NOW THEREFORE, BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

1. That the City Council hereby finds that the above Recitals are true and correct and by this reference makes them a part hereof.

2. Vesting Tentative Subdivision Map Findings. Pursuant to California Government Code Sections 66426 and 66428 and SCCC Section 17.05.300(h), the City Council finds and determines that:

A. The Vesting Tentative Subdivision Map is consistent with the objectives, policies, general land uses and programs specified in the City's General Plan in that the Vesting Tentative Subdivision Map merges the two adjacent 0.48 acre Project Site to create a one-lot subdivision for condominium purposes for 11 residential units and one common lot to effectuate the previously approved residential development of 11 townhouses, on-site parking, and common landscaped areas with shared maintenance of the building and public and private site improvements compatible with neighboring low intensity residential development and the commercial uses to the north of the project site, subject to conditions set forth in the Conditions of Vesting Tentative Subdivision Map Approval, attached hereto and incorporated by this reference.

B. The design and improvements of the proposed subdivision are consistent with the City's General Plan in that the Vesting Tentative Subdivision Map facilitates development of a diversified housing stock and construction of ownership housing opportunities for the community; and furthermore complies with General Plan Land Use and Transitional Goals and Policies of the General Plan in that it transforms the underutilized properties from a vacant, low-intensity commercial use to a medium density residential development that would transition in scale and intensity of use with existing and planned land uses; and is in proximity to transit with multi-modal connections to local and regional transit service to support transit ridership and reduce vehicle miles

traveled.

C. The site is physically suitable for the proposed type of development, in that the Project provides a transition between low intensity residential development and the existing commercial uses along El Camino Real.

D. The site is physically suitable for the proposed density of development, in that the Project Site is in an urbanized area and is served by existing utilities and infrastructure.

E. The design of the subdivision and type of improvements are not likely to cause serious health problems, in that the proposed residential subdivision will implement Covenants, Conditions and Restrictions for operation and maintenance of the buildings and site improvements and does not propose the use of hazardous materials.

F. The design of the subdivision and type of improvements are not likely to cause substantial environmental damage and will not substantially or unavoidably injure fish or wildlife or their habitat in that the Project Site is located in an urbanized setting, is a developed site, and the proposed subdivision includes mitigation measures, as identified in the MND and MMRP, that reduce impacts to biological resources to less-than-significant levels.

G. The design of the subdivision and type of improvements will not conflict with easements acquired by the public at large or use of property within the proposed subdivision in that it is designed to avoid encroachment and conflicts with public easements in the site design.

H. The Vesting Tentative Subdivision Map provides, to the extent feasible, for future passive or natural heating or cooling opportunities, in that it would allow flexibility in the development standards to maximize the benefits of green building standards for site and building design.

3. Based on the findings set forth in this Resolution and the evidence in the Staff Report and such other evidence as received at the public hearings on this matter before the City Council, the City Council hereby approves the Vesting Tentative Subdivision Map, substantially in the form on file as shown on the attached Vesting Tentative Subdivision Map and Conditions of Vesting Tentative Subdivision Map Approval, hereby incorporated by this reference.

4. Effective date. This resolution shall become effective immediately.
