We apologize but we were unable to gain access to the Zoom call until 4 p.m. in which it was a closed session. The owner of ABC Tree Farms, Jerry Klima, repeatedly had issues downloading the application and by the time we logged in it was already in a closed session. We just wanted to reiterate that we are prepared for alternate scenarios for the pumpkin patch at 3590 Benton Street, Santa Clara PLN2020-14507 and we did submit other site plans and method of operations yesterday. We understand that we fully need to comply with any local government, health, county or state ordinances that are in place at the time of operation. We would be happy to discuss those options and revise our plans to operate if needed. We appreciate the City working with us during these uncertain times. The owner can be reached at 503-975-8733 or myself at 408-393-6303.

Sincerely,

Holly Prinz
