You don't often get email from [REDACTED] [Learn why this is important](#)

Hi Lesley,

I am fully occupied for various things related to her care as she is recovering in hospital, so next week will not work for me either. Don't have visibility till June; depends on how her condition improves doing intense therapies.

How many days before a meeting you need to be notified? Will keep that in mind and will let you know. For now do not schedule in May/June.

Thanks and appreciate all the help.

Dear Ms Xavier,

My wife Thuyloan and I, her husband, were planning to attend the meeting 21st May and present our case before the planning commission members. But she got a stroke over the weekend and admitted in El Camino Hospital critical care. She has impaired mobility and speech due to this.

This is very unfortunate as we came back from Vietnam and was getting ready for this. Requesting you to postpone the meeting for couple of months to give her some time to recover.

Appreciate your support on this.
