Date: Monday, January 25, 2021 3:27:43 PM

Hi Marshall! I can bring this up under public presentation today, but if you want to share the email, with photo, with the group, be my guest.

Sincerely,

Diane Harrison

Diane:
Since you seem to be in touch with the Santa Clara Bicycle Advisory Committee, can you share this with them? The city advised that they can't address my concern, but the committee can:

Thanks,
Ray

Please remove the chain-link fences on the Tracy Drive/Mauricia Avenue path crossing over Saratoga Creek. We want to encourage cycling, not discourage it. In 2013, the same annoying fences were removed in Palo Alto over Adobe Creek at Creekside Drive. Fabulous!

Palo Alto bridge crossing photo attached.

P.S. As an aside, in the early 1990s my front brake cable snapped as I approached the chain link fence, causing me to flip over, ruining my fork and bending my top tube, which failed 20 years later while riding on the backside of Mt. Hamilton.
