November 30, 2025

The Honorable Mayor and City Council and Residents of the City of Santa Clara

Dear Mayor and Members of the City Council and Residents of the City of Santa Clara:

It is our pleasure to submit for your information the Annual Comprehensive Financial Report (ACFR) of the City of Santa Clara (City) for the fiscal year ended June 30, 2025. The City compiles and prepares the annual financial report to provide interested parties with reliable information concerning the financial condition and results of operations for the City.

Responsibility for the accuracy of the data and the fairness of presentation, including all footnotes and disclosures, rests with the City. The City has a comprehensive internal control framework that is designed to protect the government's assets from loss, theft, or misuse and to ensure the compilation of sufficient reliable information for the preparation of the City's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal control has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Per the City Charter (Section 1319, Independent Audit) the City's financial statements have been audited by Maze & Associates, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2025 are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended June 30, 2025 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. Under the standards governing Single Audit engagements, agencies expending more than \$750,000 in federal monies are required to have the independent auditor report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and legal requirements involving the administration of federal awards. These reports are available in the City's separately issued Single Audit Report, scheduled for release in March 2026.

Management has provided a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

This report is divided into three sections:

- The Introductory Section includes this letter of transmittal, an organizational overview of the City government, and prior awards received.
- The Financial Section consists of the independent auditor's report, Management's Discussion and Analysis, Basic Financial Statements (which include the Government-Wide Financial Statements, Fund Financial Statements, and Notes to Basic Financial Statements), Required Supplementary Information, and a Supplementary Section containing the Combined and Individual Fund Financial Statements and Schedules.
- The Statistical Section includes a number of tables of unaudited data depicting the financial history of the City, demographics, and other selected information about the City.

#### PROFILE OF THE CITY OF SANTA CLARA

The City is located in the County of Santa Clara, California, and is approximately 45 miles southeast of San Francisco and three miles west of downtown San Jose. It is situated in the northern part of the County and occupies approximately 19.3 square miles.

The City enjoys a diversified industrial and commercial base. Santa Clara is headquarters to some of the nation's leading electronics, telecommunications, computer, and semiconductor firms. The City is also home to a university, a community college, an adult learning center, a general hospital, a theme park, and a stadium.

The City's population is estimated at 134,587. The City remains a highly desirable place to live and work because of the high-quality services it provides to residents and its business friendly environment.

The City of Santa Clara, also known as the Mission City, is a charter city incorporated in 1852 under the laws of the State of California. The City's powers are exercised through a Council/Manager form of government. The City Council is made up of the Mayor, elected at large, and six councilmembers elected by district serving as the legislative authority. The City Council appoints a City Manager who is responsible for the overall management and administration of the City, a City Attorney to represent and advise the City Council and all City officers in all matters of law pertaining to their offices, and a City Auditor to audit and approve all bills, invoices, payrolls, demands or charges against the City government before payment and, with the advice of the City Attorney, advise the City Council as to the regularity, legality and correctness of such claims, demands or charges. The Police Chief and the City Clerk are publicly elected officials.

The City provides a full range of services. These services include police, fire protection and emergency dispatch; electric, water, solid waste, and sanitary sewer services; the construction and maintenance of streets and infrastructure; parks and recreational activities and cultural events; planning and zoning; library; cemetery; and general administrative and support services.

#### LOCAL ECONOMY

The local economy continued to improve during fiscal year 2024-25 since the adoption of the last biennial operating budget. On a national level, unemployment rate remained unchanged at 4.1% in June 2025 compared to the prior year. At the state level, the California unemployment rate was at 5.4% in June 2025, an increase of 0.1% compared to the prior year. The unadjusted unemployment rate in the San José-Sunnyvale-Santa Clara Metropolitan Statistical Area (MSA) increased slightly from 4.2% in June 2024 to 4.7% in June 2025.

The City's economically sensitive revenues experienced strong growth during fiscal year 2024-25. Property Tax collections continued to reflect solid assessed valuation growth due to property sales and new construction projects. Property Tax remains the largest revenue category for the City's General Fund and those receipts were up 5.8% in fiscal year 2024-25. General Sales Tax receipts experienced unusually high growth of 28.5% in fiscal year 2024-25 due primarily to increases in the business-to-business sector. Transient Occupancy Tax receipts were also up 20.8% in fiscal year 2024-25, reflecting a one percent rate increase effective January 1, 2024 (from 11.5% to 12.5%) and an additional one percent increase effective January 1, 2025 (from 12.5% to 13.5%) as well as increased activity.

With stronger revenue growth in fiscal year 2024-25, the General Fund Ten-Year Financial Forecast for fiscal year 2025-26 through fiscal year 2034-35 showed improvement with a projected General Fund surplus of \$9.3 million in fiscal year 2025-26, followed by a small shortfall in 2026-27 of \$0.1 million. This allowed for a FY 2025-26 and FY 2026-27 Adopted Operating Budget with targeted investments that funded many of the City Council's identified priorities as well as enhanced the City's operating reserves, restoring the Budget Stabilization Reserve (BSR) to the Council policy level of 25% of expenditures. The General Fund budget actions were intended to address Council priorities identified as part of the Council Priority Setting session and other high priority needs while also maintaining the City's fiscal stability.

#### FINANCIAL INFORMATION

#### **Long-term Financial Planning**

The City Council has adopted key Council Strategic Pillars to guide long-term policy decisions and address the economic challenges that the City faces. The Council Strategic Pillars are:

- Enhance Community Engagement and Transparency
- Deliver and Enhance High Quality Efficient Services and Infrastructure
- Manage Strategically Our Workforce Capacity and Resources
- Promote and Enhance Economic, Housing and Transportation Development
- Promote Sustainability and Environmental Protection
- Enhance Community Sports, Recreational and Arts Assets

• Ensure Compliance with Measure J and Manage Levi's Stadium

In addition, the City produces an annual Ten-Year Financial Forecast. The purpose of the Forecast is to provide policy-makers and the public an updated assessment of the City's fiscal health that takes into account the latest economic developments. The report includes historical perspective on revenues and expenditures and a ten-year financial outlook beyond the adopted budget year. The value of this type of analysis is to give the City Council, staff, and the public a tool to assist with strategic decision-making as they work to adopt the budget for the coming year. The Forecast is a collaborative effort between the City Manager's Office, Finance Department, and City departments. Individual projections of revenues and expenditures are developed based on trend analyses, input from available economic reports, consultant recommendations, and input from other subject matter experts. The most current information available is incorporated into the Plan and refined on a moving forward basis as part of the City's commitment to fiscal responsibility.

The Forecast does not include the following:

- One-time funding sources or items funded on a pay-as-you-go method with one-time sources;
- The cost to fully fund capital infrastructure needs;
- Additional costs to restore frozen positions, add positions to address growth in the City, and add new services;
- Permanent funding for pilot programs such as Via Shuttle/SV Hopper and Vision Zero;
- Enhanced funding to address the City's pension liability (the City is below the State average in pension funding);
- Additional contributions to Reserves (Budget Stabilization Reserve, Pension Reserve); and
- The financial impacts of new developments that may have a positive impact given the uncertainty regarding the timing.

In addition to the elements described above that are not factored into the Forecast, the City has identified various factors that could have potential positive or negative impacts on the Forecast. These include:

- Uncertainty regarding results of tariffs and other federal actions;
- Potential for an economic downturn or recession;
- State/federal legislative changes and legal challenges;
- Labor costs outside the budget assumptions;
- CalPERS actuarial changes or reform actions; and
- Unanticipated critical capital/infrastructure needs.

The City's financial position significantly improved since the adoption of the last biennial operating budget for fiscal year 2023-24 and fiscal year 2024-25. The latest Ten-Year General Fund Forecast, updated in April 2025, shows improvement with a surplus in fiscal year 2025-26 followed by small shortfalls and surpluses in the remaining years. This improvement is the result of stronger revenue growth since the last

Forecast that was realized during a period of solid economic growth. However, there is now a significant amount of economic uncertainty related to trade tariffs, fiscal policy, and geopolitical risk with the new administration. It is unknown how these factors will impact the local economy.

Historically, the City has funded many of capital infrastructure and equipment needs with one-time funds on a pay-as-you-go basis. The lack of sufficient one-time funding has resulted in a backlog of unmet/deferred infrastructure needs. On November 5, 2024, voters approved Measure I-a \$400 million general obligation bond that will fund needed infrastructure projects in the City. The \$400 million bond proceeds will enhance the City's efforts to address over \$600 million in unfunded infrastructure needs such as aging fire stations, storm drain systems, and aquatic facilities. The expenditure plan includes the following project areas:

- Fire Stations and Emergency Response (\$142,235,450)
- Parks, Libraries, Senior Center, and Aquatics Facilities (\$115,258,750)
- Storm Drain System Improvements (\$46,000,000)
- Police Facilities (\$43,987,500)
- Streets and Transportation (\$41,170,000)
- Historic Buildings and Beautification (\$9,200,000)

The Bonds will be issued in phases and the first \$100 million is expected to be issued in fiscal year 2025-26.

#### **Internal Controls**

City management staff are responsible for establishing and maintaining internal controls designed to ensure that the assets of the City are protected from loss, theft or misuse, and that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the stated framework. City management believes the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

#### **Budgetary Controls**

As part of the City's internal controls, it maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annually appropriated budget approved by the City Council. In addition, a two-year Capital Improvement Project Budget or a two-year Operating Budget is adopted annually and a Ten-Year Financial Forecast is updated and presented as part of the budget each year. The City Council is responsible for approving the appropriation of fiscal resources to cover estimated expenditures for each fiscal year. Expenditures are appropriated in each fund to departments, offices, and agencies for various goods, services, and capital projects described in the budget. The legal appropriation control is established at the department level in each fund. For select funds where expenditures are not allocated to a specific department, the appropriation control is established at the fund level. For capital funds, the appropriation control is at the project level. Transfers of funding between budgetary funds require City Council appropriation and approval. City Council approval is required for a

budget amendment during the fiscal year which may include the use of reserves or fund balances, and approval of appropriations of grant monies or other revenues. The City also maintains an encumbrance accounting system as one technique for accomplishing budgetary control. Encumbrances outstanding at year-end are included within the specific fund balance category of the underlying resource. Per Article XIII, Section 1305 of the City Charter, appropriations lapse at the end of each fiscal year; therefore, unencumbered funds allocated for specific projects, donations, and grants require City Council appropriation for use in the following fiscal year.

Budgetary transfers between accounts or expenditure category may be done through Finance Department as long as they are conducted within the legal appropriation control limit set by the City Council.

#### **Independent Audit**

The City Charter and State of California statutes require the City to have an annual audit by an independent certified public accountant. The City goes to the market with a formal Request for Proposal for audit services every five years. The accounting firm of Maze & Associates, Certified Public Accountants, was selected by the City Council again in 2021 after the City conducted a competitive procurement process. This is the third year of audit in the latest contract with Maze & Associates. In addition to meeting the requirements set forth in the City Charter and State statutes, the audit is designed to meet the requirements of the federal Single Audit Act of 1984, as amended in 1996 and in 2013 by the Uniform Guidance. The auditor's report on the basic financial statements and the supplementary combining statements and schedules is included in the financial section of this report. The auditor's report related specifically to the single audit will be included in a separately issued single audit document that will be on file with the City Clerk's Office as well as posted on the Finance page of the City's website.

#### **MAJOR INITIATIVES**

#### Addressing our Capital Infrastructure

In June 2024, the City Council took action to adopt a two-year capital investment plan that focuses on our capital infrastructure, supporting the facilities that serve our residents and community. The Biennial fiscal year 2024-25 and 2025-26 Capital Budget totaled \$928 million and the Five-Year CIP totaled \$1.33 billion, supporting infrastructure improvements throughout the City. Of this CIP amount, \$1.1 billion (83%) funds capital projects for the City's utilities and there is sufficient funding in the associated utility funds to support these projects. The other projects total \$225 million and fund improvements to the parks, trails, libraries, transportation system, storm system, convention center and other City facilities. There are significant funding gaps in these areas and unfunded projects identified in this budget total \$626 million over the next five years. This funding gap does not fully represent all the unmet/deferred infrastructure needs throughout the City beyond the five-year CIP period. Long term funding strategies are needed to meet these infrastructure needs as the General Fund does not have sufficient funding to cover the significant unfunded capital costs. New funding strategies are needed to meet these infrastructure needs. After an analysis of potential options, the City Council approved the inclusion of a \$400 million General Obligation Bond measure on the November 2024 ballot and voters passed the measure with a two-thirds majority.

#### **Fiscal Sustainability**

The General Fund shortfalls projected in the fiscal year 2023-24 and fiscal year 2024-25 Biennial Operating budget were balanced with a combination of strategies, including the use of one-time reserves, new revenues, and one-time and ongoing expenditure savings. The multi-pronged approach balanced the competing goals of aligning ongoing revenues and expenditures and minimizing the service delivery impacts to the community. It also allowed time for General Fund revenues to recover from the pandemic.

In June 2024, adjustments to the fiscal year 2024-25 budget were approved to update revenue estimates and account for updated labor costs and non-personnel costs in the General Fund and other funds. In the General Fund, \$0.4 million from the General Fund Budget Balancing Reserve and \$0.5 million from the Budget Stabilization Reserve were used to balance the budget.

#### **Development Projects**

More than \$3 billion in new development projects are on the horizon for Santa Clara in the next few years, with the likelihood of more to come. There are many residential and commercial projects in various stages of planning. While some of these projects are underway, it is important to note that changes in the office environment due to new remote-work trends has caused some pause to activity as developers reassess demand for commercial projects. Furthermore, the recent continuation of elevated inflation impacts to construction costs and high interest rates resulting in higher borrowing costs creates a potential for a slowdown in development activity. As these projects are both sensitive to new community requirements and an economic downturn: therefore, flexibility will be required. Below are highlights of a few of the larger planned high-density transit-oriented urban center development projects:

#### Related Santa Clara Project

Related Santa Clara is a unique partnership between the City of Santa Clara and Related Companies to create a LEED-certified, multi-phased, mixed-use destination adjacent to Levi's Stadium. This urban center will incorporate residential units, restaurants, entertainment venues, hotels, retail, and light industrial office parks to establish a new neighborhood in a pedestrian oriented "live, work, play" environment.

Related Santa Clara consists of 9.2 million square feet of mixed-use development with a city center of commercial office, retail/entertainment including a globally inspired food market, 1,680 residential units, 700 hotel rooms and approximately 5 million square feet of light industrial office parks and lab space. The development will also feature new roadways and the creation of a 30-acre city park. The project site consists of 240 acres located at 5155 Stars & Stripes Drive in Santa Clara, CA.

#### Downtown Master Plan

The City of Santa Clara is in the process of planning for the revitalization of our Downtown by developing a Precise Plan that will provide guidance for new development within a portion of the Downtown Focus Area. Following an initial community engagement effort, three land use scenarios/conceptual plans have been developed. Additional review and testing of the land use/design options, a larger context study to understand compatibility and competition from other large development projects, and an El Camino Real intersection study to understand multi modal connectivity from regional transit to downtown will be performed. This work will focus on market feasibility, retail strategy and connectivity. Most recently, the development of a Community Benefits Program was kicked-off with a targeted adoption date in fourth quarter of calendar year 2026.

#### Freedom Circle Mixed Use Project

This project proposes a General Plan Amendment and Re-zoning to Planned Development to construct a mixed-use development project on a 13.3 acre site within the Freedom Circle focus plan area, that consists of up to 1,100 residential units With 1,540 parking spaces, up to 2,000 square feet of commercial space with 10 parking spaces and a two-acre public park.

#### Gateway Crossing Mixed Use Project

Developed by Hunter/Storm, this project currently under construction consists of up to 1,565 residential units, a 152,000 square foot, 225 room, full-service hotel, 45,000 square feet of supporting retail, a 2.1 acre park, structured parking facilities, private and public streets, and on and off-site public and private improvements.

#### Mission Point by Kylii Mixed Use Development Project

This project is in review for a General Plan amendment for a nine-parcel property to amend the designation from High-Intensity Office/Research to a newly-established mixed-use designation allowing a high-intensity mix of office, commercial, and residential uses. The Project proposes a rezone for the development of 3,000,000 +/- square feet of commercial office/lab space, 100,000 +/- square feet of neighborhood retail, 1,800 +/- new multi-family residential, a childcare facility, and indoor and outdoor community spaces, as well as a large network of diverse, accessible and interconnected park, trail, and open spaces, and related infrastructure improvements.

#### Patrick Henry Drive Specific Plan

The City has developed a Specific Plan to implement the City's General Plan goals and policies for the Patrick Henry Drive plan area by providing more detailed guidance for future land uses and urban design elements. The vision is to transform a series of 1970s office parks several existing office parks into a cohesive, high-density mixed-use community that fosters economic vitality, helps ameliorate the State's housing shortage, and enhances quality of life for those who live, work, and recreate in the area. The Patrick Henry Drive Specific Plan planning area encompasses approximately 74 acres of land bounded by Calabazas Creek, Mission Community College, Great America parkway, and the SFPUC right of way. There are three approved projects currently underway: 1). An eight-story, 284-unit multifamily residential building, 2). A new four-story office and engineering building with one level of subsurface parking, atgrade parking, and associated site improvements on a 5.63 acre site developed by Arista Networks, and 3). A 113,272 square feet office and prefabrication facility with 248 parking spaces, and associated landscape and site improvements.

#### Tasman East Specific Plan

The project area is an existing industrial neighborhood 45 acres in size, and is bounded by Tasman Drive to the south, the Guadalupe River to the East, the Santa Clara golf course to the north, and Lafayette Street to the west. Of the eleven approved projects, mostly located on Calle De Luna and Calle Del Mundo, developed by multiple developers in this planned area, four high-density projects have been completed, providing 2,400 residential units and 5,000 square feet of retail space. Another two developments with over 1,200 residential units and 43,000 square feet of retail space, are currently under construction. The remaining five projects are at various stages of development with a total of over 3,000 dwellings and another 3,000 square feet in retail space.

#### FINANCIAL POLICIES

The City has adopted a comprehensive set of financial policies. These policies address items such as budget, cash management, interfund loans, investments, reserves, and debt management. The City Council reviews and approves budgetary policies as part of the annual budget process. Investment and debt policy statements are reviewed and approved by the City Council under separate cover.

#### **AWARDS**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement in Excellence in Financial Reporting to the City for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2024. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports and is valid for a period of one year only. The City has received this prestigious award for the past thirty-three consecutive years.

To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Programs' requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

#### **ACKNOWLEDGEMENTS**

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance Department. We wish to thank all City departments for their assistance in providing the data necessary to prepare this report. Credit and thanks are also due to the Mayor and City Councilmembers for their unfailing support for maintaining the highest standards of professionalism in the management of the City's finances.

Respectfully submitted,	
Jōvan D. Grogan City Manager	Kenn Lee Director of Finance

## City of Santa Clara California

For its Annual Comprehensive Financial Report For the Fiscal Year Ended

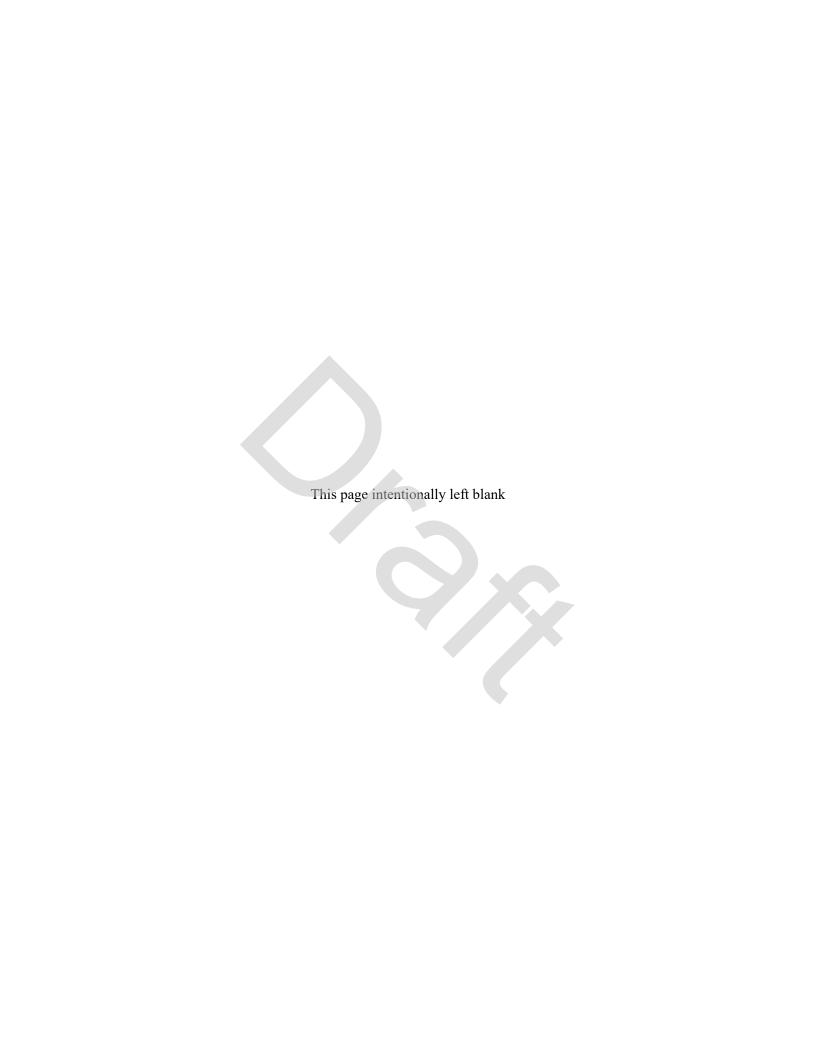

June 30, 2024

### **CITY ORGANIZATION CHART**

#### CITY OF SANTA CLARA COMPREHENSIVE ANNUAL FINANCIAL REPORT For the year ended June 30, 2025

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis (MD&A) of the City of Santa Clara's (City) Annual Comprehensive Financial Report provides an overview of the City's financial activities for the fiscal year ended June 30, 2025. The intent of this discussion and analysis is to look at the City's financial performance. Readers should review the discussion and analysis in conjunction with the basic financial statements, as well as the notes to the financial statements to enhance their understanding of the City's financial performance.

#### FINANCIAL HIGHLIGHTS

Financial highlights for fiscal year June 30, 2025 are as follows:

- In the fiscal year 2024-25, the City's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$3.1 billion. Out of this amount, \$516 million represents unrestricted net position, which is \$386 million higher than in the fiscal year 2023-24. This is made up of a negative balance of \$254 million for governmental activities and a positive balance of \$770 million for business-type activities. The negative net position in governmental activities primarily stems from a net pension liability of \$527 million and a net Other Post Employment Benefits (OPEB) liability of \$25 million as of June 30, 2025.
- The City's total net position increased by \$420 million, with \$113 million increase in governmental activities, primarily driven by the steady economic growth since the pandemic. Business-type activities accounted for the remaining \$307 million increase, including a \$270 million rise in the Electric Utility Fund, driven by higher rates, higher consumption and reduced resource purchase expenditures. In addition, the Santa Clara Stadium Authority Fund increased by \$49 million mainly due to an \$18 million reduction in operating expenses and a \$23 million increase to beginning net position from an unearned revenue restatement recorded in the current fiscal year.
- The total net pension liability, covering both governmental activities and business-type activities, decreased \$17 million or 2.5% during fiscal year 2024-25, declining to \$669 million from \$686 million. This reduction was primarily attributed to higher investment income during the fiscal year 2023-24. As of June 30, 2025, deferred outflows of resources related to pensions amounting to \$134 million, down \$35 million from the previous year, largely due to a \$27 million decrease in deferred outflows from differences between projected and actual pension plan investment earnings. Deferred inflows of resources related to pensions totaling \$1 million at June 30, 2025, a \$3 million decrease from the prior fiscal year. For more detailed information regarding the net pension liability, please refer to Note 13.
- The net OPEB liability decreased by \$1 million or 2.5% during fiscal year 2024-25, reducing it to \$35 million at June 30, 2025, compared to \$36 million in fiscal year 2023-24. More details on the net OPEB liability are included in Note 16.
- The City's total liabilities, excluding net pension liability and net OPEB liability, increased by \$130 million, reaching to \$1,157 million as of June 30, 2025. The increase in liabilities is primarily due to a \$101 million increase in long-term debt resulting from the issuance of the 2024A Electric Revenue Bonds within the business-type activities.
- As of June 30, 2025, the City's governmental funds reported combined fund balances of \$490 million, an increase of \$89 million from the prior year. At June 30, 2025, \$163 million is in the unassigned fund balance and available for spending at the City's discretion.

- At the close of fiscal year 2024-25, the General Fund had assets of \$524 million and a fund balance of \$241 million. This represents an increase in fund balance of \$60 million, or 33.0% from prior fiscal year. The increase reflects the steady improvement of the local economy since the pandemic. Of the total fund balance, \$193 million was unrestricted (the total of committed, assigned, and unassigned components of fund balance).
- In November 2012, the Santa Clara Stadium Authority (Stadium Authority) elected to adjust its fiscal year to April 1 through March 31 to conform with the fiscal year of Stadium Funding Trust (FinanceCo). This report covers the twelve month period from April 1, 2024 through March 31, 2025. As of March 31, 2025, the carrying value of Levi's Stadium, net of depreciation, is \$667 million, and the assets of the Stadium Authority exceeded its liabilities and deferred inflow of the lease revenues by \$182 million.
- The City's total outstanding long-term debt increased by \$101 million, primarily reflecting the issuance of \$112 million in Electric 2024 Series A Revenue Bonds with a \$17 million bond premium, partially offset by the repayment of \$25 million for Stadium Authority debt, Electric revenue bonds, and Sewer loans.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the City as a whole. This report consists of six parts – introductory section, financial/MD&A section, basic financial statements, required supplementary information, supplementary information, and statistical section.

The basic financial statements include two types of statements that present different views of the City:

- The *Government-wide Financial Statements* provide both long-term and short-term information about the City's overall financial status.
- The *Fund Financial Statements* focus on individual parts of the government, reporting the City's operations in more detail than the government-wide statements.

#### **Government-wide Financial Statements**

Government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. They include the Statement of Net Position and the Statement of Activities.

The Statement of Net Position presents information on all of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources. Over time, increases or decreases in the City's net position may serve as an indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities provides information about the City's revenues and expenses, regardless of the timing of related cash flows. The Statement of Activities explains in detail the change in net position for the fiscal year.

The Government-wide Financial Statements are divided into two categories:

Governmental Activities—all of the City's basic services are governmental activities. Included in
basic services are the City Council, City Manager, City Clerk, City Attorney, Information
Technology, Human Resources, Finance, Parks and Recreation, Library, Planning and Inspection,
Public Works, Police, and Fire. These services are principally supported by taxes and
intergovernmental revenues.

• Business-Type Activities—unlike governmental services, these services are intended to recover all or a significant portion of their costs through user fees and charges. All the City's enterprise activities are reported as business-type activities, including the Major funds (Electric, Water, Sewer, Water Recycling utilities, and Stadium Authority) and Non-Major funds (Solid Waste, Cemetery, Santa Clara Convention Center, and Sports and Open Space Authority).

The City is the primary government in this report. These financial statements include four entities that, although legally separate, are important because they are blended component units of the City. These component units are the Santa Clara Stadium Authority, City of Santa Clara Sports and Open Space Authority, the Santa Clara Housing Authority, and the City of Santa Clara Public Facilities Financing Corporation. These component units have been included as an integral part of the City (that is, they have been "blended" with those of the City) and they are not reported as separate discrete component units in these financial statements.

#### **Fund Financial Statements**

The Fund Financial Statements provide detailed information about each of the City's most significant funds, called major funds. Each major fund is presented individually, with all non-major funds combined in a single column on each fund statement. The non-major fund statements are presented in the Supplementary Information section of this report. Major funds present the primary activities of the City for the year and may change from year to year as a result of changes in the pattern of the City's activities. All the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds: Most of the City's basic services are included in Governmental Funds which focus on how money flows into and out of these funds and the balance left at fiscal year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental funds statements provide a detailed short-term view of the City's general governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because the focus of governmental funds is narrower than that of the Government-wide Financial Statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the Government-wide Financial Statements. By doing so, readers may better understand the long-term impact of the governmental Statements. By doing so, readers may better understand the long-term impact of the governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Proprietary Funds: Enterprise and Internal Service Fund Financial Statements are prepared on the full accrual basis of accounting, similar to that used by private sector companies. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position. The City's Proprietary Funds are the same as the business-type activities reported in the Government-wide Statements but provide more detail and additional information, such as cash flows.

Since the City's Internal Service Funds provide goods and services only to the City's governmental and business-type activities, their activities are only reported at the fund level. Internal Service Funds cannot be considered major funds because their revenues are derived from other City funds. Revenues between funds are eliminated in the Government-wide Financial Statements and any related profits or losses are returned to the activities in which they were created, along with any residual net position of the Internal Service Funds.

Fiduciary Funds: Fiduciary Funds are prepared on the full accrual basis, similar to the Proprietary Funds. The City has three types of Fiduciary Funds: the Custodial Funds (which includes Employee Supplemental Funds, Special Assessments, and Custodial Deposits), and the Private Purpose Trust Funds (which includes the Charitable Trust and Successor Agency). The City's fiduciary activities are reported separately in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position. These activities are excluded from the City's Financial Statements because the City cannot use these assets to finance its own operations.

#### **Notes to the Financial Statements**

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the Government-wide and Fund Financial Statements. The Notes to the Financial Statements follow the basic financial statements.

#### Other information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information. This information includes budgetary comparison schedules and the City's progress in funding its obligation to provide pension and other post-employment benefits to its employees. Required supplementary information can be found immediately following the Notes to the Financial Statements.

#### GOVERNMENT-WIDE FINANCIAL STATEMENTS ANALYSIS

#### **Citywide Financial Statements**

This section focuses on the City's net position and changes in net position of its governmental and business-type activities for the fiscal year ending June 30, 2025. As noted earlier, the City's total assets and deferred outflows of resources exceed total liabilities and deferred inflows of resources by \$3.1 billion at the end of the fiscal year, an increase in net position of \$420 million.

<sup>(1)</sup> Restated for the changes dicussed in Note 6F, but not for the implementation of GASB statement No. 101 and accounting policy change discussed in Note 18E.

The largest portion of the City's net position, \$1.8 billion (57%), is its investment in capital assets (e.g., land, infrastructure, buildings, machinery and equipment, right-to-use leased assets, and right-to-use subscription assets), less any related outstanding debt that was used to acquire those assets and right-to-use liabilities. The City uses these capital assets to provide services to its residents and other stakeholders. Accordingly, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources because the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the City's net position of \$810 million (26%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$516 million (17%) is unrestricted.

At the end of the current fiscal year, the City is able to report positive balances in all reported categories of net position except for the Workers' Compensation Insurance Claims Internal Service Fund.

<sup>(1)</sup> Restated for the changes dicussed in Note 6F, but not for the implementation of GASB statement No.

Governmental Activities – During the fiscal year 2024-25, the City's governmental activities increased net position by \$113 million, primarily due to higher tax revenues and other income sources. Key drivers

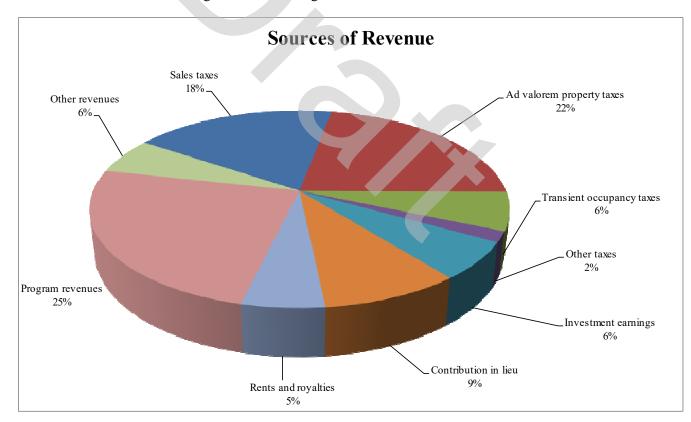

<sup>101</sup> and accounting policy change discussed in Note 18E.

included a \$17 million increase in Sales Tax, a \$5 million increase in Ad Valorem Tax, and a \$5 million increase in Transient Occupancy Taxes, reflecting continued economic recovery. Additional contributions came from an \$11 million increase in performance rent revenues from stadium events, a \$5 million contribution from the Stadium to the City, and a \$3 million increase in Housing Impact Fees. The beginning net position also increased by \$18 million due to the implementation of GASB 101 and an accounting policy change related to the recognition of unavailable revenues from long-term loan programs. These revenue gains strengthened the City's financial position, providing additional resources to support public services, infrastructure investments, and long-term financial stability.

Business-type Activities – The City's business-type activities increased net position by \$307 million in fiscal year 2024–25. The majority of this growth is attributable to the Electric Utility Fund, which reported a \$270 million increase. This improvement reflects higher service charge revenues driven by a 5% rate increase effective July 1, 2024, increased customer consumption, stronger interest earnings, and higher developer contributions during the year. The Stadium Authority also contributed to the overall increase, reporting a \$26 million gain. This result was driven by higher performance rent from stadium events and reduced operating costs. In addition, the Stadium's beginning net position increased due to a \$23 million unearned revenue restatement.

#### **Governmental Activities**

The chart below presents revenues by source for Governmental Activities. General revenues are composed of taxes and other revenues not specifically generated by, or restricted to, individual activities. All tax revenues and investment earnings are included in general revenues.

The following analysis presents a comparison of fiscal year 2024-25 and fiscal year 2023-24 by the total cost and net cost of each of the City's largest programs. Net cost is defined as total program cost less the revenues generated by those specific activities. It is common to see Governmental Activities as net cost generators, wherein costs of governmental activities are greater than the revenues they generate.

Table 3
Governmental Activities
(in millions)

			al Cost ervices			Net of Se	Cost rvices		
		2025	2	2024	2	.025	2	024	
General Administration	\$	35	\$	33	\$	14	\$	8	
City Clerk	•	2	•	1	•	2	*	1	
City Attorney		2		2		3		2	
Human Resources		2		2		2		2	
Finance		11		9		8		6

Parks and Recreation		28		28		21		24	
Public Safety:									
Police		101		98		98		96	
Fire		84		80		68		67	
Planning and Inspection		20		19		-		(1)	
Library		14		13		13		13	
Totals	\$	346	\$	331	\$	241	\$	233	

In fiscal year 2024-25, the total cost of services increased by \$15 million, while the net cost of services increased \$8 million compared to the previous year.

The increase in the total cost of services is largely driven by a \$2 million rise in the General administration driven by the higher interfund allocation in fiscal year 2024-25 and a \$7 million increase in the Public Safety costs during fiscal year 2024-25 primarily due to the higher personnel costs.

The net cost of services in the General Administration increased by \$6 million from the prior year, reaching \$14 million in fiscal year 2024-25. This increase is primarily attributed to a \$8 million increase in the cost of service with a \$3 million decrease in the charges for services.

#### **Business-type Activities**

The following analysis provides the total costs and net costs of each of the City's enterprise funds. Net cost is defined as total program cost less the revenues generated by each enterprise fund.

Table 4
Business-Type Activities
(in millions)

		Total	l Cost			Net	Cost	
		of Se	rvices			of Sei	vices	
	2	025	2	2024	- 2	2025	2	2024
Utilities:								
Electric	\$	644	\$	584	\$	(224)	\$	(200)
Water		64		58		(2)		2
Sewer		55		36		(2)		(32)
Water Recycling		10		9		-		-
Solid Waste		40		38		(1)		(1)
Cemetery		1		1		-		-
Santa Clara Convention Center		17		19		(1)		(1)
Santa Clara Stadium Authority		80		91		(7)		6
Totals	\$	911	\$	836	\$	(237)	\$	(226)

In fiscal year 2024-25, the City's business-type total cost of services increased by \$75 million, leading to a \$11 million reduction in the net cost of services.

The cost of services in the Electric Utility Fund increased by \$60 million up to \$644 million in fiscal year 2024-25. The increase was driven by higher expenses for resource purchases. The net cost of services in the Electric Utility Fund is at negative \$224 million, reflecting a \$24 million reduction from fiscal year 2024-25. This decrease in net cost is primarily due to a \$96 million increase in revenue on charges for services as a result of rate increase and higher consumption during the fiscal year.

The cost of services in the Sewer Utility Fund increased by \$19 million to \$55 million. This increase is primarily attributed to the recognition of a \$15 million equity loss in the sewer joint project with the City of San Jose. The net cost of services for the Sewer Utility raised to negative \$2 million, a \$30 million increase from the previous year. This significant net cost change is primarily due to the prior year's \$20 million equity gain in the sewer joint project with the City of San Jose.

The cost of services in the Santa Clara Stadium Authority (Stadium Authority) decreased by \$11 million, from \$91 million in fiscal year 2023-24 to \$80 million in fiscal year 2024-25, while the net cost of services declined to negative \$7 million. This reduction is primarily due to lower operating expenditures, including decreased Stadium Manager costs, Non-NFL event expenses, and reduced public safety costs above the threshold. The Stadium Authority is responsible for reimbursing the Forty Niners SC Stadium Company LLC for any NFL public safety costs that exceed the annual cost threshold.

#### **FUND FINANCIAL STATEMENTS**

#### **Financial Analysis of Governmental Funds**

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose.

At June 30, 2025, the City's governmental funds reported a combined fund balance of \$490 million, an increase of \$89 million or 22.3% in comparison with the prior fiscal year. Approximately 33.7% or \$163 million constitutes unassigned fund balance, which is available for spending at the City's discretion. The remainder of the fund balance is either nonspendable, restricted, committed, or assigned to indicate that it is 1) not in spendable form, \$8 million, 2) restricted for particular purposes, \$187 million, 3) committed for particular purposes, \$115 million, or 4) assigned for particular purposes, \$17 million.

Governmental fund revenues were \$440 million, reflecting an increase of \$65 million, or 17.6%, from \$375 million in the prior year. The overall revenue increase is mainly attributed to following factors:

- a \$20 million or 64.9% increase in interest and rent driven by higher performance rent revenues from Stadium events and increased interest revenue compared to the previous fiscal year.
- a \$17 million or 28.5% increase in the sales tax from substantial growth in business-to-business activities.
- a \$10 million or 115.2% increase in the other revenue reflecting a \$5 million contribution from the Stadium and a \$3 million increase in the Housing impact fees compared to the prior year.
- A \$6 million or 17.3% increase in the contribution in-lieu tax from the Electric Utility Fund, resulting from higher charges for services due to rate increases.
- a \$5 million or 5.8% increase in property tax revenues reflecting higher assessed property value.
- a \$5 million increase in the Transient Occupancy Tax due to the tax rate increase and the ongoing recovery from the pandemic.

Governmental fund expenditures were \$359 million, reflecting an increase of \$16 million or 4.5% compared to the prior year. The increase is primarily due to a \$14 million increase within the Public Safety program.

#### **General Fund**

#### Revenues

The City's General Fund revenues totaled \$372 million in fiscal year 2024-25, an increase of \$61 million or 19.4% from the prior fiscal year.

Sales tax accounts for approximately 21.4% of the General Fund's direct revenues. Sales tax revenue increased by \$17.6 million, or 28.5% compared to the previous year, reaching to \$79.3 million. This significant increase was largely attributed to substantial growth in business to business activity during the current fiscal year.

Property tax (ad valorem) stands as the largest revenue source among General Fund revenues. In the fiscal year 2024-25, property tax revenues amounted to \$95.9 million, reflecting an increase of \$5.2 million, or a 5.8% growth from the previous year. This increase can be attributed to several factors, including reassessments following the sale of properties and the addition of new construction projects to the tax rolls. These factors have collectively contributed to the continued rise in property tax revenue for the fiscal year.

Transient occupancy taxes (TOT) are calculated as a percentage of the charges for hotel and motel rooms within the city. In November 2020, Santa Clara voters approved to increase the Transient Occupancy Tax rate by up to 4%, and the first two percentage point increases went into effect on January 1, 2022. The City raised the rate from 11.5% to 12.5% in January 2024 with the final one percentage point increase in January 2025, raising the rate to 13.5%. In fiscal year 2024-25, TOT revenues were \$27.0 million, an increase of \$4.6 million, or 20.8%, compared to fiscal year 2023-24. This growth reflected the impact of both the tax rate increase and the continued recovery from the pandemic.

Licenses, permits, fines and penalties revenues were \$12.3 million in business licenses, parking permit, and miscellaneous permit in fiscal year 2024-25, compared to \$11.6 million in the previous year. The 6.1% increase was primarily from higher development-related permit activity and the modest fee adjustment.

Intergovernmental revenues were \$5.8 million in fiscal year 2024-25, up from \$0.9 million in the previous year. The increase of \$4.9 million was primarily due to a \$2.6 million redistribution from the Hyatt land sale in the Successor Agency fund and an additional \$2.0 million in mutual aid reimbursement revenues for Fire Department services.

Charges for services, which excludes building development related activities, totaled \$46.0 million in fiscal year 2024-25 compared to \$45.7 million in the prior fiscal year, an increase of 0.69%.

Contributions in-lieu of taxes were approximately \$38.9 million in fiscal year 2024-25, a \$5.8 million increase from the prior fiscal year. The increase is the result of higher consumption and retail rates in Electric Fund.

Interest and rent revenues were \$44.2 million in fiscal year 2024-25, an increase of \$17.0 million from the prior fiscal year. The increase was primarily attributed to an \$11 million rise in Stadium performance rents and higher interest earnings from higher interest rates.

Other revenues totaled \$7.0 million in fiscal year 2024-25, an increase of \$5.8 million from the prior fiscal year primarily due to a \$5.2 million contribution from Stadium in the current fiscal year.

#### Expenditures

General Fund expenditures totaled \$285 million for fiscal year 2024-25, an increase of \$18 million or 6.8% from the prior fiscal year total of \$267 million. This amount excludes encumbrances, re-appropriations, and building related activities.

Salaries and benefits expenditures were \$218 million in fiscal year 2024-25, a \$13 million or 6.7% increase from the \$205 million spent in the previous fiscal year 2023-24. The increase is primarily attributed to a \$5.7 million increase in the police department, a \$3.0 million increase in the fire department, and a \$3.1 million in finance and public work departments.

Other operating expenditures, encompassing various categories such as materials, services, supplies, internal service fund charges, debt service, and minor capital outlays were \$67 million in fiscal year 2024-25, an increase of \$5 million from the prior fiscal year. The increase can be primarily attributed to a \$3 million increase in the internal service fund cost allocation and a \$2 million increase in materials, service and supplies.

The uses of the other financing sources for fiscal year 2024-25 were \$26 million, reflecting a increase of \$10 million when compared to the prior fiscal year. This increase can be primarily attributed to a one-time \$8.6 million transfer to fund the International Swim Center Project and a \$1 million transfer to fund the PeopleSoft upgrade project.

#### Fund Balance

As of June 30, 2025, total fund balance in the General Fund was \$241 million, up \$60 million from the fiscal year 2023-24. Table 5A shows the breakdown of various components compared with the prior fiscal year.

Table 5A
General Fund Balance for the Fiscal Year Ended June 30, 2025
(in millions)

	2	025	2	024	Net Change	
Nonspendable	\$	8	\$	6	\$	2
Restricted		40		32		8
Committed		13		18		(5)
Assigned		17		16		1
Unassigned		163		109		54
				·		
Total General Fund Balance	\$	241	\$	181	\$	60

#### **General Fund Budgetary Highlights**

The City's budget is a flexible-spending plan, which commits resources to the accomplishment of City Council goals and objectives. During the fiscal year, the City Council took action to amend the adopted General Fund budget. A summary of the budgetary comparison schedule for the General Fund, located in the required supplementary information following the notes to the financial statements, is shown in the following table:

#### **Original Budget Compared to Final Budget**

Table 5B
General Fund Budget for the Fiscal Year Ended June 30, 2025
(in millions)

	Original	Final	
	Budgeted	Budgeted	Net
	 Amount	Amount	Change
Revenues	\$ 296	\$ 326	\$ 30
Expenditures	\$ 293	\$ 298	\$ 5
Net other financing sources (uses)	\$ (16)	\$ (26)	\$ (10)

Adjustments to the original budget were based on the following:

- The \$30 million increase in budgeted revenues is attributed to several factors: an \$11.5 million mid-year budgetary adjustment in lease revenue, which includes a \$7.3 million the Stadium's performance-based rent settlement from prior fiscal years and a \$4.2 million increase in the current year's Stadium anticipated performance rent, a \$6.2 million increase in the other revenue from Stadium per the Deposit and Disbursement Agreement dated June 19, 2013; a \$6 million increase in sales tax; a \$2 million one-time redistribution of revenue from Successor Agency land sales, a \$2 million increase in mutual aid reimbursement for wildland deployments, and a \$2 million increase in the charges for services, driven by ambulance services and higher than anticipated revenues from events at the Stadium.
- The increase in budgeted expenditures is primarily due to a \$4 million mid-year budget increase in the salary and benefits in the Fire department due to field operations overtime and higher compensatory time payouts, along with a \$1 million increase for the public healthcare ambulance transport services.
- The increase in budgeted Other Financing Uses is primarily due to an \$8.6 million transfer to the Park and Recreation Department to support the planning and construction of the temporary and permanent International Swimming Center Facility Project, and a \$1 million transfer to fund the PeopleSoft upgrade and implementation of procurement contracts and requisitions modules.

#### Final Budget Versus Actual

Table 5C
General Fund Final Budget Versus Actual for the Fiscal Year Ended June 30, 2025
(in millions)

	Final				
	Budgete	ed 1	Actual		
	Amoun	t A	mount	Vai	riance
Revenues	\$ 3	26 \$	359	\$	33
Expenditures	\$ 29	98 \$	283	\$	(15)
Net other financing sources (uses)	\$ (2	26) \$	(26)	\$	-

The most significant differences between actual and final budgeted amounts are explained as follows:

- The final budgeted revenues resulted in a \$33 million positive variance mainly due to a \$16 million increase in the property taxes, sales taxes, and transient occupancy taxes, a \$6 million increase in the interest and rents, a \$4 million increase in the contribution in-lieu of taxes, and a \$4 million increase in charges for services.
- Actual expenditures were \$15 million lower than the final budget as a result of lower departmental costs. See the General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balances Budget Actual (Non-GAAP Basis) for additional details.

#### **Santa Clara Housing Successor**

The Santa Clara Housing Successor (SCHS) Fund accounts for the activities related to the housing assets assumed by the City as Housing Successor to the Redevelopment Agency. The activities are governed by Community Redevelopment Law and must be used to provide housing for people with low and moderate incomes.

The SCHS's revenues were approximately \$1.6 million in fiscal year 2024-25, an increase of \$608 thousand from the previous year. The growth is primarily driven by a \$377 thousand increase in loan interest received from the multi-family developer loans and a \$225 thousand increase in interest and rental income.

The general expenditures account for case management services offered to persons experiencing or at risk of homelessness, on-going administration, and labor cost related to developing land held for development of affordable housing and managing assets. In fiscal year 2024-25, the general expenditures were \$553 thousand, a decrease of \$32 thousand or 5.4% from the previous year. The reduction was mainly due to lower spending on contractual services.

#### **Non-Major Governmental Funds**

These funds are not presented separately in the Basic Financial statements but are individually presented in the Supplemental Information section of this report.

#### **Financial Analysis of Enterprise Funds**

At the end of fiscal year 2024-25, the Enterprise Fund net position totaled \$2.2 billion, reflecting an increase of \$307 million or 15.8% compared to the prior fiscal year. The major contributor to this increase was the Electric Utility Fund, which showed a \$270 million increase. The increase in the Electric Utility Fund can be attributed to a \$99 million increase in the charges for services and a \$40 million increase in the interest revenue and other revenue from developer contributions.

In fiscal year 2024-25, the equity of the joint venture recognized a loss of \$11 million, a significant decrease from the \$19 million gain recorded in the previous fiscal year. This decrease of \$30 million is mostly due to a \$34 million decrease in the equity associated with the San Jose Santa Clara Joint Wastewater Treatment Facility project in the Sewer Utility fund, offset by a \$4 million increase in the Electric Utility joint venture equity.

Excluding joint venture activity and net change in the fair value of investments, non-operating expenses in fiscal year 2024-25 were \$24 million, representing an \$8 million decrease from the previous fiscal year. This variance reflects a \$3 million increase in interest expense and a one-time \$6 million contribution from Stadium to the General Fund.

#### **Electric Utility**

This fund accounts for the operation of the City's electric utility services. Charges for Services revenues were \$742 million in fiscal year 2024-25, an increase of \$86 million, or 13.3% from fiscal year 23-24. The primary driver for this increase was a 5% rate increase effective July 1, 2024 and increased consumption.

Retail operating expenses reached \$638 million in fiscal year 2024-25, a \$58 million increase from \$580 million in fiscal year 2024-25. The 9.9% increase in the operating expenses were primarily attributed to the high operating cost resulting from increased consumption.

Revenues from wholesale resource operations was \$14.6 million in the current fiscal year, a slight increase from the \$11.5 million recorded in fiscal year 2023-24. The costs related to wholesale resources purchases were \$8 million comparing to \$10 million in the prior fiscal year. The decrease in wholesale resource activities in fiscal year 2024-25 was influenced by the lower gas price in the resource market.

Interest revenues was \$34 million in fiscal year 2024-25, up from \$14 million recorded in fiscal year 2023-24. This increase is primarily due to a higher interest rate environment. Interest expense was \$5.6 million in the current year.

The Electric Utility Fund had a net position of \$1,563 million at June 30, 2025, an increase of \$270 million or 20.9% from the prior fiscal year. Of this amount, \$503 million was net investment in capital assets, \$12 million was restricted for contractual obligations, and \$1,048 million was unrestricted. The Electric Utility Fund is a participant in a number of joint ventures including Northern California Power Agency (NCPA), the Transmission Agency of Northern California (TANC), M-S-R Public Power Agency (MSR PPA), and M-S-R Energy Authority (MSR EA).

#### Water Utility

This fund accounts for the operation of the City's water utility services. Operating revenues were \$66 million for fiscal year 2024-25 compared to \$57 million for the prior fiscal year. Increased water usage and water utility rates increases are the main factors for the revenue variance of \$9 million.

Operating expenses were \$64 million in fiscal year 2024-25, compared to \$58 million in fiscal year 2023-24. The increase is primarily due to increased resource costs, higher maintenance cost and increased interfund allocation per the most recent rate study. The Water Utility Fund's net position was \$79 million at June 30, 2025.

#### **Sewer Utility**

This fund accounts for the maintenance of the City's sewer lines and related facilities. Operating revenues of the Sewer Utility were \$50 million for fiscal year 2024-25 compared to \$45 million in fiscal year 2023-24. The additional revenue was mainly due to the increase in sewer utility rates. Non-operating revenue was \$6.9 million in the current year.

Operating expenses totaled \$39 million in fiscal year 2024–25, an increase of \$5 million from the prior year. The increase was primarily driven by a \$3.5 million rise in the City's share of wastewater plant operation and maintenance costs.

The Sewer Utility Fund had a net position of \$380 million at June 30, 2025. Of this amount, \$38 million was net investment in capital assets, \$267 million was restricted for joint venture capital projects and \$75 million was unrestricted and other. The Sewer Utility, together with the City of San Jose, owns the San Jose/Santa Clara Regional Wastewater Facility which is administered by the City of San Jose. The Sewer Utility's ownership share is approximately 19.86% of the assets, capital, and operating costs. In fiscal year 2023-24, the City of San Jose reported that a loss of the Utility's equity in the Regional Wastewater Facility was \$15 million (fiscal year 2024-25 amounts were not available at the time of this report).

#### **Water Recycling**

This fund accounts for the ongoing maintenance and operations of the City's wastewater reclamation system. Operating revenues is \$9 million, an increase of \$1 million from the prior year. Revenue increase is due to a combination of recycled water utility rates increase, increased usage and higher other agencies revenue due to reimbursement for an emergency leak repair. Operating expenses is \$10 million, an increase of \$1 million from fiscal year 2023-24 due to higher resource cost, and higher maintenance cost for an emergency leak repair. The net position at June 30, 2025 remains at \$6 million.

#### Santa Clara Stadium Authority (Stadium Authority)

These funds account for the development and operation of Levi's Stadium. As of March 31, 2025, the Stadium Authority recorded approximately \$83.3 million in operating revenue, \$1.4 million more than prior year. This was mainly due to increases in revenue from ticketed Non-NFL events, rents and licenses and NFL ticket surcharge. Operating expenses were \$62 million, decreasing \$17.6 million from the prior fiscal year. This decrease is primarily due to lower Stadium Manager expenses, Non-NFL event expenses and

public safety costs over threshold. Net position at March 31, 2025 was \$182 million, an increase of \$49 million from the previous fiscal year. Refer to Note 6 for additional information.

#### **Solid Waste**

This fund accounts for the administration of the City's garbage and rubbish collection service. Operating revenues were \$40.9 million in fiscal year 2024-25, an increase of \$1.7 million from the prior fiscal year. Operating expenses were \$39.8 million compared to \$37.8 million in FY23-24, mainly due to the increases in the garbage collection, disposal and recycling service costs. The Solid Waste Fund's net position was \$3.8 million at June 30, 2025.

#### Cemetery

This fund accounts for the Mission City Memorial Park's operations. Operating revenues for FY24-25 were \$1.0 million, an increase of 30% from the prior fiscal year. Operating expenses remained consistent with prior year at \$1.2 million. Net position at June 30, 2025, was \$4.0 million.

#### **Santa Clara Convention Center**

This fund accounts for the operations of the Santa Clara Convention Center. Operating revenues were \$18 million in fiscal year 2024-25 compared to \$20 million in fiscal year 2023-24. Expenses were \$17 million in the fiscal year 2024-25 compared to \$19 million in prior fiscal year. The decrease in revenues and operating expenses are directly related to the decreased events at the Convention Center. Net position at June 30, 2025, was \$29 million. On November 1, 2019, the City entered into an agreement with Levy Premium Foodservice Limited Partnership (Levy) to manage the foodservice operations at the Convention Center and Levy agreed to pay an operating investment of \$5.75 million to promote the economic development of the City. The investment is amortized on a straight-line basis over 15 years.

#### **Sports and Open Space Authority (SOSA)**

This fund accounts for the acquisition and preservation of open space within the City and the development of local sports activities. There were no operating revenues in fiscal year 2024-25 due to the expiration of the operating lease. Operating expenses were \$11 thousand, with a net position at June 30, 2025 of \$2 million.

#### **CAPITAL ASSETS**

At June 30, 2025, the City's capital assets totaled \$687 million in Governmental Activities, and \$1.527 billion in Business-Type Activities, net of depreciation. Capital Assets are invested in a broad range of categories, as shown in Table 6.

Table 6
Capital Assets at June 30, 2025
(in millions)

	2025		2024	Net (	Change
<b>Governmental Activities:</b>					
Land	\$ 133	\$	130	\$	3
Construction in progress	61		59		2
Land improvements	69		60		9
Buildings	218		217		1
Infrastructure	664		646		18
Machinery and equipment	99		89		10
Right-to-use leased Equipment	2		1		1
Right-to-use SBITA	13		13		-
Less accumulated depreciation	(572)		(546)		(26)
Totals	\$ 687	\$	669	\$	18
<b>Business-Type Activities:</b>					
Land	\$ 24	\$	19	\$	5
Construction in progress	148		93		55
Buildings	924		922		2
Infrastructure	1,331		1,316		15
Machinery and equipment	34		30		4
Right-to-use leased building	3		3		-
Right-to-use SBITA	4		4		-
Less accumulated depreciation	(941)		(889)		(52)
Totals	\$ 1,527	\$	1,498	\$	29

The increase of \$18 million in the Governmental Funds infrastructure was primarily due to \$7.5 million in the improvement in street and sidewalk infrastructure and \$10.5 million of Contributed Infrastructure from various developers. The \$29 million increase in Enterprise Funds infrastructure was mainly due to \$11 million in Electric infrastructure improvements, \$3.4 million in replacement of the water distribution system, and \$500 thousand in sanitary sewer system improvements.

The Biennial Capital Improvement Project Budget for fiscal year 2023-24 and 2024-25 and the Five-Year Financial Plan for fiscal year 2023-24 through fiscal year 2027-28 contain more detailed discussions of Capital Projects planned for the City of Santa Clara. See Note 9 to the financial statements for additional details on fiscal year 2024-25 capital assets.

#### **DEBT ADMINISTRATION**

Each of the City's debt issues is discussed in detail in Note 10 to the financial statements. At June 30, 2025 the City's debt was comprised of the following:

Table 7
Outstanding Debt at June 30, 2025
(in millions)

	Ba	lance	Ba	lance			
Governmental Activity Debt:		June 30, 2025		June 30, 2024		Net Change

<sup>(1)</sup> Stadium Authority's long-term obligations are based on a March 31 fiscal year end.

#### SUCCESSOR AGENCY

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X 26 (AB 26) that provided for the dissolution of all redevelopment agencies in the State of California. On February 1, 2012 all redevelopment agencies in California were effectively dissolved. The Successor Agency for the Santa Clara Redevelopment Agency is currently in the process of winding down the affairs of the former Redevelopment Agency.

See Notes 21 and 22 for further information on the Redevelopment Agency dissolution and Successor Agency activities.

#### **ECONOMIC OUTLOOK**

The economy of the City is discussed in the accompanying Transmittal Letter.

#### CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This Annual Comprehensive Financial Report is intended to provide citizens, taxpayers, investors, and creditors with a general overview of the City's finances. A separate Annual Financial Report for Silicon Valley Power is available upon request. Questions about this Report should be directed to the City of Santa Clara Finance Department, 1500 Warburton Avenue, Santa Clara, California, 95050, telephone (408) 615-2340.

# Basic Financial Statements

# CITY OF SANTA CLARA GOVERNMENT-WIDE FINANCIAL STATEMENTS STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The Statement of Net Position and the Statement of Activities summarize the entire City's financial activities and financial position. They are prepared on the same basis as is used by most businesses, which means they include all the City's assets and deferred outflows of resources and all its liabilities and deferred inflows of resources, as well as all its revenues and expenses. This is known as the full accrual basis—the effect of all the City's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between City funds have been eliminated.

The Statement of Net Position reports the excess of the City's total assets and deferred outflows of resources over the City's total liabilities and deferred inflows of resources, including all the City's capital assets and all its long-term debt. The Statement of Net Position presents similar information to the balance sheet format, but presents it in a way that focuses the reader on the composition of the City's net position, by subtracting total liabilities and deferred inflows from total assets and deferred outflows.

The Statement of Net Position summarizes the financial position of all the City's Governmental Activities in a single column, and the financial position of all the City's Business-Type Activities in a single column; these columns are followed by a total column that presents the financial position of the entire City.

The City's Governmental Activities include the activities of its General Fund, along with all its Special Revenue, Debt Service, and Capital Projects funds. Since the City's Internal Service Funds service these Funds, their activities are consolidated with Governmental Activities, after eliminating interfund transactions and balances. The City's Business-Type Activities include all its Enterprise Fund activities.

The Statement of Activities reports increases and decreases in the City's net position. It is also prepared on the full accrual basis, which means it includes all the City's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis used in the Fund financial statements, which reflect only current assets, current liabilities, available revenues and measurable expenditures.

The format of the Statement of Activities presents the City's expenses first, listed by program, and follows these with the expenses of its business-type activities. Program revenues—that is, revenues which are generated directly by these programs—are then deducted from program expenses to arrive at the net (expense) revenue of each governmental and business-type program. The City's general revenues are then listed in the Governmental Activities or Business-Type Activities column, as appropriate, and the Change in Net Position is computed and reconciled with the Statement of Net Position.

Both these Statements include the financial activities of the City, the Santa Clara Housing Authority, the Santa Clara Stadium Authority, the City of Santa Clara Sports and Open Space Authority, and the City of Santa Clara Public Facilities Financing Corporation, which are legally separate but are component units of the City.

#### CITY OF SANTA CLARA COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended June 30, 2025

#### CITY OF SANTA CLARA FUND FINANCIAL STATEMENTS GOVERNMENTAL FUNDS

The funds described below were determined to be Major Funds by the City in fiscal year 2024-25. Individual non-major funds may be found in the Supplementary section.

#### MAJOR GOVERNMENTAL FUNDS

#### **GENERAL FUND**

The General Fund accounts for resources and services traditionally associated with government. The General Fund provides administrative, financial, police protection, fire protection, community development, recreation, and maintenance services to the community and other funds. The General Fund accounts for revenues that have unrestricted uses and are not required legally or by contractual agreement to be accounted for in another fund.

#### SANTA CLARA HOUSING SUCCESSOR FUND

The Santa Clara Housing Successor Fund accounts for the activities related to the housing assets assumed by the City as Housing Successor to the former Redevelopment Agency. The activities are governed by Community Redevelopment Law and must be used to provide housing for people with low and moderate incomes.

# RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES For the year ended June 30, 2025

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$	89,293,641
Amounts reported for governmental activities in the Statement of Activities are different because of the following:		
ACCRUAL OF CURRENT ITEMS		
The amounts below included in the Statement of Activities do not provide or (require) the use of financial resources over 90 days and therefore are not reported as revenue or expenditures in governmental funds (net change):		(1.026.050)
Current portion of accrued compensated absences		(1,836,950)
CAPITAL ASSET TRANSACTIONS  Governmental Funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is capitalized and allocated over their estimated useful lives and reported as depreciation expense.  The capital outlay expenditures are therefore added back to fund balance		21 141 249
Depreciation expense is deducted from the fund balance		21,161,268
(Depreciation expense is net of Internal Service Fund depreciation of		
\$3,125,515 which has already been allocated to service funds.)		(22,543,516)
constant in the second of the		(==,0 .0,010)
Retirements of capital assets (net of Internal Service Fund retirement of \$6,503)		(447)
Contributions of infrastructure improvements by developers and equipment are capitalized in the Statement of Activities, but are not recorded in the Governmental Fund Statements	e	(,)
because no cash changed hands.		13,068,442
JOINT VENTURES - PROFIT FROM EQUITY		(213,789)
LONG TERM DEBT PROCEEDS AND PAYMENTS		, ,
Bond proceeds provide current financial resources to governmental funds, but		
issuing debt increases long-term liabilities in the Statement of Net Position.		
Issuance of SBITA liability is deducted from fund blance		(586,348)
Repayment of bond principal is an expenditure in the governmental funds, but		
in the Statement of Net Position the repayment reduces long-term liabilities.		
Repayment of debt principal is added back to fund balance		1,085,000
Amortization of bond premium		108,600
ACCRUAL OF NON-CURRENT ITEMS		
The amounts below included in the Statement of Activities do not provide or (require) the		
use of current financial resources and therefore are not reported as revenue or expenditures in		
governmental funds (net change):		(2.10 (51)
Provision for reserve of conditional grants		(340,671)
Non-current portion of accrued compensated absences		624,136
Interest payable Unavailable revenue		14,578 1,942,901
Lease related expense		225
SBITA related expense		734,928
OPEB related expense		953,074
Pension related expense		(14,850,414)
ALLOCATION OF INTERNAL SERVICE FUND ACTIVITY		, , , ,
Internal Service Funds are used by management to charge the costs of certain activities,		
such as equipment acquisition, maintenance, and insurance to individual funds.		
The portion of the net revenue (expense) of these Internal Service Funds, arising out		
of their transactions with Governmental Funds, is reported with governmental activities,		
because they service those activities.		
Change in Net Position - All Internal Service Funds, net		6,143,651
Change in Net Position of Internal Service Funds reported with Business-Type Activities		(520,021)
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$	94,238,288

#### CITY OF SANTA CLARA MAJOR PROPRIETARY FUNDS

Proprietary funds account for City operations financed and operated in a manner similar to a private business enterprise. The intent of the City is that the cost of providing goods and services be financed primarily through user charges. Individual non-major Proprietary funds may be found in the Supplementary section.

The City has identified the funds below as major proprietary funds in fiscal year 2024-25.

GAAP does not require the disclosure of budget versus actual comparisons regarding proprietary funds that are major funds.

#### **ELECTRIC UTILITY FUND**

This fund accounts for the operation of the City's electric utility, a self-supporting activity that provides services on a user charge basis to residences and businesses.

#### WATER UTILITY FUND

This fund accounts for the operation of the City's water utility, a self-supporting activity that provides services on a user charge basis to residences and businesses.

#### SEWER UTILITY FUND

The sewer utility fund accounts for the maintenance of the City's sewer lines and related facilities. It is a self-supporting activity that provides services on a user charge basis to residences and businesses.

#### WATER RECYCLING UTILITY FUND

This fund accounts for the ongoing maintenance and operations of the City's waste water reclamation system. It is a self-supporting activity that provides services on a user charge basis from the sale of non-potable water for irrigation and landscaping.

#### SANTA CLARA STADIUM AUTHORITY FUND

The Santa Clara Stadium Authority Fund was established in 2011 to provide for development and operation of Levi's Stadium (home of the National Football League (NFL)'s San Francisco 49ers). In November 2012, the Santa Clara Stadium Authority changed its fiscal year ending date from June 30<sup>th</sup> to March 31<sup>st</sup> to conform with the fiscal year of Stadium Funding Trust.

### CITY OF SANTA CLARA FIDUCIARY FUNDS

These funds are used to account for assets held by the City as an agent for individuals, private organizations, and other governments. The financial activities of these funds are excluded from the City-wide financial statements, but are presented in separate Fiduciary Fund financial statements.

### PRIVATE PURPOSE TRUST FUNDS

These funds are used to report resources of all other trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

### **CUSTODIAL FUNDS**

Custodial funds are used to account for assets held by the City for community or private organizations, or as an agent for its employees or for assessment districts. The financial activities of these funds are excluded from the City-wide financial statements, but are presented in separate Fiduciary Fund financial statements. Individual non-major Custodial funds may be found in the Supplementary section.

### NOTE 1 – DEFINITION OF THE REPORTING ENTITY

The City of Santa Clara (City), also known as the Mission City, is a charter city incorporated in 1852 under the laws of the State of California. The City Charter establishes the Council/Manager form of government. The City's citizens elect a City Council of seven citizens, six councilpersons and a Mayor elected at-large, who serve a term of four years each, and who, in turn, appoint a City Manager.

The City is located in the County of Santa Clara, California, approximately 45 miles southeast of San Francisco. It is situated in the northern part of the County and occupies approximately 18.41 square miles. The City's population of 134,587 accounts for 7.08% of the total Santa Clara County estimated population of 1.9 million.

The City provides a full range of municipal services, including police and fire, library, recreation, community services, public works, parks, sanitation, planning and community development, public improvements, electric, water and sewer services.

The accompanying basic financial statements present the financial activity of the City, which is the primary government presented, along with the financial activities of its component units. Although they are separate legal entities, blended component units are in substance part of the City's operations and are reported as an integral part of the City's financial statements. The City's component units which are described below are all blended.

### A. City of Santa Clara Sports and Open Space Authority

The City of Santa Clara Sports and Open Space Authority (SOSA) was created by the City Council in 1974 for the acquisition and development of open space within the City. The members of the City Council are also members of SOSA's Board of Directors and, as such, are authorized to transact business and exercise power to purchase, lease or otherwise obtain and dispose of real and personal property, to acquire, construct, maintain, repair, manage and operate real and personal property, including leasing to private operators for commercial purposes, surplus space which is not economical to use for open space planning. The City performs all accounting and administrative functions of SOSA. The operations of SOSA have been included in the Supplementary Information section in the Non-Major Enterprise Funds.

### **B.** City of Santa Clara Public Facilities Financing Corporation

The City of Santa Clara Public Facilities Financing Corporation (PFFC) was formed in 1997 for the purpose of issuing Certificates of Participation (COPs) to provide financing for the construction of the major City facilities. Members of the City Council are also members of the PFFC Board. Debt service on the COPs is secured by lease payments made by the City's General Fund to the PFFC for the use of the constructed facilities for public purposes. In accordance with lease agreements, the PFFC assigns lease payments received from the City to the trustee for payment to the certificate holders. The operations of PFFC have been included in the Supplementary Information section in the Non-Major Governmental Fund. The individual COPs and the related facilities are described in Note 10B.

### C. Santa Clara Housing Authority

The Santa Clara Housing Authority (SCHA) was established by the City Council in 2011 to assume the responsibility of housing projects for the former Redevelopment Agency (former RDA). SCHA also assumes the responsibility for housing loans, which are long-term and were made under various programs, for

### **NOTE 1 – DEFINITION OF THE REPORTING ENTITY (continued)**

qualifying individuals and groups. The members of the City Council are also members of SCHA's Board of Directors and, as such, are authorized to transact business and exercise power to plan, engineer, and implement development projects. The City performs all accounting and administrative functions of SCHA. The financial activities of SCHA have been reported in the accompanying Non-Major Governmental Fund financial statements.

### D. Santa Clara Stadium Authority

The Santa Clara Stadium Authority (SCSA) was established by the City Council in 2011 to provide for development and operation of Levi's Stadium. The members of the City Council are also members of SCSA's Board of Directors and, as such, are authorized to manage the stadium, transact business and exercise power to plan, engineer, and construct the stadium. The City performs all accounting and administrative functions of SCSA. The financial activities of SCSA have been reported in the accompanying Enterprise Fund financial statements.

On November 13, 2012, an amendment was made to the JPA Agreement to change SCSA's fiscal year end date from June 30<sup>th</sup> to March 31<sup>st</sup>. As such, the financial activities reported for SCSA are as of fiscal year ended March 31, 2025. In addition, the annual financial report was audited by KPMG, an independent auditing firm, and a copy of the report can be found on the City's website.

# NOTE 2 - FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

#### A. Basic Financial Statements

The City's Basic Financial Statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States of America.

The significant accounting policies are described below:

Government-wide Financial Statements: The Statement of Net Position and the Statement of Activities display information about the primary government (the City) and its component units. These statements include the financial activities of the overall City government, except for fiduciary activities. Interfund Services provided and used are allocated to governmental and business-type activities, as appropriate. These statements distinguish between the governmental and business-type activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs, (b) grants and contributions that are restricted to meeting the operational needs of a particular program and (c) fees, grants and contributions that are restricted to financing the

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

acquisition or construction of capital assets. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fund Financial Statements:** The fund financial statements provide information about the City's funds, including fiduciary funds and blended component units. Separate statements for each fund category-governmental, proprietary, and fiduciary-are presented. The emphasis of fund financial statements is on major individual governmental and enterprise funds, each of which is displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds, except for fiduciary funds.

Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for services. Operating expenses for the City's enterprise funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

## B. Major Funds

Major funds are defined as funds that have either assets combined with deferred outflows of resources, liabilities combined with deferred inflows of resources, revenues or expenditures/expenses equal to 10% of corresponding totals for all governmental or enterprise funds and at least 5% of the aggregate amount to all governmental and enterprise fund for the same item. The General Fund is always a major fund. The City may also select other funds it believes should be presented as major funds. All other funds, called non-major funds, are combined, and reported in a single column, regardless of their fund-type.

The City reported the following major governmental funds in the accompanying financial statements:

**General Fund** - This is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

**Santa Clara Housing Successor Fund** - This fund accounts for the activities related to the housing assets assumed by the City as Housing Successor to the former Redevelopment Agency. The activities are governed by Community Redevelopment Law and must be used to provide housing for people with low and moderate incomes. Revenues received are primarily loan repayments on low income loans and investment earnings that are restricted for use on other low and moderate income housing loans and projects.

The City reported the following enterprise funds as major funds in the accompanying financial statements:

*Electric Utility Fund* - This fund accounts for the operation of the City's electric utility, a self-supporting activity that provides services on a user charge basis to residences and businesses.

*Water Utility Fund* - This fund accounts for the operation of the City's water utility, a self-supporting activity that provides services on a user charge basis to residences and businesses.

**Sewer Utility Fund** - This fund accounts for the maintenance of the City's sewer lines and related facilities. It is a self-supporting activity that provides services on a user charge basis to residences and businesses.

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

**Water Recycling Utility Fund** - This fund accounts for the ongoing maintenance and operations of the City's wastewater reclamation system. It is a self-supporting activity that provides services on a user charge basis from the sale of non-potable water for irrigation and landscaping.

**Santa Clara Stadium Authority Fund** - The Stadium Authority was established to provide for development and operation of Levi's Stadium.

The City also reports the following fund types:

*Internal Service Funds* - These funds account for maintenance of vehicles and communication equipment, information technology, public works capital project management, general liability, and workers' compensation claims, all of which are provided to other departments on a cost-reimbursement basis.

**Fiduciary Funds** - These funds account for assets held by the City in trust for community or private organizations, or as an agent for its employees or for assessment districts without city commitment. The financial activities of these funds are excluded from the City-wide financial statements, but are presented in separate Fiduciary Fund financial statements.

The Successor Agency to the Redevelopment Agency of the City of Santa Clara (Successor Agency) was created to serve as a custodian for the assets and to wind down the affairs of the former RDA. The Successor Agency is a separate public entity from the City, subject to the direction of an Oversight Board. The Oversight Board is comprised of seven-member representatives from local government bodies: two County of Santa Clara (County) representatives; the Mayor of the City of Santa Clara; the County Superintendent of Education; the Chancellor of California Community Colleges; one Santa Clara Valley Water District representative; and one former RDA employee appointed by the Mayor. The City performs all accounting and administrative functions of the Successor Agency. The financial activities of the Successor Agency have been reported in the accompanying basic financial statements in the Private Purpose Trust Fund. See Notes 21 and 22 for information regarding the Successor Agency.

### C. Basis of Accounting

The government-wide financial statements and the fund category, proprietary, and fiduciary fund category financial statements are reported using the *economic resources measurement* focus and the *full accrual* basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are *incurred*, regardless of when the related cash flows take place.

Governmental funds are reported using the *current financial resources* measurement focus and the *modified accrual* basis of accounting. Under this method, revenues are recognized when *measurable and available*. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, including lease liabilities and subscription-based IT arrangement (SBITA) liabilities as well as claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions, including entering into contracts giving the City right to use leased assets and SBITA assets, are reported as expenditures in governmental funds. Proceeds of general long-term debt, financing through leases, and issuance of subscription liabilities are reported as *other financing sources*.

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

The City allocates certain indirect expenses incurred by the General Government activity to those activities that benefit from services received.

During the year ended June 30, 2025, the City implemented the following GASB Statements:

The GASB issued Statement No. 101, Compensated Absences. The objective of this statement is to amend the existing requirements for the recognition of compensated absences liability. This statement becomes effective for periods beginning after December 15, 2023. The provisions of this Statement were implemented during fiscal year 2024-25. As a result of the implementation, the City restated its beginning net position for fiscal year 2024-25 to reflect the impact of the updated recognition criteria. For further details, refer to Note 18E – Prior Period Adjustments.

The GASB issued Statement No. 102, *Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. This statement is effective for fiscal years beginning after June 15, 2024. The implementation had no effect on the financial statement.

The City is analyzing the effects of the following pronouncements and plans to adopt them by the effective dates:

The GASB issued Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This statement is effective for fiscal years beginning after June 15, 2025. The City is currently evaluating the impact on the financial statements.

The GASB issued Statement No. 104, *Disclosure of Certain Capital Assets*. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. This statement is effective for fiscal years beginning after June 15, 2025. The City is currently evaluating the impact on the financial statements.

#### D. Cash and Investments

While maintaining safety and liquidity, the City maximizes investment return by pooling its available cash for investment purposes. Unless there are specific legal or contractual requirements to do otherwise, interest earnings are apportioned among funds according to average monthly cash and investment balances. It is generally the City's intention to hold investments until maturity. City investments are stated at fair value (see Note 7).

Cash and cash equivalents for purposes of the statement of cash flows include pooled cash and investments and cash designated for construction. Transactions with City-wide cash management pools are similar to those with external investment pools; therefore, since pooled cash and investments have the same characteristics as demand deposits in that the City's individual funds and component units may withdraw additional monies at any time without prior notice or penalty, pooled cash and investments are considered essentially demand deposit accounts.

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and investments with fiscal agent, a bond reserve investment pool, and amounts classified as deposits are not considered cash and cash equivalents.

### **E.** Interfund Transactions and Balances

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. The related receivables and payables are classified as "due from other funds," and "due to other funds" in the fund financial statements. Long-term interfund receivables and payables are recorded as advances to/from other funds in the fund financial statements.

Transactions constituting reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are generally recorded as expenditures/expenses in the reimbursing fund and as revenue in the fund that is reimbursed.

Internal balances represent the net interfund receivables and payables remaining after the elimination of all such balances within governmental and business-type activities, and are reported only in the government-wide financial statements.

### F. Inventory of Materials and Supplies

Inventory of materials and supplies is accounted for using the consumption method and is stated at average cost. Inventory consists of expendable supplies held for consumption by all departments of the City. The cost is recorded as an expenditure or expense in the appropriate fund at the time individual inventory items are withdrawn for use. The General Fund inventory amount is equally offset by a non-spendable fund balance, which indicates that it does not constitute available expendable resources.

#### **G.** Restricted Assets

Restricted assets are monies or other resources, the use of which is restricted by legal or contractual requirements.

### H. Land Held for Development

The Santa Clara Housing Successor, through execution of an assignment and assumption agreement with the City and the former RDA has assumed responsibility for housing projects and parcels of land purchased to develop or redevelop blighted properties within the Redevelopment areas. Such land parcels are accounted for as investments on the balance sheet at the lower of cost or net realizable value or agreed-upon sales price if a disposition agreement has been made with a developer.

Individual parcels which have experienced other than temporary fair value decline are written down to estimated current market value. No appreciation is recorded if the current estimated net realizable value of an individual parcel exceeds cost.

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

## I. Capital Assets

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available except for intangible right-to-use lease assets, the measurement of which is discussed in Note 2X below, and right-to-use subscription assets, the measurement of which is described in Note 2J below. Contributed capital assets are valued at their estimated acquisition value on the date contributed. Effective July 1, 2024, the City's policy is to capitalize equipment and right-to-use leased equipment with costs exceeding \$10,000 (previously \$5,000), buildings, improvements and infrastructure with costs exceeding \$20,000, land improvements with costs exceeding \$25,000 (previously \$20,000), and the right-to-use Subscription based IT Arrangement (SBITA) with costs exceeding \$400,000.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Public domain (infrastructure) assets, which include roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and traffic signals, have been capitalized and reported in the government-wide financial statements. Depreciation has been calculated on all capital assets, including infrastructure, the right-to-use leased buildings and equipment, and the right-to-use SBITA assets on a straight-line basis over the estimated useful lives of the assets.

	Useful Lives		Capitalization	
	Years	Years Thresho		
Buildings and improvements	20-50	\$	20,000	
Right-to-use leased buildings	20-50		20,000	
Land improvements	20-25		25,000	
Machinery and equipment	2-20		10,000	
Right-to-use leased equipment	Contract Term		10,000	
Right-to-use SBITA assets	Contract Term		400,000	
Infrastructure	10-50		20,000	

Some capital assets may be acquired using Federal and State grant funds, or they may be contributed by developers or other governments. These contributions are accounted for as revenues at the time the capital assets are contributed.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets.

Capital assets and the related obligations acquired under lease/purchase agreements are capitalized and accounted for in accordance with current accounting standards.

### J. Subscription-Based Information Technology Arrangements (SBITAs) Accounting

A Subscription-Based Information Technology Arrangement (SBITA) is a contract that conveys control of the right to use another party's (a SBITA vendor's) IT software, alone or in combination with tangible capital

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchangelike transaction.

At the commencement of a SBITA, the City initially measures the subscription liability at the present value of payments expected to be made during the contract term. Subsequently, the subscription liability is reduced by the principal portion of payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for payments made at or before the SBITA commencement date, plus certain initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over shorter of the subscription term or the useful life of the underlying IT assets. The City recognizes SBITA liabilities with an initial, individual value of \$400,000 or more for all funds.

Key estimates and judgments related to SBITAs include how the City determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments as follows:

- The City uses the interest rate charged by the IT vendor as the discount rate. When the interest rate charged by the IT vendor is not provided, the City uses its estimated incremental borrowing rate as the discount rate for subscription liabilities.
- The subscription term includes the noncancellable period of the subscription.
- Subscription payments included in the measurement of the subscription liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its subscription and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Subscription assets are reported with other capital assets and subscription liabilities are reported with liabilities on the statement of net position.

#### **K.** Joint Ventures

The City participates in several joint ventures. In accordance with GAAP investments in these joint ventures are accounted for on the equity method (see Note 12). If the City's equity in net losses of joint ventures exceeds its investment, use of the equity method is suspended except to the extent that the City is obligated to provide further financial support or has guaranteed obligations of the joint ventures.

The City advances funds to certain of its joint ventures in the form of refundable advances, project advances and operating and maintenance advances. Refundable advances accrue interest at rates stated in the related agreements. Operating, maintenance and project advances are charged to operations when incurred.

Capitalized project costs are charged to operations in the event that a project is determined to be not economically feasible.

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

## L. Compensated Absences

Effective July 1, 2024, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 101, Compensated Absences. GASB 101 establishes a unified model for recognizing all types of compensated absences, such as vacation, sick leave, and paid time off, based on when the leave is earned rather than when it is used or paid.

Under the previous accounting policy, the City recognized liabilities only for vacation leave and certain types of vested sick leave. Upon implementation of GASB 101, the City recognizes the compensated absences liabilities when the following criteria are met:

- 1. The leave is attributable to services already rendered;
- 2. The leave accumulates; and
- 3. It is more likely than not that the leave will be used for time off or otherwise paid or settled.

Vacation leave is earned based on an employee's length of service and ranges from 10 to 24 days per year. Employees may carry forward unused vacation, subject to maximum limits that vary by accrual rate, with a general cap of 480 hours for most employee groups. Upon separation from employment, employees are compensated for all unused vacation and certain other eligible benefits.

Sick leave may be accumulated without limit for use; however, the amount payable upon retirement is capped at 1,500 hours (or 3,000 hours for 24-hour Fire personnel). For employees with accumulated sick leave balances as of January 1, 2004, the maximum payable amount at retirement is limited to the balance recorded on that date plus 1,500 hours (or 3,000 hours for 24-hour Fire personnel). Employees who have completed fifteen (15) or more years of aggregate service with the City are eligible, upon retirement, to receive payment for accumulated sick leave attributable to continuous service.

For Fire Department public safety employees on a 24-hour shift schedule, accumulated sick leave hours are first divided in half, and the resulting balance is converted to its dollar equivalent based on the employee's reduced 24-hour average hourly rate of pay at the time of separation. Payment is then made in accordance with the provisions described above.

In the event of an employee's death, all accrued sick leave is paid to the employee's estate at full value.

The accrual for compensated absences comprised the following at June 30, 2025.

	Governmental		B	usiness-Type		
		Activities		Activities	Total	
Beginning Balance Restated	\$	29,332,048	\$	11,122,149	\$	40,454,197
Additions*		1,246,926		530,234		1,777,160
Ending Balance	\$	30,578,974	\$	11,652,383	\$	42,231,357
Current Portions	\$	10,571,743	\$	4,028,935	\$	14,600,678
* Not Change						

<sup>\*</sup> Net Change

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

## M. Risk Management

The City is self-insured up to \$3 million to provide general liability protection. In addition to the City's self-insurance, the City also maintains excess general liability with coverage up to \$50 million.

The City is also self-insured up to \$750,000 per claim for Workers' Compensation Claims. These self-insurance programs are administered by outside agencies. The City also maintains excess workers' compensation insurance for workers' compensation claims over \$750,000 per claim with coverage up to statutory limits with PRISM (formerly CSAC Excess Insurance Authority).

The City maintains property damage coverage through the Public Entity Property Insurance Program (APIP), which has a plan limit of \$1 billion. The City maintains boiler and machinery property coverage of \$100 million per occurrence in excess of self-insured amounts varying from \$25,000 to \$100,000 per occurrence. No claims settlement amount exceeded the City's insurance coverage in the past fiscal years.

The City also maintains a Faithful Performance, Crime Coverage Bond with a plan limit of \$25 million through PRISM and deductibles from \$2,500 to \$25,000.

The City also had property coverage specific to the electric power plants which has a plan limit of \$250 million and deductibles from \$100,000 to \$750,000.

## N. Long-Term Obligations

Long-term obligations are reported in the Governmental Activities portion of the government-wide financial statements. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

### O. Pensions

For purposes of measuring the net pension liability and deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Santa Clara, California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to and deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### P. Accounting for Encumbrances

The City utilizes an encumbrance system of accounting wherein encumbrances outstanding at year end, for which the goods or services have not been received, are not reported as expenditures, but are reported as a component of the fund balance category available for subsequent year expenditures based on the encumbered appropriation authority carried over to the next fiscal year. The City Charter requires recording encumbrances as a charge against appropriations in the accounting period in which a purchase order is issued, rather than in the accounting period when goods or services are received.

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Under the modified accrual basis of accounting, in accordance with GAAP, expenditures are recorded when the goods or services are received. Adjustments to convert expenditures from the modified accrual basis to the budgetary basis are reflected in the schedule of revenues, expenditures, and changes in fund balances - budget and actual (non-GAAP legal basis) (see Note 3 and Required Supplementary Information).

### Q. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has four items that qualify for reporting in this category: deferred outflows related to the derivative instruments, refunding of debt, pension, and OPEB.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. In the government-wide financial statements the City reports deferred amounts related to derivative instruments, refunding of debt, leases and deferred amounts related to pension and OPEB.

## R. Net Position and Fund Balance Equity

Fund balances and net position are reported in classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. For governmental fund reporting, the City considers restricted fund balance to have been spent first when an expenditure is incurred, followed by committed, assigned and unassigned fund balances (in order of spending). For government-wide reporting, the City considers restricted net position to have been spent first when an expenditure is incurred, followed by unrestricted net position.

### S. Bond Discounts/Premiums

In governmental funds, bond discounts and premiums are recognized in the current period. Bond discounts and premium for proprietary funds and entity-wide financial statements are deferred and amortized over the term of the bonds using the straight-line method of accounting.

### T. Property Taxes

The State of California Constitution Article XIII A provides that the combined maximum tax rate on any given property may not exceed 1% of its assessed value except for voter approved incremental property taxes adopted prior to the passage of Article XIII A and any additional amount for general obligation debt approved by voters subsequent to the passage of Article XIII A.

Assessed value is calculated at 100% of market value as defined by Article XIII A and may be increased by no more than 2% per year unless there is a new construction on the property or the property is sold or transferred. The State Legislature has determined the method of distribution of receipts from the 1% tax levy among the counties, cities, school districts and other districts.

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Santa Clara County (County) assesses properties and bills and collects property taxes on behalf of the City as follows:

	Secured	Unsecured
Valuation dates	January 1	January 1
Lien/levy dates	January 1	January 1
Due dates	50% on November 1, 50% on February 1	Upon receipt of billing
Delinquent as of	December 10 (for November), April 10 (for	August 31
	February)	

The term "unsecured" refers to taxes on property not secured by liens on real property and generally includes business use personal property.

The City participates in the Teeter Plan offered by the County whereby cities receive 100% of secured property tax levied in exchange for foregoing any interest and penalties collected on delinquent taxes.

Property taxes levied are recorded as revenue when received from the County. Property taxes expected to be collected within 60 days of the end of the fiscal year are recorded as revenue.

The City's net assessed valuation for the year ended June 30, 2025, was \$66 billion, an increase of 7.3% compared to the previous year. The average tax rate was 1.16% per \$100 of assessed valuation.

#### **U.** Contribution In-Lieu of Taxes

Contribution in lieu of taxes is a general revenue of the governmental funds. It is levied on receipts of the City-owned and operated Electric Utility (Silicon Valley Power) in accordance with the City Charter. Non-City owned and operated electric utilities pay a franchise fee, which is also a governmental activities general revenue source.

### V. Special Assessment Districts with City Commitment

Recognition of revenue related to noncurrent receivables of special assessment district funds is deferred until such receivables become current. There is no reserve for delinquent receivables since liens exist against the related properties and hence the City's management believes the City will ultimately receive value equal to the delinquent receivables. Surplus fund balances remaining at the completion of a special assessment district project are disposed of in accordance with City Council resolutions and with the applicable assessment bond laws of the State of California.

#### W. Income Taxes

The City falls under the purview of Internal Revenue Code, Section 115 and corresponding California Revenue and Taxation Code provisions. As such, it is not subject to federal or state income taxes.

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

## X. Lease Agreements

A lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment.

*Lessee* - The City is a lessee for noncancellable lease of equipment and buildings. The City recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments as follows:

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor - The City is a lessor for noncancellable leases of land, building, and fiber optics. The City recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Key estimates and judgments include how the City determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts as follows:

- The City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable. During the current fiscal year, the City has not engaged in any sublease transactions, sale-leaseback arrangements, or lease-leaseback agreements.

### Y. Arbitrage Rebate Liability

Arbitrage rebate liabilities, if any, are included in accrued liabilities.

## Z. Revenue Recognition

Electric, Water, Sewer and Solid Waste Fund revenues are recognized based on cycle billings periodically rendered to customers. Revenues for services provided, but not billed at the end of a fiscal year, are recognized and accrued based on estimated consumption.

Governmental Activities revenues subject to accrual include taxes, intergovernmental revenues, interest and charges for services.

### AA. Non-exchange Transactions

The City gives or receives value without directly receiving or giving equal value in exchange, including grants, entitlements, and donations. On the accrual basis, revenue from taxes is recognized in the fiscal year for which the taxes are levied or assessed. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

#### **BB.** Financial Instruments

Financial instruments included in the City's basic financial statements, excluding cash and investments, consisted of accounts receivable, accrued liabilities and bonds payable. The carrying amounts are a reasonable estimate of fair value.

### CC. Conditional Grants

The City has several programs under which it extends loans to qualifying individuals or groups for the purpose of improving the City's housing stock and/or its supply of low-and moderate-income housing. Certain of these loans provide for the eventual forgiveness of the loan balance if the borrower complies with all the terms of

# NOTE 2 – FINANCIAL STATEMENT PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

the loan over its full term. The City accounts for these loans as conditional grants in the City-wide financial statements, and provides a reserve against their eventual forgiveness using the straight-line method over the life of the respective loan. As of June 30, 2025, conditional grants of \$25,129,035 were offset by reserves of \$10,376,219.

#### **DD.** Use of Estimates

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

### **EE.** Vehicle Registration Fee

On November 2, 2010, Santa Clara County voters approved Measure B, which levies a \$10 annual vehicle registration fee (VRF). The statue requires that fees collected be used only to pay for programs and projects that have a relationship or benefit to the owners of motor vehicles paying the fee and are consistent with the regional transportation plan. All revenue collected by Santa Clara Valley Transportation Authority, administrator of VRF are allocated on a population basis to cities in Santa Clara County. The City has committed and used the revenue from Measure B towards various street maintenance and traffic signal timing upgrade projects. The Vehicle Registration Fees are reported in the Streets and Highways Improvement Capital Projects Fund.

As of June 30, 2025, the balance of the Vehicle Registration Fees are as follows:

	Vehic	cle Registration Fee
Beginning Balance July 1, 2024	\$	3,536,465
Intergovernmental revenue		871,194
Interest		144,231
Expenditures		(59,788)
Ending Balance June 30, 2025	\$	4,492,102

### **NOTE 3 – BUDGETS AND BUDGETARY ACCOUNTING**

The budget of the City is a detailed operating plan that identifies estimated costs and activities in relation to estimated revenues. The budget includes: (1) the projects, services and activities to be provided during the fiscal year, (2) the estimated revenue available to finance the operating plan, and (3) the estimated spending requirements of the operating plan.

The budget process is the mechanism through which policy decisions are made, implemented and controlled. The City Charter requires that the City establish a budgetary system for general operations and prohibits

### NOTE 3 – BUDGETS AND BUDGETARY ACCOUNTING (continued)

expending funds for which there is no legal appropriation. The City is required to adopt a budget on or before June 30 for the ensuing fiscal year that begins July 1. Activities of the General Fund, the Santa Clara Housing Successor, and the Maintenance Special Revenue Funds are included in the annual appropriated operating budget. The procedures followed to establish the budgetary data reflected in the accompanying required supplementary information to the basic financial statements are as follows:

- 1. The City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1. This includes a Five-Year Financial Plan to aid in the planning and funding of operations and capital projects over the next five years.
- 2. Public hearings are conducted to obtain public comments.
- 3. The operating and capital budgets are legally enacted through the passage of a minute order.

From the effective date of the budget, the amounts stated therein as proposed expenditures become appropriations to the applicable governmental funds. The City Council may amend the budget by motion during the fiscal year. The legal appropriation control is established at the department level in each fund. For select funds where expenditures are not allocated to a specific department, the appropriation control is established at the fund level. Transfers of funding between budgetary funds require City Council appropriation and approval. City Council approval is required for a budget amendment during the fiscal year which may include the use of reserves or fund balances, and approval of appropriations of grant monies. Per Article XIII, Section 1305 of the City Charter, appropriations lapse at the end of each fiscal year; therefore, unencumbered funds allocated for specific projects, donations, and grants require City Council appropriation for use in the following fiscal year.

Budgetary transfers between accounts or expenditure category may be done through Finance Department or City Manager's Office approval as long as they are conducted within the legal appropriation control limit set by the City Council.

Budget information is presented on a non-GAAP budgetary basis. Budgeted revenue amounts represent the original budget modified by adjustments authorized during the year. Budgeted expenditure amounts represent original appropriations adjusted for supplemental appropriations and transfers during the year. Budget amounts in the schedules of revenues, expenditures and changes in fund balances-budget and actual, include supplemental appropriations approved by the City Council during the year.

For the actual GAAP basis financial statements, encumbered appropriations are not reported as expenditures, but are reported as a reservation of fund balance available for subsequent year expenditures, based on the encumbered appropriation authority carried over to the next fiscal year.

In addition to the annual Operating Budget, each year the City Council adopts a project length Capital Improvement Project budget biennially.

## **Expenditures in Excess of Appropriations**

General Fund expenditures in the City Clerk department exceeded budget in the amount of \$82,493. Sufficient resources were available in the fund to cover the excess.

#### **NOTE 4 – LEASE AGREEMENTS**

In June 2017, the Government Accounting Standards Board (GASB) issued Statement No. 87, Leases. GASB Statement No. 87 (GASB 87) increases the usefulness of governmental financial statements by requiring recognition of certain lease assets and liabilities for all leases, including those that previously were classified as operating leases and recognized as income by lessors and expenditures by lessees. GASB 87 replaces the previous lease accounting methodology and establishes a single model for lease accounting based on the foundational principle that leases are a financing of the right to use an underlying asset.

This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The provisions of this Statement were implemented during fiscal year 2021-22.

The balances related to leases receivable and deferred inflows of resources as of June 30, 2025 are:

			Defe	erred Inflow of
	Leases Receivable		Resources	
Governmental activities		_		_
General Fund	\$	254,365,857	\$	246,106,700
<b>Business-type activities</b>				
Electric Utility	\$	1,852,925	\$	1,712,000
Water Utility		656,054		563,039
Sewer Utility		656,054		563,039
Stadium Authority (as of March 31, 2025)		582,290,498		561,552,578
	\$	585,455,531	\$	564,390,656
Total leases receivable	\$	839,821,388	\$	810,497,356

A discussion of the most significant leases follows:

### A. Irvine Company Ground Leases

<u>Irvine Company Disposition and Development Agreement With Ground Lease (DDA) for Office Park Development</u>

In April 2000, the former RDA entered into a Disposition and Development Agreement (DDA) with Ground Lease with The Irvine Company (Developer) for development of the site as an office/R&D complex. The DDA contemplated the former RDA obtaining title to the entire property from the City prior to entering into ground leases with the Developer. The site is subdivided into three parcels to accommodate the phased development of the project. Only Parcel 2 was conveyed to the former RDA. Parcels 1 & 3 were always held by the City and not subject to terms of the subsequent RDA dissolution.

### **NOTE 4 – LEASE AGREEMENTS (continued)**

In March 2006, the DDA and the Ground Lease were amended to update the status of conditions precedent; amend the schedule of performance; and clarify terms and conditions relating to Parcel 1 and Parcel 3. In October 2012, the City entered into two ground leases with the Irvine Company for Parcels 1 and 3. The term of both leases is 80 years after the effective date of October 31, 2012, and therefore both leases shall expire on October 31, 2092. The rent commencement date is November 1, 2012. Under the terms of the leases the City will receive specified amounts for minimum rent subject to certain events or time periods and then inflationary adjustments at times specified in the leases. For the fiscal year ended June 30, 2025, the City recognized \$1,313,233 in lease revenue and \$2,087,154 in interest revenue for Parcel 1 and \$633,168 in lease revenue and \$1,006,309 in interest revenue for Parcel 3. As of June 30, 2025, the City's receivable for lease payments for Parcel 1 was \$91,316,309 and the balance of the deferred inflows of resources was \$88,424,384. The City's receivable for lease payments for Parcel 3 was \$44,027,618 and the balance of the deferred inflows of resources was \$42,633,300.

## B. City Leases Pursuant to the Terms of the January 8, 2016 Settlement Agreement

On March 8, 2011, the City and the former RDA adopted resolutions authorizing the execution of property conveyance agreements for the conveyance of certain real property owned by the former RDA. The agreements conveyed the properties subject to existing leases to the City. Properties included California's Great America Theme Park, Techmart, Hyatt Regency, and Hilton Hotel.

The actions taken by the former RDA related to the asset transfers were validly authorized and conformed with the requirements of the Community Redevelopment Law as it existed at the time of the actions. Pursuant to ABx1 26, the Redevelopment Dissolution Law, the State Controller's Office is to review any asset transfers that occurred between a redevelopment agency and any other public agency after January 1, 2011 and if the assets have not been contractually committed to a third party and to the extent allowed by state and federal law, the Controller, after completing its review is to order the return of the assets to the Successor Agency. The Successor Agency received a Controller's order on September 10, 2013 ordering the City to transfer the assets back to the Successor Agency. The validity of that order was the subject of litigation in Sacramento Superior Court (Sharma vs. City of Santa Clara). Additionally, on July 26, 2013, the Court granted the County of Santa Clara, the Santa Clara Unified School District, and the Santa Clara County Office of Education (Petitioners) motion for a preliminary injunction (temporary restraining order), restricting the City from selling, transferring, encumbering, spending, or otherwise depleting or wasting any real property interests received from the former RDA.

On January 8, 2016, the City executed a Settlement Agreement in Sharma vs the City of Santa Clara. This Settlement Agreement calls for the City to return to the Successor Agency certain properties that the former Redevelopment Agency transferred to the City prior to dissolution. The properties returned are as follows: The Great America Theme Park Property, the Hilton Hotel Property, the North/South Parking Lots, the Gateway Parcel 2 Property, the Hyatt Hotel Property, The Techmart Property, and the Martinson Childcare Center Property. The Settlement Agreement requires the City to forego the long-term lease revenues generated by the properties. Lease revenues collected from July 1, 2012 to June 30, 2016 were passed on to the Successor Agency. Additional information concerning the Settlement Agreement can be found in Note 22.

The Settlement Agreement provides clarity that the City retains title to the main parking lot property for the Great America Theme Park and the Hyatt Hotel Ballroom Space. The agreement provides that rental income from these properties beginning July 1, 2015 is the property of the City.

### **NOTE 4 – LEASE AGREEMENTS (continued)**

### California's Great America Theme Park Parking Lot Lease

The City and Cedar Fair entered into various agreements to operate and manage the theme park. As agreed in the Settlement Agreement, the Great America Theme Park Main Parking Lot is and always has been owned by the City and the City is entitled to any lease revenues generated from the Main Parking Lot after June 30, 2015. Pursuant to the Fourth Amendment of the ground lease, the City allows Cedar Fair to use certain City property adjacent to the Theme Park property for parking. Under the terms of the amended Ground Lease, Cedar Fair pays the City annually for use of such property for parking. For the fiscal year ended June 30, 2025, the City recognized \$107,932 in lease revenue and \$4,171 in interest revenue. As of June 30, 2025, the City's receivable for lease payments was \$356,897 and the balance of the deferred inflows of resources was \$386,758.

## **Hyatt Ballroom Lease Agreement**

In April 1985, the former RDA entered into various agreements for the development of a certain piece of land for the eventual operation of a high quality hotel and related facilities, including a ballroom. The resulting lease agreement pertaining to the City owned ballrooms for an initial term of 50 years. The Lessee has options to renew the lease for four additional periods of ten years each and one additional period of nine years. In 2013, Hyatt Equities, LLC. sold its interest to Inland American Lodging Acquisitions, Inc., the terms and conditions of the lease agreements remain in effect.

The minimum rent of the Ballroom lease is adjusted every three years according to the April 1985 agreement. Due to the COVID-19 impacts, the City agreed to waive and abate the ballroom lease from March 1, 2020 to October 1, 2021.

On May 7, 2024, the City Council, acting as the governing board of the Successor Agency to the Redevelopment Agency of the City of Santa Clara, adopt a Resolution authorizing the City Manager/Executive Officer to negotiate and execute a Purchase and Sale Agreement between the Successor Agency to the Redevelopment Agency of the City of Santa Clara and XHR Acquisitions LLC for the Hyatt Parcel at a purchase price of \$25,000,000 including an amendment to the Ballroom Lease Agreement. On March 25, 2025, the Fourth Amendment to Ballroom License Agreement was executed between the City and Hyatt, extending the lease term to April 30, 2084.

For the fiscal year ended June 30, 2025, the City recognized \$274,484 in lease revenue and \$193,811 in interest revenue. As of June 30, 2025, the City's receivable for lease payments was \$7,841,027 and the balance of the deferred inflows of resources was \$7,633,504.

### C. North South Parking Lot Lease

On May 22, 2018, the City Council authorized the City Manager to make an offer to purchase the Successor Agency owned North South Parcel and further authorized the execution of a Purchase and Sale Agreement for the property. The transfer of the property was settled on July 24, 2018. As part of the acquisition, the City accepted and assumed all of the duties, obligations, liabilities, commitments and covenants of Successor Agency accruing from and after the settlement date with respect to or arising under the lease with Cedar Fair.

For the fiscal year ended June 30, 2025, the City recognized \$26,174 in lease revenue and \$4,588 in interest revenue. As of June 30, 2025, the City's receivable for lease payments was \$411,522 and the balance of the deferred inflows of resources was \$407,880.

### **NOTE 4 – LEASE AGREEMENTS (continued)**

#### D. Related Santa Clara Ground Lease

The City and Related Santa Clara, LLC, a Delaware limited liability company, entered into the certain Disposition and Development Agreement (City Place Santa Clara) on August 12, 2016. The duly adopted Development Agreement requires the City to convey the Property by lease in accordance with the DDA. In December 2022, the City entered into three ground leases with the Related Santa Clara for Phase 1-A, Phase 1-B, and Phase 1-C. The term of the three leases is 99 years after the effective date of January I, 2023. The rent commencement date was on December 20, 2022. Under the terms of the lease, the City will receive specified amounts for minimum rent subject to certain events or time periods and then inflationary adjustments at times specified in the leases. For the fiscal year ended June 30, 2025, the City recognized \$432,590 in lease revenue and \$1,932,088 in interest revenue for Phase 1-A, recognized \$380,247 in lease revenue and \$1,698,308 in interest revenue for Phase 1-B, recognized \$173,693 in lease revenue and \$775,771 in interest revenue for Phase 1-C. As of June 30, 2025, the City's receivable for lease payments was \$42,785,031 and the balance of the deferred inflows of resources was \$36,681,583 for Phase 1-B, the lease receivable \$17,179,016 and the balance of the deferred inflows of resources was \$36,755,787 for Phase 1-C.

### E. Future Lease Payments

As of June 30, 2025, the City's receivable for future lease payments to maturity for the leasing assets to other entities with the funds in which payments will be received are as follows:

## **NOTE 4 – LEASE AGREEMENTS (continued)**

### NOTE 5 - ENTERPRISE FUND MANAGEMENT AGREEMENTS

#### A. Santa Clara Convention Center

During fiscal year 2018-19, the City performed a competitive bidding process to select a new management company for the Convention Center. On March 12, 2019, the City Council approved a resolution to enter into a new agreement with Global Spectrum, LP, doing business as Spectra Venue Management (Spectra), to manage and operate the Convention Center effective March 18, 2019. In November 2021, Oakview Group acquired Spectra and rebranded to OVG360 (OVG). The initial term of this agreement began on March 18, 2019 and expired on June 30, 2024 with the option to extend the agreement for two subsequent terms of five (5) years by serving notice to OVG no later than 180 days from the expiration of the term period. Option Term One was exercised to extend the agreement for a subsequent term of five (5) years which began on July 1, 2024 and expires on June 30, 2029. Under the terms of this agreement, OVG will receive an annual base management fee for its' operation of the Convention Center and an additional management fee if certain performance measures are met. For fiscal year ended June 30, 2025, the City paid OVG \$171,494 in management fees.

In May 2019, the City issued a request for proposal (RFP) to select a qualified company to provide Food and Beverage Operations for the Convention Center. The City entered into an agreement with Levy Premium Foodservice Limited Partnership (Levy) on November 1, 2019 to manage the foodservice operations at the Convention Center. The initial term of this agreement began on November 1, 2019 and expired on June 30, 2025 with the option to extend the agreement for two subsequent terms of five (5) years each by serving notice to Levy no later than 180 calendar days from expiration of term period. Option Term One was exercised to extend the agreement for a subsequent term of five (5) years which begins on July 1, 2025 and expires on June 30, 2030. Under the terms of this agreement, Levy will receive management fees equal to 4.5% of gross receipts plus an additional fee of 8% of net receipts. For the fiscal year ended June 30, 2025, the City paid Levy \$368,903 in fees.

In accordance with the March 18, 2019 executed agreement, OVG agreed to pay the City \$1,150,000 for Capital Investments to be used for capital improvements and repairs at the Convention Center. This is amortized on a straight-line basis over 15 years beginning May 1, 2019. With the extension of the agreement, under Option Term One, OVG agreed to pay the City an additional \$550,000 for Capital Investments. This investment was received December 13, 2024 and will be amortized on a straight-line basis over 10 years beginning July 1, 2025. In the event that this agreement terminates for any reason prior to the full amortization of the investment funds, the City is obligated to reimburse OVG for the unamortized portion.

In accordance with the November 1, 2019 executed agreement, Levy agreed to pay the City \$5,750,000 consisting of \$5,000,000 for an Operations Investment to be used for pre-opening expenses and other improvements to the foodservice facilities at the Convention Center, and a \$750,000 Community Enrichment Investment to be spent on programs that drive community enrichment, develop local partnerships and promote economic development of the City. Both of these are amortized on a straight-line basis over 15 years. In the event that this agreement terminates for any reason prior to full amortization of the investment funds, the City is obligated to reimburse Levy for the unamortized amount.

### NOTE 6 – SANTA CLARA STADIUM AUTHORITY

### A. Credit Agreements

The Restated Credit Agreement dated as of June 19, 2013 was entered into by and among Stadium Funding Trust (FinanceCo), SCSA, and Goldman Sachs Bank. Under the Restated Credit Agreement, FinanceCo issued private placement notes and obtained a loan from a consortium of lenders and will loan SCSA up to \$450 million and StadCo up to \$400 million. Additionally, SCSA and Forty Niners SC Stadium Company LLC (StadCo) entered into the Restated StadCo Obligations Agreement on June 19, 2013 under which StadCo will loan up to \$500 Million to SCSA to pay costs associated with the development of Levi's Stadium.

## **B.** Management Agreement

The Stadium Management Agreement dated as of March 28, 2012 was entered into by and among the SCSA, Forty Niners Stadium Management Company LLC (ManagementCo), and StadCo. The SCSA and StadCo selected ManagementCo to provide management services for the Stadium on each entity's behalf on a continual, year-round basis, including overseeing the day-to-day operations and maintenance of the Stadium. The Stadium Management Agreement has an initial term of 25 years, plus a 15-year renewal option.

The Stadium Management Agreement also authorizes ManagementCo to pay for services related to the Stadium operations on behalf of the SCSA. For the year ended March 31, 2025, ManagementCo charged the SCSA \$7.7 million in Shared Expenses, and \$9.4 million in Other Operating and Management Expenses.

### C. Ground Lease

On February 28, 2012, the SCSA entered into a lease (the Ground Lease) with the City whereby the City leases the Stadium site to the SCSA. The Ground Lease was amended on June 19, 2013.

The Ground Lease has an initial term of 40 years. The first lease year commenced on the first day following the substantial completion of construction (August 1, 2014) and ended on the next following March 31st. The subsequent lease years will start on April 1st and end on the following March 31st. The SCSA will have five successive extension options, each four years in duration, which would commence following the initial term expiration date.

The Ground Lease provides that the City will receive a fixed ground rent (Fixed Ground Rent) of \$180 thousand for the first year of Stadium operations payable by the SCSA. Beginning in the second year of Stadium operations and annually thereafter through the tenth year of Stadium operations, the Fixed Ground Rent will increase annually by \$35 thousand. Beginning in the 11th year of Stadium operations, Fixed Ground Rent will be increased to equal \$1 million, and thereafter will be increased by \$100 thousand every five years through the end of the initial term of the Ground Lease. If the term of the Ground Lease is extended, then, during the first extension term, the Fixed Ground Rent will equal \$1.58 million; and if and to the extent the Ground Lease is further extended, the Fixed Ground Rent will be increased by \$80 thousand every four years thereafter through the expiration of the term of the Ground Lease. The SCSA paid the City \$1 million in ground rent in fiscal year ended March 31, 2025.

The Ground Lease also provides that the City will receive a performance-based rent equal to 50% of the net income from non-NFL events, less certain credits including 50% of the Fixed Ground Rent, payable by the SCSA. If certain of the credits are not used within the year incurred or the next five succeeding years, the credits will expire. The SCSA reported a net Non-NFL event profit of \$10.2 million for fiscal year ended

### **NOTE 6 – SANTA CLARA STADIUM AUTHORITY (continued)**

March 31, 2025, which triggers the performance-based rent. Performance-based rent payments of \$4.6 million were made to the City for the fiscal year ended March 31, 2025.

The following schedule summarizes the minimum future payments due under this lease:

Fiscal Year	Ground Lease	
Ending March 31	Amount	
2026	\$ 1,000,000	
2027	1,000,000	
2028	1,000,000	
2029	1,000,000

### **D.** Stadium Lease

On March 28, 2012, the SCSA entered into a lease with StadCo whereby the SCSA leases the Stadium to StadCo. On June 19, 2013, the same parties entered into an Amended and Restated Stadium Lease Agreement (the Stadium Lease). The stadium lease was amended on May 28, 2024 to implement the terms of the 2024 Settlement Agreement (see Note 20E).

The Stadium Lease has an initial term of 40 years commencing on the first day following the substantial completion of construction (August 1, 2014) and includes five successive options to extend the term by four years each. The Stadium Lease is divided into two seasons:

- the Tenant Season, which includes the NFL season (including preseason, regular season and postseason NFL games) and runs from August 1 through January 31; and
- the SCSA Season, which runs from February 1 through July 31.

Pursuant to the Stadium Lease, the SCSA and StadCo will be entitled to receive and collect separate revenues. Rent payable by StadCo to SCSA is \$24.8 million per year. The lease also provides for a fair market rent adjustment in year 33.

The SCSA received \$24.8 million in stadium rent from StadCo in the fiscal year ended March 31, 2025.

The SCSA may elect to expand the Tenant Season to consist of the entire lease year, from April 1 through the next succeeding March 31 (SCSA Put Right), by delivering written notice to StadCo. The SCSA Put Right may be exercised at any time during lease year 13, or at any time that the Management Company Revolving Loan balance exceeds \$20 million. The expansion of the Tenant Season will be effective as of the applicable Tenant Season Expansion Date as set forth in the Stadium Lease. Effective from and after the Tenant Season Expansion Date and continuing through the remainder of the Stadium Lease term, the Tenant Season will consist of the entire lease year.

# **NOTE 6 – SANTA CLARA STADIUM AUTHORITY (continued)**

# E. Consistency with Current Period Operations

Certain prior year amounts have been reclassified for consistency with the current year presentation. These classifications had no effect on the reported results of operations.

#### F. Immaterial Correction of an Error

Amounts previously reported in the 2024 financial statements have been revised for certain immaterial corrections related to the accounting for the unearned revenue on defaulted SBLs, including decreasing unearned revenue, current portion and unearned revenue, noncurrent by \$0.8 million and \$22.3 million, respectively, and increasing rents and licensing and net position – beginning of period by \$0.8 million and \$22.3 million, respectively.

### **G.** Subsequent Event

Management has evaluated subsequent events through September 29, 2025, which is the date the SCSA financial statements were available to be issued, and determined there are no other items to disclose.

#### NOTE 7 – CASH AND INVESTMENTS

#### A. Pooled Cash and Investments

The City pools cash from all sources and all funds except restricted cash and investments with fiscal agent. Allocable portions of the pooled portfolio for each fund type are reported under the captions "Pooled cash and investments" and "Restricted Cash". Interest income earned on pooled cash and investments is allocated to various funds based on average cash balances of each fund unless there are specific legal or contractual requirements to do otherwise.

Total cash and investments of the City was \$1,802.3 million as of June 30, 2025. This amount includes the City's pooled cash and cash investments of \$1,640.1 million, and cash and investments with fiscal agents of \$162.2 million.

# **NOTE 7 – CASH AND INVESTMENTS (continued)**

Of the City's total cash and investments, the following shows the allocation as presented on the accompanying statements of net position:

Statement of Net Position	
Pooled cash and investments	\$ 1,482,345,406
Investments with fiscal agent - current	147,089,434
Restricted cash	147,562,391
Deposits	7,621,750
Investments with fiscal agent - noncurrent	12,254,011
Fiduciary Funds	
Pooled cash and investments	2,608,396
Investments with fiscal agent - noncurrent	2,893,407
Total Cash and Investments	\$ 1,802,374,795

The City's cash and investments balances in Governmental Funds, Enterprise Funds, Internal Service Funds, Private Purpose Trust, and Fiduciary Funds were as follows:

			Internal		
	Governmental	Enterprise	Service	Fiduciary	
	Funds	Funds	Funds	Funds	Total

investments	\$ 475,192,393	\$ 1,271,292,697	\$ 50,387,902	\$ 5,501,803	\$ 1,802,374,795

# **B.** Investments Authorized by the California Government Code and the City's Investment Policy

The City's investment strategy is to invest cash not required for current obligations in U.S. government securities, federal government agency securities, highly rated money market instruments and other investments in accordance with the City's investment policy for a maximum term of five years for the General Fund portfolio. The City Council has authorized the purchase of securities with maturities greater than five years, specifically for the Electric Cost Reduction Account. This strategy allows the City to minimize its exposure to credit, market, and liquidity risk while maintaining a reasonable return on its portfolio.

# **NOTE 7 – CASH AND INVESTMENTS (continued)**

The City's investment policy, in compliance with the City of Santa Clara Charter, Article IX, Section 904 (d) and (h), and the California Government Code authorizes the City to invest in securities that are consistent with the City's cash management strategy and long-term goals and objectives. The City is authorized to invest in the following types of instruments, and the table also identifies certain provisions of the California Government Code, or the City's investment policy where it is more restrictive:

		Minimum	Maximum	Maximum
	Maximum	Credit	Percentage	Investment In
Authorized Investment Type	Maturity	Quality	of Portfolio	One Issuer

- (A) Securities issued by the Federal Farm Credit Bank (FFCB), the Federal Home Loan Bank (FHLB), the Federal National Mortgage Association (FNMA), and the Federal Home Loan Mortgage Corporation (FHLMC), local agencies and other U.S. government -sponsored enterprises.
- (B) Callable securities are limited to 30% of the portfolio.
- (C) No more than 10% of the outstanding commercial paper and medium term coporate notes of any single issuer.
- (D) Maximum Weighted Average Life with Current Public Securities Association Assumptions =12 years time of purchase for Mortgage-Backed Securities (MBS) and 6 years at time of purchase for collateralized mortgage obligations (CMO). Maximum Final Maturity for MBS's and CMOs = 30 years with balloon payments.

# **NOTE 7 – CASH AND INVESTMENTS (continued)**

### C. Investments with Fiscal Agents

The City invests bond proceeds restricted for construction in instruments that are stated in the Investment Policy and in various return-guaranteed investment agreements. These investments are invested in accordance with bond indentures and the maturities of each investment should not exceed the final maturity of each bond. Bond proceeds investments are reported monthly to the City Council.

The City also maintains required amounts of cash and investments with trustees or fiscal agents under the terms of certain debt issues. These funds are unexpended bond proceeds or are pledged reserves to be used if the City fails to meet its obligations under these debt issues. The California Government Code 53601 (L) allows these funds to be invested in accordance with the statutory provisions governing the issuance of those bonds, indebtedness, other agreements, or certificates of participation in accordance with the ordinance, resolution, indenture, or agreement of the local agency providing for the issuance.

Electric Reserve Fund bond proceeds restricted for construction projects are invested and held by the trustee as fiscal agent investments. All funds have been invested as permitted under the Code. These investments are usually scheduled to mature when cash is needed to fulfill the requirements of the underlying bond and trust agreements.

The City also invests funds in the Bentzien Trust in accordance with the investment policy of the Trust that allows investment in cash and short-term investments (up to 20%), fixed income investments including U.S. Government, U.S. Government Agency, Asset and Mortgage Backed securities, debt issued by U.S. Corporations and fixed income mutual funds (30% to 60% of portfolio's aggregate fair value), and equity securities or mutual funds (40% to 70% of portfolio's aggregate fair value). Investments in U.S. Corporate debt shall be limited to an amount per issuer not to exceed 10% of the aggregate fair value of the portfolio, and upon initial purchase by the Adviser, must be of investment grade as rated by Moody's and/or Standard and Poor's rating services. The maximum maturity of an individual bond shall not exceed fifteen years and the average maturity shall not exceed ten years. Individual equity purchases shall have an equivalent securities rating of B- or better. Individual equity purchases shall not exceed five percent of the portfolio's aggregate fair value.

#### D. Pension Rate Stabilization Program

In February 2017, the City Council approved a Pension Rate Stabilization Program, (PRSP) Trust administered by Public Agency Retirement Services (PARS). The PRSP is an irrevocable trust and qualifies as an Internal Revenue Section 115 trust. This trust will assist the City in mitigating the CalPERS contribution rate volatility. Investments of funds held in Pension Rate Stabilization Program (PRSP) are governed by the Investment Guideline Document for the investment account and by the agreement for administrative services with the Public Agency Retirement Services (PARS), rather than the general provisions of the California Government code or the City's investment policy. The City elected a discretionary investment approach which allows the City to maintain oversight of the investment management, control on target yield and the portfolio' risk tolerance. The assets in this program will eventually be used to fund Pension Plan obligations.

# E. Interest Rate, Credit Risks and Fair Value Measurement

Interest rate risk is the risk that an investment's value will be adversely affected by a change in interest rates. In general, the longer the time to maturity of an investment, the greater the sensitivity of its fair value to changes

# **NOTE 7 – CASH AND INVESTMENTS (continued)**

in market interest rates. To reduce interest rate risk, the City diversifies the portfolio into a wide range of investments with different maturities, and maintains a reasonable average maturity of less than three years. This approach significantly mitigates adverse market volatility and maximizes returns.

The average maturity of the City's pooled investment portfolio at June 30, 2025 was approximately 2.40 years and the City has the ability to and generally intends to hold all investments to maturity. Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustees) to market interest rate fluctuations is provided in the investment table that shows the distribution of the City's investments by maturity.

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. Credit risk is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Presented below is the actual rating as of June 30, 2025 for each investment type:

#### No te:

 $(A) Investments \ are \ not \ rated \ by \ S\&P \ , but \ are \ rated \ by \ Moody's \ and \ Fitch, and \ have \ ratings \ in \ compliance \ with \ the \ City's \ investment \ po \ licy.$ 

The City accounts for investments in accordance with GAAP, which requires governmental entities to report certain investments at fair value based on quoted market information obtained from recognized sources. The City has reported its investments at fair value with the exception of its share of external investment pools and mutual funds, the carrying value of which approximates fair value. In determining the change in fair value of its investments, the City used an aggregate method of calculation.

The City categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation input used to measure the fair value of asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

<sup>(1)</sup> Accounts in exempt column are Mutual Fund-Money Market, Collateral Obligations, CAMP investments and Deposit Sweep Program which are exempt from the fair value hierarchy, or reported at amortized cost.

The City utilizes a third party pricing service to determine fair market prices for its individually held investments. Evaluations are based on market information available at the time and generated using proprietary evaluated pricing models and methodologies.

Bentzien Trust investment in stocks and U.S. Treasuries are valued using prices quoted in active markets for those securities. All other Bentzien Trust debt securities are valued using a Market Approach methodology by

# **NOTE 7 – CASH AND INVESTMENTS (continued)**

Standard & Poor's Securities Evaluation Inc. The Market Approach uses prices and other relevant information generated by market transactions involving identical or similar assets, liabilities or a group of assets and liabilities.

Level 1 investments are valued using a marketable actively traded assets closing price for identical assets. Level 2 investments are determined by using quoted prices for similar assets.

#### F. Concentration of Credit Risk

None of the investments in the securities of any individual issuers is greater than 5% of total Citywide investments.

#### G. Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Under California Government Code Section 53651, depending on specific types of eligible securities, a bank must deposit eligible securities posted as collateral with its Agent having a fair value of 105% to 150% of the City's cash on deposit. All of the City's deposits are either insured by the Federal Depository Insurance Corporation (FDIC) or collateralized with pledged securities held in the trust department of the financial institutions.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, the City will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The City's Investment Policy limits its exposure to custodial credit risk by requiring that all security transactions entered into by the City, including collateral for repurchase agreements, be conducted on a delivery-versus-payment basis. Securities are to be held by a third-party custodian.

### H. Investments with Fair Values Highly Sensitive to Interest Rate Fluctuations

The City's investment portfolio includes callable corporate notes and callable asset-backed securities (ABS) held within the City's investment pool. These investments are considered highly sensitive to interest rate fluctuations because changes in market interest rates may affect both the timing and amount of the securities' cash flows. When interest rates decline, issuers may exercise the call option and redeem the securities prior to their stated maturity. If these securities are called, the City may be required to reinvest the proceeds at lower prevailing market rates, which may reduce future investment earnings.

As of June 30, 2025, the City held \$51 million in callable corporate notes and \$189 million in callable ABS. These securities have stated maturities ranging from November 2025 to May 2030 and next call dates ranging from August 2025 to April 2030.

# I. Local Agency Investment Fund

The City is a voluntary participant in the Local Agency Investment Fund (LAIF). LAIF is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. LAIF's investment portfolio mainly consists of Treasuries, loans, Federal Agency securities, and collateralized

# **NOTE 7 – CASH AND INVESTMENTS (continued)**

mortgage obligations. Each regular LAIF account is permitted to have up to 15 transactions per month, with a minimum transaction amount of \$5,000, a maximum transaction amount of \$75 million and at least 24 hours advance notice for withdrawals of \$10 million or more. Bond proceeds accounts are subject to one time deposit with no cap and are set up with a monthly draw down schedule. The carrying value of LAIF approximates fair value.

#### J. California Asset Management Program

The City, as a CAMP shareholder, participates in both the CAMP Pool Portfolio and the CAMP Term Portfolio. The CAMP Pool is fully liquid, stable net asset value (NAV) investment option with a competitive yield, while the CAMP Term is a fixed-rate, fixed term investment option that offers securities with maturities ranging from 60 days to one year. Investment principal and interest in the CAMP Term account are paid at maturity, with an automatic sweep into the CAMP Pool account. The CAMP Pool is managed to maintain a dollar-weighted average portfolio maturity of 60 days or less and seeks to maintain a constant NAV per share of \$1.00. The CAMP Pool invests in obligations of the United States Government and its agencies, high-quality, short-term debt obligations of U.S. companies and financial institutions. The CAMP Term investments are based on a pool of open-market securities similar to those in the CAMP Pool. The investments are matched to the amount invested and maturities selected by the Shareholder.

The City may withdraw all or any portion of the funds in the CAMP Pool account at any time by redeeming shares. The City may withdraw all or a portion of the funds in the CAMP Term account in \$10,000 increments prior to maturity, but there is a premature redemption penalty.

The CAMP Declaration of Trust permits the CAMP trustee to suspend the right of withdrawal from CAMP or to postpone the date of payment of redemption proceeds if the New York Stock Exchange is closed other than for customary weekend and holiday closings, if trading on the New York Stock Exchange is restricted, or if, in the opinion of the CAMP trustees, an emergency exists such that disposal of the CAMP pool securities or determination of its net asset value is not reasonably practicable. If the right of withdrawal is suspended, the City may either withdraw its request for that withdrawal or receive payment based on the net asset value of the CAMP pool next determined after termination of the suspension of the right of withdrawal. At June 30, 2025, the fair value approximated the City's cost. At June 30, 2025, the CAMP Pool investments had an average maturity of 41 days.

#### NOTE 8 – INTERFUND TRANSACTIONS AND BALANCES

#### A. Interfund Transfers

With Council approval, resources may be transferred from one City fund to another.

Transfers between funds during the fiscal year ended June 30, 2025 were as follows:

# **NOTE 8 – INTERFUND TRANSACTIONS AND BALANCES (continued)**

Fund Receiving Transfers	Fund Making Transfers Amou			
General Fund	Non-Major Governmental	\$	3,114,963	A

<b>Total Interfund Transfers</b>		\$	50,304,952	-

# NOTE 8 – INTERFUND TRANSACTIONS AND BALANCES (continued)

The reasons for material transfers are set forth below:

- (A) Transfer storm drain customer service fee from storm drain capital improvement fund to cover the storm drain maintenance, return of the savings from capital projects, and FEMA Public Assistance grant reimbursements, along with administrative transfer from the special revenue funds.
- (B) Return the savings from the CIP Management Service Fee fund.
- (C) Transfer to general fund for the positions to support Electric Utility operation.
- (D) Transfer to fund various capital projects, maintenance district and to pay the debt.
- (E) Transfer to fund their respective share of financial, human resources software, utility billing, and other projects.
- (F) Transfer from Special Revenue Funds to fund various street related projects, parking lot paving project, and PeopleSoft upgrade project.
- (G) Transfer from General Fund to purchase a mobile incident command vehicle.
- (H) Transfer from Electric Utility Greenhouse Gas program to fund the vehicle revolving fund on the electric vehicle purchases.
- (I) Transfer to Automotive Services for replacement of utility crew trucks.
- (J) Transfer from Sewer Utility fund to cover a special liability claim.
- (K) Transfer to Cemetery fund to subsidize the cemetery operation.
- (L) Transfer fund to the Electric Utility fiber project for the stormwater and water ground improvement project.
- (M) Returning the savings from CIP Management Service Fee fund to the original funding source.
- (N) Transfer to Solid Waste to subsidize the rate assistance program.
- (O) Transfer to Santa Clara Convention Center to subsidize the operation.
- (P) Transfer to Santa Clara Open Space Authority for the annual audit expenditures.

# NOTE 8 – INTERFUND TRANSACTIONS AND BALANCES (continued)

#### **B.** Current Interfund Balances

Current interfund balances arise in the normal course of business and are expected to be repaid shortly after the end of the fiscal year. The following is a summary of interfund balances as of June 30, 2025.

Receivable Fund	Payable Fund	Amount
General Fund	Santa Clara Stadium Authority	\$ 118,978
	Receivable by Governmental Funds	118,978
Electric Utility	Internal Service Funds	4,773,495
Water Utility	Internal Service Funds	1,309,352
Sewer Utility	Internal Service Funds	1,220,074
Cemetery	Internal Service Funds	286,207
	Receivable by Enterprise Funds	7,589,128
Internal Service Funds	Internal Service Funds	46,059
	Receivable by Internal Service Funds	46,059
	Total	\$ 7,754,165

Note: The City uses due to/due from as a balancing mechanism in funds with negative cash balances.

#### C. Internal Balances

Internal balances represent the net interfund receivables and payables remaining after the elimination of all such balances within governmental, successor agency and business-type activities. The negative \$197,254 net internal balance in the Statement of Net Position is due to the different fiscal year end dates between the City and the Santa Clara Stadium Authority (refer to Note 1D for more information).

# NOTE 10 – LONG-TERM DEBT AND DERIVATIVE INSTRUMENTS (continued)

# **B.** City's Long-term Obligations

2013 Central Park Library Refunding Certificates of Participation (2013 COPs)

On March 28, 2013, the PFFC issued \$18.54 million to provide funds to refund outstanding 2002A COPs. The 2013 COPs mature annually beginning February 1, 2014 through February 1, 2032 and bear coupon rates ranging from 2% to 3.75%. Debt Service is secured by lease payments to be made by the City to the PFFC for use of the library. The PFFC assigns the lease payments to the certificate owners.

In the event of default there is no remedy of acceleration of the total lease payments nor the maturities of the Certificates. The City will be liable only for the lease payments on an annual basis, and in the event of default, the trustee would be required to seek a separate judgement each year for that year's defaulted lease payments.

# Compliance

Various debt agreements governing the City's bonds contain a number of covenants, including continuing disclosure requirements. The City is in compliance with these specific covenants and all other material covenants governing the particular bond issues. No event of default, as defined in the bond indentures, has occurred or is occurring.

Various debt agreements governing the Enterprise Funds' revenue bonds contain a number of covenants, including those that require the City to maintain and preserve the respective enterprise in good repair and working order, to maintain certain levels of insurance and to fix and collect rates, fees and charges so as to maintain certain debt coverage ratios. The City is in compliance with these specific covenants and all other material covenants governing the particular revenue bond issues. No event of default as defined in the bond indentures has occurred or is occurring.

### C. Enterprise Funds

### **Electric Utility**

### Electric Revenue Refunding Bonds, Series 2018A

On December 18, 2018, SVP issued \$48.8 million of Electric Revenue Refunding Bonds, Series 2018A (Electric 2018A Bonds) to refinance \$54.58 million outstanding principal amount of Variable Rate Demand Electric Revenue Refunding Bonds, Series 2008B and terminate a related swap agreement. The Electric 2018A Bonds bear 5% coupon rate, mature annually beginning on July 1, 2019 through July 1, 2027, and were sold at an All-In True Interest Cost of 2.32%. Debt service on the Electric 2018A Bonds is secured by a pledge of net revenues of SVP.

In the event of default, the City will transfer to the trustee all adjusted net revenues held by it and received thereafter and the Trustee will disburse all adjusted net revenues and any other funds then held or thereafter received by the trustee under the provisions of indenture. In the case of default, the trustee will be entitled to declare the bond obligation of all bonds then outstanding to be due and payable immediately.

# **NOTE 10 – LONG-TERM DEBT AND DERIVATIVE INSTRUMENTS (continued)**

#### Electric Revenue Bonds, Series 2024A

On October 23, 2024, SVP issued \$112,175,000 of Electric Revenue Bonds, Series 2024 A (Electric 2024A Bonds), to provide funding for several of its capital projects in the System Expansion Plan. These projects include Kifer Receiving Station (KRS) rebuild, Scott Receiving Station (SRS) rebuild, and Northern Receiving Station (NRS) upgrades and expansion. The Electric 2024A Bonds mature annually beginning on July 1, 2025 through July 1, 2044, bear coupon rate of 5%, with optional redemption for bonds with maturities after July 1, 2035 and were sold at an All-In True Interest Cost of 3.27%. Debt service on the Electric 2024A Bonds is secured by a pledge of net revenues of the Electric Utility Fund.

In the event of default, SVP will transfer to the trustee all adjusted net revenues held by it and received thereafter and the trustee will disburse all adjusted net revenues and any other funds then held or thereafter received by the trustee under the provisions of indenture. In the case of default, the trustee will be entitled to declare the bond obligation of all bonds then outstanding to be due and payable immediately.

# Subordinate Electric Revenue Refunding Bonds, Series 2020-1

The City Council determined that it was in the best interests of the City to enter into a credit facility with a bank for the purpose of refunding all of the outstanding Electric 2011A Bonds; and for the indebtedness created under such credit facility to be evidenced by a subordinate electric revenue bond to be issued by the City and delivered to the Bank as authorized by Resolution No. 20-8834 adopted by the City Council on April 7, 2020.

On April 10, 2020, the City entered into a loan agreement with Bank of America, N.A., (the "Loan Agreement") and issued \$52.985 million of Subordinate Electric Revenue Refunding Bonds, Series 2020-1 (Electric 2020-1 Bonds) to refinance \$54.830 million outstanding principal amount of Electric Series 2011A Bonds under a Taxable to Tax-Exempt Conversion structure. The Electric 2020-1 Bonds were originally issued as taxable bonds with coupon rates of 1.74% and were converted to a tax-exempt rate of 1.36% per annum effective April 2, 2021. The Electric 2020-1 Bonds mature annually beginning on July 1, 2028 through July 1, 2032 and were sold at a true interest cost of 1.43% with an average coupon rate of 1.40%. Debt service on the Electric 2020-1 Bonds is secured by a pledge of Available Electric Revenues of the Electric Utility Fund on a basis subordinate to outstanding Senior Electric Revenue Bonds, if any.

# Subordinate Electric Revenue Refunding Bonds, Series 2020-2

The City Council determined that it was in the best interests of the City to enter into a credit facility with a bank for the purpose of refunding a portion of the outstanding Electric 2013A Bonds; and for the indebtedness created under such credit facility to be evidenced by a subordinate electric revenue bond to be issued by the City and delivered to the Bank as authorized by Resolution No. 20-8834 adopted by the City Council on April 7, 2020.

On April 10, 2020, the City entered into a loan agreement with Bank of America, N.A. and issued \$34.315 million of Subordinate Electric Revenue Refunding Bonds, Series 2020-2 (Electric 2020-2 Bonds) to refinance \$30.725 million of the callable portion of the outstanding Electric Revenue Refunding Bonds, Series 2013 A. The Electric 2020-2 Bonds bear 1.31% coupon rates, mature annually beginning on July 1, 2023 through July 1, 2028, and were sold at a true interest cost of 1.21% with an average coupon rate of 1.15%. Electric 2020-2 Bonds were priced at taxable rates and were converted to tax-exempt basis on December 28, 2022, which now bear 1.02% coupon rates. Debt service on the Electric 2020-2 Bonds is secured by a pledge of Available Electric Revenues of SVP on a basis subordinate to outstanding Senior Electric Revenue Bonds, if any.

# NOTE 10 – LONG-TERM DEBT AND DERIVATIVE INSTRUMENTS (continued)

### Subordinate Electric Revenue Refunding Bonds, Series 2020-3

The City Council determined that it was in the best interests of the City to enter into a credit facility with a bank for the purpose of refunding of the outstanding Electric Series 2014; and for the indebtedness created under such credit facility to be evidenced by a subordinate electric revenue bond to be issued by the City and delivered to the Bank as authorized by Resolution No. 20-8834 adopted by the City Council on April 7, 2020.

On April 10, 2020, the City issued \$16.720 million of Subordinate Electric Revenue Refunding Bonds, Series 2020-3 (Electric 2020-3 Bonds) to refinance \$19.413 million outstanding principal amount of Subordinated Electric Revenue Bonds, Series 2014. The Electric 2020-3 Bonds bear 0.58% coupon rates, mature annually beginning on July 1, 2020 through July 1, 2024, and were sold at a true interest cost of 0.70%. Debt service on the Electric 2020-3 Bonds is secured by a pledge of Available Electric Revenues of the Electric Utility Fund on a basis subordinate to outstanding Senior Electric Revenue Bonds, if any.

In the event of default under the loan agreement for the 2020-1 bonds, 2020-2 bonds or 2020-3 bonds (including a failure by the City to pay principal or interest on the related bonds, a failure by the City to perform or observe its covenants, a default in other specified indebtedness or obligations of the City, certain acts of bankruptcy or insolvency, or other specified events of default), the Bank has the right, upon written notice to the City, to accelerate and declare the City's obligation to repay the related bonds and all other obligations of the City to the Bank under such loan agreement to be immediately due and payable.

#### Pledges of Future Electric Revenues

The pledge of future Electric Fund adjusted net revenues ends upon repayment of all outstanding principal on bonds and loans, which is scheduled to occur in fiscal year 2044-45. For fiscal year 2024-25, Electric Fund revenues, including operating revenues and non-operating interest earnings, amounted to \$860.8 million and operating costs including operating expenses, but not interest, depreciation or amortization whole amounted to \$570.6 million. Adjusted net revenues available for debt service amounted to \$290.1 million which represented a coverage ratio of 13.3 on the \$21.8 million of debt service.

#### **Sewer Utility**

# Installment Sale Agreement, Series 2016

On March 8, 2016, the City entered into an Installment Sale Agreement with the PFFC in order to provide funds for the Trimble Road Trunk Sanitary Sewer Improvement Project (the "Project"). The PFFC entered into a separate Assignment Agreement with the DNT Asset Trust, a wholly owned subsidiary of JP Morgan Chase National Association (the "Agreement"), to assign its rights under the Installment Sale Agreement to DNT Asset Trust. The Agreement, in the amount of \$12,000,000, carries an interest rate of 2.14% and the final payment is due February 1, 2031. Installment payments on the Agreement are secured by a pledge of net revenues of the Wastewater System.

In the event of default there is no remedy of acceleration of the total installment payments. The City will be liable only for the installment payments as they become due during the terms of the agreement. There are no significant finance-related consequences for termination.

# NOTE 10 – LONG-TERM DEBT AND DERIVATIVE INSTRUMENTS (continued)

### Wastewater Revenue Certificates of Participation, Series 2023

On October 24, 2023, the PFFC issued \$34.59 million of Wastewater Revenue Certificates of Participation (2023 Wastewater COPs) to refund \$20.0 million outstanding Series 2020 ISA and fund an additional \$15.0 million of improvements for the San Jose/Santa Clara Regional Wastewater Facility Project (Project). The 2023 Wastewater COPs mature annually beginning February 1, 2025, through February 1, 2049 and bear coupon rates ranging from 4.25% to 5.00%. Debt Service is secured by a pledge of net revenues of the Wastewater System in installment payments to be made by the City to the PFFC for use of the Project. The PFFC assigns the lease payments to the certificate owners. This new issuance is on a parity with the obligations of the Series 2016 Trimble Road ISA.

#### Pledges of Future Sewer Revenues

The pledge of future Sewer Fund revenues ends upon repayment of all outstanding principal on bonds and loans, which is scheduled to occur in fiscal year 2048-49. For fiscal year 2024-25, Sewer Fund revenues, including operating revenues and non-operating interest earnings, amounted to \$59.6 million and operating costs including operating expenses, but not interest, depreciation or amortization whole amounted to \$40.1 million. Net revenues available for debt service amounted to \$19.6 million which represented a coverage ratio of 6.0 on the \$3.3 million of debt service.

#### Santa Clara Stadium Authority

#### Stadium Funding Trust Loan

The Restated Credit Agreement by and among FinanceCo, the SCSA and Goldman Sachs Bank was entered into on June 19, 2013. FinanceCo agreed to loan the SCSA up to \$450 million. Under the Restated Credit Agreement, the loan from FinanceCo consists of the Term A Loan and the Term B Loan. On March 31, 2016, the SCSA paid the remaining amount due on the Term B Loan.

### Term A Loan

The Term A Loan was made in the amount of \$282.8 million. This loan bears interest at a fixed rate of 5.00%, payable semi-annually, with annual principal payments due beginning in April 2018. The Term A Loan has a maturity date of April 1, 2039 and is subject to certain prepayment premiums. The loan was fully drawn at closing. As of March 31, 2025, \$192.7 million was outstanding. Debt service on this loan is secured by a pledge of available SBL revenues of SCSA.

In the event of default under the loan agreement, FinanceCo has the right, upon written notice to the SCSA, to accelerate and declare the SCSA's obligation to repay the related loan to FinanceCo to be immediately due and payable.

#### StadCo CFD Advance

In May of 2010, the City completed the proceedings to establish a Community Facilities District (CFD) for the purpose of financing certain publicly owned facilities and public services associated with Levi's Stadium.

On June 11, 2013, the CFD, the SCSA, and StadCo entered into a Reimbursement Agreement under which the CFD would agree to reimburse the SCSA for costs of certain publicly owned facilities and public services

# **NOTE 10 – LONG-TERM DEBT AND DERIVATIVE INSTRUMENTS (continued)**

constructed for Levi's Stadium. The reimbursement can only be made from a special tax generated by the CFD, as and when received by the CFD.

StadCo has agreed to advance to the SCSA funds to pay for the CFD Infrastructure (StadCo CFD Advance). To evidence the SCSA's obligation to repay the StadCo CFD Advance, the SCSA and StadCo also executed a note on June 11, 2013. The StadCo CFD Advance has a maximum principal of \$38 million and an interest rate of 5.73%.

During the year ended March 31, 2025 as the special CFD tax was submitted to the SCSA, a number of payments were made on the StadCo CFD Advance. StadCo CFD Advance payments were made mid-way through each quarter. The interest that accrued between the last StadCo CFD Advance payment and the end of the year is added to principal. These payments totaled \$1.6 million in interest and \$1.8 million in principal during the year ended March 31, 2025. As of March 31, 2025, \$27 million was outstanding.

# StadCo Subordinated Loan

The Restated StadCo Obligations Agreement dated as of June 19, 2013 was entered into by and between StadCo and the SCSA as part of the take out financing process. Under the Restated StadCo Obligations Agreement, StadCo will loan the SCSA an amount not to exceed \$500 million with a fixed 5.50% interest rate. Required principal repayments started in March 2016 and the SCSA may prepay the loan at any time. Debt service on this loan is secured by a pledge of available SCSA revenues on a basis subordinate to outstanding senior loans, if any. As of March 31, 2025, there was no balance outstanding.

In the event of default under the loan agreement, StadCo has the right, upon written notice to the SCSA, to accelerate and declare the SCSA's obligation to repay the related loan to StadCo to be immediately due and payable.

#### Management Company Revolving Loan

The Management Company Revolving Loan dated as of March 28, 2012 was entered into by and between the SCSA and ManagementCo. The Management Company Revolving Loan provides borrowing to the SCSA in an amount not to exceed \$25 million through the earlier of the end of the term of the Stadium Lease or the expiration of the Stadium Management Agreement, with interest at the prime rate payable quarterly. The Management Company Revolving Loan may be used solely for the purpose of enabling the SCSA to pay Covered SCSA Operating Expenses (as defined in the agreement) to the extent, and only to the extent, that funds are not otherwise available. As of March 31, 2025, there was no balance outstanding.

### Pledges of Future Stadium Revenues

The pledges of future revenues ends upon repayment of the \$192.7 million in outstanding principal on the Term A which is scheduled to occur in fiscal year 2039-40. For fiscal year 2024-25, revenues including operating revenues and nonoperating interest earnings amounted to \$102.4 million and operating costs including operating expenses, but not interest, depreciation, or amortization amounted to \$43.5 million. Net revenues available for debt service amounted to \$58.9 million, which represented a coverage ratio of 7.6 on the \$7.8 million of debt service to be paid in the coming year.

# NOTE 10 – LONG-TERM DEBT AND DERIVATIVE INSTRUMENTS (continued)

#### **D.** Derivative Instruments

Under hedge accounting, the increase (decrease) in the fair value of a hedge is reported as a deferred cash flow hedge on the statement of net position. For the reporting period, all of SVP's derivatives meet the hedge effectiveness tests defined by GAAP.

#### Notional Amounts and Fair Values- SVP Future Derivative Instruments

SVP maintains a Market Risk Management Policy, which among other things, sets forth the guidelines for the purchase and sale of certain financial instruments defined as hedge instruments in support of market power purchase and sales transactions. The primary goal of these guidelines is to provide a framework for the operation of an energy price hedging program to better manage SVP's risk exposure in order to stabilize pricing and hedges costs for the benefit of SVP and its customers.

Consistent with hedge accounting treatment meeting effectiveness tests, changes in fair value are reported as deferred flows of resources on the statement of net position until the contract expiration that occurs in conjunction with the hedged expected energy purchase/sales transaction. When hedging contracts expire, at the time the purchase/sales transactions occur, the deferred balance is recorded as a component of Purchased Power. For energy derivatives, fair values are estimated by comparing contract prices to forward market prices quoted by third party market participants.

SVP had the following future derivative instruments outstanding at June 30, 2025 with Archer Daniels Midland Company to hedge cash flows on sales of excess resources in CAISO market in June and purchase of power from CAISO in the future months.

Notion	al									
Amount (M	MBtu)	_			Fair	Value	e	Change in	ı Fa	ir Value
Long	Short	Effective Date	Maturity Date	Average Price	Classification		Amount	Classification		Amount
765,000		7/1/2020	12/31/2025	\$2.42	Derivative Instrument	\$	1,069,345	Deferred inflow	\$	1,069,345
1,530,000		1/1/2022	12/31/2025	2.64	Derivative Instrument		1,802,090	Deferred inflow		1,802,090
920,000		1/1/2021	12/31/2025	0.56	Derivative Instrument		(81,025)	Deferred outflow		(81,025)
1,840,000		1/1/2022	12/31/2025	1.03	Derivative Instrument		(1,017,650)	Deferred outflow		(1,017,650)
					Net Total	\$	1,772,760	- -	\$	1,772,760

#### Credit risk

Credit risk is the risk of loss due to a counterparty defaulting on its obligations. SVP is exposed to credit risk if hedging instruments are in asset positions. In order to eliminate counterparty credit risk, SVP has transacted both long term power and gas contracts on the Futures market on Intercontinental Exchange (ICE). As of June 30, 2025, two of SVP's open derivative gas contracts were in an asset position, and the fair values of the open contracts were positive \$2.9 million. Two of SVP's open derivative gas contracts were in a liability position, and the fair values of those open contracts were negative \$1.1 million. The open contract was with ADM

# NOTE 10 – LONG-TERM DEBT AND DERIVATIVE INSTRUMENTS (continued)

Investor Service, Inc., a clearing member of ICE and a company of Archer Daniels Midland Company who was rated A by S&P Global Ratings as of June 30, 2025.

SVP's policy for requiring collateral on hedging instruments varies based on individual contracts and counterparty credit ratings. Under the brokerage agreements with Archer Daniels Midland Company, the accounts are prefunded by SVP. If the account value falls below zero, margin calls are invoked. At June 30, 2025, SVP had posted collateral of \$7,621,750 deposited with CAISO and Archer Daniels Midland Company for resource energy trading.

It is also SVP's policy to negotiate netting arrangements whenever it has entered into more than one bilateral transactions with counterparty. Under the terms of these arrangements, should one party become insolvent or otherwise default on its obligations, the non-defaulting party may accelerate and terminate all outstanding transactions and net their fair values so that a single amount will be owed by (or to) the non-defaulting party.

#### Termination Risk

SVP's futures contracts are traded over the counter and have no termination risk.

#### Price Risk

With respect to price risk under power Futures contracts, on purchase contracts (long positions), SVP receives the CAISO NP15 average daily rate at settlement and pays the fixed contracted rate entered into on the trade date; on sales contracts (short positions), SVP pays the CAISO NP15 average daily rate at settlement and receives the fixed contracted rate entered into on the trade date. With respect to price risk under gas Futures contracts, on purchase contracts (long positions), SVP receives PG&E Citygate average daily price at settlement and pays the fixed contracted rate entered into on the trade date; on sales contracts (short positions), SVP pays the PG&E Citygate average daily price at settlement and receives the fixed contracted rate entered into on the trade date. SVP is exposed to risk because the contract prices are different from the settlement prices.

### E. Repayment Requirements

As of June 30, 2025, the debt service requirements to maturity for the City's long-term obligations, with determinable payment dates and the funds from which payment will be made are as follows:

### F. Debt Limitations and Restrictions

The amounts of the City's legal debt limit and debt margin (as defined by Section 1309 of the City Charter) as of June 30, 2025, is \$9.8 billion. There are a number of limitations and restrictions contained in the various bond indentures. The City is in compliance with all significant limitations, covenants, and restrictions.

# G. Arbitrage

According to the regulations set forth by the U. S. Treasury Department, for bond issues subject to arbitrage rebate, earnings in excess of the stated bond rate must be rebated to the federal government every five years. As of June 30, 2025, the City has seven outstanding bond issues that are subject to the arbitrage rebate regulations. The City monitors the earnings on each of these issues and records any accrued rebate liability at the end of each individual bond year.

#### NOTE 10 – LONG-TERM DEBT AND DERIVATIVE INSTRUMENTS (continued)

#### H. Lease Liabilities

The City has recorded right to use leased assets as required by generally accepted accounting principles. The assets are right to use assets for leased equipment in governmental activities and leased building in the business-type activities. The lease liabilities are amortized on a straight-line basis over the terms of the related leases.

A summary of governmental activities and business-type activities lease payable transactions for the fiscal year ended June 30, 2025, are as follows:

	 alance e 30, 2024	Addition			Retirement		Balance June 30, 2025		Current portion	
Governmental activities					_		_			
Lease liabilities	\$ 39,413	\$	1,576,376	\$	(101,780)	\$	1,514,009	\$	89,127	
Business-type activities					_					
Lease liabilities	\$ 951,005	\$	-	\$	(710,181)	\$	240,824	\$	240,824	
Total Lease liabilities	\$ 990,418	\$	1,576,376	\$	(811,961)	\$	1,754,833	\$	329,951	

The future principal and interest lease payments as of June 30, 2025, are as follows:

	C	Governmental activities				Busines-type activities				
For the Year								,		
Ending June 30	P	rincipal	1	nterest	P	rincipal	Int	erest		
2026	\$	89,127	\$	72,873	\$	240,824	\$	553		
2027		93,594		68,406				-		
2028		98,114		63,886		-		-		
2029		103,201		58,799		-		-		
2030		149,723		53,377		-		-		
2031-2035		980,250		118,650		-		-		
Total	\$	1,514,009	\$	435,991	\$	240,824	\$	553		

# I. Subscription Based IT Arrangements and Liabilities

In fiscal year 2023, the City implemented the provisions of GASB Statement No. 96, Subscription-Based Information Technology Arrangements. As of June 30, 2025, the City has recorded net intangible right-to-use subscription assets amounting to \$13,263,539 with accumulated amortization of \$5,389,823 in governmental activities and net intangible right-to-use subscription assets amounting to \$3,837,038 with accumulated amortization of \$1,366,491 in business-type activities. The subscription assets are offset with subscription liabilities.

#### NOTE 10 – LONG-TERM DEBT AND DERIVATIVE INSTRUMENTS (continued)

A summary of governmental activities and business-type activities SBITA payable transactions for the fiscal year ended June 30, 2025, are as follows:

		Balance						Balance	Current
	June 30, 2024		Additions		Retirements		June 30, 2025		Portion
Governmental activities						_			
SBITA liabilites	\$	9,203,943	\$	586,347	\$	(2,224,369)	\$	7,565,921	\$ 2,049,881
Business-type activities									
SBITA liabilites	\$	2,976,468	\$	-	\$	(481,033)	\$	2,495,435	\$ 503,819
Total SBITA liabilities	\$	12,180,411	\$	586,347	\$	(2,705,402)	\$	10,061,356	\$ 2,553,700

As of June 30, 2025, the value of the subscription liability was \$7,565,921 in governmental activities and \$2,495,435 in business-type activities. The City is required to make annual principal and interest payments throughout the life of each subscription. The interest rate of each subscription is based on the State of California incremental borrowing rate for GASB96 in the year contract is effective. As part of each subscription, the City has recorded an intangible right to use subscription asset and accumulated amortization as disclosed in Note 9A.

The future principal and interest SBITA payments as of June 30, 2025, are as follows:

	G	Governmental activities			1	Business-type activities				
For the Year Ending June 30	Principal			Interest		Principal	Interest			
2026	\$	2,049,881	\$	198,510	\$	503,819	\$	67,315		
2027		1,473,510		147,379		527,486		53,844		
2028		946,542		110,214		552,141		39,762		
2029		975,947		85,959		382,523		25,069		
2030		1,006,700		60,535		321,376		14,770		
2031-2035		1,113,341		95,042		208,090		6,012		
Total	\$	7,565,921	\$	697,639	\$	2,495,435	\$	206,772		

#### NOTE 11 – SOLID WASTE LANDFILL CLOSURE

The City of Santa Clara All Purpose Landfill (Landfill) was closed in September 1993. Federal and state laws and regulations require closure activities such as removal of landfill structures, decommissioning of environmental control systems, site security, and final cover construction and postclosure care such as ongoing monitoring of environmental impact. The City's postclosure plan (Plan) accepted by the California Integrated Waste Management Board, which is now the California Department of Resources Recycling and Recovery (CalRecycle), addresses all the attendant issues. Based on the Plan and pertaining laws and regulations, an estimated Landfill Postclosure Care Cost Obligation is recorded and updated annually. The postclosure care

# NOTE 11 – SOLID WASTE LANDFILL CLOSURE (continued)

liability is accrued in the Solid Waste Enterprise Fund in accordance with GAAP. This obligation is payable from solid waste user fees.

The City also has a Pledge of Revenue Agreement establishing financial assurance for postclosure maintenance of the Landfill with CalRecycle, which was adopted on October 12, 1999. Financial assurance in the amount of \$600,000 will be maintained in a separate account. In addition, the agreement requires funds to be pledged annually for post-closure maintenance and corrective action costs.

The City has pledged \$278,170 for postclosure maintenance expenses and \$550,024 for corrective action in 2025-26. These amounts are subject to annual inflation factors, as stipulated by CalRecycle. As of June 30, 2025, the cash balance held for postclosure maintenance totaled \$238,712, which is \$39,458 less than the pledged amount. The shortfall was covered by available resources in the Solid Waste Fund.

At June 30, 2025, a liability in the amount of \$7,457,136 was reported based on the estimated remaining postclosure care costs to meet the regulatory requirements. During fiscal year 2024-25, the City incurred postclosure expenses of \$808,898 and increased the liability by \$1,552,608 based on revised estimates of future costs. The estimated liability is based on the amount that would be paid if all equipment, facilities, and services required to monitor and maintain the landfill were acquired as of June 30, 2025. However, the actual cost of postclosure care and corrective action may be higher or lower due to inflation, changes in technology, or changes in landfill laws and regulations.

#### **NOTE 12 – PARTICIPATION IN JOINT VENTURES**

#### A. Investments in Joint Venture

The City participates in significant joint ventures: Northern California Power Agency (NCPA), the Transmission Agency of Northern California (TANC), San Jose-Santa Clara Water Pollution Control Plant and Clean Water Financing Authority (SJSC), M-S-R Energy Authority (MSR EA), M-S-R Public Power Agency (MSR PPA) and Silicon Valley Animal Control Authority (SVACA).

The separately issued financial statements of these joint ventures (as noted below) are available on request.

	Date of latest audited financial statement	Joint Venture's address
NCPA	6/30/2024	651 Commerce Dr. Roseville, CA 95678
TANC	6/30/2024	P.O. Box 15129 Sacramento, CA 95851
SJSC	6/30/2024	200 E. Santa Clara St. San Jose, CA 95113
MSR EA	12/31/2024	P.O. Box 4060 Modesto, CA 95352
MSR PPA	12/31/2024	P.O. Box 4060 Modesto, CA 95352
SVACA	6/30/2024	3370 Thomas Road Santa Clara, CA 95051

# **NOTE 12 – PARTICIPATION IN JOINT VENTURES (continued)**

The City's basic financial statements reflect the following investments in joint ventures as of June 30, 2024 (latest information available):

	Participating percentage	Investment	Method of accounting		
NCPA					
Geothermal	44.39%				
Hydroelectric	37.02%	\$44,099,226	Equity		
Combustion Turbine	41.67%	\$44,099,220	Equity		
Lodi Energy Center	25.75%				
TANC	9.69%	9,823,936	Equity		
SJSC (1)	19.86%	265,680,769	Equity		
MSR EA	33.40%	-	Suspended		
MSR PPA	35.00%	11,399,251	Equity		
SVACA	56.50%	5,287,765	Equity		
Total		\$336,290,947			

<sup>(1)</sup> The investment in San Jose/Santa Clara Regional Wastewater Facility includes the current year capital contribution.

# **B.** Contingent Liability

Under the terms of the various joint venture agreements, the City is contingently liable for a portion of the long-term debt of the entities under take-or-pay agreements, letters of credit, guarantees or other similar agreements. Sewer revenue bonds issued by the San Jose-Santa Clara Clean Water Financing Authority were no longer outstanding as they were fully redeemed on November 15, 2020. Based on the most recent audited financial statements of the individual joint ventures as of June 30, 2024, the City was contingently liable for long-term debt as follows (in thousands):

		Total		Participating	Contingent	
		Debt		Share	Liability	
NCPA		\$	449,300	35.64%	\$	160,113
TANC			159,565	9.65%		15,400
	Total	\$	608,865		\$	175,513

In addition, the City would, under certain conditions, be liable to pay a portion of the costs associated with the operations of the entities. Under certain circumstances, such as default or bankruptcy of the other participants, the City may also be liable to pay a portion of the debt of these joint ventures on behalf of those participants and seek reimbursement from those participants.

# **NOTE 12 – PARTICIPATION IN JOINT VENTURES (continued)**

Take-or-Pay commitments expire upon final maturity of outstanding debt for each project. Final fiscal year debt expirations as of June 30, 2024 are as follows:

		Entitlement	Debt Service
Project	Debt Expiration	Share %	Share %
NCPA - Geothermal Project (NGP)	July-2024	44.3905%	44.3905%
NCPA - Hydroelectric Project (NHP)	July-2032	37.0200%	37.3643%
NCPA - Lodi Energy Center (NLEC) (1)	June-2040	25.7500%	35.2854%
TANC - CA-OR Transmission Project (COTP	May-2039	9.6881%	9.6512%

<sup>(1)</sup> The SVP's debt service share in NLEC on issue one is 46.1588%, on issue two is 0%.

A summary of the City's "Take-or-Pay" contracts and related projects and its contingent liability for the debt service including principal and interest payments at June 30, 2024 is as follows (latest information available):

Fiscal Year	NGP	NHP	NLEC	COTP	Total
2025	\$ 1,545,765	\$ 13,367,196	\$ 7,565,513	\$ 1,465,120	\$ 23,943,594
2026	-	6,817,614	7,581,031	1,464,903	15,863,548
2027	-	6,822,128	7,721,815	1,464,831	16,008,774
2028	-	6,884,294	7,723,465	1,464,806	16,072,565
2029	-	6,815,475	7,723,430	1,464,734	16,003,639
2030-2034	-	28,857,091	38,621,287	7,324,659	74,803,037
2035-2039	-	-	38,615,696	7,324,975	45,940,671
2040-2041			14,804,750		14,804,750
Total	\$ 1,545,765	\$ 69,563,798	\$130,356,987	\$21,974,028	\$ 223,440,578

### C. Northern California Power Agency (NCPA)

NCPA was formed in 1968 as a joint powers agency in the State of California. Its membership consists of sixteen public agencies. NCPA is generally empowered to sell, purchase, generate, transmit, manage electrical energy and provide regulatory and legislative advocacy. Members participate in the projects of NCPA on an elective basis. Therefore, the participation percentage varies for each project in which it participates.

A Commission comprised of one representative for each member governs NCPA. The Commission is responsible for the general management of the affairs, property, and business of NCPA. Under the direction of the General Manager, the staff of NCPA is responsible for providing various administrative, operating and planning services for NCPA and its associated power corporations.

# Project Financing and Construction

NCPA's project construction and development programs have been individually financed by project revenue bonds collateralized by NCPA's assignment of all payments, revenues and proceeds associated with its interest in each project. Each project participant has agreed to pay its proportionate share of debt service and other

#### **NOTE 12 – PARTICIPATION IN JOINT VENTURES (continued)**

costs of the related project, notwithstanding the suspension, interruption, interference, reduction or curtailment of output from the project for any reason. Certain of the revenue bonds are additionally supported by municipal bond insurance credit enhancements.

### Hydroelectric Project

NCPA is contracted to finance, manage, construct, and operate Hydroelectric Project Number One for the licensed owner, Calaveras County Water District (CCWD). In exchange, NCPA has the right to the electric output of the project for 50 years from February 1982. NCPA also has an option to purchase power from the project in excess of the CCWD's requirements for the subsequent 50 years, subject to regulatory approval.

#### Geothermal Project

The NCPA Geothermal Plants have historically experienced greater than anticipated declines in steam production from the existing geothermal wells. Although initially operated as baseload generation projects at full capability (238MW), NCPA changed its steam field production from baseload to load-following and reduced average annual steam production. Along with other steam field operators in the area, the Agency began implementing various operating strategies to further reduce the rate of decline in steam production. The Agency has modified both steam turbine units and the associated steam collection system to enable generation with lower pressure steam at higher mass-flow rates to optimize the utilization of the available steam resource. In fiscal year 2019-20, NCPA began a well-workover program to restore underperforming wells.

Based upon current operation protocols and forecasted operations, NCPA expects average annual generation and peak capacity to decrease further, reaching approximately 68 MW by the year 2040.

# Combustion Turbine Project No. 1

NCPA originally owned five combustion turbine units, each of which is nominally rated at 25 MW, which are collectively known as the Combustion Turbine Project No. 1. These units were completed in 1986 and are designed to provide peak power and reserve requirements and emergency support. Effective September 1, 2010, two units located in the city of Roseville was sold to the City of Roseville. NCPA still owns and operates two units in the city of Alameda and one unit in the City of Lodi. Each purchaser is responsible under its power sales contract for paying an entitlement share in Combustion Turbine Project No. 1 of all NCPA's costs of such project.

### Lodi Energy Center

On May 24, 2010, SVP entered into an agreement with NCPA for a 25.75% interest in the Lodi Energy Center, a 280 MW combined cycle natural gas fired power plant, located in Lodi, California. The project received approval from the California Energy Commission in April 2010 and was placed into operation in November 2012. In January 2020, the Lodi Energy Center suffered a catastrophic turbine failure. NCPA replaced the turbine with a newer state-of-the-art turbine which could use hydrogen as a cleaner fuel source. The majority of the replacement cost was covered by NCPA's insurance resulting in relatively minimal financial impact to project participants.

# **NOTE 12 – PARTICIPATION IN JOINT VENTURES (continued)**

#### D. Transmission Agency of Northern California (TANC)

TANC was organized under the California Government Code pursuant to a joint powers agreement entered into by 15 Northern California utilities. The purpose of TANC is to provide electric transmission and other facilities for the use of its members through its authority to plan, acquire, construct, finance, operate and maintain facilities for electric power transmission. The joint powers agreement provides that the costs of TANC's activities can be financed or recovered through assessment of its members or from user charges through transmission contracts with its members. Each TANC member has agreed to pay a pro-rata share of the costs to operate TANC and for payment of debt service, and has the right to participate in future project agreements.

The joint powers agreement remains in effect until all debt obligations and interest thereon have been paid, unless otherwise extended by the members.

# California-Oregon Transmission Project

TANC is a participant and also the Project Manager of the California-Oregon Transmission Project (Project), a 340-mile long, 500-kilovolt alternating current transmission project between Southern Oregon and Central California. As Project Manager, TANC is responsible for the overall direction and coordination of all Project operations and maintenance, additions and betterments, and for general and administrative support.

The Project was declared commercially operable on March 24, 1993, with a rated transfer capability of 1,600 megawatts and provides a third transmission path between the electric systems of the Pacific Northwest and those in California. The Project has successfully met and completed the major environmental requirements. As of June 30, 2024, the most recent data available, TANC's investment in the Project was \$556.4 million, less accumulated depreciation and amortization of \$297.7 million.

In connection with its participation in the Project, TANC has an entitlement balance of the Project's transfer capability of approximately 1,362 megawatts and is obligated to pay an average of approximately 80% of the operating costs associated with the Project. TANC incurred and initially capitalized all costs for project construction since they were expected to be recovered through reimbursement from Project participants and from the successful operations of the Project's transmission lines. The Project agreement among the participating members provides that each member agrees to make payments, from its revenues, to TANC for project costs incurred and for payment of debt service.

Santa Clara has historically been obligated to pay 20.47% of TANC's COTP operating and maintenance expenses and 20.70% of TANC's COTP debt service and 22.16% of the Vernon acquisition debt. Santa Clara has also been entitled to 20.4745% of TANC's share of COTP transfer capability (approximately 278 MW net of third party layoffs of TANC) on an unconditional take-or-pay basis. Starting on July 1, 2014 Santa Clara laid-off 147 MWs of this entitlement to other TANC members under a 25 year agreement. During the term of this agreement the parties taking on the entitlement will pay all associated debt service, operations and maintenance costs, and all administrative and general costs. Santa Clara's portion of the operating and maintenance expenses and the COTP debt service is 10.004%.

### E. San Jose/Santa Clara Regional Wastewater Facility and Clean Water Financing Authority

# **NOTE 12 – PARTICIPATION IN JOINT VENTURES (continued)**

(SJSC)

The City and the City of San Jose jointly own the San Jose/Santa Clara Regional Wastewater Facility, (RWF). The RWF provides wastewater treatment services to Santa Clara, San Jose, and seven other tributary agencies. The City of San Jose is the administering agency for the RWF. The San Jose/Santa Clara Clean Water Financing Authority (Authority) was created in 1981 to provide financing for capital improvements at the RWF.

In 1959, the City and the City of San Jose entered into an agreement to construct and operate the RWF, (formerly referred to as the San Jose/Santa Clara Water Pollution Control Plant). Under the terms of the agreement, the cities own an undivided interest in the RWF and share in the capital and operating costs on a pro rata basis, determined by the ratio of each city's assessed valuation to the sum of both cities assessed valuations. Such percentages are determined annually and applied to the capital and operating costs of the RWF, determined on an accrual basis. For the fiscal year ended June 30, 2024, the City's portion of the plant capacity was approximately 19.855%, which is also its interest in the net position of the RWF.

### Zero Waste Energy Development Company Ground Lease

On June 21, 2011, the San Jose City Council approved a ground lease with Zero Waste Energy Development Company (ZWED) to lease a portion of the former Nine Par landfill, which is a part of the San Jose/Santa Clara Regional Wastewater Facility lands. ZWED would lease the property in three phases. Under the terms of the proposed lease, ZWED will lease 40.7 acres from the City of San Jose for an initial term of seven years from the date of execution for all three leaseholds. The base rent for the initial phase (Phase 1) of the property would be payable as a proportional credit against the expenditure of site development costs estimated at \$11.8 million or as a payment of \$850,000 per year. Rent for the subsequent phases will be based on the amount of organic waste processed at the facility. Over the 30-year life of the lease, the estimate payment is a minimum of \$16.5 million. The incoming revenue will be distributed between the City of Santa Clara, City of San Jose, and the tributary agencies to the RWF based on the master agreements with each agency.

### South Bay Water Recycling Program

The South Bay Water Recycling Program (SBWR), a regional water reclamation program, is part of an action plan adopted by the Regional Water Quality Control Board (RWQCB) which limits the RWF on the amount of effluent discharged into San Francisco Bay in order to prevent conversion of salt marsh and destruction of endangered species habitat. Flow limits are not included in the current five year permit from the RQWCB. SBWR has a master plan to guide the continued operation and potential expansion of the SBWR in the absence of the previous regulatory drivers. The master plan was completed in December of 2014 and accepted by the City of San Jose and the Santa Clara Valley Water District during fiscal year 2014-15.

Under the previously approved action plan, SBWR was required to reclaim 21.1 million gallons per day (MGD) of plant effluent for non-potable use by November 1, 1997, (Phase 1) and an additional 24.30 MGD by December 31, 2000 (Phase 2). The action plan also requires assessment of alternatives for potable reuse, including a potable pilot plant to be coordinated with the Santa Clara Valley Water District. In addition to habitat preservation, the project reduces the mass trace contaminates discharged to the San Francisco Bay and provides a reliable source of water to offset potable water demands. The current master plan recognizes that primary drivers for the continued operation and expansion of the recycled water system are based in the need for water supply, rather than wastewater discharge reduction.

### **NOTE 12 – PARTICIPATION IN JOINT VENTURES (continued)**

When first built, the SBWR distribution system included approximately 67 miles of pipe, a four million gallon reservoir, a transmission pump station, and two booster pump stations. These facilities were constructed between 1996 and 1998 at a capital cost of approximately \$140 million funded by the tributary agencies, grants and bond proceeds. Santa Clara's share of Phase 1 costs was approximately \$20.07 million. Within Santa Clara, seven miles of distribution mains were added to the system in 2010 and 2011 and the entire SBWR distribution system now consists of over 140 miles of pipeline.

Proceeds from the City of San Jose 1995 Series A and B Bonds and other funds were used to pay for the City of San Jose's share of Phase 1. The City contributed existing capital reserves, existing recycled water distribution system, and additional construction of system extensions. Other sources for funding of Phase 1 include U.S. Bureau of Reclamation grants, State of California Revolving Fund loans, \$6.45 million transferred in fiscal year 1995 from the Clean Water Financing Authority to the City of San Jose Wastewater Treatment Plant Capital Fund, and cash contributions from other participating agencies. The 2010 and 2011 extensions of the distribution system were funded in part by a combination of grants from the American Recovery and Reinvestment Act of 2009 (ARRA) and the United State Bureau of Reclamation totaling \$10.4 million.

In June 1997, the RWQCB approved the Proposed Revision to the South Bay Action Plan (the Plan), which describes the projects necessary to reduce average dry weather effluent flow from the RWF to below 120 MGD and protect salt marsh habitat for endangered species in the South Bay as required by RWQCB Order 94-117. These projects include expanding the Phase 1 non-potable water distribution system by extending additional piping, placing greater emphasis on water conservation programs, reducing infiltration inflow, augmenting stream flow, and creating wetlands. The estimated costs of \$127.5 million has been funded through a combination of State Revolving Fund loans, Equipment Replacement Reserves, Sewage Treatment Plant Connection Fees, federal grants, in-kind services and cash contributions.

# F. M-S-R Public Power Agency (MSR PPA)

MSR PPA is a joint power agency formed in 1980 by the Modesto Irrigation District, the City and the City of Redding, California, to develop or acquire and manage electric power resources for the benefit of the members. The personnel of its members and contract professional staff perform the administrative and management functions of MSR PPA. The member's income and expense sharing ratio is as follows: Modesto Irrigation District – 50%; City of Santa Clara – 35%; and City of Redding – 15%.

Prior to fiscal year ended December 31, 2020, SVP's equity in MSR PPA's net losses exceeds its investments and, therefore, the equity method of accounting for the investment was suspended. As of December 31, 2024, the date of the latest available audited financial statements, SVP was in a positive equity position of \$11.4 million. The equity method of accounting of SVP's investment in MSR PPA was applied. Under the joint exercise of power agreement, which formed MSR PPA, the City is responsible for funding up to 35 percent of MSR PPA's operating cost, to the extent such funding is necessary. During the year ended June 30, 2025, the City funded its share of operating costs in the Electric Utility Enterprise Fund expenses.

MSR PPA's principal activity is a 28.8% ownership interest in a 507-megawatt unit of a coal-fired electricity generating plant located in New Mexico (San Juan Plant). The San Juan plant was jointly owned by the Public Service Company of New Mexico (PNM) (38.5%), MSR PPA (28.8%) and other municipal power entities (32.7%). On December 31, 2017, MSR PPA divested its ownership interest in the San Juan plant and no longer receives electric energy or capacity from the San Juan Generating Station.

# **NOTE 12 – PARTICIPATION IN JOINT VENTURES (continued)**

In 2006, MSR PPA entered into a Wholesale Purchase and Sale Agreement and a Shaping and Firming Agreement with Avangrid Renewables, Inc. to provide renewable wind energy to the Members from the Big Horn I Wind Energy Project (Big Horn I Project) with a nominal installed capacity of approximately 199.5 MW. The City receives the power purchased by MSR PPA from the Big Horn I Project. The City's share equates to approximately a 105 MW share of the output. Power deliveries commenced on October 1, 2006 and will continue through September 30, 2026. Through an amendment of the original agreements MSR PPA has an obligation to continue to take the same output through September 30, 2031, or if the Big Horn Project is repowered MSR PPA will have a right of first offer to negotiate a long-term power purchase for such repowered project. The participation in this project is as follows: Modesto Irrigation District – 12.5%; City of Santa Clara – 52.5%; and City of Redding – 35%.

In 2009, MSR PPA entered into a Power Purchase Agreement and Redelivery Agreement with Avangrid Renewables Inc. to purchase additional wind power energy from the same site, called Big Horn II, with a nominal installed capacity of 50 MW for a twenty-year period. Deliveries of energy under this project began on November 1, 2010. The participation in this project is as follows: Modesto Irrigation District – 65%; City of Santa Clara – 35%.

#### M-S-R PPA San Juan

In 2015, the MSR PPA Commission approved a number of agreements (the "San Juan Restructuring Agreements") to provide for the interests of MSR PPA and certain other San Juan Participants (the "exiting participants") in the San Juan Generation Station to be transferred to the remaining San Juan Participants effective December 31, 2017. In addition to the ownership divesture, the San Juan Restructuring Agreements provide for, among other things, the allocation of ongoing responsibility for decommissioning costs, mine reclamation costs and any environmental remediation obligations among the exiting participants and the remaining San Juan Participants, and the establishment and funding of mine reclamation and plant decommissioning trust funds. The San Juan Restructuring Agreements were subsequently executed by all nine San Juan Generation Station owners and PNM Resources Development Company (a non-utility affiliate of PNM) and, following receipt of regulatory approvals, became effective on January 31, 2016. Various other implementing agreements and amendments to existing San Juan project agreements to effect the restructuring have also been executed. Closing of the ownership restructuring of the San Juan Generation Station and the divestiture of MSR PPA's interests in San Juan Unit No. 4 was completed on schedule on December 31, 2017. Demolition of the San Juan Generation Station started in 2025 with completion estimated in 2026.

#### G. M-S-R Energy Authority (MSR EA)

MSR EA is a joint power agency formed in 2008 by the Modesto Irrigation District, the City of Santa Clara, and the City of Redding, California, to develop or acquire and manage natural gas resources for the benefit of the members. The personnel of its members and contract professional staff perform the administrative and management functions of MSR EA. The member's income and expense sharing ratio is as follows: Modesto Irrigation District – 33.3%; City of Santa Clara – 33.4%; and City of Redding – 33.3%.

The City's equity in MSR EA's net losses exceeds its investment and, therefore, the equity method of accounting for the investment has been suspended. As of December 31, 2024, the date of the latest available audited financial statements, the City's unrecognized share of member's deficit of MSR EA was \$27.2 million. Under the joint exercise of power agreement, which formed MSR EA, the City is responsible for funding up

# **NOTE 12 – PARTICIPATION IN JOINT VENTURES (continued)**

to 33.4% of MSR EA's operating cost, to the extent such funding is necessary. During the year ended June 30, 2025, the City funded its share of operating in the Electric Utility Enterprise Fund expenses.

In 2009, the City of Santa Clara, along with the Cities of Modesto and Redding participated in the M-S-R Energy Authority Gas Prepay Project. The Gas Prepay Project provides the City of Santa Clara, through a Gas Supply Agreement with MSR EA dated September 10, 2009, a secure and long-term supply of natural gas of 7,500 MM Btu (Million British thermal unit) daily or 2,730,500 MM Btu annually through December 31, 2012, and 12,500 MM Btu daily, or 4,562,500 MM Btu annually thereafter until September 30, 2039. The agreement provides this supply at a discounted price below the spot market price (the Pacific Gas & Electric City gate index) over the next 30 years. As of December 31, 2024, bonds issued by MSR EA to finance the City's share of the Gas Prepay Project were outstanding in the principal amount of \$474,530,000. These bonds were initially sold on August 27, 2009. Under the Gas Supply Agreement, MSR EA will bill the City for actual quantities of natural gas delivered each month on a "take-and-pay" basis. MSR EA has contracted with Citigroup Energy, Inc. ("CEI") to use the proceeds of the Gas Prepay bond issue to prepay CEI for natural gas. CEI has guaranteed repayment of the bonds, and responsibility for bond repayment is non-recourse to the City of Santa Clara. Moreover, any default by the other Gas Prepay Project participants is also non-recourse to the City.

### H. Silicon Valley Animal Control Authority

The City is a member of the Silicon Valley Animal Control Authority, (SVACA), established in 2000 to deliver animal control and sheltering services to three communities: the cities of Santa Clara, Campbell, and Monte Sereno. The City of Mountain View joined in 2012 and the Town of Los Gatos joined in 2025. SVACA provides field and shelter services and staffing to support adoption and spay/neuter programs. SVACA purchased and retrofitted an existing cold-shell office building in Santa Clara that became a fully operating animal shelter. The shelter opened in the third quarter of 2006. SVACA is governed by a Board of Directors comprised of one appointed Councilmember from each of the five member cities.

During the fiscal year ended June 30, 2025, the City of Santa Clara contributed \$1,132,981 to SVACA. The City's equity interest in SVACA was \$5,287,765 at June 30, 2024 (the most recent audited information available). Audited financial statements are available from SVACA, located at 3370 Thomas Road, Santa Clara, CA 95051.

### NOTE 13 - RETIREMENT PLAN - DEFINED BENEFIT PENSION PLAN

# A. Plan Description

The City contributes to the California Public Employees Retirement System (CalPERS), an agent multiple-employer defined benefit plan, which is a public employee retirement system that acts as a common investment and administrative agent for participating public entities within the State of California. CalPERS offers a menu of benefit provisions and other requirements that are established by State statutes within the Public Employee Retirement law. The City selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through local ordinance. CalPERS issues a separate Annual Comprehensive Financial Report. Copies of the CalPERS' annual financial report may be obtained from the CalPERS website at www.calpers.ca.gov.

#### NOTE 13 – RETIREMENT PLAN – DEFINED BENEFIT PENSION PLAN (continued)

The City's defined benefit pension plans for Miscellaneous and Safety employees with CalPERS provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. All permanent (full-time and part-time) and eligible "as-needed" hourly City employees are required to participate in CalPERS. Employees fall under two categories, Classic and PEPRA. Employees hired on or before December 31, 2012, are considered Classic PERS members. Employees hired on or after January 1, 2013, fall into the PEPRA PERS members.

#### **B.** Pension Plan Benefits

On September 12, 2012, the State of California passed Assembly Bill (AB) 340, which created the Public Employees' Pension Reform Act (PEPRA). PEPRA implemented new benefit formulas and final compensation period, as well as new contribution requirements for new employees hired on or after January 1, 2013, who meet the definition of new member under PEPRA. Please refer to the Pension Reform section of the CalPERS website for more information regarding when an employee will be considered a new member under PEPRA.

Benefits for employees in the Miscellaneous Plan and Safety Plan vest after five years of CalPERS credited service. The retirement benefits are based on the retiree's age, years of CalPERS credited service, and benefit factor of 2.7% at 55 for the Classic Miscellaneous Plan members and 3% at 50 for the Classic Safety Plan members. For members under PEPRA, the benefit factor is reduced to 2% at 62 for the Miscellaneous Plan and 2.7% at 57 for the Safety Plan.

#### Miscellaneous Plan

Participants in this plan are eligible for service retirement and receive graduated benefits upon attaining the age of 50 and with at least five years of credited service with a CalPERS employer. The service retirement benefit is a monthly allowance equal to the product of the benefit factor (2.7% at 55 for Classic members or 2% at 62 for PEPRA members), years of service, and final compensation (monthly average of member's highest 12 or 36 (for new members) consecutive months full-time equivalent monthly pay). The service retirement benefit for this group is not capped. The compensation limit for Classic members for the 2025 calendar year is \$350,000. Employees with membership dates prior to July 1, 1996, are not impacted by this limit. The compensation limit for PEPRA for calendar year 2025 is \$155,081 for employees covered by Social Security and is adjusted annually with the CPI for all Urban Consumers.

#### **Safety Plan**

Participants in this plan are eligible for service retirement upon attaining the age of 50 and with at least five years of credited service with a CalPERS employer. The service retirement benefit is a monthly allowance equal to the product of the benefit factor (3% at 50 for Classic members or 2.7% at 57 for new members), years of service, and final compensation. For Classic Fire Safety employees, the final compensation is the monthly average of member's highest 36 consecutive months full-time equivalent monthly pay for both Classic and new members, and for Classic Police Safety employees, it is the monthly average of the member's highest 12 or 36 (for new members) consecutive months full-time equivalent monthly.

The service retirement benefit for the Safety Plan group is capped at 90% of final compensation for the Classic members. PEPRA members have an annual compensation limit on reportable earnings. The compensation limit for calendar year 2025 is \$186,096 for employees not covered by Social Security and is adjusted annually with the CPI for all Urban Consumers.

# NOTE 13 – RETIREMENT PLAN – DEFINED BENEFIT PENSION PLAN (continued)

The Plans provisions and benefits in effect at June 30, 2025 are summarized as follows:

	Miscell	aneous	Sa	fety
Hire date	Prior to January 1, 2013	On or After January 1, 2013	Prior to January 1, 2013	On or After January 1, 2013
Benefit formula	2.7% @ 55	2.0% @ 62	3.0% @ 50	2.7% @ 57
Benefit vesting schedule	5 years service	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life	monthly for life
Retirement age	50 - 55	52 - 67	50	50 - 57
Monthly benefits, as a % of eligible compensation	2.00% - 2.70%	1.00% - 2.50%	3.00%	2.00% - 2.70%
Required employee contribution rates	8.00%	7.00%		
Public Safety - Fire			9.00%	11.75%
Public Safety - Police			9.00%	11.75%
Required employer contribution rates	11.83%	11.83%	23.28%	23.28%
Required unfunded liability contribution	\$29,60	01,760	\$26,77	72,481

Beginning in fiscal year 2015-16, CalPERS collects employer contributions for the Plan as a percentage of payroll for the normal cost portion as noted in the rates above and as a dollar amount for contributions toward the unfunded liability. The dollar amounts are billed on a monthly basis or the City can elect a discounted lump sum payment option, which the City elected to do in fiscal year 2024-25. The City's required contribution for the miscellaneous plan's unfunded liability was \$29,601,760 in fiscal year 2024-25. The City's required contribution for the safety plan's unfunded liability was \$26,772,481 in fiscal year 2024-25.

#### **Employees Covered**

At the valuation date, June 30, 2023, and measurement date June 30, 2024, the following employees were covered by the benefits terms for each Plan:

Miscellaneous	Safety
1,093	519
606	92
715	278
2,414	889
	1,093 606 715

#### NOTE 13 – RETIREMENT PLAN – DEFINED BENEFIT PENSION PLAN (continued)

#### C. Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the year ended June 30, 2025, the City's contributions to the miscellaneous and safety plans were \$41,820,152 and \$40,969,901, respectively.

# D. Net Pension Liability

The City's net pension liability for each Plan is measured as the total pension liability, less the pension plans' fiduciary net position. The net pension liability of each of the Plans is measured as of June 30, 2024, using an annual actuarial valuation as of June 30, 2023, rolled forward to June 30, 2024, using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

	All Plans
Valuation Date	June 30, 2023
Measurement Date	June 30, 2024
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Payroll Growth	2.80%
Projected Salary Increase	Varies by Entry-Age and Service
Investment Rate of Return (1)	6.90%
Post Retirement Benefit Increase	The lesser of Contract COLA or 2.3% until Purchasing
	Power applies, 2.3% thereafter
Mortality (2)	Derived using CalPERS' membership data for all funds

- (1) Net of pension plan investment and administrative expenses; including inflation.
- (2) The morality table used was developed based on CalPERS specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. Pre-retirement and post-retirement mortality rates include generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS' November 2021 experience study report available on CalPERS' website.

#### NOTE 13 – RETIREMENT PLAN – DEFINED BENEFIT PENSION PLAN (continued)

#### **Discount Rate**

The discount rate used to measure the total pension liability for the Plan was 6.90%. The projection of cash flows used to determine the discount rate for each Plan assumed that contributions from all plan members in the Public Employees Retirement Fund (PERF) will be made at the current member contribution rates and that contributions from employers will be made statutorily required rates, actuarially determined. Based on those assumptions, each Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members for all plans in the PERF. Therefore, the long-term expected rate of return on plan investments was applied to all period of projected benefit payments to determine the total pension liability for each Plan.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations. Using historical returns of all the funds' assets classes, expected compound (geometric) returns were calculated over the next 20 years using a building-block approach. The expected rate of return was then adjusted to account for assumed administrative expenses of 10 Basis points.

The table below reflects the real rates of return by asset class.

Asset Class (1)	Assumed Asset Allocation	Real Return (1)&(2)
Global Equity - Cap-weighted	30.00%	4.54%
Global Equity - Non-Cap-weighted	12.00%	3.84%
Private Equity	13.00%	7.28%
Treasury	5.00%	0.27%
Mortgage-backed Securities	5.00%	0.50%
Investment Grade Corporates	10.00%	1.56%
High Yield	5.00%	2.27%
Emerging Market Debt	5.00%	2.48%
Private Debt	5.00%	3.57%
Real Assets	15.00%	3.21%
Leverage	-5.00%	-0.59%
	100.00%	

- (1) An expected inflation of 2.30% used for this period.
- (2) Figures are based on the 2021 Asset Liability Management study.

### Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City for each Plan, calculated using the discount rate for each Plan, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Mi	scellaneous	Safety
1% Decrease		5.90%	5.90%
Net Pension Liability	\$	438,761,781	\$ 481,446,101
Current Discount Rate		6.90%	6.90%
Net Pension Liability	\$	321,474,644	\$ 347,510,653
1% Increase		7.90%	7.90%
Net Pension Liability	\$	224,018,260	\$ 237,533,276

### **Pension Plan Fiduciary Net Position**

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

# NOTE 13 – RETIREMENT PLAN – DEFINED BENEFIT PENSION PLAN (continued)

### F. Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended June 30, 2025, the City recognized pension expense of \$44,875,423 for the Miscellaneous Plan and \$54,099,819 for the Safety Plan, for total pension expense of \$98,975,242.

At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

#### Miscellaneous Plan:

A	Deferred Outflows		Deferred Inflows	
	of	Resources	of l	Resources
Pension contributions subsequent to measurement date	\$	41,820,152	\$	-
Changes of assumptions		2,858,518		-
Differences between expected and actual experience		8,009,365		(423,662)
Net differences between projected and actual earnings				
on pension plan investments		8,144,613		
Total	\$	60,832,648	\$	(423,662)
Safety Plan:				
	Defe	rred Outflows	Defe	rred Inflows
	of	Resources	of l	Resources
Pension contributions subsequent to measurement date	\$	40,969,901	\$	-
Changes of assumptions		6,346,611		-
Differences between expected and actual experience		16,048,912		(829,798)

The reported \$41,820,152 for the Miscellaneous Plan and \$40,969,901 for the Safety Plan deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of

2028		(3,243,155)		(3,416,857)

### NOTE 14 - RETIREMENT PLAN - DEFINED CONTRIBUTION PLAN

The City's Public Agency Retirement System Plan (PARS Plan) is a compulsory retirement plan that qualifies under Section 401 of the Internal Revenue Code covering City employees who are not members of CalPERS. Under the provisions of the PARS Plan, the City makes no contributions; however, all administrative costs of the plan are funded by the City. The PARS Plan administrator is Phase II Systems. The total assets of the PARS Plan are held in trust for the employees and are not included in the City's assets or equity.

#### NOTE 15 – DEFERRED COMPENSATION PLAN

City employees may defer a portion of their compensation under a City sponsored deferred compensation plan created in accordance with Internal Revenue Code Section 457. Under this plan, participants are not taxed on the deferred portion of their compensation until distributed to them; distributions may be made only at termination, retirement, death or in an emergency as defined by the Internal Revenue Service.

The Plan is part of the public agency agent multiple-employer defined contribution plan that is administered by Nationwide. Benefit provisions under the Plan are established by City Resolution.

The laws governing deferred compensation plan assets require plan assets to be held by a trust for the exclusive benefit of plan participants and their beneficiaries. Since the assets held under these plans are not the City's property and are not subject to City control, they have been excluded from these financial statements.

The City has no liability for any losses incurred by the Plan and does not participate in any gains, but does have the duty of due care that would be required of an ordinary prudent investor. The City has a contract with Nationwide to manage and invest the assets of the Plan. The administrator pools the assets of the Plan with those of other participants and does not make separate investments for the City. The assets in the Plan are the sole property of the participants or their beneficiaries. Since the assets held under the Plan are not the City's property and are not subject to claims by general creditors of the City, they have been excluded from these financial statements. The Plan requires investments to be stated at fair market value and it requires all gains and losses on Plan investments to accrue directly to participant accounts.

# **NOTE 15 – DEFERRED COMPENSATION PLAN (continued)**

Under the terms of the Memorandum of Understanding (MOU) with the Police Officers Association (Unit 2) and the Unclassified Police Management Association (Unit 9A), the City is required to make a monthly contribution of \$150 to each employee who is enrolled in the City's Section 457 deferred compensation plan.

Under the terms of the MOU with the Public Safety Non-Sworn Employees Association (Unit 10), the City is required to make a monthly contribution of \$300 to each employee who is enrolled in the City's Section 457 deferred compensation plan.

Under the terms of the MOU with the Unclassified Fire Management Employees (Unit 9B), the City is required to make a monthly contribution of \$230 to each employee who is enrolled in the City's Section 457 deferred compensation plan.

Under the terms of the MOU with the Engineers of the City of Santa Clara (Unit 4), the City is required to make a monthly contribution of \$166 to \$330 to employees who are enrolled in the City's Section 457 deferred compensation plan.

Under the terms of the MOU with the Santa Clara Firefighters (Unit 1), the City is required to make a monthly contribution of \$175 to each employee who is enrolled in the City's Section 457 deferred compensation plan.

Under the terms of the MOU with the Unclassified Management Employees Association (Unit 9), the City is required to make a monthly contribution of \$300 to each employee who is enrolled in the City's Section 457 deferred compensation plan.

The City's required contributions for the year ended June 30, 2025 totaled \$1,390,568.

### NOTE 16 - OTHER POST EMPLOYMENT BENEFITS

## A. Plan Description

The City's agent multiple-employer defined benefit Other Post Employment Benefit (OPEB) Plan, which was established by City Council in fiscal year 2007-08 in accordance with GAAP, provides reimbursements to retirees for qualified expenses. Employees who have retired from the City with at least ten years of service and meet certain criterion based upon retirement date, household income in the most recent calendar year and age are entitled to reimbursements for qualified expenses. Annual maximum reimbursement amounts differ depending on when an employee retired from City service. The majority of retirees may be eligible for a maximum of \$5,046 in annual reimbursements. Amendments to benefit provisions are negotiated by the various bargaining units at the City and must be approved by Council. In fiscal year 2007-08, the City established an irrevocable exclusive agent multiple-employer defined benefit trust which is administered by Public Agency Retirement Services (PARS). The City is the Plan administrator, and PARS administers the investment trust for the City's Plan. The trust is used to accumulate and invest assets necessary to reimburse retirees. Separate financial reports are issued by PARS for the OPEB Plan Trust. The report can be obtained by writing to PARS at 4350 Von Karman Avenue, Suite 100, Newport Beach, CA 92660, or by calling 1-800-540-6369.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB plan

# **NOTE 16 – OTHER POST EMPLOYMENT BENEFITS (continued)**

and additions to and deduction from the OPEB's fiduciary net position have been determined on the same bases. For this purpose OPEB benefit payments are recognized when currently due and payable in accordance with the benefits terms. Investments are report at fair value.

Generally accepted accounting principles require that the reporting results must pertain to liability and asset information within certain defined timeframes. For the fiscal year 2024-25, the following time frames were used.

Measurement Date June 30, 2025

Measurement Period July 1, 2024 to June 30, 2025

Actuarial valuation date (1) June 30, 2024

(1) Update procedures were used to roll forward the Total OPEB liability from the valuation date to the measurement date.

# B. Plan Membership

As of June 30, 2025, membership in the plan consisted of the following:

	Number of
	Covered Employees
Inactive employees currently receiving benefits	657
Inactive employees entitled to but not yet receiving	258
benefit payments	230
Active employees	1,013
Total	1,928

### C. Contributions

The OPEB Plan trust annual contributions are based upon actuarial determine contributions. The contribution requirements are established and may be amended by the City Council. Plan members do not make contributions to the plan; the plan is funded entirely by employer contributions. For the fiscal year ending June 30, 2025 the City's cash contributions were \$4,463,303 in payments to the trust, \$15,846 in administrative expenses paid outside of the trust, and the estimated implied subsidy was \$1,011,000 for total contributions of \$5,490,149.

# **NOTE 16 – OTHER POST EMPLOYMENT BENEFITS (continued)**

# D. Net OPEB Liability

The City's net OPEB liability was measured as of June 30, 2025 and the total OPEB liability used to calculate the Net OPEB liability was determined by an actuarial valuation dated June 30, 2024, rolled forward to June 30, 2025 using standard actuarial methods, based on the following actuarial methods and assumptions:

#### **Actuarial Assumptions**

Significant Actuarial Assumptions Used in Total OPEB Liability

Actuarial Assumption  June 30, 2025 Measurement Date		
Actuarial valuation date	June 30, 2024	
Discount rate	4.50% at June 30, 2025 and 2024	
Discount fate	Crossover analysis showed benefit payments always fully funded by plan	
	assets	
T CL (		
Inflation	2.50%	
Salary increases	Aggregate 2.75%	
Investment rate of return	4.50% at June 30, 2025 and 2024	
Funding policy	Full pre-funding to PARS trust	
	PARS portfolio: Moderately Conservative	
Mortality, Disability,		
Termination, and Retirement	CalPERS 2000-2019 Experience Study	
Mortality Improvement	Mortality projected fully generational with Scale MP-2021	
Healthcare cost trend rates	Non-Medicare - 7.90% for 2026, scaling down to 3.45% in year 2076	
	Medicare (Non-Kaiser) - 6.90% for 2026, scaling down to 3.45% in year 2076	
	Medicare (Kaiser) - 5.65% for 2026, scaling down to 3.45% in year 2076	
Healthcare participation for future	PEMHCA minimum only: Currently covered: 50%, Waived: 25%	
retirees - Cash subsidy	Other plans: Currently covered: 80%, Waived: 40%	
Healthcare participation for future	PEMHCA minimum only: Currently covered: 50%, Waived: 25%	
retirees - PEMHCA implied subsidy	Other plans: Currently covered: 80%, Waived: 25%	
10th 005 1 Livil 10/1 implied subsidy	other panis. Currently covered. 6070, Walved. 2570	

#### E. Discount Rate

The discount rates used to measure the total OPEB liability was 4.50% as of June 30, 2025. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rate equal to the actuarially determined contributions rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

# **NOTE 16 – OTHER POST EMPLOYMENT BENEFITS (continued)**

Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Global Equity	30%	4.56%
Mutual Funds - Fixed Income	65%	0.78%
Cash and equivalent	5%	-0.50%
	100%	
Expected Inflation		2.50%
Discount Rate		4.50%

# F. Changes in the OPEB Liability

The changes in the Net OPEB liability and Fiduciary Net Position are as follows:

# Net OPEB Liability (In Thousands)

# NOTE 17 – ELECTRIC UTILITY - SILICON VALLEY POWER (SVP)

The City's Electric Utility Department provides electricity to City residents and businesses under the name Silicon Valley Power (SVP).

# A. Long-term Power Purchase Contracts

The City purchases wholesale electric power from various participants of the Western Systems Power Pool (WSPP), NCPA, MSR Public Power Agency (Note 12), Western Area Power Administration, and other sources to supply the power requirements of the City's electric utility customers under long-term power purchase agreements (PPAs). The City actively manages the financial risks inherent in these PPAs, including the risks arising from the changing spot market prices that move above and below the contract prices and from contract disputes that may arise from time to time. The proceeds and costs related to generation, either owned or under PPAs, except ancillary services are included in enterprise fund materials, services and supplies expense and excluded from wholesale resources purchases and sales.

#### B. Restructuring of the California Electric Industry

#### **Deregulation Legislation and Direct Access**

The passage of AB1890 in 1998 triggered fundamental changes in the structure of the electric industry in California. Generally, AB1890 provided for creation of the California Power Exchange (Cal PX), which was to be a clearinghouse for energy transactions among investor-owned utilities, independent generators and power marketers, who in turn would serve so called direct-access customers. AB1890 also created the California Independent System Operator (CAISO), which was to manage the state's bulk transmission grid.

However, in 2000 and 2001, the price of electricity at the Cal PX became extremely high, and investor-owned utilities were unable to pay for the energy that they needed from the Cal PX. Eventually the Cal PX filed for bankruptcy and was dismantled. Investor-owned utility PG&E and several energy marketers would also file for bankruptcy and over a decade of litigation ensued.

# NOTE 17 – ELECTRIC UTILITY – SILICON VALLEY POWER (SVP) (continued)

The CAISO, however, continues to manage the state's bulk electric system and the day-ahead and day-of markets, and it has implemented various price controls and tariffs in an effort to avoid repeating the mistakes of 2000 and 2001. Along with balancing control area responsibility, the CAISO has also announced that it will take on the role of reliability coordinator for the region.

# Energy Wholesale Trading and Risk Management

SVP participates in the wholesale gas and power market and the CAISO's centralized market. Since CAISO's Market Redesign and Technology Upgrade (MRTU), CAISO has become the ultimate buyer and seller in the California day ahead market. Therefore, SVP engages in the trading of commodity forward contracts (gas and electric energy contracts) to secure fuel supply and hedge daily power purchase/sales from/to CAISO. The primary type of forward contracts SVP currently engages in is the Futures contracts SVP transacts on Intercontinental Exchange (ICE). The Futures transactions for both natural gas and power are recorded on cash basis under Wholesale Trading activities starting fiscal year 2022-23. Activities during the fiscal year were substantially considered hedging transactions and, as such, have been accounted for using the settlement method of accounting. Accordingly, related gross sales and purchases totaling \$14.6 million and \$8.5 million, respectively, for fiscal year ended June 30, 2025, have been separately reported on the statement of revenues, expenses and changes in net position.

The restructured electric wholesale market exposes SVP to various risks including market, credit and operational risks. Active and effective management of these risks associated with the power trading activity is critical to its continued success and contribution to the entire utility. A Risk Management Committee, separate from the units that create the risk exposures, overseen by a Risk Oversight Committee that reports ultimately to the City Council, administers and monitors compliance with the risk policies and procedures on a regular basis. The City and SVP believe that it has the resource commitment, and effective policies and procedures, and is continuing to improve the control structure and oversight for evaluating and controlling the market and credit risks to which it is exposed.

#### **Credit Arrangements**

The City of Santa Clara electric utility maintains credit policies, procedures, and systems that help mitigate credit risk and minimize overall credit risk exposure. The policies include transacting only with investment grade counterparties, evaluating potential counterparties' financial condition and assigning credit limits as applicable. These credit limits are established based on risk and return considerations under terms customarily available in the industry. Additionally, SVP is a signatory to the WSPP netting agreement supplement and otherwise, enters into master netting arrangements whenever possible and, where appropriate, obtains collateral prior to trade execution. Master netting agreements incorporate rights of setoff that provide for the net settlement of subject contracts with the same counterparty in the event of default.

### **NOTE 18 – NET POSITION/FUND EQUITY**

Net Position is measured on the full accrual basis and presented in the Government-wide Financial Statements, while Fund Balance is measured on the modified accrual basis and presented in the Governmental Funds Financial Statements.

# NOTE 18 – NET POSITION/FUND EQUITY (continued)

#### A. Government-wide Financial Statements - Net Position

Net Position is the excess of all the City's assets and deferred outflow of resources over all its liabilities and deferred inflow of resources, regardless of fund. Net Position is divided into three captions. These captions apply only to Net Position, which is determined only at the government—wide level, and are described below:

*Net investment in capital assets* describes the portion of Net Position which is represented by the current net book value of the City's capital assets, less the outstanding balance of any debt issued to finance these assets.

Restricted describes the portion of Net Position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the City cannot unilaterally alter. These principally include developer fees received for use on capital projects, debt service requirements, and redevelopment funds restricted to low and moderate-income purposes.

Unrestricted describes the portion of Net Position which is not restricted as to use.

#### **B.** Governmental Fund Financial Statements - Fund Balances

The City categorizes fund balance in accordance with GAAP. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

# Nonspendable Fund Balance

Amounts that cannot be spent either because they are in a nonspendable form or are required to be maintained intact.

#### **Restricted Fund Balance**

Amounts that are constrained to specific purposes by federal, state, county, local laws, or externally imposed conditions by grantors or creditors.

#### **Committed Fund Balance**

Amounts that can only be used for specific purposes pursuant to constraints imposed by the City Council, the City's highest level of decision-making authority, through resolutions. These committed amounts cannot be used for any other purpose unless the Council removes or changes the specific uses through the same type of formal action taken to establish the commitment. These Council actions must occur prior to June 30th of the applicable fiscal year.

### **Assigned Fund Balance**

Amounts that are constrained by the City's intent are to be used for specific purposes, but are neither restricted nor committed. The City Council delegated the authority to assign amounts to be used for specific purposes to the City Manager per Ordinance 1784, September 16, 2003.

# **NOTE 18 – NET POSITION/FUND EQUITY (continued)**

#### **Unassigned Fund Balance**

These are either residual positive net resources of the General Fund in excess of what can properly be classified in one of the other four categories in the General Fund, or negative balances in all other funds. The Unassigned Fund Balance includes the Budget Stabilization (Emergency) and Capital Projects Reserves, and other undesignated fund balances. The balances in these accounts are \$72.7 million, \$13.4 million, and \$77.1 million, respectively. Additional information is described in the Stabilization Arrangement section of this note.

Under the City's encumbrance system of accounting, a portion of fund balance that has been encumbered for a specific future use is classified in the appropriate fund balance component based on the nature of the encumbrance.

# **NOTE 18 – NET POSITION/FUND EQUITY (continued)**

#### NOTE 18 – NET POSITION/FUND EQUITY (continued)

#### C. Fund Balance Policy

When both restricted and unrestricted funds are available for expenditure, the City's Fund Balance Policy reduces all Governmental Funds Balances in the following order: Restricted, Committed, Assigned, and Unassigned fund balances unless disallowed by City Council or legal requirements.

#### Stabilization Arrangement

Maintaining financial stabilization is a necessity for sound financial management and fiscal accountability. Its purpose is to ensure funds are available to cover occasional budgetary shortfalls (i.e., when general unrestricted revenues decline) or other unexpected urgent events. The City's Budget Stabilization Reserves (Emergency) and Capital Projects Reserves are maintained for these purposes. As of June 30, 2025, the Budget Stabilization and Capital Projects Reserves were \$72.7 million and \$13.4 million, respectively, and are a component of the General Fund's Unassigned Fund Balance.

In 1985-86, the City Council established a policy regarding the City's General Contingency Reserve, under which two separate reserves were established.

- The Budget Stabilization Reserve is set aside primarily for weathering economic downturns, emergency financial crisis, or disaster situations. The reserve target is equal to the cost of the City's General Fund operations for three months (90-days or 25% General Fund operating budget). Given the significant impacts of COVID-19 on the City's budget, the City Council Adopted the FY2021-22 budget principles that allow this reserve to drop to 15% of budgeted expenditures.
- The Capital Projects Reserve, earmarks funds for a five-year capital improvement program. The minimum target for this reserve is \$5 million.

One of the strategic objectives on the 2017-18 Council Goals and Strategic Objectives list is to continue to replenish City reserves and maintain strong, fiscally-sound management policies of City revenues with long term goals in mind.

## Pension Rate Stabilization Program Trust

In fiscal year 2016-17, the City established an irrevocable trust account with PARS to pre-fund retirement plan obligations. The contributions placed in the trust will reduce the City's net pension liability for financial purposes as required by GAAP. As of June 30, 2025, the balances in the pension rate stabilization program trust for the General Fund and Enterprise Funds are listed as follows:

### NOTE 18 – NET POSITION/FUND EQUITY (continued)

Fund Name	S	ension Rate Stabilization Balances

Enterprise Funds:		
Electric Utility		11,792,344
Water Utility		2,255,660
Sewer Utility		1,124,084
Water Recycling		197,081
Solid Waste		551,088
	\$	53,466,896

#### D. Net Position/Fund Balance Deficits

The funds listed below had an accumulated deficit as of June 30, 2025:

	Accumulated
Fund Name	Deficit
Internal Service Funds:  Workers' Compensation Insurance Claims	\$ 10,321,674

The Workers' Compensation Insurance Claims Internal Service Fund accumulated deficit is primarily due to the incurred but not yet recognized claims' liabilities and are expected to be offset by future charges to the General Fund and the enterprise funds.

#### E. Prior Period Adjustments

Effective July 1, 2024, the City implemented GASB Statement No. 101, Compensated Absences, which establishes updated recognition and measurement criteria for certain types of leave benefits, including vacation, sick leave, and other paid time off. As a result of this implementation, the City evaluated its compensated absences liability and determined that adjustments were required to align with the new standard. Accordingly, beginning net position as of July 1, 2024, was restated to reflect the cumulative effect of applying GASB 101. The adjustment resulted in an increase (or decrease) in the compensated absences liability and a corresponding decrease (or increase) in beginning net position.

During fiscal year 2024–25, the City implemented an accounting policy change in the recognition of unavailable revenue related to long-term loan programs. Previously, unavailable revenue was recognized in the entity-wide financial statements upon the housing developer's completion of the certificate of occupancy. Under the revised policy, unavailable revenue is recognized when cash is disbursed to the developers. The

# NOTE 18 – NET POSITION/FUND EQUITY (continued)

cumulative effect of this change increased the beginning net position of governmental activities by \$25,183,246 as of July 1, 2024.

The effect of these adjustments and restatements are shown below:

	as previ	ning Net Position, iously reported on une 30, 2024	3		Adjustment for Accounting Policy Change - Unavailable Revenues		Beginning Net Position, as restated on June 30, 2024	
<b>Governmental Activities</b>	\$	721,823,971	\$	(7,124,240)	\$	25,183,246	\$	739,882,977
Internal Service Funds:								_

	\$	1,756,771,122	\$	(2,665,444)			\$	1,754,105,678

### Santa Clara Stadium Authority Prior Year Error Correction

As discussed in Note 6F, the Santa Clara Stadium Authority's beginning net position in the financial statements was restated to correct a prior year unearned revenue balance. The net position was increased by \$23.1 million in fiscal year 2024-25. The effect of the restatement is shown below:

	Beginning	g Net Position,	Erro	r Correction -	Beginning Net		
	as previo	ously reported	Ţ	Unearned	Position, as restate		
	on March 31, 2024			Revenue	on March 31, 2024		
Santa Clara Stadium Authority	\$	132,613,452	\$	23,119,995	\$	155,733,447	

# **NOTE 19 – RISK MANAGEMENT**

The City is exposed to various risks of losses related to torts, errors and omissions, general liability, injuries to employees and unemployment claims. The City currently reports all of its risk management activities in its

# **NOTE 19 – RISK MANAGEMENT (continued)**

Internal Service Funds. Claims, expenditures and liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated using actuarial methods or other estimating techniques.

The City records a liability to reflect an actuarial estimate of ultimate uninsured losses for both general liability claims and workers' compensation claims. The estimated liabilities for general liability and workers' compensation claims are based on case reserves and include amounts for claims incurred but not reported (IBNR). At June 30, 2025, the estimated claims payable of \$31,675,000, consisting of reserves for both reported and IBNR losses, as well as, allocated loss adjustment expenses, have been recorded in the Special Liability and Workers' Compensation Internal Service Funds, respectively. The claims payable are reported at their present value using expected future investment yield assumptions of 2.5%, and the undiscounted claims at June 30, 2025, totaled \$10,917,000 and \$24,348,000 for general liability and workers' compensation claims, respectively.

The estimate of claims due in one year is the City's best estimate based upon available information which is included in accrued liabilities.

Changes in the reported liability since June 30, 2023 resulted from the following:

	Special	Workers'	
	Liability	Compensation	<u>Total</u>
Liability as of June 30, 2023	\$ 7,817,000	\$ 20,303,000	\$ 28,120,000
Claims and changes in estimates during fiscal 2024	6,284,583	6,231,024	12,515,607
Claim payments	(5,415,583)	(5,724,024)	(11,139,607)
Liability as of June 30, 2024	\$ 8,686,000	\$ 20,810,000	\$ 29,496,000
Claims and changes in estimates during fiscal 2025	13,368,885	6,300,220	19,669,105
Claim payments	(11,861,885)	(5,628,220)	(17,490,105)
Liability as of June 30, 2025	\$ 10,193,000	\$ 21,482,000	\$ 31,675,000
Current Claims Payable	\$ 3,022,000	\$ 4,126,000	\$ 7,148,000
Long Term Claims Payable	7,171,000	17,356,000	24,527,000
Liability as of June 30, 2025	\$ 10,193,000	\$ 21,482,000	\$ 31,675,000

With respect to the Special Liability accrual of \$10.2 million, the City has numerous unsettled lawsuits filed or claims asserted against it as of June 30, 2025. The City has reviewed these claims and lawsuits in order to evaluate the likelihood of an unfavorable outcome to the City and to arrive at an estimate of the amount or ranges of potential loss to the City. As a result of such review, the City has categorized the various claims and lawsuits as "probable," "reasonably possible," and "remote" loss contingencies, as defined by current accounting standards.

The City has determined that the City's probable loss contingencies, which are accrued for as the estimated special liability for claims and lawsuits as of June 30, 2025, are approximately \$10.2 million. The final outcome of claims and lawsuits, which have been categorized as reasonably possible loss contingencies, is not

#### **NOTE 19 – RISK MANAGEMENT (continued)**

presently determinable and any associated potential loss cannot be estimated. Accordingly, no provision has been made in the accompanying basic financial statements relative to the potential outcome of such claims and lawsuits. However, the ultimate resolution of such claims and lawsuits is not expected to have a material effect on the accompanying basic financial statements.

#### **NOTE 20 – COMMITMENTS AND CONTINGENCIES**

# A. Electricity Purchase Contracts

The City has future commitments under electricity purchase contracts as discussed in Note 17A, and is contingently liable under joint venture agreements discussed in Note 12B.

# **B.** Grant Programs

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

#### C. Encumbrances

The City uses encumbrances to control expenditure commitments for the year and to enhance cash management. Encumbrances represent commitments related to contracts not yet performed and purchase orders not yet filled (executory contracts; and open purchase orders). Commitments for such expenditure of monies are encumbered to reserve a portion of applicable appropriations. Encumbrances still open at year end are not accounted for as expenditures and liabilities but, rather, as restricted or committed governmental fund balance. As of June 30, 2025, total governmental fund encumbrance balances for the City are as follows:

General Fund	\$	5,816,859
Santa Clara Housing Successor		220,003
Nonmajor Governmental Funds		33,305,120
Total Governmental Funds	\$	39,341,982

### D. Bay Area Water Supply and Conservation Agency Revenue Bonds Surcharge

The City contracts with the City and County of San Francisco for the purchase of water from the Hetch Hetchy System operated by the San Francisco Public Utilities Commission (SFPUC). The City is also a member of the Bay Area Water Supply and Conservation Agency (BAWSCA) which represents the interests of all the 24 cities and water districts, as well as two private utilities, that purchase wholesale water from the SFPUC.

In 2009 the City entered into a new 25 year agreement with the SFPUC. One of the ways that the new agreement differs from the old is in how facilities constructed by the SFPUC that benefit the regional customers are treated from a rate and financial perspective. Under the old agreement, facilities were built, capitalized, and added to the rate base with a rate of return (interest), and then paid for over their useful lives through

#### **NOTE 20 – COMMITMENTS AND CONTINGENCIES (continued)**

wholesale rates. Under the new agreement, the SFPUC issues revenue bonds and the debt service (which also includes an interest component) is paid for through rates over the life of the bonds.

During the transition from the old to the new contracts, one of the issues addressed was how to deal with the \$370 million in assets that were still being paid for by the wholesale customers under the old agreement. The assets were transferred to the new agreement, assigned a life with an agreed upon rate of return of 5.13%. Also negotiated was a provision to allow the wholesale customers to prepay any remaining existing assets' unpaid principal balance without penalty or premium. This prepayment was executed through the issuance of bonds by BAWSCA which provide a better interest rate given the favorable rate environment.

BAWSCA issued Revenue Bonds in the principal amount of \$335,780,000 in January 2013 to prepay the capital cost recovery payment obligation and fund a stabilization fund. The Bonds mature in October 2034 and are secured by surcharges to the monthly water purchase charges imposed upon the participating members. The Bonds are not a debt obligation of any member, and BAWSCA's failure to pay its Bonds would not constitute a default by any participating member.

Should any participating member fail to pay its share, BAWSCA will rely on the stabilization fund and will pursue all legal remedies to collect the shortfall from the delinquent member. In the interim, other participating members may have their portion adjusted to insure the continued payment of the debt service surcharge.

The risk of bearing the debt service expense of a defaulting member is not significantly different than the risk each member assumes currently for fluctuations in water purchase charges. Under the Bond indenture, BAWSCA maintains a stabilization fund. If surcharge revenues collected are less than needed (due to a member's failure to pay timely), BAWSCA uses the stabilization fund to fund the debt service deficiency, and increases the surcharge in the subsequent year to make up for the prior year shortfall and reimburse the stabilization fund account. Also, given that each participating agency's governing body adopted a Resolution to participate in the Bond issue, Management believes that default is generally very unlikely.

The annual debt service surcharges are a fixed amount for each participant and are calculated by taking the subsequent fiscal year's debt service, multiplied by each participant's actual water purchase as a percent of total wholesale customer water purchases from the prior fiscal year. One-twelfth of the annual surcharge is included in the monthly bill from SFPUC. Because each participant's share of the debt service surcharge is proportional to the amount of water purchased during the prior fiscal year, the City's share of the debt service will fluctuate from year to year.

The City paid its surcharge of \$523,678 during fiscal year 2024-25, which is included as a component of purchased water expenses in the Water Enterprise Fund. The surcharge for fiscal year 2025-26 is estimated to be \$436,668.

### E. Santa Clara Stadium Authority and Litigation

#### **Asset Retirement Obligation**

Pursuant to the Ground Lease, the SCSA may be required to demolish the Stadium and other improvements at the end of the lease term, upon written notice from the City. Pursuant to the Stadium Lease, the SCSA has been establishing reserves to fund the cost of demolishing the stadium at the end of the lease term. While such reserves are projected to cover the entire demolition cost, StadCo will be responsible for funding any shortfall.

# **NOTE 20 – COMMITMENTS AND CONTINGENCIES (continued)**

#### 2024 Settlement Agreement

On May 23, 2024, the SCSA, the City, StadCo, and ManagementCo entered into the 2024 Settlement Agreement that resolved pending arbitration and disputes regarding the reimbursement of expenses for complementary buffets provided to certain SBL holders, the NFL public safety cost threshold and related claims, as well as other miscellaneous terms and matters. The 2024 Settlement Agreement provided for amendments to the Ground Lease (Second Amendment) and the Stadium Lease (First Amendment), which were effective as of May 28, 2024. As part of the buffet costs settlement, StadCo's claims against the SCSA for unpaid buffet costs reimbursements for fiscal years 2014-15 through 2023-24 were resolved and deemed satisfied, and ManagementCo.'s previous (and disputed) draw under the Revolving Credit Agreement to reimburse StadCo for \$902 thousand for buffet costs in fiscal year 2022-21 was deemed a timely payment by SCSA. The 2024 Settlement Agreement also provided a new \$90 thousand buffet reimbursement fee per NFL Game owed by SCSA to StadCo, starting in fiscal year 2024-25, with the fee increasing each year by 3%. As part of the public safety costs settlement, the \$14.8 million of public safety costs over the threshold for fiscal year 2017-18 through fiscal year 2023-24 owed by SCSA to StadCo was agreed to not be treated as Credited Public Safety Costs and therefore those credits would not affect the calculation of Performance Based Rent. This cost due to StadCo has been redefined as Public Safety Cost 2024 Outstanding Balance, which would be paid from a legal contingency reserve and future excess revenues until paid off. In fiscal year 2024-25, the SCSA made a payment of \$3.3 million from a legal contingency reserve and a payment of \$6.2 million from excess revenues toward the Public Safety Cost 2024 Outstanding Balance, as agreed. The SCSA is expected to use a portion of its excess revenues to pay off the remaining \$5.3 million in future years.

The 2024 Settlement Agreement also allows for the payment of the Performance Based Rent from the SCSA to the City in the amount of \$7.3 million for fiscal years 2022-23 and 2023-24.

#### Public Safety Costs Over Threshold

Pursuant to the May 2024 Settlement Agreement, on May 28, 2024, the SCSA entered into the First Amendment to Amended and Restated Stadium Lease Agreement with the Forty Niners SC Stadium Company LLC (StadCo). Under that amendment agreement, reimbursements for Public Safety Cost 2024 Outstanding Balance will be partially paid using Litigation Contingency Reserves, with the remainder to be paid through excess revenues. As of March 31, 2025, the SCSA has \$5.3 million outstanding in the Public Safety Cost 2024 Outstanding Balance included within accounts payable.

In addition, the annual NFL Public Safety Cost Threshold was increased to \$360 thousand per game for lease year ending March 31, 2025, with a 4% escalator applied for each subsequent year. The amendment agreement also provided for a new Public Safety Costs Expenditures reserve account, funded in part by increases of Non-NFL Ticket Surcharges. To the extent that public safety costs for NFL events exceed the public safety cost threshold, StadCo will be reimbursed by the SCSA through payments from the SCSA's Discretionary Fund or the Public Safety Cost Reserve. For fiscal year ending March 31, 2025, the SCSA paid \$2.5 million to StadCo for public safety costs over threshold.

#### **Excess Revenue Distribution**

Pursuant to the May 2024 Settlement Agreement and the related First Amendment to Amended and Restated Stadium Lease Agreement, the use of excess revenues was restructured to facilitate the reimbursement of the Public Safety Cost 2024 Outstanding Balance to StadCo and to allow for funds to be distributed to the City s general fund. The flow of excess revenue was restructured such that, in the event the Renovation and

# **NOTE 20 – COMMITMENTS AND CONTINGENCIES (continued)**

Demolition Reserve is less than \$70 million, the SCSA will deposit up to 50% of available excess revenues in the Renovation and Demolition Reserve, up to 50% of available excess revenues to repay to StadCo the Public Safety Costs 2024 Outstanding Balance, and any remaining excess revenues to be treated additional disbursements, such as distribution to the City's general fund. Once the Public Safety Costs 2024 Outstanding Balance is paid in full, the SCSA will disburse up to 50% of the remaining excess revenues to the Renovation and Demolition Reserve, and the remainder of excess revenues can be distributed to the City's general fund. After the Renovation and Demolition Reserve has \$70 million, the remaining available excess revenues may be distributed by SCSA to the City's general fund.

For fiscal year ending March 31, 2025, the SCSA transferred \$12.3 million to the Renovation and Demolition Reserve, paid \$6.2 million to StadCo to pay down the Public Safety Cost 2024 Outstanding Balance, and paid \$6.2 million to the City's General Fund.

# NOTE 21 – REDEVELOPMENT AGENCY DISSOLUTION AND SUCCESSOR AGENCY ACTIVITIES

#### A. Defeased Bonds

Bayshore North Project 2011 Tax Allocation Bonds

On May 11, 2011, the former RDA issued \$31.41 million of Bayshore North Project 2011 Tax Allocation Bonds (RDA 2011 Bonds) with an interest rate ranging from 2% to 7.86%, and a final maturity of 2026, to finance various redevelopment activities associated with the former RDA's Bayshore North Project Area. The 2011 Bonds were defeased on June 1, 2017.

The following schedule summarizes the defeased 2011 Tax Allocation Bonds:

	Principal			Principal		Redemption
2011 Series	Issued	Date Issued	Defeased		Maturities Defeased	Date
Current Interest Bonds	\$ 11,440,000	May 18, 2011	\$	11,315,000	June 1, 2026	June 1, 2021
					From June 1, 2022 to	
Capital Appreciation Bonds	19,971,295	May 18, 2011		10,643,264	June 1, 2026	June 1, 2021
	\$ 31,411,295		\$	21,958,264		

#### NOTE 22 – SUCCESSOR AGENCY LEASE AGREEMENTS

On January 8, 2016 the City executed the Settlement Agreement for Sharma vs Successor Agency to Redevelopment Agency of the City of Santa Clara. This Settlement Agreement calls for the City to return to the Successor Agency certain properties that the former Redevelopment Agency transferred to the City prior to dissolution. The properties transferred are as follows: the Great America Theme Park Property (not including the parking lot, see Note 4B), the Hilton Hotel Property, the North/South Parking Lots, the Gateway

#### **NOTE 22 – SUCCESSOR AGENCY LEASE AGREEMENTS (continued)**

Parcel 2 Property, the Hyatt Hotel Property (not including the ballroom, see Note 4B), the Techmart Property, and the Martinson Childcare Center Property. All the properties, other than the Martinson Childcare Center Property will be sold by the Successor Agency. Until the properties are sold the rent revenues will be used to pay the Successor Agency's enforceable obligations. The Settlement Agreement requires the City to forego the long term lease revenues generated by the properties.

# A. Techmart Office Building Ground Lease

In May 1998, the former RDA entered into a long-term ground lease of the Techmart parcel with CarrAmerica. The lease has a 55 year term with options for two additional ten-year terms. The former RDA received \$1 million annual rent for each of the first ten years of the lease, which lease revenues were paid by the former RDA to the City pursuant to the First Amended Cooperation Agreement. Rent increases are scheduled as follows: 10% in the eleventh year and every five years thereafter during the initial term and 15% in the first and sixth year of each option term. Under the terms of the lease, CarrAmerica assumed responsibility for all taxes and assessments levied against the Techmart parcel and the Lessor's interest in the ground lease is unsubordinated to any other financing. On July 13, 2006, CarrAmerica merged with Nantucket Acquisition, Inc., a wholly owned subsidiary of The Blackstone Group; the terms and conditions of the lease agreement remain in effect.

Lease revenues collected from July 1, 2012 to June 30, 2025 in the amount of \$16,885,550 were passed on to the Successor Agency. For the fiscal year ended June 30, 2025, the Successor Agency recognized \$1,268,251 in lease revenue and \$881,911 in interest revenue. As of June 30, 2025, the Successor Agency's receivable for lease payments was \$38,407,123 and the balance of the deferred inflow of resources was \$35,405,346.

# B. Hyatt Regency Hotel Ground Lease and Ballroom Lease

In April 1985, the former RDA entered into a long-term ground lease with SCCC Associates (Lessee) for the development of a certain portion of that piece of land – the Bayshore North Redevelopment Project Area, and eventual operation of a high quality hotel and related facilities, amenities and improvements including one of the Ballrooms in the Convention Center. The lease is for an initial term of 50 years. The Lessee has options to renew the lease for four additional periods of ten years each and one additional period of nine years. In 2005, SHC New Santa Clara, LLC, the successor-in-interest to SCCC Associates at that time, sold the interest to Hyatt Equities, LLC. In 2013, Hyatt Equities, LLC. sold its interest to Inland American Lodging Acquisitions, Inc.; the terms and conditions of the lease agreements remain in effect. Under the terms of the lease, the former RDA is entitled to receive a specified amount of minimum rent subject to adjustment at times specified in the lease. Lessee may also have an obligation for additional rent calculated as a predetermined percentage of the hotel gross revenues which exceed the amount specified in the lease.

The Settlement Agreement states that a portion of the ground lease payments from the Hyatt Hotel are derived from the Convention Center Ballroom space rental and are not related to the Hyatt Hotel ground lease. The Settlement Agreement states the City shall retain all revenues generated from the Ballroom Agreement starting July 1, 2015. Lease revenues collected from July 1, 2012 to June 30, 2015 in the amount of \$921,270 were passed on to the Successor Agency. Additional information concerning the Ballroom Lease can be found in Note 4B.

On March 26, 2025, the Successor Agency approved a purchase and sale agreement related to the sale of the Hyatt parcel. The transfer of the property was settled on March 26, 2025. The Lease revenues collected from

# **NOTE 22 – SUCCESSOR AGENCY LEASE AGREEMENTS (continued)**

Hyatt from July 1, 2012 to June 30, 2025 in the amount of \$18,988,998 were passed on to the Successor Agency. For the fiscal year ended June 30, 2025, the Successor Agency recognized \$252,000 in lease revenue and \$62,150 in interest revenue. With the sale of the property, the lease was terminated and a loss on lease termination of \$143,657 was recognized during the year ended June 30, 2025.

# C. Schedule of the Future Lease Payments

As of June 30, 2025, the future lease payments to be received by the Successor Agency for the above lease are as follows:

	Lease Receivable				
For the Year					
Ending June 30	Principal	Interest			
2026	\$ 594,526 \$	869,574			
2027	608,225	855,875			
2028	632,128	844,173			
2029	784,751	825,759			
2030	802,833	807,677			
2031-2035	4,641,329	3,746,744			
2036-2040	6,086,329	3,140,551			
2041-2045	7,798,009	2,351,559			
2046-2050	9,811,750	1,352,777			
2051-2055	6,647,243	230,104			
	\$ 38,407,123 \$	15,024,793

#### Notes to schedule:

(1) During fiscal year 2017-18, as a result of GASB No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pensions, CalPERS reported its proportionate share of activity related to postemployment benefits for participation in the State of California's agent OPEB plan. Accordingly, CalPERS recorded a one-time expense as a result of the adoption of GASB No. 75.

Additionally, CalPERS employees participate in various State of California agent pension plans and during fiscal year 2017-18, CalPERS recorded a correction to previously reported financial statements to properly reflect its proportionate share of activity related to pensions in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pension.

(2) Includes any beginning of year adjustment.

254.79%	340.61%	347.76%	356.81%	371.95%	390.63%		367.07%

Changes of assumptions: The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. There were no assumption changes in 2023 or 2024. Effective with June 30, 2021 valuation date (June 30, 2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. The accounting discount rate was 7.15% for measurement dates 2017 through 2021. In 2015 and 2016, the accounting discount rate was 7.65% to reflect an adjustment of administrative expense.

# CITY OF SANTA CLARA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2025

#### NOTE 1 – REQUIRED SUPPLEMENTARY INFORMATION

#### A. BUDGETS AND BUDGETARY ACCOUNTING

The results of operations are presented in the budget and actual comparison statement in accordance with the budgetary process (budgetary basis) to provide a meaningful comparison with the budget.

The major differences between the budgetary basis actual and GAAP basis actual are as follows:

- Year-end encumbrances are recognized as the equivalent of expenditures in the budgetary basis financial statements, while encumbered amounts are not recognized as expenditures on the GAAP basis until the liability is incurred.
- Expenditures of prior year encumbrances are recognized on the GAAP basis in the current year, while on the budgetary basis prior year encumbrances were recognized in the prior year.
- Accrued liabilities and compensated absences are recognized on the GAAP basis, while the budgetary basis does not recognize accrued liabilities.
- Revenues considered susceptible to accrual on the GAAP basis are not recognized on the budgetary basis until received.
- Formal Budgets are not prepared for non-cash transactions, and as such are excluded from the budgetary basis financial schedules.
- Increases to certain GAAP basis advances to other funds are treated as expenditures for budgetary basis financial statements.

# Supplementary Information

#### CITY OF SANTA CLARA NON-MAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

#### **GAS TAX**

The fund accounts for revenues and expenditures received from the State under Street and Highways Codes Sections 2105 (Gas Tax 2105), 2106 (Collier-Unruh) and 2107 (Special Gas Tax) and from the State under the Road Repair and Accountability Act of 2017 under the Streets and Highways Code Section 2030. The allocations must be spent for street maintenance or construction and a limited amount for engineering.

#### **HUD PROGRAMS**

This fund accounts for grant funds received from other governmental agencies for the purpose of developing viable urban communities.

#### CITY AFFORDABLE HOUSING

This fund accounts for the City's Below Market Housing Program for low and moderate income residents.

#### SANTA CLARA HOUSING AUTHORITY

On February 22, 2011, the Santa Clara Housing Authority (SCHA), a special revenue fund, was established to account for housing loans to assist in providing affordable housing. On March 8, 2011, the City, former RDA, and the SCHA executed an assignment and assumption agreement whereby the SCHA assumed responsibility for housing loans for qualifying individuals and groups. Loans assigned were made under various programs; substantially all are long-term in nature.

#### **MAINTENANCE**

This fund accounts for the maintenance of the Lawrence Station Community Facility District and two Parking Districts located near the City's Convention Center and the downtown area. Funds are received by means of a Special Benefit Assessment levied against the property owners in the respective districts.

#### **OPERATING GRANTS**

This fund accounts for grant funds received from other governmental agencies for various operating activities.

#### NEW DEVELOPMENT SERVICE FEE

This fund accounts for the revenues and expenditures from the new development-related fees that are imposed upon new development projects in the City.

#### CERTIFIED UNIFIED PROGRAM AGENCIES (CUPA)

This fund accounts for fees collected for regulation and management of hazardous materials in the City. Fees are to be used in the administration of the CUPA program.

### CITY OF SANTA CLARA NON-MAJOR GOVERNMENTAL FUNDS (continued)

#### **DEBT SERVICE FUNDS**

#### PUBLIC FACILITIES FINANCING CORPORATION (PFFC)

This fund accumulates monies for the repayment of Certificates of Participation, which are financed by lease payments made by the City's General Fund to the PFFC for use of the Police Administration Building and Library sites.

#### **CAPITAL PROJECTS FUNDS**

#### PARKS AND RECREATION FACILITIES

This fund was established to account for revenues, contributions and reimbursements received and costs incurred in connection with the acquisition and construction of the City parks.

#### STREETS AND HIGHWAYS IMPROVEMENT

This fund is used to account for revenues and expenditures related to road construction and traffic improvements.

#### STORM DRAIN IMPROVEMENT

This fund is used to account for revenues and expenditures related to the construction or modification of the City's storm drainage system.

#### FIRE DEPARTMENT IMPROVEMENT

This fund is used to account for revenues and expenditures related to the construction or modification of City fire stations.

#### LIBRARY DEPARTMENT IMPROVEMENT

This fund is used to account for revenues and expenditures related to the construction or modification of the City's library facilities.

#### **PUBLIC FACILITIES**

This fund is used to account for revenues and expenditures related to the construction, acquisition or modification of public improvements not accounted for in another Capital Projects Fund.

#### NON-MAJOR GOVERNMENTAL FUNDS

#### CITY OF SANTA CLARA NON-MAJOR ENTERPRISE FUNDS

Non-Major Enterprise Funds are used to finance and account for operations and activities performed by designated departments in the City or through third party agreements.

#### SOLID WASTE FUND

This fund accounts for the administration of the City's garbage and rubbish collection service.

#### **CEMETERY FUND**

This fund accounts for the activities of the Mission City Memorial Park.

#### SANTA CLARA CONVENTION CENTER FUND

The Santa Clara Convention Center Fund was established in 1984 to account for the operations of the City's Convention Center or through third party agreements.

#### SPORTS AND OPEN SPACE AUTHORITY FUND (SOSA)

SOSA was created by the City Council in 1974 for the acquisition and development of open space within the City and the development of local sports activities.

#### CITY OF SANTA CLARA INTERNAL SERVICE FUNDS

Internal Service Funds are used to finance and account for special activities and services performed by a designated department for other departments in the City on a cost reimbursement basis.

The concept of major funds does not extend to internal service funds because they do not do business with outside parties. For the Statement of Activities, the net revenues or expenses of each internal service fund are eliminated by netting them against the operations of the other City departments which generated them. The remaining balance sheet items are consolidated with these same funds in the Statement of Net Position.

However, internal service funds are still presented separately in the Fund financial statements, including the funds below.

#### **AUTOMOTIVE SERVICES**

This fund accounts for the maintenance and replacement of vehicles and equipment used by all City departments. The source of revenue for this fund is rental fees charged to the various departments.

#### TECHNICAL EQUIPMENT SERVICES

This fund accounts for the maintenance and replacement of communication and computer equipment used by City departments. The source of revenue for this fund is rental fees charged to the various departments.

#### PUBLIC WORKS CAPITAL PROJECTS MANAGEMENT

This fund accounts for the Public Works staff time and non-personnel costs utilized to manage and work on specific capital improvement programs of the City. The source of revenue for this fund is fees charged to the departments requiring Public Works capital project services.

#### INFORMATION TECHNOLOGY SERVICES

This fund accounts for citywide cost associated with computer and telephone equipment replacement as well as other services including new or upgraded software, additional licenses for new users, and general information technology services provided to all City departments. The source of revenue for this fund is fees charged to the departments that require information technology services.

#### SPECIAL LIABILITY INSURANCE CLAIMS

This fund was established to account for the cost of claims and administrative costs for the City's self-insured general liability program.

#### WORKERS' COMPENSATION INSURANCE CLAIMS

This fund is used to account for the cost of claims for service connected with injuries and illnesses sustained by members of the City's work force.

#### CITY OF SANTA CLARA COMBINING FIDUCIARY FUNDS

#### PRIVATE PURPOSE TRUST FUNDS

Private Purpose Trust Funds are used to report trust arrangements, other than pension and investment trusts, under which principal and income benefit individuals, private organizations, or other governments. The Private Purpose Trust Funds are described below:

#### CHARITABLE TRUST

This fund accounts for the various gifts, donations and bequests received by the City for distribution to various nonprofit organizations as determined by the Mission City Community Fund.

#### SUCCESSOR AGENCY

California State laws ABx1 26 and AB 1484 provided for the dissolution of California Redevelopment Agencies effective January 31, 2012 and the transfer of all non-housing Agency assets to the Successor Agency Redevelopment Obligation Retirement Fund.

#### **CUSTODIAL FUNDS**

Custodial Funds are presented separately from the Government-wide and Fund financial statements.

Custodial Funds account for assets held by the City as an agent for individuals, governmental entities, and non-public organizations. These funds include the following:

#### EMPLOYEE CONTRIBUTED EMERGENCY PAID LEAVE POOL FUND

This fund is used to account for monies collected and disbursed for the employees paid leave program that is administered by respective bargaining units. The City does not make contribution to this fund.

#### SPECIAL ASSESSMENTS

This fund accounts for monies collected and disbursed from special assessment districts where the City is not obligated for the outstanding debt payments.

#### CUSTODIAL DEPOSITS

This fund accounts for various miscellaneous deposits for other entities.

2024 / 25	1.0388%	0.1085%	0.0041%	1.1514%

Tax rate limit: A state constitutional amendment (Proposition 13) commencing with fiscal 1979 provided that the tax rate was limited to 1% of full cash value, levied only by the County and shared with all other jurisdictions. All jurisdictions may levy a tax rate for voter approved debt.

Due date for current taxes: First installment - November 1; second installment - February 1.

Penalties for delinquency: 10% and 1.5% of tax per month after date taxes become delinquent.

Collected by government unit: County of Santa Clara.

Basis upon which collections are distributed: Taxing jurisdictions assessed valuations and tax rates for voter approved debt to taxing jurisdictions, County rate (1% of full cash value) shared by all jurisdictions.

Compensation paid to collecting government unit for fiscal year 2024-25 is \$620,821

Note: Tax rates stated are the rates applicable to the tax rate area 7-000 as typical tax rate area within the City. Rates are based on \$100 assessed valuation.

#### Notes:

Redevelopment Property

Tax Trust Fund (RP TFF) (1)

TotalTax Revenue

(1) With the State dissolving all RDAs on 02/01/2012, the structure of Tax Increment Revenue has changed. Starting in fiscal year 2012-13, the County's property tax distribution to the Successor Agency was changed to the Redevelopment Property Tax Trust Fund (RPTTF). The RPTTF reported in this table is the amount calculated by the County Auditor-Controller. Under the provisions of the laws dissolving the Redevelopment Agency, the Successor Agency only receives the funds necessary to fulfill its approved obligations.
