Hi Elizabeth:

The cleanup-ordinance has a minor error that was not discovered until after posting. The section relates to the size of monument signs (p. 47 of the proposed ordinance) and the ordinance has been amended as follows:

c. Freestanding signs not exceeding six feet in height and thirty ~~20~~ (30) square feet in total sign area are allowed, at a minimum setback of four feet behind parcel line.

This change will be reflected in the proposed ordinance posted as post-meeting material on Thursday morning.

Thanks,

John D.
