

SCS Development INC.  
ATTN: Ken Perry  
404 Saratoga Avenue Suite 100  
Santa Clara, CA 95050

Dear Ken, I would like to thank you on behalf of Ohlone Community College for your donation of **Church Organ Pipes**, equipment and supplies, as well as providing labor to assist in the removal and loading of the trucks.

The organ pipes are already in the process of being installed into our Smith Center, Jackson Theatre. They will interface with our 100-year-old Mighty Wurlitzer pipe organ. This organ was donated to use and has been part of an 8-year restoration/installation process. The work has been done by students, staff and community volunteers and is nearing completion. The pipes we received from SCS will be part of the "ECHO" division and will bring music from the back of the Theatre forward. The organ will be used for Ohlone Music department events, pre-show music and Silent Film accompaniments. Missing parts for the organ have come from all over the Bay Area down to Southern California and were made possible by donors and organ enthusiast.

Thank You again,

Christopher Booras  
Director of Civic & Smith Center Operations  
Ohlone College- Smith Center
