# Presentation on Santa Clara- Icheon Students Exchange Program

# Final Project

All students worked together to create a memorable final project.

# Summary

**When:** 3 Fridays (10/23, 10/30 and 11/7)

**Where:** On Zoom

**Who:** 15 students and 4 teachers from the Icheon Office of Education & 14 students and 2 teachers from Santa Clara City.

**What:** 1st week - U.S.A. Culture vs. Korean Culture

2nd week - School Life in the U.S.A. vs. Korea

3rd week - What is in my bag?

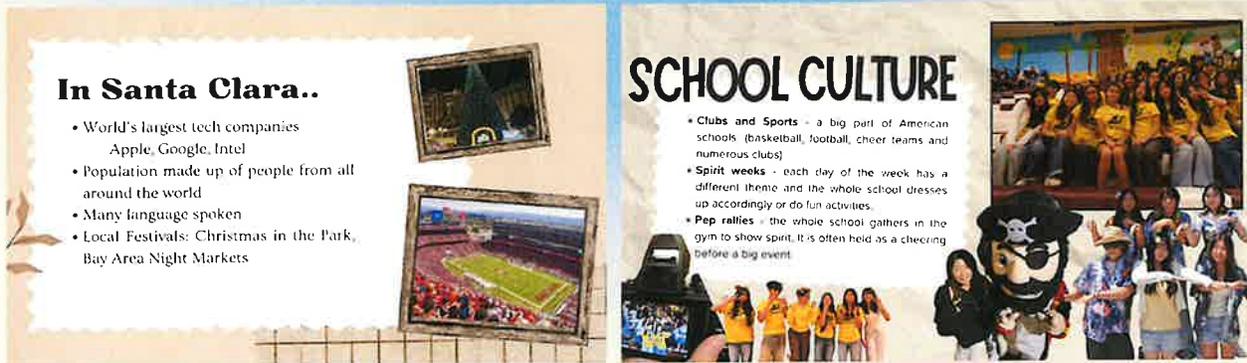

# Remarks

Eun-Sun Heo

Director of Education  
Icheon Office of Education

# Presentations

We came up with slides every week on different topics. By doing so we learned about each other's cultures.

# Discussions

Every week we would have a group discussion in English on different topics.

- AI in the classroom—is it an opportunity or threat
- What is the most urgent problem to be addressed in the world

# My Experience

I'm grateful to have had a chance like this and I hope to be able to participate in similar programs like this in this future!

- Understanding each other's culture in depth
- Perspectives of other students on worldwide topics
- Friendships overseas

# What I Experienced

I learned about the differences in culture, but more importantly, I created a long-distance connection with people that I never would have interacted with otherwise if I didn't join this Exchange Program. I made strong bonds with the people in my group, where we even called and played games together long after the Exchange Program ended. To this day, I still talk with the people in my group and gained priceless experiences because of the Exchange Program.
