Landscape design agreements must include text supporting sustainability and both the draft and final Climate Action Plan (CAP). Sustainability and CAP should preclude synthetic turf, which pollutes our Bay and oceans: According to National Geographic, "... microplastics are spread throughout the water column ... and <are> found in every corner of the globe, from Mount Everest ... to the Mariana Trench ... <and> in municipal drinking water systems and drifting through the air." <bit.ly/3mF91kf>
