Transition Timeline, Key Milestones, and Required Resources

CDW•G has developed a Transition Plan with stages, initial timelines and milestones, and resources required from the City of Mesa to help ensure a complete transition with no interruption to contract execution and delivery. Stages of transition include the following:

- **Account Logistics** is the first step in ensuring a smooth transition to contract ownership and execution and includes review and finalization of the transitions plan for Participating Public Agencies' specific agreements under incumbent contract.
- **Customer Engagement** lays the foundation for transparency, communication, and ownership across the life of the contract. Working with the City of Mesa, CDW•G will host a "Meet the Team" event where members of CDW•G Sales Leadership, Sales Management, Account Management, and Program Management will be on hand to meet customers, answer questions, and kick off the new contract. To help ensure CDW•G's understanding of the goals, mission, challenges, and timelines of customers, we welcome the opportunity for one-on-one or group discussions with IT stakeholders, IT teams, and business owners.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Program Management** teams from CDW•G engage with the City of Mesa resources for the completion of mission-critical milestones, including contract, reporting, and process reviews.
- **Operational Management** is the final stage of contract transition activities and culminates with the Operational Readiness Review and Approval. Working closely with The City of Mesa resources, CDW•G makes final adjustments and goes live with the dedicated website and all processes defined and in place.

The table below highlights major stages, activities, and the need for engagement from the City of Mesa's resources.

CDW•G Contract Transition		
Stage	**Milestone Activities**	**Mesa/OMNIA Resource**
Account Logistics	▪ Transition Plan Implemented ▪ Start Transition of Participating Public Agencies-specific Agreements under Incumbent Contract	No
Customer Engagement	▪ Meet the CDW•G Team Event ▪ Stakeholder Introductions	Yes
Program Management	▪ Contract Policy Review ▪ Reporting Review ▪ Digital Integration Review ▪ Process Review	Yes
Operational Management	▪ Dedicated Website Active ▪ Digital Integration Complete and Active ▪ Final Process Review ▪ Operational Readiness Review and Approval	Yes

Executive Endorsement

i. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days

CDW•G's leadership team is securely behind the growth and strategy of this program for both the City of Mesa and nationwide. CDW•G executive leadership, David Hutchins, Vice President of Strategic Programs, commits to endorse and sponsor the award within the first 10 days of the contract. The City of Mesa and OMNIA Partners can be confident in this contract's level of Executive Sponsorship within CDW•G.

We maintain an ecosystem of coworkers committed to successfully managing all aspects of a contract through its entire lifecycle. From our executive leadership to contract management, our coworkers will collaborate to customize a detailed yet effective plan to launch and grow this contract. CDW•G has a successful contract launch process, described above, that allows us to

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

launch contracts to the CDW•G teams with the most powerful and applicable details to optimize the success of this new Agreement.

We bring leaders from across our public sector teams together with OMNIA Partners multiple times a year to review contract initiatives, joint goals, and customer feedback. OMNIA Partners can look forward to collaborating with diverse group of leaders who have extensive experience with the OMNIA contract portfolio, including Mark Ellis, Elysse Wayman, Heather Kohls, and Chris Webb.

Our ongoing effort in specific target accounts helps increase contract utilization and drive contract adoption amongst nonparticipating agencies. We meet monthly to review the current state of the business and execution of our growth and marketing strategies.

Training and Education

ii. Training and education of Supplier's national sales force with participation from the Supplier's executive leadership, along with the OMNIA Partners team within first 90 days.

CDW•G is committed to providing training and education to our national sales force in collaboration with our Executive Leadership and OMNIA Partners during the initial phase of contract signing in the first 90 days.

CDW•G's Program Management and Capture Teams are singularly devoted to launching and managing contracts of this particular magnitude, including significant incumbent contracts with a customized approach. These groups' responsibilities are separate from those held by account managers. Members of the Program Management Team are dedicated to maintaining contract compliance and administering contract procedures, while the Capture Team focuses on building strategy of contract capture and contract success. Together, they collaborate on a formal contract launch plan. CDW•G invests in these resources based on our understanding that contracts are complex commitments.

The City of Mesa and OMNIA Partners' dedicated CDW•G Program Manager, Ty Robles, has an in-depth working knowledge of OMNIA Partners, including the former cooperatives, National IPA and TCPN. She collaborates with CDW•G's marketing department to create awareness and training campaigns to enable our national sales force.

Over the first 90 days, in partnership with the OMNIA Partners team, Ty will engage key members of the CDW•G's executive leadership team to implement our contract launch strategy plans. With our experience on our existing OMNIA contracts, our robust implementation plan ensures we are able to bring our national sales force up to speed quickly.

We will be ready to roll out a robust training program for our sellers and technical SMEs, upon contract award. Training content will cover contract scope and operations, growth strategy endorsed by executive leadership, and the contract benefits. We expect this to happen within the first 30-45 days of the contract signature. The documentation Ty compiles in conjunction with our marketing department will be customized depending on the needs and the region of the seller to ensure our messaging matches the customers within that geography.

Our sellers will then be equipped with relevant collateral to communicate to customers the benefits and strength of this contract. Curriculum development, trainings, and collateral creation will be completed within 90 days of contract award. Our launch strategy extends beyond 90 days with a quarterly review to ensure plan to action. As with current contract, we will continue to have ongoing training through the life of the contract.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Marketing Plan

B. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:

Just as our Program Management team leads contract launch and maintenance requirements, our Marketing team, including Cathy and Trenece, are already engaged will continue to build comprehensive, strategic marketing programs for our OMNIA Partners contracts.

Additionally, our sales force upholds strategic relationships with current and potential OMNIA Participating Public Agencies. These relationships uniquely position us to develop and deliver awareness and growth campaigns to members through a trusted advisor network. Our account teams have long-standing customer relationships in which they often become an extension of their customers' IT and purchasing teams. Our account managers speak with their customers weekly, if not daily. As a result, our customers turn to their account managers for purchasing recommendations, including which contracts to leverage. Within 90 days of contract award, we will leverage this trusted advisor network and our marketing capabilities (e.g., customer-facing collateral, email campaigns, call campaigns, social media, etc.) to quickly and effectively alert registered and potential customers of the new contract and its benefits.

CDW•G has a robust approach towards publicizing and promoting the new agreement and differentiating from our existing contract. Our live touch approach includes a proactive communication program, as well as both inside and field sales teams meeting with eligible users.

Our customers rely on their account manager as an expert resource; this includes leveraging contracts. CDW•G's sales and marketing plan combines past CDW•G marketing successes with a strategy to effectively capture net new business. We leverage our reporting capabilities to determine potential target customers. After determining targets, CDW•G can then educate them on the benefits of the new contract and grow net-new business. Through this method, the City of Mesa, OMNIA Partners, and CDW•G will gain traction with users faster than a supplier that does not have these existing relationships in place.

Press Release

i. Creation and distribution of a co-branded press release to trade publications

To successfully implement a marketing plan, marketers must first know their audience and how to access them. CDW•G partners with various trade publications to access our target customers.

Within 90 days of contract launch, our marketing team will work with OMNIA Partners to develop content to disseminate to customers. Below, we have outlined potential avenues in which we can access target customers.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Publications

CDW•G partners with industry experts to publish sector-specific online and hardcopy magazines for State (StateTech), K-12 (EdTech Focus on K-12), and Higher Education (EdTech Focus on Higher Education).

Figure 20. StateTech and EdTech Magazine Covers

To successfully implement a marketing plan, marketers must first know their audience and how to access them, and these publications help access our target customers. All of the aforementioned publications deliver relevant content via print, blog, video case studies, and e-newsletters on topics including classroom, cloud, data center, hardware, software, security, and services.

Additional publications include:

- CoSN
- EdTech Magazine: Focus on Higher Ed
- EdTech Magazine: Focus on K-12 Education
- EDUCAUSE
- NASCIO
- NASTD
- State Tech Magazine

Advertisements and Cobranding

CDW•G has a dedicated Marketing Team who collaborates with OMNIA Partners and external marketing teams to profile CDW•G and partner-delivered technology productions, solutions, and services on customized flyers that are easily accessed electronically or printed to hand out.

The following page contains an example from Quarter 1 of 2023 for our current City of Mesa and OMNIA Partners contract. This flyer was designed to bring value to those new to CDW•G as well as long-time agency users and partners. Our marketing flyers can be designed and customer depending on each participating Public Agency's individual needs and requirements. In the sample below, the flyer contains information such as the following:

- Quantified examples of CDW•G's experience and approach to serving State and Local Government as well as educational entities
- Samplings of our breadth and depth of industry partnerships

WE GET TECHNOLOGY PURCHASING SIMPLICITY.

A WINNING PARTNERSHIP IN STRATEGIC SOURCING

CDW·G's robust technology contract through OMNIA Partners for the sale of Information Technology Solutions and Services under Agreement 2018011-01 is available for OMNIA Partners participants to address all of your technology needs. This agreement expires February 28, 2025.

With more than two decades of experience partnering with State and Local Government and Education entities, CDW·G understands what it takes to modernize operations and provide comprehensive support to ensure success over the long term.

- Extensive range of solutions including data, security, cloud, hybrid infrastructure and digital experience
- Full lifecycle of services from roadmaps and adoption to project deployment, management, and staff augmentation
- Portfolio of more than 100,000 products and services from more than 1,000 leading and emerging brands
- Large supply network of both OEMs and distributors offer multiple paths to source product and secure the best value
- Enhanced configuration capacity, product inventory and warehousing for large-scale rollouts
- Committed to creating a culture of diversity, equality, and inclusion, where everyone feels they belong
- Dedicated teams solely focused on State and Local Government and Education entities with support from specialty practices including Public Safety and Esports

CUSTOMER SUCCESS STORY

INCREASING AGILITY WITH NEXT-GEN DATA STORAGE

A regional government agency recognized that its outdated infrastructure prevented it from expanding data storage to meet growing needs. Cost was a primary concern given pandemic-driven budget constraints.

CDW·G and its partners identified a new, adaptable data storage solution that could address the agency's challenges. Built from the ground up with next-generation storage technology, the solution delivered the necessary scalability while also meeting the agency's budget parameters.

With its newly deployed upgraded IT infrastructure, the agency has the agility and scalability necessary to meet its expanding needs, now and in the future.

STRONG PARTNERSHIP, STRONG SOLUTIONS

CDW·G and OMNIA Partners have worked collaboratively to help you successfully adopt the contract. If you have any questions about the adoption process, please contact your CDW·G account manager for additional assistance. We look forward to serving you under our agreement with OMNIA Partners.

CDW·G and OMNIA Partners have collaborated to offer a dynamic technology solutions contract. To learn more about becoming a member, visit OMNIAPARTNERS.com.

To learn more about our contract, please visit CDWG.com/omnia.

OMNIA PARTNERS | CDW·G

Social Media

CDW•G meets our customers where they are on today's technology horizon. The CDW Social Squad is made up of employees dedicated to social media; they push customized content to and through social media outlets, including relevant articles, emerging technology news, information on available contracts, and upcoming events in customer-specific markets. We can customize this content to be relevant to the City of Mesa and OMNIA Partners Participating Public Agencies.

With nearly 1,700 entries and counting across topics including Cloud, Data Center, Digital Workspace, Networking, Security, and Software, CDW's Research Hub delivers evocative and relevant content. Authored by our own subject matter experts, articles are written to help our customers navigate and digest the overwhelming amount of data that comes at them every day as they work to make better decisions for more effective and efficient solutions that meet their individual goals.

Announcement

ii. Announcement, Master Agreement details and contact information published on the Supplier's website within first 90 days

We have created a tab on our OMNIA Partners Premium Page so that Participating Public Agencies can easily shop for featured products. The tab is currently active for the existing City of Mesa and OMNIA Partners contract. Upon contract signing, the contract goes live and features co-branded materials with your logo and message within the first 90 days. This website will include up-to-date pricing on all eligible products. The City of Mesa and OMNIA Partners Participating Public Agencies access the information they need when they need it and benefit from real-time updates to inventory and prices.

Co-branded Marketing Materials

iii. Design, publication and distribution of co-branded marketing materials within first 90 days

Upon contract award, CDW•G will conduct a collaborative kick-off meeting with OMNIA Partners and CDW•G stakeholders dedicated to developing our go-to-market strategy, including the development and distribution of co-branded marketing materials within the first 90 days.

Our standard contract launch process includes developing collateral to promote contract awareness and education among internal and external stakeholders. Content will focus on the administrative and strategic value of utilizing this agreement. Specifically, we will highlight the convenience of the online portal, changes between this agreement and the previous, as well as the cost and time savings associated with consolidating transactional procurement needs by leveraging the new agreement.

Possible outlets to disseminate content include our internal Corporate Communications, our Public Sector Publications (State Tech & Ed Tech), a sale-led communications campaign, and Social Media. We use Twitter, Facebook, and LinkedIn as avenues for marketing, education, updates, and general communication with customers. Active social media helps customers stay informed with links, posts, and articles of interest in the way that they choose to receive information. We also maintain an internal group focused on submitting and curating social media content called the Social Squad; members of the Social Squad are encouraged to submit content on a number of topics, including industry news, products and deals, emerging technologies, product launches, featured partners, and more.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

We are able and willing to participate in co-branding marketing opportunities with the City of Mesa and OMNIA Partners. For instance, we can continue to include our co-branded logo to include in social media advertisements, the agreement's customized Premium Page, customer-facing digital and print one-pagers, and customer-facing emails.

Trade Show and NIGP Annual Form Commitment

iv. Commitment to attendance and participation with OMNIA Partners at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, Regional Cooperative Summits, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement

v. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner suppliers. Booth space will be purchased and staffed by Supplier. In addition, Supplier commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.

CDW•G has enjoyed participating in the NIGP Annual Forum in past years and will strive to participate with commercially reasonable efforts. We believe in the mission to "develop, support and promote public procurement" and look forward to sharing our best practices with other non-competing OMNIA Partners vendors.

Advertising

vi. Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement

CDW•G will advertise the contract in our own highly viewed publications and our contract-specific email campaign. We will continue to promote the contract via avenues such as our EdTech and State Tech publication sites, as well as CoSN, EDUCAUSE, NASCIO, and NASTD.

Ongoing Marketing and Promotions

vii. Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.)

CDW•G will market and promote the contract through various avenues, such as announcements in our publications, email campaigns, and on the contract's CDW•G premium page. We look forward to working with OMNIA Partners to develop our marketing strategies utilizing our current monthly cadence to discuss specific goals/targets for the new contract.

OMNIA Premium Page

viii. Dedicated OMNIA Partners internet web-based homepage on Supplier's website with:

- *OMNIA Partners standard logo;*
- *Copy of original Request for Proposal;*
- *Copy of Master Agreement and amendments between Principal Procurement Agency and Supplier;*
- *Summary of Products and pricing;*
- *Marketing Materials*
- *Electronic link to OMNIA Partners' website including the online registration page;*
- *A dedicated toll-free number and email address for OMNIA Partners*

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

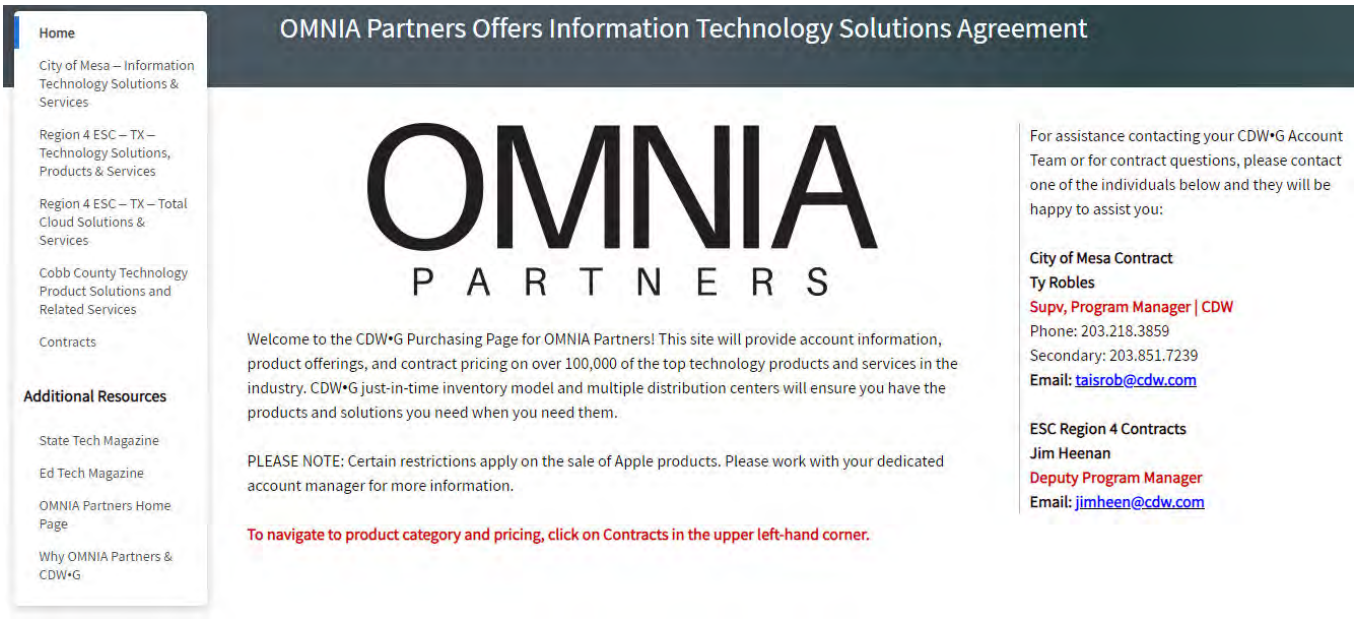

Figure 21. OMNIA Partners' Premium Page

CDW•G currently hosts a dedicated web page for our OMNIA agreements: www.cdwg.com/omniapartners. This site includes all contract documentation, marketing materials, products and pricing, and relevant links.

Upon award, we will update the premium page to reflect updated contract pricing and terms.

The updated Premium Page will include the following:

- The City of Mesa and/or OMNIA Partners standard logo
- Copy of original Request for Proposal
- Copy of Master Agreement and amendments between Principal Procurement Agency and Supplier
- Summary of products and pricing
- Marketing materials
- An electronic link to OMNIA Partners' website, including the online registration page
- A dedicated toll-free number and email address for the City of Mesa and/or OMNIA Partners

Our team will review the tailoring of our current Premium Page with the OMNIA Partners team to ensure that the dedicated webpage meets all of the Participating Public Agencies' needs.

Transition Plan

C. Describe how Supplier will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Supplier holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

The current contract vehicle is a critical component of CDW•G's contracting portfolio. Some Participating Public Agencies' specific agreements under the current contract are sole source and others have statewide adoption. This approach has enabled us to market and increase adoption of the contract significantly. CDW•G currently holds a significant number of cooperative

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

purchasing contracts, including OMNIA Partners, Public Sector (fkna NIPA), Association of Educational Purchasing Agencies (AEPA), and Sourcewell (fkna NJPA). CDW•G's approach is solutions-focused and focused on providing consultation to assist our customers. Some customers mandate use of a specific agreement; in other instances, we work in offering the various contracting options best suited for their specific procurement needs. With all public nationwide contracts, we have maintained the transparency of our contract portfolio to our customers. CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our portfolio of offerings.

Under our existing contract with the City of Mesa, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and 2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements.

Additionally, in 2024, we are building a formal plan with OMNIA Partners by aligning our strategic accounts with the OMNIA Partners sales team to build additional formal adoption of the City of Mesa contract. We have transitioned a number of customers and their solicitation opportunities to OMNIA Partners contracts in the form of participating agreements, taking into account the best interest of the customer. We continue to examine opportunities for underpenetrated or net new customers to increase adoption of the contract.

Logo Usage

D. Acknowledge Supplier agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.

CDW•G acknowledges and agrees to provide its logo(s) to OMNIA Partners, Public Sector and agrees to provide permission for reproduction of such logo in marketing communications and promotions. We additionally acknowledge that use of OMNIA Partners logo requires permission for reproduction, as well.

The core component of CDW•G's brand identity is its corporate logo; therefore, we ask that you carefully consider the following guidelines when using it.

When using the CDW•G logo, you agree to the following:

- You may use the logo(s) only in the exact form provided by CDW•G and only to accurately and actively link from a website that is under your control to the home page of CDW.com (or another address provided by CDW•G) and for no other purpose.
- You may not incorporate the logo(s) into any other logo or design.
- You may not to use the logo(s) in a way that suggests that you or your company or products are affiliated with CDW•G or its products or services in any way.
- You may not display the logo(s) on any website that disparages CDW•G or its products or services, infringes any CDW•G intellectual property or other rights, or violates any law or regulation.
- No other logo or design element should appear within 0.5 inches of the CDW•G logo.
- You may not frame or alter the CDW•G website in any way.
- At CDW•G's direction, you will immediately remove the logo(s).
- Your limited right to use the logo(s) does not constitute a grant of any other right or license. All other rights are reserved by CDW•G.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- CDW•G disclaims all warranties, express and implied, regarding the logo(s), including warranties against infringement. You agree to indemnify CDW•G from and against any and all claims and liabilities arising out of your use of the logo(s).

Sales Initiatives

E. Confirm Supplier will be proactive in direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Supplier's sales initiatives should communicate:

i. Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency

ii. Best government pricing

iii. No cost to participate

iv. Non-exclusive

CDW•G confirms we will be proactive in direct sales to OMNIA Partners Participating Public Agencies nationwide.

We are happy to create a contract announcement flyer with the new contract information. We would like to further discuss the inclusion of II and IV and will revise our marketing pieces to include a mutually agreeable message that best represents the value of the contract that is in the best interest for our customers.

Sales Training

F. Confirm Supplier will train its national sales force on the Master Agreement. At a minimum, sales training should include:

i. Key features of Master Agreement

ii. Working knowledge of the solicitation process

iii. Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners

iv. Knowledge of benefits of the use of cooperative contracts

CDW•G acknowledges and complies with the above requirement. CDW•G's Program Manager, Ty Robles, will work directly with our sales leadership, the City of Mesa, and OMNIA Partners to develop and execute a training program for our sales force. Training content will address all of these elements. Our sellers will then be equipped with relevant collateral to communicate with customers the value and ease of procurement that we know OMNIA Partners provides. Curriculum development, trainings, and collateral creation will be completed within 90 days of contract award.

At a minimum, training will include the following topics:

I. Key features of Master Agreement
II. Working knowledge of the solicitation process
III. Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners
IV. Knowledge of benefits of the use of cooperative contracts

Sales Structure

H. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

CDW•G utilizes a sales force has the resources to work with multiple entities simultaneously, including the City of Mesa and OMNIA Partners' Participating Public Agencies. CDW•G was formed in 1998 to create a company with an **exclusive public sector focus**. Our customers have access to regionally based, segment-focused, dedicated teams to help ensure CDW•G meets all their needs while supporting their vision and mission. CDW•G is never satisfied with the status quo in our delivery of technology solutions and services. With a foundation of transparent and open communication, our account and program management teams work with customers to identify potential improvements and solicit and act on candid feedback. It is through this regular exchange that we share lessons learned, new strategies, and best practices across our customer base.

We have a large manufacturer presence in our offices across the country and are blanketed in the field with our field account executives. To provide each OMNIA Partners Participating Public Agency with one contact who is knowledgeable of every nuance of your organizations, Account Teams are further segmented by agency type, Education (K-12/High Ed) or Government. This allows us to provide each customer with one contact who is knowledgeable of every nuance of their organization. Account Teams often consist of an Account Manager (AM) and their Sales Manager, as well as an Advanced Technology Account Executive (ATAE) and their Field Sales Manager. Together, AMs, ATAEs, and their respective managers are led by Sales Directors, also segmented by region and vertical.

AMs and ATAEs represent different roles and responsibilities, working in concert to ensure that their customers' needs are met. ATAEs are located in market, often arranging on-site visits and are assigned to accounts that may have an emphasis on professional services.

Expertise in Each Sector

CDW•G customer teams are built from the ground up with clearly defined roles, responsibilities, and escalation paths – all sharing a common goal of exceptional customer service and

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

satisfaction. Dedicated account teams serve their customers with exemplary service and customer satisfaction across State agencies, local governments, and municipalities; public and private school districts / K-12; and institutions of higher education. This segmentation allows a singular focus for each team and delivers a customized measure of support specific to each customer. Our teams are responsible for quotes, orders, pre-and post-sales consultation, and issue resolution over the life of the contract. Graphics that illustrate our sales organization are provided below.

Each segment is further broken down by region and supported by local offices across the country. This regional, state, and local focus gives dedicated CDW•G Account Managers the opportunity to do the following:

- Form meaningful long-term relationships with customers
- Intimately understand their requirements, budgets, and user community
- Proactively provide an exceptional customer experience

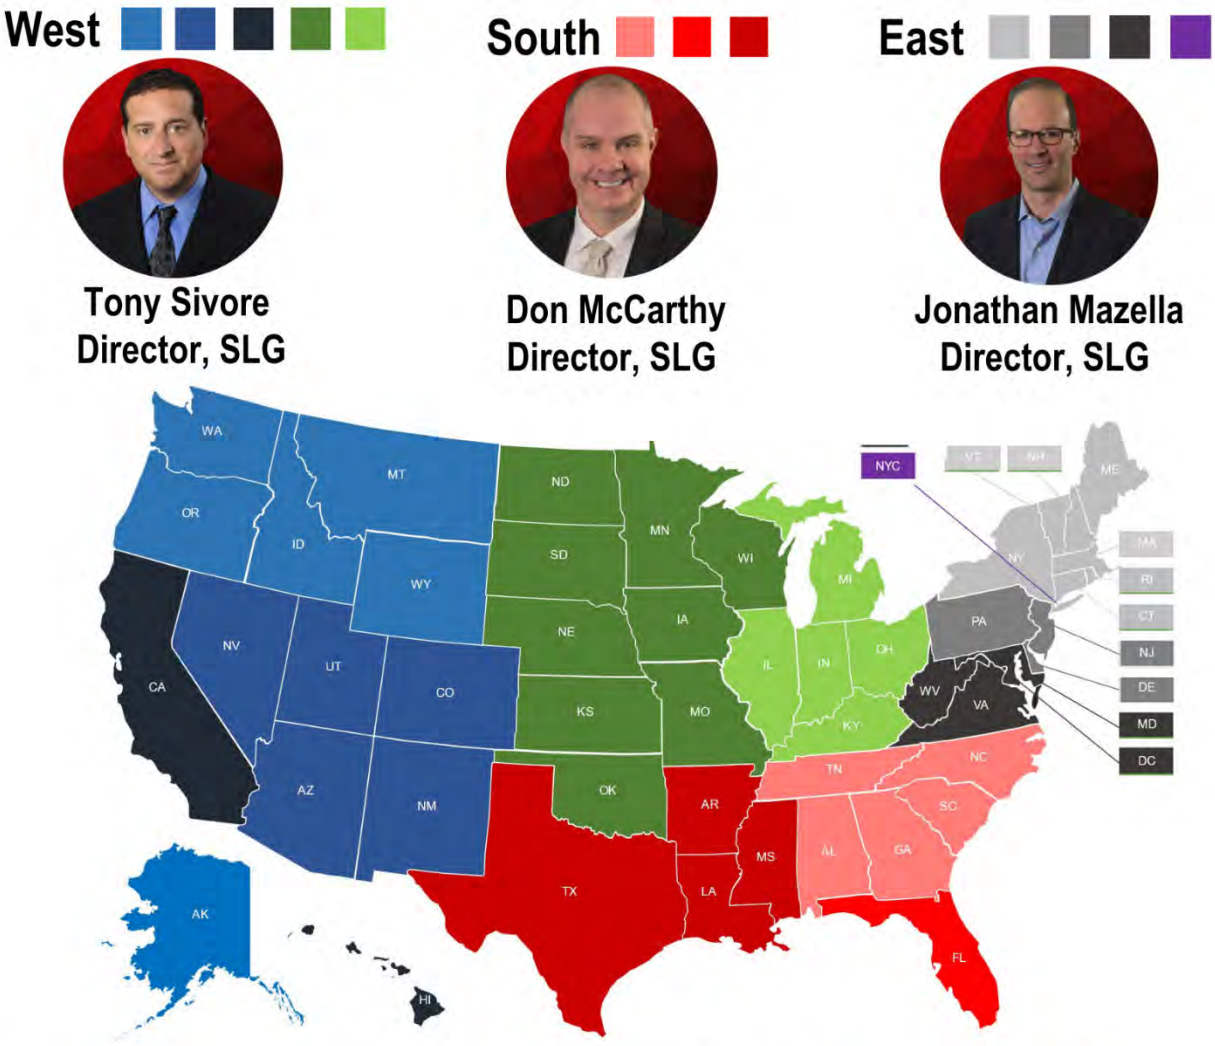
State and Local Government

CDW•G's state and local government sales team is 250 coworkers strong, serving the 50 states, from the largest state agencies to the smallest rural community. Each state has a dedicated team assigned to ensure that each agency feels heard with personalized customer service.

K-12 (Public and Private School Districts)

Our K-12 sales team consists of 400 coworkers. CDW•G is one of the largest K-12 technology solutions providers and is a trusted IT partner to more than 15,000 K-12 districts. Our education strategists and learning environment advisors are former educators, principals, professors, chief technology officers, and instructional technologists focused on addressing the unique needs and requirements in partnership with the world's leading IT innovators. Our K-12 team includes regional managers, Advanced Technology Account Executives, Solution Architects, Education Strategists, and dedicated Account Managers.

Higher Education



CDW•G's higher education sales team has approximately 198 coworkers across the US dedicated to the higher education industry that understand the needs, challenges, and market best practices. We have 50+ student interns across college and university campuses, who we train and develop for post-graduate career paths to thrive in the workplace. Our team has business relationships with approximately 3,000 colleges and universities, allowing us to understand challenges and map those to success.

Public Safety Team

We understand that the City of Mesa and OMNIA Partners Participating Public Agencies have a mission to safeguard the public; our mission is to help you do it. We have a specialized practice devoted to public safety issues, our Public Safety Team, with thousands of engagements and over a decade of dedicated experience. CDW•G's Public Safety experts work with police, fire, emergency management, and EMS departments to design and deliver complete solutions from hand-held, ruggedized devices with the latest security and other software to custom displays and other technology for command centers.

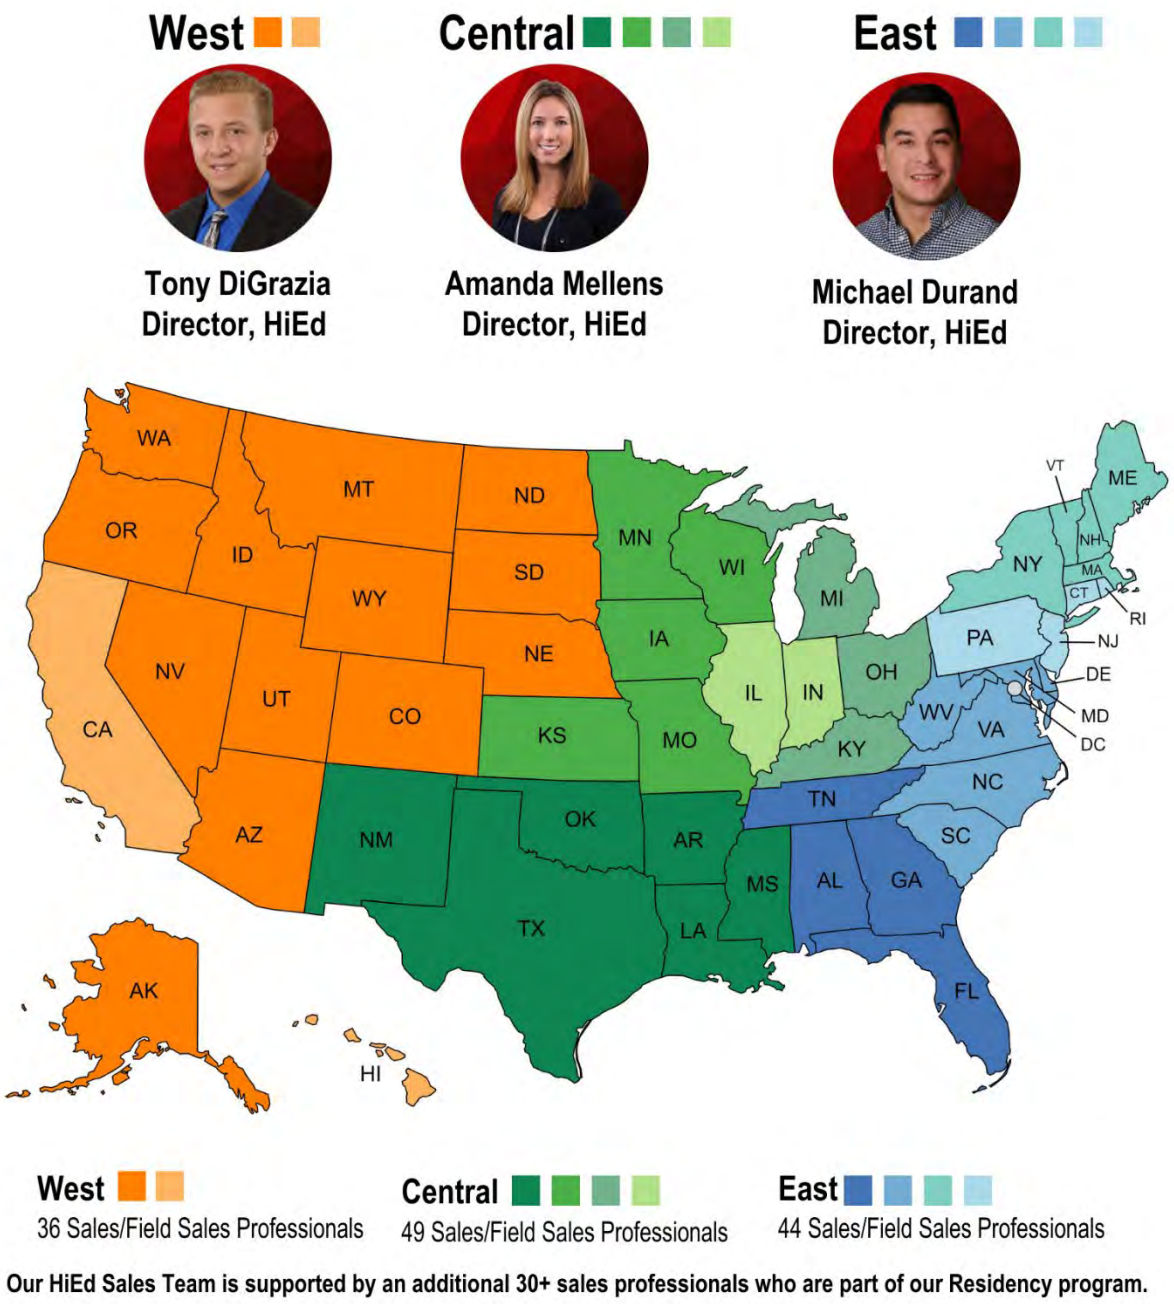

Figure 24. Higher Ed Sales Team Organization

Our Approach

One clear advantage of the CDW•G approach is the opportunity for each Account Manager to be an expert within their sector, enabling them to respond to the very specific needs of the City of Mesa and OMNIA Partners' Participating Public Agencies.

- State and local Account Managers follow developing legislation and understand local procurement requirements and their impact on the ability to deliver robust solutions.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Account Managers in education understand the unique impact of the Family Educational Rights and Privacy Act and other privacy laws on technology solutions and services.
- Education Strategists have the background knowledge and experience in helping districts win competitive grants.

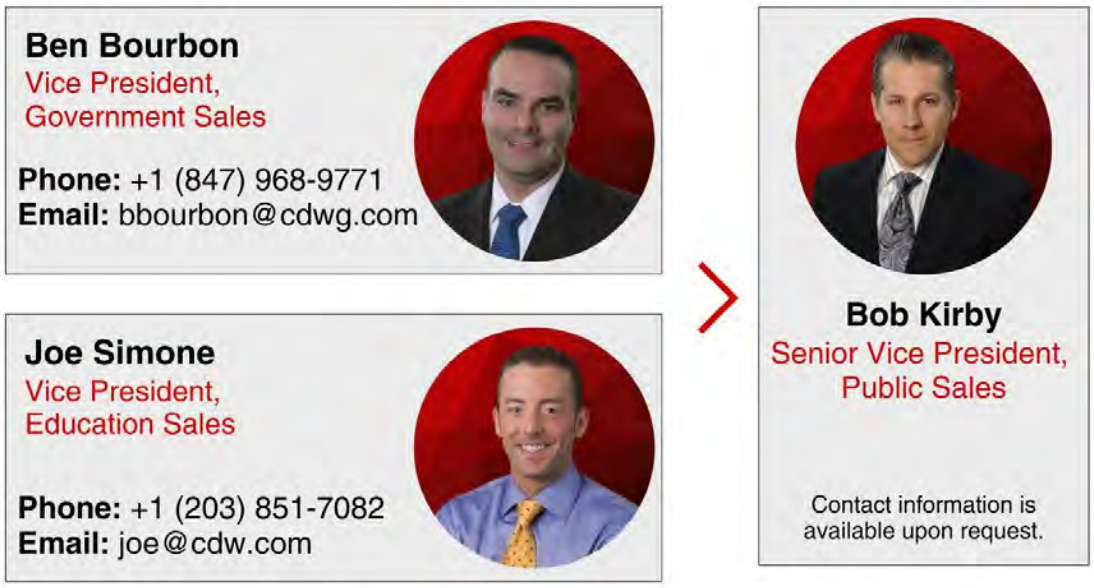
With roughly 1,900 CDW•G coworkers, supported by more than 12,000 coworkers throughout the entirety of CDW, our segment and regional focus help ensure that our account teams are best prepared to support the local landscape in a way unmatched by other suppliers.

Sales Organization

As mentioned above, Account Teams are organized geographically, enhancing their knowledge of the local landscape, including key partnerships and local practices for contracting. Supporting our Account Teams are technology specialists and engineers, including segment-specific experts like our K-12 Education Strategists. All of these coworkers will act as an extension of our Account Teams in support of the City of Mesa and each OMNIA Partners' Participating Public Agency. Through their expertise in specific solution sets, our subject matter experts advise the City and OMNIA Partners Participating Public Agencies on technology to make informed decisions in support of mission-critical objectives.

The CDW•G customer support models start with our Account Managers. As part of the CDW•G Experience, we organize our sales force differently from other companies to best serve the City of Mesa and OMNIA Partners Participating Public Agencies. First, our Account Managers are trained to become experts within the public sector segment they support: K-12, Higher Education, State and Local government, Federal government, and Healthcare. The advantage is that they can address the very specific needs of their unique customers. To further equip our Account Managers to support the City of Mesa and OMNIA Partners Participating Public Agencies, CDW•G divides the salesforce into distinct geographic regions to ensure that sellers are prepared to support the local landscape.

Your CDW•G Account Manager maintains the overall responsibility for coordinating resources to achieve the highest standards of customer service. CDW•G Account Managers, their supporting product specialists, and their sales managers understand the current technology trends and are specialized to only work with public-sector customers. This is one of the great benefits of partnering with CDW•G. The City of Mesa and OMNIA Partners Participating Public Agencies will have access to much more than a single resource; they will also have access to an entire sales and support team ready to address any agency's need. CDW•G, from the executive level down to your Account Manager, is focused on ensuring that the City of Mesa and OMNIA Partners Participating Public Agencies' needs are consistently and satisfactorily met.



Highest Level Executives

Ben Bourbon, Vice President of Government Sales, and Joe Simone, Vice President of Education Sales, are high-level, accessible points of contact focused on the success of this agreement.

Contact information for the highest level of the executive sales team is as follows:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Implementation

I. Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

The City of Mesa and OMNIA Partners Participating Public Agencies' first point of contact with CDW•G is their dedicated account manager. As such, we understand how critical it is for our account managers to understand the scope and benefits of the OMNIA agreement. In conjunction with the technical trainings offered to our CDW•G account teams, our Program Management team will train our sales teams regarding the OMNIA agreement with CDW•G. The diverse nature of our training program gives each account team confidence to support OMNIA Partners through the entire sales cycle from project inception, purchase, solution deployment, and post-sale support. Our account teams clearly and concisely deliver the value of the OMNIA Partners agreement to non-members helping to drive increased adoption and contract growth.

Public sector customers are seeking a digital platform for quick and simple procurement of transactional items. CDW•G Account Managers, across all segments and regions nationwide, will be poised and prepared to guide and educate members on this procurement option.

Tenured CDW•G Account Managers are actively marketing the current City of Mesa OMNIA agreement to customers and are very familiar with its benefits, including product categories, administrative fee structure, and flexibility. While there will be subsequent trainings upon award, this contract will easily be added to our account manager's repertoire. The ramp up time for our account managers will be far quicker than account managers who lack such familiarity with OMNIA agreements.

In addition to our Account Managers, our Business Development team, including Mark Ellis, Elysse Wayman, Jason Schwartz, and Chris Webb, is actively engaged with OMNIA Regional Managers and leaders in Partner Development and Strategic Accounts to review the state of our joint business, develop growth goals and strategies and execute prescriptively to drive business the OMNIA Partners portfolio. This new contract will fit seamlessly into the overall program allowing us to quickly develop and expand contract usage utilizing a proven model.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Program Management

I. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

This contract will continue to be led by your Program Manager, Ty, with the full support of the Program Management Team, ensuring contract compliance and administering contract procedures, including contract launch. We use proprietary tools for pricing, account setup, and other contract lifecycle management activities to ensure compliance and seamless use of the contract for OMNIA Partners Participating Public Agencies. As an incumbent, we believe the transition efforts will be minimal and provide a better experience for the City and OMNIA PPA. We have quality assurance tools to ensure timely reporting, fee payments and other contractual obligations. In addition, we have monthly meetings with OMNIA and any issues will be addressed in an expedient manner.

Upon award, the City of Mesa and OMNIA Partners' CDW•G's Program Manager, Ty Robles, will work directly with the City of Mesa and OMNIA Partners to stand-up all aspects of the new agreement within our system (e.g., member lists, pricing, reporting, fee schedules, and other compliance requirements). We will load the contract structure into our internal contract editor system, which will then update the information on the City of Mesa and OMNIA Partners' premium page; this page will reflect the contracted price. Due to our robust systems, pricing is dynamically and systematically managed requiring little to no manual intervention.

After contract launch, the Program Management team is responsible for adding new members to the contract by linking their account to the new contract. We review the OMNIA members list in a frequent cadence to ensure new members, are offered the contract, as applicable. Contract stand-up also includes creation of internal and external resources to aid our customers and sales teams in transitioning to the new Agreement. Additionally, Ty and the Program Management team will continue to ensure all sales reporting and administrative fees are provided accurately and on time.

Our ongoing marketing efforts will include the previously discussed topics – i.e., training, publications, attendance at events – to ensure this contract is continually being marketed from contract launch through completion.

Public Sales

J. State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

To protect our customers' privacy, CDW•G does not release a list of our current or former customers or the financial information of our customers. Below, we have provided a list of our Top 10 OMNIA Customers in alphabetical order. Please refer to the monthly reporting that CDW•G submits to OMNIA Partners for revenue details.

Our 2022 Top Public Agency OMNIA Customers are as follows:

- City of Mesa
- City of Palm Beach
- Clark County
- Collier City
- Kern County High School District

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- New York City Agencies
- State of Nevada
- University of California – Berkeley
- University of California – Los Angeles (UCLA)
- University of California – San Francisco

Order Management

K. Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

eCommerce Platform – Web based

Your customizable CDW•G web portal is available to authorized users 24 hours per day, provides real-time information, and facilitates researching, ordering, and tracking purchases. Whether you are a first time shopper or an existing customer of CDW•G, we can ensure your order routes to the appropriate account management team that supports the shoppers entity, based on the contract being used.

eProcurement Platform – Punch Out Catalog

As a company, CDW•G is highly experienced in implementing B2B solutions. Since 2001, we have integrated with over 9,000 entities (13,000 customers) and work with over 80 different marketplaces, ERPs and SRMs. Our in-house staff of over 200 IT personnel are dedicated solely to our web, internal, and e-commerce IT systems. Our mature e-procurement practice also means the City of Mesa and OMNIA Partners Participating Public Agencies won't have long to wait to begin using your system. By integrating quicker than our competitors, CDW•G simplifies procurement for eProcurement customers by allowing them to buy IT the way they need based on their specific requirements. CDW•G's punch out offers the shopper dynamic price offerings, product information and availability while providing industry standard information back into our customers e-procurement platform, such as UNSPSC and contract information. CDW•G can support customers who wish to utilize the City of Mesa award(s) through an eProcurement platform.

Application Programming Interface (API)

CDW•G can review customer specific requests where order process automation is needed, but further customization is required. This process may include technologies such as JSON or SFTP, but may be accommodated based upon the scope of the project.

OPUS Integration

Currently, CDW•G is working on integrating OMNIA Partners' new eProcurement tool, OPUS. Once completed, this integration will allow OMNIA Partners Participating Public Agencies to utilize the OMNIA Partners eProcurement tool to shop and buy off our City of Mesa, OMNIA Partners contract, should we be awarded.

Contract Sales

L. Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

$_____.00 in year one

$_____.00 in year two

$_____.00 in year three

To the extent Supplier guarantees minimum Contract Sales, the Administrative Fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

While we cannot provide guaranteed minimum contract sales, CDW•G has a proven record of winning and growing OMNIA agreements, and we have the resources needed to do so. The table below demonstrates our ability to grow this contract. Please refer to the monthly reporting that CDW•G submits to OMNIA Partners for specific revenue details.

Year	Growth
2018	N/A
2019	7.67% YoY
2020	3.37% YoY
2021	59.93% YoY
2022	3.43% YoY

Solicitation Strategy

M. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).

ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.

iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).

iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Detail Supplier's strategies under these options when responding to a solicitation.

As an impartial solutions provider, our first and primary goal is to serve the needs of the customer from a technology and procurement perspective. We act in a consultative, objective manner to aid customers in developing the procurement strategy to best fit their needs. In honoring this commitment, we have maintained the transparency of our contract portfolio to our customers and negotiated the removal of language such as "most favored customer" and other requirements.

We commend the City of Mesa and OMNIA Partners for creating a contract vehicle to facilitate easy transactional buying at competitive pricing for its users. We certainly see the strategic fit this contract demonstrates within the SLED, Healthcare, and Not for Profit segments, and we

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

will continue to prominently position the benefits of this agreement, and how it best suits customers' procurement needs.

When responding to a solicitation that directly disclaims the terms and conditions of this Master Agreement, we will comply with all appropriate contractual terms. Subject to applicable law, CDW•G represents that under this Agreement, it will make reasonable commercial efforts to offer prices that are competitive with the prices. CDW•G offers to similarly situated customers purchasing a comparable volume of the similar products within the same timeframe and under the same terms and conditions.

World-class training accelerates project success.

CDW training maximizes your technology ROI.

Every techno ogy so ut on you dep oy performs better when your teams have the know edge and sk s to run them to the r fu est capac ty That s why **training is one of the smartest investments you can make to support your digital transformation, security, and enterprise technology projects.**

New enterpr se techno ogy projects requ re new sk s and **teams with relevant training on the full functionality of critical platforms achieve the strongest outcomes.**

CDW tra n ng perfect y a gns the tra n ng needs of your workforce w th the goa s of your techno ogy projects to ensure your team has the exact sk s they need to support and opt m ze your tech stack ong term

Research has shown that dedicating an extra 1.5 percent of a project's total budget to training can increase success rates by up to 30 percent.

Training elevates employee satisfaction and retention.

Tu nove hu ts n an env onment whe e find ng good wo ke s s nc eas ng y cha eng ng **it's paramount to keep your employees satisfied — and that's another reason training is essential:**

- 72% of T wo ke s a e ve y o ext eme y nte ested n t a n ng to upg ade the sk s — the h ghest pe centage of a occupat ons su veyed
- 71% of wo ke s who ecent y comp eted upsk ng ag ee t had a pos t ve mpact on job sat sfact on The job sat sfact on s 21% h ghe than wo ke s who had not pa t c pated n upsk ng
- 86% of m enn a s wou d be ess ke y to eave the cu ent pos t on f t a n ng and deve opment we e offe ed by the emp oye

Sat sfied T and secu ty emp oyees a e fa mo e ke y to stay and g ow w th you o gan zat on Re evant t a n ng he ps make t happen

Elite skills and training to achieve your security goals.

Combined strengths create your ideal partner.

Foca Po nt Academy s the ongt me eade n cybe wo kfo ce deve opment Now that Foca Po nt s pa t of CDW you T t a n ng can comb ne the st engths of these two ndust y eade s

Exhibit F
Federal Funds Certifications

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non–Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non–Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non–Federal entity that, consistent with 31 U.S.C. 6302–6305:

(a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non–Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;

(b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non–Federal entity in carrying out the activity contemplated by the Federal award.

(c) The term does not include:

(1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or

(2) An agreement that provides only:

(i) Direct United States Government cash assistance to an individual;

(ii) A subsidy;

(iii) A loan;

(iv) A loan guarantee; or

(v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non–Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

(a)(1) The Federal financial assistance that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non–Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

(b) Is not organized primarily for profit; and

(c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non–Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non–Federal entity during the same or a future period.

Pass-through entity means a non–Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non–Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non–Federal entity may purchase property or services using small purchase methods. Non–Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non–Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Per FAR 52.204-24 and FAR 52.204-25, solicitations and resultant contracts shall contain the following provisions.

52.204-24 Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (Oct 2020)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Items. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) *Definitions.* As used in this provision—

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) *Prohibition*.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (https://www.sam.gov) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) *Representation.* The Offeror represents that—

(1) It □ will, ☑ will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It □ does, ☑ does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) *Disclosures.*

(1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer.

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

52.204-25 Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment (Aug 2020).

(a) *Definitions.* As used in this clause—

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (*e.g.*, connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (*e.g.*, fiber optic, coaxial cable, Ethernet).

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means–

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means–

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled-

(i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

(ii) For reasons relating to regional stability or surreptitious listening;

(3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

(4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

(5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or

(6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

Interconnection arrangements means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (*e.g.*, connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Reasonable inquiry means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

Roaming means cellular communications services (*e.g.*, voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) *Prohibition*.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) *Exceptions.* This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at https://dibnet.dod.mil. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at https://dibnet.dod.mil.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause

(i) Within one business day from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency's subcontractors shall contain the procurement provisions of Appendix II to Part 200, as applicable.

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Offeror as detailed in the terms of the contract.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does offeror agree to abide by the above? YES DB Initials of Authorized Representative of offeror

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non - Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, offeror will be in compliance with all applicable Davis-Bacon Act provisions.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by

the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

In the event Federal Transit Administration (FTA) or Department of Transportation (DOT) funding is used by Participating Public Agency, Offeror also agrees to include Clean Air and Clean Water requirements in each subcontract exceeding $100,000 financed in whole or in part with Federal assistance provided by FTA.

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded

from participation by any federal department or agency. If at any time during the term of an award the offeror or its principals becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency, the offeror will notify the Participating Agency.

(l) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (l) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(3) The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, offeror certifies that it will comply with the record retention requirements detailed in 2 CFR § 200.333. The offeror further certifies that offeror will retain all records as required by 2 CFR § 200.333 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT

When Participating Agency expends federal funds for any contract resulting from this procurement process, offeror certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18).

Does offeror agree? YES DB Initials of Authorized Representative of offeror

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, offeror certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition. Additionally:

(1) The Contractor agrees to comply with 49 USC 5323(j) and 49 CFR Part 661, which provide that federal funds may not be obligated unless steel, iron and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 CFR 661.7.A general public interest waiver from the Buy America requirements applies to microprocessors, computers, microcomputers, software or other such devices, which are used solely for the purpose of processing or storing data. This general waiver does not extend to a product or device that merely contains a microprocessor or microcomputer and is not used solely for the purpose of processing or storing data. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR 661.11.

(2) A bidder or offeror must submit to the FTA recipient the appropriate Buy America certification with all bids on FTA-funded contracts, except those subject to a general waiver. Bids or offers that are not accompanied by a completed Buy America certification must be rejected as nonresponsive. This requirement does not apply to lower tier subcontractors.

The following certificates titled FTA and DOT Buy America Certification should be completed and returned with the response as part of FTA and DOT requirements.

FEDERAL TRASIT ADMINISTRATION (FTA) AND DEPARTMENT OF TRANSPORTATION (DOT) -
BUY AMERICA: CERTIFICATION REQUIREMENT FOR PROCUREMENTOF ROLLING STOCK

FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS

Awarded Supplier(s) (also referred to as Contractors) may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a proposal, the Supplier is accepted these FEMA and Additional Federal Funding Special Conditions required by the Federal Emergency Management Agency (FEMA) and other federal entities.

"Contract" in the below pages under FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS is also referred to and defined as the "Master Agreement".

"Contractor" in the below pages under FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension), must be rejected and cannot receive contract awards at any level.

Notice of Legal Matters Affecting the Federal Government

In the event FTA or DOT funding is used by Participating Public Agency, Contractor agrees to:

1) The Contractor agrees that if a current or prospective legal matter that may affect the Federal Government emerges, the Contractor shall promptly notify the Participating Public Agency of the legal matter in accordance with 2 C.F.R. §§ 180.220 and 1200.220.

2) The types of legal matters that require notification include, but are not limited to, a major dispute, breach, default, litigation, or naming the Federal Government as a party to litigation or a legal disagreement in any forum for any reason.

3) The Contractor further agrees to include the above clause in each subcontract, at every tier, financed in whole or in part with Federal assistance provided by the FTA.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:
a. Equal opportunity and nondiscrimination laws
b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7
c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Federal Requirements

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. CONTRACT REMEDIES

Contracts for more than the federal simplified acquisition threshold (SAT), the dollar amount below which an NFE may purchase property or services using small purchase methods, currently set at $250,000 for procurements made on or after June 20, 2018,4 must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms and must provide for sanctions and penalties as appropriate.

1.1 Applicability

This contract provision is required for contracts over the SAT, currently set at $250,000 for procurements made on or after June 20, 2018. Although not required for contracts at or below the SAT, FEMA suggests including a remedies provision.

1.2 Additional Considerations
For FEMA's Assistance to Firefighters Grant (AFG) Program, recipients must include a penalty clause in all contracts for any AFG-funded vehicle, regardless of dollar amount. In that situation, the contract must include a clause addressing that non-delivery by the contract's specified date or other vendor nonperformance will require a penalty of no less than $100 per day until such time that the vehicle, compliant with the terms of the contract, has been accepted by the recipient. This penalty clause should, however, account for force majeure or acts of God. AFG recipients should refer to the applicable year's Notice of Funding Opportunity (NOFO) for additional information, which can be accessed at FEMA.gov.

2. TERMINATION FOR CAUSE AND CONVENIENCE

a. Standard. All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix II(B).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

3. EQUAL EMPLOYMENT OPPORTUNITY

When applicable:

a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R.
§ 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60- 1.4(b), in accordance with Executive Order 11246**,** *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p.

339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41
C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II(C).

b. Key Definitions.

i. Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

ii. Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property,

iii. including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

c. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

d. Required Language. The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

4. DAVIS-BACON ACT

a. Standard. All prime construction contracts in excess of $2,000 awarded by non- Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction). See 2 C.F.R. Part 200, Appendix II(D). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

b. Applicability. The Davis-Bacon Act applies to the Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program.

c. Requirements. If applicable, the non-federal entity must do the following:

i. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

ii. Additionally, pursuant 2 C.F.R. Part 200, Appendix II(D), contracts subject to the Davis-Bacon Act, must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

iii. Include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction").

Suggested Language. The following provides a sample contract clause:

Compliance with the Davis-Bacon Act.

a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.

b. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

c. Additionally, contractors are required to pay wages not less than once a week.

5. COPELAND ANTI-KICKBACK ACT

a. Standard. Recipient and subrecipient contracts must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").

b. Applicability. This requirement applies to all contracts for construction or repair work above $2,000 in situations where the Davis-Bacon Act also applies. It DOES NOT apply to the FEMA Public Assistance Program.

c. Requirements. If applicable, the non-federal entity must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). Each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA. Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

Sample Language. The following provides a sample contract clause:

Compliance with the Copeland "Anti-Kickback" Act.

a. Contractor. The contractor shall comply with 18 U.S.C. §874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

b. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

6. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

a. Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.

b. Applicability. This requirement applies to all FEMA contracts awarded by the non- federal entity in excess of $100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of $27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency or loan/grant recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in

paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT

a. Standard. If the FEMA award meets the definition of "funding agreement" under 37C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non- Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).

b. Applicability. This requirement applies to "*funding agreements*," but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of "funding agreement."

c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

a. Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).

b. Applicability. This requirement applies to contracts awarded by a non-federal entity of amounts in excess of $150,000 under a federal grant.

c. Suggested Language. The following provides a sample contract clause.

Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. DEBARMENT AND SUSPENSION

a. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

c. Requirements.

i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530.

ii. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such

as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipients.

iii. Specifically, a covered transaction includes the following contracts for goods or services:

1. The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

2. The contract requires the approval of FEMA, regardless of amount.

3. The contract is for federally-required audit services.

4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d. Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the Participating Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

10. BYRD ANTI-LOBBYING AMENDMENT

a. Standard. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to

influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. FEMA's regulation at 44 C.F.R. Part 18 implements the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the Federal awarding agency.

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs. Contractors that apply or bid for a contract of $100,000 or more under a federal grant must file the required certification. See 2 C.F.R. Part 200, Appendix II(I); 31 U.S.C. § 1352; and 44 C.F.R. Part 18.

c. Suggested Language.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

d. Required Certification. If applicable, contractors must sign and submit to the non-federal entity the following certification.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, CDW Government LLC, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

Date

11. PROCUREMENT OF RECOVERED MATERIALS

a. Standard. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. See 2 C.F.R. Part 200, Appendix II(J); and 2 C.F.R. §200.322.

b. Applicability. This requirement applies to all contracts awarded by a non- federal entity under FEMA grant and cooperative agreement programs.

c. Requirements. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds
$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

d. Suggested Language.

i. In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—
   1. Competitively within a timeframe providing for compliance with the contract performance schedule;
   2. Meeting contract performance requirements; or
   3. At a reasonable price.

ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.

iii. The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act."

12. **DOMESTIC PREFERENCES FOR PROCUREMENTS**

As appropriate, and to the extent consistent with law, CONTRACTOR should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products or materials produced in the United States. This includes, but is not limited to, iron, aluminum, steel, cement, and other manufactured products.

Applicability For purchases in support of FEMA declarations and awards issued on or after November 12, 2020, all FEMA recipients and subrecipients are required to include in all contracts and purchase orders for work or products a contract provision encouraging domestic preference for procurements.

Domestic Preference for Procurements As appropriate, and to the extent consistent with law, the contractor should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products. For purposes of this clause: Produced in the United States means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States. Manufactured products mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber."

13. **ACCESS TO RECORDS**

a. Standard. All recipients, subrecipients, successors, transferees, and assignees must acknowledge and agree to comply with applicable provisions governing DHS access to records, accounts, documents, information, facilities, and staff. Recipients must give DHS/FEMA access to, and the right to examine and copy, records, accounts, and other documents and sources of information related to the federal financial assistance award and permit access to facilities, personnel, and other individuals and information as may be necessary, as required by DHS regulations *and* other applicable laws or program guidance. See DHS Standard Terms and Conditions: Version 8.1 (2018). Additionally, Section 1225 of the Disaster Recovery Reform Act of 2018 prohibits FEMA from providing reimbursement to any state, local, tribal, or territorial government, or private non-profit for activities made pursuant to a contract that purports to prohibit audits or internal reviews by the FEMA administrator or Comptroller General.

Access to Records. The following access to records requirements apply to this contract:

i. The Contractor agrees to provide Participating Public Agency, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

ii. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

iii. The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

iv. In compliance with the Disaster Recovery Act of 2018, the Participating Public Agency and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

CHANGES

a. Standard. To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope.

b. Applicability. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

15. DHS SEAL, LOGO, AND FLAGS

a. Standard. Recipients must obtain permission prior to using the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials. See DHS Standard Terms and Conditions: Version 8.1 (2018).

b. Applicability. FEMA recommends that all non-Federal entities place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

c. "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

16. COMPLIANCE WITH FEDERAL LAW, REGULATIONS, AND EXECUTIVE ORDERS

a. Standard. The recipient and its contractors are required to comply with all Federal laws, regulations, and executive orders.

b. Applicability. FEMA recommends that all non-Federal entities place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable Federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

c. "This is an acknowledgement that FEMA financial assistance will be used to fund all or a portion of the contract. The contractor will comply with all applicable Federal law, regulations, executive orders, FEMA policies, procedures, and directives."

17. NO OBLIGATION BY FEDERAL GOVERNMENT

a. Standard. FEMA is not a party to any transaction between the recipient and its contractor. FEMA is not subject to any obligations or liable to any party for any matter relating to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

c. "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

18. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

a. Standard. Recipients must comply with the requirements of The False Claims Act (31 U.S.C. §§ 3729-3733) which prohibits the submission of false or
fraudulent claims for payment to the federal government. See DHS Standard Terms and Conditions: Version 8.1 (2018); and 31 U.S.C. §§ 3801-3812, which details the administrative remedies for false claims and statements made. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

c. "The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract."

d. In the event FTA or DOT funding is used by a Participating Public Agency, Contractor further acknowledges U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, and apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to me made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to me made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected

with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.

Offeror agrees to comply with all terms and conditions outlined in the FEMA Special Conditions section of this solicitation.

Offeror's Name: CDW Government LLC

Address, City, State, and Zip Code:
230 N. Milwaukee Ave Vernon Hills IL, 60061

P.L. 1995, c. 127 (N.J.A.C. 17:27)
MANDATORY AFFIRMATIVE ACTION LANGUAGE

PROCUREMENT, PROFESSIONAL AND SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of it testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www nj.gov/dca/divisions/dlgs/resources/lfns_2006 html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of $17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).

2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.

3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.

4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.

    a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at http://www nj.gov/dca/divisions/dlgs/programs/lpcl html#12. They will be updated from time-to-time as necessary.
    b. A public agency using these forms **should edit them to properly reflect the correct legislative district**(s). As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
    c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
    d. The form may be used "as-is", subject to edits as described herein.
    e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
    f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.

5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
    - of the public entity awarding the contract
    - of that county in which that public entity is located
    - of another public entity within that county
    - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Required Pursuant to N.J.S.A. 19:44A-20.26

This form or its permitted facsimile must be submitted to the local unit no later than 10 days prior to the award of the contract.

MACBRIDE PRINCIPALS FORM

BID SOLICITATION #: 2024056 **VENDOR/BIDDER:** CDW Government LLC

VENDOR'S/BIDDER'S REQUIREMENT TO PROVIDE A CERTIFICATION IN COMPLIANCE WITH THE MACBRIDE PRINCIPALS AND NORTHERN IRELAND ACT OF 1989

Pursuant to Public Law 1995, c. 134, a responsible Vendor/Bidder selected, after public bidding, by the Director of the Division of Purchase and Property, pursuant to N.J.S.A. 52:34-12, must complete the certification below by checking one of the two options listed below and signing where indicated. If a Vendor/Bidder that would otherwise be awarded a purchase, contract or agreement does not complete the certification, then the Director may determine, in accordance with applicable law and rules, that it is in the best interest of the State to award the purchase, contract or agreement to another Vendor/Bidder that has completed the certification and has submitted a bid within five (5) percent of the most advantageous bid. If the Director finds contractors to be in violation of the principals that are the subject of this law, he/she shall take such action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, on behalf the Vendor/Bidder, certify pursuant to N.J.S.A. 52:34-12.2 that:

CHECK THE APPROPRIATE BOX

☑ The Vendor/Bidder has no business operations in Northern Ireland; or

OR

☐ The Vendor/Bidder will take lawful steps in good faith to conduct any business operations it has in Northern Ireland in accordance with the MacBride principals of nondiscrimination in employment as set forth in section 2 of P.L. 1987, c. 177 (N.J.S.A. 52:18A-89.5) and in conformance with the United Kingdom's Fair Employment (Northern Ireland) Act of 1989, and permit independent monitoring of its compliance with those principals.

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor/Bidder, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor/Bidder is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I will be subject to criminal prosecution under the law, and

it will constitute a material breach of **my** agreement(s) with the State, permitting the State to declare any contract(s) resulting from this certification to be void and unenforceable.

Cobb County

Contract # 23-6692-01

for

Technology Product Solutions and Related Services

with

Carahsoft Technology Corporation

Effective: May 1, 2023

The following documents comprise the executed contract between the Cobb County, and Carahsoft Technology Corporation effective May 1, 2023:

I. Executed Master Agreement
II. Supplier's Response to the RFP, incorporated by reference

Reference Number	
Reference Depart.	Purchasing Department

Master Agreement

Owner: Cobb County Board of Commissioners
100 Cherokee Street
Marietta, GA 30090

Contractor: Carahsoft Technology Corp.
11493 Sunset Hills Road, Suite 100
Reston, VA 20190

Description: **TECHNOLOGY PRODUCT SOLUTIONS AND RELATED SERVICES:** The undersigned parties understand and agree to comply with and be bound by the entire contents of **Sealed Bid #23-6692** ("the RFP") and the Contractor's Proposal submitted October 13, 2022, which is incorporated herein by reference.

OMNIA PARTNERS, PUBLIC SECTOR: Supplier agrees to extend Goods and/or Services to public agencies (state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit) ("Public Agencies") registered with OMNIA Partners, Public Sector ("Participating Public Agencies") under the terms of this agreement ("Master Agreement").

Governing Law: This Agreement shall be governed by the laws of the State of Georgia. As to any dispute hereunder, venue shall be in the Superior Court of Cobb County, Georgia.

Term: This Agreement shall begin on May 1, 2023, the Effective Date, for a period of thirty-six months, and shall automatically terminate and renew for two (2) additional twelve (12) month periods and shall terminate absolutely on April 30, 2028, unless earlier terminated as provided herein. Pursuant to O.C.G.A. § 36-60-13, this Agreement shall terminate absolutely and without further obligation on the part of the County at the close of the calendar year in which it was executed and at the close of each succeeding calendar for which it may be renewed. The Parties reserve the right to renew, amend or extend the Agreement for additional terms. Either party may terminate this Agreement for convenience and/or due to lack of funding at the end of each annual term.

Price: Prices for services and equipment, if applicable, as stated in the Contractor's proposal

Billing: For purchases made by Cobb County Government, all original invoices shall be submitted directly to the Cobb County Finance Department. Invoices shall bill only for items received during the period covered by the invoice and shall clearly identify such items in accordance with invoicing guidelines in the Sealed Bid Proposal. For purchases made by participating public agencies, the Contractor shall comply with each agency's invoicing and billing requirements outlined on the applicable order.

{SIGNATURES ON NEXT PAGE}

IN WITNESS, WHEREOF, this Agreement has been executed by Owner and accepted by Contractor to be effective as of the date first above written.

Cobb County... Expect the Best!

5.1 COVER LETTER

The proposer shall provide a cover letter describing a brief history of the Proposer and its organization. The letter will list the Principal or Officer of the organization who will be the County's primary point of contact during clarifications or negotiations. This individual must have the authority to clarify and/or negotiate all aspects on the scope of products and services on behalf of the Proposer. An officer authorized to bind the Proposer to the terms and conditions of this RFP must sign the cover letter.

Re: Carahsoft's Response to the Cobb County's Request for Proposals: Technology Product Solutions and Related Services, Solicitation Number: 23-6692

Dear Evaluation Team,

Carahsoft Technology Corp. appreciates the opportunity to respond to the Cobb County (County)'s Request for Proposals (RFP): Technology Product Solutions and Related Services. Carahsoft is proposing our robust catalog of manufacturer, services, and reseller partners. Our team has reviewed and considered County's requirements outlined in the RFP and has carefully put together a solution that will best meet your needs.

Carahsoft, The Trusted Government IT Solutions Provider®, is responding as the OMNIA contractor (R191902) and government distributor for our partner ecosystem. As the Master Government Aggregator® for our vendor partners, Carahsoft has combined extensive knowledge of the technologies we provide with a thorough understanding of the government procurement process, to analyze needs, provide configuration support, simplify the ordering process, and offer special government pricing since 2004. Working with resellers, systems integrators and consultants, our sales and marketing teams provide industry leading IT products, services, and training to support Public Sector organizations across Federal, State and Local Government agencies and Education and Healthcare markets.

Please feel free to contact me directly at 703.673.3568/Elise.Roell@carahsoft.com or George Nicholls at 703.889.9815/George.Nicholls@carahsoft.com with any questions or communications that will assist County in the evaluation of our response. This proposal is valid for 90 days from the date of submission.

Thank you for your time and consideration.

Sincerely,

Kristina Smith
Contracts Director

5.2 EXECUTIVE SUMMARY

The Proposer shall provide an Executive Summary that presents in brief, concise terms a summary level description of the contents of the proposal.

Solution Overview

Carahsoft understands that the Cobb County is seeking qualified suppliers for Technology Product Solutions and Related Services to establish a Master Agreement to achieve cost and time savings for Suppliers and Participating Public Agencies. As the Prime Contractor, Carahsoft has assembled a team for the initiative that includes our portfolio of over 300 Technology Manufacturers and network of around 3,000 reseller and services partners as the best solution to meet County's requirements.

Cobb County Objectives	Carahsoft Qualifications
Provide a comprehensive competitively solicited Master Agreement offering products and services to Participating Public Agencies.	With over 300 technology manufacturers and our large partner network of over 3,000 resellers and services partners, Carahsoft is uniquely positioned to provide a robust catalog of products and services to help the Participating Public Agencies access a full range of solutions to meet their needs.
Establish the Master Agreement as a Supplier's primary offering to Participating Public Agencies.	Carahsoft currently holds two Omnia contracts, in addition to a multitude of Canadian, and U.S. Federal and State and Local contracts.
Achieve cost savings for the Suppliers and Participating Public Agencies through a single competitive solicitation process that eliminates the need for multiple bids or proposals.	As the Master Government Aggregator for our vendor partners, we have extensive experience negotiating price lists that provide the best value to our government customers and cuts down on the procurement activity required for all parties.
Combine the volumes of Participating Public Agencies to achieve cost effective pricing.	Carahsoft strives to provide the most competitive pricing on the market for our government customers.
Reduce the administrative and overhead costs of Suppliers and Participating Public Agencies through state-of-the-art ordering and delivery systems.	Our sales, order operations and IT teams are all closely integrated to deliver the most efficient process from quote to cash. Westrive for 60-minute quote turnaround time, especially for end-of-quarters and end-of years as well as 6-hour turnaround on all clean POs.

Prime Contractor: Carahsoft Technology Corp.

Carahsoft Technology Corp. is The Trusted Government IT Solutions Provider®, supporting Public Sector organizations across Federal, State and Local Government agencies and Education and Healthcare markets. As the Master Government Aggregator® for our vendor partners, we deliver solutions for Cybersecurity, MultiCloud, DevSecOps, Big Data, Artificial Intelligence, Open Source, Customer Experience and more. Working with resellers, systems integrators and consultants, our sales and marketing teams provide industry leading IT products, services, and training through hundreds of contracts. Founded in 2004, Carahsoft is headquartered in Reston, Virginia and employs more than 1,900 professionals dedicated to serving our public sector customers and partners.

Vendor and Partner Relationships – In addition to establishing strategic, long-term relationships with the industry's leading manufacturers, our partner ecosystem encompasses more than 3,000+ government

contractors, resellers, and integrators who we support and enable with an entire suite of value-added opportunities that run the gamut from training/certification and pre-sales support to lead generation and business development.

Proven Execution – Carahsoft has deep expertise in government contracting and procurement. We manage and maintain a wide variety of government-wide and agency-specific purchasing contract vehicles and purchasing agreements for agencies at the state, local, and federal levels. As a result, we now serve as the largest government partner for the majority of our vendors, who have also entrusted other major aspects of their businesses to Carahsoft including partner enablement, commercial sales, renewals and upsell, and help desk services.

Contract Vehicles – Since 2004, Carahsoft has acquired and maintained a wide variety of purchasing contract vehicles for agencies at all levels of government. Associated with all contracts are dedicated and experienced contract management resources. A list of available contracts can be found at www.carahsoft.com/contracts/index.php.

Growth & Stability – A stable, conservative, and profitable company, Carahsoft has demonstrated impressive growth year after year, with annual revenue of $3.4 million in our first year in 2004 to $10.2 billion in 2021. In September of 2021, our team of dedicated, highly trained marketing, sales, contracting, and business operations experts processed 16,916 orders worth more than $1.8 billion.

Awards and Industry Recognition – Carahsoft receives awards for our excellent performance yearly. For more information on the hundreds of awards we have received please visit our website at https://www.carahsoft.com/awards.

Carahsoft Technology Product, Services, and Solution Offering

Cobb County Requirements	Carahsoft Capabilities
Technology Products: A complete portfolio of technology products such as desktops, laptops, tablets, PDAs, servers, storage, ruggedized devices, thin clients, printers, monitors, multifunction printers, scanners, plotters, projectors, video conferencing, teleconferencing, analog phones, VoIP phones, conference phones, audiovisual equipment such as computer-video interfaces, switchers, matrix switchers, distribution amplifiers, video scalers, scan converters, processing devices Ethernet control interfaces and high resolution cables, instructional equipment, security equipment, cabling, modems, wired and wireless networking, networking to support server, storage and client applications such as routers and switches, software, computer accessories, computer components, power protection, data protection, video cameras, virtualization products, systems and network management tools, database products, data center facilities (racks, fire suppression, electrical, HVAC, generator, physical access controls) as well as any other technology products available from Offeror.	Carahsoft has provided our corporate linecard as an attachment which shows our robust catalog of manufacturer partners which meet the technology portfolio described. We are happy to leverage this vast ecosystem to support the Cobb County and Omnia partners needs.
Technology Services and Solutions: A complete portfolio of technology services and solutions such as systems	

Cobb County Requirements	Carahsoft Capabilities
configuration, testing, software copying, hardware and software installation, upgrades and/or maintenance, system integration, network integration, extended warranties, warranty service, staff augmentation and any other services and solutions available from Offeror. Specific requirements will be developed on a task order basis and may include, but is not limited to, services and solutions such as:	
Virtualization: Transform data center with virtualization to consolidate servers, reduce energy consumption, increase IT capacity, add system flexibility and prepare for cloud computing.	IT organizations are challenged by the limitations of today's x86 servers, which are designed to run just one operating system and application at a time. As a result, even small data centers have to deploy many servers, each operating at just 5 to 15 percent of capacity—highly inefficient by any standard. A key benefit of virtualization technology is the ability to contain and consolidate the number of servers in a datacenter. This allows businesses to run multiple application and OS workloads on the same server. Ten server workloads running on a single physical server is typical, but some companies are consolidating as many as 30 or 40 workloads onto one server. As you might expect, dramatically reducing server count has a transformational impact on IT energy consumption. Utilization of x86 servers increases from the typical 8-15 percent to 70-80 percent. Reducing the number of physical servers through virtualization cuts power and cooling costs and provides more computing power in less space. As a result, energy consumption typically decreases by 80 percent.
Physical Security: Security solutions seaports, airports, water and wastewater, transportation, critical infrastructure, perimeter defense, physical and logical access control, identity management, antiterrorism protection, automated alarms and alerts, integration with databases containing critical security information, cyber security and asset management, endpoint security and other network security and IT security.	Physical Security solutions combine video management, access control, video analytics, intrusion alerts and more onto a single or consolidated platform of networks that can be accessed from anywhere and at any time through a Web browser. Data from these subsystems is automatically correlated, providing users with a comprehensive view of security operations.
Communications: Communication solutions to converge voice, data and video communications onto a single, secure IP-based network.	The F5 BIG-IP family of products offers application intelligence that network managers need to ensure applications are fast, secure, and available. All BIG-IP products share a common underlying architecture, F5's Traffic Management Operating System (TMOS), which provides unified intelligence, flexibility, and programmability. Together, BIG-IP's powerful platforms, advanced modules, and centralized management system make up the most comprehensive set of application delivery tools in the industry.
Cloud: Cloud solutions for scalable computing and storage capacity and rapid self- provisioning computing capabilities. This may include, but is not limited to, Cloud Infrastructure as a Service (IaaS), Cloud Software as a Service (SaaS) and Cloud Platform as a Service (PaaS).	With no minimum fee and a pay for what you use model, Google Cloud Storage capacity pricing is the most cost effective in the market. In addition, with lifecycle management Google Cloud storage allows you to reduce your costs even further by automatically archiving your objects to Cloud Storage Nearline and scheduled deletions. Store your data on Google's infrastructure with very high level of durability and availability. Google Cloud Storage stores and replicates your data allowing a high level of persistence. Google Cloud Storage is built with a replicated storage strategy. All data is encrypted both in-flight and at rest. The

Cobb County Requirements	Carahsoft Capabilities
	Google security model is an end-to-end process, built on over 15 years of experience.
Infrastructure: Infrastructure solutions such as data center management, network modernization and migration, desktop virtualization, risk and vulnerability management, and IT service management.	Datacenter Infrastructure is the backbone of delivering IT performance to the consumers of today's applications. Technology has shifted to become increasingly software-driven which puts more pressure on the infrastructure to deliver the level of performance the software is capable of or demands. Traditional datacenter infrastructure is being challenged to meet the demands of this new approach. New datacenter infrastructure technology embraces the software driven approach and is designed to accommodate large consumptions of data in a number of forms. Arista Networks has lead the network modernization shift by designing network switches with high buffers and high speeds. They provide a flexible solution to make the transition from a traditional approach to a modern infrastructure more affordable, by not requiring forklift upgrades to the entire datacenter. Network modernization is a key to delivering applications like desktop virtualization and big data analytics.
Data Management: Data management solution which uses technologies such as thin provisioning, de-duplication and automated storage tiering to improve storage utilization.	Data is the raw material of business – an economic input almost on par with capital and labor. However, data in most organizations is scattered across multiple operational and analytical systems. Big data with new sources, such as social media, cloud applications, and syndicated data services are on the rise, and many organizations are realizing that physical consolidation or replication of data is not practical for all data integration and business agility needs. Data needs to be made easily consumable by people who need it to advance the business. Data Virtualization is a lean data integration solution that provides easy, real-time, and unified data access across disparate sources to multiple applications and users. Data Virtualization makes data spread across physically distinct systems – such as multiple databases, XML files, and even Hadoop systems – appear as a set of tables in a local database. This comprehensive platform enables agile data provisioning by providing the following functions: • Connect: Access data from multiple heterogeneous data sources with different access methods and storage models. • Compose: Easily create reusable, business-friendly data models and virtual unified views by combining and transforming data from multiple sources. • Consume: Make integrated data available on demand for consumption by external apps through open standards interfaces.
Visual Communications: Visual communications that integrate	Now more than ever, people need the ability to

Cobb County Requirements	Carahsoft Capabilities
audio, video, voice and presentation capabilities.	collaborate effectively with colleagues, partners, and customers—around the world, across devices, and through technical boundaries. More and more organizations, including large enterprises and government agencies, are using Visual Communication to drive end-to-end, business-critical workflows for web meetings, eLearning, and webinars. The right Visual Communication solution delivers exceptionally rich interactions and enables organizations to fundamentally improve productivity. You can captivate your audience with rich, engaging, and interactive experiences and make them available to virtually anyone, anywhere, on virtually any device, with just a click of a button. Certain Visual Communication Technologies allow invitees to easily attend a meetings from the desktop without requiring a client download, and offers complete mobile-to-mobile collaboration capabilities to address the realities of today's business environments, where employees and customers are on the move worldwide.
UCC (Unified Communications and Collaboration): UCC video teleconferencing solutions that provide for critical infrastructure, emergency operations centers, command rooms, fusion centers, training rooms, and classrooms.	When disasters happen, first responders and emergency personnel are not always in the same place. Unified Communications and Collaboration allows you to set up a virtual command center that can be pre-loaded with maps, actions plans and emergency contact information. This allows first responders and decision makers to work together more quickly and effectively. In 2010 the US Southern Command used UCC technologies to support the Haiti earthquake disaster relief teams, and the Montana National Guard used it to coordinate efforts in fighting the wildfires in the summer of 2015. UCC technologies for distributed team collaboration efforts help government organizations accelerate team decision-making regardless of where people are located by equipping them with a powerful and easy-to-use set of tools for web conferencing and information sharing. Leverage existing investments in video conferencing solutions by integrating your video telephony devices supporting SIP/H.264. Nontechnical users can share everything from text and graphics files to multimedia presentations and websites; collect comments from multiple reviewers; and host live, interactive discussions online without additional downloads.
Broadcast Studio: Broadcast studio solutions for staff that oversee communications and public broadcast efforts which provide integration (system design engineering), fabrication, budgeting, scheduling, engineering, architectural planning (technical grounding, power distribution and facility load requirements), and equipment specification (video, audio, network and storage technologies).	Public sector communication is undergoing an incredible transformation. Government organizations that adopt innovative technologies can capitalize on this transformation to create mission value and cost savings opportunities. Broadcast Studios help public sector organizations accelerate their direct communications with the public in

Cobb County Requirements	Carahsoft Capabilities
	order to drive measurable benefits. More than 1,000 organizations worldwide use Broadcast Studios and secure cloud-based enterprise marketing platforms to reach, inform and engage their audiences through web, email, mobile and social media channels. The utilization of multiple channels enables Broadcast Studios to send personalized, targeted communication to promote services, enhance public awareness, and drive better involvement in agency programs through email, text messaging and other digital media channels.
Law Enforcement: Public safety solutions such as in-car video, body worn cameras, license plate recognition, mobile computing, city surveillance, and digital evidence management.	Carahsoft works in law enforcement with a number of vendors; with various solutions like: Acadis, ADF Solutions, Adobe, Airgility, Airversity, Authentic8, AWS, Axon, BlackBerry, Blackswift, Blueforce Development, Cellebrite, Chainalysis, Commvault, Conceal, Darkowl, Dedrone, DigitalBlue, Elsight, Flashpoint, Ghost Robotics, Google Cloud, Gridless Power, Icaros, ikeGPS, Informatica, Inspired Flight, Juniper Unmanned, Lightsense, Magnet Forensics, Mark43, Measure, Mi-Case, Microsoft, Microsoft Surface, NTrepid, Nuance, NVIDIA, Okta, piXlogic, Qii.Ai, Recorded Future, Red Hat, Reveal, SAFR, Salesforce, SkyX, Software AG, Sonim, Tableau, TransUnion, Trimble, VELARY, Veritone, Vidizmo, Vintra, VIQ, Voyager Labs, Wickr
Mobility: Mobility services to keep users connected, responsive and secure such as email protection, download prevention, containerize content on devices, self- destructing content, and content linked back to the user.	The Mobility/Telework portfolio at Carahsoft includes industry-leading emerging technology solutions to enable government agencies to address a changing workplace. Organizations need to adapt rapidly to shifting user needs while maintaining data privacy and compliance requirements. The US Communities contract would benefit from access to a host of software manufacturers whose focus is to turn a government entities mobile and telework program in to a fully operating and compliant environment to fully meet an agencies mission with: • Secure Mobility and Device Management Mobile • Applications and Mobile Productivity Applications • Mobile Application Development and Performance Management • VDI solutions and Telecom and Expense Management software.
Asset Management: Asset management solutions to identify and manage installed software, hardware and license entitlements.	Inaccurate inventory, wasted resources, compliance issues, and service delays are all every day risks for enterprises that have serious consequences if not addressed. To mitigate risk, organizations need to know the assets they have, where they are, usage entitlements, who uses them, how they are used, how they are configured, what they cost and the value they deliver.

Cobb County Requirements	Carahsoft Capabilities
	Asset Management tracks the financial, contractual, and inventory details of hardware, software, and virtual infrastructure – as well as non-IT assets – throughout their lifecycles. Asset requests are handled using workflows to obtain approvals, validate entitlements, issue chargebacks, and provision services. Once an asset is deployed, Asset Management records all maintenance activity and enables IT to perform regular audits, right up until asset retirement.
Data Protection: Data protection to protect, backup, recover and archive data and applications.	VERITAS provides complete data protection and recovery for all data, systems, and locations. The Backup Exec family provides the gold standard in Windows data and system protection. The BUE family provides efficient granular recovery of critical Microsoft applications and complete Windows system recovery in minutes, ensuring Windows information is always protected. Backup Exec is designed specifically to protect heterogeneous server environments and remote offices. Additionally, the newest version of Backup Exec, v. 15 provides: • Efficient block level deduplication and change block tracking to reduce the amount of data saved to storage. • Deep integration with Microsoft Volume Shadow Copy Service (VSS) and VMware's vStorage APIs for Data Protection (VADP) for fast virtual machine snapshots. • A single solution and management console for virtual and physical to help reduce cost and complexity while simplifying the protection of your entire environment. • Flexible storage options so you can backup to virtually any storage device including disk, tape, or third party cloud. VERITAS NetBackup delivers high performance data protection that scales to protect he largest UNIX, Windows, Linux, and NetWare environments. With complete protection from remote office to data center to vault, NetBackup offers a single console for all backup and recovery operations. Key Features of NetBackup 7.7 include: • Converged backup platform integrates software and hardware to create a solution that is extremely easy to deploy and maintain. • Extensive integration with virtual and physical systems, applications, and storage technologies enable almost any enterprise environment to be protected using a single solution. • Accelerator reduces backup times from hours to minutes by limiting backups to changed blocks and combining them with previous

Cobb County Requirements	Carahsoft Capabilities
	backup data to produce synthetic full backups. • Auto Image Replication automates the process of moving data to another site for disaster recovery, merging data from multiple sources and synchronizing catalog information to speed recovery. • Replication Director orchestrates hardware snapshot and replication operations from leading providers such as NetApp and EMC, ensures snapshots are application-consistent, and catalogs snapshots for easy file restore.
Energy and Water Conservation: Energy and water conservation solutions to deploy advanced metering infrastructure (AMI) systems designed to measure, collect, analyze and monitor usage real time. Examples of projects include automated meter projects, SCADA (Supervisory Control and Data Acquisition) projects, and security projects.	From smart grid analytics and meter data management to demand-side management tools, we have everything you need to become a best-run utility. With SAP solutions, utilities companies operating in regulated and unbundled markets are better able to meet challenges in supplying power while adapting to industry reorganization and coping with regulatory uncertainty. Facilitated by SAP software, they can harness emerging technologies to achieve the right balance between profitability, sustainability, and safety in supplying their customers with energy. • Energy supply chain optimization Integrate supply chain processes and information from procurement and delivery to consumption. • Operational efficiency for plants and grids: gain a single real-time view of plant and business data that enhances the entire asset lifecycle. • The intelligent grid uses state-of-the-art technologies to move smart-grid benefits on to consumers and businesses. • Customer experience: Gain a 360-degree, real-time view of customers to enhance service, marketing, and sales.
Financial Services: Financing options such as lease, lease to own, lease with option to own, and IT as a Service.	New innovative technologies and solutions from SAP deliver greater value by enabling better business insight to maintain financial excellence. Make better business decisions with SAP HANA by handling large volumes of granular data and performing in-memory analysis. In addition to on-premise implementations, deploy business processes quickly and flexibly in the cloud. • Collaborative finance operations: Improve efficiency with increased automation and global consistency while providing superb service. • Enterprise risk and compliance management: Manage enterprise risk and compliance for optimal financial performance of fraud and audit processes. • Treasury and financial risk management: Increase insight and control for managing cash, liquidity, financial investment decisions,

Cobb County Requirements	Carahsoft Capabilities
	and risk. • Financial planning and analysis: Increase organizational agility, control costs, improve margins, and align execution with strategy. • Accounting and financial close: Execute a compliant close that reduces cost and effort and provides regulatory disclosures.
Other Services and Solutions: Services and solutions not listed above that may be proposed by Offeror.	Additional Services and Solutions are detailed and provided within the Cost Proposal of this response.

5.3 COMPANY BACKGROUND/PROFILE

Provide information on company background to include the following:

a. Legal name, address, phone and fax numbers, e-mail, Federal ID#, and website address.

Carahsoft Technology Corporation
11493 Sunset Hills Road,
Reston, VA 20190
www.carahsoft.com

703-871-8500
703-871-8505 – Fax
Sales@Carahsoft.com
Federal ID# 52-2189693

b. Date business was established under current name.

Carahsoft was incorporated in 1999. We have been in business since 2004.

c. Size of company including the total number of employees.

Carahsoft is a Large S-Corporation with around 2,400 employees.

d. Type of ownership or legal structure of business

S-Corporation. We are a privately held company.

e. Has the company ever failed to complete work for which a contract was issued? If yes, explain the circumstances.

Carahsoft has not failed to complete work for which a contracts was issued.

f. Are there any civil or criminal actions pending against the firm or any key personnel related in any way to contracting? If yes, explain in detail. Are there any current unresolved disputes/allegations?

There are no civil or criminal actions pending against the firm or any key personnel related in any way to contracting.

g. Has the firm ever been disqualified from working for any public entity? If yes, explain the circumstances.

Carahsoft has not been disqualified from working for any public entity.

h. If a Supplier requires additional agreements to be signed by a Participating Public Agency, include a copy of the proposed agreement(s) as part of Supplier's proposal.

Individual SOWs and work orders may require additional terms depending on the work required. Since this is deal dependent, we are unable to provide an exact list of additional terms at this time.

5.4 EXPERIENCE

Include a list of the five (5) most relevant or comparable contracts completed by your firm during the past five (5) years with a public entity. For each contract, provide the following information.

a. Scope of services/contract description.
b. Dollar value of contract.
c. Assigned project personnel.
d. The contracting entity's contact person, current phone number, and current e-mail address as reference information.

Relevant Experience	
Scope of services/contract description.	Education Software Solutions and Services
Dollar value of contract.	Approximately $20 Million
Assigned project personnel.	contracts@Carahsoft.com
The contracting entity's contact person, current phone number, and current e-mail address as reference information.	Name: Margaret S. Bass Title: Region 4 ESC Authorized Board Member Phone Number: Carahsoft will provide upon request E-mail Address: Carahsoft will provide upon request

Relevant Experience	
Scope of services/contract description.	Google Products, Services and Solutions Contract

5.5 PRODUCT INFORMATION/SERVICE CAPABILITY

a.	*Provide detailed information on service capability and the availability of service centers for maintenance and repairs on a national level. Indicate how many authorized service centers will be available for each state. Will pick up and delivery services be available for service of large equipment items?*

Maintenance and repairs are based on the warranty terms of our individual manufacturer partners and can be provided upon review of a SOW or details provided on a specific work order.

b.	*Provide available payment terms and payment methods – purchase order, credit card (procurement card), etc. If credit cards are accepted, may credit card payment(s) be made online?*

Carahsoft supports the following communication types:

1. E-mail Attachment in the following formats: Plain text, PDF, HTML, JPEG, TIFF, Gif, Microsoft Excel, and Microsoft Word
2. Fax
3. Paper copy sent via US Mail or private courier
4. Credit Card (phone or web)

5.6 PRICING

a. *Suppliers shall provide pricing based on a discount from a manufacturer's price list or catalog. Prices listed will be used to establish the extent of a manufacturer's product lines, services, warranties, etc. that are available from Supplier and the pricing per item. Multiple percentage discounts are acceptable, if where different percentage discounts apply, different percentages are specified. Additional pricing and/or discounts may be included.*

- *Include an electronic copy of the catalog from which discount is calculated. Electronic price lists must contain the following: (if applicable)*
  - *Manufacturer part #*
  - *Supplier's Part # (if different from manufacturer part #)*
  - *Description*
  - *Manufacturer's Suggested List Price and Net Price*
  - *Net price to Cobb County, GA (net price shall include freight and any additional fees that may be charged such as credit card processing, administrative fees, etc.)*

Media submitted for pricing must include the Supplier's company name, solicitation name and bid #, and the bid opening date on a Flash Drive.

b. *Provide details of and propose additional discounts for volume orders, special manufacturer's offers, minimum order quantity, free goods programs, total annual spend, etc. (if offered).*

c. *If used, trade-ins, leasing/financing, or other offerings are available, provide applicable pricing and discounts.*

Carahsoft is proposing to extend the pricing discounts that are currently offered through our Educational Software Solutions and Services Contract (Contract Number: R191902, which managed by Region 4 Education Service Center in Texas) to Cobb County.

This pricelist can be viewed at the following link: https://www.omniapartners.com/publicsector/suppliers/carahsoft-technology-corp/contract-documentation#c35362

5.7 FINANCIAL STATEMENTS

Proposers shall submit a recent history of financial solvency and provide the following:

a. *Financial Statement: Include the most recent, independently certified financial statement. Financial statements must include a balance sheet and income statement.*

As a privately owned company, Carahsoft does not publicly release financial information. We are a stable, conservative, and profitable company which has grown, since founding in 2004, from $4M in bookings to more than $10.2 in 2021. The company has received numerous accolades for our business performance from our manufacturing partners and the industry, including annual recognition (detailed further on our website) in the CRN Solution Provider 500 (2006—Present), Washington Technology's Top 100 Government Contractors (2010—Present), and the Washington Business Journal's Largest Government Contractors (2011—Present).

We currently maintain a $25M line of credit available (currently 100% available) with Atlantic Union Bank.

Should you require our audited financial statements or have further financial inquiries, we would be happy to provide additional information under separate cover to the specific individual that would be reviewing them.

b. *Name and address of firm preparing the attached financial statement including a letter stating the independent audit or review has been performed by the firm.*

Not applicable.

c. *State whether the Proposer has ever had a bankruptcy petition filed in its name, voluntarily or involuntarily. If yes, specify all relevant details.*

Not applicable.

5.8 NATIONAL CONTRACT

Attachment A, Exhibit A

a.	*Include a detailed response to Attachment A, Exhibit A, OMNIA Partners Response for National Cooperative Contract. Responses shall highlight experience, demonstrate a strong national presence, describe how Supplier will educate its national sales force about the contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and report to OMNIA Partners.*

Supplier must supply the following information for the Principal Procurement Agency to determine Supplier's qualifications to extend the resulting Master Agreement to Participating Public Agencies through OMNIA Partners.

3.1 Company

a.	*Brief history and description of Supplier to include experience providing similar products and services.*

Carahsoft Technology Corp. is The Trusted Government IT Solutions Provider®, supporting Public Sector organizations across Federal, State and Local Government agencies and Education and Healthcare markets. As the Master Government Aggregator® for our vendor partners, we deliver solutions for Cybersecurity, MultiCloud, DevSecOps, Big Data, Artificial Intelligence, Open Source, Customer Experience and more. Working with resellers, systems integrators and consultants, our sales and marketing teams provide industry leading IT products, services, and training through hundreds of contracts. Founded in 2004, Carahsoft is headquartered in Reston, Virginia.

b.	*Total number and location of salespersons employed by Supplier.*

Carahsoft employees about 2,400 persons.

c.	*Number and location of support centers (if applicable) and location of corporate office.*

Carahsoft's main office is located at 11493 Sunset Hills Road, Reston, VA 20190.

d.	*Annual sales for the three previous fiscal years.*

2019 – $6.9B
2020 – $9.0B
2021 – $10.6B

a. Submit FEIN and Dunn & Bradstreet report.

FEIN#: 52-2189693
DUNS: 088365767

e.	*Describe any green or environmental initiatives or policies.*

Reducing our carbon footprint is extremely important to Carahsoft. As a result, we strive to ensure that our recycling program is comprehensive and robust. Carahsoft uses single-stream recycling to make it as easy

as possible for our employees to recycle as much as they can. Carahsoft uses recycled materials whenever possible. For example, hard copy bid submissions are printed on recycled paper and shipped using recycled packing materials.

Carahsoft uses only Energy Star compliant hardware, which uses substantially less electricity when items are not in use. Additionally, thelights in our office are on a timer to ensure that lights are turned off when the employees are not working. Likewise, motion detectors ensure that lights are not left on when rooms are empty.

Carahsoft has implemented VMware internally, which moves our servers to a virtualized cloud environment, eliminating the need for physical servers in our office. This has drastically reduced our server footprint, allowing us to save thousands of dollars each year on heating and cooling our data center.

Carahsoft also seeks to reduce our carbon footprint by providing transit benefits for employees who use public transportation to commute to and from work. In fact, we recently relocated our offices to within less than half of a mile of the Washington Metrorail System, making it easy for employees to take advantage of sustainable public transportation.

Carahsoft is always open to suggestions on how we can encourage more sustainable practices and how we can implement further policies to reduce our company's footprint.

f. Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.

Carahsoft maintains a vast ecosystem of partners of various socioeconomic classifications, including resellers, systems integrators, and service providers. The Carahsoft partner network includes a very diverse group with varying specializations, credentials, product lines, and business types, including over 700 Small Businesses. If awarded, Carahsoft will leverage our experience managing this vast partner ecosystem to support the participation of MWBEor SDVOB certified businesses.

g. Indicate if supplier holds any of the below certifications in any classified areas and include proof of such certification in the response:

a. Minority Women Business Enterprise

☐Yes ☒ No

If yes, list certifying agency: _____

b. *Small Business Enterprise (SBE) or Disadvantaged Business Enterprise*

☐Yes ☒ No

If yes, list certifying agency: _____

c. Historically Underutilized Business (HUB)

☐Yes ☒ No

If yes, list certifying agency: _____

d. Historically Underutilized Business Zone Enterprise (HUBZone)

☐Yes ☒ No

If yes, list certifying agency: _____

e. Other recognized diversity certificate holder

☐Yes ☒ No

If yes, list certifying agency: _____

h. List any relationships with subcontractors or affiliates intended to be used when providing services and identify if subcontractors meet minority-owned standards. If any, list which certifications subcontractors hold and certifying agency.

As described above, Carahsoft has a robust partner network, many of which do meet minority owned standards.

i. Describe how supplier differentiates itself from its competitors.

Carahsoft's top three differentiating strengths include:

1. Sales & Marketing – Carahsoft provides innovative sales and marketing programs to each vendor we support. Carahsoft's dedicated proactive sales team focuses on lead generation, proactive inside sales, and provides responsive sales support. We work with vendors to develop a joint sales process based on the vendor go-to-market strategy and work to align the Carahsoft sales team with vendor and reseller teams.

Carahsoft's comprehensive marketing program is supported by a dedicated marketing team of 220+ reps. The marketing team plans and executes many informative events throughout the year to drive demandincluding but not limited to: webcasts, on-site events (Carahsoft hosted and third-party hosted), conferences and trade shows, email campaigns, social media campaigns, advertising and thought-leadership. Carahsoft invests in many marketing resources that we extend to our vendor teams to maximize marketing effectiveness and amplify the vendor's messaging.

2. Proven Execution – Carahsoft has leveraged its vast contracting experience and extended it to quoting and order management. In our experience managing public sector aggregation programs on behalf of other industry leading vendors, Carahsoft has the operation excellence in place to free up vendor resources previously committed these tasks. We feel our model will allow Autodesk to "offload" some of these tasks on Carahsoft, knowing that we are fully committed and capable of servicing the partner eco-system.

- Carahsoft seamlessly generates quotes within 30 minutes or less
- Carahsoft has a team dedicated to renewals sales and a leadershipgroup to ensure that each team is working at an optimal level.

3. Knowledge of Government – The government market is complex and the intricacies offer the opportunity for an innovative model driven to best serve government customers and add value to the channel. Carahsoft has extensive knowledge and decades of expertise in understanding the public sector market, including:

- Unique budget and procurement cycles

- Specific contract requirements and set-asides
- Audits, regulations and compliance
- The value of Prime Contractors and Systems Integrators and how to work with them
- Competitive marketplace
- Security Clearances
- Collection of A/R requires expertise and focus

Carahsoft stays current with government requirements, trends and initiatives by attending and participating in many industry events. We also rely on the expertise of our industry consultants who are former government executives.

j. Describe any present or past litigation, bankruptcy or reorganization involving supplier.

Not applicable.

k. Felony Conviction Notice: Indicate if the supplier

a. is a publicly held corporation and this reporting requirement is not applicable;

Not applicable.

b. is not owned or operated by anyone who has been convicted of a felony; or

Carahsoft is not owned or operated by anyone who has been convicted of a felony.

c. is owned or operated by and individual(s) who has been convicted of a felony and provide the names and convictions.

Not applicable.

l. Describe any debarment or suspension actions taken against supplier

Not applicable.

3.2 Distribution, Logistics

a. Each offeror awarded an item under this solicitation may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by supplier.

Carahsoft is leveraging our vast ecosystem of manufacturer, reseller, and services partners. Please see our attached corporate line card for an idea of the large partner network we can provide for this initiative.

b. Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the Master Agreement, including U.S. Territories and Outlying Areas.

Carahsoft holds many other contract vehicles with State and Local agencies. We are happy to offer these to any states where products and services will not be offered under the Master Agreement. Please see a full list of our contracts here: https://www.carahsoft.com/buy#state-local

c. Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors,

etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.

Carahsoft has a representative that manages our current Omnia contract. This same representative will help manage this contract, and will help ensure that all Participating Agencies will receive the Master Agreement pricing through any distributors or reseller partners. In addition, the contract pricing will be listed for all our in-house sales representatives to chose in our internal, custom built Customer Relationship Management Platform to ensure direct deals are properly priced according to the Master Agreement.

d. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.

Carahsoft would like to leverage our entire partner network, to ensure that all OMNIA Partners have the best coverage and options available on the market, no matter their need or location. Considering the constantly expanding nature of our current partner network of over 4,000 partners, Carahsoft is unable to list all potential partners at this time. Carahsoft will act as the main point of contact for any processing, handling or shipping of any products or services to the end user and can even provide direct contact information for our manufacturer or reseller partners to facilitate communication if needed.

e. Provide the number, size and location of Supplier's distribution facilities, warehouses and retail network as applicable.

Carahsoft is capable of shipping to any customer worldwide from our main headquarters in Reston, VA. As a North American distributor, 99% of hardware deliveries are made within the continent and mostly within continental US or US address abroad.

3.3 Marketing and Sales

a. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as supplier's primary go to market strategy for Public Agencies to supplier's teams nationwide, to include, but not limited to:

- *Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days*

Carahsoft can confirm we will have dedicated contract management and marketing personnel involved to determine strategies to advertise the new contract and determine the best ways to ensure our in house personnel, manufacturer partners and reseller partners can leverage the contract.

- *Training and education of Supplier's national sales force with participation from the Supplier's executive leadership, along with the OMNIA Partners team within first 90 days*

Carahsoft can confirm we will create trainings alongside the OMNIA Partners team to educate all necessary parties of the details of the new contract, and how to get involved.

b. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:

- *Creation and distribution of a co-branded press release to trade publications*

Carahsoft will post a co-branded press release on our website, as well as a trade publication such as GlobeNewswire. Here is an example from a previous contract: https://www.globenewswire.com/news-release/2020/05/21/2037187/0/en/Carahsoft-Awarded-Educational-Software-Solutions-and-Services-Contract-through-OMNIA-Partners-Public-Sector.html

- *Announcement, Master Agreement details and contact information published on the Supplier's website within first 90 days*

Carahsoft posts all contracts and agreement details on our website at the following link: https://www.carahsoft.com/buy#omnia-partners-public-sector

Upon award, Carahsoft will add the relevant contract details to the website above.

- *Design, publication and distribution of co-branded marketing materials within first 90 days*

Carahsoft's dedicated marketing team will edit current materials to add co-branded marketing on this contract to our proven end-user / customer initiatives such as the following:

- On-Site Events
- Webcasts
- Tradeshows
- Industry conferences
- Email Campaigns
- Digital and Print ads

- *Commitment to attendance and participation with OMNIA Partners at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, Regional Cooperative Summits, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement*

Carahsoft offers deep experience in public sector marketing. Our dedicated team plans, promotes and executes more than 2,000 public-sector marketing campaigns and events each year, including contract specific promotional activities such as national, state and local government and education shows. We would be more than happy to participate with OMNIA Partners at these trade shows, or additional trade shows that may be beneficial to promoting the Master Agreement.

- *Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner suppliers. Booth space will be purchased and staffed by Supplier. In addition, Supplier commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.*

Carahsoft can commit to attend the NIGP Annual Forum.

- *Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement*

As a prime government aggregator, Carahsoft is constantly utilizing marketing efforts to drive and identify new and upcoming business. We confirm that we will include this contract in our marketing efforts throughout the term of the Master Agreement through national and regional trade publications.

- *Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.)*

Carahsoft relishes the opportunity to promote our success stories to our current and future customers. We confirm that we will continue to make updated publications and materials throughout the contract term to promote the Master Agreement.

- *Dedicated OMNIA Partners internet web-based homepage on Supplier's website with:*
  - *OMNIA Partners standard logo;*
  - *Copy of original Request for Proposal;*
  - *Copy of Master Agreement and amendments between Principal Procurement Agency and Supplier;*
  - *Summary of Products and pricing;*
  - *Marketing Materials*
  - *Electronic link to OMNIA Partners' website including the online registration page;*
  - *A dedicated toll-free number and email address for OMNIA Partners*

Carahsoft has a dedicated OMNIA contract page for our current contract here: https://www.carahsoft.com/buy/slg-contracts/all-states/omnia-partners-edu#resources

Upon award, we will add the details provided above for this current contract to our page. We are also more than happy to edit the information provided for our current contracts if necessary to meet the OMNIA partner's goals.

c. *Describe how Supplier will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Supplier holds and describe how the Master Agreement will be positioned among the other cooperative agreements.*

Carahsoft holds a mulititude of contracts for the convenience of our Government customers. Each agency often requires different terms and conditions or contract vehicles and we work diligently to discuss the right option for each customer. Carahsoft has a database of information to determine the best contract to use for each agency, and vendor. Carahsoft will utilize this database when discussing options with our government customers, and recommend this contract for our SLED customers whenever possible.

d. *Acknowledge Supplier agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.*

Carahsoft agrees to provide its logo to OMNIA partners for reproduction in marketing communications and promotions. We will be sure to request permission when reproducing the OMNIA Partners logo in our own marketing communications and promotions.

e. *Confirm Supplier will be proactive in direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Supplier's sales initiatives should communicate:*

- *Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency*

- *Best government pricing*
- *No cost to participate*
- *Non-exclusive*

As discussed above, Carahsoft will actively direct sales to Public agencies nationwide through this contract. We will be sure to include the above bullets in our initiatives.

f. Confirm Supplier will train its national sales force on the Master Agreement. At a minimum, sales training should include:

- *Key features of Master Agreement*
- *Working knowledge of the solicitation process*
- *Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners*
- *Knowledge of benefits of the use of cooperative contracts*

Carahsoft will appoint a contract manager upon award who will instruct any sales personnel on the details listed above.

g. Provide the name, title, email and phone number for the person(s), who will be responsible for:

- *Executive Support*
- *Marketing*
- *Sales*
- *Sales Support*
- *Financial Reporting*
- *Accounts Payable*
- *Contracts*

The security and privacy of each of Carahsoft's employees are of the upmost importance to the company. Due to the sensitive nature of this information, Carahsoft respectfully declines to share names and contact information for specific employees at this stage. We would be more than happy to provide this information upon award or sample resumes upon down selection directly to the evaluation team where it will not be part of the public record.

h. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

Please see the attachment labelled "Carahsoft's Organization Chart". Due to our employee confidentiality and the public nature of procurement documents, Carahsoft respectfully declines to provide the contact information for our employees at this time.

i. Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

Our sales teams will be educated on the availability of this contract, and the relevant contract details so they can offer this contract as an option for our government customers to utilize when purchasing IT Solutions and Services.

j. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new

Participating Public Agency account set-up, timely contract administration, etc.

Carahsoft will appoint a dedicated Contract Manager who will help manage communications received from Participating Public Agency's requesting to account set up, and who will manage any contract administration requirements.

k. State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

Due to customer confidentiality, Carahsoft is unable to provide total purchase numbers and contact information on documents subject to the public record. However, Carahsoft completed $10.64B in sales in 2021 with help from over 4,000 marketing activities, generating over 64,000 leads.

l. Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

The Carahsoft Team is fully able to send and receive Delivery Orders, Order Status Reports, Post Order Reports, Administrative Handling Fees, and the like in any format that is most comfortable to our Government Customers. Carahsoft accepts orders via purchase order, credit card (phone or web), direct invoices, customer contracts and similar.

m. Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

Carahsoft cannot guarantee a specific number of Contract Sales at this time.

n. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

- *Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).*
- *If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.*
- *Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).*
- *If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.*

Detail Supplier's strategies under these options when responding to a solicitation.

Carahsoft will work with our Government customers to ensure we provide the best possible pricing for each individual deal and contract to ensure we are meeting and exceeding their needs.

Contractor Affidavit and Agreement (Exhibit A)

Please find our completed Contractor Affidavit and Agreement beginning on the following page.

CONTRACTOR AFFIDAVIT & AGREEMENT
(EXHIBIT A)

This affidavit must be signed, notarized and submitted with any bid requiring the performance of physical services. If the affidavit is not submitted at the time of the bid, the bid will be determined non-responsive and will be disqualified.

By executing this affidavit, the undersigned contractor verifies compliance with O.C.G.A. §13-10-91, stating affirmatively that the individual, firm or corporation which is contracting with Cobb County, Georgia, has registered with, is authorized to use, and is participating in a federal work authorization program (an electronic verification of work authorization program operated by the U.S. Department of Homeland Security or any equivalent federal work authorization program operated by the U.S. Department of Homeland Security to verify information of newly hired employees, pursuant to the Immigration Reform and Control Act of 1986 (IRCA)). The undersigned contractor further attests that it will continue to use the federal Employment Eligibility Verification (EEV) work authorization program throughout the contract period.

The undersigned further agrees that should it employ or contract with any subcontractor(s) or should its subcontractor(s) employ other subcontractor(s) for the physical performance of services pursuant to the contract with Cobb County, Georgia, the contractor or subcontractor will:

(1) Notify the County within five business days of entering into a contract or agreement for hire with any subcontractor(s);

(2) Secure from any subcontractor(s) and/or their subcontractor(s) verification of compliance with O.C.G.A. § 13-10-91 on the attached Subcontractor Affidavit (EXHIBIT A-1) prior to the commencement of any work under the contract/agreement;

(3) Secure from any subcontractor(s) and/or their subcontractor(s) a completed Immigration Compliance Certification (EXHIBIT A-2) prior to the commencement of any work under the contract/agreement;

(4) Provide the subcontractor(s) with legal notice that Cobb County, Georgia, reserves the right to dismiss, or require the dismissal of, any contractor or subcontractor for failing to provide the affidavit and/or for failure to comply with the requirements referenced in the affidavit;

(5) Maintain records of such compliance and provide a copy of each such verification to Cobb County, Georgia, at the time the subcontractor(s) is retained to perform such services or upon any request from Cobb County, Georgia; and

(6) Maintain such records for a period of five (5) years.

Statement of Ownership Disclosure

Please find our completed Statement of Ownership Disclosure beginning on the following page.

STATEMENT OF OWNERSHIP DISCLOSURE

N.J.S.A. 52:25-24.2 (P.L. 1977, c.33, as amended by P.L. 2016, c.43)

This statement shall be completed, certified to, and included with all bid and proposal submissions. Failure to submit the required information is cause for automatic rejection of the bid or proposal.

Name of Organization: Carahsoft Technology Corporation

Organization Address: 11493 Sunset Hills Road

Part I Check the box that represents the type of business organization:

☐ Sole Proprietorship (skip Parts II and III, execute certification in Part IV)

☐ Non-Profit Corporation (skip Parts II and III, execute certification in Part IV)

☒ For-Profit Corporation (any type) ☐ Limited Liability Company (LLC)

☐ Partnership ☐ Limited Partnership ☐ Limited Liability Partnership (LLP)

☐ Other (be specific): _____

Part II

☐ The list below contains the names and addresses of all stockholders in the corporation who own 10 percent or more of its stock, of any class, or of all individual partners in the partnership who own a 10 percent or greater interest therein, or of all members in the limited liability company who own a 10 percent or greater interest therein, as the case may be. (**COMPLETE THE LIST BELOW IN THIS SECTION**)

OR

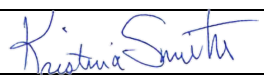
☐ No one stockholder in the corporation owns 10 percent or more of its stock, of any class, or no individual partner in the partnership owns a 10 percent or greater interest therein, or no member in the limited liability company owns a 10 percent or greater interest therein, as the case may be. (**SKIP TO PART IV**)

(Please attach additional sheets if more space is needed):

Name of Individual or Business Entity	Home Address (for Individuals) or Business Address
Craig P. Abod	Carahsoft is a privately owned company and is not publicly traded on the stock market

Part III DISCLOSURE OF 10% OR GREATER OWNERSHIP IN THE STOCKHOLDERS, PARTNERS OR LLC MEMBERS LISTED IN PART II

If a bidder has a direct or indirect parent entity which is publicly traded, and any person holds a 10 percent or greater beneficial interest in the publicly traded parent entity as of the last annual federal Security and Exchange Commission (SEC) or foreign equivalent filing, ownership disclosure can be met by providing links to the website(s) containing the last annual filing(s) with the federal Securities and Exchange Commission (or foreign equivalent) that contain the name and address of each person holding a 10% or greater beneficial interest in the publicly traded parent entity, along with the relevant page numbers of the filing(s) that contain the information on each such person. **Attach additional sheets if more space is needed**.



Website (URL) containing the last annual SEC (or foreign equivalent) filing	Page #'s

Please list the names and addresses of each stockholder, partner or member owning a 10 percent or greater interest in any corresponding corporation, partnership and/or limited liability company (LLC) listed in Part II **other than for any publicly traded parent entities referenced above**. The disclosure shall be continued until names and addresses of every noncorporate stockholder, and individual partner, and member exceeding the 10 percent ownership criteria established pursuant to N.J.S.A. 52:25-24.2 has been listed. **Attach additional sheets if more space is needed.**

Stockholder/Partner/Member and Corresponding Entity Listed in Part II	Home Address (for Individuals) or Business Address

Part IV Certification

I, being duly sworn upon my oath, hereby represent that the foregoing information and any attachments thereto to the best of my knowledge are true and complete. I acknowledge: that I am authorized to execute this certification on behalf of the bidder/proposer; that the ***<name of contracting unit>*** is relying on the information contained herein and that I am under a continuing obligation from the date of this certification through the completion of any contracts with ***<type of contracting unit>*** to notify the ***<type of contracting unit>*** in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification, and if I do so, I am subject to criminal prosecution under the law and that it will constitute a material breach of my agreement(s) with the, permitting the ***<type of contracting unit>*** to declare any contract(s) resulting from this certification void and unenforceable.

Certification of Non-Involvement in Prohibited Activities in Iran

Please find our completed Certification of Non-Involvement in Prohibited Activities in Iran beginning on the following page.

DISCLOSURE OF INVESTMENT ACTIVITIES IN IRAN FORM

STATE OF NEW JERSEY
DEPARTMENT OF THE TREASURY - DIVISION OF PURCHASE AND PROPERTY
33 WEST STATE STREET, P.O. BOX 230 TRENTON, NEW JERSEY 08625-0230

BID SOLICITATION # AND TITLE: **# 23-6692 Technology Product Solutions and Related Services**

VENDOR NAME: **Carahsoft Technology**

Pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4) any person or entity that submits a bid or proposal or otherwise proposes to enter into or renew a contract must certify that neither the person nor entity, nor any of its parents, subsidiaries, or affiliates, is identified on the New Jersey Department of the Treasury's Chapter 25 List as a person or entity engaged in investment activities in Iran. The Chapter 25 list is found on the Division's website at https://www.state.nj.us/treasury/purchase/pdf/Chapter25List.pdf. Vendors/Bidders must review this list prior to completing the below certification. If the Director of the Division of Purchase and Property finds a person or entity to be in violation of the law, s/he shall take action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

CHECK THE APPROPRIATE BOX

☑ I certify, pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4), that neither the Vendor/Bidder listed above nor any of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List of entities determined to be engaged in prohibited activities in Iran.

OR

☐ I am unable to certify as above because the Vendor/Bidder and/or one or more of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List. I will provide a detailed, accurate and precise description of the activities of the Vendor/Bidder, or one of its parents, subsidiaries or affiliates, has engaged in regarding investment activities in Iran by completing the information requested below.

Entity Engaged in Investment Activities _____
Relationship to Vendor/ Bidder _____
Description of Activities _____

Duration of Engagement _____
Anticipated Cessation Date _____

**Attach Additional Sheets If Necessary.*

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I may be subject to criminal prosecution under the law, and it will constitute a material breach of my contract(s) with the State, permitting the State to declare any contract(s) resulting from this certification void and unenforceable.

MACBRIDE-PRINCIPLES

STATE OF NEW JERSEY DEPARTMENT OF THE TREASURY
DIVISION OF PURCHASE AND PROPERTY

33 WEST STATE STREET, P.O. BOX 230
TRENTON, NEW JERSEY 08625-0230

MACBRIDE PRINCIPALS FORM

BID SOLICITATION #: 23-6692 **VENDOR/BIDDER:** Carahsoft Technology Corporation

VENDOR'S/BIDDER'S REQUIREMENT
TO PROVIDE A CERTIFICATION IN COMPLIANCE WITH THE MACBRIDE PRINCIPALS AND NORTHERN IRELAND ACT OF 1989

Pursuant to Public Law 1995, c. 134, a responsible Vendor/Bidder selected, after public bidding, by the Director of the Division of Purchase and Property, pursuant to N.J.S.A. 52:34-12, must complete the certification below by checking one of the two options listed below and signing where indicated. If a Vendor/Bidder that would otherwise be awarded a purchase, contract or agreement does not complete the certification, then the Director may determine, in accordance with applicable law and rules, that it is in the best interest of the State to award the purchase, contract or agreement to another Vendor/Bidder that has completed the certification and has submitted a bid within five (5) percent of the most advantageous bid. If the Director finds contractors to be in violation of the principals that are the subject of this law, he/she shall take such action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, on behalf the Vendor/Bidder, certify pursuant to N.J.S.A. 52:34-12.2 that:

CHECK THE APPROPRIATE BOX

[x] The Vendor/Bidder has no business operations in Northern Ireland; or

OR

[ ] The Vendor/Bidder will take lawful steps in good faith to conduct any business operations it has in Northern Ireland in accordance with the MacBride principals of nondiscrimination in employment as set forth in section 2 of P.L. 1987, c. 177 (N.J.S.A. 52:18A-89.5) and in conformance with the United Kingdom's Fair Employment (Northern Ireland) Act of 1989, and permit independent monitoring of its compliance with those principals.

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor/Bidder, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor/Bidder is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I will be subject to criminal prosecution under the law, and it will constitute a material breach of **my** agreement(s) with the State, permitting the State to declare any contract(s) resulting from this certification to be void and unenforceable.

I. Vendor Contract and Signature Form

II. Supplier’s Response to the RFP

III. [FILLER TEXT]

IV. [FILLER TEXT]

V. [FILLER TEXT]

APPENDIX A

Contract

*This Contract ("**Contract**") is made as of December 17, 2024 by and between Carahsoft Technology Corporation **Contractor**") and Region 4 Education Service Center ("**Region 4 ESC**") for the purchase of Software Solutions and Services ("the products and services").*

RECITALS

WHEREAS, Region 4 ESC issued Request for Proposal Number 24-03 for ("RFP"), to which Contractor provided a response ("**Proposal**"); and

WHEREAS, Region 4 ESC selected Contractor's Proposal and wishes to engage Contractor in providing the services/materials described in the RFP and Proposal;

WHEREAS, both parties agree and understand the following pages will constitute the Contract between the Contractor and Region 4 ESC, having its principal place of business at 7145 West Tidwell Road, Houston, TX 77092.

WHEREAS, Contractor included, in writing, any required exceptions or deviations from these terms, conditions, and specifications; and it is further understood that, if agreed to by Region 4 ESC, said exceptions or deviations are incorporated into the Contract.

WHEREAS, this Contract consists of the provisions set forth below, including provisions of all attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any attachment, the provisions set forth below shall control.

WHEREAS, the Contract will provide that any state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("**Public Agencies**") may purchase products and services at prices indicated in the Contract upon the Public Agency's registration with OMNIA Partners.

1) Term of agreement. Term of agreement. The initial term of the Contract is for a period of three (3) years unless terminated, canceled or extended as otherwise provided herein. Region 4 ESC shall have the right in its sole discretion to renew the Contract for an additional term of up to two (2) years or for a lesser period of time as determined by Region 4 ESC by providing written notice to the Contractor of Region 4 ESC's intent to renew thirty (30) days prior to the expiration of the original term. Contractor acknowledges and understands Region 4 ESC is under no obligation whatsoever to extend the term of this Contract. Notwithstanding the forgoing paragraph, the term of the Contract, including any extension of the original term, shall be further extended until the expiration of any Purchase Order issued under the Contract for a period of up to one year beyond the Contract term.

2) Scope: Contractor shall perform all duties, responsibilities and obligations, set forth in this agreement, and described in the RFP, incorporated herein by reference as though fully set forth herein.

3) Form of Contract. The form of Contract shall be the RFP, the Offeror's proposal and Best and Final Offer(s).

4) Order of Precedence. In the event of a conflict in the provisions of the Contract as accepted by Region 4 ESC, the following order of precedence shall prevail:

   i. This Contract
   ii. Offeror's Best and Final Offer
   iii. Offeror's proposal
   iv. RFP and any addenda

5) Commencement of Work. The Contractor is cautioned not to commence any billable work or provide any material or service under this Contract until Contractor receives a purchase order for such work or is otherwise directed to do so in writing by Region 4 ESC.

6) Entire Agreement (Parol evidence). The Contract, as specified above, represents the final written expression of agreement. All agreements are contained herein and no other agreements or representations that materially alter it are acceptable.

7) Assignment of Contract. No assignment of Contract may be made without the prior written approval of Region 4 ESC. Contractor is required to notify Region 4 ESC when any material change in operations is made (i.e., bankruptcy, change of ownership, merger, etc.).

8) Novation. If Contractor sells or transfers all assets or the entire portion of the assets used to perform this Contract, a successor in interest must guarantee to perform all obligations under this Contract. Region 4 ESC reserves the right to accept or reject any new party. A change of name agreement will not change the contractual obligations of Contractor.

9) Contract Alterations. No alterations to the terms of this Contract shall be valid or binding unless authorized and signed by Region 4 ESC.

10) Adding Authorized Distributors/Dealers. Contractor is prohibited from authorizing additional distributors or dealers, other than those identified at the time of submitting their proposal, to sell under the Contract without notification and prior written approval from Region 4 ESC. Contractor must notify Region 4 ESC each time it wishes to add an authorized distributor or dealer. Purchase orders and payment can only be made to the Contractor unless otherwise approved by Region 4 ESC. Pricing provided to members by added distributors or dealers must also be less than or equal to the Contractor's pricing.

11) TERMINATION OF CONTRACT

   a) Cancellation for Non-Performance or Contractor Deficiency. Region 4 ESC may terminate the Contract if purchase volume is determined to be low volume in any 12-month period. Region 4 ESC reserves the right to cancel the whole or any part of this Contract due to failure by Contractor to carry out any obligation, term or condition of the contract. Region 4 ESC may issue a written deficiency notice to Contractor for acting or failing to act in any of the following:

      i. Providing material that does not meet the specifications of the Contract;
      ii. Providing work or material was not awarded under the Contract;
      iii. Failing to adequately perform the services set forth in the scope of work and specifications;

iv. Failing to complete required work or furnish required materials within a reasonable amount of time;
v. Failing to make progress in performance of the Contract or giving Region 4 ESC reason to believe Contractor will not or cannot perform the requirements of the Contract; or
vi. Performing work or providing services under the Contract prior to receiving an authorized purchase order.

Upon receipt of a written deficiency notice, Contractor shall have ten (10) days to provide a satisfactory response to Region 4 ESC. Failure to adequately address all issues of concern may result in Contract cancellation. Upon cancellation under this paragraph, all goods, materials, work, documents, data and reports prepared by Contractor under the Contract shall immediately become the property of Region 4 ESC.

b) Termination for Cause. If, for any reason, Contractor fails to fulfill its obligation in a timely manner, or Contractor violates any of the covenants, agreements, or stipulations of this Contract Region 4 ESC reserves the right to terminate the Contract immediately and pursue all other applicable remedies afforded by law. Such termination shall be effective by delivery of notice, to the Contractor, specifying the effective date of termination. In such event, all documents, data, studies, surveys, drawings, maps, models and reports prepared by Contractor will become the property of the Region 4 ESC. If such event does occur, Contractor will be entitled to receive just and equitable compensation for the satisfactory work completed on such documents.

c) Delivery/Service Failures. Failure to deliver goods or services within the time specified, or within a reasonable time period as interpreted by the purchasing agent or failure to make replacements or corrections of rejected articles/services when so requested shall constitute grounds for the Contract to be terminated. In the event Region 4 ESC must purchase in an open market, Contractor agrees to reimburse Region 4 ESC, within a reasonable time period, for all expenses incurred.

d) Force Majeure. If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and full particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.

The term Force Majeure as employed herein, shall mean acts of God, strikes, lockouts, or other industrial disturbances, act of public enemy, orders of any kind of government of the United States or the State of Texas or any civil or military authority; insurrections; riots; epidemics; landslides; lighting; earthquake; fires; hurricanes; storms; floods; washouts; droughts; arrests; restraint of government and people; civil disturbances; explosions, breakage or accidents to machinery, pipelines or canals, or other causes not reasonably within the control of the party claiming such inability. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty, and that the above requirement that any Force Majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party or parties when such settlement is unfavorable in the judgment of the party having the difficulty.

e) Standard Cancellation. Region 4 ESC may cancel this Contract in whole or in part by providing written notice. The cancellation will take effect 30 business days after the other party receives the notice of cancellation. After the 30th business day all work will cease following completion of final purchase order.

12) Licenses. Contractor shall maintain in current status all federal, state and local licenses, bonds and permits required for the operation of the business conducted by Contractor. Contractor shall remain fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of services under the Contract. Region 4 ESC reserves the right to stop work and/or cancel the Contract if Contractor's license(s) expire, lapse, are suspended or terminated.

13) Survival Clause. All applicable software license agreements, warranties or service agreements that are entered into between Contractor and Region 4 ESC under the terms and conditions of the Contract shall survive the expiration or termination of the Contract. All Purchase Orders issued and accepted by Contractor shall survive expiration or termination of the Contract for a period of up to one year beyond the term of the Contract.

14) Delivery. Conforming product shall be shipped within 7 days of receipt of Purchase Order. If delivery is not or cannot be made within this time period, the Contractor must receive authorization for the delayed delivery. The order may be canceled if the estimated shipping time is not acceptable. All deliveries shall be freight prepaid, F.O.B. Destination and shall be included in all pricing offered unless otherwise clearly stated in writing.

15) Inspection & Acceptance. If defective or incorrect material is delivered, Region 4 ESC may make the determination to return the material to the Contractor at no cost to Region 4 ESC. The Contractor agrees to pay all shipping costs for the return shipment. Contractor shall be responsible for arranging the return of the defective or incorrect material.

16) Payments. Payment shall be made after satisfactory performance, in accordance with all provisions thereof, and upon receipt of a properly completed invoice.

17) Price Adjustments. Should it become necessary or proper during the term of this Contract to make any change in design or any alterations that will increase price, Region 4 ESC must be notified immediately. Price increases must be approved by Region 4 ESC and no payment for additional materials or services, beyond the amount stipulated in the Contract shall be paid without prior approval. All price increases must be supported by manufacturer documentation, or a formal cost justification letter. Contractor must honor previous prices for thirty (30) days after approval and written notification from Region 4 ESC. It is the Contractor's responsibility to keep all pricing up to date and on file with Region 4 ESC. All price changes must be provided to Region 4 ESC, using the same format as was provided and accepted in the Contractor's proposal.

    Price reductions may be offered at any time during Contract. Special, time-limited reductions are permissible under the following conditions: 1) reduction is available to all users equally; 2) reduction is for a specific period, normally not less than thirty (30) days; and 3) original price is not exceeded after the time-limit. Contractor shall offer Region 4 ESC any published price reduction during the Contract term.

18) Audit Rights. Contractor shall, at its sole expense, maintain appropriate due diligence of all purchases made by Region 4 ESC and any entity that utilizes this Contract. Region 4 ESC reserves the right to audit the accounting for a period of three (3) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. Region 4 ESC shall have the authority to conduct random audits of Contractor's pricing at Region 4 ESC's sole cost and expense. Notwithstanding the foregoing, in the event that Region 4 ESC is made aware of any pricing being offered that is materially inconsistent with the pricing under this agreement, Region 4

ESC shall have the ability to conduct an extensive audit of Contractor's pricing at Contractor's sole cost and expense. Region 4 ESC may conduct the audit internally or may engage a third-party auditing firm. In the event of an audit, the requested materials shall be provided in the format and at the location designated by Region 4 ESC.

19) Discontinued Products. If a product or model is discontinued by the manufacturer, Contractor may substitute a new product or model if the replacement product meets or exceeds the specifications and performance of the discontinued model and if the discount is the same or greater than the discontinued model.

20) New Products/Services. New products and/or services that meet the scope of work may be added to the Contract. Pricing shall be equivalent to the percentage discount for other products. Contractor may replace or add product lines if the line is replacing or supplementing products, is equal or superior to the original products, is discounted similarly or greater than the original discount, and if the products meet the requirements of the Contract. No products and/or services may be added to avoid competitive procurement requirements. Region 4 ESC may require additions to be submitted with documentation from Members demonstrating an interest in, or a potential requirement for, the new product or service. Region 4 ESC may reject any additions without cause.

21) Options. Optional equipment for products under Contract may be added to the Contract at the time they become available under the following conditions: 1) the option is priced at a discount similar to other options; 2) the option is an enhancement to the unit that improves performance or reliability.

22) Warranty Conditions. All supplies, equipment and services shall include manufacturer's minimum standard warranty and one (1) year labor warranty unless otherwise agreed to in writing.

23) Site Cleanup. Contractor shall clean up and remove all debris and rubbish resulting from their work as required or directed. Upon completion of the work, the premises shall be left in good repair and an orderly, neat, clean, safe and unobstructed condition.

24) Site Preparation. Contractor shall not begin a project for which the site has not been prepared, unless Contractor does the preparation work at no cost, or until Region 4 ESC includes the cost of site preparation in a purchase order. Site preparation includes, but is not limited to moving furniture, installing wiring for networks or power, and similar pre-installation requirements.

25) Registered Sex Offender Restrictions. For work to be performed at schools, Contractor agrees no employee or employee of a subcontractor who has been adjudicated to be a registered sex offender will perform work at any time when students are or are reasonably expected to be present. Contractor agrees a violation of this condition shall be considered a material breach and may result in the cancellation of the purchase order at Region 4 ESC's discretion. Contractor must identify any additional costs associated with compliance of this term. If no costs are specified, compliance with this term will be provided at no additional charge.

26) Safety measures. Contractor shall take all reasonable precautions for the safety of employees on the worksite and shall erect and properly maintain all necessary safeguards for protection of workers and the public. Contractor shall post warning signs against all hazards created by its operation and work in progress. Proper precautions shall be taken pursuant to state law

and standard practices to protect workers, general public and existing structures from injury or damage.

27) Smoking. Persons working under the Contract shall adhere to local smoking policies. Smoking will only be permitted in posted areas or off premises.

28) Stored materials. Upon prior written agreement between the Contractor and Region 4 ESC, payment may be made for materials not incorporated in the work but delivered and suitably stored at the site or some other location, for installation at a later date. An inventory of the stored materials must be provided to Region 4 ESC prior to payment. Such materials must be stored and protected in a secure location and be insured for their full value by the Contractor against loss and damage. Contractor agrees to provide proof of coverage and additionally insured upon request. Additionally, if stored offsite, the materials must also be clearly identified as property of Region 4 ESC and be separated from other materials. Region 4 ESC must be allowed reasonable opportunity to inspect and take inventory of stored materials, on or offsite, as necessary. Until final acceptance by Region 4 ESC, it shall be the Contractor's responsibility to protect all materials and equipment. Contractor warrants and guarantees that title for all work, materials and equipment shall pass to Region 4 ESC upon final acceptance.

29) Funding Out Clause. A Contract for the acquisition, including lease, of real or personal property is a commitment of Region 4 ESC's current revenue only. Region 4 ESC retains the right to terminate the Contract at the expiration of each budget period during the term of the Contract and is conditioned on a best effort attempt by Region 4 ESC to obtain appropriate funds for payment of the contract.

30) Indemnity. Contractor shall protect, indemnify, and hold harmless both Region 4 ESC and its administrators, employees and agents against all claims, damages, losses and expenses arising out of or resulting from the actions of the Contractor, Contractor employees or subcontractors in the preparation of the solicitation and the later execution of the Contract. Any litigation involving either Region 4 ESC, its administrators and employees and agents will be in Harris County, Texas.

31) Marketing. Contractor agrees to allow Region 4 ESC to use their name and logo within website, marketing materials and advertisement. Any use of Region 4 ESC name and logo or any form of publicity, inclusive of press releases, regarding this Contract by Contractor must have prior approval from Region 4 ESC.

32) Certificates of Insurance. Certificates of insurance shall be delivered to the Region 4 ESC prior to commencement of work. The Contractor shall give Region 4 ESC a minimum of ten (10) days' notice prior to any modifications or cancellation of policies. The Contractor shall require all subcontractors performing any work to maintain coverage as specified.

33) Legal Obligations. It is Contractor's responsibility to be aware of and comply with all local, state, and federal laws governing the sale of products/services and shall comply with all laws while fulfilling the Contract. Applicable laws and regulation must be followed even if not specifically identified herein.

Bid Attributes

1	**Oral Communication** Oral communications concerning this RFP shall not be binding and shall in no way excuse an Offeror of the obligations set forth in this proposal. ☑ I have read and agree.
2	**Scope of Work** Please download and thoroughly review the Scope of Work, located on the Attachments Tab. Indicate your review and acceptance below. ☑ I have read and agree.
3	**Terms and Conditions** Please download and thoroughly review the Terms and Conditions, located on the Attachments Tab. Indicate your review and acceptance below. ☑ I have read and agree.

4 **Products/Pricing - Upload on Response Attachments Tab**

Offerors shall provide pricing based on a discount from a manufacturer's price list, or fixed price, or a combination of both with indefinite quantities. Offeror may offer their complete product, and service offering as a balance of line. Prices listed will be used to establish the extent of a manufacturer's product lines, services, warranties, etc. that are available from Offeror and the pricing per item. Multiple percentage discounts are acceptable if, where different percentage discounts apple, the different percentages are specified. Additional pricing and/or discounts may be included. Products and services proposed are to be priced separately with all ineligible items identified. Offerors may elect to limit their proposals to any category or categories. The discount proposed shall remain the same throughout the term of the contract and at all renewal options. Price lists must contain the following: (if applicable)

- Manufacturer Part #
- Offeror's Part # (if different from manufacturer part #)
- Description
- Manufacturers Suggested List Price and Net Price
- Net price to Region 4 ESC (including freight)
- List all categories that you are offering

5 **Is pricing available for all products and services?**

☑ Yes

☐ No

6 **Describe any shipping charges (where applicable).**

All deliveries shall be freight prepaid F.O.B. destination and shall be included in all pricing unless otherwise clearly stated in writing.

Carahsoft understands this requirement and can confirm all pricing provided is comprehensive.

7 **Provide pricing for warranties on all products and services.**

All products and services come with an initial warranty included in the price. Additional warranties are available upon request.

8 **Describe any return or restocking fees.**

We do not offer a return policy on software and services, and by the nature of software licenses and services there are no restocking concerns.

9 **Describe customer fulfillment process.**

Carahsoft’s number one concern is providing all orders swiftly and accurately. Our customer fulfillment process includes a number of safeguards to ensure that each order is handled efficiently, and each customer is satisfied with their procurement. When a purchase order is received from the customer, a unique Carahsoft sales order number is generated. The purchase order is then entered in the accounting system where a Carahsoft purchase order is generated to submit to the vendor. After the PO is submitted and the order has been shipped, the vendor issues an invoice to Carahsoft. Once the vendor invoice is received, it generates the corresponding customer invoice. The customer’s payment is due within 30 days and payment closes out once payment of their invoice is received. Customers may place orders with Carahsoft in a variety of methods. Acceptances of physical PO, contracts, electronic orders, fax are all acceptable order methods. Please see Products and Pricing Response.

10 **Discounts or Rebates**

Describe any additional discounts or rebates available. Additional discounts or rebates may be offered for large quantity orders, single ship to location, growth, annual spend, guaranteed quantity, etc.

Additional discounts can be provided on a deal-by-deal basis.

11 Verification of Contract Pricing

Describe how customers verify they are receiving Contract pricing.

Carahsoft has a representative that manages our current Omnia contract. This same representative will help manage this contract, and will help ensure that all Participating Agencies will receive the Master Agreement pricing through any distributors or reseller partners. In addition, the contract pricing will be listed for all our inhouse sales representatives to chose in our internal, custom built Customer Relationship Management Platform to ensure direct deals are properly priced according to the Master Agreement.

12 Describe invoicing process. Include payment terms and acceptable methods of payment outlining any associated fees pertaining to credit card/p-cards.

Carahsoft's preferred payment terms are Net30. Carahsoft accepts orders via purchase order, credit card (phone or web), direct invoices, customer contracts and similar, and will work with Region 4 ESC to reach an agreement on preferred forms of payment.

13 Frequency of Pricing Updates

Propose the frequency of updates to the Offeror's pricing structure. Describe any proposed indices to guide price adjustments. If offering a catalog contract with discounts by category, while changes in individual pricing may change, the category discounts should not change over the term of the Contract.

This information varies by manufacturer.

14 Future Product Introductions

Describe how future product introductions will be priced and align with Contract pricing proposed.

Carahsoft will add products and services that are in scope of the contract per the terms and conditions and discounts proposed.

15 Not to Exceed Pricing

Region 4 ESC requests pricing be submitted as not to exceed pricing. Unlike fixed pricing, the Contractor can adjust submitted pricing lower if needed but, cannot exceed original pricing submitted. Contractor must allow for lower pricing to be available for similar product and service purchases. Cost plus pricing as a primary structure is not acceptable.

16 Appendix D, Exhibit A, OMNIA Partners Response for National Contract

Include a detailed response to Appendix D, Exhibit A, OMNIA Partners Response for National Cooperative Contract. Responses should highlight experience, demonstrate a strong national presence, describe how Offeror will educate its national sales force about the Contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and reported to OMNIA Partners.

17 Appendix D, Exhibit B, OMNIA Partners Administration Agreement

The successful Offeror will be required to sign Appendix D, Exhibit B, OMNIA Partners Administration Agreement prior to Contract award. Offerors should have any reviews required to sign the document prior to submitting a response. Offeror's response should include any proposed redlined exceptions to OMNIA Partners Administration Agreement.

18 Appendix D, Exhibits F and G

Include completed Appendix D, Exhibits F. Federal Funds Certifications and G. New Jersey Business Compliance.

19 Emergency Orders

Describe how Offeror responds to emergency orders.

Once Carahsoft has received an order it places the order with the manufacturer to send to the customer directly. Many of Carahsoft's orders are software, so there is an instant delivery per the agreed upon schedule, which can be escalated in the case of an emergency.

20	**What is Offeror's average Fill Rate?** We are able to fill all orders for the solutions provided in this proposal 100% of the time, due to inventory and restocking not being a concern for software and services.
21	**What is Offeror's average on time delivery rate?** Describe Offeror's history of meeting the shipping and delivery timelines. Carahsoft delivers all of its orders on time. Once Carahsoft has received an order it places the order with the manufacturer to send to the customer directly. Many of Carahsoft's orders are software, so there is an instant delivery per the agreed upon schedule.
22	**Describe Offeror's return and restocking policy.** We do not offer a return policy on software and services, and due to the nature of software licenses and services there are no restocking concerns.
23	**Describe Offeror's ability to meet service and warranty needs.** All products and services come with an initial warranty included in the price. Additional warranties are available upon request.
24	**Describe Offeror's customer service/problem resolution process. Include hours of operation, number of services, etc.** Carahsoft's hours are from 8:30am - 5:30pm EST, but our vendors offer a variety of customer service hours, often providing avenues for 24/7 care
25	**Describe Offeror's invoicing process. Include payment terms and acceptable methods of payments. Offerors shall describe any associated fees pertaining to credit cards/p-cards.** Carahsoft's preferred payment terms are Net30. Carahsoft accepts orders via purchase order, credit card (phone or web), direct invoices, customer contracts and similar, and will work with Region 4 ESC to reach an agreement on preferred forms of payment.
26	**Describe Offeror's contract implementation/customer transition plan.** During the first ten days following contract award, the Carahsoft team will conduct additional discovery activities. We have identified the keys to establishing a successful project are open discussion, careful planning and proactive risk identification and mitigation. The Carahsoft team will immediately work with the Region 4 ESC representatives, our staff and partners in a series of meetings and workshops from the executive level to the staff level to ensure the compliance of product delivery and contract requirements. This process is the first step in the Carahsoft Team's successful contract performance On Day One of contract award, Carahsoft will launch our Region 4 ESC ten day marketing blitz. We will also begin to convert quotes in our CRM system to Region 4 ESC quotes. This transition will help provide Carahsoft with additional opportunities throughout the United States and will motivate customers to utilize different Region 4 ESC contracts in the process.
27	**Describe the financial condition of Offeror.** As a privately owned company, Carahsoft does not publicly release financial information. We are a stable, conservative, and profitable company which has grown, since founding in 2004, from $4M in bookings to more than $16.4B in 2023. The company has received numerous accolades for our business performance from our manufacturing partners and the industry, including annual recognition (detailed further on our website) in the CRN Solution Provider 500 (2006-Present), Washington Technology's Top 100 Government Contractors (2010-Present), and the Washington Business Journal's Largest Government Contractors (2011-Present). We currently maintain a $25M line of credit available (currently 100% available) with Xenith Bank. Should you require our audited financial statements or have further financial inquiries, we would be happy to provide additional information under separate cover to the specific individual that would be reviewing them. Specific questions may be referred to Craig P. Abod, Pres

28 **Provide a website link in order to review website ease of use, availability, and capabilities related to ordering, returns and reporting. Describe the website's capabilities and functionality.**

Carahsoft will develop and maintain a microsite that will be dedicated to this Contract. This will be a supplement to the Vendor support site and will include materials such as: - Contract Information - Contract FAQ Document - Product Information - Catalog/ Pricelist Information - Additional Contractual Information. The following are examples of Dedicated Websites for current Carahsoft contracts: - Department of Defense ESI BPA Contract # N00104-12-A-ZF31 (http://www.carahsoft.com/buy/esi-bpa-contracts/department-defense-esi-desktop-bpa-contract-n00104-12-zf31) - Department of Navy ESI BPA Contract (https://www.carahsoft.com/buy/esi-bpa-contracts/department-defense-esi-bpa-contract-n00104-12-zf31) - NASA SEWP V Contract # NNG15SC03B/NNG15SC27B (http://www.carahsoft.com/buy/sewp)

29 **Describe the Offeror's safety record.**

Due to there being no inventory to risk employee's safety, Carahsoft has a clean safety record.

30 **Provide a brief history of the Offeror, including year it was established and corporate office location.**

Carahsoft Technology Corp. is an IT solutions provider delivering best-of-breed hardware, software, and support solutions to federal, state and local government agencies. Formed by a group of seasoned professionals with decades of experience in sales, marketing and contract program management, Carahsoft has built our reputation as a customer-centric organization. The Carahsoft team has a proven history of helping agencies find the best possible technology solution at the best possible value. Each customer works directly with a dedicated account representative to determine a solution tailored specifically to meet his or her needs. We combine our extensive knowledge of the technologies we provide, with a thorough understanding of the government procurement process, to analyze needs, provide configuration support, simplify the ordering process, and offer special government pricing. More information in our Products and Pricing response.

31 **Describe Offeror's reputation in the marketplace.**

Carahsoft has a unique business model focusing on providing superior sales and marketing execution, a track record of success, high integrity, and a focus on strategic vendor relationships. Carahsoft offers a vast portfolio and provides many value adds that other large reseller companies cannot attain. However, As an IT reseller and distributor, Carahsoft works together with a number of other companies and strives to maintain positive relationships in the IT industry because the IT business requires cooperation on all levels. We are a stable, conservative, and profitable company and have received numerous accolades, as detailed below and further on our awards page: http://www.carahsoft.com/awards ? Top Ranked GSA Schedule 70 Contract holder for software ? #22 on Washington Business Journal's Largest Government Contractors List for 2023 ? #31 on Washington Technology's Top 100 Government Contractors List for 2023 ? Fed 100 Winner and Ernst & Young Entrepreneur of the Year, Craig P. Abo

32 **Describe Offeror's reputation of products and services in the marketplace.**

In addition to our awards above, Carahsoft maintains one of the largest partner networks in the industry and can provide a quote for any vendor in 30 minutes.

33 **Provide a current list of Authorized Distributors/Resellers including contact information and geographical area.**

Carahsoft would like to leverage our entire partner network, to ensure that all OMNIA Partners have the best coverage and options available on the market, no matter their need or location. Considering the constantly expanding nature of our current partner network of over 4,000 partners, Carahsoft is unable to list all potential partners at this time. Carahsoft will act as the main point of contact for any processing, handling or shipping of any products or services to the end user and can even provide direct contact information for our manufacturer or reseller partners to facilitate communication if needed.

34 **Describe the experience and qualifications of key employees.**

Craig Abod - Top corporate executive with more than 25 years of experience in government sales, government marketing, and Federal Contract program management / Robert Moore - • Senior Sales Executive with a 15+ year accomplished career track. More information can be found in our Product and Pricing response.

35 **Describe Offeror's experience working with the government sector.**

Carahsoft has been providing best of breed hardware, software, and support solutions to federal, state, and local government agencies since 2004, processing over 388,969 orders. Additionally, over the past 20 years Carahsoft has acquired and maintained a wide variety of purchasing contract vehicles for agencies at the state, local, and federal levels. Associated with all contracts are dedicated and experienced contract management resources. A list of available contracts can be found at www.carahsoft.com/contracts/index.php.

36 **Describe past litigation, bankruptcy, reorganization, state investigations of entity or current officers and directors.**

Carahsoft does not have any such actions.

37 **Indicate if Offeror is licensed to do business in all 50 states.**

☑ Yes

☐ No

38 **Provide Offeror's expertise in working with public sector and understanding of the unique technical regulatory requirements.**

Carahsoft has secured numerous contracts that enable Carahsoft and our partners to serve public sector customers throughout the United States and Canada. We are a topperforming contractor for the GSA Schedule, SEWP V and ITES-SW2 contracts. We hold several agency-specific contracts and Department of Defense Enterprise Software Initiative agreements and provide our EDU and SLG customers with access to technology via The Quilt contract, the NASPO Value Point and OMNIA Partners cooperating purchasing agreements, and numerous state and reseller contracts. We have established strategic, long-term relationships with the industry's leading manufacturers including Adobe, Splunk, Google Cloud, Amazon Web Services, Microsoft, VMware, Salesforce, Zoom, DocuSign, Micro Focus Government Solutions, Dell Technologies, Snowflake, Palo Alto Networks, ServiceNow, Veritas, Broadcom, and SAP, among hundreds of other established and emerging technology providers. Please see Products and Pricing Response.

39 **References**

Provide a minimum of 10 customer references relating to the products and services within this RFP. Include entity name, contact name and title, contact phone and email, city, state, years serviced, description of services and annual volume.

Please find 3 references and Carahsoft's request to provide further information upon award in our Product and Pricing response. **Carahsoft actively administers and maintains several cooperative purchasing contracts for the General Services Administration (GSA), National Aeronautics and Space Administration (NASA), National Association of State Procurement Officials (NASPO), OMNIA Partners, Texas Department of Information Resources (among many others), and Public Services and Procurement Canada (PSPC).**

40 **Value Add**

Provide any additional information related to products and services Offeror proposes to enhance and add value to the Contract.

Carahsoft will provide the following additional value-added services at no additional cost to Region 4 ESC: 1. Dedicated Account Manager 2. Program Management 3. Training Webcasts & Access to Carahsoft Facilities 4. Proactive Marketing of the Contract 5. Monthly/Quarterly Reports 6. Dedicated Phone Lines & Live Chat 7. Dedicated Contract Microsite 8. Dedicated Email Address Please find an in-depth description of these bullets in our Products and Pricing response.

41 **Competitive Range**

It may be necessary to establish a competitive range. Factors from the predetermined criteria will be used to make this determination. Responses not in the competitive range will not receive further award consideration. Region 4 ESC may determine establishing a competitive range is not necessary.

42 **Past Performance**

An Offeror's past performance and actions are relevant in determining whether or not the Offeror is likely to provide quality goods and services; the administrative aspects of performance; the Offeror's history of reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the Offeror's businesslike concern for the interests of the customer may be taken into consideration when evaluating proposals, although not specifically mentioned in the RFP.

43 **Additional Investigations**

Region 4 ESC reserves the right to make such additional investigations as it deems necessary to establish the capability of any Offeror.

44 **Pricing Commitment**

Supplier commits the not-to-exceed pricing provided under the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, the Supplier will match such lower pricing to that Participating Public Agency under the Master Agreement.

☐ Yes

☑ No

45 **Supplier Response**

Supplier must supply the following information for the Principal Procurement Agency to determine Supplier's qualifications to extend the resulting Master Agreement to Participating Public Agencies through OMNIA Partners.

46 **Brief history and description of Supplier to include experience providing similar products and services.**

Carahsoft Technology Corp. is The Trusted Government IT Solutions Provider®, supporting Public Sector organizations across Federal, State and Local Government agencies and Education and Healthcare markets. As the Master Government Aggregator® for our vendor partners, we deliver solutions for Cybersecurity, MultiCloud, DevSecOps, Big Data, Artificial Intelligence, Open Source, Customer Experience and more. Working with resellers, systems integrators and consultants, our sales and marketing teams provide industry leading IT products, services, and training through hundreds of contracts. Founded in 2004, Carahsoft is headquartered in Reston, Virginia.

47 **Total number and location of salespersons employed by Supplier.**

Carahsoft employees about 3,500 persons.

48 **Number and location of support centers (if applicable) and location of corporate office.**

Carahsoft’s main office is located at 11493 Sunset Hills Road, Reston, VA 20190

49 **Annual sales for the three previous fiscal years.**

$16400000000

50 **Annual sales for the three previous fiscal years.**

$12500000000

51 **Annual sales for the three previous fiscal years.**

$10600000000

52 **Describe any green or environmental initiatives or policies.**

Reducing our carbon footprint is extremely important to Carahsoft. As a result, we strive to ensure that our recycling program is comprehensive and robust. Carahsoft uses single-stream recycling to make it as easy as possible for our employees to recycle as much as they can. Carahsoft uses recycled materials whenever possible. For example, hard copy bid submissions are printed on recycled paper and shipped using recycled packing materials. Carahsoft uses only Energy Star compliant hardware, which uses substantially less electricity when items are not in use. Additionally, thelights in our office are on a timer to ensure that lights are turned off when the employees are not working. Likewise, motion detectors ensure that lights are not left on when rooms are empty. Carahsoft has implemented VMware internally, which moves our servers to a virtualized cloud environment, eliminating the need for physical servers in our office. This has drastically reduced our server footprint, allowing us to save thousands of dollars each year on heating and cooling our data center.Carahsoft also seeks to reduce our carbon footprint by providing transit benefits for employees who use public transportation to commute to and from work. In fact, we recently relocated our offices to within less than half of a mile of the Washington Metrorail System, making it easy for employees to take advantage of sustainable public transportation. Carahsoft is always open to suggestions on how we can encourage more sustainable practices and how we can implement further policies to reduce our company's footprint.

53 **Diversity Programs**

Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.

Carahsoft maintains a vast ecosystem of partners of various socioeconomic classifications, including resellers, systems integrators, and service providers. The Carahsoft partner network includes a very diverse group with varying specializations, credentials, product lines, and business types, including over 700 Small Businesses. If awarded, Carahsoft will leverage our experience managing this vast partner ecosystem to support the participation of MWBEor SDVOB certified businesses.

54 **Minority Women Business Enterprise**

☐ Yes
☑ No

55 **If yes, list certifying agency:**

No response

56 **Small Business Enterprise (SBE) or Disadvantaged Business Enterprise**

☐ Yes
☑ No

57 **If yes, list certifying agency:**

No response

58 **Historically Underutilized Business (HUB)**

☑ No

59 **If yes, list certifying agency:**

No response

60 **Historically Underutilized Business Zone Enterprise (HUBZone)**

☐ Yes
☑ No

61 **If yes, list certifying agency:**

No response

62 **Other recognized diversity certificate holder**

☐ Yes

☑ No

63 **If yes, list certifying agency:**

No response

64 **Contractor Relationships**

List any relationships with subcontractors or affiliates intended to be used when providing services and identify if subcontractors meet minority-owned standards. If any, list which certifications subcontractors hold and certifying agency.

As described above, Carahsoft has a robust partner network, many of which do meet minority owned standards.

65 **Describe how supplier differentiates itself from its competitors.**

Carahsoft's top three differentiating strengths include: 1. Sales & Marketing – Carahsoft provides innovative sales and marketing programs to each vendor we support. Carahsoft's dedicated proactive sales team focuses on lead generation, proactive inside sales, and provides responsive sales support. We work with vendors to develop a joint sales process based on the vendor go-to-market strategy and work to align the Carahsoft sales team with vendor and reseller teams. Carahsoft's comprehensive marketing program is supported by a dedicated marketing team of 220+ reps. The marketing team plans and executes many informative events throughout the year to drive demandincluding but not limited to: webcasts, on-site events (Carahsoft hosted and third-party hosted), conferences and trade shows, email campaigns, social media campaigns, advertising and thought-leadership. Carahsoft invests in many marketing resources that we extend to our vendor teams to maximize marketing effectiveness and amplify the vendor's messaging. 2. Proven Execution – Carahsoft has leveraged its vast contracting experience and extended it to quoting and order management. In our experience managing public sector aggregation programs on behalf of other industry leading vendors, Carahsoft has the operation excellence in place to free up vendor resources previously committed these tasks. We feel our model will allow Autodesk to "offload" some of these tasks on Carahsoft, knowing that we are fully committed and capable of servicing the partner eco-system. - Carahsoft seamlessly generates quotes within 30 minutes or less - Carahsoft has a team dedicated to renewals sales and a leadershipgroup to ensure that each team is working at an optimal level. 3. Knowledge of Government – The government market is complex and the intricacies offer the opportunity for an innovative model driven to best serve government customers and add value to the channel. Carahsoft has extensive knowledge and decades of expertise in understanding the public sector market, including: ??Unique budget and procurement cycles - Specific contract requirements and set-asides - Audits, regulations and compliance - The value of Prime Contractors and Systems Integrators and how to work with them - Competitive marketplace - Security Clearances - Collection of A/R requires expertise and focus Carahsoft stays current with government requirements, trends and initiatives by attending and participating in many industry events. We also rely on the expertise of our industry consultants who are former government executives.

66 **Litigation, Bankruptcy or reorganization**

Describe any present or past litigation, bankruptcy or reorganization involving supplier.

Not applicable.

67 Felony Conviction Notice

Indicate if the supplier:

- is a publicly held corporation and this reporting requirement is not applicable;
- is not owned or operated by anyone who has been convicted of a felony; or
- is owned or operated by and individual(s) who has been convicted of a felony and provide the names and convictions.

☐ Yes

☑ No

68 Debarment or suspension actions

Describe any debarment or suspension actions taken against supplier.

Not Applicable.

69 Distribution, Logistics

Each offeror awarded an item under this solicitation may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by supplier.

Carahsoft is leveraging our vast ecosystem of manufacturer, reseller, and services partners. Please see our attached corporate line card for an idea of the large partner network we can provide for this initiative.

70 Distribution

Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the Master Agreement, including U.S. Territories and Outlying Areas.

Carahsoft holds many other contract vehicles with State and Local agencies. We are happy to offer these to any states where products and services will not be offered under the Master Agreement. Please see a full list of our contracts here: https://www.carahsoft.com/buy#state-local

71 Distribution

Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.

Carahsoft has a representative that manages our current Omnia contract. This same representative will help manage this contract, and will help ensure that all Participating Agencies will receive the Master Agreement pricing through any distributors or reseller partners. In addition, the contract pricing will be listed for all our in-house sales representatives to chose in our internal, custom built Customer Relationship Management Platform to ensure direct deals are properly priced according to the Master Agreement.

72 Logistics

Identify all other companies that will be involved in processing, handling or shipping the products/services to the end user.

Carahsoft would like to leverage our entire partner network, to ensure that all OMNIA Partners have the best coverage and options available on the market, no matter their need or location. Considering the constantly expanding nature of our current partner network of over 4,000 partners, Carahsoft is unable to list all potential partners at this time. Carahsoft will act as the main point of contact for any processing, handling or shipping of any products or services to the end user and can even provide direct contact information for our manufacturer or reseller partners to facilitate communication if needed.

73	**Logistics** Provide the number, size and location of Supplier's distribution facilities, warehouses and retail networks as applicable. Carahsoft is capable of shipping to any customer worldwide from our main headquarters in Reston, VA. As a North American distributor, 99% of hardware deliveries are made within the continent and mostly within continental US or US address abroad.
74	**Marketing and Sales** Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as supplier's primary go to market strategy for Public Agencies to supplier's teams nationwide, to include, but not limited to: • Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days. • Training and education of Supplier's national sales force with participation from the Supplier's executive leadership, along with the OMNIA Partners team within first 90 days. Carahsoft can confirm we will have dedicated contract management and marketing personnel involved to determine strategies to advertise the new contract and determine the best ways to ensure our in house personnel, manufacturer partners and reseller partners can leverage the contract.

75 **90-day Plan**

Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:

- Creation and distribution of a co-branded press release to trade publications
- Announcement, Master Agreement details and contact information published on the Supplier's website within first 90 days.
- Design, publication and distribution of co-branded marketing materials within first 90 days
- Commitment to attendance and participation with OMNIA Partners at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, Regional Cooperative Summits, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement
- Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner suppliers. Booth space will be purchased and staffed by Supplier. In addition, Supplier commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.
- Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement
- Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.)
- Dedicated OMNIA Partners internet web-based homepage on Supplier's website with:
  •OMNIA Partners standard logo;
  •Copy of original Request for Proposal;
  •Copy of Master Agreement and amendments between Principal Procurement Agency and Supplier;
  •Summary of Products and pricing;
  •Marketing Materials
  •Electronic link to OMNIA Partners' website including the online registration page;
  •A dedicated toll-free number and email address for OMNIA Partners

i. Carahsoft will post a co-branded press release on our website, as well as a trade publication such as GlobeNewswire. Here is an example from a previous contract: https://www.globenewswire.com/news-release/2020/05/21/2037187/0/en/Carahsoft-Awarded-Educational-Software-Solutions-and-Services-Contract-through-OMNIA-Partners-Public-Sector.html ii. Carahsoft posts all contracts and agreement details on our website at the following link: https://www.carahsoft.com/buy#omnia-partners-public-sector Upon award, Carahsoft will add the relevant contract details to the website above. iii. Carahsoft's dedicated marketing team will edit current materials to add co-branded marketing on this contract to our proven end-user / customer initiatives such as the following: ? On-Site Events ? Webcasts ? Tradeshows ? Industry conferences ? Email Campaigns ? Digital and Print ads iv. Carahsoft offers deep experience in public sector marketing. Our dedicated team plans, promotes and executes more than 2,000 public-sector marketing campaigns and events each year, including contract specific promotional activities such as national, state and local government and education shows. We would be more than happy to participate with OMNIA Partners at these trade shows, or additional trade shows that may be beneficial to promoting the Master Agreement. v. Carahsoft can commit to attend the NIGP Annual Forum. vi. As a prime government aggregator, Carahsoft is constantly utilizing marketing efforts to drive and identify new and upcoming business. We confirm that we will include this contract in our marketing efforts throughout the term of the Master Agreement through national and regional trade publications. vii. Carahsoft relishes the opportunity to promote our success stories to our current and future customers. We confirm that we will continue to make updated publications and materials throughout the contract term to promote the Master Agreement. viii. Carahsoft has a dedicated OMNIA contract page for our current contract here: https://www.carahsoft.com/buy/slg-contracts/all-states/omnia-partners-edu#resources. Upon award, we will add the details provided above for this current contract to our page. We are also more than happy to edit the information provided for our current contracts if necessary to meet the OMNIA partner's goals.

76

Transition

Describe how Supplier will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Supplier holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

Carahsoft holds a mulititude of contracts for the convenience of our Government customers. Each agency often requires different terms and conditions or contract vehicles and we work diligently to discuss the right option for each customer. Carahsoft has a database of information to determine the best contract to use for each agency, and vendor. Carahsoft will utilize this database when discussing options with our government customers, and recommend this contract for our SLED customers whenever possible.

77

Logo

Acknowledge Supplier agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.

☑ Yes

☐ No

78

Sales

Confirm Supplier will be proactive in direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Supplier's sales initiatives should communicate:

- Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency
- Best government pricing
- No cost to participate
- Non-exclusive

☑ Yes

☐ No

79

Training

Confirm Supplier will train its national sales force on the Master Agreement. At a minimum, sales training should include:

- Key features of Master Agreement
- Working knowledge of the solicitation process
- Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners
- Knowledge of benefits of the use of cooperative contracts

☑ Yes

☐ No

80 **Responsibility**

Provide the name, title, email and phone number for the person(s), who will be responsible for:

- Executive Support
- Marketing
- Sales
- Sales Support
- Financial Reporting
- Accounts Payable
- Contracts

The security and privacy of each of Carahsoft's employees are of the upmost importance to the company. Due to the sensitive nature of this information, Carahsoft respectfully declines to share names and contact information for specific employees at this stage. We would be more than happy to provide this information upon award or sample resumes upon down selection directly to the evaluation team where it will not be part of the public record.

81 **Sales Force**

Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

Please see the attachment labelled "Carahsoft's Organization Chart". Due to our employee confidentiality and the public nature of procurement documents, Carahsoft respectfully declines to provide the contact information for our employees at this time.

82 **Implementation**

Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

Our sales teams will be educated on the availability of this contract, and the relevant contract details so they can offer this contract as an option for our government customers to utilize when purchasing IT Solutions and Services.

83 **Program Management**

Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

Carahsoft will appoint a dedicated Contract Manager who will help manage communications received from Participating Public Agency's requesting to account set up, and who will manage any contract administration requirements.

84 **Supplier's Customer List**

State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

Carahsoft completed $16.4B in sales in 2023, however due to customer confidentiality Carahsoft is unable to provide total purchase numbers and contact information on documents subject to the public record.

85 **System Capabilities and Limitations**

Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

The Carahsoft Team is fully able to send and receive Delivery Orders, Order Status Reports, Post Order Reports, Administrative Handling Fees, and the like in any format that is most comfortable to our Government Customers. Carahsoft accepts orders via purchase order, credit card (phone or web), direct invoices, customer contracts and similar.

86

Projected Sales Year One

Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales"). To the extent Supplier guarantees minimum Contract Sales, the Administrative Fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

$0

87

Projected Sales Year Two

Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales"). To the extent Supplier guarantees minimum Contract Sales, the Administrative Fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

$0

88

Projected Sales Year Three

Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales"). To the extent Supplier guarantees minimum Contract Sales, the Administrative Fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

$0

89

General Terms and Conditions

Respondent agrees to comply with the General Terms and Conditions provided as an attachment to this online bid event. Any deviations to the General Terms and Conditions may be provided using the procedures set forth in the attribute pertaining to deviations.

☑ I certify compliance with this attribute.

90

Felony Conviction Notification

State of Texas Legislative Senate Bill No. 1 Section 44.034, Notification of Criminal History, Subsection (a), states "a person or business entity that enters into an agreement with a school district must give advance notice to the district if the person or an owner or operator of the business entity has been convicted of a felony. The notice must include a general description of the conduct resulting in the conviction of a felony".

Subsection (b) states "a school district may terminate the agreement with a person or business entity if the district determines that the person or business entity failed to give notice as required by Subsection (a), or misrepresented the conduct resulting in the conviction. The district must compensate the person or business entity for services performed before the termination of the contract".

Subsection (c) states "this section does not apply to a publicly held corporation".

Use the checkbox associated with this item to identify your status as it relates to this legal requirement.

☑ Non-Felon - person/owner IS NOT a convicted felon

☐ Not Applicable-firm is a publicly held corporation

☐ Felon - person/owner IS a convicted felon

91

Name of Felon and Nature of Felony, if applicable

If response to previous attribute was "Felon - person/owner IS a convicted felon", vendor shall give the name of the felon and details of conviction.

If you did not answer "Felon - person/owner IS a convicted felon" in the previous question, type "N/A" in the respective field.

N/A

92	**Criminal History Records Review of Certain Contract Employees** Texas Education Code Chapter §22.0834 requires that criminal history records be obtained regarding covered employees of entities that contract with a school entity in Texas to provide services for that school entity ("Contractors") and entities that contract with school entity contractors ("Subcontractors"). Covered employees with disqualifying criminal histories are prohibited from serving at a school entity. Contractors/Subcontractors contracting with a school entity shall (1) maintain compliance with the requirements of Texas Education Code Chapter 22 to the school entity; and (2) require that each of their subcontractors complies with the requirements of Texas Education Code Chapter 22. Contractors performing work at a school entity in Texas must comply with these statutes. Covered employees: Employees of a Contractor/Subcontractor who have or will have continuing duties related to the service to be performed at a school entity *and* have or will have direct contact with students. The school entity will be the final arbiter of what constitutes *continuing duties* and *direct contact* with students at their school. ☑ I certify compliance with this attribute.
93	**Historically Underutilized Business (HUB) Certification** Businesses that have been certified by the Texas Building and Procurement Commission (TBPC) or other qualified agency as Historically Underutilized Business (HUB) entities are encouraged to indicate their HUB status when responding to this proposal invitation. The electronic catalogs will indicate HUB certifications for vendors that properly indicate and document their HUB certification on this form. Select one of the available options: **OPTION A**: My business has NOT been certified as HUB. **OPTION B**: I certify that my business has been certified as a Historically Underutilized Business (HUB), and I have/will upload the certification information into the "Response Attachments" Tab located in this online bidding event. ☑ OPTION A ☑ OPTION B

94	**Disclosure of Interested Parties** Texas state law requires the Disclosure of Interested Parties be filed with a public entity, including regional service centers and school districts, for any contract which: (1) requires an action or vote by the governing body; or (2) has a value of $1 million or more; or (3) for any services provided that would require an individual to register as a lobbyist under TX Gov't Code Chapter 305. NOTE: This form is not required if the vendor is a publicly-traded business entity, including a wholly-owned subsidiary of the business entity (a company in which ownership is dispersed among the general public via shares of stock which are traded via at least one stock exchange or over-the-counter market). If you are required by law to submit this form, it must be completed online at the Texas Ethics Commission website. Obtain a numbered certificate and click the link below to access the instructions and to complete this required form. Upon completion, vendors required to submit the form must attach it to the proposal via the "Response Attachments" Tab. Click here to complete the form on the Texas Ethic Commission's 1295 Form webpage. Please note: The District must verify receipt of all required 1295 forms received within 30 days on the Texas Ethics Commission website. This verification does not indicate a contract award. Contract awards will be issued via direct communication from the AISD Purchasing Department. A contract requiring a Disclosure of Interested Parties form is voidable at any time if: (1) the governmental entity or state agency submits to the business entity written notice of the business entity's failure to provide the required disclosure; and (2) the business entity fails to submit to the governmental entity or state agency the required disclosure on or before the 10th business day after the date the business entity receives the written notice. **IF UNDER LAW YOU ARE EXEMPT FROM SUBMITTING THIS 1295 FORM, PROPOSERS MUST SUBMIT A DOCUMENT THAT SHOWS PROOF OF THIS EXEMPTION.** ENTITY TYPES THAT ARE EXEMPT AND SHOULD ATTACH THIS PROOF ARE LISTED IN STATUE AS: • a sponsored research contract of an institution of higher education; • an interagency contract of a state agency or an institution of higher education; • a contract related to health and human services if: • the value of the contract cannot be determined at the time the contract is executed; and • any qualified vendor is eligible for the contract; • a contract with a publicly traded business entity, including a wholly owned subsidiary of the business entity; • a contract with an electric utility, as that term is defined by Section 31.002, Utilities Code; or • a contract with a gas utility, as that term is defined by Section 121.001, Utilities Code. ☑ I certify compliance with this attribute.

95

Conflict of Interest Questionnaire

Region 4 Education Service Center (Region 4) is required to comply with Texas Local Government Code Chapter 176, Disclosure of Certain Relationships with Local Government Officers. House Bill 23 significantly changed Chapter 176 as well as the required disclosures and the corresponding forms. As of September 1, 2015, any vendor who does business with Region 4 or who seeks to do business with Region 4 must fill out the new Conflict of Interest Questionnaire (CIQ) if a conflict of interest exists. A conflict of interest exists in the following situations:

1) If the vendor has an employment or other business relationship with a local government officer of Region 4 or a family member of the officer, as described by section 176.003(a)(2)(A) of the Texas Local Government Code; or
2) If the vendor has given a local government officer of Region 4, or a family member of the officer, one or more gifts with the aggregate value of $100, excluding any gift accepted by the officer or a family member of the officer if the gift is: (a) a political contribution as defined by Title 15 of the Election Code; or (b) a gift of food accepted as a guest; or
3) If the vendor has a family relationship with a local government officer of Region 4.

"Vendor" means a person who enters or seeks to enter into a contract with a local governmental entity. The term includes an agent of a vendor. The term includes an officer or employee of a state agency when that individual is acting in a private capacity to enter into a contract. The term does not include a state agency except for Texas Correctional Industries. Texas Local Government Code 176.001(7).

"Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on: (A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity; (B) a transaction conducted at a price and subject to terms available to the public; or (C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency. Texas Local Government Code 176.001(3).

"Family relationship" means a relationship between a person and another person within the third degree by consanguinity or the second degree by affinity, as those terms are defined by Subchapter B, Chapter 573, Government Code. Texas Local Government Code 176.001(2-a).

"Local government officer" means: (A) a member of the governing body of a local governmental entity; (B) a director, superintendent, administrator, president, or other person designated as the executive officer of a local governmental entity; or (C) an agent of a local governmental entity who exercises discretion in the planning, recommending, selecting, or contracting of a vendor. Texas Local Government Code 176.001(4).

Individuals serving as a Member of the Board of Directors, the Executive Director, Cabinet Members, and other local government officers may be found at: https://www.esc4.net/about/about-region-4.

For additional information on Conflict of Interest Questionnaire, and the statutes that mandate it, please visit the following links:
Texas Local Government Code, Section 176
Texas House Bill 23

A blank Conflict of Interest Questionnaire is available by clicking:
https://www.ethics.state.tx.us/data/forms/conflict/CIQ.pdf.

If your firm is required to return a completed Conflict of Interest Questionnaire with your proposal submission, use the "Response Attachments" Tab to upload the completed document.

☑ I certify compliance with this attribute.

96

Entities that Boycott Israel

Pursuant to Chapter 2271 of the Texas Government Code, the Respondent hereby certifies and verifies that neither the Respondent , nor any affiliate, subsidiary, or parent company of the Respondent , if any (the "Respondent Companies"), boycotts Israel, and the Respondent agrees that the Respondent and Respondent Companies will not boycott Israel during the term of this Agreement. For purposes of this Agreement, the term "boycott" shall mean and include refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes.

EXCEPTIONS: Clause only applies to contracts and contractors that meet the following criteria: (i) Respondent is not a sole proprietorship; (ii) with 10 or more full-time employees; and (iii) with a contract to be paid a value of $100,000 or more wholly or partially from public funds of the governmental entity.

☑ I certify compliance with this attribute.

97

Foreign Terrorist Organizations

Section 2252.152 of the Texas Government Code prohibits Region 4 ESC from awarding a contract to any person who does business with Iran, Sudan, or a foreign terrorist organization as defined in Section 2252.151 of the Texas Government Code. Respondent certifies that it not ineligible to receive the contract.

☑ I certify compliance with this attribute.

98

Firearm Entities and Trade Associations Discrimination

Respondent verifies that: (1) it does not, and will not for the duration of the contract, have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association or (2) the verification required by Section 2274.002 of the Texas Government Code does not apply to the contract. If circumstances relevant to this provision change during the course of the contract, Respondent shall promptly notify Region 4 ESC.

APPLICABILITY: This clause applies only to a contract that: (1) is between a governmental entity and a company with at least 10 full-time employees; and (2) has a value of at least $100,000 that is paid wholly or partly from public funds of the governmental entity.

EXCEPTIONS: This clause is not required when a state Agency: (1) contracts with a sole-source provider; or (2) does not receive any bids from a company that is able to provide the written verification required by Section 2274.002(b) of the Texas Government Code.

☑ I certify compliance with this attribute.

99

Energy Company Boycott Prohibited

Respondent represents and warrants that: (1) it does not, and will not for the duration of the contract, boycott energy companies or (2) the verification required by Section 2274.002 of the Texas Government Code does not apply to the contract. If circumstances relevant to this provision change during the course of the contract, Respondent shall promptly notify Region 4 ESC.

EXCEPTIONS: Clause only applies to contracts and contractors that meet the following criteria: (i) a "company" within the definitions of Section 2274.001(2) of the Tex. Gov't Code; (ii) with 10 or more full-time employees; and (iii) with a contract to be paid a value of $100,000 or more wholly or partially from public funds of the governmental entity.

☑ I certify compliance with this attribute.

100

Critical Infrastructure Affirmation

Pursuant to Government Code Section 2274.0102, Respondent certifies that neither it nor its parent company, nor any affiliate of Respondent or its parent company, is: (1) majority owned or controlled by citizens or governmental entities of China, Iran, North Korea, Russia, or any other country designated by the Governor under Government Code Section 2274.0103, or (2) headquartered in any of those countries.

EXCEPTION: Clause only applies to solicitations and contracts in which the contractor would be granted direct or remote access to or control of critical infrastructure, as defined by Section 2274.0101 of the Texas Government Code, in this state, other than access specifically allowed for product warranty and support purposes.
The Governor of the State of Texas may designate countries as a threat to critical infrastructure under Section 2274.0103 of the Texas Government Code. Agencies should promptly add any country that is designated by the Governor to this clause."

☑ I certify compliance with this attribute.

101

Open Records Policy

All proposals, information and documents submitted are subject to the Public Information Act requirements governed by the State of Texas once a Contract(s) is executed. If an Offeror believes its response, or parts of its response, may be exempted from disclosure, the Offeror must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt and include detailed reasons to substantiate the exemption. Price is not confidential and will not be withheld. Any unmarked information will be considered public information and released, if requested under the Public Information Act.

The determination of whether information is confidential and not subject to disclosure is the duty of the Office of Attorney General (OAG). Region 4 ESC must provide the OAG sufficient information to render an opinion and therefore, vague and general claims to confidentiality by the Offeror are not acceptable. Region 4 ESC must comply with the opinions of the OAG. Region 4 ESC assumes no responsibility for asserting legal arguments on behalf of any Offeror. Offeror is advised to consult with their legal counsel concerning disclosure issues resulting from this procurement process and to take precautions to safeguard trade secrets and other proprietary information.

Check one of the following responses to the Acknowledgment and Acceptance of Region 4 ESC's Open Records Policy below:

OPTION A: We acknowledge Region 4 ESC's Open Records Policy and declare that no information submitted with this proposal, or any part of our proposal, is exempt from disclosure under the Public Information Act.

OPTION B: We declare the following information to be a trade secret or proprietary and exempt from disclosure under the Public Information Act and these requested exemptions are uploaded into the "Response Attachments" Tab located in this online bidding event.

(Note: Offeror must specify page-by-page and line-by-line the parts of the response, which it believes, are exempt. In addition, Offeror must include detailed reasons to substantiate the exemption(s). Price is not confidential and will not be withheld. All information believed to be a trade secret or proprietary must be listed. It is further understood that failure to identify such information, in strict accordance with the instructions, will result in that information being considered public information and released, if requested under the Public Information Act.)

☑ OPTION A - No proprietary information

☐ OPTION B - Proprietary information marked

102

Consent to Release Proposal Tabulation

Notwithstanding anything explicitly and properly declared as Confidential or Proprietary Information to the contrary, by submitting a Proposal, Vendor consents and agrees that, upon Contract award, the District may publicly release, including posting on the public Region 4 ESC and/or OMNIA Partners website(s), a copy of the proposal tabulation for the Contract including Vendor name; proposed catalog/pricelist name(s); proposed percentage discount(s), unit price(s), hourly labor rate(s), or other specified pricing; and Vendor award notice information.

☑ I certify compliance with this attribute.

103

Contracting Information

If Vendor is not a governmental body and

(a) this Agreement has a stated expenditure of at least $1 million in public funds for the purchase of goods or services by REGION 4 ESC; or

(b) this Agreement results in the expenditure of at least $1 million in public funds for the purchase of goods or services by REGION 4 ESC in a fiscal year of REGION 4 ESC, the following certification shall apply; otherwise, this certification is not required.

As required by Tex. Gov't Code § 552.374(b), the following statement is included in the RFP and the Agreement (unless the Agreement is

(1) related to the purchase or underwriting of a public security;

(2) is or may be used as collateral on a loan; or

(3) proceeds from which are used to pay debt service of a public security of loan):

"The requirements of Subchapter J, Chapter 552, Government Code, may apply to this RFP and Agreement and the contractor or vendor agrees that the contract can be terminated if the contractor or vendor knowingly or intentionally fails to comply with a requirement of that subchapter."

Pursuant to Subchapter J, Chapter 552, Texas Government Code, the Vendor hereby certifies and agrees to

(1) preserve all contracting information related to this Agreement as provided by the records retention requirements applicable to REGION 4 ESC for the duration of the Agreement;

(2) promptly provide to REGION 4 ESC any contracting information related to the Agreement that is in the custody or possession of the Vendor on request of REGION 4 ESC; and

(3) on completion of the Agreement, either

(a) provide at no cost to AISD all contracting information related to the Agreement that is in the custody or possession of Vendor, or

(b) preserve the contracting information related to the Agreement as provided by the records retention requirements applicable to REGION 4 ESC.

☑ I certify compliance with this attribute.

104

Anti-Trust Certification Statement

Vendor affirms under penalty of perjury of the laws of the State of Texas that:

(1) I am duly authorized to execute this contract on my own behalf or on behalf of the company, corporation, firm, partnership or individual (Company) listed below;

(2) In connection with this bid, neither I nor any representative of the Company have violated any provision of the Texas Free Enterprise and Antitrust Act, Tex. Bus. & Comm. Code Chapter 15;

(3) In connection with this bid, neither I nor any representative of the Company have violated any federal antitrust law; and

(4) Neither I nor any representative of the Company have directly or indirectly communicated any of the contents of this bid to a competitor of the Company or any other company, corporation, firm, partnership or individual engaged in the same line of business as the Company.

☑ I certify compliance with this attribute.

105

Federal Rule (A) - Contract Term Violations

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000 (2 CFR §200.320), which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

*Pursuant to Federal Rule (**A**) above, when federal funds are expended by Region 4 ESC, Region 4 ESC reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.*

☑ I certify compliance with this attribute.

106	**Federal Rule (B) - Termination Conditions** **(B)** Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000) *Pursuant to Federal Rule (**B**) above, when federal funds are expended by REGION 4 ESC, REGION 4 ESC reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Vendor, in the event vendor fails to: (1) meet schedules, deadlines, and/or delivery dates within the time specified in the procurement solicitation, contract, and/or a purchase order; (2) make any payments owed; or (3) otherwise perform in accordance with the contract and/or the procurement solicitation; (4) to the greatest extent authorized by law, if an award no longer effectuates the program goals or priorities of the Federal awarding agency or REGION 4 ESC. REGION 4 ESC also reserves the right to terminate the contract immediately, with written notice to vendor, for convenience, if REGION 4 ESC believes, in its sole discretion that it is in the best interest of REGION 4 ESC to do so. The vendor will be compensated for work performed and accepted and goods accepted by REGION 4 ESC as of the termination date if the contract is terminated for convenience of REGION 4 ESC. Any award under this procurement process is not exclusive and REGION 4 ESC reserves the right to purchase goods and services from other vendors when it is in the best interest of REGION 4 ESC.* ☑ I certify compliance with this attribute.
107	**Federal Rule (C) - Equal Employment Opportunity** **(C)** Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.” It is the policy of REGION 4 ESC not to discriminate on the basis of race, color, national origin, gender, limited English proficiency or disabling conditions in its programs. Vendor agrees not to discriminate against any employee or applicant for employment to be employed in the performance of this Contract, with respect to hire, tenure, terms, conditions and privileges of employment, or a matter directly or indirectly related to employment, because of age (except where based on a bona fide occupational qualification), sex (except where based on a bona fide occupational qualification) or race, color, religion, national origin, or ancestry. Vendor further agrees that every subcontract entered into for the performance of this Contract shall contain a provision requiring non-discrimination in employment herein specified binding upon each subcontractor. Breach of this covenant may be regarded as a material breach of the Contract. *Pursuant to Federal Rule (**C**) and the requirements stated above, when federal funds are expended by REGION 4 ESC on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.* ☑ I certify compliance with this attribute.

108	**Federal Rule (D) - Davis Bacon Act/Copeland Act** **(D)** Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146- 3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. *Pursuant to Federal Rule (**D**) above, when federal funds are expended by REGION4 ESC, during the term of an award for all contracts and subgrants for construction or repair, the vendor will be in compliance with all applicable Davis-Bacon Act provisions.* ☑ I certify compliance with this attribute.
109	**Federal Rule (E) - Contract Work Hours and Safety Standards Act** **(E)** (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. *Pursuant to Federal Rule (**E**) above, when federal funds are expended by REGION 4 ESC, the vendor certifies that during the term of an award for all contracts by REGION 4 ESC resulting from this procurement process, the vendor will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act.* ☑ I certify compliance with this attribute.
110	**Federal Rule (F) - Rights to Inventions Made Under a Contract or Agreement** **(F)**If the Federal award meets the definition of “funding agreement” under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency. *Pursuant to Federal Rule (**F**) above, when federal funds are expended by REGION 4 ESC, the vendor certifies that during the term of an award for all contracts by REGION 4 ESC resulting from this procurement process, the vendor agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.* ☑ I certify compliance with this attribute.

111	**Federal Rule (G) - Clean Air Act/Federal Water Pollution Control Act** **(G)** The Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). When federal funds are expended by REGION 4 ESC for any contract resulting from this procurement process, the vendor certifies that the vendor will be in compliance with mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (Pub. L. 94-163, 89 Stat. 871). When federal funds are expended by REGION 4 ESC for any contract resulting from this procurement process in excess of $100,000, the vendor certifies that the vendor is in compliance with all applicable standards, orders, regulations, and/or requirements issued pursuant to the Clean Air Act of 1970, as amended (42 U.S.C. 1857(h)), Section 508 of the Clean Water Act, as amended (33 U.S.C. 1368), Executive Order 117389 and Environmental Protection Agency Regulation, 40 CFR Part 15. *Pursuant to Federal Rule (**G**) above, when federal funds are expended by REGION 4 ESC, the vendor certifies that during the term of an award for all contracts by REGION 4 ESC resulting from this procurement process, the vendor agrees to comply with all applicable requirements as referenced in Federal Rule (**G**) above.* ☑ I certify compliance with this attribute.
112	**Federal Rule (H) - Debarment and Suspension** **(H)** (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. *Pursuant to Federal Rule (**H**) above, when federal funds are expended by REGION 4 ESC, the vendor certifies that during the term of an award for all contracts by REGION 4 ESC resulting from this procurement process, the vendor certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency or by the State of Texas. Vendor shall immediately provide written notice to REGION 4 ESC if at any time the vendor learns that this certification was erroneous when submitted or has become erroneous by reason of changed circumstances. REGION 4 ESC may rely upon a certification of a vendor that the vendor is not debarred, suspended, ineligible, or voluntarily excluded from the covered contract, unless REGION 4 ESC knows the certification is erroneous.* ☑ I certify compliance with this attribute.

113

Federal Rule (I) - Byrd Anti-Lobbying Amendment

(I) (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

*Pursuant to Federal Rule (**I**) above, when federal funds are expended by REGION 4 ESC, the vendor certifies that during the term and after the awarded term of an award for all contracts by REGION 4 ESC resulting from this procurement process, the vendor certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:*

(1) No Federal appropriated funds have been paid or will be paid by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of a Federal contract, the making of a Federal grant, the making of a Federal loan, the entering into a cooperative agreement, and the extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement.
(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.
(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.
This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certificate is a prerequisite for making or entering into this transaction imposed by Section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

☑ I certify compliance with this attribute.

114

Federal Rule (J) - Procurement of Recovered Materials

(J) When federal funds are expended by REGION 4 ESC, REGION 4 ESC and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include: (1) procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; (2) procuring solid waste management services in a manner that maximizes energy and resource recovery; and (3) establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

*Pursuant to Federal Rule (**J**) above, when federal funds are expended REGION 4 ESC, as required by the Resource Conservation and Recovery Act of 1976 (42 U.S.C. § 6962(c)(3)(A)(i)), the vendor certifies, by signing this document, that the percentage of recovered materials content for EPA-designated items to be delivered or used in the performance of the contract will be at least the amount required by the applicable contract specifications or other contractual requirements.*

☑ I certify compliance with this attribute.

115

Federal Rule (K) - Prohibition on certain Telecom and Surveillance Service and Equipment

(K) ALIEF ISD, as a non-federal entity, is prohibited from obligating or expending Federal financial assistance, to include loan or grant funds, to: (1) procure or obtain,
(2) extend or renew a contract to procure or obtain, or
(3) enter into a contract (or extend or renew a contract) to procure or obtain, equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as a critical technology as part of any system. Covered telecommunications equipment is telecommunications equipment produced Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities) and physical security surveillance of critical infrastructure and other national security purposes, and video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities) for the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes detailed in 2 CFR § 200.216.

The Respondent certifies that it will not purchase equipment, services, or systems that use covered telecommunications, as defined herein, as a substantial or essential component of any system, or as critical technology as part of any system.

☑ I certify compliance with this attribute.

116

Federal Rule (L) - Buy American Provisions

(L) As appropriate and to the extent consistent with law, REGION 4 ESC has a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States, including but not limited to iron, aluminum, steel, cement, and other manufactured products, when spending federal funds. Vendor agrees that the requirements of this section will be included in all subawards including all contracts and purchase orders for work or products under this award, to the greatest extent practicable under a Federal award. Purchases that are made with non-federal funds or grants are excluded from the Buy American Act.

Vendor certifies that it is in compliance with all applicable provisions of the Buy American Act. Purchases made in accordance with the Buy American Act must still follow the applicable procurement rules calling for free and open competition.

"Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States. "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

☑ I certify compliance with this attribute.

117

Federal Rule - Required Affirmative Steps for Small, Minority, And Women-Owned Firms for Contracts Paid for with Federal Funds

When federal funds are expended by REGION 4 ESC, Vendor is required to take all affirmative steps set forth in 2 CFR 200.321 to solicit and reach out to small, minority and women owned firms for any subcontracting opportunities on the project, including:

1) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

☑ I certify compliance with this attribute.

118	**Federal Rule - Federal Record Retention** When federal funds are expended by REGION 4 ESC for any contract resulting from this procurement process, the vendor certifies that it will comply with the record retention requirements detailed in 2 CFR §200.334. The vendor further certifies that vendor will retain all records as required by 2 CFR §200.334 for a period of five (5) years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed. Vendor agrees that REGION 4 ESC, Inspector General, Department of Homeland Security, FEMA, the Comptroller General of the United States, or any of their duly authorized representatives shall have access to any books, documents, papers and records of Vendor, and its successors, transferees, assignees, and subcontractors that are directly pertinent to the Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Vendor's personnel for the purpose of interview and discussion relating to such documents. Vendor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed. Vendor agrees to provide the FEMA Administrator or his authorized representative access to construction or other work sites pertaining to the work being completed under the Contract. ☑ I certify compliance with this attribute.
119	**Federal Rule - Profit Negotiation** For purchases using Federal funds in excess of $250,000, REGION 4 ESC may be required to negotiate profit as a separate element of the price. (See 2 CFR 200.324(b)). When required by REGION 4 ESC, Vendor agrees to provide information relating to profitability of the given transaction and itemize the profit margin as a separate element of the price. ☑ I certify compliance with this attribute.
120	**Federal Rule - Solid Waste Disposal Act** A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Sold Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceed $10,000; procuring sold waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines. (78 FR 78608, Dec. 26, 2013, as amended at 79 FR 75885, Dec. 19, 2014.) Pursuant to this federal rule, when federal funds are expended by REGION 4 ESC, the vendor certifies that during the term of all contracts resulting from this procurement process, the vendor agrees to comply with all applicable requirements as referenced in this paragraph. ☑ I certify compliance with this attribute.

121	**Federal Rule - Never Contract with the Enemy – 2 C.F.R. § 200.215** When federal funds are expended by REGION 4 ESC for grant and cooperative agreements, or any contract resulting from this procurement process, that are expected to exceed $50,000 within the period of performance, and are performed outside of the United States, including U.S. territories, to a person or entity that is actively opposing United States or coalition forces involved in a contingency operation in which members of the Armed Forces are actively engaged in hostilities, REGION 4 ESC will terminate any grant or cooperative agreement or contract resulting from this procurement process as a violation of Never Contract with the Enemy detailed in 2 CFR Part 183. The vendor certifies that it is neither an excluded entity under the System for Award Management (SAM) nor Federal Awardee Performance and Integrity Information System (FAPIIS) for any grant or cooperative agreement terminated due to Never Contract with the Enemy as a Termination for Material Failure to Comply. AISD has a responsibility to ensure no Federal award funds are provided directly or indirectly to the enemy, to terminate subawards in violation of Never Contract with the Enemy, and to allow the Federal Government access to records to ensure that no Federal award funds are provided to the enemy. ☑ I certify compliance with this attribute.
122	**Applicability to Subcontractors** Vendor agrees that all contracts it awards pursuant to this procurement action shall be bound by the terms and conditions of this procurement action. ☑ I certify compliance with this attribute.
123	**Compliance with the Energy Policy and Conservation Act** When REGION 4 ESC expends federal funds for any contract resulting from this procurement process, Vendor certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18). ☑ I certify compliance with this attribute.

124	**Indemnification** **Acts or Omissions** Vendor shall indemnify and hold harmless Region 4, AND/OR THEIR OFFICERS, AGENTS, EMPLOYEES, REPRESENTATIVES, CONTRACTORS, ASSIGNEES, AND/OR DESIGNEES FROM ANY AND ALL LIABILITY, ACTIONS, CLAIMS, DEMANDS, OR SUITS, AND ALL RELATED COSTS, ATTORNEY FEES, AND EXPENSES arising out of, or resulting from any acts or omissions of the Vendor or its agents, employees, subcontractors, Order Fulfillers, or suppliers of subcontractors in the execution or performance of the Contract and any Purchase Orders issued under the Contract. **Infringements** a) Vendor shall indemnify and hold harmless Region 4 and Customers, AND/OR THEIR EMPLOYEES, AGENTS, REPRESENTATIVES, CONTRACTORS, ASSIGNEES, AND/OR DESIGNEES from any and all third party claims involving infringement of United States patents, copyrights, trade and service marks, and any other intellectual or intangible property rights in connection with the PERFORMANCES OR ACTIONS OF VENDOR PURSUANT TO THIS CONTRACT. VENDOR AND THE CUSTOMER AGREE TO FURNISH TIMELY WRITTEN NOTICE TO EACH OTHER OF ANY SUCH CLAIM. VENDOR SHALL BE LIABLE TO PAY ALL COSTS OF DEFENSE INCLUDING ATTORNEYS' FEES. b) Vendor shall have no liability under this section if the alleged infringement is caused in whole or in part by: (i) use of the product or service for a purpose or in a manner for which the product or service was not designed, (ii) any modification made to the product without Vendor's written approval, (iii) any modifications made to the product by the Vendor pursuant to Customer's specific instructions, (iv) any intellectual property right owned by or licensed to Customer, or (v) any use of the product or service by Customer that is not in conformity with the terms of any applicable license agreement. c) If Vendor becomes aware of an actual or potential claim, or Customer provides Vendor with notice of an actual or potential claim, Vendor may (or in the case of an injunction against Customer, shall), at Vendor's sole option and expense; (i) procure for the Customer the right to continue to use the affected portion of the product or service, or (ii) modify or replace the affected portion of the product or service with functionally equivalent or superior product or service so that Customer's use is non-infringing. **Taxes/Workers' Compensation/Unemployment Insurance – Including Indemnity** a) VENDOR AGREES AND ACKNOWLEDGES THAT DURING THE EXISTENCE OF THIS CONTRACT, VENDOR SHALL BE ENTIRELY RESPONSIBLE FOR THE LIABILITY AND PAYMENT OF VENDOR'S AND VENDOR'S EMPLOYEES' TAXES OF WHATEVER KIND, ARISING OUT OF THE PERFORMANCES IN THIS CONTRACT. VENDOR AGREES TO COMPLY WITH ALL STATE AND FEDERAL LAWS APPLICABLE TO ANY SUCH PERSONS, INCLUDING LAWS REGARDING WAGES, TAXES, INSURANCE, AND WORKERS' COMPENSATION. THE CUSTOMER AND/OR REGION 4 SHALL NOT BE LIABLE TO THE VENDOR, ITS EMPLOYEES, AGENTS, OR OTHERS FOR THE PAYMENT OF TAXES OR THE PROVISION OF UNEMPLOYMENT INSURANCE AND/OR WORKERS' COMPENSATION OR ANY BENEFIT AVAILABLE TO A STATE EMPLOYEE OR EMPLOYEE OF ANOTHER GOVERNMENTAL ENTITY CUSTOMER. b) VENDOR AGREES TO INDEMNIFY AND HOLD HARMLESS CUSTOMERS, REGION 4 AND/OR THEIR EMPLOYEES, AGENTS, REPRESENTATIVES, CONTRACTORS, AND/OR ASSIGNEES FROM ANY AND ALL LIABILITY, ACTIONS, CLAIMS, DEMANDS, OR SUITS, AND ALL RELATED COSTS, ATTORNEYS' FEES, AND EXPENSES, RELATING TO TAX LIABILITY, UNEMPLOYMENT INSURANCE AND/OR WORKERS' COMPENSATION IN ITS PERFORMANCE UNDER THIS CONTRACT, VENDOR SHALL BE LIABLE TO PAY ALL COSTS OF DEFENSE INCLUDING ATTORNEYS' FEES. ☑ I certify compliance with this attribute.
125	**Excess Obligations Prohibited** Proposer understands that all obligations of Region 4 ESC under the contract are subject to the availability of state funds. If such funds are not appropriated or become unavailable, the contract may be terminated by Region 4 ESC. ☑ I certify compliance with this attribute.
126	**Suspension and Debarment** Respondent certifies that neither it nor its principals are debarred, suspended, proposed for debarment, declared ineligible, or otherwise excluded from participation in the contract by any state or federal agency. ☑ I certify compliance with this attribute.

127	**Change in Law and Compliance with Laws** Proposer shall comply with all laws, regulations, requirements and guidelines applicable to a vendor providing services and products required by the contract to the Region 4 ESC, as these laws, regulations, requirements and guidelines currently exist and as amended throughout the term of the contract. Region 4 ESC reserves the right, in its sole discretion, to unilaterally amend the contract prior to award and throughout the term of the contract to incorporate any modifications necessary for compliance with all applicable state and federal laws, regulations, requirements and guidelines. ☑ I certify compliance with this attribute.

Texas Government Code 2270 Verification Form

House Bill 89 (85R Legislative Session), which adds Chapter 2270 to the Texas Government Code, provides that a governmental entity may not enter into a contract with a company without verification that the contracting vendor does not and will not boycott Israel during the term of the contract.

Furthermore, Senate Bill 252 (85R Legislative Session), which amends Chapter 2252 of the Texas Government Code to add Subchapter F, prohibits contracting with a company engaged in business with Iran, Sudan or a foreign terrorist organization identified on a list prepared by the Texas Comptroller.

I, Jennifer Kanach, as an authorized representative of

Carahsoft Technology Corporation, a contractor engaged by

Insert Name of Company

Region 4 Education Service Center, 7145 West Tidwell Road, Houston, TX 77092, verify by this writing that the above-named company affirms that it (1) does not boycott Israel; and (2) will not boycott Israel during the term of this contract, or any contract with the above-named Texas governmental entity in the future.

Also, our company is not listed on and we do not do business with companies that are on the Texas Comptroller of Public Accounts list of Designated Foreign Terrorists Organizations found at https://comptroller.texas.gov/purchasing/docs/foreign-terrorist.pdf.

I further affirm that if our company's position on this issue is reversed and this affirmation is no longer valid, that the above-named Texas governmental entity will be notified in writing within one (1) business day and we understand that our company's failure to affirm and comply with the requirements of Texas Government Code 2270 et seq. shall be grounds for immediate contract termination without penalty to the above-named Texas governmental entity.

I swear and affirm that the above is true and correct.

Re: Carahsoft's Response to the Region 4 Education Service Center's Request for Proposal: Software Solutions and Services, Solicitation Number: #24-03

Dear Contracting Officer,

Carahsoft Technology Corp. appreciates the opportunity to respond to the Region 4 Education Service Center (ESC)'s Request for Proposal (RFP): Software Solutions and Services. Carahsoft is proposing our catalog of supported vendors to meet the ESC's requirements for Software Solutions and Services. Our team has reviewed and considered ESC's requirements outlined in the RFP and has carefully put together a solution that will best meet your needs.

Carahsoft, The Trusted Government IT Solutions Provider®, is responding as a current OMNIA contractor and reseller for a portfolio of industry-leading solutions.

Contract Title	Contract Number	Lead Agency
Educational Software Solutions and Services	R191902	Region 4 ESC - TX
Human Capital Management Systems and Managed Business Solutions	R200702	Region 4 ESC - TX
Technology Products, Solutions and Related Services	23-6692-01	Cobb County, GA

As the Master Government Aggregator® for our vendor partners, Carahsoft has combined extensive knowledge of the technologies we provide with a thorough understanding of the government procurement process, to analyze needs, provide configuration support, simplify the ordering process, and offer special government pricing since 2004. Working with resellers, systems integrators and consultants, our sales and marketing teams provide industry leading IT products, services, and training to support Public Sector organizations across Federal, State and Local Government agencies and Education and Healthcare markets.

Please feel free to contact me directly at 703.889.9872/Benjamin.Rader@carahsoft.com or Madeline Hall at 703.230.7450/Madeline.Hall@carahsoft.com with any questions or communications that will assist ESC in the evaluation of our response. This proposal is valid for 120 days from the date of submission.

Thank you for your time and consideration.

Sincerely,

Benjamin Rader

Pricing 68

A) PRODUCTS AND PRICING

i. Offerors shall provide pricing based on a discount from a manufacturer's price list or catalog, or fixed price, or a combination of both with indefinite quantities. Prices listed will be used to establish the extent of a manufacturer's product lines, services, warranties, etc. that are available from Offeror and the pricing per item. Multiple percentage discounts are acceptable if, where different percentage discounts apply, the different percentages are specified. Additional pricing and/or discounts may be included. Products and services proposed are to be priced separately with all ineligible items identified. Offerors may elect to limit their proposals to any category or categories.

Carahsoft has read, understands, and will comply with this requirement. Our pricing has been included at the end of our submission.

ii. Include an electronic copy of the catalog from which discount, or fixed price, is calculated. Electronic price lists must contain the following: (if applicable)

- *Manufacturer part #*
- *Offeror's Part # (if different from manufacturer part #)*
- *Description*
- *Manufacturers Suggested List Price and Net Price*
- *Net price to Region 4 ESC (including freight)*
- *Offer an extensive robust line of top manufacturers*
- *Submitted price list must include the Offerors' company name, solicitation*
- *name/number and date.*
- *List all categories that you are offering*

Carahsoft has read, understands, and will comply with this requirement. Carahsoft is proposing to extend the pricing discounts that are offered in our current contract with Region 4 ESC (Contract R191902). This pricelist can be viewed at the following link: https://www.omniapartners.com/publicsector/suppliers/carahsoft-technology-corp/contract-documentation#c35362

iii. Is pricing available for all products and services?

Yes, pricing is available for all our offerings.

iv. Describe any shipping charges (where applicable). All deliveries shall be freight prepaid F.O.B. destination and shall be included in all pricing unless otherwise clearly stated in writing.

Carahsoft understands this requirement and can confirm all pricing provided is comprehensive.

v. Provide pricing for warranties on all products and services.

All products and services come with an initial warranty included in the price. Additional warranties are available upon request.

vi. Describe any return and restocking fees.

We do not offer a return policy on software and services, and due to the nature of the offered software licenses and services there are no restocking concerns.

vii. Describe customer fulfillment process

Carahsoft's number one concern is providing all orders swiftly and accurately. Our customer fulfillment process includes a number of safeguards to ensure that each order is handled efficiently, and each customer is satisfied with their procurement.

When a purchase order is received from the customer, a unique Carahsoft sales order number is generated. The purchase order is then entered in the accounting system where a Carahsoft purchase order is generated to submit to the vendor. After the PO is submitted and the order has been shipped, the vendor issues an invoice to Carahsoft. Once the vendor invoice is received, it generates the corresponding customer invoice. The customer's payment is due within 30 days and payment closes out once payment of their invoice is received.

Customers may place orders with Carahsoft in a variety of methods. Acceptances of physical PO, contracts, electronic orders, fax are all acceptable order methods. Carahsoft strives to be easy to do business will engage customers in the manner best suited for the customer.

viii. Describe any additional discounts or rebates available. Additional discounts or rebates may be offered for large quantity orders, single ship to location, growth, annual spend, guaranteed quantity, etc.

Additional discounts can be provided on a deal-by-deal basis.

ix. Describe how customers verify they are receiving Contract pricing.

Carahsoft has a representative that manages our current Omnia contract. This same representative will help manage this contract, and will help ensure that all Participating Agencies will receive the Master Agreement pricing through any distributors or reseller partners. In addition, the contract pricing will be listed for all our in-house sales representatives to chose in our internal, custom built Customer Relationship Management Platform to ensure direct deals are properly priced according to the Master Agreement.

x. Describe invoicing process. Include payment terms and acceptable methods of payment outlining any associated fees pertaining to credit card/p-cards.

Carahsoft's preferred payment terms are Net30. Carahsoft accepts orders via purchase order, credit card (phone or web), direct invoices, customer contracts and similar, and will work with Region 4 ESC to reach an agreement on preferred forms of payment

xi. Propose the frequency of updates to the Offeror's pricing structure. Describe any proposed indices to guide price adjustments. If offering a catalog contract with discounts by category, while changes in individual pricing may change, the category discounts should not change over the term of the Contract.

This information varies by manufacturer.

xii. Describe how future product introductions will be priced and align with Contract pricing proposed.

Carahsoft will add products and services that are in scope of the contract per the terms and conditions and discounts proposed.

xiii. Provide any additional information relevant to this section.

Carahsoft has no additional relevant information for this section.

B) Performance Capability

i. Include a detailed response to Appendix D, Exhibit A, OMNIA Partners Response for National Cooperative Contract. Responses should highlight experience, demonstrate a strong national presence, describe how Offeror will educate its national sales force about the Contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and reported to OMNIA Partners.

Please see under "Exhibit A - 3.0 Supplier Response."

ii. The successful Offeror will be required to sign Appendix D, Exhibit B, OMNIA Partners Administration Agreement prior to Contract award. Offerors should have any reviews required to sign the document prior to submitting a response. Offeror's response should include any proposed redlined exceptions to OMNIA Partners Administration Agreement

Carahsoft understands and acknowledges this requirement. Please see all exceptions listed in Appendix B attached to the desginated location on the portal.

iii. Include completed Appendix D, Exhibits F. Federal Funds Certifications and G. New Jersey Business Compliance.

Please find Exhibit F and Exhibit G located in the designated section in the portal.

iv. Describe how Offeror responds to emergency orders.

Once Carahsoft has received an order it places the order with the manufacturer to send to the customer directly. Many of Carahsoft's orders are software, so there is an instant delivery per the agreed upon schedule, which can be escalated in the case of an emergency.

v. What is Offeror's average Fill Rate?

We are able to fill all orders for the solutions provided in this proposal 100% of the time, due to inventory and restocking not being a concern for software and services.

vi. What is Offeror's average on time delivery rate? Describe Offeror's history of meeting the shipping and delivery timelines.

Carahsoft delivers all of its orders on time. Once Carahsoft has received an order it places the order with the manufacturer to send to the customer directly. Many of Carahsoft's orders are software, so there is an instant delivery per the agreed upon schedule.

vii. Describe Offeror's return and restocking policy.

We do not offer a return policy on software and services, and due to the nature of the offered software licenses and services there are no restocking concerns.

viii. Describe Offeror's ability to meet service and warranty needs.

All products and services come with an initial warranty included in the price. Additional warranties are available upon request.

ix. Describe Offeror's customer service/problem resolution process. Include hours of operation, number of services, etc.

Carahsoft's hours are from 8:30am - 5:30pm EST, but our vendors offer a variety of customer service hours, often providing avenues for 24/7 care.

x. Describe Offeror's invoicing process. Include payment terms and acceptable methods of payments. Offerors shall describe any associated fees pertaining to credit cards/p-cards.

Carahsoft's preferred payment terms are Net30. Carahsoft accepts orders via purchase order, credit card (phone or web), direct invoices, customer contracts and similar, and will work with Region 4 ESC to reach an agreement on preferred forms of payment

xi. Describe Offeror's contract implementation/customer transition plan.

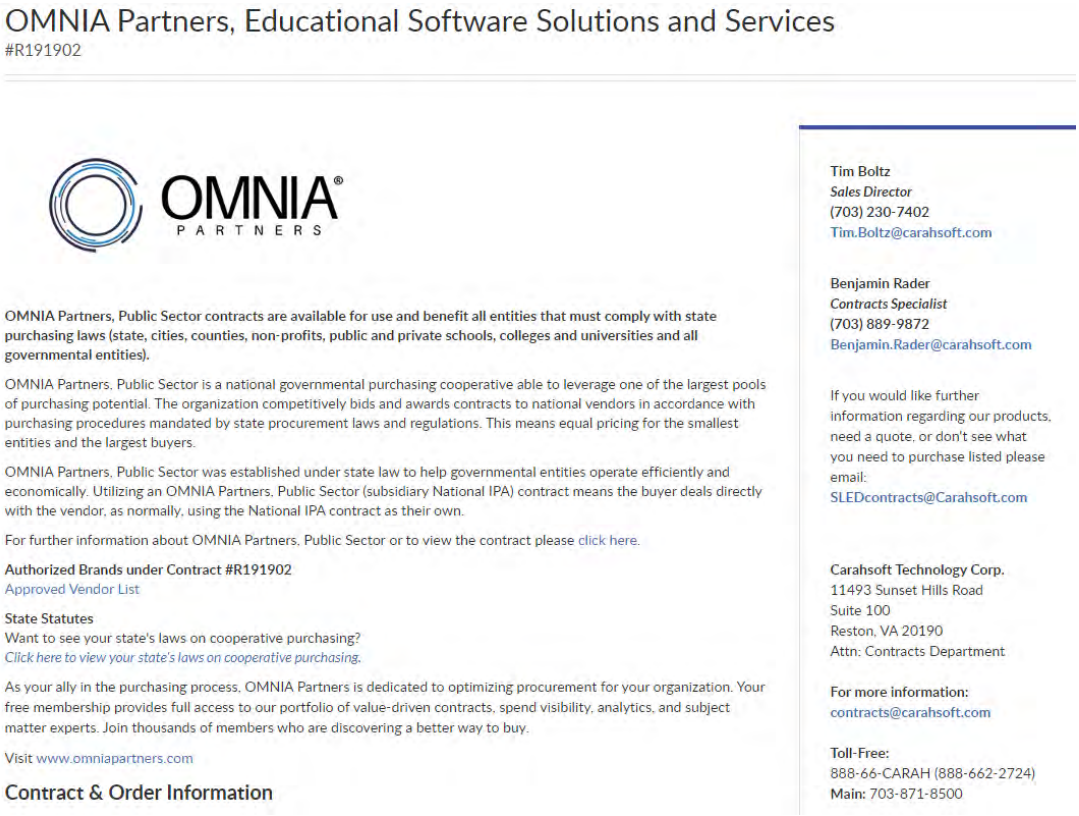
During the first ten days following contract award, the Carahsoft team will conduct additional discovery activities. We have identified the keys to establishing a successful project are open discussion, careful planning and proactive risk identification and mitigation.

The Carahsoft team will immediately work with the Region 4 ESC representatives, our staff and partners in a series of meetings and workshops from the executive level to the staff level to ensure the compliance of product delivery and contract requirements. This process is the first step in the Carahsoft Team's successful contract performance

On Day One of contract award, Carahsoft will launch our Region 4 ESC ten day marketing blitz. We will also begin to convert quotes in our CRM system to Region 4 ESC quotes. This transition will help provide Carahsoft with additional opportunities throughout the United States and will motivate customers to utilize different Region 4 ESC contracts in the process.

xii. Describe the financial condition of Offeror.

As a privately owned company, Carahsoft does not publicly release financial information. We are a stable, conservative, and profitable company which has grown, since founding in 2004, from $4M in bookings to more than $16.4B in 2023. The company has received numerous accolades for our business performance from our manufacturing partners and the industry, including annual recognition (detailed further on our website) in the CRN Solution Provider 500 (2006-Present), Washington Technology's Top 100 Government Contractors (2010-Present), and the Washington Business Journal's Largest Government Contractors (2011-Present).



We currently maintain a $25M line of credit available (currently 100% available) with Xenith Bank. Should you require our audited financial statements or have further financial inquiries, we would be happy to provide additional information under separate cover to the specific individual that would be reviewing them.

Specific questions may be referred to Craig P. Abod, *President of Carahsoft Technology Corp.*

xiii. Provide a website link in order to review website ease of use, availability, and capabilities related to ordering, returns and reporting. Describe the website's capabilities and functionality.

Carahsoft will develop and maintain a microsite that will be dedicated to this Contract. This will be a supplement to the Vendor support site and will include materials such as:

- Contract Information
- Contract FAQ Document
- Product Information
- Catalog/ Pricelist Information
- Additional Contractual Information

OMNIA Partners, Educational Software Solutions and Services
#R191902

OMNIA PARTNERS

OMNIA Partners, Public Sector contracts are available for use and benefit all entities that must comply with state purchasing laws (state, cities, counties, non-profits, public and private schools, colleges and universities and all governmental entities).

OMNIA Partners, Public Sector is a national governmental purchasing cooperative able to leverage one of the largest pools of purchasing potential. The organization competitively bids and awards contracts to national vendors in accordance with purchasing procedures mandated by state procurement laws and regulations. This means equal pricing for the smallest entities and the largest buyers.

OMNIA Partners, Public Sector was established under state law to help governmental entities operate efficiently and economically. Utilizing an OMNIA Partners, Public Sector (subsidiary National IPA) contract means the buyer deals directly with the vendor, as normally, using the National IPA contract as their own.

For further information about OMNIA Partners, Public Sector or to view the contract please click here.

xiv. Describe the Offeror's safety record.

Carahsoft has a clean safety record, as we carry no inventory to risk employee's safety,

xv. Provide any additional information relevant to this section.

We have no further information to provide in this section.

C) QUALIFICATION AND EXPERIENCE

i. Provide a brief history of the Offeror, including year it was established and corporate office location.

Carahsoft Technology Corp. is an IT solutions provider delivering best-of-breed hardware, software, and support solutions to federal, state and local government agencies. Formed by a group of seasoned professionals with decades of experience in sales, marketing and contract program management, Carahsoft has built our reputation as a customer-centric organization.

The Carahsoft team has a proven history of helping agencies find the best possible technology solution at the best possible value. Each customer works directly with a dedicated account representative to determine a solution tailored specifically to meet his or her needs. We combine our extensive knowledge of the technologies we provide, with a thorough understanding of the government procurement process, to analyze needs, provide configuration support, simplify the ordering process, and offer special government pricing.

Carahsoft will leverage its experience with state and federal procurement agencies to streamline the ordering process for the State of Texas. Carahsoft maintains state-wide contracts in Texas, Ohio, Pennsylvania, California, Florida, Illinois, Maryland, New York State, North Carolina, and Virginia. Additionally, Carahsoft Technology Corp. currently holds many of the proposed products on our GSA Schedule contract (47QSWA18D008F).

ii. Describe Offeror's reputation in the marketplace.

Carahsoft has a unique business model focusing on providing superior sales and marketing execution, a track record of success, high integrity, and a focus on strategic vendor relationships. Carahsoft offers a vast portfolio and provides many value adds that other large reseller companies cannot attain. However, As an IT reseller and distributor, Carahsoft works together with a number of other companies and strives to maintain positive relationships in the IT industry because the IT business requires cooperation on all levels. We are a stable, conservative, and profitable company and have received numerous accolades, as detailed below and further on our awards page: http://www.carahsoft.com/awards

- Top Ranked GSA Multiple Award Schedule Contract holder for software
- #22 on Washington Business Journal's Largest Government Contractors List for 2023
- #31 on Washington Technology's Top 100 Government Contractors List for 2023
- Fed 100 Winner and Ernst & Young Entrepreneur of the Year, Craig P. Abod, President and CEO; Fed 100 Winner, John Lee, Vice President of Cloud Services

iii. Describe Offeror's reputation of products and services in the marketplace.

In addition to our awards above, Carahsoft maintains one of the largest partner networks in the industry and can provide a quote for any vendor in 30 minutes.

iv. Provide a current list of Authorized Distributors/Resellers including contact information and geographical area.

Carahsoft would like to leverage our entire partner network, to ensure that all OMNIA Partners have the best coverage and options available on the market, no matter their need or location. Considering the constantly expanding nature of our current partner network of over 4,000 partners, Carahsoft is unable to list all potential partners at this time. Carahsoft will act as the main point of contact for any processing, handling or shipping of any products or services to the end user and can even provide direct contact information for our manufacturer or reseller partners to facilitate communication if needed.

v. Describe the experience and qualification of key employees.

Carahsoft has managed and administered a variety of cooperative contracts for nearly 20 years, and our dedicated team members have hands-on experience working with OMNIA's needs and requirements. Our leadership team has ample management experience for Texas' account size and type as evidenced below:

Name	Title	Years of Experience
Craig P. Abod	President	40 years
Robert Moore	Vice President	25 years
Karina Woods	Director, Order Management	25 years
Julie Denworth	Director, Marketing	20 years
Tim Boltz	Director, Sales	15 years
Karlie Schachle	Manager, Contract Validation and Reporting	14 years
Madeline Hall Barfield	Manager, Contract Administration	12 years
Benjamin Rader	Contracts Specialist	2 years

Robert R. Moore, Vice President

- Senior Sales Executive with a 25 year accomplished career track
- Held senior sales management positions throughout a dynamic tenure in US Government Information Technology Sales
- Developed multiple successful; selling organizations from the ground up to revenues greater than $500M
- Has contributed to the development of several organizations from the start-up/ incubator phase into mature successful selling phases
- Successful and experienced at performing all aspects of monthly sales forecasting and competitive analyses to develop highly successful selling organizations
- 25 years of total experience in Government IT Sales in positions that have ranged from Technical Account Manager, Director of Sales and several Senior Sales Management posts

Julie Denworth, Vice President, Marketing

- 20 years of experience growing and managing marketing teams to support demand generation in the public sector
- 10+ years of experience as a senior marketing executive
- Committed to ensuring marketing operational success through implementation of best practices and careful assessment of value provided through each program
- Directed competitive research, lead generation activities, nurture programs, channel and internal communications / promotional programs

Karina Woods, Director, Order Management

- 20 years of experience with order management and data entry at Carahsoft, including processing invoices and billing transactions
- Billing and invoicing for software and services that are highly transactional in nature (consumption-based licensing models, cloud services, etc.)
- Tracking extremely large quantiles of orders on a daily, monthly, and yearly basis.
- Managing and tracking orders for Carahsoft's Billing Team, and providing the Billing Team with key information needed to invoice certain orders that are handled with attention to detail and focus

vi. Describe Offeror's experience working with the government sector.

Carahsoft has been providing best of breed hardware, software, and support solutions to federal, state, and local government agencies since 2004, processing over 388,969 orders. Additionally, over the past 20 years Carahsoft has acquired and maintained a wide variety of purchasing contract vehicles for agencies at the state, local, and federal levels. Associated with all contracts are dedicated and experienced contract management resources. A list of available contracts can be found at www.carahsoft.com/contracts/index.php.

vii. Describe past litigation, bankruptcy, reorganization, state investigations of entity or current officers and directors.

Carahsoft does not have any such actions.

viii. Indicate if Offeror is licensed to do business in all 50 states

Carahsoft is licensed to do business in all 50 states.

ix. Provide Offeror's expertise in working with public sector and understanding of the unique technical regulatory requirements.

Carahsoft has secured numerous contracts that enable Carahsoft and our partners to serve public sector customers throughout the United States and Canada. We are a topperforming contractor for the GSA Schedule, SEWP V and ITES-SW2 contracts. We hold several agency-specific contracts and Department of Defense Enterprise Software Initiative agreements and provide our EDU and SLG customers with access to technology via The Quilt contract, the NASPO Value Point and OMNIA Partners cooperating purchasing agreements, and numerous state and reseller contracts.

We have established strategic, long-term relationships with the industry's leading manufacturers including Adobe, Splunk, Google Cloud, Amazon Web Services, Microsoft, VMware, Salesforce, Zoom, DocuSign, Micro Focus Government Solutions, Dell Technologies, Snowflake, Palo Alto Networks, ServiceNow, Veritas, Broadcom, and SAP, among hundreds of other established and emerging technology providers.

Our partner ecosystem encompasses more than 4,000+ government contractors, resellers, and integrators who we support and enable with an entire suite of value- added opportunities that run the gamut from training/certification and pre-sales support to lead generation and business development.

By providing an unparalleled volume of proactive, government-focused sales and marketing, including 4,400+ educational events and campaigns annually, we drive demand for our partners. As a result, we now serve as the largest government partner for the majority of our vendors, who have also entrusted other

major aspects of their businesses to Carahsoft including partner enablement, commercial sales, renewals and upsell, and help desk services.

x. Provide a minimum of 10 customer references relating to the products and services within this RFP. Include entity name, contact name and title, contact phone and email, city, state, years serviced, description of services and annual volume.

Carahsoft actively administers and maintains several cooperative purchasing contracts for the General Services Administration (GSA), National Aeronautics and Space Administration (NASA), National Association of State Procurement Officials (NASPO), OMNIA Partners, Texas Department of Information Resources (among many others), and Public Services and Procurement Canada (PSPC).

xi. Provide any additional information relevant to this section.

Not applicable.

D) VALUE ADD

i. Provide any additional information related to products and services Offeror proposes to enhance and add value to the Contract.

Carahsoft will provide the following additional value-added services at no additional cost to Region 4 ESC:

1. Dedicated Account Manager
2. Program Management
3. Training Webcasts & Access to Carahsoft Facilities
4. Proactive Marketing of the Contract
5. Monthly/Quarterly Reports
6. Dedicated Phone Lines & Live Chat
7. Dedicated Contract Microsite
8. Dedicated Email Address

The following is an in-depth description of the bulleted list above.

1. Dedicated Account Management

In support of the Contract, Carahsoft will provide a focused Account Manager (AM), who will be dedicated to supporting your requirements and this Contract. The AM will be responsible for all aspects of Contract management and be the single point of contact for providing technical help for all the products offered on this proposal.

Sales, order management, and contracting functions that Carahsoft will do for this contract include the following:

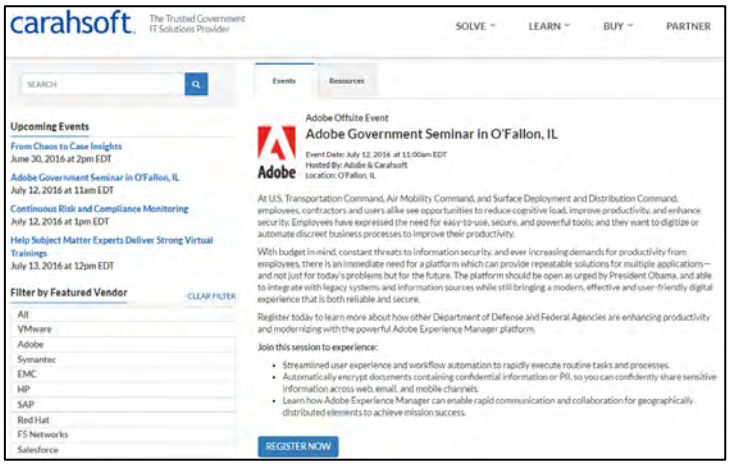
- Assistance with the established license distribution procedures
- Product expertise/assistance
- Configuration assistance
- Support for downloads
- Support for customers migrating from existing license contracts
- On demand historical download reports
- Contracts questions
- Assistance with product version, updates and upgrade questions
- Ensure timely delivery of Evidence of Entitlement (or related)
- Evidence of Entitlement (or related) supported by matching receipt
- Co-terming maintenance renewals and existing agreements

2. Program Management

Carahsoft will assign a Program Manager for this Contract who will provide strategic leadership and vision while executing the Contract. The Program Manager's responsibilities will include quality assurance, progress/status reporting, schedule, risk identification/handling/mitigation strategy and program reviews.

3. Training Webcasts & Access to Carahsoft Facilities

At no additional cost, Carahsoft will provide a regular training webcast for Region 4 ESC. These webcasts shall include information regarding new product releases, product patch/ upgrade information or short training webcasts should the need arise and educate users on the following:



- The terms of the Contract
- Software available on the Contract
- Updates and upgrades as they become available
- New technologies as they become available

These webinars will also be archived and housed on the Contract website so users can view them on demand.

Region 4 ESC will have access to training facilities (user groups, vendor day, and product training) located at Carahsoft headquarters in Reston, Virginia, upon request.

4. Proactive Marketing of the Contract

Carahsoft conducted over 4,850 government specific marketing events in 2023. A few examples include:

- Quarterly Newsletters
- Annual government summits
- Brochures
- Product specific webcasts
- Onsite training seminars
- Representation at government shows
- Host Government User Groups
- Outbound Call campaigns
- Executive Forums
- News Announcements
- Social media promotion (Twitter, Linked In, Facebook, Carahsoft Community)
- Website content/reciprocal links (Carahsoft website page; content for contract sponsor page)
- Marketing materials (FAQs, contract overviews, solution spec sheets, powerpoint slides)
- Training documents
- Co-branded tradeshow graphics, giveaways, display materials
- Tradeshow participation (national, state and local government and education shows)
- Digital and print ads
- Email campaigns
- Proactive marketing opportunity available through:
  - National Coalition for Public Procurement (NCPP) – publicprocurementcoalition.org
  - Institute for Public Procurement (NIGP) – nigp.org
  - National Association of Counties (NACo) – naco.org
  - The United States Conference of Mayors – usmayors.org
  - National League of Cities – nlc.org

- National Governors Association – nga.org
- Relevant State Associations

Carahsoft feels that this proactive marketing will be valuable to Region 4 ESC in terms of promoting this Contract, as well as educating end user on the benefits of the Contract.

5. Monthly/Quarterly Reports

In managing similar Contracts with other government agencies, Carahsoft has developed numerous best practices with providing monthly usage reports. As part of this Contract, Carahsoft will provide monthly license distribution reports to include the following:

- Dates licenses were downloaded
- Dates licenses were shipped
- Ship to Point of Contact
- Number of Licenses
- Version numbers
- Deliver to address
- Current price of the software

This report will differentiate between existing licenses being rolled into the Contract, and new licenses deployed under this agreement. In addition to the monthly reports, Carahsoft will have the ability to produce on-demand usage reports as requested through the Account Manager.

6. Dedicated Phone Lines & Live Chat

Carahsoft will provide a dedicated phone line to be used exclusively for activities supporting this Contract. Both toll and toll-free lines will be made available.

The telephone number will be included on all quotations, emails, website(s), and other documentation regarding this Contract. This dedicated line rings simultaneously to a group of individuals working on this Contract, ensuring that calls are always answered live. Additionally, Carahsoft offers Live Chat capabilities through our homepage (www.carahsoft.com). The Live Chat feature will provide Region 4 ESC with another channel for contacting Carahsoft, and expedite the process for receiving immediate customer service.

7. Dedicated Contract Microsite

Carahsoft will develop and maintain a microsite that will be dedicated to this Contract. This will be a supplement to the Vendor support site and will include materials such as:

- Contract Information
- Contract FAQ Document
- Product Information
- Catalog/ Pricelist Information
- Additional Contractual Information

The following are examples of Dedicated Websites for current Carahsoft contracts:

- OMNIA Partners, Educational Software Solutions and Services #R191902
- OMNIA Partners, Cobb County, GA Technology Products, Solutions and Related Services # 23-6692-01
- NASA SEWP V Contract # NNG15SC03B/NNG15SC27B

8. Dedicated Email Address

Additionally, a dedicated email address will be created in support of this at omniapartners@carahsoft.com or any email Region 4 ESC would like. As with the phone lines, these email aliases would be routed to all individuals at Carahsoft that support this Contract. In this manner, any inquiries received via email would be addressed immediately which would once again enable the quickest execution for all customer service actions.

EXHIBIT A - 3.0 SUPPLIER RESPONSE

3.1 Company

A. Brief history and description of Supplier to include experience providing similar products and services.

Carahsoft Technology Corp. is The Trusted Government IT Solutions Provider®, supporting Public Sector organizations across Federal, State and Local Government agencies and Education and Healthcare markets. As the Master Government Aggregator® for our vendor partners, we deliver solutions for Cybersecurity, MultiCloud, DevSecOps, Big Data, Artificial Intelligence, Open Source, Customer Experience and more. Working with resellers, systems integrators and consultants, our sales and marketing teams provide industry leading IT products, services, and training through hundreds of contracts. Founded in 2004, Carahsoft is headquartered in Reston, Virginia.

B. Total number and location of salespersons employed by Supplier.

Carahsoft employees approximately 3,500 persons.

C. Number and location of support centers (if applicable) and location of corporate office.

Carahsoft's main office is located at 11493 Sunset Hills Road, Reston, VA 20190.

D. Annual sales for the three previous fiscal years.

2021 - $10.6B
2022 - $12.5B
2023 - $16.4B

a. Submit FEIN and Dunn & Bradstreet report.

Please find our Dunn & Bradstreet Writeup provided in the designated section in the portal.
FEIN#: 52-2189693
DUNS: 088365767

E. Describe any green or environmental initiatives or policies.

As a value-added reseller, Carahsoft is committed to providing third-party commercial-off-the-shelf (COTS) IT solutions and services that empower our customers to innovate sustainably, and reduce their environmental footprints simultaneously. We integrate environmental considerations into our operations by prioritizing several areas of sustainability:

- Product/Solution Delivery: As a value-added reseller, Carahsoft primarily delivers for third-party COTS IT solutions and services, via Electronic Software Delivery (ESD). Delivering products and solutions via ESD helps our customers minimize their carbon and energy footprints by reducing the toxic emissions and waste that would be required to package, transport, and deliver a physical product/solution.

- Sustainable Facilities: Although Carahsoft is not directly involved in manufacturing any of the solutions that we resell, our office facilities have been configured to conserve resources and maximize energy efficiency. Each room in our main office includes motion-sensing lights, which are designed to conserve energy when a room/facility is not in use. We leverage Elkay EZH2O Bottle

Filling Stations that enhance sustainability by minimizing dependency on disposable plastic bottles. Our restrooms include sensor-activated flush valves, automatic soap dispensers, and paperless hand dryers that reduce paper and water waste. In an effort to promote recycling, we have included single-stream recycling bins and receptacles in various locations within our office.

- Sustainable Transit and Transportation: Carahsoft encourages our employees to leverage public transportation and shared transit in their commutes. Our office is within walking distance to multiple Fairfax Connector bus stations, and has been located within a half mile of a Washington Metropolitan Area Transit Authority (WMATA) metrorail station since 2015. Employees are reimbursed for expenses associated with mass transportation system, which encourages travel via means that will reduce fuel consumption and carbon emissions. We incentivize employees who carpool with other Carahsoft employees by providing them with parking permits that provide access to reserved preferential parking.

- IT Infrastructure: Carahsoft has configured our internal IT environment to leverage products, solutions, and devices that will minimize energy consumption to the maximum extent possible. Our workforce utilizes solutions from the Electronic Product Environment Assessment Tool (EPEAT) Registry and Energy Star programs, which are designed to use substantially less electricity when they are idle/not in use. We leverage a hybrid cloud environment, which drastically reduces our physical server footprint (and the amount of energy that would heat and cool a physical data center).

- Marketing and Digital Media: Carahsoft hosts hundreds of virtual events (webinars, webcasts, and similar) each year. These events are recorded and archived, so that they can be accessed at a later date. We leverage prominent social media platforms (Twitter, Facebook, and LinkedIn) to advertise events and promote content. This reduces the carbon emissions that result from hosting and/or attending on-site events, as well as the waste produced by promoting events and solutions via paper products.

- Solutions Portfolio: Carahsoft's unrivaled portfolio includes IT solutions and services that assist our customers with large-scale telework and online learning initiatives. We support hundreds of best-of-breed vendors that deliver solutions that enable telework, support collaboration, ensure business continuity, and scale communications channels and security. Many of the cloud vendors within our portfolio have implemented environmental energy efficiency plans for their data centers. Additionally, we support several industry-leading hardware providers with solutions in the EPEAT Registry and Energy Star programs.

Carahsoft is always open to suggestions on how we can encourage more sustainable practices and how we can implement additional policies to further reduce our company's carbon footprint.

F. Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.

Carahsoft maintains a vast ecosystem of partners of various socioeconomic classifications, including resellers, systems integrators, and service providers. The Carahsoft partner network includes a very

diverse group with varying specializations, credentials, product lines, and business types, including over 700 Small Businesses. If awarded, Carahsoft will leverage our experience managing this vast partner ecosystem to support the participation of MWBEor SDVOB certified businesses.

G. Indicate if supplier holds any of the below certifications in any classified areas and include proof of such certification in the response:

a. Minority Women Business Enterprise:

☐Yes ☒ No
If yes, list certifying agency: _____

b. Small Business Enterprise (SBE) or Disadvantaged Business Enterprise (DBE):

☐Yes ☒ No
If yes, list certifying agency: _____

c. Historically Underutilized Business (HUB): Yes / No
If yes, list certifying agency: _____

☐Yes ☒ No
If yes, list certifying agency: _____

d. Historically Underutilized Business Zone Enterprise (HUBZone):

☐Yes ☒ No
If yes, list certifying agency: _____

e. Other recognized diversity certificate holder:

☐Yes ☒ No
If yes, list certifying agency: _____

H. List any relationships with subcontractors or affiliates intended to be used when providing services and identify if subcontractors meet minority-owned standards. If any, list which certifications subcontractors hold and certifying agency.

As described above, Carahsoft has a robust partner network, many of which do meet minority owned standards.

I. Describe how supplier differentiates itself from its competitors.

Carahsoft has a vast knowledge of Omnia which stems from our extensive experience and participation in the program. In addition to the experience with Omnia Carahsoft brings, we also exhibit key differentiators which set us apart from the industry and our competitors. Carahsoft's top three differentiating strengths include:

1. Sales & Marketing – Carahsoft provides innovative sales and marketing programs to each vendor we support. Carahsoft's dedicated proactive sales team focuses on lead generation, proactive inside sales, and provides responsive sales support. We work with vendors to develop a joint sales process based on the vendor go-to-market strategy and work to align the Carahsoft sales team with vendor and reseller teams.

Carahsoft's comprehensive marketing program is supported by a dedicated marketing team of 220+ reps. The marketing team plans and executes many informative events throughout the year to drive demandincluding but not limited to: webcasts, on-site events (Carahsoft hosted and third-party hosted), conferences and trade shows, email campaigns, social media campaigns, advertising and thought-leadership. Carahsoft invests in many marketing resources that we extend to our vendor teams to maximize marketing effectiveness and amplify the vendor's messaging.

2. Proven Execution – Carahsoft has leveraged its vast contracting experience and extended it to quoting and order management. In our experience managing public sector aggregation programs on behalf of other industry leading vendors, Carahsoft has the operation excellence in place to free up vendor resources previously committed these tasks. We feel our model will allow Autodesk to "offload" some of these tasks on Carahsoft, knowing that we are fully committed and capable of servicing the partner eco-system.

- Carahsoft seamlessly generates quotes within 30 minutes or less
- Carahsoft has a team dedicated to renewals sales and a leadershipgroup to ensure that each team is working at an optimal level.

3. Knowledge of Government – The government market is complex and the intricacies offer the opportunity for an innovative model driven to best serve government customers and add value to the channel. Carahsoft has extensive knowledge and decades of expertise in understanding the public sector market, including:

- Unique budget and procurement cycles
- Specific contract requirements and set-asides
- Audits, regulations and compliance
- The value of Prime Contractors and Systems Integrators and how to work with them
- Competitive marketplace
- Security Clearances
- Collection of A/R requires expertise and focus

Carahsoft stays current with government requirements, trends and initiatives by attending and participating in many industry events. We also rely on the expertise of our industry consultants who are former government executives.

J. Describe any present or past litigation, bankruptcy or reorganization involving supplier.

Not applicable.

K. Felony Conviction Notice: Indicate if the supplier

a. is a publicly held corporation and this reporting requirement is not applicable;
b. is not owned or operated by anyone who has been convicted of a felony; or Version March 19, 2024
c. is owned or operated by and individual(s) who has been convicted of a felony and provide the names and convictions.

Not applicable.

L. Describe any debarment or suspension actions taken against supplier

Not applicable.

3.2 Distribution, Logistics

A. Each offeror awarded an item under this solicitation may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by supplier.

Carahsoft is leveraging our vast ecosystem of manufacturer, reseller, and services partners. Please see our attached corporate line card for an idea of the large partner network we can provide for this initiative.

B. Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the Master Agreement, including U.S. Territories and Outlying Areas.

Carahsoft holds many other contract vehicles with State and Local agencies. We are happy to offer these to any states where products and services will not be offered under the Master Agreement. Please see a full list of our contracts here: https://www.carahsoft.com/buy#state-local

C. Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.

Carahsoft has a representative that manages our current Omnia contract. This same representative will help manage this contract, and will help ensure that all Participating Agencies will receive the Master Agreement pricing through any distributors or reseller partners. In addition, the contract pricing will be listed for all our in-house sales representatives to chose in our internal, custom built Customer Relationship Management Platform to ensure direct deals are properly priced according to the Master Agreement.

D. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.

Carahsoft would like to leverage our entire partner network, to ensure that all OMNIA Partners have the best coverage and options available on the market, no matter their need or location. Considering the constantly expanding nature of our current partner network of over 4,000 partners, Carahsoft is unable to list all potential partners at this time. Carahsoft will act as the main point of contact for any processing, handling or shipping of any products or services to the end user and can even provide direct contact information for our manufacturer or reseller partners to facilitate communication if needed.

E. Provide the number, size and location of Supplier's distribution facilities, warehouses and retail network as applicable.

Carahsoft is capable of shipping to any customer worldwide from our main headquarters in Reston, VA. As a North American distributor, 99% of hardware deliveries are made within the continent and mostly within continental US or US address abroad.

3.3 Marketing and Sales

A. Given the public nature of the solicitation and contract, OMNIA Partners makes solicitation and contract documentation, including pricing documents, available on its website so Participating Public Agencies may easily conduct their due diligence. Describe any portions of the response that should not be available on the website and why those portions should not be available.

Carahsoft has no sections we wish to withhold from the Omnia website.

B. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as supplier's primary go to market strategy for Public Agencies to supplier's teams nationwide, to include, but not limited to:

i. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days
ii. Training and education of Supplier's national sales force with participation from the Supplier's executive leadership, along with the OMNIA Partners team within first 90 days

Carahsoft can confirm we will have dedicated contract management and marketing personnel involved to determine strategies to advertise the new contract and determine the best ways to ensure our in house personnel, manufacturer partners and reseller partners can leverage the contract.

C. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:

i. Creation and distribution of a co-branded press release to trade publications

Carahsoft will post a co-branded press release on our website, as well as a trade publication such as GlobeNewswire. Here is an example from a previous contract: https://www.globenewswire.com/news-release/2020/05/21/2037187/0/en/Carahsoft-Awarded-Educational-Software-Solutions-and-Services-Contract-through-OMNIA-Partners-Public-Sector.html

ii. Announcement, Master Agreement details and contact information published on the Supplier's website within first 90 days

Carahsoft posts all contracts and agreement details on our website at the following link: https://www.carahsoft.com/buy#omnia-partners-public-sector. Upon award, Carahsoft will add the relevant contract details to the website above.

iii. Design, publication and distribution of co-branded marketing materials within first 90 days

Carahsoft's dedicated marketing team will edit current materials to add co-branded marketing on this contract to our proven end-user / customer initiatives such as the following:

- On-Site Events
- Webcasts
- Tradeshows
- Industry conferences
- Email Campaigns
- Digital and Print ads

iv. Commitment to attendance and participation with OMNIA Partners at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, Regional Cooperative Summits, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement

Carahsoft offers deep experience in public sector marketing. Our dedicated team plans, promotes and executes more than 4,850 public-sector marketing campaigns and events each year, including contract specific promotional activities such as national, state and local government and education shows. We would be more than happy to participate with OMNIA Partners at these trade shows, or additional trade shows that may be beneficial to promoting the Master Agreement.

v. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner suppliers. Booth space will be purchased and staffed by Supplier. In addition, Supplier commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.

Carahsoft can commit to attend the NIGP Annual Forum.

vi. Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement

As a prime government aggregator, Carahsoft is constantly utilizing marketing efforts to drive and identify new and upcoming business. We confirm that we will include this contract in our marketing efforts throughout the term of the Master Agreement through national and regional trade publications.

vii. Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.)

Carahsoft relishes the opportunity to promote our success stories to our current and future customers. We confirm that we will continue to make updated publications and materials throughout the contract term to promote the Master Agreement.

viii. Dedicated OMNIA Partners internet web-based homepage on Supplier's website with:

- *OMNIA Partners standard logo;*
- *Copy of original Request for Proposal;*
- *Copy of Master Agreement and amendments between Principal Procurement Agency and Supplier;*
- *Summary of Products and pricing;*
- *Marketing Materials*
- *Electronic link to OMNIA Partners' website including the online registration page;*
- *A dedicated toll-free number and email address for OMNIA Partners*

Carahsoft has a dedicated OMNIA contract page for our current contract here: https://www.carahsoft.com/buy/slg-contracts/all-states/omnia-partners-edu#resources. Upon award, we will add the details provided above for this current contract to our page. We are also more than happy to edit the information provided for our current contracts if necessary to meet the OMNIA partner's goals.

D. Describe how Supplier will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Supplier holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

Carahsoft holds a mulititude of contracts for the convenience of our Government customers. Each agency often requires different terms and conditions or contract vehicles and we work diligently to discuss the right option for each customer. Carahsoft has a database of information to determine the best contract to use for each agency, and vendor. Carahsoft will utilize this database when discussing options with our government customers, and recommend this contract for our SLED customers whenever possible.

E. Acknowledge Supplier agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.

Carahsoft agrees to provide its logo to OMNIA partners for reproduction in marketing communications and promotions. We will be sure to request permission when reproducing the OMNIA Partners logo in our own marketing communications and promotions.

F. Confirm Supplier will be proactive in direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Supplier's sales initiatives should communicate:

i. Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency
ii. Best government pricing
iii. No cost to participate
iv. Non-exclusive

As discussed above, Carahsoft will actively direct sales to Public agencies nationwide through this contract. We will be sure to include the above bullets in our initiatives.

G. Confirm Supplier will train its national sales force on the Master Agreement. At a minimum, sales training should include:

i. Key features of Master Agreement
ii. Working knowledge of the solicitation process
iii. Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners
iv. Knowledge of benefits of the use of cooperative contracts

Carahsoft will appoint a contract manager upon award who will instruct any sales personnel on the details listed above.

H. Provide the name, title, email and phone number for the person(s), who will be responsible for:

i. Executive Support
ii. Marketing
iii. Sales
iv. Sales Support
v. Financial Reporting

vi. Accounts Payable
vii. Contracts

The security and privacy of each of Carahsoft's employees are of the upmost importance to the company. Due to the sensitive nature of this information, Carahsoft respectfully declines to share names and contact information for specific employees at this stage. We would be more than happy to provide this information upon award or sample resumes upon down selection directly to the evaluation team where it will not be part of the public record.

I. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

Please see the attachment labelled "Carahsoft's Organization Chart". Due to our employee confidentiality and the public nature of procurement documents, Carahsoft respectfully declines to provide the contact information for our employees at this time.

I. Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

Our sales teams will be educated on the availability of this contract, and the relevant contract details so they can offer this contract as an option for our government customers to utilize when purchasing IT Solutions and Services.

J. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account setup, timely contract administration, etc.

Carahsoft will appoint a dedicated Contract Manager who will help manage communications received from Participating Public Agency's requesting to account set up, and who will manage any contract administration requirements.

K. State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

Carahsoft completed $16.4B in sales in 2023, however due to customer confidentiality Carahsoft is unable to provide total purchase numbers and contact information on documents subject to the public record.

L. Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

The Carahsoft Team is fully able to send and receive Delivery Orders, Order Status Reports, Post Order Reports, Administrative Handling Fees, and the like in any format that is most comfortable to our Government Customers. Carahsoft accepts orders via purchase order, credit card (phone or web), direct invoices, customer contracts and similar.

M. Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

$_____.00 in year one
$_____.00 in year two
$_____.00 in year three

To the extent Supplier guarantees minimum Contract Sales, the Administrative Fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

Carahsoft cannot guarantee a specific number of Contract Sales at this time.

N. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).
ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.
iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).
iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Carahsoft will work with our Government customers to ensure we provide the best possible pricing for each individual deal and contract to ensure we are meeting and exceeding their needs.

ADDITIONAL REQUIRED DOCUMENTS

Carahsoft's W-9

Please see our W-9 below.

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
Carahsoft Technology Corporation

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☑ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
11493 Sunset Hills Rd

Requester's name and address (optional)

6 City, state, and ZIP code
Reston, VA 20190

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
			–			–				

or

Employer identification number
5	2	–	2	1	8	9	6	9	3

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here | **Signature of U.S. person ▶** [signature] **Date ▶** 1/2/24

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9.*

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

Exhibit F
Federal Funds Certifications

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non–Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non–Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non–Federal entity that, consistent with 31 U.S.C. 6302–6305:

(a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non–Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;

(b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non–Federal entity in carrying out the activity contemplated by the Federal award.

(c) The term does not include:

(1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or

(2) An agreement that provides only:

(i) Direct United States Government cash assistance to an individual;

(ii) A subsidy;

(iii) A loan;

(iv) A loan guarantee; or

(v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non–Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

(a)(1) The Federal financial assistance that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non–Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;
(b) Is not organized primarily for profit; and
(c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non–Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non–Federal entity during the same or a future period.

Pass-through entity means a non–Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non–Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non–Federal entity may purchase property or services using small purchase methods. Non–Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non–Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Per FAR 52.204-24 and FAR 52.204-25, solicitations and resultant contracts shall contain the following provisions.

52.204-24 Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (Oct 2020)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Items. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) *Definitions.* As used in this provision—

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) *Prohibition*.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (https://www.sam.gov) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) *Representation.* The Offeror represents that—

(1) It □ will, ☒ will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It □ does, ☒ does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) *Disclosures.*

(1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer.

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

52.204-25 Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment (Aug 2020).

(a) *Definitions.* As used in this clause—

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (*e.g.*, connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (*e.g.*, fiber optic, coaxial cable, Ethernet).

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means–

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means–

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled-

(i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

(ii) For reasons relating to regional stability or surreptitious listening;

(3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

(4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

(5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or

(6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

Interconnection arrangements means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (*e.g.*, connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Reasonable inquiry means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

Roaming means cellular communications services (*e.g.*, voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) *Prohibition*.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) *Exceptions.* This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at https://dibnet.dod.mil. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at https://dibnet.dod.mil.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause

(i) Within one business day from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency's subcontractors shall contain the procurement provisions of Appendix II to Part 200, as applicable.

APPENDIX II TO 2 CFR PART 200

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Offeror as detailed in the terms of the contract.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does offeror agree to abide by the above? YES _____ Initials of Authorized Representative of offeror

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non - Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work

Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, offeror will be in compliance with all applicable Davis-Bacon Act provisions.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

In the event Federal Transit Administration (FTA) or Department of Transportation (DOT) funding is used by Participating Public Agency, Offeror also agrees to include Clean Air and Clean Water requirements in each subcontract exceeding $100,000 financed in whole or in part with Federal assistance provided by FTA.

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency. If at any time during the term of an award the offeror or its principals becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency, the offeror will notify the Participating Agency.

(I) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (I) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(3) The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, offeror certifies that it will comply with the record retention requirements detailed in 2 CFR § 200.333. The offeror further certifies that offeror will retain all records as required by 2 CFR § 200.333 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT

When Participating Agency expends federal funds for any contract resulting from this procurement process, offeror certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18).

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, offeror certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition. Additionally:

(1) The Contractor agrees to comply with 49 USC 5323(j) and 49 CFR Part 661, which provide that federal funds may not be obligated unless steel, iron and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 CFR 661.7.A general public interest waiver from the Buy America requirements applies to microprocessors, computers, microcomputers, software or other such devices, which are used solely for the purpose of processing or storing data. This general waiver does not extend to a product or device that merely contains a microprocessor or microcomputer and is not used solely for the purpose of processing or storing data. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR 661.11.

(2) A bidder or offeror must submit to the FTA recipient the appropriate Buy America certification with all bids on FTA-funded contracts, except those subject to a general waiver. Bids or offers that are not accompanied by a completed Buy America certification must be rejected as nonresponsive. This requirement does not apply to lower tier subcontractors.

The following certificates titled FTA and DOT Buy America Certification should be completed and returned with the response as part of FTA and DOT requirements.

FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS

Awarded Supplier(s) (also referred to as Contractors) may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a proposal, the Supplier is accepted these FEMA and Additional Federal Funding Special Conditions required by the Federal Emergency Management Agency (FEMA) and other federal entities.

"Contract" in the below pages under FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS is also referred to and defined as the "Master Agreement".

"Contractor" in the below pages under FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension), must be rejected and cannot receive contract awards at any level.

Notice of Legal Matters Affecting the Federal Government

In the event FTA or DOT funding is used by Participating Public Agency, Contractor agrees to:

1) The Contractor agrees that if a current or prospective legal matter that may affect the Federal Government emerges, the Contractor shall promptly notify the Participating Public Agency of the legal matter in accordance with 2 C.F.R. §§ 180.220 and 1200.220.

2) The types of legal matters that require notification include, but are not limited to, a major dispute, breach, default, litigation, or naming the Federal Government as a party to litigation or a legal disagreement in any forum for any reason.

3) The Contractor further agrees to include the above clause in each subcontract, at every tier, financed in whole or in part with Federal assistance provided by the FTA.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:
a. Equal opportunity and nondiscrimination laws
b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7
c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Federal Requirements

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. CONTRACT REMEDIES

Contracts for more than the federal simplified acquisition threshold (SAT), the dollar amount below which an NFE may purchase property or services using small purchase methods, currently set at $250,000 for procurements made on or after June 20, 2018,4 must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms and must provide for sanctions and penalties as appropriate.

1.1 Applicability
This contract provision is required for contracts over the SAT, currently set at $250,000 for procurements made on or after June 20, 2018. Although not required for contracts at or below the SAT, FEMA suggests including a remedies provision.

1.2 Additional Considerations
For FEMA's Assistance to Firefighters Grant (AFG) Program, recipients must include a penalty clause in all contracts for any AFG-funded vehicle, regardless of dollar amount. In that situation, the contract must include a clause addressing that non-delivery by the contract's specified date or other vendor nonperformance will require a penalty of no less than $100 per day until such time that the vehicle, compliant with the terms of the contract, has been accepted by the recipient. This penalty clause should, however, account for force majeure or acts of God. AFG recipients should refer to the applicable year's Notice of Funding Opportunity (NOFO) for additional information, which can be accessed at FEMA.gov.

2. TERMINATION FOR CAUSE AND CONVENIENCE

a. Standard. All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix II(B).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

3. EQUAL EMPLOYMENT OPPORTUNITY

When applicable:

a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R.
§ 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60- 1.4(b), in accordance with Executive Order 11246**,** *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p.
339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41
C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II(C).

b. Key Definitions.

i. Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract,

loan, insurance, or guarantee under which the applicant itself participates in the construction work.

ii. Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

c. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

d. Required Language. The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September

24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or

suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

4. DAVIS-BACON ACT

a. Standard. All prime construction contracts in excess of $2,000 awarded by non- Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction). See 2 C.F.R. Part 200, Appendix II(D). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

b. Applicability. The Davis-Bacon Act applies to the Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program.

c. Requirements. If applicable, the non-federal entity must do the following:

i. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

ii. Additionally, pursuant 2 C.F.R. Part 200, Appendix II(D), contracts subject to the Davis-Bacon Act, must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

iii. Include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction").

Suggested Language. The following provides a sample contract clause:

Compliance with the Davis-Bacon Act.

a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and

3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.

b. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

c. Additionally, contractors are required to pay wages not less than once a week.

5. COPELAND ANTI-KICKBACK ACT

a. Standard. Recipient and subrecipient contracts must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").

b. Applicability. This requirement applies to all contracts for construction or repair work above $2,000 in situations where the Davis-Bacon Act also applies. It DOES NOT apply to the FEMA Public Assistance Program.

c. Requirements. If applicable, the non-federal entity must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). Each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA. Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

Sample Language. The following provides a sample contract clause:

Compliance with the Copeland "Anti-Kickback" Act.

a. Contractor. The contractor shall comply with 18 U.S.C. §874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

b. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

6. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

a. Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.

b. Applicability. This requirement applies to all FEMA contracts awarded by the non- federal entity in excess of $100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of
$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency or

loan/grant recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT

a. Standard. If the FEMA award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non- Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).

b. Applicability. This requirement applies to "*funding agreements*," but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of "funding agreement."

c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

a. Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).

b. Applicability. This requirement applies to contracts awarded by a non-federal entity of amounts in excess of $150,000 under a federal grant.

c. Suggested Language. The following provides a sample contract clause.

Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. DEBARMENT AND SUSPENSION

a. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

c. Requirements.

i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530.

ii. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipients.

iii. Specifically, a covered transaction includes the following contracts for goods or services:

1. The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

2. The contract requires the approval of FEMA, regardless of amount.

3. The contract is for federally-required audit services.

4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d. Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the Participating

Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

10. BYRD ANTI-LOBBYING AMENDMENT

a. Standard. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. FEMA's regulation at 44 C.F.R. Part 18 implements the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the Federal awarding agency.

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs. Contractors that apply or bid for a contract of $100,000 or more under a federal grant must file the required certification. See 2 C.F.R. Part 200, Appendix II(I); 31 U.S.C. § 1352; and 44 C.F.R. Part 18.

c. Suggested Language.

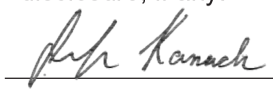
Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

d. Required Certification. If applicable, contractors must sign and submit to the non-federal entity the following certification.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING
Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:



1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, Jennifer Kanach, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

11. PROCUREMENT OF RECOVERED MATERIALS

a. Standard. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. See 2 C.F.R. Part 200, Appendix II(J); and 2 C.F.R. §200.322.

b. Applicability. This requirement applies to all contracts awarded by a non- federal entity under FEMA grant and cooperative agreement programs.

c. Requirements. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds
$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

d. Suggested Language.

i. In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—

1. Competitively within a timeframe providing for compliance with the contract performance schedule;
2. Meeting contract performance requirements; or
3. At a reasonable price.

ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.

iii. The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act."

12. **DOMESTIC PREFERENCES FOR PROCUREMENTS**

As appropriate, and to the extent consistent with law, CONTRACTOR should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products or materials produced in the United States. This includes, but is not limited to, iron, aluminum, steel, cement, and other manufactured products.

Applicability For purchases in support of FEMA declarations and awards issued on or after November 12, 2020, all FEMA recipients and subrecipients are required to include in all contracts and purchase orders for work or products a contract provision encouraging domestic preference for procurements.

Domestic Preference for Procurements As appropriate, and to the extent consistent with law, the contractor should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products. For purposes of this clause: Produced in the United States means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States. Manufactured products mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber."

13. **ACCESS TO RECORDS**

a. Standard. All recipients, subrecipients, successors, transferees, and assignees must acknowledge and agree to comply with applicable provisions governing DHS access to records, accounts, documents, information, facilities, and staff. Recipients must give DHS/FEMA access to, and the right to examine and copy, records, accounts, and other documents and sources of information related to the federal financial assistance award and permit access to facilities, personnel, and other individuals and information as may be necessary, as required by DHS regulations *and* other applicable laws or program guidance. See DHS Standard Terms and Conditions: Version 8.1 (2018). Additionally, Section 1225 of the Disaster Recovery Reform Act of 2018 prohibits FEMA from providing reimbursement to any state, local, tribal, or territorial government, or private non-profit for activities made pursuant to a contract that purports to prohibit audits or internal reviews by the FEMA administrator or Comptroller General.

Access to Records. The following access to records requirements apply to this contract:

i. The Contractor agrees to provide Participating Public Agency, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

ii. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

iii. The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

iv. In compliance with the Disaster Recovery Act of 2018, the Participating Public Agency and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

14. CHANGES

a. Standard. To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope.

b. Applicability. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

15. DHS SEAL, LOGO, AND FLAGS

a. Standard. Recipients must obtain permission prior to using the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials. See DHS Standard Terms and Conditions: Version 8.1 (2018).

b. Applicability. FEMA recommends that all non-Federal entities place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

c. "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

16. COMPLIANCE WITH FEDERAL LAW, REGULATIONS, AND EXECUTIVE ORDERS

a. Standard. The recipient and its contractors are required to comply with all Federal laws, regulations, and executive orders.

b. Applicability. FEMA recommends that all non-Federal entities place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable Federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

c. "This is an acknowledgement that FEMA financial assistance will be used to fund all or a portion of the contract. The contractor will comply with all applicable Federal law, regulations, executive orders, FEMA policies, procedures, and directives."

17. NO OBLIGATION BY FEDERAL GOVERNMENT

a. Standard. FEMA is not a party to any transaction between the recipient and its contractor. FEMA is not subject to any obligations or liable to any party for any matter relating to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

c. "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

18. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

a. Standard. Recipients must comply with the requirements of The False Claims Act (31 U.S.C. §§ 3729-3733) which prohibits the submission of false or

fraudulent claims for payment to the federal government. See DHS Standard Terms and Conditions: Version 8.1 (2018); and 31 U.S.C. §§ 3801-3812, which details the administrative remedies for false claims and statements made. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

c. "The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract."

d. In the event FTA or DOT funding is used by a Participating Public Agency, Contractor further acknowledges U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, and apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to me made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to me made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA

under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.

Offeror agrees to comply with all terms and conditions outlined in the FEMA Special Conditions section of this solicitation.

Offeror's Name: Carahsoft Technology Corporation

Address, City, State, and Zip Code:
11493 Sunset Hills Road, Suite 100, Reston, VA 20190

Phone Number: 703-871-8500 Fax Number: 703-871-8505

Printed Name and Title of Authorized Representative:
Jennifer Kanach, Secretary

NEW JERSEY BUSINESS COMPLIANCE

Suppliers intending to do business in the State of New Jersey must comply with policies and procedures required under New Jersey statues. All offerors submitting proposals must complete the following forms specific to the State of New Jersey. Completed forms should be submitted with the offeror's response to the RFP. Failure to complete the New Jersey packet will impact OMNIA Partners' ability to promote the Master Agreement in the State of New Jersey.

DOC #1	Ownership Disclosure Form
DOC #2	Non-Collusion Affidavit
DOC #3	Affirmative Action Affidavit
DOC #4	Political Contribution Disclosure Form
DOC #5	Stockholder Disclosure Certification
DOC #6	Disclosure of Investment Activities in Iran
DOC #7	Certification of Non-Involvement in Prohibited Activities in Russia or Belarus
DOC #8	New Jersey Business Registration Certificate
DOC #9	EEOAA Evidence
DOC #10	MacBride Principals Form

New Jersey suppliers are required to comply with the following New Jersey statutes when applicable:

- all anti-discrimination laws, including those contained in N.J.S.A. 10:2-1 through N.J.S.A. 10:2-14, N.J.S.A. 10:5-1, and N.J.S.A. 10:5-31 through 10:5-38;
- Prevailing Wage Act, N.J.S.A. 34:11-56.26, for all contracts within the contemplation of the Act;
- Public Works Contractor Registration Act, N.J.S.A. 34:11-56.26; and
- Bid and Performance Security, as required by the applicable municipal or state statutes.

STATEMENT OF OWNERSHIP DISCLOSURE

N.J.S.A. 52:25-24.2 (P.L. 1977, c.33, as amended by P.L. 2016, c.43)

This statement shall be completed, certified to, and included with all bid and proposal submissions. Failure to submit the required information is cause for automatic rejection of the bid or proposal.

PROCUREMENT, PROFESSIONAL AND SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of it testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

Signature of Procurement Agent

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of $17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
    a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12. They will be updated from time-to-time as necessary.
    b. A public agency using these forms **should edit them to properly reflect the correct legislative district**(s). As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
    c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
    d. The form may be used "as-is", subject to edits as described herein.
    e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
    f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
    - of the public entity awarding the contract
    - of that county in which that public entity is located
    - of another public entity within that county
    - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

BID SOLICITATION # AND TITLE: #24 - 03 Software Solutions and Services

VENDOR NAME: Carahsoft Technology Corporation

Pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4) any person or entity that submits a bid or proposal or otherwise proposes to enter into or renew a contract must certify that neither the person nor entity, nor any of its parents, subsidiaries, or affiliates, is identified on the New Jersey Department of the Treasury's Chapter 25 List as a person or entity engaged in investment activities in Iran. The Chapter 25 list is found on the Division's website at https://www.state.nj.us/treasury/purchase/pdf/Chapter25List.pdf. Vendors/Bidders must review this list prior to completing the below certification. If the Director of the Division of Purchase and Property finds a person or entity to be in violation of the law, s/he shall take action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

CHECK THE APPROPRIATE BOX

☑ I certify, pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4), that neither the Vendor/Bidder listed above nor any of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List of entities determined to be engaged in prohibited activities in Iran.

OR

☐ I am unable to certify as above because the Vendor/Bidder and/or one or more of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List. I will provide a detailed, accurate and precise description of the activities of the Vendor/Bidder, or one of its parents, subsidiaries or affiliates, has engaged in regarding investment activities in Iran by completing the information requested below.

Entity Engaged in Investment Activities _____
Relationship to Vendor/ Bidder _____
Description of Activities _____
_____
_____
Duration of Engagement _____
Anticipated Cessation Date
**Attach Additional Sheets If Necessary.*

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I may be subject to criminal prosecution under the law, and it will constitute a material breach of my contract(s) with the State, permitting the State to declare any contract(s) resulting from this certification void and unenforceable.

CERTIFICATION OF NON-INVOLVEMENT IN PROHIBITED ACTIVITIES IN RUSSIA OR BELARUS

Pursuant to N.J.S.A. 52:32-60.1, et seq. (L. 2022, c. 3) any person or entity (hereinafter "Vendor[i]") that seeks to enter into or renew a contract with a State agency for the provision of goods or services, or the purchase of bonds or other obligations, must complete the certification below indicating whether or not the Vendor is identified on the Office of Foreign Assets Control (OFAC) Specially Designated Nationals and Blocked Persons list, available here: https://sanctionssearch.ofac.treas.gov/. If the Department of the Treasury finds that a Vendor has made a certification in violation of the law, it shall take any action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, certify that I have read the definition of "Vendor" below, and have reviewed the Office of Foreign Assets Control (OFAC) Specially Designated Nationals and Blocked Persons list, and having done so certify:

(Check the Appropriate Box)

(●) A. That the Vendor is not identified on the OFAC Specially Designated Nationals and Blocked Persons list on account of activity related to Russia and/or Belarus.

OR

( ) B. That I am unable to certify as to "A" above, because the Vendor is identified on the OFAC Specially Designated Nationals and Blocked Persons list on account of activity related to Russia and/or Belarus.

OR

( ) C. That I am unable to certify as to "A" above, because the Vendor is identified on the OFAC Specially Designated Nationals and Blocked Persons list. However, the Vendor is engaged in activity related to Russia and/or Belarus consistent with federal law, regulation, license or exemption. A detailed description of how the Vendor's activity related to Russia and/or Belarus is consistent with federal law is set forth below.

(Attach Additional Sheets If Necessary.)

MACBRIDE-PRINCIPLES

STATE OF NEW JERSEY
DEPARTMENT OF THE TREASURY - DIVISION OF PURCHASE
AND PROPERTY 33 WEST STATE STREET, P.O. BOX 230 TRENTON,
NEW JERSEY 08625-0230

BID SOLICITATION # AND TITLE: #24 - 03 Software Solutions and Services

VENDOR NAME: Carahsoft Technology Corporation

Pursuant to Public Law 1995, c. 134, a responsible Vendor/Bidder is required to provide a certification in compliance with the MacBride Principles and Northern Ireland Act of 1989. Pursuant to N.J.S.A. 52:34-12.2, Vendor/Bidder must complete the certification below by checking one of the two options listed below and signing where indicated. If a Vendor/Bidder that would otherwise be awarded a purchase, contract or agreement does not complete the certification, then the Director may determine, in accordance with applicable law and rules, that it is in the best interest of the State to award the purchase, contract or agreement to another Vendor/ Bidder that has completed the certification and has submitted a bid within five (5) percent of the most advantageous bid. If the Director finds contractors to be in violation of the principles that are the subject of this law, he/she shall take such action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, on behalf the Vendor/Bidder, certify pursuant to N.J.S.A. 52:34-12.2 that:

CHECK THE APPROPRIATE BOX

☒ The Vendor/Bidder has no business operations in Northern Ireland; or

OR

☐ The Vendor/Bidder will take lawful steps in good faith to conduct any business operations it has in Northern Ireland in accordance with the MacBride principles of nondiscrimination in employment as set forth in section 2 of P.L. 1987, c. 177 (N.J.S.A. 52:18A-89.5) and in conformance with the United Kingdom's Fair Employment (Northern Ireland) Act of 1989, and permit independent monitoring of its compliance with those principles.

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I may be subject to criminal prosecution under the law, and it will constitute a material breach of my contract(s) with the State, permitting the State to declare any contract(s) resulting from this certification void and unenforceable.

Solicitation Number: RFP #120122

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and Presidio Networked Solutions LLC, 8161 Maple Lawn Blvd., Suite 150, Fulton, MD 20759 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Unified Communication and Contact Center Solutions from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires March 17, 2027, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

7. CUSTOMER SERVICE

A. PRIMARY ACCOUNT REPRESENTATIVE. Supplier will assign an Account Representative to Sourcewell for this Contract and must provide prompt notice to Sourcewell if that person is changed. The Account Representative will be responsible for:

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

- Maintenance and management of this Contract;
- Timely response to all Sourcewell and Participating Entity inquiries; and
- Business reviews to Sourcewell and Participating Entities, if applicable.

B. BUSINESS REVIEWS. Supplier must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, sales data reports, performance issues, supply issues, customer issues, and any other necessary information.

8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Supplier must submit a report indicating no sales were made).

The Report must contain the following fields:

- Participating Entity Name (e.g., City of Staples Highway Department);
- Participating Entity Physical Street Address;
- Participating Entity City;
- Participating Entity State/Province;
- Participating Entity Zip/Postal Code;
- Participating Entity Contact Name;
- Participating Entity Contact Email Address;
- Participating Entity Contact Telephone Number;
- Sourcewell Assigned Entity/Participating Entity Number;
- Item Purchased Description;
- Item Purchased Price;
- Sourcewell Administrative Fee Applied; and
- Date Purchase was invoiced/sale was recognized as revenue by Supplier.

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Supplier will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

9. AUTHORIZED REPRESENTATIVE

Sourcewell's Authorized Representative is its Chief Procurement Officer.

Supplier's Authorized Representative is the person named in the Supplier's Proposal. If Supplier's Authorized Representative changes at any time during this Contract, Supplier must promptly notify Sourcewell in writing.

10. AUDIT, ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE

A. AUDIT. Pursuant to Minnesota Statutes Section 16C.05, subdivision 5, the books, records, documents, and accounting procedures and practices relevant to this Contract are subject to examination by Sourcewell or the Minnesota State Auditor for a minimum of six years from the end of this Contract. This clause extends to Participating Entities as it relates to business conducted by that Participating Entity under this Contract.

B. ASSIGNMENT. Neither party may assign or otherwise transfer its rights or obligations under this Contract without the prior written consent of the other party and a fully executed assignment agreement. Such consent will not be unreasonably withheld. Any prohibited assignment will be invalid.

C. AMENDMENTS. Any amendment to this Contract must be in writing and will not be effective until it has been duly executed by the parties.

D. WAIVER. Failure by either party to take action or assert any right under this Contract will not be deemed a waiver of such right in the event of the continuation or repetition of the circumstances giving rise to such right. Any such waiver must be in writing and signed by the parties.

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

E. CONTRACT COMPLETE. This Contract represents the complete agreement between the parties. No other understanding regarding this Contract, whether written or oral, may be used to bind either party. For any conflict between the attached Proposal and the terms set out in Articles 1-22 of this Contract, the terms of Articles 1-22 will govern.

F. RELATIONSHIP OF THE PARTIES. The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

11. INDEMNITY AND HOLD HARMLESS

Supplier must indemnify, defend, save, and hold Sourcewell and its Participating Entities, including their agents and employees, harmless from any claims or causes of action, including attorneys' fees incurred by Sourcewell or its Participating Entities, arising out of any act or omission in the performance of this Contract by the Supplier or its agents or employees; this indemnification includes injury or death to person(s) or property alleged to have been caused by some defect in the Equipment, Products, or Services under this Contract to the extent the Equipment, Product, or Service has been used according to its specifications. Sourcewell's responsibility will be governed by the State of Minnesota's Tort Liability Act (Minnesota Statutes Chapter 466) and other applicable law.

12. GOVERNMENT DATA PRACTICES

Supplier and Sourcewell must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by or provided to Sourcewell under this Contract and as it applies to all data created, collected, received, maintained, or disseminated by the Supplier under this Contract.

13. INTELLECTUAL PROPERTY, PUBLICITY, MARKETING, AND ENDORSEMENT

A. INTELLECTUAL PROPERTY

1. *Grant of License.* During the term of this Contract:

   a. Sourcewell grants to Supplier a royalty-free, worldwide, non-exclusive right and license to use the trademark(s) provided to Supplier by Sourcewell in advertising and promotional materials for the purpose of marketing Sourcewell's relationship with Supplier.

   b. Supplier grants to Sourcewell a royalty-free, worldwide, non-exclusive right and license to use Supplier's trademarks in advertising and promotional materials for the purpose of marketing Supplier's relationship with Sourcewell.

2. *Limited Right of Sublicense*. The right and license granted herein includes a limited right of each party to grant sublicenses to their respective subsidiaries, distributors, dealers,

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

resellers, marketing representatives, and agents (collectively "Permitted Sublicensees") in advertising and promotional materials for the purpose of marketing the Parties' relationship to Participating Entities. Any sublicense granted will be subject to the terms and conditions of this Article. Each party will be responsible for any breach of this Article by any of their respective sublicensees.

3. *Use; Quality Control.*

a. Neither party may alter the other party's trademarks from the form provided and must comply with removal requests as to specific uses of its trademarks or logos.

b. Each party agrees to use, and to cause its Permitted Sublicensees to use, the other party's trademarks only in good faith and in a dignified manner consistent with such party's use of the trademarks. Upon written notice to the breaching party, the breaching party has 30 days of the date of the written notice to cure the breach or the license will be terminated.

4. *Termination*. Upon the termination of this Contract for any reason, each party, including Permitted Sublicensees, will have 30 days to remove all Trademarks from signage, websites, and the like bearing the other party's name or logo (excepting Sourcewell's pre-printed catalog of suppliers which may be used until the next printing). Supplier must return all marketing and promotional materials, including signage, provided by Sourcewell, or dispose of it according to Sourcewell's written directions.

B. PUBLICITY. Any publicity regarding the subject matter of this Contract must not be released without prior written approval from the Authorized Representatives. Publicity includes notices, informational pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Supplier individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

C. MARKETING. Any direct advertising, marketing, or offers with Participating Entities must be approved by Sourcewell. Send all approval requests to the Sourcewell Supplier Development Administrator assigned to this Contract.

D. ENDORSEMENT. The Supplier must not claim that Sourcewell endorses its Equipment, Products, or Services.

14. GOVERNING LAW, JURISDICTION, AND VENUE

The substantive and procedural laws of the State of Minnesota will govern this Contract. Venue for all legal proceedings arising out of this Contract, or its breach, must be in the appropriate state court in Todd County, Minnesota or federal court in Fergus Falls, Minnesota.

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

15. FORCE MAJEURE

Neither party to this Contract will be held responsible for delay or default caused by acts of God or other conditions that are beyond that party's reasonable control. A party defaulting under this provision must provide the other party prompt written notice of the default.

16. SEVERABILITY

If any provision of this Contract is found by a court of competent jurisdiction to be illegal, unenforceable, or void then both parties will be relieved from all obligations arising from that provision. If the remainder of this Contract is capable of being performed, it will not be affected by such determination or finding and must be fully performed.

17. PERFORMANCE, DEFAULT, AND REMEDIES

A. PERFORMANCE. During the term of this Contract, the parties will monitor performance and address unresolved contract issues as follows:

1. *Notification.* The parties must promptly notify each other of any known dispute and work in good faith to resolve such dispute within a reasonable period of time. If necessary, Sourcewell and the Supplier will jointly develop a short briefing document that describes the issue(s), relevant impact, and positions of both parties.
2. *Escalation.* If parties are unable to resolve the issue in a timely manner, as specified above, either Sourcewell or Supplier may escalate the resolution of the issue to a higher level of management. The Supplier will have 30 calendar days to cure an outstanding issue.
3. *Performance while Dispute is Pending*. Notwithstanding the existence of a dispute, the Supplier must continue without delay to carry out all of its responsibilities under the Contract that are not affected by the dispute. If the Supplier fails to continue without delay to perform its responsibilities under the Contract, in the accomplishment of all undisputed work, the Supplier will bear any additional costs incurred by Sourcewell and/or its Participating Entities as a result of such failure to proceed.

B. DEFAULT AND REMEDIES. Either of the following constitutes cause to declare this Contract, or any Participating Entity order under this Contract, in default:

1. Nonperformance of contractual requirements, or
2. A material breach of any term or condition of this Contract.

The party claiming default must provide written notice of the default, with 30 calendar days to cure the default. Time allowed for cure will not diminish or eliminate any liability for liquidated or other damages. If the default remains after the opportunity for cure, the non-defaulting party may:

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

- Exercise any remedy provided by law or equity, or
- Terminate the Contract or any portion thereof, including any orders issued against the Contract.

18. INSURANCE

A. REQUIREMENTS. At its own expense, Supplier must maintain insurance policy(ies) in effect at all times during the performance of this Contract with insurance company(ies) licensed or authorized to do business in the State of Minnesota having an "AM BEST" rating of A- or better, with coverage and limits of insurance not less than the following:

1. *Workers' Compensation and Employer's Liability.*
Workers' Compensation: As required by any applicable law or regulation.
Employer's Liability Insurance: must be provided in amounts not less than listed below:

Minimum limits:
$500,000 each accident for bodily injury by accident
$500,000 policy limit for bodily injury by disease
$500,000 each employee for bodily injury by disease

2. *Commercial General Liability Insurance.* Supplier will maintain insurance covering its operations, with coverage on an occurrence basis, and must be subject to terms no less broad than the Insurance Services Office ("ISO") Commercial General Liability Form CG0001 (2001 or newer edition), or equivalent. At a minimum, coverage must include liability arising from premises, operations, bodily injury and property damage, independent contractors, products-completed operations including construction defect, contractual liability, blanket contractual liability, and personal injury and advertising injury. All required limits, terms and conditions of coverage must be maintained during the term of this Contract.

Minimum Limits:
$1,000,000 each occurrence Bodily Injury and Property Damage
$1,000,000 Personal and Advertising Injury
$2,000,000 aggregate for products liability-completed operations
$2,000,000 general aggregate

3. *Commercial Automobile Liability Insurance.* During the term of this Contract, Supplier will maintain insurance covering all owned, hired, and non-owned automobiles in limits of liability not less than indicated below. The coverage must be subject to terms no less broad than ISO Business Auto Coverage Form CA 0001 (2010 edition or newer), or equivalent.

Minimum Limits:
$1,000,000 each accident, combined single limit

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

4. *Umbrella Insurance*. During the term of this Contract, Supplier will maintain umbrella coverage over Employer's Liability, Commercial General Liability, and Commercial Automobile.

Minimum Limits:
$2,000,000

5. *Professional/Technical, Errors and Omissions, and/or Miscellaneous Professional Liability*. During the term of this Contract, Supplier will maintain coverage for all claims the Supplier may become legally obligated to pay resulting from any actual or alleged negligent act, error, or omission related to Supplier's professional services required under this Contract.

Minimum Limits:
$2,000,000 per claim or event
$2,000,000 – annual aggregate

6. *Network Security and Privacy Liability Insurance*. During the term of this Contract, Supplier will maintain coverage for network security and privacy liability. The coverage may be endorsed on another form of liability coverage or written on a standalone policy. The insurance must cover claims which may arise from failure of Supplier's security resulting in, but not limited to, computer attacks, unauthorized access, disclosure of not public data – including but not limited to, confidential or private information, transmission of a computer virus, or denial of service.

Minimum limits:
$2,000,000 per occurrence
$2,000,000 annual aggregate

Failure of Supplier to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Supplier must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 or sent to the Sourcewell Supplier Development Administrator assigned to this Contract. The certificates must be signed by a person authorized by the insurer(s) to bind coverage on their behalf.

Failure to request certificates of insurance by Sourcewell, or failure of Supplier to provide certificates of insurance, in no way limits or relieves Supplier of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. Supplier agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Supplier's commercial

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Supplier, and products and completed operations of Supplier. The policy provision(s) or endorsement(s) must further provide that coverage is primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. WAIVER OF SUBROGATION. Supplier waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other insurance applicable to the Supplier or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION. The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

19. COMPLIANCE

A. LAWS AND REGULATIONS. All Equipment, Products, or Services provided under this Contract must comply fully with applicable federal laws and regulations, and with the laws in the states and provinces in which the Equipment, Products, or Services are sold.

B. LICENSES. Supplier must maintain a valid and current status on all required federal, state/provincial, and local licenses, bonds, and permits required for the operation of the business that the Supplier conducts with Sourcewell and Participating Entities.

20. BANKRUPTCY, DEBARMENT, OR SUSPENSION CERTIFICATION

Supplier certifies and warrants that it is not in bankruptcy or that it has previously disclosed in writing certain information to Sourcewell related to bankruptcy actions. If at any time during this Contract Supplier declares bankruptcy, Supplier must immediately notify Sourcewell in writing.

Supplier certifies and warrants that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Supplier certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this Contract. Supplier further warrants that it will provide immediate written notice to Sourcewell if this certification changes at any time.

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all references to "federal" should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier's Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. If the federal award meets the definition of “funding agreement” under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 C.F.R. § 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Contracts and subgrants of amounts in excess of $150,000 require the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. § 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. § 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Supplier certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R.

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

§180 that implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Supplier certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency.

G. BYRD ANTI-LOBBYING AMENDMENT, AS AMENDED (31 U.S.C. § 1352). Suppliers must file any required certifications. Suppliers must not have used federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Suppliers must disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the non-federal award. Suppliers must file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Supplier must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Supplier further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

I. ENERGY POLICY AND CONSERVATION ACT COMPLIANCE. To the extent applicable, Supplier must comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.

J. BUY AMERICAN PROVISIONS COMPLIANCE. To the extent applicable, Supplier must comply with all applicable provisions of the Buy American Act. Purchases made in accordance with the Buy American Act must follow the applicable procurement rules calling for free and open competition.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Supplier agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Supplier that are directly pertinent to Supplier's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Supplier's personnel for the purpose of interview and discussion relating to such documents.

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

L. PROCUREMENT OF RECOVERED MATERIALS (2 C.F.R. § 200.322). A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

M. FEDERAL SEAL(S), LOGOS, AND FLAGS. The Supplier cannot use the seal(s), logos, crests, or reproductions of flags or likenesses of Federal agency officials without specific pre-approval.

N. NO OBLIGATION BY FEDERAL GOVERNMENT. The U.S. federal government is not a party to this Contract or any purchase by a Participating Entity and is not subject to any obligations or liabilities to the Participating Entity, Supplier, or any other party pertaining to any matter resulting from the Contract or any purchase by an authorized user.

O. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS. The Contractor acknowledges that 31 U.S.C. 38 (Administrative Remedies for False Claims and Statements) applies to the Supplier's actions pertaining to this Contract or any purchase by a Participating Entity.

P. FEDERAL DEBT. The Supplier certifies that it is non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowance, and benefit overpayments.

Q. CONFLICTS OF INTEREST. The Supplier must notify the U.S. Office of General Services, Sourcewell, and Participating Entity as soon as possible if this Contract or any aspect related to the anticipated work under this Contract raises an actual or potential conflict of interest (as described in 2 C.F.R. Part 200). The Supplier must explain the actual or potential conflict in writing in sufficient detail so that the U.S. Office of General Services, Sourcewell, and Participating Entity are able to assess the actual or potential conflict; and provide any additional information as necessary or requested.

R. U.S. EXECUTIVE ORDER 13224. The Supplier, and its subcontractors, must comply with U.S. Executive Order 13224 and U.S. Laws that prohibit transactions with and provision of resources and support to individuals and organizations associated with terrorism.

+608/325Ã,5914671Ã.+(Ã*+$&+#$)Ä"$)!Ä#*'*Ä)+$%Ä$#-),-%*, $*

S. PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT. To the extent applicable, Supplier certifies that during the term of this Contract it will comply with applicable requirements of 2 C.F.R. § 200.216.

T. DOMESTIC PREFERENCES FOR PROCUREMENTS. To the extent applicable, Supplier certifies that during the term of this Contract will comply with applicable requirements of 2 C.F.R. § 200.322.

22. CANCELLATION

Sourcewell or Supplier may cancel this Contract at any time, with or without cause, upon 60 days' written notice to the other party. However, Sourcewell may cancel this Contract immediately upon discovery of a material defect in any certification made in Supplier's Proposal. Cancellation of this Contract does not relieve either party of financial, product, or service obligations incurred or accrued prior to cancellation.

Table 2: Company Information and Financial Strength

Line Item	Question	Response *	

10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	As a global solution provider, Presidio combines experience and stability with regional expertise and service, so Sourcewell and its clients can rest assured we will be there to help you locally with the ability to cover your business needs. Presidio collaborates with technology vendors who drive innovation and are indisputable leaders of the IT industry. Our significant investment with select strategic partners allows us to achieve broad and deep sets of technical capabilities. Our 98 percent client retention rate and annual growth rates demonstrate our passion for driving client results. We are not just trusted partners; we enable new thinking that can benefit Sourcewell and its clients now and in the future.Presidio's superior expertise is our core strength. Our clients view Presidio as an extension of their organization proactively working with them to identify opportunities and apply solutions that improve technology challenges and satisfy business objectives. By taking the time to understand how our clients define success, Presidio designs enduring solutions that meet your immediate needs, and prepare you for tomorrow. One of Presidio's main competitive advantages is our ability to integrate complex, multi-technology environments. We have the technical expertise to navigate and assess unique IT challenges, interpret requirements, and transform the latest technology innovations into meaningful enhancements to our clients' existing infrastructure. We combine the strategic vision, planning skills, and business acumen typically found in only the largest consulting companies, with the actionable, results-oriented approach of systems integrators. Recognized as a leading partner by multiple collaboration vendors, Presidio focuses on defining the integration realities, not just the possibilities, within all aspects of the collaboration product sets, regardless of which vendor is chosen. We believe clients deserve to have confidence in the collaborative enterprise solution that best fits their needs. Core Values At Presidio, our core values define our culture. They are our guiding principles and our fundamental beliefs. We are always looking for top talent that can embody the following values: • Teamwork – We foster a collaborative, respectful work environment that brings together our diverse talents and extends to our customer relationships. We believe that when everyone is working together, success follows. • Execution Excellence – We are passionate, practical, responsive, and relentless in delivering the right solutions to our customers and partners. • Integrity – We are experienced professionals who work to the highest standards of ethics and honesty. • Forward Thinking – We are visionary in our approach, constantly looking ahead to anticipate what is next. We strive to be leaders in everything we do. Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*
11	What are your company's expectations in the event of an award?	Our mission is to enable Sourcewell and its clients to capture economic value from the digital transformation of their businesses by developing, implementing, and managing world class, cloud-ready, secure, and agile IT infrastructure solutions for UC and contact centers. We deliver this technology expertise through a full lifecycle model of professional, managed, and support services including strategy, consulting, implementation, and design. Presidio will negotiate in good faith the proposed terms and conditions or agreements that may be incorporated into a contract between the parties as a result of this RFP. Upon agreement, Presidio will assign Sales Account Managers to assist Sourcewell members and communicate the new procurement contract.	*
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	Presidio is a financially secure and diversified company generating well over $3.7B of revenue per year. We have an exceptionally strong balance sheet that has enabled us to sustain annual growth rates. At a time when the technology industry in particular has weathered challenging market conditions, Presidio has remained a picture of stability, growth, and excellence in leadership and management. Our financial stability and access to ample credit ensures our ability to support our customers with any resources required. Since Presidio is not a publicly traded company, we do not provide financial information as a standard course of business. However, we have provided a bank letter, independent auditor report letter, and D&B report as attachments.	*
13	What is your US market share for the solutions that you are proposing?	Presidio was ranked as one of the 2022 top 25 Solution Providers in the US by CRN Magazine. CRN's 2022 Solution Provider 500 List ranks the top integrators, service providers, and IT consultants in North America by services revenue. For additional information, see https://www.crn.com/slide-shows/channel-programs/the-25-top-solution-provider-companies-2022-solution-provider-500/3.	*
14	What is your Canadian market share for the solutions that you are proposing?	Presidio was ranked as one of the 2022 top 25 Solution Providers in the US by CRN Magazine. CRN's 2022 Solution Provider 500 List ranks the top integrators, service providers, and IT consultants in North America, which includes Canada, by services revenue. For additional information, see https://www.crn.com/slide-shows/channel-programs/the-25-top-solution-provider-companies-2022-solution-provider-500/3.	*

15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	Presidio has never engaged in any bankruptcy proceedings and currently is not involved in any lawsuits.	*
16	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	a) Presidio is best described as a Distributor/dealer/reseller.	*
17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	Our engineering team's expertise ranges from enterprise and solutions architects, who have extensive knowledge of cross domain integrated software-hardware systems, to a large number of domain-specific engineers who are experts in networking, storage, cloud systems, DevOps, automation, software-defined data centers, IoT technologies, collaboration, and many other technologies. Although these domain-specific engineers are experts in specific technologies, they are also experts across multiple vendors within those domains. Presidio staff hold certifications from vendors like Cisco, EMC, Dell, VMware, Amazon Web Services, Google Cloud Platform, Microsoft (cloud and on-premises technologies), Pure Storage, Nutanix, Palo Alto, and many others. Because of this, our engineers undergo training continuously with our technology partners. To formalize that process, Presidio has created our Engineering Training and Enablement Program. In addition, Presidio has a Technical Enablement Track that provides a guideline of expectations or roles and career growth plans for Presidio's engineering resources. It is utilized for existing employees as an assessment of where an individual currently is and areas of needed or desired growth. It is reviewed quarterly or annually with the employee's direct manager. It is utilized to determine each individual's plan based upon market need, technology trends, and gaps in their current skillset, all while taking into account the individual's interests and passions. The Technical Enablement Track is maintained by Presidio's Advisory Board in the technology practices of collaboration, data center (including cloud), mobility, networking, and security (including cyber security). Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*
18	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	Presidio has had no suspensions, debarments, or litigation that would adversely affect our ability to fulfill our obligations under this contract.	*

Table 3: Industry Recognition & Marketplace Success

Line Item	Question	Response *	
19	Describe any relevant industry awards or recognition that your company has received in the past five years	GLOBAL, REGIONAL, AND NATIONAL INDUSTRY AND PARTNER AWARDS Presidio recognizes awards and certifications are not the most important measurement of our success; however, they help tell our story. Presidio has been recognized by partners and various business associations for special achievements and expertise, performance, and customer satisfaction. We value and are proud of these accolades, as they are important benchmarks in our industry. Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*
20	What percentage of your sales are to the governmental sector in the past three years	Presidio's corporate policy is not to disclose individual customer information of this nature in our proposals. Presidio is a leading IT solutions provider servicing middle market, enterprise, and government clients. While we have certain customers that represent more of our revenue than others do, no one customer represents a significant percentage of our overall business. The following table presents Presidio's top 14 customer vertical markets by revenue. Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response. State and Local Government FY21 14%	*
21	What percentage of your sales are to the education sector in the past three years	Presidio's corporate policy is not to disclose individual customer information of this nature in our proposals. Presidio is a leading IT solutions provider servicing middle market, enterprise, and government clients. While we have certain customers that represent more of our revenue than others do, no one customer represents a significant percentage of our overall business. The following table presents Presidio's top 14 customer vertical markets by revenue. Education FY21 10% Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*
22	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	NAME OF STATE OR COOPERATIVE PURCHASING CONTRACT CONTRACT NUMBER ANNUAL SALES PAST THREE YEARS Allied State Cooperative (ASC) Texas Region 19 19-7332 $1,167,065 Allied State Cooperative (ASC) Texas Region 19 22-7429 $191,035 BuyBoard 661-22 $122,172 General Services Administration (GSA) GS-35F-333GA $1,161,805 Massachusetts Higher Education Consortium (MHEC) MHEC-MC13-F05 $386,879 Midwestern Higher Education Compact (MHEC) 08012021 $545,336 MiCTA 179AN-TISA2018-0820 $228,265 NASPO AR3113 $7,499,329 TIPS 210503 $7,333,851 Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*
23	List any GSA contracts or Standing Offers and Supply Arrangements (SOSA) that you hold. What is the annual sales volume for each of these contracts over the past three years?	Presidio holds the GSA Schedule 70 contract vehicle for the following: • Special Item Number (SIN) 132-8: Purchase of New Equipment • Special Item Number (SIN) 132-51: Information Technology Professional Services • Special Item Number (SIN) 132-56: Health Information Technology Professional Services Below is a list of Presidio GSA contracts. General Services Administration (GSA) NAICS Code: 541512 - Computer Systems Design Services. PSC Category: D399 - Other ADP and Telecommunications Services (includes data storage on tapes, compact disks, etc.) GS35F333GA $1,900,572.13	*

City of New York	Government	New York - NY	Product and Professional Services including Unified Communications and Contact Center	Range from $6 to $22,298,907	$585,953,019	*
State of Illinois	Government	Illinois - IL	Product and Professional Services including Unified Communications and Contact Center	Range from $23 to $15,509,781	$134,244,382	*
County of Los Angeles, CA	Government	California - CA	Product and Professional Services including Unified Communications and Contact Center	Range from $135 to $6,445,423	$105,146,344	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
26	Sales force.	Presidio has robust pre- and post-sales support organization including Sales, Inside Sales, Solution Architects, Systems Engineers, and deployment personnel to design, architect, deploy, and provide post-deployment support. Presidio has 1,099 full-time Sales Professionals. The table below provides a breakdown of Sales professionals by role.	*
27	Dealer network or other distribution methods.	As one of the largest national IT integrators, we have strong relationships with all our suppliers, hold the highest partnership levels, and are eligible for the deepest discounts on their products and services. We leverage this economy of scale to provide our customers with the best pricing whenever possible.	*
28	Service force.	Presidio has 2,000 engineers to assist our clients in designing, procuring, implementing, and managing IT infrastructures. We provide services to our client base covering cloud, modernizing infrastructure, workforce transformation, and security, including networking, data centers, mobility, security, collaboration, and contact centers.	*

29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	All orders are handled by Presidio directly. Presidio provides multiple ways to place and track a client's orders. We have extensive Sales Operation teams of SLED-dedicated professionals that clients can interact with by phone/fax or email to provide quotes and place orders. Teams are assigned to specific accounts and have backup to assist customers when they are not available.	*
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	PROJECT MANAGEMENT Presidio will provide a Project Coordinator, who will be the point of contact for Presidio with regards to any contract. Included for our standard project coordination offering for this engagement are: • Remote only coordination • Project kickoff (remote) • Resource scheduling and oversight • Escalation facilitation Presidio will provide a Project Manager (PM), who will be single point of contact for all project support issues within the scope of this contract. The PM is experienced in project management best practice methodologies and familiar with the technology involved. This PM is responsible for timely completion of the scope, schedule, and budget utilizing Presidio's Program and Project Management (PPM) Methodology. Included for our standard project management offering for this engagement are: • Project kickoff (remote) • Milestone level tracking • Resource scheduling and oversight • Escalation facilitation • Working calls as required (remote) • Project closeout (remote) • Remote kickoff meeting • Planning and design session facilitation • Deliverable/milestone tracking (High-Level Plan) • Resource scheduling and oversight • Escalation facilitation • Working calls as required • Regularly scheduled status meetings • Agenda, meeting minutes, and risk/issue/action item tracking • Scope/budget management • Project closeout • Remote/on-site kickoff meeting with presentation • Planning and design session facilitation • Project plan development and management • Resource scheduling and oversight • Escalation management • Working calls as required • Regularly scheduled remote/on-site status meetings • Agenda, meeting minutes and risk/issue/ item tracking • Scope/budget management • Project closeout on-site/remote meeting Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	Presidio has 42 offices in the United States serving all states. We are happy to provide our products and services to all Sourcewell entities throughout the country.	*
32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	Presidio services all of Canada through our office in Toronto. We are happy to provide our products and services to all Sourcewell entities in the country.	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	There are no areas of either the United States or Canada that Presidio does not serve.	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	Presidio serves all areas of the United States through our offices across the country.	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	There are no additional requirements for serving clients in Hawaii, Alaska, and US Territories.	*

Table 7: Marketing Plan

Line Item	Question	Response *	
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Presidio understands that an award of a Cooperative Purchasing contract alone will not guarantee business. We will align our goals with Sourcewell members including, but not limited to, simplified procurement, pre- and post-sales support, and partnering to overcome obstacles to implementing IT solutions. We realize our responsibility and the importance of communicating our products, services, and solutions to the market. Through properly planned marketing campaigns, we are confident we can generate business and success for Sourcewell members and Presidio. We have demonstrated our marketing expertise effectively with other programs and contract vehicles, and we are well known for driving attendance to our customer events and seminars, becoming a go-to partner for these types of initiatives. Presidio is positioned well to expand our products and services offerings throughout the U.S. significantly. Our goal is to be "deep and wide" with the products and services that we offer our customers and to be a trusted advisor and turnkey solution provider when we engage on complex projects. It is critical the contract holder is able to provide services and support around the solutions listed in the RFP. Presidio has made sure to invest with manufacturers in which we have the highest regarded services and support in the industry. Presidio conducts significant business with Federal, state, and local government; K-12 and higher education; and non-profit clients nationwide. One of our primary goals if awarded will be to educate these customers on the benefits of using the Presidio Sourcewell Cooperative Purchasing contract. Customers can take advantage of simplified procurement and partner with Presidio's Account Team to ensure successful adoption of their purchases. Presidio will make sure Sourcewell members are aware of our pre-sales and post-sales support model. Our geographic presence in offices strategically located throughout the U.S. and worldwide enables us to support our Sourcewell Cooperative Purchasing contract with nationwide coverage for sales, marketing, and technical support. We will call upon our experience with existing programs and contract vehicles and leverage our current customer base as a foundation. With our coverage model, expertise, and existing customer base, we will continue our growth momentum and bring new business through this contract. Our customer engagement model is a high-touch, local presence focusing on value-based solutions. Our national marketing team will lead our efforts to market the Sourcewell Cooperative Purchasing contract through webinars to educate clients on platform offerings and how to source these types of services through Sourcewell. Our marketing plan may encompass outbound calling campaigns, advertising, clinics, seminars, demonstration facilities, and trade shows to present our products and services solutions offerings under this contract to potential customers. We also advertise in various trade publications. Additionally, our corporate website will include a dedicated Sourcewell members' web page featuring the latest information and access to program and contract documentation. Presidio views this contract opportunity as a strategic vehicle for continued success in bringing new solutions to our clients. We are confident we will continue substantial momentum and penetration in the SLED vertical with our solution offerings. Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	TECHNOLOGY AND DIGITAL DATA Presidio utilizes trusted platforms to analyze data and promote solutions and services. The Marketing team develops organic digital and social media campaigns based on company focus, sales goals, and customer needs. We measure the effectiveness of the marketing campaigns based on clicks, impressions, meetings, and total return on investment. MEDIA PLACEMENT A highlight of Presidio's marketing strategy is focusing media placements on the benefits of our Sourcewell Cooperative Contract, which will drive visibility, awareness, and new business inquiries. The following tables provide a sample of the media outlets in which Presidio is featured regularly. Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*

38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Presidio values the partnership opportunity we have with Sourcewell, and we would capitalize on the assistance provided to awarded vendors. Presidio will leverage the resources provided by the Sourcewell marketing partnership, which serves to ensure the success of Sourcewell member's preferred vendors in building business, identifying opportunities, increasing sales, and providing members with the highest level of service consistently. Presidio will use the Sourcewell Supplier Resources webpage (www.sourcewell-mn.gov/sourcewell-for-vendors/resources) to learn about marketing materials, vendor training videos, vendor forum events, and trade shows. As we broaden our reach to more Sourcewell members, we will continue to add member-requested manufacturers to our portfolio. Our top priority is serving Sourcewell members with a catalog offering, no-cost design resources, and pre- and post-sale services to overcome Sourcewell member's IT obstacles and achieve their goals.	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Presidio has extensive experience and capabilities supporting our clients' electronic catalog environments, enabling our clients to order products, software, and services online efficiently and conveniently. The MyPresidio web portal can integrate with procurement platforms that support the cXML protocol. As a result, we support multiple catalog interfaces for customers, such as SAP, Ariba, Workday, and Coupa. Customers who do not use the MyPresidio portal can rely on their individual Account Managers for expertise and assistance in procurement activities and issues. MyPresidio offers self-serve options 24/7, which makes it easy and convenient to access the information our clients need. They can browse products, request quotes, and place orders. Clients can track status of orders and shipments. Clients can review maintenance contracts and get renewal notifications. Clients can connect their eProcurement system to MyPresidio for a faster and more seamless experience. They can get insight into past, present, and future business with Presidio whenever and wherever they need it. KEY BENEFITS Procurement • Integrate your eProcurement system with Presidio • Request, approve quotes, and click to purchase • Purchase products and customized bundles Orders • View and track orders • Receive shipment notifications • Run and subscribe to automated reporting Contracts • View maintenance contracts • Manage renewals • Run and subscribe to automated reporting Invoices • View invoices and submit inquiries	*

Table 8: Value-Added Attributes

Line Item	Question	Response *	
40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	All products, equipment, and operator training programs are specific to manufacturers and solutions; none are standard. Presidio offers weekly, if not daily, opportunities to host in-depth conversations about different technology solutions. We can cater specifically to the customer, with both no-cost and for-cost training. Our goal is to partner with Sourcewell members to transfer the knowledge necessary to be successful, while staying within their budget. Standard • Pre-Sales Solution Architects are available to assist in pre-sales products, equipment, and solution design. • Pre-Sales Solution Architects are available to develop Sourcewell member IT visions. Optional • Professional Services – As part of an engagement, our engineers are available to hold training classes with the customer's staff to pass along knowledge about the implementation, upkeep, and maintenance necessary to keep the solution optimized and secure. These services are standard for most Presidio engagements, but the customer has the option of declining them if they feel they possess the knowledge already. A Presidio Statement of Work (SOW) is customizable to meet the customer's needs and requirements. • Post-Sales Documentation – All Presidio SOWs include deliverables outlining the implementation as it was installed. These documents become the property of the customer when the project is completed. • Third Party Classes – Presidio represents multiple training vendors that can provide training on the products we support.	*

41	Describe any technological advances that your proposed products or services offer.	Presidio collaborates with technology vendors who drive innovation and are indisputable leaders of the IT industry. Our significant investment with select strategic partners allows us to achieve broad and deep sets of technical capabilities. Our 98 percent client retention rate and annual growth rates demonstrate our passion for driving client results. We are not just trusted partners; we enable new thinking that can benefit Sourcewell members now and in the future.	*
42	Describe any “green” initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	ENVIRONMENTAL AND ENERGY SUSTAINABILITY Presidio, as a leading provider of business enablement solutions delivered through advanced IT infrastructure and managed outsourcing solutions, is driven to promote advanced technologies for enterprise, commercial, and government customers. These advanced technologies transform approaches to the environment, to energy, and to the economy. Through technology and our business, we facilitate innovative and environmentally sustainable business operations for Presidio and our customers. By design, Presidio’s core business dramatically reduces overhead cost, operations cost, and total cost of ownership for our clients’ business operations. WHAT GREEN MEANS TO PRESIDIO Presidio participates in contemporary efforts to reduce, recycle, and re-use. We recognize the IT hardware industry is one of the leading contributors of toxic metals in ecosystems, carbon emissions, fossil fuel usage, hazardous chemical dispersal, and prodigious consumption of raw materials. For example, Presidio understands transporting and disposing of 1- to 3-year-old IT components takes a harmful toll on the world we live in, leaving roughly 40% of hardware raw materials in the landfill. We know this is not a sustainable model for the future. The Environmental Protection Agency (EPA) encourages companies to evaluate multiple environmental impacts of every product throughout the product’s lifecycle – raw material acquisition, manufacture, packaging and distribution, use, and disposal. The impact measurements in the following table identify areas of opportunity for reduced effects on the environment. GREEN: LIVING LIGHT ON THE EARTH Presidio takes these negative effects on the environment very seriously. We take the initiative and adapt to be a source for responsible solutions with the least environmental impact. Presidio’s core business and company programs include: • Conducting internal corporate environmental sustainability programs and supporting the use of local renewable energy sources to offset daily company energy consumption • Renewing and recycling products and consumables • Presidio’s core business and corporate programs support achievement of company Environmental and Energy Sustainability (EES) Plan objectives by facilitating internal sustainability, renewal and recycling, and recovery of assets to reach the goal of “living light on the earth” INTERNAL SUSTAINABILITY PROGRAMS Presidio promotes and conducts formal and informal internal sustainability programs—from recycling to encouraging employee carpooling, to reducing waste through automation—to minimize negative impacts on the environment. For example, Presidio uses pay voucher and employee reimbursement automation to eliminate cost and waste in postage, paper, and packaging. Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Not applicable. Because Presidio is a reseller of products manufactured by others, we are not issued third-party eco-labels, ratings, or certifications.vvvv	*

44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	SUPPLIER DIVERSITY AT PRESIDIO Presidio is not a certified MWBE or LDB. Presidio, founded as a Woman-Owned Small Business in 1986, has grown into a $3 billion company that supports and clearly understands the importance of subcontracting with Minority- and Woman-Owned Business Enterprises (MWBEs) and Local Developing Businesses (LDBs) whenever opportunities arise for small entrepreneurships to be successful. Presidio created a Small Business Supplier Development Program (SBSDP) to promote the company's development and use of Small Business concerns, including Small Disadvantaged Business (SDB), Woman-Owned Small Business (WOSB), HUBZone Small Business (HUBZone), Veteran-Owned Small Business, Service-Disabled Veteran-Owned (SDVO) Small Business, and Native American-owned Small Business concerns. Presidio believes in the importance of supplier diversity and is committed to ensuring that it is an integral part of our strategic sourcing, procurement, and sales processes. We know that both the success of our organization and society at large depends on including diverse business enterprises (DBEs) in the nation's economic growth. Our commitment is to maximize diverse Business Enterprises' participation by DBEs through the development of mutually beneficial business relationships. Presidio is committed to maximizing the inclusion of Minority-, Women-, Veteran-, Service-Disabled Veteran-, Disabled-, Lesbian, Gay, Bisexual and Transgender (LGBT) - owned businesses as well as businesses located in Historically Underutilized Business Zones (HUBZones) and Small Businesses. We accomplish this by: • Sourcing goods and services from high-performing diverse businesses • Embedding supplier diversity within our corporate culture • Ensuring compliance with all aspects of supplier diversity spending requirements • Integrating supplier diversity in procurement, sourcing, and sales strategic plans • Focusing on efficiencies and continuous improvement • Enhancing the economic vibrancy of the communities we serve • Maintaining relationships with local, regional, and national diversity organizations (i.e., NMSDC, WBENC) • Facilitating training on the philosophy, policies, and methodologies of supplier diversity. Please reference attached RFP document OCG Sourcewell Proposal Response_Presidio for detailed response.	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	CUSTOMER SATISFACTION Presidio knows our existence depends on our customers. We participate in customer satisfaction initiatives with all our key partners, and our culture fosters the highest levels of customer service. Our highly skilled and experienced team members share in this customer service philosophy of consistently meeting our clients' requirements and exceeding their expectations, resulting in over 98% staying with us year after year. Presidio's strong commitment to client satisfaction is demonstrated by consistently high satisfaction ratings among our clients and leading vendor partners. NET PROMOTER SCORE Our large and diverse customer base deeply values working with us. Net Promoter is the worldwide standard for organizations to measure, understand, and improve their customer experience. Presidio has consistently maintained a Net Promoter Score above 50, with the highest Net Promoter Score in the industry. Our most recent Net Promoter Score, an important measure of brand sentiment, is 69 which is one of the top in our industry. Our clients rank us nearly 20% above the IT industry average.	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	

46	Do your warranties cover all products, parts, and labor?	Yes, all products, parts and labor are covered by specific warranties. Warranties on manufacturer/vendor/OEM products, parts, and labor are passed on to the customer. Presidio engineering services include a warranty of 30 days after the project has been signed off on by the customer. Below is the specific language included in our standard Statement of Work template. Limitations of Warranties. PRESIDIO WARRANTS THAT SERVICES SHALL BE PROVIDED BY COMPETENT PERSONNEL IN ACCORDANCE WITH APPLICABLE PROFESSIONAL STANDARDS. WITH RESPECT TO SERVICES PERFORMED BY PRESIDIO, PRESIDIO WARRANTS TO CLIENT, THAT THE SERVICES RENDERED SHALL BE PERFORMED IN A SKILLFUL AND PROFESSIONAL MANNER COMMENSURATE WITH THE REQUIREMENTS OF THIS EFFORT. CLIENT SHALL NOTIFY PRESIDIO IN WRITING WITHIN THIRTY (30) DAYS AFTER COMPLETION OF THE SERVICES IN QUESTION WHEN ANY OF THE SERVICES FAIL TO CONFORM TO THE STANDARD OF CARE SET FORTH IN THIS AGREEMENT. THE PASSAGE OF THE THIRTY (30) DAY PERIOD AFTER COMPLETION OF THE SERVICES WITHOUT THE NOTIFICATION DESCRIBED HEREIN SHALL CONSTITUTE CLIENT'S FINAL ACCEPTANCE OF THE SERVICES. TROUBLESHOOTING AND RECONFIGURATION DUE TO CHANGES TO THE CONFIGURATION BY CLIENT AFTER DELIVERY WILL REQUIRE THE PREPARATION OF A BILLABLE PCR AND PRESIDIO WILL USE ITS BEST EFFORTS TO PROVIDE ANY ADDITIONAL SUPPORT THAT MAY BE REQUIRED THEREAFTER ON A TIME AND MATERIALS BASIS AS SOON AS RESOURCES ARE REASONABLY AVAILABLE. PRESIDIO MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	In some cases, specifically on projects where Presidio engineering services have been involved, should a customer adversely affect the "as built" environment, a warranty may be voided, and additional charges incurred to correct the customer's actions.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	In most cases, the Manufacturer warranty covers travel time and mileage. Most manufacturers suggest support contracts which Presidio offers and recommends with all vendor solutions which provides for better SLAs (Service Level Agreements) than is covered by the standard warranty.	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	Manufacturer warranties would cover all geographic regions of both the U.S. and Canada. If a customer's location was determined NOT to be covered by a specific manufacturer, Presidio would recommend against using that vendor's solution and provide other options that do provide coverage.	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	All original equipment manufacturer (OEM) warranties, certifications and guarantees are passed through directly to the customer. Presidio serves as a single point of contact between third party OEMs and customers to enforce such passed through warranties but does not provide additional warranties related to the hardware or software. Below is our standard warranty language: ALL PRODUCTS PROVIDED BY PRESIDIO ARE PROVIDED "AS IS", WITH ALL FAULTS, SUBJECT TO THE WARRANTY PROVIDED BY THE MANUFACTURER. EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, PRESIDIO MAKES NO WARRANTIES, EXPRESS OR IMPLIED, AND SPECIFICALLY DISCLAIMS ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NON-INFRINGEMENT OR ANY WARRANTY ARISING BY USAGE OF TRADE, COURSE OF DEALINGS OR COURSE OF PERFORMANCE. ANY AND ALL ORIGINAL EQUIPMENT MANUFACTURER ("OEM") WARRANTIES, CERTIFICATIONS AND GUARANTEES ARE PASSED THROUGH TO CLIENT. PRESIDIO SERVES AS A SINGLE POINT OF CONTACT BETWEEN THIRD PARTY OEMS AND CLIENT TO ENFORCE SUCH PASSED THROUGH WARRANTIES, IF ANY. CLIENT AGREES THAT ANY HARDWARE AND SOFTWARE PRODUCTS PROVIDED TO CLIENT WILL CARRY THE WARRANTY PROVIDED BY THE MANUFACTURER AND PRESIDIO MAKES NO INDEPENDENT WARRANTY WITH RESPECT TO SUCH HARDWARE AND SOFTWARE PRODUCTS.	*
51	What are your proposed exchange and return programs and policies?	Presidio supports our customer in cases where exchange and return of equipment is needed through our Sales Operations team. We work with the customer and vendor utilizing the vendor's policies in these cases.	*

52	Describe any service contract options for the items included in your proposal.	Presidio suggests utilizing manufacturer's options for support contracts to provide the SLA that best meets the customers' needs. Presidio also provides a managed service that provides options for reactive and proactive support and daily monitoring of the customers' environment. These services can be tailored to meet the specific needs of the customer.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
53	Describe your payment terms and accepted payment methods.	Presidio's payment terms are net 30. Presidio accepts ACH, checks, wire transfers, and credit card payments. A 3% fee is added to all credit card payments. Payments are in U.S. dollars.	*

54	Describe any leasing or financing options available for use by educational or governmental entities.	Presidio is able to offer leasing and financing options through Presidio Technology Capital. CUSTOMER CHALLENGES In today's economy, many technology deployments are blocked by complex financial challenges: • Budget restrictions • Seasonality or uneven cash flow • Accounting or covenant considerations • Tax considerations • Obsolescence and clean disposal considerations • IT asset management and equipment refresh concerns • Complex solutions with multiple vendors When considering financing, technology leases can be confusing—making the process even more difficult and more expensive. The enormity of choices for equipment suppliers and lessors add significantly to the burden while comparing terms and conditions of one contract to another creates additional confusion. When considering multiple contracts, the task can seem impossible. If the financing decision affects the technologies your company deploys, the business may find operations and finance pitted against each other. Trying to determine the best solution for the long-term health of the business turns into a battle of technology vs. finance. PRESIDIO'S FINANCIAL SOLUTIONS Presidio can roll all your technology-related costs (hardware, software, maintenance, services) into a single schedule. We also provide flexible financing products and services based upon a common theme—making technology solution leasing easy and economical: • Deferred payment options • Payments that align to cash flows • Operating or capital lease structures to match accounting goals • True lease structures to match tax goals • Vendor agnostic financial offerings: If you need it, we finance it • Captive vs. independent lessors: We provide freedom of choice in IT equipment leasing • Assumption of obsolescence risks • Clean disposal services • Sophisticated asset management tool • Refresh strategies Presidio realizes the single best use of our unrivaled industry knowledge and experience is to make the leasing process easy for clients. No matter which IT solution your business requires, we structure a financial solution that is every bit as good for the CFO as the technology solution is for the CIO. FINANCIAL SERVICES PORTAL Presidio Technology Capital and Presidio Access Support System (PASS) allow the client to take control of their IT infrastructure with the information they need when it is needed. Presidio Technology Capital's revolutionary information portal, PASS, allows the client to manage all aspects of their account (i.e., from creating technology orders to monitoring active leases). On this user-friendly website, the client can also reprint invoices, check the status of approved orders, and quickly update their business information. It is the easiest way for the client to manage their account, and it is one more way we deliver the best financial solutions to make doing business with us easier for the client. Presidio Networked Solutions LLC. collaborates with our sister subsidiary Presidio Technology Capital to offer innovative financing solutions to our clients like Sourcewell. Together, we offer cost-effective tools for cost management while staying abreast of current technology.	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Presidio's standard transaction documents have been provided as separate attachments.	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes. A 3% fee is added to all credit card payments. Assessment of this fee is at the discretion of the account executive. Payments are in U.S. dollars.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Presidio will use a minimum discount off list price for all products and services. Presidio holds many strategic partnerships with the manufacturers included in the bid response. These strategic partnerships permit Presidio and the manufacturer to offer greater discounts than what other bidders may be able to offer, resulting in greater value to Sourcewell members.	*
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Presidio has provided a Rate Table for Not to Exceed Pricing for normal workday hours for different levels of engineers with specific expertise.	*
59	Describe any quantity or volume discounts or rebate programs that you offer.	Presidio rate cards will provide the maximum rates charged to a Sourcewell member. Discounts depend on the size and scope of the project or at the discretion of the Presidio Account team.	*
60	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	Presidio will provide a quote for any components needed to complete a project. Our standard method of calculating price is discount off list price.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	All elements of the total cost of acquisition are included in the pricing submitted with our response. Should a customer request additional elements after the purchase order has been received, we will either quote those charges separately or add them to the existing price via a Change Order. Such items will always be signed off by the customer before delivery so that there are no unexpected costs at invoicing.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Presidio’s standard method of shipment is FOB. Freight, Handling, Shipping • The client will be billed for Presidio's and/or the manufacturer's freight charges. • Title/Risk of loss passes to the client FOB origin (FOB destination (CONUS) applicable to Federal Government clients only) unless otherwise agreed to in writing by Presidio. • Orders shipped from a manufacturer to Presidio at the client’s request for warehousing, configuration, storage, or otherwise shall be deemed to have been shipped to the client FOB origin. • Presidio accepts no responsibility / liability in connection with the shipment. • International delivery services include: o Consolidated billing in USD for all international deliveries o Consolidated contracting with one entity, i.e., Presidio o Single point of contact o Freight forwarding including exportation permits, application of tariff headings, and customs clearance (including import permits, licenses, and certificates) o Asset management, tracking, and reporting. • Goods held in a Presidio warehouse either a) at the client’s request or b) in the event a client refuses to accept delivery may be subject to warehousing fees of 1% of the list price of such goods.	*

63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Presidio's standard method of shipment is FOB. Freight, Handling, Shipping • The client will be billed for Presidio's and/or the manufacturer's freight charges. • Title/Risk of loss passes to the client FOB origin (FOB destination (CONUS) applicable to Federal Government clients only) unless otherwise agreed to in writing by Presidio. • Orders shipped from a manufacturer to Presidio at the client's request for warehousing, configuration, storage, or otherwise shall be deemed to have been shipped to the client FOB origin. • Presidio accepts no responsibility / liability in connection with the shipment. • International delivery services include o Consolidated billing in USD for all international deliveries o Consolidated contracting with one entity, i.e., Presidio o Single point of contact o Freight forwarding including exportation permits, application of tariff headings, and customs clearance (including import permits, licenses, and certificates) o Asset management, tracking, and reporting. • Goods held in a Presidio warehouse either a) at the client's request or b) in the event a client refuses to accept delivery may be subject to warehousing fees of 1% of the list price of such goods.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Presidio offers several unique options to our customers. Storage of equipment: Should a customer require their equipment to be stored for a period of time, Presidio has warehouse facilities to hold their equipment and ship it to them in part or in whole depending on their needs. Staging of equipment: Presidio has the capability to stage equipment before having it delivered to the customer's facility.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
65	d. other than what the Proposer typically offers (please describe).	Presidio's pricing is the same or better depending on vendor promotions and/or rebates offered typically to an individual municipality, university, or school district.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Statements of Work (SOWs) are generated by the Presidio Solutions Architects using the rate cards associated with the contract they are using. Before the SOW is sent to the customer, it goes through a process of review by engineering and sales management to ensure pricing and scope are in line with the customer's requirements. Presidio has internal systems that track all orders by the contract number under which it is booked. Our order process will not allow an order to be processed without the required contract number including the terms and conditions to be reviewed by the order entry team. The Presidio Project Management team is responsible for triggering billing for a project based on the milestones signed off on by the customer. At that point, Accounts Payable sends a detailed invoice to the customer that includes the purchase order (PO) number, project number, and details about the work completed as stated in the milestone section of the SOW. The Presidio Contracts and Compliance team includes a dedicated Reporting team that is tasked with generating quarterly sales reports for over 500 contracts. The reports are provided to Presidio Accounts Payable for payment of all fees generated for that quarter.	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Presidio metrics include: • Quarterly Contract Utilization Reports • Quarterly Business Reviews for the Account Team • Engineering Utilization Reports • Project Management Utilization Reports	*
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Presidio's average contract usage is 1.5%. We would suggest that percentage for the Sourcewell contract as well.	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *	
69	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	We offer our extensive expertise in the following areas: • Collaboration Consulting, Design, Implementation, and Support for On-Premises and Cloud leveraging multiple vendors • Contact Center Consulting, Design, Implementation, and Support for On-Premises and Cloud Infrastructures • E911 Consulting and Design • Contact Center Consulting and Design for On-Premises and Cloud Infrastructures • Call Recording/ Workforce Optimization Solutions • Call Reporting Solutions • Hybrid Work solutions • Interoperability Between Multiple Systems • A/V Room Design, Implementation, and Operational Support Other services Presidio offers are: • Managed Services • Technology Financing • Physical Security Services • Smart Hands (Field Services) • Cyber Security Services • End User Computing (Virtual Desktop) • 5G, Mobility, Wireless, and Migration Solutions • Cloud, Hybrid Cloud, and On-Premises Infrastructure Environments • Data Center Design and Implementation • Voice and Video Communications and Data Usage • Network Compliance and Security • Robotic Process Automation	*
70	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	• Cloud (Public and Private) • Servers • Storage • Hyperconverged • Backup • Virtualization • Collaboration • Contact Center • Network – Router • Network – Edge • Network – Core • Security – Physical • Information Security • Antivirus • Security Cameras • Asset Management • Mobile Device Management • Cyber Security • E911 • Location Services	*

Table 14B: Unified Communication Solutions

Indicate below if the listed types of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments	
71	VOIP technology;	(•) Yes ( ) No	na	*
72	Video or audio collaboration and conferencing;	(•) Yes ( ) No	na	*
73	Mobility options;	(•) Yes ( ) No	na	*

75	Enhanced messaging	(•) Yes ( ) No	na	*

Table 14C: Contact Center Solutions

Indicate below if the listed types of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments	
76	Automatic call or contact distribution and routing;	Yes / No	Cisco, Amazon, Twilio	*
77	Omnichannel capability;	Yes / No	Cisco, Amazon, Twilio, Upstream Works, Google	*
78	Interactive voice response;	Yes / No	Cisco, Amazon, Twilio, Nuance, Uniphore, Google	*
79	Real time status;	Yes / No	Calabrio, Verint, Elevēo, 2RING	*
80	Reporting	Yes / No	Aceyus, 2RING, TASKE Cisco, Amazon, Twilio, Google	*
81	Products and services applicable to the solutions described in Lines 71-80 above, such as: architecture, implementation, and on-going support for premises-based, cloud-based and hybrid options, hardware, software, technology or social media integration, reporting, and related applications	Yes / No	na	

Table 15: Exceptions to Terms, Conditions, or Specifications Form

Line Item 82. **NOTICE**: To identify any exception, or to request any modification, to the Sourcewell template Contract terms, conditions, or specifications, a Proposer must submit the exception or requested modification on the **Exceptions to Terms, Conditions, or Specifications Form** immediately below. The contract section, the specific text addressed by the exception or requested modification, and the proposed modification must be identified in detail. Proposer's exceptions and proposed modifications are subject to review and approval of Sourcewell and will not automatically be included in the contract.

Contract Section	Term, Condition, or Specification	Exception or Proposed Modification
na	na	Presidio does not take any exceptions or have modifications to the terms and conditions of the Sourcewell contract.

Documents

Ensure your submission document(s) conforms to the following:

1. Documents in PDF format are preferred. Documents in Word, Excel, or compatible formats may also be provided.

2. Documents should NOT have a security password, as Sourcewell may not be able to open the file. It is your sole responsibility to ensure that the uploaded document(s) are not either defective, corrupted or blank and that the documents can be opened and viewed by Sourcewell.

3. Sourcewell may reject any response where any document(s) cannot be opened and viewed by Sourcewell.

4. If you need to upload more than one (1) document for a single item, you should combine the documents into one zipped file. If the zipped file contains more than one (1) document, ensure each document is named, in relation to the submission format item responding to. For example, if responding to the Marketing Plan category save the document as “Marketing Plan.”

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor’s objectivity in performing the contract is, or might be, impaired.

5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.

7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

11. Proposer its employees, agents, and subcontractors are not:
    1. Included on the “Specially Designated Nationals and Blocked Persons” list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

    2. Included on the government-wide exclusions lists in the United States System for Award Management found at: https://sam.gov/SAM/; or

    3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☑ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Jackie Arnett, Contracts Director, Presidio Networked Solutions LLC

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

Cobb County

Contract # 23-6692-03

for

Technology Product Solutions and Related Services

with

Insight Public Sector

Effective: May 1, 2023

The following documents comprise the executed contract between the Cobb County, and Insight Pubic Sector effective May 1, 2023:

I. Executed Master Agreement
II. Supplier’s Response to the RFP, incorporated by reference

Reference No. 21070

Reference Number	
Reference Depart.	**Purchasing Department**

Master Agreement

Owner: Cobb County Board of Commissioners
100 Cherokee Street
Marietta, GA 30090

Contractor: Insight Public Sector, Inc.
2701 E. Insight Way
Chandler, AZ 85286

Description: **TECHNOLOGY PRODUCT SOLUTIONS AND RELATED SERVICES:** The undersigned parties understand and agree to comply with and be bound by the entire contents of **Sealed Bid #23-6692** ("the RFP") and the Contractor's Proposal submitted October 13, 2022, which is incorporated herein by reference.

OMNIA PARTNERS, PUBLIC SECTOR: Supplier agrees to extend Goods and/or Services to public agencies (state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit) ("Public Agencies") registered with OMNIA Partners, Public Sector ("Participating Public Agencies") under the terms of this agreement ("Master Agreement").

Governing Law: This Agreement shall be governed by the laws of the State of Georgia. As to any dispute hereunder, venue shall be in the Superior Court of Cobb County, Georgia.

Term: This Agreement shall begin on May 1, 2023, the Effective Date, for a period of thirty-six months, and shall automatically terminate and renew for two (2) additional twelve (12) month periods and shall terminate absolutely on April 30, 2028, unless earlier terminated as provided herein. Pursuant to O.C.G.A. § 36-60-13, this Agreement shall terminate absolutely and without further obligation on the part of the County at the close of the calendar year in which it was executed and at the close of each succeeding calendar for which it may be renewed. The Parties reserve the right to renew, amend or extend the Agreement for additional terms. Either party may terminate this Agreement for convenience and/or due to lack of funding at the end of each annual term.

Price: Prices for services and equipment, if applicable, as stated in the Contractor's proposal

Billing: For purchases made by Cobb Count y Government, all original invoices shall be submitted directly to the Cobb County Finance Department. Invoices shall bill only for items received during the period covered by the invoice and shall clearly identify such items in accordance with invoicing guidelines in the Sealed Bid Proposal. For purchases made by participating public agencies, the Contractor shall comply with each agency' s invoicing and billing requirements outlined on the applicable order.

{SIGNATURES ON NEXT PAGE}

IN WITNESS, WHEREOF, this Agreement has been executed by Owner and accepted by Contractor to be effective as of the date first above written.

Cobb County... Expect the Best!

1. Cover Letter

The proposer shall provide a cover letter describing a brief history of the Proposer and its organization. The letter will list the Principal or Officer of the organization who will be the County's primary point of contact during clarifications or negotiations. This individual must have the authority to clarify and/or negotiate all aspects on the scope of products and services on behalf of the Proposer.
An officer authorized to bind the Proposer to the terms and conditions of this RFP must sign the cover letter.

Insight Response:

Insight provided a cover letter per RFP requirements; it can be found at the beginning of our proposal document.

2. Executive Summary

The Proposer shall provide an Executive Summary that presents in brief, concise terms a summary level description of the contents of the proposal.

Insight Response:

Insight has carefully read the RFP and we are confident in our ability to exceed the requirements. Insight approaches opportunities to provide solicited services by assigning teams of specialists whose experience and knowledge of government contracts allows them to develop complete solutions to support the entire lifespan of our clients' IT assets.

We understand that operational functionality is a critical component to the success of contracts for any organization similar to Cobb County and OMNIA Partners. As a result, we have created back-office teams dedicated to each aspect of public sector contracts, including—but not limited to—compliance, credit, invoicing, procurement, and publisher paperwork.

As Insight Public Sector is entirely focused on providing IT solutions to public sector clients, we have the resources, processes, and flexibility to provide all levels of government and education clients with equal benefits and attention. We leverage the same tools and cost-saving techniques that utilize economies of scale, which allows us to provide consistent levels of service to large and small participants alike. Furthermore, we understand that budgets represent taxpayer money, and that the responsibilities of procurement and respecting manufacturer and publisher compliancy rules are more heavily weighted as a public sector participant than in a commercial environment. Insight's compliance team assures you meet these commitments.

Experience has taught us that certain segments of our public sector client base require specialized procurement options. Our approach is to ensure that each client receives the individual attention they need; as a result, Insight has divided our resources into vertical segments to match each client (e.g., government and education). This organizational structure ensures each vertical receives maximum support from Insight resources who understand the specific needs of each vertical.

Insight uses eCommerce tools to help our clients reduce cost, increase operational efficiency, eliminate errors, and control rogue purchases. Tools such as our web portal, built-in workflow, on-demand reporting, and license proofs provide equal service levels and cost-saving opportunities regardless of the size of the contract participant, as all our tools are scalable to size. Our eCommerce solutions provide an easy and effective way for us to keep our clients up to date with technological changes.

Although operational functionality and eCommerce are critical components of our approach to providing solicited services, the most important component of Insight's overall approach to this contract is our people. We are proud of the depth of experience and knowledge we make available to Participating Public Agencies through our account teams. Each employee at Insight either supports clients directly or supports someone else who does; we are all equally committed to our clients' satisfaction and success.

Insight's nationwide presence, which includes over 50 offices and over 200 public sector-focused sales and support teammates across the country, makes us the best choice for this contract and provides the 'feet on the street' necessary to make this Master Agreement more successful than ever before. We are 100% dedicated to OMNIA Partners members' continued growth and success.

Insight is offering Cobb County, OMNIA Partners, and all Participating Public Agencies every product and service available through Insight. Our offering also includes nationwide full life-cycle service offerings that allow us to provide out-sourcing of entire IT departments as well as services that allow us to manage a client's technology assets from inception to retirement. Insight has decades of experience providing customized solutions nationally for our clients.

Insight, Cobb County, and OMNIA Partners: A Growing IT Partnership

Insight's core values of hunger, heart, and harmony emphasize a deep commitment to service across all aspects of our business. In addition, our desire to create a positive impact in the lives of our clients, partners, and teammates positions Insight as a world-class partner aligned with Cobb County's and OMNIA Partners' strategic vision.

As an industry leader, Insight will continue to invest in our people, systems, and portfolio of offerings worldwide. By combining technology hardware, software, and services, Insight will regularly offer Participating Public Agencies custom-tailored solutions designed to meet their unique requirements and changing IT goals, while streamlining IT management and reducing their total cost of ownership.

The greatest value that Insight can provide to Cobb County and OMNIA Partners is that we leverage our extensive capabilities and resources to properly evaluate requirements. Our creative thinking and optimized pricing methodologies ensure the solutions we suggest drive significant value to your organizations.

Insight appreciates the opportunity to continue to build a successful partnership with Cobb County and OMNIA Partners, and we look forward to next steps following the RFP process. In the meantime, please contact us regarding any further questions or requests for additional information.

3. Company Background / Profile

Provide information on company background to include the following:

Insight Response:

As part of a $9.4 billion global company, Insight Public Sector, Inc. ("Insight") has successfully delivered solutions to clients like Cobb County for over 34 years.

Our parent company, Insight Enterprises, Inc. now ranks No. 373 on the Fortune 500, fulfilling a mission to help clients maximize the day-to-day value of IT while pursuing more incredible business transformation. Insight is also on the Channel Futures MSP 501, ranking No. 1 of IT service providers globally.

At Insight, we believe diversity is a critical component of our success. As a Fortune 100 Best Workplaces for Diversity company, our people are our greatest strength. We work diligently to promote a culture that celebrates and rewards creative thinking, collaborative decision-making and innovative solutions. Our teammates represent a wide range of backgrounds, life experiences, and viewpoints, which we believe leads to stronger teams.

Central to fostering a rich culture of diversity at Insight is a shared set of values among teammates:

- We respect and take care of each other.
- We exist to serve our clients.
- We act with integrity in all that we do.

Notable achievements include:

- Insight President & CEO Joyce Mullen named Top Channel Influencer by Channel Futures
- Insight Named a Finalist in Fast Company's 2022 World Changing Ideas Awards (Education Category)
- Insight earned a perfect score on the Human Rights Campaign Corporate Equality Index
- ADP's Humanity at Work Award
- Insight ranked at No. 59 for Diversity on Forbes Best Employers List
- Insight ranked at No. 83 on Barron's 100 Most Sustainable Companies
- Insight ranked at No. 95 on World's Best Employers List
- 2022 Corporate Equality Index 100 out of 100
- 2022 Microsoft Partner of the Year Award for Manufacturing
- 2022 Intel North America Partner of the Year
- 2022 Aruba Partner of the Year
- 2021 Microsoft Azure Security Deployment Partner of the Year
- 2021 Veritas Technologies Top National Business Partner of the Year

An organizational chart of our proposed project team is included in **Section 9 – Appendices, Appendix A**. Relevant background and experience for the key team members is as follows:

Team Member	Background & Experience
Scott Friedlander – Senior Vice President, Public Sector	Scott will provide executive leadership and serve as the main point of contact for all executive-level discussions between Insight and OMNIA Partners leadership. He has been in public sector sales for 40 years and with Insight (by way of acquisition) for 4 years.
Erica Falchetti – Sr. SLED Market Leader, Capture & Business Development	Erica will serve as the National Account Manager for OMNIA Partners and will provide direction for the sales teams to drive consistent sales growth and oversee the contract marketing strategy. She has been with Insight for 14 years.
Kevin Hallihan – Field Sales Market Leader, East/Central	Kevin leads our field SLED sales teams in the East and Central. He has been with Insight for 23 years.
Brian Louderback – Field Sales Market Leader, West/TOLA	Brian leads our field SLED sales teams in the West and TOLA. He has been with Insight for 23 years.
Ken Richter – Inside Sales Market Leader	Ken leads our nationwide inside SLED sales teams. He has been with Insight for 23 years.
Clayton Boras – Sales Market Leader, Higher Education	Clayton leads our field and inside higher education sales teams. He has been in public sector sales for 24 years and with Insight for 6 months.
Kathy Kramer – Marketing Manager	Kathy leads our public sector marketing teams. She has been in marketing roles for over 25 years and with Insight (by way of acquisition) for 6 years.
Paul Geils – Sr. Manager, SLED Compliance	Paul and his team will be responsible for ensuring Insight remains compliant with the terms of the contract, specifically as it relates to pricing, reporting, audits, and user access. He has been with Insight for 24 years.

a. *Legal name, address, phone and fax numbers, e-mail, Federal ID#, and website address.*

Insight Response:

Insight Public Sector, Inc.
2701 E. Insight Way
Chandler, AZ 85286
480.333.3071
480.760.9488 fax

erica.falchetti@Insight.com
Federal Tax ID#: 36-3949000
www.ips.insight.com

b. *Date business was established under current name.*

Insight Response:

Insight Public Sector, Inc. was established on April 19, 1994.

On January 3, 2003, there was a reverse merger with a name change from Comark Government & Education Sales, Inc. to Insight Public Sector, Inc.

c. *Size of company including the total number of employees.*

Insight Response:

Insight Enterprises, Inc. (Insight Public Sector, Inc's parent company) has over 12,000 employees globally and earned over $9.4 Billion in revenue in 2021.

d. *Type of ownership or legal structure of business*

Insight Response:

Insight Public Sector, Inc. is an indirect wholly owned subsidiary of Insight Enterprises, Inc. and is the operational entity that conducts business with public sector clients.

e. *Has the company ever failed to complete work for which a contract was issued? If yes, explain the circumstances.*

Insight Response:

To the best of our knowledge, Insight has not defaulted on the fulfillment of any client contract for circumstances within our control.

f. *Are there any civil or criminal actions pending against the firm or any key personnel related in any way to contracting? If yes, explain in detail. Are there any current unresolved disputes/allegations?*

Insight Response:

Insight is not involved in any pending or threatened legal proceedings that we believe would reasonably be expected to have a material adverse effect on its business, financial condition, or results of operations.

From time to time, Insight is party to various legal proceedings incidental to the business, including preference payment claims asserted in client bankruptcy proceedings, indemnification claims, claims of alleged infringement of patents, trademarks, copyrights, and other intellectual property rights, employment claims, claims of alleged non-compliance with contract provisions, and claims related to alleged violations of laws and regulations.

Insight regularly evaluates the status of the legal proceedings in which we are involved to assess whether a loss is probable or there is a reasonable possibility that a loss, or an additional loss, may have been incurred to determine if accruals are appropriate. If accruals are not appropriate, we further evaluate each legal proceeding to assess whether an estimate of possible loss or range of possible loss can be made. Although litigation is inherently unpredictable, we believe that we have adequate provisions for any probable and estimable losses. It is possible, nevertheless, that our consolidated financial position, results of operations, or liquidity could be materially and adversely affected in any particular period by the work required pursuant to any legal proceedings or the resolution of any legal proceedings during such period. Legal expenses related to defense of any legal proceeding or the negotiations, settlements, rulings, and advice of outside legal counsel in connection with any legal proceedings are expensed as incurred.

g. *Has the firm ever been disqualified from working for any public entity? If yes, explain the circumstances.*

Insight Response:

Insight has never been disqualified from working for or with any public entity.

h. *If a Supplier requires additional agreements to be signed by a Participating Public Agency, include a copy of the proposed agreement(s) as part of Supplier's proposal.*

Insight Response:

Please see **Section 9 – Appendices, Appendix B** for the following sample agreement documents, which Participating Public Agencies may be asked to sign at the transaction level:

- Sample Insight Statement of Work (SOW) template
- Sample Amazon Web Services Order Form Agreement
- Sample Google Cloud Platform Order Form Agreement
- Sample Microsoft Azure Order Form

4. Experience

Include a list of the five (5) most relevant or comparable contracts completed by your firm during the past five (5) years with a public entity. For each contract, provide the following information.

a. *Scope of services/contract description.*
b. *Dollar value of contract.*
c. *Assigned project personnel.*
d. *The contracting entity's contact person, current phone number, and current e-mail address as reference information.*

Insight Response:

Contract #1: Fairfax County, Virginia / OMNIA Partners – Technology Products & Services

a. Scope: All products and services
b. Dollar value: $300M annually (includes revenue from all piggybacks)
c. Project personnel: Multiple Insight sales teammates
d. Contact information: Yong Kim, 703.324.3217, yong.kim@fairfaxcounty.gov

Contract #2: State of Iowa OCIO – Technology Products & Services (Piggyback of OMNIA)

a. Scope: All products and services
b. Dollar value: $45M annually
c. Project personnel: Multiple Insight sales teammates
d. Contact information: Pearson Skepnek, 515.414.6107 pearson.skepnek@iowa.gov

Contract #3: City of Los Angeles – Software & Related Services (Piggyback of OMNIA)

a. Scope: Software and related services
b. Dollar value: $35M annually
c. Project personnel: Multiple Insight sales teammates
d. Contact information: Kitty Pai, 909.738.0913, kitty.pai@lacity.org

Contract #4: State of Florida – Technology Products & Services (Piggyback of OMNIA)

a. Scope: Software and related services
b. Dollar value: $24M annually
c. Project personnel: Multiple Insight sales teammates
d. Contact information: Christopher McMullen, 850.922.9867, christopher.mcmullen@dms.fl.gov

Contract #5: Miami-Dade County – Technology Products & Services (Piggyback of OMNIA)

a. Scope: Software and related services
b. Dollar value: $9M annually
c. Project personnel: Multiple Insight sales teammates
d. Contact information: Guillermo Paneque, 305.596.8614, guillermo.paneque@miamidade.gov

5. Product Information / Service Capability

a. *Provide detailed information on service capability and the availability of service centers for maintenance and repairs on a national level. Indicate how many authorized service centers will be available for each state. Will pick up and delivery services be available for service of large equipment items?*

Insight Response:

Insight's manufacturer and publisher partners offer various warranty coverages that agencies have the option to purchase. Insight also partners with several third-party maintenance providers who offer a range of extended warranty options, depending on the product.

Additionally, for specific end user devices (laptops, PCs, printers, tablets), networking equipment, servers, and storage systems, Insight offers a suite of fee-based infrastructure maintenance services, which include the following coverage options:

Flexible service levels from 24/7 to next day

On-site, advanced exchange, and depot

Warranty management

End-of-life support for legacy products

Remote diagnostics, monitoring, and call home feature

b. *Provide available payment terms and payment methods – purchase order, credit card (procurement card), etc. If credit cards are accepted, may credit card payment(s) be made online*

Insight Response:

Insight's standard payment terms are net 30 days from date of invoice.

The different payment vehicles supported by Insight include payments to the Lockbox, Credit Card, Procurement Card, and EFT/ACH payments. The preferred payment vehicle is the EFT/ACH payment. Insight accepts American Express, VISA, and MasterCard credit cards and procurement cards.

Insight supports the use of procurement cards/credit cards, with the parties understanding that cards are used for point-of-sale transactions only. Insight is unable to accept procurement cards for payment of orders placed on net terms via purchase orders. Net term payments must be paid by check, wire transfer, or ACH.

Credit card payments for point-of-sale transactions may be made online.

6. Pricing

a. *Suppliers shall provide pricing based on a discount from a manufacturer's price list or catalog. Prices listed will be used to establish the extent of a manufacturer's product lines, services, warranties, etc. that are available from Supplier and the pricing per item. Multiple percentage discounts are acceptable, if where different percentage discounts apply, different percentages are specified. Additional pricing and/or discounts may be included.*

- Include an electronic copy of the catalog from which discount is calculated. Electronic price lists must contain the following: *(if applicable)*
  - Manufacturer part #
  - Supplier's Part # (if different from manufacturer part #)
  - Description
  - Manufacturer's Suggested List Price and Net Price
  - Net price to Cobb County, GA (net price shall include freight and any additional fees that may be charged such as credit card processing, administrative fees, etc.)

Media submitted for pricing must include the Supplier's company name, solicitation name and bid #, and the bid opening date on a Flash Drive.

Insight Response:

Product Pricing Discount Structure

With a few exceptions, Insight's proposed pricing structure for products is based on a discount off the Insight list price, which is how the majority of product categories are priced on our current OMNIA Partners contract. By offering a discount from the Insight list price, we are providing Participating Public Agencies additional discounts against an already aggressive, market-driven, value-based pricing structure that is continually being benchmarked against our competitors within the industry. Our list price is publicly available on our website and is dynamically updated in real time.

The proposed discounts are as follows:

All Products (except Microsoft Software, Cisco, and AWS)		
Product Category	**Description**	**Discount %**
Accessories	Desktop Accessories	5.0%
	Display Accessories	4.0%

Specific to AWS and Cisco solutions, Insight's proposed pricing structure is based on a discount off the AWS and Cisco MSRP, respectively. This is consistent with how AWS and Cisco AWS solutions are typically priced within the industry.

AWS Solutions	
Product Line	**Discount off MSRP**
All (excluding Marketplace transactions)	1%

Cisco Solutions			
Product Line	**Discount off MSRP (Government)**		**Discount off MSRP (Education)**
Hardware/Software (Cisco Core & Compute)	36%		36%
Cisco Market	10%		10%
Learning Credits / Training	0%		0%
Cisco Technical and Maintenance Services (SKU Based)	8%		8%
Cisco / Insight Advanced & Technical Services (SOW based)	0%		0%
SMARTnet	**Incumbent**	**Non-Incumbent**	**All**
	16%	8%	28%

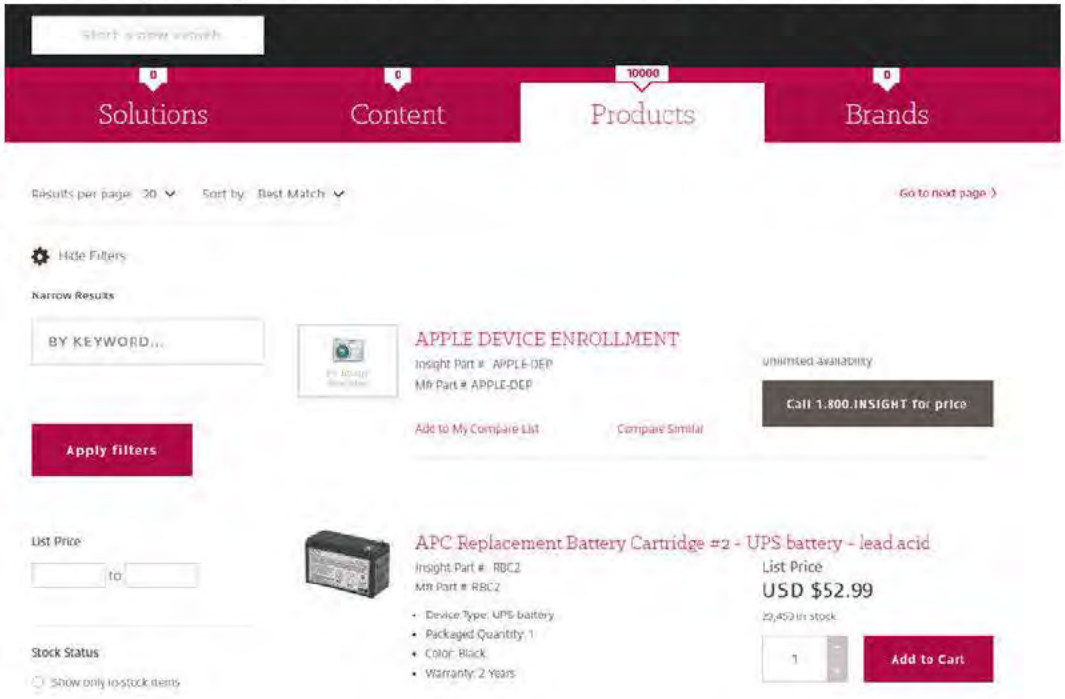
The final proposed pricing structure for products is for Microsoft software. Insight is proposing a cost plus structure, which is consistent with how Microsoft contracts are priced within the industry.

Microsoft Software	
Product Line	**Cost Plus Percentage**
Microsoft Software (including Cloud)	3.5%
Microsoft CSP /	15.0%

We have provided a list of all manufacturers, publishers, and suppliers we currently offer in **Section 9 – Appendices, Appendix C**. The corresponding discount percentages will be applied to a manufacturer's/publisher's offering based on the pricing structure outlined above. This list represents those manufacturers and publishers Insight is currently authorized to sell. As Insight continues to expand its product portfolio, additional manufacturers and publishers will be added. We will be happy to provide Cobb County, Participating Public Agencies, and OMNIA Partners with a current list at any time throughout the term of the contract.

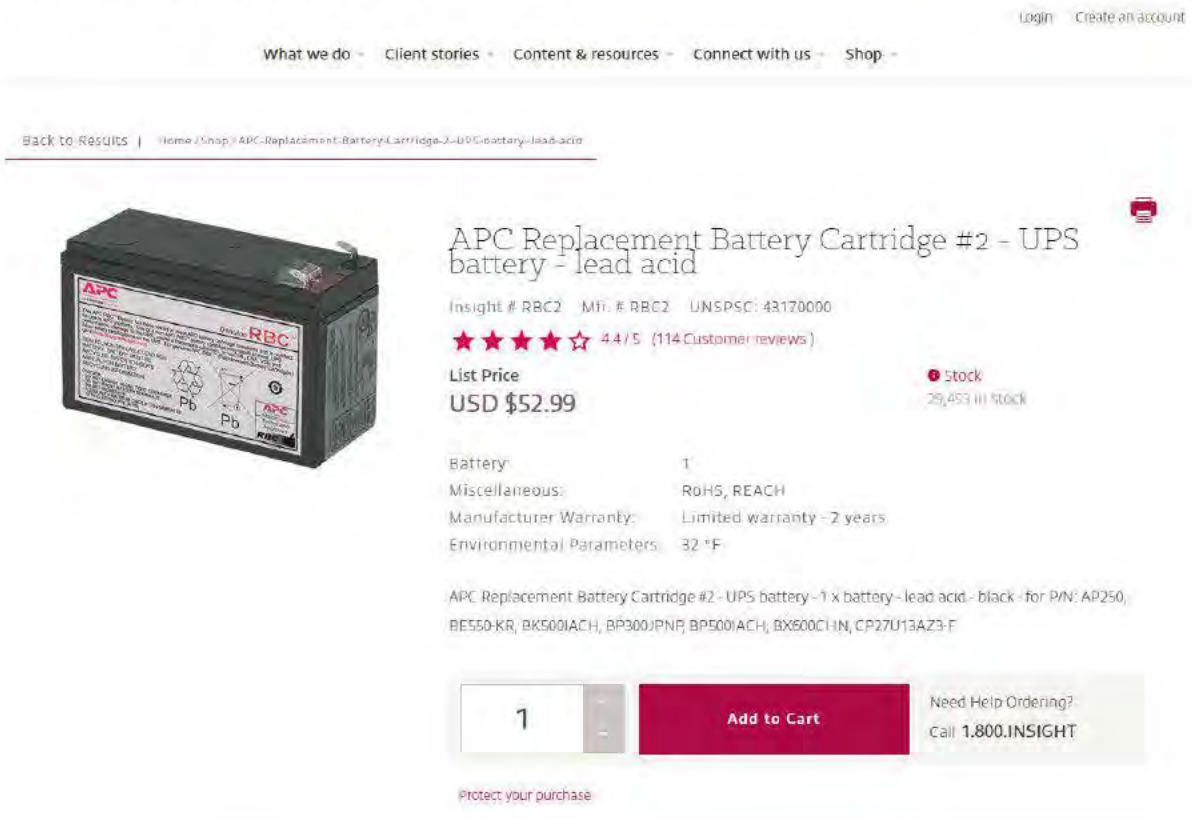
Please note that, at this time, Insight is unable to sell Apple solutions to K-12 schools, since Apple does not currently allow resellers to sell on their behalf to K-12 schools.

Insight's electronic catalog is located on our website, where customers can access manufacturer part numbers, product descriptions, Insight catalog list price, etc.:



https://www.ips.insight.com/en_US/shop.html

Below, we have provided instructions detailing how to access this information.



- Click on the link above, and then click "Search all products" to perform a search. (See screenshot below.)
- Customers also have the ability to "Shop by Category".

- Enter a keyword, product name, or part number in the search box, as shown below.

Below is a screenshot of a search result.

The search results presented in the screenshot above show the manufacturer part number, the Insight part number, product description and Insight's list price.

Should Insight be chosen as a successful vendor for this contract, we will update our dedicated OMNIA Partners web page (www.ips.insight.com/omnia) to show the Net Price to Cobb County (i.e., the not-to-exceed contract price).

We have provided a screenshot from our current OMNIA Partners web page for reference:

Services Pricing Discount Structure

With one of the deepest services portfolios in the United States, Insight is pleased to present the following as our proposed pricing structure for services and solutions.

The two components are:

- Service Category Rates
  - Cases where the work to be performed is presented to the client on a fixed fee or per unit basis.
  - Examples include per cable drop, per user, per device, and per engagement.

- Time & Material Rates
  - Cases where Insight is utilizing its internal resources to provide specific services based on contracted hourly rates.

Service category rates are as follows:

Service Category	Discount off Insight List Price
Consulting Services	10%
Consulting services drive value acrorss the entire enterprise through strategy, design, technology, and industry expertise—from guiding Agile and Scrum methodologies to leading OCM and transformation.	
Managed Services	10%
Managed services integrate with a client's operations and provide a full breadth of services ranging from reactive technical support to comprehenstive 24/7 monitoring, management, and reporting as well as services designed to cover infrastructure security.	
Professional and Lifecycle Services	10%
Professional services provide support to optimize IT environments across public, private, and hybrid infrastructure, enabling organizations to expand and evolve to meet the demands of application workloads, accelerating business transformation, and achieving strategic objectives.	
Other Services Not Listed Above	1%
As may be offered by Insight from time to time.	

Time & material rates are as follows:

Functional Role	Insight List Price (Hourly Rate)	Discount off List Price	Contract Not-to-Exceed Price (Hourly Rate)
Material Handler	$55.00	10%	$49.50
Service Desk Representative	$60.50	10%	$54.45

Managing Consultant	$302.50	10%	$272.25
Architect I	$330.00	10%	$297.00
Sr. Managing Consultant	$335.50	10%	$301.95
Delivery Engineer III	$341.00	10%	$306.90
Principal Consultant	$363.00	10%	$326.70
Architect II	$390.50	10%	$351.45
Solutions Architect	$401.50	10%	$361.35
Sr. Principal Consultant	$423.50	10%	$381.15
Architect Sr.	$451.00	10%	$405.90
Sr. Manager Services	$605.00	10%	$544.50
Specialty	$660.00	10%	$594.00

The discount for the functional titles listed above shall remain consistent. The job titles themselves are reviewed annually and are subject to change as determined by Insight. A current price list will always be available at www.ips.insight.com/omnia.

b. *Provide details of and propose additional discounts for volume orders, special manufacturer's offers, minimum order quantity, free goods programs, total annual spend, etc. (if offered).*

Insight Response:

Insight will work closely with our manufacturer and publisher partners to provide the best possible prices for each opportunity. Clients will be highly encouraged to contact their sales teams when requesting pricing on larger volume purchases. Each manufacturer and publisher partner has different rules and offers related to large procurements. Insight will drive our internal resources and our partners to offer the best pricing available for each large volume purchase.

c. *If used, trade-ins, leasing/financing, or other offerings are available, provide applicable pricing and discounts.*

Insight Response:

Insight Global Finance (IGF) provides flexible IT financing and leasing services with flexible term lengths and repayment options to meet your organization's specific needs.

IGF offers a wide variety of cost-effective and timely IT financing options to help our clients leverage IGF financing options for hardware, software and services.

- Equipment Lease (FMV) – Allows you to return, purchase or extend at the end of your lease term.
- Capital Lease ($1.00) – Lease purchase vehicle that automatically terminates at the end of your lease term.
- Software Payment Agreement – Structured payments for software licenses and multi-year software subscriptions.
- Maintenance Payment Agreement – Structured payments for multi-year maintenance/warranty agreements.

Payment Options

- One- to Five-year Terms
- Monthly, Quarterly & Annual Payment Options
- 30, 60 & 90 day deferrals
- Custom Payment Streams (Step, Skip & Seasonal)

Leasing Value-Adds

- Small, medium & large ticket origination capabilities to handle any project size or equipment type
- Simple, transparent & fair documentation with no surprises or hidden fees
- No outsourcing. Our in-house knowledgeable, creative pre-sales team is ready to help assess and structure the right plan for your organization.
- Our dedicated, in-house operations team simplifies onboarding, order processing, and reporting.

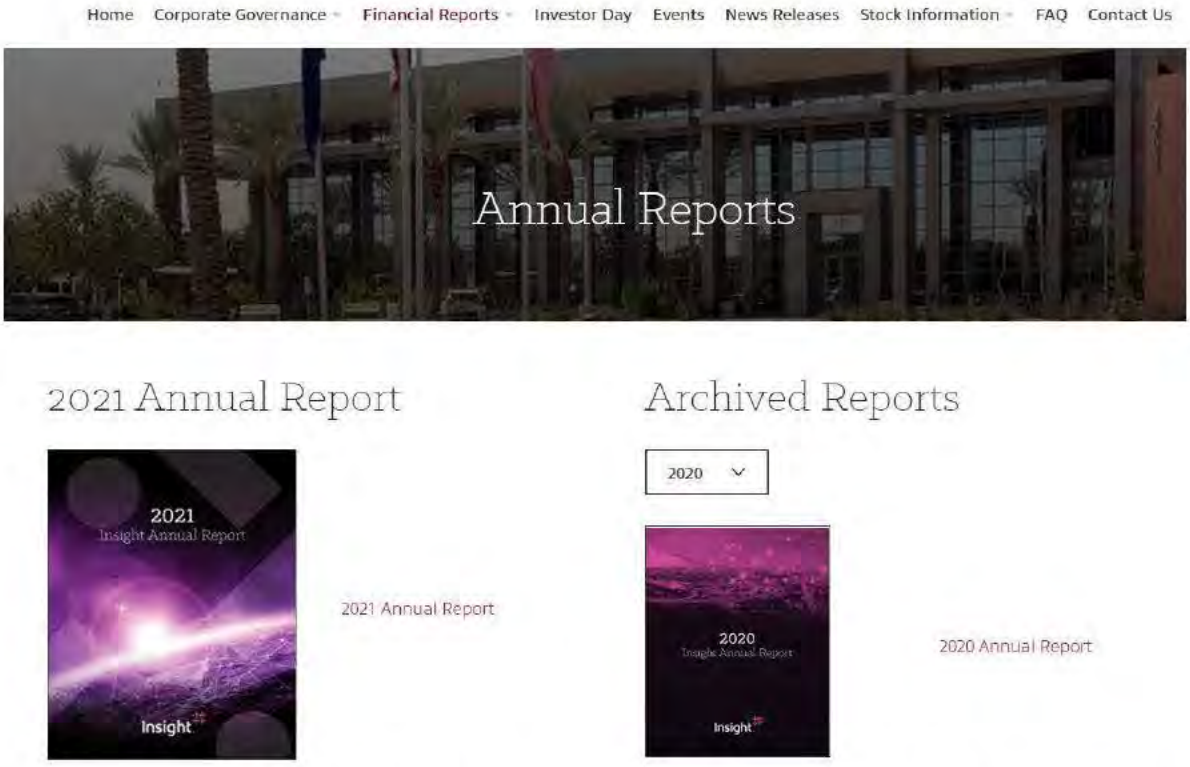
- Vendor consolidation. Our team can help manage multiple financial solutions with a consolidated, vendor neutral approach.
- Partnership. Insight is a top tier partner with all the major manufacturer's captive financial institutions. We can assist with interactions between your organization and the captives, freeing up your employees' time and resources.

7. Financial Statements

Proposers shall submit a recent history of financial solvency and provide the following:

a. *Financial Statement: Include the most recent, independently certified financial statement. Financial statements must include a balance sheet and income statement.*

Insight Response:



The combined Insight companies and their subsidiaries represent a $9.4 billion global enterprise and are the largest single source solution provider of computer technology and services in the U.S. While remaining small enough to service our public sector clients with personal attention, Insight Public Sector has the resources of the Insight family of companies behind us to support our efforts.

Insight Enterprises, Inc. is a publicly traded company and adheres to general accounting practices and principals. Insight Enterprises' latest Annual Report (year ending 2021) can be found on our corporate website here:

https://investor.insight.com/financial-reports/annual-reports/default.aspx

Our current Annual Report includes a total of three (3) years of the requested financial information. Cobb County can access our audited financial statements on pages 52-56 of our 2021 Annual Report.

Below is a screenshot of the Insight Investor Relations Annual Report Page.

On page 47 (page # listed at the bottom of the page), you will find the Index to Consolidated Financial Statements, identifying the pages in which to find Consolidated Balance Sheets (page 52) and Consolidated Statements of Comprehensive Income (page 54). A screenshot of the Index to Consolidated Financial Statements is below:

b. *Name and address of firm preparing the attached financial statement including a letter stating the independent audit or review has been performed by the firm.*

Insight Response:

KPMG LLP (Phoenix, Arizona) is the firm that prepared the financial statements, and we have included a letter from KPMG LLP stating that they have audited said statements. The letter can be found on the following pages.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors
Insight Enterprises, Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Insight Enterprises, Inc. and subsidiaries (the Company) as of December 31, 2021 and 2020, the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2021, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2021, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated February 18, 2022 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgment. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Evaluation of revenue recognition

As discussed in Note 1 to the consolidated financial statements, the Company recognizes revenue when it satisfies a performance obligation by transferring control of a product or service or by arranging for the sales of a vendor's product or service to a client. The Company measures

revenue based on the consideration received in a contract with a client, and excludes any sales incentives and amounts collected on behalf of third parties. The Company offers hardware and software products, as well as services. Given the number of product and service offerings, significant judgment is exercised by the Company in recognizing revenue, including the following decisions:

- Determining the point in time when a customer takes control of hardware.
- Determining the point in time when the customer acquires or renews the right to use or copy software under license and control transfers to the customer.
- Evaluating the Company as either a principal or an agent for hardware and software products and services, and the related recognition of revenue from the customer on a gross or a net basis.
- Determining an appropriate pattern of revenue recognition for service performance obligations.

We identified the evaluation of revenue recognition as a critical audit matter because the audit effort to evaluate the Company's revenue recognition judgments, including those noted above, was extensive and required a high degree of auditor judgment.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls over the revenue recognition process, including controls related to the timing and pattern of revenue recognition and gross versus net revenue recognition. As part of testing the Company's internal controls, we also involved information technology (IT) professionals with specialized skills and knowledge, who assisted in testing of general IT controls over significant systems and the evaluation of system interface controls and automated controls designed to determine the existence, accuracy, and completeness of revenue. We evaluated the Company's significant accounting policies related to its product and service offerings by reviewing the terms of certain vendor and customer contracts and comparing the policies to the revenue recognition standard. We selected a sample of revenue transactions and performed the following for each selection:

- Obtained evidence of a contract with the customer.
- Compared the amounts recognized and timing of revenue recognition to underlying documentation, including purchase orders, shipping documentation, and evidence of payment, if applicable.
- Evaluated the Company's application of their accounting policies to determine the timing and amount of revenue to be recognized.
- Tested the presentation of revenue as gross or net by comparing the Company's gross or net presentation to the attributes of the underlying vendor support and the Company's accounting policy.

/s/ KPMG LLP

We have served as the Company's auditor since 1990.

Phoenix, Arizona

c. *State whether the Proposer has ever had a bankruptcy petition filed in its name, voluntarily or involuntarily. If yes, specify all relevant details.*

Insight Response:

Insight has never had a bankruptcy petition filed in its name, either voluntarily or involuntarily.

8. National Contract

a. *Include a detailed response to Attachment A, Exhibit A, OMNIA Partners Response for National Cooperative Contract. Responses shall highlight experience, demonstrate a strong national presence, describe how Supplier will educate its national sales force about the contract, describe how products and services will be distributed nationwide, include a plan for marketing the products and services nationwide, and describe how volume will be tracked and report to OMNIA Partners.*

Insight Response:

Insight's response to **Attachment A, Exhibit A, OMNIA Partners Response for National Cooperative Contract** can be found below.

OMNIA Partners Response for National Cooperative Contract

Supplier must supply the following information for the Principal Procurement Agency to determine Supplier's qualifications to extend the resulting Master Agreement to Participating Public Agencies through OMNIA Partners.

COMPANY

A. *Brief history and description of Supplier to include experience providing similar products and services.*

Insight Response:

Over our 34 years in business, Insight has expanded through both organic growth and acquisitions to match the advancement of technology. Having humbly begun in 1988 out of a garage in Tempe, Arizona, Insight Enterprises is now a $9.4 billion industry-recognized solutions integrator. Founders Tim and Eric Crown established Insight Enterprises as Hard Drives International, inspired by a business plan that took root in a college assignment and using a cash advance from a credit card to act on it. Helping our clients on their digital journey is at the heart of what we do. From our original location in the United States, we expanded nationwide and entered Canada in 1997 and the United Kingdom in 1998. We now operate in 18 countries with 39 global locations.

Through acquisitions and organic growth, we continued to increase our geographic coverage and expand our technical capabilities. Our track record of innovation marks our evolution as an industry-recognized solutions integrator differentiated by end-to-end expertise to envision, develop, securely deploy, and manage our clients' modern IT solutions at scale. Insight now ranks No. 373 on the Fortune 500, fulfilling a mission to help clients maximize the day-to-day value of IT while pursuing more incredible business transformation. Insight is also on the Channel Futures MSP 501, ranking No. 1 of IT service providers globally.

Our Offerings

Our offerings in North America and certain countries in EMEA and APAC include hardware, software, and services, including cloud solutions. Our offerings in the remainder of our EMEA and APAC segments consist of powerful software and certain software-related services and cloud solutions. On a consolidated basis, hardware, software, and services represented approximately 62%, 24%, and 14% of our net sales in 2021. This compares to 61%, 25%, and 14% of our net sales in 2020 and 60%, 27%, and 13%, respectively, of our consolidated net sales in 2019.

Our Areas of Expertise

Insight developed comprehensive solutions to meet the market demand and deliver meaningful client outcomes at scale. We quickly adapt to new innovative technology trends to advance our technical expertise. Our nearly 11,500 global teammates help organizations be ambitious in their digital transformation by providing Insight Intelligent Technology Solutions in the following key areas: Modern Workplace, Modern Apps, Modern Infrastructure, Intelligent Edge, Data and AI, and Cybersecurity.

Insight Public Sector, Inc.

Insight Public Sector, Inc. is one of the largest providers of technology to Public Sector clients in the United States. Insight brings a wealth of contract experience to our Public Sector clients, holding more than 250 contracts across the federal, state, local, and education verticals. We currently hold some of the largest contracts in the industry, from federal contracts, such as GSA and NASA SEWP, to national cooperative contracts like OMNIA Partners. We also hold state-wide contracts in over 40 different states. Collectively, these contracts and our dedicated Public Sector sales and services teams allow us to provide customized products and solutions that range from initial consulting, procurement, and product delivery to maintenance and support.

Insight's purpose is to make meaningful connections that help organizations run smarter. Our value is our ability to guide, advise, implement, and manage IT solutions for our customers. Our strategy is to deliver relevant IT solutions to our customers on a scalable support and delivery platform.

Our process knowledge and technical expertise allow us to assess, design and deploy IT solutions to help our customers enable, manage, and secure their IT environments. Our product fulfillment and logistics capabilities, management tools, and technical expertise make designing, deploying, and managing IT solutions easier for our customers while helping them control their IT costs.

B. *Total number and location of salespersons employed by Supplier.*

Insight Response:

Insight Enterprises, Inc.'s (Insight Public Sector's parent company) employee counts, as disclosed in our Annual Report filed for December 31, 2017-2021, are provided below.

	2021	2020	2019	2018	2017
Sales	3,670	3,380	3,193	2,455	2,512

a. *Submit FEIN and Dun & Bradstreet report.*

Insight Response:

Insight Public Sector's FEIN number is **36-3949000**, and a copy of Insight's 2022 Dun & Bradstreet report can be found in **Appendix D – Dun & Bradstreet Report 2022** at the end of our proposal document.

E. *Describe any green or environmental initiatives or policies.*

Insight is committed to protecting the environment, including pollution prevention to reduce the adverse environmental impacts of our activities and services. Through a program of continual environmental improvement and monitoring, we look for opportunities to reduce consumption and improve efficiency, including the consumption of energy from sustainable sources, monitoring and minimizing the generation of waste at the source, and taking steps so that waste is handled in a safe, environmentally acceptable manner.

We also promote the use of suppliers and contractors who are improving their environmental performance. We involve employees in the process of setting and publishing environmental objectives, improving the working environment, and seeking individual commitments and contributions to our initiatives.

Insight North America Green Initiatives

- Flexible work: We are providing more flexible work options, which reduces commuting and decreases requirements for office space.
- Less travel: We have reduced business travel and increased use of video conferencing with partners and clients to help conserve resources and encourage hybrid work practices.
- Smart lighting: We are replacing fluorescent lighting with energy-efficient LED lighting.
- Repurposing equipment: Office chairs are recycled and old telephony is donated to charity for reuse.
- Conservation efforts: We encourage teams to conserve power and use 100% recycled paper napkins and BioPAK disposable plates and cups in staff rooms.

Corporate Citizenship

Technology is one of our greatest resources for driving progress. In the 2022 Corporate Citizenship Report, learn how Insight continues to find new ways to build meaningful connections to help those we serve work and live smarter, and how the Ten Principles of the UN Global Compact guide how we do business.

Please click the link below to navigate to our 2022 Corporate Citizenship report on Insight.com.

F. *Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.*

Insight Response:

While Insight is not a minority, veteran or woman-owned small business, we are committed to the development and use of small businesses, including those owned by minorities, women, and veterans, when it makes good business sense and benefits all parties.

Insight recognizes that diversity sourcing is a key business driver for many of our clients. Insight's strategic partnerships can help clients meet these goals. We also recognize that each client brings a different set of requirements as it relates to their current diversity program and procurement process.

Insight offers a variety of programs that allow clients to leverage Insight's value-added services and global buying power, while having the opportunity to work directly with one of our certified diversity partners.

- Direct, strategic partnerships with diversity companies working side-by-side to provide solid business solutions for our shared clients.
- Sourcing products through Insight's supply chain of small and diverse suppliers.
- 3rd party leasing for Insight clients seeking diversity spend.

We believe that by creating long-term relationships and providing business opportunities for minority-owned, woman-owned, and small businesses, we are better able to serve our clients and support the diverse communities in which we do business.

Insight would be happy to discuss all available options should a Participating Public Agency want to learn more about our diversity programs.

G. *Indicate if supplier holds any of the below certifications in any classified areas and include proof of such certification in the response.*

- *Minority Women Business Enterprise*
  Insight Response: No
- *Small Business Enterprise (SBE) or Disadvantaged Business Enterprise (DBE)*
  Insight Response: No
- *Historically Underutilized Business (HUB)*
  Insight Response: No
- *Historically Underutilized Business Zone Enterprise (HUBZone)*
  Insight Response: No
- *Other recognized diversity certificate holder*
  Insight Response: No

H. *List any relationships with subcontractors or affiliates intended to be used when providing services and identify if subcontractors meet minority-owned standards. If any, list which certifications subcontractors hold and certifying agency.*

Insight Response:

Insight has relationships with dozens of subcontractors, some of whom do meet minority-owned standards. At this time, since we do not know what specific services will be requested, we do not have any subcontractors to name in our response. In general, we use subcontractors to augment our services staff so that we are able to assist clients throughout the country. Subcontractors are available for such projects as Microsoft consulting services, cabling, installation of communication systems in fleet vehicles, professional services, staffing, asset disposal, break/fix, and help desk services.

Insight has a formal subcontractor selection process in place which includes an in-depth business case review of the potential subcontractor by Senior Services Management, credit and background checks and execution of a Master Subcontractor Agreement. This review includes a thorough understanding of the subcontractor's capabilities, the ability of the subcontractor to meet Insight and client requirements, and a review of business references. Periodic audits are performed to ensure subcontractors are in compliance with Insight's contract and high performance standards.

I. *Describe how supplier differentiates itself from its competitors*

Insight Response:

Our clients are our number-one priority, so our primary goal is to deliver client value, which helps us earn client loyalty. We expect our clients to achieve advantages by leveraging our unique capabilities to provide end-to-end secure digital transformation solutions and services. From IT strategy and design to implementation and management, we meet clients wherever they are now and work alongside them to get them to where they want to be. Whether implementing public cloud or as-a-service workplace solutions, designing a next-generation or hybrid cloud data center, or leveraging sophisticated Internet-of-Things ("IoT") and artificial intelligence solutions to improve our clients' experiences, we provide technical expertise and advisory services to our clients as an industry-recognized solutions integrator. Our go-to-market framework for our cloud and digital expertise is built on over 30 years of broad IT experience combined with strategic acquisitions, new cloud and digital knowledge, and deep partner relationships. We are uniquely positioned to help our clients maximize the values of their technology today – and accelerate tomorrow.

Each of our areas of expertise represents a discrete area of growth for our business. When connected, they provide a platform for our clients to leverage our breadth of knowledge to solve their most relevant challenges. Powered by Insight's legacy technology supply chain expertise, we can support our services offerings within the hardware, software, and cloud solutions from market-leading and emerging manufacturer brands. We employ centralized and field-based sales, engineering, and services resources to execute our strategy to connect with our clients. We also invested in technical engineers, architects, and software developers who create and deliver integrated IT solutions to our clients globally, a capability we believe differentiates us in the marketplace.

Insight offers the most extensive product selection in the industry and a full range of services, including enterprise consulting, high-performance systems, integration, configuration, deployment, lifecycle management, and networking design. Our status as a global provider of IT products and services with 11,000+ employees located worldwide and our stature as a Fortune 500 company makes Insight a 'Trusted Advisor.' Our breadth of capabilities provides our clients with substantial buying power while following our business model to work with our clients to perform customized services such as you would find with a smaller Value-Added Reseller (VAR).

Single Source Provider & Super Solution Integrator

When evaluating IT suppliers, it is essential to look at the entire procurement process. IT management includes more than just buying a product. The value of the reseller relationship — the ease of having one contact to handle all your IT needs, from product procurement to services to asset disposition is a key component to your success. Using Insight as your single-source provider for IT products and services means you have only one relationship to build and maintain. It eliminates the need for multiple purchase orders, invoices, and chances for error. Today, organizations are facing more challenges than ever before. Organizations are assessing how to optimize IT operations and free up funds for the innovation required to manage today and prepare for a future that could be much different than anticipated.

Manufacturer & Publisher Relationships

Insight receives the best pricing offered by the central IT hardware manufacturers and publishers, such as HP, Inc., IBM, Lenovo, VMware, and Cisco. These strong relationships allow Insight to acquire better product allocations and higher levels of support than many of our competitors. Insight is proactive and aggressive in our efforts to lower our clients' costs continuously. We will employ our extensive manufacturer and publisher relationships to negotiate on our clients' behalf to reduce costs.

J. *Describe any present or past litigation, bankruptcy or reorganization involving supplier.*

Insight Response:

Insight is not involved in any pending or threatened legal proceedings that we believe would reasonably be expected to have a material adverse effect on its business, financial condition, or results of operations. Insight has never filed for bankruptcy.

K. *Felony Conviction Notice: Indicate if the supplier:*

a. *is a publicly held corporation and this reporting requirement is not applicable;*
b. *is not owned or operated by anyone who has been convicted of a felony; or*
c. *is owned or operated by and individual(s) who has been convicted of a felony and provide the names and convictions;*

Insight Response:

Insight is a wholly-owned subsidiary of a publicly held corporation and the reporting requirement is not applicable.

L. *Describe any debarment or suspension actions taken against supplier.*

Insight Response:

Insight has not had any debarment or suspension actions taken against it.

DISTRIBUTION / LOGISTICS

A. *Each offeror awarded an item under this solicitation may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by supplier.*

Insight Response:

Insight is offering Cobb County and all Participating Public Agencies our complete portfolio of hardware, software, cloud solutions, and services, including but not limited to the following.

Hardware Product Offerings

We offer products from hundreds of manufacturers, including such industry leaders as Cisco, Dell/EMC, HP Inc., Lenovo, Hewlett Packard Enterprise Company ("HPE"), NetApp, Apple, Microsoft, and IBM. Our scale and purchasing power, combined with our efficient, high-volume, and cost-effective direct sales and marketing model, allow us to offer competitive prices. We believe that providing choices from multiple partners enables us to better serve our clients by providing various product solutions to address their specific technology needs.

In addition to our distribution facilities, we have "direct-ship" programs with many of our partners, including manufacturers and distributors, allowing us to expand our product offerings without increasing inventory, handling costs, or inventory warehousing risk exposure. As a result, we can offer billions of dollars of virtual inventory products to fulfill our performance obligations to our clients. Convenience and product options among multiple brands are vital competitive advantages compared to manufacturers' direct selling programs, which are generally limited to their brands and may not offer clients a complete or best-in-class solution across all product categories.

Our Hardware Life Cycle Services consists of sourcing, procuring, staging, configuring, integrating, testing, deploying, refurbishing, and redeploying IT products spanning endpoints to infrastructure, regionally, or across the globe via the Insight footprint and our extensive engaged network of suppliers.

Software Product Offerings

Our clients acquire software applications from us through licensing agreements with software publishers or boxed products. We offer products from hundreds of publishers, including such industry leaders as Microsoft, VMware, Adobe, IBM Software, Symantec, and Citrix. As software publishers choose different models for implementing licensing agreements, organizations must evaluate the alternatives to ensure that they select the appropriate contracts and comply with the publishers' licensing terms when purchasing and managing their software licenses. With many publishers now offering public cloud-based software solutions in place of licenses consumed on-premise, we expect to continue migration to the cloud-based software alternatives. Our software lifecycle services consist of portfolio management, compliance, integration, and adoption, on-premise or in the cloud, regionally or globally.

Solutions and Services Offerings

As a comprehensive Solutions Integrator (SI), Insight takes a client-focused approach to helping organizations identify, adopt, and manage the most appropriate solutions to drive digital transformation and modernization for innovation. Our Areas of Expertise include the Modern Workplace, Modern Apps, Modern Infrastructure, Intelligent Edge, Cybersecurity, and Data and AI. With proven methodologies and experienced teams, we help enable operational efficiencies,

gain business agility, mitigate risk, manage compliance, address spiraling data growth, and meet the demands of the modern workplace.

Our client-focused approach ensures the most appropriate solutions to drive digital transformation and modernization for innovation.

Modern Workplace

Due to the recent rapid mobilization of the workforce, a dramatic shift in the IT support needs of the landscape of the typical workplace has changed forever. We help our clients modernize essential workplace products, platforms, and workflows to create enhanced environments for secure productivity and flexibility. Insight is dedicated to steadily enhancing end-users' experience as an established leader in the industry.

For five consecutive years, Insight's Workplace Services has been distinguished in Gartner's Magic Quadrant for focusing on clients' needs, having a cost-savings approach, and providing vital support for hybrid workforce and endpoint solutions. Insight can simplify the management of our clients' IT Lifecycle and enable a fast hybrid "work anywhere" environment for their workforce. We will consistently provide comprehensive device services (including DaaS, Managed Endpoint, warehousing, and multi-media messaging) for clients through assessment and strategy engagements.

Modern Apps

The applications our clients leverage to enable workers and delight end users can be a crucial differentiator for your organization. Applications are critical to operations, but it's common to struggle with challenges, from poor user experiences to skills gaps. An underperforming application environment often forces developers to find workarounds and IT to make quick fixes while the organization experiences a significant drag.

We build modern business applications using repeatable methodologies and an agile, user-centric approach to help our clients' organizations innovate, differentiate, and grow. We future proof our clients' critical applications for increased innovation and organizational agility.

Modern Infrastructure

Technology-driven transformation is on a steep growth trajectory. Insight helps organizations modernize to drive value with proven technology architectures and flexible cloud and data solutions. The result is leveraging technology investments to create an engine of growth.

We architect and deliver modern infrastructure solutions, management, and support spanning cloud and data center platforms, modern networks, and edge technologies, to enable our clients' organizations' digital transformation. We strive to exceed our clients' demands to accelerate faster in the cloud, and our knowledgeable teams maintain essential relationships with crucial cloud partners.

Intelligent Edge

Traditional architectures are focused on the data center. Modern architectures incorporate cloud and hybrid cloud, converged solutions, and potential solutions like containers. The intelligent edge extends the perimeter to new places — factory floors, cornfields, retail stores, wind turbines, surgical units, coal mines, and nearly anywhere you could imagine. We architect and deliver edge solutions spanning network, compute, storage, and artificial intelligence ("AI") and machine learning ("ML") to drive value and deliver ongoing support for the IoT.

Although some aspects of the intelligent edge mirror traditional approaches, there are many novel considerations. Go from idea to execution with Insight. Our team can support clients using case identification, strategy, architecture and design, deployment, testing and optimization, and monitoring and management — the full spectrum of realizing your intelligent edge.

Data & Artificial Intelligence (AI)

Insight brings multidisciplinary expertise, hardened skills across all major technology partners, and a depth of vision that outperforms our competition. We modernize data platforms and architectures and build data analytics and AI solutions that transform our clients' operations and user experiences.

What Insight can deliver to our clients:

- Modern data platforms, cloud, and infrastructure.
- Data, AI, and ML solutions use case development, design, and implementation.
- Data and analytics estate development/re-development and unification.
- Security and governance for data and AI solutions.

Cybersecurity / Security and Networking

Innovation and growth are necessary. Thus, networking and security best practices must keep evolving. Our team can offer guidance and technical support at every step, focusing on aligning business and IT strategies. Insight delivers comprehensive ransomware and cyberthreat prevention and protection solutions and strategies while enhancing visibility and context with fewer manual inputs.

What we'll provide to our clients:

- Alleviate large-scale security teams through simplified security management.
- Security framework implementation (Secure Access Service Edge, Zero Trust, software-defined).
- Wireless connectivity architectures and implementations, including CBRS and standup outdoor units.
- Security for hybrid cloud and multi-cloud leveraging automation.
- Artificial Intelligence (AI), machine learning, and advanced methodologies.
- Modern data protection spans cloud, edge, and on-premises environments, encompassing data classification, governance, compliance, and disaster recovery.
- Software-defined technologies, including SD-WAN, SD-LAN, and SDDC.

B. *Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the Master Agreement, including U.S. Territories and Outlying Areas.*

Insight Response:

Insight maintains a primary inventory of $70 to 80 million on hand in Hanover Park, Illinois. This inventory is not shared or divided among other geographic offices. Many of our nationwide competitors can claim to have larger inventories; however, when it is distributed to hundreds of locations or franchises across the country, the inventory is much smaller, diffused, and harder to consistently allocate to our clients. Insight works closely with our major business partners to privatize inventory and will stock additional products to meet specific project and rollout schedules.

Insight's 380,000 square foot distribution center and configuration lab is a state-of-the-art facility ensuring maximum efficiency. The latest innovations in radio frequency monitoring, bar coding, batch/zone picking, and automated product movement, allow Insight to ship over 4,500 orders per day.

Insight also can draw an additional $2 to $3 billion in inventory from several nationwide distribution centers. Insight is currently online (real time) with Ingram Micro and TD Synnex. We can access their inventories from our systems to view additional inventory. Many dealers prefer to wait and receive their own allocation of product from the manufacturer. At Insight, we view second sourcing as an intangible value added that helps us deliver product faster and make our clients more efficient. We can find any product, anywhere in North America.

Product from these locations can be drop shipped and sent via overnight carrier if requested by our clients.

As a product becomes increasingly difficult to procure, Insight will ask for and receive the distribution data history for the product and call all the companies that obtained shipments from the manufacturer.

Finally, Insight has established a network of distribution partners that we utilize on a regular basis. Our purchasing staff will call this channel of contacts and work to procure product when necessary.

C. *Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.*

Insight Response:

Insight takes contract compliance very seriously, and we have a dedicated Contract Compliance team that sits under Legal to ensure we're adhering to the terms and conditions of our contracts.

From a systems perspective, Insight has a Contracts Module that is designed specifically to reduce possible human error. The system calculates the contract sell price, preventing anyone from charging more than the approved contract price. This function disallows the sales team from saving a quote or order unless the price is at or below the contracted price. Insight's Compliance team is the only team capable of assigning a contract to an account. The system, through a series of rules, automatically assigns the products to the contract. Sales cannot misrepresent that a specific product is on contract when it is not. The Compliance team audits the sales activity and reviews every new account for accuracy (so that the contracts related are accurate).

Insight does not have any retail or in-store locations, nor we do sell our products, services, and solutions through distributors. All sales will be made directly through Insight via our sales teammates.

D. *Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.*

Insight Response:

Products shipped from Insight's Distribution Facility in Hanover Park, Illinois, can be shipped via UPS, FedEx, Truckline, major air/heavy freight carriers such as Ceva, PGL, or a client-requested carrier. The number of business days for delivery after receipt of order varies based on the method in which the product was shipped (i.e., UPS, FedEx, etc.) and the priority it was shipped.

Due to our large shipping volume, Insight has negotiated some of the best rates with many of the carriers listed. Insight will ship products using the most aggressive priced carrier depending on poundage and scheduled delivery. Insight will adhere to specific client requests to use a different carrier and/or upgrade to a "Priority" shipment.

Because Insight cares about the security of our clients' shipments, we have instructed our delivery agents not to leave packages at a client location without a signature. Clients may choose to have their order delivered to an alternate location if they will not be available to receive it.

For hardware, we have "direct-ship" programs with many of our partners, including manufacturers and distributors, allowing us to expand our product offerings without increasing inventory, handling costs or inventory risk exposure. As a result, we can provide a product offering with billions of dollars of products in virtual inventory. Convenience and product options among multiple brands are key competitive advantages compared to manufacturers' direct selling

programs, which are generally limited to their own brands and may not offer clients a complete or best-in-class solution across all product categories.

Insight will provide free basic best way ground shipping for all applicable orders placed under the Master Agreement to any Participating Public Agency within the continental United States.

Should a Participating Public Agency require expedited and/or a customized shipping solution or if the product is considered heavy weight, we will provide a written quote of estimated freight charges prior to order placement. As standard business practice, shipments are delivered Monday through Friday, with no deliveries on weekends or holidays. We do offer limited Saturday delivery service; however, this service is not available for all products, from all shipping warehouses, or for all delivery locations. There is no online option for setting a shipment for Saturday delivery. In order to check on the availability of Saturday delivery for your desired product, please call us at **1.800.INSIGHT** (1.800.467.4448).

E. *Provide the number, size and location of Supplier's distribution facilities, warehouses and retail network as applicable.*

Insight Response:

Insight provides inventory management and warehousing services from our Insight-operated Distribution and Integration Facilities in the United States, Canada, UK, and Germany. Our facilities ensure maximum efficiency, boasting the latest innovations in radio frequency monitoring, bar coding, batch/zone picking, and automated product movement, allowing us to ship over 4,500 orders per day in the U.S. alone.

Insight's flagship Hanover Park facility houses our primary inventory of $70-$80 million in products from over 1,500 leading manufacturers. Our inventory is not shared or divided among other geographic offices. At 380,000 square feet, this location provides us the ability to offer our clients enhanced lifecycle services. The largest of its kind, we offer warehousing, integration, and break/fix services.

Insight's acquisition of PCM in 2019 complemented our supply chain optimization solution offering and added scale by increasing our distribution center footprint in North America. Facilities included with the acquisition include:

- Lewis Center, OH: 84,640 ft^2
- Worthington, OH: 126,000 ft^2
- Fontana, CA: 4,000 ft^2
- Edmonton, AB: 20,500 ft^2
- Calgary, AB: 10,750 ft^2

These facilities allow for a combined 594,000+ ft^2 across North America.

MARKETING AND SALES

A. *Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as supplier's primary go to market strategy for Public Agencies to supplier's teams nationwide, to include, but not limited to.*

   i. *Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days*

   ii. *Training and education of Supplier's national sales force with participation from the Supplier's executive leadership, along with the OMNIA Partners team within first 90 days*

Insight Response:

As a current OMNIA Partners Supplier who has worked with the OMNIA Partners team (and the U.S. Communities team before that) for over thirteen years, Insight has the experience and the knowledge needed to roll out and implement a new OMNIA Partners contract. As such, we fully anticipate a seamless transition from our current contract to a new contract award. As part of that transition, here are the activities we will undertake for implementation of the new Master Agreement.

90-Day Implementation Plan	
Within 10 days of award	Our Senior Vice President of Public Sector, Scott Friedlander, will provide his endorsement and sponsorship of the award as Insight's strategic go-to-market contract vehicle for our SLED customers to the following groups: • Executive senior leadership at OMNIA Partners • Executive senior leadership at Insight • Insight's extended SLED sales teams
Within 30 days of award	Our National Account Manager, Erica Falchetti, will connect with her counterparts at OMNIA Partners to have an initial kickoff call to discuss timelines and expectations. Insight's Contract Compliance Team will set up the new contract in our SAP system, ensuring that the pricing structure proposed in our response is reflected accurately in the system. A required training will be conducted by our National Account Manager and our Contract Compliance Team for all Insight SLED sales, services, and operations teammates to ensure there is a clear understanding of the deliverables, service-levels, and related information.
Within 60 days of award	Insight will reach out to all agencies who have a formal piggyback contract in place under the current contract so that a new formal piggyback contract can be created under the new contract award.
Within 90 days of award	Insight will connect with the OMNIA Partners Sales team and Member Development team to provide training on our new contract.

B. *Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to.*

i. *Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days*

Insight Response:

Please see the 90-Day Implementation Plan above.

ii. *Training and education of Supplier's national sales force with participation from the Supplier's executive leadership, along with the OMNIA Partners team within first 90 days*

Insight Response:

Please see the 90-Day Implementation Plan above.

iii. *Design, publication and distribution of co-branded marketing materials within first 90 days.*

Insight Response:

As a current OMNIA Partners Supplier who has worked with the OMNIA Partners team (and the U.S. Communities team before that) for over thirteen years, Insight has the experience and the knowledge needed to market a new OMNIA Partners contract. Here are the activities we will undertake to market the Master Agreement.

90-Day Marketing Plan	
Within 30 days of award	The Insight and OMNIA Partners marketing teams will meet to discuss and plan activities to promote the new contract. This will include Electronic Direct Mail, marketing collateral, and updates to both Insight's and OMNIA Partners' websites. A deadline will be set for finalizing the deliverables.
Within 60 days of award	The Insight and OMNIA Partners marketing teams will meet to review collateral and discuss any other planned marketing outreach efforts.
Within 90 days of award	All collateral will be finalized and a timeline will be created for distributing the marketing collateral to existing Insight clients and to registered members of OMNIA Partners.

iv. *Commitment to attendance and participation with OMNIA Partners at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, Regional Cooperative Summits, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement*

Insight Response:

Insight commits to attend and participate with OMNIA Partners at national, regional, and supplier-specific trade shows, conferences, and meetings throughout the term of the Master Agreement.

v. *Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner suppliers. Booth space will be purchased and staffed by Supplier. In addition, Supplier commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.*

Insight Response:

Insight commits to attend, exhibit at, participate in, promote, and market the NIGP Annual Forum in an area reserved by OMNIA Partners for partner suppliers. Insight has been exhibiting at the NIGP Annual Forum for over ten years.

vi. *Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement.*

Insight Response:

Insight will work with OMNIA Partners to create a national print advertising campaign for this contract. Among the possible publications for consideration are Center for Digital Government / Center for Digital Education / Government Technology, EDUCAUSE Review, and American City & County. We currently partner with OMNIA Partners on these types of advertising activities.

vii. *Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.).*

Insight Response:

Insight will continue to work closely with OMNIA Partners in the development of a mutually agreeable marketing plan. We believe that marketing efforts should be primarily focused on decision makers in both procurement and IT, as we have found that marketing to these higher-level decision makers results in a significantly higher return on investment.

The following is a general overview of our marketing commitment.

Insight Commitment

Insight commits to spend up to 0.25% of contract revenue in marketing activities to promote the contract. These activities will include, but not be limited to, participating in tradeshows, creating co-branded marketing collateral, developing sales contests, driving awareness of the contract, and other activities as determined by Insight management.

Incremental Funding

Insight will make a coordinated effort internally to work with our manufacturer and publisher partners to provide incremental marketing funds for promotion of the contract and the manufacturer's/publisher's products and solutions.

Collateral

Insight will work with OMNIA Partners to create marketing collateral, similar to what we've done under the current contract. An example of that collateral is included in **Section 9 – Appendices, Appendix E**.

Case Studies

Insight will work with OMNIA Partners to document case studies, similar to what we've done under the current contract. An example of a case study is included in **Section 9 – Appendices, Appendix F**.

Electronic Direct Mail (EDM)

Insight will create EDMs for our "opted-in" public sector clients to make them aware of the new contract.

viii. *Dedicated OMNIA Partners internet web-based homepage on Supplier's website with:*

- *OMNIA Partners standard logo;*
- *Copy of original Request for Proposal;*
- *Copy of Master Agreement and amendments between Principal Procurement Agency and Supplier;*
- *Summary of Products and pricing;*
- *Marketing Materials*
- *Electronic link to OMNIA Partners' website including the online registration page;*
- *A dedicated toll-free number and email address for OMNIA Partners*

Insight Response:

Insight currently has a dedicated OMNIA Partners internet web-based homepage on our website, located here: www.ips.insight.com/omnia. Upon notice of an award, we will update the website with information about the new contract.

C. *Describe how Supplier will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Supplier holds and describe how the Master Agreement will be positioned among the other cooperative agreements.*

Insight Response:

As an existing contract holder with OMNIA Partners, Insight has spent the last thirteen years actively marketing and promoting our contract to Participating Public Agencies. During that time, over 5,000 registered agencies have chosen to purchase from us through our OMNIA Partners contract. Insight is completely committed to the marketing and success of this contract and will continue in our go-to-market sales strategies including:

- Insight will seek to leverage this contract with our more than 60,000 current public sector clients by utilizing our existing sales teams and processes, as well as through the marketing activities described elsewhere in this response.
- Insight sales teams will proactively engage the local vendor community to promote this contract's value proposition and its specific value to their relative local contractual situations.

The following is a list of SLED multi-state cooperative contracts held by Insight. This list does not include contracts where Insight has been named as an authorized reseller on a manufacturer-held contract, as we are not the primary contract holder for such contracts.

- NASPO ValuePoint Software VAR
- Equalis Group
- NASPO ValuePoint Cloud Solutions
- Sourcewell (Cisco & Microsoft Unified Communications Solutions)

While we understand that our existing contracts may be viewed as an obstacle to our ability to succeed in and broaden this contract, Insight believes our existing contractual relationships are actually a benefit to OMNIA Partners. We will seek to leverage the existing relationships that we have developed under these contracts to:

- Transition clients over to the OMNIA Partners contract (when possible).
- Position the OMNIA Partners contract with clients as an alternative contract vehicle for all items not covered by their existing contracts.
- Discuss the value of moving their acquisition efforts to the OMNIA Partners contract with procurement officials. Ideally this conversation should be pursued jointly with both the appropriate local vendor partners and the OMNIA Partners Regional Managers and Member Development Managers.

D. *Acknowledge Supplier agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.*

Insight Response:

Insight agrees to provide our logo to OMNIA Partners and agrees to provide permission for reproductions of such logo in marketing communications and promotions. Insight also acknowledges that use of the OMNIA Partners logo will require permission for reproduction.

E. *Confirm Supplier will be proactive in direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Supplier's sales initiatives should communicate:*

i. *Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days*
ii. *Best government pricing*
iii. *No cost to participate*
iv. *Non-exclusive*

Insight Response:

Insight confirms that we will be proactive in our direct sales of goods and services to Public Agencies nationwide and that we will follow up on any leads established by OMNIA Partners. We have an existing email alias, OMNIA@insight.com, where leads are currently sent, and those leads are immediately forwarded to the appropriate Insight sales teammate.

Insight further confirms that all sales materials will be presented to the OMNIA Partners marketing team for review before they are distributed to Public Agencies. Insight commits that our sales materials will communicate 1) executive leadership endorsement and sponsorship, 2) best government pricing, 3) no cost to participate, and 4) the fact that our award is non-exclusive.

F. *Confirm Supplier will train its national sales force on the Master Agreement. At a minimum, sales training should include*

i. *Key features of Master Agreement*
ii. *Working knowledge of the solicitation process*
iii. *Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners*
iv. *Knowledge of benefits of the use of cooperative contracts*

Insight Response:

Insight confirms that we will train our national sales force on the Master Agreement, and that the training will include 1) key features of the Master Agreement, 2) working knowledge of the solicitation process, 3) awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners, and 4) knowledge of benefits of the use of cooperative contracts.

Upon contract award, our SLED sales teams will participate in mandatory training on the new contract, including all details on our corporate, pricing, and sales commitments. On a continuing basis, extensive training on the OMNIA Partners contract will be provided to all new sales and support staff before entering the sales floor. Additionally, we will provide annual refresher trainings to our sales, services, and support teams so they remain current and focused on our primary offering.

Every Insight teammate who works with public sector clients must go through a series of specific trainings to ensure that the teammate understands not only the public sector client but also acknowledges that they will adhere to all applicable laws, regulations, and policies that are involved with providing service to a client in the public sector, including our contracts.

Training sessions are handled by Insight's Learning & Development and Compliance Teams. We drill down to the individual teammate's responsibilities and specific client base to ensure he or she understands the contracts that will be supported by the teammate.

G. *Provide the name, title, e-mail and phone number for the person(s) who will be responsible for:*

i. *Executive Support*
ii. *Marketing*
iii. *Sales*
iv. *Sales Support*
v. *Financial Reporting*
vi. *Accounts Payable*
vii. *Contracts*

Insight Response:

Insight's OMNIA team is as follows:

i. Executive Support: Scott Friedlander, Senior Vice President – Public Sector, scott.friedlander@insight.com, 703.594.8129

ii. Marketing: Kathy Kramer, Marketing Manager, katherine.kramer@insight.com, 937.415.9427

iii. Sales: Erica Falchetti, Sr. SLED Market Leader – Capture & Business Development, erica.falchetti@insight.com, 480.333.3071

iv. Sales Support: Tone Tuskan, Manager – SLED Client Operations, tone.tuskan@insight.com, 509.742.2283

v. Financial Reporting – Virginia Mace, SLED Compliance Specialist, sledreporting@insight.com, 480.333.3068

vi. Accounts Payable – Virginia Mace, SLED Compliance Specialist, sledreporting@insight.com, 480.333.3068

vii. Contracts – Brittany Dunaway, Manager – SLED Compliance, sledcontracts@insight.com, 480.366.7029

H. *Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.*

Insight Response:

Insight has four Sales Market Leaders who oversee all our sales teams. Kevin Hallihan leads our field sales teams in the East and Central, Brian Louderback leads our field sales teams in the West and TOLA, Ken Richter leads our national inside sales teams, and Clayton Boras leads a team dedicated to higher education entities. All told, we have over 100 dedicated sales teammates and managers who sell only into the state, local, and education space.

These sales teammates are supported by an additional 150+ dedicated SLED client operations, software, services support, business development, and contract compliance teammates. Sales and support teammates are spread throughout the U.S., both in company offices and in remote home offices. This coverage helps to ensure our clients have access to a team of people at Insight, regardless of what time zone they may be in.

We have provided an organizational chart in **Section 9 – Appendices, Appendix A**.

The highest level executive in charge of the sales team is Scott Friedlander, Senior Vice President –Public Sector. His contact information is as follows:

Scott Friedlander, SVP Public Sector
scott.friedlander@insight.com
703.594.8129

I. *Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.*

Insight Response:

Many of Insight's 100+ SLED sales teammates already have relationships with their OMNIA Partners counterparts, both in Sales and in Member Development. Additionally, our sales teams have years of experience in positioning and selling the value of the OMNIA Partners contract. Our commitment to growth is reflected in our contract sales, which have increased steadily over the past 13 years, and which have more than doubled since we were awarded the most recent contract back in 2016.

Additionally, Insight invests more than $500,000 annually in marketing and sales development funds specifically towards growing sales under our existing contract. Upon award of a new contract, we are fully committed to making continued large investments in this area.

Insight will continue to partner with the OMNIA Partners team through joint sales calls, tradeshow attendance, and participation in team calls.

I. *Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set- up, timely contract administration, etc.*

Insight Response:

As an existing Supplier with OMNIA Partners, Insight has over 13 years of experience in managing the national program. We have long-standing relationships with the OMNIA Partners team, including Marketing, Partner Development, Member Development, and Sales.

Upon award of a new contract, we will continue our regular cadence with these teams, which includes a monthly meeting between the Insight and OMNIA Partners marketing teams, regular participation on sales team calls, and consistent communication with our designated Vice President for Partner Development.

Erica Falchetti will continue to serve as Insight's National Account Manager and will be responsible for coordinating activities between Insight and OMNIA Partners. Additionally, Insight's Contract Compliance team will be responsible for the administration of the contract and will ensure that we are remaining compliant with the terms and conditions of the contract.

Any leads that come to us from either the OMNIA Partners Sales team or the Member Development team will be immediately handed over to the Insight account executive for that Participating Public Agency. If we don't have an account set up for the agency (which, in our experience, is rare), the Insight account executive will ensure one is created in a timely manner.

Insight understands that the success of our contract is dependent on clear lines of communication, and we commit to strengthening our relationships with the OMNIA Partners team to ensure the communication continues throughout the term of this Master Agreement.

J. *State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.*

Insight Response:

Insight's gross sales to SLED entities in fiscal year 2021 totaled $1,362,538,000.

Below is a list of Insight's ten largest SLED clients, along with the total purchases for fiscal year 2021. Contacts at the below agencies have not given their approval for their information to be publicly released. Should you need to contact any of these agencies, please reach out to Erica Falchetti, erica.falchetti@insight.com.

- Tennessee Department of Finance and Administration ($46,164,000)
- Washington Consolidated Technology Services ($30,331,000)
- Colorado Governor's Office of Information Technology ($25,959,000)
- Texas Health and Human Services Commission ($21,953,000)
- Mesa Unified School District ($21,089,000)
- New Jersey Judiciary Court System ($19,286,000)
- Miami-Dade County ($18,892,000)
- Kentucky Commonwealth Office of Technology ($17,671,000)
- Iowa Office of Chief Information Officer ($17,330,000)
- New Jersey Office of Information Technology ($15,012,000)

K. *Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.*

Insight Response:

Insight's account management model integrates a deep footprint of field sales representatives and consultants with inside sales personnel in locations around the United States.

Our account management approach ensures our clients have expert support and strategic alignment of their hardware, software, cloud, and services requirements. Our clients' IT technology and procurement teams will benefit by having the advantage of working with a dedicated account team that is familiar with and adheres to their internal processes and methodologies.

Insight utilizes SAP as the internal ERP system for managing client account information. SAP also supports various order entry and inventory control functions.

Quotes and Order Placement

Quotes can be requested electronically through Insight's e-procurement portal, or via an agency's dedicated account team (via email, phone, or fax). All mediums will elicit pricing, product availability, configuration, and shipping information.

Using Insight's web portal, end users can save items in their cart as a quote for purchase later. Saved quotes can also be emailed. Should the user decide to (and have the authority to) purchase the quoted items, the saved quote can be turned into an order that will be placed online.

Insight's web purchasing portal displays an order confirmation screen after the order has been placed. The end user or user account that placed the order will also receive the following via email:

- A copy of the notification confirming the web order has been received
- Advanced Shipment Notification (ASN) when product from the order ships. Below is an example of the Advanced Ship Notification (email that Client/Buyer Receives)

ADVANCE SHIP NOTICE

Your order has been picked and packed for shipping. Please see your tracking number(s) below. If tracking information is not yet available, please check it again the following business day. We appreciate your business and are committed to delivering excellent service.

Material	Description	Order Qty	Shpd Qty	Ship Date
CHS-7080-MFF	OPTIPLEX 7080 MFF I5-10500T 8GB 256SSD B See below Delivery 0820737617	10	10	19-JAN-2021
210-AUNF-CHSPSC	DELL 22 MONITOR - E2220H See below Delivery 0820737617	27	27	19-JAN-2021

Serial #: 9DYXD73, 9F0XD73, 9F0YD73, 9F1XD73, 9F1YD73, 9F1ZD73, 9F2XD73, 9F2YD73, 9F2ZD73, 9F3XD73

For online orders, clients will receive the ASN by default. This setting can be turned off if desired. An additional email can be added at the time of order placement to also receive the ASN. This feature is unique to Insight's ASN tool. Insight's ASN is available via hard copy, verbal and/or web-based purchasing. ASNs are also available for non-web orders placed through Insight's

ordering system by the Insight Account Team. After an order has been placed, end users with appropriate permissions can add an ASN for future shipments from that order.

Tracking Orders

End users will have access to review purchase orders in detail and even track shipped orders. Multiple levels of information are built into the system to provide end users with details, which can be sorted by the following criteria:

- Invoice Number
- Order Date
- Purchase Order Number
- Ship Date
- Tracking information with direct link to shipper's website (i.e., FedEx, UPS)
- Order Numbers
- Ship to Address
- Delivery Status
- Serial Numbers (if applicable)

For added convenience, Insight has integrated our order processing, labeling, and tracking systems with the systems of major freight carriers. Order tracking numbers are hyperlinked to the freight carrier's tracking system for up-to-the-minute information regarding order status. This integration helps to ensure efficient and accurate deliveries that are traceable by both Insight and our clients.

Order Timeframes

Orders containing product available in our $70-$80 million inventory held in Hanover Park, Illinois, will ship the same day providing no configuration services are needed and the order is received by 3:00 p.m. Central Time. Insight will ship all orders missing this cutoff time the following business day as a standard operating procedure. Software orders placed by 3:00 p.m. local time will ship that day. Insight maintains a 99.998% two-business day delivery rate for such "pick and pack" products. As a reseller, product availability is based on the manufacturer, so it will vary by product line.

Should the product need to be configured in our Integration labs, the normal turnaround time is two to three working days. If Insight runs into some extenuating circumstances that would create lab backlogs, the client will be notified so schedules can be changed accordingly. Our configuration labs operate 5 days a week, 24 hours a day.

The integration between our network and our distribution partners ensures advanced levels of service for our clients. For example, our order-processing system automatically chooses the warehouse closest to a client's delivery point so that orders placed by 3:00 p.m. local time are generally shipped that day. Overnight shipment cutoff from our distributor partners is 3:00 p.m. if product is in a west coast warehouse.

Invoices

Invoices are processed and sent to the designated billing address the day following product shipment, or in the case of licensing, the day after order placement, and can be sent via hard copy, EDI, or in a summary billing statement. Maintenance is invoiced in advance of the coverage period, based on the contractual agreement with the publishers.

The current Insight invoice format for products includes purchase order number, invoice number, purchase date, bill to and ship to information, a detailed product description, serial number (if applicable), manufacturer product number, unit pricing, number of units ordered, terms of payment, method of shipment indicating both carrier and terms, cost of delivery, and any applicable sales tax. Non-standard, client-specific information can additionally be provided on Insight invoices and reports. Insight can work with our clients to mutually determine the processes for attaining and providing such information.

For services, Insight itemizes bills based on the client billing requirements and the type of services provided. Insight is willing to discuss and mutually agree upon how bills are itemized, and the level of cost detail required to meet our clients' billing requirements.

In addition to the previously listed billing options, Insight currently offers clients the ability to exchange business documents electronically using both ANSI X.12 EDI (Electronic Data Interchange) and XML B2B (Business-to-Business) standards. These processes are standard Insight functionality that provide highly reliable alternatives for manual business transactions reducing cost and improving turnaround times.

Payments

Payments sent to the retail lockbox are posted to the client's account the same day the bank deposits the check without any intervention from accounts receivable. Payments sent to the retail lockbox that cannot be scanned and posted directly to the client accounts are rejected. These checks are photocopied by the lockbox and overnighted to accounts receivable to post manually to the client's account. Manual payments are posted within 24-48 hours of the bank's deposit. Insight does not use third party partners for billing purposes.

L. *Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").*

Insight Response:

$150,000,000.00 in year one

$175,000,000.00 in year two

$200,000,000.00 in year three

M. *Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.*

i. *Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).*
ii. *If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.*
iii. *Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).*

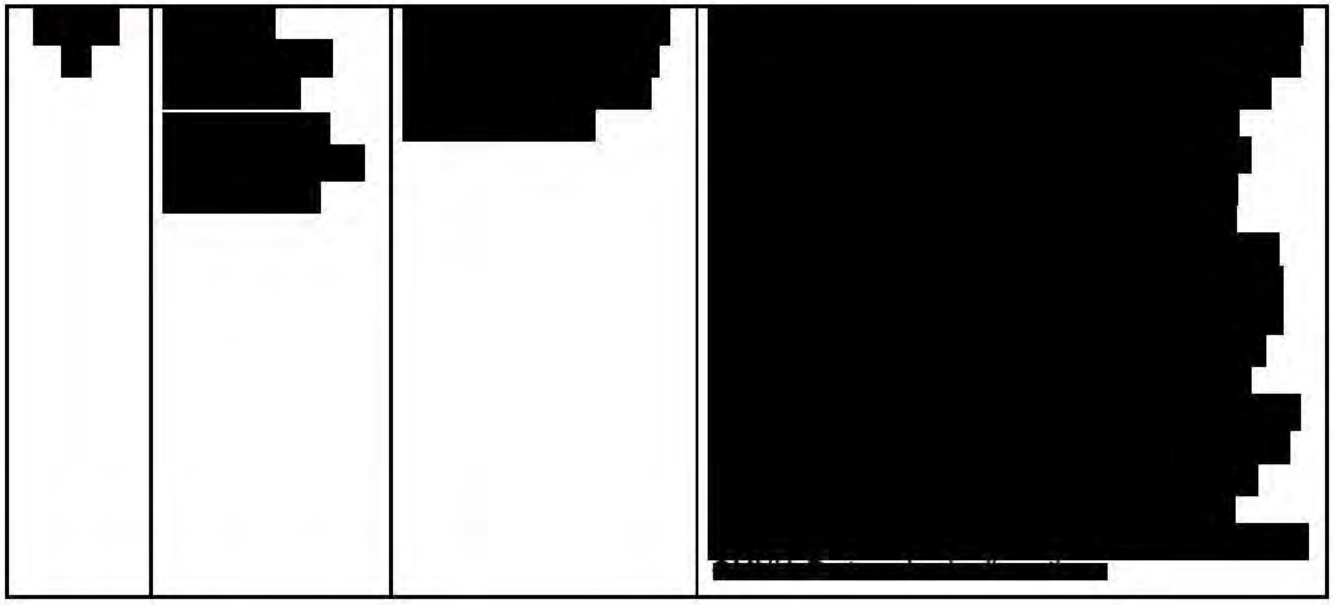
iv. *If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternative or additional proposal.*

Detail Supplier's strategies under these options when responding to a solicitation.

Insight Response:

As a Supplier with OMNIA Partners (and U.S. Communities before that) for over thirteen years, Insight understands the requirements and confirms our commitment to the above options for responding to a solicitation for Products covered under the Master Agreement. Our first goal is always to present the value of the Master Agreement to Public Agencies by making sure they understand that the contract was competitively-solicited and therefore a separate solicitation is not needed.

However, in those cases where a Public Agency still chooses to put out their own solicitation, Insight will either respond with pricing that is at or below the Master Agreement pricing (and report the subsequent sale to OMNIA Partners) or propose pricing that is higher than the Master Agreement. If a Public Agency allows for alternative proposals, we will include the Master Agreement as an option.



b. *The successful Supplier will be required to sign Attachment A, Exhibit B, OMNIA Partners Administration Agreement, Suppliers shall have any reviews required to sign the document prior to submitting a response. Supplier's response shall include any proposed exceptions to the OMNIA Partners Administration Agreement.*

Insight Response:

Insight requests that the following clarifications/exceptions be included in any final terms and conditions of the contract; nevertheless, if Insight is the successful bidder, Insight is amenable to negotiating mutually agreeable terms prior to the commencement of the engagement.

PAGE NUMBER	REFERENCE SECTION/ PARAGRAPH	IDENTIFIED EXCEPTION/NOTE	PROPOSED NEW LANGUAGE/COMMENT
16 (PDF P. 22)	Cobb County General Instructions for Proposers, Terms and Conditions; XIV. Delivery Failures	Supplier proposes to strike delivery penalties as Supply Chain issues are causing extreme delays in some cases, and those factors are beyond our control. Supplier will keep end users updated with expected lead times and delivery dates.	Failure of a contractor to deliver within the time specified or within reasonable time as interpreted by the Purchasing Director, or failure to make replacements of rejected articles/services when so requested, immediately or as directed by the Purchasing Director, shall constitute authority for the Purchasing Director to purchase in the open market or rebid for articles/services of comparable grade to replace the articles/services rejected or not delivered. On all such purchases, the contractor shall reimburse the County within a reasonable time specified by the Purchasing Director for any expense incurred in excess of contract prices, or the County shall have the right to deduct such an amount from monies owed the defaulting contractor. Should public necessity demand it, the County reserves the right to use or consume articles/services delivered which are substandard in quality, subject to an adjustment in price to be determined by the Purchasing Director.

19 (PDF P. 25)	Cobb County General Instructions for Proposers, Terms and Conditions; XXVIII. Indemnification/Hold Harmless, 1st Paragraph	Supplier proposes to strike the 1st 2 sentences as the reps and warranties we are providing are already stated in this agreement and goes beyond the scope of warranties we have already agreed to.	To the fullest extent permitted by law, the Contractor shall defend, indemnify and hold harmless the County and the County's elected and appointed officials, officers, boards, commissions, employees, representatives, consultants, servants, agents and volunteers (individually an "Indemnified Party" and collectively the "Indemnified Parties") from and against any and all claims, suits, actions, judgments, injuries, damages, losses, expenses, and liability of any kind whatsoever, including but not limited to attorneys' fees and other legal expenses, ("Liabilities") to the extent caused by or resulting from negligence, recklessness, or intentionally wrongful conduct arising out of the Work, performance of contracted services, or operations by Contractor, any subcontractor, anyone directly or indirectly employed by the Contractor or subcontractor or anyone for whose acts the Contractor or subcontractor may be liable, regardless of whether or not the negligent act or omission is caused in part by a party indemnified hereunder. This indemnity obligation does not include Liabilities caused by or resulting from the sole negligence of an Indemnified Party. Such obligation shall not be construed to negate, abridge or otherwise reduce other rights or obligations of indemnity which would otherwise exist as to the party or person described in this Section XXVII.

Invoicing procedures:

Method (Client MUST select ONE option below.)	PO Process (Client MUST select ONE option below.)
☐ **Mail Invoice** – Hard copy of invoice will be mailed to: Company name: Address: Attention: Accounts Payable or Accounts Payable Contact: Phone:	☐ **Client issues system-generated POs or internal reference numbers for service engagements.** Please fill in the PO number below and attach a hard copy of the PO to this signed SOW. Note: Services cannot be performed until a hard copy of the PO is received, or a billing reference is provided. PO number: PO release number (if applicable): Internal billing reference number/name:
OR ☐ **Email invoice** – Invoice copy will be sent electronically via email to:	OR ☐ Client does NOT issue system generated POs for service engagements. Accordingly, performance of and payment for any Services under this SOW do not require, and are not contingent upon, the issuance of any PO or other similar document.

This SOW is effective as of the date last signed above ("SOW Effective Date"). Client's purchase, receipt, and use of the Services defined herein are subject to: (a) the written agreement for Services executed between Insight and the Client ("Master Agreement"), or (b) if the parties do not have a Master Agreement in place for the Services, the Terms of Sale for Services located at https://www.insight.com/en_US/help/terms-of-sale-services-ips.html (collectively, the "Agreement"). Capitalized terms used but not defined in this SOW will have the meaning given in the Agreement.

1. Purpose

The purpose of this SOW is to set forth the specific Services that Insight will provide to Client in connection with the Agreement.

2. Definitions

a. "Deliverables" means the items created by Insight in connection with the Services and as specifically described in the Scope of Services and Delivery Schedule Section below.

b. "Services" has the meaning given to it in the Scope of Services and Delivery Schedule Section.

3. Scope of Services and Delivery Schedule

Insight will perform the following services ("Services") per the terms of this SOW.

3.1. Service Description

The following is a high-level description of the Services Insight will provide:

1. [update] as outlined in the Exhibit(s) of this SOW.

3.1.1. Location

Performance of the Services will be [remote and/or onsite].

- [client address]

3.2. Project Management

Insight will provide project management as detailed in the applicable Exhibit of this SOW.

3.3. How Services are Accepted

After Insight performs a Service or delivers a Deliverable to Client, if the Service or Deliverable does not meet the material requirements described in the SOW, then Client will provide Insight with a written explanation describing how the requirements were not met within 5 days following the date the Service or Deliverable was delivered to Client. If Client fails to provide the written explanation within this 5-day period, the Service and Deliverable will be deemed accepted by Client.

3.4. Business Hours

Services will be performed during normal United States business hours unless otherwise mutually agreed upon in the attached Exhibit(s). Normal business hours are defined as an 8-hour day, Monday through Friday, excluding designated Insight Holidays.

3.5. Client Responsibilities

Client is responsible for the following:

1. Client will provide a project contact with decision-making authority to support the scope of services described in this SOW and ensure the proper personnel are scheduled to review each completed Service or Deliverable upon notification of completion by Insight.

2. If applicable, Client will provide site contacts for each Client location. Each such contact will provide Insight with sufficient detail regarding his/her site, and will coordinate or perform required onsite work, as reasonably requested by Insight and Client IT, for the duration of the project.
3. Client will provide Insight the necessary access to its internal experts, location(s), critical systems, applications, workspace, and equipment required at each field location to complete the project. Access to Client systems will be provided to Insight via either onsite direct access or remote/VPN access. If Client cannot provide access or required resources under this SOW, then additional project duration, labor hours, travel expenses, and other costs may be incurred and due to Insight by Client.
4. Client will provide the necessary hardware, software, tools, and permits required for the successful completion of the project prior to Insight's arrival. Further, Client is responsible for all licensing requirements to be compliant per their own agreements.
5. Client is responsible for all product and material, including distribution and transport of Client-owned product and material, unless otherwise specified in writing. Product and material are defined as any items purchased, owned and/or provided by Client (or others) that Insight is required to use for fulfillment of any Services described herein.
6. Client is responsible for providing adequate and secure onsite storage for all Client-owned product and material unless otherwise specified in writing.
7. Client will be responsible for managing and maintaining, if applicable: (a) back-up and/or data migration of existing data and Client's information unless otherwise agreed to by Insight; (b) computer system and network designs; (c) component selection as it relates to the performance of the computer system and/or the network; (d) reasonable firewalls and if appropriate encryption; (e) least-privileged-based access controls (including provisioning, de-provisioning, authentication, authorization, and accountability controls); and (f) physical, electronic, and procedural controls to ensure the confidentiality, integrity, and availability of Client's information on all applicable Client computing systems used to store or transmit Client's information, in accordance with current applicable industry standards and best practices.
8. Client and its employees, contractors, and agents will: (a) cooperate with any reasonable request of Insight, (b) provide input throughout the project and will review progress at review meetings requested by Insight; and (c) provide Insight with access to all of Client's information, documentation, and technology, necessary for Insight to perform the Services, including a list of all Client and third-party contacts necessary for Insight to do so.
9. If applicable, Client is responsible for performance of the following OCM-related tasks:
    a. Stakeholder Engagement, including but not limited to:
        i Stakeholder analysis, use case development, and/or persona/user segmentation activities
        ii Stakeholder engagement plan including scheduling of any activities
    b. Communications, including but not limited to:
        i Creation of a communications plan, including content plans for email, online resources, and any other communications channels
        ii Execution/creation of any content outlined in the communications plan
        iii Communications T-minus schedule
    c. Training, including but not limited to:
        i Training plan and schedule
        ii Training content planning, creation and/or execution
    d. Adoption, including but not limited to:
        i Creation or execution of a governance plan
        ii Creation or execution of a post-project end-user adoption plan

3.6. Assumptions

1. If applicable, any onsite skills transfer that takes place during this project will not replace the manufacturer's formal system implementation and administration classes.

2. Outside the scope of this SOW, Insight has no obligation to mount, affix, or otherwise fasten any cable, hardware, or other product to any building or structure (inside or outside), and Insight has no obligation to run cable above, under, behind, or through any ceiling, floor, or wall of any building or structure. If such services are requested by Client, such services may be performed by Insight only to the extent permitted by applicable law and will be subject to a Change Request for additional services.
3. Each party agrees that personnel will not be asked to perform, nor volunteer to perform, engineering and/or consulting tasks that lie outside the skill sets and experience of personnel. Personnel have the right to decline a service request if the request falls outside their scope of experience and expertise.

3.7. Change Request Procedure

If either party identifies any alterations to the scope of work, specifications, or requirements in this SOW, it shall be brought to the attention of the other party's management for pre-authorization by completing and submitting a written Change Request in a manner described in this section and signed by both parties ("Change Request Form").

Without limitation, Change Request Forms are appropriate in the following examples, as well as other situations that alter the scope of work, specifications, or requirements in this SOW:

- Changes to environment, scope, management, performance of projects (regular and special), milestones, tasks, systems, service levels
- Additional resources, scope, projects, new services, tasks
- Changes to management and control of hardware and software
- Adjustments to baselines, assets, volumes, or other areas where changeover time results in the need to adjust pricing
- Additions, deletions, and/or changes to sites where services are provided, or the nature of services provided at a site

If any such change causes an increase or decrease in the cost or time required for the performance of the Services, the price and/or delivery schedule shall be equitably adjusted and identified within the Change Request Form.

If Insight believes an operational change is required and Client does not agree to the change (or the applicable Change Request), Insight will be relieved of any related service level obligations. Any additional resources or costs expended or incurred to address the failure to make the change will be treated as an additional service.

3.8. Project Kickoff

A project kickoff meeting will be held to review project expectations, discuss IT infrastructure design, discover any possible problems/risks, and formulate an appropriate plan (including a firm engagement schedule and downtimes).

3.9. Start Date

The project start date will be mutually determined upon receipt of this signed SOW and, if applicable, a valid Purchase Order (PO). A minimum lead time of at least 20 business days from receipt of both documents may be required for scheduling purposes.

If Client causes any delays to the delivery start date, which was agreed upon by both parties in writing (email is acceptable), Client may incur additional fees based upon such delay, including but not limited to, travel expenses already incurred, if any, and/or other equitable relief as a remedy for such delay. The delays and charges will be defined and communicated through the Change Request process described in this SOW.

Services will be performed over a consecutive timeframe unless otherwise provided herein. If Client requests or causes a change in the schedule that prohibits Services from being delivered in a consecutive timeline, an additional lead time of 20 business days (from written confirmation to resume Services) may be required, new resources may be assigned, and there may be additional fees.

3.10. Estimated Duration

The Services' duration will be approximately [xx] week(s).

4. Pricing and Payments

4.1. *Summary of Pricing*

The table below is a summary of the pricing for all the offerings described in this SOW. Specific information regarding each Service is listed in the Fee sections below.

Offering Name	Fee Type	Quantity or Term	Total Estimated Amount

4.2. *Fixed Fee*

Client shall pay Insight the fixed fee of $ [#.##]. The total amount paid to Insight will not exceed the total fixed fee without the prior written approval of Client. Client will reimburse Insight for travel expenses, if any are required.

The fixed fee is based on the following:

Project Description	Price
[Project Description/Milestone Phase]	[$#.##]
[Project Description/Milestone Phase]	[$#.##]

4.2.1. Invoicing

Insight will invoice Client monthly for Services performed based upon a percentage complete, plus any taxes incurred (if applicable).

4.3. *Time and Materials*

Services will be provided on a time and materials basis. Costs incurred by Client will be based on a 4-hour minimum (per day) for onsite resources, or actual time worked, whichever is greater. Client will not reimburse Insight for travel expenses if any are required.

Charges will be calculated based on the following rates:

Resource Type	Estimated Hours	Hourly Rate	Estimated Price
[Resource]	[#]	$ [$#.##]	$ 0.00
[Resource]	[#]	$ [$#.##]	$ 0.00
[Resource]	[#]	$ [$#.##]	$ 0.00
Total Estimated Amounts	**0**		**$ 0.00**

Note: With the exception of the hourly rate the table above provides budgetary estimates only.

4.3.1. Invoicing

Insight will invoice on a monthly basis for the minimum hours worked or actual hours worked, whichever is greater, plus any taxes incurred (if applicable).

4.4. Pricing Notes

1. Pricing offer is valid for 30 days from the date a copy of this SOW is first presented to Client. This SOW must be executed and returned to Insight by Client within such 30-day period or pricing will expire.
2. Travel expenses, if applicable, are not reimbursable.
3. Pricing and estimated time to complete this engagement are based upon Client providing necessary access to internal experts, location(s), all critical systems, applications, and hardware required to complete the project. Any additional requirements, including without limitation, additional screening, background check, vaccination or covid-related requests and other out-of-scope or previously undisclosed resource-related requests may result in Service commencement or completion delays and additional fees.
4. Client acknowledges that cancellation of this engagement may cause Insight to incur non-refundable pre-approved travel expenses and other costs. Accordingly, if Client cancels this engagement, Client shall pay Insight the fees set forth below. Such cancellation shall be in writing and shall be effective when received by Insight.

Cancellation Period	Cancellation Fee
Less than 3 business days prior to start of engagement	100% of total cost of engagement OR $12,500.00, whichever is less
Between 3 and 10 business days prior to start of engagement	10% of total cost of engagement OR $2,500.00, whichever is less
More than 10 business days prior to start of engagement	None

5. If an Insight resource arrives on site per an agreed-upon schedule and is unable to start or complete the project due to any Client, site, and/or equipment issues, any applicable travel expenses will be incurred.
6. Insight is not responsible for delays or repeated tasks caused by factors outside of Insight's control. These factors include, but are not limited to, availability of Client personnel, equipment, and facilities.
7. Client will compensate Insight for any out-of-scope work requested by Client on an hourly basis at Insight's standard hourly rates (unless otherwise agreed to in writing by the parties).

4.5. Client Work Product

All results of the Services described in and delivered pursuant to this SOW, including Deliverables and Client's proprietary information contained therein, authored or created by Insight specifically for Client as a Work Made for Hire, excluding any Insight IP incorporated therein ("Work Product"), will be and remain the property of Client. Insight retains all right, title, and interest in, without limitation, any intellectual property rights in works of authorship, know-how, or any invention, device, process, method, development, design, specifications, technique, apparatus, reports, schematic, or technical information (whether patentable or not), documentation, software or enhancements, improvements, alterations, interfaces, workflows, and best practices developed, invented, created, or reduced to practice by Insight and used for the Services, including any derivatives or modifications ("Insight IP"). To the extent Work Product includes any works of authorship that are Insight IP, Insight grants Client a nonexclusive and non-transferable license to use each such portion of the Work Product for its internal business purposes, provided that no Insight IP may be unbundled or separated from the Work Product or used on a stand-alone basis.

5. Exhibit – Project Management

Insight will provide the following project management and technical direction:

Project Coordinator

- Serve as the primary point of contact on all project issues, needs, and concerns
- Facilitate introduction kickoff call to review scope and project expectations
- Schedule and coordinate the necessary resources to support the project
- Complete Change Request (CR) documentation as required; and obtain signed CRs for mutually agreed upon changes
- Facilitate closeout meeting, as needed

Project Manager

- Serve as the primary point of contact on all project issues, needs, and concerns
- Provide team leadership and guidance
- Facilitate kickoff meeting to review scope and project expectations, discuss IT infrastructure design, assess Client readiness (hardware, software, infrastructure pre-requisites, etc.), discover any possible problems/risks, formulate an appropriate work breakdown structure for primary project tasks, and create project timeline/schedule (including potential downtimes and maintenance windows)
- In conjunction with Client, measure and communicate weekly progress against mutually agreed-upon milestones
- Maintain a project log proactively to identify and communicate key decisions made, action items to be completed, risks/issues that may impact scope, schedule, and lessons learned; and mitigate and/or escalate any critical risks or issues under Insight's control, as needed
- Manage Client expectations and satisfaction throughout the life of the project
- Schedule and coordinate the necessary resources to support the project
- Schedule and conduct project team update/status meetings
- Prepare written status reports for Client at mutually agreed-upon intervals
- Monitor, manage, and communicate changes to the project's scope, budget, schedule, and resources; complete Change Request (CR) documentation as required; and obtain signed CRs for mutually agreed upon changes
- Facilitate closeout meeting, as needed
- If applicable, perform the following activities related to organizational change management ("OCM") outlined in Insight's Best Practices Guide for OCM for the Services in this SOW:
    - Identify Client contacts for activities related to stakeholder engagement, communications, training, online resources/intranet, support
    - Track the following decisions and deliverables as part of the project plan:
        - Plans for stakeholder engagement, communications, content planning, training, and adoption
        - T-minus schedules for stakeholder engagement, communications, and training
        - Technical dependencies related to OCM activities
    - Where applicable, engage Insight OCM SMEs for advisory purposes, not to exceed 5 hours

Program Manager

- Provide oversite and act as the primary escalation point for the program
- Maintain contact and communication with all Insight project team members and project stakeholders to ensure conformance with requirements of project delivery and Client expectations

- Develop a program-level governance model and work with Client to obtain endorsement for successful implementation
- Oversee program to ensure consistency of project practices (Change Requests, issue management, risk management, decision tracking, etc.); follow and contribute to standard Client implementation methodologies and best practices
- Work with Client to identify the program success criteria and document dependencies, risks, and issues associated with the successful completion of the program
- Develop program communications plan and associated documents, drive cross-project delivery consistency, and coordinate cross-project communications
- Maintain frequent program-level written and verbal communications with all program stakeholders and participants ensuring communications are understood by recipients
- Identify and manage program-level dependencies and critical paths
- Identify, escalate, and document program issues as necessary
- Provide team leadership and guidance throughout the program
- Work closely with the Insight Project Managers and key Client team members and stakeholders to ensure that the program is effectively executed
- Provide a Program Schedule highlighting Deliverables, corresponding milestones, planned project events, and timelines
- Deliver program-level summaries at agreed-upon intervals

5.1. *Project Contacts*

Contact Name	Contact Email
Client Sponsor - [update]	[update]
Client Technical Lead – [update]	[update]

6. Exhibit – Service Offering Information

6.1. Service Description

The following is a high-level description of the Services Insight will provide:

- [Bullet 1]
    - [Bullet 2]
        - [Bullet 3]
            - [Bullet 4]

6.2. Scope and Approach

Insight will perform the following Services:

[Phase]

- [Bullet 1]
    - [Bullet 2]

[Sub-Phase]

- [Bullet 1]
    - [Bullet 2]

[Sub-Phase]

- [Bullet 1]

6.2.1. Out of Scope

1. The following are considered out-of-scope and are not part of the Services:
    a. Electrical or cabling services
    b. Formal user training
2. Services and Deliverable items not expressly described in the Scope and Approach section is considered to be out of scope. Any out-of-scope items must be pre-authorized and verified by Insight in writing through the Change Request process.

6.3. Deliverables

Overall Project

- [Bullet 1]

Project Management

Project Coordinator

- Communications/escalation contact list

Project Manager

- Communications/escalation contact list
- Weekly status reports on the progress of the project

Program Manager

- Weekly status reports on the process of the program

Deliverables, if any, will be agreed upon by both parties in writing.

Amazon Web Services Order Form Agreement

Client Name:		Client Acct. #	
Address		Client Contact Name:	
City, State, Zip		Account Executive:	
State/Fed Contract:		Request Date	Click or tap to enter a date.

This Amazon Web Services ("AWS") Order Form Agreement, together with any attachments or schedules (collectively referred to herein as the "Agreement") contains the terms and conditions that govern access to and use of the AWS Cloud Services provided by Amazon Web Services, Inc. (also referred to as the "Vendor" or "Amazon" or "Service Provider") and purchased through and accepted by Insight Public Sector, Inc., (also referred to as "Solution Provider" or "Insight") on behalf of itself and its affiliates and successors, and is an agreement between Insight and the entity specified in the "Customer Name" field above, on behalf of itself and its affiliates, successors, customers and end-users (hereinafter, "Customer", or "you"). The Effective Date of this Agreement will be the earlier of when this Agreement is manually or electronically signed below and accepted by Insight, the date an order is placed in the AWS customer portal (the "AWS Client Portal"), or the date Cloud Services are enabled or provisioned for use by you. You represent to Insight that the individual signing or accepting this Agreement or placing an order for Cloud Services pursuant to this Agreement, has the legal authority to bind you. FOR AWS GOV-CLOUD, PLEASE REACH OUT TO YOUR INSIGHT REP FOR MORE INFORMATION.

Scope of this Agreement: Scope of this Agreement: Scope of this Agreement: The Cloud Services included within the scope of this Agreement are consumption-based AWS Cloud Services which are ordered directly through Insight. **AWS Marketplace transactions are not covered under this Agreement; therefore, these transactions will not be subject to the terms set forth herein, nor will such transactions be priced in accordance with the underlying Terms of Sale.**

1. Definitions

1.1. **"Acceptable Use Policy"** means the policy currently available at: http://aws.amazon.com/aup as may updated from time to time.

1.2. **"Content"** means any content you upload to the Services under your account or otherwise transfer, process, use or store in connection with your account.

1.3. **"Policies"** means the AWS Acceptable Use Policy, the Site Terms, the Service Terms and all other restrictions described on the AWS site at http://aws.amazon.com.

1.4. **"Services"** means each of the AWS web services made available by AWS.

1.5. **"Service Offerings"** means the Services provided by AWS under this Agreement.

1.6. **"Service Terms"** means the rights and restrictions for particular Services located at http://aws.amazon.com/serviceterms as may be updated from time to time.

1.7. **"Third Party Content"** means content made available to you by any third party on the AWS site or Marketplace in conjunction with the Services.

2. Use of the Service Offerings

2.1. **Generally**. You may access and use the Service Offerings in accordance with this Agreement. You will adhere to all laws, rules, and regulations applicable to your use of the Service

Offerings, including Service Terms, the Acceptable Use Policy and other Policies as defined in Section 1.

2.2. **Your Account**. Once an account has been set up for you, Service Offerings may be enabled and provisioned by you via the AWS Client Portal. Use, reporting, and invoicing of the Service Offerings are based on a consumption or actual use model, as further described below. You will be invoiced for the Service Offerings you consume in accordance with usage reports provided by AWS.

2.3. **Third Party Content**. Third Party Content, such as software applications provided by third parties, may be made available directly to you by other companies or individuals under separate terms and conditions, including separate fees and charges. Because we may not have tested or screened the Third Party Content, your use of any Third Party Content is at your sole risk.

3. **Security and Data Privacy**

3.1. **Your Content**. You are solely responsible for the development, content, operation, maintenance, and use of your Content such as, but not limited to: (a) compliance of your Content with the Acceptable Use Policy, the other Policies and the law; (b) any claims relating to your Content; and (c) properly handling and processing notices sent to you (or any of your affiliates) by any person claiming that your Content violates such person's rights, including notices pursuant to the Digital Millennium Copyright Act.

3.2. **Other Security and Backup**. You are responsible for properly configuring and using the Service Offerings and taking your own steps to maintain appropriate security, protection and backup of your Content, which may include the use of encryption technology to protect your Content from unauthorized access and routine archiving your Content.

4. Fees and Invoicing

4.1. **Fees**: The unit or per seat Fees for Service Offerings payable by you will be the current AWS list price at the time such Service Offerings are consumed by you[, less a [X] percent ([X]%) discount from Insight at invoice. You will receive a discount off of the following AWS Services as set forth at: AWS AUTHORIZED SERVICES LIST, in addition to the Business and Enterprise Support Plans]. The total Fees payable by you[, with Insight's discount (if any),] will be set forth in Insight's invoice in the manner described below. Insight reserves the right to modify the Fees payable as a result of changes implemented by AWS to its partner/distributor program.

4.2. **Invoicing/Payment**: Service Offerings used or enabled by you, including without limitation, any additions, reductions, increases or decreases in the per unit quantity of the Service Offerings used, will be invoiced on an actual use or consumption basis as measured and reported to Insight by AWS. AWS's records and usage reports are taken to be correct unless proven by you to be in error. Insight will invoice you monthly in arrears for the Service Offerings consumed in each preceding monthly billing period on an actual use or consumption basis as reported by AWS. Unless otherwise agreed to in writing between the parties, you must pay all undisputed invoices in full within thirty (30) days of the invoice date.

4.3. **Cloud Service Credits/SLAs**: The Parties agree that AWS's Service Level Agreements, to the extent applicable, will apply to this purchase as set forth at https://aws.amazon.com/legal/service-level-agreements/. To the extent that a Cloud Service credit is due to Client in accordance with the AWS Service Level Agreement(s), the Parties agree that any credit due will be credited by Insight to Client's account within a reasonable time after Insight's notice from Client of the claim and following AWS's verification of Client's claim. Client expressly acknowledges and agrees that Insight is not obligated to provide any Cloud Service credit if AWS is unable to verify Client's claim. ANY CREDITS OR TERMINATION RIGHTS DESCRIBED UNDER THE SLA SHALL BE THE SOLE AND EXCLUSIVE REMEDY OF CLIENT IN CONNECTION WITH ANY UNAVAILABILITY OF THE SERVICE OFFERINGS OR BREACH OF THE SLA.

5. Term / Termination

5.1. **Term**. The term of this Agreement will commence on the Effective Date and will remain in effect until terminated by you or Insight in accordance with Section 5.2.

5.2. **Termination**. (a) Termination for Convenience. You may terminate this Agreement for any reason by: (i) providing Insight notice and (ii) closing your account for all Services for which Insight provides an account closing mechanism. Insight may terminate this Agreement for any reason by providing you 30 days advance notice. (b) Termination for Cause. (i) By Either Party. Either party may terminate this Agreement for cause upon 30 days advance notice to the other party if there is any material default or breach of this Agreement by the other party, unless the defaulting party has cured the material default or breach within the 30 day notice period. (ii) By Insight. Insight may also terminate this Agreement immediately upon notice to you (A) for cause, if any act or omission by you results in a suspension of your account by AWS, or (B) if AWS terminates or no longer provides the Service Offerings under this Agreement for any reason.

5.3. **Effect of Termination**. (a) Generally. Upon any termination of this Agreement: (i) all your rights under this Agreement immediately terminate; (ii) you remain responsible for all fees and charges you have incurred through the date of termination, including fees and charges for in-process tasks completed after the date of termination; and (iii) you will immediately return or, if instructed by Insight, destroy all AWS Content in your possession. (b) Post-Termination Assistance. Unless Insight terminates your use of the Service Offerings pursuant to Section 5.2(b), during the 30 days following termination: (i) AWS will not erase any of Your Content as a result of the termination; (ii) you may retrieve Your Content from the Service Offerings only if you have paid any charges for any post-termination use of the Service Offerings and all other amounts due; and (iii) AWS will provide you with the same post- termination data retrieval assistance that is generally made available to all customers.

6. Indemnification

You will defend, indemnify, and hold harmless Insight, its affiliates, licensors, and each of its respective employees, officers, directors, and representatives from and against any claims, damages, losses, liabilities, costs, and expenses (including reasonable attorneys' fees) arising out of or relating to any third party claim concerning: (a) your use of the Service Offerings; (b) your breach of this Agreement or violation of applicable law; or (c) your Content or the combination of your Content with other applications, Content or processes, including any claim involving alleged infringement or misappropriation of third-party rights by your Content or by the use, development, design, production, advertising or marketing of your Content.

7. Limitation of Liability

INSIGHT WILL NOT BE LIABLE TO YOU FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES (INCLUDING DAMAGES FOR LOST PROFITS, GOODWILL, USE OR DATA), EVEN IF A PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. FURTHER, NEITHER WILL INSIGHT BE RESPONSIBLE FOR ANY COMPENSATION, REIMBURSEMENT, OR DAMAGES ARISING IN CONNECTION WITH: (A) YOUR INABILITY TO USE THE SERVICE OFFERINGS, INCLUDING AS A RESULT OF ANY (I) TERMINATION OR SUSPENSION OF THIS AGREEMENT OR YOUR USE OF OR ACCESS TO THE SERVICE OFFERINGS; (II) DISCONTINUATION OF THE SERVICE OFFERINGS; OR (III) WITHOUT LIMITING ANY OBLIGATIONS UNDER THE SLAS, ANY UNANTICIPATED OR UNSCHEDULED DOWNTIME OF ALL OR A PORTION OF THE SERVICE OFFERINGS FOR ANY REASON, INCLUDING AS A RESULT OF POWER OUTAGES, SYSTEM FAILURES OR OTHER INTERRUPTIONS; (B) THE COST OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; (C) ANY INVESTMENTS, EXPENDITURES, OR COMMITMENTS BY YOU IN CONNECTION WITH THIS AGREEMENT OR YOUR USE OF OR ACCESS TO THE SERVICE OFFERINGS; OR (D) ANY UNAUTHORIZED ACCESS TO, ALTERATION OF, OR THE DELETION, DESTRUCTION, DAMAGE, LOSS OR FAILURE TO STORE ANY OF YOUR CONTENT OR OTHER DATA. OUR AGGREGATE LIABILITY UNDER THIS AGREEMENT WILL BE LIMITED TO THE AMOUNT YOU ACTUALLY PAY US UNDER THIS AGREEMENT FOR THE SERVICE OFFERING THAT GAVE RISE TO THE CLAIM DURING THE 12 MONTHS PRECEDING THE CLAIM.

NOTHING IN THIS SECTION 6 WILL LIMIT YOUR OBLIGATION TO PAY US PURSUANT TO SECTION 4 (FEES AND INVOICING).

8. Insight's Terms of Sale

The purchase of AWS Cloud Services are subject to Insight's Terms of Sale for Cloud Services as set forth at https://www.Insight.com/en_US/help/terms-of-sale-cloud-ips.html ("Insight Terms of Sale"). To the extent the terms of this Agreement conflict with the Insight Terms of Sale for Cloud Services, these Agreement terms shall take precedence with respect to the purchase of Service Offerings. For the avoidance of doubt, notwithstanding the presence or acceptance of your order by Insight or Vendor, any applicable service setup information will be for administrative purposes only and subject to this Agreement. This Agreement is a Special Terms addendum to the Insight Terms of Sale, and is hereby incorporated by reference. Capitalized terms used but not defined herein will have the meaning provided in Insight's Terms of Sale.

9. Vendor's Terms of Use – AWS Agreements

By entering into this Agreement, you acknowledge that the use of the AWS Cloud Services provided through Insight is subject to the applicable AWS Public Sector Access Policy, a current version of which is located at: AWS Public Sector Access Policy.

You will be solely responsible for providing each of your affiliates, subsidiaries, customers and end-users with the aforementioned AWS Agreements governing use of the AWS Cloud Services and gain their acceptance prior to any purchase, provisioning and use of such AWS Cloud Services.

BY ENTERING YOUR MANUAL OR ELECTRONIC SIGNATURE BELOW, YOU HEREBY CERTIFY AND AGREE THAT: (1) YOU ARE DULY AUTHORIZED ON BEHALF OF CLIENT TO ACCEPT THIS AGREEMENT AND TO PROCURE, PROVISION AND USE, NOW AND IN THE FUTURE, ALL AWS CLOUD SERVICES ORDERED HEREUNDER; AND (2) YOU ARE PLACING THE ORDER DESCRIBED HEREIN AND ACCEPT THIS AGREEMENT AND ALL APPLICABLE TERMS AND CONDITIONS APPLICABLE TO SUCH ORDER ON BEHALF OF THE CLIENT.

1. EXHIBIT A - SUPPLEMENTAL TERMS AND CONDITIONS FOR AWS GOVCLOUD

[Delete this exhibit if it should not be included in the contract]

These Supplemental Terms and Conditions for AWS GovCloud ("AWS GovCloud Supplemental Terms") form an addendum to the Insight AWS Agreement, and set forth the terms and conditions that are specific to the AWS GovCloud Services being purchased by Client from Insight. To the extent these terms conflict with the Insight AWS Agreement, these AWS GovCloud Supplemental Terms will govern with respect your purchase of the AWS GovCloud Services. Terms used but not defined herein will have the meaning given in the AWS Agreement.

1) Use of the AWS GovCloud (U.S.) Region Service Offerings.

You may access the AWS GovCloud (U.S.) Region if you have root level access to the relevant program account.

2) AWS GovCloud (U.S.) Region Representations & Warranties.

Should you gain access to an AWS GovCloud (U.S.) Region account, the AWS Services may not be used to process or store classified data. You are responsible for verifying that all end users accessing Your Content in the AWS GovCloud (U.S.) Region are eligible to gain access to Your Content. You represent and warrant that You: (i) are a U.S. Person, as defined by 22 CFR part 120.15 ("U.S. Person"); (ii) will only assign a U.S. Person as your account owner for the AWS GovCloud (U.S.) Region; (iii) if required by the International Traffic In Arms Regulations ("ITAR"), have and will maintain a valid Directorate of Defense Trade Controls registration; (iv) are not subject to export restrictions under U.S. export control laws and regulations (e.g., you are not a denied or debarred party or otherwise subject to sanctions); and (v) maintain an effective compliance program to ensure compliance with applicable U.S. export control laws and regulations, including the ITAR. If requested, You agree to provide additional documentation and cooperation to verify the accuracy of the foregoing representations and warranties.

3) Your Use of GovCloud Credentials.

a) **GovCloud Region**. AWS will implement reasonable and appropriate measures for the AWS Network in the GovCloud Region designed to: (i) help You secure Your Content against accidental or unlawful loss, access or disclosure; (ii) implement the in-scope Federal Risk and Authorization Management Program ("FedRAMP") controls for the Services identified as FedRAMP compliant; and (iii) maintain physical and logical access controls to limit access to the AWS Network by AWS personnel, including employees and contractors, to U.S. citizens, as defined by 8 USC §1401, et seq. ("U.S. Citizens") ((i), (ii) and (iii) collectively the "Security Objectives"). The GovCloud Region is the only AWS Region that has physical and logical access controls that limit access to the AWS Network by AWS Personnel to U.S. Citizens. (The 'AWS Network' means AWS's data center facilities, servers, networking equipment, and host software systems (e.g., virtual firewalls) that are within AWS's control and are used to provide the Services.)

b) **GovCloud Region Security Standards**.

i) **Information Security Program**. AWS will maintain an information security program (including the adoption and enforcement of internal policies and procedures) designed to: (a) satisfy the Security Objectives; (b) identify reasonably foreseeable and internal risks to security and unauthorized access to the AWS Network; and (c) minimize security risks, including through risk assessment and regular testing. AWS will designate one or more

employees to coordinate and be accountable for the information security program. The information security program will include the following measures:

(1) ***Network Security***. The AWS Network will be electronically accessible to employees, contractors and any other person as necessary to provide the Services. AWS will maintain access controls and policies to manage what access is allowed to the AWS Network from each network connection and user, including the use of firewalls or functionally equivalent technology and authentication controls. AWS will maintain corrective action and incident response plans to respond to potential security threats.

(2) ***Physical Security***.

(a) Physical Access Controls. Physical components of the AWS Network are housed in nondescript facilities (the "Facilities"). Physical barrier controls are used to prevent unauthorized entrance to the Facilities both at the perimeter and at building access points. Passage through the physical barriers at the Facilities requires either electronic access control validation (e.g., card access systems, etc.) or validation by human security personnel (e.g., contract or in-house security guard service, receptionist, etc.). Employees and certain contractors are assigned photo-ID badges that must be worn while the employees and contractors are at any of the Facilities. Visitors and any other contractors are required to sign-in with designated personnel, must show appropriate identification, are assigned a visitor ID badge that must be worn while the visitor is at any of the Facilities, and are continually escorted by authorized employees or contractors while visiting the Facilities.

(b) Limited Employee and Contractor Access. AWS provides access to the Facilities to those employees and contractors who have a legitimate business need for such access privileges. When an employee or contractor no longer has a business need for the access privileges assigned to him/her, the access privileges are promptly revoked, even if the employee or contractor continues to be an employee of AWS or its affiliates.

(c) Physical Security Protections. All access points (other than main entry doors) are maintained in a secured (locked) state. Access points to the Facilities are monitored by video surveillance cameras designed to record all individuals accessing the Facilities. AWS also maintains electronic intrusion detection systems designed to detect unauthorized access to the Facilities, including monitoring points of vulnerability (e.g., primary entry doors, emergency egress doors, roof hatches, dock bay doors, etc.) with door contacts, glass breakage devices, interior motion-detection, or other devices designed to detect individuals attempting to gain access to the Facilities. All physical access to the Facilities by employees and contractors is logged and routinely audited.

ii) **Continued Evaluation**. AWS will conduct periodic reviews of the security of its AWS Network and adequacy of its information security program as measured against industry security standards and its policies and procedures. AWS will continually evaluate the security of its AWS Network and associated Services to determine whether additional or different security measures are required to respond to new security risks or findings generated by the periodic reviews.

(1) **Your Responsibilities**. You are responsible for all physical and logical access controls beyond the AWS Network including, but not limited to, Your account access, data

transmission, encryption, and appropriate storage and processing of data within the GovCloud Region. You are responsible for verifying that all End Users accessing Your Content in the GovCloud Region are eligible to gain access to Your Content. The Services may not be used to process or store classified data. If you introduce classified data into the AWS Network, You will be responsible for all sanitization costs incurred by Insight and AWS. Your liability under this provision is exempt from any limitations of liability.

BY ENTERING YOUR MANUAL OR ELECTRONIC SIGNATURE BELOW, YOU HEREBY CERTIFY AND AGREE THAT: (1) YOU ARE DULY AUTHORIZED ON BEHALF OF CLIENT TO ACCEPT THESE AWS GOVCLOUD SUPPLEMENTAL TERMS AND TO PROCURE, PROVISION AND USE, NOW AND IN THE FUTURE, ALL AWS GOVCLOUD SERVICES ORDERED HEREUNDER; AND (2) YOU ARE PLACING THE ORDER ASSOCIATED HEREWITH AND ACCEPT THESE AWS GOVCLOUD SUPPLEMENTAL TERMS ON BEHALF OF CLIENT.

Google Cloud Platform Order Form Agreement

Customer Name:		Customer Acct. #	
Address:		Customer Contact:	
State/Fed Contract:		Domain:	

This Order Form ("Agreement") governs access to and use by the customer named above, on behalf of itself and its affiliates, successors, customers, and end users (collectively, the "Customer", "You" or "Your") of the Google Cloud Platform Services supplied by Google, LLC (the "Supplier" or "Google") and provisioned through Insight Public Sector, Inc. ("Insight"). The individual accepting this Agreement on behalf of Customer represents and warrants that he or she: (i) has full legal authority to bind Customer to this Agreement; (ii) has read and understands this Agreement; and (iii) agrees to the Agreement on behalf of Customer. If you do not have the legal authority to bind Customer, please do not accept this Agreement, or provision or use any Services.

1. Definitions.

1.1. "Acceptable Use Policy" or "AUP" means Supplier's acceptable use policy set forth for the Services, found at https://cloud.google.com/terms/aup as modified from time to time.

1.2. "Anthos Products" means the subset of Google Cloud Platform Services described in the Google Cloud Platform suite of services listed here: https://cloud.google.com/terms/services as modified from time to time, and made available to End User through Insight as a reseller.

1.3. "Application(s)" means any web or other application Customer creates using the Google Cloud Platform Services, including any source code written by Customer to be used with the Services or hosted in an Instance.

1.4. "Committed Purchase(s)" have the meaning set forth in the Service Specific Terms.

1.5. "Content" means any content you upload to the Services under your account or otherwise transfer, process, use, or store in connection with your account.

1.6. "Customer Data" means content provided, transmitted, or displayed via the Google Cloud Platform Services by Customer, but excluding any data provided as part of the Customer's Google account (either gmail.com address or an email address provided under the "Google Apps" product line).

1.7. "Google Cloud Platform Services" means Google's Cloud Platform suite of services listed here: https://cloud.google.com/terms/services as modified from time to time, and made available to End User through Insight as a reseller.

1.8. "Google TOS" means the Google Cloud Platform Terms of Service at https://cloud.google.com/terms/.

1.9. "High Risk Activities" means uses such as the operation of nuclear facilities, air traffic control, or life support systems, where the use or failure of the Services could lead to death, personal injury, or environmental damage.

1.10. "Instance" means a virtual machine instance, configured and managed by Customer, which runs on the Google Cloud Platform Services.

1.11. "Intellectual Property Rights" means current and future worldwide rights under patent law, copyright law, trade secret law, trademark law, moral rights law, and other similar rights.

1.12. “Premium Software” means Software which Google has described as “Premium Software” within the Google Cloud Platform Services and is subject to the Service Specific Terms, including, but not limited to: Anthos Products.

1.13. "Project" means a grouping of computing, storage, and API resources for Customer, and via which Customer may use the Google Cloud Platform Services.

1.14. "Services" means the Google Cloud Platform Services.

1.15. "Service Specific Terms" means the terms which are specific to each Google Cloud Platform Service and set forth at https://cloud.google.com/terms/service-terms as modified from time to time.

1.16. "SLAs" means the service level agreements applicable to the Google Cloud Platform solutions found at https://cloud.google.com/terms/sla/.

1.17. "Software" means any downloadable tools, software development kits, or other such proprietary computer software provided by Google in connection with the Google Cloud Platform Services, including Premium Software, which may be downloaded by Customer, and any updates Google may make to such Software from time to time.

1.18. "Third Party Content" means content made available to you by any third party via Insight or the Console in conjunction with the Services.

2. Terms of Sale and Terms of Use for Cloud Services

2.1. **Terms of Sale**. The purchase of the Services will be subject to Insight’s Terms of Sale for Cloud Services as set forth at https://www.Insight.com/en_US/help/terms-of-sale-cloud-ips.html (“Insight Terms of Sale”), including, but not limited to, pricing (where applicable) will be set forth in the Google Cloud Platform console, tools or platform used by You to procure Services (the “Console”). For the avoidance of doubt, notwithstanding the presence or acceptance by Insight of any separate purchase order You may provide, to the extent such purchase order contains other terms, it will be for administrative purposes only and the parties agree that the governing terms and conditions shall be those set forth in this Agreement, unless otherwise agreed to in writing by Insight and You. If there is a conflict between the Insight Terms of Sale and any of the other documents that comprise the Agreement (“Conflicting Terms”), the terms of the Agreement (“Prevailing Terms”) will take precedence over the Conflicting Terms solely with respect to Your use of the Google Cloud Platform Services. Moreover, the Prevailing Terms shall be construed as narrowly as possible to resolve the conflict while preserving as much of the Agreement as possible, including, but not limited to, preserving non-conflicting provisions contained within the same paragraph, section, or sub-section as the Conflicting Terms. Capitalized terms which are not defined in this Agreement shall have the meaning ascribed to them in the Insight Terms of Sale.

2.2. **Terms of Service**. The Services are provided by the Supplier and are subject to the Google TOS. Such terms, including any additional Supplier terms provided in this Agreement, will apply to Your access to and use of the Services. By provisioning Services through the Console, you represent, warrant and covenant that you will not use the Services unless You have agreed to the Google TOS.

2.3. **Your Account**. Once an account has been set up for you, Services may be enabled and provisioned by you via the Console. Use, reporting and invoicing of the Services are based on a consumption or actual use basis, as further described below. You will be invoiced for the Services you consume in accordance with usage reports provided by the Supplier.

2.4. **Third Party Content**. Third Party Content, such as software applications provided by third parties, may be made available directly to you by other companies or individuals under separate terms and conditions, including separate fees and charges. Because we may not have tested or screened the Third-Party Content, your use of any Third-Party Content is at your sole risk.

3. Security and Data Privacy

3.1. **Your Content**. You are solely responsible for the development, content, operation, maintenance, and use of your Content such as, but not limited to: (a) compliance of your Content with the Acceptable Use Policy, the other Policies, and the law; (b) any claims relating to your Content; and (c) properly handling and processing notices sent to you (or any of your affiliates) by any person claiming that your Content violates such person's rights, including without limitation, notices pursuant to the Digital Millennium Copyright Act.

3.2. **Other Security and Backup**. You are responsible for properly configuring and using the Services and taking your own steps to maintain appropriate security, protection, and backup of your Content, which may include the use of encryption technology to protect your Content from unauthorized access and routine archiving your Content.

3.3. **Privacy Policy**. Google Cloud Platform Services are subject to Google's privacy policy located http://www.google.com/policies/privacy/ as modified from time to time.

4. Fees and Invoicing

4.1. **Fees**. If You exceed the usage limits, fee thresholds, Committed Units or any prepaid credits applicable to the Service, You agree to pay for the fees and charges for such over usage. For any extension of a Services subscription term or the provisioning of a Service upgrade, the then-current price will apply, unless otherwise mutually agreed in writing by You and Insight. Insight, may, from time to time in its sole discretion, change the fees it charges for the Service. Any increase in the fees will take effect at the beginning of the new subscription term. Insight will notify You of any such changes by updating the Console or sending notice by e-mail or regular mail.

4.2. **Invoicing/Payment**. Services used or enabled by you, including without limitation, any additions, reductions, increases or decreases in the per unit quantity of the Services used, will be invoiced on an actual use or consumption basis as measured and reported to Insight by Google. Google's records and usage reports are taken to be correct unless proven by you to be in error. Insight will invoice you monthly in arrears for the Services consumed in each preceding monthly billing period on an actual use or consumption basis as reported by Google. Unless otherwise agreed to in writing between the parties, you must pay all undisputed invoices in full within thirty (30) days of the invoice date. If You have purchased prepaid credits, You will be invoiced monthly against Your prepaid amount. You will have the option to either purchase additional increments of prepaid credits or default to consumption-based billing. Should You fail to purchase additional prepaid credits and Your usage exceeds Your prepaid credit amount, You agree to pay Insight for any and all amounts owed to Google for such over usage and You will continue to be invoiced on an actual use basis as reported to Insight by Google.

4.3. **Google Cloud Platform Service SLAs**. The Google Cloud Platform Services are more fully described at https://developers.google.com/cloud/services and are subject to the service level agreements found at https://cloud.google.com/terms/sla/. ANY CREDITS OR TERMINATION RIGHTS DESCRIBED UNDER THE SLA SHALL BE THE SOLE AND EXCLUSIVE REMEDY OF CUSTOMER IN CONNECTION WITH ANY UNAVAILABILITY OF THE SERVICES OR BREACH OF THE SLA.

5. Term/Termination

5.1. **Agreement Term**. The "Term" of this Agreement will begin on the Effective Date and continue until the Agreement is terminated as set forth in this Section 5 of the Agreement.

5.2. **Termination for Breach**. Either party may terminate this Agreement for breach if: (i) the other party is in material breach of the Agreement and fails to cure that breach within thirty days after receipt of written notice; (ii) the other party ceases its business operations or becomes subject to insolvency proceedings and the proceedings are not dismissed within ninety days; or (iii) the other party is in material breach of this

Agreement more than two times notwithstanding any cure of such breaches. In addition, Insight may terminate any, all, or any portion of the Services or Projects, if Customer meets any of the conditions in Section 9.2(i), (ii), and/or (iii).

5.3. **Termination for Inactivity**. Insight or Google reserves the right to terminate the provision of the Service(s) to a Project upon 30 days advance notice if, for a period of 60 days (i) Customer has not accessed the Admin Console or the Project has had no network activity; and (ii) such Project has not incurred any Fees for such Service(s).

5.4. **Termination for Convenience**. Customer may stop using the Services at any time. Customer may terminate this Agreement for its convenience at any time on prior written notice and upon termination, must cease use of the applicable Services. Insight may terminate this Agreement for its convenience at any time without liability to Customer.

5.5. **Effect of Termination**. If the Agreement is terminated, then: (i) the rights granted by one party to the other will immediately cease; (ii) all Fees owed by Customer to Insight are immediately due upon receipt of the final electronic bill; (iii) Customer will delete the Software, any Application, Instance, Project, and any Customer Data or Customer will transfer billing account direct to Google or a new service provider; and (iv) upon request, each party will use commercially reasonable efforts to return or destroy all Confidential Information of the other party.

6. Additional Required Terms

6.1. **Liability for Breach/Indemnity**. In addition to any liability Customer may have to Insight, Customer agrees that Customer will also be legally responsible directly to Google for any breach of these terms and conditions. Unless prohibited by applicable law, Customer will indemnify, defend, and hold harmless Google from and against all liabilities, damages, and costs (including settlement costs and reasonable attorneys' fees) arising out of a third party claim: (a) regarding any Application, Project, Instance, Customer Data, or Customer trademark; or (b) regarding Customer's, or its end users', use of the Google Cloud Platform Services in violation of the Acceptable Use Policy. Google is a third party beneficiary to this Agreement with respect to the terms and conditions set forth herein.

6.2. **No Warranties**. EXCEPT AS EXPRESSLY SET FORTH IN THE SERVICE SPECIFIC TERMS FOR PREMIUM SOFTWARE, GOOGLE AND ITS SUPPLIERS DO NOT MAKE ANY WARRANTY OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR USE AND NON-INFRINGEMENT.

6.3. **Intellectual Property Rights**. As between the parties, Customer owns all Intellectual Property Rights in Customer Data and the Application or Project (if applicable), and Google owns all Intellectual Property Rights in the Google Cloud Platform Services and Software.

6.4. **Other Restrictions**. Customer will not, and will not allow third parties under its control to: (a) copy, modify, create a derivative work of, reverse engineer, decompile, translate, disassemble, or otherwise attempt to extract the source code of the Google Cloud Platform Services or any component thereof (except to the extent such restriction is expressly prohibited by applicable law); (b) use the Google Cloud Platform Services for High Risk Activities; (c) sublicense, resell, or distribute the Google Cloud Platform Services or any component thereof separate from any integrated Application; (d) use the Google Cloud Platform Services to create, train, or improve (directly or indirectly) a substantially similar product or service, including any other machine translation engine; (e) unless otherwise set forth in the Service Specific Terms, use the Services to operate or enable any telecommunications service or in connection with any Application that allows its end users to place calls or to receive calls from any public switched telephone network; (f) process or store any Customer Data that is subject to the International Traffic in Arms Regulations maintained by the Department of State; or (g) unless expressly permitted to, use the Services for any purpose or in any manner involving Protected Health Information (as defined in HIPAA).

6.5. **Google Cloud Platform Terms of Use for Public Sector**. Customer acknowledges that use of the Google Cloud Platform Services provided through Insight is subject to the applicable Google Cloud Computing End User License Agreement for Public Sector, a current version of which is located at: https://www.carahsoft.com/application/files/3415/7685/7848/Google_Cloud_Master_General_Terms_US_Gov_GCP_12-20-2019.pdf.

6.6. **Acceptable Use Policy**. Customer will comply with the Acceptable Use Policy and ensure that its Applications, Projects, and Customer Data, and use thereof by its end users comply with the Acceptable Use Policy. Google reserves the right to review the Application, Project, and Customer Data to ensure Customer's compliance with the Acceptable Use Policy.

6.7. **Service Specific Terms**. Customer will comply with the Service Specific Terms.

6.8. **Terms Related to Anthos Products**. If Customer is purchasing Anthos Products, the following terms shall apply:

6.8.1. During the Term, or so long as Customer is purchasing Anthos Products under the pay-as-you-go model, Customer must purchase and maintain Google technical support in order to receive technical support for the Anthos Product directly from Google;

6.8.2. Customer may not, on behalf of a hyperscale public cloud provider, without Google's prior written consent, (a) conduct (directly or through a third party) any comparative or compatibility testing, benchmarking, or evaluation (each, a "Test") of the Anthos Products, or (b) disclose the results of any such Test.

BY SIGNING THIS AGREEMENT (OR ISSUING A PO IN LIEU OF SIGNATURE), YOU HEREBY CERTIFY THE FOLLOWING:

THAT (1) YOU ARE DULY AUTHORIZED ON BEHALF OF CLIENT TO ACCEPT THIS ORDER, (2) THAT YOU ACCEPT THIS ORDER AND ALL APPLICABLE TERMS AND CONDITIONS ON BEHALF OF CLIENT, AND (3) THAT YOU AGREE TO PAY FOR ALL ORDERS, CHANGES, AND/OR INCREASES IN USAGE SUBSEQUENTLY PROVISIONED BY YOU UNDER YOUR ACCOUNT.

1. SCHEDULE A - FEES AND ADDITIONAL ORDER DETAILS

Fees:

All prices set forth in this Schedule A are estimates of monthly Services usage only. Customer is responsible for all actual Services charges accrued in accordance with Sections 4.1 and 4.2 of this Agreement.

Services Order Details:

Type or Description of Services	Price (based on estimated usage)	Notes

MICROSOFT AZURE ORDER FORM

Client Name: Client Account No:

Address:

Address:

Client Contact: Insight Contact:

THIS ORDER IS SUBJECT TO THE TERMS AND CONDITIONS SET FORTH ON THIS ORDER FORM

- **PROVISIONING AND USE OF CLOUD SERVICES.** Insight performs the initial tenant set-up for Client, including adding Client's subscription and configuring Client's owner rights. Once a subscription has been created for Client, Cloud Services may be enabled and consumed by Client via the Microsoft Azure Services Portal. Use, reporting and invoicing of Cloud Services are based on a consumption or actual use model, as further described below. Client will be invoiced for Cloud Services consumed in accordance with usage reports provided by Microsoft.

- **TERM/TERMINATION.** Cloud Services start once provisioned by Insight on Client's behalf. Cloud Services are available on a month-to-month basis. Client can cancel the Cloud Services at any time by providing written notice. If Client terminates its use of Cloud Services, Client will remain responsible to Insight for the prior month's consumption and all accrued charges for such Cloud Services which will be billed in the next scheduled invoice.

- **FEES AND INVOICING.** Client agrees to pay the fees and charges for the Cloud Services as set forth in the provided price list at purchase, as may be amended from time to time. All future quantities used, enabled or consumed for purchased Cloud Services will be invoiced monthly in arrears on an actual use basis (i.e. "pay-as-you-go") as measured and reported to Insight by Microsoft. The unit purchase price (consumption rate) for each of the Cloud Services available to the Client will be made available for Client's review on a monthly basis. For any extension of a subscription term or the provisioning of a Cloud Service upgrade, the then-current price will apply, unless otherwise mutually agreed in writing by Insight and Client. Notwithstanding the foregoing, Insight may, from time to time and in its sole discretion, change the fees it charges all clients for the Cloud Service for reasons including, but not limited to, changes in Microsoft's pricing and changes to its channel partner programs.

- **AZURE RESERVATIONS (Azure Reserved VM Instances)(*Optional).** Client agrees that Azure Reservations purchases will be invoiced up-front, in full, for the entire term. All Azure Reservations have their own unique coverage period (not coterminous to any previous Azure Reservation purchase). No refunds will be granted once the Azure Reservations are provisioned and in use. *By executing this Order Form, Client agrees to pay the Azure Reservations fees listed below up-front on Client's first issued invoice*:

☐ **FORM OF PAYMENT.** Form of payment must be on file before Insight will provision the Cloud Services. All Cloud Services consumed leveraging this Agreement will automatically be billed to the selected form of payment. If a form of payment change is required, please call Insight Credit Card Services Department for assistance.

Net 30 Payment Terms unless You have a separate purchase agreement signed by both your company and Insight, in which case , the net terms of that separate agreement will govern

Credit Card Payment. Please provide last 4 digits of credit card

*Due to security and compliance standards we require clients to call our Credit Card Services Department at 800-INSIGHT and requesting the Credit Card Services department between the hours of 7:00 and 4:00 MST Monday – Friday to provide the full credit card information.

☐ **BY CHECKING THIS BOX, YOU CERTIFY THAT YOU HAVE READ AND AGREE TO INSIGHT'S "MICROSOFT CLOUD SOLUTION PROVIDER (CSP) AGREEMENT" WHICH IS INCORPORATED HEREIN BY REFERENCE AND GOVERNS YOUR ORDER FROM INSIGHT, LOCATED AT THE FOLLOWING URL:** https://www.insight.com/microsoft-csp-agreement-for-us-gov-community

☐ **BY CHECKING THIS BOX, YOU CERTIFY THAT YOU HAVE READ AND AGREE TO MICROSOFT'S TERMS OF USE (COLLECTIVELY, THE "MICROSOFT AGREEMENTS"). YOU SHALL BE SOLELY RESPONSIBLE FOR PERIODICALLY REVIEWING DESIGNATED URLS OR SUCCESSOR URLS OF MICROSOFT TO UNDERSTAND AND PERFORM IN ACCORDANCE WITH SUCH AMENDED OR OTHERWISE UPDATED MICROSOFT TERMS.**

1. The Microsoft Online Services Terms can found at: https://www.microsoft.com/en-us/licensing/product-licensing/products.aspx

2. The Microsoft Customer Agreement is available from Client's tenant accessed through the Microsoft Online Services Portal; OR Client accepts the current applicable regional version of the Microsoft Customer Agreement available at: https://www.microsoft.com/licensing/docs/customeragreement

3. The Microsoft Azure Service Level Agreement can be found at: https://azure.microsoft.com/en-us/support/legal/sla

BY CHECKING THE ABOVE-REFERENCED BOXES, YOU UNDERSTAND AND AGREE TO EACH AND ALL OF THE TERMS AND CONDITIONS OF THIS AGREEMENT THAT ARE LEGALLY BINDING. YOU FURTHER AGREE THAT YOUR SIGNATURE ON THIS DOCUMENT IS AS VALID AS IF YOU SIGNED THE DOCUMENT IN WRITING.

NOTES

Add Note

No notes is available for this D-U-N-S Number.

The scores and ratings included in this report are designed as a tool to assist the user in making their own credit related decisions, and should be used as part of a balanced and complete assessment relying on the knowledge and expertise of the reader, and where appropriate on other information sources. The score and rating models are developed using statistical analysis in order to generate a prediction of future events. Dun & Bradstreet monitors the performance of thousands of businesses in order to identify characteristics common to specific business events. These characteristics are weighted by significance to form rules within its models that identify other businesses with similar characteristics in order to provide a score or rating.

Dun & Bradstreet's scores and ratings are not a statement of what will happen, but an indication of what is more likely to happen based on previous experience. Though Dun & Bradstreet uses extensive procedures to maintain the quality of its information, Dun & Bradstreet cannot guarantee that it is accurate, complete or timely, and this may affect the included scores and ratings. Your use of this report is subject to applicable law, and to the terms of your agreement with Dun & Bradstreet.

Risk Assessment

D&B RISK ASSESSMENT

OVERALL BUSINESS RISK

HIGH	MODERATE-HIGH	MODERATE	LOW-MODERATE	LOW

Dun & Bradstreet thinks...

- Overall assessment of this organization over the next 12 months: **STABLE CONDITION**
- Based on the predicted risk of business discontinuation: **LIKELIHOOD-OF-CONTINUED-OPERATIONS**
- Based on the predicted risk of severely delinquent payments: **LOW POTENTIAL FOR SEVERELY DELINQUENT PAYMENTS**

MAXIMUM CREDIT RECOMMENDATION

US$ 5,300,000

The recommended limit is based on a moderately low probability of severe delinquency.

D&B VIABILITY RATING SUMMARY

The D&B Viability Rating uses D&B's proprietary analytics to compare the most predictive business risk indicators and deliver a highly reliable assessment of the probability that a company will go out of business, become dormant/inactive, or file for bankruptcy/insolvency within the next 12 months. The D&B Viability Rating is made up of 4 components:

Viability Score
Compared to All US Businesses within the D&B Database:

- Level of Risk:**Low Risk**
- Businesses ranked **1** have a probability of becoming no longer viable: **0.2 %**
- Percentage of businesses ranked **1: 0.3 %**
- Across all US businesses, the average probability of becoming no longer viable:**14 %**

Portfolio Comparison
Compared to All US Businesses within the same MODEL SEGMENT:

- Model Segment :**Available Financial Data**
- Level of Risk:**Low Risk**
- Businesses ranked **2** within this model segment have a probability of becoming no longer viable: **0.2 %**
- Percentage of businesses ranked **2** with this model segment: **14 %**
- Within this model segment, the average probability of becoming no longer viable:**0.6 %**

Data Depth Indicator

Data Depth Indicator:

- ✓ Rich Firmographics
- ✓ Extensive Commercial Trading Activity
- ✓ Comprehensive Financial Attributes

Greater data depth can increase the precision of the D&B Viability Rating assessment.

To help improve the current data depth of this company, you can ask D&B to make a personalized request to this company on your behalf to obtain its latest financial information. To make the request, click the link below. Note, the company must be saved to a folder before the request can be made.

Request Financial Statements

Reference the FINANCIALS tab for this company to monitor the status of your request.

COMPANY EVENTS

The following information was reported on: 04/11/2022

The Delaware Secretary of State's business registrations file showed that Insight Enterprises, Inc. was registered as a Corporation on June 4, 1991, under the file registration number 2264818.

Business started 1988.

The company (Insight) began operations in Arizona in 1988, incorporated in Delaware in 1991 and completed its initial public offering (IPO) in 1995. The company was formerly known as Insight Distribution Network, Inc.

The company's common stock is traded on The NASDAQ Global Select Market under the symbol "NSIT". As of February 12, 2021, there were 46 stockholders of record. As of March 15, 2021, those shareholders identified by the company as beneficially owning 5% or more of the outstanding shares were: BlackRock, Inc. (16.50%); FMR LLC (15.00%); The Vanguard Group (10.63%); and Dimensional Fund Advisors LP (7.30%). As of the same date, officers and directors as a group beneficially owns 1.94% of the outstanding shares.

RECENT EVENT.

On August 30, 2019, the company completed its acquisition of PCM, Inc. acquiring 100% of the issued and outstanding shares of PCM for a cash purchase price of $745,562,000, which included cash and cash equivalents acquired of $84,637,000 and the payment of PCM's outstanding debt.

KENNETH T LAMNECK. Director since 2010. He was appointed President and CEO of the company effective January 2010.

TIMOTHY A CROWN. Director since 1994. He assumed the position of Non-Executive Chair of the Board in November 2004. He is a co-founder of the company.

GLYNIS A BRYAN. She joined the company in December 2007 as the company's CFO.

JEFFERY SHUMWAY. He served as the company's Chief Information Officer (CIO). He joined the company September 2005 as a consulting information systems analyst. He held various positions of increasing responsibility at the company including Vice President of Application Development from August 2010 to September 2017 and Senior Vice President of Global IT Operations from October 2017 until May 2019, when he was promoted to Global CIO.

RACHAEL A BERTRANDT CRUMP. She joined Insight in December 2016 as Vice President of Finance, Controller - North America and was appointed Principal Accounting Officer (CAO) and Global Corporate Controller in September 2018. She is a CPA. Prior to joining Insight, she served as the Senior Director Controller, Global Accounting at Amkor Technology, Inc. from 2006 to 2016.

SAMUEL C COWLEY. He joined the company in June 2016 as Senior Vice President and General Counsel. Prior to joining Insight, he served as General Counsel and Vice President, Business Development of Prestige Brands Holdings, Inc. from February 2012 to June 2016. He previously served as Executive Vice President, Business Development and General Counsel of Matrixx Initiatives, Inc. and Executive Vice President and General Counsel of Swift Transportation Co., Inc.

RICHARD E ALLEN. Director since 2012. He served at J.D. Edwards & Company from 1985 to 2004, most recently as the Executive Vice President, Finance and Administration.

BRUCE W ARMSTRONG. Director since 2016. Since 2015, he has served as an Operating Partner at Khosla Ventures.

ANTHONY A IBARGUEN. Director since 2008. He has served as CEO of Quench USA, Inc., since October 2010.

KATHLEEN S PUSHOR. Director since 2005. She has operated an independent consulting practice since June 2009.

GIRISH RISHI. Director since 2017. He is CEO of Blue Yonder.

ALEXANDER L BAUM. Antecedents are unknown.

SUMANA NALLAPATI. Antecedents are unknown.

ANNOUNCED BUSINESS MOVE: On November 1, 2019, the company completed the purchase of real estate in Chandler, Arizona for approximately $48,000,000 that it intends to use as its global corporate headquarters. The property contains a building and some infrastructure in place that the company expects will be ready for its use in 2022.

Business address has changed from 6820 S Harl Ave, Tempe, AZ, 85283 to 2701 E Insight Way, Chandler, AZ, 85286.

BUSINESS ACTIVITIES AND EMPLOYEES

The following information was reported on: 04/11/2022

Business Information

Trade Names	INSIGHT
Description	The company provides information technology hardware, software, and services solutions. It provides solutions to gain insights to network enabled devices, and spots patterns and trends through mass analysis; custom applications to help clients create disruption; custom-developed mobile, cloud, and IoT applications; and custom-developed solutions to help clients review actionable insights within their data, including artificial intelligence for prediction, optimization, cognitive, and vision services. The company also offers various services, such as hybrid cloud, migration and consolidation, workload-platform alignment, converged/hyper converged solutions, and software-defined data center; data platform modernization services; integrated network and security solutions; and consulting, professional, managed, and support services. In addition, it sources, procures, stages, configures, integrates, tests, refurbishes, and redeploys IT products spanning endpoints to infrastructure; and offers software life cycle, and hardware warranty and software maintenance services. Further, the company provides desktop, notebook, tablet, and mobile devices coupled with cloud-based productivity solutions; workplace services, including virtual technical support, remote service desk and automated self-service solutions; and procures, stages, provides, manages, and disposes hardware assets. Additionally, it sells hardware and software products. Terms are cash and Net 30 days. Sells to commercial concerns. Territory : International.
Employees	11,006 which includes officer(s). Undetermined employed here.

Business Information

Financing Status	Secured
Financial Condition	Fair
Seasonality	The company experience some seasonal trends in its sales of IT hardware, software and services. For example: software sales are typically higher in the company's second and fourth quarters, particularly the second quarter. Business clients, particularly larger enterprise businesses in the United States, tend to spend more in the company's fourth quarter and less in the first quarter; sales to the federal government in the United States are often stronger in the company's third quarter, while sales in the state and local government and education markets are stronger in the company's second quarter. Sales to public sector clients in the United Kingdom are often stronger in the company's first quarter. These trends create overall seasonality in its consolidated results such that sales and profitability are expected to be higher in the second and fourth quarters of the year.
Facilities	Occupies premises in a building.

OMNIA Partners, Public Sector Cooperative Purchasing Organization

Insight PUBLIC SECTOR

Appendix E - Marketing Collateral

Why Insight and OMNIA Partners?

At Insight Public Sector, we define, architect, implement and manage Insight Intelligent Technology Solutions™ that help your organization run smarter. Our strong supply chain optimization and workplace solutions combined with our data center transformation expertise and modernized applications keep business running, foster flexible work environments and put you at the forefront of innovation.

- Exclusive access to low pricing through the public sector contracts
- Experienced IT specialists ready to help
- Strong client relationships that support your entire IT lifecycle
- Customized solutions that drive efficiency and reduce costs
- Flexible, convenient ways to manage technology through leasing

Official contract:

Technology Products, Services, Solutions, and Related Products and Services

Contract number:

4400006644

Start date:

May 1, 2016

Current end date:

April 30, 2023

Competitively solicited through Fairfax County, VA (Lead Public Agency)

How our OMNIA Partners contract helps your organization

As a contract holder in the OMNIA Partners (formerly U.S. Communities) portfolio, Insight is uniquely positioned to sell both technology products and IT services, including solutions from Apple, Cisco, Citrix, Commvalut, Dell EMC, Hewlett Packard Enterprise, HP Inc., Microsoft, Lenovo, NetApp, Panasonic, Symantec, Veritas and VMware.

By taking advantage of our competitively solicited contract for Technology Products, Services, Solutions, and Related Products and Services available through OMNIA Partners, you're assured our best available price on our full portfolio of products and solutions.

- Save time and money with no user fees or comparison shopping.
- Eliminate duplicated efforts by countless agencies.
- Leverage economies of scale with no minimum purchase requirements.

Insight Public Sector: The perfect partner for government

Case Study

U.S. County Brings Free Public Wi-Fi to More Than 30,000+ Rural, Low-Income Students and Workers

The client

A county government in a Southern U.S. state was facing extreme pressure to complete a Wi–Fi project by Dec. 31, 2020 (the deadline for CARES Act Funds spending). The county shortened the procurement cycle by avoiding a full RFP, and instead, they leveraged Insight Public Sector's existing OMNIA Partners contract — saving an estimated four weeks of time.

The challenge: Narrowing the digital divide at a critical time

As the COVID-19 pandemic has swept through the country, various regions and demographics have been hit harder than others. The county had received critical funding as a part of federal government aid and needed to apply these funds strategically to navigate its most pressing challenges.

Each city within the county had claimed its portion of the federal aid to support its citizens; however, residents located outside of city limits had a different set of challenges. Unlike city dwellers, the county's rural population lacked internet access and is generally living on the less privileged side of the so-called digital divide.

As a result of the pandemic and social distancing guidelines, the county needed to embrace both remote work and distance education. But without proper internet access at home, launching these initiatives proved to be a daunting challenge.

Industry:

Government

Insight provided:

- Multilayered network design
- Planning and deployment of a reliable wireless network
- Electrical remediation services and tower construction
- Ongoing network monitoring and maintenance
- Professional services

Three layer network approach:

1. Fiber and wireless pointto-point (PTP) equipment connects base stations
2. Wireless Point-to-MultiPoint (PTMP) extends connectivity to the street level.
3. Wi-Fi mesh nodes with rooftop mesh access points (RAPs) and mesh access points (MAPs) extend to the client level.

The solution: A multiphased approach and multilayered network with ongoing expert support

The county requested Insight propose a solution for strategy, design and deployment of a free public internet access Wi-Fi network across several precincts. The Insight Cloud + Data Center Transformation (CDCT) team, in collaboration with SmartWAVE, was selected to help the county with this large-scale and time-sensitive project.

As of August 2020, the Insight services team is in the process of multiphased project delivery planned to occur over a couple of months. This includes planning, design, electrical remediation, and tower construction and installation. Each phase addresses the core and access network and wireless network, including radio frequency (RF) analysis and field site surveying. The new multivendor network is comprised of Cisco, Palo Alto Networks and Ruckus® wireless mesh.

Our team is also providing the county with three years of ongoing support services to respond to issues as they arise and maintain the network for peak performance. This includes monitoring, data analytics, optimization, software updates and engineering support.

The result: Broad, free internet access to support education and remote work

Through working with Insight and SmartWAVE, the county can provide free public Wi-Fi internet access to more than 30,000 students and teleworkers. The network design has built-in safety and compliance features to ensure user and business data and privacy are protected.

Our three-layer network design leveraged as much existing infrastructure as possible — water tanks, light and telephone poles — to expedite services delivery and control costs. Insight's engineering services will help the county continue to deliver reliable, secure internet access to residents in need for years to come.

About Insight Public Sector

At Insight Public Sector, we help organizations of all sizes navigate complex challenges through our four key solution areas: Digital Innovation, Cloud + Data Center Transformation, Connected Workforce and Supply Chain Optimization. With deep expertise and end-to-end capabilities, we'll help you manage today's priorities and prepare for tomorrow's needs.

About OMNIA Partners

OMNIA Partners is a leading group purchasing organization (GPO) in procurement and supply chain management. Comprised of four subsidiaries: Corporate United, Prime Advantage, National IPA and U.S. Communities, OMNIA Partners serves over 35 industries in both the private and public sector.

Benefits:

Free public Wi-Fi access to
30,000+
students and remote workers

Secure, wireless network design

Cost-effective solution leveraging existing infrastructure

Eliminates aspects of the growing digital divide at an important time

Well-maintained and optimized network through an expert support team

Exhibit F
Federal Funds Certifications

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non–Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non–Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non–Federal entity that, consistent with 31 U.S.C. 6302–6305:

(a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non–Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;

(b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non–Federal entity in carrying out the activity contemplated by the Federal award.

(c) The term does not include:

(1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or

(2) An agreement that provides only:

(i) Direct United States Government cash assistance to an individual;

(ii) A subsidy;

(iii) A loan;

(iv) A loan guarantee; or

(v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non–Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

(a)(1) The Federal financial assistance that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non–Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

(b) Is not organized primarily for profit; and

(c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non–Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non–Federal entity during the same or a future period.

Pass-through entity means a non–Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non–Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non–Federal entity may purchase property or services using small purchase methods. Non–Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non–Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Per FAR 52.204-24 and FAR 52.204-25, solicitations and resultant contracts shall contain the following provisions.

52.204-24 Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (Oct 2020)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Items. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) *Definitions.* As used in this provision—

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) *Prohibition.*

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (https://www.sam.gov) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) *Representation.* The Offeror represents that—

(1) It □ will, □ will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It □ does, □ does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) *Disclosures.*

(1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer.

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

52.204-25 Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment (Aug 2020).

(a) *Definitions.* As used in this clause—

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (*e.g.*, connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (*e.g.*, fiber optic, coaxial cable, Ethernet).

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means–

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means–

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled-

(i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

(ii) For reasons relating to regional stability or surreptitious listening;

(3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

(4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

(5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or

(6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

Interconnection arrangements means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (*e.g.*, connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Reasonable inquiry means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

Roaming means cellular communications services (*e.g.*, voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) *Prohibition.*

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) *Exceptions.* This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at https://dibnet.dod.mil. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at https://dibnet.dod.mil.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause

(i) Within one business day from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency's subcontractors shall contain the procurement provisions of

Appendix II to Part 200, as applicable.

APPENDIX II TO 2 CFR PART 200

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Offeror as detailed in the terms of the contract.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does offeror agree to abide by the above? YES _____ Initials of Authorized Representative of offeror

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non - Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, offeror will be in compliance with all applicable Davis-Bacon Act provisions.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency. If at any time during the term of an award the offeror or its principals becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any

federal department or agency, the offeror will notify the Participating Agency.

(l) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (l) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid for on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with the awarding of a Federal contract, the making of a Federal grant, the making of a Federal loan, the entering into a cooperative agreement, and the extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all covered sub-awards exceeding $100,000 in Federal funds at all appropriate tiers and that all subrecipients shall certify and disclose accordingly.

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, offeror certifies that it will comply with the record retention requirements detailed in 2 CFR § 200.333. The offeror further certifies that offeror will retain all records as required by 2 CFR § 200.333 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT

When Participating Agency expends federal funds for any contract resulting from this procurement process, offeror certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18).

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, offeror certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF COMPLIANCE WITH BUY AMERICAN PROVISIONS

Unless Supplier is exempt *(See FAR 25.103)*, when authorized by statute or explicitly indicated by Participating Public Agency, Buy American requirements will apply where only unmanufactured construction material mined or produced in the United States shall be used *(see Subpart 25.6 – American Recovery and Reinvestment Act-Buy American statute for additional details)*.

CERTIFICATION OF ACCESS TO RECORDS – 2 C.F.R. § 200.336

Offeror agrees that the Inspector General of the Agency or any of their duly authorized representatives shall have access to any documents, papers, or other records of offeror that are pertinent to offeror's discharge of its obligations under the Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to offeror's personnel for the purpose of interview and discussion relating to such documents.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

CERTIFICATION OF APPLICABILITY TO SUBCONTRACTORS

Offeror agrees that all contracts it awards pursuant to the Contract shall be bound by the foregoing terms and conditions.

Does offeror agree? YES _____ Initials of Authorized Representative of offeror

Offeror agrees to comply with all federal, state, and local laws, rules, regulations and ordinances, as applicable. It is further acknowledged that offeror certifies compliance with all provisions, laws, acts, regulations, etc. as specifically noted above.

Offeror's Name: Insight Public Sector, Inc.

Printed Name and Title of Authorized Representative: Lisanne Steinheiser, Global Compliance Officer

Email Address: Lisanne.Steinheiser@Insight.com

Signature of Authorized Representative: _____ Date: October 10, 2022

FEMA SPECIAL CONDITIONS

Awarded Supplier(s) may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a proposal, the Supplier is accepted these FEMA Special Conditions required by the Federal Emergency Management Agency (FEMA).

"Contract" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as the "Master Agreement".

"Contractor" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension), must be rejected and cannot receive contract awards at any level.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:

a. Equal opportunity and nondiscrimination laws

b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7

c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Federal Requirements

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. CONTRACT REMEDIES

Contracts for more than the federal simplified acquisition threshold (SAT), the dollar amount below which an NFE may purchase property or services using small purchase methods, currently set at $250,000 for procurements made on or after June 20, 2018,4 must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms and must provide for sanctions and penalties as appropriate.

1.1 Applicability

This contract provision is required for contracts over the SAT, currently set at $250,000 for procurements made on or after June 20, 2018. Although not required for contracts at or below the SAT, FEMA suggests including a remedies provision.

1.2 Additional Considerations

For FEMA's Assistance to Firefighters Grant (AFG) Program, recipients must include a penalty clause in all contracts for any AFG-funded vehicle, regardless of dollar amount. In that situation, the contract must include a clause addressing that non-delivery by the contract's specified date or other vendor nonperformance will require a penalty of no less than $100 per day until such time that the vehicle, compliant with the terms of the contract, has been accepted by the recipient. This penalty clause should, however, account for force majeure or acts of God. AFG recipients should refer to the applicable year's Notice of Funding Opportunity (NOFO) for additional information, which can be accessed at FEMA.gov.

2. TERMINATION FOR CAUSE AND CONVENIENCE

a. Standard. All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix II(B).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

3. EQUAL EMPLOYMENT OPPORTUNITY

When applicable:

a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60- 1.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II(C).

b. Key Definitions.

i. Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

ii. Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

c. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

d. Required Language. The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or

purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

4. DAVIS-BACON ACT

a. Standard. All prime construction contracts in excess of $2,000 awarded by non- Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction). See 2 C.F.R. Part 200, Appendix II(D). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

b. Applicability. The Davis-Bacon Act applies to the Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant

Program.

c. Requirements. If applicable, the non-federal entity must do the following:

i. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

ii. Additionally, pursuant 2 C.F.R. Part 200, Appendix II(D), contracts subject to the Davis-Bacon Act, must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

iii. Include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction").

Suggested Language. The following provides a sample contract clause:

Compliance with the Davis-Bacon Act.

a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.

b. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

c. Additionally, contractors are required to pay wages not less than once a week.

5. COPELAND ANTI-KICKBACK ACT

a. Standard. Recipient and subrecipient contracts must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").

b. Applicability. This requirement applies to all contracts for construction or repair work above $2,000 in situations where the Davis-Bacon Act also applies. It DOES NOT apply to the FEMA Public Assistance Program.

c. Requirements. If applicable, the non-federal entity must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). Each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA. Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

Sample Language. The following provides a sample contract clause:

Compliance with the Copeland "Anti-Kickback" Act.

a. Contractor. The contractor shall comply with 18 U.S.C. §874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

b. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

6. CONTRACT WORK HOURS AND SAFETY STANDARDSACT

a. Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.

b. Applicability. This requirement applies to all FEMA contracts awarded by the non- federal entity in excess of $100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of

intelligence.

c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of
$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency or loan/grant recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT ORAGREEMENT

a. Standard. If the FEMA award meets the definition of "funding agreement" under 37C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non- Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any

implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).

b. Applicability. This requirement applies to "*funding agreements*," but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of "funding agreement."

c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

a. Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).

b. Applicability. This requirement applies to contracts awarded by a non-federal entity of amounts in excess of $150,000 under a federal grant.

c. Suggested Language. The following provides a sample contract clause.

Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as

amended, 33 U.S.C. 1251 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. DEBARMENT AND SUSPENSION

a. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

c. Requirements.

i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530.

ii. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipients.

iii. Specifically, a covered transaction includes the following contracts for goods or services:

1. The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

2. The contract requires the approval of FEMA, regardless of amount.

3. The contract is for federally-required auditservices.

4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of$25,000.

d. Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the Participating Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

10. BYRD ANTI-LOBBYING AMENDMENT

a. Standard. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. FEMA's regulation at 44 C.F.R. Part 18 implements the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the Federal awarding agency.

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs. Contractors that apply or bid for a contract of $100,000 or more under a federal grant must file the required certification. See 2 C.F.R. Part 200, Appendix II(I); 31 U.S.C. § 1352; and 44 C.F.R. Part 18.

c. Suggested Language.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

d. Required Certification. If applicable, contractors must sign and submit to the non-federal entity the following certification.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, Insight Public Sector, Inc., certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

Date

11. PROCUREMENT OF RECOVERED MATERIALS

a. Standard. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. See 2 C.F.R. Part 200, Appendix II(J); and 2 C.F.R. §200.322.

b. Applicability. This requirement applies to all contracts awarded by a non- federal entity under FEMA grant and cooperative agreement programs.

c. Requirements. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds
$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

d. Suggested Language.

i. In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—

1. Competitively within a timeframe providing for compliance with the contract performance schedule;
2. Meeting contract performance requirements; or
3. At a reasonable price.

ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.

iii. The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act."

12. DOMESTIC PREFERENCES FOR PROCUREMENTS

As appropriate, and to the extent consistent with law, CONTRACTOR should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products or materials produced in the United States. This includes, but is not limited to, iron, aluminum, steel, cement, and other manufactured products.

Applicability For purchases in support of FEMA declarations and awards issued on or after November 12, 2020, all FEMA recipients and subrecipients are required to include in all contracts and purchase orders for work or products a contract provision encouraging domestic preference for procurements.

Domestic Preference for Procurements As appropriate, and to the extent consistent with law, the contractor should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products. For purposes of this clause: Produced in the United States means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States. Manufactured products mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber."

13. ACCESS TO RECORDS

a. Standard. All recipients, subrecipients, successors, transferees, and assignees must acknowledge and agree to comply with applicable provisions governing DHS access to records, accounts, documents, information, facilities, and staff. Recipients must give DHS/FEMA access to, and the right to examine and copy, records, accounts, and other documents and sources of information related to the federal financial assistance award and permit access to facilities, personnel, and other individuals and information as may be necessary, as required by DHS regulations *and* other applicable laws or program guidance. See DHS Standard Terms and Conditions: Version 8.1 (2018). Additionally, Section 1225 of the Disaster Recovery Reform Act of 2018 prohibits FEMA from providing reimbursement to any state, local, tribal, or territorial government, or private non-profit for activities made pursuant to a contract that purports to prohibit audits or internal reviews by the FEMA administrator or Comptroller General.

Access to Records. The following access to records requirements apply to this contract:

i. The Contractor agrees to provide Participating Public Agency, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

ii. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

iii. The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

iv. In compliance with the Disaster Recovery Act of 2018, the Participating Public Agency and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

14. CHANGES

a. Standard. To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope.

b. Applicability. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

15. DHS SEAL, LOGO, AND FLAGS

a. Standard. Recipients must obtain permission prior to using the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials. See DHS Standard Terms and Conditions: Version 8.1 (2018).

b. Applicability. FEMA recommends that all non-Federal entities place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

c. "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

16. COMPLIANCE WITH FEDERAL LAW, REGULATIONS, AND EXECUTIVE ORDERS

a. Standard. The recipient and its contractors are required to comply with all Federal laws, regulations, and executive orders.

b. Applicability. FEMA recommends that all non-Federal entities place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable Federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

c. "This is an acknowledgement that FEMA financial assistance will be used to fund all or a portion of the contract. The contractor will comply with all applicable Federal law, regulations, executive orders, FEMA policies, procedures, and directives."

17. NO OBLIGATION BY FEDERAL GOVERNMENT

a. Standard. FEMA is not a party to any transaction between the recipient and its contractor. FEMA is not subject to any obligations or liable to any party for any matter relating to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

c. "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

18. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

a. Standard. Recipients must comply with the requirements of The False Claims Act (31 U.S.C. §§ 3729-3733) which prohibits the submission of false or

fraudulent claims for payment to the federal government. See DHS Standard Terms and Conditions: Version 8.1 (2018); and 31 U.S.C. §§ 3801-3812, which details the administrative remedies for false claims and statements made. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

c. "The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract."

Offeror agrees to comply with all terms and conditions outlined in the FEMA Special Conditions section of this solicitation.

PROCUREMENT, PROFESSIONAL AND SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of it testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

Signature of Procurement Agent

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of $17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).

2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.

3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.

4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.

    a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12. They will be updated from time-to-time as necessary.
    b. A public agency using these forms **should edit them to properly reflect the correct legislative district**(s). As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
    c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
    d. The form may be used "as-is", subject to edits as described herein.
    e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
    f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.

5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
    - of the public entity awarding the contract
    - of that county in which that public entity is located
    - of another public entity within that county
    - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Required Pursuant to N.J.S.A. 19:44A-20.26

This form or its permitted facsimile must be submitted to the local unit no later than 10 days prior to the award of the contract.

Certification of Non-Involvement in Prohibited Activities in Iran

Pursuant to N.J.S.A. 52:32-58, Offerors must certify that neither the Offeror, nor any of its parents, subsidiaries, and/or affiliates (as defined in N.J.S.A. 52:32 – 56(e) (3)), is listed on the Department of the Treasury's List of Persons or Entities Engaging in Prohibited Investment Activities in Iran and that neither is involved in any of the investment activities set forth in N.J.S.A. 52:32 – 56(f).

Offerors wishing to do business in New Jersey through this contract must fill out the Certification of Non-Involvement in Prohibited Activities in Iran here: http://www.state.nj.us/humanservices/dfd/info/standard/fdc/disclosure_investmentact.pdf.

Offerors should submit the above form completed with their proposal.

DISCLOSURE OF INVESTMENT ACTIVITIES IN IRAN FORM

STATE OF NEW JERSEY
DEPARTMENT OF THE TREASURY - DIVISION OF PURCHASE AND PROPERTY
33 WEST STATE STREET, P.O. BOX 230 TRENTON, NEW JERSEY 08625-0230

BID SOLICITATION # AND TITLE: 23-6692

VENDOR NAME: Insight Public Sector, Inc.

Pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4) any person or entity that submits a bid or proposal or otherwise proposes to enter into or renew a contract must certify that neither the person nor entity, nor any of its parents, subsidiaries, or affiliates, is identified on the New Jersey Department of the Treasury's Chapter 25 List as a person or entity engaged in investment activities in Iran. The Chapter 25 list is found on the Division's website at https://www.state.nj.us/treasury/purchase/pdf/Chapter25List.pdf. Vendors/Bidders must review this list prior to completing the below certification. If the Director of the Division of Purchase and Property finds a person or entity to be in violation of the law, s/he shall take action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

CHECK THE APPROPRIATE BOX

☑ I certify, pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4), that neither the Vendor/Bidder listed above nor any of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List of entities determined to be engaged in prohibited activities in Iran.

OR

☐ I am unable to certify as above because the Vendor/Bidder and/or one or more of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List. I will provide a detailed, accurate and precise description of the activities of the Vendor/Bidder, or one of its parents, subsidiaries or affiliates, has engaged in regarding investment activities in Iran by completing the information requested below.

Entity Engaged in Investment Activities _____
Relationship to Vendor/ Bidder _____
Description of Activities _____

Duration of Engagement _____
Anticipated Cessation Date _____
**Attach Additional Sheets If Necessary.*

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I may be subject to criminal prosecution under the law, and it will constitute a material breach of my contract(s) with the State, permitting the State to declare any contract(s) resulting from this certification void and unenforceable.

MACBRIDE-PRINCIPLES

STATE OF NEW JERSEY DEPARTMENT OF THE TREASURY
DIVISION OF PURCHASE AND PROPERTY

33 WEST STATE STREET, P.O. BOX 230
TRENTON, NEW JERSEY 08625-0230

MACBRIDE PRINCIPALS FORM

BID SOLICITATION #: 23-6692 **VENDOR/BIDDER:** Insight Public Sector, Inc.

VENDOR'S/BIDDER'S REQUIREMENT
TO PROVIDE A CERTIFICATION IN COMPLIANCE WITH THE MACBRIDE PRINCIPALS AND NORTHERN IRELAND ACT OF 1989

Pursuant to Public Law 1995, c. 134, a responsible Vendor/Bidder selected, after public bidding, by the Director of the Division of Purchase and Property, pursuant to N.J.S.A. 52:34-12, must complete the certification below by checking one of the two options listed below and signing where indicated. If a Vendor/Bidder that would otherwise be awarded a purchase, contract or agreement does not complete the certification, then the Director may determine, in accordance with applicable law and rules, that it is in the best interest of the State to award the purchase, contract or agreement to another Vendor/Bidder that has completed the certification and has submitted a bid within five (5) percent of the most advantageous bid. If the Director finds contractors to be in violation of the principals that are the subject of this law, he/she shall take such action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, on behalf the Vendor/Bidder, certify pursuant to N.J.S.A. 52:34-12.2 that:

CHECK THE APPROPRIATE BOX

[X] The Vendor/Bidder has no business operations in Northern Ireland; or

OR

[ ] The Vendor/Bidder will take lawful steps in good faith to conduct any business operations it has in Northern Ireland in accordance with the MacBride principals of nondiscrimination in employment as set forth in section 2 of P.L. 1987, c. 177 (N.J.S.A. 52:18A-89.5) and in conformance with the United Kingdom's Fair Employment (Northern Ireland) Act of 1989, and permit independent monitoring of its compliance with those principals.

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor/Bidder, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor/Bidder is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I will be subject to criminal prosecution under the law, and it will constitute a material breach of **my** agreement(s) with the State, permitting the State to declare any contract(s) resulting from this certification to be void and unenforceable.

Sourcewell

Solicitation Number: RFP #020624

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and TD Synnex Corporation, 39 Pelham Ridge Dr., Greenville, SC 29615 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Private Wireless Services with Related Solutions from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires May 3, 2028, unless it is cancelled sooner pursuant to Article 22. This Contract allows up to three additional one-year extensions upon the request of Sourcewell and written agreement by Supplier. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

7. CUSTOMER SERVICE

A. PRIMARY ACCOUNT REPRESENTATIVE. Supplier will assign an Account Representative to Sourcewell for this Contract and must provide prompt notice to Sourcewell if that person is changed. The Account Representative will be responsible for:

- Maintenance and management of this Contract;
- Timely response to all Sourcewell and Participating Entity inquiries; and
- Business reviews to Sourcewell and Participating Entities, if applicable.

B. BUSINESS REVIEWS. Supplier must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, sales data reports, performance issues, supply issues, customer issues, and any other necessary information.

8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Supplier must submit a report indicating no sales were made).

The Report must contain the following fields:

- Participating Entity Name (e.g., City of Staples Highway Department);
- Participating Entity Physical Street Address;
- Participating Entity City;
- Participating Entity State/Province;
- Participating Entity Zip/Postal Code;
- Participating Entity Contact Name;
- Participating Entity Contact Email Address;
- Participating Entity Contact Telephone Number;
- Sourcewell Assigned Entity/Participating Entity Number;
- Item Purchased Description;
- Item Purchased Price;
- Sourcewell Administrative Fee Applied; and
- Date Purchase was invoiced/sale was recognized as revenue by Supplier.

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Supplier will pay an administrative fee for Commodity Products equal to eighty (80) percent

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

of one (1) percent ("80 BPS") and for Enterprise Products equal to two (2) percent or ("200 BPS")to Sourcewell. "Commodity Products" shall include, but not be limited to, Products such as servers, networking equipment, and endpoint devices such as desktop, laptop, tablets and print devices. Also includes peripheral devices such as monitors, docking stations, UPS/power, telephony, furniture, and other accessories and supplies. "Enterprise Products" shall include, but not be limited to, are High-End enterprise class Datacenter Server/Storage that support cloud, AI/ML, and data center solutions, that require specific vendor authorization to purchase.The Administrative Fee will be based upon the sales price to Participating Entities and must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

9. AUTHORIZED REPRESENTATIVE

Sourcewell's Authorized Representative is its Chief Procurement Officer.

Supplier's Authorized Representative is the person named in the Supplier's Proposal. If Supplier's Authorized Representative changes at any time during this Contract, Supplier must promptly notify Sourcewell in writing.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

10. AUDIT, ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE

A. AUDIT. Pursuant to Minnesota Statutes Section 16C.05, subdivision 5, the books, records, documents, and accounting procedures and practices relevant to this Contract are subject to examination by Sourcewell or the Minnesota State Auditor for a minimum of six years from the end of this Contract. This clause extends to Participating Entities as it relates to business conducted by that Participating Entity under this Contract.

B. ASSIGNMENT. Neither party may assign or otherwise transfer its rights or obligations under this Contract without the prior written consent of the other party and a fully executed assignment agreement. Such consent will not be unreasonably withheld. Any prohibited assignment will be invalid.

C. AMENDMENTS. Any amendment to this Contract must be in writing and will not be effective until it has been duly executed by the parties.

D. WAIVER. Failure by either party to take action or assert any right under this Contract will not be deemed a waiver of such right in the event of the continuation or repetition of the circumstances giving rise to such right. Any such waiver must be in writing and signed by the parties.

E. CONTRACT COMPLETE. This Contract represents the complete agreement between the parties. No other understanding regarding this Contract, whether written or oral, may be used to bind either party. For any conflict between the attached Proposal and the terms set out in Articles 1-22 of this Contract, the terms of Articles 1-22 will govern.

F. RELATIONSHIP OF THE PARTIES. The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

11. INDEMNITY AND HOLD HARMLESS

Supplier must indemnify, defend, save, and hold Sourcewell and its Participating Entities, including their agents and employees, harmless from any claims or causes of action, including attorneys' fees incurred by Sourcewell or its Participating Entities, arising out of any act or omission in the performance of this Contract by the Supplier or its agents or employees; this indemnification includes injury or death to person(s) or property alleged to have been caused by some defect in the Equipment, Products, or Services under this Contract to the extent the Equipment, Product, or Service has been used according to its specifications. Sourcewell's responsibility will be governed by the State of Minnesota's Tort Liability Act (Minnesota Statutes Chapter 466) and other applicable law.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

IN NO EVENT SHALL SUPPLIER, ITS AFFILIATES OR ITS LICENSORS BE LIABLE FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL, EXEMPLARY, OR OTHER DAMAGES, INCLUDING COSTS FOR PROCUREMENT OF SUBSTITUTE OFFERINGS OR SERVICES, LOST PROFITS OR LOST REVENUE.

12. GOVERNMENT DATA PRACTICES

Supplier and Sourcewell must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by or provided to Sourcewell under this Contract and as it applies to all data created, collected, received, maintained, or disseminated by the Supplier under this Contract.

13. INTELLECTUAL PROPERTY, PUBLICITY, MARKETING, AND ENDORSEMENT

A. INTELLECTUAL PROPERTY

1. *Grant of License.* During the term of this Contract:

   a. Sourcewell grants to Supplier a royalty-free, worldwide, non-exclusive right and license to use the trademark(s) provided to Supplier by Sourcewell in advertising and promotional materials for the purpose of marketing Sourcewell's relationship with Supplier.

   b. Supplier grants to Sourcewell a royalty-free, worldwide, non-exclusive right and license to use Supplier's trademarks in advertising and promotional materials for the purpose of marketing Supplier's relationship with Sourcewell.

2. *Limited Right of Sublicense*. The right and license granted herein includes a limited right of each party to grant sublicenses to their respective subsidiaries, distributors, dealers, resellers, marketing representatives, and agents (collectively "Permitted Sublicensees") in advertising and promotional materials for the purpose of marketing the Parties' relationship to Participating Entities. Any sublicense granted will be subject to the terms and conditions of this Article. Each party will be responsible for any breach of this Article by any of their respective sublicensees.

3. *Use; Quality Control.*

   a. Neither party may alter the other party's trademarks from the form provided and must comply with removal requests as to specific uses of its trademarks or logos.

   b. Each party agrees to use, and to cause its Permitted Sublicensees to use, the other party's trademarks only in good faith and in a dignified manner consistent with such party's use of the trademarks. Upon written notice to the breaching party, the breaching party has 30 days of the date of the written notice to cure the breach or the license will be terminated.

4. *Termination*. Upon the termination of this Contract for any reason, each party, including Permitted Sublicensees, will have 30 days to remove all Trademarks from signage, websites, and the like bearing the other party's name or logo (excepting Sourcewell's pre-printed catalog of suppliers which may be used until the next printing). Supplier must return all

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

marketing and promotional materials, including signage, provided by Sourcewell, or dispose of it according to Sourcewell's written directions.

B. PUBLICITY. Any publicity regarding the subject matter of this Contract must not be released without prior written approval from the Authorized Representatives. Publicity includes notices, informational pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Supplier individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

C. MARKETING. Any direct advertising, marketing, or offers with Participating Entities must be approved by Sourcewell. Send all approval requests to the Sourcewell Supplier Development Administrator assigned to this Contract.

D. ENDORSEMENT. The Supplier must not claim that Sourcewell endorses its Equipment, Products, or Services.

14. GOVERNING LAW, JURISDICTION, AND VENUE

The substantive and procedural laws of the State of Minnesota will govern this Contract. Venue for all legal proceedings arising out of this Contract, or its breach, must be in the appropriate state court in Todd County, Minnesota or federal court in Fergus Falls, Minnesota.

15. FORCE MAJEURE

Neither party to this Contract will be held responsible for delay or default caused by acts of God or other conditions that are beyond that party's reasonable control. A party defaulting under this provision must provide the other party prompt written notice of the default.

16. SEVERABILITY

If any provision of this Contract is found by a court of competent jurisdiction to be illegal, unenforceable, or void then both parties will be relieved from all obligations arising from that provision. If the remainder of this Contract is capable of being performed, it will not be affected by such determination or finding and must be fully performed.

17. PERFORMANCE, DEFAULT, AND REMEDIES

A. PERFORMANCE. During the term of this Contract, the parties will monitor performance and address unresolved contract issues as follows:

1. *Notification.* The parties must promptly notify each other of any known dispute and work in good faith to resolve such dispute within a reasonable period of time. If necessary,

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

Sourcewell and the Supplier will jointly develop a short briefing document that describes the issue(s), relevant impact, and positions of both parties.

2. *Escalation.* If parties are unable to resolve the issue in a timely manner, as specified above, either Sourcewell or Supplier may escalate the resolution of the issue to a higher level of management. The Supplier will have 30 calendar days to cure an outstanding issue.

3. *Performance while Dispute is Pending*. Notwithstanding the existence of a dispute, the Supplier must continue without delay to carry out all of its responsibilities under the Contract that are not affected by the dispute. If the Supplier fails to continue without delay to perform its responsibilities under the Contract, in the accomplishment of all undisputed work, the Supplier will bear any additional costs incurred by Sourcewell and/or its Participating Entities as a result of such failure to proceed.

B. DEFAULT AND REMEDIES. Either of the following constitutes cause to declare this Contract, or any Participating Entity order under this Contract, in default:

1. Nonperformance of contractual requirements, or
2. A material breach of any term or condition of this Contract.

The party claiming default must provide written notice of the default, with 30 calendar days to cure the default. Time allowed for cure will not diminish or eliminate any liability for liquidated or other damages. If the default remains after the opportunity for cure, the non-defaulting party may:

- Exercise any remedy provided by law or equity, or
- Terminate the Contract or any portion thereof, including any orders issued against the Contract.

18. INSURANCE

A. REQUIREMENTS. At its own expense, Supplier must maintain insurance policy(ies) in effect at all times during the performance of this Contract with insurance company(ies) licensed or authorized to do business in the State of Minnesota having an "AM BEST" rating of A- or better, with coverage and limits of insurance not less than the following:

1. *Workers' Compensation and Employer's Liability.*

Workers' Compensation: As required by any applicable law or regulation.

Employer's Liability Insurance: must be provided in amounts not less than listed below:

Minimum limits:
$500,000 each accident for bodily injury by accident
$500,000 policy limit for bodily injury by disease
$500,000 each employee for bodily injury by disease

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

2. *Commercial General Liability Insurance.* Supplier will maintain insurance covering its operations, with coverage on an occurrence basis, and must be subject to terms no less broad than the Insurance Services Office ("ISO") Commercial General Liability Form CG0001 (2001 or newer edition), or equivalent. At a minimum, coverage must include liability arising from premises, operations, bodily injury and property damage, independent contractors, products-completed operations including construction defect, contractual liability, blanket contractual liability, and personal injury and advertising injury. All required limits, terms and conditions of coverage must be maintained during the term of this Contract.

Minimum Limits:
$1,000,000 each occurrence Bodily Injury and Property Damage
$1,000,000 Personal and Advertising Injury
$2,000,000 aggregate for products liability-completed operations
$2,000,000 general aggregate

3. *Commercial Automobile Liability Insurance.* During the term of this Contract, Supplier will maintain insurance covering all owned, hired, and non-owned automobiles in limits of liability not less than indicated below. The coverage must be subject to terms no less broad than ISO Business Auto Coverage Form CA 0001 (2010 edition or newer), or equivalent.

Minimum Limits:
$1,000,000 each accident, combined single limit

4. *Umbrella Insurance*. During the term of this Contract, Supplier will maintain umbrella coverage over Employer's Liability, Commercial General Liability, and Commercial Automobile.

Minimum Limits:
$2,000,000

5. *Professional/Technical, Errors and Omissions, and/or Miscellaneous Professional Liability*. During the term of this Contract, Supplier will maintain coverage for all claims the Supplier may become legally obligated to pay resulting from any actual or alleged negligent act, error, or omission related to Supplier's professional services required under this Contract.

Minimum Limits:
$2,000,000 per claim or event
$2,000,000 – annual aggregate

6. *Network Security and Privacy Liability Insurance*. During the term of this Contract, Supplier will maintain coverage for network security and privacy liability. The coverage may be endorsed on another form of liability coverage or written on a standalone policy. The insurance must cover claims which may arise from failure of Supplier's security resulting in, but not limited to, computer attacks, unauthorized access,

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

disclosure of not public data – including but not limited to, confidential or private information, transmission of a computer virus, or denial of service.

Minimum limits:
$2,000,000 per occurrence
$2,000,000 annual aggregate

Failure of Supplier to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Supplier must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 or sent to the Sourcewell Supplier Development Administrator assigned to this Contract. The certificates must be signed by a person authorized by the insurer(s) to bind coverage on their behalf.

Failure to request certificates of insurance by Sourcewell, or failure of Supplier to provide certificates of insurance, in no way limits or relieves Supplier of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. Supplier agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Supplier's commercial general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Supplier, and products and completed operations of Supplier. The policy provision(s) or endorsement(s) must further provide that coverage is primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. WAIVER OF SUBROGATION. Supplier waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other insurance applicable to the Supplier or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION. The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

19. COMPLIANCE

A. LAWS AND REGULATIONS. All Equipment, Products, or Services provided under this Contract must comply fully with applicable federal laws and regulations, and with the laws in the states and provinces in which the Equipment, Products, or Services are sold.

B. LICENSES. Supplier must maintain a valid and current status on all required federal, state/provincial, and local licenses, bonds, and permits required for the operation of the business that the Supplier conducts with Sourcewell and Participating Entities.

20. BANKRUPTCY, DEBARMENT, OR SUSPENSION CERTIFICATION

Supplier certifies and warrants that it is not in bankruptcy or that it has previously disclosed in writing certain information to Sourcewell related to bankruptcy actions. If at any time during this Contract Supplier declares bankruptcy, Supplier must immediately notify Sourcewell in writing.

Supplier certifies and warrants that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Supplier certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this Contract. Supplier further warrants that it will provide immediate written notice to Sourcewell if this certification changes at any time.

21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all references to “federal” should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier’s Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of “federally assisted construction contract” in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

regulations at 41 C.F.R. § 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.” The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. If the federal award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 C.F.R. § 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Contracts and subgrants of amounts in excess of $150,000 require the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. § 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. § 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Supplier certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. §180 that implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Supplier certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency.

G. BYRD ANTI-LOBBYING AMENDMENT, AS AMENDED (31 U.S.C. § 1352). Suppliers must file any required certifications. Suppliers must not have used federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Suppliers must disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the non-federal award. Suppliers must file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Supplier must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Supplier further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

I. ENERGY POLICY AND CONSERVATION ACT COMPLIANCE. To the extent applicable, Supplier must comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.

J. BUY AMERICAN PROVISIONS COMPLIANCE. To the extent applicable, Supplier must comply with all applicable provisions of the Buy American Act. Purchases made in accordance with the Buy American Act must follow the applicable procurement rules calling for free and open competition.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Supplier agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Supplier that are directly pertinent to Supplier's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Supplier's personnel for the purpose of interview and discussion relating to such documents.

L. PROCUREMENT OF RECOVERED MATERIALS (2 C.F.R. § 200.322). A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

M. FEDERAL SEAL(S), LOGOS, AND FLAGS. The Supplier cannot use the seal(s), logos, crests, or reproductions of flags or likenesses of Federal agency officials without specific pre-approval.

N. NO OBLIGATION BY FEDERAL GOVERNMENT. The U.S. federal government is not a party to this Contract or any purchase by a Participating Entity and is not subject to any obligations or liabilities to the Participating Entity, Supplier, or any other party pertaining to any matter resulting from the Contract or any purchase by an authorized user.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

O. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS. The Contractor acknowledges that 31 U.S.C. 38 (Administrative Remedies for False Claims and Statements) applies to the Supplier's actions pertaining to this Contract or any purchase by a Participating Entity.

P. FEDERAL DEBT. The Supplier certifies that it is non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowance, and benefit overpayments.

Q. CONFLICTS OF INTEREST. The Supplier must notify the U.S. Office of General Services, Sourcewell, and Participating Entity as soon as possible if this Contract or any aspect related to the anticipated work under this Contract raises an actual or potential conflict of interest (as described in 2 C.F.R. Part 200). The Supplier must explain the actual or potential conflict in writing in sufficient detail so that the U.S. Office of General Services, Sourcewell, and Participating Entity are able to assess the actual or potential conflict; and provide any additional information as necessary or requested.

R. U.S. EXECUTIVE ORDER 13224. The Supplier, and its subcontractors, must comply with U.S. Executive Order 13224 and U.S. Laws that prohibit transactions with and provision of resources and support to individuals and organizations associated with terrorism.

S. PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT. To the extent applicable, Supplier certifies that during the term of this Contract it will comply with applicable requirements of 2 C.F.R. § 200.216.

DOMESTIC PREFERENCES FOR PROCUREMENTS. To the extent applicable, Supplier certifies that during the term of this Contract will comply with applicable requirements of 2 C.F.R. § 200.322.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

22. CANCELLATION

Sourcewell or Supplier may cancel this Contract at any time, with or without cause, upon 60 days' written notice to the other party. However, Sourcewell may cancel this Contract immediately upon discovery of a material defect in any certification made in Supplier's Proposal. Cancellation of this Contract does not relieve either party of financial, product, or service obligations incurred or accrued prior to cancellation.

Table 1: Proposer Identity & Authorized Representatives

General Instructions (applies to all Tables) Sourcewell prefers a brief but thorough response to each question. Do not merely attach additional documents to your response without also providing a substantive response. Do not leave answers blank; respond "N/A" if the question does not apply to you (preferably with an explanation).

Line Item	Question	Response *	
1	Proposer Legal Name (one legal entity only): (In the event of award, will execute the resulting contract as "Supplier")	TD SYNNEX Corporation	*
2	Identify all subsidiary entities of the Proposer whose equipment, products, or services are included in the Proposal.	DLT Solutions, LLC - a TD SYNNEX Corporation Company	*
3	Identify all applicable assumed names or DBA names of the Proposer or Proposer's subsidiaries in Line 1 or Line 2 above.	TD SYNNEX, TD SYNNEX Public Sector, or DLT.	*
4	Provide your CAGE code or Unique Entity Identifier (SAM):	TD SYNNEX SAM Unique Entity Identifier: LYXBWDHL4VR9	*
5	Proposer Physical Address:	39 Pelham Ridge Dr. Greenville, SC 29615	*
6	Proposer website address (or addresses):	www.tdsynnex.com	*
7	Proposer's Authorized Representative (name, title, address, email address & phone) (The representative must have authority to sign the "Proposer's Assurance of Compliance" on behalf of the Proposer and, in the event of award, will be expected to execute the resulting contract):	Ed Somers; Vice President; 39 Pelham Ridge Dr. Greenville, SC 29615; ed.somers@tdsynnex.com; 864-230-9730	*
8	Proposer's primary contact for this proposal (name, title, address, email address & phone):	Randy Finley; Senior Director; 39 Pelham Ridge Dr. Greenville, SC 29615; randy.finley@tdsynnex.com; 510-402-7058	*
9	Proposer's other contacts for this proposal, if any (name, title, address, email address & phone):	Katie Bullock; Contract Analyst; 39 Pelham Ridge Dr. Greenville, SC 29615; katie.bullock@tdsynnex.com; 864-349-4368	

Table 2: Company Information and Financial Strength

Line Item	Question	Response *	
10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	TD SYNNEX has come together through a history of balanced Mergers & Acquisitions and organic growth. On March 22, 2021, SYNNEX Corporation (NYSE: SNX) and Tech Data Corporation announced a definitive merger agreement under which SYNNEX and Tech Data will combine. The combined company, with a team of over 23,000 co-workers will provide customers and vendors with expansive reach across products, services, and geographies to accelerate technology adoption. Tech Data was wholly owned by funds managed by affiliates of Apollo Global Management, Inc. (NYSE: APO) (the "Apollo Funds") and their co-investors. The merger with Tech Data was completed on September 1, 2021. The combined company was named TD SYNNEX Corporation. Headquartered in Fremont, CA and Clearwater, FL, TD SYNNEX is an industry leader in IT distribution with global operations. TD SYNNEX is listed on the New York Stock Exchange (NYSE: SNX) and is ranked #64 on the 2023 Fortune 500. TD SYNNEX has built upon its core distribution business to create a highly efficient hybrid model that provides customers with a wide range of solutions and value-added services. A publicly-traded corporation on the New York Stock Exchange (SNX), TD SYNNEX is a global business process services company, providing outsourcing services in IT distribution, contract assembly, logistics management, and more to resellers and original equipment manufacturers (OEMs) around the world. TD SYNNEX distributes technology products from more than 2,500 world-leading IT	

OEM suppliers to more than 25,000 resellers throughout the US, Canada, and Mexico. Our focused product categories include IT systems, rugged mobility, peripherals, system components, software, and networking.

TD SYNNEX Public Sector is a specialized, fully integrated business unit that focuses on bridging the gap between technology partners and U.S. public sector organizations so they can achieve their individual missions. This is accomplished through specialized and scalable aggregator solutions, including channel enablement, engineering services and support, industry-centric marketing, the Diversity Alliance Program, and our Cloud Navigator, Enterprise Agreement Platform, Confirmed Stateside Support and Secure Software Factory offerings.

TD SYNNEX Public Sector has been exclusively focused on the Public Sector, including higher education customers, since 1991. The organization has experience with some of the nation's largest state universities and community colleges. The organization consists of approximately 400 co-workers.
TD SYNNEX tracks sales in the traditional public sector verticals of Education, State/Local government, and Federal. Education sales include all K-12, higher education (colleges and university), and community, and/or vocational & technical college revenue. State/Local government sales include all state and local government, but also includes any city, local, township, municipal, borough, county, parish, and/or commonwealth, revenue. Federal sales include all civilian, defense, and/or administrative revenue, also includes sales to prime contract holders and federal integrators.

National Presence, Nationwide Distribution Capabilities:
TD SYNNEX' distribution model focuses on top-tier manufacturers, offering value-added resellers, system integrators, and solution providers access through knowledge-based sales consultants. We have over 1 million square feet of warehouse space across 15 distribution centers, located strategically throughout the United States.
TD SYNNEX offers:

- Proven distribution, logistics and product management processes
- Excellent past performance in the Public Sector market
- A national presence and nationwide distribution network
- ISO 9001-certifed supply chain that increases efficiencies and reduces costs
- Supply Chain Risk Management (SCRM) Plan (available upon request)
- Customs-Trade Partnership Against Terrorism (C-TPAT) Certified
- Membership in Transported Asset Protection Association (TAPA)
- Experienced government contractor with both Federal and State contracts
- A nationwide network of value-added resellers and solution providers with one or more SBA certified small business socio-economic statuses.

TD SYNNEX is 23,000 coworkers of the IT industry's best and brightest, who share an unwavering passion for bringing compelling technology products, services and solutions to the world. We're an innovative partner that helps our customers maximize the value of IT investments, demonstrate business outcomes and unlock growth opportunities.

At our core, we're a company that cares. We care about our partners, our co-workers, our investors and the world around us. And we're committed to being a diverse, inclusive employer of choice and a good corporate citizen.

Living our Values. We hold ourselves to the highest standards every day. That's the key to unlocking the potential of the IT ecosystem.

INCLUSION – Your voice matters.
With diverse backgrounds, expertise and experiences, our co-workers make us who we are. When we seek to understand one another and recognize the power of the individual, we demonstrate respect and dignity; we learn, evolve and unlock potential to achieve outstanding results for our customers and win together.
This broad perspective is integral to our commitment to diversity, equity and inclusion.

COLLABORATION – We amplify strengths.
We meet the ever-evolving demands of our customers and the marketplace by bringing out the best in our people and our partners across every aspect of the supply chain.
When we leverage our collective expertise, listen well, support and inspire each other we do more than achieve our goals — we do great things.

INTEGRITY – Character counts.
Acting with honesty, transparency, respect and fairness builds trust. Trust fosters the entrepreneurial spirit and is a catalyst for innovation that drives outstanding results for our
customers.

When we hold each other accountable to the highest standards, we create an open

		and honest environment that fosters creative ideas and brings value to our customers, vendors and each other. EXCELLENCE – We win. We deliver value to our customers and vendors through our strong work ethic and our commitment to excellence. We proactively seek opportunities and address challenges. We adapt quickly and execute confidently to maximize results for our partners and our business. When we embrace a driven mindset, the strengths of individual ownership and collaboration come together naturally, learning embeds itself in the process and we deliver meaningful experiences everywhere.	
11	What are your company's expectations in the event of an award?	We expect to exceed hundreds of thousands of dollars in sales in our first year and thereafter achieve year-over- year growth in excess of 15% per year. If our value-added products are accepted for award, with this broader spectrum of solutions and services that we could offer on a potential award, this will result in an increase of business as well as an increase in market awareness for this contract. The Sourcewell contract will be a valuable extension to both TD SYNNEX and Sourcewell participating entities and would be advantageous in markets such as airports, cities/governments, universities/stadiums, K-12, healthcare, and ports/warehouses. TD SYNNEX will utilize a network of reseller partners who will interface with the Sourcewell customers, providing onsite assessments/consultation, product information, technical support, customer service support and post-sales support as authorized. Authorized TD SYNNEX reseller partners will be responsible for invoicing Sourcewell customers directly on behalf of TD SYNNEX. Reseller Order Fulfillers will be utilized under the TD SYNNEX Sourcewell program contract. These resellers will be required to maintain the appropriate vendor authorizations and sign agreements with TD SYNNEX agreeing to follow the terms and conditions of our Sourcewell program contract. Resellers will be reviewed on a regular basis to ensure we have the appropriate resources to support this contract.	*
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	TD SYNNEX Corporation is a publicly traded company on the New York Stock Exchange under the stock symbol SNX. On March 22, 2021, SYNNEX Corporation (NYSE: SNX) and Tech Data Corporation announced a definitive merger agreement under which SYNNEX and Tech Data will combine. Tech Data was wholly owned by funds managed by affiliates of Apollo Global Management, Inc. (NYSE: APO) (the "Apollo Funds") and their co-investors. The merger with Tech Data was completed on September 1, 2021. The combined company was named TD SYNNEX Corporation. 13	What is your US market share for the solutions that you are proposing?	For calendar year 2023, TD SYNNEX estimates that the Total Available Market for Public Sector IT spend was ~$256 Billion, with ~$59 Billion being IT products. TD SYNNEX represented 20% ($11.6 Billion) of the products market share. Market share will vary by manufacturer. Ericsson, a Cradlepoint company, is the largest radio access network (RAN) supplier in the United States with a market share over 50%. US Market Share About 50% of the 5G traffic outside of China run on Ericsson networks. R&D investments over the past four years have led to Ericsson increasing its market share outside of China to 39 percent in 2022, from around 33% in 2017. (Source: Gartner) • Ericsson was named a leader in the 2023 Gartner® Magic Quadrant™ for 5G Network Infrastructure for CSPs report. • Ericsson positioned as a Leader for the third year in a row. • Ericsson's commercial 5G leadership and technology evolution is independently known industry-wide. • Ericsson positioned highest for 'Ability to Execute' in the Gartner® Magic Quadrant™ Ericsson became a top RAN vendor in 2021 with 26.9% market share overtaking China's Huawei as the top Radio Access Network (RAN) vendor in 2021, helped by delving 5G solutions in the US market (Source: Mobile Experts)	*

14	What is your Canadian market share for the solutions that you are proposing?	Ericsson is a prominent player in making a Connected Canada possible for 70 years. Our prominence in the Canadian Market is evidenced by our commitment to R&D Economic Development in the country. Research & Development • Investing an average of $35M/year - $6.8B+ overall • Among the top 14 R&D spenders in Canada • 2000+ Canadian patents in a global repertoire of 60,000 Economic Development • Largest Canadian 5G network service provider • Drive digital change with 5G technology • ENCQOR partner to 5G labs that develop use cases In Canada, Ericsson provides 5G infrastructure products and services for Bell, EastLink, Rogers, TBAYTEL, TELUS, Videotron and Xplore and live 5G commercial networks across the country. We enable private network solutions as well as transport and critical infrastructure to remote mines and utilities across the country through client partnerships with Ambra, Hydro BC, Hydro One, Hydro Quebec and more. We have more than 170 5G commercial agreements or contracts with unique service providers globally. With state-of-the-art 5G R&D centers and offices in Montreal, Ottawa and Toronto, we are working closely with partners, Canadian telecommunications leaders and the Canadian government to rollout a secure 5G network for the entire country. Ericsson's largest R&D site in North America is in Ottawa. The Ottawa lab is a strategic R&D site with end-to-end development capabilities. It's also one of the few Verification Centres for Ericsson. Our teams work in all phases of the product development cycle, from research, architecture, systematization, hardware/software design, integration, test, field test, and customer support. Since 2020, our Ottawa Open Lab has been a key site on the recently created Cloud RAN product development unit responsible for Ericsson Cloud RAN products worldwide. Ericsson also established its Global AI accelerator division in 2019 in Montreal. This 5G innovation hub focuses on R&D in AI and automation to leverage innovative technologies an and create data-drive, intelligent and robust system automation, evolution and growth.	*
15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No. TD SYNNEX is a publicly traded company (NYE: SNX) in good financial standing.	*
16	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	In response to question a): TD SYNNEX is an authorized distributor. Cradlepoint's Letter of Authorization as an Authorized Distributor has been made available as an uploaded document (See file TD SYNNEX Response – Additional Document.pdf page 3) Ericsson's EP5G private network solution is only available in the United States and Canada through its subsidiary Cradlepoint. TD SYNNEX is offering both EP5G and Cradlepoint's NetCloud Private Networks (NCPN) through Cradlepoint. TD SYNNEX holds all necessary authorizations, approvals, and master distributor agreements to be a tier one distributor, based on the different vendor requirements. TD SYNNEX relies upon a network of independent dealers, resellers and solutions providers to provide onsite sales and support to end user agencies. Resellers authorized to sell under this contract will be required to sign a Dealer Agreement acknowledging the Terms and Conditions of the contract in order to participate. In order to best serve Sourcewell's participating entities, TD SYNNEX proposes including the entire TD SYNNEX line card of over 2,500 IT manufacturers and Authorized Service Providers as a Value-Add to the contract. This would provide entities full service solutions while providing a unique "Best Value" option for participating entities. A copy of the complete TD SYNNEX line card has been included in our response.	*

17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	TD SYNNEX is an Authorized Distributor of Cradlepoint product and services for the United States and Canada. In September 2020, Ericsson purchased Cradlepoint and Cradlepoint is now the channel go-to-market path for Ericsson's EP5G. All Resellers approved as Cradlepoint Authorized Resellers under this contract are required to hold all appropriate certifications and specifications. Specific certifications and specializations for Private Networking include but are not limited to CBRS certified Professional Installer (as required by the FCC), NetCloud Private Networks Sales Professional Certification, and NetCloud Private Networks Solution Engineer Specialist. Cradlepoint's Partner Program's quality management process includes performing due diligence on all new VARs with material changes to their contract with Cradlepoint. Due diligence includes screenings against watchlists, adverse media, and government affiliations. Their partners are rescreened on a cadence determined by the business and contract performance to capture any changes in their business structure and/or affiliations. The TD SYNNEX Sourcewell Contract Manager will conduct ongoing audits to verify compliance with the Terms and Conditions of the contract and will perform contract performance reviews to ensure we have authorized the best servicing partners for Sourcewell's participating entities' needs. By ensuring that tiered expectations are met, and that training and certifications are completed, we are assured of the quality of Cradlepoint's Partners performance throughout the contract term. Certification & Accreditation Accreditation is recognition and validation for Partners who have demonstrated superior levels of business, sales, and technical expertise that addresses customer solution needs in areas of operation, administration, design, implementation, and troubleshooting. Ericsson holds the following certifications and licenses: • ISO 9001: 2015 – Quality Management System • ISO 14001:2015 – Environmental Management System Standard • ISO/IEC 27001:2013 – Information Security Management System • ISO 45001:2018 – Occupational Health and Safety Management System • US Federal Communications Commission (FCC) Citizen Broadband Radio Service (CBRS) certification for CBRS portfolio Cradlepoint holds two cellular industry certifications: PTCRB for North America and GCF-CC for the rest of the world. These certifications ensure that Cradlepoint endpoints are safe to operate on a carrier/operator network and allows Cradlepoint product to work globally. Cradlepoint Product Manufacturers are ISO9001 Certified. Additionally, Cradlepoint's processes are aligned to the ISO9001 standard. A Cradlepoint Letter of Authorization as an Authorized Distributor has been made available as an uploaded document (See file TD SYNNEX Response – Additional Document.pdf page 3). TD SYNNEX is ISO 9001:2015 certified. ISO Certificate has also been made available as an updated document (See file TD SYNNEX Response – Additional Document.pdf page 4).	*
18	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	TD SYNNEX has not had any suspensions or debarment proceedings in the past 10 years.	*

Ericsson Awards
Ericson received recognition as the Gulf Region 5G Innovator of the Year at the ITP.net Technology leadership Awards 2022. The award endorsed Ericsson's position as the 5G market leader, forerunner in mobile connectivity solutions for telecommunications and industries, as its role in driving digitalization across various continents.

Ericsson was named a Leader in the 2023 Gartner Magic Quadrant for 5G Network Infrastructure for Communications Service Providers.

Ericsson's USA 5G Smart Factory in Lewisville, Texas, has been recognized by the World Economic Forum as a global front runner in the Fourth Industrial Revolution (4IR). The Forum has awarded the site with its prestigious "*Global Lighthouse" designation in recognition of Ericsson's deployment of next-generation technology at the site and its subsequent impact – including an impressive 2.2 times improved output per employee when compared to a similar site without the automation and 4IR improvements.

In 2023, Ericsson won the coveted 5G Innovator of the Year at the edge Technology Leadership Awards for the second year in a row.

Ericsson was recognized as the 2023 Google Cloud Industry Solution Technology Partner of the Year Award for innovating its market-leading 5G portfolio on Google Cloud technology.

Ericsson received recognition as the leading private networking provider from analyst firm Kaleido Intelligence in its Connectivity Vendor Hub: Private Networks 2022 research report. Assessed amongst 38 leading private LTE/5G vendors, Ericsson ranked as the number one private networks solution provider, heralded for its support of 4G and 5G technology across all deployments, and its powerful

		combination of pre-integrated hardware and software.[JM1] [RF2] [RF3] Ericson received recognition as the Gulf Region 5G Innovator of the Year at the ITP.net Technology leadership Awards 2022. The award endorsed Ericsson's position as the 5G market leader, forerunner in mobile connectivity solutions for telecommunications and industries, as its role in driving digitalization across various continents. Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *
26	Sales force.	At TD SYNNEX, we bring a wealth of experience and a proven track record in owning and managing Public Sector contracts. We owe our success to our strategic approach to sales and demand generation, tailored to maximize the reach of these contracts. We have over 800 sales representatives located throughout the US and Canada who work directly with our reseller partners to ensure timely quoting, sales, and delivery to Sourcewell participating entities. TD SYNNEX has a dedicated team who are responsible for the overall management of our state contracts. Responsibilities include the coordination of marketing efforts; reseller recruitment and development, quoting, sales, technical support, customer service, post-sales support, reporting and compliance. TD SYNNEX Public Sector Contracts Team Organization for Sourcewell Executive Team • Eddie Franklin, Senior Vice President of Sales, Public Sector eddie.franklin@tdsynnex.com • Ed Somers, Vice President, Public Sector Programs ed.somers@tdsynnex.com • Randy Finley, Senior Director of Public Sector Business Development randy.finley@tdsynnex.com Management Team • Jerry Hertel, Director of Public Sector Client Executives jerry.hertel@tdsynnex.com • Mike Gambrell, Director of State and Local Government Vertical Alliance mike.gambrell@tdsynnex.com • Steve Wells, Vice President of Program Management steve.wells@tdsynnex.com Business Development Team • Jamie Grimm, Senior Manager or Contracts Business Development jamie.grimm@tdsynnex.com • Greg Villamarin, Bid Desk Supervisor greg.vilamarin@tdsynnex.com • Nick Coperine, Senior Contracts Business Development,Southeastern US nicholas.coperine@tdsynnex.com • Travis Matthews, Contracts Business Development, Central US travis.matthews@tdsynnex.com • Lisa McElroy, Contracts Business Development, Northeast US lisa.mcelroy@tdsynnex.com • Caroline Trembly, Contracts Business Development, West US caroline.trembly@tdsynnex.com Each member of the TD SYNNEX Public Sector Contracts Team is involved in the ongoing success of the Sourcewell contract through reseller recruitment, solution development, and contract compliance. TD SYNNEX will utilize a network of reseller partners who will interface with Sourcewell's participating entities, providing onsite assessments/consultation, product information, technical support, customer service support and post-sales support as authorized Order Fulfillers under the TD SYNNEX Sourcewell contract. These resellers will be required to maintain the appropriate vendor authorizations and sign agreements with TD SYNNEX agreeing to follow the terms and conditions of our Sourcewell contract. Resellers will be reviewed on a regular basis to ensure we have the appropriate resources to support this contract. These resellers are our "feet on the street" and act as our local presence with Sourcewell participating entities. The TD SYNNEX Public Sector Program Team works closely with the resellers to ensure they have the tools to meet the needs of Sourcewell participating entities. Map of resellers provided. See file TD SYNNEX Response – Additional Document.pdf page 5. This network of resellers has access to a number of support services through TD SYNNEX, including marketing, technical, sales, post-sales and contractual support from the TD SYNNEX Public Sector Program Team. With 15 distribution and 5 office facilities nationwide, TD SYNNEX gets the right products to market, right-on-time. Our distribution processes are highly automated to reduce errors, ensure timely order fulfillment, and enhance the efficiency of our warehouse operations and back office administration. TD SYNNEX Office Facilities: • Fremont, CA (44201 Nobel Drive, Fremont, CA 94538)

		• Clearwater, FL (16202 Bay Vista Drive, Clearwater, FL 33760) • Greenville, SC (39 Pelham Ridge Drive, Greenville, SC 29615) • Herndon, VA (DLT Solutions, 2411 Dulles Courner Park #800, Herndon, VA 20171) • Tempe, AZ (8700 South Price Road, Tempe, AZ 85284) TD SYNNEX Distribution Centers: • Chino, California • Fontana, California • Tracy, California • Miami, Florida • Suwanee, Georgia • Romeoville, Illinois • South Bend, Indiana • Southaven, Mississippi • South Brunswick, New Jersey • Swedesbouro, New Jersey • Columbus, Ohio • Groveport, Ohio • Fort Worth, Texas • Garland, Texas • Chantilly, Virginia	
27	Dealer network or other distribution methods.	In aligning with the objectives of the Sourcewell Contract, TD SYNNEX leverages an extensive network of reseller partners. These partners are instrumental in providing comprehensive support to Sourcewell's participating entities, including onsite assessments, product consultations, technical support, customer service, and post-sales support. As authorized Order Fulfillers under the Sourcewell Contract, our reseller partners are carefully vetted to ensure compliance with vendor authorizations and the contractual terms set forth by TD SYNNEX. We conduct regular evaluations of our reseller network to ensure alignment with our standards and the evolving needs of Sourcewell participating entities. Our resellers, serving as the local representatives of TD SYNNEX, play a pivotal role in the relationship with participating entities. We ensure that our resellers are equipped with the necessary tools and resources, supported by our Public Sector Program Team, including marketing, technical, sales, and post-sales assistance. TD SYNNEX' national distribution infrastructure includes 15 distribution warehouses and 5 office facilities. This network ensures the efficient, timely distribution of products, and is supported by advanced automation and stringent quality controls. Our logistical expertise, combined with our commitment to technological innovation and operational excellence, positions TD SYNNEX as the leader in distribution and logistics support for Sourcewell participating entities. TD SYNNEX' commitment to excellence, innovation, and partner support is central to our proposal, reflecting our dedication to meeting the needs of Sourcewell's participating entities and contributing to the success of the contract. Supply Chain Capabilities TD SYNNEX provides logistics support such as outsourced fulfillment, virtual distribution, consignment, and direct ship to end-users to our reseller customers. Other logistics support activities include generation of customized shipping documents, multi-level serial number tracking for customized, configured products, and online order and shipment tracking. • Drop shipments • Same-day shipping o AIT Worldwide o Dynamex • Delivery Services – Parcel, LTL, TL, FTL, Air o FedEx o United Parcel Service (UPS) • 24x7 emergency services • Cross-Dock & Consolidation • Import/Export Management TD SYNNEX offers logistical support capabilities and processes to handle local, regional, and multi-national rollouts. Logistical systems are designed to augment and complement our partners current capabilities, extend their geographical reach, provide technical support, and offer the ability to expand market reach and opportunities with little capital investment by leveraging TD SYNNEX as a business partner. TD SYNNEX' proprietary IT systems and processes enable distribution operations to be automated. For example, TD SYNNEX uses RFID and bar code scanning technologies in all warehouse operations to maintain real-time inventory records and facilitate cycle counts every 2 weeks to improve the accuracy of order fulfillment. In addition, TD SYNNEX uses palm readers to capture real-time labor cost data, enabling efficient management of our daily labor costs. To increase the accuracy of our order fulfillment and protect our inventory from shrinkage, our systems also incorporate numerous controls. These controls include order weight checks, bar code scanning, and serial number profile verification to verify that the product shipped matches the customer order. We also use digital	*

		video imaging to record our small package shipping activities by order. These images and other warehouse and shipping data are available online to our customer service representatives, enabling us to quickly respond to order inquiries by our customers. TD SYNNEX' regional locations enable local deliveries and provide will-call fulfillment to more customers. Our workforce is comprised of permanent and temporary employees to respond to short -term changes in order activity. Distribution Capabilities With 15 distribution centers nationwide. TD SYNNEX is well positioned to provide world class distribution and logistics support to Sourcewell participating entities. In addition, we have two ISO-9001:2015 certified full-service integration facilities located in Southaven, MS and Fremont, CA. United States Logistical Centers: Chino, Califorina Fontana, Califorina Tracy, California Miami, Florida Suwanee, Georgia Romeoville, Illinois South Bend, Indiana Southaven, Mississippi South Brunswick, New Jersey Swedesbouro, New Jersey Columbus, Ohio Groveport, Ohio Fort Worth, Texas Garland, Texas Chantilly, Virginia United States Headquarters: Fremont, California Clearwater, Florida Greenville, South Carolina	
28	Service force.	TD SYNNEX SERVICESolv In the fast-paced environment of technology services, there are many touchpoints to make technology ready- to-use for its users. Together with reseller partners, TD SYNNEX SERVICESolv can make that happen quickly, cost-effectively with technology engineered for the future. TD SYNNEX SERVICESolv's value-added, white- labeled services can support and supplement partners' current service offerings, skillsets, and geographic reach to expand their business opportunities. Technology services have a full U.S. geographic coverage in all zip codes plus 140 countries overseas with more than 800 technical resources with expertise from the desktop to the datacenter, on-premises and in the cloud. You can learn more about ServiceSolv by reviewing the ServiceSolv Line Card (See file TD SYNNEX Response – Additional Document.pdf page 6) and the Network Services.pdf (See file TD SYNNEX Response – Additional Document.pdf page 8) or by going to https://www.synnexcorp.com/us/servicesolv/ TD SYNNEX SERVICESolv Delivered TD SYNNEX SERVICESolv Delivered provides both on and off-premise services for end-users on behalf of its reseller customer including: • In-Field Services o Installations: On-site Installations (wireless, signage, cabling, Pro AV, physical security, client devices, fleet services, audio-visual systems, telephony, data center, rack & stack & configuration) o Help Desk, 1-800 support o Monitoring (NOC) o Training and Certifications, Smart Hands, Warranties, Staffing, Data Destruction/Asset buyback, and Software Services o Support Services (NOC, SOC, SIEM) GoldSeal® Support Services • Lifecycle Management • Help Desk • Asset Disposal with Data Destruction • De-staging, repair, recycling to disposal • TD SYNNEX RENEWSolv, proprietary renewal platform • Software Services • IT Maintenance • International Shipping (Importer/Exporter of Record as a Service)	*

29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Sourcewell participating entities will work directly with TD SYNNEX Authorized Resellers for all quotes, order fulfillment, and invoices. Resellers will work directly with their TD SYNNEX sales representatives and all order fulfillment will be through TD SYNNEX to ensure compliance, Sourcewell participating entity satisfaction, and accurate reporting. All Authorized Reseller participation will be in accordance with the Terms and Conditions set forth in the Sourcewell Master Agreement. Any order placed by a Participating Entity or Purchasing Entity for a product and/or service available from this Master Agreement shall be deemed to be a sale under (and governed by the prices and other terms and conditions) of the Master Agreement unless the parties to the order agree in writing that another contract or agreement applies to such order. Sales Quoting/Orders Sourcewell participation entities can obtain contract quotes and place orders on this contract in one of four ways: 1. Authorized Participating Reseller (Order Fulfiller) 2. E-mail: sourcewell@tdsynnex.com 3. Toll Free: 1-877-230-5680 4. www.tdsynnex.com/na/us/td-synnex-public-sector/ A dedicated Sourcewell contract webpage will contain the Terms and Conditions of the contract, pricing/discounts; authorized resellers and contact information.	*
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	TD SYNNEX' Authorized Reseller Partners assume the first level of support, serving as the primary contact, and offer resolution for common challenges like network connectivity, firmware updates, and basic hardware/software troubleshooting. Onsite technical support will be provided by the Authorized Reseller Partners. TD SYNNEX' Customer Care after-sale support team recognizes the importance of providing timely, responsive services to Return Merchandise Authorizations (RMAs) and RMA discrepancies, order inquiries, including outbound shipments, and claim processing. We continuously strive to provide world-class customer support, and address all of our customer requests as opportunities to improve and raise the quality of our services because repeat business depends on your satisfaction. Customer Service is available Monday through Friday (8:00 AM to 6:00 PM Eastern Time). Customer Service Contact Information: Phone: (800) 756-1888 Fax Number: (501) 360-6801 Email: CShelp@tdsynnex.com Our distribution processes are highly automated to reduce errors and ensure timely order fulfillment. We track several performance measurements to continuously improve the efficiency and accuracy of our distribution operations. Cradlepoint Support: Sourcewell Participating Entities can also reach out to Cradlepoint Support directly. Cradlepoint offers multiple sources of support. Their online knowledge base provides access to product documentation, customer forums, information for developers, NetCloud firmware updates, and access to Cradlepoint University (CPU) – fully accessed via NetCloud Manager. CPU houses courses for quick learning, full curriculums, and certifications. Cradlepoint's community forums provide access to experts and peers and are a space where questions are collaboratively answered by support engineers, product managers, partners and peers. Cradlepoint Support is one of the most valuable tools within a NetCloud subscription and is staffed by accredited network engineers who enthusiastically assist users 24x7, including all holidays. The support team can be reached via live chat or toll-free calling. Cradlepoint's Center of Excellence support locations "follow the sun" and are located in in Boise, Idaho, USA (corporate headquarters); Melbourne Australia; and Surrey, England, UK. All Cradlepoint support personnel, regardless of location, are bound by a common Code of Business Ethics (COBE). The Global Service & Support teams currently support several recognizable local, state, and federal government customers to include military organizations with stringent security requirements. Contacts are initially handled by the Technical Support Services (TSS) team, fully staffed by Cradlepoint employees, to identify the problem. At this point a ticket is opened in the ticketing system and the TSS team will begin the troubleshooting process such as power cycling and unit and ensuring devices are installed correctly. Cradlepoint Technical Support and Customer Service technicians work together, and	

Customer Service technicians are required to escalate to Technical Support Engineers when technical issues are identified. The unified, global service and support process provides participating entities with a team focused on resolving their issues.

The Cradlepoint model does not include the traditional tiers or standard escalation hand-off process - Cradlepoint leverages a Swarm Support methodology, designed to enhance collaboration, speed up problem resolution, and improve the overall quality of support. It's a model that not only addresses technical difficulties but also provides a sense of security and reliability to our customers. Their robust support system uses a multi-tiered structure for technical support, ensuring that each Participating Entity's query is handled by the most appropriate level of expertise.

Instead of passing an issue off to different teams, the Cradlepoint swarm model brings together a diverse group of experts from the outset. These individuals collaboratively work on the problem, bringing their unique skills and perspectives to the table. This skills-based, continuous ownership model ensures a single owner and point of contact for each technical support ticket rather than shifting responsibility between tiers and escalations. This approach:

- Eliminates handoff from one engineer or tier to another,
- Allows for accurate classification of issue at reception,
- Quickly engages technical expertise as needed and in real time, and
- Allows for Support Engineers to understand not only the problem but also learn its resolution – reducing future touch times.

Every service ticket is logged and updated until the ticket is resolved. Each ticket contains a subject which provides an overview of the issue, and a detailed description of the problem statement, in additional recommended solutions provided to the customer are documented in the service ticket notes. All tickets and records are kept in our case management system. As each service ticket is closed a resolution is noted within the ticket. All customer service and support tickets are available for customer access via the secure Customer Portal located at: https://customer.cradlepoint.com/s/contactsupport.

If the TSS team is unable to resolve the issue or the call requires further investigation such as screen sharing, the call is then passed to the Enterprise Support Engineer (ESE) team. The ESE Team solves the majority of issues such as misconfiguration, faulty hardware, or further identifying where the problem lies.
If the ESE team is unable to resolve the issue, they can reach out to the Support Resource Engineer (SRE) team. The SRE team mentors and coaches the ESE team while the ESE point of contact will continue to be the face to the Authorized User.

If both the ESE and SRE team believe this issue is beyond their capabilities or outside of their scope, the issue can be further escalated to the Product Development (PD) team for their analysis. This is typically done when all troubleshooting avenues are exhausted and requires an extensive list of steps to be performed and logos provided to ensure that troubleshooting has already been performed.

Currently, 91% of non-escalated support tickets are resolved during the first contact. The mean time to resolve tickets is 3.5 days. On average, less than 1.4% of all support tickets require escalation with over 98.6% of support tickets handled directly by the TSS team.
- This enterprise level support, training, limited lifetime warranty, ongoing software and firmware updates – available through NCM – are all included under a continuous, fully paid-up subscription license to NetCloud Manager services.

EP5G-Specific Support:

Ericsson offers three customer service levels: Bronze, Silver, and Gold.

Bronze: Offers 24/7 access to a self-service portal and weekday email support from Ericsson.

Silver: Includes everything in Bronze plus weekday email and phone support from Ericsson, along with emergency phone support. Software issues are addressed with specific remedy times based on priority level, with the fastest response for the most critical issues.

Gold: Builds upon Silver by providing 24/7 email and phone support from Ericsson, including for emergencies. The service level objectives for addressing software issues remain the same as in Silver, ensuring prompt response regardless of the time.

Remedy and response times are based on the priority level of issues.
Priority 1 (Urgent): Priority 1 issues are urgent and have a significant impact on the

end user business operations and use of services due to connectivity problems. The issue ends operations without a procedural workaround.

Priority 1 issues include, but are not limited to the following:
- Network services are down or unavailable.
- Critical functionality is unavailable.

The following priority 1 issues are site-specific:
- Data connectivity is lost, no provisioned devices are communicating.
- All radios are down, because of on-site power failure or cell down.
- Both network controllers are down.
- Baseband is down, meaning traffic impact is greater than 30%.
- The IRU is down, meaning traffic impact is greater than 30%.
- Power supply is down, meaning traffic impact is greater than 30%.
- The upgrade procedure failed.
- There is a continuous switchover between network controllers.

The following priority 1 issues are region-specific:
- Google Cloud Platform (GCP) is down, affecting all backend services including monitoring.
- The support system is down.
- The notification system is down.
- The NMP is not reachable for several end customers in the same region, because of Domain Name System (DNS) issues.
- Several sites show equipment down at the same time, because of DNS issues.

Priority 2 (High): Priority 2 issues are high priority issues in which significant performance degradation is experienced, or major functionality is affected. Because of connectivity problems, end user business operations are severely limited, and no reasonable workaround exists.

Priority 2 issues include, but are not limited to the following:
- Key features of the Management as a Service delivery are unavailable with no acceptable workaround. Operations can continue in a restricted manner.
- Service is operational but degraded to the point of major impact on end customer connectivity usage.

The following priority 2 issues are site-specific:
- The Network Management Portal is not accessible for a single site, but Core Site Services are functioning properly.
- The end user is not able to add, remove or modify devices in the Network Management Portal but existing configured devices are functioning properly.
- Devices continuously disconnect.
- The VPN tunnel is down.
- Watchdog data is not shown in the Network Management Portal.
- One or more radios are down.
- The Watchdog application has upgrade problems.
- One network controller is down, and the other network controller is functioning properly with no impact on network services.

The following priority 2 issue is region-specific:

Security patches cannot be deployed

Priority 3 (Normal): Ericsson Private 5G is functioning and providing connectivity, but the enterprise is minimally impacted due to a non-critical error condition. Business operations continue to function, and a workaround is available to mitigate impacts of the issue. Issues that impact operation and maintenance functionality are also priority 3, such as problems with adding or deleting users or onboarding new devices.

For Priority 1 issues, the response time is 15 minutes, with a remedy time of 4 hours and a resolution time of 10 days. Updates are provided hourly.

Priority 2 issues also have a 15-minute response time, but the remedy time extends to 8 hours and the resolution to 20 days, with updates every 4 hours.
Priority 3 and Priority 4 issues have a 30-minute response time, with remedy and resolution times being based on commercially reasonable efforts and weekly updates until a solution is identified.

If Ericsson support team identifies a Priority 1 incident affecting an end customer of Customer before Customer or Tier 1 support issue acknowledgment, Ericsson shall notify Customer within 15 minutes of becoming aware of the incident.

The notice shall include the following:
- Description of the outage
- Date and time of the outage
- Geographic location

- Percentage of Customers affected, if known
- Customer affected
- Estimated time to repair, if known
- Ericsson case number
- Outage bridge phone number and pin, if applicable
- Time of next update

TD SYNNEX' network of reseller partners provides onsite technical, sales and customer service support to eligible Sourcewell participating entities.

Standard Product Return Guidelines

- The credit for returns is based on the lesser of purchase price or current price at the time the Return Material Authorization ("RMA") is physically received in by the TD SYNNEX RMA Returns Center. The only exceptions are for returns due to TD SYNNEX errors or freight damages and losses which receive the original invoice price. These credits are again applied upon receipt of product in the TD SYNNEX RMA Returns Center.
- Customers must have a valid RMA number (assigned by Customer Service) before returning any products and the RMA number must be written on the return shipping label only.
- The customer is responsible for filing all claims with the carrier they use to return RMA's to TD SYNNEX. It is recommended that the customer insure (for full value) the product being returned to TD SYNNEX in order to avoid any potential exposure if product is lost or damaged while in transit back to TD SYNNEX. All products that are damaged while in transit to TD SYNNEX from the customer against an approved RMA number will be refused/rejected back to the customer.
- Products must be shipped prepaid. TD SYNNEX does not cover return shipping expenses unless return is due to a TD SYNNEX error such as over shipment, mis-shipment, or sales error.
- Call tags will be issued on returns where TD SYNNEX has authorized freight.
- For standard TD SYNNEX RMA's, the customer has 15 days from the date issued to return the product to TD SYNNEX.
- For short-ship, mis-ship and over ship due to TD SYNNEX warehouse error, customer has 15 days from ship date.
- If a customer refuses a shipment from a TD SYNNEX warehouse, credit will be issued at the time the refused product is received back at the TD SYNNEX shipping warehouse. Refused shipments by a customer must be reported to TD SYNNEX within 5 days. These shipments can be assessed a shipping fee and/or a processing fee.
- The customer must notify TD SYNNEX when a drop-ship shipment has been refused. Credit will be issued once the shipment has been verified as received back to the One Source vendor.
- Returns that require TD SYNNEX product management approval before an RMA is issued may take up to 48 hours for processing/approval.
- Special orders for customers are not returnable.
- Restock fees of 10% or greater may be applied to stock balance or open box (non-defective) returns. If a restock fee applies to a return request, the TD SYNNEX Customer Service Representative will notify the customer of the restock fee at the time RMA is requested.

RMA Return Types/Product Return Guidelines

DOA/Defective Credit
- Product must be returned in the original packaging.
- Please ensure that all original components are shipped with the defective item (includes manuals, software, cables, etc.).
- Please remove all add-ins (not originally sold with the product), as these items will not be returned to you (i.e., memory, sound cards, modems, etc.).

Please follow the return shipping instruction provided with your RMA.

Advance Swap
- SYNNEX cross-ships a replacement product to you before it receives the product you are returning.
- Advance Swaps are subject to SYNNEX credit department approval.
- Replacement shipment will be billed when shipped and credit issued once the return is received for credit.
- Please follow the return shipping instruction provided with your RMA.

Damaged Shipments
- Shipment should be refused and SYNNEX Customer Service contacted within 48 hours of the refusal.
- All damages must be reported within 48 hours of receipt of product for all courier shipments.
- Shipment damages must be refused or damage noted on the POD for credit.
- Please follow the return shipping instruction provided with your RMA.

Kit Returns

- For all kits, parts, and assemblies, all components must be returned complete to be eligible for credit.
- Please follow the return-shipping instruction provided with your RMA.

Stock Balance

- Product must be in its original manufacturer box and factory sealed.
- Product must be in resalable condition.
- Products must be shipped pre-paid for credit.
- Please follow the return-shipping instruction provided with your RMA.

TD SYNNEX Errors

- Ensure that the product is in the original manufacturer's box and that all components are present, unless otherwise authorized.
- Please follow the return-shipping instruction provided with your RMA.

Manufacturer Exception Returns

- TD SYNNEX will make exceptions for returns that are out of policy, provided that the manufacturer has authorized return of the product.
- Once the customer has an authorized case number or manufacturer RMA number from the manufacturer, the customer then contacts TD SYNNEX Customer Service for an RMA. Customer
- Service will then issue an RMA and the customer will receive credit in the amount we receive from the manufacturer for credit.
- Please follow the return-shipping instruction provided with your RMA.

Return Refusal and Discrepancy Policy

TD SYNNEX reserves the right to return to a customer, at the customer's expense, any customer return that differs from the information given on the original Return Material Authorization (RMA) request, such as:

- Shipments without an RMA number may be refused and/or returned at the customer's expense.
- RMA number not visible and not on the box shipping label.
- Product returned differs from that requested and authorized.
- Unauthorized return (no RMA number was issued).
- Serial number of product(s) returned were not purchased from TD SYNNEX.
- Box or product damage.
- Invalid RMA number.
- RMA condition code given by customer differs from actual product condition.
- Expired RMA number.
- Incorrect product or quantity overage.
- Felt-pen markings on the box.
- Special orders for customers are not returnable.
- Open box/double-taped.

31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	TD SYNNEX has significant experience owning and managing Public Sector contracts. TD SYNNEX has over ninety active public sector contracts, all in good standing. Our company has always upheld our contractual obligations, never experiencing a default. Furthermore, we have maintained a strong performance record, never having a contract terminated for cause. We currently offer Cradlepoint and Ericsson private network solutions on nine public sector contracts. TD SYNNEX distributes technology products from more than 2,500 world-leading IT OEM suppliers to more than 25,000 resellers throughout the US, Canada, and Mexico. Our focused product categories include IT systems, rugged mobility, peripherals, system components, software, and networking. TD SYNNEX Public Sector is a specialized, fully integrated business unit that focuses on bridging the gap between technology partners and U.S. public sector organizations so they can achieve their individual missions. This is accomplished through specialized and scalable aggregator solutions, including channel enablement, engineering services and support, industry-centric marketing, the Diversity Alliance Program, and our Cloud Navigator, Enterprise Agreement Platform, Confirmed Stateside Support and Secure Software Factory offerings. National Presence, Nationwide Distribution Capabilities TD SYNNEX' distribution model focuses on top-tier manufacturers, offering value-added resellers, system integrators, and solution providers access through knowledge-based sales consultants. We have over 1 million square feet of warehouse space across 15 distribution centers, located strategically throughout the United States. TD SYNNEX offers: • Proven distribution, logistics and product management processes • Excellent past performance in the Public Sector market • A national presence and nationwide distribution network • ISO 9001-certifed supply chain that increases efficiencies and reduces costs • Supply Chain Risk Management (SCRM) Plan • Customs-Trade Partnership Against Terrorism (C-TPAT) Certified • Membership in Transported Asset Protection Association (TAPA) • Experienced government contractor with both Federal and State contracts • A nationwide network of value-added resellers and solution providers with one or more SBA certified small business socio-economic statuses.	*
32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	TD SYNNEX services more than 150,000 customers in 100+ countries, including Canada, to maximize the value of technology investments, demonstrate business outcomes and unlock growth opportunities. TD SYNNEX Canada has sales offices in: Calgary, AB Guelph, ON Halifax, NS Montreal, QB Mississauga, ON Richmond, BC Winnipeg, MB TD SYNNEX Canada has logistic centers in: Calgary, AB Guelph, ON Halifax, NS Mississauga, ON Richmond, BC	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	N/A. We support all 50 states.	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	We support all public sector entities, but some vendor restrictions may apply, for example Apple products for K-12 education end users.	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	All freight and shipping cost would need to be charged.	*

Table 7: Marketing Plan

Line Item	Question	Response *	
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Ultimately, our main role as the Contract owner is to provide our authorized resellers with all of the tools necessary to assist the Sourcewell Participating Entities with their needs under this contract. We have a significant amount of experience owning/managing Public Sector contracts which require a significant amount of investment in sales and demand generation to make them successful. Our marketing plan includes a number of facets addressing both resellers and Sourcewell Participating Entities. Marketing activities include: • Press releases • Identifying resellers to authorize to promote & sell off of this contract • Reseller recruitment and training • Multiple training webinars for both internal and external sales teams • Dedicated Sourcewell web page • Development of marketing materials • Attending industry events and tabletop shows • Ongoing reseller recruitment efforts and internal sales training • End-user demand generation team to drive awareness with end-users on behalf of our resellers • Webinars • Customized events that help to create awareness for the contract • Specific plan developed & collaborated with our partners • Social Media collaboration Contract Management Summary with Marketing and Sales Strategy Post-Award • Create Terms and Conditions summary; develop pricing calculator • Communicate contract requirements internally and with each manufacturer line • Determine rules of engagement, assign responsibility roles Recruitment • Identify Resellers: Vendor lists, TD SYNNEX Point of Sale reports, Sales Managers and Outside Sales Reps • Training: onsite, online, webinars • Establish eligibility requirements • Sign participation agreement ensuring contract compliance Contract Management • Monthly contract review by TD SYNNEX contracts team - the good, the bad and the ugly • Monthly status calls with each participating reseller • Quarterly cadence calls with the contractor community • Ongoing calls with participating manufacturers to update/revise strategy. Initial Kick-Off Phase • Upon award, communicate to vendor and internal Product Management/Business Development teams • Develop contract terms and conditions statement, pricing calculator, and published contract price file. • Review administrative requirements • Set e-mail aliases (Sourcewell@tdsynnex.com) • Develop Sourcewell dedicated contract webpage with required contract details, pricing calculator, and additional relevant contract information for ease of navigation • Determine manufacturer's strategy and reseller engagement • Establish reseller qualifiers, sales minimums, agreement • Review contract requirements with authorized resellers • Review required business plan/marketing plan from authorized resellers • Conduct training via webinars of resellers, sales reps, Business Development Reps, Product Managers and manufacturers. • Where applicable, conduct joint road shows to promote/train • Publish TD SYNNEX Corporation press release • Provide marketing collateral for resellers Ongoing Management • Training/webinars - initial and ongoing • Product Refresh - marketing and communication • Business Development - slip/gain report for both reseller and manufacturer • Business Development - monthly sales report to Manufacturer with email updates • Quarterly Business Review for reseller (or as needed) • Quarterly Business Review for manufacturers (or as needed) • Identification of potential seasonal pricing (hot list) for Sourcewell eligible agencies • Quarterly Business Review webinar for reseller community • Periodic events to include Sourcewell contract dedicated marketing and training sessions at our TD SYNNEX Public Sector SLED events (see	*

		https://www.synnexcorp.com/us/govsolv/events/ for examples of upcoming events) • Maintenance of authorized reseller database with contact information • Contract reporting and administrative fee payment to Sourcewell • Pricing updates as well as new product identification and submission TD SYNNEX has identified our training processes in the preceding sections for both inside/outside sales teams, our business development teams and authorized resellers/solution providers. Essentially, it will entail training, marketing collateral, PowerPoint presentations and onsite visits to conduct Q&A. Training is an ongoing process scheduled throughout the year via webinars, onsite training and industry events. Resellers will be given access to the TD SYNNEX contract website, marketing collateral, and instruction on the processes of obtaining quote/orders and contract pricing. All aspects of the contract, from end-user marketing to customer service to tech support, must be fully explained and expectations identified. A bid-desk, dedicated to providing quote assistance to TD SYNNEX Sourcewell authorized resellers, will be employed to assist our partners to ensure that Sourcewell participating entities receive timely, accurate, and contract complaint quotes. Demand Generation – Although we don't sell direct to end-users, we do have a team that provides end-user demand generation through call out campaigns, print/mailers, e-mail, website contract landing page and an electronic storefront offering. Our strategy includes: • Targeted call-out campaigns to identify and engage potential leads. • Distribution of print and mailers, aimed at broadening our reach. • Email marketing campaigns, designed to inform and attract potential clients. • The maintenance of a dedicated website contract landing page, serving as a central hub for contract information and inquiries. • Management of an electronic storefront, offering streamlined access to our products and services. This multifaceted approach ensures that we are not merely reactive but proactive in driving the success of our contracts. Through these initiatives, TD SYNNEX is committed to delivering value and exceeding the expectations of our clients and partners.	
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	TD SYNNEX' presence and participation in social media/interactive technology is currently designed to: • Educate, engage, notify and entertain interested audiences • Deliver conversation not conversion, interaction not transaction • Increase audience participation at events through custom mobile apps and social engagement • Provide additional communication platform for resellers, vendors, media, and associates for conversations that are already happening • Protect and elevate the TD SYNNEX corporate brand with associated vendor brands in the social environment • Offer timely responses to questions, suggestions, and requests • Maintain an overall positive social sentiment	*
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	TD SYNNEX does not sell direct to end-users; however, we do have a team that provides end-user demand generation through call out campaigns, print/mailers, e-mail, website contract landing page and an electronic storefront offering. Support from the Sourcewell team is part of our strategy. We will leverage Sourcewell as a resource to help with webinar trainings and other one to one training, when necessary. We will also rely on Sourcewell's expertise when our reseller partners need additional support with end user customers that are not familiar with the Sourcewell contract and are not clear if it would be an approved procurement option. We will rely on Sourcewell to ensure we have all the updated training information and marketing collateral that can be co-branded. On a case-by-case basis, Sourcewell will also be invited to participate in TD SYNNEX Public Sector live events. All the information we receive from Sourcewell will be used to develop our training and marketing collateral.	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	TD SYNNEX utilizes a proprietary enterprise resource planning (ERP) system called CIS. CIS has been built from the ground up to specifically support all aspects of distribution business needs. With CIS as the back bone of the TD SYNNEX system, TD SYNNEX is able to offer eBusiness solutions. We feature a complete suite of solutions that partners can pick from that best best-fits their business needs. Whether partners are new to eCommerce or already have extensive capabilities, we have options to help your business run leaner and faster. TD SYNNEX offers the following: TD SYNNEX eStorefronts eStorefronts is an online ordering system based on ECExpress, built and hosted by TD SYNNEX. eStorefronts allow resellers to create their own end-customer catalog, or offer all TD SYNNEX Skus to their end-customers, while controlling pricing at a customer or product level. eStorefronts include built-in order management controls, real-time pricing and	

availability, personalized branding, order notifications and more, all for one inclusive monthly fee.

In addition, TD SYNNEX offers also offers other B2B e-commerce solutions that include:

TD SYNNEX ECExpress

TD SYNNEX' ECExpress is a real-time back-office management and e-commerce platform that streamlines orders, quotes, and invoices. While securely navigating across all TD SYNNEX sites and tools without logging in again, the ECExpress platform enables you to see product alerts and available inventory, save frequent product searches, and subscribe to reports that include:

- XpressTrak Alerts
- Price and Availability Download (Reseller partners only)
- Bid Portal (Reseller partners only)
- Reports
- Custom Product Search
- Recent Orders

TD SYNNEX' Footprint in Mobile Apps

TD SYNNEX B2B services offer reseller partners Application Development Services to help balance costs, boost service levels and improve productivity through vigorous management of flexible, high-performance, business-critical applications. Leveraging the best-of-technologies and practices, we ensure that your business applications are developed, maintained and managed within optimal costs and acceptable timeframes to provide you secure and undisruptive business environments. We approach Application Development in a mature and proactive way. We believe that Application outsourcing can reap benefits only if risks are minimized, while being balanced by off shoring incentives like reducing costs, unfailing performance ratios and consistent quality levels. Our development model is a recipe of conventional and current business practices. We complement conventional practices with agility to provide faster, more enhanced solutions to clients. We deliver applications within shorter timeframes and agreed-upon deadlines, all without cutting corners or compromising quality. *

B2B & eCommerce

TD SYNNEX believes the sole purpose of Information Technology(IT) is to support our businesses. We understand that our customers have unique eCommerce capabilities, preferences, and "best technologies" available. Our eCommerce options allow customers to choose the most cost effective solution that fits their needs, from the simplest to the most advanced cutting-edge technologies. TD SYNNEX supports both EDI ANSI x12 File Document Specifications and Flat File Document Specifications.

Web Services & XML

TD SYNNEX Web Services are available to reseller partners. The following Web Servics are available:

- Customer Purchase Order
- Price and Availbility
- Expense Estimate
- Product Feed Service
- Customer PO Status

TD SYNNEX also offers real-time XML services. Real-time available services include:

- EDI
- PO Submit
- PO Status
- Freight Quote
- Price and Availablity
- RMA Create
- RMA Status
- XML Invoice

Punch-out Catalogs

Migrate away from Excel and PDF contract pricing lists by implementing a PunchOut with your customer. Leverage TD SYNNEX' experience and create a branded product catalog accessible from reseller end-user customers' ordering system. Resellers can include a shopping cart with products, quantities and pricing, directly linked to your customers' procurement system.

		Features • Brand the catalog as your own - TD SYNNEX becomes your silent partner. • Keyword search, product specifications, real-time availability. • Supports Configure-To-Order(CTO) and non TD SYNNEX sku sales. Benefits • Our connections use cXML/XML, SOAP/Web Service, HTTP Post and REST/JSON. • Our most popular enterprise systems to date include SAP/Ariba, Oracle, Perfect Commerce and service now. • Our programmers can seamlessly connect to your customer's procurement system using the highest security standards, such as PCI, Trustwave and HTTPS(TLS) 1.1	

Table 8: Value-Added Attributes

Line Item	Question	Response *	

40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Ericsson provides customers with documentation related to the initial launch of the product and training that can be necessary to support future enhancement and changes to the product. Upon Customer request, Ericsson provides support-specific training to the Customer at no additional cost, and at a mutual convenient time (no later than 15 calendar days before a commercial launch, major system update, or upgrade). Training includes but is not limited to the following: • Tier 1 support-related issues • Service configuration • Basic troubleshooting practices Cradlepoint offers multiple sources of training support. The on-line knowledge base provides access to product documentation, customer forums, information for developers, and access to Cradlepoint University (CPU) – accessed via the Training tile in NetCloud Manager (NCM). CPU houses courses for quick learning, full curriculums, and certifications. Community forums provide access to experts and peers. These forums are a space where questions are collaboratively answered by support engineers, product managers, partners, and peers. Forums include: • Cellular • Developers • Early Access • Mobile • NetCloud Management • Networking • Routing • Security • WiFi Cradlepoint University Cradlepoint University (CPU) provides in-depth training on Cradlepoint products and services. Within CPU, customers can access on-demand, interactive eLearning and technical certifications to help configure, manage, and monitor their networks through NetCloud. Cradlepoint customers can access CPU from within their NetCloud account by opening the Resources tab and then clicking the Training tile. Training options include certification courses, “Cradlebytes” microlearning, videos, practical labs, and live sessions. CPU has a technical curriculum series intended to help users of different roles become familiar with Cradlepoint products and services. The Cradlepoint Certified Network Associate (CPCNA) is optimal for users and covers basics like how to edit router configurations in NetCloud Manager or adding other users. The Cradlepoint Certified Network Professional (CPCNP) expands upon the information presented in the CPCNA and covers in-depth the available configuration options and the use cases in which they may be optimal. The Cradlepoint Certified Network Expert (CPCNE) is best suited for administrators of large networks, integrators and MSPs, and covers advanced routing and tunneling as well as nice NCM use cases. All CPU training is included as part of a continuous, fully paid-up subscription to NetCloud Service. In addition to the CPU courses offered to customers, partners, and Cradlepoint employees, Cradlepoint offers public courses including “Understanding 5G”, “Why 5G Beats Wi-Fi 6”, and Citizen Broadband Radio Service (CBRS), as well as courses designed for specific customer roles, such as Public Safety, Network Administrator, and Remote Office. The online knowledge base, Cradlepoint Connect, provides access to technical support, product documentation, information for developers, and NetCloud firmware updates. Our community forums allow customers to collaborate with other NetCloud users to share experiences and information. In this space, questions are collaboratively answered by support engineers, product managers, partners, and peers. The Cradlepoint Customer Success team provides customer onboarding training including: • NetCloud Manager’s features and functions • Establishing access to Cradlepoint University • Guidance on courses relevant to NCM Authorized Users’ roles • Methods for engaging with Cradlepoint Support Guided tour of Cradlepoint Connect	*
41	Describe any technological advances that your proposed products or services offer.	Leveraging Ericsson’s leading technology Ericsson Private 5G (EP5G) provides “all of Ericsson in a box”, including equipment from the extensive Ericsson Radio Portfolio with radio dots, micro radios, and macro radios for both indoor and outdoor coverage. Highly resistant to intrusions and attacks, EP5G ensures business critical operations meet the most stringent security requirements. Providing reliable and complete coverage throughout a site, indoor and outdoor, EP5G provides connectivity with low latency, high	

		throughput, and high device density (connected devices per square meter). Easily installed within hours, EP5G can be scaled to support larger coverage areas and more devices requiring higher capacity, as needed. Designed to be flexible, EP5G will support a range of deployment sizes, depending on requirements, to suit varied needs. In addition, Enterprises and Government agencies can manage their networks and easily integrate with their IT and OT systems via an open API. Developed and optimized for use cases, EP5G accommodates a wide variety of solutions for both indoor and outdoor environments while integrating well with business operations, devices, and applications. EP5G supports many use cases that benefit a variety of Enterprise stake holders. EP5G supports a cloud-native small Dual Mode Core that offers 4G & 5G (including 5G SA) capabilities simultaneously. The small Dual Mode Core includes cloud native functions with shared microservices, optimized to run on a single server. Ericsson Radio systems support both 4G and 5G in mixed mode fashion. Ericsson radios are currently deployed throughout the US and the world and could be easily incorporated into Sourcewell participating entities' networks. The Enterprise can take advantage of the EP5G next-generation private network because of easy-to-order, easy-to deploy, easy-to-mange, and simple lifecycle management. EP5G is engineered for a simple, fast, click-to-deploy user experience through the cloud-based Network Management Portal (NMP). It is designed to be easily managed by Information Technology users, offering complete control over the devices that can connect to the network without incurring any cost per gigabyte of data. A standardized way of integrating with mobile network. Both radio integration through Multi-Operator Cor Networks (MOCN) or Multi-Operator RAN (MORAN) and management integration within Communications Service Providers (CSPs) are available for the operators that want to offer more integration with their existing public networks including support for LTE connectivity and existing LTE device ecosystems. You can deploy 4G LTE and later upgrade to 5G SA with only a software update. A seamless transition to Ericsson Private 5G. It is designed to use already installed hardware and offers a software-centric upgrade. Ericsson invests in several streams to be able to answer different customer needs and interests. Partnership with Global Service Integrators as well as with industry specific integrators allows Ericsson to ensure solutions are enabling specific business and technology requirements of the industries. NetCloud Private Networks is an award-winning platform built on differentiated technologies. Here is a listing of some of these key functionalities that are available in the solution today: With SIM Groups, device SIMs may be assigned to groups that will then be assigned to one or multiple networks. Groups can also have their traffic prioritized or throttled as desired. SIM Groups enables device-level traffic prioritization based on user-defined QoS Class Identifier (QCI) priority assignments. Critical devices such as security cameras can now receive higher priority both within NCPN and in the wired LAN (via DSCP assignments). Similarly, low priority device traffic can be throttled to prevent from using excess bandwidth. Also, mobile devices like cell phones can now be assigned to multiple networks across multiple sites. Private eSIMs can be downloaded onto a device that has consumer Embedded Universal Integrated Circuit Card (eUICC) capability. This feature enables devices that are eSIM enabled to download a Private eSIM instead of having to insert a physical SIM (for example, an iPhone 14 or a Google Pixel). Adding eSIM support is a key differentiator since a lot of existing PCN solutions do not support eSIM. Domain Proxy is a CBRS SAS service that facilitates spectrum access for Cellular APs. spectrum requests for Cellular APs are conveyed through NCM allowing more visibility and optimize spectrum utilization. Domain Proxy coordinates SAS requests on behalf of Cellular APs and maintains the periodic heartbeats required to hold a SAS Grant and also enables NCM to deploy a spectrum allocation algorithm to optimize available spectrum for a customer's deployment. With Carrier Aggregation Cellular APs can now be configured to double their spectrum utilization, up to 40 MHz, depending on spectrum availability as determined by the SAS. Carrier Aggregation effectively doubles the possible download speed of cellular clients such as routers, tablets, or other SIM-enabled user equipment LAN Profiles enables NCPN user equipment (SIM-enabled endpoints) to communicate with the existing enterprise LAN. By configuring the LAN Profile in the NCM Mobility Gateway, the administrator can choose to NAT or bridge UE endpoints onto the LAN. LAN Profiles enable integration of the existing enterprise LAN with the NCPN wireless LAN. Three benefits include allowing network teams to make PCN UE devices and their services directly reachable from the rest of the network, allowing PCN UEs to be assigned their IP address from the network DHCP server, and allowing network admins to pre-configure their DHCP server with an IP mapping assignment so that it behaves more like a static IP address to make it more predictable. High Availability (HA) provides an element of resiliency should a failure occur with the Mobility Gateway. Without HA, if the Mobility Gateway fails then nothing will work, the radios won't transmit, and the devices will fall off the network until service is manually restored.	*

		Configuring handover thresholds is a critical functionality in a network featuring multiple Cellular Access Points (APs), where it's anticipated that the user equipment will frequently transition between the coverage areas of these APs. Optimizing these handover threshold values: 1. Empowers administrators to manage the mobility of these User Equipment (UEs) in alignment with the RF coverage of the APs. 2. Mitigates typical mobility challenges such as ping-pong handovers, early handovers, and late handovers. 3. Enables administrators to guarantee that UEs consistently reside within optimal RF coverage, thereby ensuring desired performance levels. Mobility Gateway Bandwidth License Stacking – "Stacking" is the ability to assign one or more 500 Mbps bandwidth licenses to any Mobility Gateway in a user account. Customers can start small with their initial Mobility Gateway bandwidth purchase, and easily scale up the network as needs dictate. Bandwidth licenses can be pooled in an account and moved around between networks as needed. NCPN enables external v3 APIs (endpoints) for every feature available including those listed above as well as radio management, network management, SIM management, and KPI metrics such as UL throughput, DL throughput and SIM count. These APIs enable customers and partners to pull data from NCM into their own dashboards and apps.	
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	See TD SYNNEX response Corporate-Citizenship-Report (See file TD SYNNEX Response – Additional Document.pdf page 10) See Ericsson Sustainability and Corporate Responsibility Report for 2022 (sustainability-and-corporate-responsibility-report-2022-en.pdf) Corporate Citizenship Report (See file TD SYNNEX Response – Additional Documents.pdf page 58) Ericsson's ambition to be a responsible and relevant driver of positive change is a cornerstone of its strategy and corporate culture. The company works continuously to improve and strengthen its business practices, focusing on building and maintaining trust, transparency, and integrity. Ericsson's green initiatives, as detailed in their 2022 Sustainability and Corporate Responsibility Report, are comprehensive and target multiple aspects of sustainability: Driving Digital Inclusion: Ericsson is dedicated to making connectivity universal and accessible, aiming to bridge the digital divide. Their efforts include significant contributions to the UNICEF and ITU's Giga initiative, aspiring to connect schools worldwide to the internet by 2030, and promoting digital literacy and financial inclusion through mobile technology. Catalyzing Net Zero: The company is committed to achieving Net Zero emissions across its value chain by 2040. Ericsson's strategy includes enhancing the energy efficiency of its product portfolio and working with its suppliers to set science-based carbon reduction targets, thereby contributing to climate change mitigation. Enabling Industry Transformation: Ericsson leverages its ICT solutions to enable a 15% reduction in emissions across industries by 2030. The company focuses on smart solutions like building management systems and connected electric vehicle infrastructure, showcasing the potential of digitalization in driving sustainability across sectors. Promoting Circular Economy: Ericsson is transitioning towards a circular economy model, focusing on reducing waste through product life-cycle management and advocating for recycling and reusing materials. This approach not only minimizes environmental impact but also supports sustainable development goals. These initiatives reflect Ericsson's holistic approach to sustainability, emphasizing not just environmental responsibility but also social inclusion and industry innovation.	*

43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	TD SYNNEX sites that are certified for the Environmental Management System which complies with ISO 14001:2015 are: • TD SYNNEX, Nobel Drive, Fremont CA • TD SYNNEX, Stateline Road, Olive Branch MS Note: Other TD SYNNEX Corporation sites follow the same ISO procedures, however only the sites mentioned above are certified. Please initially confirm the location where the product/commodity will be shipped from and follow the above protocol. Copies of the ISO 14001:2015 certificates are provided (See file TD SYNNEX Response – Additional Document.pdf page 108 and 109) Ericsson in 2024 was ranked #15 on the Global Corporate Knights list. Corporate Knight's 20th annual ranking of the world's 100 most sustainable corporations is based on a rigorous assessment of publicly traded companies with revenue over US $1 billion. Ericsson, a leading R&D spender in Canada and a global leader in 5G sustainability, is proud to announce it has been named as one of Canada's Top International Corporate Clients in 2023. This designation was awarded to Ericson by Corporate Knights, a media and research company committed to advancing a sustainable economy. • ISO 14001:2015 – Environmental Management System Standard The A240x NCPN radios are RoHS compliant	*
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	See file TD SYNNEX Diversity Alliance Program (See file TD SYNNEX Response – Additional Document.pdf page 110)	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	TD SYNNEX Corporation is pleased to offer Sourcewell participating entities the entire line of Cradlepoint products. Cradlepoint, the world's foremost expert in wireless edge solutions that unlock the power of LTE and 5G cellular networks. Their mission is to enable customers to Connect Beyond the limits of wired networks. Cradlepoint unlocks the transformative power of today's LTE and 5G cellular networks to provide an agile, reliable, and pervasive Wireless WAN edge. As a value-add, TD SYNNEX is also pleased to offer Sourcewell participating entities our proposal of more than 2,500 OEM IT manufacturers, offering the broadest advanced technology solutions that can be purchased in entirety using the Sourcewell contract without having to utilize multiple contracts to meet their technology needs. TD SYNNEX distributes technology products from more than 2,500 world-leading IT OEM suppliers to more than 25,000 resellers throughout the US, Canada, and Mexico. Our focused product categories include IT systems, rugged mobility, peripherals, system components, software, and networking. TD SYNNEX Public Sector is a specialized, fully integrated business unit that focuses on bridging the gap between technology partners and U.S. public sector organizations so they can achieve their individual missions. This is accomplished through specialized and scalable aggregator solutions, including channel enablement, engineering services and support, industry-centric marketing, the Diversity Alliance Program, and our Cloud Navigator, Enterprise Agreement Platform, Confirmed Stateside Support and Secure Software Factory offerings. National Presence, Nationwide Distribution Capabilities TD SYNNEX' distribution model focuses on top-tier manufacturers, offering value-added resellers, system integrators, and solution providers access through knowledge-based sales consultants. We have over 1 million square feet of warehouse space across 15 distribution centers, located strategically throughout the United States. TD SYNNEX offers: • Proven distribution, logistics and product management processes • Excellent past performance in the Public Sector market • A national presence and nationwide distribution network • ISO 9001-certifed supply chain that increases efficiencies and reduces costs • Supply Chain Risk Management (SCRM) Plan • Customs-Trade Partnership Against Terrorism (C-TPAT) Certified • Membership in Transported Asset Protection Association (TAPA) • Experienced government contractor with both Federal and State contracts • A nationwide network of value-added resellers and solution providers with one or more SBA certified small business socio-economic statuses. Ericsson is a trusted partner within the telecommunications industry for more than 140 years. Ericsson is one of the leading providers of Information and Communication Technology (ICT) to service providers, with about 40% of the world's mobile traffic carried through its networks. Ericsson believes in enabling the full value of connectivity by creating	

game-changing technology and services that are easy to use, adopt and scale, making our customers successful in a fully connected world. With that vision, Ericsson is in the forefront of Industry 4.0 and has over 100 private communication networks installed over the world, including manufacturing, mission critical utilities, rail, mining, and energy networks.

- A world-class, uniform, end-to-end Private Network that includes both 4G and 5G (and can run at the same time).
- Global footprint with telecom operators that are capable of offering managed services (along with the private networks portfolio).
- Single Ericsson account and governance team.
- Technology strength and innovation of radio portfolio that addresses spectrum and deployment needs, no matter the environment.
- Ecosystem and partnerships that can be leveraged for unique use cases and applications.
- Fast turn up of network and easy operations and maintenance for IT staff.
- Cradlepoint CPE devices which specialize in LTE and 5G Wireless-WAN for businesses.

Over the last few years, Ericsson has established itself as a pioneer in brining 5G connectivity to industries. With a history in mining and early installations in ports and manufacturing, Ericsson has an important footprint with strategic industrial customers and partners. Change in the market is adapted slowly. New technologies and solutions need to have a proven track record and demonstrate their long-term benefits before companies gain trust, adapt, and invest. Having systematically accelerated the cellular ecosystem with devices, professional services and collaborations with software partners, Ericsson is already perceived as a future-proof partner and technology advisor.

EP5G Offering
As enterprises transform to become more productive and less wasteful, the realize that connectivity is the thread that holds it all together. To achieve the full potential of Industry 4.0, they must deploy a new level of connectivity, capable of driving and sustaining the change.

EP5G offers all of Ericsson in a box, including the industry-leading Ericsson Radio Portfolio with radio dots, micro radios, and macro radios for both indoor and outdoor coverage. It is like having your own private operator network, just for your site.

Highly resistant to intrusions and attacks, EP5G lets critical operations meet the most stringent security requirements. Providing reliable coverage throughout a site (no more dead spots), EP5G enables low latency, high throughput, and high device density (connected devices per square meter).

EP5G is easy to install and manage, and enables use cases such as:
- Dynamic reconfiguration of manufacturing machines on factory floors
- Use of untethered mobile robots and drones
- Use of autonomous cranes in ports
- Connectivity for mines, including underground
- Monitoring asset locations
- Local voice services for mission-critical communication

With the cloud-based Network Management Portal (NMP), EP5G offers complete control over the devices that can connect to the customer network, without incurring any cost per gigabyte of data.

EP5G offers a standardized way of integrating with a CSP network. For operators that want to offer more integration with their existing public networks, both radio integration through MOCN or MORAN, and management integrations with CSPs are available.

In addition to 5G technology, EP5G supports LTE connectivity and the existing LTE device ecosystem. If you choose to start with an LTE deployment that includes 5G capable radio hardware, enabling 5G is only a software upgrade away.

The EP5G system is managed through a management cloud. Upon launch, regional management clouds in the US, Europe, and Asia, allow for a good end-user experience and locally customized Service Level Agreements (SLAs).

NCPN Offering
Cradlepoint's experience in cellular, combined with best-in-class services, software, support, and hardware, uniquely positions us to take advantage of the opportunity that is Private Cellular.

- Support Scale and distributed deployments
- No complex integration process required
- Reduce friction wherever possible
- IT centric terminology

		• Flexible architecture – on prem or hybrid cloud • Ability to continue to rely on existing infrastructure • Bundled lifecycle journey • API-first design philosophy The NCPN Orchestration tool – NetCloud Manager (NCM) – provides real-time visibility and control at your fingertips – all through a single pane of glass. NCM allows you to accomplish more, faster, and with fewer resources. It's an intuitive, easy-to-use cloud management and orchestration platformed designed for lean IT teams with the tools to simplify the configuration, deployment and troubleshooting of your private network. • Accelerate time to service: Enable connectivity across tens of thousands of sites, vehicles, or IoT devices effortlessly. Deploy configuration changes, security policies, modem firmware updates, and edge compute orchestration in just a few clicks. • Reduce costs: When lean IT is crucial, send fewer IT staff to remotes sites – and less often – with remote monitoring and management capabilities. Prevent data overages through cellular data usage monitoring, alerts, and control. • Gain valuable insights: Track network heath through dashboards, live stat views, and reports. Monitor both network and security events form a single pane of glass. Enhance quality of experience: Track the quality of experience of your applications using policies to direct high-priority applications to the best-performing connections.	

Table 9A: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
46	Do your warranties cover all products, parts, and labor?	Standard Warranty with EP5G Sales include: Ericsson Private 5G HW comes with 12-month warranty, warranty support within reasonable commercial efforts (as part of the EP5G subscription). Dell servers are covered under Pro-Support Next Business Day (NBD) Service Level Agreement. EP5G coverage period for Dell servers is, from shipment to Ericsson: • 60 months for VEP4600 Network Controller (NWC) Small 63 months for R640XL Network Controller (NWC) Large Full Warranty details can be found in the uploaded documents file (See file TD SYNNEX Response – Warranty Information.pdf) All hardware products sold as components of Cradlepoint NetCloud Packages include limited warranty against defects in materials and workmanship through Last date of Support when used in accordance with Cradlepoint's product documentation and provided the hardware and products are under a continuous, fully paid-up subscription license to NetCloud Manager services. Cradlepoint's limited hardware product warranty is non-transferable and extends only to the original purchaser of the products from an Authorized Partner. Full Warranty details can be found in the uploaded supporting documentation – CRADLEPOINT NETCLOUD PACKAGE LIMITED LIFETIME HARDWARE WARRANTY.pdf (See file TD SYNNEX Response – Warranty Information.pdf) As an OEM that does not sell directly to end users, any labor warranties would be the offering of TD SYNNEX' Authorized Resellers. All other OEMs, the manufacturers warranty applies. Coverage and warranty period vary by vendor. See the answer to question 51 for return guidelines.	*

47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Ericsson's warranties do not impose any usage restrictions or limitations. Full Warranty details can be found in the supporting documentation (See file TD SYNNEX Response – Warranty Information.pdf) Cradlepoint's warranty does not impose any restrictions are limitations. Full Warranty details can be found in the supporting documentation – CRADLEPOINT NETCLOUD PACKAGE LIMITED LIFETIME HARDWARE WARRANTY.pdf (See file TD SYNNEX Response – Warranty Information.pdf) All other other OEMs, the manufacturers warranty applies.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	The Ericsson Warranty covers the Ericsson hardware. Full Warranty details can be found in the supporting documents – (See file TD SYNNEX Response – Warranty Information.pdf) As an OEM that does not sell directly to end users, any labor warranties would be an offering of TD SYNNEX Authorized Resellers The Cradlepoint Warranty covers the Cradlepoint hardware. Full Warranty details can be found in the supporting documentation – CRADLEPOINT NETCLOUD PACKAGE LIMITED LIFETIME HARDWARE WARRANTY.pdf (See file TD SYNNEX Response – Warranty Information.pdf) As an OEM that does not sell directly to end users, any labor warranties would be an offering of TD SYNNEX Authorized Resellers.	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	With TD SYNNEX' expansive ecosystem of reseller partners, there are no known regions of the US or Canada for which we cannot provide a certified technician to perform warranty repairs. Sourcewell participating entities will work directly with their fulfillment reseller, Cradlepoint, or other individual manufacturers as required. The TD SYNNEX contract team will facilitate communications when necessary to ensure participating entities receive the warranty support they require.	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Standard Warranty with EP5G Sales include: Ericsson Private 5G HW comes with 12-month warranty, warranty support within reasonable commercial efforts as part of the EP5G subscription. Dell servers are covered under Pro-Support Next Business Day (NBD) Service Level Agreement. EP5G coverage period for Dell servers is, from shipment to Ericsson: • 60 months for VEP4600 Network Controller (NWC) Small • 63 months for R640XL Network Controller (NWC) Large Only Cradlepoint products under a continuous and fully paid-up subscription license to NetCloud Manager services are covered under the Cradlepoint Warranty. For all OEMs, the manufacturer's warranty applies.	*
51	What are your proposed exchange and return programs and policies?	Standard Product Return Guidelines • The credit for returns is based on the lesser of purchase price or current price at the time the Return Material Authorization ("RMA") is physically received in by the TD SYNNEX RMA Returns Center. The only exceptions are for returns due to TD SYNNEX errors or freight damages and losses which receive the original invoice price. These credits are again applied upon receipt of product in the TD SYNNEX RMA Returns Center. • Customers must have a valid RMA number (assigned by Customer Service) before returning any products and the RMA number must be written on the return shipping label only. • The customer is responsible for filing all claims with the carrier they use to return RMA's to TD SYNNEX. It is recommended that the customer insure (for full value) the product being returned to TD SYNNEX in order to avoid any potential exposure if product is lost or damaged while in transit back to TD SYNNEX. All products that are damaged while in transit to TD SYNNEX from the customer against an approved RMA number will be refused/rejected back to the customer. • Products must be shipped prepaid. TD SYNNEX does not cover return shipping expenses unless return is due to a TD SYNNEX error such as over shipment, mis-shipment, or sales error. • Call tags will be issued on returns where TD SYNNEX has authorized freight. • For standard TD SYNNEX RMA's, the customer has 15 days from the date issued to return the product to TD SYNNEX. • For short-ship, mis-ship and over ship due to TD SYNNEX warehouse	

error, customer has 15 days from ship date.
- If a customer refuses a shipment from a TD SYNNEX warehouse, credit will be issued at the time the refused product is received back at the TD SYNNEX shipping warehouse. Refused shipments by a customer must be reported to TD SYNNEX within 5 days. These shipments can be assessed a shipping fee and/or a processing fee.
- The customer must notify TD SYNNEX when a drop-ship shipment has been refused. Credit will be issued once the shipment has been verified as received back to the One Source vendor.
- Returns that require TD SYNNEX product management approval before an RMA is issued may take up to 48 hours for processing/approval.
- Special orders for customers are not returnable.
- Restock fees of 10% or greater may be applied to stock balance or open box (non-defective) returns. If a restock fee applies to a return request, the TD SYNNEX Customer Service Representative will notify the customer of the restock fee at the time RMA is requested.

RMA Return Types/Product Return Guidelines
DOA/Defective Credit
- Product must be returned in the original packaging.
- Please ensure that all original components are shipped with the defective item (includes manuals, software, cables, etc.).
- Please remove all add-ins (not originally sold with the product), as these items will not be returned to you (i.e., memory, sound cards, modems, etc.).
- Please follow the return shipping instruction provided with your RMA.

Advance Swap
- SYNNEX cross-ships a replacement product to you before it receives the product you are returning.
- Advance Swaps are subject to SYNNEX credit department approval.
- Replacement shipment will be billed when shipped and credit issued once the return is received for credit.
- Please follow the return shipping instruction provided with your RMA.

Damaged Shipments
- Shipment should be refused and SYNNEX Customer Service contacted within 48 hours of the refusal.
- All damages must be reported within 48 hours of receipt of product for all courier shipments.
- Shipment damages must be refused or damage noted on the POD for credit.
- Please follow the return shipping instruction provided with your RMA.

Kit Returns
- For all kits, parts, and assemblies, all components must be returned complete to be eligible for credit.
- Please follow the return-shipping instruction provided with your RMA.

Stock Balance
- Product must be in its original manufacturer box and factory sealed.
- Product must be in resalable condition.
- Products must be shipped pre-paid for credit.
- Please follow the return-shipping instruction provided with your RMA.

TD SYNNEX Errors
- Ensure that the product is in the original manufacturer's box and that all components are present, unless otherwise authorized.
- Please follow the return-shipping instruction provided with your RMA.

Manufacturer Exception Returns
- TD SYNNEX will make exceptions for returns that are out of policy, provided that the manufacturer has authorized return of the product.
- Once the customer has an authorized case number or manufacturer RMA number from the manufacturer, the customer then contacts TD SYNNEX Customer Service for an RMA. Customer
- Service will then issue an RMA and the customer will receive credit in the amount we receive from the manufacturer for credit.
- Please follow the return-shipping instruction provided with your RMA.

Return Refusal and Discrepancy Policy
TD SYNNEX reserves the right to return to a customer, at the customer's expense, any customer return that differs from the information given on the original Return Material Authorization (RMA) request, such as:
- Shipments without an RMA number may be refused and/or returned at the customer's expense.
- RMA number not visible and not on the box shipping label.
- Product returned differs from that requested and authorized.
- Unauthorized return (no RMA number was issued).
- Serial number of product(s) returned were not purchased from TD SYNNEX.
- Box or product damage.

- Invalid RMA number.
- RMA condition code given by customer differs from actual product condition.
- Expired RMA number.
- Incorrect product or quantity overage.
- Felt-pen markings on the box.
- Special orders for customers are not returnable.
- Open box/double-taped.

*

Ericsson Private 5G (EP5G) includes hardware supported by Ericsson and Dell.

Hardware support is a standalone service, not included with any other service offering. Although EP5G hardware comes with a 12-month warranty, the warranty support is only within reasonable commercial effort, and hardware support is highlight recommended.

Hardware Supported by Ericsson
Hardware support service from Ericsson covers radio (micro, macro, and AIR), baseband, router, and network controller parts. Radio dots are not covered. Basebands, router, and radio parts are delivered to the customer-specified location as specified by the SLAs listed in the table below.

Hardware Support:
Service: SLA
Product Support: RTF 45/20
Network Support: ADV 20/5
SPMS: Next business day

Service: Lead Time
Product Support: 45/20 days
Network Support: 20/5 days
SPMS: Next business day

Service: Deliver Precision
Product Support: 90%
Network Support: 95%
SPMS: 95%

Service: Lead Time Criteria
Product Support: From Receiving faulty hardware to ready for shipment at Ericsson
Network Support: From approved RMA to delivery
SPMS: From Approved RMA to delivery

Product hardware support is available on two distinct levels for faulty units Returned to Factory (RTF) for repair. Upon approval for Return Material Authorization (RMA), Advanced (ADV) provides delivery of replacement unit before receiving the faulty unit for repair. Spare Parts Management Service (SPMS) provides a replacement unit the next business day before receiving the faulty unit for repair.

Note: Network hardware supports 5 days SPMS next business day may not be available in all regions.

The hardware support levels can be combined with any one of the following software customer support levels (bronze, silver, and gold) options. Customer is recommended to choose the level of hardware support service they view as adequate. If Customer has little or no storage of spare parts, then Customer is recommended to choose the SPMS option. The hardware service support relies on local delivery capabilities for delivery to the Customer site. Customer is responsible for field service functions such as installing new equipment and returning replaced equipment.

Suspected faults with hardware need to be acknowledged by Tier 2 before an RMA request can be issued to Ericsson, in accordance with the process agreed on between Ericsson and Customer. The service delivery manager, or the people responsible in Customer Unit, is aware of the agreed process. After acknowledgement from Tier 2 confirming hardware fault, the following steps towards resolution are performed by Tier 1 support.

Hardware Supported by Dell
To ensure timely support from Dell, the Customer Unit has to initiate ownership transfer of the Dell server or network controller through the service tag process transfer. For more information about the process, see document – DELL Hardware – Transfer Registered Owner, (000 21-HSD

		101073) (See file TD SYNNEX Response – Additional Document.pdf page 112) Dell technical support is available 24/7. Troubleshooting and replacements of network controller parts is performed by Dell. Ericsson supports Customer by initiating support process with Dell. If network controllers are faulty, Dell provides a remote response, using a technical support resource for troubleshooting assistance, customer assistance, error messages, and more. During the troubleshooting: If a Dell technician determines that the repair requires replacement of a critical part such as a motherboard, central processing unit, select memory modules, or select hard disk drives, then on-site replacement by a Dell technician is coordinated with the Customer for the next local business day, during business hours. Dell arranges the return of the faulty critical part to a Dell facility. If a Dell technician determines that the repair can be accomplished with a Customer Replaceable Unit (CRU), or designated part (such as a fan module, power supply, mechanical part, and cable management part, then Dell ships the designated part directly to the Customer. This allows the Customer to replace parts conveniently. The delivery response window for replacement parts is within the next local business day during business hours. The Customer is responsible for sending the faulty CRU directly to Dell or as instructed by Dell. If the Customer does not have a capable, local resource to perform the replacement of CRU parts, under the pro-support entitlement, the Customer may request Dell Tech Support to send a service engineer to perform the replacement. Customer is recommended to open a trouble ticket with Ericsson support if an issue with the network is identified. Ericsson support investigates and recommends replacement options. Suspected faults with hardware need to be acknowledged by Tier 2 support before an RMA can be issued to Ericsson, in accordance with the process agreed upon between Ericsson and Customer. The service delivery manager or responsible Customer Unit is aware of the agreed process.	

52	Describe any service contract options for the items included in your proposal.	Hardware Support Services (optional but strongly recommended) is a standalone service, not included with any service offering. Although EP5G comes with a 12-month warranty, the warranty support is only within reasonable commercial effort, and hardware support is highly recommended. Hardware support service from Ericsson covers radio (micro, macro, and AIR), baseband, router, and network controller parts. Radio dots are not covered. Basebands, router, and radio parts are delivered to the customer-specified location as specified by the SLAs listed in the table below Hardware Support: Service: SLA Product Support: RTF 45/20 Network Support: ADV 20/5 SPMS: Next business day Service: Lead Time Product Support: 45/20 days Network Support: 20/5 days SPMS: Next business day Service: Deliver Precision Product Support: 90% Network Support: 95% SPMS: 95% Service: Lead Time Criteria Product Support: From Receiving faulty hardware to ready for shipment at Ericsson Network Support: From approved RMA to delivery SPMS: From Approved RMA to delivery Product hardware support is available on two distinct levels for faulty units Returned to Factory (RTF) for repair. Upon approval for Return Material Authorization (RMA), Advanced (ADV) provides delivery of replacement unit before receiving the faulty unit for repair. Spare Parts Management Service (SPMS) provides a replacement unit the next business day before receiving the faulty unit for repair. Other vendors may provide extended warranty options.	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
53	Describe any performance standards or guarantees that apply to your services	See Document "TD SYNNEX Response – Question 53" (See file TD SYNNEX Response – Additional Document.pdf page 140) Ericsson offers three customer service levels: bronze, silver, and gold. The following table lists the different SLOs for each service level. Self Service Portal Support Bronze: Unlimited Access 24/7 Silver: Unlimited Access 24/7 Gold: Unlimited Access 24/7 Email Support Bronze: Ericsson support Mon-Fri between 8-17, customer local time Silver: Ericsson support Mon-Fri between 8-17, customer local time Gold: Ericsson support 24/7 Phone Support Bronze: N/A Silver: Ericsson support Mon-Fri between 8-17, customer local time Gold: Ericsson support 24/7 Emergency Escalation Support Bronze: N/A Silver: Ericsson support Mon-Fri between 8-17, customer local time	

Gold: Ericsson support 24/7

Incident Reporting Support
Bronze: Ericsson support Mon-Fri between 8-17, customer local time
Silver: Ericsson support Mon-Fri between 8-17, customer local time
Gold: Ericsson support 24/7

Temporary Remedy for Software Issues
Bronze: All priority levels within commercially reasonable efforts
Silver:
Priority 1 < 4 work hours
Priority 2 < 8 work hours
Priority 3 and 4 within commercially reasonable efforts
Gold:
Priority 1 < 4 work hours
Priority 2 < 8 work hours
Priority 3 and 4 within commercially reasonable efforts

Initial Permanent Fix for Software Issues
Bronze: All priority levels within commercially reasonable efforts
Silver:
Priority 1 < 10 workdays
Priority 2 < 20 workdays
Priority 3 and 4 within commercially reasonable efforts
Gold:
Priority 1 < 10 workdays
Priority 2 < 20 workdays
Priority 3 and 4 within commercially reasonable efforts

Each priority level has a response time, remedy time and resolution time. The table below lists the response times and update frequency for each priority level.

Priority Levels
Priority Level 1- Urgent
Response Time: 15 min
Remedy Time (Short- Term): 4 hours
Remedy Time (Permanent): 10 days
Update Frequency: Once every hour, or as agreed

Priority Level 2- High
Response Time: 15 min
Remedy Time (Short- Term): 8 hours
Remedy Time (Permanent): 20 days
Update Frequency: Once every 4 hours, until a solution is identified

Priority Level 3- Normal
Response Time: 30 min
Remedy Time (Short- Term): Commercially reasonable effort
Remedy Time (Permanent): Commercially reasonable effort
Update Frequency: Weekly or as agreed, until a solution is identified

Priority Level 4- Low
Response Time: 30 min
Remedy Time (Short- Term): Commercially reasonable effort
Remedy Time (Permanent): Commercially reasonable effort
Update Frequency: Weekly or as agreed, until a solution is identified

Service Level Priority
The following lists definitions and examples of issues covered by the four priority levels:

Priority 1: Urgent: Priority 1 issues are urgent and have a significant impact on the end-user business operations and use of services due to connectivity problems. The issue ends operations without a procedural workaround. Priority 1 issues include, but are not limited to the following:
- Network services are down or unavailable.
- Critical functionality is unavailable.

The following Priority 1 issues are site specific:
- Data connectivity is lost, no provisioned devices are communicating.
- All radios are down, because of on-site power failure or cell down.
- Both network controllers are down.
- Baseband is down, meaning traffic impact is greater than 30%.
- The IRU is down, meaning traffic impact is greater than 30%.
- Power supply is down, meaning traffic impact is greater than 30%.
- The upgrade procedure failed.

- There is a continuous switchover between network controllers.

The following Priority 1 issues are region-specific:
- Google Cloud Platform (GCP) is down, affecting all back-end services including monitoring.
- The support system is down.
- The notification system is down.
- The NMP is not reachable for several end-customers in the same region, because of Domain Name System (DNS) issues.
- Several sites show equipment down at the same time, because of DNS issues.

Priority 2: High: Priority 2 issues are high priority issues in which significant performance degradation is experienced, or major functionality is affected. Because of connectivity problems, end-user business operations are severely limited, and no reasonable workaround exists. Priority issues include, but are not limited to, the following:
- Key features of the Management as a Service delivery are unavailable with no acceptable workaround. Operations can continue in a restricted manner.
- Service is operation but degraded to the point of major impact on end-customer connectivity usage.

The following Priority 2 issues are site specific:
- The NMP is not accessible for a single site, but Core Site Services are functioning properly.
- The end-user is not able to add, remove or modify devices in the NMP but existing configured devices are functioning properly.
- Devices continuously disconnect.
- The VPN tunnel is down.
- Watchdog data is not shown in the NMP.
- One or more radios are down.
- The Watchdog application has upgrade problems.
- One network controller is down, and the other network controller is functioning properly with no impact on network services.

The following Priority 2 issues are region-specific:
- Security patches cannot be deployed.

Priority 3: Normal: EP5G is functioning and providing connectivity, but the enterprise is minimally impacted due to non-critical error condition. Business operations continue to function, and a workaround is available to mitigate impacts of the issue. Issues that impact operation and maintenance functionality are also priority 3, such as problems with adding or deleting users or onboarding new devices.

Priority 4: Low: EP5G is functioning with no issues. General questions on functionality, enhancement requests, or documentation clarification are tracked in this category.

The following are examples of priority 4 issues:
- The end-user requests are more feature details specific to scheduling deployments through the NMP.
- The installer requests clarification on the steps for upgrading a Watchdog device.
- Details about a new feature are missing from the release notes.
- Additional feature descriptions are requested.

Available SLA by Service Level
Services
KPI: Service Availability
Formula: Availability % = ((Committed Minutes – Service Interruption Minutes for Network services) / Committed Minutes) * 100)
Bronze Pkg SLA: >=99.50%
Silver Pkg SLA: >=99.90%
Gold Pkg SLA: >=99/95%

Management as a Service
KPI: Service Availability
Formula: Availability % = ((Committed Minutes – Service Interruption Minutes for Network services) / Committed Minutes) * 100)
Bronze Pkg SLA: >=99.50%
Silver Pkg SLA: >=99.90%
Gold Pkg SLA: >=99.95%

Ericsson Tier 2 Proactive Notifications
If Ericsson support team identifies a Priority 1 incident affecting and end-customer of Customer before Customer or Tier 1 support issue acknowledgement, Ericsson shall notify Customer within 15 minutes of becoming aware of the incident. *

The notice shall include the following:
- Description of outage
- Date and time of outage
- Geographic location
- Percentage of Customer affected, if known
- End-customer affected
- Estimated time to repair, if known
- Ericsson case number
- Outage bridge phone number and pin, if applicable
- Time of next updated

Escalation Template
Ericsson channel partner manager or Ericsson local organization provides single point of contact for any escalation. Ericsson provides contact names, titles, emails and phone numbers.

Contact Level for Escalation
Primary: Support Lead-Ericsson Private 5G
Secondary: Support Manager- Ericsson Private 5G
Executive: Director- Dedicated Networks

Notification System
The EP5G support model includes a notification system that provides actionable and reliable alerting. With integrations into enterprise-leading monitoring, ticketing, and chat tools, the notifications system can group alerts, filter out noise, and notify support users through multiple channels. The following key elements are part of the notifications system:
- Multiple alerting channels
- Alert enrichment
- Custom alert actions
- Alert customization and classification
- Alert lifecycle tracking
- Alert and notification policies
- Heartbeats
- On-call management and escalations
- Advanced reporting and analytics

NCPN RESPONSE:
NetCloud Manager Service Level Objective: Cradlepoint will use commercially reasonable efforts to make the Cradlepoint NetCloud Manager Services available 24 hours a day, 7 days a week, except for: (i) scheduled maintenance downtime, (ii) emergency maintenance, and (iii) any unavailability caused by circumstances beyond Cradlepoint's reasonable control, including a Force Majeure Event.

NetCloud maintenance, updates, upgrades, and enhancements are communicated to Authorized Users through NCM, NetCloud Status, and e-mail notifications can be established within NCM reporting tool. Notifications of scheduled maintenance can be found on the Cradlepoint Status website – status.cradlepoint.com – where you can also subscribe for system status updates. While system/program maintenance completed by the Cradlepoint team will be done on the socialized schedule, most NCM/NCOS upgrades and updates can be scheduled by the Authorized User's NCM Administrator.

As an Original Equipment Manufacturer (OEM) that does not sell direct to Authorized Users, our ASPs function as the first line of support for warranty services, call back procedures, and time frames. As such, the preferred method of requesting repair and warranty services is through the ASP that has been working with the Authorized User.

Authorized Users may also contact the Cradlepoint Global Support team directly or open a support case through the secure Customer Portal, accessed through NetCloud Manager (NCM). Cradlepoint tracks questions and assistance requests for Authorized Users with Cradlepoint products covered by a NetCloud Solution Package through a service request process. As cases are opened, information about the Authorized User site and technical details about the product, service and environment will be collected. A "Case Severity" will be assigned for each case. The Case Severity is defined by the impact to the Authorized User and the type of problem. It helps define the response time, communication cadence, and acts as a guide to further escalations. Setting these levels allows Cradlepoint to resolve issues in a timely manner for more Authorized Users.

Assigning Case Severity
Severity 1: Entire site WAN connectivity/network is down, the Authorized User is critically impacted due to problem with Cradlepoint Product/Service. Full-time resources from Authorized User and Cradlepoint are needed until the network is back online

Severity 2: Site WAN connectivity/network is severely degraded and significant aspects of the Authorized User is impacted negatively due to problem with Cradlepoint product/service
Severity 3: Site WAN connectivity/network is impaired due to Cradlepoint product/service; most business functions are operational

* Until case close or root cause identified.
** The Enterprise Support Engineer keeps in continual contact unless agreement is reached with the Authorized User for alternate communications (e.g., breaking contact to work on the case).

Update frequency describes the times for on-going communication to convey progress to the customer. The Enterprise Support Engineer will update the support case in the Connect portal with current progress. Additionally, the Cradlepoint Executive Management team will be updated daily on all Tier 3 and above escalated cases.

As needed, the following escalations will occur based on Case Severity and time to resolve

2 Hours
Severity 1: Tier 2

4 Hours
Severity 1: Tier 3
Severity 2: Tier 2

24 Hours
Severity 1: Tier 4
Severity 2: Tier 3

48 Hours
Severity 2: Tier 4
Severity 3: Tier 2

72 Hours
Severity 3: Tier 3

Subsequent escalations will follow Tiers 1-4 as defined below until the Case reaches resolution.

Tier 1
Who?: Customer Service
Procedure: Open a Support Case in Connect portal
Knowledge Base available 24x7x365
Qualified phone support available 24x7x365
Notes: If the call is made outside of Cradlepoint standard hours, and meets the 24x7 emergency criteria, the call will be connected to an on-call engineer.
If the call does not meet the emergency criteria, the call will be returned during normal business hours.

Tier 2
Who?: Assigned Enterprise Support Engineer
Procedure: Once a case has been escalated, Tier 2 support is provided by enterprise engineers who are available 24x7x365.
Notes: If the call is made outside of Cradlepoint standard hours, and meets the 24x7 emergency criteria, the call will be connected to an on-call engineer.
If the call does not meet the emergency criteria, the call will be returned during normal business hours.

Tier 3
Who?: Enterprise Support Supervisor, Cradlepoint Quality Assurance Team, and Manager, Global Support
Procedure: The Tier 3 support team will be available during Cradlepoint business hours or longer for Severity 1 issues.

Tier 4
Who?: Executive Management Team
Procedure: The VP Global Support, VP Sales, CMO, and CEO will drive for Case resolution at Tier 4.

Cradlepoint works to close Authorized User cases as quickly as possible. The tracking or resolution time begins when the case is received from the Authorized User and the required information is captured. The resolution timeframe concludes

		when the Authorized User accepts the resolution, and the case is formally closed in the Connect portal. While many reported problems often involve products and services outside of Cradlepoint's control, these resolution timeframes are our targets: Restore Network Connectivity: < 4 Hours Severity 1: < 48 Hours1 Severity 2: < 5 Business Days2 Severity 3: < 10 Business Days Inquiry: < 15 Business Days Note 1: Dependent on root cause analysis requirements, closure may take longer but should be agreed upon with Authorized User. Note 2: Best effort will be made to restore network connectivity within 4 hours. Next Business Day would be best case for certain cloud networking issues that require assistance from our Operations team. Details can be found in the supporting documents – End User Agreement_Cradlepoint.pdf, (See file TD SYNNEX Response – Supporting Documents.pdf page 124)	
54	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	EP5G provides Service Level Agreement (SLA) monitoring and Key Performance Indicator (KPI) tools. The performance of a site will be verified at installation and handover. The Watchdog app, available for Android-based devices and as headless software running on a custom industrial gateway, referred to as the industrial Watchdog device, allows constant monitoring and verification of the system network performance. Network performance information is displayed on the screen of Android-based devices and in the Network Management Portal. Cradlepoint will use commercially reasonable efforts to make the Cradlepoint NetCloud Manager Services available 24 hours a day, 7 days a week, except for: (i) scheduled maintenance downtime, (ii) emergency maintenance, and (iii) any unavailability caused by circumstances beyond Cradlepoint's reasonable control, including a Force Majeure Event. Details can be found in the attached file – End User Agreement_Cradlepoint.pdf (See file TD SYNNEX Response – Supporting Documents.pdf page 124)	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
55	Describe your payment terms and accepted payment methods.	TD SYNNEX Resellers will provide 30-day payment terms to Sourcewell Participating Entities and will accept credit card payments if requested. TD SYNNEX provides our resellers with access to TD SYNNEX Capital in addition to standard Net Terms, Escrow, Flooring Accounts, Wire Transfer, and Credit Card payment terms.	*
56	Describe any leasing or financing options available for use by educational or governmental entities.	TD SYNNEX Capital State, local and education (SLED) financing requirements are more diverse and complex than those of commercial clients due to the unpredictability of future budgets, non-appropriation risk and uncertainty around the lifespan of the investment. TD SYNNEX Capital has extensive regulatory knowledge to assist these SLED agencies in acquiring the equipment they need at a lower cost: • Align payments to budget availability • Benefit from multi-year discounts • Free up capital for other projects • No large, upfront cash expenditures • Only current year payments are included in operating budget • Put all products and services on a single agreement TD SYNNEX CAPITAL MAKES IT EASY • Competitive pricing, including municipal rates • Easy credit application • Fast funding • Streamlined documentation that includes non-appropriations protections.	*
57	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	The Ericsson standard transaction documents include a signed Statement of Work (SOW) and End User Licensing Agreement (EULA). The Cradlepoint standard transaction documents can be found online at www.cradlepoint.com/legal and are attached to this response. Inclusion of documents beyond the End User Agreement (EUA) and NetCloud Manager Services Terms would depend on the solution(s) purchased. The standard documents are included in the supporting documents: • End User Agreement (EndUserAgreement_Cradlepoint.pdf) See file TD SYNNEX Response – Additional Document.pdf page 124 • NetCloud Manager Services Terms (NetcloudMangerServices_TC_Cradlepoint.pdf) See file TD SYNNEX Response – Additional Document.pdf page 154 • Secure Location Services Terms & Conditions (SecureLocationServices_TC_Cradlepoint.pdf) See file TD SYNNEX Response – Additional Document.pdf page 156 • SIM Management Feature Terms & Conditions (SIMManagementFeature_TC_Cradlepoint.pdf) See file TD SYNNEX Response – Additional Document.pdf page 161 • NetCloud Exchange Terms & Conditions (NCX_TC_Cradlepoint.pdf) See file TD SYNNEX Response – Additional Document.pdf page 149 • NetCloud Private Networks Terms & Conditions (NCPN_TC_Cradlepoint.pdf) See file TD SYNNEX Response – Additional Document.pdf page 145 For other TD SYNNEX Terms and Conditions, see TD SYNNEX Terms and Conditions.pdf (See file TD SYNNEX Response – Additional Document.pdf page 164)	*
58	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes. On a case-by-case basis, up to a 3% credit card transaction fee may apply.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
59	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Pricing for each EP5G deployment includes a one-time CAPEX component and a yearly OPEX component. The one-time fee includes the hardware that is sold to the customer and the setup and configuration of the cloud environment for the deployment. The yearly subscription fee includes: • Licenses for the software running on the network controllers (including the required core network features) and the radio hardware, valid during the subscription. • Access to the EP5G management cloud to manage the equipment on the customer site through the Network Management Portal and the Cloud API. • Monitoring of customer site infrastructure by the Ericsson NOC. • Tier 2 and Tier 3 Support Note: Channel Partners are expected to provide Tier 1 support. The NetCloud Service Subscription is sold in tandem with Cradlepoint hardware (router, endpoint).Subscriptions are sold in 1-, 3- and 5-year terms. Subscriptions include customer support, training, technical support and warranty at no additional cost. When a subscription term is due to expire, customers can choose to purchase a renewal subscription in the same 1-, 3- or 5-year term options. TD SYNNEX Corporation would like to submit our entire product catalog for inclusion in our response to this RFP. With over 2,500 IT manufacturers, the TD SYNNEX proposal offers a broad range of multi-vendor solutions that can be purchased in entirety using the Sourcewell contract without having to utilize multiple contracts to meet their technology needs. We will continue to leverage our proven network of order fulfillment partners to grow this program with incremental revenue currently utilizing other contract vehicles. Our complete catalog of our tier one Original Equipment Manufacturers' (OEM) solutions, with authorized and proven reseller/integrator partners, and world-class program management compliments the overall Cradlepoint solution and brings a one contract approach to procurement for Sourcewell participating entities. The pricing below reflects the discount we propose. Due to the depth and breadth of our entire catalog, we proposed a 4% discount from MSRP (with exceptions noted below) because it is impossible to provide discounts for each manufacturer and/or for each product segment within each manufacturing line. In addition, we sell a broad range of products from commodities like printers and Chromebooks up to enterprise class data center server and storage manufacturers with a corresponding range of discounts. In order to offer the most complete, all-inclusive catalog offering, we are proposing discounts from MSRP as a minimum threshold discount for all vendor lines and product categories with the ability to offer greater discounts depending on the manufacturer and specific product segments being quoted as well as any additional discounts/rebates that are being offered by the manufacturer. Pricing Summary NTE (Not-to-Exceed) Contract Pricing • 4% Discount from MSRP applicable to all manufacturing lines, (unless noted in Exceptions below) • 2% Discount from MSRP for the following: o All Chromebooks, HP Smartbuys, Lenovo TopSeller Products and all other promotionally priced products. o Manufacturers exceptions include: APC Asus Contract pricing for Avaya's non-discountable SKUs will have no (0%) discount from MSRP Avaya products, not to include non-discountable SKUs will be priced at 2% off MSRP Cisco Crucial	*

		F5 Global Knowledge Training Google HP SmartBuys Lenovo Topseller products Microsoft Software NEC Seagate TD SYNNEX Services • 0% Discount for: o Non-Discountable SKUs • Services: Please refer to the Services line card for a complete breakdown of specific costs associated with our services. Please email fieldservices@TDSYNNEX.com with any questions. • Dealers are encouraged to offer additional discounts from the established contract price when possible. TD SYNNEX would like to reserve the right to amend this List of Exceptions from time to time on an as needed basis. TD SYNNEX agrees to provide IUC-PG with written notification and justification for any revisions/adjustments to this list. New vendors and products that are added during the period of the contract shall follow the same product classification as described above. See "TD SYNNEX Pricing and Discounts." See file TD SYNNEX Response – Pricing.xlsx	
60	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Cradlepoint NetCloud Private Networks: 10% Discount off MSRP Cradlepoint EP5G Private Networks: 10% Discount off MSRP Value Added Product Offerings: NTE (Not-to-Exceed) Contract Pricing • 4% Discount from MSRP applicable to all manufacturing lines, (unless noted in Exceptions below) • 2% Discount from MSRP for the following: o All Chromebooks, HP Smartbuys, Lenovo TopSeller Products and all other promotionally priced products. o Manufacturers exceptions include: APC Asus Contract pricing for Avaya's non-discountable SKUs will have no (0%) discount from MSRP Avaya products, not to include non-discountable SKUs will be priced at 2% off MSRP Cisco Crucial F5 Global Knowledge Training Google HP SmartBuys Lenovo Topseller products Microsoft Software NEC Seagate TD SYNNEX Services • 0% Discount for: o Non-Discountable SKUs • Services: Please refer to the Services line card for a complete breakdown of specific costs associated with our services. Please email fieldservices@TDSYNNEX.com with any questions. • Dealers are encouraged to offer additional discounts from the established contract price when possible. TD SYNNEX would like to reserve the right to amend this List of Exceptions from time to time on an as needed basis. TD SYNNEX agrees to provide IUC-PG with written notification and justification for any revisions/adjustments to this list. New vendors and products that are added during the period of the contract shall follow the same product classification as described above.	*
61	Describe any quantity or volume discounts or rebate programs that you offer.	TD SYNNEX can offer a 50bps (0.50%) discount for one-time orders of $250,000 or more. One-time orders must be placed on one purchase order with one ship to location.	*

62	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	With TD SYNNEX' offering of our entire product catalog for inclusion in our response to this RFP as a value-add, there will be little to no "Open Market" products required. Should a Sourcewell Participating Entity require products not included on the TD SYNNEX linecard of more than 2,500 IT manufacturers, the quote, purchase order, and invoice will clearly identify all Open Market products as such.	*
63	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Sourcewell participating entities will receive free UPS and/or FedEx ground shipping for products that ship directly from a TD SYNNEX distribution center. This policy excludes expedited shipping costs (overnight, 2 day, etc.) and items over 150 pounds, OCONUS shipments, LTL shipments and/or items that require white glove services, liftgate services, and items such as heavyweight printers, wide format printers, large displays and televisions, batteries, paper, furniture/shelving, and other heavy/bulky items that require special delivery. On a case by case basis, up to a 3% credit card transaction fee may apply. Cost for Ancillary Services are provided. See uploaded document "TD SYNNEX response Services Line Card_Pricing_Sourcewell.xlsx"	*
64	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Shipping and Freight Policy Sourcewell participating entities will receive free UPS and/or FedEx ground shipping from products that ship directly from a TD SYNNEX distribution center. This policy excludes expedited shipping costs (overnight, 2 day, etc.) and items over 150 pounds, OCONUS shipments, LTL shipments and/or items that require white glove services, liftgate services, and items such as heavyweight printers, wide format printers, large displays and televisions, batteries, paper, and furniture/shelving.	*
65	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Shipping and Freight Policy Sourcewell participating entities will receive free UPS and/or FedEx ground shipping from products that ship directly from a TD SYNNEX distribution center. This policy excludes expedited shipping costs (overnight, 2 day, etc.) and items over 150 pounds, OCONUS shipments, LTL shipments and/or items that require white glove services, liftgate services, and items such as heavyweight printers, wide format printers, large displays and televisions, batteries, paper, and furniture/shelving. Alternative carriers will used for OCONUS (Outside the continental United States) shipments, to include Alaska, Hawaii, Canada, or any offshore delivery. Shipping cost will vary by order.	*
66	Describe any unique distribution and/or delivery methods or options offered in your proposal.	TD SYNNEX provides logistics support such as outsourced fulfillment, virtual distribution, consignment, and direct ship to end-users to our reseller customers. Other logistics support activities include generation of customized shipping documents, multi-level serial number tracking for customized, configured products, and online order and shipment tracking. • Drop shipments • Same-day shipping o AIT Worldwide o Dynamex • Delivery Services – Parcel, LTL, TL, FTL, Air o FedEx o United Parcel Service (UPS) • 24x7 emergency services • Cross-Dock & Consolidation • Import/Export Management TD SYNNEX offers logistical support capabilities and processes to handle local, regional, and multi-national rollouts. Logistical systems are designed to augment and complement our partners current capabilities, extend their geographical reach, provide technical support, and offer the ability to expand market reach and opportunities with little capital investment by leveraging TD SYNNEX as a business partner.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
67	b. the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
68	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	TD SYNNEX has significant experience owning/managing Public Sector contracts. We have dedicated teams that work with sales teams, resellers, and authorized Sourcewell order fulfillers to provide: • Contract pricing • Collection of contract fees and reporting • Audit As Authorized Resellers are added to the contract, the TD SYNNEX Sourcewell Contract Manager, along with the reseller's dedicated Contracts Administrator, will conduct full training on the contract requirements, pricing, and reporting. Periodic spot-audits will be conducted on each Authorized Reseller's public sector sales to Sourcewell participating entities to ensure accurate identification of Sourcewell contract orders. Sourcewell orders are identified at the time of entry. Once entered, they are "coded" as a Sourcewell order and contract fees are automatically collected. TD SYNNEX sales teams are also required to upload any supporting documentation into each order, if required. The contract administration team audits POS reports for accuracy and submits required reporting. The contract administration team is also responsible for the payment of any contract fees. TD SYNNEX utilizes a proprietary enterprise resource planning (ERP) system called CIS. CIS has been built from the ground up to specifically support all aspects of distribution business needs, including contract administration.	*
69	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	TD SYNNEX has a dedicated team of who are responsible for the overall management of our state contracts. Responsibilities include the coordination of marketing efforts; reseller recruitment and development, quoting, sales, technical support, customer service, post-sales support, reporting and compliance. The TD SYNNEX Contract Manager will periodically review Authorized Reseller sales and work directly with the sales teams to ensure the resellers have the tools needed to be successful with this contract. Non-performing resellers may be removed to allow additional resellers the opportunity to support the Sourcewell participating entities. We will work directly with Cradlepoint as well as our additional vendors to ensure only the best resellers with the required experience are included on this contract. TD SYNNEX will also work with our designated Sourcewell representative to ensure we are meeting Sourcewell's desired results and expected performance.	*

70	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	TD SYNNEX has enjoyed significant success with our current contract administrative fee model contract in a very competitive contractual marketplace. TD SYNNEX requests using the same pricing model that we currently use to drive the success in other SLED contracts we hold. This contract can be a strategic advantage for our dealers who drive the success of this contract. TD SYNNEX requests that contract fees reflect: 0.80% or 80bps for Ericsson/Cradlepoint EP5G products 0.80% or 80bps for Cradlepoint products 0.80% or 80 Bps for Commodity Products 2.00% or 200 Bps for Enterprise Products The Contract Fee is calculated off the Dealer's combined monthly sales based on the total pricing charged to the Sourcewell participating entities. Products are defined as: Enterprise Products are products that are High-End enterprise class Datacenter Server/Storage that support cloud, AI/ML, and data center solutions, that require specific vendor authorization to purchase. Enterprise Product Examples: Hewlett Packard Enterprise HPE Cray XD2000 supercomputer (The architecture can run proficiently with multiple generations of CPUs, GPUs, and interconnects. The HPE Cray EX is designed to support up to 256 dual socket nodes in a single cabinet, as well as support high-wattage CPUs and GPUs.) Cisco Nexus 9000 Series switch (400G-ready and 800G-capable with a power efficient distributed architecture. Managed by Cisco Enterprise Agreements.) HPE Aruba CS 8400 Series data center switches (High-performance 19.2Tbps switching (1.2Tbps/slot) capacity with up to 7.142Bpps for throughput.) Commodity Products are all other products such as servers, networking equipment, and end-point devices such as desktop, laptop, tablets and print devices. Also includes peripheral devices such as monitors, docking stations, UPS/power, telephony, furniture, and other accessories and supplies. Commodity Product Examples: HP Inc. EliteBook 840G8 laptop Lexmark Color All-in-One 4-Series printer Apple iPad Pro 12.9-inch tablet Eaton 5P UPS backup power solution Logitech MX Master mouse New vendors and products that are added during the period of the contract shall follow the same product classification as described above.	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *	
71	Provide a detailed description of the equipment, products, and services that you are offering in your	The TD SYNNEX Private Networks offering consists of: 1. Cradlepoint NetCloud Private Networks (NCPN) - an end-to-end private	

	proposal.	cellular network solution designed for the needs of today's dynamic enterprise IT ecosystems. Complete subscription packages with cloud-native operations enable scalability, plug-and-play deployment, zero-trust access, and single-pane-of-glass management. 2. Ericsson Private 5G (EP5G) - a wireless networking product engineered for the demands of complex industrial operating environments, providing high-speed, secure 4G & 5G connectivity. Easy-to-order, install and manage, EP5G was developed for industrial use, ensuring sensitive data remains secure and onsite. As your needs grow, EP5G offers a range of deployment sizes, ranging from small, medium, large, to extra-large. With seamless evolution and upgradability, Ericsson Private 5G supports every step of your digitalization journey. As a portfolio, both Ericsson Private 5G and NetCloud Private Networks offer complementary value propositions for the enterprise's connectivity needs with simplicity. Discuss your digitalization needs with us and we can find a solution to fit your specific requirements. NetCloud Private Networks: Private cellular networks use LTE or 5G technologies to combine the best of Wi-Fi and public cellular, enabling enterprises to maintain networks with security, reliability, coverage, capacity, mobility, and the predictability required for business and mission critical applications. However, it is not an either-or-scenario when comparing private networks to Wi-Fi and public cellular; they work together to provide better connectivity across the enterprise. Cradlepoint's NetCloud Private Networks (NCPN) is an end-to-end private cellular network solution designed for today's enterprise IT ecosystem and removes the complexities of building private networks by providing a familiar "Wi-Fi-like" experience. NCPN leverages existing network infrastructure investments and simplifies the complexities of private cellular network ownership that have hindered broader enterprise adoption. A cloud-native extension of the Cradlepoint NetCloud Service, it delivers scalability, plug-and-play deployment, a familiar Wi-Fi-like experience, and pathway for simplified IT infrastructure integration – all through a single pane of glass. Initially based on the 4G LTE Citizen Broadband Radio Service (CBRS) spectrum in the USA, NetCloud Private Networks is a cloud-native solution packaged to make it easy for enterprises to prioritize security and Quality of Service (QoS) while also enabling plug-and-play deployments that scale with an API-first design philosophy. NCPN provides an added layer of security over and above SIM-based authentication. The added layer of security is built from the ground up using zero-trust principles and is based on a granular and dynamic policy framework that is core to the architecture. The policies are applied based on the connection's context which includes network, user, device, environment, application, and cellular attributes. Built around a converged 4G/5G cellular core, NetCloud Private Networks (NCPN) has the flexibility to be deployed on the enterprise premises or public cloud, thus enabling enterprises to maintain their data locally while still benefitting from the power of cloud-based configuration and policy management. With this inherent flexibility, the NCPN Mobility Gateway enables secure access to enterprise data services from authenticated cellular endpoints. The NCPN solutions include plug-and-play Cellular Access Points (CAPs) that support the 4G LTE CBRS spectrum band 48. Sometimes referred to as small cells, the CAPs form the private Radio access Network (RAN) that cellular endpoints and clients connect to and are authenticated through the Mobility gateway. CAPs rated for indoor locations and outdoor environments work together to create contiguous private network connectivity across the entire enterprise location. NetCloud Private Networks Values and Benefits: • Simple Process: NCPN is packaged to make building, managing, and maintaining a private network simple, secure, and scalable, perfect for lean IT environments. • Wi-Fi-Like Experience: Bundled in one package, NCPN includes everything needed to set up and run the private network from day one. Existing network and policy frameworks are used to augment or replace the enterprise Wi-Fi solution. • Data Costs: Operational expenditure (OpEx) can escalate in a large-scale private LTE deployment. Endpoints and adapters that are FCC-certified to support Band48 will reduce data costs. • Guaranteed Connection: Private cellular networks provide robust LAN connectivity with fewer radios and less competition for bandwidth. Traffic can be prioritized based on needs – either user-by user- or application-by-application. • Security: Private cellular networks strengthen end-to-end security, from the enterprise-grade endpoints with SIMs to the infrastructure. • Centralized Management: NetCloud Manager (NCM) is one platform to monitor and manage all sites and endpoints. With a single pane of glass, it		

has visibility for all configuration changes, network performance, and security analytics.

Components Included in NCPN

- NetCloud Manager – NetCloud Manager (NCM) is Cradlepoint's secure cloud-based network management service available 24x7 for all Cradlepoint clients. NetCloud Services allow users to transition to a Wireless WAN, delivering an all-in-one subscription. NCM enables clients to deploy, manage, and monitor their NCPN network. Available using the website or mobile app, authorized users can view statistical and operational analytics dashboards and configure their network to fit their needs.

- NetCloud Mobility Gateway – The NCPN Mobility Gateway is deployed as a Virtual Machine (VM) on-premises or cloud-based and performs the core functions on the NetCloud Private Network

- The Cellular Core provides control plan and data plane services to the cellular network and acts as a bridge between the cellular radio components (cellular Aps and UEs) and the enterprise LAN and IP networks.

- The NCPN Mobility Gateway provides cellular functionality and is comprised of four components:
  - Home Subscriber Server (HSS), which supports NetCloud Private SIM authentication
  - Mobility Management Entity (MME), which manages the control plane
  - Serving Gateway (SGW), which manages the user data plane
  - Packet Gateway (PGW), which connects to the external network

- More than one NetCloud Mobility Gateway can be included in a network, allowing the option of enabling High Availability (HA).

- Cellular Access Points (Cellular Aps) – Cradlepoint's indoor and outdoor Cellular Aps are 4G LTE capable with CBRS bands (B48) and provide network access to up to 64 active users per Cellular AP. These Cellular Aps form the private Radio Access Network (RAN) that cellular endpoints and clients connect to and are authenticated through the Mobility Gateway. The ruggedized designs fit for difficult environments include integrated antennas and offer up to 2x2 MIMO with carrier aggregation. Indoor units are easily mounted using a wall or ceiling bracket while outdoor units are mounted to a wall or a pole. All Cellular Aps have a centralized management and operations system and coordinate using NetCloud Manager.

- Subscriber Identity Modules (SIMs) – NetCloud Private SIMs seamlessly fit in with other private mobile network products and provide the secure credentials to connect to the Cradlepoint network. Private SIMs can be traditional physical SIMs (Private SIM) or digital SIMs (Private eSIM).

- Spectrum Access System (SAS) Server – A subscription to a SAS Server is included with a NCPN license. SAS is a cloud-based frequency coordination system that manages the Citizen Broadband Radio Service (CBRS). Spectrum Access service prevents harmful interference to network users and follows established protocols for communication determination by the Wireless Innovation Forum (WinnForum).

- Endpoints – NCPN is supported by a wide range of Cradlepoint endpoints to support a variety of use cases including fixed site, vehicle, IoT and remote work.

Technical Specifications on the Mobility Gateway, Cellular AP, and Private SIMS, see the NetCloud Private Networks (netcloud-private-networks-2023-12-05.pdf) see file TD SYNNEX Response – Additional Document.pdf page 178.

Ericsson Private 5G

Ericsson Private 5G (EP5G) is a next generation 4G and 5G private network tailored to drive the digital transformation of business organization across industries. This high-performance, easy-to-use, and highly reliable cellular connectivity product addresses the industrial market, including indoor and outdoor facilities of all sizes. The EP5G solution consist of both software and services that were developed specifically for EP5G, and of existing Ericsson products. EP5G is an end-to-end tested, fully documented, and complemented by extensive training material. Main features include high capacity, high device density capacity, low latency, and powerful security protocols.

With support for both licensed and shared spectrum such as CBRS, EP5G

		is easy to scale and designed to integrate with public networks to meet future challenges. Long Term Evolution (LTE) and New Radio (NR) technology, also referred to 4G and 5G, are used for compatibility with industry standard devices. EP5G offers: • Simplification: Optimization and simplification of business operations with cloud-based network management. • Reliability: Reliable connectivity with predictable network round-trip time and the ability to accommodate many devices communicating within small or large areas without dead spots. Has zero downtime upgrades and guarantees high performance through Service Level Agreements (SLA). • Device Density: Cellular wireless communication allows for high transmit power and supports higher device density capacity and more predictable performance than competing technology. • Security: Secure 4G LTE and 5G Standalone (SA) connectivity. • Intrusion Protection: Highly resistant to intrusions and attaches, the EP5G solution ensures business critical operations meet the most stringent security requirements. Providing reliable and complete coverage throughout a site, indoor and outdoor. EP5G provides connectivity with low latency, high throughput, and high device density (connected devices per square meter). • Ease of Installation: Easily installed within hours, EP5G can be scaled to support larger coverage areas and more. In summary, NCPN and EP5G offer the full spectrum of Private Network capabilities and can be right-sized for any opportunity or situation. NetCloud Private Networks (NCPN): • End-to-end private cellular network solution. • Cloud-native operations for scalability and easy deployment. • Zero-trust access and single-pane-of-glass management. • Simplified process, security, and centralized management. • Key features include Wi-Fi-like experience, data cost management, guaranteed connection, and security. Ericsson Private 5G (EP5G): • Wireless network product for high-speed, secure 4G and 5G connectivity. • Tailored for industrial use with data security onsite. • Scalable deployment sizes: small, medium, large, extra-large. • Cloud-based network management and seamless evolution. Offers high capacity, low latency, powerful security protocols, and ease of installation. In addition, TD SYNNEX would like to submit our entire product catalog for inclusion in our response to this RFP. With over 2,500 IT manufacturers, the TD SYNNEX proposal offers a broad range of multi-vendor solutions that can be purchased in entirety using the Sourcewell contract without having to utilize multiple contracts to meet their technology needs. We will continue to leverage our proven network of order fulfillment partners to grow this program with incremental revenue currently utilizing other contract vehicles. Our complete catalog of our tier one Original Equipment Manufacturers' (OEM) solutions, with authorized and proven reseller/integrator partners, and world-class program management compliments the overall Cradlepoint solution and brings a one contract approach to procurement for Sourcewell participating entities.	
72	Describe your supported 911 features and the planning, design, implementation and management products, services and process steps required.	911 is not an offered feature at this time for Ericsson EP5G product. NCPN does not support 911, as this is a data only service. OTT voice does work, but not native dialer.	*
73	Describe your solutions, services, and qualifications, for preventing, mitigating, and responding to private wireless network intrusions and attacks.	Radio Network Security: EP5G is fully compliant with standard 3GPP cellular security features, providing highly sophisticated security mechanisms for authentication, authorization, integrity, and confidentiality. EP5G ensures that radio-resource control signaling, and air interfaces are highly secure and immune to illegal intrusions. Encryption keys are stored in the Home Subscriber Server Front End, Authentication Server Function, and Unified Data Management software components that run on the network controllers and the SIM cards of cellular devices. Encryption keys are used for authentication purposes between cellular devices and the EP5G site. The radio resource control signaling between cellular devices and the Mobility Management Entity software component that runs on the network controllers is protected from external manipulation and the inspection using 128-bit AES and EEA 128 ciphers. The user plane and data plane between cellular devices and the baseband or basebands is encrypted using 128-bit AES. Credential Management: Access to the Network Management Portal requires	

a user password that follows strict password security policies. Repeated sign-in attempts with incorrect passwords result in user-account suspension. Additional security using Multi-Factor Authentication (MFA) can be enforced on an organizational level. The MFA functionality uses the Time-based One-Time Password (TOTP) algorithm and supports apps using the RFC 6238 standards.

User-related data, such as user certificates and credentials, is encrypted, both while in storage and while in transit between system components. EP5G implements Role-Based Access Control (RBAC) and Task Based Access Control (TBAC) to reduce the risk of potential attacks and increase security, allowing users to perform only activities approved for their user role.

The common Cellular User Database is stored on-stie only and does not contain information concerning human users that can be classified as private. For technical, troubleshooting or security purposes, basic information on cellular subscriptions, such as the International Mobile Subscriber Identity (IMSI) and International Mobile Equipment Identity (IMEI), can be transmitted through the encrypted connection to the cloud management.

Data stored in the cloud management tool is only stored for technical, troubleshooting, and security purposes and not stored on-stie, or used for any other purposes. The on-site equipment has no information about the users connected to it. The only type of data that is stored in the cloud management tool is admin and user data, such as first and last names, user names, and email addresses.

Data is not collected for bid data analytics or any type of marketing purposes and is not handed over to any external sub-processing companies for further processing.

Handling of SIM Card Authentication Data: For bulk-provisioned SIM cards provided by a SIM-card manufacturer, the secret Operator Code (OP) and Ki is encrypted, and transport keys are used to transfer them between agents. The transport key is exchanged between the enterprise and the SIM-card manufacturer only once, through encrypted communication. More than one transport key can be handled.

SIM-card authentication data is encrypted before it is stored within EP5G, and the decryption is handled automatically during SIM-card provisioning. This means that changing the system OP has no impact on the authentication of SIM cards that were provisioned before the OP was changed.

A Partner can change the OP, for example if the OP was compromised, or for site-administrative purposes.

Identity Concealment: All sim cards are given a unique subscriber identity, IMSI/SUPI, used for identification between a device and a network. To enhance the privacy of the users, the IMSI/SUPI is replaced with temporary identifiers with a SIM card connects to a network. However, authentication with temporary identifiers is only possible after the first time a SIM card has registered with a network.

A Subscription Concealed Identifier (SUCI) can be used to encrypt the subscriber identity for 5G SIM cards, maintaining privacy when registering with a network for the first time (or if the temporary identifier has been corrupted or lost). When encrypting through SUCI, a key pair consisting of a public key and a private key are used for encryption and decryption. The public key must be written to the SIM card during the Sim-card production and is used by the device to encrypt its subscriber identity. The private key must be provisioned to the network and is used for decryption.

EP5G has implemented two different ways to provision a network key pair:
- The key pair is generated by EP5G. The private key remains inside the EP5G network and stays safely stored on the network controllers. The public key is retrieved through the partner API and can be sent to the SIM-card manufacturer for production of the SIM cards.
- The key pair is generated by the CSP. The private key must be transferred to the EP5G network through the partner API for safe storage on the network controllers. The public key remains with the CSP and can be sent to the SIM-card manufacturer for the production of SIM cards.

1) Note: the possibility to use 5G identity concealment with the EP5G SIM-card writer is not yet implemented.

Connection to Cloud Management: The connection to the cloud management

is secured with Transport Layer Security (TLS) using Advanced Encryption Standard (AES) 256 with authentication through a unique private key for each network controller. The validity and authenticity of the certificate is verified by the trusted Certification Authority (CA) of Ericsson, each time a communication session is established. The certificates have a finite validity and are refreshed periodically.

Perfect Forward Secrecy (PFS) is enabled to ensure proper protection against side-channel attacks like Heartbleed or other cyber-security attacks using similar infiltration methods. Connections are only established from the network controllers to the cloud management, providing full visibility and control over connections.

During the network controller setup, the following occurs:
1) The network controllers connect to a Demilitarized Zone (DMZ) server through a secure connection.
2) The DMZ server verifies the network controllers, ensuring that they are original EP5G equipment and that no tampering has occurred.
3) The latest EP5G software is pushed to and installed on the network controllers.
4) The network controllers are assigned to a site in the Network Management Portal (NMP). This process establishes a dedicated VPN tunnel between each network controller and the cloud management, and from this point on, all management traffic is sent through it.
5) All site-specific configurations and data are pushed to the network controllers.
6) Hardware and software components, such as the radio equipment and the core network functions, are configured and started.

EPG site belonging to the same organization are isolated from other sites on a network level within the cloud management to ensure secure tenant isolation and prevent data leakage.

Cloud API: The Cloud Application Programming Interface (API) enables the integration of customized cloud applications with EP5G. The Cloud API is centered around the monitoring of Key Performance Indicators (KPIs), segments, and SIM card entries for cellular devices.

The Cloud API is based on the Representational State Transfer (REST) software architectural style and the JavaScript Object Notation (JSON) data-interchange format. Traffic is encrypted and transferred using Transport Layer Security (TLS) and Hypertext Transfer Protocol Secure (HTTPS).

Ericson does not provide a client Software Development Kit (SDK), but the Cloud API can be used with any HTTPS and JSON-enabled client software or library.

To authenticate calls to the API, the following access details are needed:
- API key
- Based URL
- Organization ID
- Site ID of the target system

Site Admins, Security Admins, and any support agents with access to a site can generate the required access details through the Network Management Portal (NMP). To view the full EP5G API specification, request access to the EP5G Portal from Ericsson Tier 2 support at support@ericsson.zendesk.com.

Integration at the Customer Site: While the cellular air-interfaces and the control signaling of EP5G can be considered fully secure, the following connections are not secured by EP5G and require consideration:
- The wired connections between a cellular gateway and connected devices
- The wired connections between the network controllers and the enterprise LAN
- The wired connection from the network controllers toward the cloud management

If there are concerns that the preceding wired connections impose a threat on the security baseline of the Operational Technology (OT), further consideration is required. For example, end-to-end security can be applied by using Transport Layer Security (TLS) together with certificate authentication.

Depending on the applied end-to-end security solution, deep packet inspection and stateful firewall policies might not work, and cellular gateways might need to add certain addresses, subnets, and ports to the routing or

forwarding allowlists.

Note: It is recommended to have the EP5G equipment rack caged and securely locked in a location with limited staff access, featuring access control and audit capabilities.

Data Privacy: The cloud management infrastructure holding data is owned by Ericsson Private 5G, making Ericsson the sole data processor from an EU GDPR perspective.
Note: Ericsson is not the sole data controller. Customers and partners of Ericsson can create and manage their own Ericsson Private 5G users.

Payload Data: Payload data, such as the data transmitted among devices in the private cellular network, is never transmitted through the cloud-management connection. EP5G currently supports only 3GPP packet data communication services. Any end-customer implementation of voice services using Over-the-Top (OTT) applications is transparent to EP5G and treated as any other payload data.

Depp package inspection functions are not enabled. There is no inspection, storage or analysis of payload packets. There is physical and logical traffic separation between the cloud-management connection and the connections to the cellular radio network and enterprise LAN.

Cradlepoint's comprehensive approach to security across all seven layers of networking ensures robust protection against a wide range of cyber threats and vulnerabilities.

Continuous Monitoring
This involves persistent oversight across all network layers, ensuring that any anomalies or threats are detected promptly.

Regular Internal, External, and Database Vulnerability Scanning
These scans are performed across all layers of the network to identify and mitigate potential vulnerabilities.

Semi-Annual Penetration Testing
This includes testing on both web applications and the network, assessing the resilience of all layers against intrusion attempts.

Zero-Trust Security Architecture
The architecture is built on zero-trust principles, meaning it does not automatically trust anything inside or outside its perimeter and instead verifies everything trying to connect to its systems before granting access.

Granular and Dynamic Policy Framework
The policies adapt based on the context of the connection, considering various factors like network, user, device, environment, application, and cellular attributes, across all network layers.

NetCloud Customer Data Segregation
NCM is a multi-tenant public-cloud SaaS solution, ensuring scalability and data protection. This segregation is crucial for protecting sensitive data and maintaining its integrity.

Encryption and Restricted Access
Customer data in Cradlepoint's production environment is encrypted both at rest (AES256) and in transit (TLS 1.2). Additionally, customer and device tokens are used to programmatically restrict queries to appropriate customer data, further ensuring that only authorized personnel can access sensitive information.

The following features collectively ensure the security of data in motion, protecting it from interception, unauthorized access, and other potential security threats:

Controlled and Monitored Environment
Cradlepoint's production environment is strictly controlled and monitored. This level of control and monitoring ensures that data in transit is protected against unauthorized access and potential vulnerabilities.

Programmatic Restrictions
Customer and device tokens are used to programmatically restrict queries to appropriate customer data, enhancing the security of data transmission.

Firewalls and Intrusion Detection/Prevention

		Cradlepoint implements an intrusion detection/protection system (IDS/IPS) throughout its product cloud infrastructure. This system likely includes firewalls and other mechanisms to detect and prevent unauthorized access and malicious activities. Access Control Access control is maintained through customer and device tokens, which programmatically restrict queries to the appropriate customer data. This level of control helps in preventing unauthorized access and ensures that data is accessed only by authorized personnel. Disaster Recovery Cradlepoint's cloud services are hosted within Amazon Web Services (AWS), which provides robust physical security, redundancy, and recovery capabilities. This includes features like externally audited data centers, continuous monitoring, multiple availability zones, and offsite backups. These measures contribute significantly to disaster recovery capabilities, ensuring that services can be maintained or quickly restored in the event of a disaster. Cloud Security ZTNA and Secure Access Service Edge (SASE) vet users and optimize data flow by inspecting traffic and applying policies based on one set of criteria. SASE — combining SD-WAN and network security capabilities into a single service model — includes Cloud Access Security Broker (CASB), Secure Web Gateway (SWG), and Firewall as a Service (FwaaS). ZTNA ensures trusted users and traffic connect to cloud-based and SaaS resources with the same restrictions as within organizational zones
74	For each of the industries listed below (as applicable), describe your understanding of the typical challenges, opportunities, use cases, and solutions for: -Airports -Cities/Governments (local and federal) -Universities/Stadiums -K-12 -Healthcare -Ports/Warehouses -Other	Airports: Challenges: • Turnaround Delays: Impacting on-time departure performance. • Operational Inefficiency: Driving up operational costs. • High-Cost MRO: Increasing demand for maintenance, repair, and overhaul labor. • Customer Experience: Need for more control and reduced waiting times. • Safety and Security: Enhanced measures, especially in the post-COVID-19 context. • Environmental Protection: Focus on reducing CO2 emissions. Example Use Cases: • Push to Talk – Voice, Video, Data: Improving communication efficiency. • Luggage Tracking: Enhancing tracking and management of luggage. • Aircraft Telematics Data Offload: Efficient data transfer for operational analysis. • Autonomous Baggage Dolly: Improving financial sustainability and environmental protection. • AGV-Baggage Handling: Streamlining baggage handling processes. • AR Wayfinding: Enhancing customer experience and reducing environmental impact. • Potable Water System Management: Optimizing water usage and management. • Elevator and Escalator Management: Efficient management of airport facilities. • Baggage System Management: Streamlining baggage handling and tracking. • Facial Biometric for Boarding: Enhancing security and customer experience. Solutions: Robust wireless networks for wide coverage, real-time data processing. Cities/Governments: Challenges: • Ensuring universal high-speed connectivity • Bridging the digital divide • Enhancing public safety and emergency response • Supporting smart city and IoT applications • Managing and analyzing large volumes of data for decision-making Example Use Cases:

- Smart traffic management and autonomous vehicles
- Public safety applications, including real-time surveillance and emergency response
- Environmental monitoring and sustainability initiatives
- Enhanced public services through IoT (waste management, lighting)
- Remote education and healthcare services

Solutions: Integrated network solutions for seamless service delivery, enhanced communication systems.

Universities/Stadiums:

Challenges:
- Traditional coverage solutions do not scale well
- Adding capacity requires headend expansion
- Remote unit and coax installation is expensive
- Difficult to provide cost effective capacity densification where needed

Example Use Cases:
- Coverage and capacity for students, faculty, and staff
- IoT devices for asset tracking, environmental monitoring, and smart building management
- Campus security and safety
- Research and innovation at innovation labs
- Mobile applications for accessing campus resources and services
- Smart parking, letting drivers know where cars can be parked
- AR/VR labs for immersive educational experiences
- Digital signage, allowing administrators to provide up-to-date information easily
- Stadiums, ensuring a positive game experience for fans *

Solutions: Scalable networks for high-density areas, advanced security features.

K-12:
•

Challenges:

- Remote Learning Connectivity: Ensuring high-bandwidth and reliable internet for distance learning.
- Digital Divide: Variance in household internet access affecting online learning.
- IT Support Limitations: Managing network configurations and troubleshooting remotely.
- Budget Constraints: Offering citywide Private LTE network affordably.

Example Use Cases:

- CBRS Spectrum Utilization: Leveraging cost-effective cellular network control and reduced operational expenses.
- Private LTE for Education: Deploying Cradlepoint's Private LTE routers to support remote learning.

Cloud-based Network Management: Utilizing NetCloud Service for security and configuration.
Solutions: Secure, reliable networks for educational content delivery, administrative efficiency.

Healthcare:

- Challenges:
- Data security
- Uninterrupted connectivity.
- Need for robust connectivity to overcome data silos
- Potential of edge applications in medical diagnostics and research
- Reliable data transfer and comprehensive coverage within healthcare facilities.

Use Cases:
- Telemedicine
- Patient data management
- Ambulance connectivity

		• Medical equipment • Asset management • Patient kiosks Solutions: Secure networks with high uptime, support for healthcare applications. Ports/Warehouses: Challenges: • Limited Yard Space: With increasing shipping volume and vessel size, optimizing yard and terminal operations is crucial. • Environmental Sustainability: Regulatory mandates require significant reduction in greenhouse gas emissions. • Digital Transformation (Ports 4.0): Need for automation and connectivity to enhance efficiency and safety. • Congestion and Gridlock: Yard congestion leads to inefficiencies and environmental impact. • Worker Safety: High risk of injury due to heavy cargo and dangerous equipment. Use Cases: • Condition Monitoring: Real-time monitoring of equipment to detect potential faults. • Automated Guided Vehicles (AGVs): Reducing accidents and improving safety with AGVs. Drones for Surveillance and Deliveries: Enhancing port security and efficiency in deliveries. • Smart Cranes with Automation and Remote Control: Increasing loading speeds and efficiencies with automated cranes. Solutions: Wide-area networks for real-time tracking, automated logistics. Other Industries: Tailored solutions based on specific industry needs, leveraging private network capabilities for enhanced efficiency and security.	
75	Describe your PWN solutions regarding IoT use cases and associated deployment maturity (ex: conceptual, lab, pilot in-progress, pilot complete, permanent deployment in-progress, permanent deployment fully commissioned, and project closed out). Describe your experience with both simple and complex IoT deployments.	Ericsson Private 5G accommodates a wide variety of use cases for both indoor and outdoor environments while integrating well with business operations, devices, and applications. As a result, companies can improve productivity, give their customers more value, and provide better working environments for employees. EP5G supports many use cases such as dynamic reconfiguration of manufacturing machines on factory floors. Additional use cases include using untethered mobile robots and drones or autonomous cranes in ports. Providing local voice services for mission critical communication, connecting mines above and underground, and monitoring asset locations are also supported. Ericsson has deployed multiple permanent, fully commissioned and commercially available Private 5G networks in the US, Canada and around the world. Cradlepoint's NetCloud Private Network (NCPN) solution for IoT use cases has been designed to provide robust, secure, and scalable connectivity for a wide range of IoT applications. NCPN enables seamless integration of IoT devices across various sectors, including manufacturing, healthcare, logistics, and smart cities. With advanced features like high bandwidth, low latency, and strong security protocols, NCPN ensures efficient data collection, real-time monitoring, and control of IoT devices, facilitating improved operational efficiency and data-driven decision-making.	*

76	Describe your solutions, services, and best practices for designing and deploying multiple geographically separated sites, as one PWN network (ex: two airports owned and operated by a city, extending enterprise systems) and as separate networks.	Multi-Location Sites: Ericsson Private 5G (EP5G) includes functionality to support sites that are distributed over multiple locations. NMP Locations: Within the NMP, it is possible to define multiple locations within a site. To distinguish these locations from the general concept of a location (a place), we refer to them, within the EP5G documentation, as NMP locations. The two network controllers and one or two Router 6675 units (if the site includes routers) are always added to one NMP location, the “default” NMP location, which is created automatically as part of site creation. The installer can choose to create additional NMP locations within the site. Basebands can be added to the same NMP location as the network controllers and to other NMP locations. Notes: • The connections between the network controllers and basebands can be direct links or be facilitated by one or two router 6675 unites. When facilitated by the router(s), the connections between the router(s0 and the basebands must be direct links. • Devices can move between the coverage areas associated with all NMP locations of a stie without having to replace SIM-cards. • Use Cases: The concept of multi-location sites can be used for two different, sometimes overlapping, purposes: To correspond with coverage areas • To correspond with the locations (places) where basebands are installed As an example of the first purpose, two basebands are installed in the same rack but they can each connect to radio equipment that provide coverage to two different areas on the enterprise premises. The basebands are then added to two different NMP locations, even though they are both installed in the same rack. As an example of the second purpose, two basebands are installed in different buildings. The radio equipment that connects to each baseband together provide coverage for one large area. The two basebands are added to separate NMP locations that relate to where they are installed rather than having anything to do with coverage areas. One use case that requires the arrangement in the second example is if the site only includes two baseband that connect directly to the network controllers without a router or routers. Because of two basebands are in different buildings and do not get GNSS synchronization from a router or routers, they each need separate GNSS synchronization. Within the NMP, delay compensation for GNSS synchronization is configured per NMP location. When using the GNSS Sync packages to provide GNSS synchronization to the basebands, the cables between GNSS antennas and receivers will have different lengths, so to configure GNSS delay compensation correctly, the basebands must be added to separate NMP locations. Notes: • Radio Processor 6339 is delivered with the dedicated GNSS equipment, including GNSS antenna that is mounted on the baseband itself. If both basebands are of type Radio Processor 6339, they can be added to the same NMP location if desired. This is possible because the cabling lengths are always the same which means that the required GNSS delay compensation will also be the same. • For sites with one or two router 6675 units, the GNSS receiver or receivers are connected to the router or routers that are included in the default location. All basebands receive synchronization form the router or routers and GNSS delay compensation is configured only for the default location. NCPN supports SIM groups, and Radio Groups. Radio Groups (geographically separate sites or networks) can be associated to multiple SIM groups, so the devices can roam among multiple NCPN networks.	*

77	Describe your products and services offered for: -Maintaining seamless and continuous connectivity of EUDs -Traversing between PWNs of the same and different PWN manufacturer solutions -Ownership by the same (ex: delivery trucks driving between local, regional, national warehouses) and different Enterprise (ex: aircraft interoperability between airport PWNs)	Ericsson Private 5G is fully compliant with standard 3GPP cellular features and supports mobility, session continuity and seamless connectivity. Cradlepoint's SD-WAN solution, NetCloud Exchange (NCX) is uniquely positioned to ensure seamless and continuous connectivity fo EUDs across diverse environments including PWNs. Our products and services excel in the following key areas: Maintaining Seamless Connectivity of EUDs: Cradlepoint's SD-WAN is designed to provide uninterrupted connectivity for EUDs, ensuring a seamless user experience even in dynamic and challenging network conditions. Built from the ground up with a focus on cellular connectivity, NCX optimizes network paths, mitigates latency, and intelligently manages traffic to guarantee a reliable and consistent connection. Traversing Between PWNs of Different Manufacturers: NCX SD-WAN is interoperable across Private Wireless Networks from various manufacturers. NCX excels in seamlessly traversing between PWNs, whether they are from Ericsson, Cradlepoint or third-party manufacturers. This flexibility ensures compatibility and efficient data transfer, enabling organizations to deploy a heterogeneous network infrastructure without compromising connectivity. Supporting Ownership by the Same and Different Enterprises: Cradlepoint's SD-WAN caters to diverse enterprise scenarios, including ownership by the same enterprise (e.g., delivery trucks moving between local, regional, and national warehouses) and different enterprises (e.g., aircraft interoperability between airport PWNs). Our solution offers robust security, intelligent traffic management, and seamless transitions between networks, facilitating efficient data communication and connectivity across a spectrum of ownership scenarios. In summary, Cradlepoint's NetCloud Exchange (NCX) solution is the ideal choice for maintaining connectivity, traversing diverse PWNs, and supporting ownership scenarios within and between enterprises, making it a comprehensive and reliable solution for private cellular networks	*
78	Describe how your solutions and offerings will support future load-sharing of wireless communications between WiFi, Distributed Antenna Systems (DAS), CBRS, and other communications technologies.	Load sharing between different technologies is dependent upon the end user devices for the technology they have a preference to connect for communication. If customer has different access technologies and common application/enterprise applications server. Enterprise user can talk to applications with different technologies as far as they have common Enterprise application servers.	*

79	Describe how your PWN can operate and be managed as a converged, unified, and integrated extension of other enterprise telecommunications networks and infrastructure solutions (cabled and wireless).	Enterprise-LAN Connection: EP5G requires a connection to a wired network on the premises, referred to in this document as the enterprise LAN. The logical interface on the network controllers used to connect to the enterprise LAN is Ext-O. The enterprise LAN is used to facilitate traffic using the Virtual Router Redundancy Protocol (VRRP), required by the segment-to-VLAN mapping functionality, including traffic between the network controllers. Therefore, the networking equipment in the enterprise LAN must provide bridging between the two network controllers. The connection to the enterprise LAN must use static IP address assignment. DHCP is not supported. EP5G functions as a router between the cellular network and the enterprise LAN, so the following IP-address ranges must be considered: • IP-address ranges used on the enterprise LAN • IP-address ranges used internally by the EP5G system • IP-address ranges assigned to segments in the Network Management Portal and used to assign IP addresses to the SIM cards of cellular devices. Careful planning is required to avoid IP-address conflicts. For more information, see document Network Preparations. Segments and VLANs: EP5G uses network segments for traffic separation and for managing quality of service. For more information about IP addresses and segments, see About Segments and IP Address Ranges on page 30. For more information about managing quality of service, see Quality of Service on page 32. See file TD SYNNEX Response – Additional Document.pdf page 187. During installation of EP5G, default network segment is created. As part of the installation, the installer is asked to input the IP address for a DNS server on the enterprise LAN. Once installation is complete and the site is active, IP addresses for DNS servers on the enterprise LAN are configured on a segment level. The DNS server IP address set during installation can be changed through editing the default segment. The enterprise LAN DNS server for each segment must be reachable through the VLAN that each segment is mapped to. Enterprise IT and industrial OT networks typically use VLANs. EP5G includes support for VLANs by mapping network segments to VLANs, enabling end-to-end traffic isolation across the cellular network and the enterprise LAN. VLANs can be added, edited, and removed from the Network Management Portal. The mapping works so that: • A network segment on the cellular radio network can be mapped to one VLAN on the enterprise LAN, tagging the network segment's traffic with a configurable VLAN ID. • Multiple network segments can be mapped to the same VLAN. Note: In the initial state after a site has been set up, all traffic will be untagged by default. Tagged traffic will not work until the customer configures the VLAN Support feature with at least one tagged VLAN. The segment to VLAN mapping has the following requirements and limitations: • For each additional VLAN created by the customer, three additional IP addresses, unused on the enterprise LAN are need – two for the network controllers and one for the VLAN itself. The segment to VLAN features uses Virtual Router Identifiers (VRID). One VRID unused on the enterprise LAN is needed for each VLAN.	*
80	Describe your ability to integrate with distributed antenna systems.	The EP5G domain proxy includes support for Passive DAS (Passive Distributed Antenna System). Passive DAS is a clustered installation of antennas to extend cellular network coverage in areas without adding additional radios. Multiple passive antennas are connected to the radio through one or more splitters to the cover a larger area. NCPN is based on CBRS which operates as an alternative to distributed antenna systems (DAS) and Wi-Fi.	*

81	Describe your PWN solutions regarding IoT use cases and associated deployment maturity (ex: conceptual, lab, pilot in-progress, pilot complete, permanent deployment in-progress, permanent deployment fully commissioned, and project closed out).	Developed and optimized for use cases, Ericsson Private 5G accommodates a wide variety of use cases for both indoor and outdoor environments while integrating well with business operations, devices, and applications. As a result, companies can improve productivity, give their customers more value, and provide better working environments for employees. EP5G supports many use cases such as dynamic reconfiguration of manufacturing machines on factory floors. Additional use cases include using untethered mobile robots and drones or autonomous cranes in ports. Providing local voice services for mission critical communication, connecting mines above and underground, and monitoring asset locations are also supported. Ericsson has deployed multiple, permanent, fully commissioned and commercially available Private 5G networks in the US, Canada and around the world. With NCPN, the unmatched capacity of 5G means more devices can be connected to the network at once — in some cases, as many as 1 million devices per square kilometer (0.386 square miles). Many of these devices require large amounts of bandwidth to perform their designated functions. This includes applications for robust smart cities, AI-enabled image recognition, immersive and interactive kiosks, real-time digital signage, and more.	*
82	Describe your approach, process, and timeline for testing and implementing software updates to the PWN.	Fully tested updates/upgrade to the Ericsson Private 5G systems are included as part of the subscription service. These are made available thru the Network Management Portal (NMP). When a new software update becomes available, the Site Admin is asked to schedule a time for the update to happen to avoid any disruptions to customer operations. Updates to the network controller software are always performed consecutively. Management capabilities are temporarily disabled, and one network controller is taken out of service. There is a brief service disruption for traffic that was handled by the out-of-service network controller as the baseband reallocates the traffic to the other network controller. NetCloud OS (NCOS) has a monthly release schedule with each release possibly including new features, UI & usability changes, defect fixes, or security fixes. Any changes included in each release are documented in the monthly release notes and the PDF downloads are provided on the Cradlepoint Connect website. Release notes are available for 24 months.	*
83	List and describe your various core solution options offered (ex: on-premises, cloud, hybrid, distributed, core services platform) and key differentiators. For each solution, describe the your experience deploying and managing the solution.	EP5G includes core services platform on premises that offers resiliency with redundant network controllers, which means there are two network controllers with two dual-mode core instances always deployed in active-active mode. If one network controller fails, devices reconnect to the other network controller. Device IP addresses are preserved to enable service continuity. The EP5G solution supports Mixed Mode deployment meaning it can support 4G and 5G RAN operations in parallel.	*
84	Describe your solutions for connecting end user devices that do not natively support PWNs. Note which of your solutions apply to 4G, 5G, and 4G/5G combined networks.	The EP5G solution supports LTE,NR and Mixed Mode deployment meaning it can support 4G and 5G RAN operations in parallel. The end user devices that do not natively connect to PWN's can be connected to a 4G or 5G gateway, router, or modem (e.g., Cradlepoint R1900) which can then connect to the PWN. EP5G supports routing behind mobile station feature. Routing behind Mobile Station (MS) allows enterprises to connect several devices behind a 4G or 5G gateway, router, or modem. 4G or 5G routers supporting this feature can assign different subnets for devices behind them. These subnets are also mapped in EP5G and are made reachable from the enterprise LAN.	*
85	Describe your mobile edge computing (a.k.a. multi-access edge computing) (MEC) PWN solutions and their key differentiators. For each, describe your experience deploying and managing the solution, as well as associated use cases.	Multi-Access Edge Computing moves the computing of traffic and services from a centralized cloud to edge of the network. These servers can be connected directly to the Enterprise network through a router and Enterprise network users can get data to/from those MEC applications through the private network.	*

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types of equipment, products, and services are offered within your proposal. Provide an additional explanation in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments	

86	Assessment and strategy	(•) Yes ( ) No	With the increase in network management needs, customers are looking to partners for support, from providing a differentiated offering to managing an enterprise customer networking infrastructure. TD SYNNEX' reseller partners sell Cradlepoint solutions as well as additional services such as design, integration, and implementation. TD SYNNEX' Authorized Partners will be the main points of contact for any customer's specific use case. These Partners are specialists in the NCPN solution through training, lab installations and testing, and Cradlepoint's verification of the Partner's on-site lab. These Partners are experts in assessing the customers' needs and working up the strategy for implementation of the NCPN solution from concept to installation and verification.	
87	Network design, migration, and deployment, including network configuration and Spectrum Access System (SAS) registration	(•) Yes ( ) No	TD SYNNEX' Cradlepoint-Authorized Partners are trained and equipped to design, migrate and deploy the NCPN solution. A subscription to a SAS Server is included with a NCPN license and will be set up as part of the NCPN deployment.	*
88	Acquisition and installation of needed equipment to support the private wireless network	(•) Yes ( ) No	Cradlepoint products are sold through and installed by a network of trained, certified, and trusted Partners. NCPN specialization requires Partners to: • complete technical and sales training • be CBRS certified installer (required by FCC); • complete NCPN Solution Engineer training; • create a lab environment at partner facility and validated by Cradlepoint; • document project management process for PCN deployments; • maintain competency in RF planning & design platforms; • maintain competency in Private cellular or Enterprise Wi-Fi; • maintain technical proficiency in packet core architecture; • maintain a strong understanding of routing and switching fundamentals; • offer professional installation services including structured cabling & low voltage; and • be licensed and bonded in the state(s) of operation and conform to national electric standards and codes.	*
89	Ongoing operations, maintenance, planning, expansion, and upgrading of the private wireless network and related components	(•) Yes ( ) No	An active, continuous, and fully paid-up NetCloud subscription includes access to Cradlepoint support for operations, maintenance, and warranty support. NetCloud Private Networks are built to scale with your business, helping you solve real-world business challenges and offer the flexibility to embrace new ways of doing business. NCPN expansions and upgrades.	*
90	Related network component solutions, such as private wireless network (PWN) cores, SIMs, radio access networks (RANs), gateways, end user devices (EUDs), network management tools, and products	(•) Yes ( ) No	The full Cradlepoint catalog offers the full suite of network components to build an end-to-end private cellular network. In addition to the products listed, the Cradlepoint offering includes a robust single-pane-of-glass network management tool, SASE security, continuous training and support. Training, warranty and support are included with a NetCloud subscription at no additional cost. NetCloud Private Networks (NCPN) utilizes a unified cloud management and orchestration experience that delivers SD-WAN, enterprise-class security, cellular intelligence, and advanced analytics at the edge through full interoperability with NetCloud Manager (NCM) — all managed through a single pane of glass. NCM intelligently integrates the CBRS Spectrum Access System (SAS) to manage and prevent interference. To optimize network coverage and QoS, RF planning tools are included as part of NCM. Mobility Gateway Built around a converged 4G cellular core, NCPN has the flexibility to be deployed on the enterprise premises, thus enabling enterprises to maintain their data locally while still benefitting from the power of cloud-based configuration and	

			policy management. With this inherent flexibility, the NCPN Mobility Gateway enables secure access to enterprise data services from authenticated cellular endpoints. Cellular Access Points The NCPN solution includes plug-and-play Cellular Access Points (CAPs) that support the 4G LTE CBRS spectrum band 48. Sometimes referred to as small cells, these CAPs form the private Radio Access Network (RAN) that cellular endpoints and clients connect to and are authenticated through the Mobility Gateway. CAPs rated for indoor locations (A2400) and outdoor environments (A2405) work together to create contiguous private network connectivity across the entire enterprise location. NetCloud Private SIM-Enabled Routers and Endpoints Subscriber Identity Module (SIM) cards are critically required by every cellular network to authenticate edge devices such as cellular routers/adapters and cellular clients such as cell phones, tablets, and barcode scanners. In fact, any device that incorporates a Cradlepoint Private SIM card or Private eSIM can gain controlled access to NCPN — including third-party endpoints and routers. However, to realize the benefits of a fully converged and centrally managed system, Cradlepoint CBRS routers and adapters are the preferred endpoint solution for connections to the LAN or SIM-less edge devices. WAN Edge Router The WAN Edge Router connects the on-premises equipment, including the Mobility Gateway and Cellular Access Points (CAPs), to the Internet and remote data centers. Depending on the deployed NCPN architecture, the WAN Edge Router may also connect remote CAPs at a site to a centralized Mobility Gateway in a datacenter. For the best end-to-end management, policy orchestration, and user experience, this WAN Edge Router may be a Cradlepoint device, but third-party devices are also compatible with NCPN and may be a better fit for some network architectures. Private Network Endpoints Cradlepoint routers and adapters are fully compatible with NetCloud Private Networks and Ericsson Private 5G and feature end-to-end cloud management, orchestration, and security solutions. Choose your endpoint with specialized product attributes including PoE, Wi-Fi 6, container orchestration, hazardous location ruggedization, gigabit Ethernet, and many more. Cradlepoint Authorized Resellers are experts in understanding a customer's needs and will work proactively with the customer to ensure related network component solutions are included in the full NCPN product.	

Table 14C: Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types of equipment, products, and services are offered within your proposal. Provide an additional explanation in the text box provided, as necessary.

Line Item	Category	Product/Service	Offered	Explain *
91	System Features and Capabilities:		(•) Yes ( ) No	See below.
92		Multi-tenant support (network segmentation/slicing)	(•) Yes ( ) No	Yes. Enterprise-LAN Connection: EP5G requires a connection to a wired network on the premises, referred to in this document as the enterprise LAN. The logical interface on the network controllers used to connect to the enterprise LAN is EXT-0. The enterprise LAN is used to facilitate traffic using the Virtual Router Redundancy Protocol (VRRP),

				required by the segment-to-VLAN mapping functionality, including traffic between the network controllers. Therefore, the networking equipment in the enterprise LAN must provide bridging between the two network controllers. The connection to the enterprise LAN must use static IP address assignment. DHCP is not supported. EP5G functions as a router between the cellular network and the enterprise LAN, so the following IP-address ranges must be considered: • IP-address ranges used on the enterprise LAN • IP-address ranges used internally by the EP5G system • IP-address ranges assigned to segments in the Network Management Portal and used to assign IP addresses to the SIM cards of cellular devices. Careful planning is required to avoid IP address conflicts. Segments and VLANs: EP5G uses network segments for traffic separation and for managing quality of service. For more information about IP addresses and segments, see About Segments and IP Address Ranges on page 30 (See file TD SYNNEX Response – Additional Document.pdf page 222) . For more information about managing quality of service, see Quality of Service on page 32 (See file TD SYNNEX Response – Additional Document.pdf page 224). During installation of EP5G, default network segment is created. As part of the installation, the installer is asked to input the IP address for a DNS server on the enterprise LAN. Once installation is complete and the site is active, IP addresses for DNS servers on the enterprise LAN are configured on a segment level. The DNS server IP address set during installation can be changed through editing the default segment. The enterprise LAN DNS server for each segment must be reachable through the VLAN that each segment is mapped to. Enterprise IT and industrial OT networks typically use VLANs. EP5G includes support for VLANs by mapping network segments to VLANs, enabling end-to-end traffic isolation across the cellular network and the enterprise LAN. VLANs can be added, edited, and removed from the Network Management Portal. The mapping works so that: • A network segment on the cellular radio network can be mapped to one VLAN on the enterprise LAN, tagging the network segment's traffic with a configurable VLAN ID. • Multiple network segments can be mapped to the same VLAN. • Note: In the initial state after a site has been set up, all traffic will be untagged by default. Tagged traffic will not work until the customer configures the VLAN Support feature with at least one tagged VLAN. The segment to VLAN mapping has the following requirements and limitations: • For each additional VLAN created by the customer, three additional IP addresses, unused on the enterprise LAN are need – two for the network controllers and one for the VLAN itself. • The segment to VLAN features uses Virtual Router Identifiers (VRID). One VRID unused on the enterprise LAN is needed for each VLAN. NCPN allows network slicing by SIM Group. For example, an enterprise could deploy a private LTE	*

				network in a factory to assign different QoS levels to assets including security cameras, sensors, automated guided vehicles (AGVs), employee tables, and more. With SIM-based slicing, the enterprise can place subsets of devices on individual slices to achieve specific performance and traffic management goals. Enterprises can leverage traffic handling capabilities by prioritizing SIMs on a private cellular network. Businesses can achieve desired QoS with the added benefit of having more control over the traffic on their network. Enable SIM based slicing by following these simple steps: • Grouping: Assign SIMs (devices) to logical groups that will have the same QoS SLAs. • Access: Decide which networks and subnets a slice can access. • Performance: Assign QoS Class Identifiers (QCI) and throughput rate limits based on desired service levels. • Integration: Assign a DSCP value to define how the slice traffic will be prioritized on the wired LAN. NCPN SIMs can be associated with multiple NCPN networks to allow for private-to-private NCPN roaming.	
93		Roaming from: Private-to-public networks Public-to-private networks Private-to-private networks	◉ Yes ○ No	Ericsson Private 5G supports the configuration of an external PLMN to allow externally created SIMs (that are based on the external PLMN) to connect to the private 5G network. The external SIMs must have the Private PLMN configured as an Equivalent Home PLMN (EHPLMN), and the IMSI and keys of the SIM must be provisioned using the bulk provisioning API. If the IMSI and keys are also provisioned in another (typically private) network, a device using the SIM will be able to connect to both networks. The condition (such as network coverage loss) at which the device will switch between the network is subject to device behavior. Private-to-Private is a feature of NCPN, as a SIM can be associated to multiple NCPN networks. Private-to-public and public-to-private are not currently supported.	*
94		Performance monitoring	◉ Yes ○ No	EP5G provides Service Level Agreement (SLA) monitoring and Key Performance Indicated (KPI) tools. The performance of a site will be verified at installation and handover. The Watchdog app, available for Android-based devices and as headless software running on a custom industrial gateway, referred to as the industrial Watchdog device, allows constant monitoring and verification of the system network performance. The performance monitoring is displayed on the screen of Android-based devices and in the Network Management Portal. EP5G has different monitoring options. The NMP enables users to perform the following actions: • React on alarms and events • Monitor system security status through the NMP Security Dashboard • Identify equipment status presented on the NMP Dashboard • Identify parts of the network that are disabled or malfunctioning • Solve basic network malfunctions • View spectrum usage NetCloud Manager (NCM) offers a variety of dashboards where you can monitor the components	

				of your NetCloud Private Network (NCPN). • Private Cellular Dashboard: From the Dashboard page you can monitor traffic usage and clients of your NCPN. The page display the following tiles: - Traffic Usage - Connected Clients - Traffic Usage by SIM Group - Connected Clients by SIM Group • Mobility Gateway Dashboard: The Home tab displays cards about each interface (Management, PDN, SECGW, and WAN) of a Mobility Gateway. Information about each interface includes the following: - Name: Interface Name - Status; Current Status of the interface - IPv4 Address: IP Address used by the Cellular APs - Uptime: Uptime of the individual interface, which indicates the stability of interface. • Mobility Gateway Data Usage: From the Data Usage tab, you can view details about traffic usage and connected clients: - Traffic Usage – the line graph shows upload, download, and total traffic for gateway during a specified time period. Click "total", "upload", or "download" to display or hide each data line. - Connected Clients – The line graph shows the total number of unique clients and the number of client connections during a specified time period. • Mobility Gateway Health Data: From the Health tab, you can view details about the health of a Mobility Gateway at several levels: UE, Control Plane, and Platform. This is useful for monitoring the overall health of the Mobility Gateway, identifying trends in performance, and helping to troubleshoot issues. - UE: The UE tab shows UE attach and authentication failures during a specified time period. UE Attach Failure Rate: Shows the total number of attach requests and the percentage of attach failures for the specified time frame. Data available includes the number of requests, successes, and failures. UE Authentication Failure Rate: This tile shows the total number of authentication requests and the percentage of authentication failures for a specified time frame. Data available includes the number of requests, successes, and failures. - Control Plan: The Control Plan tab shows the failure rate for S1 setup. S1 Setup Failure Rate: Shows the total number of S1 setup requests and the percentage of failures for a specified time frame. Data available includes the number of requests and failures. - Platform Health: The platform tab shows data usage of the Mobility Gateway. Control Plan CPU (Avg): Shows the percentage of CPU usage for the Mobility Gateway as well as the trend of the CPU usage during a specified time period. If there are multiple CPUs in use for a Mobility Gateway, the tile shows the average for all CPUs. System Memory (Avg): Shows the percentage of memory usage for the Mobility Gateway as well as the trend of the memory usage during a specified time period. • Cellular AP Dashboard: Data for each Cellular AP is available. Click on the CAP name to view: - Summary Tab includes: Ethernet Status – current state and link speed as well as the MAC And IP address details. Cellular Radio Status – current state of the	*

				cellular radio and details about the PCN network name, number of active clients and total traffic. Mobility Gateway Connectivity – status of the IPsec tunnel and S1 interface and IP address for the Mobility Gateway. CBRS Spectrum Status – status and details about the CBRS Spectrum, including the Tx Power, Channel and Spectrum range. - License Tab shows the current license, expiration date and days remaining on the license. - Details tab shows the following information about the chosen Cellular AP Name – Name of the Cellular AP Admin State – Current state of the Cellular AP (Enabled/Disabled) Model No. Serial No. MAC Address CBRS Category – configured by the Certified Professional Installer (CPI) Synchronization – time sync method used by the CAP (Free running, PTP, or GPS/GNSS) Tx Power – granted transmit (Tx) power Bandwidth – channel bandwidth configured for the CAP Latitude & Longitude – location of CAP, configured by the CPI Height – Distance of the CAP above ground or sea level, configured by the CPI Azimuth – Horizontal angel of CAP as measured clockwise from the north, configured by the CPI Downtilt – downtilt of the CAP, configured by the CPI • Cellular AP Data Usage: The Traffic Usage graph shows upload download, and total traffic for the Cellular AP during a specified time period. The graph can show usage over time and can help when planning or troubleshooting issues. Click Total, Upload, or Download to display or hide each data line. • Cellular AP Health Data: From the Health Tab you can view details about the health of a Cellular AP including UE and SAS data. This is useful in monitoring the overall health of a Cellular AP, including trends in performance, and helping to troubleshoot issues. Set a time period for the health data using drop-down calendar menu. - UE Handover Failure Rate – shows the total number of handover requests and percentage of failures for the specified timeframe for the CAP. - CBRS SAS SAS Registration Failure Rate – shows the total number of SAS registration requests and the percentage of failures for the specified time frame for the CAP. SAS Grant Request Failure Rate: Shows the total number of SAS grant requests and the percentage of failures for the specified time frame for the Cellular AP.	

95		Multi-network roaming	(•) Yes ( ) No	Ericsson Private 5G supports the configuration of an external PLMN to allow externally created SIMs (that are based on the external PLMN) to connect to the private 5G network. The external SIMs must have the Private PLMN configured as an Equivalent Home PLMN (EHPLMN), and the IMSI and keys of the SIM must be provisioned using the bulk provisioning API. If the IMSI and keys are also provisioned in another (typically private) network, a device using the SIM will be able to connect to both networks. The condition (such as network coverage loss) at which the device will switch between the network is subject to device behavior. NCPN SIMs can be associated to multiple NCPN networks to allow for private-to-private network roaming.
96		Radio site capacity	(•) Yes ( ) No	EP5G provides the ability to expand the radio-network of already installed and running sites, giving enterprises the ability to integrate new basebands in the main location or in remote locations without requiring a reinstallation, thereby minimizing downtime. EP5G provides maximum capacity with the Radio by defining up to 5 x 20Mhz cells per radio for LTE only configuration and 2 x 40Mhz cells per radio for NR only configuration. The ability to have multiple cells per radio enhances network capacity, performances and throughput by using Carrier aggregation provided the device supports it.
97		Bandwidth and throughput	(•) Yes ( ) No	User throughput varies depending on radio conditions, device capabilities and network load. Example: Below are some throughput details for a single 40MHz channel: Configuration: TDD Pattern: DDDSUUDDDD. SSF (6:4:4). Device assumptions: 4x4 MIMO on downlink and 2x2 MIMO on uplink. Peak throughputs for a 40 MHz channel : UL 80 Mbps, DL 603.6 Mbps (Peak Throughput) theoretical values. UL 55 - 60 Mbps, DL 350 Mbps (Measured Throughput) – for excellent SINR conditions.
98		Mode (4G only, 4G to 5G Upgrade, 4/5G mixed mode, 5G only)	(•) Yes ( ) No	The EP5G solution leverages a dual mode core that supports 4G and 5G RAN operations in parallel. Ericsson Radio System supports 4G and 5G in mixed mode fashion. The NCPN core supports 4G, 4G to 5G upgrade, 4/5G mixed mode, and 5G only. Currently, radios only support 4G with 5G only radios on the product roadmap.

99		Quality of Service (QoS)	(•) Yes ( ) No	Ericsson Private 5G uses network segments for traffic separation and for managing quality of service. These are network segments within a site, which on the cellular side are also known as Access Point Names (APNs) in 4G networks and Data Network Names (DNNs) in 5G networks. A DNN or APN corresponds to a subnet. These will interface to different VLANs for integration with enterprise network. A device can be assigned to belong to a segment at the provisioning time. Device category segmentation can be accomplished by assigning all the devices of a certain type to a segment (APN). QoS settings on your NetCloud Private SIM can be set in NetCloud Manager. These SIMs can be used in Cradlepoint or 3rd party routers/adapters. Enterprises can leverage traffic handling capabilities by prioritizing SIMs on a private cellular network. Businesses can achieve desired QoS with the added benefit of having more control over the traffic on their network. Enable SIM based slicing by following these simple steps: • Grouping: Assign SIMs (devices) to logical groups that will have the same QoS SLAs. • Access: Decide which networks and subnets a slice can access. • Performance: Assign QoS Class Identifiers (QCI) and throughput rate limits based on desired service levels. • Integration: Assign a DSCP value to define how the slice traffic will be prioritized on the wired LAN.
100		Network Slicing	(•) Yes ( ) No	Ericsson Private 5G uses network segments for traffic separation and for managing quality of service. These are network segments within a site, which on the cellular side are also known as Access Point Names (APNs) in 4G networks and Data Network Names (DNNs) in 5G networks. A DNN or APN corresponds to a subnet. These will interface to different VLANs for integration with enterprise network. A device can be assigned to belong to a segment at the provisioning time. Device category segmentation can be accomplished by assigning all the devices of a certain type to a segment (APN).
101	Network Components:		(•) Yes ( ) No	See below.
102		High Availability	(•) Yes ( ) No	EP5G solution includes Network Controllers. The network controllers are compact, lifecycle-managed networking appliances that are implemented as a pair of redundant servers, enabling high-availability and zero downtime maintenance capabilities. If there is a failure in the software or hardware of one network controller, a brief disruption to the traffic that was handled by the failed network controller, not lasting more than a few seconds, will follow as the baseband reallocates traffic to the other one. The software that runs on the network controllers is a cornerstone of Ericsson Private 5G. High Availability (HA) is available through redundant Mobility Gateways which provide network resiliency in case on experiences an outage. The type of HA available is Warm Standby. HA pairs must be on-premises.

103		Indoor RAN	(•) Yes ( ) No	Ericsson Private 5G leverages best in class Ericsson Radios portfolio and can use Indoor, Outdoor, Micro RAN Ericsson Radio Products The plug-and-play Cellular Access Points (CAPs), deployed as part of the NCPN solution, support the 4G LTE CBRS spectrum band 48. Sometimes referred to as small cells, these CAPs form the private Radio Access Network (RAN) that cellular endpoints and clients connect to and are authenticated through the Mobility Gateway. CAPs rated for indoor locations (A2400) and outdoor environments (A2405) work together to create contiguous private network connectivity across the entire enterprise location.	*
104		Outdoor RAN	(•) Yes ( ) No	Ericsson Private 5G leverages best in class Ericsson Radios portfolio and can use Indoor, Outdoor, Micro RAN Ericsson Radio Products The plug-and-play Cellular Access Points (CAPs), deployed as part of the NCPN solution, support the 4G LTE CBRS spectrum band 48. Sometimes referred to as small cells, these CAPs form the private Radio Access Network (RAN) that cellular endpoints and clients connect to and are authenticated through the Mobility Gateway. CAPs rated for indoor locations (A2400) and outdoor environments (A2405) work together to create contiguous private network connectivity across the entire enterprise location.	*
105		Open/proprietary RAN	(•) Yes ( ) No	EP5G is a fully pre-packaged LTE and 5G (NR) system in a box with all the components internetwork with each other. NCPN is proprietary RAN.	*
106		Open/proprietary Core	(•) Yes ( ) No	EP5G is a fully pre-packaged LTE and 5G (NR) system in a box with all the components internetwork with each other. NCPN is Proprietary Core.	*
107		SIMs	(•) Yes ( ) No	With the introduction of the ability to write 5G SIM cards locally with the included SIM-card writer, new 5G-specific services and the enhanced security implicitly connected to these services will be available for all SIM cards used with EP5G. This includes support for 5G identity concealment and storage of sensitive parameters inside the data structure of the SIM cards instead of being stored inside cellular devices. Note: 5G identity concealment will ensure that SUCI encryption is done on the SIM cars. This offers enhanced security and higher compatibility with 5G cellular devices than the alternative of performing SUCI encryption on the cellular devices. NetCloud Private SIMs inside Cradlepoint endpoints or 3rd party cellular clients are required.	*
108		End User Devices	(•) Yes ( ) No	Cradlepoint has several private cellular end user devices (UEs) in the portfolio.	*

109		Gateways	(•) Yes ( ) No	Cradlepoint NetCloud Private Networks (NCPN) Mobility Gateway (NCPN Mobility Gateway) is deployed as a Virtual Machine (VM) and acts as the heart of NCPN, facilitating connections between remote sites and resources and enforcing routing and policy decisions. NCPN Mobility Gateway provides the foundation for NCPN. As the customer-hosted mechanism for NCPN, the NCPN Mobility Gateway works in conjunction with NetCloud Manager, Cellular Access Points, SIMs, routers, and the Spectrum Access Service to provide private cellular communications. Delivered in virtual form factor, for deployment on premises, the NCPN Mobility Gateway is easily provisioned using Cradlepoint NetCloud and managed like other Cradlepoint solutions. Currently the following Mobility Gateway VM are supported: • VMware ESXi • KVM • AWS	*
110	Design and Installation Services:		(•) Yes ( ) No	See below.	
111		RF Design	(•) Yes ( ) No	RF Design will be completed by one of our NCPN certified Reseller Partners with support of the Cradlepoint Team.	*
112		System Design	(•) Yes ( ) No	System Design will be completed by one of our NCPN certified Reseller Partners with support of the Cradlepoint Team.	*
113		Radio Installation	(•) Yes ( ) No	Radio Installation will be completed by one of our NCPN certified Reseller Partners with support of the Cradlepoint Team.	*
114		Core Installation	(•) Yes ( ) No	Core Installation will be completed by one of our NCPN certified Reseller Partners with support of the Cradlepoint Team.	*
115		System integration and testing	(•) Yes ( ) No	TD SYNNEX offers system integration and testing.	*
116		Application integration support	(•) Yes ( ) No	TD SYNNEX has the capability through our Pre-sales team to design application integration support. ServiceSolv field services teams are able to provide full installation services.	*

117		Network slicing	◉ Yes ○ No	EP5G uses network segments for traffic separation and for managing quality of service. These are network segments within a site, which on the cellular side are also known as Access Point Names (APNs) in 4G networks and Data Network Names (DNNs) in 5G networks. A DNN or APN corresponds to a subnet. These will interface to different VLANs for integration with enterprise network. A device can be assigned to belong to a segment at the provisioning time. Device category segmentation can be accomplished by assigning all the devices of a certain type to a segment (APN). NCPN allows network slicing by SIM Group. For example, an enterprise could deploy a private LTE network in a factory to assign different QoS levels to assets including security cameras, sensors, automated guided vehicles (AGVs), employee tables, and more. With SIM-based slicing, the enterprise can place subsets of devices on individual slices to achieve specific performance and traffic management goals. Enterprises can leverage traffic handling capabilities by prioritizing SIMs on a private cellular network. Businesses can achieve desired QoS with the added benefit of having more control over the traffic on their network. Enable SIM based slicing by following these simple steps: • Grouping: Assign SIMs (devices) to logical groups that will have the same QoS SLAs. • Access: Decide which networks and subnets a slice can access. • Performance: Assign QoS Class Identifiers (QCI) and throughput rate limits based on desired service levels. • Integration: Assign a DSCP value to define how the slice traffic will be prioritized on the wired LAN.
118		Operations, Maintenance and Administrative Services:	◉ Yes ○ No	The EP5G solution includes full LCM services in our subscription package to upgrade the SW with each new release, typically twice a year. In the event that HW components reach end of life, Ericsson will provide a compatible replacement in accordance with the roadmap of the solution along with associated commercial terms.
119		Spectrum Access System	◉ Yes ○ No	The EP5G CBRS domain proxy for 4G and 5G: • If FCC Part 96 certified • Provides one secure point in the enterprise network for interfacing with the SAS • Has one set of security certificates for Transport Layer Security (TLS) • Is deployed on both network controllers in an active-active configuration, ensuring that in case of a node crash, the surviving node retains the configurations and GRANTs to continue transmission • Combines GAA and PAL spectrum efficiently to maximize spectrum availability for radios • Supports Radio 4408 with external antennas in both indoor and outdoor settings, including passive DAS-type deployments • Can assign spectrum to 4G and 5G cells within a radio simultaneously without requiring additional deployments, saving cost to enterprises • Responds to SAS messages for power reconfiguration and makes necessary configuration changes and reapplies for GRANT automatically A subscription to a SAS Server is included with your NCPN license.

DocuSign Envelope ID: D56A6B04-DD17-483F-B1C1-00FD44D0E751

12		Network monitoring	◉ Yes ○ No	Ericsson Private 5G offers commercial support e.g. Silver services with an agreed SLA (system uptime) for both the on-premises equipment and the cloud based components which is measured and reported on a monthly basis. The subscription package includes a distinct set Service Level Objectives (SLO) regarding issue response times and resolutions. Ericsson provides Tier-2 and Tier-3 support for the end-to-end solution (cloud based components and on-premises equipment). Support includes: • Proactive monitoring and issue resolution of Management as a Service and Network Service. • Crisis and troubleshooting escalation point for Partners' Tier 1 support teams. • Provide Partners' Tier 1 support teams with FAQ articles and knowledge base (KB) through EP5G support portal. • Provide regular reviews on the status of the issues escalated by Partners' Tier 1 support teams. • Provide configuration, Software Updates, and Software Upgrades, for issue resolution. • Create and maintain system alarms and notifications. • Root Cause Analysis The Ericsson Tier-2 Network Support team is available for escalation of Tier-1 support issues. Tier-1 will utilize an incident management system provided by Ericsson to escalate issues to Tier-2. The incident management system will support ticketing and phone communication with the End Customers. TD SYNNEX also offers Network Monitoring through a ServiceSolv offering.

Exceptions to Terms, Conditions, or Specifications Form

Only those Proposer Exceptions to Terms, Conditions, or Specifications that have been accepted by Sourcewell have been incorporated into the contract text.

Documents

Ensure your submission document(s) conforms to the following:

1. Documents in PDF format are preferred. Documents in Word, Excel, or compatible formats may also be provided.

2. Documents should NOT have a security password, as Sourcewell may not be able to open the file. It is your sole responsibility to ensure that the uploaded document(s) are not either defective, corrupted or blank and that the documents can be opened and viewed by Sourcewell.

3. Sourcewell may reject any response where any document(s) cannot be opened and viewed by Sourcewell.

4. If you need to upload more than one (1) document for a single item, you should combine the documents into one zipped file. If the zipped file contains more than one (1) document, ensure each document is named, in relation to the submission format item responding to. For example, if responding to the Marketing Plan category save the document as "Marketing Plan."

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.

7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

11. Proposer its employees, agents, and subcontractors are not:
    1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

    2. Included on the government-wide exclusions lists in the United States System for Award Management found at: https://sam.gov/SAM/; or

    3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☑ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Ed Somers, Vice President, TD SYNNEX Corporation

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

25-1669 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT

Authorize the City Manager to execute a Side Letter Agreement between the City of Santa Clara and the Unclassified Miscellaneous Management Employees that provides stadium detail pay for work performed by the Communications Operations Manager when working as a Public Safety Dispatcher at Levi's Stadium

BACKGROUND

The City has experienced significant recruitment challenges for the Public Safety Dispatcher positions in the Police Department. Public agencies across the State are experiencing similar recruiting challenges. In the Fiscal Year 2025/26 Adopted Operating Budget, the City has 21.0 budgeted Dispatcher positions (16.0 Public Safety Dispatchers and 5.0 Senior Public Safety Dispatchers). As of June 2025, the City has 7 Public Safety Dispatcher vacancies.

Although the City continuously recruits for these positions and receives many applications, a substantial number of candidates do not successfully complete the Police Department's background process. The City has implemented several initiatives to attract and retain qualified Dispatcher candidates; however, staffing shortages persist.

The Police Communications Manager (Job Code 068) is an exempt, salaried, unclassified management employee whose primary responsibility is to lead and oversee operations of the Dispatch Division. Due to ongoing staffing shortages, the Police Department has requested flexibility to allow the Police Communications Manager to temporarily perform Public Safety Dispatcher II duties at Stadium events when necessary. To alleviate staffing shortages, through December 31, 2026, the Police Communications Manager will receive the hourly rate of Step 5 of the Public Safety Dispatcher II classification (Job Code 340) for each hour worked when assigned to Levi's Stadium in the capacity of a Public Safety Dispatcher II. This compensation is in addition to the Police Communications Manager's regular salary.

This additional compensation and Stadium Detail assignment will be limited to events where the Chief of Police or Assistant Police Chief determines that staffing needs require the Police Communications Manager to work as a Public Safety Dispatcher II at Levi's Stadium.

To be eligible for the additional pay, the Police Communications Manager must perform the assignment physically at the Stadium location and must perform only the duties of the Public Safety Dispatcher II, not those associated with the Police Communications Manager classification.

To ensure operational needs are adequately met during Stadium events, the City and the Unclassified Miscellaneous Management Employees (Unit 9) have reached a Side Letter Agreement to provide the Police Communications Manager to receive the hourly rate of Step 5 of the Public

Safety Dispatcher II classification (Job Code 340) for each hour worked when assigned to Levi's Stadium in the capacity of a Public Safety Dispatcher II, through December 31, 2026. This compensation is in addition to the Manager's regular salary.

DISCUSSION

The recommended action authorizes the City Manager to execute the Side Letter Agreements that will provide a Pilot Program for the work performed by the Communications Operations Manager when working as a Public Safety Dispatcher at Levi's Stadium ("Stadium Detail"). As noted above, for the Police Communications Manager to receive the hourly rate of Step 5 of the Public Safety Dispatcher II classification (Job Code 340) for each hour worked when assigned to Levi's Stadium in the capacity of a Public Safety Dispatcher II, through December 31, 2026.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

The cost of providing the pilot program for the Police Communications Manager to receive the hourly rate of Step 5 of the Public Safety Dispatcher II classification (Job Code 340) is unknown at this time as it is dependent on staffing levels on event days.

The City will be reimbursed for stadium-related costs.

COORDINATION

This report has been coordinated with the Finance Department and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Authorize the City Manager to execute a Side Letter Agreement between the City of Santa Clara and the Unclassified Miscellaneous Management Employees that provides stadium detail pay for work performed by the Communications Operations Manager when working as a Public Safety Dispatcher at Levi's Stadium on the terms presented and in a final form approved by the City Attorney.

AND

UNCLASSIFIED MISCAELANOUS MANAGEMENT EMPLOYEES (UNIT 9)

PILOT PROGRAM – STADIUM DETAIL ASSIGNMENT FOR COMMUNICATIONS OPERATIONS MANAGER (JOB CODE 068)

The City and the Unclassified Miscellaneous Management Employees (hereafter, "Unit 9") agree to a Pilot Program work performed by the Communications Operations Manager (Job Code 068) when working as a Public Safety Dispatcher at Levi's Stadium ("Stadium Detail"):

A. Stadium Detail for Police Communications Manager (Job Code 068).

1. The parties acknowledge that the Police Communications Manager (Job Code 068) is an exempt and salaried management employee.

2. To alleviate staffing issues, through December 31, 2026, the Police Communications Manager will be paid the hourly rate of Step 5 of the Public Safety Dispatcher II (Job Code 340) for each hour worked when assigned to work at Levi's Stadium as a Public Safety Dispatcher II. This is in addition to the Police Communications Manager's regular salary.

3. Such pay and detail shall be limited to those events where the Chief of Police or Assistant Police Chief determines staffing requires the Police Communications Manager is needed to work in the capacity of a Public Safety Dispatcher II at Levi's Stadium.

4. The Police Communications Manager must complete the assignment physically at the Stadium location in order to be eligible. The Police Communications Manager is to perform the duties of the Public Safety Dispatcher II and not to work in the capacity of Police Communications Manager when assigned to Levi's Stadum to be eligible for the additional pay under this Pilot Program.

B. This Side Letter Agreement shall not establish precedent for future agreements and shall not be construed or implied to obligate the City or Unit 9 to enter into any similar agreements in the future.

C. This Side Letter Agreement that amends the current MOU shall become effective after it is adopted by the City and signed by all parties below, and shall expire on December 31, 2026.

REPORT TO CITY COUNCIL

SUBJECT

Action to Authorize the City Manager to Execute Agreements with CRE-GS Freedom Circle Phase I Owner, LLC for the Construction of Park Improvements and the Maintenance of the Park Located at 3905 Freedom Circle at the Developer's Sole Cost

BACKGROUND

Santa Clara City Code Chapter 17.35 requires new residential development to dedicate parkland and/or pay in-lieu fees. Greystar Real Estate Partners submitted an application (File No. PLN2017-12516) to the City for a General Plan Amendment from High-Intensity Office/R&D to High Intensity Mixed-Use and a rezoning to Planned Development (PD) to allow for a new residential mixed-use development (Project).

The City Council approved the General Plan Amendment and rezoning at a hearing on June 7, 2022. The Project area includes 13.3 acres comprising two parcels (APNs: 104-40-021 & 104-40-036) that are bounded by Freedom Circle, Mission College Boulevard, Highway 101, and San Tomas Aquino Creek. The Project site is part of the larger Freedom Circle Focus Area, which was approved prior to the approval of this project.

The Project proposes the construction of 1,079 apartment units and will meet its parkland dedication requirements through:

- Development of an 87,728 square foot (2.014 acres) public park with a connection to the San Tomas Aquino Creek Trail;
- Installation of approximately 1.922 acres of private recreational amenities; and
- Payment of in-lieu fees totaling $21,455,673 for the remaining balance.

The City Council approved the Public Park Updated Schematic Design on November 4, 2025 (Attachment 1), consisting of:

- A ½-acre natural grass field
- A landscaped and furnished quiet, park-like area
- Playground for children ages 2-5 and 6-12
- A basketball court
- A family picnic area with tables and barbeques
- A bocce court
- An enclosed off-leash dog area with separate areas for small and large dogs
- Pathways, trees, and landscaping

- A connection to the San Tomas Creek Trail
- Twenty off-street parking stalls & public restrooms in Building B

The park will be dedicated to the City in fee title once the improvements have been inspected and accepted by the City. The developer will construct all public park improvements in accordance with the City's design criteria and standard specifications and will maintain the park, in perpetuity, following dedication.

DISCUSSION

The City and CRE-GS Freedom Circle Phase I Owner, LLC ("parties") negotiated the following:

Parkland Dedication Agreement (Attachment #2). This agreement sets the terms and conditions for the construction of the improvements and acceptance of the park according to the City Council approved schematic design. Key provisions of the Parkland Dedication Agreement include:

- Construction of the park improvements at the developer's sole cost in accordance with Council -approved park updated schematic design;
- Installation of 1.922 acres of private recreational amenities;
- Transfer of title to the City of a 2.014 acre park; and
- Payment of Mitigation Fee Act fees in the amount of $21,455,673 for the remaining obligation.

The development project consists of three residential buildings (Buildings A, B, and C). Park improvements will be completed in two phases. Park Phase 1 will be completed with the first of Building B or C and will be used temporarily as a private park by project residents. Park Phase 2 will be completed when both Building B and C are complete. Once both Park Phases are complete, the full park will be offered to the City for dedication. The construction of Building A will not include any park improvements, as such only in-lieu fees will be paid in connection with Building A. Consistent with the City's regular practice, all park improvements must be inspected to ensure conformance with approved plans and ultimately accepted.

Park Maintenance Agreement (Attachment #3). This agreement sets the terms and conditions for the maintenance of the park. Key provisions of the Park Maintenance Agreement include:

- Developer shall be responsible to provide the labor, supervision, supplies, materials, equipment, and any and all other tools and labor necessary to maintain and/or repair the park in accordance with City standards as defined in Exhibit D of the Park Maintenance Agreement;
- The obligation for maintenance services shall begin on the date the title for the park parcel transfers to the City and continues in perpetuity until terminated upon mutual written consent of the parties, the date the park parcel ceases to be a publicly owned park, or the park site is demolished and not rebuilt; and
- Periodic meetings and reviews, upon City's request, to inspect and review the maintenance services provided.

Both parties acknowledge that, during the maintenance term, the park will remain a public park operated, controlled, and managed solely by the City, with hours of operation determined by the City.

Please note, staff is requesting Council authority to finalize negotiations and execute the

Agreements. A few terms remain under negotiation, including the appropriate indemnity provisions and the remedies available to the City if the developer defaults on its maintenance obligations.

ENVIRONMENTAL REVIEW

The impacts of the Greystar project, including the Original Plan, were analyzed in an Environmental Impact Report (EIR) that was prepared for the Freedom Circle Focus Area and Greystar General Plan Amendment (case file PLN2017-12516) in accordance with the California Environmental Quality Act (CEQA). The EIR and Notice of Availability were circulated for a 45-day period from November 5, 2021, to December 20, 2021, in accordance with CEQA requirements. The EIR indicated that the development of the Greystar Project would contribute to an increase in demand for parkland, but that the impact would be mitigated to a less-than-significant level with the payment of in-lieu fees and the provision of dedicated parkland as depicted in the Original Plan. The EIR incorporates project-specific conditions into the Mitigation Monitoring and Reporting Program (MMRP) requiring this mitigation. As the proposed Park plan would result in the same amount of land dedicated to the City as under the Original Plan, the proposal would not result in any new significant environmental effects or increase the severity of any previously identified effects. The EIR did not identify any secondary impacts associated with park construction, and the Park layout changes are unlikely to present any difference in the impacts resulting from construction.

FISCAL IMPACT

There is no fiscal impact to the General Fund for the current action, other than staff time budgeted in the Parks & Recreation Operating Budget for minor administrative tasks related to the operation of the public park as part of the City's overall park system. The developer will construct the public park improvements, provide a park sign, and maintain the park for the life of the park, all to City standards and at no cost to the City.

COORDINATION

This report has been coordinated with the Community Development Department, the Finance Department, the City Attorney's Office, and the City Manager's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Authorize the City Manager to execute the Parkland Dedication Agreement and the Park Maintenance Agreement with CRE-GS Freedom Circle Phase I Owner, LLC with such minor, non-substantive changes and amendments that may be necessary to implement the parkland dedication requirements for this project, in final forms approved by the City Attorney.

REPORT TO CITY COUNCIL

SUBJECT
Action on the 3905 Freedom Circle Public Park Updated Schematic Design (Greystar Development)

BACKGROUND
The Santa Clara City Code 17.35 requires new residential development to dedicate parkland and/or pay in-lieu fees. Greystar Real Estate Partners submitted an application (File No. PLN2017-12516) to the City for a General Plan Amendment from High-Intensity Office/R&D to High Intensity Mixed-Use and a rezoning to Planned Development (PD) to allow for a new residential mixed-use development (Project). The City Council approved the General Plan Amendment and rezoning at a hearing on June 7, 2022. The Project area includes 13.3 acres comprising two parcels (APNs: 104-40-021 & 104 -40-036) that are bounded by Freedom Circle, Mission College Boulevard, Highway 101, and San Tomas Aquino Creek. The Project site is also part of the proposed General Plan - Freedom Circle Focus Area under a separate development process by the City that encompasses 108 acres in northern Santa Clara.

The Project proposes the construction of 1,079 apartment units and will meet its parkland dedication requirements through, (1) the development of an 87,728 square foot (2.014 acres) public park with a connection to the San Tomas Aquino Creek Trail, (2) the installation of private recreational amenities, and (3) the payment of in-lieu fees for the remaining balance. The park will be dedicated to the City in fee title once the improvements have been inspected and accepted by the City. The developer will construct all public park improvements in accordance with the City's design criteria and standard specifications and will maintain the park, in perpetuity, following dedication.

The Schematic Design Master Plan approved by City Council on February 22, 2022 ("Original Plan") for the public neighborhood park included the following features:

- A ½-acre natural grass field
- Landscaped and furnished park-like quiet area
- Playground for children ages 2-5 and 6-12
- A basketball court
- A family picnic area with tables and barbeques
- A bocce court
- An enclosed off-leash dog area with separate areas for small and large dogs
- Pathways, trees, and landscaping
- A connection to the San Tomas Creek Trail.

The Original Plan also included twenty off-street parking stalls for park visitors to be split between Buildings B and C.

Prior Parks & Recreation Commission and City Council Action
On September 21, 2021, the Parks & Recreation Commission reviewed the community input and the proposed Schematic Design. After discussion, the Commission unanimously recommended that the City Council approve the Original Plan (Attachment 1).

The City Council reviewed and approved the Parks & Recreation Commission's recommendation and adopted the proposed Original Plan (Attachment 2) on February 22, 2022.

DISCUSSION

On October 20, 2025, staff brought back the park design to the Parks & Recreation Commission for review of updates made to the Original Plan. These updates are necessary due to a utility conflict involving existing overhead electric transmission and distribution lines, as well as associated guy wires, which encroach into the Emergency Vehicle Access (EVA) lane. In accordance with the Fire Department's Conditions of Approval, these utility lines must be cleared prior to permit issuance and fully resolved prior to first occupancy. The developer has been working with Silicon Valley Power (SVP) to address the required modifications.

The relocation and reconfiguration of the transmission and distribution lines within the EVA lane were not included in the Original Plan or the system impact analysis and addressing those changes necessitated modification of the Original Plan.

To resolve the conflict, several alternatives were explored. The only solution acceptable to both SVP and the Fire Department was to shift the curb along the San Tomas Aquino Creek Trail inward toward the property line and park. This adjustment results in a 6.5-foot reduction in the width of the park on the side closest to the creek. To preserve the Original Plan acreage, the park will expand by approximately one foot toward Building B and approximately one foot toward Building C.

Additional modifications include:

- Repositioning park benches
- Relocating the trash enclosure further inward
- Realigning the off-leash dog area to fit the revised sidewalk and trash enclosure layout, while maintaining the same size as in the Original Plan.

These adjustments preserve the total square footage of the off-leash dog area as originally approved by City Council, while ensuring compliance with public safety and utility requirements.

Additionally, twenty off-street parking stalls for park visitors were originally proposed to be split between Buildings B and C; however, all of them have since been relocated to Building B, which also houses two public restrooms.

During the October 20, 2025, meeting, the Parks & Recreation Commission reviewed the updated schematic design (Attachment 3) and considered a recommendation to City Council to approve the proposed revisions to the park design. The Parks & Recreation Commission unanimously approved a recommendation to approve the revised schematic design, with the condition that parking signage is included.

Council will review the Parks & Recreation Commission's recommendation to approve the proposed

park design revisions included as Attachment 4. If Council approves the revised design, the developer will complete the construction documents for building permit, execute Park Construction and Park Maintenance agreements, complete the improvements to the satisfaction and acceptance of the City, and record the parcel dedication with the County of Santa Clara. Public park improvements will be constructed by the developer to the City's design criteria and standard specifications and will be maintained by the developer after dedication. The Park Construction and the Park Maintenance agreements will be brought back to City Council for consideration at a later date.

ENVIRONMENTAL REVIEW

The impacts of the Greystar project, including the Original Plan, were analyzed in an Environmental Impact Report (EIR) that was prepared for the Freedom Circle Focus Area and Greystar General Plan Amendment (case file PLN2017-12516) in accordance with the California Environmental Quality Act (CEQA). The EIR and Notice of Availability were circulated for a 45-day period from November 5, 2021, to December 20, 2021, in accordance with CEQA requirements. The EIR indicated that the development of the Greystar Project would contribute to an increase in demand for parkland, but that the impact would be mitigated to a less-than-significant level with the payment of in-lieu fees and the provision of dedicated parkland as depicted in the Original Plan. The EIR incorporates project-specific conditions into the Mitigation Monitoring and Reporting Program (MMRP) requiring this mitigation. As the proposed Park plan would result in the same amount of land dedicated to the City as under the Original Plan, the proposal would not result in any new significant environmental effects or increase the severity of any previously identified effects. The EIR did not identify any secondary impacts associated with park construction, and the Park layout changes are unlikely to present any difference in the impacts resulting from construction.

FISCAL IMPACT

There is no fiscal impact to the General Fund for the current action, other than staff time budgeted in the Parks & Recreation Operating Budget for minor administrative tasks related to the operation of the public park as part of the City's overall park system. The developer will construct the public park improvements, provide a park sign, and maintain the park for the life of the park, all to City standards and at no cost to the City.

EBIX Insurance No. *S20000____

PARKLAND DEDICATION AGREEMENT

BETWEEN

THE CITY OF SANTA CLARA,

a chartered California municipal corporation,

AND

CRE-GS FREEDOM CIRCLE PHASE I OWNER, LLC

AND COVENANTS AND RESTRICTIONS FOR

PRIVATE RECREATIONAL AMENITIES

PREAMBLE

This PARKLAND DEDICATION AGREEMENT ("Agreement") is entered into between the CITY OF SANTA CLARA, a chartered California municipal corporation ("City") and CRE-GS FREEDOM CIRCLE PHASE I OWNER, LLC, a Delaware limited liability company ("Developer"). City and Developer may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

City and Developer enter into this Agreement on the basis of the following facts, understandings and intentions, and the following recitals are a substantive part of this Agreement.

A. Developer desires to develop a multi-family rental residential project ("Development") on certain real property located at 3925 Freedom Circle (APN: xxx-xx-xxx) in the City of Santa Clara, County of Santa Clara, State of California. Developer is the fee title owner of that certain real property located in the City and more particularly described in **Exhibit A** attached hereto (the "Development Project Site").

B. Developer has obtained environmental clearance through the use of the Environmental Impact Report for the Freedom Circle Focus Area and Greystar General Plan Amendment in accordance with the California Environmental Quality Act (CEQA). The EIR and Notice of Availability were circulated for a 45-day period from November 5, 2021 to December 20, 2021 in accordance with CEQA requirements. The Freedom Circle Focus Area/Greystar General Plan Amendment EIR, case file PLN2017-12516, studied the subject project at a project level, and incorporates project-specific conditions into the Mitigation Monitoring and Reporting Program (MMRP). The Focus Area and General Plan Amendment were approved on June 7, 2022 (formerly referred to for file purposes only as 3905 Freedom Circle) (the "Development"), subject to certain Conditions of Approval ("Development Entitlements").

C. The Development Entitlements contemplate the construction of the overall Development in three phases, which could be built in any order in response to market conditions, referred to as Building B (Phase 1), Building A (Phase 2) and Building C (Phase 3) and as depicted on **Exhibit A.**

D. Under the provisions of Santa Clara City Code ("SCCC") Chapter 17.35 ("Park and Recreational Land Dedication Ordinance"), every person who constructs or causes to be constructed a dwelling unit or dwelling units shall dedicate land for neighborhood and community parks, pay a fee in lieu thereof, or provide a combination of such dedication and fee, at the discretion of the City ("Parkland Dedication Requirement").

E. As required by the Entitlements Condition of Approval No. 7, Developer is required to build a park within the Development Project Site on "Parcel 4" as depicted on **Exhibit A** and legally described on **Exhibit C** (the "Park Site").

F. In order for Developer to satisfy Developer's Parkland Dedication Requirement for the residential units identified in the Development approved by (*insert the name of the body and the date the body approved the project),* Developer and City desire to enter into this Agreement pursuant to which Developer shall satisfy Project's Parkland Dedication Requirement as follows and as further described in this Agreement:

   i. Design and construct park improvements on the approximately 2.014-acre Park Site in accordance with the Public Park Improvement Site Plan attached as **Exhibit C** ("Park Improvements") including 20 off-street parking stalls and public restrooms to be located within Building B;

ii. Dedicate an approximately 2.014-acre neighborhood park (real property) to the City to use for parkland purposes as described in Exhibit B and C attached hereto in accordance with the requirements of the City Council approved Master Plan Schematic Design upon completion of the Park Improvements;

iii. Install certain private recreational amenity improvements on approximately 1.922 acres within the Development in conjunction with the construction of the Development in accordance with the requirements of the Conditions of Approval and the Private Recreation Amenities Site Plan set forth in **Exhibit D** ("Private Recreational Amenity Improvements") for which Developer is also eligible to receive credit against its Parkland Dedication Requirement as set forth in the Park and Recreational Land Ordinance and this Agreement;

iv. Pay City Mitigation Fee Act (MFA) fees due in lieu of parkland dedication in the amount of Twenty-one Million Three Hundred Fifty-Six Thousand, Five Hundred Eighty-Two Dollars shown on **Exhibit F**; and

v. Enter into a separate Park Maintenance Agreement with the City for maintenance services for the neighborhood park.

G. The official name of the Park will be established by City after the date of this Agreement in conformance with City policy.

H. City's Director of Parks & Recreation ("Director") is charged with the administration of this Agreement. The Director or designee is responsible for the review, inspection, approval, and acceptance on behalf of the City of the Park Site and accompanying Park Improvements.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants set forth in this Agreement, the Parties hereby agree as follows:

1. AGREEMENT DOCUMENTS

The documents forming the entire Agreement between City and Developer shall consist of these Terms and Conditions and the following Exhibits, which are hereby incorporated into this Agreement by this reference:

Exhibit A – Development Project Site
Exhibit B – Legal Description of Park Site
Exhibit C – Public Park and Improvements Site Plan Design and Phasing Plan
Exhibit D – Private Recreational AmenitySite Plan Design
Exhibit E – Design and Construction Requirements
Exhibit F – Parkland Requirements, Fees and Credit Summary
Exhibit G – Parks and Recreation Department Conditions of Approval
Exhibit H – Bond Forms

Exhibit I – Insurance Requirements
Exhibit J – Sample Certificate of Acceptance

This Agreement, including the Exhibits set forth above, contains all the agreements, representations, and understandings of the Parties, and supersedes and replaces any previous agreements, representations and understandings, whether oral or written. The Parties acknowledge their mutual understanding that the Terms and Conditions and the Exhibits are consistent with each other and the Parties agree that the Terms and Conditions and the Exhibits shall be read and interpreted in a manner to maintain the greatest consistency between them and to accomplish, to the greatest practical and legal extent feasible, the mutual intent and goals of the Parties as set forth in this Agreement. In the event of any inconsistency between the provisions of any of the Exhibits and the Terms and Conditions, the Terms and Conditions shall govern and control. In the event of any inconsistency between the provisions of any of the Exhibits and the Terms and Conditions, the Terms and Conditions shall govern and control.

2. TERM OF AGREEMENT

Effective Date. The "Effective Date" is the date that the final signatory executes this Agreement. It is the intent of the Parties that this Agreement shall become operative on the Effective Date. The term ("Term") of this Agreement shall commence on the Effective Date set forth above.

Expiration. The Term shall expire upon City acceptance of the Park Improvements, which acceptance shall be evidenced by the issuance of a Certificate of Acceptance by the City Manager, as outlined in **Exhibit J** to this Agreement, the City's acceptance of the Grant Deed for the park pursuant to the applicable provisions of Section 2 of **Exhibit E**, and the recordation of the Grant Deed, unless earlier terminated upon mutual agreement of the Parties. Following expiration of the Term or any extension, or if sooner terminated, this Agreement shall have no force and effect, subject, however, to any express post-termination obligation set forth herein in Sections 6.c, 12 and 18.

3. REPRESENTATIONS AND WARRANTY

Developer expressly warrants that all materials and services covered by this Agreement shall be fit for the purpose intended, shall be free from defect and shall conform to the specifications, requirements, and instructions upon which this Agreement is based. Developer agrees to replace or correct any incomplete, inaccurate, or defective materials and services at no cost to City. If Developer fails to correct or replace materials and services within a reasonable period of time after delivery of the City's notice, City may make corrections or replace materials and services and charge Developer for the cost incurred by City.

Developer represents and warrants to City that the following facts are true and correct:

A. The statements, certificates, and documents for this Development as approved by the (*insert name of the approving body) remain true and correct.

A. Any and all documents provided to City pursuant to the terms of this Agreement, or in connection with the execution of this Agreement, are now in full force and effect and contain no material inaccuracies or misstatements of fact. Developer covenants that at such time City notifies Developer of City's intention to accept the Park Improvements, if any of these documents contain material inaccuracies, misstatements or have become obsolete, Developer shall notify City and provide City with the information required to render the documents accurate, complete and current.

B. Developer has the legal ability to enter into this Agreement and Developer's signatories to this Agreement is (are) duly authorized to sign this Agreement on its behalf.

4. OFFER OF DEDICATION, AND DESIGN AND DEVELOPMENT OF PARK IMPROVEMENTS

A. Developer affirms its irrevocable offer to dedicate to City an approximately 2.014-acre Park Site legally described on **Exhibit B**. Developer shall be responsible for all recording and escrow fees, including the cost of an ALTA Standard Title Insurance Policy, as well as other customary and reasonable closing costs incurred in the conveyance of the Park Site to City, in accordance with the requirements and specifications set forth in this Agreement.

B. Developer shall be responsible for the development of plans and specifications for, and the construction of the Park Improvements on the Park Site consistent with the Public Park Improvements Site and Phasing Plan as approved by City and attached as **Exhibit C**. Developer shall develop plans and specifications for the Park Improvements ("Project Specifications") for the review and approval of the Director, or his or her designee, as more particularly described in the attached **Exhibit E**. Subject to **Exhibit E** of this Agreement, Developer shall construct the Park Improvements in conformance with the latest version of Project Specifications and applicable standards and specifications approved by City.

C. The Parties acknowledge that the exact size, dimensions, and other particular characteristics of the Park Improvements may not have been determined as of the Effective Date of this Agreement. The Parties, however, agree that the Park Improvements shall consist of the following specific Park Improvements: one (1) one-half (½) acre turf grass play field, approximately 3,513 sq ft landscaped & furnished park-like quiet seating area, approx. 7,770 sq ft, children's play area for ages 2-5 (~3,824 sq ft) and ages 6-12 (~3,946 sq ft), one (1) approx. 7,088 sq ft multi-use sports court (basketball & pickle ball), one (1) approx. 2,400 sq ft picnic area with shade structure & picnic table sets and BBQ grill, two (2) ADA accessible drinking fountains, four (4) dog waste stations, seven (7) trash receptacles, thirteen (13) bike racks, various wood benches, eighteen (18) moveable chairs, one approx. 1,170 sq ft bocce ball court, one (1) approx. 3,705 sq ft off-leash dog area (~1,175 Is sq ft small dog area & ~2,530 sq ft large dog area), two (2) chess game table sets,

one (1) trash enclosure, lighting and accessible walkways, all as depicted and phased in **Exhibit C**.

D. Developer shall be responsible for all costs incurred for planning, design, construction, and supervision of the construction of all Park Improvements, including without limitation, City's plan review, inspections, title insurance, and title transfer. Developer shall cause all labor and material incorporated in the Park Improvements to be furnished in accordance with the requirements and specifications set forth in this Agreement.

E. Developer shall follow the City's Planning Public Outreach Policy.

F. The Park Improvements to be installed on the Park Site in accordance with Developer's Phasing Plan depicted on **Exhibit C**, as follows:

i. Park Phase 1 shall be fully completed per approved plans and specifications with the first to be completed of either Building B or Building C, and offered only and exclusively to the residents of the Development Site as a temporary private recreational amenity and shall be subject to the same in lieu fee credit for private recreational improvements as described in Section 5 below and shown on **Exhibit F**.

ii. Park Phase 2, and any necessary repair or maintenance to Park Phase 1, shall be completed per approved plans and specifications, with the last to be completed of both Building B and Building C and, upon completion, shall be offered, along with the Park Phase 1, to the City for acceptance as a public park. Upon completion, inspection, and acceptance, the City shall provide the remaining 50% in lieu fee credit for the full Park Improvements as shown on **Exhibit F**.

iii. For the purposes of clarity, Building A, which is not adjacent to the Park Site, shall have no obligation to build any portion of the Park Site, and shall instead pay in lieu fees, subject to any applicable credit for private recreational amenities within Building A, as shown on **Exhibit F**.

iv. The Park Improvements shall be fully constructed per plans and specifications (both Phase 1 and Phase 2) on or before the date of the issuance of a certificate of residential occupancy, including any temporary certificate of residential occupancy, for both Building B and Building C, as depicted on **Exhibit A**, which are both directly adjacent to the Park Site.

v. The Park Improvements shall be deemed completed and accepted by City upon recordation of the Certificate of Acceptance by City, or designee, as outlined in **Exhibit J** of this Agreement. The Director or designee may, at the Director's discretion, grant extensions of the completion requirement specified in this subsection.

5. CREDIT FOR PRIVATE RECREATIONAL IMPROVEMENTS

A. The Development is eligible to receive credit for private recreational improvements pursuant to the Park and Recreational Land Ordinance. The itemized inventory and description of the private recreational improvements to be included in the Development by Developer that will receive credit pursuant to Chapter 17.35 is set forth in **Exhibit C** and **Exhibit D**. Developer shall complete the installation of the private recreational improvements described in **Exhibit C** and **Exhibit D** on or before the issuance of final certificate of occupancy for each phase of the Development, as applicable. The final certificate of occupancy for each phase of the Development shall not be issued, unless and until, all private recreational improvements have been constructed within such phase, as applicable, accepted at City's reasonable discretion to determine full compliance with this Agreement.

B. With respect to any credit for private recreational improvements which have not been completed pursuant to Section 5A of this Agreement, the credits for any such uncompleted improvements shall be disallowed and Developer shall be required to pay the amount of the credit received hereunder.

C. Developer acknowledges and agrees that use of the private recreational improvements shall be restricted for recreation purposes by this recorded covenant which runs with the land in favor of the future owners/renters of the residential units located within the Development and which expressly cannot be defeated or eliminated without the consent and approval of the City and payment of in-lieu fees in effect at the time.

D. Developer acknowledges and agrees that Developer shall not receive any credit for eligible private recreational improvements pursuant to Park and Recreational Land Dedication Ordinance except those private recreational improvements that are set forth in **Exhibit C** and **Exhibit D** and constructed in full compliance with this Agreement.

6. COMPLIANCE WITH THE PARKLAND DEDICATION ORDINANCE

A. City acknowledges and agrees that Developer's performance of this Agreement shall satisfy all of Developer's obligations under the City's Park and Recreational Land Ordinance for the residential units identified in Exhibit F. Provided that Developer is not in material default hereunder, and provided further that Developer satisfies all other terms, conditions, and requirements associated with the Development and this Agreement, City shall issue all building permits necessary for the residential units identified in Exhibit F.

B. The Parties acknowledge and agree that the calculation of the Developer's Parkland Dedication Requirement is accurately set forth in **Exhibit F**, including the parkland dedicated, the calculation of the parkland in-lieu fees ("Parkland Fees"), the credits for the Private Recreational Improvements, including the phasing of credits ("Credits), and any other fees, charges, or reimbursements. Developer shall pay to

City the Parkland Fees specified in accordance with the payment instructions set forth in **Exhibit F**.

C. In the event there is an increase in the number of residential units to be built, or change in the dwelling unit type, Developer agrees to immediately notify the Director and to provide additional parkland and/or pay such additional Park In-Lieu Fees as required by the Park and Recreational Land Ordinance. Where Developer makes such a notification to the Director, and additional Park In-Lieu Fees are owed, the fee in effect at the time of the notification shall apply to the additional residential units or units affected by change in unit type.

D. Developer acknowledges that the costs and expenses for the design, development, construction, and supervision related to the Park Improvements may exceed the fees due in-lieu of Parkland dedication that the Developer would be obligated to pay under the Park and Recreational Land Dedication Ordinance. Because of the benefit to Development that will result from the Park Improvements, Developer agrees to design, develop, and construct the Park Improvements on the Park Site and dedicate the Park Site in fee simple as specified in this Agreement, without any obligation on the part of City.

7. REVIEW FOR FEES AND CHARGES RELATED TO PARK IMPROVEMENTS

A. Developer shall pay to City a fee for review and approval of the Project Specifications for the Park Improvements and the inspection of the Park Improvements (collectively, "Review Fee"). City's Review Fee shall be based on:

i. The 2% Administrative Fee portion of the applicable in lieu fee schedule in effect when the project was deemed complete by the City Planning Department.

ii. Developer shall pay all applicable City fees when submitting park construction documents to the City through the City's online permitting portal for review and approval.

8. BONDS AND SECURITY

Developer shall furnish to City the following security prior to the issuance of a permit to allow for construction of Phase 1 of the Park Improvements under this Agreement and for the purposes, in the amounts, and under the conditions that follow:

A. Type and Amounts.

i. Performance Security. To assure the Developer's faithful performance of this Agreement to complete the Park Improvements in an amount of One Hundred Percent (100%) of the estimated cost of the Park Improvements (hereinafter "Performance Security"); and

ii. Payment Security. To secure Developer's payment to any Contractor, subcontractor, person renting or supplying equipment or furnishing labor and materials for completion of the Park Improvements in the additional amount of One Hundred Percent (100%) of the estimated cost of the improvements (hereinafter "Payment Security"); and

iii. Warranty Security. To warranty the Developer's work for a period of one (1) year following recordation of the Certificate of Acceptance against any defective work or labor done or defective materials furnished in the additional amount of Twenty-Five Percent (25%) of the estimated cost of the improvements (hereinafter "Warranty Security"); and

iv. Landscaping Security. To secure Developer's installation and maintenance of landscaping as may be required by the Project Specifications, and at such time when the drought restrictions have been rescinded as further described in **Exhibit E**.

B. Conditions.

i. Developer shall provide the required security on forms approved by City and from sureties authorized by the California Insurance Commissioner to transact the business of insurance. Any bonds furnished by Developer to satisfy the security requirements in this Section 9 shall be in substantially the forms attached hereto as **Exhibit H**, as may be amended by City from time to time.

ii. A condition of the Developer's security is that any changes not exceeding ten percent (10%) of the original estimated cost of the Park Improvements shall not relieve the security. In the event that changes to the Improvement Plans cause an increase of more than ten percent (10%) over the original estimated cost of the Park Improvements, Developer shall provide security as required by Section 9(A) of the Agreement for one hundred percent (100%) of the total estimated cost of the Park Improvements as changed.

iii. Notwithstanding Section 9(B)(ii) above, Developer's security shall compensate City for the actual cost of completing the required Park Improvements in the Event of Default (as defined in Section 10 below) by Developer in the performance of this Agreement, regardless of whether City's cost of completion exceeds the estimated total cost of the Park Improvements.

iv. A condition of Developer's security is that any request by Developer for an extension of time for the commencement or completion of the work under this Agreement may be granted by City without notice to Developer's surety and such extensions shall not affect the validity of this Agreement or release the surety or sureties on any security given for this Agreement.

v. As a condition of granting any extension for the commencement or completion of the work under this Agreement, Director may require Developer to furnish new security guaranteeing performance of this Agreement, as extended, in an increased amount to compensate for any increase in construction costs as determined by Director.

vi. If Developer seeks to replace any security with another security, the replacement shall: (1) comply with all the requirements for security in this Agreement; (2) be provided by Developer to Director; and (3) upon its written acceptance by Director, be deemed to be a part of this Agreement. Upon Director's acceptance of a replacement security, the former security may be released by City.

C. Release of Securities. Director shall release the securities required by this Agreement as follows:

i. Performance Security. City shall release the Performance Security upon recordation of the Certificate of Acceptance or as may otherwise be authorized in accordance with California Government Code sections 66499.7(a)-(g).

ii. Payment Security. City shall release the Payment Security in accordance with California Government Code section 66499.7(h).

iii. Warranty Security. City shall release the Warranty Security upon expiration of the warranty period and settlement of any claims filed during the warranty period.

iv. City may retain from any security released, an amount sufficient to cover costs and reasonable expenses and fees, including reasonable attorney's fees incurred in connection with any claims thereunder.

D. Injury to Park Improvements, Public Property or Public Utility Facilities.

Until recordation of the Certificate of Acceptance of the Park Improvements, Developer assumes responsibility for the care and maintenance of, and any damage to, the Park Improvements Developer shall replace or repair all Park Improvements, public utility facilities, and surveying or subdivision monuments and benchmarks which are destroyed or damaged for any reason, regardless of whether resulting from the acts of the Developer, prior to the recordation of the Certificate of Acceptance. Developer shall bear the entire cost of such replacement or repairs regardless of what entity owns the underlying property. Any repair or replacement shall be to the satisfaction, and subject to the approval, of the Director.

Neither the City, nor any officer or employee thereof, shall be liable or responsible for any accident, loss, or damage, regardless of cause, occurring to the Park Site or Park Improvements prior to recordation of the Certificate of Acceptance of the Park Site and Park Improvements.

9. Default

A. Developer shall be in default hereunder upon the occurrence of any one or more of the following events ("Event of Default"), each subject to the effect of any Force Majeure Event or extension thereof under the terms of this Agreement:

i. Developer's failure to commence construction of Phase 1or Phase 2of the Park Improvements within (1) one year of the issuance of a park permit for each respective phase under this Agreement, subject to extensions provided by the Director.

ii. Developer's failure to timely cure any defect in the Park Improvements.

iii. Developer's failure to perform substantial construction work for a period of thirty (30) consecutive calendar days after commencement of the work on Phase 1 or Phase 2 of the Park Improvements.

iv. Developer's insolvency, appointment of receiver, or the filing of any petition in bankruptcy, either voluntary or involuntary, which Developer fails to discharge within thirty (30) days.

v. Developer assigns this Agreement in violation of Section 10.

vi. Developer fails to perform or satisfy any other material term, condition, or obligation under this Agreement.

B. If an Event of Default occurs and the Event of Default is not cured by Developer in accordance with Section 10(C) below, City in its sole discretion shall be entitled to terminate Developer's control over work described herein and hold Developer and its surety liable for all damages suffered by City as a result of the Event of Default. City shall have the right, at its sole discretion, to draw upon or use the appropriate security to mitigate City's damages in the Event of Default by Developer. Developer acknowledges and agrees that City's right to draw upon or use the security is in addition to any other remedies available by law or in equity to City. The Parties acknowledge and agree that the estimated costs and security amounts may not reflect the actual cost of construction of the Park Improvements, and therefore, City's damages in the Event of Default by Developer shall be measured by the actual cost of completing the required Park Improvements to the satisfaction of City. City may use the sums provided by the securities for the completion of the Park Improvements in accordance with the Project Specifications.

City may take over the work and complete the Park Improvements, by contract or by any other method City deems appropriate, at the sole cost and expense of Developer. In such event, City, without any liability whatsoever, may complete the Park Improvements using any of Developer's materials, appliances, plans, or other property located at the Park Site and that are necessary to complete the Park Improvements.

C. Unless the Director determines that the circumstances warrant immediate enforcement of the provisions of this Section 10 in order to prevent an immediate threat to public health, safety, and welfare, the Director shall give twenty (20) working days' prior written notice of termination to Developer ("Notice Period"), which notice shall state in reasonable detail the nature of Developer's default and the manner in which Developer can cure the default. During the Notice Period, Developer shall have the right to cure any such default; provided, however, if a default is of a nature which cannot reasonably be cured within the Notice Period, Developer shall be deemed to have timely cured such default for purposes of this Section 10 if Developer commences to cure the default within the Notice Period, and prosecutes the same to completion within a reasonable time thereafter.

D. Developer's failure to comply with any terms, conditions, or obligations under this Agreement shall constitute Developer's consent for City, at its sole discretion, to file a notice of violation against all lots in the subdivision, or to rescind or otherwise revert the subdivision to acreage. Developer specifically recognizes that the determination of whether a reversion to acreage or rescission of the subdivision constitutes an adequate remedy for default by Developer shall be within the sole discretion of the City.

E. City's rights and remedies specified in this Section 10 shall be deemed cumulative and in addition to any rights or remedies City may have at law or in equity.

10. ASSIGNMENT AND SUBCONTRACTING

City and Developer bind themselves, their successors and assigns to all covenants of this Agreement. This Agreement shall not be assigned or transferred without the prior written approval of City, which approval will not be unreasonably withheld, conditioned or delayed. Any attempts to assign or transfer any terms, conditions, or obligation under this Agreement without the express written consent of City shall be voidable at City's sole discretion. Notwithstanding the foregoing, Developer shall have the right, without any consent or approval by City, to assign or transfer its rights and obligations under this Agreement to any affiliate of Developer, any third party that acquires all or substantially all of the assets of Developer, or to any third party that acquires fee title to the entire Development Site, provided such assignee or transferee agree in writing by recorded document to be bound by the obligations of Developer under this Agreement and the City is given notice of such assignment. In the event a purchaser acquires less than the entirety of the Development Site, the parties shall enter a written partial assignment agreement that shall clearly allocate the entirety of the rights and obligations hereunder in a form reasonably acceptable to the Director. Developer shall also have the right to pledge or collaterally assign this Agreement to lenders. Subject to this Section, this Agreement shall be binding upon and shall inure to the benefit of the Parties' respective successors, assignees, transferees, and legal representatives.

11. INDEPENDENT CONTRACTOR

Developer and all person(s) employed by or contracted with Developer to furnish labor and/or materials under this Agreement are independent contractors and do not act as

agent(s) or employees(s) of City. Developer has full rights to manage its employees in their performance under this Agreement.

12. HOLD HARMLESS/INDEMNIFICATION

A. To the extent permitted by law, Developer agrees to protect, defend, hold harmless and indemnify City, its City Council, commissions, officers, employees, volunteers and agents from and against any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and attorney's fees in providing a defense to any such claim or other action, and whether sounding in law, contract, tort, or equity, in any manner arising from, or alleged to arise in whole or in part from, or in any way connected with the performance by Developer pursuant to this Agreement – including claims of any kind by Developer's employees or persons contracting with Developer to perform any portion of the Park Improvements work under this Agreement and shall expressly include passive or active negligence by City connected with the services, except to the extent arising from the sole active negligence or sole willful misconduct of City.

B. Subject to the provisions of Section 12.A, Developer's obligation to protect, defend, indemnify, and hold harmless in full City and City's employees, shall specifically extend to any and all employment-related claims of any type brought by employees, contractors, subcontractors or other agents of Contractor, against City (either alone, or jointly with Developer), regardless of venue/jurisdiction in which the claim is brought and the manner of relief sought.

C. To the extent Developer is obligated to provide health insurance coverage to its employees pursuant to the Affordable Care Act ("Act") and/or any other similar federal or state law, Developer warrants that it is meeting its obligations under the Act and will fully indemnify and hold harmless City for any penalties, fines, adverse rulings, or tax payments associated with Developer's responsibilities under the Act.

D. This Section 12 shall survive the recordation of the Certificate of Acceptance, acceptance of the Park Site, or sooner termination of this Agreement for a period of one (1) year from the date of such acceptance or termination. Recordation of the Certificate of Acceptance by City of the Park Improvements shall not constitute an assumption by City of any responsibility or liability for any loss or damages covered by this Section 12.

13. INSURANCE REQUIREMENTS

During the term of this Agreement, and for any time period set forth in **Exhibit I**, Developer shall provide and maintain in full force and effect, at no cost to City, insurance policies as set forth in **Exhibit I**.

14. WAIVER

Each Party agrees that waiver by the other party of any one or more of the conditions of performance under this Agreement shall not be construed as waiver(s) of any other condition of performance under this Agreement. Neither Party's review, nor acceptance required under this Agreement shall be constructed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

15. NOTICES

All notices to Parties shall, unless otherwise requested in writing, be sent to City addressed as follows:

City of Santa Clara
Attention: Parks & Recreation Department
1500 Warburton Avenue
Santa Clara, CA 95050
and by e-mail at *parksandrecreation@santaclaraca.gov

And to Developer addressed as follows:

CRE-GS Freedom Circle Phase I Owner, LLC
c/o Greystar Real Estate Partners, LLC
450 Sansome Street, Suite 500
San Francisco, CA 94111
Attention: Troy Vernon
Email: tvernon@greystar.com
Phone: (415) 527-2857
With a copy to:

Holland & Knight, LLP
560 Mission St. Suite 1900
San Francisco, CA 94105
Attention: Tamsen Plume
Email: tamsen.plume@hklaw.com
Phone: (415) 596-8232

The workday the e-mail was sent shall control the date notice was deemed given. An e-mail transmitted after 1:00 p.m. on a Friday shall be deemed to have been transmitted on the following business day.

16. TIME OF ESSENCE

Time is of the essence in the performance of this Agreement.

17. FORCE MAJEURE

A. "Force Majeure Event" shall be defined as any matter or condition beyond the reasonable control of a Party, including but not limited to war, public emergency

or calamity, fire, earthquake, extraordinary inclement weather, Acts of God, strikes, labor disturbances or actions, civil disturbances or riots, litigation brought by third parties against either the City or Developer or both, epidemic or pandemic (including COVID-19 or any variant), default by the other Party, or any governmental order or law which causes an interruption in the timely delivery of materials, availability of labor or otherwise interrupts construction of the Park Improvements (the "Work" for purposes of this section).

B. Should a Force Majeure Event prevent performance of this Agreement, in whole or in part, the Party affected by the Force Majeure Event shall be excused or performance under this Agreement shall be suspended to the extent commensurate with the Force Majeure Event; provided that the Party availing itself of this Section shall notify the other Party within ten (10) days of the affected Party's knowledge of the commencement of the Force Majeure Event; and provided further that the time of suspension or excuse shall not extend beyond that reasonably necessitated by the Force Majeure Event.

C. Notwithstanding the foregoing, the following shall not excuse or suspend performance under this Agreement:

i. Performance under this Agreement shall not be suspended or excused for a Force Majeure Event pertaining to the Work if such event is not defined as a Force Majeure Event under the applicable contract for the Work.

ii. Negligence or failure of a Developer to perform its obligations under a contract for the Work (other than for a Force Majeure Event as defined under the applicable contract) shall not constitute a Force Majeure Event.

iii. The inability of Developer for any reason to have access to funds necessary to carry out its obligations under this Agreement or the termination of any contract for the prosecution of the Work for such reason or for Developer's default under such contract shall not constitute a Force Majeure Event.

18. BOOKS AND RECORDS

A. Developer shall be solely responsible to implement internal controls and record keeping procedures in order to comply with this Agreement and all applicable laws. Developer shall maintain any and all ledgers, books of account, invoices, vouchers, cancelled checks, and other records or documents evidencing or relating to the activities performed by Developer under this Agreement, including without limitation those relating to the construction of the Park Improvements, for a minimum period of three (3) years, or for any longer period required by law, from the date of termination of this Agreement or the date of the City's acceptance of the Park Improvements, whichever is longer. Notwithstanding this previous sentence, Developer shall retain such records beyond three (3) years so long as any litigation, audit, dispute, or claim is pending.

B. Any records or documents required to be maintained pursuant to this Agreement shall be made available for inspection or audit at no cost to City, at any time during regular business hours, upon written request by the City Attorney, City Auditor, City Manager, or a designated representative of any of these officers. Copies of such documents shall be provided to City for inspection at City Hall when it is practical to do so. Otherwise, unless an alternative is mutually agreed upon, the records shall be available at Developer's address indicated for receipt of notices in this Agreement.

C. Where City has reason to believe that such records or documents may be lost or discarded due to dissolution, disbandment or termination of Developer's business, City may, by written request by any of the above-named officers, require that custody of the records be given to City and that the records and documents be maintained in City Hall. Access to such records and documents shall be granted to any party authorized by Developer, Developer's representatives, or Developer's successor-in-interest.

D. Developer's obligations under this Section shall be in addition to Developer's obligations specified in **Exhibit E**.

19. MISCELLANEOUS PROVISIONS

A. Captions. Captions and Sections of this Agreement are for convenience only and shall not be considered in resolving any questions of interpretation or construction.

B. Incorporation of Recitals. The Recitals contained in this Agreement are hereby incorporated into the terms of this Agreement.

C. Plurality. As used in this Agreement and when required by the context, each number (singular and plural) shall include all numbers.

D. Nondiscrimination. Developer, its employees, agents, representatives, contractors, and subcontractors shall not discriminate, in any way, against any person on the basis of age, sex, race, color, religion, sexual orientation, actual or perceived gender identity, disability, ethnicity, national origin, or any other recognized or protected class in connection with or related to the performance of this Agreement. Developer shall expressly require compliance with the provisions of this Section 20(D) in all agreements with contractors and subcontractors for the performance of the improvements hereunder.

E. Developer has read each and every part of this Agreement, including without limitation, its exhibits, and Developer freely and voluntarily has entered into this Agreement. This Agreement is a negotiated document and shall not be interpreted for or against any party by reason of the fact that such Party may have drafted this Agreement or any of its provisions.

F. Whenever in this Agreement words of obligation or duty are used (signified by the words "shall" or "must"), such words shall have the force and effect of covenants.

Any obligation imposed by either Party shall include the imposition on such Party of the obligation to pay all costs and expenses necessary to perform such obligation.

G. This Agreement is entered into pursuant to and shall be governed by the Park and Recreational Land Ordinance. If not otherwise defined in this Agreement, capitalized terms shall have the meanings set forth in Chapter SCCC 17.35.

H. Amendment. City Manager, or designee, is authorized on behalf of City to execute any amendments pursuant to Section 3C of this Agreement.

I. Compliance with Laws. Developer certifies that to the best of its knowledge, no City officer, employee or authorized representative has any financial interest in the business of Developer and that no person associated with Developer has any interest, direct or indirect, which could conflict with the faithful performance of this Agreement. Developer is familiar with the provisions of California Government Code section 87100 and following and certifies that it does not know of any facts which would violate these code provisions. Developer will advise City if a conflict arises.

J. Fair Unemployment. Developer shall not discriminate against any employee or applicant for employment because of race, sex, color, religion, religious creed, national origin, ancestry, age, gender, marital status, physical disability, mental disability, medical condition, genetic information, sexual orientation, gender expression, gender identity, military and veteran status, or ethnic background, in violation of federal, state or local law.

K. No Use of City Name or Emblem. Developer shall not use City's name, insignia, or emblem, or distribute any information related to services under this Agreement in any magazine, trade paper, newspaper or other medium without express written consent of City.

L. Governing Law and Venue. This Agreement shall be governed and construed in accordance with the statutes and laws of the State of California. The venue of any suit filed by either Party shall be vested in the state courts of the County of Santa Clara, or if appropriate, in the United States District Court, Northern District of California, Santa Clara, California.

M. Severability Clause. In case any one or more of the provisions in this Agreement shall, for any reason, be held invalid, illegal or unenforceable in any respect, it shall not affect the validity of the other provisions, which shall remain in full force and effect.

N. Estoppel Certificates. Either Party (the "requesting Party") may, at any time, and from time to time, deliver written notice to the other Party (the "certifying Party") requesting the certifying Party to certify in writing that, to the knowledge of the certifying Party, (a) this Agreement is in full force and effect and is a binding obligation of the Parties, (b) this Agreement has not been amended or modified or, if so amended or modified, identifying the amendments or modifications, (iii) the

requesting Party is not in default in the performance of its obligations under this Agreement, or if in default, to describe the nature of any defaults and (iv) such other reasonable items as may be requested. The certifying Party receiving a request under this Section shall execute and return its certificate within thirty (30) days following receipt of the request. The Director shall be authorized to execute any certificate requested by Developer. Developer and City acknowledge that a certificate hereunder may be relied upon by any transferees, title companies, and lenders. Developer shall pay the City's reasonable costs involved in providing such estoppel certificate.

20. AMENDMENTS

This Agreement may only be modified by a written amendment duly authorized and executed by the Parties to this Agreement.

21. AUTHORITY TO EXECUTE

The person or persons executing this Agreement on behalf of Developer warrant and represent that they have the authority to execute this Agreement on behalf of Developer, and further represent that they have the authority to bind Developer to the performance of its obligations in this Agreement.

22. COUNTERPARTS

This Agreement may be executed in multiple originals, each of which is deemed an original, and may be signed in Counterparts.

EXHIBIT E
DESIGN AND CONSTRUCTION REQUIREMENTS

SECTION 1. DESIGN AND CONSTRUCTION REQUIREMENTS.

1. Plans and Specifications.

The design for the Park Improvements must be consistent with the conceptual design for the Park Improvements as depicted in **Exhibit C**. Developer shall design and construct the Park Improvements in accordance with the following:

1. City's Standard Specifications for Public Works Construction, on file with City's Department of Public Works. (input areas from the Public Works' document that we know would not apply; request PW input & review when drafting a new agreement) References in the Standard Specifications to "Bidder" shall be deemed to mean "Developer."

2. City's Public Park Amenity and Design Standards ("Park Standards"), dated January 2019 ("Park Standards") and on file with City's Parks & Recreation Department. In the event that Developer does not submit the ninety percent (90%) Project Plans and Specifications for City's review and approval within eighteen (18) months of the Effective Date of this Agreement and the Park Standards are then revised, Developer shall design and construct the Park Improvements in accordance with the revised Park Standards at no cost to the City.

2. Application of Plans and Specifications.

1. City's Specifications, Park Standards and the Project Specifications shall be collectively referred to as the "Plans." The Park Improvements shall be constructed in accordance with the Plans.

2. In the event of a conflict between the Park Standards and the City's Specifications, the Park Standards shall prevail.

3. The provisions of this Agreement supersede anything to the contrary in either the City's Specifications or the Park Standards.

3. Project Specification Approval Process.

1. The Project Plans and Specifications shall be submitted to the City in a timely manner in order to ensure that the Developer completes the Park Improvements on or before the completion date specified in this Agreement. Developer shall not construct any Park Improvements unless and until the Director approves the Project Specifications in writing. The approval process for the Project Specifications is more particularly set forth in the Park Standards.

2. City's approval of the Plans shall not release Developer of the responsibility for the correction of mistakes, errors, or omissions contained in the Plans, including any mistakes, errors or omissions which may be the result of circumstances unforeseen at the time the Plans were developed or approved. If, during the course of construction of the Park Improvements, the Director determines in the Director's reasonable discretion that public safety or improved park operation in compliance with applicable Code requires modification of, or the departure from, the Plans, the Director shall have the authority to require such modification or departure and to specify the manner in which the same may be made. The Parties acknowledge that the Plans, once approved by the Director, shall be final and that, except as expressly provided in this subsection, no revisions to the Plans shall be permitted for any reason whatsoever.

SECTION 2. PARTICULAR CONSTRUCTION REQUIREMENTS.

1. Developer Selection.

Developer may hire and contract with one or more contractor or subcontractor, licensed to perform such work in the State of California.

2. Prevailing Wage Requirement.

1. General Requirement: To the extent required by law with respect to the Park Improvements, Developer shall cause the construction of the Park Improvements and the payment of all wages in connection therewith to be in accordance with the provisions of California Labor Code §1720 through §1861 (collectively, the "Prevailing Wage Law").

2. Indemnity: To the fullest extent permitted by law, Developer shall indemnify, defend and hold harmless the City Indemnitees from and against all liability, loss, damage, costs, or expenses (including reasonable attorneys' fees and court costs), where the same arise out of, are a consequence of, are in connection with, or are in any way attributable to, in whole or in part, to:

   i. Developer's or the contractor's failure to comply with all applicable laws, including all applicable federal and state labor standards, including, without limitation, the requirements of the Prevailing Wage Law and the Davis Bacon Act, if applicable.

   ii. Defects in the design or construction of the Project, including (without limitation) the violation of any laws, and for defects in any work done according to the City approved plans.

   iii. Any breach or failure to perform or act pursuant to this Agreement by Developer, or by any individual or entity that Developer shall engage in connection with the Project, including but not limited to officers, agents, employees or contractors of Developer. Notwithstanding the foregoing,

Developer shall not be required to indemnify and hold harmless the City Indemnitees for liability attributable to the gross negligence or intentional misconduct of the City Indemnitees.

3. Contractors and Subcontractors: To the extent required by law, Developer shall expressly require compliance with the Prevailing Wage Requirement in all agreements it enters into with contractors and subcontractors for construction work on the Park Improvements. Developer acknowledges and agrees that it is responsible for compliance by its contractors and subcontractors of the Prevailing Wage Requirement.

4. Reporting Obligations: Developer shall provide to City, at no cost to City, a copy of any and all such records within ten (10) working days of City's request for such records. In responding to a request by the City, Developer agrees that it is responsible for submitting the records of any and all of its contractors and subcontractors.

3. Remedies for Developer's Breach Of Prevailing Wage Requirements.

1. General: Developer acknowledges City has determined that the Prevailing Wage Law promotes each of the following (collectively "Goals"):

   i. It protects City job opportunities and stimulates City's economy by reducing the incentive to recruit and pay a substandard wage to labor from distant, cheap-labor areas.

   ii. It benefits the public through the superior efficiency of well-paid employees, whereas the payment of inadequate compensation tends to negatively affect the quality of services to City by fostering high turnover and instability in the workplace.

   iii. Pay workers a wage that enables them not to live in poverty is beneficial to the health and welfare of all citizens of Santa Clara because it increases the ability of such workers to attain sustenance, decreases the amount of poverty and reduces the amount of taxpayer funded social services in Santa Clara.

   iv. It increases competition by promoting a more level playing field among contractors with regard to the wages paid to workers.

2. Remedies: City and Developer recognize that Developer's breach of the Prevailing Wage Law set forth above will cause damage to the City by undermining City's goals in assuring timely payment of prevailing wages, and will cause City additional expenses in obtaining compliance and conducting audits, and that such damage would not be remedied by Developer's payment of restitution to the worker paid less than the prevailing wage. Developer and City agree that such damage would increase the greater the number of employees not paid the applicable

prevailing wage and the longer the amount of time over which such wages were not paid. City and Developer further recognize the delays, expense and difficulty involved in proving City's actual losses in a legal proceeding, and mutually agree that making a precise determination of the amount of City's damages as a result of Developer's breach of the Wage Provision would be impracticable and/or extremely difficult. Accordingly, City and Developer agree that:

i. For each day after ten (10) working days that Developer fails to completely respond to a request by City to provide records as required by this Agreement, Developer shall pay to City as liquidated damages the sum of TWO HUNDRED FIFTY DOLLARS ($250.00); and

ii. For each instance where City has determined that the Prevailing Wage Requirements were not met, Developer shall pay to City as liquidated damages the sum of three (3) times the difference between the actual amount of wages paid and the prevailing wages which should have been paid.

3. Audit Rights: All records or documents required to be kept pursuant to this Agreement to verify compliance with the Prevailing Wage Requirement shall be made available for audit at no cost to City, at any time during regular business hours, upon written request by City Attorney, City Auditor, City Manager, or a designated representative of any of these officers. Copies of such records or documents shall be provided to City for audit at City Hall when it is practical to do so. Otherwise, unless an alternative is mutually agreed upon, the records or documents shall be available at Developer's address indicated for receipt of notices in this Agreement.

4. Remedies Cumulative: The remedies set forth in this provision of the Agreement are cumulative and in addition to any other remedies set forth in the Prevailing Wage Requirements or otherwise permitted by law.

4. Conduct of Work.

1. Site Preparation & Condition. Any debris or compaction from previous use must be addressed as part of site preparation, cleaning and grading. Work must be verified by inspection by the City.

2. Appearance**.** Developer shall maintain a neat and clean work site. Broken concrete and debris developed during clearing and grubbing shall be disposed of concurrently with its removal. If stockpiling of disposable material is necessary, the material shall be retained in an area not readily visible to the public in a manner meeting the reasonable satisfaction of the Director.

3. Condition**.** Developer shall maintain the Site in a neat, clean, good, and safe condition prior to City's acceptance of the Park Improvements. Developer shall not dispose or cause the disposal of any Hazardous Substances on any of the Site. Additionally, Developer shall take reasonable precautions to prevent the disposal

of Hazardous Substances by third parties on any of the Site. The term "Hazardous Substances" is defined in Section 3 (A)(2) of this Exhibit.

4. Emergencies**.** In an emergency affecting the safety of persons or property, Developer shall act reasonably to prevent threatened damage, injury, or loss. Developer shall immediately notify the City by telephone at the telephone number as directed by Director and in writing of such actions.

5. Access for Inspection.

1. Access**.** The Director or the Director's designated representatives, including without limitation, staff from other City departments, shall at all times during the progress of work on the Park Improvements have free access to such improvements for inspection purposes. If the Director determines that all or any portion of the work done on the Park Improvements is not in compliance with the Plans, the Director shall notify Developer of the same and Developer shall promptly cure such defect to the Director's reasonable satisfaction. Such notifications shall be made to the Developer and his on-site representatives to not unduly interfere with ongoing construction work.

2. Representatives**.**

i. Prior to commencement of work on the Park Improvements, Developer shall designate in writing an authorized representative who shall have the authority to represent and act for Developer. When work is not in progress and during periods when work is suspended, arrangements acceptable to the Director shall be made for any emergency work which may be required. In addition, Developer shall provide Director with the names and telephone numbers of at least two (2) individuals in charge of or responsible for the work who can be reached personally in case of emergency twenty-four (24) hours a day, seven (7) days a week.

ii. The Director shall also designate one or more authorized representatives who shall have the authority to represent the Director. Developer's authorized representative shall be present at the site of the work at such reasonable times as designated by the Director. Prior to commencement of the work, the Parties shall mutually agree to an inspection schedule, which schedule may be adjusted from time to time by mutual agreement.

iii. Whenever the Developer or its authorized representative is not present on any particular part of the work where it becomes necessary to give direction for safety reasons, the Director shall have the right to give such orders which shall be received and obeyed by the superintendent or foreman who may have charge of the particular work in reference to which the orders are given. Any order given by the Director will, on request of the Developer, be given or confirmed by the Director in writing.

iv. City's rights under this Agreement shall not make the Developer an agent of the City, and the liability of the Developer for all damages to persons or to public or private property arising from Developer's execution of the work, shall not be lessened because of the exercise by City of its rights.

6. Acceptance of Park Improvements.

The Park Improvements shall be completed in accordance with the provisions of this Agreement to the reasonable satisfaction of the Director.

1. City agrees to inspect and prepare a punch list for the Park Improvements within ten (10) business days of notification by Developer that the Developer considers the construction of the Park Improvements to be complete. City further agrees to perform its final inspection within ten (10) business days of notification by Developer that all punch list work has been completed.

2. City will process acceptance documentation in a form substantially similar to Exhibit J (Certificate of Acceptance- **Exhibit J**) within ten (10) business days of the date of City's final inspection or the date upon which the Developer returns to City the appropriate signed acceptance documentation, whichever is later, provided that:

   i. City finds that all punch list work has been satisfactorily completed; and

   ii. Developer has performed and satisfied any and all terms, conditions, and obligations required under this Agreement prior to acceptance of the Park Improvements, including but not limited to, the requirements for dedication of the Park Sites as outlined in Section 2(G) of this Exhibit below; and

   iii. Developer has provided the Director with a full as-built plan set and a corresponding Computer- Aided Design (CAD) file ("record plans") corresponding copies of any and all warranties, and the like (such warranties shall be in the name of the City), and corresponding copies of any and all operating manuals for equipment installed as part of the Park Improvements.

3. The Parties acknowledge that City's restrictions on the installation of landscaping because of future drought conditions may delay Developer's installation of the landscaping contemplated by this Agreement. If, due to drought restrictions, Developer is unable to install the landscaping in time to be inspected by the Director for the purposes of accepting the completed Park Improvements, Developer shall post a bond or other form of security as set forth in Section 9 of this Agreement.

   i. Should a drought emergency be declared that affects the ability to complete the park landscaping, Developer shall consult with City Water & Sewer Department and Parks & Recreation Department to obtain guidance and/or direction on a plan to complete Park.

7. Park Site.

1. Developer shall provide each of the following to the Director, subject to the approval of the Director, prior to City's acceptance of the Park Site and Park Improvements:

   i. A preliminary report for the Park Site by a reputable title company and a responsive escrow and title officer. Developer shall coordinate with City and provide a preliminary title report at least ninety (90) days prior to execution of this Agreement and an updated title report at least ninety (90) days prior to the anticipated completion of the Park Improvements.

   ii. A Grant Deed for the Park Site containing the legal description of the Park Site, as approved by City Surveyor or City designee, properly executed and acknowledged, subject only to the exceptions to title, if any, approved by City Manager pursuant to which a fee simple estate in Park Site shall be conveyed to City. Title to the Park Site shall be vested in City free and clear of all title defects, liens, encumbrances, conditions, covenants, restrictions, and other adverse interests of record or known to Developer, subject only to those exceptions affecting the Park Site approved by City Manager, in writing, or listed in this Exhibit ("Permitted Exceptions"). The Grant Deed, subject to approval of City, for the Park Site shall be delivered to the City Manager or designee at least ninety (90) days prior to the anticipated completion of the Park Improvements.

   iii. Developer shall also cause to be provided to City, concurrently with the conveyance of the Park Site to City, a A.L.T.A. standard owner's form policy of title insurance issued by a reputable title company with City named as the insured, in the amount of [fill in amount: *equal to the current land value plus actual costs to improve the park*] Thousand Dollars ($XXXXXX) insuring the title of City to the Park Site is subject to only the Permitted Exceptions.

   iv. Any and all reports related to the condition of the Park Site and the lands adjacent to the Park Site caused to be performed by the Developer or in the Developer's possession or control. Developer shall also provide to City, at the Developer's sole cost, a report, prepared or updated no earlier than twelve (12) months before the proposed acceptance of the Park Improvements by a qualified consultant analyzing the condition of the Park Site with respect to the presence of hazardous materials and other known deleterious conditions on or adjacent to the Park Site ("Hazardous Materials Report"). The definition of Hazardous Materials for purposes of this Agreement is set forth in Section 3 (A)(2) of this Exhibit. The scope of the Hazardous Materials Report shall, at minimum, contain the elements set forth below in Section 4.

v. In the event that the Hazardous Materials Report(s) disclose(s) the presence of Hazardous Materials on any of the Park Site in excess of generally accepted environmental screening limits for park land uses, (e.g. Environmental Screening Limits and California Human Health Screening Limits) and/or in violation of any hazardous materials/waste laws, the Director shall have the right to require Developer, as a condition of acceptance, to remediate the condition, including without limitation, removal of the Hazardous Materials. The type of remediation required for the Park Site shall be at no cost to the City and be subject to the review and approval of the Director.

vi. The Environmental Warranty specified in Section 3 of this Exhibit.

vii. Documents evidencing the authority of the signatory(ies) to execute any agreement or other legal binding documents on behalf of Developer.

2. Upon the Director acceptance of the Park Site and Park Improvements, Developer shall have no further obligations in connection with the Park Site except for the terms, conditions, or obligations of this Agreement that explicitly survives acceptance or termination.

8. Compliance With Laws/Permits.

1. Developer shall keep fully informed of all existing and future local, state, and federal laws and county and municipal ordinances and regulations which in any manner affect those engaged or employed in the work on the Park Improvements, or the materials used in the Park Improvements, or which in any way affect the conduct of the work on the Park Improvements, and of all such orders and decrees of bodies or tribunals having any jurisdiction or authority over the same. In the performance of any work pursuant to this Agreement, Developer shall at all times observe and comply with, and shall cause all Developer's employees, agents, representatives, contractors and subcontractors to observe and comply with all such existing and future laws, ordinances, regulations, orders and decrees of bodies or tribunals having any jurisdiction or authority over the work. If any discrepancy or inconsistency is discovered in the plans, drawings, specifications, or contract for the work in relation to any such law, ordinance, regulation, order, or decree, Developer shall promptly report the same to the Director.

2. Developer shall, at its sole cost and expense, obtain all governmental reviews and approvals, licenses, and permits which are, or may be, required and necessary to construct and complete the Park Improvements in accordance with the provisions of this Agreement, including, but not limited to, site development reviews, development permits and environmental review. Developer shall comply with all conditions, restrictions or contingencies imposed upon, or attached to, such governmental approvals, licenses, and permits. If Developer for any reason fails to comply with any of City's requirements, or any other legal requirement concerning Developer's construction of the Park Improvements, then City shall have the right

to require Developer to alter, repair, or replace any improvements or perform any other action to the satisfaction of the Director as reasonably required to correct any non-compliance of the Park Improvements with legal requirements or this Agreement and at no cost to City. Developer's failure to effect the cure as required by the Director shall constitute an Event of Default in accordance with Section 7 of this Agreement.

SECTION 3. ENVIRONMENTAL WARRANTY.

1. By executing this Agreement, Developer warrants and agrees that, prior to the City's acceptance of the Park Improvements and dedication of the Park Site:

    1. Neither the Site nor Developer are in violation of any environmental law, and neither the Site nor Developer are subject to any existing, pending or threatened investigation by any federal, state or local governmental authority under or in connection with the environmental laws relating to the Park Site.

    2. Neither Developer nor any other person with Developer's permission to be upon the Site shall use, generate, manufacture, produce, or release, on, under, or about the Park Site, any Hazardous Substance except in compliance with all applicable environmental laws. For the purposes of this Agreement, the term "hazardous substances" or "hazardous materials" shall mean any substance or material which is capable of posing a risk of injury to health, safety or property, including all those materials and substances designated as hazardous or toxic by any federal, state or local law, ordinance, rule, regulation or policy, including but not limited to, all of those materials and substances defined as "Toxic Materials" in Sections 66680 through 66685 of Title 22 of the California Code of Regulations, Division 4, Chapter 30, as the same shall be amended from time to time, or any other materials requiring remediation under federal, state or local laws, ordinances, rules, regulations or policies.

    3. Developer has not caused or permitted the release of, and has no knowledge of the release or presence of, any Hazardous Substance on the Park Site or the property on which the Park Improvements are to be constructed, or the migration of any Hazardous Substance from or to any other property adjacent to, or in the vicinity of, the Park Site.

    4. Developer's prior and present use of the Park Site has not resulted in the release of any Hazardous Substance on, under, about, or adjacent to the Park Site.

    5. Neither the Park Site nor Park Improvements located on the Park Site shall be subject to any monitoring, reporting, or restrictions whatsoever by any governmental authority with jurisdiction over the Park Site, including but not limited to, the California Department of Toxic Substances Control and California Regional Water Quality Control Board.

6. Subject to Section 2(G)(1)(b) of this Exhibit, neither the Park Site nor Park Improvements located on the Park Site shall be subject to any burden, easements, covenants or restrictions recorded against any part of the Park Improvements or Park Site.

2. Developer shall give prompt written notice to City of:

1. Any proceeding or investigation by any federal, state or local governmental authority with respect to the presence of any Hazardous Substance on the Park Site or the migration thereof from or to any other property adjacent to, or in the vicinity of, the Park Site; and

2. Any claims made or threatened by any third party against Developer, City or the Park Site relating to any loss or injury resulting from any Hazardous Substance; and

3. Developer's discovery of any occurrence or condition on any property adjoining or in the vicinity of the Park Site that could cause the Park Site or any part thereof to be subject to any restrictions on its ownership, occupancy, use for the purpose for which it is intended, transferability or suit under any environmental law.

SECTION 4. HAZARDOUS MATERIALS REPORT.

1. **Scope of Hazardous Materials Report.**

The Hazardous Materials Report shall be in two phases, Phase I Environmental Site Assessment ("ESA") and, if necessary, Phase II ESA. The Phase I ESA shall be conducted utilizing standards of All Appropriate Inquiry (EPA) and ASTM 1527-05 which, in general, provide the information identified below regarding the condition of the Park Site with respect to the presence or likely presence of any Hazardous Materials on, under, above, or about the Park Site, including the past, current, or possible release of any Hazardous Materials on, under, above, or about the Park Site.

1. The historical usage of the Park Site and adjacent parcels dating back to the Park Site's first developed use (including any agricultural use) or 1940, whichever is earlier.

2. Results of the site visits pertaining to the current condition of the Park Site, including without limitation, any observed storage, handling, or release of any Hazardous Materials on, under, above, or about the Park Site, or evidence indicating possible past or current storage, handling, or release of any Hazardous Materials on, under, above, or about the Park Site.

3. Results of the review of all reasonably available historical documents and records of regulatory agencies concerning the storage, handling, or release of any Hazardous Materials and/or contamination of any or all of the Park Site.

4. Based on the findings of items 1 - 3 above, additional investigation including, without limitation, soil and/or groundwater sampling and chemical analysis could be required by City. The sampling and analysis plan, which includes, the number and depths of soil borings that might be required shall be subject to the review and approval of City.

5. A written report shall be prepared by a licensed environmental professional presenting results of the Phase I ESA. The report shall include any chemical analysis which may have been completed during the survey along with chain of custody documentation, soil boring logs if required and recommendations for any further investigation and remediation/source control necessary on the Park Site.

2. <u>Phase II ESA (if necessary).</u>

A definitive scope of services for the Phase II ESA cannot be determined until completion of the Phase I ESA, as the extent and type of further investigation will be determined by the Phase I ESA findings. The following tasks serve only as preliminary guidelines for potential Phase II investigation and are subject to revision upon City's review and approval of the Phase I ESA (Hazardous Materials Report). It is possible that no Phase II investigation will be necessary.

1. Soil and Groundwater Sampling and Analysis.

   Depending on the results of the Phase I ESA, it may be necessary to sample and analyze the soil and/or groundwater on-site. If such analysis is necessary, a sampling and analysis plan shall be prepared and approved by City that shall define a sufficient number of samples to be collected and analyzed to allow for an adequate characterization of the environmental condition of the Site. Soil and/or groundwater samples shall be analyzed for petroleum hydrocarbons, selected metals, volatile organic compounds, or any other potential contaminant of concern as identified in the Phase I ESA.

   Soil and/or groundwater sample shall be collected utilizing typical professional protocols and submitted to an EPA certified laboratory for analysis.

2. Report Preparation.

   A written report shall be prepared presenting the results of the Phase II investigation. The report shall include results from any chemical analysis completed during the investigation, along with chain-of-custody documentation, boring logs of sampling locations or from any monitoring wells completed, and recommendations for any further investigation and remediation/source control necessary on the site.

3. Report on any Remediation Work.

   A written report shall be prepared presenting the results of any remediation work resulting from a Phase II investigation. The report shall include results from any

chemical analysis completed during the survey, along with chain-of-custody documentation, boring logs of sampling locations or from any monitoring wells completed, and that any recommendations for any further investigation and remediation/source control necessary on the Park Site have been completed.

EXHIBIT F
PARKLAND REQUIREMENTS, FEES AND CREDIT SUMMARY

The Greystar Project will develop 1,079 dwelling unit generating an estimated 2,590 new residents (1,079 multi-family units at 2.4 persons/unit density is 2,590 persons). Based on the City's Mitigation Fee Act (MFA) standard of 2.6 acres of public neighborhood and community parkland per 1,000 residents, the Project is required to dedicate 6.733 acres of public parkland, pay an equivalent fee due in lieu of the total parkland dedication in the amount of $33,360,522, or a combination of both. In lieu fees are published in the Municipal Fee Schedule.

The developer has proposed to meet the required 6.7609 acres of parkland dedication through a combination of a public park totaling approximately 2.014 acres, private recreational amenities totaling 1.922 acres (eligible for 50% credit), and a mitigation fee payment of $21,356,582 for the remaining obligation.

In summary, the calculations above are:

$33,360,522	**Fee Due In Lieu of Parkland Dedication**
$ 8,126,320	**Value of Dedicated Parkland**
$ 3,877,620	**Credit for Private Recreational Amenities**
$21,356,582	**Mitigation Fee Payment for Remaining Obligation**

B: $9,770,088 minus value of 50% of

	[1]$1,338,655-[8]$987,028 = $8,928,469	equals the Balance Due	the lily pad minus the value of balance of the park acreage equals the Balance Due. The remaining credit for private amenities would be carried over to the calculations for bldg. A.

*Per Santa Clara City Code Section 17.35 Resolution No. ____ (FY 2020/2021).

**Pursuant to Section 4(F) of this Agreement, the first of Building B or Building C will install Phase 1 of the Park and received 50% park credit as a private recreation credit and the second will complete Phase 2 and receive the remaining 50% credit.

***Pursuant to Mitigation Fee Act, Government Code Section 66007(a), as amended and expanded by SB 937, all park in lieu fees are due at final inspection for each Building.

EXHIBIT G
PARKS & RECREATION DEPARTMENT CONDITIONS OF APPROVAL

*Please note the Conditions of Approval below represent those required by the Park and Recreation Department. Other Conditions of Approval by other City departments still apply.

PR1. This memo assumes the Project is not a subdivision and the Mitigation Fee Act (MFA) provisions will apply. The project will generate an estimated [2580] residents (2.4 persons/household x 1075 units). Based on the MFA standard of 2.6 acres/1000 residents, the amount of public parkland required for this Project to mitigate the impact of the new resident demand is approximately 6.7 acres. The equivalent fee due in lieu of parkland dedication is therefore $33,236,850.

PR2. In lieu fees imposed under Chapter 17.35 shall be due and payable to the City prior to issuance of a building permit for each dwelling unit.

PR3. Application for Credit. This project includes 83,722sf, or 1.961 acres, after deducting 4-foot set-back, of private active recreational amenities and will receive credit at 50%, or 41,861sf, or 0.961 acres. See Table 3.

PR4. The balance of fees due in lieu of parkland dedication is $21,232,910.

PR5. The public park must be programmed and constructed to the “Park Amenity & Design Standards” and City standards.

PR6. Park plans as submitted are considered a “conceptual design” and developer will present public park schematic design plans to the Parks & Recreation Commission for their review and recommendation to City Council.

PR7. Developer to enter into a Park Improvement Agreement and a Park Maintenance Agreement which will be submitted to Council for approval before park construction begins.

PR8. The children’s play area should have separate areas serving ages 2-5 and 6-12 that include the six + one elements of play (climbing, balancing, spinning, brachiating, swinging, sliding, and running/free play/imagination).

PR9. Developer to submit park construction plans to the City for review and approval after review by the Parks and Recreation Commission and prior to starting park construction.

PR10. Developer will maintain Public Park in perpetuity at sole cost to Developer.

PR11. Provide soil reports to City for proposed public park area.

PR12. Developer will provide City with GIS/Enterprise Asset Management System (EAMS) data for the public park facilities. The base map and design elements/assets should meet the City data dictionary definitions for each asset.

PR13. A dwelling unit tax (DUT) is also due based on the number of units and additional bedrooms per City Code Chapter 3.15. The Project mix includes 170 studio units, 597 one-bedroom units and 308 two-bedroom units for a total DUT of $17,665.

PR14. A drinking fountain/dog bowl/bottle filler combination is required in the park. The drinking fountain shall have an ADA and standard height options.

PR15. Utilities in the park parcel shall only service the park parcel and all other utilities shall be removed from the park parcel.

PR16. The fire hydrant shall be removed from the park parcel.

PR17. The Underground Electric Easement, Private Ingress/Egress Easement, Emergency Vehicle Access Easement, and power pole anchor easement shall not be in the park parcel.

EXHIBIT H
BOND FORMS
(*developer to provide*)

EXHIBIT I
INSURANCE REQUIREMENTS

Without limiting the Contractor's indemnification of the City, and prior to commencing any of the Services required under this Agreement, the Contractor shall provide and maintain in full force and effect, at its sole cost and expense, the following insurance policies with at least the indicated coverages, provisions and endorsements:

A. COMMERCIAL GENERAL LIABILITY INSURANCE

1. Commercial General Liability Insurance policy which provides coverage at least as broad as Insurance Services Office form CG 00 01. Policy limits are subject to review, but shall in no event be less than, the following:

   $1,000,000 each occurrence

   $1,000,000 general aggregate

   $1,000,000 products/completed operations aggregate

   $1,000,000 personal injury

2. Exact structure and layering of the coverage shall be left to the discretion of Contractor; however, any excess or umbrella policies used to meet the required limits shall be at least as broad as the underlying coverage and shall otherwise follow form.

3. The following provisions shall apply to the Commercial Liability policy as well as any umbrella policy maintained by the Contractor to comply with the insurance requirements of this Agreement:

   a. Coverage shall be on a "pay on behalf' basis with defense costs payable in addition to policy limits;

   b. There shall be no cross liability exclusion which precludes coverage for claims or suits by one insured against another; and

   c. Coverage shall apply separately to each insured against whom a claim is made or a suit is brought, except with respect to the limits of liability.

B. BUSINESS AUTOMOBILE LIABILITY INSURANCE

Business automobile liability insurance policy which provides coverage at least as broad as ISO form CA 00 OJ, with minimum policy limits of not less than one million dollars ($1,000,000) each accident using, or providing coverage at least as broad as, Insurance Services Office form CA 00 01. Liability coverage shall apply to all owned, non-owned and hired autos.

C. WORKERS' COMPENSATION

1. Workers' Compensation Insurance Policy as required by statute and employer's liability with the following limits: at least one million dollars ($1,000,000) policy limit Illness/Injury by disease, and one million dollars ($1,000,000) for each Accident/Bodily Injury.

2. The indemnification and hold harmless obligations of Contractor included in this Agreement shall not be limited in any way by any limitation on the amount or type of damage, compensation or benefit payable by or for Contractor or any subcontractor under any Workers' Compensation Act(s), Disability Benefits Act(s) or other employee benefits act(s).

3. This policy must include a Waiver of Subrogation in favor of the City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents.

D. COMPLIANCE WITH REQUIREMENTS

All of the following clauses and/or endorsements, or similar provisions, must be part of each commercial general liability policy, and each umbrella or excess policy.

I. Additional Insureds. City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents are hereby added as additional insureds in respect to liability arising out of Contractor's work for City, using Insurance Services Office (ISO) Endorsement CG 20 10 11 85 or the combination of CG 20 10 03 97 and CG 20 37 10 01, or its equivalent.

2. Primary and non-contributing. Each insurance policy procured by Contractor shall contain language or be endorsed to contain wording making it primary insurance as respects to, and not requiring contribution from, any other applicable insurance which the indemnities may possess, including any self-insurance or self-insured retention they may have. Any other applicable insurance indemnities may possess shall be considered excess insurance only and shall not be called upon to contribute with Contractor's insurance.

3. Cancellation.

a. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided due to non- payment of premiums shall be effective until written notice has been given to City at least ten (10) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least ten (10) days prior to the effective date of non- renewal.

b. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided for any cause save and except non-payment of premiums shall be effective until written notice has been given to City at least thirty (30) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least thirty (30) days prior to the effective date of non-renewal.

4. Other Endorsements. Other endorsements may be required for policies other than the commercial general liability policy if specified in the description of required insurance set forth in Sections A through D of this Exhibit D, above.

E. ADDITIONAL INSURANCE RELATED PROVISIONS

Contractor and City agree as follows:

1. Contractor agrees to ensure that subcontractors, and any other party involved with the Services, who is brought onto or involved in the performance of the Services by Contractor, provide the same minimum insurance coverage required of Contractor, except as with respect to limits. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this Agreement. Contractor agrees that upon request by City, all agreements with, and insurance compliance documents provided by, such subcontractors and others engaged in the project will be submitted to City for review.
2. Contractor agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge City or Contractor for the cost of additional insurance coverage required by this Agreement. Any such provisions are to be deleted with reference to City. It is not the intent of City to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against City for payment of premiums or other amounts with respect thereto.

3. The City reserves the right to withhold payments from the Contractor in the event of material noncompliance with the insurance requirements set forth in this Agreement.

F. EVIDENCE OF COVERAGE

Prior to commencement of any Services under this Agreement, Contractor, and each and every subcontractor (of every tier) shall, at their respective sole cost and expense, provide and maintain not less than the minimum insurance coverage with the endorsements and deductibles indicated in this Agreement. Such

insurance coverage shall be maintained with insurers, and under forms of policies, reasonably satisfactory to City and as described in this Agreement. Contractor shall file with the City all certificates and endorsements for the required insurance policies for City's approval as to adequacy of the insurance protection.

G. EVIDENCE OF COMPLIANCE

Contractor or its insurance broker shall provide the required proof of insurance compliance, consisting of Insurance Services Office (ISO) endorsement forms or their equivalent and the ACORD form 25-S certificate of insurance (or its equivalent), evidencing all required coverage shall be delivered to City, or its representative as set forth below, at or prior to execution of this Agreement. Unless otherwise required by the terms of this Agreement, all certificates, endorsements, coverage verifications and other items required to be delivered to City pursuant to this Agreement shall be mailed to:

EBIX Inc.

City of Santa Clara Parks & Recreation Department

P.O. Box I00085 - S2 or I Ebix Way

Duluth, GA 30096 John's Creek, GA 30097

Telephone number: 951-766-2280

Fax number: 770-325-0409

Email address: ctsantaclara@ebix.com

H. QUALIFYING INSURERS

All of the insurance companies providing insurance for Contractor shall have, and provide written proof of, an A. M. Best rating of at least A minus 6 (A- VI) or shall be an insurance Contractor of equal financial stability that is approved by the City or its insurance compliance representatives.

PARK MAINTENANCE AGREEMENT

BY AND BETWEEN

THE CITY OF SANTA CLARA,

a chartered California municipal corporation,

AND

CRE-GS FREEDOM CIRCLE PHASE I OWNER, LLC

This Park Maintenance Agreement ("**Agreement**") is entered into by and between CITY OF SANTA CLARA ("**City**"), a chartered California municipal corporation, and CRE-GS FREEDOM CIRCLE PHASE I OWNER, LLC ("**Contractor**"), (collectively the "**Parties**") and is effective on the date set forth in Section 3.

RECITALS

City and Contractor enter into this Agreement based on the following facts, understandings and intentions, and the following recitals are a substantive part of this Agreement:

A. **WHEREAS**, Contractor is developing residential project as part of the project located at 3925 (but also referred to as 3905) Freedom Circle described in File Number PLN2017-12516 in the City ("Project") which includes the approximately 13.4-acre real property identified on **Exhibit A** ("Project Property"); and

B. **WHEREAS**, the Project includes an approximately 2.014-acre public park and Parties have signed that certain agreement termed the Parkland Agreement, wherein Contractor has agreed to dedicate that real property located in the City described as Parcel 4 in that certain Parcel Map recorded on _____, 2025, and more particularly described in **Exhibit B** attached hereto (the "Park Site") and construct public park improvements on the Park Site substantially in accordance with those specified in the Public Park Improvements Site Plan set forth in **Exhibit C** to this Agreement (the "Park Improvements"); and

C. **WHEREAS**, the Project will, in part, meet its parkland dedication requirements through the dedication of a park, and, as a condition of approval of the Project, Contractor has voluntarily agreed to assist with and pay for the maintenance, repair, and/or replacement of the Park Improvements on the Park Site under the terms of this Agreement; and

D. **WHEREAS**, the Project consists of three multi-family buildings on three separate parcels, referred to as Building A, Building B and Building C, within the Property, which are anticipated to be owned, built and operated over time by up to three separate entities and their assigns, and, therefore, at the point that the Property is owned by more than one legal entity, all common area maintenance, including the parkland maintenance obligations under this Agreement, will then be performed by a duly-formed Property Owners Association ("**POA**") in accordance with those certain Conditions, Covenants and Restrictions ("**CC&Rs**") that will allow common area maintenance, including the parkland maintenance obligations under this Agreement, to be shared among the future owners of Buildings A, B and C.

E. **WHEREAS**, the Parties desire to enter into this Agreement to set forth the roles and responsibilities of the Parties relating to the maintenance of the Park Improvements; and

F. **WHEREAS**, City's Director of Parks and Recreation ("**Director**"), including the Director's designees) is charged with and authorized for the administration of this Agreement.

SECTION 1. AGREEMENT DOCUMENTS.

The documents forming this entire Agreement between City and Contractor shall consist of this Agreement including the following exhibits which are incorporated herein fully by reference:

Exhibit A	Legal Description of Project Property
Exhibit B	Legal Description of Park Parcel
Exhibit C	Public Park Improvements Site Plan
Exhibit D	Scope of Services and Maintenance Specifications for Park Site
Exhibit D.1	City Of Santa Clara's Integrated Pest Management Policy
Exhibit E	Insurance Requirements

The Parties acknowledge their mutual understanding that the terms and conditions in the main body of this Agreement ("Terms and Conditions") and the above-referenced Exhibits are consistent with each other and the Parties agree that the Terms and Conditions and the Exhibits shall be read and interpreted in a manner to maintain the greatest consistency between them and to accomplish, to the greatest practical and legal extent feasible, the mutual intent and goals of the Parties as set forth in this Agreement. In the event there are any discrepancies or inconsistencies between the Terms and Conditions and any of the above-referenced Exhibits, the Terms and Conditions shall prevail.

SECTION 2. CONSTRUCTION AND DEDICATION OF PARK IMPROVEMENTS.

The Parties acknowledge and agree that the design, construction and installation of all improvements and initial landscaping for the Park Site as described in and required by the Parkland Agreement and/or any other separate public improvement agreement between City and Contractor and any and all plans attached thereto or referenced therein or otherwise approved by City in connection therewith ("**Park Improvements**"), the dedication of the Park Site upon completion of the Park Improvements, and the payment of any fees due in lieu of parkland dedication, shall be and remain governed exclusively by the provisions of the Parkland Agreement and any such other public improvement agreement.

SECTION 3. TERM OF AGREEMENT.

This Agreement and Contractor's obligations hereunder shall become effective on the later of: (i) the last date this Agreement is executed by the City and Contractor and (ii) the beginning of the Maintenance Period and shall terminate upon expiration or earlier termination of the Maintenance Term. As used herein, "**Maintenance Term**" shall mean the period of time commencing upon the date that fee title to the Park Site transfers to the City and continuing in perpetuity until terminated upon the first to occur of any of the following: (a) upon mutual written agreement of the Parties; (b) the date, if any, that the Park Site is no longer a publicly owned park, or (c) the Park Site is demolished and is not rebuilt.

SECTION 4. RIGHT-OF-ENTRY.

At all times during the Maintenance Term, Contractor and its employees, agents, and contractors shall have a non-exclusive license and right for pedestrians, vehicles, machinery and equipment to enter into, over, across, and upon the Park Site as is necessary for access, ingress, egress, and all activities related to the maintenance of the Park Site during the Maintenance Term as set forth in Section 5 and **Exhibit D** of this Agreement. No encroachment permit, consent or approval shall be required to be obtained by Contractor or any of its contractors from City in order to enter upon the Park Site for such purposes, unless an encroachment permit is required under either Santa Clara City Code Section 12.25.030 or Santa Clara City Charter Section 714.1.

SECTION 5. DESCRIPTION AND SCHEDULE OF MAINTENANCE SERVICES.

A. Contractor shall, at Contractor's sole cost and expense, fully and timely perform and satisfy any and all terms, conditions, and obligations of this Agreement. During the Maintenance Term and subject to the terms and conditions of this Agreement, Contractor shall, at Contractor's sole cost and expense, provide labor, supervision, supplies, materials, equipment, and any and all [Will have this odd gap fixed by word processing] other tools and manpower necessary to maintain and/or repair the Park Site in accordance with this Agreement.

B. In performing such maintenance and repair services, Contractor shall comply with the general maintenance requirements of the Park Site as described in **Exhibit D** of this Agreement to a level comparable to the level of maintenance and repairs performed by City within similar public parks located elsewhere within the City, and as required by the Director (the "**Maintenance Services**"). All Maintenance Services performed under this Agreement shall be subject to reasonable City review and approval for consistency with the Maintenance Services standards.

C. Contractor's Maintenance Services must be completed in accordance with the specifications set out in **Exhibit D** of this Agreement or as may be modified in writing between City and Contractor.

D. Project Owner and/or its contractor, subcontractor, agent, or representative shall not store any equipment, materials, or supplies in, on, or upon the Park Site. unless reasonably necessary to perform any Maintenance Services or for restoration in the event of a casualty.

E. The Parties acknowledge and agree that, at all times during the Maintenance Term, the Park Site will be and remain a public park operated, controlled, supervised, and policed (including all emergency response services) solely by City, and open to the public during the hours then set by City (currently, 6:00 A.M. until one-half hour after sunset). Notwithstanding any provision herein to the contrary (including but not limited to Section 14), nothing in this Agreement shall create, or be deemed to create, any responsibility or liability on the part of Contractor or any of its respective contractors, employees, affiliates, successors or assigns of any portion of the Property ("**Contactor Parties**"), for the operation, control, supervision, or policing of the Park Site or the public's use of or access to the Park Site. Nothing herein gives Contractor the right to restrict or to exclude any

person or entity from the Park Site during the Maintenance Term, except as provided in this Agreement. If Contractor believes that any area of the Park Site needs to be restricted or closed for public safety purposes, including to perform the Maintenance Services described herein, Contractor may, upon not less than two (2) days prior written notice to City (except in emergency situations in which case only notice that is reasonable under the circumstances shall be required), restrict or close such areas of the Park Site for a reasonable amount of time in order to allow the safety issues to be addressed. Contractor and/or its employees, agents, representatives, contractors, or subcontractors shall not store any equipment, materials, or supplies in, on, or upon the Parklands beyond such time reasonably necessary to perform any particular Maintenance Services for which they are needed and shall take appropriate measures to secure the same and prevent any public access thereto. The Parties acknowledge and agree to comply with the applicable provisions of Section 714.1 of the Santa Clara City Charter requiring that no substantial building, construction, reconstruction or development upon or with respect to the Park shall be made except pursuant to ordinance subject to referendum.

F. During the Maintenance Term, upon City's request, Contractor's maintenance contractor(s)/facilities manager and the Director or other designated representative of the City shall meet on a periodic basis at the Park Site to inspect the Park Site and review the Maintenance Services provided herein by Contractor.

SECTION 6. INDEPENDENT CONTRACTOR.

Contractor, in the performance of this Agreement, is an independent contractor. Contractor shall maintain complete control over all of its employees, agents, subcontractors, and representatives in the performance of this Agreement. Neither Contractor nor any person retained by Contractor may represent, act, or purport to act as the agent, representative, or employee of City. Neither Contractor nor City is granted any right or authority to assume or create any obligation on behalf of the other.

SECTION 7. COMPLIANCE WITH LAWS.

A. In performing its obligations under this Agreement, Contractor shall comply with all applicable laws, ordinances, codes and regulations (collectively "**laws**") of the federal, state and local governments, including without limitation, any and all laws specified elsewhere in this Agreement, subject to the provisions of this Agreement. The Parties acknowledge and agree that neither Contractor nor any of its contractors or subcontractors will be receiving any payment from City for the Maintenance Services. and that there is no requirement for the payment of prevailing wages in connection with the Maintenance Services.

B. Without limiting the generality of the foregoing provision, all persons retained by Contractor to perform Maintenance Services required under this Agreement shall possess the requisite licenses and necessary permits to perform such Maintenance Services.

SECTION 8. PERSONNEL/IDENTIFICATION.

A. Any and all personnel employed or retained by Contractor in performance of this Agreement shall be qualified to perform the duties assigned to them by Contractor and

shall be of good moral character. Contractor's personnel shall conduct themselves at all times in a courteous and businesslike manner.

B. Contractor represents and warrants to City that any personnel retained by Contractor to perform Maintenance Services shall not have any criminal record for offenses related to the possession or use of controlled substances, sex offenses or any criminal offense involving violence.

C. All personnel who perform Maintenance Services will wear clothing or a nametag, which bears the Contractor's name, or if an approved subcontractor, the clothing shall bear the subcontractor's name. The clothing worn by Contractor's personnel shall be appropriate for the work assigned and shall give Contractor's staff a neat and professional appearance. Contractor's vehicles that park on the Park Site shall have appropriate identification as approved by the Director (i.e., Contractor's vehicles will not be allowed on the Park Site without the appropriate parking permit displayed on the dashboard).

SECTION 9. NONDISCRIMINATION.

Contractor shall not discriminate, in any way, against any person on the basis of race, sex, color, age, religion, sexual orientation, actual or perceived gender identity, disability, ethnicity, national origin, or any other protected class in connection with or related to the performance of this Agreement.

SECTION 10. TAXES AND CHARGES.

Contractor shall be solely responsible for, and will pay, any excise taxes, fees, contributions, or charges applicable to the conduct of its business or which may be levied on the Maintenance Services hereunder.

SECTION 11. CONFIDENTIAL INFORMATION.

All City data, documents, discussions or other information developed or received by or for the Contractor in performance of this Agreement are confidential and must not be disclosed to any person or entity except as authorized in writing by City, or as required by law or court order or as required to be disclosed to the officers, directors and members of any owners association for the Project ("**Confidential Information**"). Confidential Information shall not include information that (i) is or becomes generally available to the public without breach of this Agreement, (ii) was in the possession of Contractor prior to the disclosure thereof by City, (iii) was or is obtained by Contractor from a third party who, to the knowledge of Contractor, is not subject to any confidentiality agreement in favor of City regarding such information, or (iv) is independently developed by or on behalf of Contractor without reliance on the Confidential Information. Contractor, its respective agents, directors, officers, employees, consultants, contractors, and subcontractors shall hold the Confidential Information in strict confidence and not use on its own behalf or disclose such Confidential Information to any third party, unless required by law.

OWNERSHIP OF MATERIALS.All reports, documents or other materials related to the Park Site developed or discovered by Contractor or any other person engaged directly or indirectly by

Contractor to perform Maintenance Services are City's property without restriction or limitation upon their use by City.

SECTION 12. ASSIGNABILITY.

Subject to the provisions of this Section, Contractor may not assign any rights, duties, or obligations under this Agreement without the prior written consent of City, which shall not be unreasonably withheld, conditioned or delayed; provided, however, that the City acknowledges and agrees that Contractor is authorized to hire, and to delegate to, appropriately qualified contractors and/or subcontractors to perform the Maintenance Services under this Agreement. The assignment of Contractor's rights, duties and obligations hereunder to any of the following entities or persons shall not require approval of City and shall automatically result in the release of the assignor from its obligations hereunder: (i) any entity that is an affiliate of Contractor; (ii) any other party comprising Contractor; (iii) the POA, once duly-formed and subject to recorded CC&Rs that include the obligations hereunder to the reasonable satisfaction of the Director; and (iv) any entity or person that acquires or leases any portion of the Project. As used herein, an "**affiliate of Contractor**" means any entity that directly or indirectly controls or is controlled by or under common control with Contractor (whether through the ownership or control of voting interests, by contract, or otherwise). Any attempt by Contractor to assign or transfer this Agreement in violation of this Section 12 of the Agreement will be voidable at City's sole discretion.

Any contractor and/or subcontractor retained by Contractor to perform and satisfy any terms, conditions or obligations under this Agreement, including insurance requirements, and shall receive a copy of this Agreement and be contractually required to comply with this Agreement. Contractor shall be responsible for all contractors or subcontractors retained by Contractor, or on its behalf, to perform any Maintenance Services under this Agreement.

SECTION 13. ALTERATIONS.

Contractor shall not make, nor be obligated to make, any improvements, alterations, additions, or changes to the Park Site or the Park Improvements other than performing the Maintenance Services. Alterations which involve structural changes to the Park Site . Alterations which are non-structural changes to the Park Site may be approved by Director. Any such Alterations shall be done in compliance with Santa Clara City Charter section 714.1 and shall be solely funded by the City unless expressly requested by the Contractor in its sole and absolute discretion.

SECTION 14. INDEMNIFICATION.

A. To the extent permitted by law, Contractor agrees to protect, defend, hold harmless and indemnify City, its City Council, commissions, officers, employees, volunteers and agents (collectively, "**City Parties**") from and against any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and attorney's fees in providing a defense to any such claim or other action, and whether sounding in law, contract, tort, or equity, in any manner to the extent arising from, or alleged to arise in whole or in part from, or in any way connected with the performance of the Maintenance Services by Contractor pursuant to this Agreement, including claims of any kind by Contractor's employees or persons

contracting with Contractor to perform any portion of the initial construction of the Park Improvements, and shall expressly include passive or active negligence by City connected with the Contractor's performance of the initial construction of the Parklands Improvements. However, the obligation to indemnify shall not apply to the proportionate extent such liability is ultimately adjudicated to have arisen in whole or in part from the willful misconduct or grossly negligent acts or omissions of City or the City Parties; the obligation to defend is not similarly limited.

B. Contractor's obligation to protect, defend, indemnify, and hold harmless in full City and City's employees, shall specifically extend to any and all employment-related claims of any type brought by employees, contractors, subcontractors or other agents of Contractor, against City (either alone, or jointly with Contractor), regardless of venue/jurisdiction in which the claim is brought and the manner of relief sought.

C. To the extent Contractor is obligated to provide health insurance coverage to its employees pursuant to the Affordable Care Act ("**Act**") and/or any other similar federal or state law, Contractor warrants that it is meeting its obligations under the Act and will fully indemnify and hold harmless City for any penalties, fines, adverse rulings, or tax payments associated with Contractor's responsibilities under the Act.

D. City agrees to protect, defend, hold harmless and indemnify Contractor, its officers, employees, contractors and agents and successors and assigns (collectively, "**Contractor Parties**") from and against any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and attorney's fees in providing a defense to any such claim or other action, and whether sounding in law, contract, tort, or equity, in any manner to the extent arising from, or alleged to arise in whole or in part from, or in any way connected with the active negligence or willful misconduct of City or any City Parties with respect to the City's operation, control, supervision, or policing of the Park Site, including actions by members of the public on the Park Site.

E. The provisions of this Section 14 shall survive expiration or sooner termination of this Agreement.

SECTION 15. INSURANCE REQUIREMENTS.

Contractor agrees that Contractor or its subcontractor shall have and maintain the policies set forth in the attached **Exhibit E**, entitled "Insurance Requirements" to cover the Contractor's Maintenance Services under this Agreement. All policies, endorsements, certificates, and/or binders shall be subject to approval by the Risk Manager or the Risk Manager's authorized designee ("**Risk Manager**") as to form and content. These requirements are subject to amendment or waiver if so approved in writing by the Risk Manager. Contractor agrees to provide City with a copy of said policies, certificates and/or endorsements before any Maintenance Services commence under this Agreement.

SECTION 16. TERMINATION.

A. Notwithstanding any other provision in this Agreement, the City, in its sole discretion, may immediately terminate this Agreement, without cause, upon written notice of termination

to the Contractor, whereupon City shall assume, and thereafter be and remain solely responsible, at City's sole cost, for the performance of all Maintenance Services.

B. City's Director is authorized to terminate this Agreement on City's behalf under this Section 16 or Section 17 of this Agreement.

C. In the event of termination, Contractor shall immediately deliver to City copies of all reports, documents, and other work performed by Contractor under this Agreement.

SECTION 17. DEFAULT AND TERMINATION.

A. If Contractor fails to perform any of the material terms, conditions, or obligations required to be performed by Contractor under this Agreement, and such failure continues uncured for a period of thirty (30) days following Contractor's receipt of written notice from City specifying Contractor's breach (or such longer cure period in those instances where the specified breach cannot reasonably be cured within such 30-day period, provided Contractor commences to cure the specified breach within such 30-day period and thereafter diligently pursues such cure to completion), Contractor shall be deemed to be in default under this Agreement (a "Contractor's Default'). In the event of a Contractor's Default, City, as its sole and exclusive remedy, may either (a) take all reasonable steps to cure such Contractor's Default and recover damages from Contractor for the direct costs and expenses incurred by City in such cure of Contractor's Default; or (b) seek specific performance by Contractor of the cure of such Project Owner's Default.

SECTION 18. WAIVER.

Each Party acknowledges and agrees that the other Party's waiver of any provision or breach or violation of any provision of this Agreement shall not be deemed to be a waiver of any other provision or a waiver of any subsequent breach or violation of the same or any other provision. City's acceptance of the performance of any of the Maintenance Services hereunder will not be a waiver of any provision of this Agreement.

SECTION 19. GOVERNING LAW.

This Agreement shall be governed and construed, and its performance enforced, under the statutes and laws of the State of California law.

SECTION 20. VENUE.

In the event that suit is brought by either Party to this Agreement, the Parties agree that venue must be exclusively vested in the state courts of the County of Santa Clara, or if federal jurisdiction is appropriate, exclusively in the United States District Court, Northern District of California, San Jose, California.

SECTION 21. NOTICES.

All notices and other communications required or permitted to be given under this Agreement must be in writing and must be personally served, or mailed, postage prepaid via U.S. mail, or sent via courier service, addressed to the respective Parties as follows:

City of Santa Clara
Attention: Parks & Recreation Department
1500 Warburton Avenue
Santa Clara, CA 95050
and by e-mail at parksandrecreation@santaclaraca.gov,
manager@santaclaraca.gov

And to Contractor addressed as follows:

CRE-GS Freedom Circle Phase I Owner, LLC
c/o Greystar Real Estate Partners, LLC
450 Sansome Street, Suite 500
San Francisco, CA 94111
Attention: Troy Vernon
Email: tvernon@greystar.com
Phone: (415) 527-2857

With a copy to:

Holland & Knight, LLP
560 Mission St., Suite 1900
San Francisco, CA 94105
Attention: Tamsen Plume
Email: tamsen.plume@hklaw.com
Phone: (415) 743-6941

Notice will be effective on the date personally delivered or if sent by courier service, on the date of receipt. If mailed, notice will be effective three (3) days after deposit in the mail. The Parties shall notify each other in writing of changes in either their respective addresses or their representatives subject to notification in accordance with the provisions of this Section 21.

SECTION 22. COMMUNICATION WITH CITY STAFF AND PARKS CONCERNS.

Without limiting or modifying the provisions of Section 5 above, Director shall be notified immediately in the event that an incident relating to the Park Site (i) requiring the filing of a police report, (ii) resulting in the Park Site or related Park Improvements being in an unsafe condition, (iii) otherwise materially affecting the operation of the Park Site, or (iv) non-life-threatening emergency should occur on, in or around the Park Site (collectively "**Park Incidents**"). Communication described in this Section 22 shall be in addition to notices described in Section 21 above. Contractor shall use best efforts to provide communication as follows:

Life threatening emergencies, or crimes in progress.	Contact emergency services: 911
Park Incidents or non-life-threatening Park Site emergencies occurring on weekdays between the hours of 8 a.m. and 5 p.m.	Contact Deputy Parks and Recreation Director Office: Office (408) 615-3770
Park Incidents or non-life-threatening Park Site emergencies occurring on weekdays between the hours of 5 p.m. and 8 a.m., on weekends, or on City holidays.	Contact Non-Emergency Police Department Line: (408) 615-5580
Public's comments, concerns	Refer public to the MySantaClara app (www.santaclaraca.gov/services/make-a-service-request)

SECTION 23. FORCE MAJEURE.

A. "**Force Majeure Event**" shall be defined as any matter or condition beyond the reasonable control of a Party, including but not limited to war, public emergency or calamity, fire, earthquake, extraordinary inclement weather, Acts of God, strikes, labor disturbances or actions, civil disturbances or riots, litigation brought by third parties against either City or Contractor or both, epidemic or pandemic (including COVID-19 or any variant), default by the other Party, or any governmental order or law which causes an interruption in the performance of this Agreement or prevents timely delivery of materials or supplies.

B. Should a Force Majeure Event prevent performance of this Agreement, in whole or in part, the Party affected by the Force Majeure Event shall be excused or performance under this Agreement shall be suspended to the extent commensurate with the Force Majeure Event; provided that the Party availing itself of this Section 23 shall notify the other Party within ten (10) days of the affected Party's knowledge of the commencement of the Force Majeure Event; and provided further that the time of suspension or excuse shall not extend beyond that reasonably necessitated by the Force Majeure Event.

C. Notwithstanding the foregoing, the following shall not excuse or suspend performance under this Agreement:

1. Performance under this Agreement shall not be suspended or excused for a Force Majeure Event if such event is not defined as a Force Majeure Event.

2. Negligence or failure of Contractor to perform its obligations under this Agreement shall not constitute a Force Majeure Event.

3. The inability of Contractor for any reason to have access to funds necessary to carry out its obligations under this Agreement or the termination of any contract by any subcontractor or for Contractor's default under such contract shall not constitute a Force Majeure Event.

SECTION 24. ESTOPPEL CERTIFICATES.

Either Party (the "**requesting Party**") may, at any time, and from time to time, deliver written notice to the other Party (the "**certifying Party**") requesting the certifying Party to certify in writing that, to the knowledge of the certifying Party, (a) this Agreement is in full force and effect and is a binding obligation of the Parties, (b) this Agreement has not been amended or modified or, if so amended or modified, identifying the amendments or modifications, and (iii) the requesting Party is not in default in the performance of its obligations under this Agreement, or if in default, to describe the nature of any defaults, and (iv) such other reasonable items as may be requested. The certifying Party receiving a request under this Section 24 shall execute and return its certificate within thirty (30) days following receipt of the request. The Director shall be authorized to execute any certificate requested by Contractor. Contractor and City acknowledge that a certificate hereunder may be relied upon by any transferees, title companies, and lenders. Contractor shall pay the City's reasonable costs involved in providing such estoppel certificate.

SECTION 25. MISCELLANEOUS.

A. If any part of this Agreement is for any reason found to be unenforceable, all other parts nevertheless remain enforceable.

B. Subject to the provisions of Section 15, this Agreement binds and inures to the benefit of the Parties and their respective successors, assigns and legal representatives.

C. The headings of the sections of this Agreement are inserted for convenience only. They do not constitute part of this Agreement and are not to be used in its construction.

D. Where this Agreement requires or permits City to act and no officer of the City is specified, City's Manager or the designated representative of City's Manager has the authority to act on City's behalf.

E. This Agreement is personal to Parties hereto, and the rights provided to Company shall not be deemed to be a possessory or any other type of interest or encumbrance in real property nor shall this Agreement be deemed to run with the land.

F. This Agreement, including all Exhibits attached thereto, represents the entire understanding of the Parties as to those matters contained herein. No prior oral or written understanding shall be of any force or effect with respect to those matters covered hereunder. This Agreement may only be amended by formal written agreement executed by both Parties.

G. Whenever required by the context of this Agreement, the singular includes the plural and the masculine includes the feminine and vice versa. This Agreement is not to be construed

as if it had been prepared by one of the Parties, but rather as if all the Parties had prepared it.

Except where the context otherwise requires, whenever the term maintenance is used in this agreement it shall also be interpreted to mean and include repair and/or replacement. For purposes of this Agreement, replacement is defined as the substitution of equipment and/or facilities related to the Park Improvements at the Park Site due only to the disrepair, dilapidation, age, or condition of the Park Improvements.

[signatures on following page]

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but both of which shall constitute one and the same instrument.

The Parties acknowledge and accept the terms and conditions of this Agreement as evidenced by the following signatures of their duly authorized representatives.

EXHIBIT D

SCOPE OF SERVICES AND MAINTENANCE SPECIFICATIONS

Turf Care

1. Mowing to be performed at a uniform height in alternating patterns on a weekly basis. Mulching mowers are allowed. Turf to be clean of debris upon completion.

2. Edging along sidewalks and curbs with power edger, weekly.

3. A 6" - 12" buffer zone to be maintained around all obstacles including buildings, fencing, light fixtures, signs, trees, etc., weekly.

4. Mechanical aeration to be performed two times per year.

5. Overseeding of turf, weekly due to pet damage.

6. Annual fall overseeding included as part of the overall maintenance program.

7. Fertilize turf 4x per year, not to exceed 6Ib of Nitrogen per 1000 sq. ft. annually.

8. Spray broadleaf weeds quarterly.

Ground Cover, Shrubs And Vine Care

1. Pruning shall be performed to maintain neat, clean and well defined appearance within all general boundaries including sidewalks and structures.

2. A 6" - 12" buffer zone to be maintained around all obstacles including buildings, fencing, light fixtures, signs, trees, etc.

3. Fertilize 3x per year.

4. Mulch all bare planter areas quarterly with approved Recology arbor mulch.

Tree Care

1. Pruning shall be performed to develop trunk caliper and scaffolding branches and includes the removal of dead and damaged branches, which can be reached from the ground with an extension pole pruner.

2. Prune for 8' clearance over walkways and 15' over parking areas and streets.

3. Labor and materials for tree staking, ties and guying requirements are included.

Plant Health

1. Control diseases, pests and weeds mechanically and via product material per approved guidelines and requirements.

2. Apply fertilization product material to provide lush, green and healthy appearance, to maintain all plant material in a state of perpetual growth. After application process, clean up any overspray of product material, immediately.

3. Provide any tests and reports as required once per year, to investigate soil chemistry, disease and insects and other factors to maintain the landscape in a healthy state.

Disease, Pest and Weed Control

1. Control all plant material diseases, pests, weeds and rodents mechanically and via approved product material per Department of Pesticide Regulation, County of Santa Clara Agriculture Commissioner and City of Santa Clara Integrated Pest Management guidelines and requirements.

2. Spray or manually remove weeds in all hardscape on a monthly basis.

Irrigation Management

1. Manage controller units for scheduled operation during evening hours. Provide system adjustments, cleaning, modifications and minor repairs to meet plant requirements, resulting in maximizing water usage, while minimizing runoff and overspray.

2. Provide monthly system inspections. Complete thorough irrigation inspections in February and September and report via Irrigation Tracking Sheets.

3. Repairs per unit pricing rates.

4. Hand watering is included, to maintain plant material in a healthy state, which has inadequate irrigation coverage.

Extra Work

1. Sod replacement and shrub replacement as needed to maintain a full and lush appearance.

2. Plant and irrigation replacements required due to damage by others.

3. In-fill and installation of decomposed granite pathway material.

General

1. Daily: Site review and trash clean up to be performed first thing each morning. Walkways to be swept or blown for pedestrian access. Equipment commencement after 8:00a.m.

2. Rake and groom decomposed granite pathways weekly.

Graffiti Abatement

1. Damaged Signs and Park Elements:

2. Within one (1) week of identification

3. In Instances of Objectionable Content: Within twenty-four (24) hours of identification

Playground Maintenance/Routine

1. Follow all safety precautions and wear all appropriate personal protective equipment

2. Check overall assessment of equipment.

3. inspect all components to ensure parts are not missing

4. Check equipment for unsafe conditions. No missing guards or rails

5. Check equipment for proper function, make adjustments if needed

6. Check painted surfaces for a consistent painted finish

7. Painted surfaces show a consistent painted finish. Is repainting needed?

8. Ensure equipment anchored and secured correctly

9. Tighten any loose parts that need adjustment

10. Check for any signs of corrosion or rust

Dog Park Maintenance

1. Daily: Maintenance activities will include trash pickup and removal, restock dog waste bag, inspect grounds and dispose of any old water, toys, or food items. Check that security features are in working condition including gates, locks, fences, lighting, or video monitoring (when installed).

2. Monthly: Pressure washing of high use areas including walkways, benches, tables, railings, gates, turf, and water features.

3. Annual: No pesticides of any kind will be used in or near a dog park. All chemicals used for cleaning will be specifically labeled as safe to use in dog parks. Once per year the dog park will be pro-actively evaluated for any maintenance/repair needs or safety/regulatory upgrades.

Lubricate moving parts as necessary

EXHIBIT D-1

CITY OF SANTA CLARA'S INTEGRATED PEST MANAGEMENT (IPM) POLICY

(To be signed and returned to the City)

CITY OF SANTA CLARA
POLICY TO REQUIRE
AN INTEGRATED PEST MANAGEMENT APPROACH
TO PEST CONTROL AT ALL CITY OWNED PROPERTIES

The City of Santa Clara will carry out its pest management operations, at city-owned facilities, and on property where the City is responsible to provide facility and landscape maintenance, using Integrated Pest Management (IPM) techniques. The City will use best management practices for pest prevention to limit the amount of chemical applications needed for pest suppression. The City, recognizing that some pesticides may be potentially hazardous to human health and the environment, shall give preference to reasonably available non-pesticide alternatives, and reduced-risk pesticides, when performing pest control activities. The least toxic solution shall be selected whenever possible.

No products containing Clopyralid, Diazinon, Chlorpyrifos (Dursban), Chloradane, DDT, Dieldrin or other organophosphates may be used on City property. Fipronil and pyrethroids including, but not limited to Deltamethrin and Bifenthrin, may be used by City staff or a City contractor on City property or property maintained by the City only after all other l PM methods have been attempted and with the written approval of the designated City staff person.

Staff in departments that are responsible for implementing pest management techniques using City staff and/or contractors, or manage construction projects on City property that may need to implement pest management techniques, will be trained using the "Integrated Pest Management Guide for Facility Managers, Understanding IPM for Facilities, Landscape and Grounds Management", authored by the County of Santa Clara. Parks Department Maintenance Division, Parkways & Boulevards Division, Building Maintenance Division, and Public Works Inspection Division staff must attend annual IPM training and shall implement 1PM techniques.

Pesticide applications must have a written recommendation by a Pest Control Advisor (PCA). City personnel and contractors must possess a Qualified Applicator Certificate (QAC) to apply pesticides. Annual pesticide usage reports shall be prepared by all departments responsible for managing City properties where pesticides are used. The quantities and types of pesticides used by both City personnel and contractors shall be tracked and summarized in a report covering July 1 - June 30. Annual reports shall be submitted to the Director by July 31st each year.

Contracting Pesticide Applicators for the City of Santa Clara will sign this form to acknowledge that they have been advised of the City's Integrated Pest Management policy and agree to abide by it. Contracting Pesticide Applicators also agree to provide the City with summaries of quantities and types of chemicals applied for reporting purposes.

EXHIBIT E

INSURANCE REQUIREMENTS

Without limiting the Contractor's indemnification of the City, and prior to commencing any of the Services required under this Agreement, the Contractor shall provide and maintain in full force and effect, at its sole cost and expense, the following insurance policies with at least the indicated coverages, provisions and endorsements:

A. COMMERCIAL GENERAL LIABILITY INSURANCE

1. Commercial General Liability Insurance policy which provides coverage at least as broad as Insurance Services Office form CG 00 01. Policy limits are subject to review, but shall in no event be less than, the following:

   $2,000,000 each occurrence
   $4,000,000 general aggregate
   $2,000,000 products/completed operations aggregate
   $2,000,000 personal injury

2. Limits may be satisfied in combination with excess/umbrella policies on a following form basis.

3. The following provisions shall apply to the Commercial Liability policy as well as any umbrella policy maintained by the Contractor to comply with the insurance requirements of this Agreement:

   a. Coverage shall be on a "pay on behalf" basis with defense costs payable in addition to policy limits;

   b. There shall be no cross liability exclusion which precludes coverage for claims or suits by one insured against another; and

   c. Coverage shall apply separately to each insured against whom a claim is made or a suit is brought, except with respect to the limits of liability.

B. BUSINESS AUTOMOBILE LIABILITY INSURANCE

Business automobile liability insurance policy which provides coverage at least as broad as ISO form CA 00 OJ, with minimum policy limits of not less than one million dollars ($1,000,000) each accident using, or providing coverage at least as broad as, Insurance Services Office form CA 00 01. Liability coverage shall apply to all owned, non-owned and hired autos.

C. WORKERS' COMPENSATION

1. Workers' Compensation Insurance Policy as required by statute and employer's liability with the following limits: at least one million dollars ($1,000,000) policy

DRAFT

limit Illness/Injury by disease, and one million dollars ($1,000,000) for each Accident/Bodily Injury.

2. The indemnification and hold harmless obligations of Contractor included in this Agreement shall not be limited in any way by any limitation on the amount or type of damage, compensation or benefit payable by or for Contractor or any subcontractor under any Workers' Compensation Act(s), Disability Benefits Act(s) or other employee benefits act(s).

3. This policy must include a Waiver of Subrogation in favor of the City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents.

D. POLLUTION LIABILITY

Pollution Liability insurance covering liability for third-party bodily injury, property damage and cleanup costs resulting from a pollution incident with a limit not less than $2,000,000 per occurrence.

E. COMPLIANCE WITH REQUIREMENTS

All of the following clauses and/or endorsements, or similar provisions, must be part of each commercial general liability policy, and each umbrella or excess policy.

1. Additional Insureds. City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents are hereby added as additional insureds in respect to liability arising out of Contractor's work for City, using Insurance Services Office (ISO) Endorsement CG 20 10 11 85 or the combination of CG 20 10 03 97 and CG 20 37 10 01, or its equivalent.

2. Primary and non-contributing. Each insurance policy procured by Contractor shall contain language or be endorsed to contain wording making it primary insurance as respects to, and not requiring contribution from, any other applicable insurance which the indemnities may possess, including any self-insurance or self-insured retention they may have. Any other applicable insurance indemnities may possess shall be considered excess insurance only and shall not be called upon to contribute with Contractor's insurance.

3. Cancellation.

   a. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided due to non-payment of premiums shall be effective until written notice has been given to City at least ten (10) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least ten (10) days prior to the effective date of non- renewal.

   b. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided for any cause save

and except non-payment of premiums shall be effective until written notice has been given to City at least thirty (30) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least thirty (30) days prior to the effective date of non-renewal.

4. Other Endorsements. Other endorsements may be required for policies other than the commercial general liability policy if specified in the description of required insurance set forth in Sections A through D of this Exhibit E, above.

F. ADDITIONAL INSURANCE RELATED PROVISIONS

Contractor and City agree as follows:

1. Contractor agrees to ensure that subcontractors, and any other party involved with the Services, who is brought onto or involved in the performance of the Services by Contractor, provide the same minimum insurance coverage required of Contractor, except as with respect to limits. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this Agreement including additional insured status for the City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents through a Designated Personal or Organization endorsement. Contractor agrees that upon request by City, all agreements with, and insurance compliance documents provided by, such subcontractors and others engaged in the project will be submitted to City for review.

2. Contractor agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge City or Contractor for the cost of additional insurance coverage required by this Agreement. Any such provisions are to be deleted with reference to City. It is not the intent of City to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against City for payment of premiums or other amounts with respect thereto.

3. The City reserves the right to withhold payments from the Contractor in the event of material noncompliance with the insurance requirements set forth in this Agreement.

G. EVIDENCE OF COVERAGE

Prior to commencement of any Services under this Agreement, Contractor, and each and every subcontractor (of every tier) shall, at their respective sole cost and expense, provide and maintain not less than the minimum insurance coverage with the endorsements and deductibles indicated in this Agreement. Such insurance coverage shall be maintained with insurers, and under forms of policies, reasonably satisfactory to City and as described in this Agreement. Contractor shall file with the City all certificates and endorsements for the required insurance policies for City's approval as to adequacy of the insurance protection.

H. EVIDENCE OF COMPLIANCE

Contractor or its insurance broker shall provide the required proof of insurance compliance, consisting of Insurance Services Office (ISO) endorsement forms or their equivalent and the ACORD form 25-S certificate of insurance (or its equivalent), evidencing all required coverage shall be delivered to City, or its representative as set forth below, at or prior to execution of this Agreement. Unless otherwise required by the terms of this Agreement, all certificates, endorsements, coverage verifications and other items required to be delivered to City pursuant to this Agreement shall be mailed to:

EBIX Inc.
City of Santa Clara Parks & Recreation Department
P.O. Box 100085 – 52 or
Duluth, GA 30096

1 Ebix Way
John's Creek, GA
30097

Telephone number: 951-766-2280
Fax number: 770-325-0409
Fax number: 770-325-0409

I. QUALIFYING INSURERS

All of the insurance companies providing insurance for Contractor shall have, and provide written proof of, an A. M. Best rating of at least A minus 6 (A- VI) or shall be an insurance Contractor of equal financial stability that is approved by the City or its insurance compliance representatives.

25-1513 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT
Action on an Agreement with Allana Buick & Bers, Inc. for Citywide As-Needed Roofing Consulting Services

BACKGROUND
The Department of Public Works (DPW) is responsible for maintaining and repairing approximately 1,100,000 square feet of City facilities. To effectively handle the required workload for maintaining these facilities, DPW contracts with specialized vendors for a range of maintenance, repair, and consulting services, including as-needed roofing consulting services.

The City owns and operates approximately 100 buildings that periodically require roof repair or replacement. While minor repairs are performed through existing as-needed roofing contracts, more extensive work often requires professional consulting services to assess roof conditions, develop repair or replacement recommendations, and prepare technical specifications and drawings. Engaging a qualified roofing consultant ensures that repairs and replacements are efficient, cost-effective, and in accordance with building standards.

DISCUSSION
Pursuant to City Code Section 2.105.140(c) and State laws governing procurement of architectural and engineering services, the City followed a qualifications-based selection process whereby proposers are evaluated and the most qualified is selected, subject to negotiation of fair and reasonable compensation.

On July 18, 2025, staff published a Statement of Qualifications (SOQ) for Citywide Roofing Consulting Services on the City's e-procurement platform. A total of eight proposals were received from the following firms:

1. Allana Buick & Bers, Inc.
2. AVELAR
3. BEAM Professionals
4. Skyline Engineering, Inc.
5. Stantec Consulting Services, Inc.
6. Terracon Consultants, Inc.
7. Walker Consultants, Inc.
8. Walter P. Moore and Associates, Inc.

Proposals were independently evaluated based on several criteria, including firm experience, qualifications, technical capabilities, and responsiveness to the SOQ requirements. Allana Buick & Bers, Inc. (ABB), Stantec Consulting Services, Inc., and Walter P. Moore and Associates, Inc. were

invited to participate in oral interviews.

Following the evaluation and interview process, staff recommends awarding an agreement to ABB as the highest-ranked under the qualifications-based selection process. ABB has extensive roofing consulting experience and has the capacity and technical expertise to perform the required services.

Under the proposed agreement, ABB will provide as-needed roofing consulting services for City facilities. The scope includes conducting roof assessments, developing repair or replacement recommendations, assisting with permits, preparing roof specifications and drawings, and providing project management and related consulting support as needed.

Rates are fixed for the initial one-year term with maximum compensation at $150,000. After the initial term, rate adjustments may be considered if properly substantiated by the consultant and approved by the City. The agreement includes four one-year options for a total aggregate maximum compensation of $750,000 over the potential five-year term.

Under the agreement, ABB will perform services either on a fixed-fee or hourly basis, depending on the type and scope of work required. Fixed fees apply primarily to standard roof assessment services, while a detailed schedule of hourly labor rates is included to cover professional, technical, and administrative personnel services.

Prevailing wages requirements are included in the agreement.

ENVIRONMENTAL REVIEW

The action being considered is exempt for the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15301 “Existing Facilities” as the activity consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities mechanical equipment or topographical features involving negligible or no expansion of use beyond that existing at the time of the lead agencies determination.

FISCAL IMPACT

The not-to exceed amount to be paid to the Consultant over the initial one-year term is $150,000. This amount is an estimate based on past years’ expenditures for as-needed services, as well as planned projects to be completed during the initial one-year term. The total aggregate not-to-exceed amount to be paid to the Consultant for all option years is estimated to be $750,000, inclusive of compensation increases consistent with market conditions. Most costs will be charged to the relevant departments and use their respective funding sources based on the locations where the services are rendered. Sufficient budget is available to fund anticipated Citywide As-Needed Roofing Consulting Services in FY 2025/26. Costs beyond FY 2025/26 are subject to appropriation of funds by the City Council.

COORDINATION

This report has been coordinated with the Finance Department and the City Attorney’s Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City’s website

and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Determine that the proposed actions are exempt from CEQA pursuant to Section 15301 (Existing Facilities) of Title 14 of California Code of Regulations;
2. Authorize the City Manager or designee to execute an Agreement with Allana Buick & Bers, Inc. for Citywide As-needed Roofing Consulting Services for an initial one-year term with a maximum amount not-to-exceed $150,0000, in substantially the form presented, subject to the appropriation of funds and approval of final form by the City Attorney; and
3. Authorize the City Manager or designee to take any actions as necessary to implement and administer the Agreement, and to (a) exercise up to four one-year options to extend the term, (b) increase the maximum compensation by up to $600,000 for a total aggregate not-to-exceed amount of $750,000 over the full five-year term of the Agreement, (c) add or delete services consistent with the scope of services, (d) adjust future rates based on market conditions, and (e) make de minimis changes, subject to the appropriation of funds and approval as to form by the City Attorney.

EBIX Insurance No. S200005784

AGREEMENT FOR DESIGN PROFESSIONAL SERVICES BETWEEN THE CITY OF SANTA CLARA, CALIFORNIA, AND ALLANA BUICK & BERS, INC.

PREAMBLE

This Agreement is entered into as of the City's execution date (Effective Date) between the City of Santa Clara, California, a chartered California municipal corporation (City) and Allana Buick & Bers, Inc., a California corporation, (Consultant). City and Consultant may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

A. City desires to secure the design professional services more fully described in this Agreement, at Exhibit A, entitled "Scope of Services";

B. "Design professional" includes licensed architects, licensed landscape architects, registered professional engineers and licensed professional land surveyors;

C. Consultant represents that it, and its subcontractors, if any, have the professional qualifications, expertise, necessary licenses and desire to provide certain goods and/or required services of the quality and type which meet objectives and requirements of City; and,

D. The Parties have specified herein the terms and conditions under which such services will be provided and paid for.

The Parties agree as follows:

AGREEMENT TERMS AND CONDITIONS

1. AGREEMENT DOCUMENTS

The documents forming the entire Agreement between City and Consultant shall consist of these Terms and Conditions and the following Exhibits, which are hereby incorporated into this Agreement by this reference:

Exhibit A – Scope of Services

Exhibit B – Schedule of Fees

Exhibit C – Insurance Requirements

Exhibit D – Labor Compliance Addendum

Exhibit E – Notice of Exercise of Option to Extend Agreement Form

This Agreement, including the Exhibits set forth above, contains all the agreements, representations and understandings of the Parties, and supersedes and replaces any previous agreements, representations and understandings, whether oral or written. In the event of any inconsistency between the provisions of any of the Exhibits and the Terms and Conditions, the Terms and Conditions shall govern and control.

2. TERM OF AGREEMENT

A. Unless otherwise set forth in this Agreement or unless this paragraph is subsequently modified by a written amendment to this Agreement, the Initial Term of this Agreement shall begin on the Effective Date and terminate on December 31, 2026.

B. After the Initial Term, the City reserves the right, at its sole discretion, to extend the term of this Agreement for up to four (4) additional one-year terms through December 31, 2030 ("Option Period"), subject to budget appropriation. See Exhibit E for Notice of exercise of Option to Extend Agreement Form.

3. SCOPE OF SERVICES & PERFORMANCE SCHEDULE

Consultant shall perform those Services specified in Exhibit A within the time stated in Exhibit A. Time is of the essence.

A. All reports, costs estimates, plans and other documentation which may be submitted or furnished by Consultant shall be approved and signed by an appropriate qualified licensed professional in the State of California.

B. The title sheet for specifications and reports, and each sheet of plans, shall bear the professional seal, certificate number, registration classification, expiration date of certificate and signature of the design professional responsible for their preparation.

4. WARRANTY

Consultant expressly warrants that all materials and services covered by this Agreement shall be fit for the purpose intended, shall be free from defect and shall conform to the specifications, requirements and instructions upon which this Agreement is based. Consultant agrees to promptly replace or correct any incomplete, inaccurate or defective Services at no further cost to City when defects are due to the negligence, errors or omissions of Consultant. If Consultant fails to promptly correct or replace materials or services, City may make corrections or replace materials or services and charge Consultant for the cost incurred by City.

5. QUALIFICATIONS OF CONSULTANT - STANDARD OF CARE

Consultant represents and maintains that it has the expertise in the professional calling necessary to perform the Services, and its duties and obligations, expressed and implied, contained herein, and City expressly relies upon Consultant's representations regarding its skills and knowledge. Consultant shall perform such Services and duties in conformance to and consistent with the professional standards of a specialist in the same discipline in the State of California.

6. CONFLICT OF INTEREST (FORM 700)

In accordance with the California Political Reform Act (Government Code Section 8100 et seq.) and the City's Conflict of Interest Code, Consultant shall cause each person who will be principally responsible for providing the service and deliverables under this Agreement as having to file a Form 700 to do each of the following:

A. Complete and file the Form 700 no later than thirty (30) calendar days after the date the person begins performing services under the Agreement all subsequent Form 700s in conformance with the requirements specified in the California Political Reform Act; and

B. File Form 700 with the City's Clerk Office.

7. ASSIGNMENT OF WORK

A. Consultant will provide roofing consulting services (Services) to the Public Works Facilities Division as further described in Exhibit A.

B. Each assignment will be authorized in writing by the City and shall include the scope of work, deliverables, schedule, and either (i) a not-to-exceed amount based on time and materials (T&M) using the hourly rates in Exhibit B or (ii) a lump sum amount, if applicable.

C. The City has no obligation to assign any work under this Agreement.

8. COMPENSATION AND PAYMENT

In consideration for Consultant's complete performance of Services, City shall pay Consultant for all materials provided and Services rendered by Consultant in accordance with Exhibit B, entitled "SCHEDULE OF FEES." The maximum compensation of this Agreement is specified in Section 1 of Exhibit B, subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services. All work performed or materials provided in excess of the maximum compensation shall be at Consultant's expense. Consultant shall not

be entitled to any payment above the maximum compensation under any circumstance.

9. TERMINATION

A. Termination for Convenience. City shall have the right to terminate this Agreement, without cause or penalty, by giving not less than Thirty (30) days' prior written notice to Consultant.

B. Termination for Default. If Consultant fails to perform any of its material obligations under this Agreement, in addition to all other remedies provided by law, City may terminate this Agreement immediately upon written notice to Consultant.

C. Upon termination, each Party shall assist the other in arranging an orderly transfer and close-out of services. As soon as possible following the notice of termination, but no later than ten (10) days after the notice of termination, Consultant will deliver to City all City information or material that Consultant has in its possession.

10. ASSIGNMENT AND SUBCONTRACTING

City and Consultant bind themselves, their successors and assigns to all covenants of this Agreement. This Agreement shall not be assigned or transferred without the prior written approval of City. Consultant shall not hire subcontractors without express written permission from City.

Consultant shall be as fully responsible to City for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by them, as Consultant is for the acts and omissions of persons directly employed by it.

11. NO THIRD PARTY BENEFICIARY

This Agreement shall not be construed to be an agreement for the benefit of any third party or parties and no third party or parties shall have any claim or right of action under this Agreement for any cause whatsoever.

12. INDEPENDENT CONSULTANT

Consultant and all person(s) employed by or contracted with Consultant to furnish labor and/or materials under this Agreement are independent contractors and do not act as agent(s) or employee(s) of City. Consultant has full rights to manage its employees in their performance of Services under this Agreement.

13. CONFIDENTIALITY OF MATERIAL

All ideas, memoranda, specifications, plans, manufacturing procedures, data, drawings, descriptions, documents, discussions or other information developed

or received by or for Consultant and all other written information submitted to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant and shall not, without the prior written consent of City, be used for any purposes other than the performance of the Services nor be disclosed to an entity not connected with performance of the Services. Nothing furnished to Consultant which is otherwise known to Consultant or becomes generally known to the related industry shall be deemed confidential.

14. OWNERSHIP OF MATERIAL

All material, which shall include, but not be limited to, data, sketches, tracings, drawings, plans, diagrams, quantities, estimates, specifications, proposals, tests, maps, calculations, photographs, reports, designs, technology, programming, works of authorship and other material developed, collected, prepared or caused to be prepared under this Agreement shall be the property of City but Consultant may retain and use copies thereof. City shall not be limited in any way or at any time in its use of said material. However, Consultant shall not be responsible for damages resulting from the use of said material for work other than Project, including, but not limited to, the release of this material to third parties.

15. RIGHT OF CITY TO INSPECT RECORDS OF CONSULTANT

City, through its authorized employees, representatives or agents shall have the right during the term of this Agreement and for four (4) years from the date of final payment for goods or services provided under this Agreement, to audit the books and records of Consultant for the purpose of verifying any and all charges made by Consultant in connection with Consultant compensation under this Agreement, including termination of Consultant. Consultant agrees to maintain sufficient books and records in accordance with generally accepted accounting principles to establish the correctness of all charges submitted to City. Any expenses not so recorded shall be disallowed by City. Consultant shall bear the cost of the audit if the audit determines that there has been a substantial billing deviation in excess of five (5) percent adverse to the City.

Consultant shall submit to City any and all reports concerning its performance under this Agreement that may be requested by City in writing. Consultant agrees to assist City in meeting City's reporting requirements to the State and other agencies with respect to Consultant's Services hereunder.

16. HOLD HARMLESS/INDEMNIFICATION

To the extent permitted by law, Consultant agrees to protect, defend, hold harmless and indemnify City, its City Council, commissions, officers, employees, volunteers and agents from and against any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and attorney's fees in providing a defense to any such claim or other action, and whether sounding in law, contract, tort, or equity, to the extent arising out of, pertaining to, or related to the

negligence, recklessness, or willful misconduct of the Consultant, its employees, subcontractors, or agents in the performance, or non-performance, of Services under this Agreement.

17. INSURANCE REQUIREMENTS

During the term of this Agreement, and for any time period set forth in Exhibit C, Consultant shall provide and maintain in full force and effect, at no cost to City, insurance policies as set forth in Exhibit C.

18. WAIVER

Consultant agrees that waiver by City of any one or more of the conditions of performance under this Agreement shall not be construed as waiver(s) of any other condition of performance under this Agreement. Neither City's review, acceptance nor payments for any of the Services required under this Agreement shall be constructed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

19. NOTICES

All notices to the Parties shall, unless otherwise requested in writing, be sent to City addressed as follows:

City of Santa Clara
Attention: Ken Winland
1500 Warburton Avenue
Santa Clara, CA 95050
and by e-mail at kwinland@santaclaraca.gov;
manager@santaclaraca.gov; and purchasing@santaclaraca.gov

And to Consultant addressed as follows:

Allana Buick & Bers, Inc.
990 Commercial Street
Palo Alto, CA 94303
and by e-mail at ebuick@abbae.com

The workday the e-mail was sent shall control the date notice was deemed given. An e-mail transmitted after 1:00 p.m. on a Friday shall be deemed to have been transmitted on the following business day.

20. COMPLIANCE WITH LAWS

Consultant shall comply with all applicable laws and regulations of the federal, state and local government, including but not limited to "The Code of the City of Santa Clara, California" ("SCCC"). In particular, Consultant's attention is called to

the regulations regarding Campaign Contributions (SCCC Chapter 2.130), Lobbying (SCCC Chapter 2.155), Minimum Wage (SCCC Chapter 3.20), Business Tax Certificate (SCCC section 3.40.060), and Food and Beverage Service Worker Retention (SCCC Chapter 9.60), as such Chapters or Sections may be amended from time to time or renumbered. Additionally Consultant has read and agrees to comply with City's Ethical Standards (http://santaclaraca.gov/home/showdocument?id=58299).

21. CONFLICTS OF INTEREST

Consultant certifies that to the best of its knowledge, no City officer, employee or authorized representative has any financial interest in the business of Consultant and that no person associated with Consultant has any interest, direct or indirect, which could conflict with the faithful performance of this Agreement. Consultant is familiar with the provisions of California Government Code section 87100 and following, and certifies that it does not know of any facts which would violate these code provisions. Consultant will advise City if a conflict arises.

22. FAIR EMPLOYMENT

Consultant shall not discriminate against any employee or applicant for employment because of race, sex, color, religion, religious creed, national origin, ancestry, age, gender, marital status, physical disability, mental disability, medical condition, genetic information, sexual orientation, gender expression, gender identity, military and veteran status, or ethnic background, in violation of federal, state or local law.

23. NO USE OF CITY NAME OR EMBLEM

Consultant shall not use City's name, insignia, or emblem, or distribute any information related to services under this Agreement in any magazine, trade paper, newspaper or other medium without express written consent of City.

24. GOVERNING LAW AND VENUE

This Agreement shall be governed and construed in accordance with the statutes and laws of the State of California. The venue of any suit filed by either Party shall be vested in the state courts of the County of Santa Clara, or if appropriate, in the United States District Court, Northern District of California, San Jose, California.

25. SEVERABILITY CLAUSE

In case any one or more of the provisions in this Agreement shall, for any reason, be held invalid, illegal or unenforceable in any respect, it shall not affect the validity of the other provisions, which shall remain in full force and effect.

26. AMENDMENTS

This Agreement may only be modified by a written amendment duly authorized and executed by the Parties to this Agreement.

27. COUNTERPARTS

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but both of which shall constitute one and the same instrument.

(SIGNATURES ON NEXT PAGE)

The Parties acknowledge and accept the terms and conditions of this Agreement as evidenced by the following signatures of their duly authorized representatives.

"CONSULTANT"

EXHIBIT A
SCOPE OF SERVICES

The Services to be performed for the City by the Consultant under this Agreement are set forth below.

1. SERVICES

1.1. Consultant shall provide as-needed roofing consultation services as required by the City's Public Works Facilities Division.

1.2. Services shall include the following tasks:

1.2.1. Assessment of current roof(s);

1.2.2. Recommendations of repair requirements or new roof replacement requirements;

1.2.3. Develop roof specifications/drawings for repairs or replacement;

1.2.4. Assist with permits; and

1.2.5. Project management for various roofing projects, such as construction administration services (to ensure roof meets the design intent), assist in development of scope of services for projects that need to be bid out.

1.3. As requested by the City Consultant shall provide assessment services that includes an assessment report with recommendations of roof replacement or roof repairs.

1.4. After the City has reviewed an assessment report the City may request Consultant to provide services to develop roof specifications/drawings for repairs or replacement as recommended in the assessment report.

1.4.1. Consultant shall provide a proposal for these services to the City Project Manager. The proposal must include detailed tasks, number of hours, staff member(s) providing services, hourly rate, etc. Services shall not begin until the Consultant has received approval to proceed from the City Project Manager.

1.5. Prevailing wages may apply when working on a project that will result in your firm managing the constructions activities of the roofing repairs or replacement.

EXHIBIT B
SCHEDULE OF FEES

. MAXIMUM COMPENSATION

1.1. The maximum amount payable for all services provided under this Agreement shall not exceed **One Hundred Fifty Thousand Dollars ($150,000)** during the Initial Term of the Agreement. No additional services shall be performed unless both Parties execute an Amendment outlining the services requested and compensation agreed for such services.

1.2. All payments are based upon City's acceptance of Consultant's performance of services specified in Exhibit A, Scope of Services. City shall have no obligation to pay unless Consultant has successfully completed the work for which payment is due.

2. FIXED FEE SERVICES

The table below sets the not-to-exceed fee for the following services:

Service Description	Not-to-Exceed Fee				
	<5K SQFT	5K-10K SQFT	10K-25K SQFT	25K-50K SQFT	50K-100K SQFT
Roof Assessment	$4,560	$5,160	$5,760	$6,940	$8,120
Assessment Report	$2,640	$2,640	$3,040	$4,160	$6,080
Roof Test Cut Contractor Allowance	$1,500	$1,500	$2,000	$2,500	$5,000
Boom Lift Allowance	$1,200	$1,200	$1,200	$2,400	$2,400

3. HOURLY RATES FOR

The table below sets forth Consultant's rates that apply for services provided under this Agreement based on hours worked.

TITLE	HOURLY RATE
Admin Services	$130
Associate I	$250
Associate II	$260
Associate III	$290
Associate IV	$310
Building Technologist I	$190
Building Technologist II	$200

TITLE	HOURLY RATE
Building technologist III	$210
CAD Graphics Specialist I	$170
CAD Graphics Specialist II	$180
CAD Graphics Specialist III	$190
Construction Manage I	$200
Construction Manager II	$220
Construction Manager III	$240
Consultant I	$210
Consultant II	$230
Consultant III	$250
Consultant IV	$280
Executive Project Manager	$280
Field Monitor (Part-Time)	$190
Field Monitor I	$150
Field Monitor II	$170
Field Monitor III	$180
Forensic Document Specialist	$200
IT Consultant	$200
Principal I	$330
Principal II	$350
Principal III	$400
Principal IV	$430

3.1. Pricing is fixed for the Initial Term of the Agreement. Any price adjustment requests must be submitted to the City at least sixty (60) days prior to the end of the Initial Term. Consultant must demonstrate to the satisfaction of the City that a price adjustment is warranted and must be supported by the appropriate price index. Price adjustments are subject to the City's approval.

4. INVOICING

4.1. Consultant shall submit monthly invoices that tabulate hours spent by each staff member reviewing plans for each Planning and Building permit number. Each invoice should tabulate the total amount of hours and dollars spent reviewing each individual permit as reviews will overlap billing cycles.

4.2. City will pay Consultant within approximately thirty (30) days of City's receipt of an approved invoice.

EXHIBIT C
INSURANCE REQUIREMENTS

Without limiting the Consultant's indemnification of the City, and prior to commencing any of the Services required under this Agreement, the Consultant shall provide and maintain in full force and effect during the period of performance of the Agreement and for twenty-four (24) months following acceptance by the City, at its sole cost and expense, the following insurance policies from insurance companies authorized to do business in the State of California. These policies shall be primary insurance as to the City of Santa Clara so that any other coverage held by the City shall not contribute to any loss under Consultant's insurance. The minimum coverages, provisions and endorsements are as follows:

A. COMMERCIAL GENERAL LIABILITY INSURANCE

1. Commercial General Liability Insurance policy which provides coverage at least as broad as Insurance Services Office form CG 00 01. Policy limits are subject to review, but shall in no event be less than, the following:

   $1,000,000 Each Occurrence
   $2,000,000 General Aggregate
   $2,000,000 Products/Completed Operations Aggregate
   $1,000,000 Personal Injury

2. Exact structure and layering of the coverage shall be left to the discretion of Consultant; however, any excess or umbrella policies used to meet the required limits shall be at least as broad as the underlying coverage and shall otherwise follow form.

3. The following provisions shall apply to the Commercial Liability policy as well as any umbrella policy maintained by the Consultant to comply with the insurance requirements of this Agreement:

   a. Coverage shall be on a "pay on behalf" basis with defense costs payable in addition to policy limits;

   b. There shall be no cross liability exclusion which precludes coverage for claims or suits by one insured against another; and

   c. Coverage shall apply separately to each insured against whom a claim is made or a suit is brought, except with respect to the limits of liability.

B. BUSINESS AUTOMOBILE LIABILITY INSURANCE

Business automobile liability insurance policy which provides coverage at least as broad as ISO form CA 00 01 with policy limits a minimum limit of not less than one million dollars ($1,000,000) each accident using, or providing coverage at

least as broad as, Insurance Services Office form CA 00 01. Liability coverage shall apply to all owned (if any), non-owned and hired autos.

C. WORKERS' COMPENSATION

1. Workers' Compensation Insurance Policy as required by statute and employer's liability with limits of at least one million dollars ($1,000,000) policy limit Bodily Injury by disease, one million dollars ($1,000,000) each accident/Bodily Injury and one million dollars ($1,000,000) each employee Bodily Injury by disease.

2. The indemnification and hold harmless obligations of Consultant included in this Agreement shall not be limited in any way by any limitation on the amount or type of damage, compensation or benefit payable by or for Consultant or any subcontractor under any Workers' Compensation Act(s), Disability Benefits Act(s) or other employee benefits act(s).

3. This policy must include a Waiver of Subrogation in favor of the City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents.

D. PROFESSIONAL LIABILITY

Professional Liability or Errors and Omissions Insurance as appropriate shall be written on a policy form coverage specifically designed to protect against negligent acts, errors or omissions of the Consultant. Covered services as designated in the policy must specifically include work performed under this agreement. Coverage shall be in an amount of not less than one million dollars ($1,000,000) per claim or two million dollars ($2,000,000) aggregate. Any coverage containing a deductible or self-retention must first be approved in writing by the City Attorney's Office.

E. COMPLIANCE WITH REQUIREMENTS

All of the following clauses and/or endorsements, or similar provisions, must be part of each commercial general liability policy, and each umbrella or excess policy.

1. Additional Insureds. City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents are hereby added as additional insureds in respect to liability arising out of Consultant's work for City, using Insurance Services Office (ISO) Endorsement CG 20 10 11 85, or the combination of CG 20 10 03 97 and CG 20 37 10 01, or its equivalent.

2. Primary and non-contributing. Each insurance policy provided by Consultant shall contain language or be endorsed to contain wording making it primary insurance as respects to, and not requiring contribution

from, any other insurance which the indemnities may possess, including any self-insurance or self-insured retention they may have. Any other insurance indemnities may possess shall be considered excess insurance only and shall not be called upon to contribute with Consultant's insurance.

3. Cancellation.

   a. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided due to non-payment of premiums shall be effective until written notice has been given to City at least ten (10) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least ten (10) days prior to the effective date of non-renewal.

   b. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided for any cause save and except non-payment of premiums shall be effective until written notice has been given to City at least thirty (30) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least thirty (30) days prior to the effective date of non-renewal.

4. Other Endorsements. Other endorsements may be required for policies other than the commercial general liability policy if specified in the description of required insurance set forth in Sections A through E of this Exhibit C, above.

F. ADDITIONAL INSURANCE RELATED PROVISIONS

Consultant and City agree as follows:

1. Consultant agrees to ensure that subcontractors, and any other party involved with the Services, who is brought onto or involved in the performance of the Services by Consultant, provide the same minimum insurance coverage required of Consultant, except as with respect to limits. Consultant agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this Agreement. Consultant agrees that upon request by City, all agreements with, and insurance compliance documents provided by, such subcontractors and others engaged in the project will be submitted to City for review.

2. Consultant agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge

City or Consultant for the cost of additional insurance coverage required by this Agreement. Any such provisions are to be deleted with reference to City. It is not the intent of City to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against City for payment of premiums or other amounts with respect thereto.

3. The City reserves the right to withhold payments from the Consultant in the event of material noncompliance with the insurance requirements set forth in this Agreement.

G. EVIDENCE OF COVERAGE

Prior to commencement of any Services under this Agreement, Consultant, and each and every subcontractor (of every tier) shall, at its sole cost and expense, provide and maintain not less than the minimum insurance coverage with the endorsements and deductibles indicated in this Agreement. Such insurance coverage shall be maintained with insurers, and under forms of policies, satisfactory to City and as described in this Agreement. Consultant shall file with the City all certificates and endorsements for the required insurance policies for City's approval as to adequacy of the insurance protection.

H. EVIDENCE OF COMPLIANCE

Consultant or its insurance broker shall provide the required proof of insurance compliance, consisting of Insurance Services Office (ISO) endorsement forms or their equivalent and the ACORD form 25-S certificate of insurance (or its equivalent), evidencing all required coverage shall be delivered to City, or its representative as set forth below, at or prior to execution of this Agreement. Upon City's request, Consultant shall submit to City copies of the actual insurance policies or renewals or replacements. Unless otherwise required by the terms of this Agreement, all certificates, endorsements, coverage verifications and other items required to be delivered to City pursuant to this Agreement shall be emailed to:

ctsantaclara@ebix.com

Or mailed to:

EBIX Inc.
City of Santa Clara Department of Public Works
P.O. Box 100085 – S2
Duluth, GA 30096

Telephone number: 951-766-2280
Fax number: 770-325-0409

I. QUALIFYING INSURERS

All of the insurance companies providing insurance for Consultant shall have, and provide written proof of, an A. M. Best rating of at least A minus 6 (A- VI) or shall be an insurance company of equal financial stability that is approved by the City or its insurance compliance representatives.

EXHIBIT D
LABOR COMPLIANCE ADDENDUM

This Agreement is subject to the requirements of California Labor Code section 1720 et seq. requiring the payment of prevailing wages, the training of apprentices, and compliance with other applicable requirements.

J. **Prevailing Wage Requirements**

1. Consultant shall be obligated to pay not less than the General Prevailing Wage Rate, which can be found at www.dir.ca.gov and are on file with the City Clerk's office, which shall be available to any interested party upon request. Consultant is also required to have a copy of the applicable wage determination posted and/or available at each job site.

2. Specifically, contractors are reminded of the need for compliance with Labor Code Section 1774-1775 (the payment of prevailing wages and documentation of such), Section 1776 (the keeping and submission of accurate certified payrolls) and 1777.5 in the employment of apprentices on public works projects. Further, overtime must be paid for work in excess of 8 hours per day or 40 hours per week pursuant to Labor Code Section 1811-1813.

3. Special prevailing wage rates generally apply to work performed on weekends, holidays and for certain shift work. Depending on the location of the project and the amount of travel incurred by workers on the project, certain travel and subsistence payments may also be required. Consultants and subcontractors are on notice that information about such special rates, holidays, premium pay, shift work and travel and subsistence requirements can be found at www.dir.ca.gov .

4. Only bona fide apprentices actively enrolled in a California Division of Apprenticeship Standards approved program may be employed on the project as an apprentice and receive the applicable apprenticeship prevailing wage rates. Apprentices who are not properly supervised and employed in the appropriate ratio shall be paid the full journeyman wages for the classification of work performed.

5. As a condition to receiving progress payments, final payment and payment of retention on any and all projects on which the payment of prevailing wages is required, Consultant agrees to present to City, along with its request for payment, all applicable and necessary certified payrolls (for itself and all applicable subcontractors) for the time period covering such payment request. The term "certified payroll" shall include all required documentation to comply with the mandates set forth in Labor Code Section 1720 *et seq*, as well as any additional documentation requested by the City or its designee including, but not limited to: certified

payroll, fringe benefit statements and backup documentation such as monthly benefit statements, employee timecards, copies of wage statements and cancelled checks, proof of training contributions (CAC2 if applicable), and apprenticeship forms such as DAS-140 and DAS-142.

6. In addition to submitting the certified payrolls and related documentation to City, Consultant and all subcontractors shall be required to submit certified payroll and related documents electronically to the California Department of Industrial Relations. Failure to submit payrolls to the DIR when mandated by the project parameters shall also result in the withholding of progress, retention and/or final payment.

7. No Consultant or subcontractor may be listed on a bid proposal for a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

8. No Consultant or subcontractor may be awarded a contract for public work on a public works project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. Consultants MUST be a registered “public works contractor” with the DIR AT THE TIME OF BID. Where the prime contract is less than $15,000 for maintenance work or less than $25,000 for construction alternation, demolition or repair work, registration is not required.

9. All contractors/subcontractors and related construction services subject to prevailing wage, including but not limited to: trucking, surveying and inspection work must be registered with the Department of Industrial Relations as a “public works contractor”. Those you fail to register and maintain their status as a public works contractor shall not be permitted to perform work on the project.

10. Should any contractor or subcontractors not be a registered public works contractor and perform work on the project, Consultant agrees to fully indemnify the City for any fines assessed by the California Department of Industrial Relations against the City for such violation, including all staff costs and attorney’s fee relating to such fine.

11. This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

K. Audit Rights

All records or documents required to be kept pursuant to this Agreement to verify compliance with this Addendum shall be made available for audit at no cost to City, at any time during regular business hours, upon written request by the City Attorney, City Auditor, City Manager, or a designated representative of any of these officers. Copies of

such records or documents shall be provided to City for audit at City Hall when it is practical to do so. Otherwise, unless an alternative is mutually agreed upon, the records or documents shall be made available at Consultant's address indicated for receipt of notices in this Agreement.

L. Enforcement

1. City shall withhold any portion of a payment; including the entire payment amount, until certified payroll forms and related documentation are properly submitted, reviewed and found to be in full compliance. In the event that certified payroll forms do not comply with the requirements of Labor Code Section 1720 et seq., City may continue to hold sufficient funds to cover estimated wages and penalties under the Agreement.

2. Based on State funding sources, this project may be subject to special labor compliance requirements of Proposition 84.

3. The City is not obligated to make any payment due to Consultant until Consultant has performed all of its obligations under these provisions. This provision means that City can withhold all or part of a payment to Consultant until all required documentation is submitted. Any payment by the City despite Consultant's failure to fully perform its obligations under these provisions shall not be deemed to be a waiver of any other term or condition contained in this Agreement or a waiver of the right to withhold payment for any subsequent breach of this Addendum.

City or the California Department of Industrial Relations may impose penalties upon contractors and subcontractors for failure to comply with prevailing wage requirements. These penalties are up to $200 per day per worker for each wage violation identified; $100 per day per worker for failure to provide the required paperwork and documentation requested within a 10-day window; and $25 per day per worker for any overtime violation.

REPORT TO COUNCIL

SUBJECT

Action on Agreement with BKF Engineers for Design Professional Services for the Central Santa Clara Bicycle, Pedestrian, and Green Stormwater Improvement Project

BACKGROUND

In May 2012, the Metropolitan Transportation Commission (MTC) created the One Bay Area Grant (OBAG) program to guide how the MTC distributes Federal Highway Administration transportation funding to Bay Area communities. The OBAG program is in its third cycle of funding (OBAG 3), and the Santa Clara Valley Transportation Authority (VTA), in partnership with the MTC, issued a call-for-projects for the OBAG 3 on June 3, 2022. The Department of Public Works applied with the Central Santa Clara Bicycle and Pedestrian Improvement Project.

In January 2023, the MTC approved a $9,029,000 grant award for the Central Santa Clara Bicycle and Pedestrian Improvement Project (Project). On November 7, 2023, Council established the Project in the Biennial Capital Improvement Program (CIP) Budget, adopted a resolution of local support for the Project to accept the OBAG Federal grant funding, and approved the required local funds necessary to complete the project. The City's local match is being used to cover the costs of the design services proposed for approval in this report.

The Project includes several bicycle and pedestrian improvements that are part of the City's Bicycle and Pedestrian Master Plans. These improvements are located on Cabrillo Avenue, Lafayette Street, Monroe Street, Royal Drive, Scott Boulevard, and Warburton Avenue (Attachment 1). Anticipated bicycle facility upgrades include the installation of various improvements on Warburton Avenue (Scott Boulevard to Lafayette Street) and Lincoln Street (Warburton Avenue to El Camino Real). Anticipated pedestrian improvements include items such as new curb ramps, curb bulb-outs, and sidewalks; potential new traffic signals, Rectangular Rapid Flashing Beacons, and streetlighting improvements.

The Central Santa Clara project will be combined with a second CIP project, the Green Stormwater Infrastructure Design and Construction Project, which is currently in the Biennial CIP. The goal of the Green Stormwater Infrastructure project is to address the Municipal Regional Stormwater NPDES Permit issued by the State that requires the City of Santa Clara to install green stormwater infrastructure (GSI) that will treat five acres of stormwater runoff by June 30, 2027. GSI can be installed on streets or parking lots to treat stormwater runoff. To help identify suitable locations, a feasibility report was prepared, which identified Lincoln Street as one of the suitable locations to install GSI, with the goal of treating approximately 3.5 acres of stormwater. The identified area for the GSI on Lincoln Street is located within the proposed bicycle and pedestrian project; therefore, staff added the GSI-related work on Lincoln Street to the Project.

DISCUSSION

Pursuant to City Code Section 2.105.140(c) and State laws governing procurement of architectural and engineering services, the City followed a qualifications-based selection process. Under this process, proposers are evaluated based on their demonstrated competence and qualifications, and the most qualified proposer(s) is selected, subject to the negotiation of fair and reasonable compensation.

On August 4, 2025, a competitive Request for Proposals (RFP) was published on the City's e-procurement platform. The City received five proposals from BKF Engineers (BKF), HMH, Kimley-Horn, Sanbell, and Tetra Tech. A proposal review panel consisting of staff from the Department of Public Works' Design and Traffic divisions evaluated each proposal against the criteria set forth in the RFP, including responsiveness to the RFP, qualifications of the firm, experience, availability of key staff, project approach, and ability to complete the project within the proposed schedule. Based on the panel's evaluation, staff recommends awarding the agreement to BKF. BKF demonstrated a strong understanding of the Project and provided an excellent approach to investigating and resolving the design issues presented in the RFP. Also, BKF has extensive civil engineering experience working in the Bay Area and has successfully completed similar federally funded projects in the past.

The proposed Agreement (Attachment 2) includes a negotiated scope of services and fees based upon the understanding of the work to be performed. The scope of services generally includes project management, preliminary engineering, preparation of construction documents, bid and construction support, and project close-out.

Staff recommends entering into the agreement with BKF to provide design professional services for the Project. Approval of this agreement will provide design professional services necessary to develop the design and construction documents to implement the Project. The Agreement includes prevailing wage requirements.

ENVIRONMENTAL REVIEW

This award is for the design phase and construction support services and is not a project that has the potential for causing a significant effect on the environment under the California Environmental Quality Act ("CEQA") Guidelines section 15061(b)(3). The Project will be reviewed for all CEQA documentation as part of their design review. As a recipient of federal grant funding, the Project is also required to be reviewed in accordance with the National Environmental Policy Act (NEPA).

FISCAL IMPACT

The proposed Agreement is for a total not-to-exceed amount of $1,403,000. This amount includes $1,220,000 for basic services, and a not-to-exceed amount of $183,000 for additional services. The proposed agreement is being funded through the City's local match, not the grant. The grant funds will be used to cover the cost of the future construction contract. Funding for the Agreement is available in the Green Stormwater Infrastructure Design and Construction project and the Central Santa Clara Bicycle and Pedestrian Improvement project in the Streets and Highways Capital Fund and the Green Stormwater Infrastructure Design and Construction project in the Measure I General Obligation Bond Projects Fund.

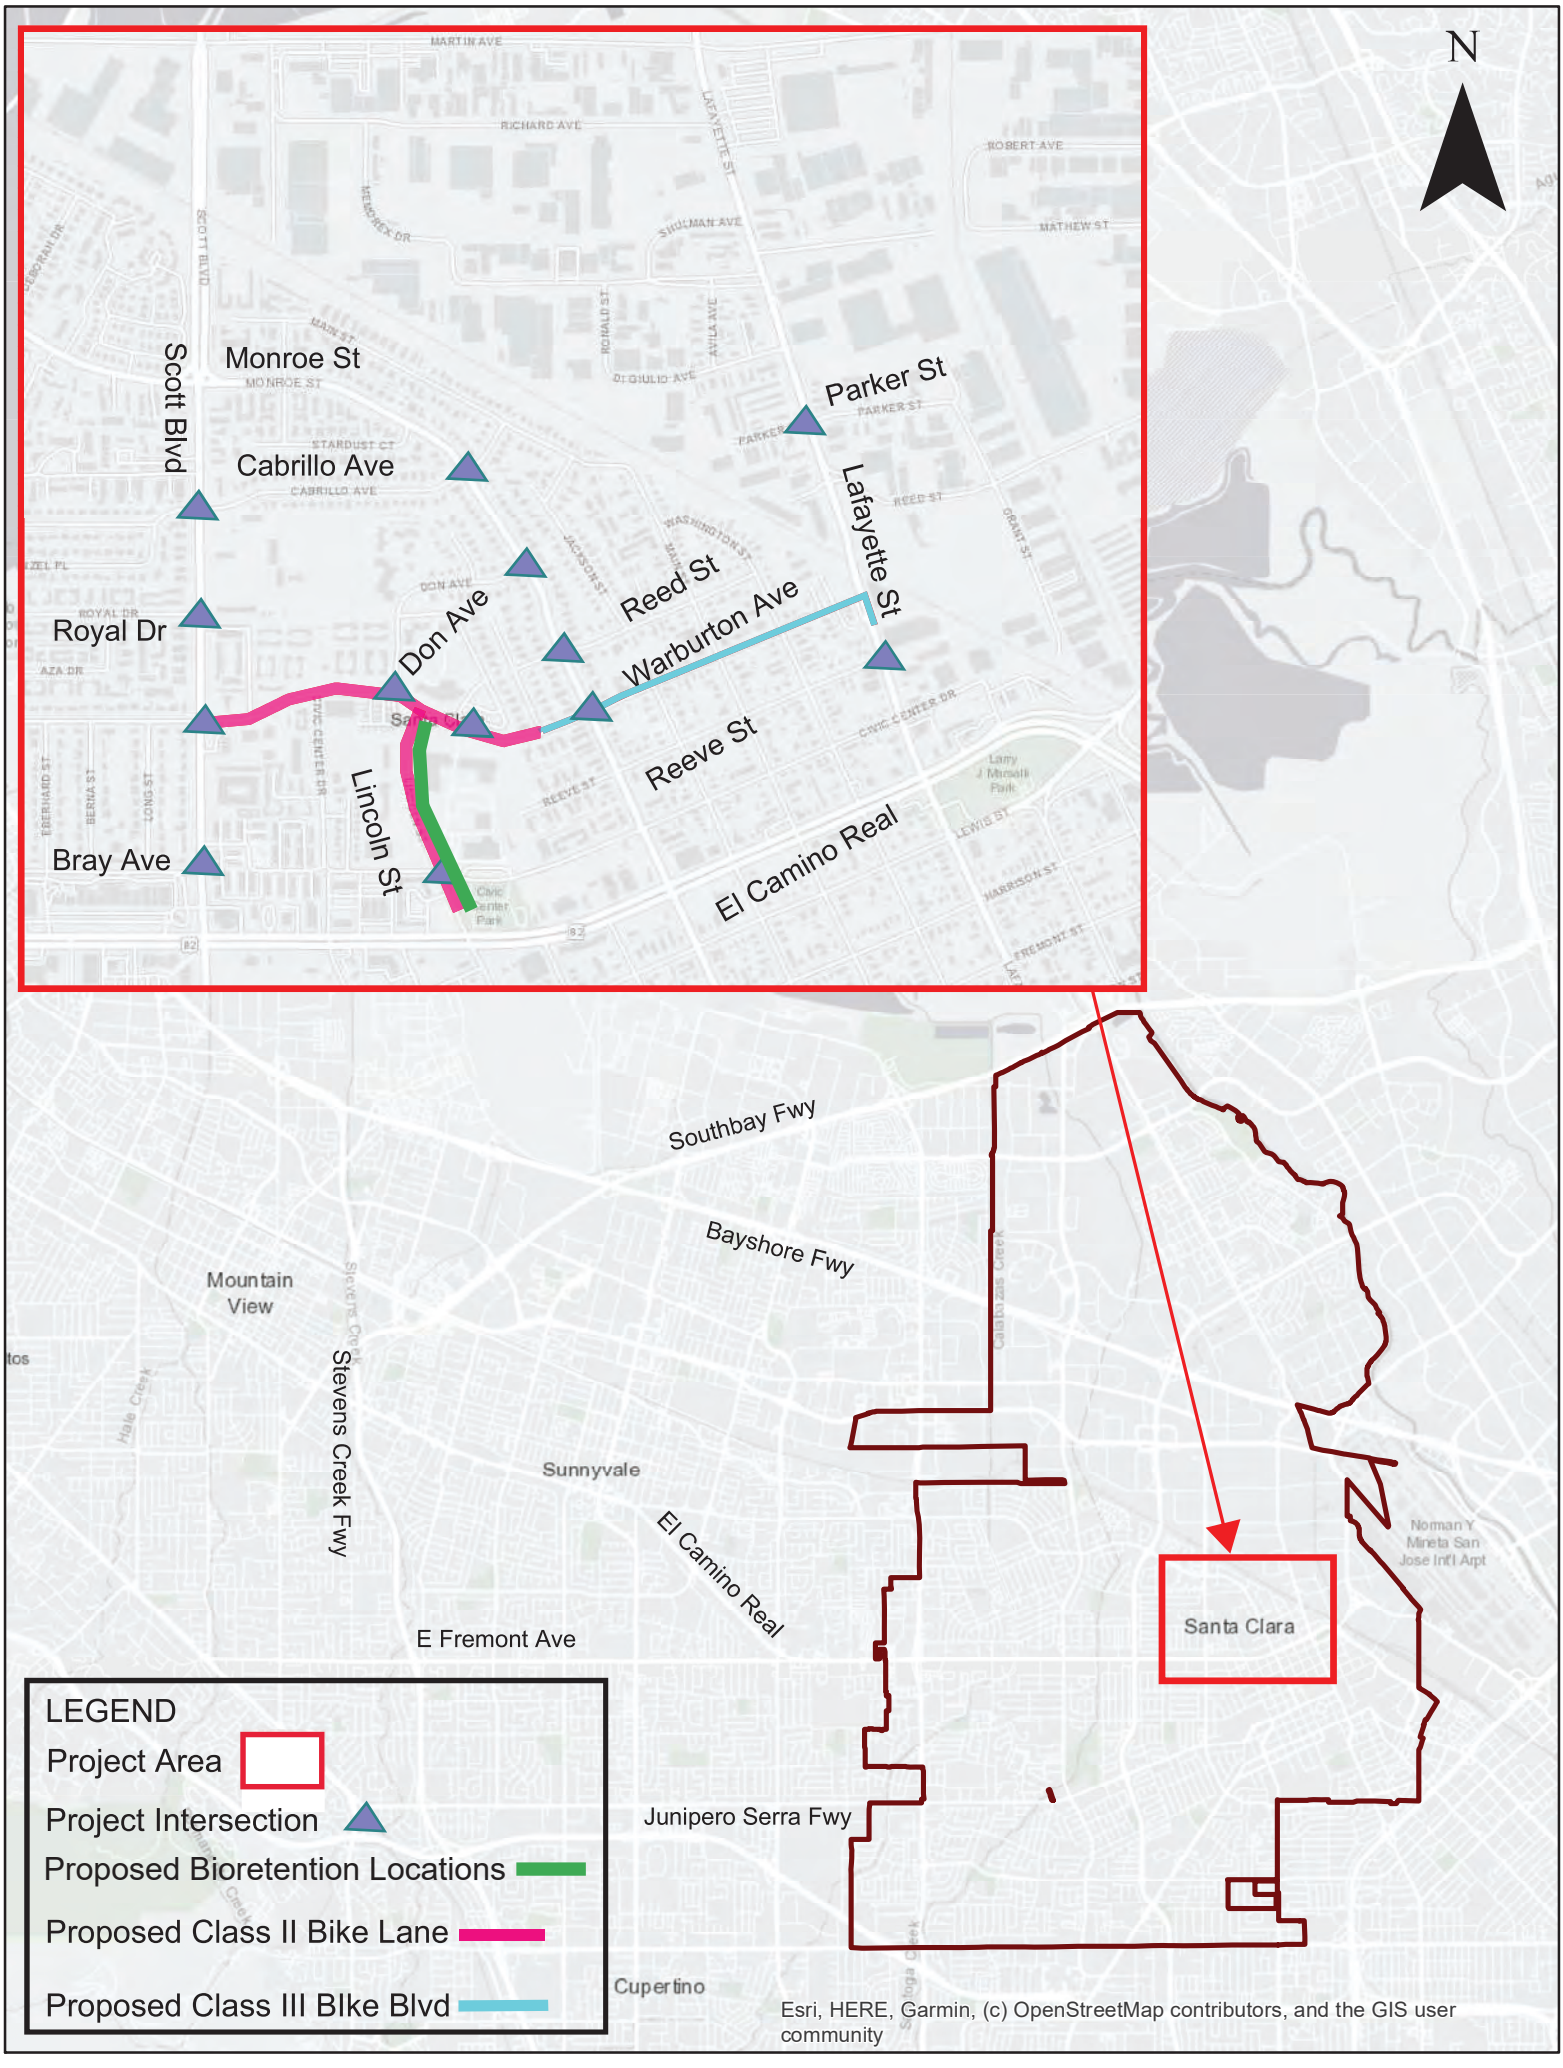
COORDINATION

This report has been coordinated with the Finance Department and the City Attorney's Office.

powered by Legistar™

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.



RECOMMENDATION

1. Approve and authorize the City Manager to execute an Agreement for design professional services with BKF Engineers for the Central Santa Clara Bicycle, Pedestrian, and Green Stormwater Improvement Project in the not-to-exceed amount of $1,403,000, in a final form approved by the City Attorney; and
2. Authorize the City Manager to make minor modifications to the Agreement including time extensions, if needed, in a final form approved by the City Attorney.

AGREEMENT FOR DESIGN PROFESSIONAL SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
BKF ENGINEERS
FOR
CENTRAL SANTA CLARA BICYCLE, PEDESTRIAN, AND GREEN STORMWATER IMPROVEMENT PROJECT

PREAMBLE

This Agreement is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and BKF Engineers a California corporation, (Consultant). City and Consultant may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

A. City desires to secure the design professional services more fully described in this Agreement, at Exhibit A, entitled "Scope of Services";

B. "Design professional" includes licensed architects, licensed landscape architects, registered professional engineers and licensed professional land surveyors;

C. Consultant represents that it, and its subconsultants, if any, have the professional qualifications, expertise, necessary licenses and desire to provide certain goods and/or required services of the quality and type which meet objectives and requirements of City; and,

D. The Parties have specified herein the terms and conditions under which such services will be provided and paid for.

The Parties agree as follows:

AGREEMENT TERMS AND CONDITIONS

1. AGREEMENT DOCUMENTS

The documents forming the entire Agreement between City and Contractor shall consist of these Terms and Conditions and the following Exhibits, which are hereby incorporated into this Agreement by this reference:

Exhibit A – Scope of Services

Exhibit B – Schedule of Fees

Exhibit C – Insurance Requirements

Exhibit D – Labor Compliance Addendum (if applicable)

Exhibit E – Milestone Schedule

Exhibit F – Project Management Software

This Agreement, including the Exhibits set forth above, contains all the agreements, representations and understandings of the Parties, and supersedes and replaces any previous agreements, representations and understandings, whether oral or written. In the event of any inconsistency between the provisions of any of the Exhibits and the Terms and Conditions, the Terms and Conditions shall govern and control.

2. TERM OF AGREEMENT

Unless otherwise set forth in this Agreement or unless this paragraph is subsequently modified by a written amendment to this Agreement, the term of this Agreement shall begin on the day this agreement is signed by both Parties and terminate on December 31, 2030. Services may commence upon City issuing notice to proceed.

3. SCOPE OF SERVICES & PERFORMANCE SCHEDULE

Consultant shall perform those Services specified in Exhibit A within the time stated in Exhibit A. Time is of the essence.

A. All reports, costs estimates, plans and other documentation which may be submitted or furnished by Consultant shall be approved and signed by an appropriate qualified licensed professional in the State of California.

B. The title sheet for specifications and reports, and each sheet of plans, shall bear the professional seal, certificate number, registration classification, expiration date of certificate and signature of the design professional responsible for their preparation.

4. WARRANTY

Consultant expressly warrants that all materials and services covered by this Agreement shall be fit for the purpose intended, shall be free from defect and shall conform to the specifications, requirements and instructions upon which this Agreement is based. Contractor agrees to promptly replace or correct any incomplete, inaccurate or defective Services at no further cost to City when defects are due to the negligence, errors or omissions of Contractor. If Contractor fails to promptly correct or replace materials or services, City may make corrections or replace materials or services and charge Contractor for the cost incurred by City.

5. QUALIFICATIONS OF CONTRACTOR - STANDARD OF CARE

Consultant represents and maintains that it has the expertise in the professional calling necessary to perform the Services, and its duties and obligations, expressed and implied, contained herein, and City expressly relies upon Contractor's representations regarding its skills and knowledge. Contractor shall perform such Services and duties in conformance to and consistent with the professional standards of a specialist in the same discipline in the State of California.

6. COMPENSATION AND PAYMENT

In consideration for Consultant's complete performance of Services, City shall pay Consultant for all materials provided and Services rendered by Consultant in accordance with Exhibit B, entitled "SCHEDULE OF FEES." The maximum compensation of this Agreement is one million four hundred three thousand dollars ($1,403,000), subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services. All work performed or materials provided in excess of the maximum compensation shall be at Consultant's expense. Consultant shall not be entitled to any payment above the maximum compensation under any circumstance.

7. TERMINATION

A. Termination for Convenience. City shall have the right to terminate this Agreement, without cause or penalty, by giving not less than Thirty (30) days' prior written notice to Consultant.

B. Termination for Default. If Consultant fails to perform any of its material obligations under this Agreement, in addition to all other remedies provided by law, City may terminate this Agreement immediately upon written notice to Consultant.

C. Upon termination, each Party shall assist the other in arranging an orderly transfer and close-out of services. As soon as possible following the notice of termination, but no later than ten (10) days after the notice of termination, Consultant will deliver to City all City information or material that Consultant has in its possession.

8. ASSIGNMENT AND SUBCONTRACTING

City and Consultant bind themselves, their successors and assigns to all covenants of this Agreement. This Agreement shall not be assigned or transferred without the prior written approval of City. Consultant shall not hire subconsultants without express written permission from City.

Consultant shall be as fully responsible to City for the acts and omissions of its subconsultant, and of persons either directly or indirectly employed by them, as Consultant is for the acts and omissions of persons directly employed by it.

9. NO THIRD PARTY BENEFICIARY

This Agreement shall not be construed to be an agreement for the benefit of any third party or parties and no third party or parties shall have any claim or right of action under this Agreement for any cause whatsoever.

10. INDEPENDENT CONTRACTOR

Consultant and all person(s) employed by or contracted with Consultant to furnish labor and/or materials under this Agreement are independent contractors and do not act as

agent(s) or employee(s) of City. Consultant has full rights to manage its employees in their performance of Services under this Agreement.

11. CONFIDENTIALITY OF MATERIAL

All ideas, memoranda, specifications, plans, manufacturing procedures, data, drawings, descriptions, documents, discussions or other information developed or received by or for Consultant and all other written information submitted to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant and shall not, without the prior written consent of City, be used for any purposes other than the performance of the Services nor be disclosed to an entity not connected with performance of the Services. Nothing furnished to Consultant which is otherwise known to Consultant or becomes generally known to the related industry shall be deemed confidential.

12. OWNERSHIP OF MATERIAL

All material, which shall include, but not be limited to, data, sketches, tracings, drawings, plans, diagrams, quantities, estimates, specifications, proposals, tests, maps, calculations, photographs, reports, designs, technology, programming, works of authorship and other material developed, collected, prepared or caused to be prepared under this Agreement shall be the property of City but Consultant may retain and use copies thereof. City shall not be limited in any way or at any time in its use of said material. However, Consultant shall not be responsible for damages resulting from the use of said material for work other than Project, including, but not limited to, the release of this material to third parties.

13. RIGHT OF CITY TO INSPECT RECORDS OF CONSULTANT

City, through its authorized employees, representatives or agents shall have the right during the term of this Agreement and for four (4) years from the date of final payment for goods or services provided under this Agreement, to audit the books and records of Consultant for the purpose of verifying any and all charges made by Consultant in connection with Consultant compensation under this Agreement, including termination of Consultant. Consultant agrees to maintain sufficient books and records in accordance with generally accepted accounting principles to establish the correctness of all charges submitted to City. Any expenses not so recorded shall be disallowed by City. Consultant shall bear the cost of the audit if the audit determines that there has been a substantial billing deviation in excess of five (5) percent adverse to the City.

Consultant shall submit to City any and all reports concerning its performance under this Agreement that may be requested by City in writing. Consultant agrees to assist City in meeting City's reporting requirements to the State and other agencies with respect to Consultant's Services hereunder.

14. HOLD HARMLESS/INDEMNIFICATION

To the extent permitted by law, Consultant agrees to protect, defend, hold harmless and indemnify City, its City Council, commissions, officers, employees, volunteers and agents from and against any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and attorney's fees in providing a defense to any such claim or other

action, and whether sounding in law, contract, tort, or equity, to the extent arising out of, pertaining to, or related to the negligence, recklessness, or willful misconduct of the Consultant, its employees, subconsultants, or agents in the performance, or non-performance, of Services under this Agreement. With respect to claims alleging Contractor's professional negligence or professional liability, Contractor's duty to defend obligation shall be met by reimbursing an indemnified party for indemnified party's costs of defense following a determination of Contractor's proportionate percentage of fault.

15. INSURANCE REQUIREMENTS

During the term of this Agreement, and for any time period set forth in Exhibit C, Consultant shall provide and maintain in full force and effect, at no cost to City, insurance policies as set forth in Exhibit C.

16. WAIVER

Consultant agrees that waiver by City of any one or more of the conditions of performance under this Agreement shall not be construed as waiver(s) of any other condition of performance under this Agreement. Neither City's review, acceptance nor payments for any of the Services required under this Agreement shall be constructed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

17. NOTICES

All notices to the Parties shall, unless otherwise requested in writing, be sent to City addressed as follows:

City of Santa Clara
Attention: Public Works Department
1500 Warburton Avenue
Santa Clara, CA 95050
and by e-mail at engineering@santaclaraca.gov

And to Consultant addressed as follows:
BKF Engineers
Attention: Dan Schaefer
1730 N. First Street, Suite 600
San Jose, CA 95112
and by e-mail at dschaefer@bkf.com

The workday the e-mail was sent shall control the date notice was deemed given. An e-mail transmitted after 1:00 p.m. on a Friday shall be deemed to have been transmitted on the following business day.

18. COMPLIANCE WITH LAWS

Consultant shall comply with all applicable laws and regulations of the federal, state and local government, including but not limited to "The Code of the City of Santa Clara, California" ("SCCC"). In particular, Consultant's attention is called to the regulations regarding Campaign Contributions (SCCC Chapter 2.130), Lobbying (SCCC Chapter

2.155), Minimum Wage (SCCC Chapter 3.20), Business Tax Certificate (SCCC section 3.40.060), and Food and Beverage Service Worker Retention (SCCC Chapter 9.60), as such Chapters or Sections may be amended from time to time or renumbered. Additionally Consultant has read and agrees to comply with City's Ethical Standards (http://santaclaraca.gov/home/showdocument?id=58299).

19. CONFLICTS OF INTEREST

Consultant certifies that to the best of its knowledge, no City officer, employee or authorized representative has any financial interest in the business of Consultant and that no person associated with Consultant has any interest, direct or indirect, which could conflict with the faithful performance of this Agreement. Consultant is familiar with the provisions of California Government Code section 87100 and following, and certifies that it does not know of any facts which would violate these code provisions. Consultant will advise City if a conflict arises.

20. FAIR EMPLOYMENT

Consultant shall not discriminate against any employee or applicant for employment because of race, sex, color, religion, religious creed, national origin, ancestry, age, gender, marital status, physical disability, mental disability, medical condition, genetic information, sexual orientation, gender expression, gender identity, military and veteran status, or ethnic background, in violation of federal, state or local law.

21. NO USE OF CITY NAME OR EMBLEM

Consultant shall not use City's name, insignia, or emblem, or distribute any information related to services under this Agreement in any magazine, trade paper, newspaper or other medium without express written consent of City.

22. GOVERNING LAW AND VENUE

This Agreement shall be governed and construed in accordance with the statutes and laws of the State of California. The venue of any suit filed by either Party shall be vested in the state courts of the County of Santa Clara, or if appropriate, in the United States District Court, Northern District of California, San Jose, California.

23. SEVERABILITY CLAUSE

In case any one or more of the provisions in this Agreement shall, for any reason, be held invalid, illegal or unenforceable in any respect, it shall not affect the validity of the other provisions, which shall remain in full force and effect.

24. AMENDMENTS

This Agreement may only be modified by a written amendment duly authorized and executed by the Parties to this Agreement.

25. COUNTERPARTS

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but both of which shall constitute one and the same instrument.

CONTINUED ON PAGE 8

The Parties acknowledge and accept the terms and conditions of this Agreement as evidenced by the following signatures of their duly authorized representatives.

CITY OF SANTA CLARA, CALIFORNIA
a chartered California municipal corporation

Approved as to Form: Dated: _____

Telephone: (925) 940-2214

Fax: _____

"CONSULTANT"

EXHIBIT A
SCOPE OF SERVICES

I. OBJECTIVE

The City of Santa Clara (City) desires to engage a qualified firm (Consultant) for the services as described in this Scope of Services.

This Scope of Services is anticipated as necessary to meet City's objectives as described in this Request for Proposals. The Proposer shall incorporate their own expertise into their proposed Scope of Services to be submitted as part of their proposal and propose additions, deletions, or modifications to this Scope of Services that the Proposer deems necessary or advisable to meet City's objectives.

II. BACKGROUND

The PROJECT has two separate objectives to be combined into a single design plan.

1. The Municipal Regional Stormwater NPDES Permit issued by the State requires the City of Santa Clara to install green stormwater infrastructure (GSI) that will treat five acres of stormwater runoff by June 30, 2027. GSI can be installed on streets or parking lots to treat stormwater runoff. To help identify suitable locations a consultant report was created for the City by EOA Inc. For this Project it was determined to select Lincoln St area from the report as a suitable location to install GSI, with the goal of treating approximately 3.5 acres of stormwater.

2. In January 2023, the Metropolitan Transportation Commission (MTC) adopted the One Bay Area Grant 3 (OBAG 3) Program, which includes a $9,029,000 grant award for the Central Santa Clara Bicycle and Pedestrian Improvement Project. The Central Santa Clara Bicycle and Pedestrian Improvement Project includes several pedestrian and bicycle improvements that are part of the City's Pedestrian and Bicycle Master Plans. These improvements are located on Cabrillo Avenue, Lafayette Street, Monroe Street, Royal Drive, Scott Boulevard, and Warburton Avenue. Anticipated bicycle facility upgrades include the installation of various improvements on Warburton Avenue (Scott Boulevard to Lafayette Street) and Lincoln Street (Warburton Avenue to El Camino Real). Anticipated pedestrian improvements include items such as new curb ramps, curb bulb-outs and sidewalk; several new traffic signals; and Rectangular Rapid Flashing Beacons; as well as some new streetlighting.

III. PROJECT DESCRIPTION AND REQUIRED SERVICES

This Scope of Services is anticipated as necessary to meet City's objectives. Consultant will be expected to provide complete, professional, high-quality services and products; to provide consultation and work with the city staff and others involved in the project; and to provide the expertise, guidance, and assistance in accomplishing the work. All work shall be done in accordance with the City Standard Plans and Specifications, ADA Design Guidelines and Regulations, latest building and fire codes, Department of Transportation Standard Specifications and Details (as applicable to the work), Green stormwater infrastructure standards, South Bay Water Recycling guidelines, and other applicable codes and standards recommended by the Consultant.

Consultant's work includes, but are not limited to:

1) Review of the existing roadway drainage, utilities, and other street features such as parking and bike lanes.

2) Provide recommendations and design for installation of GSI (bioretention facilities) including: identifying drainage management areas for sizing GSI facility, domestic irrigation water connections, landscape plans that will incorporate recommendations from a City coordinated third-party (SFEI -San Francisco Estuary Institute), low voltage power connection from Silicon Valley Power (SVP) underground street light conduit or overhead electric wire. Public educational permanent signage for one of the GSI facilities.

3) SVP developer work drawing will be required for new and modified traffic signal systems and will need to be designed by CONSULTANT and reviewed and approved by SVP. The SVP developer work drawing approval process requires the consultant to coordinate with the Public Works project manager and SVP electric department to submit several rounds of electrical drawings separate from the civil utility plans. The level of effort is equivalent to the typical PS&E submittal process.

4) Provide a Stormwater Treatment Design Criteria Memo detailing how GSI facility was sized based on the requirements of C.3 of the MRP, including an operations and maintenance plans to be accepted by the City.

5) Parking removal counts

6) Perform required traffic analysis warrant studies and intersection treatment options at the following intersections:

Intersection	Scope of Work
Scott/Cabrillo	Perform warrant study and if intersection does not warrant a traffic signal, then install RRFB with bulbouts
Scott/Bray	Perform warrant study and if intersection does not warrant a traffic signal, then install RRFB with bulbouts and median island refuge.
Lafayette/Reeve	Perform warrant study and if intersection does not warrant a traffic signal, then no improvements are needed.
Lafayette/Parker	Overhead RRFB
Monroe/Cabrillo	RRFB
Monroe/Warburton	RRFB

7) Perform a lighting study at recommended luminaire locations.

8) Provide recommendations for pavement rehabilitation.

    a. Investigation of as-builts (as-available) or other available records to determine existing pavement sections.

b. Pavement Coring in an adequate quantity and at locations adequate to ascertain existing asphalt thicknesses for use in pavement design, and presence/absence of paving fabrics. City's desire is that streets to receive a resurfacing treatment would have coring performed, and streets to receive seals do not require coring but it is desirable to confirm depths of digouts. The number of cores would be as proposed by Consultant to support its design approach.

c. Field review and marking of failed/digout areas on the ground and information transferred to be displayed on plans.

d. Identification of all surface utilities and monuments in the field and displaying and their respective work on the plans.

e. Utility record research to identify existence of utilities within the roadbed and potential for vertical conflicts against the selected pavement treatment. Display of existing underground utilities on the plans is not considered as necessary, however all surface features (e.g. valve boxes, manhole covers, vaults, etc) should be displayed on plans. Consultant will also be responsible for accurately identifying ownership of each surface feature for City's use in determining liabilities and noticing for adjustment. Consultant should assume preparing exhibits for City's use in providing adjustment notices to 3rd party entities.

f. Pedestrian street crossing cross slopes: It is the City's practice that with resurfacing projects to investigate the slopes of pedestrian street crossings against accessibility standards and to implement improvements to the Maximum Extent Feasible (MEF) through the resurfacing. Consultant will be expected to continue this practice under this Project.

9) Provide traffic signal design for new traffic signal systems and modified signal systems.
   a. Consultant will be expected to perform both record investigations of as-built drawings (as-available) and field investigations of signals to accurately identify existing conditions and equipment. It is anticipated that elements of construction work will be recutting of signal detector loops with associated handholes due to the pavement work and any striping shifts, addition of bicycle detector loops including new DLC (if required) to the cabinet, and modifications as needed to accommodate pedestrian push button locations under ADA as related to the geometry and design of curb ramps and pedestrian street crossing geometry.

10) Provide fiber interconnect from existing signal cabinets to any new required traffic signal systems.

11) BPAC Review: The project is subject to the City's Complete Street Policy which requires that bicycle, pedestrian, and resurfacing projects undergo a complete streets review by the Bicycle and Pedestrian Advisory Committee. Consultant will not be required to attend or present at the meeting, but should support the City in providing information required for BPAC review. Proposers should assume that one (1) review will take place at the 65% to 95% PS&E design milestone.

12) The City desires that this project will not be a Regulated Project under the most recent Municipal Regional Permit. The Consultant should recommend pavement treatments and imperious surface replacement that does not trigger the project to become regulated and will be required to perform any necessary calculations.

13) Provide licensed survey services for potential easement dedications for GSI facilities in private property. This includes producing the required plat and legal documents that will be

reviewed and coordinated with the City of Santa Clara Land and Property Development Division for recording.

14) Signage: On streets that will receive new bicycle striping that is different than existing, Consultants will be expected to investigate existing signs along the corridor and propose modifications or new signs commensurate with the new bike striping. Consultants may assume that signage work can be shown on combined signing/striping plan sheets.

15) Provide final recommendations for pedestrian safety enhancements and traffic calming measures based on the OBAG grant application and proposed project layout plans.

16) Grading and drainage plans for bulb-out designs.

17) Field work collecting, confirming, and documenting all existing conditions that may impact project design.

18) Field investigation shall also include checking on the extent of the DMA delineations, including identifying possible surface runoff contributing areas such as driveways, roofs, and inlets related to private property drainage systems that could affect the size of the DMAs and concurrent sizing of the proposed GSI measures.

19) Plans showing all existing underground facilities including to but not limited to storm drain facilities, sanitary sewer facilities, overhead and underground electrical, domestic and recycle water facilities, gas mains and laterals, private communication facilities, fiber, and any other utility lines identified by outside utility companies and city internal departments.

    a. The City recommends Proposers include services as Optional Tasks for potholing to accommodate any needs for positive underground locating for depths of utilities where conflicts may become apparent based on the proposed work and presence of utilities.

20) Utility Adjustments: The City currently adjust its city-owned utilities (storm, sanitary sewer, and water) through the construction contract, including on slurry seal streets where utilities may remain low due to multiple slurry seals over the years. Consultant shall assume reviewing and identifying all low utilities to be adjusted. Non-city owned utilities shall also be identified with notifications to utility owners to perform the work.

21) Environmental Review: The project is assumed to need environmental review and clearance under applicable NEPA and CEQA requirements per Caltrans Local Assistance Procedure Manual (LAPM) prior to detailed design.

22) Plans showing all existing structures in public right-of-way and within close proximity to the proposed limit of work

23) Signage: On streets that will receive new bicycle striping that is different than existing, Consultants will be expected to investigate existing signs along the corridor and propose modifications or new signs commensurate with the new bike striping. Consultants may assume that signage work can be shown on combined signing/striping plan sheets.

24) Plans showing all landscaping, trees, and irrigation pipes and valve covers

25) Plans showing landscaping details including irrigation controls and radio communications for Street Division maintenance and operation of GSI facility.

26) Obtain all applicable permits including Caltrans permits and City of Santa Clara Building Permits.

27) Agency Coordination:

    a. Caltrans ROW: El Camino Real is a Caltrans facility. Work at Lincoln Avenue and El Camino Real may impact Caltrans right-of-way. Proposers should assume obtaining an encroachment permit from Caltrans for the work and performing all documents as necessary to obtain the permit. Applicable documents may include but are not limited to: ADA certification, EP Application and Checklist.
    b. OBAG Funding requirements: This Projects is funded by OBAG Cycle 3 funding and will need adhere to the Caltrans Local Assistance Project Delivery Policies and Procedures. VTA requires notification of the Field Review schedule. Information can be found at the Caltrans website, https://dot.ca.gov/programs/localassistance/guidelines-and-procedures/local-assistance-procedures-manual-lapm

       Additional OBAG 3 program information can be found at, https://mtc.ca.gov/funding/federal-funding/federal-highway-administration-grants/onebay-area-grant-obag-3

28) Lessons learned from previous similar projects that were incorporated into current Project.

29) Show existing right of way line and roadway striping on the project plan. Show existing fence line, concrete sidewalk and back of walk, or any special features that may affect constructability.

Below are minimum requirements/understanding for the consultant to prepare project plans and specifications:

1) Field work collecting, confirming, and documenting all existing conditions that may impact project design.

2) Field investigation shall also include checking on the extent of the DMA delineations, including identifying possible surface runoff contributing areas such as driveways, roofs, and inlets related to private property drainage systems that could affect the size of the DMAs and concurrent sizing of the proposed GSI measures.

3) Plans showing all existing underground facilities including to but not limited to storm drain facilities, sanitary sewer facilities, overhead and underground electrical, domestic and recycle water facilities, gas mains and laterals, private communication facilities, fiber, and any other utility lines identified by outside utility companies and city internal departments

4) Plans showing all existing structures in public right-of-way and within close proximity to the proposed limit of work

5) Plans showing all landscaping, trees, and irrigation pipes and valve covers

6) Plans showing landscaping details including irrigation controls and radio communications for Street Division maintenance and operation of GSI facility.

7) Include any pothole data obtained to confirm potential utility conflicts and ideal locations for bioretention facilities.

8) Lessons learned from previous similar projects that were incorporated into current Project.

9) Show existing right of way line and roadway striping on the project plan. Show existing fence line, concrete sidewalk and back of walk, or any special features that may affect constructability.

IV. RESPONSIBILITIES OF CITY

City will provide the following information and support regarding the project as-available and applicable:

- Record drawings (as-available)
- CITY's Standard Details, Specifications, Benchmark, and Design Criteria.
- Storm Drain (SD), Sanitary Sewer (SS), Electric, Fiber, Water and Recycled Water Block Book Maps (as-available).
- Geographic Information System (GIS) data including land parcels, street centerlines, City sanitary sewers, City storm drains, and aerial photographic tiles
- Payment of permit application fees with other internal departments, if required.
- Filing exemption under the California Environmental Quality Act, if applicable.

Besides the above, the CITY will work closely with the consultant to provide any other data or records, as available and necessary for the work involved.

The Basic Scope of Services includes all professional services required to prepare construction bid documents (plans, specifications, and engineer's estimate - PS&E) for public works bidding of the Project.

V. REQUIRED SERVICES

PROJECT MANAGEMENT

CONSULTANT shall:

PM.1 Manage its team and overall project activities consistent with the direction from CITY in order to meet the project schedule and budget. Manage sub-consultants, maintain schedule and budget, anticipate and mitigate potential design issues and delays and coordinate and update the City on the overall progress of the Project.

PM.2 Any field work that involves subsurface excavation and/or coring, CONSULTANT is required to submit plan of work to the CITY for review and approval prior to proceeding.

PM.3 Organize and attend project meetings with the CITY to discuss project progress, decisions, and direction, and to coordinate activities. Meetings shall be held at key project

milestones and shall include, but are not limited to:

PM.3.1 Kick-off Meeting

PM.3.2 Schematic Design Review Meeting

PM.3.3 65% Design Review Meeting

PM.3.4 95% Design Review Meeting

PM.3.5 Various construction meetings

PM.3.6 Punch list/Project acceptance Meeting

PM.4 Coordinate with CITY, design team members, subconsultants, utility companies, other government agencies, and other affected parties as required throughout the duration of the project as well as the Quality Assurance/Quality Control (QA/QC) activities for Project deliverables.

PM.5 Prepare, monitor, and update progress schedule in MS Project format beginning at the kickoff meeting and ending at contract award for the last submittal package. Schedule shall show significant milestones for the Project. CONSULTANT shall notify CITY if there are delays or potential delays in any phase of the project. In such cases, CONSULTANT shall make up the schedule in subsequent phases of the project or provide information to CITY substantiating a request for time extension (which may not be approved). The schedule shall be maintained at all times and shall be updated each time progress and milestones are achieved and/or changed.

PM.6 Meetings: Meetings shall be budgeted for and invoiced under each respective Task or activity requiring a meeting and not as project management. Preparation for meetings shall be considered as included in the Task or activity for which the meeting is involved. A kick-off meeting shall be conducted with designated CITY staff prior to beginning work to review anticipated tasks and schedule, review available information and needs, and address any outstanding questions regarding the project moving forward raised by CITY or CONSULTANT. During the course of Services while there is active work on the Project, CONSULTANT shall schedule and attend brief bi-weekly (every other week) conference calls with CITY. The purpose of the bi-weekly conference calls will be to keep CITY appraised on the PROJECT's progress and address any issues that may arise during the course of Services.

PM.7 Provide monthly progress reports.

PM.8 Stakeholder Coordination: CONSULTANT shall coordinate with project stakeholders as needed to inform each stakeholder of the project work and incorporate any necessary accommodations into the final submittal documents.

PM.9 Provide Review/Plan Check Log (Response Matrix) summarizing comments received from various City Departments/Divisions and agencies. Response Matrix shall include, but not be limited to, commenting department/division or agency, comments, response to comments, action items, and person responsible for follow up. CONSULTANT shall be responsible for resolving comments from each commenter and shall identify to CITY any comments that cannot be resolved to have final discussion and resolution. Submit Response Matrix in electronic format with each route of plan check submittal.

PM.10 Conduct QC reviews in accordance with its QA Program guidelines. CONSULTANT shall provide a copy of its QA Program guidelines and shall provide a QC report at the end of each Task. Time spent for QA-QC reviews for specific deliverables shall be budgeted and billed under each respective task requiring QA-QC review and not as Project Management.

PM.11 Invoicing and Contract Administration: CONSULTANT administrative staff time spent

preparing invoices for Services complete shall be considered as included in the overhead of the CONSULTANT's basic hourly rates and shall not be billed. Additionally, addressing administrative issues regarding the professional Services agreement, such as preparing additional Services requests or budget modifications, shall also be considered as included in the overhead of the CONSULTANT's basic hourly rates and shall not be billed.

PM.12 CONSULTANT's fees for responsibilities related to Project Management shall be included in Tasks 1 through 9 identified below.

PM Deliverables:

1. Progress schedules in MS Project format (submitted electronically as an 11" x 17" pdf file and in native MS Project format).
2. QA Program guidelines and QC reports for each Task (in pdf file).
3. Meeting agendas, preparation materials, and meeting minutes for each project meeting (in pdf file).
4. Monthly progress reports and invoices (in pdf file).

Task 1: Preliminary Engineering/Evaluation

1.1. Attend Project Kick-Off Meeting and provide meeting minutes for the CITY to review and approve.

1.2. Perform all necessary assessment and investigations to determine the existing conditions and propose recommendations to CITY for the improvements. Contact all regulatory agencies that will affect the proposed works to determine applicable codes and ordinances. Perform site visit to areas with new luminaires installation noted along Warburton Avenue, Lincoln Street, and intersection with RRFBs and potential signal installations.

1.2.1. **Photometric Analysis -** Perform photometric analysis for existing lighting levels along with proposed lighting. The photometric analysis will identify foot candles for intersection area covered and will help identify the recommended wattage requirements for new lighting fixtures

1.2.2. **Traffic Signal Warrants -** In order to perform warrant analysis, turning movement counts and Average Daily Traffic (ADT) will be collected for the following locations; Scott Boulevard/Cabrillo Avenue, Scott Boulevard/Bray Avenue, and Lafayette Street/Reeve Street. Once data is collected, perform warrant analysis for intersection and provide findings to the CITY for review and approval

1.2.3. **Parking Evaluation -** Evaluate the existing on-street parking and identify the removal of parking impacts due to the project improvements. This parking evaluation will consist of an exhibit outlining the contiguous lengths of parking removal and estimated count of parking spots removed.

1.2.4. **Pavement Exploration -** Field review and marking of failed/dig out areas on the ground. This information will be transferred to be displayed on the plans.

1.2.5. **Surface Utilities/Monuments -** Field review and identification of all surface utilities, monuments, valve boxes, manhole covers, vaults, etc. This information will be transferred to be displayed on the plans.

1.3. Review all necessary as-builts to understanding existing condition in order to prevent utility conflicts and changes during construction. Review street lighting as-builts for areas with new luminaires installation noted along Warburton Avenue, Lincoln Street, and

intersection with RRFBs and potential signal installations.

1.4. Meet with CITY staff to obtain additional information and input as needed. Provide all necessary design services, including but not limited to landscape, civil, structural, and electrical design. This includes one (1) field meeting to review existing irrigation and locations of green stormwater infrastructure with CITY staff. Additionally, we anticipate two (2) field meetings to review locations for traffic signal upgrades, new traffic signal locations and RRFB locations.

1.5. Perform needed topographic survey for existing site, plans, layout, and final approved improvements (from the evaluation/recommendation) for use as base layout for the design plans. Determine existing drainage paths including high and low elevation points from topographic survey. CONSULTANT will obtain an aerial topo for the project site and supplement this with field topographic survey of the proposed curb ramp and traffic signal equipment locations. The field survey will locate existing features, including, but not limited to, curb ramps, curbs and gutters, trees, utilities, fences, pavement, drainage structures, trees, monuments, street signs, and other features required to design the Project. In addition, the field survey will identify pedestrian street crossing slopes, which we be used to evaluate against ADA standards. As part of the survey services, CONSULTANT will provide easement dedications documents for the proposed GSI facilities for up to one (1) location, which includes providing the legal documents that will be reviewed and coordinated with the City of Santa Clara Land and Property Development Division for recording.

1.6. Complete the CEQA requirements to satisfy the environmental requirements as detailed in the Caltrans Local Assistance Procedure Manual (LAPM).

1.6.1. **General -** The stormwater treatment component is not receiving federal funding; therefore, only CEQA compliance is necessary. The City of Santa Clara will be the CEQA lead agency. DJP&A proposes to prepare a CEQA Categorical Exemption under Section 15304 Minor Alterations to Land for the stormwater treatment component. As part of this work, CONSULTANT will complete a record search, Sacred Lands File Search, and prepare an Archaeological Sensitivity Assessment. This assessment will be used to support the CE finding that the project would not in a substantial adverse change in the significance of a historical resource. DJP&A will prepare a memo documenting that the project meets all the qualifications for the CEQA Categorical Exemption and the Notice of Exemption (NOE). DJP&A will submit the memo and NOE to City staff for one round of review. After project approval, DJP&A will file NOE at the County Clerk and State Clearinghouse.

1.6.2. **California Environmental Quality Act Environmental Review -** The City of Santa Clara will be the CEQA lead agency. Given the nature of the proposed bicycle and pedestrian improvements, we believe the project would qualify for a CEQA Statutory Exemption. Preliminary review indicates the Project is “Pedestrian and bicycle facilities that improve safety, access, or mobility, including new facilities, within the public right-of-way” as defined under Public Resources Code 21080.25(b)(1) and, therefore, would be statutorily exempt from CEQA. DJP&A will prepare a memo documenting that the project meets all the qualifications for the CEQA Statutory Exemption and the NOE. DJP&A will submit the memo and NOE to City staff for one round of review. After project approval, DJP&A will file the NOE at the County Clerk and State Clearinghouse.

1.6.3. **National Environmental Protection Act -** Caltrans (Office of Local Assistance) will be the NEPA lead agency. As described below, DJP&A will complete the Caltrans Office of Local Assistance PES/Field Review process and prepare the

supporting documentation necessary for Caltrans to issue a NEPA Categorical Exclusion for the project.

DJP&A will work with the project team to develop a project description for submittal to Caltrans. DJP&A will prepare the Caltrans' Preliminary Environmental Study (PES) form and attend one formal Caltrans Field Review for the proposed project. The PES form will include the visual impact questionnaire, United States Fish and Wildlife Service (USFWS) list of federally listed species, Federal Emergency Management Agency (FEMA) floodplain maps, and hazardous materials database mapping.

Based on our recent experience working on Caltrans Local Assistance Projects in District 4, we believe Caltrans will require the following documentation:

- Air Quality – PM 2.5 Email from MTC
- Cultural Resources – Area of Potential Effects (APE), Archaeological Survey Report (ASR), and Historic Properties Survey Report (HPSR)
- Signed letter from City confirming implementation of the mitigation commitments recommended by Caltrans.

The Metropolitan Transportation Commission (MTC) air quality conformity questionnaire will be completed by the City/project engineer and submitted to MTC Air Quality Conformity Task Force.

Archaeological/Historical Consultants (A/HC), under contract with DJP&A, will prepare the APE map, ASR, and HPSR. The cultural resources reports will be prepared based on the Caltrans' SER and submitted to the CITY for review, revised once, and then submitted back to the CITY for submittal to Caltrans. This scope does not include subsurface archaeological resource testing. If based on the findings of the ASR, Caltrans determines subsurface archaeological resource testing (i.e., XPI Proposal and XPI Testing) is necessary, these studies could be provided as an optional service (see optional Task 11 information below).

After Caltrans receives the mitigation commitment letter from the CITY and PM 2.5 Email from MTC and the cultural resources reports are deemed complete, Caltrans will issue the NEPA Categorical Exclusion for use by the City in obtaining federal funding.

1.6.4. **Meeting Attendance -** This scope includes attendance at the Caltrans Field Review (see above) and up to three meetings with the project team during completion of the above-described tasks. The scope also includes A/HC attendance at up to three Native American consultation meetings. This scope does not include public hearing or scoping meeting attendance.

1.7. CITY maintains a list of known utility operators in CITY. CONSULTANT shall prepare a Notice of Intent to Construct (NOI) on CITY's standard NOI form and submit it to the known utility operators in order to gather records for existing utilities. Location map exhibits will be required to be submitted as part of the NOI. CONSULTANT shall provide CITY a draft of the NOI prior to sending it to the utility, maintain log of all NOI sent and received, and provide CITY all information received from the NOI. The purpose of the collection of utility information is to identify ownership of surface features that will be impacted by the work, to identify existence of utilities within the roadbed and potential for vertical conflicts against the selected pavement treatment, and to identify if there are any high-risk utilities within the project limits that may be impacted by the work.

1.8. All data collected from the field shall be provided to the CITY for records. Prior to performing data collection, CONSULTANT shall provide a work plan to the CITY

for review and approval. No work shall be performed unless authorized by the CITY. After compiling information related to the project, CONSULTANT will provide a confirmation of concept plan to the CITY for review and confirmation of proposed improvements prior to proceeding with 65% design.

1.9. Provide C.3 calculations and method used to determine bioretention sizing. Provide technical specifications. C.3 Calculations will be per the latest approved Santa Clara Valley Urban Runoff Pollution Prevention Program (SCVURPPP). Recommendations will be summarized in a Stormwater Treatment Design Criteria Memo. CONSULTANT will include an operations plan and maintenance plan to be accepted by the City.

1.10. Geotechnical engineering for soil characterization and pavement characteristics shall include the following:

1.10.1. **Exploratory Borings -** CONSULTANT will drill, log, and sample 12 exploratory borings using conventional truck-mounted, hollow-stem drilling equipment. Site access will be provided for us. Our conventional borings will extend to depths of approximately 2 to 6 feet below the existing AC pavement or practical drilling refusal. Practical refusal can be due to obstructions, very dense soil condition, and/or equipment limitation. We will collect soil samples from our borings for visual classification and laboratory testing.

1.10.2. **Utility Clearance -** CONSULTANT will mark out boring locations at least two working days prior to beginning our explorations as required by law, and notify the regional utility notification center – Underground Service Alert (USA), and you, so that public and private utilities can be identified and marked at the ground surface. Where practical we will mark our locations in white paint, or otherwise designate our exploration locations, as requested by USA. Utility operators/ owners are required by law to mark their utilities at the ground surface prior to the start of work. To reduce the risk of damaging unidentified underground utilities during drilling, we will also contract with a private utility locator to screen our exploration locations for utilities. We are not responsible for damage to utilities that are not clearly identified. We also request that you forward a copy of utility location plans or drawings, if available, to aid in determining our exploration locations.

1.10.3. **Permits, Site Access, and Disposal of Drill Spoils -** The work is being performed for the City of Santa Clara. As noted in the RFP, we will obtain and encroachment permit with the city. However, we understand various fees associated with street closure, bonds, and encroachment permits will be waived by the CITY.

Locations of explorations will be backfilled with cement grout and top with dyed concrete to match.

CONSULTANT assumes clear site access will be provided for our equipment at the time of drilling. Exploration equipment is typically heavy, and drilling is a destructive process that disturbs surface soils and other improvements. For this proposal, site restoration is limited to general clean-up and does not include the restoration of the site to its original conditions including AC hot or cold patch.

During site exploration, spoils generated will be stored in 55-gallon drums for laboratory testing and offsite disposal. Testing and disposal of excess soil

cuttings is provided as a separate line in Table 1 for your planning.

1.10.4. **Traffic Control -** Included in this scope of work is the approximate cost to provide full traffic control for this work. The cost shown is for a full 8-hour workday, Monday through Friday during normal work hours, including lane closure, as needed, and signage. CONSULTANT will work with the City to assist in the preparation of a basic traffic control plan, if required. Our traffic control plan is not intended to meet Caltrans' requirements. CONSULTANT has estimated a total of three (3) days for the exploration and testing.

1.10.5. **Environmental Conditions -** If environmental contamination or other specific conditions exist at the site, please notify us prior to exploration so that we can take the proper health and safety precautions during our exploration of the site. This proposal specifically excludes the assessment of environmental characteristics at the site, particularly those involving hazardous substances. If obviously impacted materials are encountered during our geotechnical exploration, we will discontinue our work and notify you of the condition encountered. CONSULTANT will proceed with geotechnical scope of work once we mutually agree to do so. Added costs incurred because of suspected hazardous substances will be charged on a time-and-expense basis over and above the established fees for the site investigation.

1.10.6. **Laboratory Testing -** To evaluate the index and engineering properties of site soils, the following laboratory tests are anticipated:

- In-situ Moisture/Density tests, American Society for Testing and Materials (ASTM) D2937 Test Procedure
- Grain Size Distribution tests, ASTM D1140 and D422
- Atterberg Limit tests, ASTM D4318
- Pavement Resistance, R-Value, Testing, Cal 301 (four tests)
- Permeability Tests, ASTM D5084 and/or D2434

1.10.7. **Engineering Analysis And Report Preparation -** A report will be prepared with our conclusions and recommendations. The report will include the following:

- Site plan showing exploratory boring locations
- Logs of exploratory borings, including depth to ground water
- Laboratory test results
- A detailed discussion of our findings and recommendations, including:
- Site conditions
- Subsurface conditions
  - Soil hydraulic conductivity
  - Site preparation and earthwork recommendations
  - Temporary shoring design parameters
  - Flexible asphalt and rigid concrete pavement recommendations

1.11. CONSULTANT will perform the following as part of the Agency Coordination and Permitting:

1.11.1. **Caltrans Encroachment Permit –** Since El Camino Real is a Caltrans facility,

work at the Lincoln Avenue and El Camino Real may impact Caltrans ROW, and we assume a Caltrans encroachment permit will be required. CONSULTANT will prepare and submit required documents to obtain a standard encroachment permit from Caltrans. It is assumed by the CONSULTANT that Caltrans will allow the project to be processed through the encroachment permit office process (EPOP) with a permit application review and that design engineering evaluation report (DEER) or a PSR-PDS will not be required by Caltrans. CONSULTANT assumes that the Caltrans Encroachment Permit will be straightforward (under $1M) and no Design Standard Decision Documentation (DSDD) will need to be prepared for the project.

1.11.2. **Federal Aid Documentation -** CONSULTANT will provide support to the City in preparing and submitting accurate and complete documentation in support of the OBAG 3 Federal grant for construction. BKF assumes that all work will be within the public right of way.

1.11.3. **Caltrans Construction Authorization -** CONSULTANT will coordinate the E-76 request for Construction Authorization for the Project. CONSULTANT will be the lead in preparing all documentation for CITY review, and the CITY will submit documentation to Caltrans. This includes

- Preparation of the Preliminary Environmental Study (PES) documents (LAPM Chapter 6)
- Preparation of the Field Review forms (LAPM Chapter 7)
- Calculation of the DBE goal (LAPM Chapter 9)
- Preparation of the PS&E certification and checklist (LAPM Chapter 12)
- ROW Certifications (LAPM Chapter 13)
- Preparation of the RFA package

Task 1 Deliverables – Electronic format:

1. Preliminary plans – One (1) PDF
2. Conceptual Layout, Signal/RRFB, Signing and Striping Plans
3. Preliminary cost estimate – One (1) PDF
4. Project schedule – One (1) PDF
5. Field notes and photographs
6. Photometric Analysis (Lighting Study)
7. Signal Warrant Analysis Findings
8. Parking Study Findings
9. C.3 calculations and method used to determine bioretention sizing in a Stormwater Treatment Design Criteria memo.
10. Plat and Legal Description Easement Dedication
11. E76 Forms

Task 2: 65% Construction Documents

Plans shall be drawn to scale, on D-size (24" X 36") sheets, at an engineering scale up to 1" = 40' maximum, conforming to CITY's Design Criteria. Plans are to be drawn by AutoCAD 2021 or earlier versions, using CITY-provided standard AutoCAD template with background layout from Consultant's topographic survey.

2.1. Prepare 65% construction documents and supporting information for the CITY's review. Consultants shall follow CITY's Design Criteria and plan format to prepare 65% Plans and supporting information for the CITY's review. In addition to the cover page, notes, key map and typical sections, CONSULTANT anticipates the following plans with details of major design components will be prepared for the 65% submittal:

Layout plan with identify all major construction features including curb ramp and sidewalk construction, edge conditions, dig outs, and intersection conforms. Layout plans will also identify proposed pavement rehabilitation methods and itemize irons to be adjusted to grade within the pavement resurfacing areas.

Traffic signal installation/modification and **RRFBs installation plans** for seven intersections will be prepared as listed below:

- Scott Boulevard and Cabrillo Avenue;
- Scott Boulevard and Royal Avenue;
- Scott Boulevard and Warburton Avenue;
- Scott Boulevard and Bray Avenue;
- Monroe Street and Cabrillo Avenue;
- Monroe Street and Warburton Avenue;
- Lafayette Street and Parker Court;

Depending on the outcome of the signal warrant study, signal modification plans could also be prepared for the following location as an optional service (see optional Task 10 information below):

- Lafayette Street and Reeve Street;

The plans will include base layouts showing controllers, service enclosures, poles, pull boxes, signals, detection systems, conduits, and conductors. Plans will be drawn at 1"=20' scale, using Caltrans and City of Santa Clara standards, and will include conduit/ wiring and pole/equipment schedules. BKF will work closely with SVP to incorporate new service point into the traffic signal plans. SVP developer work drawings will be required for new and modified traffic signal systems and will need to be designed by CONSULTANT and reviewed and approved by SVP. The SVP developer work drawings approval process requires the CONSULTANT to coordinate with the Public Works project manager and SVP electric department to submit each submittal of electrical drawings separate from the civil utility plans.

RRFBs are assumed to be solar-powered per RFP Q&A. CONSULTANT also assumes the CITY will provide existing as-builts, and signal timing is excluded from the scope.

Signing and striping plan along Warburton Ave and Lincoln St based on the proposed geometry and the RFP will be prepared. The plan will be drafted at a scale of 1"=40' to ensure clarity. All signage will follow the California MUTCD 2014, Revision 9, and all striping will conform to the latest 2024 Caltrans Standard Plans, as well as applicable standards from Caltrans and the City of Santa Clara.

BKF will also incorporate the latest plans from Scott Boulevard and the approved plans

from Lafayette Street into the current project design to ensure seamless coordination between multiple projects.

Traffic control plans for the proposed off-site civil improvements, including pavement reconstruction, and utility installations will be prepared. The traffic control plans will be prepared at a scale of 1" = 40' to ensure clarity. All signage will conform to the CA MUTCD 2014, Revision 9. CONSULTANT assumes that traffic signal-related construction and street resurfacing (i.e. grind & overlay, micro-surfacing, and slurry seal) will be provided by the respective Contractors and is therefore excluded from this scope.

Based on our experience collaborating with the City of Santa Clara, we have identified the need for traffic control design services as outlined below:

- Preparing detailed traffic handling plans for the proposed off-site civil improvements, including pavement reconstruction, and utilities installations
- Applying traffic control design per CA MUTCD, City of Santa Clara requirements, and Caltrans standards
- Maintaining of vehicular, transit, bicycle, and pedestrian traffic throughout construction, including ingress/egress for properties (driveways) and businesses
- Minimizing impact to the traveling public and ensuring adequate circulation for local traffic, delivery trucks, buses, and emergency vehicles

Planting and irrigation plans will be prepared by CONSULTANT that will include point of connections, new equipment or upgrades as required, mainline routing and the associated city standard irrigation details. Planting design and plant palette shall conform to the existing plant palette. City standard planting details will also be included. GSI areas will be coordinated with utilities and drainage infrastructure requirements. CONSULTANT will provide recommendations and design for installation of GSI (bioretention facilities) including:

- Identifying drainage management areas for sizing GSI facility, domestic irrigation water connections,
- Landscape plans that will incorporate recommendations from a City coordinated third-party (SFEI -San Francisco Estuary Institute),
- Low voltage power connection from Silicon Valley Power (SVP) underground street light conduit or overhead electric wire,
- Integration of GSI with proposed pedestrian safety facilities, and
- Public educational permanent signage for at least one GSI facility

Lighting/Electrical Plans with Photometrics will be provided for the street lights affected by the project as well as the proposed crosswalk and signal safety lighting locations.

Interconnect/Fiber Plans will be provided that document the wiring needed for the proposed signal interconnect between existing signal cabinets to the proposed traffic signal systems.

65% Plans shall include all existing utilities on-site and immediate surrounding off-site areas. Pertinent background information as relating to proposed improvements such as, but not be limited to, layouts, fence, gate, pedestrian pathway, property lines, site entrance/exist driveway, adjacent streets shall be shown. A list of anticipated design plans are as follows:

- Cover Sheet
- Notes and Legend
- Typical Sections

- Demolition Plan
- Layout Plan
- Traffic Signal Installation/Modification Plans
- RRFB Installation Plans
- Signing and Striping Plans
- Street Lighting Design Plans and Detail Sheets
- Fiber Interconnect Plan Sheets
- Fiber Interconnect Detail Sheets
- Fiber Interconnect Splice Diagrams Sheets
- Traffic Control Plans
- Planting, Irrigation, and Landscape Plans with equipment legends
- Construction Details

2.2. Provide modified sections to CITY standard specifications to suit Project. Modified sections include, but not be limited to, general information, summary of work, measurement and payment for bid items, permitting and agency regulatory requirements, etc.

2.3. Prepare project estimate that includes an itemized list of bid items. The Project estimate shall be accurate and prepared based upon current construction pricing and escalated to mid construction. CONSULTANT shall review recent bids, and contact vendors, suppliers, and contractors as necessary to develop an accurate cost estimate. The CONSULTANT shall provide the assumptions and supporting documents used to prepare the estimate. The Project estimate shall consider the following factors:

- Recent similar projects bided in the Bay Area, especially in the South Bay
- Current economic trend
- When the Project will be bided
- When construction will occur
- The risks that contractors need to consider for the Project

2.4. Develop Project schedule. Schedule shall include all needed times to complete all tasks, including CITY's review times, permitting process, and construction period. A preliminary schedule is included in this proposal.

2.5. Plan, coordinate, schedule, attend meetings, and produce meeting minutes with action items for all meetings with the CITY as deemed necessary to efficiently complete this phase of the design in a timely manner.

2.6.1. CITY will circulate the submittal package to internal CITY departments for review and comments. CONSULTANT shall be responsible for submitting the package to external stakeholders if required. CONSULTANT shall prepare written responses to all written comments received. All redlined drawings shall be returned with CONSULTANT's response on the redlined drawings.

2.6.2. CONSULTANT shall be responsible for resolving comments from each commenter and shall identify to CITY any comments that cannot be resolved. CONSULTANT shall conduct a 65% comments review meeting with CITY to discuss comments on the submittal package, to identify any significant design issues, and gain concurrence as to how the submittal shall be revised as appropriate to incorporate CITY's comments.

2.6. Conduct a quality control (QC) review of design documents (Plans, Specifications, and Engineer's Cost Estimates).

2.7. CONSULTANT is required to coordinate with Underground Service Alert to mark all locations requiring new signal pole and cabinet foundations. All potential utility conflicts shall be discussed with the CITY and coordinated with each respective utility agency to clear all conflicts. The project plan shall clearly identify all existing utilities that will be and potentially be impacted during construction. Under this requirements, it is assumed by CONSULTANT that at least 1 pothole per cabinet location will be authorized by the CITY. USA will not call in markings unless the is field work (digging) involved.

Task 2 Deliverables – Electronic format:

1. 65% Plans – One (1) PDF and one (1) AutoCAD file.
2. 65% Specifications – One (1) PDF and one (1) Microsoft Word file.
3. 65% Engineering cost estimate – One (1) PDF and one (1) Microsoft Excel file.
4. SVP Developer Work Drawings
5. Project schedule – One (1) PDF and one (1) Microsoft Project file.
6. Quality control checklist for 65% PS&E submittal – One (1) PDF and one (1) Microsoft Word or Excel file.
7. Miscellaneous Project information (as requested).
8. Meeting minutes – One (1) PDF and one (1) Microsoft Word file.
9. Required information to the City's Project Specific Specification Book

Task 3: 95% Construction Documents

Based on CITY's comments and direction on the 65% PS&E, CONSULTANT shall revise the 65% PS&E to produce the 95% PS&E. Consultant shall:

3.1. Prepare 95% construction documents and supporting information for the City's review and approval. CONSULTANT shall update the plans from 65% submittal. Construction details of proposed improvements shall be included in the 95% Plans.

3.2. Provide technical specifications. Provide modified sections to City standard specifications to suit Project. Modified sections include, but not be limited to, general information, summary of work, measurement and payment for bid items, permitting and agency regulatory requirements, etc.

3.2.1. Provide required information to the City's Project Specific Specification Book (Division 0, 1, and 2). Required information from Consultant for CITY's frontend specifications shall include, but not be limited to, the followings:

- Description of work – summary only
- Type of Contractor's License required
- Construction Duration for substantial completion and final completion
- Bid schedule without engineer's estimate in excel spreadsheet
- Bid schedule with engineer's estimate in excel spreadsheet
- Requirements for Contractor's Statement of Qualifications (e.g. experience requirements for similar work and contract values)
- Identification of any changes to the City's standard specifications that are required

3.3. Prepare an updated engineering cost estimate.

3.4. Prepare an updated project schedule.

3.5. Meet with CITY staff, as needed, to review CITY comments on 95% submittal and gain concurrence as to how the documents will be revised as appropriate to incorporate CITY comments.

3.5.1. CONSULTANT assumes one (1) coordination meeting with City staff for resolution of comments.

3.5.2. Plan, coordinate, schedule, attend meetings, and produce meeting minutes with action items for all meetings with the City as deemed necessary to efficiently complete this phase of the design in a timely manner.

3.5.3. Provide written response matrix to City's comments on 65% PS&E.

3.6. Conduct a quality control (QC) review of design documents (Plans, Specifications, and Engineer's Cost Estimates).

Task 3 Deliverables – Electronic format:

1. 95% Plans – One (1) PDF and one (1) AutoCAD file.
2. 95% Specifications – one (1) PDF and one (1) Microsoft Word file.
3. SVP Developer Work Drawings
4. Structural Calculations (if required) – One (1) PDF.
5. 95% Engineering Cost Estimate – One (1) PDF and one (1) Microsoft Excel file.
6. Updated Project Schedule – One (1) PDF and one (1) Microsoft Project file.
7. Quality control checklist for 95% design submittal.
8. Written response matrix – One (1) PDF and one (1) Microsoft Word or Excel file

Task 4: 100% Construction Documents

Based on CITY's comments and direction on the 95% PS&E, CONSULTANT shall revise the 95% PS&E to produce the 100% PS&E. CONSULTANT shall:

4.1. Prepare 100% construction documents and supporting documents.

4.1.1. Phase percentage statement such as "100% Plans. Not for Construction" shall be removed from the 100% Plans and each sheet of the plans set shall be stamped and signed by the CONSULTANT's Engineer of appropriate discipline.

4.2. Specifications shall be stamped and signed (on Document 00030 – Seal) by CONSULTANT's Project Engineer.

4.3. Prepare an updated Engineering Cost Estimate with backups and justifications for unit pricing.

4.4. Prepare an updated Project Schedule.

4.5. Meet with CITY staffs as needed to review CITY comments on 100% submittal and gain concurrence as to how the documents will be revised as appropriate to incorporate CITY comments.

4.5.1. CONSULTANT assumes one (1) coordination meeting with CITY staff for resolution of comments.

4.5.2. Plan, coordinate, schedule, attend meetings, and produce meeting minutes with action items for all meetings with the CITY as deemed necessary to efficiently complete this phase of the design in a timely manner.

4.5.3. Provide written response matrix to CITY's comments on 95% PS&E.

4.6. 100% PS&E shall be Peer reviewed and Certification of Peer Review shall be submitted with the 100% Submittal.

A statement to indicate Peer Review has been performed and name, signature, and title of the Engineer who performed it shall be added to the Plans Cover Sheet.

Certification of Peer Review: The following paragraph shall be put on the company letter head, dated, and signed by the Peer Review Engineer.

"The undersigned hereby certifies that a professional peer review of these plans and the required designs was conducted by me, a professional landscape architect with expertise and experience in the appropriate fields of landscaping equal to or greater than the Architect of Record, and that appropriate corrections have been made."

4.7. 100% plans will be submitted to the Building Division for review in order to obtain a building permit for new electrical meters and for bioretention on City owned parcel, if applicable.

4.7.1. Prepare and submit Special Inspection Form for the Project, if applicable.

4.8. Provide Documents for City's PS&E approval process. Required documents are, but not be limited to, engineer's estimate using the schedule of quantities format, recent similar project bid summaries to validate engineer's estimate, consultant Peer Review Certification, consultant Lessons Learned from other similar projects that were applied to this Project.

4.9. The CITY shall review the 100% Design Submittal Package (Plans, Specifications, Engineer's cost estimate, and Project bid and construction schedule) to ensure that all comments and issues have been rectified.

4.10. Provide list of potential bidders including company name, email address, contact number, and address of business.

Task 4 Deliverables – Electronic format:

1. 100% Plans– One (1) PDF and one (1) AutoCAD file.
2. 100% Specifications– One (1) PDF of wet-signed/stamped, A-size and one (1) Word file.
3. Plat and Legal for GSI easement
4. Structural Calculations (if required) – One (1) PDF
5. Certification of Peer Review – One (1) PDF
6. 100% Engineering Cost Estimate – One (1) PDF and one (1) Microsoft Excel file
7. Written response matrix – One (1) PDF and one (1) Microsoft Word or Excel file.
8. Quality control checklist for 100% design submittal.
9. Special Inspection Form – One (1) PDF
10. Updated Project Schedule – One (1) PDF and one (1) Microsoft Project Schedule

Task 5: Bid Documents

The Bid Documents shall incorporate all comments from the City including comments from Public Works, Sewer and Water, SVP, and any other stakeholders that are involved in the Project. Based on CITY's comments and direction on the 100% PS&E, Consultant shall revise the 100% PS&E to produce the Bid Documents. CONSULTANT shall:

5.1. Incorporate City review comments of 100% PS&E into Bid Documents.

5.2. Prepare building permit resubmittal package incorporating comments and instructions

from the building division.

5.3. Prepare Bid Documents (P&S).

5.3.1. CONSULTANT assumes one (1) coordination meeting with City staff for resolution of comments.

5.3.2. Bid Plans shall be wet stamped and signed by the CONSULTANT's Engineer of appropriate discipline. Plans shall be drawn to scale and plotted onto D-size sheets.

5.3.3. Bid Specifications shall be wet stamped and signed (on Document 00030 – Seal) by Consultant's Project Engineer.

5.3.4. Final Engineer's Estimate

5.4. Plan, coordinate, schedule, attend meetings, and produce meeting minutes with action items for all meetings with the City as deemed necessary to efficiently complete this phase of the design in a timely manner.

Task 5 Deliverables – Electronic format:

1. Bid Plans – One (1) PDF of wet-signed/stamped, D-size and one (1) AutoCAD file.
2. Bid Specifications – One (1) PDF of wet-signed/stamped, A-size and one (1) Word file.
3. Written response matrix – One (1) PDF and one (1) Microsoft Word or Excel file.
4. Quality control checklist for bit set submittal.
5. Special Inspection Form
6. List of potential contractors with detailed information, which include emails, phone numbers, address, and contact name.

Task 6: Bid and Award Phase Assistance

CONSULTANT shall provide assistance to the CITY during the bidding and award phase, answer questions from bidders, help and prepare exhibits for addenda when necessary, assist the City in evaluation of bids received, and provide a written recommendation for the award of contract, when requested.

Consultant shall:

6.1. Attend and conduct one Pre-Bid Conference/Site Visit.

6.2. Assist the CITY with responses to bidder's inquiries through the CITY's Project Manager.

6.3. Assist the CITY with addenda to the construction documents as needed to respond to bidder's inquiries and clarify the intent of bid documents.

6.4. Assist the City in evaluating bids (if required by the CITY).

6.5. Within fourteen (14) days from the bid opening date, prepare and submit a conformed set of contract documents (Plans and Specifications) incorporating any and all addenda (if needed).

Task 6 Deliverables – Electronic format:

1. Written response to bidder's inquiries – Signed PDF.
2. Support information for addenda – Signed PDF.
3. Written recommendation letter to award of contract for the Project – Signed PDF.
4. Conformed Set (if needed) – One (1) PDF of Plans and Specifications, one (1) AutoCAD file of Plans, and one (1) Microsoft Word file of Specifications.

Task 7: Construction Phase Assistance

CONSULTANT's responsibility to provide basic services for the construction phase under this Agreement commences with the "Notice to Proceed" (NTP) of the contract for construction and terminates on the date the CITY approves the certificate of completion of the Project.

CITY is lead in construction management and administration and CONSULTANT will assist the CITY in providing administration of the contract for construction. Duties, responsibilities and limitation of authority of CONSULTANT shall not be restricted, modified, or extended without written agreement of the CITY.

7.1. CONSULTANT shall attend the Pre-construction meeting.

7.2. CONSULTANT shall visit the site three times during construction. During these site visits, CONSULTANT shall attend job progress meetings, pre-submittal meetings, pre-installation meeting, and other meetings as required by the CITY. CONSULTANT's structural, civil, and electrical sub-consultants shall visit the site as required when work related to their discipline is in progress.

7.3. CONSULTANT shall make construction observation visits throughout the construction phase. CONSULTANT shall issue an observation report after each visit. Assume up to six (6) meetings.

7.4. In addition to the construction observation visits, CONSULTANT shall review technical submittals, shop drawings, product data, product samples, and product warranties from the contractor for conformance with the specifications and drawings. The CONSULTANT's action shall be taken with such reasonable promptness so as to cause no delay in the work, while allowing sufficient time in CONSULTANT'sjudgment to permit adequate review. The CONSULTANT will be allowed a maximum of seven (7) calendar days for review of submittals. CONSULTANT's review shall not constitute review of safety precautions or, unless otherwise specifically stated by CONSULTANT, of construction means, methods, techniques, sequences or procedures. CONSULTANT's review of specific items shall not indicate approval of an assembly of which the item is a component. When professional certification of performance characteristics of materials, systems or equipment is required by the contract documents, CONSULTANT shall be entitled to rely upon such certification to establish that the materials, systems or equipment will meet the performance criteria required by the contract document.

7.5. CONSULTANT shall respond to Contractor's Request for Information (RFI) and Request for Substitution (RFS). Interpretations and decisions of the CONSULTANT shall be consistent with the intent of and reasonably inferable from the Contract Documents and shall be in writing or in the form of drawings. CONSULTANT shall be allowed a maximum of seven (7) calendar days to respond to RFIs and RFSs that impact the Project schedule or a maximum of fourteen (14) calendar days to respond to RFIs and RFSs that do not impact the Project schedule.

7.6. The CONSULTANT shall prepare the Scope of Work, including sketches, for Field Instructions issued to the Contractor. When requested by the CITY, CONSULTANT shall review Change Order (CO) pricing and provide written responses for the CITY's review and finalizing said COs.

Task 7 Deliverables – Electronic format:

1. Signed PDFs of Reviewed Contractor Submittals, Shop Drawings, RFIs, RFSs, and Field Instructions.
2. Signed PDFs of COs' recommendations.
3. Signed PDFs of Field reports by Consultant and sub-consultants.

Task 8: Post-Construction Phase

When requested by the CITY, CONSULTANT shall conduct reviews to assist the CITY to determine the date or dates of Substantial Completion and the date of Final Completion. CONSULTANT's decisions with CITY approval on matters relating to aesthetic effect may be final if consistent with the intent expressed in the Contract Documents.

8.1.1. Upon request by Contractor, in accordance with contract Specifications, for Substantial Completion and later Final Completion, CONSULTANT shall assist CITY in determining if the Project is ready for the stage of completion requested by the Contractor. CONSULTANT shall provide CITY with a written recommendation.

8.2. CONSULTANT shall perform a walk-through of the Project site, review Contractor Punch List, and provide written response with status and action of items on the Punch List. CONSULTANT shall attend final walk-through of the Project site with the CITY, verify Punch List completion, and provide written response with recommendation regarding Project acceptance and close-out.

8.3. CONSULTANT shall review Contractor-supplied Operation and Maintenance manuals and Warranties to determine their completeness and compliance with Construction Contract and provide written recommendation for acceptance.

8.4. CONSULTANT shall at completion of the Project, provide CITY with one set of reproducible Record Drawings (RDs) on good quality bond paper that reflect the changes to the work during construction based upon marked up prints, drawings and other data furnished by the Contractor and CITY. CONSULTANT shall use the original Title sheet for the RDs set. If CONSULTANT adds additional sheets to the Plans, these shall be properly numbered, properly referenced on other affected drawings and included in the drawing index. CONSULTANT may, at its own expense, prepare and retain a copy of each drawing for its permanent file.

8.4.1. Provide a complete set of the Record Drawings and all X-ref files "bound," including other associated fonts, plot style files on AutoCAD, including electronic copies in PDF format. CONSULTANT may, at its own expense, prepare and retain a copy of each drawing for its permanent file.

Task 8 Deliverables – Electronic format:

1. Substantial Completion/Final Completion recommendations and Reviewed Punch List – One (1) signed PDF.
2. Record Drawings – One (1) PDFs and one (1) AutoCAD files on CD/DVD.

OPTIONAL SERVICES

Task 9: Optional Utility Investigations and Potholing

9.1. Utility Investigations and Potholing

CONSULTANT will prepare a potholing plan and submit it to the CITY for approval. Upon

receiving CITY approval, Consultant will conduct up to fifty (50) potholes to locate existing underground utilities. CITY will provide encroachment permit (no fee) for the field work. Traffic control shall be provided by the CONSULTANT for the field exploration work as per CITY permit conditions. The potholes shall be back filled with cement grout or cold patch AC. The following is included in this task:

- Obtain a City of Santa Clara encroachment permit (assumed no fee).
- Mark out the borings in white paint and call in USA North Utility Notification a minimum of 72 hours before the start of the field work.
- CONSULTANT has outlined a price per pothole.

Deliverables:

1. Potholing Plan
2. Potholing Data (to be included in Utility Plans and Utility Report).

Task 10: Optional Intersection and Signal Improvement Plans for Lafayette/Reeve

10.1. Intersection and Signal Improvement Plans for Lafayette/Reeve

If the City decides to proceed with installation of a signal at the intersection of Lafayette Street and Reeve Street, CONSULTANT will prepare layout plan, traffic signal installation plan, and signing/striping plan for these improvements. CONSULTANT notes the following design constraints and considerations for this location.

- West leg with the combined driveway for 2 properties will be a challenge for the signal operation design
- Limited space at the southwest and southeast corners may require ROW or easement acquisition
- Concentration of overhead powerlines will present challenges to achieve CITY/IES lighting standard for a signalized intersection
- Limited space at the southwest and southeast corners will require additional coordination with utilities

CONSULTANT notes the following exceptions for this optional service:

- Excludes application fees
- Excludes utility underground design
- Excludes public outreach for the driveways/properties effected
- Excludes traffic operations and simulation studies for the proposed layout

Deliverables:

1. Preliminary, 65%, 95%,.100%, and Bid Plans

Task 11: Optional XPI Testing

11.1. XPI Testing

If Caltrans requires XPI testing, an XPI proposal will be prepared for archaeological testing in the project area's archaeologically sensitive areas. The testing method is assumed to be geoprobes in the sections of the project corridor covered with impervious surfaces and backhoe trenches in accessible areas. This scope assumes 1 week (five days) of testing. Upon Caltrans' approval of the proposal, Extended Phase I testing will be completed, and

the results will be incorporated into the Archaeological Survey Report. If resources are identified during the Extended Phase I investigation, an Assumption of Eligibility, ESA Action Plan, or other Caltrans Section 106 documents may be necessary, and will require an amendment to this scope of work.

ASSUMPTIONS

CONSULTANT's services are limited to those expressly set forth in the scope. For the scope of work and fee identified, we have assumed the following:

1. All permits and fees to be paid by the CITY.
2. Designs will be based on the 2024 Caltrans Standard Plans, Specifications, and Revised Standard Plans.
3. Designs will be based on 2014 California Manual on Uniform Traffic Control Devices (CA MUTCD), Revision 9.
4. Arborist report and tree surveys are excluded.
5. Modifying existing irrigation at the adjacent private properties is excluded and is not part of the scope of work.
6. RRFBs are assumed to be solar-powered per RFP Q&A.
7. Survey Services assumptions
    i. Site Access: CONSULTANT will need to be provided site access, especially to any fenced or restricted access areas.
    ii. Resolved Boundary Survey: CONSULTANT is excluding a boundary survey.
    iii. Record (Paper) Boundary: CONSULTANT is excluding providing any record (paper) boundary or easement information.
    iv. Easements: CONSULTANT is excluding plotting of any record easements.
    v. Construction Staking: CONSULTANT is excluding any construction staking related services.
    vi. Easement by Separate Instrument (Plat and Legals): CONSULTANT is excluding the preparation of any easements by separate instrument (plat and legals), except for those listed in the above scope.
    vii. Record of Survey: As CONSULTANT is not providing any boundary survey, CONSULTANT is excluding the preparation and filing of a Record of Survey.
    viii. As-Built Survey: CONSULTANT is excluding the preparation of any post-construction/as-built surveys.

8. CONSULTANT assumes the CITY will provide existing as-builts.
9. Signal timing is excluded from the scope.
10. The limit of work is limited to the direct green storm water infrastructure area LQ1-A & B, LQ2, LQ3-A & B, and LQ4 as listed on page 8 and identified in Figure A-2 and A-3 of Attachment (A) of the RFP.
11. The bicycle and pedestrian improvements project involves minor improvements within the existing public right-of-way.
12. The NEPA and CEQA processes will be limited to evaluation of one build alterative.
13. The project will not impact any threatened or endangered plant or animal species, or habitat utilized by such species.
14. No trees will be removed by the project.
15. The bicycle and pedestrian improvements project will be eligible for a Categorical Exclusion (CATEX) under the NEPA.
16. The bicycle and pedestrian improvements project will be eligible for a Statutory Exemption (SE) under CEQA.
17. The green stormwater infrastructure project will be eligible for a Categorical Exemption (CE) under CEQA.
18. The City will be the Lead Agency under CEQA for both the bicycle and pedestrian improvements and green stormwater infrastructure projects.
19. Preparation of the ASR-HPSR will not require additional research to identify resources, an Extended Phase I investigation, Assumption of Eligibility, ESA Action Plan, or other Caltrans Section 106 processes.
20. The City will agree to implement the mitigation commitments recommended by Caltrans.
21. CONSULTANT assumes that one (1) BPAC review will take place at the 65% to 95% PS&E design milestone but CONSULTANT will not be required to attend BPAC meetings.
22. The Caltrans Encroachment permit will be a standard, straight forward permit and that no Design Standard Decision Documentation (DSDD) will need to be prepared for the project..

EXHIBIT B
SCHEDULE OF FEES

I. GENERAL PAYMENT

The total payment to the Consultant for Basic Services, as stated in **Exhibit A**, shall not exceed $1,220,000. The amount billed to City for pre-approved Additional Services shall not exceed the sum of $183,000. In no event shall the amount billed to CITY by CONSULTANT for services under this Agreement exceed $1,403,000, subject to budget appropriations.

Billing shall be on a monthly basis based on the services performed for each task. Consultant shall, during the term of this Agreement, invoice the CITY for hours and dollars of work completed under this Agreement. The invoice shall describe the Task invoiced, percent complete of the Task, time and materials expended by Task, and total amount during the invoice period. The invoice shall also show the total to be paid for the invoice period. All invoices shall provide a written description of work performed during the invoice period, deliverables completed, and progress to date on Tasks being invoiced in order to support the amount invoiced.

II. BASIC SERVICES

The total payment to Consultant for all work necessary for performing all Tasks, as stated in Exhibit A, shall be in proportion to services rendered and on a time and materials not-to-exceed basis.

The Consultant fee allocated to each Task, as shown below, shall be the Consultant full compensation for all the Consultant services required by this Agreement, as directed by the City, and no additional compensation shall be allowed. City may reallocate budget from Tasks to other Tasks or to or from additional services. The Consultant shall bill time and materials spent on a Task under the appropriate Task and will not be allowed to charge to future or inactive tasks unless approved in writing by City. The Consultant shall provide a summary of dates and hours charged per date by individual, and individual timesheets, if requested by City. The hours and amounts charged to each Task shall be proportionate to the services rendered.

Tasks denoted as Optional Tasks, as stated in Exhibit A, require pre-approval in writing by City prior to performing any services under the task. Payment for any Optional Task is allowed only if written authorization is given by the City in advance of the work to be performed. Fees for Optional Tasks shall be considered as Basic Services.

The total amount of all the Tasks is a not-to-exceed amount. Figures in the following table include all Subconsultant costs, reimbursable expenses, and administrative markups. The following table is a summary of the Tasks based upon the Proposal and revised workplan submitted by BKF, and agreed by City and Consultant, incorporated herein by reference.

Consultant shall invoice time and expenses according to the subtasks identified in the Proposal. The time and expenses billed for subtasks may vary above or below the fees identified on the Estimated Project Cost provided that the total billed for all subtasks billed under a Task remains within the Fee established for the Task. Upon mutual agreement between City and Consultant in writing, subtasks may be combined as needed to facilitate Consultant invoicing.

Description of work and task	Cost Estimate
Task No. 1 – Preliminary Engineering/Evaluation	$295,619
Task No. 2 – 65% Construction Documents	$203,905
Task No. 2 – 95% Construction Documents	$150,913
Task No. 4 – 100% Construction Documents Package	$115,477
Task No. 5 – Final Bid Documents	$58,374
Task No. 6 – Bid and Award Phase Assistance	$24,056
Task No. 7 – Construction Phase Assistance	$58,500
Task No. 8 – Post-Construction Phase	$25,021
Task No. 9 - Optional Services: Pothole	$145,010
Task No. 10 - Optional Services: Signal Design (Lafayette & Reeve)	$79,820
Task No. 11 - Optional Services: XPI Testing	$63,305
TOTAL	**$1,220,000**

In no event shall the amount billed to City by Consultant for Basic Services under this Agreement exceed one million two hundred twenty thousand dollars.($1,220,000), subject to budget appropriations.

III. REIMBURSABLE EXPENSES

Reimbursable Expenses shall not be allowed to be billed to the Project and all costs are covered under Basis Services.

IV. ADDITIONAL SERVICES

Additional Services consists of work not included in the Scope of Services outlined within this Agreement. Pre-approved Additional Services shall be billed to City at the fixed hourly rates shown below in Section V, RATE SCHEDULE, or at an agreed negotiated price. Monthly billing for Additional Services shall be consistent with the terms set forth in this Agreement. Payment for any Additional Services is allowed only if written authorization is given by the City Engineer in advance of the work to be performed. Additional Services shall not exceed $183,000 without approval by the City.

V. RATE SCHEDULE

Charges for personnel engaged in professional and/or technical work are based on the actual hours directly chargeable to the project.

Rates by classification are listed below. No adjustment to the rates will be allowed during the first two years of the term of this Agreement and annual adjustments based on CPI may be proposed until the end of the term of this Agreement. Any classifications added, or staff members changing classifications, shall be approved in writing by City.

EXHIBIT C
INSURANCE REQUIREMENTS

Without limiting the CONSULTANT's indemnification of the CITY, and prior to commencing any of the Services required under this Agreement, the CONSULTANT shall provide and maintain in full force and effect during the period of performance of the Agreement and for twenty-four (24) months following acceptance by the CITY, at its sole cost and expense, the following insurance policies from insurance companies authorized to do business in the State of California. These policies shall be primary insurance as to the CITY of Santa Clara so that any other coverage held by the CITY shall not contribute to any loss under CONSULTANT's insurance. The minimum coverages, provisions and endorsements are as follows:

A. COMMERCIAL GENERAL LIABILITY INSURANCE

1. Commercial General Liability Insurance policy which provides coverage at least as broad as Insurance Services Office form CG 00 01. Policy limits are subject to review, but shall in no event be less than, the following:

   $1,000,000 Each Occurrence
   $2,000,000 General Aggregate
   $2,000,000 Products/Completed Operations Aggregate
   $1,000,000 Personal Injury

2. Exact structure and layering of the coverage shall be left to the discretion of CONSULTANT; however, any excess or umbrella policies used to meet the required limits shall be at least as broad as the underlying coverage and shall otherwise follow form.

3. The following provisions shall apply to the Commercial Liability policy as well as any umbrella policy maintained by the CONSULTANT to comply with the insurance requirements of this Agreement:

   a. Coverage shall be on a "pay on behalf" basis with defense costs payable in addition to policy limits;

   b. There shall be no cross liability exclusion which precludes coverage for claims or suits by one insured against another; and

   c. Coverage shall apply separately to each insured against whom a claim is made or a suit is brought, except with respect to the limits of liability.

B. BUSINESS AUTOMOBILE LIABILITY INSURANCE

Business automobile liability insurance policy which provides coverage at least as broad as ISO form CA 00 01 with policy limits a minimum limit of not less than one million dollars ($1,000,000) each accident using, or providing coverage at least as broad as, Insurance Services Office form CA 00 01. Liability coverage shall apply to all owned (if any), non-owned and hired autos.

In the event that the Work being performed under this Agreement involves transporting of hazardous or regulated substances, hazardous or regulated wastes and/or hazardous

or regulated materials, CONSULTANT and/or its SUBCONSULTANT'S involved in such activities shall provide coverage with a limit of one million dollars ($1,000,000) per accident covering transportation of such materials by the addition to the Business Auto Coverage Policy of Environmental Impairment Endorsement MCS90 or Insurance Services Office endorsement form CA 99 48, which amends the pollution exclusion in the standard Business Automobile Policy to cover pollutants that are in or upon, being transported or towed by, being loaded onto, or being unloaded from a covered auto.

C. WORKERS' COMPENSATION

1. Workers' Compensation Insurance Policy as required by statute and employer's liability with limits of at least one million dollars ($1,000,000) policy limit Bodily Injury by disease, one million dollars ($1,000,000) each accident/Bodily Injury and one million dollars ($1,000,000) each employee Bodily Injury by disease.

2. The indemnification and hold harmless obligations of CONSULTANT included in this Agreement shall not be limited in any way by any limitation on the amount or type of damage, compensation or benefit payable by or for CONSULTANT or any SUBCONSULTANT under any Workers' Compensation Act(s), Disability Benefits Act(s) or other employee benefits act(s).

3. This policy must include a Waiver of Subrogation in favor of the City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents.

D. PROFESSIONAL LIABILITY

Professional Liability or Errors and Omissions Insurance as appropriate shall be written on a policy form coverage specifically designed to protect against negligent acts, errors or omissions of the CONSULTANT. Covered services as designated in the policy must specifically include work performed under this agreement. Coverage shall be in an amount of not less than one million dollars ($1,000,000) per claim or two million dollars ($2,000,000) aggregate. Any coverage containing a deductible or self-retention must first be approved in writing by the City Attorney's Office.

E. COMPLIANCE WITH REQUIREMENTS

All of the following clauses and/or endorsements, or similar provisions, must be part of each commercial general liability policy, and each umbrella or excess policy.

1. Additional Insureds. City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents are hereby added as additional insureds in respect to liability arising out of CONSULTANT's work for City, using Insurance Services Office (ISO) Endorsement CG 20 10 11 85, or the combination of CG 20 10 03 97 and CG 20 37 10 01, or its equivalent.

2. Primary and non-contributing. Each insurance policy provided by CONSULTANT shall contain language or be endorsed to contain wording making it primary insurance as respects to, and not requiring contribution from, any other insurance which the indemnities may possess, including any self-insurance or self-insured retention they may have. Any other insurance indemnities may possess shall be

considered excess insurance only and shall not be called upon to contribute with CONSULTANT's insurance.

3. Cancellation.

   a. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided due to non-payment of premiums shall be effective until written notice has been given to CITY at least ten (10) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least ten (10) days prior to the effective date of non-renewal.

   b. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided for any cause save and except non-payment of premiums shall be effective until written notice has been given to CITY at least thirty (30) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least thirty (30) days prior to the effective date of non-renewal.

4. Other Endorsements. Other endorsements may be required for policies other than the commercial general liability policy if specified in the description of required insurance set forth in Sections A through E of this Exhibit C, above.

F. ADDITIONAL INSURANCE RELATED PROVISIONS

CONSULTANT and CITY agree as follows:

1. CONSULTANT agrees to ensure that SUBCONSULTANT'S, and any other party involved with the Services, who is brought onto or involved in the performance of the Services by CONSULTANT, provide the same minimum insurance coverage required of CONSULTANT, except as with respect to limits. CONSULTANT agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this Agreement. CONSULTANT agrees that upon request by CITY, all agreements with, and insurance compliance documents provided by, such SUBCONSULTANT'S and others engaged in the project will be submitted to CITY for review.

2. CONSULTANT agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge CITY or CONSULTANT for the cost of additional insurance coverage required by this Agreement. Any such provisions are to be deleted with reference to CITY. It is not the intent of CITY to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against CITY for payment of premiums or other amounts with respect thereto.

3. The CITY reserves the right to withhold payments from the CONSULTANT in the event of material noncompliance with the insurance requirements set forth in this Agreement.

G. EVIDENCE OF COVERAGE

Prior to commencement of any Services under this Agreement, CONSULTANT, and each and every SUBCONSULTANT (of every tier) shall, at its sole cost and expense, provide and maintain not less than the minimum insurance coverage with the endorsements and deductibles indicated in this Agreement. Such insurance coverage shall be maintained with insurers, and under forms of policies, satisfactory to CITY and as described in this Agreement. CONSULTANT shall file with the CITY all certificates and endorsements for the required insurance policies for CITY's approval as to adequacy of the insurance protection.

H. EVIDENCE OF COMPLIANCE

CONSULTANT or its insurance broker shall provide the required proof of insurance compliance, consisting of Insurance Services Office (ISO) endorsement forms or their equivalent and the ACORD form 25-S certificate of insurance (or its equivalent), evidencing all required coverage shall be delivered to CITY, or its representative as set forth below, at or prior to execution of this Agreement. Upon CITY's request, CONSULTANT shall submit to CITY copies of the actual insurance policies or renewals or replacements. Unless otherwise required by the terms of this Agreement, all certificates, endorsements, coverage verifications and other items required to be delivered to CITY pursuant to this Agreement shall be mailed to:

EBIX Inc.
City of Santa Clara Public Works Department
P.O. Box 100085 – S2 or 1 Ebix Way
Duluth, GA 30096 John's Creek, GA 30097

Telephone number: 951-766-2280
Fax number: 770-325-0409
Email address: ctsantaclara@ebix.com

I. QUALIFYING INSURERS

All of the insurance companies providing insurance for CONSULTANT shall have, and provide written proof of, an A. M. Best rating of at least A minus 6 (A- VI) or shall be an insurance company of equal financial stability that is approved by the CITY or its insurance compliance representatives.

EXHIBIT D
LABOR COMPLIANCE ADDENDUM

This Agreement is subject to the requirements of California Labor Code section 1720 et seq. requiring the payment of prevailing wages, the training of apprentices, and compliance with other applicable requirements.

A. **Prevailing Wage Requirements**

1. Contractor shall be obligated to pay not less than the General Prevailing Wage Rate, which can be found at www.dir.ca.gov and are on file with the City Clerk's office, which shall be available to any interested party upon request. Contractor is also required to have a copy of the applicable wage determination posted and/or available at each job site.

2. Specifically, contractors are reminded of the need for compliance with Labor Code Section 1774-1775 (the payment of prevailing wages and documentation of such), Section 1776 (the keeping and submission of accurate certified payrolls) and 1777.5 in the employment of apprentices on public works projects. Further, overtime must be paid for work in excess of 8 hours per day or 40 hours per week pursuant to Labor Code Section 1811-1813.

3. Special prevailing wage rates generally apply to work performed on weekends, holidays and for certain shift work. Depending on the location of the project and the amount of travel incurred by workers on the project, certain travel and subsistence payments may also be required. Contractors and subcontractors are on notice that information about such special rates, holidays, premium pay, shift work and travel and subsistence requirements can be found at www.dir.ca.gov .

4. Only bona fide apprentices actively enrolled in a California Division of Apprenticeship Standards approved program may be employed on the project as an apprentice and receive the applicable apprenticeship prevailing wage rates. Apprentices who are not properly supervised and employed in the appropriate ratio shall be paid the full journeyman wages for the classification of work performed.

5. As a condition to receiving progress payments, final payment and payment of retention on any and all projects on which the payment of prevailing wages is required, Contractor agrees to present to City, along with its request for payment, all applicable and necessary certified payrolls (for itself and all applicable subcontractors) for the time period covering such payment request. The term "certified payroll" shall include all required documentation to comply with the mandates set forth in Labor Code Section 1720 *et seq*, as well as any additional documentation requested by the City or its designee including, but not limited to: certified payroll, fringe benefit statements and backup documentation such as monthly benefit statements, employee timecards, copies of wage statements and cancelled checks, proof of training contributions (CAC2 if applicable), and apprenticeship forms such as DAS-140 and DAS-142.

6. In addition to submitting the certified payrolls and related documentation to City, Contractor and all subcontractors shall be required to submit certified payroll and related documents electronically to the California Department of Industrial Relations. Failure to submit payrolls to the DIR when mandated by the project parameters shall also result in the withholding of progress, retention and/or final payment.

7. No contractor or subcontractor may be listed on a bid proposal for a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

8. No contractor or subcontractor may be awarded a contract for public work on a public works project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. Contractors MUST be a registered "public works contractor" with the DIR AT THE TIME OF BID. Where the prime contract is less than $15,000 for maintenance work or less than $25,000 for construction alternation, demolition or repair work, registration is not required.

9. All contractors/subcontractors and related construction services subject to prevailing wage, including but not limited to: trucking, surveying and inspection work must be registered with the Department of Industrial Relations as a "public works contractor". Those you fail to register and maintain their status as a public works contractor shall not be permitted to perform work on the project.

10. Should any contractor or subcontractors not be a registered public works contractor and perform work on the project, Contractor agrees to fully indemnify the City for any fines assessed by the California Department of Industrial Relations against the City for such violation, including all staff costs and attorney's fee relating to such fine.

11. This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

B. Audit Rights

All records or documents required to be kept pursuant to this Agreement to verify compliance with this Addendum shall be made available for audit at no cost to City, at any time during regular business hours, upon written request by the City Attorney, City Auditor, City Manager, or a designated representative of any of these officers. Copies of such records or documents shall be provided to City for audit at City Hall when it is practical to do so. Otherwise, unless an alternative is mutually agreed upon, the records or documents shall be made available at Contractor's address indicated for receipt of notices in this Agreement.

C. Enforcement

1. City shall withhold any portion of a payment; including the entire payment amount, until certified payroll forms and related documentation are properly submitted, reviewed and found to be in full compliance. In the event that certified payroll forms do not comply with the requirements of Labor Code Section 1720 et

seq., City may continue to hold sufficient funds to cover estimated wages and penalties under the Agreement.

2. Based on State funding sources, this project may be subject to special labor compliance requirements of Proposition 84.

3. The City is not obligated to make any payment due to Contractor until Contractor has performed all of its obligations under these provisions. This provision means that City can withhold all or part of a payment to Contractor until all required documentation is submitted. Any payment by the City despite Contractor's failure to fully perform its obligations under these provisions shall not be deemed to be a waiver of any other term or condition contained in this Agreement or a waiver of the right to withhold payment for any subsequent breach of this Addendum.

City or the California Department of Industrial Relations may impose penalties upon contractors and subcontractors for failure to comply with prevailing wage requirements. These penalties are up to $200 per day per worker for each wage violation identified; $100 per day per worker for failure to provide the required paperwork and documentation requested within a 10-day window; and $25 per day per worker for any overtime violation.

EXHIBIT E
MILESTONE SCHEDULE

TASK*	**DURATION**
Preliminary Evaluation/Engineering**	10 weeks
65% PS&E & Review	16 weeks
95% PS&E & Review	14 weeks
100% PS&E & Review	12 weeks
Bid Package Submittal	6 weeks
Bid Approval, Opening, and Review	8 weeks
Construction	52 weeks

*Some Tasks will run concurrently with others. Durations assume 4 weeks for City Review period.

**Duration for Task 1 is based on topography services, as-built research/base mapping, data collection, and conceptual plan evaluation only. Excludes scope items that will run concurrently with other Tasks such as meetings, CEQA permitting, Agency Coordination, Geotechnical Evaluation, etc.

EXHIBIT F
PROJECT MANAGEMENT SOFTWARE

ELECTRONIC DATA REQUIREMENTS

General Requirements:

a. Lead CONSULTANT and Sub-CONSULTANT'S shall provide at a minimum, the following to its staff:

i. **Computer**: Minimum Intel Pentium® 4 Processor 2.4 GHz or equivalent processor with 512MB of RAM; recommended Centrino Duo® Processors 1.6 GHz or equivalent with 2GB of RAM, or higher.

ii. **Computer Operation System**: Windows XP, Windows Vista, or Windows 7

iii. **Web Browser**: Microsoft Internet Explorer 9

iv. **Work and Spreadsheet Processors**: Microsoft Office Word, Excel and Outlook

v. **Scheduling Software**: Microsoft Project or Primavera

vi. **Internet Service Provider**: A reliable ISP in the area of the Project

vii. **Connection Speed/Minimum Bandwidth**: DSL, ADSL or T1 Line for transferring a minimum of 3 Mbps Downstream and 512 Kbps Upstream

b. Lead CONSULTANT and Sub-CONSULTANT'S shall provide its management personnel assigned to this Project with access to personal computers and the Internet on a daily basis.

Project Web Requirements:

a. This project will utilize a web based project management tool called e-Builder Enterprise™. This web based application is a collaboration tool, which will allow all project team members continuous access through the Internet to important project data as well as up to the minute decision and approval status information.

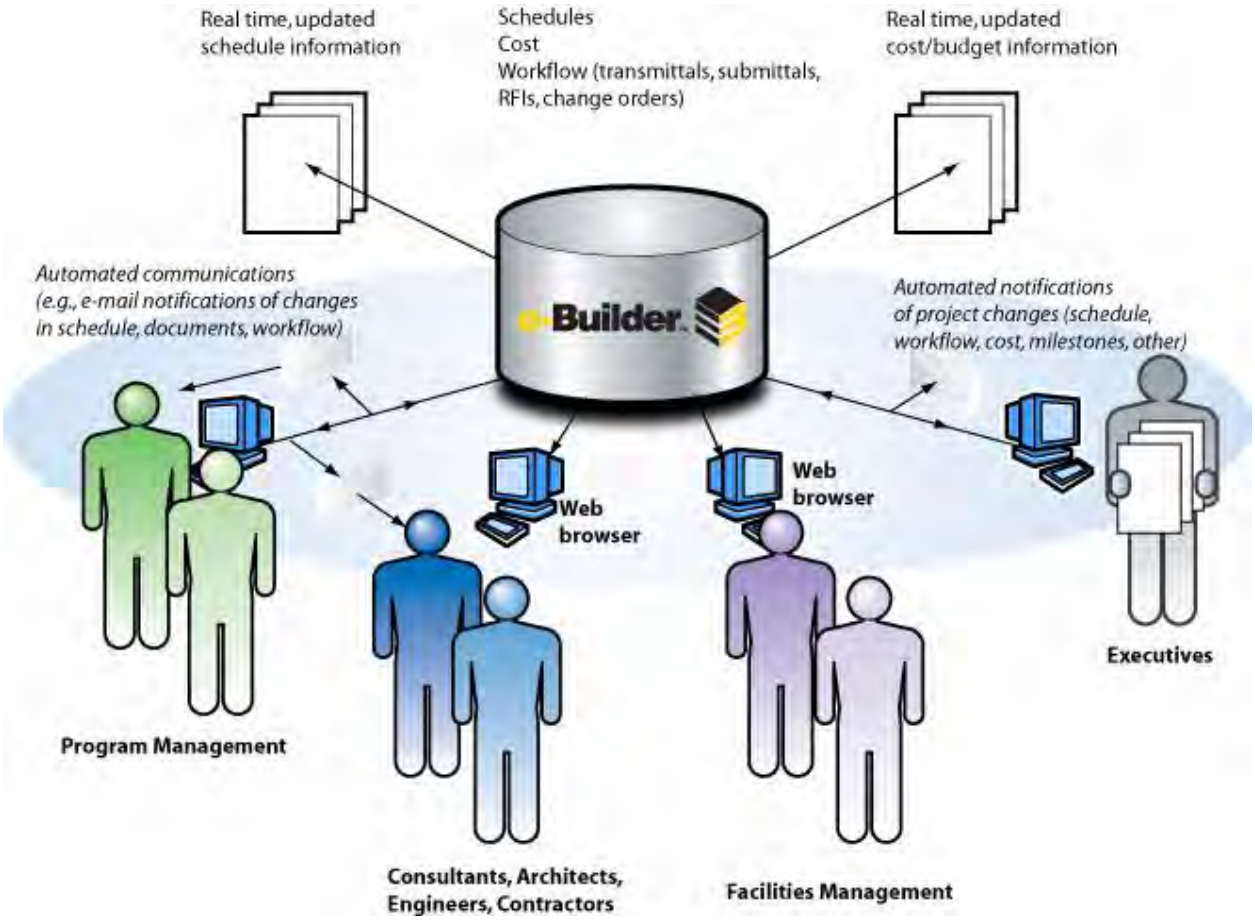
b. Lead CONSULTANT and Sub-CONSULTANT'S shall conduct Project controls, outlined by the Owner, Development Manager, and Construction Manager, utilizing e-Builder Enterprise™. **This designated web based application will be provided by the Lead CONSULTANT to the Sub-CONSULTANT'S**. No additional software will be required. Furthermore, the Development Manager will assist Lead CONSULTANT in providing training of Sub-CONSULTANT's personnel.

c. Lead CONSULTANT and Sub-CONSULTANT'S shall have the responsibility for visiting the Project web site on a daily basis, and as necessary to be kept fully appraised of Project developments, for correspondence, assigned tasks and other matters that transpire on the site. These may include but are not limited to: Contracts, Contract Exhibits, Contract Amendments, Drawing Issuances, Addenda, Bulletins, Permits, Insurance & Bonds, Safety Program Procedures, Safety Notices, Accident Reports, Personnel Injury Reports, Schedules, Site Logistics, Progress Reports, Daily Logs, Non-Conformance Notices, Quality Control Notices, Punch Lists, Meeting Minutes, Requests for Information, Submittal Packages, Substitution Requests, Monthly Payment Request Applications, Supplemental Instructions, Owner Variation Directives, Potential Variation Orders, Variation Order Requests, Variation Orders, and the like. All supporting data including but not limited to shop drawings, product data sheets, manufacturer data sheets and instructions, method statements, safety MSDS sheets, Substitution Requests and the like will be submitted in digital format via e-Builder Enterprise™.

Electronic File Requirements:

a. In addition to the standard closeout submittal requirements detailed elsewhere in the Contract Documents, the Lead CONSULTANT and Sub-CONSULTANT'S shall also submit all closeout documents including all "As-Built Drawings", catalog cuts and Owner's Operation and Maintenance manuals in digital format. All documents (including as-built drawings) shall be converted or scanned into the Abode Acrobat (.PDF) file format and uploaded to e-Builder Enterprise™.

E-BUILDER IMPLEMENTATION REQUIREMENTS



e-Builder Enterprise™ is a comprehensive Project and Program Management system that will be implementing for managing documents, communications and costs between the Lead CONSULTANT, Sub-CONSULTANT'S, Design CONSULTANT'S and Owner. e-Builder Enterprise™ includes extensive reporting capabilities to facilitate detailed project reporting in a web-based environment that is accessible to all parties and easy to use.

Central Document Vault: e-Builder Enterprise™ system includes a central database that maintains all project information and manages project communications amongst team members.

Communication/Correspondence: e-Builder provides electronic routable communication forms that provide historical tracking, documentation, and increased accountability of project members.

Project Calendars: Meetings will be scheduled and maintained centrally on e-Builder Enterprise™

Reporting: All of the project and program data including documents, communications and costs are accessible through integrated online reports. These reporting tools are completely configurable by each user. All reports can be exported to Excel for added flexibility.

E-BUILDER LICENSING REQUIREMENTS

e-Builder Enterprise™ User Licenses: Each user license is for access to the site consisting of unlimited data storage. Users can be direct employees of the Lead CONSULTANT as well as its Sub-CONSULTANT'S and/or Suppliers.

Each user license includes full access to e-Builder Enterprise™ including all of the documents and reports mentioned above. Furthermore, each user license provides the e-Builder software as a service (SaS) including:

- All hosting, operation, maintenance and data back up of the e-Builder Enterprise™ software and documents which are maintained in state-of-the-art data centers located throughout the United States.
- Quarterly e-Builder Enterprise™ software enhancements
- Unlimited phone, email and web based support 24-hours:

e-Builder Enterprise™ user licenses shall be obtained by the Owner, Development Manager, Construction Manager, QA/QC Agencies, and Project Management staff in which the Lead CONSULTANT is not responsible.

25-1031 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT

Action on Amendment No. 1 to the Agreement with HydroScience Engineers, Inc. for Hydraulic Modeling Calibration and Support Services for a Revised Maximum Compensation of $500,000

BACKGROUND

Water and Sewer Utilities ("W&S") utilizes a hydraulic model of the City's water distribution system to evaluate system performance under various operational scenarios. The model provides essential pressure and flow information that supports day-to-day system operations and long-term planning for future capital improvement projects. The implementation of hydraulic modeling has also replaced W&S's previous practice of conducting field fire flow tests, in which staff physically operated fire hydrants to obtain pressure and flow data. By using the hydraulic model to simulate these flow tests, W&S significantly reduces water use, improving the City's water conservation efforts.

On November 14, 2024, the City Manager executed an agreement with HydroScience Engineers, Inc. (HydroScience) following a competitive Request for Proposals process. Consistent with City Code Section 2.105.300(a), which authorizes the City Manager to execute agreements up to $250,000, the agreement provided for an initial five-year term through November 14, 2029, with two one-year renewal options and a maximum compensation of $250,000.

Under the agreement, HydroScience is responsible for reviewing the City's existing InfoWater hydraulic model, updating it based on water infrastructure improvements, calibrating the model as necessary, and performing analyses using the model. The agreement also allows W&S to request as-needed hydraulic modeling analyses, such as fire flow analyses, development impact analyses, and annual model updates.

DISCUSSION

The original $250,000 maximum compensation was based on the effort needed to complete the base scope of work to update and calibrate the City's hydraulic model, totaling $192,500, and the remaining $57,500 allocated for as-needed services.

The base scope includes reviewing and updating the City's InfoWater hydraulic model to ensure it is calibrated and accurately reflects the City's water distribution system's actual operation. This work also includes water age analysis, updating demand projections based on the previous three years of usage, and developing unidirectional flushing program documents. Completion of the updated and calibrated model is expected by June 2026 and is currently within budget.

In addition to the base scope, the agreement authorizes HydroScience to perform as-needed hydraulic modeling services requested by W&S. These services primarily consist of fire flow analyses required by customers to obtain pressure and flow information needed for fire sprinkler system

design. As-needed services also include development impact analysis and annual updates to the hydraulic model. W&S used the original $57,500 allocation to fund these services during the first year while assessing actual demand levels.

W&S has now confirmed an ongoing annual demand of approximately 75 fire flow requests, along with limited additional modeling needs. This service level requires additional funding to meet projected service needs for the remainder of the agreement term. Therefore, staff is requesting City Council approval to amend the agreement with HydroScience to increase the maximum compensation by $250,000, for a revised not-to-exceed amount of $500,000. The additional $250,000 that will allow W&S to continue processing approximately 75 fire flow analyses per year and to complete other as-needed modeling services as required.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

The cost of Amendment No.1 is $250,000 and increases the maximum compensation from $250,000 to $500,000 for the term of the agreement. There is sufficient funding in the Water Utility Fund for Amendment No. 1.

COORDINATION

This report has been coordinated with Water & Sewer Utilities and the City Attorney’s Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City’s website and in the City Clerk’s Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk’s Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Authorize the City Manager or designee to execute Amendment No. 1 to the agreement with HydroScience Engineers, Inc. to increase the maximum compensation by $250,000 for a revised not-to-exceed maximum compensation amount of $500,000, subject to the appropriation of funds, and in a final form approved by the City Attorney; and
2. Authorize the City Manager or designee to take all actions necessary to implement and administer the agreement with HydroScience Engineers, Inc., including negotiating and executing future amendment(s) to add or delete services associated with the services and make de minimis changes, provided that the total maximum compensation is not exceeded, subject to the review and approval as to form by the City Attorney.

Ebix Insurance No. S200002637

AMENDMENT NO. 1
TO THE AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
HYDROSCIENCE ENGINEERS, INC.

PREAMBLE

This agreement ("Amendment No. 1") is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and HydroScience Engineers, Inc., a California corporation (Contractor). City and Contractor may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

A. The Parties previously entered into an agreement entitled "Agreement For Services Between The City of Santa Clara, California and HydroScience Engineers, Inc., dated November 14, 2024 (Agreement); and

B. The Parties entered into the Agreement for the purpose of having Contractor provide hydraulic modeling services, and the Parties now wish to amend the Agreement to increase compensation by two hundred fifty thousand dollars ($250,000) for a revised not-to-exceed amount of five hundred thousand dollars ($500,000).

NOW, THEREFORE, the Parties agree as follows:

AMENDMENT TERMS AND CONDITIONS

1. Section 6 of the Agreement, entitled "COMPENSATION AND PAYMENT" is amended to read as follows:

   In consideration for Contractor's complete performance of Services, City shall pay Contractor for all materials provided and Services rendered by Contractor in accordance with Exhibit B, entitled "SCHEDULE OF FEES". The maximum compensation of this Agreement is Five Hundred Thousand Dollars ($500,000), subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services. All work performed or materials provided in excess of the maximum compensation shall be at Contractor's expense. Contractor shall not be entitled to any payment above the maximum compensation under any circumstance.

2. Except as set forth herein, all other terms and conditions of the Agreement shall remain in full force and effect. In case of a conflict in the terms of the Agreement and this Amendment No. 1, the provisions of this Amendment No. 1 shall control.

The Parties acknowledge and accept the terms and conditions of this Amendment No. 1 as evidenced by the following signatures of their duly authorized representatives.

"CONTRACTOR"

EBIX Insurance No. S200002637

AGREEMENT FOR SERVICES BETWEEN THE CITY OF SANTA CLARA, CALIFORNIA, AND HYDROSCIENCE ENGINEERS, INC

PREAMBLE

This Agreement is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and HydroScience Engineers, a California Corporation (Contractor). City and Contractor may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

A. City desires to secure the services more fully described in this Agreement, at Exhibit A, entitled "Scope of Services";

B. Contractor represents that it, and its subcontractors, if any, have the professional qualifications, expertise, necessary licenses and desire to provide certain goods and/or required services of the quality and type which meet objectives and requirements of City; and,

C. The Parties have specified herein the terms and conditions under which such services will be provided and paid for.

The Parties agree as follows:

AGREEMENT TERMS AND CONDITIONS

1. AGREEMENT DOCUMENTS

The documents forming the entire Agreement between City and Contractor shall consist of these Terms and Conditions and the following Exhibits, which are hereby incorporated into this Agreement by this reference:

Exhibit A – Scope of Services

Exhibit B – Schedule of Fees

Exhibit C – Insurance Requirements

Attachment A - Example forms

Attachment B - 2019 Calibration TM

Attachment C – Pressure Zone Map

Attachment D - Infowater Model Build TM

This Agreement, including the Exhibits set forth above, contains all the agreements, representations and understandings of the Parties, and supersedes and replaces any previous agreements, representations and understandings, whether oral or written. In the event of any inconsistency between the provisions of any of the Exhibits and the Terms and Conditions, the Terms and Conditions shall govern and control.

2. TERM OF AGREEMENT

Unless otherwise set forth in this Agreement or unless this paragraph is subsequently modified by a written amendment to this Agreement, the term of this Agreement is five years beginning on the date City executes this Agreement ("Execution Date") and terminate on the five-year anniversary of the Execution Date. In addition, the City may extend the term of this Agreement by written notice for two one-year periods at its sole discretion.

3. SCOPE OF SERVICES & PERFORMANCE SCHEDULE

Contractor shall perform those Services specified in Exhibit A within the time stated in Exhibit A. Time is of the essence.

4. WARRANTY

Contractor expressly warrants that all materials and services covered by this Agreement shall be fit for the purpose intended, shall be free from defect and shall conform to the specifications, requirements and instructions upon which this Agreement is based. Contractor agrees to promptly replace or correct any incomplete, inaccurate or defective Services at no further cost to City when defects are due to the negligence, errors or omissions of Contractor. If Contractor fails to promptly correct or replace materials or services, City may make corrections or replace materials or services and charge Contractor for the cost incurred by City.

5. QUALIFICATIONS OF CONTRACTOR - STANDARD OF CARE

Contractor represents and maintains that it has the expertise in the professional calling necessary to perform the Services, and its duties and obligations, expressed and implied, contained herein, and City expressly relies upon Contractor's representations regarding its skills and knowledge. Contractor shall perform such Services and duties in conformance to and consistent with the professional standards of a specialist in the same discipline in the State of California.

6. COMPENSATION AND PAYMENT

In consideration for Contractor's complete performance of Services, City shall pay Contractor for all materials provided and Services rendered by Contractor in accordance with Exhibit B, entitled "SCHEDULE OF FEES." The maximum compensation of this Agreement is Two Hundred Fifty Thousand Dollars ($250,000), subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services. All work performed or materials provided in excess of the maximum compensation shall be at Contractor's expense. Contractor shall not be entitled to any payment above the maximum compensation under any circumstance.

7. TERMINATION

A. Termination for Convenience. City shall have the right to terminate this Agreement, without cause or penalty, by giving not less than Thirty (30) days' prior written notice to Contractor.

B. Termination for Default. If Contractor fails to perform any of its material obligations under this Agreement, in addition to all other remedies provided by law, City may terminate this Agreement immediately upon written notice to Contractor.

C. Upon termination, each Party shall assist the other in arranging an orderly transfer and close-out of services. As soon as possible following the notice of termination, but no later than ten (10) days after the notice of termination, Contractor will deliver to City all City information or material that Contractor has in its possession.

8. ASSIGNMENT AND SUBCONTRACTING

City and Contractor bind themselves, their successors and assigns to all covenants of this Agreement. This Agreement shall not be assigned or transferred without the prior written approval of City. Contractor shall not hire subcontractors without express written permission from City.

Contractor shall be as fully responsible to City for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by them, as Contractor is for the acts and omissions of persons directly employed by it.

9. NO THIRD PARTY BENEFICIARY

This Agreement shall not be construed to be an agreement for the benefit of any third party or parties and no third party or parties shall have any claim or right of action under this Agreement for any cause whatsoever.

10. INDEPENDENT CONTRACTOR

Contractor and all person(s) employed by or contracted with Contractor to furnish labor and/or materials under this Agreement are independent contractors and do not act as agent(s) or employee(s) of City. Contractor has full rights to manage its employees in their performance of Services under this Agreement.

11. CONFIDENTIALITY OF MATERIAL

All ideas, memoranda, specifications, plans, manufacturing procedures, data, drawings, descriptions, documents, discussions or other information developed or received by or for Contractor and all other written information submitted to Contractor in connection with the performance of this Agreement shall be held confidential by Contractor and shall not, without the prior written consent of City, be used for any purposes other than the performance of the Services nor be disclosed to an entity not connected with performance of the Services. Nothing furnished to Contractor which is otherwise known to Contractor or becomes generally known to the related industry shall be deemed confidential.

12. OWNERSHIP OF MATERIAL

All material, which shall include, but not be limited to, data, sketches, tracings, drawings, plans, diagrams, quantities, estimates, specifications, proposals, tests, maps, calculations, photographs, reports, designs, technology, programming, works of authorship and other material developed, collected, prepared or caused to be prepared under this Agreement shall be the property of City but Contractor may retain and use copies thereof. City shall not be limited in any way or at any time in its use of said material. However, Contractor shall not be responsible for damages resulting from the use of said material for work other than Project, including, but not limited to, the release of this material to third parties.

13. RIGHT OF CITY TO INSPECT RECORDS OF CONTRACTOR

City, through its authorized employees, representatives or agents shall have the right during the term of this Agreement and for four (4) years from the date of final payment for goods or services provided under this Agreement, to audit the books and records of Contractor for the purpose of verifying any and all charges made by Contractor in connection with Contractor compensation under this Agreement, including termination of Contractor. Contractor agrees to maintain sufficient books and records in accordance with generally accepted accounting principles to establish the correctness of all charges submitted to City. Any expenses not so recorded shall be disallowed by City. Contractor shall bear the cost of the audit if the audit determines that there has been a substantial billing deviation in excess of five (5) percent adverse to the City.

Contractor shall submit to City any and all reports concerning its performance under this Agreement that may be requested by City in writing. Contractor agrees

to assist City in meeting City's reporting requirements to the State and other agencies with respect to Contractor's Services hereunder.

14. HOLD HARMLESS/INDEMNIFICATION

A. To the extent permitted by law, Contractor agrees to protect, defend, hold harmless and indemnify City, its City Council, commissions, officers, employees, volunteers and agents from and against any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and attorney's fees in providing a defense to any such claim or other action, and whether sounding in law, contract, tort, or equity, in any manner arising from, or alleged to arise in whole or in part from, or in any way connected with the Services performed by Contractor pursuant to this Agreement – including claims of any kind by Contractor's employees or persons contracting with Contractor to perform any portion of the Scope of Services – and shall expressly include passive or active negligence by City connected with the Services. However, the obligation to indemnify shall not apply if such liability is ultimately adjudicated to have arisen through the sole active negligence or sole willful misconduct of City; the obligation to defend is not similarly limited.

B. Contractor's obligation to protect, defend, indemnify, and hold harmless in full City and City's employees, shall specifically extend to any and all employment-related claims of any type brought by employees, contractors, subcontractors or other agents of Contractor, against City (either alone, or jointly with Contractor), regardless of venue/jurisdiction in which the claim is brought and the manner of relief sought.

C. To the extent Contractor is obligated to provide health insurance coverage to its employees pursuant to the Affordable Care Act ("Act") and/or any other similar federal or state law, Contractor warrants that it is meeting its obligations under the Act and will fully indemnify and hold harmless City for any penalties, fines, adverse rulings, or tax payments associated with Contractor's responsibilities under the Act.

15. INSURANCE REQUIREMENTS

During the term of this Agreement, and for any time period set forth in Exhibit C, Contractor shall provide and maintain in full force and effect, at no cost to City, insurance policies as set forth in Exhibit C.

16. WAIVER

Contractor agrees that waiver by City of any one or more of the conditions of performance under this Agreement shall not be construed as waiver(s) of any other condition of performance under this Agreement. Neither City's review, acceptance nor payments for any of the Services required under this Agreement

shall be constructed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

17. NOTICES

All notices to the Parties shall, unless otherwise requested in writing, be sent to City addressed as follows:

City of Santa Clara
Attention: Dept. of Water and Sewer
1500 Warburton Avenue
Santa Clara, CA 95050
and by e-mail at *LTAM@santaclaraca.gov

And to Contractor addressed as follows:

HydroScience Engineers, Inc.
90 E. Taylor Street, Suite 200
San Jose, CA 95112
and by e-mail at mhoang@hydroscience.com

The workday the e-mail was sent shall control the date notice was deemed given. An e-mail transmitted after 1:00 p.m. on a Friday shall be deemed to have been transmitted on the following business day.

18. COMPLIANCE WITH LAWS

Contractor shall comply with all applicable laws and regulations of the federal, state and local government, including but not limited to "The Code of the City of Santa Clara, California" ("SCCC"). In particular, Contractor's attention is called to the regulations regarding Campaign Contributions (SCCC Chapter 2.130), Lobbying (SCCC Chapter 2.155), Minimum Wage (SCCC Chapter 3.20), Business Tax Certificate (SCCC Section 3.40.060), and Food and Beverage Service Worker Retention (SCCC Chapter 9.60), as such Chapters or Sections may be amended from time to time or renumbered. Additionally Contractor has read and agrees to comply with City's Ethical Standards (http://santaclaraca.gov/home/showdocument?id=58299).

19. CONFLICTS OF INTEREST

Contractor certifies that to the best of its knowledge, no City officer, employee or authorized representative has any financial interest in the business of Contractor and that no person associated with Contractor has any interest, direct or indirect, which could conflict with the faithful performance of this Agreement. Contractor is familiar with the provisions of California Government Code Section 87100 and

following, and certifies that it does not know of any facts which would violate these code provisions. Contractor will advise City if a conflict arises.

20. FAIR EMPLOYMENT

Contractor shall not discriminate against any employee or applicant for employment because of race, sex, color, religion, religious creed, national origin, ancestry, age, gender, marital status, physical disability, mental disability, medical condition, genetic information, sexual orientation, gender expression, gender identity, military and veteran status, or ethnic background, in violation of federal, state or local law.

21. NO USE OF CITY NAME OR EMBLEM

Contractor shall not use City's name, insignia, or emblem, or distribute any information related to services under this Agreement in any magazine, trade paper, newspaper or other medium without express written consent of City.

22. GOVERNING LAW AND VENUE

This Agreement shall be governed and construed in accordance with the statutes and laws of the State of California. The venue of any suit filed by either Party shall be vested in the state courts of the County of Santa Clara, or if appropriate, in the United States District Court, Northern District of California, San Jose, California.

23. SEVERABILITY CLAUSE

In case any one or more of the provisions in this Agreement shall, for any reason, be held invalid, illegal or unenforceable in any respect, it shall not affect the validity of the other provisions, which shall remain in full force and effect.

24. AMENDMENTS

This Agreement may only be modified by a written amendment duly authorized and executed by the Parties to this Agreement.

25. COUNTERPARTS

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but both of which shall constitute one and the same instrument.

The Parties acknowledge and accept the terms and conditions of this Agreement as evidenced by the following signatures of their duly authorized representatives.

CITY OF SANTA CLARA, CALIFORNIA
a chartered California municipal corporation

Approved as to Form:

"CONTRACTOR"

EXHIBIT A
SCOPE OF SERVICES

SECTION 1. OBJECTIVE

Contractor will provide a fully calibrated InfoWater hydraulic GIS model to be used as a City supplement for in field fire flow testing and evaluate the need for capital improvement projects.

SECTION 2. GENERAL

2.1 Contractor will review the City's existing InfoWater hydraulic model, perform model updates based on water infrastructure improvements, calibrate the model as necessary and perform analysis using the hydraulic model.

2.2 City desires to calibrate the model under steady state to serve as a tool to evaluate fire flow availability of the distribution system. Secondarily, the data generated in model will be used to support capital improvement projects based on changing supply and demand conditions.

2.3 Contractor will provide all resources to complete the projects ensuring that the City of Santa Clara's InfoWater Hydraulic Model is calibrated and ready to be used. After calibration acceptance, Contractor will run the model, and provide documentation that the model generated data reflects the actual operation of the City's water distribution system. Based on the experience and expertise, the Contractor may identify additional tasks or elements needed to meet project goals and such information shall be included in the proposal.

2.4 Contractor is responsible for possessing and acquiring all necessary licenses and permits to perform the work specified herein, including but not limited to InfoWater Pro Software License (Note: Contractor's hydraulic modeling software version must be comparable with InfoWater Version 12.5, which is the version currently used by the City). In addition, Contractor agrees to be compatible with any subsequent InfoWater versions that the City may use during the term of this agreement.

2.5 Throughout this document, references to "Contractor" refer to HydroScience Engineers, Inc.

SECTION 3. PROJECT TASKS

3.1 Project Management

3.1.1 Meetings – Contractor will attend the following meetings at minimum:

3.1.1.1 Project Kickoff Meeting.

3.1.1.2 Model Calibration and Field Data Collection Approach Presentation. This meeting shall be conducted in person at a City of Santa Clara facility.

3.1.1.3 Basis of Design Report (BODR) Presentation.

3.1.1.4 Monthly progress meetings will be virtual) until completion of BODR.

3.2 Existing Model and Data Review

3.2.1 Contractor will review and make necessary corrections of the existing model and data for:

- Accuracy of facility and distribution attributes.
- Accuracy of demand allocation.

3.2.2 City will provide operational parameters and verify the pump on/off settings. Data provided will include all available SCADA data on City water distribution facilities in text (.txt), Excel (.xlsx) or comma delimited format (.csv).

3.3 Calibration Standards and Technical Memorandum

Contractor will:

3.3.1 Provide a Technical Memorandum with the proposed calibration standards for the steady state calibration. In addition, the technical memorandum shall include an overview of the proposed steady state calibration process.

3.3.2 Update and finalize the Technical Memorandum after the model calibration has been completed. The final Technical Memorandum shall include the calibration standards, calibration process, field data, and calibrations performed.

3.3.3 Provide draft and final versions of the Technical Memorandum for City review and comment. The report shall be submitted in MS Word and PDF format.

3.3.4 The hydraulic model was previously calibrated in 2019. See Attachment B for the 2019 Calibration Technical Memorandum.

3.4 Field Data Collection

3.4.1 Contractor will develop a testing plan to collect data for the purpose of model calibration. The testing plan shall be submitted to the City for review. Contractor will coordinate with the City to implement the testing plan over a two-day period. City staff will complete the hydrant tests in accordance with the testing plan and provide the Contractor with applicable facility data for the duration of the hydrant tests. Contractor will assume a minimum of two observation hydrants per hydrant test. Contractor will provide guidance on the exact location and number to data collection points. Below are the minimum requirements for field data collection.

3.4.2 Distribution System Data (Hydrant Flow and Pressure) - The hydrant testing plan shall be conducted at minimum of seven (7) locations in the distribution system Zone 1 and minimum five (5) locations in the distribution system zone 2 and 2A.

3.4.2.1 Tank Level Data – The validation of data shall be conducted at four (4) tank sites and seven storage (7) tanks. This includes data collection for booster stations associated with the tanks.

3.4.2.2 Well Flow and Pressure Data – The validation of data shall be conducted at minimum five (5) well locations in Zone 1, five (5) well locations in Zone 2, and one (1) well location Zone 2A.

3.4.2.3 Note that data loggers, flash drives, and other equipment needed to collect the data shall be supplied by the City. Contractor will define the time and duration of the data collection.

3.5 Model Calibration

3.5.1 Contractor will calibrate the Steady State Model per the calibration standards developed in the Calibration Standards and Plan Technical Memorandum. Since the City's historical Supervisory Control and Data Acquisition (SCADA) information is limited, City staff will engage with Contractor will define acceptable system operational metrics and data, which will then be utilized against the model data to determine if the model results are accurate. The data produced should be representative of the system operations. Contractor will run the hydraulic model to simulate system operations under Steady State Calibration (Contractor will create the necessary scenarios to accomplish the steady state calibration).

3.5.2 The minimum level of accuracy is defined in the table below:

Application	**Hydraulic Grade Line[1]**	**Flow Percent Error[2]**
Master Plan	±10 feet; for all test measurements	±10%
Design	±5 feet; for all test measurements	±5%
Operations	±5 feet; for all test measurements	±5%

1. *Based on AWWA M32 (2018)*
2. *Based on AWWA ECAC (1999)*

3.6 Design Extended Period Scenarios

3.6.1 Contractor will review the appropriate historical data and existing extended period scenarios below and provide recommendations and perform updates as directed by the City.

3.6.1.1 Average Day Demand Scenario.

3.6.1.2 Maximum Day Demand Scenario.

3.6.1.3 Peak Hour Demand Scenario.

3.7 Design Fire Flow Scenario

3.7.1 Utilizing the Maximum day design scenario, Contractor will develop the design fire flow scenario. Contractor will provide results of simulated fire flow exercise as per National Fire Protection Agency (NFPA) 291 requirements in the fire flow module and recommend improvements in the event of fire flow deficiencies. The results of the model must correspond to the fire flow testing requirements as defined under the NFPA 291 practices for testing and reporting.

3.8 Water Quality Analysis and Uni-Directional Flushing Program

3.8.1 Water Quality Analysis

Contractor will perform a water quality analysis to assess water age and water velocities in the system based on the Average Day Demand Extended Period Scenario. The analysis shall identify potential locations in the system where water age or velocities may not meet regulatory requirements or industry standards to develop a Uni-Directional Flushing Program.

3.8.2 Uni-Directional Flushing Program

3.8.2.1 Contractor will develop a comprehensive program based on the Water Quality Analysis and other areas of potential concern identified by the City that will serve as a sequential guide providing operations staff with the order in which flushing should occur, the valves and hydrants necessary to isolate a selection of pipeline, the targeted flow rates and period of flow, and targeted outcomes based on specific issues identified by the City (e.g. color, turbidity, chlorine residual).

3.8.2.2 The hydraulic model will be used to evaluate the target velocities, the necessary flows and time necessary for pipe turnover, and assure minimum pressures are maintained.

3.8.3 Contractor will provide a draft and final report for City review and comment in MS Word and PDF format. The report shall include the criteria used in the water quality analysis, recommended locations for uni-directional flushing and maps identifying the sequencing of valves to be isolated and hydrants to be flushed, target velocities and duration of flushing based on industry standards.

3.9 Water Master Plan Update

3.9.1 The City is currently preparing an update to the Water Master Plan that is scheduled for completion in 2025.

3.9.2 Contractor will update the hydraulic model based on the Water Master Plan including but not limited to the following:

3.9.2.1 System demand projections and scenarios.

3.9.2.2 Develop scenarios for recommended capital improvements.

3.9.3 Upon completion of the updates, Contractor will provide a report summarizing the updates.

3.10 Documentation and Reporting

3.10.1 Contractor will provide a Project Summary Report highlighting the process the project tasks listed in Section 3, ensuring that the model is fully calibrated and ready for use.

3.10.2 Contractor will submit draft and final versions of the Project Summary Reports for City review and comment. Submittals shall be in MS Word and PDF format with clickable table of contents links. Contractor will provide two (2) hard copies (color, bound and tabbed) of the final report(s).

3.10.3 Contractor will conduct meetings/presentations for the Calibration and Field Data Collection Approach and for the final Basis of Design Report. The Calibration and Field Data Collection Approach meeting shall be conducted in person at a City of Santa Clara facility.

3.11 Deliverables:

3.11.1 Hydraulic Model Basis of Design Report (BODR)

3.11.2 The BODR shall include project tasks as described in Section 3.

3.11.3 Water Quality Analysis and Uni-Directional Flushing Report

3.11.4 Water Master Plan Update Report

SECTION 4. AS-NEEDED SERVICES

4.1 Fire Flow Analysis

4.1.1 Contractor will run the hydraulic model as directed by the City using the Design Fire Flow Scenario developed in Section 3.7 to report static and residual pressures.

4.1.2 Contractor will return results no later than 10 working days from date of request.

4.1.3 The City will provide the necessary information to run the analysis including, but not limited to, fire flow demand location(s), fire flow requirements, and duration.

4.1.3.1 It is assumed that this rate accounts for running the analysis once and preparing a report with the static and residual pressures.

4.1.4 The City receives approximately 100 fire flow analysis requests annually.

4.1.5 An example of the forms with information provided to the Contractor is shown in Attachment A.

4.2 Development Impact Analysis

4.2.1 Contractor will run the model using a 24-hour extended period MDD scenario for static and fire flow conditions and provide a recommendation summary for new demand allocations for development projects at capital improvements to address deficiencies on an as needed basis.

4.2.1.1 The City shall provide the Contractor with new demand allocations for commercial or industrial development projects based on assumptions provided by the City. Contractor will update the assets attributes and the potential new demand allocation as directed by the City. The model will be used to validate if the system can support the new development with the minimum fire flow requirements as per City Fire Department.

4.2.1.2 The report shall include figures showing the applied demands and tables presenting static and residual pressures, velocities in adjacent water mains, and status and flow rates from groundwater wells over the 24-hour extended period run.

4.2.1.3 If the model shows fire flow deficiencies, Contractor will include in the report the recommended capital improvements to achieve the minimum fire flow standards.

4.2.2 Contractor will return results no later than 10 working days from date of request.

4.2.3 The City receives approximately 15 Development Impact Analysis requests annually.

4.2.4 An example of the information provided to the Contractor and example report from Contractor is shown in Attachment A.

4.3 Annual Model Updates

4.3.1 Contractor will provide on-going support services for hydraulic model updates on an annual basis or as directed by the City for the length of the agreement.

4.3.2 The current hydraulic model uses InfoWater version 12.5. Contractor will migrate the hydraulic model to InfoWater Pro during the first annual model update or as required.

4.3.3 The City will provide the Contractor GIS shapefiles with the updated water system infrastructure.

4.3.4 Contractor will provide support services to update the hydraulic model because of newly installed capital improvement project or changing field operations. The model is assumed to need updating on an annual basis corresponding demand allocations and supply upgrades. Model updates include, but are not limited to, the following:

- Piping improvements: It is anticipated that the volume of annual distribution system upgrades range from 10,000 to 15,000 feet of main added and/or replaced.
- Supply improvements.
- Abandonment of facilities.
- System demands and demand scenarios.

4.3.5 Contractor will provide a report documenting changes made to the model upon completion of each annual model update cycle.

SECTION 5. OPTIONAL TASKS

5.1 Special Projects

5.1.1 Contractor will provide on-going support services for special projects. Contractor will provide a recommendation summary after the special project simulation.

5.1.1.1 On an as-needed basis directed by the Project Manager, provide hydraulic modeling services for specialty projects. Specialty project may involve changing model conditions, running the model under different simulation options, receiving and interpreting results, providing capital improvement recommendations as needed, and supporting master plan development. Upon completion of the specialty project analysis, Contractor will provide a report documenting the finding and providing a recommendation.

5.2 Water Quality Analysis

5.2.1 Contractor will perform a water quality analysis such as water age, chemical residue, disinfection byproduct, monitoring, tracer studies, and the like will be completed as requested by the City. All analysis shall be accompanied by a recommendation summary.

5.3 GIS Water System Updates

5.3.1 Contractor will perform annual updates to the City's GIS water system database for updates to the water infrastructure such as: pipe replacements or upgrades, active well status, and addition or abandonment of water infrastructure or appurtenances. The City will provide the Contractor PDF utility maps with redlines showing the location and type of infrastructure update(s).

5.3.2 It is anticipated that the volume of annual distribution system upgrades range from 10,000 to 15,000 feet of main added and/or replaced.

5.3.3 The City utilizes Lucity for asset management which is integrated with the City's enterprise GIS water system. All updates to the GIS system will need to using Lucity tools in ArcGIS to preserve integration with Lucity.

5.3.4 The Contractor may perform the GIS updates locally on a City computer or through a VPN connection to a City computer. Contractor will be required to coordinate with the City's IT to obtain access credentials.

5.3.5 The City uses ArcGIS version 10.8.2 and Lucity version 20.1SP0. However, the Contractor can expect these applications will be upgraded to ArcGIS Pro and the latest Lucity version.

5.4 Staff Training

5.4.1 Contractor will provide staff training specific to the needs of the City to be held at the City of Santa Clara. Items must include but are not limited to:

5.4.1.1 Model updating for new capital improvement projects.

5.4.1.2 Model updating for demand allocation.

5.4.1.3 Running the model under different demand scenarios.

5.4.1.4 Running the model under steady state versus extended simulation.

5.4.1.5 Running additional extended modules such are fire flow and water quality modules.

5.4.1.6 Reviewing model reporting tools and displays.

5.4.1.7 Removal and addition of pressure zones.

5.4.1.8 And other items to be covered as determined to be necessary by the City and the Contractor.

5.4.2 Contractor will provide hardcopies of the training material. City to provide training facility, computer, and fully functional software needed for each participant.

SECTION 6. GENERAL

6.1 All tasks described in Section 3 of this Exhibit A, Scope of Services, will be completed within the initial 12 months of contract execution.

6.2 Schedules

6.2.1 Contractor will prepare Gantt chart schedules for Project Tasks listed in this Section 3. Schedule shall show major subtasks and estimated durations. Schedule shall be updated as necessary during monthly progress meetings.

EXHIBIT B
SCHEDULE OF FEES

Tasks	Unit of Measure	Estimated Quantity	Unit Cost	Total
Project Tasks				
Project Management	LS	1	$40,000	$40,000
Existing Model and Data Review	LS	1	$5,600	$5,600
Calibration Standards and TM	LS	1	$10,200	$10,200
Field Data Collection	LS	1	$13,800	$13,800
Model Calibration	LS	1	$49,000	$49,000
Design Extended Period Scenarios	LS	1	$14,500	$14,500
Design Fire Flow Scenario	LS	1	$8,000	$8,000
Water Quality Analysis and Uni-Directional Flushing Program	LS	1	$34,400	$34,400
Water Master Plan Update	LS	1	$17,000	$17,000
		PROJECT TASK TOTAL		**$192,500**
As Needed Services				
Fire Flow Services - SFR Fire Flow Services – Non SFR	EA EA		$640 $1,085	
Development Impact Analysis	EA		$1,200	
Annual Model Updates	EA		$15,000	
Optional Tasks				
Special Projects	Contractor will provide a cost estimate upon each task request			
Water Quality Analysis	Contractor will provide a cost estimate upon each task request			
GIS Water System Updates	EA		$12,000	
Staff Training	LS		$12,500	

Note: LS = lump sum.

The unit prices for "As Needed Services" above shall be fixed for the initial year (twelve months) of the agreement. After the first year, Contractor may request price increase(s) subject to approval by the City. Any price increase shall not exceed the annual percentage increase of the Consumer Price Index (CPI) for All Urban Consumers (1987 base year) for the San Francisco Bay Area Region. For purposes of calculating the percentage change, the annual index used will be closest to the month in which the increase is approved, compared with the index for the same month for the previous year. For example, if a price increase is approved in March, then the increase will be calculated based on the CPI index closest to the month of the increase, compared with the same month from the prior year.

All other pricing shall be fixed for the initial five year term of the agreement.

No guarantee is made or implied as to the actual quantities that will be required throughout the term of the Agreement.

1. City will pay invoices monthly, in arrears, after successful completion of each milestone as listed under Project Tasks in the table above.

2. As needed and optional tasks will be paid pursuant to the prices listed in Exhibit B above.

3. The invoice must include sufficient detail to enable the City to reconcile the charges with the Schedule of Fees in the Table above. City and Contractor will establish an invoice format prior to Contractor submitting their initial invoice.

4. Invoices shall be submitted using the City's project management software, "e-Builder." An e-Builder user account will be provided to the selected Contractor by the City.

REPORT TO COUNCIL

SUBJECT

Action to Authorize the City Manager to execute Amendment No. 2 to an Agreement with Claris Strategy Inc. to Provide Additional Electric Utility Security Consulting Services for Silicon Valley Power, for a Total Not-to-Exceed Compensation of $489,088

BACKGROUND

In 2014, California Senate Bill 699 was adopted in response to the 2013 Metcalf Substation attack. The bill directed the California Public Utilities Commission (CPUC) to establish regulations to enhance the physical security of electrical distribution systems.

In January 2019, the CPUC issued Decision 19-01-018 establishing physical security requirements for California investor-owned utilities in California. The decision also purported to extend its reach to publicly owned utilities (POUs) such as Silicon Valley Power (SVP). Although the CPUC Decision's application to POUs is an overextension of CPUC jurisdiction and regulatory power, SVP and other publicly owned utilities have good reason to voluntarily participate in the program in that it will assist SVP and other utilities to keep up with industry standards with regard to physical security.

Under this decision, electric utilities are required to develop a comprehensive physical security plan for its electric systems, have the plan reviewed by a third party, and submit the plan to the CPUC for review and acceptance by July 10, 2021. SVP completed and submitted its Utility Security Plan in 2021, and the plan was subsequently reviewed and accepted by the CPUC.

The CPUC also requires utilities to review and update their physical security plans every five years. Accordingly, SVP's next update is due to the CPUC by August 10, 2026.

To assist with its participation in the program, SVP initiated a competitive solicitation to retain a qualified consultant to perform a Threat and Vulnerability Assessment (TVA), prepare standard security designs for future substations, and update SVP's 2021 Utility Security Plan. The plan covers thirty-nine (39) SVP facilities, including the Donald Von Raesfeld, Gianera Generation Station, and multiple substations.

DISCUSSION

Consultant Selection and Initial Agreement

Pursuant to Section 2.105.140 of the City of Santa Clara Code (City Code), a formal Request for Proposals (RFP) was conducted, with the award recommendation based on "best value."

Staff published the RFP for Consulting Services for Electric Utility Security on the City's e-

procurement system. Six responsive proposals were received from the following firms:

- 4Liberty, Inc.
- AESI-US, Inc.
- CelPlan Wireless Global Solutions
- Salas O'Brien
- Claris Strategy Inc.
- TRC Solutions, Inc.

A five-member evaluation panel reviewed and scored the proposals based on the evaluation criteria and weights published in the RFP, including experience, technical capability, and cost. Following the evaluation, the panel determined that the proposal from Claris Strategy Inc. (Claris) provided the best value and fully met the requirements of the RFP.

In accordance with Section 2.105.300(a) of the City Code, the City Manager is authorized to execute purchase orders and agreements on behalf of the City in amounts up to and including two hundred fifty thousand dollars ($250,000.00). On July 28, 2025, the City Manager executed an agreement with Claris in the amount of $246,352 for a term of two years, beginning on August 1, 2025.

U.S. Department of Homeland Security, Cyber & Infrastructure Agency (CISA) Findings (Amendment No. 1)

On July 8, 2025, the City Council adopted Resolution No. 25-9463 to authorize the City Manager to amend existing agreements, as necessary, to add services that address urgent security risks and vulnerabilities identified by the U.S. Department of Homeland Security, Cyber & Infrastructure Agency. Under this authority, SVP engaged Claris to develop an Event Specific Security Plan (ESSP) for its critical facilities in preparation for upcoming international events in 2026. On October 28, 2025, the City Manager executed Amendment No. 1 with Claris in the amount of $128,887, increasing the total compensation to $375,239. This amendment did not require further City Council action because it was covered under the authority granted by Resolution No. 25-9463.

CPUC-Related Additional Scope (Proposed Amendment No. 2)

Following further review of the original scope of work for the TVA and updated Utility Security Plan, SVP staff determined that five additional sites should be incorporated into agreement:

- Cogen Power Plant #1
- Space Park Interconnection Station
- Office and Storage Facilities at 881 Martin Avenue
- Municipal Services Yard at 1705 Martin
- 60 kV Storage Yard

Because most of these sites are not directly related to the CISA findings, the work does not fall under the emergency authority of Resolution No. 25-9463. The cost for these additional services is $33,849, bringing the total for the original CPUC-related scope to $280,201.

As this total now exceeds the City Manager's approval limit of $250,000 under Section 2.105.300(a) of the City Code, City Council approval is required. With Amendments No. 1 and No. 2 (including both CPUC- and CISA-related scope), the total contract amount is $409,088, plus a 20% contingency of $80,000, for a total not-to-exceed compensation of $489,088. Compensation under the agreement is based on fixed fees tied to the specific deliverables outlined in the scope of work.

ENVIRONMENTAL REVIEW

The actions being considered do not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to Section 15061(b)(3) of Title 14 of the California Code of Regulation in that it can be seen with certainty that there is no possibility that the proposed actions may have a significant effect on the environment as they sole involve the preparation of an updated Utility Security Plan. Any capital improvements which the plan may recommend will require additional environmental analysis.

FISCAL IMPACT

The maximum compensation under the proposed Agreement with Claris is $489,088. Sufficient funds are available in the Substation Physical Security Improvement project budget in the Electric Utility Capital Fund.

COORDINATION

This report has been coordinated with the Finance Department and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Authorize the City Manager or designee to execute Amendment No. 2 to the Agreement with Claris Strategy Inc. for the Threat and Vulnerability Assessment and updated Utility Security Plan, with a maximum compensation of $409,088, to be funded by the Electric Utility Capital Fund, subject to final review and approval as to form by the City Attorney; and
2. Authorize the City Manager or designee to take any actions necessary to implement and administer the agreement with Claris Strategy Inc., and negotiate and execute future amendment (s) to (a) add or delete services associated with the services, (b) extend the term as needed to complete the project, (c) increase the maximum compensation by approximately 20% for contingencies for a revised not-to-exceed amount of $489,088, and (d) make de minimis changes, subject to the final review and approval as to form by the City Attorney.

AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
CLARIS STRATEGY INC.

PREAMBLE

This Agreement is made and entered into on the date last signed by the Parties ("Effective Date") between the City of Santa Clara, California, a chartered California municipal corporation (City) and Claris Strategy a California corporation, (Consultant). City and Consultant may be referred to individually as a "Party" or collectively as the "Parties."

RECITALS

A. City desires to secure the services ("Services") more fully described in this Agreement, in Exhibit A, entitled "Scope of Services";

B. Consultant represents that it, and its subcontractors, if any, have the professional qualifications, expertise, necessary licenses and desire to provide certain goods and/or required Services and goods of the quality and type which meet objectives and requirements of City; and,

C. The Parties agree that Consultant will perform the Services under the terms and conditions set forth in this Agreement.

NOW, THEREFORE, for and in consideration of the mutual promises, covenants, and conditions herein contained, the Parties hereto agree as follows:

AGREEMENT TERMS AND CONDITIONS

1. AGREEMENT DOCUMENTS

The documents forming the entire Agreement between City and Consultant shall consist of these Terms and Conditions and the following Exhibits, which are hereby incorporated into this Agreement by this reference:

Exhibit A – Scope of Services

Exhibit B – Schedule of Fees and Payment Provisions

Exhibit C – Insurance Requirements

This Agreement, including the Exhibits set forth above, contains all the agreements, representations and understandings of the Parties, and supersedes

and replaces any previous agreements, representations and understandings, whether oral or written. In the event of any inconsistency between the provisions of any of the Exhibits and the Terms and Conditions, the Terms and Conditions shall govern and control.

2. TERM OF AGREEMENT

A. Unless otherwise set forth in this Agreement or unless this paragraph is subsequently modified by written amendment to this Agreement, the term of this Agreement shall begin on August 1, 2025, and terminate on July 31, 2027 ("Initial Term").

B. After the Initial Term, City reserves the right, at its sole discretion, to extend the term of this Agreement for one (1) additional year through July 31, 2028 ("Option Periods") in such increments as determined by City. The Option Periods shall be authorized through an Amendment to this Agreement executed by the Parties. The Initial Term and Option Periods shall collectively be referred to as "Term".

3. SCOPE OF SERVICES AND PERFORMANCE SCHEDULE

Consultant shall perform those Services specified in Exhibit A within the time stated in Exhibit A. Time is of the essence.

4. WARRANTY

In addition to those warranties contained in Exhibit A, Consultant expressly warrants that all Services and materials covered by this Agreement shall be fit for the purpose intended, shall be free from defect and shall conform to the specifications, requirements and instructions applicable to this Agreement. Consultant agrees to promptly replace or correct any incomplete, inaccurate or defective Services or materials at no further cost to City when defects are due to the negligence, errors or omissions of Consultant. If Consultant fails to promptly correct or replace Services or materials, City may make corrections or replace Services or materials and charge Consultant for the cost incurred by City.

5. QUALIFICATIONS OF CONSULTANT - STANDARD OF CARE

A. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services, including its duties and obligations, expressed and implied, contained herein. Consultant shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. City expressly relies upon Consultant's representations regarding its skills and knowledge.

B. Consultant warrants that all employees and subcontractor, if any, shall have sufficient skill and experience to perform the Services assigned to them.

C. Consultant shall comply with all applicable federal, state and local laws in the performance of the Services; including but not limited to those of the Occupational Safety and Health Administration (OSHA) and the California Department of Industrial Relations and State Division of Industrial Safety and the professional standard of care. Where any applicable laws or ordinances conflict with the City's requirements, the more stringent requirement(s) shall be followed. Consultant's failure to be thoroughly familiarized with the provisions of any applicable federal, state, and local regulations, ordinances and codes shall not relieve Consultant from compliance with the obligations and penalties resulting therefrom.

D. Consultant represents and warrants to the City that it has, shall obtain, and shall keep in full force in effect during the Term hereof, at its sole cost and expense, all licenses, permits, qualifications, insurance and approvals of whatsoever nature that is legally required of Consultant to practice its profession and to perform Services.

6. COMPENSATION AND PAYMENT

In consideration for Consultant's complete performance of Services, City shall pay Consultant for all Services rendered and material provided by Consultant in accordance with Exhibit B, entitled "SCHEDULE OF FEES AND PAYMENT PROVISIONS." The maximum compensation of this Agreement is **TWO HUNDRED FORTY-SIX THOUSAND THREE HUNDRED FIFTY-TWO DOLLARS ($246,352),** subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services including any taxes. All Services performed or supplies, materials and equipment provided in excess of the maximum compensation shall be at Consultant's expense. Consultant shall not be entitled to any payment above the maximum compensation under any circumstance.

7. TERMINATION

A. Termination for Convenience. City shall have the right to terminate this Agreement, without cause or penalty, by giving not less than Thirty (30) days' prior written notice to Consultant.

B. Termination for Default. For purposes of this Section 7.B., the word "Default" shall mean the failure of Consultant to perform any of Consultant's duties or obligations or the breach by Consultant of any of the terms and conditions set forth in this Agreement. In addition, Consultant shall be deemed to be in Default upon Consultant (i) applying for, consenting to, or suffering of, the appointment of a receiver, trustee or liquidator for all or a

substantial portion of its assets; (ii) making a general assignment for the benefit of creditors; (iii) being adjudged bankrupt; (iv) filing a voluntary petition or suffering an involuntary petition under any bankruptcy, arrangement, reorganization or insolvency law (unless in the case of an involuntary petition, the same is dismissed within thirty (30) days of such filing); or (v) suffering or permitting to continue unstayed and in effect for fifteen (15) consecutive days any attachment, levy, execution or seizure of all or a substantial portion of Consultant's assets or of Consultant's interests hereunder. In the event of any Default by Consultant, in addition to all other remedies provided by law, City may terminate this Agreement immediately upon written notice to Consultant.

C. Upon termination, each Party shall assist the other in arranging an orderly transfer and close-out of services. As soon as possible following the notice of termination, but no later than ten (10) days after the notice of termination, Consultant will deliver to City all City information or material that Consultant has in its possession.

D. In the event of termination under sections 7.A. or 7.B., Consultant shall have no further rights hereunder

8. ASSIGNMENT AND SUBCONTRACTING

City and Consultant bind themselves, their successors and assigns to all covenants of this Agreement. This Agreement shall not be assigned or transferred without the prior written approval of City. Consultant shall not hire subcontractors without express written permission from City.

Consultant shall be as fully responsible to City for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by them, as Consultant is for the acts and omissions of persons directly employed by it.

9. NO THIRD PARTY BENEFICIARY

This Agreement shall not be construed to be an agreement for the benefit of any third party or parties and no third party or parties shall have any claim or right of action under this Agreement for any cause whatsoever.

10. INDEPENDENT CONTRACTOR

Consultant and all person(s) employed by or contracted with Consultant to furnish labor and/or materials under this Agreement are independent contractors and do not act as agent(s) or employee(s) of City. Consultant has full rights to manage its employees in their performance of Services under this Agreement.

11. CONFIDENTIALITY OF MATERIAL

A. "Confidential Information" means, with respect to a Party hereto, all information or material which either (1) is marked or identified as "Confidential," "Restricted," or "Proprietary Information" or other similar marking or identification, or (2) the other Party knew, as recipient, or under the circumstances, should have known, was considered confidential or proprietary by the Disclosing Party (as defined below), except that this Agreement, Consultant pricing, and Consultant proposals incorporated into this Agreement shall not be deemed Confidential Information. Confidential Information shall consist of all information, whether in written, oral, electronic, or other form, furnished in connection with this Agreement by the Disclosing Party or its Representatives ("Representative" is defined as any elected and appointed officials, affiliate, director, officer, employee, agent, advisor or Consultant of a Party or any of its subsidiaries or affiliates) to the Receiving Party (as defined below) or to its Representatives, and specifically includes but is not limited to the City's individually identifiable customer information, and the City's customer usage data and financial data.

B. Consultant and the City shall each hold the other's Confidential Information in confidence. Neither Party shall make the other's Confidential Information available in any form to any third party or use the other's Confidential Information for any purpose other than as specified in this Agreement. The Party providing Confidential Information ("Disclosing Party") to the other Party ("Receiving Party") shall remain the sole owner of such information. Except as provided elsewhere within this Agreement, nothing contained in this Agreement shall be construed as granting or conferring any right or license in any Confidential Information or in any patents, copyrights, software or other technology, either expressly or by implication to the Receiving Party, or to its Representatives or to others. The term Confidential Information shall not include any of the following: (1) information already in possession of, or already known to, the Receiving Party as of the Effective Date without an obligation of confidentiality; (2) information in the public domain at the time of the disclosure, or which, after such disclosure, enters into the public domain through no breach of this Agreement by the Receiving Party or its Representative(s); (3) information lawfully furnished or disclosed to the Receiving Party by a non-party to this Agreement without any obligation of confidentiality and through no breach of this Agreement by the Receiving Party or its Representative(s); (4) information independently developed by the Receiving Party without use of any Confidential Information of the Disclosing Party; (5) information authorized in writing by the Disclosing Party to be released from the confidentiality obligations herein; or (6) this Agreement and Consultant's proposals.

C. By virtue of this Agreement, each Party hereto may disclose to the other Party information that is Confidential Information. This Agreement does not diminish, revoke or supersede any existing confidentiality, non-disclosure or similar agreement between the Parties that does not pertain to the subject matter of this Agreement. However, any Confidential Information, whether or not previously disclosed, that pertains to the subject matter of this Agreement shall be governed by the terms of this Section 11 which shall supersede any such previous agreement with respect to such Confidential Information and any Confidential Information relating to the subject matter of this Agreement that was exchanged under such previous agreement shall be treated as though it was exchanged under this Agreement as of the date of such exchange.

D. The Receiving Party will treat all Confidential Information of the Disclosing Party, no matter written, electronic, or oral, as confidential and proprietary, and the Receiving Party shall only use such information in furtherance of this Agreement. As such, the Receiving Party shall hold in confidence the Confidential Information of the Disclosing Party and ensure that such Confidential Information is not disclosed to any other person or entity, except as expressly permitted by this Agreement or as authorized in writing by the Disclosing Party. The Receiving Party shall not disclose Confidential Information of the Disclosing Party received under this Agreement to any person other than its Representatives who require knowledge of such Confidential Information in furtherance of this Agreement. The Receiving Party shall inform its Representatives of the confidential nature of the Confidential Information of the Disclosing Party and advise such Representatives of the limitations on the use and disclosure and prohibition on making copies or summaries of such Confidential Information. The Receiving Party shall be responsible for any breach of this Agreement by its Representatives. Neither Party shall use the Confidential Information of the other Party for any commercial purpose.

E. If the Receiving Party becomes legally compelled (by oral questions, interrogatories, request for information or documents, subpoena, civil investigative demand, or similar process) to disclose any Confidential Information of the Disclosing Party or is requested Confidential Information pursuant to the California Public Records Act or similar law, the Receiving Party will provide the Disclosing Party with written notice of such an occurrence (if so permitted) as soon as possible. Thereafter, at its sole costs and expense, the Disclosing Party may seek a protective order or other appropriate remedy or waive compliance with the provisions of this Agreement. If the disclosing Party (i) waives compliance, (ii) fails to respond to the Receiving Party within five (5) business days, or (iii) after providing the notice and assistance required under this Section, the Receiving Party remains required by law to disclose any Confidential Information, the

Receiving Party shall disclose only that portion of the Confidential Information that the Receiving Party is legally required to disclose. So long as it is consistent with applicable law, the Receiving Party will not oppose action by, and the Receiving Party will cooperate with, the Disclosing Party, at the Disclosing Party's sole cost and expense, to obtain an appropriate protective order or other reliable assurance that confidential treatment will be accorded the Confidential Information. If the Disclosing Party fails to obtain such protective order or other remedy, or if the Disclosing Party waives compliance with the requirements of the preceding sentence, the Receiving Party will disclose only that Confidential Information that it is legally required to disclose, and will exercise commercially reasonable efforts, at Disclosing Party's expense, to obtain reliable assurance that confidential treatment will be accorded the Confidential Information so disclosed.

F. In the event the Receiving Party discloses, disseminates or releases any Confidential Information, except as expressly permitted by this Agreement, such disclosure, dissemination or release will be deemed a material breach of this Agreement and the Disclosing Party may demand prompt return of all Confidential Information previously provided to the Receiving Party. As soon as the Receiving Party becomes aware that it has made an unauthorized disclosure of Confidential Information, the Receiving Party shall take any and all necessary actions to recover the improperly disclosed Confidential Information and immediately notify Disclosing Party regarding the nature of the unauthorized disclosure and the corrective measures being taken. Each Party agrees that any breach of their confidentiality obligations could cause irreparable harm to the other Party, the amount of which would be extremely difficult to estimate. Accordingly, it is understood and agreed that monetary damages would not be a sufficient remedy for any material breach of this Agreement and that specific performance and injunctive relief in addition to monetary damages shall be appropriate remedies for any breach or any threat of such breach. The provisions of this Paragraph are in addition to any other legal rights or remedies the Disclosing Party may have.

G. Within two (2) weeks of the termination of this Agreement, Consultant will return to the City or destroy, to the extent permitted by law, any and all Confidential Information, including all originals, copies, translations, transcriptions or any other form of material, without retaining any copy or duplicate thereof; provided that Consultant may retain Confidential Information contained on backup media created in the ordinary course of business provided further that there is no effort to access such Confidential Information and Consultant's confidential obligations with respect to such information shall continue so long as such information is retained. Consultant shall certify in writing the destruction of the Confidential

Information. The City may perform an audit of Consultant's records to confirm the return or destruction of the Confidential Information. The City shall have this audit right for two (2) years after the termination of this Agreement.

H. Notwithstanding the termination of this Agreement, this Confidentiality Section shall survive the expiration or earlier termination of this Agreement.

12. OWNERSHIP OF MATERIAL

A. City shall furnish to Consultant such documents and materials as may be relevant and pertinent to the provision of Services hereunder as City may possess or acquire.

B. All documents and materials furnished by City to Consultant, pursuant to Section 12.A., shall remain the property of City and shall be returned to City upon termination of this Agreement, for any reason. All documents or material prepared or caused to be prepared by Consultant, its officers, employees, agents and subcontractors, in the course of implementing this Agreement, shall be considered works made for hire and shall become the exclusive property of the City, and City shall have the sole right to use such documents and materials without restriction or limitation on their use in City's discretion without further compensation to Consultant or any other party. Consultant shall, at Consultant's sole cost and expense, provide such documents and material to City upon written request.

C. Documents and material prepared by Consultant, pursuant to this Agreement, are not intended or represented to be suitable for reuse by City or others on any other project. Any use of completed documents for other projects and any use of incomplete documents without specific written authorization from Consultant will be at City's sole risk and without liability to Consultant. Further, any and all liability arising out of changes made to Consultant's deliverables under this Agreement by City or persons other than Consultant, is waived against Consultant and City assumes full responsibility for such changes unless City has given Consultant prior notice and has received from Consultant written consent for such change.

13. RIGHT OF CITY TO INSPECT RECORDS OF CONSULTANT

A. City, through its authorized employees, representatives or agents shall have the right during the Term and for four (4) years from the date of final payment for Services or goods provided under this Agreement ("Audit Period"), to audit the books and records of Consultant for the purpose of verifying any and all Consultant invoices and charges.

B. Consultant shall keep records and invoices in connection with the Services for the length of the Audit Period. Consultant agrees to maintain sufficient books and records in accordance with generally accepted accounting principles to establish the correctness of all charges submitted to City.

C. Consultant shall use recognized accounting methods in preparing reports and invoices submitted to the City in connection with the Services. City reserves the right to designate its own employee representative(s) or its contracted representative(s) with a certified public accounting firm who shall have the right to audit Consultant's accounting procedures and internal controls of Consultant's financial systems and to examine any cost, revenue, payment, claim, other records or supporting documentation resulting from any items set forth in this Agreement. If Consultant fails to provide supporting documentation satisfactory to City for costs charged, then Consultant agrees to reimburse City for those costs. Any such audit(s) shall be undertaken by City or its representative(s) at reasonable times and in conformance with generally accepted auditing standards. Consultant agrees to fully cooperate with any such audit(s).

D. Consultant will be notified in writing of any exception taken as a result of an audit. Any adjustments and/or payments which must be made as a result of any such audit or inspection of Consultant's invoices and/or records shall be made within thirty (30) days from presentation of City's findings to Consultant. If Consultant fails to make such payment, Consultant agrees to pay interest, accruing monthly, at a rate of ten percent (10%) per annum unless another section of this Agreement specifies a higher rate of interest, then the higher rate will prevail. Interest will be computed from the date of written notification of exception(s) to the date Consultant reimburses City for any exception(s). If an audit inspection or examination in accordance with this Section discloses overcharges (of any nature) by Consultant to City in excess of one percent (1%) of the value of that portion of the Agreement that was audited, the actual cost of City's audit shall be reimbursed to City by Consultant.

E. Consultant shall submit to City any and all reports concerning its performance under this Agreement that may be requested by City in writing. Consultant agrees to assist City in meeting City's reporting requirements to the State and other agencies with respect to the Services.

14. HOLD HARMLESS/INDEMNIFICATION

A. To the extent permitted by law, Consultant agrees to protect, defend, hold harmless and indemnify City, its City Council, commissions, officers, employees, volunteers and agents from and against any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and attorney's fees in providing a defense to any such claim or other action, and

whether sounding in law, contract, tort, or equity, in any manner arising from, or alleged to arise in whole or in part from, or in any way connected with the Services performed by Consultant pursuant to this Agreement – including claims of any kind by Consultant's employees or persons contracting with Consultant to perform any portion of the Services – and shall expressly include passive or active negligence by City connected with the Services. However, the obligation to indemnify shall not apply if such liability is ultimately adjudicated to have arisen through the sole active negligence or sole willful misconduct of City; the obligation to defend is not similarly limited.

B. Consultant's obligation to protect, defend, indemnify, and hold harmless in full City and City's employees, shall specifically extend to any and all employment-related claims of any type brought by employees, contractors, subconsultants, subcontractors or other agents of Consultant, against City (either alone, or jointly with Consultant), regardless of venue/jurisdiction in which the claim is brought and the manner of relief sought.

C. To the extent Consultant is obligated to provide health insurance coverage to its employees pursuant to the Affordable Care Act ("Act") and/or any other similar federal or state law, Consultant warrants that it is meeting its obligations under the Act and will fully indemnify and hold harmless City for any penalties, fines, adverse rulings, or tax payments associated with Consultant's responsibilities under the Act.

15. INSURANCE REQUIREMENTS

During the Term, and for any time period set forth in Exhibit C, Consultant shall provide and maintain in full force and effect, at no cost to City, insurance policies as set forth in Exhibit C.

16. WAIVER

Consultant agrees that waiver by City of any one or more of the conditions of performance under this Agreement shall not be construed as waiver(s) of any other condition of performance under this Agreement. Neither City's review, acceptance nor payments for any of the Services required under this Agreement shall be constructed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

17. NOTICES

All notices to the Parties shall, unless otherwise requested in writing, be sent to City addressed as follows:

City of Santa Clara
Attention: Silicon Valley Power
1500 Warburton Avenue
Santa Clara, CA 95050
and by e-mail at svpcontracts@santaclaraca.gov and manager@santaclaraca.gov

And to Consultant addressed as follows:

Claris Strategy Inc.
Attn: William Lim
1111 Drake Road
Arcadia, CA 91007
and by e-mail at wlim@clarisstrategy.com

The workday the e-mail was sent shall control the date notice was deemed given. An e-mail transmitted after 1:00 p.m. on a Friday shall be deemed to have been transmitted on the following business day.

18. COMPLIANCE WITH LAWS

Consultant shall comply with all applicable laws and regulations of the federal, state and local government, including but not limited to "The Code of the City of Santa Clara, California" ("SCCC"). In particular, Consultant's attention is called to the regulations regarding Campaign Contributions (SCCC Chapter 2.130), Lobbying (SCCC Chapter 2.155), Minimum Wage (SCCC Chapter 3.20), Business Tax Certificate (SCCC section 3.40.060), and Food and Beverage Service Worker Retention (SCCC Chapter 9.60), as such Chapters or Sections may be amended from time to time or renumbered. Additionally Consultant has read and agrees to comply with City's Ethical Standards (http://santaclaraca.gov/home/showdocument?id=58299).

19. CONFLICTS OF INTEREST

Consultant certifies that to the best of its knowledge, no City officer, employee or authorized representative has any financial interest in the business of Consultant and that no person associated with Consultant has any interest, direct or indirect, which could conflict with the faithful performance of this Agreement. Consultant is familiar with the provisions of California Government Code section 87100 and

following, and certifies that it does not know of any facts which would violate these code provisions. Consultant will advise City if a conflict arises.

20. FAIR EMPLOYMENT

Consultant shall not discriminate against any employee or applicant for employment because of race, sex, color, religion, religious creed, national origin, ancestry, age, gender, marital status, physical disability, mental disability, medical condition, genetic information, sexual orientation, gender expression, gender identity, military and veteran status, or ethnic background, in violation of federal, state or local law.

21. NO USE OF CITY NAME OR EMBLEM

Consultant shall not use City's name, insignia, or emblem, or distribute any information related to Services under this Agreement in any magazine, trade paper, newspaper or other medium without express written consent of City.

22. GOVERNING LAW AND VENUE

This Agreement shall be governed and construed in accordance with the statutes and laws of the State of California. The venue of any suit filed by either Party shall be vested in the state courts of the County of Santa Clara, or if appropriate, in the United States District Court, Northern District of California, San Jose, California.

23. SEVERABILITY CLAUSE

In case any one or more of the provisions in this Agreement shall, for any reason, be held invalid, illegal or unenforceable in any respect, it shall not affect the validity of the other provisions, which shall remain in full force and effect.

24. AMENDMENTS

This Agreement may only be modified by a written amendment duly authorized and executed by the Parties.

25. COUNTERPARTS

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but both of which shall constitute one and the same instrument.

SIGNATURES ON NEXT PAGE

The Parties acknowledge and accept the terms and conditions of this Agreement as evidenced by the following signatures of their duly authorized representatives.

CITY OF SANTA CLARA, CALIFORNIA
a chartered California municipal corporation

Approved as to Form:

GLEN R. GOOGINS
City Attorney

"CONSULTANT"

EXHIBIT A
SCOPE OF SERVICES

SECTION 1. GENERAL

1.1 Consultant shall provide comprehensive professional services to prepare the following for the City's Electric Utility Department, Silicon Valley Power (SVP):

1.1.1 A threat and vulnerability assessment (TVA) report for a total of thirty-nine (39) unique sites, including:

1.1.1.1 Thirty-five (35) City substations

1.1.1.2 One (1) switching station

1.1.1.3 Donald Von Raesfeld Power Plant (DVR)

1.1.1.4 Gianera Generating Station (Gianera)

1.1.1.5 Natural Gas Pipeline & Natural Gas Compressor Station

1.1.2 Standard plans, details, and specifications for physical and operational security of future substations yet to be constructed.

1.1.3 Update to 2021 Utility Security Plan

1.2 The terms "City" and "SVP," are used interchangeably.

SECTION 2. SPECIFIC WORK REQUIREMENTS

2.1 **Threat and Vulnerability Assessment Report.** Consultant will prepare a report that will (a) identify critical assets at each facility, (b) identify mitigation, protection, prevention, and resiliency efforts to address security and reduce the potential of long-term outage, and (c) provide a prioritization of the overall needs for City's consideration. Consultant shall provide recommendations of required and desirable improvements at each facility with cost estimates. Consultant shall comprehensively identify optimal physical and operational security for each facility and may focus on the following areas for each facility:

2.1.1 Parking/Delivery/Standoff

2.1.2 Security Force Profile

2.1.3 Barriers

2.1.4 Electronic security systems

2.1.5 Dependencies (Electric Power)

2.1.6 Dependencies (Information Technology)

2.2 **Standard Plans, Details, and Specifications for Physical and Operational Security of Future Substations.** Consultant shall provide recommendations, standard plans, details, and specifications for optimal physical and operational security for future substations yet to be constructed, to improve public safety and deter sabotage, theft, and vandalism that includes, but is not limited to, the following:

2.2.1 Access control system that consists of access control panel, auxiliary power supply, card readers at all doors, magnetic door contacts, and wire and other related accessories.

2.2.2 Perimeter fence/wall, equipment and communication line protection, gate security and access control, intrusion alarm, video cameras, and biometric identification systems.

2.2.3 Consultant shall evaluate the City's current access control system software for two separate systems: SVP's main system and SVP's isolated system, both subject to federal regulatory compliance requirements, including the North American Electric Reliability Corporation (NERC). If Consultant recommends new software, Consultant shall provide a comprehensive report containing a cost-benefit, resource analysis, and impact analyses, along with an estimated timeline and other considerations identified by Consultant. If the City chooses to replace the systems, the City may request Additional Services (as defined in Section 7) pursuant to Section 7 from Consultant, such as but not limited to:

2.2.3.1 Assisting the City in facilitating the Request for Proposals (RFP) including the development of solicitation documents, assistance with responding to vendor questions, and participation in the evaluation process and contract negotiations.

2.2.3.2 Providing services to maintain current system functionality.

2.3 2021 Utility Security Plan Update

2.3.1 Consultant shall provide:

2.3.1.1 A detailed narrative explaining how SVP can take steps to implement a preventative maintenance plan for security equipment to ensure that mitigation measures are functional and performing adequately.

2.3.1.2 A description of distribution and/or security control center roles and actions related to distribution system physical security.

2.3.2 Consultant shall identify and recommend firms, utilities, or municipalities capable of conducting an independent review of the updated Utility Security Plan delivered by Consultant to City.

2.3.3 Consultant shall provide recommendations that support and integrate with SVP's resiliency plans and activities.

2.3.4 Consultant shall review and update the 2021 Utility Security Plan to include up to six (6) of the thirty-nine (39) sites identified in Section 1.1. Consultant shall submit an updated plan that complies with the requirements of the California Public Utilities Commission (CPUC) Decision 19-01-018. The report shall include, but not be limited to, the following:

2.3.4.1 Overview

2.3.4.2 Background

2.3.4.3 Plan Development Process

2.3.4.4 Identification of Covered Distribution Facilities

2.3.4.5 Risk Assessment per Site

2.3.4.6 Covered Distribution Facility Mitigation Plans per Site

2.3.4.7 Independent Evaluation and Response

2.3.4.8 Validation

2.3.4.9 Narrative Descriptions for Utility Security Plan

2.4 Project Management/Communication

2.4.1 Consultant shall communicate and coordinate with the City's designated project manager and project team.

2.4.2 Consultant shall conduct meetings with the City, third-party contractors or consultants, vendors, and other design consultants as necessary. These meetings may be conducted in person or virtually.

2.4.3 Through the project manager designated by City, Consultant shall coordinate with SVP Divisions including Planning, Fiber, Protection, Substation, Systems Support, Operations, Engineering Records Retention,

Electrical Control Center, and management. Such coordination shall be incorporated into the fixed price defined in Exhibit B.

2.4.4 Consultant will be provided access to and is expected to use the City's project management tool, e-Builder, further described in Section 6 for managing schedules, action items, and invoicing. All other files, such as reports, plans, and deliverables, must be submitted to a City-controlled Secure File Transfer Protocol (SFTP) site separate from e-builder.

2.4.5 Consultant is responsible for providing all staff and materials to complete the project.

2.4.6 Consultant shall perform the required services at their own offices.

2.4.7 Consultant is required to conduct site or field visits to support their work.

2.4.8 Consultant must ensure the information security of all City-owned data in its possession, including any data or materials generated by the Consultant and its affiliates, subcontractors, and service providers in connection with the work for the City. This includes implementing specific methods for storage, handling, and transmittal of the data or materials. Consultant shall be compliant with System and Organization Control (SOC or SOC2) and work within a Federal Risk and Authorization Management Program (FedRAMP) security framework.

SECTION 3. PROJECT WORK PLAN

3.1 Task 1 – Project Start Up

3.1.1 **Request for Background Materials**. Consultant shall submit a data request(s) to City for information needed to perform services. All data shall be exchanged through SFTP site provided by City. The requested information may include, but not be limited to:

3.1.1.1 City and/or SVP goals and policies.

3.1.1.2 Regulatory requirements.

3.1.1.3 Previous threat and vulnerability assessments.

3.1.1.4 Previous physical security assessments.

3.1.1.5 Security plans including 2021 Utility Security Plan.

3.1.1.6 Emergency response plans.

3.1.1.7 Security system information, such as:

3.1.1.7.1 As-built floor plans with layout of rooms, cable paths, architectural features, and security devices.

3.1.1.7.2 System block diagrams illustrating the overall architecture and components of the electronic security systems and interconnections between different devices.

3.1.1.7.3 Wiring diagrams depicting the electrical connections between different components of the security system.

3.1.1.7.4 Elevation Drawings with a vertical view of specific areas, such as the exterior walls where security devices are placed.

3.1.1.7.5 Integration Design Documents: a comprehensive and detailed blueprint for the integration of disparate systems, applications, or components within a larger software or IT infrastructure. This document outlines the architecture, data flow, interfaces, protocols, and communication mechanisms.

3.1.1.8 City Policies regarding:

3.1.1.8.1 How video can be used in the city.

3.1.1.8.2 Exporting and sharing recorded video.

3.1.1.8.3 Configuration of video cameras (resolution, framerate, codec, compression, etc.).

3.1.1.8.4 Design standards or design criteria for security systems.

3.1.1.8.5 User accounts and access rights for various security systems.

3.1.1.9 Standard Operating Procedures.

3.1.1.9.1 Response to access control alarms (e.g. door held open, door forced open) to include alarmed gates and roll-up doors.

3.1.1.9.2 Response to duress alarm.

3.1.1.9.3 Procedures for exporting and sharing recorded video.

3.1 1.9.4 Procedures for viewing live video.

3.1.1.10 After-Action Reports and Improvement Plans.

3.1.1.11 Site maps and facility plans of facilities to be assessed.

3.1.1.12 Customer and staff data regarding safety and security issues.

3.1.1.13 Specific safety and security standard operating procedures (SOPs).

3.1.1.14 Organization charts.

3.1.1.15 Previous related studies and reports.

3.1.2 Project Kick-Off Meeting

Consultant shall schedule a kick-off meeting with SVP personnel. The kick-off meeting shall be virtual, unless SVP requests the meeting to be onsite to coincide with the scheduled site visits. The meeting agenda shall include:

3.1.2.1 Review of project goals and assumptions.

3.1.2.2 Review project scope and work plan.

3.1.2.3 Establishment of a schedule for delivering (a) the Threat and Vulnerability Assessment Report; (b) the Standard Plans, Details, and Specifications for Physical and Operational Security of Future Substations; and (c) the Utility Security Plan.

3.1.2.4 Identification of City staff and Consultant's team members roles and responsibilities.

3.1.2.5 Confirmation the facilities to be assessed.

3.1.2.6 Data collection methods to be used.

3.1.2.7 Discussion of preliminary set of assessment criteria.

3.1.2.8 Discussion of risk methodology use for risk assessment.

3.1.2.9 Establishment of communication channels.

3.1.2.10 Confirmation of key project dates and deliverables.

3.1.2.11 Discussion and confirmation of dates for site walk.

3.1.2.12 Development of initial list of stakeholders.

3.1.2.13 Project team discussion.

3.2 Task 2 – Data Collection

3.2.1 Site and Facilities to Assess

3.2.1.1 Consultant to conduct site visits to assess thirty-nine (39) SVP sites including:

3.2.1.1.1 Thirty-five (35) City substations.

3.2.1.1.2 Switching Station.

3.2.1.1.3 Donald Von Raesfeld Power Plant.

3.2.1.1.4 Gianera Generating Station.

3.2.1.1.5 Natural Gas Pipeline and Natural Gas Compressor Station.

3.2.2 Site and Facility Walks

3.2.2.1 Consultant shall use the site and facility walks to evaluate potential threats, to document the security measures in place, to assess any vulnerabilities, to identify any opportunities for improvement, and gather any other data required for Consultant to perform Services.

3.2.2.2 Consultant will be accompanied at all times by SVP staff and may only photograph with consent from SVP staff.

3.2.2.3 Consultant shall document the site and facilities through photographs and notes, focusing on an assessment criteria checklist previously developed and agreed upon by Parties. These will include

3.2.2.3.1 Site and facilities physical security including use of entrances and exits for vehicles and persons, lighting, fences, walls, gates, guard rails, bollards, secured doors and locking systems, screening centers and equipment and guard posts.

3.2.2.3.2 Intrusion and egress vulnerabilities to the threats such as terrorist attack, active shooter, and criminal behavior.

3.2.2.3.3 Video surveillance systems (CCTV).

3.2.2.3.4 Access control systems.

3.2.2.3.5 Intrusion detection systems.

3.2.2.3.6 Communication systems dependencies.

3.2.2.3.7 Electric power dependencies.

3.2.2.3.8 Information technology systems dependencies.

3.2.2.4 During the facility walks, Consultant shall evaluate the following with respect to the security systems at the facilities:

3.2.2.4.1 Coverage: Evaluate the system's coverage and ensure that all critical areas, such as entry and exit points, perimeters of buildings, areas critical to operations, and public spaces are adequately covered by cameras.

3.2.2.4.2 Quality: The quality of the video footage is essential for identifying people and events accurately. Every camera should have a specific objective and purpose (detection, observation, recognition, identification). Some cameras will be used for general observation of a space while other cameras should provide high- resolution video that can capture details such as faces, license plates, and other identifying features.

3.2.2.4.3 Storage: The system should have sufficient storage capacity to retain video footage for an extended period. Depending on the City's requirements, the storage capacity should be able to retain video footage for a specified amount of time.

3.2.2.4.4 Integration: The video surveillance system could be integrated with other security systems, such as access control and alarm systems. Integration ensures that the video footage can be used in conjunction with other security measures to enhance

the overall security of the city. Integrations will be evaluated and considered in the process.

3.2.2.4.5 Maintenance: The system should be easy to maintain, and regular maintenance should be performed to ensure optimal performance. Maintenance and support options will be considered with any recommendations.

3.2.3 Key Stakeholder Interviews

3.2.3.1 Consultant will conduct interviews (up to eight interviews) with key City staff. Each interview will be approximately sixty minutes in length. Interviews may be held virtually or, if possible, be held on site during the site walks. The interviews will:

3.2.3.1.1 Identify the key stakeholders responsible for security at the sites to be assessed.

3.2.3.1.2 Include meetings with key stakeholders, including Planning, Fiber, Protection, Substation, Systems Support, Operations, Engineering Records Retention, Electrical Control Center, and management to discuss any security concerns, past incidents, challenges, lessons learned and opportunities.

3.2.3.1.3 Develop an understanding of the processes and procedures in place to monitor, patrol, report, notify and respond to security incidents.

3.2.3.1.4 Meetings with law enforcement and security staff to discuss security issues such as criminal activity, incident reports, and community and social concerns which could impact the potential threats and vulnerabilities surrounding the sites.

3.2.4 Document Review

Consultant shall review the background material received in detail to develop an understanding of the current state of the safety and security of the facilities.

3.2.5 Research

3.2.5.1 Threat Analysis Based on Local and National Research. Consultant shall perform research on the following threat areas:

3.2.5.1.1 Terrorist threat. Consultant shall regularly update the threat profile for various types of terrorist threats to critical infrastructure utilizing our sources and contacts at applicable security organizations such as the Federal Bureau of Investigation (FBI), Department of U. S. Department of Homeland Security (DHS), Joint Terrorist Task Force (JTTF), Infragard, Federal Emergency Management Agency (FEMA), local law enforcement and American Society for Industrial Safety (ASIS) to identify the current best practices to harden high target facilities.

3.2.5.1.2 Criminal Statistics. Consultant shall provide three (3) years of crime statistics for each facility location. Analysis will include current, real-time, and historical data by utilization of the Federal Bureau of Investigation Uniform Crime Report (UCR) systems as well as Automated Regional Justice Information Systems (ARJIS) to target Part 1 violent crimes, Part 1 property crimes, and Part 2 offenses.

3.3 Task 3 Findings Summary and Risk Analysis

Consultant shall perform the following actions in Task 3:

3.3.1 **Findings.** Consultant shall produce and discuss an initial set of findings that will include:

3.3.1.1 A summary of the information collected, using a Strengths, Weaknesses, Opportunities, and Threats (SWOT) analysis for each facility.

3.3.1.2 Identification of locations necessitating the construction, or addition of physical deterrents.

3.3.1.3 Risk analysis with prioritization of areas requiring mitigation.

3.3.1.4 Identification of rough order of magnitude costs.

3.3.2 **Findings Meeting.** Consultant shall host a virtual meeting with City's project staff to review Consultant's findings. This meeting shall include a review of the SWOT analysis, and City will provide direction to Consultant identifying which mitigation strategies to focus on for the final report.

3.3.3 **Risk Assessment**. Consultant shall use the information collected to develop a risk assessment based on the assets to be protected, relevant

threats and vulnerabilities identified. Consultant shall use the U.S. Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA) methodology for the risk assessment:

Risk (R) = Threat (T) x Vulnerability (V) x Consequence (C)

3.3.3.1 **Threat Assessment.** Based on the research, Consultant will identify the relevant threats to each facility. Consultant will rate relevant threats for a facility on a scale of 1 (Very Low) to 10 (Very High). At a minimum, Consultant will consider the following threats and hazards:

3.3.3.1.1 Terrorist attack: Vehicle borne bomb, person borne bomb, vehicle ramming, drone attach, active shooter, firearms to grid components, generation lines, fuel tanks, sabotage, chemical, biological, radiological, and nuclear and explosives (CBRNE) attack.

3.3.3.1.2 Criminal activity: Active shooter, firearms to grid components, generation lines, fuel tanks, trespassing, assault, theft or diversion, robbery, rape, arson, vandalism, and insider threat.

3.3.3.2 **Vulnerability Assessment**. In the vulnerability assessment, Consultant will include an in-depth analysis of the facilities' functions, systems, and site characteristics to identify building weaknesses and identifying mitigations or corrective actions that can be designed and/or implemented to reduce the vulnerabilities. Consultant will rate each relevant vulnerability on the scale of 1 (Very Low) to 10 (Very High).

At a minimum, Consultant will consider, the following components in the vulnerability assessment for each facility:

3.3.3.2.1 Fencing/gates.

3.3.3.2.2 Security lighting.

3.3.3.2.3 Security signage.

3.3.3.2.4 Vehicle bollards.

3.3.3.2.5 Door and gate locks.

3.3.3.2.6 Blast resistance/standoff distances.

3.3.3.2.7 Panic buttons.

3.3.3.2.8 Security systems: video surveillance, access control, intrusion detection, system monitoring.

3.3.3.2.9 Security/emergency communications

3.3.3.2.10 Electric power and information technology dependencies

3.3.3.3 **Consequences.** Consultant shall use the DHS/FEMA threat and vulnerability assessment methodology to quantify the potential losses. For each facility, Consultant will rate each consequence on a scale of 1 (Very Low) to 10 (Very High) in the following four categories.

3.3.3.3.1 Human Impact. Effects on human life and physical wellbeing (e.g. fatalities, injuries).

3.3.3.3.2 Economic Impact. Direct and indirect effects on the economy with respect to the buildings and its functions.

3.3.3.3.3 Public Confidence. Effect on the public confidence in the organization to deliver service. This shall encompass those changes in perception emerging from a significant incident that affect the public's sense of safety and wellbeing.

3.3.3.3.4 Business Functionality. Effect on the business's ability to continue operations to delivery serve.

3.3.3.4 Risk Analysis

Using the confirmed threat, asset and vulnerability assessments, Consultant shall quantify the level of risk for each facility against each primary threat using the risk equation below. Consultant will tabulate an overall risk rating for each facility. The risks will be ranked high, medium and low.

	Low Risk	Medium Risk	High Risk
Risk Factors Total	1-60	61-175	>175

3.3.4 Recommendations

From the risk analysis, Consultant will develop a set of recommendations, prioritized by risk, for mitigating the vulnerabilities and enhancing the physical security measures and security systems.

3.3.5 Risk Assessment Workshop

Contactor shall schedule and conduct a virtual workshop with City's project team and key stakeholders to review and discuss the risk assessment and initial recommendations.

3.3.6 Task 4 Cost Analysis

Consultant will review the prioritized recommendations and develop a rough order of magnitude (ROM) cost estimate, divided into short and long-term costs. Consultant will use historic data, current market pricing and in some cases direct vendor estimates to prepare the cost estimates for the physical deterrents and security system improvements. Consultant will break down the cost estimate for each facility.

3.4 TASK 4 FINAL REPORT

Consultant's final report will include a threat and vulnerability assessment report; standard plans, details, and specifications for physical and operational security of substations yet to be completed; and an updated Utility Security Plan.

3.4.1 Threat and Vulnerability Assessment Draft Report

Consultant shall develop a draft report for SVP review. The draft report will include content developed during the previous tasks with the final content, recommendations, and appendices finalized in the draft report. The preliminary table of contents for the draft report will include:

3.4.1.1 An executive summary

3.4.1.2 An introduction with project scope, methodology and assumptions.

3.4.1.3 A findings summary with SWOT analysis.

3.4.1.4 A threat analysis.

3.4.1.5 A vulnerability assessment

3.4.1.6 A consequence analysis

3.4.1.7 A risk assessment summary

3.4.1.8 An evaluation matrix ranking risk based on threat vulnerability and consequence.

3.4.1.9 A prioritized set of recommendations with a focus on the security systems.

3.4.1.10 Rough-Order-of-Magnitude costs for the recommendations.

3.4.1.11 A summary report of each identified facility which may include:

3.4.1.11.1 A description of the facility and its key functions

3.4.1.11.2 A threat analysis

3.4.1.11.3 A vulnerability assessment of each site

3.4.1.11.4 A consequence analysis

3.4.1.11.5 A risk assessment matrix

3.4.1.11.6 Site-specific recommendations for mitigation

3.4.1.12 A set of appendices that includes a glossary and detailed crime statistics.

3.4.2 Consultant shall present the key elements of the Draft Threat and Vulnerability Assessment Report to SVP (and other stakeholders) at a virtual meeting.

3.4.3 After SVP review of the draft report, Consultant shall incorporate any changes recommended by SVP into the final report. Consultant will submit the Threat and Vulnerability Assessment Final Report to City staff for approval.

3.4.4 Standard Plans, Details and Specifications for Physical Security and Operational Security of Future Substations.

3.4.4.1 Upon completion of the Threat and Vulnerability Assessment Final Report, Consultant shall develop a base plan for a substation; design physical security components including perimeter fence/wall, equipment and communication line protection, gate security and access control, intrusion alarm, video cameras, and biometric identification systems. Consultant shall produce details and develop specifications for City's use.

3.4.4.2 Consultant shall include an evaluation of the City's current access control software for the two separate systems in its evaluation.

Consultant will make recommendations for new software if Consultant determines new software is warranted.

3.4.4.3 If Consultant determines new access control software is recommended, Consultant shall provide a comprehensive report supporting such recommendation. The comprehensive report will contain a cost benefit analysis, a resource analysis, and an impact analysis, along with an estimated timeline and other considerations.

3.4.5 Utility Security Plan Update

After completion of the Threat and Vulnerability Assessment Final Report, Consultant shall prepare an update to SVP's 2021 Utility Security Plan. This update shall, at minimum, include:

3.4.5.1 A detailed narrative explaining how SVP can take steps to implement a preventative maintenance plan for security equipment to ensure that mitigation measures are functional and performing adequately.

3.4.5.2 A description of Distribution and/or Security Control Center roles and actions related to distribution system physical security.

3.4.5.3 Recommendations that support and integrate with SVP's resiliency plans and activities.

3.4.5.4 Analysis of up to six (6) sites of the thirty-nine (39) sites identified in Section 1.1.

3.4.5.5 Sections for each of the following:

3.4.5.5.1 Overview

3.4.5.5.2 Background

3.4.5.5.3 Plan Development Process

3.4.5.5.4 Identification of Covered Distribution Facilities

3.4.5.5.5 Risk Assessment of Each Site

3.4.5.5.6 Covered Distribution Facility Mitigation Plans per Site

3.4.5.5.7 Independent Evaluation and Response

3.4.5.5.8 Validation

3.4.5.5.9 Narrative Descriptions for Utility Security Plan

SECTION 4. PROJECT SCHEDULE AND DELIVERABLES

4.1 Task 1. Project Start-Up

4.1.1 **Request for Background Material.** Consultant shall submit request for background material to City within the first two weeks after project start.

4.1.2 **Project Kick-Off Meeting.** Consultant shall schedule the project kick-off meeting no later than 2 weeks after submittal of request for background material.

4.2 Task 2. Data Collection and Evaluation

4.2.1 Within sixty (60) calendar days of project start, Consultant shall complete the following:

4.2.1.1 Site visits and facility walks

4.2.1.2 Key stakeholder interviews

4.2.1.3 Document review

4.2.1.4 Local and national research for threat analysis

4.3 Task 3. Findings Summary and Risk Analysis

4.3.1 **Findings Summary and Findings Meeting with City**. Within thirty (30) calendar days of completion of Task 2, Consultant shall produce a summary of findings and present the findings to the City for discussion.

4.3.2 **Risk Analysis.** Within thirty (30) calendar days of the findings meeting, Consultant shall:

4.3.2.1 Conduct the threat and vulnerability assessments

4.3.2.2 Prepare the initial risk analysis

4.3.2.3 Prepare initial recommendations based on the risk analysis

4.3.3 **Risk Assessment Workshop.** Within forty-five (45) calendar days after the findings meeting, Consultant shall conduct a risk assessment workshop with City.

4.3.4 **Cost Analysis.** Within fifteen (15) calendar days of the risk assessment workshop, Consultant shall complete the cost analysis.

4.4 Task 4. Final Reports.

4.4.1 **Threat and Vulnerability Assessment Report**.

4.4.1.1 Within forty-five (45) calendar days of the risk assessment workshop, Consultant shall complete the draft report and meet with City to discuss the draft report.

4.4.1.2 City shall review the draft report and provide comments to Consultant within fifteen (15) calendar days of the meeting.

4.4.1.3 Within fifteen (15) calendar days of receiving the City's comments on the draft report, Consultant shall submit the final report to the City.

4.4.2 **Substation Plans, Details, and Specifications.** Within sixty (60) calendar days after submittal of the final Threat and Vulnerability Assessment Report, Consultant shall provide City with the substation plans, details and specifications.

4.4.3 **2021 Utility Security Plan Update.**

4.4.3.1 Within forty-five (45) calendar days after the Consultant submits the Threat and Vulnerability Assessment Final Report to City, Consultant shall submit the draft Utility Security Plan Update to City for review.

4.4.3.2 City shall review draft Utility Security Plan Update and provide comments to Consultant within fifteen (15) calendar days.

4.4.3.3 Within seven (7) calendar days of receiving City's comments, Consultant shall submit to City the final Utility Security Plan Update.

4.5 Submission of Final Reports. Consultant will deliver three (3) hard copies of the final Threat and Vulnerability Assessment Report, Substation Plans, Details and Specifications, and the updated Utility Security Plan to the City and upload the digital format (pdf) of each report to the City's SFTP site.

SECTION 5. SPECIAL REQUIREMENTS

In accordance with SVP's CIP-013 Supply Chain Risk Management Program, the Consultant is required to complete a Vendor Risk Assessment and Attestation. In

delivering the services under this agreement, Consultant must adhere to SVP's Security Incident Response Plan outlined below

5.1 Definitions

5.1.1 Security Incident: A Security Incident is defined as (a) any breach event or known vulnerability or potential security flaw in the product delivered by Consultant to City and (b) any event perpetrated, or attempted, by Consultant, employee of Consultant, affiliate, subcontractor, or service provider working on behalf of Consultant providing services to City, including, but not limited to, unauthorized disclosure of non-public information, unauthorized remote or local use of data or materials, unauthorized access or change to any City system, product crashing due to third-party interference, embedded malware, or opening of unauthorized/undisclosed communication channels.

5.1.2 Banned Vendors or Products: Banned vendors or products are deemed to pose a threat to the U.S. bulk power system (BPS) or bulk electric system (BES) and are identified in U.S. executive orders or by federal government agencies including, but not limited to, the Department of Defense, Department of Energy, the Department of Homeland Security, the Federal Energy Regulatory Commission, or the North American Electric Reliability Corporation.

5.2 Notification of Security Incident

5.2.1 Consultant shall notify City immediately by email to designated SVP representative whenever a Security Incident occurs.

5.2.2 Anytime Consultant becomes aware of a Security Incident, Consultant must provide notice by email to the City contact identified in the Agreement and the SVP Project Manager, in the most expedient time possible and without unreasonable delay, but no more than five (5) business days after discovery. The notice shall include the date and time of the Security Incident occurrence (or the approximate date and time of the occurrence if the actual date and time of the occurrence is not precisely known) and a detailed summary of the facts and circumstances of the Security Incident, including a description of (a) how the Security Incident occurred (e.g., a precise description of the reason for the system failure (root cause analysis) to the extent known – interim reports are allowable), (b) the nature, type, and scope of the Security Incident including which products or system(s) that may be impacted, (c) the scope of City information known or reasonably believed to have been disclosed, and (d) the measures taken or planned to address and remedy the occurrence to prevent the same or a similar event from occurring in the future.

5.2.3 Consultant shall provide written updates of the notice to City addressing any new facts and circumstances learned after the initial written notice is provided and shall provide such updates within a reasonable time after learning of those

new facts and circumstances. Consultant shall cooperate with City in City's efforts to determine the risk, if any, to the BES posed by the Security Incident, including providing additional information regarding the Security Incident upon request from City.

5.2.4 Consultant shall ensure a confirmation of receipt is received by the City for all initial and follow-up communication regarding the Security Incident.

5.3 Coordination of Responses Related to Security Incident

5.3.1 Development and Implementation of a Security Incident Response Plan.

5.3.1.1 To the extent practicable, Consultant shall share any documentation (policies, plan, and procedures), and any updates to such documentation, to address Security Incidents ("Response Plan") in place to mitigate the harmful effects of Security Incidents and addressing and remedying the occurrence to prevent the recurrence of Security Incidents in the future.

5.3.1.2 Consultant shall provide City access to inspect its Response Plan. The Response Plan should align with the best practices consistent with the contingency planning requirements of National Institute of Standards and Technology (NIST) Special Publication 800-61 Rev. 2, NIST Special Publication 800-53 Rev. 4, CP-1 through CP-13 (and NIST SP 800-61 Rev. 3 upon its promulgation), and the incident response requirements of NIST Special Publication 800-53 Rev. 4, IR-1 through IR-10 as those standards may be amended from time to time. In the event of a conflict between NIST and NERC, NERC will control.

5.3.1.3 As soon as practicable, understanding time is of the essence, upon learning of a Security Incident related to the products and services provided to City by Consultant, Consultant shall notify City of that implementation by contacting the designated SVP representative(s).

5.3.2 Prevention of Recurrence: As soon as practicable, understanding time is of the essence, Consultant shall provide recommendations, action plans, and/or mitigating controls to City on actions that City may take to assist in the prevention of recurrence, as applicable or appropriate.

5.3.3 Notification to Affected Parties: Consultant will, at its sole cost and expense, assist and cooperate with City with respect to any investigation of a Security Incident, to the extent the Security Incident involves or arises from Consultant-provided products or services, disclosures to affected parties, and other remedial measures as requested by City in connection with a Security Incident

or required under any applicable laws related to a Security Incident, to the extent necessary.

5.4 Verification of Software Integrity and Authenticity of Patches

5.4.1 Hardware, Firmware, Software, and Patch Integrity and Authenticity: Consultant shall comply with SVP's NERC CIP-010 Policy and Procedure regarding the verification of the identity of the patch source and the integrity of the software obtained from the source.

5.4.2 Computer Viruses and Malware: Consultant shall warrant that it has no knowledge of any computer viruses or malware coded or introduced into any software or patches, and Consultant will not insert any code which would have the effect of disabling or otherwise shutting down all or a portion of such software or damaging information or functionality.

5.4.3 Remedies: If a virus or other malware is found to have been coded or otherwise introduced as a result of Consultant's product, service, actions, or negligence, Consultant shall immediately, and at its own cost take all necessary remedial action and provide assistance to City to eliminate the virus or other malware throughout City's information networks, computer systems, and information systems, regardless of whether such systems or networks are operated by or on behalf of City; and restoring previous functionality of the affected device, system, or product.

5.5 Controls for Remote Access

5.5.1 In the course of furnishing products and services to City under the Agreement, Consultant, or through any of their affiliates, subcontractors or service providers, shall not access, and shall not permit Consultant personnel to access City property, systems, or networks or City information without City's prior express written authorization. Such written authorization may subsequently be revoked by City at any time in City's sole discretion. Further, any Consultant personnel access shall be consistent with, and in no case exceed the scope of, any such approval granted by City. All City authorized connectivity or attempted connectivity to City's systems or networks shall be in conformity with City's security policies, including, but not limited to, those policies used to address the NERC CIP reliability standards, as may be amended from time to time.

5.5.2 Consultant shall maintain controls designed to protect City-issued credentials and shall ensure that network devices have encryption enabled for network authentication to prevent possible exposure of City-issued credentials.

5.5.3 Prior to using any virtual private network (VPN) or other device to simultaneously connect machines on any City system or network to any machines on any Consultant or third-party systems, Consultant shall:

5.5.3.1 Complete and provide an SVP VPN request form with the full name of each individual who uses any such remote access method and the phone number and email address at which the individual may be reached while using the remote access method, and

5.5.3.2 Agree that any computer used by Consultant personnel to remotely access any City system or network will not simultaneously access the Internet or any other third-party system or network while logged on to City systems or networks.

5.5.3.3 Not be allowed to connect any of Consultant's computers to any of City system or network directly.

5.5.4 Consultant shall ensure that City-issued credentials issued to Consultant personnel for accessing City networks are not shared between Consultant personnel.

5.5.5 Consultant shall recommend any additional protective measures to address the security of remote and onsite access to City Information, City systems and networks, and City property.

5.6 Consultant Notification of Remote or Onsite Access Revocation

5.6.1 Consultant shall immediately take all steps necessary to remove Consultant personnel's access to any City Information, systems, networks, or property at such time when:

5.6.1.1 Any Consultant personnel no longer requires such access in order to furnish the services or products provided by Consultant under the Agreement,

5.6.1.2 Any Consultant personnel is terminated or suspended or his or her employment otherwise ends; or

5.6.1.3 Consultant reasonably believes any Consultant personnel poses a threat to the safe working environment at or to any City property, including to employees, customers, buildings, assets, systems, networks, trade secrets, confidential data, and/or employee or City Information.

5.6.2 Consultant shall notify City, no later than close of business on the same day as the day termination or change set forth in this section, occurs. Additionally, Consultant will notify City by contacting the SVP designated representative(s)

upon removal of access to City Information as well as City property, systems, and networks.

5.7 Consultant Cybersecurity Policy:

Consultant shall provide to City its cybersecurity policy and shall implement and comply with said cybersecurity policy.

5.8 Regulatory Examinations

5.8.1 Consultant agrees that any regulator or other governmental entity with jurisdiction over City and its affiliates, including but not limited to the North American Electric Reliability Corporation (NERC) and Western Electricity Coordinating Council (WECC), may examine Consultant's activities relating to the performance of its obligations under this Agreement to the extent such authority is granted to such entities under the law.

5.8.2 Consultant shall promptly cooperate with and provide all information reasonably requested by the regulator or other governmental entity in connection with any such examination and provide reasonable assistance and access to all equipment, records, networks, and systems requested by the regulator or other governmental entity.

5.8.3 Consultant shall comply with all reasonable recommendations that result from such regulatory examinations within reasonable timeframes at Consultant's sole cost and expense. The foregoing cooperation and assistance will be rendered at Consultant's then- current time and materials rates, subject to City's prior written authorization.

SECTION 6. E-BUILDER

6.1 Use of e-Builder. When required by City, Consultant shall use e-Builder for managing schedules, action items, and invoicing throughout the Term. e-Builder is a web-based construction management application hosted by e-Builder, Inc. For schedules, action items, and invoicing, e-Builder shall be the primary means of project information submission and management. Consultant shall not use e-builder for any confidential data including reports, plans, and deliverables which Contractor must submit to a City-controlled Secure File Transfer Protocol (SFTP) site provided by City.

6.2 Access to e-Builder. The City will establish the Consultant's access to e-Builder by providing licenses to Consultant's personnel at City's cost. The Consultant's designated users will be required to set up their computers/systems to use e-Builder in accordance with the e-Builder User Training Guide. The City reserves the right to limit the licenses issued to Consultant at any time.

6.3 E-builder Training. Consultant is required to obtain all necessary training to use the e-builder software. Consultant must participate in at least one classroom training or a web-based seminar as determined by City.

6.4 Connectivity to e-Builder. e-Builder is a web-based environment and therefore it is subject to the inherent speed and connectivity limitations of the Internet. Consultant is responsible for its own connectivity to the Internet. e-Builder's response time is dependent on the Consultant's equipment, including processor speed, Internet access speed, etc., and current traffic on the Internet. The City will not be liable for any delays associated with Consultant's use of e-Builder including, but not limited to slow response time, downtime periods, connectivity problems, or loss of information. The Consultant shall ensure connectivity to the e-Builder system whether at the home office or job site. Under no circumstances will Consultant's use of e-Builder be grounds for a time extension or cost adjustment to the Services.

6.5 Acceptance of Information. Data entered in a collaborative mode (entered with the intent to share as determined by permissions and workflows within the e-Builder system) by the City and the Consultant will be jointly owned. Consultant is responsible for managing, tracking, and documenting the Services provided and to comply with the requirements of this Agreement. The City's acceptance of documentation in e-builder via automated system notifications or audit logs extends only to the face value of the submitted documentation and does not constitute validation of the Consultant's submitted information.

6.6 Format of Project Documents. In addition to submittal of documents through e-Builder, at the City's sole discretion, the City may require Consultant to submit documents in hard copy format, or both electronic and hard copy format.

6.7 Project Communication. While regular email may still be used for communication, when requested by City, e-Builder shall be used as much as possible in connection with schedules, action items, and invoicing required in the performance of Services where City has directed the use of e-Builder. Where applicable, Consultant shall be responsible for scanning or otherwise converting to electronic format all schedules, action items, and invoicing documents, and uploading them to the e-Builder website. Consultant shall be responsible for the validity of its information placed in e-Builder. Consultant shall use the existing forms and processes in e-Builder to the maximum extent possible. If a required form does not exist in e-Builder, Consultant may include a form of its own or one provided by the City (if available) as an attachment to a submittal or process.

6.8 Archive Copies. When requested by City, Consultant shall keep an archive copy of all digital data created by Consultant, or submitted to Consultant via e-mail, or resident on e-Builder for the duration of the Agreement. Such data shall be available to City, and authorities with the jurisdiction (including funding agencies or representatives) on demand.

6.9 Should the City replace e-Builder with a different project management tool, Consultant, and subcontractors shall be required to use the new project management tool selected by the City.

SECTION 7. ADDITIONAL SERVICES

7.1 Additional Services are tasks or deliverables not outlined in Exhibit A, including services requested by the City beyond the agreed scope. Prior to commencing any Additional Services requested by City, Consultant shall submit a proposal outlining the Additional Services to be provided and the proposed price. If Additional Services are authorized, the Parties will execute an amendment to this Agreement which may require approval by the Santa Clara City Council.

EXHIBIT B
SCHEDULE OF FEES AND PAYMENT PROVISIONS

SECTION 1. MAXIMUM COMPENSATION

The maximum compensation payable to Consultant during the Term shall not exceed the amount in Section 6 of this Agreement.

SECTION 2. FIXED FEE FOR SCOPE OF SERVICES

Except for reimbursable expenses which are subject to the provisions of Section 3 of this Exhibit, compensation under this Agreement shall be a fixed fee in accordance with the fees outlined in Table B1 below. The fixed fees represent the total compensation for the scope of services outlined in Exhibit A. Payments for this fixed fee will be made according to the Payment Provisions in Section 5 below.

TABLE B1

Services/Task	Description	Fixed Fee
Task 0	Project Management	$ 13,500
Task 1	Project Startup	$ 8,100
Task 2	Data Collection	$ 57,960
Task 3	Risk Analysis	$ 84,970
Task 4	Final Reports: Threat and Vulnerability Assessment Report, Substation Plans, Details and Specifications, and Updated Utility Security Plan	$ 56,880
Optional Item	Comprehensive Report to support recommendation for new control access software described in Section 2.2.3	$ 12,600
Reimbursable Expenses – Not to Exceed		
Reimbursable Expenses	Printing and travel related costs – Pursuant to Section 3 of this Exhibit B	$ 12,342

Services/Task	Description	Fixed Fee
Total		$ 246,352

SECTION 3. REIMBURSABLE EXPENSES

3.1 Reimbursable Expenses. Contractor may pass through costs such as, but not limited to printing, materials, equipment, and travel as listed in the Reimbursable Expenses Schedule in this Section. Any and all reimbursable expenses related the Services shall be reimbursable only to the extent that (1) Consultant submits sufficient documentation to City that the expenses were directly incurred in providing the required Services, (2) Consultant demonstrates that such expenses aren't included in the hourly rate where applicable, (3) such expenses were approved in advance, (4) Consultant submits receipts, invoices, or other supporting documentation demonstrating that such reimbursable costs were incurred, and (5) any Mark Up conforms with the Reimbursable Expense Schedule below.

	Reimbursable Expense Schedule	Mark Up
1.	The cost of mailing, shipping and/or delivery of any documents or materials.	No Markup
2.	The cost of photographing, printing, reproducing and/or copying any documents or materials.	No Markup
3.	Costs for outside services (including subcontractor fees, equipment, materials, and facilities not furnished directly by Consultant).	Not to exceed 10%
4.	Consultant may charge allowable mileage at the prevailing IRS rate per mile. Mileage is not applicable to rental cars. Rental cars are reimbursed at actual fuel cost only.	No Markup
5.	Unless approved in writing (e-mail acceptable) in advance, reimbursement to Consultant (and any subconsultants or subcontractors) for meals, lodging, and related per diem will not exceed the rates outlined by United States General Services Administration (GSA). https://www.gsa.gov/travel-resources. Airfare or rental car, where applicable shall be at economy rates.	No Markup
6.	Other reimbursable expenses with prior written approval from the City.	No Markup

SECTION 4. RATE ADJUSTMENTS

4.1 In the event that Services extend beyond two years from the Effective Date, Consultant may propose an adjustment to the fees in Table B1.

4.2 Consultant shall notify the City ninety (90) days in advance of any proposed adjustment to fees. Consultant must be able to substantiate such adjustments to the satisfaction of the City.

4.3 If accepted, all adjustments to Table B1 must be approved by the City by executing an amendment to this Agreement.

SECTION 5. PAYMENT PROVISIONS

5.1 Payment Schedule for Scope of Services (Fixed Fee):

5.1.1 Consultant shall provide a monthly invoice for the percentage of the services completed in the preceding month, provided that the total amount billed for each task does not exceed the amounts as outlined in Table B1. Each invoice must include the following information:

5.1.1.1 Invoice Number and Invoice Period.

5.1.1.2 Current amount due for each task.

5.1.1.3 Sufficient detail for City to verify the fixed fees in Table B1 have not been exceeded.

5.2 Pre-Payment. City shall not be required to pay a deposit or any other form of pre-payment prior to Consultant beginning the Services.

5.3 Payment Limited to Satisfactory Work. Consultant is not entitled to any payments until the City concludes that the Services and/or any furnished deliverables have been satisfactorily performed.

5.4 Accurate Invoice. If the invoice submitted by Consultant is not accurate, the invoice will be returned to Consultant to correct and resubmit before payment can be processed.

5.5 Payment. If there are no discrepancies or deficiencies in the submitted invoice and Consultant has submitted all required documentation, City shall process the invoice for payment.

5.6 Confidential. Invoices are not confidential even if marked as confidential when submitted.

EXHIBIT C
INSURANCE REQUIREMENTS

Without limiting the Consultant's indemnification of the City, and prior to commencing any of the Services required under this Agreement, the Consultant shall provide and maintain in full force and effect during the period of performance of the Agreement and for twenty-four (24) months following acceptance by the City, at its sole cost and expense, the following insurance policies from insurance companies authorized to do business in the State of California. These policies shall be primary insurance as to the City of Santa Clara so that any other coverage held by the City shall not contribute to any loss under Consultant's insurance. The minimum coverages, provisions and endorsements are as follows:

A. COMMERCIAL GENERAL LIABILITY INSURANCE

1. Commercial General Liability Insurance policy which provides coverage at least as broad as Insurance Services Office form CG 00 01. Policy limits are subject to review, but shall in no event be less than, the following:

   $1,000,000 Each Occurrence
   $2,000,000 General Aggregate
   $2,000,000 Products/Completed Operations Aggregate
   $1,000,000 Personal Injury

2. Exact structure and layering of the coverage shall be left to the discretion of Consultant; however, any excess or umbrella policies used to meet the required limits shall be at least as broad as the underlying coverage and shall otherwise follow form.

3. The following provisions shall apply to the Commercial Liability policy as well as any umbrella policy maintained by the Consultant to comply with the insurance requirements of this Agreement:

   a. Coverage shall be on a "pay on behalf" basis with defense costs payable in addition to policy limits;

   b. There shall be no cross liability exclusion which precludes coverage for claims or suits by one insured against another; and

   c. Coverage shall apply separately to each insured against whom a claim is made or a suit is brought, except with respect to the limits of liability.

B. BUSINESS AUTOMOBILE LIABILITY INSURANCE

Business automobile liability insurance policy which provides coverage at least as broad as ISO form CA 00 01 with policy limits a minimum limit of not less than one million dollars ($1,000,000) each accident using, or providing coverage at least as broad as, Insurance Services Office form CA 00 01. Liability coverage shall apply to all owned (if any), non-owned and hired autos.

C. WORKERS' COMPENSATION

1. Workers' Compensation Insurance Policy as required by statute and employer's liability with limits of at least one million dollars ($1,000,000) policy limit Bodily Injury by disease, one million dollars ($1,000,000) each accident/Bodily Injury and one million dollars ($1,000,000) each employee Bodily Injury by disease.

2. The indemnification and hold harmless obligations of Consultant included in this Agreement shall not be limited in any way by any limitation on the amount or type of damage, compensation or benefit payable by or for Consultant or any subconsultant under any Workers' Compensation Act(s), Disability Benefits Act(s) or other employee benefits act(s).

3. This policy must include a Waiver of Subrogation in favor of the City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents.

D. PROFESSIONAL LIABILITY

Professional Liability or Errors and Omissions Insurance as appropriate shall be written on a policy form coverage specifically designed to protect against negligent acts, errors or omissions of the Consultant. Covered services as designated in the policy must specifically include work performed under this agreement. Coverage shall be in an amount of not less than one million dollars ($1,000,000) per claim or two million dollars ($2,000,000) aggregate. Any coverage containing a deductible or self-retention must first be approved in writing by the City Attorney's Office.

E. COMPLIANCE WITH REQUIREMENTS

All of the following clauses and/or endorsements, or similar provisions, must be part of each commercial general liability policy, and each umbrella or excess policy.

1. Additional Insureds. City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents are hereby added as additional insureds in respect to liability arising out of Consultant's work for City, using

Insurance Services Office (ISO) Endorsement CG 20 10 11 85, or the combination of CG 20 10 03 97 and CG 20 37 10 01, or its equivalent.

2. Primary and non-contributing. Each insurance policy provided by Consultant shall contain language or be endorsed to contain wording making it primary insurance as respects to, and not requiring contribution from, any other insurance which the indemnities may possess, including any self-insurance or self-insured retention they may have. Any other insurance indemnities may possess shall be considered excess insurance only and shall not be called upon to contribute with Consultant's insurance.

3. Cancellation.

   a. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided due to non-payment of premiums shall be effective until written notice has been given to City at least ten (10) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least ten (10) days prior to the effective date of non-renewal.

   b. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided for any cause save and except non-payment of premiums shall be effective until written notice has been given to City at least thirty (30) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least thirty (30) days prior to the effective date of non-renewal.

4. Other Endorsements. Other endorsements may be required for policies other than the commercial general liability policy if specified in the description of required insurance set forth in Sections A through E of this Exhibit C, above.

F. ADDITIONAL INSURANCE RELATED PROVISIONS

Consultant and City agree as follows:

1. Consultant agrees to ensure that subconsultants, and any other party involved with the Services, who is brought onto or involved in the performance of the Services by Consultant, provide the same minimum insurance coverage required of Consultant, except as with respect to limits. Consultant agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this Agreement. Consultant agrees that upon

request by City, all agreements with, and insurance compliance documents provided by, such subconsultants and others engaged in the project will be submitted to City for review.

2. Consultant agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge City or Consultant for the cost of additional insurance coverage required by this Agreement. Any such provisions are to be deleted with reference to City. It is not the intent of City to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against City for payment of premiums or other amounts with respect thereto.

3. The City reserves the right to withhold payments from the Consultant in the event of material noncompliance with the insurance requirements set forth in this Agreement.

G. EVIDENCE OF COVERAGE

Prior to commencement of any Services under this Agreement, Consultant, and each and every subconsultant (of every tier) shall, at its sole cost and expense, provide and maintain not less than the minimum insurance coverage with the endorsements and deductibles indicated in this Agreement. Such insurance coverage shall be maintained with insurers, and under forms of policies, satisfactory to City and as described in this Agreement. Consultant shall file with the City all certificates and endorsements for the required insurance policies for City's approval as to adequacy of the insurance protection.

H. EVIDENCE OF COMPLIANCE

Consultant or its insurance broker shall provide the required proof of insurance compliance, consisting of Insurance Services Office (ISO) endorsement forms or their equivalent and the ACORD form 25-S certificate of insurance (or its equivalent), evidencing all required coverage shall be delivered to City, or its representative as set forth below, at or prior to execution of this Agreement. Upon City's request, Consultant shall submit to City copies of the actual insurance policies or renewals or replacements. Unless otherwise required by the terms of this Agreement, all certificates, endorsements, coverage verifications and other items required to be delivered to City pursuant to this Agreement shall be emailed to ctsantaclara@ebix.com, or by mail to:

EBIX Inc.
City of Santa Clara – Silicon Valley Power
P.O. Box 100085 – S2
Duluth, GA 30096

Telephone number: 951-766-2280

Fax number: 770-325-0409

I. QUALIFYING INSURERS

ALL OF THE INSURANCE COMPANIES PROVIDING INSURANCE FOR CONSULTANT SHALL HAVE, AND PROVIDE WRITTEN PROOF OF, AN A. M. BEST RATING OF AT LEAST A MINUS 6 (A- VI) OR SHALL BE AN INSURANCE COMPANY OF EQUAL FINANCIAL STABILITY THAT IS APPROVED BY THE CITY OR ITS INSURANCE COMPLIANCE REPRESENTATIVES.

EBIX Insurance No. S200005646

AMENDMENT NO. 1
TO THE AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
CLARIS STRATEGY INC.

PREAMBLE

This agreement ("Amendment No. 1") is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and Claris Strategy, a California corporation, (Contractor). City and Contractor may be referred to individually as a "Party" or collectively as the "Parties."

RECITALS

A. The Parties previously entered into an agreement entitled "Agreement for Services between the City of Santa Clara, California, and Claris Strategy Inc, dated July 28, 2025 (Agreement); and

B. The City Council approved Resolution No. 25-9463 which authorized the use of an expedited procurement process for implementation of Projects to address security improvements to City facilities and critical City services in advance of certain high-profile international events in 2026;

C. The Parties wish to amend the Agreement to (1) amend the Scope of Services to include Additional Services, in accordance with Section 7 of Exhibit A, to develop an Event Specific Security Plan for the City's Electric Utility, Silicon Valley Power ("SVP"), and (2) increase maximum compensation by $128,887, for a revised not-to-exceed maximum compensation of $375,239, subject to the appropriation of funds; and

D. The proposed Additional Services fall with the Resolution No. 25-9463 in that the Event Specific Security Plan will assist with addressing certain potential risks identified by U.S. Department of Homeland Security, Cyber & Infrastructure Security Agency (CISA).

NOW, THEREFORE, the Parties agree as follows:

AMENDMENT TERMS AND CONDITIONS

1. Section 6 of the Agreement is amended to read as follows:

   "In consideration for Contractor's complete performance of Services, City shall pay Contractor for all materials provided and Servicers rendered by Contractor in

Docusign Envelope ID: A2EC93CB-04B1-4341-8359-8D50E745BF12

accordance with First Revised Exhibit B, entitled "SCHEDULE OF FEES AND PAYMENT PROVISIONS." The Maximum Compensation of this Agreement during the Term is Three Hundred Seventy-Five Thousand Two Hundred Thirty-Nine Dollars ($375,239.00) subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services. All work performed or materials provided in excess of the Maximum Compensation shall be at the Contractor's expense. City does not guarantee any minimum compensation under this Agreement. Contractor shall not be entitled to any payment above the Maximum Compensation under any circumstance."

2. Section 3 of Exhibit A of the Agreement, entitled "Scope of Services", is hereby amended by adding Tasks 5 through 10, to provide an Event Specific Security Plan for SVP, attached hereto and incorporated into the Agreement as Amended by reference.

3. Exhibit B of the Agreement is hereby amended in its entirety with the First Revised Exhibit B , attached and incorporated into the Agreement as Amended by reference.

4. Except as set forth herein, all other terms and conditions of the Agreement shall remain in full force and effect. In case of a conflict in the terms of the Agreement and this Amendment No. 1, the provisions of this Amendment No. 1 shall control.

The effective date of this Amendment No. 1 is the date of the City's execution of this amendment.

ADDENDUM TO EXHIBIT A
SCOPE OF SERVICES
ADDITION OF TASKS 5-10 TO SECTION 3 OF EXHIBIT A

EVENT SPECIFIC SECURITY PLAN (TASK 5-10)

Consultant shall provide additional comprehensive professional services to prepare an Event Specific Security Plan for the City's Electric Utility Department, Silicon Valley Power (SVP).

3.5 Task 5 – Development of Event Specific Security Plan

The objective of this task is to provide City an Event Specific Security Plan ("ESSP") for seven (7) SVP sites that could be impacted by the 2026 Super Bowl event to be held at Levi Stadium.

3.5.1 ESSP Project Startup/Project Management

3.5.1.1 Contractor shall coordinate with SVP staff to confirm project goals and objectives, request background materials and establish project logistics.

3.5.1.2 Contractor shall request any pertinent background materials and data for review and use throughout the Services. These may include:

3.5.1.2.1 Safety and security plans relevant to the Event Specific Security Plan ("Plan")

3.5.1.2.2 Relevant security standard operating procedures

3.5.1.2.3 Previous hazards and risk assessment studies

3.5.1.2.4 Site maps and facility floor plans

3.5.1.2.5 Electronic security systems at these facilities

3.5.1.2.6 After-action reports

3.5.1.2.7 Previous related studies and reports

3.5.2 Project Kickoff Meeting. The Kickoff Meeting will be held virtually and begin coordination with SVP staff for the ESSP Project. The Meeting will include:

Docusign Envelope ID: A2EC93CB-04B1-4341-8359-8D50E745BF12

3.5.2.1 Review of ESSP Project scope, schedule and work plan.

3.5.2.2 Confirmation of planning team, including City, SVP and Contractor team members' roles and responsibilities.

3.5.2.3 Discussion of data collection methods.

3.5.2.4 Establishment of communication channels.

3.5.2.5 Confirmation of key project dates.

3.5.2.6 Confirmation of planning team meeting dates.

3.5.2.7 Confirmation of deliverables.

3.5.2.8 Initiate scheduling interviews and coordination meetings

3.6 Task 6 - Information Collection.

The objective of this task is for the Contractor to develop an understanding of current emergency and security operations at SVP.

3.6.1 Stakeholder Interviews

Contractor will conduct up to five (5) virtual stakeholder interviews with key staff identified by the SVP project team. Each interview will be approximately 1 to ½ hour in length. The initial set of stakeholders will consist of members from the following:

3.6.1.1 SVP staff and contractors responsible for security and emergency planning.

3.6.1.2 Santa Clara Police Department.

3.6.1.3 Santa Clara Fire Department

3.6.1.4 Santa Clara County Sheriff's Department

3.6.1.5 Other law enforcement, security agencies and emergency response personnel responsible for security for the special events.

3.6.2 Site Walks

During the development of the Plan Contractor shall conduct site walks of the seven (7) identified sites for the concurrent threat and vulnerability assessment (TVA) project. During the site walks, Contractor will review security measures in place relevant to planning for the special events. The review may include security staffing, security procedures and physical security currently in place. Information from the site walks is to be used for developing the ESSP.

3.6.3 Document Review

Contractor will perform a detailed review of the material received and the information obtained and will develop a picture of the current state of security operations and security preparations for the special events and identify any gaps in security.

3.6.4 Informal Tabletop Exercise

Contractor will conduct an informal virtual tabletop exercise with stakeholders to walk through a scenario on how SVP would handle such as an attack on a substation providing power to Levi Stadium.

3.7 Task 7 – Stakeholder Coordination Meetings

Contractor will conduct up to five (5) stakeholder coordination meetings throughout the duration of the Project. The meetings will be held virtually, and will include the City's Police and Fire Departments, other law enforcement agencies, SVP staff and security contractors responsible for planning for the events. During the meetings, Contractor will work with the stakeholders to define liaison roles and information-sharing protocols, and will establish joint command procedures.

3.8 Task 8 Plan Development

3.8.1 Draft Plan Development. Contractor will develop a draft of the Plan, that may include:

3.8.1.1 Executive Summary

3.8.1.2 Plan Timeline

3.8.1.3 Intelligence and threat monitoring

3.8.1.4 Critical stakeholders

3.8.1.5 Communication protocols

3.8.1.6 Critical facilities and infrastructure

3.8.1.7 Security staffing and deployment

3.8.1.8 Incident management team activation and roles

3.8.1.9 Collaboration with external stakeholders

3.8.1.10 Compliance and regulatory oversight

3.8.1.11 Training and awareness

Docusign Envelope ID: A2EC93CB-04B1-4341-8359-8D50E745BF12

3.8.1.12 Post-event review

3.8.2 Draft Plan Review Meeting

Contractor will conduct a virtual meeting with City to review and discuss the draft Plan. Contractor will provide guidance on specific areas to review and indicate areas of the Plan which requires additional information.

3.8.3 Final Event Plan

Contractor will incorporate any changes into the final Plan and submit the final Plan to City for approval. Contractor shall provide digital copies of the Plan in Microsoft Word and PDF formats.

3.9 Task 9 – Event Training and Post-Event Review

3.9.1 Event Plan Training

Contractor shall conduct a virtual event training session for SVP staff, first responders and contractors on the Plan. The training will review plan objectives, response procedures, coordination protocols, and communication methods.

3.9.2 Post-Event Review

Following the event, Contractor shall conduct a post-event debrief with all stakeholders to evaluate the effectiveness of the Plan, identify lessons learned, and recommend improvements for future events.

3.10 Task 10 – Optional Task – Implementation and Event Operations

At the City's direction, two members from the Contractor's team, will support City staff in implementing the Plan and providing guidance throughout its execution throughout the Super Bowl event. Optional support tasks may include finalizing staffing and deployment schedules, testing communication and monitoring systems, coordinating security efforts, and maintaining real-time coordination with law enforcement.

The Services described in Tasks 5 -10 shall be completed within five (5) months from the time the City issues the notice to proceed.

Docusign Envelope ID: A2EC93CB-04B1-4341-8359-8D50E745BF12

FIRST REVISED EXHIBIT B

SCHEDULE OF FEES AND PAYMENT PROVISIONS

SECTION 1. MAXIMUM COMPENSATION

The maximum compensation payable to Consultant during the Term shall not exceed the amount in Section 6 of this Agreement.

SECTION 2. FIXED FEE FOR SCOPE OF SERVICES

Except for reimbursable expenses which are subject to the provisions of Section 3 of this Exhibit, compensation under this Agreement shall be a fixed fee in accordance with the fees outlined in Table B1 below. The fixed fees represent the total compensation for the Services. Payments for this fixed fee will be made according to the Payment Provisions in Section 5 below.

TABLE B1

Services/Task	Description	Fixed Fee
Task 0	Project Management	$13,500
Task 1	Project Startup	$8,100
Task 2	Data Collection	$57,960
Task 3	Risk Analysis	$84,970
Task 4	Final Reports: Threat and Vulnerability Assessment Report, Substation Plans, Details and Specifications, and Updated Utility Security Plan	$56,880
Optional Item 1	Comprehensive Report to support recommendation for new control access software described in Section 2.2.3	$12,600
Reimbursable Expenses	Travel related costs for Tasks 0-4, Pursuant to Section 3 of this Exhibit B	$12,342

Docusign Envelope ID: A2EC93CB-04B1-4341-8359-8D50E745BF12

Services/Task	Description	Fixed Fee
Subtotal	**Tasks 0-4 and Optional Item 1**	**$246,352**
	Event Specific Security Plan (ESPP)	
Task 5 ESSP Project Start-Up/Project Management	Request for Background Materials Virtual Project Kick-Off Meeting	$14,000
Task 6 ESSP Information Collection	Conduct stakeholder interviews, site walks, document review and informal tabletop exercise	$12,250
Task 7 ESSP Stakeholder Coordination Meetings	Conduct up to five (5) virtual stakeholder coordination meetings	$20,000
Task 8 ESSP Plan Development	Develop draft Plan, virtual draft plan meeting with City, submittal of final Plan for approval	$42,350
Task 9 ESSP Event Training and Post-Even Review	Provide virtual event Plan training session for SVP staff, first responders and contractors, and conduct post-event debrief with all stakeholders	$10,000
Task 10 – **Optional** – Implementation and Event Operations during 2026 Super Bowl event	Contractor to provide implementation support and guidance with executing the Plan during 2026 Super Bowl	$14,000
Reimbursable Expenses	Travel related costs for Optional Task 10– Pursuant to Section 3 of this Exhibit B	$ 4,170
Contingency		$12,117
Subtotal Tasks 5-10 plus contingency for ESSP		**$128,887**
TOTAL		**$375,239**

Docusign Envelope ID: A2EC93CB-04B1-4341-8359-8D50E745BF12

SECTION 3. REIMBURSABLE EXPENSES

3.1 **Reimbursable Expenses.** Contractor may pass through costs such as, but not limited to printing, materials, equipment, and travel as listed in the Reimbursable Expenses Schedule in this Section. Any and all reimbursable expenses related the Services shall be reimbursable only to the extent that (1) Consultant submits sufficient documentation to City that the expenses were directly incurred in providing the required Services, (2) Consultant demonstrates that such expenses aren't included in the hourly rate where applicable, (3) such expenses were approved in advance by the City in writing, (4) Consultant submits receipts, invoices, or other supporting documentation demonstrating that such reimbursable costs were incurred, and (5) any Mark Up conforms with the Reimbursable Expense Schedule below.

	Reimbursable Expense Schedule	Mark Up
1.	The cost of mailing, shipping and/or delivery of any documents or materials.	No Markup
2.	The cost of photographing, printing, reproducing and/or copying any documents or materials.	No Markup
3.	Costs for outside services (including subcontractor fees, equipment, materials, and facilities not furnished directly by Consultant).	Not to exceed 10%
4.	Consultant may charge allowable mileage at the prevailing IRS rate per mile. Mileage is not applicable to rental cars. Rental cars are reimbursed at actual fuel cost only.	No Markup
5.	Unless approved in writing (e-mail acceptable) in advance, reimbursement to Consultant (and any subconsultants or subcontractors) for meals, lodging, and related per diem will not exceed the rates outlined by United States General Services Administration (GSA). https://www.gsa.gov/travel-resources. Airfare or rental car, where applicable shall be at economy rates.	No Markup
6.	Other reimbursable expenses with prior written approval from the City.	No Markup

SECTION 4. RATE ADJUSTMENTS

a. In the event that Services extend beyond two years from the Effective Date, Consultant may propose an adjustment to the fees in Table

Docusign Envelope ID: A2EC93CB-04B1-4341-8359-8D50E745BF12

b. Consultant shall notify the City ninety (90) days in advance of any proposed adjustment to fees. Consultant must be able to substantiate such adjustments to the satisfaction of the City.

c. If accepted, all adjustments to Table B1 must be approved by the City by executing an amendment to this Agreement.

SECTION 5 PAYMENT PROVISIONS

5.1 Payment Schedule for Scope of Services (Fixed Fee):

5.1.1 Consultant shall provide a monthly invoice for the percentage of the services completed in the preceding month, provided that the total amount billed for each task does not exceed the amounts as outlined in Table B1. Each invoice must include the following information:

5.1.1.1 Invoice Number and Invoice Period.

5.1.1.2 Current amount due for each task.

5.1.1.3 Sufficient detail for City to verify the fixed fees in Table B1 have not been exceeded.

5.2. Pre-Payment. City shall not be required to pay a deposit or any other form of pre-payment prior to Consultant beginning the Services.

5.3. Payment Limited to Satisfactory Work. Consultant is not entitled to any payments until the City concludes that the Services and/or any furnished deliverables have been satisfactorily performed.

5.4. Accurate Invoice. If the invoice submitted by Consultant is not accurate, the invoice will be returned to Consultant to correct and resubmit before payment can be processed.

5.5. Payment. If there are no discrepancies or deficiencies in the submitted invoice and Consultant has submitted all required documentation, City shall process the invoice for payment.

5.6. Confidential. Invoices are not confidential even if marked as confidential when submitted.

RESOLUTION NO. 25-9463

A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA, DECLARING AN URGENCY IN ACCORDANCE WITH SANTA CLARA CITY CHARTER SECTION 1310 TO ALLOW FOR AWARD OF PUBLIC WORKS CONTRACTS FOR PROJECTS IMPLEMENTING SECURITY MEASURES TO MITIGATE RISKS TO PUBLIC SERVICES AND FACILITIES WITHOUT ADVERTISING FOR BIDS

WHEREAS, on June 17, 2025, the City Council received a presentation from a representative of the U.S. Department of Homeland Security, Cyber & Infrastructure Security Agency (CISA) regarding security risks and vulnerabilities affecting public services and City facilities;

WHEREAS, the conditions described in the presentation create significant risks that if not properly addressed could leave City facilities and critical City services vulnerable to damage or destruction by bad actors;

WHEREAS, risk and threat levels are on the rise in the United States and internationally, and the City is scheduled to host high-profile international events in 2026;

WHEREAS, in light of these significant risks, there is an urgent need to implement projects that address such vulnerabilities on an expedited timeline;

WHEREAS, the categories of projects that are needed to address the vulnerabilities generally include installing fencing and perimeter security improvements, barrier/K-Rails, and security camera systems (the “Projects”);

WHEREAS, Santa Clara City Charter 1310 authorizes the City Council to award public works contracts without advertising for bids if the City Council deems the work to be of urgency necessity for the preservation of life, health or property; and

WHEREAS, based on these recitals and declaration of facts contained in this Resolution, the staff report, and public testimony presented during the City Council meeting, Council believes the work implementing the Projects constitutes an urgency necessity justifying the use of expedited procurement processes for the preservation of life, health, and property;

//

NOW THEREFORE, BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

1. The City Council hereby deems the work implementing the Projects to be of urgent necessity for the preservation of life, health, and property based on the following declaration of facts:

A. During a presentation to the City Council, CISA provided a risk assessment of certain City facilities which revealed security risks and vulnerabilities at certain City facilities.

B. With risk and threat levels on the rise, both in the United States and internationally, and with the City scheduled to host high-profile international events in 2026, there is an urgent need to address these vulnerabilities on an expedited timeline.

C. If the Projects intended to address such vulnerabilities are not completed on an expedited basis, and with sufficient time for testing in preparation for the upcoming events, critical City services could be vulnerable to damage or destruction by bad actors;

D. An expedited procurement process will reduce the time required to implement necessary security improvements by several months and help ensure that City facilities are secure during the City's upcoming events.

//

//

//

//

//

//

//

//

//

//

2. In light of the foregoing declaration and determination, the City Council hereby waives the standard requirements under Charter Section 1310 that would otherwise require advertising for bids for the award of the Projects, thereby allowing for awards of public works contracts to contractors without advertising for bids. Whenever practical, City staff shall implement other practices to assure the award of contracts to qualified contractors at reasonable rates, consistent with the practices described in the staff report.

3. Effective date. This resolution shall become effective immediately.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED AND ADOPTED BY THE CITY OF SANTA CLARA, CALIFORNIA, AT A REGULAR MEETING THEREOF HELD ON THE 8TH DAY OF JULY, 2025, BY THE FOLLOWING VOTE:

AYES:	COUNCILORS:	Chahal, Cox, Gonzalez, Hardy, Jain, and Park, and Mayor Gillmor
NOES:	COUNCILORS:	None

AMENDMENT NO. 2
TO THE AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
CLARIS STRATEGY INC

PREAMBLE

This agreement ("Amendment No. 2") is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and Claris Strategy, a California corporation, (Contractor). City and Contractor may be referred to individually as a "Party" or collectively as the "Parties."

RECITALS

A. The Parties previously entered into an agreement entitled "Agreement for Services between the City of Santa Clara, California, and Claris Strategy Inc", dated July 28, 2025 (Agreement) for the purpose of having Contractor provide comprehensive professional electric utility consulting services for the City's Electric Utility Department, Silicon Valley Power (SVP);

B. The Agreement was previously amended by Amendment No. 1, dated October 28, 2025, and is again amended by this Amendment No. 2. The Agreement and all previous amendments are collectively referred to herein as the "Agreement as Amended"; and

C. The Parties now wish to amend the Agreement as Amended to expand the Scope of Services to include five (5) additional sites to the threat and vulnerability assessment (TVA) and update to the 2021 Utility Security Plan, and to increase the maximum compensation for the additional services.

NOW, THEREFORE, the Parties agree as follows:

AMENDMENT TERMS AND CONDITIONS

1. Section 6 of the Agreement as Amended is amended in its entirety to read as follows:

   "In consideration for Contractor's complete performance of Services, City shall pay Contractor for all materials provided and Servicers rendered by Contractor in accordance with Exhibit B (Second Revised) , entitled "SCHEDULE OF FEES AND PAYMENT PROVISIONS." The Maximum Compensation of this Agreement during the Term is Four Hundred Nine Thousand Eighty-Eight Dollars ($409,088.00) subject to budget

appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services. All work performed or materials provided in excess of the Maximum Compensation shall be at the Contractor's expense. City does not guarantee any minimum compensation under this Agreement. Contractor shall not be entitled to any payment above the Maximum Compensation under any circumstance.:

2. Section 1.1.1 of Exhibit A of the Agreement as Amended is hereby amended in its entirety to read as follows:

    1.1.1 A threat and vulnerability assessment (TVA) report for a total of forty-four (44) unique sites, including:

        1.1.1.1 Thirty-five (35) City substations

        1.1.1.2 One (1) switching station

        1.1.1.3 Donald Von Raesfeld Power Plant (DVR)

        1.1.1.4 Gianera Generating Station (Gianera)

        1.1.1.5 Natural Gas Pipeline & Natural Gas Compressor Station

        1.1.1.6 Cogen Power Plant #1

        1.1.1.7 Space Park Interconnection Station

        1.1.1.8 Office and storage facilities at 881 Martin Avenue

        1.1.1.9 Municipal Services Yard at 1705 Martin Avenue

        1.1.1.10 60 kV Storage Yard

3. Section 2.3.4 of Exhibit A of the Agreement as Amended is hereby amended in its entirety to read as follows:

    2.3.4 Consultant shall review and update the 2021 Utility Security Plan to include up to six (6) of the forty-four (44) sites identified in Section 1.1.1. Consultant shall submit an updated plan that complies with the requirements of the California Public Utilities Commission (CPUC) Decision 19-01-018. The report shall include, but not be limited to, the following

        2.3.4.1 Overview

        2.3.4.2 Background

        2.3.4.3 Plan Development Process

2.3.4.4 Identification of Covered Distribution Facilities

2.3.4.5 Risk Assessment per Site

2.3.4.6 Covered Distribution Facility Mitigation Plans per Site

2.3.4. 7 Independent Evaluation and Response

2.3.4.8 Validation

2.3.4.9 Narrative Descriptions for Utility Security Plan

4. Section 3.2.1 of Exhibit A of the Agreement as Amended is hereby amended in its entirety to read as follows:

3.2.1 Site and Facilities to Assess

3.2.1.1 Consultant to conduct site visits to assess forty-four (44) SVP sites including:

3.2.1.1.1 Thirty-five (35) City substations.

3.2.1.1.2 Switching Station

3.2.1.1.3 Donald Von Raesfeld Power Plant (DVR)

3.2.1.1.4 Gianera Generating Station (Gianera)

3.2.1.1.5 Natural Gas Pipeline & Natural Gas Compressor Station

3.2.1.1.6 Cogen Power Plant #1

3.2.1.1.7 Space Park Interconnection Station

3.2.1.1.8 Office and storage facilities at 881 Martin Avenue

3.2.1.1.9 Municipal Services Yard at 1705 Martin Avenue

3.2.1.1.10 60 kV Storage Yard

4 Section 3.4.5.4 of Exhibit A of the Agreement as Amended is hereby amended in its entirety to read as follows

3.4.5.4 Analysis of up to six (6) sites of the forty-four (44) sites identified in Section 1.1.1.

5 Exhibit B of the Agreement as Amended is hereby amended in its entirety and replaced with Exhibit B (Second Revised), attached and incorporated into the Agreement as Amended by reference

6 Except as set forth herein, all other terms and conditions of the Agreement as Amended shall remain in full force and effect. In case of a conflict in the terms of the Agreement as Amended and this Amendment No. 2, the provisions of this Amendment No.2 shall control.

The effective date of this Amendment No. 2 is the date of City's execution of this amendment.

The Parties acknowledge and accept the terms and conditions of this Amendment No. 2 as evidenced by the following signatures of their duly authorized representatives.

Task 8 ESSP Plan Development	Develop draft Plan, virtual draft plan meeting with City, submittal of final Plan for approval	$42,350
Task 9 ESSP Event Training and Post-Even Review	Provide virtual event Plan training session for SVP staff, first responders and contractors, and conduct post-event debrief with all stakeholders	$10,000
Task 10 – **Optional** – Implementation and Event Operations during 2026 Super Bowl event	Contractor to provide implementation support and guidance with executing the Plan during 2026 Super Bowl	$14,000
Reimbursable Expenses	Travel related costs for Optional Task 10– Pursuant to Section 3 of this Exhibit B	$ 4,170
Contingency		$12,117
Subtotal Tasks 5-10 plus contingency for ESSP		**$128,887**
TOTAL		**$409,088**

SECTION 3. REIMBURSABLE EXPENSES

3.1 **Reimbursable Expenses**. Contractor may pass through costs such as, but not limited to printing, materials, equipment, and travel as listed in the Reimbursable Expenses Schedule in this Section. Any and all reimbursable expenses related the Services shall be reimbursable only to the extent that (1)

Consultant submits sufficient documentation to City that the expenses were directly incurred in providing the required Services, (2) Consultant demonstrates that such expenses aren't included in the hourly rate where applicable, (3) such expenses were approved in advance by the City in writing, (4) Consultant submits receipts, invoices, or other supporting documentation demonstrating that such reimbursable costs were incurred, and (5) any Mark Up conforms with the Reimbursable Expense Schedule below.

Reimbursable Expense Schedule		Mark Up
1.	The cost of mailing, shipping and/or delivery of any documents or materials.	No Markup
2.	The cost of photographing, printing, reproducing and/or copying any documents or materials.	No Markup
3.	Costs for outside services (including subcontractor fees, equipment, materials, and facilities not furnished directly by Consultant).	Not to exceed 10%
4.	Consultant may charge allowable mileage at the prevailing IRS rate per mile. Mileage is not applicable to rental cars. Rental cars are reimbursed at actual fuel cost only.	No Markup
5.	Unless approved in writing (e-mail acceptable) in advance, reimbursement to Consultant (and any subconsultants or subcontractors) for meals, lodging, and related per diem will not exceed the rates outlined by United States General Services Administration (GSA). https://www.gsa.gov/travel-resources. Airfare or rental car, where applicable shall be at economy rates.	No Markup
6.	Other reimbursable expenses with prior written approval from the City.	No Markup

SECTION 4. RATE ADJUSTMENTS

6.2 In the event that Services extend beyond two years from the Effective Date, Consultant may propose an adjustment to the fees in Table

6.3 Consultant shall notify the City ninety (90) days in advance of any proposed adjustment to fees. Consultant must be able to substantiate such adjustments to the satisfaction of the City.

6.4 If accepted, all adjustments to Table B1 must be approved by the City by executing an amendment to this Agreement.

SECTION 5 PAYMENT PROVISIONS

5.1 Payment Schedule for Scope of Services (Fixed Fee):

5.1.1 Consultant shall provide a monthly invoice for the percentage of the services completed in the preceding month, provided that the total amount billed for each task does not exceed the amounts as outlined in Table B1. Each invoice must include the following information:

5.1.1.1 Invoice Number and Invoice Period.

5.1.1.2 Current amount due for each task.

5.1.1.3 Sufficient detail for City to verify the fixed fees in Table B1 have not been exceeded.

5.2. Pre-Payment. City shall not be required to pay a deposit or any other form of pre-payment prior to Consultant beginning the Services.

5.3. Payment Limited to Satisfactory Work. Consultant is not entitled to any payments until the City concludes that the Services and/or any furnished deliverables have been satisfactorily performed.

5.4. Accurate Invoice. If the invoice submitted by Consultant is not accurate, the invoice will be returned to Consultant to correct and resubmit before payment can be processed.

5.5. Payment. If there are no discrepancies or deficiencies in the submitted invoice and Consultant has submitted all required documentation, City shall process the invoice for payment.

5.6. **Confidential.** Invoices are not confidential even if marked as confidential when submitted.

25-91 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT

Action to Authorize the Use of City Electric Forces for Public Works to Decommission an Existing Dark Fiber Route from 3075 Raymond Street, 3030 Corvin Drive, 1380 Kifer Road, to 2050 Martin Avenue, with an Estimated Cost of $1,558

BACKGROUND

Section 1310 of the Santa Clara City Charter (Contracts on Public Works) states “that every contract involving an expenditure of more than one thousand dollars ($1,000) for the construction or improvement (excluding maintenance and repair) of public buildings, works, streets, drains, sewers, utilities, parks and playgrounds shall be let to the lowest responsible bidder.” The section further states that “the City Council may declare and determine that, in its opinion, the work in question may be performed better or more economically by the City with its own employees, and after the adoption of a resolution to this effect by at least four affirmative votes, it may proceed to have said work done in the manner stated, without further observance of the provisions of this section.”

Since 2014, Silicon Valley Power (SVP) developed a Fiber Splicing Technician position as an in-house position to primarily perform maintenance and repairs to meet the performance standards of fiber customers, which includes City departments and commercial customers. Fiber Splicing Technician activities include basic splicing and distribution changes to fiber optic cables. The technician can also perform duties such as pulling, laying, aligning, and positioning fiber optic equipment for new connections to SVP’s fiber network. Fiber Splicing Technicians also perform fusion splicing at building entrances and in maintenance spaces. Currently, SVP employs two Fiber Splicing Technicians.

DISCUSSION

Currently, the SVP fiber optic network serves SVP, other City departments, and various commercial customers. The Fiber Splicer Technician performs a variety of specialized activities from maintenance and repair to new or re-spliced interconnections to SVP’s network. Each interconnection can be unique, involving different hours of labor depending on the number of fibers required to be spliced and the particular location within the network.

Large or extensive projects involving extending fiber cable being laid along new paths or significant distances or adding conduit or related infrastructure are performed by a construction contractor through a public works contract. SVP spends up to $1 million per year on these public works contracts.

Staff believes that the work described below is better performed with City forces based upon the following factors: (1) the work is limited in size and scope; (2) City forces have knowledge and training in operating, maintaining and repairing the fiber optic system that can be leveraged to more

economically perform this work; and (3) bidding out the work and contracting with a private entity would not likely result in a lower overall cost or time savings.

Therefore, staff recommend that the City Council declare and determine that City forces can better perform the following fiber optic projects and approve the use of City forces for such projects:

Estimate Number:	FWM#01782
Location:	Route from 3075 Raymond Street, 3030 Corvin Drive, 1380 Kifer Road, to 2050 Martin Avenue
Type of Service:	Fiber
Description of Work:	Decommission an existing dark fiber route from 3075 Raymond Street, 3030 Corvin Drive, 1380 Kifer Road, to 2050 Martin Avenue for a fiber lease customer.
Estimated Cost:	$1,558
Appropriation:	Electric Utility Capital Fund (591) Project 2004 - Fiber Development Design & Expansion
Source of Revenue:	Developer Contribution

ENVIRONMENTAL REVIEW

Staff recommends that the City Council determine that the action being considered is exempt from the California Environmental Quality Act (“CEQA”) pursuant to Section 15301 (Class 1 - Existing Facilities) of Title 14 of the California Code of Regulations, as the proposed work consists of the decommissioning of existing fiber optic facilities.

FISCAL IMPACT

The funds to support the staff time for work performed by Silicon Valley Power (SVP) and related construction materials for the work detailed in this report, totaling $1,558, are included in the Fiscal Year 2025/26 Budget, Fiber Development, Design, and Expansion project in the Electric Utility Capital Fund. All referenced work will be performed with City Electric Forces (SVP staff). Some work associated with encroachment permits may be performed by the Department of Public Works (DPW). DPW costs are recovered through payment of permit fees.

COORDINATION

This report has been coordinated with the Finance Department and City Attorney’s Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City’s website and in the City Clerk’s Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk’s Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Determine the proposed action is exempt from CEQA pursuant to Section 15301 (Class 1 - Existing Facilities) of Title 14 of the California Code of Regulations; and
2. Declare and determine in accordance with Section 1310 of the City Charter that the public works

with an estimated cost of $1,558, located along the route from 3075 Raymond Street, 3030 Corvin Drive, 1380 Kifer Road, to 2050 Martin Avenue, are better performed by the City with its own employees based on the information set forth in this Report to Council and authorize the performance of these public works consistent with this authorization.

Source of Revenue:	Customer/Developer Contribution

Estimate Number:	37957
Location:	2885 Lakeside Drive
Type of Service:	New Business (2005)
Description of Work:	Install approximately 300' of 1/0 aluminum underground cable, (6) splices, (6) 200 Amp terminations, secondary connections, 1000 kVA padmount transformer and 1200 Amp meter & devices.
Estimated Cost:	$44,677
Appropriation:	Electric Utility Capital Fund (91) Project 2005 - New Business Estimate Work
Source of Revenue:	Customer/Developer Contribution

Historically, City staff has performed small project work like this under the use of City Forces exception and justification above. In preparation for the implementation and roll out of the new Arcos crew management system scheduled to go live in Fall 2025, SVP staff will be developing a process to review this practice on a routine basis to provide further support for this approach.

ENVIRONMENTAL REVIEW

Staff recommends that the City Council determine that the action being considered is exempt from the California Environmental Quality Act ("CEQA") pursuant to section 15302 (Class 2 -Replacement or Reconstruction) Section 15303 (New Construction) of Title 14 of the California Code of Regulations as the proposed work involves the replacement of electric facilities and the installation of small electric facilities involving negligible expansion of capacity.

FISCAL IMPACT

The funds to support the staff time for work performed by Silicon Valley Power (SVP) and related construction materials for the work detailed in this report totaling $212,189 are included in the FY 2025/26 Adopted CIP Budget, in Project 2005 - New Business Estimate Work in the Electric Utility Capital Fund. All of the referenced work will be performed by City SVP staff. Some work associated with encroachment permits may be performed by the Department of Public Works (DPW). DPW costs are recovered through payment of permit fees.

COORDINATION

This report has been coordinated with the Finance Department and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Determine that the proposed action is exempt from CEQA pursuant to Section 15302 (Class 2 - Replacement or Reconstruction) and Section 15303 (New Construction) of Title 14 of the California Code of Regulations; and
2. Declare and determine in accordance with Section 1310 of the City Charter that the public works located at 4600 Patrick Henry Drive, 2700 Tasman Drive, 5129 Old Ironsides Drive, 4808 Great America Parkway, 5100 Patrick Henry Drive, 4855 Patrick Henry Drive, 2256 Avenida de Los Alumnos, 2451 Tasman Drive, 2685 The Alameda, and 2885 Lakeside Drive, with an estimated cost of $212,189, are better performed by the City with its own employees based on the information set forth in this Report to Council and authorize the performance of these public works consistent with this authorization.

REPORT TO COUNCIL

SUBJECT

Action on Recommendations from Governance and Ethics Committee for Updates to Council Policy 043 ("Official Travel by City Councilmembers")

BACKGROUND

As background, Council Policy 043 ("Official Travel by Elected Officials") (Attachment 1) was identified for review and revision as part of the Governance and Ethics Committee (Committee) workplan. The policy establishes guidelines for official travel by City Councilmembers, defines reimbursable expenses for official travel, and ensures compliance with fiscal responsibility standards.

At the September 8, 2025 Committee meeting, staff presented proposed amendments to Council Policy 043 which included general cleanup language, clarifications, and additional procedures.

During its discussion ,the Committee provided further direction regarding reimbursable meal rates. The existing policy limited reimbursement for meals on the first and last day to 75% of the applicable U.S. General Services Administration (GSA) per diem rate. Committee members noted that actual travel schedules may necessitate full meals regardless of departure or return timing and recommended updating the policy to allow reimbursement at 100% of the GSA per diem rate for all days of authorized travel.

The Committee approved the staff recommendations to amend Council Policy 043 with the following changes:

1) Remove the 75% GSA limitation for the first and last days of travel and allow for reimbursement at 100% of the GSA rate for all travel days;
2) Require an itemized receipt for meal reimbursement; if an itemized receipt is unavailable, reimbursement may be made up to the maximum GSA per diem; and
3) Clarify that overnight lodging maybe approved when justified by commute time or similar circumstances.

In addition to these revisions, staff is updating City Manager Directive 028 (CMD) Purchase Card (P-Card) policy to incorporate audit procedures and authorize procedures and authorize issuance of City purchase cards to Councilmembers for official travel expenses. Once updated, staff will provide training to the City Council on proper use and compliant use of the City purchase cards.

DISCUSSION

The proposed revisions to Council Policy 043 (retitled “Official Travel by City Councilmembers”) (Attachment 2) are presented for City Council review and consideration. Key proposed changes

include the following:

1. Title: The title is updated from “Official Travel by Elected Officials” to "Official Travel by the City Councilmembers" to clarify that the policy applies to the Mayor and City Councilmembers only. Travel requirements for the elected Police Chief an elected City Clerk are outlined under City Manager Directo 028, Travel Policy (Attachment 3).

2. Criteria for Official Travel: In this section, proposed revisions were made as follows:

    a. Travel eligible for reimbursement must relate to a Councilmember’s official duties, professional development, or representation of the City at regional, state or national organizations that promote or advance City interests.
    b. Where there is the potential for “multiple attendees,” the current policy states: “If multiple members meet the criteria to attend, the representative may attend based on seniority.” Under the proposed policy, when several Councilmembers request to attend the same event, priority will be based on:
        - Committee or legislative assignment
        - Submission date of the request
        - Budget availability
        - Brown Act considerations, as applicable

    The proposed policy also a process for staff to confirm quorum availability for City Council meeting scheduled during travel periods.

3. Types of Travel: This section clarifies criteria for local, in-state, out-of-state, and international travel.

    a. Local travel: Defined as less than 50 miles for single-day events. Overnight lodging may be approved by the City Manager when justified by commute time.
    b. In-State Travel: Travel exceeding 50 miles and aligned with official travel criterial (e.g. League of California Cities Annual Conference, League of California Cities New Members Academy)
    c. Out-of-state travel: Includes events such as the United States Conference of Mayors and National League of Cities conferences and meetings.
    d. International Trave: Permitted for all City Councilmembers, including travel associated with City of Santa Clara's Sister Cities or Friendship Cities.

4. Procedures for Travel: The revised policy outlies a pre-authorization process:

    a. Councilmembers submit a written request Describing the purpose of travel and benefit to the City.
    b. Staff verifies funding availability and prepares the pre-authorization form.
    c. The City Manager or designee reviews and approves the pre-authorization form.

5. Reimbursable Expenses: A new section provides detail on allowable reimbursement expenses.

a. Lodging: Lodging is reimbursable for approved travel, including the night before and the after the event. Receipts are required, and reimbursement is limited to actual costs. If not available, designated lodging is provided, reimbursement is based on actual cost.
b. Meals: Meals, including tax and tips and incidentals, are reimbursable up to the per diem GSA rate (available at <http://www.gsa.gov/perdiem>) for a full day of travel. Itemized receipts are required; if unavailable, reimbursement may be made up to the GSA maximum.

   Meals provided by the conference, event, or hotel, must be deducted from the reimbursement as listed on <http://www.gsa.gov/mie>

   Alcohol, guest meals, and hotel incidentals (e.g. in-room services) are not eligible for reimbursement.

c. Transportation

   - City /Private Vehicles: City vehicles are available for in-state or local travel. Councilmembers shall be compensated for the use of their private vehicles for approved business travel at the current GSA standard mileage rate, provided that it is the most logical and least expensive method of transportation. To drive a vehicle on City business, Councilmembers must possess a valid California driver's license. A driver of a privately owned vehicle must carry liability insurance coverage, and be responsible for any damage, service, or repair to the car occurring on the trip, as these costs are included in the City's per mile cost reimbursement.

   - Bridge Tolls/Parking: Reimbursable with itemized receipts.

   - Train /Other Mass Transit: Train or other transit fares are reimbursable when logical and cost effective.

   - Ground Transportation: Supplementary transportation within the destination city shall be accomplished by hotel courtesy buses, local shuttle services or public transportation, if available and logical. Taxi or rideshare may also be used.

   - Rental Vehicles: Allowed only when no reasonable alternative exists; economy-class vehicles required; option insurance is not reimbursable.

d. Airfare: Airfare must be booked at the lowest reasonable fare that provides the most direct route. Air travel options shall not be limited to a specific airline. Refundable tickets are permitted if there is a risk of cancellation. One checked bag is reimbursable. Any unused credits from official travel must either be applied to future City travel or reimbursed to the City.

6. Expense Report: The filing deadline is extended from 15 calendar days to 30 business days to allow Councilmembers additional time to compile and submit itemized receipts

7. Rewards and Promotional Benefits: Councilmembers may retain frequent flyer miles or similar rewards accrued during City travel, however, if personal frequent flyer miles or other reward points are used to purchase travel for City business, the value is not reimbursable.
8. Reports by City Councilmembers: Councilmembers must provide a written or oral report to the City Council within fifteen (15) business days of returning from travel or at the next Council meeting. Prior required reporting items are removed and replaced with an option to share course materials digitally.

The Goverrnance and Ethics Committee recommends the City Council approve the proposed amendments to Council Policy 043 ("Official Travel by the City Council") and approval by Resolution (Attachment 4).

ENVIRONMENTAL REVIEW

The action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

FISCAL IMPACT

There is no fiscal impact associated with the approval of the recommendation.

COORDINATION

This report was coordinated by the City Manager’s Office, City Auditor’s Office and the City Attorney’s Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City’s website and in the City Clerk’s Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk’s Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Approve the Recommendation from the Governance and Ethics Committee to Amend Council Policy 043 ("Official Travel by Elected Officials") to be retitled Council Policy 043 ("Official Travel by the City Council") in substantially the form presented.

Reviewed by: Maria Le, Assistant to the City Manager, City Manager

4. Resolution

OFFICIAL TRAVEL BY ELECTED OFFICIALS

PURPOSE

Consistent with the City of Santa Clara (City)'s Code of Ethics and Values, the City is fiscally responsible and endorses the proper use of City assets to help ensure the City's fiscal stability.

In order to ensure an open and transparent government, the City Council will regulate and prescribe guidelines for official travel by all elected officials. Reimbursement for official travel funded by non-City entities shall be in accordance with the guidelines issued by such other non-City entity.

To the extent the official's expenses are not reimbursed by the non-City entity, the official may request reimbursement in accordance with the requirements of this policy (e.g., the official is chosen to serve as the City representative on a County-wide committee and the County agency sends the official to a conference, and reimburses the official for conference attendance and hotel, but not for meals and mileage; the Official may seek reimbursement for meals and mileage in accordance with the terms of this policy.)

This policy does not address an official's reporting requirements relative to payments by a non-City entity for official travel; elected officials must comply with FPPC reporting requirements relating to payments for travel.

POLICY

In order to control and properly account for expenditures made by elected officials in the course of their official duties, only authorized expenses may be reimbursed in accordance with the Travel-Meal Reimbursement & IRS Mileage Rates established by the Finance Department on an annual basis and within the criteria outlined within this policy.

Any questions regarding the appropriateness of a particular type of expense should be resolved by the City Council before the expense is incurred. Examples of non-reimbursable expenses include personal expenses, charitable/political contributions, entertainment expenses, personal losses incurred while travelling, and expenses for family members.

In order to conserve City resources and keep expenses within community standards for public officials, expenditure amounts should adhere to the guidelines set forth within. Expenses that exceed these

OFFICIAL TRAVEL BY ELECTED OFFICIALS (cont.)

guidelines will be reimbursed only to the maximum extent of the guidelines.

All cash expenditures, credit card expenses, and expense reimbursement requests must be submitted to the City Auditor on an expense report form provided by the City, accompanied by receipts documenting each expense. Expense and mileage reports must document that the expense in question meets the requirements of this policy. Inability to provide such documentation in a timely fashion may result in the expense being borne by the official.

All expenses are subject to review and verification by the City Auditor for compliance with this policy and eligibility for reimbursement.

TRAVEL GUIDELINES

Reports by Elected Officials
The elected official must file a written or oral report to the City Council within fifteen (15) business days or at the next City Council meeting immediately following any travel attended at City expense or travel attendance as a City official that is funded by a non-City entity.

The report shall include, but is not limited to:

a. A listing of any workshops, presentations, educational seminars, speeches, or other sessions attended with summary and/or descriptions of information gathered

b. A listing of meeting(s) held during travel with legislators, other governmental officials, or groups with subjects addressed during the meeting(s)

c. A listing of any speeches, presentations, or other speaking roles during travel

Course Materials
Course materials received will be turned into the Mayor and Council Offices - Council Library or elected official's respective department's library, as applicable, for open accessibility, except for safety-sensitive portions of such materials.

Rewards and Promotional Benefits
Rewards granted under frequent travel programs through airlines,

OFFICIAL TRAVEL BY ELECTED OFFICIALS (cont.)

hotels, or any type of travel vendor, if accrued through official travel and at the City's expense, shall be used only for official travel and/or turned over to the City for future official travel, to the extent possible.

Promotional benefits or materials received during official travel, if obtained under the same conditions as those offered to the general public and at no expense to the City, may be retained for personal use.

CRITERIA FOR OFFICIAL TRAVEL

Official City Representative Criteria
When travelling to a conference, convention, workshop, or similar event, one or more elected officials shall be specifically designated to act as the official representative(s) of the City with the following criteria:

a. Official travel must be related to the elected official's roles or duties such as work performed on a particular issue or substantive area in an official capacity, committee assignment, liaison assignment, task force assignment, or council assignment.

b. If multiple members of the City Council meet the criteria, the representative(s) will then be designated based on seniority.

Public Purpose Criteria
Travel by elected officials is an allowable activity and expense when it is performed for a valid public purpose:

a. Attending educational seminars designed to improve the elected official's skill and information levels, or to comply with applicable professional standards

b. Participating in regional, state, and national organizations whose activities affect the City's interests

c. Communicating with representatives of regional, state, and national government and their various agencies

d. Travel is consistent with the adopted budget and/or legislative priorities

Elected officials may attend conferences or any other official travel at

OFFICIAL TRAVEL BY ELECTED OFFICIALS (cont.)

SUMMARY OF CONFERENCES AND TRAVEL

their own expense if such travel falls outside the criteria set forth in this policy.

Official Travel – Local (Drivable Distance)

c. Local travel or single-day events that do not require an overnight stay are open to all elected officials.

d. Local travel or single-day events that require an overnight stay must meet the criteria for official travel.

Official Travel – In-state

a. In-state travel is limited to a maximum of two elected officials per official travel event, except as follows:
The League of California Cities Annual Conference is open to all elected officials, and the League of California Cities New Members Academy is open to all newly elected or appointed members of the City Council.

b. In-state travel requires elected officials to meet the criteria for official travel.

Official Travel – Out-of-state

a. Out-of-state travel is approved in advance annually with the respective department's Operating Budget

b. Out-of-state travel is limited to a maximum of two elected officials per conference, with the exception of United States Conference of Mayors and National League of Cities conferences and meetings.

c. Out-of-state travel requires elected officials to meet the criteria for official travel.

Official Travel – International

a. International travel is limited to a maximum of three elected officials per trip.

OFFICIAL TRAVEL BY ELECTED OFFICIALS (cont.)

b. International travel may be initiated by invitation or commemoration of anniversaries with the City of Santa Clara's sister cities.

c. International travel requires elected officials to meet the criteria for official travel.

d. International travel is approved in advance annually in the respective department's Operating Budget and must be submitted in advance to the City Council for approval with sufficient time to ensure that, if approved by Council, arrangements can be made before the first day of travel.

Official Travel – Other
For any official travel that has not been pre-approved in the respective department's Operating Budget, requests for travel approval must be submitted to the City Council with sufficient time to ensure that, if approved by Council, arrangements can be made before the first day of travel.

a. Requests for travel approval must meet all of the criteria for official travel.

b. Requests for travel approval require 5 votes from the City Council.

c. When reviewing and considering approval of requested travel by elected officials, the City Council shall ensure compliance with the Brown Act (California Open Meeting Requirements for Local Legislative Bodies).

PROCEDURE

Prior to incurring expenses, review policy to ensure proposed expenses are allowed based on the criteria established within this policy.

Within fifteen (15) business days of an expense being incurred, elected officials submit to the City Auditor an expense report form, accompanied by receipts, documenting the amount and purpose of each expense and how it meets the requirements of this policy. Course materials must be turned into the respective department's library for open accessibility, except for safety-sensitive materials.

OFFICIAL TRAVEL BY ELECTED OFFICIALS (cont.)

The elected official must file a written or oral report to the City Council within fifteen (15) business days or at the next City Council meeting immediately following any travel attended at City expense, with the criteria outlined within this policy.

OFFICIAL TRAVEL BY THE CITY COUNCIL

POLICY

The purpose of this policy is to establish guidelines for official City Council travel. Travel must serve a legitimate public purpose, be conducted in a fiscally responsible manner, and comply with the City of Santa Clara Code of Ethics and Values. All expenses are subject to review by the City Auditor to ensure transparency and accountability.

Aligned with the City of Santa Clara Code of Ethics and Values, the City is committed to fiscal responsibility and the prudent use of public resources to protect long-term financial stability. To promote open and transparent government, the City Council establishes guidelines for official travel by Councilmembers.

Travel by City Councilmembers is permitted and reimbursable when it serves a valid public purpose. This policy defines the types of expenses that are authorized during official travel and outlines the procedures for reimbursement. Reimbursements will not exceed the limits set forth in these guidelines.

All travel expenses are subject to review and verification by the City Auditor to ensure compliance with this policy and eligibility for reimbursement.

This policy governs City-funded travel only. It does not address reporting obligations for travel paid by non-City entities. City Councilmembers remain responsible for complying with all Fair Political Practices Commission (FPPC) reporting requirements regarding non-City payments for travel.

ELIGIBILITY AND CRITERIA

Official Travel

The City's annual operating budget for the Mayor and Council office includes funding allocated for official City travel. Travel meeting the criteria of this policy may be allowed as long as funding is available.

Official travel may be authorized when it meets one or more of the following:

1. Official Duties: Related to the Councilmember's elected role, committee assignment, or legislative priority (e.g. committee or liaison assignment, task force assignment, or council assignment).

OFFICIAL TRAVEL BY CITY COUNCILMEMBERS (cont.)

2. Professional Development: Conferences, meetings, workshops, trainings or educational seminars that build skills or knowledge relevant to City service.

3. Representation: Participation in regional, state, or national organizations that promote and advance the interests of the City.

4. Multiple Attendees: When several Councilmembers request attendance at the same event, priority will be based on committee or legislative assignment; submission date of request; budget availability; and compliance with Brown Act quorum requirements If multiple members of the City Council elect to attend the same event for travel, Councilmember(s) may attend based on available department budget or based on a committee assignment or legislative priorities of interest.

~~a. All requests for additional budget approval must meet all criteria for official travel.~~
~~b. Requests for travel approval requires five votes from the City Council.~~

Types of Travel

a. Local travel is defined as 50 miles or less from Santa Clara City Hall for single-day events which meet the official travel criteria above.

b. Local travel may require overnight lodging and may be approved by the City Manager depending on whether an extensive commute is required to attend the conference/event.

c. In-State Travel exceeding 50 miles must meet the official travel criteria above which may include: League of California Cities Annual Conference, League of California Cities New Members Academy.

d. Out-of-State travel are for events such as the United States Conference of Mayors and National League of Cities conferences and other meetings.

OFFICIAL TRAVEL BY CITY COUNCILMEMBERS (cont.)

e. International travel is allowed for all City Councilmembers. International travel may be initiated by invitation or commemoration of anniversaries with the City of Santa Clara's Sister Cities or Friendship Cities or international delegation.

PROCEDURES

Travel Arrangements

Travel arrangements should be made as far in advance as possible to obtain the best possible fares, early bird and discounted rates, and to avoid late registration fees.

1) Prior to travel, Councilmembers must submit a written request to City staff stating the purpose and benefit to the City.

2) City staff will verify available funds and prepare the pre-authorization form.

3) The City Manager or designee approves the pre-authorization form.

REIMBURSABLE EXPENSES

Lodging

Lodging is covered for approved travel, including the night before and the night after an event. Itemized receipts are required, and reimbursement is limited to actual costs.

If no specific lodging site is designated for official City business, the City will reimburse the actual cost of lodging at an alternative location.

Meals

Meal expenses are reimbursed, including tax and tips and incidentals, up to the General Services Administration (GSA) per diem rate for the destination (http://www.gsa.gov/perdiem) for a full day of travel. Itemized receipts showing the expense amount are required for Councilmembers to receive reimbursement. In the case an itemized receipt is missing and efforts to obtain a copy are not available, a review may be made to authorize the full per diem reimbursement amount. Reimbursements are capped at the GSA amounts detailed online.

The Meals & Incidental Expenses will be used to generate the per diem

OFFICIAL TRAVEL BY CITY COUNCILMEMBERS (cont.)

rate for meals. Any meals provided as part of the conference, event, or hotel, must be deducted from the reimbursement as listed on http://www.gsa.gov/mie .

Alcohol, guest meals, and hotel incidentals (e.g. in-room services) are not eligible for reimbursement.

Transportation

Use of City /Private Vehicles: City vehicles are available for in-state or local travel. Councilmembers shall be compensated for the use of their private vehicles for approved business travel at the federal GSA standard rate, provided that it is the most logical and least expensive method of transportation.

To drive a vehicle on City business, Councilmembers must possess a valid California driver's license. A driver of a privately owned vehicle must carry liability insurance coverage, and be responsible for any damage, service, or repair to the car occurring on the trip, as these costs are included in the City's per mile cost reimbursement.

Bridge Tolls/Parking: Bridge tolls and parking fees incurred while traveling on City business are reimbursable with receipts. Councilmembers shall obtain itemized receipts and submit them with their Travel Expense Reports.

Train /Other Mass Transit: Councilmembers shall be compensated for train or other mass transit fares and fees provided that it is the most logical and least expensive method of travel.

Ground Transportation: Supplementary transportation within the destination city shall be accomplished by hotel courtesy buses, local shuttle services or public transportation, if available and logical. Taxi or rideshare may also be used.

Rental Vehicles: Rental vehicles shall only be used when no practical alternative exists; in such cases, Councilmembers must select economy class vehicles, and optional insurance is not reimbursable.

Airfare: Airfare must be booked at the lowest reasonable fare that provides the most direct route. Air travel options shall not be limited to

OFFICIAL TRAVEL BY CITY COUNCILMEMBERS (cont.)

a specific airline. Refundable tickets are permitted if there is a risk of cancellation. One checked bag is reimbursable. Any unused credits from official travel must either be applied to future City travel or reimbursed to the City.

If travel arrangements must be canceled, Councilmembers are expected to notify staff as soon as practicable to allow sufficient time to avoid or minimize additional costs to the City.

Expense Report

- All itemized receipts and documentation must be submitted within thirty (30) business days of travel to staff for processing with the City Auditor's Office.
- Expense and mileage reports must document that the expense meets the requirements of this policy. Inability to provide such documentation in a timely fashion may result in the expense being borne by the official.
- **Non-reimbursable expenses:** Expenses that are personal, political, or entertainment related are not eligible for reimbursement. Alcohol expenses for family members or guests, and costs associated with extending a trip for personal reasons are also non-reimbursable.

Rewards and Promotional Benefits

Councilmembers may earn frequent flyer miles or other travel rewards (such as airline, hotel, or vendor loyalty points) while on official City travel. However, if personal frequent flyer miles or other reward points are used to purchase tickets or services for City business, the value of those tickets or services is not reimbursable.

Promotional benefits or materials received during official travel, if obtained under the same conditions as those offered to the general public and at no expense to the City, may be retained for personal use.

OFFICIAL TRAVEL BY CITY COUNCILMEMBERS (cont.)

Reports by City Councilmembers

Councilmembers must provide either a written or oral report to the City Council within fifteen (15) business days of their return, or at the next City Council meeting, whichever comes first. This requirement applies to travel funded by the City as well as travel undertaken in an official capacity that is funded by a non-City entity. Any course or conference materials received may be shared in digital format with the full City Council.

~~The report shall include, but is not limited to:~~

- ~~A listing of any workshops, presentations, educational seminars, speeches, or other sessions attended with summary and/or descriptions of information gathered~~
- ~~A listing of meeting(s) held during travel with legislators, other governmental officials, or groups with subjects addressed during the meeting(s)~~
- ~~A listing of any speeches, presentations, or other speaking roles during travel~~

~~**Course Materials**~~

~~Course materials received may be shared with the Mayor and Council Office staff to include in a digital format to share with the full City Council. the Council Library or elected official's respective department's library, as applicable, for open accessibility, except for safety-sensitive portions of such materials.~~

City Manager's Directive 028
Travel Policy

POLICY

The City of Santa Clara (the "City") expects to pay all reasonable costs incurred by City employees traveling on approved City business; and City employees are expected to use sound fiscal stewardship when expending public funds, and to travel in the most logical and least expensive manner possible.

PURPOSE

The purpose of this Travel Policy (the "Policy") is to define the City's expectations of its employees who travel in connection with their work responsibilities and to clarify which expenses the City will fund and which expenses are considered the personal responsibility of the traveler. This policy is not intended to cover short trips during work hours made by employees in the course of their regularly assigned work duties.

Local Travel

Local travel is travel necessary to conduct official City business and is performed by the most direct route within and adjacent to an employee's official worksite. Local travel is defined as less than 50 miles from the employee's home or place of business, whichever is the shortest distance. Compensation shall be based upon the number of miles between the travel destination and either the employee's designated work location or residence, whichever is the shortest distance. The City will not pay for lodging or per diem meal expenses related to local travel as defined above. The City will pay for transportation and parking costs related to the local travel.

Employees can settle their allowable local travel expenses through the petty cash reimbursement process if the request is less than the petty cash limit at the time of reimbursement. Requests larger than the petty cash limit require an accounts payable request for payment.

Conference and Meeting Attendance

City employees shall be authorized to join professional and public organizations and attend the meetings and conferences held by such organizations subject to adequate budget appropriations and adherence to this policy.

General Procedures and Guidelines

The Policy shall be reviewed annually by the City Auditor's Office to ensure its consistency with respect to the City's objectives and any modifications must be approved by the City Manager.

Travel Authorization

A. City Manager Pre-Travel Authorization Form Required.

City Manager (or designee) authorization is required in advance of travel or the commitment of City funds for the following:

- Travel by Department Directors
- Out-of-State travel by any staff
- Any exception to this policy

Authorization shall be sought via submittal of a Pre-Travel Authorization Form (Attachment A).

B. Department Director Pre-Travel Authorization Form Required.

In-state, overnight travel requires the approval of a Department Director via submittal of a Pre-Travel Authorization Form in advance of travel and the commitment of City funds.

C. Department Director or Designated Supervisor Authorization Required.

A pre-travel authorization form is not required for local travel as defined above, where meal reimbursement, overnight or out-of-state travel is not concerned. Employees are required to obtain approval from their supervisor prior to any business travel for which the City is expected to pay for mileage, bridge tolls and/or parking. This approval can be via email, with a copy of email approval submitted with travel costs. Itemized receipts are necessary to receive reimbursement for all expenses whether through petty cash or accounts payable request for payment. An employee may not approve their own travel documentation under any circumstances.

Travel Arrangements

Travel arrangements shall be made as far in advance as possible to obtain the best possible fares and rates. Registration for conferences and training shall be made far enough in advance to take advantage of early (discounted) fees, and to avoid late

registration fees. If travel arrangements must be cancelled for any reason, the person who made the arrangements shall cancel them in sufficient time to prevent the City from incurring unnecessary costs when possible.

At the Department Director's discretion, one or more persons may be designated as a Travel Coordinator and be assigned responsibility for making travel arrangements for all business travelers within a department. It is the City's preference that all travel be booked by designated Travel Coordinators using their City Procurement Cards to secure travel arrangements ahead of all travel. Individual travelers may make their own travel arrangements with their personal credit cards and be reimbursed if it is not feasible for a travel coordinator to do so.

Transportation

Travelers shall use whatever mode of transportation is the most reasonable and least expensive. When planning the transportation portion of a trip, the employee shall consider all aspects of cost to the City including daily expenses, overtime, lost work time as well as actual transportation costs.

Use of a mode of transportation other than the most reasonable and least expensive must be documented and have advance approval from the employee's Department Director. The City will pay only the cost of the most reasonable and least expensive mode. If the mode of transportation is determined to be a City vehicle, the traveler shall comply with the City Manager's Directive (CMD) 21 Use and Maintenance of City Vehicles Including General Government/Public Works Pool Vehicles. The difference between the selected mode and the least expensive mode shall be documented and considered the employee's personal expense at the time of travel authorization. This paragraph does not apply to special accommodations made to qualified employees under the Americans with Disabilities Act provided that the alternate mode of transportation is approved in advance.

A. Air Travel.

Employees shall not limit their air travel options by specifying an airline. The airline offering the lowest fare for a reasonable route shall be selected.

B. Use of Personal Vehicle.

With the exception of employees who have been assigned a City vehicle or who receive a car allowance, employees shall be compensated for the use of their private vehicles for business travel at the current IRS standard mileage rate, provided that it is the most reasonable and least expensive method of transportation. Compensation shall be based upon the number of miles between the travel destination and either the employee's designated work location or residence, whichever is the shortest distance.

Employees that receive a car allowance and are required to travel greater than 50 miles from their work location or residence, whichever is the shortest distance, are eligible to be compensated for the use of their private vehicle for business travel at the current IRS standard mileage rate for miles traveled over 50 each way of the trip (e.g. if travel destination is 80 miles from the work location and 70 miles from the residence, then the employee will receive reimbursement for 20 miles (70-50=20)).

Employees who do not receive a car allowance may also be compensated at the current IRS standard mileage rate for the use of their private vehicles for routine travel on City business between City facilities or to other locations in Santa Clara or the adjoining communities. Compensation shall be based upon the number of miles between the travel destination and either the employee's designated work location or residence, whichever is the shortest distance. Employees must keep a log of such routine travel using the Mileage Reimbursement Log (Attachment C). Expense reimbursements for this type of mileage must be submitted monthly.

The City will reimburse all expenses, such as bridge tolls and parking fees, incurred as the result of an employee's authorized use of a vehicle while traveling on City business. Employees requesting reimbursement for the payment of such expenses shall obtain itemized receipts and submit them as part of their travel expenses on the Travel Expense

Form. Also, whenever possible, employees attending the same event shall travel together to minimize expenses.

To drive a City or privately-owned vehicle on City business an employee must possess a valid California driver's license. An owner/driver of a privately-owned vehicle used for City business must carry adequate liability insurance coverage in accordance with applicable State law, and be responsible for any damage, service, or repair to the car occurring on the trip, as these costs are included in the City's per mile cost reimbursement.

In addition, the employee shall charge any additional personal time spent outside of the normal reasonable travel time during normal work hours to vacation or a similar leave.

C. Train and Other Mass Transit.

Employees shall be compensated for train or other mass transit fares and fees provided that it is the most logical and least expensive method of travel to the conference, conference related events, or meeting site. Any incremental cost beyond the basic cost required for the employee to attend a conference or meeting shall be paid for by the employee. In addition, the employee shall charge any additional personal time spent outside of the normal reasonable travel time during normal work hours to vacation or a similar leave.

D. Ground Transportation at Destination.

Supplementary transportation within the destination city shall be accomplished by hotel courtesy buses or local shuttle services, if available. Taxi or ride-share (Uber/Lyft) service shall be used only when no other convenient, less costly mode of transportation is available for the employee to travel to the conference, conference related events, or meeting site. Any incremental cost beyond the basic cost required for the employee to attend a conference or meeting shall be paid for by the employee.

E. Rental Vehicles.

Rental vehicles shall be used only when no other mode of transportation is available or when alternate transportation would be more expensive or impractical and must be authorized in advance by the Department Director. If a rental vehicle is authorized, employees shall request the least expensive vehicle category that meets their needs. Employees are required to purchase and shall be reimbursed for optional insurance coverage for the rental vehicle. Optional insurance coverage shall include Damage Waiver (DW) (also referred to as Collision Damage Waiver (CDW)) and third-party liability coverage.

F. Travel Time.

Travel time is compensable under certain conditions identified in the Fair Labor Standards Act (FLSA). As a charter city, the City follows current FLSA regulations for determining the compensability for travel time. The FLSA regulations are available at: http://www.dol.gov/whd/regs/compliance/whdfs22.htm

Lodging

The City will pay lodging expenses for approved City travel, including the evening preceding or subsequent to a meeting or business event when the employee would otherwise have to travel from his/her residence before 6 a.m. or after 9 p.m. to reach or return from his or her destination. Local travel, as defined previously in this policy, does not qualify for City paid lodging expenses.

Employees are expected to use the most cost-effective lodging reasonably available. When a conference or training session is held at a specific hotel, the City shall pay for actual lodging expenses up to the standard lodging rate advertised by the conference or training sponsor unless approved by the Department Director as part of the travel authorization process.

When there is not a specific lodging site associated with official City business, the City shall pay for actual lodging expenses up to the

GSA maximum rate allowed by location (http://www.gsa.gov/perdiem). Note that the GSA maximum rate applies to the base room rate only and does not include taxes. Any exception to applying the GSA rate due to the current market rates in the area of travel must be documented in writing and approved, pre-travel, by the Department Director.

Every effort shall be made to obtain lodging at or near the facility where official City business is to take place to minimize travel time and transportation costs. The lodging should also be clean, safe and appropriate for business travel. Government rates are often available and should be sought. The City will pay for standard room accommodations at the most cost-effective lodging reasonably available. Any incremental cost beyond that of a standard room shall be paid for by the employee unless a written exception has been approved by the City Manager (or designee).

Room reservations may be made in advance using a City procurement card and the employee should request a copy of the hotel's credit card authorization receipt as applicable. This will be used to authorize the hotel to charge the total room cost, including all taxes, on the Travel Coordinator's purchasing card. Employees shall personally pay for any additional expenses incurred, such as movie rental, mini-bar bills, room service, etc.

Employees shall cancel any reservations for lodging they will not use. Any charge for an unused reservation shall be considered the employee's personal expense unless failure to cancel the reservation was due to circumstances reasonably beyond the employee's control.

Meals

A. Overnight Travel

The City will pay for an employee's meals during authorized travel, including tax and tips and incidentals, up to the per diem amount established by the GSA for the destination location (available at: http://www.gsa.gov/perdiem) for a full day of travel. Per GSA, rules, employees are only eligible for 75 percent of the total per diem amount on the first and last travel day. The Meals & Incidental Expenses (M&IE) column will be used to generate the per diem rate for meals. Use the guide on http://www.gsa.gov/mie to breakdown

the per diem amount for each meal. For any meal that is provided by the conference or hotel the appropriate meal amount listed on http://www.gsa.gov/mie must be deducted from the reimbursement request.

The City will not pay for the following:

- Meals that the employee elects to purchase from another source when the meals are included in the cost of a conference, training registration fee, or hotel stay. In the event an exception is granted due to dietary restrictions, the meal will be reimbursed on an actual expense basis, up to the applicable GSA rate.
- Alcoholic beverages.

B. Non-Overnight Travel

With regard to partial days of travel that is not overnight but exceeds the local travel guidelines detailed above, the City will pay for meals on a pro-rated basis using GSA meal amounts, as follows:

- If the partial day includes travel before 8 a.m., the City will pay for the employee's breakfast.
- If the partial day includes travel between 11 a.m. and 1 p.m., the City will pay for the employee's lunch.
- If the partial day includes travel after 5 p.m., the City will pay for the employee's dinner.

Miscellaneous Fees/Business Expenses

A. Gratuities/Tips.

The City will pay reasonable and customary gratuities and tips during City business travel, which are included in the standard per diem rate per GSA guidelines.

B. Business Expenses.

The City will pay for goods and/or services deemed necessary for the completion of official business, such as printer, copier, and computer usage, etc.; for internet usage at actual cost and for all business telephone calls. Cellular phones are often more cost-effective than using hotel phones

directly and should be considered as a primary option. Whenever possible, employees shall anticipate the need for supplies and shall take whatever they will need with them instead of buying supplies at their destination.

C. Baggage Fees.

If the airline charges for all checked baggage, the City will cover the cost for one checked bag only. Excess baggage charges are not reimbursable.

D. Personal Expenses.

Personal expenses will not be paid by the City. In addition to those items identified as personal expenses throughout this Policy, personal expenses include early bird flight check-in fee, change flight fee (except as otherwise set forth in this Policy), personal transportation costs outside of the conference or conference event site, personal telephone calls, in-room movies, spas and gyms, optional recreational events in connection with a conference, laundry or dry cleaning, miscellaneous sundries, or other items of a personal nature.

Personal travel shall not be mixed with business travel if it will result in (1) additional costs to the City, (2) employee engaging in personal travel while be compensated, or (3) harming the City's interest in any way. Any extension of a trip for personal travel must be accompanied by Director approval and supporting documentation of what the trip would have cost with the original business itinerary. The City will reimburse the lesser of the original business itinerary cost or the extended trip cost due to personal travel. Any additional cost from the original business itinerary must be covered by the employee. The City will not pay for any expenses of a spouse or other person who accompanies an employee on business travel.

Settlement of Trip Expenses

Payment of travel expenses incurred during the trip using City procurement cards is not permitted. Purchase cards may be used to pre-pay expenses such as flights, hotel, car rental, or conference registration (preferably by a Travel Coordinator) or may pay these expenses by invoice through accounts payable.

Allowable expenses per this policy during the trip are to be paid out of pocket by employees and reimbursed upon completion of travel. The City will not provide any advance payment of travel costs directly to employees.

Travel Reimbursement

All employee travel reimbursement requests require either direct supervisor or Department Head approval prior to submitting to the City Auditor. Direct supervisors can approve expense reimbursement requests if there is no greater than a 10% variance between the pre-approved travel estimate and the actual expense reimbursement requested. Any reimbursement request with a difference greater than 10% of the pre-approved estimate must be approved by the Department Director.

The City Auditor's Office is responsible for review and has final approval of travel expense reimbursement requests. Approval shall be based upon the employee's compliance or non-compliance with the requirements of this policy. Once approved by the City Auditor, the reimbursement request will be forwarded directly to accounts payable for processing and email notification will be provided to travel coordinators and/or the employee.

Within 30 days of an employee's return from a business trip, a final, department approved expense report associated with the trip shall be submitted to the City Auditor to be eligible for any reimbursement. The employee must complete a signed Travel Form and supporting documentation to substantiate all reported expenses with the exception of meals, as these are reimbursed based on GSA per diem rates. The documentation should be in its original form and include the following, if applicable:

- Pre-travel request authorization as defined by this policy
- Invoice and trip itinerary from vendor
- Event brochure or agenda for conference, training, or special event

- Any certificates of completion associated with event
- Airfare receipt showing the travel dates and time
- Parking receipts showing the travel date and amount paid
- Transportation receipts showing the travel date and full address to/from the event location
- Car rental receipt showing the dates and number of days
- Final itemized hotel bill or statement showing all charges
- Documentation showing miles between destination and the employee's work location or residence to substantiate the shortest distance driven for mileage
- A brief written explanation if a reporting item doesn't have supporting documentation.

It is the employee's responsibility to submit the travel expense reimbursement request within the specified timeline.

Uncompleted training will not be paid by the City unless the employee's failure to complete the training was due to a cause outside the employee's control as documented with a memorandum.

Advances

The City does not offer advances to employees for travel.

Exceptions to this Policy

This Policy does not claim to address all contingencies and conditions. However, any exception requires City Manager (or designee) approval in writing for anticipated/known exceptions or unanticipated/unplanned expenses. Requests for exceptions should be accompanied by the traveler's written justification for the expense.

Examples of exceptions to this policy include, but are not limited to, the following:

- Unusual business expenses
- Per diem and/or lodging expenses which exceed GSA limits
- The purchase of one or more meals from another source even though they were included in a conference and/or seminar registration fee
- The use of an alternate mode of transportation
- Lodging expenses incurred during local travel
- Travel costs exceeding available budget appropriations

City Auditor to Conduct Periodic Audits	The City Auditor shall conduct periodic audits in accordance with generally accepted government auditing standards to ensure compliance with this travel policy. Audit results shall be submitted to the City Council.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA AMENDING COUNCIL POLICY 043 OFFICIAL TRAVEL BY CITY COUNCILMEMBERS

WHEREAS, a draft of Council Policy 043, "Official Travel by City Councilmembers" ("Draft Policy") was presented to the Governance and Ethics Committee ("Governance and Ethics Committee") for their consideration on September 8, 2025 for review and revision as part of Council policies and procedures to further clarify guidelines for official travel by City Councilmembers, define reimbursable expenses for official travel, and ensure compliance with fiscal responsibility standards; and

WHEREAS, the Governance and Ethics Committee approved the Draft Policy in substantial form, with revisions, and directed staff to present the Draft Policy to the City Council for its consideration and adoption; and,

WHEREAS, City staff updated the Draft Policy and presented it to the City Council for their consideration at their December 16, 2025 City Council meeting; and

WHEREAS, Council considered the Draft Policy, heard public comment, and provided direction to staff regarding any requested modifications; and

WHEREAS, such modifications include updated guidelines and procedures for the Official Travel by City Councilmembers for the City of Santa Clara.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SANTA CLARA AS FOLLOWS:

1. Council Policy 043, entitled "Official Travel by City Councilmembers", attached here as Attachment 1, is hereby approved and adopted commencing December 16, 2025 until further amended. The Policy shall continue in effect until otherwise affirmed, modified or terminated by vote of the City Council.

2. Staff is directed to take such other actions as are necessary to implement, post and distribute the Policy, including preparation and presentation to the City Council of any necessary

modifications to reflect the new policy.

3. Effective date. This resolution shall become effective immediately, with the Council Policy 043 to go into full effect upon December 16, 2025.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED AND ADOPTED BY THE CITY OF SANTA CLARA, CALIFORNIA, AT A REGULAR MEETING THEREOF HELD ON THE 16th DAY OF DECEMBER 2025, BY THE FOLLOWING VOTE:

AYES: COUNCILORS:

25-1023 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT

Action on Recommendations from Governance and Ethics Committee for Updates to Council Policy 006 ("Guidelines for City Commissions, Boards and Committees for Attendance at Conferences and Training Events")

BACKGROUND

As background, Council Policy 006 ("Guidelines for Commissioners Attendance at Conferences and Training Events") (Attachment 1) was identified for review and revision as part of the Governance and Ethics Committee (Committee) workplan. The policy establishes guidelines for official travel by members of City Commissions, Boards and Committees, defines reimbursable expenses for official travel, and ensures compliance with fiscal responsibility standards.

At the September 8, 2025 Committee meeting, staff presented proposed amendments to Council Policy 006 which included general cleanup language, clarifications, and additional procedures.

During its discussion, the Committee Provided further direction regarding reimbursable meal rates. The existing policy limited reimbursement for meals on the first and last day to 75% of the applicable U.S. General Services Administration (GSA) per diem rate. Committee members noted that actual travel schedules may necessitate full meals regardless of departure or return timing and recommended updating the policy to allow reimbursement at 100% of the GSA per diem rate for all days of authorized travel.
The Committee also emphasized the importance of ensuring sufficient budget resources for Commissioner and Committee members. The Committee recommended that City staff liaisons actively promote and encourage available trainings and conferences to help support the development of Commissioners, Board, and Committee members.

The Committee approved the staff recommendations to amend Council Policy 006 with the following change:

1. Remove the 75% GSA limitation for the first and last days of travel and allow for reimbursement at 100% of the GSA rate for all travel days.

DISCUSSION

The proposed Council Policy 006 (retitled “Guidelines for City Commissions, Boards and Committees for Attendance at Conferences and Training Events”) (Attachment 2) are presented for City Council review and consideration Key proposed changes include the following:

1. Title: The title is updated to “Guidelines for City Commissions, Boards and Committees for Attendance at Conferences and Training Events” to clarify that the policy applies to all

members of Commissions, Boards, and Committees.

2. Criteria for Official Travel: New language clarifies that overnight lodging is not permitted for local travel, defined as less than fifty miles from Santa Clara City Hall. Exceptions may be approved by the City Manager when an extensive commute would otherwise be required.

3. Procedures for Travel: The revised policy outlines the process:

   - Travel arrangements should be made as early as reasonably possible to secure the best available fares, early bird/ discounted rates, and avoid late registration fees.

   - All itemized receipts and documentation must be submitted within thirty (30) business days of travel for processing by staff with the City Auditor's Office.

   - Expense and mileage reports must demonstrate that the expense meets policy requirements; failure to do so in a timely manner may result in the cost being borne by the Commission or Committee member.

   - Non-reimbursable expenses: Personal, political, or entertainment related expenses are not reimbursable. Alcohol expenses for family members or guests, as well as costs associated with extending travel for personal reasons, are also non-reimbursable.
   - Extending travel outside the approved travel authorization (including additional days or weekends) does not entitle the traveler to reimbursed for for associated expenses, included lodging, meals, or airfare differences.

4. Reimbursable Expenses: new section provides detail on allowable reimbursement expenses.

   a. Lodging: Lodging is reimbursable for approved overnight travel, limited to actual costs with receipts. If no official hotel is designated, alternative lodging may be reimbursed.

   b. Meals: Where a conference Includes meals in its registration cost, separate meal reimbursements will not be provided unless related to dietary restrictions. Reimbursement is available during authorized overnight travel, capped at the GSA per diem rate for the destination. First and last travel days are reimbursed at 100% of the GSA rate. Alcohol, guest meals, and hotel incidentals (e.g., in-room services) are not reimbursable.

      Alcohol, guest meals, and hotel incidentals (e.g. in-room services) are not eligible for reimbursement.

   c. Transportation: Eligible costs include mileage at the GSA rate for private vehicles, bridge tolls and parking (with receipts), train or mass transit fares, local shuttle or public transportation, and rideshare or taxi when appropriate. Airfare must be booked at the lowest reasonable direct fare. Refundable tickets are permitted. One checked bag is reimbursable. Unused credits must be applied to future City travel or reimbursed to the City.

5. Rewards and Promotional Benefits: Committee Members and Commissioners may retain frequent flyer miles or similar rewards accrued during City travel. However, if personal Frequent flyer miles or other reward points are used to purchase travel for City business, the value is not reimbursable.

The Goverrnance and Ethics Committee recommends the City Council approve the proposed amendments to amend Council Policy 006 ("Guidelines for City Commissions, Boards and Committees for Attendance at Conferences and Training Events") and approval by Resolution (Attachment 3).

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

FISCAL IMPACT

There is no fiscal impact associated with the approval of the recommendation.

COORDINATION

This report was coordinated by the City Manager's Office, City Auditor's Office and the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Committee agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Adopt a Resolution Approving the Recommendation from the Governance and Ethics Committee to amend Council Policy 006 ("Guidelines for City Commissions, Boards and Committees for Attendance at Conferences and Training Events") in the form presented.

GUIDELINES FOR COMMISSIONERS FOR ATTENDANCE AT CONFERENCES AND TRAINING EVENTS

PURPOSE

The purpose of this Policy is to establish criteria for Boards and Commissions travel to conferences and training events.

POLICY

Each City Commission has a separate budget to pay for members' attendance at appropriate conferences and training programs. These guidelines were established by the City Council in 1997 and amended in 2003 and 2010 based on the City's Budget Principles. In general, the policy discourages international and out-of-state travel for conferences and training events.

TRAVEL GUIDELINES

1. Official travel must be related to the Commissioner's roles or duties and approved by the City Commission.
2. Attendance at conferences and training events should be rotated as much as feasible among members of each City Commission.
3. All travel requests must be pre-approved by the Board or Commission prior to travel arrangements. Exceptions will be made for urgent or late travel requests, which occur before the Board or Commission convenes, these requests may be approved by the City Manager.
4. The City of Santa Clara is fiscally responsible and endorses the proper use of City assets to help ensure the City's fiscal stability. If the City Commission believes that the out-of-state conference is highly important, and if sufficient funding is available within the existing budget then approval by the City Manager is required.
5. No more than two members of a City commission may attend any specific out-of-state conference or training event.
6. No more than three members of a City commission may attend any specific conference and training event held within the State of California. If more than three members of a City commission wish to attend a conference within the State of California, if sufficient funding is available within the existing budget, working with the staff liaison, the City Commission may send more than three members to the conference upon a vote of the City Commission, without requiring additional City Council approval.

GUIDELINES FOR COMMISSIONERS FOR ATTENDANCE AT CONFERENCES AND TRAINING EVENTS

7. Attendance at an international conference or training held outside of the United States requires special approval by the City Council. Out-of-country travel is not recommended.
8. One-day meetings that do not require an overnight stay are allowed as long as the total budget is not exceeded.
9. Overnight lodging for travel may be approved by the City Manager depending on whether an extensive commute is required to attend the conference/event.
10. A special situation exists for the Historical & Landmarks Commission which has a formally designated advisor as required for the City's Certified Local Government status. The Commission may choose to send the advisor instead of a member of the commission.
11. Per AB 1234 requirements, Commissioners should report verbally on conference and training attendance at the subsequent meeting of the Commission. A brief written report from the Commissioner may be substituted for the verbal report. (See the "Resource Material" section of "Board and Commission Handbook and Survival Guide" for more information.)

RESOLUTION NO. 23-9245

A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA, AMENDING COUNCIL POLICY 006 ENTITLED "GUIDELINES FOR COMMISSIONERS FOR ATTENDANCE AT CONFERENCE AND TRAINING EVENTS"

BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

WHEREAS, the City of Santa Clara Council Policy Manual includes policies and procedures by which the City Council, Boards, Commissions, Standing and Ad Hoc Committees, shall conduct City business and activities;

WHEREAS, the City Council of the City of Santa Clara takes its stewardship of the City's finances and oversight to ensure public resources should only be used where there is a substantial benefit to the City of Santa Clara; and

WHEREAS, the Council Policy 006 on Guidelines for Commissioners for Attendance at Conferences and Training Events establishes the criteria, procedures and guidelines for official travel by Commissioners to ensure that public funds are expended for travel only when it serves a purpose for the City of Santa Clara.

GUIDELINES FOR CITY COMMISSIONS, BOARDS AND COMMITTEES FOR ATTENDANCE AT CONFERENCES AND TRAINING EVENTS

POLICY

The purpose of this policy is to establish guidelines for official travel of City Board and City Commissioners who travel to conferences and training events.

Aligned with the City of Santa Clara Code of Ethics and Values, the City is committed to fiscal responsibility and the prudent use of public resources to protect long-term financial stability. To promote open and transparent government, the City Council establishes guidelines for official travel by members of City Boards and Commissions. In general, the policy discourages international and out of state travel for conferences and training events.

This policy defines the types of expenses that are authorized during official travel and outlines the procedures for reimbursement. Reimbursements will not exceed the limits set forth in these guidelines.

All travel expenses are subject to review and verification by the City Auditor to ensure compliance with this policy and eligibility for reimbursement.

CRITERIA FOR OFFICIAL TRAVEL

1. Official travel must be related to the Commissioner or Boardmember's roles or duties and approved by the City Commission/Board.
2. Attendance at conferences and training events should be rotated as much as feasible among members of each City Commission/Board.
3. All travel requests must be pre-approved by the Board or Commission prior to travel arrangements. Exceptions will be made for urgent or late travel requests, which occur before the Board or Commission convenes, these requests may be approved by the City Manager.
4. If the Board or Commission believes that an out-of-state conference is highly important, and if sufficient funding is available within the existing budget, then approval by the City Manager is required.

GUIDELINES FOR CITY COMMISSIONS, BOARDS AND COMMITTEES FOR ATTENDANCE AT CONFERENCES AND TRAINING EVENTS

5. No more than two members of a City Commission may attend any specific out-of-state conference or training event.

6. No more than three members of a City Commission / Board may attend any specific conference and training event held within the state. If more than three members of a City Commission/Board request to attend a conference within the State of California, if sufficient funding is available within the existing budget, the City Commission may send more than three members to the conference upon a vote of the Commission/Board, without requiring additional City Council approval.

7. Single-day meetings and events that do not require and overnight stay are allowed as long as the total budget is not exceeded.

8. Attendance at an international conference or training held outside of the United States requires special approval by the City Council. Out-of-country travel is not recommended.

9. Overnight lodging is not allowed for local travel, local travel is defined as 50 miles for less rom Santa Clara City Hall.

10. Overnight lodging for travel may be approved by the City Manager depending on whether an extensive commute is required to attend the conference/event.

11. A special situation exists for the Historical & Landmarks Commission which may have a formally designated advisor ~~as required for the City's Certified Local Government status~~. The Commission may choose to send the advisor instead of a member of the commission.

12. Per AB 1234 requirements, Commissioners/Boardmembers should report verbally on conference and training attendance at the subsequent meeting of the Commission. A brief written report may be substituted for the verbal report. ~~(See the "Resource Material" section of "Board and Commission Handbook and Survival Guide" for more information.)~~

GUIDELINES FOR CITY COMMISSIONS, BOARDS AND COMMITTEES FOR ATTENDANCE AT CONFERENCES AND TRAINING EVENTS

PROCEDURE

Travel arrangements should be made as far in advance as possible to obtain the best possible fares, early bird and discounted rates, and to avoid late registration fees.

1) All itemized receipts and documentation must be submitted within thirty (30) business days of travel to staff for processing with the City Auditor's Office.

2) Expense and mileage reports must document that the expense meets the requirements of this policy. Inability to provide such documentation in a timely fashion may result in the expense being borne by the official.

3) **Non-reimbursable expenses:** Expenses that are personal, political, or entertainment related are not eligible for reimbursement. Alcohol expenses for family members or guests, and costs associated with extending a trip for personal reasons are also non-reimbursable.

An extension of the trip outside of the official travel pre-authorization period to include additional days or weekends for personal reasons, does not entitle the traveler to be reimbursed for any expenses on extra days including lodging, meals or additional airfare expenses.

REIMBURSABLE EXPENSES

Lodging

Lodging is covered for approved overnight travel, including the night before and the night after an event. Receipts are required, and reimbursement is limited to actual costs.

If no specific lodging site is designated for official City business, the City will reimburse the actual cost of lodging at an alternative location.

Meals

Where a conference or other event includes a meal or meals as part of the costs of the activity, no separate meals will be reimbursed unless due to dietary restrictions. The City will pay for the meals for Commissioners/Boardmembers during authorized **overnight travel only** as detailed below.

Meal expenses are reimbursed, including tax and tips and incidentals, up to the General Services Administration (GSA) per diem rate for the

GUIDELINES FOR CITY COMMISSIONS, BOARDS AND COMMITTEES FOR ATTENDANCE AT CONFERENCES AND TRAINING EVENTS

destination (available at http://www.gsa.gov/perdiem) for all official days of travel, including the first and last day of travel. Itemized receipts showing the expense amount are required for Councilmembers to receive reimbursement. Reimbursements are capped at the GSA amounts detailed below.

The Meals & Incidental Expenses will be used to generate the per diem rate for meals. Any meals provided as part of the conference, event, or hotel, must be deducted from the reimbursement as listed on http://www.gsa.gov/mie .

Alcohol, guest meals, and hotel incidentals (e.g. in-room services) are not eligible for reimbursement.

Transportation

Use of Private Vehicles: Members shall be compensated for the use of their private vehicles for approved business travel at the current GSA standard mileage rate, provided that it is the most logical and least expensive method of transportation.

Bridge Tolls/Parking: Bridge tolls and parking fees incurred while traveling on City business are reimbursable with receipts. Councilmembers shall obtain itemized receipts and submit them with their Travel Expense Reports.

Train /Other Mass Transit: Members shall be compensated for train or other mass transit fares and fees provided that it is the most logical and least expensive method of travel.

Ground Transportation: Supplementary transportation within the destination city shall be accomplished by hotel courtesy buses, local shuttle services or public transportation, if available and logical. Taxi or rideshare may also be used.

Airfare: Airfare must be booked at the lowest reasonable fare that provides the most direct route. Air travel options shall not be limited to a specific airline. Refundable tickets are permitted if there is a risk of cancellation. One checked bag is reimbursable. Any unused credits from official travel must either be applied to future City travel or reimbursed to the City.

GUIDELINES FOR CITY COMMISSIONS, BOARDS AND COMMITTEES FOR ATTENDANCE AT CONFERENCES AND TRAINING EVENTS

Cancellation

If travel arrangements must be canceled, members are expected to notify staff as soon as practicable to allow sufficient time to avoid or minimize additional costs to the City. Failure to not provide notification when unable to attend an event may result in the Boardmember/Commissioner from being disqualified for travel for at least six months.

Rewards and Promotional Benefits

Boardmembers/Commissioners may earn frequent flyer miles or other travel rewards (such as airline, hotel, or vendor loyalty points) while on official City travel. However, if personal frequent flyer miles or other reward points are used to purchase tickets or services for City business, the value of those tickets or services is not reimbursable.

Promotional benefits or materials received during official travel, if obtained under the same conditions as those offered to the general public and at no expense to the City, may be retained for personal use.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA AMENDING COUNCIL POLICY 006 GUIDELINES FOR CITY COMMISSIONS, BOARDS AND COMMITTEES

WHEREAS, a draft of Council Policy 006, "Guidelines for City Commissions, Boards and Committees for Attendance at Conferences and Training Events" ("Draft Policy") was presented to the Governance and Ethics Committee ("Governance and Ethics Committee") for their consideration on September 8, 2025 for review and revision as part of Council policies and procedures to further clarify guidelines for official travel by City Commissoners, Boardmembers and Committee members, and to further define reimbursable expenses for official travel, and ensure compliance with fiscal responsibility standards; and

WHEREAS, the Governance and Ethics Committee approved the Draft Policy in substantial form, with revisions, and directed staff to present the Draft Policy to the City Council for its consideration and adoption; and,

WHEREAS, City staff updated the Draft Policy and presented it to the City Council for their consideration at their December 16, 2025 City Council meeting; and

WHEREAS, Council considered the Draft Policy, heard public comment, and provided direction to staff regarding any requested modifications; and

WHEREAS, such modifications include updated guidelines and procedures for the Official Travel by City Councilmembers for the City of Santa Clara.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SANTA CLARA AS FOLLOWS:

1. Council Policy 006, entitled "Guidelines for City Commissions, Boards and Committees for Attendance at Conferences and Training Events", attached here as Attachment 1, is hereby approved and adopted commencing December 16, 2025 until further amended. The Policy shall continue in effect until otherwise affirmed, modified or terminated by vote of the City Council.

2. Staff is directed to take such other actions as are necessary to implement, post and

distribute the Policy, including preparation and presentation to the City Council of any necessary modifications to reflect the new policy.

3. Effective date. This resolution shall become effective immediately, with the Council Policy 006 to go into full effect upon December 16, 2025.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED AND ADOPTED BY THE CITY OF SANTA CLARA, CALIFORNIA, AT A REGULAR MEETING THEREOF HELD ON THE 16th DAY OF DECEMBER 2025, BY THE FOLLOWING VOTE:

REPORT TO COUNCIL

SUBJECT
Authorize the City Manager to Execute the 2026-2029 Memorandum of Understanding Between the City of Santa Clara and the Unclassified Police Management (Unit 9A) that Incorporates the Terms of the Tentative Agreement

BACKGROUND
The Unclassified Police Management (hereafter, “Unit 9A”) Memorandum of Understanding (hereafter, “MOU”) is set to expire on December 31, 2025.

The City and Unit 9A began negotiations on a successor MOU in October 2025 and met approximately five (5) times. On December 5, 2025, the parties reached a Tentative Agreement. The Tentative Agreement was ratified by the Unit 9A membership on or about December 5, 2025, and accepted by the City.

DISCUSSION
The recommended action authorizes the City Manager to execute a successor Memorandum of Understanding with a term of August 31, 2025, through and including December 31, 2029, that incorporates the terms of the Joint Mediation Recommendation reached between both parties.

The following is a summary of the notable provisions of the Joint Mediation Recommendation:

- Term:
  January 1, 2026 - December 31, 2029

- Wages:
  Effective the first pay period of calendar year 2026, all employees holding positions in classifications assigned to Unit 9A, except Assistant Police Chief (Job Code 027) shall receive a salary adjustment of approximately 4.0%. All salary ranges will remain status quo.

  Effective the first pay period of calendar year 2027, all salary ranges for employees holding positions in classifications assigned to Unit 9A shall be increased by approximately 3.0%.

  Effective the first pay period of calendar year 2028, all salary ranges for employees holding positions in classifications assigned to Unit 9A shall be increased by approximately 3.0%.

  Effective the first pay period of calendar year 2029, all salary ranges for employees holding positions in classifications assigned to Unit 9A shall be increased by approximately 3.0%.

- Lump Sum

Effective the first full pay period for calendar year 2026, the City shall issue a one-time Lump Sum payment of $5,500 to the Assistant Police Chief (Job Code 027).

- Deferred Compensation
  Effective the first full pay period for calendar year 2026, the City shall increase its contribution to $330/month (from $150/month) to the employee's deferred compensation. Once the 401(a) is established, the City's prospective contributions after the 401(a) is established will go to the 401(a).

- Voluntary Employee Beneficiary Association (VEBA)
  Effective the first full pay period for calendar year 2026, the City shall increase its contribution to $250/month (from $100/month) to the employee's VEBA account.

- Vacation Cashout
  The vacation cashout shall increase from 80 to 100 hours in calendar years 2026, 2027, and 2028. Elections for 2026 must be made by December 31, 2025. Effective the first pay period of Calendar Year 2029, employees shall be eligible for a maximum vacation cashout of 80 hours per year.

- Management Leave Program
  Effective the first full pay period for calendar year 2026, the management leave accrual limit shall increase from 180 to 210 hours in calendar years 2026, 2027, and 2028. Effective the first pay period of Calendar Year 2029, employees shall have a management leave accrual limit of 180 hours.

  For calendar year 2026, only, management leave credited to employees shall increase from 120 hours to 150 hours.

- Chemical Testing
  The language shall be amended to align with the Police Officers Association (Unit 2).

- Workers' Compensation Fast Track Program
  The Side Letter Agreement the Workers' Compensation Fast Track Program available to the Police Officers Association (Unit 2) shall be extended to employees represented by Unit 9A.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

The City regularly budgets the total compensation cost for its current employees and integrates known and projected cost increases from MOUs in the City's annual budget. The costs of the Unit 9A MOU are within budget authority approved by the City Council through the negotiation process.

In FY 2025/26, the costs associated with the negotiated agreement are approximately $59K, all of which are in the General Fund. It is anticipated that this amount will be covered within the existing

departmental budget in FY 2025/26. Expenditures will be monitored throughout the year, and a budget action will be brought forward to Council if necessary. There is sufficient funding in the unrestricted ending fund balance to address any additional costs that cannot be absorbed. In future years, the costs for this contract will be factored into future forecasts and annual budgets.

The chart below reflects the estimated changes in costs, all of which are in the General Fund, over the term of the Unit 9A MOU.

Item	Description	Estimated General Fund Cost
Ongoing Costs		
Wages (Jan. 2026)	4.0% increase for Police Captains (salary range remains status quo) + $5,500 lump sum to the Assistant Police Chief	$70K + $5.5K
Wages (Jan. 2027)	3.0% increase	$66K
Wages (Jan. 2028)	3.0% increase	$68K
Wages (Jan. 2029)	3.0% increase	$70K
Deferred Compensation	Increase to $330/month	$11K
VEBA	Increase to $250/month	$9K
	Total	$299.5K
One-time Costs		
Vacation cash out	Additional 20 hours	$16K
	Total	$16K

COORDINATION

This report has been coordinated with the Finance Department and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov, or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Authorize the City Manager to execute the Memorandum of Understanding between the City of Santa Clara and the Unclassified Police Management (Unit 9A) with effective dates of January 1, 2026 - December 31, 2029, that incorporates the terms of the Tentative Agreement.

SIDE LETTER AGREEMENT

BETWEEN

THE CITY OF SANTA CLARA

AND

UNCLASSIFIED POLICE MANAGEMENT (UNIT 9A)

WORKERS' COMPENSATION FAST TRACK PROGRAM

The City and Unit 9A agree to implement a Workers' Compensation Fast Track Program (or "Fast Track") for employees represented by Unit 9A as soon as practicable. The Fast Track Program shall be as follows:

1. Employees who suffer a work-related injury or illness and seeking treatment through Kaiser Permanente Occupational Health are immediately pre-approved for all relevant diagnostic testing as defined within the Kaiser Fast Track program. No Utilization Review ("UR") approval is required. There is no other Fast Track Program available outside of Kaiser Permanente Occupational Health.

2. This Fast Track Program is specific to Kaiser Permanente Occupational Health due to the close collaboration and coordination that is required with the providing doctors, and the in-house diagnostic testing capabilities at most of Kaiser's occupational health centers.

    a. Being a Kaiser member is <u>not</u> required to utilize the Fast Track Program.

    b. Employees can also have the test results sent to their own Workers' Compensation doctor for diagnosis and treatment at their option; however, employees opting to have test results sent to their own Workers' Compensation doctor for further diagnosis and treatment are not eligible to receive pre-authorization for the relevant diagnostic testing identified in Sections 4.a., 4b., and 4.c of this Side Letter.

3. Kaiser Permanente Occupational Heath centers are located throughout Northern and Southern California and are also known as "Kaiser Permanente On-the-Job" (KPOJ) clinics. Most are open 8:30am to 5:00pm.

4. In the event of a work-related injury, employees should contact their preferred KPOJ clinic for an appointment for immediate treatment and any relevant diagnostic testing that is pre-approved as prescribed by a KPOJ physician, bypassing any delays associated with Utilization Review as identified below.

    a. Pre-authorized tests include:

        i. Radiology (X-rays, MRI, MRI arthrogram, CT scan, Doppler ultrasound)
        ii. Labs (Complete Blood Count, Differential, Platelet Count, Chemistry panels such as kidney or liver function tests)
        iii. Electrodiagnostic Studies (EMG and Nerve Conduction)

    b. Pre-authorized non-surgical treatments include:

i. Consults (Orthopedics, Podiatry, Physical Medicine Rehab Surgery, Plastic Surgery, Spine specialists, Ophthalmology, ENT, Neurology, Wound Clinic, etc.)
ii. Physical therapy (up to a maximum of 24 visits)
iii. Occupational hand therapy (up to a maximum of 24 visits)
iv. Acupuncture (up to a maximum of 24 visits)
v. Trigger point injections (series of 3)
vi. Epidural steroid injections (series of 3)
vii. Joint injections
viii. Ultrasound guided injections
ix. Continuous Passive Motion rental for post-op
x. Cold Compression Machine (i.e., Game Ready) rental for 30 days
xi. TENS units Custom splints
xii. Medications - A list has been authorized for Fast Track

c. Pre-authorized surgical treatments include:

i. Emergency surgeries for fracture, tendon injuries and trauma
ii. Arthroscopic knee surgeries
iii. Arthroscopic shoulder surgeries
iv. Carpal Tunnel Release surgery
v. Hernia Repair
vi. Biopsy/Pathology for accepted skin cancer claims
vii. Destruction of skin areas by Cryogenic surgery, liquid nitrogen, Mohs surgery on accepted skin cancer claims

5. This Side Letter Agreement is considered part of the tentative agreement for a successor Memorandum of Understanding (or "MOU") between the parties, and shall become effective only as part of the overall tentative agreement for a successor MOU, and when signed by all parties below and approved by City Council.

REPORT TO COUNCIL

SUBJECT

Note and File the List of Designated City Employees who are Subject to Post-Employment Restrictions Pursuant to City Code Chapter 2.145

BACKGROUND

The Political Reform Act (Cal. Gov. Code §87406.3) places a one-year restriction on the post-service activity of certain high-level local government officials and employees. Local elected officials as well as city managers are bound by the one-year ban on representing any other person, for compensation, by appearing before or communicating with their former agency in an attempt to influence the agency's decisions in an administrative or legislative action, or any action involving a permit, license, contract, or other transaction. A local agency is allowed to adopt additional post-service restrictions so long as those restrictions are more stringent than those in the state law.

In July 2000, the City Council adopted a final Ordinance that established a new Chapter in the Santa Clara City Code (formerly Santa Clara City Code, Chapter 2.80, renumbered to Chapter 2.145 of the City Code) that established a local Revolving Door prohibition for elected officials and designated employees. This local ordinance is more restrictive than the state law described above in that it expands both the list of employees to whom the restriction applies, and the prohibited post-service activities.

The purpose of this Code provision is (SCCC 2.145.010):

a) To prevent former city officials and designated city employees from using their influence with the city or agency for personal gain.
b) To prevent private for-profit business entities from obtaining a real or perceived unfair advantage in dealing the city or agencies by hiring former city or agency officials and/or designated city employees.
c) To comply with the City "Code of Ethics and Values."
d) To attempt to assure the independent, impartiality and integrity of city and agency officials and designated city employees in making governmental actions and decisions.

For one year immediately following the termination of city, agency or commission office or employment, former city officials, agency officials, commission officials and designated city employees shall not, for compensation (SCCC 2.145.030):

a) Work on any matter which the affected city official or designated city employee previously worked on for the city.
b) Represent anyone else before the city council, a city agency, a city commission or staff of the city.

c) Receive any gift or payment in excess of the amount determined from time to time by the Fair Political Practices Commission from any person who was, in any way, involved in or affected by the work of the affected city official or designated city employee.

In this context, “work” shall mean any activity, for which compensation is received from any source, including compensation received as an independent contractor. Work includes the supervision or direction of others performing work, except as provided in SCCC 2.145.050 <https://www.codepublishing.com/CA/SantaClara/> (use of an ethical wall framework). Work for the City or an agency also includes any action of any sort whatsoever taken in one’s official capacity. Service by a City or an agency official or designated City employee on any type of board, committee, subcommittee or similar body as a representative of the City or agency is deemed to be work for the City or an agency (SCCC 2.145.020(h)). The Santa Clara City Code includes that the following “work” shall not be subject to the prohibitions (SCCC 2.145.040):

a) As an employee or volunteer of a nonprofit organization.
b) As an employee of a governmental entity.
c) As an employee pursuant to City Charter 802 which, subject to the civil services provisions of the City Charter, grants authority to the City Manager to make personnel appointments.
d) As an independent contractor of the city or agency where it has been determined that it is in the best interest of the city or agency to retain the former affected city official or city employee to provide transitional services.

Santa Clara City Code, Section 2.145.020(e) includes a provision that annually, the City Manager will provide the City Council with a list of designated City classifications that will be subject to the “revolving door” prohibitions. On December 3, 2024, the City Manager brought forward an item to Note and File the List of Designated City Employees for the period of January 1, 2025 - December 31, 2025. This included the positions of City Manager, Deputy City Manager, Assistant to the City Manager, City Attorney, Chief Operating Officer, Assistant City Manager, Director of Community Development, Assistant City Clerk, Assistant Police Chief, Police Captain, Fire Chief, Chief Electric Utility Officer, Director of Finance, Director of Water & Sewer Utilities, Director of Information Technology, Director of Public Works, Director of Finance, Director of Human Resources, Director of Parks & Recreation, and City Librarian.

DISCUSSION

In an effort to maintain compliance with Santa Clara City Code. Section 2.145.020(e), the City Manager has designated the classifications set forth below as “Designated City Employees” pursuant to SCCC 2.145.020(e). This list has been expanded from the 2025 year to include the classifications of Director of Economic Development and Sustainability, City Auditor, and Director of Silicon Valley Power (formerly Chief Electric Utility Officer). The Mayor and Council are already included, as defined by City Official in section 2.145.020 (b) of the Santa Clara City Code.

List of Designated Classifications City Employees Covered Under City Code Section 2.145.020 (e)	
City Manager	Fire Chief
City Attorney	Director of Human Resources
Chief Operating Officer	Director of Information Technology

Assistant City Manager	City Librarian
Director of Community Development	Director of Parks & Recreation
Director of Public Works	Assistant Police Chief
Director of Silicon Valley Power	Director of Water & Sewer Utilities
Director of Finance	Assistant City Clerk
Deputy City Manager	Assistant to the City Manager
Director of Economic Development and Sustainability	Police Captain
City Auditor	

The list of Designated City Employees will be effective for the calendar period of January 1, 2026 - December 31, 2026.

The Administration will ensure that annual compliance is adhered to by bringing forward the Designated List of classifications that would be subject to Chapter 2.145.020 (e) annually, in December.

ENVIRONMENTAL REVIEW
The action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT
Establishing an annual list of classifications that would be subject to the post-employment restrictions, as outlined in City Charter, Chapter 2.145, does not have a cost to the City, except for associated staff time in preparation of the agenda materials.

COORDINATION
This report has been coordinated with the City Attorney’s Office.

PUBLIC CONTACT
Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City’s website and in the City Clerk’s Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk’s Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov>, or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION
Note and File the List of Designated City Employees who shall be subject to post-employment restrictions pursuant to Santa Clara City Code, Chapter 2.145 for the period of January 1, 2026 - December 31, 2026.

25-1727 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT
Action to Waive Second Reading and Adopt Ordinance No. 2083 entitled “Ordinance of the City of Santa Clara, California, Regulating Certain Activities Within a Protected Area in Connection with Major Events and Related Activities in the City of Santa Clara” (Special Event Zone)

BACKGROUND
At the December 9, 2025, Council meeting, proposed Ordinance No. 2083 was passed for the purpose of publication. Pursuant to City Charter Sections 808 and 812, a summary of proposed Ordinance No. 2083 was published in the Santa Clara Weekly on December 10, 2025, and copies were posted in three public places.

DISCUSSION
The proposed ordinance establishes temporary regulations governing certain outdoor commercial activities within a designated Special Event Zone during major events at Levi’s® Stadium, including Super Bowl LX and FIFA World Cup 2026. The ordinance applies only within the Special Event Zone and only during the defined Special Event Time Periods, as adopted by the City Council.

The ordinance does not alter or replace existing federal, state, or local requirements; all other applicable regulations including those governing counterfeit goods, temporary uses, and special event permits remain in effect.

ENVIRONMENTAL REVIEW
The action being considered does not constitute a “project” within the meaning of a California Environmental Quality Act (“CEQA”) pursuant to the CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment. Even if adoption of the Ordinance was considered to be a project under CEQA, it would be exempt from CEQA review pursuant to CEQA Guidelines section 15061(b)(3) because it can be seen with certainty that there is no possibility that adoption of the Ordinance would have a significant effect on environment given that it does not involve or authorize any construction or physical activity that could impact the environment.

FISCAL IMPACT
There is no General Fund impact anticipated beyond staff time to implement and enforce time-limited activations.

COORDINATION
This report and ordinance were coordinated with the City Manager’s Office, City Attorney’s Office, Police, Public Works, Community Development (Planning/Building/Code); Economic Development and Marketing; Communications; and the Stadium Authority.

PUBLIC CONTACT
A summary of proposed Ordinance No. 2083 was published in the Santa Clara Weekly on December 10, 2025, and copies were posted in three public places and made available for public inspection at the City Clerk's Office.

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION
Waive Second Reading and Adopt Ordinance No. 2083 entitled "Ordinance of the City of Santa Clara, California, Regulating Certain Activities Within a Protected Area in Connection with Major Events and Related Activities in the City of Santa Clara" (Special Event Zone).

1. Ordinance No. 2083 (Intro)

ORDINANCE NO. 2083

AN ORDINANCE OF THE CITY OF SANTA CLARA, CALIFORNIA, REGULATING CERTAIN ACTIVITIES WITHIN A PROTECTED AREA IN CONNECTION WITH MAJOR EVENTS AND RELATED ACTIVITIES IN THE CITY OF SANTA CLARA

WHEREAS, the City of Santa Clara ("City") is home to Levi's® Stadium ("Stadium") which opened in 2014 and regularly hosts football events, concerts, soccer matches, and other events ("Events");

WHEREAS, some of the Events hosted at the Stadium attract statewide, national and/or international interest, with increased potential for safety and security risks due to their large crowds, enhanced level of media attention, large number of high-profile attendees, and increased commercial and community activity at and around the Stadium ("Special Events");

WHEREAS, in 2026, the Stadium will host two Special Events, Super Bowl LX (and related events) in February 2026, and FIFA World Cup 2026 (and related events), from late May through early July 2026;

WHEREAS, in addition to the Stadium, the City also has within its jurisdiction various other public and private facilities, parking areas, access roads, thoroughfares and other areas which may be used for the purposes of staging and conducting activities related to the Special Events at the Stadium, including support of Special Event security, logistics, traffic management and other community or commercial activities associated with the Special Events;

//

//

WHEREAS, the Special Events will require extensive event load-in and load-out operations, including temporary structures, hospitality installations, security screening areas, broadcast compounds, fencing, and wayfinding systems, all of which necessitate maintaining clear and predictable access routes for emergency services, credentialed personnel, and freight deliveries;

WHEREAS, the primary ingress and egress corridors serving the Stadium are essential for the safe movement of attendees, emergency vehicles, transit providers, rideshare operations, and Event support staff;

WHEREAS, the Stadium is supported by extensive surface parking areas, pedestrian walkways, shuttle zones, and transit connections that experience significant pedestrian volumes before and after Special Events, and temporary restrictions on unpermitted vending and commercial activity within these areas are necessary to safeguard pedestrian travel and protect adjacent residential neighborhoods from spillover impacts;

WHEREAS, event and hospitality facilities adjacent to the Stadium, including the Santa Clara Convention Center, California's Great America theme park, and nearby hotels are expected to host Special Event related activities such as credentialing operations, media production, hospitality functions, fan activations, and community programming, creating additional demand for coordinated public safety, mobility management, and regulation of outdoor commercial activity;

WHEREAS, the Santa Clara City Code already prescribes regulations and restrictions to ensure smooth operations of Events at the Stadium, including local permit requirements and regulations for soliciting and peddling, signs, temporary short-term activities, and parades, races and block events;

WHEREAS, given increased security risks, increased number of people visiting the City to attend or participate in, and the large scale nature of Special Events, and related activities, the City has determined that it is within the public interest to adopt certain additional and temporary regulations ("Special Event Regulations") to mitigate and manage these risks consistent with City's interest in preserving the public's health, safety and welfare;

WHEREAS, the City's specific purposes for adopting the Special Event Regulations include: (1) promoting and protecting public health, safety, and welfare in and around the Stadium and other areas within the City impacted by Special Events; (2) exercising responsible public stewardship by managing Special Events to maximize economic benefits to the community, while protecting the public interest; (3) promoting and protecting good order and aesthetic qualities in and around the Stadium during Special Events and minimizing commercial blight; and (4) managing congestion and pedestrian and vehicular traffic flow within a specifically defined area around the Stadium ("Special Event Zone") that would otherwise impede the free and safe flow of traffic, presenting safety and security risks, by hindering security operations and interfering with emergency vehicle access;

WHEREAS, the Special Event Zone boundaries will be specific to each Special Event, and will generally align with the autonomous vehicle geofenced rideshare map, underscoring the need to preserve adequate traffic flow, avoid congestion, and maintain safe and orderly transportation operations during Special Events;

//

//

WHEREAS, establishing the Special Event Zone in advance of Special Events will allow the City to implement predictable and transparent regulations, coordinate enforcement, and maintain safe and efficient event operations from early event preparation through post-event crowd dispersal;

WHEREAS, certain Special Event Regulations regulate sidewalk vendors and those regulations are directly related to the health, safety, and welfare concerns identified in Santa Clara City Code section 5.05.440 which exist upon the sidewalks and other pedestrian paths within the Special Event Zone;

WHEREAS, in order to tailor the application of the Special Event Regulations to the time periods and the specific geographic areas where the public health, safety and welfare concerns are expected to arise, the Special Event Regulations will only apply, during the time periods designated for each Special Event and only within the Special Event Zone designated for each Special Event;

WHEREAS, these designated time periods are intended to encompass not only the days on which the Special Events occur, but also the necessary lead-up and operational phases including load-in, construction of temporary facilities, credentialing, security screening, and crowd-management preparations during which health, safety and welfare impacts similarly exist;

WHEREAS, maintaining these regulations continuously throughout the full preparation, event, and dispersal periods, rather than intermittently turning them on and off, is essential to ensuring consistent application, effective enforcement, operational clarity for the public and stakeholders, and the uninterrupted protection of public safety and orderly event operations; and

WHEREAS, based on the foregoing, the City has a substantial interest in adopting the Special Event Regulations set forth in this Ordinance, which shall be effective only during the specified dates and times applicable to Special Events and within the Special Event Zone designated.

NOW THEREFORE, BE IT ORDAINED BY THE CITY OF SANTA CLARA AS FOLLOWS:

SECTION 1: That the findings contained in the preamble of this Ordinance are determined to be true and correct and are hereby adopted by the City Council as a part of this Ordinance.

SECTION 2: Definitions. For purposes of this Ordinance the following terms shall have the meanings ascribed thereto:

a. "Special Event" shall mean (1) Super Bowl LX, (2) FIFA World Cup 2026, or (3) any similar event held at the Stadium, expected to attract statewide, national and/or international interest, with increased potential for safety and security risks due to their large crowds, enhanced level of media attention, large number of high-profile attendees, and increased commercial and community activity at and around the Stadium that is designated as a "Special Event" by resolution adopted by the City Council.

//

//

//

//

//

b. “Special Event Time Period” shall mean the time period leading up to and after a Special Event during which Special Event Regulations shall be in effect. For Super Bowl LX the Special Event Time Period shall commence on February 1, 2026, at 8:00 a.m. and shall expire on February 10, 2026 at 10:00 p.m. Other Special Event Time Periods, including FIFA World Cup 2026, shall be designated by the City Council by Resolution.

c. “Special Event Zone” shall mean with respect to Super Bowl LX that certain area surrounding the Stadium expected to be impacted by the conduct of such events and any related activities thereby necessitating the imposition of the Special Event Zone Regulations as more particularly shown on the map and description attached hereto as Exhibit "A" including all publicly owned property, public rights of way and private property located therein. Other Special Event Zones, including for FIFA World Cup 2026 shall be designated by the City Council by Resolution.

SECTION 3: Special Event Zone Regulations. With respect to each Special Event designated in accordance with the terms of this Ordinance, the following regulations shall apply for the duration of the Special Event Time Period and within the Special Event Zone designated for such Special Event.

a. Pause on Existing Permits within Special Event Zone. All permits issued pursuant to Chapter 5.05 of the Santa Clara City Code for approved locations within the Special Event Zone shall be paused. If any such permit holder peddles at alternative approved locations designated in the permit, the permit shall only be paused in part, as applied to the approved location within the Special Event Zone, and shall remain in full force and effect as applied to the alternative approved location.

b. Prohibition on Outdoor Sales of Food and Beverage. The outdoor sale of any food or beverages to the public visible from any public street, sidewalk or public rights of way shall be prohibited, including alcoholic beverages, except food or beverages sold or distributed in the ordinary course of business at a location for which the City has issued a Certificate of Occupancy, Conditional Use Permit or other permit authorized by the Santa Clara City Code.

c. Prohibition on Outdoor Sales of Merchandise. The outdoor sale or distribution of merchandise (used in its broadest sense and including commercial property or transaction(s) of every kind) to the public visible from any public street, sidewalk or public right of way shall be prohibited, except merchandise sold or distributed in the ordinary course of business at a location for which the City has issued a Certificate of Occupancy, Conditional Use Permit or other permit authorized by the Santa Clara City Code.

d. Prohibition on Mobile Unit Commercial Vending. Commercial vending from any "mobile unit," which includes any vehicle, truck, trailer, pushcart, wagon, bicycle, dray, conveyance or structure on wheels, not firmly fixed to a permanent foundation, whether or not required to have a license to operate issued by the California Department of Motor Vehicles, is prohibited.

//

//

//

//

//

e. Prohibition on Distribution of Free Products. The distribution or provision of free products, commercial services or coupons (otherwise referred to as sampling) and other promotional giveaways on public streets, sidewalks or rights of way or outside an enclosed building is prohibited. This prohibition does not apply to distribution of coupons outside of an enclosed building, and wholly occurring within private property, where the distributions provides direct support for the business operating within the enclosed building upon which the property is located.

f. Prohibition on Mobile Advertising Displays. Mobile advertising (including, but not limited to signs on or attached to a “mobile unit” portable device or person) is prohibited. Notwithstanding the foregoing, buses, taxicabs, and other delivery vehicles that display advertising as a secondary use of the vehicle in the ordinary course of business, may travel within the Event Zone to pick up and drop off passengers and goods.

g. Permits for Temporary Structures. No temporary structure shall be constructed, placed, occupied or used (including, but not limited to, temporary location of tents, canopies, umbrellas and air supported, air-inflated and tensioned membranes) on non-residential property unless it is approved as an associated use with a Temporary Use Permit issued by the City pursuant to Santa Clara City Code Chapter 18.122.

//

//

//

//

SECTION 4: Compliance with Existing Federal, State and Local Laws. Nothing in this Ordinance modifies requirements to comply with existing federal, state, and local laws. This includes but not limited to requirements to comply with state and federal laws related to sale or distribution of counterfeit merchandise. It also does not change requirements to comply with the City's local regulations, including but not limited to requirements to obtain permits for activities when required by the Santa Clara City Code.

SECTION 5: Violations and Penalties.

a. Mobile Unit Commercial Vending Violations. Violations of the "Prohibition on Mobile Unit Commercial Vending" provision within the public right-of-way or in a park owned and operated by the City, are punishable by the administrative remedies authorized in Santa Clara City Code Chapter 5.05.

b. Administrative Remedies. Except as otherwise prohibited by state law, violations of any other provision of this ordinance by any person, firm, corporation, agent or employee thereof may be prosecuted as an administrative citation as set forth in Santa Clara City Code Chapter 1.10. Each day that a violation is permitted to exist shall constitute a separate offense.

c. Other Enforcement Options. In addition to any other remedies herein, this ordinance may be enforced by an injunction issued by the Superior Court upon any suit by the City. If any activity that constitutes a violation of this ordinance also constitutes a violation of any state, federal, local, or common law, this ordinance shall not be the exclusive remedy and shall not be deemed to abrogate any other rights and remedies that may exist under law.

SECTION 6: Severability. If any section, subsection, clause or phrase of this ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portion or sections of the ordinance. The City Council declares that it would have adopted the ordinance and each section, subsection, sentence, clause or phrase irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

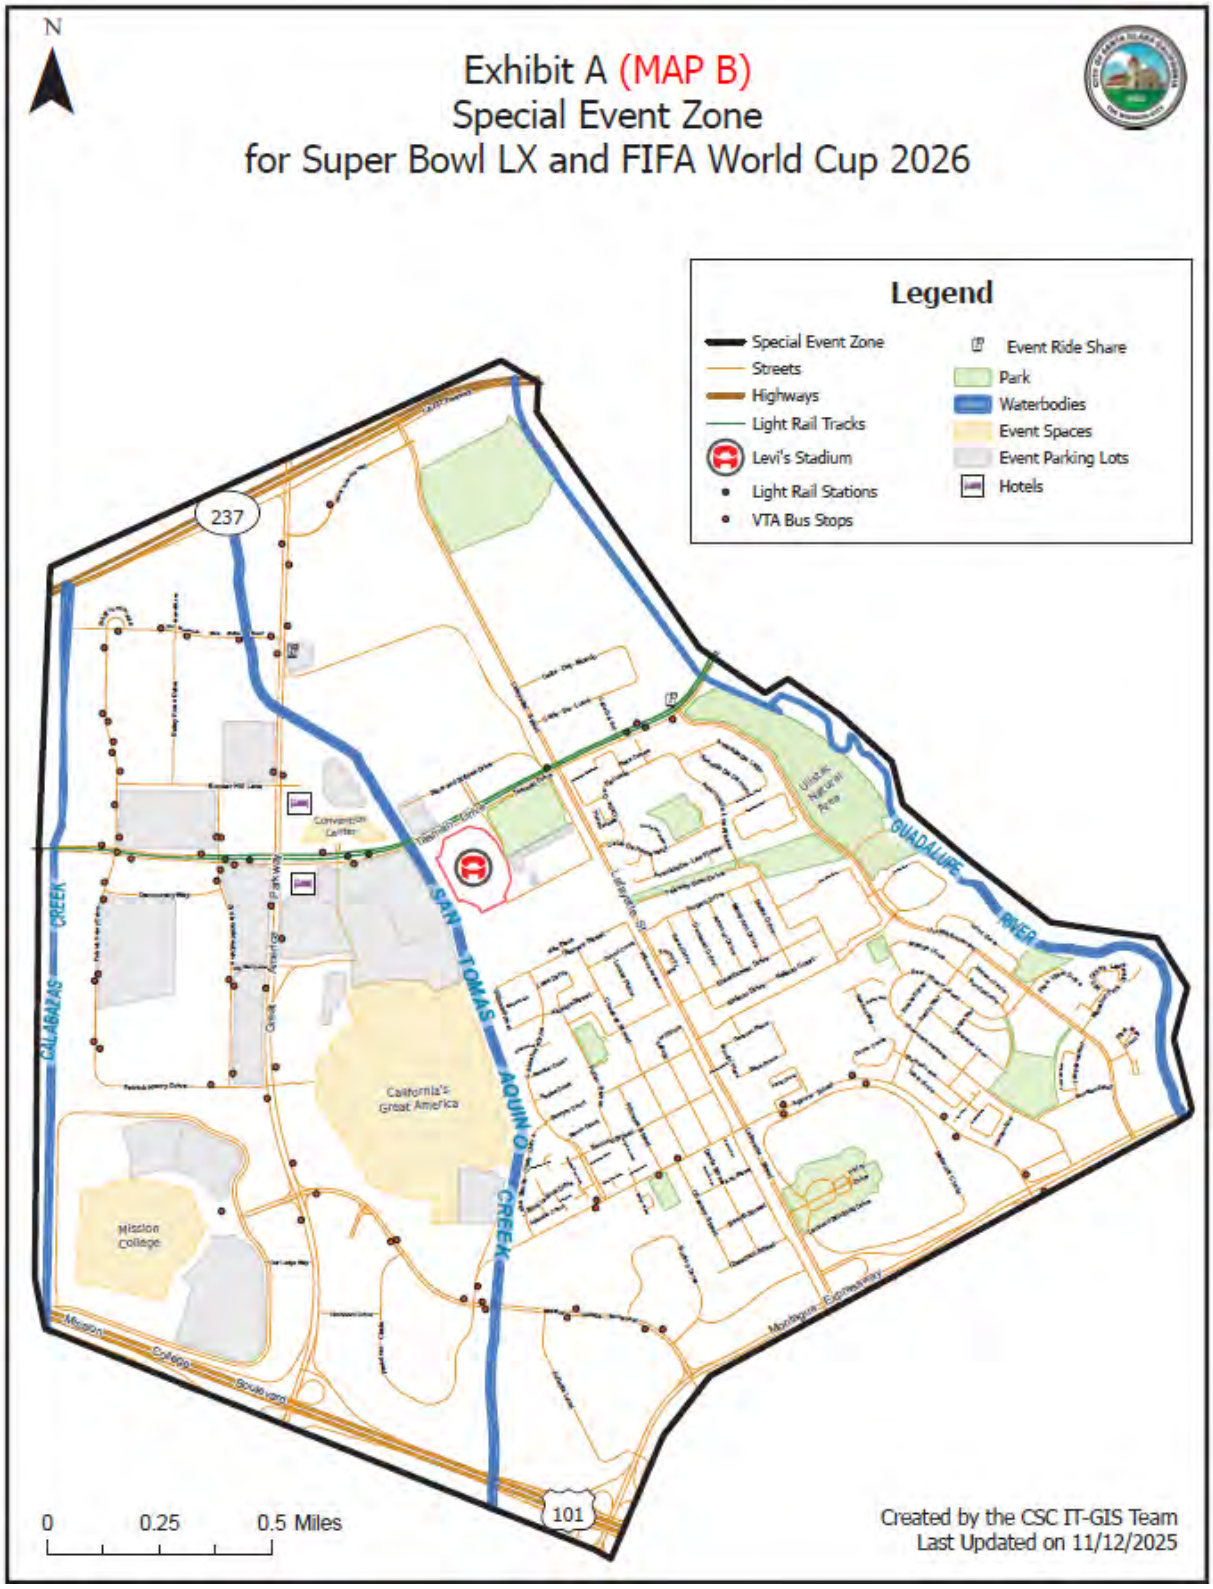
SECTION 7: No Impact on Existing Prosecutions/Fees. The changes provided for in this Ordinance shall not affect any offense or act committed or done or any penalty or forfeiture incurred or any right established or accruing before the effective date of this Ordinance; nor shall it affect any prosecution, suit or proceeding pending or any judgment rendered prior to the effective date of this Ordinance. All fee schedules shall remain in force until superseded by the fee schedules adopted by the City Council.

SECTION 8: CEQA. Adoption of this Ordinance is not a "project" as defined by CEQA pursuant to CEQA Guidelines section 15378 because it does not have any potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and it involves only organizational and administrative activities of the City; it does not involve or otherwise authorize any construction or physical activity that could impact the environment. Even if adoption of the Ordinance was considered to be a project under CEQA, it would be exempt from CEQA review pursuant to CEQA Guidelines section 15061(b)(3) because it can be seen with certainty that there is no possibility that adoption of the Ordinance would have a significant effect on environment given that it does not involve or authorize any construction or physical activity that could impact the environment.

SECTION 9: Ordinance not codified. This Ordinance shall not be codified in the Santa Clara City Code.

SECTION 10: Effective date. This Ordinance shall take effect thirty (30) days after its final adoption; however, prior to its final adoption it shall be published in accordance with the requirements of Section 808 and 812 of "The Charter of the City of Santa Clara, California."

PASSED FOR THE PURPOSE OF PUBLICATION this 9TH day of DECEMBER, 2025, by the following vote:



AYES:	COUNCILORS:	Chahal, Cox, Gonzalez, Hardy, Jain, and Park, and Mayor Gillmor
NOES:	COUNCILORS:	None

25-1655 Agenda Date: 12/16/2025

REPORT TO STADIUM AUTHORITY BOARD

SUBJECT
Action on Stadium Authority Bills and Claims for the Month of October 2025

BACKGROUND
Disbursements made by the Stadium Authority are based on invoices submitted for payment. Prior to payment, staff reviews all disbursement documents to ensure that the invoiced goods or services have been provided.

The Bills and Claims listing represents the cash disbursements required of normal and usual operations during October 2025. Budget control is set by the Stadium Authority Board through the budget adoption process.

DISCUSSION
At its March 11, 2025 meeting, the Stadium Authority Board adopted the Santa Clara Stadium Authority Fiscal Year 2025-26 Operating, Debt Service, and Capital Budget which runs from April 1, 2025 to March 31, 2026. Significant expenditures (greater than $5,000) paid in October 2025 include:

- Payment totaling $87,568.00 to BNO Builders for CapEx Project: Site - Concrete Replacements
- Payments totaling $360,850.69 to the City of Santa Clara for the following:
    - $335,755.39 for reimbursement of General and Administrative (G&A) City payroll costs (e.g., Executive Director's Office (City Manager's Office), Stadium Authority Counsel's Office (City Attorney's Office), and Treasurer's Office (Finance Department))
    - $3,196.51 for reimbursement of G&A non-payroll costs (e.g., City-wide records retention project and office expenses)
    - $16,957.83 for reimbursement of CapEx costs for the Kawasaki ATV and Network Equipment projects
    - $4,940.96 for reimbursement of Stadium Authority Special Liability Claims related to Levi's Stadium
- Payments totaling $1,388,438.75 to Forty Niners Stadium Management Company, LLC for the following:
    - $1,387,840.37 for October 2025 Stadium Manager Expenses, inclusive of Shared Stadium Expenses
    - $598.38 for reimbursement of CapEx costs for the Broadcast Booth Window System Replacement and Radio Booth Cabling projects the Stadium Manager paid on behalf of the Stadium Authority
- Payment totaling $9,374.00 for Legal Services (August and September 2025)
- Payment totaling $28,178.75 to Hellmuth, Obata & Kassabaum, Inc. for CapEx Project: Electrical - LED Retrofit Phase 1

- Payment totaling $5,344.70 to InTWO, Inc for Financial Management System Monthly Services (September 2025)
- Payment totaling $53,680.00 to KPMG LLP for Audit Services
- Payment totaling $20,520.00 to O.C. McDonald Co Inc. for CapEx Project: Plumbing - Boilers
- Payment totaling $4,620,456.23 to Stadium Funding Trust for Term A Loan Payment - Interest

Names of law firms have been redacted from the Bills and Claims report. The Supreme Court of California in Los Angeles County Board of Supervisors v. Superior Court, (2016) 2 Cal.5th 282, held that invoices specifying the amounts billed by a law firm to a client fall within the scope of attorney-client privilege while the matters are active. In accordance with the Supreme Court's ruling, the names of law firms retained by the Stadium Authority, and the specific amounts billed by each, have been redacted from the public report to maintain the confidentiality of billing records for specific legal services. The aggregate amount spent on legal services in the subject time period has been provided.

ENVIRONMENTAL REVIEW
The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to section 15378(b)(4) of Title 14 of the California Code of Regulations in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

FISCAL IMPACT
The fiscal impact to the Stadium Authority is $6,579,503.03.

COORDINATION
This report has been coordinated with the Executive Director and Stadium Authority Counsel's Offices.

PUBLIC CONTACT
Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION
Approve the list of Stadium Authority Bills and Claims for October 2025.

REPORT TO STADIUM AUTHORITY BOARD

SUBJECT
Action on the Santa Clara Stadium Authority Financial Status Report for Quarter Ending September 30, 2025

BACKGROUND
In Fiscal Year 2014/15 the Stadium Authority Board ("Board") requested that staff prepare quarterly Santa Clara Stadium Authority ("Stadium Authority") Financial Status Reports. These reports provide an update on the events held at Levi's® Stadium, Stadium Authority finances, and the impact of Stadium Authority activity on the City of Santa Clara's ("City").

This report provides information covering the Stadium Authority's second quarter of the 2025/26 fiscal year ("FY"), which runs from July 1, 2025 - September 30, 2025.

The Adopted Stadium Authority Budget incorporates the estimated revenues and expenses for all Stadium Authority funds. The attached Financial Status Report provides the budget to actual revenue and expense summaries for the operating, debt service, and capital funds. Analysis of the financial activity through the fiscal year measures the adherence to the budget and allows the Stadium Authority to monitor and project revenues and expenses. Any significant variances are explained in the reports.

DISCUSSION
The attached financial status report provides information covering the Stadium Authority's second quarter (July 1, 2025 - September 30, 2025) of FY 2025/26. The report summarizes National Football League ("NFL") and Non-NFL event activity at Levi's® Stadium and describes the financial impact of these events on the Stadium Authority and City since FY 2014/15. The report also provides the budget to actual revenue and expense summaries for the operating, debt service, and capital funds. Analysis of the financial activity through the fiscal year measures the adherence to the budget and allows the Stadium Authority to monitor and project revenues and expenses. Any significant variances are explained in the report.

NFL Event Revenue and Expenses
There were four NFL games held in the second quarter of FY 2025/26. Levi's® Stadium hosted two pre-season NFL games of the 2025 season on August 9th and 23rd and two regular NFL season games of the 2025 season on September 21st and 28th which are detailed in the report. This resulted in $5.4 million in NFL ticket surcharge for the Stadium Authority and $109,000 of Senior and Youth Program Fees for the City. Public safety costs for NFL games totaled an estimated $2.4 million which will be fully reimbursed to the City by a combination of payments from ManCo and offsite parking fees that were collected.

Non-NFL Event Revenue and Expenses

There were eight ticketed Non-NFL events and 20 special events which are detailed in the report. The eight ticketed Non-NFL events generated an average net revenue of $703,000 per event. Table 1 below summarizes revenues and expenditures for the eight ticketed events.

Table 1

Levi's® Stadium
Ticketed Non-NFL Events Revenue and Expenditure Summary
As of September 30, 2025

$ In Millions

Ticketed Event	Revenue	Expense	Net
Concert 1	$ 3.5	$ 2.4	$ 1.1
Concert 2	3.6	2.6	1.0
Sporting Event 1	1.6	0.7	0.9
Concert 3	2.3	1.6	0.7
Concert 4	2.3	1.5	0.8
Concert 5	2.1	1.5	0.6
Concert 6	1.9	1.4	0.5
Sporting Event 2	0.7	0.7	-
Total Ticketed Non-NFL Net Revenue to Date	$ 18.0	$ 12.4	$ 5.6

The Non-NFL event ticket sales generated $1.8 million in base ticket surcharge revenue from the $4 per ticket base surcharge for this period. One half of the base Non-NFL ticket surcharge was deposited into the discretionary fund in accordance with Section 12.1 of the Stadium Lease, with the remaining half being accounted for as general Stadium revenues. As part of the Buffet and Public Safety Cost Settlement Agreement, the Non-NFL Ticket Surcharge was increased to a minimum of $8 per ticket. Proceeds collected in excess of the $4 base Non-NFL ticket surcharge generated $2.6 million in additional Non-NFL ticket surcharge and was deposited in the public safety cost reserve. Public safety costs for these events totaled an estimated $4.6 million. The City will be fully reimbursed by a combination of payments from ManCo on behalf of the Stadium Authority and offsite parking fees that were collected.

When combining ticketed and non-ticketed Non-NFL revenues to date, Table 2 below shows approximately $5.6 million in net revenue (excluding surcharge revenue) through the end of the second quarter. This is a decrease of $1.8 million from the prior year's Non-NFL event net revenue of $7.5 million for the quarter. It should be noted the financial information provided are preliminary numbers and subject to change as additional revenues and/or expenditures are recorded.

Table 2

Levi's Stadium
Net Revenue for Non-NFL Events
by Event Type
Historical Year-to-Date Through September 30, 2025

EVENT TYPE	2023/24 No. of Events	2023/24 Net Revenue	2024/25 No. of Events	2024/25 Net Revenue	2025/26 No. of Events	2025/26 Net Revenue
Ticketed Events						
Concerts	5	$ 4,267,153	3	$ 4,074,498	6	$ 4,729,713
Sporting events:						
Soccer	3	305,067	5	3,392,260	2	895,394
Net Revenue from Ticketed Events	8	$ 4,572,220	8	$ 7,466,758	8	$ 5,625,107
Net Revenue from Special Events (weddings, corporate events, etc.)	25	$ 903,221	30	$ 1,198,148	20	$ 444,832
Other Operating Income[1]		$ 1,271,700		$ 1,029,491		$ 957,254
Other Operating Expenses[2]		$ (681,705)		$(1,188,951)		$ (911,493)
Total Non-NFL Net Revenue[3]	33	$ 6,065,436	38	$ 8,505,446	28	$ 6,115,700

[1] Other Operating Income are income not attributable to a specific event. Examples are interest income and reimbursements unrelated to a specific event.
[2] Other Operating Expenses are expenses not attributable to a specific event. Examples are event selling expenses, administrative expenses and miscellaneous costs.
[3] Net Revenue from Non-NFL Events does not include Non-NFL Event Ticket Surcharge.

Stadium Builder Licenses (“SBLs”)

SBLs account for 7.8% of the Stadium Authority’s annual budgeted revenue in FY 2025/26. There is a total of 67,286 currently active SBLs. Through the second quarter, since inception, the value of the active SBLs amount to $560.1 million of which $535.5 million has already been collected.

Stadium Authority Budgets

The detailed analysis of Stadium Authority budget to actual financials is provided in the attached Financial Status Report. In summary, total operating revenues were $31.7 million representing 48% of the overall budget for revenues and total operating expenses were $12.1 million or 32% of the budget. The debt service fund was able to pay down $8.8 million in debt, bringing total Stadium Authority debt down to $210.8 million. Capital expenses were $7.2 million representing 33% of the overall CIP budget.

FY 2025/26 Stadium Authority Budget Adjustments

From time to time, budget adjustments may be necessary to align revenues or expenditures to actual or unexpected activity during the course of a fiscal year, known after the adoption of the Stadium Authority Budget. On March 11, 2025, the Stadium Authority Board adopted the Santa Clara Stadium Authority FY 2025/26 Operating, Debt Service, and Capital Budget. As of the timing of the publication of this report, additional information from FY 2025/26 has resulted in recommended budget adjustments as follows:

Operating Budget:

1) Non-NFL Event Ticket Surcharge: The number of tickets sold to the Non-NFL events were higher than anticipated resulting in higher Non-NFL event ticket surcharge. Portions of the additional ticket surcharge revenue of $930,000 will be transferred to the discretionary fund reserve and the public safety cost reserve with the remaining amount being used for operations and ultimately flowing through the excess revenue waterfall to pay down the Public Safety Costs (PSC) 2024 Outstanding Balance, Transfer to the City’s General Fund, and Transfer to the Renovation/Demolition Reserve.

2) FY 2024/25 Stadium Authority General and Administrative (“G&A”) Budget Savings: The prior year Stadium Authority G&A expenses were under budget by $1.1 million. After the close of the fiscal year, those monies are then available from the Unrestricted Fund Balance for stadium operations which ultimately will flow through the excess revenue waterfall to pay down the PSC 2024 Outstanding Balance, Transfer to the City’s General Fund, and Transfer to the Renovation/Demolition Reserve.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(b)(5) in that it is an administrative activity that will not result in direct or indirect physical changes in the environment.

FISCAL IMPACT

The Stadium Authority FY 2025/26 budget appropriation is maintained at the fund level. At the end of the second quarter of FY 2024/25, spend has been within budget.

From time to time, adjustments to the budget are required to reflect new information and align budgets with actual revenues and expenses. Attachment 2 includes adjustments in the FY 2025/26 Operating Budget to adjust for additional Non-NFL event ticket surcharge revenue as well as prior year Stadium Authority G&A budget savings. The attachment reflects these budget adjustments.

COORDINATION

This report was coordinated with the Stadium Manager per section 4.6 of the Management Agreement as well as the Stadium Authority Counsel’s Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City’s website and in the City Clerk’s Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk’s Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Note and file the Santa Clara Stadium Authority Financial Status Report for the Quarter Ending September 30, 2025; and
2. Approve the FY 2025/26 Budget Amendments in the Operating Budget in the amount of $930,000 to reflect increases in projected revenues and expenses.

Appendix 30

Introduction

This Santa Clara Stadium Authority ("Stadium Authority") Financial Status Report provides information covering the second quarter of the Stadium Authority's 2025/26 fiscal year (FY) which ended on September 30, 2025. Comparative data from prior fiscal years is also included.

In addition to these quarterly reports, the Stadium Authority produces annual financial statements. The FY 2024/25 financial statements were audited by an external audit firm and presented to the Stadium Authority's Audit Committee (Audit Committee) on September 22, 2025 and submitted to the Stadium Authority Board (Board) to note and file the financial statements on October 21, 2025. The financial statements are published on the Stadium Authority's website.

The Stadium Authority also prepares a detailed budget prior to the beginning of each fiscal year. The FY 2025/26 budget was adopted by the Board on March 11, 2025.

Stadium Authority finances are structured so that the City of Santa Clara (City) is not liable for the debts or obligations of the Stadium Authority. All services provided by the City, including administrative and public safety, to the Forty Niners Stadium Management Company, LLC (Stadium Manager) or the Stadium Authority are fully reimbursed.

Methodology

Information provided in this report was based in part on documentation submitted by the Stadium Manager. Specifically, National Football League (NFL) and Non-NFL event statistics and financial information relating to the Stadium Manager expenses are provided by the Stadium Manager. Stadium Authority staff has access to select financial information submitted by the Stadium Manager provided through the Financial Management System and event reports received for Non-NFL events. These reports are received 45 days after each event for events with attendance greater than 25,000. More detailed documents are received within 90 days after the close of the quarter. For all other financial information, a full detailed review and/or audit of source documentation has not been completed by the Stadium Authority for this report.

The information provided reflects the best known and available at the time of the writing of this report and is subject to further revision and review. Revisions may occur based on the timing of revenue and expenditure activity for events in this quarter that continue beyond the timing of this report. Consequently, the Board's notation and filing of this report should not be considered an approval of the accuracy of the information in the report.

NFL Events

This section provides year to date and comparative data for NFL games categorized as pre-season and regular season games.

The San Francisco Forty-Niners (49ers) played a total of four NFL games (two pre-season games and two regular season games) at Levi's® Stadium through quarter ending September 30, 2025. There was a total of 271,813 tickets sold to these NFL games, an average of 67,953 per game. This is down by 1,486 or 2% when compared to the same period in the prior fiscal year. The ticket sales resulted in $5.4 million in NFL ticket surcharge revenue (10% of ticket sales) to the Stadium Authority. The average NFL ticket surcharge revenue was $1.3 million per game in the current year which is up by $331,000 or 33% from the same period in the prior fiscal year. A total of $109,000 of Senior and Youth Program Fees, which is based on $0.40 per NFL ticket sold, were collected through the end of the second quarter of the fiscal year. These fees were transferred to the City's General Fund in support of such programs.

A total of 28,509 cars were parked in the permitted offsite parking lots generating $198,000 in offsite parking fees derived from the $6.94 per parking space for all NFL events. The Tasman parking lot had a total of 1,183 parked cars and generated an additional $6,000 for the General Fund through the end of the second quarter of the fiscal year. The overall average number of cars parked per game in the permitted offsite lots and the Tasman lots went down by 460 or 6% when compared to the prior fiscal year.

There was $2.4 million of NFL event public safety costs in the current reporting period which is an average of $612,000 per game. This is an increase from the prior year average (through September 30, 2024) of $111,000. Of the $2.4 million NFL event public safety costs, $1.8 million or 75% are direct City costs, $376,000 or 15% are outside agency costs and $231,000 are other miscellaneous public safety costs. Of these costs, $198,000 were covered by the offsite parking fee. The remaining $2.3 million was invoiced to the Stadium Manager.

Statistics for the NFL games held at Levi's® Stadium in the first two quarters of the 2025/26 fiscal year are shown in Table 1 and comparative data from the last five years of operations can be found in Table 2. Additional historical data can be found in the Appendix.

Non-NFL Events

This section provides year to date and comparative data for Non-NFL events categorized as events ranging from high school and college football games, international soccer matches, concerts, wedding fairs, and special events. During the current reporting period, there were a total of 445,016 tickets sold for the eight ticketed Non-NFL events that were held, resulting in $1.8 million Non-NFL event base ticket surcharge revenue (from the $4 per ticket base surcharge for Non-NFL events) and $2.6 million in additional ticket surcharge revenue, derived from the additional proceeds exceeding the $4 per ticket base surcharge. This is an increase in base ticket surcharge revenue of $386,000 or 27.7% over the same period in the prior year due to larger scale Non-NFL events taking place in the current period. It is also the first year that additional surcharge revenue has been collected.

Stadium Manager reports that there were also 20 smaller special events held at Levi's® Stadium which is 10 events less than the same period of the prior fiscal year. The attendance at these events also decreased from 15,565 in the prior period to 4,521 in the current year, a 71% decrease. Examples of these special events include corporate events of various sizes, weddings, holiday parties, high school dances, etc.

In correlation with the Non-NFL events held during the current reporting period, there were 42,870 cars parked at offsite lots and the City earned a total of $295,000 in related offsite parking fees, which is derived from the $6.71 per parking space fee for events taking place prior to July 2025 and $6.94 per parking space for all events thereafter. The revenues earned from this offsite parking fee supports public safety costs for Non-NFL events.

Total Non-NFL event public safety costs were $4.6 million, an increase of $1.5 million from the prior year. As noted previously, this increase in cost is due to larger scale events being held in the current year when compared to the prior year. Of these costs, $295,000 was covered by the offsite parking fee. The remaining $4.3 million was invoiced to the Stadium Manager of which $2.3 million has been reimbursed to the City.

Statistics for FY 2025/26 events are shown in Table 3 and comparative data from the last five years of operations are shown in Table 4.

[1] The First Amendment to Amended and Restated Lease Agreement increased the ticket surcharge to a minimum of $8 per ticket starting in FY 2025/26. The surcharge exceeding the $4 per ticket base is shown in the table as additional ticket surcharge.

Table 5 summarizes ticketed Non-NFL revenues and expenditures by event. There were 8 ticketed Non-NFL events held in FY 2025/26 and generated an average net revenue of $703,000 per event. The inclusion of this information is to provide a greater level of transparency and provide the overall financial results of the Non-NFL events.

Total Ticketed Non-NFL Net Revenue to Date	**$ 18.0**	**$ 12.4**	**$ 5.6**

Table 6 and 7 show Non-NFL net revenue by event type and event revenue and expenses

by category. For FY 2025/26, the Stadium Manager had projected Non-NFL events to result in estimated net revenues of $5.3 million, as cited in the FY 2025/26 Adopted Stadium Authority Budget. In the second quarter of FY 2025/26, ticketed events and non-ticketed special events contributed $5.6 million and $445,000 in net revenues, respectively. There was also additional interest income of $957,000 earned on Non-NFL events cash reserves offset by $911,000 of non-event specific other expenses.

Stadium Manager reported a net revenue of $6.1 million for the current reporting period. This is decrease of $2.4 million from the prior year's Non-NFL event net revenue of $8.5 million. The main driver for the decrease in net revenue from ticketed events is the reallocation of additional ticket surcharge previously reported to Non-NFL event revenue and now allocated to the Public Safety Cost Reserve. The other factor affecting Non-NFL event net revenue is related to the special events. As noted above, there were 10 fewer special events in the current reporting period when compared to the same time last year, a 30% decline. The reason for the decline in the number of events is because the stadium underwent significant upgrades in preparation for Super Bowl LX and FIFA World Cup 2026 which impacted the Stadium Manager's ability to host as many events as the prior year.

In response to feedback at the previous Board meeting, the Non-NFL event ticket surcharge revenue data and respective transfers to the Discretionary Fund and Public Safety Cost Reserve has been added to Table 7.

[1] Includes venue rental fees, net merchandise sales, interest income, and other revenues.

[2] Expenses incurred for Non-NFL events can either be the responsibility of the SCSA or the Event Licensee depending on the nature of the expense. This figure represents the total expenses incurred by the SCSA that were the responsibilty of the Event Licensee for which the SCSA has been reimbursed, net of the Event Licensee's share of ancillary revenues.

[3] Includes catered events department staff costs, non-event specific staff costs, and other expenses.

Discretionary Fund

The Discretionary Fund is funded by revenue equal to $2 of the base Non-NFL event ticket surcharge. The eight ticketed Non-NFL event contributed $890,000 to the Discretionary Fund in the current period. This is based on the tickets sold provided by the Stadium Manager.

Table 8 shows the revenues and expenses in the Discretionary Fund for the last five years. Additional historical data can be found in the Appendix. The balance at the end of this reporting period was $1.6 million.

Table 8

Discretionary Fund Reserve				
Fiscal Year	Beginning Balance	Revenue	Expenses	Ending Balance
2021/22	$ 2,327,832	$ -	$ (18)	$ 2,327,850
2022/23	2,327,850	639,896	1,300,051	1,667,695
2023/24	1,667,695	796,628	-	2,464,323
2024/25	2,464,323	696,960	2,446,508	714,775
2025/26	714,775	890,032	-	1,604,807

Public Safety Cost Reserve

The Public Safety Cost Reserve is funded by proceeds from the additional Non-NFL ticket surcharge that exceed the $4 per ticket base ticket surcharge. During the current period, eight ticketed Non-NFL event contributed $2.6 million to the Public Safety Cost Reserve. This is based on the tickets sold provided by the Stadium Manager.

Table 9 shows revenues in the Public Safety Cost Reserve. This is the first-year additional surcharge revenue has been collected.

Table 9

Public Safety Cost Reserve				
Fiscal Year	Beginning Balance	Revenue	Expenses	Ending Balance
2025/26	$ -	$ 2,576,362	$ -	$ 2,576,362

Stadium Builder Licenses

The total principal value of currently active Stadium Builder Licenses (“SBLs”) is $560 million and, as of September 30, 2025, 95.6% of the total principal value of all SBLs sold (i.e., $535.5 million) had been collected. Payment for the sale of SBLs are financed over 10 years.

SBL holders that finance their purchase pay an annual interest rate of 8.5% and payments

are due by March 1st each year. The majority of SBL holders make their payments on time. For those that do not pay on time, SBL service staff, working for Stadium Manager on the Stadium Authority's behalf, contact the SBL holders and attempt to collect the full amounts owed. Ultimately, a SBL can be defaulted for non-payment. Once a SBL is defaulted, the SBL holder in default loses their right to buy season tickets as well as their priority rights to tickets to Non-NFL events, and forfeits any money they had invested in the SBL. Defaulted SBLs are then available for resale.

When SBL holders do not purchase NFL season tickets, their SBL is not defaulted, however they lose exclusive rights to their seats and their seats may be sold to another SBL holder. This results in cases where a seat may have more than one SBL associated with it and why there are currently more active SBLs than there are available SBL seats. If the original SBL holder decides to purchase season tickets in the future, they can relocate to a new seat in the same or higher price level, subject to availability. If the relocation results in a change in price level, they need to pay for the difference between their original SBL and the new one. If they chose not to relocate, they must wait for their seat to be available again before they can purchase NFL season tickets.

There is a total of 67,286 currently active SBLs. This is a decrease of 268 from the total active SBLs at the end of the prior fiscal year (March 31, 2025). The main reasons for the decrease are due to SBL defaults offset by sale of new SBLs and the customer seat relocation program. The customer seat relocation program allows customers to trade in their SBLs in return for others in a different location as long as the total face value of the new seats is equal to or greater than the original seats.

During the current reporting period, 420 SBLs were sold for a total face value of $3.2 million. The customer seat relocation program resulted in an increase of $692,000 to the SBL face value, while netting 257 more SBLs. There were also 945 SBLs defaulted during the quarter with a face value of $5.9 million.

Additional details regarding currently active SBLs are noted in Table 10.

Santa Clara Stadium Authority Budget Status Reports
Operating Budget

With 50% of the fiscal year complete, total operating revenues for the second quarter of the 2025/26 Fiscal Year were $31.7 million representing 48% of the overall budget for revenues. During the current reporting period, the Stadium Authority collected $3.4 million in SBL proceeds or 66% of what was budgeted. All SBL proceeds are to be transferred to the debt service fund per applicable loan agreements. Stadium Authority also recognized $12.4 million in rent from Forty Niners SC Stadium Company, LLC (StadCo), $4 million in Non-NFL ticket surcharge, $4 million in Naming Rights revenue and $217,000 in sponsorship (STR) revenue all of which are expected to meet or exceed budget this fiscal year.

Total Operating expenses were $12.1 million, or 32% of the annual budget. Shared Stadium Manager expenses were at 49% of the budget, or $6.9 million of the $14 million budgeted amount and SBL Sales and Service expenses were 50% of the budget or $1.2 million. The Stadium Authority pays for all utility costs from February 1st through July 31st and the tenant (StadCo) pays for utility costs from August 1st through January 31st (Tenant Season). Therefore, utility costs are 67% of the budget for the year, or $1.2 million. The current period covers 67% (four out of the six months) that the Stadium Authority is responsible for utility costs. Lastly, Stadium Authority G&A costs were tracking below budgeted levels at $1.3 million or 27% of the budget.

Additional details are shown in Table 11.

Operating Budget – Recommended Budget Adjustments

From time to time, budget adjustments may be necessary to align revenues or expenditures to actual or unexpected activity during the course of a fiscal year, known after the adoption of the Stadium Authority Budget.

On March 11, 2025, the Stadium Authority Board adopted the Santa Clara Stadium Authority FY 2025/26 Operating, Debt Service, and Capital Budget. The following budget adjustments are recommended to recognize higher than anticipated Non-NFL event ticket surcharge and FY 2024/25 Stadium Authority General and Administrative (G&A) budget savings available for stadium operations:

1) Non-NFL Event Ticket Surcharge: The number of tickets sold to the Non-NFL events were higher than anticipated resulting in higher Non-NFL event ticket surcharge. Portions of the additional ticket surcharge revenue of $930,000 will be transferred to the discretionary fund reserve and the public safety cost reserve with the remaining amount being used for operations and ultimately flowing through the excess revenue waterfall to pay down the Public Safety Costs (PSC) 2024 Outstanding Balance, Transfer to the City's General Fund, and Transfer to the Renovation/Demolition Reserve.
2) FY 2024/25 Stadium Authority G&A Budget Savings: The prior year Stadium Authority G&A expenses were under budget by $1.1 million. After the close of the fiscal year, those monies are then available from the Unrestricted Fund Balance for stadium operations which ultimately will flow through the excess revenue waterfall to pay down the PSC 2024 Outstanding Balance, Transfer to the City's General Fund, and Transfer to the Renovation/Demolition Reserve.

Additional details are shown in Table 12

Table 12

Santa Clara Stadium Authority
2025/26 Operating Budget Adjustment

Item #	Line Item	Source of Funds	Use of Funds	Explanation
1	Non-NFL Event Ticket Surcharge	$930,000		This action increases the Non-NFL Event Ticket Surcharge from $3,426,000 to $4,356,000 as a result of higher Non-NFL event ticket sales.
1	Discretionary Fund Reserve		$309,000	This action increases the Discretionary Fund Reserve from $1,045,775 to $1,354,775 as a result of higher Non-NFL event ticket sales.
1	Public Safety Cost Reserve		$433,000	This action increases the Public Safety Cost Reserve from $0 to $433,000 as a result

				of higher Non-NFL event ticket sales.
1	Public Safety Cost (PSC) 2024 Outstanding Balance		$47,000	This action increases the PSC 2024 Outstanding Balance from $2,972,000 to $3,019,000 as a result of higher Non-NFL event ticket sales.
1	Transfer to City General Fund from Excess Revenues		$47,000	This action increases the Transfer to City General Fund from Excess Revenues from $2,972,000 to $3,019,000 as a result of higher Non-NFL event ticket sales.
1	Renovation/Demolition Reserve		$94,000	This action increases the Renovation/Demolition Reserve from $49,714,643 to $49,808,643 as a result of higher Non-NFL event ticket sales.
2	Unrestricted Fund Balance		($1,100,000)	This action decreases the Ending Unrestricted Fund Balances from $9,230,788 to $8,130,788 as a result of FY 2024/25 Stadium Authority G&A budget savings.
2	Public Safety Cost (PSC) 2024 Outstanding Balance		$275,000	This action increases the PSC 2024 Outstanding Balance from $3,019,000 to $3,294,000 as a result of FY 2024/25 Stadium Authority G&A budget savings.
2	Transfer to City General Fund from Excess Revenues		$275,000	This action increases the Transfer to City General Fund from Excess Revenues from $3,019,000 to $3,294,000 as a result of FY 2024/25 Stadium Authority G&A budget savings.
2	Renovation/Demolition Reserve		$550,000	This action increases the Renovation/Demolition Reserve from $49,808,643 to $50,358,643 as a result of Stadium Authority G&A budget savings.
	Total	**$930,000**	**$930,000**	

Debt Service Budget

The Stadium Authority's FY 2025/26 debt service revenue budget of $3.6 million represents anticipated contributions from the Community Facilities District (CFD). The CFD levies and collects a special hotel tax on hotel rooms within the CFD. All collections from the special CFD hotel taxes are contributed to Stadium Authority to pay down the CFD Advance. The CFD Advance is payable solely from amounts received by the Stadium Authority from the CFD. During the first two quarters, $1.8 million was contributed by the CFD, or 49% of the annual budget. Of this amount, $1.8 million was collected and used to pay down the CFD Advance.

Total Stadium Authority debt service expenses for the current reporting period were $14.2 million, or 69% of the budgeted amount. The debt service expenses for the CFD Advance and the Term A Loan were $1.8 million and $12.5 million, respectively.

As of September 30, 2025, the total outstanding amount of Stadium Authority debt had declined to $210.8 million. This is a reduction in principal of $8.8 million from the March 31, 2025 outstanding debt amount of $219.6 million.

Additional details are shown in Tables 13 and 14 and Chart 1.

Chart 1

Capital Expense (CapEx) Budget

As part of the Capital Expense ("CapEx") Plan, the following projects were underway during the current reporting period:

- Aesthetic Improvements – Premium Areas/Special Event Spaces
- Broadcast Booth Window System Replacement
- General Areas/Coating Main Deck
- IT Replacement of end of life Network equipment
- Kawasaki ATVs
- LED Retrofit Project - Phase 1
- Levi's® Naming Rights Signage Refurbishment
- Lighting System - Controls System
- Lighting Systems – Fixture Replacement of Major Outdoor Lighting/LED Retrofit
- Main Kitchen Equipment
- Plumbing - Boilers
- Radio Booth Cabling
- Security General Allowance
- Stormwater System Assessment and Replacements
- Women's Locker Room

The CapEx Budget increased from $18.6 million to $21.9 million in the current reporting period. A total of $7.2 million has been spent during the first two quarters of FY 2025/26, which amounts to 33% of the budget. The main reason that this is below budget is due to the timing of activity for Capital Expenditure projects. There has also been no activity on warranty work which makes up 7% of the CapEx Budget.

Additional details are shown below in Table 15.

Period Ending September 30, 2025

Ground Rent	$	1,000,000
Senior and Youth Fee		108,725
Tasman Parking Lot		5,915
Sales Tax		406,831
Total Net General Fund Impact	**$**	**1,521,471**

Public Safety and Administrative Cost Reimbursement

As described in earlier sections of this report, costs incurred by the City on NFL and Non-NFL events are tracked and billed to the Stadium Manager. Reimbursement is monitored and included in this report. In the current reporting period, public safety costs incurred in support of NFL and Non-NFL events held at Levi's® Stadium totaled $2.4 million and $4.6 million, respectively. The reimbursements come from a combination of payments from the Stadium Manager and the offsite parking fees that were collected. As of the report date, the City has received $2.3 million in Non-NFL public safety reimbursements from the Stadium Manager.

The current balance of the Public Safety Costs (PSC) 2024 Outstanding Balance is $5.3 million and is projected to be paid through excess revenues. It is currently estimated that the PSC 2024 Outstanding Balance will be paid off by FY 2027/28. See the Glossary for more information on this balance.

In addition to public safety costs, administrative costs are also tracked and billed to the Stadium Authority. These include the cost of providing overall stadium management, financial, human resource, legal, and other services to the Stadium Authority. In the second quarter of FY 2025/26, a total of $978,000 of administrative staff costs were incurred by the General Fund, which have been reimbursed to the City.

Rents and Senior and Youth Fee

As noted above, the City's General Fund collected ground rent of $1 million. Additionally, the Senior and Youth Fee generated $109,000, of which the entire amount has been forwarded to the City in support of senior and youth programs. See the Glossary for more information on these revenues and how they are calculated.

Other Revenue Impacts

General Fund sales tax, property tax, and transient occupancy tax (TOT) collections have benefited from the direct and indirect economic activity related to stadium events.

Food and beverage concession sales and merchandise sales at Levi's® Stadium are taxable, resulting in sales tax revenue for the City. The last quarter of sales tax collections from Levi's® Stadium transactions generated $407,000 for the City's General Fund. In addition to the direct sellers at the Stadium, other businesses in Santa Clara are benefiting from the influx of people coming to attend one or more events at Levi's® Stadium, resulting in potentially more sales tax collections for the General Fund.

In accordance with State Law, StadCo must pay possessory interest property tax based on their lease of Levi's® Stadium from the Stadium Authority. This revenue is collected by the county and placed into the Redevelopment Property Tax Trust Fund (RPTTF). Amounts remaining in the RPTTF after paying any enforceable obligations of the Successor Agency are distributed to taxing entities in the same proportion as secured property taxes. The City's proportion is approximately 10%.

Many stadium events bring travelers to the region, resulting in hotel stays which generate TOT collections for the City's General Fund. Although it is impossible to say exactly what portion of the City's TOT collections is due to the stadium, it is clear that hotels both inside and outside the City have benefited, resulting in increases in TOT collections in Santa Clara and our neighboring cities.

Glossary

This section of the report provides details behind key terms that are used in the body of this report.

Discretionary Fund – This is funded by $2 of the base Non-NFL ticket surcharge and has been used to cover NFL public safety costs above the public safety cost threshold and other items at the Stadium Authority's discretion. It is anticipated that the discretionary fund will continue to cover NFL public safety costs above the threshold. Stadium Authority may transfer up to half of the balance of the Discretionary Fund over $1.0 million from the Discretionary Fund to the City's General Fund if (1) adequate provision has been made for the replacement of and upgrades to capital improvements contemplated under the Public Safety Plan and (2) an equal amount is transferred from the Discretionary Fund to Stadium Authority's operating fund to be included as Stadium Authority Revenue.

Ground Lease – The Ground Lease Agreement has an initial term of 40 years commencing on the date of substantial completion which was July 31, 2014. The amount of annual base ground rent that is payable by the Stadium Authority to the City is noted in the Table 17.

Table 17

Lease Year	Fiscal Year	Annual Fixed Ground Rent	Cumulative Total
1	2014/15	$ 180,000	$ 180,000
2	2015/16	$ 215,000	$ 395,000
3	2016/17	$ 250,000	$ 645,000
4	2017/18	$ 285,000	$ 930,000
5	2018/19	$ 320,000	$ 1,250,000
6	2019/20	$ 355,000	$ 1,605,000
7	2020/21	$ 390,000	$ 1,995,000
8	2021/22	$ 425,000	$ 2,420,000
9	2022/23	$ 460,000	$ 2,880,000
10	2023/24	$ 495,000	$ 3,375,000
11	2024/25	$ 1,000,000	$ 4,375,000
12	2025/26	$ 1,000,000	$ 5,375,000
13	2026/27	$ 1,000,000	$ 6,375,000
14	2027/28	$ 1,000,000	$ 7,375,000
15	2028/29	$ 1,000,000	$ 8,375,000
16	2029/30	$ 1,100,000	$ 9,475,000
17	2030/31	$ 1,100,000	$ 10,575,000
18	2031/32	$ 1,100,000	$ 11,675,000
19	2032/33	$ 1,100,000	$ 12,775,000
20	2033/34	$ 1,100,000	$ 13,875,000
21	2034/35	$ 1,200,000	$ 15,075,000
22	2035/36	$ 1,200,000	$ 16,275,000
23	2036/37	$ 1,200,000	$ 17,475,000
24	2037/38	$ 1,200,000	$ 18,675,000
25	2038/39	$ 1,200,000	$ 19,875,000
26	2039/40	$ 1,300,000	$ 21,175,000
27	2040/41	$ 1,300,000	$ 22,475,000
28	2041/42	$ 1,300,000	$ 23,775,000
29	2042/43	$ 1,300,000	$ 25,075,000
30	2043/44	$ 1,300,000	$ 26,375,000
31	2044/45	$ 1,400,000	$ 27,775,000
32	2045/46	$ 1,400,000	$ 29,175,000
33	2046/47	$ 1,400,000	$ 30,575,000
34	2047/48	$ 1,400,000	$ 31,975,000
35	2048/49	$ 1,400,000	$ 33,375,000
36	2049/50	$ 1,500,000	$ 34,875,000
37	2050/51	$ 1,500,000	$ 36,375,000
38	2051/52	$ 1,500,000	$ 37,875,000
39	2052/53	$ 1,500,000	$ 39,375,000
40	2053/54	$ 1,500,000	$ 40,875,000

Net Non-NFL Event Revenue – Net Non-NFL event revenue is remitted by Stadium Manager to the Stadium Authority on a yearly basis. This is done annually because the final reconciliation of the Non-NFL event revenues and expenses does not occur until after the conclusion of each fiscal year.

NFL Ticket Surcharge – The Amended and Restated Non-Relocation Agreement states that the Team will collect a 10% NFL ticket surcharge on the price of admission to all NFL games on behalf of Stadium Authority during the Surcharge Term which currently ends the last day of the 25th lease year or March 31, 2039

Non-NFL Event Ticket Surcharge – The Amended and Restated Stadium Lease Agreement requires that the promoter or sponsor of any Non-NFL event collect a Non-NFL event ticket surcharge of $4 per ticket. The Lease Agreement sets aside one-half of the base Non-NFL event ticket surcharge for stadium operating and maintenance costs and one-half for discretionary expenses of the Stadium Authority. The First Amendment to Amended and Restated Lease Agreement increased the ticket surcharge to a minimum of $8 per ticket starting in FY 2025/26 a $1 escalator in FY 2028/29 and every four years thereafter on behalf of Stadium Authority. One-half of the $4 base surcharge that is paid to Stadium Authority covers general stadium operations and the other half funds the Stadium Authority Discretionary Fund. The additional proceeds exceeding the $4 base surcharge will be deposited to the Public Safety Cost Reserve to be used to pay public safety costs exceeding the threshold.

Offsite Parking Fees – Parking lot operators who wish to operate a parking lot for sports or entertainment venues are required to go through the City's permitting process. If approved, per the City's Municipal Fee Schedule, these operators remit an offsite parking fee for each car that is parked for sports or entertainment events. This fee is designed to recover the public safety costs associated with these permitted offsite parking lots. Therefore, when invoicing for NFL or Non-NFL public safety costs for a particular event held at Levi's® Stadium, the offsite parking fee that is collected for said event partly offsets the total public safety costs owed for that event. In the City's FY 2025/26 (July 1, 2025 through June 30, 2026) the offsite parking fee is $6.94.

Performance-Based Rent – Stadium Authority pays the City performance-based rent on top of the fixed ground rent. After the completion of the fiscal year, net income from Non-NFL events are calculated and reported to Stadium Authority by Stadium Manager. With the finalized Non-NFL events report, Stadium Authority calculates the performance-based rent to be remitted to the City during July following the Stadium Authority's fiscal year-end. The basic calculation for the performance-based rent is 50% of the net income from Non-NFL events for any given lease year less the sum of Performance-Based Rent Credits. The Performance-Based Rent Credits include (1) 50% of the fixed ground rent for the current lease year, (2) the amount, if any, that the Public Safety Costs exceed the Public Safety Cost Threshold for the current lease year, (3) following the Tax Allocation Termination Date, the amount of Received Possessory Interest Tax (PIT), and (4) the amount of any credit for Disproportionate Taxes for the current lease year.

Public Safety Costs – For each NFL and Non-NFL event held at Levi's® Stadium, a public safety plan is developed and implemented. Multiple City departments provide staffing, materials, and supplies to support the public safety plan. Services are provided through a combination of City staff, contracts with other agencies (e.g. California Highway Patrol, County Sheriff's Office, and City of Sunnyvale) and some vendor provided services.

The Amended and Restated Stadium Lease Agreement section 7.5 states that the tenant is responsible for reimbursing the City for the public safety costs attributed to NFL events at Levi's® Stadium. Additionally, Article 5 of the Stadium Management Agreement notes that the Stadium Manager is responsible for paying Non-NFL event expenses on behalf of the Stadium Authority. Therefore, the cost of providing public safety services are

tracked through the City's financial system and invoices are sent to the Stadium Manager. All of these costs are reimbursed to the City of Santa Clara.

Public Safety Costs (PSC) 2024 Outstanding Balance: As part of the 2024 Settlement Agreement, public safety costs over the threshold for FY 2017/18 to FY 2023/24 would not be treated as Credited Public Safety Costs and therefore would not affect the calculation of Performance Based Rent. Instead, these costs amounting to approximately $14.8 million have been redefined as "PSC 2024 Outstanding Balance" which would be paid from a legal contingency reserve and future excess revenues until paid off.

Table 18

PSC 2024 Outstanding Balance

Fiscal Year	Outstanding Balance	Actual/Projected Payments	Remaining Balance
2023/24	$ 14,786,346	$ -	$ 14,786,346
2024/25	$ 14,786,346	$ 9,486,570	$ 5,299,776
2025/26	$ 5,299,776	$ 3,294,000	$ 2,005,776

Public Safety Costs Over Threshold: As of the 2024/25 lease year, the public safety cost threshold will equal $360,000 per game. For lease year 2025/26 and each lease year thereafter the threshold will increase by 4%. Public safety costs incurred above the annual threshold will be repaid over time with additional proceeds from the Non-NFL event ticket surcharge and the discretionary fund. The threshold for the current lease year is $374,400.

Senior and Youth Program Fees – During the lease terms, StadCo collects City of Santa Clara Senior and Youth Program Fees on behalf of Stadium Authority. As of FY 2024/25 the fee was $0.40 per NFL game ticket up to a maximum of $300,000 per lease year. Every ten lease years the fee will increase by $0.05 in conjunction with the maximum amount increasing by an additional $50,000.

Stadium Management Fee – The Stadium Manager receives an annual base management fee to manage Levi's® Stadium. The fee was $400,000 in the first lease year and increases by 3% annually as detailed in the table below. This annual base management fee is split 50/50 between StadCo and the Stadium Authority since the Stadium Manager manages the stadium year-round for both entities. In addition to the base management fee, the Stadium Manager also receives a stadium marketing and booking fee (incentive fee) which is based on a percentage of the amount that the net income from Non-NFL events exceeds the marketing and booking fee benchmark. The marketing and booking fee benchmark was $5 million in the first lease year and also increases by 3% annually as detailed in the table below. The annual stadium management fee for each of the first ten lease years are noted in the Table 18 below.

Table 19

Fiscal Year	Lease Year	Annual Base Stadium Management Fee (SCSA Share)	Stadium Marketing and Booking Fee Benchmark	Net Income from Non NFL Events	1st Tier paid at 10% Fee	Additional Stadium Marketing and Booking Fee 10% 1st Tier	2nd Tier paid at 15% Fee	Additional Stadium Marketing and Booking Fee 15% 2nd Tier	Total Stadium Management Fee

Santa Clara Stadium Authority

2025/26 Operating Budget Adjustment

Line Item	Source of Funds	Use of Funds	Explanation
Non-NFL Event Ticket Surcharge	$ 930,000		This action increases the Non-NFL Event Ticket Surcharge from $3,426,000 to $4,356,000 as a result of higher Non-NFL event ticket sales.
Discretionary Fund Reserve		$ 309,000	This action increases the Discretionary Fund Reserve from $1,045,775 to $1,354,775 as a result of higher Non-NFL event ticket sales.
Public Safety Cost Reserve		$ 433,000	This action increases the Public Safety Cost Reserve from $0 to $433,000 as a result of higher Non-NFL evnet ticket sales.
Public Safety Cost (PSC) 2024 Outstanding Balance		$ 47,000	This action increases the PSC 2024 Outstanding Balance from $2,972,000 to $3,019,000 as a result of higher Non-NFL event ticket sales.
Transfer to City General Fund from Excess Revenues		$ 47,000	This action increases the Transfer to City General Fund from Excess Revenues from $2,972,000 to $3,019,000 as a result of higher Non-NFL event ticket sales.
Renovation/Demolition Reserve		$ 94,000	This action increases the Renovation/Demolition Reserve from $49,714,643 to $49,808,643 as a result of higher Non-NFL event ticket sales.
Unrestricted Fund Balance		$ (1,100,000)	This action decreases the Ending Unrestricted Fund Balances from $9,230,788 to $8,130,788 as a result of FY 2024/25 Stadium Authority G&A budget savings.
Public Safety Cost (PSC) 2024 Outstanding Balance		$ 275,000	This action increases the PSC 2024 Outstanding Balance from $3,019,000 to $3,294,000 as a result of FY 2024/25 Stadium Authority G&A budget savings.
Transfer to City General Fund from Excess Revenues		$ 275,000	This action increases the Transfer to City General Fund from Excess Revenues from $3,019,000 to $3,294,000 as a result of FY 2024/25 Stadium Authority G&A budget savings.
Renovation/Demolition Reserve		$ 550,000	This action increases the Renovation/Demolition Reserve from $49,808,643 to $50,358,643 as a result of Stadium Authority G&A budget savings.
Total	**$ 930,000**	**$ 930,000**	

25-1667 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT

Action Authorizing the City Manager to Negotiate and Execute a License Agreement for Property Use of the Youth Soccer Park and its facilities and adjacent parking lots between the City of Santa Clara and the National Football League for Super Bowl LX Operational Support

BACKGROUND

The National Football League (NFL) is scheduled to host Super Bowl LX at Levi's Stadium, located at 4900 Marie P. DeBartolo Way in Santa Clara on February 8, 2026. In July 2025, the NFL notified the City of their interest in entering into a license agreement for the use of the Santa Clara Youth Soccer Park (YSP) located at 5020 Stars and Stripes Drive, Santa Clara, CA 95054, including the Youth Soccer Park fields #1 and #2 (not the synthetic field), fieldhouse, and parking lot; and (2) the former Yellow Lots 1 and 2, located at 5166 Stars and Stripes Drive, Santa Clara, CA 95054 (Shown in as Attachment 1 "Licensed Space"). As the Licensed Space is located within the Super Bowl LX security perimeter, the NFL requires exclusive access to the Licensed Space between January 5 and February 22, 2026 ("Use Period").

To compensate the City for the exclusive facility use, the NFL is providing a community benefit improvement (Attachment 2) within the Youth Soccer Park by replacing all sprinkler heads and grass for the two natural turf soccer fields (Field #1 and Field #3) at an estimated value of $1.2 million (City Engineering Estimate(s): Field #1 replacement at approx. 118,000 sf = $637,200 and Field #2 replacement at approx. 102,000 sf = $550,800). In addition to the natural turf field replacement, the NFL will be providing new player/coach/referee dugouts for all three fields at an estimated value of approximately $64,000.

To manage the NFL's exclusive use of the Youth Soccer Park during the Use Period and to address community needs, the Parks and Recreation Department (Department) has been meeting regularly (1-2 times per month) with Santa Clara youth soccer groups since August 2025 to discuss field scheduling impacts and solutions. As a result of this collaboration, the Department successfully identified alternative field space for Santa Clara youth soccer groups throughout the Use Period.

DISCUSSION

Super Bowl LX 2026

The NFL is scheduled to host Super Bowl LX at Levi's Stadium, located at 4900 Marie P. DeBartolo Way in Santa Clara on February 8, 2026. Through discussions between the City, the NFL and BAHC, it was established that if access to any facilities under the control of the City or the Stadium Authority is required, including, without limitation, the Youth Soccer Park (which the Parties anticipate will fall within the security perimeter for the Game and Designated Events), the NFL and BAHC must obtain the necessary right-of-entry permits and/or licenses from the City or the Stadium Authority, as applicable, on reasonable terms to be negotiated.

In July 2025, the NFL notified the City of its interest in entering into a license agreement for the use of the Licensed Space. Because the Licensed Space is located within the Super Bowl LX security perimeter, the NFL requires exclusive access to the Licensed Space during the Use Period. The City and the NFL held several meetings between August and December of 2025 to discuss community impacts and facility needs related to their requested use.

During the Use Period of the Licensed Space, YSP Field #1 will be used for media support services, and YSP Field #3 will serve as the rehearsal field for the half-time show. Additionally, the parking lots and buildings within the License Space will be used to support event staff and vehicle parking. Although YSP Field #2 (the synthetic turf field) is not included in the Licensed Space, it will be inaccessible to the community during the Use Period due to its location within the secured area.

Community Benefit

To compensate the City for the exclusive facility use, the NFL will provide a community benefit improvement at the Youth Soccer Park consisting of the replacement of all sprinkler heads and the natural soccer field turfs on Field #1 and Field #3, with an estimated value of $1.2 million. In addition, the NFL will provide new player/coach/referee dugouts for all three fields valued at approximately $64,000, bringing the total “community benefit” to approximately $1.3 million.

It is important to note that the NFL was initially reluctant to utilize the Youth Soccer Park due to turf condition issues that occurred following their use of the park for Super Bowl 50. Initial proposals called for no use of the playing field surface, to proposals to utilize the fields with the installation of temporary protective pads to ensure that permanent damage was not done. Ultimately, staff and the NFL arrived at the proposed plan, which includes the use of the natural soccer field turfs on Field #1 and Field #3, in exchange for a turf replacement community benefit project, with an estimated value of $1.2 million.

A facility rental that excluded the use of the fields would leave the facility in its status quo, with natural turf fields last replaced 10 years ago (following Super Bowl 50). Alternatively, a rental of the facility that included the use of the natural turf fields and the installation of temporary protective pads would have generated rental fees of approximately $400,000 (which is lower than the value of the negotiated community benefit project).

The natural grass turf fields (Field #1 and Field #3) within the Youth Soccer Park were last reconditioned and replaced in 2016, following the NFL’s hosting of Super Bowl 50 at Levi’s Stadium. The fields are due for replacement and refurbishment, including soil thatching to improve drainage, reduce soil compaction, and support overall turf health, root growth, and turf regeneration given the intensive annual soccer field use by Santa Clara youth soccer groups. However, the cost of soil thatching substantially exceeds the fair value of the proposed License for NFL use of the Licensed Space when considered in addition to the other Community Benefits proposed and therefore is not included in the $1.2 million “community benefit” field replacement. The City is currently exploring funding options to cover the soil thatching component for the natural grass turf fields estimated at approximately $0.5 million. The thatching is recommended but is not required.

Santa Clara Youth Soccer Groups

The NFL use of the Licensed Space during the Use Period, and the time during which the Community Benefits are installed will result in the temporary displacement of Santa Clara Youth Soccer Groups.

To manage the NFL's exclusive use of the Youth Soccer Park and address community needs, the Parks and Recreation Department analyzed historic programming, rental patterns, and community demand. The Department also met regularly with Santa Clara youth soccer groups from August through November to discuss field scheduling impacts and solutions.

Ultimately, the Parks and Recreation Department identified alternative field space during the Use Period by expanding rental hours at Reed & Grant Sports Park and activating Marsalli and Fatjo natural turf fields, both of which have lighting to accommodate shorter winter days. The Department also hosted its annual winter season field allocation meeting with all user groups, including Santa Clara youth soccer groups, on Wednesday, November 19. The meeting successfully ensured that all groups had resources needed to deliver their league programs while minimizing the impacts of Super Bowl LX during Use Period.

In addition to managing the impacts during the Use Period, the City is actively coordinating with Santa Clara youth soccer groups, the NFL, and FIFA to mitigate impacts from the "community benefit" renovations of YSP Fields #1 and #3, as well as potential interruptions related to the 2026 FIFA World Cup games hosted at Levi's Stadium from June 13 to July 1, 2026. Once the renovation schedule is finalized, the City will work with Santa Clara youth soccer groups to determine field and permit allocations for March through May and beyond. The Parks and Recreation Department is currently analyzing historic field use for the anticipated field replacement project, expected to occur between June and September 2026. The natural grass turf field replacement project is estimated to take between 10 to 12 weeks and will include removal of the existing turf, soils/ground leveling, sprinkler replacement, and installation, maintenance, and rooting of the new grass/turf.

Proposed License Agreement Term Sheet (Term Sheet)
This Term Sheet summarizes the principal terms of a proposed License Agreement between the City of Santa Clara and the NFL for the temporary use and improvement of certain City facilities in connection with the Super Bowl at Levi's Stadium. The Agreement has not been finalized but the parties have negotiated terms as documented in the form of agreement attached.

1. Licensed Areas. The facilities subject to the License Agreement (collectively, the "Licensed Space") will consist of: (1) the Santa Clara Youth Soccer Park, located at 5020 Stars and Stripes Drive, Santa Clara, CA 95054, including the Youth Soccer Park fields #1 and #2 (not the synthetic field), fieldhouse, and parking lot; and (2) the former Yellow Lots 1 and 2, located at 5166 Stars and Stripes Drive, Santa Clara, CA 95054.

2. Term and Key Dates of License. The NFL will have exclusive access and operational use of the Licensed Space during the "Use Period," which is expected to run from January 5, 2026 through February 22, 2026. In addition to the Use Period, the License Agreement will provide for an "Improvement Work Period" during which certain soccer fields (Fields #1 and #3) will be closed and maintained following turf replacement, and during which NFL will perform broader field improvements. The Improvement Work Period is anticipated to occur from approximately June 2026 through September 15, 2026, on specific dates to be mutually agreed upon and authorized in writing by the City.

3. NFL License / Use Rights. Under the License Agreement, the City will grant the NFL an exclusive license to use the Licensed Space during the Use Period. The permitted uses (the

"Permitted Use") will include establishment and operation of a broadcast compound, halftime show and rehearsal compounds, green rooms, and an NFL operational support compound, all in connection with the Super Bowl at Levi's Stadium. During the Use Period, the NFL, its contractors and designees will have exclusive use of, and access to, the Licensed Space, and the City will not schedule or allow conflicting events or uses. The City will also grant the NFL a separate license to perform field and facility improvements within the Licensed Space during the Improvement Work Period, all as more specifically described in Attachment 2 (the "Improvement Work").

4. Improvements.
    a. Field Replacement and Maintenance (Fields #1 and #3). NFL), will be responsible for and will contract with Colony Landscape & Maintenance, Inc. (Colony) to replace and maintain Fields #1 and #3 at the Youth Soccer Park (the "Replacement Fields"). Following turf installation, NFL will be responsible for, and retain Colony for maintenance of the Replacement Fields for the duration of the Replacement & Maintenance Period.
    b. Dugout Replacements. In addition to the replacement and maintenance of Fields #1 and #3, NFL will pay for the cost to replace fifteen existing dugouts at Youth Soccer Park with new dugout units up to the estimated total cost of $64,000.
    c. To the extent applicable under state law, the Improvement Work will be performed in accordance with California prevailing wage and other labor requirements.

5. Consideration and Community Benefits.
    a. Improvement Work. NFL will be obligated to pay for and cause to be performed all Improvement Work, including, without limitation, the replacement and maintenance of the Replacement Fields.
    b. Field Use Coordination. If youth sports groups or other users that typically use the Licensed Space are displaced as a result of Improvement Work Period, the City will make reasonable efforts to relocate such users to alternate City park facilities, and if necessary, to private facilities. If private facilities are required, NFL will assist the City in coordinating alternative practice locations, including helping to identify, schedule, and coordinate the use of other suitable fields or facilities at the lowest possible cost, subject to City's reasonable approval. NFL will reimburse the City for reasonable documented relocation-related costs, including standard City field use fees, staff time, and third-party field use fees, up to a maximum amount of $15,000.
    c. Dugouts. NFL will also provide up to $64,000 for the cost of new dugouts as set forth in Section 4, above.

6. Liquidated Damages. Unless due to a force majeure event or material breach by City that is not cured within fifteen (15) calendar days, if NFL fails to complete Improvement Work within ninety (90) days of the date in which the City authorizes NFL to start the Improvement Work, NFL will pay the City liquidated damages in the amount of $8,702 per day until completion.

7. Warranty. NFL warrants that Improvement Work will be performed in a professional manner consistent with industry standards and City specifications for a period of one year after acceptance. NFL shall promptly repair or replace, at no cost to the City, any work that fails to meet these standards, including unhealthy or failing turf. These warranty obligations shall survive the termination or expiration of the Agreement through the Warranty Period.

8. Condition, Use, and Restoration. NFL will be required to take good care of the Licensed Space during the Use Period and throughout its activities under the License Agreement. NFL will be responsible for repairing any damage to the Licensed Space caused by NFL, its contractors, or invitees during the Use Period and will return the Licensed Space to the City in substantially the same condition as when accepted by NFL. NFL will still be obligated to take good care of the Licensed Space and complete the Improvement Work during the Improvement Work Period.

9. Termination Rights. The License Agreement will provide NFL with certain limited termination rights, including:
    a. Prior to the commencement of the Use Period, NFL may terminate the Agreement, without penalty, if it determines, in its reasonable discretion, any significant event or circumstance occurs that materially prejudices the safe conduct of the Permitted Use at the Licensed Space that cannot be promptly and reasonably resolved; or
    b. If the Super Bowl is cancelled; or
    c. If after the commencement of the Use Period and prior to occurrence of the Super Bowl, Licensee reasonably determines that any significant event or circumstance occurs that materially prejudices the safe conduct of the Permitted Use at the Licensed Space that cannot be promptly and reasonably resolved.

If the License is terminated by Licensee under items (b) or (c), for each day that Licensee has made use of the Licensed Space pay to Licensor the amount of Eight Thousand Seven Hundred and Two Dollars ($8,702) per day.

10. Insurance. NFL and/or its subcontractor will be required to maintain, at its sole cost and expense insurance consistent with the City's standard insurance requirements.

11. Indemnification. NFL will be indemnifying the City (and council, officers, employees, etc.) for losses arising from NFL's use of the Licensed Space, acts/omissions of NFL and its invitees/contractors, NFL's breach, and NFL's violations of law. The indemnity provisions in the Agreement will survive the expiration or earlier termination of the Agreement.

12. Compliance with Tax Laws. If a possessory interest is created, the Licensee may be subject to the payment of property taxes levied on the interest in accordance with Revenue and Taxation Code Section 107.6. Licensor and Licensee shall cooperate in the defense of any action instituted by the County to assess a possessory interest tax levy.

The final form of the License Agreement will reflect the terms as outlined in this report and will substantially conform with the City's standard license requirements, subject to final approval by the City Attorney and City Manager.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(4) in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

FISCAL IMPACT
The “community benefit” services will be provided as in-kind services at the expense of the National Football League valued at approximately $1.3 million. The optional soil thatching is not included in the community benefit services. If the City chooses to move forward with the soil thatching, the estimated cost is approximately $0.5 million. City staff is exploring potential funding sources to cover that cost, including current fiscal year cost savings.

COORDINATION
This report has been coordinated with the Finance Department, the City Attorney’s Office, and the City Manager’s Office.

PUBLIC CONTACT
Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City’s website and in the City Clerk’s Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk’s Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

ALTERNATIVES
1. Other action(s) as directed by the City Council.

RECOMMENDATION
Authorize and direct the City Manager to Negotiate and Execute a License Agreement for Property Use of the Youth Soccer Park and its facilities and adjacent parking lots between the City of Santa Clara and the National Football League for Super Bowl LX Operational Support that is consistent with the terms of the proposed term sheet provided in this Staff Report, and subject to final approval by the City Attorney and City Manager.

Prepared by: Damon Sparacino, Director, Parks & Recreation
Approved by: Jovan Grogan, City Manager

ATTACHMENT 2

IMPROVEMENT WORK: NATURAL TURF REPLACEMENT

Replacement Fields shall be replaced and maintained as follows:

I. With respect to replacing the Replacement Fields, Licensee shall cause its vendor to:

(a) New natural turf shall be procured and installed per Section 3.2, “Natural Soccer Fields”, of the City of Santa Clara Parks and Recreation Department – Park Amenities & Design Standards, except for turf material as mentioned below to be Tahoma 31 and other special requirements, as delineated in this Exhibit B.
(b) Replace 15 existing dugouts with new per the attached quote from Soccer Innovations.
(c) Conduct a pressure test and general audit of irrigation system prior to NFL moving into site to ensure that there are no pre-existing leaks or issues. Pressure test and audit dates to be mutually upon between NFL, vendor and Licensee.
(d) Optional item considered the City’s responsibility and expense: Perform thatching removal. Remove all existing grass and organic matter above the current sand base, and resodding with new grass.
(e) Install turf type: T31-BRI: 1/2" THICK TAHOMA 31
(f) Mobilize equipment/project management
(g) Demolish and off haul existing sod/rootzone (up to 1.5” Depth of Cut (1 Pass)
(h) Blend and laser grade existing site organic matter/soils
(i) Roll and top dress with ¼” sand
(j) Install and adjust new irrigation heads to grade
(k) Provide detail specification of installed material to the City after completion.
(l) Laying Sod
    i. Moisten prepared surface immediately prior to laying sod.
    ii. Lay sod immediately after delivery to site to prevent deterioration.
    iii. Lay sod smooth and tight with no open joints visible, and no overlapping; stagger end joints 12 inches minimum. Do not stretch or overlap sod pieces.
    iv. Where new sod adjoins existing grass areas, align top surfaces.
    v. Where sod is placed adjacent to hard surfaces, such as curbs, pavements, etc., place top elevation of sod 1/4" inch below top of hard surface.
    vi. Water sodded areas immediately after installation. Saturate sod to 4 inches of soil.
    vii. After sod and soil have dried, roll sodded areas to ensure good bond between sod and soil and to remove minor depressions and irregularities. Roll sodded areas with roller not exceeding

II. Maintenance Period (General):

(a) Furnish all labor, material, equipment and services required to maintain landscape in a healthy growing condition and in a neat and attractive appearance throughout the maintenance period.
(b) The Maintenance Contractor shall be experienced in horticulture and landscape maintenance, practices and techniques, and shall provide sufficient number of workers with adequate equipment to perform the work during the maintenance period.
(c) Maintenance Period begins after all punch list or corrective items have been accepted by the City.
(d) Any day of improper maintenance, as determined by the City, shall not be credited as an acceptable maintenance period day. The maintenance period shall be extended on a daily basis if the work is not in accordance with this document.
(e) Maintenance shall continue beyond the ninety (90) day maintenance period, as required, until final acceptance is given by the City
(f) A phased maintenance period will not be accepted.
(g) All plant material and other materials installed under the Contract shall be guaranteed against any and all poor, inadequate or inferior materials and/or workmanship or improper maintenance, as determined by City, and shall be replaced by the Contractor at his expense. Warranty periods are as follows:
    1. Groundcover and Turf: One year.
    2. Replacement: Any materials found to be dead, missing, declining or not in a satisfactory or healthy condition during the maintenance period shall be replaced immediately. City shall be sole judge as to the condition of material. Material to be replaced within the guarantee period shall be replaced by the Contractor within five (5) days of written notification by the City. All replacement materials and installations shall comply with this document.
(h) Proper maintenance, including watering, weeding, mowing, edging, fertilization, rolling of turf, replacement and infill of mulch, replacement of jute mesh, infill of settled areas, repairing and protection shall be required until entire project is finally accepted.
(i) Watering: Thoroughly water to insure vigorous and healthy growth until work is accepted. Water in a manner to prevent erosion due to application of excessive quantities of water. When hand watering use a water wand to break the water force.
(j) Weeding: Keep turf areas and areas between plants free of weeds. Control weeds with pre-emergent herbicides. If weeds develop, use legally approved herbicides and hand remove. Avoid frequent soil cultivation that destroys

shallow roots. Weeding also shall be included in all paved areas including public or private sidewalks.

III. Maintaining the Replacement Fields:

(a) Reel mowing of each of the Replacement Fields two times per week, string trimming/edging as needed
(b) Pro Core 648 Aeration on each of the Replacement Fields one time during the Replacement and Maintenance Period
(c) One Fertilizer Application on each Replacement Fields during the Replacement and Maintenance Period Materials Included)
(d) Two Spray applications on Replacement Fields as needed to prevent limit weeds and or disease (Materials Included)
(e) No sports line painting included, as fields must be closed during the grow in period.
(f) Rolling of Replacement Fields as needed
(g) Initial mowing of turf will commence when the grass has reached a height of two and one- half (2-1/2) inches. The height of cut will be two (2) inches. After initial establishment maintain Bermuda and creeping grasses at 1½" and fescues or rye grass at 2". Mowing will be at least every 4-6 days for the second through fifth cuttings, and at least once per week after that for fescue. Bermuda grass is to be mowed minimum twice a week.
(h) Bent grass is to be mowed daily. Turf must be well established and free of bare spots and weeds to the satisfaction of the City prior to final acceptance.
(i) Excess grass clippings shall be picked up and removed from the site and premises. Let turf areas dry out enough so that mower wheels do not skid, tear or mark the lawn. Edges shall be trimmed at 90 degrees to pavement, at least weekly or as needed for neat appearance. Clippings shall be removed from paved and planting areas, etc. and disposed of from the site.
(j) Watering: Lawns shall be watered at such frequency as weather conditions require to replenish soil moisture below root zone and to establish healthy strands of grass.
(k) Contractor is responsible for water audits and payment of any local penalties by local water districts at no additional cost to the Owner.
(l) Disease control: Control turf diseases throughout the maintenance period with legally approved fungicides and herbicides. Replace any damaged or infected grass.
(m) Control broad leaf weeds with selective, legally approved herbicides throughout maintenance period.
(n) A final application of selective herbicide shall be applied at the end of the landscape maintenance period, acceptance, just prior to final acceptance.
(o) Hand weed as required in addition to the application of weed control herbicides and pre- emergent to maintain all areas free of weeds including turf species other than the specified species. Periodic or predetermined weeding schedules may not be adequate and should be supplemented.

(p) During maintenance period an application of turf maintenance fertilizer, as specified, shall be made at thirty (30) day intervals from the date of maintenance period start at a rate of five (5) pounds per 1,000 square feet, and as required by the agronomic soils report.
(q) Final application (just prior to final acceptance) shall be made with the slow-release maintenance fertilizer as required by the agronomic soils report.
(r) Replacement: At conclusion of maintenance period a final observation of lawn and turf areas shall be made. Remove diseased areas and unhealthy strands of grass from the site; do not bury into the soil. Replant areas with material and in a manner as specified on the Plans and Specifications at no additional cost to the Owner. All grass is to be fully grown with 100% coverage with a suitable thatch layer prior to turnover and final acceptance.
(s) Irrigation System Observation: The Contractor shall check all systems for proper operation. Lateral lines shall be flushed out after removing the last sprinkler head or two at each end of the lateral. All heads are to be adjusted as necessary for unimpeded head to head coverage.
(t) Irrigation Valves: Contractor shall set, and verify that all pressure regulating valves to the operating pressure specified by the manufacturer
(u) Controllers: Set and program automatic controllers for seasonal water requirements. Give the Owner's Representative instructions on how to turn off system in case of emergency.
(v) If the irrigation system is designed and specified to be operable from a central irrigation computer controller located off site, or a standard controller on site, the contractor shall demonstrate to the City and future maintenance contractor that the central irrigation system is fully installed and operational from this off site control system as described and specified. Contractor shall make all adjustments as necessary to insure this operation prior to final acceptance.

(w) Repairs: Repair all damages to irrigation system at the Contractor's expense. Repairs shall be made within twenty-four (24) hours or sooner to prevent damage to site improvements.
(x) During maintenance work, keep pavements clean and work area in an orderly condition. Haul away and remove all debris from landscape areas, and do not leave any clippings, fertilizer, amendments and/ or other material from landscape planting and/or maintenance period.
(y) Power wash all pavement and flatwork as necessary to remove all staining and tire marks on surfaces caused by maintenance or construction vehicles, prior to final acceptance.

3.2 Natural Soccer Fields

1. NATURAL TURF SURFACE

   Nursery-grown sod shall have the following characteristics:

   A. Sod for planting areas shall be dense, healthy, field-grown on sandy soil with grass having been mowed at 1-inch height before lifting from field.

   B. Sod shall be dark green in color, relatively free of thatch, free from disease, weeds, and harmful insects.

   C. Sod shall be reasonably free of objectionable grassy and broadleaf weeds. Sod shall be considered weed free if no more than 2 such weeds are found per 100 sq feet of sod.

   D. Sod shall be rejected if found to contain the following weeds: common bermudagrass, quack grass, Johnson grass, nimble weed, thistle, bindweed, bent grass, perennial sorrel, and bromegrass.

   E. Sod variety shall be: Primary choice shall be Latitude 36, a with the secondary choice being Sports Turf Grass – Bandera. The sod shall be pre-ordered and grown atop the native sand base.

2. NATURAL TURF SOIL

   A. TOPSOIL: Site to be rough graded to elevations shown on Civil Drawings.

   B. All topsoil to be used for planting, shall have a complete soil analysis performed in a report from a reputable soil testing laboratory.

   C. Root zone for sand-based turf and materials (USGA Root Zone Mix)

      - Refer to planting details for depth.
      - Recommendations for nutrients must be submitted to the landscape architect for review.

- USGA Amended Rootzone Mix shall be the following:

a. 70% USGA Sand

b. 20% Peat Moss / Canadian Sphagnum

c. 10% Organic Greenwaste Compost

d. Mycorrhiza per manufacturer

3. NATURAL TURF BASE PREPARATION

A. Gravel base shall be placed above the prepared subgrade and below USGA Rootzone mix. See planting details for required depth

B. ASTM C-136 Standard Test Method for Sieve Analysis of Fine and Coarse Aggregates shall be performed prior to delivery to the site.

C. Compact per Geotechnical Engineer’s recommendations.

REPORT TO COUNCIL

SUBJECT

Public Hearing: Action on Adoption of a Resolution Amending Rate Schedules for Electric Services for All Classes of Customers to Increase Electric Rates and Charges in Each Rate Schedule by 4.0% and Make Other Modifications, Effective January 1, 2026

BACKGROUND

Like other electric utilities in California, the City of Santa Clara's Electric Utility, Silicon Valley Power (SVP), evaluates the need for rate increases in the context of ensuring reliable low-cost service to the community. Many utilities in California are seeing operating pressures driven by the need to replace aging infrastructure, increasing risks such as wildfires, increasing regulatory mandates, and other unanticipated challenges. SVP is no different and is also experiencing unprecedented load growth, having already seen the highest growth among publicly owned electric utilities in California. This growth is a significant source of new revenue that helps offset some of the other costs, but it also is a driver for SVP's large capital program.

The proposed 4% increase takes into account the revenue needed to continue to operate and meet the needs of SVP's customers, and is in line with historic rate increases as detailed below:

Table 1: 5-year rate increase history

Year	Rate increase	Drivers
2021	3%	Routine Cost Drivers as described in RTC
2022	3%	Routine Cost Drivers as described in RTC
2023 January 1 July 1	 8% 5%	 Natural Gas Crisis, Increased Cost of Materials,
2024	10%	Natural Gas Crisis, Increased Cost of Materials
2025	5%	Routine Cost Drivers
2026	4%	Proposed/Drivers discussed below

Overall, SVP is in a strong financial position with projections showing increased revenue growth and reserves increasing steadily over time.

DISCUSSION

The proposed 4% rate increase is needed to cover the cost of generating and delivering power to all SVP customers and to help ensure the long-term reliability and stability of the system. Other key rate increase drivers are further described below. When the updated FY 2025/26 Budget was approved, staff forecasted a 2% rate increase. This forecast was based on the best information available at the time; however, recent changes and unforeseen events necessitate a 4% increase instead.

Key Rate Increase Drivers

1. Capital and Operating Needs:

The cost of labor, equipment, materials, and construction continue to rise for both new projects and the maintenance of existing electric utility infrastructure. These escalating costs directly impact SVP's capital projects as well as ongoing operations and maintenance activities. SVP continues to increase preventative maintenance on aging infrastructures, especially power plants, substations, and transmission and distribution infrastructures. Additional operating expenditures have also contributed to higher costs for SVP. A summary of the main drivers for these increased costs include:

- Additional staffing and contractual support are needed to maintain operations and for project delivery.
- Continuing investment in security for substations in anticipation of large events and for long-term operational system reliability.
- Planning for repayment of future debt issuance for large capital projects.

2. Reserves:

The proposed rate increase maintains existing reserves at or above the minimum target of approved ranges and ensures sufficient reserve balance prior to future debt issuances. Below is a summary of the anticipated reserve levels:

- The Rate Stabilization Reserve is anticipated to be at the minimum target of 10% of sales revenue by June 30, 2026.
- The Operation and Maintenance Reserve is anticipated to be above the target range of 90 - 180 days of operating expenses by June 30, 2026.
- The infrastructure reserve is anticipated to be within its approved range for SVP by June 30, 2026. The range is based on analysis of critical infrastructure, the likelihood of replacement, and the estimated replacement costs.

It is important to note that operating an electric utility in California has inherent risks and those risks are increasing. While staff has established metrics for reserves to mitigate those risks, future revenue projections assume an increase to reserves and the potential establishment of additional reserves to ensure potential liabilities are addressed. For example, wildfire continues to be a challenge in California, especially with the strict inverse condemnation rules that place the wildfire burden on electric utilities.

3. Donald Von Raesfeld Power Plant:

The rate increase is also driven by the need to recover the cost associated with a catastrophic gas-turbine failure at the Donald Von Raesfeld power plant (DVR), including loss of generation revenue, additional transmission costs, turbine rental costs, spare part costs, and additional turbine

replacement or backup costs.

In summary, the rate increase is projected to generate an additional $15 million in the current fiscal year's operating budget ($31 million in CY 2026 when including forecasted load growth). These funds will help cover the key rate increase drivers described above.

Rate Increase Amounts

In compliance with Article XIIIC of the California Constitution (Proposition 26), the proposed rate increase will not result in the City's electric rates exceeding the City's reasonable cost to provide electric service to its customers. Under Proposition 26, a service rate is not a tax if it is imposed for a specific government service provided directly to a ratepayer and is not imposed on those not receiving the service.

Staff propose that rates and charges for all classes of customers be increased on a uniform percentage basis as the cost increase triggering this rate increase proposal has been incurred on behalf of all classes of SVP's customers. This approach is proposed for both policy and legal reasons.

The average monthly impact of the 4% rate increases by customer class is shown in Attachment 2.

For residential customers who have difficulty absorbing these increases, SVP provides a rate assistance program for income-qualified customers.

Rate Comparisons

With the proposed increase, SVP's rates will remain significantly below PG&E's current average bundled rates (effective 09/01/2025).

Table 2: SVP Recommended Rates Compared to PG&E Rates

Rate Type	% Below Current PG&E Rates
Residential	57%
Small Commercial	38%
Large Commercial	48%
Small Industrial	43%
Large Industrial	33%
Very Large Industrial	40%

Ministerial Rate Schedule Language Clarification

In addition to the proposed rate increases, SVP is proposing to make a number of clarifying and administrative changes to certain rates:

1. Minor changes to the CB-1 and CB-3 Rate Schedules to remove an outdated meter provision and clarify holiday definitions.

    - Outdated Meter Provision: Current schedules allow customers, upon request, to install and

powered by Legistar™

pay for recording-type meters to receive demand forgiveness during off-peak periods. This provision was necessary before all commercial and industrial customers had Advanced Metering Infrastructure (AMI) or AMI-capable meters. As this option is no longer applicable, SVP proposes to remove this provision from CB-1 and CB-3.

- Clarification of Holiday Definitions: Holidays used to determine time-of-use (TOU) off-peak periods under CB-1 and CB-3 are those recognized by the North American Electric Reliability Corporation (NERC). This holiday list has been in place since NERC established standardized off-peak definitions for electricity markets and reliability planning. The amended schedules will explicitly define these holidays as "NERC Holidays" to ensure consistency and avoid confusion.

2. Define Eligible Customer-Generators in the Net Energy Metering (NEM) rate schedule to extend the service and NEM rate applicability to the customers beyond the twenty-year limit.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to section 15273 of Title 14 of the California Code of Regulations in that the proposed action is a modification of rates which is needed in order to meet operating expenses and maintain adequate cash reserves, and other reasons set forth in this staff report.

FISCAL IMPACT

The proposed 4% rate increase is anticipated to generate approximately $15 million in additional revenue for the six-month period in Fiscal Year 2025/26 and $33 million in additional revenue in Fiscal Year 2026/27 when including forecasted load growth. These revenue amounts were higher than the assumed revenue in the Fiscal Year 2025/26 Adopted Operating Budget. Budgetary adjustments to revenue will be brought forward to the City Council throughout the year if needed.

COORDINATION

This report has been coordinated with the Finance Department and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

In addition, SVP staff have reached out to Key Accounts (large customers), commercial customers, school districts, and numerous individual customers as well as included information in the City's newsletter, SVP news subscriptions using GovDelivery, and posting in the Santa Clara Weekly. Staff have also disseminated information via social media: Nextdoor, X (formally Twitter), and Facebook.

RECOMMENDATION

Adopt a Resolution amending the City of Santa Clara Rate Schedules for Electric Utility Services for

all classes of customers to increase electric rates and charges in each rate schedule by 4.0% and make other modifications, effective January 1, 2026.

Reviewed by: Nico Procos, Director of Silicon Valley Power

RESOLUTION NO. 25-xxxx

A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA, AMENDING CITY RATE SCHEDULES FOR ELECTRIC UTILITY SERVICE TO INCREASE ELECTRIC RATES AND CHARGES IN EACH RATE SCHEDULE BY FOUR PERCENT (4.0%) EFFECTIVE JANUARY 1, 2026

WHEREAS, Chapter 13.05 of the Santa Clara City Code ("Code"), which is entitled Operation of an Electric Utility, provides that all electric energy and power furnished to customers of the Electric Department ("Electric Department") of the City of Santa Clara, California, doing business as Silicon Valley Power, shall be supplied and charged to such customers, and paid for by such customers in accordance with certain electric rate schedules, tariffs, and rules and regulations adopted by the City Council;

WHEREAS, Section 13.05.040 of the Code further states that the City Council may, by resolution, review, revise, adopt and/or promulgate new or amended electric utility rate schedules from time to time as it deems necessary to meet the City's contractual obligations and debt service requirements and to cover the cost of constructing, operating and maintainingthe electric utility;

WHEREAS, on December 8 and December 10, 2025, a notice of the public hearing regarding a proposed four percent (4.0%) increase to rates and charges in the City of Santa Clara Electric Rate Schedules ("Rate Schedules") was published in the San Jose Mercury News and the Silicon Valley Voice, respectively;

WHEREAS, the Electric Department presented a Report To Council to the City Council ("Report to Council") at its regularly scheduled meeting on December 16, 2025, in support of the proposed four percent (4.0%) and amendment to the Rate Schedules, which are attached hereto and incorporated herein by this reference;

//

//

//

WHEREAS, the proposed four percent (4.0%) increase to the rates and charges in the Rate Schedules are necessary to enable the Electric Department to (1) fund, among other things, the capital and operating needs for (a) additional staffing and contractual support needed to uphold operational continuity and achieve successful project delivery, and (b) continuing investment in infrastructure security and long-term operational system reliability; (2) increase reserves to (a) maintain existing reserves at or above the minimum target of the approved ranges to maintain financial stability and the bond rating of the Electric Department; and (b) keep reserves consistent with growth projections and mitigate risks from market volatility and contingencies; and (3) recover cost associated with a catastrophic gas-turbine failure at the Donald Von Raesfeld power plant (DVR), including loss of generation revenue, additional transmission costs, and turbine rental costs , spare part costs, and additional turbine replacement or backup costs.

WHEREAS, the City Council reviewed the recommendations contained in the Report to Council, namely that the City Council amend the Rate Schedules for utility service to increase electric rates and charges in such Rate Schedules by four percent (4.0%) beginning January 1, 2026; and

WHEREAS, the City Council has considered the evidence which was presented to it and concurs with the findings as set forth herein to support the four percent (4.0%) increase to therates and charges in the Rate Schedules.

NOW THEREFORE, BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

1. That the findings as set forth above are hereby adopted by the City Council of the City of Santa Clara.

2. The four percent (4.0%) increase to the rates and charges in the Rate Schedules and other amendments to the Rate Schedules are hereby adopted by the City Council of the City of Santa Clara, as reflected in the attachments hereto, effective January 1, 2026.

3. That a true and correct copy of the Resolution, including amended Rate Schedules, shall be kept on file in the Office of the City Clerk and in the Billing Division of the City Finance Department at all times while the Rate Schedules are effective and, until further amended or

replaced, shall be open to public investigation and inspection during the regular business hours of such offices.

4. Effective date. This resolution shall become effective immediately.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED AND ADOPTED BY THE CITY OF SANTA CLARA, CALIFORNIA, AT A REGULAR MEETING THEREOF HELD ON THE 16th DAY OF DECEMBER, 2025, BY THE FOLLOWING VOTE:

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE NM NET ENERGY METERING SERVICE	Sheet 1 of 3

With 2026 Excess Energy Rate

APPLICABILITY:
This Net Energy Metering rate schedule is applicable to all Eligible Customer-Generators served by Silicon Valley Power (SVP). Availability of this schedule to such " Eligible Customer-Generator " will be on a first-come first-served basis, until the total rated generating capacity operated by eligible customer-generators equals 5.0 percent of SVP's annual peak distribution demand.

DEFINITION:
An “Eligible Customer-Generator” is any Customer who uses a Renewable Generating Facility, or combination of those facilities, with a total capacity of not more than one megawatt, that (1) is located on that Customer’s Property, (2) is interconnected and operates in parallel with the SVP’s transmission and distribution facilities, and (3) offsets no more than part or all of the Customer’s own electrical requirements on the Property. If used in combination with energy storage equipment, the energy storage equipment inverter must not (1) be larger than the Renewable Generating Facility, or (2) discharge more than four hours., Eligible Customer-Generator is also referred to as “Customer” in this rate schedule.

“Property” means an undivided parcel of real property that is owned, leased, or licensed by Customer.

“Renewable Generating Facility” means a facility that generates electricity from a renewable source listed in paragraph (1) of subdivision (a) of Section 25741 of the Public Resources Code, including solar or a wind turbine electrical generating facility, or a hybrid system of both. Renewable Generating Facility also referred to as “Facility” in this rate schedule.

RATES:
All rates charged under this schedule shall be the same as the rates charged under the eligible customer generator's otherwise applicable rate schedule (OAS). An Eligible Customer-Generator served under this schedule shall be responsible for all charges under the otherwise applicable rate schedule, except that energy usage will be metered and billed on a net basis. An annual bill will be rendered, as required by Section 2827 of the California Public Utilities Code. A monthly statement of accumulated charges and credits shall be provided. Monthly statements shall be subject to SVP’s payment provisions pursuant to Section 6 of the Municipal Service Rule and Regulation, except that customers whose OAS is a demand metered SVP Rate Schedule shall be subject to monthly payment of bills, and be subject to annual true-up as necessary. If the energy generated exceeds the energy consumed during the annual billing cycle, at the Eligible Customer-Generator’s option, payment shall be made for such excess energy delivered to SVP's distribution facilities as set forth below, or applied as a credit to the next annual billing cycle.

LOAD AGGREGATION OPTION:
An Eligible Customer-Generator with multiple meters may elect to aggregate the electrical load of the meters located on the Property where their Renewable Generating Facility is located, and on all properties adjacent or contiguous to the Property on which the Renewable Generating Facility is located, if those properties are solely owned, leased, or rented by the Eligible Customer-Generator.

RATE SCHEDULE NM NET ENERGY METERING SERVICE	Sheet 2 of 3

With 2026 Excess Energy Rate

If an Eligible Customer-Generator chooses to aggregate the electrical load of such meters, (i) the Eligible Customer-Generator shall be permanently ineligible to receive net surplus electricity compensation, and SVP shall retain any kilowatt-hours in excess of the Eligible Customer-Generator's aggregated electrical load generated during the 12-month period; (ii) the electricity generated by the Renewable Generating Facility shall be allocated to each of the meters in proportion to the electrical load served by those meters for each billing period. This proportionate allocation shall be calculated based on Eligible Customer-Generator's load data averaged over an indicative 12-month period (estimated if necessary) and should be effective for a minimum of 12 months.

METERING:
Net energy metering is the use of a single meter to measure the flow of electricity in two directions. If the existing electrical meter of an Eligible Customer-Generator is not capable of measuring the flow of electricity in two directions the Eligible Customer-Generator shall be responsible for all expenses involved in purchasing and installing a meter that is able to measure electricity flow in two directions. Any additional meter or meters to monitor the flow of electricity in each direction may be installed with the consent of the Eligible Customer-Generator, at SVP expense. SVP meter(s) to monitor the output of Customer's Renewable Generating Facility are required if Customer elects the Load Aggregation Option. Such meters shall be provided by SVP and paid for by the Eligible Customer-Generator.

INTERCONNECTION:
Prior to interconnection, the Eligible Customer-Generator shall execute an interconnection agreement with SVP and shall comply with SVP's Rules and Regulations regarding parallel generation, except that service under a standby rate schedule shall not be required. The Eligible Customer-Generator and their Renewable Generating Facility must also comply with all applicable federal, state, and local laws and all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and accredited testing laboratories such as Underwriters Laboratories and, where applicable, rules of the California Public Utilities Commission regarding safety and reliability. In the event, an Eligible Customer-Generator's interconnection agreement expires, and their Renewable Generating Facility continues to be interconnected that Customer and their facility will still be subject to this rate schedule and shall comply with SVP's Rules and Regulations, all federal state, and local laws, and all applicable safety and performance standards set forth in the preceding sentence.

PAYMENT RATE FOR EXCESS ENERGY:
The Payment Rate for Excess Energy shall be revised during each calendar year, and shall consist of the sum of an avoided energy cost charge and an avoided renewable energy value charge. The avoided energy cost is equal to 8000 Btu/kWh times SVP's avoided cost of gas in $/MMBtu. The avoided cost of gas shall be the average of the 12 monthly values for PG&E Citygate taken from Natural Gas Intelligence, adjusted to include transportation to Santa Clara, ending in October of the year prior to the effective date of the Payment Rate for Excess Energy. The avoided renewable energy value charge shall be equal to the average cost of the unbundled renewable energy credits SVP purchased for SVP's RPS compliance in the calendar year 2025.

Payment Rate for Excess Energy effective January 2026: **$0.05366** per kWh

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE NM NET ENERGY METERING SERVICE	Sheet 3 of 3

With 2026 Excess Energy Rate

Exhibit A

Rate Schedule NM
Derivation of Payment Rate for Excess Energy

1. Avoided energy cost charge:

   Average of the monthly values for PG&E Citygate from Natural Gas Intelligence for the 12 months ending October 2025: $3.615 per MMBtu

   Average cost of transportation from PG&E Citygate to Santa Clara Donald Von Raesfeld Power Plant for the 12 months ending October 2025: $2.421 per MMBtu

   Total average delivered cost of gas: $6.036 per MMBtu

   Avoided energy cost = $6.036 per MMBtu x 8000 Btu/kWh = $0.04829/kWh

2. Avoided renewable energy value charge:

   The average cost of the unbundled renewable energy credits SVP would have purchased for SVP's RPS compliance in the calendar year 2025: $0.00537 per kWh

3. Payment Rate for Excess Energy beginning January 2026:

	$/kWh
Avoided energy cost charge	$0.04829
Avoided renewable energy value charge	$0.00537
Total	$0.05366

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE SB-1 STANDBY GENERAL SERVICE DEMAND METERED	Sheet 1 of 2

DESCRIPTION OF SERVICE

This schedule is applicable to standby service for customer's on-site self-generation operated in parallel with service from SVP under any of SVP's applicable demand-metered rate schedules, where such self-generation is not eligible for service under Schedule NEM. This Schedule does not apply to customer's on-site renewable electrical generation facility where Schedule NEM is applicable. The Capacity Reservation Charges under this Schedule SB-1 are supplemental to the demand charges under the applicable demand-metered rate schedule, and are intended to result in SVP recovering its costs to provide standby services for the on-site generation capacity.

RATES:

CUSTOMER CHARGE:

The Customer Charge is equal to the applicable Customer Charge set forth in Customer's otherwise applicable rate schedule.

CAPACITY RESERVATION CHARGE (CRC):

The Capacity Reservation Charge is equal to the applicable Demand Charge per kW set forth in customer's otherwise applicable Rate Schedule multiplied by the lower of 45% of the nameplate rating of customer's on-site generation or the Reservation Capacity determined pursuant to Note D.

SURCHARGES:

Public Benefits Charge, as set forth in Note B, will be added to the above charges.

NOTES:

(A) FLUCTUATIONS IN CUSTOMER'S SELF-GENERATION OUTPUT:

Customer shall coordinate with SVP's System Dispatcher for changes of 2000 kW or more in the output of customer's self-generation. If operationally necessary and practical, the System Dispatcher may require customer to schedule the return to service of customer's self-generation. Such coordination shall not relieve Customers from Capacity Reservation Charges determined above.

(B) PUBLIC BENEFITS CHARGE:

The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy, and low-income assistance programs. The surcharge is equal to the sum of the Meter Charge and Capacity Reservation Charge, times 0.0285.

(C) PARALLEL OPERATION:

Any customer may operate its generating plant in parallel with SVP's system if the customer's plant is constructed and operated in accordance with SVP Rule. However, a customer who operates its plant in parallel must assume responsibility for protecting SVP and other parties from damage resulting from

negligent operation of the customer's facilities. Customers may be required to meet requirements imposed by other governing entities having jurisdiction over SVP's transmission lines including the California Independent System Operator (CAISO) and the Western Electricity Coordinating Council (WECC). Customer generation under this rate schedule shall be metered by SVP. Customer shall provide a meter location that accommodates SVP's meter and such meter shall be fully accessible by SVP.

(D) RESERVATION CAPACITY:
The Reservation Capacity to be used for billing under the above rates shall be determined as set forth below:

The Reservation Capacity shall be as initially determined by SVP, except that during the first 12-month period following the date of initial determination, SVP may review the specified Reservation Capacity on a monthly basis and make adjustments as warranted (consistent with the criteria specified below). Thereafter, SVP may perform an annual review of the most recent 12 months of actual customer operation and make prospective adjustments to the Reservation Capacity as warranted and consistent with customer's historic operations. Any such adjusted Reservation Capacity shall be effective for a minimum of 12 months unless a documented material change of operation is provided to SVP by the customer. The customer may provide SVP with documentation of such material changes in operations as might call for an adjusted Reservation Capacity at any time. Upon receipt and review of such documentation, SVP shall revise the Reservation Capacity at its sole discretion and such a revision will be effective for the billing period immediately following receipt, acceptance and approval of the documentation and any additional information required by SVP to make such a determination. For purposes of subsequent annual reviews and any resulting adjustment to the Reservation Capacity, the following criteria shall apply:

a. For those customers who operate sufficient non-utility generating capacity so as to ordinarily satisfy all of the electric energy requirements at their site and so do not ordinarily require any service through facilities owned by SVP, the Reservation Capacity shall not exceed the customer's highest peak demand established during the most recent 12 months of actual customer operation;

b. For customers with electric loads that exceed the output capability of their non-utility generation, and thus require the regular provision of supplemental power service through facilities owned by SVP, the Reservation Capacity determination shall consider the number and size of the customer's non-utility generating unit(s), the outage diversity of the non-utility generating units serving the customer's load, and any reduction of customer load commensurate with non-utility generator capacity outages.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE A MUNICIPAL WATER DEPARTMENT	Sheet 1 of 1

DESCRIPTION OF SERVICE:
The schedule is applicable to electricity used by the Municipal Water Department for water and sewer pumping service.

RATES:

All kWh, per kWh	$ 0.15110

SURCHARGE:
Public Benefits Charge and State Surcharge, as set forth in Note A, will be added to the above charge.

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy and low income assistance programs. The surcharge is equal to kWh billed times 2.85%.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to kWh billed times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE C-1 GENERAL SERVICE	Sheet 1 of 2

DESCRIPTION OF SERVICE:
This schedule is applicable to alternating current service through one meter, for power and heating alone or combined with lighting. This schedule is applicable to customers who do not qualify for Schedule D-1, CB-1, CB-3, CB-6, CB-7 or CB-8. The Time of Use (TOU) Option is available to all customers. Customers who utilize the TOU option will be responsible for the installed cost of a TOU meter, as set forth in Note (B) below.

RATES:

	Non-Time of Use	Time of Use Option	
SINGLE-PHASE SERVICE:			
CUSTOMER CHARGE, per meter per month:	$ 5.52	$ 5.52	
ENERGY CHARGE: (In addition to the Customer Charge)			
		Peak	Off-Peak
First 800 kWh, per kWh	$ 0.26620	$0.28968	$0.24697
Excess Over 800 kWh, per kWh	$ 0.24166	$0.26514	$0.22242

MINIMUM CHARGE: $5.52 per meter per month but not less than $3.43 per month per kVA of connected welder load, rectifier load, x-ray and x-ray type equipment load, fusing machine load, and other types of welding equipment load.

THREE-PHASE SERVICE: The single-phase rate plus $4.33 per meter per month.
MINIMUM CHARGE: $9.85per month, but not less than $3.43 per month per kVA of connected welder load and per horsepower of polyphaser connected load, rectifier load, x-ray and x-ray type equipment load, fusing machine load, and other types of welding load.

SURCHARGES:

Public Benefits Charge and State Surcharge, as set forth in Note A, will be added to the above charges.

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, and low income assistance programs. The surcharge is equal to the sum of the Customer Charge and the Energy Charge times 0.0285.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to kWh billed times the State Surcharge Rate.

RATE SCHEDULE C-1 GENERAL SERVICE	Sheet 2 of 2

The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

.

(B) TIME OF USE (TOU) OPTION:

Customers who select the time of use option will pay a one-time TOU Meter Installation Charge, which is the cost of a TOU meter, plus its installation cost. This Charge is set forth in the City of Santa Clara Municipal Fee Schedule. The manufacturer and model of such meter shall be at the sole discretion of Silicon Valley Power. Time of use periods are as set forth below:

Peak Period: Monday through Saturday, except holidays (New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day), beginning at 6:00 AM and ending at 10:00 PM.

Off-Peak Period: All other hours.

The TOU meter is used to measure kWh usage in the peak and off-peak periods. The ratio of peak kWh to total kWh will be used to determine the portion of the First 800 kWh that falls in the peak period. This ratio will also be used to determine the portion of kWh usage above 800 kWh that falls in the peak period.

(C) UNMETERED SERVICE:

A customer may request electric service under this rate schedule on an unmetered basis, and SVP may, in sole discretion, allow such service if SVP determines (1) customer qualifies to receive service under this rate schedule and an existing unmetered SVP rate schedule does not apply to customer; (2) customer's connected load is less than 385 watts; (3) customer's usage is expected to be constant; and (4) installation of a meter to serve customer's connected load is not practical. If SVP determines customer may receive electric service under this rate schedule on an unmetered basis, customer shall pay the customer charge and the energy charge above. The energy charge shall be assessed on customer's estimated monthly usage which shall be determined as follows: customer's estimated connected load in watts times 8,760, divided by 1000, and then divided by 12. Customer shall be responsible for notifying the SVP not less than 30 days in advance of any change in customer's connected load. Failure to provide such notification may result in the SVP terminating electric service to the customer.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE CB-1 GENERAL SERVICE DEMAND METERED	Sheet 1 of 3

DESCRIPTION OF SERVICES:
This schedule is applicable to commercial or industrial services whose monthly use of energy has exceeded 8,000 kWh for three (3) consecutive months, or where the initial connected load indicates use above 8,000 kWh per billing period. Schedule CB-1 will be continued in service until the monthly use of energy has fallen below 6,000 kWh for 12 consecutive months. At that time, and at the option of Silicon Valley Power, Schedule C-1 will be applicable. The Time of Use Option is available to all customers. Customers who utilize the TOU option will be responsible for the installed cost of a TOU meter, if necessary, as set forth in Note (E) below.

RATES:

	Non-Time of Use	Time of Use	
CUSTOMER CHARGE, per meter per month	$100.45	$100.45	

DEMAND CHARGE:

	Non-Time of Use	Time of Use	
		Peak	Off-Peak
All kW of Billing Demand, per kW	$12.14	$12.14	$0.00

ENERGY CHARGE:

	Non-Time of Use	Time of Use	
		Peak	Off-Peak
All kWh, per kWh	$0.16139	$0.18490	$0.14217

SURCHARGES:
Public Benefits Charge and State Surcharge, as set forth in Note D, will be added to the above charges.

NOTES:

(A) MAXIMUM DEMAND:
The Maximum Demand in any month will be the average kW delivery of the 15-minutes interval in which such delivery is greater than in any other 15-minute interval in the month, provided, however, that in case the load is intermittent or subject of violent fluctuations, Silicon Valley Power may use a 5-minute interval instead of a 15-minute interval.

(B) BILLING DEMAND:
The Billing Demand to be used in computing charges under this schedule will be the mean of the Maximum Demand for the current month and the highest such demand occurring in the year ending with current month.

(C) VOLTAGE:
Single-phase or three-phase service on this schedule will be supplied at the secondary voltage

available, or at the option of the customer, at the primary voltage available, subject to the rules and regulations for electric service.

(D) SURCHARGES:

PUBLIC BENEFITS CHARGE: The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, and low income assistance programs. The surcharge is equal to the sum of the Customer Charge, Demand Charge and Energy Charge, including adjustment for Primary Voltage and Power Factor, times 0.0285.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to kWh billed times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(E) TIME OF USE OPTION:
Customers who select the time of use option will pay a one-time TOU Meter Installation Charge, which reflects the cost difference (including installation) between a non-time of use meter and a time of use meter. This Charge is set forth in the City of Santa Clara Municipal Fee Schedule. The manufacturer and model of such meter shall be at the sole discretion of Silicon Valley Power. Time of use periods are as set forth below:

Peak Period: Monday through Saturday, except NERC (North American Electric Reliability Corporation) Holidays (New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day), beginning at 6:00 AM and ending at 10:00 PM.

Off-Peak Period: All other hours.

The TOU meter is used to measure kWh and kW in the peak and off-peak periods.

(F) PRIMARY VOLTAGE DISCOUNT:
When delivery is made at the same voltage as that of the distribution line from which the service is supplied, a discount of $1.52 per kW of Billing Demand for 12kV line voltages will be allowed, provided, however, Silicon Valley Power is not required to supply service at a particular line voltage where it has (or will install) ample facilities for supplying at another voltage equally or better suited to the customer's electrical requirements. Silicon Valley Power retains the right to change its line voltage at any time, after reasonable advance notice to any customer receiving a discount hereunder and affected by such change, and such customer then has the option to change their system so as to receive service at the new line

voltage or to accept service (without voltage discount) through transformers to be supplied by Silicon Valley Power.

(G) POWER FACTOR:
When the Billing Demand has exceeded 300 kW for three consecutive months and thereafter until it has fallen below 200 kW for twelve consecutive months, bills will be adjusted for weighted monthly average Power Factor as follows:

The sum of Customer Charge, Demand Charge, Energy Charge, Primary Voltage Discount (as applicable) for any month as computed on the above rates will be decreased or increased, respectively, by 0.1 % for each 1 % that the average Power Factor is greater or less than 85%. Such average Power Factor to be computed (to the nearest whole percent) from the ratio of lagging kilovolt-ampere-hours to kilowatt- hours consumed in the month.

(H) OFF-PEAK DEMAND:
All demand occurring between 10:00 PM and 6:00 AM of the following day and on Sundays and NERC Holidays will not be counted in determining the Maximum Demand.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE CB-3 LARGE GENERAL SERVICE DEMAND METERED	Sheet 1 of 3

DESCRIPTION OF SERVICE

This schedule is applicable to industrial and commercial services whose monthly billing demands have exceeded 4,000 kilowatts for three consecutive months, or where the initial connected load indicates a demand above 4,000 kilowatts. Customers served under this Schedule CB-3 will be continued in service until the monthly billing demand has fallen below 4,000 kilowatts for 12 consecutive billing periods. The Time of Use Option is available to all customers. Customers who utilize the TOU option will be responsible for the installed cost of a TOU meter, if necessary, as set forth in Note (E) below.

RATES:	Non-time of use	Time of Use	
CUSTOMER CHARGE – per meter per month	$100.45	$100.45	
DEMAND CHARGE:	Non-time of use	Time of Use	
		Peak	Off-Peak
All kW of Billing Demand, per KW	$16.19	$16.19	$0.00
ENERGY CHARGE:	Non-time of use	Time of Use	
		Peak	Off-Peak
All kWh, per kWh	$0.14864	$0.17210	$0.12938

SURCHARGES:

Public Benefits Charge and State Surcharge, as set forth in Note D, will be added to the above charges.

NOTES:

(A) MAXIMUM DEMAND:
The Maximum Demand in any month will be the average kW delivery of the 15-minute interval in which such delivery greater than in any other 15-minute interval in the month, provided, however, that in case the load is intermittent or subject to violent fluctuations, Silicon Valley Power may use a 5-minute instead of a 15-minute interval.

(B) BILLING DEMAND:
The Billing Demand to be used in computing charges under this schedule will be the mean of the actual Maximum Demand for the current month and the highest such demand occurring in the year ending with the current month.

(C) VOLTAGE:
Service on this schedule will be supplied at the primary voltage available or, at the option of Silicon Valley Power, at the secondary voltage available, subject to the rules and regulations for electric service.

RATE SCHEDULE CB-3 LARGE GENERAL SERVICE DEMAND METERED	Sheet 2 of 3

(D) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, and low income assistance programs. The surcharge is equal to the sum of the Customer Charge, Demand Charge, and Energy Charge, including adjustment for Power Factor and Primary Voltage, times 0.0285.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to kWh billed times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(E) TIME OF USE OPTION:
Customers who select the time of use option will pay a one-time TOU Meter Installation Charge, which reflects the cost difference (including installation) between a non-time of use meter and a time of use meter. This Charge is set forth in the City of Santa Clara Municipal Fee Schedule. The manufacturer and model of such meter shall be at the sole discretion of Silicon Valley Power. Time of use periods are as set forth below:

Peak Period: Monday through Saturday, except NERC (North American Electric Reliability Corporation) Holidays (New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day), beginning at 6:00 AM and ending at 10:00 PM.

Off-Peak Period: All other hours.

The TOU meter is used to measure kWh and kW in the peak and off-peak periods.

(F) PRIMARY VOLTAGE DISCOUNT:
When delivery is made at the same voltage as that of the distribution line from which the service is supplied, a discount of $1.52 per kW of Billing Demand for 12kV or higher available line voltages will be allowed, provided, however, Silicon Valley Power is not required to supply service at a particular line voltage where it has (or will install) ample facilities for supplying at another voltage equally or better suited to the customer's electrical requirements. Silicon Valley Power retains the right to change its line voltage at any time, after reasonable advance notice to any customer receiving a discount hereunder and affected by such change, and such customer then has the option to change their system so as to receive service at the new line voltage or to accept service (without voltage discount) through transformers to be supplied by Silicon Valley Power.

RATE SCHEDULE CB-3 LARGE GENERAL SERVICE DEMAND METERED	Sheet 3 of 3

(G) POWER FACTOR:
The sum of Customer Charge, Demand Charge, Energy Charge, Primary Voltage Discount (as applicable) for any month as computed on the above rates will be decreased or increased, respectively, by 0.1 % for each 1 % that the average Power Factor is greater or less than 85%. Such average Power Factor to be computed (to the nearest whole percent) from the ratio of lagging kilovolt-ampere-hours to kilowatt- hours consumed in the month, provided, however, that no Power Factor correction will be made for any month when customer's Maximum Demand is less than 10% of the highest demand in the preceding eleven months.

(H) OFF-PEAK DEMAND:
All demand occurring between 10:00 P.M. and 6:00 A.M. of the following day and on Sundays and NERC Holidays will be ignored in determining the Maximum Demand.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE CB-6 LARGE COMBINED GENERAL SERVICE	Sheet 1 of 3

DESCRIPTION OF SERVICE

This Schedule is optional to Customers who occupy one or more demand-metered service addresses served by Silicon Valley Power (SVP), where electric service from SVP is in Customer's name, and where Customer's combined monthly electric billing demand is 5,000 kW or more. Customers with self-generation may also be subject to Schedule SB-1. Customers who select this rate option will need to provide at least one month written notice and continue with this rate option for at least one year.

RATE OPTIONS:	Non Time of Use	Time of Use	
CUSTOMER CHARGE			
For Each Service Address – per meter per month	$468.49	$468.49	
DEMAND CHARGE:			
		Peak	Off-Peak
All kW of Billing Demand, per kW:	$29.52	$29.52	$0.00
ENERGY CHARGE:			
First 5,000,000 kWh, per kWh	$0.11233	$0.12255	$0.10763
Next 10,000,000 kWh, per kWh	$0.10931	$0.11953	$0.10460
Next 5,000,000 kWh, per kWh	$0.10323	$0.11346	$0.09853
Over 20,000,000 kWh, per kWh	$0.09413	$0.10436	$0.08944

SURCHARGES:

Public Benefits Charge and State Surcharge, as set forth in Note E, will be added to the above charges.

NOTES:

(A) MAXIMUM DEMAND

The Maximum Demand in any month will be the sum of the highest average kW delivery, at each service address, of any 15-minute interval occurring between 1:00 PM and 10:00 PM Monday through Saturday, excluding holidays. However, in case the load is intermittent or subject to violent fluctuations, Silicon Valley Power may use a 5-minute interval instead of a 15-minute interval.

(B) BILLING DEMAND

The Billing Demand to be used in computing charges under this schedule will be sum of the mean of the actual Maximum Demand for the current month at each service address and the highest such demand occurring in the year ending with the current month at each service address, but not less than 5,000 kw.

(C) VOLTAGE ADJUSTMENT:

For each Service Address served at less than 12,000 volts, the Demand Charge will be increased by $1.52 per kW. For each Service Address served at 60,000 volts directly from a customer owned

substation or from a SVP-owned substation directly paid for by customer, the Demand Charge will be reduced by $1.90 per kW. However, Silicon Valley Power is not required to supply service at a particular line voltage where it has (or will install) ample facilities for supplying at another voltage equally or better suited to the customer's electrical requirements. Silicon Valley Power retains the right to change its line voltage at any time, after reasonable advance notice to any customer receiving a discount hereunder and affected by such change, and such customer then has the option to change their system so as to receive service at the new line voltage or to accept service (without voltage discount) through transformers to be supplied by Silicon Valley Power.

(D) POWER FACTOR:

For each service address where Billing Demand has exceeded 300 kW for three consecutive months, bills will be adjusted for weighted monthly average Power Factor as follows: the sum of Customer Charge, Demand Charge, Energy Charge, Secondary Voltage Adjustment (as applicable) and 60kV Delivery Adjustment (as applicable) for any month as computed on the above rates will be decreased or increased, respectively, by 0.1 % for each 1 % that the average Power Factor is greater or less than 85%. Such average Power Factor to be computed (to the nearest whole percent) from the ratio of lagging kilovolt-ampere-hours to kilowatt- hours consumed in the month, provided, however, that no Power Factor correction will be made for any month when the Maximum Demand of such service address, is less than 10% of the highest demand in the preceding eleven months.

Power Factor Adjustment will be discontinued for any service address that falls below 200 kW for 12 consecutive months.

(E) SURCHARGES:

PUBLIC BENEFITS CHARGE:

The Public Benefits Charge is a state required non-bypassable surcharge on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy, and low income assistance programs. The surcharge is equal to the sum of the Customer Charge, Demand Charge, Energy Charge, Voltage and Power Factor Adjustment, times 0.0285.

STATE SURCHARGE:

The State Surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to kWh billed times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(F) CALCULATION OF ENERGY CHARGES AT EACH SERVICE ADDRESS:

RATE SCHEDULE CB-6 LARGE COMBINED GENERAL SERVICE	Sheet 3 of 3

The energy charges calculated under this Schedule CB-6 will be apportioned to each service address as follows:

1. Energy Charges for each service address will be determined as the ratio of the kWh usage at each service address divided by the sum of kWh usage at all applicable service addresses.
2. After such apportionment, each service address will be subject to the applicable Voltage Adjustment, Power Factor Adjustment, Public Benefits Charge and State Surcharge provisions set forth above.
3. Payment for bills rendered at each service address shall be made by wire transfer, automated clearing house (ACH) transfer, check or credit card. Payments made by credit card will be subject to the applicable credit card transaction fees.

(G) TIME OF USE OPTION:

Customers who select the time of use option will need to provide at least one month written notice and continue with this option for at least one year. Customers who select the time of use option will pay a one-time TOU Meter Installation Charge, which reflects the cost difference (including installation) between a non-time of use meter and a time of use meter. This Charge is set forth in the City of Santa Clara Municipal Fee Schedule. The manufacturer and model of such meter shall be at the sole discretion of Silicon Valley Power. Time of use periods are as set forth below:

Peak Period: Monday through Saturday, except holidays (New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day), beginning at 1:00 PM and ending at 10:00 PM.

Off-Peak Period: All other hours. The TOU meter is used to measure kWh and kW in the peak and off-peak period.

CITY OF SANTA CLARA

RATE SCHEDULE CB-7 LARGE COMBINED GENERAL SERVICE – MARKET BASED OPTION	Sheet 1 of 6

DESCRIPTION OF SERVICE

This Schedule is optional to Customers who occupy one or more demand-metered service addresses served by Silicon Valley Power (SVP), where electric service from SVP is in Customer's name, and where Customer's combined monthly electric billing demand is 5,000 kW or more. Customers with self-generation may also be subject to Schedule SB-1. Under this Schedule, Customers may designate a portion of their monthly energy purchased from SVP to be priced based on Note H. Customer who select this rate option will continue with this option for the full kWh volume subscribed for at least one year. Customer must also provide at least three months' written notice to terminate this option and to be billed under other applicable rate schedule. The total combined energy for all SVP customers that may be served under this rate schedule is 30,000,000 kWh per month.

RATE OPTIONS:	Non Time of Use	Time of Use	
CUSTOMER CHARGE			
For Each Service Address – per meter per month	$468.49	$468.49	
DEMAND CHARGE:			
		Peak	Off-Peak
All kW of Billing Demand, per kW:	$29.52	$29.52	$0.00
ENERGY CHARGE:			
First 5,000,000 kWh, per kWh	$0.11233	$0.12255	$0.10763
Next 10,000,000 kWh, per kWh	$0.10931	$0.11953	$0.10460
Next 5,000,000 kWh, per kWh	$0.10323	$0.11346	$0.09853
Over 20,000,000 kWh, per kWh	$0.09413	$0.10436	$0.08944
MARKET-BASED PRICING ADJUSTMENT:		See NOTE H	

SURCHARGES:

Public Benefits Charge and State Surcharge, as set forth in Note E, will be added to the above charges.

NOTES:

(A) MAXIMUM DEMAND

The Maximum Demand in any month will be the sum of the highest average kW delivery, at each service address, of any 15-minute interval occurring between 1:00 PM and 10:00 PM Monday through Saturday, excluding holidays. However, in case the load is intermittent or subject to violent fluctuations, Silicon Valley Power may use a 5-minute interval instead of a 15-minute interval.

(B) BILLING DEMAND

The Billing Demand to be used in computing charges under this schedule will be sum of the mean of the actual Maximum Demand for the current month at each service address and the highest such

demand occurring in the year ending with the current month at each service address, but not less than 5,000 KW.

(C) VOLTAGE ADJUSTMENT:

For each Service Address served at less than 12,000 volts, the Demand Charge will be increased by $1.52 per kW. For each Service Address served at 60,000 volts directly from a customer owned substation or from a SVP-owned substation directly paid for by customer, the Demand Charge will be reduced by $1.90 per kW. However, Silicon Valley Power is not required to supply service at a particular line voltage where it has (or will install) ample facilities for supplying at another voltage equally or better suited to the customer's electrical requirements. Silicon Valley Power retains the right to change its line voltage at any time, after reasonable advance notice to any customer receiving a discount hereunder and affected by such change, and such customer then has the option to change their system so as to receive service at the new line voltage or to accept service (without voltage discount) through transformers to be supplied by Silicon Valley Power.

(D) POWER FACTOR ADJUSTMENT:

For each service address where Billing Demand has exceeded 300 kW for three consecutive months bills will be adjusted for weighted monthly average Power Factor as follows: the sum of Customer Charge, Demand Charge, Energy Charge, Secondary Voltage Adjustment (as applicable) and 60kV Delivery Adjustment (as applicable) for any month as computed on the above rates will be decreased or increased, respectively, by 0.1 % for each 1 % that the average Power Factor is greater or less than 85%. Such average Power Factor to be computed (to the nearest whole percent) from the ratio of lagging kilovolt-ampere-hours to kilowatt- hours consumed in the month, provided, however, that no Power Factor correction will be made for any month when the Maximum Demand of such service address, is less than 10% of the highest demand in the preceding eleven months.

Power Factor Adjustment will be discontinued for any service address that falls below 200 kW for 12 consecutive months.

(E) SURCHARGES:

PUBLIC BENEFITS CHARGE:

The Public Benefits Charge is a state required non-bypassable surcharge on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy, and low income assistance programs. The surcharge is equal to the sum of the Meter Charge and Capacity Reservation Charge, times 0.0285.

STATE SURCHARGE:

The State Surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to kWh billed times the State Surcharge Rate. The current State

Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(F) CALCULATION OF ENERGY CHARGES AT EACH SERVICE ADDRESS:
The energy charges calculated under this Schedule CB-7 will be apportioned to each service address as follows:

1. Energy Charges for each service address will be determined as the ratio of the kWh usage at each service address divided by the sum of kWh usage at all applicable service addresses.
2. After such apportionment, each service address will be subject to the applicable Voltage Adjustment, Power Factor Adjustment, Public Benefits Charge and State Surcharge provisions set forth above.
3. Payment for bills rendered at each service address shall be made by wire transfer, automated clearing house (ACH) transfer, check or credit card. Payments made by credit card will be subject to the applicable credit card transaction fees.

(G) TIME OF USE OPTION:
Customers who select the time of use option will need to provide at least one month written notice and continue with this option for at least one year. Customers who select the time of use option will pay a one-time TOU Meter Installation Charge, which reflects the cost difference (including installation) between a non-time of use meter and a time of use meter. This Charge is set forth in the City of Santa Clara Municipal Fee Schedule. The manufacturer and model of such meter shall be at the sole discretion of Silicon Valley Power. Time of use periods are as set forth below:

Peak Period: Monday through Saturday, except holidays (New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day), beginning at 1:00 PM and ending at 10:00 PM.

Off-Peak Period: All other hours. The TOU meter is used to measure kWh and kW in the peak and off-peak period.

(H) MARKET BASED PRICING ADJUSTMENT (MBPA):
Upon at least 30 days' notice, customers may designate up to 100%, but not less than 2,000,000 kWh of their monthly usage to be priced based on market indices as set forth below. The total combined amount of energy that may be available (Total Available) to all Customers under this MBPA shall be determined solely by SVP and it's on a first come first serve basis. SVP shall give 90 days' notice of any change in such total amount, and endeavor to make such changes effective January 1 of each calendar year. If the Total Available is changed to an amount lower than actually being allowed, SVP will reduce existing customers' allowable amounts on a prorated basis, and this schedule will be closed to new customers.

RATE SCHEDULE CB-7 LARGE COMBINED GENERAL SERVICE – MARKET BASED OPTION	Sheet 4 of 6

Market Based Pricing Adjustment is calculated as the Market Cost Adjustment Rate times the full kWh subscribed under this rate option. The Market Cost Adjustment Rate is the Current Market Cost of Energy minus the Base Energy Rate. Such difference may be positive or negative.

The Current Market Cost of Energy is determined as set forth in the CB-7 Market Based Option Bill Determinants attached here and as posted. The Current Market Cost of Energy for each calendar month will be sent to Customer served under this option with the monthly bill.

The Base Energy Rate is reflected in the above Energy Charge rates, and is SVP's determination of the annualized unit cost that a creditworthy customer would incur for receiving bundled energy with renewable and GHG characteristics from publicly owned energy service providers like SVP. The Base Energy Rate will be updated annually in conjunction with changes in the Energy Charge rates.

The Market Based Pricing Adjustment, which can be positive or negative, will be applied to the Energy Charge prior to Voltage Adjustment, Power Factor Adjustment and Surcharges.

.

RATE SCHEDULE CB-7 LARGE COMBINED GENERAL SERVICE – MARKET BASED OPTION	Sheet 5 of 6

CB-7 MARKET BASED OPTION BILL DETERMINANTS

The total combined amount of energy that is available (Total Available) to all Customers under MBPA for Calendar Year 2026 is **30,000,000 kWh per month**.

Base Energy Rate for Calendar Year 2026 is $0.08753 per kWh.

Current Market Cost of Energy includes:

1. PG&E Hourly DLAP Price which is the CAISO DLAP_PGAE - APND for the Day Ahead Market (DAM). If any hourly DLAP Price is less than zero, the effective DLAP price for such hour shall be zero.

2. Transmission loss which is 2% of PG&E Hourly DLAP price calculated above.

3. CAISO High Voltage Transmission Access Charge ("HV TAC") for month ($/MWh)

   The CAISO HV TAC price is the daily average PG&E effective HV TAC rate for Santa Clara for the applicable month, and is obtained using the following site(s) information:

   http://www.caiso.com/market/Pages/Settlements/Default.aspx

4. CAISO Low Voltage Transmission Access Charge ("LV TAC") price is the daily average PG&E effective LV TAC rate for Santa Clara for the applicable month, and is obtained using the following site(s) information:

   http://www.caiso.com/market/Pages/Settlements/Default.aspx.

5. Market Price of Renewable Energy Credit =

   Market price of RECs for Month * 50% (SVP applicable RPS percentage for current compliance year)

   The average monthly market price of RECs is obtained using the following site(s) information:

   The data for California Bucket 1, 2, and 3 RECs are obtained from Megawatt Daily. The average monthly market price is then calculated based on SVP weighted average for Bucket 1, 2 and 3 RECs. For current compliance year, the Bucket 1 is 75%, Bucket 2 is 15% and Bucket 3 is 10%.

RATE SCHEDULE CB-7 LARGE COMBINED GENERAL SERVICE – MARKET BASED OPTION	Sheet 6 of 6

6. CAISO Grid Management Charge ("GMC") ($/MWh) = Charge Code 4560 (Market Services Charge) + Charge Code 4561 (System Operations Charge)

   The CAISO GMC is obtained using the following site(s) information (and will be updated as it is updated at the CAISO:

   http://www.caiso.com/market/Pages/Settlements/Default.aspx

   If any of the sources for the above described rate components are no longer available, SVP will diligently seek an alternative but equivalent source for that rate component.

   If new or additional components affect the Current Market Cost of Energy due to new legislation or other circumstances, bill determinants will be added or adjusted to reflecting any impacting mandates or regulations. Customers will be provided notification of such additions or adjustments no less than 30 days prior to implementation. .

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE CB-8 CUSTOMER LOAD RETENTION	Sheet 1 of 1

DESCRIPTION OF SERVICE

This rate schedule is available to customers eligible for service under Schedules CB-6 or CB-7 who, but for the provisions of this rate schedule, would cease operations in the City of Santa Clara, and would not engage in any substantially similar operation in the State of California for a period of at least five years. Customer must submit a signed affidavit attesting to this effect. The cumulative maximum billing demand for all SVP customers that may be served under this rate schedule at any one time is 20,000 kW.

RATES:

Customers' bills under Schedule CB-6 or CB-7, prior to Public Benefit Charge and State Surcharge, will be reduced by up to 12% for a period of not more than five years. The effective percentage reduction and the term of such percentage reduction, will be as approved by the Chief Electric Utility Officer.

NOTES:

1. Marginal Cost to Serve:
   In no event shall service under this rate schedule result in customer being served at less than SVP's marginal cost of providing service to said customer.

2. Forfeiture of Discounts:
   If a customer fails to comply with the terms of this rate schedule, SVP will seek repayment of the dollar amount of all discounts provided under this rate schedule.

3. First Come, First Served:
   This rate schedule is available on a first come, first served basis on a monthly basis. However, preference will be given to customers with a long history of doing business in Santa Clara, to customers that help SVP maintain a diversified sales base, and to the number and type of jobs that may be preserved.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE D-1 DOMESTIC SERVICE	Sheet 1 of 2

DESCRIPTION OF SERVICE

This schedule is applicable to single phase residential service for single-family dwellings, condominium house meters, townhouse house meters, cooperative apartment house meters, flats and apartments separately metered by Silicon Valley Power. The Time of Use (TOU) Option is available to all customers. Customers who utilize the TOU option will be responsible for the installed cost of a TOU meter, as set forth in Note (B) below.

This schedule is not applicable for services to common areas of apartment houses.

RATES:	Non-Time of Use	Time of Use Option
METER CHARGE, per meter per month	$5.11	$5.11

ENERGY CHARGE (to be added to the Customer Charge)

	Non-Time of Use	Time of Use Option	
		Peak	Off-Peak
First 300 kWh, per kWh	$0.15612	$0.17960	$0.13690
Excess Over 300 kWh, per kWh	$0.17946	$0.20295	$0.16023

SURCHARGES

Public Benefits Charge and State Surcharge, as set forth in Note A, will be added to the above charges.

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE: The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy and low income assistance programs. The surcharge is equal to the sum of the Meter Charge and the Energy Charge times 0.0285.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to kWh billed times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

RATE SCHEDULE D-1 DOMESTIC SERVICE	Sheet 2 of 2

(B) TIME OF USE (TOU) OPTION:

Customers who select the time of use option will pay a one-time TOU Meter Installation Charge, which is the cost of a TOU meter, plus its installation cost. This Charge is set forth in the City of Santa Clara Municipal Fee Schedule. The manufacturer and model of such meter shall be at the sole discretion of Silicon Valley Power. Time of use periods are as set forth below:

Peak Period: Monday through Saturday, except holidays (New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day), beginning at 6:00 AM and ending at 10:00 PM.

Off-Peak Period: All other hours.

The TOU meter is used to measure kWh usage in the peak and off-peak periods. The ratio of peak kWh to total kWh will be used to determine the portion of the First 300 kWh that falls in the peak period. This ratio will also be used to determine the portion of kWh usage above 300 kWh that falls in the peak period.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE IC IRRIGATION CONTROLLER SERVICE	Sheet 1 of 2

APPLICATION:
This schedule is applicable to non-metered service to irrigation controller or sprinkler controllers located either in public streets, highways, and places, or private areas.

RATES:

SERVICE CHARGE:

For each sprinkler or irrigation controller	$10.36 per unit per month
MINIMUM CHARGE:	$10.36 per month

SURCHARGES:

Public Benefits Charge and State Surcharge, as set forth in Note A, are included in the above charge.

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy, and low income assistance programs. The surcharge is equal to 2.85% of the otherwise applicable rate.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to estimated kWh per controller times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(B) TYPE OF SERVICE:
Energy will be supplied at 120 volts, single phase, two wire service. Where only other voltages are available, applicant shall pay, in advance, Silicon Valley Power's cost to convert from the available voltage to 120 volts.

(C) POINT OF DELIVERY:
Delivery will be made from Silicon Valley Power's existing electric lines at a point mutually agreed upon, without extension thereof to customer's system.

RATE SCHEDULE IC IRRIGATION CONTROLLER SERVICE	Sheet 2 of 2

(D) SERVICE CONNECTION:
Silicon Valley Power will provide overhead or underground service in accordance with the current Rules and Regulations for Electric Service. However, applicant shall pay to Silicon Valley Power, in advance, the amount, if any, by which Silicon Valley Power's costs to provide underground service exceeds its cost to provide an overhead service.

(E) MAINTENANCE:
Maintenance will be performed by the customer.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE SL-1 STREET AND HIGHWAY LIGHTING	Sheet 1 of 4

APPLICATION:
This schedule is applicable for service to street and highway lighting systems which illuminate publicly-dedicated streets and highways by means of incandescent filament, mercury vapor, or high pressure sodium vapor lamps. This schedule is applicable only to those instances where the customer owns the lighting fixtures, street light supporting structure and interconnecting circuits.

CLASSES OF SERVICES OFFERED:

Class A. Silicon Valley Power provides energy and switching* only.

Class B. Silicon Valley Power provides energy, switching* and maintenance service for lamps and glass.

Class C. Silicon Valley Power provides energy, switching* and maintenance service for complete lighting system.

BURNING SCHEDULE: All night (unless otherwise specified).

RATES (Per Lamp)

Incandescent Lamps		kWh\lamp	Class A	Class B	Class C	Half-hour Adjustment (All Classes)
4,000 lumens		94	$29.41	$32.12	$33.72	$0.710
6,000 lumens		130	$41.52	$44.11	$46.04	$0.970
Mercury Vapor Lamps						
Watts	Initial lumens					
175	7,500	61	$22.31	$23.70	$25.90	$0.500
250	11,000	88	$30.82	$32.55	$34.81	$0.680
400	21,500	140	$46.92	$48.51	$50.69	$1.050
700	37,000	245	$77.96	$81.21	$83.49	$1.820
1,000	57,000	350	$110.28	$113.14	$115.32	$2.550

* Switching Service is closed to new installations.

RATE SCHEDULE SL-1 STREET AND HIGHWAY LIGHTING	Sheet 2 of 4

High Pressure Sodium Vapor Lamps

Watts	Initial lumens	kWh\lamp	Class A	Class B	Class C	Half-hour Adjustment (All Classes)
100	8,500	35	$11.74	$14.57	$16.72	$0.310
150	16,000	53	$21.90	$25.24	$26.93	$0.490
250	30,000	88	$34.03	$41.28	$43.44	$0.750
400	50,000	140	$49.15	$54.12	$56.36	$1.120

SURCHARGES:
The above rates include an adjustment for a Public Benefits Charge and State Surcharge as defined in Note A.

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy, and low income assistance programs. The surcharge is equal to 2.85% of the otherwise applicable rate.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to kWh billed times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(C) TYPE OF SERVICE:
This rate schedule is applicable to multiple street lighting systems. Multiple current will be supplied at nominal voltage level of 120/240 volts or 120/208 volts at the discretion of Silicon Valley Power, three-wire, single phase.

(D) ANNUAL OPERATING SCHEDULES:
The above rates for All-Night service assume 11 hours operation per night and apply to lamps which will be turned on and off once each night in accordance with a regular operating schedule agreeable to the customer but not exceeding 4,100 hours per year.

(E) OPERATING SCHEDULES OTHER THAN ALL-NIGHT:
Rates for regular operating schedules other than full all-night will be the All-Night rate plus or minus, respectively, the half-hour adjustment for each half-hour more or less than an average of 11 hours per night. This adjustment will apply only to lamps on regular operating schedules of not less than 1,095 hours per year, or 3 hours per night, nor more than 4,500 hours per year.

(F) OVERHEAD DELIVERY POINT:
Delivery will be made from Silicon Valley Power's existing overhead lines without extension to the customer's system or at a point mutually agreed upon, not to exceed 150 feet except in special situations at Silicon Valley Power's convenience. Silicon Valley Power will provide at its expense an overhead service drop to a customer-owned inter-connected group of lamps having a connected load of not less than 2 kW. For a customer-owned inter-connected group of lamps having a connected load of less than 2 kW or individual customer electroliers with a self-contained photo cell switch, Silicon Valley Power will connect the customer's overhead service wire to Silicon Valley Power's overhead lines at the customer's expense.

(G) UNDERGROUND SERVICE:
Silicon Valley Power will provide underground service connection to a mutually agreed upon point from its overhead or underground system to one electrolier of each group of interconnected electroliers provided that the lighting system has been arranged for the least number of practical service points, there is at least 3 kW of connected load, and there are at least ten electroliers in the group. This service connection shall not exceed 25 feet from the base of the Silicon Valley Power pole in an overhead line or 40 feet of an underground line. In the event distances exceed 25 feet from a pole in an overhead system or 40 feet in an underground system, customer shall pay to Silicon Valley Power the actual expense of extending the underground feeder circuitry to the point of connection to Silicon Valley Power's overhead or underground system. In the event the customer requests service to a system of less than 10 electroliers, or less than 3 kW of connected load, customer shall install and own the extension from his system to Silicon Valley Power's distribution system and shall pay Silicon Valley Power the actual costs of connection to the system.

(H) MAINTENANCE:
Class B and C rates include all labor and material necessary for the cleaning or replacement of lamps and glassware, but is limited to glassware such as is commonly used and manufactured in reasonably large quantities. Charges will be made for lamps or glassware requiring replacement more than two (2) times in one year. Under Class C rates Silicon Valley Power will also isolate any trouble in customer's system which has resulted in outages or diminished light output. Silicon Valley Power will make necessary repairs without replacement on accessible wiring between poles and on equipment and wiring in and on poles to keep the system in

operating condition. Silicon Valley Power will provide labor for the replacement of material such as ballast's, photo-electric controls, relays, fixtures, individual poles, individual cable runs between poles where such runs are in conduit, and other individual parts of the system. The customer shall compensate Silicon Valley Power for any materials furnished. The Class C rate does not provide for any major excavation or any major replacement at Silicon Valley Power's expense of circuits, conduits, poles or fixtures owned by the customer.

This schedule does not provide for maintenance to low pressure sodium vapor or metal halide lamps; however, at the request of the customer, Silicon Valley Power will perform any of the routine maintenance described above on a time and material cost basis provided Silicon Valley Power's regular standard maintenance equipment and procedures can be used.

(I) LAMPS OTHER THAN STANDARDS:
Lamps other than the standard types and wattages referred to above may be used in Class A service only and will be billed at an average rate per watt per month of $ 0.15. LED street lighting falls in this category.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE SL-2 PRIVATE OUTDOOR AREA LIGHTING SERVICE	Sheet 1 of 3

APPLICATION
This schedule is applicable to private all night outdoor area lighting service which illuminates privately-owned lands and property supplied from an overhead source. This schedule is applicable only to those instances where Silicon Valley Power installs, owns and maintains all facilities required to service in accordance with the Municipal Code of the City of Santa Clara and the Rules and Regulations for Electric Service. Service to lamps hereunder shall be continuous and temporary disconnection shall not be made.

BURNING SCHEDULE:
Each lamp shall be turned on and off once each night from dusk to dawn in accordance with a regular burning schedule, not to exceed forty-one hundred (4,100) hours per year.

RATES:

	Rate per Lamp Per Month
250 Watt mercury-vapor floodlight or 150 Watt high pressure sodium vapor floodlight	$47.39

This rate schedule is applicable to alternating current service at a frequency of approximately 60 cycles, 120 or 240 volts, single phase. The 250 Watt mercury-vapor floodlamp type luminaire shall be mounted from a bracket attached or supported to Silicon Valley Power-owned wood poles and actuated by a photo-electric cell.

SURCHARGES:
Public Benefits Charge and State Surcharge, as defined below in Note A, is included in the above charge.

Public Benefits Charge	$1.34
State Surcharge	$0.02
Total	$1.36 per Lamp

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy, and low income assistance programs. The surcharge is equal to 2.85% of the otherwise applicable rate.

STATE SURCHARGE:
The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to estimated kWh per lamp times the State Surcharge Rate. The

current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(B) BILLING:
Presentation of billing shall coincide with that of the customer's primary premise account, where such account exists at the same location and no bill will be rendered for the first partial month of service. If the customer does not have a primary premise account, a monthly bill shall be prepared and presented in accordance with the rate and terms of this schedule.

No credit will be given for non-burning lamp time resulting from a fixture failure of any cause which is repaired by Silicon Valley Power in a reasonable period of time. No billing shall be apportioned among two or more customers or tenants. At the customer's option, charges may be paid in advance.

(C) CONTRACTS:
When service is requested by a tenant under this schedule, Silicon Valley Power may require the property owner(s) to enter into a contract with Silicon Valley Power concerning placement of special lighting facilities before service is established.

(D) NOTIFICATION AND REMOVAL:
The latest effective Schedule SL-2 is applicable until canceled on thirty (30) days prior written notice by the customer, or by Silicon Valley Power, at which time the light will be removed.

(E) INSTALLATION - MATERIALS AND MAINTENANCE:
Silicon Valley Power will not install floodlight luminaries for private use at the rate established in this schedule on anything but Silicon Valley Power's wood poles, supporting lines and guys existing on easement for Silicon Valley Power facilities.

Silicon Valley Power will not install any material for private use other than the floodlight, mastarm or bracket, and necessary wire, moulding and other materials necessary to connect energy to the floodlight from the secondary line. Said installation shall not exceed an extension of ten (10) feet, including the mastarm or bracket from the pole measured at right angles to the secondary line.

Upon receipt of notice from a customer of the failure of a lamp to operate as scheduled, Silicon Valley Power will, within a reasonable period of time, make the necessary repairs during normal working hours. It shall be the responsibility of the customer to notify Silicon Valley Power of any malfunctions.

(F) EXTENDING SECONDARY:
Silicon Valley Power shall extend its secondary lines one span to supply energy not to exceed 150 feet to the mercury-vapor floodlight at the basic rate in this schedule at no extra cost to the customer.

Additional extensions of secondary facilities shall be limited to three spans, but not to exceed six hundred

RATE SCHEDULE SL-2 PRIVATE OUTDOOR AREA LIGHTING SERVICE	Sheet 3 of 3

(600) feet total. The cost of the material, labor and equipment for such extension shall be computed and added to the billing for the first month.

(G) RELOCATION:
Silicon Valley Power shall, upon customer's written request, relocate its lighting facilities, provided that the customer reimburses Silicon Valley Power for all costs incurred by Silicon Valley Power to complete such relocation.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE TC **TRAFFIC CONTROL SERVICE**	**Sheet 1 of 2**

APPLICATION:
This schedule is applicable to non-metered service for traffic directional sign or signal lighting systems owned by governmental agencies and located on outdoor publicly owned street, highways and places.

RATES:

SERVICE CHARGE:

For each Standard Service Connection:	$31.11 per 2 or 3-signal head per month
	$31.11 per pedestrian signal unit per month
Minimum Charge:	$31.11 per month
For each Red LED Service Connection:	$22.71 per 2 or 3-signal head per month
	$22.71 per pedestrian signal unit per month
Minimum Charge:	$22.71 per month
For each Red and Green LED Service Connection:	$16.47 per 2 or 3-signal head per month
	$16.47 per pedestrian signal unit per month
Minimum Charge:	$16.47 per month

SURCHARGES:

Public Benefits Charge and State Surcharge, as defined below in Note A, are included in the above charges.

	Standard	Red LED	Red + Green LED
Public Benefits Charge	$0.85	$0.55	$0.48
State Surcharge	$0.01	$0.01	$0.00
Total	$0.86	$0.56	$0.48

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, and low income assistance programs. The surcharge is equal to 2.85% of the otherwise applicable rate.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The amount included is equal to estimated kWh per signal head times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

RATE SCHEDULE TC TRAFFIC CONTROL SERVICE	Sheet 2 of 2

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(B) TYPE OF SERVICE:
Energy will be supplied at 120/240 volt single phase service (120/208 volts star in certain localities) unless the customer pays the additional initial cost of a 277/480 volt supply. However, service at 277/480 volts from underground systems will be made available only for new services at the option of Silicon Valley Power when this type of service is practical from Silicon Valley Power's engineering standpoint.

(C) POINT OF DELIVERY:
Delivery will be made from Silicon Valley Power's existing electric lines at a point mutually agreed upon, without extension thereof to customer's system.

(D) SERVICE CONNECTION:
Silicon Valley Power will provide, at its expense, an overhead service drop to the customer-owned system; however, where the customer requests and underground service the customer will install and own the extension from his system to the Silicon Valley Power's nearest junction box or to the base of the pole where service is readily available and will pay the amount, if any, by which the cost of connecting to the Silicon Valley Power's distribution system exceeds the cost of an overhead service drop.

(E) METERING:
Each point of delivery will be billed separately.

(F) SWITCHING AND MAINTENANCE:
Switching and maintenance will be performed by the customer.

CITY OF SANTA CLARA
SILICON VALLEY POWER

RATE SCHEDULE TS-1 NON-METERED TRANSIT SHELTER ADVERTISEMENT LIGHTING	Sheet 1 of 1

DESCRIPTION OF SERVICE:
This rate schedule is applicable to non-metered service provided for transit shelter advertisement lighting on public streets, highways, other public places, and private areas. Under this schedule, each transit shelter with a lighted advertisement feature shall contain no more than a single six-foot, four-lamp high-output fluorescent lighting fixture, or equivalent fixture with a wattage rating of not more than 385 watts, and shall be photosensor controlled so as to provide illumination from dusk to dawn.

RATES:

For each Transit Shelter Advertisement Lighting Fixture	$48.91 per fixture per month

SURCHARGES:
Public Benefits Charge and State Surcharge, as set forth below in Note A, is included in the above charge.

Public Benefits Charge	$1.36
State Surcharge	$0.02
Total	$1.38 per fixture

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy, and low income assistance programs. The amount included is equal to 2.85% of the otherwise applicable rate.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to estimated kWh per shelter times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(B) POINT OF DELIVERY:
Delivery will be made from Silicon Valley Power's existing electric lines at a point mutually agreed upon, without extension thereof to customer's system.

(C) MAINTENANCE:
Maintenance will be performed by the customer.

Date Effective: January 1, 2026	**Resolution No. 25-**
Supersedes Rate Effective: January 1, 2025	**Resolution No. 24-9400**

SILICON VALLEY POWER

RATE SCHEDULE PA-E ELECTRIC SERVICE TO COMMUNICATIONS ATTACHMENTS TO SVP POLES	Sheet 1 of 2

APPLICABILITY:
This schedule is applicable to unmetered service to telecommunications equipment mounted on SVP-owned poles. Electric usage at each electric connection will be determined as set forth in Note (F) below.

RATES:

CUSTOMER CHARGE:

For each electric connection, per month	$5.52

ENERGY CHARGE (in addition to the Customer Charge):

First 800 kWh, per kWh	$0.26620
Excess over 800 kW, per kWh	$0.24166

SURCHARGES:

Public Benefits Charge and State Surcharge, as set forth in Note A, will be added to the above charges.

NOTES:

(A) SURCHARGES:

PUBLIC BENEFITS CHARGE:
The Public Benefits Charge is a state required non-bypassable surcharge imposed on all sales of electricity and electrical services. It is used to fund public goods research, development, and demonstration, as well as, energy efficiency activities, renewable energy, and low income assistance programs. The surcharge is equal to 2.85% of the otherwise applicable rate.

STATE SURCHARGE: The state surcharge is required by California state law, and supports funding for the California Energy Commission. The surcharge is equal to estimated kWh per controller times the State Surcharge Rate. The current State Surcharge Rate can be found on SVP's website at:

http://www.siliconvalleypower.com/svp-and-community/rules-and-regulations

(B) TYPE OF SERVICE:
Energy will be supplied at 120 volts, single phase, two wire service. Where only other voltages are available, applicant shall pay, in advance, Silicon Valley Power's cost to convert from the available voltage to 120 volts.

RATE SCHEDULE PA-E ELECTRIC SERVICE TO COMMUNICATIONS ATTACHMENTS TO SVP POLES	Sheet 2 of 2

(C) POINT OF DELIVERY:
Delivery will be made from Silicon Valley Power's existing electric lines at a point mutually agreed upon, without extension thereof to customer's system.

(D) SERVICE CONNECTION:
Silicon Valley Power will provide overhead or underground service in accordance with the current Rules and Regulations for Electric Service. However, applicant shall pay to Silicon Valley Power, in advance, the amount, if any, by which Silicon Valley Power's costs to provide underground service exceeds its cost to provide an overhead service.

(E) MAINTENANCE:
Maintenance will be performed by the customer.

(F) DETERMINATION OF ELECTIC USAGE:

The amount of electric usage subject to the Energy Charge shall be determined as the product of the rated capacity, expressed in kilowatts, of Customer’s communications equipment served at each connection point times 730. Customer shall be responsible for notifying SVP at least 60 days prior to making any equipment change that would increase or decrease the rated capacity of Customer’s equipment, in order that SVP may make commensurate, timely change to Customer’s billing determinants.

Monthly Bill Comparisons with Proposed 4% Increase

2026 Residential Customer Change			
	Low User (300 kWh)	Average (410 kWh)	High User (1,000 kWh)

Current Rate	$264.16	$93,177	$349,213	$3,044,937	$6,200,997
Proposed Rate	$274.71	$96,901	$363,146	$3,166,600	$6,448,790
Increase	$10.55	$3,724	$13,933	$121,663	$247,793

Rate Comparison with 4% rate increase

Class of Service	SVP Average Rates effective 01/01/26 ($/kwh)*	PG&E Average Total Rates effective 09/01/25 ($/kwh)**	SVP Lower than PG&E ($/kwh)	SVP Lower than PG&E (%)
Residential	D-1 $0.182	E1 $0.422	$0.240	57%
Small Commercial	C-1 $0.269	B-1 $0.433	$0.163	38%
Large Commercial	CB-1 $0.198	B-10S $0.383	$0.185	48%
Small Industrial	CB-1 $0.198	B-19S $0.345	$0.147	43%
Large Industrial	CB-3 $0.179	B-20P $0.266	$0.087	33%
Very Large Industrial	CB-6 $0.159	B-20P $0.266	$0.107	40%

* Average rates based on estimated usage for each class of service, including surcharges. Average rates are provided for general reference. Individual customer's average rate will depend on customer's applicable kw and kwh.

** This comparison does not factor in the additional user tax charge levied in most PG&E service jurisdictions (typically 5%). Santa Clara customers are not charged these additional fees.

25-1645 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT

Public Hearing: Action on a General Plan Amendment to the City's Open Space Element to Add Policies to Address Climate Resilience and Other Co-benefits of Open Space; to Help to Increase Access to Open Space for Everyone; and to Preserve, Enhance, and Expand a Network of Open Spaces.

BACKGROUND

In 2022, the State adopted Senate Bill (SB) 1425, which requires cities and counties to review and update their Open Space elements by January 2026. The Open Space element is meant to catalog the existing unimproved sites within a jurisdiction and the likely disposition of those parcels within the timeframe of the General Plan.

SB 1425 requires cities and counties to update their open space programs to include policies addressing climate resilience and other co-benefits of Open Space, consistent with the jurisdiction's Safety element. This law also requires that jurisdictions address the issue of access to open space for everyone and to preserve, enhance, and expand a network of open spaces. Staff is bringing forth General Plan Amendment to be consistent with State Law requirements.

DISCUSSION

The City's Open Space element goals and policies are primarily contained in Chapter 5.9 of the General Plan. The General Plan defines open space lands as unimproved land which is separately defined from developed and actively managed park facilities. Open Space is defined as:

> Any parcel or area of land or water that is essentially unimproved and devoted to an open space use for the purposes of (1) the preservation of natural resources, (2) the managed production of resources, (3) outdoor recreation or (4) public health and safety.

Geographically, the City is constrained by other cities at its boundaries and is fully developed. Consequently, it has a very limited portfolio of open spaces called out in the General Plan. Amongst the open spaces are Agnews Park, Civic Center Park (the City Hall grounds) and Ulistac Open Space as the only General Plan designated open spaces in the City. Chapter 8.8.4 Public Open Space specifically states:

> Several of the City's prominent civic and community buildings are located within parks, offering open space focused on civic activities. For example, the Agnews Historic Park, on Sun Microsystems/Oracle's Santa Clara campus, provides a peaceful open space that also houses four historic buildings, preserved through a historic easement. Use of these parks is primarily passive; however, they provide an open, landscaped setting for historic resources in the City. Ulistac Natural Area, 40 acres of open space located along the Guadalupe River on Lick Mill

Boulevard, between Tasman Drive and Montague Expressway, showcases seven distinct natural California and wildlife habitats. Only a few parks are classified as public open space, making up a little more than six percent of the City's total park acreage.

The City has two planning efforts underway related to parks, trails and public open spaces. First, the City's Department of Public Works is currently drafting a Creek Trail Network Expansion Master Plan, which is a foundational element of a network of connected open spaces, consistent with SB 1425. Secondly, the City's Parks and Recreation Department is currently drafting a Parks and Recreation Master Plan, which describes priorities for parks facilities and programs over the short and medium term.

Both documents have been reviewed, and locations of potential facilities have been incorporated into an updated Figure 5.9-1, the Parks, Recreation and Open Space Diagram, which is included as Attachment 1.

In response to SB 1425, staff is proposing text language in the Open Space Element relating to open space access and the creation of a linked network of open spaces to strengthen the policies. In addition, resilience policies from the City's adopted Climate Action Plan (2022) have been added to the Open Space policies. New and updated open space policies are included as Attachment 2, with proposed changes underlined.

Planning Commission Discussion

On November 12, 2025 ,the Planning Commission reviewed the Proposed General Plan Amendment. Staff provided a presentation that included providing information on other ongoing City efforts related to Open Space, including the Parks and Recreation Master Plan, the Department of Public Works Creek Trail Network Expansion Master Plan, and the 2024 update to the Climate Action Plan. Staff also described the proposed text changes to the Open Space Goals and Policies and the proposed addition of creek trail alignments from the proposed Creek Trail Network Expansion Master Plan.

The Commission asked about how the proposed General Plan Amendment would interact with the Parkland Dedication Ordinance, and staff clarified that the General Plan Amendment only addressed open space, which is defined as unimproved land, and not parkland. The Commission also asked about the possibility of rooftop open spaces. Staff responded that such open spaces could have additional potential for carbon farming, which is a sustainability idea from the Climate Action Plan, proposed to be highlighted as a part of the Open Space General Plan Amendment.

There was no public input on the General Plan Amendment.

The Commission voted to recommend adoption of the General Plan Amendment (5-0-2, Commissioners Bhatnagar and Cherukuru absent).

Recommendation

The text amendment is presented to the City Council for their consideration and action. The following specific actions are required.

1. Find that the Addendum to the 2010-2035 General Plan Environmental Impact Report (EIR) prepared for the project complies with CEQA, and that the adoption of the Open Space Element Update would not result in environmental impacts beyond those described in the

powered by Legistar™

General Plan EIR and no further analysis is required.

2. Find that the General Plan Text Amendment satisfies the SB 1425 requirements to update open space programs to include policies addressing climate resilience and other co-benefits of Open Space; and that the necessary text edits are consistent with the Parks, Open Space, and Recreation Goals and Policies in the General Plan.

Staff recommends the City Council approve the General Plan Amendment, which includes all the above-described actions, as this amendment will bring the City's General Plan into compliance with the requirements of SB 1425 by helping to create a comprehensive network of open spaces that is accessible to everyone and that helps to reinforce the City's resilience goals.

Alternatively, the City Council has the option to recommend denial of the amendment, or to request modifications.

ENVIRONMENTAL REVIEW

The City prepared an Addendum to the 2010-2035 General Plan Environmental Impact Report (EIR) to cover adoption of this General Plan Amendment.

The Addendum indicates that the adoption of the Open Space Element Update would fall within the scope of the 2010-2035 General Plan EIR, and would not result in new or more severe environmental impacts beyond those described in the General Plan Update EIR.

FISCAL IMPACT

Adoption of the Open Space element update would bring the City's General Plan into compliance with state law, specifically SB 1425. These actions would involve no additional resources beyond those needed to update the General Plan.

COORDINATION

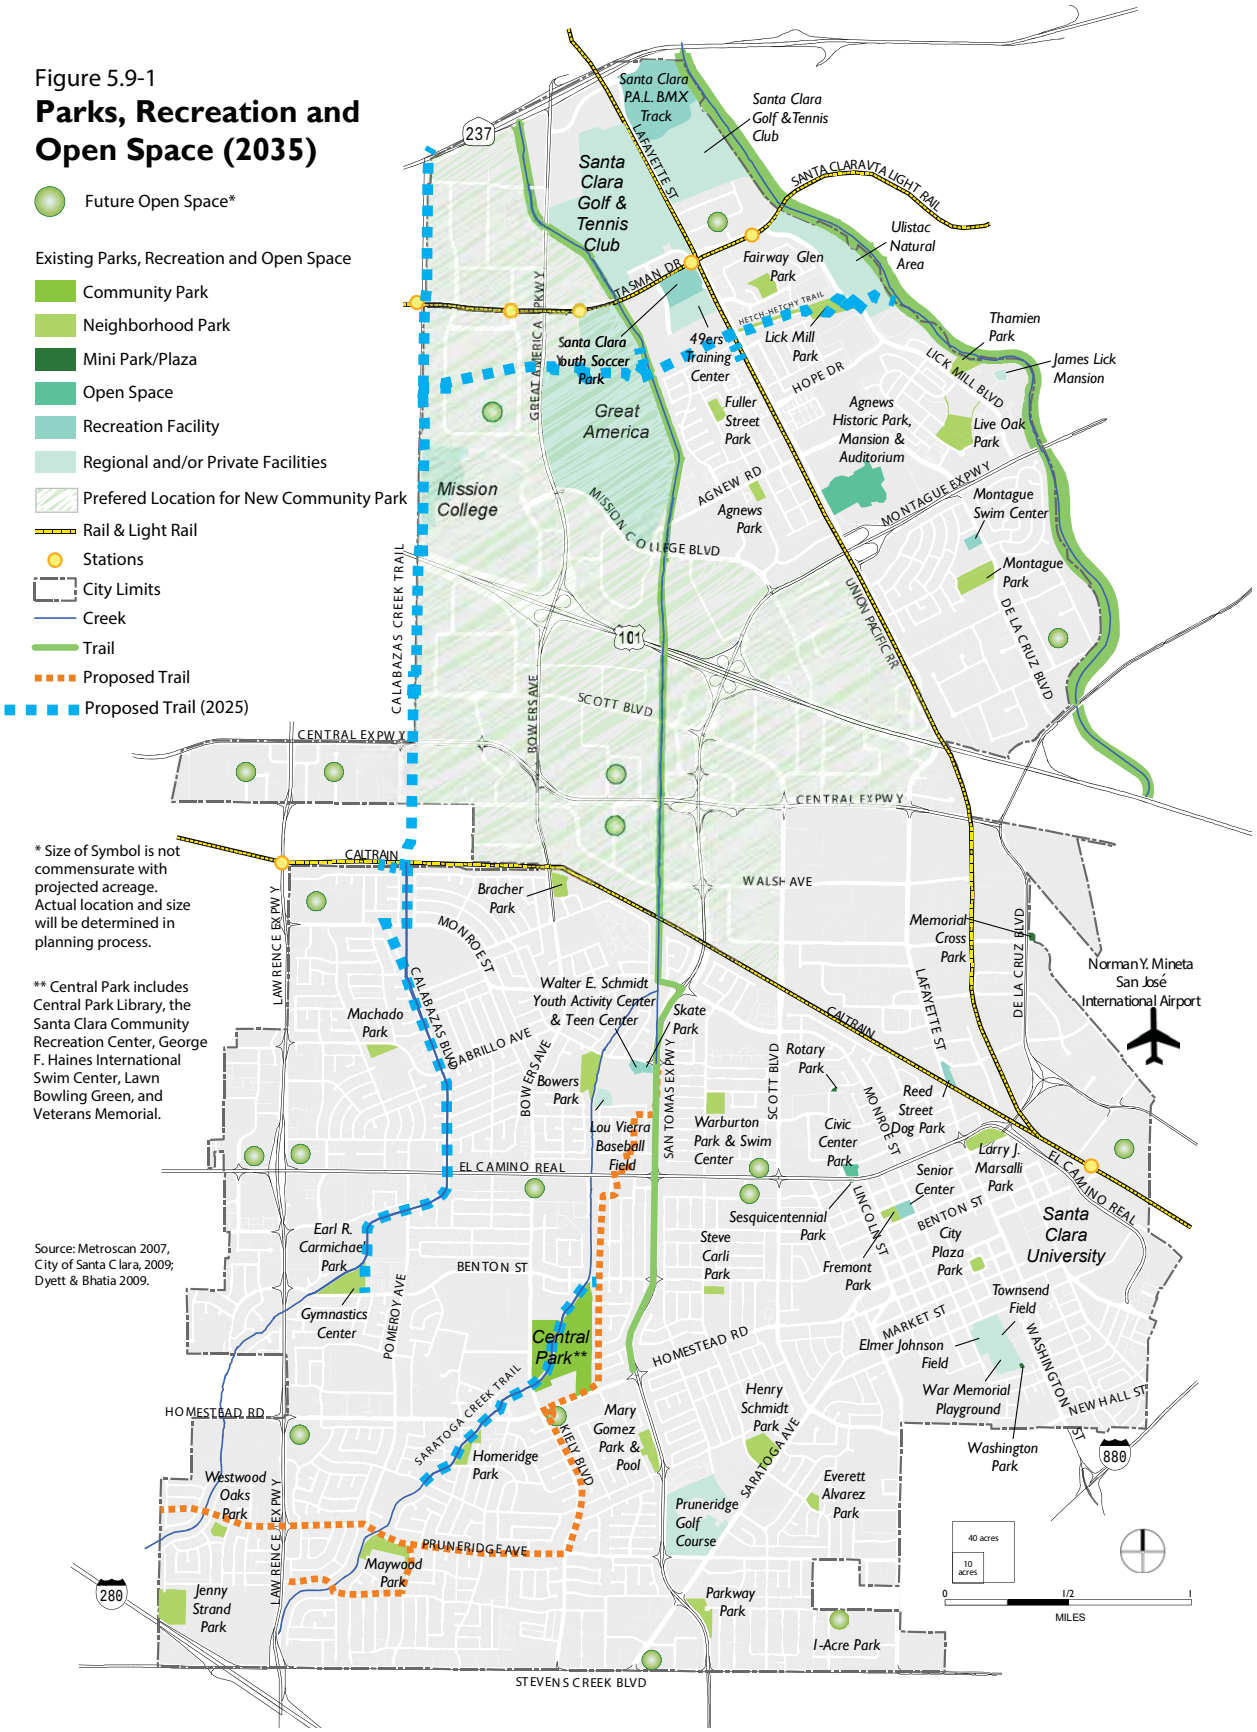
This item was coordinated with the Department of Public Works, the Parks and Recreation Department, and the City Attorney's Office.

PUBLIC CONTACT

A newspaper notice was published in the October 22, 2025, issue of the Santa Clara Weekly describing the proposed adoption of the General Plan Amendment to the Open Space element. Public contact was also made by posting the City Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Find that the Addendum to the 2010-2035 General Plan Environmental Impact Report (EIR) prepared for the project complies with CEQA, and that the adoption of the Open Space Element Update would not result in environmental impacts beyond those described in the General Plan EIR and no further analysis is required.
2. Adopt a Resolution approving the General Plan Text Amendment and find that it satisfies the



SB 1425 requirements to update open space programs to include policies addressing climate resilience and other co-benefits of Open Space; and that the necessary text edits are consistent with the Parks, Open Space, and Recreation Goals and Policies in the General Plan.

Figure 5.9-1

Parks, Recreation and Open Space (2035)

Attachment 2

(Proposed changes are shown as underlined)

New and Updated Open Space Goals and Policies

Goals

5.9.1-G2 Parks, trails and open space that are accessible to everyone by being located within a ten-minute walk to residential neighborhoods and employment centers.

5.9.1-G4 A comprehensive network of park, trail and open space facilities that are accessible to everyone and provide connections to destination points and activity centers within the City.

Policies

5.9.1-P3 Provide a network of trails along creeks and other rights-of-way to link parks, open spaces, bicycle facilities and transit services with residential neighborhoods and employment centers.

5.9.1-P6 Support construction of a network of trails within the City of Santa Clara that connect to the Bay Trail, the Saratoga/San Tomas Aquino Creek and the Guadalupe River trails.

5.9.1-P22 Carbon farming on open space lands. Partner with resource conservation districts to increase carbon farming, creek restoration, wetland restoration, and local offset opportunities in open space lands within the city limits of Santa Clara.

5.9.1-P23 Sustainable planting guide. Support local organizations in developing a planting guide that prioritizes increasing available soil, carbon sequestration, resilience, and other equitably distributed co-benefits.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA TO APPROVE A GENERAL PLAN TEXT AMENDMENT TO UPDATE THE CITY'S GENERAL PLAN OPEN SPACE ELEMENT, CONSISTENT WITH STATE LAW

WHEREAS, in 2022 the state adopted Senate Bill 1425, which requires local jurisdictions to update Open Space Elements of their General Plans to include policies that address climate resilience and other co-benefits of open space, consistent with the jurisdiction's safety element; and

WHEREAS, SB 1425 also requires local jurisdictions to address the issue of access to open space for everyone and to preserve, enhance, and expand a network of open spaces; and,

WHEREAS, the City is currently drafting a Creek Trail Network Expansion Master Plan, and an update to the City's Parks and Recreation Master Plan, both of which are relevant to the update of the Open Space Element; and

WHEREAS, the City has drafted updates to the General Plan Parks, Recreation and Open Space Diagram (Figure 5.9-1 of the General Plan) to reflect these planning efforts, and proposed edits to Chapter 5.9 of the General Plan to respond to SB 1425; and

WHEREAS, Santa Clara City Charter Section 1007 requires that the Planning Commission provide input to the City Council on any proposed General Plan amendment; and

WHEREAS, Government Code Section 65353 requires the Planning Commission to hold a public hearing prior to making a recommendation on the General Plan Amendment; and

WHEREAS, on October 22, 2025, a notice of the public hearing on the proposed General Plan Amendment was published in the *Santa Clara Weekly*, for the Planning Commission Hearing to be conducted on November 12, 2025 and for the City council meeting on December 16, 2025; and

WHEREAS, pursuant to SCCC Section 18.146.020, on October 15, 2025, notices of the public hearings of November 12, 2025 and December 16, 2025, were posted at City Hall, the Central Park Library, the Mission Branch Library, the Northside Branch Library, and on the City's website; and

WHEREAS, on November 12, 2025, the Planning Commission conducted a duly noticed public hearing to consider the Open Space Element Update, at the conclusion of which, the Planning Commission voted to recommend approval of the proposed General Plan Amendment (5-0-2, Bhatnagar and Cherukuru absent); and

WHEREAS, on December 16, 2025, the City conducted a duly noticed public hearing to consider the Open Space Element Update, at which time all interested persons were given an opportunity to give testimony and provide evidence in support of and in opposition to the proposed amendments.

NOW THEREFORE, BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

1. That the City Council hereby finds that the above Recitals are true and correct and by this reference makes them a part hereof.

2. That the City Council hereby finds and determines that the proposed General Plan Amendment is in the interest of the public good for the following reasons:

   A. The City's Open Space Element is consistent with SB 1425 in that the revised Open Space Element addresses climate resilience by incorporating policies from the City's Climate Action Plan;

   B. The revised Open Space policies of the General Plan call out access for all as a goal;

   C. The incorporation of proposed trails from the Creek Trail Network Expansion master plan help to create a network of linked open spaces; and

   D. The proposed General Plan Amendment has been processed in accordance with the applicable provisions of the California Government Code and the California Environmental Quality Act (CEQA), in that an Addendum to the City of Santa Clara 2010-2035 General Plan Environmental Impact Report (EIR) has been prepared.

3. That the City Council hereby amends the Open Space Element, as contained in Section 5.9.1 (Parks, Open Space and Recreation Goals and Policies) of the General Plan, by incorporating

a revised version of Figure 5.9-1, the Parks Recreation and Open Space Diagram as shown in Attachment 1, and by incorporating the proposed text changes shown in Attachment 2 into Section 5.9.1.

4. Effective date. This resolution shall become effective immediately.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED AND ADOPTED BY THE CITY OF SANTA CLARA, CALIFORNIA, AT A REGULAR MEETING THEREOF HELD ON THE 16TH DAY OF DECEMBER 2025, BY THE FOLLOWING VOTE:

AYES: COUNCILORS:

NOES: COUNCILORS:

2. Proposed General Plan Open Space Goals and Policies Text Changes

Open Space Element General Plan Amendment
September 26, 2025

Project Description

The General Plan Amendment to the City's Open Space element consists of three primary components:

1. New trail alignments incorporated into the Parks, Recreation and Open Space diagram (Figure 5.9-1 of the General Plan)
2. Addition of policies related to carbon farming on open space land from the City's adopted Climate Action Plan.
3. Strengthening of policy language to emphasize access to open space for everyone, and towards the creation of a network of open spaces with trail linkages.

The proposed trail alignments and revised policy language are included as attachments 1 and 2 to this addendum.

Legal Basis for an Addendum

This Addendum has been prepared pursuant to Public Resources Code Section 21166 and California Environmental Quality Act (CEQA) Guidelines Section 15162, 15164, and 15168(c). This Addendum evaluates the project's potential environmental effects in light of those effects previously disclosed in the 2010 General Plan Environmental Impact Report (EIR) to determine whether any of the conditions described in Guidelines Section 15162 calling for subsequent CEQA review have occurred. The General Plan EIR is available for review at the City's Planning Division, 1500 Warburton Avenue, Santa Clara, California 95050. CEQA Guidelines Section 15164(a) provides that the lead agency "*shall prepare an addendum* to a previously certified EIR if *some changes or additions are necessary* but none of the conditions described in Section 15162 calling for preparation of a subsequent EIR have occurred." Sub-Section (c) further provides that an "addendum need not be circulated for public review but can be included in or attached to the final EIR," and Sub-Section (e) states that a "brief explanation of the decision not to prepare a subsequent EIR pursuant to Section 15162 should be included" in the addendum, the agency's findings, or elsewhere in the administrative record.

CEQA Guidelines Section 15168(c)(2) provides that "if the agency finds that pursuant to Section 15162, no subsequent EIR will be required, the agency can approve the activity as being within the scope of the project covered by the EIR" and that "[w]hether a later activity is within the scope of an EIR is a factual question that the lead agency determines based on substantial evidence in the record." According to CEQA *Guidelines* Section 15162, once an EIR has been certified, no subsequent or supplemental EIR shall be prepared for a project unless the lead agency determines that one or more of the following occurs:

1. Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;

2. Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or negative declaration

due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or

3. New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any of the following:

    a. The project will have one or more significant effects not discussed in the previous EIR or negative declaration;
    b. Significant effects previously examined will be substantially more severe than shown in the previous EIR;
    c. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or
    d. Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

An addendum may be prepared if some changes or additions are necessary to a certified EIR and none of the above-stated conditions apply (CEQA *Guidelines* Section 15164).

Analysis and Conclusions

New trail alignments will allow the City to apply for grants that will help to fund the development of the Creek Trail network. At the present time, the proposed trail alignments are conceptual. Individual improvements will be analyzed for CEQA compliance during the planning stage, prior to construction. There will be no physical changes to the environment as a result of the addition of the proposed trail alignments to the General Plan.

Regarding the addition of Climate Action Plan (CAP) policies, the CAP is already an appendix to the General Plan and the policies are being put in a more prominent location to help inform discussion about the potential uses of open space. Since the Climate Action Plan was previously adopted, CAP policies have already been analyzed for CEQA compliance.

The strengthening of policy language to emphasize a network of connected open spaces for all does not change the development potential of the General Plan, nor does it in and of itself create a program of additional activities.

Taken together, the actions involved in the proposed Open Space General Plan Amendment only change the project description of the General Plan EIR and do not change the severity of the impacts, the required mitigation measures or the conclusions.

25-1109 Agenda Date: 11/12/2025

REPORT TO PLANNING COMMISSION

SUBJECT

Public Hearing: Recommendation on a General Plan Amendment to the City's Open Space Element to Add Policies to Address Climate Resilience and Other Co-benefits of Open Space; to Help to Increase Access to Open Space for Everyone; and to Preserve, Enhance, and Expand a Network of Open Spaces.

BACKGROUND

Adopted in 2010, the City's General Plan (2010-2035) represents the long-term goals for the City's future and guides decisions during its timeframe. State law requires that General Plans include seven mandated "elements," including Land Use, Circulation, Housing, Safety, Noise, Conservation and Open Space; an Environmental Justice element will be required in the future. The 2010-2035 Santa Clara General Plan is an "integrated" document, meaning it does not have independent elements, except for the Housing Element. Instead, the General Plan includes a matrix, set forth in Appendix 8.4, listing where each of the state-mandated elements are contained.

From time to time, the elements are updated to be consistent with changes in State Law. In 2022, the State adopted Senate Bill (SB) 1425, which requires cities and counties to review and update their Open Space elements by January 2026. The Open Space element is meant to catalog the existing unimproved sites within a jurisdiction and the likely disposition of those parcels within the timeframe of the General Plan.

SB 1425 requires cities and counties to update their open space programs to include policies addressing climate resilience and other co-benefits of Open Space, consistent with the jurisdiction's Safety element. This law also requires that jurisdictions address the issue of access to open space for everyone and to preserve, enhance, and expand a network of open spaces.

DISCUSSION

The City's Open Space element goals and policies are primarily contained in Chapter 5.9 of the General Plan. The State's General Plan Guidelines define open space as unimproved land devoted to:

- The preservation of natural resources
- Managed production of resources, meaning farmland (not applicable in the City of Santa Clara)
- Outdoor recreation, including linkages
- Open Space for public safety (for example, earthquake easements)
- Military installations (not applicable in Santa Clara)
- Tribal Resources

The fact that open space lands are defined as unimproved puts them in contrast to developed and actively managed park facilities.

Geographically, the City is constrained by other cities at its boundaries and is fully developed. Consequently, it has a very limited portfolio of open spaces called out in the General Plan. Section 8.8.4 lists Agnews Park, Civic Center Park (the City Hall grounds) and Ulistac Open Space as the only General Plan designated open spaces in the City.

The City has two planning efforts underway related to parks, trails and public open spaces. First, the City's Department of Public Works is currently drafting a creek trail network expansion master plan, and is a foundational element of a network of connected open spaces, consistent with SB 1425. Secondly, the City's Parks and Recreation Department is currently drafting a Parks and Recreation Master Plan, which describes priorities for parks facilities and programs over the short and medium term.

Both documents have been reviewed, and locations of potential facilities have been incorporated into an updated Figure 5.9-1, the Parks, Recreation and Open Space Diagram, which is included as Attachment 1.

As part of the update, text language in the Open Space Element relating to open space access and the creation of a linked network of open spaces has been strengthened. In addition, resilience policies from the City's adopted Climate Action Plan (2022) have been added to the Open Space policies. New and updated open space policies are included as Attachment 2, with changes shown in strikethrough and underline.

The text amendment is presented to the Planning Commission for a recommendation to the City Council for their consideration and action. The following specific actions are required.

1. Find that the Addendum to the 2010-2035 General Plan Environmental Impact Report (EIR) prepared for the project complies with CEQA, and that the adoption of the Open Space Element Update would not result in environmental impacts beyond those described in the General Plan EIR and no further analysis is required.

2. Find that the General Plan Text Amendment satisfies the SB 1425 requirements to update open space programs to include policies addressing climate resilience and other co-benefits of Open Space; and that the necessary text edits are consistent with the Parks, Open Space, and Recreation Goals and Policies in the General Plan.

Staff recommends that the Planning Commission recommend to the City Council approval of the General Plan Amendment by approving all the above-described actions because the amendment will bring the City's General Plan into compliance with the requirements of SB 1425, by helping to create a comprehensive network of open spaces that are accessible to everyone and that help to reinforce the City's resilience goals.

Alternatively, the Planning Commission has the option to recommend denial of the amendment, or to request modifications.

ENVIRONMENTAL REVIEW

The City prepared an Addendum to the 2010-2035 General Plan Environmental Impact Report (EIR) to cover adoption of this General Plan Amendment.

The Open Space element update consists of three primary components:

1. New trail alignments incorporated into the Parks, Recreation and Open Space diagram (Figure 5.9-1 of the General Plan)
2. Addition of policies related to carbon farming on open space land from the City's adopted Climate Action Plan.
3. Strengthening of policy language to emphasize access to open space for everyone, and towards the creation of a network of open spaces with trail linkages.

New trail alignments will allow the City to apply for grants that will help to fund the development of the Creek Trail network. Individual improvements will be analyzed for CEQA compliance at the planning stages prior to construction.

Regarding the addition of Climate Action Plan policies to the Open Space chapter, the Climate Action Plan is

already an appendix to the General Plan and its policies are being put in a more prominent location to help inform discussion about the potential uses of open space. Since the Climate Action Plan is already adopted, these policies have been previously analyzed for CEQA compliance.

The strengthening of policy language to emphasize a network for all connected open spaces does not change the development potential of the General Plan, nor does it create a program of activities.

The Addendum indicates that the adoption of the Open Space Element Update would not result in environmental impacts beyond those described in the General Plan Update EIR.

FISCAL IMPACT
Adoption of the Open Space element update would bring the City's General Plan into compliance with state law, specifically SB 1425. These actions would involve no additional resources beyond those needed to update the General Plan.

COORDINATION
This item was coordinated with the City Attorney's Office, the Department of Parks and Recreation, and the Department of Public Works.

PUBLIC CONTACT
A newspaper notice was published in the October 22, 2025, issue of the Santa Clara Weekly describing the proposed adoption of the General Plan Amendment to the Open Space element.

Public contact was also made by posting the Planning Commission agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION
Staff recommends based on Senate Bill 1425, that the Planning Commission recommend the City Council:

1. Find that the Addendum to the 2010-2035 General Plan Environmental Impact Report (EIR) prepared for the project complies with CEQA, and that the adoption of the Open Space Element Update would not result in environmental impacts beyond those described in the General Plan EIR and no further analysis is required.

2. Adopt the General Plan Text Amendment and find that it satisfies the SB 1425 requirements to update open space programs to include policies addressing climate resilience and other co-benefits of Open Space; and that the necessary text edits are consistent with the Parks, Open Space, and Recreation Goals and Policies in the General Plan.

25-1660 Agenda Date: 12/16/2025

REPORT TO CITY COUNCIL

SUBJECT

Public Hearing: Action on a Vesting Tentative Map (PLN24-00044) for a Proposed Common Interest Development of Six Single-Family Housing Units Located at 4503 Cheeney Street - Continued from November 18, 2025 City Council Meeting

BACKGROUND

The proposed project was continued from the November 18. 2025 City Council Hearing. At the hearing, Council opened the public hearing and continued the item to the December 16, 2025, City Council Meeting.

On September 13, 2023, Jeff Aguilar, on behalf of Valley Oak Partners (applicant) submitted a Preliminary Application under Senate Bill (SB) 330 for a six-unit single family housing project at 4503 Cheeney Street in Santa Clara ("Project"). With very limited exceptions, most housing developments of two or more units are able to submit an SB 330 "preliminary application" that locks in existing zoning standards and qualifies a project for certain streamlining provisions. On January 17, 2024, the applicant submitted a formal proposal for the subject property. The formal application request, consistent with the preliminary application, included the demolition of an existing single-family residence, the construction of six two-story single-family residences, and a vesting tentative subdivision map to create a common interest development of six condominium lots and a common access easement. The proposed project was split into two separate applications: (File No. PLN24-00034) for the Architectural Review Permit for the development of the parcel; and (File No. PLN24-00044) for the Vesting Tentative Subdivision Map. File No. PLN24-00034 was deemed complete by the Project Clearance Committee (PCC) on September 24, 2024, and File No. PLN24-00044 was deemed complete by the Subdivision Committee on August 26, 2025.

The Architectural Review Permit for the development portion of the application, File No. PLN24-00034, went to the Development Review Hearing (DRH) on December 11, 2024. There were no public comments regarding the application at the meeting, and the application was approved subject to findings and conditions of approval. The DRH staff report is available as Attachment 4.

On October 8, 2025, the Planning Commission reviewed the vesting tentative map request. Planning Commission's review and recommendation to the City Council is required under Code Section 17.05.300 - Tentative Maps. Tentative Maps are ultimately approved by the City Council. The Planning Commission voted to recommend approval of the vesting tentative map for the Project to the City Council (7-0 vote). The PC staff report is available as Attachment 5.

DISCUSSION

The project is an SB330 project, the preliminary application, PRE23-00102, was deemed complete on 10/3/2023. Due to the nature of SB330 projects, the preliminary application locked in the existing

zoning standards at the time the preliminary application was deemed complete. The Classic Code was in effect on 10/3/2023 and staff has reviewed the current project based on the Classic Code.

The project was reviewed against the R3-18D zoning standards, found in Section 18.16.070 - 18.16.090 of the Classic Code. The applicant has asked for six waivers to R3-18D zoning standards, waivers to front yard, side yard, street side yard, and rear yard setbacks, to building coverage and to total required landscaped area. The applicant has applied for one concession due to their status as an affordable housing project, the applicant applied for a waiver to allow a six-foot fence within the street side setback area. These waivers and concession were reviewed by the City Attorney's Office and were subsequently reviewed and approved at the Development Review Hearing on December 11, 2024.

At the October 8, 2025, Planning Commission meeting, staff presented the vesting tentative map request, The tentative map request is linked to the architecture review project to demolish an existing single-family home on a single parcel in order to construct six single family homes as a common interest development. Each two-story home will have 2,275 square feet of living area, four bedrooms / 2 and a half bathroom, a two-car garage, and a front porch. The project site is within the vicinity of other multi-family and townhome developments of similar density and size. Much of the surrounding properties are established in a similar mix of R1 (Single-Family Residential), R3 (Medium Density Residential), and (PD) Planned Development zoning districts.

As indicated in the Planning Commission staff report, staff recommended approval of the vesting tentative map; with the waivers and concession, the project meets the applicable zoning requirements, and the project is consistent with the Low Density Residential General Plan land use designation.

During the Planning Commission meeting, commissioners raised questions regarding affordable housing, setbacks, infrastructure impacts, and parking. The summary of the discussion is as follows:

- Affordable housing - one unit of the six will be deed restricted to be a moderate-income affordable unit.
- Setbacks - Currently the project meets setbacks due to the waivers and concessions the applicant is entitled to due to their project meeting the state definition of an 'affordable housing project'
- Infrastructure impacts - the applicant has worked with public works, streets division, and solid waste to ensure that all water, sewer, and traffic needs are met and do not put an undue burden on surrounding properties or homeowners.
- Parking - each unit will have a two-car garage, per Santa Clara City Code, all single-family homes are required to have two covered parking spaces.

As a result of the Planning Commission discussion and presentations from staff and the applicant, no modifications were required and the Commission recommended approval of the project as presented. All Commissioners were present at the hearing. In two motions, the Commission voted to recommend that the project be determined to be categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 - In-Fill Development Projects) (7-0), and to recommend approval of the Tentative Subdivision Map (7-0).

Architectural Review

Throughout the process, the applicant has revised their submission several times and worked with the Planning Division to get to a design plan that the Planning Division supports. Full review of the architecture took place at a regularly scheduled Development Review Hearing on December 11, 2024 (Staff report contained in Attachment 4). The approved Architectural Review development plans are provided in Attachment 5.

Senate Bill (SB) 330 Review

The project is subject to streamlining under SB 330, which was passed in 2019 to accelerate housing production in urban areas. The law limits the number of public hearings a City can conduct for a project to five, if the project complies with the applicable General Plan and zoning standards in effect at the time of the preliminary application submittal. Consistent with SB 330, the project shall be subject only to the ordinances, policies, and standards adopted and in effect when the preliminary application was submitted (September 13, 2023). The project has gone through two public hearings previously: the Development Review Hearing, on December 11, 2024, and the Planning Commission meeting on October 8, 2025. If the Tentative Map is approved by the City Council, then the project was heard in three hearings, which meets the requirements of SB 330. Community meetings and other applicant-led meetings do not count towards the five hearings allowed.

Proposed City Council Action

The project is now presented for City Council consideration and action. The following specific actions are required:

1. CEQA Determination

Determine the project to be exempt pursuant to CEQA Section 15332 (Infill development projects).

2. Vesting Tentative Map Approval

A Vesting Tentative Subdivision Map is proposed to create the condominium lots for the six townhouses. The required findings, and facts supporting them, are as follows:

- General Plan Consistency: The subdivision would be consistent with the General Plan land use designation of Low Density Residential. The subdivision would create additional residential development in proximity to jobs, incrementally advancing the City's goals to produce new housing; would provide a deed-restricted affordable housing unit, which forwards Residential Land Use Goal 5.3.2-G3 to disperse affordable housing units across the City; and is compatible in both character and size with neighboring low intensity residential development (Policy 5.3.1-P29).

- Zoning Code Compatibility: The subdivision also meets the applicable development standards of the Zoning Code. The project includes an affordable unit which allowed the applicant to use the State density bonus law to seek waivers from selected development standards. After working with the City to reduce the extent of the waivers, the applicant and the City agreed to six waivers: front yard setbacks, side yard setbacks, street side yard setbacks, rear yard setbacks, total required landscaped area, and building coverage.

Development Regs	Code Ref.	Per R3-18D Zoning	Proposed
Front yard	18.16.070	20' min.	15' min.

powered by Legistar™

Side yard	18.16.080	10' min.	5.5' min.
Side yard - Street	18.16.080	20' min.	10' min. (5' to porch)
Rear	18.16.090	15' min.	10' min.
Building Coverage	18.16.100	35% max.	48%
landscaped Area	18.16.110	45% min.	39%

- The applicant also used a state entitled concession for the corner side yard fence height to maintain a six-foot height within a required setback where only a three-foot fence would be permitted. The project, after utilizing the waivers and concession under the State Density Bonus Law, meets the applicable provisions of the City's Zoning Code.

- Site Suitability: Much of the surrounding area includes similar style residences-common interest developments with multiple residences in a singular lot. See Attachment 1 for a vicinity map.

- No Adverse Effects: The design of the subdivision and type of improvements will not cause substantial environmental damage, as the project is a small-scale residential development that will comply with current Building Code requirements, including applicable provisions of the City's Reach Code. The project would not result in adverse health effects as it will be subject to Covenants, Conditions and Restrictions for operation and maintenance of the buildings and site improvements and does not propose the use of hazardous materials.

- Conflicts With Easements: As designed, the project would not conflict with any recorded public easements for access through or use of the proposed subdivision.

- Natural/Passive Heating and Cooling: The project will adhere to CALGreen energy efficiency measures to conserve energy through building design and site planning.

Recommendation

Staff and the Planning Commission recommend that the City Council approve the Project by approving all of the above-described actions because the Project would be compatible with adjacent land uses, and the project is consistent with the General Plan and applicable zoning standards. Findings can be made to support the approval of the vesting tentative subdivision map. Conditions of approval are proposed for the Project and are contained in Attachment 3.

As an alternative, the Council has the option to deny the project, or to refer the matter back to staff for modifications.

ENVIRONMENTAL REVIEW

The action being considered is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 - In-Fill Development Projects), in that the proposed project meets the following conditions:

(a) The project is consistent with the applicable General Plan designation and all applicable General Plan policies as well as with applicable zoning designation and regulations.

powered by Legistar™

(b) The proposed development occurs within City limits on a project site of no more than five acres substantially surrounded by urban uses.
(c) The project site has no value as habitat for endangered, rare or threatened species.
(d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.
(e) The site can be adequately served by all required utilities and public services.

FISCAL IMPACT
There is no fiscal impact to the City for processing the requested application other than administrative time and expense typically covered by processing fees paid by the applicant.

COORDINATION
This report was coordinated with the City Attorney's Office.

PUBLIC CONTACT

Community Meeting
Consistent with the City's state the year adopted Public Outreach Policy for Planning applications, a hybrid public outreach meeting was conducted by the Property Owner/Applicant on November 13, 2024, to engage the neighborhood community in the planning process. Notices of the meetings were mailed by the Property Owner/Applicant to properties within 500 feet of the project site boundaries, totaling 354 mailed notices, and posted on the City's website. This meeting provided the community an opportunity to review and comment on the proposal and because of the community input, eight members of the public were in attendance. The overall concern from the public was regarding on-street parking, due to the project's proximity to Levi's Stadium and the problem some residents face with current demand for on-street parking. Each unit will have a two-car garage, per Santa Clara City Code, all single-family homes are required to have two covered parking spaces. Planning Division included a condition of approval to specify that all garage parking should be used for car parking and shall not be used exclusively for storage or etc.

Hearing Noticing
Public contact was made by posting the Development Review Hearing agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

A public hearing notice was mailed to property owners within a 500-foot radius of the project site on November 6th, 2025. Notice was also published in the Weekly, a newspaper of general circulation, on December 3rd, 2025.

RECOMMENDATION
1. Determine the project to be categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 - In-Fill Development Projects); and
2. Adopt a Resolution in the form presented to approve the Vesting Tentative Map (PLN24-00044) for a common interest development for the proposed development of six single family housing units located at 4503 Cheeney Street to accompany the Architectural Review application

(PLN 24-00034), making the required findings and subject to f conditions of approval

RESOLUTION NO. _____

A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA APPROVING A VESTING TENTATIVE CONDOMINIUM MAP FOR THE PROPOSED DEVELOPMENT OF SIX SINGLE FAMILY HOUSING UNITS, ONE DEEMED MODERATE RATE AFFORDABLE LOCATED AT 4503 CHEENEY STREET, SANTA CLARA

PLN24-00044 (Tentative Subdivision Map)

WHEREAS, on September 13, 2023, Jeff Aguilar of Valley Oak Partners ("Applicant") submitted a preliminary application under Senate Bill (SB) 330 (2019);

WHEREAS, on February 2, 2024, the Applicant filed an Architectural Review application (PLN24-00034) to redevelop a 18,651 square-foot parcel, located at 4503 Cheeney Street ("Project Site") with six residential single family units;

WHEREAS, on December 11, 2024, the Architectural Review to Demolish an Existing Single-Family Residence and Construct Six New Single-Family Detached Residences, of Approximately 2,772 Square Feet with One Affordable Unit at the Moderate Level of Affordability was approved at the Development Review Hearing (DRH);

WHEREAS, on January 22, 2024, the Applicant filed an application (PLN24-00044) for a Vesting Tentative Subdivision Map for condominium purposes to subdivide the subject property to accommodate the proposed development;

WHEREAS, the proposed vesting tentative subdivision map is consistent with the approved site plan and improvements on the Project Site for the development of the residential project approved on December 11, 2024;

WHEREAS, pursuant to Section 17.05.210 of the Code of the City of Santa Clara ("SCCC"), a Vesting Tentative Subdivision Map shall be required for all subdivisions of land into five or more parcels, including condominium developments;

WHEREAS, on September 24, 2024, the Subdivision Committee determined that the application was complete and that the proposed Vesting Tentative Subdivision Map should proceed to the Planning Commission in conformance with Section 17.05.300 of the SCCC;

WHEREAS, SCCC Section 17.05.300(g) requires that the Planning Commission make recommendations of denial, approval or conditional approval to the City Council on the Vesting Tentative Subdivision Map;

WHEREAS, the proposal is to create six residential units with common areas to serve the development ("Project") as shown on the Vesting Tentative Subdivision Map, attached hereto and incorporated herein by this reference;

WHEREAS, a determination that the proposed six unit project was categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 – In-Fill Development Projects) was made at the Development Review Hearing on December 11, 2024;

WHEREAS, the proposed Vesting Tentative Map is consistent with the previously approved Project (Architectural Review approval) and would not result in a new impact on the environment or significantly increase the severity of any previously identified impact;

WHEREAS, the Planning Commission held a duly noticed public hearing on October 8, 2025, to consider the proposed Vesting Tentative Subdivision Map and the determination of the Project to be exempt from CEQA per Section 15332, and the Commission voted 7-0 to recommend approval to the City Council to approve a Vesting Tentative Subdivision Map and voted 7-0 to determine the Project exempt from CEQA per Section 15332; and

WHEREAS, on December 3, 2025, a notice of the December 16, 2025 Council hearing to consider the Vesting Tentative Subdivision Map was published in the *Weekly*, a newspaper of general circulation in the City;

WHEREAS, on November 6, 2025, notices of the public hearing on the Vesting Tentative Subdivision Map were mailed to all property owners within 500 feet of the property, according to the most recent Assessor's roll; and

WHEREAS, on December 16, 2025, City Council held a duly noticed public hearing to consider the Project, during which the City Council invited and considered any and all verbal and written testimony and evidence offered in favor of and in opposition to the Project.

NOW THEREFORE, BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

1. That the City Council hereby finds that the above Recitals are true and correct and by this reference makes them a part hereof.

2. Vesting Tentative Subdivision Map Findings. Pursuant to California Government Code Sections 66426 and 66428 and SCCC Section 17.05.300(h), the Planning Commission finds and determines that:

A. The Vesting Tentative Map is consistent with the objectives, policies, general land uses and programs specified in the City's General Plan in that the Vesting Tentative Map, and adjoining development proposal, proposes six residential condominium units that is consistent with the General Plan Designation of Low Intensity Residential's density standards, creates additional residential development in proximity to jobs, incrementally advancing the City's goals to produce new housing, provides an affordable housing unit which forwards Residential Land Use Goal 5.3.2-G3 to disperse affordable housing units across the City, is compatible in both character and size with neighboring low intensity residential development (Policy 5.3.1-P29), and subject to conditions set forth in the Conditions of Vesting Tentative Map Approval, attached hereto and incorporated by this reference.

B. The design and improvements of the proposed subdivision are consistent with the City's General Plan, in that the Vesting Tentative Map facilitates development of housing stock and construction of ownership housing opportunities for the community (Policy 5.3.1-P8) ; and

furthermore complies with General Plan Land Use and Transitional Goals and Polices of the General Plan by redeveloping a low density residential lot from a single-family unit to six single family units, meeting the density allowed and creating additional transition in scale and intensity of use from the existing surrounding Planned Development units to the single-family housing adjacent to the south.

C. The site is physically suitable for the proposed type of development, in that the Project is compatible with the adjacent uses and the zoning code.

D. The site is physically suitable for the proposed intensity of development, in that the Project Site is located in an urbanized area and is served by existing utilities and infrastructure.

E. The design of the subdivision and type of improvements are not likely to cause serious health problems, in that the proposed residential map will implement Covenants, Conditions, and Restrictions for operation and maintenance of the site improvements and does not propose the use of hazardous materials.

F. The design of the vesting tentative map and type of improvements are not likely to cause substantial environmental damage and will not substantially or unavoidably injure fish or wildlife or their habitat in that the Project Site is located in an urbanized setting, is a previously developed site, and the proposed Condominium Map is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 – In-Fill Development Projects.

G. The design of the vesting tentative map and type of improvements will not conflict with easements acquired by the public at large or use of property within the proposed Condominium in that it is designed to avoid encroachment and conflicts with public easements in the site design.

H. The vesting tentative map provides, to the extent feasible, for future passive or natural heating or cooling opportunities, in that it will adhere to CALGreen energy efficiency measures to conserve energy through building design and site planning.

3. Based on the findings set forth in this Resolution and the evidence in the Staff Report and such other evidence as received at the public hearings on this matter before the Planning Commission, the Planning Commission hereby recommends approval of the Vesting Tentative Map to the City Council, substantially in the form on file as shown on the attached Vesting Tentative Map and Conditions of Vesting Tentative Subdivision Map Approval, hereby incorporated by this reference.

4. Effective date. This resolution shall become effective immediately.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED AND ADOPTED BY THE CITY OF SANTA CLARA, CALIFORNIA, AT A REGULAR MEETING THEREOF HELD ON THE 16TH DAY OF DECEMBER 2025, BY THE FOLLOWING VOTE:

Conditions of Vesting Tentative Subdivision Map Approval

PLN24-00044 / 4503 Cheeney Street

Vesting Tentative Map (PLN24-00044) for the Proposed Development of Six Single Family Housing Units Subject to SB 330 Located at 4503 Cheeney Street.

Revisions to G8, H1, W3 and removal of H3, F4, F5, and F8 (10/8/2025)

CONDITIONS OF APPROVAL

GENERAL

G1. **Subdivision Expiration.** This subdivision shall automatically be revoked and terminated if not used within two years of original grant or within the period of any authorized extension thereof. The date of granting this subdivision is the date this subdivision is approved by the Decision-making body and the appeal period has exhausted. The expiration date is one year after the City Council decision made on 11/18/2025.

G2. **Conformance with Plans.** The lot design on the subdivision map shall be designed in conformance with the subdivision map, as approved by the decision-making body.

G3. **Conditions of Plans.** All conditions of approval for this subdivision shall be reprinted and included within the first three sheets of the subdivision map sets submitted for review and approval. At all times these conditions of approval shall be on all grading and construction plans kept on the project site.

G4. **Necessary Relocation of Public Facility.** If relocation of an existing public facility becomes necessary due to a conflict with the developer's new improvements, then the cost of said relocation shall be borne by the developer.

G5. **Indemnify and Hold Harmless.** The owner or designee agrees to defend and indemnify and hold City, its officers, agents, employees, officials and representatives free and harmless from and against any and all claims, losses, damages, attorney's fees, injuries, costs, and liabilities from any suit for damages or for equitable or injunctive relief which is filed by a third party against the City by reason of its approval of owner or designee's project.

G6. **Code Compliance.** The construction permit application drawings submitted to the Santa Clara Building Division shall include an overall California Building Code analysis; proposed use and occupancy of all spaces (CBC Ch. 3), all building heights and areas (CBC Ch. 5), all proposed types of construction (CBC Ch. 6), all proposed fire and smoke protection features, including all types of all fire rated penetrations proposed (CBC Ch. 7), all proposed interior finishes fire resistance (CBC Ch. 8), all fire protection systems proposed (CBC Ch. 9), and all means of egress proposed (CBC Ch. 10). Noncombustable exterior wall, floor, and roof finishes are strongly encouraged.

   a. During construction retaining a single company to install all fire related penetrations is highly recommended.
   b. The grade level lobbies shall be minimum 1-hour rated all sides and above.
   c. All stair shafts shall be minimum 1-hour rated.
   d. All elevator shafts shall be minimum 1-hour rated.
   e. All trash chute shafts shall be minimum 1-hour rated.
   f. Recommendation: provide minimum two trash chutes; one for recyclables, one for trash, each trash chute to be routed down to a grade level trash collection room.
   g. Any trash rooms shall be minimum 1-hour rated all sides and above.

G7. **Building Codes as Amended.** See Title 15 of the Santa Clara City Code for any amendments to the California Building Codes.

G8. Reach Code. This project is subject to the City of Santa Clara Reach Code, as set forth in City Code Chapters 15.36 and 15.38, with the exception of the "all-electric" requirements suspended by the City Council on January 14, 2025.

G9. Comply with all applicable codes, regulations, ordinances and resolutions.

COMMUNITY DEVELOPMENT - HOUSING DIVISION

H1. **Residential Rental or Ownership Project with Fewer than 10 Units.**
In accordance with the Santa Clara City Code chapter 17.40, this project is subject to the affordable housing requirements for the proposed 6 units for-sale residential development. The Applicant is utilizing State Density Bonus on this project and have elected to provide one affordable housing unit.

The One affordable unit shall be provided at an affordable housing cost for a household earning up to one hundred percent (100%) of area median income (AMI). Affordable Unit shall have prices set in accordance with the City's Below Market Purchase (BMP) Program Policies and Procedures Manual (subject to updates and changes). Applicant shall be responsible for cost incurred under the California Building Standards (California Code of Regulations, Title 24) for the each affordable for- sale residential unit. Affordable units shall be reasonably dispersed throughout the project and shall on average contain the same number of bedrooms and shall be comparable to the design of the market-rate units in terms of appearance, material and finished quality of the market rate units in the project. Affordable units shall have the same access to the project amenities and recreational facilities as market-rate units. Additionally, the Developer will cover the cost of the BMP Program to process each BMP homebuyer, at a rate of 2.5% of the Affordable Sales Price per unit.

H2. **Affordable Housing Agreement.** Prior to issuance of Building Permits, the Developer shall enter into an Affordable Housing Agreement (AHA) with the City that will determine the Affordable Sales Price, identify the actual unit to be sold as the Affordable Unit, and apply all terms and covenants guaranteeing the prescribed affordability, to the satisfaction of the Director of Community Development. There is a fee for the AHA preparation in the amount of $4,205 which will be due prior to execution of the AHA (per Municipal Fee schedule).

FIRE DEPARTMENT

DESIGN / PERFORMANCE—PRIOR TO BUILDING PERMIT ISSUANCE

F1. **Hazmat Clearance.** Prior to any Building Permit issuance, Hazardous Materials Closure (HMCP) is required as applicable: This is a permit is issued by the Santa Clara Fire Department, Fire Prevention & Hazardous Materials Division. Hazardous materials closure plans are required for businesses that used, handled or stored hazardous materials. While required prior to closing a business this is not always done by the business owner, and therefore should be part of the developer's due diligence. The

hazardous materials closure plans demonstrate that hazardous materials which were stored, dispensed, handled or used in the facility/business are safely transported, disposed of or reused in a manner that eliminates any threat to public health and environment.

F1. **Hazmat Clearance.** Prior to any Building Permit Issuance, a Phase II environmental assessment is required to be submitted to CRRD for review. If hazards are present that require site mitigation, cleanup, or management of chemical contaminants in soil, soil vapor, or groundwater a separate permit from one of the regulatory agencies below will be required. The type and extent of contamination on site(s) will govern which of the regulatory agencies noted below can supervise the cleanup: Department of Toxic Substances Control (DTSC); State Water Resources Control Board; or Santa Clara County, Department of Environmental Health.

If the project intends to contract with a State or County Agency for onsite/offsite environmental remediation activities the following documentation shall be provided to the Fire Prevention & Hazardous Materials Division prior to issuance of a Building Permit for demolition or grading: Oversight agency case number; and Oversight mangers contact name, phone number.

For smaller projects that are not moving soil at all, a Phase I environmental assessment may be adequate. Please contact Assistant Fire Marshal Fred Chun at fchun@santaclaraca.gov for more information.

F2. **Fire Flow Requirement.** Prior to Building Permit Issuance, provide documentation from the City of Santa Clara Water & Sewer Department that the minimum required fire-flow can be met. Fire Department fire-flow will be based on the current California Fire Code. The most restrictive departments requirement shall apply.

F3. **Fire Hydrants.** Prior to Building Permit Issuance, building plans shall show the required number, location and distribution of fire hydrants for the buildings will be based on the current California Fire Code, Appendix C as amended. The required number of fire hydrants will be based on the fire-flow before the reduction for fire sprinklers. Both public and private fire hydrants may be required.

F4. **Emergency Responder Radio Coverage System.** Prior to Building Permit Issuance, provisions shall be made for Emergency Responder Radio Coverage System (ERRCS) equipment, including but not limited to pathway survivability in accordance with Santa Clara Emergency Responder Radio Coverage System Standard.

F5. **Fire Department Access.** Prior to the start of construction, roadways and water supplies for fire protection are required to be installed and made serviceable and maintained throughout the course of construction.

F6. **Alternative Means and Methods.** Prior to any Building Permit issuance, an alternate means or methods permits to mitigate any code deficiency must be submitted and approved. Please submit this permit concurrently with the building plans. Please note specific mitigations may have been discussed during the planning process. None of these discussions are binding and can only be formally approved through submitting an AMMR permit. The AMMR permit is formally documenting that and still needs to be submitted.

F7. **Hazmat Information.** Prior to Building Permit Issuance, a Hazardous Materials Inventory Statement including refrigerants is required to be submitted and reviewed with the Building Permit if applicable.

F8. **Fire Safety During Construction.** Prior to Building Permit Issuance, a permit for Construction Safety & Demolition shall be submitted to the fire department for review and approval in compliance with our Construction Safety & Demolition standard.

DURING CONSTRUCTION – PRIOR TO OCCUPANCY

F9. **Shared Fire Protection Features that Cross Property Lines.** Prior to Building Permit Final, any EVAEs or fire protection equipment (including but not limited to fire service undergrounds, sprinkler piping, fire alarm equipment, fire pumps, ERRCS) that cross property lines or is not located on the parcel of the building it serves shall have a CC&R legally recorded detailing who is responsible for maintenance and repair of the EVAE or fire protection equipment.

F10. **Fire Protection Systems Before Occupancy.** Prior to any Certificate of Occupancy Issuance (temporary or permanent), fire-life safety systems installations must be fully installed, functional, and approved.

ENGINEERING

DESIGN—PRIOR TO BUILDING PERMIT ISSUANCE

E1. **Site Clearance.** Obtain site clearance through Public Works Department prior to issuance of Building Permit. Site clearance will require payment of applicable development fees. Other requirements may be identified for compliance during the site clearance process. Contact Public Works Department at (408) 615-3000 for further information.

E2. **Easement.** Obtain Council approval of a resolution ordering vacation of existing public easement(s) proposed to be abandoned, if any, through Public Works Department, and pay all appropriate fees, prior to start of construction.

E3. **Subdivision Map.** After City Council approval of the Tentative Map, submit the Subdivision Map, prepared by a Licensed Land Surveyor or a Registered Civil Engineer with Land Surveyor privileges to the Engineering Department. The submittal shall include a title report, closure calculations, and all appropriate fees.

DURING CONSTRUCTION

E4. **Encroachment Permit.** All work within the public right-of-way and/or public easement, which is to be performed by the Developer/Owner, the general contractor, and all subcontractors shall be submitted within a Single Encroachment Permit to be reviewed and issued by the City Public Works Department. Issuance of the Encroachment Permit and payment of all appropriate fees shall be completed prior to commencement of work, and all work under the permit shall be completed prior to issuance of occupancy permit.

E5. **Encroachment Permit.** Submit public improvement/encroachment permit plans prepared in accordance with City Public Works Department procedures which provide for the installation of public improvements directly to the Public Works Department. Plans shall

be prepared by a Registered Civil Engineer and approved by the City Engineer prior to approval and recordation of final map and/or issuance of building permits.

E6. **Encroachment Permit.** Existing non-standard or non-ADA compliant frontage improvements shall be replaced with current City standard frontage improvements as directed by the City Engineer or his designee.

E7. **Encroachment Permit.** Damaged curb, gutter, and sidewalk within the public right-of-way along property's frontage shall be repaired or replaced (to the nearest score mark) in a manner acceptable to the City Engineer or his designee. The extents of said repair or replacement within the property frontage shall be at the discretion of the City Engineer or his designee.

E8. **Encroachment Permit.** Existing streetlights shall be clear of proposed sidewalk, developer shall relocate as necessary.

E9. **Easement.** Dedicate required on-site easements for any new public utilities, and/or emergency vehicle access by means of subdivision map or approved instrument at time of development.

E10. **Easement.** Dedicate sidewalk easements along the project frontage where public sidewalks extend into private property. Sidewalk easements are to be 1' behind proposed back of walk where there is landscaping behind sidewalk. Sidewalk easement where hardscape is behind sidewalk is to be at back-of-walk. Cold joint is required between public sidewalk and private hardscape.

E11. **Agreement.** If requested, owner or designee shall prepare and submit for City approval a maintenance plan for all sidewalk, curb and gutter, landscaping and irrigation system improvements installed within the public right-of-way prior to encroachment permit issuance. Such plan shall include at a minimum, maintenance requirements for trees and shrubs, in acknowledgement of developer's/property owner's obligation under Chapter 12.30 and 17.15.

TRAFFIC
DURING CONSTRUCTION

E12. Traffic improvements must comply with the City of Santa Clara Standard Specifications for Public Works Construction

STREETS DIVISION
Right of Way Landscape

DESIGN / PERFORMANCE -- PRIOR TO ISSUANCE OF BUILDING PERMIT

L1. **Tree Preservations Specifications.** Include City of Santa Clara Tree Preservation/City Arborist specifications on all improvement plans.

L2. **Mature Trees.** Identify existing mature trees to be maintained. Prepare a tree protection plans for review and approval by the City prior to any demolition, grading or other earthwork in the vicinity of existing trees on the site.

L3. **Tree Replacement.** 2:1 tree replacement ratio required for all trees removed from the right-of-way.

DURING CONSTRUCTION OR OPERATION

L4. **No Public Root Cutting.** No cutting of any part of ***public***, including roots, shall be done without securing prior approval of the City Arborist. Tree trimming/removal shall be done in accordance to the City of Santa Clara Tree Preservation/City Arborist specifications and with direct supervision of a certified arborist (Certification of International Society of Arboriculture).

PRIOR TO FINAL OF BUILDING PERMIT

L5. **In Lieu Fee.** If 2:1 replacement ratio cannot be met for removal of right of way landscape trees, tree planting fee must be paid prior to building permit final.

Solid Waste

DESIGN / PERFORMANCE -- PRIOR TO ISSUANCE OF BUILDING PERMIT

SW1. **Post-Construction Solid Waste Generation Estimation and Collection Form.** The applicant shall complete and provide the Post-Construction Solid Waste Generation Estimation and Collection Form, which includes the estimation of trash and recycling materials generated from the project. Use the City's Solid Waste Guidelines for New and Redevelopment Projects as specified by the development type. Contact the Public Works Department at Environment@SantaClaraCA.gov or (408) 615-3080 for more information.

SW2. **Site Plan.** The applicant shall provide a site plan showing all proposed locations of solid waste containers, chutes, compactors, trash enclosures and trash staging areas. The site plan shall show the route or access for trash and recycling collectors (trucks) including vertical clearance, turning radius and street/alley widths. All plans shall comply with the City's Solid Waste Guidelines. Solid metal roof, gates and a trench drain shall be installed within the trash enclosure and connected to the on-site sewer system.

SW3. **Construction Waste Diversion.** For projects that involve construction, demolition or renovation of 5,000 square feet or more, the applicant shall comply with City Code Section 8.25.285 and recycle or divert at least sixty five percent (65%) of materials generated for discard by the project during demolition and construction activities. No building, demolition, or site development permit shall be issued unless and until applicant has submitted a construction and demolition debris materials check-off list. Applicant shall create a Waste Management Plan and submit, for approval, a Construction and Demolition Debris Recycling Report through the City's online tracking tool at http://santaclara.wastetracking.com/.

SW4. **Authorized Service Haulers.** This project is subject to the City's Accumulation, Transportation and Disposal of Solid Waste Ordinance (Chapter 8.25 of the Municipal Codes), which requires the handling and disposal of waste by authorized service haulers. Insert the General Notes for the Construction & Demolition (C&D) Waste Management into construction plans in accordance with the City's municipal codes prior to the issuance of a Building or Grading permit. Provide the Green Halo waste online tracking number to Building staff prior to the issuance of a demolition or building permit.

SW5. **Exclusive Franchise Hauling Area.** Project applicant shall contact the Public Works Department, Street Maintenance Division at (408) 615-3080 to verify if the property falls within the City's exclusive franchise hauling area. If so, the applicant is required to use the City's exclusive franchise hauler and rate structure for any hired debris boxes. Prior to the issuance of a Public Works clearance, the project applicant shall complete and sign the Construction and Demolition (C&D) / Waste Management Rules and Regulations Form.

DURING CONSTRUCTION OR OPERATION

SW6. **Waste Generation Tracking.** Applicant to track all waste generated and upload debris tags to GreenHalo for City staff review.

PRIOR TO FINAL OF BUILDING PERMIT

SW7. **Weight Tickets.** Prior to obtaining a Temporary or Final Certificate of Occupancy, individual weight tickets for all materials generated for discard or reuse by the project during demolition and construction activities shall be uploaded to Green Halo and submitted for review and approval by Environmental Services. At a minimum two (2) weeks review time is required.

Stormwater

DESIGN / PERFORMANCE -- PRIOR TO ISSUANCE OF BUILDING PERMIT

ST1. **Final Stormwater Management Plan.** Prior to City's issuance of Building or Grading Permits, the applicant shall develop a Final Stormwater Management Plan, update the C.3 Data Form, the Special Project Narratives and Worksheet (as appropriate), and an Erosion and Sediment Control Plan.

ST2. **3rd Party Review of Final Stormwater Management Plan.** The Final Stormwater Management Plan and all associated calculations shall be reviewed and certified by a qualified 3rd party consultant from the SCVURPPP List of Qualified Consultants, and a 3rd party review letter (on design) shall be submitted with the Plan.

ST3. **Notice of Intent.** For project that disturbs a land area of one acre or more, the applicant shall provide a copy of the Notice of Intent (NOI) with WDID number for coverage under the State Construction General Permit. Active projects with NOI will be inspected by the City once per month during the wet season (October – April).

ST4. **Best Management Practices.** The applicant shall incorporate Best Management Practices (BMPs) into construction plans and incorporate post-construction water runoff measures into project plans. Include the SCVURPPP Countywide Construction BMPs Plan Sheet with the plans. Applicant to add Source control measures with designations from C.3 stormwater handbook, Appendix H.

ST5. **C.3 Treatment Facilities Construction Notes.** Include the C.3 Treatment Facilities Construction Notes on the Improvement Plans and/or Stormwater Control Plans.

ST6. **Decorative & Recreational Water Features.** Decorative and recreational water features such as fountains, pools, and ponds shall be designed and constructed to drain to the sanitary sewer system only.

ST7. **Small Projects.** For single-family homes and other small projects that create and/or replace 2,500 – 10,000 square feet of impervious surface area, the applicant shall implement at least one of the following site design measures:

a. Direction of roof runoff into cisterns or rain barrels
b. Direction of roof, sidewalk, walkway, patio, driveway, or parking lot runoff onto vegetated areas
c. Construction of sidewalks, walkways, patios, bike lanes, driveways, and parking lots with permeable surfaces

Plans shall specify which site design measures are selected for the project and show the direction of flow from impervious surfaces to the selected site design measures. All measures shall meet the design criteria in the 2016 C.3. Stormwater Handbook, Appendix K: Standard Specifications for Lot-Scale Measures for Small Projects.

ST8. **Interior Floor Drains.** Interior floor drains shall be plumbed to the sanitary sewer system and not connected to the City's storm drain system.

ST9. **Trash Enclosure Floor Drains.** Floor drains within trash enclosures shall be plumbed to the sanitary sewer system and not connected to the City's storm drain system.
ST10. **Architectural Copper.** The use of architectural copper is prohibited.

DURING CONSTRUCTION OR OPERATION

ST11. **Biotreatment Soil Media.** Applicant shall install biotreatment soil media that meets the minimum specifications as set forth in the SCVURPPP C.3 Stormwater Handbook. If percolation rate test of the biotreatment soil mix is not performed on-site, a certification letter from the supplier verifying that the soil meets the specified mix (the date of such document shall not be older than 3 months).
ST12. **Stormwater Control Measure Inspection.** At critical construction phases, all stormwater control measures shall be inspected for conformance to approved plans by a qualified 3rd party consultant from the SCVURPPP List of Qualified Consultants.
ST13. **Inspections.** Permeable Pavement, Media Filter vaults, and Trash Full Capture Devices shall be inspected by a 3rd party reviewer and/or manufacturer representative for conformance with the details and specifications of the approved plans. All new pervious concrete and porous asphalt pavements should have a minimum surface infiltration rate of 100 in./hr. as described in the SCVURPPP C.3 Handbook. A map displaying the number, location and details of full trash capture devices shall be prepared as an attachment to the Operations and Maintenance (O&M) Agreement with the City.
ST14. **Stormwater Treatment Facilities.** Stormwater treatment facilities must be designed, installed, and maintained to achieve the site design measures throughout their life in accordance to the SCVRUPPP C.3 Stormwater Handbook (Chapter 6 and Appendix C).
ST15. **Amendments to Operation & Maintenance Agreement.** Any site design measures used to reduce the size of stormwater treatment measures shall not be installed for the project without the written approval from the City, installing the corresponding resizing of other stormwater treatment measures and an amendment of the property's O&M Agreement.
ST16. **Stormwater Pollution Prevention Messaging.** Developer shall install an appropriate stormwater pollution prevention message such as "No Dumping – Flows to Bay" on any storm drains located on private property.
ST17. **Outdoor Storage Areas.** All outdoor equipment and materials storage areas shall be covered and/or bermed, or otherwise designed to limit the potential for runoff to contact pollutants.

PRIOR TO FINAL OF BUILDING PERMIT

ST18. **As-Built Drawings.** As-Built drawing shall be submitted to the Public Works Department.
ST19. **3rd Party Concurrence Letter.** 3rd Party concurrence letter on the C.3 facilities construction shall be submitted to the Public Works Department. The letter shall be prepared by a 3rd party consultant from the SCVURPPP List of Qualified Consultants. The City reserves the right to review the 3rd party inspection report on the C.3 stormwater facility installation.
ST20. **Final C.3 Inspection.** Applicant shall schedule and City shall conduct a final C.3 inspection.
ST21. **Operation & Maintenance Agreement.** The property owner shall enter into an Operation and Maintenance (O&M) Agreement with the City for all installed stormwater treatment measures and full trash capture devices in perpetuity. Applicants should contact Public Works Dept. - Environmental Services at (408) 615-3080 or Street@SantaClaraCA.gov for assistance completing the Agreement. For more information and to download the most

recent version of the O&M Agreement, visit the City's stormwater resources website at http://santaclaraca.gov/stormwater. Inspection of permeable pavement, media filter vaults and full trash capture devices is to be done annually by December 31 of each year.

WATER & SEWER DEPARTMENT

DESIGN / PERFORMANCE -- PRIOR TO ISSUANCE OF BUILDING PERMIT

W1. **Related Approvals:** Applicant shall comply with all related City approvals, entitlements, permits, or requirements associated with the subject property, unless explicitly superseded or revised by the Director of Water and Sewer Utilities.

W2. **Existing Services.** The applicant shall show all existing water and sewer services, meters, and mains on the plans and indicate their sizes on the proposed site plan or on a composite utility plan. If the existing services will not be used, then the applicant shall properly abandon these services at the main per Water & Sewer Utilities standards and install a new service to accommodate the water needs of the project. The applicant shall bear the cost of any relocation or abandonment of existing Water Department facilities required for project construction to the satisfaction of the Director of Water and Sewer Utilities.

W3. **Separate Services. Applicant shall provide separate water, recycled water, sanitary sewer, and fire services connected to a public main in the public right-of-way for each parcel to the satisfaction of the Director of Water & Sewer Utilities; shared services may be permitted provided that each parcel is separately submetered, and shared utilities are located in a parcel to be used as common areas or shared private street. Different types of water and recycled water use (domestic, irrigation, fire) shall be served by separate water services, each separately tapped at the water main. Services cannot cross a different parcel than the one it serves. No parcel shall be created that requires an easement from an adjacent parcel, parcels to be used as common areas or shared private streets excluded, in order to be served. Tapping on existing fire service line(s) is prohibited. Approved backflow prevention device(s) are required on all potable water services.**

W4. **Easements.** Prior to City's issuance of Building or Grading Permits, the applicant shall provide a dedicated water utility easement around the backflow prevention device onsite. The water utility easement for the water services and all other public water appurtenances shall be a minimum 15 feet wide and be adjacent to the public right-of-way without overlapping any public utility easement. Additionally, the applicant shall submit plans defining existing easements so Water Division can verify if there are any conflicts with proposed easements and water utilities.

REPORT TO DEVELOPMENT REVIEW HEARING

SUBJECT

PUBLIC HEARING: Action on the Architectural Review (PLN24-00034) for the Demolition of an Existing Single-Family Residence and the Construction of Six New Single-Family Detached Residences, of Approximately 2,772 Square Feet with One Affordable Unit at the Moderate Level of Affordability, Subject to SB 330 Located at 4503 Cheeney Street.

File No.: PLN24-00034
Location: 4503 Cheeney, a 18,651 square-foot lot located on the east side of Cheeney Street, on the corner of Cheeney Street and Third Street; APN: 104-09-034;
General Plan: Low Density Residential (8-19 DU/AC)
Zoned: Low Density Residential (R2)
Applicant: Jeff Aguilar
Owner: Kathleen Daudistel Trustee & Et Al
Request: Architectural Review - Demolition of an existing single-family residence and the construction of six new single family detached residences, of approximately 2,772 square feet with one affordable unit at the moderate level of affordability, subject to SB 330 located at 4503 Cheeney Street.

PROJECT DATA

The Project Data and Compliance Table is included as Attachment 2.

POINTS FOR CONSIDERATION

- The proposed project is in a residential tract consisting of both one- and two-story residences with a mixture of detached single family and attached single family homes. See Vicinity Map in Attachment 1.
- The site currently has a single-family home (built circa 1963) that will be removed to incorporate the six new residences.
- Per the Santa Clara City Code (SCCC) 18.120.020.D2 & 3, the request requires Architectural Review approval through Development Review Hearing.
- The project proposes six new single family detached residences, each being approximately 2,772 square feet consisting of two car garages of 410 square feet, and three bedrooms and two- and one-half bathrooms.
- Direct vehicular access for the 0.44-acre lot would is from Third Street with a single driveway for the six residences. Solid Waste service for the site would be achieved with individual bins placed curbside along Third Street during service days.
- The project proposes a contemporary architectural design that appears to be in harmony with

the existing character of the neighborhood, with horizontal lap siding, stucco, box windows, and prominent entryways for two residences abutting Third Street. All roofs are hip style to reduce the massing of the structures.

- The project proposes an affordable unit, which is consistent with the City's Affordable Housing Ordinance and allows the applicant to use State density bonus law to seek waivers from the SCCC. After working with the City to reduce the extent of the waivers, the applicant and the City agreed to three waivers for: front yard setbacks, rear yard setbacks, and building coverage.
- Pursuant to the density bonus law, the applicant is also entitled to one concession for the affordable housing project, the applicant has chosen to use that concession for the corner side yard fence height to maintain a six-foot height within a required setback where only a three-foot fence would be permitted.
- The project has been submitted under Senate Bill (SB) 330 (2019) and later SB 8 (2022), which allows a project to move forward if it complies with applicable, objective general plan, zoning, and subdivision standards and criteria, including design review standards, in effect at the time that the application was deemed complete. The applicant has worked with the City to create a design that is in harmony with the surrounding neighborhood and abides by the spirit of the 2014 Design Guidelines for Single-Family and Duplexes.
- The proposed project meets the required finding set forth in SCCC Chapter 18.120.
- There are no active City code enforcement cases for this property.
- A Community Meeting was held for the project on 11/13/2024, about eight members of the public were in attendance. The overall comment from the public was a concern regarding on-street parking.
- A neighborhood notice was distributed within a 500-foot radius of the subject site for this project review.

FINDINGS SUPPORTING STAFF'S RECOMMENDATION

Granting the Architectural Review approval requires the following findings consistent with the City Code Section 18.120.020(F):

1) That any off-street parking area, screening strips, and other facilities and improvements necessary to secure the purpose and intent of this title and the general plan of the City area a part of the proposed development, in that:
   - Each unit will have a two-car garage which will provides the Code required two covered parking spaces for each residence. Per SCCC, each garage should maintain an unobstructed 17'x17' space for parking. As conditioned, the project would require that each garage be used for parking vehicles and not only for storage.
   - The required parking spaces are not located in the required front yard or side yard landscaped areas.
   - The proposed project provides areas surfaced with all-weather materials of parking vehicles.
2) That the design and location of the proposed development and its relation to neighboring developments and traffic is such that it will not impair the desirability of investment or occupation in the neighborhood, will not unreasonably interfere with the use and enjoyment of

neighboring developments, and will not create traffic congestion or hazard, in that:

- The proposed residence would add an additional five residences to the property which should not create substantive traffic congestion or hazards.
- Public streets, including Cheeney Street and Third Street, are adequate in size and design to serve the proposed residences, and the use will not create a substantive increase in traffic.

3) That the design and location of the proposed development is such that it is in keeping with the character of the neighborhood and is such as not to be detrimental to the harmonious development contemplated by this title and the general plan of the City, in that:
   - The proposed project is consistent with the surrounding character of the neighborhood by including such architectural elements as box windows clad in painted accent panels, a combination of eight-inch horizontal lap siding and stucco materials, standing seam roofing on the entryways, and asphalt shingle roofing.
     - The architectural features of the proposed design are true to the architectural form and appropriate for the neighborhood.
     - The proposed project is consistent with the scale and design found in the existing surrounding neighborhoods.

4) That the granting of such approval will not, under the circumstances of the particular case, materially affect adversely the health, comfort or general welfare of persons residing or working in the neighborhood of said development, and will not be materially detrimental to the public welfare or injuries to property or improvements in said neighborhood, in that:
   - The project is subject to the California Building Code and City Code requirements, which serve to regulate new construction to protect public health, safety, and general welfare.

5) That the proposed development, as set forth in the plans and drawings, are consistent with the set of more detailed policies and criteria for architectural review as approved and updated from time to time by the City Council, which set shall be maintained in the planning division office. The policies and criteria so approved shall be fully effective and operative to the same extent as if written into and made a part of this title, in that:
   - The proposed development is consistent with the objective standards set forth in the General Plan and Zoning Code, and with the waivers and concession, comply with the R2 zoning district's development standards.

CONDITIONS OF APPROVAL

Conditions of approval are proposed for the project and are contained in Attachment 3.

ENVIRONMENTAL REVIEW

The action being considered is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 - In-Fill Development Projects), in that the proposed project meets the following conditions:

(a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations.
(b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses.
(c) The project site has no value as habitat for endangered, rare or threatened species.
(d) Approval of the project would not result in any significant effects relating to traffic, noise, air

quality, or water quality.
(e) The site can be adequately served by all required utilities and public services.

PUBLIC CONTACT

Public contact was made by posting the Development Review Hearing agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

A public hearing notice was mailed to property owners within a 500-foot radius of the project site on November 27, 2024. As of the writing of this report, planning staff has not received public comments for this application.

RECOMMENDATION

Determine the project to be categorically exempt from the California Environmental Quality Act (CEQA) formal pursuant to CEQA Guidelines Section 15332 (Class 32 - In-Fill Development Projects) and Approve the demolition of an existing single-family residence and the construction of six new single family detached residences, of approximately- 2,772 square feet with one affordable unit at the moderate level of affordability, located at 4503 Cheeney Street, subject to findings and conditions of approval.

Prepared by: Daniel Sobczak, Associate Planner, Community Development Department
Approved by: Sheldon S. Ah Sing, Development Review Officer, Community Development Department

REPORT TO PLANNING COMMISSION

SUBJECT

Public Hearing: Vesting Tentative Map (PLN24-00044) for a Common Interest Development for the Proposed Development of Six Single-Family Housing Units to Accompany Architectural Review Application (PLN24-00034), Subject to Streamlining Under SB 330 (2019), Located at 4503 Cheeney Street.

File No.: PLN24-00044
Location: 4503 Cheeney Street, a 18,651 square-foot lot located on the east side of Cheeney Street, on the corner of Cheeney Street and Third Street; APN: 104-09-034;
General Plan: Low Density Residential (8-19 DU/AC)
Zoned: Low Density Residential (R2)
Applicant: Jeff Aguilar
Owner: Jeff Aguilar
Request: Vesting Tentative Map for a Common Interest Development for the Proposed Development of Six Single Family Housing Units

Surrounding Land Uses:
North: R2 - Low Density Residential
South: Planned Development - Low Density Residential
East: Planned Development - Low Density Residential
West: Planned Development - Low Density Residential

Issues: Consistency with the City's General Plan, City's Subdivision ordinance and conformance with the Subdivision Map Act.

Staff Recommendation: The Planning Commission recommend that the City Council determine that the project is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 - In-Fill Development Projects); and adopt a resolution recommending that the Council approve the Vesting Tentative Subdivision Map for the property located at 4503 Cheeney Street, subject to findings and conditions of approval.

BACKGROUND

On September 13, 2023, Jeff Aguilar, on behalf of Valley Oak Partners (applicant) submitted a Preliminary Application under SB 330 (2019). On January 17, 2024, the applicant submitted a formal proposal for the subject property. The formal application request, consistent with the preliminary application, included the demolition of an existing single-family residence, the construction of six two-story single-family residences, and a vesting tentative subdivision map to create a common interest development of six condominium lots and a common access easement. The proposed project was split into two separate applications: (File No. PLN24-00034) for the Architectural Review Permit for the development of the parcel; and (File No. PLN24-00044) for the Vesting Tentative Subdivision Map. File No. PLN24-00034 was deemed complete by the Project Clearance Committee (PCC) on September 24, 2024, and File No. PLN24-00044 was deemed complete by the Subdivision Committee on August 26, 2025.

The Architectural Review Permit for the development portion of the application, File No. PLN24-00034, went to the Development Review Hearing (DRH) on December 11, 2024. There were no public comments regarding

the application at the meeting, and the application was approved subject to findings and conditions of approval. The DRH staff report is available as Attachment 4.

For File No. PLN24-00034, the Planning Commission's review and recommendation to the City Council is required under Code Section 17.05.300 - Tentative Maps. Tentative Maps are ultimately approved by the City Council.

Subdivision

Subdivision Map applications are reviewed for consistency with the City's General Plan, Zoning Code (Title 18), Subdivision Code (Chapter 17.05), and conformance with the Subdivision Map Act. Under the Subdivision Map Act (California Government Code § 66474(a)), a developer has the right to indicate that a map application will be proceeding as a "vesting" map, which gives the developer a right, upon map approval, to develop in substantial compliance with the ordinances, policies, and standards in effect on the date in which the developer's application is deemed complete.

In accordance with Chapter 17.05 of the City Code, the project requires a tentative subdivision map because there are five or more lots proposed. The application includes a one lot subdivision for six condominium lots and one access easement. The proposed Vesting Tentative Map was reviewed by the City's Subdivision Committee and deemed complete and cleared on August 26, 2025. Staff confirmed that the proposed subdivision will not result in any inconsistencies with the General Plan and zoning designations for the property, Building Code, or other applicable requirements.

The findings required for approval of the proposed Vesting Tentative Map include the following:

- General Plan Consistency: The subdivision would be consistent with the General Plan land use designation of Low Density Residential. The subdivision would create additional residential development in proximity to jobs, incrementally advancing the City's goals to produce new housing; would provide a deed-restricted affordable housing unit, which forwards Residential Land Use Goal 5.3.2-G3 to disperse affordable housing units across the City; and is compatible in both character and size with neighboring low intensity residential development (Policy 5.3.1-P29).

- Site Suitability: Much of the surrounding area includes similar style residences-common interest developments with multiple residences in a singular lot. See Attachment 1 for a vicinity map.

- Zoning Code Compatibility: The Project also meets most of the development standards of the Zoning Code, although the inclusion of the affordable unit allowed the applicant to use the State density bonus law to seek waivers from selected standards. After working with the City to reduce the extent of the waivers, the applicant and the City agreed to three waivers for: front yard setbacks, rear yard setbacks, and building coverage. The applicant also used a state entitled concession for the corner side yard fence height to maintain a six-foot height within a required setback where only a three-foot fence would be permitted. The project, after utilizing the waivers and concession under the State Density Bonus Law, meets the applicable provisions of the City's Zoning Code.

- No Adverse Effects: The design of the subdivision and type of improvements will not cause substantial environmental damage, as the project is a small-scale residential development that will comply with current Building Code requirements, including applicable provisions of the City's Reach Code. The project would not result in adverse health effects as it will be subject to Covenants, Conditions and Restrictions for operation and maintenance of the buildings and site improvements and does not propose the use of hazardous materials.

- Conflicts With Easements: As designed, the project would not conflict with any recorded public

easements for access through or use of the proposed subdivision.

- Natural/Passive Heating and Cooling: The project will adhere to CALGreen energy efficiency measures to conserve energy through building design and site planning.

Approval of the requested Vesting Tentative Subdivision Map will facilitate the development of a project consistent with the City's Zoning Code and General Plan, thereby establishing of a new, residential development in proximity to jobs, and incrementally advancing the City's goals to produce new housing. Conditions of Approval have been prepared and are provided as Attachment 3.

Architectural Review

Throughout the process, the applicant has revised their submission several times and worked with the Planning Division to get to a design plan that the Planning Division supports. Full review of the architecture took place at a regularly scheduled Development Review Hearing on December 11, 2024 (Staff report contained in Attachment 4). The approved Architectural Review development plans are provided in Attachment 5.

Senate Bill (SB) 330 Review

The project is subject to streamlining under SB 330, which was passed in 2019 to accelerate housing production in urban areas. The law limits the number of public hearings a City can conduct for a project to five, if the project complies with the applicable General Plan and zoning standards in effect at the time of application. The project has gone through one public hearing, the Development Review Hearing, on December 11, 2024, and any subsequent hearings will be counted towards the five hearings allowed. Community meetings and other applicant led meetings do not count towards the five hearings allowed. Consistent with SB 330, the project shall be subject only to the ordinances, policies, and standards adopted and in effect when the preliminary application was submitted (September 13, 2023).

Summary

The project would be compatible with adjacent land uses, the project is consistent with the General Plan and is consistent with the zoning designation. Findings can be made to support the approval of the vesting tentative subdivision map.

CONDITIONS OF APPROVAL

Conditions of approval are proposed for the project and are contained in Attachment 3.

ENVIRONMENTAL REVIEW

The action being considered is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 - In-Fill Development Projects), in that the proposed project meets the following conditions:

(a) The project is consistent with the applicable General Plan designation and all applicable General Plan policies as well as with applicable zoning designation and regulations.
(b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses.
(c) The project site has no value as habitat for endangered, rare or threatened species.
(d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.
(e) The site can be adequately served by all required utilities and public services.

COORDINATION

This report was coordinated with the City Attorney's Office.

PUBLIC CONTACT

Community Meeting

Consistent with the City's adopted Public Outreach Policy for Planning applications, a hybrid public outreach meeting was conducted by the Property Owner/Applicant on November 11, 2024, to engage the neighborhood community in the planning process. Notices of the meetings were mailed by the Property Owner/Applicant to properties within 500 feet of the project site boundaries and posted on the City's website. This meeting provided the community an opportunity to review and comment on the proposal and because of the community input,
eight members of the public were in attendance. The overall comment from the public was a concern regarding on-street parking. The project currently meets all off-street parking requirements.

Hearing Noticing

Public contact was made by posting the Development Review Hearing agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

A public hearing notice was mailed to property owners within a 500-foot radius of the project site on September 25, 2025.

RECOMMENDATION

1. Recommend that the City Council determine the project to be categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 - In-Fill Development Projects); and
2. Adopt a Resolution recommending the City Council approve the Vesting Tentative Map (PLN24-00044) for a common interest development for the proposed development of six single family housing units located at 4503 Cheeney Street to accompany the Architectural Review application (PLN 24-00034), subject to findings and conditions of approval

PROJECT DESCRIPTION:

The project site is located at 4503 Cheeney Street. The existing site consists of a single family detached home. The project proposes demolition of existing building, and construction of 6 new single family detached homes. Each home will include a gross living area of +/- 2,275 sf, and a gross construction area of 2,772 sf. Residential development at this density is an allowed use per the existing General Plan designation.

The project layout is designed similarly to the surrounding neighborhood, with corner units entering from the Third Street frontage and interior units entering from a private driveway. Resident parking will be provided in private garages. The architectural design features a variety of colors and materials intended to compliment the proposed building articulation.

An SB 330 preapplication for this project was submitted in September 2023. The proposed project requires Architectural Review and approval of State Density Bonus.

includes requests for 7 waivers as noted in the Project Summary table.

- 5 1/2” X 3/4” CEMENTIOUS TRIM @ PANEL FINISH
- 9” X 9” CEMENTIOUS TRIM WRAPPED COLUMNS

ROOF
- ASPHALT COMPOSITION SHINGLE ROOF
- PREFINISHED STANDING SEAM METAL ROOF

NOTES

1. ASSESSOR'S PARCEL NO.: 104-09-034
2. BASIS OF BEARINGS: THE BEARING NORTH 61°40'00" EAST AS FOUND MONUMENTED ON THIRD STREET, AS SHOWN ON THAT CERTAIN PARCEL MAP FILED FOR RECORD IN BOOK 725 OF MAPS AT PAGES 30-31, SANTA CLARA COUNTY RECORDS, WAS TAKEN AS THE BASIS FOR ALL BEARINGS SHOWN ON THIS SURVEY.
3. BENCHMARK: VALLEY WATER BENCHMARK ID BM098. BRASS DISK ON TOP AND BACK OF SIDEWALK AT THE WESTERLY CORNER OF INTERSECTION FOR AGNEWS ROAD AND SAN TOMAS CREEK (SAN TOMAS CREEK IS LOCATED BETWEEN MISSION BOULEVARD AND LAKE SANTA CLARA DRIVE. CITY OF SANTA CLARA. NAVD88 ELEVATION: 25.66
4. AREA: 0.428 ACRES

LEGAL DESCRIPTION

THE LAND REFERRED TO IN THIS REPORT IS SITUATED IN THE COUNTY OF SANTA CLARA, CITY OF SANTA CLARA, STATE OF CALIFORNIA, AND IS DESCRIBED AS FOLLOWS:

PARCEL 2, AS SHOWN ON THAT CERTAIN PARCEL MAP FILED IN THE OFFICE OF THE RECORDER OF THE COUNTY OF SANTA CLARA, STATE OF CALIFORNIA ON MARCH 13, 2000 IN BOOK 725 OF MAPS, PAGES 30 AND 31.

EXCEPTIONS

5. AN EASEMENT AFFECTING THAT PORTION OF SAID LAND AND FOR THE PURPOSES STATED HEREIN AND INCIDENTAL PURPOSES AS PROVIDED IN THE FOLLOWING

INSTRUMENT :	RESOLUTION NO. 6664
RESERVED BY :	CITY OF SANTA CLARA
FOR :	CONSTRUCTING AND RECONSTRUCTING, INSTALLING, OPERATING, MAINTAINING, REPAIRING AND/OR REPLACING PUBLIC AND CITY UTILITY FACILITIES
RECORDED :	FEBRUARY 29, 2000 IN OFFICIAL RECORDS UNDER RECORDER'S SERIAL NUMBER 15166951
AFFECTS :	THE EXACT LOCATION NOT CLEARLY DEFINED

Construction Best Management Practices (BMPs)

Construction projects are required to implement year-round stormwater BMPs.

Materials & Waste Management

Non-Hazardous Materials

- ❑ Berm and cover stockpiles of sand, dirt or other construction material with tarps when rain is forecast or when they are not in use.
- ❑ Use (but don't overuse) reclaimed water for dust control.
- ❑ Ensure dust control water doesn't leave site or discharge to storm drains.

Hazardous Materials

- ❑ Label all hazardous materials and hazardous wastes (such as pesticides, paints, thinners, solvents, fuel, oil, and antifreeze) in accordance with City, County, State and Federal regulations.
- ❑ Store hazardous materials and wastes in water tight containers, store in appropriate secondary containment, and cover them at the end of every work day or during wet weather or when rain is forecast.
- ❑ Follow manufacturer's application instructions for hazardous materials and do not use more than necessary. Do not apply chemicals outdoors when rain is forecast within 24 hours.
- ❑ Arrange for appropriate disposal of all hazardous wastes.

Waste Management

- ❑ Cover and maintain dumpsters. Check frequently for leaks. Place dumpsters under roofs or cover with tarps or plastic sheeting secured around the outside of the dumpster. A plastic liner is recommended to prevent leaks. Never clean out a dumpster by hosing it down on the construction site.
- ❑ Place portable toilets away from storm drains. Make sure they are in good working order. Check frequently for leaks.
- ❑ Dispose of all wastes and demolition debris properly. Recycle materials and wastes that can be recycled, including solvents, water-based paints, vehicle fluids, broken asphalt and concrete, wood, and cleared vegetation.
- ❑ Dispose of liquid residues from paints, thinners, solvents, glues, and cleaning fluids as hazardous waste.
- ❑ Keep site free of litter (e.g. lunch items, cigarette butts).
- ❑ Prevent litter from uncovered loads by covering loads that are being transported to and from site.

Construction Entrances and Perimeter

- ❑ Establish and maintain effective perimeter controls and stabilize all construction entrances and exits to sufficiently control erosion and sediment discharges from site and tracking off site.
- ❑ Sweep or vacuum any street tracking immediately and secure sediment source to prevent further tracking. Never hose down streets to clean up tracking.

Equipment Management & Spill Control

Maintenance and Parking

- ❑ Designate an area of the construction site, well away from streams or storm drain inlets and lifted with appropriate BMPs, for auto and equipment parking, and storage.
- ❑ Perform major maintenance, repair jobs, and vehicle and equipment washing off site.
- ❑ If refueling or vehicle maintenance must be done onsite, work in a bermed area away from storm drains and over a drip pan or drop cloths big enough to collect fluids. Recycle or dispose of fluids as hazardous waste.
- ❑ If vehicle or equipment cleaning must be done onsite, clean with water only in a bermed area that will not allow rinse water to run into gutters, streets, storm drains, or surface waters.
- ❑ Do not clean vehicle or equipment onsite using soaps, solvents, degreasers, or steam cleaning equipment, and do not use diesel oil to lubricate equipment or parts onsite.

Spill Prevention and Control

- ❑ Keep spill cleanup materials (e.g., rag, absorbents and cat litter) available at the construction site at all times.
- ❑ Maintain all vehicles and heavy equipment. Inspect frequently for and repair leaks. Use drp pans to catch leaks until repairs are made.
- ❑ Clean up leaks, drips and other spills immediately and dispose of cleanup materials properly.
- ❑ Use dry cleanup methods whenever possible (absorbent materials, cat litter and/or rags).
- ❑ Sweep up spilled dry materials immediately. Never attempt to "wash them away" with water, or bury them.
- ❑ Clean up spills on dirt areas by digging up and properly disposing of contaminated soil.
- ❑ Report significant spills to the appropriate local spill response agencies immediately. If the spill poses a significant hazrd to human health and safety, property or the environment, you must report it to the State Office of Emergency Services, (800) 852-7550 (24 hours).

Earthmoving

Grading and Earthwork

- ❑ Schedule grading and excavation work during dry weather.
- ❑ Stabilize all denuded areas, install and maintain temporary erosion controls (such as erosion control fabric or bonded fiber matrix) until vegetation is established.
- ❑ Remove existing vegetation only when absolutely necessary, plant temporary vegetation for erosion control on slopes or where construction is not immediately planned.
- ❑ Prevent sediment from migrating offsite and protect storm drain inlets, drainage courses and streams by installing and maintaining appropriate BMPs (i.e. silt fences, gravel bags, fiber rolls, temporary swales, etc.).
- ❑ Keep excavated soil on site and transfer it to dump trucks on site, not in the streets.

Contaminated Soils

- ❑ If any of the following conditions are observed, test for contamination and contact the Regional Water Quality Control Board:
  - Unusual soil conditions, discoloration, or odor.
  - Abandoned underground tanks.
  - Abandoned wells
  - Buried barrels, debris, or trash.
- ❑ If the above conditions are observed, document any signs of potential contamination and clearly mark them so they are not disturbed by construction activities.

Landscaping

- ❑ Protect stockpiled landscaping materials from wind and rain by storing them under tarps all year-round.
- ❑ Stack bagged material on pallets and under cover.
- ❑ Discontinue application of any erodible landscape material within 2 days before a forecast rain event or during wet weather.

Concrete Management and Dewatering

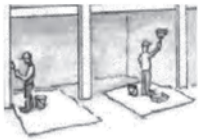
Concrete Management

- ❑ Store both dry and wet materials under cover, protected from rainfall and runoff and away from storm drains or waterways. Store materials off the ground, on pallets. Protect dry materials from wind.
- ❑ Wash down exposed aggregate concrete only when the wash water can (1) flow onto a dirt area; (2) drain onto a bermed surface from which it can be pumped and disposed of properly; or (3) block any storm drain inlets and vacuum washwater from the gutter. If possible, sweep first.
- ❑ Wash out concrete equipment/trucks offsite or in a designated washout area onsite, where the water will flow into a temporary waste pit, and make sure wash water does not leach into the underlying soil. (See CASQA Construction BMP Handbook for properly designed concrete washouts.)

Dewatering

- ❑ Discharges of groundwater or captured runoff from dewatering operations must be properly managed and disposed. When possible, send dewatering discharge to landscaped area or sanitary sewer. If discharging to the sanitary sewer, call your local wastewater treatment plant.
- ❑ Divert run-on water from offsite away from all disturbed areas.
- ❑ When dewatering, notify and obtain approval from the local municipality before discharging water to a street gutter or storm drain. Filtration or diversion through a basin, tank, or sediment trap may be required.
- ❑ In areas of known or suspected contamination, call your local agency to determine whether the ground water must be tested. Pumped groundwater may need to be collected and hauled off-site for treatment and proper disposal.

Paving/Asphalt Work



Paving

- ❑ Avoid paving and seal coating in wet weather or when rain is forecast, to prevent materials that have not cured from contacting stormwater runoff.
- ❑ Cover storm drain inlets and manholes when applying seal coat, slurry seal, fog sea, or similar materials.
- ❑ Collect and recycle or properly dispose of excess abrasive gravel or sand. Do NOT sweep or wash it into gutters.

Sawcutting & Asphalt/Concrete Removal

- ❑ Protect storm drain inlets during saw cutting.
- ❑ If saw cut slurry enters a catch basin, clean it up immediately.
- ❑ Shovel or vacuum saw cut slurry deposits and remove from the site. When making saw cuts, use as little water as possible. Sweep up, and properly dispose of all residues.

Painting & Paint Removal

Painting Cleanup and Removal

- ❑ Never clean brushes or rinse paint containers into a street, gutter, storm drain, or stream.
- ❑ For water-based paints, paint out brushes to the extent possible, and rinse into a drain that goes to the sanitary sewer. Never pour paint down a storm drain.
- ❑ For oil-based paints, paint out brushes to the extent possible and clean with thinner or solvent in a proper container. Filter and reuse thinners and solvents. Dispose of excess liquids as hazardous waste.
- ❑ Sweep up or collect paint chips and dust from non-hazardous dry stripping and sand blasting into plastic drop cloths and dispose of as trash.
- ❑ Chemical paint stripping residue and chips and dust from marine paints or paints containing lead, mercury, or tributyltin must be disposed of as hazardous waste. Lead based paint removal requires a state-certified contractor.

Santa Clara Valley
Urban Runoff
Pollution Prevention Program

Storm drain polluters may be liable for fines of up to $10,000 per day!

PLANTING NOTES

1. THE PLANTING DESIGN FOR THE SITE IS DROUGHT TOLERANT AND CONSISTS OF A BALANCE OF EVERGREEN AND DECIDUOUS PLANTING AS WELL AS NATIVE AND ORNAMENTAL PLANTING.
2. PROPOSED TREE LOCATIONS ARE BASED ON STANDARD JOINT TRENCH LOCATIONS. FINAL TREE LOCATIONS TO BE DETERMINED WHEN FINAL UTILITY LOCATIONS ARE PROVIDED. TREE PLACEMENT MAY BE ADJUSTED AND FINAL TREE COUNT MAY CHANGE.
3. ALL SHRUBS AND GROUNDCOVER MATERIAL SELECTED HAVE A WUCOLS WATER USE RATING OF VERY LOW TO MODERATE.
4. PROPOSED TREE CANOPIES ARE SHOWN AT 85% MATURE GROWTH DIAMETER IN ORDER TO ENSURE THERE IS SUFFICIENT ROOM FOR TREE GROWTH AND HEALTH.
5. NO CUTTING OF ANY PART OF PUBLIC TREES, INCLUDING ROOTS, SHALL BE DONE WITHOUT FOLLOWING CITY TREE PRESERVATION SPECIFICATIONS AND SECURING APPROVAL AND DIRECT SUPERVISION FROM THE CITY ARBORIST AT (408) 615-3080. APPLICANT IS ADVISED TO CONTACT CITY ARBORIST TO OBTAIN REQUIRED TREE REMOVAL PERMITS IN THE EVENT TREES ARE REMOVED.
6. NO CUTTING OF ANY PART OF PRIVATE TREES, INCLUDING ROOTS, SHALL BE DONE WITHOUT DIRECT SUPERVISION OF A CERTIFIED ARBORIST.
7. ALL TREES PLANTED WITHIN 5' OF PAVING, WATER METERS/SERVICE LINES, OR JOINT TRENCHES SHALL RECEIVE LINEAR RECYCLED PLASTIC ROOT BARRIERS PARALLEL TO CURB AND WALKS- EACH SIDE (24" DEPTH X 16' LENGTH, MIN.)

TREE REPLACEMENT

*REQUIRED TREE REPLACEMENT RATIO IS 1:1

EXISTING TREES	QUANTITY
TO BE REMOVED	3
TOTAL EXISTING TREES TO BE REMOVED:	**3**

PROPOSED TREES	QUANTITY
24" BOX TREE	4
TOTAL PROPOSED TREES:	**4**

*NOTE:
1. REPLACEMENT TREE PLANTING AT A MINIMUM RE-PLANTING RATIO OF 1:1 FOR THE REMOVAL OF PROTECTED TREES. REPLACEMENT RATIOS AND MINIMUM TREE SIZES ARE DETERMINED AT THE DISCRETION OF THE DEPARTMENT OF COMMUNITY DEVELOPMENT.

D LIGHTING

SCALE: 1" = 20'-0"

LIGHTING CONCEPT STATEMENT

THE SITE LIGHTING WILL SERVE AS BOTH FUNCTIONAL LIGHTING AS WELL AS ACCENT. LIGHTING WILL MEET OR EXCEED THE MINIMUM FOOT-CANDLE LEVELS REQUIRED BY THE CITY OF SANTA CLARA. THE STYLE OF THE FIXTURES ARE PROPOSED TO COMPLEMENT THE ARCHITECTURAL CHARACTER.

THE BUILDING ENTRIES WILL BE LIT VIA ARCHITECTURALLY MOUNTED AREA DOWNLIGHTS.

THE PROPOSED DRIVEWAY IS INTENDED TO BE LIT USING WALL PACKS.

LIGHT LOCATIONS ARE SCHEMATIC FINAL LOCATIONS SHALL BE PER PHOTOMETRIC PLAN.

IRRIGATION CONCEPT STATEMENT

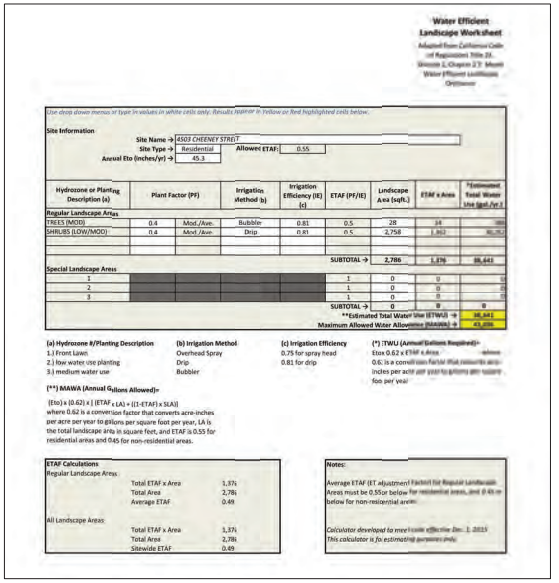
1. THE IRRIGATION DESIGN FOR THE SITE SHALL COMPLY WITH THE STATE MANDATED MODEL WATER EFFICIENT LANDSCAPE ORDINANCE (MWELO) AND THE COUNTY OF SANTA CLARA ADOPTED MODIFIED VERSION OF MWELO.
2. THE IRRIGATION SYSTEMS WILL BE AUTOMATICALLY CONTROLLED BY AN ET/'SMART' IRRIGATION CONTROLLER CAPABLE OF MULTIPLE PROGRAMMING AND INDEPENDENT TIMING OF INDIVIDUAL IRRIGATION SYSTEMS. THE CONTROLLER WILL HAVE A 24-HOUR CLOCK TO ALLOW MULTIPLE START TIMES AND REPEAT CYCLES TO ADJUST FOR SOIL PERCOLATION RATES.
3. THE IRRIGATION SYSTEMS WILL CONSIST PRIMARILY OF LOW VOLUME, LOW FLOW BUBBLERS FOR TREES, POINT SOURCE DRIP IRRIGATION FOR SHRUBS AND GROUNDCOVERS, AND LOW-VOLUME SPRAY IRRIGATION FOR BIORETENTION PLANTINGS.
4. PLANTS WILL BE GROUPED ONTO SEPARATE VALVES ACCORDING TO SUN EXPOSURE AND WATER USE TO ALLOW FOR IRRIGATION APPLICATION BY HYDROZONE. THE IRRIGATION SCHEDULING WILL REFLECT THE REGIONAL EVAPO-TRANSPIRATION RATES. THE ENTIRE SITE WILL BE DESIGNED TO RUN DURING NIGHTTIME HOURS WHEN IRRIGATION IS MOST EFFICIENT.
5. ALL MWELO DOCUMENTATION INCLUDING IRRIGATION PLANS, WATER USE CALCULATIONS AND CERTIFICATES SHALL BE SUBMITTED WITH THE LANDSCAPE IMPROVEMENT PLANS FOR REVIEW AND APPROVAL.

IRRIGATION NOTES

1. DEPTH OF IRRIGATION LINES: ALL ON-GRADE LATERAL LINES SHALL BE BURIED TO A DEPTH OF 12" MIN. ALL ON-GRADE MAINLINES SHALL BE BURIED TO A DEPTH OF 18" MIN.

3. BACKFLOW PREVENTER: BACKFLOW PREVENTER SHALL BE A REDUCED PRESSURE PRINCIPLE BACKFLOW PREVENTER (FEBCO 825Y OR EQUAL) TYPE AS APPROVED BY WATER PURVEYOR.

4. IRRIGATION SPRINKLER TYPES: ALL SPRINKLERS SHALL UTILIZE MATCHED PRECIPITATION, PRESSURE COMPENSATING NOZZLES FOR MAXIMUM UNIFORMITY OF DISTRIBUTION. IRRIGATION SYSTEMS TO BE INSPECTED PERIODICALLY FOR BROKEN OR DEFICIENT EQUIPMENT.



5. IRRIGATION CONTROLLERS: CONTROLLER SHALL BE AN AUTOMATIC ET (EVAPOTRANSPIRATION) WITH MULTIPLE PROGRAMMING CAPABILITY. CONTROLLER TO BE REPROGRAMMED SEASONALLY TO MINIMIZE RUNOFF OR OVER WATERING. MOISTURE SENSING DEVICES SHALL BE UTILIZED TO CONTROL IRRIGATION CYCLES ACCORDING TO SPECIFIC IRRIGATION REQUIREMENTS.

6. CLASS OF IRRIGATION PIPE: MAINLINE PIPE SHALL BE SCHEDULE 40 PVC FOR LINES 2-1/2" AND SMALLER AND CLASS 315 PVC FOR LINES 3" AND LARGER. ALL LATERAL LINE SHALL BE CLASS 200 PVC.

7. IRRIGATION EMITTERS: ALL SHRUB/ GROUNDCOVER AREAS SHALL BE IRRIGATED USING DRIP IRRIGATION SYSTEM. ALL TREE AREAS SHALL BE IRRIGATED USING BUBBLER IRRIGATION SYSTEM.

Water Efficient Landscape Worksheet

Site Information

Site Name → 4503 CHEENEY STREET
Site Type → Residential
Anevul Eto (inches/yr) → 45.3
Allowed ETAF: 0.55

Hydrozone or Planting Description (a)	Plant Factor (PF)	Irrigation Method (b)	Irrigation Efficiency (IE) (c)	ETAF (PF/IE)	Landscape Area (sqft.)	ETAF x Area	*Estimated Total Water Use (gal./yr.)
Regular Landscape Areas							
TREES (MOD)	0.4	Mod./Ave.	Bubbler	0.81	0.5	28	14
SHRUBS (LOW/MOD)	0.4	Mod./Ave.	Drip	0.81	0.5	2,758	1,362
					SUBTOTAL →	2,786	1,376
Special Landscape Areas							
1					1	0	0
2					1	0	0
3					1	0	0
					SUBTOTAL →	0	0
					**Estimated Total Water Use (ETWU) →		38,641
					Maximum Allowed Water Allowance (MAWA) →		43,494

(a) Hydrozone #/Planting Description
1.) Front Lawn
2.) low water use planting
3.) medium water use

(b) Irrigation Method
Overhead Spray
Drip
Bubbler

(c) Irrigation Efficiency
0.75 for spray head
0.81 for drip

(*) ETWU (Annual Gallons Required)=
Eto x 0.62 x ETAF x Area
where 0.62 is a conversion factor that converts acre-inches per acre per year to gallons per square foot per year, LA is the total landscape area in square feet, and ETAF is 0.55 for residential areas and 0.45 for non-residential areas.

(**) MAWA (Annual Gallons Allowed)=
(Eto) x (0.62) x [(ETAF x LA) + ((1-ETAF) x SLA)]
where 0.62 is a conversion factor that converts acre-inches per acre per year to gallons per square foot per year, LA is the total landscape area in square feet, and ETAF is 0.55 for residential areas and 0.45 for non-residential areas.

ETAF Calculations
Regular Landscape Areas:
Total ETAF x Area 1,371
Total Area 2,786
Average ETAF 0.49
All Landscape Areas:
Total ETAF x Area 1,371
Total Area 2,786
Sitewide ETAF 0.49

Notes:
Average ETAF (ET Adjustment Factor) for Regular Landscape Areas must be 0.55or below for residential areas, and 0.45 or below for non-residential areas.
Calculator developed to meet code effective Jan. 1, 2015
This calculator is for estimating purposes only.

2. EXISTING GP DESIGNATION: LOW DENSITY RESIDENTIAL
3. EXISTING USE: RESIDENTIAL
4. PROPOSED ZONING: PD (PLANNED DEVELOPMENT)
5. PROPOSED USE: RESIDENTIAL
6. PROPOSED IMPROVEMENTS: DEMOLISH EXISTING BUILDINGS AND PARKING LOTS TO CONSTRUCT RESIDENTIAL SINGLE FAMILY BUILDINGS. CONSTRUCT UTILITY SERVICES INCLUDING STORM, SANITARY SEWER, WATER AND JOINT TRENCH.
7. VESTING TENTATIVE MAP: THIS VESTING TENTATIVE MAP IS BEING FILED IN ACCORDANCE WITH CHAPTER 3, ARTICLE 2, SECTION 66452 OF THE SUBDIVISION MAP ACT.
8. BOUNDARY: BOUNDARY INFORMATION IS BASE ON RECORD AND FIELD DATA.
9. EASEMENTS: EMERGENCY VEHICLE ACCESS EASEMENT, PUBLIC UTILITY EASEMENT, PUBLIC ACCESS EASEMENT, PRIVATE ACCESS EASEMENT, STORM DRAIN EASEMENT, PUBLIC ROADWAY EASEMENT AND PUBLIC LANDSCAPE EASEMENT WILL BE PROVIDED.
10. BOUNDARIES AND EASEMENTS DEPICTED HEREON HAVE BEEN TRANSCRIBED FROM THE DOCUMENTS REFERENCED BELOW. PORTIONS OF THESE MAY HAVE BEEN REORIENTED TO FIT TOGETHER. THIS MAY NOT BE COMPLETE OR ACCURATE. SEE COMMENTARY BELOW.

    TITLE REPORTS BY OLD REPUBLIC TITLE COMPANY;
    ORDER NUMBER 0631038265-RP DATED JUNE 12, 2023
11. BASIS OF BEARINGS: THE BEARING OF NORTH 61°40'00" EAST ALONG THE CENTER LINE OF THIRD STREET AS SHOWN ON THAT CERTAIN PARCEL MAP RECORDED IN BOOK 725 OF MAPS AT PAGE 30 AND 31 SANTA CLARA COUNTY RECORDS WAS USED AS THE BASIS OF BEARINGS SHOWN ON THIS MAP.
12. BENCHMARK: VALLEY WATER ID BM098. BRASS DISK ON TOP AND BACK OF SIDEWALK AT THE WESTERLY CORNER OF INTERSECTION FOR AGNEWS ROAD AND SAN TOMAS CREEK (SAN TOMAS CREEK IS LOCATED BETWEEN MISSION BOULEVARD AND LAKE SANTA CLARA DRIVE. CITY OF SANTA CLARA. NAVD88 ELEVATION = 25.66.
13. FEMA: THE SUBJECT PROPERTY IS SHOWN ON THE FEDERAL EMERGENCY MANAGEMENT AGENCY FLOOD INSURANCE RATE MAP, COMMUNITY PANEL NUMBERS 06085C0063H, DATED MAY 18, 2009, AS BEING PARTIALLY LOCATED IN FLOOD ZONE "ZONE X (SHADED)":

    AREAS OF 0.2% ANNUAL CHANCE FLOOD; AREAS OF 1% ANNUAL CHANCE FLOOD WITH AVERAGE DEPTHS OF LESS THAN 1 FOOT OR WITH DRAINAGE AREAS LESS THAN 1 SQUARE MILE; AND AREAS PROTECTED BY LEVEES FROM 1% ANNUAL CHANCE FLOOD.
14. ASSESSOR'S PARCEL NO.: 104-09-034
15. STORM SEWER TO BE SERVICED BY CITY OF SANTA CLARA
16. WATER TO BE PROVIDED BY CITY OF SANTA CLARA
17. SANITARY SEWER TO BE PROVIDED BY CITY OF SANTA CLARA
18. FIRE PROTECTION IS TO BE PROVIDED BY CITY OF SANTA CLARA
19. GAS IS TO BE PROVIDED BY PG&E
20. ELECTRIC IS TO BE PROVIDED BY SILICON VALLEY POWER
21. TELEPHONE IS TO BE PROVIDED BY AT&T
22. CABLE TV IS TO BE PROVIDED BY COMCAST
23. EXISTING LOTS: 1
24. PROPOSED LOTS: 1
25. TOTAL AREA: 0.428± ACRES
26. MULTIPLE FINAL MAPS MAY BE FILED PRIOR TO THE EXPIRATION OF THE TENTATIVE MAP.
27. THIS SUBDIVISION WILL CONFORM TO THE STREET TREE PLAN OF THE CITY OF SANTA CLARA.
28. DEMOLITION PERMITS MAY BE ISSUED PRIOR TO ISSUANCE OF FINAL BUILDING PERMITS AND RECORDANCE OF THE FINAL MAP.
29. ALL DIMENSIONS DEPICTED HEREON ARE APPROXIMATE AND ARE SUBJECT TO REVISION AT FINAL MAP(S) STAGE.
30. TOPOGRAPHY PROVIDED BY: CIVIL ENGINEERING ASSOCIATES, INC
31. ANY EXISTING SANITARY SEWER LATERALS PROPOSED TO BE REUSED MUST BE TELEVISED BY CITY OF SANTA CLARA AND APPROVED BY THE CITY BEFORE REUSE. A SANITARY LATERAL CLEAN-OUT SHALL BE INSTALLED AT THE PROPERTY LINE, IF ONE DOES NOT ALREADY EXIST WITHIN TWO (2) FEET OF THE PROPERTY LINE. ANY TRENCHING WITHIN THE DRIPLINE OF ALL TREES SHALL BE HAND DUG AND SO NOTED ON THE PLANS. ALL UTILITIES SERVING THE SITE SHALL BE UNDERGROUND.
32. ALL EXISTING BUILDINGS ARE TO BE REMOVED.
33. ALL EXISTING EASEMENTS ARE TO BE VACATED UNLESS NOTED OTHERWISE.
