# Historical Information

- California Business & Professions Code 7592.8 (originally enacted in 1982) specifically allows a City to require residential and commercial alarm owners to obtain a permit, and to enact ordinances addressing responses to false alarms
- City Council originally adopted False Alarm regulations in 1994 (Ord. No. 1653), amended substantially in 1999 (Ord. No. 1735), with minor modifications in 2008 (Ord. No. 1836), and renumbering
- The City's False Alarm regulations have existed in essentially the same form since 1999

# Chapter 8.40 of the City Code

- Municipal Code Chapter 8.40, False Alarm Regulation, exists to ensure accurate, up-to-date information for Fire or Police personnel responding to the alarmed location.
  - It also enables emergency personnel to contact responsible parties and/or alarm repair company representatives should the alarm need to be reset, has a recurring problem, or the site needs to be secured.
  - Having this information readily available allows City personnel to return to providing services to the community in a timely manner.

# Technology

- The City's Computer Aided Dispatch (CAD) was linked to WINPACS, an alarm management software
- Like the former CAD system, WINPACS was archaic, did not provide the Police Department with technology currently available in alarm management systems and did not integrate with Hexagon CAD.
  - For example, WINPACS did not allow residents to register online, pay via credit card or provide staff with automatically generated invoices
  - Since the integration to Hexagon CAD, the Police Department has been manually managing new Residential and Business Alarm permits, renewals and bill collection

# Purpose of an Alarm Registration and Annual Renewal

- Alarm Registration
  - Makes emergency personnel aware of emergency contacts for the location
  - Provides information about special conditions (e.g. animals, hazardous materials, etc.)
- Alarm Renewal
  - Third-party to provide notification of renewal approximately 30-45 days in advance of expiration
    - Renewals accepted via paper registration, online or by calling a customer service representative
  - A renewal requirement creates an annual opportunity to update contact information, mailing address, phone numbers, special conditions, etc.
  - Renewal results in a more accurate database, reducing staff time connected with justified and false alarms

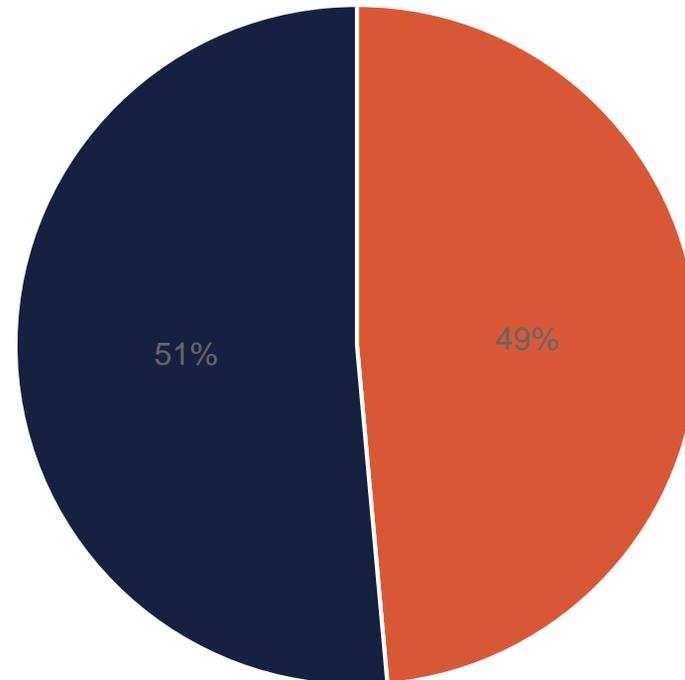

# Supporting an Alarm Permit Program

- **Community Service Officer** to address customer questions, accept and process registration form, reach out to unpermitted locations regarding Ordinance, activation and need to register, conduct invoice and subsequent notification(s), manage payments, prepare analytics
- **Public Safety Dispatcher** to receive calls for service from Monitoring Centers, residents or businesses regarding an alarm activation and deploy resources
- **Police Officers** and/or **Firefighters** to respond to the call for service
- **All of the above** to make contact with responsible party's as a result of an alarm activation, justified or false

# Agreement with Superior, LLC

- Superior, LLC is a state-of-the-art alarm management system with the capability to be integrated into Hexagon CAD
- If approved, enhanced services to residents, business and staff will include:
  - Provide citizens and businesses with secure 24/7 online access to account information via an agency dedicated website;
  - Automatically generate notices, create invoices and calculate fees in accordance with our Municipal Fee Schedule and City Code;
  - Integrate alarm incidents, billing and accounts receivable information;
  - Fully automated interface with our Hexagon CAD system for daily transfers of alarm incident data, permit status, alarm system contacts and site hazards between CryWolf® and Hexagon;
  - Capture, track, and account for the filing and adjudication of hearings and appeals in accordance with your direction
  - Provides an administration portal for city staff to run reports in the program

# Agreement System Requirements

- The Agreement with Superior, LLC meets applicable Payment Card Industry standards for confidentiality and data security
  - Services will house all data in the United States
  - Indoor and outdoor 24/7 on-site security guard at the facility
  - Badge/picture ID access screening
  - Escort requirements for access to raised floor areas
  - Logged entries for all users entering and exiting the premises
  - Perform daily back-up of the data
  - Secure Socket Layer (SSL) encryption will be utilized for transmission of personal data

# Revenue Sharing Split with Superior, LLC

- Through analysis and review of the Police Department's alarm program and corresponding revenue, new fees were proposed and a revenue sharing split was negotiated
- There are no upfront costs or annual maintenance fees as part of this Agreement. Instead, Superior (24%) and the City of Santa Clara (76%) will split the estimated revenue
- The first-year revenue and expenditure estimates were included in the FY 2019/20 Adopted Operating Budget. These included proposed adjustments to Chapter 8.40 Security Alarm Systems and the Municipal Fee Schedule estimated annually at \$246,000 (or, \$186,960 to the City of Santa Clara)
- The proposal includes taking action on a three-year Agreement with Superior LLC, and authorize the City Manager to automatically renew the agreement for additional one-year periods, with a maximum of two additional one-year periods

# Alarm Permit Revenue

Year	Revenue Collected
2015	\$51,275
2016	\$104,742
2017	\$115,466
2018	\$212,883
January – August, 2019	\$92,114

## Cost Recovery

- Total programmatic cost - \$954,333
- Alarm dispatch requests – 3,567
  - 2,708 responses equates to approximately \$352 per call for service through the response period
- Proposition 26, categorized False Alarm fees as regulatory fees; a regulatory fee must not exceed the cost to administer the program
- Currently, there is a deficit in the regulatory program; fees would need to increase significantly to cover administrative expenses
