## Divisions and Services

The Assistant City Clerk's Office is organized under the City Clerk's Office.

### Assistant City Clerk Division Mission

Maintain and ensure that all official records and documents are accessible to the public; ensure timely publication, posting and/or mailing of ordinances, resolutions, calendars of certain City Officials, lobbyist registration forms and semi-annual reports, and other notices; attend and keep an accurate record of Council meetings; and respond to all requests for information efficiently and courteously.

### Division Objectives

To continue to work with all City departments to ensure accuracy of the Records Retention Schedules with emphasis on electronic records and historical and vital records.

To continue to work with the Information Technology Department and the City Attorney's Office to ensure integrity and compliance with the Records Retention Program, including updating the Records Retention Schedules.

To continue the records management software training for City staff and work with departments to inventory and classify records.

To continue to track agreements for all City departments to ensure that active agreements are readily available and inactive agreements are retained according to retention schedules.

## Significant Accomplishments

- Supported all public meetings (Council, Stadium Authority, Boards, Commissions, and Committees) including hybrid Zoom and in-person meetings.
- Implemented and conducted the November 2024 General Municipal Election in collaboration with the City Clerk.
- Continued collaboration with departments citywide to build and retain City records through Electronic Document Management system – Laserfiche.
- Collaborated with the City Manager's Office, City Attorney's Office, and Information Technology Department to implement a streamlined procedure for electronic processing of contracts and agreements – DocuSign.

## Significant Objectives

- Implement and support enhanced functionality for the enterprise document management system as a citywide resource for records management, the use of forms, compatibility with mobile devices and other functionality as appropriate.
- Identify and focus on key elements of the enterprise document management systems that will enhance productivity and increase transparency through the public meeting process and access to information. Continue to provide prompt and thorough responses to requests for public records and to assure that all official records and document are accessible to the public.
- Collaborate with departments citywide to analyze and update the City's records retention schedule to reflect changes in legal requirements, office practices, and the emergence of new record types.

## Budget Highlights

- There are no actions included in the Proposed Budget for the Assistant City Clerk's Office.

# **City Auditor's Office**

This page is intentionally left blank.

## City Auditor Division Description

The City Auditor's Office is an independent office that reports to the Audit Committee and City Council. The Office conducts performance audits and reviews of City departments, programs and services, and makes recommendations to strengthen accountability and improve efficiencies and effectiveness of City programs and business processes. The audits may assess internal controls over financial reporting and evaluate the adequacy of system of internal controls, and compliance with applicable laws, rules, regulations, and City policies and procedures.

The Office prepares an annual audit work plan for the City Council's approval and issues semi-annual audit status reports and annual follow-up reports on outstanding audit recommendations to the City Council for review.

The Office provides oversight of external auditors regarding the City's annual financial audit, single audit, annual compliance review with the City's Investment Policy, performance audits and related financial audits. The City Auditor's Office is also responsible for the Stadium Authority's annual financial audit.

Additionally, the Office administers the City's Fraud Hotline program and performs investigations for all material complaints received related to fraud, waste, and abuse.

## Divisions and Services

The City Auditor Division is organized independently from operations.

City Auditor Division Mission	The City Auditor's Office mission is to promote honest, efficient, effective and fully accountable city government through accurate, independent and objective audits.
Division Objectives	Establish performance audits within the organization to better understand how our programs are performing in comparison with neighboring jurisdictions
	Conduct in-depth financial and performance audits.
	Oversee the City's performance management system, auditing and approving all bills, invoices, payrolls, demands or charges against the City before payment.

## Significant Accomplishments

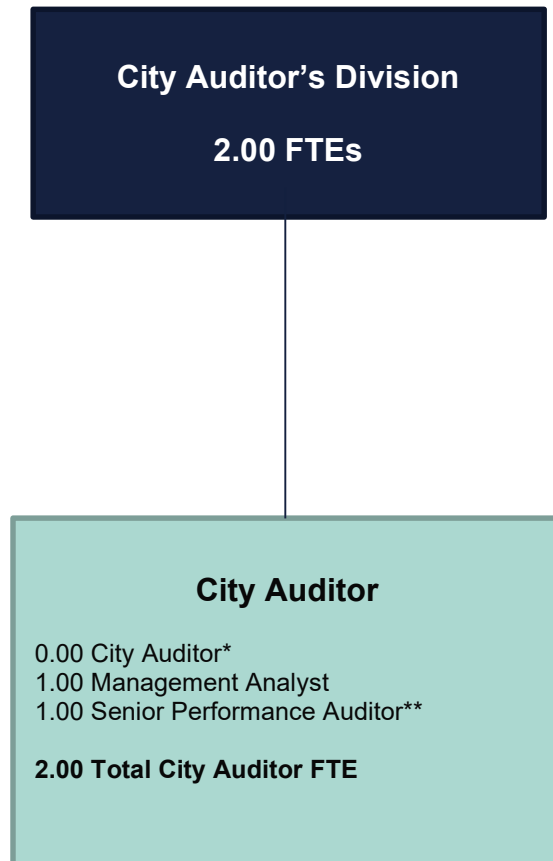

- Completed the annual cash disbursement review for the City of Santa Clara.
- Completed procurement and continuous oversight of the annual financial audit contracts for the City and Santa Clara Stadium Authority.
- Continued to maintain the comprehensive Fraud, Waste, and Abuse Policy that was established to facilitate the development of controls to aid in the detection of fraud, waste, and abuse against the City.
- Completed the annual City-wide risk assessment and developed a two-year audit plan based on those results.
- Investigated whistleblower hotline complaints for internal reporting of fraud, waste, and abuse or other ethical issues.
- Completed a vigorous review of City employee travel and reimbursement policies and procedures, and all City approved Memorandum of Understanding related employee reimbursements.
- Completed regular audit status reports to provide status of projects contained in the annual workplan and presented audit results to the Audit Committee and City Council.

## Significant Objectives

- Update the City's annual risk assessment and prepare the report to effectively evaluate city functions and respond to any changes in risk identified in the City.
- Continue to advance audit work based on results of the City-wide risk assessment to promote accountability within City units.
- Increase efficiency, effectiveness, and accountability of City government through audits and providing recommendations for improvements.
- Maintain an effective follow-up process to monitor and evaluate the adequacy, effectiveness and timeliness of actions taken by management to address audit recommendations and report to the City Council on the actions taken.
- Administer the whistleblower hotline and perform investigations for all material complaints and report a summary of complaint types to the Audit Committee
- Provide oversight of external auditors regarding the City and Santa Clara Stadium Authority's financial and performance audits.
- Prepare the City's Annual Audit Work Plan for FY 2025/26 and FY 2026/27.
- Procure additional audit consulting services to accomplish the projects recommended in the annual audit work plan.

## Budget Highlights

- No substantial changes are brought forward in this budget cycle. This budget continues the freezing of the City Auditor position; the office will continue to be managed by two professional staff and the use of consultants.

\* The City Auditor position is proposed to be frozen for FY 2025/26 and FY 2026/27

\*\* Currently overfilled as an Audit Manager

## City Manager’s Office Description

The City Manager's Office is responsible for providing strategic direction and support to all City departments for day-to-day operations and planning, as well as support to the City Council with its policy making. In this capacity, the City Manager's Office resolves complex administrative matters, performs City-wide policy analysis, directs city-wide emergency preparedness efforts; drives strategic planning and organizational development; oversees employee relations; directs the preparation of the budget in conformance with the Council's approved priorities and Budget Principles, and advises the Council of the City's financial outlook. In addition, the City Manager's Office has direct responsibility for economic development, community outreach and engagement, property and contract management, legislative advocacy, and special projects.

The City Manager's Office also provides general administration for the Sports and Open Space Authority, Housing Authority, and Successor Agency of the former Redevelopment Agency.

## Divisions and Services

The City Manager's Office is organized into two Divisions: City Council Support; and Leadership and Management Services.

City Council Support Division Mission	Support the City Council with its policy decisions and assist with establishing and implementing goals, objectives, and planning strategies to maintain a thriving community with efficiently delivered City services.
Division Objectives	<div>Provide policy support for decision making by assisting Council in establishing policies and priorities, advancing the City's position on regional, State, and federal legislative issues, and executing its legislative responsibilities.</div> <div>Build and maintain intergovernmental relations and advocate for legislation that will benefit the City and advance its goals.</div>

Leadership and  
Management Services  
Division Mission

Support the Santa Clara community through strategic planning, day-to-day oversight of operations, policy development, and fiscal planning. This Division also leads economic development, organizational development, community outreach and engagement, and the implementation of key policies and programs.

Implement Council direction while overseeing City operations and department resources, economic development, management of City-owned properties, and the development and implementation of key policies.

Plan and execute highly complex, citywide projects while strategically developing a more effective and efficient organization.

Provide accurate information and an effective and user-friendly experience to Santa Clara residents, businesses, and visitors through the City's various communication channels including but not limited to the City website, Customer Relationship Management System, MySantaClara, print publications, social media channels, websites, eNews delivery, and other print and digital media

Engage with local and national news agencies to positively represent the City and provide information on City actions, policies, and initiatives, and act as a City liaison to, and coordinate with various community groups, non-profit organizations and intergovernmental partners to address the needs of Santa Clara residents.

Division Objectives

Lead development of economic development-related strategies, including economic and data analysis to support policy development, development agreements, business intelligence activities, and decision-making collaboration with internal and external partners.

Manage the City's economic development programs and serve as the liaison between the City and the business community. Work with existing and potential Santa Clara businesses and entrepreneurs to encourage retention, expansion, and creation, including business outreach and development of small business assistance programs.

Promote the organizational vision and advance interdepartmental coordination for sustainability initiatives citywide including the implementation of the City's adopted Climate Action Plan that advances local climate and sustainability targets and complies with State environmental regulations.

Manage the City's real estate portfolio.

## Significant Accomplishments

### City Council Support

- Supported the coordination of the annual process for City Council Committees and Outside Agency Committees and the timely distribution of meeting agendas.
- Provided administrative support for the day-to-day operations of the Mayor and Council Office, including scheduling Council briefings.
- Facilitated and supported the development of Newly Elected Office Orientation materials and onboarding.
- Provided communications support for City Council and staff for regional events and conferences, State of the City, community events, groundbreaking and ribbon cutting events and speaking engagements.
- Provided staff support to the City Council in their discussion and consideration of a proposed Joint Powers Agency Agreement to establish the Cities Association of Santa Clara County Joint Powers Agency; the City Council approved the agreement at the November 7, 2023, Council meeting.
- Led interdepartmental efforts to prepare the City's FY 2023/24 Community Project Fund request application that resulted in an award of \$963,000 for Public Safety Communications Infrastructure based on Representative Ro Khanna's submittal.
- Coordinated the City's 2023 State budget funding requests which resulted in an award of \$1,800,000 for Santa Clara Overnight Care Locations and \$1,750,000 for Regional Public Safety Interoperable Radio Communications based on the State Senator Aisha Wahab and former Assembly Member Evan Low's submittals.

### Leadership and Management

- Implemented strategic staffing adjustments to address identified needs and priority projects, including economic development and sustainability, homeless services, and International Swim Center (ISC) project management.
- Successfully filled executive recruitments and appointments to address vacant director positions in the Community Development and Parks & Recreation Departments, and key executive positions in the City Manager's Office.
- Coordinated efforts across City departments to process over 22,000 Public Records Act requests during FY 2022/23 and approximately 22,000 requests in FY 2023/24.
- Successfully completed the first Priority Setting Session with the new City Manager in support of the City Council Priority Setting process.
- Began organizational assessment processes with five key departments: Silicon Valley Power, Public Works, Water & Sewer Utilities, Parks & Recreation, and Community Development.

### Community Outreach and Engagement

- The City's bi-annual newspaper, "Inside Santa Clara" returned to print, with one edition covering the Spring/Summer timeframe and another covering the Fall/Winter. This publication is mailed to all residential and business addresses in the city and is published digitally online. The publication has been revamped to feature long-form stories about City services, initiatives, and news of relevance to the public.
- The City's monthly digital publication, "City Hall News", which focuses on short-form news and events listings, was migrated exclusively to the City's eNews platform in March 2024. The publication was previously sent as an email with a link to the full PDF. The new format is more user-friendly and viewable directly from the recipient's inbox.
- Developed Council Policy 054, which allows for Mayor/Council District communications, in the form of monthly newsletters linked in City Hall News, and separate messages to Citywide or District constituents.
- Changed and modernized the City's social media strategy which has resulted in increased engagement and followers on the City's social media platforms which include Instagram, X (formerly Twitter), Facebook, Nextdoor, and LinkedIn.

- Developed, designed, and facilitated mailers and utility bill insert content to keep the community apprised of special events, initiatives, and community meetings. City Communications sends out its own utility bill insert quarterly.
- Revamped the City Calendar and Annual Report to include professional high-resolution images taken by City photographers.
- Joined national United Against Hate Campaign and developed a local campaign which included videos for social media featuring elected officials, community members and staff, as well as film screening at the library followed by a community discussion.
- Conducted a robust community outreach effort to educate voters about Measure I, the \$400 million general obligation bond, to fund infrastructure needs in the City. Efforts included a community survey, dedicated webpage, social media posts, direct mail and community presentations. Voters approved Measure I by over 69% on the November 2024 ballot.
- Responded to over 200 media inquiries annually.

## **Economic Development**

- Added Director of Economic Development & Sustainability position to oversee the City's economic development and sustainability efforts.
- Re-convened the Economic Development & Marketing City Council Committee (AdHoc).
- Supported large development projects including Related Santa Clara, Kylli Mission Point, 2101 Tasman Drive, and the Nvidia and Intel expansions.
- Hosted a City Council Session on the State of Real Estate and Development in Santa Clara, presented by Urban Land Institute, at the Santa Clara Convention Center. Information on factors affecting the current slowdown in construction, including unfavorable interest and capitalization rates, as well as foundational development finance concepts such as residual land value were shared. Approximately 80 audience members from the public and development community were in attendance.

## **Real Estate Management**

- Executed approximately 25 leases and 15 purchase orders for operations and maintenance for Commerce and Peddlers Plaza.
- Entered into a purchase and sale agreement for the Loyalton and Hyatt Regency Santa Clara property disposition.
- Completed move out of Morse Mansion after expiration of the lease. Conducted study to determine maintenance requirements of the property.
- Conducted analysis to determine the feasibility for operating and maintaining Commerce Plaza.

## **Sustainability**

- Actively participated in regional climate collaboration efforts and policy development through partnerships such as the Santa Clara County Climate Collaborative, the Silicon Valley Urban Forest Alliance, Joint Ventures Silicon Valley, Santa Clara Valley Water, the Building Decarbonization Coalition, and other neighboring jurisdictions.
- Water Conservation:
  - Maintained water rebates with cost-sharing amount established during the recent drought for greywater and landscape rebate programs.
  - Continued multi-pronged water conservation community outreach campaign to promote landscape conversion rebates and more, resulting in over 100,000 square feet of lawn conversions to water wise landscapes in FY 2023/24.
  - Continued various messaging campaigns and spring/fall community classes focused on water conservation and water rebates.

- Met the State's 2024 Water Use Efficiency requirement of 55 gallons per capita per day (GPCD) with Santa Clara's GPCD of 51.8. Advocating continued conservation through outreach messaging toward the new State standard, effective from January 1, 2025, to December 31, 2029, reducing GPCD to 47.
- Launched messaging campaign aimed at Commercial, Industrial and Institutional (CII) and homeowners' association properties to address AB 1572, banning the use of potable water to irrigate non-functional turf, phasing in over the next several years. The ban for government properties goes into effect January 1, 2027.
- Electrification:
  - Launched residential building electrification rebates.
  - Launched commercial solar rebate and non-profit solar grant programs.
  - Funded on-demand shuttle program expansion into Santa Clara "SV Hopper" in partnership with the Department of Public Works, the City of Cupertino and Via.
  - Piloted an energy education after school program with Santa Clara Unified School District.
- Investing in a Sustainable Future:
  - Successfully concluded the 3<sup>rd</sup> year of the program, with fellows showcasing their impactful final projects at City Council meetings.
  - Launched Silicon Valley Power's (SVP) sustainability scholarship program with Mission College modeled after SVP's Santa Clara University (SCU) scholarship, scaled, and fit to the community college landscape.
  - Collaborated with the SCU Career Center on vital workforce development initiatives and partnered with the SCU Engineering Department to initiate curriculum alignment for effective pipeline development.
- Provided mentorship opportunities in sustainability to students from high school through university levels, including supporting SVP Sustainable Futures scholarship recipients in research projects that align with City climate action goals, and hiring college interns to work on sustainability projects.

## Special Projects

- Led efforts to enter into an agreement with Care Solace to provide coordination for mental health care and social services to city residents and City of Santa Clara employees; efforts to implement the program are underway. These services will enhance existing City programs offered to residents and employees and complement future services that are being developed to further support community members from vulnerable populations, including those experiencing homelessness.

## Significant Objectives

### City Council Support

- Provide strategic leadership, policy analysis, and communications in support of Council priorities.
- Facilitate and support a mix of in-person and virtual meetings including the coordination of policy priority setting initiatives.
- Provide staff and communications support for the State of the City, community events, groundbreaking/ribbon cutting events and speaking engagements.

### Community Outreach and Engagement

- Develop, execute, and lead the City's external and internal communications and outreach strategy using a broad range of communications channels and Citywide communications initiatives.
- Continue to manage the City's Customer Relationship Management System, MySantaClara, to provide a more effective and user-friendly experience to Santa Clara residents, businesses, and visitors.
- Act as a City liaison to, and coordinate with, various community groups, non-profit organizations and intergovernmental partners to address the needs of Santa Clara residents.

### **Leadership and Management**

- Maintain excellence in the City's service delivery by helping to resolve complex administrative matters in support of Council priorities and the day-to-day operations of City Departments.
- Complete recruitment processes for key executive positions.
- Continue to refine staffing and program strategies to create additional efficiencies and maximize staffing resources while maintaining a high level of service to City Council, stakeholders and community partners.
- Complete transition of the Office of Emergency Services from the Fire Department to the City Manager's Office to centralize authority, further enhance the facilitation of coordination across City departments, and ensure a unified and effective approach to emergency preparedness and response.
- Strive to maintain effective working relationships with stakeholders and community partners to advance the best interests of the City.
- Develop and oversee strategies to enhance civic engagement using a range of social media and other platforms to promote inclusion and diversity of thought in the development of public policy initiatives.
- Continue efforts to mitigate deficits projected in the City's Ten-Year General Fund Financial Forecast through development of revenue strategies, implementation of alternative service delivery models and expenditure reductions.
- As required by the California Public Records Act, continue to develop and implement strategies to address the large volume of public records requests in a manner that is both timely and responsive with the goal of enhancing public transparency while balancing City resources.

### **Legislative Advocacy**

- Continue to support departments in identifying and pursuing federal and State grant opportunities for City projects in coordination with the City's legislative consultant.
- Continue to build and maintain intergovernmental relations with elected officials and regional, State, and federal agencies, and advocate for legislation that will benefit the City and advance its goals.

### **Economic Development**

- Develop Economic Development Programs to support small and large businesses and revenue generation.
- Conduct an analysis of economic development policies to incentivize near term development.
- Continue to lead and support the significant development projects including Related Santa Clara, Nvidia expansion, Intel expansion, as well as other significant development projects within the community.

### **Real Estate Management**

- Continue to develop and implement a comprehensive real estate program to manage City-owned properties, promote economic development and generate revenue for the General Fund.
- Evaluate next steps for City owned property in Downtown to align with City's adopted Downtown Precise Plan.

### **Sustainability**

- Work with the appropriate City departments to implement near term priorities identified in the approved 2022 City Climate Action Plan (CAP). Update to meet local goals and state regulatory targets.
- Continue to utilize regional partnerships to implement CAP priorities.
- Identify and implement a CAP dashboard system across departments to report progress on adopted targets.

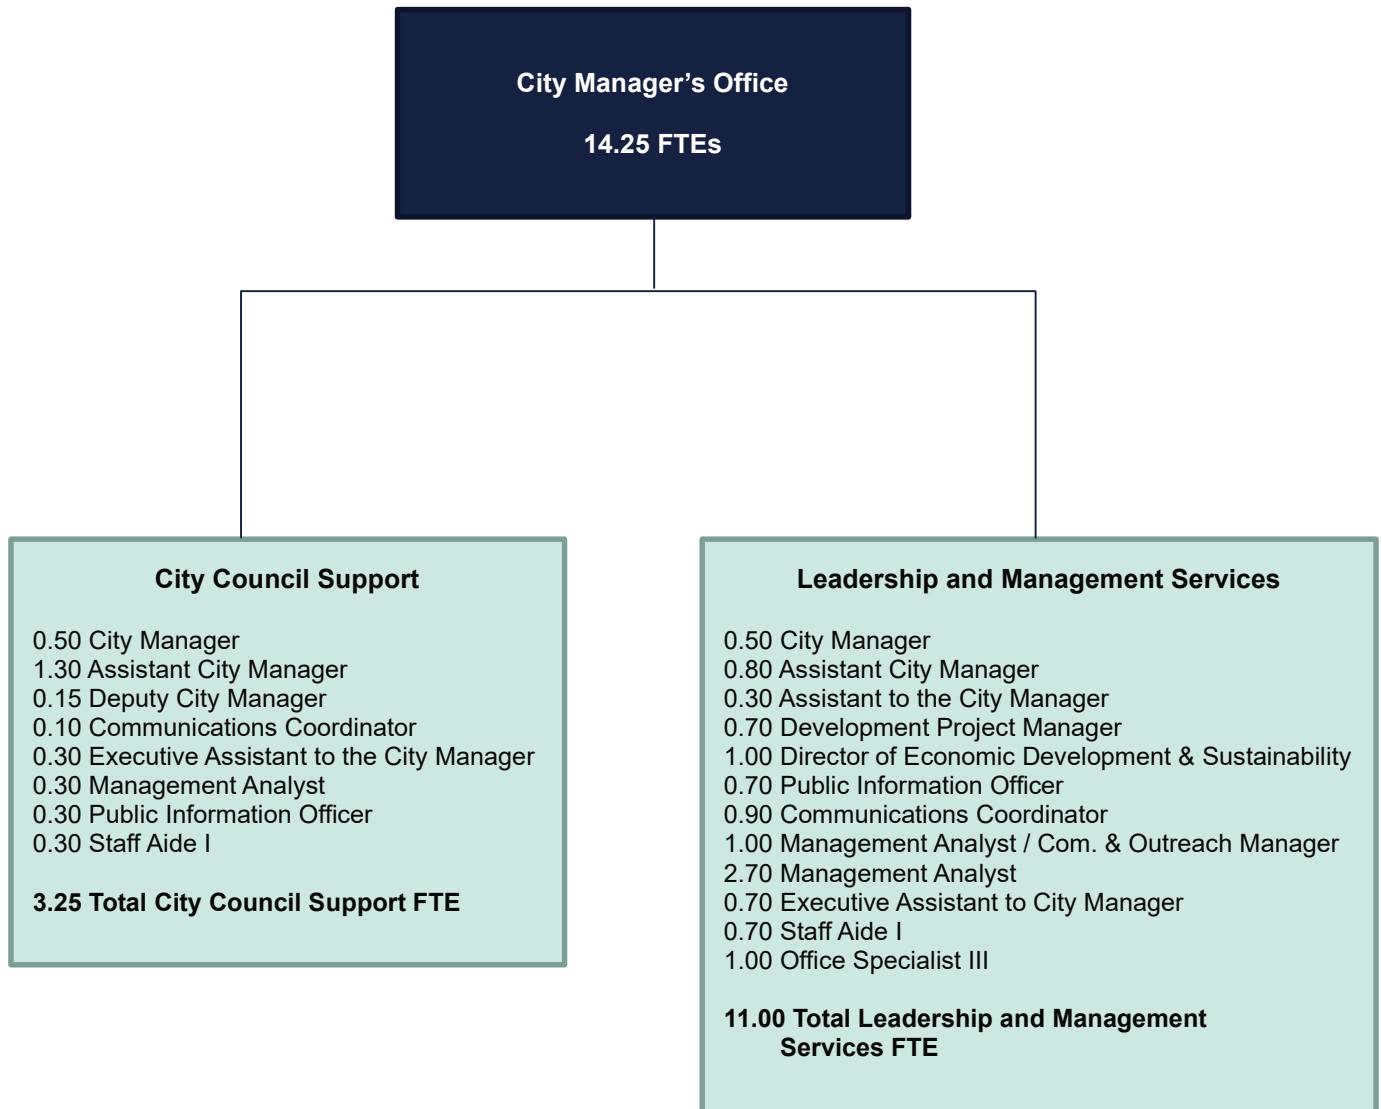

- Ensure continued alignment of the City's CAP with other relevant plans including, but not limited to, Fleet Electrification Plan, SVP Electric Vehicle Blueprint, Bicycle Master Plan, and the Santa Clara Urban Water Management Plan (UWMP), and meets the goals of state regulatory requirements in the areas of water, solid waste, transportation, and energy.
- Revise Reach Code to align with changes in recent law and establish aggressive requirements for increased levels of energy efficient building design beyond the California Building Standards Code.
- Continue to provide mentorship and career growth opportunities for students at the high school, college and university levels including scholarship recipients.
- Explore the development of a sustainability apprenticeship/green jobs program in partnership with local trades or existing apprenticeship programs with an emphasis on energy related careers.
- Launch City employee EV charging pilot program and update City of Santa Clara fleet transition plan.
- Launch solar tune up program and finalize community solar feasibility study.
- Expand and extend SVP Sustainable Futures Scholarship Program in partnership with Mission College and Santa Clara University.
- Launch residential all electric multi-family building programs and expand residential building electrification rebates.

## Special Projects

- Continue to work with various stakeholders to advance the land use planning and development of Santa Clara's downtown.
- Continue to work with stakeholders to advance economic development efforts to promote Santa Clara tourism and businesses.
- Continue to work with local schools and community organizations to explore partnerships that leverage resources to provide services and programs that enhance the educational, recreational and social outcomes of students and the most vulnerable of Santa Clara residents.

## Budget Highlights

- The budget reflects a partial reallocation of the Deputy City Manager from Non-Departmental to support City Council's priority to enhance the City's focus on services for Santa Clara's unsheltered community. This position will also continue to support the Stadium Authority and the City's legislative program as well as other key efforts.
- The budget also reflects a reallocation of the recently approved Director of Economic Development & Sustainability from Non-Departmental.
- The City Manager's Office proposed budget includes:
  - The addition of 1.0 Management Analyst position to directly support the newly added Director of Economic Development & Sustainability and support sustainability efforts, including work on the City's Climate Action Plan.
  - The deletion of 1.0 Chief Operating Officer position and addition of 1.0 Assistant City Manager position.

<b>Sustainability Management Analyst</b>	1.00	0	179,777	0	228,734

Program: 1021 – Policy Support for Decision Making

As part of the 2024 Priority Setting Session, the City Council identified sustainability as a high priority for the City to address. In order to address that effort, this proposal adds 1.0 Management Analyst position to directly support the City's Director of Economic Development & Sustainability. This position will help with the implementation of and future amendments to the City's Climate Action Plan.

### Performance Impact

Adding this position will allow for City staff to address City Council identified priorities in the area of sustainability.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Addition of 1.0 Assistant City Manager and Deletion of 1.0 Chief Operating Officer</b>	0.00	0	(108,703)	0	(97,558)

Program: 1021 – Policy Support for Decision Making  
 1022 – Intergovernmental Relations & Advocacy  
 1031 – Day to Day Operations  
 1032 – Strategic Planning  
 1033 – Community Outreach & Engagement

The City's current executive management structure includes 1.0 Chief Operating Officer position alongside 2.0 Assistant City Manager positions. This proposal adds 1.0 Assistant City Manager position and deletes 1.0 Chief Operating Officer position in order to bring more consistency amongst the executive staff, while still providing the same level of service.

### Performance Impact

This position change results in some General Fund savings, without having an impact of service delivery to the City departments supported by these positions.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Performance and Workload Measures

# **Community Development Department**

This page is intentionally left blank.

## Community Development Department Description

The Department consists of three divisions and one group: Planning, Housing and Community Services, Building, and an Innovation group. The Director, Assistant Director and a Management Analyst support the activities of the Department as a whole. The Department's primary purpose is to guide the ongoing physical development of the community, which includes long-range land use planning, review of new development proposals, permitting and inspection of construction to ensure that it conforms to the standards of the City and State, and the provision of affordable housing within the City of Santa Clara. The Department acts as an advisor to the City's decision-makers in these areas and carries out the policies of the City Council. Santa Clara's policies and standards are contained in the General Plan, Zoning Ordinance, California Building Codes and adopted City Council policies. Plans for all new structures are reviewed and construction inspections are made to verify the safety and basic quality of work. Maintenance of the City's General Plan, proactive land use planning to meet the future needs of the community, and the delivery of high-quality professional services, including the enhancement and streamlining of the development permit process, and forging partnerships to provide housing services to lower income members of the community are primary objectives of the Department.

### Divisions and Services

The Community Development Department is organized into three Divisions and one group: Planning, Housing and Community Services, Building, and an Innovation Group. The Innovation Group is designed to support and enhance the overall Department's current systems and processes through improved technology solutions, with emphasis on the permitting system.

Building Division Mission	To provide high quality and efficient services for the design, construction, use, occupancy, and maintenance of all buildings and structures in order to safeguard the public health, safety and general welfare in the built environment.
Division Objectives	Provide excellent customer service and efficient plan review and permitting services at the Permit Center via walk in over the counter or through the online permit system.
	Provide effective, reliable field inspection services for the community by ensuring Building Code safety regulations are met during construction and code enforcement concerns.
	Continue streamlining the building permit process through new technologies and the internet. Continue improving and enhancing the permit information system to expand utilization to its fullest potential.
	Continue to improve customer satisfaction by providing more staff and new innovative software to better assist Permit Center visitors.
	Apply and implement new building codes and new State legislation.
	Continue to coordinate plan checks and inspections statuses of the four development functions: Building, Fire Prevention, Planning and Public Works/Engineering.

## Housing and Community Services Division Mission

The Housing and Community Services Division is dedicated to expanding and preserving affordable housing opportunities. The Division manages assets, provides construction loans, implements the Affordable Housing Ordinance to build new affordable rental and ownership housing, helps residents connect to housing, and ensures long term compliance. Additionally, the Division administers federal and State grant funds to make capital improvements, to fund public services for lower income residents, to advance Fair Housing and access to opportunity, and to reduce homelessness and its impacts.

## Division Objectives

Expand multi-family affordable housing development. Collaborate with developers to encourage the construction and preservation of multi-family housing that is affordable to lower- and moderate-income households.

Implement inclusionary housing and affordable rental programs by ensuring compliance with the City's inclusionary housing policy which requires 15% of all new residential developments to be set aside for a mix of very low, low, and moderate-income households, and increasing access to below-market rentals through strategic financing and partnerships.

Increase affordable homeownership opportunities through education and the marketing of income restricted homes to lower- and moderate-income first-time homebuyers.

Administer federal Community Development Block Grant (CDBG), HOME Investment Partnerships Act Program (HOME), HOME ARP, and State Permanent Local Housing Allocation (PLHA) grant funding programs. Implement affordable housing and public facilities capital improvements and oversee grants to agencies that provide public services for lower income residents.

Administer and monitor the Tenant-Based Rental Assistance (TBRA) program and Neighborhood Conservation and Improvement Program (NCIP).

Coordinate with City Departments, organizations, and service providers to connect unhoused residents with services, shelter, and supportive housing to reduce homelessness and its impacts.

<b>Planning Division Mission</b>	<p>To enhance the community's safety, welfare, quality of life, and economic opportunities by providing advanced planning and development review services.</p>
<b>Division Objectives</b>	<p>Review proposed development projects for consistency with City policies, ensure compliance with the California Environmental Quality Act (CEQA), and confirm construction complies with development approvals.</p> <p>Continue streamlining the development process and facilitate public access to information through new technologies and the internet.</p> <p>Prepare and implement long range plans; in coordination with consultants, prepare the El Camino Real and Santa Clara Station Area Specific Plans; maintain the updated Zoning Ordinance; and implement actions identified in the City's certified Housing Element.</p> <p>Support the City's historic preservation efforts, provide code enforcement to respond to community concerns, implement the Climate Action Plan, and work with the Valley Transportation Authority (VTA) on planning for transit services.</p> <p>Provide support for CEQA/National Environmental Policy Act (NEPA) review of City capital, affordable housing, and other public projects.</p>

## Significant Accomplishments

- Revisions to the re-Adopted Housing Element addressing California Department of Housing and Community Development (HCD) comments from October 20, 2023, were reviewed by Santa Clara's Planning Commission on April 17, 2024, and reviewed and adopted by the City Council on May 7, 2024. On May 31, 2024, the State Department of Housing and Community Development (HCD) issued a letter indicating that the City's adopted 6<sup>th</sup> Cycle Housing Element was in substantial compliance with State Housing Element Law.
- Adopted the Downtown Precise Plan and Form Based Zoning Code that implements the community's vision and objectives for a vibrant, pedestrian-oriented destination Downtown with a mix of residential, office, and civic uses. The Form Based Code will provide objective design standards to regulate new development within the historic 25-acre downtown area.
- Planning Division Code Enforcement staff proactively performed code enforcement efforts in the Mission Town neighborhood to improve the quality of life for the residents through effective community outreach and abatement of graffiti, trash, and inoperable vehicles. Staff also worked diligently to address numerous illicit and unpermitted advertising signs that plagued El Camino Real and to educate Mobile Food Vendors along the corridor on the City's new mobile food vending regulations adopted in the updated Zoning Ordinance.
- Invested approximately \$1.0 million in the City's Neighborhood Conservation and Improvement Program (NCIP) and minor repair programs.
- Invested approximately \$1.0 million in the City's Tenant Based Rental Assistance Programs.
- Assisted one family in purchasing Below Market Purchase homes, approximately 2,050 residents through public service programs, and 524 homeless or at-risk Santa Clara residents through the Homeless Prevention Program and the County's Supportive Housing Case Management Program.
- Launched a modern and efficient queue and appointment booking application for the Permit Center for virtual appointments, live wait times, and text message reminders.
- Effectively eliminated three years' worth of back log with expired permits caused by the pandemic, resulting in current and compliant permitted construction.
- The Building Division transitioned entirely from paper to digital timecards using a shared Teams channel, creating more efficiencies and reduced staffing time spent on timecards.
- Implemented SolarAPP+, an automated plan check tool for residential solar photovoltaic permitting projects that supports a streamlined customer experience.
- Began implementation of a Permitting Online Portal refresh and permitting guide to make it easier for the public to apply for their permits.
- Continuously provided Building division-wide staff training to enhance technical knowledge, streamline the permit process, and ensure consistency across the division.
- Coordinated ongoing inter-departmental meetings with key City stakeholders to address challenges on critical projects and streamline the plan review and temporary certificate of occupancy process.
- Collaborated with key developers and City stakeholders, to resolve potential issues and deliver excellent customer service.
- Supported State housing goals, created checklists to assist developers and designers for post entitlement Building permit application submittals to shorten permit processing and review times.
- Aligned with the State accessory dwelling unit (ADU) mandate, developed pre-approved ADU programs to expedite the plan review and permitting processes and help homeowners obtain ADU project approvals with a quicker turn around.
- Aligned with the City Manager's Office (CMO) citywide employee event planning effort, established a department-wide Connected CDD Committee to coordinate events across divisions, fostering a collaborative environment and

enhancing employee morale.

- Advanced the City's Enterprise Permitting System by leading strategic improvements to the Accela Civic Platform, enhancing the user experience for both staff and the public and laid the foundation for more improvements to come.
- Streamlined key permitting workflows and automated internal processes, reducing manual staff effort and improving turnaround times for permit processing, such as the Planning Zoning Clearance and the SolarAPP+ revisions application.
- Expanded the Accela Knowledge Base (AKB) as a centralized staff resource supporting the City's enterprise permitting system. With over 150 employees using the platform and nearly 9,000 visits in 2024, the AKB has improved consistency, reduced staff response time, and enhanced service delivery for the public—advancing City Council priorities around customer service and digital transformation.
- Fiscal Year 2023/24 data showed accomplishments in various Building Division areas including the Permit Center, Plan Review, Inspections and Administrative team:
  - Number of applications: 7,284 records
  - Number of issued permits: 6,545 records
  - Number of inspections performed: 52,669 inspections
  - Number of finalized permits: 6,195 records
  - Number of housing units under review or construction: 5,214 units (31 Single Family + 98 Accessory Dwelling Units (ADU) + 5,085 Multifamily)
  - Total square footage of nonresidential development under review or construction: 2,905,042 sq ft
  - Number of Public Records Act requests and subpoenas processed: 623
  - Received and responded to 51,044 emails and 30,548 customer phone calls from the public concerning inspections scheduling, permit status updates, and various other customer service items.

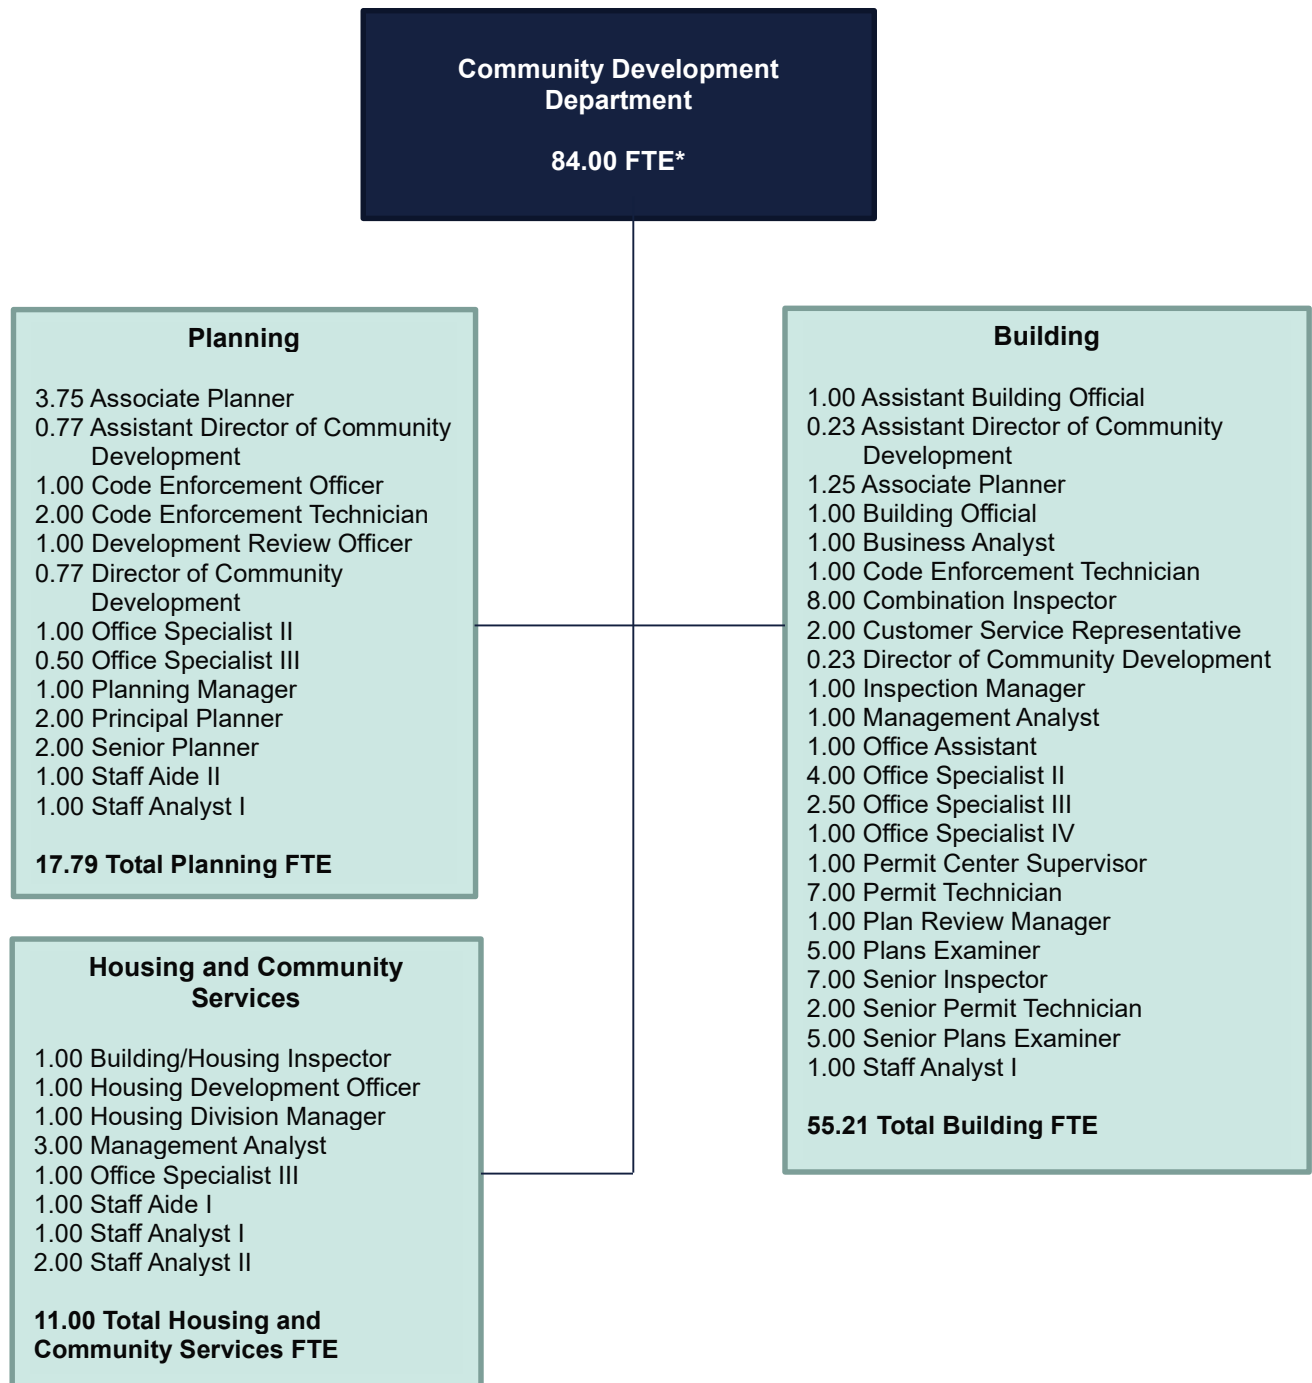

## Significant Objectives

- Continue to engage with the Santa Clara community to inform and involve community members in both long-range and current land use planning activities.
- Enhance economic development by meeting service demands; providing more timely development review and permit processing timeframes and inspections; keeping critical services in-house; providing consistency and continuity; and staying current with technology.
- Complete significant advanced planning efforts, including implementing the Short-Term Rental program, implementing actions identified in the 6<sup>th</sup> Cycle Housing Element, El Camino Real Specific Plan revisions, and Santa Clara Station Area Specific Plan.
- Focus on expanding the affordable housing pipeline by negotiating affordable housing agreements, Disposition and Development Agreements, as well as conducting loan due diligence and underwriting for the multi-family development pipeline.
- Continue to administer the Below Market Rental Program (BMR) and Below Market Purchase Program (BMP).
- Develop and implement policies and programs to reduce displacement and homelessness.
- Continue to work towards full cost recovery model and right-size staffing to meet growing work volume.
- Work to reduce plan review timeframes for various project types, aiming to align with regional jurisdictions, streamline the plan review process and enhance customer service.
- Develop expedited review services based on the staff capacity for certain types of projects to assist small business owners and homeowners to obtain their permits quicker.

- Establish the Building Division's Policy and Procedure Manual to enhance efficiency and promote consistency across the entire division.
- Develop and expand organizational structure by creating more attainable entry level positions in plan review and inspection programs which will also result in more balanced distribution of workload.
- Continue to automate key tasks and processes in the Enterprise Permitting System to drive staff efficiencies.
- Enhance the Permitting Online Portal to address customer feedback to make it more user-friendly, accessible, and modern; make it easier to find key information and perform actions, such as permit status, uploading and downloading of documents, scheduling inspections, and paying fees.
- Expand knowledge management and training resources in the Accela Knowledge Base for staff, including updates to internal documentation and support tools to ensure consistent system use and best practices.
- Integrate permit system data with other City platforms, such as GIS and SolarAPP+, to provide a more holistic view of land use and development activity and provide more self-help records requests options.
- Leverage system analytics and reporting tools to support data-informed decision making and continuous process improvement within Community Development and across departments.
- Collaborate on Citywide digital transformation efforts, using the Permitting Online Portal as a model for service delivery modernization and customer-centered design.
- Complete a comprehensive web content audit to improve accessibility, clarity, and user-experience across Community Development webpages, aligning with Web Content Accessibility Guidelines (WCAG) standards and best practices for a Permit Center website while supporting the launch of the redesigned Permitting Online Portal.

## Budget Highlights

- The Proposed Budget includes the following budget actions to address higher workload anticipated in the Housing and Community Services Division, including for the support of the homelessness program and Housing Element implementation:
  - 1.0 Management Analyst
  - 1.0 Staff Analyst II
- The following positions are also included to support the Building Division to help address current pace of development activity in the City, and to address issues identified as part of the internal audit of the Building Permitting Process:
  - 0.5 Office Specialist III, reallocated from the Planning Division
  - 1.0 Senior Inspector
  - 1.0 Plans Examiner
  - 1.0 Business Analyst (0.7 funded by the Technology Fee)

\*The positions above represent all funded positions, including the 5.0 positions recommended to be added as part of this budget.

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Building Division Permit Center Resources</b>	1.00	0	198,677	0	245,851

Program: 5532 – Plan Review and Permit Services

This proposal adds 1.0 Plans Examiner position to the Building Division. The City continues to see robust development across various sectors including multi-family housing, high tech manufacturing, high-rise and commercial construction. Substantial key projects are expected in the near future, requiring additional staffing resources to meet projected time-sensitive demands. Existing experienced staff will take the lead on these highly complex and sensitive projects providing higher quality plan reviews and allowing for greater control of the plan review timeline. This Plans Examiner position will focus on the more typical projects, such as retail and restaurant establishments, tenant improvements, residential remodels and accessory dwelling units (ADU) although generally smaller in size they are a significant portion of our workload and deserve the same reliable, high-quality and timely plan review. This new position would also contribute to improving the overall timeliness of permit review and issuance for all development customers.

### Performance Impact

This position will provide the additional capacity needed for the Permit Center to improve processing and response time goals.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Building Division Inspection Services</b>	1.00	0	187,614	0	236,374

Program: 5533 – Field Inspection

This proposal adds 1.0 Senior Inspector position to the Building Division. The position will focus on mechanical, electrical, and plumbing (MEP) plan review as the Building Division has currently assigned two and a half of the Division's six Senior Building Inspector positions to providing full time MEP plan review. This accounts for approximately 60% of the Division's MEP plan review needs with the balance performed by consultant staff. Adding this position will increase the Building Division staff's bandwidth with full time, permanent capacity to meet the demands of the incoming development activity and reinforce the enhancement of safety in the building environment.

### Performance Impact

This position will provide additional capacity in on the Inspection Team to help manage the increasing activity levels for MEP type plan reviews.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Homelessness Program Support</b>	1.00	0	179,777	0	228,735

Program: 5545 – Affordable Housing

This proposal adds 1.0 Management Analyst position to the Housing Division to help manage the implementation of the Homelessness Response Plan. This position would set up a pilot Safe Parking Program and assist the City Manager's Office with setting up and managing an Overnight Warming Location or a hotel respite program. This position would also be responsible for seeking out grant funding, procuring and managing vendors, and coordinating closely with internal and external stakeholders. The Management Analyst would also manage and coordinate with the City's outreach team, assist with stakeholder outreach, assist with planning annual resource fairs, gather data and prepare annual reports, and presentations for City Council.

### Performance Impact

This addition will enable the Community Development Department to address the City Council priority of homelessness support and provide critical staffing capacity to get these projects online.

Strategic Pillar:

Promote and Enhance Economic, Housing and Transportation Development

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Building Division Innovation Group Resources</b>	1.00	0	174,659	0	218,464

Program: 5532 – Plan Review and Permit Services

This proposal adds 1.0 Business Analyst position (0.70 FTE funded by the Technology Fee, with the remaining 0.30 FTE funded in the Building Development Services Fund). The Accela Civic Platform is critical to the City's permitting process, and its rapid expansion has increased both system complexity and the demand for improvements. The Business Analyst will help implement best practices identified in an internal audit, including optimizing technology to improve customer experiences, expanding automated workflows to enhance efficiency, and incorporating user feedback into system enhancements. With 70 active enhancements and an average lead time of 303 days, existing staffing levels create bottlenecks.

### Performance Impact

This role is expected to cut turnaround time for new Accela features, accelerating improvements that reduce delays, enhance online self-service, and automate manual steps, making the permitting process more efficient, and user-friendly in direct support of the City Council's priority to streamline and improve permitting for residents and businesses. By reducing delays, automating processes, and ensuring the system evolves to meet the City's needs, this position will deliver measurable service improvements for applicants navigating the permitting process.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Housing Element Implementation</b>	1.00	0	163,983	0	213,974

Program: 5545 – Affordable Housing

This proposal adds 1.0 Staff Analyst II position to the Housing Division to provide support for the implementation of the Housing Element. State law changes have added more requirements to the Housing Element, resulting in a heavier workload in order for the City to remain in compliance and ensure continued certification of the Housing Element. This position would conduct research, plan and conduct stakeholder outreach, coordinate and manage consultants, staff Santa Clara Community Planning Collaborative meetings, and gather and organize data. The position is also anticipated to work with the City's Geographic Information System team to set up new layers, coordinate ordinance updates, draft staff reports, and prepare presentations for City Council.

### Performance Impact

This position will play a role in maintaining the certification of the City's Housing Element and providing support to Housing staff to implement the key projects to remain in compliance with State laws.

Strategic Pillar:

Promote and Enhance Economic, Housing and Transportation Development

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)

Program: 5532 – Plan Review and Permit Services  
5533 – Field Inspection

This proposal adds funding (both one-time and ongoing) for hardware, training, conference, and licensing costs associated with the position additions recommended as part of this operating budget.

### Performance Impact

This increase will provide adequate equipment, training and work materials for the recommended new positions.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Planning Division Resource Reallocation to Building Division</b>	0.00	0	13,619	0	14,563

Program: 5532 – Plan Review and Permit Services

This proposal adds 1.0 Office Specialist III and deletes 1.0 Office Specialist II in order to appropriately reflect the intended increase of work responsibilities performed, including additional research, data collection and statistical analysis. This position will assist the Planning division manager and other management staff with complex administrative functions, such as ensuring compliance with both federal and State reporting requirements. This proposal also shifts 0.50 FTE to the Building Division to offer more administrative support.

### Performance Impact

This position change will allow for a higher level of work to be performed in this administrative capacity and provide support to both the Planning and Building Divisions.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

# **Electric Utility Department**

This page is intentionally left blank.

## Electric Utility Department – Silicon Valley Power (SVP) Description

Since 1896, Silicon Valley Power (SVP) has provided electricity for residents and businesses in Santa Clara. The Electric Department has a budgeted staff of 235 employees who provide diverse services such as operating, maintaining and dispatching electric service including power plants, substations, transmission and distribution lines; engineering; system planning; administrative and financial management; marketing; customer services; power trading; outdoor Wi-Fi services; and dark fiber leasing services. All of these critical services work together to make SVP successful for the City and its businesses and residents.

### Divisions and Services

Functionally, SVP is organized into four Divisions: Administrative & Business Services; Engineering and Project Management; Resource Planning and Engagement; and Utility Operations. For budget tracking purposes, SVP has one additional division, Revenue and Resources. Beginning in FY 2025/26, the Customer Development and Project Management Division was renamed to the Engineering and Project Management Division.

Administrative & Business Services Division Mission	Plan, develop, coordinate and support the administrative activities of the Department and fiduciary responsibility for the benefit and safety of the community and the employees.
	Develop plans using the Strategic Plan to achieve goals and objectives of the City of Santa Clara.
Division Objectives	Develop staff training plans to meet the growth opportunities within the City.
	Manage budget, contracts, payments, debt and maintain fiduciary controls to maintain financial health.
Engineering and Project Management Division Mission	Be an agile and trusted partner in connecting our customers. Focus on execution to complete new capital investments for increased infrastructure, substations and system capacity expansion.
	Enhance SVP's collaboration and connection with our customers and stakeholders leveraging transmission and distribution planning to facilitate electrification and decarbonization goals.
Division Objectives	Enhance data driven decision making to innovate, design and develop plans to optimize and expand the utility's physical assets. Maintain and update engineering design standards with GIS based maps and readily available digitized as-builts.
	Focus on our core work and electric utility capital improvement projects with program management to streamline processes, remove barriers and lower our costs.

Resource Planning and Engagement Division Mission	Retain and attract customers to the Santa Clara electric system by supporting environmental improvement programs, customer services, and implementing a sound marketing and communication strategy to accomplish the goals of the City. Manage the adequacy and cost of fuel and electric resources in a competitive market.
	Ensure adequate generation resources for reliable, economically competitive services to all SVP customers and meet all State and federal reliability and environmental compliance requirements.
	Optimize value of assets through power trading and scheduling and procure cost-competitive fuel resources for power production.
Division Objectives	Actively seek understanding of customers' valuation of energy service needs and amend the marketing plan as necessary to meet the needs of a dynamic marketplace, including technologies responsive to customer needs.
	Work with other public power agency partners to explore new generation and transmission resources to service growing sales and reduce SVP's risks and average costs.
Revenue and Resources Division Mission	Centralized location for accounting and monitoring of revenue and expenses for resource and production of procured energy.
	Manage and monitor resource expenses including Joint Power Authorities (JPA) and Power Purchase Agreements (PPA).
	Record and receive revenue.
Division Objectives	
Utility Operations Division Mission	Provide safe and reliable electrical energy to the City of Santa Clara by maintaining and enhancing infrastructure to meet energy demands for our customers.
	Maintain continuous efforts to improve system reliability by targeting system improvements, through scheduled maintenance of equipment according to its useful life cycle, and ongoing inspections.
	Strengthen the system through improved design, research of new technologies and systems, and implementation of new system and equipment.
Division Objectives	Maintain safety as the highest priority and a culture of compliance with all regulatory requirements.

## Significant Accomplishments

- Successfully issued \$130 million bond (2024A Bonds) to fund the design and equipment costs of SVP's system expansion projects following extensive financial and legal due diligence as well as collaboration with City Council, the Finance Department, bond counsel, underwriters, credit rating agencies, and other advisors.
- Performed review of resource transactions from previous fiscal years and added detail to link resource transactions to specific assets or generators and completed financial condition assessment including evaluation of reserves.
- Facilitated over 300 agreements, amendments, and related items including service agreements, leasing agreements, interconnection agreements, resource agreements, and requests for proposals during calendar year 2024.
- Developed processes to track contract balances and improve management of over fifty master service agreements with over \$250 million in Council authorization.
- Launched a residential building electrification rebate program, residential EV charging rebate program, and a commercial solar rebate program, processing 114 rebates totaling \$82,580 in FY 2023/24. Processed Multifamily and Commercial rebates for EV charging installations and provided technical assistance/custom planning site evaluations.
- Launched a Trade School Scholarship for income-qualified customers to support careers in the energy industry and increasing awareness of energy efficiency and renewable energy programs.
- Awarded three grants to high school students under the Student Grant Program for projects and outreach efforts focused on energy efficiency and renewable energy.
- Hosted annual Key Customer engagement meeting "State of the Utility" with SVP top 50 Key Account customers and launched bi-monthly growth expansion update meetings with large customers.
- Led a customer engagement campaign that incorporated public responses and helped shape the final submittal of the Integrated Resource Plan, a long-term plan outlining the City's energy use and actions for meeting the renewable and greenhouse-gas targets mandated by the State of California.
- Enrolled three (3) customers in 2023 for the 2024 program year and one (1) customer in 2024 for the 2025 program year in Option A of the Large Customer Renewable Energy (LCRE) Program that procures renewables on behalf of enrolled customers.
- Completed 32.27 miles of new dark fiber connections to five electric sites, seven water & sewer sites, six stormwater sites, and four smart park sites supporting the needs of key City services.
- Completed 33.79 miles of new dark fiber connections to six external customers to retain and attract technology companies to the City of Santa Clara.
- Extended the Outdoor Distributed Antenna System Agreement in order to continue to provide support for major telecommunication carriers operating in the City of Santa Clara.
- Hosted an in-person ribbon cutting community event celebrating SVP's 100th EV charger installation and sponsored the Silicon Valley Auto Show Ride & Drive at the Convention Center. Supported EV adoption community education through engagement, social media campaigns, digital marketing videos and direct mail.
- Funded \$1.2 million for income-qualified used EVs and eBikes and state-wide "California Clean Fuels Rewards Program" for the expansion of an on-demand shuttle program "SV Hopper" into Santa Clara in partnership with the City of Cupertino and administered through VIA (Shuttle Operator).
- Continued the California Electric Vehicle Incentive Program (CALeVIP Program): EV charger rebates for commercial & multifamily properties and technical assistance resulting in four (4) applications with 24 connectors installed and \$124,000 rebate funds issued, of which \$80,000 was allocated to disadvantaged community (DAC) identified areas in Santa Clara; three (3) projects have received a milestone payment and are still under construction with \$653,289 funds issued; and eight (8) projects with funds reserved. Enrolled thirty (30) new customers in the EV Charging Technical Assistance Program for multifamily and businesses customers and hosted one (1) educational webinar focused on EV charging for multifamily properties and EV charging for businesses.

- Expanded City-owned Electric Vehicle Supply Equipment (EVSE) infrastructure, including the installation of 22 Level 2 Electric Vehicle (EV) chargers totaling 42 connectors for public and City fleet use. Replaced 10 old combustion vehicles with all-electric vehicles for Police, Fire, Public Works, and other City departments as part of fleet electrification program.
- Negotiated and executed Casteneda Solar Power Purchase Agreement (PPA) and Grace Solar PPA. The Cimarron Wind Project PPA was re-negotiated and executed. These PPAs will assist SVP to meet expected load growth and meet resource adequacy requirements.
- Executed three-party small generator interconnection agreement (SGIA) between SVP, California Independent System Operator (CAISO), and PG&E for Grizzly Hydroelectric Project.
- Executed new gas transportation rate with PG&E for the Gianera Generating Station, Donald Von Raesfeld Power Plant (DVR), and Lodi Energy Center (LEC), significantly reducing the costs projected for operating these facilities through December 2026, saving approximately \$34 million. In addition to benefiting SVP ratepayers, the negotiated rate structure also facilitates more efficient dispatch of several natural gas-powered plants, leading to a reduction in overall greenhouse gas emissions.
- Successfully decommissioned SVP's 7MW Cogeneration plant.
- Executed 10-year long-term rental agreement contract for Grape battery energy storage system (BESS) for up to 225 MW pending final assignment of deliverability by the CAISO.
- Developed centralized procedures for routine tasks related to all resource settlements and created summary workbooks for all settlement checkouts.
- Optimized the use of settlement software by addressing bugs in settlement reports and calculations and implemented a new SQL database to enable more efficient access to settlement data.
- Created a monthly variance report comparing actual and forecasted market power purchases, resource revenue, and fuel costs for in-town generation against the budget for the current fiscal year.
- Boosted employee safety engagement by achieving record participation of approximately 50 employees at the introduction to SVP Compliance Presentation, launching a new SharePoint site for Safety and Environmental Compliance, and revitalizing the SVP Safety Committee and its charter.
- Developed guidance and trained staff on Injury & Illness Reporting and three major compliance procedures across Safety, Environmental, and NERC Compliance (Accident/Incident Reporting, SF6 Compliance, and Cold Weather Preparedness).
- Protected critical infrastructure networks from over 87 million external potential threat actor entry attempts.
- Established collaborative participation in CAISO RC WEST Cyber Security Working Group and increased collaboration with the Department of Homeland Security and Federal Bureau of Investigation through the Northern California Regional Intelligence Center.
- Completed the SVP System Expansion Plan for CAISO Transmission Planning Process for FY 2024/25 and FY 2025/26 to project SVP's load growth over the next decade for inclusion in the CAISO modeling.
- Completed construction of a storage area at the Utilities Corporation Yard for wooden utility poles allowing SVP to maintain compliance with storm water pollution rules.
- Energized 5 customer-dedicated substations and constructed any necessary transmission line extensions so SVP can continue to provide consistent service for customers pursuing large infrastructure projects and promote future investment and expansion within the City.
- Re-built Serra Substation to serve the changing customer load requirements and improve system reliability. The rebuild included the construction of a second transformer bank, replacement of switchgear, and the installation of a new control room.
- Established a summer assessment program for load management which considers projected load in relation to new project and maintenance work to better ensure grid reliability and minimize the possibility of outage and load

curtailment during the months where energy consumption is the highest.

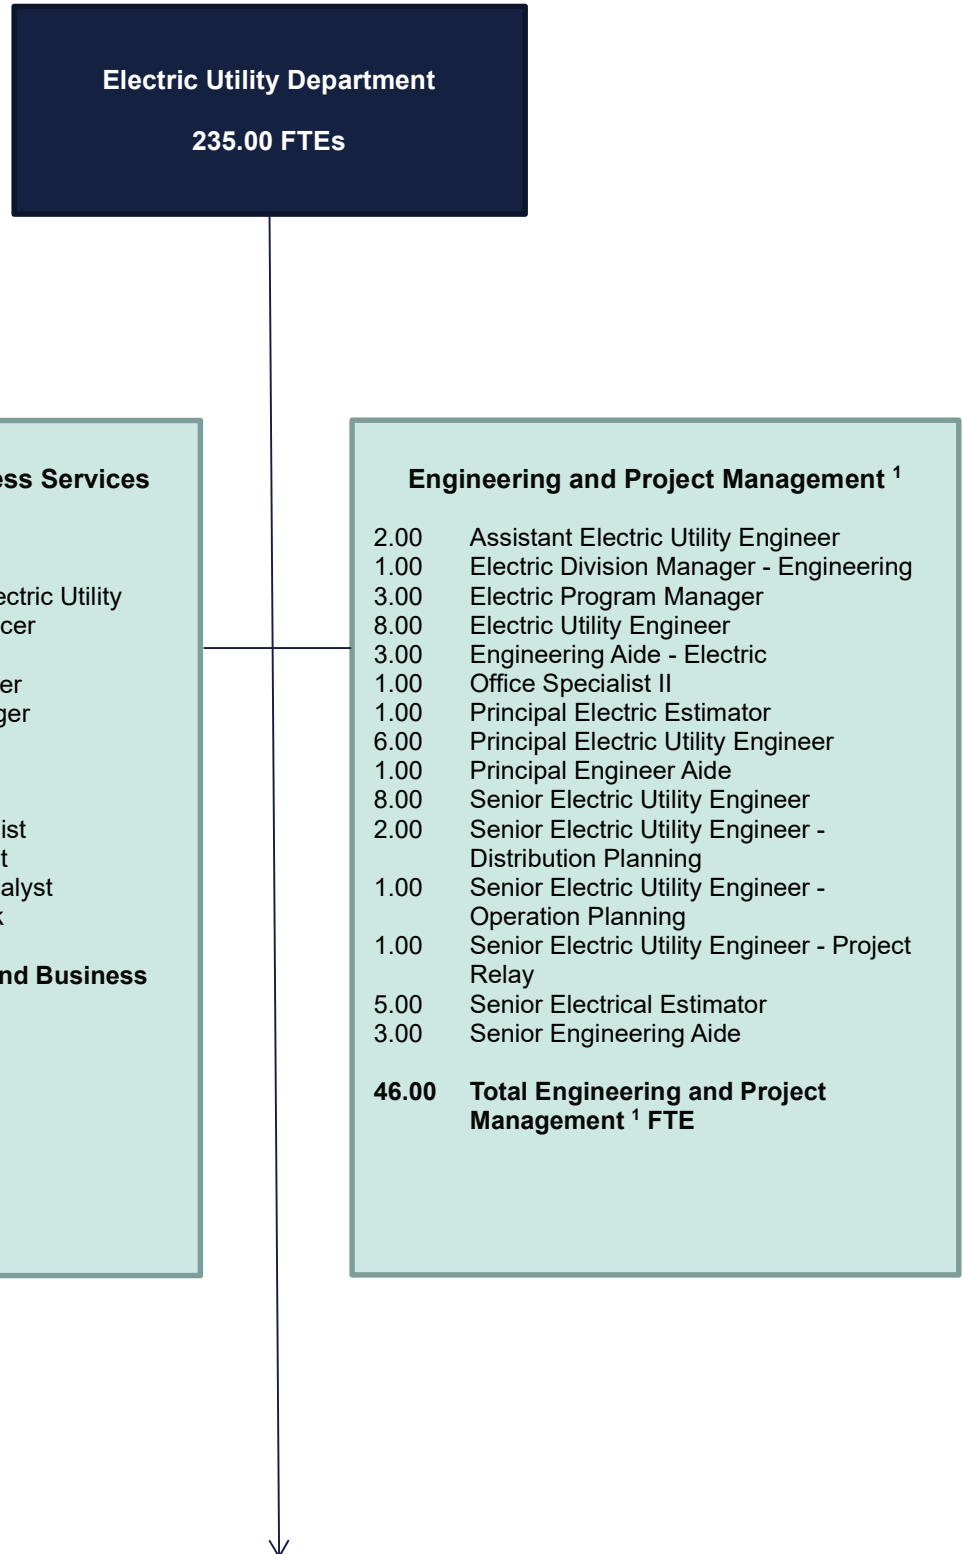

- Completed over 160 communication improvements for information flow for the metering program in the Operations Division.
- Conducted over 35 switchgear and major maintenance activities for 12 KV customers.
- Upgraded over 5,000 meters to the Advanced Metering Infrastructure system. Installed gatekeepers across the city to collect meter data and enhance efficiency. Acquired new testing equipment to verify the operation and accuracy of distribution and sub-transmission metering for billing purposes.
- Completed corrosion repairs at Kifer Receiving Station, and the Uranium and Central substations. Replaced circuit breakers at Central substation. Constructed four new remote panels for interconnection projects.
- Replaced battery banks at Raymond, Central, Duane, Northwestern substation and mobile battery trailer.
- Successfully met 100% of maintenance inspection goals, identifying critical infrastructure needing repair. Developed a comprehensive long-term plan to address these needs and ensure future reliability and efficiency.
- Completed the commissioning of the control system upgrade at DVR Power Plant. This included a complete hardware replacement of the gas compressor, water treatment, duct burners and chiller controls. The upgrade also involved converting and integrating the logic to Ovation automation platform to the main distribution control system for DVR. This upgrade helps the operators by consolidating the DVR plant controls to a single system rather than 4 independent systems, and it also offers improved transparency for troubleshooting issues.
- Completed the overhaul of the DVR cooling tower, which included replacing degraded support beams, cooling tower fill, fan motors, fan blades, and hubs. After performance testing, the cooling tower is now operating at near brand-new performance metrics.
- Replaced the Selective Catalytic Reduction (SCR) catalyst on two (2) heat recovery steam generators at DVR. These SCR systems efficiently remove nitrogen oxides from the flue gas emitted by the power plant, ensuring compliance, easier control of NOx emissions and reduced ammonia consumption.
- Replaced direct-buried cables in Maplewood Dr and Tanoak, Estella Drive, Glorietta Circle Phase 4. Completed construction for residential development for Gateway Crossing – Phase 1, and commercial projects including Related, The Station, Summerhill, Greystar of Tasman East Project, and 2900 Semiconductor Dr.

## Significant Objectives

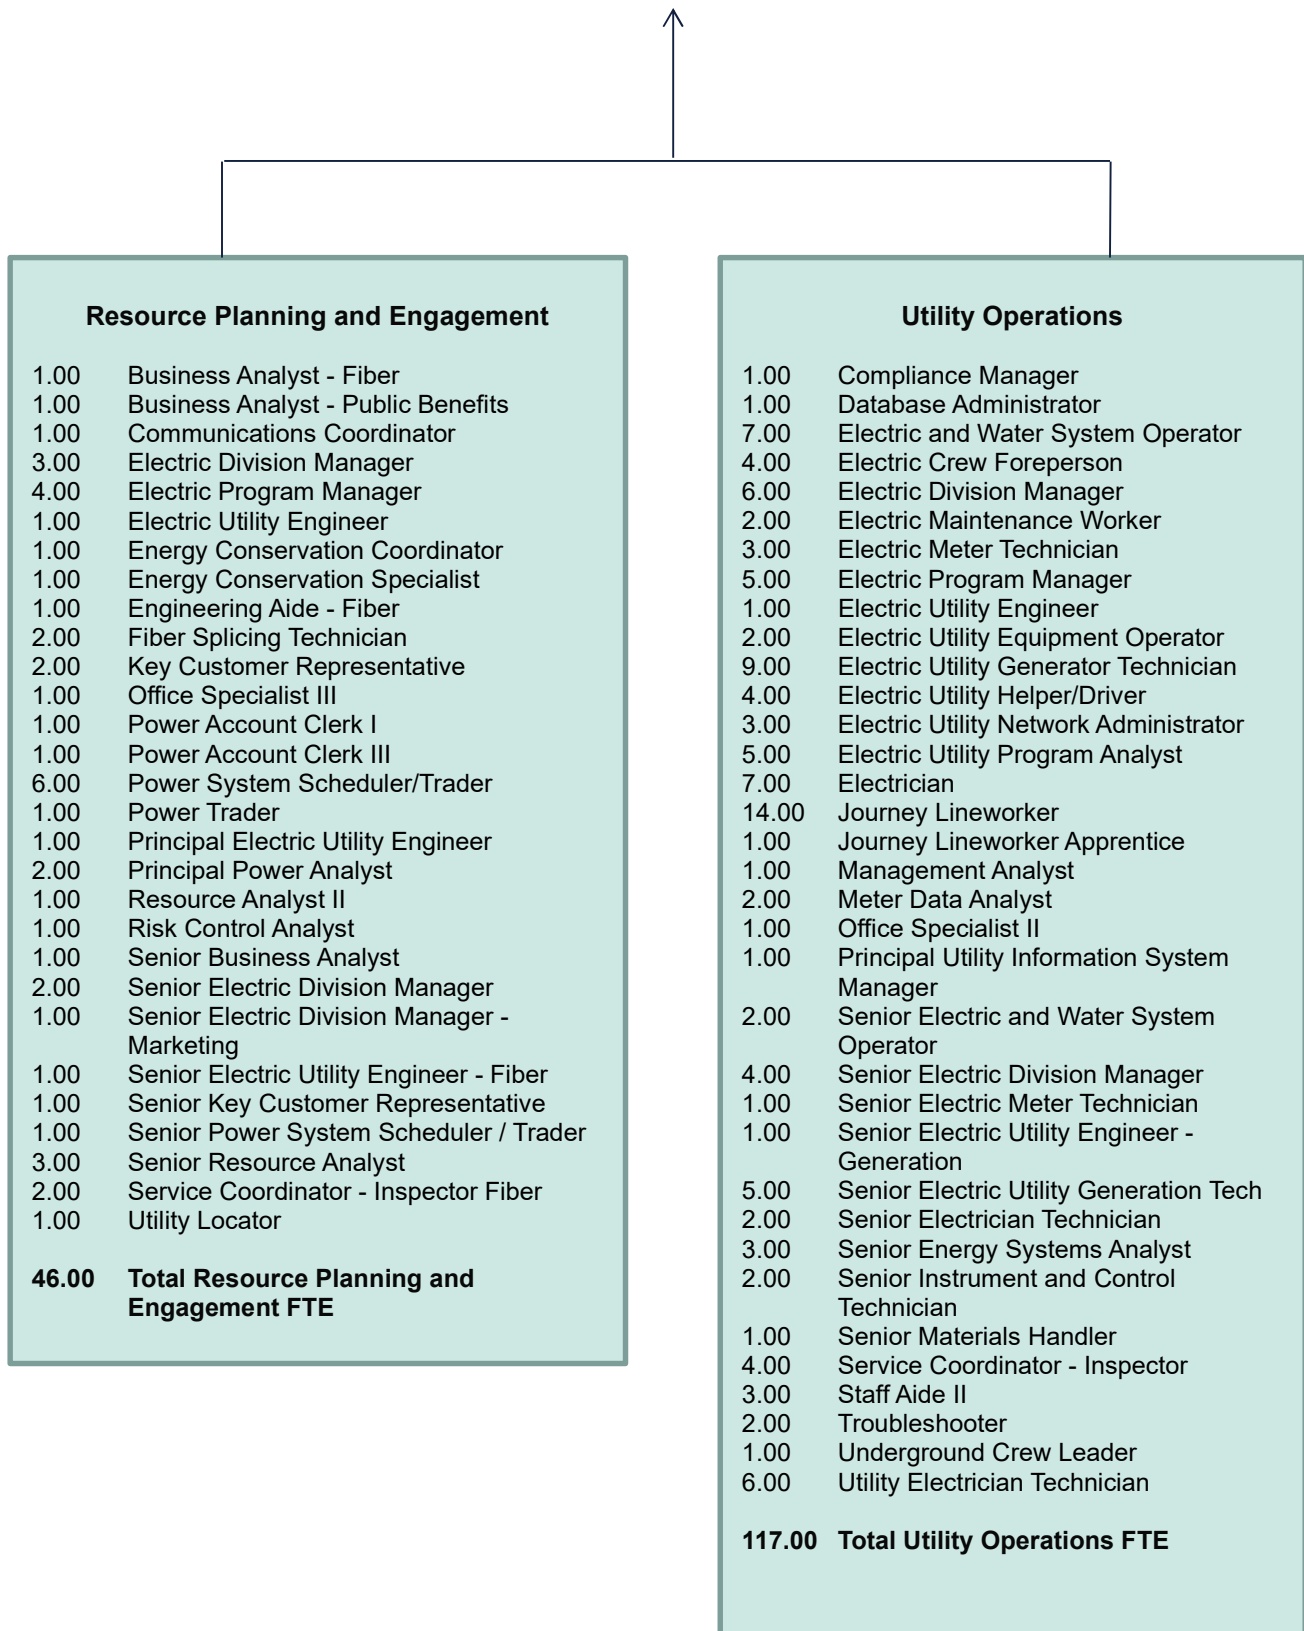

- Facilitate a second debt issuance to fund construction costs related to SVP's system expansion projects. Continue to evaluate the amount and timing of the second bond based on construction timelines and financial liquidity analysis.
- Complete SVP System Expansion Plan Report Transmission Planning Process FY2025/26 for short and long-term planning horizon years 2026, 2029, 2034, and 2039 to meet SVP forecasted peak demand of 884 MW, 1,057 MW, 1,409 MW, and 1,670 MW respectively.
- Participate in monthly engagement on the CAISO planning process so that direction is provided to participating transmission owners to develop and construct projects to increase bulk electric system transmission capacity to serve Santa Clara's electric load growth.
- Complete SVP's 50 MW Kifer Battery Energy Storage System Project (BESS) located at 3025 Raymond Street. The project will provide multiple benefits by serving peak loads, increasing the use of renewable energy, and improving system resiliency. The project aims to complete designs, order long-lead equipment, and begin construction for a commercial operation date in Q1, 2026.
- Proactively maintain SVP's fleet of turbines and generators according to Original Equipment Manufacturer (OEM) recommendations, providing for highly reliable power generation resources within the SVP electric system.
- Provide leadership to support the department's resources by implementing staff development and succession planning to develop skills and enhance knowledge.
- Provide construction and commissioning support of multiple substation construction projects.
- Develop design standards for use in substations.
- Provide enhanced vegetation management and maintenance of transmission lines in the City of Santa Clara and remote locations, including Glenn and Tehama Counties. Improve inspection programs by targeting problematic circuits with outage data and managing work proactively using maintenance management software.
- Roll out a comprehensive substation maintenance plan including enhanced monitoring, phased end-of-life replacement, critical spare parts evaluation, and reporting.
- Identify and execute replacement strategy for SCADA communications system used by SVP System Control.
- Proactively work to identify and eliminate system reliability risks through engineered solutions and data-driven models.
- Continue to ensure wholesale trading activities comply with Council-approved policy and regulations, minimize SVP's credit exposure, monitor counterparty credit risk, and ensure compliance with CAISO tariff and regulations.
- Continue to provide energy efficiency education and programs to customers to help them reduce their energy use and lower their electric bills, promote renewable energy options, investigate emerging technologies, and provide assistance to qualified low-income customers to reduce the burden of their electric bills.
- Participate and comply with the California Air Resources Board (CARB) Low Carbon Fuel Standard (LCFS) Program to develop, educate, and foster the adoption of electrification as the transportation fuel.
- Meet state regulatory requirements for renewable resources and carbon reduction targets while keeping SVP cost competitive.

## Budget Highlights

- Engage contractors to perform maintenance activities of SVP's distribution system to complete work orders for the underground and overhead electric infrastructure that will enable staff to focus on performing inspections. The inspections focus on assessing the integrity of poles, evaluating the condition of underground cables and conduits, and examining the structural soundness of manholes and electric boxes. The increased focus on inspections will support proactive preventive maintenance - enhancing safety, reliability of the electrical grid, and extending the system's operational life while reducing the risk of outages.
- Negotiate and execute a new lease agreement to relocate engineering and administrative staff to a larger office space. Ongoing funding is requested to cover the increased rent for a 50,000 sq. ft. building (increasing from 32,500 sq. ft.). One-time funding is requested for moving expenses and capital improvements. The current office space is insufficient, leading to shared cubicles and inadequate meeting and training rooms. The additional space will accommodate SVP's increased staff and student internship program to meet operational needs.
- Secure staging and storage space for materials and equipment to support extensive capital and operational maintenance programs. A lease will be negotiated and executed with an initial 5-year term and options to renew for up to 10 years, ensuring future flexibility. New funding is required to cover lease payments, site maintenance, and necessary modifications.
- A purchase and sale agreement was approved by Council on December 3, 2024 in RTC 24-1117 for the property at 2900-2930 Lafayette St, which includes a 43,999 sq. ft. lot and a 153,375 sq. ft. building. Annual funding will be allocated to a commercial property manager to support existing tenants, carry out maintenance, and prepare additional spaces for use. Due to space constraints around current generating and receiving stations, SVP may use this property for other infrastructure projects and ongoing system expansion.
- Acquire a 210,830 sq. ft. lot (4.84 acres) at 525 Mathew St, Santa Clara. The property has an existing connection to the SVP electric system and CAISO that may be used for future expansion of SVP facilities such as power generation and battery storage which will help meet renewable energy compliance and anticipated load growth. Until these facilities can be used for power generation or battery storage, the site can be used for storing materials and equipment for major capital projects.
- Increase reserve contributions to the Rate Stabilization Reserve that is used to absorb short-term revenue shortfalls and is designed to help stabilize utility rates and avoid wide swings in rates charged to SVP customers. Establish the Grizzly Project and Tie Line Reserve to cover the replacement of approximately 4.2 miles of 115kV transmission line (referred to as the Grizzly Tie Line) that interconnects with PG&E's transmission system and other Grizzly assets. This reserve may fund costs of other Grizzly Project facilities such as to replace end of life assets. The target for this reserve is based on replacement values primarily attributed to the transmission line and will be evaluated as needed by SVP.

<sup>1</sup> Beginning FY 2025/26, the Customer Development and Project Management Division was renamed to the Engineering and Project Management Division

## Budget Summary

Underground and Overhead Inspection and Maintenance		245,000
<b>Total Service Level Changes</b>	<b>0.00</b>	<b>280,000</b>
<b>Total FY 2026/27 Proposed Budget</b>	<b>235.00</b>	<b>891,651,758</b>

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Land Acquisition</b>	0.00	14,000,000	0	0	0

Program: 1316 – Administrative Services

This action provides funding for SVP to acquire land at 525 Mathew St., Santa Clara that includes a 210,830 sq. ft. lot (4.84 acres). The property is situated in a strategic location to support SVP's system needs. There is an existing connection to the SVP electric system and California Independent System Operator (CAISO) that may be used for future expansion of SVP facilities such as power generation and battery storage. SVP can use these future assets to meet renewable energy compliance requirements and provide energy for expected load growth. In the interim, SVP may use this site for storage needs of material and equipment for its major capital improvement projects. Prior to transferring ownership, the current owner will be responsible for delivering a fully demolished site including foundations, which SVP can use upon completion of the demolition.

### Performance Impact

Purchasing this site will allow SVP to remain agile and provide reliable power through its electrical system that may support existing and additional load growth requests.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>New Office Lease</b>	0.00	1,050,000	1,000,000	0	1,035,000

Program: 1316 – Administrative Services

This action adds funding for SVP to relocate from its existing leased office space for administrative and engineering staff to a larger space. Funding is included for executing a lease agreement and required tenant improvements. One-time funding is requested for moving expenses and capital improvements to complete the transition to meet operational needs. Ongoing expenses are associated with the increase in rent due to the move from a 32,500 sq. ft. facility to a 50,000 sq. ft. facility. The additional space is needed to accommodate SVP increased staff levels; SVP added 21 new positions over the last three years and supports a student internship program.

The current office space is insufficient, resulting in multiple employees sharing individual cubicles, inadequate meeting and training rooms, and requiring updates to meet SVP's operational needs.

### Performance Impact

Renovating and moving to a larger office space will allow SVP to accommodate the growing number of employees and facilitate a smooth transition to support operations.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Augment Underground and Overhead Inspection and Maintenance</b>	0.00	0	1,500,000	0	1,745,000

Program: 1376 – Transmission & Distribution

This action provides funding to augment the current maintenance program for proactive maintenance of underground and overhead electric infrastructure. Using contractors for some maintenance activities enables staff to focus on inspections. The inspections include assessing the integrity of poles, evaluating the condition of underground cables and conduits, and examining the structural soundness of manholes and electric boxes to maintain safety and reliability of the electrical grid. Annually, SVP Transmission and Distribution crews conduct detailed inspections of 20% of the electrical system and patrol inspections of the remaining 80%. Maintenance work orders are generated for tasks identified during these inspections. This action will allow for increased support to complete and perform preventive maintenance tasks that are essential for ensuring safety, enhancing reliability, and extending the operational useful life of the transmission and distribution system. Furthermore, this proactive approach reduces the risk of outages.

### Performance Impact

Adding additional outside resources, and additional equipment supports to underground and overhead maintenance ensures the integrity of the distribution system and minimize the risk of outages.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>New Property Lease and Management</b>	0.00	0	700,000	0	700,000

Program: 1316 – Administrative Services

This action adds funding for SVP to obtain space for staging and storage of material and equipment to support SVP's extensive capital and operational maintenance programs. In January 2025, Council authorized staff to negotiate and execute a lease (RTC 25-1053) with an initial five-year term and options to renew for up to 10 years to provide flexibility for future needs. Funding of \$600,000 will support lease payments as well as site maintenance and modifications as needed.

On December 3, 2024, in RTC 24-1117, Council authorized SVP to execute a purchase and sale agreement for property located at 2900-2930 Lafayette St. that consists of a 43,999 sq. ft. lot with a 153,375 sq. ft. building. This proposal provides funding of \$100,000 annually to enter into an agreement with a commercial property manager to support the existing tenants within the building, perform maintenance activities, and setup for other space uses. Due to space constraints around existing generating and receiving stations, SVP may use this site for other infrastructure projects and support ongoing system expansion capital projects.

### Performance Impact

Leasing open space and acquiring new property will support SVP's system growth strategy plan to complete critical capital improvement projects and SVP's continuing improvements in preventative maintenance activities.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

## Performance and Workload Measures

# **Finance Department**

This page is intentionally left blank.

## Finance Department Description

The Finance Department administers the financial affairs of the City, including City-owned public utilities. These functions include: budget administration and control; maintaining a general accounting system and the preparation of annual comprehensive financial reports; collection of taxes, fees, special assessments and utility charges; investment of City funds; procurement of supplies, materials, equipment, and services; operating the City Warehouse; issuance of bonds and debt management; and financial management of contracts, including leases.

## Divisions and Services

The Finance Department is organized into five Divisions: Accounting; Administrative Services; Budget; Municipal Services; and Purchasing.

<b>Accounting Division Mission</b>	Provide relevant, accurate, and timely transaction processing and financial reporting services in compliance with laws, regulations, City policies and professional standards.
<b>Division Objectives</b>	Provide relevant, accurate, and timely transaction processing and financial reporting services in compliance with laws, regulations, City policies and professional standards.
	Enhance and utilize the Finance/Human Resources Management System (FHRMS) in support of relevant, accurate and timely accounting processes.
	Train Accounting staff and citywide end-users in FHRMS financial modules and process workflow.
	Identify areas for improvements and streamlining of accounting processes in support of work product efficiencies. Continue to utilize new technology enhancements to empower end users to access financial information.
	Manage production of the City's general-purpose financial statements, annual comprehensive financial report (ACFR) and other required State reports.
	Review Governmental Accounting Standards Board (GASB) pronouncements and implement them in the City's accounting processes and procedures.
<b>Administrative Services Division Mission</b>	Be a proactive participant in Citywide strategic planning and decision-making, adding value as a provider of financial advice, analysis, and investment and debt management.
<b>Division Objectives</b>	Manage the outstanding debt of the City and its agencies in compliance with established policies and bond covenants.
	Manage cash flow and invest cash in accordance with established policies and procedures. Prepare monthly reports for the City and its agencies.
	Monitor the financing needs of the City and its agencies. Manage negotiated and public-bid bond issuance.
	Manage special projects as assigned.

Budget Division Mission	Be the primary source of financial analysis in the City's continuing effort to maintain and strengthen its fiscally responsible core value.
	Manage and produce the biennial operating and capital budgets.
Division Objectives	Produce the Ten-Year Financial Forecast for the City and prepare periodic and annual revenue forecasts.
	Analyze budget performance during the year and prepare Monthly Financial Reports.
	Monitor and report the City's appropriations limit and general contingency reserves.
	Monitor the State budget and related legislative activities with economic implications.
	Develop strategies to balance the budget.
	Assist and provide support for negotiations with employee bargaining groups.
	Work collaboratively with departments on any necessary budget amendments during the year.
Municipal Services Division Mission	Provide equitable and customer-centric service to utility and business license customers, ensuring all interactions reflect professionalism, integrity, and compassion. Manage the activities of the Municipal Services division in compliance with the City's rules and regulations, code, and policies consistent with professional and ethical standards, and be proactive in developing and delivering currently available automated features and conveniences to customers.
	Deliver accurate, courteous, and timely assistance to all customers, with a commitment to respectful and compassionate service.
Division Objectives	Promote and enhance customer self-service options and electronic payment offerings for customers
	Continue upgrading the functionality and underlying business processes of the Utility Management Information System (UMIS).
	Promote and enhance on-line Business License enrollment and renewal.
	Provide customers with safe, reliable self-service options for improved customer satisfaction.
	Process and oversee custody of all cash and checks received over the counter or in the mail.
	Foster a culture of continuous improvement and innovation to meet evolving customer needs and support operational resilience.

<b>Purchasing Division Mission</b>	Support and facilitate the timely and efficient procurement of supplies, materials, equipment, and services required by City Departments while ensuring compliance to City Policies, applicable government regulations, and best practices in public sector procurement to obtain the lowest cost while maintaining appropriate internal controls. Oversee Central Warehouse operations to ensure that the City's electric and water utilities are stocked with parts to support their operations and process outgoing mail for the City. Facilitate the disposition of surplus property to ensure a fair and transparent process is followed and maximum value is recovered.
<b>Division Objectives</b>	<p>Provide internal customers and vendors with courteous, accurate, and timely solutions to their inquiries and requests.</p> <p>Negotiate and recommend execution of contracts or blanket purchase agreements for the purchase of supplies, materials, equipment, and services.</p> <p>Act to procure for the City the needed quality and quantity of supplies, materials and equipment at the lowest cost to the City.</p> <p>Prepare and recommend rules governing the purchase of supplies, materials, equipment, and services to the City Manager.</p> <p>Keep informed of current developments in the field of purchasing, prices, market conditions and new products.</p> <p>Competitively procure inventory items for the Central Warehouse to ensure inventory is maintained at levels sufficient to support field operation requirements.</p>

## Significant Accomplishments

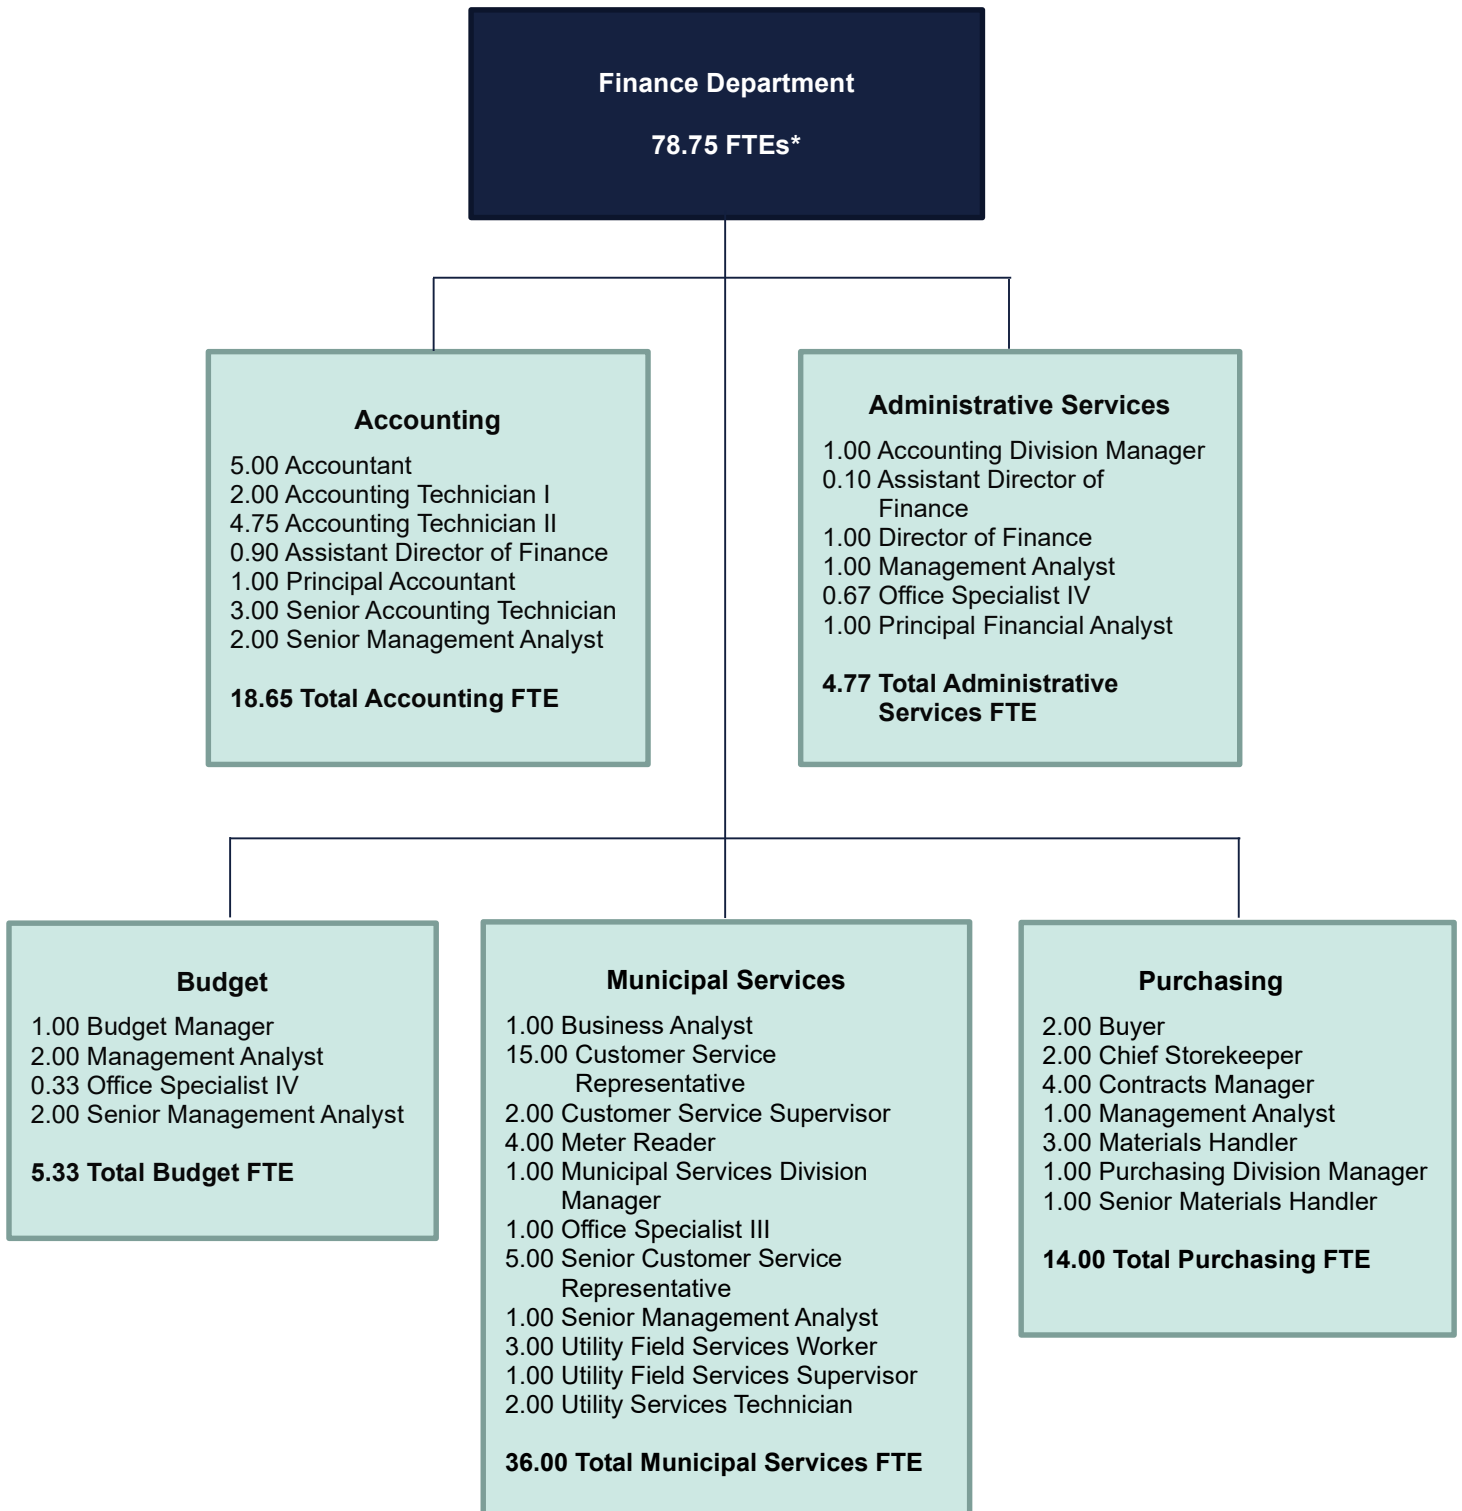

- Implemented updates to the Business License system to support the Business Tax Ordinance approved in November 2022, including software upgrades and improvements to the customer self-service portal to align with the new business tax.
- Established a series of on-demand purchasing training materials addressing a wide variety of topics related to procurement and contracting.
- Restructured the purchasing team to enhance the City's procurement and contracting process, including expanding the team to support the electric utility's procurement needs and capital expansion projects.
- Upgraded the Business Tax and License system enabling a new E-Check payment option for Business Tax Customers.
- Provided cashiering training to municipal services staff and departments within City facilities, ensuring consistency in cash handling procedures and readiness for new payment platforms.
- Transitioned from the legacy CORE Onestep cashiering system to the cloud-based i-Payment platform, modernizing payment processing citywide. The new system provides secure, flexible access for authorized staff, streamlines cashiering operations, and supports scalability through license-based access, eliminating dependency on locally hosted infrastructure.
- Supported the Emergency Operations Center including procurement and cost accounting functions. Reviewed FEMA requirements and accounted for citywide COVID-19 expenditures in order to maximize federal funding.
- Updated the City's Investment Policy to reflect the most recent allowable investment types mandated by the State.
- Received the California Municipal Treasurers Association certification of excellence for the City's Investment Policy for fiscal year 2023/24.
- Developed a citywide Payment Acceptance and Processing Fees Policy to maximize cost recovery for the City's processing fees.
- Supported Silicon Valley Power's 2024 Electric Revenue Bond Issuance and the Water and Sewer Department's 2023 Wastewater Revenue Certificates of Participation Issuance.
- Received the Government Finance Officers Association (GFOA) award for excellence in financial reporting for fiscal year 2022/23. This is the thirty-second consecutive year receiving the award.
- Implemented the capital assets module in FHRMS to provide greater asset accountability.
- Updated the accounts receivable module in FHRMS to utilize all the billing functions and to integrate all the transactions to the financial management system.
- Provided analysis and technical support in the development of the General Obligation Bond Measure approved by the voters in November 2024.
- Provided departmental trainings on the various phases of budget development.
- Received the Capital Budget Excellence Award for FY 2024/25 and FY 2025/26 and the Operating Budget Excellence Award for FY 2023/24 and FY 2024/25 from the California Society of Municipal Finance Officers (CSMFO) and the Distinguished Budget Presentation Award from the Government Finance Officers Association (GFOA) for the FY 2023/24 and FY 2024/25 Biennial Operating Budget.

## Significant Objectives

- Continue to upgrade the Finance and Human Resources Management System (FHRMS) products to gain City-wide efficiencies and deliver updated reporting capabilities and features in the Accounting Division.
- Implement automation for payroll and timekeeping functions across the City and coordinate with the Human Resources Department on the automation of benefits administration.
- Update the accounts payable module in the FHRMS to provide decentralized entry and electronic approval workflows.
- Support the successful transition from the legacy web customer portal to the Smart Energy Water (SEW) Customer Care Portal, enhancing the customer experience by providing improved access to billing information, payment options, and account management tools.
- Develop and implement processes, administrative policies, and procedures with the goal of streamlining and improving the procurement and contracting process.
- Continue to provide citywide training related to the various operations of the Finance Department, including accounting, budgeting, and purchasing.
- Continue to enhance the City's budget development practices that connect to the City Council's priorities and policy direction.
- Assist in the development of the Fiscal Sustainability Plan
- Assist with the issuance of the City's General Obligation Bond.
- In coordination with Public Works, implement changes to the accounting of staff time that support capital project delivery to more accurately reflect total project costs.
- Implement updates in the FHRMS to improve various purchasing functions, including contract centralization, inventory and warehouse management, and process flow optimization.
- Expand the Purchasing Division's role to manage operations, staffing, and inventory systems at a new warehouse in support of SVP's expansion projects, contractor staging, and utility maintenance activities.

## Budget Highlights

- The proposed Operating budget adds resources to provide support to the City's utility programs:
  - Add 1.0 Field Service Worker in the Municipal Services Division
  - Add 1.0 Meter Reader in the Municipal Services Division
  - Add 1.0 Customer Service Representative and Funding for As-Needed Staff in the Municipal Services Division
  - Add 1.0 Accounting Technician I in the Accounting Division
- Additionally, resources are added to assist with recording staff time for capital project management to more accurately reflect project costs.
  - Add 1.0 Accountant in the Accounting Division

*\*The positions above represent all funded positions. This excludes the 1.0 Office Specialist III position that was frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402).*

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Add 1.0 Field Service Worker</b>	1.00	0	129,541	0	166,421

Program: 3335 – Field Service

This proposal adds one additional full-time Field Service Worker (FSW) to focus on service disconnections, field inspections and meter-related fieldwork, ensuring timely and efficient service while maintaining revenue protection efforts. This position will also allow for better workload distribution and overall service reliability. With additional resources focused on disconnections, the city will increase its collection rates, improve consistency on its shutoff process to ensure services are disconnected in a timely manner, and reduce the number of aging delinquent accounts. This position will also allow the department to process service orders faster, reducing delays in shutoffs, re-reads, and meter investigations. Current service orders may take longer than 120 days to complete due to FSW workload. With an additional FSW, completion times will be reduced, ensuring quicker resolution of customer requests. The position is anticipated have 0.75 FTE allocated for supporting Electric and 0.25 FTE for Water, which will be reflected in the FY 2026/27 cost allocation plan.

### Performance Impact

The Field Service Worker (FSW) team plays a critical role in utility operations by managing service orders (customer access issues, move-in/move-out requests, meter re-reads, meter inspections, and field investigations) and disconnections for non-payment. This proposal will enable better service delivery and provide a dedicated resource for managing shut-offs. It will also contribute to more equitable service outcomes by ensuring timely support for all customers, including those at risk of disconnection.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Add 1.0 Meter Reader</b>	1.00	0	127,596	0	166,421

Program: 3335 – Field Service

This proposal adds 1.0 Meter Reader in the Municipal Services Division to ensure timely and accurate meter reads within the required 28-32 day cycle and reduce reliance on estimated billing, preventing further delays in billing, inaccuracies, and revenue loss caused by extended read cycles. Meter readers are responsible for accurately collecting consumption data for 201 routes during odd months and 206 routes during even months. With current staffing, some meter reads exceed the 28-32 day target, reaching 33-34 days, which increases the need for estimated billing. Estimated bills often lead to customer disputes, requiring re-reads and adjustments that further strain staff. With additional staff, cycles will be completed on time, reducing reliance on estimated bills and minimizing re-reads. The position is anticipated have 1.0 FTE allocated for supporting water, which will be reflected in the FY 2026/27 cost allocation plan.

### Performance Impact

Provides resources for collecting accurate consumption data to ensure proper billing and revenue collection. It also supports customer confidence by reducing reliance on estimated billing, which can lead to frustration or payment disputes.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Add 1.0 Customer Service Representative and As-Needed</b>	1.00	0	160,480	0	198,383

Program: 3332 – Utility Billing Services

This proposal adds 1.0 Customer Service Representative (CSR) and funding for one additional as-needed CSR to the Municipal Services Division's Contact Center. This center serves as a critical touchpoint for utility billing inquiries, service requests, and customer concerns. Historical data shows rising call volumes. While the length of calls has remained consistent at around 3 to 4 minutes, increased call volume year-over-year has led to longer wait times and increased abandonment rates. In 2024, the average queue time increased to 7 minutes compared to 3.5 minutes in 2021. The 14.0 budgeted CSR positions are currently filled for varying functions, from back-billing, cash handling, and 3.5 FTEs assigned to the Contact Center. Even with shifting of staffing during times with high call volumes, there has been insufficient support for call service. The addition of 1.0 CSR and as-needed CSR will provide needed support for the Contact Center to provide timely services for utility customers. The added CSR position is anticipated have 0.75 FTE allocated for supporting electric, 0.20 FTE for water, and 0.05 FTE for Solid Waste, which will be reflected in the FY 2026/27 cost allocation plan.

### Performance Impact

These additional resources will enable Finance to provide timely services to reduce wait times and call abandonment. They will also improve the quality of service during peak periods by reducing stress on existing staff, enabling more consistent customer interactions. The added flexibility from an as-needed CSR helps the division adapt to surges in call volume and maintain service continuity during staff absences or high-demand events.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Add 1.0 Accounting Technician I</b>	1.00	0	107,361	0	139,901

Program: 3322 – General Accounting

This proposal adds 1.0 Accounting Technician to provide oversight of daily utility payments and their interface with the financial system (0.75 FTE), as well as additional support to the Payroll and Accounts Payable (AP) units (0.25 FTE).

This position would review and reconcile daily utility transactions from the utility billing system to the financial accounting system and the bank. This includes processing daily credit card payments, reviewing all utility payment integrations, and reconciling daily cash utility receipts. Currently, this task is performed by an as-needed Accounting Technician. The addition of this position will address the ongoing gap and enhance oversight of detailed transactions flowing from the utility billing system to the financial accounting system. This position will also assist with monthly reconciliations of bank accounts and credit card statements related to utility billing and process weekly accounts payable vouchers and journal vouchers that are currently handled by an as-needed Accounting Technician.

The position would also support the Payroll unit in processing biweekly payroll. The Payroll unit currently operates with 3.75 FTEs and relies on temporary assistance from an as-needed Accounting Technician, as well as Accounting Technicians from Financial Reporting and the Stadium Authority units.

This position will improve the efficiency of routine SVP accounting tasks, such as data entry and account reconciliation, ensuring accurate transaction recording. It will also allow senior accounting staff to focus on more complex duties and eliminate the dependence on temporary staff.

### Performance Impact

The addition of this position will improve utility payments processing to ensure accurate accounting and bi-weekly payroll and issuance of employee checks on time.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Add 1.0 Accountant</b>	1.00	0	154,360	0	201,237

Program: 3322 – General Accounting

This proposal adds 1.0 Accountant to implement changes to the accounting of City staff time that support capital project delivery. Currently, staff project delivery costs are charged to various capital funds but not directly to individual capital projects, which understates the total cost of an individual project. This also makes it difficult for benchmarking of project delivery and management costs. Staff plans to change this practice and charge staff costs associated with capital project management to the individual capital projects.

Limitations in the City's financial accounting system do not allow all staff costs to be charged directly to individual capital projects. The benefits costs do not get directly allocated to the individual projects when projects are directly charged. Given this system limitation, the Accountant position will help set up and administer the accounting structure and process to capture all staff costs for project delivery. This model will better represent the total cost of projects and allows for better accounting of these costs in the City's financial statements. This will also allow the City to track project management costs by project and to benchmark against other agencies.

### Performance Impact

The addition of this position allows for more accurate accounting of actual project costs and assists in budget development and resource planning.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

# **Fire Department**

This page is intentionally left blank.

## Fire Department Description

The Fire Department deploys highly-trained and well-equipped personnel to emergency incidents in a response time of less than six minutes at least 90% of the time for structure fires and less than eight minutes at least 90% of the time for Advanced Life Support (ALS) emergency medical calls. This response time is measured from the time of dispatch to arrival, allowing for two minutes of turnout time and four to six minutes of travel time.

## Divisions and Services

The Santa Clara Fire Department's mission is to protect and enhance the quality of life for the community. It is organized into five divisions: Field Operations, Emergency Medical Services (EMS), Community Risk Reduction, Training, and Administration.

The Field Operations Division is comprised of first responders who provide emergency response to residents, visitors, and businesses within the community. This division is made up of eight fire engines, two fire trucks, one Hazardous Materials response unit, one Rescue response unit, one ambulance, one Battalion Chief, and one Assistant Training Officer per shift.

Next, the Emergency Medical Services (EMS) Division provides first responder medical services (including Advanced Life Support) to all residents and visitors within the guidelines determined by the Santa Clara County EMS Authority. Using existing fire station staffing, the division also supports ambulance transport, while authorized under special circumstances approved by the Santa Clara County Emergency Medical Services agency. The division maintains paramedic and emergency medical technician (EMT) licensure and certifications, maintains emergency medical equipment caches, works closely with the County EMS Authority to ensure County protocols, ensures training and programs are deployed to personnel, and acts as the agency's Designated Infection Control Officer (DICO).

The Community Risk Reduction Division (CRRD) of the Fire Department plays a vital role in protecting the safety and well-being of the community through education, outreach, and regulatory oversight. Its integrated approach includes community risk reduction programs, development-related plan reviews and inspections, state-mandated inspections, code enforcement, hazardous materials management, and fire and hazardous materials investigations. CRRD also serves as the local Certified Unified Program Agency (CUPA), a designation by the California Environmental Protection Agency. In this role, the division administers and enforces six environmental protection programs, providing consistent, streamlined oversight of environmental safety regulations—delivering significant benefits to the community. Through these efforts, CRRD empowers residents and businesses and supports long-term community safety, resiliency, and risk reduction.

The Fire Department's Training Division conducts and evaluates a wide variety of activities including simulated emergency incidents, assessments, and classes to ensure Fire Department personnel are performing at the highest levels of the profession. The division maintains documentation to support State and Federal certification programs and develops and implements local and regional response/mitigation exercises focused on large-scale community events. Lastly, the Training Division assists the Human Resources Department in developing and administering Fire Department promotional examinations.

The Administrative Division provides management, organization, and support for the Fire Department's various divisions. The primary duties of this division include budget development and management, recruitment, grant management, accounts payable and payroll processing, fire station maintenance and workers' compensation coordination, strategic management and planning, data management, emergency/non-emergency photography, and data analysis. In addition, the division manages the department web page, social media outlets, annual department open house, and creation and management of department maps (including pre-incident planning). The Administrative Division also oversees the development, management, and implementation of department policies and procedures.

Field Operations  
Division Mission

To enhance the quality of life for the community by providing caring, community-oriented service to protect life, property, and the environment.

Division Objectives

Maintain a citywide emergency response standard in which the first Advanced Life Support (ALS) unit arrives on scene within eight minutes of fire crew notification for EMS incidents, and within six minutes for structure fires, at least 90% of the time.

Provide an effective response force (ERF) of 17 personnel on scene of a structure fire in less than ten minutes from dispatch of alarm, at least 90% of the time.

Provide hazardous materials response to protect the community from hazards associated with uncontrolled release of hazardous and toxic materials and respond to technical rescue emergencies efficiently and effectively.

Provide Fire and EMS services to Levi's Stadium and all major special events held within the City of Santa Clara.

Emergency Medical  
Services  
Division Mission

Deliver quality emergency medical services to citizens and visitors of Santa Clara, ensuring all department EMTs and paramedics responding on all fire apparatus are certified.

Division Objectives

Process medical certifications and licenses for all Fire Department personnel and monitor for compliance with State and local government regulations.

Provide quality assurance/improvement processes for treatment-based EMS delivery.

Monitor and maintain custody and security of protected health information.

Provide high quality EMS/EMT training and equipment to all Fire Department personnel and local stakeholders, as needed.

Manage fire department ambulance transportation of patients to hospitals, while authorized under special circumstances approved by Santa Clara County Emergency Medical Services agency.

Train city employees in American Heart Association Cardiopulmonary Resuscitation (CPR) and Automated External Defibrillator (AED).

**Community Risk  
Reduction  
Division Mission**

To protect life, property, and the environment through education, engineering, enforcement, economic incentives, empowerment, and emergency response.

Leverage community-specific data to reduce risks and injuries through targeted community risk reduction education, outreach, and prevention programs.

Conduct comprehensive plan reviews and inspections for planning and building permits, fire and life safety systems, hazardous materials installations, and temporary structures for special events.

Investigate intentionally set fires and unauthorized hazardous materials releases in coordination with the Santa Clara Police Department and the County District Attorney's Office to support criminal and civil prosecutions.

**Division Objectives**

Promote continued compliance by providing risk reduction training, conducting emergency preparedness drills, and ensuring adherence to state-mandated hazardous materials reporting requirements.

Enforce six environmental protection programs under the Certified Unified Program Agency (CUPA) designation from the California Environmental Protection Agency (CalEPA).

Conduct state-mandated and operational permit inspections of local businesses and facilities to ensure compliance with fire, life safety, and environmental protection regulations.

**Training Division Mission**

Deliver high-quality public safety education and training in public safety to all members of the Santa Clara Fire Department.

Provide annual, semi-annual, and quarterly drills in the disciplines of firefighting, hazardous materials response, and rescue operations to members of the Fire Department to promote skill development and continuous improvement.

**Division Objectives**

Maintain records to support State and Federal training certifications required for specific disciplines.

Perform self-contained breathing apparatus (SCBA) and respirator fit testing as part of the Respiratory Protection Program to maintain compliance with state and federal regulations.

Coordinate and schedule public education programs, school site visits, station tours, and other public outreach activities.

<b>Administrative Division Mission</b>	Provide management, organization, and support for the various Fire Department divisions that are actively engaged in the protection of life and property.
<b>Division Objectives</b>	Provide the community with information on Fire Department programs and services.
	Establish and communicate the Department's vision and mission to all Fire Department personnel.
	Coordinate with other departments in the City as needed to support City projects and programs.
	Create a biennial budget that meets department needs and supports Council goals and objectives.
	Plan and prepare emergency responses for atypical or extraordinary incidents that exceed the capacity of normal Fire Department operations.

## Significant Accomplishments

- Completed update to the Santa Clara Fire Department Strategic Plan, including internal and external stakeholder participation.
- Established a department photography team with existing staff to capture images of Fire Department emergency response and daily events and activities.
- Successfully completed firefighter recruitment campaign and firefighter recruitment process.
- Continued the staffing supported by the Staffing for Adequate Fire and Emergency Response (SAFER) grant that allowed for the hiring of 18 firefighters to provide backfill relief support.
- Purchased a tractor-drawn aerial apparatus to replace a front-line apparatus with the expected delivery date of December 2026.
- Successfully implemented the Accela platform for fire operational permitting and inspections, transitioning CRRD to a fully digital, integrated, and streamlined permitting system.
- Continued successful management of the County Fire Chief's Youth Firesetter Prevention & Intervention Program. Twelve students successfully completed the nationally recognized diversion program.
- Delivered three City-wide training sessions in partnership with the City Manager's Office of Emergency Management designed to empower employees to prepare their families for emergencies, with the goal of enabling them to serve more effectively as disaster service workers.
- Achieved record attendance and engagement at the 2024 Firehouse Family Fair, held in recognition of the National Fire Protection Association's Fire Prevention Week—the nation's longest-running public health and safety observance.
- Hosted State Fire Training Firefighter 1 and 2 Fire Academies for recruits from Santa Clara including a graduating class of 20 firefighters in 2023 and a class of 3 firefighters in 2025.
- Established the infrastructure and procedures necessary to staff the Fire Department ambulance to maintain patient care during transport to local hospitals under special circumstances authorized by the Santa Clara County Emergency Medical Services agency.
- Purchased a Type 1 Ambulance and staffed an ALS ambulance daily responding to an average of 7 calls per shift and transporting patients to area hospitals an average of 5 times per shift under special circumstances authorized by the Santa Clara County Emergency Medical Services agency.
- Obtained and integrated a live, find, search canine into operations capabilities in partnership with California Task Force 3; fully funded by FEMA and the National Disaster Search Dog Foundation.
- Implemented the National Fire Protection Association's CRAIG 1300 system to effectively collect community incident data, enabling the department to identify, assess, and share local demographic, geographic, and economic needs for the development of community risk reduction programs.
- Reinvigorated the Community Emergency Response Team (CERT) program after a pause during the COVID-19 emergency response.
- Deployed crews to an increased number of wildland deployments, both in California and out-of-state.
- Maintained CalOES Type 2 certification for Hazardous Materials and Urban Search and Rescue.

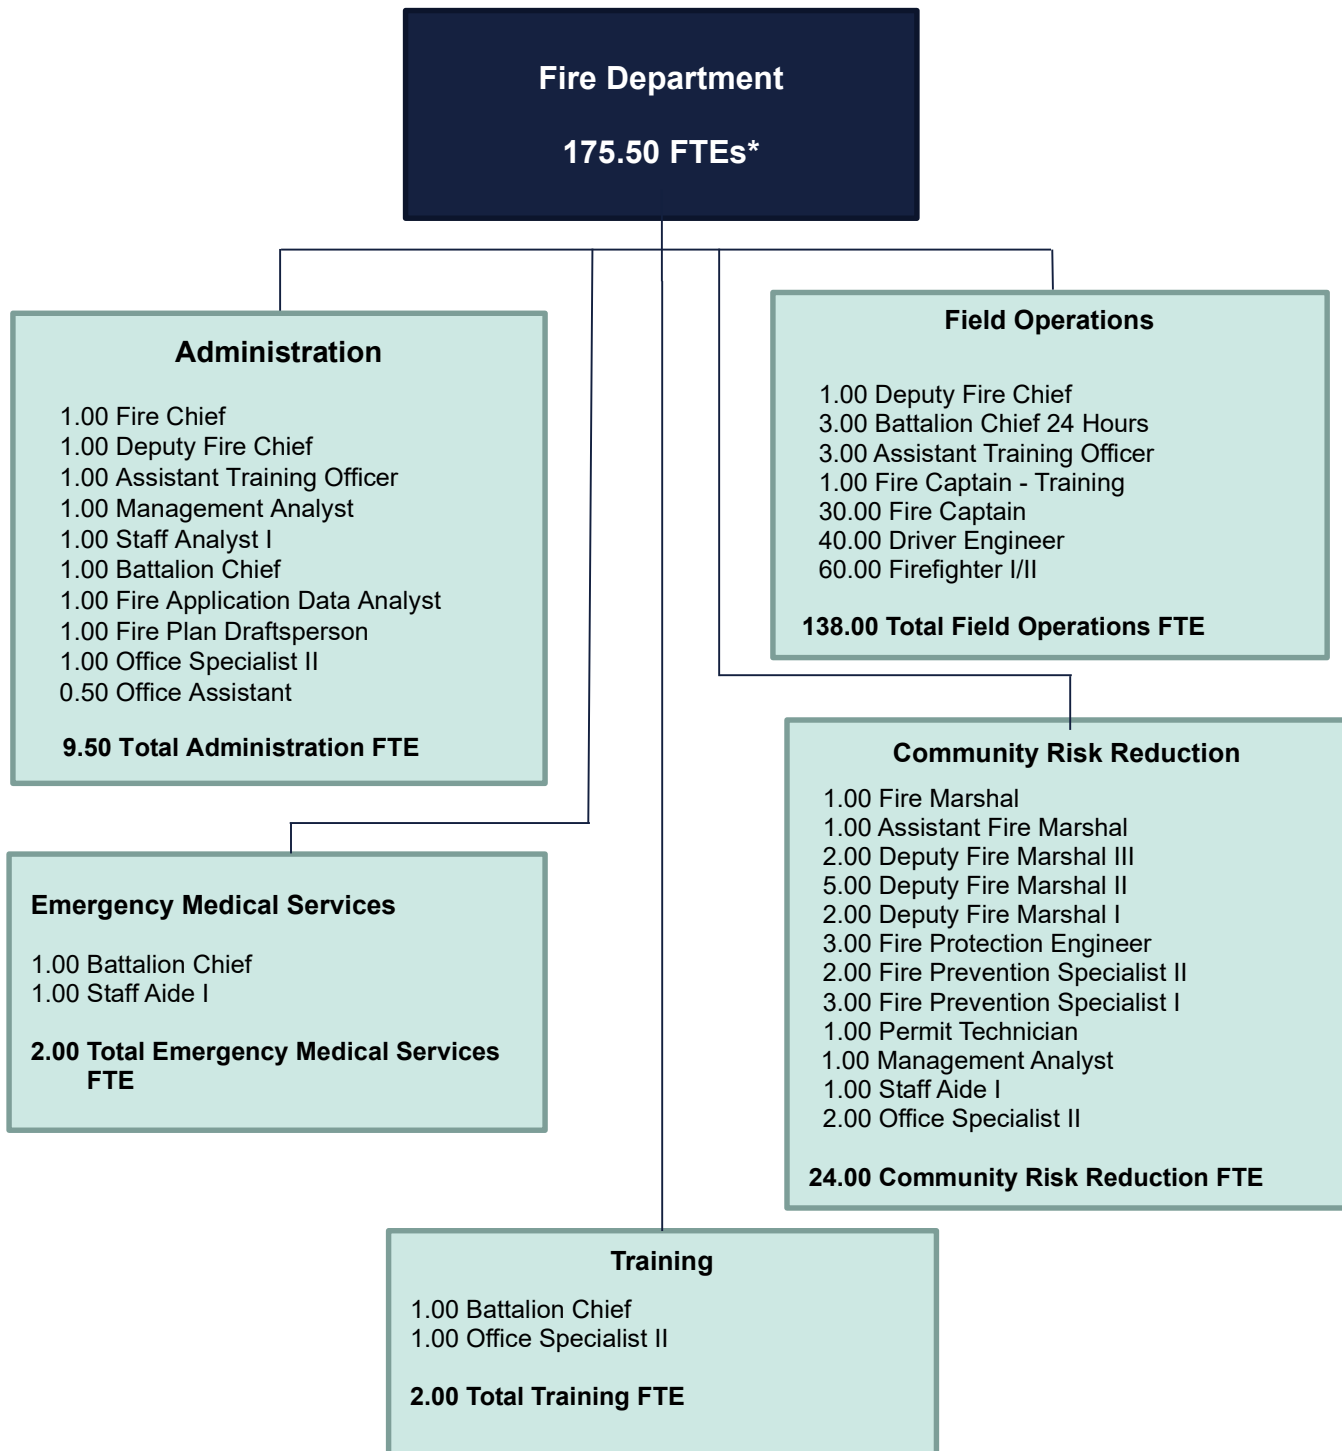

## Significant Objectives

- Improve workflow and efficiencies with administrative staffing.
- Ensure policies and procedures are up-to-date.
- Continue to advance Fire Department initiatives in Inclusion, Diversity and Equity through community outreach, firefighter recruitment and public relations.
- Manage all aspects of the SAFER grant award.
- Complete the Code Enforcement Citation Program transition to Accela, further unifying operations under a single platform and automating the previously paper-based process.
- Expand the Firefighters in Safety Education (FISE) program to provide more classes to public and private schools in the community.
- Complete the City's compliance, monitoring, and enforcement data transfer protocols to the State's CERS Next Gen Project estimated in 2026.
- Improve fire and life safety inspection documentation for Field Operations personnel.
- Develop training to ensure personnel are prepared for major events, including Super Bowl 60 and FIFA World Cup in 2026.
- Continue to staff the Fire Department ambulance with existing fire station personnel while Santa Clara County is operating under Standard Dispatch Order 3, giving fire agencies the authority to provide transportation within the County.

## Budget Highlights

- The Proposed Budget continues 12.0 Firefighter relief positions that were funded by the SAFER grant through FY 2025/26 partially offset by a reduction in overtime. This continues the 12.0 Firefighter positions that were previously frozen.
- The Proposed Budget includes the following budget actions to support the Community Risk Reduction Division to help address the current pace of development activity in the City and to provide additional administrative support to the division:
  - 1.0 Fire Protection Engineer
  - 1.0 Fire Prevention Specialist I
  - 1.0 Management Analyst
  - Contractual services for development inspections
- The Proposed Budget includes funding to train Field Operations personnel in preparation for the deployment of a new tractor-drawn aerial apparatus, as well as funding to transition the Fire Department's self-contained breathing apparatus air quality testing to an external vendor to ensure greater consistency and reliability.

*\*The positions above represent all funded positions in FY 2025/26, including the addition of 3.0 Community Risk Reduction Division positions recommended in this budget. This also incorporates the reallocation of 1.0 Management Analyst position from the Fire Department to Non-Departmental to reflect the transfer of the Office of Emergency Management function. The position count excludes the net reduction of 6.0 positions in FY 2026/27 due to the end of the SAFER grant (12.0 of the 18.0 positions are continued in this budget; these were the previously frozen positions). The remaining frozen positions include 1.0 Fire Protection Engineer and 1.0 Deputy Fire Marshal that were funded by Related and 0.75 Quality Improvement Nurse.*

\*The positions above represent all funded positions, including the addition of 3.0 Community Risk Reduction Division positions recommended in this budget. This also incorporates the reallocation of 1.0 Management Analyst position from the Fire Department to Non-Departmental to reflect the transfer of the Office of Emergency Management function. The position count in FY 2026/27 reflects the net reduction of 6.0 positions due to the end of the SAFER grant (12.0 of the 18.0 positions are continued in this budget; these were the previously frozen positions). The remaining frozen positions include 1.0 Fire Protection Engineer and 1.0 Deputy Fire Marshal that were funded by Related and 0.75 Quality Improvement Nurse.

<sup>3</sup> Fire Certified Unified Program Agency (CUPA) Fund is a new fund effective FY 2024/25

<b>Add 1.0 Fire Protection Engineer</b>	1.00	0	203,322	0	261,547

Program: 7834 – Field Development Services  
7836 – CRR-Development CUPA

This proposal adds 1.0 Fire Protection Engineer position to the Fire Department's Community Risk Reduction Division (CRRD) to support development and development CUPA services. This position is essential for reviewing hazardous materials facility submittals and ensuring effective succession planning in light of anticipated retirements of key personnel within the next 18 to 24 months. As the volume and complexity of construction projects continue to increase, in-house expertise is necessary, as outsourcing these specialized reviews to consultants is not always operationally feasible. The addition of this position will help CRRD meet customer permitting timelines and maintain operational efficiency.

### Performance Impact

Adding this position will improve efficiencies by ensuring timely completion of permits, plan reviews, and inspections, while addressing the growing demands of development within the city. Complex construction projects often involve hazardous materials, requiring specialized reviews. Increased staffing will ensure these reviews are completed promptly, allowing the Fire Department to meet the rising demand for services and maintain high standards in safety and compliance.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Add 1.0 Management Analyst</b>	1.00	0	187,070	0	238,004
Program:	7834 – CRR-Development Services				
	7836 – CRR-Development CUPA				
	7837 – CRR-Non-Development CUPA				
	7835 – CRR-Non-Development Services				
	7831 – CRR-Administration/Investigation/Education				

This proposal adds 1.0 Management Analyst position in the Fire Department's Community Risk Reduction Division (CRRD). Given the nature of CRRD's business and regulatory operations, a Management Analyst is vital to ensuring accountability and supporting the division's long-term financial stability. With CRRD's implementation of Accela, this role can oversee critical financial aspects such as revenue collection and expense management. This role will also streamline regulatory and financial reporting processes, enhance overall efficiency, and enable technical staff to focus on fieldwork and operational management.

### Performance Impact

The addition of this position will provide the oversight needed for the financial aspect of the division, which will include management and oversight of Accela, its fee collection structure, and applicable revenue. This position will oversee and manage data analytics and report completion for the division.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Add 1.0 Fire Prevention Specialist I</b>	1.00	0	116,111	0	150,318

Program: 7834 – Field Development Services

This proposal adds 1.0 Fire Prevention Specialist I position to the Fire Department's Community Risk Reduction Division (CRRD) to support development services. The Fire Prevention Specialist plays a key role in construction projects, ensuring buildings incorporate strong fire safety measures and comply with all relevant codes and regulations. The specialist will also assist with state-mandated inspections, helping streamline approvals and ensuring each project meets the highest safety standards for a resilient built environment. This position will be instrumental in meeting inspection timeframes, maintaining service standards, and responding to the growing development needs within the City of Santa Clara.

### Performance Impact

This position will provide the additional support needed to enhance the division's efficiency in development processes by ensuring safe, code-compliant construction and timely inspection services amid growing development. It will play a crucial role in ensuring that projects meet all relevant fire safety standards and will support the completion of state-mandated inspections in a timely manner.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Contractual Services for Development Inspections</b>	0.00	0	200,000	0	204,000

Program: 7834 – Field Development Services

This proposal funds \$200,000 for third-party contractual services for fire plan review and inspections for the Fire Department's Community Risk Reduction Division. This funding will provide essential development support, enabling the division to effectively manage demand surges and specialized projects without overburdening internal resources.

### Performance Impact

This proposal will increase the division's efficiency in completing inspections, plan reviews, and projects, ultimately improving the development process for the city.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Tractor-Drawn Aerial Apparatus Training</b>	0.00	40,900		0	0

Program: 7841 – Training

This proposal provides one-time funding of \$40,900 for contractual services and overtime costs in FY 2025/26 to support a "Train the Trainer" course for Field Operations personnel, in preparation for the new Tractor-Drawn Aerial Apparatus. The training will consist of four days of instruction, during which the training cadre will be equipped to train other Fire Department personnel. The funding covers both the cost of the vendor-provided training and the overtime expenses for participating Fire personnel.

### Performance Impact

Funding this training is needed to train Fire Department personnel on the safe and effective operation of a new Tractor-Drawn Aerial Apparatus, in order to provide more efficient service in the expanding develop of the city and its needs.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Self-contained Breathing Apparatus (SCBA) Air Quality Testing</b>	0.00	0	4,250	0	4,335

Program: 7822 – Field Operations

This proposal increases the self-contained breathing apparatus (SCBA) air quality testing budget by \$4,250, from \$1,524 to \$5,774. This funding will allow the Fire Department to transition the testing process from Fire staff to an external vendor. The Fire Department currently operates four compressors for breathing air: two permanent units at Fire Stations #9 and #2, and two portable units on Rescue 92 and Hazmat 99.

### Performance Impact

At present, the Fire Department collects air quality samples internally and ships them to an outside vendor for testing. If an air sample fails, the affected compressor is taken out of service until the issue is resolved and the sample passes a subsequent test. This proposal would engage an external vendor to conduct the air quality testing and interpret the results. The vendor would perform the quarterly tests directly at the respective stations where the equipment is located, ensuring more consistent and professional testing procedures.

# **Human Resources Department**

This page is intentionally left blank.

## Human Resources Department Description

The Human Resources (HR) Department is responsible for several areas: Benefits, Recruitment, Classification and Compensation, Employee and Labor Relations, Equal Employment Opportunity, Workers Compensation/Safety, and Employee Development.

The Department manages a variety of employee benefits, including health, dental, vision and retirement benefit programs, life insurance, Flexible Spending Accounts, VEBA, Retiree Medical Reimbursement Program, and a City Employee Assistance Program. The Department is also responsible for providing state-mandated benefits for employees injured on the job.

HR integrates job analyses into the selection process for each vacant position to ensure the accuracy of job specifications and the validity of examinations. Considerable time, labor, and expense are involved with each recruitment, especially for public safety positions where the process includes large pools of applicants, written exams, performance exams, and oral exams in addition to polygraph, psychological, comprehensive medical exams, and background investigations.

The Director of Human Resources (HR) is delegated as the Municipal Employee Relations Officer (MERO). The Employee Relations function is a direct function of the City Manager's Office that is delegated to the Director of HR. Employee Relations includes negotiating with Bargaining Units and Labor Unions to negotiate successor Memoranda of Understanding (MOU's) for each of the 10 specific represented groups, as well as receiving and reviewing grievances filed by employees or unions.

The City's Equal Employment Opportunity (EEO) Officer is responsible for oversight of equal employment opportunity laws. The EEO Officer reviews, investigates and/or oversees investigations of complaints filed by applicants or employees alleging discrimination or hostile work environment, including sexual harassment. The City has zero-tolerance policy on discrimination and harassment. HR will continue to investigate and resolve grievances and discrimination complaints in accordance with federal and State laws, City policies, and in close coordination with the City Attorney's Office.

The City strives to work on best practices related to safety, including proper ergonomics. We encourage all departments to invest in their staff, specifically related to occupational safety.

HR provides State-mandated harassment prevention training for all regular City employees and offers training programs in areas such as supervision, employment law, and other areas of interest.

## Divisions and Services

The Human Resources Department is organized into two Divisions: 1) Employee Benefits and Records and 2) Recruitment, Classification, and Staff Development.

**Employee Benefits and  
Records Division Mission**

Provide quality service to employees and retirees in the responsible, cost efficient development and administration of City compensation, benefits, and related programs.

Administer current Memoranda of Understanding (MOU) with the City's ten bargaining groups. Represent the City in various labor relation issues and negotiate, in collaboration with internal and external counsel, on wages, hours, and other terms and conditions of employment.

Administer benefits for City employees.

**Division Objectives**

Manage employee relations matters for the City; advise and assist departments with grievance resolution and disciplinary action.

Strive to ensure equal employment opportunity and provide a work environment free of discrimination and harassment.

Manage benefit programs for employees, retiree medical reimbursement programs, and process retirements.

Provide city-wide Human Resources Management and Records Management.

**Recruitment,  
Classification, and Staff  
Development  
Division Mission**

Provide centralized hiring services by developing and administering City recruitment and selection processes; administer and update the City's Classification Plan; and promote the advancement of ethical and sound human resources policies and practices in accordance with Civil Service Rules and Regulations, federal and State guidelines and industry standards.

Develop and implement valid selection examinations designed to select and promote the most qualified candidates.

Ensure that positions are properly classified, described, and aligned to support the organizations' effectiveness and efficiency.

Manage recruitment, assessment, and hiring processes to meet the City's staffing needs. Review, streamline, and update human resources policies and procedures to improve efficiency and reflect current employment laws and industry best practices.

**Division Objectives**

Make available to the public and employees employment information such as job opportunity announcements, job descriptions and salary and benefit data.

Provide training and development for employees City-wide to develop essential skills such as analysis and reporting, leadership, customer service, and public presentations.

Provide safety services city-wide, including trainings.

Provide state-mandated benefits for employees on the job.

## Significant Accomplishments

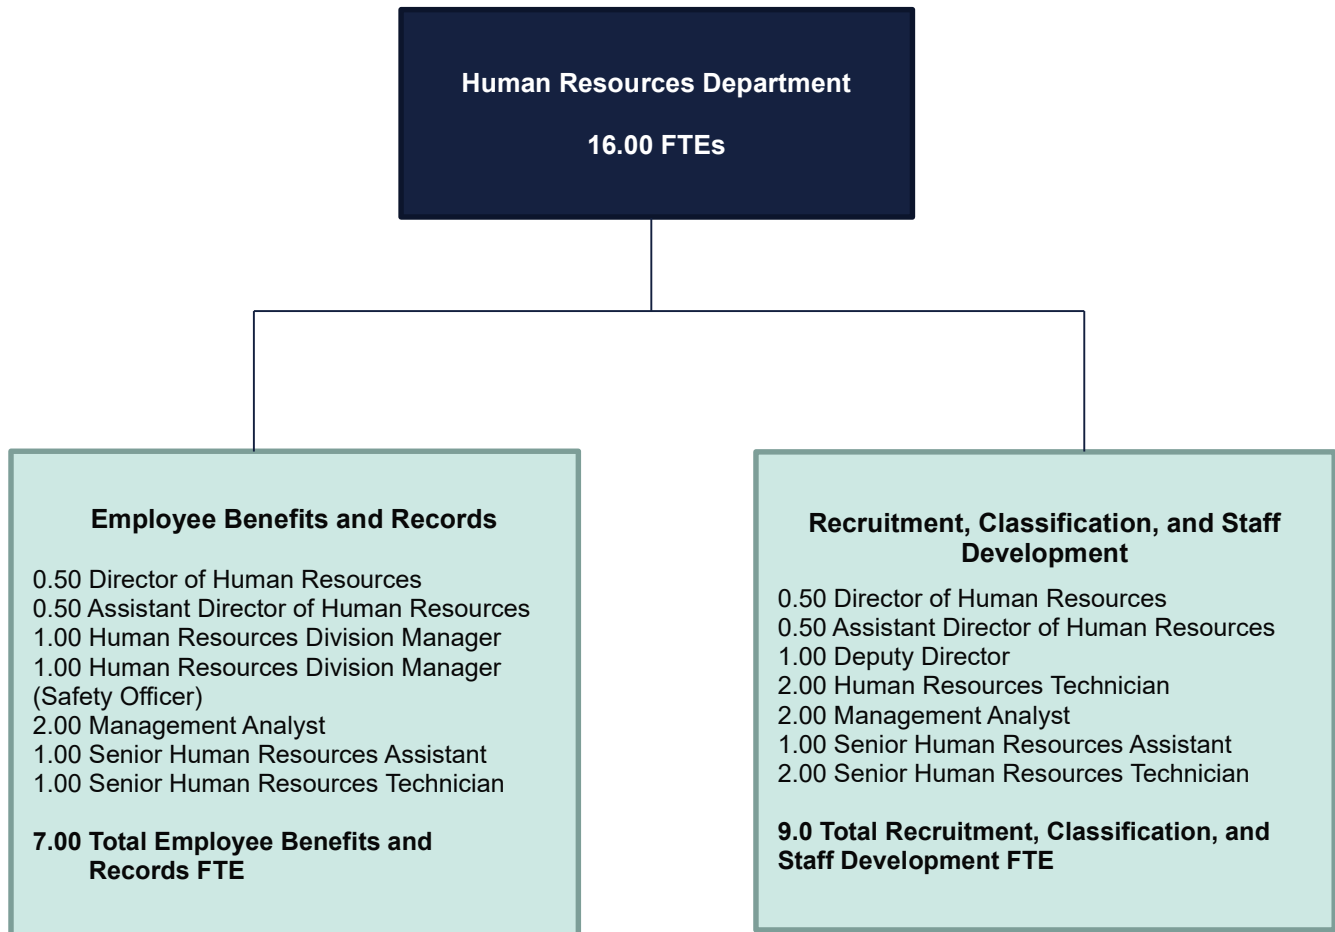

- Performed full-cycle recruitment, including classification studies, and appointed/promoted 125 regular employees during the last two fiscal years.
- Implemented a permanent Remote Workplace policy.
- Partnership with Mission College on Student Intern Program; as well as attended various college fairs in the bay area.
- Transitioned from paper-copy to electronic employee personnel and benefits records, including moving to electronic submission of documents for the annual Benefits Open Enrollment, utilizing the City's Laserfische system.
- Since 2024, reached successor Memoranda of Understanding agreements with three of the City's bargaining units.
- Provided mandated supervisory and non-supervisory harassment/discrimination online training.
- Provided a supervisory/leadership program for employees in a lead or supervisory capacity; offered other professional development trainings for employees.
- Reinstated the Annual Employee Recognition Luncheon and other employee engagement events.
- Supported approximately 1,625 regular and as-needed employees in regard to benefits, wage adjustments, workers' compensation, leaves and retirements.
- Conducted city-wide safety assessment and will begin implementing recommendations in FY 2025/26.
- Staffed the Salary Setting and Civil Service Commissions.

## Significant Objectives

- Conduct recruitments and manage effective, efficient, and defensible hiring processes to attract and retain qualified employees.
- Continue negotiations with Bargaining Units.
- Develop additional supervisory training opportunities for current employees.
- Maintain the Sexual Harassment Prevention State Mandated training for all City employees, including the training of Elected Officials and City Commission and Committee members.
- Work closely with the Finance Department to analyze and implement best practices in implementation, control, and audit of pay and benefit entries.
- Review and update various citywide policies, including the Employer-Employee Relations Resolution, the Personnel and Salary Resolution, and various City Manager Directives and coordinate these updated policies with each bargaining unit for implementation.

## Budget Highlights

- The Proposed Budget includes budget proposals to increase non-personnel funding for a performance management system and recruiting tool.

<b>Performance Management System</b>	0	4,001	44,043	0	44,043

Program: 2514 – Records and Compensation

This proposal adds funding for a Performance Management System module in NeoGov. The Human Resources Department currently uses NeoGov as its applicant tracking system. NeoGov has a performance management module that streamlines and automates the performance appraisal process. The module eliminates manual administrative work with auto-reminders, overdue notifications, and evaluation tracking. Managers have the ability to track and manage the appraisals for their employees in one centralized system. The module is customizable and provides managers sample tools to write narrative on the performance appraisal form. Managers can also go in throughout the year to document information about the employee's performance to make it easier to write the performance appraisal at the end of the rating cycle. The module is easy to use and has the capability to incorporate an approval workflow that auto-routes evaluations and provides status updates before, during and after the performance evaluation. Once it's been through the approval sequence online, and the employee has met with the manager to go over the appraisal, the document can be converted to a PDF and moved to the employee's personnel file in Laserfiche. Implementation of the performance appraisal module will streamline and automate the annual performance review for managers.

### Performance Impact

The transition to an online performance management system will eliminate the monthly manual work currently performed by a Human Resources Technician and create efficiencies to perform other Human Resources duties. In addition, managers will have an online tool to document employee performance throughout the performance evaluation period, and it will include a built-in approval workflow sequence.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Attract Recruiting Tool</b>	0	0	22,732	0	24,718

Program: 2525 – Recruitment, Staff Development and Labor Relations

This proposal provides funding for a two-year pilot of a recruiting tool. The Human Resources Department actively recruits for most of its vacancies and uses NeoGov as its applicant tracking system. All applicants that are interested in applying for a City job, are required to apply through the NeoGov system. While many applications are received for most positions, there are a number of applicants that do not meet the minimum qualifications and are screened out or positions that receive few applications. To increase the reach of the job announcement in an effort to obtain more qualified applicants, hiring managers are given the option to post on websites targeting individuals the City may recruit for, which typically requires additional fees per job posting.

NeoGov is offering an additional recruiting tool, called Attract, that provides easy-to-use tools and access to new channels for capturing candidate leads. The Attract tool provides employers the ability to build custom landing pages, and access to target any applicant that has a profile in NeoGov, which expands the candidate sourcing options. This resource enables the City to target and send an email or contact any applicant that has a profile in NeoGov – such as an applicant that may have never applied to the City of Santa Clara but has applied to other agencies that utilize the NeoGov system. The Attract tool allows the City to target specific potential candidates and create and send personalized messages through NeoGov. Attract also provides analytics and reporting on candidates. The two-year pilot allows time to evaluate the effectiveness and results in additional candidates who may ultimately get hired.

### Performance Impact

The Attract Recruiting Tool provides easy and quick access to a larger candidate pool that the City's recruiters can use to efficiently target qualified candidates for each recruitment.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Information Technology Department Description

The Information Technology Department (ITD) strives to provide superb affordable services and be the partner of choice for City information technology initiatives to improve the quality of life and strengthen the community through technology and innovation.

The award-winning ITD provides a full range of IT services through its Enterprise Services, Infrastructure and Support, Telecommunication Services and Contract Services Divisions, providing help desk, desk side support, data center and network management, cybersecurity, application consulting and support, training, technology project/program management and Geographic Information Service (GIS) capabilities.

Focus areas include:

- Improve government services - efficient, effective & transparent
- Enable self-service - anytime, anywhere, access to government digital citizen centric services, customer request management
- Enhance citizen engagement and community participation
- Assist City departments with their IT business requirements in support of delivering City services
- Maintain Project and Portfolio Management practices to ensure successful implementation of technology projects
- Maintain and strengthen the City's enterprise-wide technology infrastructure in support of City departments
- Protect and strengthen the City network and information security capabilities
- Cybersecurity risk mitigation & compliance
- Manage IT vendors to control costs, drive service excellence, and mitigate risks to gain increased value throughout the product lifecycle

## Divisions and Services

The IT Department is organized into four Divisions: Enterprise Services; Infrastructure and Support; Contract Services; and Telecommunication Services.

## **Enterprise Services Division Mission**

To plan and implement applications leveraging technology to enhance citywide and departmental capabilities. Maintain a high availability digital presence, providing relevant information and quality on-line services to the residents and businesses of Santa Clara. Empower City employees to effectively serve the public using digital technologies.

## **Division Objectives**

Provide application support for mission and business critical departmental applications. Manage business process improvements and vendor compliance updates. Maintain an Application Portfolio Management System and Enterprise Roadmap to provide for better planning. Work with department business owners to rationalize and modernize the current applications in line with City goals and objectives, plan for enhancements and upgrades to provide greater functionality and business value for City applications.

Manage the City's websites, providing timely updates to citizens through the use of the City's expanding digital presence. Ensure equal access to the City website for people with disabilities by providing websites that comply with accessibility requirements.

Provide enhanced support for business applications used within the City driven by a Structured Project Methodology and Project Management Office.

Through GIS data, provide trustworthy operational information, organized by location, and delivered in a timely manner to decision-makers for both tactical and strategic planning efficiency.

## **Infrastructure and Support Division Mission**

Provide a reliable and secure citywide computing infrastructure to enable departments to accomplish business goals and provide City services and information to the community.

## **Division Objectives**

Provide services to ensure the reliability, continuity, and sustainability of network, server, storage, and desktop systems.

Maintain, support, and enhance the City's enterprise-wide technology infrastructure in support of City departments.

Enable business continuity and delivery of essential services through remote workplace capabilities.

Ensure security and strengthen the reliability of the internal City systems and network.

**Contract Services  
Division Mission**

To provide superb professional, responsive, and cost-effective information technology services to the City.

Manage the City technology contracts to ensure the adherence to scope and deliverables.

**Division Objectives**

Implement information technology best practices and drive operational and continuous improvements with our technology providers.

Provide governance and oversight for the City technology vendors to ensure performance meets/exceeds contractual obligations. Ensure remediation plans are developed and adhered to as needed.

**Telecommunication  
Services  
Division Mission**

Provide support for general communications services for City staff, including telephony services, mobile, wireless communications, and cable services.

Provide and maintain high quality telephony and mobile services to all City staff and departments. Assist in the planning and implementation of telecommunications services at City facilities.

**Division Objectives**

Review and process billing for all telecommunication services.

Provide cable franchise oversight and monitoring.

## Significant Accomplishments

- The City has a robust application portfolio of 170 line-of-business applications that are core to City operations and the delivery of services to the public. The Department implemented, upgraded, or replaced approximately 20 applications in 2024.
- Replaced end-of-life Fire Alerting system for improved response times and enhanced firefighter health and wellness.
- Implemented business process streamlining and efficiencies in PeopleSoft, including Fixed assets, Accounts Receivables, Billing and HR Benefits administration.
- Implemented a new Business Tax – Transient Occupancy Tax (TOT) portal.
- Completed Citywide multi-function device refresh for printing, copying, and scanning services.
- Strengthened the City’s core infrastructure including enterprise compute, storage and cloud backup systems for improved resilience and capacity.
- Implemented GIS infrastructure, asset management and application upgrades to address increased demand and improve functionality, response times and infrastructure management.
  - Upgraded the Employee Web Map Viewer to infoMap 4.0, for enhanced access to GIS data layers and analysis tools.
  - Upgraded MapSantaClara for quick access to Santa Clara map for residents, business and developers.
  - Upgraded ArcGIS Enterprise, the primary repository for storing, maintaining all city-related location data.
  - Upgraded Common Operation Picture (COP), a web-based application for multi-agency coordination, providing a shared view of stadium operations.
  - Mapped recent Parks & Recreation facilities added to the City.
- Improved the maturity of the City’s cybersecurity posture, safeguarding resident and City sensitive data.
- Working with the AI Employee Engagement Team, drafted the City’s AI policy/City Manager Directive on how generative AI tools impact our work and the use of AI internally.

## Significant Objectives

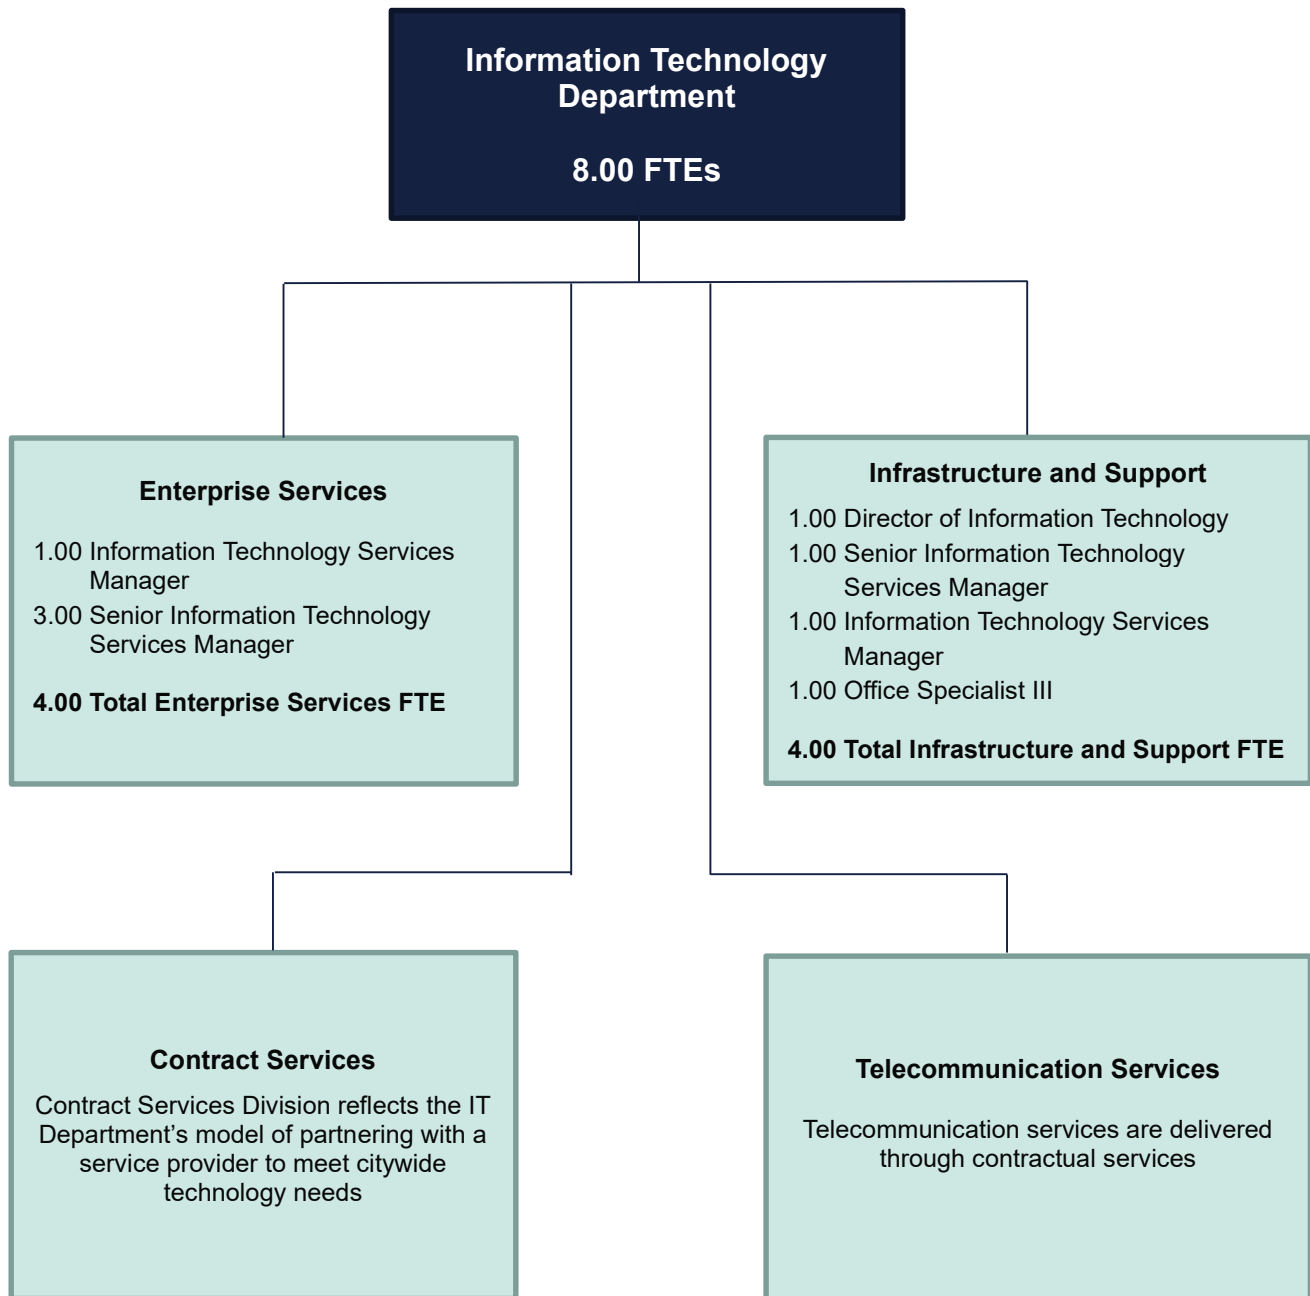

- Application Modernization: Support citywide and departmental business process transformation, system replacements and upgrades.
  - Finance and HR Management (PeopleSoft) upgrades include HR Benefits Self Service and CalPERS, procurement and warehouse operations, and an application and infrastructure upgrade
  - Utility billing mobile payment and customer service Solution and utility billing system upgrade
  - Non-utility cashing system upgrade
- Update and enhance the City’s websites to ensure full compliance with the Americans with Disabilities Act (ADA) and Web Content Accessibility Guidelines (WCAG) 2.1 standards
- Metro Area Network Upgrade to address aging infrastructure, security, and a broader network transformation.
- Internet redundancy and failover for mission critical applications.
- Citywide WiFi refresh for improved performance.
- Desktop/laptop replacement and Windows 11 upgrade for performance, reliability and staff productivity.
- Replace end-of-life Police Mobile Data Computers (MDCs) and modems in Police and Fire vehicles.

- Enterprise GIS projects to further citizen engagement, decision making, and effective infrastructure information lifecycle management. This includes an upgrade to ArcGIS Enterprise.
- Improve collaboration capabilities by leveraging technologies such as the Microsoft 365 platform to enable anytime, anywhere access to City systems and resources.
- Technology Infrastructure: Architect and replace aging technology infrastructure in a strategic and phased manner in support of increased digital, mobile and cloud solutions for anytime, anywhere device access in a secure manner.
- Cybersecurity and Risk Mitigation: Strengthen the City's cybersecurity posture by providing a proactive defense against threats via intrusion prevention/detection systems and security information and event management systems and response protocols.
- Enhance Audio/Visual capabilities throughout the City for improved Civic engagement, collaboration and staff productivity.

## Budget Highlights

- The proposed Operating budget adds resources to provide support to the Information Technology Department:
  - Add 1.0 Senior Information Technology Services Manager to the Enterprise Services Division
  - Upgrade the ArcGIS Enterprise System
  - Ensure accessibility compliance of the City's Websites

<b>1.0 Senior Information Technology Services Manager</b>	1.00	0	256,506	0	325,602

Program: 1911 – Enterprise Services

The proposal adds 1.0 Senior Information Technology Service Manager to the Enterprise Services Division in the Information Technology Department. Departments citywide rely heavily on IT's Enterprise Services Division, requiring support with GIS software and business applications to serve business needs. Additionally, the scope of Enterprise Services-related work in the IT department has increased significantly due to an increased use of software by City departments, as well as website accessibility for the City as a whole.

### Performance Impact

The Enterprise Services Division is currently made up of three employees who work on all software, application and web-based services. This position will assist the IT Department in accomplishing its objectives in improving website accessibility, enhancing GIS services, and expanding application services citywide.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>City Website Modernization and Accessibility Compliance</b>	0.00	140,000	0	60,000	0

Program: 1912 – Web Services

The City's four websites (SantaClaraCA.gov, SCLibrary.org, SiliconValleyPower.com, SVPFiber.com) were visited by 2,689,339 visitors in 2024. The websites are a valuable informational resource for our residents, visitors, and businesses. The Department of Justice ruled that state and local governments must make their websites and mobile apps accessible to people with disabilities according to Title II of the ADA (Americans with Disabilities Act) by April 2026. Therefore, it is recommended that staff time and financial resources be allocated to address these needs. This proposed project aims to update and enhance the City's websites to ensure compliance with the ADA and Web Content Accessibility Guidelines (WCAG) 2.1 standards. The initiative will improve digital accessibility for all users, including individuals with visual, auditory, cognitive, and motor disabilities. The vendor will conduct an audit of every page, provide reports on analytics, provide user training, and conduct user testing. These findings will guide the ADA remediation, compliance and update process. Using these findings, the department will update each of our websites to conform to current accessibility standards, improve UI, and modernize look and feel. Accessibility enhancements will address accessibility issues at the HTML code level and correct color contrast and text readability issues. These fixes prevent a patch afterwards approach, and ensure accessibility is baked into the foundation of the websites.

### Performance Impact

This investment in the City's websites will provide ease-of-use to website visitors connecting them efficiently with City services, and ensuring information is accurate and easy to find. Second, the project will protect the City from legal liability once the new federal standards on web accessibility go into effect in April 2026.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>ArcGIS Enterprise Upgrade from 10.9.1 to 11</b>	0.00	170,000	0	0	0

Program: 1913 – GIS Services

The City completed an upgrade to ArcGIS Enterprise 10.9.1 in 2024, ensuring improved performance and system stability. Esri has announced that ArcGIS Enterprise 10.9.1 will be the last long-term support version before moving to ArcGIS Enterprise 11, marking a significant shift in modern GIS architecture, security, and cloud integration. ArcGIS Enterprise 10.9.1 will exit general support in November 2026, leaving the system vulnerable to security risks and performance degradation. Esri will no longer provide bug fixes, updates, or enhancements for 10.9.1 beyond this period. The project budget is estimated at \$170,000 and covers service costs associated with the upgrade. This budget ensures that all necessary technical, administrative, and testing efforts are accounted for, enabling a seamless transition to ArcGIS Enterprise 11 with minimal disruption to City operations.

### Performance Impact

This proposed budget action will improve the performance of the City's GIS services. Upgrading ArcGIS will ensure improved GIS architecture, appropriate cybersecurity and cloud integration to improve performance of those using ArcGIS.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

# Library Department

This page is intentionally left blank.

## Library Department Description

The Santa Clara City Library is a dynamic community hub, providing access to information, literacy resources, educational programming, and civic engagement opportunities for the Santa Clara community. The Library advances the Council's Priorities by delivering high quality, efficient services in the following core areas:

- **Collections** – Provides a relevant physical and digital collection of books, movies, music, magazines and research tools for a diverse community with wide-ranging interests and needs.
- **Technology and Information Access** – Introduces and provides technology assistance to individuals and groups, and access to technologies that support community innovation, employment opportunities, entrepreneurship and that bridge the digital divide.
- **Literacy and English as a Second Language (ESL)** – Provides high quality adult and family literacy instruction and access to English as a Second Language support and resources.
- **Programming** – Delivers high impact programming that supports early literacy through story times and other pre-school age events. Offers teen and young adult activities that promote youth development and engagement. Provides cultural enrichment and promotes inclusion via outreach and programs for new immigrants. Supports community engagement, well-being, health and lifelong learning through educational programming and services such as State and County Park Passes for free check-out, free technology resources, local history and genealogy collection, and sustainable practices with the Seed Share Library and Library of Things.
- **Community Partnerships** – Pursues innovative partnerships with City departments, local educational institutions, local businesses and non-profits to enhance service delivery that promote reading, literacy, cultural enrichment and community building.
- **Facilities** – Maintains buildings that are a source of civic pride, provide opportunities for placemaking, encourages community engagement, and provide a clean, safe and welcoming place to study, learn and connect.

## Divisions and Services

The Library Department is organized into seven Divisions: Administration, Adult Services, Branch Services, Customer Services, Facilities, Technical and Technology Services, and Youth Services.

<b>Administration Division Mission</b>	Plans, directs, organizes, and manages the Library Department's educational, cultural and lifelong-learning activities for the Santa Clara community; provides staff support for the Department's central and administrative services.
<b>Division Objectives</b>	Manages the operational oversight of the Santa Clara City Library system including strategic planning, budgeting, personnel, facility management and community relations. Also provides support to the Library Board of Trustees and serves as liaison to the Santa Clara Library Foundation and Friends.
	Identifies and implements creative solutions to ensure access to technology for all.
	Establishes partnerships with community organizations to leverage resources and ensure a diverse portfolio of library programs and services.
	Collaborates with internal and external stakeholders in the implementation of programs that advance the City Council's Priorities.  Provides strategic leadership on expansion of library services and facilities to meet the growing needs of the changing Santa Clara population.

### Adult Services Division Mission

Provides research and reader advisory services through effective reference and information delivery systems; curates relevant materials for adults in various formats, including electronic formats; provides special programs, collections, and services on local history, genealogy, and adult literacy; and creates programming for development of lifelong learning.

Provides effective and efficient reference and reader advisory services for adults as well as technical assistance in the use of Library resources and technologies.

Selects and curates the Library's extensive multilingual collection of print, media and digital resources as well as develops and implements programming for adults to support the love of literature, lifelong learning and community connections.

### Division Objectives

Delivers programs and services that promote literacy including Career Online High School, the READ Santa Clara Program and English as a Second Language programs.

Maintains and supports the development of the City's local history and genealogy collection, through the partnership with Santa Clara County Historical and Genealogical Society.

Provides Santa Clarans with opportunities to serve the City and the Library through volunteer activities.

### Branch Services Division Mission

Provides access to collections, programs and community spaces to distinct neighborhoods and communities throughout the City.

Provides relevant physical and digital collections of books, movies and music that appeal to diverse users.

Creates community through popular, informative and cultural programming that promotes lifelong learning.

### Division Objectives

Supports economic and entrepreneurial growth by offering free Wi-Fi, computers and group study rooms.

Provides Bookmobile service to outlying, underserved communities where they work, play, create, learn and live.

Provides clean and safe facilities that enhance the neighborhood.

Customer Services Division Mission	Provides customer-centered services to support the use of the Library collection; evaluates and develops library services and processes that are effective and promote equity of access.
	Ensures timely and effective circulation and access of Library materials and resources.
	Provides quality services as the front-facing and initial point of contact for all Library visitors.
Division Objectives	Coordinates the activities of the Interlibrary Loan and Link+ programs which allow patrons to secure materials from a consortium of partner academic and public libraries.
	Provides troubleshooting and support to ensure optimal customer experience.
	Provides logistical and operational support for special events and library programs.
Facilities Division Mission	Manages Library facilities to maintain safe, attractive, comfortable, accessible and functional facilities for all Library visitors.
	Oversees and supports contract processes relating to building maintenance, safety and security.
	Coordinates and manages capital improvements and building maintenance activities with other departments and outside vendors to ensure clean, safe and welcoming facilities.
Division Objectives	Supports repairs and needed maintenance through work-order system, as well as larger and more complex projects, from multi-step repairs to multi-year projects.
Technical and Technology Services Division Mission	Provides support to manage acquisition and processing of all collection materials. Manages access to library technology and equipment; provides relevant technology programs and services.
	Purchases and processes new library materials for delivery to customers in a timely fashion.
	Synchronizes Library data with other City departments for procurement and maintaining data and statistics.
Division Objectives	Sets up and maintains all public and staff computers and hardware, including workstations, audio visual systems, self-checks, automated material handling systems, hotspots, iPads, laptops and printers throughout the Library system.
	Implements new library software and upgrades to existing applications to maintain functionality and security.
	Designs, updates, and maintains content for Library website.
	Provides trainings, programs and workshops to support community use of technology.

## Youth Services Division Mission

Provides research and reader advisory services through effective reference and information delivery systems; curates relevant materials for children, young adults, and their families in various formats, including electronic formats, to support youth development; and creates programming for development of lifelong learning. Provides Santa Clara youth with opportunities to serve the City and the Library through volunteer activities.

## Division Objectives

Supports the role of caregivers as their child's first and most important teacher through collections, programs, training and resources.

Recognizes and honors Santa Clara's diverse community through programming, multilingual story times and bilingual collections for children and their families.

Provides equitable and high-quality programming, reference and reader's advisory services for all children and teens.

Publicizes the Library's resources, services and programs to elementary, middle and high schools within the City of Santa Clara, and positions the Library as a community educational partner.

## Significant Accomplishments

- Expanded Library hours in January 2025 to include Sundays from 1 p.m. to 5 p.m. at Central Park Library, reaching 148 hours/week. This effort was in response to requests from the community after Library expanded hours in October 2023 to further recovery from COVID-era hours, increasing time available to the public from 88 hours/week across all locations to 144 hours/week.
- As part of the Library Facilities Master Plan project, conducted strong outreach to the community to inform long-term goals for Library facilities. Tabling at community events elicited feedback from over 570 participants who shared their priorities for future planning. Stakeholder engagement with the participation of nine City commissions, boards and task forces in 2024, as well as community engagement boards to collect community feedback, collected nearly 600 responses from the community with additional priorities.
- Held Comic Con 2024, featuring games, crafts and panels with artists, authors, cosplayers and museums with over 8,500 participants, a 29% increase from the prior Comic Con event.
- Greatest Library User Ever (G.L.U.E.) program, developed in partnership with the Santa Clara Unified School District, worked to provide every third-grade student in Santa Clara with a library card, ensuring access to literacy and learning resources in and out of school. The program strengthened relationships between the Library and school Library Media Assistants and partners, and reached 675 students, representing 85% of all third-grade classes in SCUSD.
- Collaborated with the County Registrar of Voters to add mail-in ballot collection boxes at all three library locations and several City staff provided assistance to library polling sites. The Library was a key draw for voting, bringing in thousands of in-person and mail-in ballots, with Central Park Library bringing the largest voter turnout in Santa Clara.
- Celebrated Northside Branch Library's 10th Anniversary on August 10, 2024, and drew over 1,000 community members. Library staff wrote and published a children picture book, Northside's 10th Birthday, to commemorate the anniversary.
- Library held 1,667 library programs serving all age groups in FY 2023/24, with 66,801 people attending. Popular year-round, 525 storytimes were held in FY 2023/24, drawing 35,054 participants. Programs were enhanced to offer bilingual storytime programs at all three library locations, featuring English paired with Arabic, Chinese, Japanese, Spanish, and Ukrainian. K-POP annual programming, developed to serve high interest in the community, brought in close to 300 young people.
- Summer Adventure programming helped to prevent summer learning loss and build community through fun activities, engaging events, and exciting incentives. In 2024, the Library reached 4,296 adult, teen and youth participants, hosted 221 events for over 16,000 attendees, and provided STEM outreach, book giveaways, and special community programs. 99% of participants reported they felt encouraged to read or learn more.
- Library users listened to recorded Dial-a-Story 24/7 weekly stories in English and Spanish 1,491 times in FY 2023/24.
- Read Santa Clara provided 4,566 hours of free literacy instruction to 165 adult learners in FY 2023/24, enabling 78% of them to achieve literacy goals they set for themselves to become stronger family members, workers, community members and lifelong learners.
- Launched a weekly Homework Help Center at Central Park Library with a two-year \$89,551 grant from the California State Library. The Stronger Together: Teens Lead and Learn program supported Grades 2-6 while giving teens a valuable first job experience. Fifty paid teen interns completed 4,650 service hours, earning \$67,975 in scholarships. Teen Homework Helpers engaged weekly to assist 35+ students with over 551 assignments, with 12-15 families regularly seeking help. Additionally, the Teens Teach leadership program engaged 234 attendees in 12 programs in FY 2023/24.
- Launched new Ukrainian language collection for youth, the largest in the South Bay with more than 800 items.
- Expanded Seed Share program to all three Library locations, providing seeds for herbs, vegetables and flowers, and supported by multiple informative programs.
- Obtained over \$200,000 in grant funding to support collections and programming for the community, including Adult and Family Literacy services, ESL services, Summer Adventure reading programs, Lunch at the Library enrichment

programs for students over the summer, and science fiction, fantasy, and romance collections. Grant funding was also used to support targeted information and service outreach to underserved residents in the Montague Park neighborhood, encouraging engagement with and connection to the community.

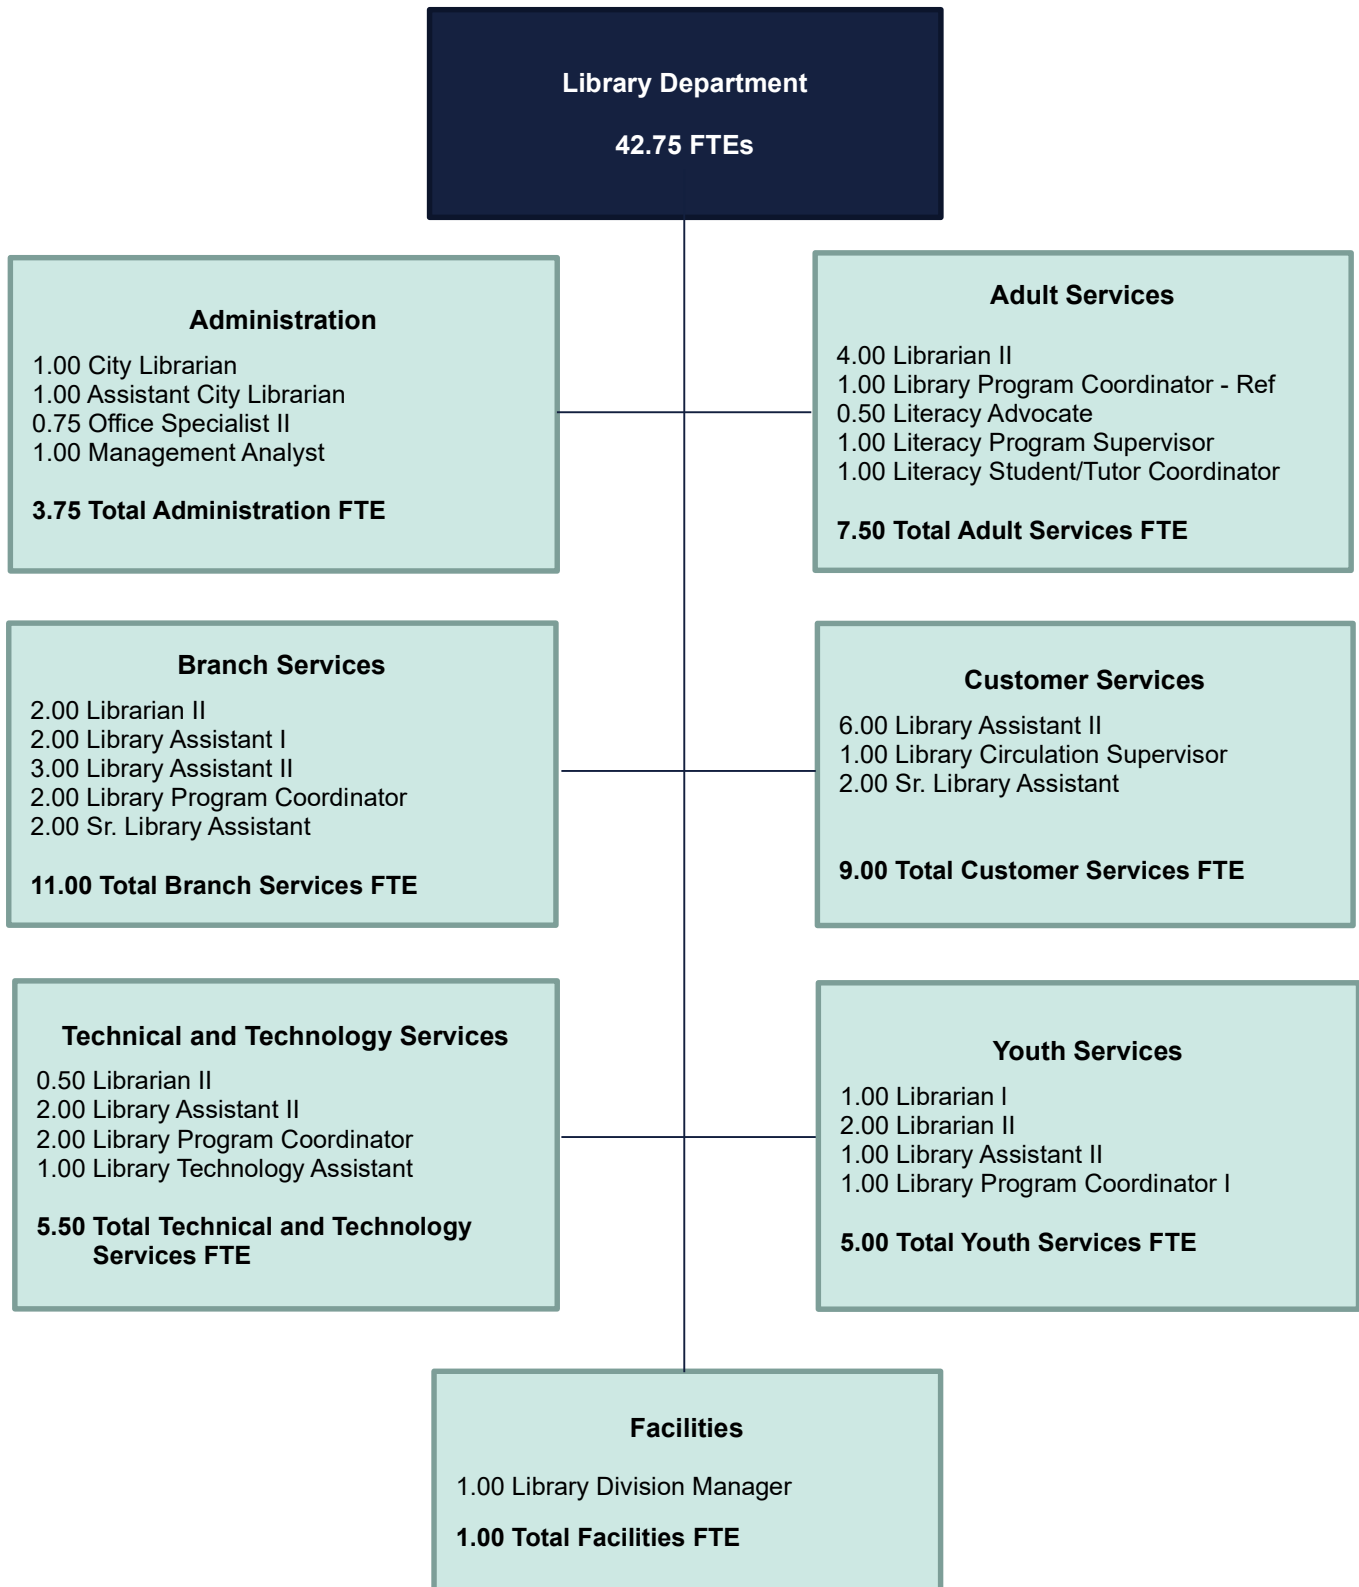

- State Parks Pass collection, used by the public over 2,000 times in FY 2023/24 to enjoy California State parks, was expanded to include 60 County parks passes. The new County parks passes were used 781 times between March 2024 to March 2025. Passes can be paired with hiking poles, bear canisters and hiking backpacks available via the Library of Things, to encourage community outdoor adventures.
- Partnered with St. Justin's School, collecting approximately 11,034 pounds of food donations on behalf of Second Harvest Silicon Valley Food Bank in FY 2023/24.
- Coordinated with Stanford Blood Mobile for blood drives, collecting over 137 units of blood in FY 2023/24.
- Provided trainings and staff development in First Amendment rights, addressing intellectual freedom and first amendment auditors. Training and development opportunities provided to staff across library disciplines to support professional standards, including Verbal Judo customer service and de-escalation trainings. Library also held staff recognition event for the first time since COVID.

## Significant Objectives

- Finalize Library Strategic Plan and Facilities Master Plan, to provide data-based planning for future efforts, scheduled to be shared with Council in fall 2025.
- Prioritize and enhance Library outreach, for improved understanding of community needs and continuing, adaptive growth of community connections and services.
- Strengthen partnerships with local organizations, businesses, and other city departments to expand service.
- Streamline data collection practices including a biennial community survey.
- Strengthen communications with development of an annual report and development of a communications position to coordinate the high volume of Library public messaging.
- Develop volunteer coordination and integration into Library services, including volunteer docents providing tours of the Library.
- Complete facility-related projects in progress, including re-opening of the Library Cafe, installation of ERRCS radio system in Central Park Library garage to support first responder communications, installation of new Automated Materials Handling System at Northside Branch Library, and approve facility improvement projects supported by the City of Santa Clara General Obligation Bond.
- Pursue additional, diversified grant opportunities to support Library programs and services.
- Expand diversity of collection in Library of Things.

## Budget Highlights

- The proposed Operating Budget restores funding for library books and materials in FY 2025/26 and FY 2026/27, which was identified as a City Council priority.

Program: 1251 – Library Technical Services

This proposal restores partial funding for library collection materials (print, media, online), which was identified as a City Council priority. This will enable the library to expand its offerings to library patrons and keep the materials up-to-date.

Performance Impact

This action increases the number of new items that can be added to the collection, as well as replacements for collection items that become worn out from heavy use.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

# **Parks & Recreation Department**

This page is intentionally left blank.

## Parks & Recreation Department Description

The Parks & Recreation Department provides planning, development, operation, maintenance, and rehabilitation of the City's twenty-nine (29) neighborhood parks, fourteen (14) mini parks, two (2) community parks, three (3) open space sites, ten (10) recreation buildings, four (4) trails, multiple joint use facilities, and eleven (11) bodies of water at five sites. Facilities include community centers, neighborhood park buildings, community gardens, playgrounds, pools, restrooms, picnic areas, turf, trees, vegetation, athletic fields, and joint use facilities. Service levels are set to promote the use of safe, clean, and attractive facilities for enjoyment and quality of life for all ages and abilities. The Department assists the public with facility rentals, community services, cultural programs, special events, enhanced natural environments, fitness and wellness programs, as well as sports and aquatics opportunities. The Senior Nutrition Program provides a congregate meal setting where seniors can improve their health through balanced meals and socialization and is funded through a grant from the Santa Clara County Social Services Agency's Senior Nutrition Program. Seniors are encouraged to access the many services available at the senior center while on site and are given the opportunity to engage in health and wellness programs at the Senior Center. The Parks & Recreation Department also provides planning, development, operation and maintenance of the City's two cemetery properties to support families before, during, and after their time of need. The Cemetery Division maintains 33,000 interment sites in a peaceful public park and provides customer service in a professional and respectful manner, while demonstrating sensitivity to our diverse community.

## Divisions and Services

The Parks & Recreation Department is organized into five divisions: Administration, Parks, Recreation, Cemetery, and Senior Nutrition Program.

<b>Administration Division Mission</b>	Provide leadership, resource development and administrative support to Parks, Recreation, Cemetery, and Senior Nutrition Program Divisions; plan and develop new parks and recreation facilities to support the City's programs, activities and special events; review new housing development plans for provision of new parkland dedication and recreation amenities.
<b>Division Objectives</b>	Plan and implement design, development, construction, and maintenance of new parks; rehabilitation of older facilities and infrastructure, including public outreach and Parks & Recreation Commission review and recommendations.
	Research and develop partnerships, sponsorships, and grants from private, corporate, and other public agencies to supplement funding of facilities, projects, programs, and other services.
	Provide leadership to four Commissions (Parks & Recreation, Senior Advisory, Cultural, and Youth).
	Conduct plan reviews and prepare comments for new housing developers to optimize park and recreation amenities in new developments and to ensure compliance with City Code 17.35 (Park and Recreational Land).
	Activate Mass Care & Shelter Function of the Emergency Operations Center (Commodity Points of Distribution, Heating Center, Cooling Center), as needed.
	Plan and implement multiple citywide special events annually.
	Support the Park Impact Fee program. Initiate annual land valuation study used to update the fees in the municipal fee schedule, initiate City park projects, evaluate developer-initiated park projects and calculate park in-lieu fees, ensure that all projects meet the needs of the community, and facilitate community input.

## Parks Division Mission

Maintain, acquire and rehabilitate Santa Clara's parks, community centers, playgrounds, pools, athletic facilities and neighborhood park buildings including restrooms, picnic areas, turf, trees, vegetation, athletic fields, pools, and sports venues at defined levels of service that promote the use of safe, clean, and attractive facilities for the enjoyment of the public.

## Division Objectives

Provide administrative direction, updated training, and technical support for Parks Division staff, contract operators of facilities, and public users; plan for parks and facility maintenance rehabilitation needs, including volunteer projects to enhance natural habitat and urban forestry.

Maintain eleven clean, safe, and attractive municipal swimming pools and other bodies of water at five sites (International Swim Center, Mary Gomez, Warburton, Montague, and the Senior Center). Maintain and support the use of clean, safe, fully functional, and attractive Community Recreation Center, Senior Center, Youth & Teen Center, Reed & Grant Sports Park and six neighborhood park buildings. Maintain and support community gardens and natural areas. All facilities and grounds are maintained on a year-round schedule of turf care, irrigation, facility maintenance, vegetation, tree care, litter control, and graffiti removal.

Provide physical and logistical support for citywide special events for planning, mapping, set up, safety and cleanup.

## Recreation Division Mission

Provide recreation opportunities for all residents of Santa Clara at the Community Recreation Center, Youth & Teen Center, Senior Center, Youth Soccer Park, Reed & Grant Sports Parks, City parks and athletic facilities, and City pools.

## Division Objectives

The Sports, Aquatics, and Athletic Facilities Program coordinates use of the Youth Soccer Park, Reed & Grant Sports Park and some Santa Clara Unified School District (SCUSD) fields; manages the Santa Clara Tennis Center and the Gymnastics Center. The Aquatics Program offers year-round access to lap swim for adults and seniors, aquatic fitness programming, and a variety of summer swim lessons for all ages, while also ensuring safe supervision of seasonal recreational swimming. The program partners with the field and pool user groups for consistent use and policy implementation and coordinates with recreation vendors to offer developmental sports programs and adult sports leagues.

Youth & Teen Center offers drop-in afterschool programs for children in K-12 grade, teen volunteer and leadership development, seasonal programs, summer day camp sessions, and serves middle and high school youth with specialized events and programs, including Skate Park programs.

The Performing Arts Program provides a variety of afterschool activities in dance, music, art, creative drama, and theater, along with summer drama and arts camps. It also hosts dance and musical recitals, performances, and exhibitions and coordinates City use of the Mission City Center for the Performing Arts.

The Senior Center offers a variety of health and wellness, fitness, arts and culture, and special interest classes, as well as volunteer opportunities for individuals over 50 years of age, including programs in the fitness area and natatorium at the Senior Center.

The Enrichment program provides art and expression classes, recreation vendor programs, coordinates membership and sustainability/garden programs at the City's community gardens, and implements preschool enrichment programs, classes and summer camps.

<b>Senior Nutrition Program Division Mission</b>	Provide a congregate meals program to improve senior health and ability to live independently.
<b>Division Objectives</b>	<p>Offer a Monday through Friday senior nutrition program.</p> <p>Encourage participation in Health and Wellness Programs, fitness, and social activities at the Senior Center and provides access to resources and case management referrals, to enhance quality of life.</p> <p>Offer access to information about senior issues and current events.</p>
<b>Cemetery Division Mission</b>	The Mission City Memorial Park provides exemplary cemetery services in a well maintained, park-like setting with a customer-oriented atmosphere. The Agnew Historic Cemetery maintains space for reflection and interprets historical artifacts.
<b>Division Objectives</b>	<p>Mow and trim turf areas weekly; pruning and planting of trees as needed for safety and maintenance of existing canopy.</p> <p>Maintain cemetery buildings daily, in keeping with City standards.</p> <p>Coordinate interments and burials with people in their time of need.</p> <p>Maintain accurate documentation, use best practices and depending on the availability of resources, use current technology to map and record all transactions and burials in the cemetery.</p> <p>Develop in-ground and niche bank spaces to provide additional interment options for families in need.</p>

## Significant Accomplishments

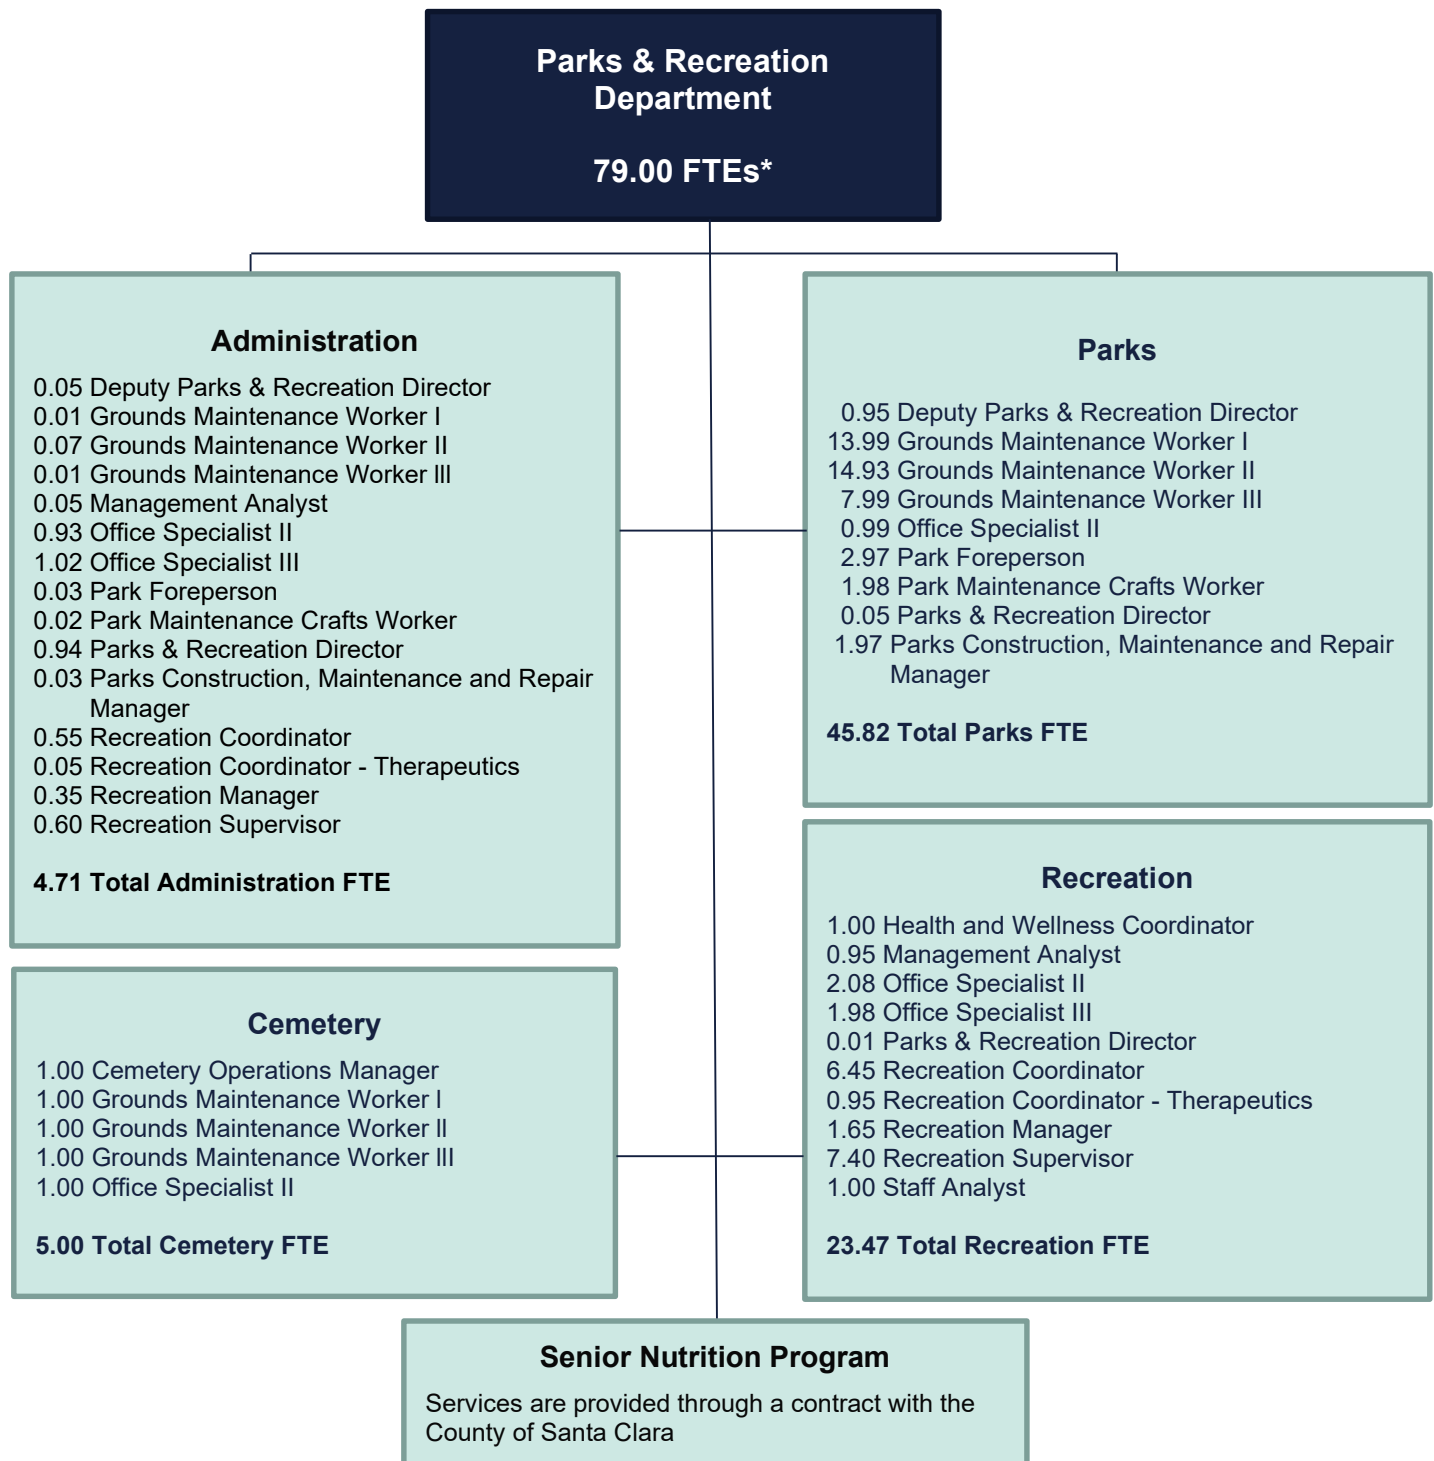

- Schematic design approval by Council for the Henry Schmidt Park Rehabilitation Project.
- Initiated a Citywide Parks & Recreation Master Plan Study.
- Completed Westwood Oaks Park Playground Rehabilitation Project – reopened to the community.
- Completed the Montague Park Rehabilitation Project – reopened to the community.
- Completed the Magical Bridge All-Inclusive Playground at Central Park – now open to the community.
- Initiated Kindness Ambassador program at Magical Bridge All-Inclusive Playground at Central Park.
- Completed the installation of a new restroom at Fairway Glen Park.
- Qualified for full grant reimbursement of \$2.65 million for the Magical Bridge Playground Project.
- Initiated the temporary re-opening process for the International Swim Center.
- Onboarded Nuevo Community Buildings at Lawrence Station Area Plan and opened for public use.
- Provided Stihl Chainsaw Safety Operation and Maintenance training for fifteen (15) staff members.

## Significant Objectives

- Develop a land acquisition program for parkland.
- Obtain City Council approval of schematic design and initiate Phase 2 of design for the Warburton Playground Rehabilitation Project.
- Initiate the construction phase of the Central Park Entrance and Parking Improvements Project.
- Initiate the construction phase of the Henry Schmidt Park Playground Rehabilitation Project.
- Initiate the design phase for rehabilitation projects at both Mary Gomez Park and Maywood Park.
- Initiate Phase 2 of the Parks Service Center Improvements project, which includes final design services, preparation of bid-related documents, and securing permits for construction of the project.
- Initiate rehabilitation project at the International Swim Center with the goal of opening for community-wide use.
- Provide programming for the newly opened Nuevo Community Buildings at Lawrence Station Area Plan.
- Provide approximately 20,000 nutritional meals annually to seniors in the Monday - Friday Senior Nutrition Program as the yearly trends show a growing need.
- Initiate Cemetery Master Plan Study, supporting long-term health of cemetery maintenance endowment.
- Present Citywide Parks & Recreation Master Plan for Council approval.
- Fill 75% of vacant staffing positions by fall of 2025.
- Reconfigure staffing allocations to better fit the changing environment.

## Budget Highlights

- The Proposed Budget includes the following actions to support the department's Recreation Division services:
  - Add 1.0 Recreation Manager in the Recreation Division
  - Reclassify 1.0 Sr. Center Coordinator with 1.0 Recreation Coordinator in the Recreation Division
- The Proposed Budget also includes funding to evaluate cemetery operations and capital funding to prepare a public art master plan to provide a long-term strategic approach toward public art in the city.

*\*The positions above represent all funded positions including the Therapeutics Recreation Coordinator 0.25 FTE increase and the addition of 1.0 Recreation Manager recommended as part of this budget. This excludes the 1.0 Grounds Maintenance Worker I, 2.0 Grounds Maintenance Worker II and 1.0 Office Specialist II positions that were frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402).*

<b>Add 1.0 Recreation Manager</b>	1.00	0	231,879	0	293,966
Program:	1142 – Recreation-Administration				
	1144 – Recreation-Senior Center & Therapeutic Recreation Programs				
	1145 – Recreation-Community Recreation Center and Programs				
	1171 – Administration-CW Special Events				

The City is currently assessing the Parks and Recreation Department's organizational structure, and as part of this evaluation, the need for an additional Recreation Manager has been identified as a priority. This proposal adds 1.0 Recreation Manager position to serve as a key leader within the department. The new position will provide leadership in the Parks Master Plan process, the City Arts Master Plan process, Measure I project management, and other special projects as they arise. Additionally, this position will help rebalance the workload across the department, particularly between the current Recreation Manager role and emerging responsibilities.

### Performance Impact

Currently, a single Recreation Manager oversees the Recreation Division, which includes 23 full-time staff and 197 as-needed staff across multiple facilities, such as the Community Recreation Center, Youth and Teen Center, Senior Center, Reed & Grant Sports Park, Youth Soccer Park, and five pool locations (including the International Swim Center). The manager is also responsible for overseeing numerous programs, projects, and related staff within each facility.

Adding a second Recreation Manager will help the department better balance the workload of the current Recreation Manager, optimizing the use of time and resources across the division. This addition will move the department toward a more balanced approach to service delivery and address the need for more efficient and effective administrative project management. This position will also address several new projects and initiatives within the department.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Cemetery Master Plan Study</b>	0.00	150,000	0	0	0

Program: 1164 – Cemetery-Operations

This proposal allocates \$150,000 for a Comprehensive Cemetery Master Plan Study to help the department assess operational needs, long-term strategies, and the cemetery's ongoing impact on the General Fund. Mission City Memorial Park is a 22-acre City-operated cemetery managed by the Parks & Recreation Department and is considered part of the City's park inventory. It is funded through a combination of the General Fund, revenue from sales and services, and perpetual and endowment care, with an increasing gap between cemetery-related revenues and costs, resulting in a larger General Fund subsidy.

The proposed Comprehensive Cemetery Master Plan Study will evaluate current operations, accessibility issues, ways to optimize land utilization, reduce staffing and maintenance costs, and identify innovative expansion strategies; all with a goals of either maintaining or reducing the General Fund subsidy to limit future impacts to the General Fund, as well as improving service levels.

### Performance Impact

The Cemetery Master Plan will assist the department in improving service levels, reducing the impact on the General Fund, and evaluating the long-term financial sustainability of the property. The plan has the potential to significantly influence service delivery, performance measures, public perception, and funding capabilities. Additionally, it will positively enhance the quality of services by promoting more efficient operations, increasing revenue generation, and offering conceptual plans to improve the value of a key community asset to which many Santa Clarans have a deep, familial connection.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Reclassification of 1.0 Sr. Center Coordinator to 1.0 Recreation Coordinator</b>	0.00	0	0	0	0

Program: 1144 – Recreation-Senior Center & Therapeutic Recreation Programs  
1171 – Administration-CW Special Events

This proposal replaces the Senior Center Coordinator position with a Recreation Coordinator position at the Senior Center. This change is budget-neutral and aims to provide better-qualified and more flexible support for Senior programs. Although both positions fall within the same pay range, the Senior Center Coordinator role has a narrower scope, limiting the pool of qualified candidates. In contrast, the Recreation Coordinator position offers a broader skill set, which will improve recruitment and enhance support for the Senior programs.

### Performance Impact

Replacing the Senior Center Coordinator position with the Recreation Coordinator at the Senior Center will create a more flexible, qualified, and diverse pool of candidates. This change better aligns with the duties of the position and will enhance the level of service provided, all while having no impact on the department's budget.

# Police Department

This page is intentionally left blank.

## Police Department Description

The Police Department provides law enforcement and related policing services to the City of Santa Clara. The Police Department is organized into four Divisions: Administrative Services; Field Operations; Investigations; and Special Operations.

The Administrative Services Division (Services) consists of the Chief's Office, the Property & Evidence Unit, the Professional Standards Unit (Recruiting/Hiring, Internal Affairs, and the Training Unit), the Communications Center and the Community Services Unit.

- The Chief's Office, headed by an elected Chief of Police, supervises the Police Department. Specific duties include managing local, State and federal grants, the Chief's Advisory Committee and the Department's community engagement efforts (e.g., webpage, social media outlets, print media, Citizens' Police Academy, Chat with the Chief, Coffee with a Cop, Leadership Santa Clara, National Night Out, Talk and Tour, Department Open House, etc.). This office also facilitates major projects (technology upgrades, major purchases, ordinance changes, etc.), the Department's budget, legislative advocacy positions, policy management, the community volunteer program, and responses to developer inquiries (e.g., calls for service data, staffing data).
- The Property & Evidence Unit receives and stores seized property and holds items until no longer required as evidence.
- The Professional Standards Unit manages recruiting, training, and internal affairs.
- The Communications Center receives, processes and directs emergency and non-emergency calls for the City.
- The Community Services Unit has many community supporting functions, including acting as the liaison to private and public schools, Adult Crossing Guards, 5th Grade Safety Patrol, instruction related to crime trends (e.g., Run, Hide & Fight trainings).

The Field Operations Division (Patrol) is comprised of first responders who answer the majority of calls for service. The Division is comprised of patrol teams, a motorcycle traffic unit, a traffic/hit-and-run investigator, the Community Response Team (CRT), the Special Response Team (SRT), the Crisis Negotiation Team and community service officers who manage parking control and abandoned vehicle abatement (AVA).

- The CRT addresses quality of life issues in the City (e.g., homelessness, RV parking, mental health issues, drug activity, conflicts with neighbors, blights, abuse of the 911 system, referrals to programs, services and housing). The CRT is the liaison to Santa Clara University. This team includes a permitting, inspecting and investigating section for food trucks, bingo, tow companies, and massage businesses, etc. The CRT includes Crisis Intervention Specialists to coordinate and support beneficial outcomes for vulnerable populations, including the City's unhoused residents and persons experiencing mental illness.
- The Reserve Police Officer program complements the work of the Department and is supported by this Division.

The Investigations Division (Detective Bureau) is responsible for conducting investigations of major crimes. Detectives are assigned according to the nature of the crime: homicide, assault, robbery, theft, burglary, sexual assault, financial crimes, arson and juvenile crimes. The Investigations Division tracks and pursues "cold cases." This Division houses the Department's Forensic Coordinator and Crime Analyst, Records Unit, and serves as the liaison to specialized task forces.

- The Records Unit is responsible for maintaining crime reports, producing statistical crime information to the Department of Justice and the Federal Bureau of Investigations, providing radio support to officers in the field, and preparing the release of information to the public. The Records Unit also performs customer service functions at the front desk at the Police Building and Northside Substation.

The Special Operations Division serves as the liaison between the City and outside entities for special event permits (e.g., walk/run, parades, festivals), and provides security support for dignitary visits and demonstrations. The Division develops operational orders for law enforcement, traffic and neighborhood protection needs associated with Levi's Stadium, Santa Clara Convention Center, California's Great America, and Santa Clara University. This Division also manages the Temporary Holding Facility at the Police Building and Levi's Stadium, the Jail Service Officers and the K-9 Unit.

## Divisions and Services

### Administrative Services Division Mission

The Administrative Services Division (Services) consists of the Chief's Office, Property & Evidence Unit, Professional Standards Unit (Recruiting/Hiring, Internal Affairs, and the Training Unit), Communications Center, and the Community Services Unit.

The Chief's Office manages local, State and federal grants, the Chief's Advisory Committee and the Department's community engagement efforts (webpage, social media, print media, Citizens' Police Academy, Chat with the Chief, Coffee with a Cop, Leadership Santa Clara, National Night Out, Talk and Tour, Department Open House, etc.). This office facilitates the Department's budget, legislative advocacy positions, policy management, community volunteer program, and responses to developer inquiries (environmental reports, crime and response metrics).

The Communications Center receives, and processes emergency and non-emergency calls and texts for the Police and Fire Departments, as well as non-business after hour response for other Departments throughout the City.

The Community Services Unit has many public facing functions: liaison to private and public schools, Adult Crossing Guards, 5th Grade Safety Patrol, instruction related to crime trends (e.g., Run, Hide & Fight trainings) and the Building Respect, Awareness and Values through Education (B.R.A.V.E) program.

### Division Objectives

Strategically plan replacement of and identify needs for new training and equipment and develop a plan to address those needs, factoring in the impacts of new legislative requirements.

Proactively upgrade communication technology. This budget cycle, the Communications Center will work with Synergem Technologies to ensure the Next Generation 911 (NG911) system functions efficiently with the Communications Center's current Viper phone system. Staff will also implement a new recording system for phone and radio communications, upgrade the Computer Aided Dispatch (CAD) system, and expand the Department's successful Text-to-911 program to enhance accessibility. These improvements will strengthen emergency response, support quality assurance for dispatchers, and ensure the Department is well-prepared for the increased demands of the 2026 NFL and FIFA events. With these upgrades, the City's communication infrastructure will be more reliable, secure, and better equipped to support first responders and incident commanders.

Communication  
Acquisitions  
Division Mission

Replace amortized electronic equipment within the City, replacing equipment past its useful life cycle.

Division Objectives

Strategically provide continued funding for communications equipment replacement, as necessary. All departments with radios contribute to the replacement fund annually; public safety radios are amortized over an eight-year cycle. The last major radio replacement was funded through General Fund, federal and State earmarks, grants and the use of the Communications Acquisition Fund. These are anticipated to complete deployment in spring/summer of 2025.

Cooperatively make adjustments to the Fire Department's radios to accommodate State Load channels prior to wildfire season.

Investigations Division  
Mission

The Investigations Division receives reports of crimes that have occurred in the community and conducts follow-up investigations utilizing witness statements, physical evidence, crime analysis, and deductive reasoning to identify perpetrators of crime. Detectives are assigned by type of crime, including homicide, assault, robbery, theft, burglary, sex crimes, financial crimes, arson, and juvenile crimes. The Investigations Division tracks and pursues "cold cases." Subpoenas for trial witness are processed and delivered from this Division.

The Records Unit is part of the Investigations Division. The Records Unit is responsible for maintaining crime reports, producing statistical crime information to the Department of Justice and the Federal Bureau of Investigations, providing radio support to officers in the field, and preparing responses to public record requests. The Records Unit provides customer service at the front desk at the Police Building and Northside Substation.

The Special Enforcement Team (SET) continues to operate as a proactive unit dedicated to the suppression of crime in our community.

Division Objectives

Proactively serve the City's residents by combatting crime and identifying those responsible.

Determinedly track and monitor registered sexual offenders and gang members.

Competently investigate and track criminals resulting in a high volume of prosecutable cases.

## Field Operations Division Mission

Protect and serve with honesty, fairness, professionalism, and integrity. Maintain a community atmosphere that provides citizens with a quality of life that enables them to enjoy the City to the fullest.

The Field Operations Division (Patrol) is comprised of “first responders” who provide immediate services to residents, visitors, and businesses within the City. The Division is comprised of patrol teams, a motorcycle traffic unit, a traffic/hit-and-run investigator as well as community service officers who manage parking control and abandoned vehicle abatement.

The Community Response Team (CRT) works to reduce crime and promote community wellness, often among vulnerable populations. In 2020, SCPD added two Crisis Intervention Specialist positions to the CRT. The Specialists coordinate and support beneficial outcomes for persons experiencing mental health issues. The CRT benefits the community by addressing long-term public safety issues, allowing patrol officers to focus on in-progress events, engaging with the community, and working proactively.

This Division is the home to specialized teams within the Department, including the Crisis Negotiation Team and the Special Response Team (SRT).

The Reserve Police Officer program complements the work of the Department in many ways and is supported by this Division.

Actively monitor traffic violation statistics and enforce laws at identified problem areas and intersections.

## Division Objectives

Tactically use data from the Investigations Division in the deployment of officers to locations on specific days and times to prevent crime. Increase public safety while providing a compassionate response to persons experiencing mental health issues.

Effectively address alcohol related crimes and disturbances, particularly in the Santa Clara University footprint.

Proactively patrol the City of Santa Clara to deter, disrupt and investigate crime, including the implementation of California Proposition 36 to reduce drug and theft related crime.

### Special Operations Division Mission

The Special Operations Division includes the Homeland Security and Special Events Units. It serves as the liaison between the City and outside agencies for special event permits (e.g., walk/run, parades, festivals), security support for dignitary visits and public demonstrations. It develops operational orders for law enforcement, traffic and neighborhood protection needs associated with Levi's Stadium, the Santa Clara Convention Center, California's Great America, and Santa Clara University.

This Division manages the temporary holding facility and Jail Service Officers at the police building and Levi's Stadium.

### Division Objectives

Efficiently utilize technology to provide real-time updates during events to provide situational awareness and improve public safety capabilities.

Purposefully maintain critical information sharing and partnerships with federal, State and local law enforcement agencies to ensure the safety and security of the community.

Professionally facilitate operations related to Super Bowl LX and FIFA World Cup events.

## Significant Accomplishments

- Developed a template for the AB 481 Annual Report and conducted associated public meetings for FY 2022 through FY 2024 for continued use of the City's equipment with a military distinction
- Received notification of crime reporting certifications (CIBRS/NIBRS) as of September 1, 2021
- Secured grant funding and entered into a MOU with the County of Santa Clara for in-kind services for the Psychiatric Emergency Response Team (PERT) Program
- Finalized License Agreement with Silicon Valley Regional Interoperability Authority (SVRIA) for Use of Space at SCPD through 2027
- Obtained State Homeland Security Grant Program funding for mobile barricades for use as a vehicle barrier at City-wide special events and finalized MOU
- Acquired 17 additional automated license plate reader cameras and implemented alerting system with the Communications Center
- Extended the lease for the Northside Police Substation through 2028
- Added the Town of Los Gatos to the Silicon Valley Animal Control Authority Agreement
- Finalized the Hexagon Master Agreement for CAD, along with the 9.4 Upgrade
- Secured funding (State, \$1,750,000, and federal, \$963,000) to support the Radio Communications Upgrade Project
- Secured Citizens' Option for Public Safety (COPS) grant funding, in addition to capital funding, for Mobile Data Computers, 5G Cradlepoint and Antennas
- Hired a third-party consultant to develop the B.R.A.V.E. curriculum, in partnership with Santa Clara Unified School District, and implemented the Pilot Program over the 2024/25 school year
- Secured funding for the return of Parks Patrol / Team 200 in summer 2024
- Submitted reimbursements for eligible costs (Senate Bill 90 State Claim, Equitable Share, Asset Forfeiture, etc.)
- Recommended adjustments to the City Code for a Pilot Program in connection with Senate Bill 946 Sidewalk Vendors Soliciting

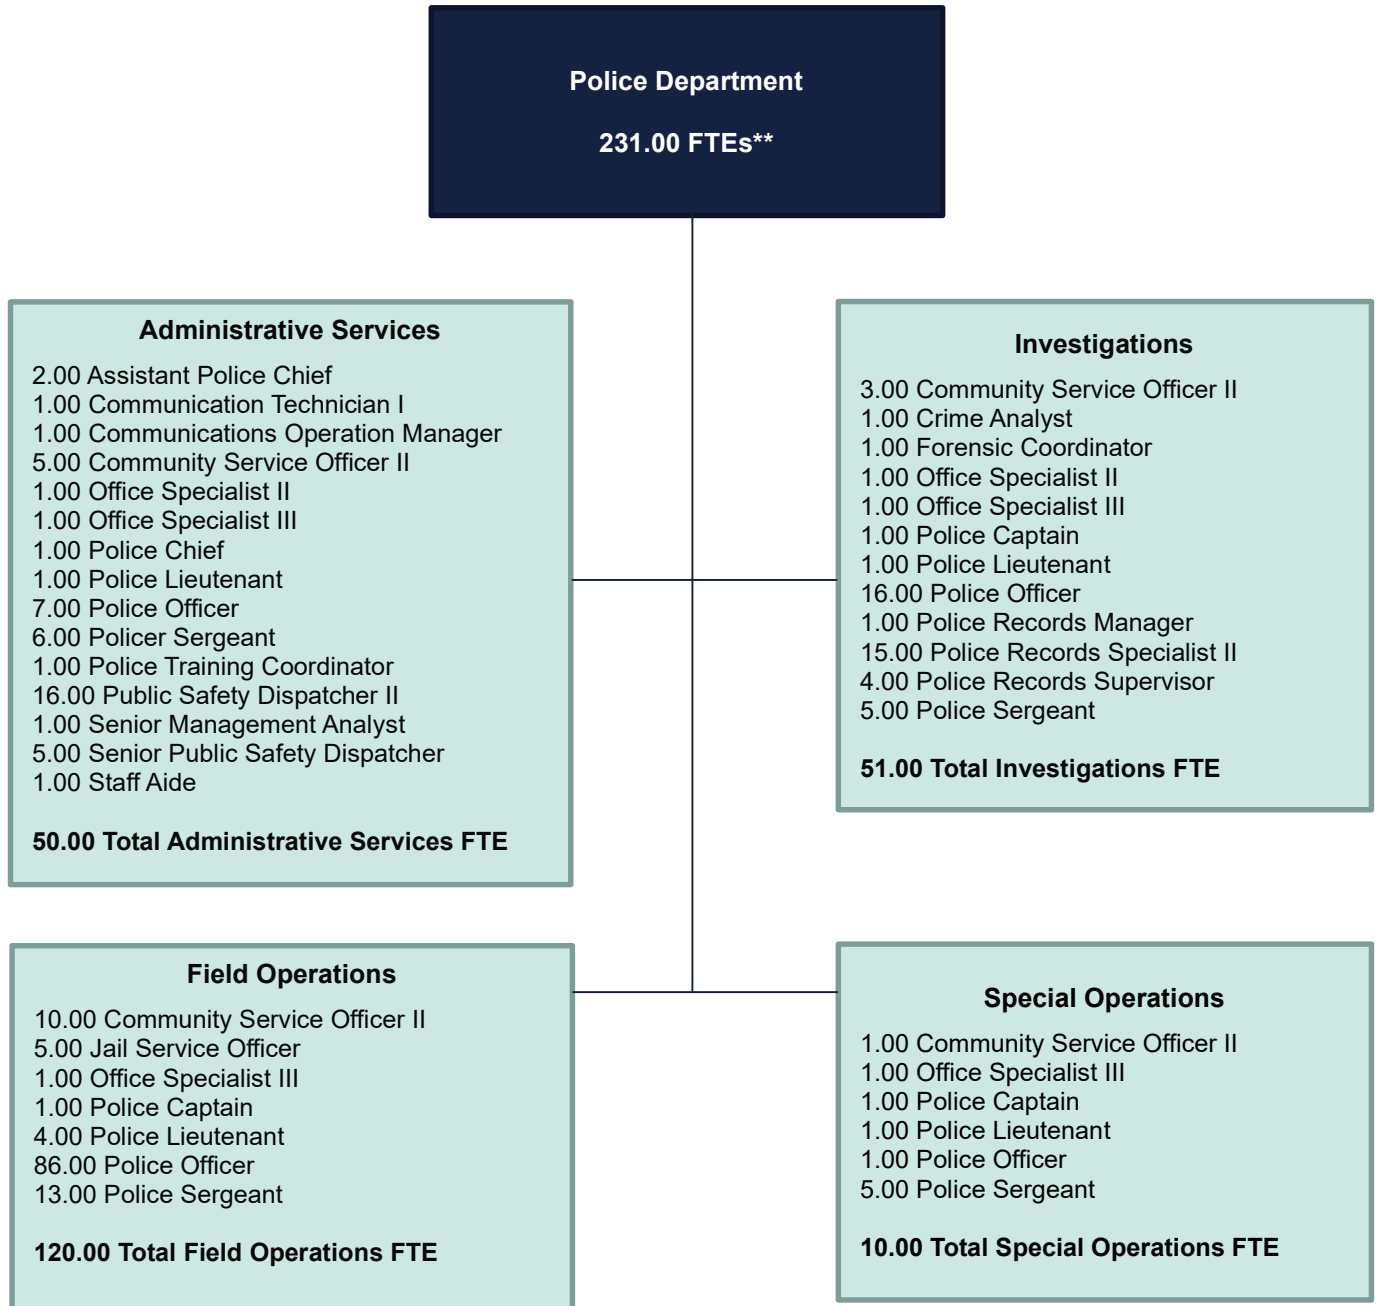

## Significant Objectives

- Upgrade the recording system within the 9-1-1 phone system
- Conduct a ceremony for the naming of the Police Motor Garage in honor of Pete Malae, who retired after a distinguished career with the Police Department
- Restore programs, services and facilities to pre-pandemic levels, including but not limited to:
  - Parks patrol
  - School Resource Officer(s)
  - Traffic/motorcycle Unit
  - Northside Police Substation
  - Community Engagement Programs
- Continue to utilize the 15-member Chief's Advisory Committee to advise the Police Chief on issues, matters and public policies which influence or impact the ongoing relationship between the Police Department and the community
- Develop a comprehensive, multi-phase strategy to recruit highly qualified, motivated applicants and facilitate the hiring of full-time and part-time employees in sworn and civilian professional capacities

- Develop a policy, fees and corresponding checklist to accept Conceal Carry Weapon permits
- Complete the upgrade of the 9-1-1 phone system to include updated version of Next Generation 911 compatibility
- Conduct the Hexagon Computer Aided Dispatch 9.4 version upgrade
- Improve the Public Safety Dispatcher applicant process by replacing Dispatch POST Testing with the CritiCall testing software
- Evaluate the upgrade of equipment in the Communications Center that provides fire station alerting
- Seek City Council guidance on the Bingo Ordinance in connection with State law
- Amend the Police Department's Retention Schedule
- Transition identified fleet vehicles to zero emission electric vehicles
- Work with law enforcement partners to address local (e.g., abandoned vehicles, recreational vehicle (RV) parking, neighborhood parking) and regional issues (e.g., property crimes, homelessness, traffic, mental illness, street racing)
- Develop a community engagement program utilizing the state-of-the-art use of force simulator to provide a realistic, yet safe environment for education with induced stimuli
- Staff the Gun Violence Prevention Task Force
- Expand the Crisis Intervention Specialist program from two to four police officers to provide better coverage for 24/7, 365 operations
- Develop a Real Time Intelligence Center (RTIC)
- Secure grant funds to purchase front-line law enforcement equipment, conduct specialized operations, and offer officer training
- Implement new ways to staff all special events with highly trained and committed public safety personnel to ensure the safety of all attendees, control traffic and pedestrian movement, and reduce the impact on surrounding residents and businesses
- Proactively serve the City's residents by combatting crime and identifying those responsible

## Budget Highlights

- The Proposed Budget reflects the following:
  - Restoration of 1.0 Police Sergeant and 2.0 Police Officers in FY 2026/27, offset by an increase to the Department's vacancy factor

\*The positions above represent all funded positions in FY 2025/26. The chart above excludes the 1.0 Police Sergeant and 2.0 Police Officer positions recommended to be restored in FY 2026/27. The remaining frozen positions in the Police Department include 1.0 Police Sergeant and 2.0 Police Officers.

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Restoration of 1.0 Police Sergeant and 2.0 Police Officers; Offset by Vacancy Factor Increase</b>	3.00	0	0	0	0

Program: 7722 – General Patrol  
7732 – General Investigation

This action unfreezes 1.0 Police Sergeant and 2.0 Police Officer positions that were frozen as part of the FY 2021/22 and FY 2022/23 Adopted Biennial Operating Budget. These positions are recommended to be unfrozen effective FY 2026/27. In order to provide funding capacity for these positions, an increase to the Police Department's budgeted vacancy factor is recommended (from 3% to 5.5%). Over the last decade, the Police Department has experienced an average vacancy rate of well over 7%, and the current vacancy rate is 12%. The higher vacancy rate would apply to FY 2026/27 through FY 2028/29, and would revert to the 3% level on an ongoing basis as the City works to reduce the vacancy rate. While the Department has made efforts in recruitment, the vacancy rate has remained high.

### Performance Impact

The unfreezing of these positions will provide the Department more capacity in the Field Operations and Special Operations Divisions, with particular focus on traffic, regional task forces, and the Aerial Response Team.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Performance and Workload Measures

<b>Administrative Services Division</b>							
<b>Performance Measures</b>							
	<b>Strategic Pillar</b>	<b>2022/23 Actual</b>	<b>2023/24 Actual</b>	<b>2024/25 Target</b>	<b>2024/25 Estimate</b>	<b>2025/26 Target</b>	<b>2026/27 Target</b>
Percent of emergency calls answered within ten seconds		97.8%	97.56%	90%	95%	90%	90%

# Department of Public Works

This page is intentionally left blank.

## Department of Public Works Description

The Department of Public Works (DPW) constructs, maintains and improves various components of the City's infrastructure and provides quality, cost-effective, timely services to the residents and businesses of Santa Clara. DPW is responsible for a wide variety of programs throughout the City which include engineering, design, construction management, stormwater pollution prevention, inspection and maintenance of City streets, bridges, traffic signal systems, building facilities, street trees, landscaping, sidewalks, and the closed landfill. These responsibilities include the engineering aspects of the sanitary sewer system, which is maintained by the Water and Sewer Utilities Department, and maintenance of storm drain pipelines and trash racks for pump stations which are maintained and operated by the Water and Sewer Utilities Department. The Department manages the design and construction of public infrastructure construction projects, maintenance of records that delineate lot lines and easements, issuance of encroachment permits, coordination with outside agencies (Valley Water, FEMA, Caltrans, Valley Transportation Authority (VTA), County of Santa Clara and adjacent cities) and administration of bicycle, pedestrian, and vehicular safety programs. The Department also oversees the coordination and management support for the Convention Center Maintenance District, which consists of Hyatt Regency, Techmart, and the City, and maintains the grounds of the Franklin Square complex under the Downtown Parking Maintenance District. DPW manages solid waste contracts which provide services such as garbage, yard waste, recycling, street sweeping, household hazardous waste and the annual Clean-Up Campaign. Another significant component of DPW includes overseeing the procurement and maintenance of the City's fleet of vehicles and equipment. The Fleet Management program manages the lifecycle, replacement, procurement, upfit, and disposal of all vehicles and equipment within the City. This program also supports the City's diverse fleet operations, ensuring safe, cost-effective, and sustainable maintenance, repair, fueling, replacement, and compliance of City-owned vehicles and equipment.

## Divisions and Services

The Department focus areas include Engineering Services and Operations and Maintenance. Engineering is comprised of five divisions: Administration, Traffic, Design, Land and Property Development, and Field Services. Operations and Maintenance is comprised of three divisions: Streets, Facility Services, and Fleet Management. The Streets Division is further subdivided to operate in the following areas: Administration, Traffic Maintenance, Street Maintenance (streets and storm drains), Environmental Programs, Solid Waste, Landscape, and Code Enforcement. The Facility Services Division manages the Convention Center Maintenance District, the Street Division manages the Downtown Parking Maintenance District, and the Fleet Management Division manages the Vehicle Replacement and Fleet Operations Funds.

<b>Engineering - Administration Division Mission</b>	Provide administrative support services which meet the needs of the division, departments, and community.
<b>Division Objectives</b>	<p>Manage and oversee all Department activities, represent the Department at the City Council meetings, and represent the City at various agency meetings.</p> <p>Develop and manage an efficient, cost-effective department operating budget and capital improvement program (CIP) budget.</p> <p>Provide management and assistance in the development and delivery of the City's CIP.</p>

**Engineering – Traffic  
Division Mission**

Provide safe and efficient movement of pedestrian, bicycle, transit, and vehicular traffic.

Enhance safety and mobility for pedestrians and bicyclists through implementation of new or improved facilities such as bike lanes, pedestrian beacons, and intersection improvements consistent with the City's Bicycle Plan and Pedestrian Master Plan.

Enhance safety, increase operational efficiency, and reduce delays for all users of the City roadway system through implementation of improvements, innovative technologies, and engineering designs.

**Division Objectives**

Maintain, operate, and upgrade traffic infrastructure in an efficient and timely manner.

Apply for and administer transportation grants to augment the City's finances for improving traffic, pedestrian, and bicycle-related infrastructure.

Review proposed private development projects for consistency with City transportation policies and the California Environmental Quality Act (CEQA).

Review, investigate, and respond to resident and business inquiries/complaints regarding City traffic and roadway parking operations.

**Engineering – Design  
Division Mission**

Provide high quality services to the community through efficient and effective delivery of capital improvement projects and management of the City's infrastructure.

Manage infrastructure and the capital improvement project programming for pavement management, storm drain facilities, and capacity improvements for the sanitary sewer system.

Provide capital project administration, engineering, and management services for a variety of projects including transportation, roadways, pedestrian and bicycle, storm drains, sanitary sewers, buildings, libraries, and parks to implement the City's capital improvement program.

**Division Objectives**

Coordinate the Community Rating System (CRS) program with Federal Emergency Management Agency (FEMA) to maintain the City's Class 7 rating. This provides a reduction in flood insurance premiums for the property owners with flood insurance in the City of Santa Clara.

Maintain engineering design standard documents and maintain infrastructure record information such as as-builts and base maps.

**Engineering – Land  
and Property  
Development  
Division Mission**

Assist customers and the community by providing effective and efficient services during project development and public improvement design phases.

Facilitate the issuance of timely reviews and permits for residents, developers, and utilities in compliance with land use and development standards.

**Division Objectives**

Provide developers, residents and permittees with information related to fees, general engineering, City utilities, property lines and design standards.

Develop new procedures to streamline processes and use new technology to facilitate current procedures.

**Engineering – Field  
Services  
Division Mission**

Serve all City departments and the community through effective and efficient construction management, construction inspection, materials testing, surveying, and administration services of public improvement projects.

**Division Objectives**

Provide effective construction management, construction inspection, materials testing, surveying, and administration services for capital improvement projects, such as transportation, roadways, pedestrian and bicycle, sanitary sewers, storm drains, buildings, libraries, and parks.

Deliver effective construction inspection, material testing, surveying and administration services for private developments that involve the City's infrastructure.

**Facility Services  
Division Mission**

Perform cost effective repair and maintenance procedures to ensure City-owned buildings remain safe, attractive, and energy efficient. Provide a safe, clean, and well-maintained public space in support of the Santa Clara Convention Center Maintenance District ensuring a safe environment while enhancing the property value.

**Division Objectives**

Maintain approximately 1,100,000 square feet of City-owned buildings in a safe, functional, and clean condition for all users. Oversee vendor contract to provide janitorial services to most City buildings and numerous service contracts to support the Facilities repairs and maintenance operations.

Provide oversight of the Convention Center Maintenance District for the upkeep of equipment, signs, landscaping, pavement, concrete curb, gutter and sidewalks, service roads, pedestrian bridges, including the garage at the Santa Clara Convention Center complex and the Tasman Parking Garage.

**Streets  
Division Mission**

Maintain streets, sidewalks, signs, markings, storm drain pipeline infrastructure, trees, and other landscape in the public right-of-way. Implement reliable, cost-effective solid waste programs that maximize landfill diversion.

**Division Objectives**

Repair street potholes and sidewalk tripping hazards.

Clean and maintain the storm drain collection system and implement the City's Urban Run-off Pollution Prevention Program.

Maintain landscapes in the public right-of-way and remove graffiti.

Prune City trees and plant new trees to replenish the City forest.

Maintain traffic signs, striping, curb markings, and pavement messages.

Repair damaged City-owned parking lots and walkways.

Provide regular street sweeping services.

Implement solid waste collection and disposal diversion programs to achieve cost recovery and maintain compliance with regulations.

Implement the City's urban runoff pollution prevention program to comply with State regulations.

Complete the annual Clean-Up Campaign swiftly and safely.

**Fleet Management  
Division Mission**

Provide and maintain safe and reliable vehicles and equipment essential for the delivery of City services. Optimize fleet services through timely and cost-effective procurement, compliance, maintenance, fueling, and disposal services.

Implement the City's Green Fleet Policy.

Monitor the City's fleet usage and remove under-utilized vehicles and unfunded retained assets from the fleet.

Perform manufacturer's recommended preventative maintenance on fleet assets to increase reliability and reduce costs associated with repairs.

**Division Objectives**

Procure equipment and vehicles identified for replacement.

Collaborate with departments on replacement equipment and vehicles before each purchase.

Evaluate alternative fuel options before purchasing new vehicles or equipment.

Ensure purchases of vehicles and equipment meet the highest air quality standards set by California Air Resources Board.

## Significant Accomplishments

### Department Awards:

- Received a Project of the Year Award from the American Public Works Association (APWA) for the Laurelwood Pump Station Project.
- Received the 2024 APWA Honor Awards for Uncontrolled Sidewalks.
- Received the 2024 APWA Honor Awards for Montague Park Rehabilitation.
- Received the bronze rating (2024-2028) as a bicycle-friendly community from the League of American Bicyclists.
- Maintained Tree City USA certification for the 38th consecutive year and received the Growth Award for the 25th time.

### Administration:

- Managed Council priorities and reprioritized department workload to accomplish tasks while maintaining significantly lower staffing levels from previous budget reductions to help resolve the City's budget deficit.
- Prepared numerous Council reports and presentations to support Council decision making and City priorities.
- Managed department budgets, staffing, work plans and performance measures to ensure work was being completed within approved budgets.
- Provided customer service support to residents to ensure all inquiries, work requests, and information requests were being addressed.
- Completed the FY 2023/24 & FY 2024/25 Biennial Operating Budget and the FY 2024/25 & FY 2025/26 Biennial Capital Improvement Program Budget.
- Completed updates to the Municipal Fee Schedule for FY 2024/25.
- Created and monitored an ADA Coordinator inbox to track and ensure completion of ADA-related requests.
- Helped facilitate replacement of all department multi-function devices in coordination with the Information Technology (IT) Department.
- Optimized the VTA BART Extension Project monthly reimbursement process to improve the user experience and make it easier to submit hours for reimbursement that fall under the Cooperative Agreement.
- Helped facilitate the transition to the City's new DocuSign agreement routing process through a new internal written procedure and the provision of training to staff.
- Planned two employee appreciation events to help increase employee engagement, morale, and recognition within the Department.

### Design:

- Completed design work for the following capital improvement program projects/studies: ADA Self Evaluation and Transition Plan Update; 2024 Annual Street Maintenance and Rehabilitation; 2025 Annual Street Maintenance and Rehabilitation; Annual Curb Ramp Installation 2024 (CDBG); Annual Curb Ramp Installation 2025 (TDA Grant); Bassett Lane Bicycle Lane Improvements (Grant); Great America Parkway (GAP) & Tasman Traffic Signal interconnect; GAP/Mission College Blvd. (MCB) Intersection Improvements; Lick Mill Pedestrian Beacon Upgrade and Monroe St-Los Padres Blvd. Traffic Signal Modification; Citywide ITS Phase 2; Pruneridge Avenue Signal Timing Project; Miscellaneous Asphalt and Concrete Rehabilitation Project; Storm Drain Slide Gate Rehabilitation; CRS 5-Year Review with FEMA, Sanitary Sewer study for Inflow & Infiltration Reduction; Citywide Stationary Standby Emergency Generators Replacement - Phase 2; Westwood Oak Playground Improvement Project; Central Park New Entrance, Access, and Parking Improvements; Henry Schmidt Playground Rehabilitation; and Utility Corp Yard Field Service Center Building Renovation.

- Managed the City's Pavement Management Program – annual update, reporting, and utility coordination.
- Managed the City's ADA Transition Plan Program, Storm Drain Program and Master Plan, and Sanitary Sewer Master Plan.
- Implemented pavement moratorium requirements, prepared five-year pavement program with list of streets, coordinated the five-year program with all utilities in the City, and made the information available on City's website.
- Managed, maintained, and provided sanitary sewer hydraulic modeling support services for approximately 10 land development projects.
- Provided support for the City's Infrastructure Bond Measure program.
- FEMA's CRS program: coordinated with relevant City departments during the annual and five-year recertification process and provided Elevation Certificate & Letter of Map Amendment (LOMA) assistance to permit center and planning staff on an ongoing/as needed basis.
- Effectively implemented and coordinated use of BidNet for Request for Proposals and Bids, as well as online bid submittal.
- Provided core team support through active participation for the continued implementation of the City's CIP Management Database, e-Builder.

#### Field Services:

- Completed coordination, inspection, and completion of development at 2323 Calle del Mundo, 3505 Kifer Road (Summerhill at Lawrence Station), 1850 El Camino Real, 3941 Stevens Creek Blvd. (Meridian), Vantage Data Centers (I), and 2330 Monroe Street.
- Completed construction of the following capital improvement projects: Uncontrolled Crosswalks Improvements Project; Sanitary Sewer Condition Assessment Repairs Project-Package 1; 2022 Joint CSC CSJ Paving Project (Stevens Creek- Winchester); Santa Clara Access School Improvement Project; Public Right-of-Way ADA Improvements Packages 3; Bassett Lane Bicycle Lane Improvements; 2023 Annual Street Maintenance and Rehabilitation Project; 2023 ADA Upgrade project; Montague Park Rehabilitation; Laurelwood Pump Station Rehabilitation Project; Fairway Glen Park Restroom Construction project; Westwood Oak Playground Improvement Project; Magical Bridge Park Project; and Citywide Generator Project Phase 1.
- Provided effective construction management, construction inspection, surveying, materials testing, and administration services for approximately 44 capital improvement projects and approximately 857 encroachment permits.

#### Land and Property Development:

- Issued approximately 1,030 encroachment permits over the last two fiscal years. Major encroachment permits for some notable development projects include: 2200 Calle De Luna (Holland - Tasman East Specific Area Plan); 2263 Calle Del Mundo (Ensemble - Tasman East Specific Area Plan); 2232 Calle Del Mundo & 2225 Calle De Luna (Greystar - Tasman East Specific Area Plan); 3517 Ryder St (Westlake Urban); 2655 The Alameda (Swenson); 80 Saratoga Av (TPC Housing); California High Speed Rail (SF-SJ) Environmental Impact Report/Environmental Impact Statement; Caltrans US 101 / De La Cruz Street Improvement; 2600 Walsh (Data Center); 1957 Pruneridge Avenue (SCS Development); 3155 El Camino Real (Toll Brothers); 5201 Patrick Henry Drive (DPR Construction); and San Tomas Expressway (El Camino Real to 101 Fwy County Pavement Rehabilitation).
- Processed approximately 633 development site clearances for building permits and collected fees.
- Processed 10 subdivision maps and approximately 130 land title documents which includes processing, reviewing, approving, and recording the title documents.
- Continued to lead and support private development throughout the City including large developments, such as Related Santa Clara, Tasman East, Patrick Henry Drive, Freedom Circle, and Lawrence Station.
- Continued to lead coordination and support for VTA Bart Extension Phase II, including West Portal and Santa Clara Station.

- Continued to lead City utility coordination for the Capitol Corridor Joint Powers (CCJPA) Agnew Siding Project.
- Provided dedicated support for the high-priority Related Santa Clara project by:
  1. Providing engineering technical support for the City's review of the Master Community Plan (MCP) amendment and Scheme C.
  2. Participating in weekly project coordination meetings with the internal City team.
  3. Providing project management and technical engineering support to the City Manager's Priority Project Manager for the project.

#### Traffic:

- Completed five (5) bikeway studies that were identified as priority corridors in the Bicycle Master Plan:
  1. De la Cruz Boulevard/Coleman Avenue Bikeway Planning Study
  2. Walsh/Martin Avenue Bikeway Planning Study
  3. Benton Street Bikeway Study
  4. Monroe Street Class II Buffered Bikeway Study
  5. De la Cruz Boulevard, Lick Mill Boulevard, and Scott Boulevard Bikeway Study
- Started development of a Vision Zero Plan, supported by partial funding from Federal Safe Streets for All Grant in the amount of \$450,000. The Vision Zero Plan aims to eliminate traffic deaths and severe injuries on city streets. This plan will prioritize social equity and will explore various countermeasures and strategies to enhance safety using a Safe System Approach.
- Obtained \$400,000 in Metropolitan Transportation Commission (MTC) Transit Oriented Communities Planning and Implementation Grant funding to conduct a feasibility study for a vehicular, bus, and enhanced bike/pedestrian crossing at Benton Street and Brokaw Road connecting the future Santa Clara BART station and the Caltrain station/downtown area.
- Obtained \$1.725 million in MTC One Bay Area Grant Cycle 2 – Housing Incentive Program Grant funding towards construction of Uncontrolled Crosswalk Phase 2 improvements.
- Provided the second year of a four-year pilot program for an on-demand transit service, SV Hopper. SV Hopper is a rideshare service accessed through a dedicated app that offers economical and convenient transportation throughout Cupertino, the southern half of Santa Clara, and to specific destinations beyond the city limits.
- Upgraded one (1) mile of Class IIB (buffered) bike lanes to Class IV (protected) bike lanes on Mission College Boulevard.
- Received, investigated, and responded to 365 traffic requests from the public during FY 2024/25.
- Supported traffic operations for 18 events at Levi's Stadium in FY 2024/25.

#### Facility Services:

- Worked with Santa Clara County on obtaining a historical grant for the Harris Lass property improvements project.
- Processed approximately 1,800 facility work orders for internal City customers and facilities with 95% satisfaction rate.
- Completed LED energy retrofit in over 40 city facilities including City Hall, Police station, Libraries, Senior Center, Fire Stations, Corporation Yards, etc.
- Created fifteen (15) mini projects in various stages of completion including numerous office remodels, television installs, EV charger installations, electrical upgrades, kitchenette installation in Planning Division, etc.
- Provided core team support through active participation in the continued implementation of the City's safety monthly training program, Target Solutions, which also included topics on annual specific training and stress related

trainings.

- Provided oversight and management at Maintenance District #183 Santa Clara Convention Center Complex. Goals include water management and turf conversion in addition to working with Silicon Valley Power on eventual EV Charger Installation throughout the site.
- Supported garage operations at Tasman Garage to support Convention Center and Levi's Stadium events.
- Supported 35 critical City facilities with emergency generator preventative maintenance and monthly operational inspections.
- Maintained preventative maintenance compliance with manufacturers' recommended intervals.

#### Streets:

- Refined the inventory and identification of all tagged street trees north of Highway 101.
- Organized the 2024 Earth/Arbor Day Celebration.
- Enhanced the development of enterprise asset management applications for City Street Trees, Parkways & Boulevards Trees, Sidewalk, Curb & Gutters, Storm Drain, and Traffic Programs.
- Executed a new long-term yard trimmings composting agreement.
- Executed a new disposal agreement that includes processing debris collected during the Cleanup Campaign to recover recyclable materials.
- Partnered with the Countywide Household Hazardous Waste Program to accept medicine for the first time at an event located in the City.
- Met the 100% trashload reduction requirement set forth in the Municipal Regional Stormwater Permit.
- Completed the 2025 solid waste rate study that equitably calculated each rate based on the cost of service.
- Identified two locations for green stormwater infrastructure installation and secured funding for design.

#### Fleet Operations:

- Used renewable diesel exclusively in the City's diesel fleet since FY 2021/22.
- Obtained "Blue Seal of Excellence" recognition from National Institute of Automotive Service Excellence (ASE) in 2021, 2022, 2023, and 2024.
- Placed more than 90 new Electric or Hybrid vehicles in service since FY 2021/22.
- Retired and sold at auction 49 fleet assets yielding approximately \$270,000 in revenue in 2024.
- Maintained approximately 760 fleet assets with an 81% Preventive Maintenance (PM) Compliance rate.
- Complied with two new California Air Resources Board (CARB) fleet regulations for medium/heavy duty vehicles introduced in 2024 – Clean Truck Check smog and Advanced Clean Fleets electrification programs.

## Significant Objectives

#### Design:

- Provide infrastructure management services for the storm drain system and pavement maintenance program, and engineering planning for the sanitary sewer system.
- Provide effective capital improvement project management for a wide variety of projects city-wide including: Enterprise Asset Management; Public Right-of-Way Standard Specs and Detail Update; Sanitary Sewer Capacity Improvement Project 1; Walsh Ave Siphon Relocation Study; Citywide Emergency Generator Replacement Phase 3; City Facilities Paid Parking Project; Central SC Improvement (Bike & Ped) (OBAG Cycle 3); FEMA Flood

Insurance Program Management/Coordination; Manage and Maintain Sanitary Sewer Hydraulic Model; Henry Schmidt Playground Rehabilitation; Hope Dr Stormwater Green Infrastructure; Lafayette & Tasman Pedestrian Improvements Study; Maywood Park Playground Rehabilitation (Grant); Sanitary Sewer Master Plant Update; Emergency Operations Security Upgrades; Sanitary Sewer Conveyance Capacity Improvement Project 3; Creek Trail Pavement Maintenance and Rehabilitation Phase 1; Central Park New Entrance Access and Parking Improvements; Bowers Park Parking Lot Rehabilitation Project; Warburton Park Playground Rehabilitation; Mary Gomez Pool Building Roof Replacement; Fleet Electric Vehicle Charging Master Plan; Electric Vehicle (EV) Infrastructure - Phase 3; Pruneridge Avenue Signal Timing Project; Bowers Park Building Replacement; Anna Drive Neighborhood Flood Protection (Grant); Parks Service Center Roof Replacement; ADA Transition Plan Program Management; Sanitary sewer Conveyance Capacity Improvement Project 2; Earl Carmichael Playground Rehabilitation; Annual Playground Rehab/Replacement Project 1; Annual Playground Rehab/Replacement Project 2; Benton Bike Lanes; El Camino Real Bike Lane Phase 1; Tasman Complete Street Phase 1; Uncontrolled Crosswalk Improvements Project Phase 3; ADA Transition Plan Implementation; Bridge Preventative Maintenance Project (Caltrans Grant); Pavement Management Program Annual Update & Agency Reporting; Annual Street Pavement Maintenance and Rehabilitation Project; Agnew Rd Section 130 Grade Crossing Improvements (Grant); De La Cruz, Lick Mill & Scott Bike Lane Improvement; Lafayette Class IV Bike Lane (Laurelwood to Reed) (Grant); Uncontrolled Crosswalk Improvements Project Phase 2; and Sanitary Sewer Condition Assessment Repairs Project - Package 2.

- Provide Sanitary Sewer Hydraulic Modeling Support for Land Development Projects.
- Provide design engineering and project management services for projects listed within the Infrastructure Bond program expenditure list.

#### Field Services:

- Provide effective construction management, construction inspection, surveying, materials testing, and administration services for capital improvement projects and private development projects that construct City infrastructure.
- Provide on-time and on-schedule completion of projects for transportation, roadways, parks, buildings, traffic signals, pedestrian-and bicycle improvements, sanitary sewer and storm drain rehabilitation, and other capital projects.
- Provide construction inspection and coordination for private development-built City infrastructure, such as: 2240 Calle de Luna (JMI); 80 Saratoga Avenue; 1125 Coleman (Gateway Crossing); 641 Walsh Avenue; 2201 Laurelwood Road; Santa Clara BART Station; 5403 Stevens Creek (Office Tower); 3155 El Camino Real; 2312 Calle del Mundo (USA Builders); 2225 Calle de Luna (Greystar); 1957 Pruneridge Avenue; Westfield Valley Fair Expansion; and 5201 Patrick Henry Drive.
- Provide field services (inspection and construction management) for projects listed within the Infrastructure Bond program expenditure list.

#### Land and Property Development:

- Facilitate significant private development projects by providing effective and efficient processing of site clearances, subdivision maps, land title documents, public improvement plan checks, and development fee collection. Some significant projects include Lawrence Station Area Plan at Kifer Road, Lawrence Expressway and Central Expressway; Tasman East Specific Area Plan at Lafayette Street, Calle del Mundo, Calle de Luna, and Calle del Sol; Related Santa Clara (formerly City Place) at Tasman Drive, Lafayette Street and Great America Parkway (on City's closed golf course); Patrick Henry Specific Plan at Patrick Henry Drive, Great America Parkway and Mission College Boulevard; Freedom Circle Focus Area Plan at Freedom Circle, Mission College Boulevard, and Agnew Road.
- Upcoming or in process notable development projects include: 2200 Calle Del Luna (Holland - Tasman East Specific Area Plan); 2232 Calle Del Mundo & 2225 Calle De Luna (Greystar – Tasman East Specific Area Plan); 2263/2273 Calle Del Mundo (Ensemble - Tasman East Specific Area Plan); 3517 Ryder Street (Westlake Urban – Lawrence

Station Area Plan); 3710 El Camino Real (Gateway Village Phase 2); 2805 Mission College Boulevard (Data Center); 2610 El Camino Real (Moonlite Development Center); 451 El Camino Real (University Station); 2400 Condensa Street (NVIDIA Phase 3); 3065 Bowers Avenue (Intel); 2518 Mission College Boulevard (Irvine Company-Freedom Circle); 3295 Freedom Circle (Greystar-Freedom Circle); 1400 Coleman Avenue (Coleman Village); 1530-1540 Pomeroy Avenue; 2303 Gianera Street (VCI Companies); 4220 Network Circle (Valley Oak Partners); 4249 Cheeney Street (Marauti Builders); 3005 Democracy Way (Kylli-Mission Point); VTA-Bart Phase II; Developments within the Lawrence Station Area Plan; Developments within the Tasman East Specific Area Plan; Developments within the Patrick Henry Drive Specific Area Plan; Developments within the Freedom Circle Focus Area Plan; and Related Santa Clara (City Place – Related Project).

#### Traffic:

- Complete the following Traffic Engineering Projects: Creek Trail Expansion Master Plan; Traffic Signal Management Software Upgrade/Replacement and Adaptive Signal System; Traffic Pre-emptors; 15 miles per hour School Zones; and Travel Demand Model Update.
- Apply for grant opportunities to fund the design and construction of Walsh Avenue, Monroe Street, and De La Cruz Boulevard Bike Improvement Project.
- Work collaboratively and make progress on the joint jurisdictional Stevens Creek Visioning Study with the City of San José, City of Cupertino, County of Santa Clara, and Valley Transportation Authority.
- Complete the Uncontrolled Crosswalks Project, Santa Clara Caltrain/BART Station Multimodal Crossing Feasibility Study, and Central Santa Clara Bike and Pedestrian Improvement Project.
- Continue to operate an annual Shared Mobility Permit Program for the City.
- Continue to operate an on-demand shuttle program with the City of Cupertino.
- Complete the Vision Zero Study.
- Continue to implement recommendations in the approved Bicycle Plan Update and Pedestrian Master Plan.
- Continue to support the Community Development Department with traffic engineering and traffic impact analysis support (i.e., Level of Service and Vehicle Miles Travelled Analysis) for proposed development projects and specific and precise plans.
- Continue to make progress responding to traffic calming and traffic safety related public inquiries.

#### Facility Services:

- Provide outstanding service to customers, which includes all types of requests such as janitorial repair needs and new infrastructure requirements with the objective to respond to every customer in a timely manner on projects and repairs.
- Provide upkeep and repairs to the Tasman Parking Garage.
- Continue with regular maintenance and improvements to the Convention Center Maintenance District grounds, surfaces, and garage structure and begin planning and designing for parking lot repairs and maintenance. Provide building and mechanical maintenance services for all City buildings.
- Operate and maintain the City's elevators.
- Assist the City Manager's Office with maintenance at properties such as Morse Mansion, Gianera House, and Commerce & Peddlers Plaza.
- Maintain preventative maintenance compliance with manufacturers' recommended intervals on Facilities equipment, which includes replacement of air filters on a scheduled basis.

#### Streets:

- Update the Santa Clara City Code chapter pertaining Storm Drains.
- Maintain recently developed asset management systems for traffic signs and storm drain infrastructure.

- Implement the agreement to purchase electricity derived from organic material to comply with SB 1383 procurement requirements.
- Ensure reliable garbage, yard trimmings, and residential recycling services.
- Enter into new agreements for landfill disposal and composting services.
- Continue to implement organic waste reduction programs to reduce methane emissions from landfills and comply with state legislation.

#### Fleet Operations:

- Maintain preventative maintenance compliance with manufacturers' recommended intervals.
- Continue work with City departments engaged in fleet electrification activity by supporting electric vehicle (EV) acquisitions, expanding EV charging infrastructure, and seeking related funding opportunities.
- Continue to monitor and report evolving regulatory requirements for medium and heavy-duty fleets required by CARB that impacts City compliance, services, and budgets.
- Assist in current CIP for fleet electrification charging plan for compliance with CARB's Advanced Clean Fleet Rule.
- Deploy vehicle telematics on City vehicles to optimize vehicle asset management.
- Continue to monitor and adjust the vehicle replacement timeline for vehicles due to pricing and delivery schedules challenged by availability and regulatory changes impacting industry.

## Budget Highlights

- The Proposed Budget adds the following positions to support the implementation of voter-approved bond projects (the associated budget for these positions is included in Non-Departmental under Bond Implementation):
  - 1.0 Principal Engineer
  - 1.0 Senior Engineer
  - 1.0 Management Analyst (added in FY 2026/27)
- The addition of 1.0 Management Analyst is recommended to assist with recording staff time for capital project management to more accurately reflect project costs.
- The following non-personnel adjustments are recommended in the Proposed Budget:
  - The replacement of the existing Bobcat loader with a new larger skid steer loader with attachments to improve efficiency in the Street Maintenance Division.
  - Adjustments to the Urban Runoff Pollution Prevention Program contractual services budget to fund contracted stormwater inspections.
  - Funding for street sweeping of protected bicycle lanes.
- In the Capital Budget, funding is recommended for the Tasman/Lafayette Walkway Feasibility Study, which was identified as a City Council priority (the associated transfer to the capital fund is reflected in Non-Departmental).

**Public Works Department**

**123.50 FTEs\***

**Engineering –Administration**

0.75 Director of Public Works  
1.00 Assistant Director of Pub Works/City Engineer  
2.00 Management Analyst  
0.50 Office Specialist II  
1.00 Office Specialist III  
1.00 Staff Aide  
1.00 Principal Engineer  
1.00 Senior Engineer (Civil)

**8.25 Total Engineering-Administration FTE**

**Engineering – Design**

3.00 Associate Engineer (Civil)  
1.00 Principal Engineer  
4.00 Senior Engineer (Civil)

**8.00 Total Engineering-Design FTE**

**Engineering – Field Services**

1.00 Account Clerk II  
1.00 Chief of Party  
1.00 Principal Engineer  
4.00 Public Works Inspector  
1.00 Senior Engineer (Civil)  
1.00 Senior Engineering Aide

**9.00 Total Engineering-Field Services FTE**

**Engineering – Land and Property  
Development**

4.00 Associate Engineer (Civil)  
1.00 Principal Engineer/City Surveyor  
1.00 Senior Engineer (Civil)  
1.00 Senior Engineering Aide

**7.00 Total Engineering-Land and Prop Dev FTE**

**Engineering – Traffic**

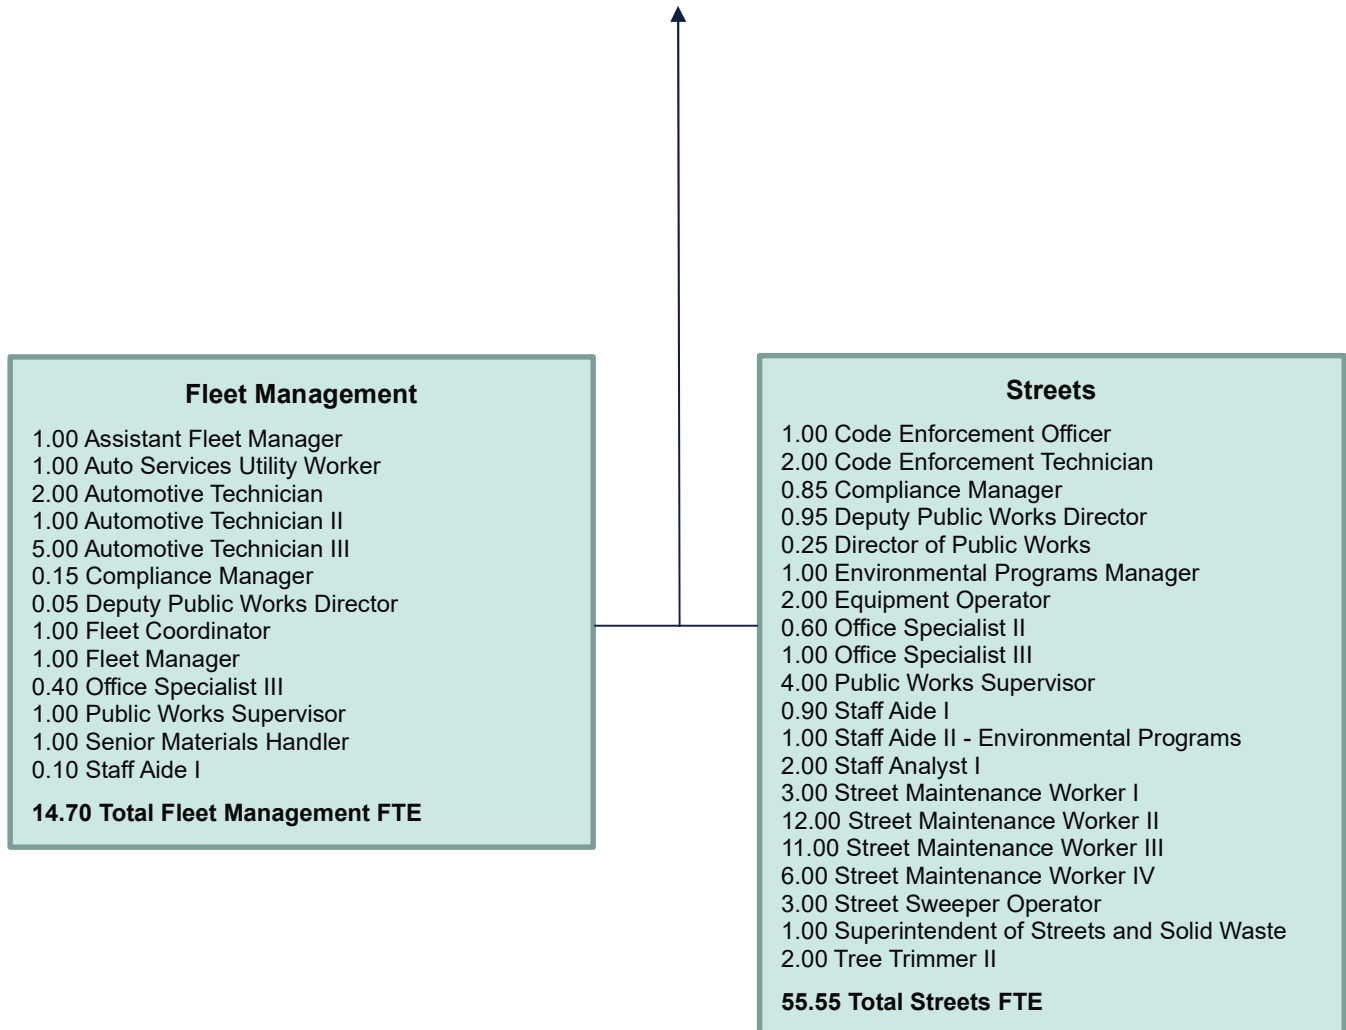

3.00 Associate Engineer (Civil)  
1.00 Principal Planner  
2.00 Senior Engineer (Civil)  
1.00 Traffic Operations Engineer  
1.00 Transportation Manager

**8.00 Total Engineering-Traffic FTE**

**Facility Services**

1.00 Building Maintenance Manager  
6.00 Building Maintenance Worker  
3.00 Mechanical Maintenance Worker  
1.00 Office Specialist II  
2.00 Public Works Supervisor

**13.00 Total Facility Services FTE**

*\*The positions above represent all funded positions in FY 2025/26. The chart above excludes 1.0 Management Analyst position recommended to be added in FY 2026/27. This also excludes frozen positions, including the following: 1.0 Assistant Engineer (Civil) and 1.0 Automotive Technician positions frozen on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402); 1.0 Street Maintenance Worker IV, 3.0 Street Maintenance Worker III, and 1.0 Street Maintenance Worker I/II frozen on June 22, 2021 (Agenda Item 5.0 – Report to Council 21-526); and 1.0 Associate Engineer (Civil), 1.0 Principal Engineer, 1.0 Public Works Inspector, and 1.0 Senior Engineer (Civil) frozen beginning FY 2023/24 (these were originally funded by the Related project).*

## Service Level Changes

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Bond Implementation Staffing	3.00	0	0	0	0

Program: 4411 – Engineering Admin – General Services

This proposal recommends the addition of 3.0 initial positions to begin delivering capital projects funded by the \$400 million bond measure approved by the voters in November 2024. As the program is further developed, staff resources for delivering projects will be further evaluated to determine other positions that may be necessary. The current positions being requested are 1.0 Principal Engineer, 1.0 Senior Civil Engineer, and 1.0 Management Analyst to begin addressing the increased workload associated with the City's bond implementation. The Principal Engineer and Senior Civil Engineer are budgeted in FY 2025/26, and the Management Analyst is budgeted in FY 2026/27. The funding for these positions is budgeted in Non-Departmental under the Citywide Strategic Programs & Initiatives program in the General Fund.

### Performance Impact

The initial staffing additions will provide project delivery services for bond projects.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Title	Positions	FY 2025/26		FY 2026/27	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
1.0 Management Analyst for Direct Charging for CIP Management	1.00	0	187,073	0	238,007

Program: 4411 - Engineering Admin – General Services

This proposal adds 1.0 Management Analyst to implement changes to the tracking of City staff time and budgets for capital project delivery. Currently, staff project delivery costs are reviewed and allocated to various capital funds based on the projects being delivered but are not charged directly to individual capital projects. The current practice will change, and staff will begin transitioning to a new model where costs associated with capital project management will be charged directly to individual capital projects. This is a significant change, and the role of the additional Management Analyst will be used to manage the tracking of budgets, charge numbers and staff charges on capital improvement projects.

### Performance Impact

The addition of this position allows for more accurate tracking of staff costs related to capital project delivery.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Skid Steer Loader with Attachments and Trailer	0	171,000	0	0	0

Program: 2911 – Street Maintenance

This proposal requests an addition of a skid steer loader with attachments and a trailer to carry the skid steer. The Street Maintenance Division currently uses a small Bobcat Loader with attachments to perform asphalt trench restorations. The Bobcat does not have a high enough hydraulic flow rate to effectively power the milling attachment that is used to grind out the existing asphalt prior to making a street repair or trench restoration. Also, the milling attachment's grinding teeth require frequent replacement which takes about 2 hours. The total cost of the requested equipment is \$223,300, which will in part be offset by the sale of the Bobcat and accumulated amortization of the vehicle, which reduces the total requested funds to \$171,000.

### Performance Impact

A larger skid steer loader and milling attachment will enhance the trench restoration process by making it quicker to remove and grind the existing asphalt and reduce the maintenance time associated with changing the grinding teeth. The new machine will also be used to perform dig-outs, alleyway maintenance, and smaller jobs without the need to bring out a backhoe which will save additional time. The Street Maintenance Division is currently able to complete about 3 street opening permit repair jobs per day and it is projected that one (1) additional street opening permit repair job could be completed with a new skid steer, plus attachments.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Street Sweeping of Protected Bicycle Lanes	0	0	12,000	0	18,000

Program: 2971 – Traffic Maintenance

This proposal adds contractual street sweeping funding for protected bicycle lanes. Protected bicycle lanes will be installed along Mission Boulevard in 2025. The existing street sweeper vehicles are too large to operate in the protected bicycle lane. This funding will cover contractual street sweeping twice a month for the planned lanes, with additional lanes anticipated in FY 2026/27.

### Performance Impact

This action will ensure the proper sweeping of the new protected bicycle lanes installed within the City.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Stormwater Inspection Services	0	0	(2,500)	0	50,000

Program: 2924 – Storm Drain – Non-Point Source

This proposal adjusts the funding for stormwater inspection services. In 2023, the City implemented a Private Land Drainage Areas (PLDA) inspection program to comply with trash load reduction requirements set forth in the Municipal Regional Stormwater National Pollutant Discharge Elimination System Permit (MRP) as an alternative to minimize the number of full trash capture devices needed to comply with the trash load reduction mandate. This budget was originally approved for FY 2024/25, with funding also in FY 2025/26 and then ongoing starting in FY 2028/29 based on the anticipated program implementation. However, it is now determined that funding is needed in each year. The PLDA inspection program will need to be continued in perpetuity to comply with the trash load reduction mandate unless the City chooses to install additional full trash capture devices. The requested funding will enable the department to assign approximately 180 inspections per year to a contractor instead of hiring additional staff members to comply with the state mandated stormwater inspection requirements. This includes a slight reduction in FY 2025/26 from the original budget and the addition of ongoing funds starting in FY 2026/27 rather than FY 2028/29.

### Performance Impact

This request increases the City's capacity to inspect full trash capture devices, therefore complying with state regulations for stormwater inspection programs.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

# **Water and Sewer Utilities Department**

This page is intentionally left blank.

## Water and Sewer Utilities Department Description

The Water and Sewer Utilities Department provides planning, design, construction, maintenance, and operation of the City's water distribution system, sewer collection system, and recycled water system. The three utilities, water, sewer, and recycled water, operate independently and charge rates to recover the costs of providing these services to Santa Clara residents and businesses, including capital investment in City infrastructure and funding of needed reserves.

In 2024, the Water Utility produced and distributed 6.9 billion gallons of water to approximately 26,000 service connections, delivered through approximately 335 miles of water main. Of the total water supply, 50% is obtained from the City's wells and 30% is treated water purchased from two wholesale potable water agencies. Approximately 20% of the City's water supply is met with recycled water delivered through the South Bay Water Recycling system. The Department oversees:

- Design, construction, distribution, metering, quality monitoring, and system operation and system maintenance for both potable and recycled water.
- Collection and conveyance of wastewater for approximately 26,000 accounts and assessment, maintenance, or repair for more than 288 miles of sewer mains as required.
- Construction, operation, and maintenance of the recycled water system within the Santa Clara city limits. This recycled water system distributes highly treated wastewater for non-potable use.
- Review and conditioning of planning applications, building permits, and encroachment permits for new development projects to mitigate impacts on the existing water, recycled water and sewer systems and to provide safe and reliable services to the new developments.

Other activities include:

- Long-term planning for the replacement and/or upsizing of existing and future water and recycled water systems.
- Maintain high water quality through routine and special bacteriological sampling and testing.
- Annual replacement of existing water mains using internal City forces.
- Promote water conservation and environmental sustainability through outreach to the community.
- Manage contracts for the construction of new South Bay Recycled Water pipelines.
- Coordinate planning efforts for the future expansions of recycled water systems in Santa Clara County (County).
- Maintain compliance with State regulations through development plan reviews and site inspections.
- Annual testing of all backflows and maintenance of meters.
- Respond to customer inquiries, service leaks and main breaks 24 hours a day.

The Sewer Utility operates and maintains a sanitary sewage collection system that collects and conveys wastewater to the jointly owned San José-Santa Clara Regional Wastewater Facility (RWF) for treatment and disposal. The Sewer Utility maintains seven sewer pump stations and the sewer collection pipelines and manholes, and assists the Department of Public Works in the operation and maintenance of 21 stormwater pump stations to ensure reliable service. Additional services include: installing property line clean-outs for access to maintain residential sewer laterals; assisting the industrial waste inspectors from the RWF with investigations of City industries; processing the City of San José wastewater discharge permits and implementing the Sanitary Sewer Management Plan as submitted to the State and Regional Water Quality Control Board.

Bonds are issued to mitigate rate increases while allowing for the repair and replacement of critical infrastructure. Proceeds from debt were used to pay for repairs and rehabilitation of the Trimble Road Sanitary Sewer main trunk line and capital improvements for the RWF, with these being repaid over the next six years and the next 23 years respectively.

## Divisions and Services

The Water and Sewer Utilities Department is organized into five Divisions: Solar Utility; Water Construction, Maintenance, Operations; Water Engineering; Recycled Water Program; and Sewer.

The overall Mission of the Department is to provide the City's community with high-quality, reliable, economical, and environmentally sustainable water, wastewater and recycled water services in a manner that protects these resources for future generations. The Department's vision is to ensure clean water and a sustainable future for generations to come through innovation and environmental management of resources while providing an exceptional level of customer and community service.

<b>Solar Utility Division Mission</b>	Provide installation and maintenance of solar heating systems for commercial, residential, and pool water heating.
<b>Division Objectives</b>	<p>Maintain more than 119 swimming pool systems.</p> <p>Maintain seven domestic solar hot water systems.</p>
<b>Water Construction, Maintenance, Operations Division Mission</b>	Operate and maintain the Water Utility in a sustainable, cost effective, efficient manner and ensure that the approved levels of service are met.
<b>Division Objectives</b>	<p>Increase reliability of the water system through the replacement of mains and appurtenances at the end of their useful life.</p> <p>Complete the construction, and installation of approximately 10,000 linear feet of water main.</p> <p>Construct, repair, and/or rehabilitate at least two groundwater wells each budget cycle to continue to provide reliable water service.</p>
<b>Water Engineering, Compliance, Conservation Division Mission</b>	Provide Engineering services that improve and protect the water supply and distribution system while planning for future expansion and upgrades to infrastructure to ensure future reliability.
<b>Division Objectives</b>	<p>Continue to improve the seismic safety of the water utility system.</p> <p>Continue the use of innovative technology to optimize the management of City water assets and appurtenances.</p> <p>Support citywide development through plan check review and inspection.</p> <p>Undertake engineering studies of the condition and reliability of water system assets.</p>

Recycled Water Program Division Mission	Provide for the safe, efficient, cost effective, and reliable distribution of sustainable and high-quality recycled water which meets all requirements of State regulations and local codes. Deliver services in a cost effective and efficient manner with a focus on outstanding customer service.
	Increase connection of recycled water services for landscape irrigation of commercial and industrial sites, City parks, and school fields.
Division Objectives	Increase the use of recycled water for approved uses.
	Coordinate planning efforts with South Bay Water Recycling (SBWR) for the future expansions of recycled water systems in the County, and coordinate and compile annual site inspections as required by the State.
	Maintain compliance with State regulations through development plan reviews and site inspections.
	Design, construct, and maintain recycled water pipelines.
Sewer Division Mission	Collect, treat, and dispose of wastewater in an efficient, cost-effective, and environmentally safe manner. Provide for maintenance of stormwater pump stations. Deliver services at approved levels in a cost effective and efficient manner with a focus on outstanding customer service.
	Install property line clean-outs for access for the provision of a courtesy service of maintaining lower laterals for residential sewer customers.
Division Objectives	Maintain seven sanitary sewer and twenty-one stormwater pump stations to ensure reliable service.
	Assist the pre-treatment program staff from the RWF with investigations of City industries.
	Implement Sewer System Management Plan (SSMP) as submitted to the State and Regional Water Quality Control Board.
	Clean, conduct condition assessment, and repair or rehabilitate sanitary sewer collection system.

## Significant Accomplishments

- Substantially completed the One Water/Sustainable Water Master Plan and Asset Management Plan.
- Updated Mission and Vision Statements utilizing a workshop that involved staff from throughout the Department.
- Finalized the update to the Water Use Rules and Regulations, including revisions to the potable and recycled water use regulations, adoption of State Model Water Efficient Landscape Ordinance (MWELO) goals as they relate to State regulations, and adoption of portions of Valley Water's Water Conservation Ordinances.
- Completed sewer condition assessment projects via closed-circuit television (CCTV), which is used to rate infrastructure and inform the capital improvement program (CIP). Notably, began CCTV of the City's force mains that deliver wastewater to the Regional Wastewater Facility. Approximately 184,000 linear feet of CCTV assessments were completed.
- Completed and coordinated major CIP projects for both the Water (\$7 million) and Sewer (\$7.7 million) Utilities as well as RWF projects that amounted to approximately \$10 million.
- Continued to work and negotiate with Valley Water and the City of San José regarding the Purified Water Project Expansion to be located at the RWF and continued to work with San José and San Francisco on a proposed design for the South Bay Purified Water Project.
- Continued to meet monthly and work with the Bay Area Water Supply and Conservation Agency (BAWSCA), City of San José and San Francisco regarding securing permanent status with San Francisco Public Utilities Commission (SFPUC) for water supply by 2028.
- Finalized work and negotiations on the Tier 2 Allocation Plan, which is being updated by BAWSCA for use during a drought when potable water cutbacks are required per the amended City of San Francisco Water Supply Agreement (WSA). As a result of negotiations, Santa Clara is now being treated equally with drought cutbacks as compared to other permanent SFPUC customers. Santa Clara will now have reduced cutbacks during a drought as a result of the new negotiated allocations.
- Initiated a joint project with Valley Water to switch the City's 21 well sites to Advance Meter Infrastructure (AMI). This project with Valley Water was initiated to improve billing accuracies and reduce manual meter reading by Santa Clara and Valley Water staff.
- Initiated an AMI pilot program and leak detection pilot to test water meter technologies for residential and commercial properties. The Department will setup 30 site locations to test the technology and will work with the Finance Department and Silicon Valley Power (SVP) to leverage existing technology and infrastructure installed by SVP and explore current capabilities of the billing system in order to accept the remote reads. Once the proof of concept is complete, a phased full-scale project will be planned. The pilot project will be completed in 2025.
- Completed Phase 2 of the Supervisory Control and Data Acquisition (SCADA) CIP implementation and fiber connectivity for Water and Sewer Utilities at remote water and sewer sites. This past year, 10 sites received Remote Terminal Unit (RTU) hardware upgrades for a total of 34 sites now with the upgrade. In partnership with SVP, five new sites received fiber optic connectivity, bringing the total number of sites with fiber to 30. Only four fiber sites remain for installation in 2025.
- Completed the Water, Sewer and Recycled Water Rate Study with Council approval in FY 2024/25.
- Continued to maintain full compliance with all water quality regulations, protect public health and water quality, and enhance potable water quality in the distribution system. Completed additional public outreach on water quality.
- Met the goal of rehabilitating two groundwater wells per year. Well 34 and Well 18 were rehabilitated and will be back online. In addition, an assessment of Well 32 was completed.
- Completed installation of 17,500 linear feet of replacement water main, exceeding the annual goal of 10,000 linear feet of water main replacement.
- Completed recertification of sewer operations staff for sewer pipeline, manhole and lateral condition assessment (PACP, MACP, LACP).

- Completed annual testing of approximately 3,900 backflow preventors within the City.
- Completed the Federal and State Lead and Copper Rule customer service line inventory survey by October 16, 2024, including reporting the results to the State Department of Drinking Water. No customer lead service lines were identified during the survey.
- Continued to implement State water use efficiency requirements to keep Santa Clara's residential gallon per capita per day (gpcd) below 55 gpcd. Santa Clara met the requirement with a 51.8 gpcd for 2024. Conservation rebate programs, increased outreach and partnering with Valley Water and BAWSCA continue to assist the City in lowering its gpcd.
- Finalized negotiations on Approval/Acceptance Letter from the Division of Drinking Water (DDW) for Related Santa Clara Development Operations and Maintenance Plan for Phase 1. DDW has approved the Operations and Maintenance Program, and the City has received the Acceptance Letter from DDW. The City may now proceed with the final design of the water system infrastructure.
- Completed design of Phase 3 of the Citywide Generator Replacement project consisting of two water sites and one sewer site.
- Received the California Water Environment Association's (CWEA) Collection System of the Year 2024 award for a medium-sized utility in the field of wastewater.
- Continued work to increase the use of recycled water in Santa Clara by promoting use in new developments. Recycled water usage is now over 3.5 million gallons per day.
- Expanded use of recycled water infrastructure through new development, by constructing 268 linear feet (lf) and connecting 1,900 lf of recycled water main in Tasman East and conditioning the use of recycled water on 19 projects/facilities.
- Completed 1,236 plan reviews that included 738 building permits and 498 encroachment permits with 92.7% of the reviews completed on time.
- Completed Environmental Protection Agency (EPA) Risk and Resilience Assessment (RRA) and Emergency Response Plan (ERP) updates.
- Department staff were awarded the Merit Award and the Customer Service Award from the American Public Works Association (APWA).
- Received Project of the Year Award from the APWA for the Bassett Street Emergency Recycled Water Repair and Installation of Curbside Recycled Water Fill Station.

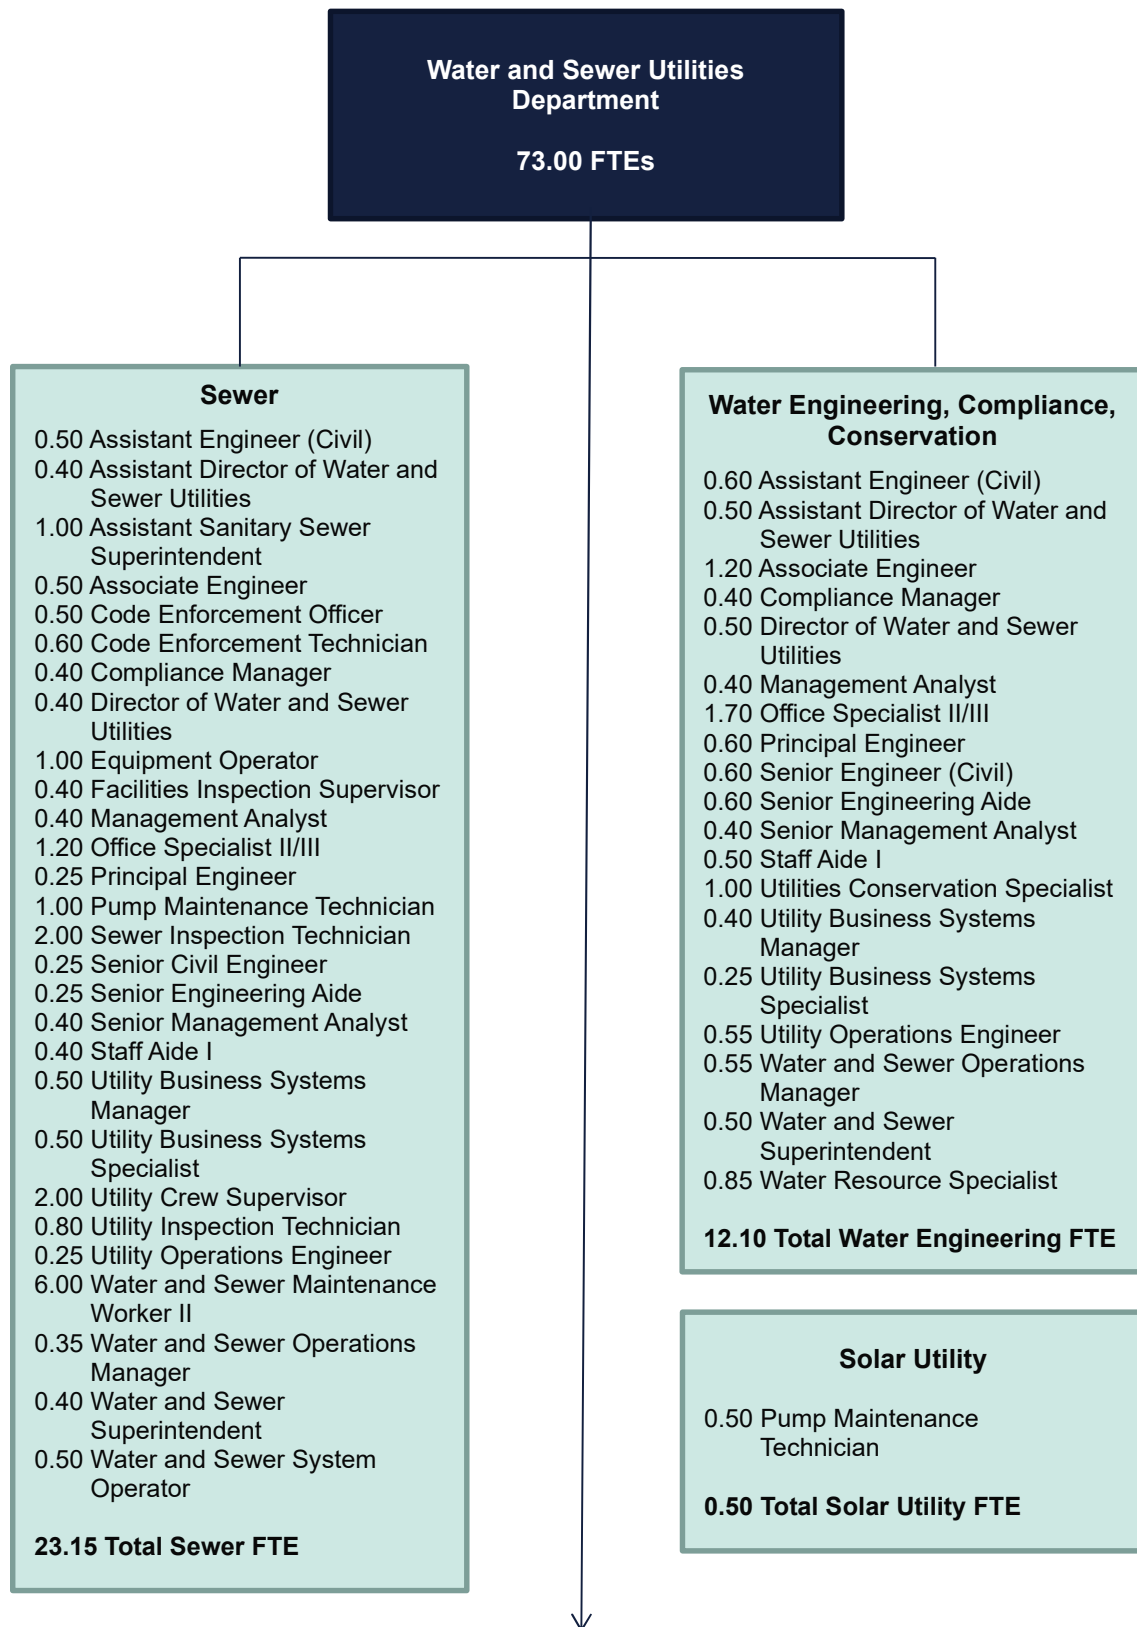

## Significant Objectives

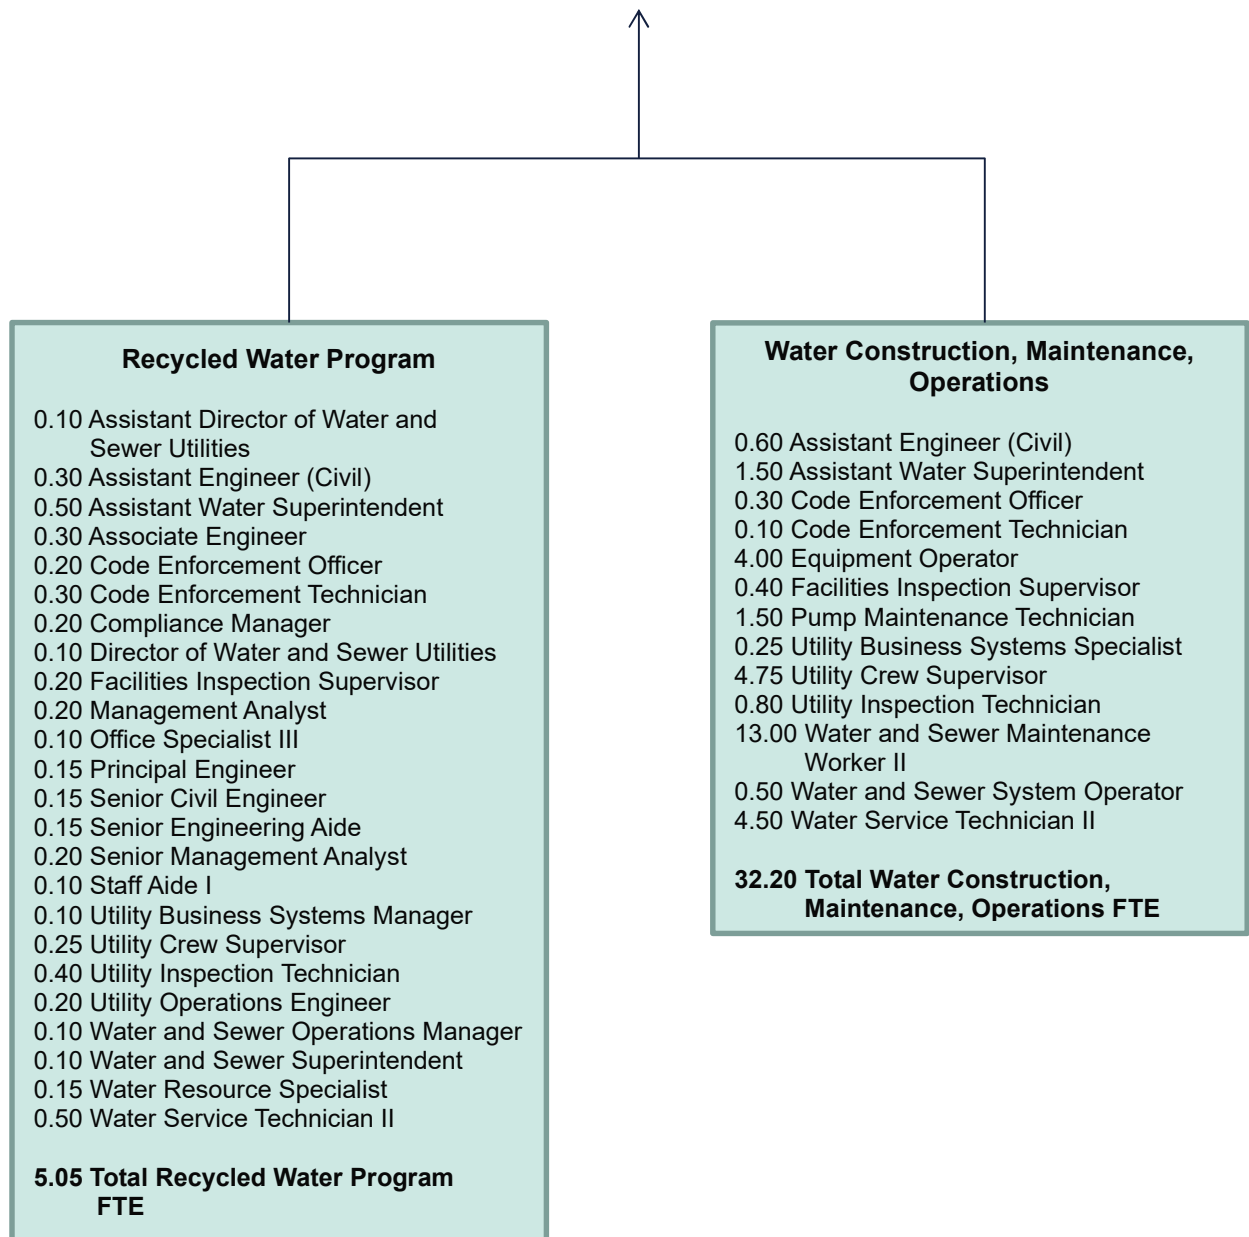

- Implement updated State water use efficiency requirements to bring Santa Clara's residential gpcd below 47 gpcd (previously 55 gpcd) for 2025 through December 31, 2029.
- Continue to work and negotiate with Valley Water and the City of San José regarding the Purified Water Project Expansion to be located at the RWF and continue to work with San José and San Francisco on a proposed design for the South Bay Purified Water Project.
- Continue to meet monthly and work with the BAWSCA, City of San José and San Francisco regarding securing permanent status with SFPUC for water supply.
- Coordinate negotiations for amendments to the SFPUC water supply agreement regarding SFPUC decisions regarding permanent customer status.
- Initiate the Accela Module upgrade from TruePoint to enable specific development project information related to recycled water, portable hydrant meters, development impact analyses, water supply agreements, and the Cross Connection Control Program to be tracked.
- Complete rehabilitation of three groundwater wells per year.

- Complete at least 10,000 linear feet of water main replacement per year.
- Complete jetting and CCTV condition assessment of 300,000 linear feet of sewer collection pipe per year.
- Complete and coordinate major CIP City projects for both water and sewer infrastructure improvements including RWF CIP projects.
- Complete the pilot project to field test the upgrade of 30 existing water meters to AMI and plan for a full-scale AMI program.
- Comply with water use efficiency regulations regarding indoor residential water use to support Making Conservation a California Way of Life.
- Finalize the One Water/Sustainability Water Supply Master Plan including the Asset Management Plan and implement recommended CIP projects to manage risks in the utilities.
- Continue Phase 3 SCADA system improvements that include: testing of and training with the Remote Terminal Unit (RTU) module, SCADA Cybersecurity and password protection program, and generator monitoring.
- Develop and implement the Cross Connection Control Policy Handbook (Standards and Principles for California's Public Water Systems) State regulations.
- Complete the update to the Sanitary Sewer Management Plan (SSMP) in 2025 and present to City Council for final approval.
- Substantially complete the State required 2025 Urban Water Management Plan that needs to be approved by Council by July 1, 2026.
- Complete the Report on Water Relative to Public Health Goals as required every three years by the State water quality regulations. Council will need to approve the report in 2025.
- Complete outreach to properties for new development and existing commercial, industrial, institutional (CII) and homeowners' associations properties regarding the State Urban Water Use Efficiency Guidelines, Valley Water Ordinances, and City's Rules and Regulations. New requirements include future prohibitions using drinking water for ornamental grass at all CII sites.
- Continue expansion of recycled water infrastructure and demand to supplant potable water use.
- Complete preliminary evaluation of a new recycled water storage tank.
- Coordinate with the City of San José on a new master meter project for recycled water lines.

## Budget Highlights

- The budget reflects updates to the City of Santa Clara's contribution to the Regional Wastewater Facility, co-owned with the City of San José, as well as revised revenues and costs to continue to effectively deliver water, recycled water, and sewer services.
- This budget also reflects the resources necessary to comply with regulations that affect all three utilities and changing climate conditions as well as the commitment of the Department and the City to long term sustainability, both environmental and fiscal.

## Budget Summary

# Non-Departmental

This page is intentionally left blank.

## Non-Departmental Description

The Non-Departmental budget provides a way to report expenditures that are not attributable to a single department, but rather, are citywide in nature such as inter-departmental transfers for capital projects and community grants. This budget also houses key positions with citywide functions and responsibilities.

## Divisions and Services

Non-Departmental has four primary program areas: Citywide Programs; Citywide Strategic Planning and Initiatives; Office of Emergency Management (formerly allocated in the Fire Department); and Stadium Operations. The Debt Service budget information is reflected in the Debt Service section of this document.

Citywide Programs Division Mission	Provide strategic direction and management of community investments and citywide expenses not attributable to a single department.
Division Objectives	Coordinate the timely award and distribution of community grants to qualifying individuals, groups and community organizations for high impact community events/activities and participation in youth competitions/performances that provide a public benefit to the City of Santa Clara.
	Invest in the community's cultural, economic and social vitality in collaboration with community organizations and business partners
	Oversee the efficient and cost-effective management of utilities in Citywide facilities.
	Facilitate the accounting and efficient transfer of funding in support the City's Capital Improvement Program.
	Ensure compliance with Measure I.

Citywide Strategic  
Planning and  
Initiatives  
Division Mission

Provide strategic leadership and resolve complex administrative matters performing Citywide policy analysis, overseeing contract and venue management and leading community engagement processes.

Work collaboratively with key stakeholders to implement a comprehensive tourism strategy focused on providing elevated destination, convention, and visitor services in Santa Clara to collectively enhance economic growth and City revenues.

Division Objectives

Provide general and administrative oversight of Santa Clara Convention Center venue management and food and beverage agreements and work with partners to maximize economic impact, optimize revenue streams, increase and enhance attendee and exhibitor experiences, and ensure sustainability and adaptability to evolving event needs.

Manage Santa Clara Convention Center capital improvement, operations and community enrichment investment funds.

Maintain productive and collaborative relationships with the Santa Clara Tourism Improvement District (SCTID), and Silicon Valley/Santa Clara DMO, Inc. dba Discover Santa Clara®, Santa Clara's Destination Marketing Organization (DMO).

Office of Emergency  
Management Mission

To prevent, prepare for, mitigate respond to and recover from all hazards.

Manages and coordinates the City's resources and responsibilities in the prevention, planning, preparation, and mitigation of, response to, and recovery from disasters and emergencies.

Provide inter-departmental emergency management coordination in the City of Santa Clara Emergency Operations Center (EOC) in the event of a large-scale incident requiring activation.

Division Objectives

Ensure the EOC and its staff are in "response-ready" condition to serve as the City's hub for emergency management activities in support of large-scale emergencies or planned events.

Ensure appropriate stakeholder management and planning efforts are conducted to document best-practice processes and procedures for flexible and dynamic emergency management operations.

Engage in hazard mitigation activities with the goal of reducing or eliminating long-term risk exposure to people and property from future disasters and identifying long-term solutions that reduce the impact of disasters in the future.

## Stadium Operations Division Mission

The Santa Clara Stadium Authority (Stadium Authority) as a joint powers authority, separate and distinct from the City, provides comprehensive administration and operational support to ensure the effective management of Levi's® Stadium. This includes overseeing operations, maintaining fiscal and regulatory compliance, and coordinating the strategic deployment of public safety resources for National Football League (NFL) games and Non-NFL events.

The goal is to uphold public safety, enhance event security, and minimize impacts on the surrounding residential and business community while ensuring the stadium remains a premiere venue for sports, entertainment, and public gatherings.

All general administrative functions, as well as expenditures related to Police, Fire, and Public Works services for stadium operations, are managed within this division to ensure transparency, accountability, and operational efficiency.

Reimbursements from the Santa Clara Stadium Authority, Forty-Niners SC Stadium Company, LLC (StadCo), and Forty-Niners Stadium Management Company, LLC (Stadium Manager) for City services and staff time and other Stadium-related revenues such as ground and performance rent, are reported in this division but displayed separately in the General Fund revenues section of this document.

Ensure compliance with Measure J, including financial, operational, and contractual obligations, to uphold transparency and accountability in stadium-related matters.

Maintain a productive and functional business relationship with Forty-Niners SC Stadium Company, LLC as the tenant of Levi's® Stadium.

Develop, implement, and refine oversight initiatives that align with best practices for public agencies, ensuring responsible governance and operational efficiency.

## Division Objectives

Coordinate and facilitate interdepartmental support from the Police, Fire, and Public Works Departments, working in close collaboration with the Stadium Manager to ensure public safety, security, and emergency preparedness for all NFL and non-NFL events.

Uphold the fiduciary responsibilities and debt obligations of the Santa Clara Stadium Authority, ensuring financial stability and long-term sustainability.

Ensure that Levi's® Stadium is maintained in good condition and operated as a quality NFL and multi-purpose public sports, exhibit, and entertainment facility by the Stadium Manager.

## Significant Accomplishments

### Citywide Projects

- On November 5, 2024, voters approved Measure I – a \$400 million general obligation bond that will fund needed infrastructure projects in the City. The \$400 million bond proceeds will enhance the City's efforts to address over \$600 million in unfunded infrastructure needs such as aging fire stations, storm drain systems, and aquatic facilities. The expenditure plan includes the following project areas:
  - Fire Stations and Emergency Response (\$142,235,450)
  - Parks, Libraries, Senior Center, and Aquatics Facilities (\$115,258,750)
  - Storm Drain System Improvements (\$46,000,000)
  - Police Facilities (\$43,987,500)
  - Streets and Transportation (\$41,170,000)
  - Historic Buildings and Beautification (\$9,200,000)
- In FY 2024/25, launched a competitive Request for Proposals (RFP) process to identify a qualified firm to develop the "City Asset Marketing Program" (CAMP). CAMP is focused on promoting and optimizing utilization of the City's public assets, owned or controlled, during Super Bowl 60 (SBLX) and the Fédération Internationale de Football Association (FIFA) World Cup 2026 (FWC26) events.

### Community Partnerships

- Updated Council Policy 049 Community Grant Policy to further expand and streamline the City's Community Grant Program to support high impact community events/activities and participation in youth competitions/performances; the City Council approved the amended policy at the December 3, 2024, Council meeting.
- Effectively administered annual funding to the Triton Museum in the amount of \$295,927 in FY 2023/24 and \$296,054 in FY 2024/25 for the purpose of providing free access to art exhibitions and educational programs to the community.
- Worked collaboratively to provide in-kind support for the Parade of Champions event in the approved amount of \$60,000 in FY 2023/24 and \$44,725 in FY 2024/25 and the Showtime event in the amount of \$7,471 in FY 2023/24 and \$10,789 in FY 2024/25.
- Effectively administered funding through the City's Community Grant Program to youth, non-profits, and community organizations. Since July 2023, 16 grants have been awarded for a total of \$95,598.
- Entered into an Initial Grant Funding Agreement with the Forty Niners SC Stadium Company, LLC (49ers) that commits the 49ers to contribute \$200,000 annually for twenty years to support non-profit organization or community projects serving or directly impacting the City of Santa Clara. The agreement provides for the grant distribution for Years 1-3, during which the Santa Clara Swim Club will receive \$100,000 annually for three years, the City will receive \$50,000 for three years to distribute through its Community Grant Program, Bill Wilson Center will receive \$50,000 annually for Years 1 and 2, and one additional beneficiary will receive \$50,000 for Year 3.

### Santa Clara Convention Center

- Executed an amendment to extend the Management Agreement with Global Spectrum, LP dba OVG360 (formerly dba Spectra) for the management and operation of the Santa Clara Convention Center, for an additional five-year term which began July 1, 2024, and expires June 30, 2029. The City has contracted with Global Spectrum, LP dba OVG360 (formerly dba Spectra) since March 2019.
- Executed an amendment to extend the agreement with Levy Premium FoodService LP for food and beverage operations at the Santa Clara Convention Center for an additional 10-year term which begins July 1, 2025, and expires June 30, 2035. The amendment includes new investment funds from Levy including Capital Investment of \$3.5 million and Community Enrichment Investment of \$200,000. The City has contracted with Levy since October 2019.

- Supported the Destination Marketing Organization's (DMO) procurement and contracting efforts to secure a marketing firm to provide OmniChannel Marketing Services for the DMO. The DMO launched/distributed the City's first ever Visitor's Guide in March 2025.
- Completed updates/renovations to the Santa Clara Convention Center including the addition of outdoor patio furniture for the second-floor terrace, an indoor sustainable garden, aesthetic updates to the public restrooms, completed roof and building electrical assessments, replacement of the Grand Ballroom airwall system, installation of interior digital signage and technology, and progression on the Main and Mission kitchens updates.
- The Teaching Kitchen, a free program designed to provide culinary education to adults with a desire to pursue a career path in the hospitality industry, launched in FY 2023/24. A total of 18 participants have graduated from the six-week program.
- In FY 2024/25, conducted a competitive RFP process which resulted in the selection of Oak View Group Global Partnerships (OVGGP) to provide Naming Rights & Sponsorship Services for the Santa Clara Convention Center. A full valuation of the Center's assets was completed as well as OVGGP's hiring of a Director of Partnerships, responsible for related sales and marketing efforts.

### **Stadium Operations**

- Coordinated City services, including the deployment of public safety resources, to meet the service needs required to support NFL games for the 2023 and 2024 NFL Seasons and 17 anticipated major Non-NFL events, including Taylor Swift, Beyonce, and the Rolling Stones held between July 1, 2023 and June 30, 2025.
- Prepared Council Policy 053 Santa Clara Convention Center and Levi's® Stadium Policy for Operational Tours for Designated City/Stadium Authority Officials, which outlined procedures for elected officials when touring the publicly owned facilities for the purpose of observing various operations occurring at or around the facility before, during, and after an event that will be useful to the officials in their decision-making capacity; the City Council approved the policy at the September 12, 2023 Council meeting.
- Entered into several reimbursement agreements with the Bay Area Host Committee (BAHC) for planning and training costs related to the FIFA World Cup 2026 (FWC26) and Super Bowl 60 (SBLX) events, including:
  - Super Bowl 58 Visiting Public Safety Officers (SB58 VPSO) Reimbursement Agreement – the BAHC to reimburse up to \$15,000 of costs, including staff time and travel, for the SB58 VPSO in Las Vegas event that occurred February 6-11, 2024.
  - FWC26 Interim Funding Agreement – The BAHC to reimburse up to \$150,000 of FWC26 planning, training and equipment for the time period July 1, 2024 to February 28, 2025.
  - SBLX Pre-Agreement Expense Agreement – The BAHC to reimburse \$61,000 of SBLX planning and training costs for the time period July 1, 2024 to December 31, 2024.
  - Super Bowl 59 Visiting Public Safety Officers (SB59 VPSO) Reimbursement Agreement – The BAHC to reimburse \$100,000 of costs, including staff time and travel, the Forty Niners to reimburse \$57,000, and the remaining balance, estimated at \$43,503, to be reimbursed by the Stadium Authority. The SB59 VPSO occurred in New Orleans, LA February 5-10, 2025.
  - SBLX Interim Funding Agreement – The BAHC to reimburse up to \$150,000 of SBLX planning, training and equipment costs for the time period January 1, 2025 to May 31, 2025.
- Entered into an Assignment and Assumption Agreement that assigns Stadium Authority costs related to the FWC26 events, including costs for the City's public safety planning, training, equipment, and event deployment; the City Council/Stadium Authority Board approved the agreement at the February 11, 2025 Council and Board meeting.
- Initiated public safety planning and other necessary City efforts for SBLX and FWC26.
- Provide regular progress updates to the City Council on SBLX and FWC26 planning efforts to promote engagement and awareness for the residential neighborhoods adjacent to the Stadium and the City as a whole.

## Significant Objectives

### Community Partnerships

- Enhance outreach and promotion on the Community Grant Program to encourage more applicants to apply with the goal of supporting additional high impact events/activities that benefit the community and youth participation in competitions/performances.
- Effectively administer funding to non-profit community organizations that provide services to the Santa Clara community.

### Office of Emergency Management (OEM)

- Provide a series of trainings, workshops, table-top exercises, and functional exercises focused on ensuring the readiness of the City's Emergency Operations Center (EOC) staff, to strengthen competencies and product development capability.
- Through grant funding, interdepartmental collaboration, and best practice identification, implement new EOC technologies that enhance cross-departmental strategy and priority setting as well as situational awareness in time of emergency.
- Continue to improve the EOC site security and internal footprint optimization to ensure it meets needs of large event readiness and accommodation of all appropriate incident management partners through collaboration with building maintenance.
- Develop Emergency Management/EOC Concept of Operations (ConOps) Plan, EOC Action Plans and other key EOC coordination products for both SBLX and FFWC26 events.
- Effectively operationalize the 2026 large event action plans and ConOps Plans to ensure a safe and secure 2026 large event hosting experience. Through the operationalized/activated EOC, execute the various coordination plans and products developed for 2026 events, and develop After-Action and Lessons-Learned products for both 2026 events.
- Develop and complete the publication of the OEM Strategic Plan and City Recovery Framework Plan reflecting the phases of emergency management for OEM which will complete the recently adopted new City Emergency Operations and Hazard Mitigation Plans.

### Santa Clara Convention Center

- Work collaboratively with the Santa Clara Tourism Improvement District (SCTID) and Discover Santa Clara® to address renewal of the District which expires in June 2026. Renewal of the District requires approval by City Council pursuant to the Property and Business Improvement District Law of 1994, Streets and Highways Code Section 36600 et seq.
- Complete update to Santa Clara City Code Title 16, Chapter 16.10, Article IX as it relates to the Santa Clara Tourism Improvement District, to ensure alignment to the Property and Business Improvement District Law of 1994, Streets and Highways Code Section 36600 et seq.
- Successful incorporation of pop-up short-term rental properties into the SCTID, including refinement of notification and participation processes, oversight and involvement with Discover Santa Clara®.
- Provide strategic oversight to the Convention Center in preparation for and during 2026 events.
- Successful implementation and execution of naming rights and sponsorships agreements.
- Establishment of the City Assets Marketing Program; successful implementation and execution of related agreements and activations in preparation for and during 2026 events.
- Complete renovations to the Main and Mission kitchens, including a tasting kitchen for use by the Teaching Kitchen and for Convention Center client tasting menus.
- Implementation of a new event booking system at the Center which will allow for the seamless integration of event

planning, space management, financial tracking, and reporting.

- Development and implementation of a new Santa Clara Convention Center Customer Service Satisfaction Survey Program.

#### **Stadium Events and Operations**

- Continue to build and maintain a productive and functional business relationship with Forty Niners SC Stadium Company, LLC as the tenant of Levi's® Stadium in accordance with the applicable agreements.
- Continue to work with the Stadium Manager to ensure safe events at Levi's® Stadium with minimal impacts to the surrounding residential and business community.
- Successfully host SBLX and the FWC26 events at Levi's® Stadium in partnership with key stakeholders, such as the BAHC and Stadium Manager, in alignment with the applicable agreements that set forth the City's role and reimbursement of City costs.

### **Budget Highlights**

- The Office of Emergency Management (OEM) formally transferred from the Fire Department to Non-Departmental; this includes the reallocation of 1.0 Management Analyst position. While this is reflected as an increase in the Non-Departmental budget, there is no net change as associated budgets were reallocated to Non-Departmental from the Fire Department.
- The FY 2025/26 and FY 2026/27 Proposed Budget includes funding for Measure I bond implementation:
  - 1.0 Deputy City Manager position
  - \$1.0 million in FY 2025/26 and \$2.0 million in FY 2026/27 to provide funding for the positions (additional 3.0 positions also recommended in the Department of Public Works) and any other resources necessary

## Summary of the Santa Clara Stadium Authority Budget<sup>1</sup>

Revenue	FY 2025/26 Adopted
NFL Ticket Surcharge	15,034,000
SBL Proceeds	5,156,000
Interest	3,421,000
Net Revenues from Non-NFL Events	5,300,000
Naming Rights	8,065,000
Sponsorship Revenue (STR)	722,000
Rent	24,762,000
Senior and Youth Program Fees	270,000
Non-NFL Event Ticket Surcharge	3,426,000
Non-NFL Events PSC Depreciation Reimbursement	89,000
<b>Total Revenue</b>	<b>66,245,000</b>

Expenditures	FY 2025/26 Adopted
Stadium Operations	3,489,000
Engineering	3,752,000

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Bond Implementation Resources and Support</b>	1.00	1,000,000	0	2,000,000	0

Program: 3631 – Citywide Strategic Planning and Initiatives

In November 2024, voters approved Measure I, a \$400 million general obligation bond that will fund needed infrastructure projects within the City, including aging fire stations, storm drain systems, and aquatic facilities. This proposal provides funding over the next fiscal years for items related to the bond implementation, including, but not limited to, the addition of staff to provide oversight and project delivery. As part of this proposal, the addition of 1.0 Deputy City Manager position is recommended to provide the management and oversight of these bond projects, including coordination across City departments and monitoring project timelines and deliverables.

This funding is also recommended to offset additions in the Department of Public Works, including 1.0 Principal Engineer, 1.0 Senior Engineer, and 1.0 Management Analyst position. Additional details for these positions can be found under the Department of Public Works section of this document.

### Performance Impact

This funding will allow for the addition of staff to aid in the oversight, management and project delivery of the bond projects.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>City Fiber Network</b>	0.00	500,000	0	0	0

Program: 3631 – Citywide Strategic Planning and Initiatives

As identified as part of the City Council Priority Setting session, this proposal provides funding for a study to review and explore the potential expansion of the City's current fiber network.

### Performance Impact

Once the study is completed, the City Council will be presented with options for a potential expansion of the existing fiber network.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Fiscal Sustainability</b>	0.00	500,000	0	0	0

Program: 3631 – Citywide Strategic Planning and Initiatives

The City of Santa Clara has faced budget shortfalls in recent years and lacks the capacity to fully fund all of the identified needs. This proposal adds consultant services funding for a Fiscal Sustainability project that will include an in-depth analysis of City's financial condition. This analysis will be used to develop a blueprint for moving forward to ensure fiscal stability and will include potential strategies to address projected budgetary shortfalls, provide capacity to fund service and infrastructure needs, and plan for future growth and expansion of City services. These strategies may include revenue enhancements, expenditure reductions, service/program eliminations, and service delivery model changes.

### Performance Impact

The goal of the Fiscal Sustainability project will be to develop various strategies for the community and the City Council to consider and establish an Implementation Action Plan.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

## Service Level Changes

		FY 2025/26		FY 2026/27	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
<b>Transfers to Other Funds</b>	0.00	320,000	122,258	0	152,923

Program: 3611 – Citywide Programs

This proposal increases the transfers to other funds to offset proposals recommended elsewhere in this document. Of the proposed one-time amount, \$200,000 is proposed to be transferred to the Streets and Highways Capital Fund for the Tasman/Lafayette Walkway Feasibility Study, while the remaining \$120,000 is proposed to be transferred to the Parks and Recreation Capital Fund for the Public Art Master Plan. These projects are recommended to be established as part of this budget in order to address City Council priorities.

The ongoing transfer amount of \$122,258 is recommended to fund 70% of a Business Analyst position proposed to be added in the Community Development Department's Building Division. This position will assist with technology efforts to improve development services, which has also been identified as a Council priority. This funding is recommended to be allocated from the Technology Fee Reserve. Additional information for this position can be found in the Community Development Department section of this document.

### Performance Impact

This funding provides City staff the ability to address various City Council priorities, including one-time funding for studies and ongoing funding to improve development services.

Strategic Pillar:

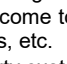

Deliver and Enhance High Quality Efficient Services and Infrastructure

<sup>1</sup> City council approved a budget amendment in June 2024. The net income target increased to \$555,632.

<sup>2</sup> Economic impact is the amount of additional spending that occurs in the community by visitors while attending events at a Convention Center. For example, when Convention Center event attendees come to Santa Clara, they create economic activity that ripples throughout the area: stay at hotels, eat at restaurants, buy at retail stores, visit attractions, etc.

<sup>3</sup> The City terminated its agreement with the third-party customer survey consultant in May 2024. Surveys are anticipated to resume in FY 2025/26.

<sup>4</sup> Priority 1 (P1) event – Large multi-day convention and/or conference that utilizes all venue space at the Convention Center, utilizes significant venue services such as food and beverage, audio-visual and information technology, and draws a substantial number of out-of-town visitors that stay in multiple Santa Clara hotels. Based on projected combined building spend and peak hotel room nights booked, has an 18+ month booking window.

<sup>5</sup> Priority 2 (P2) event – Primarily large multi-day convention and/or conference that utilizes most of the venue space at the Convention Center, utilizes venue services such as food and beverage, audio-visual and information technology, and draws out of town visitor that stay in multiple Santa Clara hotels. Based on projected combined building spend and peak hotel room nights booked, has a 13 – 18 month booking window.

<sup>6</sup> Priority 3 (P3) event – Multiple or single day event that utilizes space at the Convention Center. Attendance and out of town visitors are less than for a P1 or P2. Examples of P3 events may include trade shows, consumer shows, smaller conventions/conferences, and sporting events. Based on projected combined building spend and peak hotel room nights booked, has a 0 – 13 month booking window.

<sup>7</sup> Priority 4 (P4) event – Typically a one- or two-day event that utilizes space at the Convention Center. Attendees are primarily local. Special events (e.g. graduations), smaller meetings and/or smaller trade and consumer shows are examples of P4 events. Based on projected combined building spend and peak hotel room nights booked, has 0 -12 month booking window.

<sup>8</sup> Priority 5 (P5) event – Usually a single day event. Examples of P5 events are banquets, galas, other social type events and meetings. Based on projected combined building spend and peak hotel room nights booked, has a 0 - 6 month booking window.

## Performance and Workload Measures

Convention Center OVG360 Venue Management							
Performance Measures							
	Strategic Pillar	2022/23 Actual	2023/24 Actual	2024/25 Target	2024/25 Estimate	2025/26 Target	2026/27 Target
Community Benefit							
Percent of Convention Center employees that volunteer in the community		44%	64%	60%	60%	40%	40%

Number of Prospects <sup>9</sup> (active)		254	186	220	51	50	55
Number of collaborative, community-based events hosted at the Center <sup>10</sup>		2	2	2	0	15	19

<sup>9</sup> A prospect is a potential customer who has been contacted and qualified by the sales team as having desirable criteria for an event in Santa Clara such as: size of event fits in the venue, there is a history of hotel needs that can be provided by Santa Clara hotels, and they have expressed interest in holding an event in Santa Clara. In FY 2024/25, the number of prospects decreased as inactive prospects were removed from the Convention Center's Customer Relations Management (CRM) System.

<sup>10</sup> The Convention Center historically hosted two community events funded by the Center's corporate partners OVG (Spectra) and Levy. With the transition from Spectra to OVG, corporate funds were no longer available to support the events. Starting FY 2025/26, this indicator will be measured by the number of community or non-profit groups that book and host their event at the Center.

## Sports and Open Space Authority

The Sports and Open Space Authority of the City of Santa Clara (Authority) was created by the City Council in 1974 to establish a separate entity to acquire and develop open space within the City of Santa Clara. The validity of the Authority and its legal existence was established in 1975 by final judgment of the Santa Clara County Superior Court. The Santa Clara Golf and Tennis Club (SCGTC) was developed by the Authority on City-owned land and operated under a management agreement with a private company and a private restaurant facility at the Golf and Tennis Club leased to a private operator. In 1997/98, the City Council set aside approximately 40 acres of the former golf course site to be preserved and maintained as open space, and, in calendar year 1999, the Authority approved the sale of 4.3 acres of the former golf course property to the City's Redevelopment Agency to be disposed of as a site for development of affordable housing.

The Authority terminated operations of SCGTC in late calendar year 2019 and the land will be redeveloped into a mixed-use commercial/residential project. There is minimal funding budgeted in Fiscal Year 2025/26 and Fiscal Year 2026/27 for the Open Space Authority.

## Outside Group Funding

The City considers funding non-profit community organizations to meet significant community needs or address concerns of Santa Clara residents. Funding in any case is made on an individual basis dependent upon City budget limitation, past performance and services provided.

Community Organization	Department	Description	FY 2025/26	FY 2026/27
Bill Wilson Center	Community Development	Provides family and individual counseling and youth crisis intervention at local schools and grief support services, including individual and group counseling	30,000	30,000
Catholic Charities Long Term Care Ombudsman	Community Development	Monitors quality of care to elderly and disabled residents of long-term care facilities	15,300	15,606
Consortium for Energy Efficiency	Electric Utility	Provides funding for furthering research projects in energy efficiency and integrate home competitions	3,000	3,000
Firehouse Fun Run	Electric Utility	A Santa Clara community walk/run event established to support Santa Clara Unified School District and local Military Veterans	5,000	5,000
HAAS Berkeley Institute POWER Conference	Electric Utility	An annual conference on energy research and policy that takes place at the UC Berkeley campus	12,000	12,000
Heart of the Valley	Community Development	Provides transportation for seniors and disabled persons who are unable to travel by bus or other public transportation, collects demographic information on new paratransit clients and to coordinate and train volunteers for service delivery	30,000	30,000
HOPE Services – Educational Services	Community Development	Provides educational services to people with developmental disabilities	30,000	30,000
Loaves & Fishes – Meals on Wheels	Community Development	Provides seniors and adults with disabilities hot, nutritious meals five days a week	30,000	30,000
Next Door Solutions	Community Development	Provides case management for residents at HomeSafe Santa Clara, a transitional housing program for victims of domestic violence	30,000	30,000
Parade of Champions (In-Kind Services)	Non-Departmental	Provides in-kind City resources for the parade to celebrate community champions including civic and community leaders	62,424	63,672

Community Organization	Department	Description	FY 2025/26	FY 2026/27
Project Sentinel – Rent Mediation	Community Development	Provides advice, referrals, counseling, and mediation services to tenants and landlords to resolve disputes regarding rental arrangements	69,159	70,542
Santa Clara Library Foundation – Comic Con	Electric Utility	An event held at Central Park library to create awareness of and appreciation for comics and related popular art forms	5,000	5,000
Santa Clara Senior Nutrition	Parks and Recreation	Provides daily delivery of meals to severely disabled and homebound seniors	27,445	27,445
Santa Clara Sister Cities Association	Non-Departmental	Funding for the cultural exchange program for the City of Santa Clara's three sister cities, Coimbra, Portugal, Limerick, Ireland and Izumo, Japan	5,772	5,887
Santa Clara Swim Club	Non-Departmental	Host swim meets which bring national and international visitors to the city	100,000	100,000
Senior Adult Legal Assistance	Community Development	Provides free legal services for seniors that include advice and referrals, document writing and legal representation	30,000	30,000
Silicon Valley Bicycle Coalition – Silicon Valley Bike to Work / Wherever	Electric Utility	Encourages the community to ride bikes for errands, visit friends and family, commute to school and work, and ride recreationally	3,000	3,000
Silicon Valley Independent Living Center	Community Development	Provides housing for persons with disabilities	30,000	30,000
Silicon Valley Youth Climate Action Summit	Electric Utility	An annual event where high school and college students, young professionals, community stakeholders, educators, elected officials and industry leaders are invited to a day of learning, networking and discussion around innovative climate solutions and strategies	5,000	5,000
State of the Valley Conference	Electric Utility	Silicon Valley's annual "town meeting" convenes stakeholders from the entire region to discuss the Valley's challenges and opportunities. The Silicon Valley Index is shared and discussed	5,000	5,000
Triton Museum	Non-Departmental	Provides artistic exhibitions and educational programs	304,936	314,084

<b>Community Organization</b>	<b>Department</b>	<b>Description</b>	<b>FY 2025/26</b>	<b>FY 2026/27</b>
United Way Silicon Valley – 2-1-1 Phone System	Community Development	Non-emergency information and referral for health and human services	5,100	5,202
Utility Energy Forum	Electric Utility	An electric utility event specifically for energy utilities to discuss policy, programs and share innovations	7,000	7,000
Women’s League – Showtime	Non-Departmental	Raises funds in support of the Senior Center Health and Wellness Program	20,000	20,000
<b>Total Outside Group Funding</b>			<b>865,136</b>	<b>877,438</b>

## FY 2025/26 Capital Improvement Program Budget Amendments

### Cemetery Capital Fund (593)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	(23,835)	(\$23,835)	Decreases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2025/26 Adopted CIP budget.
Transfer from the General Fund / PW Capital Projects Management - Cemetery	(4,813)	(4,813)	Updates the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also decreased.
<b>Total Cemetery Capital Fund</b>	<b>(28,648)</b>	<b>(28,648)</b>	

### City Affordable Housing Capital Fund (565)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	3,047,218	3,047,218	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2025/26 Adopted CIP budget.
<b>Total City Affordable Housing Capital Fund</b>	<b>3,047,218</b>	<b>3,047,218</b>	

### Electric Utility Capital Fund (591)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	10,655,227	10,655,227	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2025/26 Adopted CIP budget.
<b>Total Electric Utility Capital Fund</b>	<b>10,655,227</b>	<b>10,655,227</b>	

### Fire Department Capital Fund (536)

Project	Source of Funds	Use of Funds	Explanation
Transfer from General Fund / PW Capital Projects Management - Fire	14,300	14,300	Updates the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also increased.
<b>Total Fire Department Capital Fund</b>	<b>14,300</b>	<b>14,300</b>	

### General Government Capital Fund (539)

Project	Source of Funds	Use of Funds	Explanation
Transfer from General Fund / PW Capital Projects Management - General Government	1,646	1,646	Updates the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also increased.
Transfer from Electric Utility Fund - GIS Enterprise System (Geospatial Information System)	9,375		Increases the transfer from the Electric Utility Fund to account for the COLA increase in the GIS Enterprise System Project. This fund's share of costs is 62.5% of the project budget.
Transfer from Water Utility Fund - GIS Enterprise System (Geospatial Information System)	5,625		Increases the transfer from the Water Utility Fund to account for the COLA increase in the GIS Enterprise System Project. This fund's share of costs is 37.5% of the project budget.
GIS Enterprise System (Geospatial Information System)		15,000	Increases the project budget to include annual COLA adjustments. The current budget does not assume inflation. Funding is offset by transfers in from the Water Utility and Electric Utility Funds.
<b>Total General Government Capital Fund</b>	<b>16,646</b>	<b>16,646</b>	

### Library Department Capital Fund (537)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund / PW Capital Projects Management - Library	1,838	1,838	Updates the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also increased.
<b>Total Library Department Capital Fund</b>	<b>1,838</b>	<b>1,838</b>	

**Parks and Recreation Capital Fund (532)**

<b>Project</b>	<b>Source of Funds</b>	<b>Use of Funds</b>	<b>Explanation</b>
Beginning Fund Balance - Mitigation Fee Act Fees	1,731,958		Increases the Beginning Fund Balance - Mitigation Fee Act Fees to account for changes from the FY 2025/26 Adopted CIP budget.
Beginning Fund Balance - Quimby Fees	2,253,333		Increases the Beginning Fund Balance - Quimby Fees to account for changes from the FY 2025/26 Adopted CIP budget.
Beginning Fund Balance - Developer Contributions / Ending Fund Balance - Developer Contributions	144,725	144,725	Increases the Beginning Fund Balance - Developer Contributions and Ending Fund Balance - Developer Contributions to account for changes from the FY 2025/26 Adopted CIP budget.
Beginning Fund Balance - Recreation Area Lot Fees / Ending Fund Balance - Recreation Area Lot Fees	5,507	5,507	Increases the Beginning Fund Balance - Recreation Area Lot Fees and Ending Fund Balance - Recreation Area Lot Fees to account for changes from the FY 2025/26 Adopted CIP budget.
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	1,046,143	1,046,143	Increases the Unrestricted Beginning Fund Balance and Ending Fund Balance to account for changes from the FY 2025/26 Adopted CIP budget. This represents interest earning anticipated in FY 2024/25 that will be carried over to FY 2025/26.
Transfer from the General Fund	677,269		Increases the Transfer from the General Fund to partially support the Public Works Capital Project Management allocation and fund the City of Santa Clara Public Art Master Plan project.
Transfer from the General Fund - Capital Projects Reserve/Planning and Construction of Temporary and/or Permanent ISC Replacement Facility	(500,000)	(500,000)	Decreases the Transfer from the General Fund Capital Projects Reserve and the allocation for the Planning and Construction of Temporary and/or Permanent ISC Replacement Facility project by \$500,000. This funding was moved up from FY 2025/26 to FY 2024/25 to support the ISC project.
PW Capital Projects Management - Parks & Recreation		1,265,264	Reflects the Public Works Capital Management allocation based on the calculated project distribution. Given that the allocation for this fund is calculated on an annual basis, the FY 2024/25 and FY 2025/26 Adopted Budget had not included an allocation for FY 2025/26.

**Parks and Recreation Capital Fund (532) (Cont'd.)**

<b>Project</b>	<b>Source of Funds</b>	<b>Use of Funds</b>	<b>Explanation</b>
City of Santa Clara Public Art Master Plan (City Council priority)		120,000	Establishes a new City of Santa Clara Public Art Master Plan project that will provide the City with a long-term strategic approach toward public art. This plan will identify and define opportunities; potential permanent, temporary, and performative sites/mediums; and mission, vision, and community/organizational goals. The Public Art Master Plan will also focus on operational and funding strategies, and address maintenance, community engagement and education. This project will help identify sustainable staffing; define artist and artwork selection methods and criteria; establish systems, procedures, and policies that support public art efforts with both internal and external partners while meeting the stated needs of the City and the community with which it serves. This project was identified as a Council priority as is funded by a transfer from the General Fund.
Central Park Access & Parking Improvements Project		1,223,773	Increases the total project budget from \$5,691,177 to \$6,914,950 to reflect increased construction costs using Mitigation Fee Act funds. The initial schematic design was approved by Council in September 2022, but since then, the design has been updated to include additional ADA improvements. The project is currently in the design phase and is anticipating the construction bid award process by early FY 2025/26.
Henry Schmidt Park Rehabilitation Project		3,415,000	Increases the project budget to fund a portion of the project's construction phase using Mitigation Fee Act funds. The total estimated cost of the project is \$8.2 million, of which \$4.2 million is earmarked from the Measure I Bond to fund the remaining construction costs. The project is anticipated to move forward with the construction bid process and construction in FY 2025/26.
Ending Fund Balance - Mitigation Fee Act Fees		(3,564,662)	Decreases the Ending Fund Balance - Mitigation Fee Act Fees to offset the actions above.
Ending Fund Balance - Quimby Fees		2,203,185	Increases the Ending Fund Balance - Quimby Fees to offset the actions above.
<b>Total Parks and Recreation Capital Fund</b>	<b>5,358,935</b>	<b>5,358,935</b>	

### Public Buildings Capital Fund (538)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund / PW Capital Projects Management - Public Buildings	(117,611)	(117,611)	Updates the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also decreased.
<b>Total Public Buildings Capital Fund</b>	<b>(117,611)</b>	<b>(117,611)</b>	

### Recycled Water Capital Fund (597)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	21,800	21,800	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2025/26 Adopted CIP budget.
<b>Total Recycled Water Capital Fund</b>	<b>21,800</b>	<b>21,800</b>	

### Related Santa Clara Developer Fund (540)

Project	Source of Funds	Use of Funds	Explanation
Developer Contributions / Related General Admin Project	395	395	Increases the Developer Contribution estimate and the Related General Admin Project to reflect updated position costing associated with this project.
<b>Total Related Santa Clara Developer Fund</b>	<b>395</b>	<b>395</b>	

### Sewer Utility Capital Fund (594)

Project	Source of Funds	Use of Funds	Explanation
Beginning Fund Balance - Unrestricted	(392,402)		Decreases the Unrestricted Beginning Fund Balance from \$4,887,548 to \$4,495,146 to account for changes from the FY 2025/26 Adopted CIP budget.
Beginning Fund Balance / Ending Fund Balance - Restricted Sewer Conveyance Fee	914,158	914,158	Increases the Restricted Beginning Fund Balance - Sewer Conveyance Fee (from \$26,525,589 to \$27,439,747) and Restricted Ending Fund Balance - Sewer Conveyance Fee (from \$20,525,589 to \$21,439,747) to account for changes from the FY 2025/26 Adopted CIP budget.

**Sewer Utility Capital Fund (594) (Cont'd.)**

<b>Project</b>	<b>Source of Funds</b>	<b>Use of Funds</b>	<b>Explanation</b>
Sanitary Sewer System Improvements		900,000	This action increases the Sanitary Sewer System Improvements project by \$900,000 (from \$1,100,000 to \$2,000,000) to replace additional sewer mains, as a result of the sewer main assessments.
Public Works Paving Project Support - Sewer		500,000	This action establishes the Public Works Paving Project Support - Sewer in the amount of \$500,000 to account for costs associated with raising manholes as a result of work completed through the Public Works' Annual Pavement Project.
PW Capital Projects Management - Sewer Utility		359,760	This action increases the PW Capital Projects Management - Sewer Utility project by \$359,760 to reflect the updated Public Works allocation for project delivery related to the Sewer Utility.
Sanitary Sewer Hydraulic Modeling As Needed Support		(61,629)	This action decreases the Sanitary Sewer Hydraulic Modeling As Needed Support project by \$61,629 to reflect the updated Public Works allocation for project delivery related to the Sewer Utility.
Unrestricted Ending Fund Balance		(2,090,533)	Decreases the Unrestricted Ending Fund Balance from \$3,887,548 to \$1,797,015 to offset the actions recommended above.
<b>Total Sewer Utility Capital Fund</b>	<b>521,756</b>	<b>521,756</b>	

**Solid Waste Capital Fund (596)**

<b>Project</b>	<b>Source of Funds</b>	<b>Use of Funds</b>	<b>Explanation</b>
Beginning Fund Balance - Landfill Corrective Action Costs	314,223		Increases the Ending Fund Balance - Landfill Corrective Action Costs Reserve to account for changes from the FY 2025/26 Adopted CIP budget.
Unrestricted Beginning Fund Balance	(60,758)		Decreases the Unrestricted Beginning Fund Balance to account for changes from the FY 2025/26 Adopted CIP budget.
Ending Fund Balance - Landfill Corrective Action Costs		307,052	Increases the Ending Fund Balance - Landfill Corrective Action Costs Reserve to align with updated estimates.

### Solid Waste Capital Fund (596) (Cont'd.)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Ending Fund Balance		(53,587)	Decreases the Unrestricted Ending Fund Balance to offset the action above.
<b>Total Solid Waste Capital Fund</b>	<b>253,465</b>	<b>253,465</b>	

### Storm Drain Capital Fund (535)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	(13,788)	(13,788)	Decreases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2025/26 Adopted CIP budget.
Transfer from the General Fund / PW Capital Projects Management - Storm Drain	54,974	54,974	Increases the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also increased.
<b>Total Storm Drain Capital Fund</b>	<b>41,186</b>	<b>41,186</b>	

### Streets and Highways Capital Fund (533)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance	(228,775)	(228,775)	Decreases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2025/26 Adopted CIP budget.
Transfer from the Electric Grant Operating Trust Fund	(766,598)		Decreases the transfer from the Electric Grant Operating Trust Fund for the Pedestrian and Bicycle Enhancement Facilities Project and the Cupertino-Santa Clara On-Demand Shuttle Project.
Transfer from the General Fund / Tasman to Lafayette Walkway/Stairway Project	200,000	200,000	Establishes the Tasman to Lafayette Walkway/Stairway project for a feasibility study for a walkway/stairway with carve-out under bridge for rideshare. This study was identified as a City Council priority and is funded by a transfer from the General Fund.

**Streets and Highways Capital Fund (533) (Cont'd.)**

<b>Project</b>	<b>Source of Funds</b>	<b>Use of Funds</b>	<b>Explanation</b>
Transfer from the Traffic Mitigation Fund	(41,000)		Decreases the transfer from the Traffic Mitigation Fund to account for lower than anticipated Traffic Mitigation Fee revenue.
Santa Clara VTA - Congestion Management Program		(1,000)	Decreases the Santa Clara VTA - Congestion Management Program project by \$1,000 to account for reduced transfer from the Traffic Mitigation Fund.
Cupertino-Santa Clara On-Demand Shuttle Project		(501,598)	Decreases the Cupertino-Santa Clara On-Demand Shuttle project by \$501,598 as the project has been eliminated.
Traffic Signal Enhancements		60,000	Increases the Traffic Signal Enhancements project by \$60,000 to account for the reallocation of funding from the Traffic Mitigation Fund.
Traffic Signal Interconnect Upgrade		(50,000)	Decreases the Traffic Signal Interconnect Upgrade project by \$50,000 to account for reduced transfer from the Traffic Mitigation Fund.
Transportation Modeling Update		(50,000)	Decreases the Transportation Modeling Update project by \$50,000 to account for reduced transfer from the Traffic Mitigation Fund.
Pedestrian and Bicycle Enhancement Facilities		(265,000)	Decreases the Pedestrian and Bicycle Enhancement Facilities project by \$265,000 to reflect the decreased transfer from the Electric Grant Operating Trust Fund.
Transfer from the General Fund / PW Capital Projects Management - Streets and Highways	(282,752)	(282,752)	Updates the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also decreased.
<b>Total Streets and Highways Capital Fund</b>	<b>(1,119,125)</b>	<b>(1,119,125)</b>	

### Tasman East Infrastructure Improvement Fund (541)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	9,183	9,183	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2025/26 Adopted CIP budget.
<b>Total Tasman East Infrastructure Improvement Fund</b>	<b>9,183</b>	<b>9,183</b>	

### Water Utility Capital Fund (592)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance	2,708,516		Increases the Unrestricted Beginning Fund Balance, from \$3,896,155 to \$6,604,671, to account for changes from the FY 2025/26 Adopted CIP budget.
Buildings and Grounds		500,000	This action increases the Buildings and Ground project by \$500,000 (from \$2,250,000 to \$2,750,000). This additional funding is necessary to comply with Bay Area Air Quality Management District requirements released in November 2024, which requires generators be at Tier 4, instead of Tier 3.
Distribution System Replacement/Restoration		1,500,000	This action increases the Distribution System Replacement/Restoration project by \$1,500,000 (from \$3,000,000 to \$4,500,000). This additional funding is necessary to account for higher than anticipated main replacement costs, particularly increased paving costs which have nearly doubled since the original estimates.
Public Works Paving Project Support - Water		500,000	This action establishes the Public Works Paving Project Support - Water in the amount of \$500,000 to account for costs associated with raising water valves as a result of work completed through the Public Works' Annual Pavement Project.
Unrestricted Ending Fund Balance		208,516	Increases the unrestricted ending fund balance, from \$2,896,155 to \$3,104,671, to offset the actions recommended above.
<b>Total Water Utility Capital Fund</b>	<b>2,708,516</b>	<b>2,708,516</b>
