Hi -

In response to your question, we will be applying for the grant to fund policy work for these 4 items:

- Increasing residential and commercial densities around station areas;
- Adopting housing policies from related to housing production, preservation and protection (also known as the three Ps)
- Adjusting minimum and maximum parking ratios as well as transportation demand management policies; and

Planning for station access that includes active transportation uses and mobility hub infrastructure.

For the two station area policy areas our station areas are the Tasman Lighthouse Rail stations and the Santa Clara Caltrain Transit Station.

Elizabeth,

Is this a general request for monies for future projects, yet to be determined, or is there a specific project(s) that we are considering? And if it is specific, can you point me to the doc with the details?

Regards,

Eric Crutchlow
