Subject: NURC Meeting May 5, 2025 Agenda Item 5

I urge the Neighborhood University Relations Committee to accept the staff report regarding the update on the restructuring process for the Neighborhood University Relations Committee. This proposal is a much needed update to the NURC and I believe it will provide benefits to all the stakeholders. It will add important stakeholders to the membership of the Committee. It will provide a forum for discussion of proposals and projects to improve the collaboration of the neighborhood, SCU and the City of Santa Clara.

I also urge the Committee to implement this proposal on a speedy timeline. While respecting the process, there is much opportunity to move forward so the sooner the new Committee can be established the better.

Thank you,

Mark Kelsey
