Investment Strategy and Market Update

At the July Federal Open Market Committee (FOMC) meeting, the Federal Reserve (Fed) left the federal funds target rate unchanged at 5.25% to 5.50%, which was in line with expectations. However, the Committee's accompanying statement highlighted a transition to a more balanced consideration of both parts of its dual mandate of maximum employment and price stability. Furthermore, Fed Chair Powell hinted that a rate cut could be on the table at the September meeting.

June inflation readings continued to make gradual progress towards the Fed's 2% target. Both the year-over-year change in the Consumer Price Index (CPI) and Personal Consumption Expenditures Index (PCE) slowed to 3.0% and 2.5%, respectively. The improved inflation picture was highlighted by Chair Powell at the latest FOMC meeting. He noted that recent readings have added to the Fed's confidence that inflation is moving sustainably towards 2%.

The July jobs report missed expectations badly. Nonfarm payrolls showed just 114,000 net new jobs versus estimates of 175,000. The unemployment rate also ticked higher to 4.3% underscoring continuing moderation of the labor market from historically tight levels. Combined with other weakening measures of employment, such as a rise in weekly jobless claims, the market response was swift and decidedly downbeat. Immediately after the report, stocks went into a two-day tailspin and bond yields plunged.

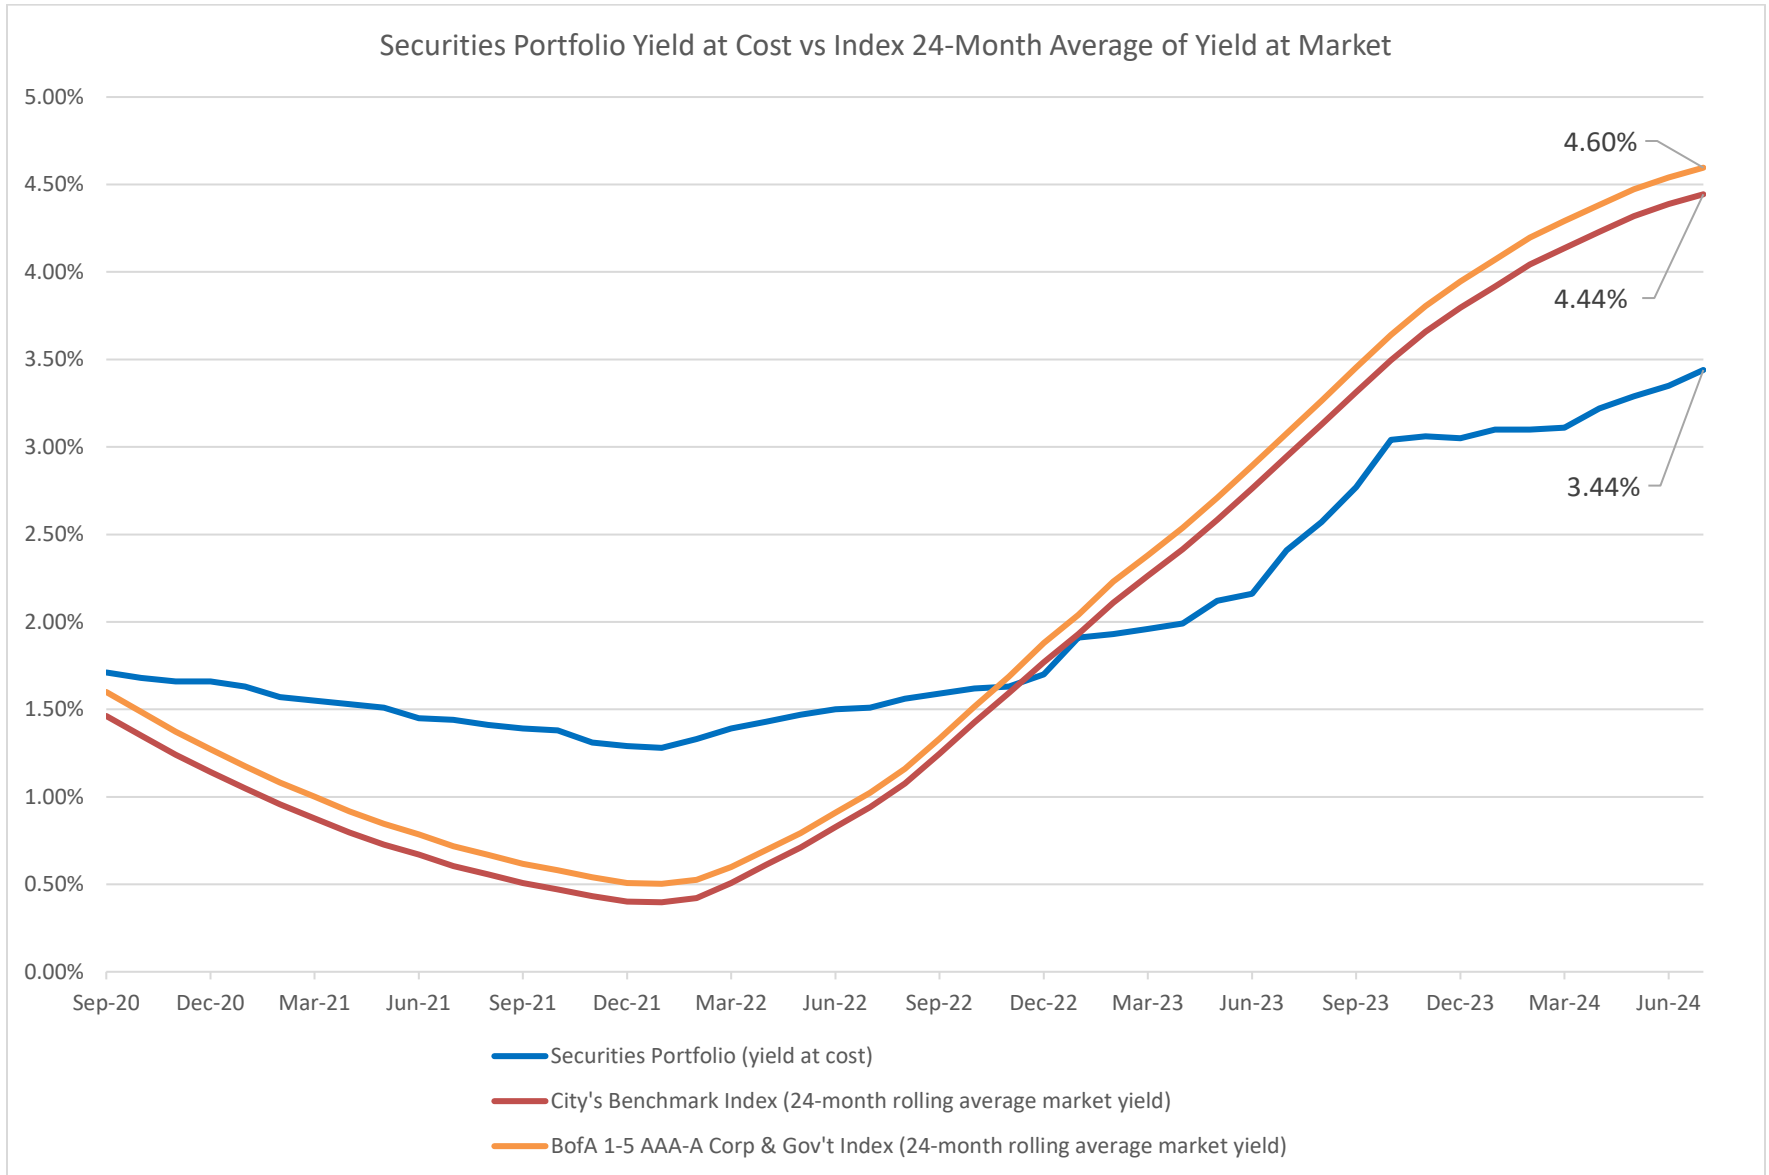

Yields on benchmark 2-, 5-, and 10-year U.S. Treasuries ended the month at 4.26%, 3.91%, and 4.03%, respectively, representing changes of -50, -47, and -37 bps for the month, respectively.

The City's investment strategy for July 2024 was to invest funds not required to meet current obligations, in securities listed in the prevailing Investment Policy Statement, with maturities not to exceed five years from date of purchase. This strategy ensures safety of the City's funds, provides liquidity to meet the City's cash needs, and earns a reasonable portfolio return. PFM Asset Management LLC began actively managing the City's securities portfolio on September 1, 2020.

As of July 31, 2024, 44.01% of the City's portfolio consists of U.S. Treasury Notes, 18.56% consists of California Asset Management Program (CAMP), 18.47% consists of investment grade Corporate Notes, 6.90% consists of Federal Agencies, 5.51% consists of investment grade Asset-Back Securities, 5.07% consists of investment grade Mortgage-Backed Securities, 0.65% consists of Negotiable Certificates of Deposit, and 0.52% consists of Local Agency Investment Fund (LAIF). In addition, City bond proceeds are invested in separate funds and are not included in the calculation of the City's portfolio yield.

The City's securities portfolio is benchmarked against the ICE BAML 1-5 US Treasury Index.

The following table summarizes the investment yields other information of the City's investment portfolio components, along with comparable-maturity market indices. Also shown are the monthly interest income and aggregate year-to-date income.
