Historical and Landmarks  
Attachment to Application

Please state reasons why you want to become a member of this Board/Commission/Committee, including what specific objectives you would be working toward as a member of this advisory board

I would like to become an active member in local politics and to better understand how commissions operate within the municipal government. Social work and the community has been the focus of my professional and educational endeavors for approximately the past ten years. I began interning and working with marginalized populations in 2008 while attending UC Santa Cruz in Santa Cruz, CA. I gained an understanding of social movements and the intersections of culture, history, and community.

After graduating I spent approximately four years working as a Housing Specialist at the Silicon Valley Independent Living Center (SVILC) in San Jose, CA, where I served clients with disabilities. During this time, I spoke before the City Council along with other members of SVILC to request continued funding which supported a disability-accessible home in Santa Clara. I enjoyed speaking before the City Council and was impressed by the professionalism and welcoming environment created by the council members.

Now that I have completed my Masters in Social Work at San Jose State University and started a new career as a child welfare social worker with the County of Santa Clara Department of Family and Children's Services, I have the free time needed to join a city commission and am excited for this opportunity. I have become more interested in history as I recognize the importance and relevance of how it has shaped our current values and culture. Preserving and supporting historical landmarks and museums maintains a connection to the remaining vestiges of our physical past.

As a member of this advisory board, I would work diligently to learn the Secretary of the Interior's Standards for the Treatment of Historic Properties to ensure that these standards are upheld during rehabilitation of historic properties. I would listen to the members of the community as they voice their opinions about matters which the commission oversees. I would also encourage the development of new learning opportunities in the community in the form of museums, historical landmarks, and street names which honor the leaders of our local and global communities.

Additionally, I have been interested in architecture as it pertains to home design since I was a child. When I was in middle school, I used to enjoy reading magazines with blueprints of home designs. In fact, I tore out one of the pages which contained my favorite home design and have planned to build it since I was eleven or twelve years old. I liked that it was different than all of the other designs because it had round walls and a three-story bay window which extended from the basement to the second floor. The home design means a great deal to me because it is a part of my own history.

I have been a happy resident and registered voter in the City of Santa Clara since May of 2017, and before that for one year in 2014. It would be my honor serve on this commission and would do so with great pride and humility. I humbly request the board's consideration and appointment of me as a member of the Historical and Landmarks Commission. I look forward to hearing from you. Thank you very much.

Any other information which you feel would be useful to the City Council in reviewing your application

I have served the populations listed below either through work or internship experiences. Serving these diverse communities has broadened my understanding of the human condition and the different ways in which people live. History and culture permeate families and families, in turn, define a community. During this evolution, it is important that historical landmarks, museums, and street names honor and maintain our connections to the past because it is these connections which shape our future. I have had the privilege to serve the following populations:

- homeless adults and families
- low-income senior citizens
- people with disabilities include mental illnesses, physical, developmental, and intellectual disabilities, learning disabilities, and substance use
- youths and adults in the criminal justice system
- families receiving public assistance
- undocumented immigrants including farmworkers

Please state reasons why you want to become a member of this Board/Commission/Committee, including what specific objectives you would be working toward as a member of this advisory board:

I recently attended the "Downtown" meetings and saw that most people who attend those events don't really have a good grasp of the younger generation's likes and dislikes. In fact, I was shut down by a couple of the veteran attendees when I tried to voice my opinions in small group discussions. I would love to bring different viewpoints to the commission and help foster involvement from a wider range of residents from around the community. This is a very unique city with a lot of historical significance and I would love to highlight those features to the residence and visitors who are unaware of them. Better informed citizens will help preserve the historically significant features for future generations to enjoy.

**Special Interests, Hobbies or Talents**

I have earned a B.S. in History and completed all coursework for an M.A. in Public History, pending acceptance of my capstone paper. These studies have provided me with an excellent array of coursework and practical experience in both specific historical areas of study and concepts of preservation and presentation of history for the public. My studies, research, and public programs have included topics of national and world history, as well as state and local history. I have experience in working with the online and physical facilities and collections of state and local libraries and historical organizations to obtain historical documents, public and military records, photographs, and literature. I have familiarity and skill in working with a variety of photographic and imaging equipment for artifacts, documents, and microfiche.

In the City of New Britain, I created public programs that helped enliven community pride in an otherwise depressed post-industrial city. I am extremely proud of Timeless Tales of Fairview Cemetery, a dramatic historical reenactment program that portrays and celebrates the lives of people that make up the city's heritage that I researched, wrote, and developed. Another program I am proud of is the anti-bullying program built around a series of KKK visits to the city in the 1980's presented to middle school students. These and other programs have given me experience working with a variety of civic entities, including school administrations and teachers, public libraries, public works departments, police and fire departments, Parks and Recreation departments, town and city councils, and mayors' offices.

I have also gained academic and professional experience in organizational history, historic surveys, and resource inventories. This includes a resource inventory of New Britain's Walnut Hill Park for the purposes of creating a walking tour podcast and submittal to the National Register of Historic Places. I interned at Mystic Seaport, where I created and conducted a visitor survey for a new program and conducted a survey of its collections to identify Civil War-era items for a new online database. I contributed to the recent writing of the organizational history of the Harriet Beecher Stowe house museum, by researching and writing the history of the organization's public programming.

In writing the book *Legendary Locals of New Britain* for Arcadia Publishing, I became familiar with the organizational and corporate history of many of the city's businesses and public institutions dating from colonial times to the present day. For local history and community development courses I conducted research on environmental changes to the city from over three hundred years of human inhabitation, agriculture, and industry. Finally, both my educational and professional experiences have made me quite comfortable working in teams, collaborating, and interacting with people of a variety of backgrounds and professions.
