**NOW THEREFORE, BE IT FURTHER RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:**

1. That the City Council hereby finds that the above Recitals are true and correct and by this reference makes them a part hereof.

2. That this Resolution incorporates, and by this reference makes a part hereof, that certain Tentative Tract Map, attached hereto as Exhibit “Tentative Tract Map”.

3. Tentative Tract Map Findings. Pursuant to California Government Code Sections 66426 and 66428 and SCCC Section 17.05.300(g), the City Council finds and determines that:

A. The Tentative Tract Map is consistent with the objectives, policies, general land use and programs specified in the City’s General Plan in that the proposed Tentative Tract Map is to allow the development of 60 ownership residential units (consisting of 40 townhomes and 20 flats), private streets, on-site resident and visitor parking, common landscaped area, and on- and off-site improvements compatible with neighboring residential development and existing and planned development within the El Camino Real Focus Area, subject to conditions set forth in the Tentative Tract Map Conditions of Approval, attached hereto and incorporated by this reference. The project proposes a density of 25 dwelling units per acre, consistent with the site’s Community Mixed Use General Plan designation. The project is also consistent with the El Camino Real Focus Area policies.

B. The design and improvements of the proposed subdivision are consistent with the City’s General Plan in that the Tentative Tract Map is subject to the conditions set forth in Exhibit “Tentative Tract Map Conditions of Approval”, attached hereto and incorporated by this reference.

C. The site is physically suitable for the proposed type of development in that the project is designed to provide high quality housing that is designed to be consistent with the on-going and

proposed development along El Camino Real. Moreover, the Project is designed to retain the contextual consistency of the corridor.

D. This site is physically suitable for the proposed density of development in that the Project Site is located in an urbanized area and allows for redevelopment consistent with the height, uses and development that are existing and planned in the surrounding area.

E. The design of the subdivision and type of improvements are not likely to cause serious health problems in that the proposed residential subdivision will implement Covenants Conditions and Restrictions for operation and maintenance of the buildings, private street and site improvements, and does not propose the use of hazardous materials.

F. The design of the subdivision and type of improvements are not likely to cause substantial environmental damage and will not substantially or unavoidably injure fish or wildlife or their habitat in that the Project Site is located in an urbanized setting, on a previously developed site, and includes mitigation measures, as identified in the MND and MMRP, that reduce impacts to wildlife habitat to less-than-significant levels.

G. The design of the subdivision and type of improvements will not conflict with easements acquired by the public at large or use of property within the proposed subdivision in that, the Project is designed to avoid encroachments and conflicts with public easements in the site design.

H. The Tentative Tract Map provides, to the extent feasible, for future passive or natural heating or cooling opportunities, in that it would allow flexibility in the development standards to maximize the benefits of green building standards for site and building design.

4. Based on the findings set forth in this Resolution and the evidence in the Staff Report, MND, MMRP, and such other evidence as received at the public hearings on this matter before the Planning Commission, the Planning Commission hereby recommends approval of the Tentative Tract Map to the City Council, substantially in the form on file as shown in the "Tentative Tract Map"

attached hereto, subject to conditions of approval attached as “Conditions of Tentative Tract Map Approval” and hereby incorporated by this reference.

5. Effective date. This resolution shall become effective immediately.
