Investment Strategy and Market Update

Chair Powell noted tariff-driven price pressures are likely to be temporary and result in a one-time upward shift in price levels, although the timing and impact may be uneven. Powell's comments suggest the Fed may be shifting its focus to the weakening labor market.

The August jobs report once again surprised to the downside with 22,000 new jobs created. Meanwhile, the unemployment rate rose to 4.3%. Given the continued deterioration in employment data, the market now fully expects the Fed to cut rates in September.

The Consumer Price Index (CPI) remained steady at 2.7% on a year-over-year basis. Goods prices continue to show uneven tariff passthroughs as inventory buffers are depleted while services inflation was driven by volatile categories such as airfares and dental services. The Fed remains focused on ensuring tariff-based goods inflation does not spill over into the broader economy.

Second quarter gross domestic product (GDP) was revised higher to 3.3% on stronger consumer spending and business investment. While the data still points to a moderation in activity compared to last year, the slowdown may not be as severe as originally feared.

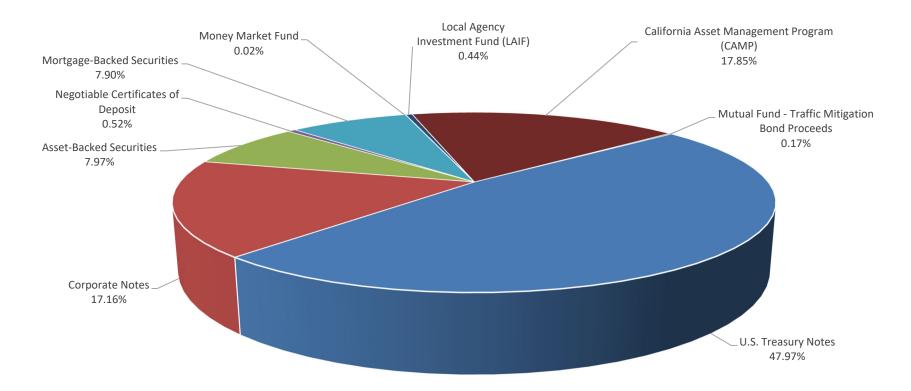

Yields on 3-month, 2-year, and 10-year U.S. Treasuries fell across the curve and ended August at 4.15%, 3.62%, and 4.23%, representing decreases of 19 basis points (bps), 34 bps, and 15 bps, respectively. The yield curve steepened as the yield difference between 2- and 10-year maturities breached 60 bps for the first time since mid-April.

While yields inside of 10 years fell over the month, the 30-yearTreasury rose 3 bps and ended August at 4.93%, reflecting market concerns over inflation, the U.S. fiscal situation, and the potential loss of Fed independence.

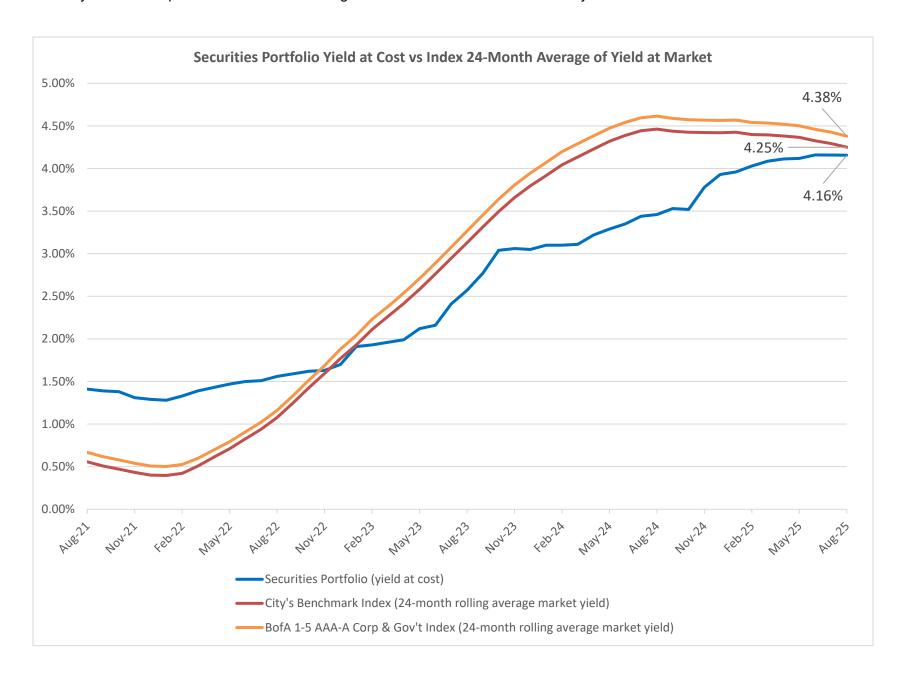

Fixed income indices produced strong returns for the month. The ICE BofA 3-month, 2-year, and 10-year U.S. Treasury indices returned +0.39%, +0.87%, and +1.55%, respectively.

The City's investment strategy for August 2025 was to invest funds not required to meet current obligations, in securities listed in the prevailing Investment Policy Statement, with maturities not to exceed five years from date of purchase. This strategy ensures safety of the City's funds, provides liquidity to meet the City's cash needs, and earns a reasonable portfolio return. PFM Asset Management LLC began actively managing the City's securities portfolio on September 1, 2020.

As of August 31, 2025, 47.97% of the City's portfolio consists of U.S. Treasury Notes, 17.85% consists of California Asset Management Program (CAMP), 17.16% consists of investment grade Corporate Notes, 7.97% consists of investment grade Asset-Back Securities, 7.90% consists of investment grade Mortgage-Backed Securities, 0.52% consists of Negotiable Certificates of Deposit, and 0.44% consists of Local Agency Investment Fund (LAIF). In addition, City bond proceeds are invested in separate funds and are not included in the calculation of the City's portfolio yield.

The City's securities portfolio is benchmarked against the ICE BAML 1-5 US Treasury Index.

The following table summarizes the investment yields other information of the City's investment portfolio components, along with comparable-maturity market indices. Also shown are the monthly interest income and aggregate year-to-date income.
