---

Good Day,

Tonight I understand Council will be evaluating Brian Doyle on his performance. Brian Doyle has demonstrated the highest level of integrity and commitment to the city of Santa Clara.

It is no secret within our community that the 49ers have backed several of our council members and that the 49ers would love to have complete control of the city. What a shame! This is an opportunity for the members of the council to be fair and put their favoritism to the 49ers aside and evaluate Brian Doyle fairly. Several of you have resentment about the lawsuit the city lost in regard to council districts. Brian is the attorney. but the city council over the years has been responsible.

Several of the council members (who are NOT attorneys) made suggestions that were totally ridiculous, to get out of the lawsuit. Where were you when this started years ago? Again, if Mahan and Kolstad had. done the RIGHT thing when Dominic Caserta's council seat was vacant, the lawsuit would never taken place.

Many of us are frustrated with the lack of support from several of you towards the Fire and Police Departments. I don't need to print your names, we all are aware of your names. I'm sure several of you have hopes to be Mayor in the next election. To be Mayor you need to separate yourselves from the 49ers and show a commitment to the core services of the city of Santa Clara. As a resident, my neighbors and I rely on these services.

Please step and show the integrity and independence we deserve. The York family does not live in Santa Clara and the 49ers should not be more important that the residents. Brian Doyle has represented us well and deserves a fair evaluation with the ability to address council with any concerns they may have.

Respectfully,

Carolyn McAllister
