City of Santa Clara

Joint Meeting Agenda of the City Council and Authorities Concurrent & Santa Clara Stadium Authority Board

Tuesday, December 16, 2025 **5:30 PM** **Hybrid Meeting**
City Hall Council Chambers/Virtual
1500 Warburton Avenue
Santa Clara, CA 95050

The City of Santa Clara is conducting City Council meetings in a hybrid manner (in-person and continues to have methods for the public to participate remotely).

- Via Zoom:
  - o https://santaclaraca.zoom.us/j/99706759306
    Meeting ID: 997-0675-9306
  - o Phone 1(669) 900-6833

How to Submit Written Public Comment Before City Council Meeting:

1. Use the eComment tab located on the City Council Agenda page (https://santaclara.legistar.com/Calendar.aspx). eComments are directly sent to the iLegislate application used by City Council and staff, and become part of the public record. eComment closes 15 minutes before the start of a meeting.
2. By email to clerk@santaclaraca.gov by 12 p.m. the day of the meeting. Those emails will be forwarded to the Council and will be uploaded to the City Council Agenda as supplemental meeting material. Emails received after the 12 p.m. cutoff time up through the end of the meeting will form part of the meeting record. Please identify the Agenda Item Number in the subject line of your email. **NOTE:** Please note eComments and Emails received as public comment **will not** be read aloud during the meeting.

Agendas, Staff Reports and some associated documents for City Council items may be viewed on the Internet at https://santaclara.legistar.com/Calendar.aspx

All public records relating to an open session item on this agenda, which are not exempt from disclosure pursuant to the California Public Records Act, that are distributed to a majority of the legislative body will be available for public inspection at the Office of the City Clerk at Santa Clara City Hall, 1500 Warburton Avenue, Santa Clara, CA 95050 at the same time that the public records are distributed or made available to the legislative body. Any draft contracts, ordinances and resolutions posted on the Internet site or distributed in advance of the Council meeting may not be the final documents approved by the City Council. For the final document, you may contact the Office of the City Clerk at (408) 615-2220 or Clerk@santaclaraca.gov.

CONSENT CALENDAR

[Items listed on the CONSENT CALENDAR are considered routine and will be adopted by one motion. There will be no separate discussion of the items on the CONSENT CALENDAR unless discussion is requested by a member of the Council, staff, or public. If so requested, that item will be removed from the CONSENT CALENDAR and considered under CONSENT ITEMS PULLED FOR DISCUSSION.]

3.A 25-1733 Action on the November 4, 2025 Joint City Council and Authorities Concurrent & Santa Clara Stadium Authority Board Meeting and November 10, 2025 Special City Council Minutes

Recommendation: Approve the November 4, 2025 Joint City Council and Authorities Concurrent & Santa Clara Stadium Authority Board Meeting and November 10, 2025 Special City Council Minutes.

3.B 25-1640 Action on City Bills and Claims Report for the period October 18, 2025 - November 14, 2025

Recommendation: Approve the list of Bills and Claims for October 18, 2025 - November 14, 2025.

3.C 25-1656 Action on Monthly Financial Status and Investment Reports for October 2025 and Approve the Related Budget Amendments

Recommendation:

1. Note and file the Monthly Financial Status Report and Monthly Investment Report for October 2025 as presented; and
2. Approve the FY 2025/26 budget amendments in the following funds (as detailed in the Fiscal Impact section of the staff report and Attachment 3 of the staff report):
   a. In the General Fund, increasing the Stadium reimbursement estimate and appropriating funds to Non-Departmental Stadium Operations, with a net impact of $74,000;
   b. In the Convention Center Enterprise Fund, transferring unrestricted fund balance to the Convention Center Capital Fund, with a net impact of $0;
   c. In the Convention Center Capital Fund, recognizing a transfer from the Convention Center Enterprise Fund and increasing the Santa Clara Convention Center Assessment Repair Project, with a net impact of $1,543,000;
   d. In the Fire Department Capital Fund, reallocating funding from the Fire Station 2 Window Seismic Upgrades project to a newly established Training Center Audio Visual Equipment project, with a net impact of $0;
   e. In the Parks and Recreation Capital Fund, recognizing Mitigation Fee and Quimby Act revenue and appropriating the funds to the Parking Impact Fees Monitoring Project and Parkland Acquisition Project and to fund balance, with a net impact of $9,468,241; and
   f. In the Public Buildings Capital Fund, recognizing insurance reimbursement funds and appropriating the funds to the Commerce/Peddler's Maintenance project, with a net impact of $110,027.

(Five votes required for items 2.a - f with further details provided in Attachment 3)

3.D 25-1654 Action to Authorize the City Manager to Issue Purchase Orders and/or to Negotiate and Execute Agreements with Dell Marketing LP, SHI International, CDW Government LLC, Carahsoft Technology Corp., Presidio Network Solutions, LLC, Insight Public Sector, TD Synnex Corporation, and/or their Authorized Resellers, Under Cooperative Purchasing Agreements for the Purchase of Various Information Technology Products and Services for Silicon Valley Power, for a Total Amount Not-to-Exceed $12 Million, and Approve Related Budget Amendment

Recommendation:

1. Authorize the City Manager or designee to issue Purchase Orders and/or negotiate and execute agreements with Dell Marketing LP, SHI International, CDW Government LLC, Carahsoft Technology Corp., Presidio Network Solutions, LLC, Insight Public Sector, TD Synnex Corporation, and/or their authorized resellers, under cooperative purchasing agreements for the purchase of various information technology products and services for Silicon Valley Power, for a total amount not-to-exceed $12 million during a five-year purchasing period through December 31, 2030, subject to the appropriation of funds and the review and approval as to form by the City Attorney;
2. Authorize the City Manager or designee to take any actions as necessary to implement and administer the Purchase Orders and agreements and negotiate and execute amendment(s) to (1) add or delete services or equipment, (2) extend the term, (3) update rates in compliance with Section 2.105.270(c) of the City of Santa Clara Code, and (4) make de minimis changes, subject to the appropriation of funds, as necessary, and to the final review and approval as to form by the City Attorney; and
3. Approve the following FY2025/26 budget amendments:
   a. In the Electric Utility Fund, increase the transfer to the Electric Utility Capital Fund and reduce the Unrestricted Ending Fund Balance by $7,250,000 (**five affirmative Council votes required for the use of unused balances)**;
   b. In the Electric Utility Capital Fund, increase the

transfer from the Electric Utility Fund and increase the Operations and Planning Technology project in the amount of $7,250,000 (**five affirmative Council votes required to appropriate additional revenue)**.

3.E **25-1669** Authorize the City Manager to execute a Side Letter Agreement between the City of Santa Clara and the Unclassified Miscellaneous Management Employees that provides stadium detail pay for work performed by the Communications Operations Manager when working as a Public Safety Dispatcher at Levi's Stadium

Recommendation: Authorize the City Manager to execute a Side Letter Agreement between the City of Santa Clara and the Unclassified Miscellaneous Management Employees that provides stadium detail pay for work performed by the Communications Operations Manager when working as a Public Safety Dispatcher at Levi's Stadium on the terms presented and in a final form approved by the City Attorney.

3.F **25-1706** Action to Authorize the City Manager to Execute Agreements with CRE-GS Freedom Circle Phase I Owner, LLC for the Construction of Park Improvements and the Maintenance of the Park Located at 3905 Freedom Circle at the Developer's Sole Cost

Recommendation: Authorize the City Manager to execute the Parkland Dedication Agreement and the Park Maintenance Agreement with CRE-GS Freedom Circle Phase I Owner, LLC with such minor, non-substantive changes and amendments that may be necessary to implement the parkland dedication requirements for this project, in final forms approved by the City Attorney.

3.G 25-1513 Action on an Agreement with Allana Buick & Bers, Inc. for Citywide As-Needed Roofing Consulting Services

Recommendation:

1. Determine that the proposed actions are exempt from CEQA pursuant to Section 15301 (Existing Facilities) of Title 14 of California Code of Regulations;
2. Authorize the City Manager or designee to execute an Agreement with Allana Buick & Bers, Inc. for Citywide As-needed Roofing Consulting Services for an initial one-year term with a maximum amount not-to-exceed $150,0000, in substantially the form presented, subject to the appropriation of funds and approval of final form by the City Attorney; and
3. Authorize the City Manager or designee to take any actions as necessary to implement and administer the Agreement, and to (a) exercise up to four one-year options to extend the term, (b) increase the maximum compensation by up to $600,000 for a total aggregate not-to-exceed amount of $750,000 over the full five-year term of the Agreement, (c) add or delete services consistent with the scope of services, (d) adjust future rates based on market conditions, and (e) make de minimis changes, subject to the appropriation of funds and approval as to form by the City Attorney.

3.H 25-1563 Action on Agreement with BKF Engineers for Design Professional Services for the Central Santa Clara Bicycle, Pedestrian, and Green Stormwater Improvement Project

Recommendation:

1. Approve and authorize the City Manager to execute an Agreement for design professional services with BKF Engineers for the Central Santa Clara Bicycle, Pedestrian, and Green Stormwater Improvement Project in the not-to-exceed amount of $1,403,000, in a final form approved by the City Attorney; and
2. Authorize the City Manager to make minor modifications to the Agreement including time extensions, if needed, in a final form approved by the City Attorney.

3.I **25-1031** Action on Amendment No. 1 to the Agreement with HydroScience Engineers, Inc. for Hydraulic Modeling Calibration and Support Services for a Revised Maximum Compensation of $500,000

Recommendation:

1. Authorize the City Manager or designee to execute Amendment No. 1 to the agreement with HydroScience Engineers, Inc. to increase the maximum compensation by $250,000 for a revised not-to-exceed maximum compensation amount of $500,000, subject to the appropriation of funds, and in a final form approved by the City Attorney; and
2. Authorize the City Manager or designee to take all actions necessary to implement and administer the agreement with HydroScience Engineers, Inc., including negotiating and executing future amendment(s) to add or delete services associated with the services and make de minimis changes, provided that the total maximum compensation is not exceeded, subject to the review and approval as to form by the City Attorney.

3.J 25-1653 Action to Authorize the City Manager to execute Amendment No. 2 to an Agreement with Claris Strategy Inc. to Provide Additional Electric Utility Security Consulting Services for Silicon Valley Power, for a Total Not-to-Exceed Compensation of $489,088

Recommendation:

1. Authorize the City Manager or designee to execute Amendment No. 2 to the Agreement with Claris Strategy Inc. for the Threat and Vulnerability Assessment and updated Utility Security Plan, with a maximum compensation of $409,088, to be funded by the Electric Utility Capital Fund, subject to final review and approval as to form by the City Attorney; and
2. Authorize the City Manager or designee to take any actions necessary to implement and administer the agreement with Claris Strategy Inc., and negotiate and execute future amendment(s) to (a) add or delete services associated with the services, (b) extend the term as needed to complete the project, (c) increase the maximum compensation by approximately 20% for contingencies for a revised not-to-exceed amount of $489,088, and (d) make de minimis changes, subject to the final review and approval as to form by the City Attorney.

3.K 25-91 Action to Authorize the Use of City Electric Forces for Public Works to Decommission an Existing Dark Fiber Route from 3075 Raymond Street, 3030 Corvin Drive, 1380 Kifer Road, to 2050 Martin Avenue, with an Estimated Cost of $1,558

Recommendation:

1. Determine the proposed action is exempt from CEQA pursuant to Section 15301 (Class 1 - Existing Facilities) of Title 14 of the California Code of Regulations; and
2. Declare and determine in accordance with Section 1310 of the City Charter that the public works with an estimated cost of $1,558, located along the route from 3075 Raymond Street, 3030 Corvin Drive, 1380 Kifer Road, to 2050 Martin Avenue, are better performed by the City with its own employees based on the information set forth in this Report to Council and authorize the performance of these public works consistent with this authorization.

3.L **25-1604** Action to Authorize the Use of City Electric Forces for Public Works at 4600 Patrick Henry Drive, 2700 Tasman Drive, 5129 Old Ironsides Drive, 4808 Great America Parkway, 5100 Patrick Henry Drive, 4855 Patrick Henry Drive, 2256 Avenida de Los Alumnos, 2451 Tasman Drive, 2685 The Alameda, 2885 Lakeside Drive, With an Estimated Cost of $212,189

Recommendation:

1. Determine that the proposed action is exempt from CEQA pursuant to Section 15302 (Class 2 - Replacement or Reconstruction) and Section 15303 (New Construction) of Title 14 of the California Code of Regulations; and
2. Declare and determine in accordance with Section 1310 of the City Charter that the public works located at 4600 Patrick Henry Drive, 2700 Tasman Drive, 5129 Old Ironsides Drive, 4808 Great America Parkway, 5100 Patrick Henry Drive, 4855 Patrick Henry Drive, 2256 Avenida de Los Alumnos, 2451 Tasman Drive, 2685 The Alameda, and 2885 Lakeside Drive, with an estimated cost of $212,189, are better performed by the City with its own employees based on the information set forth in this Report to Council and authorize the performance of these public works consistent with this authorization.

3.M **25-1022** Action on Recommendations from Governance and Ethics Committee for Updates to Council Policy 043 ("Official Travel by City Councilmembers")

Recommendation: Approve the Recommendation from the Governance and Ethics Committee to Amend Council Policy 043 ("Official Travel by Elected Officials") to be retitled Council Policy 043 ("Official Travel by the City Council") in substantially the form presented.

3.N **25-1023** Action on Recommendations from Governance and Ethics Committee for Updates to Council Policy 006 ("Guidelines for City Commissions, Boards and Committees for Attendance at Conferences and Training Events")

Recommendation: Adopt a Resolution Approving the Recommendation from the Governance and Ethics Committee to amend Council Policy 006 ("Guidelines for City Commissions, Boards and Committees for Attendance at Conferences and Training Events") in the form presented.

3.O **25-1715** Authorize the City Manager to Execute the 2026-2029 Memorandum of Understanding Between the City of Santa Clara and the Unclassified Police Management (Unit 9A) that Incorporates the Terms of the Tentative Agreement

Recommendation: Authorize the City Manager to execute the Memorandum of Understanding between the City of Santa Clara and the Unclassified Police Management (Unit 9A) with effective dates of January 1, 2026 - December 31, 2029, that incorporates the terms of the Tentative Agreement.

3.P **25-1718** Note and File the List of Designated City Employees who are Subject to Post-Employment Restrictions Pursuant to City Code Chapter 2.145

Recommendation: Note and File the List of Designated City Employees who shall be subject to post-employment restrictions pursuant to Santa Clara City Code, Chapter 2.145 for the period of January 1, 2026 - December 31, 2026.

3.Q **25-1727** Action to Waive Second Reading and Adopt Ordinance No. 2083 entitled "Ordinance of the City of Santa Clara, California, Regulating Certain Activities Within a Protected Area in Connection with Major Events and Related Activities in the City of Santa Clara" (Special Event Zone)

Recommendation: Waive Second Reading and Adopt Ordinance No. 2083 entitled "Ordinance of the City of Santa Clara, California, Regulating Certain Activities Within a Protected Area in Connection with Major Events and Related Activities in the City of Santa Clara" (Special Event Zone).

SANTA CLARA STADIUM AUTHORITY BOARD CONSENT CALENDAR

4.A 25-1655 Action on Stadium Authority Bills and Claims for the Month of October 2025

Recommendation: Approve the list of Stadium Authority Bills and Claims for October 2025.

4.B 25-1613 Action on the Santa Clara Stadium Authority Financial Status Report for Quarter Ending September 30, 2025

Recommendation:
1. Note and file the Santa Clara Stadium Authority Financial Status Report for the Quarter Ending September 30, 2025; and
2. Approve the FY 2025/26 Budget Amendments in the Operating Budget in the amount of $930,000 to reflect increases in projected revenues and expenses.

PUBLIC PRESENTATIONS

[This item is reserved for persons to address the Council or authorities on any matter not on the agenda that is within the subject matter jurisdiction of the City or Authorities. The law does not permit action on, or extended discussion of, any item not on the agenda except under special circumstances. The governing body, or staff, may briefly respond to statements made or questions posed, and appropriate body may request staff to report back at a subsequent meeting. Although not required, please submit to the City Clerk your name and subject matter on the speaker card available in the Council Chambers.]

CONSENT ITEMS PULLED FOR DISCUSSION

PUBLIC HEARING/GENERAL BUSINESS

5. 25-1667 Action Authorizing the City Manager to Negotiate and Execute a License Agreement for Property Use of the Youth Soccer Park and its facilities and adjacent parking lots between the City of Santa Clara and the National Football League for Super Bowl LX Operational Support

Recommendation: Authorize and direct the City Manager to Negotiate and Execute a License Agreement for Property Use of the Youth Soccer Park and its facilities and adjacent parking lots between the City of Santa Clara and the National Football League for Super Bowl LX Operational Support that is consistent with the terms of the proposed term sheet provided in this Staff Report, and subject to final approval by the City Attorney and City Manager.

6. **25-1113** Public Hearing: Action on Adoption of a Resolution Amending Rate Schedules for Electric Services for All Classes of Customers to Increase Electric Rates and Charges in Each Rate Schedule by 4.0% and Make Other Modifications, Effective January 1, 2026

Recommendation: Adopt a Resolution amending the City of Santa Clara Rate Schedules for Electric Utility Services for all classes of customers to increase electric rates and charges in each rate schedule by 4.0% and make other modifications, effective January 1, 2026.

7. **25-1645** Public Hearing: Action on a General Plan Amendment to the City's Open Space Element to Add Policies to Address Climate Resilience and Other Co-benefits of Open Space; to Help to Increase Access to Open Space for Everyone; and to Preserve, Enhance, and Expand a Network of Open Spaces.

Recommendation:

1. Find that the Addendum to the 2010-2035 General Plan Environmental Impact Report (EIR) prepared for the project complies with CEQA, and that the adoption of the Open Space Element Update would not result in environmental impacts beyond those described in the General Plan EIR and no further analysis is required.
2. Adopt a Resolution approving the General Plan Text Amendment and find that it satisfies the SB 1425 requirements to update open space programs to include policies addressing climate resilience and other co-benefits of Open Space; and that the necessary text edits are consistent with the Parks, Open Space, and Recreation Goals and Policies in the General Plan.

8. **25-1660** Public Hearing: Action on a Vesting Tentative Map (PLN24-00044) for a Proposed Common Interest Development of Six Single-Family Housing Units Located at 4503 Cheeney Street - Continued from November 18, 2025 City Council Meeting

Recommendation:

1. Determine the project to be categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15332 (Class 32 - In-Fill Development Projects); and
2. Adopt a Resolution in the form presented to approve the Vesting Tentative Map (PLN24-00044) for a common interest development for the proposed development of six single family housing units located at 4503 Cheeney Street to accompany the Architectural Review application (PLN 24-00034), making the required findings and subject to f conditions of approval

REPORTS OF MEMBERS, SPECIAL COMMITTEES AND COUNCILMEMBER 030 REQUESTS

CITY MANAGER/EXECUTIVE DIRECTOR REPORT

ADJOURNMENT

The next scheduled special meeting is on Tuesday,December 17, 2025 in the City Hall Council Chambers.

MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Santa Clara, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

STREAMING SERVICES: As always, the public may view the meetings on SantaClaraCA.gov, Santa Clara City Television (Comcast cable channel 15), or the livestream on the City's YouTube channel or Facebook page.

Note: The public cannot participate in the meeting through these livestreaming methods; livestreaming capabilities may be disrupted at times, viewers may always view and participate in meetings in-person and via Zoom as noted on the agenda.

AB23 ANNOUNCEMENT: Members of the Santa Clara Stadium Authority, Sports and Open Space Authority and Housing Authority are entitled to receive $30 for each attended meeting.

Note: The City Council and its associated Authorities meet as separate agencies but in a concurrent manner. Actions taken should be considered actions of only the identified policy body.

LEGEND: City Council (CC); Stadium Authority (SA); Sports and Open Space Authority (SOSA); Housing Authority (HA); Successor Agency to the City of Santa Clara Redevelopment Agency (SARDA); Bayshore North Project Enhancement Authority (BNPEA); Public Facilities Financing Corporation (PFFC)

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

If a member of the public submits a speaker card for any agenda items, their name will appear in the Minutes. If no speaker card is submitted, the Minutes will reflect "Public Speaker."

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 ("ADA"), the City of Santa Clara will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities, and will ensure that all existing facilities will be made accessible to the maximum extent feasible. The City of Santa Clara will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities including those with speech, hearing, or vision impairments so they can participate equally in the City's programs, services, and activities. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

25-1525 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT
Study Session on the New Traffic Signal at Great America Parkway and Hichborn Drive Related to the Irvine Company Project at 2518 Mission College Boulevard

BACKGROUND
On March 25, 2025, the City Council approved various actions to allow the development of 1,792 residential units, 3,500 square feet of retail, and 4.225 acres of public park by the Irvine Company (Irvine) on 25.74 acres located at 2518 Mission College Boulevard. As part of the project's conditions of approval, the project is required to construct a new traffic signal at Great America Parkway and Hichborn Drive to mitigate project-related traffic impacts. Due to questions related to the new traffic signal, the Council directed staff to schedule a study session to review the effects of the new traffic signal on traffic circulation under various scenarios and to ensure that the timing of the session does not delay the project.

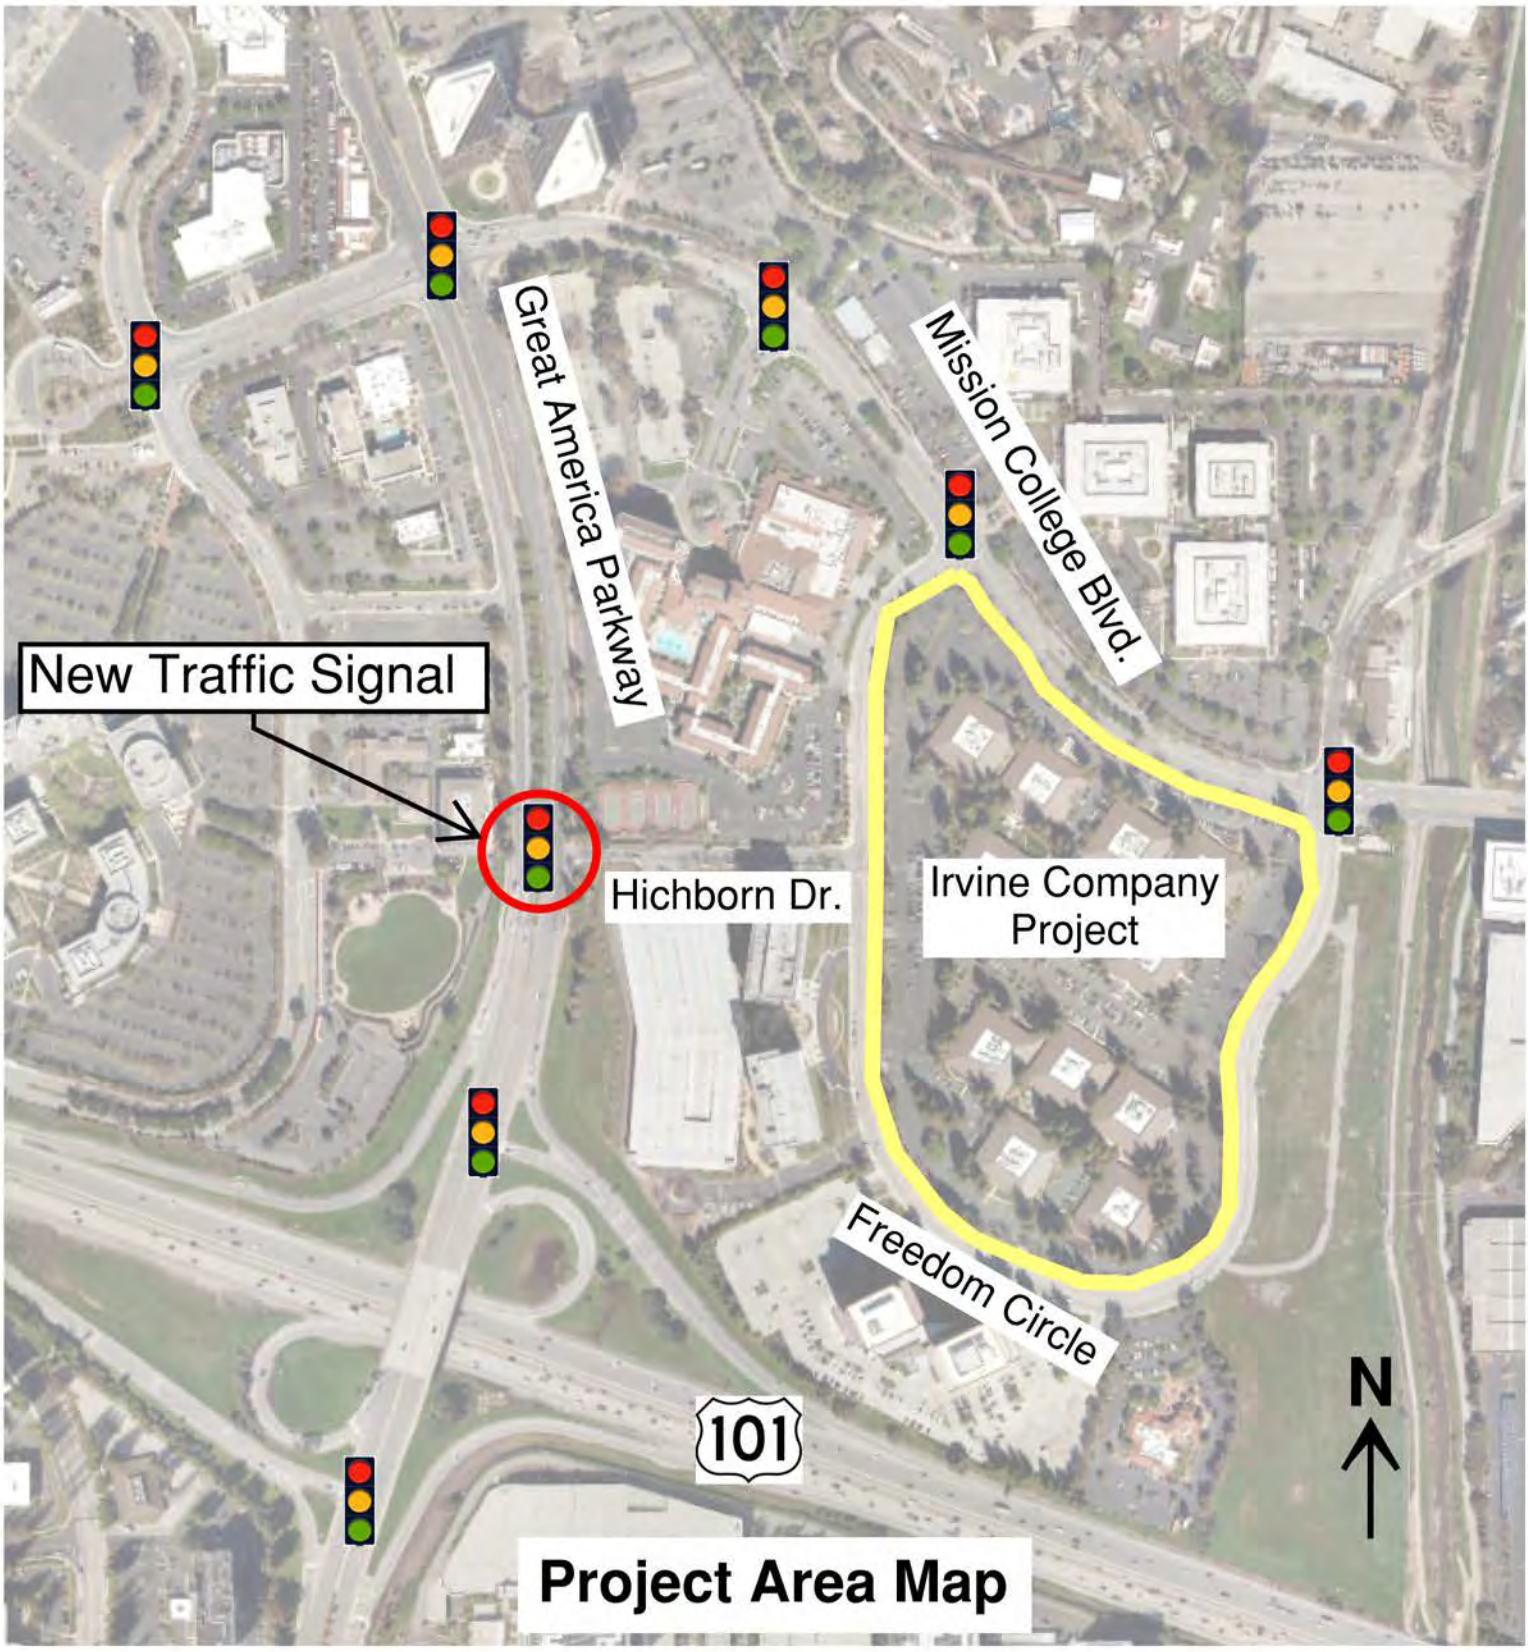
DISCUSSION
As part of the Irvine project approval process, a traffic operations analysis was conducted by Irvine's traffic consultant to evaluate project-related trips, site access, and circulation. The analysis determined that the intersections of Great America Parkway/Mission College Boulevard and Freedom Circle West/Mission College Boulevard would both operate at an unacceptable Level of Service (LOS) F during the PM peak hour.

To restore operations to an acceptable Level of Service, the traffic analysis recommended converting Hichborn Drive from a one-way eastbound street from Great America Parkway to a two-way street and installing a new traffic signal at the intersection of Great America Parkway and Hichborn Drive (Attachment 1).

During this study session, staff will provide a presentation illustrating the new traffic signal's impact on surrounding signalized intersections and roadways under various traffic scenarios.

ENVIRONMENTAL REVIEW
This is a study session, and no action is being taken by the City Council that constitutes a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational policy making or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT
Because this is a study session item, there is no fiscal impact beyond the staff time involved in preparing this report.



COORDINATION
The report was coordinated with City Manager's Office and Irvine (developer of 2518 Mission College Boulevard).

PUBLIC CONTACT
Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION
Note and file Study Session Report and provide any feedback on the new traffic signal at Great America Parkway and Hichborn Drive.

25-1677 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT
Proclamation of December 2025 as Human Rights Month

BACKGROUND
December is National Human Rights Month (also known as Universal Human Rights Month) in the United States, designated to recognize and promote the fundamental rights and freedoms of all people. The month commemorates the adoption of the Universal Declaration of Human Rights (UDHR) by the United Nations General Assembly on December 10, 1948.

DISCUSSION
Human Rights Month is a global observance dedicated to promoting and celebrating the fundamental rights and freedoms that all individuals are entitled to, regardless of their nationality, gender, race, religion, or background. It serves as a reminder of the importance of upholding human rights and addressing issues related to social justice and equality.

The 2025 theme for Human Rights Day and Month is "Our Everyday Essentials," focuses on how human rights are fundamental to daily life. The campaign aims to show that human rights are not abstract concepts but are the everyday essentials everyone relies on and can be a positive force for good.

This theme also highlights how human rights, such as the right to life, liberty, and dignity, are integrated into our daily lives. It encourages people to share their "everyday essentials" and show how human rights shape their lives by using the hashtag #OurEverydayRights.

The City of Santa Clara’s Cultural Commission will be sharing a 5-minute video that was created to commemorate the signing of the Universal Declaration of Human Rights by the United Nations.

ENVIRONMENTAL REVIEW
This is an information report only and no action is being taken by the City Council and no environmental review under the California Environmental Quality Act ("CEQA") is required.

FISCAL IMPACT
There is no fiscal impact to the City other than staff time.

PUBLIC CONTACT
Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City’s website and in the City Clerk’s Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk’s

Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

REPORT TO COUNCIL

SUBJECT
Action on the November 4, 2025 Joint City Council and Authorities Concurrent & Santa Clara Stadium Authority Board Meeting and November 10, 2025 Special City Council Minutes

RECOMMENDATION
Approve the November 4, 2025 Joint City Council and Authorities Concurrent & Santa Clara Stadium Authority Board Meeting and November 10, 2025 Special City Council Minutes.

City of Santa Clara

Meeting Minutes of the

Joint City Council and Authorities Concurrent &

Santa Clara Stadium Authority Board

11/04/2025 **5:30 PM** **Hybrid Meeting**
City Hall Council Chambers/Virtual
1500 Warburton Avenue
Santa Clara, CA 95050

The City of Santa Clara is conducting City Council meetings in a hybrid manner (in-person and continues to have methods for the public to participate remotely).

- Via Zoom:
  - https://santaclaraca.zoom.us/j/99706759306
    Meeting ID: 997-0675-9306
  - Phone 1(669) 900-6833

How to Submit Written Public Comment Before City Council Meeting:

1. Use the eComment tab located on the City Council Agenda page https://santaclara.legistar.com/Calendar.aspx). eComments are directly sent to the iLegislate application used by City Council and staff, and become part of the public record. eComment closes 15 minutes before the start of a meeting.
2. By email to clerk@santaclaraca.gov by 12 p.m. the day of the meeting. Those emails will be forwarded to the Council and will be uploaded to the City Council Agenda as supplemental meeting material. Emails received after the 12 p.m. cutoff time up through the end of the meeting will form part of the meeting record. Please identify the Agenda Item Number in the subject line of your email. **NOTE**: Please note eComments and Emails received as public comment **will not** be read aloud during the meeting.

Agendas, Staff Reports and some associated documents for City Council items may be viewed on the Internet at https://santaclara.legistar.com/Calendar.aspx

All public records relating to an open session item on this agenda, which are not exempt from disclosure pursuant to the California Public Records Act, that are distributed to a majority of the legislative body will be available for public inspection at the Office of the City Clerk at Santa Clara City Hall, 1500 Warburton Avenue, Santa Clara, CA 95050 at the same time that the public records are distributed or made available to the legislative body. Any draft contracts, ordinances and resolutions posted on the Internet site or distributed in advance of the Council meeting may not be the final documents approved by the City Council. For the final document, you may contact the Office of the City Clerk at (408) 615-2220 or Clerk@santaclaraca.gov.

Closed Session - 5:30 PM | Regular Meeting - 7:00 PM

5:30 PM CLOSED SESSION

REPORTS OF MEMBERS, SPECIAL COMMITTEES AND COUNCILMEMBER 030 REQUESTS

Councilmember Hardy noted that she will be representing the City of Santa Clara and Bay Area Water Supply & Conservation Agency before the State Water Board.

Councilmember Jain noted that the County of Santa Clara's Measure A passed and declared several gifts that he recently received.

Vice Mayor Cox noted that she attended the Japan-United States Leadership Summit.

Councilmember Park declared several gifts that he recently received and noted that he attended the League of California Cities Annual Conference in Long Beach, Public Private Partnership, and several caucus meetings.

Councilmember Chahal noted that he attended the League of California Cities Annual Conference in Long Beach.

CITY MANAGER/EXECUTIVE DIRECTOR REPORT

City Manager Grogan noted that the Governance and Ethics Committee discussed a gifts policy.

25-1634 Post Meeting Material

ADJOURNMENT

Mayor Gillmor adjourned the meeting at 11:14 PM in memory of **Federick B. Tamayo**, Owner of King Crab Restaurant.

The next regular scheduled meeting is on Tuesday, November 18, 2025 in the City Hall Council Chambers

MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Santa Clara, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

STREAMING SERVICES: As always, the public may view the meetings on SantaClaraCA.gov, Santa Clara City Television (Comcast cable channel 15), or the livestream on the City's YouTube channel or Facebook page.

Note: The public cannot participate in the meeting through these livestreaming methods; livestreaming capabilities may be disrupted at times, viewers may always view and participate in meetings in-person and via Zoom as noted on the agenda.

AB23 ANNOUNCEMENT: Members of the Santa Clara Stadium Authority, Sports and Open Space Authority and Housing Authority are entitled to receive $30 for each attended meeting.

Note: The City Council and its associated Authorities meet as separate agencies but in a concurrent manner. Actions taken should be considered actions of only the identified policy body.

LEGEND: City Council (CC); Stadium Authority (SA); Sports and Open Space Authority (SOSA); Housing Authority (HA); Successor Agency to the City of Santa Clara Redevelopment Agency (SARDA); Bayshore North Project Enhancement Authority (BNPEA); Public Facilities Financing Corporation (PFFC)

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

If a member of the public submits a speaker card for any agenda items, their name will appear in the Minutes. If no speaker card is submitted, the Minutes will reflect "Public Speaker."

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 ("ADA"), the City of Santa Clara will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities, and will ensure that all existing facilities will be made accessible to the maximum extent feasible. The City of Santa Clara will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities including those with speech, hearing, or vision impairments so they can participate equally in the City's programs, services, and activities. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

Draft

Meeting Minutes

Call and Notice of Special Meeting of the

City Council

11/10/2025 **6:00 PM** **Hybrid Meeting**
City Hall Council Chambers/Virtual
1500 Warburton Avenue
Santa Clara, CA 95050

The City of Santa Clara is conducting City Council meetings in a hybrid manner (in-person and continues to have methods for the public to participate remotely).

- Via Zoom:
  - o https://santaclaraca.zoom.us/j/99706759306
    Meeting ID: 997-0675-9306
  - o Phone 1(669) 900-6833

How to Submit Written Public Comment Before City Council Meeting:

1. Use the eComment tab located on the City Council Agenda page (https://santaclara.legistar.com/Calendar.aspx). eComments are directly sent to the iLegislate application used by City Council and staff, and become part of the public record. eComment closes 15 minutes before the start of a meeting.
2. By email to clerk@santaclaraca.gov by 12 p.m. the day of the meeting. Those emails will be forwarded to the Council and will be uploaded to the City Council Agenda as supplemental meeting material. Emails received after the 12 p.m. cutoff time up through the end of the meeting will form part of the meeting record. Please identify the Agenda Item Number in the subject line of your email. **NOTE:** Please note eComments and Emails received as public comment **will not** be read aloud during the meeting.

Agendas, Staff Reports and some associated documents for City Council items may be viewed on the Internet at https://santaclara.legistar.com/Calendar.aspx

All public records relating to an open session item on this agenda, which are not exempt from disclosure pursuant to the California Public Records Act, that are distributed to a majority of the legislative body will be available for public inspection at the Office of the City Clerk at Santa Clara City Hall, 1500 Warburton Avenue, Santa Clara, CA 95050 at the same time that the public records are distributed or made available to the legislative body. Any draft contracts, ordinances and resolutions posted on the Internet site or distributed in advance of the Council meeting may not be the final documents approved by the City Council. For the final document, you may contact the Office of the City Clerk at (408) 615-2220 or Clerk@santaclaraca.gov.

NOTICE IS HEREBY GIVEN that, pursuant to the provisions of California Government Code §54956 ("The Brown Act") and Section 708 of the Santa Clara City Charter, the Mayor calls for a Special Meeting of the City Council of the City of Santa Clara, to commence and convene on November 10, 2025, at 6:00 pm to be held virtually and in the City Hall Council Chambers located in the East Wing of City Hall at 1500 Warburton Avenue, Santa Clara, California, to consider the following matter(s) and to potentially take action with respect to them.

Convene to Closed Session (Council Conference Room)

Mayor Gillmor adjourned into Closed Session at 6:02 PM.

ADJOURNMENT

The meeting was adjourned at 8:09 PM.

REPORTS OF ACTION TAKEN IN CLOSED SESSION, IF ANY REQUIRED, TO BE PRESENTED BY THE CITY ATTORNEY IN PERSON IN COUNCIL CHAMBERS AND AGAIN AT THE NOVEMBER 18, 2025 COUNCIL MEETING

The next regular scheduled meeting is on Tuesday, November 18, 2025 in the City Hall Council Chambers.

MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Santa Clara, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

STREAMING SERVICES: As always, the public may view the meetings on SantaClaraCA.gov, Santa Clara City Television (Comcast cable channel 15), or the livestream on the City's YouTube channel or Facebook page.

Note: The public cannot participate in the meeting through these livestreaming methods; livestreaming capabilities may be disrupted at times, viewers may always view and participate in meetings in-person and via Zoom as noted on the agenda.

AB23 ANNOUNCEMENT: Members of the Santa Clara Stadium Authority, Sports and Open Space Authority and Housing Authority are entitled to receive $30 for each attended meeting.

Note: The City Council and its associated Authorities meet as separate agencies but in a concurrent manner. Actions taken should be considered actions of only the identified policy body.

LEGEND: City Council (CC); Stadium Authority (SA); Sports and Open Space Authority (SOSA); Housing Authority (HA); Successor Agency to the City of Santa Clara Redevelopment Agency (SARDA); Bayshore North Project Enhancement Authority (BNPEA); Public Facilities Financing Corporation (PFFC)

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <mailto:clerk@santaclaraca.gov> or at the public information desk at any City of Santa Clara public library.

If a member of the public submits a speaker card for any agenda items, their name will appear in the Minutes. If no speaker card is submitted, the Minutes will reflect "Public Speaker."

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 ("ADA"), the City of Santa Clara will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities, and will ensure that all existing facilities will be made accessible to the maximum extent feasible. The City of Santa Clara will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities including those with speech, hearing, or vision impairments so they can participate equally in the City's programs, services, and activities. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

25-1640 Agenda Date: 12/16/2025

REPORT TO COUNCIL

SUBJECT
Action on City Bills and Claims Report for the period October 18, 2025 - November 14, 2025

BACKGROUND
Disbursements made by the City of Santa Clara (City) are based on invoices submitted for payment. Prior to payment, staff reviews all disbursement documents to ensure they are reflective of the goods or services provided. Invoices are usually paid within 30 days of receipt of an accurate invoice. As a final step, the City Auditor, or designee, verifies all documents before the City issues payment. Payments are issued through accounts payable checks and wire transfers. It is important to note that items that pertain to Stadium Authority operations are billed to the Stadium Manager (ManCo) to pay on behalf of the Stadium Authority for Non-NFL events, and on behalf of the 49ers for NFL events.

The Bills and Claims Report, as required by the City Charter, represents the cash disbursements required for operations of the City for the reporting period covered. The report reflects the payment date, invoice number, description of the payment, funding source, and payment amount for all invoices. The budget control is set by the City Council through the budget adoption process. The attached report is sorted by Silicon Valley Power (SVP) expenses first, followed by the rest of the City funds.

DISCUSSION
Significant expenditures in this period include:

- Payment to Northern California Power Agency in the amount of $21,141,829 for October 2025 all resources bill.
- Payment to City of San Jose in the amount of $7,927,490 for San Jose-Santa Clara Regional Wastewater Facility (RWF), O&M billing for second quarter of FY25/26, and water meter charge.
- Payment to California Environmental Protection in the amount of $7,500,000 for bid guarantee for the November 2025 Joint Auction #45 to allow the city to procure California Carbon Allowances.
- Payment to Tri-Dam Authority/Project in the amount of $5,875,478 for September 2025 Hydroelectric purchase.
- Payment to Santa Clara Valley Water District in the amount of $5,397,179 for August and September 2025 Pump Tax (a groundwater charge that is used to pay for the protection and augmentation of water supplies in the basin).
- Payment to Castanea Project, LLC in the amount of $4,201,367 for September 2025 solar energy purchase with battery energy storage system.

Payments to ManCo are not included in the City's Bills and Claims report as they are currently reported through a separate Stadium Authority Bills and Claims report. Stadium Authority related payments in the City's Bills and Claims report include general administrative, material, and supply expenses of approximately $324,466. Included in this amount are payments totaling $315,336 to Sunnyvale Department of Public Safety, City of Menlo Park, Santa Clara County Sheriff, and California Highway Patrol for protection services for events at the stadium. These expenses are reimbursed to the City by the Stadium Authority.

During this period, payments were made on behalf of the City, Housing Authority, and the Santa Clara Stadium Authority (described above).

Certain information such as names of law firms and recipients of workers' compensation have been redacted from the Bills and Claims report. The Supreme Court of California in Los Angeles County Board of Supervisors v. Superior Court, (2016) 2 Cal.5th 282, held that invoices specifying the amounts billed by a law firm to a client fall within the scope of attorney-client privilege while the matters are active. In accordance with the Supreme Court's ruling, the names of law firms retained by the City, and the specific amounts billed by each, have been redacted from the public report to maintain the confidentiality of billing records for legal services. In addition, individually identifiable information about recipients of workers' compensation has been redacted from the report based on California Labor Code section 138.7.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to section 15378(b)(4) of Title 14 of the Code of Regulations in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potentially significant impact on the environment.

FISCAL IMPACT

The expenditures of $111,480,852 were appropriated to various funds with the adoption of the Fiscal Year 2025/26 budget, as amended.

COORDINATION

This report has been coordinated with the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Approve the list of Bills and Claims for October 18, 2025 - November 14, 2025.

REPORT TO COUNCIL

SUBJECT

Action on Monthly Financial Status and Investment Reports for October 2025 and Approve the Related Budget Amendments

BACKGROUND

In compliance with the Charter of the City of Santa Clara and the adopted Investment Policy, the monthly financial report and monthly investment report for October 2025 are submitted for your information. The financial reviews, as of October 31, 2025, provide a year-to-date financial update to the City Council for fiscal year 2025/26. The analysis of the revenues collected and all expenditures measures the level of adherence to the established resource allocation plan and allows the City to monitor and project revenues and expenditures throughout the year.

The Budget incorporates the estimated revenues and planned expenditures for all funds. The attached Financial Status Reports provide the budget to actual revenue and expenditure summaries for the General Fund, Special Revenue Funds, Enterprise Funds and Internal Service Funds, as well as expenditure summaries for Capital Improvement Funds and Fund Reserve Balances. Any significant variances are explained in the reports.

In accordance with City Council Policy 051 - Donations to the City, a monthly activity and annual summary of donations received by department is included in these reports. Although the requirement of the policy is to report quarterly, the City will include this information monthly in the financial status report.

DISCUSSION

Monthly Financial Status Report (Attachment 1)

The attached Monthly Financial Status Report summarizes the City's financial performance as of October 31, 2025 (Attachment 1). This report provided financial analysis for the General Fund, select Special Revenue Funds, Internal Service Funds, Enterprise Operating Funds, and Capital Improvement Funds.

Monthly Financial Status Report shows that General Fund revenues (excluding transfers) at 20.2% of the budget through October 2025. The revenue in some categories received through October account for activity that occurred in FY 2024/25 and those revenues are accrued back to that year. In other cases, such as property tax, most payments are scheduled to occur later in the fiscal year. While it is early in the fiscal year, General Fund revenues are currently tracking within estimated levels. As shown in Monthly Financial Status Report, General Fund expenditures (excluding transfers) were at 31.8% through October 2025 and are tracking within budgeted levels.

As shown in Monthly Financial Status Report, total revenues for Enterprise Funds (Electric, Water, Sewer, Cemetery, Solid Waste, and Water Recycling) were at 23.6% of the budget through October 31, 2025, while total expenses were at 30.2%.

In October, donations of $125 were received, bringing total donations to $25,467.

The December 2025 UCLA Anderson Forecast continues to point to elevated uncertainty regarding the economic trajectory. These include trade uncertainty, concerns about the credibility of our central bank and government statistical agencies, the continued feasibility of the AI boom, and the potential impacts of domestic political strife.

In the third estimate for the second quarter 2025, the Gross Domestic Product (GDP) increased at an annual rate of 3.8%, following a GDP decrease of 0.6% in the first quarter 2025. On a national level, the unemployment rate changed little from 4.3% in August 2025 to 4.4% in September 2025. In September, the number of unemployed persons totaled 7.6 million, up 2.7% from August 2025. The California unemployment rate was 5.5% for both July 2025 and August 2025. The unadjusted unemployment rate in the San José-Sunnyvale-Santa Clara Metropolitan Statistical Area (MSA) was 4.7% in August 2025, down slightly from a revised 4.9% in July 2025, but unchanged from the August 2024 estimate of 4.7%. Due to the federal government shutdown, the release of updated information has been delayed.

Staff will continue to closely monitor the General Fund revenues and the City's overall financial performance.

Monthly Investment Report (Attachment 2)

All securities held by the City of Santa Clara as of October 31, 2025 were in compliance with the City's Investment Policy Statement regarding current market strategy and long-term goals and objectives. All securities held are rated "A" or higher by two nationally recognized rating agencies. There is adequate cash flow and maturity of investments to meet the City's needs for the next six months.

The City's investment strategy for October 2025 was to invest funds not required to meet current obligations in securities listed in the prevailing Investment Policy Statement, with maturities not to exceed five years from the date of purchase. This strategy ensures safety of the City's funds, provides liquidity to meet the City's cash needs, and with a reasonable portfolio return of 4.12% in October.

The Monthly Investment Report also includes a Statement of Transactions, following the Investment Inventory, in accordance with California Municipal Treasurers Association investment policy guidelines.

ENVIRONMENTAL REVIEW

The actions being considered do not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to section 15378(b)(4) of Title 14 of the California Code of Regulations in that they are fiscal activities that do not involve any commitment to any specific project which may result in a potential significant physical impact on the environment.

FISCAL IMPACT

From time to time, adjustments to the budget are required to reflect new information, align budgets with actual revenues and expenses, and correct for inadvertent errors. The recommended budget adjustment is described in Attachment 3 and summarized below:

- General Fund - increases the Stadium reimbursement estimate and increases the Non-Departmental Stadium Operations appropriation to account for additional purchases of body worn cameras;
- Convention Center Enterprise Fund - transfers funding to the Santa Clara Convention Center Condition Assessment Repair project in the Convention Center Capital Fund;
- Convention Center Capital Fund - recognizes a transfer from the Convention Center Enterprise Fund to provide additional funding for high priority projects including exterior painting of the Center, replacement of the cooling tower and drop ceiling installations;
- Fire Department Capital Fund - reallocates funding from the Fire Station 2 Window Seismic Upgrades project and establishes a new Training Center Audio Visual Equipment project;
- Parks and Recreation Capital Fund - recognizes Mitigation Fee and Quimby Act revenue and appropriates portions of the funding to the Parking Impact Fees Monitoring Project and Parkland Acquisition Project, with the remaining allocated to fund balance; and
- Public Buildings Capital Fund - recognizes an insurance reimbursement for property loss at the City-owned property of Peddler's Plaza and appropriates it to the Commerce/Peddler's Maintenance project.

COORDINATION

This report has been coordinated with the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Note and file the Monthly Financial Status Report and Monthly Investment Report for October 2025 as presented; and
2. Approve the FY 2025/26 budget amendments in the following funds (as detailed in the Fiscal Impact section of the staff report and Attachment 3 of the staff report):
   a. In the General Fund, increasing the Stadium reimbursement estimate and appropriating funds to Non-Departmental Stadium Operations, with a net impact of $74,000;
   b. In the Convention Center Enterprise Fund, transferring unrestricted fund balance to the Convention Center Capital Fund, with a net impact of $0;
   c. In the Convention Center Capital Fund, recognizing a transfer from the Convention Center Enterprise Fund and increasing the Santa Clara Convention Center Assessment Repair Project, with a net impact of $1,543,000;
   d. In the Fire Department Capital Fund, reallocating funding from the Fire Station 2 Window Seismic Upgrades project to a newly established Training Center Audio Visual Equipment project, with a net impact of $0;

e. In the Parks and Recreation Capital Fund, recognizing Mitigation Fee and Quimby Act revenue and appropriating the funds to the Parking Impact Fees Monitoring Project and Parkland Acquisition Project and to fund balance, with a net impact of $9,468,241; and
f. In the Public Buildings Capital Fund, recognizing insurance reimbursement funds and appropriating the funds to the Commerce/Peddler's Maintenance project, with a net impact of $110,027.

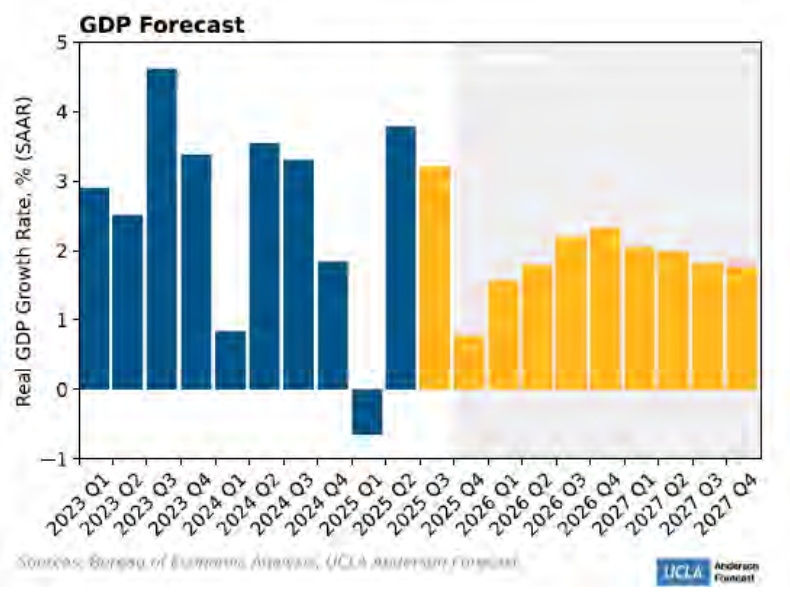
MONTHLY FINANCIAL STATUS REPORT

October 2025

City of Santa Clara



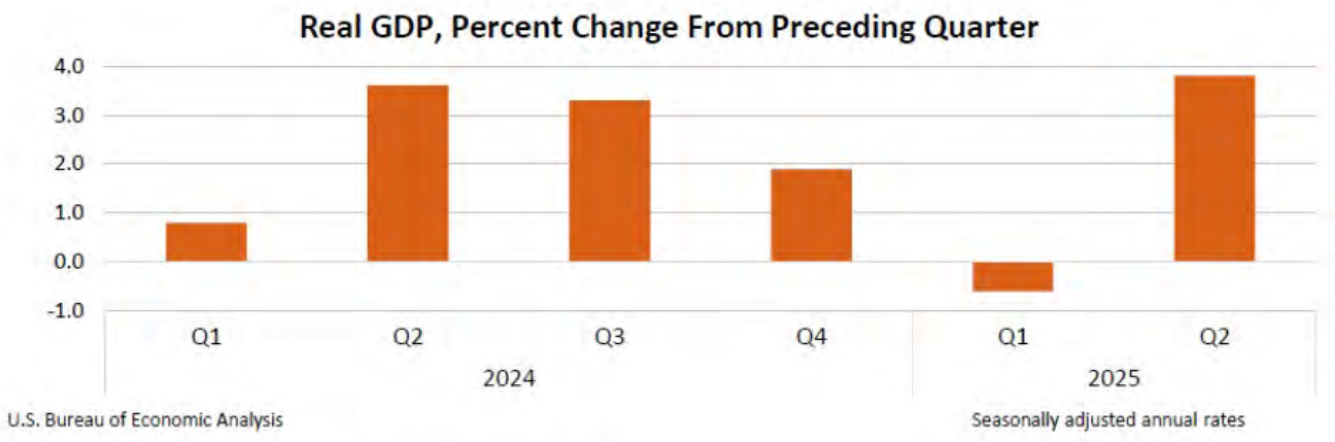
Financial Status Report as of October 31, 2025

This report summarizes the City's financial performance for the month ended October 31, 2025. Financial analysis for the report is provided for the General Fund, select Special Revenue Funds, Enterprise Operating Funds, Internal Service Funds, and Capital Improvement Funds. Financial information included in this report is unaudited.

Economic Outlook

The December 2025 UCLA Anderson Forecast continues to point to elevated uncertainty regarding the economic trajectory. "Not only does economic policy continue to fluctuate, as evidenced by shifting tariff schedules, but the longest government shutdown in history means that we have been partially blind to how the economy has been unfolding over the Fall. This lack of real-time data introduces a significant risk factor into current forecasting as we are operating with limited information. These include trade uncertainty, concerns about the credibility of our central bank and government statistical agencies, the continued feasibility of the AI boom, and the potential impacts of domestic political strife. Moreover, this presence of such strong, opposing economic forces (massive AI investment and its related wealth effects on one side, and tariff and deportation-induced uncertainty and cost pressures on the other), implies a greater scope for the forecast to miss in either direction."[1]

Quarterly Real GDP Growth Forecast (Seasonally Adjusted Annual Rates)



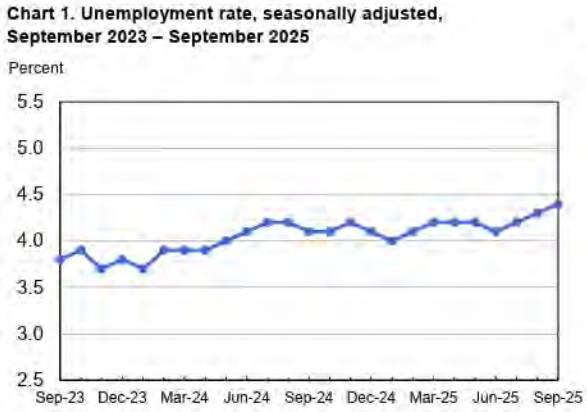
While the data on the third quarter 2025 Gross Domestic Product (GDP) was not available due to the government shutdown, the UCLA Forecast assumes robust growth of 3.2% in third quarter of 2025 due to growth in consumption expenditures and continued investment in AI infrastructure. However, the Forecast describes how the strength in these areas masks underlying weakness across the economy. "Poorer households and small businesses are struggling with higher costs of goods due to factors like tariffs as they face a volatile and uncertain economic environment. This uncertainty, stemming partly from tariff and immigration policies, hinders small firms' ability to accurately make future spending commitments, limiting their hiring and investment decisions. Outside of AI-related investments, capital expenditures are on net contracting." [2] Lower GDP growth is expected in the final quarter of 2025 due to a strain on consumption and business investment outside AI, the price impact from tariffs, and the impact of the

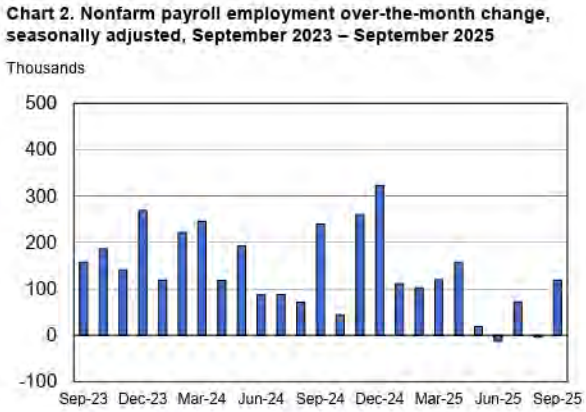
[1] UCLA Anderson Forecast for the Nation, Winter 2025 Report: In the Crosswinds of AI and Tariffs
[2] UCLA Anderson Forecast for the Nation, Winter 2025 Report: In the Crosswinds of AI and Tariffs

government shutdown. GDP growth is forecasted to improve in 2026 with continued investment in AI infrastructure spurred on by government fiscal stimulus.

The Conference Board (TCB) Economic Forecast for the US Economy also assumes a slowdown in GDP growth, with 1.9% growth projected for the third quarter 2025, 0.5% growth projected for the fourth quarter 2025, and quarterly growth ranging from 1.3% to 1.6% in 2026. "The US economy enters the final stretch of 2025 amid a mixture of relief and renewed uncertainty. The conclusion of the record 43-day federal government shutdown will restore key government functions and resume the flow of economic data critical to businesses and policymakers. However, it could take days — and in some cases a week or even months — before normal operations resume. While the immediate damage to output appears limited, the shutdown's ripple effects, including delayed spending, suspended contracts, and data distortions—are expected to weigh on Q4 2025 growth. We estimate the shutdown could shave roughly 0.5pp off of GDP growth in the quarter, but most of it will likely be recovered in the beginning of 2026."[3]

In the second quarter 2025 third estimate, the Gross Domestic Product (GDP) increased at an annual rate of 3.8%, following a GDP decrease of 0.6% in the first quarter. The increase in real GDP primarily reflected a decrease in imports, which are a subtraction in the calculation of GDP, and an increase in consumer spending. These movements were partly offset by decreases in investments and exports.[4] Official data for the third quarter 2025 was delayed due to the government shutdown.





On a national level, the unemployment rate changed little from 4.3% to 4.4% between August and September 2025. In September, the number of unemployed persons totaled 7.6 million, an increase of approximately 200,000 from August.[5]

[5] https://www.bls.gov/news.release/pdf/empsit.pdf

At the state level, the California unemployment rate remained unchanged at 5.5% between July and August 2025. This rate is slightly higher compared to the 5.4% rate in August 2024. Over the past year, California employers have added 69,500 nonfarm jobs.[6] The California Employment Development Department has delayed the release of the September 2025 unemployment data for California as a result of the federal government shutdown as the California labor market information is produced in partnership with the U.S. Department of Labor's Bureau of Labor Statistics.

The unadjusted unemployment rate in the San José-Sunnyvale-Santa Clara Metropolitan Statistical Area (MSA) was 4.7% in August 2025, down slightly from a revised 4.9% in July 2025, and unchanged from the August 2024 level of 4.7%. Between August 2024 and August 2025, employment in this region decreased by 2,300 jobs, or 0.2%. The largest decreases were in professional and business services (down 8,100 jobs) and manufacturing (down 3,800 jobs). Notable employment increases were in private education and health services (up 8,600 jobs) and government (up 1,900 jobs).[7] Data for September 2025 is not yet available.

General Fund

The General Fund is the major operating fund for the City and includes multiple programs, services, and activities for the residents and businesses of the City. The adopted budget for operating revenues and expenditures for fiscal year 2025/26 was $353.0 million. The amended budget for revenues and expenditures was adjusted to $359.7 million to reflect carryover encumbrances from fiscal year 2024/25 and various budget amendments approved by the City Council through October 2025.

While it is early in the fiscal year and limited data is available, General Fund revenues and expenditures are tracking within estimated levels.

General Fund Revenues

As of October 31, 2025, $67.9 million, or 20.2%, of General Fund revenue (excluding transfers) was received. This relatively low collection level through October is largely due to the timing of payments. In some categories, the revenues received in the first couple of months account for activity that occurred in FY 2024/25 and those revenues are accrued back to that year. In other cases, such as property tax, most payments are scheduled to occur later in the fiscal year. Transfers and use of reserves of $23.6 million have occurred as budgeted.

(1) The Operating Transfer In - Fund Balances includes the carryover encumbrances of open purchase orders as of June 30, 2024 and mid year budget amendment from reserves.

General Fund Revenues

Sales Tax: The City of Santa Clara sales tax rate is 9.125%, of which the City receives 1.0%. As of October 31, 2025, $11.8 million has been recorded, which is 36.5% higher than prior year collection levels. Given the timing of payments, the sales tax receipts reflect advance payments for the months of July and August 2025.

Property Tax: Property tax receipts totaling $2.9 million were received in October 2025. The majority of property tax revenue is collected in the second half of the fiscal year. Based on initial information from the County of Santa Clara, property tax receipts are projected to end the year at $103.4 million, slightly above the Adopted Budget estimate of $101.2 million.

Transient Occupancy Tax (TOT): TOT is calculated as a percentage of City hotel/motel room charges. The City's TOT rate is 13.5%. Through October 31, 2025, $6.5 million has been collected, which reflects a 4.8% increase when compared to the collection level in the prior year. Beginning July 2025, all hotels submit TOT payments monthly rather than a combination of monthly and quarterly payments, which will impact the collection pattern during this fiscal year. .

Other Taxes: Includes franchise tax and documentary transfer tax. The City has collected $1.0 million through October, which is slightly above last fiscal year's collection levels. Receipts reflect franchise tax ($0.6 million) and documentary transfer tax ($0.4 million).

Licenses & Permits: Includes business licenses, fire operation permits, and miscellaneous permits and fees. Licenses and permits revenue collections are tracking above par with receipts totaling $3.7 million, or 44.7% of the $8.2 million budget. This collection level is slightly higher than prior year collection levels. Business licenses receipts represent the majority of the collections to date at $2.4 million. Collections in this category are tracking slightly below the prior year level of $2.6 million.

Fines & Penalties: Includes collection charges (late fees), vehicle, parking, court fines, and miscellaneous penalty fines. The revenue collected in this category through October was $1.2 million, which is above prior year level collections of $0.3 million. The majority of the receipts are comprised of collection charges.

Intergovernmental: Includes motor vehicle fees, state homeowner property tax relief, state mandated reimbursement and redistribution of land sale proceeds and ground leases from the Successor Agency. Through October 31, 2025, $0.5 million has been collected in this category, which is 24% higher than prior year levels. Motor vehicle fees total $0.2 million, slightly exceeding the budget while miscellaneous other agency revenues total $0.3 million, which primarily reflects the SB 90 reimbursements from the State for state-mandated programs delivered by the Police Department. These funds were appropriated to the Police Department as part of the July/August Monthly Financial Report actions that were approved by the City Council on October 21, 2025.

Charges for Services: Includes various plan check and zoning-related fees, engineering fees, administrative fees, and community service revenue from various recreational activities. Through

October, collections totaled approximately $14.4 million or 40.5% of the budget. This reflects a 19.5% increase compared to last year's collections, primarily due to higher receipts in miscellaneous charges for services, engineering fees, and interdepartmental fees. A portion of the higher collections through October was due to a booking error in miscellaneous charges for services that has been corrected and will be reflected in the November Monthly Financial Report. Excluding that error, collections would have been at 36% of the budget through October and 6% above the prior year.

Silicon Valley Power Transfer: In accordance with the City's charter, Silicon Valley Power pays 5.0% of gross revenues to the General Fund. Transfers throughout the year are based on the budgeted estimate and will be trued up at the end of the fiscal year based on actual performance.

Use of Money & Property: Includes realized investment income and rental income. Collections of $6.6 million are higher than prior year levels in both categories. The increase in rental income reflects higher right-of-way collections and lease payments. Interest collections came in nearly 200% higher than prior year levels.

Miscellaneous Revenues: Includes developer fees, donations, damage recovery, sale of surplus, and one-time miscellaneous revenues. Through October 2025, collections of $87,022 are tracking at 22.9% of the budget and below the prior year collections of $289,597.

Stadium Operation: Through October 31, 2025, $6.8 million has been collected through charges for services and rent. Of this amount, $3.3 million and $1.1 million represents public safety cost reimbursements for non-NFL events and NFL games, respectively. The City also received the ground lease payment of $1.0 million and general and administrative cost reimbursements of $0.7 million, both from the Stadium Authority. Reimbursements of $0.26 million have been received from the Bay Area Host Committee. Remaining collections of $0.5 million reflected parking permits.

General Fund Expenditures

As of October 31, 2025, $135.7 million or 37.7% of the General Fund operating budget had been expended, which is higher than prior year expenditure levels. Excluding transfers, expenditures totaled $104.7 million, or 31.8% of the budget, which is slightly below par of 33.3%. Transfers of $31.0 million have occurred as budgeted. Overall, expenditures in the General Fund are within budgeted levels through October.

General Fund Expenditures

Below is an explanation of certain budget to actual expenditure variances by program.

Non-Departmental: Includes expenditures that are not attributable to a single department, but a function of the City in general. Through October, expenditures totaled $6.1 million, or 32.6% of the budget, which is at par of 33.3%. Current year spend is approximately 4.8% higher than prior year levels.

City Attorney: Actual expenditures through October totaled approximately $1.3 million, which is 28.2% of the budget, which is below par. Spending is higher than the total expenditures through the same time last fiscal year by 38.3% due to higher salaries and benefits costs.

City Clerk: Through October, actual expenditures were tracking slightly above budget at approximately $0.6 million or 32.7% of the budget, primarily in the salaries and benefits categories. This expenditure level reflects a 17% decrease compared to last fiscal year due to the lower software subscription costs.

City Council: Through October, expenditures of $0.4 million were at 30% of budget, which is slightly below par. Compared to the same period through last fiscal year, this reflects a slight decrease in expenditures, resulting from lower spending for as-needed staff.

City Manager: The actual expenditures through October totaled $2.0 million, or 30.7% of the budget, which is slightly below par for this time of the year. Expenditures are approximately 47.4% higher compared with the spending level through the same period last fiscal year. This is due to higher spend in the salaries and benefits and contractual services categories.

Community Development Department: This department consists of three divisions: Planning, Building, and Housing and Community Services. The Building Division of this department is reflected in the Building Development Services Fund, which falls under the special revenue section of this report. Through October, departmental expenditures for the Planning and Housing and Community Services divisions totaled $1.7 million, or 27.3% of the budget, which is below par of 33.3%. This expenditure level is 4.1% above the prior year as a result of higher salaries and benefits spend.

Finance Department: Through October, the Department's expenditures totaled $6.3 million, or 29.3% of the budget, which is below par. This expenditure level was approximately 7.7% lower compared to the same period last year. Higher salaries and benefits spend is offset by lower contractual services costs.

Fire Department: Through October, actual expenditures totaled $24.1 million, or 34% of the budget, which is slightly above par. These expenditures are consistent with the spending level through the same period last fiscal year. Overtime expenditures are tracking at 82.2% of the budget, which is well above par for this time of year. Excluding reimbursable mutual aid-related overtime, the departmental overtime remains at approximately 75.43% of the budget. While this overtime figure is still above par, it is important to note that overtime is used to backfill for vacant positions and the vacancy savings offset a portion of the overtime costs.

Through October, absences are up 15% (from 27,576 to 31,619 hours) when compared with the prior fiscal year and remain above historical levels. Absences are trending high in the areas of compensation time usage, sick leave, and industrial injury time. Employees can elect for compensatory time over overtime pay when backfilling shift absences, which increases the need to backfill when the compensatory time is used. Through October, the compensatory time payouts total $789,305, which is above historical levels and 32% above the payouts of $597,612 experienced through October of last fiscal year. The Department will continue to monitor expenditures throughout the fiscal year, and any necessary budget adjustments will be brought forward for City Council consideration.

Library Department: Through October, actual expenditures totaled approximately $3.9 million, or 32.3% of the budget, which is at par, but 1.8% lower than expenditure levels last fiscal year.

Parks and Recreation Department: Through October, actual expenditures totaled $8.1 million, or 31.8% of the budget, which is slightly below par, but 8.2% higher than prior year actuals of $7.5 million. This increase reflects higher spend in the salaries and benefits categories as well as maintenance, utilities and contractual services costs.

Police Department: Expenditures through October are tracking at $34.0 million, or 33.8% of the budget; this is approximately 12.5% higher prior year spending. The increase is mainly due to higher spend in the salaries and benefits categories.

Stadium Operation: Stadium operating expenditures are incurred first and billed on a reimbursement basis creating a timing difference in revenue recognition. Stadium expenditures of $5.1 million through October are tracking at 25% of the budget; this expenditure level is 20.7% above the prior fiscal year due to a greater number of non-NFL events held at the Stadium compared to the prior year. Events at the Stadium through October include two soccer matches, four concerts, two preseason and three regular season NFL games; these costs are fully reimbursed by the Stadium Manager and the Stadium Authority. The Bay Area Host Committee also provides reimbursement for expenses incurred related to Super Bowl LX and FIFA World Cup 2026 planning costs.

Special Revenue Funds

The table below is a summary of revenues and expenditures of select Special Revenue Funds as of October 31, 2025. The amended budget reflects carryover encumbrances from fiscal year 2024/25 and budget amendments approved by the City Council through October 2025.

Through the end of October, revenues totaled $11.6 million, or 38.2% of the estimate, which is above par of 33.3%, while expenditures totaled approximately $9.2 million, or 22.8%. Revenues in both the Building and Fire Development Services Funds and the Fire CUPA Fund are tracking above par. The Housing Authority Fund is tracking significantly above prior year levels due to additional interest paid on a housing loan. The Housing and Urban Development Fund shows higher revenue collections and higher spend than last fiscal year as the Housing Division continues to spend down grant funding. In the Housing Successor Agency Fund, contractual services spend is higher than prior years, while interest collections have come in lower than prior years.

Internal Service Funds

The table below displays the expenditures in the internal service funds across the City. The amended budget reflects current year appropriations, prior year carryover, and budget amendments approved through October 2025. As of October 31, 2025, the internal service fund expenditures totaled $16.2 million, or 27.8% of the amended budget. The change in spend in the Special Liability Fund is due to higher insurance premium costs that were assumed in the development of the budget. The expenditure fluctuations in the Vehicle Replacement Fund are due to the timing of vehicle purchases throughout the year. In the Communication Acquisitions Fund, spend reflects replacements and maintenance to the City's current inventory of radios.

Governmental Capital Improvement Funds

The table below lists the revenue for selected capital improvement funds. The amended budget reflects current year appropriations, prior year carryover, and budget amendments approved through October 2025. As of October 31, 2025, the capital fund revenue totaled approximately $14.1 million. In the Parks and Recreation Capital Fund, $8.6 million represents MFA collections, $0.9 million represents Quimby Act fees received, with interest earnings accounting for the remaining collections. The revenue collected in the Related Santa Clara Fund represents developer contributions. The revenue shown in the Storm Drain Capital Fund are customer service charges. The amount collected in the Tasman East Specific Infrastructure Fund is interest earnings, while the collections in the Streets and Highways Capital Fund are comprised of interest earnings, grant funding, fees, and VTA Measure B proceeds.

The table below lists the total amended budgeted amounts for expenditures in the Capital Improvement Funds. Similar to the revenue table, the amended expenditure budgets consist of current year appropriations, prior year carryover encumbrance balances in Governmental Capital Improvement Funds, and budget amendments approved through October 2025. As of October 31, 2025, capital fund expenditures totaled $15.8 million, or 9% of the amended budget, well below par of 33.3%.

As part of the adoption of the FY 2025/26 and FY 2026/27 biennial operating budget, capital funds were carried over for projects that were not anticipated to be completed by June 30, 2025. Necessary additional adjustments to the capital carryover amounts are included as part of the Budgetary Year-End Report for FY 2024/25, which will be brought forward for City Council approval in December 2025.

Revenues in the electric (which also includes the Electric Debt Service Fund), water, sewer (which also includes the Sewer Debt Service Fund) and water recycling funds are primarily from customer service charges. The activity levels for these customer service charges also impact the resource and production costs on the expenditure side for these funds. In the Water Recycling Fund, higher customer service charges have been collected, with higher spend in the resource/production category due to timing of payments. In the Electric Utility Fund, the significant increase in spend is attributable to the resource/production and salaries and benefits categories, while the decrease in revenue is attributable to bond proceeds received last fiscal year. The Cemetery Fund has seen higher activity in the sales category.

A summary of revenue and expenses in the Enterprise Capital Improvement Funds is detailed in the tables below. Actual revenue through October 31, 2025, totaled $4.3 million, consisting primarily of developer contributions in the Electric Utility Fund and sewer fees in the Sewer Utility Fund. In the Electric Utility Capital Fund, the decrease in revenue collected when compared to September is attributable to a refund made to a developer due to an overpayment. Enterprise capital fund expenses totaled $27.8 million, or 3.5% of the amended budget. Similar to the general government capital funds, capital funds were carried over from FY 2024/25 as part of the FY 2025/26 and FY 2026/27 budget adoption process for those projects that were not expected to be completed by June 30, 2025. Additional necessary adjustments to the capital carryover amounts based on actual year-end expenditures are included in the Budgetary Year-End Report for FY 2024/25, which will be brought forward for City Council approval in December 2025.

Fund Reserves

By policy, City Council established the City's General Contingency Reserve, under which reserves for Budget Stabilization and Capital Projects were established.

- Budget Stabilization Reserve is set aside for weathering economic downturns, emergency financial crisis, or disaster situations. The reserve target is equal to the expenditures of the City's General Fund operations for three months (90-day or 25% General Fund Adopted Operating Budget).
- Capital Projects Reserve earmarks funds for the Capital Improvement Program.

Other General Reserves and Enterprise Fund Reserves included in this report are highlighted as follows:

- Technology Fee Reserve is set aside to update and/or replace the City's aging technology and to ensure internal controls are in compliance with current business standard and legal requirements.
- Land Sale Reserve is net proceeds from the sale of City-owned land, with interest earned on these funds available to be appropriated for General Fund operating expenditures. This reserve is available for appropriation by City Council action.
- The Electric Utility Rate Stabilization Reserve and Operations and Maintenance Reserve ensures sufficient operating cash is available to cover day-to-day expenses, address unforeseen cost increases or revenue shortfalls, and ensure debt service coverage.
- The Replacement and Improvement Reserve in the Water and Sewer Utility Funds is for future capital improvement.

The table below summarizes select reserve balances.

CITY OF SANTA CLARA
SUMMARY OF INVESTMENT PORTFOLIO

All securities held by the City of Santa Clara as of October 31, 2025 were in compliance with the City's Investment Policy Statement regarding current market strategy and long-term goals and objectives. All securities held are rated A or higher by two nationally recognized rating agencies. There is adequate cash flow and maturity of investments to meet the City's needs for the next six months.

The following table provides the breakdown of the total portfolio among the City, the Sports and Open Space Authority (SOSA), and the Housing Authority (HA) as of October 31, 2025.

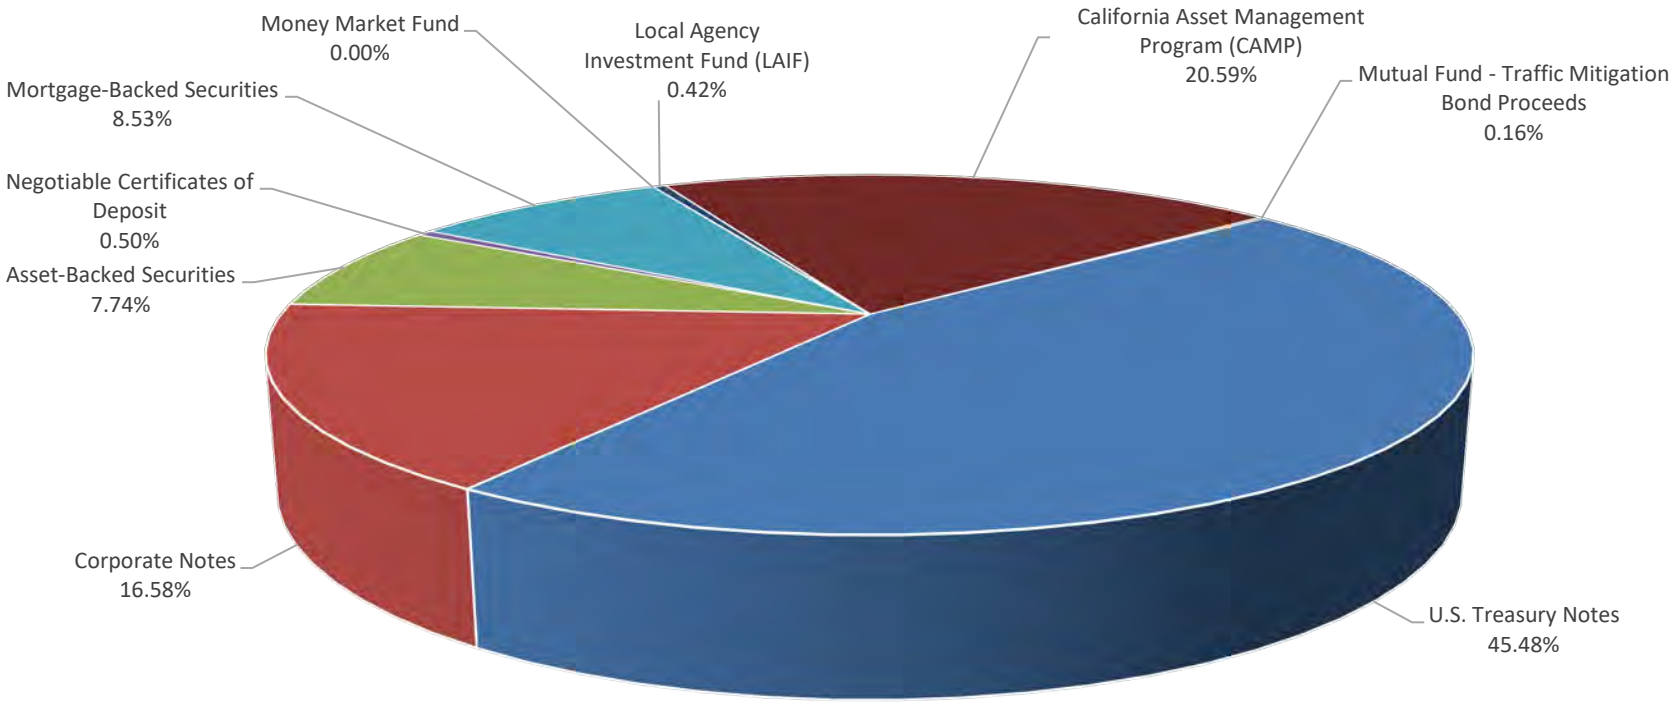
	COST VALUE	PERCENTAGE
City	$1,499,462,664	99.91%
SOSA	15,130	0.00%
HA	1,405,420	0.09%
Unrestricted	$1,500,883,214	100.00%
Restricted Bond Proceeds	2,456,469	
Total Investments	$1,503,339,683	

On October 31, 2025 the cost value and market value of the City's unrestricted pooled investment portfolio were $1,500,883,214 and $1,511,944,512 respectively.

Investment Strategy and Market Update

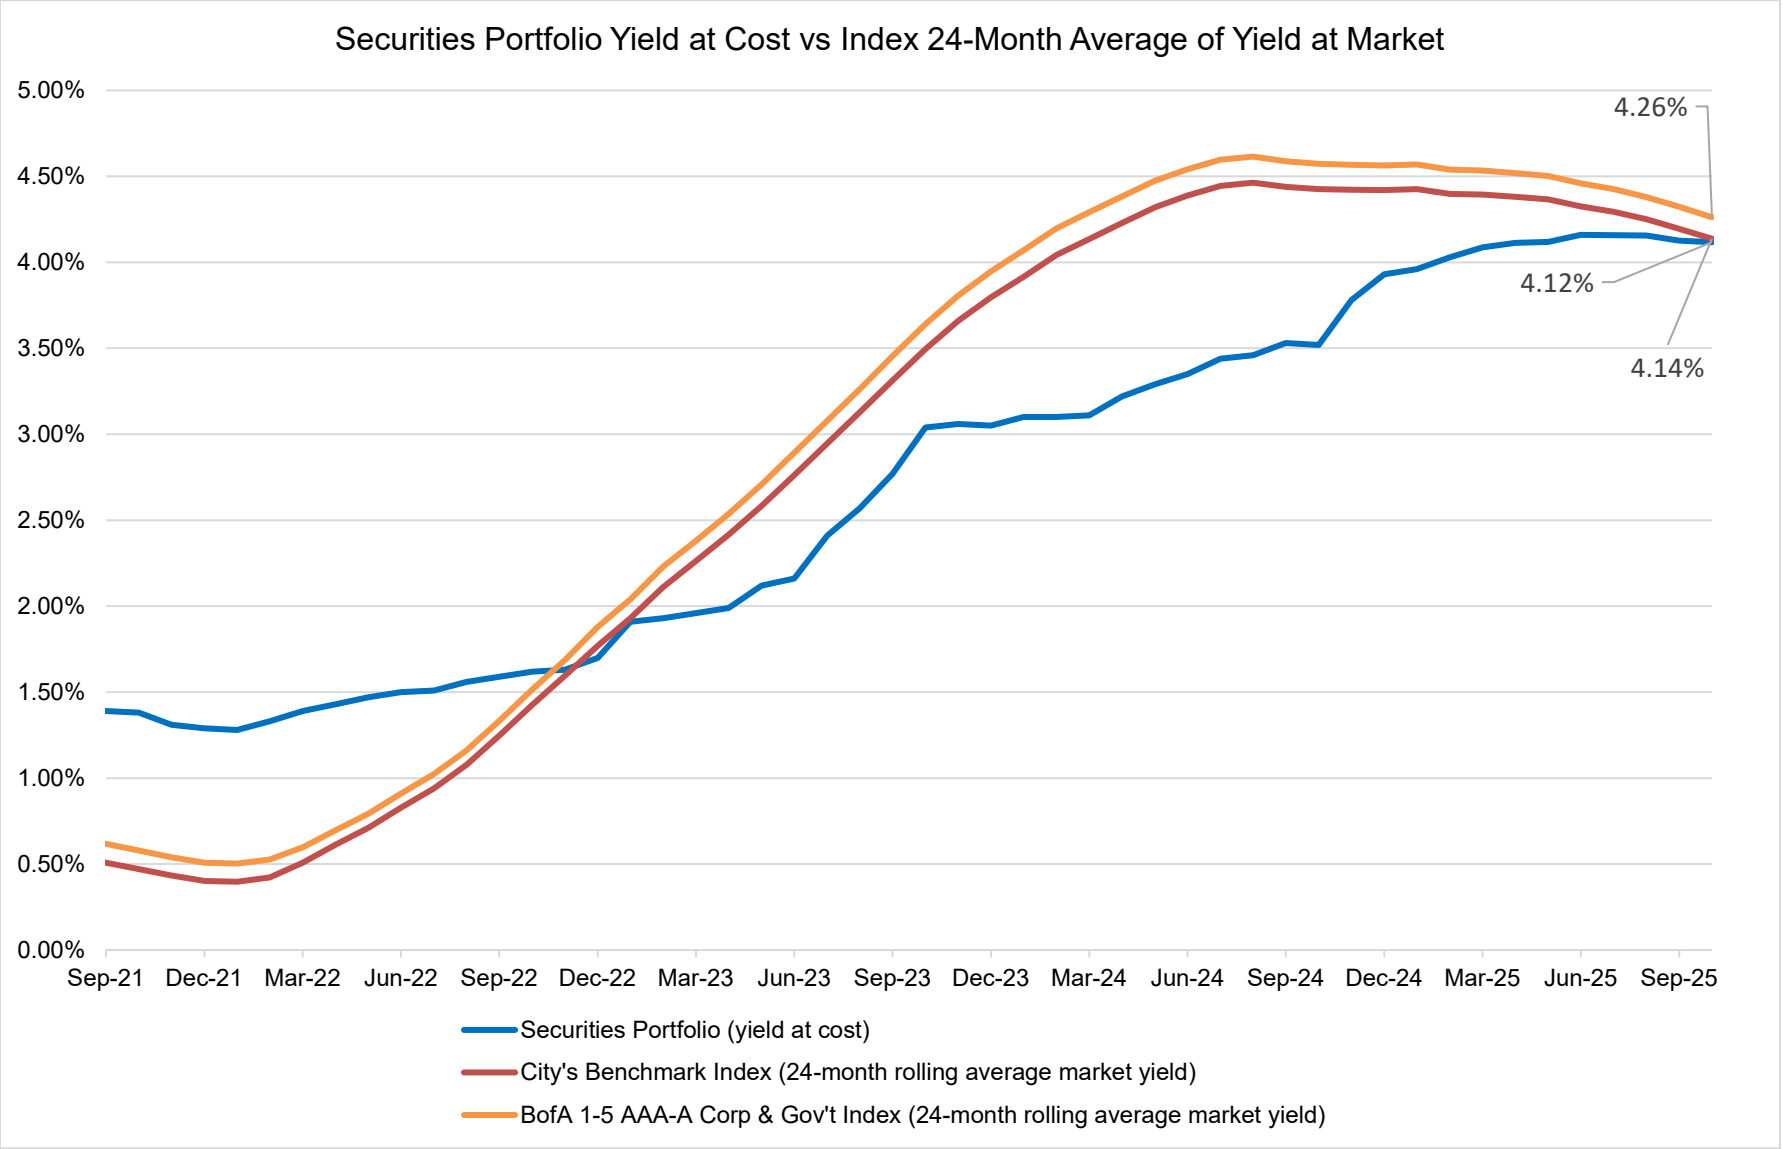
The Federal Reserve (Fed) cut the target range for the federal funds rate at the second consecutive meeting to a three-year low of 3.75% to 4.00%. It also announced the end of its quantitative tightening program on December 1, at which point it will halt balance sheet reductions.

Despite the lack of official economic data due to the government shutdown, Powell stated that available data suggest the outlook for employment and inflation remains unchanged since the last meeting. However, he emphasized another rate cut in December is "far from" a foregone conclusion.



The Consumer Price Index (CPI) came in below expectations, rising 3.0% year-over-year. Tariff passthroughs remain modest, though certain import-reliant categories are showing some inflationary pressures. The White House said the October CPI report will not likely be released, adding complexity to the Fed's decision-making process.

Yields on 3-month, 2-year, and 10-year U.S. Treasuries ended the month at 3.81%, 3.57%, and 4.08% representing decreases of -12 bps, -3 bps, and -7 bps, respectively. Falling Treasury yields continue to push mortgage rates lower, and they reached a three-year low of 6.31% at the end of October.



Lower yields in October drove positive returns across fixed income indices. The ICE BofA 3-month, 2-year, and 10-yearU.S. Treasury indices returned +0.35%, +0.31%, and +0.78%, respectively.

The City's investment strategy for October 2025 was to invest funds not required to meet current obligations, in securities listed in the prevailing Investment Policy Statement, with maturities not to exceed five years from date of purchase. This strategy ensures safety of the City's funds, provides liquidity to meet the City's cash needs, and earns a reasonable portfolio return. PFM Asset Management LLC began actively managing the City's securities portfolio on September 1, 2020.

As of October 31, 2025, 45.48% of the City's portfolio consists of U.S. Treasury Notes, 20.59% consists of California Asset Management Program (CAMP), 16.58% consists of investment grade Corporate Notes, 8.53% consists of investment grade Mortgage-Backed Securities, 7.74% consists of investment grade Asset-Back Securities, 0.50% consists of Negotiable Certificates of Deposit, and 0.42% consists of Local Agency Investment Fund (LAIF). In addition, City bond proceeds are invested in separate funds and are not included in the calculation of the City's portfolio yield.

The City's securities portfolio is benchmarked against the ICE BAML 1-5 US Treasury Index.

The following table summarizes the investment yields other information of the City's investment portfolio components, along with comparable-maturity market indices. Also shown are the monthly interest income and aggregate year-to-date income.

FY 2025/26 Budget Amendments

General Fund

Department/Item	Source of Funds	Use of Funds	Explanation
Stadium Reimbursements / Non-Departmental Stadium Operations	74,000	74,000	Increases the revenue estimate for Stadium reimbursements and the appropriation for Stadium Operations in Non-Departmental. This funding will provide for 25 additional body worn cameras needed for Stadium events **(five affirmative Council votes required to appropriate additional revenue).**
	74,000	**74,000**	

Convention Center Enterprise Fund

Department/Item	Source of Funds	Use of Funds	Explanation
Transfer to the Convention Center Capital Fund		1,543,000	Establishes a transfer to the Convention Center Capital Fund for high priority projects including painting of the exterior of the Convention Center, replacement of the cooling tower and installation of drop ceilings in several areas of the building **(five affirmative Council votes required for the use of unused balances).**
Unrestricted Ending Fund Balance		(1,543,000)	Decreases the unrestricted ending fund balance to offset the action recommended above **(five affirmative Council votes required for the use of unused balances).**
	-	**-**	

Convention Center Capital Fund

Department/Item	Source of Funds	Use of Funds	Explanation
Transfer from the Convention Center Enterprise Fund / Santa Clara Convention Center Condition Assessment Repair	1,543,000	1,543,000	Recognizes a transfer from the Convention Center Enterprise Fund and appropriates it to the Santa Clara Convention Center Condition Assessment Repair project. Of this amount, $843,000 will fund the painting of the Convention Center's exterior, $650,000 will fund the replacement of the cooling tower, and the remaining $50,000 will fund the installation of drop ceilings to address fire sprinkler protection deficiencies **(five affirmative Council votes required to appropriate additional revenue).**
	1,543,000	**1,543,000**	

FY 2025/26 Budget Amendments

Fire Department Capital Fund (536)

Department/Item	Source of Funds	Use of Funds	Explanation
Fire Station 2 Window Seismic Upgrades		(49,500)	Reduces the Fire Station 2 Window Seismic Upgrades project funding and reallocates the funds to a new project identified by the Fire Department as a higher prioritiy **(majority affirmative Council votes required).**
Training Center Audio Visual Equipment		49,500	Establishes a Training Center Audio Visual Equipment project for the installation of new equipment at the Training Center to replace the defunct equipment that currently exists and is no longer usable. The cost includes the new equipment and installation labor costs **(majority affirmative Council votes required).**
	-	**-**	

Parks and Recreation Capital Fund (532)

Department/Item	Source of Funds	Use of Funds	Explanation
Mitigation Fee Act Revenue	8,603,749		Increases the Mitigation Fee Act revenue estimate by $8,603,749 based on revenue received year-to-date **(five affirmative Council votes required to appropriate additional revenue).**
Quimby Act Revenue	864,492		Increases the Quimby Act revenue estimate by $864,492 based on revenue received year-to-date **(five affirmative Council votes required to appropriate additional revenue)**.
Park Impact Fees Monitoring Project		189,365	Increases the Park Impact Fees Monitoring Project appropriation based on Mitigation Fee Act (MFA) and Quimby Act revenue received year-to-date. The appropriation is based on a calculation of two percent (2%) of actual Quimby and MFA fees received which are transferred to this project annually (City Chapter 17.35 of the City Code) to support staff and studies related to the park in-lieu program **(five affirmative Council votes required to appropriate additional revenue)**.
Parkland Acquisition Project		2,319,718	Increases the Parkland Acquisition Project appropriation by $2,319,718 based on Mitigation Fee Act and Quimby Act revenue received year-to-date. The appropriation is based on 25% of total Park In-Lieu Fees received, after two percent (2%) is allocated to the Park Impact Fees Monitoring Project **(five affirmative Council votes required to appropriate additional revenue)**.

FY 2025/26 Budget Amendments

Parks and Recreation Capital Fund (532) (Cont'd.)

Department/Item	Source of Funds	Use of Funds	Explanation
Ending Fund Balance Reconciliation - Mitigation Fee Act Fees		6,323,756	Increases the Mitigation Fee Act Fees Ending Fund Balance to offset the actions above **(five affirmative Council votes required to appropriate additional revenue)**.
Ending Fund Balance Reconciliation - Quimby Act Fees		635,402	Increases the Quimby Act Fees Ending Fund Balance to offset the actions above **(five affirmative Council votes required to appropriate additional revenue)**.

REPORT TO COUNCIL

SUBJECT

Action to Authorize the City Manager to Issue Purchase Orders and/or to Negotiate and Execute Agreements with Dell Marketing LP, SHI International, CDW Government LLC, Carahsoft Technology Corp., Presidio Network Solutions, LLC, Insight Public Sector, TD Synnex Corporation, and/or their Authorized Resellers, Under Cooperative Purchasing Agreements for the Purchase of Various Information Technology Products and Services for Silicon Valley Power, for a Total Amount Not-to-Exceed $12 Million, and Approve Related Budget Amendment

BACKGROUND

Information Technology (IT) serves as a key enabler for the City of Santa Clara's Electric Utility, Silicon Valley Power's ("SVP"), mission to provide safe, reliable, and efficient electric service to the community. IT systems support every aspect of utility operations - from power generation and distribution management to customer service, cybersecurity, and data analytics. As technology continues to evolve, continuous improvement and modernization of SVP's IT environment are vital to ensuring system reliability, protecting critical infrastructure, enabling data-driven decision-making, and improving service delivery. By maintaining the ability to procure, upgrade, and enhance technology systems, SVP safeguards its capacity to adapt to future challenges - including its growth targets, increased grid complexity, renewable integration, and heightened security requirements - while continuing to deliver exceptional value and service to the community and meeting the growing expectations of customers, regulators, and stakeholders.

This report seeks authorization to pursue ongoing investments in IT systems to support SVP's operational, administrative, and strategic needs. These investments include acquiring new technologies, enhancing existing systems, and replacing legacy platforms that have reached end-of-life or no longer meet modern performance, integration, or cybersecurity standards.

SVP's IT environment is complex and encompasses both enterprise business systems and mission-critical operational technologies and covers approximately 2,000 managed devices. Current scope includes:

- Desktop and Mobile Computing: Approximately 225 desktop computers, 175 laptops with docking stations, and 500 monitors are deployed to SVP staff and field personnel to support daily work activities. Many of these systems are high-performance workstations used for engineering, AutoCAD, GIS, SCADA configuration, and other specialized applications.

- Server and Data Center Infrastructure: Approximately 97 physical and virtual servers located in SVP-managed data centers that host key applications such as GIS, energy management, work orders, and financial systems. These systems require ongoing

maintenance, hardware refresh, and operating system upgrades to maintain reliability and security.

- Storage Area Network (SAN) and Enterprise Backup Solutions: SVP uses a SAN and Enterprise Backup Solution for Disaster Recovery. The SAN and Backup Solution have reached their end-of-life and are no longer supported by Hewlett Packard Enterprise Development LP (HPE).

- IT and Operation Technology (OT) Network and Communications Equipment: Numerous core switches, routers, firewalls, networking components for SVP's secure communication segmented backbones, securely connecting substations, control rooms, AMI network, and administrative offices.

- Cybersecurity and Data Protection Systems: Firewalls, endpoint protection, vulnerability management, cloud security, network intrusion detection systems, backup appliances, and monitoring tools essential for maintaining the security and resiliency of SVP's IT and OT environments.

- Enterprise and Business Applications: Software licenses and maintenance for productivity, asset management, GIS, and specialized utility applications that require ongoing vendor support.

- Peripheral and Specialty Equipment: Printers, plotters, scanners, and other hardware supporting engineering design, field data collections, and administrative operations.

- Audiovisual Equipment: Audio, video, projection, and photographic equipment, screens/displays, and peripherals/accessories.

DISCUSSION

SVP System Support Group (SSG) recently conducted a review of anticipated IT system requirements. Based on that review, staff developed an estimate of expenditures required to maintain, upgrade, and replace IT equipment and services necessary for SVP's ongoing operations. The IT goods and services anticipated under this report are essential to support enterprise systems, network infrastructure, and cybersecurity tools, enable SVP's business continuity and operations, replace aging hardware and avoid technical obsolescence, and mitigate security risks from malware, and other vulnerabilities.

Table 1 below summarizes the estimated five-year expenditures for IT goods and services needed to support SVP's operations. While this request seeks multi-year spending authority, a portion of the funding is requested in this fiscal year to address immediate, high-priority needs, including cybersecurity enhancements required in advance of the SBLX and FIFA World Cup events and replacement of end-of-life OT/IT networks and storage infrastructure. Several core network components and the Storage Area Network are nearing end-of-life and expiration of vendor support. All remaining expenditures would be phased over the five-year period to support planned system upgrades and ongoing security and infrastructure requirements.

Table 1 - Estimated Five-Year IT Expenditures

IT Category	Description	Anticipated Timing	Estimated Five-Year Spend
Desktop and Mobile Computing	Replacement of desktop computers, laptops, docking stations, and monitors based on established equipment life cycles	Phased over the five-year term as equipment reaches end of life; estimated FY 2025/26 spend is $250,000	$750,000
Server and Data Center	Ongoing refresh and support of servers and data center systems	Phased over the five-year term as equipment reaches end of life; estimated FY 2025/26 spend is $250,000	$700,000
Storage and Backup Infrastructure	Replacement of SAN and enterprise backup systems at two locations	Near-term; system configuration and purchase anticipated by March 2026; estimated FY 2025/26 spend is $2,700,000	$2,700,000
Cybersecurity and Data Protection	Cybersecurity platforms including vulnerability management, remediation, log management, secure remote access, security operations, data governance, and endpoint detection and response	Near-term replacement of end-of-life systems with additional upgrades phased over the term; estimated FY 2025/26 spend is $1,000,000	$2,350,000
IT and OT Network and Communications Equipment	Network infrastructure supporting security IT and operational technology environments, including firewalls, core switches, core routing, access layer switches, wireless access points, network monitoring platform, and IDS/IPS	Near-term replacement of end-of-life systems with additional upgrades phased over the term; estimated FY 2025/26 spend is $3,000,000	$5,400,000

Peripheral and Specialty Equipment and Audiovisual Equipment	Replacement and upgrades of various equipment	Replaced on an as-needed basis; estimated FY 2025/26 spend is $50,000	$100,000
		Total	$12,000,000

To efficiently procure the broad range of technology goods and services described above, staff recommend utilizing cooperative purchasing agreements. This recommendation is in accordance with Section 2.105.270(c) of the City of Santa Clara Code, which authorizes the City to contract with vendors under contracts awarded using preestablished cooperative purchasing agreements when such agreements result from a competitive bid process that meets or exceeds the competitive bidding process of the City, as determined by the Purchasing Division Manager.

Cooperative purchasing agreements have become a common strategy among public agencies for acquiring technology goods and services. By sharing procurement efforts with other government entities, agencies leverage the full competitive process, including solicitation development, bid advertising, evaluation, and award, conducted by a lead public agency. Using these competitively awarded contracts enables the City to benefit from lower pricing due to aggregated demand, reduced administrative workload, and shorter procurement timelines. These agreements are rebid and renewed upon expiration, ensuring that participating agencies continue to benefit from competitive pricing and contract efficiencies.

The City intends to use several competitive cooperative agreements for IT-related procurements. A summary of the cooperative programs is provided below:

- NASPO ValuePoint: NASPO ValuePoint is a national cooperative purchasing program facilitating public procurement solicitations and agreements using a lead-state model and provides the highest standard of excellence in public cooperative contracting. NASPO ValuePoint is available to public agencies and is a program under National Association of State Procurement Officials (NASPO), comprising of chief procurement officials of all 50 states, the District of Columbia, and U.S. territories.

- OMNIA Partners: OMNIA is a national government purchasing cooperative that administers competitive solicitations in partnership with lead public agencies. OMNIA's process complies with public sector procurement requirements, allowing local and state government agencies, school districts (K-12), higher education institutions, and nonprofits to utilize competitively awarded contracts.

- Sourcewell: Sourcewell is a national cooperative procurement organization that conducts its own competitive solicitations as a lead agency. Its procurement process includes public advertising, evaluation, negotiation, and awarding that is consistent with public purchasing laws. Sourcewell's competitively awarded contracts are available to government agencies, education institutions, and non-profits.

Staff requests approval for spending authority to execute agreements and/or purchase orders for a not-to-exceed amount of $12 million for a five-year period through December 31, 2030, and

authorization to use the cooperative purchasing agreements listed in Table 2 below. In accordance with Section 2.105.270(c) of the City of Santa Clara Code, the Purchasing Division Manager has determined that the cooperative agreements listed in Table 2 resulted from a competitive bid process that meets or exceeds the competitive bidding process of the City. Staff also request the authority to substitute any of these cooperative agreements with the applicable replacement agreement issued by the same cooperative organization if the existing agreement expires during the purchase approval period; provided that the replacement agreement meets the requirements of Section 2.105.270(c) as determined by the Purchasing Division Manager.

Table 2 - Cooperative IT Purchases for SVP

Att. #	Vendor Name	Cooperative Purchase Agreement	Description
1	Dell Marketing L.P.	NASPO ValuePoint Master Agreement No. 23026 (formerly No. 23004), which is effective through June 30, 2028, if all options are exercised	Desktop and mobile computing, including computers, laptops, equipment, and peripherals
2	SHI International	Sourcewell Master Agreement No. 121923-SHI, which is effective through February 27, 2031, if all options are exercised	Hardware, software, cloud, cybersecurity, networking, storage, peripherals, and services
3	CDW Government LLC	OMNIA Partners, Public Sector Master Agreement 2024056-01, which is effective from July 2, 2024, through July 1, 2034, if all options are exercised	Laptops, networking equipment, system components, desktop and notebooks, networking equipment, servers, cybersecurity, and services
4	Carahsoft Technology Corp.	OMNIA Partners, Public Sector Master Agreement 23-6692-01, which is effective through April 30, 2028	Laptops, networking equipment, system components, desktop and notebooks, networking equipment, servers, and storage
5	Carahsoft Technology Corp.	OMNIA Partners, Public Sector Master Agreement R240303 which is effective through December 31, 2029, if all options are exercised	Software solutions and services

6	Presidio Network Solutions, LLC	Sourcewell Master Agreement #120122, which is effective through March 17, 2028, if all options are exercised	Cloud and artificial intelligence, cybersecurity, networking, end-point management and security, service desk, and business workflows
7	Insight Public Sector	OMNIA Partners Public Sector Master Agreement 23-6692-03, which is effective through April 30, 2028, if all options are exercised	Cloud solutions, system components, desktop and notebooks, networking equipment, servers, and storage
8	TD Synnex Corporation	Sourcewell Master Agreement #020624-SYN, which is effective through May 3, 2031, if all options are exercised	Private wireless networks, radio access networks, network management tools, site surveys and assessments, tier-one OEM solutions, advanced solutions, endpoint solutions, cloud, artificial intelligence, and cybersecurity

Most purchases under these cooperative agreements will be made through standard Purchase Orders. However, certain purchases will require a separate contract that references the terms of the underlying cooperative agreement. Providing authority to negotiate and execute these agreements is necessary because some IT procurements require contract documents, particularly when they involve warranties, support services, cybersecurity requirements, or software licenses. Cooperative agreements such as Sourcewell, explicitly allow participating agencies to negotiate additional terms and conditions. This is beneficial to the City as it can negotiate terms that are equal to or more favorable to the City than those contained in the base contract. This flexibility enables the City to incorporate required provisions, such as insurance requirements, data security terms, confidentiality clauses, and City-specific legal requirements, into the final agreement and to negotiate pricing that may be lower than the published cooperative rates.

In addition, some purchases made during the approved spending period will include multi-year maintenance, warranty, support, or subscription services that extend beyond December 31, 2030. This is standard for technology purchases, as ongoing support is required after the initial product is deployed. Allowing multi-year terms does not increase the spending limit. To maintain full fiscal control, the entire contract value, including services that occur after 2030, will be charged against the $12 million authority at the time the agreement is executed. This ensures that all obligations incurred during the purchasing period remain within the approved spending limit. Staff will monitor all purchases and remaining spending capacity using the City’s financial management system, PeopleSoft. Staff will continue to manage and allocate purchases among the vendors as needed to meet operational requirements and will ensure that the total expenditure remains within the authorized $12 million spending limit during the five-year period ending December 31, 2030.

This request to use multiple cooperative agreements is consistent with practices used by other public agencies. For example, the City of Sacramento obtained City Council approval to use cooperative

purchasing agreements for citywide IT purchases in an amount of approximately $34.5 million for FY 2025/26.

Approval of the recommendations in this report will allow SVP to procure the necessary IT goods and services through multiple cooperative purchasing agreement efficiently, transparently, and in compliance with the City's procurement policy.

ENVIRONMENTAL REVIEW

The actions being considered do not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to Section 15061(b)(3) of Title 14 of the California Code of Regulation in that it can be seen with certainty that there is no possibility that the proposed actions may have a significant effect on the environment as the proposed actions authorize the purchase of IT services, equipment and licenses necessary for the City to carry out critical administrative functions .

FISCAL IMPACT

Of the $12.0 million discussed in this Report to Council technology infrastructure improvements, $7.25 million is needed in FY 2025/26 as outlined in Table 1 of this report to allocate funds to begin several critical initiatives to address systems nearing end of life, and system enhancements, including an OT/IT Network and Communications Refresh, Cybersecurity and Data Protection strengthening, Server and Data Center Infrastructure upgrades, and Storage Area Network (SAN) and Enterprise Backup replacement.

Funding of $7,250,000 is available in the Electric Utility Fund Unrestricted Ending Fund Balance. The budget amendment below allocates funding from the Electric Utility Fund to the Electric Utility Capital Fund to increase the Operations and Planning Technology project.

	Budget Amendment FY 2025/26		
	Current	Increase/ (Decrease)	Revised
Electric Utility Fund (091)			
Transfers to			
Electric Utility Capital Fund	$70,541,000	$7,250,000	$77,791,000
Ending Fund Balance			
Unrestricted Ending Fund Balance	$103,600,565	($7,250,000)	$96,350,565
Electric Utility Capital Fund (591)			
Transfers from			
Electric Utility Fund	$70,541,000	$7,250,000	$77,791,000
Expenditures			
Operations and Planning Technology Project (CIP 2395)	$4,636,798	$7,250,000	$11,886,798

The remaining $4,750,000 needed will be incorporated in the Electric Utility Capital Fund in future years of funding in the FY 2026/27 and FY 2027/28 Proposed Biennial Capital Improvement Program Budget as part of the annual budget process. Ongoing software subscription costs will be incorporated in the Electric Utility Fund operating budget as part of the annual budget process.

COORDINATION

This report has been coordinated with the Finance Department and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Authorize the City Manager or designee to issue Purchase Orders and/or negotiate and execute agreements with Dell Marketing LP, SHI International, CDW Government LLC, Carahsoft Technology Corp., Presidio Network Solutions, LLC, Insight Public Sector, TD Synnex Corporation, and/or their authorized resellers, under cooperative purchasing agreements for the purchase of various information technology products and services for Silicon Valley Power, for a total compensation amount not-to-exceed $12 million during a five-year purchasing period through December 31, 2030, subject to the appropriation of funds and the review and approval as to form by the City Attorney;
2. Authorize the City Manager or designee to take any actions as necessary to implement and administer the Purchase Orders and agreements and negotiate and execute amendment(s) to (1) add or delete services or equipment, (2) extend the term, (3) update rates in compliance with Section 2.105.270(c) of the City of Santa Clara Code, and (4) make de minimis changes, subject to the appropriation of funds, as necessary, and to the final review and approval as to form by the City Attorney; and
3. Approve the following FY 2025/26 budget amendments:
    a. In the Electric Utility Fund, increase the transfer to the Electric Utility Capital Fund and reduce the Unrestricted Ending Fund Balance by $7,250,000 (five affirmative Council votes required for the use of unused balances);
    b. In the Electric Utility Capital Fund, increase the transfer from the Electric Utility Fund and increase the Operations and Planning Technology project in the amount of $7,250,000 (five affirmative Council votes required to appropriate additional revenue).

ASSIGNMENT OF NASPO MASTER AGREEMENT 23004

This Assignment Agreement is by and among the State of Minnesota, acting through its Commissioner of Administration (State), Dell Inc., One Dell Way, Round Rock, TX 78682 (Original Contractor), and Dell Marketing L.P., One Dell Way, Mailstop RR1-33 Legal, Round Rock, TX 78682 (Assigned Contractor).

WHEREAS, the State has an agreement with the Original Contractor identified as Contract 23004, effective July 14, 2023, through June 30, 2025 (Contract), to provide Computer Equipment, Peripherals & Related Services; and

WHEREAS, the Original Contractor wishes to assign all its interests in the Contract to the Assigned Contractor; and

WHEREAS, the assignment provision of the Contract provides assignment of the agreement only upon written consent of the State.

NOW, THEREFORE, it is agreed by the parties to amend the Contract as follows:

1. The Assigned Contractor is assigned Contract 23026 to accommodate participating addenda under the Master Agreement.

2. This Assignment Agreement will become effective upon its approval and execution by the parties and approval of the appropriate State officials, pursuant to Minn. Stat. § 16C.05, subd. 2.

3. The State hereby approves the request of the Original Contractor to assign the Assigned Contractor all its interests, rights, and responsibilities, duties, and other provisions set forth in the Contract, which is attached and incorporated as Exhibit A, provided the Original Contractor and the Assigned Contractor agree to all provisions set forth in this Assignment Agreement.

4. Representations and Warranties:

    a. The Original Contractor represents and warrants to the State that it is not in default of any of its obligations under the Contract.

    b. The Assigned Contractor represents and warrants to the State that: (i) as of the effective date of this Assignment Agreement, the Assigned Contractor will have received sufficient information, right to technology, and key personnel sufficient to properly perform the duties, responsibilities, obligations, and all other provisions assigned to it, and (ii) the Assigned Contractor is ready, willing, and able to perform all of the duties, obligations, and responsibilities of the Contract.

    c. The representations and warranties set forth in this Section 4 are for the sole benefit of the State and its permitted assigns and nothing herein, express or implied, is intended to or shall confer upon any other person or entity (including the Original Contractor and the Assigned Contractor) any legal or equitable right, benefit or remedy of any nature whatsoever under or by reason of this Assignment Agreement.

5. The Assigned Contractor accepts assignment of all of the provisions of the Contract.

6. Any and all amounts due to the Original Contractor by a Participating Entity for goods or services provided by the Original Contractor prior to July 14, 2023, under the Contract will be paid to the Original Contractor by the Participating Entity. Any and all amounts due under the Contract on or after July 14, 2023, will be paid to the Assigned Contractor by the Participating Entity and the Original Contractor.

7. When applicable, payment for remaining work and travel expenses from the Contract will be paid at the rates set in the Contract. The amount to be paid to the Assigned Contractor will not exceed the Contract's total costs, minus the

total payments made to the Original Contractor.

8. If applicable, the Assigned Contractor will provide proof of insurance with the coverage and in the amounts called for in the original solicitation document, attached herein.

9. If applicable, the Assigned Contractor will provide a copy of its Affirmative Action Certification as approved by the Minnesota Department of Human Rights.

10. If applicable, the Assigned Contractor will provide a copy of its Equal Pay Certification as approved by the Minnesota Department of Human Rights.

This Assignment Agreement is effective upon the date that the final required signatures are obtained.

IN WITNESS WHEREOF, the parties have caused this Assignment Agreement to be duly executed intending to be bound thereby.

EXHIBIT A: CONTRACT

Attached and incorporated into Exhibit A is the following document(s):

- NASPO Master Agreement 23004.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

NASPO ValuePoint Master Agreement No.: 23004

This Contract is between the State of Minnesota, acting through its Commissioner of Administration ("Lead State") and Dell Inc., whose designated business address is One Dell Way, Round Rock, TX 78682 ("Contractor"). State and Contractor may be referred to jointly as "Parties."

Recitals

1. The State of Minnesota, Department of Administration, Office of State Procurement, on behalf of the State of Minnesota and NASPO ValuePoint Cooperative Procurement Program ("NASPO ValuePoint") issued a solicitation to establish Minnesota NASPO ValuePoint Master Agreement(s) ("Contract") with qualified manufacturers for Computer Equipment (Desktops, Laptops, Tablets, Servers, and Storage, including related Peripherals & Services);

2. Contractor provided a response to the Solicitation indicating its interest in and ability to provide the goods or services requested in the Solicitation; and

3. Subsequent to an evaluation in accordance with the terms of the Solicitation and negotiation, the Parties desire to enter into a contract; and

4. All authorized governmental entities in any state or participating US Territory are welcome to use the resulting Master Agreement through NASPO ValuePoint with the approval of the State Chief Procurement Official. Upon final award of the overarching Master Agreement, Contractors are able to sign Participating Addendums (PA) at the option of Participating States. Participating States reserve the right to add state specific terms and conditions and modify the scope of the contract in their Participating Addendum as allowed by the Master Agreement.

Accordingly, the Parties agree as follows:

Contract

1. **Term of Contract**

a. Effective date. July 1, 2023, or the date the Lead State obtains all required signatures under Minn. Stat. § 16C.05, subd. 2, whichever is later.

b. Expiration date. June 30, 2025. This Master Agreement may be extended for up to an additional 36 months, in increments as determined by the Lead State, through a duly executed amendment.

c. If, in the judgment of the Lead State, a follow-on, competitive procurement will be unavoidably delayed beyond the planned date of execution of the follow-on master agreement, this Master Agreement may be extended for a reasonable period of time, not to exceed six months. This subsection shall not be deemed to limit the authority of a Lead State under its state law otherwise to negotiate contract extensions.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

2. **Representations and Warranties**

a. Under Minn. Stat. §§ 15.061 and 16C.03, subd. 3, and other applicable law the Lead State is empowered to engage such assistance as deemed necessary.

b. Contractor warrants that it is duly qualified and shall perform its obligations under this Master Agreement in accordance with the commercially reasonable standards of care, skill, and diligence in Contractor's industry, trade, or profession, and in accordance with the specifications set forth in this Master Agreement, to the satisfaction of the Lead State.

c. Contractor warrants that it possesses the legal authority to enter into this Master Agreement and that it has taken all actions required by its procedures, by-laws, and applicable laws to exercise that authority, and to lawfully authorize its undersigned signatory to execute this Master Agreement, or any part thereof, and to bind Contractor to its terms.

3. **Awarded Band(s)**

The solicitation included three product Bands: Band 1, Personal Computing Devices – Windows Operating Systems: Desktops, Laptops, Tablets; and Band 2, Personal Computing Devices – Non-Windows Operating Systems: Desktops, Laptops, Tablets; and Band 3, Servers and Storage. The Contractor is awarded the following Band(s):

Band 1, Personal Computer Devices – Windows Operating Systems
Band 2, Personal Computer Devices - Non-Windows Operating Systems
Band 3, Servers and Storage

4. **Configuration Dollar Limits**

The following configuration limits apply to the Master Agreement. Participating Entities may define their configuration limits in their Participating Addendum. The Participating Entity's Chief Procurement Official may increase or decrease the configuration limits, as defined in their Participating Addendum. The Participating Entity will determine with the Contractor how to approve these modifications to the Product and Service Schedule.

The dollar limits identified below are based on a SINGLE computer/system configuration. This is NOT a restriction on the purchase of multiple configurations (e.g., an entity could purchase 10 laptops at $15,000 each, for a total purchase price of $150,000).

ITEM	CONFIGURATION
Band One	$15,000
Band Two	$15,000
Band Three	$1,000,000
Peripherals	$10,000
Services	Addressed in the Participating Addendum

5. **Restrictions**

The following restrictions apply to the Master Agreement. A Participating Entity may set further restrictions of products in their Participating Addendum. The Participating Entity will determine with the Contractor how to approve these modifications to the Entity's Product and Service Schedule.

a. Software

1. Software is restricted to operating systems and commercial off-the-shelf (COTS) software and is subject to equipment configuration limits.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

2. Any software purchased must be related to the procurement of equipment.

3. Software must be pre-loaded or provided as an electronic link with the initial purchase of equipment, except for the exceptions allowed under Paragraph 5.a.4.

4. Software such as middleware which is not always installed on the equipment, but is related to storage and server equipment (Band 3) purchased, is allowed and may be procured after the initial purchase of equipment.

b. General Services

1. Services must be related to the procurement of equipment.

2. Service limits will be addressed by each State.

3. Wireless phone and internet service is not allowed.

4. Managed Print Services are not allowed.

c. Cloud Services

1. Cloud Services are restricted to Services that function as operating systems and software needed to support or configure hardware purchased under the scope of the contract and is subject to equipment configuration limits.

2. Any Cloud Service purchased must be related to the procurement of equipment.

d. Third-Party Products

1. Third-Party Products can be offered only in the Bands they have been awarded. All third-party products must meet the definition(s) of the Band(s) in which they are being offered.

2. Products manufactured by another Contractor holding a Minnesota NASPO ValuePoint Master Agreement for Computer Equipment cannot be offered unless approved by the Lead State.

e. Additional Product/Services

1. Hardware and software required to solely support wide area network (WAN) operation and management are not allowed.

2. Lease/Rentals of equipment may be allowed and will be addressed by each State.

3. Cellular Phone Equipment is not allowed.

4. EPEAT Bronze requirement may be waived, on a State case-by-case basis, if approved by the State's Chief Procurement Officer. EPEAT Bronze requirement does not currently apply to storage.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

6. **Authorized Representative**

a. Master Agreement Administrator. The Master Agreement Administrator designated by NASPO ValuePoint and the State of Minnesota, Department of Administration is Elizabeth Randa, Acquisition Management Specialist.

Elizabeth Randa, Acquisition Management Specialist
Department of Administration
Office of State Procurement
112 Administration Building
50 Sherburne Avenue
St. Paul, MN 55155
E-mail: elizabeth.randa@state.mn.us
Phone: 651.201.3122

b. Contractor's Authorized Representative. The Contractor's Authorized Representative is Ashley Salinas, SLED Contract Program Manager.

Ashley Salinas, SLED Contract Program Manager
Dell Inc.
One Dell Way
Round Rock, TX 78682
A.Salinas@dell.com
Phone: 512.542.1237

If the Contractor's Authorized Representative changes at any time during this Contract, the Contractor must immediately notify the Lead State.

7. **Notices**

If one party is required to give notice to the other under the Master Agreement, such notice shall be in writing and shall be effective upon receipt. Delivery may be by certified United States mail or by hand, in which case a signed receipt shall be obtained. An email shall constitute sufficient notice, provided the receipt of the transmission is confirmed by the receiving party. Either party must notify the other of a change in address for notification purposes. All notices to the Lead State shall be addressed to the Master Agreement Administrator.

8. **Exhibits**

The following Exhibits are attached and incorporated into this Contract. In the event of a conflict between the terms of this Contract and its Exhibits, or between Exhibits, the order of precedence is first the Contract, and then in the following order:

Exhibit A: NASPO ValuePoint Terms and Conditions
Exhibit B: Minnesota Terms and Conditions
Exhibit C: Requirement
Exhibit D: Price Schedule
Exhibit E: Contractor Terms and Conditions

9. **Survival of Terms:**

The following clauses survive the expiration or cancellation of this Master Agreement: Indemnification; State Audits; Government Data Practices and Intellectual Property; Publicity and Endorsement; Governing Law, Jurisdiction, and Venue; and Data Disclosure. Any other Contract term that states it shall survive, shall survive.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

10. **Entire Agreement**

This Contract and any written addenda thereto constitute the entire agreement of the parties to the Master Agreement.

1. Contractor

The Contractor certifies that the appropriate person(s) have executed the Contract on behalf of the Contractor as required by applicable articles, bylaws, resolutions, or ordinances.

Exhibit A: NASPO ValuePoint Master Agreement Terms and Conditions

1. **Conflict of Terms/Order of Precedence.**

a. Any order placed under this Master Agreement shall consist of the following documents:

1. A Participating Entity's Participating Addendum ("PA");

2. Minnesota NASPO ValuePoint Master Agreement, as negotiated, including all exhibits;

3. A Purchase Order issued against a PA (terms and conditions set forth in a Purchase Order will not be deemed to modify, diminish, or otherwise derogate the terms and conditions set forth in a Participating Addendum or Minnesota NASPO ValuePoint Master Agreement).

b. These documents shall be read to be consistent and complementary. Any conflict among these documents shall be resolved by giving priority to these documents in the order listed above. Contractor terms and conditions that apply to this Master Agreement are only those that are expressly accepted by the Lead State and must be in writing and attached to this Master Agreement as an Exhibit or Attachment.

c. Contractor terms and conditions may be incorporated if expressly accepted by the Lead State and attached to the Master Agreement as an Exhibit or Attachment, or by written reference (including reference to information contained in a URL or referenced policy). A written reference, including by URL or policy, is incorporated into the Master Agreement only if the Master Agreement expressly identifies that reference. URL's must be explicitly referenced to be incorporated into the Master Agreement. URL's contained within the URL's that are explicitly referenced are not incorporated into the Master Agreement. Any Contractor term or condition incorporated by URL or written reference applies to this Master Agreement only to the extent such term or condition is not prohibited by applicable law. Any change to information contained in a URL or referenced policy will not affect any financial obligation, place any additional material obligation on an ordering entity, or materially diminish an ordering entity's ability to use the product or service.

d. A written Master Agreement (which may include the contents of the RFP and selected portions of Contractor's response incorporated therein by reference) will constitute the entire agreement of the parties to the Master Agreement. No other terms and conditions shall apply, including terms and conditions listed in the Contractor's response to the RFP, or terms listed or referenced on the Contractor's website not otherwise incorporated into the Master Agreement, in the Contractor quotation/sales order, or in similar documents subsequently provided by the Contractor.

e. Additional Agreement with NASPO. Upon request by NASPO ValuePoint, awarded Contractor shall enter into a direct contractual relationship with NASPO ValuePoint related to Contractor's obligations to NASPO ValuePoint under the terms of the Master Agreement, the terms of which shall be the same or similar (and not less favorable) than the terms set forth in the Master Agreement.

2. **Definitions.**

a. **Acceptance** is defined by the applicable commercial code, except Acceptance shall not occur before the completion of delivery in accordance with the Order, installation if required, and a reasonable time for inspection of the Product.

b. **Accessory** means a product that enhances the user experience but does not extend the functionality of the computer (e.g. mouse pad or monitor stand). For the purposes of this Contract, accessories are considered peripherals.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

c. **_____ as a Service (_aaS)** refers to any good provided in a subscription-based model that is defined in the industry as "_____ as a Service". Examples are "Software as a Service", "Infrastructure as a Service", and "Storage as a Service", and shall follow the NIST definitions of those services. ____ as a Service are permitted only when they meet the restrictions found in Paragraph 5.c, above.

d. **Band** means a category of products. There are three product bands which may be awarded through this Contract. Each product band includes related peripherals and services.

e. **Components** are the parts that make up a computer configuration.

f. **Contractor** means the person or entity delivering Products or performing services under the terms and conditions set forth in this Master Agreement.

g. **Configuration** means the combination of hardware and software components that make up the total functioning system.

h. **Customer** (see Purchasing Entity).

i. **Desktop** means a personal computer intended for regular use at a single location. A desktop computer typically comes in several units connected together during installation: (1) the processor, 2) display monitor, and 3) input devices usually a keyboard and a mouse. Desktops, including desktop virtualization endpoints such as zero and thin clients, are included in Bands 1 and 2 of this Contract.

j. **Embedded Software** means one or more software applications which permanently reside on a computing device.

k. **Energy Star®** is a voluntary energy efficiency program sponsored by the U.S. Environmental Protection Agency. The Energy Star program makes it easy to identify energy efficient computers by labeling products that deliver the same or better performance as comparable models while using less energy and saving money. For additional information on the Energy Star program, including product specifications and a list of qualifying products, visit the Energy Star website at http://www.energystar.gov.

l. **EPEAT** is a type-1 ecolabel for identifying and purchasing sustainable IT products. EPEAT-registered products must meet sustainability criteria detailed in voluntary consensus-based standards that are free and publicly available on the Green Electronics Council's website at www.greenelectronicscouncil.org. Products are classified as Bronze, Silver, or Gold based on meeting criteria that address the life cycle of the products. Product life cycle includes material extraction, hazardous substance reduction, end-of-life management, packaging, and corporate sustainability. Only products listed as Active in the online EPEAT Registry are considered to meet the EPEAT criteria.

m. **FOB Destination** means that shipping charges are included in the price of the item and the shipped item becomes the legal property and responsibility of the receiver when it reaches its destination unless there is acceptance testing required.

n. **FOB Inside Delivery** means that shipping charges are included in the price of the item, and that the shipped item becomes the legal property and responsibility of the receiver when it reaches the inside delivery point, which is beyond the front door or loading dock. FOB Inside Delivery is a special shipping arrangement that may include additional fees payable by the Purchasing Entity. FOB Inside Delivery must be annotated on the Purchasing Entity ordering document.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

o. **Intellectual Property** means any and all patents, copyrights, service marks, trademarks, trade secrets, trade names, patentable inventions, or other similar proprietary rights, in tangible or intangible form, and all rights, title, and interest therein.

p. **Laptop** means a personal computer for mobile use. A laptop includes a display, keyboard, point device such as a touchpad, and speakers in a single unit. A laptop can be used away from an outlet using a rechargeable battery. Laptops include notebooks, ultrabooks, netbooks, Zero and thin client devices, and computers with mobile operating systems. Laptops are included in Bands 1 and 2 of this Contract.

q. **Lead State** means the State centrally administering any resulting Master Agreement(s).

r. **Mandatory Requirement** is a requirement that the failure to meet results in the rejection of the responder's proposal unless all responders are unable to meet the mandatory requirement. The terms "must" and "shall" identify a mandatory requirement. Any objection to a mandatory requirement should be identified by responders in the Question and Answer period.

s. **Manufacturer** means a company that, as one of its primary business functions, designs, assembles, owns the trademark/patent for, and markets branded computer equipment.

t. **Master Agreement** means the underlying agreement executed by and between the Lead State, acting on behalf of NASPO ValuePoint, and the Contractor.

u. **Middleware** means the software "glue" that helps programs and databases (which may be on different computers) work together. The most basic function of middleware is to enable communication between different pieces of software.

v. **NASPO ValuePoint** is a division of the National Association of State Procurement Officials ("NASPO"), a 501(c)(3) limited liability company. NASPO ValuePoint facilitates administration of the NASPO cooperative group contracting consortium of state chief procurement officials for the benefit of state departments, institutions, agencies, and political subdivisions and other eligible entities (i.e., colleges, school districts, counties, cities, some nonprofit organizations, etc.) for all states, the District of Columbia, and territories of the United States. NASPO ValuePoint is identified in the Master Agreement as the recipient of reports and may perform contract administration functions relating to collecting and receiving reports as well as other contract administration functions as assigned by the Lead State.

w. **Option** means an item of equipment or a feature that may be chosen as an addition to or replacement for standard equipment and features.

x. **Order or Purchase Order** means any purchase order, sales order, contract or other method used by a Purchasing Entity to order the Products.

y. **Participating Addendum** means a bilateral agreement executed by a Contractor and a Participating Entity incorporating this Master Agreement and any other additional Participating Entity specific language or other requirements, e.g. ordering procedures specific to the Participating Entity, other terms and conditions.

z. **Participating Entity** means a state (as well as the District of Columbia and U.S territories), city, county, district, other political subdivision of a State, or a nonprofit organization under the laws of some states properly authorized to enter into a Participating Addendum, that has executed a Participating Addendum.

aa. **Participating State** means a state that has executed a Participating Addendum.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

bb. **Partner** means a company, authorized by the Contractor and approved by the Participating Entity, to provide marketing, support, or other authorized contract services on behalf of the Contractor in accordance with the terms and conditions of the Contractor's Master Agreement. A Partner may include, but is not limited to, an agent, subcontractor, fulfillment partner, channel partner, business partner, servicing subcontractor, etc.

cc. **Peripherals** means any hardware product that can be attached to, added within, or networked with personal computers, servers, or storage. Peripherals extend the functionality of a computer without modifying the core components of the system.

dd. **Per Transaction Multiple Unit Discount** means a contractual volume discount based on dollars in a single purchase order or combination of purchase orders submitted at one time by a Participating Entity or multiple entities conducting a cooperative purchase.

ee. **Premium Savings Package(s) (PSP)** are deeply discounted standard configurations available to Purchasing Entities using the Master Agreement. NASPO ValuePoint reserves the right to expand and modify the PSP throughout the life of the contract. For more information see: https://www.naspovaluepoint.org/portfolio/57/.

ff. **Product** means any equipment, software (including embedded software), documentation, service, or other deliverable supplied or created by the Contractor pursuant to this Master Agreement. The term Products, supplies and services, and products and services are used interchangeably in these terms and conditions.

gg. **Purchasing Entity** means a state (including the District of Columbia and U.S. territories), city, county, district, other political subdivision of a state, other public entities domestic or foreign, and nonprofit organizations under the laws of some states if authorized by a Participating Addendum, that issues a Purchase Order under the terms of the Master Agreement, or any Participating Addendum thereto, and becomes financially committed to the purchase.

hh. **Ruggedized** means equipment specifically designed to operate reliably in harsh usage environments and conditions, such as strong vibrations, extreme temperatures, and wet or dusty conditions. Ruggedized equipment may be proposed under the band that most closely fits the equipment being proposed.

ii. **Server** means computer hardware dedicated to run one or more services or applications (as a host) to serve the needs of the users of other computers on a network. Servers may be either physical or virtual. Servers, including server appliances, are included in Band 3 of this Contract. Server appliances have their hardware and software preconfigured by the manufacturer, and include embedded networking components such as those found in blade chassis systems.

jj. **Services** are broadly classified as installation or de-installation, maintenance, support, training, migration, and optimization of products offered or supplied under the Master Agreement. These classifications of services may include, but are not limited to: warranty services, maintenance, installation, de-installation, factory integration (software or hardware components), asset management, recycling or disposal, training and certification, pre-implementation design, disaster recovery planning and support, service desk or helpdesk, imaging, and any other directly related technical support service required for the effective operation of a product offered or supplied. Contractors may offer limited professional services related ONLY to the equipment and configuration of the equipment purchased through the resulting contracts.

EACH PARTICIPATING ENTITY WILL DETERMINE RESTRICTIONS AND NEGOTIATE TERMS FOR SERVICES THROUGH THEIR PARTICIPATING ADDENDUM.

kk. **Software** means, for the purposes of this Contract, commercial operating off the shelf machine-readable object code instructions including microcode, firmware, and operating system software that meet the restrictions specified

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

in Paragraph 5.a. "Software" applies to all parts of software and documentation, including new releases, updates, and modifications of software.

ll. **Storage** means hardware or a virtual appliance with the ability to store large amounts of data. Storage, including SAN switching necessary for the proper functioning of storage equipment, is included in Band 3 of this Contract

mm. **Storage Area Network (SAN)** is a high-speed special-purpose network (or subnetwork) that interconnects different kinds of data storage devices with associated data servers on behalf of a larger network of users.

nn. **Tablet** means a mobile computer that provides a touchscreen that acts as the primary means of control. Tablets, including notebooks, ultrabooks, and netbooks with touchscreen capabilities, are included in Bands 1 and 2 of this Contract.

oo. **Takeback Program** means the Contractor's process for accepting the return of equipment or other products at the end of the product's life.

pp. **Thin Client** is a lightweight computer that has been optimized for establishing a remote connection with a server-based computing environment.

qq. **Third Party Product** is a good sold by the Contractor that is manufactured by another company. Third Party Products are intended to enhance or supplement a Contractor's own product line, and are not intended to represent more than a third of any Contractor's total sales under this Master Agreement.

rr. **Upgrade** means the replacement of existing software, hardware, or hardware component with a newer version.

ss. **Warranty** means the Manufacturer's general warranty tied to the product at the time of purchase.

tt. **Wide Area Network (WAN)** is a data network that serves users across a broad geographic area and often uses transmission devices provided by common carriers.

3. **Term of the Master Agreement.**

a. The initial term of this Master Agreement is for 2 years. This Master Agreement may be extended beyond the original contract period for 36 additional months at the Lead State's discretion and by mutual agreement and upon review of requirements of Participating Entities, current market conditions, and Contractor performance.

b. The Master Agreement may be extended for a reasonable period of time if in the judgment of the Lead State a follow-on, competitive procurement will be unavoidably delayed (despite good faith efforts) beyond the planned date of execution of the follow-on master agreement. This subsection shall not be deemed to limit the authority of a Lead State under its state law otherwise to negotiate contract extensions.

4. **Amendments.**

The terms of this Master Agreement shall not be waived, altered, modified, supplemented or amended in any manner whatsoever without a written amendment to the Master Agreement executed by the Contractor and Lead State as required by law. Master Agreement amendments will be negotiated by the Lead State with the Contractor whenever necessary to address changes in the terms and conditions, costs, timetable, or increased or decreased scope of work.

5. **Participants and Scope.**

a. Canadian Participation. Subject to the approval of Contractor, any Canadian provincial government or provincially funded entity in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador,

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

Nova Scotia, Ontario, Prince Edward Island, Quebec, or Saskatchewan, and territorial government or territorial government funded entity in the Northwest Territories, Nunavut, or Yukon, including municipalities, universities, community colleges, school boards, health authorities, housing authorities, agencies, boards, commissions, and crown corporations, may be eligible to use Contractor's Master Agreement. Canadian Participation. Subject to the approval of the Contractor, any Canadian provincial government or provincially funded entity in Ontario, Quebec, Nova Scotia, New Brunswick, Manitoba, British Columbia, Prince Edward Island, Saskatchewan, Alberta, Northwest Territories, Nunavut, Yukon, and Newfoundland and Labrador, including municipalities, universities, community colleges, school boards, health authorities, housing authorities, agencies, boards, commissions, and crown corporations, may be eligible to use Contractor's Master Agreement.

b. Contractor may not deliver Products under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed. The NASPO ValuePoint Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum. By way of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g. purchase order or contract) used by the Purchasing Entity to place the Order.

c. Use of specific NASPO ValuePoint Master Agreements by state agencies, political subdivisions and other Participating Entities (including cooperatives) authorized by individual state's statutes to use state contracts are subject to the approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the respective State Chief Procurement Official.

d. Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. States or other entities permitted to participate may use an informal competitive process to determine which Master Agreements to participate in through execution of a Participating Addendum. Financial obligations of Participating Entities who are states are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating Entities who are states incur no financial obligations on behalf of other Purchasing Entities. Contractor shall email a fully executed PDF copy of each Participating Addendum to PA@naspovaluepoint.org to support documentation of participation and posting in appropriate data bases.

e. NASPO and NASPO ValuePoint are not parties to the Master Agreement.

f. Participating Addenda shall not be construed to amend the following provisions in this Master Agreement between the Lead State and Contractor that prescribe NASPO ValuePoint requirements: Term of the Master Agreement; Amendments; Participants and Scope; Administrative Fee; NASPO ValuePoint Summary and Detailed Usage Reports; NASPO ValuePoint Cooperative Program Marketing and Performance Review; Right to Publish; Price and Rate Guarantee Period; and Individual Customers. Any such language shall be void and of no effect.

g. Participating Entities who are not states may under some circumstances sign their own Participating Addendum, subject to the consent to participation by the Chief Procurement Official of the state where the Participating Entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a Participating Addendum is not a determination that procurement authority exists in the Participating Entity; they must ensure that they have the requisite procurement authority to execute a Participating Addendum.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

h. Resale. "Resale" means any payment in exchange for transfer of tangible goods, software, or assignment of the right to services. Subject to any specific conditions included in the Master Agreement, or as explicitly permitted in a Participating Addendum, Purchasing Entities may not resell Products (the definition of which includes services that are deliverables). Absent any such condition or explicit permission, this limitation does not prohibit: payments by employees of a Purchasing Entity for Products; sales of Products to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this subsection must be consistent with license rights granted for use of intellectual property.

6. **Individual Customers.**

Except to the extent modified by a Participating Addendum, each Purchasing Entity shall follow the terms and conditions of the Master Agreement and applicable Participating Addendum and will have the same rights and responsibilities for their purchases as the Lead State has in the Master Agreement, including but not limited to, any indemnity or right to recover any costs as such right is defined in the Master Agreement and applicable Participating Addendum for their purchases. Each Purchasing Entity will be responsible for its own charges, fees, and liabilities. The Contractor will apply the charges and invoice each Purchasing Entity individually.

7. **Independent Contractor.**

The Contractor is an independent contractor. Contractor shall have no authorization, express or implied, to bind the Lead State, Participating States, other Participating Entities, or Purchasing Entities to any agreements, settlements, liability or understanding whatsoever, and agrees not to hold itself out as an agent except as expressly set forth herein or as expressly agreed in any Participating Addendum.

8. **Contracting Personnel.**

Contractor must provide adequate contracting personnel to assist states with the completing and processing Participating Addenda. It is preferred that each Contractor be able to provide each Participating Entity with a primary contact person for that Participating Entity.

9. **Changes in Contractor Representation.**

The Contractor must notify the Lead State of changes in the Contractor's key administrative personnel managing the Master Agreement in writing within 10 calendar days of the change. The Lead State reserves the right to approve changes in key personnel, as identified in the Contractor's proposal. Such approval shall not be unreasonably withheld. The Contractor agrees to propose replacement key personnel having substantially equal or better education, training, and experience as was possessed by the key person proposed and evaluated in the Contractor's proposal.

10. **Contractor Verification.**

The Contractor is responsible for delivering products or performing services under the terms and conditions set forth in the Master Agreement. The Contractor must ensure partners utilized in the performance of this contract adhere to all the terms and conditions. The term Partner will be utilized in naming the relationship a Contractor has with another company to market and sell under the contract. Participating Entities will have final determination/approval if a Partner may be approved for that state in the role identified by the Contractor.

11. **Contractor Performance Meeting.**

An annual performance meeting may be held each year with the NASPO ValuePoint Sourcing Team. Historically performance meetings have been held in Minnesota, but the Lead State may hold the meetings in person or virtually at the Lead State's discretion.

All contractors that are invited to participate must send their Primary Account Representative, unless an exception is granted in writing by the Lead State. It is possible that not all contractors will be invited to participate in a performance meeting.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

12. **Laws and Regulations.**
Any and all Products offered and furnished shall comply fully with all applicable Federal, State, and local laws and regulations, including Minn. Stat. § 181.59 prohibiting discrimination and business registration requirements of the Office of the Minnesota Secretary of State. To the extent any purchase is subject to Federal Acquisition Regulations, as may be required by the terms of a federal grant, a Participating Entity and Contractor may include in their Participating Addendum terms that reflect such a requirement.

13. **Price and Rate Guarantee Period.**
All minimum discounts and rates must be guaranteed for the initial term of the Master Agreement. Following the initial Master Agreement period, any request for minimum discount or rate adjustment must be for a guarantee period as offered by the Contractor, and must be made at least 30 days prior to the effective date. Requests for minimum discount or rate adjustment must include sufficient documentation supporting the request. Any adjustment or amendment to the Master Agreement shall not be effective unless approved by the Lead State. No retroactive adjustments to minimum discounts or rates will be allowed.

14. **Premium Savings Package Program.**
The Lead State reserves the right to create a Premium Savings Package Program (PSP) as outlined in the Definitions, Paragraph 2.ee of Exhibit A. Participation by Contractor is voluntary. The details and commitments of the PSP will be detailed as a part of any request for Contractor to participate.

15. **Services.**
Participating Entities must explicitly allow services in their Participating Addenda for the approved services to be allowed under that Participating Addendum. The Participating Addendum by each Participating Entity will address service agreement terms and related travel.

16. **Ordering.**

a. Master Agreement and purchase order numbers shall be clearly shown on all acknowledgments, packing slips, invoices, and on all correspondence.

b. Purchasing Entities may define entity or project-specific requirements and informally compete the requirement among companies having a Master Agreement on an “as needed” basis. This procedure may also be used when requirements are aggregated or other firm commitments may be made to achieve reductions in pricing. This procedure may be modified in Participating Addenda and adapted to the Purchasing Entity’s rules and policies. The Purchasing Entity may in its sole discretion determine which Master Agreement Contractors should be solicited for a quote. The Purchasing Entity may select the quote that it considers most advantageous, cost and other factors considered.

c. Each Purchasing Entity will identify and utilize its own appropriate purchasing procedure and documentation. Contractor is expected to become familiar with the Purchasing Entities’ rules, policies, and procedures regarding the ordering of supplies or services contemplated by this Master Agreement.

d. Contractor shall not begin work without a valid Purchase Order or other appropriate commitment document under the law of the Purchasing Entity.

e. Orders may be placed consistent with the terms of this Master Agreement during the term of the Master Agreement.

f. All Orders pursuant to this Master Agreement, at a minimum, shall include:

1. The service description or supplies being delivered;

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

2. The place and requested time of delivery;

3. A billing address;

4. The name, phone number, and address of the Purchasing Entity representative;

5. The price per hour or other pricing elements consistent with this Master Agreement and the contractor's proposal;

6. A ceiling amount of the order for services being ordered;

7. The Master Agreement identifier; and

8. Statement of Work, when applicable.

g. All communications concerning administration of Orders placed shall be furnished solely to the authorized purchasing agent within the Purchasing Entity's purchasing office, or to such other individual identified in writing in the Order.

h. Orders must be placed pursuant to this Master Agreement prior to the termination date thereof, but may have a delivery date or performance period up to 120 days past the then-current termination date of this Master Agreement. Contractor is reminded that financial obligations of Purchasing Entities payable after the current applicable fiscal year are contingent upon agency funds for that purpose being appropriated, budgeted, and otherwise made available.

i. Notwithstanding the expiration, cancellation or termination of this Master Agreement, Contractor agrees to perform in accordance with the terms of any Orders then outstanding at the time of such expiration or termination. Contractor shall not honor any Orders placed after the expiration, cancellation or termination of this Master Agreement, or otherwise inconsistent with its terms. Orders from any separate indefinite quantity, task orders, or other form of indefinite delivery order arrangement priced against this Master Agreement may not be placed after the expiration or termination of this Master Agreement, notwithstanding the term of any such indefinite delivery order agreement.

17. **Trade-In.**

Any trade-in programs offered during the life of the Master Agreement must be approved by the Lead State. Participating Entities must explicitly allow trade-in programs in their Participating Addenda for the approved programs to be allowed under that Participating Addendum. Trade-in value shall not decrease the discounts offered through the Master Agreement.

18. **Shipping and Delivery.**

a. The prices are the delivered price to any Purchasing Entity for standard 3-5 day shipping. If an order is requested with expedited shipping, the Contractor must provide a firm "not to exceed" price for the expedited shipping on the quote. All deliveries shall be FOB Destination, freight pre-paid, with all transportation and handling charges paid by the Contractor. Responsibility and liability for loss or damage shall remain the Contractor's until final inspection and acceptance when responsibility shall pass to the Purchasing Entity except as to latent defects, fraud and Contractor's warranty obligations. Any order for less than the specified amount is to be shipped with the freight prepaid and added as a separate item on the invoice. Any portion of an Order to be shipped without transportation charges that is back ordered shall be shipped without charge.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

b. Specific delivery instructions, including FOB Inside Delivery, will be noted on the order form or Purchase Order. Any damage to the building interior, scratched walls, damage to the freight elevator, etc., will be the responsibility of the Contractor. If damage does occur, it is the responsibility of the Contractor to promptly notify the Purchasing Entity placing the Order.

c. All products must be delivered in the manufacturer's standard package. Costs shall include all packing and crating charges. Cases shall be of durable construction, good condition, properly labeled and suitable in every respect for storage and handling of contents. Each shipment shall be marked with the Purchasing Entity's Purchase Order number and other information sufficient for the Purchasing Entity to properly identify the shipment as outlined in the Participating Addendum of the Purchasing Entity.

19. **Inspection and Acceptance.**

a. Where the Master Agreement, a Participating Addendum, or an Order does not otherwise specify a process for inspection and Acceptance, this section governs. This section is not intended to limit rights and remedies under the applicable commercial code.

b. Acceptance. Purchasing Entity shall determine whether all Products and Services delivered meet the Contractor's published specifications. No payment shall be made for any Products or Services until the Purchasing Entity has accepted the Products or Services. The Purchasing Entity will make every effort to notify the Contractor within thirty (30) calendar days following delivery of non-acceptance of a Product or completion of Service. In the event that the Contractor has not been notified within 30 calendar days from delivery of Product or completion of Service, the Product and Services will be deemed accepted on the 31st day after delivery of Product or completion of Services. Failure to reject upon receipt, however, does not relieve the Contractor of liability for latent or hidden material defects. Acceptance of such goods may be revoked in accordance with the provisions of the applicable commercial code, and the Contractor is liable for any resulting expense incurred by the Purchasing Entity related to the preparation and shipping of Product rejected and returned, or for which Acceptance is revoked. The warranty period shall begin upon Acceptance. If the parties agree to acceptance testing, the terms of subsection (c), below, apply.

c. Acceptance Testing. The Purchasing Entity and the Contractor shall determine if Acceptance Testing is applicable and required for the purchase. "Acceptance Testing" means the process for ascertaining that the Product meets the standard of performance prior to Acceptance by the Purchasing Entity.

1. The Acceptance Testing period shall be thirty (30) calendar days starting from the day after the Product is delivered or, if installed, the day after the Product is installed and Contractor certifies that the Product is ready for Acceptance Testing. If the Product does not meet the standard of performance during the initial period of Acceptance Testing, Purchasing Entity may, at its discretion, continue Acceptance Testing on a day-to-day basis until the standard of performance is met. Upon rejection, the Contractor will have fifteen (15) calendar days to cure the standard of performance issue(s). If after the cure period, the Product still has not met the standard of performance, the Purchasing Entity may, at its option: (a) declare Contractor to be in breach and terminate the Order; (b) demand replacement Product from Contractor at no additional cost to Purchasing Entity; or, (c) continue the cure period for an additional time period agreed upon by the Purchasing Entity and the Contractor.

2. No Product shall be deemed Accepted and no charges shall be paid until the standard of performance is met. Products that do not meet specifications may be rejected. Failure to reject upon receipt, however, does not relieve the Contractor of liability for material (nonconformity that substantially impairs value) latent or hidden defects subsequently revealed when goods are put to use. Acceptance of such goods may be revoked in accordance with the provisions of the applicable commercial code, and the Contractor is liable for any resulting expense incurred by the Purchasing Entity related to the preparation and shipping of Product rejected and returned, or for which Acceptance is revoked. The warranty period shall begin upon Acceptance.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

d. If any services do not conform to contract requirements, the Purchasing Entity may require the Contractor to perform the services again in conformity with contract requirements, at no increase in Order amount. When defects cannot be corrected by re-performance, the Purchasing Entity may require the Contractor to take necessary action to ensure that future performance conforms to contract requirements; and reduce the contract price to reflect the reduced value of services performed.

20. **Title of Product.**

a. Definitions. For purposes of this section, the following terms are defined as follows:

1. “Deliverables” means any reports, analyses, scripts, code, or other work results that Contractor delivers to Purchasing Entity within the framework of fulfilling Contractor’s obligations to Purchasing Entity.

2. "Equipment” means Contractor-branded hardware products.

3. “Proprietary Rights” means all patents, copyrights, trademarks, trade secrets, and other intellectual property rights of a party.

b. Upon Acceptance by the Purchasing Entity, Contractor shall convey to Purchasing Entity title to the Equipment free and clear of all liens, encumbrances, or other security interests. Purchasing Entity’s rights to use the software delivered by Contractor are governed by the terms of the applicable end-user license agreement. Unless different terms have been agreed between the parties, the terms posted on www.dell.com/eula (the “EULA”) shall apply. Contractor’s EULA must be made available to Purchasing Entities for review prior to negotiating a Participating Addendum or the issuance of an Order and shall meet or exceed the terms set forth in this Master Agreement. Unless expressly otherwise agreed, microcode, firmware or operating system software required to enable the Equipment with which it is shipped to perform its basic or enhanced functions, is licensed for use solely on such Equipment.

c. Contractor grants Purchasing Entity a non-exclusive, non-transferable, irrevocable license to use (without the right to sublicense) the Deliverables provided by Contractor for Purchasing Entity’s internal business and governmental purposes, only and solely in accordance with the applicable service specification and subject to this Master Agreement. The grant of this license is subject to Purchasing Entity’s compliance with the terms of this Master Agreement and Purchasing Entity’s payment of applicable amounts due. Such license shall be perpetual unless granted pursuant to the purchase of a subscription, in which case the license shall be for the term of the subscription. Purchasing Entity may authorize its service providers to use the Deliverables, but solely on Purchasing Entity’s behalf, solely for Purchasing Entity’s internal business or governmental purposes, and Purchasing Entity shall be responsible for service provider’s compliance with these restrictions. This section shall not affect a Purchasing Entity’s right to transfer ownership of a product, and transfer, if permitted by Contractor or its licensors, licenses associated with such product, to another individual or entity as part of the Purchasing Entity’s surplus program or sale of used products to employees or former employees.

d. Contractor reserves for itself all Proprietary Rights that it has not expressly granted to Purchasing Entity herein. The license granted in this clause 20(c) does not apply to: (i) Equipment; (ii) Contractor-branded generally available software; or (ii) items licensed or otherwise provided under a separate agreement. Contractor is not limited in developing, using, or marketing services or products that are similar to the Deliverables or Professional Services provided hereunder, any service, specification, or, subject to Contractor’s confidentiality obligations to Purchasing Entity, in using the Deliverables or performing similar Professional Services for any other projects. Notwithstanding the previous, Contractor’s use of Deliverables created specifically for and paid for by a Purchasing Entity is subject to Purchasing Entity approval.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

e. Any and all licensing, maintenance, cloud services, or order specific agreements referenced within the terms and conditions of this Master Agreement are agreed to only to the extent that the terms do not conflict with the terms of the Participating Addendum or the terms of the Master Agreement as incorporated into the Participating Addendum, and to the extent the terms are not in conflict with the Participating Entity's applicable laws. In the event of a conflict in the terms and conditions, the conflict shall be resolved as detailed in the Order of Precedence defined herein. Notwithstanding the foregoing, licensing, maintenance, cloud services agreements, or order specific agreements may be further negotiated by the Contractor or, if applicable, the Licensor, and the potential Purchasing Entity, provided the contractual documents are duly executed in writing.

f. If (i) Contractor is or becomes aware of any infringement claim made against a third-party branded product offered by Contractor through this Master Agreement, (ii) the third-party branded product is determined to infringe upon the intellectual property rights of another third party, and (iii) such infringement is not remedied by the third party so that the product is no longer infringing, Contractor shall immediately cease offering the product under this Master Agreement and notify the Lead State, NASPO, Participating Entities, and purchasers of the product.

21. **Warranty.**
The Contractor must ensure warranty service and maintenance for all equipment, including third party products provided. The Contractor must facilitate the Manufacturer or Publisher warranty and maintenance of third party products furnished through the Master Agreement. The Contractor shall provide the warranty service and maintenance for equipment and all peripherals on the Master Agreement.

22. **System Failure or Damage.**
In the event of system failure or damage caused by the Contractor or its Product, the Contractor shall use reasonable efforts to restore or assist in restoring the system to operational capacity. The Contractor shall be responsible under this provision to the extent a 'system' is defined at the time of the Order; otherwise the rights of the Purchasing Entity shall be governed by the Warranty.

23. **Payment.**
Payment after Acceptance is normally made within 30 days following the date the entire order is delivered or the date a correct invoice is received, whichever is later. After 45 days the Contractor may assess overdue account charges up to a maximum rate of one percent per month on the outstanding balance, unless a different late payment amount is specified in a Participating Addendum, Order, or otherwise prescribed by applicable law.

Payments will be remitted by mail or electronically. Payments may be made via a State or political subdivision "Purchasing Card" with no additional charge.

Prices are exclusive of taxes, duties, and fees, unless otherwise quoted. If a withholding tax is required by law, the tax will be added and identified on the applicable invoice. All applicable taxes, duties, and fees must be identified on the quote.

24. **Leasing or Alternative Financing Methods.**
Lease purchase and term leases are allowable only for Purchasing Entities whose rules and regulations permit leasing of software. Individual Purchasing Entities may enter into a lease agreement for the products covered in this Master Agreement, if they have the legal authority to enter into these types of agreements without going through a competitive process and if the applicable PAs permit leasing. No lease agreements will be reviewed or evaluated as part of the RFP evaluation process.

25. **Contract Provisions for Orders Utilizing Federal Funds.**
Pursuant to Appendix II to 2 Code of Federal Regulations (CFR) Part 200, Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, Orders funded with federal funds may have additional contractual requirements or certifications that must be satisfied at the time the Order is placed or upon delivery. These federal requirements may be

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

proposed by Participating Entities in Participating Addenda and Purchasing Entities for incorporation in Orders placed under this Master Agreement.

26. **Self Audit.**
The Contractor must conduct at a minimum a quarterly self-audit, unless approved by the Lead State. The audit will sample a minimum of one tenth of one percent (.001) of orders with a maximum of 100 audits per quarter conducted. For example: Up to 1,000 sales = 1 audit; 10,000 sales = 10 audits; Up to 100,000 sales = 100 audits. This will be a random sample of orders and invoices and must include documentation of pricing. Summary findings must be reported to Lead State with actions to correct documented findings.

27. **Assignment/Subcontracts.**

a. Contractor shall not assign, sell or otherwise transfer all or any part of this Master Agreement without prior written consent from the Lead State, such consent not to be unreasonably withheld.

b. The Lead State, or Participating Entity, shall not assign, delegate or otherwise transfer all or any part of this Master Agreement without prior written consent from Contractor, except for assignment or delegation to a Participating Entity State agency or eligible Purchasing Entity. The Lead State reserves the right to assign any rights or duties, including written assignment of contract administration duties to NASPO ValuePoint and other third parties.

28. **Insurance.**

a. Contractor shall, during the term of this Master Agreement, maintain in full force and effect, the insurance described in this section. Contractor shall acquire such insurance from an insurance carrier or carriers legally authorized to conduct business in the Lead State and in each Participating Entity's state and having a rating of A-, Class VII or better, in the most recently published edition of A.M. Best's Insurance Reports. Failure to buy and maintain the required insurance may result in this Master Agreement's termination or, at a Participating Entity's option, result in termination of its Participating Addendum.

b. Coverage shall be written on an occurrence basis. The minimum acceptable limits shall be as indicated below:

1. Commercial General Liability covering premises operations, independent contractors, products and completed operations, blanket contractual liability, personal injury (including death), advertising liability, and property damage, with a limit of not less than $1 million per occurrence/$2 million general aggregate;

2. Contractor must comply with any applicable State Workers Compensation or Employers Liability Insurance requirements.

c. Contractor shall pay premiums on all insurance policies. Contractor will use reasonable efforts to give thirty (30) days prior written notice to State prior to cancellation or non-renewal of any of the policies providing such coverage; provided, however that Contractor shall not be obligated to provide such notice if, concurrently with such cancellation or non-renewal, Contractor obtains coverage from different insurer(s) meeting the requirements described herein.

d. Prior to commencement of performance, Contractor shall provide to the Participating Entity a certificate of insurance showing the Contractor's general liability insurance policy or other documentary evidence acceptable to the Lead State that (1) names the Participating Entity as an additional insured, (2) provides that written notice of cancellation shall be delivered in accordance with the policy provisions, and (3) provides that the Contractor's liability insurance policy shall be primary, with any liability insurance of any Participating Entity as secondary and noncontributory. Unless otherwise agreed in any Participating Addendum, other state Participating Entities' rights

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

and Contractor's obligations are the same as those specified in the first sentence of this subsection except the endorsement is provided to the applicable state.

e. During the term of this Master Agreement, Contractor shall upon request provide to the Lead State and Participating Entities evidence of coverage that meets the requirements of this Section and the applicable Participating Addendum. Failure to provide evidence of coverage, within thirty (30) calendar days of receipt of request may, at the sole option of the Lead State, or any Participating Entity, result in this Master Agreement's termination or the termination of any Participating Addendum.

f. Coverage and limits shall not limit Contractor's liability and obligations under this Master Agreement, any Participating Addendum, or any Purchase Order.

29. **Administrative Fees.**

a. The Contractor shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than sixty (60) days following the end of each calendar quarter. The NASPO ValuePoint Administrative Fee shall be submitted quarterly and is based on all sales of products and services under the Master Agreement (less any charges for taxes or shipping). The NASPO ValuePoint Administrative Fee is not negotiable.

b. The NASPO ValuePoint Administrative Fee in this section shall be based on the gross amount of all sales (less any charges for taxes or shipping) at the adjusted prices (if any) in Participating Addenda.

c. Additionally, some states may require an additional fee be paid directly to the state only on purchases made by Purchasing Entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement. The Purchasing Entity may allow the Contractor to adjust the Master Agreement pricing to account for these additional fees for purchases made by Purchasing Entities within the jurisdiction of the Participating Entity. All such agreements shall not affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee.

30. **NASPO ValuePoint Reports**

a. Sales Data Reporting. In accordance with this section, Contractor shall report to NASPO ValuePoint all Orders under this Master Agreement for which Contractor has invoiced the ordering entity or individual, including Orders invoiced to Participating Entity or Purchasing Entity employees for personal use if such use is permitted by this Master Agreement and the applicable Participating Addendum ("Sales Data"). Timely and complete reporting of Sales Data is a material requirement of this Master Agreement. Reporting requirements, including those related to the format, contents, frequency, or delivery of reports, may be updated by NASPO ValuePoint with reasonable notice to Contractor and without amendment to this Master Agreement. NASPO ValuePoint shall have exclusive ownership of any media on which reports are submitted and shall have a perpetual, irrevocable, non-exclusive, royalty free, and transferable right to display, modify, copy, and otherwise use reports, data, and information provided under this section.

b. Summary Sales Data. "Summary Sales Data" is Sales Data reported as cumulative totals by state. Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Summary Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. If Contractor has no reportable Sales Data for the quarter, Contractor shall submit a zero-sales report.

c. Detailed Sales Data. "Detailed Sales Data" is Sales Data that includes for each Order all information required by the Solicitation or by NASPO ValuePoint, including customer information, Order information, and line-item details.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

Contractor shall, using the reporting tool or template provided by NASPO ValuePoint, report Detailed Sales Data to NASPO ValuePoint for each calendar quarter no later than thirty (30) days following the end of the quarter. Detailed Sales Data shall be reported in the format provided in the Solicitation or provided by NASPO ValuePoint. The total sales volume of reported Detailed Sales Data shall be consistent with the total sales volume of reported Summary Sales Data.

d. Sales Data Crosswalks. Reserved.

e. Executive Summary. Contractor shall, upon request by NASPO ValuePoint, provide NASPO ValuePoint with an executive summary that includes but is not limited to a list of states with an active Participating Addendum, states with which Contractor is in negotiations, and any Participating Addendum roll-out or implementation activities and issues. NASPO ValuePoint and Contractor will determine the format and content of the executive summary.

31. **NASPO ValuePoint Cooperative Program Marketing, Training, and Performance Review.**

a. Contractor agrees to work cooperatively with NASPO ValuePoint personnel. Contractor agrees to present plans to NASPO ValuePoint for the education of Contractor's contract administrator(s) and sales/marketing workforce regarding the Master Agreement contract, including the competitive nature of NASPO ValuePoint procurements, the Master agreement and participating addendum process, and the manner in which qualifying entities can participate in the Master Agreement.

b. Contractor agrees, as Participating Addendums become executed, if requested by ValuePoint personnel to provide plans to launch the program within the Participating Entity. Plans will include time frames to launch the agreement and confirmation that the Contractor's website has been updated to properly reflect the contract offer as available in the Participating Entity.

c. Contractor agrees, absent anything to the contrary outlined in a Participating Addendum, to consider customer proposed terms and conditions, as deemed important to the customer, for possible inclusion into the customer agreement. Contractor will ensure that their sales force is aware of this contracting option.

d. Contractor agrees to participate in an annual contract performance review at a location selected by the Lead State and NASPO ValuePoint, which may include a discussion of marketing action plans, target strategies, marketing materials, as well as Contractor reporting and timeliness of payment of administration fees.

e. Contractor acknowledges that the NASPO ValuePoint logos may not be used by Contractor in sales and marketing until a logo use agreement is executed with NASPO ValuePoint.

f. The Lead State expects to evaluate the utilization of the Master Agreement at the annual performance review. Lead State may, in its discretion, cancel the Master Agreement pursuant to Paragraph 42 of Exhibit A, or not exercise an option to renew, when Contractor utilization does not warrant further administration of the Master Agreement. The Lead State may exercise its right to not renew the Master Agreement if contractor fails to record or report revenue for three consecutive quarters, upon 60-calendar day written notice to the Contractor. Cancellation based on nonuse or under-utilization will not occur sooner than two years after award of the Master Agreement. This subsection does not limit the discretionary right of either the Lead State or Contractor to cancel the Master Agreement pursuant to Paragraph 42 of Exhibit A or to terminate for default pursuant to Paragraph 44 of Exhibit A.

g. Contractor agrees to notify the Lead State and NASPO ValuePoint of any contractual most-favored-customer provisions in any Cooperative Purchasing Agreements that may affect the promotion of this Master Agreements or whose terms provide for adjustments to future rates or pricing based on rates, pricing in, or Orders from this master agreement. Upon request of the Lead State or NASPO ValuePoint, Contractor shall provide a copy of any such provisions. For the purposes of this paragraph, Cooperative Purchasing Agreement shall mean a cooperative

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

purchasing program facilitating public procurement solicitations and agreements using a lead agency model. This does not include contracts with any federal agency or any federal contract.

32. **Right to Publish.**

Throughout the duration of this Master Agreement, Contractor must secure from the Lead State prior approval for the public release of information that pertains to the potential work or activities covered by the Master Agreement. This limitation does not preclude publication about the award of the Master Agreement or marketing activities consistent with any proposed and accepted marketing plan. The Contractor shall not make any representations of NASPO ValuePoint's opinion or position as to the quality or effectiveness of the services that are the subject of this Master Agreement without prior written consent. Failure to adhere to this requirement may result in termination of the Master Agreement for cause.

33. **Records Administration and Audit.**

a. The Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Agreement and Orders placed by Purchasing Entities under it to the extent and in such detail as shall adequately reflect performance and administration of payments and fees. Contractor shall permit the Lead State, a Participating Entity, a Purchasing Entity, the federal government (including its grant awarding entities and the U.S. Comptroller General), and any other duly authorized agent of a governmental agency, to audit, inspect, examine, copy and transcribe Contractor's books, documents, papers and records directly pertinent to this Master Agreement or orders placed by a Purchasing Entity under it for the purpose of making audits, examinations, excerpts, and transcriptions. This right shall survive for a period of six (6) years following termination of this Agreement or final payment for any order placed by a Purchasing Entity against this Agreement, whichever is later, or such longer period as is required by the Purchasing Entity's state statutes, to assure compliance with the terms hereof or to evaluate performance hereunder.

b. Without limiting any other remedy available to any governmental entity, the Contractor shall reimburse the applicable Lead State, Participating Entity, or Purchasing Entity for any overpayments inconsistent with the terms of the Master Agreement or Orders or underpayment of fees found as a result of the examination of the Contractor's records.

c. The rights and obligations herein exist in addition to any quality assurance obligation in the Master Agreement requiring the Contractor to self-audit contract obligations and that permits the Lead State to review compliance with those obligations.

34. **Indemnification**

a. General Indemnity. Contractor shall indemnify, defend (to the extent permitted by a state's Attorney General), and hold harmless an Indemnified Party from any claims or causes of action, including attorney's fees, to the extent arising from Contractor's intentional, willful, or negligent acts or omissions; actions that give rise to strict liability; and actions arising from breach of contract or warranty.

"Indemnified Party" means NASPO, NASPO ValuePoint, the Lead State, Participating Entities, and Purchasing Entities, along with their officers and employees.

The indemnification obligations of this section do not apply in the event the claim or cause of action is the result of the Indemnified Party's sole negligence. This clause will not be construed to bar any legal remedies the Contractor may have for the Indemnified Party's failure to fulfill its obligation under this Contract.

b. Intellectual Property Indemnification.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

1. In the event of any such claim by any third party against the Indemnified Party that Products, Software, Services or Deliverables prepared, produced, or branded by Contractor and delivered pursuant to this Master Agreement infringe or misappropriate that third party's U.S. patent, copyright, trade secret, or other intellectual property rights ("Indemnified Claims"), the Indemnified Party shall promptly notify the Contractor. The Contractor, at its own expense, shall indemnify, defend to the extent permitted by the Indemnified Party's laws, and hold harmless the Indemnified Party against any loss, cost, expense, or liability (including legal fees) arising out of such a claim, whether or not such claim is successful against the Indemnified Party.

2. If Contractor receives prompt notice of such a claim that in the Contractor's opinion is likely to result in an adverse ruling, the Contractor shall at its option (1) obtain a right for the Indemnified Party to continue using such Products, Deliverables, or Software or allow Contractor to continue performing the Services; (2) modify such Products, Software, Services, or Deliverables to make them non-infringing without materially affecting their utility or functionality; (3) replace such Products, Software, Services, or Deliverables with a non-infringing equivalent; or (4) refund any pre-paid fees for the allegedly infringing Services that have not been performed or provide a reasonable depreciated or pro rata refund for the allegedly infringing Product, Deliverables, or Software.

3. Notwithstanding the foregoing, Contractor shall have no obligation under this Section for any claim resulting or arising from (1) modifications of the Products, Software, Services, or Deliverables that were not performed by, on behalf of, or at the direction of Contractor; (2) the combination, operation, or use of the Products, Software, Services, or Deliverables in connection with a third-party product, software or service (the combination of which causes the claimed infringement); or (3) Contractor's compliance with Indemnified Party's written specifications or directions, including the incorporation of any software or other materials or processes provided by or requested by Indemnified Party. Contractor's duty to indemnify and defend under this Section is contingent upon: (a) Contractor receiving prompt written notice of the third-party claim or action for which Contractor must indemnify Indemnified Party, (b) Contractor having the right to solely control the defense and resolution of such claim or action, unless the Indemnified Party's law requires approval for a third party to defend the Indemnified Party and such approval is not received, and (c) Indemnified Party's cooperation with Contractor in defending and resolving such claim or action. This Section states Indemnified Party's exclusive remedies for any third-party intellectual property claim or action and nothing in this Master Agreement or elsewhere will obligate Contractor to provide any greater indemnity to Indemnified Party.

35. **Limitations of Liability**

a. The Parties agree that neither Contractor nor the indemnified party shall be liable to each other, regardless of the form of action, for consequential, incidental, indirect, or special damages except any claim related to bodily injury or death; an unauthorized release or breach of not public data as set forth more fully in Minn. Ch. 13; or a claim or demand based on patent, copyright, or other intellectual property infringement.

b. Contractor's liability is limited to 2 times the amount paid by Purchasing Entity to Contractor during the 12 months preceding the date of the dispute concerning any products and services, or $5,000,000, whichever is greater. This limit on liability does not apply to claims for bodily injury or death or for intellectual property infringement.

c. Contractor's obligations under this section shall not extend to any combination of the Product with any other product, system or method, unless the Product, system or method is:

1. provided by the Contractor or the Contractor's subsidiaries or affiliates;

2. specified by the Contractor to work with the Product; or

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

3. reasonably required, in order to use the Product in its intended manner, and the infringement could not have been avoided by substituting another reasonably available product, system or method capable of performing the same function; or

4. It would be reasonably expected to use the Product in combination with such product, system or method.

36. **License of Pre-Existing Intellectual Property.**
Intentionally deleted.

37. **Assignment of Antitrust Rights.**
Contractor irrevocably assigns to a Participating Entity who is a state any claim for relief or cause of action which the Contractor now has or which may accrue to the Contractor in the future by reason of any violation of state or federal antitrust laws (15 U.S.C. § 1-15 or a Participating Entity's state antitrust provisions), as now in effect and as may be amended from time to time, in connection with any goods or services provided in that state for the purpose of carrying out the Contractor's obligations under this Master Agreement or Participating Addendum, including, at the Participating Entity's option, the right to control any such litigation on such claim for relief or cause of action.

38. **Debarment.**
The Contractor certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. This certification represents a recurring certification made at the time any Order is placed under this Master Agreement. If the Contractor cannot certify this statement, attach a written explanation for review by the Lead State.

39. **Governing Law and Venue.**

a. The construction and effect of the Master Agreement after award shall be governed by the law of the state serving as Lead State. The construction and effect of any Participating Addendum or Order against the Master Agreement shall be governed by and construed in accordance with the laws of the Participating Entity's or Purchasing Entity's State.

b. Venue for any claim, dispute or action concerning the terms of the Master Agreement shall be in the state serving as Lead State. Venue for any claim, dispute, or action concerning any Order placed against the Master Agreement or the effect of a Participating Addendum shall be in the Purchasing Entity's State.

c. If a claim is brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for (in decreasing order of priority): the Lead State for claims relating to contract performance or administration if the Lead State is a party; a Participating State if a named party; the state where the Participating Entity or Purchasing Entity is located if either is a named party.

40. **Confidentiality, Non-Disclosure, and Injunctive Relief.**

a. Confidentiality. Contractor acknowledges that it and its employees or agents may, in the course of providing a Product under this Master Agreement, be exposed to or acquire information that is confidential to Purchasing Entity or Purchasing Entity's clients.

1. Any and all information of any form that is marked as confidential by one party (the "originating party") and is or would by its nature be deemed confidential obtained by the other party or its employees or agents (the "receiving party") in the performance of this Master Agreement, including, but not necessarily limited to (1) any Purchasing Entity's records, (2) personnel records, and (3) information concerning individuals, is confidential information of the originating party ("Confidential Information").

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

2. Any reports or other documents or items (including software) that result from the use of the Confidential Information by the receiving party shall be treated in the same manner as the Confidential Information.

3. Confidential Information does not include information that (1) is or becomes (other than by disclosure by the receiving party) publicly known; (2) is furnished by the originating party to others without restrictions similar to those imposed by this Master Agreement; (3) is rightfully in the receiving party's possession without the obligation of nondisclosure prior to the time of its disclosure under this Master Agreement; (4) is obtained from a source other than the originating party without the obligation of confidentiality, (5) is disclosed with the written consent of the originating party or; (6) is independently developed by employees, agents or subcontractors of the receiving party who can be shown to have had no access to the Confidential Information.

b. Non-Disclosure. The receiving party shall hold Confidential Information in confidence, using at least the industry standard of confidentiality, and shall not copy, reproduce, sell, assign, license, market, transfer or otherwise dispose of, give, or disclose Confidential Information to third parties or use Confidential Information for any purposes whatsoever other than what is necessary to the performance of Orders placed under this Master Agreement.

1. Each party shall advise each of its employees and agents of their obligations to keep Confidential Information confidential. Contractor shall use commercially reasonable efforts to assist Purchasing Entity in identifying and preventing any unauthorized use or disclosure of any Confidential Information.

2. Without limiting the generality of the foregoing, the receiving party shall advise the originating party, and the applicable Participating Entity, and the Lead State if the originating party is a Purchasing Entity, and the Lead State if the originating party is a Participating Entity, immediately if the receiving party learns or has reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of this Master Agreement, and the receiving party shall at its expense cooperate with advise the originating party in seeking injunctive or other equitable relief in the name of either party against any such person.

3. Except as directed by the originating party, the receiving party will not at any time during or after the term of this Master Agreement disclose, directly or indirectly, any Confidential Information to any person, except in accordance with this Master Agreement, and that upon termination of this Master Agreement or at the originating party's request, the receiving party shall turn over to the originating party all documents, papers, and other matter in the receiving party's possession that embody Confidential Information.

4. Notwithstanding the foregoing, Contractor may keep one copy of such Confidential Information necessary for quality assurance, audits and evidence of the performance of this Master Agreement, and Purchasing Entity may retain Confidential Information to the extent and for the duration required by applicable law.

c. Injunctive Relief. Each party acknowledges that the other party's breach of this section, including disclosure of any Confidential Information, will cause irreparable injury to originating party that is inadequately compensable in damages. Accordingly, the originating party may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available. Contractor acknowledges and agrees that the covenants contained herein are necessary for the protection of the legitimate business interests of Purchasing Entity and are reasonable in scope and content.

d. Purchasing Entity Law. These provisions shall be applicable only to extent they are not in conflict with the applicable public disclosure laws of any Purchasing Entity.

e. The rights granted Purchasing Entities and Contractor obligations under this section shall also extend to the cooperative's Confidential Information, defined to include Participating Addenda, as well as Orders or transaction data relating to Orders under this Master Agreement that identify the entity/customer, Order dates, line item

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

descriptions and volumes, and prices/rates. This provision does not apply to disclosure to the Lead State, a Participating State, or any governmental entity exercising an audit, inspection, or examination pursuant to Paragraph 33 of Exhibit A. To the extent permitted by law, Contractor shall notify the Lead State of the identity of any entity seeking access to the Confidential Information described in this subsection.

41. **Public Information.**
This Master Agreement and all related documents are subject to disclosure pursuant to the Lead State's public information laws.

42. **Cancellation.**
Unless otherwise set forth in this Master Agreement, this Master Agreement may be canceled by either party upon 60 days written notice prior to the effective date of the cancellation. Further, any Participating Entity may cancel its participation upon 30 days written notice, unless otherwise stated in the Participating Addendum. Cancellation may be in whole or in part. Any cancellation under this provision shall not affect the rights and obligations attending orders outstanding at the time of cancellation, including any right of a Purchasing Entity to indemnification by the Contractor, rights of payment for Products delivered and accepted, rights attending any warranty or default in performance in association with any Order, and requirements for records administration and audit. Cancellation of the Master Agreement due to Contractor default may be immediate as set forth in Paragraph 44 of Exhibit A.

43. **Force Majeure.**
Neither party to this Master Agreement shall be held responsible for delay or default caused by fire, riot, unusually severe weather, other acts of God, or war which are beyond that party's reasonable control. The Lead State may terminate this Master Agreement after determining such delay or default will reasonably prevent successful performance of the Master Agreement.

44. **Defaults and Remedies.**

a. The occurrence of any of the following events shall be an event of default under this Master Agreement:

1. Nonperformance of contractual requirements; or

2. A material breach of this Master Agreement; or

3. Any certification, representation or warranty by Contractor in response to the RFP or in this Master Agreement that proves to be untrue or materially misleading; or

4. Institution of proceedings under any bankruptcy, insolvency, court-ordered reorganization or similar law, by or against Contractor, or the appointment of a receiver or similar officer for Contractor or any of its property, which is not vacated or fully stayed within thirty (30) calendar days after the institution or occurrence thereof; or

5. Any default specified in another section of this Master Agreement.

b. Upon the occurrence of an event of default, except for material breach, the Lead State shall issue a written notice of default, identifying the nature of the default, and providing a period of 30 calendar days in which Contractor shall have an opportunity to cure the default. The Lead State shall not be required to provide advance written notice or a cure period and may immediately terminate this Master Agreement in whole or in part if the Lead State, in its sole discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. Time allowed for cure shall not diminish or eliminate Contractor's liability for damages, including liquidated damages to the extent provided for under this Master Agreement. The Lead State may immediately terminate this Master Agreement upon material breach of the Master Agreement by Contractor.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

c. If Contractor is afforded an opportunity to cure and fails to cure the default within the period specified in the written notice of default, Contractor shall be in breach of its obligations under this Master Agreement and the Lead State shall have the right to exercise any or all of the following remedies:

1. Exercise any remedy provided by law; and
2. Terminate this Master Agreement and any related contracts or portions thereof; and
3. Impose liquidated damages as provided in this Master Agreement; and
4. Suspend Contractor from being able to respond to future bid solicitations; and
5. Suspend Contractor's performance; and
6. Withhold payment until the default is remedied.

d. Unless otherwise specified in the Participating Addendum, in the event of a default under a Participating Addendum, a Participating Entity shall provide a written notice of default as described in this section and shall have all of the rights and remedies under this paragraph regarding its participation in the Master Agreement, in addition to those set forth in its Participating Addendum. Unless otherwise specified in a Purchase Order, a Purchasing Entity shall provide written notice of default as described in this section and have all of the rights and remedies under this paragraph and any applicable Participating Addendum with respect to an Order placed by the Purchasing Entity. Nothing in these Master Agreement Terms and Conditions shall be construed to limit the rights and remedies available to a Purchasing Entity under the applicable commercial code.

45. **Waiver of Breach.**

Failure of the Lead State, Participating Entity, or Purchasing Entity to declare a default or enforce any rights and remedies shall not operate as a waiver under this Master Agreement or Participating Addendum. Any waiver by the Lead State, Participating Entity, or Purchasing Entity must be in writing. Waiver by the Lead State or Participating Entity of any default, right or remedy under this Master Agreement or Participating Addendum, or by Purchasing Entity with respect to any Purchase Order, or breach of any terms or requirements of this Master Agreement, a Participating Addendum, or Purchase Order shall not be construed or operate as a waiver of any subsequent default or breach of such term or requirement, or of any other term or requirement under this Master Agreement, Participating Addendum, or Purchase Order.

46. **Notices.**

If one party is required to give notice to the other under the Master Agreement, such notice shall be in writing and shall be effective upon receipt. Delivery may be by certified United States mail or by hand, in which case a signed receipt shall be obtained. A facsimile or electronic transmission shall constitute sufficient notice, provided the receipt of the transmission is confirmed by the receiving party. Either party must notify the other of a change in address for notification purposes. All notices to the Lead State shall be addressed as follows:

Elizabeth Randa, Acquisition Management Specialist
112 Administration Bldg.
50 Sherburne Avenue
St. Paul, MN 55155
elizabeth.randa@state.mn.us

47. **No Waiver of Sovereign Immunity.**

In no event shall this Master Agreement, any Participating Addendum or any contract or any Purchase Order issued thereunder, or any act of the Lead State, a Participating Entity, or a Purchasing Entity be a waiver of any form of defense

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court.

This section applies to a claim brought against the Participating Entities who are states only to the extent Congress has appropriately abrogated the state's sovereign immunity and is not consent by the state to be sued in federal court. This section is also not a waiver by the state of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

Exhibit B: Minnesota Terms and Conditions

1. **Change Requests.**

The Lead State reserves the right to request, during the term of the Master Agreement, changes to the products offered within the Band(s). Products introduced during the term of the Master Agreement shall go through a formal review process. The process for updating the products offered within a Band is outlined in Paragraph 2 of Exhibit B. The Contractor shall evaluate and recommend products for which agencies have an expressed need. The Lead State shall require the Contractor to provide a summary of its research of those products being recommended for inclusion in the Master Agreement as well as defining how adding the product will enhance the Master Agreement. The Lead State may request that products, other than those recommended, are added to the Master Agreement.

In the event that the Lead State desires to add new products and services that are not included in the original Master Agreement, the Lead State requires that independent manufacturers and resellers cooperate with the already established Contractor in order to meet the Lead State's requirements. Evidence of the need to add products or services should be demonstrated to the Lead State. The Master Agreement shall be modified via supplement or amendment. The Lead State will negotiate the inclusion of the products and services with the Contractor. No products or services will be added to the Master Agreement without the Lead State's prior approval.

2. **Product and Service Schedule (PSS).**

a. Creating the Product and Service Schedule (PSS). Contractor will use the attached sample PSS to create and maintain a complete listing of all products and services offered under the Master Agreement. The PSS must conform to the contracted minimum discounts. Contractor may create and maintain a separate PSS for a Participating Entity based on the requirements and restrictions of the Participating Entity.

Contractors are encouraged to provide remote learning bundles for K-12 Education. These bundles can be included in the response to the PSS.

b. Maintaining the PSS.

1. In General. Throughout the term of the Master Agreement, on a quarterly basis, Contractor may update the PSS to make model changes, add new products or services, or remove obsolete or discontinued products or services. Any updates to the PSS must conform to the Master Agreement requirements, including the scope of the Master Agreement and contracted minimum discounts.

2. Process. Contractor must provide notification to the Lead State of any changes to their PSS using the attached Action Request Form (ARF).

a) The Lead State does not need to approve Contractor's request to make model changes, add their own manufactured products, or remove discontinued or obsolete products or services, and Contractor does not need the Lead State's approval prior to posting an updated PSS.

b) The Lead State must approve Contractor's request to add new third party manufacturers to Contractor's PSS. If the proposed third-party manufacturer holds a NASPO Master Agreement for Computer Equipment, Contractor must obtain written authorization from that manufacturer. Contractor must have the Lead State's approval prior to posting the updated PSS.

c) Contractor must maintain a historic record of all past PSSs on their dedicated NASPO ValuePoint website.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

d) Pursuant to the audit provisions of the Master Agreement, upon the request of NASPO ValuePoint, the Lead State, or a Participating Entity, Contractor must provide an historic version of any Baseline Price List.

3. **Purchase Orders.**
There will be no minimum order requirements or charges to process an individual purchase order. The Participating Addendum number and the PO number must appear on all documents (e.g., invoices, packing slips, etc.). The Ordering Entity's purchase order constitutes a binding contract.

4. **Risk of Loss or Damage.**
The Purchasing Entity is relieved of all risks of loss or damage to the goods or equipment during periods of transportation, and installation by the Contractor and in the possession of the Contractor or their authorized agent.

5. **Payment Card Industry Data Security Standard and Cardholder Information Security.**
Contractor assures all of its Network Components, Applications, Servers, and Subcontractors (if any) comply with the Payment Card Industry Data Security Standard ("PCIDSS"). "Network Components" shall include, but are not limited to, Contractor's firewalls, switches, routers, wireless access points, network appliances, and other security appliances; "Applications" shall include, but are not limited to, all purchased and custom external (web) applications. "Servers" shall include, but are not limited to, all of Contractor's web, database, authentication, DNS, mail, proxy, and NTP servers. "Cardholder Data" shall mean any personally identifiable data associated with a cardholder, including, by way of example and without limitation, a cardholder's account number, expiration date, name, address, social security number, or telephone number.

Subcontractors (if any) must be responsible for the security of all Cardholder Data in its possession; and will only use Cardholder Data for assisting cardholders in completing a transaction, providing fraud control services, or for other uses specifically required by law. Contractor must have a business continuity program which conforms to PCIDSS to protect Cardholder Data in the event of a major disruption in its operations or in the event of any other disaster or system failure which may occur to operations; will continue to safeguard Cardholder Data in the event this Agreement terminates or expires; and ensure that a representative or agent of the payment card industry and a representative or agent of the Purchasing Entity shall be provided with full cooperation and access to conduct a thorough security review of Contractor's operations, systems, records, procedures, rules, and practices in the event of a security intrusion in order to validate compliance with PCIDSS.

6. **Foreign Outsourcing of Work.**
Upon request, the Contractor is required to provide information regarding the location of where services, data storage, and location of data processing under the Master Agreement will be performed.

7. **State Audits (Minn. Stat. § 16C.05, subd. 5).**
The books, records, documents, and accounting procedures and practices of the Contractor or other party, that are relevant to the Master Agreement or transaction are subject to examination by the contracting agency and either the Lead State's Legislative Auditor or State Auditor as appropriate for a minimum of six years after the end of the Master Agreement or transaction. The Lead State reserves the right to authorize delegate(s) to audit this Master Agreement and transactions.

8. **Certification of Nondiscrimination (in accordance with Minn. Stat. § 16C.053).**
If the value of this Contract, including all extensions, is $50,000 or more, Contractor certifies it does not engage in and has no present plans to engage in discrimination against Israel, or against persons or entities doing business in Israel, when making decisions related to the operation of the contractor's business. For purposes of this section, "discrimination" includes but is not limited to engaging in refusals to deal, terminating business activities, or other actions that are intended to limit commercial relations with Israel, or persons or entities doing business in Israel, when such actions are taken in a manner that in any way discriminates on the basis of nationality or national origin and is not based on a valid business reason.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

9. **Human Rights/Affirmative Action.**

The Lead State requires affirmative action compliance by its Contractors in accordance with Minn. Stat. § 363A.36 and Minn. R. 5000.3400 to 5000.3600.

a. Covered Contracts and Contractors. If the Contract exceeds $100,000 and the Contractor employed more than 40 full-time employees on a single working day during the previous 12 months in Minnesota or in the state where it has its principal place of business, then the Contractor must comply with the requirements of Minn. Stat. § 363A.36 and Minn. R. 5000.3400-5000.3600.

b. Minn. R. 5000.3400-5000.3600 implement Minn. Stat. § 363A.36. These rules include, but are not limited to, criteria for contents, approval, and implementation of affirmative action plans; procedures for issuing certificates of compliance and criteria for determining a contractor's compliance status; procedures for addressing deficiencies, sanctions, and notice and hearing; annual compliance reports; procedures for compliance review; and contract consequences for noncompliance. The specific criteria for approval or rejection of an affirmative action plan are contained in various provisions of Minn. R. 5000.3400 5000.3600 including, but not limited to, parts 5000.3420-5000.3500 and parts 5000.3552 5000.3559.

c. Disabled Workers. Minn. R. 5000.3550 provides the Contractor must comply with the following affirmative action requirements for disabled workers.

AFFIRMATIVE ACTION FOR DISABLED WORKERS

(a) The Contractor must not discriminate against any employee or applicant for employment because of physical or mental disability in regard to any position for which the employee or applicant for employment is qualified. The Contractor agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

(b) The Contractor agrees to comply with the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.

(c) In the event of the Contractor's noncompliance with the requirements of this clause, actions for noncompliance may be taken in accordance with Minn. Stat. § 363A.36 and the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.

(d) The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices in a form to be prescribed by the commissioner of the Minnesota Department of Human Rights. Such notices must state the Contractor's obligation under the law to take affirmative action to employ and advance in employment qualified disabled employees and applicants for employment, and the rights of applicants and employees.

(e) The Contractor must notify each labor union or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the Contractor is bound by the terms of Minn. Stat. § 363A.36 of the Minnesota Human Rights Act and is committed to take affirmative action to employ and advance in employment physically and mentally disabled persons.

d. Consequences. The consequences of a Contractor's failure to implement its affirmative action plan or make a good faith effort to do so include, but are not limited to, suspension or revocation of a certificate of compliance by

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

the commissioner, refusal by the commissioner to approve subsequent plans, and termination of all or part of the Contract by the commissioner or the State.

e. Certification. The Contractor hereby certifies that it is in compliance with the requirements of Minn. Stat. § 363A.36, subd. 1 and Minn. R. 5000.3400-5000.3600 and is aware of the consequences for noncompliance. It is agreed between the parties that Minn. Stat. 363.36 and Minn. R. 5000.3400 to 5000.3600 are incorporated into any contract between these parties based upon this specification or any modification of it. A copy of Minn. Stat. § 363A.36 and Minn. R. 5000.3400 to 5000.3600 are available upon request from the contracting agency.

10. **Equal Pay Certification.**

If required by Minn. Stat. §363A.44, the Contractor must have a current Equal Pay Certificate prior to Contract execution. If Contractor's Equal Pay Certificate expires during the term of this Contract, Contractor must promptly re-apply for an Equal Pay Certificate with the Minnesota Department of Human Rights and notify the State's Authorized Representative once the Contractor has received the renewed Equal Pay Certificate. If Contractor claims to be exempt, the Lead State may require Contractor to verify its exempt status.

11. **Americans with Disabilities Act (ADA).**

Products provided under the Master Agreement must comply with the requirements of the Americans with Disabilities Act (ADA). The Contractor's catalog and other marketing materials utilized to offer products under the Master Agreement must state when a product is not in compliance. If any descriptive marketing materials are silent as to these requirements, the Contractor agrees that the customer can assume the product meets or exceeds the ADA requirements.

12. **Nonvisual Access Standards.**

Pursuant to Minn. Stat. § 16C.145, the Contractor shall comply with the following nonvisual technology access standards:

a. That the effective interactive control and use of the technology, including the operating system applications programs, prompts, and format of the data presented, are readily achievable by nonvisual means;

b. That the nonvisual access technology must be compatible with information technology used by other individuals with whom the blind or visually impaired individual must interact;

c. That nonvisual access technology must be integrated into networks used to share communications among employees, program participants, and the public; and

d. That the nonvisual access technology must have the capability of providing equivalent access by nonvisual means to telecommunications or other interconnected network services used by persons who are not blind or visually impaired.

These standards do not require the installation of software or peripheral devices used for nonvisual access when the information technology is being used by individuals who are not blind or visually impaired.

13. **Accessibility Standards.**

Contractor acknowledges and is fully aware that the Lead State (Executive branch state agencies) has developed IT Accessibility Standard effective September 1, 2010. The standard entails, in part, the Web Content Accessibility Guidelines (WCAG) and Section 508 which can be viewed at: https://mn.gov/mnit/government/policies/accessibility/.

The Standards apply to web sites, software applications, electronic reports and output documentation, training delivered in electronic formats (including, but not limited to, documents, videos, and webinars), among others. As upgrades are made to the software, products, or subscriptions available through this Contract, the Contractor agrees to

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

develop functionality which supports accessibility. If any issues arise due to nonconformance with the above-mentioned accessibility Standards, the Contractor agrees to provide alternative solutions upon request at no additional charge to the State.

When updates or upgrades are made to the products or services available through this Contract, the Contractor agrees to document how the changes will impact or improve the product's or service's accessibility and usability. This documentation, upon request, must be provided to the Lead State in advance of the change, occurring within an agreed upon timeframe sufficient for the state to review the changes and either approve them or request a remediation plan from the Contractor. Contractor warrants that its Products comply with the above-mentioned accessibility Standards and agrees to indemnify, defend, and hold harmless the Lead State against any claims related to non-compliance of Contractor's Product with the above-mentioned accessibility Standards. If agreed-upon updates fail to improve the product or service's accessibility or usability as planned, the failure to comply with this requirement may be cause for contract cancellation or for the Lead State to consider the Contractor in default.

14. **Conflict Minerals.**
Contractor agrees to provide information upon request regarding adherence to the Conflict Minerals section of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Section 1502).

See: http://beta.congress.gov/111/bills/hr4173/111hr4173enr.pdf#page=838
http://www.sec.gov/news/press/2012/2012-163.htm

15. **Hazardous Substances.**
To the extent that the goods to be supplied by the Contractor contain or may create hazardous substances, harmful physical agents or infectious agents as set forth in applicable state and federal laws and regulations, the Contractor must provide Material Safety Data Sheets regarding those substances. A copy must be included with each delivery.

16. **Copyrighted Material Waiver.**
The Lead State reserves the right to use, reproduce and publish proposals in any manner necessary for State agencies and local units of government to access the responses, including but not limited to photocopying, State Intranet/Internet postings, broadcast faxing, and direct mailing. In the event that the response contains copyrighted or trademarked materials, it is the responder's responsibility to obtain permission for the Lead State to reproduce and publish the information, regardless of whether the responder is the manufacturer or reseller of the products listed in the materials. By signing its response, the responder certifies that it has obtained all necessary approvals for the reproduction and distribution of the contents of its response and agrees to indemnify, protect, save and hold the Lead State, its representatives and employees harmless from any and all claims arising from the violation of this section and agrees to pay all legal fees incurred by the Lead State in the defense of any such action.

17. **Publicity.**
The Contractor shall make no representations of the State's opinion or position as to the quality or effectiveness of the products or services that are the subject of the Master Agreement without the prior written consent of the State's Assistant Director or designee of Office of State Procurement. Representations include any publicity, including but not limited to advertisements, notices, press releases, reports, signs, and similar public notices.

18. **Performance While Dispute is Pending.**
Notwithstanding the existence of a dispute, the parties shall continue without delay to carry out all of their responsibilities under the Master Agreement that are not affected by the dispute. If a party fails to continue without delay to perform its responsibilities under the Master Agreement, in the accomplishment of all undisputed work, any additional cost incurred by the other parties as a result of such failure to proceed shall be borne by the responsible party.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

19. **Organizational Conflicts of Interest.**
An organizational conflict of interest exists when, because of existing or planned activities or because of relationships with other persons:

a. the Contractor is unable or potentially unable to render impartial assistance or advice to the State;

b. the Contractor's objectivity in performing the work is or might be otherwise impaired; or

c. the Contractor has an unfair competitive advantage.

The Contractor agrees that if an organizational conflict of interest is discovered after award, an immediate and full disclosure in writing shall be made to the Assistant Director of the Lead State's Department of Administration's Office of State Procurement that shall include a description of the action the Contractor has taken or proposes to take to avoid or mitigate such conflicts. If an organizational conflict of interest is determined to exist, the Lead State may, at its discretion, cancel the Master Agreement. In the event the Contractor was aware of an organizational conflict of interest prior to the award of the Master Agreement and did not disclose the conflict to the Master Agreement Administrator, the Lead State may terminate the Master Agreement for default. The provisions of this clause shall be included in all subcontracts for work to be performed, and the terms "Contract," "Contractor," "Master Agreement", "Master Agreement Administrator" and "Contract Administrator" modified appropriately to preserve the State's rights.

20. **Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion**

a. Certification regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions. Instructions for certification:

1. By signing and submitting this proposal, the prospective lower tier participant [responder] is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to whom this proposal [response] is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarred, suspended, ineligible lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverages section of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this response that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction [subcontract equal to or exceeding $25,000] with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

6. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled, "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion – Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of parties excluded from federal procurement and nonprocurement programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and debarment.

b. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions.

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

21. **Government Data Practices.**

The Contractor and the Lead State must comply with the Minnesota Government Data Practices Act, Minn. Stat. Ch. 13, (and where applicable, if the Lead State contracting party is part of the judicial branch, with the Rules of Public Access to Records of the Judicial Branch promulgated by the Minnesota Supreme Court as the same may be amended from time to time) as it applies to all data provided by the Lead State to the Contractor and all data provided to the Lead State by the Contractor. In addition, the Minnesota Government Data Practices Act applies to all data created, collected, received, stored, used, maintained, or disseminated by the Contractor in accordance with the Master Agreement that is private, nonpublic, protected nonpublic, or confidential as defined by the Minnesota Government Data Practices Act, Ch. 13 (and where applicable, that is not accessible to the public under the Rules of Public Access to Records of the Judicial Branch).

In the event the Contractor receives a request to release the data referred to in this article, the Contractor must immediately notify the Lead State. The Lead State will give the Contractor instructions concerning the release of the data to the requesting party before the data is released. The civil remedies of Minn. Stat. § 13.08, apply to the release of the data by either the Contractor or the Lead State.

The Contractor agrees to indemnify, save, and hold the Lead State, its agent and employees, harmless from all claims arising out of, resulting from, or in any manner attributable to any violation of any provision of the Minnesota

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

Government Data Practices Act (and where applicable, the Rules of Public Access to Records of the Judicial Branch), including legal fees and disbursements paid or incurred to enforce this provision of the Master Agreement. In the event that the Contractor subcontracts any or all of the work to be performed under the Master Agreement, the Contractor shall retain responsibility under the terms of this article for such work.

22. **Survivability.**
Certain rights and duties of the Lead State and Contractor will survive the expiration or cancellation of the RFP and resulting Master Agreement. These rights and duties include but are not limited to paragraphs: Indemnification; Limitations of Liability; State Audits; Government Data Practices; Governing Law and Venue; Publicity; and Administrative Fees.

23. **Severability.**
If any provision of the Master Agreement, including items incorporated by reference, is found to be illegal, unenforceable, or void, then both the Lead State and the Contractor shall be relieved of all obligations arising under such provisions. If the remainder of the Master Agreement is capable of performance it shall not be affected by such declaration or finding and shall be fully performed.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

Exhibit C: Requirements

1. **Contractor Verification.**

Contractor must be a manufacturer of a Product in the Band(s) it is awarded a Master Agreement. "Re-branding" a product that is manufactured by another company does not meet this requirement. If the Contractor ceases production, sells or assigns their manufacturing to another vendor, or otherwise no longer manufactures a product during the life of the Master Agreement the Lead State reserves the right to terminate the Contractor's Master Agreement.

2. **Warranty and Maintenance.**

Contractor must ensure warranty service and maintenance for all equipment, including third party products provided. The Contractor must facilitate the Manufacturer or Publisher warranty and maintenance of third party products furnished through the Master Agreement. The Contractor shall provide the warranty service and maintenance for equipment and all peripherals on the Master Agreement.

3. **Website.**

Contractor must develop and maintain a URL to a web site specific to the awarded Master Agreement. Contractor's Master Agreement website must offer twenty-four (24) hours per day, seven (7) days per week availability, except for regularly scheduled maintenance times. The website must be separate from the Contractor's commercially available (i.e., public) on-line catalog and ordering systems. No other items or pricing may be shown on the website without written approval from the Lead State

a. Mandatory Specifications:

- Designated Baseline Price List(s) (e.g., MSRP, List, or Education)
- Product and Service Schedule (PSS)
- Product specifications, pricing, and configuration aids for the major product categories proposed that can be used to obtain an on-line quote,
- Service options and service agreements available on the contract. Please refer to Paragraph 5.
- Contact information for order placement, service concerns (warranty and maintenance), problem reporting, and billing concerns
- Sales representatives for participating entities
- Links to environmental certification, including but not limited to take-back/recycling programs, EPEAT, Energy Star, etc.

b. Desirable Specifications:

- Purchase order tracking
- Information on accessibility and accessible products
- Signed Master Agreement
- Online ordering capability with the ability to remember multiple ship to locations (if applicable to product)
- List of approved partners, if applicable

Within 30 calendar days of the notice of intent to award a Master Agreement, Contractor must provide a sample URL of the Master Agreement webpage to the Lead State for review and approval. The Lead State will review and determine acceptability of the website format and data. If the information is determined to be unacceptable or incorrect, the Contractor will have 15 calendar days to provide revisions to the Lead State. After the Lead State approves the website, Contractor may not make material changes to the website without notifying the Lead State through the ARF process and receiving written approval of the changes.

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

4. **Environmental Certifications.**
Contractor must include environmental or supply chain responsibility certifications and registrations for products sold through this Contract on their website. Contractor must provide these certifications and registrations for specific products to Participating Entities upon request.

5. **EPEAT Registration.**
Contractor agrees that applicable products offered that have EPEAT Standards provided under the Master Agreement must have achieved a minimum EPEAT Bronze registration. This requirement does not apply to Band 3.

Contractor may propose the addition of a product that has not yet achieved a minimum EPEAT Bronze registration. The Lead State, in its sole discretion may require Contractor to provide the following documentation to support the addition of the proposed product:

- A letter from the Green Electronics Council (GEC) on GEC's letterhead confirming that the verification process is underway; or
- A copy of Contractor's GEC contract, Conformity Assurance Board (CAB) contract, and a letter from Contractor's CAB stating that the relevant product has been registered with the CAB and that verification is underway.

The Lead State reserves the right to reject the inclusion of such product, or if approved, require Contractor to remove the product at a later date if the product does not achieve a minimum EPEAT Bronze registration. The Contractor must remove any products that subsequently exit the verification process without achieving EPEAT Bronze or greater from the Master Agreement.

6. **Third-Party Products.**
Some products offered may be manufactured by a third party. Contractor, however, must provide or facilitate the warranty service and maintenance for all Third-Party Products on the Master Agreement either directly or pass-through from the manufacturer. Contractor may not offer products manufactured by another Contractor holding a Minnesota NASPO ValuePoint Master Agreement for Computer Equipment without approval from the Lead State. Warranty for third-party products must be provided by the Contractor. Warranty documents for products manufactured by a third party are preferred to be delivered to the Participating Entity with the products. Contractor can only offer Third-Party Products in a Band they have been awarded.

Third-Party Products are intended to enhance or supplement a Contractor's own product line, and are not intended to represent more than a third of Contractor's total sales under this Master Agreement. The Lead State may limit the sale of Third-Party Products through the Master Agreement during the life of the Master Agreement should Third-Party Product sales be determined to consistently exceed one third of the total sales under this Master Agreement. Such limitation may take the form of any action the Lead State so chooses, up to and including non-renewal or cancellation of the Master Agreement.

7. **Partner Utilization.**
If utilizing partners, the Contractor is responsible for the partners providing products and services, as well as warranty service and maintenance for equipment the partner provides. Participating Entities have the option of utilizing partners. Contractor must provide a Participating Entity a copy of its plan for partner utilization upon request. Contractor must make available a list of approved partners for each Participating Entity. Participating Entities must approve specific Partners as outlined within the relevant Participating Addendum, and only partners approved by the Participating Entity may be deployed. The Participating Entity will define the process to add and remove partners in their Participating Addendum.

8. **2019 National Defense Authorization Act, Section 889(f)(3).**
Under the 2019 National Defense Authorization Act, Section 889(f)(3), the US military is prohibited from purchasing video surveillance and telecommunications equipment from certain Chinese-owned technology firms. While US state are

DocuSign Envelope ID: F019BE07-AEF0-4A14-B979-8BB85953FE52

not subject to this act, there is increasing concern for the security of state data. Contractor certifies for the term of this Master Agreement that it is not subject to laws, rules, or policies potentially requiring disclosure of, or provision of access to, customer data to foreign governments or entities controlled by foreign governments, and that Contractor's Products do not contain, include, or utilize components or services supplied by any entity subject to the same. Contractor also certifies that its Products do not contain, include, or utilize any covered technology prohibited under Section 889 of the National Defense Authorization Act, as amended.

Optional: Lease Rates

Dell Financial Services (DFS') payment solutions offer flexible end-of term options designed to suit each entity's unique needs. Payment terms are generally from 24 through 60 months and are tailored to match the essential useful life of the equipment to the payment term. Payments can be billed monthly, quarterly, semi-annually or annually.

DFS payment solution rates are adjusted quarterly in accordance with a formula based on fluctuations in treasury notes. Our rates are a function of several factors including estimates of future residual values, prevailing interest rates, borrowing costs, general and administrative expenses, and solution structure. Once a payment schedule has commenced, the rate remains constant for the term of the schedule.

Exhibit E: Contractor Terms and Conditions

Attached by reference as Exhibit E are the following Contractor document(s):

- **Software Licenses.** Customer's rights to use the Software delivered by Supplier are governed by the terms of the applicable end-user license agreement. Unless different terms have been agreed between the parties, the terms posted on www.dell.com/eula (the "EULA") shall apply. Supplier will provide a hard copy of the applicable terms upon request. Unless expressly otherwise agreed, microcode, firmware or operating system software required to enable the Equipment with which it is shipped to perform its basic or enhanced functions, is licensed for use solely on such Equipment.

- **Dell Return Policy.** Customer may return Products to Supplier pursuant to the return policy at www.dell.com/returnspolicy.

- **Equipment Warranty.** Unless provided otherwise in a Schedule, additional terms governing the limited warranties for Equipment are found at https://www.dell.com/learn/us/en/uscorp1/terms-of-sale-commercial-and-public-sector-warranties?c=us&l=en&s=corp or in the applicable documentation or Product Notice for the specific Equipment.

- **Product- and Service-Specific Terms.** Scope and details of Services and Product-specific terms are specified in the applicable standard service description that is attached to or referred in a Schedule or Quote, or is made available through the then-current Supplier website for product- or service-specific terms, currently located at www.dell.com/offeringspecificterms. Such standard descriptions are from time to time referred to as "Service Description(s)", "Product Notices" or "Service Briefs." The version of the applicable document that is effective as of the date of the applicable Quote, shall be deemed incorporated into the Order. Scope and details of customized Professional Services not covered by such a standard description shall be documented in a mutually agreed Statement of Work ("SOW").

These Contractor terms and conditions are being provided for **informational purposes only**. They are intended to be negotiated by Contractor and a Participating Entity as part of a Participating Addendum, or by Contractor and a Purchasing Entity as part of an Order, and shall apply only as agreed to in writing by the parties. Unless such terms are expressly accepted in writing, terms in the following document(s) that derogate the application to a Purchasing Entity of a corresponding term in this Master Agreement or applicable Participating Addendum shall be deemed void.

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

Solicitation Number: RFP #121923

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and SHI International Corp., 290 Davidson Ave., Somerset, NJ 08873 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Technology Products and Services with Related Solutions from which Supplier was awarded a contract in Category 1.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

EXPIRATION DATE AND EXTENSION. This Contract expires February 27, 2028, unless it is cancelled sooner pursuant to Article 22. This Contract allows up to three additional one-year extensions upon the request of Sourcewell and written agreement by Supplier. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

B. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract. "Equipment" and "Products" shall mean the third-party software, computer peripherals, computer hardware, and associated IT services resold by Vendor and provided by third parties. "Services" shall mean all professional services provided by Vendor under of a Statement of Work. "Statement of Work" or "SOW" shall mean a document mutually agreed upon between the Vendor and the Member that references these terms and conditions and describes the Services to be provided, the associated schedule and price, and any special conditions applicable to that SOW.

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances. In addition, Supplier warrants the Services are free from material defects for ninety (90) days commencing with final acceptance of Services unless otherwise specified in a SOW (the "Warrant Period"). WARRANTY. Participating Entity agrees to look solely to the manufacturer to reach a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

EXCEPT AS OTHERWISE PROVIDED IN THIS AGREEMENT AND/OR ANY ORDER ISSUED, HEREUNDER VENDOR DISCLAIMS ALL OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WARRANTY OF NONINFRINGEMENT, OR ANY WARRANTY RELATING TO THIRD PARTY SERVICES OR PRODUCTS. THIS DISCLAIMER CONTAINED IN THIS PARAGRAPH DOES NOT AFFECT THE TERMS OF ANY WARRANTY PROVIDED BY A MANUFACTURER.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities, in accordance with the Supplier's Return Policy, which can be found at www.SHI.com/ReturnPolicy. Participating Entities reserve the right to inspect the Equipment and Products within 3 business days time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Partcipating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity subject to the Supplier's Return Policy.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract. Participating Entities may be required to sign a separate agreement, rider, Ender User License Agreement ("EULA"), or Service Level Agreement as required by manufacturers to acknowledge terms of use for specific products and/or services. The Supplier will not become a party to terms between the manufacturer and the purchasing Participating Entity or end user of such products or services.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

7. CUSTOMER SERVICE

A. PRIMARY ACCOUNT REPRESENTATIVE. Supplier will assign an Account Representative to Sourcewell for this Contract and must provide prompt notice to Sourcewell if that person is changed. The Account Representative will be responsible for:

- Maintenance and management of this Contract;
- Timely response to all Sourcewell and Participating Entity inquiries; and
- Business reviews to Sourcewell and Participating Entities, if applicable.

B. BUSINESS REVIEWS. Supplier must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, sales data reports, performance issues, supply issues, customer issues, and any other necessary information.

8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Supplier must submit a report indicating no sales were made).

The Report must contain the following fields:

- Participating Entity Name (e.g., City of Staples Highway Department);
- Participating Entity Physical Street Address;

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

- Participating Entity City;
- Participating Entity State/Province;
- Participating Entity Zip/Postal Code;
- Participating Entity Contact Name;
- Participating Entity Contact Email Address;
- Participating Entity Contact Telephone Number;
- Sourcewell Assigned Entity/Participating Entity Number;
- Item Purchased Description;
- Item Purchased Price;
- Sourcewell Administrative Fee Applied; and
- Date Purchase was invoiced/sale was recognized as revenue by Supplier.

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Supplier will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

9. AUTHORIZED REPRESENTATIVE

Sourcewell's Authorized Representative is its Chief Procurement Officer.

Supplier's Authorized Representative is the person named in the Supplier's Proposal. If Supplier's Authorized Representative changes at any time during this Contract, Supplier must promptly notify Sourcewell in writing.

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

10. AUDIT, ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE

A. AUDIT. Pursuant to Minnesota Statutes Section 16C.05, subdivision 5, the books, records, documents, and accounting procedures and practices relevant to this Contract are subject to examination by Sourcewell or the Minnesota State Auditor for a minimum of six years from the end of this Contract upon thirty (30) days' advance notice to Supplier. This clause extends to Participating Entities as it relates to business conducted by that Participating Entity under this Contract.

B. ASSIGNMENT. Neither party may assign or otherwise transfer its rights or obligations under this Contract without the prior written consent of the other party and a fully executed assignment agreement. Such consent will not be unreasonably withheld. Any prohibited assignment will be invalid.

C. AMENDMENTS. Any amendment to this Contract must be in writing and will not be effective until it has been duly executed by the parties.

D. WAIVER. Failure by either party to take action or assert any right under this Contract will not be deemed a waiver of such right in the event of the continuation or repetition of the circumstances giving rise to such right. Any such waiver must be in writing and signed by the parties.

E. CONTRACT COMPLETE. This Contract represents the complete agreement between the parties. No other understanding regarding this Contract, whether written or oral, may be used to bind either party. For any conflict between the attached Proposal and the terms set out in Articles 1-22 of this Contract, the terms of Articles 1-22 will govern.

F. RELATIONSHIP OF THE PARTIES. The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

11. INDEMNITY AND HOLD HARMLESS

Supplier must indemnify, defend, save, and hold Sourcewell and its Participating Entities, including their agents and employees, harmless from any claims or causes of action, including attorneys' fees incurred by Sourcewell or its Participating Entities, arising out of the Supplier's negligence, willful misconduct, or violation of law, in the course of their performance of this Contract by the supplier or its agents or employees; this indemnification includes injury or death to person(s) or property alleged to under this Contract. Sourcewell's responsibility will be governed by the State of Minnesota's Tort Liability Act (Minnesota Statutes Chapter 466) and other applicable law.

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

NEITHER PARTY WILL BE LIABLE FOR ANY SPECIAL, PUNITIVE, INDIRECT, INCIDENTAL OR CONSEQUENTAL DAMAGES INCLUDING BUT NOT LIMITED TO LOSS OF OR DAMAGE TO DATA, LOSS OF ANTICIPATED REVENUE OR PROFITS, WORK STOPPAGE OR IMPAIRMENT OF OTHER ASSETS, WHETHER OR NOT FORSEEABLE AND WHETHER OR NOT A PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

NEITHER PARTY'S TOTAL CUMULATIVE LIABILITY TO THE OTHER IN CONNECTION WITH THIS AGREEMENT WHETHER IN CONTRACT TORT OR OTHER THEORY WILL EXCEED THE TOTAL AMOUNT OF FEES ACTUALLY PAID OR PAYABLE BY SOURCEWELL TO VENDOR UNDER THIS AGREEMENT FOR THE YEAR PREVIOUS TO THE INCIDENT WHICH GAVE CAUSE FOR SUCH LIABILITY.

12. GOVERNMENT DATA PRACTICES

Supplier and Sourcewell must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by or provided to Sourcewell under this Contract and as it applies to all data created, collected, received, maintained, or disseminated by the Supplier under this Contract.

13. INTELLECTUAL PROPERTY, PUBLICITY, MARKETING, AND ENDORSEMENT

A. INTELLECTUAL PROPERTY

1. *Grant of License.* During the term of this Contract:

   a. Sourcewell grants to Supplier a royalty-free, worldwide, non-exclusive right and license to use the trademark(s) provided to Supplier by Sourcewell in advertising and promotional materials for the purpose of marketing Sourcewell's relationship with Supplier.

   b. Supplier grants to Sourcewell a royalty-free, worldwide, non-exclusive right and license to use Supplier's trademarks in advertising and promotional materials for the purpose of marketing Supplier's relationship with Sourcewell.

2. *Limited Right of Sublicense*. The right and license granted herein includes a limited right of each party to grant sublicenses to their respective subsidiaries, distributors, dealers, resellers, marketing representatives, and agents (collectively "Permitted Sublicensees") in advertising and promotional materials for the purpose of marketing the Parties' relationship to Participating Entities. Any sublicense granted will be subject to the terms and conditions of this Article. Each party will be responsible for any breach of this Article by any of their respective sublicensees.

3. *Use; Quality Control.*

   a. Neither party may alter the other party's trademarks from the form provided and must comply with removal requests as to specific uses of its trademarks or logos.

   b. Each party agrees to use, and to cause its Permitted Sublicensees to use, the other party's trademarks only in good faith and in a dignified manner consistent with

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

such party's use of the trademarks. Upon written notice to the breaching party, the breaching party has 30 days of the date of the written notice to cure the breach or the license will be terminated.

4. *Termination*. Upon the termination of this Contract for any reason, each party, including Permitted Sublicensees, will have 30 days to remove all Trademarks from signage, websites, and the like bearing the other party's name or logo (excepting Sourcewell's pre-printed catalog of suppliers which may be used until the next printing). Supplier must return all marketing and promotional materials, including signage, provided by Sourcewell, or dispose of it according to Sourcewell's written directions.

B. PUBLICITY. Any publicity regarding the subject matter of this Contract must not be released without prior written approval from the Authorized Representatives. Publicity includes notices, informational pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Supplier individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

C. MARKETING. Any direct advertising, marketing, or offers with Participating Entities must be approved by Sourcewell. Send all approval requests to the Sourcewell Supplier Development Administrator assigned to this Contract.

D. ENDORSEMENT. The Supplier must not claim that Sourcewell endorses its Equipment, Products, or Services.

14. GOVERNING LAW, JURISDICTION, AND VENUE

The substantive and procedural laws of the State of Minnesota will govern this Contract. Venue for all legal proceedings arising out of this Contract, or its breach, must be in the appropriate state court in Todd County, Minnesota or federal court in Fergus Falls, Minnesota.

15. FORCE MAJEURE

Neither party to this Contract will be held responsible for delay or default caused by acts of God or other conditions that are beyond that party's reasonable control. A party defaulting under this provision must provide the other party prompt written notice of the default.

16. SEVERABILITY

If any provision of this Contract is found by a court of competent jurisdiction to be illegal, unenforceable, or void then both parties will be relieved from all obligations arising from that provision. If the remainder of this Contract is capable of being performed, it will not be affected by such determination or finding and must be fully performed.

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

17. PERFORMANCE, DEFAULT, AND REMEDIES

A. PERFORMANCE. During the term of this Contract, the parties will monitor performance and address unresolved contract issues as follows:

1. *Notification.* The parties must promptly notify each other of any known dispute and work in good faith to resolve such dispute within a reasonable period of time. If necessary, Sourcewell and the Supplier will jointly develop a short briefing document that describes the issue(s), relevant impact, and positions of both parties.
2. *Escalation.* If parties are unable to resolve the issue in a timely manner, as specified above, either Sourcewell or Supplier may escalate the resolution of the issue to a higher level of management. The Supplier will have 30 calendar days to cure an outstanding issue.
3. *Performance while Dispute is Pending*. Notwithstanding the existence of a dispute, the Supplier must continue without delay to carry out all of its responsibilities under the Contract that are not affected by the dispute. If the Supplier fails to continue without delay to perform its responsibilities under the Contract, in the accomplishment of all undisputed work, Sourcewell may terminate Contract as stated herein.

B. DEFAULT AND REMEDIES. Either of the following constitutes cause to declare this Contract, or any Participating Entity order under this Contract, in default:

1. Nonperformance of contractual requirements, or
2. A material breach of any term or condition of this Contract.

The party claiming default must provide written notice of the default, with 30 calendar days to cure the default. If the default remains after the opportunity for cure, the non-defaulting party may:

- Exercise any remedy provided by law or equity, or
- Terminate the Contract or any portion thereof, including any orders issued against the Contract.

18. INSURANCE

A. REQUIREMENTS. At its own expense, Supplier must maintain insurance policy(ies) in effect at all times during the performance of this Contract with insurance company(ies) licensed or authorized to do business in the State of Minnesota having an “AM BEST” rating of A- or better, with coverage and limits of insurance not less than the following:

1. *Workers’ Compensation and Employer’s Liability.*
Workers’ Compensation: As required by any applicable law or regulation.
Employer's Liability Insurance: must be provided in amounts not less than listed below:
Minimum limits:

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

$500,000 each accident for bodily injury by accident
$500,000 policy limit for bodily injury by disease
$500,000 each employee for bodily injury by disease

2. *Commercial General Liability Insurance.* Supplier will maintain insurance covering its operations, with coverage on an occurrence basis, and must be subject to terms no less broad than the Insurance Services Office ("ISO") Commercial General Liability Form CG0001 (2001 or newer edition), or equivalent. At a minimum, coverage must include liability arising from premises, operations, bodily injury and property damage, independent contractors, products-completed operations including construction defect, contractual liability, blanket contractual liability, and personal injury and advertising injury. All required limits, terms and conditions of coverage must be maintained during the term of this Contract.

Minimum Limits:
$1,000,000 each occurrence Bodily Injury and Property Damage
$1,000,000 Personal and Advertising Injury
$2,000,000 aggregate for products liability-completed operations
$2,000,000 general aggregate

3. *Commercial Automobile Liability Insurance.* During the term of this Contract, Supplier will maintain insurance covering all owned, hired, and non-owned automobiles in limits of liability not less than indicated below. The coverage must be subject to terms no less broad than ISO Business Auto Coverage Form CA 0001 (2010 edition or newer), or equivalent.

Minimum Limits:
$1,000,000 each accident, combined single limit

4. *Umbrella Insurance*. During the term of this Contract, Supplier will maintain umbrella coverage over Employer's Liability, Commercial General Liability, and Commercial Automobile.

Minimum Limits:
$2,000,000

5. *Professional/Technical, Errors and Omissions, and/or Miscellaneous Professional Liability*. During the term of this Contract, Supplier will maintain coverage for all claims the Supplier may become legally obligated to pay resulting from any actual or alleged negligent act, error, or omission related to Supplier's professional services required under this Contract.

Minimum Limits:
$2,000,000 per claim or event
$2,000,000 – annual aggregate

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

6. *Network Security and Privacy Liability Insurance*. During the term of this Contract, Supplier will maintain coverage for network security and privacy liability. The coverage may be endorsed on another form of liability coverage or written on a standalone policy. The insurance must cover claims which may arise from failure of Supplier's security resulting in, but not limited to, computer attacks, unauthorized access, disclosure of not public data – including but not limited to, confidential or private information, transmission of a computer virus, or denial of service.

Minimum limits:
$2,000,000 per occurrence
$2,000,000 annual aggregate

Failure of Supplier to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Supplier must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 or sent to the Sourcewell Supplier Development Administrator assigned to this Contract. The certificates must be signed by a person authorized by the insurer(s) to bind coverage on their behalf.

Failure to request certificates of insurance by Sourcewell, or failure of Supplier to provide certificates of insurance, in no way limits or relieves Supplier of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. Supplier agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Supplier's commercial general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Supplier, and products and completed operations of Supplier. The policy provision(s) or endorsement(s) must further provide that coverage is primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. WAIVER OF SUBROGATION. Supplier waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other insurance applicable to the Supplier or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

E. UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION. The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

19. COMPLIANCE

A. LAWS AND REGULATIONS. All Services provided under this Contract must comply fully with applicable federal laws and regulations, and with the laws in the states and provinces in which the Services are sold.

B. LICENSES. Supplier must maintain a valid and current status on all required federal, state/provincial, and local licenses, bonds, and permits required for the operation of the business that the Supplier conducts with Sourcewell and Participating Entities.

20. BANKRUPTCY, DEBARMENT, OR SUSPENSION CERTIFICATION

Supplier certifies and warrants that it is not in bankruptcy or that it has previously disclosed in writing certain information to Sourcewell related to bankruptcy actions. If at any time during this Contract Supplier declares bankruptcy, Supplier must immediately notify Sourcewell in writing.

Supplier certifies and warrants that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Supplier certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this Contract. Supplier further warrants that it will provide immediate written notice to Sourcewell if this certification changes at any time.

21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all references to “federal” should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier’s Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of “federally assisted construction contract” in 41 C.F.R. § 60-

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

hereby incorporated by reference into this Contract. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. If the federal award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 C.F.R. § 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Contracts and subgrants of amounts in excess of $150,000 require the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. § 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. § 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Supplier certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. §180 that implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Supplier certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency.

G. BYRD ANTI-LOBBYING AMENDMENT, AS AMENDED (31 U.S.C. § 1352). Suppliers must file any required certifications. Suppliers must not have used federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Suppliers must disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the non-federal award. Suppliers must file all certifications and

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Supplier must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Supplier further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

I. ENERGY POLICY AND CONSERVATION ACT COMPLIANCE. To the extent applicable, Supplier must comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.

J. BUY AMERICAN PROVISIONS COMPLIANCE. To the extent applicable, Supplier must comply with all applicable provisions of the Buy American Act. Purchases made in accordance with the Buy American Act must follow the applicable procurement rules calling for free and open competition.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Supplier agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Supplier that are directly pertinent to Supplier's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Supplier's personnel for the purpose of interview and discussion relating to such documents.

L. PROCUREMENT OF RECOVERED MATERIALS (2 C.F.R. § 200.322). A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

M. FEDERAL SEAL(S), LOGOS, AND FLAGS. The Supplier cannot use the seal(s), logos, crests, or reproductions of flags or likenesses of Federal agency officials without specific pre-approval.

N. NO OBLIGATION BY FEDERAL GOVERNMENT. The U.S. federal government is not a party to this Contract or any purchase by a Participating Entity and is not subject to any obligations or

DocuSign Envelope ID: 443CB027-433D-46A7-BC42-6A19334951B3

liabilities to the Participating Entity, Supplier, or any other party pertaining to any matter resulting from the Contract or any purchase by an authorized user.

O. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS. The Contractor acknowledges that 31 U.S.C. 38 (Administrative Remedies for False Claims and Statements) applies to the Supplier's actions pertaining to this Contract or any purchase by a Participating Entity.

P. FEDERAL DEBT. The Supplier certifies that it is non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowance, and benefit overpayments.

Q. CONFLICTS OF INTEREST. The Supplier must notify the U.S. Office of General Services, Sourcewell, and Participating Entity as soon as possible if this Contract or any aspect related to the anticipated work under this Contract raises an actual or potential conflict of interest (as described in 2 C.F.R. Part 200). The Supplier must explain the actual or potential conflict in writing in sufficient detail so that the U.S. Office of General Services, Sourcewell, and Participating Entity are able to assess the actual or potential conflict; and provide any additional information as necessary or requested.

R. U.S. EXECUTIVE ORDER 13224. The Supplier, and its subcontractors, must comply with U.S. Executive Order 13224 and U.S. Laws that prohibit transactions with and provision of resources and support to individuals and organizations associated with terrorism.

S. PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT. To the extent applicable, Supplier certifies that during the term of this Contract it will comply with applicable requirements of 2 C.F.R. § 200.216.

T. DOMESTIC PREFERENCES FOR PROCUREMENTS. To the extent applicable, Supplier certifies that during the term of this Contract will comply with applicable requirements of 2 C.F.R. § 200.322.

22. CANCELLATION

Sourcewell or Supplier may cancel this Contract at any time, with or without cause, upon 60 days' written notice to the other party. However, Sourcewell may cancel this Contract immediately upon discovery of a material defect in any certification made in Supplier's Proposal. Cancellation of this Contract does not relieve either party of financial, product, or service obligations incurred or accrued prior to cancellation.

Table 2: Company Information and Financial Strength

Line Item	Question	Response *	

10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	SHI International Corp (SHI) started as a regional, software-only reseller in 1989. Co-founder Thai Lee has served as SHI's only President and CEO. Under her leadership, SHI has organically grown into one of the largest, privately held, global technology solutions providers in the world—while maintaining the agility and friendliness of a small business. Headquartered in Somerset, NJ, SHI is the largest woman and minority owned business in the United States with major operations centers in Austin, TX, Milton Keynes, UK, and a growing local presence around the world. SHI employs more than 6,000 employees split into strategic business units who uphold SHI's mission statement: "We are passionate about delivering exceptional value and experience as we help customers select, deploy, and manage technology." SHI's sales teams are allocated to support International, Global, Strategic, Commercial, Enterprise and Public Sector. Today, over 17,000 corporate, enterprise, government, and academic organizations rely on SHI to support their transformation, collaboration, security, and optimization needs. Few companies experience the longevity SHI has experienced. In fact, SHI's first customer is still with us today. From the beginning, SHI has focused on innovation, expanding our technology offerings, and professional services. Starting solely as a software reseller, SHI now offers full IT solutions, ranging from software and hardware to cloud migration and strategic planning. SHI has always brought leading edge technology to our customers: from bringing drop-shipping innovation to the IT channel in 1991 to delivering high-value consulting and professional services to help organizations achieve business agility. We work closely with the top manufacturers and participate in several advisory boards to ensure we are aware of new technologies and shifts in technology and that we are transferring that knowledge not only to our customers but also using it to influence how we run our business. There is a lot to consider when seeking a partner who can help address Sourcewell members' various technology needs. Ability and experience are vital elements in your decision, but you also want a company built on solid principles and values. That is why our business philosophy focuses on one key concept: Being helpful. * It is an easy claim to make, but at SHI, being helpful goes beyond a simple marketing strategy—it is a core consideration in everything we do. We continuously look for opportunities beyond the contract, including: • Coordinated expertise and insight to help you find success • Value-added support that exceeds established obligations • Targeted assistance addressing inefficiencies and obstacles, so you can focus on critical priorities To further demonstrate our commitment, we look toward SHI's core values, which drive our operations and promote a healthy, helpful business culture. We have listed our 10 core values below. With dedication to these values, as well as SHI's focus on remaining uniquely helpful, we can deliver on the trust you place in us. SHI Core Values: • Build a culture of diversity, equality, and inclusion • Be accountable and act with integrity • Seek understanding to support sincerely • Embrace change, collaborate and innovate • Show initiative and execute efficiently • Be resourceful and cost conscious • Adapt, persevere and succeed • Learn, grow and teach • Strive for wellness to achieve balance • Be bold, be fun, behave and be you Our goal is to foster a long-term, mutually beneficial relationships with our customers and partners, and we are committed to a collaborative process that is customer centered so that your members can make their IT solution purchases confidently. Through providing Sourcewell members with the latest technology, cost savings, technical expertise, and compliant procurement, we believe SHI is the ideal partner to support Sourcewell's contract requirements.
11	What are your company's expectations in the event of an award?	SHI is excited to continue our collaboration with Sourcewell and its members! We have had tremendous success growing the value of our first awarded contract and will continue our commitment to expanding the use of this contract, supporting Sourcewell's existing members and educating eligible contract users. Throughout our current contract, Sourcewell has been supported by a dedicated account management structure that has provided both Sourcewell and its members

with a supportive team of individuals, including dedicated Capture and Business Development Manager, Victoria Pubylski, Field Account Executives, Inside Account Executives, and sales leadership, as well as expert support from our technology specialists. Our dedicated sales teams are well-informed on how to use the Sourcewell contract and will continue to promote this contract to ensure both the Sourcewell Cooperative and its members benefit from our relationship.

Given that we are already familiar with Sourcewell and your members we expect there to be a seamless transition to a new awarded contract. We will maintain and grow our successful partnership with Sourcewell, beginning with our immediate actions upon award which include:

1. Supporting and advocating our Sourcewell partnership. Each team member from every Public Sector vertical supports our partnership with Sourcewell and will continue to advocate for the contract with passion and vigor. Our public sector sales force has successfully grown our Sourcewell contract year over year since our initial award in 2019, including an incredible 100 percent growth in the second full year of our contract. Given our position in the public sector market, our expanding sales force, and our passion for advocating the benefits of the Sourcewell contract to new customers, we are confident that we can continue to amplify Sourcewell's reach in terms of the number of distinct members who use this contract and revenue achieved.

2. Develop additional marketing materials and campaigns that articulate the value of the Sourcewell-SHI partnership. As an example, we will employ our Capture and Business Development Team, dedicated to the Public Sector Business Unit at SHI, to notify existing customers and continue to prospect new customers to detail our partnership.

3. Provide training and updates to our entire Public Sector sales and sales support staff about Sourcewell and its members. This training will include contract terms and methodology, pricing parameters, and the value that Sourcewell provides to its members.

4. Connect with current Sourcewell members and listen to members' needs and feedback. Our check-in will ensure that each member's dedicated Account Team is familiar with and accessible to them, in addition to educating members on our value. We will work with each member to understand their business preferences (specific information on a quote, reporting requirements, invoicing/billing requirements, and the like).

5. Finally, we will create a dedicated Sourcewell online catalog that displays the contracted pricing and contract page on our website that will include the Sourcewell awarded vendor logo, a copy of contract documents, a summary of products and pricing, marketing materials, and a link to Sourcewell's website.

We recognize why cooperative contract usage is rising and realize the value of having strategic partners in this space. SHI distinguishes itself from comparable organizations by choosing to partner closely with a select number of cooperative partners, ensuring we offer proactive support rather than stretching ourselves across countless partnerships. To bolster support for our larger contract users, and sales organization, we have established a Capture and Strategy team. This team is tasked with educating our customers and sales team about our available contracts and serving as a primary resource for significant contract holders like Sourcewell.

Your dedicated SHI Capture and Business Development Manager will regularly meet with the assigned Sourcewell Supplier Development Administrator to ensure contract success for both SHI and all Sourcewell customers. These meetings will include updates or changes impacting the contract, a review of contract highlights (like spending, new customers, and new vendors), discussion of any contract concerns, identification of areas for improvement, and sharing our strategies for promoting the contract. We aim to maintain open lines of communication throughout.

Our dedicated Contract Capture and Strategy team will join forces with the Public Sector leadership and sales teams directly to execute these steps.

Primary contacts for Sourcewell include:

1. Tory Pubylski
Capture & Business Development Manager
Victoria_Pubylski@shi.com

2. Amelia Jakubczyk
Director SLED Contract Capture and Development
Amelia_Jakubczyk@shi.com

		3. Aimee Ballenger Senior Director of Contract Capture and Development Aimee_Ballenger@shi.com If chosen to partner with Sourcewell, we'll bring fresh and innovative perspectives to your members and anticipate a seamless transition. We pledge to provide personal support for Sourcewell and your members, with devoted Capture and Strategy team members, taking the lead. We will remain flexible and agile in our approach to optimize Sourcewell members' contract user experience.	
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	With over 6,000 employees worldwide, SHI is proud to be the largest Woman/Minority owned business in North America. We maintain more than 30 global offices in North America, EMEA, and APAC. In addition to our global offices, our properties include an integration center, solution lab, and executive briefing center, which are located at our headquarters in New Jersey. In 2022, SHI reached $14 billion in revenue and set the stage for continued exponential growth. This growth stems from a laser focus on customer service, dedicated and tenured leadership, committed AEs (who live and work in the communities they serve), and a broad spectrum of customers and partners. Since SHI is a privately-owned company with no bank debt, we are nimble and able to reinvest in our business with integrity and in a way that aligns with our values and needs. SHI continues to invest in new infrastructure, most recently with a state-of-the-art data center integration center. We have also made significant investments in hiring more resources—the people with whom Sourcewell engages. Our financial strength and stability are predicated on our staunch affiliations within our communities—our relationships with customers, partners, OEMs, and our own SHI colleagues. SHI's Strengths: • Agile and adaptive business management • Diverse, predictable revenue sources • Strong customer and vendor partnerships • Steady industry growth Financial Stability: • Thirty-three consecutive years of growth • No long-term bank debt • Exemplary financials • Low overhead structure SHI's Dun & Bradstreet number is 61-142-9481 and we have a 5A3 rating. A copy of our most recent report is attached to this proposal. Additional details may be provided upon request.	*
13	What is your US market share for the solutions that you are proposing?	We offer our complete catalog of products and services to our customers. Providing a vendor-neutral approach to help customers find the right technology that meets every requirement of their IT environment, one of our greatest strengths is our ability to provide tremendous depth and breadth in choosing the ideal software, hardware, cloud, and other products and services. Based on the most recent data on the US IT budget, SHI's share is approximately 2.5% of the overall market. SHI Overall Product Mix • 60% would be considered software, subscriptions, and cloud-based sales. • 40% would be considered hardware, peripherals and accessories, including devices, servers, storage, and, networking. Market Share Indicators for Software SHI is considered the leading reseller partner for many top software publishers such as Microsoft, Adobe, and Trellix (McAfee). Estimating our revenue with these partners, as representative of their partner sales, we would put our share at approximately 20-25%. This would not include sales these software publishers conduct directly with the end customer. Market Share Indicators for Hardware Original Equipment Manufacturer (OEM) direct sales to the end customer typically represent a larger percentage of the business. As a result, our overall market share is lower, but SHI is one of the largest hardware resellers in North America.	*
14	What is your Canadian market share for the solutions that you are proposing?	The Canadian IT addressable market for resellers is approximately $100 billion. The largest partner in Canada owns 1%; SHI's share of the market is 0.25%.	*
15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	In our 34-year history, SHI has never petitioned for bankruptcy protection. We are a privately held company and currently have no debt.	*

16	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	SHI is an Information Technology Value-Added Reseller (VAR), which offers a complete solution to information technology by providing multi-vendor hardware and software along with other vital services. SHI has vast experience and established vendor partnerships that enable it to bring excellent value to Sourcewell and its members. With a diverse partner ecosystem that supports over 15,000 unique publishers and manufacturers, all the leading manufacturers include SHI as an authorized partner. SHI is authorized to sell hundreds to thousands of brands and products in the scope of this contract. We have included a sample list of authorizations in response to question number 81, and specific OEM or software publisher authorizations can be provided upon request. Our endeavors naturally resonate with Sourcewell's mission of serving as a 'force multiplier' for its members. This synchronicity is not merely coincidental but a testament to our shared values and common goals. Our expansive network of manufacturer relationships is a direct testament to this alignment. Yet, we understand to truly amplify our impact, we must cater to a diverse range of needs which is why we have forged partnerships with a considerable number of smaller distribution partners in addition to our long-term relationships with the larger distributors. This strategic approach not only diversifies our product and service offerings but also exponentially increases our capacity to deliver value. SHI has been dedicated to the Public Sector business for the last twenty years, creating solutions that are tailored to the specific needs of State, Local, and Education customers across North America. Therefore, Sourcewell can feel confident that its members will benefit from SHI's collaboration with each Sourcewell member to deliver solutions that are specific to their unique needs. SHI does not have a dealer network. All business will be supported directly through SHI's sales force in the U.S, SHI Canada in the north, SHI Government Solutions in the State of Texas. *
17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	Among the thousands of licenses and certifications available within the IT industry, SHI holds a comprehensive number relevant to the scope of this Sourcewell contract. Our teams stay current with licenses and certifications; in most cases, we have the highest available certifications. We have included a representative sample of manufacturers and the number of certifications held, and specific certification details for individual publishers can be provided upon request. Acronis – 5 Certifications Adobe – 7 Certifications AirWatch – 2 Certifications APC - 12 Certifications Apple - 17 Certifications Arbor - 4 Certifications Aruba - 3 Certifications Avaya - 12 Certifications Blue Coast Systems - 3 Certifications Bluebeam – 7 Certifications Bomgar – 3 Certifications Business Objects – 11 Certifications CA – 34 Certifications Check Point – 12 Certifications Cisco – 44 Certifications Citrix – 88 Certifications Commvault – 67 Certifications Compellent – 5 Certifications CompTIA – 35 Certifications CradlePoint – 2 Certifications DataCore – 1 Certifications Dell/EMC – 136 Certifications D-Link- 4 Certifications Domino – 1 Certifications Emulex – 1 Certifications ESET – 3 Certifications Exin – 2 Certifications F5 – 8 Certifications HDS (Hitachi Data Systems) – 4 Certifications HP – 201 Certifications HPE – 327 Certifications IBM – 174 Certifications IBM hardware – 11 Certifications Imation/Nexsan – 4 Certifications ISC2 – 10 Certifications ITIL – 5 Certifications *

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
26	Sales force.	SHI possesses not only the necessary capabilities but also the needed enthusiasm to cater to the needs of Sourcewell members from across the U.S. and Canada. Our ethos at SHI grows from our team members and they remain our greatest asset. Our sales force provides exceptional customer service and support to Sourcewell members. To remain successful for Sourcewell members, we will stay flexible in our approach and will engage with each member on an individual basis; we understand that one size does not fit all, and that philosophy is apparent in our sales structure. In terms of organization, we have retained a small business feel to remain agile for our customers. We operate successfully with minimal layers of management, and we empower our sales teams to make decisions that are in the best interest of their customers. Our Team Structure With a desire to meet the unique needs of our various public sector customers, we have structured our public sector business unit into four divisions, including: • Federal • State and Local Government • Education • Healthcare Sales Leadership SHI recognizes the value and agility that comes from working closely with your selected partner. That's why, to best support our customers, we have split our public	

sector into regions. We have over 250 salespeople who are focused on government, education, and healthcare. SHI's Senior Public Sector Sales Vice President oversees four regional Vice Presidents (VPs)—education west and east, and government west and east, who directly manage the District Managers and Account Executives in their territory. This allows for more flexibility and faster decision-making, so SHI can provide Sourcewell's members with a small business feel.

Public Sector Field Team
The Public Sector Field team supports state and local government, K-12, higher education, federal, and public healthcare entities across the country. Customers in the public sector are supported by an Account Executive (AE), who lives and works in the territory, and a dedicated inside sales team.

SHI provides a comprehensive customer support plan to ensure we are meeting each customer's needs. Our AEs are empowered to make decisions when it comes to customer support, and they have the autonomy to resolve issues as they arise. In addition, District Managers (DM) are engaged with the account teams to provide executive-level support and to meet with customers as needed.
Regular and transparent communication with customers helps us provide tailored support. AEs meet with the Sourcewell member contract users to review their business with SHI. During these review meetings, we discuss purchase history and the customer's future plans. With open discussions, SHI can provide significant value in supporting members' initiatives and will engage the support teams as needed to help meet their goals and objectives. *

Public Sector Inside Team
Our Public Sector Inside team focuses on supporting the needs of smaller local government, K-12, and higher education institutions nationwide and offers personalized attention regardless of organizational size. These customers often are overlooked by large resellers, though they have the same needs as their larger counterparts. Based at our global headquarters in Somerset, New Jersey, the Public Sector Inside team supports customers' needs from start to finish.

Canadian Public Sector Sales
With over 20 years of experience in the Canadian marketplace, SHI maintains several offices and a team of 20 people including directors, managers, field sellers, and sales support including field service executives who provide pre-sales support, solution architecting, and engineering across SHI's full portfolio.
Our Canadian Public Sector team supports Federal, Provincial, Municipal, Healthcare, Education, Agencies, Boards and Commissions. This sales team is comprised of one District Sales Manager with over 35 years of experience in the Public Sector, three Field Account Executives with up to 24 years of experience and one Business Development Manager with over 10 years of experience in Public Sector. This team is backed by Inside Account Managers who support day-to-day quote requests, returns, and general inquiries. We provide a comprehensive customer support plan to ensure we meet each members' needs as part of our presence in Canada.

We also have six Inside Account Executives who are phone-based sellers covering Canada to augment the field sellers.

And our Canadian presence is growing! We continue to look to expand our field sales presence in the Public Sector in the coming months.

27	Dealer network or other distribution methods.	To support Sourcewell members' need for reliable stock, we have an abundant and broad community of distributors and partners. We work loyally to maintain relationships with both our large IT distributors (Ingram Micro and TD SYNNEX) as well as smaller, local distributors and manufacturers directly. Regardless of where we source products, SHI always looks for opportunities to save our customers money. In addition to leveraging our partner relationships for savings at the vision and design phases, our sales teams review our distributors' stock to source products from the supplier with inventory in the closest proximity to the customer, at the lowest price. Most products are delivered within three to five business days of order placement. We have sourcing specialists on our procurement team who monitor purchase orders with our partner and distributor community to ensure that no savings have been missed. In many instances, our sourcing specialists can aggregate purchases for a specific partner or product across multiple transactions or even across multiple customers to realize a lower overall cost. SHI also maintains two integration centers/warehouses in Piscataway, NJ, which can securely store the Members' inventory for configuration and integration services. The combination of our warehouse/integration centers, as well as our relationships with our major distributors, allow us to provide efficient product delivery across the country. SHI's distribution model reduces time to market and decreases the overhead costs of maintaining additional warehouses, subsequently allowing us to offer our customers an aggressive pricing model. Our major distribution centers are located strategically in: • Fontana, CA • Los Angeles, CA • Ontario, CA • Miami, FL • Atlanta, GA • Suwanee, GA • Chicago, IL • South Bend, IN • Swedesboro, NJ • Jonestown, PA • Memphis, TN • Dallas, TX • Fort Worth, TX SHI receives electronic feeds from these major distributors as well as the top publishers/OEMs in the industry. We include advertised list price in our catalog and have based our discounts off this pricing.

28	Service force.	To anticipate the needs of our clients, we proactively invest in solution-based resources and capabilities that help our customers achieve their digital transformation goals. For example, we are adding practices around IOT and data analytics/machine learning. The requirements for effective IT have transformed. In response to this shift, and working from our customer-centered foundation, SHI developed solution-based support teams. These teams have common goals to identify a customer's needs, help them acquire the right technology, and facilitate the adoption of that technology in the customer's environment. SHI has technical expertise around our entire portfolio of services and products, ensuring we are prepared to meet all Sourcewell members' IT needs. Our services and support resources include: • Field Solutions Engineers: SHI employs a team of solution engineers with more technical expertise to collaborate directly with AEs and be the first point of contact for more in-depth technical discussions. • Advanced Solutions Group (ASG): This group has the agility and expertise to help design, build, test, and deploy hardware, cloud, and software solutions in synchrony with other support teams. They aim to help customers execute their mission and educate end users by getting the right technology to the right people at the right time. These teams are organized into the solution practice groups below: • End-User/UCC • Cloud Design, Adoption, Optimization and Management • Data Center Technologies – Server/Storage/Backup • Networking – Core, Edge, and Transport • Security Solutions • SHI Training: SHI's training team provides on-site, online, or on-demand technical, end-user, and professional development training, complementing our other services seamlessly. We offer the skills and knowledge our customers need to improve their adoption and consumption of technology and increase their return on investment. SHI offers full-service training to meet technology's growing demands. • Software and Hardware Partner Support Organizations: SHI has the largest team of hardware, software, and licensing specialists in the industry. Our award-winning team of licensing specialists has the expertise to manage the varied features of the publisher licensing programs and are available to help customers select licensing programs, execute agreements, and support the agreement lifecycle. SHI also has dedicated teams that support over 100 strategic and emerging technology partners to assist in evaluating hardware features, sourcing, and obtaining demos. Leveraging the expertise of our established, esteemed, and highly certified service and support teams, SHI aims to continue being a trusted advisor to your members. With our proven 'Select, Deploy, Manage' methodology, we pledge to maintain harmonious collaboration with Sourcewell members. We will oversee each project from inception through successful implementation to completion, identifying potential cost savings at every phase of the project lifecycle and continuing our ongoing contract. Professional Services Delivery SHI provides services in one of three ways: 1. SHI Delivered Services – our internal delivery resources are based in NJ and across the country. This team is comprised of over 600 technical experts who collectively hold 3,000 certifications for various products and solutions. 2. Partner Delivered Services – SHI can resell partner services. In this case, we rely on employees of that partner or contractors of that partner. 3. Service Partner Network – SHI maintains an Elite Partner network of service providers across the U.S. and Canada. These partners are vetted and managed carefully by SHI to ensure customer satisfaction and success. Currently, our Elite Network is comprised of 50 partners. Furthermore, we also collaborate with external Service Partners at a customer's request. Often, our customers have established relationships with local partners, and in these cases, SHI will eagerly join with that partner to provide services on contract. Our capability for services is extensive, and with resources across the country and Canada, SHI facilitates services in almost every IT Solution area.

29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	SHI International Corp., SHI Canada, and SHI Government Solutions will be responsible for handling all orders submitted by Sourcewell members. SHI also reserves the right to add additional fulfilment partners upon award of a contract in conjunction with Sourcewell member needs. SHI accepts orders via Purchase Order (PO) submitted via email or fax, phone orders may be placed with credit cards and orders can also be processed through shi.com by shopping directly through the catalog or completing a purchase by having an SHI quote published to your specific account. The web catalog will include all products available under the scope of the contract allowing members to acquire the most current products for their needs. Regardless of the method of submission (email, fax, web), the order is routed to your dedicated Inside Sales Team for validation and the management of the order process. Upon receipt, the Inside Account Manager (IAM) will review the order to ensure it is complete and can be processed. If the order is not valid for any reason, the IAM will contact the customer within 2-4 business hours to request any necessary information. If lower pricing is available, the IAM will inform the customer and pass the lower price on. In a case where a price has increased, SHI will honor the price if the order is placed within 30 days of the original quote. If the quote has expired, SHI will make a best effort to work with the manufacturer to honor the price. Your dedicated sales team will enter all valid orders on the same day they are received. An automatic order confirmation will be generated and sent to the end user listed on the purchase order, as well as any other contacts the customer has designated. We can customize the information on the order acknowledgment email and can include all information required by the customer. Once an order is entered, it is then directed to SHI's Procurement Department for processing. This team is then responsible for placing the order with the appropriate distributor or manufacturer. The orders are sent electronically and confirmed, and all orders are placed within 24 hours of being received. Should there be a change in the delivery time, the Procurement team will notify the sales team immediately. At that point, we will reach out to the end user to discuss options. Should a product not be available at the time of order placement, the Inside Account Manager will reach out to the contact who placed the PO and advise that contact on all the options available. No substitutions will be ordered unless we have express, written authorization to do so by the end user. We have the flexibility to bill upfront, in arrears, or on a payment plan depending on the requirements of each purchase. We will have these discussions before the quote process takes place and confirm again before we enter the purchase order. In this way, we will alleviate incorrect billings. In the rare case that something is incorrectly billed, the customer can reach out to their sales team, and they will work with our Accounting Department to resolve it. SHI can accommodate sending either hard copy invoices, electronic invoices, or both. Summary billing is also available. We will accommodate changes at any time. Invoices will be sent only after the products have been delivered. SHI has also worked with Sourcewell to set up a store on the new Buy Sourcewell online platform with punchout options for your members. This is yet another purchasing avenue for Sourcewell members.	*

30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	SHI provides a comprehensive customer support plan to ensure we are meeting each customer's needs. Customers are supported by a dedicated AE and a dedicated inside sales team. Field territories are structured vertically and geographically. Each AE is supported by a team of IAMs who maintain direct relationships with the customers. SHI's AEs are empowered to make decisions around the support of their customers, and they have the autonomy to resolve issues as they arise. Because our AEs ensure customer satisfaction, SHI can provide high-quality customer service and ensure efficient and effective response to questions and issues. In addition, the SHI regional directors are engaged with the account teams to provide executive-level support and to meet with customers as needed. SHI recognizes that effective communication is the cornerstone of customer service. Our dedicated account teams are committed to fully support their customers with accessible, courteous, responsive, and seamless customer service. Below we outline our standard procedures and response times: • Call answered in a timely manner: Sourcewell's calls are directed to your dedicated IAM. In the case your dedicated IAM is helping another customer, calls are directed to voicemail. If the customer has an urgent request, they can escalate their request to the inside sales team manager or AE for immediate assistance. • Email and voicemail response: All emails and voicemails are answered or returned within two to four business hours. • Quotes Turnaround: Quotes from the customer's standard catalog are fulfilled within eight business hours. For quotes requested for items which are third-party source/weird ware items, the IAMs reply to customer requests within two to four hours, confirming receipt of request and relaying to the customer they are working on their request and notifying them of additional time the request may take because of external factors—such as awaiting vendor response or additional required information from the customer. • Process orders within 24 hours of receipt (unless additional information is required). • Order entry accuracy: SHI accurately enters purchase orders into the system 98 percent of the time based on monthly data. • Provide daily updates on any pending requests. • DOA Devices: If an item is DOA, SHI works with the OEM to provide a working product within the OEM's DOA policies. • Order received to product shipment: The total turnaround from order receipt to shipment for 90 percent of all standard orders is 15 days. Should we expect a delay because of large quantity, complexity, product constraint, etc., SHI communicates the expected timeline with the end user who placed the order and follows up consistently until the product is delivered.	*

31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	Aiming to best support the needs of over 50,000 members, Sourcewell seeks partnerships that deeply understand and are dedicated to serving these diverse groups. Members span various sectors, including state and local government, tribal government, public and private K-12 and Higher Education, public healthcare, and non-profit organizations. Each industry has unique IT needs, requiring an experienced and resourceful solutions provider. With its comprehensive capabilities and dedication, SHI stands ready and eager to serve each of these sectors by providing tailored IT solutions and consistent support. As the incumbent and current partner to Sourcewell and its members, SHI is passionate about this contract and is committed to developing impactful current and future IT solutions for each member. To achieve this, we will deliver the following: • A dedicated Capture and Business Development Manager who focuses on championing this contract internally with our SHI sales teams, joining calls with customers to answer questions about the contract, and connecting resources internally and with Sourcewell as needed. • Knowledgeable staff who have worked with Sourcewell and its members and understand the challenges you face, enabling you to facilitate a better buying vehicle for your members. • A global solutions provider with experience in the public sector who can accommodate a nationwide demand for products and services. • A dedicated partner who can provide consistent, comprehensive solutions, providing high quality, cost effectiveness, and reduction of risk. • A complete catalog of products and services with competitive pricing that supports members no matter where they are in their IT journey. With a dedicated team of sales, technical advisors, and contract specialists available to assist members throughout the nation, SHI is well positioned to be your value-added partner—supporting Sourcewell's vision "to empower community success." SHI is excited about the opportunity to continue working with Sourcewell and your members. Our current contract has been a huge success because of our ability to offer thousands of OEM's and hundreds of different service offerings to your members. Upon award SHI will continue providing the entire breadth of our catalog to your members across the United States.	*
32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	SHI will enthusiastically provide products and services to Sourcewell members in Canada. Our Canadian Public Sector team supports Federal, Provincial, Municipal, Healthcare, Education, Agencies, Boards and Commissions. This sales team is detailed more in response to question number 26. Working with the sales team, we have three in-country field solution engineers – one focuses on UCC, one on Data Center, and the other on Security. SHI currently employs four Microsoft Licensing Executives and one Cisco business development representative dedicated specifically to Canada. Our Canadian team uses partners where possible that are vetted through our services team to ensure they have the requisite capabilities to deliver tangible business outcomes to our customers. Our primary partnership is with Zanaris (https://www.zanaris.com/) and we are also developing a partnership with Jolera (https://www.jolera.com/). Beyond that, we will leverage our internal teams to deliver services like cloud cost optimization, architecture reviews, and rapid server migration. We also have a broad network of Canadian distribution partners from whom we source products including Ingram Canada, TD SYNNEX Canada, D&H Canada Climb Channel Solutions Canada, and Dell Canada Inc.	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	SHI will fully serve and actively promote an awarded contract to all eligible members. With over 250 sales team members supporting across the US, including Hawaii and Alaska, SHI is positioned to serve all geographic areas of Sourcewell's proposed contract. Our mission is to instill a comprehensive understanding of the contract, terms, and conditions among our AEs in every region. This knowledge base will equip them with the ability to provide unparalleled support to Sourcewell members. SHI is poised to provide extensive training to educate your members across all geographic areas of a new contract.	*

34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	We commit to actively marketing and endorsing this contract, ensuring we increase visibility to all Sourcewell members without exception. We will serve all Sourcewell participating entities that our sales teams support.	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	SHI does not have any contract restrictions for members in Hawaii, Alaska, or the US Territories. In fact, we have an Account Executive who lives in Alaska, Marla Thompson, who supports government customers. Pete Kim, who lives in California, is the field government Account Executive for Hawaii. All education customers in Alaska and Hawaii are supported by our Public Sector Inside Account Executives.	*

Table 7: Marketing Plan

Line Item	Question	Response *	

36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	We are thrilled by the opportunity to continue to promote and market our Sourcewell partnership. We know the vital importance of marketing contracts and reaching all eligible Sourcewell members, and we will apply our tangible, demonstrated experience supporting the unique requirements of procurement organizations to marketing and promoting this contract. Throughout our current contract, we have worked diligently to market the Sourcewell contract both internally and externally. The Sourcewell Capture & Business Development Manager, Tory Pubylski, recorded and posted several internal trainings for all sales teams selling on the Sourcewell contract and even recorded a sequence of video trainings with our Supplier Development Administrator in the Sourcewell studios as quick, digestible nuggets telling sales from both the Sourcewell and SHI perspectives how to market and explain the value of the Sourcewell Cooperative contract to customers. These short on-demand trainings covered the who, what, why, and when to break down the talk tracks that are helpful to sales and potential Sourcewell customers alike. Additionally, we had several sales teams attend Sourcewell in-person trainings across the country and our Supplier Development Administrator provided a series of regional webinars with our support to get the right attendees. During the term of the current contract, we also expanded our marketing team devoted to Public Sector. This team, led by our Director of Growth Marketing Programs, Rob Fass, has taken an innovative approach to expanding initiatives that are focused on public sector customers and the real IT obstacles they face. Through purposeful customer-directed emails about solutions specific to our customer base, social media and supporting our customer-facing events, this team is critical to our support of our customers. Our dedicated Contract Capture and Strategy team will join forces with the Public Sector leadership team and our Public Sector Marketing team, to create and execute our marketing plan. Upon award, we will execute the following steps to begin marketing the new contract: • Create contract announcement materials for electronic distribution to customers via email, on SHI.com, and the SHI Resource HUB blog, posts on LinkedIn and other social media. • Create co-branded marketing outlining the features of the new contract. • Design a dedicated website on shi.com including the Sourcewell awarded vendor logo, a copy of contract documents, a summary of products and pricing, marketing materials, a link to Sourcewell's website, and all relevant contact information. (to see the current page visit: https://go.info.shi.com/Sourcewell-Contract-Page.html) • Create internal sales training for new contract compliance, pricing, terms, etc. We will also welcome any opportunity to work with Sourcewell and AASA on advertise at their events or in their newsletters. SHI participates in hundreds of trade shows, conferences, and meetings across the country. Sourcewell has our commitment to participate at specified shows as well as additional opportunities to broadcast and promote our partnership. Specifically, SHI will attend, exhibit, and participate at the NIGP Annual Forum alongside Sourcewell suppliers. We are happy to assist Sourcewell in promoting and marketing this event and look forward to collaborating on a plan that will drive attendance. We also provide seminars and workshops to our public sector customers across the country and are eager to have Sourcewell members attend. Summits - SHI holds technology summits at our corporate headquarters in Somerset, NJ. Our most recent event was the Sustainability Summit. Centering the conversation around sustainability, the event reflected a heightened awareness of the importance of sustainability in the IT landscape and demonstrated SHI's proactive role in driving positive change within the industry. We emphasized how SHI can assist in improving the sustainability of customers' IT operations and how to make IT sustainability a critical part of their supply chain. Sourcewell members are welcome to attend these at no additional charge. Custom Events – The SHI Roadshow series of events was new this last year for SHI! We completed two traveling shows focused on Cybersecurity and Infrastructure in the Spring of 2023 at large event spaces around the country with solution partners and special guest speakers. These events were a roaring success, and we hope to see new headlines for these events again in 2024! We include sample marketing materials as part of the supplemental attachments in the response portal and will remain flexible and open to collaboration with Sourcewell upon an award. We provide more detail on our digital marketing media in response to question 37 below.
37	Describe your use of technology and	The digital age has profoundly changed the way we communicate by making it easier and

	digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	more instantaneous, but it has also created a flood of information which makes it that much more difficult for our customers to find trustworthy news sources for their technology information. So much content vies for our limited attention, between smartphones, messaging apps, email, and social media, we can connect and communicate with others from practically anywhere at any time. SHI provides a haven for customers to find reliable and relevant information about the latest trends, or threats, to their IT through the following digital mediums. Webinar Series Sourcewell and its members can access our regular schedule of webinars and workshops covering a variety of topics relevant to today's public sector customer – from grants and funding to modernizing your network and streamlining multivendor support for IT purchases - our finger is on the pulse of the real challenges facing our customers. Please check out our website for upcoming events and on-demand recordings: https://www.publicsector.shidirect.com/about/events SHI Resource Hub The SHI Resource HUB is home to eBooks and short news articles to keep our customers updated on the latest changes and trends impacting the IT industry. Displaying short news and informational articles, the HUB keeps our customers up to date on our services and support as well as on emerging trends in technology. Written by SHI's subject matter experts (SMEs) who leverage their knowledge and insight to speak to SHI's broad customer base, SHI is committed to keeping our customers informed. Customers can browse by IT category, recent articles, or popular posts. Please visit the SHI HUB website (blog.shi.com) for on-demand articles, eBooks, and podcasts. Social Media In addition to the SHI Resource Hub, SHI is active on social media applications and has dedicated public sector pages to help keep our public sector customers informed. Customers can get up-to-date information on demand by following SHI on X, LinkedIn, Instagram, Advocacy, and YouTube. Upon award of a new contract with Sourcewell, we will create an announcement for LinkedIn for SHI to share with customers and our partner community. We also have podcasts- "We've Got Your Mac" and "Innovation Heroes" are available wherever you listen to podcasts! You can also listen to them by visiting our SHI Resource HUB at blog.shi.com. SHI Sponsorships In addition to our digital marketing via the web and social media directly informing business and IT leaders of the products, services, and solutions we offer, SHI enhances our brand visibility through multi-year partnerships with select college and professional sports associations and brand ambassadors. In the past twelve months, SHI's brand ambassadors and sponsorships alone have generated over thirty billion brand impressions across: • Television and radio • Earned media • Website and e-mailings • Advertising and supporting collateral • Hospitality • Onsite signage Many of these impressions come from SHI's partnership with the Rutgers University Athletic Department. Playing in the NCAA's prestigious (and national) Big Ten conference, the Scarlet Knights football team, and men's and women's lacrosse teams all play in the 52,000-seat SHI Stadium, located five miles from SHI's World Headquarters. With over five hundred of SHI's 2,000 New Jersey-based employees being Rutgers graduates, the alliance between Rutgers and SHI is long-lasting, making this partnership much more than just a marketing sponsorship. As the largest minority woman-owned business in the United States, SHI is proud to be represented by Ladies Professional Golf Association's (LPGA) golfers Allisen Corpuz and Annie Park, and the US Women's National Team/NC Courage Goalkeeper Casey Murphy, who serve as SHI brand ambassadors. All three professional female athletes are also small business owners. SHI's logo appears regularly across the LPGA's digital marketing platforms and onsite event branding and was most visible when Allisen won the first-ever U.S. Women's Open played at Pebble Beach. Allisen's position in the final pairings ensured the SHI logo on her shirt was proudly visible to a live national TV audience for the entire weekend tournament. When she is not busy representing the United States in the World Cup in 2023 (and likely the Paris Summer Olympics in 2024), USWNT goalkeeper Casey Murphy is the face	*

		of SHI's cybersecurity practice. By partnering with Murphy in support of her Casey Murphy Goalkeeper Academies, SHI is able to help Casey inspire young soccer players to take ownership of their own development and build confidence through hands-on instruction from Casey and her crew of teammates and coaches. E-Newsletters SHI creates various informative, monthly newsletters containing information regarding important contract dates, product releases or changes, Q&A, and upcoming events. Thousands of our customers currently receive these newsletters, and we will continue to make them available as a subscription to anyone who is interested. SHI also creates hundreds of marketing texts for our major manufacturer partners and SHI core services offerings, which are shared with customers through in-person meetings, trade shows, and email.	
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	SHI has first-hand experience with the tremendous value that Sourcewell brings to its contract partners. We are thrilled to continue building on our relationship with Sourcewell under a new contract award. We view Sourcewell's role in the promotion of the contract to include: • A dedicated SHI contract landing page on Sourcewell's website. • Continued partnership in creating training for our sales teams. • Regular and open communication with SHI on our performance and ongoings at Sourcewell. • A dedicated Supplier Development Administrator we can contact for questions and assistance. • Collaborative marketing efforts. • Sharing in-person Sourcewell training information so our sales teams can participate. Sourcewell is already a well-known entity within the public sector sales team at SHI. We commit to actively marketing and endorsing this contract, educating our Account Executives on the specifics of this contract with an aim to increase visibility to all Sourcewell members. Our continued concentrated efforts and unparalleled dedication to Sourcewell's will be evident.	*

39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	SHI.com, SHI's procurement platform, provides an efficient and intuitive way to access and procure a customized catalog of products, and its business-to-business functionality includes innovative custom catalog capabilities that provide personalized views of product information, enabling Sourcewell members to find and compare products, to view key metrics (like frequently viewed products and contract or standard items), and to simplify purchasing. With thousands of manufacturers represented, product catalogs are fully customized to reflect contracted pricing available through SHI, as well as special pricing programs for which members are eligible, such as licensing programs or other volume programs. SHI's open architecture systems allow us to integrate with virtually any eCommerce platform through market leaders or a proprietary solution. The most common applications we support include Ariba, Perfect Commerce, PeopleSoft, SAP, and Oracle. In general, SHI supports systems that use cXML (commerce extensible mark-up language), or EDI (electronic data interchange) standards. In addition, we support the following Punch-out types: • Ariba • Basware/Verian ProcureIT • Birchstreet Systems • Coupa / Coupa Advantage • DSSI • ePlus Procure+ • GEP • GHX (Global Healthcare Exchange) • Hubwoo • IDS • IOS Corp • iPayables • Ivanti • Jaggaer (formerly SciQuest) • Lawson • Oracle / Oracle Supplier Network • Payback • PeopleSoft Direct Connect • Perfect Commerce • Periscope • Procurement Partners • Quoteworks • ReactorNet • Remedy • SAP OCI Roundtrip • ServiceNow • SPS Commerce • Supplier Solutions • Transcepta • True Commerce • Tungsten • Unimarket • Valua • WorkDay • Yardi • Zycus Our e-commerce specialists can provide training to Sourcewell members authorized to access their customized site, and we will schedule trainings based on the customer's level of access to the site, collaborating with individual members to determine a program and schedule that works best for their purchasing environment. Some of the most remarkable ways in which governmental and educational customers have used –and benefitted from – our eProcurement system is through our software procurement consulting services, our license tracking and reporting capabilities, and our robust Software Asset Management (SAM) tools. Our tracking abilities relieve our customers of the burden of managing their purchases. We understand that without the processes and checks and balances that we have in place, the opportunity for error in tracking license purchases is tremendous. SHI's license tracking system and workflow are automated to enforce purchasing rules and minimize errors.	*

Table 8: Value-Added Attributes

Line Item	Question	Response *	
40	Describe any product, equipment, maintenance, or operator training	SHI offers training and adoption services, including professional development training, to help our customers maximize the value of their technology investments. Our Training and	

	programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Adoption team takes a holistic training approach, ensuring both IT staff and end users are accounted for. While all steps may not be necessary for each customer scenario, a full training project would typically encompass the following components: • Identify current state and future state requirements with key stakeholders. • Identify change management and communication strategy. • Define the use case. • Identify locations and languages. • Assess gaps and needs for IT and end-users. • Develop scope. • Customize content. • Align training with the deployment schedule. • Launch training pilot. • Live instructor-led training • Power-user training • OnDemand eLearning portal • Application deep dive training • Deskside training support • VIP one-on-one training End-User Training SHI has a multitude of options to meet our customers' training needs. Our certified instructors are enthusiastic about bringing real-world experience to the customer's learning environment. Curriculums may be standard or tailored to the agency, department, or job role to yield a higher return on investment. Customizations can include utilizing the customer's environment, business processes, local language and more. We offer training on-site, online, on-demand, or a blend of these options. Some of our most popular offerings for end-user training are: • M365 • Windows 10/11 • Microsoft Teams • Microsoft Core Apps • WebEx • Google Apps • Security Awareness Technical Training With our manufacturer-certified experts, customers can access dozens of custom on-site, online, and on-demand technical training courses geared toward our customers' organizational programs and software needs. We can support technical training for a variety of manufacturers, which include, but is not limited to: • Amazon • Cisco • Google • Microsoft • VMware • Palo Alto • Meraki • Nutanix • Veeam Professional Development for Business In today's competitive environment for hiring and maintaining quality employees, comprehensive and sound professional development is a necessity. SHI offers dozens of on-site, online, and on-demand professional development classes help employees grow and perform at their best. Topics include, but are not limited to: • Business Analysis • Communication • Leadership • Project Management • Agile • ITIL Professional Development for Educators SHI offers Professional Development for Educators. Our professional learning teams offer trainings on-site, online or on-demand through a subscription model on topics that include, but are not limited to: • Software training for IT staff, faculty, and staff • Hybrid teaching methods • Blended learning • STEM • STEAM • Esports • Pedagogy • SEL (Social and Emotional Learning) • Accelerated Learning Recovery • DEI (Diversity, Equity, and Inclusion)	*	

		• First-Year Teacher Bundle Custom eLearning Development SHI works with customers to develop custom, powerful, engaging, learner-focused eLearning courses and curriculum that meet training goals and deliver measurable results. Our custom development includes, but is not limited to: • Standard eLearning course(s) • An entire eLearning curriculum • Micro Learning • Gamified eLearning Please feel free to explore more details and options at https://www.shi.com/solutions/training	
41	Describe any technological advances that your proposed products or services offer.	Our team of experts offer various technological services that can help enhance and advance the use of technology for members. This could range from optimizing existing systems to implementing new, advanced technologies, providing consulting services, or even offering training programs like security awareness training. Articulated below are just a few offerings: Customer Innovation Center (CIC) SHI helps with the technical evaluation of products to empower you to make the best choices and scope each project appropriately. Evaluation may include full proof of concepts or simply obtaining evaluation units. You can test and compare IT solutions in our Customer Innovation Center (CIC) before committing to an investment. The CIC is staffed with trained team members and technical professionals who are experts on both products and solutions. As technology advances and changes, the technologies in the SHI CIC follow, ensuring that we always have the products and relevant technologies that our customers are interested in. The CIC can provide on-demand and remote access to the kinds of technical advisory and real-world wisdom that you are looking for. Our goal is to help you identify, adopt, and implement the right technology investments quickly, with lower costs and risks. Now you can experience everything the CIC has to offer from wherever you are by virtue of an interactive virtual tour! How to use the Virtual Tour: Click here for a quick tutorial about the tools and features of the virtual tour so you can get the most from your experience. SHI Complete The SHI Complete service provides customers with a turnkey solution for modernizing their IT Infrastructure, enabling a remote workforce, enforcing security best practices, and leveraging SHI's Managed Service capabilities to centralize IT Service and Support. SHI Complete can ensure you have the right IT operating model and a strong governance plan around security, services, and management that is structured to meet your business goals. Combining a curated stack of integrated technologies across device management, security, networking, collaboration, and cloud platforms, SHI Complete helps customers establish a secure, resilient, and scalable IT foundation. Onboarding Service SHI Complete employs a personalized approach with respect to managed services to ensure our customers obtain the solution that best fits their business needs and primes them for growth in a Cloud First technology ecosystem. The onboarding services component of our solution includes: • Assessment of the customer IT ecosystem and IT business objectives. • Site Surveys of physical locations, network mapping, and application use cases, as needed. • Creation of a Zero Touch device deployment capability. • Development of the IT modernization strategy and customer onboarding plan. • Design of the Managed Network Services and cloud environments on client premises. When onboarding is complete, SHI's technical account managers, project managers, and certified engineers use this plan to implement and migrate customers to the new SHI Complete managed IT environment with ongoing support and knowledge transfer throughout the processes and procedures. Managed Services Managed services are the foundation of the SHI Complete solution. Customer subscription to the SHI Complete service provides many benefits that are core to the customer's success, including: • Designated technical account manager assigned to your organization. • Access to our SHI One customer portal for reporting and service requests. • Net payment terms provided (upon credit approval) through SHI. • IT service desk support for users and devices. • Client user onboarding/offboarding and IT asset reclamation. • Cloud application management and support.	*

		• On-site and cloud network service management. • Security management and best practices. • Access to a wide array of optional fee-based public cloud professionals and managed services. • Escalations to SHI subject matter experts (SMEs) through SHI's world-class service desk support team. SHI will collect and track feedback from customers during regularly scheduled meetings as well as through end-user feedback. Taking this information, SHI will make modifications to its contracted services where possible to further improve service quality over the life of the contract. SHI One Management Platform The SHI One Management Platform is a portal for customers to manage both cloud and IT services purchased through SHI. Customers have a centralized place to track and manage their public clouds, allowing them to spend less time struggling with reports, management, and support and more time on strategic initiatives to drive their business forward. With this portal, customers can manage their cloud platforms (Azure, AWS, GCP). They can easily view the state of their IT landscape and streamline their cloud environment management. Customers have access to support cloud cost, usage, billing, invoicing, and consumption of support cloud accounts. Leading Industry Technologies SHI maintains an ongoing dialogue with industry authorities such as Gartner and IDC through quarterly meetings, ensuring we stay current on the latest and best technologies. We have established strong partnerships with each OEM, allowing us to introduce new products as soon as they become available. This gives members the unique opportunity to pre-order new products yet to be released through SHI, ensuring they receive them as soon as they hit the market. Our devoted solutions team and product specialists stay up to date with the latest technologies and will promptly notify members about the newest products available. The expertise of SHI's OEM support teams, technical resources, and strong relationships with manufacturers are leveraged to guide members as they explore emerging technologies and innovative new solutions.	

42	Describe any “green” initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	SHI is dedicated to environmental sustainability and recognizes its role in affecting the environment. We continually strive to minimize any negative impact from our operations while ensuring the safety and well-being of our staff. Our business strategy heavily emphasizes environmental preservation and the promotion of a sustainable future. By implementing eco-friendly initiatives, both internally and with our partners, we aim to reduce yearly technology waste and contribute more significantly to a greener planet. In 2023, we pledged to the Science Based Targets initiative (SBTi) to reach our corporate Net Zero Emission goal by 2050. At SHI, we believe that sustainable operations and exceptional customer service are intrinsically linked. Through close collaboration with our partners, we strive to excel in both areas. We work with our partners to create and implement environmentally responsible solutions. As a prominent player in the IT industry, we actively participate in partner programs and initiatives, providing input and helping shape future sustainability strategies to guide the industry towards more responsible practices. This cooperative approach guarantees that we focus on not only our own growth but also the success of our partners. Through these efforts, SHI assists our customers' Environmental Social Governance (ESG) initiatives by aligning with sustainable solutions such as IT asset disposition (asset recovery and disposal, E-waste recycling, hardware redeployment and remarketing), IT asset management, green financing, and using cloud and data center solutions to lessen carbon emissions from physical IT infrastructure. SHI is committed to sustainability at corporate, cultural, and policy levels and holds itself accountable for being initiative-taking and solution-oriented to promote sustainable long-term growth. By setting and implementing global environmental policies, management systems, and key performance metrics, SHI consistently integrates and promotes environmental stewardship across its global business groups, ensuring consistency and innovative environmental thinking. Our commitments include: • Setting targets and action plans to support our United Nations Global Compact (SDG 13 Climate Action) and SBTi commitment, and continually refining our practices. • Preferring partners who have implemented sustainable and ethical practices within their organizations and influence such practices in their supply chains. • Enhancing our sustainable procurement team's support, which concentrates on supporting diverse and minority suppliers. SHI seeks to be energy efficient utilizing these methods: • Monitor power consumption. • Disclose to the Carbon Disclosure Project (CDP) and EcoVadis annually. • Utilizing advanced energy-saving systems such as: o High-efficiency HVAC equipment o Energy Star equipment/appliances o Energy recovery from building relief/exhaust air, demand control ventilation sequences for energy savings on ventilation (Austin). o Automatic lighting controls and LED lighting throughout (Austin). o Occupancy sensor control of lighting fixtures. o Water-efficient and low-flow plumbing. o Solar panels and electric vehicle charging stations. • SHI has EV charging stations located at our global headquarters, Ridge Integration Center in New Jersey, and our Austin Regional Headquarters in Texas • LEED Gold Certified • Austin Regional Headquarters – Building Design and Construction (2021) • Global Headquarters - Commercial Interiors (2013) To support our goals and reduce power consumption, SHI made significant green investments in our facilities by installing solar panels. Today, over 7,000 solar panels are installed at four SHI-owned facilities, including our global headquarters and Integration Center in New Jersey, and our Austin Regional Headquarters in Texas. The addition of solar panels has helped SHI avoid 5,287,000 pounds of carbon dioxide since the system's installation and avoided 13,771 lb. of sulfur dioxide and 5,425 lb. of nitrogen dioxide since installation. With sustainability and ESG at the forefront of current initiatives, we hosted the SHI Sustainability Summit event this summer at our headquarters location in NJ. The event reflected a heightened awareness of the importance of sustainability in the IT landscape and demonstrated SHI's forward-looking role in driving positive change within the industry. We emphasized how SHI can assist in improving the sustainability of customers' IT operations and how to make IT sustainability a critical part of their supply chain.	*
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	As a reseller, SHI does not receive labels specifically for products; however SHI will be happy to work with Sourcewell and product manufacturers to identify any specific eco-labels on products Sourcewell members wish to purchase.	*

44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	We are the largest privately Minority/Woman Owned Business Enterprise (MWBE) in the U.S. and our certification as an MWBE offers a critical value-add to customers whose strategic business objectives include supplier diversity and development. In addition, SHI's Diversity Business Development Initiative builds and sustains a community of diverse suppliers and partners who best serve the needs of our customers. As a large MWBE, we continue to grow an effective Direct and Indirect Tier II program by accessing our Diversity Vendor database and using certified minority vendors in all diversity categories which includes, MBE, WBE, M/WBE, LGBT, SBE, SDB, HUBZONE, DVBE, VBE, and WOSB. SHI also maintains its internal supplier diversity program and seeks to engage MBE and WBE suppliers to meet product requirements and operational needs. SHI Certifications WBE • WBENC MBE • NMSDC - Corporate Plus Member • NMBC - National Minority Business Council • CAMSC (Canada) MWBE • Supplier Clearing House (California Public Utilities Commission) SHI also has MWBE certifications with the following state governments: • Delaware • Massachusetts • Missouri • New Jersey • New York City • North Carolina (HUB) • City of Philadelphia (PA) • Prince George County (MD) • Tennessee • Virginia (SWaM) • Wisconsin SHI Government Solutions • State of Texas Certified HUB Vendor
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	We understand that Sourcewell needs to identify a trusted partner based on how that partner's capabilities can best support your participating entities' IT needs. We believe we are uniquely qualified to continue supporting Sourcewell and its members due to several key factors: our standing history with supporting this contract, our breadth of offerings, and our ability to evolve with the ever-changing technology market. Our dedication to this contract sets us apart from our competitors. Victoria Pubylski, Sourcewell's dedicated Capture and Business Development Manager, has worked tirelessly alongside our Capture and Strategy team to support Sourcewell and its members. They are experts at supporting contracts, and have trained our Account Executives on this contract, proactively managed our Sourcewell relationship, and have grown this contract continuously year over year since our award in 2019. We have had tremendous success growing the value of our first awarded contract. We will continue our commitment to expanding the use of this contract and supporting Sourcewell members with the latest technology, cost savings, technical expertise, and compliant procurement. Complete IT Solutions Our ability to offer customers a tremendous range of options in choosing software, hardware, and other products is one of our greatest strengths. Our diverse partner ecosystem of 15,000+ unique publishers and manufacturers gives us a vendor-neutral approach to help customers find the right technology solution. We provide custom technology solutions for every aspect of your members' IT environment: from software and hardware procurement to deployment planning, configuration, data center optimization, mobility services, IT asset management, and training. We also offer next-generation cloud solutions to help customers accelerate to the cloud in the fastest, most secure, reliable, and cost-effective ways possible. Compared to our competitors, we also have the distinct ability to onboard boutique vendors for end-user longtail products. Many of our competitors are only able to onboard certain, larger partners, whereas SHI can bring on smaller vendors that are uniquely qualified to meet the individual needs of our customers. We also offer a wide range of services and support directly or by leveraging our elite partner network's expertise. SHI seeks to build valued relationships with your members; aligning our focus with your mission and deliver innovative solutions that empower community success. Value Add Services SHI offers a wide range of value-added services to help our customers get the most value

out of their software spend. Many of these services are available to our customers at no cost, and for customers who wish to take advantage of enhanced service levels, we do offer fee-based services as well. Due to our breadth of service offerings, and our desire to evolve along with our customers' changing needs, this is not a comprehensive list, but rather a snapshot of available value-added services.

Software Expertise and Advice
Customers have a dedicated, experienced account team with access to a broad range of resources. We provide expertise and advice to help them make the right decisions to save money and achieve the best value for their software spend.

Technical Advisement
Customers can depend on a vendor-neutral approach to help them find the right technology and then access a tremendous range in choosing the ideal products and services for their unique needs.

Pre-Sales Licensing Support
Customers have SHI software licensing team support for their licensing needs. Pre-sales support helps ensure customers maximize the benefits of their volume license agreements. Throughout the contract term, we partner with our customers to track licenses, provide detailed reporting, and proactively assist with budgets, renewals, and compliance. We leverage the reporting and our PRO Renewal tool to help customers gain insights into their software purchases.

Contract Education
Software options can be complex and overwhelming, and available products and buying alternatives change frequently. SHI offers initial and ongoing training and communications to help customers use the contract effectively and make smart choices for their software spend. *

Negotiation Assistance
SHI's top-tier status with our publisher partners gives us a strong voice in the industry, and our extensive experience gives us keen insight into the range of available software options for customers across the country. We leverage these strengths to help our customers negotiate favorable pricing and terms.

Fine Print
SHI Fine Print is a contract management and indexing system that allows our customers to review a set of publicly available EULAs on our website. Fine Print organizes agreements by separating contract text into standardized clause types, identifies which terms apply to various products and use cases, and then organizes the data into an easy-to-find format.

Software Solutions Services
Our Solutions team helps customers identify the right software tools and technology, and then (if desired) executes the implementation of in-scope services to help accelerate their time to productivity and value. Depending on the scope of the implementation there may be fee-based services involved.

ITAM Services
To help customers manage the complex task of finding, tracking, and managing the hardware and software across their IT environment, SHI offers a range of highly cost-effective IT asset management services to help you weed out unwanted costs, while also improving utilization and governance. Depending on the scope of the implementation there may be fee-based services involved.

Training Services
Adoption of new technology does not happen automatically. There is a people component to change. SHI offers a range of customizable technical, end-user, and professional development training resources to equip users with the skills and information they need to drive increased adoption and employee satisfaction. Depending on the scope of the program, there may be fee-based services involved.

Financial Stability
As a privately owned company with zero debt, we continue to reinvest in ourselves year after year to innovate new and improved client solutions for tomorrow's IT challenges. SHI continues to invest in new infrastructure, most recently with a state-of-the-art data center integration center. As the technology market continues to evolve, we can evolve our capabilities and resources right alongside it.

We have also made significant investments in hiring more resources—the people with whom Sourcewell and its members engage. SHI Account Executives (AEs) support their clients locally from over thirty offices throughout the U.S. and Canada, and our AEs work and live in the communities they serve, fostering long-term, mutually beneficial relationships with customers and partners every single day.

Our financial strength and stability are predicated on our staunch affiliations within our

		communities—our relationships with customers, partners, OEMs, and our own SHI colleagues. SHI's Strengths and Stability: • Agile and adaptive business management • Diverse, predictable revenue sources • Strong customer and vendor partnerships • Steady industry growth • Thirty-three consecutive years of growth • No long-term bank debt • Exemplary financials, low overhead structure SHI is uniquely qualified to support Sourcewell's mission to build valued relationships and innovative solutions with integrity and to exceed the expectations of its members. In fact, we share a similar vision and mission and strive with purpose and determination to provide exceptional value and experience as we help customers select, deploy, and manage their technology.	

Table 9A: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
46	Do your warranties cover all products, parts, and labor?	SHI offers all available original manufacturer warranties. The OEM covers all hardware, parts, labor, and accidental damage. In addition to OEM warranties, SHI, offers third-party warranty services plans for most OEMs on a limited, approved basis. These warranty services plans cover all hardware, parts, labor, accidental damage protection and power surge for end user-related devices. For post-warranty data center related devices, third-party warranty services cover all hardware, parts, labor, and onsite travel expenses. Third-Party Disclaimer – By including the third-party warranty service contract, SHI, is only acting only as an authorized reseller in the third-party's provider route to market for its warranty service contracts. Customers will receive contracts that provided by the third-party provider, not SHI. The warranty service contracts will be entered into directly and only between the customer and third-party provider, and SHI will not be a party to those contracts.	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	SHI offers all available original manufacturer warranties. Some OEM warranties will limit the number of claims, charge a deductible or limit coverage. SHI can provide additional detail on specific manufacturers as needed. Third-Party warranty services offer unlimited claims (during the contract term), no deductibles or hidden fees, and accidental damage protection against drops, spills, etc. Water submersion is not supported. These apply to end-user related devices. For post warranty data center hardware maintenance support, all hardware, parts, labor, and travel expenses are covered.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	For OEM warranties, this will vary based on the warranty purchased and SHI can provide these details with specific OEM's. Third-Party warranty services offer various levels of service. If onsite repair is selected, this service covers all expenses.	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	The standard OEM warranty would still apply to purchases made in Canada. If a customer has a warranty question on specific products SHI will help connect them to the OEM. Third-party warranty services for end-user devices are only supported within the US. Post-warranty services for data center related devices are supported globally.	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Typically warranty services from an OEM will not cover items from other manufacturers. Third-party warranty services are vendor agnostic and support most Tier 1 OEMs.	*

51	What are your proposed exchange and return programs and policies?	SHI's return policy is customer-centered—we will always do our best to accommodate returns for any unopened box up to 30 days after receipt. Rarely, a customer might receive an incorrect, damaged, or non-working (DOA) product; if a product issue occurs, SHI accepts return of that product within 30 days, with no restocking fees, regardless of the package being opened. After 30 days of receipt, SHI will still make a best-faith effort to accommodate a return. Occasionally, the product manufacturer has a "no returns" policy; in these cases, we notify customers at the time of quote to ensure transparency and confidence in purchase. In these specific instances, SHI is unable to accommodate returns. Our return process is simple: To request a return, first contact your dedicated sales team, via email, phone, or through the "Request Return Authorization Number" section on the SHI.com website. Your Inside Account Manager will then provide you with a return authorization (RMA) number, along with a shipping label. With the RMA number clearly included on the shipping label, the customer ships their return to SHI, and we process the return. In certain cases, to expedite a return, SHI will have the return product picked up directly. Once the return has been fully processed, SHI will credit the customer's invoice. In addition, we send out replacement orders prior to receiving returns to expedite the process for the customer. Occasionally, software publishers may require a customer to fill out a Letter of Destruction. In these cases, SHI provides a letter to customer, who signs and returns it to us. To help simplify and expedite the process, SHI takes care of the rest—processing the Letter of Destruction directly with the software publisher. At any point, if customers encounter issues with their products, the SHI account team is accessible and eager to help. More information and details about SHI's Return policy can be found at https://www.shi.com/Terms/Return-Policy.	*

52	Describe any service contract options for the items included in your proposal.	SHI will pass on any included Manufacturer warranties at the time of purchase. In addition, we will educate the end-user on all available extended warranty, maintenance, and service programs at the time of quote. Should the customer have the need to use the warranty SHI can facilitate the interaction between the customer and the OEM. We will gladly provide any contact information or assist in escalating with the OEM when necessary. In addition, SHI can provide third-party warranty options outside of what is available from the original manufacturer for a separate fee. We offer several options to support original manufacturer warranties. These standard warranties typically offer limited, short-term coverage and can result in unexpected downtime and expensive repairs. Third-party enterprise warranty services will extend the life of members' technology investments and keep their systems – and their business – running at peak performance. The benefits of Third-Party Enterprise Warranties include: • Coverage up to 5 years for net new end-user devices. • 24/7 technical support for post-warranty data center devices. • U.S.-based call center • Global support capabilities, data center related devices only. • 100% coverage for commercial use, parts, labor, and accidental damage; unlimited claims (during contract). • $0 deductible. In addition, SHI third-party warranty services provide comprehensive, flexible coverage for Product Protection that goes beyond a manufacturer's limited warranty and that provides: • 100% coverage on parts and labor, normal wear and tear, and power surges. • "No Lemon" guarantee. • Replacement for products that are beyond repair. • No deductibles, hidden fees, or surprise charges. • Commercial use & Vendor Agnostic. Members' Third-Party Coverage can begin on the date of purchase or after the manufacturer warranty expires, and coverage is not affected by what the limited manufacturer warranty offers. Third-party warranty services alleviate multi-year budgeting constraints and deliver service when and where members need it! Included in Product Protection Services in basic triage and remote diagnosis, 24-hour advanced exchange, depot service, and three-way shipping. As an additional benefit, third-party warranties protect against accidental damage, including drops, spills, and cracked screens. Finally, Third-party offers post-warranty and maintenance agreements for products that are still viable and in use! If members maintain equipment under a warranty that is about to expire - or already has expired – third-party post-warranty and maintenance agreements keep them covered. Third-party dedicated field engineers serve as an extension of the IT organization and deliver dependable, efficient, and customizable hardware maintenance support. Our program can consolidate multiple vendor agreements, and equipment can be added or removed from coverage at any time. We provide affordability and reliable alternatives to manufacturer maintenance agreements, and flexible contracting provides 40-60% cost-savings from OEMs to a member's organization for post-warranty data center devices. Our service provider's Level III engineering teams—hired directly from OEMs and averaging over 15 years of experience—have helped us earn extraordinary trust with our customers and are available in every major metropolitan area throughout North America. In collaboration with our partner network, SHI can access over 50 service locations and 110 global stocking locations to support members' needs, no matter where the equipment is located.	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
53	Describe any performance standards or guarantees that apply to your services	SHI provides comprehensive customer support when planning service engagements to ensure we meet each customer's needs. Given the variety of services SHI performs, different types of services may align with specific standards relating to the technology and requirements of the project. Where ISO or NIST guidelines are established, SHI will perform services in a manner that is compliant with or follows those protocols. As an example of one type of engagement, we have provided the standard guidelines followed for Quality Control (QC) by our warehouse integration center. When beginning an integration services project, we use templates to start the development of the workflow based upon information provided by the customer's onboarding information. These workflow templates are dynamic, and adjustments are made during the proof of concept, or first article build phase. The system engineers handle the technical aspect of the testing during the customer's first articles to ensure scripted processes and applications are functional. They then create an essential checklist of items to check for during the production phase. Next, the system quality control (QC) team performs in-depth testing of the process itself and creates detailed process documentation. The device is then physically shipped to the customer's location for in-person verification, or remote access to the device is provided for verification. Once the project is in production, SHI monitors and adjusts the project to scale as needed. Examples of how we've previously resolved issues include increased staffing, adding hardware resources, or reducing the total number of devices configured at one time. Work instructions start with our QC team working with the customer, internal project coordinators, system engineers, and technicians to develop thorough documentation that adheres to ISO 9001 standards. Documentation is stored on a private SharePoint document library with version control. If change and complexity management is needed, project coordinators at our facility work with sales teams, system engineers, QC teams, and technicians to address any changes. If the complexity goes beyond the expertise of these teams, other groups are engaged, both within SHI and third parties, as needed. The quality control process and tools vary by customer requirements, but in general, logs are collected from devices during the build process and stored on our servers. A scripted process to contain specific information from the devices can be developed if additional details are required. In addition, the QC team gathers requirements to create checklists or other methods of verification.	*
54	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	SHI is committed to achieving excellence by providing our customers with superior world class customer support and innovative solutions. Finding the right balance for setting customer service goals is integral to improving the customer experience. As the primary point of contact for their customers, it is even more important that SHI's AEs are representatives suitably motivated by the right goals. As our mission statement says, "We are passionate about delivering exceptional value and experience as we help customers select, deploy and manage technology." As a value-added reseller, our AEs are measured, incentivized, and evaluated commensurate to organizational and performance KPIs). These performance KPIs are closely aligned to customer success. Objectives such as revenue growth, resources used, certifications earned, customer engagement, and customer review are all primary objectives of SHI's KPI/metrics structure. SHI communicates to our teams that the success of every account manager is holistically customer centric.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	

55	Describe your payment terms and accepted payment methods.	Our payment terms are Net 30 and we will accept Purchase Orders or credit cards.	*
56	Describe any leasing or financing options available for use by educational or governmental entities.	Purchasing new hardware or software can be an expensive investment for even the most profitable organization. However, purchasing is not the only option: leasing and financing with SHI can be an excellent alternative to buying IT products. The leasing/financing process is relatively simple. Our pricing models include monthly, quarterly, or annual terms, and once all documents are approved and signed, SHI ships products directly to the customer. SHI's financial offerings include traditional and non-standard options for hardware leasing and software financing. Hardware Leasing SHI offers a traditional $1 buyout purchase option, and fair market value leases for hardware. We also offer a rental option. Other options include: • Return the equipment and start a new lease. • Extend the term of the lease. • Buyout the equipment for its fair market value. o Clients that do not want to have lease language in the contract or have the option to own the equipment use this structure. • $1 buyout, lessee owns equipment at the end of the term. • Fair market value leases have three end-of-term options. • Rental - Return the equipment at the end of the term or extend the term of the rental. The benefits to leasing hardware with SHI include: • Covers all equipment costs—no need to obtain additional financing elsewhere. • Frees up cash income-producing investments. • Sets fixed lease payments that are not subject to interest rate fluctuations. • Avoids technology obsolescence. • Reduces risks, as add-ons and replacements are fast and easy. • Reduces paperwork since the lessor handles all the invoices. • Reduces warranty and maintenance costs. • Matches the expense to the benefit. • Eliminates customer's need to plan for equipment disposal. • Simplifies budgeting with predictable payments. Software Financing SHI has a loan capability called an Installment Payment Agreement (IPA) which is available for transactions that are 100% soft cost. This option provides ownership at the end of the term for transactions that are software and services based. Non-Standard Options SHI offers non-standard leasing options such as 90-day deferrals and step up or down payment structures. SHI engages in discussions with your organization and works in good faith to accommodate non-standard terms or payment frequency.	*
57	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	SHI provides milestone notifications such as order confirmations, shipping notifications, and products on backorder. Quotes The specific details included in an SHI quote may vary depending on the products or services being offered, but generally the following information is included: • Quote Number: A unique identifier for the quote. • Customer Information: Details about the customer, including name, address, contact information, and the customer's SHI account number. • Product/Service Description: Detailed information about each product or service included in the quote. This could include product names, part numbers, descriptions, and quantities. • Pricing Information: The cost of each product or service and the total cost. This may also include details about any discounts or special pricing arrangements. • The Sourcewell contract number and member or participant ID number. • Terms and Conditions: Details about the terms and conditions of the sale, including payment terms, delivery timelines, warranties,	

and any other relevant information.
• Contact Information: The SHI sales representative's contact information in case the customer has any questions or needs further information.

Please note that this is a general guideline, and the specifics may vary based on the nature of the product or service being quoted.

Order Acknowledgements
The order acknowledgment provides the customer with confirmation that their order has been received and/or also processed.

During order entry, your Inside Account Manager can enter an email address for a representative(s) within the member entity who should receive order confirmation, up to an unlimited number. Within one hour of processing the order, SHI's servers will automatically send the order confirmation to the email addresses provided. Upon the customer's request, and with Publisher permission, SHI can include the License Key information for software installation on the Order Confirmation.

Advance Ship Notifications
SHI can send the purchaser an Advanced Shipment Notification email with tracking information. These notifications can be customized for a customer upon request.

Tracking Confirmation Notification
SHI's order management system is a complete order tracking and maintenance system. All the information your Inside Account Manager needs to provide the customer with tracking information resides on their desktops. Each day, SHI receives the tracking numbers for all products shipped from our distributors via EDI. These tracking numbers feed into the SHI Sales Orders and are ready for immediate access by your Inside Account Manager. In addition, SHI provides this tracking information to our customers through Your Home at SHI. Authorized customer employees can log onto our website to check order status and tracking data directly from the carriers.

SHI maintains all purchase history data in our order entry system. We can re-send tracking, license confirmations, invoices, or a sell-through report history to provide proof of purchase for a customer. In the event of a request to resend a license confirmation, a duplicate copy may be provided within four business hours of the customer's request.

Backorder Reports
Your Inside Account Managers (IAMs) are responsible for managing and monitoring your purchases and backorders. At the time of order placement, the IAM will check inventory and notify the customer if it is unavailable, with an ETA for the item to be back in stock. Your SHI Account Team will run a weekly backorder report to monitor the order status. The team will work with the Sourcing Specialist in Purchasing to check inventory through all sources to expedite shipment to the customer.

As the backorder status changes, the IAM will provide updates to the customer about the ETA. At any time before shipment, the customer has the option to leave the product on backorder, substitute a different product, or cancel the order with SHI. These reports can be customized upon request by a customer. No substitutions are shipped without prior written authorization from the customer.

EULA or SLA Documents
An End User License Agreement (EULA) is a legal contract between a software developer or vendor and the software user. This agreement lays out the rights and restrictions that apply to the use of the software and is agreed upon by the customer or end-user directly with the software publisher. *

Key elements of a EULA often include:
• License Grant: This specifies that the software is being licensed, not sold, to the user, meaning the user has the right to use the software but does not own it.
• Restrictions on Use: The EULA may limit how the user can

use the software. For instance, it may prohibit the user from modifying the software, using it for commercial purposes without a license, or sharing it with others.
- Intellectual Property Rights: The agreement usually states that the software developer or vendor retains all intellectual property rights in the software.
- Warranty and Liability: The EULA typically includes disclaimers of warranties, limitations on the developer's liability, and what happens if the software fails to perform as expected.
- Termination: This section explains under what circumstances the agreement can be terminated, and what happens when the license is terminated.
- Privacy Policy: The agreement may include information about how the software collects, uses, and protects the user's data.

The EULA is typically presented to the user for acceptance during the installation process of the software, and the use of the software is contingent on the user accepting the terms of the EULA.

A Service Level Agreement (SLA) is a contract between a service provider and a customer that specifies, in measurable terms, what services the provider will furnish. While the specifics can vary greatly, a typical SLA includes the following components:
- Scope of Services: This details the services to be provided, how they will be delivered, and the schedule for delivery.
- Performance Metrics: These are measurable aspects of the service such as response time, uptime, throughput, etc. They serve as standards against which service performance can be evaluated.
- Monitoring and Reporting: The SLA will detail how performance will be monitored, how often, and the type of reports that will be provided to the customer.
- Problem Management: This includes how issues will be handled, the expected response and resolution times, and the communication process for informing the customer about issues and their resolution.
- Responsibilities: The SLA should clearly define the responsibilities of both the service provider and the customer. This can include prerequisites the customer must meet for services to be effectively delivered.
- Penalties and Remedies: The agreement will specify what happens if the service levels are not achieved. This often includes financial penalties or service credits.
- Confidentiality and Security: This section outlines how the provider will protect the customer's data and ensure privacy.
- Termination Terms: This includes under what conditions the contract can be terminated, and what the process will be.

The specifics of an SLA will depend on the nature of the services being provided, the customer's requirements, and the service provider's capabilities.

Statements of Work
A Statement of Work (SOW) is a document that defines the scope and specifics of a project. It provides detailed information about the expectations, deliverables, and timelines for a specific engagement. Here are the key components typically included in a SOW:
- Project Overview: This provides a general summary of the project, its purpose, and objectives.
- Scope of Work: This outlines the specific tasks or services to be performed, often broken down into phases or milestones.
- Deliverables: This section lists the tangible outputs to be produced by the project, such as a completed piece of work, a report, or a physical product.
- Timeframe: The SOW will specify the start and end dates of the project, along with any important deadlines or milestones along the way.
- Standards and Criteria: This section describes the quality standards or benchmarks that the work should meet.
- Payment Terms: This includes details about the project's budget, payment schedules, and any relevant terms and conditions.
- Resources: This section provides information about any resources or materials that will be needed to complete the project.
- Responsibilities: This outlines the roles and responsibilities of all parties involved in the project.
- Assumptions and Constraints: This area describes any assumptions made during the planning phase and any constraints

		that could limit the project's execution. • Terms and Conditions: This includes any legal terms and conditions related to the project. We have provided samples of these documents in the attachments. Please note that EULA documents are provided directly by a software or cloud publisher and SLA agreements are provided directly by a manufacturer or partner providing services.	
58	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, SHI can accept Visa, Mastercard, and American Express. There is an additional fee to use a credit card.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
59	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Full Catalog Pricing SHI is pleased to offer Sourcewell and its member agencies a discount off SHI Advertised List Price (AP) by product category. Please reference the pricing sheet attached to this response for the product groups and associated discounts off SHI Advertised List Price, which SHI is proposing. SHI Advertised List Price is a verifiable source, referenced 24/7/365 at SHI.com. In many cases, SHI Advertised List Price already reflects a substantial discount off Manufacturer Published List prices, where a list price exists. The customer unit price shown is prior to any special shipping charges or credit card fees as those will be calculated at the time of order. Most products ship FOB destination or are delivered electronically without additional fees but where special freight is requested that will be calculated separately. Given the breadth of manufacturers and products that SHI offers, opportunities for SHI to secure additional discounts for eligible contract users are plentiful. We work to provide your contract users with the most advantageous pricing available, and we go above and beyond the minimum discounts offered whenever possible. SHI is pleased to offer a complete electronic catalog for Sourcewell and its member agencies. Professional Services In addition to product pricing, we provide professional technology services that can be priced via a Statement of Work (SOW) scoped specifically to the customer's requirements. These can be structured as hourly rate services or at a fixed price. SHI will work with the Sourcewell member to define the detailed scope of work, including the deliverables, timeline, expectations, and milestones payments. We establish rates for services on individual SOWs, with SHI project management fees added as applicable to ensure project success. Hourly Rate Services Hourly rates are established for various roles (e.g. project manager, business analyst, developer, etc.). These rates reflect the skill level and experience required to perform the work. Our professional services experts or partners will estimate the number of hours and skill levels of resources needed to complete the scope, factoring in time for meetings, planning, documentation, testing, rework, etc. Out-of-pocket expenses may also be charged to the member separately (e.g. travel costs). We generally establish our Service Rates on a per-service basis, determined collaboratively with customers based upon their needs, and - when relevant - with Service Partners. Fixed Price Services Fixed price means the total cost for the project is agreed upon upfront and does not change based on effort or time required. This provides cost predictability for the member and is scoped with the same factors that are considered for hourly rate services including	

		the expected timeline, scope, resources required, testing, etc., and outlines the payment schedule based on expected deliverables throughout the project. Pricing for professional technology services for a scope of work typically involves several factors: 1. Scope of Work: The scope of the project, i.e., what tasks are to be performed, the complexity of the work, the technologies involved, and the deliverables expected. This will determine the amount of time, resources, and expertise required. 2. Time and Effort: An estimate of how long the project will take and the amount of work that is involved. This could be based on the number of hours or days, the number of people required, or the number of tasks to be completed. 3. Expertise Required: The level of expertise needed to perform the work will also affect the price. More complex tasks that require highly skilled professionals will be more expensive than simpler tasks that can be performed by less experienced personnel. 4. Overhead Costs: Any overhead costs such as utilities, rent, equipment, and software licenses that the service provider incurs are also factored into the price. 5. Price and Milestone Payments: Considering all factors for the project, the vendor will include the full cost (fixed price) or estimated price (hourly rate or Time & Materials) of the project and determine the milestone payment schedule. Milestones are determined by the completion of key project stages, tasks or deliverables custom to the engagement, which are completed by the vendor and accepted by the customer, at which time the customer will pay a portion of the fees for the project until the project is completed, and the final payment is made. It is important to note that any changes to the scope of work after signing or project start may result in additional costs and will be executed only after an agreed upon change order form is signed. Cost Savings SHI understands how important it is for our customers to achieve cost savings. We pride ourselves on being honest and transparent with customers, especially for pricing. We base our discount structure on SHI Advertised Price and do not inflate the price for RFPs to make discounts appear larger. SHI collaborates with vendor partners to help bring customers the best possible pricing. We constantly strive to help you save money across products and services—long after a sale is made. Our account team works with you from the beginning of your project and throughout the lifecycle of your purchase. Because we approach your IT solutions neutrally and are not limited to one or two OEMs, we can ensure you get the best solutions to support your needs. In addition, we will review buying programs and create price modeling to ensure that the technology you choose is being bought in the best way possible and at the most aggressive price. Your Account Executive will work with manufacturers and Sourcewell members to forecast volumes and to negotiate pricing on those forecasts. The manufacturer may allow for special pricing for purchases over time, in which case SHI creates a SKU within our order entry system that can only be used by the member that reflects the additional discount. SHI has built our business by helping customers save time and money when buying IT. We will continually look at the business and analyze usage and spend to uncover cost savings wherever possible. Our support teams contribute to this mission by providing expertise and options for products and processes that ensure the right technology is chosen at the right time. We have a proven track record of maximizing the benefits of large cooperative contracts for our customers, helping them to realize millions of dollars of savings.	*
60	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Our proposed discounts range from 0% - 18% off SHI's Advertised List Price. Please see the uploaded price file for category-based discounts.	*
61	Describe any quantity or volume discounts or rebate programs that you offer.	SHI fully understands how important it is for our customers to achieve cost savings. Given the breadth of manufacturers and	

products that SHI offers, rest assured that opportunities for SHI to secure additional discounts for eligible contract users are plentiful. We work to provide your contract users with the most advantageous pricing options available, and we go above and beyond to offer better pricing than the contract requires, as often as possible. SHI's position in the marketplace affords us both preferred pricing from software publishers and hardware manufacturers, and leverage when negotiating with partners on our customers' behalf. We will work closely with our network of software publishers and OEMs to identify areas for additional savings and better return on investment for Sourcewell.

The following demonstrates some ways we identify cost savings opportunities for our customers:

Hardware
Volume Purchase Programs: Many hardware manufacturers offer volume discount programs based on customer commitment or contractual agreements. Our product specialists and hardware resource representatives review your purchases and provide recommendations for when you may benefit from these programs. We ensure you receive all eligible benefits with the assistance of your AE.

Volume Discounts: Even manufacturers without formal discount programs may offer additional discounts based on the size and purchasing volume of Sourcewell. We negotiate with manufacturers to obtain the best price for you. Your AE will analyze SHI's extensive reports to determine product lines or manufacturers where you make large quantity purchases and negotiate accordingly.

Manufacturer Specials/Promotional Pricing: Your AE continuously monitors the market and manufacturer promotions that benefit Sourcewell. They will bring these opportunities to members' attention, considering the timing of the promotion in relation to deployment needs.

Rebates: SHI does not provide standard rebates to member contract users, but we are committed to offering our customers the most competitive pricing from the start. This upfront pricing approach is advantageous for Sourcewell members, as it ensures that they receive the best possible pricing right away. We actively collaborate with OEMs to secure additional discounts for large volume purchases and explore any additional manufacturer incentive programs for which members may qualify. Our aim is to consistently provide the most favorable pricing options available. *

Third-Party Manufacturers: While some customers believe they must purchase OEM peripherals, there are many third-party manufacturers that offer comparable products at lower costs. Your SHI account team will present these options to you, allowing you to select the option that best fits your requirements.

Software
Transactional Licensing Programs: These licensing programs offer significant savings to customers making large quantity purchases without making long-term commitments or forecasts. The discount level is determined by a first-time buy-in, sometimes even with just one license. Your IAMs will provide information on eligibility for these discounts during the quoting process, and your AE will identify these opportunities during meetings with members.

Contractual Licensing Programs: Members' AEs review purchase history and make recommendations for contractual licensing programs. These opportunities are typically identified based on comprehensive purchase history reports from SHI. We not only review individual purchases to identify new volume license agreements but also assess current agreements to recommend negotiations for higher discount levels and better terms.

ITAM Services
Our IT Asset Management (ITAM) team helps customers optimize hardware and software investments to ensure continuous compliance and cost savings. With a range of services tailored to customers of any scale and industry, our ITAM team leverages its expertise in managing complex infrastructures. They provide services such as

		data analysis, inventory management, licensing consultation, ITAM policy and process consulting, and service delivery management. Our team of over 80+ ITAM subject matter experts (SMEs) has unparalleled experience in achieving ITAM goals in various complex scenarios, serving customers with infrastructures ranging from 500 devices to 500,000 devices.	
62	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	When a customer requests the Sourcewell contract, all products will be considered contract purchases and therefore will be quoted with pricing that aligns with our category-based discounts off SHI Advertised Price.	*
63	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Given the overall breadth and customizable solutions offered under this contract, it would be hard to detail every item that will not come standard with a given purchase. However, pre-delivery inspection, installation, project management, training, and additional set-up services are not part of standard cost unless a customer specifically requests these services at the time of quoting. In addition, non-standard shipping options detailed in question 64 and credit card fees detailed in question 58 are not included in the product price.	*
64	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Shipping costs will vary depending on the equipment being ordered. In many cases, client hardware is shipped at no additional cost to the customer. Standard shipping will be covered, but special delivery requirements, expedited shipping, custom configurations or palletized shipments will be subject to a shipping charge. If shipping needs to be charged, SHI will charge the customer actual shipping per purchase. SHI sources products directly from OEMs and an expansive network of authorized distributors. As a reseller, SHI does not directly determine the cost of shipping for each order. Instead, we pass through actual shipping charges which can only be determined at the time of quote as they are based on size and weight. To reduce shipping costs, SHI will ship from the location with inventory closest to the customer's shipping address if possible. SHI can ship products via any method the customer desires. These include: • Standard delivery: The product is delivered to a fixed delivery point (such as a warehouse). Often, shipping is free on standard delivery orders. Exceptions include very large pallets (servers that are racked/stacked), and any order that requires custom configuration. • Overnight and second-day delivery: this option is available for any non-custom items upon request. There is a fee for expedited delivery. Shipping prices are determined by size and weight of the delivery and can be discussed at time of quoting. • Deskside delivery: SHI’s logistics company delivers the product directly to the end users’ desk location within the customer's building. Loading dock may or may not be available. There is a fee associated with deskside delivery. The fee is based on the size and weight of the shipment and will be priced out at the time of quoting. • Inside delivery: The product is delivered to a location inside of a customer's building. SHI’s logistics company unloads the delivery vehicle. Loading dock may or may not be available. There is a fee associated with inside delivery. The fee is based on the size and weight of the shipment and will be priced out at the time of quoting.	*
65	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Orders shipped to destinations in Alaska and Hawaii may incur additional freight fees.	*
66	Describe any unique distribution and/or delivery methods or options offered in your proposal.	SHI maintains relationships with large IT distributors, as well as smaller, local distributors, and manufacturers directly. We leverage our unique distribution model with these partners to drop ship orders directly to customers' locations. Our extensive network of distribution centers throughout the US reduces time to market for our customers. SHI always ships from the location closest to the customer's shipping address with available inventory and the best pricing option. SHI Integration and Configuration Centers SHI has provided software and hardware integration services for over 20 years to global enterprises, mid-market organizations, and	

state and local government customers. We offer a wide variety of services available through our two state-of-the-art, ISO 9001:2015 certified facilities, Knox (end user compute) and Ridge (data center) —created to provide scalable, customized, and effective integration solutions at every step of the way and for every size of deployment.

Our integration services provide:
- Expertise and experience
- Lower overhead costs
- Certified resources
- Reduced labor costs
- Quicker deployment timelines
- Reduced risk

Our configuration experts and integration centers make configuring and shipping customized hardware a seamless, effortless process. Our goal is simple: to meet and exceed expectations while providing a quality turnkey solution.

Knox Warehouse and Configuration Center
The Knox warehouse and configuration center is used for advanced systems and provides custom-configured, ready-to-ship machines. Our 305,000-square-foot facility is static-free, climate-controlled, and protected by the most rigorous physical security and cybersecurity.

The configuration center employs a variety of servers, network switches, hubs, barcode printers, and cabling to provide a secure and robust production and testing environment. Equipment is regularly added and replaced to keep up with changes driven by technological advancement and client requirements.

Knox contains 330 build stations where SHI team members can simultaneously configure approximately 1,350 devices and utilize an efficient workflow to image and configure up to 3,500 systems per day. The warehouse facility allows SHI to pre-configure and stock machines with the most popular client-specific images to provide minimum turnaround time.

Ridge Integration Data Center
A team of 140 employees staff the Ridge integration center and expands SHI's ability to support advanced data center solutions, including integration services that combine components from multiple manufacturers into ready-to-deploy rack systems. To facilitate expansion, SHI keeps an equal number of completed build rooms and rooms left available for future use. The build rooms are used to build and automate integration workflows to increase the efficiency and accuracy of work. The facility allows SHI to power more than 150 racks simultaneously.

The Integration Data Center Services (IDCS) organization provides technology-related services of the highest quality to support our customers' unique requirements. The IDCS team at Ridge provides a suite of data center services to accommodate any technology need.

SHI integrates individual custom build requirements into our quality control platform for documentation, verification, and reporting. SHI's pre-configuration platforms increase deployment speed and reduce risk and complexity by constructing solutions in the staging facility.

These configuration warehouses offer a variety of support services prior to delivery of end-user and data center hardware.
- Server rack and stack (Ridge)
- Advanced configuration
- Mobile device configuration
- Integrated add-ons
- Asset tagging
- Image deployment
- Laser etching
- Activation
- Kitting
- Custom label and packing
- Inventory management

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
67	b. the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
68	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	SHI's Capture and Strategy organization has multiple team members dedicated to our compliance and the success of the Sourcewell contract, including our Capture and Business Development Manager, Contract Compliance, and Contract Reporting Analysts. Capture and Business Development Manager As we mention throughout this proposal, Sourcewell will continue to have a dedicated Capture Manager, Tory Pubylski, working with the assigned SDA to consistently monitor our contract usage, compliance, and opportunities to grow the contract together. The Capture Manager will work with the Compliance team to train all sales teams utilizing the Sourcewell contract immediately upon award so that field and inside sales are aware of how to adhere to accurate contract pricing and terms and conditions of the contract. Tory will serve as the main point contact of for any issues or concerns that arise during the contract. Contract Compliance Sourcewell is looking for a partner that takes contract compliance seriously. We understand the importance of this aspect of the business, which is why SHI's Contracts Compliance organization is focused on meeting agreed-upon requirements. This team is comprised of five members who can confirm we meet the expectations outlined in your RFP and subsequent contract. We do this during the proposal process, contract negotiation, and beyond through: • Issue investigation and resolution • Proactive internal auditing • Proactive tracking of operational obligations • Process improvement recommendations • Strategic updates If inquiries or reviews are required, our dedicated team can investigate and provide findings with a suggested path forward, which we believe will strengthen our working relationship. Pricing, Reporting, and Administration Fees To ensure proper pricing, SHI will create a custom catalog in our system based on the agreement with Sourcewell. This contract pricing is visible to customers on our website—with real-time updates using live data feeds from SHI's suppliers. Our web catalog team manages the catalog content and audits pricing to ensure accuracy. In addition, we can run reports related to purchases made under Sourcewell's contract. Orders placed through the website and with our Inside Sales teams will capture the Sourcewell contract number so the sale will show when the Contract Reporting Analyst pulls the quarterly report. We can also collect data in customized fields and can deliver both standard and custom reports. SHI can deliver standard reports in one of three formats, including: • Contract invoice detail • Manufacturer profile

- Invoice detail

After the reports are reviewed and confirmed to be accurate, the analyst will submit them directory to our Supplier Development Administrator and then coordinate payment with our accounting department for the correct amount in administrative fees to be paid to Sourcewell.

Sourcewell Dedicated Contract Capture and Compliance Team Members *

Victoria (Tory) Pubylski, Capture and Business Development Manager -- As Capture and Business Development Manager, Victoria, or Tory as many know her, manages the SHI relationship with the Sourcewell Cooperative. Tory works to grow SHI's business under our awarded contract with Sourcewell by training our sales teams, joining customer calls, answering customer inquiries, and connecting customers to their SHI account executives. She also works with SHI's account executives to understand the contracts we have available to their customer base, how to appropriately utilize them, and prepare them for strategic upcoming RFPs where there could be an opportunity to increase our support through new contracts.

Tory has supported the public sector at SHI since 2015 as a Sales Support Operations Manager. She joined the Public Sector Proposals team in 2018, supporting government and education until transitioning to her current role in 2022. She feels most rewarded in her role when providing training and information to our sales teams and seeing their passion for how to support their customers as best as possible. She currently resides in Austin, TX.
To learn more about Victoria or to view her background and resume, please visit her on LinkedIn at https://www.linkedin.com/in/victoria-tory-pubylski-604b4583/.

Arianne Mount, Director of Public Sector Contract Compliance — Arianne started her career with SHI more than 15 years ago as an Inside Account Manager. She then transitioned into a sales support specialist role, serving SHI's business units in a sales analyst capacity. That role evolved into a leadership position for two separate teams, which helped manage all incoming legal and proposal submissions. These teams also tracked results and developed data-based strategy updates. Following her success in that role, Arianne was offered an opportunity to manage a proposal operations team focused on the proposal lifecycle, metrics, and data-led strategy. In 2022, she expanded her team to include contract compliance, which supports SHI's salesforce and customers with their public sector contracts.

Arianne currently manages a team of public sector compliance specialists responsible for strategy, reviewing capabilities, initiating new processes to align with customer requirements, tracking cadenced operational obligations, and issue investigation and resolution. She feels most rewarded in the role when her team can impact day-to-day processes for SHI and improve customer satisfaction with their contracts.

Arianne is a resident of central New Jersey. To learn more about Arianne or to view her background and resume, please visit her on LinkedIn at https://www.linkedin.com/in/arianne-mount-2b301146/.

Anthony Sapichino, Sr. Contracts Compliance Specialist—Sr. Contracts Compliance Specialist Anthony Sapichino works at the pre- and post-sales stages to ensure that SHI is compliant with our public sector contracts. In his role, he supports everyone from our proposals team to the post-sales team with compliance issues, helping to ensure that SHI is compliant with all requirements.

Anthony has been with SHI for over ten years, beginning as an Inside Account Manager supporting mid-Atlantic public sector accounts for two years before becoming a manager

		in the strategic space. He was a manager for seven and a half years before recently moving over to the compliance team. Anthony resides in Parlin, NJ. To learn more about Anthony or to view his background and resume, please visit him on LinkedIn at https://www.linkedin.com/in/asapichino/.	
69	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	In our experience, there are a few key indicators of success for contracts of this type: 1. Overall sales revenue The first, and most obvious, is simply the number of sales that are being done through the contract. We look for these to grow each month. 2. Number of entities using the contract. We believe that to be viewed as a successful partner to Sourcewell we need to be adding net new buying entities to the contract. 3. Number of AEs who are using the contract. In addition to the number of public entities that use the contract, we also track the number of Account Executives at SHI who make use of the contract. We track this metric regularly and are always looking for 100% participation with our cooperative contracts. 4. Customer Feedback. We rely on our customers to provide feedback with regards to doing business with SHI and believe this contract's success can also be measured by customer feedback. Providing our customers flexible and viable contract options makes their job easier. When we lead with Sourcewell and educate members on value, we expect we will get positive feedback. SHI has tracked these numbers under our current awarded contract and based on these metrics, SHI's current Sourcewell contract has been very successful. We will continue to analyze this same data under a new awarded contract to ensure we stay on the same path.	*
70	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	SHI proposes a 1% Administrative Fee. We believe this nominal fee keeps the contract competitive and even more marketable.	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Proposers must designate if they are seeking an award in Category 1 only or Categories 2 and/or 3. As stated in Section II. B.1. of "REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES," Proposers responding to Category 1 must offer a complete electronic catalog system permitting Sourcewell and Sourcewell Participating Entities to make web-based purchases."

Proposers submitting a proposal in Category 1 must include at least one solution in each of Categories 1, 2, and 3 within its singular proposal. For example, if a Proposer offers solutions within the scope of Category 1, 2 and 3 the Proposer should designate it is seeking an award in Category 1. Proposers seeking award in Category 2 and/or 3 must include at least one solution offered within the scope of the desired Category.

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *	

72	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	We are pleased to offer our comprehensive catalog of products and services to meet the unique needs of each Sourcewell member in response to this RFP. We pride ourselves on our vendor-neutral approach, which allows us to provide the most suitable technology solutions for various IT environments. Our offerings span a wide spectrum, from software and hardware to cloud services and more, courtesy of our extensive partnership network of over 15,000 product partners. SHI is committed to offering full IT solutions to Sourcewell members, ranging from basic software and hardware commodities to sophisticated, end-to-end data center solutions. Our expertise in crafting IT solutions that perfectly align with our customers' needs ensures that your members will benefit from our wealth of knowledge in designing, implementing, and optimizing IT ecosystems. We offer a broad range of IT solutions that cater to the unique needs of Sourcewell's members. 1. Hardware and Software Products: SHI offers a wide array of hardware and software products from leading manufacturers. We collaborate with top technology partners such as Apple, Microsoft, Adobe, Dell, HP, and Cisco. 2. Advanced Solutions: SHI provides advanced solutions like cloud computing, data center infrastructure, networking, and security. Our cloud solutions include services for public, private and hybrid cloud environments. 3. IT Asset Management: SHI helps businesses manage their software and hardware assets more effectively. We provide services for software licensing, hardware lifecycle management, compliance and risk management. 4. Professional Services: SHI's professional services team can help with everything from initial assessments and consultations to full implementations. These services can help members optimize their IT environments and implement new technologies. 5. Support Services: To ensure smooth operation, SHI offers a range of support services, including hardware maintenance & support, software support, and managed services, delivered directly by our internal teams, by the manufacturer directly, or by subcontracting through our elite partner network. 6. E-commerce: Our robust e-commerce platform allows customers to purchase IT products easily and track their orders. 7. Sustainability: SHI also focuses on providing sustainable IT solutions. We offer services like IT asset disposal and recycling to help customers reduce their environmental impact. In summary, SHI's wide range of IT solutions is designed to help entities address their technology challenges, optimize their IT investments, and navigate the ever-changing technology landscape. Our strategic technology partnerships can be viewed on the partner page of SHI.com. https://www.publicsector.shidirect.com/public-sector/brands Our purpose is to provide the best overall value to Sourcewell, and we understand that this goal is achieved through a combination of world-class support, aggressive pricing, and extensive product and service offerings. Our objectives align with your mission to "provide leading solutions that empower community success," and we accomplish this by remaining laser-focused on customer relationships: every SHI employee understands that we are here because of our customers and will remain here only as long as we continue to provide extraordinary products, services, and customer satisfaction.
73	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	SHI is a customer-centric provider of diverse software, hardware, and IT products. We are proud of our wide array of services and support, offered directly or via our expansive network. We collaborate with 15,000 unique publishers and OEMs, holding top-tier certifications from leading OEMs such as Apple, Cisco, Dell, HP, Microsoft, and VMware. As the technological landscape evolves, so does our product catalog, constantly updating to meet customer demands. Our IT solutions range from software and hardware procurement to comprehensive data center solutions. Below, we provide subcategory titles along with details on some of our most up-to-date solution offerings. Hardware End-User • Devices - PCs, Laptops, Tablets and Smart Phones • Peripherals – Monitors, Cables, Accessories like Keyboards, Mice, Headsets, Memory, and Audio/Visual Equipment, etc. • Digital Signage, Kiosks, and Touchscreen Devices • Mobility – Tablets, Smart Phones, Printers, Mobile Device and App Management • Unified Communications and Collaboration (UCC) – Devices, conferencing and collaboration platforms, cameras, headsets, etc. • Services: Imaging, configuration, asset tagging, inventory, warehousing, kitting,

and shipping
Print - Printers, Scanners, MFDs, Toners and Supplies
Data Center - Servers and Storage, Power and Cooling, and Services: Configuration, asset tagging, kitting, and shipping
Networking – Wireless, Routers / Switches, SD WAN, Connectivity

Software
SHI has partnerships with thousands of software partners, including key relationships with publishers like Microsoft, Adobe, IBM, VMware, and SAP, and we offer a wide range of services delivered directly by our internal teams, by the manufacturer directly, or by subcontracting through our elite partner network.

Cybersecurity/SOC Monitoring
As your organization pursues cloud, digital transformation, and remote workforce strategies, SHI can help you defend against cyberattacks' growing threat and navigate complex regulatory requirements. SHI works with leading cybersecurity technology providers to promote sound information security governance and ensure that your infrastructure, data, and people are protected.

Our solutions center around Identity and Access Manager, Application Security, Data-Centric Security, Data Center and Cloud Security, Threat and Vulnerability Management and services, including security risk assessments, incident response, program strategy and operations, and security strategy consulting.

From assessment to implementation, we help organizations reduce risk with a dynamic approach that strikes the right balance between people, processes, and technology. Here are some of the ways that we can advance your cybersecurity:
• Secure Governance: In a rapidly evolving landscape of threats and regulatory obligations, SHI helps you address cybersecurity governance challenges by effectively setting strategy, standardizing processes, enforcing requirements, and ensuring you have the resources in place to achieve security and business goals.
• Secure Infrastructure: SHI takes a balanced approach to cybersecurity that ensures consistency across on-premises, hybrid and multi-cloud environments. Our experts help you address modern data center challenges with a strategy that starts with architecture and optimizes security controls and policies.
• Secure Data: SHI helps shift your focus from trying to secure everything to protecting what matters most – your data. We work with you to locate and understand your sensitive data, so you can establish exactly what you are trying to protect and ensure the appropriate controls are in place.
• Secure People: We partner with you to address the human element of cybersecurity. Our solutions and services enable you to thwart attacks that exploit human vulnerabilities, including malware, phishing, and impersonation across email and the cloud.

Cloud
Our Cloud solutions teams can help customers navigate Public and Private Cloud Environments, as well as Software as a Service (SaaS), Hybrid SaaS, Infrastructure as a Service (IaaS), Platform as a Service (PaaS), Database as a Service (DBaaS), Unified Communications as a Service (USaaS), “X” or Miscellaneous as a Service (XaaS or MaaS) solutions. We also offer a wide range of cloud services, including cloud migration, optimization, and management, and we have partnerships with major cloud providers like Microsoft Azure, AWS, and Google Cloud.

EULA Management
SHI offers EULA review services for a fee. The end-user license agreement services are performed by a contract administrator experienced in negotiating software license agreements. These services offset the burden of risk our customers must manage for what is considered "long tail" software publishers, meaning those non-major or strategic partners. SHI works with you to establish a playbook of rules, processes, and policies related to identifying risk and how best to contractually address the various software publishers in scope. After a negotiation, SHI prepares a summary for your review and action. This summary would include details about any remaining risks, concessions made, requirements the publisher refuses, etc.

Advanced Solutions Group (ASG)
The IT landscape has seen significant changes over the past decade, with a growing focus on holistic solutions that address evolving customer needs, as opposed to mere commodity products. Responding to this shift, SHI developed our Advanced Solutions Group (ASG) to provide solution-based support. This team, comprising over 600 technical experts holding 3,000 certifications in various products and solutions, is dedicated to meeting Sourcewell members' requirements, guiding you to the right technology, and aiding in integrating that technology into your environment. The Advanced Solutions Group, like all of SHI, maintains a vendor-neutral stance, utilizing its vast experience to tailor discussions that best suit each member's specific needs. We provide support during the strategy and solution design phase of a project, assisting with planning, assessments, conceptualization,

proof of concepts, and procurement of demo units.

Our ASG team has focused solutions groups including:
- o End-User/UCC
- o Cloud Design, Adoption, Optimization and Management
- o Data Center Technologies – Server/Storage/Backup
- o Networking – Core, Edge and Transport
- o Security Solutions

These teams, include solutions engineers and professional services support, working arm-in-arm with our devoted OEM partner teams to assist our customers in keeping pace with their evolving IT needs and facilitate seamless technology adoption.

Professional Services
Our professional services teams are vendor-neutral and use an extensive range of experience to help tailor conversations optimally for any member's specific environment. We see our professional services offerings as a differentiator in the hardware and software reseller marketplace. Our objectives are to 1) help ensure our customers are purchasing the right solution, 2) help our customers deploy the chosen solution as rapidly as possible while minimizing risk, and 3) maximize customers' adoption of the chosen technology, thereby maximizing the value of their investment.

Managed Service Provider (MSP)
SHI's Managed Service Provider (MSP) solutions include a wide range of services, such as network management, cybersecurity, data backup and recovery, cloud services and our complete portfolio of Modern Workplace Services.

Modern Workplace Services
SHI's Modern Workplace Services (MWS) cover hardware Lifecycle Services, Multi-Vendor Platform Support (MVP), Asset Recovery, Digital End-User Experience (DEX), Staff Augmentation, Mobility and Warranty services.

Lifecycle Services
The modern workplace has become increasingly dynamic. However, varied locations, schedules, and technology use can all be costly considerations when managing your workforce. SHI's Device as a Service (DaaS) solution is designed to help Sourcewell members adapt to this change, providing outcomes that achieve cost and operational efficiencies. We provide comprehensive management of all your devices across every stage of the asset lifecycle and are committed to keeping your end users productive and engaged.

Our customizable solution ensures you have the devices you want, the support you need, and the lifecycle of your devices managed based on a predictable, monthly, per-device cost. DaaS is an alternative to a traditional lifecycle services procurement approach. It provides customers access to the latest end-user computing and all-inclusive managed services to help meet their ever-changing technological needs. Each DaaS engagement is customized to include configuration, deployment, technical and warranty support, and IT asset recovery and disposal solutions.

DaaS can provide substantial benefits to members, including increased flexibility and multiple device options, and it accommodates IT budgets and operations with OpEx, hybrid and CapEx models. The DaaS model allows for a per-unit, per-month fee for the member's contract term, including the hardware's pricing and all related services.

ZeroTouch Provisioning
Regardless of the devices and operating systems that customers opt for, SHI can aid them in establishing a ZeroTouch deployment strategy. This is possible due to SHI's leadership in Zero Touch capabilities since its inception in 2011, and its commitment to OEM program adoption.

SHI provides support for a variety of platforms, including Apple Business Manager, Windows Autopilot, Chrome Zero Touch Enrollment, Android Zero Touch Enrollment, and Samsung Knox Mobile Enrollment.

With a history of being at the forefront of such services, SHI was the first reseller to offer Apple Business Manager, enroll devices into Autopilot, and provide ZeroTouch Services for Chrome.

Multi-Vendor Platform Support
MVP Support helps businesses confidently support multiple enterprise platforms to dramatically reduce costs and eliminate complexity often found with multi-vendor support services. MVP Support is a global support solution powered by Level 3 engineering PODs, service delivery, critical incident management, and a powerful integration platform to support complex vendor escalation workflows and processes.

Digital End-User Experience (DEX)
SHI's Digital Employee Experience (DEX) service provides an accessible view of everything affecting an end-user's performance. It fosters a productive user experience in which IT issues are detected, diagnosed, and resolved often before users even feel the impact. Our DEX Managed Service includes deployment, configuration, and optimization of your digital experience platform, allowing you to take full advantage of your current OEM toolset. We allow our customers to sit back and relax by helping them gain complete visibility and insight through advanced dashboards to create automated and proactive responses, resolving issues before disruptions occur.

Staff Augmentation
SHI's Staff Augmentation program is built on the expertise of our elite partner network of staffing providers. SHI maintains relationships with a wide range of staffing partners around the world, enabling us to find the right blend of SHI internal and staff augmentation resources to address even the most complex requests. Through this robust network, SHI can ensure that our customers have a deep and diverse candidate pool as they seek to accelerate their business by infusing talent and expertise through staff augmentation.

We source the perfect IT professionals for your needs by:
- Obtaining a complete understanding of each assignment.
- Developing a thorough search plan that may include pre-identified targets, organizations, resumes in our database, Internet advertising and searching, and engaging one of our qualified partners.
- Conducting a multiple screening process, which includes our technical recruiter, recruiting manager, and one of our technical resources.
- Checking professional references prior to the client interview.
- Presenting our top candidates to you for review and interview.

SHI provides members the benefit of having fast responses from our dedicated resources who act as a single point of contact to assist with onboarding and off-boarding candidates with no hidden fees all backed by our reliable recruiting process.

IT Asset Management (ITAM)
The IT Asset Management (ITAM) team at SHI helps our customers optimize Hardware and Software investments to ensure continuous compliance and cost savings. The ITAM team at SHI has a full portfolio of services to support customers of any scale, industry, and sector. With a team of over 80+ ITAM SMEs, many of whom are former auditors themselves; SHI has Data Analysts, Inventory Engineers, Licensing Consultants, ITAM Policy and Process Consultants, and Service Delivery Managers on hand to become an extension of your existing resources.

Our ITAM team provides SAM services to customers ranging from 500 devices to 500,000 devices with widely varying and complex infrastructures. ITAM Services combine:
- Volume License expertise supporting the world's most complex IT environments since 1989.
- Inventory and discovery expertise
- "Best of Breed" SAM toolsets
- SaaS-based IT Asset Management platform with 24/7 web portal
- Best Practice Service Management
- ISO 19770-1 aligned SAM Process and Policies
- Dedicated SAM Licensing and Inventory Consultants, Licensing and Inventory Engineers, Process and Policy Consultants, Service Managers, and former auditors.
- Compliance and optimization baseline: A license compliance and optimization baseline is a one-time assessment of a publisher or publishers that identifies trends in your current licensing, surplus license opportunities, and licensing deficiencies to be reconciled. With the baseline, you can make informed decisions regarding license contracts, maintenance renewals, and software procurement for cost savings, reduced risk, and recycled software assets.
- Audit defense: SHI has a full, rapid-response audit defense team to assist customers in any audit situation. This service has resulted in an average settlement of 10% of the publisher or auditor's findings.

Workshops and assessments: We provide various customer workshops and assessments, from ITAM maturity assessments to cloud readiness reviews to ITAM ROI value workshops. Whether you are unsure of what software your organization has deployed, what software your license agreements entitle you to deploy, are looking to mitigate compliance risk, or reduce overall software costs, our IT Asset Management services can help you take control of and manage your assets.

The Workshop
The SHI Software Asset Management (SAM) Planning Workshop ("the Workshop") is

a compact, disciplined process that ensures the right software entitlements, measures, and collection processes are in place. The Workshop brings together all the personnel, skills, and experience needed to coordinate and plan the complex process of gathering information for asset and compliance management. The Workshop ensures that you have addressed all the software audit risk areas and are prepared to deflect audit threats and defend against audit claims without the typical (and expensive) audit "fire drill".

SHI's SAM Workshop describes all of the infrastructure and processes necessary for the effective management, control, and protection of software assets throughout all stages of their lifecycle. The strategic goals of SAM include (but are not limited to) the following:

- Control cost and business risk for a stronger financial position
- Optimize existing software investments to enable you to do more with what you have.
- Help your organization become more agile by making better use of resources, even in changing business conditions.

SAM provides the following benefits to customers:

- Cost Savings: Lower costs associated with purchasing and maintaining a software library by capitalizing on vendors' overall buying power through single-volume license contracts.
- Risk Management: Control business and legal risks related to improper software deployment.
- SAM Advantage: Stay ahead of the competition through streamlined operations and faster time-to-market.
- Good Governance: Achieve and demonstrate compliance with your responsibilities under government legislation, such as Sarbanes-Oxley.
- Disaster Protection: Protect your company's valuable software assets in the event of unexpected adversity.

Whether the goal is streamlining the business of IT with innovative eProcurement, fulfillment, and IT asset management solutions; building hybrid data center and storage solutions; securing your growing diversity of data and assets; or building a truly collaborative digital workplace, SHI has your back at every stage of the technology lifecycle.

Scholastic Esports
SHI’s dedicated team of education and technical experts is taking over the scholastic esports space by helping high schools and colleges discover the power of esports and learn the intricacies of the industry. Integrating esports with STEM and CTE enables educators to create a curriculum that aligns with workforce sectors and industries to attract more students.

Scholastic esports (electronic sports) programs are revolutionizing student engagement. The goal of esports is to create high-quality, developmental experiences so students of all backgrounds and abilities can use this as a universal platform to grow socially, emotionally, and academically.

As innovative schools are accelerating their esports environments, this digital transformation is helping students engage in STEM and technology-focused activities, professional development, and school clubs and sports programs. However, the growth and popularity of scholastic esports represent new technology challenges for our customers to procure a successful platform and educational program.

To meet these needs, SHI has developed a team dedicated to esports, which handles everything from building out arenas to curriculum creation. Our objective is to enable schools to build effective and successful esports programs through:

- Professional training, development, curriculum, software (coaches and players)
- Esports tournaments (UGC)
- Grants support/procurement
- Selling esports equipment that reacts just as fast as you do!

These solutions can be customized to the specific needs of any given school through a comprehensive discovery and consulting process. SHI offers avenues of existing curriculum to use as your own, or expert advisors to help create your own or modify a pre-existing package of curriculum. SHI helps identify, plan, and build an esports program that’s right for each organization.

STEM/STEAM
STEM/STEAM technology includes products and/or tools related to supporting education in the fields of Science, Technology, Engineering, Art, and Mathematics. In this age of constantly emerging technology, educators have shifted to focusing on future readiness by helping students increase their digital literacy, driving innovation, and providing them with skills around critical thinking and problem solving, empowering their success so they will be ready to face the world’s challenges and

solve real-world problems. Here are some examples of STEM technology products:
- Robotics Kits used to teach principles of robotics and programming.
- 3D Printers used in engineering and design to create prototypes and models.
- Coding and Programming Tools: Software like Scratch, Python, and Arduino are used to teach programming and computational thinking.
- Drones and Quadcopters are used for research and education, such as studying weather patterns or learning about aviation and mechanics.
- Virtual Reality (VR) and Augmented Reality (AR) Equipment provide immersive learning experiences used in fields like design, architecture, and medicine.
- Mathematics Software like GeoGebra, Mathematica, and MatLab are used to study and visualize mathematical concepts.
- Educational Apps and Games designed to teach various STEM concepts in an interactive way.
- Electronic Kits teach electronics and circuitry.
- Maker Spaces Equipment includes various tools and materials for hands-on exploration, such as woodworking tools, sewing machines, laser cutters, etc.

Public Safety and Public Works Solutions
Public safety is not just a concern for police and emergency personnel, but also for cities, counties, schools, and universities. Our public sector sales teams support all of these entities and we offer the following solutions to address their day-to-day needs for communication, security, and safety.
- Security/Surveillance Cameras, Body-worn cameras, and related software.
- Rugged Notebooks and In-car Mounting Hardware
- Drones and Add-Ons for Drones; UAVs (Unmanned Aerial Vehicles)
- RFID Devices, Antennas, Receivers
- Physical locking solutions and portable security hardware
- Software Solutions: Gunshot Detection Software, Investigative Analytics and Interview Room Surveillance Software, Biometric Authentication Software, License Recognition/Reader Software and Mass Emergency Notification Systems

Smart City /Internet of Things (IoT) Solutions
Technology is ever evolving and growing, just as cities are constantly expanding and growing. From a combined evolution emerged “smart cities.” The goal of a smart city is to optimize city functions and promote economic growth while also improving the quality of life for citizens by using smart technologies and data analysis. SHI is here to help guide our customers to find the technologies that can help turn their vision of a smart city into a reality.

Smart cities use a variety of technologies including software, user interfaces, communication networks, the Internet of Things (IoT), the cloud, and data center technology to deliver connected solutions for the public. With SHI, our customers have access to multiple platforms, a variety of hardware for backup connectivity, and access to multiple vendors—including industry giants like AT&T, Verizon, T-Mobile, Cisco, Intel, and more. We support our offerings with access to vendor-neutral solution architects and engineers, dedicated solution support teams, OEM support teams, and external resources from our hardware and software partners. Together, we provide expert resources to understand your smart city needs and recommend solutions from networking connectivity and handheld devices to server storage and cloud options.

We understand that smart cities and IoT are the technology of the future which can impact and improve the lives of the communities we live in. No matter where you are in your smart city solutions journey, SHI can help you accomplish your technology goals leading us to a smarter tomorrow.

SHI continues to refine our product and service offerings to meet the dynamic needs of our customers in an ever-changing technology landscape. The breadth of SHI’s solution portfolio is extensive, and including all sub-categories here would be overwhelming. However, Sourcewell members can rest assured knowing SHI has the expertise and resources to facilitate the right solution for each member's unique environment.

Table 15A: Category 1 - Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments
74	Computer hardware, including desktops, laptops, tablets, and related devices;	(•) Yes ( ) No	
75	Networking, server, and data storage equipment, including servers, server appliances, racks and cabinets, data storage or data protection devices, and switching technology;	(•) Yes ( ) No	
76	Peripherals, accessories, components, and options, including printers, scanners, monitors, audio visual, digital signage, virtual reality, Esports equipment, unified communication hardware, mobility hardware, cabling, modems, routers, switches, power management, and supplies;	(•) Yes ( ) No	
77	Software related to the purchase of the equipment described in Lines 74-76 above;	(•) Yes ( ) No	
78	Configuration, software implementation, hardware installation, support, assessment, training, and asset lifecycle services related to the purchase of the equipment or software described in Lines 74-77 above; and	(•) Yes ( ) No	
79	Security, cloud, network, data, IT asset lifecycle services, and solutions described in Categories 2 and 3.	(•) Yes ( ) No	

Table 15B: Category 1 - Industry Specific Questions

Table 15B: Industry Specific Questions relate to products and services offered in Category 1 (see Table 15A).

Line Item	Question	Response
80	Describe your capability to report Sourcewell member purchases of products with environmentally preferred attributes (e.g., eco-labeled, rated, or certified).	SHI has the capability to report on green-certified products and does so for numerous customers. SHI will work closely with members to identify and understand green reporting requirements.

82	Describe your maintenance solutions for software products, such as maintenance agreements, software upgrades, continuous updates, patches, and fixes.	Proactive Renewal Management SHI's Proactive Renewal Management (PRM) is a value-added service offered at no additional cost to Sourcewell's members. PRM is primarily supported by SHI's PRO Renewal Organizer (PRO) tool but also includes SHI's contract indexing tool, Fine Print, and other value-added services. For a fee, PRM includes ITAM services to help customers optimize their IT investments and achieve cost savings. It can be challenging for organizations to proactively track expiring IT assets, maintenance, and support agreements. With inconsistent renewal dates across manufacturers and/or products, some organizations rely on the publishers and manufacturers to provide renewal notifications, which can result in missed discount opportunities or unwanted renewals of software you no longer use. In response to our customers' growing needs around expiring software, warranties, support agreements, and product maintenance programs, SHI created the PRO tool. This PRO organizer tool compiles your technology renewals into a centralized, rolling, 36-month timeline for simplified budgeting and renewal management. Customers can access the tool via SHI.com, with 24/7/365 availability. By addressing renewals in advance, you have the option to employ SHI to negotiate with the vendor on your behalf in the following areas: • IT asset selection: If better IT assets are available, SHI will negotiate with vendors to procure the better assets for our customers. • Product equivalent: SHI works with vendors to find our customers the best replacement when a product becomes unavailable. • Better pricing: SHI has quoting and pricing processes to help our customers realize cost savings across IT spend. Where possible, we pass those savings along to our customers. • License agreements: SHI collaborates with vendors to ensure our customers receive the correct number of licenses, obtain the best deals, and have licenses for the correct period. SHI also helps customers manage EULAs. Optimizing Renewals The PRO tool stores a complete list of the hardware and software your organization uses and automatically notifies your SHI account team 90 days prior to expiration dates. Replacing products without a warranty can be costly. SHI's PRO tool can track a member's IT assets, and it can also track maintenance and support renewals. Maintenance renewals are typically for hardware maintenance but can extend to software. For hardware, there is usually a warranty or maintenance offering that can sold in tandem, or there may be a base-level option included on the initial purchase, which must be renewed after the initial coverage term ends. For software, members can purchase licenses for a specified period. When the license agreement expires, the agreement needs to be renewed to continue using the software. For software subscriptions, SHI's PRO tool can help you track your software and guarantee you only pay for the software you use. Outdated equipment and expired software licenses can slow your employees' productivity. Effectively managing your IT assets is not an easy job, but with SHI's PRO tool, you can eliminate wasted time by ensuring employees always have access to the right equipment and software. Audit Protection There are two major risks associated with the unauthorized use of software licenses. First, poor software asset management can result in security vulnerabilities. Second, organizations risk unknowingly committing copyright infringement when unauthorized users download multiple instances of the software. To manage risk, SHI's PRO tool closely tracks your software licenses and usage, preventing unauthorized users from installing software provided under a license agreement managed by SHI. Some organizations choose to or must undergo a

software licensing audit or software compliance audit.

By using SHI's PRO tool, your organization safeguards itself from liability.

How it Works
When new orders are entered into our system, your account team can pull the information into our PRO tool. The tool is designed to notify your account team 90 days prior to the software expiration date; however, 120 days prior to the expiration date, the renewal is assigned to the AE managing your account. Working closely with the member, SHI can learn when and how often they would like quotes sent and how many days prior to software expiration dates they prefer notification.

Your SHI account team then actively works with the customer's procurement team, IT department, or designated point of contact to review options. Regular follow-up continues until the purchase order is placed or the customer indicates that they are no longer interested in renewing the maintenance or support agreement.
When the customer receives an email containing a renewal reminder, they are given the following three options:
- Option 1: "Yes, please send me a quote."
- Option 2: "No, Thanks."
- Option 3: "I would like to schedule a meeting to discuss."

The renewal reminder also gives the following information about software renewal: software expiration date, software publisher, product, SKU, order date, purchase order number, invoice number, and invoice date.

If an IT asset was not purchased through SHI and the customer completes the PRO form to allow SHI to track the asset, SHI only receives the expiration date of the software, software publisher, product, and SKU.

The customer need only click on option 1, 2, or 3 to send a response back to their account team.

Through our PRO tool, we offer proactive management of maintenance, warranty, and support plans that save time and money. With the customer's permission, any products purchased from SHI—or elsewhere—with an expiration date of any kind can be loaded into your renewal organizer. SHI does not see prices for IT assets purchased outside of SHI.

Quotes
In addition to renewals, the PRO tool tracks quotes. At any time, a customer can log in to their SHI.com portal and view their quotes. We keep a complete database of all quotes; however, SHI does not have access to any quotes provided by other resellers because quotes include pricing information.

Sometimes, upon renewal, vendors require a new quote altogether. Our system notifies us of vendor preferences and gives SHI the opportunity to negotiate with vendors on your behalf. This eliminates any additional work on your end. SHI does the work for you, collaborating and negotiating with vendors to provide quotes that best meet your needs.

PRO Timeline
The PRO Timeline is an interactive tool that displays upcoming renewals for the customer's OEMs.
- Users can click the reporting icon to run an in-depth report on the PRO Renewals. Reports can be exported and emailed to a co-worker as well.
- Users can also view a history of the original order.

Through the renewal timeline, SHI provides visibility and clarity around renewals for your organization, complementing the workflow of your own software and hardware renewal lifecycle efforts. These efficiencies support our customers' existing operating processes, and in some instances, SHI's PRM service even replaces or fills a void in our customers' existing workflows.

Benefits of PRO
In addition to the timeline, our PRO platform has several built-in dashboards and reports to facilitate ease of use. Additionally, you can click on the PRO Renewal Timeline to view more details. If you need to share the timeline within your organization, the timeline can be exported into Excel.

Moving Renewal Management to SHI
We have extensive experience onboarding new customers and importing their license data for future reporting and renewals. SHI onboards hundreds of new customers every year, and the process for onboarding will vary depending on the size, scope, and licensing needs of the customer. SHI's account team collaborates directly with the customer and software publishers to identify and gather necessary information on each

		licensing program and agreement. Once we receive the contract information, we populate our PRO tool database and grant your organization access. To minimize hassle, your account team and our software licensing experts work with you to complete and submit the necessary change of reseller form or process. The PRO Authorization form permits SHI to pull licensing history from manufacturers and publishers, including anything purchased elsewhere. The form provides the licensing type, quantity, coverage terms, and entitlement or agreement numbers, but does not give SHI access to previous pricing. The sole purpose of the PRO Authorization form is to help SHI better track your purchases so that we can better support your organization in the future. Just like the PRO Renewal Management service—the PRO Authorization form is optional for customers to complete. Sustained Value-added Benefit SHI's Proactive Renewal Management is a free value-added service for all our customers. The PRO tool gives your organization peace of mind, proactively managing maintenance, warranty, and support plans. With products purchased through SHI automatically loaded into your renewal organizer and quotes automatically sent to you 90 days before the expiration of the service, you can rest assured that SHI keeps track of your software assets. Speak with your account team to find out how to maximize the benefits of Proactive Renewal Management for your organization. Product security patches/fixes and updates for third-party products SHI resells are the responsibility of the manufacturer.
83	Describe your website and the ease-of-use for customers, including order placement, payment, order tracking, etc.	SHI.com is SHI's single-source procurement platform available to all SHI customers. With over 470,000 products available, our platform offers the latest functionality in a user-friendly interface. From the comfort of the office, members can access the most recent catalog features, customization options, approval routing, workflow, reporting, order status, and our PRO Renewal Organizer (PRO) Timeline. SHI's procurement platform provides an efficient and intuitive way to access your customized catalog of products and procure any of those products at any time. SHI.com's business-to-business functionality includes innovative custom catalog capabilities that provide personalized views of product information and enable you to find and compare SHI's products, view key metrics (like frequently viewed products and contract or standard items), and simplify purchasing. Access Each authorized user within an organization has a username and password that automatically links them to the approved customer catalog with your contracted pricing. A manager with employee admin permissions can create and disable user accounts. The platform is designed to support self-service functions, including registering new users — of which there is no limit. As an IT company, we take privacy and security seriously. Your information will not be shared with software publishers or third parties without explicit permission. Search Features Customers can easily find products using our intuitive search functionality. You can select up to five products to compare item features side-by-side. In the product details of a viewed item, you can also add an item to your favorites list. SHI delivers a differentiated customer experience that simplifies purchasing, encourages repeat business, and boasts key metrics like frequently viewed products, contracts, or standard items. Our catalog is updated daily with the latest information from our partners. SHI.com shows product availability, and if the stock is not currently available, the catalog displays an ETA for quantity and time frame for restocking. If the product in question is out of stock, SHI recommends engaging your dedicated SHI account team for further assistance. We may be able to recommend an alternative option that is currently available. For products not listed in the catalog, your sales representatives have the ability to upload a tailored quote to the website. This quotation can be conveniently added to the shopping cart to streamline the ordering process, eliminating the requirement for a separate non-catalog buying procedure. Order Placement SHI provides an easy-to-use Checkout Process that can also be customized to your specifications: • Users can save addresses to an address book to easily select the appropriate ship-to address. • Custom Data Collection—we will create fields to collect the information you need about the purchases your employees make (department, project code, cost center, and so on).

		• For our Terms Customers—enter a PO number and for our Credit Card Customers—use the security of PayPal to complete your purchase. • See the freight based on the shipping address entered. Some customers require that additional information be captured with each hardware purchase. Therefore, SHI has designed an “interview page” to collect pertinent information. Order Tracking SHI.com provides a wide range of search options to quickly locate and view order statuses, tracking information, serial numbers, and invoices. Returns Our return process is simple. To request a return, contact your dedicated sales team, via email, phone, or through the “Request Return Authorization Number” section on the SHI.com website. Your Inside Account Manager will then provide you with a return authorization (RMA) number and a shipping label. With the RMA number clearly included on the shipping label, the customer then ships their return to SHI, and we process the return. In some cases, to expedite a return, SHI will arrange to have the product picked up directly. Once the return has been fully processed, SHI will credit the customer’s invoice. In addition, we send out replacement orders before receiving returns to expedite the process for the customer. More information and details are available at SHI’s Return policy. Approval Routing Only authorized users within your organization can submit orders on SHI.com. However, many of our Public Sector customers allow their employees to request products, but not place orders. To accommodate ordering for those employees, SHI provides approval routing through SHI.com. With support for as many levels as your organization requires, requisitions are forwarded to the appropriate people for approval. Once an order is approved, the requestor (and anyone else listed to receive notices) will receive an email confirming approval; the order will then be uploaded into SHI’s internal order processing system. Reporting The ability to run real-time reports on SHI.com is based on permissions assigned to the usernames; so only authorized users within the organization can run reports. Your SHI account team can also run reports and set up email delivery directly to you. All reports can be set up on a subscription basis and delivered automatically daily, weekly, quarterly, or in whatever frequency you choose. Business intelligence (BI) data is refreshed hourly from our ERP system where the order and invoice data are captured. Data is up to date in BI within one to two hours of when the order is invoiced in our ERP system. Customization SHI adds relevant content to the website regularly and offers tremendous customization. On your SHI.com homepage, we can display your logo, welcome messaging, highlight featured products and company standards. Also, the News and Announcement section can provide pertinent product announcements, end-of-life information, support information, promotions, webinars or unique event invitations, and other industry news that may be of interest to your organization. SHI will notify your procurement team of any information before it gets posted. Communication with your Account Executive will enable blanket purchase orders to be built into our internal AX application and customized messages to be displayed on the website. Additional customization includes: • Set up users by groups: Purchasers, IT Department, Accounting. • Custom Checkout and Pre-loaded address list. • Setup basic Approval Routing. • Create custom product configurations. Training To better help your organization use the many features SHI.com has to offer, SHI's ecommerce specialists provide training to employees authorized to access Your Home @ SHI.com. We will work with Sourcewell to determine the training program and schedule that works best for you.

Table 16A: Category 2 - Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments
84	Cybersecurity services, such as cyber risk assessments, program strategy and operations, zero trust, skills and training, penetration testing, threat and vulnerability management, content security, network visibility and endpoint detection, log aggregation and correlation, disaster response and recovery, and managed cybersecurity;	(•) Yes ( ) No	These services are included as part of SHI's entire catalog of products and services offered as part of Category 1 for this contract.
85	Physical security services, such as site assessment, upgrade planning and execution design, installation, integration, access control, video management, and managed physical security services;	(•) Yes ( ) No	These services are included as part of SHI's entire catalog of products and services offered as part of Category 1 for this contract.
86	Cloud, such as Infrastructure as a Service (IaaS), Platform as a Service (PaaS), Software as a Service (SaaS), and strategy, design, migration, deployment, and managed cloud solutions;	(•) Yes ( ) No	These services are included as part of SHI's entire catalog of products and services offered as part of Category 1 for this contract.
87	Network, such as maintenance and monitoring, edge computing, SD-WAN and LAN, and data center networking;	(•) Yes ( ) No	These services are included as part of SHI's entire catalog of products and services offered as part of Category 1 for this contract.
88	Data, such as data modernization, data backup, data and document processing and storage, and assessment, validation, production, and management of AI and machine learning solutions; and	(•) Yes ( ) No	These products and services are included as part of SHI's entire catalog of products and services offered as part of Category 1 for this contract.
89	Related solutions, such as endpoint security products, network security technologies, identity and access management technologies, security analytics, data security products, IP video monitoring systems, intelligent controllers, mission control systems, electronic locks, network infrastructure, and server room technology.	(•) Yes ( ) No	These products are included as part of SHI's entire catalog of products and services offered as part of Category 1 for this contract.

Table 16B: Category 2 - Industry Specific Questions

Table 16B: Industry Specific Questions relate to products and services offered in Category 2 (see Table 16A).

Line Item	Question	Response
90	Describe how you help organizations with their zero-trust programs, if applicable.	SHI's security experts help customers understand the components of a Zero Trust program, how they fit together, and what technologies support it, and then help them select those technologies based on deep technical proficiency. Zero Trust assessments cover the customer's entire environment from their end-users, devices, networks, and applications to data. Benefits of a Zero Trust program: • Improve overall security posture • Improve end-user experience and productivity • Transform the way security teams work together • Simplify the security stack • Optimized security costs

91	Describe how you deliver cybersecurity solutions in accordance with the National Institute of Standards and Technology (NIST) framework, if applicable.	SHI Security Solution Architects (SSA) are responsible for the delivery of security practice-specific project-based client engagements. The SSA evaluates client business and technical requirements and develops enterprise-wide critical security control-based solutions. With an average of 8-20 years of industry experience, the SSAs serve in different roles within organizations and have acquired a diverse security background formulated from business verticals such as financial, automotive, insurance, life science, technology, and public sector establishments. Our SSA team members' expertise includes policy and procedural development aligned with industry frameworks and supporting industry compliance regulations such as, but not limited to, ISO 27001, NIST/FISMA, HIPAA, CJIS, and PCI standards. Delivery formats provided as a part of our engagement strategy include security workshops, architecture rationalization capability, and recommendation and roadmap development. Team members hold an average of two to five certifications, such as, but not limited, to: • Certified Information Security Manager/Auditor (CISM/CISA) • SANS Global Information Assurance Certification (GIAC; GSEC; GCIH; GICSP; GPEN) • Certified Information Systems Security Professional (CISSP) • Certified Ethical Hacker (CEH) • Information Technology Infrastructure Library (ITIL v3) • Certified Cloud Security Professional (CCSP) • Over 100 Industry Partner Certifications including but not limited to: CISCO (CCIE); (CCNP); Palo Alto (PCNSE); Fortinet (NSE) Checkpoint (CCSE) and many others. SHI will also assign a Project Manager (PM) to manage the overall delivery of each project. Our qualified Project Managers cover all aspects of formal project management, from the "initiating" phase through "closing". Please see attachment titled "SHI Technical Certifications."
92	Please list any certifications or testing results you or your partner(s) hold which show security posture in your proposed solutions, if applicable.	Please see attachment titled "SHI Technical Certifications."
93	Describe how you deliver cloud solutions in accordance with the NIST definition of cloud computing, if applicable.	SHI's cloud support services provide insight into your cloud environment, allowing us to make tangible recommendations that benefit your organization. We can help identify overprovisioned or dormant resources, analyze historical usage to determine more favorable pricing models, and provide ongoing monitoring to ensure you stay on track with a secure, cost-efficient, and optimized cloud environment. Our certified solutions architects and technical consultants combine their expertise to deliver services that optimize the business and IT benefits of public, private, and hybrid cloud technologies. Our support services include: • Cloud Platform(s) Service Onboarding: Cloud adoption starts with onboarding into one or more cloud platforms. We have standardized our approach to determine available cloud functionality and overcome billing and security challenges while guiding best practices. • Net Terms Billing: Organizations need flexible payment terms to consider their financial options, including capital expenditure (CAPEX) vs. operational expenditure (OPEX) financial models, extended net term billing and financing opportunities, account consolidation, financial chargebacks, and pricing program assistance. SHI collaborates with you to understand your billing requirements and provides a variety of billing options that fit your specific needs. • Reporting and Analytics: Capturing your organization's cloud costs and usage allows us to facilitate meaningful business decisions crucial for productivity. We will assess your metadata for multiple cloud platforms into a consolidated view and provide a guided analysis based on years of consulting experience helping clients implement cloud solutions. • Always Available Support: When you have a critical issue, you must trust that you can count on world-class customer support for your cloud solution. Our cloud support team of certified cloud account managers, cloud solution architects, and our 24x7 Cloud Service Desk is available to provide technical support throughout your cloud journey. • Cloud Spend Optimization: Cloud costs do not have to be unpredictable and difficult to manage. We provide proactive guidance based on your cloud usage and growth plans to help you reduce costs and optimize your cloud infrastructure. • Advisory Services: Whether you are in the process of evaluating your cloud strategy or need in-depth architectural support, we have the vision, technical expertise, and range of services to guide you. • Volume Licensing Expertise: We can help you move your licenses to the cloud, select the right buying programs, maintain licensing compliance, and limit the risk of audits. Our licensing experts will identify, monitor, and optimize your software assets to

ensure you receive the most value in your IT investment.

SHI support services and managed services are broken down into four categories – migrate, optimize, modernize, and manage—and no matter what stage you are in your cloud journey, SHI's cloud-certified experts can help you accomplish your goals.

Migrate
Cloud-based solutions have changed the dynamics of pre-sales, acquisition, and ongoing IT management. To keep up with growing demand and emerging technology, SHI has developed processes and support to address cloud consumption-based models, and we have resources dedicated to emerging partners to help our customers realize their single-cloud, multi-cloud, or hybrid-cloud strategy faster and more cost-effectively. SHI offers the following services for cloud migration:
- Assessments: Understand the costs of moving to public cloud for server infrastructure and licensing.
- Landing Zones: A solid foundation built within the cloud, using code as infrastructure.
- Lift and Shift Migration: Helps customers migrate to the cloud quickly and easily, by taking existing virtual infrastructure and moving it to the cloud with minimal modifications.
- Data Center Evacuation: Enables organizations to rapidly evacuate data, migrating to cloud infrastructure.

Optimize
SHI offers a selection of cloud optimization services ranging from a high-level summary of potential savings to a managed service. These services enable organizations to improve cloud governance as well as identify and remediate cloud waste to save between 30 and 50 percent of their cloud spend. SHI provides the following services and benefits as a support or a managed service:
- Summary of potential savings
- Access to optimization platform
- Technical support for optimization platform
- Management of reserved instances
- Management of savings plans
- Regular meetings to review optimization recommendations
- Custom reporting
- Technical guidance on application refactoring to reduce cost (managed only)
- Implementation of recommendations (managed only)

*Frequency of cadence meetings and level of customization depend on the monthly consumption.

Modernize
SHI helps customers modernize cloud infrastructure through automation, DevOps, refactoring, and re-platforming. Our process begins with a discovery of your people, process, and technology and includes the following services for cloud modernization:
- Cloud Architecture Reviews: Align your organizational priorities when building secure software from the ground up. Identify and highlight all security weaknesses or critical issues in your applications.
- Automation: Work within the confines of instructions, tools, and frameworks to carry out tasks with little to no human intervention.
- Containers/Kubernetes: Decouple applications from underlying host infrastructure using a ready-to-run software package, containing everything needed to run an application: the code and any runtime required, application and system libraries, and default values for essential settings. This makes deployment easier in different cloud environments.
- DevOps: Combine development and operation to increase the efficiency, speed, and security of software development and delivery compared to traditional processes.
- Re-factor and Re-platform: Modify applications or migrate to an alternate platform to better support cloud-based operations.

Manage
SHI helps organizations monitor, secure, and manage their cloud environment, allowing customers more time to focus on innovation and business objectives. SHI can manage patching, monitoring, and uptime, providing consistent support in the case of employee turnover. This solves the knowledge gap as skillsets evolve into cloud operations and provides cost savings compared to direct vendor support. Organizations can expect a named technical account manager (TAM), 24/7 support, and incident and service request management.

94	Describe which deployment methods you provide cloud-based services (e.g., private cloud, community cloud, public cloud, or hybrid cloud), if applicable.	No matter where you are in your cloud journey, from your first venture into the cloud to optimizing or refactoring existing applications, SHI's cloud experts can help make your cloud strategy smarter, more agile, and better value for money. SHI's cloud practice provides customers with infrastructure from major Cloud Service Providers (CSPs)—Microsoft Azure, Amazon Web Service (AWS), and Google Cloud Platform (GCP)—utilizing a wide range of configurations, including private, on-premises, public, hybrid, and multi-cloud. In addition, we can offer end-to-end consulting services to help you assess, design, build, migrate, optimize, modernize, and manage your cloud environment. With this combination of products, partnerships, support, and expertise, we are confident we can help Sourcewell members drive positive business outcomes as they work to streamline their cloud configuration. Partnering with SHI can help modernize data center and cloud architecture, connect and collaborate with your workforce, secure your environment, and optimize your procurement processes.

Table 17A: Category 3 - Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments
95	IT Asset Management Services, including hardware and software asset management, software as a service management, audit management, maturity assessments, sustainability solutions, and repair and maintenance;	(•) Yes ( ) No	These services are included as part of SHI's full catalog of services offered under Category 1 for this contract.
96	IT datacenter decommissioning, including planning and valuation, data shredding, de-racking, de-cabling, de-powering, and packing; and,	(•) Yes ( ) No	These services are included as part of SHI's full catalog of services offered under Category 1 for this contract.
97	IT Asset Disposal and Retirement Services, including secure data destruction, serialization, asset value recovery, recycling, remarketing, refurbishing, onsite collection, and ESG reporting.	(•) Yes ( ) No	These services are included as part of SHI's full catalog of services offered under Category 1 for this contract.

Table 178: Category 3 - Industry Specific Questions

Table 178: Industry Specific Questions relate to products and services offered in Category 3 (see Table 17A).

Line Item	Question	Response
98	Please list any certifications your company or your delivery partner(s) hold which are relevant to IT Asset Lifecycle Services, such as R2v3, e-Stewards, NAID AAA, ISO 9001, ISO 14001, ISO 45001, and ITAM Forum.	Specific to our ITAD (IT Asset Destruction/Disposal), SHI has the following compliance certifications: • ISO 45001 Health and Safety • E-Stewards • ISO 14001 • ISO 27001 • R2 2013 Responsible Recycling SHI is International Organization for Standardization (ISO) compliant. SHI currently holds the following ISO certifications: • Current registration to the ISO9001:2015 standard • Original registration effective on February 8, 2012 • Current registration expiration on February 4, 2024 Departments in the scope: • Warehouse (receiving, picking, packing, shipping) • Configuration Center • IT data storage, back-up, and recovery • Returns • Purchasing As an ISO 9001:2015 registered company (except for design), SHI commits to maintaining our customers as the center of our business, understanding our customers' requirements, and meeting and exceeding those requirements in delivering configurable hardware products. SHI brings broad knowledge based on our customer and partner experiences and our desire to drive constant improvements across SHI to continue to deliver the excellence in execution required by our customers.
99	Please indicate the standards to which hard drives are wiped, such as the Department of Defense or NIST standard 800-88.	SHI, along with our partner network, can perform Three Pass Data Erasure that is DoD or NIST standard 800-88 compliant depending on the customer requirements. We also provide asset recovery/remarking, hard drive destruction (HDD) shredding, certificates of destruction, EPA-compliant asset disposal, chain of custody reporting, and hardware redeployment.

Exceptions to Terms, Conditions, or Specifications Form

Only those Proposer Exceptions to Terms, Conditions, or Specifications that have been accepted by Sourcewell have been incorporated into the contract text.

Documents

Ensure your submission document(s) conforms to the following:

1. Documents in PDF format are preferred. Documents in Word, Excel, or compatible formats may also be provided.

2. Documents should NOT have a security password, as Sourcewell may not be able to open the file. It is your sole responsibility to ensure that the uploaded document(s) are not either defective, corrupted or blank and that the documents can be opened and viewed by Sourcewell.

3. Sourcewell may reject any response where any document(s) cannot be opened and viewed by Sourcewell.

4. If you need to upload more than one (1) document for a single item, you should combine the documents into one zipped file. If the zipped file contains more than one (1) document, ensure each document is named, in relation to the submission format item responding

to. For example, if responding to the Marketing Plan category save the document as “Marketing Plan.”

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.

7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

11. Proposer its employees, agents, and subcontractors are not:
    1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

    2. Included on the government-wide exclusions lists in the United States System for Award Management found at: https://sam.gov/SAM/; or

    3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☑ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Maya Lynch, Proposal Specialist, SHI International Corp.

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

AMENDMENT #1
TO
CONTRACT # 121923-SHI

THIS AMENDMENT, effective upon the date of the last signature below, is by and between **Sourcewell** and **SHI International Corp.**, 290 Davidson Avenue, Somerset, NJ 08873 (Supplier).

Sourcewell awarded a contract to the Supplier to provide Technology Products and Services with Related Solutions, Category 1 to Sourcewell and its Participating Entities, effective March 20, 2024, through February 27, 2028 (Contract).

Supplier and Sourcewell wish to amend the Contract as follows:

Section 6. Participating Entity Use and Purchasing, B. Additional Terms and Conditions/Participating Addendum, is revised by adding the below:

Dell Apex Terms and Conditions: Dell Apex purchases made under this Contract are subject to additional terms and conditions that will be provided at the time of the transaction. In order to access this product, Participating Entities agree that these additional terms and conditions will take precedence over any conflicting terms in the Contract and any Participating Addendum.

Amazon Web Services (AWS) Terms and Conditions: AWS purchases made under this Contract are subject to the SHI AWS Terms for U.S. Public Sector Customers (the "AWS Terms") contained at this link: https://www.publicsector.shidirect.com/terms/aws-customer-agreement-public-sector. In order to access this product, Participating Entities agree that the AWS Terms will take precedence over any conflicting terms in the Contract and any Participating Addendum.

Except as amended, the Contract remains in full force and effect.

CITY OF MESA AGREEMENT PURSUANT TO SOLICITATION

This Agreement pursuant to Solicitation ("Agreement") is entered into this 5th day of July, 2024, by and between the City of Mesa, Arizona, an Arizona municipal corporation ("City"), and CompanyName, a(n) State corporation/company/natural person ("Contractor"). The City and Contractor are each a "Party" to the Agreement or together are "Parties" to the Agreement.

RECITALS

A. The City issued Solicitation number **2024056** ("Solicitation") for **INFORMATION TECHNOLOGY SOLUTIONS PRODUCTS AND SERVICES**, to which Contractor provided a response ("Response"); and

B. The City Selected Contractor's Response as being in the best interest of the City and wishes to engage Contractor in providing the services/materials described in the Solicitation and Response.

In consideration of the reciprocal promises contained in the Agreement, and for other valuable and good consideration, which the Parties acknowledge the receipt and sufficiency of, the Parties agree to the following Terms & Conditions.

TERMS & CONDITIONS

1. **Term**. This Agreement is for a term beginning on **July 2, 2024** and ending on **July 1, 2028**. The use of the word "Term" in the Agreement includes the aforementioned period as well as any applicable extensions or renewals in accordance with this Section 1.

    1.1 **Renewals.** On the mutual written agreement of the Parties, the Term may be renewed up to a maximum of six (6) years. Any renewal(s) will be a continuation of the same terms and conditions as in effect immediately before the expiration of the then-current term.

    1.2 **Extension for Procurement Processes**. Upon the expiration of the Term of this Agreement, including any renewals permitted herein, at the City's sole discretion, this Agreement may be extended on a month-to-month basis for a maximum of six (6) months to allow for the City's procurement processes in the selection of a Contractor to provide the services/materials provided under this Agreement. The City will notify the Contractor in writing of its intent to extend the Agreement at least thirty (30) calendar days before the expiration of the Term. Any extension under this Subsection 1.2 will be a continuation of the same terms and conditions as in effect immediately prior to the expiration of the then-current term.

    1.3 **Delivery.** Delivery shall be made to the location(s) contained in the Scope of Work within thirty (30) days after receipt of an order. Title to Products and risk of loss or damage during shipment pass from Contractor to City upon delivery to the destination specified on the applicable purchase order (F.O.B. Destination, freight prepaid and allowed). Contractor agrees to deliver all products to be delivered F.O.B. destination, freight pre-paid and allowed to various locations throughout the City. In many cases within the City, the Contractor may be asked to deliver all products to the front counter within a given department. For special orders, the Parties agree to negotiate in good faith an alternative delivery date when necessary. Notwithstanding the foregoing, title to software will remain with the applicable licensor(s), and the City's rights therein are contained in the license agreement between such licensor(s) and the City.

2. **Scope of Work**. The Contractor will provide the necessary staff, services and associated resources to provide the City with the services, materials, and obligations attached to this Agreement as **Exhibit A** ("Scope of Work") Contractor will be responsible for all costs and expenses incurred by Contractor that are incident to the performance of the Scope of Work unless otherwise stated in **Exhibit A.** Contractor will supply all equipment and instrumentalities necessary to perform the Scope of Work. If set forth in **Exhibit A,** the City will provide Contractor's personnel with adequate workspace and such other related

facilities as may be required by Contractor to carry out the Scope of Work.
The Agreement is based on the Solicitation and Response which are hereby incorporated by reference into the Agreement as if written out and included herein. In addition to the requirements specifically set forth in the Scope of Work, the Parties acknowledge and agree that the Parties shall perform in accordance with all terms, conditions, specifications and other requirements set forth within the Solicitation and Response unless modified herein.

3. **Orders**. Orders must be placed with the Contractor by either a: (i) Purchase Order when for a one- time purchase; (ii) procurement card; (iii) Delivery Order or Blanket Purchase Order for a requirements contract where multiple as-needed orders will be placed with the Contractor; (iv) Executed Statement of Work (SOW); or (v) Executed Cloud Service Order (CSO) Form. The City may use the Internet to communicate with Contractor and to place orders as permitted under this Agreement. Unless explicitly stated in a separate writing executed by the Parties, the terms and conditions on any order form, quote, or similar document provided by Contractor to the City will not take precedence over the language set forth in this Agreement or any of the documents outlined in Section 4 below.

4. **Document Order of Precedence.** In the event of any inconsistency between the terms of the body of the Agreement, Exhibits, Solicitation, and Response, the language of the documents will control in the following order.

    a. Amendments to the Agreement
    b. Agreement
    c. Exhibits
        1. Mesa Standard Terms & Conditions (Exhibit C)
        2. Pricing (Exhibit B)
        3. Scope of Work (Exhibit A)
        4. Other Exhibits not listed above
    d. Solicitation including any addenda
    e. Contractor's Response

5. **Payment.** Subject to the provisions of the Agreement, the City will pay Contractor the sum(s) described in **Exhibit B** ("Pricing") in consideration of Contractor's performance of the Scope of Work during the Term.

6. **Pricing.** Contractor's pricing shall be in the format of a minimum percentage discount off a verifiable price index. Contractor may submit discounts for various manufacturers. At the time of purchase, Contractor may offer deeper discounts beyond the discounted price list, based on volume or other factors, as applicable. Minimum discounts will remain firm during the entirety of the Term of the Agreement, unless the Contractor requests to increase its discount percentage, and Pricing will include all charges that may be incurred in fulfilling requirement(s). In addition to decreasing prices for the balance of the Term due to a change in market conditions, a Contractor may conduct sales promotions involving price reductions for a specified lesser period. In the event a product is discontinued, Contractor will provide a product of the same or greater functionality, utilizing the discount structure.

    No price modifications will be accepted without proper request by the Contractor and response by the City's Purchasing Division.

    6.1 **Price Adjustment.** Any requests for reasonable price adjustments must be submitted in accordance with this Section. Requests for adjustment in cost of labor and/or materials must be supported by appropriate documentation. There is no guarantee the City will accept a price adjustment; therefore, Contractor should be prepared for the Pricing to be firm over the Term of the Agreement. The City is only willing to entertain price adjustments based on an increase to Contractor's actual expenses or other reasonable adjustment in providing the services/materials under the Agreement. If the City agrees to the adjusted price terms, the City shall issue written approval of the change.

During the sixty (60) day period prior to the expiration of the then-current term date of the Agreement, the Contractor may submit a written request to the City to allow an increase to the prices in an amount not to exceed the twelve (12) month change in the ***Consumer Price Index for All Urban Consumers*** (CPI-U), US City Average, All Items, Not Seasonally Adjusted as published by the U.S. Department of Labor, Bureau of Labor Statistics (http://www.bls.gov/cpi/home.htm). The City shall review the request for adjustment and respond in writing; such response and approval shall not be unreasonably withheld.

6.2 **Renewal and Extension Pricing.** Any extension of the Agreement will be at the same pricing as the initial term. If the Agreement is renewed in accordance with Section 1, pricing may be adjusted for amounts other than inflation that represent actual costs to the Contractor based on the mutual agreement of the Parties. Contractor may submit a request for a price adjustment along with appropriate supporting documentation demonstrating the cost to the Contractor. Renewal prices shall be firm for the term of the renewal period and may be adjusted thereafter as outlined in the Subsection 6.2. There is no guarantee the City will accept a price adjustment.

6.3 **Invoices.** Payment will be made to Contractor following the City's receipt of a properly completed invoice. Any issues regarding billing or invoicing must be directed to the City Department/Division requesting the service or material from the Contractor. A properly completed invoice should contain, at a minimum, all of the following:

a. Contractor name, address, and contact information;
b. City billing information;
c. City contract number as listed on the first page of the Agreement;
d. Invoice number and date;
e. Payment terms;
f. Date of service or delivery;
g. Description of materials or services provided;
h. If materials provided, the quantity delivered and pricing of each unit;
i. Applicable taxes; and
j. Total amount due.

6.4 **Payment of Funds.** Contractor acknowledges the City may, at its option and where available use a Procurement Cardle-Payables to make payment for orders under the Agreement; otherwise, payment will be through a traditional method of a check or Electronic Funds Transfer (EFT) as available.

6.5 **Disallowed Costs, Overpayment.** If at any time the City determines that a cost for which payment was made to Contractor is a disallowed cost, such as an overpayment or a charge for materials/service not in accordance with the Agreement, the City will notify Contractor in writing of the disallowance; such notice will state the means of correction which may be, but is not limited to, adjustment of any future claim/invoice submitted by Contractor in the amount of the disallowance or to require repayment of the disallowed amount by Contractor. Contractor will be provided with the opportunity to respond to the notice.

7. **Insurance.**

7.1 Contractor must obtain and maintain at its expense throughout the Term of the Agreement, at a minimum, the types and amounts of insurance set forth in this Section 7 from insurance companies authorized to do business in the State of Arizona; the insurance must cover the materials/service to be provided by Contractor under the Agreement. For any insurance required under the Agreement, Contractor will name the City of Mesa, its agents, representatives, officials, volunteers, officers, elected officials, and employees as additional insured, as evidenced by providing either an additional insured endorsement or proper insurance policy excerpts.

7.2 Nothing in this Section 7 limits Contractor's responsibility to the City. The insurance requirements herein are minimum requirements for the Agreement and in no way limit any indemnity promise(s) contained in the Agreement.

7.3 The City does not warrant the minimum limits contained herein are sufficient to protect Contractor and subcontractor(s) from liabilities that might arise out of performance under the Agreement by Contractor, its agents, representatives, employees, or subcontractor(s). Contractor is encouraged to purchase additional insurance as Contractor determines may be necessary.

7.4 Each insurance policy required under the Agreement must be in effect at or prior to the execution of the Agreement and remain in effect for the Term of the Agreement.

7.5 Prior to the execution of the Agreement, Contractor will provide the City with a Certificate of Insurance (using an appropriate "ACORD" or equivalent certificate) signed by the issuer with applicable endorsements. The City reserves the right to request additional copies of any or all of the policies, endorsements, or notices relating thereto required under the Agreement.

7.6 When the City requires a Certificate of Insurance to be furnished, Contractor's insurance is primary of all other sources available. When the City is a certificate holder and/or an additional insured, Contractor agrees no policy will expire, be canceled, or be materially changed to affect the coverage available without advance written notice to the City.

7.7 The policies required by the Agreement must contain a waiver of transfer rights of recovery (waiver of subrogation) against the City, its agents, representatives, officials, volunteers, officers, elected officials, and employees for any claims arising out of the work of Contractor.

7.8 All insurance certificates and applicable endorsements are subject to review and approval by the City's Risk Management Division.

7.9 **Types and Amounts of Insurance.** Contractor must obtain and retain throughout the term of the Agreement, at a minimum, the following:

7.9.1 Worker's compensation insurance in accordance with the provisions of Arizona law. If Contractor operates with no employees, Contractor must provide the City with written proof Contractor has no employees. If employees are hired during the course of this Agreement, Contractor must procure worker's compensations in accordance with Arizona law.

7.9.2 The Contractor shall maintain at all times during the term of this contract, a minimum amount of $1 million per occurrence/$2 million aggregate Commercial General Liability insurance, including Contractual Liability. For Commercial General Liability insurance, the City of Mesa, their agents, officials, volunteers, officers, elected officials or employees shall be named as additional insured, as evidenced by providing an additional insured endorsement.

7.9.3 Automobile liability, bodily injury and property damage with a limit of $1 million per occurrence including owned, hired and non-owned autos.

8. **Requirements Contract.** Contractor acknowledges and agrees the Agreement is a requirements contract; the Agreement does not guarantee any purchases will be made (minimum or maximum). Orders will only be placed when the City identifies a need and issues a purchase order or a written notice to proceed. The City reserves the right to cancel purchase orders or a notice to proceed within three (3) business days of issuance; any such cancellation will be in writing. Should a purchase order or notice to proceed be canceled, the City agrees to reimburse Contractor for any actual and documented costs

incurred by Contractor. The City will not reimburse Contractor for any avoidable costs incurred after receipt of cancellation including, but not limited to, lost profits, shipment of materials, or performance of services. The City reserves the right to purchase contracted items through other sources if determined in the best interests of the City to do so.

9. **Notices.** All notices to be given pursuant to the Agreement will be delivered to the Contractor at the address listed on Page 1 of this Agreement. Notice will be delivered pursuant to the requirements set forth the Mesa Standard Terms and Conditions that are attached to the Agreement as **Exhibit C.**

10. **Representations of Contractor.** To the best of Contractor's knowledge, Contractor agrees that:

    a. Contractor has no obligations, legal or otherwise, inconsistent with the terms of the Agreement or with Contractor's undertaking of the relationship with the City;

    b. Performance of the services called for by the Agreement do not and will not violate any applicable law, rule, regulation, or any proprietary or other right of any third party;

    c. Contractor will not use in the performance of Contractor's responsibilities under the Agreement any proprietary information or trade secret of a former employer of its employees (other than City, if applicable); and

    d. Contractor has not entered into and will not enter into any agreement, whether oral or written, in conflict with the Agreement.

11. **Mesa Standard Terms and Conditions. Exhibit C** to the Agreement is the Mesa Standard Terms and Conditions as modified by the Parties, which are incorporated by reference into the Agreement as though fully set forth herein. In the event of any inconsistency between the terms of the Agreement and the Mesa Standard Terms and Conditions, the language of the Agreement will control. The Parties or a Party are referred to as a "party" or "parties" in the Mesa Standard Terms and Conditions. The Term is referred to as the "term" in the Mesa Standard Terms and Conditions.

12. **Counterparts and Facsimile or Electronic Signatures.** This Agreement may be executed in two (2) or more counterparts, each of which will be deemed an original and all of which, taken together, will constitute one agreement. A facsimile or other electronically delivered signature to the Agreement will be deemed an original and binding upon the Party against whom enforcement is sought.

13. **Incorporation of Recitals and Exhibits.** All Recitals and Exhibits to the Agreement are hereby incorporated by reference into the Agreement as if written out and included herein. In the event of any inconsistency between the terms of the body of the Agreement and the Exhibits, the language of the Agreement will control.

    Exhibits to this Agreement are the following:
    (A) Scope of Work/ Technical Specifications
    (B) Pricing
    (C) Mesa Standard Terms and Conditions

14. **Attorneys' Fees.** The prevailing Party in any litigation arising out of the Agreement will be entitled to the recovery of its reasonable attorney's fees, court costs, and other litigation related costs and fees from the other Party.

15. **Additional Acts.** The Parties agree to execute promptly such other documents and to perform such other acts as may be reasonably necessary to carry out the purpose and intent of the Agreement.

16. **Headings.** The headings of the Agreement are for reference only and will not limit or define the meaning of any provision of the Agreement.

By executing below, each Party acknowledges that it understands, approves, and accepts all of the terms of the Agreement and the attached exhibits.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first above written.

EXHIBIT A
SCOPE OF WORK

1. **SCOPE OF WORK:** For the purchase of Information Technology Solutions, Products, and Services.

2. **ORDERING.** Although the City is open to alternate ordering methods, the primary methods for customers placing orders with the Supplier are the following:

    a. Online
    b. Email
    c. Telephone
    d. Fax

3. **DELIVERY REQUIREMENT.** The contractor agrees to deliver all products to the desktop of the ordering customer and be delivered F.O.B. destination, freight pre-paid and allowed to various locations throughout the City. In many cases within the City, the Contractor may be asked to deliver all goods to the front counter within a given department. This is the City of Mesa requirement and other participating agencies may have other delivery requirements.

4. **SCOPE OF PRODUCTS.** The intent of this solicitation is to establish a contract with the ability to purchase a comprehensive, wide variety of Information Technology Solution Products and Services including but not limited to the following categories:

    a. Software: National brand name Microsoft, Google, Oracle, Enterprise applications/solutions, cyber security applications/solutions, etc.

    b. Personal Computer Systems: National brand name desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise Tier and Middle Tier Contractors that are business related computers, manufactured by companies, such as, Apple, COMPAQ, Dell, Gateway, Hewlett Packard, IBM / Lenovo, Panasonic, and Toshiba. Product will include the operating system license, software media and documentation in the hardware shipment.

    c. Standard Business Workstation: These will be used for typical tasks, which will include word processing, spreadsheet analysis, database management, business graphics, statistical analysis, internet, and other office automation activities. Product will include the operating system license, software media and documentation in the hardware shipment.

    d. High End Workstation: These will be used by application developers using GIS, CASE or other high-level language development tools, Computer Aided Design and Drafting professional, Internet Application developers or other sophisticated application work. Product will include the operating system license, software media and documentation in the hardware shipment.

    e. Laptop Computer or Notebook: These will be used by traveling or remote access user for typical office automation and business productivity use. With a port replicator or docking station, it may also be used as a standard desktop. Product will include the operating system license, software media and documentation in the hardware shipment.

    f. Network Equipment: This includes equipment primarily used for communications over an IP network. This includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces (i.e. serial, T1, T3, OC3) and fiber channel. Class of equipment should include home office, small and medium business, and enterprise. Contractors may include, but

not limited to, Cisco Systems, Dell, Juniper Networks, HP, Extreme Networks, Enterasys Networks, D-Link, Netgear, and Brocade Communications Systems.

g. Monitors: These will include plug and play compatible monitors that are manufactured for the above systems and/or any other brand that may be specifically called for by the ordering entity and which meet the most current UL and OSHA requirements.

h. Computer and Network Products, Peripherals, Accessories, and Components: Complete availability of major manufacturer's product lines on items such as, but not limited to RAM, graphic accelerator cards, network interface cards, cables, printers, scanners, monitors, AV equipment, unified communications hardware, mobility hardware, modems, routers, switches, keyboards, drives, memory cards, cables, batteries, power management, supplies, etc.

i. Information Technology/Educational Furniture: Includes furniture design, delivery, installation, parts, maintenance, and repair and replacement.

j. Services: Services such as, but not limited to cloud computing, consulting, technical support, leasing/financing, trade-ins, repair, design, analysis, configuration, implementation, installation, training, maintenance, advisory, managed and support services, staff augmentation, professional services, etc. In addition, services that are related to the design, use, or operation of the products being purchased such as system configurations, testing, hardware/software installation, upgrades, imaging, etc. Services may also include materials, equipment, and supplies provided by the Reseller under an SOW.

Note: All hardware should come assembled. For example, if extra memory, additional drives, or peripherals are ordered, the Contractor must install them unless the Participating Agency requests, that they not be installed.

k. Comprehensive Product Offering: Offeror's complete catalog and services offered shall be available. Each offeror awarded a contract under this solicitation may offer their complete product and service offering. Pricing for products and services must be entered on the appropriate section of the Price Page. The City reserves the right to accept or reject any or all items offered.

l. Financing: Options available such as lease programs and conditional sales contracts.

5. **LICENSES.** Participating Agencies may be required to sign a separate agreement, rider, or End User Licensing Agreement ("EULA"), etc., as required by manufacturers.

6. **DEFECTIVE PRODUCT.** All defective products shall be replaced and exchanged by the Contractor. The cost of transportation, unpacking, inspection, re-packing, re-shipping, or other like expenses shall be paid by the Contractor. All replacement products must be received by the City within seven (7) business days of initial notification.

33. **SUPPLEMENTAL PRODUCTS AND SERVICES:** The scope described in this RFP and resulting contract(s) is preliminary in nature and intended to provide Contractors with a general overview of the major tasks envisioned as part of this solicitation. The City reserves the right to expand and/or reduce the Project Objectives as may be appropriate based on the technical content of the successful Contractor's proposal and/or during contract negotiations based on budget considerations.

CDW•G- City of MESA- Contract Pricing Structure & Management

CDW•G has conformed to the National Pricing Discount structure aligning to the table above- However, CDW•G will manage the resultant contract in accordance with CDW•G's taxonomy in tables below, which shall govern all purchases under the resultant contract - This provides complete representation of CDW•G's offerings aligned with the scope of the RFP, while maintaining continuity for the City and OMNIA PPA's under the incumbent contract.

Pricing will be applied to the resultant contract, as listed in the tables below- Table 1 is based on Discount % off CDW•G's Nationally Advertised Pricing (NAP), publicly verifiable at www.cdwg.com. Additionally, certain Groups and Products such as Cloud offerings under Group 10, Services pricing under Group 11 and Group 12 are highlighted under Table 2 and 3.

Table 1- CDWG Pricing

Category	Minimum Discount off CDW•G Advertised
Accessories (A)	7.50%
Power, Cooling & Racks (B)	5.00%
Desktop Computers (C)	3.25%
Data Storage/Drives (D)	6.00%
Enterprise Storage (E)	6.00%
Point of Sale/Data Capture (F)	4.25%
Servers & Server Management (H)	5.00%
Services (CDW Delivered) (J)*	0.00%
Notebook/Mobile Devices (L)	4.00%
Chromebooks (CBK)	0.00%
NetComm Products (N)	7.00%

Carts and Furniture (O)	6.00%
Printing & Document Scanning (P)	3.00%
Services (Partner Delivered) (Q)*	5.00%
Client Configure-to-Order (R)	3.25%
Software (S)	4.00%
Collaboration Hardware (T)	6.00%
Video & Audio (V)	5.00%
Cables (W)	15.00%
Apple (All Categories)	0.50%

CDW•G is pleased to offer the City of Mesa and OMNIA Partners Participating Public Agencies ("PPA") a discount off CDW•G Nationally Advertised Pricing (NAP) structure.

Cloud offerings are constantly evolving and increasingly complex, with a range of subscription and consumption-based offerings, SaaS, IaaS, PaaS, among others. CDW•G's pricing is based on Discount 0% off MSRP where available to CDW•G. In cases where MSRP pricing is not available and/or the offering is unique, pricing will be based on CDW•G invoiced price. This structure provides the necessary flexibility, to enable the City of Mesa and OMNIA Partners Participating Public Agencies to make purchases offerings, as cloud offerings evolve, through life of our contract.

The City of Mesa and OMNIA Partners Participating Public Agencies acknowledge that CDW•G is not the provider of the Cloud Services and in purchasing the Cloud Services, City of Mesa, OMNIA Partners, and Participating Public Agencies rely only on the Cloud Service.

Provider's service descriptions and the terms and conditions set forth in the Cloud Provider's Services Terms and Conditions. Accordingly, City of Mesa and OMNIA Partners shall consider the Cloud Service Provider to be the party responsible for providing the Cloud Services and City of Mesa, OMNIA Partners, and its members/participating entities, may be required to execute additional agreements, prior to provisioning/purchase of certain cloud offering.

CDW•G will provide Customer with a discount as a percentage off of CDW•G's Nationally Advertised Price (NAP) for the CDW•G defined Product Categories listed above, provided that Customer references this Agreement when placing an order with CDW•G.

Prices include lowest ground freight within the 48 contiguous United States when referencing this Agreement. All orders are subject to CDW•G's standard shipping policies in effect at the time of order placement. In those instances that call for express or overnight delivery, shipping costs will be pre-paid by CDW•G and added to the customer invoice.

Clarifications
*These are services tied to CDW•G internal taxonomy J and Q, which includes subset of offerings such as configurations, warranty, and specific installation services, and are not subject to a Statement of Work. These do not include the services broken out in the individual tabs, including other professional services, which require a mutually executed Statement of Work between CDW•G and Customer.

Table 2

For group 12, specialized offerings not specifically contemplated under this RFP but existing under the scope of Technology offerings, CDW•G and OMNIA PPA will mutually agree upon/execute document, such as a Statement of Work (SOW), and pricing will be based on CDW•G invoice.

Table 3

For Services under Group 11, we have included rate cards with hourly rates/services pricing for the following categories:

Digital Velocity Services
ServiceNow Services
Amplified IT Services
Staff Augmentation Services
Managed Services
Other Professional Services

For all hourly rates proposed by CDW•G in this pricing file and contained within our proposal, our offer is contingent on a 5% year over year escalation, on the contract's annual anniversary date, which will act as a not to exceed rate. Given the timespan between submission and official award and contract start dates, CDW•G reserves the right to impose up to an additional, one-time 5% increase in the first year of this agreement on or after May 1, 2024 to ensure alignment with standard rate adjustments.

CDW•G has been very successful in managing labor rates during unstable market conditions including taking advantage of our vast in-house, in-market resources and certified, approved subcontract pool while also leveraging remote services, where practical and applicable. During the contract term, CDW•G reserves the right to propose changes to labor rate categories to reflect extraordinary market conditions which might impact labor rates and present to City of Mesa and OMNIA Partners for review and approval. City of Mesa and OMNIA Partners will review and approve such rates through a mutually agreed upon amendment no later than 30 calendar days upon presentation.

Services requiring a specific Statement of Work (SoW) must be mutually executed between the customer and CDW•G before work begins. We have provided a sample SoW at the end of Tab E in our response.

For any service engagement, if there are applicable Travel and Expenses (T&E) charges, they will be agreed and mutually executed upon in a comprehensive Statement of Work. However, CDW•G will utilize its national footprint of service providers and in-market engineers. We also utilize remote technologies and services where applicable to mitigate such expenses.

Digital Velocity Services	
Role	**Hourly Rate**
DVS F-CTO	$350.00
DVS Digital Strategy Consultant	$305.00
DVS Digital Product Strategist	$270.00
DVS Principal Engineer/Tech Lead	$350.00
DVS Architect	$300.00
DVS Senior Engineer	$250.00
DVS Engineer	$225.00
DVS Associate Engineer	$200.00
DVS Program Manager	$245.00
DVS Sr. Technical Project Manager	$230.00
DVS Technical Project Manager	$205.00
DVS Project Coordinator	$165.00

ServiceNow Solutions Services	
Role	**Hourly Rate**
ServiceNow Associate Project Manager	$165.00
ServiceNow Associate Consulting Engineer	$170.00
ServiceNow Engagement Manager	$235.00
ServiceNow Business Process Consultant	$255.00
ServiceNow Principal Consultant	$275.00
ServiceNow Organizational Change Management Consultant	$275.00
ServiceNow Integration Expert	$250.00
ServiceNow Quality Assurance Expert	$200.00
ServiceNow Solution Architect	$255.00
ServiceNow Technical Consultant/Developer	$220.00
ServiceNow Trainer	$235.00

Managed Services	
Managed Service Basic/Essential/Premium Support for AWS, GCP, and AZURE	**Monthly Price*** Fees are based on a percentage of the customer's actual consumption of AWS, GCP, Azure services
Basic Service - $0 to 10K	As Invoiced
Basic Service - $10K to $250K	As Invoiced
Basic Service - $250K+	As Invoiced
Essential Service - $0 to $35K	As Invoiced
Essential Service - $35 to $75K	As Invoiced
Essential Service - $75K+	As Invoiced

Premium Service - $0 to $100K	As Invoiced
Premium Service - $100K to $250K	As Invoiced
Premium Service - $250K+	As Invoiced
*If CDW•G is billing the customer for Basic consumption, no pricing uplift is applied.	

Basic

Included with CDW billing for cloud consumption

Stand-alone pricing (Consumption direct with vendor):

$49/month if under $1,000
5% = $1,001 to $10,000
3% = $10,001 to $250,000
2.5% = $250,001+

Essential

$400/month if under $2,250
18 % = $2,251 to $35,000
15% = $35,001 to $75,000
12% = $75,001+

Premium

Pick Two

$2,500/month if under $10,000
25 % = $10,001 to $100,000
20% = $100,001 to $250,000
15% = $250,001 +

OS & DB Bundle

$3,000/month if under 10,000
33 % = $10,001 to $100,000
28% = $100,001 to $250,000
23% = $250,001 +

PERCENTAGE BASED ON MONTHLY CLOUD CONSUMPTION

The offered pricing discount below applies to a la carte and bundle packages of Gopher applications.

Amplified IT SaaS Offerings*	
Option	**Discount off MSRP**
Gopher products	2%
Little SIS	2%

SaaS items are priced at a 2% Discount off MSRP. Amplified IT MSRP can be found at the following link: https://www.amplifiedit.com/msrp/

Amplified Services	
Google for Educations (GFE)	
Option	**Discount off MSRP**
GFE Audit - K-12	2%
GFE Audit - Higher Ed	2%

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

1. **INDEPENDENT CONTRACTOR.** It is expressly understood that the relationship of Contractor to the City will be that of an independent contractor. Contractor and all persons employed by Contractor, either directly or indirectly, are Contractor's employees, not City employees. Accordingly, Contractor and Contractor's employees are not entitled to any benefits provided to City employees including, but not limited to, health benefits, enrollment in a retirement system, paid time off or other rights afforded City employees. Contractor employees will not be regarded as City employees or agents for any purpose, including the payment of unemployment or workers' compensation. If any Contractor employees or subcontractors assert a claim for wages or other employment benefits against the City, Contractor will defend, indemnify and hold harmless the City from all such claims.

2. **SUBCONTRACTING.** Contractor may not subcontract work under this Agreement without the express written permission of the City. If Contractor has received authorization to subcontract work, it is agreed that all subcontractors performing work under the Agreement must comply with its provisions. Further, all agreements between Contractor and its subcontractors must provide that the terms and conditions of this Agreement be incorporated therein.

3. **ASSIGNMENT.** This Agreement may not be assigned either in whole or in part without first receiving the City's written consent. Any attempted assignment, either in whole or in part, without such consent will be null and void and in such event the City will have the right at its option to terminate the Agreement. No granting of consent to any assignment will relieve Contractor from any of its obligations and liabilities under the Agreement.

4. **SUCCESSORS AND ASSIGNS, BINDING EFFECT.** This Agreement will be binding upon and inure to the benefit of the parties and their respective permitted successors and assigns.

5. **NO THIRD-PARTY BENEFICIARIES.** This Agreement is intended for the exclusive benefit of the parties. Nothing set forth in this Agreement is intended to create, or will create, any benefits, rights, or responsibilities in any third parties.

6. **NON-EXCLUSIVITY.** The City, in its sole discretion, reserves the right to request the materials or services set forth herein from other sources when deemed necessary and appropriate. No exclusive rights are encompassed through this Agreement.

7. **AMENDMENTS.** There will be no oral changes to this Agreement. This Agreement can only be modified in a writing signed by both parties. No charge for extra work or material will be allowed unless approved in writing, in advance, by the City and Contractor.

8. **TIME OF THE ESSENCE.** Time is of the essence to the performance of the parties' obligations under this Agreement.

9. **COMPLIANCE WITH APPLICABLE LAWS.**

a. **General.** Contractor must procure all permits and licenses, and pay all charges and fees necessary and incidental to the lawful conduct of business. Contractor must stay fully informed of existing and future federal, state, and local laws, ordinances, and regulations that in any manner affect the fulfillment of this Agreement and must comply with the same at its own expense. Contractor bears full responsibility for training, safety, and providing necessary equipment for all Contractor personnel to achieve throughout the term of the Agreement. Upon request, Contractor will demonstrate to the City's satisfaction any programs, procedures, and other activities used to ensure compliance.

b. **Drug-Free Workplace.** Contractor is hereby advised that the City has adopted a policy establishing a drug-free workplace for itself and those doing business with the City to ensure the safety and health of all persons working on City contracts and projects. Contractor will require a drug-free workplace for all Contractor personnel working under this Agreement. Specifically, all Contractor personnel who are working under this Agreement must be notified in writing by Contractor that they are prohibited from the manufacture, distribution, dispensation, possession, or unlawful use of a controlled substance in the workplace.

Contractor agrees to prohibit the use of intoxicating substances by all Contractor personnel, and will ensure that Contractor personnel do not use or possess illegal drugs while in the course of performing their duties.

c. **Federal and State Immigration Laws.** Contractor agrees to comply with the Immigration Reform and Control Act of 1986 (IRCA) in performance under this Agreement and to permit the City and its agents to inspect applicable personnel records to verify such compliance as permitted by law. Contractor will ensure and keep appropriate records to demonstrate that all Contractor personnel have a legal right to live and work in the United States.

i. As applicable to Contractor, under the provisions of A.R.S. § 41-4401, Contractor hereby warrants to the City that Contractor and each of its subcontractors will comply with, and are contractually obligated to comply with, all federal immigration laws and regulations that relate to their employees and A.R.S. § 23-214(A) (hereinafter "Contractor Immigration Warranty").

ii. A breach of the Contractor Immigration Warranty will constitute as a material breach of this Agreement and will subject Contractor to penalties up to and including termination of this Agreement at the sole discretion of the City.

iii. The City retains the legal right to inspect the papers of all Contractor personnel who provide services under this Agreement to ensure that Contractor or its subcontractors are complying with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any such inspections.

iv. The City may, at its sole discretion, conduct random verification of the employment records of Contractor and any subcontractor to ensure compliance with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any random verification performed.

v. Neither Contractor nor any subcontractor will be deemed to have materially breached the Contractor Immigration Warranty if Contractor or subcontractor establishes that it has complied with the employment verification provisions prescribed by Sections 274A and 274B of the Federal Immigration and Nationality Act and the E-Verify requirements prescribed by A.R.S. § 23-214 (A).

d. **Nondiscrimination.** Contractor represents and warrants that it does not discriminate against any employee or applicant for employment or person to whom it provides services because of race, color, religion, sex, national origin, or disability, and represents and warrants that it complies with all applicable federal, state, and local laws and executive orders regarding employment. Contractor and Contractor's personnel will comply with applicable provisions of Title VII of the U.S. Civil Rights Act of 1964, as amended, Section 504 of the Federal Rehabilitation Act, the Americans with Disabilities Act (42 U.S.C. § 12101 et seq.), and applicable rules in performance under this Agreement.

e. **State Sponsors of Terrorism Prohibition.** Per A.R.S. § 35-392, Contractor must not be in violation of section 6U) of the Federal Export Administration Act and subsequently prohibited by the State of Arizona from selling goods of services to the City.

10. **SALES/USE TAX, OTHER TAXES.**

a. Contractor is responsible for the payment of all taxes including federal, state, and local taxes related to or arising out of Contractor's services under this Agreement, including by way of illustration but not limitation, federal and state income tax, Social Security tax, unemployment insurance taxes, and any other taxes or business license fees as required. If any taxing authority should deem Contractor or Contractor employees an employee of the City, or should otherwise claim the City is liable for the payment of taxes that are Contractor's responsibility under this Agreement, Contractor will indemnify the City for any tax liability, interest, and penalties imposed upon the City.

b. The City is exempt from paying certain federal excise taxes and will furnish an exemption certificate upon request. The City is <u>not</u> exempt from state and local sales/use taxes.

11. **AMOUNTS DUE THE CITY.** Contractor must be current and remain current in all obligations due to the City during the performance of Services under the Agreement. Payments to Contractor may be offset by any delinquent amounts due the City or fees and charges owed to the City.

12. **PUBLIC RECORDS.** Contractor acknowledges that the City is a public entity, subject to Arizona's public records laws (A.R.S. § 39-121 et. seq.) and that any documents related to this Agreement may be subject to disclosure pursuant to state law in response to a public records request or to subpoena or other judicial process.

    a. If Contractor believes document related to the Agreement contains trade secrets or other proprietary data, Contractor must notify the City and include with the notification a statement that explains and supports Contractor's claim. Contractor also must specifically identify the trade secrets or other proprietary data that Contractor believes should remain confidential.

    b. In the event the City determines it is legally required to disclose pursuant to law any documents or information Contractor deems confidential trade secrets or proprietary data, the City, to the extent possible, will provide Contractor with prompt written notice by certified mail, fax, email or other method that tracks delivery status of the requirement to disclose the information so Contractor may seek a protective order from a court having jurisdiction over the matter or obtain other appropriate remedies. The notice will include a time period for Contractor to seek court ordered protection or other legal remedies as deemed appropriate by Contractor. If Contractor does not obtain such court ordered protection by the expiration of said time period, the City may release the information without further notice to Contractor.

13. **AUDITS AND RECORDS.** Contractor must preserve the records related to this Agreement for five (5) years after completion of the Agreement. The City or its authorized agent reserves the right to inspect any records related to the performance of work specified herein. In addition, the City may inspect any and all payroll, billing or other relevant records kept by Contractor in relation to the Agreement. Contractor will permit such inspections and audits during normal business hours and upon reasonable notice by the City. The audit of records may occur at Contractor's place of business or at City offices, as determined by the City. Notwithstanding the foregoing, any Agreement audits must be pursuant to a signed Confidentiality Agreement agreed to by both parties which will be subject to applicable law, including the Arizona Public Records law. Contractor is not required to keep original documents and copies of relevant documents will suffice for the purposes of this provision. The audit must be conducted during regular business hours at a mutually agreeable time and location, and upon reasonable advanced notice of records to be audited.

14. **BACKGROUND CHECK.** The City may conduct criminal, driver history, and all other requested background checks of Contractor personnel who would perform services under the Agreement or who will have access to the City's information, data, or facilities in accordance with the City's current background check policies. Any officer, employee, or agent that fails the background check must be replaced immediately for any reasonable cause not prohibited by law.

15. **SECURITY CLEARANCE AND REMOVAL OF CONTRACTOR PERSONNEL.** The City will have final authority, based on security reasons: (i) to determine when security clearance of Contractor personnel is required; (ii) to determine the nature of the security clearance, up to and including fingerprinting Contractor personnel; and (iii) to determine whether or not any individual or entity may provide services under this Agreement. If the City objects to any Contractor personnel for any reasonable cause not prohibited by law, then Contractor will, upon notice from the City, remove any such individual from performance of services under this Agreement.

16. **DEFAULT.**

    a. A party will be in default if that party:

        i. Is or becomes insolvent or is a party to any voluntary bankruptcy or receivership proceeding, makes an assignment for a creditor, or there is any similar action that affects Contractor's capability to perform under the Agreement;

ii. Is the subject of a petition for involuntary bankruptcy not removed within sixty (60) calendar days;

iii. Conducts business in an unethical manner as set forth in the City Procurement Rules Article 7 or in an illegal manner; or

iv. Fails to carry out any term, promise, or condition of the Agreement.

b. Contractor **will** be in default of this Agreement if Contractor is debarred from participating in City procurements and solicitations in accordance with Article 6 of the City's Procurement Rules.

c. **Notice and Opportunity to Cure.** In the event a party is in default then the other party may, at its option and at any time, provide written notice to the defaulting party of the default. The defaulting party will have thirty (30) days from receipt of the notice to cure the default; the thirty (30) day cure period may be extended by mutual agreement of the parties, but no cure period may exceed ninety (90) days. A default notice will be deemed to be sufficient if it is reasonably calculated to provide notice of the nature and extent of such default. Failure of the non- defaulting party to provide notice of the default does not waive any rights under the Agreement.

d. **Anticipatory Repudiation.** Whenever the City in good faith has reason to question Contractor's intent or ability to perform, the City may demand that Contractor give a written assurance of its intent and ability to perform. In the event that the demand is made and no written assurance is given within five (5) calendar days, the City may treat this failure as an anticipatory repudiation of the Agreement.

17. **REMEDIES.** The remedies set forth in this Agreement are not exclusive. Election of one remedy will not preclude the use of other remedies. In the event of default:

a. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.

b. The City may purchase the services required under the Agreement from the open market, complete required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute services exceeds the contract price, the City may recover the excess cost by: (i) requiring immediate reimbursement to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and/or performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as provided by law. Costs includes any and all, fees, and expenses incurred in obtaining substitute services and expended in obtaining reimbursement, including, but not limited to, administrative expenses, attorneys' fees, and costs.

c. The non-defaulting party will have all other rights granted under this Agreement and all rights at law or in equity that may be available to it.

d. Neither party will be liable for incidental, special, or consequential damages.

18. **CONTINUATION DURING DISPUTES.** Contractor agrees that during any dispute between the parties, Contractor will continue to perform its obligations until the dispute is settled, instructed to cease performance by the City, enjoined or prohibited by judicial action, or otherwise required or obligated to cease performance by other provisions in this Agreement.

19. **TERMINATION FOR CONVENIENCE.** The City reserves the right to terminate this Agreement in part or in whole upon thirty (30) calendar days' written notice.

20. **TERMINATION FOR CONFLICT OF INTEREST (A.R.S. § 38-511).** Pursuant to A.R.S. § 38-511, the City may cancel this Agreement within three (3) years after its execution, without penalty or further obligation, if any person significantly involved in initiating, securing, drafting, or creating the Agreement for the City becomes an employee or agent of Contractor.

21. **TERMINATION FOR NON-APPROPRIATION AND MODIFICATION FOR BUDGETARY CONSTRAINT.** The City is a governmental agency which relies upon the appropriation of funds by its governing body to satisfy its obligations. If the City reasonably determines that it does not have funds to meet its obligations under this Agreement, the City will have the right to terminate the

Agreement without penalty on the last day of the fiscal period for which funds were legally available. In the event of such termination, the City agrees to provide written notice of its intent to terminate thirty (30) calendar days prior to the stated termination date.

22. **PAYMENT TO CONTRACTOR UPON TERMINATION.** Upon termination of this Agreement, Contractor will be entitled only to payment for those services performed up to the date of termination, and any authorized expenses already incurred up to such date of termination. The City will make final payment within thirty (30) calendar days after the City has both completed its appraisal of the materials and services provided and received Contractor's properly prepared final invoice.

23. **NON-WAIVER OF RIGHTS.** There will be no waiver of any provision of this agreement unless approved in writing and signed by the waiving party. Failure or delay to exercise any rights or remedies provided herein or by law or in equity, or the acceptance of, or payment for, any services hereunder, will not release the other party of any of the warranties or other obligations of the Agreement and will not be deemed a waiver of any such rights or remedies.

24. **INDEMNIFICATION/LIABILITY.**

a. To the fullest extent permitted by law, Contractor agrees to defend, indemnify, and hold the City, its officers, agents, and employees, harmless from and against any and all liabilities, demands, claims, suits, losses, damages, causes of action, fines or judgments, including costs, attorneys', witnesses', and expert witnesses' fees, and expenses incident thereto, relating to, arising out of, or resulting from: (i) misconduct by Contractor personnel under this Agreement; (ii) any negligent acts, errors, mistakes or omissions by Contractor or Contractor personnel; and (iii) Contractor or Contractor personnel's failure to comply with this Agreement. However, notwithstanding the prior sentence, any claim shall not be an indemnified claim if such claim or damage was caused in whole by the actions of the City, its employees, agents, contractors or representatives.

b. Contractor will update the City during the course of the litigation to timely notify the City of any issues that may involve the independent negligence of the City that is not covered by this indemnification.

c. The City assumes no liability for actions of Contractor and will not indemnify or hold Contractor or any third party harmless for claims based on this Agreement or use of Contractor-provided supplies or Services.

d. IN THE EVENT OF ANY LIABILITY INCURRED BY CONTRACTOR OR ANY OF ITS AFFILIATES HEREUNDER, INCLUDING INDEMNIFICATION OF CITY BY CONTRACTOR, THE ENTIRE LIABILITY OF CONTRACTOR AND ITS AFFILIATES FOR DAMAGES FROM ANY CAUSE WHATSOEVER WILL NOT EXCEED $5,000,000.00 OVER THE ENTIRE TERM OF THE AGREEMENT.

25. **WARRANTY.** Contractor warrants that the services and materials will conform to the requirements of Exhibit A. Additionally, Contractor warrants that all services will be performed in a good, workman-like and professional manner, as stated below.

a. Manufacturer's Warranty. The City understands that the Contractor is not the manufacturer of the products purchased by the City hereunder and the only materials (product) warranties offered are those of the manufacturer, not the Contractor or its affiliates unless the manufacturer is the Contractor or its affiliates. THE CONTRACTOR AND ITS AFFILIATES HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES EITHER EXPRESS OR IMPLIED, RELATED TO PRODUCTS, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF TITLE, ACCURACY, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WARRANTY OF NONINFRINGEMENT, OR ANY WARRANTY RELATING TO THIRD PARTY SERVICES. THE DISCLAIMER CONTAINED IN THIS PARAGRAPH DOES NOT AFFECT THE TERMS OF ANY MANUFACTURER'S WARRANTY.

b. Services Warranty. City's sole and exclusive remedy with respect to a warranty on the Services provided by Contractor will be, at the sole option of Contractor, to either: (a) use its reasonable commercial efforts to reperform any services not in substantial compliance with this warranty, or (b) refund amounts paid by City related to the portion of the services not in substantial

compliance; provided, in each case, City notifies Contractor in writing within five (5) business days after performance of the applicable Services. City shall be solely responsible for daily back-up and other protection of its data and software against loss, damage or corruption during the performance of services and for any necessary reconstruction thereof.

c. Third Party Services Warranty. In connection with the products (materials), certain services, such as extended warranty service by manufacturers, are sold by the Contractor as a distributor or sales agent ("Third Party Services"). In the case of Third Party Services, the third party will be the party responsible for providing the services to the City and the City will look to the third party for any loss, claims or damages arising from or related to the provision of such Third- Party Services. Any amounts, including, but not limited to, taxes, associated with Third Party Services which may be collected by the Contractor will be collected solely in the capacity as an independent sales agent.

26. **THE CITY'S RIGHT TO RECOVER AGAINST THIRD PARTIES.** Contractor will do nothing to prejudice the City's right to recover against third parties for any loss, destruction, or damage to City property, and will at the City's request and expense, furnish to the City reasonable assistance and cooperation, including assistance in the prosecution or defense of suit and the execution of instruments of assignment in favor of the City in obtaining recovery.

27. **NO GUARANTEE OF WORK.** Contractor acknowledges and agrees that it is not entitled to deliver any specific amount of materials or services or any materials or services at all under this Agreement and acknowledges and agrees that the materials or services will be requested by the City on an as needed basis at the sole discretion of the City. Any document referencing quantities or performance frequencies represent the City's best estimate of current requirements, but will not bind the City to purchase, accept, or pay for materials or services which exceed its actual needs.

28. **OWNERSHIP.**

a. Except as it pertains to the Work Product in Subsection (b) below, all deliverables, services, and information provided by Contractor or the City pursuant to this Agreement (whether electronically or manually generated) including without limitation, reports, test plans, and survey results, graphics, and technical tables, originally prepared in the performance of this Agreement, are the property of the City and will not be used or released by Contractor or any other person except with prior written permission by the City.

b. City's rights to Work Product (meaning deliverables to be provided or created individually or jointly in connection with the services, not materials, provided by Contractor, including but not limited to, all inventions, discoveries, methods, processes, formulae, ideas, concepts, techniques, know-how, data, designs, models, prototypes, works of authorship, computer programs, proprietary tools, methods of analysis and other information, whether or not capable of protection by patent, copyright, trade secret, confidentiality, or other proprietary rights, or discovered in the course of performance of this Agreement that are embodied in such work or materials) will be, upon payment in full, a non-transferable, non-exclusive, royalty-free license to use such Work Product solely for City's internal use. City obtains no ownership or other property rights thereto. City agrees that Contractor may incorporate intellectual property created by third parties into the Work Product and that City's right to use such Work Product may be subject to the rights of, and limited by agreements with, such third parties

29. **USE OF NAME.** Contractor will not use the name of the City of Mesa in any advertising or publicity without obtaining the prior written consent of the City.

30. **PROHIBITED ACTS.** Pursuant to A.R.S. § 38-504, a current or former public officer or employee within the last twelve (12) months shall not represent another organization before the City on any matter for which the officer or employee was directly concerned and personally participated in during their service or employment or over which they had a substantial or material administrative discretion.

Further, while employed by the City and for two (2) years thereafter, public officers or employees are prohibited from disclosing or using, without appropriate authorization, any confidential information acquired by such personnel in the course of his or her official duties at the City.

31. **FOB DESTINATION FREIGHT PREPAID AND ALLOWED.** All deliveries will be FOB destination freight prepaid and allowed unless otherwise agreed.

32. **RISK OF LOSS.** Contractor agrees to bear all risks of loss, injury, or destruction of Contractor's goods or equipment incidental to providing these services and such loss, injury, or destruction will not release Contractor from any obligation hereunder.

33. **SAFEGUARDING CITY PROPERTY.** Contractor will be responsible for any damage to City real property or damage or loss of City personal property when such property is the responsibility of or in the custody of Contractor or its employees.

34. **WARRANTY OF RIGHTS.** Contractor warrants it has title to, or the right to allow the City to use, the materials and services being provided and that the City may use same without suit, trouble or hindrance from Contractor or third parties. Notwithstanding the foregoing, title to third party software, the licenses to which are resold by Contractor, will remain with the third party. City's rights in such software are specified in the license agreement between such third party and City

35. **PROPRIETARY RIGHTS INDEMNIFICATION.** Without limiting the foregoing, Contractor will at its expense defend the City against all claims asserted by any person that anything provided by Contractor infringes a patent, copyright, trade secret or other intellectual property right (collectively "Claim") and must, without limitation, pay the costs, damages and attorneys' fees awarded against the City in any Claim, or pay any settlement of such Claim. Each party agrees to notify the other promptly of any matters to which this provision may apply and to cooperate with each other in connection with such defense or settlement. If a preliminary or final judgment is obtained against the City's use or operation of the items provided by Contractor hereunder or any part thereof by reason of any alleged infringement, Contractor will, at its sole option and its expense and without limitation, either: (a) modify the item so that it becomes non-infringing; (b) procure for the City the right to continue to use the item; (c) substitute for the infringing item other item(s) having at least equivalent capability; or (d) refund to the City an amount equal to the price paid, less reasonable usage, from the time of installation acceptance through cessation of use, which amount will be calculated on a useful life not less than five (5) years based on a five (5) year straight line amortized basis. The forgoing provisions in this Section state the entire liability of Contractor and the sole and exclusive remedy of the City with respect to any Claim. Contractor shall have no liability or obligation to the City to the extent any Claim is based upon: (i) any combination of anything provided by Contractor with other software, hardware or other materials not authorized by Contractor or manufacturer; or (ii) any addition to, or modification of, anything provided by Contractor made after delivery to the City by any person other than Contractor.

36. **CONTRACT ADMINISTRATION.** The contract will be administered by the Purchasing Administrator and/or an authorized representative from the using department. All questions regarding the contract will be referred to the administrator for resolution. Supplements may be written to the contract for the addition or deletion of services. Payment will be negotiated and determined by the contract administrator(s).

37. **FORCE MAJEURE.** Failure by either party to perform its duties and obligations will be excused by unforeseeable circumstances beyond its reasonable control, including acts of nature, acts of the public enemy, riots, fire, explosion, legislation, and governmental regulation. The party whose performance is so affected will within five (5) calendar days of the unforeseeable circumstance notify the other party of all pertinent facts and identify the force majeure event. The party whose performance is so affected must also take all reasonable steps, promptly and diligently, to prevent such causes if it is feasible to do so, or to minimize or eliminate the effect thereof. The delivery or performance date will be extended for a period equal to the time lost by reason of delay, plus such additional time as may be reasonably necessary to overcome the effect of the delay, provided however, under no circumstances will delays caused by a force majeure extend beyond one hundred-twenty (120) calendar days from the scheduled delivery or completion date of a task unless agreed

upon by the parties.

38. **COOPERATIVE USE OF CONTRACT.** This contract is available through National OMNIA Partnersto agencies nationwide. The City has also entered into various cooperative purchasing agreements with other Arizona government agencies, including the Strategic Alliance for Volume Expenditures (SAVE) cooperative. Under the SAVE Cooperative Purchasing Agreement, any contract may be extended for use by other municipalities, school districts and government agencies through National IPA or SAVE in the State of Arizona with the approval of Contractor. Any such usage by other entities must be in accordance with the statutes, codes, ordinances, charter and/or procurement rules and regulations of the respective government agency.

    A contractor, subcontractor or vendor or any employee of a contractor, subcontractor or vendor who is contracted to provide services on a regular basis at an individual school shall obtain a valid fingerprint clearance card pursuant to title 41, chapter 12, article 3.1. A school district governing board shall adopt policies to exempt a person from the requirements of this subsection if the person's normal job duties are not likely to result in independent access to or unsupervised contact with pupils. A school district, its governing board members, its school council members and its employees are exempt from civil liability for the consequences of adoption and implementation of policies and procedures pursuant to this subsection unless the school district, its governing board members, its school council members or its employees are guilty of gross negligence or intentional misconduct.

    Additionally, Contractor will comply with the governing body's fingerprinting policy of each individual school district and public entity. Contractor, subcontractors, vendors and their employees will not provide services on school district properties until authorized by the school district.

    Orders placed by other agencies and payment thereof will be the sole responsibility of that agency. The City is not responsible for any disputes arising out of transactions made by others. The City is not a party to any agreements between the Contractor and National IPA, National IPA and other agencies, the Contractor and other agencies, or any third-party contracts in any way related to this Agreement or the cooperative use of this Agreement.

39. **FUEL CHARGES AND PRICE INCREASES.** No fuel surcharges will be accepted. No price increases will be accepted without proper request by Contractor and response by the City's Purchasing Division.

40. **NOTICES.** All notices to be given pursuant to this Agreement must be delivered to the parties at their respective addresses. Notices may be (i) personally delivered; (ii) sent via certified or registered mail, postage prepaid; (iii) sent via overnight courier; or (iv) sent via email or facsimile. If provided by personal delivery, receipt will be deemed effective upon delivery. If sent via certified or registered mail, receipt will be deemed effective three (3) calendar days after being deposited in the United States mail. If sent via overnight courier, email or facsimile, receipt will be deemed effective two (2) calendar days after the sending thereof.

41. **GOVERNING LAW, FORUM.** This Agreement is governed by the laws of the State of Arizona. The exclusive forum selected for any proceeding or suit in law or equity arising from or incident to this Agreement will be Maricopa County, Arizona.

42. **INTEGRATION CLAUSE.** This Agreement, including all attachments and exhibits hereto, supersede all prior oral or written agreements, if any, between the parties and constitutes the entire agreement between the parties with respect to the work to be performed.

43. **PROVISIONS REQUIRED BY LAW.** Any provision required by law to be in this Agreement is a part of this Agreement as if fully stated in it.

44. **SEVERABILITY.** If any provision of this Agreement is declared void or unenforceable, such provision will be severed from this Agreement, which will otherwise remain in full force and effect. The parties will negotiate diligently in good faith for such amendment(s) of this Agreement as may be necessary

to achieve the original intent of this Agreement, notwithstanding such invalidity or unenforceability.

45. **SURVIVING PROVISIONS.** Notwithstanding any completion, termination, or other expiration of this Agreement, all provisions which, by the terms of reasonable interpretation thereof, set forth rights and obligations that extend beyond completion, termination, or other expiration of this Agreement, will survive and remain in full force and effect. Except as specifically provided in this Agreement, completion, termination, or other expiration of this Agreement will not release any party from any liability or obligation arising prior to the date of termination.

46. **A.R.S. SECTIONS 1-501 and 1-502.** Pursuant to Arizona Revised Statutes Sections 1-501 and 1-502, any person who applies to the City for a local public benefit (the definition of which includes a grant, contract or loan) must demonstrate his or her lawful presence in the United States. As the Agreement is deemed a local public benefit, if Contractor is an individual (natural) person or sole proprietorship, Contractor agrees to sign and submit the necessary documentation to prove compliance with the statutes as applicable.

47. **PCI DSS COMPLIANCE.** In the event any Contractor engages in payment card transactions as a part of the services provided to City, Contractor shall comply with the Payment Card Industry Data Security Standards ("PCI DSS") and any amendments or restatements of the PCI DSS duringthe Term of this Agreement. Contractor accepts responsibility for the security of City's and/or any customer's credit card data in its possession, even if all or a portion of the services to City aresubcontracted to third parties.

EXHIBIT D
SPECIAL TERMS AND CONDITIONS FOR FEDERAL FUNDS

1. **DEFAULT.**

1.1. A party will be in default of the Agreement if that party:

i. Is or becomes insolvent or is a party to any voluntary bankruptcy or receivership proceeding, makes an assignment for a creditor, or there is any similar action that affects Contractor's capability to perform under the Agreement;
ii. Is the subject of a petition for involuntary bankruptcy not removed within sixty (60) calendar days;
iii. Conducts business in an unethical manner as set forth in the City Procurement Rules Article 7 or in an illegal manner; or
iv. Fails to carry out any term, promise, or condition of the Agreement.

1.2. Contractor will be in default of this Agreement if Contractor is debarred from participating in City procurements and Solicitations in accordance with Article 6 of the City's Procurement Rules.

1.3. Notice and Opportunity to Cure. In the event a party is in default then the other party will provide written notice to the defaulting party of the default. The defaulting party will have thirty (30) days from receipt of the notice to cure the default, unless the default is of a nature that it is reasonably anticipated to affect the health, safety, or welfare of the public and, in such an event, the non-defaulting party may require a minimum seven (7) days to cure the default from the date of receipt of the notice; the cure period may be extended by mutual agreement of the parties, but no cure period may exceed ninety (90) days. A default notice will be deemed to be sufficient if it is reasonably calculated to provide notice of the nature and extent of such default. Failure of the non-defaulting party to provide notice of the default does not waive any rights under the Agreement. Failure of the defaulting party to cure the default will entitle the non-defaulting party to the election of remedies specific to the party as set forth in section 17 below.

Anticipatory **Repudiation.** Whenever the City in good faith has reason to question Contractor's intent or ability to perform, the City may demand that Contractor give a written assurance of its intent and ability to perform. In the event, demand is made and no written assurance is given within ten (10) calendar days, the City may treat this failure as an anticipatory repudiation of the Agreement entitling the City to terminate the Agreement in accordance with section 17(a) below.

Agreed ■ NA ☐ Exception:

2. **REMEDIES.** The remedies set forth in this Agreement are not exclusive. Election of one remedy will not preclude the use of other remedies. In the event of default:

2.1. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.

2.2. The City may purchase the services or materials required under the Agreement from the open market, complete the required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute services exceeds the contract price in the Agreement, the City may recover the excess cost by: (i) requiring immediate reimbursement by the Contractor to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as permitted by law. Costs in this Subsection (b) include any and all, fees, and expenses incurred in obtaining substitute services and expended in obtaining reimbursement including, but not limited to, administrative expenses, attorneys' fees, and costs.

2.3. The non-defaulting party will have all other rights granted under this Agreement and all rights at law or in equity that may be available to it.

2.4. Neither party will be liable for incidental, special, or consequential damages.

Agreed ■ NA ☐ Exception:

3. **CONTINUATION DURING DISPUTES.** Contractor agrees that during any dispute between the parties, Contractor will continue to perform its obligations until the dispute is settled, instructed to cease performance by the City, enjoined or prohibited by judicial action, or otherwise required or obligated to cease performance by other provisions in this Agreement.

Agreed ■ NA ☐ Exception:

4. **TERMINATION FOR CONVENIENCE.** The City reserves the right to terminate this Agreement, in part or in whole, for its sole convenience upon thirty (30) calendar days written notice. Contractor acknowledges that, as with any termination permitted under this Agreement, in the event of a termination for convenience, Contractor is only entitled to payment in accordance with section 22 (Payment to Contractor Upon Termination); Contractor will not be entitled to any anticipated lost profits had the Agreement been performed to completion.

   Agreed ■ NA ☐ Exception:

5. **NONDISCRIMINATION.** Contractor understands and acknowledges that it is the policy of the City of Mesa to promote non-discrimination. As such, Contractor represents and warrants that it does not discriminate against any employee or applicant for employment or person to whom it provides services because of race, color, national origin, age, disability, religion, sex, sexual orientation, gender identity and expression, veterans' status, marital status, or genetic information, and represents and warrants that it complies with all applicable federal, state, and local laws and executive orders regarding employment. In performance under this Agreement, Contractor and Contractor's personnel will comply with applicable provisions of the following laws (as amended): Title VII of the U.S. Civil Rights Act of 1964, Section 504 of the Federal Rehabilitation Act, the Americans with Disabilities Act (42 U.S.C. § 12101 et seq.), and any other applicable non-discrimination laws and rules.

   Agreed ■ NA ☐ Exception:

6. **DAVIS-BACON ACT. For** all prime construction contracts in excess of $2,000, all transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146- 3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. Additionally, contractors are required to pay wages not less than once a week.

   Agreed ■ NA ☐ Exception:

7. **COPELAND "ANTI-KICKBACK" ACT.**

   7.1. Contractor. The contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

   7.2. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

   7.3. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12.

   Agreed ■ NA ☐ Exception:

8. **CONTRACT WORK AND SAFETY STANDARDS ACT.** Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts in excess of $100,000 that involve the employment of mechanics or laborers each contractor shall compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.

   8.1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

   8.2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in

violation of the clause set forth in this section, in the sum of $26 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by this section.

8.3. Withholding for unpaid wages and liquidated damages. The City shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in this section.

8.4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in this section.

Agreed ■ NA ☐ Exception:

9. **RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT.** If this Contract is for the performance of experimental, developmental, or research work, including any assignment, substitution of parties, or subcontracts, the City and the Contractor shall comply with the requirements of 37 CFR Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements) and any implementing regulations issued.

Agreed ■ NA ☐ Exception:

10. **CLEAN AIR ACT.** The contractor agrees to:

10.1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

10.2. The contractor agrees to report each violation to the City and understands and agrees that the City will, in turn, report each violation as required to assure notification to the required Federal Agencies.

10.3. The contractor agrees to include these requirements in each subcontract exceeding $150,000.

Agreed ■ NA ☐ Exception:

11. **FEDERAL WATER POLLUTION CONTROL ACT.**

11.1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

11.2. The contractor agrees to report each violation to the City and understands and agrees that the City, in turn, report each violation as required to assure notification to the required Federal Agencies.

11.3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance.

Agreed ■ NA ☐ Exception:

12. **DEBARMENT.** If the Respondent has been debarred, suspended, or otherwise lawfully precluded from participating in any public procurement activity, including being disapproved as a subcontractor with any federal, state, or local government or agency, or if any such preclusion from participation from any public procurement activity is currently pending, the Respondent shall include a letter with its Response identifying the name and address of the governmental unit, the effective date of the suspension or debarment, the duration of the suspension or debarment, and the relevant circumstances relating to the suspension or debarment. If suspension or debarment is currently pending, a detailed description of all relevant circumstances must be provided by the Respondent, including the details enumerated above. A Response from a Respondent who is currently debarred, suspended or otherwise lawfully prohibited from any public procurement activity may be rejected. Failure of a Respondent to disclose a debarment or suspension in accordance with this Section may result in the Response being disqualified for an award of the Solicitation. Debarment status will be verified using the federal System for Award Management (SAM).

Agreed ■ NA ☐ Exception:

13. **ACCESS TO RECORDS.** Offeror agrees that the City or any of their duly authorized representatives shall have access to any documents, papers, or other records of offeror that are pertinent to offeror's discharge of its obligations under the Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to offeror's personnel for the purpose of interview and discussion relating to such documents.

    Agreed ■ NA ☐ Exception:

14. **RECORDS RETENTION.** When federal funds are expended by the City for any contract resulting from this procurement process, offeror certifies that it will comply with the record retention requirements detailed in 2 CFR § 200.333. The offeror further certifies that offeror will retain these records as required for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

    Agreed ■ NA ☐ Exception:

15. ENERGY POLICY AND CONSERVATION ACT. Contractor must comply with mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. §6201).

    Agreed ■ NA ☐ Exception:

16. BUY AMERICA. The Buy America requirements apply to construction contracts and acquisitions for goods or rolling stock valued at more than $100,000. The Contractor agrees to comply with 49 U.S.C. §5323(j) and its implementing regulations at 49 CFR Part 661, any amendments thereto and any implementing guidance issued by the FTA.

    Agreed ■ NA ☐ Exception:

17. **APPLICABILITY TO SUBCONTRACTORS.** Offeror agrees that all contracts it awards pursuant to the Contract shall be bound by the foregoing terms and conditions.

    Agreed ■ NA ☐ Exception:

18. **SOLID WASTE DISPOSAL ACT.** The Contractor must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $ 10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $ 10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

    Agreed ■ NA ☐ Exception:

19. **BYRD ANTI-LOBBYING AMENDMENT.** Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered.

    19.1. No Federal appropriated funds have been paid or will be paid for on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with the awarding of a Federal contract, the making of a Federal grant, the making of a Federal loan, the entering into a cooperative agreement, and the extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement.

    19.2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative

agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.

19.3. This certification shall be included in all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

Please check the appropriate box:

■ No funds have been used or are planned to be used for lobbying in connection with this contract, or

☐ Attached is Standard Form LLL, "Disclosure of Lobbying Activities," which describes the use (past or planned) of funds for lobbying in connection with this contract.

Agreed ■ NA ☐ Exception:

Offeror agrees to comply with the requirements in these Terms and Conditions as well as all federal, state, and local laws, rules, regulations, and ordinances, as applicable.

EXECUTIVE SUMMARY

As a testament to the City of Mesa's commitment to delivering the highest quality of services and vision to be leaders in procurement and strategic sourcing, CDW•G recognizes that the City has taken on a significant undertaking as the lead agency for this OMNIA Partners agreement. As a current contract holder, CDW•G is uniquely positioned to deliver a comprehensive contracting solution that simplifies buying and removes the complexity of developing and implementing IT solutions. We are committed to providing continual value and efficiency to the procurement process and have the experience and comprehensive offering to meet the City of Mesa and OMNIA Partners' needs.

Affirming our ability to create value for the City of Mesa and OMNIA Partners, in 2022, we received the Global Customer Value Leadership Award from Frost & Sullivan for the second year in a row. This award is presented to a company that demonstrates excellence in implementing strategies that proactively create value for its customers with a focus on improving the return on the investment that customers make in its services or products.

Breadth of Offerings

Since our last response to the City of Mesa and OMNIA Partners, CDW•G has undergone significant growth to continue to meet your needs in the vastly changing technology landscape. In the last year alone, we have expanded our solutions and services offering across cloud services, software development, data orchestration, ServiceNow expertise, education sector consulting, security, and systems integration. Currently, we offer more than 100,000 products from more than 1,100 different manufacturers and software publishers and are committed to expanding our products, solutions, and services to continue to meet the City of Mesa and OMNIA Partners' needs.

Local Presence

Our customers are the center of all we do at CDW•G and the fuel behind our initiatives, solutions, and services. Part of our dedication to our customers is a sales and service force best suited to the needs of our State, Local, and Education (SLED) customers. With a local presence and national reach throughout the US, our team is ready to continue serving the City of Mesa and OMNIA Partners. As you may be aware, we have coworkers in offices and remote locations in or near every major city in the US; we have 1 office nearby in Tempe, Arizona, and nearly 400 coworkers who reside in AZ.

Figure 1. US Office Locations

CDW•G and OMNIA Partners

CDW•G has been managing OMNIA contracts for 15+ years. Under our existing contract with the City of Mesa and OMNIA Partners, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and

2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements. CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our vastly growing portfolio of offerings.

Small and Diverse Impact Across Local Communities

CDW•G is proud to have a robust Business Diversity Program that actively contributes to the growth of small, diverse partners and makes positive community impact. CDW's diverse spend in 2022 was $3.6B; as a testament to CDW•G's commitment to how frequently we help our public sector customers meet their diversity goals with qualified partners, $2.3B of the $3.6B was solely from CDW•G. As a responsible market leader, CDW•G has the privilege, opportunity, and responsibility to partner with diverse business partners and bring them with us to every opportunity. Through our robust partner network, we can seamlessly integrate partners with the necessary capabilities into our business model, offering small and diverse businesses access to our resources while striving toward an equitable and inclusive society.

Sector-Specific Organization and Expertise

CDW•G was formed in 1998 to create a company with an exclusive public sector focus. The City of Mesa and OMNIA Partners have access to regionally based, segment-focused, dedicated CDW•G Account Teams. This segmentation ensures that CDW•G meets all your needs while supporting your vision and mission. CDW•G is among the largest education technology solutions providers as a trusted IT partner to more than 15,000 K-12 schools, as well as approximately 3,000 colleges and universities.

Questionnaire Instructions

Respondents must respond to each question by using the response box provided, failure to do so may result in your firm's response being found non-responsive.

Respondents must read and complete the Response Questionnaire of this RFP and provide any documentation required to support the answers to each question. Vague or disorganized Responses that do not allow sufficient information for evaluation purposes may result in rejection of a Response.

If your firm has prior experience working with the City DO NOT assume this prior work is known to the evaluation committee. All Respondents are evaluated on the information contained in their Response and presentations, if requested. All Responses must be prepared as if the evaluation committee has no knowledge of the firm, their qualifications, or past projects.

Responses to the questionnaire and related documents and exhibits are to be organized in the same sequence as presented in the questionnaire. Supporting documents and exhibits not clearly identified to a correlating question will not be evaluated. The evaluation committee shall have the final determination as to what is considered "clearly identified".

How to Respond

The Respondent should provide a concise explanation of its capabilities to satisfy the requirements of this RFP, with emphasis on completeness and clarity of content. DO NOT assume that you will have any opportunity to make a presentation or explain any item or detail.

Minimums Qualification

The following requirement(s) have been identified as minimums for this procurement. A "No" response to any of the following question(s) (**1**) may be deemed non-responsive and the firm will be removed from the evaluation process.?

Explanation

The contractor shall provide an explanation to each question/specification, and it is your firm's responsibility to ensure that your explanation supports the chosen response (Yes, No). The City reserves the right to correct any Contractor selected response based on Contractor's explanation to each question/specification. Proposers will be scored on selected response (yes or no) and explanations given.

		Complies		***Explanations***
1.	Contractor shall have been in the business of providing the products and services described in this RFP for at least two (2).	Yes No	☒ ☐	Yes, CDW•G confirms we have been in the business of providing the products and services described in this RFP for at least two years. In fact, CDW was founded in 1984 and has sustained consistent growth since then. Specific to the public sector, we formed CDW•G in 1998 to focus on the needs of federal, state, local, and education customers. We have been providing

	IT products and services for nearly 40 years. In addition, we have been managing OMNIA Partners contracts for more than 15 years, providing the products and services described in this RFP. Under our existing contract with the City of Mesa and OMNIA Partners, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and 2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements.

Firms Qualifications and General Information

	Question	Response
1.	Brief history and description of Supplier to include experience providing similar products and services.	Founded in 1984, CDW LLC (CDW) is a leading provider of technology solutions to over 250,000 customers composed of small-, medium-, and large-sized public and private entities. CDW Government LLC (CDW•G) is a wholly owned subsidiary of CDW, incorporated in 1998 to address the specific needs of our government, education, and healthcare customers. Our broad array of products and services ranges from hardware and software to integrated IT solutions such as security, cloud, hybrid infrastructure, and digital experience. Our unique company structure provides the City of Mesa and OMNIA Partners with products and services only a large national reseller can provide, combined with a local presence typical of a small business. Account Teams are segmented by agency type, Education (K-12/Higher Ed) or Government (State and Local/Federal), and by region. To provide the City of Mesa and OMNIA Partners with one contact who is knowledgeable of every nuance of their organization, every customer has a dedicated CDW•G Account Manager as their primary point of contact. Customers in the largest markets also have the support of a local Advanced Technology Account Executive (ATAE) in the field to facilitate onsite meetings and in-depth technical conversations. CDW•G is one of the largest technology solution providers in the US, currently carrying more than 100,000 name-brand technology products from over 1,100 leading IT manufacturers and software publishers. For the full list of our manufacturers and software publishers, please see our line card in Tab D, Exhibit 1. We have a large original equipment manufacturer (OEM) and software publisher presence in our offices across the country and are supported in the field by Advanced Technology Account Executives. CDW•G delivers more than just products; we deliver IT solutions and services in a manner consistent with procurement guidelines and the City of Mesa and OMNIA Partners Participating Public

		Agencies' preferences. With subject matter experts able to advise on the right IT solutions and the purchasing avenues to accommodate efficient and seamless procurement, CDW•G offers flexibility in how customers engage with and buy from us. We pride ourselves on our innovation and a ceaseless desire to deliver an excellent customer experience. We have over 15 years of experience managing OMNIA Partners agreements. Through our contract management capabilities and nationwide state, local, and education (SLED) sales force, we have successfully expanded contracts and member utilization rates. We hold three master agreements, which include Region 4 ESC – TX - Technology Solutions, Products and Services, City of Mesa - Information Technology Solutions & Services, and Region 4 ESC – TX – Total Cloud Solutions. Additionally, we maintain ongoing strategic cadences with OMNIA Partners to drive contract utilization through enablement and marketing activities. Under our existing contract with the City of Mesa and OMNIA Partners, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and 2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements.
2.	Total number and location of salespersons employed by Supplier.	We currently employ approximately 15,000 coworkers globally across 51 different office locations in the US, including one office in Tempe, Arizona. In total, CDW has more than 4,200 salespersons, with approximately 1,500 salespersons at CDW•G dedicated to public sector agencies. To provide the best experience to our customers, CDW•G's sales force is segmented into four verticals: Higher Education, K-12 Education, Federal Government, and State and Local Government. Each team is further regionalized, allowing our Account Managers and Advanced Technology Account Executives (ATAEs) to dive deep into communities and build relationships with localized areas. We have provided visuals for our State and Local, K-12, and Higher Education segmentation as well as locations of our coworkers in Tab D, Exhibit 2.
3.	Number and location of support centers (if applicable) and location of corporate office.	We have 51 offices and two distribution centers around the United States, including one office in Tempe, Arizona. Our technical support technicians are based out of our Holmdel, NJ, location. CDW•G is headquartered at 230 N. Milwaukee Ave. Vernon Hills, IL 60061. **Offices and Distribution Centers** ▪ Arizona: Tempe ▪ California: Glendale, Irvine, San Diego ▪ Colorado: Centennial ▪ Connecticut: Shelton

A government agency is defined as Federal, State, County, City/Town, State/Local University/College, and School Districts.	
• Name of agency/firm • Contact person(s) with direct knowledge of the proposed solution and services provided. • Phone number • E-mail address • Products and Services provided • Length of business relationship (time)	**Response Below**
Reference #1:	▪ **Name of agency/firm:** University of California, Los Angeles (UCLA) ▪ **Contact person(s) with direct knowledge of the proposed solution and services provided:** Soren Bondesen ▪ **Phone number:** 310-794-6063 ▪ **E-mail address:** sbondesen@finance.ucla.edu ▪ **Products and Services provided:** Full Catalog of Hardware, Software and Services, including Staff Augmentation Services ▪ **Length of business relationship (time):** 11+ years University of California, Los Angeles, (UCLA) is a public research university that serves 50,000+ students and nearly 8,000 faculty members. With a vast array of degree programs and areas of study, including Law, Public Health, Hospitality, Medicine, and Theater, UCLA requires an IT provider that can meet the needs of a diverse set of students, faculty, and interests. Whether classroom technology, security and storage, audiovisual equipment, software renewals, keyboards, or staff augmentation services – UCLA depends on CDW•G to provide what they need. We support not only their IT Department but also any other department that might require IT products, like their medical school or hospitality department. Recently, UCLA has taken advantage of our Staff Augmentation Services to fill in gaps in one of their departments. We have an extensive database of candidates and save UCLA stakeholders time by finding candidates, conducting interviews, and handling paperwork. As one of our largest customers on the current City of Mesa and OMNIA Partners contract, UCLA benefits from a simplified procurement process, a knowledgeable team for all of their solution needs, and a dedicated CDW•G Account Manager to process multiple orders a day.

	long-term alignment to help drive exceptional outcomes for citizens and employees. Presenting a full stack of services offerings, the City of Tempe was able to choose resources that best aligned with yearly initiatives and requirements. Using the City of Mesa OMNIA Partners contract as the procurement vehicle, CDW•G delivered on several critical services. From simply providing a network security resource to help around the margins, to providing information security ad hoc services for consulting, we have been able to continuously augment the skills of Tempe's full-time IT staff to help them deliver on their goals.
NOTE: • References listed will not be held confidential and the City will not honor Respondent's request to keep the information confidential. • Initial evaluation - Respondents will be evaluated based on the information requested and provided by references. • The City reserves the right, but does not have the obligation, to contact any or all the provided references. Proposers are encouraged to provide detailed information about each reference in the Response Questionnaire as the City may not directly contact a reference and, instead, use the information provided about a reference in the Response for evaluation. • The City reserves the right to contact additional clients or persons for references.	
7. Describe how supplier differentiates itself from its competitors.	CDW•G is a partner dedicated to walking next to our customers every step of the way in their technology journey. A significant priority in SLED IT initiatives is flexible, adaptable technology that can securely enable user needs. It's not enough to provide customers with access to products they want quickly and efficiently. Procurement and Information Technology officers need to understand their options, and SLED agencies need to know their products are securely sourced. CDW•G is uniquely positioned to serve OMNIA Partners Participating Public Agencies and is differentiated in the following areas: ▪ Business diversity programs and local impact ▪ Experience with OMNIA and OMNIA Partners Participating Public Agencies ▪ Best-in-class contract management ▪ Technical innovation ▪ Secure supply chain and distribution model

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	▪ Depth and breadth of solutions across hardware, software, cloud, cloud marketplace, professional services, managed services, and staff augmentation ▪ Past performance of successfully guiding OMNIA Participating Public Agencies through technological and industry change ▪ Public sector expertise with dedicated sales and technical resources aligned by industry A detailed description of each area of differentiation is provided below. **Robust Business Diversity Program** CDW•G is proud of our Business Diversity Program, and we believe that the structure and depth of our program are significant differentiators for each of our customers. While we are not a M/WBE-certified company, our program seeks to empower diverse and local companies in the communities we serve nationwide. Instead of simply checking the box to meet requirements, we curate a unique network of quickly deployable diverse business partners. This approach embodies the goals of our customers by creating a multiplier effect that drives job creation and contributes to lasting economic empowerment in the communities we serve. Our program allows the City of Mesa and OMNIA Partners to support their local communities through everyday IT procurement. We work closely with the City of Mesa and OMNIA Partners Participating Public Agencies to find qualified, small and/or diverse suppliers to meet your goals, based on your requirements and needs. In 2022, CDW spent $3.6B with certified small, diverse suppliers, and we currently feature over 1,400 small and diverse suppliers who we partner with on a regular basis. As a testament to CDW•G's commitment to how frequently we help our public sector customers meet their diversity goals with qualified partners, $2.3B of the $3.6B (nearly 64%) in 2022 was solely from CDW•G.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Also in 2022, we more than doubled the size of our Business Diversity Program team to ensure that we take a customized, regional approach to better serve our diverse partners and establish local economies of scale. Our team understands the specific requirements that different states have and helps customers navigate, establish, and magnify impact, under their diversity goals. In Arizona, we've contributed the following in 2022**:**

Figure 1. 2022 Economic Impact in Arizona

CDW•G prides itself on having a strategic program that puts our Business Diversity partners first. Unlike some value-added resellers (VARs) that see diversity requirements as a box to check, we find these requirements as a way to partner with local businesses and help them grow. Our goal is for these local, diverse companies to become long-term strategic partners of both our customers and CDW•G. We provide greater insight into our Business Diversity Program in question 2 of Firm's Method and Approach below.

OMNIA Partnership Experience

Our sales force is well-versed in growing contracts and is also experienced in discussing the value of OMNIA Partners contracts. We believe the contract structure that the City of Mesa and OMNIA Partners offer, combined with our expertise in supporting dynamic procurement solutions with our broad customer ecosystem, provides a unique opportunity to optimize contract adoption and growth. Collectively, we remove the complexity of procurement and technology that

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

	our customers often encounter. We understand the value of OMNIA Partners and its contracts and have been successful in expanding this contract to our customers. CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our vastly growing portfolio of offerings. Continuing to contract with CDW•G provides the City of Mesa and OMNIA Partners Participating Public Agencies with a secure partnership with a proven track record of positioning the contract nationwide and expanding the contract footprint among all SLED-eligible entities. **Contract Management Experience** While we manage numerous public sector contracts, we believe it is the breadth of our contracts and the emphasis we place on contract compliance, company-wide, that allows us to be a leader in contract management. Many suppliers have well-established delivery and installation procedures but lack the plan or personnel to ensure compliance throughout the contract's complete lifecycle. A major differentiator for CDW•G is our Program Management Team, a group of coworkers devoted to the full lifecycle of contractual sales, including managing active contracts. CDW•G invests in these resources because of our understanding that contracts are complex sets of commitments. Centralizing our contract management within one department allows us to standardize our contract management processes and share best practices. As a result, we reduce risks and improve efficiencies for CDW•G, and, more importantly, for the City of Mesa and OMNIA Partners Participating Public Agencies. With an average of over ten years of industry experience and active participation in the National Contract Management Association and World Commerce & Contracting, CDW•G Program Managers are qualified to advise and serve our customers at all stages of the contract process. CDW•G manages nearly 1,000 active SLED contracts, with OMNIA Partners contracts in the top 1% of our spend. Our contract managers become experts in their respective contract portfolios and can continue to provide insights to the City of Mesa and OMNIA Partners. Access to the CDW•G Program Management team not only ensures contract compliance but also assures the City of Mesa and OMNIA Partners Participating Public Agencies that, when leveraging this contract, their purchases and piggyback agreements are overseen not solely by a sales team member but also by a highly skilled and specialized contract compliance professional. **Commitment to Innovation** For more than 20 years, CDW•G has been at the forefront of emerging technologies, including collaboration solutions, cloud, mobility, and virtualization, which is a major aspect of

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	our ability to grow as a company. We have actively expanded our catalog, certifications, and solutions to address the latest IT developments, including cloud, IoT, software, and esports, so that we can continue to meet the evolving needs of the City of Mesa and OMNIA Partners Participating Public Agencies. In addition, we have dedicated CDW•G resources aligned to these solution areas to help the City of Mesa and OMNIA Partners Participating Public Agencies understand and implement them. Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies. To affirm our dedication to innovation, CDW received CRN's 2023 Internet of Things (IoT) Innovators Award; this annual program honors North American solution providers that recognize the enormous potential of IoT, have integrated cutting-edge technologies into their portfolio, and are driving IoT innovation forward. CDW•G will continue to invest, organically and inorganically, in high-growth solutions and services capabilities so that we can continue to meet the needs of the City of Mesa and OMNIA Partners. CDW•G understands that the City of Mesa and OMNIA Partners Participating Public Agencies change and shift over time, and we are willing to change as technology changes. **Sourcing Products and Building OEM Relationships** CDW•G has relationships with more than 1,100 leading manufacturers. When CDW•G doesn't have a direct relationship with an Original Equipment Manufacturer (OEM), we leverage our vast distribution network (i.e., Arrow, Synnex, Ingram Micro, a diverse partner, and more) to source a product request. As such, should the City of Mesa and OMNIA Partners identify a product we do not currently provide, we will work to ensure you get what you need. Additionally, our Product and Partner Management team is dedicated to onboarding new OEMs and partners. This team works proactively to identify customer-leveraged OEMs to onboard into our ecosystem of partners. If a product is out of stock in CDW•G distribution centers, CDW•G can leverage our local and national distribution network; if the product is in stock in the distribution network, CDW•G can generally secure product(s) from our local distribution network within 24 hours. Our sales staff and engineers are in steady communication with customers regarding their needs and vendor partners regarding changing product lines and new offerings. **Ability to Adapt** CDW's market position, financial strength, and demonstrated agility enable us to deliver value that transcends helping our customers meet short-term IT objectives. We are with our customers in good times, but we are also there to help them

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	navigate difficult circumstances and unprecedented challenges. We are relentlessly devoted to helping our customers meet the challenges related to resolving their technology needs. One way we achieve this is through our agility in adapting to the unexpected, such as during the earliest stages of the COVID-19 crisis. Because CDW•G plays a critical role in continuing to supply IT products and services to our public sector customers, we prioritized a strategic response that would ensure our customers' needs were met in the face of a significant strain on the global supply chain. We worked closely with our manufacturer partners to identify product recommendations based on projected availability. At the same time, we maintained focus on the well-being of our communities and helped our customers navigate a rapidly changing environment. We implemented stringent safety measures in our distribution centers in order to maintain business continuity while prioritizing the well-being of our coworkers. Due to our having two distribution centers in different portions of the country, we are able to maintain our supply chain in the event one of those centers goes down for any reason. For example, when a customer needed to quickly deploy device rollouts to enable distance learning, they leaned on CDW•G to scope, design, and ship solutions in quick order. When the facilities expecting these shipments were closed without advance warning, CDW•G worked closely with the 17 colleges and universities to reroute packages and ensure the essential deliveries were received. Our teams successfully rerouted hundreds of shipments. As the situation continued to evolve, our teams remained in contact with our carrier partners to provide updates and continued to leverage member input and requirements to inform our company-wide strategic buying decisions. CDW•G's unmatched product and solutions offerings, coupled with an unrivaled partner network of leading manufacturers and diverse businesses, enable us to give the City of Mesa and OMNIA Partners Participating Public Agencies a partner that can adapt to any scenario, both in the short- and long-term. **Blended Distribution Model** A significant advantage that differentiates CDW•G in the marketplace is our ability to deliver the right products at the right value, right when you need them. Many of our competitors rely on what we refer to as "virtual warehouses." These resellers are entirely reliant on their distribution and OEM partners for packaging and shipping customer solutions. This virtual warehouse model introduces extended lead times and uncertainty in sourcing and supply chain security. At CDW•G, we have blended the best of our OEMs and distribution partners' fulfillment capabilities with our own

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	distribution centers to optimize quick and accurate fulfillment. Our same-day fill rate typically varies between 97% and 99% for credit-approved orders with in-stock products. **Public Sector Expertise** We have more than 30 years of extensive experience providing solutions to public sector customers across segments (federal, education, state and local). Our parent company, CDW LLC, was established in 1984, and CDW•G was established in 1998 to better serve our federal, state and local, and education customers. Public sector business comprised roughly 36% of our total annual revenue in 2022. We maintain over 1,000 contracts in order to serve these customers efficiently and compliantly. Our portfolio demonstrates widespread adoption and relevance, with customers actively transacting across all 50 states. Under the new contract, we will continue these efforts, with targeted account planning in collaboration with the City of Mesa and OMNIA Partners to expand the contract footprint to small, middle, and large entities.

Firms Method and Approach		
	Question	**Response**
1.	Provide a description of all services that can be provided by your firm or partners (e.g., cloud, services, maintenance, implementation, design, analysis, training, repair, staff augmentation, etc.).	We provide expert consulting, design, configuration, installation, implementation, cloud, maintenance, analysis, training, repair, staff augmentation, lifecycle management services, and more. We provide more insight into the services we offer, as well as products and solutions, in Tab D, Exhibit 3. Additionally, we have provided our full training course catalog in Tab D, Exhibit 4. CDW•G's full lifecycle of services supports the City of Mesa and OMNIA Partners Participating Public Agencies' internal team and helps you focus on your short-term and long-term goals. Our lifecycle of services takes a consultative approach to IT; we listen to your needs so that we can truly understand the challenges your organization faces. This level of understanding allows us to identify how technology can help you meet your goals. Then, we help you design, orchestrate, and manage your technology environment. CDW•G offers a robust range of products and services that enable the City of Mesa and OMNIA Partners to develop the best total solution to meet your specific needs while attaining the most value. As a testament to our services experience, we have recently received the following awards: ▪ In 2022, we received Frost & Sullivan's Global Customer Value Leadership Award, recognizing

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	our growing services portfolio for its commitment to our customers who seek support for their digital transformation. The award recognizes our unique focus on augmenting the value that our customers receive, beyond simply good customer service, leading to improved customer retention and customer base expansion. ▪ In June 2023, we ranked #4 on CRN's Solution Provider 500 list. This list ranks the top integrators, service providers, and IT consultants in North America by revenue. ▪ Also in June 2023, we ranked #10 out of 501 in the prestigious 2023 Channel Futures Managed Service Providers (MSP) 501 rankings; MSPs that qualify for the list must pass a rigorous review and are ranked using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue, and operational efficiency. As evidenced by more than 15 years supporting OMNIA Partners Participating Public Agencies, CDW•G's size and breadth allow us to accommodate a nationwide demand for services and fulfill obligations as a nationwide contractor. We will continue to invest in high-growth solutions and services capabilities so that we can continue to meet the City of Mesa and OMNIA Partners Participating Public Agencies' needs. We provide more insight into the services we offer, as well as products and solutions, in Tab D, Exhibit 3.
2. Please describe any local diversity program(s) or partnership your firm currently have in place. Response should also include the following: • Please define qualifications for small business/diversity program or partnership. • Does your firm have a mentoring program that supports your local partnerships? If, yes, please provide the details of your mentoring program. • Any required certifications • Number of States and Cities currently available? • Plan to expand to other States and Cities.	**Business Diversity Program – Overview** *Please describe any local diversity program(s) or partnership your firm currently have in place.* When you partner with CDW•G, you are partnering with a company where business diversity is a deeply embedded, ongoing priority. Since the inception of our Business Diversity Program in 2007, we have sought to promote diverse supplier participation representative of our customers and communities that contributes to sustainable economic growth. CDW•G is prepared to help the City of Mesa and OMNIA Partners Participating Public Agencies meet their diversity goals. We're committed to simplifying the complexity of Business Diversity for the City of Mesa and OMNIA Partners Participating Public Agencies. While we are woman-led with our CEO Chris Leahy, we are not a minority- or woman-owned business enterprise. Because we are not a large corporation with our own M/WBE certification, CDW•G has the opportunity to invest in small and diverse businesses. As a result, we drive job creation and contribute to lasting economic empowerment in communities across the US.

Results of our Business Diversity Program

Partnering strategically with diverse and small businesses enables us to keep providing the industry's best experience while contributing to economic growth in diverse communities nationwide. Since 2007, we have spent $25 billion, $3.6 billion in 2022 alone, with certified small, diverse suppliers, and we currently feature over 1,400 small and diverse suppliers who we actively partner with on a regular basis. Of the $3.6 billion in 2022, $2.3B was solely from CDW•G supporting public sector goals.

In 2019, we became a member of the Billion Dollar Roundtable (BDR), joining an exclusive group of 40 US-based companies procuring more than $1 billion annually from minority- and women-owned businesses on a first-tier basis.

In 2021, industry-leading research IT research firm and consultancy, Gartner, conducted a case study on CDW's Business Diversity Program for procurement leaders. Gartner concluded the following: “CDW’s supplier diversity team enables business partners to retain the best-fit diverse suppliers for new sourcing needs by providing targeted business-relevant information gathered from past supplier engagements.” Our comprehensive Business Diversity Program ultimately allows procurement officials to confidently incorporate small and diverse suppliers into their supply chain.

In 2022, we enhanced our national strategy across the US by welcoming supply chain experts to our growing team. These regional market leaders are focused on building partnerships with local suppliers and across our customer base. Their efforts have improved our agility and increased our effectiveness in identifying and mentoring new diverse partners. Additionally, this comprehensive approach enables us to gain a deeper understanding of the unique challenges, opportunities, and economies of scale present in each region. We use these real-time insights to inform and tailor our business diversity strategy, boosting both performance and impact.

In 2023, CDW hosted the BDR Summit. The Summit is an annual gathering of BDR members to discuss best practices and opportunities for supplier diversity program growth.

Benefits

Benefits of our Business Diversity Program and incorporating small and diverse suppliers include the following:

- Meet the City of Mesa and OMNIA Partners Participating Public Agencies’ small, minority-owned supplier goals without having to invest time

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

	and resources into finding, evaluating, and engaging them yourself. ▪ Diversify the City of Mesa and OMNIA Partners Participating Public Agencies' supply chain, boosting your resilience and agility in an unpredictable world. ▪ Enjoy a first-mover advantage when it comes to new, cutting-edge technologies. ▪ Benefit from our strong supplier relationships and global procurement capabilities. We understand that each OMNIA Partners Participating Public Agency will have different requirements, laws, and goals. CDW•G is continuously developing more small and diverse partnerships to meet our customers' needs. These relationships include, but are not limited to, product manufacturers, distributors, and service providers nationwide who support direct (Tier 1) and indirect (Tier 2) fulfillment through presales and service engagements. We recruit diverse and disadvantaged partners locally and regionally because customer spending goals are typically tied to local laws and require the partner to be certified within their city or state. These various engagement models allow the City of Mesa and OMNIA Partners Participating Public Agencies the choice to engage with the diverse partner that suits their technology needs and where the diverse partner's business is best suited to provide support in the sales cycle. We strive for our small and diverse partners to meaningfully participate in meeting customers' IT needs. **Tier I and Tier II Programs – Overview** We realize that each customer has unique targets that require a thoughtful and dynamic approach to strategic sourcing. Our Business Diversity Program offers a broad and robust partner network. The following are a few ways that CDW•G can support the City of Mesa and OMNIA Partners Participating Public Agencies in meeting your diverse supplier goals: ▪ Educate users on CDW•G's business diversity program and how to initiate a planning session. ▪ Conduct customer-focused planning sessions with CDW•G Account Manager and Business Diversity program representative. ▪ Utilize information gathered from planning sessions to develop custom plans to achieve customer goals around Business Diversity. ▪ Perform ongoing engagement to adjust plans as necessary. More insight into our Tier I and Tier II Programs is below: **The Tier I Program**

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	CDW•G is continuously developing additional small and diverse partnerships to meet the City of Mesa and OMNIA Partners Participating Public Agencies' Tier I needs. In fact, we offer an online registration tool where businesses can register for future opportunities with CDW•G. Our growing list of suppliers means that the City of Mesa and OMNIA Partners Participating Public Agencies can count on CDW•G to deliver against their diversity spending targets. CDW•G has also partnered with M/WBE leasing companies that can support the City of Mesa and OMNIA Partners Participating Public Agencies' Tier I spend requirements. CDW•G's Tier I program offers a low-risk experience for agencies looking to achieve direct spend with small, disadvantaged businesses while upholding the highest standards of IT procurement. **The Tier II Program** In an effort to foster even more opportunities for small, diverse businesses, CDW•G launched a Tier II Business Diversity Program in 2009 for its key manufacturing, distribution, and logistics partners. The program's goal is simple: to further opportunities for competitive small and diverse suppliers to supply goods and services to CDW•G and deliver them to our customers like the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G also provides Tier II reporting to customers that track their spending, ensuring that suppliers meet contract compliance and obligations. Our Tier II reports show the items that CDW•G purchased from diverse suppliers, all items that our customers purchased from CDW•G, and all items that CDW•G purchased from diverse suppliers to fulfil customers' orders directly. A major advantage to this model is the ability to recognize spend across multiple diverse firms by leveraging CDW•G's network of vetted hardware and software suppliers. **Recent Awards and Recognition** Recent notable awards that demonstrate our commitment to diversity include: ▪ 2023 Military Times Best for Vets: Employers List ▪ 2024 Military Friendly Employers Award from Military Friendly ▪ 2023 Best Employers for Diversity – Forbes ▪ In February 2023, we were named one of America's Top Corporations for Women's Business Enterprises (WBEs) by the Women's Business Enterprise National Council (WBENC). According to the WBENC, this honor is the only national award recognizing corporations for world-class Business Diversity programs that reduce barriers and drive growth for women-owned businesses

- Ranked #11 of Nasdaq 100 companies for its ESG reputation in December 2022

Commitment to Helping Close the Digital Divide

An essential part of our Business Diversity Program is our commitment to closing the digital divide. One of CDW•G's core values and strengths is making technology work so people can do great things. However, we recognize that technology doesn't work equally for everybody, and reliable access to technology is often not equitable, resulting in a digital divide. We are determined to change this narrative and are passionate about closing this divide within our company and the communities we support. Through our Business Diversity Program, we are actively working towards digital equity and making a positive impact. Below are a few of the ways we work to close the digital divide:

Promoting Digital Equity

CDW•G prioritizes digital equity by providing products and services to sectors that need them the most, such as education, healthcare, and government. We firmly believe that closing the digital divide requires collaboration from all leaders, within and outside our organization. By partnering with like-minded organizations that share our commitment to digital equity, we can amplify our collective impact and bridge the gaps we see everywhere.

Business Diversity

Our Business Diversity Program is a critical differentiator for CDW•G, enabling us to deliver increasingly innovative products, services, and solutions to our customers. We take pride in our comprehensive and active program, recognized as global champions for Business Diversity by esteemed organizations like Gartner, the Billion Dollar Roundtable, and WEConnect International. We also embrace the responsibility of sharing our experience and expertise with our customers and suppliers because we believe that when they succeed, we all win.

Driving Economic Empowerment in Communities

Investing in small and diverse businesses presents a unique opportunity to create jobs and contribute to lasting economic empowerment in our communities. With the global population becoming increasingly diverse, minority audiences are emerging as a significant target for companies, and diverse-owned businesses play a vital role in the small business sector.

Commitment to Fostering Equity

CDW•G is committed to fostering equity and ethical behavior throughout our global supply chain. We continually advance our global Business Diversity strategy, and in 2022, our operations in Canada and the

	UK exceeded their diverse spend targets. Collaboratively with our customers and supplier partners, we believe in the power of community members as drivers of prosperous, resilient local economies, creating efficiencies throughout our global supply chain. *Increasing our Diverse Supplier Spending* Our commitment to business diversity is demonstrated by our substantial spend with small and diverse businesses. Since 2007, we have transacted over $25 billion with these enterprises. *Social Impact* We are committed to making a long-lasting, meaningful difference through our global Social Impact program. With more than 80 social impact partners and as members of Tech for Good, we invest in technology that creates deliberate, positive social benefits. One recent partnership is with Compudopt, a national nonprofit that provides technology access and education to under-resourced youth. Our collaboration across the country aligns with our shared strategy of providing access to technology. Through local donation drives and employee engagement at Compudopt locations, we empower youth by repurposing personal, non-company computers and educating them about the potential of technology. **Qualifications for Small Business/Diversity Program** • *Please define qualifications for small business/diversity program or partnership.* We have a proactive approach to identifying and engaging diverse subcontractors and partners in our projects. CDW•G has a comprehensive vetting process that ensures each small and diverse partner can meet our customers' quality and performance expectations. Partner selection is based upon such criteria as business case, price, responsiveness, quality, geographic reach, available skill set, length of the project, and overall customer satisfaction. Committed to growing our Business Diversity Program, CDW•G actively seeks out diverse suppliers through Business Diversity databases, attends Business Diversity events and trade fairs, and collaborates with diversity-focused organizations and industry associations. We also maintain a comprehensive internal Business Diversity database that is constantly growing; this resource serves to connect project managers with qualified, diverse subcontractors and partners. Should the City of Mesa and OMNIA Partners Participating Public Agency have specific goals to meet, we will work with you to identify and engage a qualified, diverse subcontractor so that you can not only meet your own goals but also positively contribute to your own communities.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Mentoring Programs

- *Does your firm have a mentoring program that supports your local partnerships? If, yes, please provide the details of your mentoring program.*

Mentorship and advocacy are integral components of our Business Diversity Program. It's one way we live up to our commitment to build stronger communities through economic inclusion. We have had numerous successes with mentor protégé programs with entities such as the City University of New York (CUNY) and Texas Tech University; these programs are designed to enhance diverse partners' capabilities, assist in meeting development goals, and improve their abilities to compete for and win contracts. With these programs, we are able to help grow their businesses and relationships.

Building on that momentum, we've collaborated with other universities to expand our efforts to help diverse businesses capitalize on their expertise to win business. In August of 2023, we welcomed our fellow BDR members to our Vernon Hills, Illinois, headquarters for BDR's 2023 summit to share best practices in pursuit of the collective vision to leverage our supply chains and positively impact our world.

During the year, we expanded our partnership with Disability:IN, a leading nonprofit resource for business disability inclusion worldwide. As an Inclusion Works partner company, we're proud to mentor disability-owned businesses. Disability:IN's Inclusion Works program provides companies with a team of disability inclusion experts to help them create an inclusive culture while simultaneously developing a sustainable recruitment strategy.

Required Certifications & Partner Certifications

- *Any required certifications*

While we are and have been woman-led with our CEO and Chair Chris Leahy since January 1, 2019, we are not a minority- or woman-owned business enterprise. Because we are not a large corporation with our own M/WBE certification, CDW•G has the opportunity to invest in small and diverse businesses. As a result, we drive job creation and contribute to lasting economic empowerment in communities across the US.

All of our diverse partners are required to hold and maintain diversity certifications. CDW•G accepts certifications from national and international Business Diversity certification councils, as well as city, state, and federal government entities.

States and Cities

	• *Number of States and Cities currently available?* Our Business Diversity Program is active in all 50 states, as well as Canada and the United Kingdom. **Plan to Expand** • *Plan to expand to other States and Cities.* CDW•G continuously seeks new partnerships that help our customers meet their small and diverse supplier goals and support local communities. As a testament to our effort to continue building our Business Diversity Program, we enhanced our national strategy across the US by welcoming supply chain experts to our growing team in 2022. These regional market leaders are focused on building partnerships with local suppliers and across our customer base. Their efforts have improved our agility and increased our effectiveness in identifying and mentoring new diverse partners. Additionally, this comprehensive approach enables us to gain a deeper understanding of the unique challenges, opportunities, and economies of scale present in each region. We use these real-time insights to inform and tailor our business diversity strategy, boosting both performance and impact. As a whole, CDW•G's Business Diversity Program goals are to increase procurement opportunities for direct and indirect spending with small, minority-owned, women-owned, veteran-owned, disabled-owned, and other small, disadvantaged businesses. Our philosophy on diversity extends beyond our coworkers, the customers we serve, and the communities we live in to include our valued supplier partnerships. Our commitment to strategically partner with qualified businesses enables CDW•G to continue to provide the best customer experience while contributing to economic growth in diverse communities. **Small and Diverse Partner Testimonials** *MBE Testimonial – KNZ Solutions* KNZ Solutions, a certified minority-owned business, was founded in 2017 by Khaled Mussa. Here's what KNZ has to say about their partnership with CDW•G: "CDW•G has been an invaluable support to KNZ Solutions. Their commitment to fostering collaboration and nurturing partnerships truly sets them apart. Their expertise, resources, and unwavering dedication played a pivotal role in navigating the challenges inherent in our industry. The impact of this partnership extends far beyond the bottom line – KNZ's employee count increased, and jobs were created. Our partnership has not only elevated our business but has also reinforced our belief in the transformative power of meaningful partnerships. We look forward to continued success and growth together."

	WBE Testimonial – BlackHawk Data BlackHawk Data is a New York-based WBE founded in 2018. Read about the BlackHawk Data and CDW•G Partnership below: "One of my primary go to partners has always been CDW. I knew if I went to them for advice, suggestions, and just to simply talk to, they would help me get through the start up phase. Well, they did more than that. Along with the local team in New York, the CDW Diversity Team helped me and made introductions to people around the US that I would not normally have met. I do honestly owe a good amount of our success to the CDW Team. As without them, getting through some of the hardest and darkest times may not have been possible without them. Because of partners like CDW, we have been able to grow the business to 45 people, hopefully, $60M in 2023, and become a CRN Triple Crown Winner. My heart is full with love and continued support on building our relationship." *WBE Testimonials – WBENC Conference* In 2023, CDW funded a booth for 15 woman-owned businesses at the annual Women's Business Enterprise National Council (WBENC) conference. This financial commitment directly impacted the growth of those businesses. Here's what two women had to say: Pam Feld, CEO, WBE/MBE: The booth sponsored by CDW afforded me the opportunity to deepen existing corporate relationships and engage with a multitude of WBEs from all over the country. I came away with 2 RFPs, 4 potential speaking opportunities, and 6 meetings lined up for expanding relationships. Mellissa Tong, CEO, WBE/MBE: I was really grateful that my talk at CEO Success Community Booth 718 was so well received that I got a recommendation to deliver a one-hour talk on Storytelling for Branding and Marketing for Maui's Economic Development Center in late April. Then, I was contacted by WBENC national to do a pitch workshop for them on May 5th. None of this would have happened without CDW's generous support of Booth 718 at WBENC in 2023. *MBE Testimonial – Betis Group* Betis is a minority-owned systems integrator with 25 years of experience providing Information Technology consulting and solutions on a global scale. Here's what Betis had to say: Betis and CDW have enjoyed a highly successful relationship since 2001. Thanks to CDW's successful

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

	contract win record, Betis provided project management, technical, and device installation services at more than 100 locations around the world. Over the last several years, our relationship [with CDW] has expanded as Betis helps support and deliver CDW's winning formula for gaining market share with private-sector customers who want to buy through a Tier-1 Diversity Supplier. The strategic collaboration between Betis and CDW has led to the acceleration of delivery and solutions for both our companies.
3. Please provide a statement regarding any sustainable, environmental, or socially responsive initiatives or practices your firm or suppliers have engaged in. This can be related to the specific products and/or services contained in this RFP.	CDW•G collaborates with our coworkers, customers, technology partners, and communities to improve the environment, create positive social impact, and live and operate in a more sustainable and ethical world. Our Environmental, Social, and Governance (ESG) journey and priorities are focused on where CDW•G is uniquely positioned to make the greatest impact and sustainably add value. While we have provided insight into our ESG Program below, we encourage the City of Mesa and OMNIA Partners Participating Public Agencies to explore our 2022 ESG Report here. CDW is raising the bar on our ESG program. We have expanded the leadership and governance of our ESG program, named a global head of ESG, and designated risk and ESG business leaders across the business. We also created a Climate Task Force to drive climate awareness within CDW and lead the development of our global climate strategy. **Environmentally Preferable Products** Our commitment to sustainable and socially responsible technology implementation remains a priority, and we have advanced these efforts by enabling online searchable access for customers to an expanded portfolio of environmentally certified products and cloud-based solutions that improve energy efficiency. The City of Mesa and OMNIA Partners Participating Public Agencies can identify and select from a broad range of environmentally certified products (Energy Star, Electronic Product Environmental Assessment Tool (EPEAT), and TCO Certified) and cloud-based solutions that deliver added energy efficiency. CDW•G assists customers in determining environmentally preferable products in many ways, including: ▪ Providing website specifications for each product details; i.e., EPEAT and/or Energy Star compliant and specific power consumption data, where available ▪ Providing a portfolio of manufacturers that are committed to producing environmentally friendly

	technology and that have programs and policies that support their commitment. ▪ Offering products that meet the evolving standards associated with the Environmentally Preferable Purchasing Program (EPP) and the IEEE 1680 Standard for the Environmental Assessment of Personal Computer Products ▪ Training our sales teams on the requirements of Executive Order 13101 Greening the Government Through Waste Prevention, Recycling, And Federal Acquisition CDW•G is committed to protecting the environment by continuing to manage our business with increased efficiency and understanding the full extent of our environmental impact. While we strive for continuous improvement in the environmental performance of our operations, we recognize our greatest opportunities to impact the environment lie in our supply chain and our ability to work with our partners to address issues such as climate change and waste reduction. More than ever, we are focused on working with our partners and outside experts to evaluate our environmental impacts and opportunities. Our environmental efforts also include continuing to focus on waste reduction at our facilities and expanding our participation in leading electronics recycling programs that benefit our customers, partners, and communities. We are very proud of the outstanding efforts of our coworkers in the areas of workplace culture and coworker engagement, diversity, equity and inclusion, business diversity, digital equity, and other forms of social impact. We are also pleased to highlight that we have made the strategic decision to align our ESG priorities with eight of the UN Sustainable Development Goals. **Environmental** CDW•G is committed to being a good steward of the environment and earth's natural resources. We strive to continuously improve our own environmental performance while growing our business and supporting our partners and customers. Given our role in the technology sector as a leading multi-brand technology solutions provider, our greatest opportunities to impact the environment lie in collaborating with our supply chain and working with our partners and customers to help them achieve their environmental goals. This includes continuing to expand our offering of sustainable and socially responsible technology products and solutions. We continue to elevate our role in sustainable and socially responsible technology by working with our technology partners to promote their environmentally certified products

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

	and solving for our customers' outcomes around their ESG goals and priorities. In 2022, we made it easier for our sales teams and our customers to identify and select from a broad range of environmentally certified products and cloud-based solutions that deliver added energy efficiency. CDW•G e-commerce sites enable the City of Mesa and OMNIA Partners Participating Public Agencies to filter their online catalog search to identify and buy third-party-certified products, and our sales teams are trained to assist the City of Mesa and OMNIA Partners Participating Public Agencies with finding and selecting these products. Our goal is to be able to offer all of our customers full stack of solutions that address a broad spectrum of environmental considerations. In addition to third-party-certified products, we are enhancing our ability to deploy and configure products remotely to reduce the environmental impacts of packaging and transportation, and offering device recovery and recycling programs to reduce electronic waste from products that need to be replaced. **Social** Our commitments to diversity, equity and inclusion, business diversity, digital equity for our communities, and other forms of social impact strengthen us. We are very proud to have so many partners and customers join us on this journey. CDW•G takes a comprehensive approach to diversity, equity, and inclusion (DEI). We are deliberate and focused on creating a culture where The CDW Way becomes a lived reality – where our dedication to our values of trust, connection, and commitment is evident and where belonging is an everyday experience for all our coworkers, customers, business partners, and communities. CDW•G is committed to embracing and fostering diverse thinking, inclusive behaviors, and equal opportunity across our global operations. ▪ For our coworkers, we strive to attract diverse talent, create opportunities for advancement and professional growth, and provide a sense of inclusion and belonging where everyone can be their authentic self. ▪ In our supply chain, we are committed to maintaining an industry-leading business diversity program. ▪ In our communities, we have focused our Social Impact commitments around digital equity to help close the digital divide. Our Social Impact approach empowers coworkers, partners, and stakeholders to create sustainable and equitable change in the world. *Business Resource Groups*

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	CDW's Business Resource Groups (BRGs) continue to play a vital role in the coworker experience by encouraging connection and serving as a forum for coworkers to make their voices heard, build awareness, celebrate their affinity area(s), serve their communities, bolster allyship, offer professional development opportunities, and provide perspective on diversity and inclusion initiatives. *Committing to Diverse Talent* We aspire to be the best place for diverse talent by promoting equity in our processes for hiring, advancing, developing, and retaining our coworkers and leaders. We strive to attract a diverse talent pool so we can increase diversity representation in all forms within CDW. To put our commitments into action, we have adopted a strategic, integrated approach to continuously address the representation of both professionals of color and women at all levels of our organization – from hire to retire. In addition to our focus on enhancing the diversity of our candidate pool and new coworker population, we also aim to expand diversity at the manager and director levels, which creates upward mobility toward vice president and executive leadership positions. *Social Impact* CDW Social Impact makes a concerted effort to: ▪ Engage our coworkers by encouraging and supporting them to broaden their awareness and give their time and resources to the causes that matter most. ▪ Empower our communities by building new and expanding existing nonprofit partnerships throughout the world that align with our purpose and values. **Governance** We know that integrity, trust, and good corporate governance matter to all our stakeholders. By ensuring smart governance and ethics and compliance practices, we continue to earn the trust and confidence of our stakeholders, which enables us to sustain our success and create long-term shareholder value. *Corporate Governance* CDW's commitment to good corporate governance is unwavering - from our Board to our Executive Committee to all levels of our organization. The governance structure of the company is designed to be a working structure for principled actions, effective decision-making, and appropriate monitoring of both compliance and performance.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	Ethics and Compliance Our ethics and compliance program is built around our efforts to guard and protect that trust. The CDW Way Code, which applies to all coworkers and directors, is the basis for how we work at CDW. It is imperative that CDW ensures we adhere to The CDW Way Code and follow all legal and regulatory requirements. It defines our standards for corporate behavior and provides direction and insight into the ethical and legal issues coworkers may face. Further, the Code focuses on the importance of organizational and individual accountability as we work to maintain the trust of our fellow coworkers, customers, shareholders, and other stakeholders. Topics addressed in the Code include: ▪ Confidentiality of company, customer, and business partner information ▪ Avoidance of conflicts of interest ▪ Compliance with government contracting requirements ▪ Fair dealing ▪ Marketing practices ▪ Financial integrity *Data Privacy and Information Security* Aligned with our commitment to ensuring strong ethics and compliance, we continued to build on our data privacy strategic framework in 2022 with the rollout of a formalized mission, principles, and objectives for ensuring strong data ethics. Through global collaboration and a proactive, adaptable approach, our data privacy program strives to: ▪ Enable CDW's continued growth ▪ Support a strong culture of thoughtful and responsible data use ▪ Improve and implement controls, policies, and processes to ensure privacy compliance **2022 Progress and Milestones** 2022 was a year of significant ESG progress and milestones. We extended our efforts to address critical areas such as access to environmentally certified products, climate action, waste reduction, coworker engagement, recruiting of tech talent, diversity, equity and inclusion, social impact, business diversity, governance and ethics, and global information security. We also significantly expanded our efforts to engage in ESG discussions with our investors, coworkers, customers, partners, and communities. Specific strategic milestones during the year included: ▪ Added a global head of ESG to our team and designated risk and ESG business leaders across the business

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		▪ Began refining our ESG governance structure to drive greater accountability and ongoing engagement with leaders and subject matter experts ▪ Engaged leaders and teams throughout the enterprise in an ESG strategy development process ▪ Created a cross-functional, geographically diverse Climate Task Force to drive climate awareness within CDW and lead the development of the company's global climate strategy ▪ Made the strategic decision to align our ESG efforts with eight of the UN Sustainable Development Goals ▪ Initiated an ESG materiality assessment refresh that will be completed in 2023 and will guide our strategic focus in the coming years We are committed to a high degree of transparency about our ESG performance – in our annual ESG report, on our website, in our Task Force on Climate-related Financial Disclosures (TCFD) and Sustainability Accounting Standards Board (SASB) disclosures, and in our proxy and annual report.
4.	Does your firm or partners use packaging that is reusable or recyclable?	Yes, we use 100% recyclable envelope shippers as well as pick-pack shipping containers, which are made from the maximum allowable amount of post-consumer recycled material and are 100% recyclable. **Partners** We also maintain freight service contracts with UPS, FedEx, and DHL. Insight into their packaging is provided below: ▪ UPS offers reusable packaging. ▪ FedEx offers packaging options that are reusable, recyclable, and made from recycled content. ▪ DHL has various policies and standards they follow, including using paper that is recycled, and using 30% certified renewable material for shipping labels, tape, and pallet wrap, and 50% certified renewable for void fill material and mailing bags.
5.	Does your firm or partners operate hybrid vehicles? If yes, please describe the vehicles.	CDW•G does not maintain a fleet of vehicles for delivery. As a result, we do not directly operate hybrid vehicles in the US. Currently, approximately 98% of our US shipments are delivered by carriers enrolled in the US EPA SmartWay Transport Partnership, which helps companies advance supply chain sustainability by measuring, benchmarking, and improving freight transportation efficiency, and all of our US shipments are handled by carriers with climate

	goals. We are also working with our third-party shipping and logistics partners to develop transportation management systems and delivery schedules that help them increase their own energy efficiency, which helps to reduce our transportation-related emissions. In addition, CDW UK has multiple transportation efficiency efforts in place, including using net zero couriers, bulk purchasing and delivery, and reducing air travel through in-country services. There are 45 hybrid vehicles on order for 2023 delivery, representing 59% of our UK fleet. **Partners** We believe it is important that our partners have similar missions and values as CDW•G and our customers; we maintain freight service contracts with UPS, FedEx, DHL, and less-than-truckload (LTL) freight providers, including highly secure transportation options. Insight into our partners' hybrid vehicles is below: ▪ UPS operates hybrid electric package-delivery vans to reduce use and emissions of its fleet. ▪ FedEx operates more than 170 hybrid vehicles around the globe, including the largest fleet of commercial hybrid trucks in North America. ▪ DHL Express deployed 100 new electric delivery vans in 2021. ▪ CEVA Logistics is leveraging Plug-in Hybrid Electric Vehicles and Mild Hybrid Electric Vehicles. ▪ Expeditors implemented EVs in their operations.
6. Does your firm or partners vehicles operate/run on renewable fuels such as, but not limited to biodiesel, biogas, or renewably product synthetic fuels? If yes, please describe the vehicles.	While CDW•G does not own/operate vehicles that run on renewable fuels, we maintain freight service contracts with UPS, FedEx, DHL, and less-than-truckload (LTL) freight providers, including highly secure transportation options such as Tforce Freight, Expeditors, DHL, and Ceva. **Partners** Insight into our partners' vehicles is provided below: ▪ UPS owns one of the world's largest private fleets of alternative fuel and advanced technology vehicles, including, but not limited to, Compressed Natural Gas, Electric Vehicles, Hybrid Vehicles, and E-Bikes. They are collaborating with suppliers to increase alternative delivery options like E-Powered Semi Trailers and electric vertical take-off and landing. By 2025, 40% alternative fuels will be used in UPS's ground operations. ▪ FedEx's fleet of over 6,200 alternative fuel vehicles includes hybrid, electric, liquefied, or compressed natural gas, liquefied petroleum gas, and hydrogen fuel cell vehicles.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		▪ Tforce does not have any equipment that runs on renewable or synthetic fuels. ▪ Expeditors is a US EPA SmartWay Program partner and has saved an estimated 750,359 metric tons of CO2 since 2010. They have a target to reduce the scope of CO2 emissions per square foot from mobile equipment by 20% by the end of 2025, resulting in 95% of their forklifts being electric. ▪ DHL's assets run on 20% Biodiesel Mix. ▪ Ceva has hydrogen and natural gas for select vehicles in the US; these are modified trucks that accept hydrogen and natural gas instead of diesel.
7.	Does your firm or partners use any of your firms' vehicles have automatic start/stop technology?	CDW•G does not operate a fleet of vehicles for delivery. As noted in question 6, we partner with economically responsible couriers. In addition, CDW's two distribution centers use stand-up electric forklifts; these automatically shut off once the user steps off the forklift. **Partners** Insight into our partners' vehicles is below: ▪ UPS leverages a range of technologies and processes that reduce engine idle time and ensure a lower-carbon journey. ▪ FedEx does not provide specific information about start/stop vehicles for their fleet; however, they estimate by 2025, 50% of parcel pickup and delivery is intended to be electric. Additionally, FedEx was the first customer to receive 150 new BrightDrop Zevo 600 vans, which have zero tailpipe emissions. ▪ DHL's assets have set idling parameters to shut off after 15 minutes of idling and auto-start once the pedal is touched. ▪ Ceva uses auto start/stop technology for its natural gas and electric vehicles in the US and across the globe.
8.	Please explain your firm's process for accepting and process requests for quotes using contract rates. Please include number of days or hours required to generate/issue request quote and deliver to customer.	The City of Mesa and OMNIA Partners Participating Public Agencies can request quotes directly through your dedicated CDW•G Account Manager or online through your CDW•G Account Center. The rates in your Account Center will reflect special contract rates; dedicated Program Manager, Ty Robles, will ensure the correct contract price is maintained. Ty regularly conducts self-audits to ensure pricing compliance and takes corrective action if needed. **Through Your CDW•G Account Center** The City of Mesa and OMNIA Partners Participating Public Agencies can create a quote instantly, right from your own

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

		shopping cart. Once you build your cart, you can either create the quote and send it to yourself for later, or you can purchase the items right then and there. Regardless of whether you decide to save your quote or purchase, your CDW•G Account Manager will get a copy of your quote or order for review. Once the City of Mesa and OMNIA Partners Participating Public Agencies are ready to order, your CDW•G Account Manager will review before manually releasing the order. This step helps mitigate incorrect orders. **Through Your CDW•G Account Manager** Should you choose to have your Account Manager create a quote for you, the City of Mesa and OMNIA Partners Participating Public Agencies can review it moments after your Account Manager creates it. From there, the quote can be printed, forwarded to colleagues or managers for pre-authorization, or converted to a live order. When you request a quote through your CDW•G Account Manager, he or she strives to respond to standard requests for quotes quickly. Quotes that require research or input from a specialist may take a little longer to complete. A standard quote will typically be returned within 24-48 hours.
9.	How many orders are processed daily on an average?	On average, we process 14,000 orders per day. The Vernon Hills distribution center processes an average of 90,000 units per day. The Las Vegas distribution center processes a daily average of 47,000 units per day. We ship 40,000 to 50,000 boxes per day, depending on the time of year. Our large, on-hand inventories and strategically located distribution centers allow us to ship the City of Mesa and OMNIA Partners Participating Public Agencies' products to your locations quickly and cost-effectively. Also, our proximity to our principal distributors enables us to obtain competitively priced, non-stocked items for quick turnaround.
10.	What is the highest number of orders processed in a single day?	The highest number of orders processed in a single day was approximately 19,000 orders.
11.	Describe your delivery commitment:	As one of the largest solution providers in the US, CDW•G has positioned itself very closely with the major shipping companies and other delivery service companies to provide standard or expedited product delivery. Due to extensive carrier worldwide service capabilities, excellent record for on-time delivery, and competitive pricing, we ship the majority of our products via UPS or FedEx. Both companies have on-site employees at our distribution centers, individuals with a track record of supporting CDW•G with

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	sophisticated capabilities to leverage their intermodal transport options. In addition, your CDW•G Account Manager will keep you informed regarding delivery expectations. If any item is out of stock, he or she will continue to provide updates regarding the expected delivery time. Order status information is also available 24 hours a day in your CDW•G Account Center. Our purchasing department maintains ample supply of goods on hand between our Illinois and Nevada distribution centers. We have multiple staging options, including pre-order and buy and hold agreements, which are subject to additional terms and conditions. This service allows inventory to be stocked for customers in order to manage situations such as large customer rollouts or to take advantage of certain market conditions. We have a replenishment program that has specific criteria for each manufacturer and takes lead time into consideration when placing orders. We have Electronic Data Interchange (EDI) feeds with most of our suppliers, outlining quantity, location, and cost of goods. CDW•G leverages its position in the competitive channel and overall buying power to secure favorable product discounts. As a result, we can pass along the volume discount savings to the City of Mesa and OMNIA Partners Participating Public Agencies, and many products are available for immediate shipment.
a. What is your fill rate guarantee?	Our same-day fill rate typically varies between 97% and 99% for credit-approved orders with in-stock products. Order fulfillment may vary due to the addition of configuration services and based upon the complexity of those services. Our strong working relationships with manufacturers and distributors, effective inventory management procedures, and state-of-the-art automated systems allow us to provide the products that you need when you need them. Additionally, our ISO-certified (ISO 9001:2008) order fulfillment procedures and requirements meet rigorous industry standards to ensure that your order is shipped quickly and accurately; overnight and Configurations-Priority orders receive processing priority during order fulfillment.
b. What are your delivery days?	CDW•G's standard delivery is Monday through Friday, excluding Thanksgiving, Christmas, and New Year's Day. Arrangements can be made based on the City of Mesa and OMNIA Partners Participating Public Agencies' needs to fulfill orders on weekends and holidays for an additional fee. Customers should provide at least a 48-hour notice in order to allow time to properly set up any weekend or holiday deliveries.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

c. Do you offer next day delivery?	Yes, CDW•G can ship same day, overnight/next day, 2nd day, 3rd day, and ground in most US geographies. An expedited freight charge may be added for this service.
d. How do you facilitate emergency orders?	Whenever a City of Mesa and OMNIA Partners Participating Public Agencies Participating Public Agency's order requires expediting, it will be treated with priority. If an emergency situation arises, contact your dedicated CDW•G Account Manager, who will place the order and arrange for expedited delivery. Due to our very large inventory at our two distribution centers, it is very likely that we will have the product(s) you need for immediate shipping. Overnight and Configurations-Priority orders receive processing priority during order fulfillment. The most economical option is to utilize FedEx or UPS for overnight delivery for arrival by 10:30 AM the next morning (to most areas). However, FedEx and UPS may not be available options for heavy-weight shipments. CDW•G Account Managers can help identify the best option available depending on the weight and destination.
e. Are shipping charges exempt for ALL who use this contract?	Unlike some vendors, CDW•G offers no charge ground freight for shipments less than 70 pounds within the 48 contiguous United States. For those instances that are larger than 70 pounds or require express or overnight delivery, shipping costs will be pre-paid by CDW•G and added to the customer invoice.
f. Describe how problems (such as a customer ordering a wrong product or a customer receiving a defective product; etc.) are resolved.	CDW•G encourages the City of Mesa and OMNIA Partners Participating Public Agencies to contact their dedicated CDW•G Account Manager to assist with any such issues. The CDW•G Account Manager is the City of Mesa and OMNIA Partners Participating Public Agencies' dedicated resource for all requests; he or she is responsible for intake of the problem, identifying paths to resolution, and working with you to determine an acceptable resolution. CDW•G Account Managers are backed by an extensive team of technical, finance, partner, and operations coworkers. If the Account Manager evaluates the issue and determines he or she cannot personally assist you, he or she will engage and collaborate with our Customer Relations Department to assist. Customers may also reach out to Customer Relations directly. To help mitigate incorrect orders from being placed, CDW•G Account Managers review each order before it is released. **Ordering a Wrong Product** However, should you order the wrong product and wish to return it, the City of Mesa and OMNIA Partners Participating Public Agencies have the option to start your return on your online CDW•G Account Center. To return a product, you will need to access the Recent Orders history of your

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		account. Then, select the Order Number for which you would like to request a return or search for an order by date or purchase order number. You will be taken to the Order Details page. In the Product Details section, you have the option to select "Request a Return." Select the item(s) you wish to return. Please detail the reason for your request. When your return is approved, you will receive a Return Merchandise Authorization (RMA) number, which must be included with the returned merchandise. The RMA number is valid for 10 business days. Returns within 30 days from invoice date can be for exchange, replacement, refund, or credit at CDW's discretion. Please be aware that specific manufacturers have more restrictive return policies and may be subject to a return fee. If the product is returned and accepted after 30 days, credit will be issued toward future purchases only. **Receiving a Defective Product** In the rare situation that you receive a defective product, you may return most defective products directly to CDW•G within 15 days of invoice date and receive, at CDW•G's discretion, credit, replacement, exchange, or repair. After 15 days, only the manufacturer warranty applies.
12.	Describe your invoicing process. Is electronic invoicing available? Is summary invoicing available? Are there other options on how an agency receives an invoice?	An invoice will be mailed the day after the product(s) is shipped out of one of our distribution centers. Another option is electronic invoicing; the City of Mesa and OMNIA Partners Participating Public Agencies can request that invoices be sent via PDF instead. The PDF would be sent the same day that the invoice is generated in the system. When a product is drop shipped from a vendor, CDW•G will invoice the customer once we receive the invoice from the vendor. Copies of original invoices can be printed via your CDW•G Account Center. If there are ever any questions with regard to an invoice, you should contact your Account Manager so the situation can be resolved in a timely manner. CDW•G proudly offers summary invoicing; we can consolidate invoices into one invoice on a weekly, bi-weekly, or monthly basis.
13.	Describe the types of customer service available to agencies that use this contract:	We encourage the City of Mesa and OMNIA Partners Participating Public Agencies to reach out to their dedicated CDW•G Account Manager to resolve problems; he or she will always listen, escalate as needed on your behalf, and help resolve any problem you may have. Additionally, CDW•G has customer relations representatives who are available to resolve post-sales inquiries from 6am until 8pm MT, Monday through Friday.

	We service customers through phone support, email, and live chat. The City of Mesa and OMNIA Partners Participating Public Agencies can contact our customer relations, technical support, and website support teams directly. **Customer Relations** The customer relations staff tracks lost packages, submits claims to carriers, handles Return Merchandise Authorizations (RMAs), and sends out replacements for damaged or defective products. **Technical Support** We also provide Technical Support for product troubleshooting, including product support, download support, install support, and cloud support. **Website Support** Should the City of Mesa and OMNIA Partners need any additional assistance with our website, we also provide website support for sign-in help, account settings, site features, site security. Hours and contact information for each is provided below.
a. Is online support available?	Yes. In addition to emailing your CDW•G Account Manager, online support is available via live chat or email for customer relations, technical support, and site support. **Customer Relations** ▪ Online Chat M-F from 6am to 5pm MT ▪ Email (Reply within 24 Hours): CustomerRelations@cdw.com **Website Support** ▪ Online Chat M-F from 6am to 5pm MT ▪ Email (Reply within 24 Hours): e-account@cdw.com **Technical Support** ▪ Online Chat M-F 6am to 6pm MT ▪ Email (Reply within 24 hours): support@cdw.com ▪ Managed Services: Email (Reply within 24 hours): CDW-ECC@cdw.com
b. Is phone support available?	Yes. In addition to your CDW•G Account Manager, whose contact information is available in your CDW•G Account Center, phone support is available for customer relations, technical support, and site support. **Customer Relations** ▪ 866.782.4239 (Mon-Fri 6am-8pm MT) **Website Support**

d. Can agencies request a dedicated service representative and/or a dedicated service team? If a dedicated customer service representative and/or team are assigned, what types of services does the representative/team provide? How do you help the customer manage our account?	**Dedicated Team** *Can agencies request a dedicated service representative and/or a dedicated service team?* The City of Mesa and OMNIA Partners Participating Public Agencies will each be given a dedicated CDW•G Account Team, with your primary point of contact being your CDW•G Account Manager. CDW•G organizes our sales force differently from other companies to best serve the City of Mesa and OMNIA Partners Participating Public Agencies. The CDW•G customer support models start with our Account Managers. Account Managers are trained to become experts within the public sector segment they support: K-12, Higher Education, State and Local government, and Federal government. The advantage is that they can address the very specific needs of their unique customers. To further

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	equip our Account Managers to support the City of Mesa and OMNIA Partners Participating Public Agencies, CDW•G divides the salesforce into distinct geographic regions to ensure that sellers are prepared to support the local landscape in a way that is unmatched by other companies. Our unique company structure provides our customers with products and services only a large national reseller can provide, combined with a local presence typical of a small business. As such, each agency will be assigned their own CDW•G Account Manager relevant to their respective location and vertical. For example, the City of Mesa is supported by CDW•G Executive Account Manager, Chris Anderson, as well as Advanced Technology Account Executive, Ryan Hadley. As an Account Manager, Chris is the City's primary point of contact. Ryan is the City's secondary point of contact. Chris and Ryan are dedicated solely to State and Local Government customers within the southwest and are supported by sales leaders dedicated to their respective regions and verticals: ▪ Luke Anderson – SLG Sales Manager, West and Pacific ▪ Jodie Thomas – SLG Field Sales Manager, West ▪ Tony Sivore – SLG Director, Area Sales West Your CDW•G Account Manager maintains the overall responsibility for coordinating resources to achieve the highest standards of customer service. Each OMNIA Partners Participating Public Agency will receive their own dedicated team, with a dedicated CDW•G Account Manager standing at the forefront. **CDW•G Account Manager Responsibilities** *If a dedicated customer service representative and/or team are assigned, what types of services does the representative/team provide? How do you help the customer manage our account?* In general, CDW•G Account Managers and their sales managers understand the current technology trends and are specialized in working with public-sector customers. This structure is one of the great benefits of partnering with CDW•G. The City of Mesa and OMNIA Partners Participating Public Agencies will have access to much more than a single resource; you will also have access to an entire sales and support team ready to address any agency's need. CDW•G, from the executive level down to your Account Manager, is focused on ensuring that the City of Mesa and OMNIA Partners Participating Public Agencies' needs are consistently and satisfactorily met. As mentioned, your CDW•G Account Manager is your primary point of contact and is highly trained to address most of your questions and concerns. CDW•G account managers complete an intensive training program that

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	focuses on sales consulting, product training, operational systems, and customer service. All of our account managers also attend mandatory ongoing training programs each month to ensure that they stay up-to-date on the latest technologies and changes in the industry. Your account manager's responsibilities include: ▪ Providing pre-sales consultation ▪ Providing product information and addressing compatibility issues ▪ Responding to quote requests quickly and accurately ▪ Reviewing orders for completeness and accuracy before they are submitted ▪ Notifying you of availability issues and assisting with alternate options as appropriate ▪ Monitoring all open orders and backorders ▪ Coordinating delivery to and from your locations ▪ Arranging for equipment setup and maintenance ▪ Facilitating communication between you and manufacturer partners
e. State any return and restocking policy, and any fees, if applicable associated with returns.	CDW•G offers a 30-day return policy on most products sold. Returns within 30 days from invoice date can be for exchange, replacement refund, or credit at CDW•G's discretion. Please be aware that specific manufacturers have more restrictive return policies and may be subject to a return fee. If the product is accepted after 30 days, credit will be issued toward future purchases only. There are no restocking fees for products returned within 30 days after invoice. After 30 days, the following restocking fees can apply: ▪ 30 days after invoice: 15% return fee ▪ 60 days after invoice: 30% return fee ▪ Restricted manufacturers & items will incur a return fee Day 1 from invoice. For reference, we have provided our full return policy in Tab D, Exhibit 5.
f. How are problems resolved?	To simplify the customer service process, we recommend the City of Mesa and OMNIA Partners Participating Public Agencies bring any issues or inquiries to the attention of your CDW•G Account Manager, who sits at the center of customer service and support experience. CDW•G Account Managers' first step is always to listen. As such, your dedicated CDW•G Account Manager will listen and evaluate before determining the best next steps. If he or she cannot correct the issue, he will escalate it to the sales manager. If the sales manager cannot correct the issue, he will escalate it to the sales director. Escalation continues all the way up to the Vice President until we provide a suitable solution to the performance issue. While this type of

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	escalation is rare, we always work to sufficiently and expeditiously resolve any escalations. CDW•G has a formal system to manage customer issues and route to the appropriate next level during escalations. In addition, the City of Mesa and OMNIA Partners Participating Public Agencies will be able to access additional levels of leadership through the online CDW•G Account Center, which includes contact information and whether they are in the office (virtual or physical). The beauty of this approach is that the City of Mesa and OMNIA Partners Participating Public Agencies do not have to manage the process, hunt down contacts, or explain your issue many times over. You are kept in the loop on the progress of the resolution while your dedicated CDW•G Account Team takes care of the rest. Because we designate an actual person and not a faceless inbox, you can reach out to your CDW•G Account Manager whenever you feel necessary. For mission-critical issues, we follow the same path with expedited timelines. If problem resolution is specific to a coworker, such as the performance of an Account Manager, the City of Mesa and OMNIA Partners Participating Public Agencies are encouraged to reach out to the coworker's manager, who will then take the appropriate steps to address the issue. Contact information for your Account Manager, Sales Manager, and Customer Relations can all be found easily in your CDW•G Account Center. As an example, contact information for the City of Mesa's Account Manager and Sales Manager is provided below: *Chris Anderson – Executive Account Manager* ▪ Email: chrande@cdwg.com ▪ Phone: +1 (847) 371-7149 *Luke Anderson – Sales Manager* ▪ Email: lukeand@cdwg.com ▪ Phone: +1 (847) 419-7416 A follow-up step in our incident escalation process involves taking the incident resolution process one step further. Our sales teams work hand-in-hand with our Program Management team to ensure that for issues requiring significant escalation, we determine proactive measures to prevent the problem from recurring. We want to understand why it happened to make sure it doesn't happen again.
g. What are the location and hours of your call centers?	All support is US-based. Our technical support technicians are based in Holmdel, New Jersey. Customer service representatives and website support representatives are also based in Holmdel, NJ, as well as Vernon Hills, IL, and Las Vegas, NV.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	CDW•G provides phone support during the following hours: **Orders, Quotes & Availability** ▪ 800.800.4239 (Mon-Fri 6am-6pm MT) **Customer Relations** ▪ 866.782.4239 (Mon-Fri 6am-8pm MT) **Website Support** ▪ 888.239.7270 (Mon-Fri 6am-5pm MT) **Technical Support** ▪ 800.383.4239 (Mon-Fri 6am-5pm MT) **Managed Services Support** ▪ 888.239.7270 (Mon-Fri 6am-5pm MT)
h. What response time is guaranteed when a customer service request is made?	Typically, CDW•G Account Managers respond within 1 business day. Response time depends on the seriousness of the request made; however, CDW•G makes every effort to respond to all Customer Service Requests (CSRs) within 24 hours. CDW•G understands some requests are more urgent than others, which is why we utilize a detailed incident management process for critical systems. The severity level dictates the response time of this practice and is employed for issues with our own network services, co-located systems, hosted solutions, websites, or our internet services.
i. Do you measure/track the success of your customer service program? If so, how do you do this, and what are your findings?	Yes, CDW•G measures/tracks the success of our customer service program. Information on our program and findings are below. **How Our Customer Service Program is Measured** Loyal customers are the backbone of our business. CDW•G understands that loyalty depends on the quality of service provided throughout our company, from Purchasing to Customer Relations. We are dedicated to maintaining a very high level of customer service. Since 2000, the Customer Feedback Program has run via our Market Research Team. CDW•G measures customer satisfaction, thoughts about CDW•G, and problem areas. The primary methodology is a semi-annual survey that gathers information on customer-facing departments, including shipping, customer relations, and the customer's Sales team. Customers are selected on a random basis to participate in the surveys. If a customer provides a response that is ranked poor or fair, then a specialist from CDW's Quality Assurance team contacts the customer to determine the reason for their unsatisfactory response and will offer additional action to rectify the problem.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	In 2016, the Customer Feedback Program expanded to include weekly, transactional surveys. The weekly feedback surveys provide real-time feedback for the following departments: Customer Relations/Service, IT Services (separate surveys for services' specialties), and Sales Contact Center (a unique team that takes initial calls from new or existing customers to aid in order processing). These surveys are specific to a recent interaction or transaction rather than the overall CDW•G relationship. In addition to our Customer Feedback Program, CDW•G also has a dedicated Customer Experience Team. The Customer Experience Team focuses on creating and implementing feedback loop processes that assure our customers we are listening to them and provides internal teams with the information they need to better serve our customers. In addition to our current practices, we are actively working with coworkers from our recent acquisitions to align our processes and tools for customer feedback. Our Research and Development team uses the Pragmatic Methodology for product and service development. We ask our customers: ▪ Direct feedback on our services ▪ Understanding of the problems they are experiencing that we can provide solutions ▪ Language of what those problems that helps with positioning CDW•G's customers rely on us to listen to them and deeply understand their technology needs. We show up for customers by providing the best end-to-end customer experience from sales to delivery and beyond and by offering the right products and services to help them do great things. **Findings** The majority of end users supply favorable survey comments, and the positive comment that we receive most often is that CDW is extremely customer-focused. Significantly, 85% of customers rated their Account Manager as Excellent or Very Good on a 5-point scale (Excellent to Poor). CDW's Customer Relations Representatives resolve post-sales issues and complaints, such as tracking lost packages, submitting claims to carriers, handling Return Merchandise Authorizations (RMAs), and sending out replacements for damaged or defective products. The Customer Relations Supervisor reviews all CSRs at the end of the day to ensure that each CSR is being handled promptly. Customer Relations Quality Analysts audit 20 cases per Customer Relations Representative per month to ensure quality standards are met and proper training is provided. We make adjustments and evaluate process

	changes as needed when we see high volumes for particular types of Customer Service Requests (CSRs).
j. Describe in detail your company's ability to hold/warehouse customers' orders and if there are any cost associated.	If the City of Mesa and OMNIA Partners Participating Public Agencies would like to hold or warehouse any of your orders, we recommend reaching out to your dedicated CDW•G Account Manager. One of the ways we can hold or warehouse your orders is through our Buy & Hold Services. Buy & Hold Services from CDW•G allow the City of Mesa and OMNIA Partners Participating Public Agencies to select products for purchase and hold them in a secure location for up to a year. Buy and Hold capabilities are available out of the Vernon Hills and Las Vegas facilities. Costs, if any, for our Buy & Hold Services are determined on a case-by-case basis and would be dependent on the mutually agreed terms in a supplemental Staging Agreement, which will include the individual needs and associated requirements of each individual customer. CDW•G will handle the logistics and shipping requirements and adhere to the City of Mesa and OMNIA Partners Participating Public Agencies' deployment schedule. The City of Mesa and OMNIA Partners Participating Public Agencies can take advantage of product warehousing, inventory management, distribution, fulfillment services, and custom solutions. Associated costs are dependent on the individual needs and associated requirements for each individual customer. Insight into the process is as follows: ▪ Purchased product is stored in a badge access-controlled Distribution Center. ▪ All products will be assigned a customer-specific SKU / EDC. ▪ All product is safely stored in customer-specific racking locations and wrapped to prevent damage while on-site. ▪ Buy & Hold product is available for CDW Configuration Services, imaging, and asset tagging for an additional cost. In addition to Buy & Hold services, customers may have the option to pre-order. Pre-ordering allows the City of Mesa and OMNIA Partners Participating Public Agencies to pre-order specific stock at no additional cost; this differentiator is beneficial ahead of peak ordering periods.
14. Describe how your company will assist customers in navigating OEM warranty process.	The City of Mesa and OMNIA Partners Participating Public Agencies' dedicated CDW•G Account Manager will assist you in navigating the OEM warranty process. Products sold by CDW•G come with the manufacturer's standard warranty, and the City of Mesa and OMNIA Partners Participating Public Agencies can contact our Technical Support Department for technical support on hardware

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		purchased from CDW•G. If the Technical Support representative determines the customer needs warranty support, they connect them to the manufacturer's warranty department. In addition to manufacturer warranties, CDW•G offers a number of product lifecycle support options for purchase. This suite includes: ▪ Warranty extensions and upgrades ▪ Post warranty support ▪ Accidental damage protection ▪ Maintenance contract agreements ▪ Post-sales technical support ▪ Product and certification training ▪ Help desk services ▪ Full lifecycle management services ▪ Managed services with Service Level Agreements for uptime guarantee When the City of Mesa and OMNIA Partners Participating Public Agencies have an upcoming CDW-branded warranty expiration, CDW•G sends warranty expiration emails to your CDW•G Account Manager. If the City of Mesa and OMNIA Partners Participating Public Agencies purchase a manufacturer warranty through CDW•G, your dedicated CDW•G Account Manager tracks your coverage. Whether CDW-branded warranty or a manufacturer warranty, your CDW•G Account Manager will let you know that your hardware protection is about to expire and may suggest the following for additional coverage: ▪ An extended warranty extension or uplift. ▪ A quote on new hardware should you be looking to replace the out of warranty equipment. ▪ Consolidation of computer infrastructure through co-term agreements and/or other available custom solutions. The City of Mesa and OMNIA Partners Participating Public Agencies' CDW•G Account Manager will help develop the best warranty and coverage solutions to keep your IT investments up and running for the overall benefit of your organization.
15.	Describe how your firm will notify customers of new products.	As technology is constantly evolving, there are always new products and services coming to market. We have resources in place dedicated specifically to monitoring IT trends, technical roadmaps, and emerging technologies. We combine this knowledge with feedback from our customers to stay ahead of the curve on emerging technologies. We ensure we offer state-of-the-art technologies and that we also vet the benefits and risks of new solutions and their operability in your environment. To ensure we receive the most up-to-date and insightful information regarding new products, CDW•G has manufacturer and software publisher representatives

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		onsite at our sales offices. Our strong partner relationships facilitate presales consultation and timely notification regarding new products, product changes, and products going end of life. We deploy various ways to keep you informed about new products, including the following: **CDW•G Account Manager** One way to receive new product information is through your dedicated CDW•G Account Manager. Your CDW•G Account Manager will work with you to understand your technology environment, needs, and wants to custom-tailor new product notifications. Depending on the City of Mesa and OMNIA Partners Participating Public Agencies' established preferences, your CDW•G Account Manager may call or email to notify you of new products that align with your environment and goals. Notification via your CDW•G Account Manager ensures that the City of Mesa and OMNIA Partners receive relevant, custom-tailored information and a more personalized experience overall. **Online** The City of Mesa and OMNIA Partners Participating Public Agencies can also view new product information via our website (www.cdwg.com) and your Premium Page, which is part of your Account Center. Our website is constantly updating with new products and services that we offer. Our live catalog is updated daily, and you can browse our most current products and services. On your Premium Page, the City of Mesa and OMNIA Partners Participating Public Agencies will be able to view the latest technologies available to you, as well as pricing options to help you make better-informed purchasing decisions. The City of Mesa and OMNIA Partners Participating Public Agencies' Premium Page is up-to-date on the most current and emerging technologies. Be it your Account Manager, our website, or via your Premium Page, the City of Mesa and OMNIA Partners Participating Public Agencies can be sure that we will work tirelessly to keep you informed of ways to improve how you do business and which solutions best fit your needs.
16.	Describe how your company will assist and support customers when their standardized is reaching EOL (end of life).	CDW•G's partnerships with OEMs ensure the City of Mesa and OMNIA Partners Participating Public Agencies can procure the right products at the right time. Subject to receipt of EOL notifications from OEMs, notifications include: ▪ **Product EOL:** A date generally 6-8 months prior to final obsolescence, a notice the part is nearing the end of its life. Product continues to be manufactured and sold.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		▪ **Product Discontinued:** Approximately 1 month prior to final obsolescence, the date manufacturing stops. The remaining product stock continues to be sold. ▪ **Product Obsolete:** The date the OEM removes the part from price lists. Product is no longer sellable or buildable. With insight into the OEMs' terminology and schedules, CDW•G facilitates continued support for legacy systems and can work with the City of Mesa and OMNIA Partners Participating Public Agencies to ensure there is a plan in place before a product becomes obsolete or EOL. The dedicated CDW•G Account Manager works with the City of Mesa and OMNIA Partners Participating Public Agencies to review potential options, including identifying a compliant next-generation product. Alternatively, to maintain platform continuity, we can procure an advance stock of a product when it approaches EOL, ensuring that product's availability for the City of Mesa and OMNIA Partners Participating Public Agencies' near-future needs. As previously mentioned, CDW•G has manufacturer and software publisher representatives onsite at our sales, ultimately facilitating timely notification regarding product changes and products going EOL. CDW•G Account Managers will work with you to understand your environment and needs. **Obsolescence Planning** If CDW•G discovers that products are to be discontinued or refreshed, we will orchestrate a conversation with the manufacturer and the City of Mesa and OMNIA Partners Participating Public Agencies to discuss alternate product recommendations, where necessary. Any product substitutions will be mutually agreed upon between CDW•G and City of Mesa and OMNIA Partners Participating Public Agencies.
17.	Describe if technical support questions are handled the same way as a customer service request? If not, describe the type(s) of technical support available, the location of technical support, and the hours of technical support. Is it the intent to use employees of your company or will this be an outsourced function?	*Describe if technical support questions are handled the same way as a customer service request? If not, describe the type(s) of technical support available, the location of technical support, and the hours of technical support.* The City of Mesa and OMNIA Partners Participating Public Agencies can contact CDW•G's technical support department via the following methods: **Telephone**—You can reach our technical support department at (800) 383-4239 from 6am-5pm MT, Monday through Friday. **Email**—The City of Mesa and OMNIA Partners Participating Public Agencies can reach our technical support department via email at support@cdw.com. We

		promptly respond to email inquiries from 6am-5pm MT, Monday through Friday. **Online**—CDW•G also welcomes customer interaction via your CDW•G Website through an online chat session that puts you in direct touch with a qualified technician. We promptly respond to chat inquiries from 6am-6pm MT, Monday through Friday. The City of Mesa and OMNIA Partners Participating Public Agencies are able to create, track, and view your own cases. CDW•G's technical support technicians handle both incoming and outgoing follow-up calls. Technical support technicians are located in Holmdel, NJ. Most of our technical support technicians are CompTIA certified and hold, at a minimum, A+ and Network+ certifications or at least two years of help desk experience and one year of customer service experience. Many of our technicians have invested their careers in CDW•G and rigorously pursue ongoing training to bring you the most updated technical knowledge. Many technicians are also accredited in various engineering and manufacturing training courses. We pride ourselves on our ability to consult with customers on a full range of cases, from simple to complex, from general to industry specific. For any customer service issues that may arise, dedicated CDW•G Account Managers stand ready to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate technical support questions. All Account Managers receive regular training on new products and technologies from OEMs and earn OEM certifications, which enable them to assist their customers. We encourage the City of Mesa and OMNIA Partners Participating Public Agencies to contact your dedicated CDW•G Account Manager when technical support is necessary. If your Account Manager is unable to assist, they will determine the best next steps, to include escalation to a Sales Manager, additional support from a dedicated manufacturer support representative, and connection to our help desk. *Is it the intent to use employees of your company or will this be an outsourced function?* Between your CDW•G Account Manager and CDW•G's technical support technicians, all technical support questions are initially handled by CDW employees. If escalation to an OEM or software publisher is required, CDW•G will do that on your behalf.
18.	Describe options for leasing and financing and the various payment methods accepted.	CDW•G has an in-house Financing Solutions Team to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate among our tailored payment solution options, which include leasing, financing, subscriptions, etc. We take a consultative approach to

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

		financing options that ensure the City of Mesa and OMNIA Partners Participating Public Agencies' goals are met. At CDW•G, we focus on providing the best solutions in the industry—and that includes Financing Solutions. CDW•G can facilitate an agreement between OMNIA Partners Participating Public Agencies and various leading financing companies that can help each Participating Public Agency obtain the payment terms that best fit their unique needs and budget requirements. Agencies can secure a payment solution structure with maximized options and terms. CDW•G's Financial Partners provide the best option to fit the City of Mesa and OMNIA Partners Participating Public Agencies' needs. For agencies with a Master Lease Agreement established, we likely have a partnership in place with their provider or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. Often, we leverage relationships with our partners to offer more advantageous rates, terms, and structures. For agencies that have diversity requirements to meet, we can recommend small and diverse partners that hold relevant certifications. Our Premier Financing Partners include, but are not limited to, the following: ▪ Arrow Capital Solutions ▪ Cisco Capital ▪ Dell Financial Services ▪ HPE Financial Services ▪ Lenovo Financial Services ▪ LEAF Commercial Capital, Inc. **Payment Methods** CDW•G accepts payment through: ▪ Credit Cards (American Express, Discover, MasterCard, Visa) ▪ Checks ▪ Purchase Order ▪ Electronic Data Interchange (EDI) ▪ Electronic Funds Transfer (EFT) ▪ Procurement Cards ▪ Ghost Cards
19.	Please explain your firm's process in assisting agencies with identifying software solutions providers. Response should include how your team will assist agencies identify their business needs, determine which business partners can meet the identified business needs and services required. Services could include solution analysis, configuration, Implementation,	CDW Software Services takes a pre- and post-sales consultative approach to help the City of Mesa and OMNIA Partners Participating Public Agencies manage the assessment, validation, deployment, and management of software assets through every stage of their lifecycle. When it comes to software, CDW•G helps identify and understand your needs, analyzes solutions and software publishers that help meet your needs, and offers configuration,

installation, training and maintenance and support services.	implementation, installation, maintenance, and support services. CDW•G looks forward to detailed conversations with the City of Mesa and OMNIA Partners Participating Public Agencies to understand the main technical direction you are headed. After we listen, understand, and identify each agency's unique needs, our experts provide technical advice and recommendations, including information about new products and technology that align with the City of Mesa and OMNIA Partners Participating Public Agencies' overall direction and needs. Your CDW•G Account Team includes highly trained presales specialists who are experts in particular areas of technology, including all things software, or for specific software publishers. When the City of Mesa and OMNIA Partners Participating Public Agencies contact your CDW•G Account Manager, he or she will engage these value-added resources to participate in conversations that allow us to understand the main technical direction the City of Mesa and OMNIA Partners Participating Public Agencies are headed; part of these conversations include assisting agencies in identifying your business needs. After we listen and understand each agency's unique needs, we work to identify potential solutions that meet each agency's goals before presenting those solutions in a proposal or product demonstration. We strive to educate the City of Mesa and OMNIA Partners Participating Public Agencies about products and services by providing a comprehensive overview of its features and benefits. Recommendations and options can be provided by CDW•G via email, shared folders, monthly/quarterly new-tech conferences, virtual or local meetings and briefings, executive seminars, workshops, and more. **Our Total Software Management Methodology** Whether you need help determining if cloud apps are the right choice for your organization's future, planning the deployment of your next software rollout, or assistance keeping track of your software contracts and staying compliant, CDW Total Software Management can help optimize the City of Mesa and OMNIA Partners Participating Public Agencies' software environment, keep track of contracts, renewals, and stay compliant. Our software experts guide you and enable a roadmap to ensure we are meeting expectations and providing full visibility into your software purchasing. Our software experts guide the City of Mesa and OMNIA Partners Participating Public Agencies through the following steps: *Assess*

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

	Before the City of Mesa and OMNIA Partners invest in new software or start thinking about a strategic software plan for the future, you need to understand your current software environment and assess the current landscape of your contracts and deployed assets. Our software experts help you evaluate and navigate your current situation — software usage, rogue IT issues, current licensing and contracts, current and future business needs, software audit concerns, and more — so the City of Mesa and OMNIA Partners Participating Public Agencies can make wise investments in the future. The first step in our process is our Software Asset Review.
	
	The Software Asset Review is a no-cost value-added service that provides a transparent view into purchased software assets, regardless of where they were purchased. Each report includes a full license history and a renewals timeline. With this transparent view into what your organization owns, CDW•G then assists in developing your software asset management strategy and goals. This includes opportunities for optimization, compliance position, renewals strategy, and technology solutions that can assist you in managing your software assets going forward. Once we have a clear look into your assets, we will start to implement our Total Software Management solution around your contracts and software purchases that align with your goals.
	
	Validate
	
	Once CDW•G has a deep understanding of your software assets, we assist in building a software strategy and then identifying the software solutions needed to set that strategy in motion. CDW•G can test and pilot solutions within your current environment, and select the right software for your business and technical requirements. Because we are vendor neutral and have partnerships with more than 300 software publishers, we focus on finding the right solution for each agency's specific needs.
	
	In this step, CDW•G helps the City of Mesa and OMNIA Partners with the following:
	
	▪ Proof of concepts to test feasibility
	▪ Vendor comparisons
	▪ Return on investment assessments
	▪ Pilot implementations
	▪ CDW's Technology Experience Center, which allows you to:
	  ▪ Try out a demo of the software
	  ▪ Make software comparisons
	  ▪ Explore the latest innovations to see if they will help you achieve your business goals
	
	Deploy

	CDW•G can help design and deploy the perfect software solution within the City of Mesa and OMNIA Partners Participating Public Agencies' environment. Our software solutions teams are segmented into unified communications and collaboration, endpoint optimization, and mobility, so you leverage professionals who have deployed in the area(s) most relevant to you. Our experts become part of your team, providing the support you need when and where you need it. We help you navigate robust software offerings from virtualization and desktop management to networking and collaboration solutions. More importantly, we can share our knowledge with you so the City of Mesa and OMNIA Partners Participating Public Agencies can spend less time managing software and more time putting it to work. *Manage* CDW•G makes dealing with multiple licenses, vendors, and software solutions simple and effective, with our experienced team of professionals available to help you throughout the process. CDW•G helps right-size your software licensing to avoid unnecessary costs and streamline day-to-day software management. CDW•G's Software Licensing Management helps with: ▪ Performing health checks ▪ Maintaining the right license position so you're neither over- or under-licensed ▪ Establishing consolidated billing ▪ Providing ongoing software recommendations ▪ Ensuring accurate IT planning and budgeting ▪ Maximizing value derived from licensing agreements ▪ Applying compliance checkpoints ▪ Staying on top of licensing expiration and renewal CDW•G's experts will walk the City of Mesa and OMNIA Partners Participating Public Agencies through the entire software management lifecycle, from choosing the proper products that suit your needs to contract negotiation and management to testing and deployment. Additionally, CDW•G serves as a single resource to stay on top of your entire software environment. As part of our contract management roadmap process, your CDW•G software team will conduct regular business reviews and contract deep dives to help manage the licenses over the course of the contract, and our contract management roadmap will keep you aware of important renewal dates. **Success Story – Local Community-Development Services** *Background*

	This local government entity sought assistance for their IT licensing renewals and aid in guiding their organization through the intricacies of software licensing agreements. The customer contacted CDW•G to assist with their upcoming renewals, help manage their software licenses, as well as maintain compliance and optimize costs. *Solution* CDW•G has a thorough process to ensure that the customer's needs are met. This engagement included a detailed evaluation, careful planning, negotiating with vendors, finding cost-effective solutions, minimizing risks, and keeping meticulous records. Not only did this approach meet the customer's immediate licensing requirements, but it also had long-term advantages in terms of regulatory compliance, cost reduction, and resource management. *Outcome* With the help of CDW•G, the customer was able to renew their essential software licensing on time, ensuring uninterrupted access to critical resources. This positions them to manage IT resources effectively and allocate budgets efficiently. In the end, the customer's CDW•G team provided expertise on licensing models, negotiation strategies, and industry standards to ensure compliance, prevent legal complications, and reduce expenses.

TAB D
PROPOSAL QUESTIONNAIRE EXHIBITS

EXHIBIT 3 – SERVICES

Firms Method and Approach

Question 1. Provide a description of all services that can be provided by your firm or partners (e.g., cloud, services, maintenance, implementation, design, analysis, training, repair, staff augmentation, etc.).

Offering – Overview

CDW•G offers everything the City of Mesa and OMNIA Partners Participating Public Agencies' IT operations could possibly need – from enterprise-wide services to mouse pads and full turn-key solutions. The depth and breadth of products, services, and solutions CDW•G offers allows the City of Mesa and OMNIA Partners Participating Public Agencies to streamline procurement and increase efficiency by reducing the time and effort of managing multiple contracts. And as technology changes and your needs grow, so do we.

Acquisitions

Since CDW•G's last proposal to the City of Mesa and OMNIA Partners Participating Public Agencies, we have invested in several meaningful acquisitions that have enhanced our already comprehensive offering even further. Our acquisitions contribute to our ability to continue to meet the evolving needs of our customers. These acquisitions contributed to our being recognized by Frost & Sullivan with the 2022 Global Customer Value Leadership Award for the second year in a row. Frost & Sullivan presents this award to the company that demonstrates excellence in implementing strategies that proactively create value for its customers with a focus on improving the return on the investment that customers make in its services or products. An overview of our acquisitions over the last four years is as follows:

2019	In October 2019, CDW acquired Aptris, Inc., a distinguished IT service management solutions provider and ServiceNow Elite Partner. Aptris' talent and expertise further expanded our services capabilities in this fast-growing segment of the IT market and enhanced the value that we can deliver to the City of Mesa and OMNIA Partners Participating Public Agencies.
2020	In July 2020, CDW acquired IGNW, a leading provider of cloud-native services, software development, and data orchestration capabilities; this acquisition allows us to continue to provide highly technical solutions to our customers. In December 2020, CDW acquired assets of Aeritae, a ServiceNow Elite Partner, and Southern Dakota Solutions, a specialist in IT Asset Management design and implementation, allowing us to provide more robust ServiceNow system integration services to our customers.
2021	In March 2021, CDW acquired Amplified IT, a leading education-focused consultancy that brings a blend of technical skills and knowledge to the K-12 and Higher Education markets. This acquisition strengthens our Education practice so that we can continue enabling and empowering schools to leverage innovation. In August 2021, CDW acquired Focal Point Data Risk, a leading provider of cybersecurity services with customers across a diverse set of industries. Acquiring Focal Point has added more resources for CDW•G to better deliver security solutions

	and services within four areas: Identity and Access Management, Cyber Security and Data Privacy, Cyber Workforce Development, and Risk Consulting. Significantly, Focal Point Academy is the longtime leader in cyber workforce development. This acquisition has propelled CDW to become the largest Security Integrator in North America. In December 2021, CDW completed our acquisition of Sirius Computer Solutions. Our acquisition of Sirius combines our full-stack expertise with Sirius's broad portfolio of solutions and a team of experts with more than 5,500 professional and technical certifications who specialize in Business Innovation, Digital Infrastructure, Cloud, Security, and Managed Services.
2023	In February 2023, CDW acquired Locus Recruiting LLC (Locus), an experienced consulting team specializing in staff augmentation, information security, cloud computing, networking, and infrastructure. Our acquisition of Locus enhances our staff augmentation practice so that we can continue to provide cost-effective resources to support our customers' needs. In June 2023, CDW acquired Enquizit, an experienced provider of AWS cloud services, helping us better solve customer challenges and deliver meaningful outcomes through innovative technical solutions.

Partners

As one of the largest value-added resellers (VAR), CDW•G has established strong working relationships with the major suppliers in the technology industry. We maintain these relationships in order to provide the best products, services, and support to our customers. We offer more than 100,000 products from more than 1,100 different manufacturers and software publishers. Our top partners have full-time representation at our sales offices to facilitate requests for information and assist with designing the best possible solution.

Many manufacturers choose CDW•G as their primary reseller because of our vast distribution network and the value-added services that we provide to our customers. CDW•G invests heavily in the training and certification of our account managers and technical staff. We work closely with our vendor partners to remain current with the latest technologies and to deploy and manage those technologies in customer environments. We have received awards and recognition from our manufacturer partners for developing and delivering exceptional solutions. Specific insight into some of our partnerships is provided below:

Microsoft

As one of only a select group of Microsoft Cloud Solution Providers (CSP) with all solution designations, CDW•G has the expertise you need to get the most out of your Microsoft products. We work closely with Microsoft to ensure that our solutions are cohesive; you get the whole bundle (licenses, migrations, modernizations, automation, and management) directly through CDW•G, which saves you time and money. With deep implementation experience across Microsoft's portfolio of hardware, software, and the cloud since our partnership began in 1999, we are the right partner for delivering Microsoft solutions.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

We are a certified Azure Expert Managed Service Provider with expertise in end-to-end cloud lifecycle management, including assessing, migrating, building, deploying, optimizing, and efficiently managing business solutions on Microsoft Azure.

We have earned all 6 of Microsoft's Solution Designations and are now among the elite Microsoft partners certified with the Microsoft Solutions Partner Designation for Microsoft Cloud. In 2022, we received the following awards:

- US Device Partner of the Year
- Surface Customer Adds Award Winner

Google

We are a Premier Google Partner. Together, Google and CDW•G bring you the best of Google solutions to grow and support your modern workforce. We are one of only four Google partners certified with Google CCAI expertise along with having three of the world's 66 Google Cloud Fellows on staff. In 2023, we received the following awards:

- Partner of the Year in the Expansion category for its success in helping customers achieve better results through Google Workspace
- Partner of the Year in the Specialization category for excelling in the Education sector and delivering positive customer outcomes

Oracle

We are an Oracle Gold Partner. Our exceptional coverage, relationships, integration, asset management tools, image loads, and streamlined procurement processes allow us to be a trusted advisor on Oracle for the City of Mesa and OMNIA Partners Participating Public Agencies, making it easier to get the Oracle expertise and services needed to provide you with complete Oracle solutions.

Apple

As a Diamond Elite partner, we had a very successful, established relationship with Apple. Apple products and services combined with our legendary logistics and services capabilities offer the City of Mesa and OMNIA Partners Participating Public Agencies improved profitability and employee productivity while simplifying IT overhead and lowering overall costs.

Note: Only Apple is allowed to sell Apple products to K-12 customers, including both private and public schools. If this policy is repealed, CDW•G is equipped and ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies K-12 customers.

Dell

CDW•G has complete access to all of Dell Technologies and Dell EMC's product lines, selling the entire Dell product portfolio of client devices, displays, accessories, software, data storage, server, networking, and services. This portfolio includes RSA® and VMware®. With over 90 onsite CDW-badged dedicated resources and 250 Dell Technologies-badged resources, the Dell and CDW relationship is stronger than ever and suited to meet and configure all customer IT needs.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

HP

We have strong partnerships with both HP Inc. (HPI) and Hewlett Packard Enterprise (HPE); as a Platinum Partner, we have the experience and expertise to help the City of Mesa and OMNIA Partners Participating Public Agencies design the best solution.

This last summer, we received the following awards:

- 2023 Global Solution Provider of the Year
- 2023 North America Solution Provider of the Year
- 2023 Consulting Partner of the Year by Zerto, a Hewlett Packard Enterprise company.

IBM

We are a Diamond Elite IBM Partner and have been providing IBM solutions for over 25 years. Our IBM-dedicated team consists of nationwide sales, technical, and marketing experts. As an IBM Platinum Business Partner, CDW•G is authorized to sell IBM solutions – from servers and storage to software and technical services. CDW is the leading IBM Security software reseller in the United States.

Lenovo

Our strong partnership with Lenovo is a benefit to our customers, who receive top-quality Lenovo products quickly and efficiently. We are currently the largest Direct Response Channel Partner of Lenovo products.

Panasonic

CDW•G is a Panasonic Diamond-level partner and member of the Panasonic Authorized Reseller Program, authorized for computers and tablets, projectors, professional displays, scanners, and presentation technologies. CDW•G is Panasonic's largest Toughbook computer reseller in the channel.

Cisco

We are a Cisco Gold Certified Partner. We have attained the broadest range of expertise across multiple technologies, and we are Cisco's Largest US National Direct Integrator Partner. In November 2023, Cisco recognized us with the following awards:

- Data Center Partner of the Year (Global)
- Cisco Capital Partner of the Year (Americas)
- SMB Partner of the Year (Americas – US)
- USA Partner of the Year (Americas – US)
- Area Partner of the Year (US – Central)
- Commercial Partner of the Year (US – Central)
- Enterprise Networking Partner of the Year (US – Central)
- SMB Partner of the Year (US – Central)
- South Enterprise Partner of the Year (US – Central)
- Enterprise Networking Partner of the Year (US – East)
- Federal Intelligence Partner of the Year (Federal)

Please note that we excluded our Canada, European, and UK awards from this list.

Juniper Networks

We are an Elite Partner with Juniper Networks; we have 100+ accreditations and 10+ certifications, including the Enterprise Routing & Switching Specialization and the Mist AI Specialization.

ExtremeNetworks

CDW•G is an ExtremeNetworks Diamond Partner. We have specializations in Security & Access Control, Cloud, Management & Automation, Data Center, ExtremeWireless, and ExtremeSwitching.

Netgear

Together, CDW•G and Netgear provide high-performance switching, wireless, and security solutions. We are authorized to sell Netgear Business, as well as Wi-Fi and networking solutions, switching, AV, remote management, and more.

Additional Partners

For your convenience, we have provided our line card as Exhibit 1.

Services

j. Services: Services such as, but not limited to cloud computing, consulting, technical support, leasing/financing, trade-ins, repair, design, analysis, configuration, implementation, installation, training, maintenance, advisory, managed and support services, staff augmentation, professional services, etc. In addition, services that are related to the design, use, or operation of the products being purchased such as system configurations, testing, hardware/software installation, upgrades, imaging, etc. Services may also include materials, equipment, and supplies provided by the Reseller under an SOW Note: All hardware should come assembled. For example, if extra memory, additional drives, or peripherals are ordered, the Contractor must install them unless the Participating Agency requests, that they not be installed.

CDW•G provides the required services listed in the RFP' Scope of Work; we provide insight into each requested service throughout the remainder of this section. Our full-stack engineering services team focuses on digital transformation – from code and applications to cloud, data, and security – to help you accelerate innovation, enhance user experiences, and optimize collaboration, all while delivering agility and cost efficiencies.

Lifecycle of Services

In today's competitive market, the speed of digital priorities is critical to success, yet technical complexities can slow progress. CDW•G's **full lifecycle of services** supports the City of Mesa and OMNIA Partners Participating Public Agencies' internal team and helps you focus on your short-term and long-term goals. Our experts help you design, orchestrate, and manage your technology environment:

Design – Advisory and Assessment

Using a wide breadth of tools, data, and decades of expertise, we offer strategic advisory services, workshops, assessment, planning, and design engagements with our engineers that consider your specific needs and make recommendations to address gaps and optimize growth. This includes documentation, analysis, and creation of materials that detail the bridge between your current and future state.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Orchestrate – Building, Implementation, Deployment

Our expert engineers configure and deploy your solutions to help the City of Mesa and OMNIA Partners Participating Public Agencies implement technology according to your organization's unique needs and ensure it works from day one. We build, create, and analyze software or services, as well as test and release into a defined environment and implement changes outlined in the design phase. We implement technology adoption and organizational change management plans to ensure you're fully utilizing your technology solutions and deriving the value you expect.

Manage – Continuous Support and Operations

CDW•G can help the City of Mesa and OMNIA Partners Participating Public Agencies save time and money and augment internal IT team bandwidth with 24/7/365 support and expert management of any aspect of your technology solution.

- **Managed services:** With proactive monitoring, automation, alerting, analysis, maintenance, and performance of operational functions of an organization's contracted technology environment, CDW•G provides end-to-end support of your complex environments.
- **Technical support and continuous improvement engagements:** CDW•G experts provide technical support for complex technology solutions when your IT, development, and business teams need it. Our experts work with you to continuously optimize your technology environment.

We provide greater insight into our full Managed Services capabilities later in this section.

CDW Services Overview

Our professional services help the City of Mesa and OMNIA Partners Participating Public Agencies amplify your capabilities at any stage of your technology journey. IT services are a critical necessity for government entities and public agencies. Our IT services are built to help the City of Mesa and OMNIA Partners Participating Public Agencies tackle various day-to-day challenges, such as increasing efficiency and maximizing costs, while allowing you to free up your internal resources to focus more on core projects. However, not all government entities and public agencies are fully equipped with the necessary resources or have access to the technical experience and support that they need. Our services allow the City of Mesa and OMNIA Partners Participating Public Agencies to focus more on their residents and constituents.

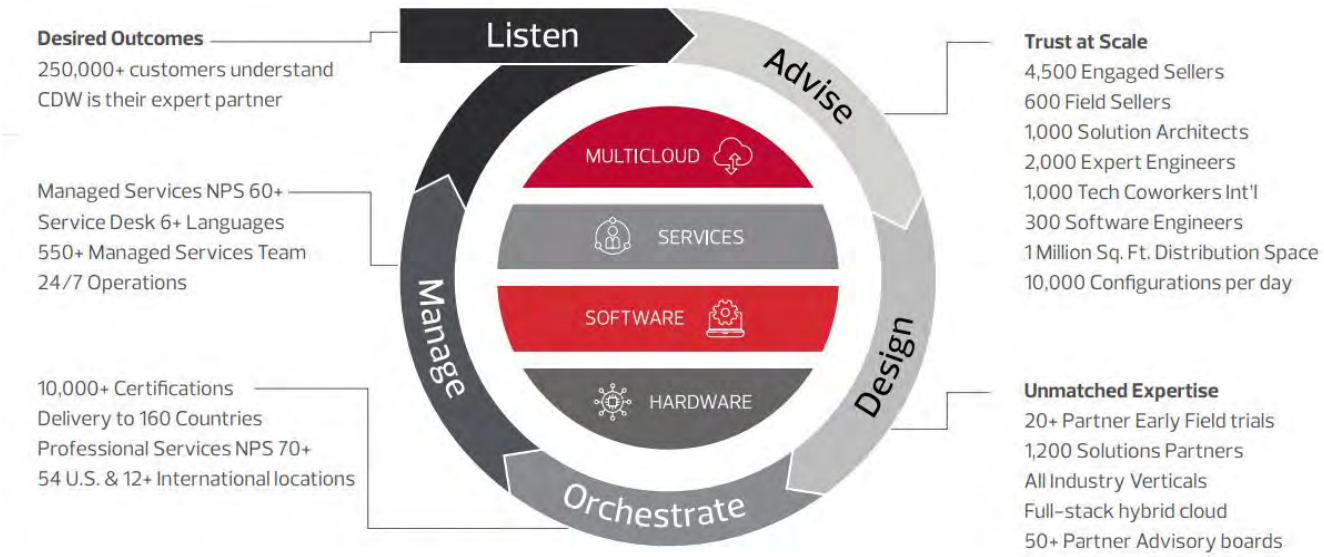

Figure 6. CDW•G's Lifecycle of Services

CDW Services consists of the following services, each with its own focus, experts, and capabilities:

CDW Infrastructure Services provide expertise, tools, and resources to scale and future-proof your infrastructure. We help the City of Mesa and OMNIA Partners Participating Public Agencies upgrade existing architecture and prepare for what's to come, whether on-premises, migrating to the cloud, or in the cloud. We also modernize applications, streamline delivery through DevOps (CDW Development Services), and write custom, cutting-edge apps that drive business. To ensure all of your needs are being met, we have broken our Infrastructure Services into the following categories:

- **CDW Hybrid Cloud** consists of cloud and hyperconverged infrastructure services.
- **CDW Networks** deals primarily with enterprise networking as well as data center networking.
- **CDW Data Center** encompasses soft-ware defined data centers, data center migration and optimization, next-gen backups, compute and storage solutions, as well as power and cooling solutions.
- **CDW OS** includes operating systems, applications, and services.
- **CDW Software Engineering** includes DevOps, as well as software design and consulting.
- **CDW App Modernization** deals specifically with Application Modernization.

CDW Workspace Services provide a comprehensive approach that allows employees to work from anywhere, on any device. We enable the City of Mesa and OMNIA Partners Participating Public Agencies to build a communications platform that grows with you, is rapidly adopted by end users, and helps improve business outcomes through seamless collaboration. Our workspace services are broken into the following categories to meet a variety of complex needs:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **CDW Collaboration** services deal primarily with communications, messaging and conferencing, video, applications such as Office 365, engagement contact centers, as well as portals and content collaboration.
- **CDW Endpoint** services encompass management and security, mobility, mobile workspaces, unified endpoint management, and managed print services and printer supplies programs.

CDW Security Services provides independent evaluations of security posture and helps government agencies fortify their weaknesses. Our certified experts design comprehensive strategies and solutions for protection and response. Our security services are broken into the following categories:

- **CDW Secure Platform** includes next-generation firewall and IPS, content security, identity and access management, network visibility, and endpoint protection, as well as policy and access.
- **CDW Detect and Respond** deals with log aggregation and correlation, as well as security incident response.
- **CDW Information Security** deals only with information security services.

CDW Data Services, including artificial intelligence (AI) and machine learning (ML) services, offer actionable insights that give you a stark competitive advantage. Design, build, and deploy modern data analytics and AI/ML solutions for storing, transforming, discovering, and operationalizing your data. We have broken our data services into the following categories:

- **CDW Data** focuses on data modernization and data analytics.
- **CDW AI/ML** deals specifically with machine learning analytics (ML) and artificial intelligence (AI) data analytics.

CDW Support Services delivers custom warranty, maintenance, and support services that augment your IT staff so they can focus on maximizing business outcomes. We offer a variety of support services for hundreds of manufacturers; these services include the following:

- **CDW Technology Support** is a branded service backed by the Original Equipment Manufacturer (OEM) collaborative warranty support service. Our depth and breadth of expertise enable us to get a top-level engineer quickly, resulting in faster incident resolution.
- **CDW Extended Support** provides continuous break/fix support service on equipment that its manufacturer no longer covers (N-1 or older) or is nearing end-of-service (EOS) life.
- **Help Desk Services** connects you with our Managed Services team and helps put the right people, processes, and tools in place.
- **Warranty and Maintenance Services** allow us to keep your equipment – and organization – running with expanded and extended warranties as well as custom maintenance contracts that include on-call experts and break/fix agreements.

CDW Configuration and Integration Services make sure your new technology is ready to work on arrival, whether we are building out a data center solution with fully configured racks, facilitating a multisite deployment of pre-configured computing devices, or handling single-device provisioning. We offer basic and advanced services:

- **CDW Basic Configuration and Integration Services** include hardware integration, software configuration, asset tagging and reporting, custom laser engraving, Windows autopilot enrollment with Intune pre-provisioning, Chrome OS White Glove Service

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

(WGS), and Zero-Touch Enrollment (ZTE), inserts, kitting, and custom packaging, buy and hold services, mobility services, and burn-in services.

- **CDW Advanced Configuration and Integration Services** consist of hosted VPN services, custom imaging, network and security device configuration, and rack configuration.

Success Story: Citizen Support Entity

Background

This State has more than 200 libraries dispersed throughout business centers and other areas where community members frequently visit. To increase efficiency, this State entity wanted to digitize their content and workflow to lessen the processing and approval time for public benefits applications. The customer's goal was to offer convenient access in a friendly environment while also downsizing the number of staff needed in the process.

Engagement and Solution

As their chosen consultant, CDW•G answered any remaining questions regarding the hardware and use cases to ensure that the solution matched the desired outcome. The CDW•G Team also determined which CDW Configuration Services would be most applicable to this project and the customer's overall mission.

CDW•G provided the state with an end-to-end solution. First, we provided proof of concept and created a desirable bill of materials. To best meet citizens' needs, we determined the ideal fit of Chrome tablets that would be suited for long hours of operation in high-touch environments. The Chrome tablets have many benefits, such as built-in security, ease of deployment through Zero Touch Enrollment, and centralized manageability via the Chrome Operating System (ChromeOS). This reduced the total cost of ownership to the customer.

CDW•G then looked for a kiosk that would complement the Chrome tablet and recommended necessary modifications. Finally, the team acquired demo units for the State to test.

Outcome

CDW•G positioned a complete solution that will allow the State's citizens to conveniently access government applications at over two hundred library locations across the State. Their CDW•G Team was diligent in addressing each of the customer's requirements and concerns, thoroughly reviewed proof of concept, and effectively collaborated with partners to provide the best solution.

Software Services

CDW•G has a variety of services to help you with your software needs. CDW Software Services takes a pre- and post-sales consultative approach to help you manage the assessment, validation, deployment, and management of software assets through every stage of their lifecycle. Our Total Software Management solution provides everything you need to make every step of software management simple and effective. CDW•G has everything the City of Mesa and OMNIA Partners Participating Public Agencies need to begin exploring software options, including, but not limited to, the following:

- Extensive knowledge of the software industry and publishers
- Insight into the latest trends and products

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Decades of experience in enhancing software environments
- Comprehensive process to review goals and technical requirements
- A comprehensive portfolio
- Expertise in cloud apps

Our software experts will identify your current license position and renewal timeline, as well as provide a review that is easy to understand so that you can maximize returns on your software investment. Our review helps you organize and track software, prepare for purchases, and educate teams about the software infrastructure. The review:

- Determines whether current agreements fit your needs
- Identifies opportunities for agreement consolidation
- Shows when your agreements are up for renewal

Our long-standing partnerships with top software vendors give us a deep understanding of each one's unique licensing requirements. CDW•G is committed to maintaining the highest level of knowledge and expertise surrounding software solutions. We will leverage our close partner relationships and continue to invest in our workforce to ensure we stay in front of the ever-changing landscape within this area.

Success Story – Local Community-Development Services

Background

This local government entity sought assistance for their IT licensing renewals and assistance in guiding their organization through the intricacies of software licensing agreements. The customer contacted CDW•G to assist with their upcoming renewals, help manage their software licenses, maintain compliance, and optimize costs.

Solution

CDW•G has a thorough process to ensure that the customer's needs were met. This engagement included a detailed evaluation, careful planning, negotiating with vendors, finding cost-effective solutions, minimizing risks, and keeping meticulous records. Not only did this approach meet the customer's immediate licensing requirements, but it also had long-term advantages in terms of regulatory compliance, cost reduction, and resource management.

Outcome

With the help of CDW•G, the customer was able to renew their essential software licensing on time, ensuring uninterrupted access to critical resources. This positions them to manage IT resources effectively and allocate budgets efficiently.

In the end, the customer's CDW•G team provided expertise on licensing models, negotiation strategies, and industry standards to ensure compliance, prevent legal complications, and reduce expenses.

Software Value-Added Services for the City of Mesa and OMNIA Partners Participating Public Agencies

CDW•G does not compete on price alone. As a vendor-neutral solutions provider, assisting with presales recommendations is one of our strong suits. We are the number one reseller to many of our vendor partners, such as Microsoft, VMware, and Adobe. Therefore, we have the expertise, experience, and resources to provide the best solution for the City of Mesa and

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

OMNIA Partners Participating Public Agencies. Our close relationships mean that we receive competitive price offers and timely notifications regarding product changes. This allows the account team to keep the City of Mesa and OMNIA Partners Participating Public Agencies appraised of new product releases, version changes, and price changes, all of which affect how you purchase software.

CDW•G offers the City of Mesa and OMNIA Partners Participating Public Agencies the following value-added services:

- Assessments
  - Software License Review
  - Demonstration Labs (such as our Microsoft Experience Center)
  - Virtualization Assessment
  - Security Threat Check
  - One-to-One Readiness
- Trial License Key Codes
- Educational resources and important notifications, including email notifications, webinars, CDW's Solution blog, Software Simplified, and White Papers, among others
- Software purchase reports
- Available software promotions
- Sponsored vendor events designed to keep the City of Mesa and OMNIA Partners Participating Public Agencies in the know of industry trends

Licensing Strategy Consultation

- Current licensing assessment
- Analysis of current and future needs
- Discussion regarding procurement preferences
- Multiple quotes for side-by-side comparison

Ongoing Licensing Strategy Sessions

- New products
- Software Assurance benefits utilization
- Changes in licensing structure
- Future procurement planning

Quarterly and Ad Hoc Reporting

- Help for managing maintenance agreements
- Reminders for expiration-sensitive products
- Analysis of options for coterminous agreements
- Comprehensive online reporting of all software purchases from CDW•G

Customized Procurement Plan

- Multi-year license procurement roadmap

License Agreements

- Provide for the City of Mesa and OMNIA Partners Participating Public Agencies Education on License Agreement Terms & Conditions
- License Agreement setup and processing

Our expertise extends to everything from the evaluation process and technology planning to software purchasing and the contract management tasks ahead. CDW•G is committed to coordinating the resources needed to provide helpful insight on right-fit options for your specific

needs. In fact, we have over 320 coworkers specifically dedicated to Software Licensing, Solutions, and Services.

We believe the City of Mesa and OMNIA Partners Participating Public Agencies will find that our business model provides one of the best values that the industry has to offer for licensed software. Our resources and our value-added tools provide the City of Mesa and OMNIA Partners Participating Public Agencies with the pricing and partnership that you deserve and make procurement easier. We have the best-in-class solution today, but we will continue to evolve in order to maintain our leadership role, expand and enhance our value proposition, and better serve the City of Mesa and OMNIA Partners Participating Public Agencies.

Success Story: Local Government Entity

Background

In 2022, this local government entity transitioned from on-premise technology solutions to the cloud and required continued guidance to understand the solutions, licensing support, and help to educate their end-users. The customer wanted a partner to help evaluate their current license entitlements and solutions to fit user profiles. Their top priorities were to reduce costs and improve end-user satisfaction.

Engagement and Solution

We have managed the customer's Microsoft Enterprise Agreement (EA) for the last six years and conducted regular communication and quarterly business reviews to stay in touch with the customer's needs. As a part of the year 1 true-up process, we engaged the customer to review licensing and end-user functionality requirements.

To help this customer meet their goals, we provided them with cost analysis and guidance for Microsoft M365 E3, E5, and F3 products in addition to on-premise server products, including SQL and Windows Servers.

Outcome

CDW•G's engagement helped the customer to consolidate their licenses and achieve cost savings by requesting reductions on cloud licenses prior to their two-year anniversary and replacing them with M365 E3. By educating the customer on license compliance and options to Step-up, this local government entity recognized significant cost-savings. Ultimately, the customer greatly appreciated CDW•G's contribution and has recognized an enhanced Microsoft experience overall.

Cloud Computing Services

CDW•G understands that the City of Mesa and OMNIA Partners Participating Public Agencies have many technology provider choices. When working with CDW•G, you get the best total solution the industry offers without the limitations inherent when dealing with either a manufacturer or a specific partner. CDW•G works with customers to develop coordinated and cost-effective Cloud Solutions through the following range of services:

- **Discovery and Assessment:** Understanding of environment, usage, challenges, and requirements
- **Planning and Design:** Evaluation of providers, recommendations, and proof of concept
- **Migration Services:** Smooth deployment of the solution

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Integration Services**: Full integration with existing applications
- **Application Modernization**: Turning monolithic legacy apps into cloud micro-services
- **Aggregation Services:** Streamlined administration and aggregated billing
- **Managed Services:** CDW•G hosted and remote managed services or partner-managed services
- **Fulfillment Services:** Onboarding, reporting, billing, partner reconcilement, and renewals

As a leading provider of Cloud Solutions, we can help the City of Mesa and OMNIA Partners Participating Public Agencies assess your priorities and determine which applications and processes should and shouldn't be moved to the Cloud. We also help you design the best delivery model, whether public, private, or a hybrid model, that provides the greatest flexibility to customize your solution. Furthermore, our pre-qualified partner network makes it easy to find the right providers and to create a comprehensive, multi-vendor solution that meets your specific needs.

Consulting and Advising Services

Our IT consulting and professional services team — over 1,000 professionals strong — delivers personal service that helps the City of Mesa and OMNIA Partners Participating Public Agencies understand and meet your organizational and technological needs. A key differentiator for our Advising and Consulting practice is that our experts go beyond advising; CDW•G can deliver on whatever the City of Mesa and OMNIA Partners Participating Public Agencies need. Because of our ability to design and deliver, our consultants incorporate their technical knowledge and experience into the design, assessment, and implementation. Our comprehensive approach ultimately mitigates risk through experience to ensure that customers like the City of Mesa and OMNIA Partners Participating Public Agencies get it right the first time.

We have expertise and certifications across diverse industries in the public and private sectors. Our project managers and consultants work directly with you to design and implement every facet of your IT solution.

Using a wide breadth of tools, data, and years of expertise, we offer strategic advisory services, workshops, and assessment, planning, and design engagements with our engineers that consider your specific needs and make recommendations to address gaps and optimize growth. This includes documentation, analysis, and creation of materials that detail the bridge between your current and future state.

Presales Consulting

A unique advantage of CDW•G's business model is that the City of Mesa and OMNIA Partners Participating Public Agencies have access to an incomparable depth and breadth of value-added technical expertise. Our highly trained and experienced Technology Specialists and Solution Architects provide expert consulting advice and ongoing support. In addition, our strong relationships with manufacturers enable your CDW•G Account Team to provide presales consultation, technology roadmaps, and other assistance quickly. In fact, many major vendor partners have dedicated staff at CDW•G.

During the presales phase, service consultation focuses on understanding the City of Mesa and OMNIA Partners Participating Public Agencies' requirements and engaging the appropriate technology specialists, systems engineers, and solution architects. We work to identify potential solutions that meet each Participating Public Agency's needs before presenting those solutions in a proposal or product demonstration. We strive to educate the City of Mesa and OMNIA

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

Partners Participating Public Agencies about products and services by providing a comprehensive overview of its features and benefits.

Below is an overview of those who can be engaged to support the City of Mesa and OMNIA Partners' Participating Public Agencies during the presales consultation process and beyond:

Technology Specialists

Our teams of technology specialists are highly trained and experienced in various products and technologies, including the following:

- Leasing and Finance
- Managed Print Services
- Mobility
- Networking
- Power and Cooling
- Servers and Storage
- Software Licensing and Management
- Unified Communications and Collaboration
- Voice and Data
- Security

Presales Systems Engineers

We have a large team of over 100 presales systems engineers who hold vendor-funded positions and provide presales support for that particular partner's products. These experts assist with evaluating products based on your unique operational requirements and budgetary constraints. They review quotes for product compatibility, functionality, and compliance.

Solution Architects

Our teams of solution architects work closely with the vendor partners whose solutions they design. They assess your environment and work with your IT staff to design plans for solutions that boost productivity and improve operational efficiencies. Extremely knowledgeable about the latest technologies, they have important insight into the pros and cons of different solutions.

Onsite Vendor Representatives

CDW•G has manufacturer and software publisher representatives onsite at our sales offices to assist account managers and specialists with requests for technology roadmaps and to provide training on an ongoing basis. Our strong relationships facilitate presales consultation and timely notification regarding product changes and products going end of life.

Data Center Transformation Team

In addition to our presales consulting team and resources, our advanced consulting arm, the Data Center Transformation (DCT) team, has both the resources and expertise to collect complex data, provide custom reporting, and tailor our advisory outcomes to the unique needs of the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G is aligned with industry trends across technology organizations and industries, including state, local, and education. CDW•G reins in the complexity of industry trends and tailors it to your needs and goals through our disciplined practices.

Data Center Transformation is the process of changing an organization's IT infrastructure and application services to improve its capabilities, performance, and efficiency. The process includes data center migrations, cloud integration, large-scale changes to hardware, virtualization, improved resiliency, software-defined components, application rationalization, and business process automation. At its core, DCT is a business-first approach that will enable the

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

City of Mesa and OMNIA Partners Participating Public Agencies to accelerate the transformation of your business models using technology to achieve its unique goals.

The DCT team offers consultative guidance in six key strategic focus areas, highlighted in the figure below:

Figure 7. DCT Focus Areas

With over 23 years of experience providing consulting and advisory services, the DCT team provides consultative and advisory expertise specific to the City of Mesa and OMNIA Partners Participating Public Agencies' business challenges. With a focus on understanding your outcomes, goals, and objectives, DCT takes a consultative approach to recommend solutions to address strategy rather than problems.

For decades, the DCT team has led transformative projects for state and local governments, federal entities, small businesses, large corporations, and health and education organizations. Over this period of time, we have accomplished many goals for our customers, including:

- Moved 675 data centers
- Relocated 250,000+ workloads
- Migrated 25,000+ applications across 16 industries
- Reviewed 1290 data centers
- Assessed and defined direction for 15M+ square feet of raised floor
- Identified an average reduction of 65% of data center space
- Designed enterprise clouds to support up to 780K workloads
- Moved 950,000 workload
- Moved 25,000 workloads within a single client
- Moved 10,000 workloads in a single environment
- 160 facility concept plans performed
- Rationalized almost 1M workloads for cloud placement
- Worked with 325+ converged infrastructures involving our services
- Configured more than 5M configuration items for hundreds of CMS/CMDBs
- Implemented 77 enterprise IT operating models

There are many different types of projects that the DCT team can orchestrate for the City of Mesa and OMNIA Partners Participating Public Agencies. These projects span the full gamut of transformational information technology and include solution areas such as data center transformation, business process optimization, and application management solutions. Our DCT team uses proven processes and leverages infrastructure, data, digital, and security experts to create high-value transformative business capabilities for our customers.

Overview of Advising and Consulting Services

CDW•G has a wide variety of advising and consulting services. These services include, but are not limited to, the following:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **vCISO Service:** Many organizations have limited staff or skill sets and need assistance navigating security obstacles, which is why CDW•G's Security Consultants are available to act as a virtual Chief Security Information Officer (vCISO). Our vCISO service helps you improve the maturity and scope of your existing security practices by providing a technology-neutral Security Consultant.
- **CDW OS ITSM Simulation/Executive Visioning Workshop:** By participating in our IT Service Management (ITSM) business simulation workshop, the City of Mesa and OMNIA Partners Participating Public Agencies can learn how to increase the business impact of your internal service provision. This hands-on, highly interactive IT/Business workshop is designed to educate the City of Mesa and OMNIA Partners Participating Public Agencies' leadership and stakeholders in the business structure of process with technology.
- **IoT Transformation Workshop:** Our Internet of Things (IoT) Transformation Workshop is designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand your data needs, determine the return on investment (ROI), and evaluate your foundational infrastructure to determine if any technical components should be retired, evolved, or added before implementing an IoT technology initiative.
- **CIO Essentials:** Our CIO Essentials provides the framework to develop the City of Mesa and OMNIA Partners Participating Public Agencies' vision for the future into an actionable strategy and roadmap. Whether Participating Public Agencies are looking to transform your organizations into a DevOps culture based on cloud Platform as a Service (PaaS), industrialize your private cloud services, consolidate your application portfolio, or modernize your IT environment as a whole to reduce IT expenses, CIO Essentials provides the tools the City of Mesa and OMNIA Partners Participating Public Agencies need to deliver a clear, concise business-centric strategy.
- **PMO Assessment Workshop:** Our DCT leads our Project Management Office (PMO) Assessment Workshop. This workshop is a high-impact, comprehensive program to assess and improve Project Portfolio Management (PPM) practices over the course of 3-4 weeks. This comprehensive program consists of three survey domains: PPM current state, PPM satisfaction, and PPM assessment.
- **Application Rationalization:** Over time, your application portfolio may expand as more are introduced for specific needs. Using a strong holistic methodology, CDW•G can help the City of Mesa and OMNIA Partners Participating Public Agencies address your application portfolio to ensure that the applications used are cost-efficient and serve as effective tools. Our skilled consultants will work directly with relevant stakeholders to review your organization's complete list of applications. This review includes a full data analysis, coupled with facilitated workshops and interviews with application owners and end-users. These sessions provide additional context and knowledge beyond the raw data to identify and attain your organization's end goals.
- **Application Dependency Mapping:** Application dependency mapping combines tool-based discovery with the experience of CDW•G resources to provide a holistic view of an application environment, including detailed information and mapping of the relationships between your IT assets. Whether the City of Mesa and OMNIA Partners Participating Public Agencies are prepping to migrate to a new data center, introducing a new application, reducing the risk of business interruptions, or planning to transform your business, application dependency information is a crucial factor in your success. Application dependency mapping is an essential first step for understanding your current environment or preparing for a wide range of changes.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Migration Execution:** From planning and strategy to the execution of the migration, CDW•G can assist you with the ability to migrate from your current data center to a new one on a schedule.
- **Migration Readiness Assessment:** Before starting a migration program, consider having CDW•G experts perform a Migration Readiness Assessment. This program helps you be prepared to start the migration program, by identifying risks and develop mitigation plans that could impact your migration program, which will help you make better-informed decisions about scope, timeline, budget, and resources.
- **Organizational Effectiveness Services:** Ensuring that your organization is performing at the highest levels depends on how well your IT teams function and work with each other. CDW•G's expertise in how IT organizations operate helps you drive efficiencies, address issues, prepare for an organizational change, or expand services to meet business objectives. Our consultants will align your organizational structure and role definitions to meet your goals as well as account for current needs and projected growth to better understand your strategic direction.
- **IT Practices Workshop:** Led by our DCT team, the IT Practice Review workshop gives the City of Mesa and OMNIA Partners Participating Public Agencies visibility into how your organizations operate. Through a holistic approach, we look beyond process documentation into how teams work together. Each Participating Public Agency is unique, and how processes are designed and implemented can either work for or against business objectives. In 2 short weeks, agencies will have a high-level map of your strengths and weaknesses and a plan to ensure your processes propel you to reach your goals.

The above services and workshops serve as an example of our capabilities but are not an exhaustive list.

OMNIA Success Story: Midwestern, Midsize City

Background

CDW•G prioritizes helping all our public sector customers realize the vision they have for the future – from the smallest town to the largest municipality. Simply providing order fulfillment is a thing of the past. This mid-sized city, serving over 200,000 constituents, sees an opportunity to grow their mission and their community by becoming an innovative organization delivering world-class outcomes for their citizens.

Challenge

Regrettably, this City encountered a predicament all too familiar: a shortage of resources hindering the pursuit of their ambitious transformational goals. Compounded by the relentless pace of technological evolution, innovation became an elusive pursuit. Instead of envisioning strategic growth, the City found itself caught in the struggle to maintain an aging infrastructure. Even if budgetary allocations were secured for new technology, the protracted procurement process extinguished any hope of timely execution, casting a shadow over the prospects of success.

Solution

Enter the City of Mesa, OMNIA Partners contract, and CDW•G. The City of Mesa contract gave this city a procurement vehicle that would ensure taxpayer dollars are spent sensibly, while allowing IT leadership to make decisions and execute their plan quickly. Far from the

old adage of “use it or lose it” funds, CDW•G was able to provide critical staff augmentation resources to complete crucial updates on a timeline unique to local government.

Going a step further, the City’s dedicated CDW•G Account Team coordinated consultants to help formulate an effective plan for implementing and executing on their vision. This wide range of services offered by CDW•G – from basic network upgrades to InfoSec consulting and road mapping – became a key factor in IT moving from treading water to making real progress in delivering exceptional outcomes.

Success through OMNIA Partners

The City benefits from competitively priced service offerings with the technical acumen to partner alongside C-level executives and deliver innovative outcomes; a contract that procurement understands and embraces as a cost-saving measure; and a partner that understands their needs and aligns their resources to help accomplish goals that once seemed out of reach.

Technical Support Services

CDW Technology Support

CDW Technology Support (CTS) is CDW•G’s branded offering backed by the OEM collaborative warranty support service. CTS provides an enhanced client warranty support experience with one contract offering incident management for covered devices. CDW•G will take the first call for the City of Mesa and OMNIA Partners Participating Public Agencies to help resolve your issue and, if needed, provide an engineer onsite to perform a hardware replacement.

If escalation to the OEM is required, CDW•G will do that on the City of Mesa and OMNIA Partners Participating Public Agencies’ behalf. CDW•G Technology Support helps the City of Mesa and OMNIA Partners Participating Public Agencies solve your business problems by providing a single solution for your manufacturer support, saving internal IT staff time and/or any unplanned expenses for an engineer to come and replace faulty hardware and/or renew a contract that was not co-termed. Because of CDW•G’s depth and breadth of expertise, we are able to get a top-level Technical Assistance Center (TAC) engineer more quickly than a customer may be able to, resulting in quicker incident resolution. Some of the features and benefits of CDW Technology Support include:

- **One place to call:** CDW Technology Support allows the City of Mesa and OMNIA Partners Participating Public Agencies a single point of contact. We provide end-to-end ownership of all incidents, service requests, and support for maintenance, hardware replacement, knowledge base, and software support.
- **24/7/365 support:** CDW Technology Support provides around-the-clock support via a dedicated service desk 24/7/365 and also provides a dedicated support number, email address, and ServiceNow login to open and view case status online.
- **Full-service Return Merchandise Authorization:** If, after troubleshooting, CDW engineers determine that a device needs to be replaced, CDW•G will request the RMA from the manufacturer on your behalf and have it sent to your location. We will also dispatch an engineer to meet that part and swap out the device for you and return the defective parts to the manufacturer and update the serial numbers on your contracts.
- **Fully backed by manufacturer warranty and support:** A support contract is purchased through the manufacturer so you do not lose the ability for upgrades,

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

updates, etc., and may be provided software download access to those contracts if requested.

Maintenance Offerings

CDW•G offers various maintenance agreements to cover all types of vendors, products, and service levels. Our offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include the following:

- **Coterminous Support Contracts.** A conterminous support contract takes the City of Mesa and OMNIA Partners Participating Public Agencies' existing manufacturer support plans and roll them together with one standard end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement.** These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts.** Retainer contracts provide a designated block of time that guarantees the City of Mesa and OMNIA Partners Participating Public Agencies' access to field service and support staff, including system engineers, network technicians, PC, and printer repair technicians, and more.

For information about warranty and repair services, please see "Repair" below.

Leasing/Financing Services

CDW•G has an in-house Financing Solutions Team to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate among our tailored payment solution options, which include leasing, financing, subscriptions, etc. We take a consultative approach to financing options that ensure the City of Mesa and OMNIA Partners Participating Public Agencies' goals are met.

At CDW•G, we focus on providing the best solutions in the industry—and that includes Financing Solutions. CDW•G can facilitate an agreement between OMNIA Partners Participating Public Agencies and various leading financing companies that can help each Participating Public Agency obtain the payment terms that best fit their unique needs and budget requirements. Agencies can secure a payment solution structure with maximized options and terms.

CDW•G's Financial Partners provide the best option to fit the City of Mesa and OMNIA Partners Participating Public Agencies' needs. For agencies with a Master Lease Agreement established, we likely have a partnership in place with their provider or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. Often, we leverage relationships with our partners to offer more advantageous rates, terms, and structures. For agencies that have diversity requirements to meet, we can recommend small and diverse partners that hold relevant certifications.

Our Premier Financing Partners include, but are not limited to, the following:

- Arrow Capital Solutions
- Cisco Capital
- Dell Financial Services
- HPE Financial Services
- Lenovo Financial Services
- LEAF Commercial Capital, Inc.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Trade-in Services – CDW•G's Information Technology Asset Disposition

When the City of Mesa and OMNIA Partners Participating Public Agencies' equipment reaches the end of its lifecycle, CDW•G can refer you to industry-leading IT Asset Disposition (ITAD) service providers to help you properly dispose of the hardware. Our partnerships with industry-leading asset disposition organizations allows for fair market value, responsible disposal, transfer of liability, and potentially credit toward new tech purchases with CDW•G.

CDW ITAD services include, but are not limited to data wiping, asset removal, evaluation, recycling, onsite shredding, potential value back credit to maximize recovery, and depot services. CDW ITAD offers many benefits to the City of Mesa and OMNIA Partners Participating Public Agencies, including:

- Logistics services for quick and efficient removal of equipment from client facilities
- Device pickup, including palletizing equipment, shrink wrapping, and transport
- Document of liability transfer provided to indemnify client from any environmental liability
- Ensure removal of all client information and software from electronic media and assets
- US Department of Defense-compliant erasure services in full support of government standards
- EPA-approved disposal
- Zero-landfill policy
- Complete serialized reporting available via a website

Repair Services

CDW•G offers a breadth of warranty options, repair services, and maintenance agreements to provide the City of Mesa and OMNIA Partners Participating Public Agencies the assurance of predictable costs and repair response times that a warranty agreement can provide.

The standard manufacturer warranty that comes with most products is a "best effort" commitment for response time. Regardless of the application of a system for the City of Mesa and OMNIA Partners Participating Public Agencies, the "best effort" level of service is frequently not sufficient to achieve desired business continuity. Even a non-critical repair, such as a tablet, can keep a coworker without this tool for 8-10 business days. Moreover, standard manufacturer warranties can quickly expire. The average industry cost for maintenance is $85-$120 per hour plus parts; quickly leaping past the cost to extend the warranty. As such, we recommend the City of Mesa and OMNIA Partners Participating Public Agencies take advantage of the warranty, repair, and maintenance options we offer.

CDW•G offers a breadth of warranty options, repair services, and maintenance agreements to provide our customers the insurance of predictable costs and repair response times that a warranty agreement can provide. Our comprehensive suite of product lifecycle support offerings includes:

- Warranty extensions and upgrades
- Post warranty support
- Accidental damage protection
- Maintenance contract agreements
- Post-sale technical support
- Product and certification training
- Onsite repair
- Depot repair
- Help desk service

Account Managers keep a watchful eye on all of their customers' agreements and have pre-emptive discussions to ensure customers' next warranty purchase meets their needs as well.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Examples of our available warranty levels, popular warranty options, and related value added services are included below. The completeness of our portfolio allows us to provide effective problem diagnosis and resolution for every customer need.

Basic Warranty

CDW•G's basic warranty offering includes the following:

- **CDW•G provided 30 day warranty** – We offer a complimentary 30 day warranty for all products we sell. Once the 30 days have expired, CDW•G's technical support or the City of Mesa and OMNIA Partners Participating Public Agencies' dedicated Account Manager assist in requesting the manufacturer warranty service.
- **Certified technician support** – We provide toll-free, email, and on-line chat technical support on all hardware and operating systems for up to two years after purchase from CDW. Our technical support technicians are US based, located in Holmdel, New Jersey, responding to about 60 calls a day. For insight into your technical issues, the City of Mesa and OMNIA Partners Participating Public Agencies can monitor the frequency and type of technical support requests via the CDW•G Account Center.
- **Extensive engineering support** – We have service-dedicated coworkers nationwide, aiding in pre- and post-sale questions. They provide assistance to the City of Mesa and OMNIA Partners Participating Public Agencies by phone, and we also offer on-site support. As with the technical support above, a key to great support is that they are not compensated by an individual manufacturer they are "vendor agnostic." This allows them to support the interoperability of the City of Mesa and OMNIA Partners Participating Public Agencies' entire solution, not promote a single brand. These experienced and certificated engineers provide consultation with configurations and infrastructure shifts.

Extended Warranty

CDW•G offers various extended warranty options, including the following:

CDW Maintenance Agreements

CDW's offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include:

- **Coterminous Support Contracts** - A coterminous support contract can take the City of Mesa and OMNIA Partners Participating Public Agencies existing manufacturer support plans and roll them together with one common end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement** - These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts** – Retainer contracts provide a designated block of time that guarantees the City of Mesa and OMNIA Partners Participating Public Agencies' access to field service and support staff including: system engineers, network technicians, PC and printer repair technicians, and more.

Cisco SMARTnet

Without SMARTnet, Cisco charges $400 hour for repair services. With the average repair taking four hours, customers are likely to pay $1600 per incident without SMARTnet. Cisco SMARTnet service provides enhancement and maintenance support resources during the operational lifetime of a Cisco networking device. We are the #1 Cisco SMARTnet partner, holding SMARTnet Maintenance Agreements with over 34,000 distinct customers. Our dedicated

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

SMARTnet team has 38 SMARTnet Specialists with over 200 years of combined experience working with SMARTnet contracts and in-depth knowledge of Cisco's internal SMARTnet tools. We offer multiple length and levels of SMARTnet agreements, including onsite options. CDW is authorized to purchase directly from Cisco, which can greatly reduce the City of Mesa and OMNIA Partners Participating Public Agencies' cost for this comprehensive service.

Hard Drive Retention

CDW•G offers IBM and Lenovo hard drive retention warranty options for our customers whose hard drives store confidential customer data, trade secrets, or intellectual property, or if they need to comply with regulatory requirements. When a damaged hard drive is replaced, the customer keeps the original defected device, eliminating tracking of drives during transit and providing the utmost data protection.

Design Services

We get that every IT solution is unique and that its delivery must be customized to meet the City of Mesa and OMNIA Partners Participating Public Agencies' specific needs. In tandem with industry-leading partners, our highly experienced architects, engineers, and project managers will work with you to design solutions that meet the City of Mesa and OMNIA Partners Participating Public Agencies' needs and help you reach your IT goals. From configuration and maintenance to advanced engagements across infrastructure, workspace, security, and support, CDW•G has the expertise you need to help with all of your IT needs. We provide remediation recommendations based on environment discovery and create application architecture designs and roadmaps specific to the requirements of each OMNIA Partners Participating Public Agency.

An overview of our design services include, but are not limited to, the following:

- **Solutions Design:** CDW•G helps you design specific solutions to meet your hybrid infrastructure, network, digital workspace, and security needs.
- **Transformation Design:** Design platform migrations, application upgrades, and the entirety of your digital transformation
- **Platforms Design:** Design public cloud platforms and applications with our experts. Our design and planning workshops help you align your goals and needs to create an outcome-based unified communications strategy based on end-user satisfaction.
- **Device Design:** Device Design includes custom building the right device for the City of Mesa and OMNIA Partners Participating Public Agencies' needs and providing recommendations for all key technical specifications. Once the City of Mesa and OMNIA Partners Participating Public Agencies know which products are best for your environments, we often work with our partners to custom design them – even if the device is not currently available in the market. These devices - also called Configure to Order – are built to your exact specifications.
- **Data Strategy Design:** The first step in harnessing the power of your data is having the right processes in place for collecting, analyzing, and making decisions based on what the data is telling you. CDW•G is there to suggest new ways to create an agile, modern data strategy. We conduct a comprehensive evaluation of your current data processes and platforms and then design a customized data strategy tailored to your needs.
- **Software Development/Design:** CDW•G provides remediation recommendations based on environment discovery, and create application architecture designs and roadmaps specific to your requirements.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Security Controls Design:** When it comes to designing security controls, CDW•G provides a comprehensive and vendor-neutral approach to prevent data breaches and proactively respond to cyberattacks.
- **Physical Security Solutions Design:** From hardware and software recommendations to floor plans that specify new device install locations, our physical security experts can design a completely new physical security system that fits your needs.
- **Infrastructure Design:** Infrastructure experts can design and implement an infrastructure that consolidates business processes and allows you to rapidly improve end-user experiences and mitigate problems on both internal and external applications.

Success Story: State Court System

Challenge

This State Court System had a mission to provide its citizens with access to the justice system and transform their digital experiences. The legacy content management system (CMS) platform was difficult to maintain and gave the website an outdated look, featuring text-heavy, static content that made it difficult to find important information. Because the site lacked the ability to incorporate reusable content, the IT team was responsible for content updates. Additionally, the site was not designed for mobile devices, which hindered the user experience for a large proportion of the users accessing the site. As a result, the platform had limited user analytics and business stakeholders had a hard time understanding user behavior. This customer needed a site platform that would optimize the user experience, improve content quality and velocity, and provide deeper insights into how their users were utilizing the site.

Solution

CDW•G performed a Discovery Phase with key business and IT stakeholders to elicit and document high-level business goals, user personas, site features, high-level user stories, and the high-level technical architecture for an Adobe Experience Manager website implementation. The information gathered from the discovery phase was used as the basis for creating a list of Experience Manager templates and components that would be needed to successfully migrate the existing website to Experience Manager. The CDW•G creative team worked with the customer on their vision for the redesigned website.

After a collaborative process, the team finalized designs that would transform the existing web experience. CDW•G then implemented the required templates, components, and integrations to migrate and launch the new public website on Adobe Experience Manager. Key features of these phases included:

- **Agile delivery**: The team adopted an agile process to create and extend more than 50 Experience Manager components and templates across multiple three-week sprints. End-of-sprint demos allowed the State's stakeholders to provide early feedback on whether any course corrections or minor tweaks were needed.
- **Website redesign:** CDW•G collaborated with the customer and created more than 18 pages of designs, including both website and mobile layouts, to serve as templates that focused on providing website users with a seamless way to find and consume content.
- **CDW•G Digital Foundation**: The CDW•G Digital Foundation accelerator was leveraged to create the new website. The accelerator consists of dozens of Experience Manager components that CDW•G has invested in developing, based on

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

common client use cases. The use of the accelerator lowered overall development complexity and effort, leading to a reduction in total implementation costs.

- **Forms search engine:** CDW•G created a forms search engine, allowing users to search for forms appropriate for their needs. Content authors can embed references to forms in searchable content, allowing forms to be more easily found than ever before. The forms search engine makes it simple for the customer to update form data in one place and reflect those form updates sitewide.
- **Analytics**: Adobe Analytics was configured with Experience Manager using Adobe Launch. CDW•G created an Analytics data layer to capture user behavior based on the customer's requirements.
- **Content author enablement and author guide**: CDW•G created an author guide, giving authors a place to find answers to their content questions, as well as a basis for how to create a page and which templates to use.
- **Strategic consulting advice:** Throughout the project, CDW•G provided strategic consulting advice with respect to Adobe product features and best practices, becoming a trusted advisor to the State's stakeholders. Our consulting and relationship with the customer were key to the project's success.

Outcome

This customer launched a newly redesigned public website and its ever-expanding capabilities through the MyCase portal. For the citizens of this state, locating and accessing information and tools is easier than ever. Whether at home or on the go, users can journey through the website, find the correct resources, and navigate complex forms. CDW•G worked closely with the customer to redesign and migrate its public-facing site to Adobe Experience Manager Cloud Service. The Adobe platform gives the customer the ability to easily maintain existing content, streamline new content creation, and continuously improve the user experience by removing friction points in the user's journey.

Analysis Services

Analysis is an integral component of the design, orchestrate, and manage phases of our lifecycle of services. CDW•G possesses the most comprehensive and powerful analytical tools, enabling us to understand your current environment. Additionally, we offer a comprehensive set of analysis and assessment services that include, but are not limited to, the following:

CDW Infrastructure Assessments

SD-WAN Assessment

We provide an In-depth review of the SD-WAN edge devices, architecture, and configurations to provide recommendations on how to improve the implementation. The assessment typically consists of a review of the management console, hardware, scalability, features, software version, internet design, routing configuration, policies, security, WAN optimization, SaaS on Ramp, and integrations.

Wireless Assessment

We consult with the City of Mesa and OMNIA Partners Participating Public Agencies to understand the current state of the wireless infrastructure and your desired business outcomes. We conduct an in-depth review and document the current environment with

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

an inventory list, and then provide recommendations that meet your requirements and allow you to achieve your desired outcomes.

Network Health Check

This health check includes elements like tools deployed to discover network devices, End of Life (EOL) or End of Sale (EOS), and software security report, device software code recommendations, and a summary report.

Network Assessment

Our Network Assessment includes all of the elements of the Network Health Check, but is more feature-rich in its diagnostic capabilities.

Next Generation Network Assessment

Our Next Generation Network Assessment delivers our most comprehensive diagnostics. It includes more future-state planning artifacts, such as a roadmap tailored to the City of Mesa and OMNIA Partners Participating Public Agencies needs that outlines recommended steps for improving future-state performance and security.

Quality of Service Assessment

An in-depth review of each device's Classification and Marking, Queuing and Shaping, Service Provider mapping and translation, and WAN VPN.

Multicast Assessment

An in-depth review of each device's L2/L3 Multicast configuration.

DV Technical Readiness Assessments

Digital Velocity (DV) Technical Readiness Assessments are designed to benchmark current architecture, processes and practices, and the City of Mesa and OMNIA Partners Participating Public Agencies' maturity level with the goal of uncovering, at a high level, the fastest and most impactful path toward your desired future state. Assessments are available for the following focus areas: Cloud, Modern DC, Migration, Database Migration, Application Modernization, DevOps, and Data Modernization.

Hybrid Infrastructure Assessment

Our Hybrid Infrastructure Assessment Team (HIAT) has several data center use cases and scenarios to provide capacity and planning advice in tandem with CDW•G solution architects, including:

- **Environment Overview**: CDW•G's HIAT provides a detailed report of a customer's current virtualization environment.
- VMware End of Support: CDW•G and the HIAT perform a licensing and hardware compliance checkpoint for VMware Virtualization.
- **Platform Migration**: A CDW•G Solution Architect works with the HIAT to project capacity for new compute platforms for a specific environment, whether on-premises or in the cloud.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Consolidation:** A CDW•G Solution Architect in tandem with the HIAT can project the capacities needed to consolidate hardware or geographic locations.
- **Disaster Recovery (DR):** A CDW•G Solution Architect in tandem with the HIAT will provide the City of Mesa and OMNIA Partners Participating Public Agencies an overview of DR planning, best practices, and additional services available to assist in this critical business function.
- **Hardware Refresh**: A CDW•G Solution Architect , in tandem with the HIAT, helps the customer analyze and plan for proper lifecycle management of the data center infrastructure.

While valued at $5,000, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CDW Well-Architected Review for AWS

A CDW•G field solution architect utilizes the AWS Well-Architected tool to walk the customer through the questionnaire and then reviews the output, specifically identifying any high-risk issues with the City of Mesa and OMNIA Partners Participating Public Agencies.

While valued at $5,000, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CloudHealth: Rightsizing Existing AWS Environment Assessment

A CDW•G field solution architect enrolls the City of Mesa and OMNIA Partners Participating Public Agencies for a no-cost trial with CloudHealth and, after two-week lead time, they outline what the tool has identified for you.

While valued at $2,500, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

Power and Cooling Assessment

CDW•G's Power and Cooling team performs an analysis of the City of Mesa and OMNIA Partners Participating Public Agencies current environment.

While valued at $2,500, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CDW Storage Assessment Workshop

An analysis of the City of Mesa and OMNIA Partners Participating Public Agencies' data center storage environment, including object, file, block, cloud-based strategies, DC performance, capacity, and end-of-support planning.

VMware NSX POC Assessment Workshop

This data center assessment considers and deploys a proof of concept for the City of Mesa and OMNIA Partners Participating Public Agencies on how micro-segmentation using the NSX platform can benefit your operations.

Nutanix Configuration Assessment

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Assess and summarize the Nutanix environment in terms of its current health and architecture, with a focus on technical aspects of performance, manageability, and scalability of this environment.
Veeam Availability Assessment An analysis of Veeam's availability suite, including data protection and recovery strategies. It also covers design, performance, capacity, end-of-support planning, and a brief overview of disaster recovery.
CDW Automation and Orchestration Assessment Workshop A process optimization and tool selection guidance workshop for Assessment and Orchestration with the outcome being a collection of highly-detailed user stories for Infrastructure-as-a-Service (IaaS) and Platform-as-a-Service (PaaS) process workflows, role definition recommendations, process optimization options, and recommended toolsets.
CDW Data Center Assessment An assessment of the City of Mesa and OMNIA Partners Participating Public Agencies' data center infrastructure, including storage, compute, and virtualization.
Cisco Flexpod Assessment Workshop Review of Cisco Nexus switching, UCS configuration, storage and capacity, and VMware virtualization to align with best practices.
Cisco UCS Assessment An analysis of Cisco's UCS converged infrastructure environment, including performance, capacity, and end-of-support planning.
VMware vSphere Assessment A VMware infrastructure assessment of up to 30 ESXI hosts and one vCenter server designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand the overall health and software status of your VMware ESX/ESXI and vCenter systems, including performance, capacity, and end-of-support planning.
CDW Security Assessments
Cloud Security Assessment Identify gaps in security posture and create an actionable roadmap for remediation, examining all major CSPs (AWS, Azure, GCP) and multicloud environments.
Application Security Assessment Assess application security by having a team of CDW•G security engineers attempt to break into an application used by the City of Mesa and OMNIA Partners Participating Public Agencies, whether it be an off-the-shelf product or one developed by your team.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Application Architecture Review

Identify potential concerns within an application by examining the architecture and the data flow, finding vulnerabilities, and providing detailed recommendations for improvement.

SDLC/DevOps Review

Review and improve the secure Software Development Life Cycle (SDLC) program by focusing on the use of key application security solutions, including Dynamic Application Security Testing, (DAST), Static Application Security Testing (SAST), Interactive Application Security Testing (IAST), and Software Composition Analysis (SCA).

Data Protection Modernization Assessment

Evaluate the entirety of the data protection ecosystem to ensure the City of Mesa and OMNIA Partners Participating Public Agencies' recoverability. This assessment leverages a proprietary Data Protection ScoreCard (as well as stakeholder interviews and analytics tools) to provide a report comparing the existing environment to that of the new modernized environment.

Database Security Assessment

Assess database risk by evaluating the susceptibility of the City of Mesa and OMNIA Partners Participating Public Agencies' database to a host of known vulnerabilities and common attack scenarios.

Rapid IAM Assessments

Assess the City of Mesa and OMNIA Partners Participating Public Agencies' current Identity and Access Management (IAM) program and its ability to defend against a wide variety of threats. This assessment aligns with ISACA's IT Assurance Framework (ITAF), COBIT 5.0, ISO 27001/27002, ITIL v3, or the NIST standards.

IAM Strategy Assessment

Use business and security objectives to plot the course for an IAM program over a three- or five-year horizon, including new tool deployments, integrations, functionality improvements, and business justifications.

User Access/Privileged Access Reviews

Get a system-agnostic view of the organization's user processes and roles, and identify opportunities to convert manual processes into automated workflows.

Identity Exposure Assessment

Leverage a Zero Trust view to assess the CISA pillars of Identity and Device. The assessment closely aligns with the NIST Zero Trust Architecture and CISA Zero Trust Maturity Model, evaluating user and device identity management across on-premises and cloud environments for alignment with Zero Trust best practices.

Cybersecurity Maturity Assessment

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Leverage an established capability maturity model (CMM) to objectively evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' current security program and provide realistic maturity rankings across industry standards and frameworks, including the NIST CSF, NIST 800-53, CIS Top 20, and PCI DSS.
SAP Role Design Assessment Assess Systems Applications and Products (SAP) Production environment, reviewing role design approach, role naming conventions, organizational-level security, unassigned roles, maintenance access, end-user profile assignment, and access to sensitive IT authorizations. Provide recommendations for role remediation and optimization.
SAP GRC Access Control Configuration Assessment Assess the SAP Governance, Risk, and Compliance (GRC) Access Control (AC) environment to evaluate process documentation, configuration settings, firefighter workflow setup, firefighter log report analysis, and risk ruleset customization analysis. Provide recommendations for improvement and a prioritized list of automation opportunities.
SAP User Provisioning and Role Change Management Process Assessment Review all provided documentation regarding policies and procedures to develop process maps for common SAP Security activities. Deliver detailed process flows for in-scope processes and recommendations for improvement and automation.
FTC Assessment Assess compliance by following a five-phase methodology for organizations faced with consent orders from the Federal Trade Commission (FTC).
PCI Assessment (Audit) Assess alignment of current practices with Payment Card Industry Data Security Standard (PCI DSS) requirements to determine compliance, issuing a Report on Compliance (Roc) or Attestation of Compliance (AoC) if appropriate. CDW•G also provides readiness assessments, scoping assistance, and Self-Assessment Questionnaire support, as needed.
Privacy Maturity Assessment (GAPP/NIST Privacy) Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' privacy program to benchmark policies, processes, and technologies against leading privacy standards, including the NIST Privacy Framework, Generally Accepted Privacy Principles (GAPP), and HIPAD35A Breach Notification requirements.
Third-Party Risk Assessments Assess the City of Mesa and OMNIA Partners Participating Public Agencies' third parties in support of enterprise-wide third-party risk management programs. These assessments be provided in a managed service format or in bundles/bulk assessments.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Privacy Compliance Assessments (HIPAA/CCPA/CPRA/GDPR/PIPL/GLBA) Measure readiness and/or compliance with all major data protection regulations, including HIPAA, CCPA/CPRA, GDPR, PIPL, and GLBA. These assessments harmonize regulatory frameworks to save costs and improve efficiency.
IT Risk Assessment Assess IT environment or specific systems to determine if existing IT policies, procedures, infrastructure, applications and security posture are aligned with the City of Mesa and OMNIA Partners Participating Public Agencies' short-term and long-term business objectives.
CMMC Pre-Assessment Evaluate the current environment against the Cybersecurity Maturity Model Certification (CCMC) framework to identify gaps and develop a mitigation strategy before the certification assessment to help shorten the time to certification.
Zero Trust Assessment Build a strategic roadmap to Zero Trust maturity through our three-phase assessment, which aligns with NIST SP 800-207 guidelines and the Cybersecurity and Infrastructure Security Agency (CISA) Zero Trust Maturity Model.
Security Operations Assessment Benchmark the Security Operations Center (SOC) against CDW•G's best practices program, peer organizations, or historic organizational performance levels.
DDOS Resiliency Assessment Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' ability to maintain business continuity and continue critical operations in the face of a Distributed Denial-of-Service (DDoS) Attack.
IoT Device Assessment Provide visibility into and control over the IoT devices on the network, improving the City of Mesa and OMNIA Partners Participating Public Agencies' ability to respond to issues and threats.
Cyber Workforce Assessment Assess the suitability of the cyber workforce to defend the organization by evaluating roles and responsibilities, governance, and the knowledge, skills, and abilities of the individuals.
Web App Penetration Testing Identify and test the full attack surface of the provided application to achieve a full-breadth test of all user-facing functionality.
IR Readiness Assessment

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Assess the City of Mesa and OMNIA Partners Participating Public Agencies' ability to respond to threats from inside and outside of the network perimeter. CDW•G can also help with Incident Response (IR) Program Development and IR Tabletop Exercises.
ASV Scanning Scans all Internet-facing systems that store, process, transmit, or impact the security of cardholder data (CHD) to adhere to the requirements of the current version of the PCI Data Security Standard.
External Penetration Testing Identify and test the full external attack surface of the City of Mesa and OMNIA Partners Participating Public Agencies to achieve a full-breadth test of all available services exposed to the public internet.
Internal Penetration Testing Identify and test the full internal attack surface of the City of Mesa and OMNIA Partners Participating Public Agencies to increase your overall security posture by identifying the maximum number of lateral footholds on a network that should be remediated.
Mobile Penetration Testing Identify and test the full attack surface of the provided application to discover vulnerabilities in several areas, including implementation and platform usage, storage and transmission of sensitive data, and communication with external resources such as API endpoints.
Physical Social Engineering Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' ability to prevent and react to a targeted, non-destructive physical intrusion. This engagement includes both surreptitious and overt contact with the target facility, including masquerading as legitimate occupants or authorized third parties.
Social Engineering Evaluate your ability to prevent and react to a targeted attack as well as the effectiveness of security awareness training provided to users. Can use Phishing (email-based simulations) and/or Vishing (telephone-based simulations) methods.
Vulnerability Assessment Evaluate current IT systems to determine and categorize present vulnerabilities by classifying and ranking vulnerabilities. Provides a customized report with cost-effective, concise recommendations to tackle specific security problems or threats.
Wireless Penetration Testing Assess the organization's wireless attack surface by identifying corporate-sanctioned wireless assets and evaluating their respective security policies. Subjects all networks to active exploitation with the intent of accessing internal corporate resources.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Compromise Assessment Leverage many of the same tools and tactics as attackers to conduct active threat hunting and develop indicators of compromise based on the recognized MITRE ATT&CK framework.
Secure Endpoint Health Check This health check validates the status of a microservice and its dependencies.
Red Teaming Services Assess the detection and response capabilities of an organization's Blue Team (defensive security professionals) in the event of a targeted attack. Attempt to gain access to the internal network through various attack vectors while subverting the organization's defenses.
Purple Teaming Services In our Purple Teaming Services, our CDW Red Team (offensive security professionals) pairs with the City of Mesa and OMNIA Partners Participating Public Agencies' IT security personnel (i.e., Blue Team) during simulations of specific attack scenarios to improve defenses and incident response procedures throughout the engagement.
Segmentation Validation Evaluate the effectiveness of any network segmentation controls used to reduce PCI DSS scope by attempting to connect to and access the cardholder data environment (CDE) from internal network segments intended to be out-of-scope for PCI DSS compliance.
Cisco Umbrella Health Check Review the Umbrella dashboard must-haves and help the City of Mesa and OMNIA Partners Participating Public Agencies identify common issues and how to maximize their protection.
Cisco Email Security Appliance (ESA) Health Check Evaluate the status of a customer's Email Security Appliance, configuration, and lifecycle with industry-standard recommendations.
Cisco Web Security Appliance (WSA) Health Check Evaluate the status of the City of Mesa and OMNIA Partners Participating Public Agencies' Cisco Web Security Appliance, configuration, and lifecycle health with industry-standard recommendations.
Cisco Identity Services Engine (ISE) Health Check Evaluate the Cisco Identity Services Engine with a system engineer focused on ISE best practices.
Cisco Firepower Threat Defense Health Check

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

Analyze Cisco firepower configuration and posture as it relates to the City of Mesa and OMNIA Partner's security needs.
Cisco Secure Network Analytics Health Check Evaluate the Cisco Secure Network Analytics configuration and its ability to provide comprehensive visibility and network traffic analysis.
Microsoft Active Directory (AD) and Hybrid Identity Assessment Evaluate the state of the entire AD infrastructure, including services configuration, directory health, management processes and compliance.
Microsoft Active Directory Domain Services Health Check Conduct a health check on Active Directory (AD) domain configuration, looking for misconfiguration and industry-standard security vulnerabilities in the AD setup.
Microsoft 365 Security Assessment Analyze your Microsoft 365 environment to ensure it is configured and secured based on your unique needs.
Microsoft Public Key Infrastructure (PKI) Health Check Analyze the City of Mesa and OMNIA Partners Participating Public Agencies' design and configuration of your public security keys and provide recommendations to create a go-forward strategy.
Microsoft Security Threat Assessment Analyze the City of Mesa and OMNIA Partners Participating Public Agencies' security posture as well as the tools and solutions used. Includes recommendations on a go-forward security strategy.
Palo Alto Networks Health Check Analyze the health and posture of the City of Mesa and OMNIA Partners Participating Public Agencies' Palo Alto Networks environment as it relates to your security needs.
Splunk System Health Check Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' deployment health through license usage, resource usage, server status, and usage patterns.
Splunk Data Optimization Assessment Review current Splunk procedures, processes, and data sources for performance, capacity, configuration, and other indicators to identify any critical gaps and optimization targets. Provide recommendations on architecture and deployment.
CDW Workspace Assessments

Collaboration Architecture Advisory

CDW•G engineers will review your Cisco Collaboration environment for pain points and best practices while also analyzing the opportunities to leverage the latest advancements in Cisco Webex cloud collaboration technology. The engineer will prepare a report with the findings of the analysis as well as provide a high-level roadmap of recommendations so the City of Mesa and OMNIA Partners Participating Public Agencies get the most from their Cisco Collaboration investment.

Emergency Calling Assessment

Our highly qualified engineers evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' current collaboration environment for Emergency Calling best practices, including company policies, emergency response locations, remote and mobile users, notification alerts, and address delivery. The engineer prepares a report with the findings and provides the City of Mesa and OMNIA Partners Participating Public Agencies with a high-level roadmap of recommendations to limit your liability, ensure your users are able to reach emergency services quickly, and give you the best chance to receive help at the right location.

Customer Engagement Center Cisco UCCE Health Assessment

CDW•G engineers review the City of Mesa and OMNIA Partners Participating Public Agencies' Cisco Contact Center Enterprise environment for pain points and best practices. The engineer prepares a report with the findings of the analysis as well as provides a high-level remediation plan to address any issues found.

Customer Engagement Center Business Analysis

CDW•G business analysts meet with the City of Mesa and OMNIA Partners Participating Public Agencies' contact center teams to understand pain points and goals. The analyst looks for opportunities for improvement in handling, efficiencies, and opportunities to apply best practices. The consultant prepares a report with the findings of the analysis and provides the City of Mesa and OMNIA Partners Participating Public Agencies' with a high-level remediation plan to address any issues found.

Microsoft 365 Best Practice Assessment Workshop

The Microsoft Office 365 Best Practice Assessment helps the City of Mesa and OMNIA Partners Participating Public Agencies' validate your existing Microsoft Office 365 design (e.g. Exchange Online) and validates it is configured according to best practices.

Microsoft 365 Governance Assessment Workshop

Provides review and recommendations concerning the City of Mesa and OMNIA Partners Participating Public Agencies' Office 365 governance models and/or policies.

Microsoft 365 Network Performance Assessment Workshop

Provides review and assessment of up to four workstations in (up to) four physically separate network sites. It evaluates the workstations' abilities to successfully access Office 365 services quickly.

SharePoint 2010-2019 Assessment Bundle

Our SharePoint Migration Assessment leverages a proprietary tool developed by CDW SharePoint Specialists to scan the contents of your SharePoint Farm and help identify features and content that will impact your transition to another SharePoint service level/version. The Assessment Bundle includes the initial setup and run of the tool, in addition to a full assessment of a single SharePoint Farm.

CDW Microsoft Teams Assessment and Jumpstart

This Microsoft Teams solution includes basic planning, design, adoption, and pilot migration. This project is a week-long engagement that allows the City of Mesa and OMNIA Partners Participating Public Agencies to utilize Teams in your production environment with adoption advice and content.

Microsoft 365 CISO Security Workshop

The Microsoft 365 CISO Security Workshop allows CDW•G to learn about the City of Mesa and OMNIA Partners Participating Public Agencies' unique needs and develop a strategic plan based on approaches recommended by Microsoft experts. The workshop covers both product and solution best practices and configuration recommendations around the security features of Microsoft 365.

Microsoft 365 CISO Security Workshop with Sentinel

The Microsoft 365 CISO Security Workshop with Sentinel allows CDW•G to learn about the City of Mesa and OMNIA Partners Participating Public Agencies' needs and develop a strategic plan based on approaches recommended by Microsoft experts. The workshop covers product and solution best practices and configuration recommendations around the security features of Microsoft 365 and Sentinel.

Microsoft 365 Security Device Protection

As more and more users become mobile and are using a wider variety of devices, applications and documents need to keep up. How does the City of Mesa and OMNIA Partners Participating Public Agencies' manage these devices while providing secure and reliable access to applications and data? Microsoft 365 helps provide easy, secure access to any device, no matter where someone might be. Device Protection will include the steps necessary to understand your requirements and develop the deployment plan just for you.

Microsoft 365 Security Identity Protection

Microsoft 365 provides numerous tools to provide additional layers of security and also has tools to identify and protect access in real-time. Our Microsoft 365 Security Identity Protection Assessment Workshop includes the steps necessary to understand your requirements and develop the deployment plan just for you.

Microsoft 365 Security Information Protection

This engagement provides the best practices on how to configure the products to achieve the City of Mesa and OMNIA Partners Participating Public Agencies' goals. This will provide

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

a functional roadmap to ensure security and compliance is built into the Office 365, Windows 11 and EMS solution.
Microsoft Enterprise Mobility + Security This engagement reviews the City of Mesa and OMNIA Partners Participating Public Agencies' current environment to identify issues and usage of features. We review a single EMS subscription, including all the cloud components, Microsoft Entra ID P1/P2, Intune, Azure Information Protection, Azure Rights Management Service, Azure Advanced Threat Protection, and Cloud App Security. The results of the review provide recommendations to address issues and a roadmap for adoption of additional components.
Assessment of Workspace ONE This engagement provides an in-depth discovery of the City of Mesa and OMNIA Partners Participating Public Agencies' Workspace ONE environment to ensure all management utilities are being used properly and that you are taking advantage of to get the best experience for your users and IT.
Health Check for Jamf Pro This engagement helps ensure you are managing your Apple devices properly through the mobile management utility Jamf Pro based on the City of Mesa and OMNIA Partners Participating Public Agencies' environmental needs.

Configuration Services

The City of Mesa and OMNIA Partners Participating Public Agencies Participating Public Agencies can rely on CDW•G to preconfigure their technology solutions and provide custom turnkey solutions for plug-and-play deployment. We offer a wide array of services to address the various tasks involved in configuration projects, including hardware and software installation and configuration, testing, imaging, domain integration, branding, labeling, asset management, delivery & distribution. Our Configuration Centers roll out 2.6 million products every year - more than 10,000 custom units a day.

The benefits of our configuration services are as follows:

- Lower configuration, integration, and overall deployment expense
- Reduce risk and time to deploy
- Improve delivery, distribution, and tracking of assets
- Complete projects on schedule
- Free IT staff and resources to work on higher-level projects

Our Configuration Team can provide many services, including:

- **Hardware Integration:** Hardware integration services include installation of memory, hard drives, NIC cards, video cards, and a variety of other components.
- **Software Configuration:** When it comes to software, your computers, mobile devices and servers will come with OSs and apps pre-installed. We offer White Glove Service to prep and provision Chromebooks.
- **Custom Imaging:** Including image creation, maintenance, and deployment, we can host a secondary server to connect to your SCCM or other image deployment server via

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

VPN. Customizable options include pre- and post-imaging tasks like domain join and security upgrades.

- **Rack Configuration:** We mount and configure your network and security devices, rack-mount servers, chassis blade servers, storage, KVMs, UPSs, and PDUs into a rack structure, then cable and label before shipping.
- **Mobility Services:** We configure and activate your tablets, phones, handhelds, and Wi-Fi hotspots. Additionally, services that include MDM enrollment, App installations, IOS and Android updates are also available.
- **Custom Laser Engraving:** Your logos and other important information can be engraved onto notebooks, mobile devices, and other equipment. We can laser engrave static content and/ or one field of dynamic content, such as the device serial number.
- **Asset Tagging and Reporting:** You have the option to use CDW•G-branded labels, customer-provided labels, or our team can build custom labels that we print on-demand, including UID/IUID identification labels for US Government applications. Extensive information on your devices is available via the Order Reporting and Hardware Asset Management functions on your CDW•G Account Center.
- **Network and Security Device Configuration:** We configure firewalls, routers, switches, access points, and IP phones for all the largest manufacturers. These services include system software/firmware upgrade or downgrade, uploading master configuration files, and configuration of IP address, subnet mask, and default gateway. All customization is based on the City of Mesa and OMNIA Partners Participating Public Agencies' unique specifications.
- **Burn-in Services:** We run your devices for 12 hours or more to ensure all components are working properly. This includes running a diagnostic program (where applicable) to test basic functionality. This service is designed to reduce the number of items that fail after a short period of use.
- **Software and Imaging:** We have a team of engineers, technicians, and team leaders trained to work on image and software deployments. Customer-specific deployment instructions are strictly followed to ensure your devices are imaged and configured your way.
- **Custom Packaging:** This includes kitting, palletization, inserts and welcome letters, and box labeling.
- **Buy and Hold Services:** This allows you to purchase products and have them held in a secure location anywhere from three months up to a year. CDW•G handles the configurations, customizations, logistics, and shipping requirements to ensure your pre-defined deployment schedule is met.

Configuration Quality Assurance

Either our own best practices or your specific deployment instructions are strictly followed to ensure devices are configured to meet each customer's requirements. The City of Mesa and OMNIA Partners Participating Public Agencies can provide a custom checklist to CDW•G for additional verification and testing.

All Configuration Center workers are trained on CDW's best practice quality assurance procedures that include a comprehensive check of each system we touch. First, we verify the compatibility of all components to be installed. Second, we verify that each component is installed properly, and the hardware installation is complete. Finally, we ensure that all hardware and software are functioning according to manufacturer specifications. Each step is completed by a qualified technician and verified by a Quality Control (QC) technician. CDW is ISO 9001:2008 compliant and the names of the primary technician and QC technician are recorded

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

for all orders. All team members are held accountable for adhering to our quality assurance procedures. If any issues are encountered, CDW•G will contact you immediately to resolve the issue.

Any defective or damaged devices that are discovered during the configuration or warehousing process will be removed from stock and replaced with new, functional devices. The damaged or defective devices will be returned to the manufacturer on CDW's behalf. This process will not require the customer's involvement and should happen transparently to the customer.

Implementation Services

Our expert engineers configure and deploy your solutions to help you implement technology according to the City of Mesa and OMNIA Partners Participating Public Agencies' unique needs and ensure it works from day one. We can build, create, and analyze software or services, as well as test and release into a defined environment and implement changes outlined in the design phase. We implement technology adoption and organizational change management plans to ensure you're fully utilizing your technology solutions and deriving the value you expect.

Any successful implementation requires careful attention to the management of the scope, people, and process of each project. Through our experience with numerous complex projects, CDW•G has refined an implementation methodology that uses project management best practices combined with real-world lessons learned. Our methodology has resulted in a standard for how we choose the people we hire, the way we structure our project teams, and the project milestones we set for customer acceptance.

We believe effective project management requires careful attention to the following plan elements and an appropriate level of communication between project participants. Our project plan includes the following components:

- Scope of Work
- Project Schedule
- Communication Plan
- Statement of Work
- Risk Management Process
- Change Management Process
- Issue Management Process
- Assumptions
- Deliverable Management
- Customer Responsibilities
- Partner Management
- Project Acceptance
- Contract

The graphic below provides additional insight into our comprehensive methodology.

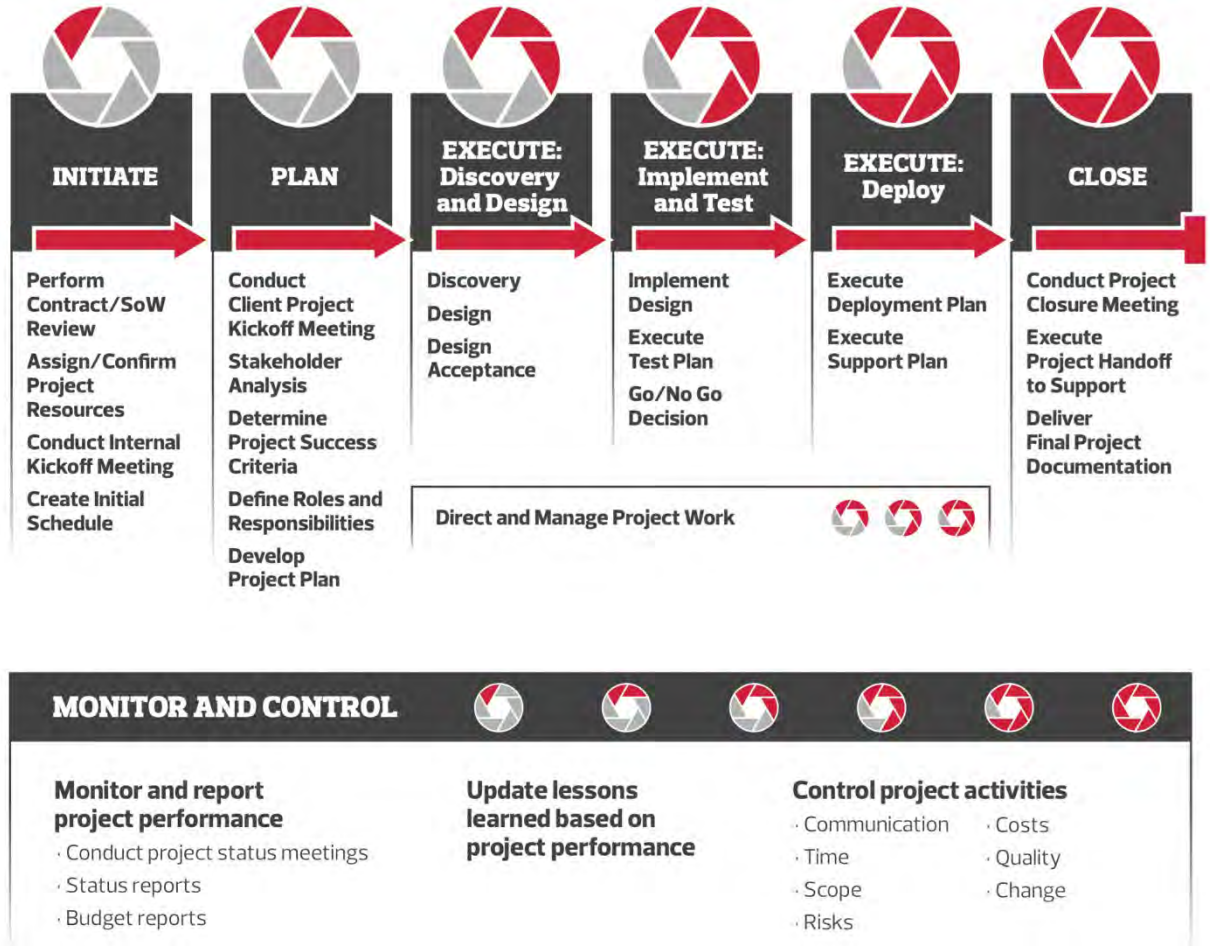

Figure 8. CDW•G's Comprehensive Project Management Methodology

Installation Services

CDW•G installs hardware, software, peripherals, and more. We offer a wide array of services to address the various tasks involved in configuration projects, including hardware and software installation and configuration, domain integration, branding, labeling, asset management, delivery, and distribution.

Our installation services include, but are not limited to, the following:

Computing Installation

Our installation services can help take the burden off your busy IT staff. We can help install and deploy new desktops, notebooks, and printers quickly and easily. We also assist with de-installation and moving of existing equipment, configuration services, and basic IT staff training (if needed) to ensure a custom solution that fits your environment.

Data Center Installation

We can help you optimize your data center with implementation services around your server, storage, power, and cooling technologies.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Network Installation

Whether it be WAN or LAN, wired or wireless, we are ready to help you implement new network technology smoothly and efficiently.

Security Installation

In addition to offering a comprehensive security assessment, our security specialists can help ensure that your security solution is properly designed and implemented.

Interactive Whiteboard and Flat Panel Installation

Need to update a classroom or conference room with interactive whiteboards or flat panels? We offer manufacturer-certified specialists who can perform site-specific installation at your organization or institution.

Training Services

Our training sessions and programs align the training needs of your workforce with the goals of your technology projects, ensuring that teams across the City of Mesa and OMNIA Partners Participating Public Agencies' have the skills they need to support and optimize your tech stack long-term.

Product Training

CDW•G leverages our top partnership levels with the industry-leading OEMs on behalf of the City of Mesa and OMNIA Partners Participating Public Agencies. We work with you to host Technology Symposiums, which brings our best-of-breed partner network on-site to share key industry updates, product roadmaps, and technical deep dives. Our technical specialists, alongside OEMs will conduct product roadmap sessions, arrange demo loan products, and facilitate a combination of web and onsite training sessions.

CDW•G has two Technology Experience Centers (TEC) in the US that are fully functional data centers and networks, where the City of Mesa and OMNIA Partners Participating Public Agencies can experience technology in action — remotely or onsite.

These facilities offer onsite and remote demos of leading solutions and are managed by our Demo Lab team. These labs demonstrate how integrated solutions work in a real-world environment and help the City of Mesa and OMNIA Partners Participating Public Agencies determine which solutions best meet their needs. Demonstrations allow our customers to:

- See the newest technologies built as integrated solutions
- Host static demos that offer insight on how technologies work
- Help customers compare alternative solutions side by side
- Explore how the latest innovations can help customers achieve their goals

The City of Mesa and OMNIA Partners Participating Public Agencies can work with your dedicated CDW•G Account Managers to arrange a virtual or in-person visit to our Technology Experience Center. CDW•G will work to make as much training as possible through the above options.

Additionally, on any Professional Services engagements, knowledge transfer is part of our core methodology, ensuring that on-the-spot training is taking place and that IT staff knows how to manage and drive the new technology or environment upon our engineers' departure. CDW•G also offers a wide array of in-depth training options and workshops, highlighted below.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Training Courses

We have experience in orchestrating IT projects and initiatives, from small and medium-sized businesses to enterprises. Combining our elite curriculum with the expertise and depth of our solutions and services gives the City of Mesa and OMNIA Partners Participating Public Agencies the skills you need to optimize your IT investments and achieve their most important outcomes.

Our courses meet the same standards for quality, interactivity, and alignment with today's biggest technology challenges. **Highlights** of our training courses include the following:

- Our courses are created and led by some of the world's best instructors, whose scores for delivery from students average 4.9 out of a possible 5.
- Each course is designed to maximize time spent in hands-on learning, including lab/range exercises and debriefs, tool walkthroughs, and case studies.
- Born out of some of the most demanding Security Operations Centers (SOC) in the world, our proprietary curriculum is uniquely sophisticated and pairs with vendor technology training to deliver a complete solution to your security and IT skills needs.
- Our training is developed in collaboration with industry leaders who share our commitment to thorough, leading-edge IT training. It's always up to date, with instructions specific to the latest versions of each tool.

Our courses are designed for virtual instruction, but they can also be taught live at your location. We'll tailor your workforce development program to meet the needs of each Participating Public Agency, wherever they are.

We offer courses and bundles to support virtually any project you may be initiating.

Please see our full course catalog in Tab D, Exhibit 4. Additional courses and workshops include, but are not limited to, the following:

CDW OS ITSM Simulation/Executive Visioning Workshop

By participating in our IT Service Management (ITSM) business simulation workshop, the City of Mesa and OMNIA Partners Participating Public Agencies can learn how to increase the business impact of their internal service provision. This hands-on, highly interactive IT/Business workshop is designed to educate the City of Mesa and OMNIA Partners Participating Public Agencies' leadership and stakeholders in the business structure of process with technology.

Participants are given roles in a sub-optimal business unit in which they have to respond to real, everyday challenges and transform processes and underlying technology that meet the needs of the business. Results improve as each round concludes.

Benefits of this workshop include the following:

- Identify in real time how political, business, process, and technology issues intermingle and affect overall business results.
- Directly experience the increased efficiency yielded by process improvement.
- Achieve better alignment between leadership and staff as it relates to both process and internal cooperation.
- Learn to work better together as a team so that projects succeed.

CDW OS ITIL Training: One-Day Awareness/Three-Day Foundation

Our approach takes you on a journey through the five stages of the ITIL service lifecycle and helps the City of Mesa and OMNIA Partners Participating Public Agencies adopt best-practice

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

processes used by leading organizations worldwide with tremendous positive impact. Whether you need full training and certification for key members or simply an executive overview for greater awareness and adoption, we've got you covered.

Our One-Day Awareness workshop educates and informs leadership by using case studies from organizations around the globe that have successfully implemented ITIL. We take a high-level, results-oriented approach to the People, Process, and Platform elements of the service improvement in order to convey:

- Key concepts of ITIL
- Practical guidance for applying ITIL to everyday IT situations
- How to align with business, control costs, and improve IT service quality
- Strategies to balance IT resources with business needs and objectives
- The role of technology and how to maximize its value

Our Three-Day Foundation course covers all material specified in the ITIL Foundation certificate and prepares attendees to successfully achieve their Foundation certification. We infuse real-world examples throughout and discuss overcoming the practical challenges and barriers to implementing process improvement. All of our instructors are ITIL experts and have years of hands-on IT practitioner experience, enabling them to effectively intertwine theory and real-life stories and scenarios.

CDW OS Process Alignment Workshop

Process improvement consulting is critical for state agencies striving to advance their process maturity in order to improve IT service delivery responsiveness, maintain consistent levels of service, and increase customer satisfaction.

Led by our Advisory Consultants, this half- or full-day Process Alignment Workshop is grounded in ITIL and industry best practices. Instead of reinventing the wheel, we'll focus on new processes that are in-scope for a project, aligning with existing processes in order to work together at all levels.

IoT Transformation Workshop

Our Internet of Things (IoT) Transformation Workshop is designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand your data needs, determine return on investment (ROI), and evaluate their foundational infrastructure to determine if any technical components should be retired, evolved, or added before implementing an IoT technology initiative.

In the workshop, we will walk through five focus areas:

- **Business drivers:** We'll outline business drivers for IoT, starting with your key stakeholders, business processes, business systems, and linkage to company goals.
- **Data investigation:** We'll review the data that needs to be derived. What kind of data are you gathering? Can this data be used by other departments? Is it revenue-generating data that can be sold to your customers as a service? We'll help you review your data to determine how your business will benefit from the data discovered as part of this workshop.
- **System of systems:** Do you need to pull in third-party data for this solution? Examples may include data from The Weather Company (an IBM business), mapping software, or data from other external tools or systems.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Infrastructure readiness:** We'll determine if your infrastructure is adequate for the proposed IoT solution.
- **IoT technology:** You'll understand what related IoT technologies will need to be implemented for your new solution

CDW Information Security Cybersecurity Workshop

We offer half-day and full-day Cybersecurity Workshops for security leaders. We assemble our top experts in a range of domains — from compliance to data governance to zero trust to IAM and more — and spend dedicated time with your team to validate strategies, recommend best practices and align with organizational goals and expectations.

Our workshops are tailored to each state agency's needs and goals, with subject matter experts from a range of specialty areas. These sessions can be scheduled to kick off the beginning of a strategic planning cycle, to validate an existing plan or to "course correct" in the middle of execution. Each full-day or half-day workshop includes:

- **Expert Panel:** A grouping of experts, tailored to your desired topics of discussion. Workshops can be domain specific or can span the entirety of your cyber strategy.
- **Clear Recommendations:** Our workshops are designed to produce actionable guidance that makes a material improvement in your security program.
- **Fresh Insights:** Our experts are specialists in their fields, giving you the scoop on the newest technologies, best practices in the field and 12-18-month trend predictions.

CDW OS Organizational Change Management Planning Workshop

This three-day workshop teaches participants the Organizational Change Management (OCM) framework for managing the effect of change on an organization, including new business processes, changes in organizational structure, overcoming cultural hurdles within an organization and more. We accomplish this through an approach that is based on the five-step ADKAR framework in order to help you deal with the human-aspect of change management: Awareness, Desire, Knowledge, Action, and Reinforcement.

This workshop offers a myriad of valuable benefits aimed at enhancing your organizational prowess. Delving into the organizational history of the City of Mesa and OMNIA Partners, participants will gain a comprehensive understanding that serves as the foundation for crafting an effective communication and marketing plan, inclusive of targeted training initiatives. The workshop goes beyond theoretical concepts, providing practical insights into resistance management planning, a crucial skill set designed to preempt and navigate adoption challenges seamlessly. Additionally, our expert facilitators will guide participants in the formulation of a robust coaching plan, enabling them to identify and leverage strategic opportunities for optimal growth and development. In essence, this workshop is a holistic approach to empower your team with the knowledge and tools needed to propel your organization toward success.

PMO Assessment Workshop

Our DCT leads our Project Management Office (PMO) Assessment Workshop. This workshop is a high impact, comprehensive program to assess and improve Project Portfolio Management (PPM) practices over the course of 3-4 weeks. This comprehensive program consists of three survey domains: PPM current state, PPM satisfaction, and PPM assessment.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

IT Practices Workshop

Led by our DCT team, the IT Practice Review workshop gives the City of Mesa and OMNIA Partners Participating Public Agencies visibility into how your organization operates. Through a holistic approach, we look beyond process documentation into how teams work together. Each Agency is unique, and how processes are designed and implemented can either work for or against business objectives. In 2 short weeks, agencies will have a high-level map of their strengths and weaknesses and a plan to ensure their processes propel them to reach their goals.

IT Resource Cost Benchmarking Workshop

It's simply good business to operate in a cost-efficient manner and continually look and plan for opportunities that will improve the bottom line. Led by our DCT team, our IT Resource Cost Benchmarking Workshop can help the City of Mesa and OMNIA Partners Participating Public Agencies identify and plan areas for cost optimization using data-based metrics and relevant industry comparisons to support best-case decisions. Whether each agency is anticipating a cost reduction mandate, focused on continuous improvement, or simply wants better insights into their IT cost structure, our cost benchmarking study will have you covered.

For more of our training offerings and workshops, our full training catalog is provided as Exhibit 4.

Maintenance Services

CDW•G offers various maintenance agreements to cover all types of vendors, products, and service levels. Our offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include the following:

- **Coterminous Support Contracts.** A coterminous support contract can take the City of Mesa's existing manufacturer support plans and roll them together with one standard end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement.** These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts.** Retainer contracts provide a designated block of time that guarantees the City of Mesa's access to field service and support staff, including system engineers, network technicians, PCs, and printer repair technicians, and more.

For a more comprehensive overview, please see "Repair" above.

Advisory Services

Please see "Consulting and Advising" above.

Managed and Support Services

CDW•G offers a wide variety of managed and support services. In June 2023, we ranked #10 out of 501 in the prestigious 2023 Channel Futures Managed Service Providers (MSP) 501 rankings; MSPs that qualify for the list must pass a rigorous review conducted by the research team and editors of Channel Futures. Applicants are ranked using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue, and operational efficiency.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Our Managed Services offerings allow the City of Mesa and OMNIA Partners Participating Public Agencies to contract for support of your networks, systems, databases, and select applications. Our modular approach to IT management allows you to select services that best support your individual organization's goals and current capabilities.

We offer end-to-end solutions, including strategy development, technology selection, implementation, and operation. We offer multiple delivery models, including on-premises, off-premises, cloud, and as-a-Service models. Benefits of our Managed Services practice include the following:

- Establishing security posture
- Improving governance and overall operation
- Increasing availability and performance
- Making informed, strategic decisions based on data

Services include:

- Managed Infrastructure
- Managed Cloud Services
- Managed Security Services
- Managed Resiliency Services
- Managed Digital Experience

Managed Infrastructure Services

We offer ITIL-based monitoring and management services to help you manage your existing environments and focus on value-driving initiatives with Mainframe, IBM Power Systems, Converged and Hyperconverged Platforms, OS, Database, Storage, Network, Application Managed Services, and Service Management. Part of our Managed Infrastructure Services include, but are not limited to, the following:

Operating Systems, Applications, and Services

- Managed Patching as a Service
- Managed Mainframe Services
- Managed Mainframe Automation
- Managed Mainframe Monitoring

Data Center

- Managed Colocation Services
- Managed Storage Services
- Managed Backup and Restore Services
- Managed Server Virtualization Services
- Managed Database Services
- Managed Converged Infrastructure Services
- Managed Hyper-Converged Infrastructure Services

Network

- Managed Switching Services for OEMs such as Aruba, Cisco, Extreme, HPE, Juniper, and more.
- Managed Routing Services
- Managed Load Balancing Services
- Managed WAN Optimization Services
- Managed Wireless Networking Services

- Managed Policy and Access Services

Managed Cloud Services

We help make your cloud initiatives successful — from application through migration and management with Cloud Enablement Services, Managed Private Cloud, Managed Cloud – AWS, Azure, and Google Cloud Platform (GCP), Managed Security for AWS and Azure, Sirius Power Cloud, SIEM as a Service, Monitoring as a Service, Patching as a Service, Unified Communications as a Service and Backup as a Service.

CDW•G has a Government Cloud Managed Services Team that understands the unique challenges public agencies face with regard to managed cloud solutions because we understand that managing a complex and evolving cloud environment requires unique and specialized skills. When production and business-critical systems must remain online without disruption, we can keep your infrastructure operating optimally. Our Managed Services for Cloud are an integral component of the City of Mesa and OMNIA Partners Participating Public Agencies' end-to-end digital transformation.

With CDW•G's trio of cloud MSP certifications, we have the expertise and experience to support the City of Mesa and OMNIA Partners Participating Public Agencies across all major cloud platforms. With AWS MSP and Microsoft Azure MSP certifications already under our belt, we are now one of a select few providers in North America, and an elite group of providers globally, to hold all three major cloud MSP certifications. Whether Participating Public Agencies are looking to migrate to the cloud, optimize their existing cloud environments, or manage multiple cloud platforms, CDW•G has the capabilities, talent, and resources to help the City of Mesa and OMNIA Partners achieve your unique goals. An overview of our Cloud Managed Services offering is as follows:

- **Managed AWS Services:** Our comprehensive next-generation Managed Services for AWS is backed by more than 20 years of managed services support experience. Delivered through CDW's Enterprise Command Center and managed by AWS-certified architects, consultants, and engineers, the City of Mesa and OMNIA Partners can focus on proactive initiatives and outcomes, not technology management.
- **Managed GCP Services:** Our GCP-approved architects, consultants, and engineers provide the day-to-day management so you can harness the power of your technology instead of simply managing it. Our cloud experts work closely with our customers to guide them to an end-to-end cloud management strategy that brings clarity to the cloud.
- **Managed Azure Services:** As a CSP provider for Azure and a Gold Platform member of the Microsoft Partner Network, CDW assists customers with the adoption and implementation of Azure securely and efficiently. We have a long-standing, award-winning relationship with Microsoft that we extend to our clients.
- **Google Cloud Managed Service Provider (MSP) Initiative:** CDW has successfully completed the requirements to participate in the Google Cloud Managed Service Provider (MSP) Initiative, bringing new capabilities to CDW•G's services portfolio and turning it into a trifecta in cloud-managed services. Google Cloud's differentiators bring to CDW an opportunity to accelerate customers' interest in innovative Managed Security Plays and Generative AI ventures. To receive this Google recognition, CDW demonstrated through third-party expert-assessment deep knowledge of Google's technology stack; CDW proved experience and stability in long-term managed customers and showcased a sound practice of support operations with Google-certified individuals on-call.

Managed Security Services

Today's siloed security tools force analysts to pivot from console to console to piece together investigative clues, resulting in painfully slow investigations and missed attacks. Even though they've deployed countless tools, teams still lack the enterprise-wide visibility and deep analytics needed to find threats. Faced with a shortage of security professionals, the City of Mesa and OMNIA Partners IT Teams can leverage CDW•G to simplify security operations in a vastly changing security landscape. CDW's Managed Security Services bring mature processes and industry experts to support your security threat landscape.

The CDW Managed Security Services suite provides coverage for critical security tools and processes. The support model includes 24/7/365 support; this type of around-the-clock monitoring is essential for government entities like the City of Mesa and Participating Public Agencies that require vigilance and prompt response, all while complying with local regulations and standards. Our 24/7/365 model includes support for the following:

- Vulnerability Scanning Management
- Next-Generation Firewall
- Endpoint Protection
- Identity Access
- Security Incident Event Management
- Behavioral Analytics
- Security Orchestration Automation and Response

Our 24/7/365 Security Operations Centers stop threats with a cohesive, multifaceted approach designed to maximize return on investment by utilizing the top security tools in the industry, including, but not limited to, the following: Tenable, Palo Alto Networks, Cisco, Check Point, IBM, Exabeam, and CrowdStrike. Workflows are built on time-proven ITIL processes combined with top-tier commercially available tools to avoid vendor lock-in due to proprietary solutions.

To enhance deployed security tools, CDW•G uses threat intel feeds, proactive threat hunting, IOC research and investigation, automation, and machine learning. Your security landscape is supported by expert analysts with extensive experience and credentials. Our security team has 500+ security certifications and a team of 500+ experts. Some of our certifications include, but are not limited to, the following:

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Figure 9. Overview of Security Certifications

Managed Resiliency Services

We help maintain business continuity and recover critical applications and data with Managed Backup, Managed Disaster Recovery, and Managed High Availability.

Thoroughly protecting your organizational data from threats and recovering when needed can be complicated. With CDW Data Protection solutions, from industry-leading partners, defining data management capabilities throughout the data lifecycle — from creation to destruction — is easy, and provided as a fully managed service.

CDW can completely operationalize your data protection environment for one low monthly fee, with design, configuration, and implementation of your Rubrik environment according to your requirements. Deployment, monitoring, and full support of the environment, including the hardware and software, can all be done for a predictable monthly expense.

Managed Digital Experience

We help manage messaging, videoconferencing, voice, video, Unified Communications as a Service, SD-WAN, and business applications. We help provide a richer end-user experience by managing virtual workspaces such as virtual desktops and Citrix and the Microsoft Office 365 tools and orchestration.

Managed Services Levels

We provide three levels of managed services:

- Advanced Monitoring -- Bronze
  - Advanced Monitoring includes comprehensive monitoring and alerting for supported technologies. In addition to basic availability monitoring of devices and services, CDW also provides error/exception monitoring, threshold monitoring, and performance utilization monitoring. All monitoring data is available through a web-based reporting engine.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

- Proactive Maintenance – Silver
  - Proactive Maintenance includes patching services. CDW proactively monitors vendor patch availability, analyzes patch necessity and priority, and applies recommended patches to your system.
- Availability Management – Gold
  - Availability Management includes break/fix engineering support and an SLA for device availability. CDW's SLA for all Gold level modules is a 99.9% monthly services uptime guarantee.

Each of the levels encompasses the previous levels. There is no loss in service when moving to a more comprehensive level, meaning that no operational tasks are lost when moving between levels.

Support and Continuous Improvement

CDW•G experts provide technical support for complex technology solutions when your IT, development, and business teams need it. Our experts work with you to continuously optimize your technology environment.

Staff Augmentation Services

For more than 20 years, CDW•G has been providing customers the ability to staff their projects by giving them access to our experienced architects, engineers, project managers, and consultants drawn from our deep national and in-market resources. Our goal is to provide the City of Mesa and OMNIA Partners Participating Public Agencies the ability to scale up and down your augmented workforce on demand, giving you the ultimate flexibility to meet your evolving needs and upcoming project plans. Staff augmentation ultimately reduces costs; the City of Mesa and OMNIA Partners Participating Public Agencies can quickly access experts without a long-term commitment, lengthy hiring process, or administrative burdens.

CDW Staff Augmentation Services help meet the demands of your organization in unique ways. We provide skilled staff to augment your team with expertise in a wide range of technologies, offering an objective view of IT that ensures you will always receive the right solution to your problems while minimizing payroll costs and maximizing time savings for your priority projects.

We have a wide range of resources ranging from Level-One help desk to Senior Engineers and Architects to Management. Our areas of support run the gamut - from Networking to Cloud Engineering, DevOps, to Application Development. A snapshot of our areas of expertise can be found below:

Figure 10. CDW•G Staff Augmentation Areas of Expertise

Professional Services

A variety of our professional services have been described throughout our services offering section thus far. As mentioned, our project managers and consultants work directly with the City of Mesa and OMNIA Partners Participating Public Agencies to design and implement every facet of your IT solution. After assessing your current environment and business objectives, they'll produce a detailed project blueprint. Partnering with your existing staff, they'll oversee the full implementation of the solution. After a successful implementation, they'll perform quality assurance and troubleshooting before leading an in-depth closeout meeting to make sure your team is ready to take the reins. Our end-to-end support ensures that your solution can do it all: improve end-user experiences, increase efficiency, and free up your team.

OMNIA Success Story: Midsized County

Background

Government entities often find themselves having to act very quickly to follow through on their most critical initiatives. They typically have an idea of what they want to accomplish, yet the path to execution is rarely straightforward. Whether it relates to budget approval, how long funds are available, or the expertise to go from idea to implementation, IT Departments must be ready to act quickly, requiring a partner they can trust to execute at a moment's notice.

Challenge

This mid-sized County, like many of their peers, has a small IT team, with the knowledge and expertise to keep things running, but implementing new technologies on a regular basis is a continued challenge. Not only is their staff somewhat unfamiliar with the latest offerings in areas like Hyperconverged Infrastructure and Next Generation Data Protection, but once funds become available, the prospect of lacking in-house resources to implement these innovations within the necessary timeframe is a major concern.

Solution

This County needed a partner that could complement the strengths of their IT team and walk hand in hand with them to help design, implement, and manage complex technologies. CDW•G presented technical engineers to help educate the team on the solution, informing them on how the technology functions, as well as properly standing up the solution in their environment. CDW•G deployed resources to help with everything from network equipment, network security, and data protection – from advisory services to setting policies on their new equipment.

Success through OMNIA Partners

OMNIA Mesa and CDW•G were the perfect procurement vehicle for this County to deliver on these "just-in-time" technology solutions that are becoming more and more essential in the local government space. CDW•G instilled in IT leadership the confidence to undertake projects, guiding them seamlessly from conception to implementation, transforming what once seemed unattainable into achievable milestones with a trusted strategic partner.

This customer leveraged the Mesa OMNIA contract as a swift and efficient avenue for procurement, guaranteeing the responsible allocation of constituent funds. Entrusting CDW•G as their advocate, the IT department could rely on expert guidance to select the optimal technology, ensuring seamless functionality from day one.

Comprehensive Product Offering

Comprehensive Product Offering: Offeror's complete catalog and services offered shall be available. Each offeror awarded a contract under this solicitation may offer their complete product and service offering. Pricing for products and services must be entered on the appropriate section of the Price Page. The City reserves the right to accept or reject any or all items offered.

CDW•G's comprehensive line of products and services can be found at www.cdwg.com. We have also provided our Line Card as Exhibit 1.

However, our offering would not be complete without highlighting our sector-specific services and capabilities. We understand that state agencies, local governments, higher education institutions, and K-12 entities have different needs.

CDW•G for Public Safety

CDW•G's Public Safety Team has a specialized practice devoted to public safety issues, with more than 20 years of experience and hundreds of engagements to our credit. Fire, Police, and other Emergency agencies face unique challenges, even different from other government agencies. Understanding this, we built a team with the sole focus of supporting our nations critical Public Safety agencies. Our team of dedicated Public Safety Business Development Managers will guide the City of Mesa and Participating Public Agencies to the most impactful choices, address all the requirements, policies, and strategies you face every day, and show you how the pieces fit together.

At CDW•G, we actively engage with fire, police, emergency medical services, emergency management, and other agencies, offering invaluable insights into their myriad options. Recognizing that a little guidance can yield substantial results, our profound knowledge and expertise in deploying cutting-edge technology stand ready to empower decision-makers in selecting optimal public safety solutions.

Modern-day emergency management and first response require fast and always-available access to information. Without it, police officers, first responders, and emergency personnel are at a disadvantage against criminals and natural disasters alike. Innovative digital solutions provide new, engaging approaches to fulfilling missions and keeping communities safe.

Our offering covers the full spectrum of capabilities:

Video

- In-vehicle video, capture, and management
- Body-worn cameras
- Interview room monitoring
- Fixed security
- Surveillance
- Analytics
- Collaboration and telepresence
- Case management

Mobility

- Mobile data laptops and tablets
- Data collection and scanners
- Mobile printing
- GPS and automatic vehicle location
- Mobile access routers
- Wi-Fi solutions
- Advanced authentication

Data Center

- Servers and storage area networks
- Hyperconverged infrastructure
- Backup and recovery
- Virtualization
- Cybersecurity
- Unified communications
- Enterprise wireless

Command, Control, and Intelligence

- Mission Critical Operations Centers
- Data Visualization and Analytics
- Situational Awareness Platforms
- Mobile and Deployable Solutions
- Evidence Management

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Cloud solutions
- Virtual private network mobile software
- Cloud solutions
- Alert and mass notification
- systems
- Power and cooling
- Cloud solutions

CDW•G understands that each state has different laws pertaining to the sale of physical security/public safety hardware and equipment; CDW•G ensures that we have or will have applicable licensure for any products and equipment we provide to the City of Mesa and OMNIA Partners Participating Public Agencies.

Success Story: Implementing Situational Awareness Rooms for a Large Urban City

Law enforcement bureaus were looking for methods to mitigate risk and engaged CDW•G in these discussions. This conversation started an 18-month process of consulting and designing a new Joint Operation Command Center (JOCC) that could be used at a central location by engaged bureaus.

The JOCC is designed to provide joint command capabilities for more than five federal partners and will serve as a command and control center for the City's significant events moving forward. Additionally, the JOCC will be a central point of communication and control for future civil unrest.

The primary Command Center seats 80 individuals and includes a 1.1M LED 80 feet wide video wall. Additionally, the center contains seven adjacent conference rooms fully equipped with digitally transformed audio-visual systems. Work began in the last quarter of 2022 and will be completed shortly. The Center is set to open in mid-2023 and will be one of the leading operations centers in North America.

CDW•G for Education

CDW Education understands the challenges – and opportunities – involved in building a flexible and supportive personalized learning environment for K-12 and Higher Education students. We currently support 2,300 K-12 and 1,400 Higher Education (Higher Ed) institutions and entities on the existing City of Mesa and OMNIA Partners contract. You can continue to count on us to guide you through tight budgets, numerous choices, and expertise shortfalls so that you're prepared to meet your IT needs, now and in the future. Through the acquisition of Amplified IT in 2020, we are further able to support our education customers with our own tools, such as LittleSIS, Gopher, and more.

We know that our education customers' need for vendor support does not stop at deployment completion. Maintaining technology program innovativeness and alignment with your education goals is a continuous and daunting task. In fact, in a year, your program may look very different. You need a vendor that does more than meet your technology requirements right now; you need a vendor partner that shares a passion for education and continued development to future-proof schools, staff, and students for long-term success. Our Education Strategists help educators include technology as part of their educational planning and goals; we pledge to remain dedicated to supporting the full scope of each OMNIA Partners Participating Public Agencies' technology and related educational needs.

We have actively expanded our catalog, certifications, and solutions to address the latest developments in Education technology, including cloud, IoT, drones, and esports, so that we

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

can continue to support the changing needs of the City of Mesa and OMNIA Partners Participating Public Agencies. In addition, we have dedicated CDW•G Education resources aligned to these solution areas to help you understand and implement them. Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies.

We offer a variety of education-specific services and solutions, some of which align with leading manufacturers, such as Amazon Web Services (AWS), Microsoft, and Google. Our goal is to help empower students, families, faculty, staff, and administrators as they explore and build opportunities for improving academic outcomes. Some of these services and solutions include, but are not limited to, the following:

CDW•G and Google for Education

We are a Premier Google Partner on a mission to empower schools to get the most out of Google Workspace for Education. In August 2023, we were awarded Google Cloud's Partner of the Year in the Specialization category for excelling in the Education sector and delivering positive customer outcomes. Our teams of education and technology experts have served more than 4,200 districts across the US and Canada, including 12 of the 15 largest districts.

- **CDW Collaboration Amplified Support for Google for Education:** Save your IT team valuable time and resources and empower them to make the right decisions for your institution's digital infrastructure. Equip them with the support they need to prevent and mitigate technical challenges like network errors, misaligned settings, security breaches, app degradations, and more. The Amplified Support for Google for Education service partners technical staff with Google IT specialists who provide on-demand support, customized solutions, and professional collaboration to help your institution keep up with Google's ever-evolving environment, optimize the operation of your Google for Education domain and Chrome OS, and achieve the strategic goals of your administrators, educators, and students.
    - Support services include on demand support with highly responsive SLAs, customized solutions, and professional collaboration.
- **CDW Collaboration Chrome Checkup:** With the rapid adoption of education technology through a 1:1 model, classroom carts, or computer labs, Google Admins are managing the settings and configurations for Chrome and fleets of Chrome devices. Neglecting to keep up with Google Chrome updates and the normal degradation that comes with usage can leave Chrome devices vulnerable to metric and data errors, security breaches, and operations issues. A Chrome Checkup explores an institution's current Chrome and Chrome device settings in the Google Admin console to provide recommendations based on education best practices to ensure their fleet is optimized for success and ready for deployment.
- **CDW Collaboration Google for Education Audit**: Ongoing Google for Education feature changes can make it difficult for you to keep your institution's Google Workspace domain up to date. Neglecting to properly configure even a few settings in the Google Admin console can leave it vulnerable to undelegated access, metric and data errors, and security breaches. The Google for Education Audit analyzes your Workspace environment against the latest education best practices and Google Workspace updates and provides an actionable plan to improve the efficiency of your domain for the success of your administrators, teachers, and students.
- **CDW Collaboration – Google Voice for Education:** Google Voice is a simple, smart, and scalable cloud-based phone solution that allows administrators and teachers to stay

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

connected to students and parents via a desktop phone or cellular and computer devices without having to use their own phone numbers. With the options of remote, hybrid, and in-person teaching and learning models exposing the need for schools to have an efficient communication system, Google Voice is a valuable option that puts administrators and teachers in control of their call logs, whether teaching and learning are happening in the building or at home. Google Voice is intelligently optimized, secure, and compliant and fits seamlessly into the Google Workspace for Education workflow.

- **CDW Collaboration – Google Workspace for Education KickStart:** The Google Admin console has over 1,000 settings that do not come out of the box tailored to meet the needs of your institution, and Google Admins are left to build out the Google Workspace for Education domain on their own. This can result in misconfigurations, improper OU structure, an abundance of delegated permissions, and security vulnerabilities that affect teaching, learning, and safety. A Google Workspace for Education KickStart provides institutions with a configuration guide for all the settings in their Google Admin console. Recommendations are based on education best practices and an institution's unique strategic goals, so the domain is operating at its highest level from day one.

CDW•G and Microsoft for Education

CDW's Amplified for Education Services offer comprehensive Microsoft 365 EDU support to schools, addressing your most urgent problems in classroom technology, remote learning, device management and security. With our expertise, you can optimize your learning environment by leveraging Microsoft technology and affordable Windows 11 Education devices to their fullest potential.

We offer multiple Microsoft EDU Services for your environment, including:

- **Microsoft EDU Modern Management Program | Intune for Education Pilot**: By streamlining device management, reducing downtime and IT support costs, and improving data protection, Intune for Education can complement schools' current Intune for Enterprise as an add-on or a stand-alone plug-and-play service. With its focus on delivering high-quality, innovative, and inclusive education for all students, Intune for Education empowers schools to leverage their existing infrastructure while enhancing their device-management capabilities specifically tailored for educational settings.
- **Microsoft Education Discovery and Design | M365 EDU Ecosystem Assessment:** By providing clear guidance on what tools are being utilized or not utilized, this assessment enables ITDMs to optimize software usage, reduce unnecessary spending and make informed decisions about their technology budget.
- **Amplified for Microsoft EDU | Windows 11 Readiness Assessment:** The Windows 11 Readiness Assessment includes a series of workshop sessions that help schools evaluate EDU environments in preparation for the deployment of Windows 11 and its features, identify scalability constraints, make informed decisions, and implement the necessary enhancements to ensure successful adoption.
- **The CDW Education Collaborative | Microsoft:** The CDW Education Collaborative is a forward-thinking community of K-12 districts looking for insights and best practices for administering and mastering Microsoft 365 Education and Google for Education ecosystems. The Education Collaborative provides a one-stop shop to access useful content and helpful advice from fellow education IT professionals, CDW professionals, and Microsoft and Google insiders.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW•G and AWS for Education

We are part of AWS' Partner Network with an active Advanced Consulting Partner status. CDW•G coworkers have earned more than 200 AWS certifications, including the AWS Database and Data Analytics Specialty Certifications, as well as the AWS Migration Competency, AWS Storage Competency, and more.

- **CDW Hybrid Cloud AWS Appstream Implementation Services (Education Segment):** With more students learning remotely with less-robust devices, the demand for remote application access is growing. The AWS AppStream service allows students to access their critical apps remotely, and CDW•G has developed a turnkey service to get your students and institution up and running. Provide access to the applications your students need without the expense and security risk of building and hosting on your premises. CDW•G will plan, configure, and deploy the AppStream solution for you.
- **CDW Classroom in the Cloud on AWS Hybrid Cloud:** The cost of purchasing, installing, implementing, maintaining, and replacing the hardware and software needed on your facilities to accommodate the curriculum your students need can create a budget black hole, which is why we created our Classroom in the Cloud on AWS, an enhanced Desktop-as-a-Service (DaaS) solution. Allow CDW•G to help you increase efficiencies, decrease costs, and improve the student experience by building virtual classrooms and labs in AWS. With CDW•G's Classroom in the Cloud service, you have the flexibility to spin classrooms up and down, use online faculty resources, and provide students with 24x7 access to complete or repeat work outside of class, all while keeping costs at the requisite minimums. In addition, CDW•G can provide you with content for the grant proposal necessary to receive the funds to use this service, if needed.

These sector-specific offerings provide insight into our capabilities; however, they are not comprehensive.

Success Story: Custom-Built Esports Room in a Southeast School District

Background

Several educators at a junior high school created an after-school esports club that met online during the pandemic. When students returned to campus, the club met in the school library. The staff and principal envisioned so much more; they wanted to add esports to the curriculum and build a dedicated esports room. They pitched their ideas to school district leaders and quickly won support.

The CDW•G team, which includes esports experts, initially met with school officials in the spring of 2021 to discuss the district's immediate and long-term goals. In doing so, they learned the gaming room needed to be multifunctional for teaching both esports and other classes.

Engagement and Solution

The district took advantage of CDW•G's Blueprint to Design service, which includes its furniture partner Spectrum Industries, to create an initial floor plan and design for the room.

At the same time, CDW•G's esports advisers made technology and furniture recommendations to fit the district's budget. After receiving feedback on the initial designs, CDW•G developed new 2D and 3D renderings for the space. During this process, CDW•G held multiple virtual and onsite visits. Before the technology and furniture arrived, the school

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

hired a general contractor to equip the room with enough electrical outlets and network drops for the PCs and other equipment. With the infrastructure complete, CDW•G and their installation partner installed the LED lighting and 65- and 75-inch Samsung displays. Once the furniture and tech equipment arrived, we assembled the gaming desks and chairs and installed the computers and gaming peripherals.

Outcome

In the fall of 2021, this junior high school opened a state-of-the-art esports room, transforming a traditional classroom into a rich learning environment. This esports room has become the home for a semester-long interdisciplinary course that teaches them about the career and technical skills they will need in the fast-growing field.

Product Offering

In addition to the services listed above, CDW-G is pleased to offer our full catalog of products and solutions. For insight into our product offering as it relates to the requested products in this RFP's Scope of Work, please continue reading.

Software

a. Software: National brand name Microsoft, Google, Oracle, Enterprise applications/solutions, cyber security applications/solutions, etc.

CDW•G is pleased to offer software solutions and applications from leading manufacturers, including Microsoft, Google, and Oracle, among many others; CDW•G has developed close partnerships with more than 300 of the industry's leading software publishers.

Software and Information Industry Association Membership

We are a member of the Software and Information Industry Association (SIIA). SIIA is the principal trade association for the software and digital content industry. It recognizes companies that demonstrate software industry leadership and good corporate citizenship. SIIA Certified Software Reseller (CSR) status is awarded based on the accuracy and completeness of the record-keeping process. We are one of only four resellers with SIIA certification. There is a distinct customer advantage to our membership in the SIIA: in the event that the City of Mesa and OMNIA Partners Participating Public Agencies are audited by the SIIA, an invoice from CDW•G serves as proof of ownership.

Software Products and Solutions

We are an industry leader when it comes to enabling customers to modernize their environment through the combination of speed and direction.

While contemporary technologies can be beneficial, if executed incorrectly, they can also quickly lead to overlap, confusion, and sprawl. Our team can help the City of Mesa and OMNIA Partners Participating Public Agencies leverage existing technology investments while integrating modern solutions and tools. With the help of CDW•G, the City of Mesa and OMNIA Partners Participating Public Agencies can create simplified outcomes that are easy to manage and fiscally beneficial. Our team delivers full-stack, modern infrastructure and software delivery focused on cloud native and hybrid-cloud adoption. Key practice areas include, but are not limited to, the following:

- **Advanced Infrastructure and Hybrid IT:** Consulting and delivery services for modern data center architecture, networking, servers, virtualization, and container and cloud platforms.
- **Full Stack IT Automation & Orchestration:** Consulting and delivery services in modern concepts for systems automation, infrastructure-as-code (IaC), and configuration management from physical network and servers to cloud.
- **Systems Integration & Software Engineering:** Consulting and delivery services in modern software development and delivery, web development, mobile development, distributed systems, microservices, and serverless environments.
- **DevOps:** Consulting and delivery services in DevOps, cultural assessments, organizational redesign, continuous integration/continuous deployment (CI/CD), and modern software delivery.

Personal Computer Systems

b. Personal Computer Systems: National brand name desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise Tier and Middle Tier Contractors that are business related computers, manufactured by companies, such as, Apple, COMPAQ, Dell, Gateway, Hewlett Packard, IBM / Lenovo, Panasonic, and Toshiba. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's broad array of offerings includes desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise and Middle Tier contractors. We are authorized to sell the various partners' full suites of products: Apple, Dell, Hewlett Packard (HP), IBM, Lenovo, and Panasonic, among many others.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Desktops

Desktop computers come in all shapes and sizes and are used for tasks ranging from web browsing to high-resolution media creation, and CDW•G offers products to meet any need. We offer All-in-One computers, Mini PCs, Thin Clients, Towers, Workstations, and more. Our selection includes popular brands, including, but not limited to, HP, Dell, Lenovo, Acer, Asus, Apple, among others. Additionally, the City of Mesa and OMNIA Partners can buy desktops pre-built or parts can be purchased and assembled in the configuration of your choosing; desktops can be upgraded or customized to grow alongside your needs as a user.

Laptops & 2-in-1s

When you need the power of a desktop but lack the space, laptops are an excellent solution for mobile computing. 2-in-1 computers are another powerful portable solution because, while similar to laptops, these devices can function as tablets and benefit from the integration of touchscreen displays or drawing accessories in some models. CDW•G has a wide range of laptops and 2-in-1s computers ready to meet any of your needs, including, but not limited to, those from Acer, Dell, HP, Microsoft, Panasonic, and more.

Tablets

Sometimes, both desktops and laptops may be too large for a particular space. Tablets are versatile devices that can perform many of the same tasks as their counterparts but in an easily transportable package. When combined with peripherals such as dedicated keyboards or additional displays, tablets can further blur the line between themselves and their desktop counterparts. We offer tablets from popular brands like Apple, HP, Lenovo, Panasonic, Samsung, and more.

Success Story: Large Device Rollout for the US Census Bureau

Background

When the US Census Bureau wanted to increase security and accessibility for the last Decennial Census, the Bureau trusted CDW•G.

The Census Bureau had a short-term need for mobile devices to enable a workforce to accurately capture data about America's people and its economy. Secure and easily accessible, the ideal device would utilize satellite technology to help field workers visualize each neighborhood.

We compared manufacturers to determine which could provide the most reliable, cost-effective technology. The products that best suited the Bureau's needs and those that were recommended to the customer included the Apple iPhone and a lightweight Dell laptop with a custom case and adjustable straps.

CDW•G was responsible for acquiring the devices, provisioning and configuring them, and getting them to the Census Bureau's local offices.

Outcome

Our service model offered the solution on a subscription basis to keep costs predictable and ensure mission alignment. In addition to overall program management, CDW•G offered mobile devices and accessories, custom device configurations, equipment staging, kitting, imaging, and inventory management. Our offerings also included wireless services from

multiple cellular carriers, nationwide deployment, user help desk and field support, secure asset management, and device decommissioning and disposition when data collection concluded. CDW•G could quickly redeploy assets if there were any personnel changes. Approximately 60,000 laptops, 350,000+ iPhones, and 25,000 iPads were issued under management.

Our state-of-the-art distribution and configuration centers provided logistical agility and flexibility while demands fluctuated. Together, we simplified the Bureau's processes and increased efficiency while remaining secure. Read more about this story here.

Standard Business and High End Workstations

c. Standard Business Workstation: These will be used for typical tasks, which will include word processing, spreadsheet analysis, database management, business graphics, statistical analysis, internet, and other office automation activities. Product will include the operating system license, software media and documentation in the hardware shipment.

d. High End Workstation: These will be used by application developers using GIS, CASE or other high-level language development tools, Computer Aided Design and Drafting professional, Internet Application developers or other sophisticated application work. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's standard business and high end workstation offering allows the City of Mesa and OMNIA Partners Participating Public Agencies to experience professional-grade performance with our selection of solutions. Our offering includes solutions designed to handle any task, including creating projects and application development.

CDW•G offers workstations with processor speeds of 1.1GHz all the way up to 5.6GHz with hard drive capacities ranging from 256 gigabytes to 8 terabytes. Brands include, but are not limited to, Apple, BOXX, Dell, HP, Lambda, Lenovo, and more.

Laptop Computers and Notebooks

e. Laptop Computer or Notebook: These will be used by traveling or remote access user for typical office automation and business productivity use. With a port replicator or docking station, it may also be used as a standard desktop. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's product portfolio includes laptop computers, 2-in-1 laptops, notebooks, port replicators, docking stations, and more from leading manufacturers, including Acer, Dell, HP, Lenovo, Microsoft, Panasonic, Samsung, and others. An overview of our offering includes, but is not limited to, the following:

Windows Laptops

We offer a wide selection of Windows-based laptops; Windows laptops have many powerful tools integrated into the operating system that are uniform across various businesses.

MacBooks

Apple products, specifically MacBooks, are among the most popular laptops globally for both students and professionals. These devices are a perfect hybrid of aesthetics and performance and have robust and powerful software that is standard in each machine. MacBooks also effortlessly pair with other Apple products, such as iPhones or Apple Watches, to maximize the performance of each device.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Note: Only Apple is allowed to sell Apple products to K-12 customers, including both private and public schools. If this policy is repealed, CDW•G is equipped and ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies.

Chromebooks

Chromebooks are excellent alternatives that function using applications hosted on the internet. This way, the cost of Chromebooks can remain affordable without sacrificing functionality. CDW•G has a large selection of devices that can meet the City of Mesa and OMNIA Partners Participating Public Agencies' diverse needs.

Ultrabooks

Ultrabooks are powerful laptops that are slim in size but feature industry-leading technology geared towards pushing performance to the absolute maximum. Ultrabooks are also an excellent choice for any design or media-based work. Their robust components allow for maximum performance in multiple locations.

Network Equipment

f. Network Equipment: This includes equipment primarily used for communications over an IP network. This includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces (i.e. serial, T1, T3, OC3) and fiber channel. Class of equipment should include home office, small and medium business, and enterprise. Contractors may include, but not limited to, Cisco Systems, Dell, Juniper Networks, HP, Extreme Networks, Enterasys Networks, D-Link, Netgear, and Brocade Communications Systems.

CDW•G's broad array of offerings includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces, and fiber channels. The class of equipment that we offer includes home office, small and medium business, and enterprise. We are authorized to resell from more than 1,100 leading manufacturers, including, but not limited to, Cisco, Dell, Juniper Networks, HP, Extreme Networks, and Netgear. CDW•G will work with the City of Mesa and OMNIA Partners Participating Public Agencies to determine the best networking equipment to meet each of your needs.

An overview of our network equipment product offering includes, but is not limited to, the following:

- Network Adapters
  - Ethernet Adapters
  - Host Bus Adapters
  - Transceiver Modules
- Network Management
  - Console & Device Servers
  - Load Balancers
  - Network Management Devices
  - Network Testing
  - Print Servers

Monitors

g. Monitors: These will include plug and play compatible monitors that are manufactured for the above systems and/or any other brand that may be specifically called for by the ordering entity and which meet the most current UL and OSHA requirements.

CDW•G's product portfolio offers a variety of monitor solutions, including plug-and-play compatible monitors. Should the City of Mesa or any OMNIA Partners Participating Public Agency have specific UL or OSHA requirements to meet, we will work with you to determine the best products that meet your needs, requirements, and budget.

CDW•G understands that the right computer monitor or display can make all the difference. No matter the purpose, we get that a good monitor is important to you. CDW•G offers a wide range of monitor and display types with response times of less than 2 ms and 4k resolution. Plus, we partner with all the top monitor brands, including Acer, ASUS, HP, Lenovo, LG, MSI, ViewSonic, and many more.

Computer Monitors

Computer monitors are an integral part of any setup. For design and media-specific industries, high-resolution monitors are a must and need to be paired with an adequate graphics card. Other display solutions, such as business computer monitors, are capable of standard office tasks such as word processing or web browsing. No matter what you need a display for, CDW•G has a large selection of computer monitors from industry-leading brands and manufacturers. We are committed to working with you to determine what suits your needs.

Large Format Displays

One of the most powerful tools for a modern business is the implementation of large-format displays. Everything from adaptive menus to digital signage and anything in between can quickly be displayed or adjusted on these large screens. Devices such as smart boards have changed the educational landscape and make lessons and presentations more accessible and diverse than ever before. For advertising, these displays save money and significantly reduce paper waste and the City of Mesa and OMNIA Partners Participating Public Agencies' environmental footprint.

Monitor Accessories

CDW•G experts can help the City of Mesa and OMNIA Partners Participating Public Agencies determine which accessories will work best for you and how they can improve your setup. Monitor accessories like mounts or privacy screens allow you to maximize productivity in any location. Other accessories like specific cables or adapters work to ensure any device can interface and work with any monitor.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Projectors

In addition to a large selection of monitors and accessories, CDW•G also offers projectors. While not technically monitors, projectors are a common form of computer display that allow the City of Mesa and OMNIA Partners Participating Public Agencies obtain display sizes far more extensive than any screen. These large-size displays are perfect for video conferencing with groups, work presentations, staff meetings, or even community events in the park. We offer interactive projectors, large venue projectors, office projectors, as well as projector accessories, from leading brands such as Epson, Sony, LG, and more.

Computer and Network Products, Peripherals, Accessories, and Components

h. Computer and Network Products, Peripherals, Accessories, and Components: Complete availability of major manufacturer's product lines on items such as, but not limited to RAM, graphic accelerator cards, network interface cards, cables, printers, scanners, monitors, AV equipment, unified communications hardware, mobility hardware, modems, routers, switches, keyboards, drives, memory cards, cables, batteries, power management, supplies, etc.

With a product portfolio that includes 100,000+ products, CDW•G can meet the needs of the City of Mesa and OMNIA Partners Participating Public Agencies. We are pleased to offer the items you need, including, but not limited to, RAM, graphic accelerator cards, network interface cards, cables, printers, scanners, monitors, AV equipment, unified communications hardware, mobility hardware, modems, routers, switches, keyboards, drives, memory cards, cables, batteries, power management, supplies, and more.

Our product offering for this category includes, but is not limited to, the following:

Cables

- Audio & Visual Cables
- Cable Management
  - Cable Organizers
  - Clips
  - Cable Ties
  - Desk Cable Solutions

system. CDW•G offers IT and educational furniture, including, but not limited to, sit and stand desks, office chairs, workstations, desktop accessories, ergonomic accessories, mounting hardware, printer and scanner accessories, as well as office basics and tools, calculators, document scanners, document cameras, charging carts, and more.

Classroom Design

Whether the City of Mesa and OMNIA Partners Participating Public Agencies are creating a space that supports individual study, large group work, or putting together makerspaces for STEM/STEAM students, the possible classroom layouts and technology configurations are endless. Whatever you're trying to achieve, CDW•G can make IT happen.

In fact, CDW Blueprint to Design® is an ideal tool to help districts, schools, and teachers reimagine their classrooms and building space to maximize learning outcomes. The program was created in 2017 and helps educators navigate the addition of classroom IT products and technology, alongside stationary and modular classroom furniture, and create collaborative learning environments. Since then, more than 900 K-12 schools and universities have participated in the program.

Our Education Strategists, teamed with our CDW•G Solution Architects and Account Team, work together to help educators figure out the best classroom design for their space, ensuring space maximization aligned with the desired purpose. Since CDW•G is vendor-neutral and has an extensive product offering, we recommend the best vendor for that given classroom, school, or district.

Success Story: Rochester City School District

Background

Leaders of the Rochester City School District (RCSD) came to a few important conclusions several years ago: they needed to modernize instruction, they wanted education to be engaging and interactive, and redesigned learning spaces would be a big piece of the puzzle. Like many innovative schools, RCSD envisioned a classroom with comfortable seating, modular furniture that can suit a variety of instructional needs, and technology that includes mobile devices, Wi-Fi, and digital displays. To create the proof of concept, the district turned to CDW's Blueprint to Design.

Engagement and Solution

Early on, RCSD leaders met with CDW•G Account Managers and an Educational Strategist to discuss their objectives. The CDW•G team shared those findings with designers, who created several choices for RCSD to review, including full-color, 3D renderings. The district also wanted flexible furniture and a variety of seating for all grade levels.

District leaders were impressed with CDW•G's design work, and once they settled on a plan, they built a 25-by-24-foot modern classroom that is stylish, colorful and airy. In one configuration, two sets of curved desks are arranged in a circle, so students can work individually or in groups. RCSD also equipped the room with a cart of 30 Chromebooks, fast Wi-Fi through a Cisco Systems access point, a MakerBot Replicator 3D printer and table-level charging stations. Two 75-inch Triumph interactive flat-panel displays hang on the walls, flanked by a table and soft-cushioned, rainbow-colored stools.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Students roam around the classroom to collaborate and problem-solve. They use Chromebooks, but they also use pencil and paper. Every desktop doubles as a dry-erase board, so students can jot notes and sketch on their desks.

Outcome

Rochester's new modern classroom has garnered rave reviews from students and teachers. The room hosts fifth graders from around the district for internet safety and digital citizenship classes. Older students use the space after school for online credit recovery.

As district leaders hoped, the classroom has inspired educators to reimagine other learning environments, including libraries and makerspaces.

Read more about how CDW•G helped RCSD design a custom learning environment here.

EXHIBIT 5 – RETURN POLICY

Firms Method and Approach

Question 13.e. State any return and restocking policy, and any fees, if applicable associated with returns.

The following 3 pages contain CDW's full return policy.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW PRODUCT RETURN POLICY

Seller offers a 30-day return policy on most products sold. Manufacturer restrictions apply to certain merchandise, as detailed below and as updated from time to time. Customer may obtain additional details and any applicable updates from the dedicated Seller account manager and may obtain manufacturer contact information by contacting CDW Customer Relations, which may be reached by calling 866.SVC.4CDW or by emailing returns@cdw.com.

1. Return Restrictions.

- Defective Product Returns. Customer may return most *defective* Products directly to Seller within fifteen (15) days of invoice date and receive, at Seller's option, credit, replacement, exchange, or repair. After fifteen (15) days, only the manufacturer warranty applies.

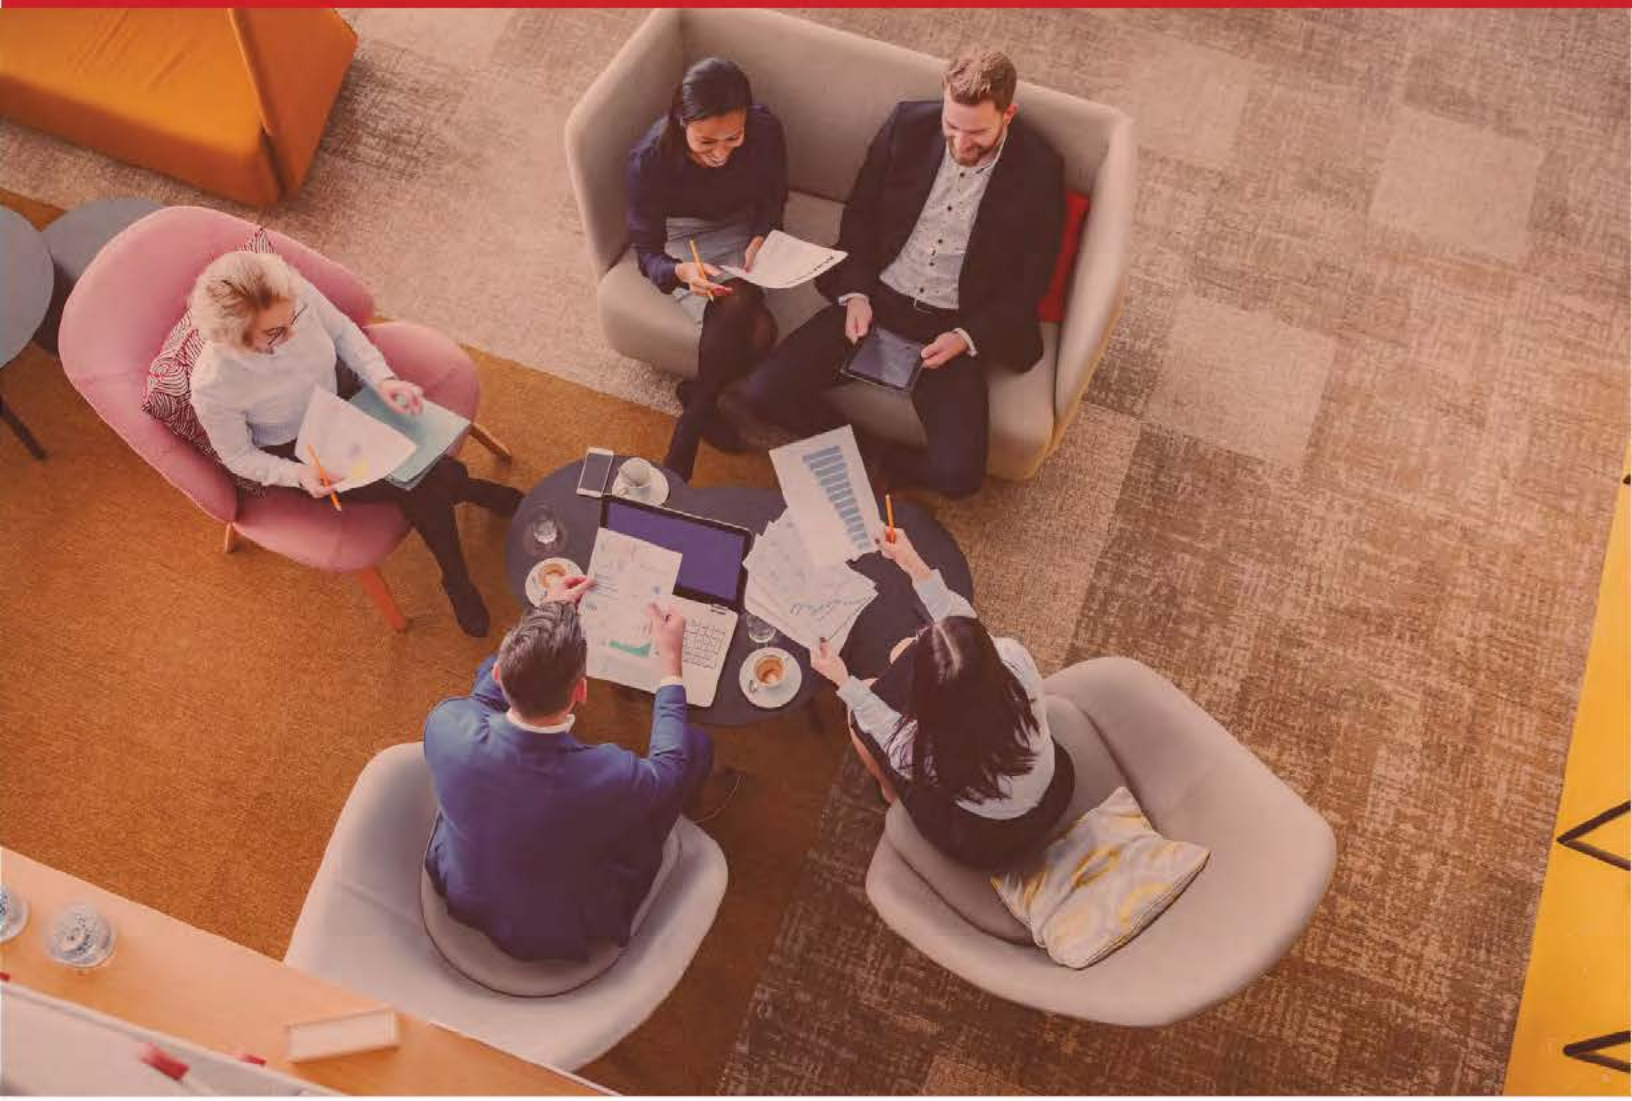
- Non-Defective Product Returns. Customer may return most *non-defective* Products directly to Seller within thirty (30) days of invoice date and receive, at Customer's option, credit or exchange, except that an automatic Seller restocking charge will reduce the value of any such credit or exchange by a minimum of fifteen percent (15%).

- Restricted, Repair-Only Returns. Certain Products can only be returned for repair—not for exchange, replacement or credit—based on current manufacturer requirements. Such Products should be returned to Seller, shipped directly to the manufacturer, or taken to an authorized service center in Customer's vicinity. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.

- Restricted, Manufacturer-Only Assistance. Certain Products cannot be returned to Seller for any reason—without exception—and Customer must contact the manufacturer directly for any needed assistance. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.

- Special Orders. Products that are specially ordered may be non-returnable or may have unique return restrictions provided at the time of sale. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.

- Return of Software or DVDs. Seller offers refunds only for unopened, undamaged software and DVD movies that are returned within 30 days of invoice date. Seller offers *only replacement* for software products and DVD movies that either: (i) are defective but are returned *within* thirty (30) days of invoice date; or (ii) are unopened and undamaged, but are returned *more than* 30 days after invoice date; such replaceable merchandise may be exchanged only for the same software or DVD movie title. Multiple software licenses may be returned for refund or exchange *only* (i) if specifically authorized in advance by the manufacturer; *and* (ii) if returned *within* thirty (30) days of invoice date.



2. Customer Shipment of Returned Merchandise.

- Return Merchandise Authorization (RMA) Number. No returns of any type will be accepted by Seller unless accompanied by a unique RMA number, which Customer may obtain by providing the following information to CDW Customer Relations: customer name, applicable invoice number, product serial number, and details of Customer's issue with the product. Customer has five (5) days to return a Product after the applicable RMA is issued. CDW reserves the right to refuse any UNAUTHORIZED returns: those that occur after the five (5) day period or those involving Products that are unaccompanied by valid RMA's.

- Returned Products Must Be Complete. All Products *MUST BE* returned one hundred percent (100%) complete, including all original boxes, packing materials, manuals, blank warranty cards, and other accessories provided by the manufacturer. CDW reserves the right to refuse the return of incomplete Products. In addition, CDW will charge a minimum fifteen percent (15%) restocking fee for returns that are accepted.

- Responsibility for Shipping Costs. Customer is responsible for the cost of shipping returned items; Seller is responsible for the cost of shipping replacements or exchanges of returned items and will match Customer's shipping method.

- Customer Shipping Insurance. Customer is strongly advised to purchase full insurance to cover loss and damage in transit for shipments of returned items and to use a carrier and shipping method that provide proof of delivery. Seller is not responsible for loss during such shipment.

TAB E
PRICE INFORMATION

PRICE INFORMATION QUESTIONS

Price Information completed and included. Should be saved as Excel and PDF.

Pricing information is provided below.

National Discount Off List Price

A. Propose a national discount off list price pricing structure. These are the minimum discounts Supplier will offer to Participating Agencies.

CDW•G is pleased to offer the City of Mesa and OMNIA Partners Participating Public Agencies a discount off CDW•G Nationally Advertised Pricing (NAP) structure for all Products in Attachment A. The percentages represent the minimum discounts the City of Mesa and OMNIA Partners Participating Public Agencies will benefit from for the duration of the contract. On a case-by-case basis and for large rollouts/projects, CDW•G will work with OMNIA Partners Participating Public Agencies to provide deeper discounts.

The benefit of using CDW•G's NAP is that it is a publicly available (24/7) and verifiable price schedule, and you can feel confident that its pricing is both up-to-date and competitive.

We have continued to see the technology solutions evolve and OMNIA Partners Participating Public Agencies' diverse needs change. Cloud offerings are constantly evolving and increasingly complex, with a range of subscription and consumption-based offerings, SaaS, IaaS, PaaS, among others. CDW•G's pricing is based on Discount 0% off MSRP where available to CDW•G. In cases where MSRP pricing is not available and/or the offering is unique, pricing will be based on CDW•G invoiced price. This structure provides the necessary flexibility to enable the City of Mesa and OMNIA Partners Participating Public Agencies to make purchases of offerings, as cloud offerings evolve, through the life of our contract.

For Services under group 11, we have included rate cards with hourly rates. For group 12 and other specialized offerings not specifically contemplated in this RFP but existing under the scope of Technology offerings, CDW•G and OMNIA Partners Participating Public Agencies will mutually agree upon/execute document, such as a Statement of Work (SOW), and pricing will be based on CDW•G invoice.

Prices include lowest ground freight within the 48 contiguous United States when referencing this Agreement. All orders are subject to CDW•G's standard shipping policies in effect at the time of order placement. In those instances that call for express or overnight delivery, shipping costs will be pre-paid by CDW•G and added to the customer invoice.

Our offer is based on our response submitted on December 20, 2023, to the exceptions outlined in Exhibit A, Response for National Cooperative Contract and Exhibit B, Administration Agreement, Example.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Catalog or Index

B. Describe the catalog or index that discounts will be taken.

CDW•G publishes, maintains, and provides access to NAP at www.cdwg.com available 24/7. The single most important parameter in a price model is the reference point from which discounts are calculated.

Competitive Price Analysis

The City and OMNIA Partners Participating Public Agencies can trust that the pricing is competitive with other large-scale contracts. As stated above, by tying your pricing to the CDW•G's NAP reference point, we ensure real-time market-based competitive pricing for purchases over the life of the agreement. To ensure our competitiveness, CDW•G monitors competitive pricing, market trends, supply chain forecasts, and a holistic view of the IT marketplace to ensure our NAP pricing benefits the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G's proprietary technologies along with dedicated pricing experts ensure CDW•G's NAP pricing is adjusted to be price competitive.

Manufacturer Pricing

C. Describe any special manufacturer pricing available to Participating Agencies.

CDW•G's catalog offers access to all manufacturers. As a $25 billion solution provider, we have strong partnerships with the largest and most innovative manufacturers. This ensures our NAP pricing for all the manufacturers is inclusive of our economies of scale, relationship, and position in the marketplace. For specific scenarios, such as large volume purchases/projects, CDW•G will work with the manufacturers to secure deeper discounts. Analyzing the purchase history of the City of Mesa and OMNIA Partners Participating Public Agencies, we are confident in our ability to continue to work with your preferred manufacturers to provide a competitive offering through the life of the contract.

Special/Large Order Pricing

D. Describe any special large order or large customer pricing or additional discounts available to Participating Agencies.

CDW•G has worked with numerous OMNIA Partners Participating Public Agencies during the current contract to obtain deeper discounts and account for budget constraints. In addition, we take advantage of manufacturer promotions, and volume purchases to provide maximum benefit to the City of Mesa and the OMNIA Partners Participating Public Agencies.

Additional Discounts

E. Describe any products offered by Supplier that are not captured in the pricing matrix below. Describe how Supplier proposes to price those items.

As technology offerings are constantly evolving, and becoming increasingly complex, specialized requirements not contemplated under this RFP, will be identified in a Statement of Work or similar document(s) and mutually agreed/executed between CDW•G and OMNIA Partners Participating Public Agencies. The pricing will be determined based on CDW•G invoiced price.

TAB F
OMNIA PARTNERS' DOCUMENTS & REQUIRED RESPONSE FORMS

3.1 COMPANY

Supplier must supply the following information for the Principal Procurement Agency to determine Supplier's qualifications to extend the resulting Master Agreement to Participating Public Agencies through OMNIA Partners.

History

A. Brief history and description of Supplier to include experience providing similar products and services.

About CDW•G

Founded in 1984, CDW LLC (CDW) is a leading provider of technology solutions to over 250,000 customers composed of small-, medium-, and large-sized public and private entities. CDW Government LLC (CDW•G) is a wholly owned subsidiary of CDW, incorporated in 1998 to address the specific needs of our government, education, and healthcare customers. As such, we have been providing similar products and services for nearly 40 years. Our broad array of products and services ranges from hardware and software to integrated IT solutions such as security, cloud, hybrid infrastructure, and digital experience.

Figure 11. US Office Locations

Our unique company structure provides the City of Mesa and OMNIA Partners with products and services only a large national reseller can provide, combined with a local presence typical of a small business. Account Teams are segmented by agency type, Education (K-12/Higher Ed), or Government, and by region. To provide the City of Mesa and OMNIA Partners with one contact who is knowledgeable of every nuance of their organization, every customer has a dedicated CDW•G Account Manager as your primary point of contact. Customers in the largest markets also have the support of a local Advanced Technology Account Executive (ATAE) in the field.

CDW•G is one of the largest technology solution providers in the US, currently carrying more than 100,000 name-brand technology products from over 1,100 leading IT manufacturers and software publishers. We have a large original equipment manufacturer (OEM) and software publisher presence in our offices across the country and are strategically supported in the field with our Advanced Technology Account Executives. CDW•G delivers more than just products; we deliver IT solutions and services in a manner consistent with procurement guidelines and the City of Mesa and OMNIA Partners Participating Public Agencies' preferences. With subject matter experts to advise on the right IT solutions and the purchasing avenues to accommodate efficient and seamless procurement, CDW•G offers flexibility in how customers engage with and buy from us. We pride ourselves on our innovation and a ceaseless desire to deliver an excellent customer experience.

We have over 15 years of experience managing OMNIA agreements. Through our contract management capabilities and nationwide state, local, and education (SLED) sales force, we have successfully expanded contracts and member utilization rates. We hold 3 master

agreements, which include Region 4 ESC – TX - Technology Solutions, Products and Services, City of Mesa - Information Technology Solutions & Services, and Region 4 ESC – TX – Total Cloud Solutions. Additionally, we maintain ongoing strategic cadences with OMNIA Partners to drive contract utilization through enablement and marketing activities. Under our existing contract with the City of Mesa and OMNIA Partners, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and 2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements.

Local Focus and National Presence

Our customers are the center of all we do at CDW•G and the fuel behind our initiatives, solutions, and services. Part of our dedication to our customers is a sales and service force best suited to the needs of customers. With a local presence and national reach throughout the US, our team is ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies. We have coworkers in offices and remote locations in or near every major city in the US.

Cooperative Experience

Not only is our sales force well-versed in growing contracts, but they are also experienced in promoting cooperative contracts. We believe the contract structure that the City of Mesa and OMNIA Partners offer, combined with our expertise in promoting dynamic procurement solutions with our broad customer ecosystem, offer a unique opportunity to optimize contract adoption and growth. Collectively, we remove the complexity of procurement and technology that government agencies often encounter.

Additionally, CDW•G's Program Management Team is singularly devoted to managing contracts. Its responsibilities are separate from those held by account managers. Members of the Program Management Team work full-time to maintain contract compliance, reporting requirements, and administer contract procedures, including contract launch. CDW•G invests in these resources based on our understanding that contracts are complex commitments. We look forward to the possibility of continuing to work with the City of Mesa and OMNIA Partners Participating Public Agencies to apply best practices and lessons learned from our cooperative experience to further this evolution.

National Salesforce

B. Total number and location of salespersons employed by Supplier.

CDW•G currently employs more than 15,000 coworkers globally, with 51 different locations nationwide. Located across the US, CDW•G has more than 1,500 Account Managers and Advanced Technology Account Executives forming Account Teams segmented into four verticals: Higher Education, K-12 Education, Federal Government, and State and Local Government. Below, the City of Mesa and OMNIA Partners Participating Public Agencies can find visuals to how CDW and CDW•G's State and Local Government (SLG), K-12 Education, Higher Education (Higher Ed), Healthcare, and Federal sales teams are regionalized across the US.

Annual Sales

D. Annual sales for the three previous fiscal years.

In 2022, CDW generated nearly $24 billion in revenue, which positions CDW as a leader in our industry. Our continued financial stability serves to assure the City of Mesa and OMNIA Partners Participating Public Agencies that we are here to stay and can support you through the life of this contract and beyond.

Year	CDW Revenue	CDW•G Revenue
2022	$23.7 Billion	$8.6 Billion
2021	$20.8 Billion	$8.2 Billion
2020	$18.5 Billion	$8.2 Billion

We believe the major factor that ensures our financial stability and separates us from our competitors is the balanced approach to our business. This approach includes:

- **We don't rely on any one customer.** In our US business, which represents approximately 90% of our revenues, we currently have five dedicated customer channels: corporate, small business, government, education, and healthcare, each of which generated $1.9 billion or greater in Net sales in 2022. Net sales to customers in the UK and Canada combined generated $2.9 billion in 2022. We believe this diversity of customer end-markets provides us with multiple avenues for growth and has been a key factor in our ability to weather economic and technology cycles and continue to gain market share.
- **We don't rely on any one partner.** In 2022, we generated over $1.5 billion of Net sales from each of our five largest vendor partners. We have received the highest level of certification from major vendor partners such as Cisco, Dell EMC, Hewlett Packard Enterprise, IBM, Microsoft, NetApp, Nutanix, Palo Alto Networks, Samsung, and VMware which reflects the extensive product and solution knowledge and capabilities

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

that we bring to our customers' IT challenges. These certifications also provide us with access to favorable pricing, tools, and resources, including vendor incentive programs, which we use to provide additional value to our customers. Our vendor partners also regularly recognize us with top awards and select us to develop and grow new customer solutions.

- **We don't rely on any one solution.** Our sales span a number of categories, including Miscellaneous Hardware (19.9%), Software (15.5%), Notebooks/Mobile Devices (26%), Netcomm Products (11.5%), Services (7.8%), Video (7.5%), Desktops (5.4%), Enterprise and Data Storage (5.8%) and others.

We simplify the complexities of technology solutions across design, selection, procurement, integration, and management for our customers. Our goal is to have our customers, regardless of their size, view us as a trusted adviser and extension of their IT resources. Our multi-brand offering approach across our vendor partners enables us to provide the solutions and services that best address each customer's specific requirements to enable their desired business outcomes.

The City of Mesa and OMNIA Partners Participating Public Agencies can be confident that CDW•G's experts will be around to address questions or concerns, provide additional equipment, and assist with enhancements or new technologies.

For more financial information, please visit our investor relations page: http://investor.cdw.com/.

FEIN and Dunn & Bradstreet Report

a. Submit FEIN and Dunn & Bradstreet report.

CDW•G's FEIN is 36-4230110. The City of Mesa and OMNIA Partners can find a copy of our Dunn & Bradstreet Report at the end of this section in Appendix 1.

Environmental Initiatives and Policies

E. Describe any green or environmental initiatives or policies.

Overview

CDW•G is committed to being a good steward of the environment and earth's natural resources. We strive to continuously improve our own environmental performance while growing our business and supporting our partners and customers. Given our role in the technology sector as a leading multi-brand technology solutions provider, our greatest opportunities to impact the environment lie in collaborating with our supply chain and working with our partners and customers to help them achieve their environmental goals. This includes continuing to expand our offering of sustainable and socially responsible technology products and solutions.

CDW•G understands and supports the City of Mesa and OMNIA Partners Participating Public Agencies' desire to encourage suppliers to incorporate sustainable practices throughout their business operations. As evidenced by our practices outlined in the following paragraphs, we also emphasize integrating environmentally conscious procedures into our everyday operations, and we continually strive to find new ways to reduce our carbon footprint.

2022 Environmental Highlights

In 2022, we made significant progress on our environmental priorities, including climate action, energy efficiency, and waste reduction.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

For instance, we worked with several vendor partners and Procurri to introduce a new carbon offset program. Additionally, Igneo Technologies, a Proccuri partner, began handling downstream processing of our e-waste. The global company specializes in returning critical metals such as copper, gold, silver, and palladium back into the supply chain.

When replacing our own technology devices, we seek to minimize our environmental footprint by finding reuse opportunities for our equipment. At our headquarters in Illinois, we have grassroots, coworker-led initiatives to provide veterans groups, underserved communities, and other organizations with access to our gently used equipment.

Other notable highlights from 2022 include the following:

- Created our Climate Task Force and worked with outside experts to develop our long-term, enterprise-wide climate strategy and action plans
- At our two US distribution centers, we outperformed our waste diversion goal of +90% for the fourth year in a row and recycled thousands of tons of packaging material, cardboard and paper
- Enabled online searchable access for customers to an expanded portfolio of environmentally certified products (Energy Star, EPEAT and TCO Certified) and a broad range of cloud-based solutions that improve energy efficiency
- Expanded our IT Asset Disposition (ITAD) program, which facilitates the recovery and recycling of devices that are no longer being used – to benefit the environment and protect the security of users' data
- Maintained our environmental management system and energy certifications in the US, Canada and UK

Our Facilities

All CDW•G distribution centers hold ISO 14001 certification, which is the international standard for Environmental Management. This certification ensures consistency and effectiveness in our Environmental Management System (EMS) and demonstrates our long-established commitment to managing our business responsibly.

These certifications ensure consistency and effectiveness in our EMS and demonstrate our long-established commitment to managing our business responsibly. We continue to utilize a wide variety of energy efficiency measures, such as LED lighting and motion sensors, across our company. In addition, for the fourth year in a row in 2022, our two US distribution centers surpassed our goal for a waste-to-landfill diversion rate of more than 90%, which is consistent with our facilities' ISO 14001 certification.

We continually develop our green efforts in compliance with ISO 14001 standards. Doing our part to sustain a healthy planet is critical to the well-being of our coworkers, customers, communities, and business. Our efforts are inspired and led by coworkers around the globe as we strive to do our part for the environment.

Our environmental policy and EMS define the structure, practices, and procedures for our environmental program. As part of our commitment to continuous improvement, we regularly evaluate the efficiency of our use of natural resources. We seek to identify and address opportunities to improve by reducing waste in landfills through enterprise-wide recycling initiatives, implementing innovative packaging solutions, and integrating principles of environmental responsibility throughout our business.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Coworker Initiatives to Protect the Environment We Share

At CDW•G, we recognize our part in responsible environmental management and conservation of resources. One of the ways we demonstrate our commitment to environmental management and the principle of sustainable development is through our beGreen program. The beGreen program provides CDW•G coworkers with a platform to reduce, reuse, and recycle to make our operations leaner, more efficient, and more environmentally responsible. Our beGreen program continues to provide coworkers with a platform to share ideas and take collective action to protect our environment. The program is managed by a cross-functional team of coworkers from multiple CDW•G locations, and participation continues to be strong since its inception 13 years ago.

Our coworkers continue to be active participants in their local communities' efforts to address environmental sustainability. CDW•G initiated a partnership with Soles4Souls, an organization that redirects unwanted shoes away from waste streams to communities in need.

Energy Management and Climate Action

Energy Efficiency

We track our energy management performance on an ongoing basis and continue to seek ways to drive further efficiencies. As part of our ISO 14001 certification, we maintain a three- to five-year window of visibility to identify, assess, and plan for the implementation of additional energy efficiency improvements. As a part of our regular evaluation, we conduct in-depth internal audits and self-assessments to support continual improvement. We review our significant environmental impacts each year and set targets to reduce them. We track our energy usage each year and continually look for ways to reduce it.

To achieve the ISO 14001 certification, we were required to provide significant details regarding our procedures for the following:

- Chemical handling, storage, and labeling Universal waste (old computer equipment)
- Stormwater and transportation spills, oils, lubes, and forklift batteries
- Electrical usage
- Paper and cardboard
- Lithium-ion battery management

Our ability to directly impact our energy usage is somewhat limited by the fact that we lease the majority of our global real estate footprint.

Specific energy efficiency efforts include:

- Energy-efficient lighting solutions, including indoor and outdoor LED lighting
- Motion sensor lighting and conveyor systems that turn off in response to inactivity
- ”Smart” HVAC systems that adjust according to business hours and seasonal temperatures
- Water consumption solutions, including rainwater harvesting efforts in the UK and environmentally friendly water heaters in the US
- Solar panel usage at two of our UK locations

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

Carbon Emissions

We are also working with our third-party shipping and logistics partners to develop transportation management systems and delivery schedules that help them increase their own energy efficiency, which helps to reduce our transportation-related emissions. Currently, approximately 98% of our US shipments are delivered by carriers enrolled in the US EPA SmartWay Transport Partnership, which helps companies advance supply chain sustainability by measuring, benchmarking, and improving freight transportation efficiency, and more than 72% of our US shipments are handled by carriers with climate goals.

EPA Green Power Partnerships

CDW•G participates in the United States Environmental Protection Agency's Green Power Partnership program. In 2008, we began purchasing 100% green power for our two data centers in the Madison, Wisconsin, area through the Madison Gas and Electric (MGE) Green Power Tomorrow program. We purchase almost 12 million kilowatt-hours per year of renewable energy from MGE, making CDW•G the largest private buyer in the program.

Transportation Initiatives

Approximately 98% of our US shipments are delivered by carriers enrolled in the US EPA SmartWay Transport Partnership, which helps companies advance supply chain sustainability by measuring, benchmarking, and improving freight transportation efficiency. We also have programs aimed at consolidating freight volume and reducing the number of shipments and vehicles needed to complete a delivery, which enables our carrier partners to reduce carbon emissions. These global programs include:

- UPS Trailer Utilization, which reduces the number of truck movements needed to deliver freight by creating direct-lane pulls from our distribution centers to customers in a common area
- Best Way (Logistics Specialist Solution), which reduces the number of trailers needed to ship an order by consolidating multiple orders into a single truckload

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

In addition, as part of our ongoing environmental impact assessment, we analyzed the Environmental, Social, and Governance goals and performance of our transportation and logistics partners.

Materials Efficiency

Reducing Waste to Landfill

CDW is committed to supporting the circular economy and responsible consumption through materials efficiency and a reduction in waste to landfill. While we have a wide variety of recycling and reuse programs across our office and warehouse facilities, our largest impact is in two areas: reducing distribution center waste from packaging and other materials and managing electronic waste.

OVER THE LAST SIX YEARS, OUR US DISTRIBUTION CENTERS HAVE RECYCLED:

2,966 TONS
OF PACKAGING MATERIAL

9,794 TONS
OF CARDBOARD

636 TONS
OF PAPER

THOUSANDS
OF WOOD AND PLASTIC PALLETS

For the third year in a row, CDW's US distribution centers outperformed their waste diversion goal of **90%+**.

In addition to addressing packaging waste and electronic waste, our other efforts include:

- Use of digital documentation when possible and recycling shredded paper documents if they are used
- Recycling and composting of cafeteria waste
- Elimination of plastic bottles from vending machines in our offices and warehouses
- Elimination of single-use plastic cups
- Company-wide internal toner cartridge recycling program
- Recycling centers on each floor of our office locations
- Recycling chutes for certain materials at our distribution centers
- Collaboration across procurement functions to reduce the need for consumable supplies and increase recycling possibilities across our offices

IT Asset Disposition Services Ensure Proper Disposal of E-Waste

CDW•G's IT Asset Disposition teams offer our customers proper device wiping, removal, evaluation, and recycling services for devices that are no longer being used. Proper asset disposition involves completely and securely wiping devices of sensitive data and environmentally responsible recycling and disposal of e-waste. For any devices of value, we provide a buyback rebate on the customer's account.

Our process is certified by e-Stewards, which:

- Prohibits the export of hazardous waste to developing countries
- Requires a certified ISO 14001 environmental management system
- Prohibits all toxic waste from being disposed of in landfills and incinerators
- Prohibits the use of prison labor in handling sensitive data and toxic electronics

In addition, when replacing our own devices, we seek to minimize our environmental footprint by finding a reuse opportunity for our used equipment. At our headquarters in Illinois, we have had grassroots, coworker-led initiatives to provide veterans groups, underprivileged communities, and other organizations access to our gently used equipment.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Smart Packaging Solutions

At our distribution centers, we utilize several packaging processes that address environmental considerations while still meeting and exceeding customer expectations. Our solutions include the following:

- Using and reusing our vendor partners' packaging when possible, minimizing the need for additional packaging materials when fulfilling customer orders.
- Redesigning our cartonization process to utilize algorithms that consider dimensional fit (a more accurate method than volume fit), which enables us to use the least amount of packaging possible.
- Using envelope shippers that are 100% recyclable and provide warehouse and shipping space efficiencies for small items.

Additionally, our pick-pack shipping containers are made from the maximum allowable amount of post-consumer recycled material and are 100% recyclable.

We continue to work with our vendor partners and logistics suppliers to evaluate opportunities for smarter packaging solutions that maximize both product protection and material efficiencies.

Environmental Considerations: Partners and Customers

We continue to elevate our role in sustainable and socially responsible technology by working with our technology partners to promote their environmentally certified products and solving for our customers' outcomes around their ESG goals and priorities.

In 2022, CDW•G made it easier for our sales teams and our customers to identify and select from a broad range of environmentally certified products (Energy Star, EPEAT, and TCO Certified) and cloud-based solutions that deliver added energy efficiency. Our e-commerce sites enable customers to filter their online catalog search to identify and buy third party-certified products, and our sales teams are trained to assist clients with finding and selecting these products.

Our goal is to be able to offer our customers a full stack of solutions that addresses a broad spectrum of environmental considerations. In addition to third party-certified products, we are enhancing our ability to deploy and configure products remotely to reduce the environmental impacts of packaging and transportation and offering device recovery and recycling programs to reduce electronic waste from products that need to be replaced.

EPEAT Compliance

CDW•G assists customers in determining environmentally preferable products in many ways, including:

- Providing website specifications for each product details; i.e., EPEAT and/or Energy Star compliant and specific power consumption data, where available
- Providing a portfolio of manufacturers that are committed to producing environmentally friendly technology and that have programs and policies that support their commitment.
- Offering products that meet the evolving standards associated with the Environmentally Preferable Purchasing Program (EPP) and the IEEE 1680 Standard for the Environmental Assessment of Personal Computer Products
- Training our sales teams on the requirements of Executive Order 13101 Greening the Government Through Waste Prevention, Recycling, And Federal Acquisition

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW•G is committed to protecting the environment by continuing to manage our business with increased efficiency and understanding the full extent of our environmental impact. While we strive for continuous improvement in the environmental performance of our operations, we recognize our greatest opportunities to impact the environment lie in our supply chain and our ability to work with our partners to address issues such as climate change and waste reduction. More than ever, we are focused on working with our partners and outside experts to evaluate our environmental impacts and opportunities.

Protecting Forests through Responsible Paper Consumption

Through our Printer Supplies Program, CDW•G customers are offered complimentary enrollment in PrintReleaf, a third-party certification program that empowers organizations to sustain and grow global forest systems through:

- Ongoing measurement of paper consumption
- Custom paper footprint and forest impact insights
- Opportunities to automatically "re-leaf" forests through reforestation projects of the customer's choosing

Since we joined the program in June 2018, CDW customers have collectively offset the equivalent of more than 1.2 billion standard pages of paper consumption by supporting the reforesting of more than 140,000 trees.

CDW is also working with partners on programs to help customers better manage their print needs and costs and stay within their corporate policies for sustainability. The goal of the PrintReleaf program is to deliver on the potential for Forest Positive Printing – to enable customers to be responsible for planting more trees than their printing uses.

Business Diversity Program

F. Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.

Business Diversity Program – Overview

When you partner with CDW•G, you are partnering with a company where business diversity is a deeply embedded, ongoing priority. Since the inception of our Business Diversity Program in 2007, we have sought to promote diverse supplier participation representative of our customers and communities that contributes to sustainable economic growth. CDW•G is prepared to help the City of Mesa and OMNIA Partners Participating Public Agencies around the US meet their diversity goals. We're committed to simplifying the complexity of Business Diversity for the City of Mesa and OMNIA Partners Participating Public Agencies.

While we are woman-led with our CEO Chris Leahy, we are not a minority- or woman-owned business enterprise. Because we are not a large corporation with our own M/WBE certification, CDW•G has the opportunity to invest in small and diverse businesses. As a result, **we drive job creation** and **contribute to lasting economic** empowerment in communities across the US. Our focus is creating a meaningful sourcing plan with minority, small, local, veteran-owned, and other diverse suppliers. We have the privilege, opportunity, and responsibility to partner with diverse suppliers and bring them with us to the City of Mesa and OMNIA Partners Participating Public Agencies' opportunities. In our experience, customer diversity initiatives are not always

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

met by one or two specific certifications; these initiatives are met through partnership and collaboration.

Results of the CDW Business Diversity Program

Partnering strategically with diverse and small businesses enables us to keep providing the industry's best experience while contributing to economic growth in diverse communities nationwide. We look forward to continuing to grow our practice and support local businesses as our practice continues to grow. Since 2007, we have spent $25 billion, $3.6 billion in 2022 alone, with certified small, diverse suppliers, and we currently feature over 1,400 small and diverse suppliers who we actively partner with on a regular basis. Of the $3.6 billion in 2022, $2.3B was solely from CDW•G.

In 2019, we became a member of the Billion Dollar Roundtable (BDR), joining an exclusive group of 40 US-based companies procuring more than $1 billion annually from minority- and women-owned businesses on a first-tier basis.

In 2021, industry-leading research IT research firm and consultancy, Gartner, conducted a case study on CDW's Business Diversity Program for procurement leaders. They concluded the following: *"CDW's supplier diversity team enables business partners to retain the best-fit diverse suppliers for new sourcing needs by providing targeted business-relevant information gathered from past supplier engagements."* Our comprehensive Business Diversity Program ultimately allows procurement officials to be confident in incorporating small and diverse suppliers into their supply chain.

MBE Testimonial – KNZ Solutions

KNZ Solutions, a certified minority-owned business, was founded in 2017 by Khaled Mussa. Here's what KNZ has to say about their partnership with CDW•G:

"CDW•G has been an invaluable support to KNZ Solutions. Their commitment to fostering collaboration and nurturing partnerships truly sets them apart. Their expertise, resources, and unwavering dedication played a pivotal role in navigating the challenges inherent in our industry. *The impact of this partnership extends far beyond the bottom line – KNZ's employee count increased, and jobs were created.* Our partnership has not only elevated our business but has also reinforced our belief in the transformative power of meaningful partnerships. We look forward to continued success and growth together."

In 2022, we enhanced our national strategy across the US by welcoming supply chain experts to our growing team. These regional market leaders are focused on **building partnerships with local suppliers** and across our customer base. Their efforts have improved our agility and increased our effectiveness in identifying and mentoring new diverse partners. Additionally, this comprehensive approach enables us to gain a deeper understanding of the unique challenges, opportunities, and economies of scale present in each region. We use these real-time insights to inform and tailor our business diversity strategy, boosting both performance and impact.

In 2023, CDW hosted the BDR Summit, which is an annual gathering of BDR members to share our successes, best practices as well as opportunities for supplier diversity program growth.

Our 2022 Economic Impact across the United States is highlighted in the graphic below:

A partnership with CDW•G means that local communities across the US will continue to gain positive economic impacts.

Benefits

Benefits of our Business Diversity Program and incorporating small and diverse suppliers include the following:

Reach Small and Diverse Supplier Goals

CDW•G's comprehensive Business Diversity Program allows you to meet your goals quickly and efficiently. Meet the City of Mesa and OMNIA Partners Participating Public Agencies small, minority-owned supplier goals without having to invest time and resources into finding, evaluating and engaging them yourself. CDW•G has a comprehensive vetting process that ensures each small and diverse partner can meet our customers' quality and performance expectations.

Diversify Your Supply Chain

Partnering with small and diverse businesses allows the City of Mesa and OMNIA Partners Participating Public Agencies' to diversify your supply chain, boosting your resilience and agility in an unpredictable world.

First-Mover Advantage

With a broad network of small and diverse partners nationwide, the City of Mesa and OMNIA Partners can enjoy first-mover advantage when it comes to new, cutting-edge technologies.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Tier I and Tier II Programs

CDW•G is continuously developing other diverse partnerships to meet our customers' needs. These relationships include, but are not limited to, product manufacturers, distributors, and service providers nationwide who support direct (Tier 1) and indirect (Tier 2) fulfillment through presales and service engagements. We recruit diverse and disadvantaged partners locally and regionally since customer spending goals are typically tied to local laws and require the partner to be certified within their city or state.

These various engagement models allow the City of Mesa and OMNIA Partners Participating Public Agencies the choice to leverage the best suited diverse partner.

We realize that each customer has unique targets that require a thoughtful and dynamic approach to strategic sourcing. Our Business Diversity program offers a broad and robust partner network. The following are a few ways that CDW•G can support the City of Mesa and OMNIA Partners Participating Public Agencies in meeting your diverse supplier goals:

- Educate users on CDW•G's business diversity program and how to initiate a planning session.
- Conduct customer-focused planning sessions with your dedicated CDW•G Account Manager and Business Diversity program representative.
- Utilize information gathered from planning sessions to develop custom plans to achieve customer goals around Business Diversity.
- Perform ongoing engagement to adjust plans as necessary.

WBE Testimonial – BlackHawk Data

BlackHawk Data is a New York-based WBE founded in 2018. Read about the BlackHawk Data and CDW•G Partnership below:

"One of my primary go to partners has always been CDW. I knew if I went to them for advice, suggestions, and just to simply talk to, they would help me get through the start up phase. Well, they did more than that. Along with the local team in New York, the CDW Diversity Team helped me and made introductions to people around the US that I would not normally have met.

I do honestly owe a good amount of our success to the CDW Team. As without them, getting through some of the hardest and darkest times may not have been possible without them.

Because of partners like CDW, we have been able to grow the business to 45 people, hopefully, $60M in 2023, and become a CRN Triple Crown Winner.

My heart is full with love and continued support on building our relationship."

More insight into our Tier I and Tier II Programs are below:

The Tier I Program

CDW•G is continuously developing other small and diverse partnerships to meet the City of Mesa and OMNIA Partners Participating Public Agencies' Tier I needs. In fact, we offer an online registration tool where businesses can register for future opportunities with CDW•G. Our growing list of suppliers means that the City of Mesa and OMNIA Partners Participating Public Agencies can count on CDW•G to deliver against their diversity spending targets. CDW•G has also partnered with small and diverse leasing companies that can support the City of Mesa and OMNIA Partners Participating Public Agencies Tier I spend requirements. CDW•G's Tier I program offers a low-risk experience for agencies looking to achieve direct spend with small, disadvantaged businesses while upholding the highest standards of IT procurement.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

The Tier II Program

In an effort to foster even more opportunities for small, diverse businesses, CDW•G launched a Tier II Business Diversity Program in 2009 for its key manufacturing, distribution, and logistics partners. The program's goal is simple: to further opportunities for competitive small and diverse partners to supply goods and services to CDW•G and deliver them to our customers like the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G also provides Tier II reporting to customers that track their spending, ensuring that suppliers meet contract compliance and obligations. Our Tier II reports show the items that CDW•G purchased from diverse suppliers, all items that our customers purchased from CDW•G, and all items that CDW•G purchased from diverse suppliers to fulfil customers' orders directly. A major advantage to this model is the ability to recognize spend across multiple diverse firms by leveraging CDW•G's network of vetted hardware and software suppliers.

Notable Awards

Recent, notable awards that demonstrate our commitment to diversity include:

- 2023 Military Times Best for Vets: Employers List
- 2024 Military Friendly Employers award from Military Friendly
- 2023 Best Employers for Diversity – Forbes
- The Women's Business Enterprise National Council (WBENC) recently named CDW as one of its America's Top Corporations for Women's Business Enterprises (WBEs). According to the WBENC, this honor is the only national award recognizing corporations for world-class Business Diversity programs that reduce barriers and drive growth for women-owned businesses.
- CDW has been ranked 11th of Nasdaq 100 companies for its ESG reputation in December 2022

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Mentoring Programs

Mentorship and advocacy are integral components of our Business Diversity Program. It's one way we live up to our commitment to build stronger communities through economic inclusion. We have had numerous successes with mentor protégé programs with entities such as the City University of New York (CUNY) and Texas Tech University; these programs are designed to enhance diverse partners' capabilities, assist in meeting development goals, and improve their abilities to compete for and win contracts. With these programs, we are able to grow their businesses and relationships.

During the year, we expanded our partnership with Disability:IN, a leading nonprofit resource for business disability inclusion worldwide. As an Inclusion Works partner company, we're proud to mentor disability-owned businesses. Disability:IN's Inclusion Works program provides companies with a team of disability inclusion experts to help them create an inclusive culture while simultaneously developing a sustainable recruitment strategy.

WBE Testimonials – WBENC Conference

In 2023, CDW funded a booth for 15 woman-owned businesses at the annual Women's Business Enterprise National Council (WBENC) conference. This financial commitment directly impacted the growth of those businesses. Here's what two women had to say:

Pam Feld, CEO, WBE/MBE: The booth sponsored by CDW afforded me the opportunity to deepen existing corporate relationships and engage with a multitude of WBEs from all over the country. I came away with 2 RFPs, 4 potential speaking opportunities, and 6 meetings lined up for expanding relationships.

Mellissa Tong, CEO, WBE/MBE: I was really grateful that my talk at CEO Success Community Booth 718 was so well received that I got a recommendation to deliver a one-hour talk on Storytelling for Branding and Marketing for Maui's Economic Development Center in late April. Then, I was contacted by WBENC national to do a pitch workshop for them on May 5th. None of this would have happened without CDW's generous support of Booth 718 at WBENC in 2023.

Commitment to Helping Close the Digital Divide

One of CDW•G's core values and strengths is making technology work so people can do great things. However, we recognize that technology doesn't work equally for everybody, and reliable access to technology is often not equitable, resulting in a digital divide. We are determined to change this narrative and are passionate about closing this divide within our company and the communities we support. Through our Business Diversity Program, we are actively working towards digital equity and making a positive impact. Below are a few of the ways we work to close the digital divide:

Promoting Digital Equity

CDW•G prioritizes digital equity by providing products and services to sectors that need them the most, such as education, healthcare, and government. We firmly believe that closing the digital divide requires collaboration from all leaders, within and outside our organization. By partnering with like-minded organizations that share our commitment to digital equity, we can amplify our collective impact and bridge the gaps we see everywhere.

Business Diversity

Our Business Diversity Program is a critical differentiator for CDW•G, enabling us to deliver increasingly innovative products, services, and solutions to our customers. Since the inception of our business supplier program in 2007, we have actively sought to promote diverse supplier participation that aligns with the needs and values of our customers and communities. We take

pride in our comprehensive and active program, recognized as global champions for Business Diversity by esteemed organizations like Gartner, the Billion Dollar Roundtable, and WEConnect International. We also embrace the responsibility of sharing our experience and expertise with our customers and suppliers because we believe that when they succeed, we all win.

Driving Economic Empowerment in Communities

Investing in small and diverse businesses presents a unique opportunity to create jobs and contribute to lasting economic empowerment in our communities. With the global population becoming increasingly diverse, minority audiences are emerging as a significant target for companies, and diverse-owned businesses play a vital role in the small business sector.

Commitment to Fostering Equity

CDW•G is committed to fostering equity and ethical behavior throughout our global supply chain. Collaboratively with our customers and supplier partners, we believe in the power of community members as drivers of prosperous, resilient local economies, creating efficiencies throughout our global supply chain.

MBE Testimonial – Betis Group

Betis is a minority-owned systems integrator with 25 years of experience providing Information Technology consulting and solutions on a global scale. Here's what Betis had to say:

Betis and CDW have enjoyed a highly successful relationship since 2001. Thanks to CDW's successful contract win record, Betis provided project management, technical, and device installation services at more than 100 locations around the world. Over the last several years, our relationship [with CDW] has expanded as Betis helps support and deliver CDW's winning formula for gaining market share with private-sector customers who want to buy through a Tier-1 Diversity Supplier. The strategic collaboration between Betis and CDW has led to the acceleration of delivery and solutions for both our companies.

Social Impact

We are committed to making a long-lasting, meaningful difference through our global Social Impact program. With more than 80 social impact partners and as members of Tech for Good, we invest in technology that creates deliberate, positive social benefits. One recent partnership is with Compudopt, a national nonprofit that provides technology access and education to under-resourced youth. Our collaboration across the country aligns with our shared strategy of providing access to technology. Through local donation drives and employee engagement at Compudopt locations, we empower youth by repurposing personal, non-company computers and educating them about the potential of technology.

Goals

One of our priorities in 2023 is empowering our seller community with the knowledge and resources to engage with our customers about how each company's ESG goals intersect. These intersection points will help determine how to collaborate and advance their respective strategies. We're committed to simplifying the complexity of Business Diversity for our customers and partners, and we are ready to collaboratively solve their toughest challenges.

As a whole, CDW•G's Business Diversity Program goals are to increase procurement opportunities for direct and indirect spending with small, minority-owned, women-owned, veteran-owned, disabled-owned, and other small, disadvantaged businesses. The CDW philosophy on diversity extends beyond our coworkers, the customers we serve, and the communities we live in to include our valued supplier partnerships. Our commitment to strategically partner with qualified businesses enables CDW•G to continue to provide the best customer experience while contributing to economic growth in diverse communities.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW•G continuously seeks new partnerships that help our customers meet their small and diverse supplier goals and support local communities. In 2022, we enhanced our national strategy across the US by welcoming supply chain experts to our growing team. These regional market leaders are focused on building partnerships with local suppliers and across our customer base. Their efforts have improved our agility and increased our effectiveness in identifying and mentoring new diverse partners. Additionally, this comprehensive approach enables us to gain a deeper understanding of the unique challenges, opportunities, and economies of scale present in each region. We use these real-time insights to inform and tailor our business diversity strategy, boosting both performance and impact.

Diversity Pricing

The CDW•G pricing structure, inclusive of our proposed discounts, submitted in this proposal will not be changed if/when a diverse partner is engaged. Pricing information can be found in Tab E. Access to our robust Business Diversity Program is a no-cost value-added service.

Diversity Alliances and Certifications

In addition to being part of the Billion Dollar Roundtable, an important aspect of our Business Diversity program is our support and participation in various organizations and events focused on developing relationships and business opportunities within diverse communities.

We are a National Corporate Member of the National Minority Supplier Development Council, Inc., and The Women's Business Enterprise National Council. CDW•G supports other organizations, as well, which include:

- Chicago Minority Business Development Council, Inc.
- Women's Business Development Center of Chicago
- Minority Business Development Agency of Chicago
- National Veteran Owned Business Association
- National Gay & Lesbian Chamber of Commerce

Not only do we contribute financially to these organizations, but we also engage on advisory councils, attend and host events, and provide resources to support the organizations' focus on continued growth and success.

Business Diversity Success Story: University of Washington

Background

The University of Washington is a leading institution in terms of federal research funding, having received $1.63 billion in research awards in 2022. With such a significant investment comes the responsibility to adhere to diverse spend metrics and goals. Since 1983, the State of Washington has mandated that educational institutions adopt the state's diversitygoals to continue receiving state funding. In recent years, UW has made a strong commitment to expanding its diverse supplier base.

Partnership with MBE Mpulse

Through conversations with CDW•G's business diversity and sales teams, UW discovered a unique partnership between Apple, CDW•G, and Mpulse, a minority-owned technology reseller. This partnership enables higher ed institutions to procure Apple products through Mpulse as a 1st- supplier while leveraging CDW•G as a distributor within the supply chain.

Outcome

With Mpulse's expertise and e-procurement system integration capabilities, UW seamlessly shifted nearly $5M of annual Apple purchases through Mpulse and CDW•G, capturing Tier 1 minority-owned business spend through their e-procurement catalog. This helped UW maintain spend compliance and retain sources of federal and state funding and provided Mpulse exposure to a new geographical market, expanding their business in the process.

Certifications

G. Indicate if supplier holds any of the below certifications in any classified areas and include proof of such certification in the response:

CDW•G does not hold any of the below certifications.

a. Minority Women Business Enterprise

☐ Yes ☒ No

If yes, list certifying agency: _____

b. Small Business Enterprise (SBE) or Disadvantaged Business Enterprise (DBE)
☐ Yes ☒ No

If yes, list certifying agency: _____

c. Historically Underutilized Business (HUB)
☐ Yes ☒ No
If yes, list certifying agency: _____

d. Historically Underutilized Business Zone Enterprise (HUBZone)

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Subcontractors and Affiliates

H. List any relationships with subcontractors or affiliates intended to be used when providing services and identify if subcontractors meet minority-owned standards. If any, list which certifications subcontractors hold and certifying agency.

As needed throughout the contract, CDW•G may look to bring on additional vendors to continue to meet the needs of the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G has partnerships with more than 1,400 small and diverse organizations all across the US.

The way that CDW•G categorizes our subcontractors and affiliates is unique. CDW•G sometimes contracts with third parties to deliver services when there are constraints on our resources. Our Partner Services group manages these companies. These incorporate in-depth processes for determining who we work with. Our Partner Services team is comprised of Professional Service Managers and billable project managers who oversee partner management and project oversight. These service managers work directly and collaboratively with our operations team, which is comprised of billing administrators and project coordinators that are engaged at the deal level. Each partner receives a review throughout the year ranging from quarterly to yearly depending on their level of engagement with CDW•G along with engagement level surveys to manage and control quality. Partners are held to a minimum survey score to continue performing work for CDW•G.

Depending on the unique needs of each opportunity, the CDW•G Account Teams will work with OMNIA Partners Participating Public Agencies to develop a solution that is both comprehensive and strategic to the specific partner. The partner chosen will be specialized based on the work and needs of the customer. Details of the chosen partner will be provided to the interested party during scoping. Many of our partners include certifications as defined in our Diversity Programs section above, and listed additionally below:

- Minority Business Enterprise (MBE)
- Historically Underutilized Business (HUB)
- Women Business Enterprise (WBE)
- Lesbian Gay Bisexual Transsexual Business Enterprise (LGBTBE)
- Veteran Business Enterprise (VBE)
- US Business Leadership Network Disability Business Diversity Program (USBLN DSDP)
- Women-Owned Small Business (WOSB)
- Small Disadvantaged Business (SDB)
- Service-Disabled Veteran Owned Small Business (SDVOSB)
- Small Business
- HUBZone

Post-scoping, our services projects follow our Project Management Engagement Methodology which includes a heavy emphasis on communication among the parties to the contract, especially between CDW•G and the customer. These communication points include regular meetings and reports to monitor status, risks, issues, and plans.

Our manufacturing partners (such as Cisco, HP, and Microsoft) are considered subcontractors when they perform services engagements with us. We work very closely with our manufacturing partners and have many of their badged workers in our locations working with our engineering teams and brand managers. In this way, our CDW•G teams stay current with our vendor partner offerings as well as plans for product end-of-life and new product introductions. Our sales teams

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

meet with our manufacturing partners quarterly and participate in sales training regularly to stay up to date on their latest offerings and offer you the peace of mind that you have a knowledgeable sales staff supporting you.

Differentiators

I. Describe how supplier differentiates itself from its competitors.

CDW•G is a partner dedicated to walking next to our customers every step of the way in their technology journey. A significant priority in SLED IT initiatives is flexible, adaptable technology that can securely enable user needs. It's not enough to provide customers with access to products they want quickly and efficiently. Procurement and Information Technology officers need to understand their options, and SLED agencies need to know their products are securely sourced.

CDW•G is uniquely positioned to serve OMNIA Partners Participating Public Agencies and is differentiated in the following areas:

- Business diversity programs and local impact
- Experience with OMNIA and OMNIA Partners Participating Public Agencies
- Best-in-class contract management
- Technical innovation
- Secure supply chain and distribution model
- Depth and breadth of solutions across hardware, software, cloud, cloud marketplace, professional services, managed services, and staff augmentation
- Past performance of successfully guiding OMNIA Participating Public Agencies through technological and industry change
- Public sector expertise with dedicated sales and technical resources aligned by industry

Robust Business Diversity Program

CDW•G is proud of our Business Diversity Program, and we believe that the structure and depth of our program are significant differentiators for each of our customers. While we are not a M/WBE-certified company, our program seeks to empower diverse and local companies in the communities we serve nationwide. Instead of simply checking the box to meet requirements, we curate a unique network of quickly deployable diverse business partners. This approach embodies the goals of our customers by creating a multiplier effect that drives job creation and contributes to lasting economic empowerment in the communities we serve.

Our program allows the City of Mesa and OMNIA Partners to support their local communities through everyday IT procurement. We work closely with the City of Mesa and OMNIA Partners Participating Public Agencies to find qualified, small and/or diverse suppliers to meet your goals, based on your requirements and needs.

In 2022, CDW spent $3.6B with certified small, diverse suppliers, and we currently feature over 1,400 small and diverse suppliers who we partner with on a regular basis. As a testament to CDW•G's commitment to how frequently we help our public sector customers meet their diversity goals with qualified partners, $2.3B of the $3.6B (nearly 64%) in 2022 was solely from CDW•G.

OMNIA Partnership Experience

Our sales force is well-versed in growing contracts and is also experienced in discussing the value of OMNIA Partners contracts. We believe the contract structure that the City of Mesa and

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

OMNIA Partners offer, combined with our expertise in supporting dynamic procurement solutions with our broad customer ecosystem, provides a unique opportunity to optimize contract adoption and growth. Collectively, we remove the complexity of procurement and technology that our customers often encounter. We understand the value of OMNIA Partners and its contracts and have been successful in expanding this contract to our customers.

CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our vastly growing portfolio of offerings. Continuing to contract with CDW•G provides the City of Mesa and OMNIA Partners Participating Public Agencies with a secure partnership with a proven track record of positioning the contract nationwide and expanding the contract footprint among all SLED-eligible entities.

Contract Management Experience

While we manage numerous public sector contracts, we believe it is the breadth of our contracts and the emphasis we place on contract compliance, company-wide, that allows us to be a leader in contract management. Many suppliers have well-established delivery and installation procedures but lack the plan or personnel to ensure compliance throughout the contract's complete lifecycle.

A major differentiator for CDW•G is our Program Management Team, a group of coworkers devoted to the full life cycle of contractual sales, including managing active contracts. CDW•G invests in these resources because of our understanding that contracts are complex sets of commitments. Centralizing our contract management within one department allows us to standardize our contract management processes and share best practices. As a result, we reduce risks and improve efficiencies for CDW•G, and, more importantly, for the City of Mesa and OMNIA Partners Participating Public Agencies. With an average of over ten years of industry experience and active participation in the National Contract Management Association and World Commerce & Contracting, CDW•G Program Managers are qualified to advise and serve our customers at all stages of the contract process. CDW•G manages nearly 1,000 active SLED contracts, with OMNIA Partners contracts in the top 1% of our spend. Our contract managers become experts in their respective contract portfolios and can continue to provide insights to the City of Mesa and OMNIA Partners.

Access to the CDW•G Program Management team not only ensures contract compliance but also assures the City of Mesa and OMNIA Partners Participating Public Agencies that, when leveraging this contract, their purchases and piggyback agreements are overseen not solely by a sales team member but also by a highly skilled and specialized contract compliance professional.

Commitment to Innovation

For more than 20 years, CDW•G has been at the forefront of emerging technologies, including collaboration solutions, cloud, mobility, and virtualization, which is a major aspect of our ability to grow as a company. We have actively expanded our catalog, certifications, and solutions to address the latest IT developments, including cloud, IoT, software, and esports, so that we can continue to meet the evolving needs of the City of Mesa and OMNIA Partners Participating Public Agencies. In addition, we have dedicated CDW•G resources aligned to these solution areas to help the City of Mesa and OMNIA Partners Participating Public Agencies understand and implement them.

Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies. As a

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

testament to our dedication to innovation, CDW received CRN's 2023 Internet of Things (IoT) Innovators Award; this annual program honors North American solution providers that recognize the enormous potential of IoT, have integrated cutting-edge technologies into their portfolio, and are driving IoT innovation forward. CDW•G will continue to invest, organically and inorganically, in high-growth solutions and services capabilities so that we can continue to meet the needs of the City of Mesa and OMNIA Partners.

CDW•G understands that the City of Mesa and OMNIA Partners Participating Public Agencies change and shift over time, and we are willing to change as technology changes.

Sourcing Products and Building OEM Relationships

CDW•G has relationships with more than 1,100 leading manufacturers. When CDW•G doesn't have a direct relationship with an Original Equipment Manufacturer (OEM), we leverage our vast distribution network (i.e., Arrow, Synnex, Ingram Micro, a diverse partner, and more) to source a product request. As such, should the City of Mesa and OMNIA Partners identify a product we do not currently provide, we will work to ensure you get what you need.

Additionally, our Product and Partner Management team is dedicated to onboarding new OEMs and partners. This team works proactively to identify customer-leveraged OEMs to onboard into our ecosystem of partners. If a product is out of stock in CDW•G distribution centers, CDW•G can leverage our local and national distribution network; if the product is in stock in the distribution network, CDW•G can generally secure product(s) from our local distribution network within 24 hours.

Our sales staff and engineers are in steady communication with customers regarding their needs and vendor partners regarding changing product lines and new offerings.

Ability to Adapt

CDW's market position, financial strength, and demonstrated agility enable us to deliver value that transcends helping our customers to meet short-term IT objectives. We are with our customers in good times, but we are also there to help them navigate difficult circumstances and unprecedented challenges.

We are relentlessly devoted to helping our customers meet the challenges related to resolving their technology needs. One way we achieve this is through our agility in adapting to the unexpected, such as during the earliest stages of the COVID-19 crisis. Because CDW•G plays a critical role in continuing to supply IT products and services to our public sector customers, we prioritized a strategic response that would ensure our customers' needs were met in the face of a significant strain on the global supply chain. We worked closely with our manufacturer partners to identify product recommendations based on projected availability. At the same time, we maintained focus on the well-being of our communities and helped our customers navigate a rapidly changing environment. We implemented stringent safety measures in our distribution centers in order to maintain business continuity while prioritizing the well-being of our coworkers. Due to our having two distribution centers in different portions of the country, we are able to maintain our supply chain in the event one of those centers goes down for any reason.

For example, when a customer needed to quickly deploy device rollouts to enable distance learning, they leaned on CDW•G to scope, design, and ship solutions in quick order. When the facilities expecting these shipments were closed without advance warning, CDW•G worked closely with the 17 colleges and universities to reroute packages and ensure the essential deliveries were received. Our teams successfully rerouted hundreds of shipments. As the

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

situation continued to evolve, our teams remained in contact with our carrier partners to provide updates and continued to leverage member input and requirements to inform our company-wide strategic buying decisions.

CDW•G's unmatched product and solutions offerings, coupled with an unrivaled partner network of leading manufacturers and diverse businesses, enable us to give the City of Mesa and OMNIA Partners Participating Public Agencies a partner that can adapt to any scenario, both in the short- and long-term.

Blended Distribution Model

A significant advantage that differentiates CDW•G in the marketplace is our ability to deliver the right products at the right value, right when you need them. Many of our competitors rely on what we refer to as "virtual warehouses." These resellers are entirely reliant on their distribution and OEM partners for packaging and shipping customer solutions. This virtual warehouse model introduces extended lead times and uncertainty in sourcing and supply chain security. At CDW•G, we have blended the best of our OEMs and distribution partners' fulfillment capabilities with our own distribution centers to optimize quick and accurate fulfillment. Our same-day fill rate typically varies between 97% and 99% for credit-approved orders with in-stock products.

Public Sector Expertise

We have more than 30 years of extensive experience providing solutions to public sector customers across segments (federal, education, state and local). Our parent company, CDW LLC, was established in 1984, and CDW•G was established in 1998 to better serve our federal, state and local, and education customers. Public sector business comprised roughly 36% of our total annual revenue in 2022. We maintain over 1,000 contracts in order to serve these customers efficiently and compliantly. Our portfolio demonstrates widespread adoption and relevance, with customers actively transacting across all 50 states.

Under the new contract, we will continue these efforts, with targeted account planning in collaboration with the City of Mesa and OMNIA Partners to expand the contract footprint to small, middle, and large entities.

Litigation, Bankruptcy, and/or Reorganization

J. Describe any present or past litigation, bankruptcy or reorganization involving supplier.

As of the date of submission, there are no known present or past litigation, bankruptcy, or reorganization involving CDW•G.

Felony Convictions

K. Felony Conviction Notice: Indicate if the supplier

a. is a publicly held corporation and this reporting requirement is not applicable;

b. is not owned or operated by anyone who has been convicted of a felony; or

c. is owned or operated by and individual(s) who has been convicted of a felony and provide the names and convictions.

CDW•G is a publicly held company and this reporting requirement is not applicable.

3.2 DISTRIBUTION, LOGISTICS

Products and Services – Overview

A. Each offeror awarded an item under this solicitation may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by supplier.

CDW•G offers everything the City of Mesa and OMNIA Partners Participating Public Agencies' IT operations could possibly need – from enterprise-wide services to mouse pads and full turn-key solutions. The depth and breadth of products, services, and solutions CDW•G offers allows the City of Mesa and OMNIA Partners Participating Public Agencies to streamline procurement and increase efficiency by reducing the time and effort of managing multiple contracts. And as technology changes and your needs grow, so do we.

Commitment to Innovation

CDW•G has stayed in line with emerging technologies for more than 20 years. Keeping up with those technologies, such as collaboration solutions, cloud, mobility, and virtualization, has been a major aspect of our ability to grow as a company. We have actively expanded our catalog, certifications, and solutions to address the latest IT developments, including cloud, IoT, drones, and esports so that we can continue to meet the evolving needs of the City of Mesa and OMNIA Partners Participating Public Agencies. In addition, we have dedicated CDW•G resources aligned to these solution areas to help the City of Mesa and OMNIA Partners Participating Public Agencies understand and implement them.

Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies. As a testament to our dedication to innovation, CDW received CRN's 2023 Internet of Things (IoT) Innovators Award; this annual program honors North American solution providers that recognize the enormous potential of IoT, have integrated cutting-edge technologies into their portfolio, and are driving IoT innovation forward.

Sourcing Products and Building OEM Relationships

CDW•G will continue to invest in high-growth solutions and services capabilities so that we can continue to meet the City of Mesa and OMNIA Partners Participating Public Agencies' needs. Should CDW•G not have a direct relationship with an OEM, we have been successful in utilizing our vast distribution network (i.e. Arrow, Synnex, Ingram Micro, and more) to source a product request. As such, should the City of Mesa and OMNIA Partners Participating Public Agencies see a product we do not currently have, we will work to ensure you get what you need. Additionally, our Product and Partner Management team is dedicated to onboarding new OEMs and partners and works proactively to identify customer-leveraged OEMs to onboard into our ecosystem of partners. If a product is out of stock in CDW•G distribution centers, CDW•G can leverage our local and national distribution network; if the product is in stock in the distribution network, CDW•G can generally secure product(s) from our local distribution network within 24 hours.

Our sales staff and engineers are in steady communication with customers regarding their needs and vendor partners regarding changing product lines and new offerings. CDW•G is in

touch with industry leaders on many levels, and we have ready access to sources that review and rate current products and industry trends.

Acquisitions

Since CDW•G's last proposal to the City of Mesa and OMNIA Partners Participating Public Agencies, we have invested in several meaningful acquisitions that have enhanced our already comprehensive offering even further. Our acquisitions contribute to our ability to continue to meet the evolving needs of our customers. These acquisitions contributed to our being recognized by Frost & Sullivan with the 2022 Global Customer Value Leadership Award for the second year in a row. Frost & Sullivan presents this award to the company that demonstrates excellence in implementing strategies that proactively create value for its customers with a focus on improving the return on the investment that customers make in its services or products. An overview of our acquisitions over the last four years is as follows:

2019	In October 2019, CDW acquired Aptris, Inc., a distinguished IT service management solutions provider and ServiceNow Elite Partner. Aptris' talent and expertise further expanded our services capabilities in this fast-growing segment of the IT market and enhanced the value that we can deliver to the City of Mesa and OMNIA Partners Participating Public Agencies.
2020	In July 2020, CDW acquired IGNW, a leading provider of cloud-native services, software development, and data orchestration capabilities; this acquisition allows us to continue to provide highly technical solutions to our customers. In December 2020, CDW acquired assets of Aeritae, a ServiceNow Elite Partner, and Southern Dakota Solutions, a specialist in IT Asset Management design and implementation, allowing us to provide more robust ServiceNow system integration services to our customers.
2021	In March 2021, CDW acquired Amplified IT, a leading education-focused consultancy that brings a blend of technical skills and knowledge to the K-12 and Higher Education markets. This acquisition strengthens our Education practice so that we can continue enabling and empowering schools to leverage innovation. In August 2021, CDW acquired Focal Point Data Risk, a leading provider of cybersecurity services with customers across a diverse set of industries. Acquiring Focal Point has added more resources for CDW•G to better deliver security solutions and services within four areas: Identity and Access Management, Cyber Security and Data Privacy, Cyber Workforce Development, and Risk Consulting. Significantly, Focal Point Academy is the longtime leader in cyber workforce development. This acquisition has propelled CDW to become the largest Security Integrator in North America. In December 2021, CDW completed our acquisition of Sirius Computer Solutions. Our acquisition of Sirius combines our full-stack expertise with Sirius's broad portfolio of solutions and a team of experts with more than 5,500 professional and technical certifications who specialize in Business Innovation, Digital Infrastructure, Cloud, Security, and Managed Services.
2023	In February 2023, CDW acquired Locus Recruiting LLC (Locus), an experienced consulting team specializing in staff augmentation, information security, cloud

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

computing, networking, and infrastructure. Our acquisition of Locus enhances our staff augmentation practice so that we can continue to provide cost-effective resources to support our customers' needs.

In June 2023, CDW acquired Enquizit, an experienced provider of AWS cloud services, helping us better solve customer challenges and deliver meaningful outcomes through innovative technical solutions.

Partners

As one of the largest value-added resellers (VAR), CDW•G has established strong working relationships with the major suppliers in the technology industry. We maintain these relationships in order to provide the best products, services, and support to our customers. We offer more than 100,000 products from more than 1,100 different manufacturers and software publishers. Our top partners have full-time representation at our sales offices to facilitate requests for information and assist with designing the best possible solution.

Many manufacturers choose CDW•G as their primary reseller because of our vast distribution network and the value-added services that we provide to our customers. CDW•G invests heavily in the training and certification of our account managers and technical staff. We work closely with our vendor partners to remain current with the latest technologies and to deploy and manage those technologies in customer environments. We have received awards and recognition from our manufacturer partners for developing and delivering exceptional solutions. Specific insight into some of our partnerships is provided below:

Microsoft

As one of only a select group of Microsoft Cloud Solution Providers (CSP) with all solution designations, CDW•G has the expertise you need to get the most out of your Microsoft products. We work closely with Microsoft to ensure that our solutions are cohesive; you get the whole bundle (licenses, migrations, modernizations, automation, and management) directly through CDW•G, which saves you time and money. With deep implementation experience across Microsoft's portfolio of hardware, software, and the cloud since our partnership began in 1999, we are the right partner for delivering Microsoft solutions.

We are a certified Azure Expert Managed Service Provider with expertise in end-to-end cloud lifecycle management, including assessing, migrating, building, deploying, optimizing, and efficiently managing business solutions on Microsoft Azure.

We have earned all 6 of Microsoft's Solution Designations and are now among the elite Microsoft partners certified with the Microsoft Solutions Partner Designation for Microsoft Cloud. In 2022, we received the following awards:

- US Device Partner of the Year
- Surface Customer Adds Award Winner

Google

We are a Premier Google Partner. Together, Google and CDW•G bring you the best of Google solutions to grow and support your modern workforce. We are one of only four Google partners certified with Google CCAI expertise along with having three of the world's 66 Google Cloud Fellows on staff. In 2023, we received the following awards:

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Partner of the Year in the Expansion category for its success in helping customers achieve better results through Google Workspace
- Partner of the Year in the Specialization category for excelling in the Education sector and delivering positive customer outcomes

Oracle

We are an Oracle Gold Partner. Our exceptional coverage, relationships, integration, asset management tools, image loads, and streamlined procurement processes allow us to be a trusted advisor on Oracle for the City of Mesa and OMNIA Partners Participating Public Agencies, making it easier to get the Oracle expertise and services needed to provide you with complete Oracle solutions.

Apple

As a Diamond Elite partner, we had a very successful, established relationship with Apple. Apple products and services combined with our legendary logistics and services capabilities offer the City of Mesa and OMNIA Partners Participating Public Agencies improved profitability and employee productivity while simplifying IT overhead and lowering overall costs.

Note: Only Apple is allowed to sell Apple products to K-12 customers, including both private and public schools. If this policy is repealed, CDW•G is equipped and ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies K-12 customers.

Dell

CDW•G has complete access to all of Dell Technologies and Dell EMC's product lines, selling the entire Dell product portfolio of client devices, displays, accessories, software, data storage, server, networking, and services. This portfolio includes RSA® and VMware®. With over 90 onsite CDW-badged dedicated resources and 250 Dell Technologies-badged resources, the Dell and CDW relationship is stronger than ever and suited to meet and configure all customer IT needs.

HP

We have strong partnerships with both HP Inc. (HPI) and Hewlett Packard Enterprise (HPE); as a Platinum Partner, we have the experience and expertise to help the City of Mesa and OMNIA Partners Participating Public Agencies design the best solution.

This last summer, we received the following awards:

- 2023 Global Solution Provider of the Year
- 2023 North America Solution Provider of the Year
- 2023 Consulting Partner of the Year by Zerto, a Hewlett Packard Enterprise company.

IBM

We are a Diamond Elite IBM Partner and have been providing IBM solutions for over 25 years. Our IBM-dedicated team consists of nationwide sales, technical, and marketing experts. As an IBM Platinum Business Partner, CDW•G is authorized to sell IBM solutions – from servers and storage to software and technical services. CDW is the leading IBM Security software reseller in the United States.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Lenovo

Our strong partnership with Lenovo is a benefit to our customers, who receive top-quality Lenovo products quickly and efficiently. We are currently the largest Direct Response Channel Partner of Lenovo products.

Panasonic

CDW•G is a Panasonic Diamond-level partner and member of the Panasonic Authorized Reseller Program, authorized for computers and tablets, projectors, professional displays, scanners, and presentation technologies. CDW•G is Panasonic's largest Toughbook computer reseller in the channel.

Cisco

We are a Cisco Gold Certified Partner. We have attained the broadest range of expertise across multiple technologies, and we are Cisco's Largest US National Direct Integrator Partner. In November 2023, Cisco recognized us with the following awards:

- Data Center Partner of the Year (Global)
- Cisco Capital Partner of the Year (Americas)
- SMB Partner of the Year (Americas – US)
- USA Partner of the Year (Americas – US)
- Area Partner of the Year (US – Central)
- Commercial Partner of the Year (US – Central)
- Enterprise Networking Partner of the Year (US – Central)
- SMB Partner of the Year (US – Central)
- South Enterprise Partner of the Year (US – Central)
- Enterprise Networking Partner of the Year (US – East)
- Federal Intelligence Partner of the Year (Federal)

Please note that we excluded our Canada, European, and UK awards from this list.

Juniper Networks

We are an Elite Partner with Juniper Networks; we have 100+ accreditations and 10+ certifications, including the Enterprise Routing & Switching Specialization and the Mist AI Specialization.

ExtremeNetworks

CDW•G is an ExtremeNetworks Diamond Partner. We have specializations in Security & Access Control, Cloud, Management & Automation, Data Center, ExtremeWireless, and ExtremeSwitching.

Netgear

Together, CDW•G and Netgear provide high-performance switching, wireless, and security solutions. We are authorized to sell Netgear Business, as well as Wi-Fi and networking solutions, switching, AV, remote management, and more.

Additional Partners

For your convenience, we have provided our line card that includes our full list of 1,100+ partnerships in Appendix 2.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Product Offering

CDW•G's ability to provide product operating system license, software media, and documentation in the hardware shipment depends on the solution and the OEM; as such, we will comply with the specifications outlined in the product description as listed.

Software

a. Software: National brand name Microsoft, Google, Oracle, Enterprise applications/solutions, cyber security applications/solutions, etc.

CDW•G is pleased to offer software solutions and applications from leading manufacturers, including Microsoft, Google, and Oracle, among many others; please see our Line Card at the end of this section labeled Appendix 2 for a full list of our partnerships; CDW•G has developed close partnerships with more than 300 of the industry's leading software publishers.

Software and Information Industry Association Membership

We are a member of the Software and Information Industry Association (SIIA). SIIA is the principal trade association for the software and digital content industry. It recognizes companies that demonstrate software industry leadership and good corporate citizenship. SIIA Certified Software Reseller (CSR) status is awarded based on the accuracy and completeness of the record-keeping process. We are one of only four resellers with SIIA certification. There is a distinct customer advantage to our membership in the SIIA: in the event that the City of Mesa and OMNIA Partners Participating Public Agencies are audited by the SIIA, an invoice from CDW•G serves as proof of ownership.

Software Products and Solutions

An overview of our software offering includes, but is not limited to, the following:

- Business Applications
  - Application Suites
  - Document Management
  - Reporting and Data Analytics
- Education
- Graphics and Design
- Networking and Servers
  - Data Archiving
  - Network Management
  - Storage Networking
- Operating Systems
- Communication
- Programming and Web Development
- Security
  - Authentication
  - Endpoint Security
  - Firewalls
- Utilities
- Virtualization

We are an industry leader when it comes to enabling customers to modernize their environment through the combination of speed and direction.

While contemporary technologies can be beneficial, if executed incorrectly, they can also quickly lead to overlap, confusion, and sprawl. Our team can help the City of Mesa and OMNIA Partners Participating Public Agencies leverage existing technology investments while integrating modern solutions and tools. With the help of CDW•G, the City of Mesa and OMNIA Partners Participating Public Agencies can create simplified outcomes that are easy to manage and fiscally beneficial. Our team delivers full-stack, modern infrastructure and software delivery

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

focused on cloud native and hybrid-cloud adoption. Key practice areas include, but are not limited to, the following:

- **Advanced Infrastructure and Hybrid IT:** Consulting and delivery services for modern data center architecture, networking, servers, virtualization, and container and cloud platforms.
- **Full Stack IT Automation & Orchestration:** Consulting and delivery services in modern concepts for systems automation, infrastructure-as-code (IaC), and configuration management from physical network and servers to cloud.
- **Systems Integration & Software Engineering:** Consulting and delivery services in modern software development and delivery, web development, mobile development, distributed systems, microservices, and serverless environments.
- **DevOps:** Consulting and delivery services in DevOps, cultural assessments, organizational redesign, continuous integration/continuous deployment (CI/CD), and modern software delivery.

Software Services

In addition to our comprehensive software application and solution offering, CDW•G also has a variety of services to help you with your software needs. CDW Software Services takes a pre- and post-sales consultative approach to help you manage the assessment, validation, deployment, and management of software assets through every stage of their lifecycle. Our Total Software Management solution provides everything you need to make every step of software management simple and effective. CDW•G has everything the City of Mesa and OMNIA Partners Participating Public Agencies need to begin exploring software options, including, but not limited to, the following:

- Extensive knowledge of the software industry and publishers
- Insight into the latest trends and products
- Decades of experience in enhancing software environments
- Comprehensive process to review goals and technical requirements
- A comprehensive portfolio
- Expertise in cloud apps

Our software experts will identify your current license position and renewal timeline, as well as provide a review that is easy to understand so that you can maximize returns on your software investment. Our review helps you organize and track software, prepare for purchases, and educate teams about the software infrastructure. The review:

- Determines whether current agreements fit your needs
- Identifies opportunities for agreement consolidation
- Shows when your agreements are up for renewal

Our long-standing partnerships with top software vendors give us a deep understanding of each one's unique licensing requirements. CDW•G is committed to maintaining the highest level of knowledge and expertise surrounding software solutions. We will leverage our close partner relationships and continue to invest in our workforce to ensure we stay in front of the ever-changing landscape within this area.

Success Story – Local Community-Development Services

Background

This local government entity sought assistance for their IT licensing renewals and assistance in guiding their organization through the intricacies of software licensing agreements. The customer contacted CDW•G to assist with their upcoming renewals, help manage their software licenses, maintain compliance, and optimize costs.

Solution

CDW•G has a thorough process to ensure that the customer's needs were met. This engagement included a detailed evaluation, careful planning, negotiating with vendors, finding cost-effective solutions, minimizing risks, and keeping meticulous records. Not only did this approach meet the customer's immediate licensing requirements, but it also had long-term advantages in terms of regulatory compliance, cost reduction, and resource management.

Outcome

With the help of CDW•G, the customer was able to renew their essential software licensing on time, ensuring uninterrupted access to critical resources. This positions them to manage IT resources effectively and allocate budgets efficiently.

In the end, the customer's CDW•G team provided expertise on licensing models, negotiation strategies, and industry standards to ensure compliance, prevent legal complications, and reduce expenses.

Software Value-Added Services for the City of Mesa and OMNIA Partners Participating Public Agencies

CDW•G does not compete on price alone. As a vendor-neutral solutions provider, assisting with presales recommendations is one of our strong suits. We are the number one reseller to many of our vendor partners, such as Microsoft, VMware, and Adobe. Therefore, we have the expertise, experience, and resources to provide the best solution for the City of Mesa and OMNIA Partners Participating Public Agencies. Our close relationships mean that we receive competitive price offers and timely notifications regarding product changes. This allows the account team to keep the City of Mesa and OMNIA Partners Participating Public Agencies appraised of new product releases, version changes, and price changes, all of which affect how you purchase software.

CDW•G offers the City of Mesa and OMNIA Partners Participating Public Agencies the following value-added services:

- Assessments
  - Software License Review
  - Demonstration Labs (such as our Microsoft Experience Center)
  - Virtualization Assessment
  - Security Threat Check
  - One-to-One Readiness
- Trial License Key Codes
- Educational resources and important notifications, including email notifications, webinars, CDW's Solution blog, Software Simplified, and White Papers, among others
- Software purchase reports

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Available software promotions
- Sponsored vendor events designed to keep the City of Mesa and OMNIA Partners Participating Public Agencies in the know of industry trends

Licensing Strategy Consultation

- Current licensing assessment
- Analysis of current and future needs
- Discussion regarding procurement preferences
- Multiple quotes for side-by-side comparison

Ongoing Licensing Strategy Sessions

- New products
- Software Assurance benefits utilization
- Changes in licensing structure
- Future procurement planning

Quarterly and Ad Hoc Reporting

- Help for managing maintenance agreements
- Reminders for expiration-sensitive products
- Analysis of options for coterminous agreements
- Comprehensive online reporting of all software purchases from CDW•G

Customized Procurement Plan

- Multi-year license procurement roadmap

License Agreements

- Provide for the City of Mesa and OMNIA Partners Participating Public Agencies Education on License Agreement Terms & Conditions
- License Agreement setup and processing

Our expertise extends to everything from the evaluation process and technology planning to software purchasing and the contract management tasks ahead. CDW•G is committed to coordinating the resources needed to provide helpful insight on right-fit options for your specific needs. In fact, we have over 320 coworkers specifically dedicated to Software Licensing, Solutions, and Services.

We believe the City of Mesa and OMNIA Partners Participating Public Agencies will find that our business model provides one of the best values that the industry has to offer for licensed software. Our resources and our value-added tools provide the City of Mesa and OMNIA Partners Participating Public Agencies with the pricing and partnership that you deserve and make procurement easier. We have the best-in-class solution today, but we will continue to evolve in order to maintain our leadership role, expand and enhance our value proposition, and better serve the City of Mesa and OMNIA Partners Participating Public Agencies.

Success Story: Local Government Entity

Background

In 2022, this local government entity transitioned from on-premise technology solutions to the cloud and required continued guidance to understand the solutions, licensing support, and help to educate their end-users. The customer wanted a partner to help evaluate their current

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

license entitlements and solutions to fit user profiles. Their top priorities were to reduce costs and improve end-user satisfaction.

Engagement and Solution

We have managed the customer's Microsoft Enterprise Agreement (EA) for the last six years and conducted regular communication and quarterly business reviews to stay in touch with the customer's needs. As a part of the year 1 true-up process, we engaged the customer to review licensing and end-user functionality requirements.

To help this customer meet their goals, we provided them with cost analysis and guidance for Microsoft M365 E3, E5, and F3 products in addition to on-premise server products, including SQL and Windows Servers.

Outcome

CDW•G's engagement helped the customer to consolidate their licenses and achieve cost savings by requesting reductions on cloud licenses prior to their two-year anniversary and replacing them with M365 E3. By educating the customer on license compliance and options to Step-up, this local government entity recognized significant cost-savings. Ultimately, the customer greatly appreciated CDW•G's contribution and has recognized an enhanced Microsoft experience overall.

Personal Computer Systems

b. Personal Computer Systems: National brand name desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise Tier and Middle Tier Contractors that are business related computers, manufactured by companies, such as, Apple, COMPAQ, Dell, Gateway, Hewlett Packard, IBM / Lenovo, Panasonic, and Toshiba. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's broad array of offerings includes desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise and Middle Tier contractors. We are authorized to sell the various partners' full suites of products: Apple, Dell, Hewlett Packard (HP), IBM, Lenovo, and Panasonic, among many others.

Desktops

Desktop computers come in all shapes and sizes and are used for tasks ranging from web browsing to high-resolution media creation, and CDW•G offers products to meet any need. We offer All-in-One computers, Mini PCs, Thin Clients, Towers, Workstations, and more. Our selection includes popular brands, including, but not limited to, HP, Dell, Lenovo, Acer, Asus, Apple, among others. Additionally, the City of Mesa and OMNIA Partners can buy desktops pre-built or parts can be purchased and assembled in the configuration of your choosing; desktops can be upgraded or customized to grow alongside your needs as a user.

Laptops & 2-in-1s

When you need the power of a desktop but lack the space, laptops are an excellent solution for mobile computing. 2-in-1 computers are another powerful portable solution because, while similar to laptops, these devices can function as tablets and benefit from the integration of touchscreen displays or drawing accessories in some models. CDW•G has a wide range of laptops and 2-in-1s computers ready to meet any of your needs, including, but not limited to, those from Acer, Dell, HP, Microsoft, Panasonic, and more.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Tablets

Sometimes, both desktops and laptops may be too large for a particular space. Tablets are versatile devices that can perform many of the same tasks as their counterparts but in an easily transportable package. When combined with peripherals such as dedicated keyboards or additional displays, tablets can further blur the line between themselves and their desktop counterparts. We offer tablets from popular brands like Apple, HP, Lenovo, Panasonic, Samsung, and more.

Success Story: Large Device Rollout for the US Census Bureau

Background

When the US Census Bureau wanted to increase security and accessibility for the last Decennial Census, the Bureau trusted CDW•G.

The Census Bureau had a short-term need for mobile devices to enable a workforce to accurately capture data about America's people and its economy. Secure and easily accessible, the ideal device would utilize satellite technology to help field workers visualize each neighborhood.

We compared manufacturers to determine which could provide the most reliable, cost-effective technology. The products that best suited the Bureau's needs and those that were recommended to the customer included the Apple iPhone and a lightweight Dell laptop with a custom case and adjustable straps.

CDW•G was responsible for acquiring the devices, provisioning and configuring them, and getting them to the Census Bureau's local offices.

Outcome

Our service model offered the solution on a subscription basis to keep costs predictable and ensure mission alignment. In addition to overall program management, CDW•G offered mobile devices and accessories, custom device configurations, equipment staging, kitting, imaging, and inventory management. Our offerings also included wireless services from multiple cellular carriers, nationwide deployment, user help desk and field support, secure asset management, and device decommissioning and disposition when data collection concluded. CDW•G could quickly redeploy assets if there were any personnel changes. Approximately 60,000 laptops, 350,000+ iPhones, and 25,000 iPads were issued under management.

Our state-of-the-art distribution and configuration centers provided logistical agility and flexibility while demands fluctuated. Together, we simplified the Bureau's processes and increased efficiency while remaining secure. Read more about this story here.

Standard Business and High End Workstations

c. Standard Business Workstation: These will be used for typical tasks, which will include word processing, spreadsheet analysis, database management, business graphics, statistical analysis, internet, and other office automation activities. Product will include the operating system license, software media and documentation in the hardware shipment.

d. High End Workstation: These will be used by application developers using GIS, CASE or other high-level language development tools, Computer Aided Design and Drafting professional, Internet Application developers or other sophisticated application work. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's standard business and high end workstation offering allows the City of Mesa and OMNIA Partners Participating Public Agencies to experience professional-grade performance with our selection of solutions. Our offering includes solutions designed to handle any task, including creating projects and application development.

CDW•G offers workstations with processor speeds of 1.1GHz all the way up to 5.6GHz with hard drive capacities ranging from 256 gigabytes to 8 terabytes. Brands include, but are not limited to, Apple, BOXX, Dell, HP, Lambda, Lenovo, and more.

Laptop Computers and Notebooks

e. Laptop Computer or Notebook: These will be used by traveling or remote access user for typical office automation and business productivity use. With a port replicator or docking station, it may also be used as a standard desktop. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's product portfolio includes laptop computers, 2-in-1 laptops, notebooks, port replicators, docking stations, and more from leading manufacturers, including Acer, Dell, HP, Lenovo, Microsoft, Panasonic, Samsung, and others. An overview of our offering includes, but is not limited to, the following:

Windows Laptops

We offer a wide selection of Windows-based laptops; Windows laptops have many powerful tools integrated into the operating system that are uniform across various businesses.

MacBooks

Apple products, specifically MacBooks, are among the most popular laptops globally for both students and professionals. These devices are a perfect hybrid of aesthetics and performance and have robust and powerful software that is standard in each machine. MacBooks also effortlessly pair with other Apple products, such as iPhones or Apple Watches, to maximize the performance of each device.

Note: Only Apple is allowed to sell Apple products to K-12 customers, including both private and public schools. If this policy is repealed, CDW•G is equipped and ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies.

Chromebooks

Chromebooks are excellent alternatives that function using applications hosted on the internet. This way, the cost of Chromebooks can remain affordable without sacrificing functionality. CDW•G has a large selection of devices that can meet the City of Mesa and OMNIA Partners Participating Public Agencies' diverse needs.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Ultrabooks

Ultrabooks are powerful laptops that are slim in size but feature industry-leading technology geared towards pushing performance to the absolute maximum. Ultrabooks are also an excellent choice for any design or media-based work. Their robust components allow for maximum performance in multiple locations.

Network Equipment

f. Network Equipment: This includes equipment primarily used for communications over an IP network. This includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces (i.e. serial, T1, T3, OC3) and fiber channel. Class of equipment should include home office, small and medium business, and enterprise. Contractors may include, but not limited to, Cisco Systems, Dell, Juniper Networks, HP, Extreme Networks, Enterasys Networks, D-Link, Netgear, and Brocade Communications Systems.

CDW•G's broad array of offerings includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces, and fiber channels. The class of equipment that we offer includes home office, small and medium business, and enterprise. We are authorized to resell from more than 1,100 leading manufacturers, including, but not limited to, Cisco, Dell, Juniper Networks, HP, Extreme Networks, and Netgear. CDW•G will work with the City of Mesa and OMNIA Partners Participating Public Agencies to determine the best networking equipment to meet each of your needs.

An overview of our network equipment product offering includes, but is not limited to, the following:

- Network Adapters
  - Ethernet Adapters
  - Host Bus Adapters
  - Transceiver Modules
- Network Management
  - Console & Device Servers
  - Load Balancers
  - Network Management Devices
  - Network Testing
  - Print Servers
- Network Security
  - Firewalls & VPN
  - Security Appliances
  - Security Tokens
- Security Cameras & Surveillance
  - Proximity Cards & Readers
  - Security Cameras
- Routers
  - Wireless Routers
  - Cable & Phone Routers
  - Router Modules and Accessories
  - Data Routers
  - Security Routers
  - SD-WAN
- Switches
  - Ethernet Switches
  - Fiber Channel Switches
  - Modular Switches
- Wireless Access Points
  - Indoor/Outdoor
  - Enterprise
  - Mesh

Monitors

g. Monitors: These will include plug and play compatible monitors that are manufactured for the above systems and/or any other brand that may be specifically called for by the ordering entity and which meet the most current UL and OSHA requirements.

CDW•G's product portfolio offers a variety of monitor solutions, including plug-and-play compatible monitors. Should the City of Mesa or any OMNIA Partners Participating Public Agency have specific UL or OSHA requirements to meet, we will work with you to determine the best products that meet your needs, requirements, and budget.

CDW•G understands that the right computer monitor or display can make all the difference. No matter the purpose, we get that a good monitor is important to you. CDW•G offers a wide range of monitor and display types with response times of less than 2 ms and 4k resolution. Plus, we partner with all the top monitor brands, including Acer, ASUS, HP, Lenovo, LG, MSI, ViewSonic, and many more.

Computer Monitors

Computer monitors are an integral part of any setup. For design and media-specific industries, high-resolution monitors are a must and need to be paired with an adequate graphics card. Other display solutions, such as business computer monitors, are capable of standard office tasks such as word processing or web browsing. No matter what you need a display for, CDW•G has a large selection of computer monitors from industry-leading brands and manufacturers. We are committed to working with you to determine what suits your needs.

Large Format Displays

One of the most powerful tools for a modern business is the implementation of large-format displays. Everything from adaptive menus to digital signage and anything in between can quickly be displayed or adjusted on these large screens. Devices such as smart boards have changed the educational landscape and make lessons and presentations more accessible and diverse than ever before. For advertising, these displays save money and significantly reduce paper waste and the City of Mesa and OMNIA Partners Participating Public Agencies' environmental footprint.

Monitor Accessories

CDW•G experts can help the City of Mesa and OMNIA Partners Participating Public Agencies determine which accessories will work best for you and how they can improve your setup. Monitor accessories like mounts or privacy screens allow you to maximize productivity in any location. Other accessories like specific cables or adapters work to ensure any device can interface and work with any monitor.

Projectors

In addition to a large selection of monitors and accessories, CDW•G also offers projectors. While not technically monitors, projectors are a common form of computer display that allow the City of Mesa and OMNIA Partners Participating Public Agencies obtain display sizes far more extensive than any screen. These large-size displays are perfect for video conferencing with groups, work presentations, staff meetings, or even community events in the park. We offer interactive projectors, large venue projectors, office projectors, as well as projector accessories, from leading brands such as Epson, Sony, LG, and more.

STEM/STEAM students, the possible classroom layouts and technology configurations are endless. Whatever you're trying to achieve, CDW•G can make IT happen.

In fact, CDW Blueprint to Design® is an ideal tool to help districts, schools, and teachers reimagine their classrooms and building space to maximize learning outcomes. The program was created in 2017 and helps educators navigate the addition of classroom IT products and technology, alongside stationary and modular classroom furniture, and create collaborative learning environments. Since then, more than 900 K-12 schools and universities have participated in the program.

Our Education Strategists, teamed with our CDW•G Solution Architects and Account Team, work together to help educators figure out the best classroom design for their space, ensuring space maximization aligned with the desired purpose. Since CDW•G is vendor-neutral and has an extensive product offering, we recommend the best vendor for that given classroom, school, or district.

Success Story: Rochester City School District

Background

Leaders of Rochester City School District (RCSD) came to a few important conclusions several years ago: they needed to modernize instruction, they wanted education to be engaging and interactive, and redesigned learning spaces would be a big piece of the puzzle. Like many innovative schools, RCSD envisioned a classroom with comfortable seating, modular furniture to suit variety of instructional needs, and technology that includes mobile devices, Wi-Fi, and digital displays. To create the proof of concept, the district turned to CDW's Blueprint to Design.

Engagement and Solution

RCSD leaders met with CDW•G Account Managers and an Educational Strategist to discuss their objectives. The CDW•G team shared those findings with designers, who created several choices for RCSD to review, including full-color, 3D renderings. The district also wanted flexible furniture and a variety of seating for all grade levels.

District leaders were impressed with CDW•G's design work, and once they settled on a plan, they built a 25-by-24-foot modern classroom that is stylish, colorful, and airy. In one configuration, two sets of curved desks are arranged in a circle, so students can work individually or in groups. RCSD also equipped the room with a cart of 30 Chromebooks, fast Wi-Fi through a Cisco Systems access point, a MakerBot Replicator 3D printer, and table-level charging stations. Two 75-inch Triumph interactive flat-panel displays hang on the walls, flanked by a table and soft-cushioned, rainbow-colored stools.

Students roam around the classroom to collaborate and problem-solve. They use Chromebooks, but they also use pencil and paper. Every desktop doubles as a dry-erase board, so students can jot notes and sketch on their desks.

Outcome

Rochester's new modern classroom has garnered rave reviews from students and teachers. The room hosts fifth graders from around the district for internet safety and digital citizenship classes. Older students use the space after school for online credit recovery.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

As district leaders hoped, the classroom has inspired educators to reimagine other learning environments, including libraries and makerspaces. Read more about how CDW•G helped RCSD design a custom learning environment here.

Services Offering

j. Services: Services such as, but not limited to cloud computing, consulting, technical support, leasing/financing, trade-ins, repair, design, analysis, configuration, implementation, installation, training, maintenance, advisory, managed and support services, staff augmentation, professional services, etc. In addition, services that are related to the design, use, or operation of the products being purchased such as system configurations, testing, hardware/software installation, upgrades, imaging, etc. Services may also include materials, equipment, and supplies provided by the Reseller under an SOW Note: All hardware should come assembled. For example, if extra memory, additional drives, or peripherals are ordered, the Contractor must install them unless the Participating Agency requests, that they not be installed.

CDW•G provides the required services listed above with insight into each throughout the remainder of this section. Our full-stack engineering services team focuses on digital transformation – from code and applications to cloud, data, and security – to help you accelerate innovation, enhance user experiences, and optimize collaboration, all while delivering agility and cost efficiencies.

Lifecycle of Services

In today's competitive market, the speed of digital priorities is critical to success, yet technical complexities can slow progress. CDW•G's **full lifecycle of services** supports the City of Mesa and OMNIA Partners Participating Public Agencies' internal team and helps you focus on your short-term and long-term goals. Our experts help you design, orchestrate, and manage your technology environment:

Design – Advisory and Assessment

Using a wide breadth of tools, data, and decades of expertise, we offer strategic advisory services, workshops, assessment, planning, and design engagements with our engineers that consider your specific needs and make recommendations to address gaps and optimize growth. This includes documentation, analysis, and creation of materials that detail the bridge between your current and future state.

Orchestrate – Building, Implementation, Deployment

Our expert engineers configure and deploy your solutions to help the City of Mesa and OMNIA Partners Participating Public Agencies implement technology according to your organization's unique needs and ensure it works from day one. We build, create, and analyze software or services, as well as test and release into a defined environment and implement changes outlined in the design phase. We implement technology adoption and organizational change management plans to ensure you're fully utilizing your technology solutions and deriving the value you expect.

Manage – Continuous Support and Operations

CDW•G can help the City of Mesa and OMNIA Partners Participating Public Agencies save time and money and augment internal IT team bandwidth with 24/7/365 support and expert management of any aspect of your technology solution.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Managed services:** With proactive monitoring, automation, alerting, analysis, maintenance, and performance of operational functions of an organization's contracted technology environment, CDW•G provides end-to-end support of your complex environments.
- **Technical support and continuous improvement engagements:** CDW•G experts provide technical support for complex technology solutions when your IT, development, and business teams need it. Our experts work with you to continuously optimize your technology environment.

We provide greater insight into our full Managed Services capabilities later in this section.

CDW Services Overview

Our professional services help the City of Mesa and OMNIA Partners Participating Public Agencies amplify your capabilities at any stage of your technology journey. IT services are a critical necessity for government entities and public agencies. Our IT services are built to help the City of Mesa and OMNIA Partners Participating Public Agencies tackle various day-to-day challenges, such as increasing efficiency and maximizing costs, while allowing you to free up your internal resources to focus more on core projects. However, not all government entities and public agencies are fully equipped with the necessary resources or have access to the technical experience and support that they need. Our services allow the City of Mesa and OMNIA Partners Participating Public Agencies to focus more on their residents and constituents.

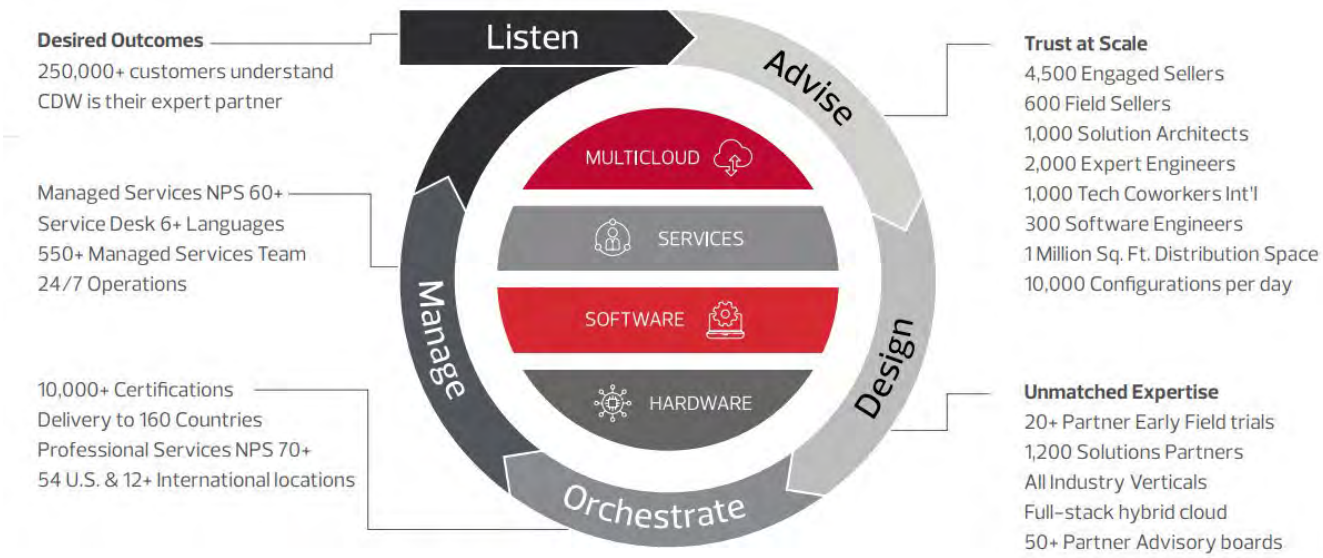

Figure 15. CDW•G's Lifecycle of Services

CDW Services consists of the following services, each with its own focus, experts, and capabilities:

CDW Infrastructure Services provide expertise, tools, and resources to scale and future-proof your infrastructure. We help the City of Mesa and OMNIA Partners Participating Public Agencies upgrade existing architecture and prepare for what's to come, whether on-premises, migrating

to the cloud, or in the cloud. We also modernize applications, streamline delivery through DevOps (CDW Development Services), and write custom, cutting-edge apps that drive business. To ensure all of your needs are being met, we have broken our Infrastructure Services into the following categories:

- **CDW Hybrid Cloud** consists of cloud and hyperconverged infrastructure services.
- **CDW Networks** deals primarily with enterprise networking as well as data center networking.
- **CDW Data Center** encompasses soft-ware defined data centers, data center migration and optimization, next-gen backups, compute and storage solutions, as well as power and cooling solutions.
- **CDW OS** includes operating systems, applications, and services.
- **CDW Software Engineering** includes DevOps, as well as software design and consulting.
- **CDW App Modernization** deals specifically with Application Modernization.

CDW Workspace Services provide a comprehensive approach that allows employees to work from anywhere, on any device. We enable the City of Mesa and OMNIA Partners Participating Public Agencies to build a communications platform that grows with you, is rapidly adopted by end users, and helps improve business outcomes through seamless collaboration. Our workspace services are broken into the following categories to meet a variety of complex needs:

- **CDW Collaboration** services deal primarily with communications, messaging and conferencing, video, applications such as Office 365, engagement contact centers, as well as portals and content collaboration.
- **CDW Endpoint** services encompass management and security, mobility, mobile workspaces, unified endpoint management, and managed print services and printer supplies programs.

CDW Security Services provides independent evaluations of security posture and helps government agencies fortify their weaknesses. Our certified experts design comprehensive strategies and solutions for protection and response. Our security services are broken into the following categories:

- **CDW Secure Platform** includes next-generation firewall and IPS, content security, identity and access management, network visibility, and endpoint protection, as well as policy and access.
- **CDW Detect and Respond** deals with log aggregation and correlation, as well as security incident response.
- **CDW Information Security** deals only with information security services.

CDW Data Services, including artificial intelligence (AI) and machine learning (ML) services, offer actionable insights that give you a stark competitive advantage. Design, build, and deploy modern data analytics and AI/ML solutions for storing, transforming, discovering, and operationalizing your data. We have broken our data services into the following categories:

- **CDW Data** focuses on data modernization and data analytics.
- **CDW AI/ML** deals specifically with machine learning analytics (ML) and artificial intelligence (AI) data analytics.

CDW Support Services delivers custom warranty, maintenance, and support services that augment your IT staff so they can focus on maximizing business outcomes. We offer a variety of support services for hundreds of manufacturers; these services include the following:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

- **CDW Technology Support** is a branded service backed by the Original Equipment Manufacturer (OEM) collaborative warranty support service. Our depth and breadth of expertise enable us to get a top-level engineer quickly, resulting in faster incident resolution.
- **CDW Extended Support** provides continuous break/fix support service on equipment that its manufacturer no longer covers (N-1 or older) or is nearing end-of-service (EOS) life.
- **Help Desk Services** connects you with our Managed Services team and helps put the right people, processes, and tools in place.
- **Warranty and Maintenance Services** allow us to keep your equipment – and organization – running with expanded and extended warranties as well as custom maintenance contracts that include on-call experts and break/fix agreements.

CDW Configuration and Integration Services make sure your new technology is ready to work on arrival, whether we are building out a data center solution with fully configured racks, facilitating a multisite deployment of pre-configured computing devices, or handling single-device provisioning. We offer basic and advanced services:

- **CDW Basic Configuration and Integration Services** include hardware integration, software configuration, asset tagging and reporting, custom laser engraving, Windows autopilot enrollment with Intune pre-provisioning, Chrome OS White Glove Service (WGS), and Zero-Touch Enrollment (ZTE), inserts, kitting, and custom packaging, buy and hold services, mobility services, and burn-in services.
- **CDW Advanced Configuration and Integration Services** consist of hosted VPN services, custom imaging, network and security device configuration, and rack configuration.

Success Story: Citizen Support Entity

Background

This State has more than 200 libraries dispersed throughout business centers and other areas where community members frequently visit. To increase efficiency, this State entity wanted to digitize their content and workflow to lessen the processing and approval time for public benefits applications. The customer's goal was to offer convenient access in a friendly environment while also downsizing the number of staff needed in the process.

Engagement and Solution

As their chosen consultant, CDW•G answered any remaining questions regarding the hardware and use cases to ensure that the solution matched the desired outcome. The CDW•G Team also determined which CDW Configuration Services would be most applicable to this project and the customer's overall mission.

CDW•G provided the state with an end-to-end solution. First, we provided proof of concept and created a desirable bill of materials. To best meet citizens' needs, we determined the ideal fit of Chrome tablets that would be suited for long hours of operation in high-touch environments. The Chrome tablets have many benefits, such as built-in security, ease of deployment through Zero Touch Enrollment, and centralized manageability via the Chrome Operating System (ChromeOS). This reduced the total cost of ownership to the customer.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW•G then looked for a kiosk that would complement the Chrome tablet and recommended necessary modifications. Finally, the team acquired demo units for the State to test.

Outcome

CDW•G positioned a complete solution that will allow the State's citizens to conveniently access government applications at over two hundred library locations across the State. Their CDW•G Team was diligent in addressing each of the customer's requirements and concerns, thoroughly reviewed proof of concept, and effectively collaborated with partners to provide the best solution.

Cloud Computing Services

CDW•G understands that the City of Mesa and OMNIA Partners Participating Public Agencies have many technology provider choices. When working with CDW•G, you get the best total solution the industry offers without the limitations inherent when dealing with either a manufacturer or a specific partner. CDW•G works with customers to develop coordinated and cost-effective Cloud Solutions through the following range of services:

- **Discovery and Assessment:** Understanding of environment, usage, challenges, and requirements
- **Planning and Design:** Evaluation of providers, recommendations, and proof of concept
- **Migration Services:** Smooth deployment of the solution
- **Integration Services**: Full integration with existing applications
- **Application Modernization**: Turning monolithic legacy apps into cloud micro-services
- **Aggregation Services:** Streamlined administration and aggregated billing
- **Managed Services:** CDW•G hosted and remote managed services or partner-managed services
- **Fulfillment Services:** Onboarding, reporting, billing, partner reconcilement, and renewals

As a leading provider of Cloud Solutions, we can help the City of Mesa and OMNIA Partners Participating Public Agencies assess your priorities and determine which applications and processes should and shouldn't be moved to the Cloud. We also help you design the best delivery model, whether public, private, or a hybrid model, that provides the greatest flexibility to customize your solution. Furthermore, our pre-qualified partner network makes it easy to find the right providers and to create a comprehensive, multi-vendor solution that meets your specific needs.

Consulting and Advising Services

Our IT consulting and professional services team — over 1,000 professionals strong — delivers personal service that helps the City of Mesa and OMNIA Partners Participating Public Agencies understand and meet your organizational and technological needs. A key differentiator for our Advising and Consulting practice is that our experts go beyond advising; CDW•G can deliver on whatever the City of Mesa and OMNIA Partners Participating Public Agencies need. Because of our ability to design and deliver, our consultants incorporate their technical knowledge and experience into the design, assessment, and implementation. Our comprehensive approach ultimately mitigates risk through experience to ensure that customers like the City of Mesa and OMNIA Partners Participating Public Agencies get it right the first time.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

We have expertise and certifications across diverse industries in the public and private sectors. Our project managers and consultants work directly with you to design and implement every facet of your IT solution.

Using a wide breadth of tools, data, and years of expertise, we offer strategic advisory services, workshops, and assessment, planning, and design engagements with our engineers that consider your specific needs and make recommendations to address gaps and optimize growth. This includes documentation, analysis, and creation of materials that detail the bridge between your current and future state.

Presales Consulting

A unique advantage of CDW•G's business model is that the City of Mesa and OMNIA Partners Participating Public Agencies have access to an incomparable depth and breadth of value-added technical expertise. Our highly trained and experienced Technology Specialists and Solution Architects provide expert consulting advice and ongoing support. In addition, our strong relationships with manufacturers enable your CDW•G Account Team to provide presales consultation, technology roadmaps, and other assistance quickly. In fact, many major vendor partners have dedicated staff at CDW•G.

During the presales phase, service consultation focuses on understanding the City of Mesa and OMNIA Partners Participating Public Agencies' requirements and engaging the appropriate technology specialists, systems engineers, and solution architects. We work to identify potential solutions that meet each Participating Public Agency's needs before presenting those solutions in a proposal or product demonstration. We strive to educate the City of Mesa and OMNIA Partners Participating Public Agencies about products and services by providing a comprehensive overview of its features and benefits.

Below is an overview of those who can be engaged to support the City of Mesa and OMNIA Partners' Participating Public Agencies during the presales consultation process and beyond:

Technology Specialists

Our teams of technology specialists are highly trained and experienced in various products and technologies, including the following:

- Leasing and Finance
- Managed Print Services
- Mobility
- Networking
- Power and Cooling
- Servers and Storage
- Software Licensing and Management
- Unified Communications and Collaboration
- Voice and Data
- Security

Presales Systems Engineers

We have a large team of over 100 presales systems engineers who hold vendor-funded positions and provide presales support for that particular partner's products. These experts assist with evaluating products based on your unique operational requirements and budgetary constraints. They review quotes for product compatibility, functionality, and compliance.

Solution Architects

Our teams of solution architects work closely with the vendor partners whose solutions they design. They assess your environment and work with your IT staff to design plans for solutions

that boost productivity and improve operational efficiencies. Extremely knowledgeable about the latest technologies, they have important insight into the pros and cons of different solutions.

Onsite Vendor Representatives

CDW•G has manufacturer and software publisher representatives onsite at our sales offices to assist account managers and specialists with requests for technology roadmaps and to provide training on an ongoing basis. Our strong relationships facilitate presales consultation and timely notification regarding product changes and products going end of life.

Data Center Transformation Team

In addition to our presales consulting team and resources, our advanced consulting arm, the Data Center Transformation (DCT) team, has both the resources and expertise to collect complex data, provide custom reporting, and tailor our advisory outcomes to the unique needs of the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G is aligned with industry trends across technology organizations and industries, including state, local, and education. CDW•G reins in the complexity of industry trends and tailors it to your needs and goals through our disciplined practices.

Data Center Transformation is the process of changing an organization's IT infrastructure and application services to improve its capabilities, performance, and efficiency. The process includes data center migrations, cloud integration, large-scale changes to hardware, virtualization, improved resiliency, software-defined components, application rationalization, and business process automation. At its core, DCT is a business-first approach that will enable the City of Mesa and OMNIA Partners Participating Public Agencies to accelerate the transformation of your business models using technology to achieve its unique goals.

The DCT team offers consultative guidance in six key strategic focus areas, highlighted in the figure below:

Figure 16. DCT Focus Areas

With over 23 years of experience providing consulting and advisory services, the DCT team provides consultative and advisory expertise specific to the City of Mesa and OMNIA Partners Participating Public Agencies' business challenges. With a focus on understanding your outcomes, goals, and objectives, DCT takes a consultative approach to recommend solutions to address strategy rather than problems.

For decades, the DCT team has led transformative projects for state and local governments, federal entities, small businesses, large corporations, and health and education organizations. Over this period of time, we have accomplished many goals for our customers, including:

- Moved 675 data centers
- Relocated 250,000+ workloads
- Migrated 25,000+ applications across 16 industries
- Reviewed 1290 data centers

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Assessed and defined direction for 15M+ square feet of raised floor
- Identified an average reduction of 65% of data center space
- Designed enterprise clouds to support up to 780K workloads
- Moved 950,000 workload
- Moved 25,000 workloads within a single client
- Moved 10,000 workloads in a single environment
- 160 facility concept plans performed
- Rationalized almost 1M workloads for cloud placement
- Worked with 325+ converged infrastructures involving our services
- Configured more than 5M configuration items for hundreds of CMS/CMDBs
- Implemented 77 enterprise IT operating models

There are many different types of projects that the DCT team can orchestrate for the City of Mesa and OMNIA Partners Participating Public Agencies. These projects span the full gamut of transformational information technology and include solution areas such as data center transformation, business process optimization, and application management solutions. Our DCT team uses proven processes and leverages infrastructure, data, digital, and security experts to create high-value transformative business capabilities for our customers.

Overview of Advising and Consulting Services

CDW•G has a wide variety of advising and consulting services. These services include, but are not limited to, the following:

- **vCISO Service:** Many organizations have limited staff or skill sets and need assistance navigating security obstacles, which is why CDW•G's Security Consultants are available to act as a virtual Chief Security Information Officer (vCISO). Our vCISO service helps you improve the maturity and scope of your existing security practices by providing a technology-neutral Security Consultant.
- **CDW OS ITSM Simulation/Executive Visioning Workshop:** By participating in our IT Service Management (ITSM) business simulation workshop, the City of Mesa and OMNIA Partners Participating Public Agencies can learn how to increase the business impact of your internal service provision. This hands-on, highly interactive IT/Business workshop is designed to educate the City of Mesa and OMNIA Partners Participating Public Agencies' leadership and stakeholders in the business structure of process with technology.
- **IoT Transformation Workshop:** Our Internet of Things (IoT) Transformation Workshop is designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand your data needs, determine the return on investment (ROI), and evaluate your foundational infrastructure to determine if any technical components should be retired, evolved, or added before implementing an IoT technology initiative.
- **CIO Essentials:** Our CIO Essentials provides the framework to develop the City of Mesa and OMNIA Partners Participating Public Agencies' vision for the future into an actionable strategy and roadmap. Whether Participating Public Agencies are looking to transform your organizations into a DevOps culture based on cloud Platform as a Service (PaaS), industrialize your private cloud services, consolidate your application portfolio, or modernize your IT environment as a whole to reduce IT expenses, CIO Essentials provides the tools the City of Mesa and OMNIA Partners Participating Public Agencies need to deliver a clear, concise business-centric strategy.
- **PMO Assessment Workshop:** Our DCT leads our Project Management Office (PMO) Assessment Workshop. This workshop is a high-impact, comprehensive program to

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

assess and improve Project Portfolio Management (PPM) practices over the course of 3-4 weeks. This comprehensive program consists of three survey domains: PPM current state, PPM satisfaction, and PPM assessment.

- **Application Rationalization:** Over time, your application portfolio may expand as more are introduced for specific needs. Using a strong holistic methodology, CDW•G can help the City of Mesa and OMNIA Partners Participating Public Agencies address your application portfolio to ensure that the applications used are cost-efficient and serve as effective tools. Our skilled consultants will work directly with relevant stakeholders to review your organization's complete list of applications. This review includes a full data analysis, coupled with facilitated workshops and interviews with application owners and end-users. These sessions provide additional context and knowledge beyond the raw data to identify and attain your organization's end goals.
- **Application Dependency Mapping:** Application dependency mapping combines tool-based discovery with the experience of CDW•G resources to provide a holistic view of an application environment, including detailed information and mapping of the relationships between your IT assets. Whether the City of Mesa and OMNIA Partners Participating Public Agencies are prepping to migrate to a new data center, introducing a new application, reducing the risk of business interruptions, or planning to transform your business, application dependency information is a crucial factor in your success. Application dependency mapping is an essential first step for understanding your current environment or preparing for a wide range of changes.
- **Migration Execution:** From planning and strategy to the execution of the migration, CDW•G can assist you with the ability to migrate from your current data center to a new one on a schedule.
- **Migration Readiness Assessment:** Before starting a migration program, consider having CDW•G experts perform a Migration Readiness Assessment. This program helps you be prepared to start the migration program, by identifying risks and develop mitigation plans that could impact your migration program, which will help you make better-informed decisions about scope, timeline, budget, and resources.
- **Organizational Effectiveness Services:** Ensuring that your organization is performing at the highest levels depends on how well your IT teams function and work with each other. CDW•G's expertise in how IT organizations operate helps you drive efficiencies, address issues, prepare for an organizational change, or expand services to meet business objectives. Our consultants will align your organizational structure and role definitions to meet your goals as well as account for current needs and projected growth to better understand your strategic direction.
- **IT Practices Workshop:** Led by our DCT team, the IT Practice Review workshop gives the City of Mesa and OMNIA Partners Participating Public Agencies visibility into how your organizations operate. Through a holistic approach, we look beyond process documentation into how teams work together. Each Participating Public Agency is unique, and how processes are designed and implemented can either work for or against business objectives. In 2 short weeks, agencies will have a high-level map of your strengths and weaknesses and a plan to ensure your processes propel you to reach your goals.

The above services and workshops serve as an example of our capabilities but are not an exhaustive list.

OMNIA Success Story: Midwestern, Midsize City

Background

CDW•G prioritizes helping all our public sector customers realize the vision they have for the future – from the smallest town to the largest municipality. Simply providing order fulfillment is a thing of the past. This mid-sized city, serving over 200,000 constituents, sees an opportunity to grow their mission and their community by becoming an innovative organization delivering world-class outcomes for their citizens.

Challenge

Regrettably, this City encountered a predicament all too familiar: a shortage of resources hindering the pursuit of their ambitious transformational goals. Compounded by the relentless pace of technological evolution, innovation became an elusive pursuit. Instead of envisioning strategic growth, the City found itself caught in the struggle to maintain an aging infrastructure. Even if budgetary allocations were secured for new technology, the protracted procurement process extinguished any hope of timely execution, casting a shadow over the prospects of success.

Solution

Enter the City of Mesa, OMNIA Partners contract, and CDW•G. The City of Mesa contract gave this city a procurement vehicle that would ensure taxpayer dollars are spent sensibly, while allowing IT leadership to make decisions and execute their plan quickly. Far from the old adage of "use it or lose it" funds, CDW•G was able to provide critical staff augmentation resources to complete crucial updates on a timeline unique to local government.

Going a step further, the City's dedicated CDW•G Account Team coordinated consultants to help formulate an effective plan for implementing and executing on their vision. This wide range of services offered by CDW•G – from basic network upgrades to InfoSec consulting and road mapping – became a key factor in IT moving from treading water to making real progress in delivering exceptional outcomes.

Success through OMNIA Partners

The City benefits from competitively priced service offerings with the technical acumen to partner alongside C-level executives and deliver innovative outcomes; a contract that procurement understands and embraces as a cost-saving measure; and a partner that understands their needs and aligns their resources to help accomplish goals that once seemed out of reach.

Technical Support Services

CDW Technology Support

CDW Technology Support (CTS) is CDW•G's branded offering backed by the OEM collaborative warranty support service. CTS provides an enhanced client warranty support experience with one contract offering incident management for covered devices. CDW•G will take the first call for the City of Mesa and OMNIA Partners Participating Public Agencies to help resolve your issue and, if needed, provide an engineer onsite to perform a hardware replacement.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

If escalation to the OEM is required, CDW•G will do that on the City of Mesa and OMNIA Partners Participating Public Agencies' behalf. CDW•G Technology Support helps the City of Mesa and OMNIA Partners Participating Public Agencies solve your business problems by providing a single solution for your manufacturer support, saving internal IT staff time and/or any unplanned expenses for an engineer to come and replace faulty hardware and/or renew a contract that was not co-termed. Because of CDW•G's depth and breadth of expertise, we are able to get a top-level Technical Assistance Center (TAC) engineer more quickly than a customer may be able to, resulting in quicker incident resolution. Some of the features and benefits of CDW Technology Support include:

- **One place to call:** CDW Technology Support allows the City of Mesa and OMNIA Partners Participating Public Agencies a single point of contact. We provide end-to-end ownership of all incidents, service requests, and support for maintenance, hardware replacement, knowledge base, and software support.
- **24/7/365 support:** CDW Technology Support provides around-the-clock support via a dedicated service desk 24/7/365 and also provides a dedicated support number, email address, and ServiceNow login to open and view case status online.
- **Full-service Return Merchandise Authorization:** If, after troubleshooting, CDW engineers determine that a device needs to be replaced, CDW•G will request the RMA from the manufacturer on your behalf and have it sent to your location. We will also dispatch an engineer to meet that part and swap out the device for you and return the defective parts to the manufacturer and update the serial numbers on your contracts.
- **Fully backed by manufacturer warranty and support:** A support contract is purchased through the manufacturer so you do not lose the ability for upgrades, updates, etc., and may be provided software download access to those contracts if requested.

Maintenance Offerings

CDW•G offers various maintenance agreements to cover all types of vendors, products, and service levels. Our offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include the following:

- **Coterminous Support Contracts.** A conterminous support contract takes the City of Mesa and OMNIA Partners Participating Public Agencies' existing manufacturer support plans and roll them together with one standard end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement.** These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts.** Retainer contracts provide a designated block of time that guarantees the City of Mesa and OMNIA Partners Participating Public Agencies' access to field service and support staff, including system engineers, network technicians, PC, and printer repair technicians, and more.

For information about warranty and repair services, please see "Repair" below.

Leasing/Financing Services

CDW•G has an in-house Financing Solutions Team to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate among our tailored payment solution options, which include leasing, financing, subscriptions, etc. We take a consultative approach to

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

financing options that ensure the City of Mesa and OMNIA Partners Participating Public Agencies' goals are met.

At CDW•G, we focus on providing the best solutions in the industry—and that includes Financing Solutions. CDW•G can facilitate an agreement between OMNIA Partners Participating Public Agencies and various leading financing companies that can help each Participating Public Agency obtain the payment terms that best fit their unique needs and budget requirements. Agencies can secure a payment solution structure with maximized options and terms.

CDW•G's Financial Partners provide the best option to fit the City of Mesa and OMNIA Partners Participating Public Agencies' needs. For agencies with a Master Lease Agreement established, we likely have a partnership in place with their provider or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. Often, we leverage relationships with our partners to offer more advantageous rates, terms, and structures. For agencies that have diversity requirements to meet, we can recommend small and diverse partners that hold relevant certifications.

Our Premier Financing Partners include, but are not limited to, the following:

- Arrow Capital Solutions
- Cisco Capital
- Dell Financial Services
- HPE Financial Services
- Lenovo Financial Services
- LEAF Commercial Capital, Inc.

Trade-in Services – CDW•G's Information Technology Asset Disposition

When the City of Mesa and OMNIA Partners Participating Public Agencies' equipment reaches the end of its lifecycle, CDW•G can refer you to industry-leading IT Asset Disposition (ITAD) service providers to help you properly dispose of the hardware. Our partnerships with industry-leading asset disposition organizations allows for fair market value, responsible disposal, transfer of liability, and potentially credit toward new tech purchases with CDW•G.

CDW ITAD services include, but are not limited to data wiping, asset removal, evaluation, recycling, onsite shredding, potential value back credit to maximize recovery, and depot services. CDW ITAD offers many benefits to the City of Mesa and OMNIA Partners Participating Public Agencies, including:

- Logistics services for quick and efficient removal of equipment from client facilities
- Device pickup, including palletizing equipment, shrink wrapping, and transport
- Document of liability transfer provided to indemnify client from any environmental liability
- Ensure removal of all client information and software from electronic media and assets
- US Department of Defense-compliant erasure services in full support of government standards
- EPA-approved disposal
- Zero-landfill policy
- Complete serialized reporting available via a website

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Repair Services

CDW•G offers a breadth of warranty options, repair services, and maintenance agreements to provide the City of Mesa and OMNIA Partners Participating Public Agencies the assurance of predictable costs and repair response times that a warranty agreement can provide.

The standard manufacturer warranty that comes with most products is a “best effort” commitment for response time. Regardless of the application of a system for the City of Mesa and OMNIA Partners Participating Public Agencies, the “best effort” level of service is frequently not sufficient to achieve desired business continuity. Even a non-critical repair, such as a tablet, can keep a coworker without this tool for 8-10 business days. Moreover, standard manufacturer warranties can quickly expire. The average industry cost for maintenance is $85-$120 per hour plus parts; quickly leaping past the cost to extend the warranty. As such, we recommend the City of Mesa and OMNIA Partners Participating Public Agencies take advantage of the warranty, repair, and maintenance options we offer.

CDW•G offers a breadth of warranty options, repair services, and maintenance agreements to provide our customers the insurance of predictable costs and repair response times that a warranty agreement can provide. Our comprehensive suite of product lifecycle support offerings includes:

- Warranty extensions and upgrades
- Post warranty support
- Accidental damage protection
- Maintenance contract agreements
- Post-sale technical support
- Product and certification training
- Onsite repair
- Depot repair
- Help desk service

Account Managers keep a watchful eye on all of their customers’ agreements and have pre-emptive discussions to ensure customers’ next warranty purchase meets their needs as well.

Examples of our available warranty levels, popular warranty options, and related value added services are included below. The completeness of our portfolio allows us to provide effective problem diagnosis and resolution for every customer need.

Basic Warranty

CDW•G’s basic warranty offering includes the following:

- **CDW•G provided 30 day warranty** – We offer a complimentary 30 day warranty for all products we sell. Once the 30 days have expired, CDW•G’s technical support or the City of Mesa and OMNIA Partners Participating Public Agencies’ dedicated Account Manager assist in requesting the manufacturer warranty service.
- **Certified technician support** – We provide toll-free, email, and on-line chat technical support on all hardware and operating systems for up to two years after purchase from CDW. Our technical support technicians are US based, located in Holmdel, New Jersey, responding to about 60 calls a day. For insight into your technical issues, the City of Mesa and OMNIA Partners Participating Public Agencies can monitor the frequency and type of technical support requests via the CDW•G Account Center.
- **Extensive engineering support** – We have service-dedicated coworkers nationwide, aiding in pre- and post-sale questions. They provide assistance to the City of Mesa and OMNIA Partners Participating Public Agencies by phone, and we also offer on-site support. As with the technical support above, a key to great support is that they are not compensated by an individual manufacturer they are “vendor agnostic.” This allows them

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

to support the interoperability of the City of Mesa and OMNIA Partners Participating Public Agencies' entire solution, not promote a single brand. These experienced and certificated engineers provide consultation with configurations and infrastructure shifts.

Extended Warranty

CDW•G offers various extended warranty options, including the following:

CDW Maintenance Agreements

CDW's offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include:

- **Coterminous Support Contracts** - A coterminous support contract can take the City of Mesa and OMNIA Partners Participating Public Agencies existing manufacturer support plans and roll them together with one common end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement** - These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts** – Retainer contracts provide a designated block of time that guarantees the City of Mesa and OMNIA Partners Participating Public Agencies' access to field service and support staff including: system engineers, network technicians, PC and printer repair technicians, and more.

Cisco SMARTnet

Without SMARTnet, Cisco charges $400 hour for repair services. With the average repair taking four hours, customers are likely to pay $1600 per incident without SMARTnet. Cisco SMARTnet service provides enhancement and maintenance support resources during the operational lifetime of a Cisco networking device. We are the #1 Cisco SMARTnet partner, holding SMARTnet Maintenance Agreements with over 34,000 distinct customers. Our dedicated SMARTnet team has 38 SMARTnet Specialists with over 200 years of combined experience working with SMARTnet contracts and in-depth knowledge of Cisco's internal SMARTnet tools. We offer multiple length and levels of SMARTnet agreements, including onsite options. CDW is authorized to purchase directly from Cisco, which can greatly reduce the City of Mesa and OMNIA Partners Participating Public Agencies' cost for this comprehensive service.

Hard Drive Retention

CDW•G offers IBM and Lenovo hard drive retention warranty options for our customers whose hard drives store confidential customer data, trade secrets, or intellectual property, or if they need to comply with regulatory requirements. When a damaged hard drive is replaced, the customer keeps the original defected device, eliminating tracking of drives during transit and providing the utmost data protection.

Design Services

We get that every IT solution is unique and that its delivery must be customized to meet the City of Mesa and OMNIA Partners Participating Public Agencies' specific needs. In tandem with industry-leading partners, our highly experienced architects, engineers, and project managers will work with you to design solutions that meet the City of Mesa and OMNIA Partners Participating Public Agencies' needs and help you reach your IT goals. From configuration and maintenance to advanced engagements across infrastructure, workspace, security, and support, CDW•G has the expertise you need to help with all of your IT needs. We provide

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

remediation recommendations based on environment discovery and create application architecture designs and roadmaps specific to the requirements of each OMNIA Partners Participating Public Agency.

An overview of our design services include, but are not limited to, the following:

- **Solutions Design:** CDW•G helps you design specific solutions to meet your hybrid infrastructure, network, digital workspace, and security needs.
- **Transformation Design:** Design platform migrations, application upgrades, and the entirety of your digital transformation
- **Platforms Design:** Design public cloud platforms and applications with our experts. Our design and planning workshops help you align your goals and needs to create an outcome-based unified communications strategy based on end-user satisfaction.
- **Device Design:** Device Design includes custom building the right device for the City of Mesa and OMNIA Partners Participating Public Agencies' needs and providing recommendations for all key technical specifications. Once the City of Mesa and OMNIA Partners Participating Public Agencies know which products are best for your environments, we often work with our partners to custom design them – even if the device is not currently available in the market. These devices - also called Configure to Order – are built to your exact specifications.
- **Data Strategy Design:** The first step in harnessing the power of your data is having the right processes in place for collecting, analyzing, and making decisions based on what the data is telling you. CDW•G is there to suggest new ways to create an agile, modern data strategy. We conduct a comprehensive evaluation of your current data processes and platforms and then design a customized data strategy tailored to your needs.
- **Software Development/Design:** CDW•G provides remediation recommendations based on environment discovery, and create application architecture designs and roadmaps specific to your requirements.
- **Security Controls Design:** When it comes to designing security controls, CDW•G provides a comprehensive and vendor-neutral approach to prevent data breaches and proactively respond to cyberattacks.
- **Physical Security Solutions Design:** From hardware and software recommendations to floor plans that specify new device install locations, our physical security experts can design a completely new physical security system that fits your needs.
- **Infrastructure Design:** Infrastructure experts can design and implement an infrastructure that consolidates business processes and allows you to rapidly improve end-user experiences and mitigate problems on both internal and external applications.

Success Story: State Court System

Challenge

This State Court System had a mission to provide its citizens with access to the justice system and transform their digital experiences. The legacy content management system (CMS) platform was difficult to maintain and gave the website an outdated look, featuring text-heavy, static content that made it difficult to find important information. Because the site lacked the ability to incorporate reusable content, the IT team was responsible for content updates. Additionally, the site was not designed for mobile devices, which hindered the user experience for a large proportion of the users accessing the site. As a result, the platform had limited user analytics and business stakeholders had a hard time understanding user behavior. This customer needed a site platform that would optimize the user experience,

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

improve content quality and velocity, and provide deeper insights into how their users were utilizing the site.

Solution

CDW•G performed a Discovery Phase with key business and IT stakeholders to elicit and document high-level business goals, user personas, site features, high-level user stories, and the high-level technical architecture for an Adobe Experience Manager website implementation. The information gathered from the discovery phase was used as the basis for creating a list of Experience Manager templates and components that would be needed to successfully migrate the existing website to Experience Manager. The CDW•G creative team worked with the customer on their vision for the redesigned website.

After a collaborative process, the team finalized designs that would transform the existing web experience. CDW•G then implemented the required templates, components, and integrations to migrate and launch the new public website on Adobe Experience Manager. Key features of these phases included:

- **Agile delivery**: The team adopted an agile process to create and extend more than 50 Experience Manager components and templates across multiple three-week sprints. End-of-sprint demos allowed the State's stakeholders to provide early feedback on whether any course corrections or minor tweaks were needed.
- **Website redesign:** CDW•G collaborated with the customer and created more than 18 pages of designs, including both website and mobile layouts, to serve as templates that focused on providing website users with a seamless way to find and consume content.
- **CDW•G Digital Foundation**: The CDW•G Digital Foundation accelerator was leveraged to create the new website. The accelerator consists of dozens of Experience Manager components that CDW•G has invested in developing, based on common client use cases. The use of the accelerator lowered overall development complexity and effort, leading to a reduction in total implementation costs.
- **Forms search engine:** CDW•G created a forms search engine, allowing users to search for forms appropriate for their needs. Content authors can embed references to forms in searchable content, allowing forms to be more easily found than ever before. The forms search engine makes it simple for the customer to update form data in one place and reflect those form updates sitewide.
- **Analytics**: Adobe Analytics was configured with Experience Manager using Adobe Launch. CDW•G created an Analytics data layer to capture user behavior based on the customer's requirements.
- **Content author enablement and author guide**: CDW•G created an author guide, giving authors a place to find answers to their content questions, as well as a basis for how to create a page and which templates to use.
- **Strategic consulting advice:** Throughout the project, CDW•G provided strategic consulting advice with respect to Adobe product features and best practices, becoming a trusted advisor to the State's stakeholders. Our consulting and relationship with the customer were key to the project's success.

Outcome

This customer launched a newly redesigned public website and its ever-expanding capabilities through the MyCase portal. For the citizens of this state, locating and accessing information and tools is easier than ever. Whether at home or on the go, users can journey

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

through the website, find the correct resources, and navigate complex forms. CDW•G worked closely with the customer to redesign and migrate its public-facing site to Adobe Experience Manager Cloud Service. The Adobe platform gives the customer the ability to easily maintain existing content, streamline new content creation, and continuously improve the user experience by removing friction points in the user's journey.

Analysis Services

Analysis is an integral component of the design, orchestrate, and manage phases of our lifecycle of services. CDW•G possesses the most comprehensive and powerful analytical tools, enabling us to understand your current environment. Additionally, we offer a comprehensive set of analysis and assessment services that include, but are not limited to, the following:

CDW Infrastructure Assessments
SD-WAN Assessment We provide an In-depth review of the SD-WAN edge devices, architecture, and configurations to provide recommendations on how to improve the implementation. The assessment typically consists of a review of the management console, hardware, scalability, features, software version, internet design, routing configuration, policies, security, WAN optimization, SaaS on Ramp, and integrations.
Wireless Assessment We consult with the City of Mesa and OMNIA Partners Participating Public Agencies to understand the current state of the wireless infrastructure and your desired business outcomes. We conduct an in-depth review and document the current environment with an inventory list, and then provide recommendations that meet your requirements and allow you to achieve your desired outcomes.
Network Health Check This health check includes elements like tools deployed to discover network devices, End of Life (EOL) or End of Sale (EOS), and software security report, device software code recommendations, and a summary report.
Network Assessment Our Network Assessment includes all of the elements of the Network Health Check, but is more feature-rich in its diagnostic capabilities.
Next Generation Network Assessment Our Next Generation Network Assessment delivers our most comprehensive diagnostics. It includes more future-state planning artifacts, such as a roadmap tailored to the City of Mesa and OMNIA Partners Participating Public Agencies needs that outlines recommended steps for improving future-state performance and security.
Quality of Service Assessment

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

An in-depth review of each device's Classification and Marking, Queuing and Shaping, Service Provider mapping and translation, and WAN VPN.

Multicast Assessment

An in-depth review of each device's L2/L3 Multicast configuration.

DV Technical Readiness Assessments

Digital Velocity (DV) Technical Readiness Assessments are designed to benchmark current architecture, processes and practices, and the City of Mesa and OMNIA Partners Participating Public Agencies' maturity level with the goal of uncovering, at a high level, the fastest and most impactful path toward your desired future state. Assessments are available for the following focus areas: Cloud, Modern DC, Migration, Database Migration, Application Modernization, DevOps, and Data Modernization.

Hybrid Infrastructure Assessment

Our Hybrid Infrastructure Assessment Team (HIAT) has several data center use cases and scenarios to provide capacity and planning advice in tandem with CDW•G solution architects, including:

- **Environment Overview**: CDW•G's HIAT provides a detailed report of a customer's current virtualization environment.
- VMware End of Support: CDW•G and the HIAT perform a licensing and hardware compliance checkpoint for VMware Virtualization.
- **Platform Migration**: A CDW•G Solution Architect works with the HIAT to project capacity for new compute platforms for a specific environment, whether on-premises or in the cloud.
- **Consolidation:** A CDW•G Solution Architect in tandem with the HIAT can project the capacities needed to consolidate hardware or geographic locations.
- **Disaster Recovery (DR):** A CDW•G Solution Architect in tandem with the HIAT will provide the City of Mesa and OMNIA Partners Participating Public Agencies an overview of DR planning, best practices, and additional services available to assist in this critical business function.
- **Hardware Refresh**: A CDW•G Solution Architect , in tandem with the HIAT, helps the customer analyze and plan for proper lifecycle management of the data center infrastructure.

While valued at $5,000, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CDW Well-Architected Review for AWS

A CDW•G field solution architect utilizes the AWS Well-Architected tool to walk the customer through the questionnaire and then reviews the output, specifically identifying any high-risk issues with the City of Mesa and OMNIA Partners Participating Public Agencies.

While valued at $5,000, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CloudHealth: Rightsizing Existing AWS Environment Assessment

A CDW•G field solution architect enrolls the City of Mesa and OMNIA Partners Participating Public Agencies for a no-cost trial with CloudHealth and, after two-week lead time, they outline what the tool has identified for you.

While valued at $2,500, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

Power and Cooling Assessment

CDW•G's Power and Cooling team performs an analysis of the City of Mesa and OMNIA Partners Participating Public Agencies current environment.

While valued at $2,500, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CDW Storage Assessment Workshop

An analysis of the City of Mesa and OMNIA Partners Participating Public Agencies' data center storage environment, including object, file, block, cloud-based strategies, DC performance, capacity, and end-of-support planning.

VMware NSX POC Assessment Workshop

This data center assessment considers and deploys a proof of concept for the City of Mesa and OMNIA Partners Participating Public Agencies on how micro-segmentation using the NSX platform can benefit your operations.

Nutanix Configuration Assessment

Assess and summarize the Nutanix environment in terms of its current health and architecture, with a focus on technical aspects of performance, manageability, and scalability of this environment.

Veeam Availability Assessment

An analysis of Veeam's availability suite, including data protection and recovery strategies. It also covers design, performance, capacity, end-of-support planning, and a brief overview of disaster recovery.

CDW Automation and Orchestration Assessment Workshop

A process optimization and tool selection guidance workshop for Assessment and Orchestration with the outcome being a collection of highly-detailed user stories for Infrastructure-as-a-Service (IaaS) and Platform-as-a-Service (PaaS) process workflows, role definition recommendations, process optimization options, and recommended toolsets.

CDW Data Center Assessment

An assessment of the City of Mesa and OMNIA Partners Participating Public Agencies' data center infrastructure, including storage, compute, and virtualization.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Cisco Flexpod Assessment Workshop

Review of Cisco Nexus switching, UCS configuration, storage and capacity, and VMware virtualization to align with best practices.

Cisco UCS Assessment

An analysis of Cisco's UCS converged infrastructure environment, including performance, capacity, and end-of-support planning.

VMware vSphere Assessment

A VMware infrastructure assessment of up to 30 ESXI hosts and one vCenter server designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand the overall health and software status of your VMware ESX/ESXI and vCenter systems, including performance, capacity, and end-of-support planning.

CDW Security Assessments

Cloud Security Assessment

Identify gaps in security posture and create an actionable roadmap for remediation, examining all major CSPs (AWS, Azure, GCP) and multicloud environments.

Application Security Assessment

Assess application security by having a team of CDW•G security engineers attempt to break into an application used by the City of Mesa and OMNIA Partners Participating Public Agencies, whether it be an off-the-shelf product or one developed by your team.

Application Architecture Review

Identify potential concerns within an application by examining the architecture and the data flow, finding vulnerabilities, and providing detailed recommendations for improvement.

SDLC/DevOps Review

Review and improve the secure Software Development Life Cycle (SDLC) program by focusing on the use of key application security solutions, including Dynamic Application Security Testing, (DAST), Static Application Security Testing (SAST), Interactive Application Security Testing (IAST), and Software Composition Analysis (SCA).

Data Protection Modernization Assessment

Evaluate the entirety of the data protection ecosystem to ensure the City of Mesa and OMNIA Partners Participating Public Agencies' recoverability. This assessment leverages a proprietary Data Protection ScoreCard (as well as stakeholder interviews and analytics tools) to provide a report comparing the existing environment to that of the new modernized environment.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Database Security Assessment Assess database risk by evaluating the susceptibility of the City of Mesa and OMNIA Partners Participating Public Agencies' database to a host of known vulnerabilities and common attack scenarios.
Rapid IAM Assessments Assess the City of Mesa and OMNIA Partners Participating Public Agencies' current Identity and Access Management (IAM) program and its ability to defend against a wide variety of threats. This assessment aligns with ISACA's IT Assurance Framework (ITAF), COBIT 5.0, ISO 27001/27002, ITIL v3, or the NIST standards.
IAM Strategy Assessment Use business and security objectives to plot the course for an IAM program over a three- or five-year horizon, including new tool deployments, integrations, functionality improvements, and business justifications.
User Access/Privileged Access Reviews Get a system-agnostic view of the organization's user processes and roles, and identify opportunities to convert manual processes into automated workflows.
Identity Exposure Assessment Leverage a Zero Trust view to assess the CISA pillars of Identity and Device. The assessment closely aligns with the NIST Zero Trust Architecture and CISA Zero Trust Maturity Model, evaluating user and device identity management across on-premises and cloud environments for alignment with Zero Trust best practices.
Cybersecurity Maturity Assessment Leverage an established capability maturity model (CMM) to objectively evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' current security program and provide realistic maturity rankings across industry standards and frameworks, including the NIST CSF, NIST 800-53, CIS Top 20, and PCI DSS.
SAP Role Design Assessment Assess Systems Applications and Products (SAP) Production environment, reviewing role design approach, role naming conventions, organizational-level security, unassigned roles, maintenance access, end-user profile assignment, and access to sensitive IT authorizations. Provide recommendations for role remediation and optimization.
SAP GRC Access Control Configuration Assessment Assess the SAP Governance, Risk, and Compliance (GRC) Access Control (AC) environment to evaluate process documentation, configuration settings, firefighter workflow setup, firefighter log report analysis, and risk ruleset customization analysis.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Provide recommendations for improvement and a prioritized list of automation opportunities.
SAP User Provisioning and Role Change Management Process Assessment Review all provided documentation regarding policies and procedures to develop process maps for common SAP Security activities. Deliver detailed process flows for in-scope processes and recommendations for improvement and automation.
FTC Assessment Assess compliance by following a five-phase methodology for organizations faced with consent orders from the Federal Trade Commission (FTC).
PCI Assessment (Audit) Assess alignment of current practices with Payment Card Industry Data Security Standard (PCI DSS) requirements to determine compliance, issuing a Report on Compliance (Roc) or Attestation of Compliance (AoC) if appropriate. CDW•G also provides readiness assessments, scoping assistance, and Self-Assessment Questionnaire support, as needed.
Privacy Maturity Assessment (GAPP/NIST Privacy) Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' privacy program to benchmark policies, processes, and technologies against leading privacy standards, including the NIST Privacy Framework, Generally Accepted Privacy Principles (GAPP), and HIPAD35A Breach Notification requirements.
Third-Party Risk Assessments Assess the City of Mesa and OMNIA Partners Participating Public Agencies' third parties in support of enterprise-wide third-party risk management programs. These assessments be provided in a managed service format or in bundles/bulk assessments.
Privacy Compliance Assessments (HIPAA/CCPA/CPRA/GDPR/PIPL/GLBA) Measure readiness and/or compliance with all major data protection regulations, including HIPAA, CCPA/CPRA, GDPR, PIPL, and GLBA. These assessments harmonize regulatory frameworks to save costs and improve efficiency.
IT Risk Assessment Assess IT environment or specific systems to determine if existing IT policies, procedures, infrastructure, applications and security posture are aligned with the City of Mesa and OMNIA Partners Participating Public Agencies' short-term and long-term business objectives.
CMMC Pre-Assessment Evaluate the current environment against the Cybersecurity Maturity Model Certification (CCMC) framework to identify gaps and develop a mitigation strategy before the certification assessment to help shorten the time to certification.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Zero Trust Assessment Build a strategic roadmap to Zero Trust maturity through our three-phase assessment, which aligns with NIST SP 800-207 guidelines and the Cybersecurity and Infrastructure Security Agency (CISA) Zero Trust Maturity Model.
Security Operations Assessment Benchmark the Security Operations Center (SOC) against CDW•G's best practices program, peer organizations, or historic organizational performance levels.
DDOS Resiliency Assessment Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' ability to maintain business continuity and continue critical operations in the face of a Distributed Denial-of-Service (DDoS) Attack.
IoT Device Assessment Provide visibility into and control over the IoT devices on the network, improving the City of Mesa and OMNIA Partners Participating Public Agencies' ability to respond to issues and threats.
Cyber Workforce Assessment Assess the suitability of the cyber workforce to defend the organization by evaluating roles and responsibilities, governance, and the knowledge, skills, and abilities of the individuals.
Web App Penetration Testing Identify and test the full attack surface of the provided application to achieve a full-breadth test of all user-facing functionality.
IR Readiness Assessment Assess the City of Mesa and OMNIA Partners Participating Public Agencies' ability to respond to threats from inside and outside of the network perimeter. CDW•G can also help with Incident Response (IR) Program Development and IR Tabletop Exercises.
ASV Scanning Scans all Internet-facing systems that store, process, transmit, or impact the security of cardholder data (CHD) to adhere to the requirements of the current version of the PCI Data Security Standard.
External Penetration Testing Identify and test the full external attack surface of the City of Mesa and OMNIA Partners Participating Public Agencies to achieve a full-breadth test of all available services exposed to the public internet.
Internal Penetration Testing

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Identify and test the full internal attack surface of the City of Mesa and OMNIA Partners Participating Public Agencies to increase your overall security posture by identifying the maximum number of lateral footholds on a network that should be remediated.
Mobile Penetration Testing Identify and test the full attack surface of the provided application to discover vulnerabilities in several areas, including implementation and platform usage, storage and transmission of sensitive data, and communication with external resources such as API endpoints.
Physical Social Engineering Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' ability to prevent and react to a targeted, non-destructive physical intrusion. This engagement includes both surreptitious and overt contact with the target facility, including masquerading as legitimate occupants or authorized third parties.
Social Engineering Evaluate your ability to prevent and react to a targeted attack as well as the effectiveness of security awareness training provided to users. Can use Phishing (email-based simulations) and/or Vishing (telephone-based simulations) methods.
Vulnerability Assessment Evaluate current IT systems to determine and categorize present vulnerabilities by classifying and ranking vulnerabilities. Provides a customized report with cost-effective, concise recommendations to tackle specific security problems or threats.
Wireless Penetration Testing Assess the organization's wireless attack surface by identifying corporate-sanctioned wireless assets and evaluating their respective security policies. Subjects all networks to active exploitation with the intent of accessing internal corporate resources.
Compromise Assessment Leverage many of the same tools and tactics as attackers to conduct active threat hunting and develop indicators of compromise based on the recognized MITRE ATT&CK framework.
Secure Endpoint Health Check This health check validates the status of a microservice and its dependencies.
Red Teaming Services Assess the detection and response capabilities of an organization's Blue Team (defensive security professionals) in the event of a targeted attack. Attempt to gain access to the internal network through various attack vectors while subverting the organization's defenses.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Purple Teaming Services In our Purple Teaming Services, our CDW Red Team (offensive security professionals) pairs with the City of Mesa and OMNIA Partners Participating Public Agencies' IT security personnel (i.e., Blue Team) during simulations of specific attack scenarios to improve defenses and incident response procedures throughout the engagement.
Segmentation Validation Evaluate the effectiveness of any network segmentation controls used to reduce PCI DSS scope by attempting to connect to and access the cardholder data environment (CDE) from internal network segments intended to be out-of-scope for PCI DSS compliance.
Cisco Umbrella Health Check Review the Umbrella dashboard must-haves and help the City of Mesa and OMNIA Partners Participating Public Agencies identify common issues and how to maximize their protection.
Cisco Email Security Appliance (ESA) Health Check Evaluate the status of a customer's Email Security Appliance, configuration, and lifecycle with industry-standard recommendations.
Cisco Web Security Appliance (WSA) Health Check Evaluate the status of the City of Mesa and OMNIA Partners Participating Public Agencies' Cisco Web Security Appliance, configuration, and lifecycle health with industry-standard recommendations.
Cisco Identity Services Engine (ISE) Health Check Evaluate the Cisco Identity Services Engine with a system engineer focused on ISE best practices.
Cisco Firepower Threat Defense Health Check Analyze Cisco firepower configuration and posture as it relates to the City of Mesa and OMNIA Partner's security needs.
Cisco Secure Network Analytics Health Check Evaluate the Cisco Secure Network Analytics configuration and its ability to provide comprehensive visibility and network traffic analysis.
Microsoft Active Directory (AD) and Hybrid Identity Assessment Evaluate the state of the entire AD infrastructure, including services configuration, directory health, management processes and compliance.
Microsoft Active Directory Domain Services Health Check Conduct a health check on Active Directory (AD) domain configuration, looking for misconfiguration and industry-standard security vulnerabilities in the AD setup.

Microsoft 365 Security Assessment

Analyze your Microsoft 365 environment to ensure it is configured and secured based on your unique needs.

Microsoft Public Key Infrastructure (PKI) Health Check

Analyze the City of Mesa and OMNIA Partners Participating Public Agencies' design and configuration of your public security keys and provide recommendations to create a go-forward strategy.

Microsoft Security Threat Assessment

Analyze the City of Mesa and OMNIA Partners Participating Public Agencies' security posture as well as the tools and solutions used. Includes recommendations on a go-forward security strategy.

Palo Alto Networks Health Check

Analyze the health and posture of the City of Mesa and OMNIA Partners Participating Public Agencies' Palo Alto Networks environment as it relates to your security needs.

Splunk System Health Check

Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' deployment health through license usage, resource usage, server status, and usage patterns.

Splunk Data Optimization Assessment

Review current Splunk procedures, processes, and data sources for performance, capacity, configuration, and other indicators to identify any critical gaps and optimization targets. Provide recommendations on architecture and deployment.

CDW Workspace Assessments

Collaboration Architecture Advisory

CDW•G engineers will review your Cisco Collaboration environment for pain points and best practices while also analyzing the opportunities to leverage the latest advancements in Cisco Webex cloud collaboration technology. The engineer will prepare a report with the findings of the analysis as well as provide a high-level roadmap of recommendations so the City of Mesa and OMNIA Partners Participating Public Agencies get the most from their Cisco Collaboration investment.

Emergency Calling Assessment

Our highly qualified engineers evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' current collaboration environment for Emergency Calling best practices, including company policies, emergency response locations, remote and mobile users, notification alerts, and address delivery. The engineer prepares a report with the findings and provides the City of Mesa and OMNIA Partners Participating Public Agencies with a high-level roadmap of recommendations to limit your liability, ensure

your users are able to reach emergency services quickly, and give you the best chance to receive help at the right location.
Customer Engagement Center Cisco UCCE Health Assessment CDW•G engineers review the City of Mesa and OMNIA Partners Participating Public Agencies' Cisco Contact Center Enterprise environment for pain points and best practices. The engineer prepares a report with the findings of the analysis as well as provides a high-level remediation plan to address any issues found.
Customer Engagement Center Business Analysis CDW•G business analysts meet with the City of Mesa and OMNIA Partners Participating Public Agencies' contact center teams to understand pain points and goals. The analyst looks for opportunities for improvement in handling, efficiencies, and opportunities to apply best practices. The consultant prepares a report with the findings of the analysis and provides the City of Mesa and OMNIA Partners Participating Public Agencies' with a high-level remediation plan to address any issues found.
Microsoft 365 Best Practice Assessment Workshop The Microsoft Office 365 Best Practice Assessment helps the City of Mesa and OMNIA Partners Participating Public Agencies' validate your existing Microsoft Office 365 design (e.g. Exchange Online) and validates it is configured according to best practices.
Microsoft 365 Governance Assessment Workshop Provides review and recommendations concerning the City of Mesa and OMNIA Partners Participating Public Agencies' Office 365 governance models and/or policies.
Microsoft 365 Network Performance Assessment Workshop Provides review and assessment of up to four workstations in (up to) four physically separate network sites. It evaluates the workstations' abilities to successfully access Office 365 services quickly.
SharePoint 2010-2019 Assessment Bundle Our SharePoint Migration Assessment leverages a proprietary tool developed by CDW SharePoint Specialists to scan the contents of your SharePoint Farm and help identify features and content that will impact your transition to another SharePoint service level/version. The Assessment Bundle includes the initial setup and run of the tool, in addition to a full assessment of a single SharePoint Farm.
CDW Microsoft Teams Assessment and Jumpstart This Microsoft Teams solution includes basic planning, design, adoption, and pilot migration. This project is a week-long engagement that allows the City of Mesa and OMNIA Partners Participating Public Agencies to utilize Teams in your production environment with adoption advice and content.
Microsoft 365 CISO Security Workshop

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

The Microsoft 365 CISO Security Workshop allows CDW•G to learn about the City of Mesa and OMNIA Partners Participating Public Agencies' unique needs and develop a strategic plan based on approaches recommended by Microsoft experts. The workshop covers both product and solution best practices and configuration recommendations around the security features of Microsoft 365.

Microsoft 365 CISO Security Workshop with Sentinel

The Microsoft 365 CISO Security Workshop with Sentinel allows CDW•G to learn about the City of Mesa and OMNIA Partners Participating Public Agencies' needs and develop a strategic plan based on approaches recommended by Microsoft experts. The workshop covers product and solution best practices and configuration recommendations around the security features of Microsoft 365 and Sentinel.

Microsoft 365 Security Device Protection

As more and more users become mobile and are using a wider variety of devices, applications and documents need to keep up. How does the City of Mesa and OMNIA Partners Participating Public Agencies' manage these devices while providing secure and reliable access to applications and data? Microsoft 365 helps provide easy, secure access to any device, no matter where someone might be. Device Protection will include the steps necessary to understand your requirements and develop the deployment plan just for you.

Microsoft 365 Security Identity Protection

Microsoft 365 provides numerous tools to provide additional layers of security and also has tools to identify and protect access in real-time. Our Microsoft 365 Security Identity Protection Assessment Workshop includes the steps necessary to understand your requirements and develop the deployment plan just for you.

Microsoft 365 Security Information Protection

This engagement provides the best practices on how to configure the products to achieve the City of Mesa and OMNIA Partners Participating Public Agencies' goals. This will provide a functional roadmap to ensure security and compliance is built into the Office 365, Windows 11 and EMS solution.

Microsoft Enterprise Mobility + Security

This engagement reviews the City of Mesa and OMNIA Partners Participating Public Agencies' current environment to identify issues and usage of features. We review a single EMS subscription, including all the cloud components, Microsoft Entra ID P1/P2, Intune, Azure Information Protection, Azure Rights Management Service, Azure Advanced Threat Protection, and Cloud App Security. The results of the review provide recommendations to address issues and a roadmap for adoption of additional components.

Assessment of Workspace ONE

This engagement provides an in-depth discovery of the City of Mesa and OMNIA Partners Participating Public Agencies' Workspace ONE environment to ensure all

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

management utilities are being used properly and that you are taking advantage of to get the best experience for your users and IT.
Health Check for Jamf Pro This engagement helps ensure you are managing your Apple devices properly through the mobile management utility Jamf Pro based on the City of Mesa and OMNIA Partners Participating Public Agencies' environmental needs.

Configuration Services

The City of Mesa and OMNIA Partners Participating Public Agencies Participating Public Agencies can rely on CDW•G to preconfigure their technology solutions and provide custom turnkey solutions for plug-and-play deployment. We offer a wide array of services to address the various tasks involved in configuration projects, including hardware and software installation and configuration, testing, imaging, domain integration, branding, labeling, asset management, delivery & distribution. Our Configuration Centers roll out 2.6 million products every year - more than 10,000 custom units a day.

The benefits of our configuration services are as follows:

- Lower configuration, integration, and overall deployment expense
- Reduce risk and time to deploy
- Improve delivery, distribution, and tracking of assets
- Complete projects on schedule
- Free IT staff and resources to work on higher-level projects

Our Configuration Team can provide many services, including:

- **Hardware Integration:** Hardware integration services include installation of memory, hard drives, NIC cards, video cards, and a variety of other components.
- **Software Configuration:** When it comes to software, your computers, mobile devices and servers will come with OSs and apps pre-installed. We offer White Glove Service to prep and provision Chromebooks.
- **Custom Imaging:** Including image creation, maintenance, and deployment, we can host a secondary server to connect to your SCCM or other image deployment server via VPN. Customizable options include pre- and post-imaging tasks like domain join and security upgrades.
- **Rack Configuration:** We mount and configure your network and security devices, rack-mount servers, chassis blade servers, storage, KVMs, UPSs, and PDUs into a rack structure, then cable and label before shipping.
- **Mobility Services:** We configure and activate your tablets, phones, handhelds, and Wi-Fi hotspots. Additionally, services that include MDM enrollment, App installations, IOS and Android updates are also available.
- **Custom Laser Engraving:** Your logos and other important information can be engraved onto notebooks, mobile devices, and other equipment. We can laser engrave static content and/ or one field of dynamic content, such as the device serial number.
- **Asset Tagging and Reporting:** You have the option to use CDW•G-branded labels, customer-provided labels, or our team can build custom labels that we print on-demand, including UID/IUID identification labels for US Government applications. Extensive information on your devices is available via the Order Reporting and Hardware Asset Management functions on your CDW•G Account Center.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Network and Security Device Configuration:** We configure firewalls, routers, switches, access points, and IP phones for all the largest manufacturers. These services include system software/firmware upgrade or downgrade, uploading master configuration files, and configuration of IP address, subnet mask, and default gateway. All customization is based on the City of Mesa and OMNIA Partners Participating Public Agencies' unique specifications.
- **Burn-in Services:** We run your devices for 12 hours or more to ensure all components are working properly. This includes running a diagnostic program (where applicable) to test basic functionality. This service is designed to reduce the number of items that fail after a short period of use.
- **Software and Imaging:** We have a team of engineers, technicians, and team leaders trained to work on image and software deployments. Customer-specific deployment instructions are strictly followed to ensure your devices are imaged and configured your way.
- **Custom Packaging:** This includes kitting, palletization, inserts and welcome letters, and box labeling.
- **Buy and Hold Services:** This allows you to purchase products and have them held in a secure location anywhere from three months up to a year. CDW•G handles the configurations, customizations, logistics, and shipping requirements to ensure your pre-defined deployment schedule is met.

Configuration Quality Assurance

Either our own best practices or your specific deployment instructions are strictly followed to ensure devices are configured to meet each customer's requirements. The City of Mesa and OMNIA Partners Participating Public Agencies can provide a custom checklist to CDW•G for additional verification and testing.

All Configuration Center workers are trained on CDW's best practice quality assurance procedures that include a comprehensive check of each system we touch. First, we verify the compatibility of all components to be installed. Second, we verify that each component is installed properly, and the hardware installation is complete. Finally, we ensure that all hardware and software are functioning according to manufacturer specifications. Each step is completed by a qualified technician and verified by a Quality Control (QC) technician. CDW is ISO 9001:2008 compliant and the names of the primary technician and QC technician are recorded for all orders. All team members are held accountable for adhering to our quality assurance procedures. If any issues are encountered, CDW•G will contact you immediately to resolve the issue.

Any defective or damaged devices that are discovered during the configuration or warehousing process will be removed from stock and replaced with new, functional devices. The damaged or defective devices will be returned to the manufacturer on CDW's behalf. This process will not require the customer's involvement and should happen transparently to the customer.

Implementation Services

Our expert engineers configure and deploy your solutions to help you implement technology according to the City of Mesa and OMNIA Partners Participating Public Agencies' unique needs and ensure it works from day one. We can build, create, and analyze software or services, as well as test and release into a defined environment and implement changes outlined in the design phase. We implement technology adoption and organizational change management plans to ensure you're fully utilizing your technology solutions and deriving the value you expect.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Any successful implementation requires careful attention to the management of the scope, people, and process of each project. Through our experience with numerous complex projects, CDW•G has refined an implementation methodology that uses project management best practices combined with real-world lessons learned. Our methodology has resulted in a standard for how we choose the people we hire, the way we structure our project teams, and the project milestones we set for customer acceptance.

We believe effective project management requires careful attention to the following plan elements and an appropriate level of communication between project participants. Our project plan includes the following components:

- Scope of Work
- Project Schedule
- Communication Plan
- Statement of Work
- Risk Management Process
- Change Management Process
- Issue Management Process
- Assumptions
- Deliverable Management
- Customer Responsibilities
- Partner Management
- Project Acceptance
- Contract

The graphic below provides additional insight into our comprehensive methodology.

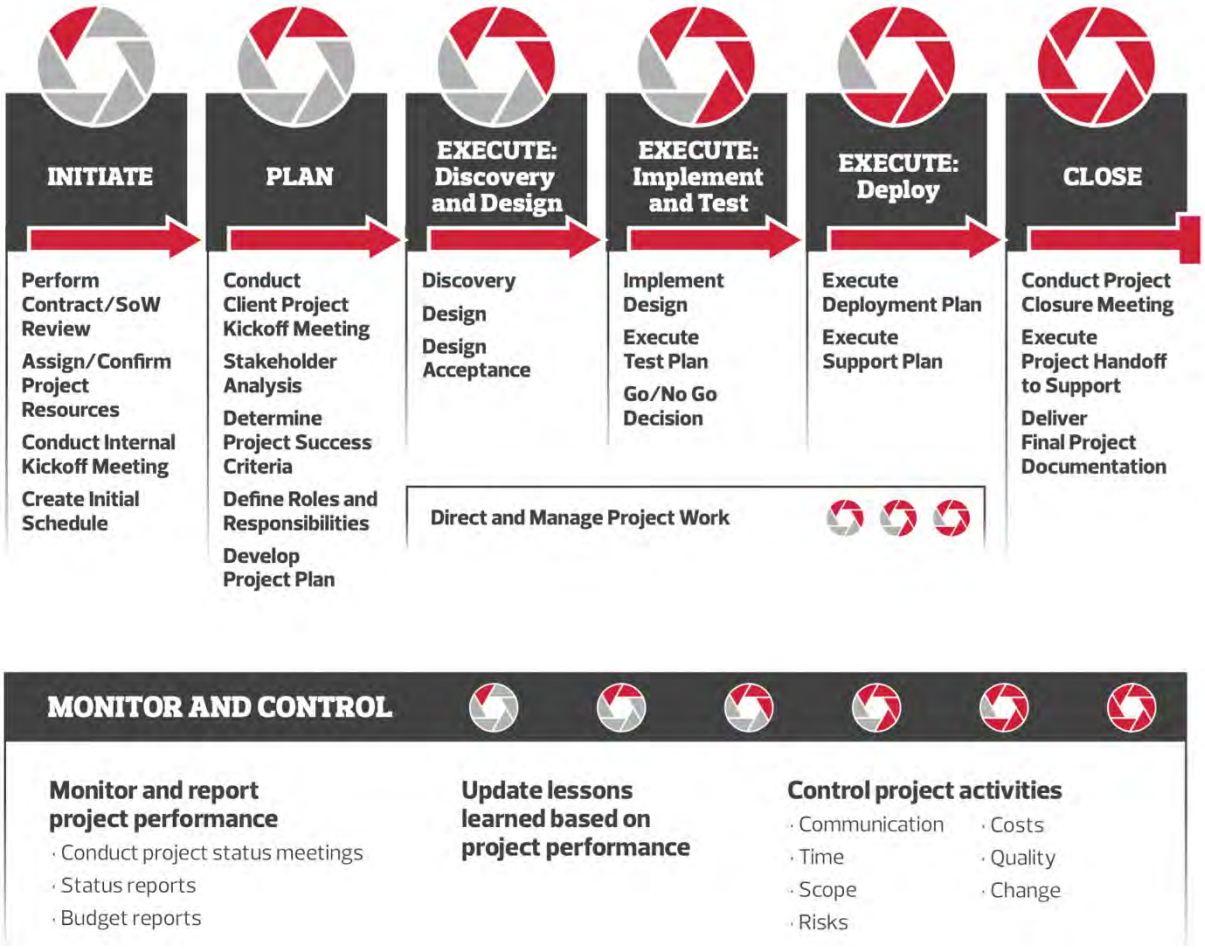

Figure 17. CDW•G's Comprehensive Project Management Methodology

Installation Services

CDW•G installs hardware, software, peripherals, and more. We offer a wide array of services to address the various tasks involved in configuration projects, including hardware and software installation and configuration, domain integration, branding, labeling, asset management, delivery, and distribution.

Our installation services include, but are not limited to, the following:

Computing Installation

Our installation services can help take the burden off your busy IT staff. We can help install and deploy new desktops, notebooks, and printers quickly and easily. We also assist with de-installation and moving of existing equipment, configuration services, and basic IT staff training (if needed) to ensure a custom solution that fits your environment.

Data Center Installation

We can help you optimize your data center with implementation services around your server, storage, power, and cooling technologies.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Network Installation

Whether it be WAN or LAN, wired or wireless, we are ready to help you implement new network technology smoothly and efficiently.

Security Installation

In addition to offering a comprehensive security assessment, our security specialists can help ensure that your security solution is properly designed and implemented.

Interactive Whiteboard and Flat Panel Installation

Need to update a classroom or conference room with interactive whiteboards or flat panels? We offer manufacturer-certified specialists who can perform site-specific installation at your organization or institution.

Training Services

Our training sessions and programs align the training needs of your workforce with the goals of your technology projects, ensuring that teams across the City of Mesa and OMNIA Partners Participating Public Agencies' have the skills they need to support and optimize your tech stack long-term.

Product Training

CDW•G leverages our top partnership levels with the industry-leading OEMs on behalf of the City of Mesa and OMNIA Partners Participating Public Agencies. We work with you to host Technology Symposiums, which brings our best-of-breed partner network on-site to share key industry updates, product roadmaps, and technical deep dives. Our technical specialists, alongside OEMs will conduct product roadmap sessions, arrange demo loan products, and facilitate a combination of web and onsite training sessions.

CDW•G has two Technology Experience Centers (TEC) in the US that are fully functional data centers and networks, where the City of Mesa and OMNIA Partners Participating Public Agencies can experience technology in action — remotely or onsite.

These facilities offer onsite and remote demos of leading solutions and are managed by our Demo Lab team. These labs demonstrate how integrated solutions work in a real-world environment and help the City of Mesa and OMNIA Partners Participating Public Agencies determine which solutions best meet their needs. Demonstrations allow our customers to:

- See the newest technologies built as integrated solutions
- Host static demos that offer insight on how technologies work
- Help customers compare alternative solutions side by side
- Explore how the latest innovations can help customers achieve their goals

The City of Mesa and OMNIA Partners Participating Public Agencies can work with your dedicated CDW•G Account Managers to arrange a virtual or in-person visit to our Technology Experience Center. CDW•G will work to make as much training as possible through the above options.

Additionally, on any Professional Services engagements, knowledge transfer is part of our core methodology, ensuring that on-the-spot training is taking place and that IT staff knows how to manage and drive the new technology or environment upon our engineers' departure. CDW•G also offers a wide array of in-depth training options and workshops, highlighted below.

Training Courses

We have experience in orchestrating IT projects and initiatives, from small and medium-sized businesses to enterprises. Combining our elite curriculum with the expertise and depth of our solutions and services gives the City of Mesa and OMNIA Partners Participating Public Agencies the skills you need to optimize your IT investments and achieve their most important outcomes.

Our courses meet the same standards for quality, interactivity, and alignment with today's biggest technology challenges. **Highlights** of our training courses include the following:

- Our courses are created and led by some of the world's best instructors, whose scores for delivery from students average 4.9 out of a possible 5.
- Each course is designed to maximize time spent in hands-on learning, including lab/range exercises and debriefs, tool walkthroughs, and case studies.
- Born out of some of the most demanding Security Operations Centers (SOC) in the world, our proprietary curriculum is uniquely sophisticated and pairs with vendor technology training to deliver a complete solution to your security and IT skills needs.
- Our training is developed in collaboration with industry leaders who share our commitment to thorough, leading-edge IT training. It's always up to date, with instructions specific to the latest versions of each tool.

Our courses are designed for virtual instruction, but they can also be taught live at your location. We'll tailor your workforce development program to meet the needs of each Participating Public Agency, wherever they are.

We offer courses and bundles to support virtually any project you may be initiating.

Please see our training catalog in Appendix 3. Additional courses and workshops include, but are not limited to, the following:

CDW OS ITSM Simulation/Executive Visioning Workshop

By participating in our IT Service Management (ITSM) business simulation workshop, the City of Mesa and OMNIA Partners Participating Public Agencies can learn how to increase the business impact of their internal service provision. This hands-on, highly interactive IT/Business workshop is designed to educate the City of Mesa and OMNIA Partners Participating Public Agencies' leadership and stakeholders in the business structure of process with technology.

Participants are given roles in a sub-optimal business unit in which they have to respond to real, everyday challenges and transform processes and underlying technology that meet the needs of the business. Results improve as each round concludes.

Benefits of this workshop include the following:

- Identify in real time how political, business, process, and technology issues intermingle and affect overall business results.
- Directly experience the increased efficiency yielded by process improvement.
- Achieve better alignment between leadership and staff as it relates to both process and internal cooperation.
- Learn to work better together as a team so that projects succeed.

CDW OS ITIL Training: One-Day Awareness/Three-Day Foundation

Our approach takes you on a journey through the five stages of the ITIL service lifecycle and helps the City of Mesa and OMNIA Partners Participating Public Agencies adopt best-practice

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

processes used by leading organizations worldwide with tremendous positive impact. Whether you need full training and certification for key members or simply an executive overview for greater awareness and adoption, we've got you covered.

Our One-Day Awareness workshop educates and informs leadership by using case studies from organizations around the globe that have successfully implemented ITIL. We take a high-level, results-oriented approach to the People, Process, and Platform elements of the service improvement in order to convey:

- Key concepts of ITIL
- Practical guidance for applying ITIL to everyday IT situations
- How to align with business, control costs, and improve IT service quality
- Strategies to balance IT resources with business needs and objectives
- The role of technology and how to maximize its value

Our Three-Day Foundation course covers all material specified in the ITIL Foundation certificate and prepares attendees to successfully achieve their Foundation certification. We infuse real-world examples throughout and discuss overcoming the practical challenges and barriers to implementing process improvement. All of our instructors are ITIL experts and have years of hands-on IT practitioner experience, enabling them to effectively intertwine theory and real-life stories and scenarios.

CDW OS Process Alignment Workshop

Process improvement consulting is critical for state agencies striving to advance their process maturity in order to improve IT service delivery responsiveness, maintain consistent levels of service, and increase customer satisfaction.

Led by our Advisory Consultants, this half- or full-day Process Alignment Workshop is grounded in ITIL and industry best practices. Instead of reinventing the wheel, we'll focus on new processes that are in-scope for a project, aligning with existing processes in order to work together at all levels.

IoT Transformation Workshop

Our Internet of Things (IoT) Transformation Workshop is designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand your data needs, determine return on investment (ROI), and evaluate their foundational infrastructure to determine if any technical components should be retired, evolved, or added before implementing an IoT technology initiative.

In the workshop, we will walk through five focus areas:

- **Business drivers:** We'll outline business drivers for IoT, starting with your key stakeholders, business processes, business systems, and linkage to company goals.
- **Data investigation:** We'll review the data that needs to be derived. What kind of data are you gathering? Can this data be used by other departments? Is it revenue-generating data that can be sold to your customers as a service? We'll help you review your data to determine how your business will benefit from the data discovered as part of this workshop.
- **System of systems:** Do you need to pull in third-party data for this solution? Examples may include data from The Weather Company (an IBM business), mapping software, or data from other external tools or systems.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Infrastructure readiness:** We'll determine if your infrastructure is adequate for the proposed IoT solution.
- **IoT technology:** You'll understand what related IoT technologies will need to be implemented for your new solution

CDW Information Security Cybersecurity Workshop

We offer half-day and full-day Cybersecurity Workshops for security leaders. We assemble our top experts in a range of domains — from compliance to data governance to zero trust to IAM and more — and spend dedicated time with your team to validate strategies, recommend best practices and align with organizational goals and expectations.

Our workshops are tailored to each state agency's needs and goals, with subject matter experts from a range of specialty areas. These sessions can be scheduled to kick off the beginning of a strategic planning cycle, to validate an existing plan or to "course correct" in the middle of execution. Each full-day or half-day workshop includes:

- **Expert Panel:** A grouping of experts, tailored to your desired topics of discussion. Workshops can be domain specific or can span the entirety of your cyber strategy.
- **Clear Recommendations:** Our workshops are designed to produce actionable guidance that makes a material improvement in your security program.
- **Fresh Insights:** Our experts are specialists in their fields, giving you the scoop on the newest technologies, best practices in the field and 12-18-month trend predictions.

CDW OS Organizational Change Management Planning Workshop

This three-day workshop teaches participants the Organizational Change Management (OCM) framework for managing the effect of change on an organization, including new business processes, changes in organizational structure, overcoming cultural hurdles within an organization and more. We accomplish this through an approach that is based on the five-step ADKAR framework in order to help you deal with the human-aspect of change management: Awareness, Desire, Knowledge, Action, and Reinforcement.

This workshop offers a myriad of valuable benefits aimed at enhancing your organizational prowess. Delving into the organizational history of the City of Mesa and OMNIA Partners, participants will gain a comprehensive understanding that serves as the foundation for crafting an effective communication and marketing plan, inclusive of targeted training initiatives. The workshop goes beyond theoretical concepts, providing practical insights into resistance management planning, a crucial skill set designed to preempt and navigate adoption challenges seamlessly. Additionally, our expert facilitators will guide participants in the formulation of a robust coaching plan, enabling them to identify and leverage strategic opportunities for optimal growth and development. In essence, this workshop is a holistic approach to empower your team with the knowledge and tools needed to propel your organization toward success.

PMO Assessment Workshop

Our DCT leads our Project Management Office (PMO) Assessment Workshop. This workshop is a high impact, comprehensive program to assess and improve Project Portfolio Management (PPM) practices over the course of 3-4 weeks. This comprehensive program consists of three survey domains: PPM current state, PPM satisfaction, and PPM assessment.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

IT Practices Workshop

Led by our DCT team, the IT Practice Review workshop gives the City of Mesa and OMNIA Partners Participating Public Agencies visibility into how your organization operates. Through a holistic approach, we look beyond process documentation into how teams work together. Each Agency is unique, and how processes are designed and implemented can either work for or against business objectives. In 2 short weeks, agencies will have a high-level map of their strengths and weaknesses and a plan to ensure their processes propel them to reach their goals.

IT Resource Cost Benchmarking Workshop

It's simply good business to operate in a cost-efficient manner and continually look and plan for opportunities that will improve the bottom line. Led by our DCT team, our IT Resource Cost Benchmarking Workshop can help the City of Mesa and OMNIA Partners Participating Public Agencies identify and plan areas for cost optimization using data-based metrics and relevant industry comparisons to support best-case decisions. Whether each agency is anticipating a cost reduction mandate, focused on continuous improvement, or simply wants better insights into their IT cost structure, our cost benchmarking study will have you covered.

For more of our training offerings and workshops, please see our training catalog in Appendix 3.

Maintenance Services

CDW•G offers various maintenance agreements to cover all types of vendors, products, and service levels. Our offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include the following:

- **Coterminous Support Contracts.** A coterminous support contract can take the City of Mesa's existing manufacturer support plans and roll them together with one standard end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement.** These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts.** Retainer contracts provide a designated block of time that guarantees the City of Mesa's access to field service and support staff, including system engineers, network technicians, PCs, and printer repair technicians, and more.

For a more comprehensive overview, please see "Repair" above.

Advisory Services

Please see "Consulting and Advising" above.

Managed and Support Services

CDW•G offers a wide variety of managed and support services. In June 2023, we ranked #10 out of 501 in the prestigious 2023 Channel Futures Managed Service Providers (MSP) 501 rankings; MSPs that qualify for the list must pass a rigorous review conducted by the research team and editors of Channel Futures. Applicants are ranked using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue, and operational efficiency.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Our Managed Services offerings allow the City of Mesa and OMNIA Partners Participating Public Agencies to contract for support of your networks, systems, databases, and select applications. Our modular approach to IT management allows you to select services that best support your individual organization's goals and current capabilities.

We offer end-to-end solutions, including strategy development, technology selection, implementation, and operation. We offer multiple delivery models, including on-premises, off-premises, cloud, and as-a-Service models. Benefits of our Managed Services practice include the following:

- Establishing security posture
- Improving governance and overall operation
- Increasing availability and performance
- Making informed, strategic decisions based on data

Services include:

- Managed Infrastructure
- Managed Cloud Services
- Managed Security Services
- Managed Resiliency Services
- Managed Digital Experience

Managed Infrastructure Services

We offer ITIL-based monitoring and management services to help you manage your existing environments and focus on value-driving initiatives with Mainframe, IBM Power Systems, Converged and Hyperconverged Platforms, OS, Database, Storage, Network, Application Managed Services, and Service Management. Part of our Managed Infrastructure Services include, but are not limited to, the following:

Operating Systems, Applications, and Services

- Managed Patching as a Service
- Managed Mainframe Services
- Managed Mainframe Automation
- Managed Mainframe Monitoring

Data Center

- Managed Colocation Services
- Managed Storage Services
- Managed Backup and Restore Services
- Managed Server Virtualization Services
- Managed Database Services
- Managed Converged Infrastructure Services
- Managed Hyper-Converged Infrastructure Services

Network

- Managed Switching Services for OEMs such as Aruba, Cisco, Extreme, HPE, Juniper, and more.
- Managed Routing Services
- Managed Load Balancing Services
- Managed WAN Optimization Services
- Managed Wireless Networking Services

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

- Managed Policy and Access Services

Managed Cloud Services

We help make your cloud initiatives successful — from application through migration and management with Cloud Enablement Services, Managed Private Cloud, Managed Cloud – AWS, Azure, and Google Cloud Platform (GCP), Managed Security for AWS and Azure, Sirius Power Cloud, SIEM as a Service, Monitoring as a Service, Patching as a Service, Unified Communications as a Service and Backup as a Service.

CDW•G has a Government Cloud Managed Services Team that understands the unique challenges public agencies face with regard to managed cloud solutions because we understand that managing a complex and evolving cloud environment requires unique and specialized skills. When production and business-critical systems must remain online without disruption, we can keep your infrastructure operating optimally. Our Managed Services for Cloud are an integral component of the City of Mesa and OMNIA Partners Participating Public Agencies' end-to-end digital transformation.

With CDW•G's trio of cloud MSP certifications, we have the expertise and experience to support the City of Mesa and OMNIA Partners Participating Public Agencies across all major cloud platforms. With AWS MSP and Microsoft Azure MSP certifications already under our belt, we are now one of a select few providers in North America, and an elite group of providers globally, to hold all three major cloud MSP certifications. Whether Participating Public Agencies are looking to migrate to the cloud, optimize their existing cloud environments, or manage multiple cloud platforms, CDW•G has the capabilities, talent, and resources to help the City of Mesa and OMNIA Partners achieve your unique goals. An overview of our Cloud Managed Services offering is as follows:

- **Managed AWS Services:** Our comprehensive next-generation Managed Services for AWS is backed by more than 20 years of managed services support experience. Delivered through CDW's Enterprise Command Center and managed by AWS-certified architects, consultants, and engineers, the City of Mesa and OMNIA Partners can focus on proactive initiatives and outcomes, not technology management.
- **Managed GCP Services:** Our GCP-approved architects, consultants, and engineers provide the day-to-day management so you can harness the power of your technology instead of simply managing it. Our cloud experts work closely with our customers to guide them to an end-to-end cloud management strategy that brings clarity to the cloud.
- **Managed Azure Services:** As a CSP provider for Azure and a Gold Platform member of the Microsoft Partner Network, CDW assists customers with the adoption and implementation of Azure securely and efficiently. We have a long-standing, award-winning relationship with Microsoft that we extend to our clients.
- **Google Cloud Managed Service Provider (MSP) Initiative:** CDW has successfully completed the requirements to participate in the Google Cloud Managed Service Provider (MSP) Initiative, bringing new capabilities to CDW•G's services portfolio and turning it into a trifecta in cloud-managed services. Google Cloud's differentiators bring to CDW an opportunity to accelerate customers' interest in innovative Managed Security Plays and Generative AI ventures. To receive this Google recognition, CDW demonstrated through third-party expert-assessment deep knowledge of Google's technology stack; CDW proved experience and stability in long-term managed customers and showcased a sound practice of support operations with Google-certified individuals on-call.

Managed Security Services

Today's siloed security tools force analysts to pivot from console to console to piece together investigative clues, resulting in painfully slow investigations and missed attacks. Even though they've deployed countless tools, teams still lack the enterprise-wide visibility and deep analytics needed to find threats. Faced with a shortage of security professionals, the City of Mesa and OMNIA Partners IT Teams can leverage CDW•G to simplify security operations in a vastly changing security landscape. CDW's Managed Security Services bring mature processes and industry experts to support your security threat landscape.

The CDW Managed Security Services suite provides coverage for critical security tools and processes. The support model includes 24/7/365 support; this type of around-the-clock monitoring is essential for government entities like the City of Mesa and Participating Public Agencies that require vigilance and prompt response, all while complying with local regulations and standards. Our 24/7/365 model includes support for the following:

- Vulnerability Scanning Management
- Next-Generation Firewall
- Endpoint Protection
- Identity Access
- Security Incident Event Management
- Behavioral Analytics
- Security Orchestration Automation and Response

Our 24/7/365 Security Operations Centers stop threats with a cohesive, multifaceted approach designed to maximize return on investment by utilizing the top security tools in the industry, including, but not limited to, the following: Tenable, Palo Alto Networks, Cisco, Check Point, IBM, Exabeam, and CrowdStrike. Workflows are built on time-proven ITIL processes combined with top-tier commercially available tools to avoid vendor lock-in due to proprietary solutions.

To enhance deployed security tools, CDW•G uses threat intel feeds, proactive threat hunting, IOC research and investigation, automation, and machine learning. Your security landscape is supported by expert analysts with extensive experience and credentials. Our security team has 500+ security certifications and a team of 500+ experts. Some of our certifications include, but are not limited to, the following:

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Figure 18. Overview of Security Certifications

Managed Resiliency Services

We help maintain business continuity and recover critical applications and data with Managed Backup, Managed Disaster Recovery, and Managed High Availability.

Thoroughly protecting your organizational data from threats and recovering when needed can be complicated. With CDW Data Protection solutions, from industry-leading partners, defining data management capabilities throughout the data lifecycle — from creation to destruction — is easy, and provided as a fully managed service.

CDW can completely operationalize your data protection environment for one low monthly fee, with design, configuration, and implementation of your Rubrik environment according to your requirements. Deployment, monitoring, and full support of the environment, including the hardware and software, can all be done for a predictable monthly expense.

Managed Digital Experience

We help manage messaging, videoconferencing, voice, video, Unified Communications as a Service, SD-WAN, and business applications. We help provide a richer end-user experience by managing virtual workspaces such as virtual desktops and Citrix and the Microsoft Office 365 tools and orchestration.

Managed Services Levels

We provide three levels of managed services:

- Advanced Monitoring -- Bronze
  - Advanced Monitoring includes comprehensive monitoring and alerting for supported technologies. In addition to basic availability monitoring of devices and services, CDW also provides error/exception monitoring, threshold monitoring, and performance utilization monitoring. All monitoring data is available through a web-based reporting engine.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

- Proactive Maintenance – Silver
  - Proactive Maintenance includes patching services. CDW proactively monitors vendor patch availability, analyzes patch necessity and priority, and applies recommended patches to your system.
- Availability Management – Gold
  - Availability Management includes break/fix engineering support and an SLA for device availability. CDW's SLA for all Gold level modules is a 99.9% monthly services uptime guarantee.

Each of the levels encompasses the previous levels. There is no loss in service when moving to a more comprehensive level, meaning that no operational tasks are lost when moving between levels.

Support and Continuous Improvement

CDW•G experts provide technical support for complex technology solutions when your IT, development, and business teams need it. Our experts work with you to continuously optimize your technology environment.

Staff Augmentation Services

For more than 20 years, CDW•G has been providing customers the ability to staff their projects by giving them access to our experienced architects, engineers, project managers, and consultants drawn from our deep national and in-market resources. Our goal is to provide the City of Mesa and OMNIA Partners Participating Public Agencies the ability to scale up and down your augmented workforce on demand, giving you the ultimate flexibility to meet your evolving needs and upcoming project plans. Staff augmentation ultimately reduces costs; the City of Mesa and OMNIA Partners Participating Public Agencies can quickly access experts without a long-term commitment, lengthy hiring process, or administrative burdens.

CDW Staff Augmentation Services help meet the demands of your organization in unique ways. We provide skilled staff to augment your team with expertise in a wide range of technologies, offering an objective view of IT that ensures you will always receive the right solution to your problems while minimizing payroll costs and maximizing time savings for your priority projects.

We have a wide range of resources ranging from Level-One help desk to Senior Engineers and Architects to Management. Our areas of support run the gamut - from Networking to Cloud Engineering, DevOps, to Application Development. A snapshot of our areas of expertise can be found below:

Figure 19. CDW•G Staff Augmentation Areas of Expertise

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Professional Services

A variety of our professional services have been described throughout our services offering section thus far. As mentioned, our project managers and consultants work directly with the City of Mesa and OMNIA Partners Participating Public Agencies to design and implement every facet of your IT solution. After assessing your current environment and business objectives, they'll produce a detailed project blueprint. Partnering with your existing staff, they'll oversee the full implementation of the solution. After a successful implementation, they'll perform quality assurance and troubleshooting before leading an in-depth closeout meeting to make sure your team is ready to take the reins. Our end-to-end support ensures that your solution can do it all: improve end-user experiences, increase efficiency, and free up your team.

OMNIA Success Story: Midsized County

Background

Government entities often find themselves having to act very quickly to follow through on their most critical initiatives. They typically have an idea of what they want to accomplish, yet the path to execution is rarely straightforward. Whether it relates to budget approval, how long funds are available, or the expertise to go from idea to implementation, IT Departments must be ready to act quickly, requiring a partner they can trust to execute at a moment's notice.

Challenge

This mid-sized County, like many of their peers, has a small IT team, with the knowledge and expertise to keep things running, but implementing new technologies on a regular basis is a continued challenge. Not only is their staff somewhat unfamiliar with the latest offerings in areas like Hyperconverged Infrastructure and Next Generation Data Protection, but once funds become available, the prospect of lacking in-house resources to implement these innovations within the necessary timeframe is a major concern.

Solution

This County needed a partner that could complement the strengths of their IT team and walk hand in hand with them to help design, implement, and manage complex technologies. CDW•G presented technical engineers to help educate the team on the solution, informing them on how the technology functions, as well as properly standing up the solution in their environment. CDW•G deployed resources to help with everything from network equipment, network security, and data protection – from advisory services to setting policies on their new equipment.

Success through OMNIA Partners

OMNIA Mesa and CDW•G were the perfect procurement vehicle for this County to deliver on these "just-in-time" technology solutions that are becoming more and more essential in the local government space. CDW•G instilled in IT leadership the confidence to undertake projects, guiding them seamlessly from conception to implementation, transforming what once seemed unattainable into achievable milestones with a trusted strategic partner.

This customer leveraged the Mesa OMNIA contract as a swift and efficient avenue for procurement, guaranteeing the responsible allocation of constituent funds. Entrusting CDW•G as their advocate, the IT department could rely on expert guidance to select the optimal technology, ensuring seamless functionality from day one.

Comprehensive Product Offering

k. Comprehensive Product Offering: Offeror's complete catalog and services offered shall be available. Each offeror awarded a contract under this solicitation may offer their complete product and service offering. Pricing for products and services must be entered on the appropriate section of the Price Page. The City reserves the right to accept or reject any or all items offered.

CDW•G's comprehensive line of products and services can be found at www.cdwg.com. We have also provided our Line Card in Appendix 2.

However, our offering would not be complete without highlighting our sector-specific services and capabilities. We understand that state agencies, local governments, higher education institutions, and K-12 entities have different needs.

CDW•G for Public Safety

CDW•G's Public Safety Team has a specialized practice devoted to public safety issues, with more than 20 years of experience and hundreds of engagements to our credit. Fire, Police, and other Emergency agencies face unique challenges, even different from other government agencies. Understanding this, we built a team with the sole focus of supporting our nations critical Public Safety agencies. Our team of dedicated Public Safety Business Development Managers will guide the City of Mesa and Participating Public Agencies to the most impactful choices, address all the requirements, policies, and strategies you face every day, and show you how the pieces fit together.

At CDW•G, we actively engage with fire, police, emergency medical services, emergency management, and other agencies, offering invaluable insights into their myriad options. Recognizing that a little guidance can yield substantial results, our profound knowledge and expertise in deploying cutting-edge technology stand ready to empower decision-makers in selecting optimal public safety solutions.

Modern-day emergency management and first response require fast and always-available access to information. Without it, police officers, first responders, and emergency personnel are at a disadvantage against criminals and natural disasters alike. Innovative digital solutions provide new, engaging approaches to fulfilling missions and keeping communities safe.

Our offering covers the full spectrum of capabilities:

Video

- In-vehicle video, capture, and management
- Body-worn cameras
- Interview room monitoring
- Fixed security
- Surveillance
- Analytics
- Collaboration and telepresence
- Case management

Mobility

- Mobile data laptops and tablets
- Data collection and scanners
- Mobile printing
- GPS and automatic vehicle location
- Mobile access routers
- Wi-Fi solutions
- Advanced authentication

Data Center

- Servers and storage area networks
- Hyperconverged infrastructure
- Backup and recovery
- Virtualization
- Cybersecurity
- Unified communications
- Enterprise wireless

Command, Control, and Intelligence

- Mission Critical Operations Centers
- Data Visualization and Analytics
- Situational Awareness Platforms
- Mobile and Deployable Solutions
- Evidence Management

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Cloud solutions
- Virtual private network mobile software
- Cloud solutions
- Alert and mass notification
- systems
- Power and cooling
- Cloud solutions

CDW•G understands that each state has different laws pertaining to the sale of physical security/public safety hardware and equipment; CDW•G ensures that we have or will have applicable licensure for any products and equipment we provide to the City of Mesa and OMNIA Partners Participating Public Agencies.

Success Story: Implementing Situational Awareness Rooms for a Large Urban City

Law enforcement bureaus were looking for methods to mitigate risk and engaged CDW•G in these discussions. This conversation started an 18-month process of consulting and designing a new Joint Operation Command Center (JOCC) that could be used at a central location by engaged bureaus.

The JOCC is designed to provide joint command capabilities for more than five federal partners and will serve as a command and control center for the City's significant events moving forward. Additionally, the JOCC will be a central point of communication and control for future civil unrest.

The primary Command Center seats 80 individuals and includes a 1.1M LED 80 feet wide video wall. Additionally, the center contains seven adjacent conference rooms fully equipped with digitally transformed audio-visual systems. Work began in the last quarter of 2022 and will be one of the leading operations centers in North America.

CDW•G for Education

CDW Education understands the challenges – and opportunities – involved in building a flexible and supportive personalized learning environment for K-12 and Higher Education students. We currently support 2,300 K-12 and 1,400 Higher Education (Higher Ed) institutions and entities on the existing City of Mesa and OMNIA Partners contract. You can continue to count on us to guide you through tight budgets, numerous choices, and expertise shortfalls so that you're prepared to meet your IT needs, now and in the future. Through the acquisition of Amplified IT in 2020, we are further able to support our education customers with our own tools, such as LittleSIS, Gopher, and more.

We know that our education customers' need for vendor support does not stop at deployment completion. Maintaining technology program innovativeness and alignment with your education goals is a continuous and daunting task. In fact, in a year, your program may look very different. You need a vendor that does more than meet your technology requirements right now; you need a vendor partner that shares a passion for education and continued development to future-proof schools, staff, and students for long-term success. Our Education Strategists help educators include technology as part of their educational planning and goals; we pledge to remain dedicated to supporting the full scope of each OMNIA Partners Participating Public Agencies' technology and related educational needs.

We have actively expanded our catalog, certifications, and solutions to address the latest developments in Education technology, including cloud, IoT, drones, and esports, so that we can continue to support the changing needs of the City of Mesa and OMNIA Partners

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Participating Public Agencies. In addition, we have dedicated CDW•G Education resources aligned to these solution areas to help you understand and implement them. Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies.

We offer a variety of education-specific services and solutions, some of which align with leading manufacturers, such as Amazon Web Services (AWS), Microsoft, and Google. Our goal is to help empower students, families, faculty, staff, and administrators as they explore and build opportunities for improving academic outcomes. Some of these services and solutions include, but are not limited to, the following:

CDW•G and Google for Education

We are a Premier Google Partner on a mission to empower schools to get the most out of Google Workspace for Education. In August 2023, we were awarded Google Cloud's Partner of the Year in the Specialization category for excelling in the Education sector and delivering positive customer outcomes. Our teams of education and technology experts have served more than 4,200 districts across the US and Canada, including 12 of the 15 largest districts.

- **CDW Collaboration Amplified Support for Google for Education:** Save your IT team valuable time and resources and empower them to make the right decisions for your institution's digital infrastructure. Equip them with the support they need to prevent and mitigate technical challenges like network errors, misaligned settings, security breaches, app degradations, and more. The Amplified Support for Google for Education service partners technical staff with Google IT specialists who provide on-demand support, customized solutions, and professional collaboration to help your institution keep up with Google's ever-evolving environment, optimize the operation of your Google for Education domain and Chrome OS, and achieve the strategic goals of your administrators, educators, and students.
    - Support services include on demand support with highly responsive SLAs, customized solutions, and professional collaboration.
- **CDW Collaboration Chrome Checkup:** With the rapid adoption of education technology through a 1:1 model, classroom carts, or computer labs, Google Admins are managing the settings and configurations for Chrome and fleets of Chrome devices. Neglecting to keep up with Google Chrome updates and the normal degradation that comes with usage can leave Chrome devices vulnerable to metric and data errors, security breaches, and operations issues. A Chrome Checkup explores an institution's current Chrome and Chrome device settings in the Google Admin console to provide recommendations based on education best practices to ensure their fleet is optimized for success and ready for deployment.
- **CDW Collaboration Google for Education Audit**: Ongoing Google for Education feature changes can make it difficult for you to keep your institution's Google Workspace domain up to date. Neglecting to properly configure even a few settings in the Google Admin console can leave it vulnerable to undelegated access, metric and data errors, and security breaches. The Google for Education Audit analyzes your Workspace environment against the latest education best practices and Google Workspace updates and provides an actionable plan to improve the efficiency of your domain for the success of your administrators, teachers, and students.
- **CDW Collaboration – Google Voice for Education:** Google Voice is a simple, smart, and scalable cloud-based phone solution that allows administrators and teachers to stay connected to students and parents via a desktop phone or cellular and computer devices

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

without having to use their own phone numbers. With the options of remote, hybrid, and in-person teaching and learning models exposing the need for schools to have an efficient communication system, Google Voice is a valuable option that puts administrators and teachers in control of their call logs, whether teaching and learning are happening in the building or at home. Google Voice is intelligently optimized, secure, and compliant and fits seamlessly into the Google Workspace for Education workflow.

- **CDW Collaboration – Google Workspace for Education KickStart:** The Google Admin console has over 1,000 settings that do not come out of the box tailored to meet the needs of your institution, and Google Admins are left to build out the Google Workspace for Education domain on their own. This can result in misconfigurations, improper OU structure, an abundance of delegated permissions, and security vulnerabilities that affect teaching, learning, and safety. A Google Workspace for Education KickStart provides institutions with a configuration guide for all the settings in their Google Admin console. Recommendations are based on education best practices and an institution's unique strategic goals, so the domain is operating at its highest level from day one.

CDW•G and Microsoft for Education

CDW's Amplified for Education Services offer comprehensive Microsoft 365 EDU support to schools, addressing your most urgent problems in classroom technology, remote learning, device management and security. With our expertise, you can optimize your learning environment by leveraging Microsoft technology and affordable Windows 11 Education devices to their fullest potential.

We offer multiple Microsoft EDU Services for your environment, including:

- **Microsoft EDU Modern Management Program | Intune for Education Pilot**: By streamlining device management, reducing downtime and IT support costs, and improving data protection, Intune for Education can complement schools' current Intune for Enterprise as an add-on or a stand-alone plug-and-play service. With its focus on delivering high-quality, innovative, and inclusive education for all students, Intune for Education empowers schools to leverage their existing infrastructure while enhancing their device-management capabilities specifically tailored for educational settings.
- **Microsoft Education Discovery and Design | M365 EDU Ecosystem Assessment:** By providing clear guidance on what tools are being utilized or not utilized, this assessment enables ITDMs to optimize software usage, reduce unnecessary spending and make informed decisions about their technology budget.
- **Amplified for Microsoft EDU | Windows 11 Readiness Assessment:** The Windows 11 Readiness Assessment includes a series of workshop sessions that help schools evaluate EDU environments in preparation for the deployment of Windows 11 and its features, identify scalability constraints, make informed decisions, and implement the necessary enhancements to ensure successful adoption.
- **The CDW Education Collaborative | Microsoft:** The CDW Education Collaborative is a forward-thinking community of K-12 districts looking for insights and best practices for administering and mastering Microsoft 365 Education and Google for Education ecosystems. The Education Collaborative provides a one-stop shop to access useful content and helpful advice from fellow education IT professionals, CDW professionals, and Microsoft and Google insiders.

CDW•G and AWS for Education

We are part of AWS' Partner Network with an active Advanced Consulting Partner status. CDW•G coworkers have earned more than 200 AWS certifications, including the AWS Database and Data Analytics Specialty Certifications, as well as the AWS Migration Competency, AWS Storage Competency, and more.

- **CDW Hybrid Cloud AWS Appstream Implementation Services (Education Segment):** With more students learning remotely with less-robust devices, the demand for remote application access is growing. The AWS AppStream service allows students to access their critical apps remotely, and CDW•G has developed a turnkey service to get your students and institution up and running. Provide access to the applications your students need without the expense and security risk of building and hosting on your premises. CDW•G will plan, configure, and deploy the AppStream solution for you.
- **CDW Classroom in the Cloud on AWS Hybrid Cloud:** The cost of purchasing, installing, implementing, maintaining, and replacing the hardware and software needed on your facilities to accommodate the curriculum your students need can create a budget black hole, which is why we created our Classroom in the Cloud on AWS, an enhanced Desktop-as-a-Service (DaaS) solution. Allow CDW•G to help you increase efficiencies, decrease costs, and improve the student experience by building virtual classrooms and labs in AWS. With CDW•G's Classroom in the Cloud service, you have the flexibility to spin classrooms up and down, use online faculty resources, and provide students with 24x7 access to complete or repeat work outside of class, all while keeping costs at the requisite minimums. In addition, CDW•G can provide you with content for the grant proposal necessary to receive the funds to use this service, if needed.

These sector-specific offerings provide insight into our capabilities; however, they are not comprehensive.

Success Story: Custom-Built Esports Room in a Southeast School District

Background

Several educators at a junior high school created an after-school esports club that met online during the pandemic. When students returned to campus, the club met in the school library. The staff and principal envisioned so much more; they wanted to add esports to the curriculum and build a dedicated esports room. They pitched their ideas to school district leaders and quickly won support.

The CDW•G team, which includes esports experts, initially met with school officials in the spring of 2021 to discuss the district's immediate and long-term goals. In doing so, they learned the gaming room needed to be multifunctional for teaching both esports and other classes.

Engagement and Solution

The district took advantage of CDW•G's Blueprint to Design service, which includes its furniture partner Spectrum Industries, to create an initial floor plan and design for the room.

At the same time, CDW•G's esports advisers made technology and furniture recommendations to fit the district's budget. After receiving feedback on the initial designs, CDW•G developed new 2D and 3D renderings for the space. During this process, CDW•G held multiple virtual and onsite visits. Before the technology and furniture arrived, the school

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

hired a general contractor to equip the room with enough electrical outlets and network drops for the PCs and other equipment. With the infrastructure complete, CDW•G and their installation partner installed the LED lighting and 65- and 75-inch Samsung displays. Once the furniture and tech equipment arrived, we assembled the gaming desks and chairs and installed the computers and gaming peripherals.

Outcome

In the fall of 2021, this junior high school opened a state-of-the-art esports room, transforming a traditional classroom into a rich learning environment. This esports room has become the home for a semester-long interdisciplinary course that teaches them about the career and technical skills they will need in the fast-growing field.

Financing

I. Financing: Options available such as lease programs and conditional sales contracts.

CDW•G has an in-house Financing Solutions Team to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate among our tailored payment solution options, which include leasing, financing, subscriptions, etc. We take a consultative approach to financing options that ensure the City of Mesa and OMNIA Partners Participating Public Agencies' goals are met.

At CDW•G, we focus on providing the best solutions in the industry—and that includes Financing Solutions. CDW•G can facilitate an agreement between OMNIA Partners Participating Public Agencies and various leading financing companies that can help each Participating Public Agency obtain the payment terms that best fit their unique needs and budget requirements. Agencies can secure a payment solution structure with maximized options and terms.

CDW•G's Financial Partners provide the best option to fit the City of Mesa and OMNIA Partners Participating Public Agencies' needs. For agencies with a Master Lease Agreement established, we likely have a partnership in place with their provider or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. Often, we leverage relationships with our partners to offer more advantageous rates, terms, and structures. For agencies that have diversity requirements to meet, we can recommend small and diverse partners that hold relevant certifications.

Our Premier Financing Partners include, but are not limited to, the following:

- Arrow Capital Solutions
- Cisco Capital
- Dell Financial Services
- HPE Financial Services
- Lenovo Financial Services
- LEAF Commercial Capital, Inc.

Conditional Sales Contracts

CDW•G offers conditional sales contracts. Our consultative approach to financing options ensures that the City of Mesa and OMNIA Partners Participating Public Agencies receive a tailored solution offering that aligns with your needs and budget requirements.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Distribution of Products and Services

B. Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the Master Agreement, including US Territories and Outlying Areas.

CDW•G provides nationwide delivery for our hardware products and has a robust system in place to secure timely delivery. Many of our top manufacturers and software publishers' representatives are onsite at CDW•G's sales offices to facilitate requests for information and assist with designing the best possible solutions.

- We receive detailed insight into supply chain availability, manufacturing delays, distribution shortages, and overstocks, as well as other disruptions related to supply and demand variability
- We often secure additional inventory to offset any known supply issues
- CDW•G works closely with our vendor partners to train and certify our account managers and technical staff and to deploy and manage technologies in customer environments
- CDW•G has received awards and recognition from our partners for developing and delivering exceptional solutions

Products and services will be offered to all states under the Master Agreement, including US Territories and Outlying Areas where allowable and applicable by local government regulations, CDW•G contractual limitations, and our relationships with the respective manufacturers.

Additionally, due to the relationships that CDW•G has with both OEM partners and shipping carriers, we ensure the traceability of products regardless of their origin. If products are shipped directly from a manufacturer location, our logistics and drop ship team maintains active communication with the manufacturer and the preferred carrier to ensure that the correct number and model of products are being shipped, and that shipment schedules are being met.

We do not procure from gray market vendors and only work directly with manufacturers and their authorized sources. Our supply chain complies with industry standards to support the IT needs of public sector customers. Our catalog contains a vast range of manufacturers, so customers can expect transparency since we do not manufacture products ourselves. The Government Industry Data Exchange Program provides a report of counterfeit or suspected counterfeit products weekly. We cross-reference this list with our inventory and sales. To date, none (0%) of the products we've carried or sold have been classified as counterfeit. All of CDW•G's shipping and quality processes are based on the ISO 9001:2015 certification standards, of which we are certified.

Streamlined Order Process and Fulfillment

Once an order is credit-released, it goes to the purchasing department to check whether the products are in stock. If products require configuration services, they will be sent to CDW•G configuration center, a designated area of our distribution center, where they will be configured according to the customer's specifications. Our highly trained and experienced configuration technicians perform custom configurations very efficiently.

A product never leaves the configuration center without receiving a full three-stage quality control check, even if it is only being asset tagged. Also, prior to shipping, all packed boxes go through quality control checks.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Fulfillment

The order fulfillment process begins when a batch of orders are systematically released and sorted according to type and priority; for example, split-case picks, full-case picks, oversized picks, and install picks. Our ISO-certified order fulfillment procedures and requirements meet rigorous industry standards to ensure that your order is shipped quickly and accurately. Overnight and Configurations-Priority orders receive processing priority during order fulfillment.

Extendable conveyors move in and out of trailers, bringing product directly to the current loading position and optimizing the number of people needed to load a trailer. CDW•G has an agreement with UPS for direct lane shipping and will pre-sort packages into trailers that go directly to a sorting hub closer to the end-destination. This reduces overall processing and travel time to increase our 2-day delivery footprint.

The majority of orders are picked paperlessly, using radio frequency scanners, or voice picking headsets in our Las Vegas (LV) distribution center to identify the product necessary for the shipment and direct the coworker to the proper location. The product UPC is scanned to verify quality and serial numbers are captured via a barcode scan. Smaller items are picked directly into CDW branded boxes or padded envelopes, with automation for the carton assembly and shipping label application in the LV distribution center. Larger items are placed onto the conveyor where the entire carton is goes through a scan tunnel to review all barcodes and then shipping labels are automatically applied. The largest items are picked in a similar manner via forklift; coworkers are directed to the location, the product is scanned for quality, and then the product is taken to a printing station to receive the shipping labels.

Efficient Distribution System

Our distribution centers are designed for continuous commitment to accuracy, quality, and speed. Our facilities have multiple levels of storage, miles of high speed conveyors and sorters, UPC bar code scanning, product serial number capture, with a paperless Radio Frequency (RF) and Voice Directed picking processes. Each step in the product movement process is verified with a barcode scan, from receiving through shipping. We ship 40,000 to 50,000 boxes per day depending on the time of year.

As one of the largest direct marketing resellers in the US, CDW•G has positioned itself very closely with the major shipping companies and other delivery service companies to provide standard or expedited product delivery. Due to the extensive carrier worldwide service capabilities, excellent record for on-time delivery, and competitive pricing, we ship the majority of our products via UPS or FedEx. Both companies have on site employees at our distribution centers, individuals with a track record of supporting CDW•G with sophisticated capabilities to leverage their intermodal transport options. We also have contracts with truck load (TL) and less than truck load (LTL) carriers for large orders and heavy products.

Master Agreement Pricing Compliance

C. Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.

A designated Program Management Team working alongside Ty Robles, the City of Mesa and OMNIA Partners' Program Manager, ensures that Participating Public Agencies will receive Master Agreement pricing. Ty and the Program Management Team regularly conduct self-audits to ensure pricing compliance and take corrective action when needed.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Compliance

Immediately upon award of a contract, Ty reviews and disseminates the contract documents and all related proposal documents, recording all items that CDW•G will need to manage. Ty is responsible for ensuring that CDW•G observes commitments included in the contract. For example, if CDW•G commits to a pricing structure based on a certain discount from advertised pricing, it is Ty's responsibility to record the pricing in the contract management software, which then locks the structure for purchases made under the contract. Since Ty is often the person most familiar with the contract, she will also make recommendations for improvements and efficiencies based upon their constant analysis of the contract's provisions and trends with the City of Mesa and OMNIA Partners' use of the contract.

Automated Contract Management System

Ty sets up the pricing in our Contract Management System and works with our in-house eProcurement/Digital team to update your online catalog with fixed pricing and the various logons and security settings for OMNIA Partners' Participating Public Agencies. Once the structure is loaded, no additional manual intervention is needed to maintain it. End users will be able to view and verify the contracted pricing through this unique URL without the need to log in with a password.

Distribution Channels

CDW•G offers various distribution methods for our customers. It is of the utmost importance that our customers can purchase from us however is easiest for them. CDW•G works with several other companies to help to process, handle, and/or ship hardware products to customers. In addition to the manufacturer and distributor partners we work with, we have built strong relationships with industry well-known carriers such as FedEx Parcel, UPS Parcel, UPS Freight, FedEx Air Freight, CEVA LTL services (less than truckload), and local messenger services.

We provide the City of Mesa and OMNIA Partners Participating Public Agencies with a Premium Page in which you can quickly and efficiently place and track the status of your orders.

As one of the largest resellers, CDW•G has established very good working relationships with the major manufacturers in the technology industry. Our buying power attracts the industry's top manufacturers, including their best prices and rebates. Most manufacturers send us daily Electronic Data Interchange (EDI) downloads with pricing and product availability information. Also, we receive timely notifications regarding product changes and lifecycles, as well as real time inventory information.

Our two distribution centers are located in close proximity to principal distributors; this enables us to obtain competitively priced, non-stocked items relatively quickly. If a product is out of stock in CDW•G distribution centers, CDW•G can leverage our local and national distribution network; if the product is in stock in the distribution network, CDW•G can generally secure product(s) from our local distribution network within 24 hours. The value-added benefits of our highly automated state-of-the-art distribution systems are that the City of Mesa and OMNIA Partners Participating Public Agencies will receive the right products quickly, configured correctly and ready to use; this will enable you to maintain a high level of productivity and to better serve your organization and citizens.

The City of Mesa and OMNIA Partners Participating Public Agencies contact your dedicated CDW•G Account Manager to place an order via phone, email, or fax; additionally, you can use your CDW•G Account Center to place orders.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Shipment Partners

D. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.

We work with several authorized channel partners to deliver solutions to OMNIA Partners Participating Public Agencies. These include OEMs, Publishers, Cloud Solution Providers, and Distribution Partners (Tech Data, Ingram Micro, SYNNEX, Avnet, and Arrow Electronics). In addition to the manufacturer and distributor partners we work with, we have built strong relationships with industry well-known carriers such as FedEx Parcel, UPS Parcel, UPS Freight, FedEx Air Freight, CEVA LTL services, Tforce, and local messenger services.

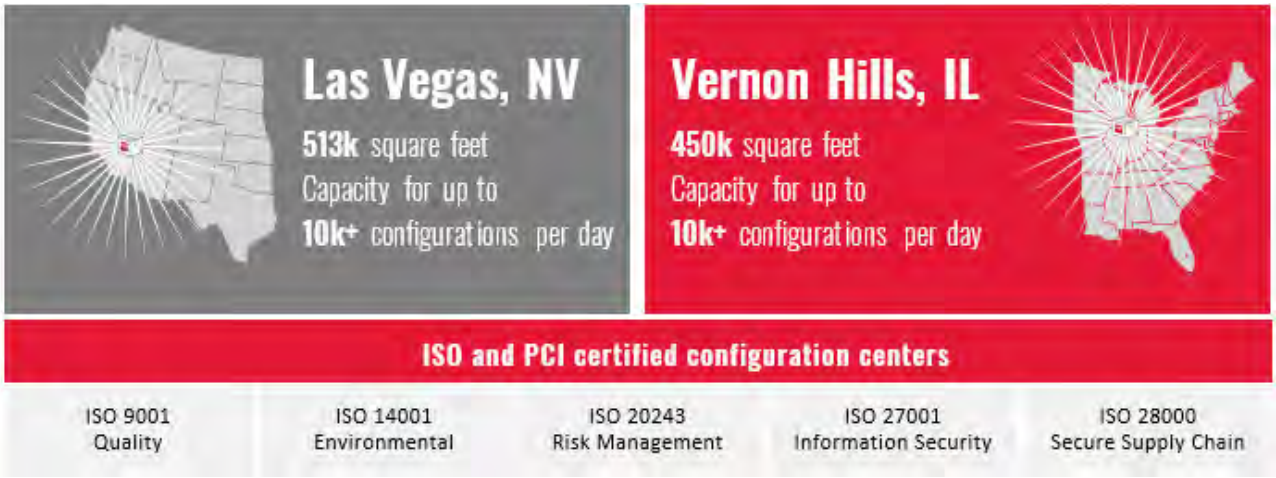
Due to the extensive carrier worldwide service capabilities, excellent record for on-time delivery, and competitive pricing, we ship the majority of our products via UPS or FedEx. Both companies have on-site employees at our distribution centers; these individuals have a track record of supporting CDW•G with sophisticated capabilities to leverage their intermodal transport options.

Depending on the unique needs of each opportunity, CDW•G will work with these resources in conjunction with the City of Mesa and OMNIA Partners Participating Public Agencies to choose additional vendors that best fit based on the work and needs of the customer. Details of the chosen vendor will be provided to the interested party during scoping.

Distribution Centers

E. Provide the number, size and location of Supplier's distribution facilities, warehouses and retail network as applicable.

CDW•G has two large strategically located distribution centers controlled by a Warehouse Management System (WMS) that ensures speed and accuracy throughout the order fulfillment and distribution processes. CDW•G has a 450,000-square-foot distribution center located at our headquarters in Vernon Hills, IL, and a 513,000-square-foot distribution center located in North Las Vegas, NV.



Addresses for our distribution centers are as follows:

Las Vegas Distribution Center	**Vernon Hills Distribution Center**
3201 E Alexander Rd. North Las Vegas, NV 89030	200 N Milwaukee Ave. Vernon Hills, IL 60061

These locations facilitate quick distribution of products to our growing customer base throughout the country. The Vernon Hills (VH) distribution center focuses on distributing products to customers east of the Mississippi River, while the Las Vegas (LV) distribution center primarily serves the western part of the United States.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

We have access to more than 100,000 top brand-name products from more than 1,100 leading manufacturers. Due to the size of our facilities, which span four levels of storage and three level picking modules, forklifts are required to stock and pick products as needed.

We hold more than $500M of inventory in our two in-house distribution centers that total almost one million square feet.

The value-added benefits of our highly automated state-of-the-art distribution systems are that the City of Mesa and OMNIA Partners Participating Public Agencies will receive the right products quickly, configured correctly and ready to use; this will enable the City of Mesa and OMNIA Partners Participating Public Agencies to maintain a high level of productivity and to better serve your communities.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

3.3 MARKETING AND SALES

Implementation Plan

A. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as supplier's primary go to market strategy for Public Agencies to supplier's teams nationwide, to include, but not limited to:

CDW•G's leadership team is securely behind the growth and strategy of this program for both the City of Mesa and OMNIA Partners Participating Public Agencies nationwide. CDW•G has provided the City of Mesa and OMNIA Partners an executive sponsor, David Hutchins, Vice President of Strategic Programs, who commits to endorse and sponsor the award within the first 10 days of the contract. The City of Mesa and OMNIA Partners can be confident in this contract's level of Executive Sponsorship within CDW•G.

CDW•G has had a long-standing relationship with OMNIA Partners (and previously with affiliates of OMNIA, including NIPA) since 2003. We continue to lead and facilitate our growth strategy with numerous public entities that utilize the multiple OMNIA contracts to which CDW•G has been named. CDW•G will continue to partner with OMNIA Partners through this contract, if awarded, and other contracts to identify additional members under this solicitation. CDW•G will abide by various regulations and requirements in multiple jurisdictions, including some with mandatory use requirements, exclusions, or preference of public entities on utilization of specific contracts. We have included a cohesive implementation plan and pledge to continue focusing on the growth of this contract's awareness and success. Those involved in the Contract Launch and committed to the success of the City of Mesa and OMNIA Partners/CDW•G partnership are highlighted below:

Executive Leadership and Support

David Hutchins – Vice President, Strategic Programs

David is the Executive Corporate Sponsor for the City of Mesa and OMNIA Partners agreement. David has more than 25 years of sales experience and has held numerous leadership positions within CDW•G since 2003. As VP of Strategic Programs, he is responsible for the alignment of key enablement areas, including sales operations and support, programs and contracts, capture, business development, proposals, and business diversity. As the Executive Sponsor, he is dedicated to the success of this contract.

Email: david.hutchins@cdwg.com | **Phone**: +1 (847) 968-9782

Dario Bertocchi – Vice President, Contracting Operations

With more than 20 years at CDW, Dario brings a wealth of knowledge to the City of Mesa and OMNIA Partners. As Vice President of Contracting Operations, he manages more than 240 professionals across proposals, contract and program management, contract negotiation, and contract pricing.

Email: dariber@cdw.com | **Phone**: +1 (203) 851-7049

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Capture and Business Development

Mark Ellis – Senior Capture Manager

Mark Ellis is the City of Mesa and OMNIA Partners' National Account Manager. Mark is an active participant in the planning and strategy to promote the OMNIA Partners agreement. Having been with CDW for more than 22 years in various roles, from Account Manager, Program Manager, and Capture Manager, Mark is intimately familiar with this contract, the mutual CDW•G and OMNIA Partners target market, and how to best position the City of Mesa and OMNIA Partners contract for its best success. He is committed to the success of this contract and looks forward to ongoing collaboration with the City of Mesa and OMNIA Partners.

Email: markeli@cdwg.com | **Phone**: +1 (732) 982-0390

Elysse Wayman – Manager, Business Development

Elysse actively participates in the planning and strategy to promote the OMNIA Partners agreement. She is an expert in the State and Local government landscape and has nearly a decade of experience working in information technology. Her experience and expertise are of great benefit to the successful growth of the OMNIA Partners contract.

Email: elysway@cdw.com | **Phone**: +1 (813) 804-5380

Jason Schwartz – Senior Manager, Business Development

With nearly two decades of experience at CDW Government dedicated to public sector customers, Jason and his team build the frameworks and strategic plans to proactively identify, pursue, win, and optimize new business within the highest opportunity customers in the State and Local Government segment.

Email: jasons@cdw.com | **Phone**: +1 (847) 419-7542

Chris Webb – Director, Capture & Business Development

Coming up on nearly 20 years at CDW•G, the City of Mesa and OMNIA Partners will greatly benefit from Chris's experience in territory growth, customer expansion, and partner alignment. As Director of Capture and Business Development, Chris is an active participant in the strategy and development of the OMNIA Partners contract. He has over a decade of experience working with OMNIA Partners and is the senior leader owning the OPUS integration and future success.

Email: chris.webb@cdwg.com | **Phone**: +1 (203) 851-7142

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Program Management

Ty Robles – Program Manager

Ty is the City of Mesa and OMNIA Partners' Program Manager. Ty has an in-depth working knowledge of OMNIA Partners, including the former cooperatives, National IPA, and TCPN. She will work with sales leaders to develop and execute a training program following contract signature and will be actively involved in the daily operations of this contract. In addition to being committed to the success of this contract, Ty is also responsible for providing oversight of the program's success, reporting and fee payments, and identifying areas for improvement and opportunities for growth.

Email: taisrob@cdw.com | **Phone**: +1 (203) 851-7239

Heather Kohls – Manager, Program Management

With over 15 years of experience in Program Management, Heather is the Manager of the State and Local Program Management Team and leads the efforts across the team to ensure efficient, compliant, and strategic management of the program. Heather and Ty will work closely with the Sales and Marketing Team, State and Local Entities and OMNIA Partners to support and grow the program through collaborative communications and operational excellence.

Email: heather.kohls@cdwg.com | **Phone**: +1 (847) 465-6000

Anup Sreedharan, Senior Manager, Program Management

Anup oversees our state and local government program management team. Anup has nearly 20 years of working with public entities and brings his knowledge and skill set of government dash-specific contracts to the team. His duties include expanding the program management team's strategic outlook by working with internal and external groups, like customers, sales, and partners, to provide the best contractual support for our customer base.

Email: anusree@cdw.com **Phone**: +1 (312) 705-1873

Brian Fisher, Director, Program Management

Brian is the senior leader overseeing our Public & Commercial program management teams. Brian brings more than 23 years of contracting and commercial acumen and has led teams in all capacities in the contracting lifecycle. His responsibilities include building coalitions, shaping contracting strategies, fostering leadership, and maximizing the value of CDW's contracts for our customers.

Email: briafis@cdwg.com **Phone**: +1 (312) 705-3385

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Sales Leadership

Tony Sivore – SLG Director, Sales West

Tony brings nearly 25 years of IT sales experience to the City of Mesa and OMNIA Partners. In his current role, Tony is responsible for providing strategic direction for sales groups that oversee the business of CDW•G's State and Local Government customers. His duties include growing and managing executive relationships with key partners and customers and training the Sales Managers. He will leverage internal and external relationships whenever possible to ensure that we continually meet the City of Mesa and OMNIA Partners' needs.

Email: tonysiv@cdwg.com | **Phone**: +1 (312) 705-3290

Don McCarthy – SLG Director, Sales South

Sales Director, Don McCarthy, has more than 13 years of IT sales experience. Like Tony, Don is responsible for providing strategic direction for sales groups that oversee the business of CDW•G's State & Local Government customers. His duties include growing executive relationships with key partners and customers and leading the sales managers' ongoing development and training. Don is committed to the success of this contract and beyond.

Trenece Paszkiewicz – Senior Field Marketing Specialist

As a Senior Field Marketing Specialist, Trenece is highly involved in the marketing plan for OMNIA Partners. Working in conjunction with Cathy, Trenece helps implement sales and marketing strategies that contribute to the success of our contract expansion for OMNIA Partners.

Email: trenece.paszkiewicz@cdw.com | **Phone**: +1 (847) 968-9142

After the contract award and execution of a contract, the CDW•G Program Management team will work with the City of Mesa to set up the contract in our system, announce it to the Sales teams, and begin strategizing with the Marketing Team. We will provide the City of Mesa and OMNIA Partners with a comprehensive and detailed Transition Plan. This Transition Plan will cover all tasks and resources associated with the transition of the Products, Services, and Solutions, including a table with fixed dates upon award and a firm understanding of the contract terms. Our goal is to ensure that the City of Mesa, OMNIA Partners, and all Participating Public Agencies see a streamlined contract transition with minimum disruption to their operations.

Phase 1: Contract Launch

The goal of the Contract Launch phase includes operationalizing the contract, aligning goals, and gaining customer awareness.

Operationalizing the Contract

Mark Ellis, Senior Capture Manager and the assigned OMNIA Partners' National Account Manager, will collaborate with Ty Robles from our Program Management team, our Sales Team,

and our dedicated Marketing Team to build out the formal launch and transition of this contract from our existing City of Mesa contract.

Once Ty Robles receives the City of Mesa and OMNIA Partners' signed documents, they are saved to CDW•G's contract library. Afterwards, Ty sets up the pricing in our Contract Management System and works with our in-house eProcurement/Digital team to update your online catalog with fixed pricing and the various logons and security settings for OMNIA Partners' Participating Public Agencies.

Align Goals

Ty will conduct training sessions for the Sales Account Team supporting the City of Mesa and OMNIA Partners on contract terms and deliverables. Sales training includes explaining the target customers, product and service requirements, and key performance indicators, as well as key features of the Master Agreement, working knowledge of the solicitation process, awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners, and knowledge of the benefits of using cooperative contracts.

Phase 2: Contract Acceleration

In the Contract Acceleration phase, we'll establish a strategic framework informed by a competitive analysis, value proposition, and differentiated positioning and messaging.

We'll then drive contract adoption and growth through targeted strategy and marketing, including creating account and opportunity plans, developing a robust account penetration, and executing targeted marketing and outreach campaigns.

Phase 3: Contract Maintenance

A designated team working alongside Ty will provide the City of Mesa with reports as required by the contract language and analyze the success of the program, making recommendations for improvements throughout the contract's duration. Additionally, CDW•G uses a robust set of performance metrics to track contract health, including revenue, customer count, category mix, and year over year comparisons.

CDW•G monitors performance monthly, paying close attention to areas that might cause issues in the future. If performance falls short of projections, we take corrective actions right away, using our internal tools to communicate the issues and suggest a course of action to ensure we meet or exceed performance projections. We'll keep all stakeholders informed of progress and solicit feedback. Our goal is to maintain a two-way communication channel with the City of Mesa and OMNIA Partners to ensure complete alignment.

For greater insight into our Contract Launch Plan, please see the table below.

The workstreams identified below help ensure awarded contracts are thoughtfully and responsibly shepherded through the full contract lifecycle – beginning with pre-award activities through year-over-year delivery analysis and all phases in between – with a cohesive, multidisciplinary team. Each workstream has distinct milestones, timelines, and measurements for success defined by the requirements of the contract and the practices of CDW•G.
