I oppose the general plan amendment for 950 Monroe Street. A general plan amendment is a discretionary power of the City Council, and the City is under no obligation to grant an amendment to the benefit of a single developer. Such amendments should be granted only as part of a larger planning process such as a general plan update or precise plan. Deny this request.

Santa Clara desperately needs more affordable housing like this development for families. To the homeowners who oppose this development on the grounds that it is inconsistent with the "neighborhood character": What kind of "neighborhood character" will we have when families can't afford to live here? When middle-income families like mine are forced to move out? When teachers, healthcare workers, and professors are replaced by retirees and AirBnBs? We need many, many more buildings like this.

Please do not approve 950 Monroe or ANY further downtown projects until the downtown plan is finalized and the form based code is adopted.

You do not want to be known for ruining the neighborhood and approving this intrusive project.
