GENERAL BUSINESS

2. [21-809](#) Parks & Recreation Commission Work Plan Goals for FY 2020/21 Final Update and Discussion of Work Plan Goals and Activities for FY2021/22

Recommendation: Discuss Parks & Recreation Commission Work Plan Goals for FY 2020/21 and develop Work Plan Goals for FY2021/22 and appoint subcommittee(s) as needed.

On June 15, Director Teixeira provided the final update for the Work Plan Goals A-D for FY2020/21.

Work Plan Goal A: Since the completion of the Facility Condition Assessment (Kitchell Report 2018) the Department and the Commission have continued to inform the community about infrastructure conditions at park sites and facilities throughout the City. The park system has \$100M to \$150M of aged infrastructure improvements and renewals needed in the City's park system. The City has used Quimby Act revenues for rehabilitation of existing parks contingent upon the expansion of park amenities' capacity and given the finding of a nexus to the new housing development paying the fees.

Work Plan Goal B: There is a rehabilitation project on the current agenda for Commission input and review, (gazebo enhancement at City Plaza Park), and at upcoming meetings there will new parks which the Commission and the public will be providing input.

Work Plan Goal C: The City of Santa Clara will be hosting a small one day family friendly event in mid August in Central Park. This event will not be the annual Art & Wine Festival which should return in 2022.

Work Plan Goal D: This is linked to the Related Project. Once the SCG&TC golf course closed in October of 2019, it was expected that the Related Project would move forward expeditiously. Improvements were made by adding the slip ramp adjacent to Santa Clara Youth Soccer Park, and extending Stars & Stripes Drive from the VTA station to Great America Parkway. Once the Related Project moves to the next application phase, and the construction of access to the parcel, \$500K for design, engineering, and community outreach, will become available along with \$4.5M for initial phase of park construction. Additional funds would be needed to complete the community park construction.

The Commission may review this information and determine if it would like to proceed with the current goals or make changes to the goals.

3. [21-818](#) Action to Recommend Council Approval of a Preferred Schematic Design for the City Plaza Park Gazebo Enhancement Project

Commissioner Guerra made a motion, seconded by Commissioner Knaack to recommend that Council approve Schematic Design B with the enhancement.
