

City of Santa Clara

Meeting Agenda

Council and Authorities Concurrent Call and Notice of Special Meeting Santa Clara Stadium Authority

Tuesday, June 27, 2023

4:30 PM

Hybrid Meeting

City Hall Council Chambers/Virtual
1500 Warburton Avenue
Santa Clara, CA 95050

The City of Santa Clara is conducting City Council meetings in a hybrid manner (in-person and continues to have methods for the public to participate remotely).

• Via Zoom:

o <https://santaclaraca.zoom.us/j/99706759306>

Meeting ID: 997-0675-9306

o Phone: 1(669) 900-6833

How to Submit Written Public Comment Before City Council Meeting:

1. Use the eComment tab located on the City Council Agenda page <https://santaclaraca.legistar.com/Calendar.aspx>. eComments are directly sent to the iLegislate application used by City Council and staff, and become part of the public record. eComment closes 15 minutes before the start of a meeting.
2. By email to clerk@santaclaraca.gov by 12 p.m. the day of the meeting. Those emails will be forwarded to the Council and will be uploaded to the City Council Agenda as supplemental meeting material. Emails received after the 12 p.m. cutoff time up through the end of the meeting will form part of the meeting record. Please identify the Agenda Item Number in the subject line of your email.

NOTE: Please note eComments and Emails received as public comment **will not** be read aloud during the meeting.

Agendas, Staff Reports and some associated documents for City Council items may be viewed on the Internet at <https://santaclaraca.legistar.com/Calendar.aspx>

All public records relating to an open session item on this agenda, which are not exempt from disclosure pursuant to the California Public Records Act, that are distributed to a majority of the legislative body will be available for public inspection at the Office of the City Clerk at Santa Clara City Hall, 1500 Warburton Avenue, Santa Clara, CA 95050 at the same time that the public records are distributed or made available to the legislative body. Any draft contracts, ordinances and resolutions posted on the Internet site or distributed in advance of the Council meeting may not be the final documents approved by the City Council. For the final document, you may contact the Office of the City Clerk at (408) 615-2220 or Clerk@santaclaraca.gov.

NOTICE IS HEREBY GIVEN that, pursuant to the provisions of California Government Code §54956 ("The Brown Act") and Section 708 of the Santa Clara City Charter, the Chair calls for a Special Meeting of the Governing Board of the Stadium Authority, to commence and convene on June 27, 2023, at 4:30 pm for a Special Meeting to be held virtually and in the City Hall Council Chambers located in the East Wing of City Hall at 1500 Warburton Avenue, Santa Clara, California, to consider the following matter(s) and to potentially take action with respect to them.

Recommendation: Note and file the Monthly Financial Status and Investment Reports for April 2023 as presented and Approve the Related Budget Amendments (five affirmative Council votes required to appropriate additional revenue or for the use of unused balances).

3.D 23-424 [Action on Award of Contract for the City of Santa Clara Utilities Corporation Yard Renovation Project to Ron Paris Construction](#)

- Recommendation:**
1. Determine the proposed action is exempt pursuant to Class 1 (Existing Facilities) of CEQA Guidelines Section 15301;
 2. Award the Public Works Contract for the City of Santa Clara Utilities Corporation Yard Renovation Project to the lowest responsive and responsible bidder, Ron Paris Construction, in the amount of \$704,248 and authorize the City Manager to execute any and all documents associated with, and necessary for the award, completion, and acceptance of this Project, in a final form approved by the City Attorney; and
 3. Authorize the City Manager to execute change orders up to approximately 15 percent of the original contract price, or \$105,637, for a total not-to-exceed amount of \$809,885.

3.E 23-525 [Actions on Award of Contract for the 2023 Americans with Disabilities Act \(ADA\) Curb Ramps Project to Villalobos & Associates, Inc., and Related Budget Amendments](#)

- Recommendation:**
1. Determine the proposed project qualifies for a Categorical Exemption under CEQA Guidelines Section 15301;
 2. Award the Public Works Contract for the 2023 ADA Curb Ramps Project to the lowest responsive and responsible bidder, Villalobos & Associates, Inc., in the amount of \$470,733, funded in the Streets and Highways Capital Fund, and authorize the City Manager to execute any and all documents, in a final form approved by the City Attorney, associated with, and necessary for the award, completion, and acceptance of this Project;
 3. Authorize the City Manager to execute change orders up to 10 percent of the original contract price, or \$47,073, for a total not to exceed amount of \$517,806, funded in the Streets and Highways Capital Fund; and
 4. Approve the following FY 2022/23 Budget Amendments:
 - A. In the Water Utility Capital Fund, establish a transfer of \$1,500 to the Streets and Highways Capital Fund and decrease the Unrestricted Ending Fund Balance in the amount of \$1,500 **(five affirmative Council votes required for the use of unused balances)**;
 - B. In the Streets and Highways Capital Fund, recognize a transfer in from the Water Utility Capital Fund in the amount of \$1,500, decrease the Annual Curb Ramp Installation project in the amount of \$207,228, and increase the Citywide Priority Curb Ramp project in the amount of \$208,728 **(five affirmative Council votes required to appropriate additional revenue)**.

3.F 23-588 [Action on Award of Contract for the Westwood Oaks Park Playground Rehabilitation Project to Robert A. Bothman Construction and Related Budget Amendments](#)

- Recommendation:**
1. Determine the project to be exempt from CEQA under Public Resources Code Section 15302 (Class 2 Categorical Exemption); Section 15303 (Class 3 Categorical Exemption); and Section 15304 (Class 4 Categorical Exemption);
 2. Award the Public Works Contract for the Westwood Oaks Park Playground Rehabilitation Project to the lowest responsive and responsible bidder, Robert A. Bothman Construction, in the amount of \$2,767,000 and authorize the City Manager to execute any and all documents associated with, and necessary for the award, completion, and acceptance of this Project, in final forms approved by the City Attorney;
 3. Authorize the City Manager to execute change orders up to approximately 15 percent of the original contract price, or \$415,050, for a total not-to-exceed amount of \$3,182,050 funded by the Parks and Recreation Capital Fund; and
 4. Approve the following FY 2023/24 budget amendment in the Parks and Recreation Capital Fund to increase the Westwood Oaks Park Playground Rehabilitation project appropriation by \$1,421,000 and decrease the Parks and Recreation Capital Fund Mitigation Fee Act fund balance by the same amount **(five affirmative Council votes required for the use of unused balances)**.

3.G 23-677 [Action on Award of Purchase Orders for Citywide As-Needed Interior and Exterior Painting Services](#)

- Recommendation:**
1. Authorize the City Manager to execute Purchase Orders with Armstrong Painting, Inc., Fairway Painting, and Aiden's Quality Painting, Inc. for as-needed interior and exterior painting services for an initial one-year term starting on or around July 1, 2023 and ending on or around June 30, 2024 for a maximum aggregate amount not-to-exceed \$200,000, funded by various City funds; and
 2. Authorize the City Manager to exercise up to four one-year options to extend the term of the Purchase Orders, subject to compensation increases consistent with market rates not-to-exceed \$250,000 per year and the appropriation of funds.

3.H 23-732 [Actions on a Density Bonus Agreement \(DBA\) with Santa Clara Pacific Associates to Allow a Multifamily Housing Development with 198 Affordable Rental Units at 80 Saratoga Avenue and Delegation of Authority to the City Manager to Negotiate and Execute Future DBAs in Accordance with Santa Clara City Code Section 18.78.060.](#)

- Recommendation:**
1. Approve and authorize the City Manager or designee, to execute the Density Bonus Agreement with Santa Clara Pacific Associates for a 200 affordable housing project at 80 Saratoga Avenue on the terms presented, in a final form approved by the City Attorney.
 2. Adopt a Resolution delegating to the City Manager the authority to negotiate, execute, or amend Density Bonus Agreements in accordance with the provisions of Santa Clara City Code Section 18.78.060, subject to final review and approval of such agreements by the Office of the City Attorney. All projects requiring an exception or modification to the City's standard Density Bonus Agreement shall continue to be brought to the City Council for approval.

3.I 23-481 [Action on Amendment No. 1 with PFM Asset Management LLC for Investment Management Services](#)

- Recommendation:**
1. Approve and authorize the City Manager to execute Amendment No. 1 to the Agreement with PFM Asset Management LLC for Investment Management Services to extend the initial term of the Agreement to end on July 31, 2028 and increase compensation by \$1,625,000 for a revised total maximum amount not to exceed \$2,465,000, subject to the appropriation of funds; and
 2. Authorize the City Manager to exercise options, by an amendment of the Agreement subject to review and approval as to form by the City Attorney, to extend the term of the Agreement for two additional years to July 31, 2030 and increase compensation by \$686,000 for a revised total maximum amount not to exceed \$3,151,000, subject to the appropriation of funds.

3.J 23-759 [Action on Amendment No. 4 with Wallace Roberts and Todd, LLC \(WRT\) to Add Two Study Cities to the City Hall Relocation Study and Related Budget Amendment](#)

- Recommendation:**
1. Authorize the City Manager to execute Amendment No. 4 to the Agreement with Wallace Roberts and Todd, LLC (WRT) for the City Hall Relocation Study, in a final form approved by the City Attorney, at a total cost not to exceed \$16,000, funded by the General Fund; and
 2. Approve the following FY 2023/24 budget amendment, subject to approval of the FY 2023/24 and FY 2024/25 operating budget:
 - A. In the General Fund, increase the transfer to the General Government Capital Fund by \$16,000 and reduce the Budget Stabilization Reserve by \$16,000 **(five affirmative Council votes required for the use of unused balances)**; and
 - B. In the General Government Capital Fund, recognize a transfer of \$16,000 from the General Fund Budget Stabilization Reserve and increase the Precise Plan for Downtown project by \$16,000 **(five affirmative Council votes required to appropriate additional revenue)**.

3.K 23-687 [Action on a Resolution Authorizing the Use of City Electric Forces at Various Locations](#)

- Recommendation:** Determine the proposed actions are exempt from CEQA pursuant to Sections 15302 (c) and 15303 of Title 14 of the California Code of Regulations and adopt a Resolution authorizing the use of City Electric Forces for work detailed in this Report to Council located at 2300 Calle de Luna and 2920 Scott Boulevard.

- 3.L 23-830** [Action to Adopt a Resolution to Provide Santa Clara Small Businesses Reporting 49 or Fewer Employees a One-Time Subsidy to Help Offset Costs of Modernized Business License Taxes Using Existing Silicon Valley Chamber of Commerce Settlement Funds Up to \\$330,000](#)

Recommendation: Adopt a Resolution to provide a one-time subsidy to small businesses located in Santa Clara reporting 49 or fewer employees, applied upon business license tax renewal for Fiscal Year 2023/24, using existing Silicon Valley Chamber of Commerce settlement funds on a first come first serve basis in an amount not to exceed \$330,000.

- 3.M 23-756** [Approve a Silicon Valley Power One-Time Climate Credit for Small Commercial \(C-1\) Customers](#)

Recommendation: Approve a Silicon Valley Power one-time \$70 Climate Credit for all C-1 customers.

- 3.N 23-734** [Overview of the Citywide Risk Assessment and Proposed 2023 and 2024 Internal Audit Work Plans](#)

Recommendation: Note and file the citywide risk assessment report from Baker Tilly, LLC and note the proposed 2023 and 2024 audit work plans as approved by the Audit Committee.

SANTA CLARA STADIUM AUTHORITY CONSENT CALENDAR

REPORTS OF MEMBERS AND SPECIAL COMMITTEES

CITY MANAGER/EXECUTIVE DIRECTOR REPORT

- 23-843** [Tentative Meeting Agenda Calendar \(TMAC\)](#)

ADJOURNMENT

The next regular scheduled meeting is on Tuesday, July 11, 2023 in the City Hall Council Chambers.

MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Santa Clara, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

STREAMING SERVICES: As always, the public may view the meetings on SantaClaraCA.gov, Santa Clara City Television (Comcast cable channel 15 or AT&T U-verse channel 99), or the livestream on the City's YouTube channel or Facebook page.

Note: The public cannot participate in the meeting through these livestreaming methods; livestreaming capabilities may be disrupted at times, viewers may always view and participate in meetings in-person and via Zoom as noted on the agenda.

AB23 ANNOUNCEMENT: Members of the Santa Clara Stadium Authority, Sports and Open Space Authority and Housing Authority are entitled to receive \$30 for each attended meeting.

Note: The City Council and its associated Authorities meet as separate agencies but in a concurrent manner. Actions taken should be considered actions of only the identified policy body.

LEGEND: City Council (CC); Stadium Authority (SA); Sports and Open Space Authority (SOSA); Housing Authority (HA); Successor Agency to the City of Santa Clara Redevelopment Agency (SARDA); Bayshore North Project Enhancement Authority (BNPEA); Public Facilities Financing Corporation (PFFC)

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

If a member of the public submits a speaker card for any agenda items, their name will appear in the Minutes. If no speaker card is submitted, the Minutes will reflect "Public Speaker."

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 ("ADA"), the City of Santa Clara will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities, and will ensure that all existing facilities will be made accessible to the maximum extent feasible. The City of Santa Clara will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities including those with speech, hearing, or vision impairments so they can participate equally in the City's programs, services, and activities. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

Agenda Report

23-820

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Proclaim Portuguese National Heritage Month for June 2023

BACKGROUND

On June 4, 2021, Congressman Jim Costa introduced a resolution to the 117th Congress, supporting the designation of June as "Portuguese National Heritage Month". The H.Res 459 resolution, co-sponsored by Congressman David Valadao, celebrates the historic, cultural, and significant contributions Portuguese Americans have made to the United States. The month of June was selected to coincide with the Day of Portugal which is celebrated on June 10th.

The City of Santa Clara has a rich history of Portuguese culture and roots. Santa Clara Valley had an influx of immigrants from Portugal that began after the first World War and historically constituted 70 percent of the city's population in the 1940s. The Sociedade do Espírito Santo (S.E.S.) Hall located in Santa Clara was established in 1896 and remains a central location for the Portuguese community to gather and celebrate events today, including the annual Festa Do Espírito Santo. The City of Santa Clara also established its Sister City with Coimbra, Portugal on August 4, 1972 and continues strengthening relations with Coimbra through the Santa Clara Sister Cities organization.

DISCUSSION

At the June 27, 2023 City Council meeting, the Council will proclaim Portuguese Heritage Month in for June 2023 in Santa Clara. Boardmember and President Manuel Silveira of the S.E.S Portuguese Hall of Santa Clara will be present to accept the proclamation.

ENVIRONMENTAL REVIEW

This is an information report only and no action is being taken by the City Council and no environmental review under the California Environmental Quality Act ("CEQA") is required.

FISCAL IMPACT

There is no fiscal impact to the City other than staff time.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

Enhance Community Engagement and Transparency

BACKGROUND

In accordance with Council Policy 051, Donations to the City, the City Manager's Office reviewed and approved the receipt of a donation from the Santa Clara Women's League in the amount of \$8,000 to support the Senior Center's Health & Wellness Case Management Program and the "Be Strong, Live Long 2023" Health & Wellness Fair. The donation is consistent with the City's goals and objectives and in the best interest of the City.

Per the Council Policy, for a donation of \$1,000 or more, the donor shall be invited to a Council Meeting to be recognized under Special Order of Business and receive a letter of acceptance and appreciation signed by the Mayor and City Manager.

DISCUSSION

For 38 years, the Santa Clara Women's League has hosted an annual Showtime melodrama in support of the City's Senior Center Health & Wellness Case Management Program, also affectionately called by some the Senior Center's nurses. This year's donation in the amount of \$8,000 will help support services including public health education including the "Be Strong, Live Long 2023" Health & Wellness Fair, navigation of healthcare and social service systems, care management services, social engagement, home visits, education and fitness classes, and public health screenings to older adults in the Santa Clara Community. The donation will benefit the City through increased community engagement, collaboration and support of the City's own senior activities, encouraging others to financially support needed community services.

The Special Order of Business will recognize the of the Santa Clara Women's League for their donation and continued collaboration and support of City programs.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes

in the environment.

FISCAL IMPACT

Acceptance of the donation of \$8,000 will allow the Senior Center Health & Wellness Case Management Program to provide public health and social services, including supplies and materials for presentations and special events.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, e-mail clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

REPORT TO COUNCIL

SUBJECT

Recognition of Silicon Valley Central Chamber of Commerce Board of Directors

BACKGROUND

The Silicon Valley Central Chamber of Commerce (SVC Chamber) serves as advocates for the business community and the organization works towards advocating, connecting, and educating for the growth and sustainability for their business members. The SVC Chamber represents the City of Santa Clara and the Silicon Valley region businesses. SVC Chamber Officers and Directors are elected to serve on the Board from July 1 to June 30 of each year. The SVC Chamber Board of Directors develops and executes the policies of the Chamber and fiscal oversight of the organization.

DISCUSSION

At the June 27, 2023 City Council meeting, the Council will recognize the Silicon Valley Central Chamber of Commerce Board of Directors and Mayor Lisa M. Gillmor will facilitate a swearing-in ceremony of the new Board of Directors.

ENVIRONMENTAL REVIEW

This is an information report only and no action is being taken by the City Council and no environmental review under the California Environmental Quality Act ("CEQA") is required.

FISCAL IMPACT

There is no fiscal impact to the City other than staff time.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

How to Submit Written Public Comment Before City Council Meeting:

1. Use the eComment tab located on the City Council Agenda page <https://santaclaraca.legistar.com/Calendar.aspx>. eComments are directly sent to the iLegislate application used by City Council and staff, and become part of the public record. eComment closes 15 minutes before the start of a meeting.
2. By email to clerk@santaclaraca.gov by 12 p.m. the day of the meeting. Those emails will be forwarded to the Council and will be uploaded to the City Council Agenda as supplemental meeting material. Emails received after the 12 p.m. cutoff time up through the end of the meeting will form part of the meeting record. Please identify the Agenda Item Number in the subject line of your email. NOTE: Please note eComments and Emails received as public comment will not be read aloud during the meeting.

Agendas, Staff Reports and some associated documents for City Council items may be viewed on the Internet at <https://santaclaraca.legistar.com/Calendar.aspx>

All public records relating to an open session item on this agenda, which are not exempt from disclosure pursuant to the California Public Records Act, that are distributed to a majority of the legislative body will be available for public inspection at the Office of the City Clerk at Santa Clara City Hall, 1500 Warburton Avenue, Santa Clara, CA 95050 at the same time that the public records are distributed or made available to the legislative body. Any draft contracts, ordinances and resolutions posted on the Internet site or distributed in advance of the Council meeting may not be the final documents approved by the City Council. For the final document, you may contact the Office of the City Clerk at (408) 615-2220 or Clerk@santaclaraca.gov.

City Council Special Meeting

NOTICE IS HEREBY GIVEN that, pursuant to the provisions of California Government Code §54956 ("The Brown Act") and Section 708 of the Santa Clara City Charter, the majority of the City Council calls for a Special City Council Meeting, to commence and convene on April 25, 2023, at 5:00 p.m. for a Special Meeting to be held virtually and in the City Hall Council Chambers located in the East Wing of City Hall at 1500 Warburton Avenue, Santa Clara, California, to consider the following matter(s) and to potentially take action with respect to them.

5:00 PM Special Council Meeting**Call to Order**

Mayor Gillmor called the Special Meeting to order at 5:05 p.m.

Pledge of Allegiance and Statement of Values

Council recited the Pledge of Allegiance.

Councilmember Jain recited the Statement of Values.

Assistant City Clerk Pimentel recited the AB 23 Announcement and Behavioral Standards.

Assistant City Clerk Pimentel also noted that any registered Lobbyist speaking during Public Meeting will need to identify themselves who they represent.

Roll Call

Present: 6 - Councilmember Kathy Watanabe, Councilmember Karen Hardy, Vice Mayor Kevin Park, Councilmember Suds Jain, Councilmember Anthony Becker, and Mayor Lisa M. Gillmor

Absent: 1 - Councilmember Raj Chahal

A motion was made by Councilmember Hardy, seconded by Councilmember Becker, to excuse Councilmember Chahal's absence.

Aye: 6 - Councilmember Watanabe, Councilmember Hardy, Vice Mayor Park, Councilmember Jain, Councilmember Becker, and Mayor Gillmor

Absent: 1 - Councilmember Chahal

PUBLIC HEARING/GENERAL BUSINESS

1. [23-272](#) Consideration and Possible Actions on a Proposed 30-Unit Homekey Interim Housing Development on County-Owned Land Located at Lawrence Expressway and Benton Street, Including City Sponsorship and Partial Funding of Project Operations (CEQA: Statutory Exemption under Government Code Section 65913.4, SB 35 Affordable Housing Projects)

Recommendation:

1. Authorize the Office of the City Manager to negotiate and execute a three-party letter of intent between LifeMoves, County of Santa Clara, and the City of Santa Clara defining the roles and responsibilities for the financing, operations and construction management for the Homekey application for the property located at Lawrence and Benton Street in a final form approved by the City Attorney.
2. Adopt a resolution authorizing the Office of the City Manager to apply for, execute, and submit all required documents for California Department Housing and Community Development Homekey Program to participate as a co-applicant.
3. Authorize the County of Santa Clara to update the City of Santa Clara's California Permanent Local Housing Allocation 5-year plan by adding activity six to the County's PLHA plan to assist persons who are experiencing or at risk of homelessness and allocating year 3,4, and 5 funding, after deducting administrative costs, to the Benton/Lawrence interim housing to help fund operations.

Community Development Director Crabtree gave a Powerpoint presentation on the proposed 30-Unit Homekey Interim Housing Development.

Consuelo Hernandez, County Office of Supportive Housing, gave a PowerPoint presentation.

Heather Griffin, Director of Shelter and Services at LifeMoves gave a PowerPoint presentation.

President of Santa Clara County Supervisor Susan Ellenberg spoke in support of the proposed interim housing development.

Council questions and comments followed.

County Office of Supportive Housing Representative Hernandez, LifeMoves Director of Shelter & Services Griffin, and **Community Development Director Crabtree** responded to **Council** questions and comments.

Aye: 6 - Councilmember Watanabe, Councilmember Hardy, Vice Mayor Park, Councilmember Jain, Councilmember Becker, and Mayor Gillmor

Excused: 1 - Councilmember Chahal

The next regular scheduled meeting is on Tuesday, May 9, 2023 in the City Hall Council Chambers.

City Council Special Meeting

MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Santa Clara, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

STREAMING SERVICES: As always, the public may view the meetings on SantaClaraCA.gov, Santa Clara City Television (Comcast cable channel 15 or AT&T U-verse channel 99), or the livestream on the City's YouTube channel or Facebook page.

Note: The public cannot participate in the meeting through these livestreaming methods; livestreaming capabilities may be disrupted at times, viewers may always view and participate in meetings in-person and via Zoom as noted on the agenda.

AB23 ANNOUNCEMENT: Members of the Santa Clara Stadium Authority, Sports and Open Space Authority and Housing Authority are entitled to receive \$30 for each attended meeting.

Note: The City Council and its associated Authorities meet as separate agencies but in a concurrent manner. Actions taken should be considered actions of only the identified policy body.

LEGEND: City Council (CC); Stadium Authority (SA); Sports and Open Space Authority (SOSA); Housing Authority (HA); Successor Agency to the City of Santa Clara Redevelopment Agency (SARDA); Bayshore North Project Enhancement Authority (BNPEA); Public Facilities Financing Corporation (PFFC)

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

If a member of the public submits a speaker card for any agenda items, their name will appear in the Minutes. If no speaker card is submitted, the Minutes will reflect "Public Speaker."

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 ("ADA"), the City of Santa Clara will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities, and will ensure that all existing facilities will be made accessible to the maximum extent feasible. The City of Santa Clara will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities including those with speech, hearing, or vision impairments so they can participate equally in the City's programs, services, and activities. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

Pledge of Allegiance and Statement of Values

Council recited the Pledge of Allegiance.

Councilmember Chahal recited the Statement of Values.

Assistant City Clerk Pimentel recited the AB 23 Announcement and Behavioral Standards.

Assistant City Clerk Pimentel also noted that any registered Lobbyist speaking during a Public Meeting will need to identify themselves and who they represent.

Roll Call

Present: 7 - Councilmember Kathy Watanabe, Councilmember Raj Chahal, Councilmember Karen Hardy, Vice Mayor Kevin Park, Councilmember Suds Jain, Councilmember Anthony Becker, and Mayor Lisa M. Gillmor

PUBLIC HEARING/GENERAL BUSINESS

1. [23-591](#) Consideration and Possible Actions on a Proposed 30-Unit Homekey Interim Housing Development on County-Owned Land Located at Lawrence Expressway and Benton Street, Including City Sponsorship and Partial Funding of Project Operations (CEQA: Statutory Exemption under Government Code Section 65913.4, SB 35 Affordable Housing Projects) - Continued from the April 25, 2023 Council Meeting

Recommendation:

1. Authorize the Office of the City Manager to negotiate and execute a three-party letter of intent between LifeMoves, County of Santa Clara, and the City of Santa Clara defining the roles and responsibilities for the financing, operations and construction management for the Homekey application for the property located at Lawrence and Benton Street in a final form approved by the City Attorney.
2. Adopt a resolution authorizing the Office of the City Manager to apply for, execute, and submit all required documents for California Department Housing and Community Development Homekey Program to participate as a co-applicant.
3. Authorize the County of Santa Clara to update the City of Santa Clara's California Permanent Local Housing Allocation 5-year plan by adding activity six to the County's PLHA plan to assist persons who are experiencing or at risk of homelessness and allocating year 3,4, and 5 funding, after deducting administrative costs, to the Benton/Lawrence interim housing to help fund operations.

City Manager Grogan provided a brief introduction of the agenda item.

Councilmember Chahal stated he has viewed the April 25, 2023 meeting and is ready to participate in tonight's meeting.

Community Development Director Crabtree provided responses to the comments/questions received from the **Council** and community.

Further **Council** comments followed.

Consuelo Hernandez with County of Santa Clara Office of Supportive Housing, LifeMoves representatives Maria Jackson, Paul Simpson, Heather Griffin and Brian Greenberg, and City Housing Manager Adam Marcus responded to questions and comments.

Mayor Gillmor called a recess at 7:47 p.m. and reconvened the meeting at 8:02 p.m.

Closing remarks were made by **Council**.

A motion was made by Councilmember Hardy, seconded by Councilmember Watanabe to: 1) Authorize the Office of the City Manager to negotiate and execute a three-party letter of intent between LifeMoves, County of Santa Clara, and the City of Santa Clara defining the roles and responsibilities for the financing, operations and construction management for the Homekey application for the property located at Lawrence and Benton Street in a final form approved by the City Attorney; 3) Authorize the County of Santa Clara to update the City of Santa Clara's Permanent Local Housing Allocation 5-year plan by adding activity six to the County's PLHA plan to assist persons who are experiencing or at risk of homelessness and allocating year 3, 4, and 5 funding, after deducting administrative costs, to the Benton/Lawrence interim housing to help fund operations; 4) Provide direction to return to City Council for approval of a budget amendment appropriating up to \$5,500,000 from special revenue funds for operations at the Benton/Lawrence interim housing site; and include an Annual Review in the Letter of Intent.

Council made closing remarks on the motion.

A substitute motion was made by Councilmember Chahal, and seconded by Vice Mayor Park, to approve Alternative C and refer this back to staff and direct staff to modify the project or pursue other alternatives for permanent housing.

A motion was made by Councilmember Chahal, seconded by Vice Mayor Park, to consider the Substitute Motion. The motion failed.

Aye: 3 - Councilmember Chahal, Vice Mayor Park, and Mayor Gillmor

Nay: 4 - Councilmember Watanabe, Councilmember Hardy, Councilmember Jain, and Councilmember Becker

A motion was made by Councilmember Hardy, seconded by Councilmember Watanabe to: 1) Authorize the Office of the City Manager to negotiate and execute a three-party letter of intent between LifeMoves, County of Santa Clara, and the City of Santa Clara defining the roles and responsibilities for the financing, operations and construction management for the Homekey application for the property located at Lawrence and Benton Street in a final form approved by the City Attorney; 3) Authorize the County of Santa Clara to update the City of Santa Clara's Permanent Local Housing Allocation 5-year plan by adding activity six to the County's PLHA plan to assist persons who are experiencing or at risk of homelessness and allocating year 3, 4, and 5 funding, after deducting administrative costs, to the Benton/Lawrence interim housing to help fund operations; 4) Provide direction to return to City Council for approval of a budget amendment appropriating up to \$5,500,000 from special revenue funds for operations at the Benton/Lawrence interim housing site; and include an Annual Review in the Letter of Intent.

Aye: 4 - Councilmember Watanabe, Councilmember Hardy, Councilmember Jain, and Councilmember Becker

Nay: 3 - Councilmember Chahal, Vice Mayor Park, and Mayor Gillmor

REPORTS OF MEMBERS AND SPECIAL COMMITTEES

Councilmember Watanabe reported that she attended the Recycle Waste Reduction Commission meeting.

CITY MANAGER/EXECUTIVE DIRECTOR REPORT

There was none.

ADJOURNMENT

A motion was made by Councilmember Becker, seconded by Councilmember Chahal, to adjourn the meeting at 9:51 p.m.

Aye: 6 - Councilmember Watanabe, Councilmember Chahal, Councilmember Hardy, Councilmember Jain, Councilmember Becker, and Mayor Gillmor

How to Submit Written Public Comment Before City Council Meeting:

1. Use the eComment tab located on the City Council Agenda page <https://santaclaraca.legistar.com/Calendar.aspx>. eComments are directly sent to the iLegislate application used by City Council and staff, and become part of the public record. eComment closes 15 minutes before the start of a meeting.
2. By email to clerk@santaclaraca.gov by 12 p.m. the day of the meeting. Those emails will be forwarded to the Council and will be uploaded to the City Council Agenda as supplemental meeting material. Emails received after the 12 p.m. cutoff time up through the end of the meeting will form part of the meeting record. Please identify the Agenda Item Number in the subject line of your email.

NOTE: Please note eComments and Emails received as public comment will not be read aloud during the meeting.

Agendas, Staff Reports and some associated documents for City Council items may be viewed on the Internet at <https://santaclaraca.legistar.com/Calendar.aspx>

All public records relating to an open session item on this agenda, which are not exempt from disclosure pursuant to the California Public Records Act, that are distributed to a majority of the legislative body will be available for public inspection at the Office of the City Clerk at Santa Clara City Hall, 1500 Warburton Avenue, Santa Clara, CA 95050 at the same time that the public records are distributed or made available to the legislative body. Any draft contracts, ordinances and resolutions posted on the Internet site or distributed in advance of the Council meeting may not be the final documents approved by the City Council. For the final document, you may contact the Office of the City Clerk at (408) 615-2220 or Clerk@santaclaraca.gov.

Aye: 7 - Councilmember Watanabe, Councilmember Chahal, Councilmember Hardy, Vice Mayor Park, Councilmember Jain, Councilmember Becker, and Mayor Gillmor

The next regular scheduled meeting is on Tuesday, May 23, 2023 in the City Hall Council Chambers.

MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Santa Clara, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

STREAMING SERVICES: As always, the public may view the meetings on SantaClaraCA.gov, Santa Clara City Television (Comcast cable channel 15 or AT&T U-verse channel 99), or the livestream on the City's YouTube channel or Facebook page.

Note: The public cannot participate in the meeting through these livestreaming methods; livestreaming capabilities may be disrupted at times, viewers may always view and participate in meetings in-person and via Zoom as noted on the agenda.

AB23 ANNOUNCEMENT: Members of the Santa Clara Stadium Authority, Sports and Open Space Authority and Housing Authority are entitled to receive \$30 for each attended meeting.

Note: The City Council and its associated Authorities meet as separate agencies but in a concurrent manner. Actions taken should be considered actions of only the identified policy body.

LEGEND: City Council (CC); Stadium Authority (SA); Sports and Open Space Authority (SOSA); Housing Authority (HA); Successor Agency to the City of Santa Clara Redevelopment Agency (SARDA); Bayshore North Project Enhancement Authority (BNPEA); Public Facilities Financing Corporation (PFFC)

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

If a member of the public submits a speaker card for any agenda items, their name will appear in the Minutes. If no speaker card is submitted, the Minutes will reflect "Public Speaker."

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 ("ADA"), the City of Santa Clara will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities, and will ensure that all existing facilities will be made accessible to the maximum extent feasible. The City of Santa Clara will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities including those with speech, hearing, or vision impairments so they can participate equally in the City's programs, services, and activities. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

Motion fails.

PUBLIC HEARING/GENERAL BUSINESS

5. [23-249](#) Approve the Annual Military Equipment Report, and Adopt a Resolution Making Required Findings and Renewing Santa Clara City Code Section 2.80.080, Allowing for the Continued Use of the Military Equipment Funding, Acquisition and Use Policy Pursuant to Assembly Bill 481

Recommendation:

Approve the Annual Military Equipment Report, and Adopt a Resolution Making Required Findings and Renewing Santa Clara City Code Section 2.80.080, Allowing for the Continued Use of the Military Equipment Funding, Acquisition and Use Policy Pursuant to Assembly Bill 481

Police Chief Nikolai gave a Powerpoint Presentation.

Council comments and questions followed.

eComment:
Diane Harrison

A motion was made by Councilmember Becker, seconded by Councilmember Hardy, to approve the Annual Military Equipment Report, and adopt Resolution 23-9231 marking required findings and renewing Santa Clara City Code Section 2.80.080, allowing for the continued use of Military Equipment Funding, Acquisition and Use Policy pursuant to Assembly Bill 481.

Aye: 7 - Councilmember Watanabe, Councilmember Chahal, Councilmember Hardy, Vice Mayor Park, Councilmember Jain, Councilmember Becker, and Mayor Gillmor

WRITTEN PETITION (COUNCIL POLICY 030) SUBMITTED BY THE PUBLIC/COUNCIL

9. [23-603](#) Action on a Written Petition (Council Policy 030), Submitted by Mary Grizzle Requesting to Place an Agenda Item on a Future Council Meeting for Council to Discuss Santa Clara Civic Center Relocation Study Flaw: Change Two of the Study's Focus Cities

Recommendation: Staff makes no recommendation.

Mayor Gillmor recused herself from this discussion and vote due to a potential conflict of interest. **Vice Mayor Park** chaired this discussion.

Mary Grizzle spoke on her Written Petition requesting to place an agenda item on a future Council meeting for Council to discuss Santa Clara Civic Center Relocation Study Flaw: Change of Two of the Study's Focus Cities.

Council comments and questions followed.

Public Comment:
Dan Ondrasek

A motion was made by Councilmember Becker, seconded by Councilmember Chahal, to place this Item on a future Council meeting agenda.

Aye: 6 - Councilmember Watanabe, Councilmember Chahal, Councilmember Hardy, Vice Mayor Park, Councilmember Jain, and Councilmember Becker

Recused: 1 - Mayor Gillmor

Vice Mayor Park called for a recess at 9:06 p.m.

Mayor Gillmor reconvened the meeting at 9:16 p.m.

Mayor Gillmor clarified that Items 4.A and 4B was included in the vote for Consent Calendar items with "no" votes from both **Mayor Gillmor** and **Councilmember Watanabe**.

PUBLIC HEARING/GENERAL BUSINESS

6. [23-173](#) Public Hearing: Adoption of a Resolution Setting Rates for Overall Solid Waste Services and Annual Clean-up Campaign in the Exclusive Franchise Area

Recommendation: Alternative 1: Adopt a Resolution setting the overall rates to be charged to rate payers for the collection and disposal of garbage, refuse, yard trimmings, recycling, and annual Clean-up Campaign in the exclusive franchise area, effective for the utility bills issued for services rendered on and after July 1, 2023.

City Manager Grogan made a few remarks and introduced **Public Works Director Mobeck** who gave a PowerPoint presentation on setting rates for overall solid waste services and Annual Clean-Up campaign in the exclusive franchise area.

Council comments and questions followed.

Public Comment:
Kirk Vartan

Assistant City Clerk Pimentel tallied the Written Protests received and read into the record that there were 14 Written Protests submitted and stated there was an insufficient number of Written Protests to constitute a majority protest under Proposition 218.

Public Works Director Mobeck responded to additional **Council** questions and concerns.

Council discussion continued.

City Manager Grogan made remarks about a discussion on Proposition 218 and recommended that a policy discussion take place during Council Priority Setting.

A motion was made by Councilmember Becker, seconded by Councilmember Chahal, to close the Public Hearing.

Aye: 7 - Councilmember Watanabe, Councilmember Chahal, Councilmember Hardy, Vice Mayor Park, Councilmember Jain, Councilmember Becker, and Mayor Gillmor

A motion was made by Councilmember Jain, seconded by Councilmember Hardy, to adopt Resolution 23-9232 setting the overall rates to be charged to rate payers for the collection and disposal of garbage, refuse, yard trimmings, recycling, and annual Clean-Up Campaign in the exclusive franchise area, effective for the utility bills issued for services rendered on and after July 1, 2023.

Nay: 3 - Councilmember Chahal, Vice Mayor Park, and Councilmember Becker

7. [23-479](#) Public Hearing: Action on a Resolution Amending Rate Schedules for Electric Services for All Classes of Customers, Effective July 1, 2023

Recommendation: Adopt a Resolution amending City Rate Schedules for Electric Utility Services to increase Electric Rates and Charges in each Rate Schedule by 5.0%, effective July 1, 2023.

City Manager Grogan made a few opening remarks and introduced **Chief Electric Utilities Officer Pineda** who gave a PowerPoint presentation on amending the rate schedules for electric utility services for all classes of customers.

Council comments and questions followed.

Chief Electric Utilities Officer Pineda responded to **Council** questions.

Public Comment:

Kirk Vartan (4 minutes - Marguerite Lee gave time)

John Haggerty

Edward Strine

Silicon Valley Power Director Pineda addressed additional concerns.

A motion was made by Councilmember Becker, seconded by Councilmember Hardy, to close the Public Hearing.

Aye: 7 - Councilmember Watanabe, Councilmember Chahal, Councilmember Hardy, Vice Mayor Park, Councilmember Jain, Councilmember Becker, and Mayor Gillmor

A motion was made by Councilmember Becker, seconded by Councilmember Hardy, to adopt Resolution 23-9233 amending City rate schedules for electric utility services to increase electric rates and charges in each rate schedule by 5.0% effective July 1, 2023 and direct staff to explore a rebate program for small businesses (C1 customers) and report back to Council.

Aye: 7 - Councilmember Watanabe, Councilmember Chahal, Councilmember Hardy, Vice Mayor Park, Councilmember Jain, Councilmember Becker, and Mayor Gillmor

SANTA CLARA STADIUM AUTHORITY GENERAL BUSINESS

8. [23-680](#) Report on Status of Obtaining FIFA World Cup 2026 Documents at Levi's Stadium and Potential Action on Terms for an Information Sharing Agreement and Guiding Principles for FIFA World Cup 2026 Events

Recommendation: 1. Adopt the Santa Clara City Council Guiding Principles for World Cup 2026; and
2. Direct the City Manager/Executive Director and City Attorney/Stadium Authority Counsel to negotiate and execute an Information Sharing and Event Cooperation Agreement with Bay Area Host Committee, United States Soccer Federation, Federation Internationale de Football Association, and Forty Niners Stadium Management Company LLC to facilitate the sharing of information on substantially the terms presented, in a final form approved by the City Attorney.

City Manager/Executive Director Grogan and City Attorney/Stadium Authority Counsel Googins gave a PowerPoint presentation on the status of obtaining the FIFA World Cup 2026 documents from Levi's Stadium and provided an overview of potential action on terms for an Information Sharing Agreement and Guiding Principles for the 2026 FIFA World Cup events.

Council/Board comments and questions followed.

A motion was made by Council/Boardmember Becker, seconded by Council/Boardmember Hardy, to approve staff recommendation and include a clause to attain reimbursement of all event costs including public safety (pre and post event cost) to Guiding Principle No. 2.

Council/Board discussion ensued.

A substitute motion was made by Mayo/Chair Gillmor, seconded by Council/Boardmember Watanabe, to approve staff recommendation and include in Guiding Principle No. 2 a clause to attain reimbursement of all event costs including public safety (pre and post event cost) and a new Guiding Principle No. 9 to pledge that the Santa Clara City Council, Stadium Authority Board, and City staff will follow the law, act ethically and transparently with the expectation that other parties do the same.

Public Comment:

A motion was made by Council/Boardmember Hardy, seconded by Council/Boaurdmember Becker, to adjourn the meeting at 1:37 a.m. in memory of Kenneth Park, father of Vice Mayor/Chair Kevin Park.

Aye: 7 - Council/Boardmember Watanabe, Council/Boardmember Chahal, Council/Boardmember Hardy, Vice Mayor/Chair Park, Council/Boardmember Jain, Council/Boardmember Becker, and Mayor/Chair Gillmor

The next regular scheduled meeting is on Tuesday, June 6, 2023 in the City Hall Council Chambers.

MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Santa Clara, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

STREAMING SERVICES: As always, the public may view the meetings on SantaClaraCA.gov, Santa Clara City Television (Comcast cable channel 15 or AT&T U-verse channel 99), or the livestream on the City's YouTube channel or Facebook page.

Note: The public cannot participate in the meeting through these livestreaming methods; livestreaming capabilities may be disrupted at times, viewers may always view and participate in meetings in-person and via Zoom as noted on the agenda.

AB23 ANNOUNCEMENT: Members of the Santa Clara Stadium Authority, Sports and Open Space Authority and Housing Authority are entitled to receive \$30 for each attended meeting.

Note: The City Council and its associated Authorities meet as separate agencies but in a concurrent manner. Actions taken should be considered actions of only the identified policy body.

LEGEND: City Council (CC); Stadium Authority (SA); Sports and Open Space Authority (SOSA); Housing Authority (HA); Successor Agency to the City of Santa Clara Redevelopment Agency (SARDA); Bayshore North Project Enhancement Authority (BNPEA); Public Facilities Financing Corporation (PFFC)

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

If a member of the public submits a speaker card for any agenda items, their name will appear in the Minutes. If no speaker card is submitted, the Minutes will reflect "Public Speaker."

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 ("ADA"), the City of Santa Clara will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities, and will ensure that all existing facilities will be made accessible to the maximum extent feasible. The City of Santa Clara will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities including those with speech, hearing, or vision impairments so they can participate equally in the City's programs, services, and activities. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

Review and Approve Proposed 2023 Board of Library Trustees Work Plan

Recommendation: Approve proposed Board of Library Trustees Work Plan 2023

Board reviewed work plan for 2023, and amended work plan with addition of sixth item.

A motion was made by Trustee Tryforos, seconded by Trustee Ricossa, to approve the Board of Library Trustees work plan draft 4, dated 4/3/2023, to submit to City Council for their approval. The motion was amended to include the work plan as a standing item on the Board of Library Trustees monthly agenda.

Aye: 4 - Trustee Tryforos, Vice Chair Hintermeister, Trustee Ricossa, and Chair Evans

Excused: 1 - Trustee Broughman

STAFF REPORT

City Librarian Wong informed the **Board** of two grants obtained by the Library, the Kaiser 'Healthy Me, Healthy You' grant supporting nutrition and healthy diet, and the 'Pop-Up Libraries Lunch at the Library' grant promoting Library services at existing free-meal sites in Santa Clara. **City Librarian Wong** informed the **Board** that the budget projections for the Library were much more favorable, that the budget would be determined by **City Council** vote, and provided information on upcoming **City Council** and budget study session dates. The **Board** was updated on the Strategic Planning schedule and engaged to help identify focus groups in the community. **City Librarian Wong** updated the **Board** on open recruitments and an upcoming all staff meeting.

TRUSTEES REPORT

Board provided reminder of upcoming Librarypalooza event. **Board** requested the data collected at the **Board** kick-off meeting for the Strategic Plan to assist them in Strategic Planning activities. **City Librarian Wong** informed the **Board** that information would be available later in the Strategic Planning process. **Board** inquired about non-functional electric vehicle charging stations at the Library. **City Librarian Wong** informed the **Board** of active discussions with **Silicon Valley Power** to provide new electric vehicle charging stations at the Library.

ADJOURNMENT

The meeting was adjourned at 8:05 PM.

A motion was made by Trustee Tryforos, seconded by Trustee Ricossa to adjourn the meeting.

Aye: 4 - Trustee Tryforos, Vice Chair Hintermeister, Trustee Ricossa, and Chair Evans

Excused: 1 - Trustee Broughman

The Board of Library Trustees Meeting is adjourned to May 1, 2023, at 6:00 PM.

MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. CALL TO ORDER AND ROLL CALL

Chair Diaz called the meeting to order at 7:04 p.m.

Present 5 - Commissioner Siddarth Sundaram, Commissioner Debra von Huene, Chair Candida Diaz, Commissioner Jonathan Marinaro, and Commissioner Paul McNamara

Absent 1 - Vice Chair Louis Samara

CONSENT CALENDAR

1.A [23-536](#) Cultural Commission Regular Meeting Minutes of May 1, 2023

Recommendation: Approve the Cultural Commission Regular Meeting Minutes of May 1, 2023

A motion was made by Commissioner von Huene, seconded by Commissioner Marinaro, that this item be approved. The motion passed with the following vote:

Aye: 5 - Commissioner Sundaram, Commissioner von Huene, Chair Diaz, Commissioner Marinaro, and Commissioner McNamara

Absent: 1 - Vice Chair Samara

PUBLIC PRESENTATIONS

A member of the public and Parks & Recreation Commissioner, Eversley Forte, provided a brief update for the Multi-Cultural Market event, which will be a joint effort of the Parks & Recreation and Cultural Commissions. The target date is a Friday evening in August, 2024, as part of the Friday Night Live series. The focus would be on the Korean community. There would be 2 bands, food booths and activities. Commissioner Samara will follow up with additional details.

GENERAL BUSINESS

2. [23-538](#) Discussion of Cultural Commission Work Plan Goals and Activities for FY 2022/23 and FY 2023/24

Recommendation: Provide updates to Cultural Commission Work Plan goals and activities for FY 2022/23 and FY 2023/24.

Goal #1. Host and enhance multicultural events to encourage and acquaint Santa Clara residents with cultural diversity:

Summer Concerts in the Park-

Commissioner Sundaram reported a Bollywood themed concert will be considered for an idea for next year. The Fog City Swampers are confirmed for June 23 at Live Oak Park.

Commissioner Samara will send a sign up sheet for the concerts. At least two (2) commissioners should attend each concert.

Patelco is a confirmed sponsor for the Concerts in the Park.

Street Dance-Pop Rocks, Aug. 4

Fliers should be delivered to businesses at least two (2) weeks in advance (July 24). Commissioners should arrive by 4 p.m.

Commissioners will check with businesses for additional sponsors.

Goal #2. Develop and encourage interactive art opportunities to provide temporary, performing, cultural, and public art in the City:

Public Art:

Commissioner von Huene reported that the installment of the mechanical horse at Santa Clara University, STEM building, is targeted for the Fall.

Recreation Manager, Castro and Chair, Diaz met with Connie Martinez, CEO of Silicon Valley Creates (SV Creates). Information will be gathered on the South Bay Collective, and commissioners may attend their monthly meetings, but the commission will not move forward with the MOU for this project for this year.

Utility Boxes: Will wait for a Call for Artists until after the art installation has been secured.

Home Decorating Contests: Contests are complete. No action required.

Google Map: Chair Diaz will continue updating the map with the completed Utility Boxes.

Goal #3. Raise the visibility of commemorative month celebrations:

Coloring Book Project- Chair Diaz reported the agreement for artist, Giada Conte is in progress and the new commemorative month pages will roll out in June. The months recognized will be in alignment with the recognized City holidays and incorporate days/themes into the artwork.

Commissioner von Huene will post the May coloring page on social media.

Goal #4. Enhance communication and media strategy to increase community awareness of the Cultural Commission:

The Commission discussed allocating additional resources to marketing, advertising and outreach. The Commission would like to increase visibility through social media and marketing for events. The possibility of ads and print media was discussed.

Goal #5. Prepare for Citywide Arts Master Plan Process:

There was a discussion on SV Creates and their involvement with the Arts Master Plan. **Commissioners von Huene and McNamara** spoke to City Managers office and they can't provide information at this time. The sub-committee has been working on the draft so when the City Council is ready to move forward, the Commission will be prepared.

Patrick Henry Art Center-The contract will be presented to City Council on May 23. Outreach will start soon after. They will have a booth at the 4th of July All City Picnic.

3. [23-537](#) Discussion and Development of Cultural Commission Work Plan Goals and Activities for FY 2023/24

Recommendation: Develop and recommend Cultural Commission work plan goals and activities for FY 2023/24.

Commissioners discussed the current goals (listed below) and made recommendations for FY 2023/24.

Goal #1. Host and enhance multicultural events to encourage and acquaint Santa Clara residents with cultural diversity:

The Commission discussed adding Friday Night Live to this Goal. They would like to research options to host Friday night Live at the Triton, as they had in the past.

Goal #2. Develop and encourage interactive art opportunities to provide temporary, performing, cultural, and public art in the City:

The Commission would like to continue the Holiday and Halloween Home Decorating Contests and would like them to be listed as one line item. They would like to continue the Utility Box Art Program. They suggested adding an indoor Sculpture Exhibition at City Hall or one of the City libraries.

Goal #3. Raise the visibility of commemorative month celebrations:

The Commission had no recommended changes to this goal.

Goal #4. Enhance communication and media strategy to increase community awareness of the Cultural Commission: The Commission had no recommended changes to this goal and would like to continue marketing all events to the citizens.

Goal #5. Prepare for Citywide Arts Master Plan Process: In addition to the current objectives, **Commissioner McNamara** would like to include art education. He will develop a proposal to present at the next meeting.

STAFF REPORT

Recreation Manager Castro reported the following items:

The Health and Wellness Fair is scheduled for May 19 from 11 a.m.-2 p.m. in Fremont Park, adjacent to the Senior Center. There will be nearly 50 exhibitors providing health and wellness information and resources for Caregivers and seniors.

Construction began for Magical Bridge in Central Park. Groundbreaking is scheduled for May 19 at 3 p.m.

Images and content is being developed for the concerts and the Street Dance. Fliers will need to go out to inform the public and establishments.

COMMISSIONERS REPORT

Commissioner von Huene attended *Natasha, Pierre, and the Great Comet* at the SJ Playhouse. It was a musical based on 70 pages of *War and Peace*. She also attended Michaelangelo's Sistine Chapel Exhibition at Oakridge Mall. She was inspired and recommended all to attend.

She will be in Hawaii during the June meeting. She would like to call in for the meeting.

Commissioner Sundaram may be traveling during the June meeting. He will inform the commission of his attendance. He also attended Jon Pardi in Berkely, as he is a country fan.

Commissioner Marinaro attended *Tosca* through San Jose Opera. He recommended the commission attend the 2023/2024 season. He also attended the *They Might be Giants Concert*.

Commissioner McNamara has been enjoying watching old movies: 100 years of Warner Brothers.

ADJOURNMENT

A motion was made by Commissioner McNamara, seconded by Commissioner Sundaram that the meeting be adjourned at 8:19 p.m. The motion passed with the following vote:

Aye: 5 - Commissioner Sundaram, Commissioner von Huene, Chair Diaz, Commissioner Marinaro, and Commissioner McNamara

Absent: 1 - Vice Chair Samara

MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

Agenda Report

23-727

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Action on Monthly Financial Status and Investment Reports for April 2023 and Approve the Related Budget Amendments

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

In compliance with the Charter of the City of Santa Clara and the adopted Investment Policy, the monthly financial report and monthly investment report for April 2023 are submitted for your information. The financial reviews as of April 30, 2023 provide a year-to-date financial update to the City Council for the current fiscal year. The analysis of the revenues collected and all expenditures measures the level of adherence to the annual budget and allows the City to monitor and project revenues and expenditures throughout the year.

The Adopted Budget incorporates the estimated revenues and planned expenditures for all funds. The attached Financial Status Report provides the budget to actual revenue and expenditure summaries for the General Fund, Special Revenue Funds and Enterprise Operating Funds, as well as expenditure summary for Capital Improvement Funds and Fund Reserve Balances. Any significant variances are explained in the report.

In accordance with City Council Policy 051 - Donations to the City, included in this report is a monthly activity and annual summary of donations received by department. Although the requirement of the policy is to report quarterly, in its ongoing effort to streamline reporting, the City includes this information monthly in the financial status report.

DISCUSSION

Monthly Financial Status Report (Attachment 1)

The attached reports summarize the City's financial performance as of April 30, 2023. Financial analysis is provided for the General Fund, select Special Revenue Funds, Enterprise Operating Funds, and Capital Improvement Funds.

Attachment 1 shows that General Fund revenues (excluding transfers) were at 87.5% of the budget through April 2023. General Fund revenues are currently tracking to end the year above the budgeted estimate due to strong performance in a number of categories, including transient occupancy tax, use of money and property, transfers from City utilities, and miscellaneous revenues.

As shown in Attachment 1, General Fund departmental expenditures were at 76% of budget through

April 2023. This reflects savings from vacant positions as well as savings generated from cost-control measures that were implemented in FY 2019/20. Expenditures are expected to end the year below budget.

As shown in Attachment 1, total revenues for Enterprise Funds (Electric, Water, Sewer, Cemetery, Solid Waste, and Water Recycling) were at 78.4% of the budget through April 30, 2023, while total expenses were at 77.3%. Budget actions are recommended in this report to address higher expenditures in the Electric Utility Fund. Expenditures in this fund are tracking to end the year above budget due higher power purchase and production costs, which are driven by the spikes in natural gas prices. It is anticipated that higher revenues will partially offset these higher costs with the remainder addressed with the use of fund balance. Budget actions are also recommended to address higher expenditures in the Water Recycling Fund and the Cemetery Fund.

In the month of April, the City received \$312 in donations, for total donations of \$35,655.

Economic indicators are mixed, and there is a tremendous amount of uncertainty. Given this level of uncertainty, the December 2022, March 2023 and June 2023 UCLA Anderson Forecasts presented a two-scenario approach: recession scenario and no recession scenario. The recession scenario predicts a recession occurring at the end of 2023, where “inflation would have continued to come own too slowly in not for the continued Federal Reserve rate hikes. In this scenario, the Federal Reserve forces a mild recession and accepts an economic contraction and higher unemployment to combat inflation.” In the no recession scenario, “economic growth slows but remains positive, inflation ebbs, labor markets slacken mildly, just enough to quell wage inflation, and the Federal Reserve eases its approach to monetary policy tightening” (UCLA Anderson Forecast, June 2023, *The More Things Change the More They Stay the Same: Recession or No Recession is Still the Question*).

On a national level, the unemployment rate changed little in April 2023 to 3.4% from 3.5% in March 2023. This rate was well below the record setting high of 14.7% in April 2020, and slightly lower than the pre-pandemic unemployment rate of 3.5%. In April, the number of unemployed persons was 5.7 million, which is consistent with the pre-pandemic level of 5.7 million. In the first quarter 2023 advance estimate, the Gross Domestic Product (GDP) increased by 1.1% as a result of higher consumer spending, exports, and federal, State and local spending.

The California unemployment rate was 4.5% in April 2023, up from 4.4% in March 2023 and 4.1% in April 2022. Since April 2020, California has gained 3.12 million jobs; regaining all of the 2.76 million nonfarm jobs lost due to COVID-19 in in March and April 2020. The unadjusted unemployment rate in the San José-Sunnyvale-Santa Clara Metropolitan Statistical Area (MSA) was 3.0% in April 2023, down slightly from a revised 3.3% in March 2023 but is above the April 2022 level of 2.5% and the February 2020 pre-pandemic level of 2.6%. Between April 2022 and April 2023, employment in this region increased by 32,200 jobs, or 2.8%.

Staff will bring forward the General Fund revenues and the City’s overall financial performance through June 30, 2023 at a later date as part of the Budgetary Year-End Report.

Monthly Investment Report (Attachment 2)

All securities held by the City of Santa Clara as of April 30, 2023 were in compliance with the City’s Investment Policy Statement regarding current market strategy and long-term goals and objectives. All securities held are rated “A” or higher by two nationally recognized rating agencies. There is

adequate cash flow and maturity of investments to meet the City's needs for the next six months.

The City's investment strategy for April 2023 was to invest funds not required to meet current obligations in securities listed in the prevailing Investment Policy Statement, with maturities not to exceed five years from the date of purchase. This strategy ensures safety of the City's funds, provides liquidity to meet the City's cash needs, and with a reasonable securities portfolio return of 1.99% in April.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(4) in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

FISCAL IMPACT

From time to time, adjustments to the budget are required to reflect new information, align budgets with actual revenues and expenses, and correct for inadvertent errors. Recommended budget amendments are detailed in Attachment 3.

In the General Fund, actions are recommended to recognize fire-related fee and reimbursement revenue and appropriate the funds to the Fire Department. A transfer from the General Fund to the Vehicle Replacement Fund is recommended to fully fund the replacement of a fire truck and a transfer to the General Government Capital Fund is recommended to support the FHRMS (Finance and Human Resources software system) Update project, funded by savings in the Finance and Human Resources Departments and Non-Departmental. Additional funding is also recommended to allocate savings from Non-Departmental to the Fire Department for benefits costs.

Actions are recommended in the Electric Utility Fund to recognize and appropriate additional revenue as well as allocate fund balance to address the higher than anticipated power purchase costs. There are also amendments to shift unrestricted fund balance to various reserves in the fund to meet reserve targets. In addition, actions are recommended to appropriate additional funding in the Cemetery Fund for higher personnel costs and to recognize revenue in the Cemetery Capital Fund. In the Electric Utility Capital Fund, various transfers are recommended from the Water, Sewer, and Recycled Water Utilities to add funding for the Electric Yard Building and Grounds project. Additional actions are also included to shift funding from the Major Engine Overhaul and Repair project to the Replace Balance of Plant Control System project and to recognize and appropriate revenue to the San Tomas Junction project. Actions are also included in the Electric Utility Debt Service Fund to add funding for higher administrative costs.

Several actions are recommended in the Expendable Trust Fund to recognize and appropriate revenue for services rendered by the Information Technology and Public Works Departments. Attachment 3 also recommends recognizing and appropriating seized asset funding to the Police Department. There are also amendments in the Fire Operating Grant Trust Fund, Parks and Recreation Operating Grant Trust Fund, and Public Donations fund to recognize and appropriate various fees, reimbursements and donations from other agencies.

In the Housing and Urban Development Fund, actions are included to adjust the HOME administration appropriation to align the personnel budget to actual activity. Actions to recognize and

appropriate fee revenue to several projects in the Parks and Recreation Capital Fund are also recommended. An action is included in the Related Santa Clara Developer Fund to increase the Other Development Project Services appropriation, which is anticipated to be reimbursed by the developer.

In the Sewer Utility Capital and Water Utility Capital Funds, recommendations are included to appropriate additional funding to various projects that had higher than anticipated construction and engineering costs. An action is also included to appropriate funding to the resource and production category in the Water Recycling Fund to account for higher usage. An amendment in the Solid Waste Fund is included to appropriate funding for contracts and personnel costs related to the implementation of SB1383 Local Assistance Grant Program. An amendment is also included in the Solid Waste Capital Fund to increase the Sanitary Landfill Development - Post Closure project for higher than anticipated costs associated with pest control and winter storm repairs.

COORDINATION

This report has been coordinated with the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Note and file the Monthly Financial Status and Investment Reports for April 2023 as presented and Approve the Related Budget Amendments (five affirmative Council votes required to appropriate additional revenue or for the use of unused balances).

MONTHLY FINANCIAL STATUS REPORT

April 2023

This report summarizes the City's financial performance for the month ended April 30, 2023. Financial analysis for the report is provided for the General Fund, select Special Revenue Funds, Enterprise Operating Funds, and Capital Improvement Funds. Financial information included in this report is unaudited.

Economic Overview

Economic indicators are mixed, and there is a tremendous amount of uncertainty. Given this level of uncertainty, the December 2022, March 2023 and June 2023 UCLA Anderson Forecasts presented a two-scenario approach: recession scenario and no recession scenario. The recession scenario predicts a recession occurring at the end of 2023, where "inflation would have continued to come own too slowly in not for the continued Federal Reserve rate hikes. In this scenario, the Federal Reserve forces a mild recession and accepts an economic contraction and higher unemployment to combat inflation." In the no recession scenario, "economic growth slows but remains positive, inflation ebbs, labor markets slacken mildly, just enough to quell wage inflation, and the Federal Reserve eases its approach to monetary policy tightening".¹

"Consumer confidence declined in May as consumers' view of current conditions became somewhat less upbeat while their expectations remained gloomy," said Ataman Ozyildirim, Senior Director, Economics at The Conference Board. "Their assessment of current employment conditions saw the most significant deterioration, with the proportion of consumers reporting jobs are 'plentiful' falling 4 pts from 47.5 percent in April to 43.5 percent in May. Consumers also became more downbeat about future business conditions, weighing on the expectations index. However, expectations for jobs and incomes over the next six months held relatively steady. While consumer confidence has fallen across

City of Santa Clara

Financial Status Report as of April 30, 2023

all age and income categories over the past three months, May’s decline reflects a particularly notable worsening in the outlook among consumers over 55 years of age.”²

In the first quarter 2023 advance estimate, the Gross Domestic Product (GDP) increased by 1.1%, following a GDP increase of 2.6% in the fourth quarter 2022. The GDP increase in the first quarter reflects higher consumer spending, exports, federal, State and local spending.³

On a national level, the unemployment rate changed little from 3.5% in March 2023 to 3.4% in April 2023. This rate was well below the record setting high of 14.7% in April 2020, and close to the pre-pandemic unemployment rate of 3.5%. In April, the number of unemployed persons dropped slightly to 5.7 million, which is consistent with the pre-pandemic level of 5.7 million.⁴

The California unemployment rate was 4.5% in April 2023, up from 4.4% in March 2023 and 4.1% in April 2022. Between April 2022 and April 2023, total nonfarm jobs in California increased by 426,000 jobs (a 2.4 percent increase), with the largest increases in private educational and health services (up

159,300 jobs), leisure and hospitality (up 132,400 jobs), government (up 54,700), and professional and business services (up 42,200). Since April 2020, California has gained 3.12 million jobs; regaining all of the 2.76 million nonfarm jobs lost due to COVID-19 in March and April 2020.⁵

The unadjusted unemployment rate in the San José-Sunnyvale-Santa Clara Metropolitan Statistical Area (MSA) was 3.0% in April 2023, down slightly from a revised 3.3% in March 2023 but is above the April 2022 level of 2.5% and the February 2020 pre-pandemic level of 2.6%. Between April 2022 and April 2023, employment in this region increased by 32,200 jobs, or 2.8%. The largest increases were in private educational and health services (up 9,700 jobs), leisure and hospitality (up 9,600 jobs), professional and business services (up by 7,500 jobs), and manufacturing (up 4,500 jobs).⁶

General Fund

The General Fund is the major operating fund for the City and includes multiple programs, services, and activities for the residents and businesses of the City. The adopted budget for operating revenues and expenditures for fiscal year 2022/23 was \$272.4 million. The amended budget for revenues and expenditures was adjusted to \$290.9 million to reflect various budget amendments approved by the City Council through April 2023.

General Fund revenues are currently tracking to end the year above the budgeted level. Through April, departmental expenditures are tracking below budget and this trend is expected to continue as departments continue to experience vacancies and control expenditures through various cost control measures.

Financial Status Report as of April 30, 2023

General Fund Revenues

As of April 30, 2023, \$210.3 million, or 87.5% of the General Fund estimated revenue (excluding transfers) was received. Transfers and use of reserves of \$50.6 million have occurred as budgeted. Revenue collections are tracking to end the year above budget and are higher when compared to collections last fiscal year.

(1) The Operating Transfer In - Fund Balances includes the carryover encumbrances of open purchase orders as of June 30, 2022 and mid year budget amendment from reserves.

General Fund Revenues

Sales Tax: The City of Santa Clara sales tax rate is 9.0%, of which the City receives 1.0%. As of April 30, 2023, approximately \$41.0 million has been collected. This reflects an increase of \$3.7 million when compared to collections through the same period last fiscal year. In this fiscal year, sales tax receipts increased 15.7% in the first quarter and 2.4% in the second quarter when compared to the same quarters last fiscal year. While not yet fully reflected in the data through April given the timing of payments, the third quarter experienced growth of 20.2%. Based on the strong performance in the third quarter, receipts are now expected to exceed the budgeted estimate of \$59.4 million. For instance, if growth of 3% is realized in the last quarter, sales tax collection will exceed the budget by approximately \$2 million. Internet sales represents a sizeable amount of the City's sales tax revenue. The County pool, which includes internet sales, accounts for approximately 20% of the sales tax the City receives.

Property Tax: Through April, 96.6% of the property tax budgeted estimate has been received. The majority of property tax revenue is collected in February and April each year. Based on information from the County of Santa Clara, property tax receipts are projected to end the year at \$84.1 million, well above the Adopted Budget estimate of \$75.3 million and the prior year collections of \$74.6 million. This reflects strong growth in the secured, supplemental, and unsecured property tax categories. A budget amendment was approved on May 23rd (RTC 23-337) as part of the February/March Monthly Financial Report to recognize the additional projected revenue of \$8.86 million. Of this amount, \$1.65 million was set aside in a new Property Tax Excess Education Augmentation Revenue Fund (ERAF) Reserve to address potential legal challenges associated with these funds. In FY 2022/23, an estimated \$5.5 million is projected from excess ERAF distributions (under Proposition 98, a portion of property tax receipts have been allocated to the ERAF beginning in 1992, and once there are sufficient funds in ERAF to fulfill the obligation to the school districts, excess funds are returned to the taxing entities that contributed the funding). The California School Boards Association has filed a lawsuit against the Controller of the State of California on the disbursement of the excess ERAF funds. Given this lawsuit, the County of Santa Clara has estimated that approximately 30% of the excess ERAF distribution is at risk (estimated \$1.65 million in FY 2022/23).

Transient Occupancy Tax (TOT): TOT is calculated as a percentage of City hotel/motel room charges. The City's TOT rate is 11.5%. Through April 30, 2023, \$13.1 million has been received, which is significantly higher than receipts through the same period last fiscal year of \$5.1 million. While businesses continue to recover from COVID-19 impacts, activity has not yet reached pre-pandemic levels. TOT receipts through April are tracking close to pre-pandemic levels; however, this is due in part to the TOT rate increase that went into effect in January 2022. Factoring out the rate increase, TOT activity is tracking at approximately 80% of pre-pandemic levels. Based on current collection trends, TOT receipts are expected to end the year at approximately \$19 - \$20 million, exceeding the budgeted estimate of \$12.6 million.

Other Taxes: Includes franchise tax and documentary transfer tax. The City has collected \$4.7 million through April, which is lower than prior year collection levels. This reflects lower collections in the documentary transfer tax category that are partially offset by higher collections in the franchise tax

category. While receipts are tracking slightly below last year, collections are projected to meet the budgeted estimate of \$6.3 million.

Licenses & Permits: Includes business licenses, fire operation permits, and miscellaneous permits and fees. Effective FY 2021/22, building, electric, plumbing, and mechanical permits are budgeted in the Building Development Services Fund, which is reflected in the Special Revenue section of this report. Licenses and permits revenue collections are tracking below par with receipts totaling \$2.3 million, or 69.4% of the budget of \$3.3 million, through April. This collection level is consistent with the prior fiscal year collection level. Based on current collections trends, revenues in this category are tracking to end the year below the budgeted estimate.

Fines & Penalties: Includes vehicle, parking, court fines, and miscellaneous penalty fines. The revenue of approximately \$0.6 million collected through April is tracking to end the year below the budgeted estimate of \$1.6 million largely due to the waiving of late fees implemented in response to COVID-19. The late fees are no longer being waived as of April 1, 2023.

Intergovernmental: Includes motor vehicle fees, state homeowner tax relief, fire mutual aid, state mandated reimbursement and redistribution of land sale proceeds and ground leases from the Successor Agency. Through April 30, 2023, \$1.1 million has been received, which is lower than the prior year collection level but above the budgeted estimate. The fire mutual aid revenue and department budget adjustment of \$0.3 million, approved as part of the January 2023 Monthly Financial Report, are reflected. A second adjustment of \$0.3 million to the same categories was approved on May 23, 2023 as part of the February/March 2023 Monthly Financial Report, which is not yet reflected.

Charges for Services: Includes various plan check and zoning-related fees, engineering fees, administrative fees, and community service revenue from various recreational activities. Through April 30, 2023, collections are tracking within the budgeted estimate at \$26.7 million, or 85.6% of the budget. This reflects a 6% increase compared to last year's collections through the same period of \$25.2 million. This increase is a result of higher collections for technology fee, Fire construction permits, and Fire EMS fees.

Transfer from City Utilities: In accordance with the City's charter, Silicon Valley Power pays 5.0% of gross revenues to the General Fund. As of April 30, 2023, \$23.9 million has been received. Transfers throughout the year are based on the budgeted estimate and will be trued up at the end of the fiscal year based on actual performance.

Use of Money & Property: Includes realized interest income and rental income. Interest income and rent revenue collections totaled \$11.9 million, or 90.8% of the budget. These collections are higher than collections through last fiscal year of \$8.5 million. The increase in the interest income reflects the higher investment yield, while rents are higher primarily due to the Commerce Plaza and Hyatt Regency at 5101 Great America properties. Collections are expected to exceed the budgeted estimate of \$13.1 million.

Miscellaneous Revenues: Includes developer fees, donations, damage recovery, sale of surplus, and one-time miscellaneous revenues. Through April 30, 2023, collections of \$2.7 million are higher than collections through the same period last fiscal year of \$0.6 million. This increase is primarily attributable to the \$1.67 million settlement between the City, the Santa Clara Stadium Authority, and the Forty-Niners SC Stadium Company LLC and Forty Niners Stadium Management Company LLC (collectively, the Forty-Niners).

Stadium Operation: As of April 30, 2023, charges for services collected through the Stadium totaled \$9.6 million, which is above par for this time of year. This is significantly higher than collections through the same period last year resulting from the reopening of Stadium for events and two additional NFL playoff games held at the Stadium. The revenue estimate also reflects the \$1.0 million adjustment approved as part of the January 2023 Monthly Financial Report on March 21, 2023. A second budget amendment approved on May 23, 2023 as part of the February/March 2023 Monthly Financial Report to recognize and allocate additional reimbursements of \$1.4 million is not yet reflected in this report.

General Fund Expenditures

As of April 30, 2023, \$225.2 million or 77.4% of the General Fund operating budget had been expended. Overall, expenditures in the General Fund are tracking below budgeted levels through April. Departmental expenditures totaled \$207.6 million, or 76% of the budget, which is below the par level of 83.3% of the budget. This reflects savings from vacant positions as well as savings generated from cost-control measures that were implemented in FY 2019/20. Expenditures are expected to end the year below budget.

General Fund Expenditures

Below is an explanation of certain budget to actual expenditure variances by department.

Non-Departmental: Includes expenditures that are not attributable to a single department, but a function of the City in general. As of April 30, 2023, expenditures totaled \$3.8 million, or 40.1% of the budget. These expenditures are tracking below budget but are higher than the prior year levels, primarily as a result of higher expenditures in the contractual services as well as salaries and benefits categories. The budget for this category includes \$1.7 million for the Education Revenue Augmentation Fund (ERAF) Property Tax contingency that was set aside as part of the FY 2021/22 Year-End Budgetary Report due to a legal challenge from the California School Boards regarding the distribution of the excess ERAF funds. As part of the February/March Monthly Financial Report approved on May 23, 2023, budget actions were approved to move these funds, along with additional funds from FY 2022/23, to a new Property Tax Excess ERAF Reserve. Excluding these ERAF funds, non-departmental expenditures would have tracked at 48.8% of the budget through April. This category also includes \$1.8 million for separation payouts that has not been expended; these funds are transferred to departments as necessary to address these costs. Budget actions are recommended in this report to allocate a portion of these funds to the Fire Department to cover the separation payouts in that department.

City Attorney: Through April, actual expenditures totaled approximately \$2.7 million, which is below expected levels at 72.1% of the budget. Spending is 33% above the total expenditures through the same time last fiscal year due to higher costs for contractual legal services and salaries and benefits.

City Clerk: Through April, actual expenditures were tracking above budget at \$1.7 million or approximately 79.1% of the budget. This reflects a 48.5% increase in spending compared to prior year spend levels; however, is still within budgeted levels. This is a result of one-time special election costs, higher salaries and benefits costs, and Granicus costs that are paid every other year.

City Council: Through April 30, 2023, expenditures were at 64.2% of budget, which is below par. Compared to the same period through last fiscal year, this reflects a spending decrease of approximately 16.2%, which is primarily the result of savings due to vacancies within the department.

City Manager: Expenditures through April totaled \$4.3 million, or 67.7% of the budget, which is below par for this time of the year. Expenditures are 3.5% higher compared with the spending level through the same period last fiscal year. This increase reflects higher property management maintenance costs and as-needed spending. This increase is partially offset by lower spending in salaries and benefits and advertising.

Community Development Department: This department consists of three divisions: Planning, Building, and Housing and Community Services. The Building division of this department is reflected in the Building Development Services Fund, which falls under the special revenue section of this report. Through April, General Fund expenditures for the Planning and Housing and Community Services divisions totaled \$3.7 million, or 65.3% of budget, which is below the par level of 83%. Expenditures

were slightly below the spending through the same period last fiscal year due to lower non-personnel expenditures.

Finance Department: Through April, the Department's expenditures totaled \$14.8 million, or 73.1% of the budget, which is below par. This expenditure level was approximately 10.7% higher than the prior year primarily as a result of higher salaries and benefits costs.

Fire Department: Through April, expenditures totaled \$55.7 million, or 84.1% of the budget, which is at par. These expenditures reflect a 45% increase from expenditures through the same period last fiscal year. This large increase compared to the prior year is a result of the shifting of \$11.3 million of Fire's operating budget to the American Rescue Plan Act (ARPA) Fund last year on a one-time basis. As the ARPA was one-time funding, this year's tracking reflects all of the Department's expenditures. Spending is higher in the salaries and benefits, as-needed, contractual services, maintenance, and capital outlay categories. Overtime expenditures are tracking above the budget at 116.8%. While this overtime figure is high, it is important to note that overtime is used to backfill for vacant positions and the vacancy savings offset a portion of the overtime costs. In addition, overtime costs are higher due to mutual aid efforts that will be reimbursed. The Department's budget now reflects an adjustment appropriating \$0.3 million for Cal OES reimbursements from the January 2023 monthly financial report. The budget does not yet reflect the second adjustment of \$0.3 million for Cal OES reimbursements that was approved on May 23, 2023 as part of the February/March 2023 Monthly Financial Report. Additional budget amendments are recommended in this report to recognize fire-related revenue from fees and various reimbursements and allocate those funds to cover Fire Department salary, overtime and non-personnel costs.

Library Department: Through April, actual expenditures totaled \$8.6 million, or 70% of the budget, which is below par, but nearly 17.4% higher than expenditure levels last fiscal year. This is a result of resuming operations which began earlier this calendar year.

Parks and Recreation Department: Through April, actual expenditures totaled approximately \$16.4 million, or 73.8% of the budget, which is below par, but above the prior year actuals of \$14.9 million. This is due to the department resuming activities that were previously impacted by COVID-19 restrictions.

Police Department: Expenditures through April are tracking below expected levels at \$67.0 million, or 78.1% of the budget. This is approximately 43% higher when compared to spending levels through the same period last fiscal year. Similar to the Fire Department, this large increase compared to the prior year is a result of the shifting of \$14.9 million of Police's operating budget to the American Rescue Plan Act Fund last year on a one-time basis. As this was one-time funding, this year's tracking reflects all of the Department's expenditures.

Stadium Operation: Stadium operating expenditures are incurred first and billed on a reimbursement basis creating a timing difference in revenue recognition. Stadium expenditures totaled approximately \$7.4 million through April and are tracking above budgeted levels at 87.7%. This is 33.4% higher than expenditures through the same period last year, as a direct result of the reopening of the Stadium for events and two additional NFL playoff games held at the Stadium. The budget incorporates the \$1.0

million adjustment approved on March 21, 2023 as part of the January 2023 Monthly Financial Report. Another budget amendment was approved on May 23, 2023 as part of the February/March 2023 Monthly Financial Report to recognize and allocate additional projected reimbursements of \$1.4 million. This adjustment is not yet reflected.

Special Revenue Funds

The table below is a summary of revenues and expenditures of select Special Revenue Funds as of April 30, 2023. The amended budget reflects carryover encumbrances from fiscal year 2021/22 and budget amendments approved by the City Council through April 2023. Effective July 1, 2021, all Building Division revenues and expenditures are budgeted and accounted for in the Building Development Services Fund, which is included in the table below.

Revenues totaled \$24.4 million, or 89.8% of budget, while expenditures totaled \$24.9 million, or 60.8% of budget through the end of April. Overall, revenues are tracking above budget due primarily to strong performance in the Building Development Services Fee Fund which has exceeded the annual revenue estimate. Expenditures in almost all funds are tracking below the par level of 83%. The Housing Successor Agency Fund expenditures are tracking above budgeted levels; however, this is the result of a loan disbursement being expended in full. Spending for the remainder of the year is expected to level off and end within budget. Revenue and expenses are tracking lower in the Housing and Urban Development Fund due to less activity in the Neighborhood Conservation and Improvement Program (NCIP) and the Affordable Rental Housing program. Projects under both of these programs have been delayed due to limited staff capacity; however, they are anticipated to be completed by the end of next fiscal year.

CITY OF SANTA CLARA SPECIAL REVENUE FUNDS REVENUE AND EXPENDITURE - OVERVIEW AND COMPARISON BY FUND

Governmental Capital Improvement Funds

The table below lists the revenue for selected capital improvement funds. The amended budget reflects current year appropriations, prior year carryover, and budget amendments approved through April 2023. As of April 30, 2023, the capital fund revenue totaled \$32.7 million. In the Parks and Recreation Capital Fund, \$24.4 million has been collected, which includes \$23.2 million in Mitigation Fee Act revenue. In the Streets & Highways Fund, revenues are tracking well below budget due to the timing of projects and associated reimbursements.

CITY OF SANTA CLARA GOVERNMENTAL CAPITAL IMPROVEMENT FUNDS REVENUE - OVERVIEW AND COMPARISON BY SELECTED FUND

Fund Description	REVENUES - FISCAL YEAR 2022/23					Percentage Used
	Current Year Appropriation	Prior Year Carryforward	Total Amended Budget	Actual Through 4/30/2023		
Parks & Recreation	\$ 26,256,378	\$ 3,301,620	\$ 29,557,998	\$ 24,360,827	82.42%

The table below lists the total amended budgeted amounts for expenditures in the Capital Improvement Funds. Similar to the revenue table, the amended expenditure budgets consist of current year appropriations, prior year carryover encumbrance balances in Governmental Capital Improvement Funds, and budget amendments approved through April 2023. As of April 30, 2023, capital fund expenditures totaled \$29.1 million, or 18.6% of the amended budget.

As part of the adoption of the FY 2022/23 and FY 2023/24 capital improvement program budget, some capital funds were carried over for projects that were not anticipated to be completed by June 30, 2022. Necessary additional adjustments to the capital carryover amounts were included as part of the Budgetary Year-End Report for FY 2021/22 approved on December 6, 2022. These adjustments are reflected in the table below.

The carryover of prior year budget amounts is necessary when services or projects are started but not completed at the end of the fiscal year. This is especially true for the Capital Improvement Program (CIP) that typically spans several years. The table below displays the expenditure budget for the General Government capital funds excluding transfers.

CITY OF SANTA CLARA GOVERNMENTAL CAPITAL IMPROVEMENT FUNDS EXPENDITURE - OVERVIEW AND COMPARISON BY FUND

EXPENDITURES - FISCAL YEAR 2022/23

TOTAL - Operating Appropriations	\$ 725,198,995	\$ 735,870,773	\$ 568,665,882	77.28%	\$ 497,692,898	\$ 70,972,984	14.26%

Revenues in the electric (which also includes the Electric Debt Service Fund), water, and sewer utility (which also includes the Sewer Debt Service Fund) and water recycling funds are primarily from customer service charges. The activity levels for these customer service charges also impact the resource and production costs on the expenditure side for these funds.

Expenditures in the Electric Utility Fund are tracking to end the year above the budget due to higher power purchase and production costs which are driven by the extreme spikes in natural gas prices. It is anticipated that higher revenues will partially offset these higher costs with the remainder addressed with the use of fund balance. Budget balancing amendments are recommended in this report.

In the Cemetery Fund, revenue is tracking below the prior year due to lower sales, while the decrease in Sewer revenue reflects the amount of reimbursements received from the City of San Jose related to the co-owned Regional Wastewater Facility. Expenditures are tracking higher in the Water Recycling Fund and Water Utility Fund as a result of higher spending in the resources category. A budget adjustment in the Water Recycling Fund was approved on May 23, 2023 as part of the February/ March

Financial Status Report as of April 30, 2023

2023 Monthly Financial Report to account for the significantly higher spend in the resource category; this adjustment is not reflected in the budget figures through April.

A summary of revenue and expenses in the Enterprise Capital Improvement Funds are detailed in the tables below. Actual revenue through April 30, 2023 totaled \$39.1 million, consisting primarily of developer contributions in the Electric Utility Fund and transfers from customer services charges in the Sewer Utility Fund. Enterprise capital fund expenses totaled \$45.2 million, or 16.3% of the amended budget. Similar to the general government capital funds, capital funds were carried over into next fiscal year as part of the FY 2022/23 and FY 2023/24 budget adoption process for those projects that have not yet been completed. Adjustments to the capital carryover amounts based on actual year-end expenditures were approved as part of the Budgetary Year-End Report for FY 2021/22 on December 6, 2022 and are reflected below.

(1) Street Lighting fund is part of Electric Capital Improvement Funds

Fund Reserves

By policy, City Council established the City's General Contingency Reserve, under which reserves for Budget Stabilization and Capital Projects were established.

- Budget Stabilization Reserve is set aside for weathering economic downturns, emergency financial crisis, or disaster situations. The reserve target is equal to the expenditures of the City's General Fund operations for three months (90-day or 25% General Fund Adopted Operating Budget). In FY 2022/23, the City Council approved an exception to the policy to allow the Reserve to drop below the 25% level.
- Capital Projects Reserve earmarks funds for the Capital Improvement Program.

Other General Reserves and Enterprise Fund Reserves included in this report are highlighted as follows:

- Technology Fee Reserve is set aside to update and/or replace the City's aging technology and to ensure internal controls are in compliance with current business standard and legal requirements.
- Land Sale Reserve is net proceeds from the sale of City-owned land, with interest earned on these funds available to be appropriated for General Fund operating expenditures. This reserve is available for appropriation by City Council action.
- The Electric Utility Rate Stabilization Reserve and Operations and Maintenance Reserve ensure sufficient operating cash is available to cover day-to-day expenses, address unforeseen cost increases or revenue shortfalls, and ensure debt service coverage.
- The Replacement and Improvement Reserve in the Water and Sewer Utility Funds is for future capital improvement.

The table below summarizes select reserve balances.

City of Santa Clara

Financial Status Report as of April 30, 2023

Long-Term Interfund Advances

On March 21, 2023, as part of the January Monthly Financial Report, the City Council approved a budget action transferring the remaining balance of the Parks and Recreation Facilities loan for the Reed and Grant Sports Park to the Land Sale Reserve. There are currently no outstanding balances for interfund advances.

Donations to the City of Santa Clara

CITY OF SANTA CLARA SUMMARY OF INVESTMENT PORTFOLIO

All securities held by the City of Santa Clara as of April 30, 2023 were in compliance with the City's Investment Policy Statement regarding current market strategy and long-term goals and objectives. All securities held are rated A or higher by two nationally recognized rating agencies. There is adequate cash flow and maturity of investments to meet the City's needs for the next six months.

The following table provides the breakdown of the total portfolio among the City, the Sports and Open Space Authority (SOSA), and the Housing Authority (HA) as of April 30, 2023.

	<u>COST VALUE</u>	<u>PERCENTAGE</u>
City	\$875,578,254	99.49%
SOSA	3,280	0.00%
HA	<u>4,454,111</u>	<u>0.51%</u>
Unrestricted	\$880,035,645	<u>100.00%</u>
Restricted Bond Proceeds	<u>2,211,943</u>	
Total Investments	<u>\$882,247,588</u>	

On April 30, 2023 the cost value and market value of the City's unrestricted pooled investment portfolio were \$880,035,645 and \$851,483,944 respectively.

Investment Strategy and Market Update

Consumer prices (CPI) rose 5.0% in March from a year ago and a full percentage point from the 6.0% reading in February. The pace of price increases in March was slowed by gasoline prices, which fell 17% year-over-year. Core inflation, which strips out food and energy, increased 0.1% to 5.6%. Prices remain elevated for food, transportation, shelter and new vehicles, underscoring the persistent challenge for the Fed.

The April employment report showed job gains of 253,000, firmly outpacing expectations of 185,000 and reinforcing the strength of labor markets. The unemployment rate ticked lower to 3.4%, matching its 40-year low, highlighting just how far the labor market is from the Fed's March projections of 4.5% by year-end 2023.

After a historical plunge in March, the U.S. Treasury yield curve inverted further in April as shorter tenors (less than one year) increased, while those beyond two years declined by 5 to 10 bps.

The benchmark 3-month, 2-year, and 5-year U.S. Treasury yields finished the month at 5.03%, 4.00%, and 3.48%, moving up 34, down 2, and down 9 bps during April, respectively.

The City's investment strategy for April 2022 was to invest funds not required to meet current obligations, in securities listed in the prevailing Investment Policy Statement, with maturities not to exceed five years from date of purchase. This strategy ensures safety of the City's funds, provides liquidity to meet the City's cash needs, and earns a reasonable portfolio return. PFM Asset Management LLC began actively managing the City's securities portfolio on September 1, 2020.

As of April 30, 2023, 45.02% of the City's portfolio consists of U.S. Treasury Notes, 21.25% consists of investment grade Corporate Notes, 17.98% consists of Federal Agencies, 10.91% consists of California Asset Management Program (CAMP), 1.25% consists of investment grade Supranational Obligations, 1.19% consists of investment grade Asset-Back Securities, 0.82% consists of Negotiable Certificates of Deposit, 0.65% consists of Local Agency Investment Fund (LAIF), and 0.47% consists of investment grade Municipal Bonds. In addition, City bond proceeds are invested in separate funds and are not included in the calculation of the City's portfolio yield.

The City's securities portfolio is benchmarked against the ICE BAML 1-5 US Treasury Index.

The following table summarizes the investment yields other information of the City's investment portfolio components, along with comparable-maturity market indices. Also shown are the monthly interest income and aggregate year-to-date income.

FY 2022/23 Budget Amendments

General Fund (001)			
Department/Item	Source of Funds	Use of Funds	Explanation
Transfer to the Vehicle Replacement Fund (Fire Department Truck)		141,000	Increases the transfer to the Vehicle Replacement Fund to address higher than anticipated costs for the purchase of a truck for the Fire Department. Funding of \$2.0 million was previously transferred as part of the FY 2021/22 Year End Close Report budget actions. The remaining funding is needed to purchase the truck based on the actual quote. This action ensures that a replacement truck will be in place according to the replacement timeline (five affirmative Council votes required for the use of unused balances) .
Fire Department - Other Fees for Services / Fire Department Salaries	284,500	284,500	Recognizes additional revenue of \$284,500 in fire plan review and inspection fees above the budgeted estimate and allocates these funds to the Fire Department overtime budget. Fees are related to expedited plan review and fire permit inspection services conducted by the Community Risk Reduction Division (five affirmative Council votes required to appropriate additional revenue) .
Fire Department - Other Fees for Services / Fire Department Salaries (Intel Reimbursements)	5,749	5,749	Recognizes \$5,748 in reimbursements from Intel and allocates these funds to the Fire Department. This reimburses costs for plan review and fire permit inspection services for Intel development and non-development related projects (five affirmative Council votes required to appropriate additional revenue) .
Fire Department - Other Agencies Revenue / Fire Department Salaries (EMS County Reimbursements)	188,200	188,200	Recognizes reimbursements from the County of Santa Clara for Advanced Life Support/ paramedic services provided by the Fire Department. This represents prior year payments received in FY 2022/23 that are recommended to be allocated to the Fire Department. The Fire Department supports the County Emergency Medical Services (EMS) system by providing a paramedic on its medical calls that are used in combination with the County-contracted ambulance company. The Fire Department is reimbursed for a portion of the cost to provide this service (five affirmative Council votes required to appropriate additional revenue) .

FY 2022/23 Budget Amendments

General Fund (001) (Cont'd.)

Department/Item	Source of Funds	Use of Funds	Explanation
Fire Department - Other Fees for Services / Materials/Services/Supplies (Ambulance Transport Revenue)	28,944	28,944	Recognizes ambulance transport payments received from public healthcare providers and patients for Fire Department ambulance transports to hospitals. Ambulance transports began in March 2023 under the current Santa Clara County dispatch orders, allowing agencies with ambulances to transport patients to hospitals in conjunction with County-contracted ambulance services (five affirmative Council votes required to appropriate additional revenue) .
Fire Department Salaries and Benefits		1,280,000	Increases the Fire Department budget for salaries and benefits by \$1,280,000 from the Non-Departmental budget. This action funds the Department's \$340,000 separation payouts from the separation payout budget and \$940,000 to cover salaries and increased benefits (primarily health allocation) costs related to the Unit 1 2020-2025 MOU (RTC 22-912) that was executed in July 2022 (majority of affirmative Council votes required) .
Transfer to the General Government Capital Fund (FHRMS Update Project)		764,000	Establishes a transfer to the General Government Capital Fund for the FHRMS Update capital project. This additional funding for the FHRMS (Finance and Human Resources software system) project will support improvements to the Peoplesoft system, including automating manual processes (e.g., open enrollment, benefits administration, retroactive pay calculations, CalPERS limits) and updating Peoplesoft to the latest version. Savings are available in the Finance and Human Resources Departments and Non-Departmental to offset this cost (majority affirmative Council votes required) .
Finance Department		(250,000)	Decreases the Finance Department budget and redirects the funds to the FHRMS Update capital project as discussed above. This reflects departmental personnel savings from vacancies as well as non-personnel savings (majority affirmative Council votes required) .

FY 2022/23 Budget Amendments

General Fund (001) (Cont'd.)

Department/Item	Source of Funds	Use of Funds	Explanation
Human Resources		(250,000)	Decreases the Human Resources Department budget and redirects the funds to the FHRMS Update capital project as discussed above. This reflects departmental personnel savings from vacancies as well as non-personnel savings (majority affirmative Council votes required) .
Non-Departmental		(1,685,000)	Reallocates savings in the Non-Departmental budget to fund the following: separation payouts in the Fire Department (\$340,000); salaries and benefits in the Fire Department (\$940,000); the transfer to the Vehicle Fund (\$141,000) to cover the higher cost of the fire truck; and the transfer to the General Government Fund for the FHRMS Update project (\$264,000). The Non-Departmental budget includes funding for departmental separation payouts that are allocated to departments as needed. Non-Departmental savings are also available to cover the other recommended uses (majority affirmative Council votes required) .
	507,393	507,393	

Cemetery Fund (093)

Department/Item	Source of Funds	Use of Funds	Explanation
Salaries		65,000	Increases the salaries budget by \$65,000 using fund balance to fund a retiree separation payout and personnel expenditures (five affirmative Council votes required for the use of unused balances) .
Unrestricted Ending Fund Balance		(65,000)	Decreases the unrestricted ending fund balance to offset the action above (five affirmative Council votes required for the use of unused balances) .
	-	-	

Cemetery Capital Fund (593)

Department/Item	Source of Funds	Use of Funds	Explanation
Other Revenue / Unrestricted Ending Fund Balance	79,940	79,940	Recognizes a rebate from the Santa Clara Valley Water District for the conversion of 39,370 square feet of landscape to low water use plantings at the Mission City Memorial Park (five affirmative Council votes required to appropriate additional revenue) .
	79,940	79,940	

FY 2022/23 Budget Amendments

Electric Utility Capital Fund (591)			
Department/Item	Source of Funds	Use of Funds	Explanation
Transfer from the Sewer Utility Fund	39,731		Recognizes a transfer from the Sewer Utility Fund for the Electric Yard Building and Grounds project (five affirmative votes required to appropriate additional revenue) .
Transfer from the Water Recycling Fund	8,828		Recognizes a transfer from the Water Recycling Fund for the Electric Yard Building and Grounds project (five affirmative votes required to appropriate additional revenue) .
Transfer from the Water Utility Capital Fund	39,731		Recognizes a transfer from the Water Utility Capital Fund for the Electric Yard Building and Grounds project (five affirmative votes required to appropriate additional revenue) .
Electric Yard Building and Grounds Project		88,290	Increases the Electric Yard Building and Grounds Project appropriation to provide additional funds for work being done for accessibility and installation of new parking stalls at the yard. This action allocates the contributions from the Sewer Utility Fund, the Water Recycling Fund, and the Water Utility Capital Fund to support this project as both the Electric Utility and Water and Sewer Departments use this facility (five affirmative votes required to appropriate additional revenue) .
Major Engine Overhaul and Repair		(3,000,000)	This action decreases the Major Engine Overhaul and Repair project after completing all scheduled work planned for FY 2022/23. The \$3.0 million will be reallocated to the Replace Balance of Plant Control System project to complete scheduled work (majority affirmative Council votes required) .
Replace Balance of Plant Control System		3,000,000	This action increases the Replace Balance of Plant Control System project to complete upgrades to the four autonomous controllers and remote instrumentation to centralize plant operations. Funding is reallocated from the Major Engine Overhaul and Repair project to fund this increase (majority affirmative Council votes required) .
San Tomas Junction	462	462	This action recognizes Other Revenue and increases the San Tomas Junction Project due to a refund for closing costs of an easement acquisition made in FY 2021/22 (five affirmative Council votes required to appropriate additional revenue) .
	88,752	88,752	

FY 2022/23 Budget Amendments

Electric Utility Debt Service Fund (491)

Department/Item	Source of Funds	Use of Funds	Explanation
Electric Department (Administrative Costs)		10,000	Increases the Electric Department budget by \$10,000 to fund higher than anticipated administrative costs (five affirmative Council votes required for the use of unused balances) .
Reserve for Debt Service		(10,000)	Decreases the Reserve for Debt Service to offset the action above (five affirmative Council votes required for the use of unused balances) .
	-	-	

Electric Utility Fund (091)

Department/Item	Source of Funds	Use of Funds	Explanation
Charges for Services	4,700,000		This action recognizes additional revenue from Charges for Services due to higher than anticipated energy sales. These revenues will partially offset the higher expenditure costs associated with power purchases in 2023 (five affirmative Council votes required to appropriate additional revenue) .
Other Revenue	14,500,000		This action recognizes additional revenue resulting from settlement of a lawsuit. SVP and other Northern California Power Agencies were awarded refunds of payments assessed and collected by the United States Bureau of Reclamation. This revenue will offset the unanticipated higher expenditure costs associated with power purchases in 2023 (five affirmative Council votes required to appropriate additional revenue) .
Resource and Production		60,000,000	This action increases the Resource and Production expense budget due to higher than anticipated costs for purchased power primarily in early calendar year 2023. SVP had higher than anticipated sales that required additional market purchases. These market purchases incurred high rates due to an increase of natural gas prices which were up to ten times higher than the average over the last 10 years (five affirmative Council votes required for the use of unused balances and to appropriate additional revenue) .

FY 2022/23 Budget Amendments

Electric Utility Fund (091) (Cont'd.)

Department/Item	Source of Funds	Use of Funds	Explanation
Contribution In-Lieu		1,250,000	This action increases the Contribution In-Lieu to account for higher revenues, including unanticipated Load Development Fee revenue received in the Electric Utility Capital Fund (five affirmative Council votes required for the use of unused balances) .
Operations and Maintenance Reserve		11,874,139	This action increases the Operations and Maintenance Reserve in the amount of \$11,874,139 from Unrestricted Fund Balance. The increased amount, together with the previously budgeted FY 2022/23 increase of \$20,125,861, is from prior years retained earnings to meet minimum reserve targets (five affirmative Council votes required for the use of unused balances) .
Rate Stabilization Reserve		3,070,855	This action increases the Rate Stabilization Reserve in the amount of \$3,070,855 from Unrestricted Fund Balance. The increased amount, together with the previously budgeted FY 2022/23 increase of \$4,929,145, is from prior years retained earnings to meet minimum reserve targets (five affirmative Council votes required for the use of unused balances) .
Unrestricted Ending Fund Balance		(56,994,994)	This action decreases the unrestricted ending fund balance (from \$87,035,370 to \$30,040,376) to offset the actions recommended above (five affirmative Council votes required for the use of unused balances) .
	19,200,000	19,200,000	

Expendable Trust Fund (079)

Department/Item	Source of Funds	Use of Funds	Explanation
Revenue from Other Agencies / Information Technology - SVACA Billing	25,000	25,000	This action increases the Revenue from Other Agencies estimate and appropriates the funding to the Information Technology Department. This funding is related to reimbursements received from the Silicon Valley Animal Control Association (SVACA) for services provided by the City (five affirmative Council votes required to appropriate additional revenue) .

FY 2022/23 Budget Amendments

Expendable Trust Fund (079) (Cont'd.)

Department/Item	Source of Funds	Use of Funds	Explanation
Revenue from Other Agencies / Department of Public Works - SVACA Billing	36,200	36,200	This action increases the Revenue from Other Agencies estimate and appropriates the funding to the Department of Public Works. This funding is related to reimbursements received from the Silicon Valley Animal Control Association (SVACA) for services provided by the City (five affirmative Council votes required to appropriate additional revenue) .
Revenue from Other Agencies / Police Department - Seized Assets	184,000	184,000	This action increases the Revenue from Other Agencies estimate for seized assets and appropriates the funding to the Police Department. A spending plan will be brought forward separately (five affirmative Council votes required to appropriate additional revenue) .
	245,200	245,200	

Fire Operating Grant Trust Fund (178)

Other Agencies Revenue / Urban Search and Rescue Training Reimbursements	30,299	30,299	Recognizes \$30,299 in reimbursements from the Menlo Park Fire Protection District for Urban Search and Rescue training exercise overtime costs. Reimbursements are for the FY 2022/23 Medical Specialist Training, Search and Rescue Operating Platform (SARCOP) Training, Technical Search Training and Canine Search Specialist Training exercises (five affirmative Council votes required to appropriate additional revenue) .
Other Agencies Revenue / 2022 Emergency Management Preparedness Grant	2,000	2,000	Establishes a grant appropriation for the 2022 Emergency Management and Preparedness Grant issued by the County of Santa Clara Office of Emergency Services. Grant funds will be used to fund staff attendance costs for the 2023 International Association Emergency Managers Conference (five affirmative Council votes required to appropriate additional revenue) .

FY 2022/23 Budget Amendments

Fire Operating Grant Trust Fund (178) (Cont'd.)

Department/Item	Source of Funds	Use of Funds	Explanation
Other Agencies Revenue / 2022 State Homeland Security Grant Program	252,900	252,900	Establishes a grant appropriation for the 2022 State Homeland Security Grant Program award. The grant reimburses the Fire Department's All-Hazards Coordinator position costs and Police Department training activities that support the County Santa Clara County Office of Emergency Services (five affirmative Council votes required to appropriate additional revenue) .
	285,199	285,199	

General Government Capital Fund (539)

Department/Item	Source of Funds	Use of Funds	Explanation
Transfer from General Fund / FHRMS Update Project	764,000	764,000	Increases the transfer from the General Fund and appropriates additional funding for the FHRMS (Finance and Human Resources software system) project. This funding will support improvements to the Peoplesoft system, including automating manual processes (e.g., open enrollment, benefits administration, retroactive pay calculations, CalPERS limits) and updating Peoplesoft to the latest version (five affirmative Council votes required to appropriate additional revenue) .
	764,000	764,000	

Housing and Urban Development Fund (562)

Department/Item	Source of Funds	Use of Funds	Explanation
HOME Administration		(55,000)	Decreases the HOME Administration project appropriation to reflect actual staff time spent for program administration (majority affirmative Council votes required) .
Ending Fund Balance		55,000	Increases the ending fund balance to offset the action recommended above (majority affirmative Council votes required) .
	-	-	

FY 2022/23 Budget Amendments

Parks and Recreation Capital Fund (532)

Department/Item	Source of Funds	Use of Funds	Explanation
Mitigation Fee Act Revenue	13,399,292		Increases the Mitigation Fee Act revenue estimate by \$13,399,292 (from \$23,237,740 to \$36,637,032) based on additional revenue received year-to-date (five affirmative Council votes required to appropriate additional revenue) .
Park Impact Fees Monitoring Project		267,986	Increases the Park Impact Fees Project appropriation based on an additional Mitigation Fee Act revenue received year-to-date. The appropriation is based on a calculation of two percent (2%) of actual Quimby and MFA fees that are transferred to this project annually (City Chapter 17.35 of the City Code) to support staff and studies related to the park in-lieu program (five affirmative Council votes required to appropriate additional revenue) .
Parkland Acquisition Project		3,976,073	Increases the Parkland Acquisition Project appropriation by \$3,976,073 (from \$6,000,000 to \$9,976,073) to account for additional Mitigation Fee Act (MFA) revenue received year-to-date. The allocation is based on 25% of total Park In-Lieu Fees received, after two percent (2%) is allocated towards the Park Impact Fees Monitoring Project. To date, \$5 million of MFA fees and \$1 million of Quimby Act fees have been appropriated to this project this fiscal year (five affirmative Council votes required to appropriate additional revenue) .
Central Park Magical Bridge Playground	255,002		Increase the Other Revenue estimate as a technical adjustment to account for anticipated donations for the Central Park Magical Bridge Playground (total estimate of \$1.0 million). This is a correction to the budget action brought forward in the FY 2021/22 Budgetary Year-End Report (RTC 21-930) that incorrectly assumed \$255,002 had been received in FY 2021/22 for this project and, as a result, the FY 2022/23 revenue estimate was reduced by that amount. The donation was actually received for the Youth Soccer Fields & Athletic Facilities - Reed and Grant Street project. A separate action below allocates those donation funds. The Magical Bridge Foundation continues to solicit donations towards this project (five affirmative Council votes required to appropriate additional revenue) .

FY 2022/23 Budget Amendments

Parks and Recreation Capital Fund (532) (Cont'd.)

Department/Item	Source of Funds	Use of Funds	Explanation
Youth Soccer Fields & Athletic Facilities - Reed & Grant Street		255,002	Technical adjustment to appropriate a \$255,002 donation from Silicon Valley Power that was received in FY 2021/22. The donation supports the inclusion of EV charging stations in the expanded parking lot (five affirmative Council votes required for the use of unused balances) .
Eddie Souza Park Building Repair	93,353	93,353	Increases the Other Revenue estimate from insurance payments and appropriates it to the Eddie Souza Park Building Repair project, established due to vandalism at the park. The additional funding reimburses repair costs such as clean-up from the fire damage and replacing, fiber, locks, cameras and equipment (five affirmative Council votes required to appropriate additional revenue) .
Ending Fund Balance		9,155,233	Increases the Unrestricted Ending Fund Balance to offset the actions above (five affirmative Council votes required for the use of unused balances) .
	13,747,647	13,747,647	

Public Donations Fund (067)

Department/Item	Source of Funds	Use of Funds	Explanation
Parks & Recreation - Other Revenue / Materials/Services/Supplies	150	150	Recognizes public donations from the Santa Clara Women's League, in memory of Shirley Shumaker, in support of the Senior Center Health & Wellness activities and programming and Theta Baltazar in support of the Senior Bingo activities and programming (five affirmative Council votes required to appropriate additional revenue) .
	150	150	

Parks & Recreation Operating Grant Trust Fund (111)

Department/Item	Source of Funds	Use of Funds	Explanation
Other Revenue / Materials/Services/Supplies	3,350	3,350	Recognizes donations from Theta Baltzar, Barbara Chuck and Apollo Mok in honor of Mary Mok, to support the Senior Nutrition Program (five affirmative Council votes required to appropriate additional revenue) .
	3,350	3,350	

FY 2022/23 Budget Amendments

Related Santa Clara Developer Fund (540)

Department/Item	Source of Funds	Use of Funds	Explanation
Developer Contributions / Other Development Project Services	400,000	400,000	Increases the developer contributions estimate and increases the Other Development Project Services appropriation to address higher than anticipated third-party consultant costs (five affirmative Council votes required to appropriate additional revenue) .
	400,000	400,000	

Sewer Utility Capital Fund (594)

Department/Item	Source of Funds	Use of Funds	Explanation
Transfer from the Sewer Utility Fund / Sanitary Sewer Hydraulic Modeling As Needed Support	30,000	30,000	Increases the transfer from the Sewer Utility Fund and increases the Sanitary Sewer Hydraulic Modeling As Needed Support project appropriation to account for higher than anticipated engineering costs (five affirmative votes required to appropriate additional revenue) .
	30,000	30,000	

Sewer Utility Fund (094)

Department/Item	Source of Funds	Use of Funds	Explanation
Transfer to the Sewer Utility Capital Fund		30,000	Increases the transfer to the Sewer Utility Capital Fund for the Sanitary Sewer Hydraulic Modeling As Needed Support project to account for higher than anticipated engineering costs (five affirmative votes required for the use of unused balances) .
Transfer to the Electric Utility Capital Fund		39,731	Establishes a transfer to the Electric Utility Capital Fund for the Electric Yard Building and Grounds project to provide additional funds for work being done for accessibility and installation of new parking stalls at the yard; this reflects the share of the costs attributed to the Sewer Utility Fund (five affirmative votes required for the use of unused balances) .
Unrestricted Ending Fund Balance		(69,731)	Decreases the unrestricted ending fund balance to offset the actions above (five affirmative Council votes required for the use of unused balances) .
	-	-	

FY 2022/23 Budget Amendments

Solid Waste Fund (096)

Department/Item	Source of Funds	Use of Funds	Explanation
Materials/Services/Supplies (SB1383 Local Assistance Grant Program)		185,289	Increases the Materials/Services/Supplies budget to use \$185,289 in grant funding that was received in FY 2021/22. The SB1383 Local Assistance Grant Program was offered by the Department of Resources Recycling and Recovery (CalRecycle). This was a non-competitive grant program that provided one-time funding to local jurisdictions to assist with the implementation of regulation requirements associated with SB 1383. The City of Santa Clara was awarded \$185,289 on May 24, 2022 and did not use any funds in FY 2021/22. The grant term ends on April 2, 2024. Approved expenditures include compost giveaways (purchase of compost, supplies, and all staff time for the events) and a power purchase agreement for power derived from residential organic collected curbside. A rough breakdown of costs would be \$170,623 for contracts, \$9,000 for personnel, and \$5,666 for supplies (five affirmative Council votes required for the use of unused balances) .
Unrestricted Ending Fund Balance		(185,289)	Decreases the Unrestricted Ending Fund Balance to offset the action above. The grant funds received in FY 2021/22 are incorporated into the Unrestricted Ending Fund Balance (five affirmative Council votes required for the use of unused balances) .
	-	-	

Solid Waste Capital Fund (596)

Department/Item	Source of Funds	Use of Funds	Explanation
Developer Contributions / Sanitary Landfill Development - Post Closure	130,000	130,000	Increases the Developer Contributions revenue estimate and the Sanitary Landfill Development - Post Closure project for attorney services expenses incurred from prior years and higher than anticipated costs associated with rodent control, mowing, and winter storms repairs. Per the Development Agreement, Related is to reimburse the City for all operating and maintenance costs above the baseline costs established in the agreement (five affirmative Council votes required to appropriate additional revenue) .
	130,000	130,000	

FY 2022/23 Budget Amendments

Vehicle Replacement Fund (050)

Department/Item	Source of Funds	Use of Funds	Explanation
Transfer from General Fund / Capital Outlay	141,000	141,000	Increases the transfer from the General Fund and increases the Capital Outlay budget to address higher than anticipated costs for the purchase of a fire truck. Funding of \$2.0 million was previously set aside in the FY 2021/22 Budgetary Year End Report. The remaining funding is needed to purchase the truck for the Fire Department based on the actual quote. This action ensures that a replacement truck will be in place according to the replacement timeline (five affirmative Council votes required to appropriate additional revenue) .
	141,000	141,000	

Water Recycling Fund (097)

Department/Item	Source of Funds	Use of Funds	Explanation
Resource/Production		500,000	Increases the Resource/Production appropriation to cover higher than anticipated usage of recycled water (five affirmative votes required for the use of unused balances) .
Transfer to the Electric Utility Capital Fund		8,828	Establishes a transfer to the Electric Utility Capital Fund for the Electric Yard Building and Grounds project to provide additional funds for work being done for accessibility and installation of new parking stalls at the yard; this reflects the share of the costs attributed to the Water Recycling Fund (five affirmative votes required for the use of unused balances) .
Unrestricted Ending Fund Balance		(508,828)	Decreases the unrestricted ending fund balance to offset the actions above (five affirmative Council votes required for the use of unused balances) .
	-	-	

FY 2022/23 Budget Amendments

Water Utility Capital Fund (592)

Department/Item	Source of Funds	Use of Funds	Explanation
Distribution System Replacement/Restoration		350,000	Increases the Distribution System Replacement/Restoration project appropriation to account for higher than anticipated construction and supplies costs (five affirmative votes required for the use of unused balances) .
SCADA Improvements		17,000	Increases the SCADA Improvements project appropriation to account for higher than anticipated construction and engineering costs (five affirmative votes required for the use of unused balances) .
Tank Rehabilitation		21,000	Increases the Tank Rehabilitation project appropriation to account for higher than anticipated construction costs (five affirmative votes required for the use of unused balances) .
Transfer to the Electric Utility Capital Fund		39,731	Establishes a transfer to the Electric Utility Capital Fund for the Electric Yard Building and Grounds project to provide additional funds for work being done for accessibility and installation of new parking stalls at the yard; this reflects the share of the costs attributed to the Water Utility Capital Fund (five affirmative votes required for the use of unused balances) .
Unrestricted Ending Fund Balance		(427,731)	Decreases the unrestricted ending fund balance to offset the actions above (five affirmative Council votes required for the use of unused balances) .

Agenda Report

23-424

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Action on Award of Contract for the City of Santa Clara Utilities Corporation Yard Renovation Project to Ron Paris Construction

COUNCIL PILLAR

Deliver and Enhance High Quality Efficient Services and Infrastructure

BACKGROUND

The City of Santa Clara utilities corporation yard located at 1705 Martin Avenue and constructed in the late 1960's, is occupied by staff from the Water and Sewer Department and Silicon Valley Power. It contains work offices, a utility operations control room, a computer room, conference rooms, men's locker rooms and restrooms, and one women's restroom. In an effort to provide additional amenities to women working at this site, the Utilities Corporation Yard Renovation Project (Project) proposes to construct a new accessible women's restroom equipped with lockers and a shower. The scope of work also includes replacement of the existing halon fire suppression system in the computer room with a new clean agent fire suppression system; accessible parking stalls, and a new concrete walkway and landing to create an accessible path of travel from the new parking stalls to the existing front entry door.

On April 6, 2021, City Council approved a design professional services agreement with Studio G Architects, Inc. for the Project to provide preliminary engineering, preparation of construction documents (plans, specifications, and engineer's estimate) for public works bidding, assistance with obtaining building permit, and engineering support services during bid, award, and construction phases.

DISCUSSION

In March 2023, a competitive Request for Bids (RFB) for construction of the Project was published on the City's bid notification system, Periscope S2G. The RFB was viewed by over 61 vendors on Periscope S2G, which included contractors, suppliers, plan rooms, builder exchanges, and more. Beyond the contractors and suppliers who viewed the RFB through Periscope S2G, additional vendors were also able to view the RFB as members of various plan rooms and builder exchanges. Staff also reached out directly to contractors and vendors who have previously viewed similar projects in the past.

On April 6, 2023, a bid opening for the Project was held via video conference. One bid was received in the amount of \$704,248. The Bid Summary is included as Attachment 1. The lowest bid submitted by Ron Paris Construction (RPC), in the amount of \$704,248, is 6 percent below the Engineer's Estimate of \$750,000. The reason for receiving one bid may be attributed to the current economy where contractors have an abundant amount of work and may have already secured adequate work.

RPC's bid was reviewed by the Department of Public Works (DPW) and the City Attorney's Office for compliance with the terms and conditions of the bid documents and has been determined to be the lowest responsive and responsible bid. Staff recommends awarding the construction contract to Ron Paris Construction.

Award of contract will enable construction of the Project to begin with substantial completion anticipated by fall 2024. These dates are subject to change if any unforeseen conditions are discovered during construction. The contract includes prevailing wage requirements.

ENVIRONMENTAL REVIEW

This project being considered is exempt from the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15301 (c), "Existing Facilities," as the activity consists of the repair, maintenance or minor alteration of existing facilities involving no or negligible expansion of the use beyond that presently existing.

FISCAL IMPACT

The cost of the contract is \$704,248, plus an approximate 15 percent contingency of \$105,637 for any potential change orders, for a total not-to-exceed contract amount of \$809,885. Staff recommends including 15 percent contingency to cover any potential unforeseen issues that may arise when working with existing buildings and infrastructures. Funding is available in the Electric Yard Buildings and Grounds Project in the Electric Utility Capital Fund including an appropriation of Water and Sewer funds in today's Council Agenda as part of item 3B. Staff completed a fair share analysis and SVP is contributing \$721,595 and Water and Sewer is contributing \$88,290 towards the project.

COORDINATION

This report has been coordinated with Silicon Valley Power, the Finance Department, and the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Determine the proposed action is exempt pursuant to Class 1 (Existing Facilities) of CEQA Guidelines Section 15301;
2. Award the Public Works Contract for the City of Santa Clara Utilities Corporation Yard Renovation Project to the lowest responsive and responsible bidder, Ron Paris Construction, in the amount of \$704,248 and authorize the City Manager to execute any and all documents associated with, and necessary for the award, completion, and acceptance of this Project, in a final form approved by the City Attorney; and
3. Authorize the City Manager to execute change orders up to approximately 15 percent of the original contract price, or \$105,637, for a total not-to-exceed amount of \$809,885.

REPORT TO COUNCIL

SUBJECT

Actions on Award of Contract for the 2023 Americans with Disabilities Act (ADA) Curb Ramps Project to Villalobos & Associates, Inc., and Related Budget Amendments

COUNCIL PILLAR

Deliver and Enhance High Quality Efficient Services and Infrastructure

BACKGROUND

The 2023 ADA Curb Ramps Project (Project) consists of constructing Americans with Disabilities Act (ADA) compliant curb ramps at 12 intersections (Attachment 1). The scope of work includes demolishing existing concrete, making slight modifications to adjacent surfaces to accommodate the new curb ramps, updating traffic striping and pavement markings, and other necessary work to complete the Project.

The installation of ADA curb ramps continues the City's efforts to enhance accessibility in the public right-of-way for those with disabilities. The locations where curb ramps will be installed include locations requested by the public.

The Project is funded through a combination of Transportation Development Act Article 3 (TDA 3) funds and the City's General Fund. In May 2022, Council approved filing an application for allocation of TDA 3 funding for FY 2022/23 for use towards construction of curb ramps, and in September 2022, the Metropolitan Transportation Commission (MTC) approved the allocation. In February 2023, Council appropriated TDA 3 funding in the amount of \$309,078 and established the Citywide Priority Curb Ramp project in the Capital Improvement Program budget.

DISCUSSION

In April 2023, a competitive Request for Bids (RFB) for construction of the Project was published on the City's bid notification system, Periscope S2G. The RFB was viewed by over 37 vendors on Periscope S2G, which included contractors, suppliers, plan rooms, builder exchanges, and more. Beyond the contractors and suppliers who viewed the RFB through Periscope S2G, additional vendors were also able to view the RFB as members of various plan rooms and builder exchanges. In addition, staff also reached out directly to distribute the RFB to contractors and vendors who have previously viewed similar projects in the past.

On May 11, 2023, bids for the Project were opened via video conference. The City received seven bids from Villalobos & Associates, Inc., SBV Concrete Inc. (dba Valley Concrete), ASG Builders, JJR Construction, Inc., Sposeto Engineering, Inc., FBD Vanguard Construction, Inc., and Wattis Construction Company ranging from \$470,733 to \$689,864. The Bid Summary is included as Attachment 2.

The lowest bid was submitted by Villalobos & Associates, Inc. (Villalobos) in the amount of \$470,733, which is 6 percent below the Engineer's Estimate of \$500,860. Villalobo's bid was reviewed by the Department of Public Works (DPW) and the City Attorney's Office for compliance with the terms and conditions of the bid documents and has been determined to be the lowest responsive and responsible bid. Staff recommends awarding the contract to Villalobos & Associates, Inc.

Award of the contract will allow construction to commence in order to complete the curb ramps during late summer and fall 2023. The contract includes prevailing wage requirements.

ENVIRONMENTAL REVIEW

This project being considered is exempt from the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15301(c), "Existing Facilities," as the activity consists of the repair, maintenance or minor alteration of existing facilities involving no or negligible expansion of the use beyond that presently existing, and specifically includes the repair of existing highways and streets.

FISCAL IMPACT

The approximate cost of the contract is \$470,733, plus a 10 percent contingency of \$47,073 for any potential change orders, for a total not-to-exceed contract amount of \$517,806.

Transportation Development Act Article 3 (TDA 3) funding in the amount of \$309,078 is available in the Citywide Priority Curb Ramp project (CIP 1287) in the Streets and Highways Capital Fund for the contract. Staff recommends transferring \$207,228 from the Annual Curb Ramp Installation project (CIP 1250) in the Streets and Highways Capital Fund to the Citywide Priority Curb Ramp Project for the remaining funding necessary for the award of contract. The Annual Curb Ramp Installation project is supported by the General Fund Capital Projects Reserve and is to be used to replace existing curb ramps that do not comply with current ADA guidelines and/or the installation of new curb ramps to remove barriers for accessibility in the public right-of-way.

In addition, staff recommends transferring \$1,500 from the Water Utility Capital Fund to the Citywide Priority Curb Ramp project for the portion of the project costs associated with those funds based on the bid. The removal and replacement of water valve boxes is part of the work necessary for installing the curb ramps.

COORDINATION

This report has been coordinated with the Finance Department, Water & Sewer Utilities Department, and the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Determine the proposed project qualifies for a Categorical Exemption under CEQA Guidelines Section 15301;
2. Award the Public Works Contract for the 2023 ADA Curb Ramps Project to the lowest responsive and responsible bidder, Villalobos & Associates, Inc., in the amount of \$470,733, funded in the Streets and Highways Capital Fund, and authorize the City Manager to execute any and all documents, in a final form approved by the City Attorney, associated with, and necessary for the award, completion, and acceptance of this Project;
3. Authorize the City Manager to execute change orders up to 10 percent of the original contract price, or \$47,073, for a total not to exceed amount of \$517,806, funded in the Streets and Highways Capital Fund; and
4. Approve the following FY 2022/23 Budget Amendments:
 - A. In the Water Utility Capital Fund, establish a transfer of \$1,500 to the Streets and Highways Capital Fund and decrease the Unrestricted Ending Fund Balance in the amount of \$1,500 **(five affirmative Council votes required for the use of unused balances)**;
 - B. In the Streets and Highways Capital Fund, recognize a transfer in from the Water Utility Capital Fund in the amount of \$1,500, decrease the Annual Curb Ramp Installation project in the amount of \$207,228, and increase the Citywide Priority Curb Ramp project in the amount of \$208,728 **(five affirmative Council votes required to appropriate additional revenue)**.

REPORT TO COUNCIL

SUBJECT

Action on Award of Contract for the Westwood Oaks Park Playground Rehabilitation Project to Robert A. Bothman Construction and Related Budget Amendments

COUNCIL PILLAR

Deliver and Enhance High Quality Efficient Services and Infrastructure
Enhance Community Sports, Recreational and Arts Assets

BACKGROUND

Westwood Oaks Park is located at 460 La Herran Drive and is bounded by residential homes on three sides except for eastside park frontage on La Herran Drive. The Park was constructed in 1961 and since then has been operating without any major improvements. The 2018 Kitchell Facility Condition Assessment Report identified existing playground and site amenities as in critical condition and in need of rehabilitation.

On July 6, 2021, City Council approved an Agreement with Gates and Associates Architecture, Inc. (Gates) for the first phase of the Westwood Oaks Park Playground Rehabilitation (Project), which included conducting a detailed site and facility condition assessment, technology needs assessment, ADA evaluation, community outreach, and preparing an overall site specific plan and schematic design for the playground rehabilitation. On April 19, 2022, City Council approved the Westwood Oaks Park Master Plan Update, the playground schematic design, and Measure R Ordinance as well as Amendment No. 1 to the agreement with Gates to complete the second phase of the Project. The efforts provided by Gates include preparing bid documents (plans, specifications, and engineer's estimate - PS&E) for public works bidding, assisting with obtaining necessary permits, and providing engineering support services during bid and construction.

The Project as approved generally consists of improvements such as landscaping and irrigation, a half-size basketball court, site furnishings, lighting, utilities, a concrete loop path, and new/expanded accessible age-appropriate play areas.

DISCUSSION

In April 2023, a competitive Request for Bids (RFB) for construction of the Project was published on the City's bid notification system, Periscope S2G. The RFB was viewed by over 64 vendors, including contractors, suppliers, plan rooms, and builder exchanges, among others. Additional vendors were able to view the RFB as members of various plan rooms and builder exchanges. Staff also reached out directly to contractors and vendors who had viewed similar past projects.

On May 18, 2023, bids for the Project were opened via video conference. Four bids were received ranging from \$2,767,000 to \$3,667,777. The Bid Summary is included as Attachment 1. The lowest

bid was submitted by Robert A. Bothman Construction ("Bothman") in the amount of \$2,767,000. Bothman's bid was reviewed by staff for compliance with the terms and conditions of the bid documents and has been determined to be a responsive and responsible bid. Staff recommends awarding the construction contract to Robert A. Bothman Construction.

Award of contract will enable construction of the Project to commence with substantial completion anticipated in fall 2024. The date may be subject to change based on, if any, unforeseen conditions are discovered during construction. The contract includes prevailing wage requirements.

ENVIRONMENTAL REVIEW

The action being considered is categorically exempt from the California Environmental Quality Act ("CEQA") pursuant to the following sections of the CEQA Guidelines:

- Section 15302 (Class 2 - Replacement or Reconstruction): The project would replace and reconstruct existing facilities on the same site and with substantially the same purpose and capacity as the structure replaced.
- Section 15303 (Class 3 - New Construction or Conversion of Small Structures): The project will construct limited numbers of new, small facilities or structures and equipment. The proposal would expand the existing playground area by approximately 6,600 square feet and put new playground equipment in the existing park.
- Section 15304 (Class 4 - Minor Alterations to Land), and 15304(b) (Class 4(b) - replacement of existing landscaping with water efficient landscaping): The project would make minor alterations in the condition of land, water and/or vegetation which do not involve the removal of healthy, mature scenic trees, and would include the replacement of existing conventional landscaping with water efficient landscaping. The proposal would remove the unhealthy eucalyptus trees and entry trees that have structural issues and replace them with drought-tolerant species.

FISCAL IMPACT

The approximate cost of the contract is \$2,767,000, plus a 15 percent contingency of \$415,050 for any potential change orders, for a total not-to-exceed contract amount of \$3,182,050. Staff recommends including the 15 percent contingency to cover any potential unforeseen issues that may arise when working with existing park infrastructure.

Partial funding of \$1,833,384 is available in the Westwood Oaks Park Playground Rehabilitation project in the Parks Capital Fund. Staff recommends a budget amendment to increase the project budget by \$1,421,000 from Mitigation Fee Act funds, for a total budget of \$3,254,384. The amendment includes the remaining amount needed to fully fund the construction contract and approximately \$72,000 for other miscellaneous project costs, such as permitting, printing, and special inspection.

Budget Amendment FY 2023/24

Parks and Recreation Capital Fund	Current	Increase/ (Decrease)	Revised
<u>Fund Balance</u>			
Mitigation Fee Act	\$13,538,446	(\$1,421,000)	\$12,117,446
<u>Expenditures</u>			
Westwood Oaks Park Playground Rehabilitation	\$1,833,384	\$1,421,000	\$3,254,384

COORDINATION

This report has been coordinated with the Finance Department, Parks & Recreation Department, and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Determine the project to be exempt from CEQA under Public Resources Code Section 15302 (Class 2 Categorical Exemption); Section 15303 (Class 3 Categorical Exemption); and Section 15304 (Class 4 Categorical Exemption);
2. Award the Public Works Contract for the Westwood Oaks Park Playground Rehabilitation Project to the lowest responsive and responsible bidder, Robert A. Bothman Construction, in the amount of \$2,767,000 and authorize the City Manager to execute any and all documents associated with, and necessary for the award, completion, and acceptance of this Project, in final forms approved by the City Attorney;
3. Authorize the City Manager to execute change orders up to approximately 15 percent of the original contract price, or \$415,050, for a total not-to-exceed amount of \$3,182,050 funded by the Parks and Recreation Capital Fund; and
4. Approve the following FY 2023/24 budget amendment in the Parks and Recreation Capital Fund to increase the Westwood Oaks Park Playground Rehabilitation project appropriation by \$1,421,000 and decrease the Parks and Recreation Capital Fund Mitigation Fee Act fund balance by the same amount (**five affirmative Council votes required for the use of unused balances**).

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Action on Award of Purchase Orders for Citywide As-Needed Interior and Exterior Painting Services

COUNCIL PILLAR

Deliver and Enhance High Quality Efficient Services and Infrastructure

BACKGROUND

The Department of Public Works (DPW) has the responsibility of maintaining and repairing approximately 1,100,000 square feet of buildings located throughout the City. To effectively handle the workload required for maintaining these facilities, DPW utilizes vendors to provide assistance with various services. One such service that is contracted out is as-needed interior and exterior painting services at various locations, including City Hall, Santa Clara Convention Center, Old Courthouse, Police Building, Central Library, Northside Library, Senior Center, and Fire Stations.

DISCUSSION

Pursuant to City Code Section 2.105.140(c), a formal Request for Bids (RFB) was conducted as the solicitation method for this procurement with award to the lowest responsive and responsible bidder (s). The RFB allowed the City to make multiple awards at its sole discretion if determined to be in the City's best interest.

On April 6, 2023, staff published RFB# 22-23-76 for As-Needed Interior and Exterior Painting Services on the City's e-procurement system. Three bids were received by the deadline. The table below represents DPW's estimated annual total, which is calculated by multiplying the hourly rates submitted by the vendors by the estimated annual usage (in hours).

Bidder	Estimated Annual Total
Armstrong Painting, Inc.	\$148,870.00
Fairway Painting	\$167,455.50
Aiden's Quality Painting, Inc.	\$184,050.00

Staff is recommending primary award to Armstrong Painting, Inc. as the lowest responsive and responsible bidder. In addition, staff is recommending award to Fairway Painting and Aiden's Quality Painting, Inc. in the event that Armstrong Painting is unavailable. By having multiple vendors, DPW can prevent any potential delays if Armstrong Painting is unavailable due to scheduling conflicts, staff shortages, or an increase in workload.

The compensation under each Purchase Order will be on a time and materials basis. The rates will be fixed for the initial one-year term. After the initial term, price adjustments will be considered if

properly substantiated by the vendors and approved by the City. In addition, there are four one-year options to extend the term of the Purchase Orders for a total of five years, assuming all options are exercised.

The vendors will provide a range of painting services including touch-up work to update offices, walls, and ceilings, as well as supporting larger projects at the Police Department building, the Convention Center garage, and historic properties managed by DPW.

Prevailing wages will be paid under these purchase orders.

ENVIRONMENTAL REVIEW

The action being considered is exempt for the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15301 "Existing Facilities" as the activity consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities mechanical equipment or topographical features involving negligible or no expansion of use beyond that existing at the time of the lead agencies determination.

FISCAL IMPACT

The amount to be paid to the contractors over the initial one-year term shall not exceed \$200,000. The estimated cost of as-needed services is based on an estimate of past years' expenditures and future planned projects. The majority of costs will be charged to the relevant departments and their respective funding sources based on the locations where the services are rendered. Sufficient budget is available to fund anticipated painting services in FY 2023/24. Costs beyond FY 2023/24 are subject to appropriation of funds by the City Council.

COORDINATION

This report has been coordinated with the Finance Department and the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Authorize the City Manager to execute Purchase Orders with Armstrong Painting, Inc., Fairway Painting, and Aiden's Quality Painting, Inc. for as-needed interior and exterior painting services for an initial one-year term starting on or around July 1, 2023 and ending on or around June 30, 2024 for a maximum aggregate amount not-to-exceed \$200,000, funded by various City funds; and
2. Authorize the City Manager to exercise up to four one-year options to extend the term of the Purchase Orders, subject to compensation increases consistent with market rates not-to-exceed \$250,000 per year and the appropriation of funds.

Agenda Report

23-732

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Actions on a Density Bonus Agreement (DBA) with Santa Clara Pacific Associates to Allow a Multifamily Housing Development with 198 Affordable Rental Units at 80 Saratoga Avenue and Delegation of Authority to the City Manager to Negotiate and Execute Future DBAs in Accordance with Santa Clara City Code Section 18.78.060.

COUNCIL PILLAR

Promote and Enhance Economic, Housing and Transportation Development.

BACKGROUND

Santa Clara Pacific Associates (Owner/Developer) is proposing to construct a 100% affordable housing project with two hundred (200) units located at 80 Saratoga Avenue (Project). On September 14, 2022, an architectural review of the Project's six-story mixed-use development was approved at the Development Review Hearing.

The project is a 100 percent affordable housing development with 200 dwelling units which will include four floor plans types consisting of studios, one-, two- and three-bedroom units ranging from 416 square feet to 1,047 square feet in size. Affordability is determined based on the ability of households to pay rent depending upon household income level as a percentage of the average median income (AMI) for the County, with adjustments made for household size. Of the units, 198 units are to be provided to low income households earning no more than 80% of the AMI, and two are unrestricted on-site resident manager units.

As a condition of the land use entitlements and per the City's Affordable Housing Ordinance's (AHO) affordable housing requirements, a share of all newly constructed dwelling units in residential developments of ten (10) or more units must provide at least fifteen percent (15%) of the units at affordable housing costs made available at affordable rental prices to for extremely low, very low, low and moderate income households as long as the distribution of affordable units averages to a maximum of one hundred percent (100%) of area median income. The Developer is required to enter into an Affordable Housing Agreement (AHA) with the City to designate the Project's total AHO obligation of 30 units prior to the issuance of building permits.

Additionally, the Project was approved under the State Density Bonus Law in which the City has established the Density Bonus Ordinance (DBO) in accordance with California Government Code Section 65915 et seq, as amended. The DBO, grants a density bonus and regulatory concessions and/or incentives when a developer seeks and agrees to provide a minimum number of housing units with affordable rents to very low or lower income households. The Developer is required to enter into a Density Bonus Housing Agreement (DBA) prior to issuance of building permits. **Attachment 1** includes a copy of the proposed DBA.

DISCUSSION*Density Bonus Agreement for 80 Saratoga Avenue Affordable Housing Project*

The proposed DBA for 80 Saratoga Avenue is consistent with the income level pursuant to the standards of the DBO, and also satisfies the applicable provisions of the City's AHO. Approval of the proposed DBA will add much needed affordable housing to the City without any City subsidy. The project will rely on low income housing tax credits, tax exempt bonds, and higher density to subsidize rents.

Density Bonus Agreement Approval Process

The Housing and Community Services Division processes several DBAs each year for rental housing developments. Staff has developed standardized templates working with City Attorney's office. Staff recommends delegating authority to the City Manager to execute and amend DBAs that are consistent with the requirements per the Santa Clara City Code Section 18.78.060, subject to final review and approval as to form by the Office of the City Attorney. All projects not in conformance to the Density Bonus Ordinance would continue to be brought to the City Council for approval.

On December 6, 2022, the City Council approved a similar request and delegated authority to the City Manager to execute or amend affordable housing agreements in accordance with the provisions of SCCC Chapter 17.40 subject to final review and approval of such agreements by the Office of the City Attorney. Delegating authority to the City Manager to execute form agreement will help streamline the review and approval process.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment. DBA Projects that comply with Senate Bill 35 and objective standards are ministerial and therefore are not subject to CEQA review.

FISCAL IMPACT

There is no fiscal impact to the City for processing the requested application other than administrative time and expense typically covered by processing fees paid by the applicant.

COORDINATION

This report has been coordinated with the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Approve and authorize the City Manager or designee, to execute the Density Bonus Agreement with Santa Clara Pacific Associates for a 200 affordable housing project at 80

Saratoga Avenue on the terms presented, in a final form approved by the City Attorney.

2. Adopt a Resolution delegating to the City Manager the authority to negotiate, execute, or amend Density Bonus Agreements in accordance with the provisions of Santa Clara City Code Section 18.78.060, subject to final review and approval of such agreements by the Office of the City Attorney. All projects requiring an exception or modification to the City's standard Density Bonus Agreement shall continue to be brought to the City Council for approval.

CITY OF SANTA CLARA
Office of the City Clerk
1500 Warburton Avenue
Santa Clara, California 95050

This Agreement is recorded at the request and for the benefit of the **City of Santa Clara** and is exempt from the payment of a recording fee pursuant to **Government Code Sections 27383 and 6103**.

AFFORDABLE HOUSING AND DENSITY BONUS AGREEMENT

This Density Bonus Agreement (this "**Agreement**") is entered into as of this May , 2023, by and between the CITY OF SANTA CLARA, a chartered California municipal corporation (the "**City**"), and Santa Clara Pacific Associates, a California limited partnership (the "**Developer**"). The City and Developer are individually referred to herein as a "**Party**" and collectively referred to as the "**Parties**".

RECITALS

This Agreement is made and entered into with regard to the following facts, each of which is acknowledged as true and correct by the Parties to this Agreement:

A. Developer owns certain real property located at 80 Saratoga Avenue in the City of Santa Clara, California (the "**Property**"), legally described in Exhibit A attached hereto and incorporated herein by reference, and owns the improvements now or hereafter located thereon.

B. Chapter 17.40 of the Santa Clara City Code ("**Affordable Housing Requirements**") requires that a share of all newly constructed dwelling units in residential developments of ten (10) or more units must provide at least fifteen percent (15%) of the units at affordable housing costs made available at affordable rental prices to extremely low, very low, low and moderate income households as long as the distribution of affordable units averages to a maximum of one hundred percent (100%) area median income. Residential rental projects of fewer than ten units may either provide an affordable unit or pay an in-lieu fee identified for residential rental projects in the affordable housing master fee schedule.

C. Chapter 18.78 of the Santa Clara City Code (the "**Density Bonus Ordinance**"), provides that the City shall, in accordance with California Government Code Section 65915 *et seq.*, as amended (the "**State Density Bonus Code**"), grant a density bonus and regulatory concessions and/or incentives when a developer seeks and agrees to provide a minimum number of housing units with affordable rents to very low or lower income households.

D. Developer intends to construct upon the Property a mixed-use development comprising 200-units of housing (including 2 manager's unit) and approximately 8,625 square feet of ground floor commercial space (the "**Project**") pursuant to the Entitlement (as defined below) and is therefore subject to the Affordable Housing Requirements and Density Bonus

Ordinance.

E. Developer has agreed that one hundred percent of all units in the Project, including total units and density bonus units, but exclusive of a manager's unit or units, are for Lower Income Households, as defined in Section 50053 of the Health and Safety Code, in accordance with Section 65915(b)(1)(G) of the Government Code; and the Project is located within one-half mile of a major transit stop in accordance with Section 65915(f)(3)(D)(ii) of the Government Code. Therefore, the City shall not impose any maximum controls on density with respect to the Project pursuant to Section 65915(f)(3)(D)(ii) of the Government Code.

F. Developer has agreed that at the Project will include at least twenty percent (20%) low-income units meeting the criteria of Section 65915(b)(1)(B), in accordance with Section 65915(p)(2)(A) of the Government Code; and the Project is located within one-half mile of a major transit stop and there is unobstructed access to the major transit stop from the Project in accordance with Section 65915(p)(2)(A) of the Government Code. Therefore, the City shall not impose a vehicular parking ratio that exceeds 0.5 spaces per dwelling unit in accordance with Section 65915(p)(2)(A) of the Government Code.

G. The Developer's provision of one hundred ninety eight (198) units at the 80% AMI or less Income level pursuant to the standards of the Density Bonus Ordinance, also satisfies the Affordable Housing Requirements.

H. City and Developer desire to enter into this Agreement pursuant to the applicable provisions of the Affordable Housing Ordinance, Density Bonus Ordinance and the State Density Bonus Code.

AGREEMENT

NOW THEREFORE, in consideration of the mutual covenants and provisions contained herein, the parties hereto agree as follows:

1. Definitions. For purposes of this Agreement, the terms listed below shall have the meanings thereafter specified:

(a) **"Adjusted for Household Size Appropriate for the Unit"** means "adjusted for family size appropriate to the unit" as such term is used in Section 50053 of the Health and Safety Code (including as defined in Section 50052.5(h) of the Health and Safety Code through Section 50053(d) of the Health and Safety Code).

(b) **"Affordable Rent"** means the applicable affordable rent for Income Eligible Households as provided in Sections 50052.5 and 50053 of the Health and Safety Code as may be amended from time to time; provided, however, that the Affordable Rent for TCAC Units shall be the applicable TCAC Rent.

(c) **"Affordable Unit"** means the one hundred ninety eight (198) dwelling units that will be offered for rent exclusively to an Income Eligible Household at an Affordable Rent pursuant to this Agreement.

- (d) **“Annual Report”** shall have the meaning defined in Section 12.
- (e) **“Certificate of Occupancy”** means one or more temporary or permanent certificate(s) of occupancy that permit the occupancy of all Affordable Units in the Project.
- (f) **“City Representative”** means the City Manager of the City or his or her designated representative.
- (g) **“Developer”** means the person or entity defined as such in the introductory paragraph of this Agreement, and includes all successors and assigns of that person or entity.
- (h) **“Entitlement”** means, collectively, (1) the City of Santa Clara Action on Sustainable Communities Project Exemption and Architectural Approval for a 200-Unit Affordable Mixed-Use Project Located at 80 Saratoga Avenue, File Number PLN21-15214, approved on September 14, 2022; (2) all permits issued pursuant any of the foregoing.
- (i) **“HCD”** means the California Department of Housing and Community Development.
- (j) **“Income Eligible Household”** shall mean a Lower Income Household which is eligible to rent a particular Affordable Unit.
- (k) **“Lower Income Households”** means lower income households, as defined by Section 50079.5 of the Health and Safety Code.
- (l) **“Lower Income Units”** mean Affordable Units restricted to occupancy by Lower Income Households at the applicable Affordable Rent.
- (m) **“Moderate Income Households”** means moderate income households, as defined by Section 50093 of the Health and Safety Code.
- (n) **“Monitoring Fee”** means the Multi-Family Monitoring Fee that is published in the City’s Municipal Fee Schedule and updated from time to time, to be paid annually by Developer to the City in accordance herewith (and which amount as of the date hereof is a fee of One Hundred Nineteen Dollars (\$122) per Non-TCAC).
- (o) **“Non-TCAC Unit”** means thirty-nine (39) of the Affordable Units designated as using Affordable Rents in the Unit Allocation.
- (p) **“Original Unit”** shall have the meaning defined in Section 7(b).
- (q) **“Project”** has the meaning defined in Recital C.
- (r) **“Property”** shall have the meaning defined in Recital A.
- (s) **“TCAC”** means the California Tax Credit Allocation Committee.
- (t) **“TCAC Rent”** means an amount consistent with the maximum rent levels

for a housing development that receives an allocation of state or federal low-income housing tax credits from TCAC and applicable to the particular Income Eligible Household, including any applicable Utility Allowance.

(u) “**TCAC Units**” means one hundred and fifty nine (159) of the Affordable Units designated as using TCAC Rents in the Unit Allocation.

(v) “**Unit Allocation**” means the unit allocation in Exhibit B attached hereto and incorporated herein by reference.

(w) “**Utility Allowance**” means an amount designated by the Santa Clara County Housing Authority as a reasonable estimate of the cost of utilities for an Income Eligible Household, for purposes of calculating the applicable Affordable Rent; provided, however, that the Utility Allowance for TCAC Units shall be based on the applicable TCAC Rent.

2. Project Approvals.

(b) The Project shall be developed and operated in accordance with the Entitlement, all applicable City zoning standards, as modified by the density bonus granted to the Project under the Density Bonus Ordinance and the State Density Bonus Code. The Project shall be constructed in compliance with all applicable building codes and standards, as such may be modified from time to time. The Recitals are hereby incorporated into this Agreement.

(c) Within twenty (20) business days of the recording of this Agreement, Developer shall provide evidence reasonably acceptable to the City that the recording and priority of this Agreement is in compliance with the Density Bonus Ordinance and State Density Bonus Code (the “**Recording Requirements**”). If the recording and priority of this Agreement is not in compliance with the Recording Requirements, then the City shall have the right to suspend building permits for the Project or withhold Certificates of Occupancy for the Project until Developer causes this Agreement to comply with the Recording Requirements to the City’s reasonable satisfaction.

3. Affordable Units.

(b) Developer hereby agrees that one hundred ninety eight (198) rental housing units in the Project shall be rented exclusively to Income Eligible Households at an Affordable Rent, and two (2) housing unit shall be a non-revenue manager’s unit.

(c) The Affordable Units shall set aside and leased in accordance with the Unit Allocation, and shall be no less attractive or desirable on average (whether because of convenient access, views, amenities, or other reasons) than the other units in the Project that are not the Affordable Units. The allocation of the Affordable Units shall not be changed without the prior written approval of the City Representative.

4. Income Limits and Affordable Rents. The applicable income limits and Affordable Rents for Affordable Units, including Utility Allowances, shall be those established under California Health & Safety Code Section 50053, as may be amended from time to time (which income limits in effect as of the date of this Agreement are attached hereto as Exhibit B

and incorporated herein by this reference), except that the TCAC Units shall be subject to TCAC Rents. It shall be the obligation of Developer to annually obtain from City or any other applicable source the applicable income limits and Affordable Rents, as they may be adjusted from time to time.

5. Publication and Notification of Availability of Affordable Units. Upon the request of the City Representative, whenever one or more Affordable Unit(s) becomes available, Developer shall publish notices of the availability of Affordable Units using commercially reasonable efforts, including but not limited to, in newspapers circulated widely in the City of Santa Clara, including newspapers that reach minority communities. The advertisements should briefly explain that the Project includes affordable housing, state the applicable income requirements, indicate where applications are available and provide a telephone number for questions. The City Representative will notify Developer of any changes to the publication requirement should the City's marketing and outreach program for Affordable Units be revised.

6. Tenant Qualification for Rental Units.

(b) Developer agrees to rent the Affordable Units solely to Income Eligible Households, at not more than the applicable Affordable Rent.

(c) Developer must take reasonable steps to certify the income level of prospective occupants of an Affordable Unit, at the time of the initial rental, and annually thereafter. Developer may request an income certification from the proposed occupant of the Affordable Unit in one or more of the following methods:

(i) Obtain two (2) most recent paycheck stubs from all proposed occupants;

(ii) Obtain a true copy of income tax returns from all proposed occupants for the most recent tax year in which a return was filed;

(iii) Obtain an income verification certification from the employer of all proposed occupants;

(iv) Obtain an income verification certification from the Social Security Administration and/or the California Department of Social Services if any proposed occupants receive assistance from such agencies; or

(v) Obtain an alternate form of income verification acceptable to the City Representative.

(c) Developer shall apply the same rental terms and conditions to tenants of Affordable Units as are applied to all other tenants, except as otherwise required to comply with this Agreement (i.e., rent levels, occupancy restrictions and income requirements) and/or government subsidy programs. Discrimination based on subsidies received by the prospective tenant is prohibited.

(d) Commencing upon the issuance of the Certificate of Occupancy,

Developer shall pay City on an annual basis, due on the same date as the Annual Report, the Monitoring Fee.

7. Changes in Tenant Income.

(a) If the income of a tenant occupying an Affordable Unit decreases below the category for which the tenant originally qualified, the tenant shall continue to have the right to reside in the Affordable Unit, provided the tenant pays the rent and performs his other obligations to Developer.

(b) If the income of a tenant occupying an Affordable Unit increases above the category for which the tenant originally qualified but remains below 140% of the AMI that originally qualified the tenant [or 60% AMI if an income averaging project], the tenant may remain in the unit (the "**Original Unit**") at the tenant's new applicable Affordable Rent, as long as the next vacant unit is re-designated for the income category previously applicable to the Original Unit.

(c) Units may be re-designated per Section 7(b) of this Agreement by entering into and recording an amendment to this Agreement, revising Exhibit B hereto.

(d) So long as the Developer complies with the procedures set forth in this Section 7, Developer shall not be in violation of this Agreement due to a tenant's income eventually exceeding the income limit for the Affordable Unit occupied by that tenant.

8. Waiting List for Affordable Housing Units.

(a) The City or its designee will maintain a waiting list of qualified persons which shall be provided to Developer upon notification of vacancy or pending vacancy.

(b) If City no longer maintains a waiting list, Developer shall be responsible for maintaining a written Waiting List of households that have contacted Developer and expressed an interest in an Affordable Housing Unit. That list shall include appropriate contact information for notifying the interested households when a vacancy in an Affordable Housing Unit occurs. Names on the Waiting List will be listed in order of the date of receipt of notice of interest and contact information from the prospective applicant. This Waiting List will be kept in Developer's offices and shall be available for City review with reasonable notice.

(c) Subject to Developer's use and application of its customary leasing criteria that is applied to all tenants at the Project (including, without limitation, credit checks, references, etc.), Developer shall select new tenants for the Affordable Housing Units in chronological order (oldest listing first). Developer shall provide evidence of attempts to contact households on the Waiting List, when requested by the City.

(d) Developer's selection of tenants in the Project shall give preference to Income-Qualified Households in accordance with the Santa Clara Local Preference Criteria, as may be amended from time to time, attached hereto as Exhibit D.

9. Utilization of Affordable Rental Units. All Affordable Units required by this

Agreement shall be leased or rented and fully utilized in accordance with this Agreement; no Affordable Unit shall be withdrawn from the market or otherwise held vacant. The Developer shall provide the City with written notice if any Affordable Unit is not occupied by an Income Eligible Household for more than 60 consecutive days; for each Affordable Unit, such 60-day period shall recommence after the first 60 days.

10. No Sublease. A tenant occupying an Affordable Unit may not sublet the unit without the written permission of both Developer and City, which may be withheld in its sole and absolute discretion. The City shall not grant permission to lease, rent, or sublet the unit if it finds that the prospective tenant or occupant is not an Income Eligible Household. Any individual who subleases an Affordable Unit in violation of the provisions of this Agreement shall be required to forfeit to City all monetary amounts so obtained.

11. Lease Agreement. The form of lease agreement between Developer or its agent and the tenant of any Affordable Unit shall be submitted to the City for its approval and shall include provisions providing for the implementation of Section 7 of this Agreement. If the City has not approved or responded within 10 business days, the Developer shall submit a written reminder, and if the City does not approve or respond to such reminder within an additional 10 business days, then the form of lease agreement shall be deemed approved. Notwithstanding anything to the contrary herein, any approval or deemed approval of the lease agreement by the City shall not relieve the Developer of any of its obligations hereunder. A fully executed copy of each lease agreement for an Affordable Unit shall be delivered to the City within ten (10) days after the date of its execution.

12. Maintenance of Units. Developer shall (a) maintain and operate all units on the Property so as to provide decent, safe and sanitary housing consistent with federal housing quality standards; (b) make any required repairs or provide any required cleanup and (c) provide the Affordable Units with the same levels of services and maintenance as are provided to the other dwelling units on the Property.

13. Affordable Unit Compliance Inspection and Certification. The City may inspect the Affordable Units (subject to the rights of tenant) and any documents or records relating thereto, at any reasonable time upon at least 48 hours prior written notice to determine Developer's compliance with this Agreement. Moreover, the Developer agrees to submit an annual report (the "**Annual Report**") certifying that all Affordable Units are being leased or rented in compliance with this Agreement no later than the September 30 of each year with respect to the preceding January 1 through December 31 period during the term of this Agreement. For TCAC Units, Developer shall submit a copy of the Tax Credit Allocation Committee(TCAC) Report annually at the same time the report is submitted to TCAC. Failure to provide the report to the City may result in the City charging a fee for compliance monitoring of TCAC units

14. Federal and State Laws. Notwithstanding the above provisions, nothing contained herein shall require Developer or City to do anything contrary to or refrain from doing anything required by Federal and State laws and regulations promulgated there under applicable to the construction, management, maintenance, and rental of Lower Income Households in the City of Santa Clara.

15. Prohibition Against Discrimination. Developer shall not discriminate against any tenant or potential tenant on the basis of sex, color, race, religion, ancestry, national origin, age, pregnancy, marital status, family composition, sexual orientation, or the potential or actual occupancy of minor children. Developer further agrees to take affirmative action to ensure that no such person is discriminated against for any of the above mentioned reasons.

16. Indemnification. Developer shall defend, indemnify and hold harmless the City of Santa Clara and its officers, agents, employees, representatives and volunteers from and against any loss, liability, claim, judgment or expenses relating to or arising from this Agreement, including those claims that arise out of either (a) a breach of this Agreement by Developer, (b) related in any manner to the Developers administration of this Agreement, or (c) arising out of the City's interest in this Agreement or Affordable Units. This indemnification shall not apply to Claims arising out of conduct of the City, its officers, agents, employees, representatives or volunteers independent of this Agreement or any conduct of the City, its officers, agents, employees, representatives, or volunteers that is willful or grossly negligent.

17. Successors and Assigns. This Agreement shall be binding upon and inure to the benefit of City and Developer, and their respective successors, owners and assigns. City reserves the right to designate another public agency or the Housing & Community Services Division of the City of Santa Clara to perform City's obligations or to exercise City's rights and options under this Agreement. Developer reserves the right, upon notice to the City, to freely transfer ownership of the Property to a limited partnership entity controlled by Developer (the "Partnership") and may assign all of its rights and obligations under this Agreement to the Partnership.

18. Burden to Run with Property. The covenants and conditions contained herein shall run with and burden the Property. Developer shall expressly make the conditions and covenants in this Agreement a part of any deed or other instrument conveying an interest in the Property.

19. Notices. Any notices or reports required by this Agreement shall be deemed received on: (i) the day of delivery if delivered by hand, facsimile or overnight courier service during Consultant's and City's regular business hours; or (ii) on the third business day following deposit in the United States mail if delivered by mail, postage prepaid, to the addresses listed below:

The parties may subsequently change addresses by providing written notice of the change in address to the other parties in accordance with this Section 18.

20. Governing Law. The laws of the State of California shall govern this Agreement. Any legal action brought under this Agreement must be instituted in the Superior Court of the County of Santa Clara, State of California, in an appropriate municipal court in that County, or in Federal District Court in the Northern District of California.

21. Attorney's Fees. In any action brought to declare the rights granted herein or to enforce or to interpret any of the terms of this Agreement, the prevailing party shall be entitled to an award of reasonable attorney's fees in an amount determined by the court.

22. Costs and Expenses. The Developer shall pay all costs and expenses incurred to comply with its obligations arising from this Agreement and incurred by the City or its Housing & Community Services Division and arising from this Agreement, including the review of any requests for approvals made by the Developer.

23. Non-Waiver. Failure to exercise any right City may have or be entitled to, in the event of default hereunder shall not constitute a waiver of such right or any other right in the event of a subsequent default.

24. Further Assurances and Recordation. Developer shall execute any further documents consistent with the terms of this Agreement, including documents in recordable form and do such further acts as may be necessary, desirable or proper as City shall from time to time find necessary or appropriate to effectuate its purpose in entering into this Agreement.

25. Entire Agreement. The text herein and attachments, constitutes the entire agreement between the parties with respect to the matter described herein. This Agreement may be executed in counterparts, each of which shall be deemed an original, and all of which together shall constitute one and the same instrument. Each party to this Agreement acknowledges that no representations, inducements, promises or agreements, orally or otherwise, have been made by any party, or anyone acting on behalf of any party, which are not embodied herein, and that any other agreement, statement or promise not contained in this Agreement shall not be valid or binding.

26. Amendment of This Agreement.

(a) Generally. This Agreement may be amended from time to time in whole or in part by mutual consent of the original parties or their successors in interest, in accordance with this Agreement, the Santa Clara City Code and California law.

(b) Administrative Amendments. Notwithstanding subdivision (a) of this Section, any amendment to this Agreement, whether requested by Developer or City, which does not relate to the term set forth in Section 17 or Section 27; the number, percentage or type of Affordable Units; or the number or type of any incentives or concessions given by the City, may be determined by the City Representative to be an Administrative Amendment and if so, the City Representative shall approve the Administrative Amendment without notice or hearing, and this Agreement and its pertinent exhibits shall be automatically amended without further action by the parties. A memorandum of the amendment shall be executed and recorded to reflect such Administrative Amendment.

27. Term of Agreement. The covenants and restrictions contained in the Agreement shall remain in effect for fifty-five (55) years from the date of Certificate of Occupancy issuance for the Project, including all of the Affordable Units.

28. Severability. If any article, section, subsection, term or provision of this Agreement, or the application thereof to any party or circumstance, shall, to any extent, be invalid or unenforceable, the remainder of the article, section, subsection, term or provision of this Agreement, or the application of the same to parties or circumstances other than those to which it is held invalid or unenforceable, shall not be affected thereby, and each remaining article, section, subsection, term or provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

29. Enforcement. The City of Santa Clara is deemed to be the beneficiary of the terms and provisions of this Agreement and the covenants herein, both for and in its own right and for the purposes of protecting the interests of the community and other parties, public or private, for whose benefit this Agreement and the covenants running with the land have been provided. The City shall have the right if any covenants set forth in this Agreement are breached, to exercise all available rights and remedies, and to maintain any actions or suits at law or in equity or other proper proceedings to enforce the curing of such breaches to which it is entitled. No remedy herein conferred upon or reserved by the City is intended to be exclusive of any other available remedy or remedies, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law, in equity

or by statute. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver of such right or power, but any such right or power may be exercised from time to time and as often as City may deem expedient. In order to entitle the City to exercise any remedy reserved to it in this Agreement, it shall not be necessary to give any notice, other than such notice as may be herein expressly required or required by law to be given.

Developer agrees that, if a breach is not cured within thirty (30) days after written notice by City is provided to Developer, or if such breach cannot be reasonably cured within the thirty (30) day period and Developer has not commenced the curing of such Default, then City shall have all rights and remedies at law or in equity to enforce the curing of such Default.

Additionally, if Developer collects rents from Income-Qualified Households occupying the Affordable Housing Units that require such Income-Qualified Household tenants to pay rent in excess of what is permitted pursuant to this Agreement, and to the extent such excess rents are not required to be reimbursed to the tenants of such Affordable Housing Units, Developer agrees and covenants to reimburse such tenants within ten (10) business days of City's written demand, provided if such tenants cannot be located then the Developer shall pay to the City the full amount of such excess to the City. Developer and City agree that the payment of such excess rent shall be in addition to City's rights and remedies at law or equity.

30. If the City provides Developer with a written notice of violation of this Agreement and Developer has not cured or responded to such notice of violation within one hundred and twenty (120) days, then in addition to City's rights and remedies set forth herein, City shall thereafter have the right to impose a fine of \$150 per month per non-compliant unit until Developer has cured or responded to the notice of violation. Developer shall pay such fine within thirty (30) days of City's written demand.

RESOLUTION NO. _____

**A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA
DELEGATING AUTHORITY TO THE CITY MANAGER TO
NEGOTIATE AND EXECUTE DENSITY BONUS HOUSING
AGREEMENTS THAT ARE CONSISTENT WITH THE TERMS OF
SANTA CLARA CITY CODE SECTION 18.78.060 IN A FORM
ACCEPTABLE TO THE CITY ATTORNEY**

BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

WHEREAS, the City has established the Density Bonus Ordinance (DBO), Santa Clara City Code (SCCC) Chapter 18.78 entitled "Residential Density Bonus Standards," under State Density Bonus Law in accordance with California Government Code Section 65915 et seq.;

WHEREAS, the DBO, grants a density bonus and regulatory concessions and/or incentives when a developer seeks and agrees to provide a minimum number of housing units with affordable rents to very low or lower income households;

WHEREAS, the Developer is required to record a Density Bonus Housing Agreement (DBA) restricting the units in accordance with State Density Bonus Law and the DBO prior to issuance of building permits.

WHEREAS, several DBA agreements are requested annually and are typically routine documents that are on a form agreement consistent with the DBO and more specifically SCCC 18.78.060;

WHEREAS, delegating signature authority to the City Manager to execute DBAs would streamline the review and approval process of these routine agreements;

WHEREAS, City Council approval would be required for any DBAs that are inconsistent with the City's DBO; and

WHEREAS, the City Manager would be authorized to execute DBA on forms that are in conformance with SCCC 18.78 and subject to the approval as to form by the Office of the City Attorney.

//

//

//

NOW THEREFORE, BE IT FURTHER RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

1. That the Santa Clara City Council ("Council") hereby grants to the City Manager, or their designee, the authority to negotiate and execute density bonus agreements and any amendments thereto that are in conformance with the requirements provided under Chapter 18.78, entitled "Residential Density Bonus Standards," subject to approval as to form by the Office of the City Attorney.

2. Effective date. This resolution shall become effective immediately.

Agenda Report

23-481

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Action on Amendment No. 1 with PFM Asset Management LLC for Investment Management Services

COUNCIL PILLAR

Manage Strategically Our Workforce Capacity and Resources

BACKGROUND

In July 2020, the City Council approved an agreement with PFM Asset Management LLC (PFMAM) to provide investment advisory and portfolio management services after a competitive Request for Proposal (RFP) process. The initial term of the agreement is three years ending on July 31, 2023, plus two option years for a total of five years if all options are exercised.

Under the agreement, PFMAM serves as the City's external investment manager for a pooled portfolio with a value of \$847 million as of March 31, 2023. Of this amount, approximately \$69 million is invested with the State's Local Agency Investment Fund (LAIF) and California Asset Management Program (CAMP) to meet the City's liquidity needs. PFMAM provides investment advice on City's overall portfolio strategy and actively manages a core securities portfolio.

Prior to engagement of PFMAM, the City's portfolio was internally managed and staff conservatively invested City funds mainly in Treasury and Government Agency Notes due to limited capacity and resources. Under PFMAM, the portfolio has diversified into other allowable investments, in accordance with applicable California State Codes, with higher yield potential, such as corporate notes, asset-backed securities, and municipal notes.

Under PFMAM's management, the City's core securities portfolio has generated over \$30 million in interest earnings with total returns outperforming the ICE BofAML 1-5 Year U.S. Treasury Index, City's benchmark, by 20 basis points.

DISCUSSION

PFMAM was contracted by the City as part of an investment strategy transition from an internally managed portfolio that was 100% allocated to federal government-issued U.S. Treasuries and Federal Agency Securities, to one that leverages the expertise of a professional firm to diversify the City's portfolio and expand yield, where possible. It has taken a good portion of the original three-year initial term to transition the City's portfolio to one that is diversified in risk, balanced, and maximizes yield.

Staff is requesting authority to extend the initial term by five years to July 31, 2028, plus two option years for a total of 10 years if all options are exercised. Because the current agreement contains two one-year options with increasing fees, staff negotiated with PFMAM to keep pricing the same, with

the potential to add another year to the contract. The proposed Amendment No. 1 will enable the City to take advantage of a competitive fee schedule and realize total savings of \$30,000 in years 4 and 5 when compared to the original agreement. Further, the amendment will allow the continuity and efficiency of keeping PFMAM for additional time, while continuing to enhance yields and total returns for the City's portfolio.

In proposed Amendment No.1, the fee basis points (bps) has been reduced from 5.2 bps to 4.9 bps after the initial term and held at 4.9 bps for the remainder of the agreement, including optional years. The maximum annual fee will increase from \$305,000 to \$325,000 and be capped at \$325,000 for the next five years, which provides the City with price stability. The proposed fee cap increase is commensurate with recent inflation figures and is below the \$340,000 level that was included in the original option years. The fee cap is subject to an annual Cost-of-Living Adjustment (COLA) in optional years 9 and 10, based on Consumer Price Index, with the COLA capped at 3.64% per annum. Staff compared the fees and fee cap to several Bay Area local agencies with comparable portfolios managed by external investment managers to confirm City's favorable terms.

The proposed compensation is detailed below:

Original Fee Schedule	Original Not-to-Exceed Total Fees	Amendment No. 1 Fee Schedule	Amendment No. 1 Not-to-Exceed Total Fees
Year 1: 4.2 bps (0.042% of the portfolio value)	\$ 255,000	Year 1: No Change	\$ 255,000
Year 2: 4.7 bps (0.047% of the portfolio value)	\$ 280,000	Year 2: No Change	\$ 280,000
Year 3: 5.2 bps (0.052% of the portfolio value)	\$ 305,000	Year 3: No Change	\$ 305,000
Total Initial Term	\$ 840,000		
Year 4: 5.2 bps (0.052% of the portfolio value) <i>Option Year 1</i>	\$ 340,000*	Year 4: 4.9 bps (0.049% of the portfolio value)	\$ 325,000
Year 5: 5.2 bps (0.052% of the portfolio value) <i>Option Year 2</i>	\$ 340,000*	Year 5: 4.9 bps (0.049% of the portfolio value)	\$ 325,000
Total July 1, 2020 - July 31, 2025	\$1,520,000*		\$1,490,000
		Year 6: 4.9 bps (0.049% of the portfolio value)	\$ 325,000

		Year 7: 4.9 bps (0.049% of the portfolio value)	\$ 325,000
		Year 8: 4.9 bps (0.049% of the portfolio value)	\$ 325,000
Total July 1, 2020 - July 31, 2028		Total Amended Initial Term	\$2,465,000

**Estimated amounts*

Original Fee Schedule	Original Not-to- Exceed Total Fees	Amendment No. 1 Fee Schedule	Amendment No. 1 Not-to-Exceed Total Fees
		Year 9: 4.9 bps (0.049% of the portfolio value) <i>Option Year 1</i>	\$ 337,000
		Year 10: 4.9 bps (0.049% of the portfolio value) <i>Option Year 2</i>	\$ 349,000
Total July 1, 2020 - July 31, 2030		Estimated Maximum Compensation	\$3,151,000

ENVIRONMENTAL REVIEW

The action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to section 15378(b)(4) of Title 14 of the California Code of Regulations as the proposed services are administrative activities that have no potential for resulting in either a direct or indirect physical change in the environment.

FISCAL IMPACT

The agreement has an amended not-to-exceed amount of \$2,465,000 for the initial term through July 31, 2028 and total of \$3,151,000 including the two optional years. The costs have been included in the FY 2023/24 & 2024/25 Proposed Biennial Operating Budget. Funding for the remaining term will be incorporated into future budgets.

COORDINATION

This report has been coordinated with the City Attorney’s Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City’s official-notice bulletin board

outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Approve and authorize the City Manager to execute Amendment No. 1 to the Agreement with PFM Asset Management LLC for Investment Management Services to extend the initial term of the Agreement to end on July 31, 2028 and increase compensation by \$1,625,000 for a revised total maximum amount not to exceed \$2,465,000, subject to the appropriation of funds; and
2. Authorize the City Manager to exercise options, by an amendment of the Agreement subject to review and approval as to form by the City Attorney, to extend the term of the Agreement for two additional years to July 31, 2030 and increase compensation by \$686,000 for a revised total maximum amount not to exceed \$3,151,000, subject to the appropriation of funds.

PFM ASSET MANAGEMENT LLC**

PREAMBLE

This agreement ("Amendment No. 1") is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and PFM Asset Management LLC, a Delaware limited liability company (Contractor). City and Contractor may be referred to individually as a "Party" or collectively as the "Parties."

RECITALS

- A. The Parties previously entered into an agreement entitled "Agreement for Services Between the City of Santa Clara, California, and PFM Asset Management LLC", dated July 21, 2020 (Agreement) for the purpose of having Contractor provide full-time investment management services; and
- B. The Parties now wish to (i) amend the Agreement to extend the term of the Agreement by five years to July 31, 2028 with option of another two years; and (ii) increase compensation by One Million Six Hundred Twenty-Five Thousand Dollars (\$1,625,000) to a revised not to exceed maximum compensation amount of Two Million Four Hundred Sixty-Five Thousand Dollars (\$2,465,000).

NOW, THEREFORE, the Parties agree as follows:

AMENDMENT TERMS AND CONDITIONS

- 1. Section 2 of the Agreement, entitled "Term of Agreement" is amended in its entirety to read as follows:

"Unless otherwise set forth in this Agreement or unless this paragraph is subsequently modified by a written amendment to this Agreement, the term of this Agreement shall begin on August 1, 2020 and terminate on July 31, 2028. The City reserves the right, at its own sole discretion, to extend the term of this Agreement for up to two (2) additional one-year options or one (1) additional two-year option through July 31, 2030."

- 2. Section 7 of the Agreement, entitled "Compensation and Payment" is amended in its entirety to read as follows:

"In consideration for Contractor's complete performance of Services, City shall

pay Contractor for all materials provided and Services rendered by Contractor in accordance with First Revised Exhibit B, entitled "SCHEDULE OF FEES." The maximum compensation of this Agreement is Two Million Four Hundred Sixty-Five Thousand Dollars (\$2,465,000) during the Term stipulated in Section 2 of the Agreement, subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services. All work performed or materials provided in excess of the maximum compensation shall be at Contractor's expense. Contractor shall not be entitled to any payment above the maximum compensation under any circumstance."

3. Except as set forth herein, all other terms and conditions of the Agreement shall remain in full force and effect. In case of a conflict in the terms of the Agreement and this Amendment No. 1, the provisions of this Amendment No. 1 shall control.

The Parties acknowledge and accept the terms and conditions of this Amendment No. 1 as evidenced by the following signatures of their duly authorized representatives.

"CONTRACTOR"

FIRST REVISED EXHIBIT B
SCHEDULE OF FEES

1. MAXIMUM COMPENSATION

- 1.1.** The maximum compensation the City will pay the Contractor for all professional fees, costs and expenses provided under this Agreement shall not exceed Two Million Four Hundred Sixty-Five Thousand Dollars (\$2,465,000) during the Term of the Agreement and Amendment No. 1.
- 1.2.** Any additional professional fees, costs and expenses requested by the City that would exceed the preceding maximum amount will be addressed in an Amendment to the Agreement. No additional services will be performed unless both Parties execute an Amendment outlining the services requested and the compensation agreed for such services.

2. FEES

- 2.1.** For its services, Contractor shall receive an investment fee as set forth below:

Schedule	Fee Cap
Year 1: 4.2 basis points	Not to exceed \$255,000
Year 2: 4.7 basis points	Not to exceed \$280,000
Year 3: 5.2 basis points	Not to exceed \$305,000
Year 4: 4.9 basis points	Not to exceed \$325,000
Year 5: 4.9 basis points	Not to exceed \$325,000
Year 6: 4.9 basis points	Not to exceed \$325,000
Year 7: 4.9 basis points	Not to exceed \$325,000
Year 8: 4.9 basis points	Not to exceed \$325,000
Year 9: 4.9 basis points	Not to exceed \$325,000 + COLA (see Section 2.1.1 below)
Year 10: 4.9 basis points	Not to exceed \$325,000 + COLA (see Section 2.1.1 below)

2.1.1. For Years 9 and 10:

- 2.1.1.1.** Cost-of-Living Adjustment (COLA) shall be in line with the Consumer Price Index (CPI), calculated annually and then average over the term.
- 2.1.1.2.** CPI is CPI-U, All items in U.S. city average, all urban consumers, not seasonally adjusted, which is Series CUUR00000SA0 defined by U.S. Bureau of Labor Statistics.

2.1.1.3. COLA will be the lesser of actual calculated or 3.64%. In no event shall the COLA be negative.

3. INVOICING

Contractor will bill City on a monthly basis for Services provided by Contractor during the preceding month on an invoice and in a format approved by City and subject to verification and approval by City. City will pay Contractor within thirty (30) days of City's receipt of an approved invoice.

**AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
PFM ASSET MANAGEMENT LLC**

PREAMBLE

This Agreement is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and PFM Asset Management LLC, a Delaware limited liability company (Contractor). City and Contractor may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

- A. City desires to secure the services more fully described in this Agreement, at Exhibit A, entitled "Scope of Services";
- B. Contractor represents that it, and its subcontractors, if any, have the professional qualifications, expertise, necessary licenses and desire to provide certain goods and/or required services of the quality and type which meet objectives and requirements of City; and,
- C. The Parties have specified herein the terms and conditions under which such services will be provided and paid for.

The Parties agree as follows:

AGREEMENT TERMS AND CONDITIONS

1. AGREEMENT DOCUMENTS

The documents forming the entire Agreement between City and Contractor shall consist of these Terms and Conditions and the following Exhibits, which are hereby incorporated into this Agreement by this reference:

Exhibit A – Scope of Services

Exhibit B – Schedule of Fees

Exhibit C – Insurance Requirements

This Agreement, including the Exhibits set forth above, contains all the agreements, representations and understandings of the Parties, and supersedes and replaces any previous agreements, representations and understandings,

whether oral or written. In the event of any inconsistency between the provisions of any of the Exhibits and the Terms and Conditions, the Terms and Conditions shall govern and control.

2. TERM OF AGREEMENT

Unless otherwise set forth in this Agreement or unless this paragraph is subsequently modified by a written amendment to this Agreement, the term of this Agreement shall begin on August 1, 2020 and terminate on July 31, 2023 (Initial Term). The City reserves the right, at its own sole discretion, to extend the term of this Agreement for up to two (2) additional one-year options through July 31, 2025.

3. SCOPE OF SERVICES & PERFORMANCE SCHEDULE

Contractor shall perform those Services specified in Exhibit A within the time stated in Exhibit A. Time is of the essence.

4. WARRANTY

Contractor expressly warrants that all materials and services covered by this Agreement shall be performed with the degree of skill and care in accordance with industry standards, requirements and instructions upon which this Agreement is based. Contractor agrees to promptly replace or correct any incomplete, inaccurate or defective Services at no further cost to City when defects are due to the negligence, errors or omissions of Contractor. If Contractor fails to promptly correct or replace materials or services, City may make corrections or replace materials or services and charge Contractor for the cost incurred by City.

5. QUALIFICATIONS OF CONTRACTOR - STANDARD OF CARE

Contractor represents and maintains that it has the expertise in the professional calling necessary to perform the Services, and its duties and obligations, expressed and implied, contained herein, and City expressly relies upon Contractor's representations regarding its skills and knowledge. Contractor shall perform such Services and duties in conformance to and consistent with the professional standards of a specialist in the same discipline in the State of California.

6. CONFLICT OF INTEREST (FORM 700)

In accordance with the California Political Reform Act (Government Code section 81000 et seq.) and the City's Conflict of Interest Code, Contractor shall cause each person who will be principally responsible for providing the service and deliverables under this Agreement as having to file a Form 700 to do each of the following:

- A. Complete and file the Form 700 no later than thirty (30) calendar days after the date the person begins performing services under the Agreement and all subsequent Form 700s in conformance with the requirements specified in the California Political Reform Act; and
- B. File the Form 700 with the City's Clerk Office.

7. COMPENSATION AND PAYMENT

In consideration for Contractor's complete performance of Services, City shall pay Contractor for all materials provided and Services rendered by Contractor in accordance with Exhibit B, entitled "SCHEDULE OF FEES." The maximum compensation of this Agreement is Eight Hundred Forty Thousand Dollars (\$840,000) during the Initial Term, subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services. All work performed or materials provided in excess of the maximum compensation shall be at Contractor's expense. Contractor shall not be entitled to any payment above the maximum compensation under any circumstance.

8. TERMINATION

- A. Termination for Convenience. City shall have the right to terminate this Agreement, without cause or penalty, by giving not less than Thirty (30) days' prior written notice to Contractor.
- B. Termination for Default. Either Party may terminate this Agreement upon written notice to the other Party, if the other Party breaches a material term of this Agreement and such breach remains uncured for thirty (30) days after the other Party's receipt of such notice.
- C. Upon termination, each Party shall assist the other in arranging an orderly transfer and close-out of services. As soon as possible following the notice of termination, but no later than ten (10) days after the notice of termination, Contractor will deliver to City all City information or material that Contractor has in its possession.

9. ASSIGNMENT AND SUBCONTRACTING

City and Contractor bind themselves, their successors and assigns to all covenants of this Agreement. This Agreement shall not be assigned or transferred without the prior written approval of City. Contractor shall not hire subcontractors without express written permission from City.

Contractor shall be as fully responsible to City for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by them, as Contractor is for the acts and omissions of persons directly employed by it.

10. NO THIRD PARTY BENEFICIARY

This Agreement shall not be construed to be an agreement for the benefit of any third party or parties and no third party or parties shall have any claim or right of action under this Agreement for any cause whatsoever.

11. INDEPENDENT CONTRACTOR

Contractor and all person(s) employed by or contracted with Contractor to furnish labor and/or materials under this Agreement are independent contractors and do not act as agent(s) (except with respect to the purchase and sale of portfolio securities managed by Contractor) or employee(s) of City. Contractor has full rights to manage its employees in their performance of Services under this Agreement.

12. CONFIDENTIALITY OF MATERIAL

All ideas, memoranda, specifications, plans, manufacturing procedures, data, drawings, descriptions, documents, discussions or other information developed or received by or for Contractor and all other written information submitted to Contractor in connection with the performance of this Agreement shall be held confidential by Contractor and shall not, without the prior written consent of City or unless required by law or judicial or regulatory process, be used for any purposes other than the performance of the Services nor be disclosed to an entity not connected with performance of the Services. Nothing furnished to Contractor which is otherwise known to Contractor or becomes generally known to the related industry shall be deemed confidential.

13. OWNERSHIP OF MATERIAL

All material, which shall include, but not be limited to, data, sketches, tracings, drawings, plans, diagrams, quantities, estimates, specifications, proposals, tests, maps, calculations, photographs, reports, designs, technology, programming, works of authorship and other material developed, collected, prepared or caused to be prepared under this Agreement shall be the property of City but Contractor may retain and use copies thereof. City shall not be limited in any way or at any time in its use of said material. However, Contractor shall not be responsible for damages resulting from the use of said material for work other than Project, including, but not limited to, the release of this material to third parties.

14. RIGHT OF CITY TO INSPECT RECORDS OF CONTRACTOR

City, through its authorized employees, representatives or agents shall, upon reasonable advance notice, have the right during the term of this Agreement and for four (4) years from the date of final payment for goods or services provided under this Agreement, to audit the books and records of Contractor for the purpose of verifying any and all charges made by Contractor in connection with Contractor compensation under this Agreement, including termination of

Contractor. Contractor agrees to maintain sufficient books and records in accordance with generally accepted accounting principles to establish the correctness of all charges submitted to City. Any expenses not so recorded shall be disallowed by City. Contractor shall bear the cost of the audit if the audit determines that there has been a substantial billing deviation in excess of five (5) percent adverse to the City.

Contractor shall submit to City any and all reports concerning its performance under this Agreement that may be requested by City in writing. Contractor agrees to assist City in meeting City's reporting requirements to the State and other agencies with respect to Contractor's Services hereunder.

15. HOLD HARMLESS/INDEMNIFICATION

- A. To the extent permitted by law, Contractor agrees to protect, defend, hold harmless and indemnify City, its City Council, commissions, officers, employees, volunteers and agents from and against any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and attorney's fees in providing a defense to any such claim or other action, and whether sounding in law, contract, tort, or equity, in any manner arising from, or alleged to arise in whole or in part from, or in any way connected with the Services negligently or intentionally wrongfully performed by Contractor pursuant to this Agreement – including claims of any kind by Contractor's employees or persons contracting with Contractor to perform any portion of the Scope of Services – and shall expressly include passive or active negligence by City connected with the Services. However, the obligation to indemnify shall not apply if such liability is ultimately adjudicated to have arisen through the sole active negligence or sole willful misconduct of City; the obligation to defend is not similarly limited.
- B. Contractor's obligation to protect, defend, indemnify, and hold harmless in full City and City's employees, shall specifically extend to any and all employment-related claims of any type brought by employees, contractors, subcontractors or other agents of Contractor, against City (either alone, or jointly with Contractor), regardless of venue/jurisdiction in which the claim is brought and the manner of relief sought.
- C. To the extent Contractor is obligated to provide health insurance coverage to its employees pursuant to the Affordable Care Act ("Act") and/or any other similar federal or state law, Contractor warrants that it is meeting its obligations under the Act and will fully indemnify and hold harmless City for any penalties, fines, adverse rulings, or tax payments associated with Contractor's responsibilities under the Act.

16. INSURANCE REQUIREMENTS

During the term of this Agreement, and for any time period set forth in Exhibit C, Contractor shall provide and maintain in full force and effect, at no cost to City, insurance policies as set forth in Exhibit C.

17. WAIVER

Contractor agrees that waiver by City of any one or more of the conditions of performance under this Agreement shall not be construed as waiver(s) of any other condition of performance under this Agreement. Neither City's review, acceptance nor payments for any of the Services required under this Agreement shall be constructed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

18. NOTICES

All notices to the Parties shall, unless otherwise requested in writing, be sent to City addressed as follows:

City of Santa Clara
Attention: Finance Department
1500 Warburton Avenue
Santa Clara, CA 95050
and by e-mail at finance@santaclaraca.gov, and
manager@santaclaraca.gov

And to Contractor addressed as follows:

PFM Asset Management LLC
Attention: Monique Spyke, Managing Director
50 California Street
Suite 2300
San Francisco, CA 94111
and by e-mail at spykem@pfm.com

with a copy to:

PFM Asset Management LLC
Attention: Controller
1735 Market Street, 43rd Floor
Philadelphia, PA 19103
and by email at controller@pfm.com

The workday the e-mail was sent shall control the date notice was deemed given. An e-mail transmitted after 1:00 p.m. on a Friday shall be deemed to have been transmitted on the following business day.

19. COMPLIANCE WITH LAWS

Contractor shall comply with all applicable laws and regulations of the federal, state and local government, including but not limited to “The Code of the City of Santa Clara, California” (“SCCC”). In particular, Contractor’s attention is called to the regulations regarding Campaign Contributions (SCCC Chapter 2.130), Lobbying (SCCC Chapter 2.155), Minimum Wage (SCCC Chapter 3.20), Business Tax Certificate (SCCC section 3.40.060), and Food and Beverage Service Worker Retention (SCCC Chapter 9.60), as such Chapters or Sections may be amended from time to time or renumbered. Additionally Contractor has read and agrees to comply with City’s Ethical Standards (<http://santaclaraca.gov/home/showdocument?id=58299>).

20. CONFLICTS OF INTEREST

Contractor certifies that to the best of its knowledge, no City officer, employee or authorized representative has any financial interest in the business of Contractor and that no person associated with Contractor has any interest, direct or indirect, which could conflict with the faithful performance of this Agreement. Contractor is familiar with the provisions of California Government Code section 87100 and following, and certifies that it does not know of any facts which would violate these code provisions. Contractor will advise City if a conflict arises.

21. FAIR EMPLOYMENT

Contractor shall not discriminate against any employee or applicant for employment because of race, sex, color, religion, religious creed, national origin, ancestry, age, gender, marital status, physical disability, mental disability, medical condition, genetic information, sexual orientation, gender expression, gender identity, military and veteran status, or ethnic background, in violation of federal, state or local law.

22. NO USE OF CITY NAME OR EMBLEM

Contractor shall not use City’s name, insignia, or emblem, or distribute any information related to services under this Agreement in any magazine, trade paper, newspaper or other medium without express written consent of City.

23. GOVERNING LAW AND VENUE

This Agreement shall be governed and construed in accordance with the statutes and laws of the State of California. The venue of any suit filed by either Party shall be vested in the state courts of the County of Santa Clara, or if appropriate, in the United States District Court, Northern District of California, San Jose, California.

24. SEVERABILITY CLAUSE

In case any one or more of the provisions in this Agreement shall, for any reason, be held invalid, illegal or unenforceable in any respect, it shall not affect the validity of the other provisions, which shall remain in full force and effect.

25. AMENDMENTS

This Agreement may only be modified by a written amendment duly authorized and executed by the Parties to this Agreement.

26. COUNTERPARTS

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but both of which shall constitute one and the same instrument.

27. INVESTMENT ADVISOR PROVISIONS

- A. Services of Contractor. City hereby engages Contractor to serve as investment manager under the terms of this Agreement with respect to the funds described in Exhibit A, Section 1 to this Agreement and such other funds as City may from time to time assign by written notice to Contractor (collectively the "Managed Funds"), and Contractor accepts such appointment. In connection therewith, Contractor will be a fiduciary to the City and provide investment research and management of the Managed Funds investments and conduct a continuous program of investment, evaluation and, when appropriate, sale and reinvestment of the Managed Funds assets. Contractor shall continuously monitor investment opportunities, evaluate investments of the Managed Funds, and invest Managed Funds in accordance with Federal and State law and the City's Investment Policy, as amended from time to time. Contractor shall furnish City with statistical information and reports with respect to investments of the Managed Funds. Contractor shall place all orders for the purchase, sale, loan or exchange of portfolio securities for City's account with brokers or dealers recommended by Contractor and/or City, and to that end Contractor is authorized as agent of City to give instructions to the custodian designated by City (the "Custodian") as to deliveries of securities and payments of cash for the account of City. In connection with the selection of such brokers and dealers and the placing of such orders, Contractor is directed to seek for City the most favorable execution and price., The Custodian shall have custody of cash, assets and securities of City. Contractor shall not take possession of or act as custodian for the cash, securities or other assets of City and shall have no responsibility in connection therewith. Authorized investments shall include only those investments which are currently authorized by the state investment statutes and the applicable covenants and as supplemented

by such other written instructions, including the City's Investment Policy, as may from time to time be provided by City to Contractor. Contractor shall be entitled to rely upon City's written advice with respect to anticipated drawdowns of Managed Funds. Contractor will observe the instructions of City with respect to broker/dealers who are approved to execute transactions involving the Managed Funds and in the absence of such instructions will engage broker/dealers which Contractor reasonably believes to be reputable, qualified and financially sound.

- B. Pool Compensation. Assets invested by Contractor under the terms of this Agreement may from time to time be invested in (i) a money market mutual fund managed by Contractor or (ii) a local government investment pool managed by Contractor (either, a "Pool") or in individual securities. Approval for Contractor to invest Managed Funds in accordance with this subsection must be specifically allowed in the City's Investment Policy and expressly approved in writing by the City. Average daily net assets subject to the fees described in this Agreement shall not take into account any funds invested in the Pool. Expenses of the Pool, including compensation for Contractor and the Pool custodian, are described in the relevant prospectus or information statement and are paid from the Pool.
- C. Other Compensation. If and to the extent that City shall request Contractor to render services other than those to be rendered by Contractor under this Agreement, such additional services shall be compensated separately on terms to be agreed to in writing between Contractor and City.
- D. Expenses. Contractor shall furnish at its own expense all necessary administrative services, office space, equipment, clerical personnel, telephone and other communication facilities, courier or other delivery services, printing, subscription services, computer and technology, investment advisory facilities, executive and supervisory personnel, and all other equipment and services customarily required for managing the Managed Funds. Except as expressly provided otherwise herein, City shall pay all of its own expenses including, without limitation, taxes, commissions, fees and expenses of City's independent auditors and legal counsel, if any, brokerage and other expenses connected with the execution of portfolio security transactions, insurance premiums, and fees and expenses of the Custodian.
- E. Registered Advisor; Duty of Care. Contractor hereby represents it is a registered investment advisor under the Investment Advisers Act of 1940. Contractor shall immediately notify City if at any time during the term of this Agreement it is not so registered or if its registration is suspended. Contractor agrees to perform its duties and responsibilities under this Agreement with reasonable care. The federal securities laws impose liabilities under certain circumstances on persons who act in good faith.

Nothing herein shall in any way constitute a waiver or limitation of any rights which City may have under any federal securities laws. City hereby authorizes Contractor to sign I.R.S. Form W-9 on behalf of City and to deliver such form to broker-dealers or others from time to time as required in connection with securities transactions pursuant to this Agreement.

- F. Contractor's Other Clients. City understands that Contractor performs investment advisory services for various other clients which may include investment companies, commingled trust funds and/or individual portfolios. City agrees that Contractor, in the exercise of its professional judgment, may give advice or take action with respect to any of its other clients which may differ from advice given or the timing or nature of action taken with respect to the Managed Funds. Contractor shall not have any obligation to purchase, sell or exchange any security for the Managed Funds solely by reason of the fact that Contractor, its principals, affiliates, or employees may purchase, sell or exchange such security for the account of any other client or for itself or its own accounts.
- G. Force Majeure. Contractor shall have no liability for any losses arising out of the delays in performing or inability to perform the services which it renders under this Agreement which result from events beyond its control, including interruption of the business activities of Contractor or other financial institutions due to acts of God, pandemic, "superhuman cause," acts of governmental authority, acts of war, terrorism, civil insurrection, riots, labor difficulties, or any action or inaction of any carrier or utility, or mechanical or other malfunction.
- H. Disciplinary Actions. Contractor shall promptly give notice to City if Contractor shall have been found to have violated any state or federal securities law or regulation in any final and unappealable judgment in any criminal action or civil suit in any state or federal court or in any disciplinary proceeding before the Securities and Exchange Commission ("SEC") or any other agency or department of the United States, any registered securities exchange, FINRA, or any regulatory authority of any State based upon the performance of services as an investment advisor.
- I. Books. Contractor shall maintain records of all transactions in the Managed Funds. Contractor shall provide City with a monthly statement showing deposits, withdrawals, purchases and sales (or maturities) of investments, earnings received, and the value of assets held on the last business day of the month. The statement shall be in the format and manner that is mutually agreed upon by Contractor and City. Other reporting requirements and electronic access to the City's account shall be provided by the Contractor as described in Exhibit A – Scope of Services or as reasonably requested by the City.

- J. Brochure and Brochure Supplement. Contractor warrants that it has delivered to City prior to the execution of this Agreement Contractor's current SEC Form ADV, Part 2A (brochure) and Part 2B (brochure supplement). City acknowledges receipt of such brochure and brochure supplement prior to the execution of this Agreement.

The Parties acknowledge and accept the terms and conditions of this Agreement as evidenced by the following signatures of their duly authorized representatives.

"CONTRACTOR"

EXHIBIT A

SCOPE OF SERVICES

1. GENERAL

- 1.1.** The City currently manages the investment of its pooled portfolio, which as of May 31, 2020 totaled \$770 million (Managed Funds). Of this amount, approximately \$64 million is invested with the State's Local Agency Investment Fund (LAIF) to meet the City's liquidity needs. Under this Agreement, the City designates and retains Contractor to furnish investment advisory and portfolio management services for the City's portfolio.
- 1.2.** To the extent not inconsistent with this Agreement between the City and Contractor including this Scope of Services, the City's RFP 19-20-36 (including subsequent updates), Contractor's proposal response dated February 18, 2020 and Contractor's oral demonstration materials dated May 5, 2020 are hereby incorporated by reference herein, and shall supplement this Scope of Services and be subject to the terms and conditions of the Agreement.

2. SCOPE OF SERVICES

The services that Contractor shall perform include, but are not limited to, the following:

- 2.1.** Provide full-time investment management services in accordance with the City's Investment Policy and State law.
- 2.2.** Assist with reviewing and recommending any appropriate amendments to the City's Investment Policy at the outset of the contract term and assist with the annual review and update of the Investment Policy.
- 2.3.** Assist the City with developing an appropriate cash flow model to minimize balances held in highly liquid but low interest accounts (e.g., bank accounts and LAIF).
- 2.4.** Assist the City with maturity analysis.
- 2.5.** Provide credit analysis and assess risk of portfolio investments.
- 2.6.** Work with the City's third-party custodian for safekeeping of securities and provide services required to execute and settle investment trades. Contractor will not act as a custodian of assets in the account or have possession of any such assets.
- 2.7.** Recommend and justify appropriate investment benchmarks.
- 2.8.** Provide detailed monthly reports of investment portfolio activity, performance, holdings by investment type, maturity, broker, weighted average maturity,

- duration, benchmark comparison, and other such reports normally provided to governmental clients. Provide separate annual portfolio holding, activity, and performance reports and relevant GASB reports based on the City's fiscal year (July 1 – June 30). Provide custom reports as requested by the City at no additional cost.
- 2.9.** Be available to Finance Department staff in a timely manner by telephone or email and meet with and provide information to Finance Department staff upon request, and if requested, to other interested parties such as the Investment Committee, City Council and/or City Manager.
 - 2.10.** Attend City Council meetings for the annual review of the investment policy.
 - 2.11.** Provide assurance of portfolio compliance with all federal and State of California laws as well as ordinances, resolutions, and policies of the City relating to the investment of public funds.
 - 2.12.** Annually perform due diligence reviews of the broker/dealers, custodian bank, and financial institutions utilized by the City and provide supporting documentation to the City.
 - 2.13.** Act as a fiduciary agent to the City, serving as an independent advisor to represent the best interests of the City.
 - 2.14.** Demonstrate independence from any financial institution or securities brokerage firm, or fully disclose any such relationships relevant to qualified investments for public sector entities.
 - 2.15.** Keep City informed of changing economic conditions through flash emails, daily, weekly, and/or monthly reports including discussion of key economic indicators relevant to the regional, State, national, and global economies.

EXHIBIT B
SCHEDULE OF FEES

1. MAXIMUM COMPENSATION

- 1.1.** The maximum compensation the City will pay the Contractor for all professional fees, costs and expenses provided under this Agreement shall not exceed Eight Hundred Forty Thousand Dollars (\$840,000) during the Initial Term of the Agreement.
- 1.2.** Any additional professional fees, costs and expenses requested by the City that would exceed the preceding maximum amount will be addressed in an Amendment to the Agreement. No additional services will be performed unless both Parties execute an Amendment outlining the services requested and the compensation agreed for such services.

2. FEES

- 2.1.** For its services, Contractor shall receive an investment fee as set forth below:

Schedule	Fee Cap
Year 1: 4.2 basis points	Not to exceed \$255,000
Year 2: 4.7 basis points	Not to exceed \$280,000
Year 3: 5.2 basis points	Not to exceed \$305,000
Year 4: 5.2 basis points	Not to exceed \$305,000 + COLA (see Section 2.1.1 below)
Year 5: 5.2 basis points	Not to exceed \$305,000 + COLA (see Section 2.1.1 below)

2.1.1. For Years 4 and 5:

- 2.1.1.1.** Cost-of-Living Adjustment (COLA) shall be in line with the Consumer Price Index.
- 2.1.1.2.** Should invested assets exceed \$730 million, a commensurate increase will be calculated in the fee cap. Contractor shall request such adjustment to the fee cap at least sixty (60) days prior to the beginning of the renewal period.

3. INVOICING

Contractor will bill City on a monthly basis for Services provided by Contractor during the preceding month on an invoice and in a format approved by City and subject to verification and approval by City. City will pay Contractor within thirty (30) days of City's receipt of an approved invoice.

EXHIBIT C

INSURANCE REQUIREMENTS

Without limiting the Contractor's indemnification of the City, and prior to commencing any of the Services required under this Agreement, the Contractor shall provide and maintain in full force and effect during the period of performance of the Agreement and for twenty-four (24) months following acceptance by the City, at its sole cost and expense, the following insurance policies from insurance companies authorized to do business in the State of California. These policies shall be primary insurance as to the City of Santa Clara so that any other coverage held by the City shall not contribute to any loss under Contractor's insurance. The minimum coverages, provisions and endorsements are as follows:

A. COMMERCIAL GENERAL LIABILITY INSURANCE

1. Commercial General Liability Insurance policy which provides coverage at least as broad as Insurance Services Office form CG 00 01. Policy limits are subject to review, but shall in no event be less than, the following:

\$2,000,000 Each Occurrence
\$4,000,000 General Aggregate
\$2,000,000 Products/Completed Operations Aggregate
\$1,000,000 Personal Injury
2. Exact structure and layering of the coverage shall be left to the discretion of Contractor; however, any excess or umbrella policies used to meet the required limits shall be at least as broad as the underlying coverage and shall otherwise follow form.
3. The following provisions shall apply to the Commercial Liability policy as well as any umbrella policy maintained by the Contractor to comply with the insurance requirements of this Agreement:
 - a. Coverage shall be on an occurrence basis with defense costs payable in addition to policy limits;
 - b. There shall be no cross liability exclusion which precludes coverage for claims or suits by one insured against another; and
 - c. Coverage shall apply separately to each insured against whom a claim is made or a suit is brought, except with respect to the limits of liability.

B. BUSINESS AUTOMOBILE LIABILITY INSURANCE

Business automobile liability insurance policy which provides coverage at least as broad as ISO form CA 00 01 with policy limits a minimum limit of not less than one million dollars (\$1,000,000) each accident using, or providing coverage at

least as broad as, Insurance Services Office form CA 00 01. Liability coverage shall apply to all owned (if any), non-owned and hired autos.

In the event that the Work being performed under this Agreement involves transporting of hazardous or regulated substances, hazardous or regulated wastes and/or hazardous or regulated materials, Contractor and/or its subcontractors involved in such activities shall provide coverage with a limit of one million dollars (\$1,000,000) per accident covering transportation of such materials by the addition to the Business Auto Coverage Policy of Environmental Impairment Endorsement MCS90 or Insurance Services Office endorsement form CA 99 48, which amends the pollution exclusion in the standard Business Automobile Policy to cover pollutants that are in or upon, being transported or towed by, being loaded onto, or being unloaded from a covered auto.

C. WORKERS' COMPENSATION

1. Workers' Compensation Insurance Policy as required by statute and employer's liability with limits of at least one million dollars (\$1,000,000) policy limit Bodily Injury by disease, one million dollars (\$1,000,000) each accident/Bodily Injury and one million dollars (\$1,000,000) each employee Bodily Injury by disease.
2. The indemnification and hold harmless obligations of Contractor included in this Agreement shall not be limited in any way by any limitation on the amount or type of damage, compensation or benefit payable by or for Contractor or any subcontractor under any Workers' Compensation Act(s), Disability Benefits Act(s) or other employee benefits act(s).
3. This policy must include a Waiver of Subrogation in favor of the City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents.

D. PROFESSIONAL LIABILITY

Professional Liability or Errors and Omissions Insurance as appropriate shall be written on a policy form coverage specifically designed to protect against negligent acts, errors or omissions of the Contractor. Covered services as designated in the policy must specifically include work performed under this agreement. Coverage shall be in an amount of not less than forty million dollars (\$40,000,000) per claim and in aggregate. Any coverage containing a deductible or self-retention must first be approved in writing by the City Attorney's Office.

E. COMPLIANCE WITH REQUIREMENTS

All of the following clauses and/or endorsements, or similar provisions, must be part of each commercial general liability policy, and each umbrella or excess policy.

1. Additional Insureds. City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents are hereby added as additional insureds, with the exception of workers compensation, in respect to liability arising out of Contractor's work for City, using Insurance Services Office (ISO) Endorsement CG 20 10 11 85, or the combination of CG 20 10 03 97 and CG 20 37 10 01, or its equivalent.
2. Primary and non-contributing. Each insurance policy provided by Contractor shall contain language or be endorsed to contain wording making it primary insurance as respects to, and not requiring contribution from, any other insurance which the indemnities may possess, including any self-insurance or self-insured retention they may have. Any other insurance indemnities may possess shall be considered excess insurance only and shall not be called upon to contribute with Contractor's insurance.
3. Cancellation.
 - a. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided due to non-payment of premiums shall be effective until written notice has been given to City at least ten (10) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least ten (10) days prior to the effective date of non-renewal.
 - b. Each insurance policy shall contain language or be endorsed to reflect that no cancellation for any cause save and except non-payment of premiums shall be effective until written notice has been given to City at least thirty (30) days prior to the effective date of such cancellation. In the event of non-renewal, written notice shall be given at least thirty (30) days prior to the effective date of non-renewal. Contractor agrees to provide the City written notice at least thirty (30) days prior to the effective date of any modification of coverage provided.
4. Other Endorsements. Other endorsements may be required for policies other than the commercial general liability policy if specified in the description of required insurance set forth in Sections A through E of this Exhibit C, above.

F. ADDITIONAL INSURANCE RELATED PROVISIONS

Contractor and City agree as follows:

1. Contractor agrees to ensure that subcontractors, and any other party involved with the Services, who is brought onto or involved in the performance of the Services by Contractor, separately provide the same

minimum insurance coverage required of Contractor, except as with respect to limits. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this Agreement. Contractor agrees that upon request by City, all agreements with, and insurance compliance documents provided by, such subcontractors and others engaged in the project will be submitted to City for review.

2. Contractor agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge City or Contractor for the cost of additional insurance coverage required by this Agreement. Any such provisions are to be deleted with reference to City. It is not the intent of City to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against City for payment of premiums or other amounts with respect thereto.
3. The City reserves the right to withhold payments from the Contractor in the event of material noncompliance with the insurance requirements set forth in this Agreement.

G. EVIDENCE OF COVERAGE

Prior to commencement of any Services under this Agreement, Contractor, and each and every subcontractor (of every tier) shall, at its sole cost and expense, provide and maintain not less than the minimum insurance coverage with the endorsements and deductibles indicated in this Agreement. Such insurance coverage shall be maintained with insurers, and under forms of policies, satisfactory to City and as described in this Agreement. Contractor shall file with the City all certificates and endorsements for the required insurance policies for City's approval as to adequacy of the insurance protection.

H. EVIDENCE OF COMPLIANCE

Contractor or its insurance broker shall provide the required proof of insurance compliance, consisting of Insurance Services Office (ISO) endorsement forms or their equivalent and the ACORD form 25-S certificate of insurance (or its equivalent), evidencing all required coverage shall be delivered to City, or its representative as set forth below, at or prior to execution of this Agreement. Upon City's request, Contractor shall submit to City copies of the actual insurance policies or renewals or replacements. Unless otherwise required by the terms of this Agreement, all certificates, endorsements, coverage verifications and other items required to be delivered to City pursuant to this Agreement shall be e-mailed to ctsantaclara@ebix.com:

Or by mail to:
EBIX Inc.
City of Santa Clara – Finance Department

P.O. Box 100085 – S2
Duluth, GA 30096
Telephone number: 951-766-2280
Fax number: 770-325-0409

I. QUALIFYING INSURERS

All of the insurance companies providing insurance for Contractor shall have, and provide written proof of, an A. M. Best rating of at least A minus 6 (A- VI) or shall be an insurance company of equal financial stability that is approved by the City or its insurance compliance representative

Agenda Report

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Action on Amendment No. 4 with Wallace Roberts and Todd, LLC (WRT) to Add Two Study Cities to the City Hall Relocation Study and Related Budget Amendment

COUNCIL PILLAR

Promote and Enhance Economic, Housing, and Transportation Development

BACKGROUND

The City is nearing the completion of a planning effort to prepare a Downtown Precise Plan and Form Based Code to guide the redevelopment of the City's former Downtown area. The scope of work for the Downtown Precise Plan was expanded in response to a petition from Reclaiming our Downtown (ROD) to include a financial analysis of the costs and benefits (City Hall Relocation Study) associated with moving the City Hall to the Downtown. The City Council made this addition to the scope of work for the City's consultant, WRT, at the May 24, 2022 Council meeting, following Council consideration of a written petition submitted by resident Mary Grizzle on behalf of ROD. In June 2022, the City Council subsequently approved the allocation of funds for the requested Study through the budget process, and then on October 18, 2022, the City Council took actions to allow for the commencement of the scope of work by WRT on the City Hall Relocation Study.

The City Hall Relocation Study scope included an evaluation of six other cities as a comparative case study. WRT, in conjunction with subconsultants, analyzed 18 example sites and recommended six sites (Long Beach Civic Center, Watsonville City's Hall, Sonoma County Government Center, Malden Massachusetts' City Hall, Redwood City's City Hall, and Mountain View's City Hall) for further analysis to provide insight into the potential costs and benefits of locating a city hall in a similar Downtown context. Staff reviewed the proposed sites and WRT presented the six sites to the Downtown Community Task Force (DCTF) on March 14, 2023.

A second written petition submitted by resident Mary Grizzle on behalf of the members of ROD was heard at the May 23, 2023 City Council meeting. The petition stated that while ROD agreed with four of the cities presented at the March 14, 2023 Downtown Community Task Force meeting, they are deeply concerned that two of the cities (Watsonville and Sonoma) do not meet ROD's criteria nor the spirit of the study, and should be replaced with Winter Garden, Florida and Sandusky, Ohio.

DISCUSSION

As of the date of this staff report, the City Hall Relocation Study is approximately 50% complete. The full scope of work is attached to this report as Attachment 2 for reference. Listed below are the tasks from the approved scope of work with the status of each task indicated.

- Project Initiation - (task completed)

- conduct targeted background research and mapping needed to understand the existing Civic Center site and previous studies.
- Program Confirmation - (task completed)
 - review of provided documentation related to projected civic center spatial needs and document a high-level spatial program organized by department according to data provided.
- Economic Assessment - (task completed)
 - identify up to six examples of City Hall relocation projects across the United States to serve as case studies. The Team will seek examples (successful and otherwise) that are comparable to Santa Clara and/or the downtown site (e.g., similar City population; site adjacency to transit, university, or historic neighborhood) that have a range of outcomes, including examples with more and less resulting investment. For each case study, the Team will conduct research to understand each city hall project including contacting each city to seek an interview with staff about the project, including benefits, challenges, and lessons learned, and report on outcomes, including the degree to which private investment has followed public investment.
 - Complete an illustrative economic impact analysis that considers potential localized spending effects on downtown from a new City Hall, as compared to the baseline site use (a comparably sized future office building).
- Criteria and Site Comparison - (task completed)
 - conduct a criteria-based process for evaluating potential Downtown sites for a relocated City Hall. The outcome of this process will be the creation of a qualitative evaluation matrix followed by City Staff and Task Force confirmation of a preferred downtown site for a relocated City Hall.
- Concept Testing and Test-Fitting - (task in progress)
 - develop up to three conceptual approaches to relocating city hall downtown on the preferred downtown site. And, for the existing civic center site, WRT will estimate development capacity based on density formulas and informed by typical building forms, which will inform the economic evaluation of potential relocation.
- Financial Evaluation - (task in progress)
 - perform a financial analysis to assess the concepts for relocating City Hall and offices to downtown.
- Concept Refinement - (task upcoming)
 - based on City and DCTF feedback, and informed by the financial analysis, the Team will refine land use and building block concepts for Downtown and the existing Civic Center site.
- Final Options Report - (task upcoming)
 - document the final site concepts and economic analysis in a concise report, with narrative, graphics, and relevant tables.

While a substantive portion of the City Hall Relocation Study scope has been completed, the site comparison analysis has not been finalized and it would be possible to add two additional sites for the full analysis without significant cost or additional time required. It should also be noted that approximately \$10,000 of contingency remains within the original WRT contract for preparation of the Precise Plan and Form-Based Code. However, this contingency needs to be maintained in case there are additional costs to completion the CEQA analysis or other elements of the original scope of

work.

Staff is accordingly requesting that the City Council grant approval to the City Manager to amend the City's contract with WRT to add two study cities, Winter Garden, Florida and Sandusky, Ohio, to the approved scope, which would fall under the Economic Assessment task. The cost for the added study cities is \$16,000. This would be Amendment No. 4 to the contract and will maintain the three-year term extension option provided in the Original Agreement, with a termination date of December 31, 2024.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

FISCAL IMPACT

The original scope of work for the City Hall relocation study was estimated at \$353,360. This project was established in the General Government Capital Fund and was funded as part of the FY 2022/23 and FY 2023/24 Capital Improvement Program budget adoption, with \$325,000 appropriated from the General Fund. The remaining \$28,360 was transferred by Silicon Valley Power's Electric Yard Buildings and Grounds project budget for facility assessment of buildings occupied by SVP, which was approved by the City Council on October 18, 2022.

The current proposed scope of work has a cost of \$16,000 which is recommended to be funded from the General Fund's Budget Stabilization Reserve. The table below summarizes the budget action for FY 2023/24, which is subject to the approval of the FY 2023/24 and FY 2024/25 operating budget.

Budget Amendment FY 2023/24			
	Current	Increase/ (Decrease)	Revised
General Fund			
<u>Expenditure</u>			
Transfer to the General Government Capital Fund	\$90,283	\$16,000	\$106,283
<u>Fund Balance</u>			
Budget Stabilization Reserve	\$45,847,152	(\$16,000)	\$45,831,152
General Government Capital Fund			
<u>Revenue</u>			
Transfer from the General Fund	\$90,283	\$16,000	\$106,283
<u>Expenditure</u>			
Precise Plan for Downtown	\$0	\$16,000	\$16,000

COORDINATION

This report has been coordinated with the City Manager's Office, the Finance Department and the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Authorize the City Manager to execute Amendment No. 4 to the Agreement with Wallace Roberts and Todd, LLC (WRT) for the City Hall Relocation Study, in a final form approved by the City Attorney, at a total cost not to exceed \$16,000, funded by the General Fund; and
2. Approve the following FY 2023/24 budget amendment, subject to approval of the FY 2023/24 and FY 2024/25 operating budget:
 - A. In the General Fund, increase the transfer to the General Government Capital Fund by \$16,000 and reduce the Budget Stabilization Reserve by \$16,000 (**five affirmative Council votes required for the use of unused balances**); and
 - B. In the General Government Capital Fund, recognize a transfer of \$16,000 from the General Fund Budget Stabilization Reserve and increase the Precise Plan for Downtown project by \$16,000 (**five affirmative Council votes required to appropriate additional revenue**).

**AMENDMENT NO. 4
TO THE AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
WALLACE ROBERTS & TODD, LLC**

PREAMBLE

This agreement ("Amendment No. 4") is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and Wallace Roberts & Todd, LLC, a Delaware Corporation (Consultant). City and Consultant may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

- A. The Parties previously entered into an agreement entitled "Agreement for Services Between the City of Santa Clara, California, and Wallace, Roberts & Todd, LLC," dated October 17, 2019 (Agreement); and
- B. The Agreement was previously amended by Amendment No. 1, dated October 21, 2021, Amendment No. 2, dated December 13, 2021, Amendment No. 3, dated November 3, 2022, and is again amended by this Amendment No. 4. The Agreement and all previous amendments are collectively referred to herein as the "Agreement as Amended"; and
- C. The Parties entered into the Agreement as Amended for the purpose of having Contractor provide prepare a Downtown Precise Plan, and the Parties now wish to amend the Agreement to expand the scope of services to include additional case studies of comparable city hall relocation projects around the U.S.

NOW, THEREFORE, the Parties agree as follows:

AMENDMENT TERMS AND CONDITIONS

- 1. Section 6 of the Agreement, entitled "Compensation and Payment," is amended to reflect a revised maximum compensation value of one million three hundred forty-seven thousand, seven hundred six dollars (\$1,347,706).
- 2. Exhibit A of the Agreement, entitled "Scope of Services," is updated by appending the attached "Additional Case Study Evaluation," dated June 16, 2023, to add new tasks to the original scope.

JS.

3. Exhibit B of the Agreement, entitled "Schedule of Fees," is amended to reflect a revised maximum compensation value of one million three hundred forty-seven thousand, seven hundred six dollars (\$1,347,706).
4. Except as set forth herein, all other terms and conditions of the Agreement as Amended shall remain in full force and effect. In case of a conflict in the terms of the Agreement as Amended and this Amendment No. 4, the provisions of this Amendment No. 4 shall control.

The Parties acknowledge and accept the terms and conditions of this Amendment No. 4 as evidenced by the following signatures of their duly authorized representatives.

Project: Santa Clara Civic Center
Relocation Study

Pages: 2

Re: Additional Case Study Evaluation

CC: Jim Stickley, Principal, WRT

WRT and our subconsultant partners are working closely with City Staff and the Downtown Community Task Force on a Civic Center Relocation Study to consider the potential costs and benefits of shifting city functions to Downtown Santa Clara. The City has requested that WRT propose a scope and fee for conducting two additional case studies of comparable city hall relocation projects around the U.S.

The WRT Team's original budget for the case studies subtask was \$17,290. Each member of our Team used considerably more time than we budgeted for to complete the case studies. Based on this experience, we request a fee of \$16,000 to complete two additional studies. This would include \$6,000 for EPS and \$5,000 each for WRT and PFAL.

EPS's portion of this effort could be shifted from their remaining budget of \$11,400 in Task 5. This budget was provided for up to 40 hours of Principal-level as-needed project support. If this approach is taken, the need for additional budget would be reduced to \$10,000. The additional proposed scope of work is summarized on the following page.

MEMORANDUM

Santa Clara Civic Center Relocation Study: Additional Services

Task 9: Additional Case Studies

In Task 3, WRT, EPS, and PFAL evaluated six case studies of City Hall relocation projects across the United States. At the request of members of the Downtown Community Task Force and City Staff, the Team will analyze two (2) additional case studies: Sandusky, Ohio and Winter Garden, Florida. For each case study, WRT will evaluate the way city hall relocation functioned in its physical urban context. EPS will conduct research to understand each city hall project based on City documents, hearing transcripts, media reporting, and other readily available sources, and will contact each city to seek an interview with staff about the project, including benefits, challenges, and lessons learned, etc. EPS will report on outcomes, including the degree to which private investment has followed public investment. PFAL will consider financing and procurement aspects of the case studies.

**AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
WALLACE ROBERTS & TODD, LLC**

PREAMBLE

This Agreement is entered into between the City of Santa Clara, a chartered California municipal corporation (hereinafter "City") and Wallace Roberts & Todd, LLC, A Delaware Corporation (hereinafter "Consultant"). City and Consultant may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

- A. City desires to secure the services more fully described in this Agreement, at Exhibit A, entitled "Scope of Services";
- B. Consultant represents that it, and its subconsultants, if any, have the professional qualifications, expertise, necessary licenses and desire to provide certain goods and/or required services of the quality and type which meet objectives and requirements of City; and,
- C. The Parties have specified herein the terms and conditions under which such services will be provided and paid for.

The Parties agree as follows:

AGREEMENT TERMS AND CONDITIONS

1. AGREEMENT DOCUMENTS

The documents forming the entire Agreement between City and Consultant shall consist of these Terms and Conditions and the following Exhibits, which are hereby incorporated into this Agreement by this reference:

Exhibit A – Scope of Services

Exhibit B – Schedule of Fees

Exhibit C – Insurance Requirements

This Agreement, including the Exhibits set forth above, contains all the agreements, representations and understandings of the Parties, and supersedes and replaces any previous agreements, representations and understandings, whether oral or written. In the event of any inconsistency between the provisions

of any of the Exhibits and the Terms and Conditions, the Terms and Conditions shall govern and control.

2. TERM OF AGREEMENT

- A. Unless otherwise set forth in this Agreement or unless this paragraph is subsequently modified by a written amendment to this Agreement, the Initial Term of this Agreement shall begin on October 9, 2019 and expire on September 30, 2022.
- B. After the Initial Term, the City reserves the right, at its sole discretion, to extend the term of this Agreement for an additional three-year period ending September 30, 2025 ("Option Period"). City shall provide Consultant with no less than thirty (30) days prior written notice of its intention to exercise its option to extend the term of this Agreement.

3. SCOPE OF SERVICES & PERFORMANCE SCHEDULE

Consultant shall perform those Services specified in Exhibit A within the time stated in Exhibit A. Time is of the essence. However, any modifications or delays to the project schedule resulting from circumstances beyond the Consultant's reasonable control shall not be deemed to be the fault of the Consultant.

4. WARRANTY

Consultant expressly warrants that all materials and services covered by this Agreement shall be fit for the purpose intended, shall be free from defect and shall conform to the specifications, requirements and instructions upon which this Agreement is based. Consultant agrees to promptly replace or correct any incomplete, inaccurate or defective Services at no further cost to City when defects are due to the negligence, errors or omissions of Consultant. If Consultant fails to promptly correct or replace materials or services, City may make corrections or replace materials or services and charge Consultant for the cost incurred by City.

5. QUALIFICATIONS OF CONSULTANT - STANDARD OF CARE

Consultant represents and maintains that it has the expertise in the professional calling necessary to perform the Services, and its duties and obligations, expressed and implied, contained herein, and City expressly relies upon Consultant's representations regarding its skills and knowledge. Consultant shall perform such Services and duties in conformance to and consistent with the professional standards of a specialist in the same discipline in the State of California.

6. COMPENSATION AND PAYMENT

In consideration for Consultant's complete performance of Services, City shall pay Consultant for all materials provided and Services rendered by Consultant in accordance with Exhibit B, entitled "SCHEDULE OF FEES." The maximum compensation of this Agreement is Five Hundred Seventy-Eight Thousand Three Hundred Forty-Six Dollars (\$578,346), subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the Services. All work performed or materials provided in excess of the maximum compensation shall be at Consultant's expense. Consultant shall not be entitled to any payment above the maximum compensation under any circumstance.

7. TERMINATION

- A.** Termination for Convenience. City shall have the right to terminate this Agreement, without cause or penalty, by giving not less than Thirty (30) days' prior written notice to Consultant.
- B.** Termination for Default. If Consultant fails to perform any of its material obligations under this Agreement, in addition to all other remedies provided by law, City may terminate this Agreement immediately upon written notice to Consultant.
- C.** Upon termination, each Party shall assist the other in arranging an orderly transfer and close-out of services. As soon as possible following the notice of termination, but no later than ten (10) days after the notice of termination, Consultant will deliver to City all City information or material that Consultant has in its possession.

8. ASSIGNMENT AND SUBCONTRACTING

City and Consultant bind themselves, their successors and assigns to all covenants of this Agreement. This Agreement shall not be assigned or transferred without the prior written approval of City. Consultant shall not hire subconsultants without express written permission from City.

Consultant shall be as fully responsible to City for the acts and omissions of its subconsultants, and of persons either directly or indirectly employed by them, as Consultant is for the acts and omissions of persons directly employed by it.

9. NO THIRD-PARTY BENEFICIARY

This Agreement shall not be construed to be an agreement for the benefit of any third party or parties and no third party or parties shall have any claim or right of action under this Agreement for any cause whatsoever.

10. INDEPENDENT CONSULTANT

Consultant and all person(s) employed by or contracted with Consultant to furnish labor and/or materials under this Agreement are independent consultants and do not act as agent(s) or employee(s) of City. Consultant has full rights to manage its employees in their performance of Services under this Agreement.

11. CONFIDENTIALITY OF MATERIAL

All ideas, memoranda, specifications, plans, manufacturing procedures, data, drawings, descriptions, documents, discussions or other information developed or received by or for Consultant and all other written information submitted to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant and shall not, without the prior written consent of City, be used for any purposes other than the performance of the Services nor be disclosed to an entity not connected with performance of the Services. Nothing furnished to Consultant which is otherwise known to Consultant or becomes generally known to the related industry shall be deemed confidential.

12. OWNERSHIP OF MATERIAL

Provided City has complied with its obligations under this Agreement including, but not limited to, payment in full to Consultant according to the terms of this Agreement, all material, which shall include, but not be limited to, data, sketches, tracings, drawings, plans, diagrams, quantities, estimates, specifications, proposals, tests, maps, calculations, photographs, reports, designs, technology, programming, works of authorship and other material developed, collected, prepared or caused to be prepared under this Agreement shall be the property of City but Consultant may retain and use copies thereof. City shall not be limited in any way or at any time in its use of said material. However, Consultant shall not be responsible for damages resulting from the use of said material for work other than Project, including, but not limited to, the release of this material to third parties.

13. RIGHT OF CITY TO INSPECT RECORDS OF CONSULTANT

City, through its authorized employees, representatives or agents shall have the right during the term of this Agreement and for four (4) years from the date of final payment for goods or services provided under this Agreement, to audit the books and records of Consultant for the purpose of verifying any and all charges made by Consultant in connection with Consultant compensation under this Agreement, including termination of Consultant. Consultant agrees to maintain sufficient books and records in accordance with generally accepted accounting principles to establish the correctness of all charges submitted to City. Any expenses not so recorded shall be disallowed by City. Consultant shall bear the cost of the audit if the audit determines that there has been a substantial billing deviation in excess of five (5) percent adverse to the City.

Consultant shall submit to City any and all reports concerning its performance under this Agreement that may be requested by City in writing. Consultant agrees to assist City in meeting City's reporting requirements to the State and other agencies with respect to Consultant's Services hereunder.

14. HOLD HARMLESS/INDEMNIFICATION

- A.** To the extent permitted by law, Consultant agrees to protect, defend, hold harmless and indemnify City, its City Council, commissions, officers, employees, volunteers and agents from and against any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and attorney's fees in providing a defense to any such claim or other action, and whether sounding in law, contract, tort, or equity, in any manner arising from, or alleged to arise in whole or in part from, or in any way connected with the Services performed by Consultant pursuant to this Agreement – including claims of any kind by Consultant's employees or persons contracting with Consultant to perform any portion of the Scope of Services – and shall expressly include passive or active negligence by City connected with the Services. However, the obligation to indemnify shall not apply if such liability is ultimately adjudicated to have arisen through the sole active negligence or sole willful misconduct of City; the obligation to defend is not similarly limited.
- B.** Consultant's obligation to protect, defend, indemnify, and hold harmless in full City and City's employees, shall specifically extend to any and all employment-related claims of any type brought by employees, consultants, subconsultants or other agents of Consultant, against City (either alone, or jointly with Consultant), regardless of venue/jurisdiction in which the claim is brought and the manner of relief sought.
- C.** To the extent Consultant is obligated to provide health insurance coverage to its employees pursuant to the Affordable Care Act ("Act") and/or any other similar federal or state law, Consultant warrants that it is meeting its obligations under the Act and will fully indemnify and hold harmless City for any penalties, fines, adverse rulings, or tax payments associated with Consultant's responsibilities under the Act.

15. INSURANCE REQUIREMENTS

During the term of this Agreement, and for any time period set forth in Exhibit C, Consultant shall provide and maintain in full force and effect, at no cost to City, insurance policies as set forth in Exhibit C.

16. WAIVER

Consultant agrees that waiver by City of any one or more of the conditions of performance under this Agreement shall not be construed as waiver(s) of any other condition of performance under this Agreement. Neither City's review,

acceptance nor payments for any of the Services required under this Agreement shall be constructed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

17. NOTICES

All notices to the Parties shall, unless otherwise requested in writing, be sent to City addressed as follows:

City of Santa Clara
Attention: Community Development Department
Andrew Crabtree, Director
1500 Warburton Avenue
Santa Clara, CA 95050
acrabtree@santaclaraca.gov, and
manager@santaclaraca.gov

And to Consultant addressed as follows:

Wallace Roberts & Todd, LLC
Attention: Atisha Varshney
478 Tehama Street, Suite 2B
San Francisco, CA 94103
(415) 575-4722
avarshney@wrtdesign.com

The workday the e-mail was sent shall control the date notice was deemed given. An e-mail transmitted after 1:00 p.m. on a Friday shall be deemed to have been transmitted on the following business day.

18. COMPLIANCE WITH LAWS

Consultant shall comply with all applicable laws and regulations of the federal, state and local government, including but not limited to "The Code of the City of Santa Clara, California" ("SCCC"). In particular, Consultant's attention is called to the regulations regarding Campaign Contributions (SCCC Chapter 2.130), Lobbying (SCCC Chapter 2.155), Minimum Wage (SCCC Chapter 3.20), Business Tax Certificate (SCCC section 3.40.060), and Food and Beverage Service Worker Retention (SCCC Chapter 9.60), as such Chapters or Sections may be amended from time to time or renumbered. Additionally Consultant has read and agrees to comply with City's Ethical Standards (<http://santaclaraca.gov/home/showdocument?id=58299>).

19. CONFLICTS OF INTEREST

Consultant certifies that to the best of its knowledge, no City officer, employee or authorized representative has any financial interest in the business of Consultant and that no person associated with Consultant has any interest, direct or indirect,

which could conflict with the faithful performance of this Agreement. Consultant is familiar with the provisions of California Government Code section 87100 and following, and certifies that it does not know of any facts which would violate these code provisions. Consultant will advise City if a conflict arises.

20. FAIR EMPLOYMENT

Consultant shall not discriminate against any employee or applicant for employment because of race, sex, color, religion, religious creed, national origin, ancestry, age, gender, marital status, physical disability, mental disability, medical condition, genetic information, sexual orientation, gender expression, gender identity, military and veteran status, or ethnic background, in violation of federal, state or local law.

21. NO USE OF CITY NAME OR EMBLEM

Consultant shall not use City's name, insignia, or emblem, or distribute any information related to services under this Agreement in any magazine, trade paper, newspaper or other medium without express written consent of City.

22. GOVERNING LAW AND VENUE

This Agreement shall be governed and construed in accordance with the statutes and laws of the State of California. The venue of any suit filed by either Party shall be vested in the state courts of the County of Santa Clara, or if appropriate, in the United States District Court, Northern District of California, San Jose, California.

23. SEVERABILITY CLAUSE

In case any one or more of the provisions in this Agreement shall, for any reason, be held invalid, illegal or unenforceable in any respect, it shall not affect the validity of the other provisions, which shall remain in full force and effect.

24. AMENDMENTS

This Agreement may only be modified by a written amendment duly authorized and executed by the Parties to this Agreement.

25. COUNTERPARTS

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but both of which shall constitute one and the same instrument.

The Parties acknowledge and accept the terms and conditions of this Agreement as evidenced by the following signatures of their duly authorized representatives.

CITY OF SANTA CLARA, CALIFORNIA
a chartered California municipal corporation

Approved as to Form:

Dated: 10-17-19

"CONSULTANT"

EXHIBIT A SCOPE OF SERVICES

1. GENERAL

- 1.1. Consultant shall assist the City in developing the Downtown Precise Plan.
- 1.2. Project Schedule:
 - 1.2.1. Consultant shall submit a draft project schedule to the City for review and approval. The City shall not unreasonably withhold approval.
 - 1.2.2. The project schedule shall include the tasks listed below as well as the completion dates for each.
 - 1.2.3. Consultant shall complete the tasks listed below by the scheduled date for each task in the final project schedule.
- 1.3. Subconsultants: The following subconsultants have been approved to perform services under this Agreement.
 - 1.3.1. CSW/Stuber-Stroeh Engineering Group (Civil Engineering);
 - 1.3.2. David J. Powers & Associates (CEQA);
 - 1.3.3. Economic & Planning Systems, Inc. (Economics);
 - 1.3.4. Greensfelder Real Estate Strategy (Place-making);
 - 1.3.5. Kimley-Horn and Associates, Inc. (Transportation); and
 - 1.3.6. Sargent Town Planning (Retail Strategy).

2. DOWNTOWN PRECISE PLAN CONSULTANT SERVICES

Consultant shall complete each task listed below.

Task No. 1: Project Initiation

Consultant will complete the subtasks outlined below.

Subtask No. 1.1: Kick-off Meeting w/ Consultant Team

- A. Services: Consultant and subconsultants will meet with City staff to review the project description, scope of work, timeline and budget.
- B. Deliverable: Attend kick-off meeting.

Subtask No. 1.2: Base Map Development

- A. Services: Consultant shall assist City staff in preparing base maps. The base maps shall include:
 - 1. A map that demonstrates the adjacent context, public transit and major transportation routes, parks, schools, and project boundary;
 - 2. The location of the Downtown Precise Plan Area ("Plan Area") in the greater context of the other focus areas and the City of Santa Clara;

3. Aerial maps, General Plan land use and zoning maps;
4. A map of the Plan Area showing streets, curbs, parcels, buildings, landscape features, and parking areas; and
5. Any other tasks in this scope that require mapping.

B. Deliverable:

Base map development.

Subtask No. 1.3 Existing Conditions Report (Data Collection & Analysis):

- A. Services:** Consultant team, with City assistance, shall collect and analyze existing data and existing conditions and create a brief report. The analysis of the study area—including the Plan Area and its immediate context will include, but not be limited to:
1. Demographic and socioeconomic characteristics, including population, households, age, ethnicity, language, place of birth and residence, disability, income and poverty status;
 2. Property ownership;
 3. Employment (number of jobs by wage/salary and occupation);
 4. Planned land use and zoning designations, and relevant planning guidance in the form of policies pertaining to land use, development, urban design, parks and public facilities, historic preservation;
 5. Summary of previous planning efforts for the project area;
 6. Summary of other relevant Planning documents that will inform the Precise Plan;
 7. Development projects in the pipeline and underway;
 8. Existing affordable housing (including existing restricted and unrestricted affordable housing sites);
 9. Historic structures and places and historic background of the Downtown;
 10. Site Character;
 11. Block Pattern, building pattern, parking surfaces, community anchors, character areas, critical linkages, streetscape, public realm, and vocabulary of landscape and development features;
 12. Existing/proposed public transportation (including stop locations and frequencies), roadway facilities, bike and pedestrian routes;
 13. Transit ridership and multimodal traffic volume data; i.e. vehicle, bicycle and pedestrian, travel mode to work, travel and circulation patterns;
 14. Existing operations of each transportation system component based on available data;

15. Existing/proposed infrastructure capacity;
16. Existing land use (inventory of housing, jobs, parks, neighborhood amenities/retail, community facilities, social services, and schools/playgrounds) and physical characteristics; and
17. Natural hazards data.

B. Deliverable: Submission of Existing Conditions Report in editable Microsoft Word and PDF formats.

Subtask No. 1.4: Opportunities and Constraints Analysis

- A. Services:** The vision for the Downtown is to promote it as the historic, economic, and cultural heart of the City in such a way that enhances its strong business climate and bolsters the City's high quality of life. Consultant shall identify opportunities for development, and where the development will be constrained. Specific objectives include:
1. Identifying assets on which to build, such as the character of surrounding neighborhoods; successful businesses, programs and gathering spaces; proximity to transit and the university;
 2. Identifying design goals and policies necessary for future development to successfully meet the vision for the Plan Area;
 3. Considering how to support historic preservation and sensitively transition new development to the adjacent single-family neighborhood;
 4. Exploring options for connecting the area to transit, particularly to the Santa Clara Transit Station, and re-stitching the street grid;
 5. Identifying curb-side management strategies to incorporate evolving transportation technologies and the shared economy;
 6. Identifying potential future development sites within the Plan Area, and how future development could proceed in phases;
 7. Site Constraints;
 8. Development parameters and opportunities based on current zoning regulations;
 9. Ground truthing the development capacity identified in the General Plan (129,300 square feet of new commercial uses and 396 new residential units) and considering the "fit" between realistic development outcomes under the existing plan and the emerging vision for the Plan Area.
- B. Deliverable:** Opportunities and Constraints report, including maps, graphics, and narrative necessary to convey the results of the analysis.

Task No. 2: Issue Identification and Vision

Consultant will complete the tasks outlined below.

A. Services: Develop Community Involvement / Public Outreach Strategy

The Consultant shall develop a collaborative public outreach strategy for the project. The strategy shall outline the process for engaging stakeholders, leaders, community groups, minority populations, and other interested citizens in crafting a Precise Plan for the Downtown Focus Area. The Public Outreach Strategy shall include, but not be limited to:

1. Online Engagement Tools. Consultant will provide graphics and interactive materials for the City's website and social media, to mirror and augment in-person engagement and expand the community outreach to a diverse population. Consultant will revise or monitor the online engagement tool based on the feedback from City staff or community if necessary.
2. Establish Technical Advisory Committee (TAC). The focus of the TAC will be to provide technical feedback at key points in the planning process. City staff will take the lead in establishing and coordinating the TAC and identifying specific members. The Consultant will provide feedback to the TAC members and facilitate and lead discussions, present technical materials, and take summary notes at three (3) TAC meetings. The following are the anticipated meeting topics requiring Consultant attendance.
 - Meeting 1: Project overview and input from participants on the Public Outreach Strategy, Existing Conditions Report, and Opportunities and Constraints Analysis.
 - Meeting 2: Review of potential plan scenarios and input on preferred direction.
 - Meeting 3: Review of and input on plan framework, urban design and streetscape characteristics.
3. Downtown Community Task Force (DCTF). The focus of the DCTF will be to provide project updates, review the progress of the work and plan specifics, discuss issues and direction, and provide input. City staff has established the DCTF and identified the specific members. The Consultant team shall prepare meeting agendas, act as the facilitator for each of the task force meetings and lead discussions, present technical materials, and take summary notes. The following are the anticipated meeting topics requiring Consultant attendance. Additional meetings may be needed as the project progresses.
 - Meeting 1: Project overview (including Existing Conditions Report) and input from participants on identifying community assets, anchors and challenges, opportunity development sites to address in the development of the Plan, and to help the DCTF articulate the vision for the Plan Area.
 - Meeting 2: Overview of financial analysis. Review of potential plan

scenarios (created in Task 4 below) and input on preferred direction.

- Meeting 3: Review and input on plan framework, which may include land use, multi-modal connectivity, streetscape alternatives, and urban design standards.
 - Meeting 4: Review of public draft or adoption draft plan, and input on any refinements or additional details necessary.
4. Public Meetings. Facilitate events such as workshops, town halls, and open houses, and direct engagement such as pop-up workshops, focus groups, or interviews with stakeholders and/or focus groups. The Consultant team will work with City staff to identify residents, businesses, property owners, relevant public agencies, community groups, neighborhood associations, nonprofits, and faith-based organizations for outreach. The City will provide noticing and outreach for all community workshops. At a minimum, there shall be three (3) public meetings, two (2) workshops and one (1) open house.
 5. Planning Commission / City Council Study Sessions. The Consultant shall assume presentations of draft material for at least two (2) Planning Commission and two (2) City Council study sessions.

To ensure meaningful engagement opportunities across the Plan Area's population, the strategy will identify any needed translation services required at the engagement activities defined in this task—using the demographic data gathered for the existing conditions report to understand level of need by specific language.

B. Deliverables:

1. Public Outreach Strategy memo that includes an outline of the key steps of the outreach process and anticipated schedule of when various engagement activities would occur.
2. Graphics and interactive materials for the City's website and social media.
3. Materials necessary to facilitate community, DCTF, and TAC meetings, including but not limited to; a PowerPoint Presentation; Exhibition boards; and meeting agenda.
4. Meeting summaries documenting input at TAC, DCTF, and stakeholder meetings.
5. Attendance at three (3) Technical Advisory Committee meetings.
6. Attendance at four (4) Downtown Community Task Force meetings.
7. Attendance at five (5) Stakeholder meetings.
8. Attendance at two (2) Planning Commission hearings and two (2) City Council Study Sessions.

Task No. 3: Financial Analysis – Economic Sustainability

Consultant will complete the tasks outlined below.

A. Services: Develop a Financial Analysis and Commercial Retention Strategy

1. The Consultant will analyze potential market demand for housing, commercial, office, and mixed-use development in the Precise Plan Area. This analysis shall include the following.
 - a) **Market Assessment:** Consultant will establish and document real estate market potential and development factors relevant to the Downtown Plan Area. As part of its market assessment, Consultant will consider broad market trends as well as detailed information concerning new, high-performing local and regional comparable projects, including their market positioning, architectural format, amenity offerings, and market value.
 - **Socioeconomic and Market Trends:** Consultant will establish and document real estate market potential and development factors relevant to the Downtown Plan Area. As part of its market assessment, Consultant will consider broad market trends as well as detailed information concerning new, high-performing local and regional comparable projects, including their market positioning, architectural format, amenity offerings, and market value
 - **Market Valuations:** Consultant will study real estate market product values in the local and regional market, including sale values and lease rates for product types that may be most appropriate for development for the Downtown. This focus on product valuation will home in on specific building sale and lease transactions. Consultant will consider a range of potentially comparable projects, developing case studies as appropriate, to establish market data for subsequent financial pro forma feasibility analysis.
 - b) **Financial Feasibility:** Consultant will develop a pro forma financial analysis to inform the financial viability of potential projects for the Downtown.
 - c) **Retail Strategy:** Greensfelder Real Estate will work with Consultant on the economic analysis around commercial space, providing greater depth of experience in the specific retail segments and space needs that may be suited to Downtown Santa Clara to include:
 - Analysis of potential key retail sites; and
 - Recommendations on how ground floor commercial should be laid out along the connection axis between the Downtown area and transportation hubs.
2. The Consultant shall review the planned development program (129,300 square feet of new commercial uses and 396 new residential units) against real estate market conditions and trends within the Plan Area and the larger

surrounding market area and assess the potential competitiveness of the Plan Area in capturing enough demand to support the planned build-out and assess the economic challenges to creating the desired development pattern. Consultant shall make recommendations on what type and amount of development and density will be needed to make it feasible to redevelop the Plan Area and support infrastructure needs and desires.

3. Based on the findings from the work above, the Consultant shall develop a recommended strategy that the City can take to overcome any identified challenges.

B. Deliverable: Financial analysis report including findings from the market assessment and financial feasibility testing. Specifically, the report will include recommendations on the amount, size, type, and location of commercial uses, and assessment of the potential of the Plan Area to support the planned build-out. The report also will make suggestions for Plan implementation that seek to achieve the City's vision of an active Downtown destination.

Task No. 4: Development Scenarios / Conceptual Plans

Consultant will complete the subtasks outlined below.

Subtask No. 4.1: Land Use and Circulation Scenario Development

A. Services: Consultant team will develop three (3) long-term vision scenarios for the Plan Area. The scenarios shall represent the planned build-out of the Plan Area and could include different land use and development intensities, key development sites, multi-modal connectivity improvements, open space plans, streetscape and public space improvements, infrastructure improvements, preserved or enhanced community anchors, and other physical changes to illustrate the various alternatives and potential concepts for the future of the area. The water, sewer, electrical and natural gas demand associated with development under each scenario will also be assessed.

The intent of the scenarios is to enable long-term creative thinking for the Plan Area around several topics, by providing a small number of initial concepts for the community, City staff, elected officials, and other stakeholders to respond to. The concepts will be informed by the market and financial feasibility analysis (Task 3 above) and be feasible under current or potential future market conditions. The land use scenarios will be vetted with the DCTF and the TAC and used as a starting point for community feedback and creative problem solving in a workshop format.

B. Deliverable: Land Use Scenarios Memorandum, including maps and graphics for each scenario; a "fact sheet" that provides an overview of development potential, land use mix, potential intensities and heights, anticipated growth in residents and/or workers, potential new public spaces, and consideration of tradeoffs; and precedent images that illustrate development types associated with each scenario. The Consultant team will refine the concepts and finalize them for Workshop #1 based on the comments received from City staff, the TAC

and the DCTF.

Subtask No. 4.2: Plan Framework and Urban Design Team Charrette

- A. Services:** Based on feedback on the land use concepts, including critical feedback from the first workshop, the Consultant team will create a “plan framework” that best expresses the community’s vision for the fundamental elements, relationships, and character of future Downtown development. This plan framework will be the starting point for discussions with the DCTF and TAC in a second round of meetings that will also be the launching point for a 3-day team charrette.
- B. Deliverable:** Plan Framework and Urban Design Team Charrette.

Subtask No. 4.3: Opportunity Site Development Scenarios

- A. Services:** The Consultant, with assistance from the City and the DCTF (meeting #1 in Task 2 above) and based on the land use scenario development in Subtask 4.1 above, shall identify at least three (3) opportunity sites for which to model three (3) physical development options, including photo-simulations and/or other visual graphics necessary to depict potential new development. These graphics shall illustrate design concepts for vision, land use, open space and placemaking, urban design and streetscape and circulation chapters. The outcomes of this task shall inform the content of Workshop # 2 in Subtask 5.2 below and the development of the design guidelines for the Draft Plan in Subtask 6.6 below.

B. Deliverable:

1. Opportunity Site Development Scenarios Memorandum. The opportunity site development scenarios memorandum shall include diagrams used to illustrate the development of at least three (3) opportunity sites each with three (3) physical development options that may be depicted using 3D models, photo simulations, plans, and sections. These graphics shall illustrate design concepts for vision, land use, open space and place making, urban design and streetscape and circulation chapters.

Each of the development options shall be accompanied by descriptions, diagrams, development tables, pros and cons comparisons, and a summary of the effectiveness of each alternative in meeting project goals and indicators or addressing significant issues project issues.

It is expected that some of these graphics will be used in the final Plan document and will therefore require multiple revisions based on City staff and public comments. As such, the Consultant shall make changes to the graphics to the satisfaction of City staff.

Task No. 5: Workshops

Consultant will complete the subtasks outlined below.

Subtask No. 5.1: Workshop #1: Identifying Plan Principles, Opportunities and Constraints, Land Use

A. Services: The first workshop shall introduce community members to the project, present existing conditions and background research, summarize the public outreach strategy, and gather public input on the opportunities, constraints, goals, principles, and a vision for the Plan Area as determined by City staff and the Consultant. The workshop shall build on the work completed in Subtask 4.1 above. The presentation should include context-sensitive development examples and sketches that can be used for gauging community preferences.

B. Deliverables:

1. Facilitate Workshop #1.
2. Provide an agenda, PowerPoint presentation, and a minimum of five exhibition boards and other graphic materials necessary for community engagement activities.
3. Provide a workshop summary report that will be published on the City's website and shared with the community. This shall be done in a maximum of two weeks after the workshop.
4. Prepare the draft guiding principles/vision. The draft guiding principles/vision report shall identify the guiding principles and vision inspired by community input and will be used for the entire planning process.

Subtask No. 5.2: Workshop #2: Urban Design & Circulation / Streetscape

A. Services: The second workshop shall present the results of stakeholder and community feedback from Workshop #1, build upon the work completed in Subtask 4.3 above, and introduce urban design, streetscape, and circulation concepts, as well as conceptual development alternatives. The workshop shall be geared towards receiving feedback on the draft concepts, alternatives, and features that are desired in the Plan Area, which will be used to help shape the draft Precise Plan.

B. Deliverables:

1. Provide an agenda, PowerPoint presentation, and a minimum of eight (8) exhibition boards and other graphic materials necessary for community engagement activities.
2. Provide a workshop summary report that will be published on the City's website and shared with the community. This shall be done in a maximum of two weeks after the workshop.

Task No. 6: Develop Draft Precise Plan Chapters

Consultant will complete the subtasks outlined below.

A. Services:

The Consultant team will create the draft Plan based on the results of the Land Use Scenarios and Opportunity Site Development Scenarios memorandums, existing conditions report and the results of the public engagement process.

The Consultant team shall develop a template for the draft Precise Plan document in Adobe InDesign. The draft Precise Plan shall address the topics discussed in the subtasks below. Each chapter shall identify principles for the given topic supported by goals, policies, standards, and guidelines as appropriate. The Plan shall include supporting illustrations and graphics that support the narrative.

- 1. Task 6.1: Introduction:** Description of the project setting, purpose of the document, relationship to other City plans and policies, and a description of the planning process used to develop the Plan and the role the public played in creating the Plan.
- 2. Task 6.2: Vision & Guiding Principles:** Describes the overall vision and principles of the Plan.
- 3. Task 6.3: Goals & Policies:** The goals and policies for the Precise Plan shall provide a framework for the physical development of the Plan Area and support the vision for the Plan. The goals and policies shall include, and build upon, the existing policies in the General Plan for the Downtown Focus Area, as well as the City-wide policies related to areas of historic sensitivity, in Section 5.6, and neighborhood compatibility, in Section 5.5.
- 4. Task 6.4: Land Use Plan**
 - a)** The land use fabric shall be designed to facilitate the development of a complete community with a mix of land uses that promote increased pedestrian activity and contribute towards the development of a strong community identity with vibrant public spaces. The land use plan shall also reflect historic structures and transitions to single-family homes.
 - b)** Development within the Plan Area could be at intensities of almost 2.0 FAR, with building heights between five and eight stories. Allowed building intensity and heights in the remainder of the Plan Area are typically lower, with maximum heights between three and four stories. Description of land use designations should reflect the planned total number of units and square footage of non-residential uses. Population and job projections should also be included.
- 5. Task 6.5: Circulation & Parking**
 - a)** To support the development of the preferred alternative and to create "complete" streets for all modes and improve access and safety in and around the Plan Area, the Consultant shall identify conceptual circulation and roadway improvements, and policies and guidelines to support such improvements. The circulation and roadway

improvements will be identified through the results of a transportation and circulation analysis. The analysis shall focus particularly on improving bicycle, pedestrian, and transit access within and to the Plan Area. Specifically, connections to nearby destinations, such as the Santa Clara Transit Station, Santa Clara University, the Old Quad neighborhood, El Camino Real, and City Hall, should be emphasized for pedestrian and bicycle movement. The vision in the General Plan for the Downtown Focus Area includes a future transit loop to connect the Downtown area to the Santa Clara Transit Station, and possibly the aforementioned areas.

- b) The circulation network for the Precise Plan shall serve all modes of travel and may include new streets, paths and connections to existing roadways. Specifically, the General Plan calls for reconnecting Franklin Street and returning the street grid. Storm water management in the public right-of-way shall also be addressed. Circulation maps, graphics, and cross section recommendations for streets and path facilities in the Plan Area shall be prepared.
- c) Parking management strategies and Transit Oriented Development (TOD) parking ratios shall be identified, as well as a range of Transportation Demand Management (TDM) measures that may be applied to future development projects.
- d) Wayfinding Program: The Consultant shall develop a comprehensive wayfinding and community identification sign program to promote the identity of the Downtown Plan Area and make it easier for visitors to find their way around and enhance the overall experience. As a part of this program, gateway locations should be identified.

6. Task 6.6: Design Guidelines

The design guidelines shall build upon the City's existing General Plan design policies, as well as the information gathered at the community workshops, TAC, and DCTF meetings, to identify additional guidelines that should apply specifically to this Plan. These guidelines shall be designed to facilitate attractive pedestrian, bicycle, and transit-oriented development that is also consistent with sustainability and green building best practices. The design guidelines shall be supported with illustrations and graphics necessary to provide a clear understanding of the intent of key guidelines.

- a) Building Design Guidelines: For new development within the Plan Area the building design guidelines shall address: building siting; bulk and massing; height; setbacks; transitions to adjacent existing low scale uses; transitions and sensitivity to adjacent historic resources; building articulation; architecture; landscape design strategies; and parking design.
- b) Open Space Design Guidelines: Open space design guidelines shall address the provision for adequate public and private open space as

an integral part of the conceptual land-use alternatives and site planning for new development. These guidelines shall also address creating a network of open spaces connected by greenways and/or pedestrian-priority streets that complement and connect with other existing open spaces within a half mile distance of the Plan Area.

- c) Streetscape / Public Realm Design Guidelines: The Consultant shall develop "public realm" streetscape plans that identify conceptual improvements for specific locations from the range of options discussed with the community. Streetscape improvements should include enhanced bikeways, widened and enhanced sidewalks and park strips, street trees, medians, pedestrian bulb-outs and pedestrian crossing refuge areas, transit stop improvements, enhanced crosswalks, placemaking strategies, public space and plazas, lighting, landscape and furnishings, signage, etc. The Consultant shall provide graphic representations of the streetscape plans, including:
- Before/after photomontage (simulation) illustrations for streetscape and circulation improvements;
 - Streetscape sections; and
 - Diagrams/graphics that illustrate streetscape improvement concepts, including, but not limited to, crosswalks, bike lanes, intersection improvements, curb ramps, and pedestrian refuge islands.

7. Public Services and Implementation

- a) The Consultant shall include information about services and infrastructure needed to implement the Plan, including specific policies regarding utilities, public safety, and parks.
- b) The Plan shall also identify actions and strategies for its implementation, including needed infrastructure improvements, such as roadways and parkland, and financing strategies to enable these improvements. An evaluation of projected costs and revenues associated with the proposed new streets (including utility infrastructure) and trolley loop and its potential effect on the City's budget should also be included.

B. Deliverables:

1. Administrative Draft Downtown Precise Plan:
- a) One (1) Microsoft Word copy of the Plan (text only);
 - b) One (1) Adobe InDesign template for the Plan document;
 - c) One (1) Adobe InDesign copy of the Plan;
 - d) All electronic source files used to create the document; and
 - e) All electronic supplementary files to the report.

Task No. 7: Community Open House

Consultant will complete the tasks outlined below.

- A. Services:** The Consultant team shall assist staff in hosting an open house to present the Draft Plan to the community and provide an opportunity for the community to comment.
- B. Deliverables:**
 - 1. Prepare and provide an agenda, PowerPoint presentation, and exhibition boards.
 - 2. Facilitate the Community Open House.
 - 3. Provide a workshop summary report that will be published on the City's website and shared with the community. This shall be done in a maximum of two weeks after the workshop.

Task No.8: Draft Plan Refinement

Consultant will complete the tasks outlined below.

- A. Services:** Refine the Plan document based on the comments received from the open house and TAC and DCTF meetings. The plan refinement may require multiple revisions in coordination with City staff.
- B. Deliverables:**
 - 1. One (1) Adobe InDesign copy of the refined Draft Plan.
 - 2. All electronic source files used to create the document.
 - 3. All electronic supplementary files to the report.
 - 4. One (1) fully editable PDF copy of the refined Draft Plan.

Task No. 9: California Environmental Quality Act (CEQA) Clearance

Consultant will complete the subtasks outlined below.

Subtask No. 9.1: Define Project, Review Data, Determine Existing Conditions, and Determine CEQA Strategy

- A. Services:** The Consultant shall work with City staff to define and determine the CEQA strategy necessary to prepare and complete the necessary CEQA documentation for adoption of the Precise Plan. The Consultant shall participate in a kick-off meeting to help determine the CEQA strategy and schedule. The meeting agenda shall include, but not be limited to, defining the scope, identifying the sections to include in the environmental document, collecting the necessary data and research, and determining the existing conditions.

B. Deliverables:

1. Attend Kick-off meeting.
2. CEQA Strategy and Schedule.

Subtask No. 9.2: Prepare Draft Environmental Review Clearance Documents

A. Services: Consultant shall prepare draft environmental review clearance documents. The environmental review scope is anticipated to include a program level Initial Study with technical studies, and Negative Declaration or Mitigated Negative Declaration that tier off the certified Environmental Impact Report (EIR) for the City of Santa Clara 2010-2035 General Plan. The document shall address all required CEQA topics. At a minimum, technical studies will be required for cultural resources, traffic, and air quality.

B. Deliverables:

1. Notice of Determination, one draft and one final version.
2. Attend one Planning Commission and one City Council hearing.
3. Prepare final Initial Study.

However, if an EIR is required, the report shall include the following deliverables:

1. Prepare a Notice of Preparation (NOP) (one draft and one final).
2. Assist City staff with scoping meeting(s); review, compile, and respond to comments received.
3. Prepare Administrative and public draft EIR.
4. Prepare a Notice of Completion (NOC) and Notice of Availability (NOA) (one draft and one final).
5. Prepare the First Amendment to the Draft EIR; including Response to Comments, Mitigation Monitoring and Reporting Program, CEQA Findings, and Statement of Overriding Considerations, if applicable.
6. Prepare Notice of Determination (NOD) (one draft and one final).
7. Attend one (1) Planning Commission and one (1) City Council hearing.
8. Prepare final environmental document.

Task No. 10: Planning Commission and City Council Public Hearings

Consultant will complete the subtasks outlined below.

Subtask No. 10.1: Planning Commission Hearing

A. Services: The Consultant team shall make changes to the draft document (text and/or graphics) based on the Planning Commission's recommendations.

B. Deliverables:

1. Attendance at Planning Commission Hearing.
2. Preparation of material content for staff report and PowerPoint presentation.

Subtask No. 10.2: City Council Hearing

A. Services: The Consultant team shall make changes to the draft document (text and/or graphics) based on the City Council's recommendations.

B. Deliverable:

1. Attendance at City Council Hearing.
2. Preparation of material content for staff report and PowerPoint presentation.

3. OPTIONAL TASKS

At the City's sole option, the Consultant may assist the City with the development of a Request for Proposals (RFP) for the sale or lease for the development of City-owned properties located within the Downtown Precise Plan Area, by performing one or more of the services described below. All optional tasks performed shall be priced pursuant to the pricing stated in the Optional Task Price List in Exhibit B, Section 4.

3.1. Optional Tasks

- 5.4.1. Developer Round Table Conference: Consultant shall engage with the developer community to form a panel that reflects the various project types that may be appropriate to different areas of the Downtown study area. Consultant shall facilitate a round table conference where the developers will show the projects they have built and explain how they may be appropriate to certain downtown infill opportunities and what project characteristics would be attractive to them.
- 5.4.2. Student Engagement: Consultant shall perform targeted outreach to students at Santa Clara University, local high schools and other youth organizations to engage them in shaping the future of Downtown Santa Clara.
- 5.4.3. Summer Event Pop-Ups: Consultant shall facilitate up to three (3) pop-up booths at city-wide events such as farmers markets, art & wine festivals, street dance events, the Fourth of July City picnic, etc.
- 5.4.4. Meeting in A Box: Consultant shall provide a complete package of engagement tools to City staff or partner organizations to conduct outreach and engagement meetings. Consultant shall also perform an audit of the meeting(s) with TAC/DCTF members and stakeholders.

- 5.4.5. Retail "101" Workshop: Consultant shall present a workshop discussing how retailers determine if a new store is warranted; how data is collected and analyzed; how real estate is evaluated; and how internal decision processes work. Participant takeaways shall include an understanding of retailer processes, so they can determine whether a retailer cares about a particular property, and how to communicate a property's compelling attributes to a potential retail tenant.
- 5.4.6. Ground-Floor Retail Best Practices Guidance Document: Consultant will prepare a guidance document for City staff (and developers) to use to make sure that ground floor space is designed appropriately for retail uses.
- 5.4.7. Illustrations: Consultant shall provide artist renderings of the preferred concept.
- 5.4.8. Phase 1 Environmental Assessment: The Initial Study's Hazardous Materials section will be augmented by a Phase I Environmental Site Assessment prepared by Consultant, or Subconsultant. Mitigation measures to reduce significant hazard and hazardous material impacts will be identified, as appropriate.
- 5.4.9. Environmental Impact Report: Consultant shall prepare an Environmental Impact Report.
- 5.4.10. Support Preparation of Developer RFP: Consultant shall assist the City in the preparation and review of a developer RFP.

EXHIBIT B SCHEDULE OF FEES

1. Maximum Compensation

The maximum amount of compensation to be paid to Consultant shall not exceed Five Hundred Seventy-Eight Thousand Three Hundred Forty-Six Dollars (\$578,346).

2. Project Tasks

City shall pay Consultant for completed Downtown Precise Plan preparation tasks as set forth in the Scope of Services (Exhibit A) at the rates listed in Table B1- Payment Schedule below.

3. Reimbursable Expenses

City shall pay Consultant for approved reimbursable expenses. The total not-to-exceed compensation for reimbursable expenses is listed in Table B1- Payment Schedule below.

Table B1 – Payment Schedule

Task Number	Deliverable	Cost
1.1	Project Initiation Kick-off Meeting	\$19,910
1.3	Existing Conditions Report	\$33,945
1.4	Opportunities and Constraints Report	\$13,170
2	Public Outreach Strategy Memo	\$1,850
2	Online Community Engagement Tool	\$6,970
2	Materials for Meetings	\$3,660
2	Meeting Minutes and Comment Summaries	\$3,120
2	Attend Three TAC Meetings	\$11,230
2	Attend Four DCTF Meetings	\$15,880
2	Attend up to Five Public Meetings	\$5,240
2	Attend Two Planning Commission Hearings and Two City Council Study Sessions	\$10,320
3	Financial Analysis Report	\$31,260
4.1	Land Use Scenarios Memo	\$38,235
4.2	Opportunity Site Development Scenarios Memorandum	\$36,505
5	Plan, Schedule, and Facilitate Two Workshops	\$21,014

5	Draft guiding principles/vision report for Workshop #1	\$540
5	Workshop summary report for two workshops	\$567
6	Administrative Draft Downtown Precise Plan	\$68,380
7	Prepare agenda, PowerPoint Presentation, and exhibition boards, and attend Community Open House	\$9,994
7	Workshop summary report for Community Open House	\$526
8	Refine the draft Plan document	\$12,880
9.1	Attend CEQA project meeting	\$2,930
9.1	Prepare CEQA strategy and schedule documents	
9.2	Administrative draft environmental document	\$69,950
9.2	Notice of Preparation	
9.2	Assist City staff with scoping meeting(s); review, compile, and respond to comments received	
9.2	Prepare Administrative and public draft EIR	
9.2	Prepare a Notice of Completion and Notice of Availability	
9.2	Prepare amendment to draft EIR	
9.2	Notice of Determination	
9.2	Attend one Planning Commission hearing and one City Council hearing	
9.2	Final draft of the EIR	
10.1	Attend Planning Commission Hearing	\$5,160
10.2	Attend City Council Hearing	\$5,160
10.2	Materials for the staff report and PowerPoint presentation	\$9,680
	Reimbursable Expenses	\$14,295
TOTAL		\$452,371

4. Optional Tasks

- 4.1. At the City's sole option Consultant shall perform the optional task(s) listed in Exhibit A, Section 3 entitled "Optional Tasks".
- 4.2. City shall pay Consultant for completed optional tasks at the rates listed in Table B2-Optional Task Price List below.

Table B2 – Optional Task Price List

Task	Cost
Developer Round Table Conference	\$8,320
Student Engagement	\$7,500
Summer Event Pop-Ups	\$8,020
Meeting in A Box	\$2,940
Retail "101" Workshop	\$2,500
Ground-Floor Retail Best Practices Guidance Document	\$4,000
Phase 1 Environmental Assessment	\$14,375
Prepare EIR	\$30,000 - \$70,000
Support Preparation of Developer RFP (per site)	\$8,320

5. Invoicing

- 5.1. Consultant shall submit to the City a monthly invoice by the fifteenth (15th) day of each month, in arrears, for payment for services performed the previous month, pursuant to this Agreement.
- 5.2. Each invoice shall include the task costs for the previous month. The invoiced task costs shall be in a separate section from the reimbursable expenses.
- 5.3. The City shall review the invoice submitted by Consultant and within ten (10) working days of receipt of the invoice, the City shall notify Consultant of any discrepancies or deficiencies in said invoice.
- 5.4. If the City disputes an expense in an invoice, the City may deduct the disputed expense from the payment of that invoice, provided that the City submits to the Consultant a written explanation of why the expense is being disputed.

8. Payment to Consultant

- 8.1.** Except as otherwise provided in this Agreement, the City shall make monthly payments within thirty (30) calendar days from the City's approval of Consultant's invoice.

EXHIBIT C

INSURANCE REQUIREMENTS

Without limiting the Consultant's indemnification of the City, and prior to commencing any of the Services required under this Agreement, the Consultant shall provide and maintain in full force and effect, at its sole cost and expense, the following insurance policies with at least the indicated coverages, provisions and endorsements:

A. COMMERCIAL GENERAL LIABILITY INSURANCE

1. Commercial General Liability Insurance policy which provides coverage at least as broad as Insurance Services Office form CG 00 01. Policy limits are subject to review, but shall in no event be less than, the following:

\$1,000,000 Each Occurrence
\$2,000,000 General Aggregate
\$2,000,000 Products/Completed Operations Aggregate
\$1,000,000 Personal Injury

2. Exact structure and layering of the coverage shall be left to the discretion of Consultant; however, any excess or umbrella policies used to meet the required limits shall be at least as broad as the underlying coverage and shall otherwise follow form.
3. The following provisions shall apply to the Commercial Liability policy as well as any umbrella policy maintained by the Consultant to comply with the insurance requirements of this Agreement:
 - a. Coverage shall be on a "pay on behalf" basis with defense costs payable in addition to policy limits;
 - b. There shall be no cross-liability exclusion which precludes coverage for claims or suits by one insured against another; and
 - c. Coverage shall apply separately to each insured against whom a claim is made or a suit is brought, except with respect to the limits of liability.

B. BUSINESS AUTOMOBILE LIABILITY INSURANCE

Business automobile liability insurance policy which provides coverage at least as broad as ISO form CA 00 01 with policy limits a minimum limit of not less than one million dollars (\$1,000,000) each accident using, or providing coverage at least as broad as, Insurance Services Office form CA 00 01. Liability coverage shall apply to all owned, non-owned and hired autos.

In the event that the Work being performed under this Agreement involves transporting of hazardous or regulated substances, hazardous or regulated

wastes and/or hazardous or regulated materials, Consultant and/or its subconsultants involved in such activities shall provide coverage with a limit of two million dollars (\$2,000,000) per accident covering transportation of such materials by the addition to the Business Auto Coverage Policy of Environmental Impairment Endorsement MCS90 or Insurance Services Office endorsement form CA 99 48, which amends the pollution exclusion in the standard Business Automobile Policy to cover pollutants that are in or upon, being transported or towed by, being loaded onto, or being unloaded from a covered auto.

C. WORKERS' COMPENSATION

1. Workers' Compensation Insurance Policy as required by statute and employer's liability with limits of at least one million dollars (\$1,000,000) policy limit Bodily Injury by disease, one million dollars (\$1,000,000) each accident/Bodily Injury and one million dollars (\$1,000,000) each employee Bodily Injury by disease.
2. The indemnification and hold harmless obligations of Consultant included in this Agreement shall not be limited in any way by any limitation on the amount or type of damage, compensation or benefit payable by or for Consultant or any subconsultant under any Workers' Compensation Act(s), Disability Benefits Act(s) or other employee benefits act(s).
3. This policy must include a Waiver of Subrogation in favor of the City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents.

D. PROFESSIONAL LIABILITY

Professional Liability or Errors and Omissions Insurance as appropriate shall be written on a policy form coverage specifically designed to protect against negligent acts, errors or omissions of the Consultant. Covered services as designated in the policy must specifically include work performed under this agreement. Coverage shall be in an amount of not less than one million dollars (\$1,000,000) per claim or two million dollars (\$2,000,000) aggregate. Any coverage containing a deductible or self-retention must first be approved in writing by the City Attorney's Office.

E. COMPLIANCE WITH REQUIREMENTS

All of the following clauses and/or endorsements, or similar provisions, must be part of each commercial general liability policy, and each umbrella or excess policy.

1. Additional Insureds. City of Santa Clara, its City Council, commissions, officers, employees, volunteers and agents are hereby added as additional insureds in respect to liability arising out of Consultant's work for City, using Insurance Services Office (ISO) Endorsement CG 20 10 11 85

or the combination of CG 20 10 03 97 and CG 20 37 10 01, or its equivalent.

2. Primary and non-contributing. Each insurance policy provided by Consultant shall contain language or be endorsed to contain wording making it primary insurance as respects to, and not requiring contribution from, any other insurance which the Indemnities may possess, including any self-insurance or self-insured retention they may have. Any other insurance Indemnities may possess shall be considered excess insurance only and shall not be called upon to contribute with Consultant's insurance.
3. Cancellation.
 - a. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided due to non-payment of premiums shall be effective until written notice has been given to City at least ten (10) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least ten (10) days prior to the effective date of non-renewal.
 - b. Each insurance policy shall contain language or be endorsed to reflect that no cancellation or modification of the coverage provided for any cause save and except non-payment of premiums shall be effective until written notice has been given to City at least thirty (30) days prior to the effective date of such modification or cancellation. In the event of non-renewal, written notice shall be given at least thirty (30) days prior to the effective date of non-renewal.
4. Other Endorsements. Other endorsements may be required for policies other than the commercial general liability policy if specified in the description of required insurance set forth in Sections A through D of this Exhibit C, above.

F. ADDITIONAL INSURANCE RELATED PROVISIONS

Consultant and City agree as follows:

1. Consultant agrees to ensure that subconsultants, and any other party involved with the Services who is brought onto or involved in the performance of the Services by Consultant, provide the same minimum insurance coverage required of Consultant, except as with respect to limits. Consultant agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this Agreement. Consultant agrees that upon request by City, all agreements with, and insurance compliance

documents provided by, such subconsultants and others engaged in the project will be submitted to City for review.

2. Consultant agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge City or Consultant for the cost of additional insurance coverage required by this Agreement. Any such provisions are to be deleted with reference to City. It is not the intent of City to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against City for payment of premiums or other amounts with respect thereto.
3. The City reserves the right to withhold payments from the Consultant in the event of material noncompliance with the insurance requirements set forth in this Agreement.

G. EVIDENCE OF COVERAGE

Prior to commencement of any Services under this Agreement, Consultant, and each and every subconsultant (of every tier) shall, at its sole cost and expense, provide and maintain not less than the minimum insurance coverage with the endorsements and deductibles indicated in this Agreement. Such insurance coverage shall be maintained with insurers, and under forms of policies, satisfactory to City and as described in this Agreement. Consultant shall file with the City all certificates and endorsements for the required insurance policies for City's approval as to adequacy of the insurance protection.

H. EVIDENCE OF COMPLIANCE

Consultant or its insurance broker shall provide the required proof of insurance compliance, consisting of Insurance Services Office (ISO) endorsement forms or their equivalent and the ACORD form 25-S certificate of insurance (or its equivalent), evidencing all required coverage shall be delivered to City, or its representative as set forth below, at or prior to execution of this Agreement. Upon City's request, Consultant shall submit to City copies of the actual insurance policies or renewals or replacements. Unless otherwise required by the terms of this Agreement, all certificates, endorsements, coverage verifications and other items required to be delivered to City pursuant to this Agreement shall be mailed to:

EBIX Inc.

City of Santa Clara, Parks and Recreation Department

P.O. Box 100085 – S2

or

1 Ebix Way

Duluth, GA 30096

John's Creek, GA 30097

Telephone number: 951-766-2280

Fax number: 770-325-0409

Email address: ctsantaclara@ebix.com

I. QUALIFYING INSURERS

All of the insurance companies providing insurance for Consultant shall have, and provide written proof of, an A. M. Best rating of at least A minus 6 (A- VI) or shall be an insurance company of equal financial stability that is approved by the City or its insurance compliance representatives.

Agenda Report

19-1006

Agenda Date: 10/8/2019

REPORT TO COUNCIL

SUBJECT

Action on the Award of Agreement to Wallace Roberts & Todd, LLC for Downtown Precise Plan Consultant Services and Related Budget Amendment

BACKGROUND

The City of Santa Clara's 2010-2035 General Plan identifies focus areas throughout the City, including the Downtown area, to promote the City's diverse economic base and meet the demand for housing that addresses job growth in the City and region.

In August 2015, the Santa Clara City Council adopted a Strategic Objective to evaluate a Santa Clara Downtown/Super Block project. The City then hired an urban design consultant to help facilitate a series of workshops and meetings between October 2015 and November 2017, which were used to gather community input on a vision for the Downtown area's future development. Through this process the community identified several objectives for the redevelopment of the Downtown area as a vibrant, pedestrian-oriented destination. The restoration of Franklin Street as a public right-of-way open to vehicular traffic was identified as a primary objective.

The possibility of revitalizing the City's historic Downtown area has engaged City community members, including organizations such as Reclaiming Our Downtown and the Old Quad Resident's Association. In response to community interest, the City Council approved the Biennial 2018/19 and 2019/20 Capital Improvement Program Budget that includes \$400,000 to support the preparation of a Precise Plan that will provide guidance for new development within the Downtown area through policies, guidelines, and illustrations that implement the community vision and objectives for a vibrant, pedestrian-oriented destination. As part of this effort, the City requires a consultant to assist in the preparation of the Precise Plan.

DISCUSSION

In February 2019, the City issued a Request for Qualifications (RFQ) for Downtown Precise Plan Consultant Services, using the City's e-procurement system. A total of 75 companies viewed the RFQ and the City received proposals from four companies by the March 25, 2019 deadline:

- Dyett & Bhatia Urban & Regional Planners (Oakland, CA)
- Lisa Wise Consulting, Inc. (San Francisco, CA)
- M. Arthur Gensler, Jr. & Associates dba Gensler (Los Angeles, CA)
- Wallace Roberts & Todd, LLC (San Francisco, CA)

Evaluation: A seven-member evaluation team with representation from the Community Development Department, Public Works Department, City Manager's Office, and the Downtown Community Task Force was formed to evaluate the proposals. Each team member independently evaluated and scored the proposals.

Proposal Responsiveness: Staff determined all proposals were responsive and met the initial pass/fail review of the stated minimum qualifications.

Cover Letter and Qualifications (25% weight): A letter identifying the proposer's firm and highlights of the proposal package. Additionally, each proposer submitted a statement of qualifications for their firm and proposed project staff including resumes and relevant project lists.

Project Approach (25% weight): The evaluation team evaluated the proposers' project approach including the major tasks and services to be provided, and proposed subconsultants.

Draft Scope of Work (40% weight): The proposers were required to submit a draft scope of work for the project including a project schedule that outlined the timing of each task and deliverable.

References (5% weight): The proposers were required to submit with their proposal three references for similar services performed.

Cost (5% weight): Cost proposals were opened and scored at the end of the technical proposal evaluation.

Oral Presentations: On June 28, 2019, the four proposers were invited to participate in oral presentations to demonstrate their knowledge and understanding of the City's requirements and introduce key personnel who would be assigned to the project.

The evaluation results are summarized in the table below.

<u>Criteria</u>	<u>Maximum Points</u>	<u>Dyett & Bhatia</u>	<u>Lisa Wise Consulting</u>	<u>Gensler</u>	<u>Wallace Roberts & Todd</u>
Cover Letter	5	4	4	4	4
Firm Qualifications	10	8	8	8	8
Staff Qualifications	10	8	8	8	8
Draft Scope of Work	40	27	29	32	33
Project Approach	25	19	19	18	21
References	5	3	4	4	5
Cost	5	5	4	4	4
Totals	100	74	76	78	83

Notice of Intended Award:

A Notice of Intended Award (NOIA) announcing the City's recommended Consultant was published on July 1, 2019. The RFQ process included a ten-day protest period; no protests were received.

Recommendation:

Staff recommends award of agreement to Wallace Roberts & Todd, LLC. The evaluation team unanimously agreed that their expertise and project approach is the most advantageous and provides the best value to the City. The Consultant's team is comprised of industry experts in town planning, placemaking, transportation, economic development, environmental analysis, and community engagement. Additionally, their solution included the following key attributes.

- Integrated community engagement that is built upon the efforts conducted in 2015 and 2017;
- Balance between community needs and development realities;
- Pro forma financial feasibility testing of prototypical opportunities to provide an assessment of current planning parameters and the economic challenges to creating the desired development pattern; and
- Development of a plan framework that is based on good town-making principles.

References were checked with Universal Paragon Corporation (California), the City of Millbrae (California), and the Town of Windsor (California). The references checked positive.

Pending Council's approval, the Agreement shall be executed to provide the required consulting services for the Downtown Precise Plan development. The initial term of the Agreement shall be for three years ending on September 30, 2022, with an option to extend the Agreement for an additional three-year term through September 30, 2025.

The agreement is fixed-price with payments tied to the successful completion of the milestones listed in the table below. The cost elements include the tasks from the scope of work that were identified in the RFQ, as well as the optional tasks identified by the Consultant in their RFQ response.

COST ELEMENTS:	
Project Initiation	\$67,025
Issue Identification and Vision	\$58,270
Financial Analysis	\$31,260
Development Scenarios/Conceptual Plans	\$74,740
Workshops	\$22,121
Draft Precise Plan Chapter Development	\$68,380
Public Services and Implementation	\$10,520
Draft Precise Plan Refinement	\$12,880
CEQA Clearance	\$72,880
Planning Commission & City Council Public Hearings	\$20,000
Reimbursable Expenses	\$14,295
Services Subtotal	\$452,371
Optional Services	\$125,975
GRAND TOTAL	\$578,346

Scope of Work Summary:

The Consultant shall work closely with the City and Downtown Community Task Force in the development of the Precise Plan. The Plan process shall include periodic check-ins with the City Council to report on community and Task Force input, and to receive Council feedback at key milestones in the planning process such as the completion of the market assessment; the proposed vision scenarios; and the preferred land use plan. Preparation of the Plan is anticipated to require approximately 18 months and includes the following key work program elements.

- Analysis of existing conditions;
- Development of a public outreach strategy for the planning process;
- Analysis of potential market demand for housing, commercial, office, and mixed-use development in the Precise Plan area;
- Development of three (3) long-term vision scenarios that represent the planned build out of the Plan area including, land use and development intensities, multi-modal connectivity improvements, open space plans, and streetscape and public space improvements;
- Analysis of the economic feasibility of each land use scenario, along with a summary of community input, to inform the selection of a preferred scenario;
- Design guidelines that build upon the City's existing General Plan design policies, as well as the information gathered during the community outreach activities; and
- The Precise Plan document, including the preferred land use scenario.

The unanimous selection of the Consultant by the evaluation team reflects the expertise the Consultant demonstrated in areas reflective of the work program, including the preparation of downtown plans, conducting community engagement, real estate economics, and form-based codes and other zoning tools.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

FISCAL IMPACT

Funds in the amount of \$400,000 were allocated for the development of a Downtown Precise Plan, including the Franklin Street restoration, in the CIP budget (CIP 539-6559). From this budget, \$90,000 was spent on a non-refundable deposit for an option on the acquisition of the Franklin Street Right-of-Way easement.

The Consultant's proposal for the scope of work requested by the City has a cost of \$452,371. Additionally, the Consultant's proposed optional tasks total \$125,975. The combined total cost of the Consultant's services is \$578,346. Currently the available budget amounts to \$310,000. Therefore, staff is requesting that funds in the amount of \$268,346 be allocated from the Advanced Planning Reserve to cover the total cost of the Agreement.

The budget amendment below allocates funding from the Advanced Planning Reserve account to the Downtown Master Plan Capital Project in the amount of \$268,346.

**Budget Amendment
FY 2019/20**

	Current	Increase/ (Decrease)	Revised
<u>General Fund</u>			
<u>Reserve</u>			
Advanced Planning	\$368,749	(\$268,346)	\$100,403
<u>Transfers Out</u>			
Transfer to the General Government Capital Fund	\$933,535	\$268,346	\$1,201,881
<u>General Government Capital Fund</u>			
<u>Transfers In</u>			
Transfer from the General Fund	\$933,535	\$268,346	\$1,201,881
<u>Expenditures</u>			
Downtown Master Plan Project	\$310,000	\$268,346	\$578,346

COORDINATION

This report has been coordinated with the Finance Department and the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Authorize the City Manager to execute an agreement with Wallace Roberts & Todd, LLC to provide Downtown Precise Plan Consultant Services for an initial three-year term ending September 30, 2022, for a maximum compensation not to exceed \$578,346, subject to the annual appropriation of funds;
2. Approve the related budget amendment recognizing appropriations of an additional \$268,346 in FY 2019/20 in the Downtown Master Plan Capital Improvement Project for the development of a Downtown Precise Plan funded by the General Fund Advanced Planning Reserve; and

3. Authorize the City Manager to execute an amendment to extend the Agreement for an additional three-year period ending September 30, 2025 and increase maximum compensation in the event that additional services are required, subject to the annual appropriation of funds.

ATTACHMENTS

1. Agreement with Wallace Roberts & Todd, LLC

**AMENDMENT NO. 1
TO THE AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
WALLACE ROBERTS & TODD, LLC**

PREAMBLE

This agreement ("Amendment No. 1") is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and Wallace Roberts & Todd, LLC, a Delaware Corporation (Consultant). City and Consultant may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

- A. The Parties previously entered into an agreement entitled "Agreement for Services Between the City of Santa Clara, California, and Wallace, Roberts & Todd, LLC," dated October 17, 2019 (Agreement); and
- B. The Parties entered into the Agreement for the purpose of having Consultant prepare a Downtown Precise Plan, and the Parties now wish to amend the Agreement to expand the scope of services and corresponding maximum compensation.

NOW, THEREFORE, the Parties agree as follows:

AMENDMENT TERMS AND CONDITIONS

- 1. Section 6 of the Agreement, entitled "Compensation and Payment," is amended to reflect a revised maximum compensation value of eight hundred seventy-eight thousand, three hundred forty-six dollars (\$878,346).
- 2. Exhibit A of the Agreement, entitled "Scope of Services," is updated by appending the attached "Addendum to Scope of Services" to add new tasks to the original scope.
- 3. Exhibit B of the Agreement, entitled "Schedule of Fees," is amended to reflect a revised maximum compensation value of eight hundred seventy-eight thousand, three hundred forty-six dollars (\$878,346).
- 4. Except as set forth herein, all other terms and conditions of the Agreement shall remain in full force and effect. In case of a conflict in the terms of the Agreement and this Amendment No. 1, the provisions of this Amendment No. 1 shall control.

The Parties acknowledge and accept the terms and conditions of this Amendment No. 1 as evidenced by the following signatures of their duly authorized representatives.

CITY OF SANTA CLARA, CALIFORNIA
a chartered California municipal corporation

Addendum to Scope of Services

The following tasks are to be included as additional services. A detailed description of these tasks is included in the attached proposal, entitled "DCTF Requested Additional Services" dated May 10, 2021, as presented to the City Council in RTC 21-667 on May 25, 2021.

Task	Fee	Timing
1 Form-based Zoning Code	\$118,600	7 months
2 Precise Plan Financing Analysis	\$103,700	4 to 6 months
3 Downtown Management Entity	\$21,000	2 months
4 Project Design Review	\$3,900	Ongoing
5 Additional DCTF Meetings	\$4,400	Ongoing
Total:	\$251,600	7 months

An additional \$48,400 is being included in the contractual maximum compensation as a contingency to cover any unforeseen added Downtown community Task Force (DCTF) meetings, community outreach, or additional analysis. Use of this contingency shall be approved in writing by the City of Santa Clara's project manager prior to commencement of work.

In no event shall the maximum compensation under this contract for any and all services exceed eight hundred seventy-eight thousand, three hundred forty-six dollars (\$878,346), subject to annual budget appropriations.

MEMORANDUM

To: Lesley Xavier
Principal Planner, City of Santa Clara
Via email

Date: May 10, 2021
From: Peter Winch
Project Manager, WRT
Ref. No.: 08334.01
Project: Santa Clara Downtown Precise Plan
Re: DCTF-Requested Additional Services

CC: Jim Stickley
Principal, WRT

Dear Lesley,

The Downtown planning process has reached an exciting stage where the shape of the future downtown is coming into focus and excitement is building to create something that is a true reflection of this unique community. The Task Force and City are showing leadership in starting to think pro-actively about the next steps towards implementation and making sure that those steps lead to the best possible outcomes for a successful downtown.

At DCTF direction, the Consultant team described ten potential tasks that could augment and strengthen the Precise Plan. The Task Force considered these options, and decided to recommend five of these for additional City funding. On April 6, City Council asked for the Task Force and Staff to return with more a more detailed proposal for these scope items:

- Form-based Code
- Sign Ordinance for Downtown
- Area Development Impact Fee Program
- Project Design Review (1-2)
- Additional DCTF Meeting (1-2)

Subsequently, DCTF also requested that an additional task, "Downtown Management Entity," be included.

These additional services are presented here; the form-based code and sign ordinance are presented as one combined effort. The total Consultant fee for these proposed tasks is \$251,600, including labor and reimbursable costs. The tasks are expected to be completed within a 7-month

MEMORANDUM

timeframe. We recommend these scope items can proceed as soon as funding is available, and all will benefit from occurring in tandem with the Precise Plan itself. It is not essential for outcomes of these tasks to be included in the Precise Plan. However, we do recommend that the Task Force make themselves comfortable with the level of oversight needed for tasks running concurrently, to allow the Task Force to be fully involved in each part of the process. A project schedule showing the potential alignment between existing and proposed scope items is included as an attachment.

Summary of Proposed Additional Services

<i>Task</i>	<i>Fee</i>	<i>Timing</i>
1 Form-based Zoning Code	\$118,600	7 months
2 Precise Plan Financing Analysis	\$103,700	4 to 6 months
3 Downtown Management Entity	\$21,000	2 months
4 Project Design Review	\$3,900	Ongoing
5 Additional DCTF Meetings	\$4,400	Ongoing
Total	\$251,600	7 months

VFS.

MEMORANDUM

Santa Clara Downtown Precise Plan Potential Additional Services, May 10, 2021

1. FORM-BASED ZONING CODE

David Sargent Town Planning (DSTP) and WRT will collaborate with the Downtown Community Task Force (DCTF) and the City in preparing a form-based development code for the Plan area. Such a code could be adopted as part of the Precise Plan document, or could be adopted as new form-based zones that are integrated into the City's municipal code.

One advantage of adopting the standards as new form-based zones is that if one or more of the zones proved useful in other parts of town – for instance in some segments of El Camino Real – that zone could simply be applied to that area with a zoning map amendment.

We attach for reference the most recent Code we have prepared, for a plan in Claremont that has many characteristics in common with the SCDPP area. The area is around 20 acres and the Plan seeks to make “more downtown” on a more or less vacant site that is adjacent to low-density residential neighborhoods. The Code we propose to make for Santa Clara would be similar to this code in many ways, but of course customized as necessary to implement the intentions of the SCDPP, and integrated with Santa Clara's policy and regulatory framework.

The document will be prepared using Adobe InDesign and delivered in PDF format. We strongly recommend that the Code be published online as a PDF and not disassembled to be hosted on an online publishing platform (like Municode or Code Publishing). We have a lot of experience with this, and unless these services have made significant advancements in their technology in the past year, the way they organize codes as running text and occasional pictures renders a form-based code nearly unusable. The state of the art is still simply having a link wherever the municipal code is hosted that connects to a web server (likely the City's website) where the PDF is viewable and downloadable as a competently formatted document.

The DSTP/WRT Team (“the Team”) proposes to organize this work into the following tasks:

Task 1.1: Project Initiation and Scope Confirmation

JS.

MEMORANDUM

1.1a - Kick-off Meeting: To initiate this phase of work, the Team will meet with City staff to confirm major tasks and deliverables, discuss overall schedule, establish communication protocols between DSTP, WRT, City Staff and the DCTF, and discuss/confirm any other relevant administrative protocols needed to progress this work efficiently.

1.1b - Vision Confirmation: The Team will work collaboratively with the DCTF and City staff to refine and confirm the vision for the SCDPP Area (Plan Area); as it relates to street types, public space types, building massing schemes, frontage types, and parking configurations. We are confident that this effort can be integrated seamlessly into the ongoing Precise Plan work. We believe that the rigor and organized decision making required to build the framework for such a Code will be very helpful clarifying the range of possibilities for each block, street, and open space in terms of the height, use, massing, and frontage character of new development.

As shown in the proposed budget (attached), the Team anticipates that Task 1 would occur in three iterations, including calls with City staff and then meetings with the DCTF at the end of each iteration. It will be very important to reach consensus with the DCTF at this stage, confirming the vision and agreeing upon regulatory parameters and typologies. We also suggest that the Committee's role in subsequent tasks/stages of Code preparation be diminishing from task to task, as the work from here forward shifts from the general vision to the making of a rather technical document to communicate that vision and those intentions to design professionals and ensure its realization.

We strongly recommend that this task commence as soon as practical, and run concurrently with the confirmation of the Vision and Plan in the Precise Plan.

1.1c - Code Format/Technique Confirmation: Concurrently with Task 1.2, and based on our other recent code work, DSTP will prepare style sheets and a Code outline for review by WRT and City staff. DSTP will conduct meetings with WRT and City staff. Topics addressed will include the structure, content and format of the Code, the schedule for coordination with the Plan and EIR, and the method by which it would be adopted.

DSTP often also prepares Design Guidelines that are coordinated and integrated with but distinct from the Code, addressing topics that are better addressed with parameters and clear intentions rather than hard numerical standards. Decisions regarding which topics would be so addressed, and

UFS.

MEMORANDUM

in what degree of detail will be important in this task. This should be presented to the DCTF only at a high level, not in detail for their input. Keeping the standard/guideline distinction clear is also helpful in meeting new State requirements for Objective Design Standards.

As the DCTF has shown interest in a Sign Ordinance for Downtown, we propose that such standards and guidelines be included in the Code, as is our standard practice (see the attached Claremont Code). Rather than incorporating sign standards and guidelines for Downtown into the City's existing sign ordinance, we recommend that succinct language be added to the existing ordinance which states that the Downtown Code supersedes any City-wide standards for properties within the Downtown Plan Area.

We strongly recommend that Task 1.1 – and also Task 1.2 if possible – be completed prior to, or concurrently with, the finalization of the Project Description for the EIR, for reasons described in the Rationale for Concurrent Plan and Code Preparation section below.

1.1d - Scope Confirmation / Adjustments: Based on direction confirmed in Tasks 1.1b and 1.1c, DSTP, WRT and City Staff would agree upon any necessary adjustments to the overall scope, schedule, and budget, which would be finalized (as/if needed) by an amendment to this proposed scope and fee.

Task 1.2: Code Preparation & Adoption

1.2a - Administrative Draft Code Preparation: Based on the confirmed vision and form parameters from Task 1, and decisions regarding code structure and format and method of adoption in Task 1.1, DSTP will prepare a first administrative Draft Code. DSTP will be in close touch with WRT and City staff as we prepare and calibrate the Draft Code, and will submit it to WRT and City staff concurrently. DSTP will make revisions as requested by WRT and the City based on their review. The Draft Code can also be presented to the DCTF, but we recommend they not be asked to provide detailed comments on the techniques of the Code.

After City staff have had the chance to review the Draft Code in detail, we recommend a working session of 2 or 3 hours in which we can engage a number of staff to review the process by which projects will be evaluated in relation to the Code.

VKS.

MEMORANDUM

At a time agreed upon with City staff, WRT and the DCTF, STP will prepare for and help to lead a community workshop in which the intent, structure and standards of the Draft Code will be presented for questions and comments and community input. The PowerPoint presentation prepared for this workshop will weave together the community vision and preferred alternative as documented in the ongoing Precise Plan process, and focus on how the Code will help to ensure that new private development and public realm improvements are well-coordinated, designed and calibrated to deliver that vision, one project at a time.

We suggest that this Workshop might also be, perhaps, a Planning Commission Study Session, perhaps jointly with the DCTF and/or City Council rather than simply a community workshop. Such sessions can be more effective if chaired by the Mayor or Planning Commission Chair rather than led only by City staff and consultants. STP attendance at the workshop is expected to be virtual rather than in-person.

1.2b - Public Review Draft Code Preparation: Based on the comments received from WRT and City staff, DSTP will refine and complete the Draft Code, so that it may be available for public review concurrently with the Precise Plan and EIR. We will deliver a "Screencheck Draft" to WRT and City staff and make minor refinements or corrections prior to its release for public review.

If requested, the Team will participate in a Planning Commission workshop or joint Commission/Council study session to present the Code and answer questions. DSTP will then make a final round of refinements to the Code based on public and decision-maker input and City staff direction.

At a time agreed upon with City staff, WRT and the DCTF, STP will prepare for and help to lead a community workshop in which the Public Review Draft Code will be presented for questions and comments and community input. We suggest that a joint study session of the City Council and Planning Commission could be a good format for this Workshop. STP attendance at the workshop is expected to be virtual rather than in-person.

1.2c - Code Adoption: The Team will participate in one Planning Commission and one City Council hearing to assist City staff in presenting the Plan and Code. DSTP will make final minor revisions to the Code in response to comments and deliver the final document in PDF format – a high-resolution file for double-sided color printing and a hyperlinked web-ready file of the spreads.

UFS.

MEMORANDUM

If the City determines to adopt the new zones (we anticipate one to three zones, depending on decisions reached in Task 2) within the Santa Clara Municipal Code (SCMC) it is likely that some City staff time will be required to complete the integration of procedures and general standards with other section of the SCMC.

Potential Reimbursable Expenses

Due to the uncertainty of travel during this time, we assume that attendance at meetings and workshops will be virtual rather than in-person. As/if travel protocols change during the course of this work, and physical attendance is requested, we provide an estimated cost-per-trip (for travel and lodging) which are not included in the base budget.

Proposed Professional Fees

We propose to provide the services outlined above on a time and materials basis, per the estimates shown on the attached spreadsheet. We will not exceed those fees without providing the City with advance notice in writing of the potential for additional time and fees, and an explanation of the reasons such appear likely. The time required for preparation of the Code is quite predictable based on our extensive experience, but the time required for meetings with City staff, the DCTF and others is much less predictable. And it has been our observation to date that the ratio of meeting time to plan preparation in this situation is quite high. Our fee proposal is intended as a "realistic/efficient" process projection, not a "worst case" estimate.

More could be provided if necessary and public health conditions permitting, at an additional cost. We will bill such expenses at our actual cost with no administrative markup.

Rationale for Concurrent Plan and Code Preparation

DSTP strongly recommends that the Code be prepared concurrently with the completion of the Plan. To do otherwise, based on many years of experience in this area, would be at the least to miss an opportunity, and could also add significantly to the time and cost while significantly reducing the quality of the documents and confusing City staff, DCTF, and the public.

ufs.

MEMORANDUM

Listed below are the top few advantages of preparing the Plan and Code concurrently, iteratively, and collaboratively.

Support the Precise Plan Completion: The process of breaking down the "vision" that we have been sneaking up on for so long into a system (a.k.a., Plan and Code) could be greatly helped by helping the City and DCTF in thinking of the Plan as a "kit of parts" from which the once and future downtown should be made. And those "parts" are of course typological – building/massing types, street types, frontage types, use types, parking configurations, etc. – not "predesigned buildings." That is what making a code is all about. We always describe the process as "reverse engineering the vision into a kit of parts, and a process for assembling them into a place." That is what needs to be done, now, even just to finish clarifying the vision for the Plan, and might as well also be used to establish the Code also.

Support Predictability and Cohesion: The process of making a code compels all parties to consider the options, and to make choices that rule certain things in, rule certain things out, and clarify the range of potential outcomes within which they'd be happy, and outside of which they would not be. Most general and many specific plans in California have for far too long stopped at the fuzzy "vision" level, which then leaves it up to each person's own imagination what those nice words might mean – "neighborhood scale", "sustainable", "high quality design", etc. (Except for the things that can be easily quantified, like building height, setbacks, FAR, DUA, see below.) So then in some later discretionary review process, whoever happens to be the director or on the Planning Commission or City Council makes decisions based on what those words mean to them at that time in that context. The result is a very unpredictable process that discourages highly qualified developers, adds time and cost to the process, and yields inconsistent results, such that two buildings which were each deemed "ok, let's approve it" next door to one another just look odd next to one another.

Avoid "Planning Fatigue": The precise plan process has been underway for a long time already. If it were brought to a conclusion without the Code, the process of gaining consensus on the Code would seem to most like déjà vu all over again. All the same topics would be re-covered, bringing up all the same concerns, requiring all the same decisions to be made, and leading to a lot more DCTF meetings rehashing the same things and perhaps second-guessing some, leading to amendments to the new Plan.

JKS

MEMORANDUM

Avoid Conflicting Metrics/Environmental Analyses: As I mentioned to Jim – and to Manuel and Andrew as well when they wanted to speak with me – regulation by building form is not the same thing as regulating by FAR and DUA. And as is so clear from all the DCTF discussions to date, what the committee is most concerned about – and appropriately so – is the form and character of the blocks, buildings, and streets. The form-based code is a tool that operates directly on what they care about the most. FAR and DUA are very useful metrics at the general plan level, or even at a large specific plan level for CEQA analysis. But at the scale of the building and the block they are worse than useless. For instance:

- A 4 and 5-story mixed-use project on a 2-acre site (a 300 x 300 foot block) might yield 150,000 gross square feet of habitable building area. That would be an FAR of about 1.7.
- If the ground floor (which would be smaller in usable area than upper floors due to parking) were 15,000. S.f., the non-residential FAR would be 0.10. And if the remaining 135,000 s.f. were housing, and the average gross square feet per dwelling were 1,000 s.f. parked at 1.75 spaces per unit that would be 135 units with 236 parking spaces and 67.5 DUA.
- If the exact same building and parking were organized with smaller units at 700 g.s.f. per unit, that would be 193 units parked at a ratio of 1.22 spaces per unit, and 96.5 DUA.
- It would be reasonable to anticipate that the number of residents in the smaller unit scenario would be about the same in both cases, with the same number of cars. And very likely LESS traffic generated, as the smaller units with less parking per unit would tend to attract a demographic more interested in using transit and active transportation and enjoying a pedestrian-oriented urban lifestyle.
- In our plans and codes we do NOT regulate by DUA. The EIR project descriptions are based on well-reasoned assumptions regarding average DUA and numbers of units. The Plans sometimes stipulate a cap on total units in the district – which if exceeded at some point might require further CEQA review – but the standards do not regulate by DUA per building or per block. They regulate by building size, scale, massing, form, use, and frontage, which is what we've been discussing with the DCTF for so long.
- The specific intention of a Plan for a downtown is to "pack as much development as possible into a compact area without making a mess." Whereas all the plans they have made for decades intend to spread development out to avoid localized "congestion", under the suburban/CEQA assumption that "the solution to pollution is dilution".

JFS.

MEMORANDUM

Regulation by DUA is very good at that, and that is what has sprawled cities out over the region and is killing the planet.

Of course, we know that you understand these metrics and principles as well as or better than we do, and we're focusing here on the linkage between these metrics as they may be present in the Plan and the EIR, and the development standards. Our concern is that if the Precise Plan and EIR were completed ahead of the Code work – regulating "density" by DUA as most suburban cities do – and then we came in suggesting that it be regulated by building mass and volume, it could cause great concern and consume large amounts of time and political capital. And might very well require amending the EIR or arbitrarily limiting DUA, as many people would assume such a change was to let developers "get away with something." If fact, if you limit DUA, what you get is large units, which may or may not foster the housing catering to urbanites who want to use transit and local businesses more and drive less.

Meetings

- Kick-off meeting
- Meetings with DCTF (up to 3)
- Staff working session on Admin Draft Form-based Code
- Planning Commission workshop or joint Planning Commission/City Council study session
- Check-in calls with Staff as needed

All meetings are assumed to take place remotely.

Deliverables:

- Admin Draft Form-based Code
- Screencheck Draft
- Public Review Draft
- Final Form-based Code

Cost: \$118,600

MEMORANDUM

Timeframe: Approximately 7 months

2. PRECISE PLAN FINANCING ANALYSIS

This task will provide the analytic basis for identifying the appropriate financing strategy and implementation tools for the Precise Plan. The key subtasks are described below.

Task 2.1 Infrastructure Needs Analysis

The WRT team will identify the backbone utility and transportation infrastructure plan to accommodate buildout of the Plan Area and associated costs. The analysis will also determine the nexus between infrastructure improvements and planned development in the event that infrastructure improvements address an existing deficiency or new demand from growth outside the plan area. The work will build off the infrastructure program developed in the Precise Plan and will introduce new, more detailed infrastructure needs and cost analysis. The WRT team will interview Public Works and Utility Agency representatives as needed to verify planned capital improvement projects that will be necessary to support development in the plan area.¹

The first step in this task, to be led by WRT, will be to refine the development plan to establish land use mix and density for each block in the Precise Plan area. This may require setting a low and high range by use type to account for land use flexibility. This will serve as the basis for establishing transportation and utility demands. WRT will also refine the conceptual design of planned streets to a level that will allow reasonable cost estimation.

To establish transportation needs, Kimley-Horn will:

- (1) Identify roadway and traffic improvements necessary for the site based on the recommendations of the Precise Plan
- (2) Prepare a cost estimate for each roadway improvement. This will include:

¹ The budget estimate assumes regional utility studies and modeling, utility design, surveying, and plan production are not included in this scope.

JS.

MEMORANDUM

- Estimating the number of AM peak hour, PM peak hour, and daily trips to be generated by the proposed project. A trip distribution and trip assignment for the use will be estimated based on information provided by the City, historical traffic counts in the area.
 - Determining the background volume at intersections and for roadway segments being improved.
- (3) Develop Fair Share calculations for each improvement project identified. This will include:
- Calculating the fair share proportion for the project based on the number of daily vehicle trips that utilize the future intersection. This will be calculated based on the approach specified by the City in their Impact Fee Nexus Study – Fair share % = project trips/(background + project trips).
 - Determining the fair share cost estimate using the fair share percentage by the total project cost.
- (4) Prepare a technical memorandum for preliminary review. The draft memorandum will include text, charts, and figures describing our process, assumptions, and results. The memorandum will specifically detail impacts directly connected with project traffic and recommended improvements, if needed. Based on comments received on the draft memorandum, the memorandum will be revised and a final traffic memorandum will be prepared and submitted.

To establish utility infrastructure needs, CSW/ST2 will:

- (1) Re-engage the City staff to confirm the infrastructure needs beyond the development area. This could require running of computer models related to water and sewer service, which are often managed by third parties.
- (2) Support WRT in developing 10% plans for the public streets which will reflect above and below-ground infrastructure necessary to support the development.
- (3) Based on the plans and improvements required outside the plan area, update the cost analysis.

The task will result in a memo defining projected development by land use type and by block and establishing transportation and infrastructure needs.

JFS

MEMORANDUM

Task 2.2: Analysis of Financing Options and Strategy

EPS will identify and evaluate a variety of funding and financing mechanisms that would be appropriate to fund the required improvement costs and/or defray up-front or advance-funding costs associated with these facilities. EPS will consider currently available sources of funding for capital improvements, though these existing mechanisms are not expected to cover the unique costs of planned downtown improvements. Accordingly, EPS will consider a variety of other Project-specific financing mechanisms that may include the following options:

- Area-specific development impact fees (and related reimbursement agreements).
- Special assessments and taxes (e.g., Mello-Roos Community Facilities Districts).
- Private contributions and exactions.
- Tax increment financing mechanisms (e.g., Enhanced Infrastructure Finance District or Community Revitalization and Investment Authority).

EPS, with the assistance of the WRT team and the City, will select financing mechanisms and strategies for the Precise Plan that are based on financing principles; statutory and legal considerations; and industry standards regarding who typically pays for what, the timing of public improvements relative to private development, commitments regarding the availability of public-sector funding, and other relevant factors.

EPS will prepare a financing strategy that describes the implementation steps required to use existing and to create new proposed financing mechanisms. The financing strategy will specify the financial responsibilities of the public and private participants in implementation of the Plan. The financing strategy will be circulated to City staff and Project participants to ensure their understanding and to obtain their comments and suggestions. EPS will also prepare a Financing Strategy memorandum incorporating one round of consolidated City comments.

This task will culminate in a financing plan that describes the various financial resources and tools needed to pay for infrastructure and amenities. Note that the specific elements of the Financing Plan cannot be known with certainty at this time, but this proposal anticipates that an Area Development Impact Fee is a likely outcome.

Task 2.3: Area Impact Fee Program (Optional, included as Contingency)

JFS.

MEMORANDUM

EPS will prepare the technical documentation necessary for approval of an area development impact fee to cover the "fair share" cost of new infrastructure and public improvements serving the Specific Plan. The "Nexus Report" will be prepared consistent with AB 1600 and related requirements.

EPS will develop a preliminary fee schedule based on the total costs attributable to the Downtown Precise Plan program, based on the cost estimates and cost allocations described above. EPS will net out other likely potential funding sources and include a fee program administrative charges, as appropriate. The fees will be derived by dividing the capital facility costs by the projected development in each land use category. EPS will summarize the fees by improvement type and land use for the City's review. Based on comments received and EPS will finalize the fee schedule for inclusion in the Nexus Report.

EPS will take primary responsibility for preparing the Development Impact Fee Nexus Report that will document the study assumptions and methodology and establish the required nexus findings consistent with AB 1600 and reporting requirements of Government Code 66000 et. seq. EPS will first provide an administrative draft for review by City staff. Based on one round of comments, EPS will then prepare a Public Review Draft for broader release. Again, based on one round of consolidated public comments and direction from City staff, EPS will prepare a Final Report for presentation to the City Council for approval.

The budget includes representation and participation, as needed, from appropriate EPS team members at two public meetings or presentations, including at City Council approval. Additional meetings and/or report iterations beyond those described herein may require a budget amendment. The proposed budget does not include multiple iterations of the fee analysis or EPS participation in any landowner meetings or negotiation sessions that may be required.

Meetings:

- Up to two meetings with key project stakeholders, including property owners and/or City staff. The goal of these meetings will be to vet the financing strategy and assumptions.

JKS

MEMORANDUM

Deliverables:

- Development Program and Infrastructure Needs Memorandum
- Financing Plan (Draft)
- Financing Plan (Final)

The specific elements of the Financing Plan cannot be known with certainty at this time, but this proposal anticipates that an Area Development Impact Fee is a likely outcome.

Optional Deliverables:

- Development Impact Fee Nexus Report (Admin Draft, Public Review Draft, Final)

Cost: \$103,700, including \$33,600 contingency for Area Development Impact Fee Nexus Study

Timeframe: 4-6 months.

3. DOWNTOWN MANAGEMENT ENTITY

WRT, with support from MJB Consulting and Greensfelder Real Estate Consulting (GRES), will define the role of a management entity to help achieve success for Downtown. The entity's roles may include curating retail, programming public spaces, and marketing. Defining the right approach will include the following subtasks.

Task 3.1 Stakeholder Interviews and DCTF Meeting

The Team will interview key stakeholders to better understand the capacities, resources, mandates and political dynamics of each, to determine how the new entity would best fit. We will draw on existing findings about market and real estate dynamics.

Task 3.2 Analysis and Recommendations

The Team will craft the foundation for a regulatory rubric with the goal of seeing a diverse array of desired uses (by NAICS code) and desired mix of independent, regional, and national occupiers. The

UFS.

MEMORANDUM

foundation will outline plusses and minuses of suggested approaches, define the Downtown Management Entity and its roles, and discuss implementation process and procedures. Recommendations will also include identification of partners and best practices in event management and marketing.

Task 3.3 Incorporation into Precise Plan

The analysis and recommendations will be incorporated into the Implementation chapter of the Santa Clara Downtown Precise Plan.

Meetings:

- The Team will present findings at one meeting of the DCTF.

Deliverables:

- Stakeholder interviews (remote)
- Presentation to DCTF (remote)
- Memo: Defining the role of a Downtown management entity

Cost: \$21,000

Timeframe: Approximately 2 months

4. PROJECT DESIGN REVIEW

DSTP, supported by WRT, can review current development projects within the Plan Area to help Staff evaluate design consistency with the Plan vision and to make recommendations.

Meetings:

- One meeting with Staff

MEMORANDUM

Deliverables:

- Design review memo

Cost: \$3,900 per project submittal

Timeframe: Ongoing

5. ADDITIONAL DCTF MEETINGS

The Santa Clara Downtown Precise Plan schedule currently has five remaining Task Force meetings, of which the WRT Team is scoped to attend and present at one. WRT and DSTP could be available to facilitate additional meetings of the Task Force, helping to retain a strong link between Task Force discussion and Plan outcomes.

Note: where Task Force meetings are anticipated as part of additional scope items above, they are covered within that task.

Meetings:

- Meeting presentation and attendance (WRT, DSTP)

Deliverables:

- Presentation materials

Cost: \$4,400 per meeting, assuming meeting is virtual and does not require travel or production.

Timeframe: Ongoing

WORK PLAN AND ENGAGEMENT STRATEGY (AMENDED MAY 2021 WITH ADDITIONAL SERVICES)

5/15

Agenda Report

21-667

Agenda Date: 5/25/2021

REPORT TO COUNCIL

SUBJECT

Authorize the City Manager to execute an Amendment to the Agreement with Wallace Roberts & Todd, LLC for Downtown Precise Plan Consultant Services pending funding proposed as part of the FY 2021/22 and FY 2022/23 Proposed Operating Budget

COUNCIL PILLAR

Promote and Enhance Economic, Housing and Transportation Development

BACKGROUND

The City of Santa Clara's 2010-2035 General Plan identifies focus areas throughout the City, including the Downtown area, to promote the City's diverse economic base and meet the demand for housing that addresses job growth in the City and region.

In response to the Community's goal of revitalizing the City's historic Downtown area, the City Council approved \$400,000 in the FY 2018/19 and FY 2019/20 Adopted Biennial Capital Improvement Program Budget to support the preparation of a Precise Plan. From this budget, \$90,000 was spent on a non-refundable deposit for an option on the acquisition of the Franklin Street Right-of-Way easement. Working closely with a community Task Force, including organizations such as Reclaiming Our Downtown and the Old Quad Resident's Association, the City commenced preparation of the Precise Plan that will provide guidance for new development within the Downtown area through policies, guidelines, and illustrations that implement the community vision and objectives for a vibrant, pedestrian-oriented destination. As part of this effort, the City engaged a consultant to assist in the preparation of the Precise Plan.

In February 2019, the City issued a Request for Qualifications (RFQ) for Downtown Precise Plan Consultant Services, using the City's e-procurement system. On October 8, 2019, the City Council authorized the City Manager to execute an agreement with Wallace Roberts & Todd, LLC (WRT) to provide Downtown Precise Plan Consultant Services for an initial three-year term ending September 30, 2022 (with an option to extend the Agreement for an additional three-year term through September 30, 2025), for a maximum compensation not to exceed \$578,346, subject to the annual appropriation of funds. As part of Council action, additional funding of \$268,346 was also approved to fully fund the agreement.

The agreement is fixed price with payments tied to the successful completion of the milestones listed in the table below. The cost elements include the tasks from the scope of work that were identified in the RFQ, as well as the optional tasks identified by the Consultant in their RFQ response.

COST ELEMENTS:	
Project Initiation	\$67,025
Issue Identification and Vision	\$58,270
Financial Analysis	\$31,260
Development Scenarios/Conceptual Plans	\$74,740
Workshops	\$22,121
Draft Precise Plan Chapter Development	\$68,380
Public Services and Implementation	\$10,520
Draft Precise Plan Refinement	\$12,880
CEQA Clearance	\$72,880
Planning Commission & City Council Public Hearings	\$20,000
Reimbursable Expenses	\$14,295
Services Subtotal	\$452,371
Optional Services (<i>Consultant Team Charette; Phase 1 Environmental Assessment; Environmental Impact Report; Stakeholder, Developer, and DCTF Added Meetings; Financial Feasibility of Land Use Options; Context Study; Financial Memo Addendum to Existing Conditions Report</i>)	\$125,975
GRAND TOTAL	\$578,346

Work to date has focused on preparation of the Precise Plan's preferred land use plan placemaking and urban design. Upcoming key tasks in the Precise Plan process include developing the draft chapters of the Precise Plan and preparation of the environmental clearance for the Precise Plan.

DISCUSSION

The Downtown Community Task Force (DCTF) was approved by the City Council, and is an advisory, non-voting body that meets over the course of the Downtown Precise Plan planning process to provide input on the vision, land use, circulation, and urban design aspects of the Plan, as well as key policy issues. The DCTF has met 17 times since the start of the planning process in December 2018.

At the April 6, 2021 City Council meeting, the Chair and Vice Chair of the DCTF provided an update on the progress of the Precise Plan Work to date and requested that Council seek an amendment to the Consultant scope of work for the Precise Plan to add services. The DCTF has been pro-actively contemplating the next steps towards implementation of the Precise Plan with the goal of making sure that those steps lead to the best possible outcomes for a successful downtown. As the DCTF looks towards implementation, they requested the following services be added to the scope of work for the Precise Plan. The Consultant has provided a description and scope for each of these tasks in the attached "DCTF-Requested Additional Services Memorandum".

- Form-Based Zoning Code - prepare a form-based zoning code for the Plan area to be adopted as a part of the City's Municipal Code.
- Downtown Sign Ordinance - prepare a sign ordinance to be adopted as a part of the City's Municipal Code to establish the criteria for future developers and tenants to develop and implement exterior building signage.
- Development Impact Fee - prepare the technical documentation necessary for approval of an area development impact fee to cover the "fair share" cost of new infrastructure and public improvements serving the Precise Plan area.
- Downtown Management Entity - Define the role of a Downtown management entity including its role, among other things, programming/curating uses.
- Additional Downtown Community Task Force (DCTF) meetings with the Consultant Team - Facilitate two additional meetings of the Task Force, helping to retain a strong link between Task Force discussion and Plan outcomes. The consultant would also support the review of any current development projects within the Plan Area to evaluate design consistency with the Plan vision and to make recommendations.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

FISCAL IMPACT

Funding for the existing agreement with Wallace Roberts & Todd, LLC for Downtown Precise Plan in the amount of \$578,346 was previously budgeted in the Downtown Master Plan project (#6559) in the General Government Capital Fund. These funds have been spent or encumbered for this project.

An amendment to the agreement is requested to provide additional services as discussed above. Funding of \$300,000 is requested to cover the additional services estimated at \$251,600 as well as contingency funds that would cover any unforeseen added DCTF meetings, community outreach, or additional analysis. The FY 2021/22 and FY 2022/23 Proposed Operating Budget includes a FY 2021/22 capital project amendment to add funding of \$300,000 for this additional work from the General Fund Capital Projects Reserve to cover the total cost of the amendment to the Agreement. The Proposed Budget scheduled for adoption on June 22, 2021.

COORDINATION

This report has been coordinated with the Finance Department and the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a

Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>>

RECOMMENDATION

1. Authorize the City Manager to execute and amend the agreement with Wallace Roberts & Todd, LLC to provide added Downtown Precise Plan Consultant Services, subject to modifications as agreed to by the City Manager in coordination with the City Attorney; increase the maximum compensation not to exceed amount by \$300,000 (from \$578,346 to \$878,346), subject to the annual appropriation of funds; and
2. Authorize the City Manager to execute an amendment to increase maximum compensation in the event that additional services are required, subject to the annual appropriation of funds.

**AMENDMENT NO. 2
TO THE AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
WALLACE ROBERTS & TODD, LLC**

PREAMBLE

This agreement ("Amendment No. 2") is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and Wallace Roberts & Todd, LLC, a Delaware Corporation (Consultant). City and Consultant may be referred to (Contractor). City and Consultant may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

- A. The Parties previously entered into an agreement entitled "Agreement for Services Between the City of Santa Clara, California, and Wallace, Roberts & Todd, LLC," dated October 17, 2019 (Agreement); and
- B. The Agreement was previously amended by Amendment No. 1, October 21, 2021, and is again amended by this Amendment No. 2. The Agreement and all previous amendments are collectively referred to herein as the "Agreement as Amended"; and
- C. The Parties entered into the Agreement as Amended for the purpose of having Contractor provide prepare a Downtown Precise Plan, and the Parties now wish to amend the Agreement to expand the scope of services and corresponding maximum compensation.

NOW, THEREFORE, the Parties agree as follows:

AMENDMENT TERMS AND CONDITIONS

- 1. Section 6 of the Agreement, entitled "Compensation and Payment," is amended to reflect a revised maximum compensation value of nine hundred seventy-eight thousand, three hundred forty-six dollars (\$978,346).
- 2. Exhibit A of the Agreement, entitled "Scope of Services," is hereby appended by the attached "Second Addendum to Scope of Services."

3. Exhibit B of the Agreement, entitled "Schedule of Fees," is amended to reflect a revised maximum compensation value of nine hundred seventy-eight thousand, three hundred forty-six dollars (\$978,346).
4. Except as set forth herein, all other terms and conditions of the Agreement as Amended shall remain in full force and effect. In case of a conflict in the terms of the Agreement as Amended and this Amendment No. 2, the provisions of this Amendment No. 2 shall control.

The Parties acknowledge and accept the terms and conditions of this Amendment No. 2 as evidenced by the following signatures of their duly authorized representatives.

Second Addendum to Scope of Services

The following tasks are now added to the Scope of Services:

Task	Fee
1 Additional DCTF meetings	\$25,480
2 Consultant Team Charette	\$25,000
3 Stakeholder Added Meetings	\$4,600
4 Financial Feasibility of Land Use Options based on iterative design process	\$15,000
5 Context Study	\$10,000
6 Financial Memo Addendum to Existing Conditions Report	\$5,000
Total:	\$85,080

An additional \$14,920 is being included in the contractual maximum compensation as a contingency to cover any unforeseen added Downtown community Task Force (DCTF) meetings, community outreach, or additional analysis. Use of this contingency shall be approved in writing by the City of Santa Clara's project manager prior to commencement of work.

In no event shall the maximum compensation under this contract for any and all services exceed nine hundred seventy-eight thousand, three hundred forty-six dollars (\$978,346), subject to annual budget appropriations.

**AMENDMENT NO. 3
TO THE AGREEMENT FOR SERVICES
BETWEEN THE
CITY OF SANTA CLARA, CALIFORNIA,
AND
WALLACE ROBERTS & TODD, LLC**

PREAMBLE

This agreement ("Amendment No. 3") is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and Wallace Roberts & Todd, LLC, a Delaware Corporation (Consultant). City and Consultant may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

RECITALS

Third Addendum to Scope of Services

The following tasks are to be included as additional services. A detailed description of these tasks is included in the attached proposal, entitled "Civic Center Relocation Study" dated September 8, 2022.

Task	Fee
1 Project Initiation and Management	\$23,090
2 Program Confirmation	\$17,030
3 Economic Assessment	\$33,470
4 Criteria and Site Comparison	\$25,970
5 Concept Development and Test-Fitting	\$81,800
6 Financial Evaluation	\$123,810
7 Additional Concept Refinement	\$23,000
8 Final Options Report	\$18,360
Expenses	\$6,830
Total:	\$353,360

In no event shall the maximum compensation under this Agreement as Amended for any and all services exceed one million three hundred thirty-one thousand, seven hundred six dollars (\$1,331,706), subject to annual budget appropriations.

MEMORANDUM

To: Lesley Xavier
Principal Planner, City of Santa
Clara
Via email

Date: September 8, 2022
From: Peter Winch
Project Manager, WRT
Ref. No.: 08334.02
Project: Civic Center Relocation Study
Re: WRT Team Proposal

CC: Jim Stickley
Principal, WRT

Dear Lesley,

The WRT Team is drafting a Downtown Precise Plan that reflects extensive analysis and community and DCTF feedback. The Task Force and City Staff have requested that WRT provide a scope of work and fee for studying how a relocated City Hall and associated office space could fit downtown, and how it could be financed. This memo responds to that request.

In this effort, WRT would be joined by **Siegel and Strain Architects**, bringing understanding of space needs for a city hall, and team members **CSW|ST2** and **TBD Consulting** with expertise in estimating civil and structural construction costs, respectively. On the economic side, **EPS**, our partner on the Downtown Precise Plan, would conduct case study analysis, while **Project Finance Advisory Ltd. (PFAL)** will provide specific expertise in public facility financing. **Runde & Partners, Inc.** joins our team to provide property appraisal services.

The total Consultant fee for these proposed tasks is \$353,030, and we anticipate a 6-month schedule. Runde & Partners has requested a \$10,000 retainer to begin work. This would need to be provided by the City.

Summary and detail fee tables and proposed schedule follow the proposed scope of work. We look forward to working with Staff and City leaders to refine this scope of work as needed.

MEMORANDUM

Santa Clara Civic Center Relocation Study: Scope and Fee

Task 1: Project Initiation and Management

The WRT Team will have a kickoff meeting with City Staff and confirm scope, schedule, and City objectives. The Team will conduct targeted background research and mapping needed to understand the existing Civic Center site and previous studies, and to establish base maps for the Relocation Study. This task also covers ongoing project management.

Meetings:

- Kick-off meeting
- Project management calls with Staff as needed

Deliverables:

- Project Schedule and Work Plan (periodically updated)
- Base Maps for Existing Civic Center and Downtown
- Base Model for Downtown (as developed for Downtown Precise Plan)

Timeframe: Approximately 6 months

Task 2: Program Confirmation

WRT, Siegel & Strain and PFAL will conduct an initial work session to review available City hall/civic center program documentation, relevant previous studies, and the Downtown Santa Clara Precise Plan and Form-based Code (drafts). The Team will confirm the desired relocation program with the City, which may include conducting stakeholder interviews.

S&S will review provided documentation related to projected civic center spatial needs and document a high-level spatial program organized by department according to data provided.

PFAL will review the architect's high-level spatial program.

Note: Required effort will be dependent on available documentation and expectation level.

Meetings:

- Meeting with City Staff (1)

MEMORANDUM

- Team meetings as needed

Deliverables:

- Base spatial program definition

Timeframe: 1 month

Task 3: Economic Assessment

Beginning concurrently with the program confirmation, EPS will assist with analysis of the economic impact of locating the Santa Clara City Hall in the downtown area, as follows.

Case Studies

In coordination with WRT, EPS will identify up to six examples of City Hall relocation projects across the United States to serve as case studies. The Team will seek examples (successful and otherwise) that are comparable to Santa Clara and/or the downtown site in one way or another (e.g., similar City population; site adjacency to transit, university, or historic neighborhood). We will seek case studies with a range of outcomes, including examples with more and less resulting investment. For each case study, EPS will conduct research to understand each city hall project based on City documents, hearing transcripts, media reporting, and other readily available sources. EPS will also contact each city to seek an interview with staff about the project, including benefits, challenges, and lessons learned, etc. EPS will report on outcomes, including the degree to which private investment has followed public investment.

Economic Impact Analysis

EPS will complete an illustrative economic impact analysis that considers potential localized spending effects on downtown from a new City Hall, as compared to the baseline site use (a comparably sized future office building). EPS will rely on WRT to identify the City Hall program and alternative. The analysis will quantify employment and visitation estimates, identify likely retail spending patterns and estimated sales tax revenues, and compare likely spending across development alternatives. Given the localized nature of the analysis, EPS will focus on direct spending in the downtown.

Meetings:

- Meeting with City Staff
- DCTF Meeting (1)
- Team meetings as needed

MEMORANDUM

Deliverables:

- Presentation on case study analysis and economic impact analysis
- Memorandum on economic impact analysis of potential City hall relocation

Timeframe: 1.5 months

Task 4: Criteria and Site Comparison

WRT, Siegel & Strain, and PFAL will conduct a criteria-based process for evaluating potential Downtown sites for a relocated City Hall. Our process will consider a range of factors that relate to program, site characteristics, and finance. These factors may include:

- Land ownership and encumbrance
- Site size and dimensions; program fit
- Contribution to downtown experience
- Transit access
- Enabling of multiple benefits
- Readiness for development/simplicity
- Surplus Land Act conditions
- Available financing tools
- Partners

The team will become grounded in an understanding of the Downtown district and the Precise Plan, through material review and a site visit. In a team working session we will confirm criteria, confirm up to 3 downtown sites that merit evaluation, and make initial qualitative findings for each criterion. These will be more thoroughly detailed by each member of the team, depending on expertise, and presented in a simple format in one meeting each to City Staff and the Task Force. The outcome of this process will be the creation of a qualitative evaluation matrix followed by City Staff and Task Force confirmation of a preferred downtown site for a relocated City Hall.

Meetings:

- Meeting with City Staff
- DCTF Meeting (1)
- Team meetings as needed

Deliverables:

- Evaluation matrix with criteria
- Presentation on criteria and site comparison

MEMORANDUM

Timeframe: 1 month

Task 5: Concept Development and Test-Fitting

WRT and Siegel & Strain, with critical input from PFAL, will collaborate to develop up to three conceptual approaches to relocating city hall downtown to the preferred downtown site. Approaches are expected to be:

- Full relocation (City Hall and SVP);
- Partial relocation (City Hall only);
- Mixed-use (including private development), with full or partial relocation.

In terms of responsibilities:

- WRT will focus on urban design considerations.
- S&S will focus on organizing departments relative to one another based on overall area and adjacency requirements.
- PFAL will consider land use layout options with a view to enabling access to preferential funding and financing strategies.

WRT will also consider future land use concepts for the existing Civic Center site. This would begin at a high level, assigning site area to different land uses and recognizing potentially viable and beneficial future uses of the site.

Preliminary concepts for both sites will be shared with the larger Consultant team to understand cost, economic impact, and financing perspectives, and with City Staff for review and discussion.

Based on feedback, Siegel & Strain will develop draft diagrams for each downtown relocation concept. These will be reviewed in a second work session with WRT and PFAL, which will also cover general building parameters and assumptions such as construction type, sustainability goals, and related information to inform construction cost estimates.

Siegel & Strain will modify spatial diagrams as needed, prepare a narrative summary of building block organization and building assumptions for cost estimates. For the existing civic center site, WRT will estimate development capacity based on density formulas and informed by typical building forms. This will inform the economic evaluation of potential relocation.

WRT and Siegel & Strain will prepare a presentation to review the concepts with the Downtown Community Task Force (DCTF).

MEMORANDUM

Meetings:

- Meeting with City Staff (1)
- DCTF Meeting (1)
- Team work sessions and meeting (2 or as needed)

Deliverables:

- Presentation on Downtown site and building concepts, Civic Center concepts, and opportunities and challenges for each

Timeframe: 1.5 months

Task 6: Financial Evaluation

Project Finance Advisory, Ltd. (PFAL) will perform a financial analysis to assess the concepts for relocating City Hall and offices to a revisioned downtown. This work will include:

- Reviewing the team's assessment of the cost/benefits of relocating to a downtown location and reviewing expected revenue;
- Providing input into and review of initial concepts for alternative uses of the existing City Hall site, incorporating appraisals of existing Civic Center site and potential future City Hall development site
- Considering financing and delivery options, including the possibility of a public/private partnership, property disposal, and USDOT debt
- Incorporating the cost estimates provided by the WRT Team and providing benchmarked lifecycle cost indications for a new facility for up to 3 sites
- Reviewing background information, including the example sites mentioned by the DCTF and identifying salient characteristics relevant to Santa Clara's objectives
- Participating in one meeting with the Downtown Task Force and 3 additional meetings with the advisory team and City; meeting prep and presentation content
- Draft and Final Report and Presentation
- Quality control and assurance
- Task Management, Coordination, and Administration (internal coordination calls with advisor team, client calls, invoicing, etc.)

The financial analysis will incorporate critical inputs from TBD Consulting, CSW/ST2, and Runde & Partners, as described below.

Construction Cost Estimate

MEMORANDUM

TBD Consulting will prepare a construction cost estimate for a new Civic Center based on the concepts defined in Task 4 This would include:

- One draft round of pricing + one revision round per comments and program/massing changes.
- Pricing to be order of magnitude ranges for each building containing Civic Center program.
- Excludes detail estimate backup or cost breakdowns per building system.
- Estimate to include demo and site improvements at existing Civic Center locations.
- Construction pricing to be based on prevailing wage.
- Construction phasing can be considered if applicable.
- Estimate effort can support up to 3 different massing schemes.

The estimate will identify the total cost of construction based on the quantities or allowances with composite unit rates where applicable reflecting the scope of work and the current market conditions. Pricing shall incorporate appropriate general contractor markups and escalation into cost ranges. The estimate will utilize TBD's standard Order of Magnitude format. We will not obtain any bids or opinions of cost from subcontractors unless the work is of such a unique nature that no other cost information is available. WRT and their consultants shall provide program and massing diagrams for our use. We understand that reconciliation of estimates with other cost opinions will not be required. We have also excluded time for value engineering, value analysis, other cost studies, estimating soft costs, and design & estimating 'churning' to reach a specific budget.

Siegel & Strain will field questions from estimator (to make sure his assumptions are correct) and to review a draft of the estimate.

Infrastructure Cost Estimate

CSW/ST2 will review the concepts and support the team in developing a construction cost analysis focused on civil engineering costs. Since public funds will be involved in construction, the costs will need to include prevailing wage rates. We will provide up to three estimates for the improvements.

Appraisals

The sites to be appraised include the portion of the existing Civic Center property that would be redeveloped if City Hall and related office functions were to be relocated. The appraisal would also address the fee simple market value of two to three potential relocation sites in the downtown area to be identified at a later date. These sites are to be located within the 10-square-block area between Lafayette Street, Madison Street, Benton Street, and Homestead Road. The area is in the process of a re-zoning that will intensify the

MEMORANDUM

development density in the area. Our appraisal would address the as-is value of each site at its highest and best use, once the permitted use(s) and density (FAR/height limit/dwelling unit density) have been determined. For existing public land, the requirements of the Surplus Land Act will be taken into account in determining realistic highest and best use. The intended use of this appraisal report is for assistance with a financial analysis of the costs and benefits of relocating City Hall to the downtown area. The report is to be used for planning and advisory purposes, not for financing or acquisition purposes. The intended user is Peter Winch/WRT and the City of Santa Clara and the report should not be used or relied upon by any other person or entity for any reason.

As-Needed Project Support

EPS is available to provide WRT support concerning various economic and financial aspects of the City Hall relocation study. The firm's expertise spans real estate, economic and fiscal impact analysis, public finance, and public policy practice areas. This proposal includes 40 hours EPS Principal-level time that may be used by WRT on an as-needed basis for project support.

Meetings:

- Meetings with City Staff
- DCTF Meeting (1)

Deliverables:

- Presentation on estimated costs associated with up to 3 relocation concepts, and funding options for each
- Memorandum

Timeframe: 1.5 months

Task 7: Additional Concept Refinement

Based on City and DCTF feedback, and informed by the financial analysis, WRT and Siegel & Strain will refine land use and building block concepts for Downtown and the existing Civic Center site. The refined concepts will be reviewed with City Staff, and brought to the DCTF. We anticipate one Task Force meeting that will cover both the financial analysis and the refined concepts.

Meetings:

MEMORANDUM

- Meeting with City Staff
- DCTF Meeting (1)

Deliverables:

- Presentation on refined site and building concepts, relocation recommendations, and financing strategy

Timeframe: 1 month

Task 8: Final Options Report and Council Presentation

WRT will document the final site concepts and economic analysis in a concise report, with narrative, graphics, and relevant tables. Other project deliverables may be included as appendices. Following a preparatory session with City Staff, WRT will present the final report findings to City Council.

Meetings:

- Meeting with City Staff
- City Council Meeting (1)

Deliverables:

- Final Options Report

Timeframe: 1 month

Santa Clara Downtown Precise Plan | Civic Center Relocation Study, September 8, 2022
Fee Summary

REPORT TO COUNCIL

SUBJECT

Action on Amendment No. 3 with Wallace Roberts and Todd, LLC (WRT) for the City Hall Relocation Study and Related Budget Amendment

COUNCIL PILLAR

Promote and Enhance Economic, Housing, and Transportation Development

BACKGROUND

The City is currently in the process of preparing a Precise Plan for the City's historic Downtown area. The Downtown planning area consists of the ten city blocks located between Homestead and Benton streets, west of Lafayette Street. The goal of the Precise Plan is to promote the redevelopment of the Downtown area consistent with the vision of restoring the Downtown as an active destination within Santa Clara, consistent with the character and vibrancy of an active, historic Downtown.

The Downtown Precise Plan effort formally began in 2018 with the appointment of a community member Task Force, including organizations such as Reclaiming Our Downtown and the Old Quad Resident's Association. The City conducted a Request for Qualifications (RFQ) process in 2019 and, with the input of the Task Force, selected Wallace Roberts & Todd, LLC (WRT) to provide Downtown Precise Plan consultant services. Since then, City staff and WRT have been working closely with the Task Force on the preparation of a Precise Plan that will provide guidance for new development within the Downtown area through policies, guidelines, and illustrations that implement the community vision and objectives for a vibrant, pedestrian-oriented destination.

The City's initial contract with WRT has been amended two times. Amendment No. 1 was approved by the City Council in May 2021. This first amendment to the consultant contract was to add the following services to the scope of work for the Downtown Precise Plan: 1) Form Based Zoning Code and Sign Ordinance; 2) Development Impact Fee; 3) Downtown Management Entity; and 4) additional Downtown Community Task Force Meetings. Amendment No. 2 was approved by the City Council in December 2021. The second amendment to the consultant contract added the following services to the scope of work for the Downtown Precise Plan: 1) Consultant Team Charette; 2) Added stakeholder meetings; 3) Financial Feasibility of Land Use Options analysis; 4) Financial Memo Addendum to Existing Conditions Report; 5) Context Study; and 6) Additional Downtown Community Task Force Meetings with subconsultants.

DISCUSSION

At the May 24, 2022 City Council meeting, the Council discussed contracting with the current Downtown Precise Plan Consultant, WRT, to prepare a Financial Analysis for moving City Hall to a location within the eight blocks of the Original Downtown. This agenda item was requested through a written petition submitted by resident Mary Grizzle on behalf of the members of Reclaiming our

Downtown:

At the May 24th meeting, the City Council directed staff to provide a scope of work and contract amendment with the current Downtown Precise Plan Consultant to study a City Hall relocation to downtown, including financial feasibility and strategies. In June 2022, the City Council subsequently approved the allocation of funds for the requested Study through the budget process.

Following Council direction, staff has worked with WRT to prepare a scope to study the relocation of the City Hall to the Downtown. The proposed scope is attached to this report as Attachment 2 and includes the following:

- Project Initiation
- Program Confirmation
- City Hall Economic Assessment
- Criteria and Site Comparison
- Concept Testing and Test-Fitting
- Financial Evaluation
- Concept Refinement
- Final Options Report

Staff is requesting that the City Council grant approval to the City Manager to amend the City's contract with WRT to add the attached scope. This will allow staff and WRT to proceed with preparation of the study, consistent with prior City Council discussion. The proposed cost for the study, \$353,360 includes a portion (\$28,360) that would be funded by Silicon Valley Power (SVP) to analyze multiple scenarios involving SVP office space. The remaining scope (\$325,000) is consistent with the City Council's capital improvement program (CIP) budget action at the June 21, 2022 Council meeting. This Amendment No. 3 will also utilize the three-year term extension option provided in the Original Agreement, resulting in a revised termination date of December 31, 2024.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

FISCAL IMPACT

The Consultant's proposal for the scope of work has a cost of \$353,360. As part of the FY 2022/23 and FY 2023/24 Capital Improvement Program budget adoption, funding in the amount of \$325,000 was appropriated to the Precise Plan for Downtown project for the City Hall Relocation Study. The remaining \$28,360 is available in Silicon Valley Power's Electric Yard Buildings and Grounds project budget for facility assessment of buildings occupied by SVP.

**Budget Amendment
FY 2022/23**

	Current	Increase/ (Decrease)	Revised
Electric Utility Capital Fund			
<u>Expenditure</u>			
Electric Yard Buildings and Grounds	\$2,263,136	(\$28,360)	\$2,234,776
<u>Transfer To</u>			
General Government Capital Fund	\$0	\$28,360	\$28,360
General Government Capital Fund			
<u>Transfer From</u>			
Electric Utility Capital Fund	\$0	\$28,360	\$28,360
<u>Expenditure</u>			
Precise Plan for Downtown	\$325,000	\$28,360	\$353,360

COORDINATION

This report has been coordinated with Silicon Valley Power, the Finance Department and the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Authorize the City Manager to execute Amendment No. 3 to the Agreement with Wallace Roberts and Todd, LLC (WRT) for the City Hall Relocation Study at a total cost not to exceed \$1,331,706.
2. Approve the following FY 2022/23 budget amendments:
 - a. In the General Government Capital Fund, recognize a transfer of \$28,360 from the Electric Utility Capital Fund and increase the Precise Plan for Downtown project by \$28,360 (**five affirmative Council votes**); and
 - b. In the Electric Utility Capital Fund, establish a transfer to the General Government Capital Fund in the amount of \$28,360 and reduce the Electric Yard Buildings and Grounds project by \$28,360 (**five affirmative Council votes required**).

Reviewed by: Andrew Crabtree, Director, Community Development

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Action on a Resolution Authorizing the Use of City Electric Forces at Various Locations

COUNCIL PILLAR

Deliver and Enhance High Quality Efficient Services and Infrastructure

BACKGROUND

Section 1310 of the Santa Clara City Charter, entitled Contracts on Public Works states “that every contract involving an expenditure of more than one thousand dollars (\$1,000) for the construction or improvement (excluding maintenance and repair) of public buildings, works, streets, drains, sewers, utilities, parks and playgrounds shall be let to the lowest responsible bidder.” The section further states that “the City Council may declare and determine that, in its opinion, the work in question may be performed better or more economically by the City with its own employees, and after the adoption of a resolution to this effect by at least four affirmative votes, it may proceed to have said work done in the manner stated, without further observance of the provisions of this section.”

DISCUSSION

Staff believes that the work described below is best and most efficiently performed with City forces based upon the following factors: (1) the work is limited in size and scope; (2) City forces have knowledge and training in operating and maintaining the electric system that can be leveraged to more economically perform this work; and (3) bidding out the work and contracting with a private entity would not likely result in a lower overall cost or time savings. Therefore, staff recommends that the City Council make a finding that City forces can better perform the installation of the following electric facilities and approve the use of City forces.

Estimate Number: 38703
Location: 2300 Calle de Luna
Type of Service: New Business
Description of Work: Install ±200' high voltage conductor, 6-600 A termination elbows, 30-600 A splices.
Estimated Cost: \$115,747
Appropriation: Electric Utility Capital Fund (591) Project 2005 - New Business Estimate Work
Source of Revenue: Customer/Developer Contribution

Estimate Number: 37286
Location: 2920 Scott Boulevard
Type of Service: New Business
Description of Work: Relocation of an existing padmount electrical transformer.

Estimated Cost: \$37,663
Appropriation: Electric Utility Capital Fund (591) Project 2005 - New Business Estimate Work
Source of Revenue: Customer/Developer Contribution

ENVIRONMENTAL REVIEW

Staff recommends that the City Council determine that the actions being considered are exempt from the California Environmental Quality Act ("CEQA") pursuant to the following sections of Title 14 of the California Code of Regulations: (1) section 15302(c) (Class 2 - Replacement or Reconstruction) as the proposed work involves the replacement or reconstruction of existing utility systems and/or facilities involving negligible expansion of capacity, and (2) section 15303 (Class 3 - New Construction or Conversion of Small Structures) as the proposed work involves the construction of a limited number of small electric utility facilities.

FISCAL IMPACT

The funds to support the staff time for work performed by SVP and related construction materials for the work detailed in this report, totaling \$153,410 are included in the Fiscal Year 2022/23 Capital Budget, New Business Estimate Work project in the Electric Utility Capital Fund. All referenced work will be performed with City Silicon Valley Power staff. Some work associated with encroachment permits may be performed by the Department of Public Works (DPW). DPW costs are recovered through payment of permit fees.

COORDINATION

This report has been coordinated with the Finance Department and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Determine the proposed actions are exempt from CEQA pursuant to Sections 15302 (c) and 15303 of Title 14 of the California Code of Regulations and adopt a Resolution authorizing the use of City Electric Forces for work detailed in this Report to Council located at 2300 Calle de Luna and 2920 Scott Boulevard.

1. Resolution - Use of City Electric Forces

RESOLUTION NO. _____

**A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA
AUTHORIZING THE USE OF CITY ELECTRIC FORCES
PURSUANT TO CHARTER SECTION 1310**

BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

WHEREAS, the section 1310 of the City of Santa Clara Charter requires all contracts involving an expenditure of over \$1,000 for the construction or improvement (excluding maintenance and repair) of a public works project to be let to the lowest responsible bidder;

WHEREAS, City Charter section 1310 permits the City of Santa Clara ("City" or "City of Santa Clara") to use its own employees if the City Council, by motion passed by at least four affirmative votes, determines that the public works may be done better or more economically by the City's own employees, and, upon such determination, the City may proceed to have the public works project completed without further observance of Charter section 1310;

WHEREAS, the City's Electric Department desires to perform certain public works, as set forth in the Report to Council, dated June 27, 2023, by its own employees; and,

WHEREAS, the City's Electric Department has presented evidence supporting that the work in question may be performed better or more economically by the City with its own employees.

NOW THEREFORE, BE IT FURTHER RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

1. The City Council of the City of Santa Clara does hereby declare and determine that the public works project set forth in the 23-687 Report to Council, attached hereto and incorporated by this reference, may be performed better or more economically by the City with its own employees.

REPORT TO COUNCIL

SUBJECT

Action to Adopt a Resolution to Provide Santa Clara Small Businesses Reporting 49 or Fewer Employees a One-Time Subsidy to Help Offset Costs of Modernized Business License Taxes Using Existing Silicon Valley Chamber of Commerce Settlement Funds Up to \$330,000

COUNCIL PILLAR

Promote and Enhance Economic, Housing and Transportation Development
Enhance Community Engagement and Transparency

BACKGROUND

On September 7, 2021, the City Council approved the appropriation of funds from the Silicon Valley Chamber of Commerce (Attachment 1). These funds were received as part of a settlement agreement reached between the City and the Silicon Valley Central Chamber of Commerce ("SVCCC") in June 2021. As part of the settlement the City received funds in the amount of \$330,000 for outreach and assistance to small businesses in Santa Clara.

On July 12, 2022, the City Council took formal action to submit to Santa Clara voters a Business License Tax Modernization Measure as part of the November 2022 General Election. During that discussion, staff included details of several components of the business tax intended to ensure equity and the protection of small businesses including a one-time subsidy for businesses for Santa Clara companies reporting 49 or fewer employees (Attachment 2).

On November 8, 2022, nearly 60% of Santa Clara Voters approved Measure H to update the City's Business License Tax program. The new rates will go into effect on July 1, 2023 and affect nearly 6,100 businesses in Santa Clara. Information about the revised program can be found on at <https://www.santaclaraca.gov/our-city/departments-a-f/finance/business-license-tax-2023-update>.

DISCUSSION

During the outreach process related to the proposed measure, a core value that was identified by stakeholders and the City Council was the importance of mitigating the impact on small businesses in Santa Clara.

With that in mind, staff began to explore various options on how to mitigate the impact of the new fee structure on small businesses to ease the initial transition. One solution that was identified early on was the availability of funds in the amount of \$330,000 in the settlement agreement with the Silicon Valley Chamber of Commerce that had been earmarked for the purpose of providing outreach and support to small businesses. The purpose of this report is to request authorization to allocate that funding to support a one-time credit to Santa Clara businesses reporting 49 or fewer employees. This subsidy would be applied as a credit during the 2023/24 fiscal year renewal process starting on

July 1. The recommended subsidy aligns with the outlined use of those funds for outreach and assistance to small businesses in Santa Clara.

As shown in Table 1, 5,700 of the approximately 6,100 total number of businesses in Santa Clara would be eligible to receive a one-time subsidy with an estimated cost of \$323,190. It should be noted that the number of businesses and employee counts are based on the best information at the time. The actual subsidy provided, and number of businesses, will vary based on actual counts at the time of the business license tax renewal. Eligible businesses will be required to have an office located in the City of Santa Clara and funds will be disbursed on a first come, first serve basis until the \$330,000 is exhausted.

Table 1: Estimated Tax and Proposed Subsidy by Employee Range

Employee Range	# of Businesses	Estimated Business Tax Revenue	Average Tax per Business	Subsidy per Business	Total Subsidy
0-4	3,838	\$ 408,105	\$ 106	\$ 30	\$115,140
5-9	842	279,675	332	75	63,150
10-19	559	360,855	645	100	55,900
20-49	445	610,920	1,373	200	89,000
Total	5,684				\$323,190

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

Funding in the amount of \$330,000 was received in FY 2021/22 and carried over as those funds remained unspent. A separate action is included in the FY 2023/24 budget adoption on the June 27, 2023 City Council agenda to carry these unspent funds to FY 2023/24 for the purposes recommended in this report.

COORDINATION

This report was coordinated with the City Attorney's Office and Finance Department.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Adopt a Resolution to provide a one-time subsidy to small businesses located in Santa Clara reporting 49 or fewer employees, applied upon business license tax renewal for Fiscal Year 2023/24, using existing Silicon Valley Chamber of Commerce settlement funds on a first come first serve basis in an amount not to exceed \$330,000.

REPORT TO COUNCIL

SUBJECT

Action on the Appropriation of Funds from the Silicon Valley Central Chamber of Commerce and Related Budget Amendment

COUNCIL PILLAR

Promote and Enhance Economic, Housing and Transportation Development
Enhance Community Engagement and Transparency

BACKGROUND

On May 22, 2018, Council provided direction to staff to begin an audit of the Convention Center and Convention-Visitors Bureau and the City hired TAP International to complete a performance audit of the Santa Clara Convention Center (SCCC) and the Convention-Visitors Bureau (CVB). To date, TAP International has completed three audits that have been presented to Council.

At the September 18, 2018 Council meeting, TAP International presented the analysis and findings of the performance audit entitled "Santa Clara Convention Center and Convention-Visitors Bureau: Restructuring Operations Can Strengthen Accountability, Performance and Revenue". The audit revealed while the fiscal health of the SCCC and CVB was good when evaluated separately and received high customer satisfaction scores, the audit also revealed serious failures to manage public assets with appropriate stewardship, accountability, and transparency by the Chamber.

At the November 27, 2018 Council meeting, TAP International presented the analysis and findings of the performance audit entitled "City of Santa Clara Tourism Improvement District - Governance, Internal Controls and Oversight Need Attention". The findings revealed similar issues found in the previous audit including the need for updated policies and improved record keeping as the Fiscal Agent of the Tourism Improvement District (TID).

At the November 12, 2019 Council meeting, TAP International presented the analysis and findings of the financial audit entitled "Contract Close Out Report: Convention and Visitor's Bureau". The audit revealed the need for the City to receive reimbursement from either the Chamber, CVB, or the Tourism Improvement District reserves based on the nature of the expenditures and the balances at the end of the Chamber's agreement with the City. TAP International presented nine recommendations for Council consideration and Council direction was referred to Closed Session under Anticipated Litigation.

DISCUSSION

The City Council authorized discussion with the new Chamber executive staff to reach a compromise on the amounts owed as identified by the audit. A settlement was reached between the City and the Silicon Valley Central Chamber of Commerce ("SVCCC") in June 2021, based on authority provided

by Council in closed session. The settlement agreement in the amount of \$330,000 to be paid to the City was executed on July 12, 2021 (Attachment 1 Settlement Agreement). SVCCC will submit four equal payments of \$82,500 within 10 days from the beginning of each quarter, the first of which has already been made.

Funds will be managed by the City Manager's Office and used to improve outreach and assistance to small businesses in Santa Clara.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(4) in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

FISCAL IMPACT

The recommended budget action recognizes the settlement funds of \$330,000 and appropriates those funds to the City Manager's Office to be used to improve outreach and assistance to small businesses in Santa Clara.

Budget Amendment FY 2021/22

	Current	Increase/ (Decrease)	Revised
General Fund			
<u>Revenue</u>			
Revenue from Other Agencies - Silicon Valley Central Chamber of Commerce	\$0	\$330,000	\$330,000
<u>Expenditures</u>			
City Manager's Office	\$5,442,069	\$330,000	\$5,772,069

The budget amendment recommended above requires five affirmative Council votes to appropriate additional revenue.

COORDINATION

This report has been coordinated with the City Attorney's Office and the Finance Department.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Consistent with City Charter Section 1305, “*At any meeting after the adoption of the budget, the City Council may amend or supplement the budget by motion adopted by the **affirmative votes of at least five members** so as to authorize the transfer of unused balances appropriated for one purpose to another purpose, or to appropriate available revenue not included in the budget,*” approve the FY 2021/22 budget amendment in the General Fund to recognize and appropriate revenue in the amount of \$330,000 to the City Manager’s Office operating budget (**five affirmative Council votes required to appropriate additional revenue**) .

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Approve a Silicon Valley Power One-Time Climate Credit for Small Commercial (C-1) Customers

COUNCIL PILLAR

Deliver and Enhance High Quality Efficient Services and Infrastructure

BACKGROUND

On May 23, 2023 (Council Report 23-479), the City Council authorized a 5% mid-year increase to the electric rate schedules of Silicon Valley Power (SVP) for all classes of customers, effective July 1, 2023. This proposed increase was necessary due to the spike in market energy prices and market natural gas prices which mostly occurred in December 2022 and January 2023. This spike in natural gas prices caused unforeseeable and significant increases in SVP's power purchase and production costs.

As discussed at the May 23 Council meeting, as part of the rate increase staff will also be implementing a one-time efficiency/climate residential credit of \$30 that is intended to help cover the increased costs for all residential customers. The credit is funded from existing Green House Gas reduction funds which are derived from the sale of allowances under the Cap-and-Trade Program. A number of utilities, including PG&E, provided similar credits. These credits are not typical for SVP, and the only similar credit SVP has implemented was to provide customer relief during the Covid-19 pandemic.

During its consideration of the mid-year rate increase, the City Council suggested staff develop a similar small commercial (C-1 billing rate) credit.

DISCUSSION

Even with the approved increase, SVP's rates will remain significantly below PG&E's current rates (and lower than any other utility with more than 10,000 customers). For the small commercial customers (C-1 rate), SVP rates are 35% lower than PG&E. For a typical small business (1000 kWh) the proposed increase is approximately \$11.00 a month for a new total of \$228.88.

In comparison, for a large commercial/industrial customer, the typical increase will be an additional \$3,912 a month and for a large industrial customer the typical increase will be \$14,361 a month. For the largest SVP customers, the 5% increase will range from approximately \$50,000 - \$400,000 additional a month.

Proposed Credit

Staff reviewed three possible credit options for the approximately 6,300 small business customers.

- \$30 total credit which would cover approximately 2.7 months of the approved 5% increase.
- \$50 total credit which would cover approximately 4.5 months of the approved 5% increase.
- \$70 total credit which would cover approximately 6.4 months of the approved 5% increase.

As comparison, the \$30 residential credit covers approximately 10 months of the approved 5% increase for the average residential customer and 4 months for a high-use residential customer.

Proposed Credit

Staff is proposing to move forward with a one-time \$70 dollar credit from Green House Gas funds. This credit aligns with similar relief provided to residential customers, and for the average small business, it fully covers the additional cost for the six months of a mid-year increase. It is expected the credit will appear on customers' bills in the August/September timeframe.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to section 15378(b)(4) of Title 14 of the California Code of Regulations in that the proposed action is a fiscal activity which does not involve any commitment to a specific project that may result in a potentially significant physical impact on the environment .

FISCAL IMPACT

The one-time \$70 C-1 credit will cost approximately \$441,000 and will be funded from existing Green House Gas reduction funds in the Mandated Program Costs budget in the Electric Operating Grant Trust Fund. California Air Resources Board (CARB) provides these allowances to publicly owned utilities, like SVP, to mitigate the Cap-and-Trade Program's compliance costs. The proposed credit is an authorized use of the proceeds of CARB allowances.

COORDINATION

This report has been coordinated with the Finance Department and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Approve a Silicon Valley Power one-time \$70 Climate Credit for all C-1 customers.

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Overview of the Citywide Risk Assessment and Proposed 2023 and 2024 Internal Audit Work Plans

BACKGROUND

Per Section 909 of the City Charter, and SCCC Section 2.29.010, the City Auditor's duties and responsibilities include conducting in-depth financial and performance audits, overseeing the City's performance management system, auditing and approving all bills, invoices, payrolls, demands or charges against the City government before payment and, with the advice of the City Attorney, making reports to the City Council as to the regularity, legality and correctness of such claims, demands or charges. The City Auditor's Office conducts its work under the auditing standards prescribed by the Institute of Internal Auditors (IIA). The IIA International Standards for the Professional Practice of Internal Auditing (Standards) requires the City Auditor's Office to "establish a risk-based plan to determine the priorities of the internal audit activity, consistent with the organization's goals" and consider the input from senior management and a governing board.

DISCUSSION

The City Auditor's Office engaged Baker Tilly US, LLP (Baker Tilly) to conduct a citywide risk assessment and prepare an annual audit work plan for the next five years. The purpose of the internal audit function's risk assessment is to develop an audit plan that assigns internal audit resources to the activities that add the most value to the City. The risk assessment process involves identifying and measuring risks associated with the audit universe (a list of specific departments, functions, processes, programs, etc. that can be subject to an audit, i.e. auditable units). Risk is defined as "the possibility of an event or condition occurring that will have an impact on the ability of an organization to achieve its objectives." The risk assessment is an ongoing process and will be updated each year. These updates may alter previously identified audit plans based on these ongoing assessments.

This report summarizes Baker Tilly's risk assessment methodology, analysis, and results. The 2023-2024 audit plan proposed in this report is based on the results of this risk assessment. The risk assessment involved collaboration with City Council and executive management from 14 main departments across the organization. In conducting the risk assessment, the following activities occurred:

- Developed an understanding of the City's environment, businesses, and objectives
- Met with members of City Council and the Executive Management Team representing the major operations and administrative functions of the City
- Reviewed key documentation such as the City Council Priority Matrix, the annual budget documents, financial statements, departmental strategic plans, and prior audit reports

- Evaluated the results of interviews and documentation reviews and considered industry factors to identify areas of risk to the City

In developing the 2023 and 2024 Audit Plan, the following were considered:

- Risk assessment - Internal audit activities to target high and moderate risk areas based on the results of the risk assessment
- Adding value - Internal audit activities to add value through independent and objective analysis
- City Council - The City Auditor's Office reports to the City Council and seeks input on audit priorities
- Coverage and other audits - Consideration of prior and other audits as well as pervasiveness of the process or control to ensure audit coverage and to avoid duplication of efforts
- Scheduling - Consideration of the timing of an audit and other on-going initiatives to avoid putting an undue burden on City staff that may exacerbate the risk at hand or other interrelated risks

Staff and Baker Tilly, LLC presented the results of the risk assessment to the Audit Committee and presented the audit work plan for input and approval. After discussion, the Audit Committee recommended staff proposed revisions so that items from the 2024 work plan could be advanced to the current year workplan. The Committee accepted the report and proposed workplan and moved to bring it to the City Council for note and file.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environment Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(a)(4) in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

FISCAL IMPACT

Costs associated with the preparation of this report are included in the City's FY 2022/23 Adopted Operating Budget.

COORDINATION

This report has been coordinated with the City Manager's Office and City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Note and file the citywide risk assessment report from Baker Tilly, LLC and note the proposed 2023 and 2024 audit work plans as approved by the Audit Committee.

Introduction

Overview

Background

The [California Government Code Section 1236](#) requires all cities that conduct audit activities to conduct their work under the general and specified standards prescribed by the Institute of Internal Auditors (IIA) or the Government Auditing Standards (GAO) issued by the Comptroller General of the United States, as appropriate. The internal audit function will govern itself by adherence to the mandatory elements of the International Standards for the Professional Practice of Internal Auditing (the Standards). According to the IIA Standard 2010, the head of internal audit function “must establish a risk-based plan to determine the priorities of the internal audit activity, consistent with the organization’s goals” and consider the input from senior management and a governing board.

The City Auditor’s Office (CAO) engaged Baker Tilly US, LLP (Baker Tilly) in 2022 to conduct a citywide risk assessment and prepare an annual audit work plan for five years. The purpose of the internal audit function’s risk assessment is to develop an audit plan that assigns internal audit resources to the activities that add the most value to the City of Santa Clara (the City). The risk assessment process involves identifying and measuring risks associated with the [audit universe](#) (a list of specific departments, functions, processes, programs, etc. that can be subject to an audit, i.e. auditable units). Risk is defined as “the possibility of an event or condition occurring that will have an impact on the ability of an organization to achieve its objectives.”¹

Audit Planning

This report summarizes Baker Tilly’s risk assessment methodology, analysis, and results. The 2023–2024 audit plan proposed in this report is based on the results of this risk assessment. The risk assessment involved collaboration with City Council and executive management from 14 main departments across the organization.

In conducting the 2022 risk assessment, we performed the following:

- Developed an understanding of the City’s environment, businesses, and objectives
- Met with members of City Council and the Executive Management Team representing the major operations and administrative functions of the City
- Reviewed key documentation such as the City Council Priority Matrix, the annual budget documents, financial statements, departmental strategic plans, and prior audit reports
- Evaluated the results of interviews and documentation reviews and considered industry factors to identify areas of risk to the City

In developing the 2023–2024 Audit Plan, we considered the following:

- Risk assessment – Internal audit activities to target high and moderate risk areas based on the results of the risk assessment
- Adding value – Internal audit activities to add value through independent and objective analysis
- City Council – The CAO reports to the City Council and seeks input on audit priorities
- Coverage and other audits – Consideration of prior and other audits as well as pervasiveness of the process or control to ensure audit coverage and to avoid duplication of efforts
- Scheduling – Consideration of the timing of an audit and other on-going initiatives in order to avoid putting an undue burden on City staff that may exacerbate the risk at hand or other interrelated risks

¹ Rick A. Wright Jr., CIA, “The Internal Auditor’s Guide to Risk Assessment” The Institute of Internal Auditors Research Foundation (IIARF), 2018

Organizational Strengths

Through the risk assessment, we observed certain strengths of the City. Key strengths include:

- Dedication to the citizens and business community
- High value on financial stability and public safety
- Focus on excellence and affordability
- Highly professional and dedicated management and staff

Risk Assessment Process Considerations

The starting point of the internal auditing is to conduct a risk assessment that is the basis for determining the internal audit activities. However, it is not a one-size-fits-all process. The scope and complexity of risk assessment are affected by various factors such as the maturity level of the internal audit function's products and services, the organization's enterprise risk management (ERM) efforts, coordination with other monitoring and risk management functions, and the stakeholders' expectations. The best practice is to focus on risks related to the achievement of the organization's strategies and objectives. The internal audit risk assessment needs to be conducted at least annually, and internal auditors should monitor the environment for changes and emerging risks.

In addition to the annual macro-level risk assessment, the internal audit function is required to perform an engagement-level risk assessment when starting each audit listed in the approved audit plan. The IIA Standard 2200 states, "Internal auditors must develop and document a plan for each engagement, including the engagement's objectives, scope, timing, and resource allocations. The plan must consider the organization's strategies, objectives, and risks relevant to the engagement."

Risk assessment can also be conducted as part of risk management as one of the essential elements of organizational governance. ERM is defined as "the culture, capabilities, and practices, integrated with strategy-setting and performance, that organizations rely on to manage risk in creating, preserving, and realizing value."² ERM is more than having a list of all the risks for an organization. The COSO's ERM principles covering governance to monitoring (including defining risk appetite and implementing risk responses), apply to all levels and functions of an organization although management has overall responsibility for managing risks and a governing body has an oversight role. The internal audit function may leverage ERM information, if available, for efficiency and quality of its risk assessment.

Risk Assessment Approach

Baker Tilly's risk assessment approach consisted of four phases as illustrated in the graphic below.

2022 RISK ASSESSMENT PHASES	
Planning	<ul style="list-style-type: none"> Worked with the CAO to determine the appropriate approach to plan and perform the risk assessment Scheduled the interviews with City Council members and Executive Management Team (EMT) members
Information Gathering	<ul style="list-style-type: none"> Reviewed the key documents such as Council Priority Matrix, the biennial budget documents, the annual comprehensive financial report, departmental strategic plans, audit reports, the information on the City's website and other relevant documents. Interviewed over 30 individuals to identify the events and conditions that may affect the achievement of objectives Distributed a questionnaire to the EMT members- to gather additional information on each auditable unit
Analysis	<ul style="list-style-type: none"> Obtained and considered the financial data, budget data, employee turnover data, application inventory, and claims information Scored the auditable units in the risk matrix based on the likelihood and the impact³ of potential adverse events <ul style="list-style-type: none"> Each of the auditable units received scores for various risk factors related to the likelihood or impact (defined in Appendix A) Risk factor scores were summed to create a single score for the auditable unit Identified potential internal audit activities for the auditable units with high risk scores
Reporting	<ul style="list-style-type: none"> Summarized the approach and results of the risk assessment

Baker Tilly conducted the first risk assessment by interviewing all City Council members and EMT members and reviewing the key documents and data. Our risk assessment process primarily measured inherent risk (the risk before mitigating controls/factors are applied) in the City's current environment.

The next risk assessment will include an update to this risk assessment in accordance with the contract. For the second-year risk assessment, Baker Tilly will interview the EMT members and also conduct a risk assessment survey to obtain input from other members of management. For the third and fifth year, the existing audit plan will be evaluated based on interviews with City audit staff and amended if necessary. For the fourth year, a full risk assessment and a survey will be conducted.

³ Likelihood is the possibility that an event will occur. Impact is the extent to which an event might affect an organization.

Risk Assessment Results

Citywide Key Risk Areas

Baker Tilly performed interviews with members of City Council and the Executive Management Team. During these interviews, Baker Tilly asked them to describe the areas they view to be the top five risks facing the City overall, regardless as to whether it is specific to their area of focus/department or not. The following is a list of risk themes identified in those interviews:

- Strategic Workforce Planning
- Budget and Financial Performance
- Compliance and Legal Risks
- Organizational Governance
- Information Technology & Cybersecurity

Strategic Workforce Planning

- *Employee Recruitment & Retention* – Attracting and retaining high-performing employees is a complex challenge facing the City. Recent legislation such as the Public Employee Pension Reform Act of 2013 (PEPRA) made public employment less attractive in the State of California as retirement benefits became less generous. In addition, the City's high cost of living limits the applicant pool as many employees and prospective employees commute long distances to work for the City.
- *Employee Turnover* – The City faces potential risk of employee turnover in a variety of critical positions due to retirement eligibility, perceived or actual lack of upward mobility, and competitiveness of compensation and benefits in comparison to the cost of living. Employee turnover for any reason creates gaps in institutional knowledge. Succession planning, documenting standard operating procedures and cross training are key considerations for entities facing this dynamic.

Financial

- *Revenue Generation* – Although the City has many sources of revenue, some of which are healthy and stable, the City also relies on economically sensitive revenues such as sales tax and transient occupancy tax. The City has been a hub for the world's top technology firms and owns Levi's Stadium and Convention Center, which bring in visitors to hotels, restaurants, and retail. These visitors and daytime population help feed the sales and transient occupancy taxes. The COVID-19 pandemic has highlighted weaknesses in the reliability of this revenue structure.
- *Funding* – The City faces difficult budget reductions necessary to bring the budget into balance. As a result, some essential accounts, programs, and capital projects remain unfunded.

Compliance/Legal

- *Compliance with Laws, Regulations, and Contracts* – The City has a complex regulatory compliance environment, in which the City must comply with numerous laws and regulations, local ordinances, contracts and grant agreements, and policies and procedures. Failure to track and update relevant laws and regulations may lead to external audit findings, fines, reputational harm and other negative outcomes.
- *Litigation* – The City has been involved in multiple lawsuits and settlements in recent years.

Governance

- *Leadership* – Effective local government governing body and officers must think and act strategically and collaborate with a network of community entities and institutions at the national, state, and local level. Operating in an environment where there are numerous stakeholders and key partners can strain the governance system and impair the ability to meet citizens' needs and organizational objectives.

RISK ASSESSMENT RESULTS

Information Technology

- **Cybersecurity** – Ransomware and malware attacks are growing threats facing all municipal governments. These cyberattacks may result in significant financial losses, costly service disruption, and loss of information. The City faces similar threats on a daily basis and seeks to ensure that its information security practices and controls mitigate these risks.

Department Descriptions and Key Risk Areas

When identifying risks for the City, Baker Tilly considered each department and associated risks. The concerns listed by the interviewees included limited staffing and succession planning, specific accounts or programs with limited or no funding, aged infrastructure, lawsuits, and drought. Based on these concerns, departments' functions, and their inherent risks, Baker Tilly identified the auditable risk areas for each department. Below is an overview of the City's departments and their key risk areas.

City Attorney's Office

The City Attorney's Office provides hearing and trial counsel services and other legal advisory services such as review/negotiation of contracts, preparation of resolutions and ordinances, attendance to all meetings of the City Council, and response to legal inquiries.

Key Risk Areas

- Case management
- Conflict of interest monitoring

City Clerk's Office

The Elected City Clerk administers City elections. The Assistant City Clerk is responsible for various day-to-day operations, including attending and maintaining records of City Council and public meetings; complying with Records Retention Schedule; responding to Public Records Act requests, and administering campaign and disclosure laws.

Key Risk Areas

- Public Records Act compliance
- Records retention program

City Manager's Office

The City Manager's Office supports the City Council with policy decision making, provides direction and support to all City departments, and is responsible for strategic planning, citywide emergency preparedness, economic development, community outreach and engagement, property management, special projects, and implementation of Council direction. It also provides general administration for citywide programs, citywide strategic programs and initiatives (such as sustainability), convention center, and stadium operations.

Key Risk Areas

- Property management
- Convention center operation
- Stadium operation
- Business continuity plan for the City departments

Community Development Department

The Community Development Department's primary objectives are maintenance of the General Plan, proactive land use planning to meet the future needs of the community, delivery of professional services such as development review and permitting and inspection services, and administration of programs related to affordable housing.

Key Risk Areas

- Building permitting & inspection
- Housing inspection
- Development projects review
- Code enforcement
- Affordable housing program

Electronic Utility Department

The Electric Utility Department (Silicon Valley Power, or SVP) owns power generation facilities, has investments in joint ventures that produce electric power, and trades power on the

Key Risk Areas

- Power Purchase Agreements
- Renewable energy programs

RISK ASSESSMENT RESULTS

open market. SVP delivers electricity to the residents and businesses and provides diverse services such as dispatch services to all City departments, outdoor Wi-Fi services, dark fiber leasing service, and energy efficiency programs.

Finance Department

The Finance Department administers the City's financial affairs. Departmental functions include budget; general accounting; financial reporting; collection of taxes, fees, special assessments, and utility charges; investment; procurement; the City Warehouse operations; and debt management.

- Procurement and contract management
- Work Order and Asset Management
- Cybersecurity
- Construction project controls

Key Risk Areas

- Procurement Card Administration
- Vendor master file
- Timesheet processing
- Utility billing and collection process
- Investment management
- Warehouse/inventory management

Fire Department

The Fire Department provides fire and emergency services and organized into Administration and six divisions: Field Operations (first responders providing immediate services); Emergency Medical Services (first responder medical services); Community Risk Reduction (fire prevention activities and hazardous materials regulation by providing plan review and inspection services); Training (State and Federal certification programs); Administrative (grant management, payroll processing, budget development, etc.); Office of Emergency Services (emergency preparedness activities and disaster management plans).

Key Risk Areas

- Overtime
- Field inspection services
- Training
- Emergency medical services

Human Resources Department

The Human Resources Department is responsible for Benefits, Compensation, Recruitment, Testing, Classification, Employee and Labor Relations, Equal Employment Opportunity, Workers Compensation/Safety, and Employee development. The department also negotiates the Memorandum of Understanding agreements with bargaining units.

Key Risk Areas

- Staff development and succession planning for the City departments
- Workers' Compensation and Safety
- Employee records management

Information Technology Department

The Information Technology Department's IT service provider provides most IT services including enterprise computing (City data centers and network), service desk, end-user support, application management, configuration and maintenance of over 150 applications, and security services (including security incident and event management). The City IT employees are responsible for IT governance and budget.

Key Risk Areas

- Cybersecurity Assessment
- Managed Service Provider (MSP) contract management
- Application portfolio management
- Data management

Library Department

The Library Department has three libraries throughout the City and also provides Bookmobile service. It offers physical and digital collection of books/movies/music, technology and information access, literacy instruction, and programming such as young adults activities. The Library Department establishes

Key Risk Areas

- Memorandum of Understanding with the Santa Clara Library Foundation & Friends
- Fee collection
- Purchasing

RISK ASSESSMENT RESULTS

partnerships with community organizations to leverage resources.

Parks and Recreation Department

The Parks and Recreation Department consists of the Parks Division (planning, development, operation, maintenance and rehabilitation of City parks); the Recreation Division (classes and programs); the Cemetery Division (maintaining 33,000 interment sites), and the Senior Nutrition Program Division (a meals program). The Department offers the public with facility rentals, community services, cultural programs, and special events.

Key Risk Areas

- Park infrastructure
- Park revenue

Police Department

The Police Department is broken down into four divisions. The Field Operations Division is comprised of uniformed personnel that respond to calls for service and initiate proactive contacts. The Investigations Division, which includes the Records Unit, handle follow-up investigations and bring cases forth for criminal prosecution. The Special Operations Division oversees law enforcement services for any major event within the city, including Levi's Stadium. The Administrative Services Division encompasses the department's Training Unit, School and Community Services, and 911-Comunucations Center.

Key Risk Areas

- Overtime
- Body-worn camera
- Use of force policies
- Evidence processing and storage
- Case management

Department of Public Works

The Department of Public Works is responsible for design, construction, and maintenance of the City infrastructure. The five divisions for engineering services are Administration, Traffic, Design, Land and Property Development, and Field services divisions. Operation and maintenance is provided by Facilities Services, Streets, and Feet Management divisions.

Key Risk Areas

- Construction project controls
- The Americans with Disabilities Act (ADA) compliance
- Maintenance service requests
- Grant management

Water and Sewer Utilities Department

The Water and Sewer Utilities Department provides planning, design, construction, maintenance, and operation of the City's water distribution system, sewer collection system, and recycled water system. The City jointly owns the San Jose-Santa Clara Regional Wastewater Facility.

Key Risk Areas

- Construction project controls
- Water conservation and sustainability programs
- Rate setting practices
- Work order and asset management

RISK ASSESSMENT RESULTS

Overall Risk Scoring Distribution

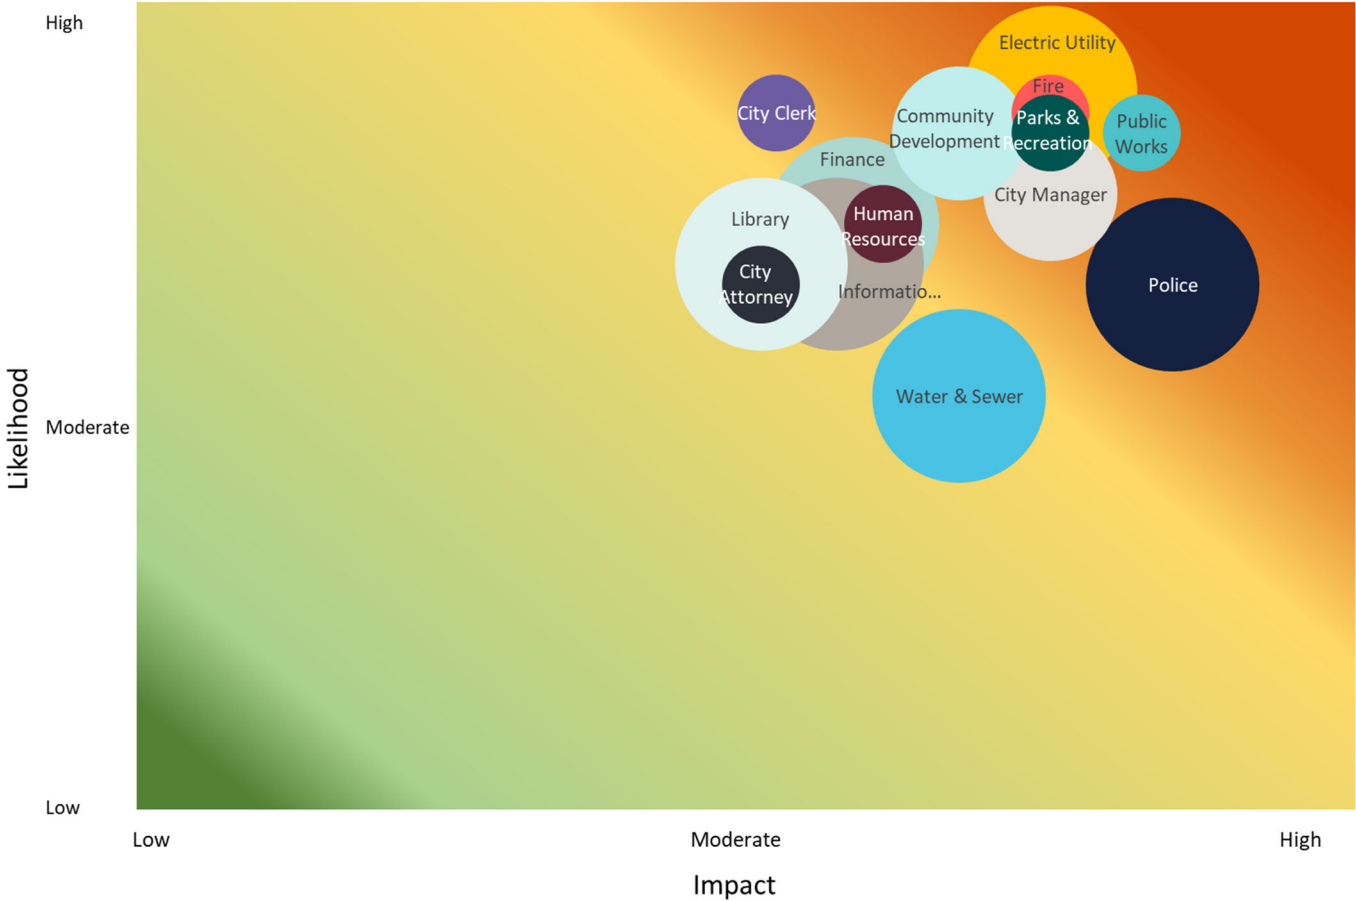

Baker Tilly structured the audit universe based on the department/division/program from the budget document and management's feedback, which resulted in 124 auditable units ([Appendix B](#)). We scored them based on the information gathered for each risk factor related to the likelihood, impact, or fraud. [Appendix A](#) lists the risk factors, definitions, and scoring method. The maximum score for an auditable unit is 12. The following chart shows the distribution of overall risk scoring.

City Department Risk Heat Map

A risk heat map is a common tool to plot risks or auditable units in order to measure their relative risks in terms of impact and likelihood. The risk heat map for the City below illustrates the City's departments based only on the highest risk division/program within each department, and therefore, it represents only 14 out of 124 auditable units. The departments toward the upper right corner of the heat map represent those with higher possibilities of greater effect. The size of a bubble indicates the fraud risk factor score.

Illustration of the departments based on the highest risk division/program within each department

Proposed 2023 - 2024 Audit Plan

Summary

The proposed audits and CAO projects for 2023 through 2024 are listed in the next page. The projects were selected from the auditable units that were rated as High or Moderate as a results of the risk assessment. The selection was made based on some factors such as risk rating, the pervasiveness of the process or control, the audit coverage, the timing of projects, and the value-adding activities that help the City enhance the ability to manage risks, strengthen accountability, and improve efficiency and effectiveness. The proposed projects include the following:

- Efficiency improvement: Building Permitting Process Review
- Capital assets: Construction Project Control Assessment; Work Order Process and Asset Management
- Compliance: Overtime Review; Power Purchase Agreement Review
- Operations: Park Operation Review
- Finance: Procurement Card Administration Review
- IT-related audits: Cybersecurity Assessment; Service Provider Contract Management
- Citywide processes: Succession Planning & Staff Development Review; Record Management and Retention
- CAO project: Risk and Control Matrix

The proposed audit plan consists of a variety of projects for a 24-month period to provide flexibility to adjust the timing of audits. It also incorporates time for an ad hoc project to address a request from the City management, if necessary. The audit plan will be updated based on the results of an annual risk assessment. However, amendments to the approved audit plan may be proposed during a year in response to changes in the City's environment such as organizational structure, operations, risks, systems, and controls.

The preliminary audit objectives are described for each audit listed. These objectives and scope of each audit activity will be further defined based on the result of an audit planning risk assessment process performed at the beginning of each activity.

Also listed in the proposed audit plan are the estimated hours to complete each audit. The budgeted hours should be determined once audit objectives and scope are finalized during the audit planning phase. The current CAO resources are two full-time employees (Internal Audit Manager and a staff member), and their total available hours would be over 3,000 hours per year. However, the CAO's capacity to execute the audit plan is very limited due to the following reasons:

1. The staff member will not be available to execute the internal audit activities due to the responsibility to "audit and approve all bills, invoices, payrolls, demands or charges against the City government before payment", which is required by the Santa Clara City Code Sec. 909 City Auditor⁴.
2. The approval before payment is a control activity in the operational/transactional process. According to Standard 1130 of the IIA Standards⁵, it would be an impairment to organizational independence and individual objectivity if the staff member performs an audit of the processes related to her approvals.
3. The Internal Audit Manager who supervises the internal audit staff also performs the same tasks whenever the staff member cannot perform the approval and other related duties.

It is recommended that the City evaluate the current roles and responsibilities of the CAO and take the appropriate action(s) to ensure that the CAO will achieve its mission and help the City improve the effectiveness of risk management, control, and governance processes.

⁴ The Charter of the City of Santa Clara Article IX Officers and Employees, Sec. 909 City Auditor ([CHARTER OF THE CITY OF SANTA CLARA \(codepublishing.com\)](https://www.santacleara.gov/codepublishing.com))

⁵ Standard 1130.A1 states. "Internal auditors must refrain from assessing specific operations for which they were previously responsible. Objectivity is presumed to be impaired if an internal auditor provides assurance services for an activity for which the internal auditor had responsibility within the previous year."

Proposed Audit Plan for 2023 and 2024

Department	Project Title	Preliminary Audit Objectives	Estimated Hours
Electric Utility Department	Cybersecurity assessment	<ul style="list-style-type: none"> • Map current state security capabilities to the NIST Cybersecurity Framework and/or other industry specific frameworks and evaluate the maturity of current security processes • Identify current risks related to weaknesses in the City's cybersecurity program • Identify target state objectives utilizing the Capability Maturity Model (CMMI) and develop recommendation to meet the objectives 	650
Information Technology Department			
Finance Department	Procurement card administration	<ul style="list-style-type: none"> • Determine whether procurement cards are administered to ensure that only the authorized users can make purchases in accordance with the requirements and guidelines. • Determine whether internal controls over procurement card transactions are in place and working effectively to prevent and detect errors and irregularities, including duplicate, unauthorized, or improper transactions. 	330
Community Development Department	Building permitting process	Assess the efficiency and effectiveness of the building permitting process	360
Library Department	Memorandum of Understanding (MOU) with the Santa Clara Library Foundation & Friends	Determine whether the internal controls to monitor the compliance with the MOU requirements are in place and working effectively	240
Department of Public Works	Construction project control assessment	Determine whether internal controls over construction projects are adequate and working effectively	300
CAO project / Citywide	Risk and control matrix	Create a risk and control matrix for each department to be utilized for future discussion and review of the City's control environment	840
TBD	Ad Hoc Requests	TBD	200
Sub Total - 2023			2,920
Information Technology Department	Managed Service Provider (MSP) contract management	Determine whether the City proactively manages its cybersecurity risk and collaborates with its MSP to jointly reduce the risk by defining roles/responsibilities and expectations such as security controls and incident response plans and by monitoring of MSP's access and activities.	400
Police Department	Public safety personnel overtime	<ul style="list-style-type: none"> • Determine whether adequate policies and procedures are in place to ensure the appropriate usage of overtime for the public safety personnel. • Determine whether the overtime practice and reporting comply with the City's policies and procedures. 	300
Fire Department			
Electric Utility Department	Power purchase agreements	<ul style="list-style-type: none"> • Assess the process for evaluating and entering into power purchase agreements. • Assess the effectiveness of the internal controls in overseeing the power purchase agreements 	370
Parks & Recreation Department	Park operation	<ul style="list-style-type: none"> • Determine whether the internal controls over the maintenance of parks are working effectively. • Determine whether the internal controls over fee collection are working effectively. 	380
City Manager's Office	Property management	Evaluate the efficiency and effectiveness of the City's property management	240
Water and Sewer Utilities Department	Work order process and asset management	Determine whether the internal controls over the work order process are adequate and working effectively.	420
City Clerk's Office	Record management and retention program	<ul style="list-style-type: none"> • Determine whether citywide record management and retention policies and procedures are properly established in accordance with laws and regulations • Determine whether internal controls are working effectively to ensure compliance with the record management and retention policies and procedures 	300
Human Resources / Citywide	Citywide succession planning and staff development	<ul style="list-style-type: none"> • Determine whether adequate policies and procedures are in place to development and maintain succession plans to ensure continuity in key positions for all departments • Determine whether coaching and development programs are in place to ensure that the successors are prepared to assume positions when necessary 	300
TBD	Ad Hoc Requests	TBD	200
Sub Total - 2024			2,910
TOTAL - 2023 & 2024			5,830

Appendices

Appendix A: Risk Factor Definitions

Factor	Definition	Weight
Impact Factors (the effect on the organization)		
Magnitude	A measure of materiality based on pervasiveness or volume of dollars or transactions; Scores based on the budgeted expenditure amount Extreme - 5: \$50M or more Material - 4: \$10M or more; Less than \$50M Significant - 3: \$3M or more; Less than \$10M Moderate - 2: \$1M or more; Less than 3M Inconsequential - 1: Less than \$1M Added 1 to the magnitude of the Information Technology Department due to the pervasive nature of its work	30%
Customer / Resident Experience	Negative experience by customers and residents, such as perceived or actual safety concerns and unsatisfactory services, impacts negatively on the reputation / credibility of the organization Extreme - 5: Direct impact on health and safety Material - 4: Direct impact on transparency Significant - 3: Direct impact on customer satisfaction/City's reputation Moderate - 2: Indirect impact on customer satisfaction/City's reputation Inconsequential - 1: Immaterial impact on reputation / credibility	35%
Achievement of Organizational Goals	The greater the effect that a department or process has on the organization meeting strategic objectives and goals, the greater the related risks Extreme - 5: Directly relates to the City Council Priorities Material - 4: Supports the function/process directly related to the City Council Priorities Significant - 3: Has performance/workload measures related to Strategic Pillars Moderate - 2: Somewhat relates to the organizational goals Inconsequential - 1: Does not relate to City's priorities and goals	35%
HIGHEST TOTAL SCORE FOR IMPACT: 5		100%
Likelihood Factors (the probability of the risk occurring)		
Complexity	A measure of the difficulty in performing a process or function. As a process or function becomes more complex, the greater the opportunity for errors 5 - Very high complexity 4 - High complexity 3 - Medium complexity 2 - Low complexity 1 - Very low complexity	25%
Policies and Procedures	Policies and Procedures are a complete set of written instructions that guide personnel in the successful execution of their duties and the duties of the office for which they work. If the policies and procedures are adequate and up-to-date, a risk is lower 5 - No or little written P&P 4 - Some written P&P 3 - Basic P&P requiring improvements 2 - Adequate but outdated P&P 1 - Adequate and up-to-date P&P or Not Applicable	10%
Regulatory Compliance	Measures the existence of and potential noncompliance with, government regulations and other applicable laws, standards, and policies/procedures 5 - Requirements to meet more than a few laws/regulations and professional standards specific to the division's responsibilities 3 - Requirements to meet one or two laws/regulations and professional standards specific to the division's responsibilities 1 - No requirement to meet any laws/regulations or professional standards specific to the division's responsibilities	25%
Monitoring	Consider the existence of monitoring activities, including the results of last audits by Internal Auditor, External Auditor, Regulators, etc. and other known deficiencies 5 - Overall, there is no mechanism to monitor the status of performance goals/compliance requirements 4 - For only some significant performance goals/compliance requirements, there is an annual or semi-annual reporting, management review process and/or audits by an external party to identify the status of performance goals/compliance requirements 3 - For all significant performance goals/compliance requirements, there is an annual or semi-annual reporting, management review process and/or audits by an external party to identify the status of performance goals/compliance requirements 2 - For only some of significant performance goals/compliance requirements, there is a periodic (weekly/monthly/quarterly) reporting process to ensure performance goals/compliance requirements are met 1 - For all significant performance goals/compliance requirements, there is a periodic (weekly/monthly/quarterly) reporting process to ensure performance goals/compliance requirements are met	10%
Specific Risks	Consider the existence of specific risk events/conditions and their significance 5 - Identified risk event(s)/condition(s) seem to significantly affect the likelihood 3 - Identified risk event(s)/condition(s) seem to have some impact on the likelihood 1 - No or very minor risk event(s)/condition(s) have been identified	30%
HIGHEST TOTAL SCORE FOR LIKELIHOOD: 5		100%
Other Risk Factor		
Fraud Schemes	Consider the susceptibility to fraud, which is the opportunity for employees/vendors/customers/fraudsters to misappropriate resources or defraud the organization* 5 - High Risk 3 - Moderate Risk 1 - Low Risk	40%
HIGHEST TOTAL SCORE FOR OTHER: 2		40%
HIGHEST TOTAL SCORE 12		

* Considered fraud schemes listed in the Fraud Tree provided in the "Occupational Fraud 2022: A report to the Nations" by Association of Certified Fraud Examiners. Also considered are cyber fraud schemes.

Agenda Report

23-815

Agenda Date: 6/27/2023

REPORT TO COUNCIL AND STADIUM AUTHORITY BOARD

SUBJECT

Action to Authorize the City Manager to Negotiate and Execute a One-Year Municipal Law Enforcement Services Agreement Between the City of Santa Clara and the City of Milpitas for Supplemental Law Enforcement Services at Levi's Stadium Events; Action on a Resolution Delegating Authority to the City Manager to Negotiate and Execute Future Indemnity Agreements and Municipal Law Enforcement Services Agreements Between the City of Santa Clara and Other Public Safety Agencies for "Double-Badgers" or Supplemental Law Enforcement Services

COUNCIL PILLAR

Ensure Compliance with Measure J and Manage Levi's Stadium

BACKGROUND

Prior to the opening of Levi's Stadium in 2014, the Santa Clara Police Department (SCPD) worked with the National Center for Spectator Sports Safety and Security and the Department of Homeland Security to develop comprehensive safety and traffic management plans for the venue and surrounding area. It is the City of Santa Clara's obligation to provide public safety services within its jurisdictional boundaries, including at Levi's Stadium.

Through the planning process, the Police Department acknowledged the City's organization did not have the specialized expertise (e.g., ability to close highway off-ramps and corresponding traffic management skills), resources (e.g., air operations, crowd control, SWAT, etc.), and volume of sworn and civilian personnel necessary to implement these plans. As a result, agreements were formed with local, State and federal law enforcement partners to provide these additional services.

The Police Department relies heavily on sworn and civilian professionals to provide a safe and enjoyable experience for stadium personnel, athletes/entertainers, event attendees, surrounding businesses, and nearby residents. The staffing needs vary from event to event based on event type, day of the week, time of the day, anticipated attendance, dignitaries present, intelligence gathered from similar events, etc.

DISCUSSION

Law Enforcement Services Agreements

As the lead law enforcement agency, the Police Department secures local, State and federal resources, as necessary, to mitigate traffic congestion for event patrons and local traffic, provide a safe venue for attendees, performers and stadium personnel as well as to deter intrusion into neighborhoods while maintaining access to adjacent business properties.

Currently, the Police Department has various Indemnity Agreements with multiple agencies

throughout California to provide Per Diem Special Event Police Officers (e.g., Campbell, Gilroy, Los Altos, Los Gatos, Milpitas, Morgan Hill, Palo Alto, Santa Cruz, etc.) to augment the staffing for events at Levi's Stadium. These Per Diem employees proceed through a complete application, interview, background and training process as well as purchase the City's uniform to be hired by the City of Santa Clara to work special events as a peace officer at a flat rate of \$75 per hour. Commonly referred to as "double badgers," the Police Department currently has approximately 154 employees in this classification. While this is a significant number, the demands within each employees' home agency take precedence over working for the City's Police Department. Certain times of year (e.g., summer) and special occasions (e.g., New Year's Eve, Super Bowl Sunday, Fourth of July, Christmas, etc.) are also inherently challenging to staff in law enforcement and tend to be busiest with calls for service. Under the Indemnity Agreements, Santa Clara takes on the financial responsibility associated with any third-party claims arising from the double-badger's actions while working at the stadium including defense and indemnity of the double-badger's home agency if that agency is also named in the claim.

In addition to hiring Per Diem Special Event Officers through the process described above, the City also obtains personnel from surrounding jurisdictions by entering into Municipal Law Enforcement Services Agreements with local agencies for specified services (e.g., personnel, helicopter, mounted unit, K-9 team, tactical vehicles, equipment, etc.) associated with special events at Levi's Stadium. At present, the following Municipal Law Enforcement Service Agreements are in place:

- California Highway Patrol
- Monterey County Sheriff's Office
- San Francisco County Sheriff's Office
- Santa Clara County Sheriff's Office
- Sunnyvale Department of Public Safety

Proposed Municipal Law Enforcement Services Agreement with Milpitas

Staff proposes to enter into a Municipal Law Enforcement Services Agreement with Milpitas to allow personnel in various classifications, as called upon and available, to provide supplemental special detail law enforcement services for events taking place at the stadium and surrounding areas. The agreement also allows for the Milpitas Police Department personnel responding to requests for services to transmit and broadcast communications on the Santa Clara Police Department's dispatch frequency, licensed by the Federal Communications Commission. Staff aims to have this Agreement in place for the July 2nd events. Due to the timing constraints, the parties have not been able to finalize the Agreement in advance of agenda publication, hence the request for authority to negotiate and execute the agreement. A draft version of the standard agreement is attached and contains highlighted portions currently under negotiation, including:

- Milpitas has requested that Santa Clara take on the financial responsibility for any and all workers compensation related expenses that arise from one of their officers being injured while performing services under the Agreement
- Milpitas has requested that Santa Clara take on the financial responsibility for defense and indemnity of Milpitas and their employee officers in the event a third party claim arises from a Milpitas officer's actions while performing services under the Agreement
- The rates Milpitas proposes for their various personnel

In prior similar agreements with other agencies, Santa Clara has not agreed to accept liability for either workers compensation claims or third-party claims, as is reflected in the standard contract language; we cannot quantify what the measure of that liability is at this time, but theoretically it could be significant, and would be more significant in the future if other agencies seek similar clauses. The City Manager's Office will take such considerations into account and proceed accordingly.

Delegation of Authority for Future Agreements

Staff anticipates that the need for execution of both Indemnity Agreements and Municipal Law Enforcement Services Agreements in an expeditious fashion will continue. There are times in which a neighboring agency informs SCPD of their willingness to provide personnel for an event just a couple of few weeks in advance of the event date. To avoid a scenario in which Stadium event staffing is negatively impacted as a result of the timing of this notice and council meeting schedules, staff recommends the Council delegate authority to the City Manager by resolution to negotiate and execute such agreements in the future.

The authority of the City Council to contract with neighboring cities for the provision of supplemental police services derives from the City Charter as well as state law, as follows:

City Charter Sec. 1108 Contract for administrative services.

The City Council, upon recommendation of the City Manager, may contract with the governing body of any other city, or county within this state, or with any state department, or with any private or governmental agency for the furnishing of administrative, fiscal, or personnel services.

Government Code Sec. 55632

The legislative body of any local agency may contract with any other local agency for the furnishing of fire or police protection to such other local agency.

Government Code Sec. 54981

The legislative body of any local agency may contract with any other local agency for the performance by the latter of municipal services or functions within the territory of the former.

The Council may delegate to or require the City Manager to perform this contract approval function (City Charter Sec. 802(h)).

The Santa Clara Stadium Taxpayer Protection and Economic Progress Act, commonly referred to as Measure J, requires all public safety costs related to stadium operations to be reimbursed to the City. In addition, in accordance with the contractual arrangements between the City, Stadium Authority and the team, the team reimburses the City for public safety related expenses incurred for NFL events. For non-NFL Events, the cost of public safety (including the costs charged by our public safety partners such as Milpitas Police Department) are charged against the net non-NFL revenues of the Stadium Authority.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

This agreement allows the Milpitas Police Department to provide support services for Levi’s Stadium, as requested and available.

Any expenses incurred by the City for the use of the Milpitas Police Department personnel at NFL events would be billed by the City to the Forty Niners, in accordance with the applicable contracts and with Measure J. For non-NFL events, the expenses are deducted from the Stadium Authority’s net non-NFL revenues.

COORDINATION

This report was coordinated with the Finance Department and City Attorney’s Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City’s official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City’s website and in the City Clerk’s Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk’s Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Authorize the City Manager to Negotiate and Execute a One-Year Municipal Law Enforcement Services Agreement Between Santa Clara and the City of Milpitas Police Department for Supplemental Law Enforcement Services at Levi’s Stadium Events in a form approved by the City Attorney
2. Adopt a Resolution Delegating Authority to the City Manager to Negotiate and Execute Future Indemnity Agreements and Municipal Law Enforcement Services Agreements, in a form approved by the City Attorney, Between the City and other Public Safety Agencies for “Double-Badgers” or Supplemental Law Enforcement Services

Reviewed by: Pat Nikolai, Chief of Police

MUNICIPAL LAW ENFORCEMENT SERVICES AGREEMENT

**by and between the
THE CITY OF SANTA CLARA,
and
THE CITY OF MILPITAS**

PREAMBLE

This agreement for the performance of municipal law enforcement services (“Agreement”) is made and entered into on this _____ day of June, 2023, (“Effective Date”) by and between the City of Milpitas, 455 E. Calaveras Blvd., Milpitas, CA 95035 (“Agency”) and the City of Santa Clara, a chartered municipal corporation, located at 1500 Warburton Avenue, Santa Clara, California 95050 (“City”). City and Agency may be referred to individually as a “Party” or collectively as the “Parties” to this Agreement.”

RECITALS

- A. City is desirous of contracting with Agency for the performance of the law enforcement functions described herein.
- B. Agency is agreeable to rendering such law enforcement services pursuant to the terms and conditions set forth in this Agreement.
- C. Pursuant to the authority set forth in Government Code sections 54981 and 55632, and City Charter Section 1108, City seeks additional law enforcement services, and Agency agrees to provide additional law enforcement services on a periodic basis.

The Parties agree as follows:

AGREEMENT PROVISIONS

1. SERVICES TO BE PROVIDED.

- A. Agency agrees, as available, to provide supplemental special detail law enforcement services for events taking place at the Stadium site and surrounding areas within City’s jurisdictional boundaries during the term of this Agreement. The classification and approximate numbers of personnel provided by Agency will be determined and mutually agreed upon, in writing, between Agency and the Santa Clara Chief of Police prior to each event. The Parties shall establish and agree to the number of hours necessary for the Agency employees to perform the requested services. City herein provides consent, pursuant to Penal Code section 830.1(a)(2), for any Agency peace officer providing services hereunder to exercise full peace officer authority within the City’s jurisdiction.

- B. Except as otherwise specifically set forth, such services shall only encompass duties and functions of the type coming within the jurisdiction of, and customarily rendered by, Agency under its Charter and/or municipal codes, and the statutes of the State of California, and under the Charter and municipal codes of the City of Santa Clara.
- C. For special detail officers, the request for services shall be a written request from the Santa Clara Police Chief or his/her designee. The request shall contain specific dates of service, hours of operation, number of personnel requested, and classification of personnel requested. For the purpose of performing said services, Agency shall furnish and supply, as available, all necessary labor, supervision, personnel, helicopters, tactical vehicles, equipment, fuel, and supplies necessary to provide the services to be rendered hereunder. The City acknowledges that additional equipment charges for special equipment such as helicopters, tactical vehicles, equipment, fuel, and supplies may be appropriate depending upon the services requested and may be charged by Agency as above and beyond the authorized pay rate for personnel. The request shall be signed by a representative of the City who is duly authorized to enter into such agreements for supplemental law enforcement services. The request shall be submitted via email to Agency specified contact.
- D. The City hereby grants to Agency and its personnel responding to requests for services herein the right to transmit and broadcast communications to the Santa Clara Police Department's units via the Santa Clara Police Department's designated dispatch frequency and/or any other law enforcement frequency for which the City of Santa Clara is licensed by the FCC.
- E. Mutual aid agreements pursuant to the California Emergency Plan (Government Code §§ 8550 et seq.) and the Master Mutual Aid Agreement: If any mutual aid agreement(s) currently in place are triggered during any performance of services under this Agreement, the mutual aid agreement(s) shall govern all necessary personnel and/or tactics.

2. ADMINISTRATION OF PERSONNEL.

- A. In the event of a dispute between the Parties to this Agreement as to the extent of the duties and functions to be rendered hereunder, or the minimum level or manner of performance of such service, the City shall be consulted and a mutual determination thereof shall be made by both Agency and the City in consultation with the City of Santa Clara's Chief of Police.
- B. The rendition of the services performed by Agency, the discipline of its officers, and other matters incident to the performance of such services and the control of personnel so employed shall remain with Agency.
- C. With regard to sections A. and B., if there remains a disagreement as to the minimum level of services for a particular event, the Parties agree that the Santa

Clara Chief of Police shall have final and conclusive determination of levels of service provided by Agency's officers.

- D. All City employees who work in conjunction with Agency pursuant to this Agreement shall remain City employees, are not Agency employees, and have no claim or right to any Agency employment benefits or policies. Similarly, all Agency employees who work in conjunction with City pursuant to this Agreement shall remain Agency employees, are not Santa Clara Stadium Authority ("Authority") and/or City employees, and have no claim or right to any such employment benefits or policies.
- E. Neither Authority nor City shall be called upon to assume any liability for the direct payment of any Agency salaries, wages, or other compensation to any Agency personnel performing services hereunder. Except as herein otherwise specified, neither Authority nor City shall be liable for compensation or indemnity to any Agency employee or agent for injury or sickness arising out of his/her status as a contract agent of the Authority and/or City.

3. COMPENSATION AND PAYMENT.

- A. The City, shall pay Agency for the services it provides under the terms of this Agreement **at the rates established hereunder**, as they may be amended from time to time. The rates listed below may be periodically adjusted effective July 1 of each year to a mutually agreed upon rate. In such case, the annual rate adjustment shall be attached to this Agreement as Exhibit A to reflect the change in rates each fiscal year. The Parties specifically agree that such adjustment and change in Exhibit A each year is a valid amendment to this Agreement, and that no formal Amendment form need be used for such annual rate adjustment. The Parties will separately execute Exhibit A each year, or whenever there is a change in Exhibit A rates.
- B. For and in consideration of Agency providing supplementary law enforcement services for the Authority and/or City under this Agreement, the City agrees to pay Agency for said services at the hourly rates as indicated in Exhibit A.

The rates in Exhibit A are developed by the Agency. These rates are designed to reimburse Agency's costs in the compensation of employees, the administration of workers' compensation benefits, and the Agency's overhead attributable to providing the services identified in this Agreement, and as they may be amended from time to time.

4. PAYMENT PROCEDURES.

- A. On a monthly basis, Agency shall submit a summarized invoice which covers all services performed during said month, to the City, and the City shall pay Agency for all undisputed amounts within thirty (30) days after date of said invoice.

- B. If such payment is not delivered to Agency within thirty (30) days after the date of the invoice, Agency is entitled to recover interest thereon. Said interest shall be at a rate of five percent (5%) per annum or any portion thereof, calculated from the date payment was due.
- C. For all disputed amounts, City shall provide Agency with written notice of the dispute including the invoice date, amount, and reasons for dispute within ten (10) days after receipt of the invoice. The Parties shall memorialize the resolution of the dispute in writing. For any disputed amounts, interest shall accrue at the rate stated in subsection B, above, if payment is not received within thirty (30) days after the dispute resolution is memorialized.

5. CANCELLATION OF PERSONNEL.

- A. Neither the City nor the Authority shall be charged for cancellations made more than 24 hours prior to the scheduled event/assignment.
- B. The City agrees that if cancellation is made within 24 hours prior to the scheduled event/assignment and the assigned Agency officer cannot be notified of such cancellation, City shall reimburse Agency a minimum of four (4) hours of compensation for each assigned officer pursuant to the rates identified herein.
- C. Agency agrees to make all reasonable efforts to notify its assigned officer(s) of the cancellation.

6. TERM OF AGREEMENT.

- A. The term of this Agreement shall commence upon execution by the Parties and shall continue for a period of one (1) year, unless terminated sooner or extended in whole or in part as provided for herein.

7. TERMINATION.

- A. Either Party may terminate this Agreement with or without cause by giving not less than sixty (60) days advance written notice to the other Party.
- B. Notwithstanding the foregoing, Agency may terminate the Agreement on only twenty (20) days advance notice, or less in the event of exigent circumstances, if Agency concludes that there are insufficient personnel to provide the agreed upon services and still perform other Agency duties as required by law.
- C. In the event of a termination, each Party shall fully discharge all obligations owed to the other Party accruing prior to the date of such termination, and, except as otherwise provided herein, each Party shall be released from all obligations, which would otherwise accrue subsequent to the date of termination.

8. FAIR EMPLOYMENT.

While in the performance of services under this Agreement, Agency and its employees and agents shall not discriminate against any other employee or agent because of race, color, creed, national origin, gender, sexual orientation, age, disability, religion, ethnic background, or marital status, in violation of state or federal law.

9. HOLD HARMLESS/INDEMNIFICATION.

- A. For purposes of indemnification, each Party shall be responsible for the acts of its participating employee(s) and shall incur any liabilities arising out of the service and activities of those employees.
- B. Any Agency employee who performs duties under this Agreement shall be deemed to be continuing under the general employment of his or her respective jurisdiction and shall have the same powers, duties, privileges, responsibilities, and immunities as are conferred upon such employee by law in his or her own jurisdiction. Pursuant to Insurance Code Section 11663, the general employer shall be responsible for the entire cost of any worker's compensation payable on account of injury occurring in the course of and arising out of general and special employments.
- C. Pursuant to Government Code Section 895.4, each of the parties hereto shall fully indemnify and hold each of the other parties, their officers, employees, and agents, harmless from any damage or liability imposed for injury (as defined in Government Code Section 810.8) occurring by reason of negligent acts or omissions or willful misconduct of the indemnifying party, its officers, employees or agents, under or in connection with any work performed or authority delegated to such party under this Agreement. No party, nor any officer, employee or agent thereof shall be responsible for any damage or liability occurring by reason of the negligent acts or omissions or willful misconduct of the other parties hereto, their officers, employees or agents, under or in connection with any work performed or authority delegated to such other parties under this Agreement.

10. ASSIGNMENT, DELEGATION, AND SUBCONTRACTING.

A Party shall not assign its rights and/or subcontract, or otherwise delegate, its duties under this Agreement, either in whole or in part, without the prior written consent of the other Party, and any attempted assignment or delegation without such consent shall be null and void.

11. INTEGRATED DOCUMENT.

This Agreement represents the entire agreement between City and Agency. No other understanding, agreements, or conversations with any representative of either Party prior to execution of this Agreement shall affect or modify any of the terms or obligations of this Agreement. Any verbal agreement shall be considered unofficial information and is not binding upon either Party.

12. SEVERABILITY AND WAIVER.

In case any one or more of the provisions in this Agreement shall, for any reason, be held invalid, illegal or unenforceable in any respect, it shall not affect the validity of the other provisions, which shall remain in full force and effect. Agency agrees that waiver by City of any one or more of the conditions of performance under this Agreement shall not be construed as waiver(s) of any other condition of performance under this Agreement.

13. NOTICES.

All notices to the Parties shall, unless otherwise requested in writing, be sent to City as follows:

City of Santa Clara
Attn: Chief of Police
601 El Camino Real
Santa Clara, CA 95050
or by email at manager@santaclaraca.gov

And to Agency addressed as follows:

City of Milpitas
Attn:

If notice is sent via email, a signed, hard copy of the material shall also be mailed. The workday the email was sent shall control the date notice was deemed given. An email transmitted after 1:00 p.m. on a Friday shall be deemed to have been transmitted on the following Monday.

14. LAW GOVERNING CONTRACT AND VENUE.

This Agreement shall be governed and construed in accordance with the statutes and laws of the State of California. The venue of any suit filed by either Party shall be vested in the state courts of the County of Santa Clara.

[Signatures on next page.]

The Parties acknowledge and accept the terms and conditions of this Agreement as evidenced by the following signatures of their duly authorized representatives. It is the intent of the Parties that this Agreement shall become operative on the Effective Date.

RESOLUTION NO. _____

**A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA
DELEGATING AUTHORITY TO THE CITY MANAGER TO
NEGOTIATE AND EXECUTE INDEMNITY AGREEMENTS AND
MUNICIPAL LAW ENFORCEMENT SERVICES AGREEMENTS**

BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

WHEREAS, it is the City of Santa Clara's obligation to provide public safety services within its jurisdictional boundaries, including at Levi's Stadium;

WHEREAS, in order to provide the sufficient number of sworn and non-sworn personnel, the City contracts with neighboring agencies to provide same (pursuant to Government Code Sections 55632, 54981, and City Charter Section 1108) to work at the Stadium and in surrounding areas on event days;

WHEREAS, generally the form of the agreement with the neighboring agency will be either an Indemnity Agreement when the agency is permitting their staff to act in a "double-badge" capacity for the City, or a Municipal Law Enforcement Services Agreement when the agency is providing staff who will be performing services under the umbrella of their home agency;

WHEREAS, currently if the neighboring agency agrees to provide personnel at a time when Council is not in session, or the contract cannot be brought to Council for approval prior to the event day for some other reason, the City risks having insufficient public safety staffing for the event; and

WHEREAS, in order to ensure that such timing considerations do not negatively impact the City's ability to contract for the necessary public safety staffing, the City Council wishes to delegate authority to the City Manager to negotiate and execute Indemnity Agreements and Municipal Law Enforcement Services Agreements for public safety services on behalf of the City.

NOW THEREFORE, BE IT FURTHER RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

1. That the City Manager is hereby authorized to negotiate and execute Indemnity

Agreements and Municipal Law Enforcement Services Agreements on behalf of the City of Santa Clara, in a form approved by the City Attorney's Office, for public safety services performed at or around Levi's Stadium on event days.

2. Effective date. This resolution shall become effective immediately.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED AND ADOPTED BY THE CITY OF SANTA CLARA, CALIFORNIA, AT A REGULAR MEETING THEREOF HELD ON THE ____ DAY OF _____, 2023, BY THE FOLLOWING VOTE:

Agenda Report

23-144

Agenda Date: 6/27/2023

REPORT TO COUNCIL

SUBJECT

Public Hearing: Action on the Adoption of the Proposed FY 2023/24 & FY 2024/25 Biennial Operating Budget and FY 2023/24 Capital Improvement Program Changes

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

City Charter Section 1302 (Budget - Submission to City Council) requires that at least 35 days prior to the beginning of each fiscal year, or at such prior date thereto determined by the City Council, the City Manager shall submit to the City Council the proposed budget. The Proposed Budget is attached to this Report to Council and can be found online at:

[<https://www.santaclaraca.gov/home/showpublisheddocument/80482/638182746058823294>](https://www.santaclaraca.gov/home/showpublisheddocument/80482/638182746058823294).

Study sessions were held on May 9, 2023 and June 6, 2023 to allow the City Council and public to review and provide input on the budget amendment to the Proposed FY 2023/24 and FY 2024/25 Biennial Operating Budget, and Proposed FY 2023/24 Capital Improvement Program budget changes. The June 6, 2023 study session also included follow-up from the May 9, 2023 study session.

The City Council has adopted the following Council Strategic Pillars:

1. Promote and Enhance Economic, Housing and Transportation Development
2. Deliver and Enhance High Quality Efficient Services and Infrastructure
3. Enhance Community Sports and Recreational and Arts Assets
4. Enhance Community Engagement and Transparency
5. Ensure Compliance with Measure J and Manage Levi's Stadium
6. Manage Strategically Our Workforce Capacity and Resources
7. Promote Sustainability and Environmental Protection

The City Council adopts a set of Budget Principles each year. These Budget Principles provide a general framework and approach for developing the City's budget, ensuring fiscal stability by considering both the short and long-term impacts of any funding decisions. These principles are generally consistent with those approved last year with the Budget Stabilization Reserve (BSR) continuing to be set at a minimum of 15% of expenditures; this is an exception to the Budget and Fiscal Policies that set the BSR target at 25% of expenditures. These principles are incorporated as part of the actions considered in this Proposed Budget. The FY 2023/24 Budget Principles can be found in the *Budget and Fiscal Policies* section of the Proposed Budget.

DISCUSSION

City Charter Section 1303 (Budget - Public Hearing) requires that the City Council hold a public hearing on the proposed budget, at which interested parties are given an opportunity to be heard. A public hearing is scheduled for the purpose of taking public input on the City Council adoption of the Proposed FY 2023/24 & FY 2024/25 Biennial Operating Budget and FY 2023/24 Capital Program Budget Changes, including the Housing Authority and Sports and Open Space Authority budgets.

In addition, the City is required to calculate the expenditure appropriation limit from tax proceeds to determine compliance with Proposition 4 (Gann Initiative) and Proposition 111 (Spending Limitation Act of 1990). The City's Gann Appropriations limit is included as a separate report for City Council action. As stated in this companion report, the City's Proposed Budget is in compliance with the Gann Appropriations limit.

Budget Overview

The annual budget serves as a financial plan and operational guide that reflects the policies, goals, and priorities of the City Council and community while also maintaining fiscal stability.

The City's financial position has significantly improved since the adoption of the FY 2022/23 budget. The latest Ten-Year General Fund Forecast shows smaller deficits of \$8.0 million - \$8.9 million in FY 2023/24 and FY 2024/25. This is well below the \$27 million deficit projected in June 2022 and reflects stronger revenue growth in several areas as described in further detail in the *Ten-Year Financial Forecast* section of the Proposed Budget document. While the financial picture is much better, it is important to note that significant economic uncertainty and the risk of a recession persists.

The Proposed Budget continues the multi-pronged approach to solve the General Fund deficit with new revenues, one-time and ongoing expenditure savings, and use of reserves. Based on the improved financial position, this budget preserves services with fewer reductions necessary. The expenditure reductions limit direct service impacts, with the goal of stabilizing the services residents access on a regular basis as the organization continues to recover from the COVID-19 service disruptions. As part of this recovery, the City continues to fill vacant positions, which will result in an overall improvement to the services the City provides with the funding included in this budget.

With the recommended amendments to the Proposed Budget, the expenditure budget totals \$1.8 billion in FY 2023/24 and \$1.2 billion in FY 2024/25, as shown in Attachment 7 (Table 1). The budget includes adjustments for transfers, contributions and reserves to avoid double counting of the same funds (e.g. internal service funds are excluded).

The FY 2023/24 and FY 2024/25 Proposed Budget incorporates actions to bring the budget into balance, particularly in the General Fund that represents approximately one-fifth of the total budget. Staff has carefully analyzed all department budget proposals, considering the fiscal year projected resources, anticipated service impacts to Santa Clara residents and businesses, and City Council goals, principles and priorities. The Proposed Budget also factors in recommended changes to FY 2023/24 capital projects as well as recommended capital budget carryovers from FY 2022/23.

With the projected General Fund shortfall of \$8.0 million in FY 2023/24, the budget balancing strategy for the FY 2023/24 and FY 2024/25 Biennial Operating Budget incorporates a combination of increased revenues, one-time and ongoing expenditure reductions, and use of reserves as shown in

Attachment 7 (Table 2). This strategy is intended to preserve services while also maintaining the City's fiscal stability.

Following is a summary of the budget balancing components that are also discussed in more detail in the individual department sections of the budget document:

- **Revenue Solutions:** Part of the balancing strategy is to factor in increases to specific revenue sources. In November 2020, Santa Clara voters approved to increase the Transient Occupancy Tax rate by up to 4%, and the first two percentage point increase went into effect on January 1, 2022. The Proposed Budget assumes that the City Council will phase in the remaining increase in FY 2023/24 (1 percent in January 2024) and in FY 2024/25 (1 percent in January 2025), which would increase the rate from 11.5% to 13.5%. The rate increases would generate additional revenue of approximately \$0.9 million in FY 2023/24 and increasing to \$3.4 million ongoing. Fee adjustments have also been factored into this proposed budget. The fee increases incorporated into the FY 2023/24 were brought forward and approved by the City Council on April 18, 2023. This includes additional revenue assumed for the Parks & Recreation Sports Field Reservations Program, Public Works engineering fees, and Community Development fees. The anticipated increase to the Storm Drain Environmental Compliance fee is also reflected in the FY 2024/25 fee adjustments above. The funding sources also include a one-time transfer of \$149,000 from the Vehicle Replacement Fund for the sale of vehicles that will be retired as a budget proposal.
- **Expenditure Reductions:** one-time expenditure savings in both the Fire and Police Departments are expected to be realized in this biennial budget with no service delivery impacts. In FY 2022/23, the Fire Department was awarded a three-year SAFER grant, which will generate annual net overtime savings (\$1.0 million to \$3.1 million) during the grant period. In the Police Department, an increase to the Police Department's vacancy factor is recommended to align with historical performance. This results in no position reduction and provides the General Fund with approximately \$1.6 million and \$1.7 million in savings in FY 2023/24 and FY 2024/25, respectively. The vacancy factor adjustment has no impact in terms of recruitment or hiring efforts on the Police Department's side. Other departmental reductions limit direct service impacts, and the 4.0 position reductions are in strategic supports areas (City Attorney's Office, City Manager's Office, City Auditor's Office, Human Resources Department).
- **Use of Reserves/Future Unidentified Solutions:** In FY 2022/23, the City Council approved the establishment of a Budget Balancing Reserve as part of the FY 2021/22 Budgetary Year-End Close process. This Proposed Budget uses \$1.1 million of this reserve in FY 2023/24 and replenishes the amount in FY 2024/25. After the biennial budget period, additional balancing solutions are expected to be necessary and a revised forecast will inform the needed actions at that time.

The proposed budget balancing strategy addresses approximately half of the budget deficit with ongoing solutions. This continues the use of one-time and ongoing actions to bring the budget into balance, allowing time for the City's finances to recover. This strategy, however, does not provide capacity to restore services or to address the significant backlog of unmet and deferred capital needs.

Future Revenue Opportunities

While not incorporated into the budget figures presented in the Proposed Budget, the Administration will continue to evaluate future revenue opportunities that can help address a portion of the remaining ongoing General Fund shortfall, better position the City moving forward, address capital infrastructure needs, and align the City's revenues with other jurisdictions.

Other potential measures include, but are not limited to: 1) implement a General Obligation Bond to fund capital infrastructure needs; 2) establish a library or community services Parcel Tax; 3) increase the Property Documentary Transfer Tax; 4) establish a district sales tax; and 5) establish a utility users tax. These measures would require voter approval. Staff will seek direction from the City Council on those measures to potentially pursue during FY 2023/24.

Proposed FY 2023/24 Capital Improvement Program Amendments

The City Council approved the FY 2022/23 and 2023/24 Biennial Capital Budget and five-year capital improvement plan in June 2022. While the focus of this year's budget is operations, several budget amendments to the FY 2023/24 Adopted Capital Budget are also recommended, including a street trees replacement project funded by the General Fund Capital Projects Reserve as well as those funded by other funds. Further detail can be found in the *Appendices* section of the Proposed Budget.

Transient Occupancy Tax Direction

As discussed above, in November 2020, Santa Clara voters approved to increase the Transient Occupancy Tax rate by up to four percentage points from the rate of 9.5%; the first two percentage point increase went into effect on January 1, 2022. The Proposed Budget assumes that the City Council will phase in the remaining increase in FY 2023/24 (1 percent in January 2024) and in FY 2024/25 (1 percent in January 2025), which would increase the rate from 11.5% to 13.5%. A recommendation is included in this report to direct staff to bring forward a separate resolution to increase the Transient Occupancy Tax rate by one percentage point effective January 1, 2024. This resolution is expected to be brought forward to the City Council later this calendar year.

May 9th and June 6th Budget Study Sessions

The City Council and public provided feedback and had questions regarding the Proposed Operating Budget. This included discussion about elements of the General Fund Forecast, budget mechanics, and the budget balancing strategy. There were also questions regarding various revenues and expenditures (e.g., sales tax, transient occupancy tax, cannabis, CalPERS, use of one-time funds/reserves, budgeting for vacancies, available capital funding).

Concerns around staffing and recruitment were discussed. There was an interest in increasing library and Senior Center hours by filling vacancies, and the Council inquired about the timeline for these improvements. There was also discussion around public safety and the need to continue funding both the Fire and Police Departments, along with the programs and services they offer. The Council expressed interest in exploring new sources of revenue for the City to address the significant unmet

infrastructure needs. In addition, the Council was concerned about the fees for public facility rentals, and this item will be brought forward separately during FY 2023/24.

Responses to questions from the study sessions are included in Attachment 4 and Attachment 5 of this Report to Council. This report also includes a Budget-in-Brief as Attachment 6, a concise summary of the FY 2023/24 and FY 2024/25 proposed budget document.

Changes to the Proposed Budget

Recommended revisions to the Proposed Budget, including the carryover of capital funds from FY 2022/23 to FY 2023/24 and other budget adjustments are described in Attachment 2. Subsequent to the posting of the FY 2023/24 and FY 2024/25 Proposed Biennial Operating Budget, the City Council approved the Community Development Department's FY 2023/24 Annual Action Plan (AAP) on May 9, 2023. Actions in the Housing and Urban Development Fund are recommended to align with the approved AAP.

On May 2, 2023, the City Council approved Community Development Department staff, in partnership with the County of Santa Clara, to move forward with the Homekey Interim Housing Development Project. This project would enable the development of interim housing at the corner of Lawrence Expressway and Benton Street. As part of this approval, City Council provided direction for staff to return with a budget action appropriating up to \$5.5 million from various Housing funds for the operations at the Benton/Lawrence interim housing site. As detailed in Attachment 2, budget actions are recommended in the City Affordable Housing Fund, the City Affordable Capital Fund and the Housing Authority Fund to support this project. Although budgeted, no monies will be expended on this project until City Council approves a final agreement with the County on terms for the release of funds and City requirements for project operations.

A limited number of adjustments are recommended in operating funds to complete projects and deliver programs.

Housing Authority Proposed Budget

The Housing Authority Fund expenditure budget totals \$457,193 in FY 2023/24 and \$414,581 in FY 2024/25 as shown in the Proposed Budget. The budget allows the City of Santa Clara Housing Authority to continue to manage and monitor housing assets from the dissolution of the Redevelopment Agency. Additionally, funding will be used to support loan monitoring, administration and other programs and projects related to affordable housing.

Sports and Open Space Authority Budget

The Sports and Open Space Authority expenditure budget totals \$10,000 in FY 2023/24 and \$10,200 in FY 2024/25 as shown in the Proposed Budget. The purpose of the Sports and Open Space Authority is to support the acquisition and preservation of open space within the City and the development of local sports.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environment Quality Act ("CEQA") pursuant to section 15378(a)(4) of Title 14 of the California Code

of Regulations in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

FISCAL IMPACT

With the recommended adjustments detailed in Attachment 2, the FY 2023/24 and FY 2024/25 Proposed Biennial Operating Budget totals \$1.6 billion and \$1.4 billion, respectively, and the FY 2023/24 Capital Budget totals \$657 million in FY 2023/24. These amounts are itemized in the Appropriation Schedule included as Attachment 3.

COORDINATION

This report has been coordinated with the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

1. Approve the Proposed FY 2023/24 and FY 2024/25 Biennial Operating Budget and FY 2023/24 Capital Budget changes, including the recommended revisions detailed in Attachment 2;
2. Approve the Appropriation Schedule for operating funds totaling \$1,617,369,144 in FY 2023/24 and \$1,374,568,875 in FY 2024/25 and the FY 2023/24 Appropriation Schedule for capital funds totaling \$657,486,151 as detailed in Attachment 3;
3. Approve the Housing Authority FY 2023/24 expenditure budget of \$457,193 and FY 2024/25 expenditure budget of \$414,581 as presented in the Operating Budget;
4. Approve the Sports and Open Space Authority FY 2023/24 expenditure budget of \$10,000 and FY 2024/25 expenditure budget of \$10,200 as presented in the Operating Budget; and
5. Direct staff to bring forward a separate resolution to increase the Transient Occupancy Tax rate by one percentage point effective January 1, 2024.

April 28, 2023

Honorable Mayor, City Council and Residents of Santa Clara,

The Proposed Biennial Operating Budget for fiscal years (FY) 2023/24 and 2024/25 is presented for consideration and continues the biennial budget process that alternates between an operating and capital budget. This year's budget focuses on our day-to-day operations that support vital City services. Amendments to the FY 2023/24 capital budget are also included.

As part of the budget deliberation process, two City Council study sessions are scheduled for May 9, 2023 and June 6, 2023 before the public hearing and planned budget adoption on June 27, 2023.

For FY 2023/24, the Proposed Operating Budget totals \$1.1 billion. The enterprise funds that are used to manage the City's utilities (Silicon Valley Power, water, sewer, and solid waste) represent the largest share of the budget at 54.3%. The General Fund budget totals \$280.8 million, or 17.5% of the budget, and is used to fund many direct services, such as police and fire public safety services, libraries, parks, community centers, and streets maintenance.

Over the past few years, there have been significant financial challenges stemming from COVID-19. This necessitated General Fund budget balancing actions starting in FY 2020/21 and continued over the past three years. A combination of strategies has been used to address the budget deficits, including the use of one-time reserves and federal stimulus funds, new revenues, and expenditure reductions. This multi-pronged approach has balanced the competing goals of aligning ongoing revenues and expenditures and minimizing the service delivery impacts to the community. It has also allowed time for General Fund revenues to recover.

This strategy has positioned the City well for the FY 2023/24 and FY 2024/25 Proposed Biennial Budget that solves a smaller projected General Fund deficit.

Budget Milestones:

April 28: Release of Proposed Budget

May 9: City Council Study Session on Proposed Budget

June 6: City Council Study Session on Proposed Budget

June 27: Public Hearing and Adoption of FY 2023/24 and FY 2024/25 Biennial Operating Budget and Amendments to the FY 2023/24 Capital Budget

July 1: Start of Fiscal Year 2023/24

The City's financial position has significantly improved since the adoption of the FY 2022/23 budget. The latest Ten-Year General Fund Forecast shows smaller deficits of \$8.0 million and \$8.9 million in FY 2023/24 and FY 2024/25. This is well below the \$27 million deficit projected in June 2022 and reflects stronger revenue growth in several areas as summarized in the *Ten-Year Financial Forecast and Economic Outlook* discussion below and described in further detail in the *Ten-Year Financial Forecast* section of this document. While the financial picture is much better, it is important to note that significant economic uncertainty and the risk of a recession persists.

General Fund Budget Balancing Strategy

The Proposed Budget continues the multi-pronged approach to solve the deficit with new revenues, one-time and ongoing expenditure savings, and use of reserves. Based on the improved financial position, this budget preserves services with fewer reductions necessary. The expenditure reductions limit direct service impacts, with the goal of stabilizing the services residents access on a regular basis as the organization continues to recover from the COVID-19 service disruptions. As part of this recovery, the City continues to fill vacant positions, which will result in an overall improvement to the services the City provides with the funding included in this budget.

Total Budget Overview

The expenditures in the FY 2023/24 Proposed Budget total \$1.5 billion and reflect an increase of 12% from the FY 2022/23 Adopted Budget. In FY 2024/25, the budget decreases to \$1.2 billion as a result of one-time Electric Utility and Sewer Utility debt issuances anticipated in FY 2023/24 for capital projects. The issuance of debt financing is also the primary reason the FY 2023/24 Proposed Budget is above the FY 2022/23 Adopted Budget of \$1.33 billion. Table 1 summarizes the total proposed budgets by fund group.

Table 1: FY 2023/24 and FY 2024/25 Proposed Budget

Table 1: FY 2023/24 and FY 2024/25 Proposed Budget			
Fund Type	FY 2022/23 Adopted Budget	FY 2023/24 Proposed Budget	FY 2024/25 Proposed Budget
General Fund	\$272,355,355	\$280,773,558	\$287,458,968
Special Revenue Funds	28,469,289	38,411,889	37,111,226
Enterprise Funds	815,864,620	872,344,414	968,035,945
Internal Service Funds	42,429,153	38,850,861	41,629,602
Debt/Other	19,846,647	374,983,049	40,658,134
Less (Transfers, Contributions, and Reserves)*	(203,142,482)	(509,709,569)	(247,780,561)
Subtotal Operating Budget	\$975,822,582	\$1,095,654,202	\$1,127,113,314
Capital Funds	\$357,380,666	\$396,879,114	\$108,385,754
Less (Transfers, Contributions, and Reserves)*	(1,454,000)	(1,588,205)	(1,454,000)
Subtotal Capital Budget	\$355,926,666	\$395,290,909	\$106,931,754
Total Budget	\$1,331,749,248	\$1,490,945,111	\$1,234,045,068

* Adjusts for transfers, contributions and reserves to avoid double counting of the same funds (e.g., internal service funds are excluded)

The FY 2023/24 and FY 2024/25 Proposed Budget incorporates actions to bring the budget into balance, particularly in the General Fund that represents approximately one-fifth of the total budget. Staff has carefully analyzed all department budget proposals, considering the fiscal year projected resources, anticipated service impacts to Santa Clara residents and businesses, and City Council goals, principles and priorities. The Proposed Budget also factors in recommended changes to FY 2023/24 capital projects, including a street trees replacement project funded by the General Fund Capital Projects Reserve as well as those funded by other funds.

Guiding Framework

The City Council has adopted the following Council Strategic Pillars:

1. Promote and Enhance Economic, Housing and Transportation Development
2. Deliver and Enhance High Quality Efficient Services and Infrastructure
3. Enhance Community Sports and Recreational and Arts Assets
4. Enhance Community Engagement and Transparency
5. Ensure Compliance with Measure J and Manage Levi's Stadium
6. Manage Strategically Our Workforce Capacity and Resources
7. Promote Sustainability and Environmental Protection

The City Council adopts a set of Budget Principles each year. These Budget Principles provide a general framework and approach for developing the City's budget, ensuring fiscal stability by considering both the short and long-term impacts of any funding decisions. These principles are generally consistent with those approved last year with the Budget Stabilization Reserve (BSR) continuing to be set at a minimum of 15% of expenditures; this is an exception to the Council policy that would set the BSR at 25% of expenditures. These principles are incorporated as part of the actions considered in this Proposed Budget. The FY 2023/24 Budget Principles can be found in the ***Budget and Fiscal Policies*** section of this document.

Summary of Budgeted Positions

The FY 2023/24 Proposed Budget reflects a net addition of 22.25 positions from the FY 2022/23 Adopted Budget level as shown in Table 2 below. Almost all of the changes are Base Budget adjustments, which reflect position changes previously approved by the City Council at a separate City Council meeting. The FY 2023/24 Base Budget adjustments include the following: the addition of 18.0 Firefighter positions funded by the SAFER grant during FY 2022/23; the addition of 10.0 positions funded by SVP, including 8.0 in the Electric Utility Department, 1.0 in the Human Resources Department, and 1.0 in the Finance Department; the addition of 5.0 development funded positions, including 3.0 in the Community Development Department and 2.0 in the Fire Department; the change of an Office Specialist position in the Library from 0.5 to 0.75 FTE and the change of two part-time (0.5 FTE) Librarian positions to one full-time (1.0 FTE) Librarian position; and the freezing of 7.0 positions funded by the Related development based on discussions with Related.

The FY 2023/24 Proposed Budget includes the reduction of 4.0 positions (3.0 frozen positions and 1.0 elimination). In FY 2024/25, the addition of 4.0 positions in the Community Development Department is proposed to support development activity.

The changes by department are described in further detail in Table 2 below and in each department section of this document.

Table 2: Summary of Position Changes (All Funds)

Summary of Position Changes (All Funds)	
FY 2022/23 Budget	1,127.00
Base Budget Changes (Fire SAFER Grant firefighter positions)	18.00
Base Budget Changes (SVP Funded)	10.00
Base Budget Changes (Development Fee Funded)	5.00
Base Budget (Other Changes)	0.25
Base Budget Changes (freeze Related-funded positions)	(7.00)
Proposed Budget Changes - General Fund Reductions	(4.00)
FY 2023/24 Budgeted Positions	1,149.25
FY 2024/25 Proposed Additional Positions (Building Fee Funded)	4.00
FY 2024/25 Budgeted Positions	1,153.25

The following table below summarizes the budgeted position changes by department. A detailed summary of Base Budget position changes can be found in the Department sections of this document.

¹The IT Department partners with a service provider to meet citywide technology needs.

²The City Manager's Office also oversees the Non-Departmental functions (e.g., citywide administration, Stadium Authority support, communications, community/special programs and initiatives, economic/real estate development, State and federal legislative coordination, etc.).

Ten-Year Financial Forecast and Economic Outlook

The Ten-Year General Financial Forecast (Forecast) provides policy makers and the public an updated assessment of the City's fiscal health and serves as a strategic planning tool to assist the City Council, staff, and the public with decision-making as they work to adopt the budget and consider long-term financial strategies for the City. The Forecast also identifies known risk factors and vulnerabilities, and it provides a foundation for evaluating priorities and understanding trade-offs moving forward.

The Forecast compares anticipated ongoing General Fund revenues with base expenditures, which include the projected costs of providing the current level of service. Individual projections of revenues and expenditures are developed based on trend analyses, input from available economic reports, consultant recommendations, departments, updated salary and benefit information, and non-personnel costs. The most current information available is incorporated into the Forecast.

As shown in Table 3 below, this Forecast shows a General Fund shortfall of \$8.0 million in FY 2023/24 and \$8.9 million in FY 2024/25, with the projected deficit reaching a high of \$15.0 million in FY 2028/29 and a low of \$7.5 million in FY 2033/34. The projected shortfall of \$8.0 million in FY 2023/24 is equivalent to 2.8% of forecasted expenditures.

Table 4: Summary of Funded Positions by Department

FY 2024-2034 General Fund Ten-Year Financial Forecast (\$ in millions)											
	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	2032/33	2033/34
Projected Revenues	\$272.6	\$284.9	\$297.3	\$309.0	\$321.2	\$333.3	\$346.5	\$359.7	\$373.5	\$387.8	\$402.7
Projected Expenditures	\$280.6	\$293.8	\$308.2	\$320.8	\$332.7	\$348.3	\$360.5	\$373.9	\$383.3	\$396.4	\$410.2
Cumulative (Shortfall)/ Surplus	(\$8.0)	(\$8.9)	(\$10.9)	(\$11.8)	(\$11.5)	(\$15.0)	(\$14.0)	(\$14.2)	(\$9.8)	(\$8.6)	(\$7.5)
% of Expenses	2.8%	3.0%	3.5%	3.7%	3.5%	4.3%	3.9%	3.8%	2.5%	2.2%	1.8%

Note: The Forecast does not include the cost to address unmet/deferred infrastructure needs, the cost to fully fund public safety equipment replacement, additional contributions to reserves (Budget Stabilization Reserve, Capital Projects Reserve, Pension Reserve), one-time funding sources, and one-time expenditure needs.

This Forecast reflects a significant improvement from the \$27 million General Fund deficit projected in June 2022. This improvement is due to stronger revenue growth in areas such as Property Tax (\$6 million), the SVP Transfer (\$6 million), the voter approved Business Tax update (\$5 million), and the Transient Occupancy Tax accelerated recovery (\$2 million). While a structural deficit remains, long-term revenue and expenditure growth are in closer alignment as a result of this stronger revenue performance.

The Forecast, however, does not address significant one-time capital infrastructure needs. Historically, the City

has funded many of capital infrastructure and equipment needs with one-time funds on a pay-as-you-go basis. The use of one-time funds as the funding mechanism for capital improvements and various equipment that rely on the General Fund creates challenges. The lack of sufficient one-time funding has resulted in a backlog of unmet/deferred infrastructure needs. Staff will continue to evaluate potential options to create capacity to address those funding needs.

While the Forecast has improved, there are various factors that could have potential positive or negative impacts on the Forecast. These include:

- Economic slowdown/recession;
- Re-assessment of properties for property tax purposes;
- State/federal legislative changes and legal challenges;
- Labor costs outside the budget assumptions;
- CalPERS actuarial changes or reform actions;
- Unanticipated critical capital/infrastructure needs; and
- Maintenance impacts and timing of development projects.

Economic Outlook

The budget is presented in a time where significant economic instability is forecasted for the second half of 2023. The assumptions incorporated into the City's budget factor in the analysis provided by the UCLA Anderson Forecasts. These Forecasts are issued quarterly and provide national and State economic outlooks. Economic indicators are mixed, and there is a tremendous amount of uncertainty forecasted for later this calendar year. Given this level of uncertainty, both the December 2022 and March 2023 UCLA Anderson Forecasts presented a two-scenario approach: recession scenario and no recession scenario. The recession scenario predicts a recession occurring at the end of 2023, where "inflation would have continued to run hot if not for aggressive Federal Reserve action. In this scenario, the Federal Reserve forces a mild recession and accepts an economic contraction and higher unemployment to combat inflation." In the no recession scenario, "economic growth slows but remains positive, inflation ebbs, labor markets remain robust, and the Federal Reserve takes a less aggressive approach to monetary policy tightening".¹

¹ UCLA Anderson Forecast, March 2023, Recession or No Recession? That is the Question

This uncertainty is also reflected in the February 2023 National Association for Business Economics (NABE) Outlook Survey, which found significant divergence regarding the outlook for the U.S. economy. “Estimates of inflation-adjusted gross domestic product or real GDP, inflation, labor market indicators, and interest rates are all widely diffused, likely reflecting a variety of options on the fate of the economy – ranging from recession to soft landing to robust growth.”²

Given this uncertainty, there is greater risk for variances in the economically sensitive revenues, such as Sales Tax, Transient Occupancy Tax and Property Tax. This Forecast assumes moderate economic growth in these areas, with Transient Occupancy Tax continuing to improve from the severe COVID-19 impacts. Adjustments may be necessary in future Forecasts depending on actual economic performance.

Employment data has remained positive with low unemployment rates. On a national level, the unemployment rate was 3.6% in February 2023. This rate was well below the record setting high of 14.7% in April 2020, and slightly above the pre-pandemic unemployment rate of 3.5%.

U.S. Civilian Unemployment Rate, seasonally adjusted

Note: shaded area represents recession, as determined by the National Bureau of Economic Research
Source: U.S. Bureau of Labor Statistics

In the fourth quarter 2022 second estimate, the Gross Domestic Product (GDP) increased at an annual rate of 2.7%, following a GDP increase of 3.2% in the third quarter. The GDP decelerated in the fourth quarter compared to the third due to downturns in exports, State and local government spending as well as a slowing in consumer spending.³

² February 2023 Outlook Survey Summary (nabe.com)

³ https://www.bea.gov/sites/default/files/2023-02/tech4q22_2nd.pdf

While recent local news continues to report layoffs at many of the technology companies in the region, employment indices continue to remain strong. The unemployment rates at the state and local level also remain low, with this region outperforming both the nation and California as shown in Table 5 below.

Table 5: Summary of Unemployment Rates

Unemployment Rate (Not Seasonally Adjusted)				
	Dec 2019	Dec 2020	Dec 2021	Dec 2022
Nation	3.4%	6.5%	3.7%	3.3%
California	3.9%	8.9%	5.0%	3.9%
San José-Sunnyvale-Santa Clara Metropolitan Statistical Area	2.4%	6.2%	2.9%	2.4%
Source: California Employment Development Department, U.S. Bureau of Labor Statistics				

Property values in Santa Clara remain high. In 2022, the median price of a single-family home was \$1.8 million, which was up from the 2021 level of \$1.64 million as shown in the Single-Family Residential Home Sales chart. The number of single-family closed sales, however, was down from 659 in 2021 to 515 in 2022. With the rise in interest rates from the historic lows experienced over the last several years, there is risk to this sector. In the first quarter 2023, the median single-family home price was \$1.6 million and there were 68 closed sales.

Data Source: Santa Clara County Association of Realtors

There are significant development projects underway in Santa Clara that will bring new revenues as well as new costs. While the full financial impacts of these developments have not been factored into the Forecast given the uncertainty regarding the timing, the Forecast assumes the continuation of additional development activity in the City. Roughly \$700 million to \$1 billion in new valuation is assumed annually in the Forecast. To the extent growth is experienced beyond this assumption, this will have a positive impact to the City's future budget forecast.

General Fund Budget Balancing Strategy

With the projected General Fund shortfall of \$8.0 million in FY 2023/24, the budget balancing strategy for the FY 2023/24 and FY 2024/25 Biennial Operating Budget incorporates a combination of increased revenues, one-time and ongoing expenditure reductions, and use of reserves as shown in Table 6 below. This table also includes an ongoing shortfall figure that reflects the average of the projected shortfalls in years three through five of the Ten-Year General Fund Forecast along with the ongoing balancing actions.

Table 6: FY 2023/24 and FY 2024/25 General Fund Balancing

FY 2023/24 and FY 2024/25 Biennial Operating Budget General Fund Balancing (\$ in millions)			
	FY 2023/24	FY 2024/25	Ongoing
Forecast Shortfall	(\$8.0 M)	(\$8.9 M)	(\$11.4 M)
Increased Revenues			
• Increased TOT Rate (phased 2%)	0.9	1.7	3.4
• Fee Adjustments	0.5	0.8	0.8
• One-Time Revenues	0.2	0.0	0.0
Total Revenue Solutions	1.6	2.5	4.2
Expenditure Reductions			
• Fire SAFER Grant	1.0	3.1	0.0
• Police Vacancy Savings	1.6	1.7	0.0
• Other Departmental Proposals	2.7	2.7	2.0
Total Expenditure Solutions	5.3	7.5	2.0
Use of Reserves/(Contribution to Reserves)			
Budget Balancing Reserve/Other Reserves	1.1	(1.1)	5.2
Total Use of Reserves/(Contribution to Reserves)	1.1	(1.1)	5.2
General Fund Balancing Total	\$8.0 M	\$8.9 M	\$11.4 M

The budget balancing strategy is intended to preserve services while also maintaining the City's fiscal stability. Following is a summary of the budget balancing components that are also discussed in more detail in the individual department sections of the budget document:

- **Revenue Solutions:** Part of the balancing strategy is to factor in increases to specific revenue sources. In November 2020, Santa Clara voters approved to increase the Transient Occupancy Tax rate by up to 4%, and the first two percentage point increase went into effect on January 1, 2022. The Proposed Budget assumes that the City Council will phase in the remaining increase in FY 2023/24 (1 percent in January 2024) and in FY 2024/25 (1 percent in January 2025), which would increase the rate from 11.5% to 13.5%. The rate increases would generate additional revenue of approximately \$0.9 million in FY 2023/24 and increasing to \$3.4 million ongoing. These increases will bring the City's rates slightly above mid-point when compared to other cities in the County. Outreach regarding this proposal occurred with

several large City hotels earlier in March 2023. Fee adjustments have also been factored into this proposed budget. The fee increases were brought forward and approved by the City Council on April 18, 2023 as part of the adoption of the FY 2023/24 Municipal Fee Schedule. An anticipated increase to the Storm Drain Environmental Compliance fee is also reflected in the FY 2024/25 fee adjustments above.

- **Expenditure Reductions:** one-time expenditure savings in both the Fire and Police Departments are expected to be realized in this biennial budget with no service delivery impacts. In FY 2022/23, the Fire Department was awarded a three-year SAFER grant, which will generate annual net overtime savings (\$1.0 million to \$3.1 million) during the grant period. In the Police Department, an increase to the Department's vacancy factor is recommended to align with the historical staffing rates over the past decade. This results in no position reduction and provides the General Fund with approximately \$1.6 million and \$1.7 million in savings in FY 2023/24 and FY 2024/25, respectively. The vacancy factor adjustment will allow the continuation of recruitment or hiring efforts as currently experienced in the Fire and Police Departments. Other departmental reductions limit direct service impacts, and the 4.0 position reductions are in strategic support areas (City Attorney's Office, City Manager's Office, City Auditor's Office, and the Human Resources Department).
- **Use of Reserves:** In FY 2022/23, the City Council approved the establishment of a Budget Balancing Reserve as part of the FY 2021/22 Budgetary Year-End Close process. This Proposed Budget uses \$1.1 million of this reserve in FY 2023/24 and replenishes the amount in FY 2024/25. After the biennial budget period, the use of additional reserves may be necessary depending on the fiscal situation at that time and the budget balancing solutions brought forward.

The proposed budget balancing strategy addresses approximately half of the budget deficit with ongoing solutions. This continues the use of one-time and ongoing actions to bring the budget into balance, allowing time for the City's finances to recover. This strategy, however, does not provide capacity to restore services or to address the significant backlog of unmet and deferred capital needs.

Proposed Budget Highlights

Budget proposals are recommended to address a portion of the General Fund shortfall, to meet development services needs through fee-funded additions, and to support special and enterprise fund activities.

Highlights of these proposals are provided below and are aligned to the City's strategic pillars:

Promote and Enhance Economic, Housing and Transportation Development

- **CDBG and Housing Funds** – The City remains committed to maintaining its housing programs to provide aid to its most vulnerable residents. As recommended in the City's Annual Action Plan, the FY 2023/24 budget includes over \$2.0 million of CDBG funds for various public service activities (e.g., including family therapy and advocacy, educational services, senior adult legal assistance, and providing meals to seniors and adults with disabilities) along with funding also set aside for capital projects for affordable housing and public facility improvements. One-time funding from the HOME American Rescue Plan is also programmed in FY 2023/24 to provide additional funding for Tenant-Based Rental Assistance and homelessness outreach.

- **Convention Center** – The Convention Center continues to increase its activity levels compared to the two prior fiscal years given the continued recovery from the pandemic. In FY 2023/24, the Convention Center is projected to have 220 events, with approximately 246,196 in attendance, which reflects over 100% growth in attendance when compared to FY 2022/23 projected attendance. In FY 2024/25, the Convention Center is projected to have 255 events, with approximately 260,846 in attendance.

Deliver and Enhance High Quality Efficient Services and Infrastructure

- **City-Wide Services** – As hiring continues and vacancies are filled, the City will be able to enhance the services to the public using the funding provided in this Proposed Budget. Improvements are expected in areas such as library services with the expansion of service hours, public safety, maintenance activities, development services, and support for the City's utilities. The pandemic seriously disrupted the City's service delivery and the City is still recovering from those impacts.

- **Community Development** – Fee-supported budget proposals are recommended to improve service and efficiency and support the high volume of development activity. These additions include one-time funding for various software and hardware upgrades focused on bringing efficiencies for staff and flexibility to customers. Also recommended are the addition of 1.0 Permit Technician, 1.0 Office Specialist II, 1.0 Office Specialist III, and 1.0 Office Specialist IV to help manage the workload in both the Building Division's administrative team and Permit Center.
- **Electric Utility** – Proposals are recommended to increase substation maintenance and outage response and repair to ensure the reliability of substations as the number of substations increases and related technology implementations advance, augment underground maintenance and tree trimming services directed at reducing power distribution system outages, enhance generation maintenance so that in-town generation assets are in peak operating condition, and provide a managed training portal software for staff to ensure that all compliance requirements related to system operations tasks are met.
- **Water and Sewer** – In the Water and Sewer Funds, resources are aligned with the expected activity, including adjustments to water purchases, expected contributions to the Regional Wastewater Facility operating and maintenance costs, including the issuance of additional debt in FY 2023/24. The revenue estimates in the water and sewer enterprise funds are also aligned with the expected activity levels and reflect anticipated rate increases.
- **Capital Improvement Program** – Work will continue on improving the City's infrastructure through the implementation of capital projects approved as part of the FY 2022/23 and FY 2023/24 Biennial Capital Budget. Amendments to the FY 2023/24 capital budget are also included with this document as described in more detail below.

Enhance Community Sports and Recreational and Arts Assets

- Parks and Recreation Capital Improvements** – Based on age, condition and Council established priorities, the City is rehabilitating and expanding its park facilities, amenities and playgrounds for all ages and abilities at Warburton Park, Henry Schmidt Park, Westwood Oaks Park playground, Montague Park and Central Park Magical Bridge Playground. The Department is acquiring, developing and opening new community buildings at Lawrence Station Area (Nuevo Community Buildings) and a community arts center at Patrick Henry Drive Specific Plan Area. The Parks and Recreation Department will begin outreach on a City-wide Parks & Recreation Master Plan and community input on the Community Park North in the Related City Place project. Mitigation Fee Act and Quimby Act funds are also being allocated for potential parkland acquisition and will be identified in the City-wide Master Plan.

Enhance Community Engagement and Transparency

- Using funding from FY 2022/23, the Library will initiate strategic planning efforts to identify community-based goals for service and to align with City Council priorities.
- The Community Development Department will continue to engage with the Santa Clara community to inform and involve community members in both long-range and current land use planning activities.

Ensure Compliance with Measure J and Manage Levi's Stadium

- The Stadium Authority's stand-alone Fiscal Year 2023/24 Operating, Debt and Capital Budget was adopted by the Stadium Authority Board on March 7, 2023. The \$81.3 million budget provides the necessary funding to administer the duties of the Stadium Authority, including support for operating the Stadium for Non-NFL events through a management company, advancement of the FY 2023/24 work plan, payment of debt service obligations, and maintenance of a five-year capital plan. The Adopted Budget included funding for the Neighborhood Stadium Relations Committee and funding of \$27.8 million for debt service expenses. The capital budget totals \$20.5 million and includes funding for general building, security, furnishings and equipment, and public safety investments.

Manage Strategically Our Workforce Capacity and Resources

- Community Development** – Two funding shifts are proposed in this budget, including the shift of 0.25 Associate Planner from the General Fund to the Building Development Services Fund and the use of the Advanced Planning Fee Reserve to fund 1.0 Senior Planner that is currently General Fund-funded. The Associate Planner shift will provide more capacity for the Building Division to perform conformance reviews. The Senior Planner position will result in increased ability for the Planning Division to perform long-range planning.

- **Police** – While there are no position reductions that are being proposed within the Police Department, an increase to the vacancy factor from 3% to 7% is included in this budget. The new proposed vacancy factor aligns with the historical average vacancy factor the Department has experienced over the past decade. The Department is currently operating at an approximate 12% vacancy factor; therefore, no service level impacts result from this proposal, and the budget allows for the pace of department hiring to continue as experienced before the pandemic.
- **Fire** – The Proposed Budget reflects changes associated with the Staffing for Adequate Fire and Emergency Response (SAFER) grant, a three-year \$11.3 million grant. The grant will partially fund 18 firefighter positions, which included unfreezing 12 positions and adding 6 new positions as approved by the City Council on February 7, 2023 (RTC 23-170). The positions will provide additional relief to help maintain daily minimum staffing of emergency response apparatus and reduce overtime due to absences caused by vacation, sick and disability leaves, resulting in one-time General Fund savings.

- **Parks and Recreation** – A one-time proposal is recommended to reduce the General Fund subsidy to the Cemetery Fund in FY 2023/24 and FY 2024/25 due to increased Cemetery revenues received.
- **Library** – Proposals are recommended to reduce funding for the purchase of library books and materials as well as funding for overtime, utilities, supplies and miscellaneous services, and advertising and community promotion. Library hours are not reduced as a result of these reduction proposals.
- **Public Works** – Ongoing position allocation shifts for Environmental Program staff and the Compliance Manager will align workloads and shift funding out of the General Fund. Proposed removal of underutilized Streets vehicles and equipment provides ongoing reductions in General Fund vehicle amortization and maintenance and operations. The sale of those underutilized vehicles will provide one-time revenues to the General Fund. To continue to support the development planning and building application review, an increase to the Storm Drain contractual services budget is included and offset by additional revenues.
- **City Manager and Non-Departmental** – A proposal to freeze 1.0 Assistant City Manager is recommended in this budget in addition to the ongoing reduction of the Santa Clara Golf Course maintenance budget, which is no longer needed with the continued Related development on that property.
- **Strategic Support** – The ongoing elimination of 1.0 position and the freezing of funding for the Santa Clara Leadership Program are recommended in the Human Resources Department. The one-time freezing of the City Auditor position and 1.0 Assistant City Attorney position are also recommended. Budget proposals in the Information Technology Department include a reduction to the cost-of-living

adjustment for the IT services contract and a reduction in utilities expense. Non-personnel reductions are also recommended in the Finance Department, the Clerk's Office, and the City Auditor's Office.

Promote Sustainability and Environmental Protection

- **Electric Utility** – Additional funding is proposed to support the Large Customer Renewable Energy Program (LCRE) which was approved by City Council on November 16, 2021. Proposals are recommended to expand the electric transportation acceleration initiatives to ensure Santa Clara is an EV Ready Community by 2030. And lastly, several initiatives funded by the Greenhouse Gas Program are brought forward in an effort to expedite Greenhouse Gas (GHG) emission reduction. These programs could include new solar installations, solar installations combined with battery storage, and solar projects combined with electric vehicle (EV) infrastructure for City facilities and neighborhood school locations.

General Fund Revenues and Fees

As discussed in the Budget Balancing section above, the Proposed Budget assumes the continued phase-in of the TOT rate increase. In November 2020, Santa Clara voters approved to increase the Transient Occupancy Tax rate by up to 4% from the rate of 9.5%. In FY 2021/22, 2 percent of the 4 percent potential rate increase was implemented effective January 1, 2022. The Proposed Budget assumes that the City Council will implement the remaining 2 percent of the 4 percent potential rate increase in FY 2023/24 (1 percent in January 2024) and in FY 2024/25 (1 percent in January 2025). A separate resolution to bring this forward is expected to be brought forward to the City Council later this calendar year. Outreach of this proposal was conducted in March 2023 with the large hotels in the City.

Fee adjustments have also been factored into this proposed budget. The fee increases incorporated into the FY 2023/24 were brought forward and approved by the City Council on April 18, 2023. This includes additional revenue assumed for the Parks & Recreation Sports Field Reservations Program, Public Works engineering fees, and Community Development fees. The anticipated increase to the Storm Drain Environmental Compliance fee is also reflected in the FY 2024/25 fee adjustments above.

The funding sources also include a one-time transfer of \$149,000 from the Vehicle Replacement Fund for the sale of vehicles that will be retired as a budget proposal.

Utility Rate Changes

For the City's Utility funds, the Proposed Budget is built on the assumption of various rate changes, with some of the key rates highlighted below.

Table 7: Select Rate Changes for Utility Services

Utility Service	FY 2022/23	FY 2023/24	% Change
Water - Residential per HCF	\$7.33	\$8.01	9.2%
Recycled Water - Irrigation per HCF	\$4.12	\$4.54	10.2%
Sewer - Residential Single Family per month	\$46.82	\$48.34	3.2%
Solid Waste - 32 Gallon Cart (Includes recycling and yard waste charges, and Annual Clean-up Campaign)	\$52.46	\$55.40	5.6%
Solid Waste - 3-Cubic Yard Bin (Serviced one time per week)	\$398.92	\$431.81	8.2%
Electric - Residential per KWH (Effective January 1, 2024) Based on average usage of 420 kwh/month under D1 rate	\$0.14298	\$0.1553	7% (Jan 2024)

The water and sewer rate increases represent Water and Sewer Utility staff estimates. Rates are approved by the City Council annually with the 2023 Rate Hearing scheduled for June 6, 2023. Proposed Solid Waste rate increases and a Public Hearing are scheduled to be brought forward to Council on May 23, 2023. The Electric rate displays the average rate for the fiscal year. For FY 2023/24, the rate assumes an increase of 5% effective July 1, 2023, which will be brought forward to Council in May 2023, and a 7% increase starting January 1, 2024 that is expected to be brought forward for City Council consideration by December 2023.

Future Revenue Opportunities

While not incorporated into the budget figures presented in the Proposed Budget, the Administration will continue to evaluate future revenue opportunities that can help address a portion of the remaining ongoing General Fund shortfall, better position the City moving forward, address capital infrastructure needs, and align the City's revenues when compared with other jurisdictions.

Other potential measures include but are not limited to: 1) addition of a General Obligation Bond to fund capital infrastructure needs; 2) establish a library or community services Parcel Tax; 3) increase to the Property Documentary Transfer Tax; and 4) establish a Utility Tax. Staff will seek direction from the City Council on those measures to potentially pursue.

Amendments to the FY 2023/24 Adopted Capital Budget

The City Council approved the FY 2022/23 and 2023/24 Biennial CIP Budget in June 2022. This action approved a two-year capital budget and presented a five-year capital improvement plan. While the focus of this year's budget is operations, several budget amendments to the FY 2023/24 Adopted Capital Budget are also recommended. Further detail can be found in the **Appendices** section of this document. Some of the key budget amendments are summarized below:

- Silicon Valley Power Electric Utility projects (\$167.5 million) – funding adjustments to several projects are recommended to reflect current project timelines and necessary project augmentations. Funding will support improvements to transmission systems, transformers, transmission lines, receiving stations, as well as other infrastructure needs. Funding is also removed for projects that are not expected to move forward in FY 2023/24 based on the current project timelines. A majority of the increase in funding is due to debt financing for the SRS Rebuild and Replacement, KRS Rebuild and Replacement, NRS-KRS 115kV Line, and the NRS Transformer and Breaker Upgrades projects
- 
- A photograph of a high-voltage electrical substation with several large metal structures and power lines under a clear blue sky.
- Stationary Standby Generators (-\$80,000) – decreases funding to reflect the advancement of some funding from FY 2023/24 to FY 2022/23 as described in RTC 23-1463 approved by Council on February 21, 2023.
 - Related Permit Work (-\$2.0 million) – eliminates this project appropriation as it is directly related to the staffing costs for the 8.0 City positions created to support work on the Related Santa Clara project. Of the 8.0 positions, 1.0 has been shifted to the Building Development Services Fund and the remaining 7.0 have been frozen.
 - Streets and Highways (\$2.0 million) – adds revenue from other agencies and appropriates project funding of \$1.5 million to align with the North San Jose Settlement agreement for the Tasman Complete Streets Plan 2021 Improvements Phase 1 project and allocates General Fund Capital Project Reserve funding to fund emergency street tree services, tree removals, and tree plantings in FY 2023/24.
- 
- An aerial photograph of a large wastewater treatment facility with numerous circular and rectangular tanks, surrounded by green grass and some buildings.
- Sewer projects (-\$4.6 million) – reduces the contributions for the San José/Santa Clara Regional Wastewater Facility based on the latest budget allocation figures provided by the City of San José and an elimination of funding for the Sanitary Sewer System Improvements project to reflect an advancement of that funding to FY 2022/23.

The carryover of unexpended capital project funds from FY 2022/23 to FY 2023/24 is necessary in order to continue or complete projects beyond the current fiscal year. As appropriations lapse annually on June 30th, recommendations to carryover funding will be brought forward under separate cover for City Council consideration as part of the budget adoption in June 2023.

Status of Reserves

The Proposed Budget incorporates reserves in various funds as reflected in the Source and Use Statements.

General Fund Reserves

- **Budget Stabilization Reserve (BSR)** – This reserve is used as an allocation for weathering economic downturns, emergency financial crises or disaster situations. Per Council policy, the Budget Stabilization Reserve (BSR) target is equal to the cost of the City’s General Fund operations for three months, or 25% of the expenditure budget. Given the significant impacts of COVID-19 on the City’s budget, the City Council adopted the FY 2022/23 budget principles that allowed this reserve to drop to 15% of budgeted expenditures. The FY 2023/24 proposed budget principles would also allow the BSR to remain at a minimum of 15% given the City’s continuing fiscal challenges. In the Proposed Budget, the BSR is set at \$45.8 million in FY 2023/24 (16.3% of expenditures) and FY 2024/25 (15.9% of expenditures).
- **Land Sale Reserve** – The City Council established the Land Sale Reserve with net proceeds from the sale of City-owned land, with interest earned on these funds being available to be appropriated for General Fund operating expenditures. The Land Sale Reserve has a projected ending balance of \$18.5 million for FY 2023/24 and FY 2024/25 and is available for appropriation by City Council action. This reserve balance reflects the full repayment of the loan for the Reed Street-Grant Street Sports Park Project (\$5.6 million) in FY 2022/23.
- **Capital Projects Reserve** – The Capital Projects Reserve (CPR) earmarks funds for the Capital Improvement Program (CIP). The minimum target for this reserve is \$5.0 million. This reserve has a projected ending balance of \$6.1 million in FY 2023/24 and FY 2024/25. The use of \$463,050 from the Capital Projects Reserve is recommended for the Street Tree Services project to fund the third and final year of the Modesto Ash tree removals plan.

Utility Fund/Other Reserves

The Utility Funds incorporate various reserves to cover shortfalls in operating revenues, maintain strong bond ratings, cover day-to-day operating costs, and ease the burden on ratepayers associated with large rate increases. These typically include an Operations and Maintenance Reserve (generally set at three months of operations), a construction reserve and a rate stabilization reserve. The Utility Funds also include a Pension Trust Reserve. Select other reserves are set aside in various funds as necessary, such as debt reserves and workers’ compensation and general liability reserve for claims.

Stadium Authority

The Stadium Authority exists as a public body, separate and distinct from the City, and is established to provide for development and operation of Levi’s Stadium. It is structured so that the City will not be liable for debts or obligations of the Stadium Authority. The Stadium Authority’s stand-alone Fiscal Year 2023/24 Operating, Debt and Capital Budget was adopted by the Stadium Authority Board on March 7, 2023 and can be found at <https://www.santaclaraca.gov/our-city/santa-clara-stadium-authority/financial-reports#Stadium-Budget>. This budget reflects the revenues and expenditures related to the support of the Stadium; expenditures related to the Stadium Authority can also be found in the **General Fund Non-Departmental** section of this document.

Next Steps

As part of the budget deliberation process, two City Council study sessions are scheduled for May 9, 2023 and June 6, 2023 before the public hearing and planned budget adoption on June 27, 2023.

An overview of the Proposed FY 2023/24 and 2024/25 Biennial Operating will be presented at the May 9th Study Session.

Summary

The Proposed Fiscal Year 2023/24 and 2024/25 Biennial Operating Budget uses a combination of strategies to balance the budget, including new revenues, one-time and ongoing expenditure reductions, and the use of reserves. This document is intended to provide the City Council and the community with a transparent plan that facilitates discussion of City services and the alignment of proposals with City Council and community priorities.

With the use of one-time and ongoing solutions to address the General Fund shortfall, this budget balances the competing goals of aligning ongoing revenues and expenditures and minimizing the service delivery impacts to the community. This continues the gradual budget balancing approach that has allowed time for the City's fiscal condition to improve. This budget also presents balanced budget for the City's many other operating and capital funds. This includes the City's utility funds that represent the majority of the City's budget and are primarily supported by user fees.

City departments worked together as a team to prepare this fiscally responsible, balanced budget. The hard work and dedication of City's Department Heads and employees are greatly appreciated as we continue to recover from the COVID-19 induced impacts. As part of this recovery, the City is working to fill vacant positions, which will result in an overall improvement to the services the City provides with the Proposed Budget funding.

In closing, I want to thank the City Council for our continued strong partnership in supporting vital City services while also ensuring the fiscal health of the City. It is through this strong partnership that we have already overcome significant budget deficits and continued to provide a wide range of public services that our community enjoys.

Respectfully submitted,

Kenn Lee
Director of Finance

Nadine Nader
Office of the City Manager

SANTA CLARA AT A GLANCE

The City of Santa Clara (City) has always reflected the progressive, bellwether nature of California. It is one of the oldest cities in the state, an agricultural powerhouse in the 1800s, and the birthplace of many of the technology innovations that created Silicon Valley in the 1900s. Today, it maintains its leading-edge status as a community that is nationally recognized for its livability and a city that has a sustainable, bright future powered by the private investment of billions of dollars in new development and growth opportunities.

History

Santa Clara was incorporated in 1852 as a Charter City with a Council/Manager form of government although it existed as a community for hundreds of years prior to that as a village for the Ohlone and their ancestors. European explorers came to the area in the mid-1700s and settled it as a military and religious outpost. It is called the “Mission City” in reference to the Mission Santa Clara de Asis, which opened in 1777 as one of 21 Spanish missions established by Franciscan padres along El Camino Real in California.

Size

Santa Clara encompasses 18.28 square miles in the heart of Northern California’s Santa Clara County, also known as Silicon Valley, in recognition of the region’s leadership in technology innovations that changed the way the world lives, works, learns and plays. It is part of the burgeoning South Bay metropolitan area that includes the City of San José, the 10th largest city in the U.S., and the wider nine-county San Francisco Bay Area that is the fastest growing region in the state.

Population¹

The 2022 population of the City of Santa Clara is estimated at 130,127 and is one of the most diverse in the nation with about 44% of residents born outside the U.S. The City’s residents are highly skilled and educated, with approximately 63% of adults holding a bachelor’s degree or higher. The median age is 34 years and the median household income is reported at \$150,244.

Business¹

Businesses in City of Santa Clara range from entrepreneurial start-ups, to longstanding family owned firms, to the international headquarters of Fortune 500 corporations. Millions of square feet of new office and retail projects are under development or in planning stages, greatly expanding the City's capacity to accommodate businesses that want to start, relocate or expand in a high energy, dynamic environment. Some of the largest employers within the City include Advanced Micro Devices Inc., Applied Materials Inc., California's Great America, Intel Corporation, and Nvidia Corp. In both 2021 and 2022, Silicon Valley (San Jose-Sunnyvale-Santa Clara metropolitan statistical area) was ranked the most dynamic metro area in the United States by Heartland Forward.

City Services

Santa Clara is a full-service city with its own police and fire departments and electric, water and sewer utilities. Other core services include libraries, parks, award winning services and recreational programs for seniors and youth, neighborhood beautification, free citywide outdoor Wi-Fi, special events and support of history and art museums. The City also provides development and planning services, housing programs, and maintenance of the City's transportation infrastructure. In January 2023, the San Francisco Chronicle used 11 metrics to rank the 25 largest cities in the Bay Area with the best quality of life and Santa Clara was ranked 11th.

Housing¹

There are approximately 46,000 households in the City and housing stock continues to expand through new transit-oriented developments that offer lifestyle alternatives to the City's traditional single-family neighborhoods and carefully preserved historic homes. The City is in a metropolitan area that is one of the highest priced housing markets in America. As of January 2023, the median price of a single-family home was \$1,487,500. As of March 2023, the average rent for a one-bedroom apartment is \$2,713. Santa Clara has invested millions of dollars in affordable housing projects that provide 1,849 units for low income seniors, families, homeless and disabled residents.

Transportation

In addition to approximately 610 lane miles of City-owned roadways, Santa Clara is crisscrossed by State Highway 101 and El Camino Real (Highway 82) and two regional County of Santa Clara expressways. Public transit services in the City include Santa Clara Valley Transportation Authority buses and light rail, Caltrain, Altamont Corridor Express (ACE), Capitol Corridor, and Amtrak. A future extension of BART into the South Bay is underway and will terminate in Santa Clara, and the Norman Y. Mineta San José International Airport borders the City. Santa Clara has also placed a priority on enhancing multi-modal transportations for residents and

businesses by providing additional bicycle facilities throughout the City, adopting a Pedestrian Masterplan, creating a Shared Mobility Program (bicycle and scooter share), and is in the process of completing a Creek Trail Network Expansion Masterplan for future expansion of trail facilities to complement the existing San Tomas Aquino/Saratoga Creek Trail.

Education¹

Public schools serving residents of Santa Clara are under the authority of independent school districts. The City works closely with the school districts to provide quality educational opportunities for grades K-12 and students attending Mission College for a two-year degree or professional development. Santa Clara University, the oldest institution of higher learning in California, is in the historic Downtown Quad area of the City and enrolls 5,895 undergraduate students and 3,023 graduate students.

Infrastructure¹

Each year, the City makes significant investments in maintaining, expanding, and improving civic infrastructure for the benefit of residents and businesses. The City has the lowest combined water, sewer, and electric rates in the nine Bay Area counties. The City-owned electric utility, Silicon Valley Power (SVP), is recognized as a Smart Energy Provider from the American Public Power Association for demonstrating a commitment to and proficiency in energy efficiency, distributed generation and environmental initiatives that support the goal of providing safe, reliable, low-cost and sustainable electric service. It is also recognized by the Environmental Protection Agency (EPA) for its Green Power program, which is included on the nation-wide Green Power Communities List. Over the past few years,

the City's water storage and delivery system has been upgraded and it is one of the most successful purveyors of recycled water with 33 miles of recycled water pipelines within Santa Clara's city limits and about one billion gallons each year. The City is a partner in the San José-Santa Clara Regional Wastewater Facility and is investing approximately \$121 million over the next 10 years to update the aging facility and expand capacity. The Water & Sewer Utilities is a past recipient of the California Municipal Utilities Association (CMUA) Resource Efficiency Award for its recycled water program – retrofits for developments. In 2021, the Water & Sewer Utilities system received the Santa Clara Valley Section of the Clean Water Environment Association's Sewer Collection System of the Year-Medium Size.

Economic Development

The City of Santa Clara welcomes business, and that strategic attitude is paying off with billions of dollars in private investment currently under construction or in the pipeline. As projects come online, the City's economic base is broadened and diversified, ensuring greater fiscal stability in the future as well as increased revenues to the City's budget.

Development projects approved over the past fiscal year include several housing and mixed use projects: 1601 Civic Center Drive, which included a General Plan Amendment and Rezoning for a 100% affordable multi-family, 106 unit project; and the Greystar mixed use project in the Freedom Circle Focus Area including 1,100 multi-family residential units, up to 2,000 square feet of amenity space and a 2.0-acre public park at 3905 Freedom Circle. A new data center at 2590 Walsh Ave. is underway, including demolition of a 115,000 square-foot office and warehouse building, and construction of a 468,170 square-foot four-story data center consisting of eight data center

halls and a substation More information on new development projects can be found on the City's website <https://www.santaclaraca.gov/business-development> under the "Development Projects" link.

SANTA CLARA COMPARISON TO OTHER LOCAL CITIES IN THE LOCAL REGION

The following graphs compare FY 2022/23 per capita revenues from key sources and total budgeted expenditures for FY 2022/23 in the City of Santa Clara to other cities in the local region. Sales tax, property tax, and transient occupancy tax categories are included as they are the largest economically sensitive General Fund revenue sources for the City.

Expenditure data for selected city budgets in relation to their respective population is included for all funds and the General Fund for FY 2022/23. The assets per capita for FY 2021/22 are also shown. It is important to note Santa Clara and Palo Alto include City-owned utilities that result in relatively higher budgets and assets per capita.

BUDGET AND FISCAL POLICIES

We present the relevant policies and practices that define specifically the way the City manages its budget, reserves, interfund loans, investments, and debt with the goal of long-term fiscal sustainability. The City Council reviews and approves budgetary policies as part of the annual budget process. Investment and debt policy statements are referenced in this section; however, reviewed and approved by the City Council under separate cover.

Appropriation Control

The City Council is responsible for approving the appropriation of fiscal resources to cover estimated expenditures for each fiscal year. Expenditures are appropriated in each fund to departments, offices, and agencies for various goods, services, and capital projects described in the budget. The legal appropriation control is established at the department level in each fund. For select funds where expenditures are not allocated to a specific department, the appropriation control is established at the fund level. For capital funds, the appropriation control is at the project level. Transfers of funding between budgetary funds require City Council appropriation and approval. City Council approval is required for a budget amendment during the fiscal year which may include the use of reserves or fund balances, and approval of appropriations of grant monies. Per Article XIII, Section 1305 of the City Charter, appropriations lapse at the end of each fiscal year; therefore, unencumbered funds allocated for specific projects, donations, and grants require City Council appropriation for use in the following fiscal year.

Budgetary transfers between accounts or expenditure category may be done through Finance Department or City Manager's Office approval as long as they are conducted within the legal appropriation control limit set by the City Council.

Balanced Budget

The City Council considers General Fund budget decisions with long-term implications based on information from the Ten-Year Financial Forecast. One-time sources are used to cover one-time uses. The budget is structurally balanced when forecasted ongoing sources cover ongoing uses. Budgets shall be structurally balanced to the extent possible. Reserves should be considered to balance a budget only in the context of a plan to return to a structural balanced budget.

Budget Monitoring and Reporting

Financial reports on actual performance in relation to budget are prepared by the Finance Department through monthly financial statements. These reports are prepared and presented to the City Council, per City Charter requirements (Section 802) the City Manager shall be required to keep the City Council advised of the financial condition and future needs of the City. City Departments are responsible for reviewing these monthly financial reports and identifying potential budget problems and recommending corrections through budget amendments.

Long Term Financial Forecast

The Finance Department prepares a Ten-Year General Fund Financial Forecast which is incorporated into the budget planning process and presented to the City Council annually. This forecast is updated annually and considers current and future economic conditions, revenue projections, and spending scenarios based on the

latest available assumptions. Capital improvement plans are created and published on a five-year basis to provide a long-term plan of the City's capital funding plan.

Municipal Fees and Charges

User fees are reviewed and adjusted for on an annual basis with the goal of maximizing cost recovery. The City Council may consider and approve any fee that is below 100% cost recovery, requiring a General Fund subsidy if it is in the public's best interest. User fees are adopted by the City Council annually through the Municipal Fee Schedule. Utility fees and certain other fees and assessments can also be approved separate from the Municipal Fee Schedule. Parks and Recreation fees are established by the Parks and Recreation Director and published in the Activity Guide.

Capital Planning

The City Council reviews and adopts a two-year Capital Improvement Program Budget which includes a five-year capital improvement program. Projects included in the capital improvement program are to be consistent with the City's General Plan. Per State Government Code Section 65401, the Planning Commission reviews the capital improvement program for conformance to the City's General Plan and proposes recommended considerations for the City Council. Funding sources are identified for all projects included in the capital improvement plan.

The Capital Improvement Program (CIP) is submitted by City departments and reviewed by the City Manager's Office, the Finance Department, and the Public Works Department. The review process considers City priorities and identifies the most urgent projects for capital funding by program area, master plans, or needs assessments which identify the most critical projects for repair and replacement.

Department of Public Works staff reviews project estimates and evaluates the current bidding environment. Project contingency reserves are established based on the type of project and the project estimate type (engineering or preliminary estimates). Operating and maintenance costs are identified for planning purposes when projects are completed and come online.

General Fund Reserves

The City Council allocates available resources to General Fund contingency reserves through various reserves designated for emergency use or restricted future uses. Restrictions are established by policy, or through legally segregated development-related fee reserves collected from users.

- Budget Stabilization Reserve – is used as an allocation for weathering economic downturns, emergency financial crises, or disaster situations. The reserve target is equal to the cost of the City's General Fund operations for three months (90-day working capital reserve).
- Capital Projects Reserve – is used to support the City's CIP. The minimum target is \$5.0 million with a goal of having sufficient funds to fund capital projects included in the City's biennial capital budget and five-year CIP.
- Land Sale Reserve – this reserve allocates proceeds from the sale of City-owned land
- Advanced Planning Fee Reserve – this reserve allocates a portion of user fees for the update and amendment of the City's General Plan. Individual user fees are included and approved under separate cover as part of the Municipal Fee Schedule.

Utility Funds Reserves

The City is responsible for operating and maintaining several utilities, including electric, potable water, recycled water, and sewer. Regular cost of service studies are performed to evaluate rates and charges for each utility with forecasted revenue requirements and projected expenditures. One component of this analysis is the determination of adequate reserve levels to cover shortfalls in operating revenues, address unforeseen operating and capital expenditures, cover day-to-day operating costs during emergency situations, maintain strong bond ratings, and ease the burden on ratepayers associated with large rate increases. The following reserves address these needs:

- Operations and Maintenance Reserve – this reserve is used to cover day-to-day expenses, address unforeseen cost increases or revenue shortfalls, and protect against emergency financial crises or disaster situations. The reserve target is equal to the cost of the individual utility's operations for three months (90-day working capital reserve). Due to large fluctuations and variability in the energy market, the Electric Utility Operations and Maintenance Reserve has a target ranging from 90 to 180 days of operations. For the Electric Utility, the Operations and Maintenance Reserve, together with the Rate Stabilization Reserve (as described below), comprise the Electric Utility Rate Stabilization Fund established and maintained by the Electric Utility for purposes of its bond indenture.
- Infrastructure Reserve – this reserve is used to support each utility's CIP or fund unforeseen and unbudgeted capital costs. The reserve target is equal to an average annual CIP budget, as calculated over a 48-month period of budgeted CIP expenses as presented in the Biennial Capital Improvement Program Budget. At minimum, the target is to reserve 20% of the average annual CIP budget amount. For the Electric Utility, this reserve is based on an analysis of critical infrastructure, the likelihood for replacement, and the estimated replacement costs, evaluated regularly by SVP.
- Rate Stabilization Reserve – this reserve is used to absorb short-term revenue shortfalls and is designed to stabilize utility rates and avoid wide swings in rates charged to utility customers over time. The minimum reserve target is a balance equal to 10% of each utility's projected current year rate payer revenue. For the Electric Utility, the Rate Stabilization Reserve, together with the Operations and Maintenance Reserve (as described above), comprise the Electric Utility Rate Stabilization Fund established and maintained by the Electric Utility for purposes of its bond indenture.
- Special Projects Reserve – this reserve sets aside funds for large or longer-term CIP projects or other special purposes to lessen fluctuations in rates and support long-term planning efforts. While no general target is established for this reserve, the amounts will be established by each utility based on need.

In addition to the reserves cited above, reserves may be established to address specific needs or requirements of an individual utility. This may include required reserves in restricted funds, such as the reserves in the Electric Operating Grant Trust Fund for public benefits, low carbon fuel, and greenhouse gas.

Other Reserves

The City may include additional reserves set aside for specific purposes based on legal, policy, or budgetary purposes. Some of these include reserves for historical preservation, pension costs, vehicle or fleet replacement, workers' compensation costs, or to fund potential future general liability claims against the City.

- Pension Stabilization Reserve – this reserve sets aside funds to address the City's pension unfunded accrued liability. The targeted annual funding contribution is 1% of the City's unfunded pension liability.

Interfund Loans and Advances

Interfund loans are loans from one City fund to another City fund for a specific purpose, with a requirement for repayment. Interfund loans should be short-term in nature and shall not be used to solve ongoing structural budget deficits. The department managing the borrowing fund should complete the interfund loan agreement. The agreement should include the amount requested, loan period, description of the loan, and repayment terms. Interest shall accrue at the City's pooled investment rate at the time of the loan approval. A summary of any outstanding loans is included in the City's Annual Comprehensive Financial Report and Biennial Budget. In addition, advances from the General Fund that have been approved by the City Council may be paid back by other revenue sources.

Investment Policy

The City undertakes investment related activities that are made with prudence. On an annual basis, the City formalizes these activities in the Investment Policy Statement which is adopted by a resolution of the City Council (<https://www.santaclaraca.gov/home/showdocument?id=66753>). The policy is to invest public funds, including bond proceeds, reserves and other special City funds, in a manner which will provide maximum security while meeting the daily cash flow demands of the City and providing the highest investment return and conforming to all state and local statutes governing the investment of public funds.

The City of Santa Clara Charter gives the Director of Finance the authority and responsibility to deposit and invest all City funds. It authorizes the Director of Finance to invest the City's idle cash in allowable investment vehicles with a maximum remaining maturity of five years by settlement date. The City Council may grant express authority either specifically or as part of an approved investment program to invest in vehicles with remaining maturity that exceeds the five-year restriction. Authority must be given to the Director of Finance at least three months prior to the investment. California Government Code also allows the City to invest in the same investment vehicles as authorized by the City Council. The Director of Finance establishes written depository and investment policy procedures for the operation of the investment program consistent with the City Investment Policy, establishes a process of independent review by an external auditor, and provides monthly investment reports to the City Council.

Debt Policy

The City believes that debt is an equitable means of financing projects and represents an important source of meeting fiscal responsibilities. The City obtains and maintains long-term debt for large capital improvement projects. The Finance Department manages the City's debt with prudence, diligence, and attention to prevailing economic conditions and applicable laws. It manages issuance of debt, administers debt proceeds, prepares ongoing disclosure, handles debt and tax compliance, and makes debt service payments. City departments with debt-financed capital programs coordinate with the Finance Department in implementing and handling debt related transactions. Semiannual updates are prepared by the Finance Department on outstanding debt for the City of Santa Clara, its Agencies, and Corporations. This report is presented as a standard management practice that provides a valuable overview of the current status of the City's long-term debt obligations. The current City Council approved debt policy can be found online at: (<http://santaclaraca.gov/home/showdocument?id=63748>).

Donation Policy

Donations may be offered in the form of cash, real or personal property. "Designated" donations are donations where the donor specifies intended use by a particular City department, location, or purpose. "Undesignated" donations are given to the City as a whole, for an unspecified use. Donations of any kind which might be perceived or interpreted as an attempt to influence actions of the City Council or City Administration will not be accepted. All donations are presented to the City Manager for compliance with the policy. As part of the annual budget process, for anticipated monetary donations, staff will bring forward for Council consideration a balanced appropriation for revenue and expenditures to facilitate the acceptance of donations throughout the fiscal year. Donations valued at \$100,000 or greater require City Council acceptance and appropriation of funds. Donations valued less than \$100,000 may be accepted with the monetary donations available to departments for expenditure as part of the adoption of the annual budget. A report of all donations received by the City is presented to City Council as part of the Monthly Financial Report. The appropriation of anticipated donations can be found in each respective City department and corresponding Source and Use of Funds Statement in this document.

Community Grants Policy

The budget includes an allocation of \$100,000 for Community Grants to offset the cost of City fees in support of the Council approved Community Grants Policy. Annually, and subject to availability of funds, the City Council shall establish grant appropriations as part of the approval of the budget. Community grants, subject to availability of funds, shall not exceed \$10,000 per applicant, per year. To receive grant funds, grant applications must be submitted at least 90 days before the planned event/activity being funded, regardless of the form of the grant, and will be evaluated by the City Manager's Office on a case-by-case and "first come-first served" basis, throughout the fiscal year. Applicants are encouraged to submit their applications at the beginning of the fiscal year, for events or activities occurring at any time during that fiscal year, to maximize opportunity for availability of funds. The City Manager's Office shall approve or deny an applicant's request based upon eligibility criteria, and subject to funding availability as approved by the City Council through the adoption of the annual budget. Grants for community events shall not be provided for waiver of or reimbursement for already discounted permit fees. Grants for attendance at youth state, national, or international competitions or performances shall be limited to costs of registration, hotel, transportation, and food for participants and coaches/chaperones only. Due to short notice, to advance to state, national, or international competitions, applicants shall submit an application within one week of advancing to such competitions. In all cases, the City reserves the right to reject any and all applications in the event the City Manager's Office identifies a potential conflict of interest or the appearance of a conflict of interest. Submission of an application in no way obligates the City to award a grant and the City reserves the right to reject any or all applications, wholly or in part, at any time, without penalty.

Stadium Authority Policy

The Stadium Authority exists as a public body, separate and distinct from the City, and is established to provide for development and operation of Levi's Stadium. It is structured so that the City will not be liable for debts or obligations of the Authority. The governing board duties and the fiscal policies that govern the Stadium Authority are included in the stand-alone Operating, Debt, and Capital Budget that is adopted by the Stadium Authority Board. This can be found at <https://www.santaclaraca.gov/our-city/santa-clara-stadium-authority>. This budget reflects the revenues and expenditures related to the support of the Stadium and can also be found in the General Fund Non-Departmental section of this document titled Stadium Operations.

Policy Development

Staff has established this Budget and Fiscal Policies section in an effort to improve governance, transparency, and establish policies to govern the budget. These policies will be reviewed annually and enhanced as capacity allows.

OUTSTANDING LOANS AND ADVANCES

Interfund loans are loans from one City fund to another City fund for a specific purpose, with a requirement for repayment. A detailed listing of outstanding loans and advances is included in the following table:

Receiving Fund	Originating Fund	Loan/Advance Details (Payback Source, Term, Interest Rate)	Outstanding Amount (as of June 30, 2022) *
Parks and Recreation Capital Fund	General Fund (May 22, 2018, RTC 18-124) Loan for the Reed Street – Grant Street Sports Park Project from the Land Sale Reserve	This loan bears interest based on the City's weighted average portfolio rate. This loan will be repaid in annual installments from Mitigation Fee Act revenue (25% of the revenue is allocated for loan repayment) until the loan is paid in full.	\$ 5,539,540
Total Interfund Loans and Advances			\$ 5,539,540

* The loan was fully repaid on March 21, 2023 (Report to Council 23-316) from Mitigation Fee Act revenue received in FY 2022/23.

Budget Guide

The following information is presented to help the reader understand the way the City allocates budgets and accounts for the operations of the City. Explanations are presented in two categories: Budget Book Details and Fund Accounting.

UNDERSTANDING THE OPERATING BUDGET

Budget Definition

The budget of the City is a detailed operating plan that identifies estimated costs and program benefits in relation to estimated revenues. The budget is prepared in accordance with Generally Accepted Accounting Principles (GAAP), except encumbrances which are recognized as expenditures when legal contracts or commitments are entered into. The budget for governmental funds has been prepared on a modified accrual basis, recognizing revenue when they are measurable and available to be used to finance expenditures in the fiscal year. Expenditures are recognized when they occur, regardless of when cash is received or disbursed. The budgets for proprietary funds are prepared on a full accrual basis, recognizing revenue and expenditure activity for the fiscal year for which the activity occurred. The budgetary accounting basis and the consolidated annual financial reports include the reconciliation between GAAP modified and/or full accrual accounting for the financial reports and the budgetary basis budget. All of the year-end financial reports are kept on the basis of modified or full accrual accounting. The budget includes the adopted services to be provided during the fiscal year and the associated appropriations to cover the costs of the adopted programs, projects, services, and activities. These are funded by the estimated revenue and/or fund balance available to finance the adopted service levels.

Budget Process

The budget process is the mechanism through which policy decisions are made, implemented, and controlled. The City Charter requires that the City establish a budgetary system for general operations and prohibits expending funds for which there is no legal appropriation. The City is required to adopt an annual operating budget on or before June 30 for the ensuing fiscal year that begins July 1.

The procedures to establish the budget are as follows:

1. In October and November, departments review their annual budget to determine what their base budget needs to be for the following year, in order to keep the City Council-approved level of service currently provided. Once these adjustments are identified, base budget requests are submitted to the Finance Department for review.
2. After receiving all base budget requests and corresponding back-up documentation to support the requests, the Finance Department meets with the City Manager's Office to review all department requests. Once these meetings take place, the base budget is established for each department.
3. The City Manager's Office, along with the Finance Department, coordinate a citywide presentation to kick off the budget process to provide a brief overview to departments of what is expected in their submissions as well as a timeline of due dates for service level change requests.

Budget Process

4. In February/March, there is typically a City Council operating and strategic priority setting retreat. Any recommendations that come forward during this retreat are incorporated into service level change requests. During this retreat, the Ten-Year General Fund Financial Forecast is also presented to City Council.
5. Departments submit to the Finance Department all service level change requests for the operating budget, as well as any critical needs for adjustments in their Capital Improvement Program budget. The Finance Department reviews all submissions, working with departments to resolve any questions or outstanding issues.
6. Budget meetings are held between the City Manager's Office and the Finance Department to review all service level change requests in both the operating and capital improvement program budgets. After these meetings have taken place, decisions are finalized based on the items presented, balancing each fund's budget and incorporating City Council priorities.
7. The City Manager submits to the City Council a proposed operating budget for the two following fiscal years, as well as any capital adjustments for the following fiscal year, commencing July 1. Submission to City Council is at least thirty-five (35) days prior to the beginning of each fiscal year.
8. Public hearings are conducted to obtain City Councilmembers' and residents' comments. Copies of the proposed budget shall be available for inspection by the public in the office of the City Clerk at least ten days prior to these hearings.
9. The budget is legally enacted through passage of a minute order.

From the effective date of the budget, the amounts stated therein as expenditures/expenses, become appropriations to the applicable funds. In order to amend the budget during the year, departments must submit a Report to Council, explaining the need for the change and budget implications. Upon review and approval of the City Council, the budget may be amended. For the Operating Budget, the legal level of budgetary control is at the fund and department level. For funds that do not have an associated department, the legal level of budgetary control is at the fund level.

In addition to the biennial appropriated operating budget, every other year a Capital Improvement Program (CIP) Budget is adopted and a five-year capital needs plan is updated and accepted by the City Council for the City's anticipated capital projects to be funded over the next five years. For the CIP Budget, the legal level of budgetary control is at the project level.

Budget Book Details

The Operating Budget includes a ***City Manager’s Transmittal Letter*** that provides an overview of the organization, the short- and long-term issues facing the City, City Council priorities and the changes to the budget as they align to strategic initiatives.

The ***City Profile and Organization Chart*** section provides basic facts about the City, a detailed roster of elected officials including Boards and Commissions, the City’s executive team, comparison of key revenue and expenditure data to other local cities and the City organization chart.

The ***Budget and Fiscal Policies*** section provides detailed policy framework driving the development of the budget, including a glossary and acronym index.

The ***Budget Summary*** details the total City budget across all funds, with adjusting entries reconciling to a total net City budget.

The ***Summary of Budgeted Positions by Department*** details the City’s budgeted positions and reconciles changes throughout the year.

The ***Statement of Sources and Uses of Funds*** section details revenues, expenditures and fund balance position including prior year actual activity, current year budget and estimated revenue and expenditures, and two-adopted budget years. This section is organized by accounting fund type detailed later in this section.

The ***Debt Service*** section details the City’s debt policies, current long-term debt obligations, legal debt margin, and the ten-year debt service schedule for all outstanding debt issuances.

The ***Ten-Year Financial Forecast*** section includes overviews of the General Fund and selected other funds forecasts. These overviews include revenue and expenditure assumptions.

Department sections detail each department mission and objectives broken into divisions and programs. A summary of accomplishments from the past year, objectives for the next two years and budget highlights are included. A table summarizing Dollars by Division and Program, Dollars by Fund, and Dollars by Category provide multiple views of the budgeted dollars. Position budgets are developed initially in the fall of the preceding year with an interface of salary and benefits data with the Human Resources/Payroll system. These positions are reviewed and amended based on Council-approved service levels with allocations reflected by fund, division, and program. A summary of positions by division and program, by fund, and by job classification are included in each department. Budget reconciliations are included in each department section. This section summarizes changes from the prior Adopted Budget, including one-time and ongoing changes to the Base Budget and Service Level Changes. After the budget reconciliation are the service level change items. This portion of the department section includes a description of the action, the dollar amount in each adopted year and any associated position change. Each service level change discusses the performance impact and notes the alignment to the City Council priorities represented in a strategic pillar.

Categories of Expenditures

Salaries – Includes regular salaries, overtime pay, vacation pay, holiday, separation payouts, and premium pays such as out-of-class pay, night differential pay, hazard pay, evidence tech pay, and paramedic pay. These costs are primarily driven by the number of positions budgeted within the program.

Benefits – Includes Medicare, social security, health allocation, other post-employment benefits (OPEB), and CalPERS retirement costs. Other benefits such as Voluntary Employee Beneficiary Association (VEBA), dental, life insurance, uniform allowance, meal allowance, employee assistance program, auto allowance, mobile phone allowance, and professional development are included, if applicable.

Materials/Services/Supplies – Includes all expenditure items that the department has direct control over such as contract costs, supplies, equipment purchases, and utility charges. For the second year of the Biennial Operating Budget, a 2% increase to costs has been applied to most line items.

Resource and Production – Consists mainly of costs related to the purchasing or generating of electricity, water, or recycled water as well as disposing of solid waste matter and sewage effluent for the respective City utilities.

Services from Other Funds – Cost Allocation Plan – Includes central services costs (e.g., Human Resources, Finance, City Manager's Office, City Attorney's Office) that are allocated to funds as calculated in the Cost Allocation Plan. The Cost Allocation Plan costs, which are typically termed "citywide overhead", are allocated to departments and funds receiving the support based on an allocation factor, such as employee count or budgeted expenditures. The Cost Allocation Plan is typically updated by a third-party consultant every two or three years and include modest increases between updates.

Interfund Services – Includes allocated charges for services provided by various departments or central costs as budgeted in the City's internal service funds. Citywide liability claims costs, vehicle maintenance and replacement, unemployment insurance, workers' compensation costs, communications equipment, and information technology costs are reflected in internal service funds and the costs are apportioned to departments or funds in the City based on an appropriate allocation factor for each internal service fund.

Capital Outlay – Includes small capital expense purchases not budgeted within the Capital Improvement Projects budget. Most individual capital purchases with a cost of less than \$5,000 are expensed in this category.

Transfers to Other Funds – Includes all money moving to other funds. Transfers can be between the operating and capital improvement program budget to provide funding for capital projects or between different operating funds. Transfers to other funds are included in the department budget sections.

Debt Service – Funding provided to pay for the City's Debt Service obligations. These costs have been excluded from department budgets and detailed in a separate Debt Service section in the document.

Strategic Pillars

The following are the strategic pillars established by the City Council to provide a framework for this budget document. In each department section, service level changes and performance and workload measures aligned to one of the Council-approved pillars below:

Enhance Community Engagement and Transparency

Deliver and Enhance High Quality Efficient Services and Infrastructure

Manage Strategically Our Workforce Capacity and Resources

Promote and Enhance Economic, Housing and Transportation Development

Promote Sustainability and Environmental Protection

Enhance Community Sports and Recreational and Arts Assets

Ensure Compliance with Measure J and Manage Levi's Stadium

Performance and Workload Measures

In program budgeting, Performance and Workload Measures are used to measure the performance of the department. These measures align budget dollars allocated to provide services with City Council priorities through Strategic Pillars in an effort to drive budgetary decision making. These measures provide insight into how efficiently or effectively the City is providing services in each major program. They are the measures through which the value of services can be assessed by Council and the public. Workload measures provide insight into the volume of effort that is required to provide each service. Performance and Workload Measures tend to remain the same year after year to provide longitudinal data which allows trends to be evaluated. There are, however, some programs which do not have performance measures. These are in areas where quantifiable results are either not appropriate or where it would be too costly to gather the information. Additionally, there are programs where there are no results/budget for particular years, as noted by "N/A". This typically indicates that the measure was: (1) new for the budget year, (2) the program is closed/closing for the budget year, or (3) the measure moved to another program due to a department reorganization of structure. All measures are tied to a strategic pillar, displayed by the icons in the Performance and Workload Measures tables. Performance and Workload Measures proposed for addition or deletion are noted on each measure.

Fund Accounting

The accounts of the City are organized and operated on the basis of funds, each of which is considered a separate accounting entity. Government resources are allocated to and accounted for in individual funds based upon the purposes for which the resources are to be spent. A general description of each follows:

Governmental Fund Types

Governmental funds are those through which most governmental functions of the City are financed. The following are the City's Governmental Fund Types:

General Fund - Used to account for the general operations of the City.

Special Revenue Funds - Used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specific purposes. Examples of Special Revenue Funds include the Downtown Parking Maintenance District Fund and the Housing Authority Fund.

Debt Service Funds - Used to account for the accumulation of financial resources to be used for the payment of principal and interest on General Government Operating and Capital long-term obligations, which are not accounted for in proprietary funds.

Capital Improvement Program Funds - Used to account for financial resources to be used for the acquisition or construction of General Government major capital facilities. Capital projects funds are organized by the following fund groups: Enterprise, Streets and Highways, General Government, and Authority funds. Further information on these fund groups and the capital improvements they support can be found in the adopted Capital Improvement Program Budget book.

Proprietary Fund Types

Proprietary funds are used to account for the City's ongoing organizations and activities which are similar to those often found in the private sector. Proprietary Fund Types include Enterprise Funds and Internal Service Funds and are described as follows:

Enterprise Funds - Used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs and expenses, including depreciation, of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Examples of Enterprise Funds include the Electric Utility Fund and the Water Utility Fund.

Internal Service Funds - Used to account for the financing of goods, services or facilities provided by one department or agency to other departments or agencies of the City, or to other governments, on a cost-reimbursement basis. Services provided include vehicle replacement, vehicle maintenance and operations, information technology, communications equipment, public works capital projects management, special liability insurance claims, workers' compensation insurance and claims, and unemployment insurance. Examples of Internal Service Funds include the Special Liability Fund and Workers' Compensation Fund.

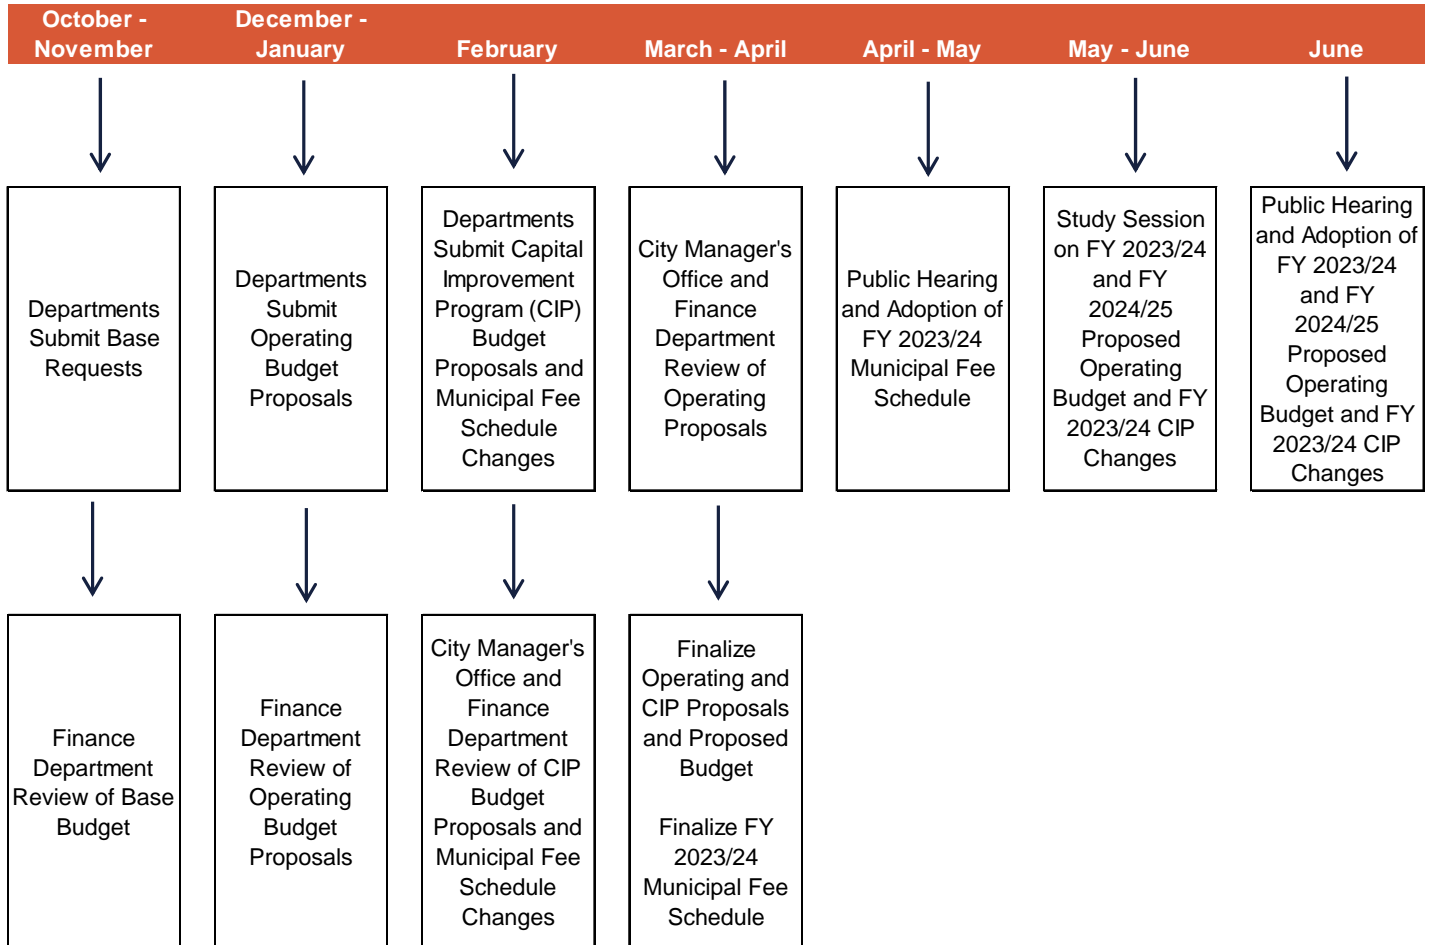

Fiduciary Fund Types

The City has three types of Fiduciary Funds: Agency Funds (e.g., Employee Benefit and Liability Clearing, Deposits), the Other Post Employment Benefit (OPEB) Plan Trust Fund; and the Private Purpose Trust Funds (e.g., Successor Agency). These funds are excluded from the budget because the City cannot use these resources to finance its own operations.

While each department section provides for a budget breakdown by fund, this budget document also includes statements of sources and uses for all of the City's funds, categorized by the type of fund as described above. Each of these financial statements includes the 2021/22 Actuals, 2022/23 Amended Budget, 2022/23 Estimate, and the 2023/24 and 2024/25 Proposed Budget. The 2022/23 Amended Budget is the adopted budget in addition to any budget amendments that were approved by City Council throughout the fiscal year, while the Estimate column shows what the expected revenue and expenditures will be for 2022/23. The Proposed Budget columns take into account the base budget plus all service level changes included in this document.

BUDGET CALENDAR

DRAFT BUDGET PRINCIPLES FOR FY 2023/24

1. Make decisions within the context of the City's Code of Ethics and Values, especially being Fiscally Responsible, Communicative, and Service-Oriented.
2. Consider budget decisions with long-term implications taking into account data from the Ten-Year Financial Forecast.
3. To the extent possible, align ongoing expenditures with ongoing revenues to avoid negative impacts on future budgets and maintain the City's high financial management standards.
4. When addressing General Fund shortfalls, use a combination of ongoing and one-time solutions to balance the competing goals of aligning ongoing revenues and expenditures and minimizing the service delivery impacts to the community.
5. Continue cost control measures until the ongoing General Fund revenues and expenditures are in alignment.
6. Approve an exception to the Council Policy that dictates setting the General Fund Budget Stabilization Reserve at or above 25% of adopted budget expenditures; set the Reserve level at a minimum of 15% of expenditures.
7. Focus on projects and services that benefit the community as a whole.
8. Pursue economic development objectives and strategies to foster new public and private investment within Santa Clara, and to create employment opportunities.
9. Balance between compensation adjustments to retain and attract employees and funding for positions.
10. Use one-time unrestricted revenues (e.g., annual General Fund surplus) for one-time uses such as increasing reserves, funding capital or Information Technology projects, paying off debt, and/or paying off unfunded pension or other post-employment benefits liabilities.
11. Inform and communicate clearly and broadly to residents, businesses and employees regarding the City's fiscal position and budget; schedule hearings to promote active participation in the City Council's budget deliberations.
12. With limited exceptions, establish fees based on full cost recovery where individuals/businesses rather than the community at-large are benefitting from City services. This preserves limited unrestricted resources for providing services that benefit the community as a whole.
13. Focus on business process redesign in order to improve employee productivity and the quality, flexibility, and cost-effectiveness of service delivery (e.g., streamlining, simplifying, reorganizing functions, and reallocating resources).
14. Explore expanding existing revenue sources and/or adding new revenue sources.
15. Engage employees to contribute new and innovative ideas during the department budget development process.
16. Use the General Plan as a primary long-term fiscal planning tool and link ability to provide City services to development policy decisions.

GLOSSARY

The following explanations of glossary and terms are presented to aid in understanding the information included in this document:

Abatement - A complete or partial cancellation of a levy imposed by a government and usually applied to tax levies, special assessments and service charges.

Accounting System - The total structure of records and procedures which discover, record, classify, summarize and report information on the results of operations and the financial position of a government or any of its funds, fund types, balanced account groups, or organizational components.

Accrual Basis of Accounting - A method of accounting that recognizes the financial effect of transactions, events, and interfund activities when they occur, regardless of the timing of related cash flows.

Adopted Budget - The annual City budget as approved by City Council on or before June 30 for the fiscal year beginning July 1. This adopted budget establishes the legal authority for the expenditure of funds. This formal action by the City Council sets the spending path for the year.

Agency Fund – To account for assets held by the City as an agent for individuals, private organizations, other governments, and/or other funds.

Allocation - To divide or share out financial resources or expenditures for a specific purpose to particular funds or departments.

American Recovery and Reinvestment Act (ARRA) - An act established by the federal government in February 2009 whose intent is to create and save jobs, spur economic activity and focus on long term growth through the funding of various projects and initiatives.

Annual Comprehensive Financial Report (ACFR) - The official annual report of the City's financial condition at the conclusion of the fiscal year, June 30. The report is prepared to conform to Generally Accepted Accounting Principles (GAAP) for governmental units and provides a quantitative look at the operating success, financial health, and compliance of the City's reporting units.

Appropriation - A legal authorization granted by the City Council to make expenditures and to incur obligations for specific purposes. For purposes of the Capital Improvement Program (CIP) budget, appropriations are automatically renewed, for the life of the project, unless altered or revoked. For the operating budget, appropriations lapse at the end of the fiscal year to the extent they have not been expended or encumbered.

Appropriations Limit - The California State Constitution limits a city's appropriations growth rate to two factors: changes in population, and either the change in California per capita income or the change in the local assessment roll due to non-residential new construction.

Assessed Valuation - A valuation set upon real estate or other property by a government as a basis for levying taxes. In California, the assessed valuation subject to ad valorem tax levy is governed by Proposition 13 and AB8 (1978).

Assets - A probable future economic benefit obtained or controlled by a particular entity as a result of past transactions or events. This includes financial resources such as cash, receivables, inventory and plant and equipment, net of depreciation.

Audit - A formal examination of the City's accounts by an independent audit firm to determine whether the City's financial statements fairly present the City's financial position and results of operations in conformity with Generally Accepted Accounting Principles.

Authorized Positions - Regular positions authorized in the budget to be employed during the fiscal year.

Balanced Budget - The budget for a fund is balanced when total budgeted resources, including revenues, transfers in from other funds, and available fund balance from the previous year, meets or exceeds total budgeted uses of resources, including expenses and transfers out to other funds.

Base Budget - The ongoing expense level necessary to maintain service levels previously approved by the City Council.

Basis of Accounting - The timing of recognition, that is, when the effects of transactions or events are recognized for financial reporting or budgeting purposes. The three bases of accounting for governmental agencies are: (1) cash basis (when cash is received or paid), (2) accrual basis (when the underlying transaction or event takes place), and (3) modified accrual basis (revenues are recognized in the accounting period in which they become available and measurable and expenditures are recognized in the accounting period in which the fund liability occurred).

Beginning Fund Balance - The amount of prior year's unappropriated funds used to finance appropriated expenses in the current budget year.

Biennial Budget - A consolidated budget document presented on a biennial basis that includes the City's Operating Budget and CIP Budget. The Operating and Capital Budgets are presented in alternating years to the City Council for approval.

Bond - A city may raise capital by issuing a written promise to pay a specified sum of money, called the face value or principal amount, at a specified date or dates in the future, together with periodic interest at a specific rate.

Bond Rating - An evaluation of a bond issuer's credit quality and perceived ability to pay the principal and interest on time and in full. Three agencies regularly review city bonds and generate bond ratings: Moody's Investors Service, Standard and Poor's and Fitch Ratings.

Budget - A plan of financial operation embodying an estimate of proposed expenditures for a given period and the estimated financial resources available to finance them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year.

Budget Public Hearing - A public meeting at which any member of the community may appear and be heard regarding any item in the proposed budget as presented by the City Manager to the City Council.

Budget Transmittal Letter - A general discussion of the budget as presented in writing by the City Manager to the City Council. The message contains an explanation of principal budget items and summaries found in the budget.

Budgetary Control - The control or management of a government or enterprise in accordance with an approved budget for the purpose of keeping expenses within the limitations of authorized appropriations.

Capital Asset - Land, buildings, equipment, improvements to buildings, and infrastructure (i.e., roads, bridges and other immovable assets). The City's policy is to capitalize equipment with a cost exceeding \$5,000 and building, improvements and infrastructure with costs exceeding \$20,000. A capital asset is defined as an asset with a useful life extending beyond a single accounting period.

Capital Improvement - A permanent addition to the City's assets, including the design, construction or purchase of land, buildings, or facilities, or major renovations of same.

Capital Improvement Program (CIP) Budget - A plan of annual appropriation for capital improvements and various kinds of major facility maintenance. These projects are often multi-year in length, which requires funding beyond the two-year period in the biennial budget.

Capital Outlay - A budget category which includes all equipment having a unit cost of \$1,000 or more, and an estimated useful life of over one year or capital improvements costing less than a certain dollar amount. Capital Outlay is budgeted in the operating budget in the Other Operating Expenditure Category.

Certificates of Participation (COPs) - This financing technique provides long-term financing through a lease, installment sale agreement or loan agreement. Certificates of Participation (COPs) allow the public to purchase participation in a stream of lease payments, installment payments or loan payments relating to the acquisition or construction of specific equipment, land or facilities. The lending agreement is secured by a lease on the acquired asset or other assets of the City.

Charges for Services - Fees and charges levied by City departments for services rendered (example: utility charges to customers, recreation program fees, engineering fees, etc.).

Community Development Block Grant (CDBG) - Provides eligible metropolitan cities and urban counties with annual direct grants to revitalize neighborhoods; expand affordable housing and economic opportunities; and/or improve community facilities and services, principally to benefit low- and moderate-income persons.

Community Facilities District (CFD) - A special district that can issue debt for the planning, design, acquisition, construction, and/or operation of public facilities, as well as provide public services. Special tax assessments levied by the district are used to repay the debt. A CFD can be formed only if approved by the majority of affected property owners.

Consumer Price Index (CPI) - A statistical measure of a weighted average of prices of a specified set of goods and services purchased by wage earners in urban areas.

Contingency - A budgetary reserve set aside for emergency or unanticipated expenditures, revenue shortfalls, and/or unknown expenditures.

Debt - Obligations of the City to repay, with or without interest, in installments and/or at a later date, some amount of money utilized resulting from the borrowing of money or from the purchase of goods and services. Debts of governments include bonds, notes and COPs.

Debt Financing - Issuance of bonds and other debt instruments to finance municipal improvements and services.

Debt Service - Payment of the principal and interest on an obligation resulting from the issuance of bonds, COPs or other debt instruments.

Deficit - An excess of expenditures or expenses over revenue (resources).

Department - An organizational unit comprised of divisions and/or programs. It is the basic unit of service responsibility encompassing a broad mandate of related activities. Department directors generally report directly to the City Manager's Office, for instance, Fire and Finance.

Depreciation - An allocation of the cost of fixed assets (buildings, plant or equipment) over the estimated useful life of the asset.

Designation - A portion of fund equity set aside by Council Action for a specific purpose.

Dissolution Act - Also known as Redevelopment Dissolution Act; on December 29, 2011 the California Supreme Court found the Dissolution Act (ABx1 26) constitutional in the California Redevelopment Association vs. Matosantos case. The Act continued the suspension and prohibition of most redevelopment activities in effect since late June 2011; dissolved RDAs as of February 1, 2012; created successor agencies and oversight boards; and established roles for the County-Auditor Controller, the Department of Finance and State Controller's Office in the dissolution process and satisfaction of enforceable obligations of former RDAs.

Division - An organizational unit within a City department. For instance, Fire Field Operations, Fire Community Risk Reduction, and Fire Training.

Encumbrance - Obligations in the form of purchase orders, contracts or salary commitments which are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid.

Enterprise Fund - Used to account for operations: a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs and expenses, including depreciation or capital replacement, of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Environmental Impact Report (EIR) - An assessment of the likely influence a project might have on the environment.

Equity - The net assets of a fund (i.e. the assets less the liabilities on a fund balance sheet).

Expenditure - Actual cash disbursements for the cost of goods delivered or services rendered to the City in a Governmental Fund.

Expenditure Object Category (Expenditure Category) - Expenditure categories are a group of similar expenditure objects.

Expense - The cost incurred from providing goods or services related to the City's operations in Proprietary Funds.

Fee - The payment for direct receipt of a public service by the party who benefits from the service.

Fiscal Year - The time period designated by the City signifying the beginning and ending period for recording financial transactions. Consistent with all cities and counties in the State of California, the City of Santa Clara has specified July 1 to June 30 as its fiscal year.

Franchise - A special privilege granted by a government, permitting the continued use of public property, such as city streets and usually involving the elements of a monopoly or regulation, for example cable TV, gas, refuse, and others.

Full-Time Equivalent - Refers to one full-time equivalent position, which equals 40 hours per week, 52 weeks per year.

Fund - An independent fiscal and accounting entity with a self-balancing set of accounts recording its assets, liabilities, fund equity, revenues and expenditures or expenses and other changes in residual fund equity or balances, segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, limitations or public policy.

Fund Balance - The amount of financial resources immediately available for use. Generally, this represents the difference between unrestricted current assets over current liabilities.

Fund Type - A category into which funds with similar characteristics are grouped. The fund types used in the City budget are General, Special Revenue, Capital Projects, Enterprise, Internal Service and Debt Service funds.

Gas Tax – State tax received from gasoline sales utilized solely for street related purposes, such as new construction, rehabilitation or maintenance.

General Fund - The primary fund of the City used to account for all revenues and expenditures of the City not accounted for in another fund. Examples of departmental operations accounted for in the General Fund include the City Council, Police and Fire Departments, Library, Parks and Recreation, and others.

Generally Accepted Accounting Principles (GAAP) - Uniform minimum standards and guidelines for financial accounting and reporting that govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules and procedures necessary to define accepted accounting practice at a particular time. GAAP provide a standard by which to measure financial presentations. The primary authoritative body on the application of GAAP to State and local governments is the GASB (Governmental Accounting Standards Board).

Governmental Accounting - The composite activity of analyzing, recording, summarizing, reporting, and interpreting the financial transactions of governments.

Governmental Accounting Standards Board (GASB) - The authoritative accounting and financial reporting standard-setting body for government entities.

Governmental Fund - A fund type to account for tax-supported activities. There are four different types of governmental funds: the General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds.

Grant - Contributions of cash or other assets from another government entity to be used or expended for a specific purpose, activity or facility. An example is the Community Development Block Grant given by the federal government.

HOME Program – Federal housing assistance program that provides funds to low- and very low- income families for both rental units and privately-owned dwellings.

Housing and Urban Development (HUD) - The Federal agency whose mission is to increase home ownership, support community development and increase access to affordable housing free from discrimination.

Housing Authority - The City of Santa Clara Housing Authority was established by Resolution 11-7827 on February 22, 2011 to ensure the provision of safe and sanitary housing for persons of low income.

Indirect Cost Allocation Plan - The City uses an indirect cost allocation plan to ensure that enterprises and certain special revenue supported operations pay for themselves and are not subsidized by City taxpayers. General Fund supported central services costs such as payroll, accounting, data processing, personnel, city management and facilities maintenance are allocated to those funds benefiting from these services based on statistical data reflecting use of these support services.

Infrastructure - Facilities on which the continuance and growth of a community depend on such as roads, water lines, sewers, public buildings, parks and airports.

Interest and Rent - Interest income on investments and rental income received on property owned by the City.

Interfund Services - Services provided by one fund within the City for the benefit of another fund for which the benefitting fund is charged a fee (e.g., payroll services for the Electric Utility Department).

Interfund Transfers - With Council approval, resources may be transferred from one City fund to another. The purpose of the majority of transfers is to reimburse a fund that has made expenditures on behalf of another fund. Less often, a transfer may be made to open or close a fund.

Intergovernmental - Revenue received from other government entities (e.g., grants).

Internal Service Funds - These funds account for special activities and services performed by a designated department for other departments in the City on a cost reimbursement basis.

Legal Debt Limit - Per section 6.07 of the City Charter, bonded indebtedness of the City may not exceed 10% of the total assessed valuation of property within the City, exclusive of any indebtedness incurred for the purpose of water supply, sewers or storm drains.

Levi's Stadium - The stadium is located at 4900 Marie P. DeBartolo Way, Santa Clara and is the home of the San Francisco 49ers professional football team. It has a permanent seating capacity of approximately 68,500 seats with expansion to approximately 75,000 seats for larger events, such as an NFL Super Bowl. The stadium was built based on the City of Santa Clara approved Measure J, the Santa Clara Stadium Taxpayer Protection and Economic Progress Act, on June 8, 2010.

Levy - An amount of taxes, special assessments or service charges imposed by a government for the support of government activities.

Liability - Probable future sacrifices of economic benefits arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events. That is, a financial obligation or claim of financial resources of a specific fund to be liquidated at a future date.

Long-term Debt - Debt with a maturity of more than one year after the date of issue.

Mission - The overriding purpose of the department, division, or program.

Modified Accrual Basis of Accounting - Revenues are recognized in the accounting period in which they become available and measurable; expenditures are recognized in the accounting period in which the fund liability is incurred (if measurable), except for unmatured interest on general long-term debt and certain similar accrued obligations, which should be recognized when due.

Municipal Code - A compilation of City Council approved ordinances currently in effect. The Code defines City policy in various categories, for example, Civil Service rules, traffic regulations, sanitation and health standards, building regulations and planning and zoning regulations.

Object Category - See Expenditure Object Category.

Operating Budget - The portion of the budget that pertains to the City's daily operations and activities engaged in to provide services to the community. The operating budget contains appropriations for such expenditures as personnel (salaries, wages and benefits), supplies and materials, utilities, travel and fuel.

Ordinance - A formal legislative enactment by City Council. It has the full force and effect of law within City boundaries unless pre-empted by a higher form of law (State or federal). An ordinance has a higher legal standing than a resolution. Revenue raising measures, such as the imposition of taxes, special assessments and service charges are some examples of actions that would require the enactment of an ordinance.

Other Financing Sources - Changes in residual fund equity or balances not arising from revenues or expenditures/expenses. Includes governmental fund general long-term debt proceeds, amounts equal to the present value of minimum lease payments arising from capital leases, proceeds from the sale of general fixed assets and operating transfers in.

Performance Measures - This is a non-financial measurement of activity such as number of meters read, number of bills sent, number of customer service calls handled and response time to emergency calls. Performance-based budgeting incorporates performance measures into the budget process.

Program - A program is a specific service or activity that falls under departmental divisions. Programs provide for a lower level of detail regarding a Department's function. For instance, the Traffic Program under the Police Field Operations Division.

Property Tax - An ad valorem (based on value) tax on real property and tangible personal property levied by the local government on the property located within the City's jurisdiction. Property tax is determined by two factors: the assessed value of the property and the tax rate for the area in which the property is located.

Public Facilities Financing Corporation (PFFC) - The City of Santa Clara Public Facilities Financing Corporation (PFFC) was formed in 1997 for the purpose of issuing Certificates of Participation (COPs) to provide financing for the construction of major City facilities. Members of the City Council are also members of the PFFC Board. Debt service on the COPs is secured by lease payments made by the City's General Fund to the PFFC for the use of the constructed facilities for public purposes. In accordance with lease agreements, the PFFC assigns lease payments received from the City to the trustee for payment to the certificate holders.

Redevelopment Dissolution Act - See Dissolution Act.

Reimbursement - Repayments of amounts remitted on behalf of another party, or interfund transactions that constitute reimbursements to a fund for expenditures or expenses initially made from it but properly applied to another fund.

Reserve - An account used to earmark a portion of fund balance to indicate that it is not available for expenditure or legally segregated for a specific future use.

Resolution - A special or temporary legislative order of the City Council/Agency/Authority. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the City. A resolution requires less legal formality and has a lower legal status than an ordinance.

Revenue - Resources received by the government available for use in supporting services including such items as taxes, fees, permits, licenses, grants and interest.

Risk Management - An organized attempt to protect a government's assets against accidental loss in the most economical method. The City is exposed to various risks of losses related to torts, errors and omissions, general liability, injuries to employees and unemployment claims. Claims, expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated using actuarial methods or other estimating techniques. These losses include an estimate of claims that have been incurred but not reported.

Sales Tax - A tax imposed by the government on retailers at the point of sale for the privilege of selling tangible personal property. It is usually calculated as a percentage of the selling price and collected by the retailer from the consumer. The rate in the City of Santa Clara is 9.125%.

Silicon Valley Power (SVP) - The City's Electric Utility Department provides electricity to City residents and businesses under the name Silicon Valley Power.

Special Assessment – A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund – A fund in which revenue collected is restricted by the City, State or federal government as to how the city might spend its resources.

Sports and Open Space Authority (SOSA) – The City of Santa Clara Sports and Open Space Authority (SOSA) was created by the City Council in 1974 for the acquisition and development of open space within the City. The members of the City Council are also members of SOSA's Board of Directors and, as such, are authorized to transact business and exercise power to purchase, lease or otherwise obtain and dispose of real and personal property, to acquire, construct, maintain, repair, manage and operate real and personal property, including leasing to private operators for commercial purposes, surplus space which is not economical to use for open space planning.

Stadium Authority – The Stadium Authority was established by the City Council in 2011 to provide for the development and operation of Levi's Stadium. The Stadium Authority's governing board is the seven members of the City Council. The Stadium Authority will own, develop, construct, operate and maintain the Stadium, and have all powers granted to it by the City. The Stadium Authority is a separate and distinct legal entity, and the City is not liable for the debts or obligations of the Stadium Authority.

Strategic Pillar – The City Council adopted seven focus areas for City operations: 1. Promote and Enhance Economic, Housing and Transportation Development; 2. Deliver and Enhance High Quality Efficient Services and Infrastructure; 3. Enhance Community Sports, Recreational and Arts Assets; 4. Enhance Community Engagement and Transparency; 5. Ensure Compliance with Measure J and Manage Levi's Stadium; 6. Manage Strategically our Workforce Capacity and Resources; and 7. Promote Sustainability and Environmental Protection.

Subsidy – A grant by a government entity to another government entity to pay all or a portion of an activity of the government deemed advantageous to the public.

Successor Agency to the Former Redevelopment Agency of the City of Santa Clara – Pursuant to State legislation ABx1 26, the "Dissolution Act," the Redevelopment Agency (RDA) of the City of Santa Clara was dissolved effective February 1, 2012. The City has elected to become the Successor Agency for the RDA non-housing functions, responsible for paying off the former Redevelopment Agency's existing debts, disposing of the former Redevelopment Agency's properties and assets to help pay off debts, returning revenues to the local government entities that receive property taxes, and winding down the affairs of the former Redevelopment Agency. The City has also elected to retain the former Redevelopment Agency's housing functions, including retaining all of the housing assets, rights, power, duties, obligations and functions previously performed by the Redevelopment Agency in administering its Low and Moderate Income Housing Fund.

Surplus – An excess of revenue (resources) over expenditures or expenses.

Taxes – Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. The term does not include specific charges made against particular persons or property for permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges as, for example, water service charges.

Ten-Year Financial Plan – A strategic planning document showing the estimated results of operations and capital improvement project requirements over the next ten years. This plan is reviewed and accepted by Council and no appropriations result from that acceptance.

Theme – The capital budget is aligned to twelve categories (Administrative Facilities, Community Facilities, Convention Center, Electric Utility, Other Community Projects, Parks and Trails, Sewer Utility, Solid Waste, Storm Drain, Technology and Equipment, Transportation, and Water and Recycled Water Utilities).

Tourism Improvement District (TID) – The Santa Clara Tourism Improvement District was established in 2004 as a marketing revenue supplement to assist the Santa Clara Convention and Visitors Bureau (CVB) with marketing the City of Santa Clara to hotel and convention center groups and visitors. The activities to be provided to the district will be funded by the levy of assessments.

Transient Occupancy Tax (TOT) – A locally controlled tax imposed on travelers who stay in temporary lodging facilities for stays thirty days or less. The rate in the City of Santa Clara is currently 11.5%.

Trust Fund – Used to account for assets held by the City in a trustee capacity.

User Charges – The payment of a fee for direct receipt of a public service by the party benefiting from the service.

BUDGET SUMMARY | SUMMARY OF FUND ACTIVITY

***Explanations for FY 2023/24 Beginning Fund Balance and Ending Fund Balance Changes Greater Than 10%**

1. The accumulation of surplus revenues and/or expenditure savings is being used for budget balancing purposes.
2. The beginning fund balance includes carryover of the prior year's budget. If these carryovers are removed, the change in fund balance is less than 10% (except in the Electric Capital Fund where the change in fund balance is above 10%)
3. The accumulation of savings is being used for various one-time uses.
4. This fund's expenditure budget is determined using rates, fees and charges estimates for cost recovery; reflects the ramp up of activity
5. The accumulation of savings is being used to support future years' uses and/or to establish recommended reserve levels.
6. The establishment or elimination of the fund.
7. The planned draw down of accumulated fund balance and/or reserves
8. The revenue and expenditure activity are provided and managed by an outside agency; reflects planned use of fund balance to support expenditures.
9. Changes in expenditure levels related to timing changes in capital expenditures.

Police Department ⁷	221.00	231.00	231.00	0.00	231.00
Department of Public Works ⁴	122.50	123.50	119.50	(4.00)	119.50
Water and Sewer Utilities Department	73.00	73.00	73.00	0.00	73.00
Non-Departmental	6.50	6.50	5.70	(0.80)	5.70
Total Budgeted FTE by Department/Office	1,095.00	1,127.00	1,149.25	22.25	1,153.25

¹The positions above represent all funded positions. This excludes 30.5 positions that are frozen including: the remaining 22.50 positions frozen on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402), the 5.0 positions frozen on June 22, 2021 (Agenda Item 5.0 – Report to Council 21-526), and the 3.0 positions recommended to be frozen in this Proposed Budget.

²The positions include 3.0 positions added during FY 2022/23 to support development related activity (Report to Council 22-1222) and 4.0 development-related positions recommended in FY 2024/25 as part of this Proposed Budget.

³This reflects 8.0 positions added during FY 2022/23 (3.0 positions added through Report to Council 22-1145 and 5.0 positions added through Report to Council 22-1772).

⁴The position counts exclude 7.0 positions that were originally funded by Related but are frozen beginning FY 2023/24 based on discussions with Related including 1.0 Senior Inspector in the Community Development Department, 1.0 Deputy Fire Marshal II and 1.0 Fire Protection Engineer in the Fire Department, and 1.0 Associate Engineer, 1.0 Principal Engineer, 1.0 Senior Civil Engineer, and 1.0 Public Works Inspector in the Department of Public Works.

⁵The positions include 18.0 Firefighters added from the SAFER grant (Report to Council 23-170, February 7, 2023), including 12.0 that were originally frozen on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402) and an additional 6.0 positions. This also includes 2.0 development-related positions added during FY 2022/23 (Report to Council 22-1145).

⁶This reflects the increase of an Office Specialist from 0.50 FTE to 0.75 FTE.

⁷The FY 2022/23 Adopted position count includes positions that were restored with the \$1.7 million added to the Police Department budget on June 21, 2021. This funding restored 10.0 FTE to the Police Department, approved by the City Council on January 11, 2022 (Report to Council 22-1595).

DEBT SERVICE

Overview

Under the authority of the City Manager, the City executes debt instruments, oversees the accounting and reporting of debt, administers debt proceeds, manages continuing disclosure and debt compliance requirements, and makes debt service payments, while acting with prudence, diligence, and attention to prevailing economic conditions.

The City of Santa Clara uses debt financing as a tool to maintain its long-term financial stability by paying for certain expenditures over time. Debt financing is also a tool for managing cash flow when large, one-time outlays are required as in the case of constructing a new building or large-scale upgrades to infrastructure. This section provides a summary of the City's debt service for the ten-year forecast period. Included is the Computation of Legal Debt Margin, which calculates the City's debt limit as defined by the City Charter. Also included is a debt service schedule representing the currently outstanding debt of the City. The City does not currently have any outstanding general obligation debt.

Debt Policies

The Santa Clara City Charter, Section 1309, limits the allowable bonded indebtedness of the City at 15% of the total assessed valuation of property within the City, exclusive of revenue bonds or any indebtedness that has been or may be incurred for the purposes of acquiring, constructing, extending, or maintaining municipally owned utilities, for which purposes a further indebtedness may be incurred by the issuance of bonds, subject only to the provisions of the State constitution and the City Charter.

Section 1321 of the City Charter further provides for the issuance of revenue bonds when authorized at an election as provided therein. The City Charter also gives City Council the power to issue revenue bonds to finance the generation, production, transmission and distribution of electric energy, including the acquisition and/or construction of lands and facilities therefor, without authorization at an election.

The City's Debt Management Policy provides guidance for the issuance of bonds and other forms of indebtedness to finance land acquisition, construction, equipment, and other capital requirements of the City. While the issuance of debt is an appropriate method of financing capital projects and major equipment acquisitions, such issuance shall be carefully monitored.

The issuance of debt shall be closely aligned with the cash flow requirements of the projects being financed. Within the limitations of the City Charter, determining the amount of indebtedness the City can afford begins by assessing the sufficiency of future revenues. The amount of debt issued is based on the requirements of the approved Capital Improvement Program, subject to the condition that sufficient revenues are projected to be available to pay debt service. Factors such as debt service coverage requirements outlined in the bond indentures, the impact on the citizens (tax rates), and any impact on the bond ratings will be carefully considered. Different factors are considered for each type of credit. For example, electric, water or sewer bonds will take into consideration the impact on customer utility rates. Other factors such as providing debt capacity for future programs and existing and forecasted fund balances, including reserves, will also be taken into consideration.

The City believes that debt is an equitable means of financing projects and represents an important source of meeting fiscal responsibilities. The City obtains and maintains long-term debt for large capital improvement projects. The Finance Department manages the City's debt with prudence, diligence, and with attention to prevailing economic conditions and applicable laws. It manages issuance of debt, administers debt proceeds, prepares ongoing disclosure, handles debt and tax compliance, and makes debt service payments. City departments with debt-financed capital programs coordinate with the Finance Department in implementing and handling debt related transactions. Semiannual updates are prepared by the Finance Department on outstanding debt for the City of Santa Clara, its Agencies and Corporations. This report is presented as a standard management practice that provides a valuable overview of the current status of the City's long-term debt

obligations. The current City Council approved debt policy can be found online at: <http://santaclaraca.gov/home/showdocument?id=63748>.

Long-Term Debt Planning

The City employs a comprehensive multi-year, long-term capital improvement planning program that is updated every two years. Debt management is a major component of the financial planning model which incorporates projected financing needs for infrastructure development that is consistent with the City's growth, while at the same time measuring and assessing the cost and timing of any debt issuance.

Credit Rating

The City seeks to obtain and maintain the highest possible credit ratings for all categories of short- and long-term debt. The City's bonds are rated favorably by major bond rating agencies, Fitch and Standard and Poor's (S&P Global Ratings). S&P Global Ratings assigned City of Santa Clara its 'AA+' issuer credit rating (ICR) in June 2022 and affirmed City's Certificates of Participation 'AA' long-term rating in May 2022. The City's Electric Revenue Bonds are rated 'AA-' by Fitch and its 'A+' rating was affirmed by S&P in November 2022. Maintaining high bond ratings has resulted in a broader market for the City's bonds and lower interest costs to the City.

Public Facilities Financing Corporation

The City of Santa Clara Public Facilities Financing Corporation (PFFC) was formed in 1997 for the purpose of issuing Certificates of Participation (COPs) to provide financing for the construction of major City facilities. Members of the City Council are also members of the PFFC Board. Debt service on COPs is secured by lease payments made by the City's General Fund to the PFFC for use of the constructed facilities for public purposes. In accordance with lease agreements, the PFFC assigns lease payments received from the City to the trustee for payment to the certificate holders.

Long-Term Debt Obligations

Certificates of Participation (COPs) are a debt instrument evidencing a pro-rata share in a specific pledged revenue source, usually lease payments. These lease payments are typically secured by an installment sale or leaseback agreement. Revenues are pledged to pay lease payments, and such lease payments are used to pay debt service on the COPs. The lessor typically assigns the lease and the payment to a trustee, which distributes the payments to certificate holders. These obligations do not constitute indebtedness under the State constitutional debt limitation and are not subject to voter approval.

Lease Revenue Bonds are a lease obligation secured by a leaseback arrangement with a public entity, where general operating revenues are pledged to pay the lease payments, and in turn are used to pay debt service on the debt. These obligations do not constitute indebtedness under the State constitutional debt limitation and are not subject to voter approval.

In connection with COPs and Lease Revenue Bonds, payments to be made under valid leases are payable only in the year in which use and occupancy of the leased property is available, and lease payments may not be accelerated. Lease financing requires the fair market rental value of the leased property to be equal to or greater than the required debt service or lease payment schedule. The governmental lessee is obligated to place in its annual budget the rentals that are due and payable during each fiscal year the lessee has use of the leased property.

Installment Sale Agreements are debt obligations secured by the assignment of installment payments required to be paid by the City from certain pledged revenues, such as revenues from an enterprise, in an amount sufficient to pay the installment payments, including interest. The City's outstanding Installment Sale Agreements are payable solely from the City's Sewer Utility and is not secured by any pledge of ad valorem taxes or General Fund revenues of the City. These obligations do not constitute indebtedness under the State constitutional debt limitation and are not subject to voter approval.

Revenue Bonds are obligations payable from revenues generated by an enterprise, such as electric, water, or wastewater utilities. The City's outstanding utility Revenue Bonds are payable solely from the City's Electric Utility and Sewer Utility Enterprise Funds and are not secured by any pledge of ad valorem taxes or General Fund revenues of the City.

Summary of FY 2023/24 and 2024/25 Debt Service

The Biennial Operating Budget Operating Budget includes \$59,723,048 in debt service for FY 2023/24 and \$40,647,934 in debt service for FY 2024/25. A ten-year debt service schedule is shown herein.

2010 City of Santa Clara Lease Agreement (Police Administration Building Project)

On July 13, 2010, the City entered into an agreement with the PFFC in order to provide funds to refund outstanding 1997 Certificates of Participation, which were originally issued to provide financing to build a new Police Administration building. The PFFC entered into a separate agreement with the assignee, Bank of America, N.A. Debt service on the Lease Agreement is secured by lease payments made by the City to the assignee for use of the Police Administration site. On March 22, 2012, Bank of America sold and transferred the Lease Agreement to Capital One Public Financing, LLC with no change to the terms, covenants, or conditions of the contract or the payment schedule. Lease payments were due semiannually beginning February 1, 2011 through February 1, 2022 with a coupon rate of 3.65%. This debt was paid in full at the end of FY 2021/22.

2013 Refunding Certificates of Participation (Central Park Library Project)

On March 28, 2013, the PFFC issued \$18.54 million of Refunding Certificates of Participation (2013 COPs) to provide funds to refund outstanding 2002A Certificates of Participation, which were originally issued to provide financing to build a new Central Park Library. The 2013 COPs mature annually beginning February 1, 2014 through February 1, 2032 and bear coupon rates ranging from 2.00% to 3.75%. Debt Service is secured by lease payments to be made by the City to the PFFC for use of the library site. The PFFC assigns the lease payments to the certificate owners.

Installment Sale Agreement, Series 2016 (Trimble Road Sewer Project)

On March 8, 2016, the City entered into a \$12.0 million Installment Sale Agreement with the PFFC in order to provide funds for the Trimble Road Trunk Sanitary Sewer Improvement Project. The PFFC entered into a separate Assignment Agreement with DNT Asset Trust, a wholly owned subsidiary of JPMorgan Chase National Association (the "Agreement"), to assign its rights under the Installment Sale Agreement to DNT Asset Trust. The Agreement has an interest rate of 2.14% and semiannual payments beginning August 1, 2016 through February 1, 2031. Installment payments on the Agreement are secured by a pledge of net revenues of the Wastewater System.

Installment Sale Agreement, Series 2020 (Regional Wastewater Facility)

The City co-owns the Regional Wastewater Facility with the City of San José. The facility is being rebuilt, with the City's portion of the costs budgeted as a separate project in the current Capital Improvement Program budget. The Water and Sewer Utilities Department oversees it. On June 11, 2020, the City entered into an Installment Sale Agreement (the "ISA") with the PFFC to provide funds for the San Jose/Santa Clara Regional Wastewater Facility Project (the "Project"). The PFFC entered into a separate Assignment Agreement with JPMorgan Chase Bank, N.A. (the "Assignment Agreement"), to assign its rights under the ISA to JPMorgan Chase Bank, N.A. The ISA in the amount of \$50.0 million carries a variable rate of interest equal to 80% of Term SOFR (Secured Overnight Financing Rate) plus SOFR adjustment of 0.10%, and plus 0.95% per annum.

The City may draw on the Installment Sale Agreement as necessary with an initial \$20.0 million drawn on the date of closing. Interest is due each January 1 and July 1, commencing January 1, 2021. Principal on outstanding advances is due on or before July 1, 2024. In addition, the PFFC shall pay an undrawn fee on any amount not yet drawn at a rate of 0.325% per annum on each interest payment date. Installment payments on the Agreement are secured by a pledge of net revenues

of the Wastewater System on a subordinate basis to the Trimble Road Installment Payments. No additional draw-downs were made nor planned.

Electric Revenue Refunding Bonds, Series 2013A

On April 24, 2013, Silicon Valley Power (SVP), City's Electric Department, issued \$64.38 million of Electric Revenue Refunding Bonds, Series 2013A (Electric 2013A Bonds), to provide funds, together with other available moneys, to refinance outstanding Electric 2003A Bonds. The Electric 2013A Bonds mature annually beginning on July 1, 2014 through July 1, 2028 and bear coupon rates ranging from 3.00% to 5.00%. Debt service on the Electric 2013A Bonds is secured by a pledge of net revenues of the Electric Utility Enterprise Fund.

The Electric 2013A Bonds maturing July 1, 2023 through July 1, 2028 were refunded on April 10, 2020 by the Subordinate Electric Revenue Refunding Bonds, Series 2020-2 described below. The refunding of a portion of the Electric 2013A Bonds resulted in overall savings of \$1,706,384.

Electric Revenue Refunding Bonds, Series 2018A

On December 18, 2018, SVP issued \$48.80 million of Electric Revenue Refunding Bonds, Series 2018A (Electric 2018A Bonds) to refinance \$54.58 million outstanding principal amount of Variable Rate Demand Electric Revenue Bonds, Series 2008B and terminate a related interest rate swap transaction. The Electric 2018A Bonds mature annually beginning on July 1, 2019 through July 1, 2027 and bear coupon rates of 5.00%. Debt service on the Electric 2018A Bonds is secured by a pledge of net revenues of the Electric Utility Enterprise Fund.

Subordinate Electric Revenue Refunding Bonds, Series 2020-1, 2020-2, and 2020-3

Series 2020-1 Bonds

On April 10, 2020, SVP issued \$52.985 million of Subordinate Electric Revenue Refunding Bonds, Series 2020-1 (Electric 2020-1 Bonds) to refinance \$54.83 million outstanding principal amount of Electric Revenue Refunding Bonds, Series 2011 A. The Electric 2020-1 Bonds bear 1.74% coupon rates, mature annually beginning on July 1, 2028 through July 1, 2032, and were sold at an All-In True Interest Cost of 1.43%.

On April 2, 2021, the Electric 2020-1 Bonds were converted to tax-exempt basis, which now bear 1.36% coupon rates. Debt service on the Electric 2020-1 Bonds is secured by a pledge of Available Electric Revenues of SVP on a basis subordinate to outstanding Senior Electric Revenue Bonds, if any.

Series 2020-2 Bonds

On April 10, 2020, SVP issued \$34.315 million of Subordinate Electric Revenue Refunding Bonds, Series 2020-2 (Electric 2020-2 Bonds) to refinance \$30.725 million of outstanding Electric Revenue Refunding Bonds, Series 2013 A. The Electric 2020-2 Bonds bear 1.31% coupon rates, mature annually beginning on July 1, 2023 through July 1, 2028, and were sold at an All-In True Interest cost of 1.21%.

On December 28, 2022, the Electric 2020-2 Bonds were converted to tax-exempt basis, which now bear 1.02% coupon rates. Debt service on the Electric 2020-2 Bonds is secured by a pledge of Available Electric Revenues of SVP on a basis subordinate to outstanding Senior Electric Revenue Bonds, if any.

Series 2020-3 Bonds

On April 10, 2020, SVP issued \$16.72 million of Subordinate Electric Revenue Refunding Bonds, Series 2020-3 (Electric 2020-3 Bonds) to refinance \$19.413 million outstanding principal amount of Subordinated Electric Revenue Bonds, Series 2014. The Electric 2020-3 Bonds bear 0.58% coupon rates, mature annually beginning on July 1, 2020 through July 1, 2024, and were sold at an All-In True Interest Cost of 0.70%. Debt service on the Electric 2020-3 Bonds is secured by a pledge of Available Electric Revenues of SVP on a basis subordinate to outstanding Senior Electric Revenue Bonds, if any.

Regional Wastewater Facility Debt Planned

It is the Water and Sewer Utilities Department's intention to issue debt in FY 2023/24, in the amount of \$30.0 million, to refinance Series 2020 (Regional Wastewater Facility) Installment Sale Agreement of \$20.0 million principal outstanding, as described above, and borrow an additional \$10.0 million of new debt for the final phase of this capital project. This new issuance and preliminary debt service amounts are reflected in the City's Debt Service Schedule.

Electric Debt Planned

Silicon Valley Power (SVP), City's Electric Department, intends to issue new debt in FY 2023/24, in the amount of \$305.3 million to finance several of its capital projects in the System Expansion Plan. These projects include Kifer Receiving Station (KRS) rebuild, Scott Receiving Station (SRS) rebuild, Northern Receiving Station (NRS) transformer and breaker upgrades, and NRS/KRS 115kV transmission line construction. KRS was constructed in 1975 and the project will expand capacity to 900MVA from 372 MVA plus other associated work. SRS was constructed in 1968 and the project will also expand capacity to 900MVA from 372 MVA plus other associated work. NRS was constructed in 2004 and the project includes installing additional transformers and reconfiguring/expanding associated air insulated switchgear to increase station reliability and capacity. The NRS/KRS new transmission line construction will help balance and redistribute energy between the receiving stations. This new issuance and preliminary debt service amounts are reflected in the City's Debt Service Schedule.

Note:

(1) Section 1309 of the City Charter of the City states: "Bonded Debt Limit. The bonded indebtedness of the City may not in the aggregate exceed the sum of fifteen percent (15%) of the total assessed valuation of property within the City, exclusive of revenue bonds or any indebtedness that has been or may hereafter be incurred for the purposes of acquiring, constructing, extending, or maintaining municipally owned utilities for which purposes a further indebtedness may be incurred by the issuance of bonds, subject only to the provisions of the State Constitution and this Charter."

DEBT SERVICE FUNDS

Under the authority of the City Manager, the City executes debt instruments, oversees the accounting and reporting of debt, administers debt proceeds, manages continuing disclosure and debt compliance requirements, and makes debt service payments, while acting with prudence, diligence, and attention to prevailing economic conditions.

The City of Santa Clara uses debt financing as a tool to maintain its long-term financial stability by paying for certain expenditures over time. Debt financing is also a tool for managing cash flow when large, one-time outlays are required as in the case of constructing a new building or large-scale upgrades to infrastructure.

Public Facilities Financing Corporation (431)

The City of Santa Clara Public Facilities Financing Corporation (PFFC) was formed in 1997 for the purpose of issuing Certificates of Participation (COPs) to provide financing for the construction of major City facilities. Members of the City Council are also members of the PFFC Board. Debt service on COPs is secured by lease payments made by the City's General Fund to the PFFC for use of the constructed facilities for public purposes. In accordance with lease agreements, the PFFC assigns lease payments received from the City to the trustee for payment to the certificate holders.

Electric Utility Debt Service Fund (491)

The Electric Utility Debt Service Fund is used to pay principal, interest, and related service charges on obligations resulting from the issuance of debt by the Electric Utility. Bond proceeds are used to pay for capital costs associated with the Electric Utilities' generation, transmission and distribution facilities. Debt service is payable from Adjusted Net Revenues of the Electric Utility.

Sewer Utility Debt Service Fund (494)

The Sewer Utility Debt Service Fund is used to pay principal, interest, and related service charges on obligations resulting from the issuance of debt by the Sewer Utility. Bond proceeds are used to pay for capital improvements associated with the Sewer System, including the Trimble Road Trunk Sanitary Sewer Improvement Project and the San José-Santa Clara Regional Wastewater Facility Project. Debt service is payable from Net Revenues of the Sewer Utility.

The following section details the City of Santa Clara's Debt Service Funds' Statements of Sources and Uses and the Proposed Budget for Fiscal Year 2023/24 and Fiscal Year 2024/25.

Ten-Year General Fund Financial Forecast 2024 - 2034

March 2023

PURPOSE

The Ten-Year General Financial Forecast (Forecast) provides policy makers and the public an updated assessment of the City's fiscal health. The Forecast includes projections of ongoing General Fund revenues and expenditures for a ten-year period beyond the adopted biennial budget.

The Forecast serves as a strategic planning tool to assist the City Council, staff, and the public with decision-making as they work to adopt the budget and consider long-term financial strategies for the City. The Forecast also identifies known risk factors and vulnerabilities, and it provides a foundation for evaluating priorities and understanding trade-offs moving forward.

GENERAL FUND OVERVIEW

The Forecast compares anticipated General Fund revenues with base expenditures, which include the projected costs of providing the current level of service. Individual projections of revenues and expenditures are developed based on trend analyses, input from available economic reports, consultant recommendations, departments, updated salary and benefit information, and non-personnel costs. The most current information available is incorporated into the Forecast and refined on a moving forward basis.

This Forecast shows a General Fund shortfall of \$8.0 million in FY 2023/24 and \$8.9 million in FY 2024/25, with the projected deficit reaching a high of \$15.0 million in FY 2028/29 and a low of \$7.5 million in FY 2033/34. The projected shortfall of \$8.0 million in FY 2023/24 is equivalent to 2.8% of forecasted expenditures.

FY 2024-2034 General Fund Ten-Year Financial Forecast (\$ in millions)

	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	2032/33	2033/34
Projected Revenues	\$272.6	\$284.9	\$297.3	\$309.0	\$321.2	\$333.3	\$346.5	\$359.7	\$373.5	\$387.8	\$402.7
Projected Expenditures	\$280.6	\$293.8	\$308.2	\$320.8	\$332.7	\$348.3	\$360.5	\$373.9	\$383.3	\$396.4	\$410.2
Cumulative (Shortfall)/ Surplus	(\$8.0)	(\$8.9)	(\$10.9)	(\$11.8)	(\$11.5)	(\$15.0)	(\$14.0)	(\$14.2)	(\$9.8)	(\$8.6)	(\$7.5)
% of Expenses	2.8%	3.0%	3.5%	3.7%	3.5%	4.3%	3.9%	3.8%	2.5%	2.2%	1.8%

Note: The Forecast does not include the cost to address unmet/deferred infrastructure needs, the cost to fully fund public safety equipment replacement, additional contributions to reserves, one-time funding sources, and one-time expenditure needs.

The Forecast compares ongoing revenues and expenditures. It does not factor in one-time funding sources or items funded on a pay-as-you-go method with one-time sources. To the extent the biennial budget is balanced using one-time funding, such as reserves, that portion of the ongoing deficit would remain to be addressed in a future budget.

The City also has a significant backlog of unmet and deferred capital infrastructure needs that are not factored into this forecast. Historically, the City has funded many capital infrastructure and equipment needs with one-time funds on a pay-as-you-go basis. The use of one-time funds as the funding mechanism for capital improvements and various equipment that rely on the General Fund creates challenges. Staff will continue to evaluate potential options to create capacity to address those funding needs.

The forecast also does not include additional contributions to Reserves (Budget Stabilization Reserve, Capital Projects Reserve, Pension Reserve). Allocations to those reserves typically occur at the close of the fiscal year from excess revenues and expenditure savings. The forecast also does not factor in the additional revenue and associated expenses from future development projects given the uncertainty of those project schedules.

In addition to the elements described above that are not factored into the Forecast, the City has identified various risk factors that could have a potential impact on the Forecast. These include:

- Economic slowdown/recession (continued high inflation, federal reserve actions, and banking disruptions)
- State/federal legislative changes and legal challenges;
- Labor costs outside the budget assumptions;
- CalPERS actuarial changes or reform actions; and
- Unanticipated critical capital/infrastructure needs.

As the City has experienced in the past and with the latest COVID-19 pandemic, General Fund revenues may exceed or fall below expectations based on changes in economic or non-economic conditions. This type of volatility has been seen in the City's largest General Fund revenues, Property Tax, Sales Tax, and Transient Occupancy Tax (TOT). TOT receipts were the most severely impacted by the COVID-19 pandemic. Various cost elements can also vary from year to year, such as retirement costs that are impacted by the earnings assumptions and performance of the California Public Employees Retirement System (CalPERS).

ECONOMIC OUTLOOK

Economic indicators are mixed, and there is a tremendous amount of uncertainty. Given this level of uncertainty, both the December 2022 and March 2023 UCLA Anderson Forecasts presented a two-scenario approach: recession scenario and no recession scenario. The recession scenario predicts a recession occurring at the end of 2023, where “inflation would have continued to run hot if not for aggressive Federal Reserve action. In this scenario, the Federal Reserve forces a mild recession and accepts an economic contraction and higher unemployment to combat inflation.” In the no recession scenario, “economic growth slows but remains positive, inflation ebbs, labor markets remain robust, and the Federal Reserve takes a less aggressive approach to monetary policy tightening”.¹

Real GDP Levels, US\$ Trillions, Chained 2012 Prices, Seasonally Adjusted Annual Rates

Source: UCLA Anderson Forecast and U.S. Bureau of Economic Analysis

This uncertainty is also reflected in the February 2023 National Association for Business Economics (NABE) Outlook Survey, which found significant divergence regarding the outlook for the U.S. economy. “Estimates of inflation-adjusted gross domestic product or real GDP, inflation, labor market indicators, and interest rates are all widely diffused, likely reflecting a variety of options on the fate of the economy – ranging from recession to soft landing to robust growth.”²

Given this uncertainty, there is greater risk for variances in the economically sensitive revenues, such as Sales Tax, Transient Occupancy Tax and Property Tax. This Forecast assumes moderate economic growth in these areas, with Transient Occupancy Tax continuing to improve from the severe COVID-19 impacts. Adjustments may be necessary in future Forecasts depending on actual economic performance.

¹ UCLA Anderson Forecast, March 2023, Recession or No Recession? That is the Question

² [February 2023 Outlook Survey Summary \(nabe.com\)](https://www.nabe.com/February-2023-Outlook-Survey-Summary)

Employment data has remained positive with low unemployment rates. On a national level, the unemployment rate was 3.6% in February 2023. This rate was well below the record setting high of 14.7% in April 2020, and slightly above the pre-pandemic unemployment rate of 3.5%.

U.S. Civilian Unemployment Rate, seasonally adjusted

Note: shaded area represents recession, as determined by the National Bureau of Economic Research
Source: U.S. Bureau of Labor Statistics

In the fourth quarter 2022 second estimate, the Gross Domestic Product (GDP) increased at an annual rate of 2.7%, following a GDP increase of 3.2% in the third quarter. The GDP decelerated in the fourth quarter compared to the third due to downturns in exports, State and local government spending as well as a slowing in consumer spending.³

³ https://www.bea.gov/sites/default/files/2023-02/tech4q22_2nd.pdf

The unemployment rates at the state and local level also remain low, with this region outperforming both the State and the nation.

Unemployment Rate (Not Seasonally Adjusted)				
	Dec 2019	Dec 2020	Dec 2021	Dec 2022
Nation	3.4%	6.5%	3.7%	3.3%
California	3.9%	8.9%	5.0%	3.9%
San José-Sunnyvale-Santa Clara Metropolitan Statistical Area	2.4%	6.2%	2.9%	2.4%
Source: California Employment Development Department, U.S. Bureau of Labor Statistics				

Property values in Santa Clara remain high. In 2022, the median price of a single-family home was \$1.8 million, which was up from the 2021 level of \$1.64 million as shown in the Single-Family Residential Home Sales chart. The number of single-family closed sales, however, was down from 659 in 2021 to 515 in 2022. With the rise in interest rates from the historic lows experienced over the last several years, there is risk to this sector. In the first quarter 2023, the median single-family home price was \$1.6 million and there were 68 closed sales.

Data Source: Santa Clara County Association of Realtors

There are significant development projects underway in Santa Clara that will bring new revenues as well as new costs. The financial impacts of these developments have not been factored into this Forecast given the uncertainty regarding the timing. However, it is anticipated that this additional development activity will have a positive impact on the Forecast.

GENERAL FUND REVENUES

There are several General Fund revenue sources supporting the City's activities as shown in the table below.

FY 2024-2034 General Fund Revenue Sources (\$ in millions)											
	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	2032/33	2033/34

% Change from Prior Yr		4.5%	4.4%	3.9%	3.9%	3.8%	4.0%	3.8%	3.8%	3.8%	3.8%

Sales tax and property tax comprise the largest individual sources of General Fund revenues, representing a combined \$146.3 million in FY 2023/24, or over 50% of the total. These categories along with Transient Occupancy Tax are economically sensitive and account for approximately 60% of the General Fund revenues.

FY 2023/24 General Fund Revenues (\$272.6 million)

Following is a discussion of the major General Fund revenue categories:

Property Tax

The Property Tax category includes Secured and Unsecured Property Taxes. The County of Santa Clara Office of the Assessor and the Controller-Treasurer Department meets quarterly with cities to review property tax revenue allocated to Santa Clara County cities. The Controller-Treasurer Department provides projections on the current year property tax receipts, including updates on the assessed valuation and estimates on anticipated adjustments made from property tax appeals. The current year estimates are used as the starting point in the Forecast. The County Assessor's Office also provides information to cities on a monthly basis on the status of the assessment roll for the upcoming year. In FY 2022/23, property tax receipts are estimated at \$81.9 million.

In FY 2023/24, property tax revenue is projected at \$85.8 million and includes secured property tax of \$82.9 million and unsecured property tax of \$2.9 million. Assessed valuation growth on secured property is projected at 6.0% and reflects the annual inflation factor based on Consumer Price Index (2% increase in FY 2023/24), growth due to property sales, and a general allowance for new construction projects being added to the tax rolls. In the remaining years of the forecast, annual assessed valuation growth of 4.5% - 5.5% is projected. In order to meet these growth projections, developments with assessed

valuation between \$700 million to \$1 billion would need to continue annually. By the end of the forecast period, Property Tax receipts are projected to reach \$141.5 million.

Secured Property Tax receipts include general secured property tax along with supplemental property tax (retroactive collections back to the point of sale for reassessments of value due to property resale), residual Redevelopment Agency (RDA) receipts (starting in FY 2022/23, the residual receipts ceased and the funds are allocated directly to the taxing entities' secured property tax roll), and excess Educational Revenue Augmentation Fund (ERAF) funds. Under Proposition 98, a portion of property tax receipts are allocated to the ERAF beginning in 1992 and once there are sufficient funds in ERAF to fulfill the obligation to the school districts, excess funds are returned to the taxing entities that contributed the funding. The Forecast assumes \$3.8 million from ERAF in FY 2023/24, which is lower than prior years as the County of Santa Clara has indicated that approximately 30% of the ERAF receipts are considered high risk due to disputes regarding the allocation of these funds.

Secured Property Tax receipts are expected to increase 4.9% in FY 2023/24, and 4.5% in FY 2024/25. Annual growth ranging from 4.9% to 5.5% is projected for the remaining years of the Forecast. Unsecured Property Tax receipts are projected to increase 1% annually over the forecast period. Overall, property tax receipts are expected to grow at an average annual rate of 5.1% over the forecast period.

Note: FY 2013/14 includes one-time \$6.1 million due to Redevelopment Agency dissolution

Sales Tax

Santa Clara's sales tax collections are directly influenced by local, regional, national and international economic and business cycles. Because of this, sales tax collections are one of the most economically sensitive General Fund revenue sources. These collections, which were impacted by COVID-19, are expected to experience modest growth in FY 2023/24 and continue to grow throughout the forecast period.

As shown in the chart below, sales tax collections are expected to total \$60.5 million in FY 2023/24 and increase approximately 3% annually. Based on these projections, annual collections will reach \$81.3 million by FY 2033/34. These projections are based on a review of sales tax receipts and information provided by the City's sales tax consultant, Avenu Insights & Analytics. Their estimates incorporate individual category/segment projections with adjustments for known individual business anomalies such as missed payments or misallocations.

Note: FY 2016/17 includes a one-time true-up payment due to the unwinding of the State's Triple Flip.

To provide context on how the City generates its sales tax revenues and the performance in recent years, the chart below from Avenu Insights & Analytics, the City's Sales Tax consultant, breaks out the sales tax per capita for the fourth quarter of each calendar year for the past five years, adjusted for inflation. The COVID-19 related impacts are reflected starting in the fourth quarter 2020 data with declines in General Retail, Food Products (includes restaurants), Transportation, and Business-to-Business. As shown in the chart, the City's largest sector is Business-to-Business, which continues to provide the foundation for the City's tax base.

Transient Occupancy Tax

Transient Occupancy Tax (TOT) is calculated as a percentage of City hotel/motel room charges. The City's current TOT rate is 11.5%. This rate increased from 9.5% to 11.5% effective January 1, 2022 as approved by the City Council on October 19, 2021. This implemented one-half of the up to four percentage point increase approved by the voters in November 2020. As with sales tax, TOT is sensitive to business cycles and can vary greatly from year to year based on occupancy levels and room rates. Prior to COVID-19, this category had experienced tremendous growth as shown in the TOT chart on the following page. With the COVID-19 safety restrictions, TOT receipts plummeted at the end of FY 2019/20 and through FY 2020/21. Collections began improving in FY 2021/22 and continue to experience strong growth in FY 2022/23 but remain below pre-COVID levels.

TOT receipts are projected to continue to improve over the forecast period with an increase to \$20.4 million in FY 2023/24 as this sector continues to recover from the COVID-19 impacts, followed by growth ranging from 4% to 7.5% annually over the forecast period. By the end of the Forecast period, TOT receipts are projected to reach \$31.6 million.

Other Taxes

Other Taxes include the Franchise Tax and Documentary Transfer Tax. The Franchise Tax revenues are projected at \$5.2 million in FY 2023/24 with annual 3% increases in the out years of the Forecast. The Documentary Transfer Tax, which is imposed on the transfer of the title of real property, is projected at \$1.6 million in FY 2023/24 with 2% annual increases in the out years of the Forecast.

Licenses and Permits

Licenses and Permits are projected to total \$8.6 million in FY 2023/24, including business licenses taxes at \$6.0 million, fire permits at \$2.0 million, parking permit at \$525,000, and encroachment and miscellaneous permits at \$69,000. This reflects the voter-approved change to the Business License Tax effective July 1, 2023 that updated the structure of the business tax and increased the amount of revenue expected to be generated. The Business License Tax can be increased annually by the Consumer Price Index with a maximum of 5% annually. For the Licenses and Permits category, average annual growth of 2.5% is projected in the out years of the Forecast, with revenues reaching \$11.0 million in FY 2033/34.

Fines and Penalties

Fines and Penalties are projected to total 1.2 million in FY 2023/24 and increase to \$1.3 million by FY 2033/34. This Forecast assumes late charge collections will resume in F 2022/23.

Interest Income

The City invests all funds not needed for current cash requirements in accordance with the City Council-approved Investment Policy. The factors that directly influence General Fund interest income include prevailing interest rates, the size of the portfolio and the relative percentage of the portfolio allocated to the General Fund. Based on the projected interest rates and cash balances, the General Fund is expected to receive \$3.5 million in interest in FY 2023/24. In the remaining years of the Forecast, interest earnings are projected to range from \$3.7 million to \$5.4 million.

Rents

The Rents category includes property rents and leases as well as right-of-way rental fees charged to the water sewer and utilities. In FY 2023/24, rent revenue is estimated to total \$13.4 million, including \$8.0 million from property rents and leases and \$5.4 million from right-of-way rental fees. This category factors in projected lease revenue from the Related project (increasing from \$761,000 to \$5.2 million) as well the Commerce and Peddlers Plaza (revenue of \$500,000 through FY 2027/28). Growth projections for the out years of the Forecast are based on individual lease agreements. Rent revenue is projected to reach \$22.5 million by FY 2033/34.

Other Services Fees

The Other Services Fees category includes fees charged for various City services provided by the departments of Community Development, Police, Fire, Park and Recreation, and Public Works as well as cost allocation plan reimbursements and stadium-related reimbursements. The Fire development-related fees have been moved to a new Fire Development Fund. This category is estimated to generate \$37.7 million in FY 2023/24 and increase to \$48.4 million by FY 2033/34.

Transfers from Other Funds

The Transfers from Other Funds totals \$2.0 million in FY 2023/24 and includes the following: a transfer of \$1.5 million from the Storm Drain Capital Fund to support storm drain operations; a transfer of \$0.3 million from the Electric Utility Fund to support 1.0 position in the Finance Department and 1.0 position in the Human Resources Department added during FY 2022/23 (these positions will be factored into the cost allocation plan starting in FY 2025/26); a transfer of \$0.2 million from the Building Development Services Fund to cover a portion of the Code Enforcement costs that support development activity. In the out years of the Forecast, the transfers total \$1.7 million and include the transfers from the Storm Drain Capital Fund and the Building Development Services Fund.

Silicon Valley Power Transfer

In accordance with the City's charter, Silicon Valley Power pays 5.0% of gross revenues to the General Fund. Contributions are projected to total \$32.0 million in FY 2023/24 and \$34.0 million in FY 2024/25. It is anticipated that revenues will reach \$48.4 million by FY 2033/34, increasing at an annual rate of approximately 4%. Growth in this category is primarily driven by market projections for electric consumption, resources costs, and any rate increases assumed for the Electric Utility.

GENERAL FUND EXPENDITURES

General Fund expenditures are projected to grow from \$280.6 million in FY 2023/24 to \$410.2 million by the end of the forecast period. The FY 2023/24 expenditures are 3% above the FY 2022/23 Adopted Budget of \$272.4 million.

FY 2024-2034 General Fund Expenditures (\$ in millions)

FY 2023/24 General Fund Expenditures by Type (\$280.6 million)

Labor Costs

Labor costs, which include salary, retirement and other benefit costs, are projected at \$212.0 million in FY 2023/24. These costs are derived from a position-level analysis of City staffing, including actual salary and benefit information, negotiated salary and benefit adjustments for bargaining groups that have current Memorandums of Understanding with the City, projected adjustments for the out years of the forecast, and retirement information from the California Public Employees Retirement System (CalPERS) and the City's actuary.

Over the Forecast period, these costs are projected to increase an average of 3.8% annually and reach \$307.0 million by FY 2033/34.

Retirement Costs

Retirement costs represent one of the largest components of labor costs. The City contributes to CalPERS, which provides a defined benefit plan for participating public entities within the State of California. CalPERS offers a menu of benefit provisions that are established by State statutes within the Public Employee Retirement Law. The City selected its benefit provisions from the benefit menu by contract with CalPERS and adopted those benefits through local ordinance, following negotiations with employee bargaining groups.

CalPERS retirement costs rose sharply over the past decade as a result of the market losses in the early 2000s followed by benefit enhancements in the mid-2000s. In FY 2011/12, General Fund pension costs

were \$18.9 million; by FY 2023/24, pension costs are projected to be \$55.2 million. Retirement costs are expected to continue to rise with increases in salaries, downward revisions to investment return assumptions, adjustments to account for investment losses, and other demographic assumption changes. By the end of the Forecast period, PERS expenditures are projected to reach \$83.0 million and will account for an estimated 20% of General Fund expenditures.

On December 21, 2016, the CalPERS Board approved lowering the investment earnings assumption (discount rate) downward from 7.5% to 7.0% over a three-year period. This change increased rates beginning in Fiscal Year 2018/19, with the full impact to be realized in FY 2025/26. In February 2018, the CalPERS Board approved shortening the period over which actuarial gains and losses are amortized from 30 years to 20 years for new pension liabilities. This policy became effective as of the June 30, 2019 CalPERS actuarial valuations. On November 21, 2021, the board adopted new actuarial assumptions that impact the required contributions for FY 2023/24. This included lowering the discount rate to 6.8%. Additional actions will likely be implemented in the future as part of a risk mitigation strategy to move to more conservative estimates over time to reduce volatility, including additional downward revisions to the discount rate.

Year-by-year pension rate projections are shown below. These projections incorporate rates provided by CalPERS for FY 2023/24. In the remaining years of the Forecast, the retirement costs are based on rates provided by the City's actuary.

General Fund PERS Costs

Materials, Services and Supplies

The materials, services and supplies estimate for FY 2023/24 is \$34.7 million, which is above the FY 2022/23 Adopted Budget level of \$31.0 million and reflects anticipated increases in costs as well as those that occur every other year, such as election costs. Expenditures are projected to reach \$54.1 million by FY 2033/34.

Interfund Services

Interfund services include the General Fund contribution to several internal service funds, including Communications Acquisitions, Fleet Operations, Information Technology Services, Special Liability Insurance, Unemployment Insurance, Vehicle Replacement, and Workers' Compensation. In FY 2023/24, these costs are estimated at \$28.1 million and increase to \$38.8 million by FY 2033/34. These estimates are based on an evaluation of the activity levels in each internal service fund.

Loans and Transfers

This category includes debt service payments; transfers to the Cemetery Fund, Solid Waste Fund, Parks and Recreation Operating Grant Trust Fund (Senior Nutrition) and Sports and Open Space Authority Fund to ensure sufficient funding is available to provide services or meet obligations; transfers to capital funds for Public Works Capital Project Management; and the City's required contributions to Downtown Parking Maintenance District and Convention Center Maintenance District. These costs are estimated at \$5.8 million in FY 2023/24 and total \$10.3 million in FY 2033/34.

RESERVES

Reserves have generally been established with one-time funds and, with the exception of funding set aside in the Technology Reserves to maintain 100% cost recovery, are not reflected in the Forecast figures. Reserves, however, are an important component of the budget. Following is a discussion of the major General Fund Reserves.

Budget Stabilization Reserve: During FY 1985/86, the City Council established a policy regarding use of the City's General Contingency Reserve funds. Under that policy, two separate reserves were established, a Budget Stabilization Reserve (BSR) and a Capital Projects Reserve. The BSR is set aside to protect vital General Fund services through economic downturns, emergency financial crisis, or disaster situations. The reserve target is equal to the expenditures of the City's General Fund operations for three months (90-days or 25% of budgeted appropriations). When the FY 2022/23 and FY 2023/24 Operating Budget was adopted, the City Council approved an exception to the 25% BSR target level to address the impacts associated with COVID-19, allowing the reserve to drop to 15% of expenditures. The draft Budget Principles for FY 2023/24 would also allow the Reserve level to continue to be set at a minimum of 15% of expenditures while the City continues to financially recover. The BSR reserve level currently totals \$40.8 million. To meet the 15% reserve target, the reserve will need to be increased to an estimated \$44 million by FY 2024/25. It is anticipated that excess revenues and expenditure savings from FY 2022/23 will be available to increase the BSR to meet the 15% target level.

Capital Projects Reserve: This reserve is set aside to fund the portion of the City's Capital Improvement Program (CIP) that has no other funding sources to support it. The projects funded from this critical reserve provide basic City infrastructure and quality facilities. The Council adopted a policy in FY 1996/97 to maintain a minimum of \$5.0 million in the Capital Projects Reserve. The Capital Projects Reserve currently totals \$6.6 million.

Land Sale Reserve: This reserve sets aside proceeds from land sales to be used for land-related purposes or other General Fund needs as determined by the City Council. This reserve currently totals \$18.5 million.

Pension Stabilization Reserves: These reserves in the General Fund and other City funds have targeted contributions that would fund 1% of the City's unfunded pension liability annually to address the City's pension unfunded accrued liability. For the General Fund, this reserve currently totals \$21.4 million.

FY 2023/24 BUDGET PRINCIPLES

Below are FY 2023/24 Budget Principles that provide a framework for the budget process.

Draft Budget Principles for 2023/24

1. Make decisions within the context of the City's Code of Ethics and Values, especially being Fiscally Responsible, Communicative, and Service-Oriented.
2. Consider budget decisions with long-term implications taking into account data from the Ten-Year Financial Forecast.
3. To the extent possible, align ongoing expenditures with ongoing revenues to avoid negative impacts on future budgets and maintain the City's high financial management standards.
4. When addressing General Fund shortfalls, use a combination of ongoing and one-time solutions to balance the competing goals of aligning ongoing revenues and expenditures and minimizing the service delivery impacts to the community.
5. Continue cost control measures until the ongoing General Fund revenues and expenditures are in alignment.
6. Approve an exception to the Council Policy that dictates setting the General Fund Budget Stabilization Reserve at or above 25% of adopted budget expenditures; set the Reserve level at a minimum of 15% of expenditures.
7. Focus on projects and services that benefit the community as a whole.
8. Pursue economic development objectives and strategies to foster new public and private investment within Santa Clara, and to create employment opportunities.
9. Balance between compensation adjustments to retain and attract employees and funding for positions.
10. Use one-time unrestricted revenues (e.g., annual General Fund surplus) for one-time uses such as increasing reserves, funding capital or Information Technology projects, paying off debt, and/or paying off unfunded pension or other post-employment benefits liabilities.
11. Inform and communicate clearly and broadly to residents, businesses and employees regarding the City's fiscal position and budget; schedule hearings to promote active participation in the City Council's budget deliberations.
12. With limited exceptions, establish fees based on full cost recovery where individuals/businesses rather than the community at-large are benefitting from City services. This preserves limited unrestricted resources for providing services that benefit the community as a whole.
13. Focus on business process redesign in order to improve employee productivity and the quality, flexibility, and cost-effectiveness of service delivery (e.g., streamlining, simplifying, reorganizing functions, and reallocating resources).
14. Explore expanding existing revenue sources and/or adding new revenue sources.
15. Engage employees to contribute new and innovative ideas during the department budget development process.
16. Use the General Plan as a primary long-term fiscal planning tool and link ability to provide City services to development policy decisions.

CONCLUSION

The Forecast provides policy makers, the public, and City staff an updated assessment of the City's financial condition that considers the latest projections of economic conditions. It serves as a starting point in the budget development process by providing the necessary context for making budget decisions. The Forecast also identifies known risk factors and vulnerabilities, and it provides a foundation for evaluating priorities and understanding trade-offs moving forward.

The City's financial condition has improved since the release of the last forecast, but a General Fund deficit remains. A shortfall of \$8.0 million - \$8.9 million is projected for FY 2023/24 and FY 2024/25. By the end of the Forecast period, revenues are projected at \$402.7 million while expenditures are estimated at \$410.2 million, resulting in a deficit of \$7.5 million. When put into context of the size of the General Fund budget, the shortfall in FY 2023/24 is 2.8% of General Fund expenditures. In the out years of the Forecast, the annual margins are relatively narrow, ranging from 1.8% to 4.3% of the projected annual expenditure budget. The Adopted FY 2021/22 and FY 2022/23 Biennial Operating Budget included a budget balancing strategy that relied on a combination of expenditure reductions, revenue solutions, and use of reserves. The use of ongoing and one-time solutions balanced the competing goals of aligning ongoing revenues and expenditures and minimizing the service delivery impacts to the community. This also allowed for time to evaluate the post COVID-19 recovery and for conditions to improve. A combination of budget balancing actions is again expected to be brought forward in the FY 2023/24 and FY 2024/25 Biennial Operating Budget that will be adopted in June 2023.

In addition to the projected General Fund shortfall identified in this Forecast, there are elements of the City's budget that are not included in the Forecast as they have been funded pay-as-you-go with one-time sources. These include the costs to fund capital improvements that rely on General Fund funding, address unmet/deferred infrastructure needs, fully fund public safety equipment replacement, and make additional contributions to reserves. The Forecast also does not incorporate the financial impacts of new developments that may have a positive impact given the uncertainty regarding the timing. This Forecast serves as a strategic planning tool to meet the City's long-term goal to plan for additional fiscal capacity and bring forward sustainable funding strategies to address these unmet cost elements. This may include new and/or revised revenue options in the future.

Statements of Sources and Uses of Funds

This page is intentionally left blank.

General Fund

This page is intentionally left blank.

GENERAL FUND

The General Fund is the primary fund of the City that is used to account for all revenues and expenses that are not restricted by law or policy to be accounted for in another fund. The General Fund supports many of the most visible and essential City services including libraries, parks, police, and fire protection. The General Fund also includes many departments that provide central services including the City Manager, City Attorney, City Clerk, Mayor and City Council, Finance, and Human Resources offices and departments.

General Fund Sources

General Fund sources total \$385.1 million in the Proposed FY 2023/24 budget and consist of \$110.8 million in fund balance estimated to be carried over from FY 2022/23, \$272.1 million in revenue, and \$2.2 million in transfers from other funds. The total sources are down \$3.1 million from the FY 2022/23 amended budget. This change reflects a decline in the beginning fund balance (\$28.4 million) and an increase in revenues and transfers (\$25.3 million). The drop in the beginning fund balance is primarily due to the use of unrestricted fund balance resulting from the close out of FY 2021/22 and use of the Budget Stabilization Reserve and the Land Sale Reserve as part of the FY 2022/23 budget balancing. The growth in revenues primarily reflect increases in Property Tax, Transient Occupancy Tax and the SVP Transfer. As part of the budget process, estimates are developed for each line item, taking into consideration activity projections, historical trends, and the economic environment.

The table below summarizes the projected sources of General Fund revenues and transfers in this budget.

Funding Source	FY 2021/22 Actual	FY 2022/23 Amended	FY 2022/23 Estimate	FY 2023/24 Proposed	FY 2024/25 Change	FY 2024/25 Proposed
Property Tax	74,630,557	75,261,000	81,635,000	85,800,000	3,745,000	89,545,000

Transfers From	9,642,979	10,015,948	10,015,948	2,200,044	(184,750)	2,015,294
Total Revenues/ Transfers	242,183,546	248,921,058	253,925,058	274,263,600	13,078,381	287,341,981

The largest economically sensitive revenue categories (property tax, sales tax, and transient occupancy tax) account for approximately 60% of General Fund revenues. Following is a discussion of these categories as well as other major General Fund revenue categories.

Property Tax

Property tax is the largest revenue source for the City, representing approximately 30% of revenues. Under Proposition 13, the assessed valuation of properties held by the same owner from year to year is adjusted each year by the lesser of 2.0% or the percent change in the annual California Consumer Price Index (CCPI). For FY 2023/24, the adjustment factor based on CCPI is 2.0%. Beyond the inflation adjustment, growth in property tax receipts is driven by reassessments upon the sale of properties and new construction projects being added to the tax rolls. Overall, property tax revenue is expected to continue its solid growth with projected receipts \$85.8 million in FY 2023/24, and \$89.5 million in FY 2024/25.

Property Tax Distribution per \$100 Collected

Secured property tax receipts are projected to total \$82.9 million, an increase of 4.9% from the FY 2022/23 year-end estimate of \$79 million. The category includes general secured property tax (tax on real property that includes the land and the improvements attached to it, such as a home or building) along with supplemental property tax (retroactive collections back to the point of sale for reassessments of value due to property resale), residual Redevelopment Agency receipts, and excess Educational Revenue Augmentation Fund (ERAF) funds (under Proposition 98, a portion of property tax receipts are allocated to the ERAF and once there are sufficient funds in ERAF to fulfill the obligation to the school districts, excess funds are returned to the taxing entities). General secured property tax for FY 2023/24 is based on the assessed value as of January 1, 2023. Assessed valuation growth on secured property is projected at 6.0% in FY 2023/24 and reflects 2.0% annual inflation, growth due to property sales, and an allowance for new construction projects. In FY 2024/25, secured property tax receipts are estimated at \$86.6 million.

Unsecured property tax is assessed on personal property that is tangible or moveable and is not attached to real estate (e.g., office equipment, planes, boats). Unsecured property tax receipts are projected to total \$2.9 million in FY 2023/24 and FY 2024/25.

Sales Tax

Sales tax is the General Fund's second largest revenue. The City's current sales tax rate is 9.125%, of which the City of Santa Clara receives 1%. Santa Clara's sales tax collections are directly influenced by local, regional, national, and international economic and business cycles and are therefore one of the most volatile General Fund revenues. These collections, which were impacted by COVID-19, are expected to experience modest growth in FY 2023/24 and FY 2024/25. Sales tax receipts are estimated at \$60.5 million in FY 2023/24 and grow 3% in FY 2024/25 to \$62.4 million.

Sales Tax Distribution per \$100 Collected

Transient Occupancy Tax

Transient Occupancy Tax (TOT) is calculated as a percentage of City hotel/motel room charges. The City's current TOT rate is 11.5%. This rate increased from 9.5% to 11.5% effective January 1, 2022 as approved by the City Council on October 19, 2021. This implemented one-half of the up to four percentage point increase approved by the voters in November 2020. As with sales tax, TOT is sensitive to business cycles and can vary greatly from year to year based on occupancy levels and room rates. Prior to COVID-19, this category had experienced tremendous growth. With the COVID-19 safety restrictions, TOT receipts plummeted at the end of FY 2019/20 and through FY 2020/21. Collections began improving in FY 2021/22 and continue to experience strong growth in FY 2022/23 but remain below pre-COVID levels.

The FY 2023/24 and FY 2024/25 Proposed Budget assumes a phase-in of the remaining rate increase approved by the voters in 2021 as well as continued recovery in this category. In FY 2023/24, TOT receipts are estimated at \$21.3 million, and includes an additional \$850,000 from a one percentage point increase in the TOT rate assumed in January 2024. In 2024/25, the revenue estimate increases to \$23.7 million and includes \$1.7 million from the full year of the one percentage point increase. The remaining one percentage point increase is expected to be implemented in January 2026.

Franchise Tax and Documentary Transfer Tax

The Franchise Tax revenues are projected at \$5.15 million in FY 2023/24 and increase 3% to \$5.3 million in FY 2024/25. The Documentary Transfer Tax, which is imposed on the transfer of the title of real property, is projected at \$1.6 million in FY 2023/24 and increase 2% to \$1.63 million in FY 2024/25.

Licenses and Permits

Licenses and Permits are projected to total \$8.6 million in FY 2023/24, including business licenses taxes at \$6.0 million, fire permits at \$2.0 million, parking permit at \$525,000, and encroachment and miscellaneous permits at \$69,000. This reflects the voter-approved change to the Business License Tax effective July 1, 2023 that updated the structure of the business tax and increased the amount of revenue expected to be generated. The Business License Tax can be increased annually by the Consumer Price Index with a maximum of 5% annually. In FY 2024/25, revenues in this category are projected to increase to \$8.8 million.

Rents and Leases

The Rents category includes property rents and leases as well as right-of-way rental fees charged to the water sewer and utilities. In FY 2023/24, rent revenue is estimated to total \$13.6 million, including \$8.2 million from property rents and leases and \$5.4 million from right-of-way rental fees. This category factors in projected lease revenue from the Related project (increasing from \$761,000 to \$5.2 million) as well the Commerce and Peddlers Plaza (revenue of \$500,000 through FY 2027/28). This category also factors in additional rental income of \$200,000 from sports fields reservations. In FY 2024/25, Rents revenue is projected to reach \$15.2 million.

Other Services Fees

The Other Services Fees category includes fees charged for various City services provided by the departments of Community Development, Police, Fire, Park and Recreation, and Public Works as well as cost allocation plan reimbursements and stadium-related reimbursements. The Fire development-related fees have been moved to a new Fire Development Fund. This category is estimated to generate \$38.1 million in FY 2023/24. This includes an additional \$348,000 from fee adjustments brought forward in the FY 2023/24 Municipal Fee Schedule. In FY 2024/25, revenues in this category are projected to reach \$39.3 million.

Silicon Valley Power Transfer

In accordance with the City's charter, Silicon Valley Power pays 5.0% of gross revenues to the General Fund. Contributions are projected to total \$32.0 million in FY 2023/24 and \$34.0 million in FY 2024/25. Growth in this category is primarily driven by market projections for electric consumption, resources costs, and any rate increases assumed for the Electric Utility.

Transfers From

The Transfers from Other Funds totals \$2.2 million in FY 2023/24 and includes the following: a transfer of \$1.454 million from the Storm Drain Capital Fund to support storm drain operations; a transfer of \$349,749 from the Electric Utility Fund to support 1.0 position in the Finance Department and 1.0 position in the Human Resources Department added during FY 2022/23 (these positions will be factored into the cost allocation plan starting in FY 2025/26); a transfer of \$175,725 from the Building Development Services Fund to cover a portion of the Code Enforcement costs that support development activity; a one-time transfer of \$149,600 from the Vehicle Replacement Fund to reflect the sale of vehicles that are being removed from the fleet (FY 2023/24 budget proposal), and a transfer of \$69,205 from the Patrick Henry Drive Infrastructure Improvement Fund to repay the Capital Projects Reserve for funding expected to be advanced in FY 2022/23 to cover administrative costs. In FY 2024/25, the transfers total \$2.0 million and include the transfers from the Storm Drain Capital Fund, the Electric Utility Fund, and the Building Development Services Fund.

General Fund Uses

Overall, General Fund uses total \$385.1 million in FY 2023/24. Of this amount, \$269.1 million accounts for operational expenditures, \$11.6 million are transfers to other funds, and \$104.3 million represent fund balance and reserves. The total General Fund uses increase to \$391.7 million in FY 2024/25, due to an increase in operational expenditures. The following table summarizes the General Fund expenditures and transfers.

The following table summarizes the General Fund expenditures and transfers.

Expenditures	FY 2021/22 Actual	FY 2022/23 Amended	FY 2022/23 Estimate	FY 2023/24 Proposed	FY 2024/25 Change	FY 2024/25 Proposed
Salaries	94,846,522	132,378,106	132,378,106	128,502,867	4,380,764	132,883,631
Retirement – Safety	32,084,531	36,514,227	36,514,227	36,479,753	2,355,085	38,834,838
Retirement – Misc.	17,489,354	19,616,011	19,616,011	18,576,594	1,094,753	19,671,347
Other Benefits	17,033,746	20,572,469	20,572,469	24,039,179	1,065,153	25,104,332
Materials/Services/ Supplies	24,850,597	33,361,857	33,361,857	34,094,413	1,055,392	35,149,805
Interfund Services	22,857,269	24,877,371	24,877,371	27,435,591	621,552	28,057,143
Capital Outlay	63,339	321,900	321,900	0	37,000	37,000
Total Expenditures	209,225,358	267,641,941	267,641,941	269,128,397	10,609,699	279,738,096
Transfers To*	48,969,098	14,658,172	14,727,377	11,645,161	(3,924,289)	7,720,872
Total Expenditures and Transfers To	258,194,456	282,300,113	282,369,318	280,773,558	6,685,410	287,458,968

* In FY 2021/22, the Transfers Out category includes a one-time transfer of the Building Inspection Reserve to the newly established Building Development Services Fund.

As a public service organization focused on delivering high-quality services to our community, labor costs reflect the highest level of investment at 74% of the expenditure budget. Following is a discussion of the General Fund expenditure categories.

Salaries and Benefits

The expenditures in this category account for full-time and part-time salaries, retirement, health, social security, other employer benefits, and overtime costs. The FY 2023/24 Proposed Budget factors in the latest negotiated salary adjustments known at the time the budget was developed and updated retirement and benefit costs. Salaries and benefits total \$207.6 million in the FY 2023/24 Proposed Budget and increase 4.3% in FY 2024/25 to \$216.5 million. Note that \$26.2 million in public safety costs were shifted to the American Rescue Plan Act Fund in FY 2021/22 to account for the one-time federal stimulus funds received to help offset the COVID-19 impacts on the City 's budget.

The City of Santa Clara participates in the California Public Employees' Retirement System (CalPERS) under the Miscellaneous Retirement Plan and the Safety Retirement Plan. In FY 2023/24, retirement costs in the General Fund are budgeted at \$36.5 million for Safety employees and \$18.6 million for Miscellaneous employees. In FY 2024/25, these costs increase to \$38.8 million and \$19.7 million, respectively.

Materials, Services, and Supplies

The FY 2023/24 Proposed Budget totals \$34.1 million for materials, services, and supplies. This budget reflects Base Budget adjustments to account for the updated cost of providing existing services in FY 2023/24, the removal of one-time funding approved for FY 2022/23, and the FY 2023/24 budget actions proposed in the FY 2023/24 and FY 2024/25 Biennial Operating Budget. The Proposed Budget does not yet reflect any carryovers from FY 2022/23 to FY 2023/24. In FY 2024/25, these costs are projected to increase 3.1% to \$35.1 million.

Interfund Services

Interfund services are citywide in nature and funded through internal service funds (Information Technology Department services, special liability fund, workers' compensation, Public Works capital project management, vehicle equipment and maintenance, fleet purchases, and communications equipment) that are apportioned to City Departments and funds. This category totals \$27.4 million in the FY 2023/24 and \$28.1 million in FY 2024/25.

Capital Outlay

This category includes small capital expense purchases not budgeted within the capital budget. This category has no budget in FY 2023/24 and \$37,000 in FY 2024/25.

Transfers to Other Funds

This category includes transfers to other funds to support capital projects, the City's share of assessment district costs, other services, and debt payments. The FY 2023/24 Proposed Budget for this category totals \$11.6 million, including \$7.3 million for capital projects, \$1.4 million for debt payments, \$0.9 million for assessment district payments, \$0.8 million for the Cemetery Fund (this reflects a decrease from the previously assumed transfer level as a proposed budget balancing strategy), \$0.6 million to the Fire Operating Grant Trust Fund to pay for a portion of the positions funded by the Fire SAFER grant (the SAFER grant generates net General Fund savings due to Fire overtime savings), \$0.5 million to the new Fire Development Services Fund (this is offset by the Development Fee Reserve), and \$0.1 million for other services.

The Transfers figure drops to \$7.7 million in FY 2024/25 and includes \$3.7 million for capital projects, \$1.4 million for debt payments, \$0.9 million for assessments district payments, \$0.8 million for the Cemetery Fund, \$0.8 million to the Fire Operating Grant Trust Fund, and \$0.1 million for other services.

General Fund Reserves

The General Fund includes several reserves established by City Council policy or to segregate restricted revenues. Additional detail regarding reserve policies can be found in the Budget and Fiscal Policies section of this document.

Budget Stabilization Reserve

This reserve is used as an allocation for weathering economic downturns, emergency financial crises or disaster situations. Per Council policy, the Budget Stabilization Reserve (BSR) target is equal to the cost of the City's General Fund operations for three months, or 25% of the expenditure budget. Given the significant impacts of COVID-19 on the City's budget, the City Council adopted the FY 2022/23 budget principles that allowed this

reserve to drop to 15% of budgeted expenditures. The FY 2023/24 proposed budget principles would also allow the BSR to remain at a minimum of 15% given the City's continuing fiscal challenges. In the Proposed Budget, the BSR is set at \$45.8 million in FY 2023/24 (16.3% of expenditures) and FY 2024/25 (15.9% of expenditures).

Capital Projects Reserve

The Capital Projects Reserve (CPR) earmarks funds for the Capital Improvement Program (CIP). The minimum target for this reserve is \$5.0 million. This reserve has a projected ending balance of \$6.1 million in FY 2023/24 and FY 2024/25. The use of \$463,050 from the Capital Projects Reserve is recommended for the Street Tree Services project to fund the third and final year of the Modesto Ash tree removals plan.

Land Sale Reserve

The City Council established the Land Sale Reserve with net proceeds from the sale of City-owned land, with interest earned on these funds being available to be appropriated for General Fund operating expenditures. The Land Sale Reserve has a projected ending balance of \$18.5 million for FY 2023/24 and FY 2024/25 and is available for appropriation by City Council action. This reserve balance reflects the full repayment of the loan for the Reed Street- Grant Street Sports Park Project (\$5.6 million) in FY 2022/23.

Advanced Planning Fee Reserve

The advanced planning fee is collected as a portion of planning and building fees. These funds are set aside for future long-range planning activities. The Advanced Planning Reserve has a projected ending balance of \$2.6 million in FY 2023/24 and \$2.4 million in FY 2024/25. This reflects the funding of 1.0 Senior Planner from this reserve beginning in FY 2023/24.

Technology Fee Reserve

The Technology Fee Reserve sets aside the technology fee revenue collected with the development fees and other applicable fees. This reserve is used to fund Accela licensing costs and other technology improvements for the fee programs that assess this fee. The Technology Fee Reserve has a projected ending balance of \$1.9 million for FY 2023/24 and FY 2024/25.

Other Reserves

By Council Policy, other reserves are set aside in the General Fund including the Pension Stabilization and Historical Preservation Reserves. For FY 2023/24 and FY 2024/25, the Pension Stabilization Reserve is projected to total \$21.4 million and the Historical Preservation Reserve is projected to total \$92,754. Contributions to the Pension Stabilization Reserve are typically recommended as part of the Year-End Report to allocate interest earnings and other funding, if available. No additional contributions are assumed as part of this Biennial Budget. The Proposed Budget also includes a Development Fee Reserve (\$1.5 million in FY 2023/24 and FY 2024/25) that was established in FY 2022/23 to transition new development funds. In FY 2023/24, \$500,000 of this reserve is used to support the new Fire Development Services Fund. A Budget Balancing Reserve was also established at the \$2.0 million level in FY 2022/23; this reserve totals \$0.9 million in FY 2023/24 (\$1.1 million was used to balance the budget in FY 2023/24) and \$2.0 million in FY 2024/25.

Special Revenue Funds and Other Funds

This page is intentionally left blank.

SPECIAL REVENUE FUNDS AND OTHER FUNDS

Special Revenue Funds are established to account for specific revenue sources that are legally restricted or committed to particular purposes. The City of Santa Clara has various revenue sources that require separate Special Revenue Funds to be set up. The Other Funds relate to special assessments funds.

American Rescue Plan Act (ARPA) Fund (102)

The American Rescue Plan Act (ARPA) Fund was established in FY 2021/22 to account for Fire Department and Police Department expenditures that are eligible to be funded via federal ARPA funds. As this was one-time funding, there is no further activity recorded in this fund.

Bridge Maintenance District #2 Fund (463)

The Bridge District #2 Fund sets aside revenue received through the apportionment of secured property tax as well as the RDA revenue distribution. This funding is then transferred to the Streets and Highways Capital Fund to cover costs associated with the Bridge Maintenance Program project.

Building Development Services Fund (155)

The Building Development Services Fund was established in FY 2021/22 to account for building development-related fee revenue and associated building development services costs. The Building-related revenues and expenditures were previously reflected in the General Fund.

Building Special Programs and Training Fund (220)

This fund was formerly the Certified Access Specialist (CASP) Certification and Training Fund but was retitled to incorporate additional changes to the fund starting in FY 2021/22. The fund now incorporates Building Seismic/Strong Motion Fees and Building Standard Fees, in addition to CASp fees. All three revenue streams are related to state-mandated building permit fee surcharges (Building Standard and Seismic) or from the City's business license tax (CASP) and are for specific uses such as updating building code manuals or training related to updates in accessibility designs.

City Affordable Housing Fund (165)

The City Affordable Housing Fund accounts for the City's Below-Market Price Purchase Program, which helps low- and moderate-income families achieve the goal of homeownership. This fund promotes and facilitates the construction and retention of affordable housing, fulfilling State mandates to produce housing for all income levels. Revenues in the City Affordable Housing Fund are received from developer in-lieu fees, principal, and interest repayments on housing loans, as well as interest income on pooled investments.

Community Facilities District No. 2019-1 (Lawrence Station) Fund (027)

A resolution was adopted by Council in March 2019 to form a new Community Facilities District Fund (CFD) to finance maintenance of roadways, parks, parking spaces and enforcement, landscaped parkways and medians, trails, a highway overpass and a community clubhouse and garden to be located within the development at Lawrence Station. In accordance with the resolution, a special tax is levied on the properties located within the CFD. These special taxes will be used to fund the authorized public services. Pursuant to Report to Council 19-249, the Fund will also maintain additional funding necessary to replace facilities near end-of-service life (straight line depreciation of 15 years) in a capital reserve of 20%. The property assessments increase annually by Consumer Price Index (CPI).

Convention Center Maintenance District Fund (026)

This fund provides maintenance and landscaping to the common grounds within the Santa Clara Convention Center Complex. Funds are received by means of a Special Benefits Assessment levied against the property owners in the respective districts. This fund's expenditure budget is determined using fee estimates for cost recovery.

Developer Traffic Payments Fund (124)

Previously named the "Traffic Fair Share Fund," this fund was established in FY 2020/21 and is managed by the Department of Public Works. The Developer Traffic Payments Fund is funded by developer contributions collected for specific jurisdictions and locations. Funding is allotted to non-City agencies for eligible projects or transfers to a capital project.

Downtown Parking Maintenance District Fund (025)

The purpose of the Downtown Parking Maintenance District is to maintain the grounds of the Franklin Square complex. The Franklin Square complex is bounded by Monroe Street to the west, Jackson Street to the east, Benton Street to the north, and Homestead Road to the south. Maintenance of the landscape infrastructure is paid for by the General Fund. Extraordinary repairs to the asphalt parking lot and concrete walkways are funded by property owner assessments that are capped at \$14,200 per year.

Endowment Care Fund (077)

This fund holds the non-expendable account of the fees collected from cemetery patrons. Interest earned from the cash maintained is contributed for the current maintenance of the cemetery.

Engineering Operating Grant Trust Fund (144)

This fund accounts for revenues received from other governmental agencies that are designated for specific uses in the Community Development Department. Grants are appropriated as they are received by the Department and approved by the City Council.

Expendable Trust Fund (079)

The Expendable Trust Fund accounts for assets held in a trustee capacity where the principal and income may be expended in the course of the fund's restricted/designated operations. Funds are appropriated as they are received by departments and approved by the City Council.

Fire Development Services Fund (158)

The Fire Development Services Fund is proposed for FY 2023/24 to account for fire development-related fee revenue and associated fire development services costs. The Fire-related revenues and expenditures were previously reflected in the General Fund.

Fire Operating Grant Trust Fund (178)

This fund tracks revenues from other governmental agencies received by the Fire Department for fire safety and medical services activities. The grants are provided by federal, state and County agencies. Grants are appropriated as they are received by the Fire Department and approved by the City Council.

Gas Tax Fund (121)

The Gas Tax Fund accounts for revenues and expenditures received from the State of California under Street and Highway Code Sections 2105, 2106, and 2107. Gas tax is imposed by the State as a per-gallon excise tax on gasoline and diesel fuel. Cities and counties receive an allocation from the State based on population and the proportion of registered vehicles. This funding is restricted for street maintenance, construction, and a limited amount for engineering.

Housing and Urban Development Fund (562)

The City of Santa Clara receives annual funds from the U.S. Department of Housing and Urban Development (HUD) to administer the Community Development Block Grant (CDBG) and HOME Investment Partnerships (HOME) programs. The CDBG program funds various nonprofit agencies and other City departments to implement services that benefit low- and moderate-income persons. The HOME program funds a wide range of activities including building, buying, and/or rehabilitating affordable housing for rent or homeownership or providing direct rental assistance to low-income people. Grantees are generally selected through a competitive process and provide such services as senior services, homeless outreach, housing rehabilitation, accessibility improvement and code enforcement. The City currently dedicates HOME funds for the Tenant-Based Rental Assistance (TBRA) program.

Housing Authority Fund (164)

The Santa Clara Housing Authority (SCHA) was established by the City Council to assume responsibility for managing and monitoring housing assets from the dissolution of the Redevelopment Agency (RDA). SCHA also assumes the responsibility for housing loans, which provide affordable housing and were made under various programs, for qualifying individuals and groups. The SCHA receives its main source of revenues from program income, which is used to support loan monitoring, administration, and other programs and projects of the Housing and Community Services Division of the Community Development Department.

Housing Successor Agency Fund (169)

All California Redevelopment Agencies (RDA) were dissolved on February 1, 2012. Following the dissolution, the City of Santa Clara was designated as the Housing Successor to the former RDA, responsible for paying off the former RDA's existing debts, disposing of the former RDA's properties and assets to help pay off debts, returning revenues to the local government entities that receive property taxes and winding down the affairs of the former Redevelopment Agency. The City has also elected to retain the former RDA's housing functions, including retaining all of the housing assets, rights, power, duties, obligations and functions previously performed by the RDA in administering its Low and Moderate Income Housing Fund.

Library Donations Trust Fund (072)

This fund accounts for donations that are received and accepted by the City of Santa Clara's Library Department. These donations are for designated uses. Donations are appropriated as they are received by the Library Department and approved by the City Council.

Library Operating Grant Trust Fund (112)

This fund accounts for revenues received from other governmental agencies that are designated for specific uses in the Library Department. Grants are appropriated as they are received by the Library Department and approved by the City Council.

Other City Departments Operating Grant Trust Fund (101)

The Other City Departments Operating Grant Trust Fund accounts for any financial award given by the federal, State, or other local government to the City for Citywide eligible operating programs. Grants that are designated for department-specific functions are deposited into the respective departments' operating grant trust fund. Grants are appropriated as they are received by departments and approved by the City Council.

Parks and Recreation Operating Grant Trust Fund (111)

The Senior Nutrition Program provides a congregate meal setting where seniors can improve their health through balanced meals and socialization and is funded through a grant from the Santa Clara County Social Services Agency's Senior Nutrition Program and Community Development Block Grant funds. Seniors are encouraged to access the many services available at the Senior Center while on site and are given the opportunity to engage in Health & Wellness programs at the Senior Center. Grants are appropriated as they are received by the Parks and Recreation Department and approved by the City Council.

Perpetual Care Fund (076)

This fund accounts for current fees collected from cemetery patrons for maintenance in perpetuity of the Mission City Memorial Park when the facility reaches full capacity. Interest earned from the cash maintained is contributed for the current maintenance of the cemetery.

Police Operating Grant Trust Fund (177)

This fund tracks revenues from other governmental agencies received by the Police Department for law enforcement activities. The grants are predominantly provided by the State with a smaller portion received from the federal government. Grants are appropriated as they are received by the Police Department and approved by the City Council.

Prefunded Plan Review Fund (157)

Before any major real estate development project moves forward to construction, extensive studies are conducted (environmental, economic, and traffic) to ensure that the project's impact on the community is well understood. The cost of these studies is generally paid for by developers with the funding provided to cities to ensure proper oversight of this process. This fund, established in FY 2020/21, accounts for this activity.

Public Donations Fund (067)

The Public Donations Fund accounts for various donations the City receives from the public that are designated for specific uses. Per the City's Donation Policy, the City Manager is authorized to make funding available to departments for donations valued under \$100,000. Donations of \$100,000 or greater are appropriated as they are received by departments and approved by the City Council.

Public, Educational, and Governmental Fee Fund (221)

This fund accounts for the Public, Educational, and Governmental (PEG) fees the City receives from telecommunication companies in accordance with the Cable Communications Act of 1984 and the Digital Infrastructure and Video Competition Act of 2006. PEG channels broadcast public meetings, news conferences and educational programming about City departments and programs as well as government-sponsored community events. PEG fees can be used for capital-related expenses including video production and streaming equipment as well as television monitoring technology and technical support. These funds can also be used for the renovation and construction of facilities such as Council chambers, public meeting rooms and recording spaces.

Road Maintenance and Rehabilitation (SB1) Fund (122)

The Road Repair and Accountability Act of 2017 (Senate Bill 1) is a significant investment in California's transportation system which was signed into law on April 28, 2017. The funding from this investment must be used to fix roads, freeways, and bridges in communities across California, putting more dollars towards transit and safety. The majority of this revenue is from the Road Maintenance and Rehabilitation Account (RMRA), where cities have to prioritize repairing their existing infrastructure before addressing other transportation needs.

Traffic Mitigation Fund (123)

The Traffic Mitigation Fee is levied to fund improvements or programs to mitigate the City's traffic problems that result from development projects.

The following section details the City of Santa Clara's Special Revenue Funds and Other Funds' Statements of Sources and Uses and the Proposed Budget for Fiscal Year 2023/24 and Fiscal Year 2024/25.

Enterprise Funds

This page is intentionally left blank.

ENTERPRISE FUNDS

Enterprise funds are used to finance and account for operations and activities performed by designated departments in the City or through third party agreements. The operating revenues and expenses result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. Principal operating revenues of the City's enterprise funds are charges to customers for services. Operating expenses for the City's enterprise funds include the costs of sales and services, administrative expenses and maintenance of capital assets.

Cemetery Fund (093)

This fund is managed by the Parks and Recreation Department and provides planning, development, operation, and maintenance of the City's two cemetery properties with one located on North Winchester Boulevard and one on Hope Drive. This fund is supported by charges for these services and transfers from the General Fund.

Convention Center Enterprise Fund (860)

This fund was established in 1984 to account for the operations of the City's Convention Center through third-party agreements. In February 2019, the City entered into an agreement with Global Spectrum, LP, dba Spectra Venue Management (Spectra). Spectra was subsequently acquired by Oak View Group (OVG360) and now manages the Convention Center. As part of the agreement, OVG360 provided the City with an operating budget for FY 2023/24 and FY 2024/25. These submittals have been incorporated into the source and use documents.

Electric Operating Grant Trust Fund (191)

The City's Electric Utility Department, known as Silicon Valley Power (SVP), initially established the Electric Operating Grant Trust Fund for the Public Benefits Program. For the Public Benefits Program, SVP is required to collect and spend 2.85% of its electric sales revenues (customer service charges from Electric Utility Fund) in accordance with assembly bill AB 1890 on cost-effective energy efficiency, new renewable power generation, low-income energy programs, and new electric technologies research and development.

In FY 2019/20, two programs were added to this fund - the Low Carbon Fuel and Greenhouse Gas (GHG) programs. These programs also use restricted revenue and have annual reporting requirements. The Low Carbon Fuel program is aimed at participating and complying with the California Air Resources Board (CARB) Low Carbon Fuel Standard (LCFS) Program to develop, educate and foster the adoption of electrification as transportation fuel. Program expenses are allocated and required to be spent within three primary groups: Clean Fuel Rewards Program, Equity Projects, and Customer Programs. The Greenhouse Gas Program's purpose is to comply with Cap-and-Trade Regulation requirements to spend proceeds from allocated allowances consistent with the goals of AB 32 and to provide benefit to retail ratepayers in the form of GHG reduction.

Electric Utility Fund (091)

The Electric Utility Fund is managed by SVP and is the primary operating fund for electric utility service provided to City customers. SVP provides these services on a user charge basis to residences, businesses, and industrial customers, including large data centers.

The primary revenue source in the Electric Utility Fund is electric rates which are approved by the City Council. SVP typically submits a recommendation for rate increases annually. The rate increase recommendation is based on SVP's ten-year forecast which includes SVP's revenue and expenditure projections to cover operating costs, reserve requirements, debt service, capital improvement projects, and other legal obligations. Electric rate increases have been relatively stable historically, so customers, both large and small, have been able to budget their electric usage to support their long-term operations. At the same time, for low-income customers who have difficulty absorbing the rate increases, SVP continues to offer financial assistance and also offers energy conservation programs and rebates to help all customers reduce their electricity usage. For purposes of the FY 2023/24 budget, SVP assumed a rate increase of 5% on July 1, 2023 and an additional rate increase of 7% on January 2024. For FY 2024/25, a 7% rate increase on January 2025 is estimated and will be reevaluated during FY 2023/24. Any proposed rate increase will be brought to City Council and, based on information available at that time, will include consideration of the expense drivers further described below.

SVP has over 59,000 customer accounts in the City: 85% residential, 11% commercial, 3% industrial, and <1% other. The proportion of revenue contribution is reversed: 92% of revenues are generated by industrial customers, 6% from residential customers, 2% from commercial customers, and < 1% from others. Industrial customers include many publicly listed technology companies headquartered in the City and data centers hosting servers for these companies. Load growth and forecasted energy sales are based on a combination of historical data and forward-looking opportunities, especially from large key industrial customers. Additional revenues are generated through wholesale energy sales, capacity sales, Congestion Revenue Rights (CRR), Renewable Energy Credits (RECs), and ancillary services. Given the high concentration of revenue generated from industrial customers, SVP's revenue growth prospect is highly correlated to Silicon Valley's economic growth.

SVP's primary expense drivers are electric supply and distribution costs. For FY 2023/24, 25% of power supply, after netting SVP's generation resources against SVP's load, is expected to be purchased from the California Independent System Operator (CAISO) market. Market purchase prices have a very high positive correlation with natural gas prices and are subject to the same volatility. If natural gas prices spike, higher than forecasted prices to procure power from the market would be expected. The transmission access rates that applies to electric energy that SVP receives via the PG&E transmission system are expected to increase year over year. PG&E needs to collect the transmission fees to fund the growing cost of maintenance and infrastructure improvements to the transmission grid. In addition, a significant part of SVP's electric distribution cost is the capital improvement needed for the aged system. These capital costs are also expected to increase due to higher commodities costs caused by supply chain issues across the world.

Per the budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, Infrastructure, Special Projects (as needed), and Pension Stabilization.

Sewer Utility Fund (094)

This fund is managed by the Water and Sewer Utilities Department and accounts for the maintenance of the City's sewer lines and related facilities. The Department provides these services on a user charge basis to residences and businesses.

Each operating budget cycle, the Department develops a ten-year forecast based on their revenue and expenditure projections. Revenue in the Sewer Utility Fund are dictated by the utility rates approved by the City Council and the actual water usage by residences and businesses. An annual rate study is conducted by a third-party consultant selected by the Water and Sewer Utilities Department; this information is then used to determine both revenue and expenditure projections in the forecast. Revenue projections are based on a trend analysis and take into consideration historical data and anticipated activity and reflect proposed rate increases. The Department will be bringing forward the proposed rates for City Council approval on June 6, 2023. If approved, the rates will be effective beginning July 1, 2023. Anticipated expenditures also play a role in the development of the revenue projections. Expenditure projections are based on historical data and the capital project needs approved in the City's Capital Improvement Program budget. Additionally, the City co-owns the Regional Wastewater Facility with the City of San José. Estimates are provided by the City of San José for Santa Clara's share of the facility rebuild, and these estimates are also used in determining the expenditure projections in the Sewer Utility Fund.

Per the budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, Infrastructure, and Pension Stabilization. It also includes a Replacement and Improvement Reserve.

Solid Waste Fund (096)

This fund is managed by the Public Works Department and accounts for the administration of the City's garbage and rubbish collection service, including street sweeping, household hazardous waste, and Clean-Up Campaign services. The revenue projections are based on anticipated increases in garbage rates due to increases in agreements for exclusive franchise garbage and yard waste collection and solid waste processing services. The department brings rate increases forward to Council and, once approved, rates will be effective beginning July 1, 2023.

Per the budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, and Pension Stabilization.

Water Recycling Fund (097)

This fund is managed by the Water and Sewer Utilities Department and accounts for the ongoing maintenance and operations of the City of Santa Clara's wastewater reclamation system. The Department provides these services on a user charge basis from the sale of non-potable water for irrigation and landscaping.

Each operating budget cycle, the Department develops a ten-year forecast with their revenue and expenditure projections. Revenue in the Water Recycling Program Fund are dictated by the utility rates approved by the City Council and the actual water usage by residences and businesses. An annual rate study is conducted by a third-party consultant selected by the Water and Sewer Utilities Department; this information is then used to determine both revenue and expenditure projections in the forecast. Revenue projections are based on a trend analysis and take into consideration historical data and anticipated activity and reflect proposed rate increases. The Department will be bringing forward the proposed rates for City Council approval on June 6, 2023. If approved, the rates will be effective beginning July 1, 2023. Anticipated expenditures also play a role in the development of the revenue projections. Expenditure projections are based on historical data and capital projects needs approved in the City's Capital Improvement Program budget.

Per the budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, Infrastructure, and Pension Stabilization.

Water Utility Fund (092)

This fund is managed by the Water and Sewer Utilities Department and accounts for the operation of the City's water utility services. The Department provides these services on a user charge basis to residences and businesses.

Each operating budget cycle, the Department develops a ten-year forecast with their revenue and expenditure projections. Revenue in the Water Utility Fund are dictated by the utility rates approved by the City Council and the actual water usage by residences and businesses. An annual rate study is conducted by a third-party consultant selected by the Water and Sewer Utilities Department; this information is then used to determine both revenue and expenditure projections in the forecast. Revenue projections are based on a trend analysis and take into consideration historical data and anticipated activity and reflect proposed rate increases. The Department will be bringing forward the proposed rates for City Council approval on June 6, 2023. If approved, the rates will be effective beginning July 1, 2023. Anticipated expenditures also play a role in the development of the revenue projections. Expenditure projections are based on historical data and capital projects needs approved in the City's Capital Improvement Program Budget.

Per the adopted budget policy, this fund includes reserves for Rate Stabilization, Operations and Maintenance, Infrastructure, and Pension Stabilization. It also includes a Replacement and Improvement Reserve and a Water Conservation Reserve.

The following section details the City of Santa Clara's Enterprise Funds' Statements of Sources and Uses and the Proposed Budget for Fiscal Year 2023/24 and Fiscal Year 2024/25.

Internal Service Funds

This page is intentionally left blank.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to finance and account for special activities and services performed by a designated department for other departments in the City on a cost reimbursement basis.

Communication Acquisitions Fund (048)

This fund is managed by the Police Department and accounts for the maintenance and replacement of communication equipment used by various City departments. The source of revenue for this fund is fees charged to the departments that require this type of maintenance and replacement. The City's current inventory of radios will no longer be serviceable by the end of December 2023. In order to address the critical replacement needs, the City is evaluating funding solutions and a potential phase-in approach, which will prioritize the replacement of all public safety radios initially, and other citywide radios as funding becomes available.

Fleet Operations Fund (053)

This fund is managed by the Department of Public Works and accounts for the maintenance of City-owned vehicles and equipment used by all departments. The source of revenue for this fund is fees charged to the departments requiring vehicle maintenance.

Information Technology Services Fund (045)

This fund was established in FY 2019/20 and managed by the Information Technology Department (ITD). This fund accounts for citywide costs associated with computer and telephone equipment replacement as well as other services including new or upgraded software, additional licenses for new users, and general information technology services provided to all City departments. The source of revenue for this fund is fees charged to the departments that require information technology services. There are several CIP projects managed by ITD that have been shifted from the General Government Capital Fund to this internal service fund, which include funding for cybersecurity and the replacement of network equipment and computers.

Public Works Capital Projects Management Fund (044)

This fund was established in FY 2019/20 and is managed by the Department of Public Works. This fund accounts for the Public Works staff time and non-personnel costs utilized to manage and work on specific capital improvement programs of the City. The source of revenue for this fund is fees charged to the departments requiring Public Works capital project services.

Special Liability Insurance Fund (082)

This fund accounts for liability exposures to the City, including general liability, errors and omissions, and employment practices. The Special Liability Fund covers claims costs and excess liability insurance costs. The source of revenue for this fund is charges to the departments citywide as well as transfers from the General Fund and Enterprise Funds.

Unemployment Insurance Fund (087)

This fund is managed by the Human Resources Department and accounts for the cost of unemployment insurance claims. The source of revenue for this fund is fees charged to the departments citywide.

Vehicle Replacement Fund (050)

This fund is managed by the Department of Public Works and accounts for the lifecycle, replacement, procurement, up-fit, and disposal of all vehicles used by City departments. The source of revenue for this fund is fees charged to the departments requiring these services.

Workers' Compensation Fund (081)

This fund is managed by the Human Resources Department and accounts for the costs of premiums, claims administration, and claims expenses related to injuries or illnesses sustained by members of the City's workforce. The source of revenue for this fund is fees charged to departments citywide. Department allocations are determined using actual workers' compensation claims history.

The following section details the City of Santa Clara's Internal Service Funds' Statements of Sources and Uses and the Proposed Budget for Fiscal Year 2023/24 and Fiscal Year 2024/25.

Capital Improvement Program Funds

This page is intentionally left blank.

CAPITAL IMPROVEMENT PROGRAM FUNDS

Capital Improvement Program Funds are established to account for specific revenues and expenditures that are earmarked for major improvements to the City's infrastructure, replacements and upgrades to City assets, and improvements and upgrades to the City's utilities. The City of Santa Clara has various capital funds set up for different types of capital projects.

Cemetery Capital Fund (593)

The capital projects included in this fund are related to construction, engineering, repairs, and design of the two City-owned cemeteries.

City Affordable Housing Capital Fund (565)

As part of the Report to Council 20-804 approved by the City Council on September 1, 2020, \$1.6 million was set aside for a low-income housing development at 1601 Civic Center Drive. This fund tracks all activity related to that development.

Convention Center Capital Fund (865)

This fund was established in FY 2020/21 through Report to Council 21-1176 approved by the City Council on January 12, 2021. This fund accounts for the capital improvements to the Convention Center. Improvements to the Convention Center are funded by the initial City capital contribution from the General Fund in addition to developer contributions from the Convention Center operations management team, OVG360, and the food and beverage operator, Levy.

Electric Utility Capital Fund (591)

This fund accounts for projects pertaining to system improvements, substation construction, and technology projects. Customer service charges, developer contributions, debt financing, and transfers from other enterprise funds are the primary sources of revenue for these projects.

Fire Department Capital Fund (536)

This fund tracks projects that include the replacement of firefighting equipment, defibrillators, personal protective equipment, firehouse safety systems, and fire station improvements. The General Fund provides the funding for these projects.

General Government Capital Fund (539)

This fund accounts for projects primarily related to the implementation, maintenance, and upgrades for the various applications in Citywide departments. The funding sources are mainly from grants and transfers from the City's enterprise funds and the General Fund.

Library Department Capital Fund (537)

This fund tracks projects associated with the capital maintenance, construction, safety, and appearance of library facilities, funded by the General Fund.

Parks and Recreation Capital Fund (532)

This fund accounts for the projects associated with the acquisition, development, and capital improvement of neighborhood and community parks, recreation facilities, and open space to meet the needs of the City residents. Funding sources for these projects include developer contributions, grants and donations, parks Mitigation Act fees (MFA), and Quimby Act fees.

Patrick Henry Drive Infrastructure Improvement Fund (542)

This fund was established in FY 2021/22 through the Report to Council 22-90 approved by the City Council on March 22, 2022, and is managed by the Department of Public Works. This fund accounts for impact fee revenues and project expenditures related to the Patrick Henry Drive Specific Plan.

Public Buildings Capital Fund (538)

The projects in this fund are associated with repairs and capital maintenance for public buildings, including mechanical and electrical systems, primarily funded by the General Fund.

Recycled Water Capital Fund (597)

This fund tracks projects related to the installation of recycled water mains, including extensions to existing service and for new developments, supported by recycled water customer service charges.

Related Santa Clara Developer Fund (540)

This fund tracks the financial resources from the Developer to fund City staff in pre-development and permit processing efforts and third-party consultant work for the Related Santa Clara project.

Sewer Utility Capital Fund (594)

This fund tracks projects related to the construction and upkeep of the City's sewer system including sewer mains and the City of Santa Clara/San José wastewater treatment facility. These projects are funded through customer service charges, connection charges, debt financing, and the sewer conveyance fee.

Solid Waste Capital Fund (596)

The capital projects included in this fund are related to the construction of wells, well abandonments, erosion and settlement repair and prevention, maintenance of landfill gas, and miscellaneous landfill monitoring requirements. Funding sources for these projects include lease revenues, customer service charges, and developer contributions.

Storm Drain Capital Fund (535)

The projects in the Storm Drain Capital Fund contribute to the expansion, construction, and rehabilitation of the City's storm drain system. Primary funding sources include the General Fund and developer-funded storm drain charges.

Street Lighting Capital Fund (534)

This fund accounts for projects related to the replacement and installation of citywide street lighting to provide adequate lighting for streets, new developments, and parking lots. These projects are funded via customer service charges, developer contributions, and electric public benefits charges.

Streets and Highways Capital Fund (533)

This fund tracks the City's projects that are related to the maintenance of local transportation facilities, traffic infrastructure, street rehabilitation, sidewalk, curb, and gutter improvements. Primary funding sources for these types of projects include traffic mitigation fees, gas tax, and Road Maintenance and Rehabilitation Account proceeds.

Tasman East Infrastructure Improvement Fund (541)

This fund was established in FY 2020/21 through the Report to Council 20-787 approved by the City Council on November 17, 2020 and is managed by the Department of Public Works. This fund accounts for impact fee revenues and project expenditures related to the Tasman East Specific Plan.

Water Utility Capital Fund (592)

The projects in this fund pertain to the construction and upkeep of the water system including water mains, hydrants, wells and pumps, storage tanks, and the asset management system. Customer service charges and developer contributions are the primary funding sources for these projects.

The following section details the City of Santa Clara's Capital Improvement Program Funds' Statements of Sources and Uses and their Amended Biennial Capital Improvement Program Budget for Fiscal Year 2023/24.

OTHER AGENCY FUND

The Sports and Open Space Authority (SOSA) of the City of Santa Clara was created by the City Council in 1974 to establish a separate entity to acquire and develop open space within the City of Santa Clara. The members of the City Council are also members of SOSA's Board of Directors and, as such, are authorized to transact business and exercise power to purchase, lease or otherwise obtain and dispose of real and personal property. This includes the ability to acquire, construct, maintain, repair, manage and operate real and personal property, including leasing to private operators for commercial purposes and surplus space which is not economical to use for open space planning.

Sports and Open Space Authority Fund (801)

This fund accounts for the acquisition and preservation of open space within the City and the development of local sports activities.

The following section details the Other Agency Fund's Statement of Sources and Uses and the Proposed Budget for Fiscal Year 2023/24 and Fiscal Year 2024/25.

Mayor and City Council Offices Description

The City Council consists of a Mayor who is elected at-large and six Councilmembers that are elected by district and serve staggered four-year terms. The Council, as the legislative body, represents the residents of Santa Clara and is empowered by the City Charter to formulate Citywide policy, enact local legislation, adopt budgets, and appoint the City Manager, City Attorney and City Auditor. The Council conducts City Council meetings and study sessions as required.

The Mayor and Councilmembers serve on county, regional, and State organizations representing the City's interests. The Mayor and Councilmembers also serve as Agency and Authority Board Members, Commissioners or Directors of the Bayshore North Project Enhancement Authority, Housing Authority, Industrial Development Agency, Joint Financing Authority, Public Facilities Financing Corporation, Sports and Open Space Authority, Stadium Authority, and Oversight Board for Successor Agency to the City of Santa Clara Redevelopment Agency.

Divisions and Services

The Mayor and Councilmembers are supported by the Mayor and City Council Offices staff. The Mayor and City Council Offices are organized under the Mayor and City Council Division.

Mayor and City Council Division Mission	Assist the Mayor and Councilmembers with implementation of established policies, goals, and objectives.
	Assist Mayor and Councilmembers in scheduling appointments, making travel arrangements, and corresponding with legislators, constituents, and members of the community.
	Assist with the coordination of meetings for several City committees and several area wide/outside agency committees.
Division Objectives	Coordinate concerns from members of the community in an effort to increase transparency and responsiveness.
	Provide support to Mayor and City Council on all administrative needs and research needs, including support for Council Committee and intergovernmental assignments.
	Provide general administrative support to the Mayor and Councilmembers.

Significant Accomplishments

- Supported the City Council with its policy priorities.
- Maintained compliance with applicable requirements, e.g., calendar disclosures, public records requests, and other government transparency requirements.
- Provided direct support to the Mayor and City Council on all administrative needs and research needs, including administrative support for Council Committee and intergovernmental assignments.
- Supported the reinstatement of the Governance and Ethics Committee and overseeing the priorities and meetings as part of Council Committee support.
- Managed, reviewed, and analyzed a high volume of Public Record Act (PRA) requests assigned to the Mayor and Council Offices.
- Coordinated with appropriate departments for review and coordination of legislative requests and legislative advocacy positions.
- Provided administrative support to the Governance and Ethics Committee, Economic Development, Communications, and Marketing Committee.
- Responded to constituent concerns and inquiries in a timely manner and within three business days.
- Approved and processed proclamations, commendations, and recognition requests in time for events.
- Responded to requests for Mayor and/or Council's appearance within three business days.
- Provided logistical support for various City and public events including the Pride flag raising ceremony.

Budget Highlights

- Reduces the operating supplies budget to help address the General Fund deficit.
- Reallocates 1.0 Assistant to the City Manager from the City Manager's Office to reflect actual workload.

Mayor and City Council Travel

In accordance with the City's administrative policy on official travel by elected officials, Council Policy 043, official travel is approved in advance annually with the Mayor and City Council Offices' Operating Budget. The following are the conferences, meetings and events that are anticipated for Mayor and Councilmembers' attendance:

Conference	FY 2023/24 Budget	FY 2024/25 Budget
National League of Cities Annual Conference	4,687	4,781
League of California Cities Annual Conference	13,194	13,590
League of California Cities New Members Academy	0	7,300
League of California Cities Workshops	3,183	3,247
Official Local Policy Related Events/Meetings/Trainings	7,177	7,421
Sister Cities Annual Conference	4,114	4,196
Sister Cities International Travel to Sister Cities of Coimbra, Izumo, or Limerick and related travel	20,000	20,000
United States Conference of Mayors Winter Meeting	2,868	2,925
United States Conference of Mayors Annual Conference	3,219	3,283
Total Conference Budget	58,442	66,743

Program: 1611 – City Council Program					
This proposal reduces the Mayor and City Council Offices operating supplies budget from \$31,887 to \$29,887. The remaining supplies budget is anticipated to be sufficient for the Department.					
Performance Impact					
This reduction is anticipated to have minimal impact to service delivery.

City Attorney's Office

This page is intentionally left blank.

City Attorney's Office Description

Section 908 of the City of Santa Clara Charter provides:

The responsibilities of the City Attorney's Office consist of the following: represent and advise the City Council and all City officers in all matters of law pertaining to their offices; represent and appear on behalf of the City and any City officer or employee in all legal actions or proceedings which the City or any such officer or employee, in or by reason of his/her official capacity is a party; provide the City Council with information and advice regarding ongoing litigation and legislation affecting the City; attend all meetings of the City Council and give advice or an opinion in writing whenever requested to do so by the City Council or officers of the City; staff board and commission meetings as necessary; approve the form of all bonds given to and all contracts made by the City, endorsing approval thereon in writing; review and approve all ordinances and resolutions and amendments thereof; prosecute cases for violation of the Charter and City ordinances; and assist and provide training on current issues in the law and City policy as needed.

The City Attorney's Office will continue to provide legal advice and support on matters initiated by the City Council, City Manager's Office, and City departments, including managing all of the claims and litigation of the City, conducting legal research and providing advice to decision-makers, and drafting, reviewing, and negotiating contracts, leases, licenses, policies, resolutions, ordinances, Public Records Act requests responses, Council reports, and a variety of other documents.

Divisions and Services

The City Attorney's Division is organized under the City Attorney's Office. There are several areas which the Division is split amongst including Court and Trial, Contract and Transaction, Research and Opinion, and Library and Clerical.

City Attorney Division Mission	Provide professional municipal legal services to the City Council, policy makers, boards, commissions, and staff in their official capacities.
	<p>The Court and Trial Division shall provide hearing and trial counsel services, handle discovery and other necessary proceedings incident to hearings and trials.</p> <p>The Contract and Transaction Division shall assist various City departments in negotiating and preparing complex agreements, legal documents, etc.; prepare correspondence and answer complex inquiries from City departments, other agencies, and third parties; with special assistance, participate in preparing civil cases and administrative cases in utility matters.</p>
Division Objectives	<p>The Research and Opinion Division shall interpret the law, prepare legal opinions, and prepare and review resolutions, ordinances, bonds, invitations for bids and proposals, contracts, deeds, and related instruments; prosecute actions involving City ordinances; prepare correspondence and answer routine inquiries from City departments and other agencies.</p> <p>The Library and Clerical Division shall maintain the law library and perform all secretarial and clerical duties required in support of the City Attorney and divisions of the City Attorney's Office as are assigned or directed, and other related work as is assigned.</p>

Significant Accomplishments

- A sample of significant accomplishments during FY 2022/23 includes the implementation of:
 - New police transparency laws
 - Updating of Stadium procurement regulations
 - Resolution of numerous significant litigation matters
 - Two revenue generating ballot measures
 - City Place Project ground lease for Phase 1
 - Close of four affordable housing projects (Mainline, Monroe, Kifer and Calabazas conversion)
 - Drafting and environmental review of two specific plans (Patrick Henry Drive and Freedom Circle)
 - Completed review draft of zoning ordinance update
 - City-wide purchasing code update ordinance
 - MOU with County for Psychiatric Emergency Response Team program in Santa Clara
 - Management and oversight of 194 claims and litigation matters
- Implemented new case management system, Advologix, to accurately manage and track transactional and litigation matters for City departments and Stadium Authority to provide more efficient legal services and better reporting to City Council and City Staff.
- Completed approximately 1,677 legal service requests, which included legal advice, review and negotiations of contracts, leases, licenses, policies and many other documents related to the day-to-day operations of the City of Santa Clara, including all major projects and policy initiatives, while maintaining full City Attorney operations during the COVID-19 pandemic under reduced staffing and budget.

Significant Objectives

- Assist with Stadium issues including major event planning
- Assist with comprehensive Zoning Ordinance Update
- Assist with governance and election issues
- Assist with City Administration improvements in various policies and programs
- Continue with internal CAO process improvements
- Enhance training programs, including an expanded in-house AB 1234 training program

Budget Highlights

- Freeze 1.0 Assistant City Attorney to help address the General Fund shortfall.
- Add funding for outside legal services to alleviate service delivery impacts of proposed freeze of the 1.0 Assistant City Attorney.

* 1.0 Assistant City Attorney position is proposed to be frozen for FY 2023/24 and FY 2024/25

Program: 2411 – Program Administration
2412 – Program Litigation

This proposal freezes 1.0 vacant Assistant City Attorney position that supports the Public Works and Water and Sewer Utilities Departments. It is anticipated that response and review times for departments citywide will be impacted as the City Attorney's Office works to absorb some of this position's duties. This proposal also increases the outside legal counsel budget in the amount of \$114,831, from \$260,100 to \$374,931, in order to mitigate some of these anticipated work delays, particularly for the Public Work and Water and Sewer Utilities Departments.

Performance Impact

While the City Attorney's Office staff works to take on some duties performed by this position, delays in response and review time are still anticipated. The Department will work to alleviate delays through the use of outside legal counsel.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Performance and Workload Measures

City Clerk's Office

This page is intentionally left blank.

Elected City Clerk's Office

The Elected City Clerk duties are to (a) be the custodian of the seal of the City and (b) have charge of all City Elections. The Elected City Clerk would maintain sole responsibility for administering all aspects of City elections (e.g., Mayor, City Council, and Chief of Police).

Divisions and Services

The Elected City Clerk's Office is a division organized under the City Clerk's Office.

Elected City Clerk Division Mission	Ethically serve the needs of the citizens of the community by facilitating all aspects of City elections in accordance with the City Charter, Municipal Code, California Elections Code and Political Reform Act.
Division Objectives	To develop and execute strategies to broaden outreach throughout the community to increase transparency and education.
	To design and implement new City initiatives related to Measure N, which changed the method of elections from at-large to by-district voting for City Councilmembers, excluding the Mayor.
	To increase voter registration in the City through effective community engagement programs such as citizens outreach.

Significant Accomplishments

- Successfully completed the November 2022 General Municipal Election, which encompassed two council district seats, the Mayor, and two ballot measures.

Significant Objectives

- Continue to focus on redistricting efforts in FY 2023/24.

Budget Highlights

- Reduces the elections and initiative outreach budget on an ongoing basis to help address the General Fund deficit.

Program: 2314 – Elections

This proposal reduces the Elected City Clerk's initiatives and elections outreach budget by \$66,120, from \$106,120 to \$40,000. This budget provides funding for the development and implementation of strategies to increase voter outreach and participation as well as promote community engagement. Based on historical spending, it is anticipated that the remaining funding will be sufficient to cover any expenses related to these items.

Performance Impact

The City Clerk’s Office is anticipating no service delivery impact with this reduction.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Assistant City Clerk's Office Description

The Assistant City Clerk oversees the day-to-day operations of the City Clerk's Office. The Office of the Assistant City Clerk processes the agendas for and attends all meetings of the Council and Authorities Concurrent and Stadium Authority meetings, maintains accurate and up-to-date records of the proceedings of those meetings and makes those records open for public inspection. The Office of the Assistant City Clerk processes and maintains copies of City contracts, ordinances, resolutions and other official documents. The Office of the Assistant City Clerk manages and compiles City records in accordance with the Records Retention Schedule and in response to Public Records Act requests. The Office of the Assistant City Clerk administers campaign and disclosure laws, the Campaign Finance Ordinance, Regulation of Lobbying Activities program and the Calendars of Certain City Officials program. The Office of the Assistant City Clerk also administers oaths of affirmation pertaining to the affairs and business of the City and certifies copies of official records.

Divisions and Services

The Assistant City Clerk's Office is organized under the City Clerk's Office.

Assistant City Clerk Division Mission	Maintain and ensure that all official records and documents are accessible to the public; ensure timely publication, posting and/or mailing of ordinances, resolutions, calendars of certain City Officials, lobbyist registration forms and semi-annual reports, and other notices; attend and keep an accurate record of Council meetings; and respond to all requests for information efficiently and courteously.
Division Objectives	To continue to work with all City departments to ensure accuracy of the Records Retention Schedules with emphasis on electronic records and historical and vital records.
	To continue to work with the Information Technology Department and the City Attorney's Office to ensure integrity and compliance with the Records Retention Program, including updating the Records Retention Schedules.
	To continue the records management software training for City staff and work with departments to inventory and classify records.
	To continue to track agreements for all City departments to ensure that active agreements are readily available and inactive agreements are retained according to retention schedules.

Significant Accomplishments

- Transitioned and supported all public meetings (Council, Stadium Authority, Boards, Commissions, and Committees) to hybrid meetings via Zoom and in-person meetings.
- Increased Lobbyist Fees for full cost recovery of the program.
- Assistant City Clerk worked closely with the City Clerk to implement and conduct the November 2022 General Municipal Election.
- Collaborated with departments citywide to enter and retain City records through Electronic Document Management system – Laserfiche.
- Collaborated with IT and Human Resources on digitalizing employee records and open enrollment forms through the city's electronic document management Laserfiche.

Significant Objectives

- Implement and support enhanced functionality for the enterprise document management system as a citywide resource for records management, the use of forms, compatibility with mobile devices and other functionality as appropriate.
- Identify and focus on key elements of the enterprise document management systems that will enhance productivity and increase transparency through the public meeting process and access to information. Continue to provide prompt and thorough responses to requests for public records and to assure that all official records and document are accessible to the public.

Budget Highlights

- Eliminates funding for the City's old records management software that is no longer needed as the City has upgraded to a different software.

Program: 2312 – Public Information/Legislation Records Management

This proposal reduces the Assistant City Clerk's contractual services budget by \$10,000. This amount reflects funding for the City's previous records management software. As the City has upgraded to a different software, this funding is no longer necessary and no service level impact is expected.

Performance Impact

The City Clerk's Office is anticipating no service delivery impact with this reduction.

City Auditor's Office

This page is intentionally left blank.

City Auditor Division Description

The City Auditor’s Office is an independent office that reports to the Audit Committee and City Council. The Office conducts performance audits and reviews of City departments, programs and services, and makes recommendations to strengthen accountability and improve efficiencies and effectiveness of City programs and business processes. The audits may assess internal controls over financial reporting and evaluate the adequacy of system of internal controls, and compliance with applicable laws, rules, regulations, and City policies and procedures.

The Office prepares an annual audit work plan for the City Council’s approval and issues semi-annual audit status reports and annual follow-up reports on outstanding audit recommendations to the City Council for review.

The Office provides oversight of external auditors regarding the City’s annual financial audit, single audit, annual compliance review with the City’s Investment Policy, performance audits and related financial audits. The City Auditor’s Office is also responsible for the Stadium Authority’s annual financial audit.

Additionally, the Office administers the City’s Fraud Hotline program and performs investigations for all material complaints received related to fraud, waste, and abuse.

Divisions and Services

The City Auditor Division is organized independently from operations.

City Auditor Division Mission	The City Auditor’s Office mission is to promote honest, efficient, effective and fully accountable city government through accurate, independent and objective audits.
Division Objectives	Establish performance audits within the organization to better understand how our programs are performing in comparison with neighboring jurisdictions.
	Conduct in-depth financial and performance audits.
	Oversee the City’s performance management system, auditing and approving all bills, invoices, payrolls, demands or charges against the City before payment.

Significant Accomplishments

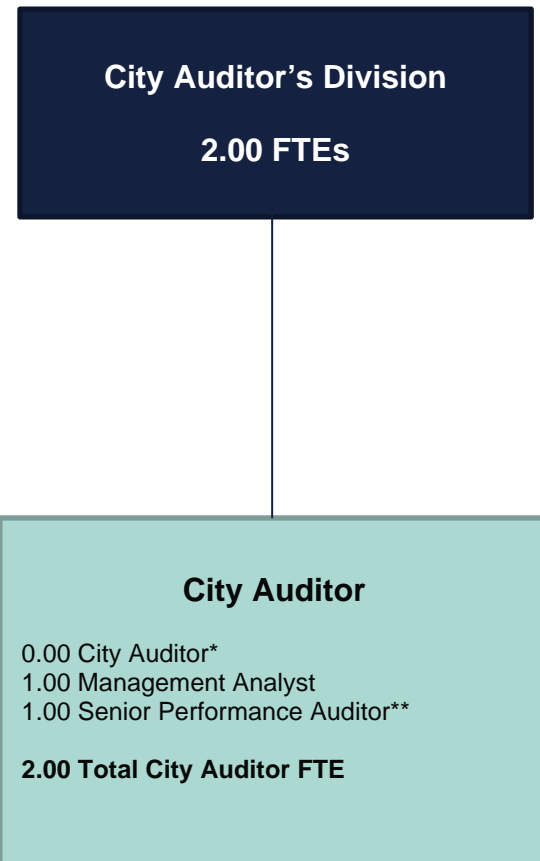

- Completed the annual cash disbursement review for the City of Santa Clara.
- Completed procurement and continuous oversight of the annual financial audit contracts for the City and Santa Clara Stadium Authority.
- Completed a comprehensive fraud, waste, and abuse policy to establish controls that will aid in the detection of fraud, waste, and abuse against the City.
- Completed the first City-wide risk assessment and developed a two-year audit plan based on those results.
- Established a whistleblower hotline for internal reporting of fraud, waste, and abuse or other ethical issues.
- Completed a review of City employee travel and reimbursement policies and procedures.
- Completed semi-annual audit status reports to provide status of projects contained in the annual workplan.

Significant Objectives

- Continue to advance audit work based on results of the City-wide risk assessment for the City in an effort to promote greater accountability.
- Increase the economy, efficiency, effectiveness, and accountability of City government through audits and their recommendations.
- Maintain an effective follow-up process to monitor and evaluate the adequacy, effectiveness and timeliness of actions taken by management to address audit recommendations and report to the City Council on the actions taken.
- Administer the whistleblower hotline and perform investigations for all material complaints.
- Provide oversight of external auditors regarding the City and Santa Clara Stadium Authority's financial and performance audits.
- Update the city's annual risk assessment report to effectively evaluate city functions and respond to any changes in risk identified in the City.
- Prepare the City's Annual Audit Work Plan for FY 2023/24 and FY 2024/25.

Budget Highlights

- Freeze the City Auditor position for two years; the office will continue to be managed with two professional staff and the use of consultants.
- Reduce the training and travel budget.

* The City Auditor position is proposed to be frozen for FY 2023/24 and FY 2024/25

** Currently overfilled as an Audit Manager

Freeze City Auditor Position	(1.00)		(297,881)		(314,418)

Program: 3352 – City Auditor Administration

This action freezes the City Auditor position for the FY 2023/24 and FY 2024/25 operating budget period. Long-term, the goal would be to consolidate the City Auditor and Senior Performance Auditor positions, resulting in an ongoing reduction of one position. Both the City Auditor and Senior Performance Auditor positions would need to be vacant to bring forward this ongoing change. The proposed reduction would not impact the current service delivery as the City Auditor position has been vacant. The existing staff (1.0 Senior Performance Auditor and 1.0 Management Analyst) and consultant services would continue to deliver audit services for the City.

Performance Impact

The number of audits that can be performed by the City Auditor's Office would continue to be impacted by the loss of capacity. City audits provide valuable information to improve City operations and address issues independently identified as part of the audit process.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Training and Travel Reduction			(3,000)		(3,000)

Program: 3352 – City Auditor Administration

This proposal reduces the training and travel budget by \$3,000 (from \$6,742 to 3,742). Staff would need to rely more heavily on online training opportunities versus in-person training. This reduction is expected to have minimal impacts given the shift to online training post COVID-19 and the proposed reduction in the staffing level.

Performance Impact

The reduction to the training and travel budget is not expected to impact service delivery.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

City Manager's Office

This page is intentionally left blank.

City Manager's Office Description

The City Manager's Office is responsible for providing strategic direction and support to all City departments for day-to-day operations and planning, as well as support to the City Council with its policy making. In this capacity, the City Manager's Office resolves complex administrative matters, performs City-wide policy analysis, directs city-wide emergency preparedness efforts; drives strategic planning and organizational development; oversees employee relations; directs the preparation of the budget in conformance with the Council's approved priorities and Budget Principles; and advises the Council of the City's financial outlook. In addition, the City Manager's Office has direct responsibility for economic development, community outreach and engagement, property and contract management, special projects, and legislative research and advocacy.

The City Manager's Office also provides general administration for the Sports and Open Space Authority, Housing Authority, and Successor Agency of the former Redevelopment Agency.

Divisions and Services

The City Manager's Office is organized into two Divisions: City Council Support; and Leadership and Management Services.

City Council Support Division Mission	Support the City Council with its policy decisions and assist with establishing and implementing goals, objectives, and planning strategies to maintain a thriving community with efficiently delivered City services.
Division Objectives	<p>Provide policy support for decision making by assisting Council in establishing policies and priorities, advancing the City's position on regional, State, and federal legislative issues, and executing its legislative responsibilities.</p> <p>Build intergovernmental relations and promote a strong, effective advocacy voice for legislation that will benefit the City.</p>
Leadership and Management Services Division Mission	Support the Santa Clara community through strategic planning, day-to-day oversight of operations, policy development, and fiscal planning. This Division also leads economic development, organizational development, community outreach and engagement, and the implementation of key policies and programs.
Division Objectives	<p>Implement Council direction while overseeing City operations and department resources, economic development, management of City-owned properties, and the development and implementation of key policies.</p> <p>Plan and execute highly complex, citywide projects while strategically developing a more effective and efficient organization.</p> <p>Enhance the City's community outreach and engagement efforts by updating the City's communications plan and informing residents and businesses about issues through press releases, Community Letters, the City Hall News online, Inside Santa Clara (the City newspaper for residents and businesses), the City's website and social media channels.</p>

Significant Accomplishments

City Council Support

- Coordinated the preparation and timely distribution of meeting agendas, Council briefings and the day-to-day operations of the Mayor and Council office.
- Facilitated and staffed the transition to hybrid/in-person City Council and Planning Commission meetings.
- Guided the transition back to in-person/hybrid boards and commission meetings in alignment with new noticing and legislative body requirements.
- Provided communications support for City Council and staff for State of the City, community events, groundbreaking and ribbon cutting events and speaking engagements.
- Hosted first in-person State of the City event after two years of virtual events due to the pandemic, where community awards from all districts were highlighted via prerecorded video and integrated into the multimedia presentation; the event was recorded and subsequently shared via social media and City News.

Leadership and Management

- Successfully led organization through leadership transitions while challenging the organization to maintain high-quality, cost effective services responsive to the needs of Santa Clara residents in alignment with Council priorities.
- Worked with City departments to implement a three-prong budget balancing approach of cost containment, new revenues and the use of reserves to address a significant structural budget deficit while minimizing impacts to front-line public services.
- Coordinated efforts across City departments to process over 32,000 Public Records Act requests during FY 2021/22 and approximately 22,000 requests in FY 2022/23.

Community Outreach and Engagement

- Migrated the City's bi-annual newspaper, "Inside Santa Clara" to a digital format, with printed copies available at City facilities, resulting in annual budgetary savings of approximately \$90,000 and aligning with environmental sustainability goals and mandates by saving over one million sheets of paper per year.
- Launched a new redesign for "City Hall News" in February 2022, including Mayor and Council District messages (when available) to provide Citywide and district-specific news and updates to the community.
- Maintained a robust presence on social media through Instagram, Twitter, Facebook, Nextdoor, and LinkedIn.
- Developed, designed, and facilitated mailers and utility bill insert content to keep the community apprised of special events, initiatives, and community meetings.
- Developed a series of video messages from the City Council on cultural and holiday events including Eid al-Fitr, Kwanzaa, 4th of July, Black History Month, Diwali and more.
- Collaborated with Water & Sewer Utilities on a "Save Our Water" campaign to educate the public on ways to conserve water during periods of prolonged drought and how to develop a "Water Conservation Mindset" to face future challenges.
- Conducted a robust community outreach effort with business and community leaders to discuss possible revenue measures for the November 2022 election. Efforts included a community survey, focus groups, dedicated webpage, direct mail and community presentations. Voters approved Measure G by over 84% (5% Utility transfer) and Measure H (Business License Tax Update) by 60% on the November 2022 ballot.
- Facilitated Council and community discussion regarding high-profile projects such as the acquisition of 1601 Civic Center Drive for parkland and the operations of the BMX park.

- Developed and produced high-quality videos for City departments, including officer profiles for SCPD's recruiting website, a featurette on Mission City Memorial Park, a Sneak Peek at Raymond G. Gamma Dog Park, Mayor@Noon and highlight videos of special events (Annual Tree Lighting, LGBTQ+ Flag Raising).
- Responded to over 200 media inquiries annually.

Special Projects

- Led efforts to prepare the City's FY 2021/22 Community Project Funding request application that resulted in the award of \$2.725 million in funding for the De La Cruz Blvd, Lick Mill Blvd, and Scott Blvd Bicycle Projects with Representative Ro Khanna's recommendation. The projects will enhance safety, improve mobility, reduce vehicle emissions, and connect local residential communities, schools, libraries, and major employers within Silicon Valley.
- Led efforts to prepare the City's FY 2022/23 Community Project Funding request application that resulted in the award of \$3 million in funding for the Anna Drive Neighborhood Flood Protection Project based on Representative Ro Khanna's submittal and \$500,000 in funding for the Fire Station Microgrid Project based on Senators Dianne Feinstein and Alex Padilla's submittals. The Anna Drive Neighborhood Flood Protection will benefit and provide flood protection to hundreds of residents and businesses. The Fire Station Microgrid Project will accelerate microgrid technologies that provide community benefits through decarbonization and climate resiliency.
- Coordinated the City's FY 2023/23 State Budget funding request which resulted in the award of \$800,000 for the Magical Bridge All-Inclusive Playground based on Assembly Member Alex Lee's submittal.
- Renegotiated Memorandum of Understanding with the Santa Clara Unified School District for the continued use and operation of the Youth Activity Center, Teen Center and Skate Park on the Cabrillo Middle School Campus.

COVID-19 Response and Relief Efforts

- Distributed regular COVID-19 updates to the community with the latest information on the COVID-19 pandemic as well as the City's response efforts.
- Maintained the drive-through window at City Hall for safe, in person utility bill payment, and other financial transactions.
- Incrementally increased City services to provide "in-person" beginning in July 2021 up to five days a week.
- Terminated the City Proclamation of Emergency for COVID-19 on February 7, 2023.

Significant Objectives

City Council Support

- The City Manager's Office will provide strategic leadership, policy analysis, and communications in support of Council priorities.
- The City Manager's Office will facilitate and support a mix of in-person and virtual meetings including the coordination of policy priority setting initiatives.
- The City Manager's Office will plan, coordinate and oversee the operations of the Mayor and Council office staff including the coordination of timely responses to Council and constituent inquiries.
- The City Manager's Office will provide staff and communications support for the State of the City, community events, groundbreaking/ribbon cutting events and speaking engagements.

Leadership and Management

- The City Manager's office will maintain excellence in the City's service delivery by helping to resolve complex administrative matters in support of Council priorities and the day-to-day operations of City Departments.
- The City Manager's office will strive to maintain effective working relationships with stakeholders and community partners to advance the best interests of the City.
- The City Manager's office will develop and oversee strategies to enhance civic engagement using a range of social media and other platforms to promote inclusion and diversity of thought in the development of public policy initiatives.
- The City Manager's Office will continue efforts to mitigate deficits projected in the City's Ten-Year General Fund Financial Forecast through development of revenue strategies, implementation of alternative service delivery models and expenditure reductions.
- As required by the California Public Records Act, the City Manager's office will continue to develop and implement strategies to address the increasing volume of public records requests in a manner that is both timely and responsive with the goal of enhancing public transparency while balancing City resources.

Legislative Advocacy

- The City Manager's Office will assist departments in identifying and pursuing federal and State funding opportunities for key City projects in coordination with the City's legislative consultant.
- The City Manager's Office will continue to build intergovernmental relations and promote a strong, effective advocacy voice for State and federal legislation that will benefit the City.

Community Outreach and Engagement

- The City Manager's Office will develop, execute and lead the City's external and internal communications and outreach strategy using a broad range of communications channels and Citywide communications initiatives.
- The City Manager's Office will continue to manage City's Customer Relationship Management System, MySantaClara, to provide a more effective and user-friendly experience to Santa Clara residents, businesses, and visitors.
- The City Manager's office will act as a City liaison to, and coordinate with, various community groups, non-profit organizations and intergovernmental partners to address the needs of Santa Clara residents.

Special Projects

- The City Manager's Office will continue to work with various stakeholders to advance the land use planning and development of Santa Clara's downtown.
- The City Manager's Office will continue to work with regional partners to develop and implement goals and measures that reduce aircraft noise.
- The City Manager's Office will continue to work with stakeholders to advance economic development efforts to promote Santa Clara tourism and businesses.
- The City Manager's office will continue to work with local schools and community partners to leverage community assets and enhance the educational, recreational and social outcomes of students and the most vulnerable of Santa Clara residents.
- Allocate financial resources to acquire software that will improve staff's document review process for Public Records Act requests.

Budget Highlights

- Recommends a carefully balanced FY 2023/24 and 2024/25 Biennial Operating Budget that reflects the City Council priorities and continues to build on the foundation of financial sustainability.
- With a combination of strategies to address the General Fund shortfall, the budget balances the competing goals of aligning ongoing revenues and expenditures and minimizing the service delivery impacts to the community, including freezing 1.0 FTE Assistant City Manager position; this is in addition to the 1.0 Assistant City Manager and 1.0 Senior Management Analyst positions that were frozen as part of the last operating budget cycle.

**The positions above represent all funded positions. This excludes the 1.0 Assistant City Manager position that was frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402), and 1.0 Senior Management Analyst position that the City Council approved to freeze on September 28, 2021 (Report to Council 21-1299). The position count also excludes 1.0 Assistant City Manager position that is proposed to be frozen for FY 2023/24 and FY 2024/25.*

Program:	1021 – Policy Support for Decision Making 1031 – Day to Day Operations 1032 – Strategic Planning 1033 – Community Outreach & Engagement				

This proposal freezes 1.0 vacant Assistant City Manager position. This position was intended to provide overall responsibility for City real estate and transactional matters (including Stadium, Related Santa Clara and Successor Agency properties) and Convention Center and Destination Marketing Organization organizational and operational matters. It was also anticipated that this position would support the development and implementation of economic development program and policy work such as local minimum wage, worker retention, worker recall, smoking/tobacco policies, regulations, worker cooperative, small business grants, cannabis regulations and food delivery fees. As a staff lead, efforts on broad policy and special initiatives were reported out to the Council's Economic Development, Communications, and Marketing Committee.

Performance Impact

The previous incumbent retired from the City in October 2021 and has since come back in an as-needed capacity to assist on a limited scope of overall responsibilities of the vacated Assistant City Manager position. While some gaps have been bridged in terms of services and duties, as-needed work hours are limited resulting in some duties being absorbed by other staff in other City departments and other duties are yet to be fully reassigned.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Performance and Workload Measures

City Council Support Division							
Workload Measures							
	Strategic Pillar	2020/21 Actual	2021/22 Actual	2022/23 Target	2022/23 Estimate	2023/24 Target	2024/25 Target
Number of State and federal legislative bills reviewed/tracked		228	86	100	100	100	100

Videos, produced or edited ⁹ (e.g. Santa Clara Source) – <i>Modified for FY 2023/24</i>		276	76	120	15	15	15

⁶ Staff time is required to facilitate the grant award, as such this measure definition was edited to specify the 30 days as 30 business days.

⁷ This was revised to include Parade of Champions and Showtime in addition to Community Grant Program awards.

⁸ For FY 2022/23, the number was zero due to a shortage in staff resources. This activity will resume during the next budget cycle; however, at a lower rate.

⁹ Santa Clara Source was discontinued in 2021. The need for videos increased during COVID, but now that we are back in person, the need has shifted.

Community Development Department

This page is intentionally left blank.

Community Development Department Description

The Department consists of three divisions: Planning, Building, and Housing and Community Services. The Director, Assistant Director and a Management Analyst support the activities of the Department as a whole. The Department's primary purpose is to guide the ongoing physical development of the community, which includes long range land use planning, review of new development proposals and construction to ensure that it conforms to the standards of the City and State and the provision of affordable housing within the City of Santa Clara. The Department acts as an advisor to the City's decision-makers in these areas and carries out the policies of the City Council. Santa Clara's policies and standards are contained in the General Plan, Zoning Ordinance, California Building Codes and adopted City Council policies. Plans for all new structures are reviewed and construction inspections are made to verify the safety and basic quality of work. Maintenance of the City's General Plan, proactive land use planning to meet the future needs of the community, and the delivery of high-quality professional services, including the enhancement and streamlining of the development permit process, and forging partnerships to provide housing services to lower income members of the community are primary objectives of the Department.

Divisions and Services

The Community Development Department is organized into three Divisions: Planning, Building, and Housing and Community Services.

<p>Housing and Community Services Division Mission</p>	<p>The Housing and Community Services Division administers the City's federal Community Development Block Grant (CDBG) and HOME Investment Partnerships Act Program (HOME) entitlement grant programs. The federal entitlement grants are used to promote affordable housing, rehabilitate substandard housing, provide neighborhood improvements and remove barriers to persons with disabilities, and fund public services for low- and moderate-income residents. Additionally, the Housing and Community Services Division administers the City's inclusionary housing program, which requires that a percentage of new development units be dedicated to low and moderate-income residents. Also, the Housing Division continues to manage its Redevelopment Agency legacy assets which include land and cash available for development, loans to first-time homebuyers, and other new affordable development projects.</p>
<p>Division Objectives</p>	<p>Complete an Annual Action Plan and administer grants using federal funding received by the City. The plan identifies community development and affordable housing needs and determines activities to be implemented that will assist low- and moderate-income people and prevent homelessness.</p> <p>Administer our two core federally funded programs: Tenant Based Rental Assistance (TBRA) and Neighborhood Conservation and Improvement Program (NCIP) and partner with the County on State Permanent Local Housing Allocation (PLHA) funding implementation.</p> <p>Complete in a timely fashion those budgeted capital improvement projects receiving funds from the federal CDBG Program and HOME Investment Partnership Act Program.</p> <p>Achieve the community service goals required of City-funded public service agencies.</p>

	Encourage and finance the construction and maintenance of housing affordable to lower- and moderate-income households utilizing the revenues from the following three housing funds: Housing Successor, City Affordable Housing and Housing Authority. Provide opportunities for affordable home ownership to moderate-income households. Implement the City's inclusionary housing policy, which requires 15% of all new residential developments be set-aside for a mix of very low, low, and moderate-income households.
Building Division Mission	To provide high quality and efficient services for the design, construction, use, occupancy, and maintenance of all buildings and structures in order to safeguard the public health, safety and general welfare in the built environment.
Division Objectives	Provide excellent customer service and efficient plan review and permitting services at the Permit Center via walk in over the counter or through the online permit system.
	Provide effective, reliable field inspection services for the community by ensuring Building Code safety regulations are met during construction and code enforcement concerns.
	Continue streamlining the building permit process through new technologies and the internet. Continue improving and enhancing the permit information system to expand utilization to its fullest potential.
	Continue to improve customer satisfaction by providing more staff and new innovative software to better assist Permit Center visitors.
	Apply and implement new building codes and new State legislation.
	Continue to coordinate plan checks and inspections statuses of the four development functions: Building, Fire Prevention, Planning and Public Works/Engineering.
Planning Division Mission	To enhance the community's safety, welfare, quality of life, and economic opportunities by providing advanced planning and development review services.
Division Objectives	Review proposed development projects for consistency with City policies, ensure compliance with the California Environmental Quality Act (CEQA), and confirm construction complies with development approvals.
	Continue streamlining the development process and facilitate public access to information through new technologies and the internet.
	Prepare and implement long range plans; in coordination with consultants, update the Zoning Ordinance, prepare the Downtown Precise Plan and Form Based Zoning Code and the El Camino Real and Santa Clara Station Area Specific Plans.
	Support the City's historic preservation efforts, provide code enforcement to respond to community concerns, implement the Climate Action Plan, and work with the Valley Transportation Authority (VTA) on planning for transit services.
	Provide support for CEQA/National Environmental Policy Act (NEPA) review of City capital, affordable housing, and other public projects.

Significant Accomplishments

- City approved Santa Clara's Draft 2023-2031 Housing Element that was also previously submitted in a timely manner to the California Department of Housing and Community Development (HCD) for review.
- Adopted the Patrick Henry Drive Specific Plan to implement the City's General Plan goals and policies for the area by providing detailed guidance for future land uses and urban design elements to accommodate new residential dwelling units, office space and other new neighborhood-serving retail and public facilities.
- Adopted the Climate Action Plan Update (CAP) that sets new targets for reaching aggressive emissions reductions. Subsequently, staff has created a CAP checklist for the applicants to track and implement CAP Targets.
- Adopted the Freedom Circle Focus Area as a part of the City's General Plan for future growth and which establishes the future capacity and an overall vision for a new, high-density mixed-use community.
- Posted the Downtown Precise Plan and Form Based Zoning Code Review Drafts for public review.
- Planning Division Code Enforcement staff proactively performed code enforcement efforts in the Mission Town neighborhood to improve the quality of life for the residents through effective community outreach and abatement of graffiti, trash, and inoperable vehicles. Staff also worked diligently to address issues with vacant properties along El Camino Real. Properties were cleared of trash and junk cars, buildings were secured, and numerous illicit and unpermitted advertising signs that plagued the boulevard were addressed.
- Kifer I (Calabazas Apartments) and St. Anton Apartments were completed & Kifer II Senior, Agrihood, and Monroe Apartments are under construction. These projects will create 646 new affordable housing opportunities.
- Invested approximately \$1.5 million in the City's Neighborhood Conservation and Improvement Program (NCIP) and minor repair programs.
- Invested approximately \$2.0 million in the City's Tenant Based Rental Assistance Programs and convened a Homelessness Taskforce.
- Assisted four families in purchasing Below Market Purchase homes, approximately 2,450 residents through public service programs, and 35 homeless or at-risk Santa Clara residents through the County's Supportive Housing Case Management Program.
- Emergency Rental Assistance: 261 households (approximately 780 people) received assistance through the City's Emergency Rental Assistance Program (ERAP) using \$600K of CDBG funds and over \$580K CDBG-CV funds.
- Implemented innovative customer software program to enable virtual, over the counter, phone call appointments and services which alleviate uncertainty with wait times and provide customers with important informational updates.
- Implemented mass communication tools (Gov Delivery) to provide general information to the community and its customers such as the 2022 CA Building Code Adoption and Reach Codes.
- Fiscal Year 2021/22 data shows accomplishments in various Building Division areas including the Permit Center, Plan Review, Inspections and Administrative team:
 - Number of permits under review: 1,008 records
 - Number of issued permits: 1,634 records
 - Number of inspections performed: 45,354
 - Number of finalized permits: 3,029 records
 - Number of housing units under review or construction: 3,276 units (23 Single Family + 136 Accessory Dwelling Units (ADU) + 3117 Multifamily)
 - Total square footage of nonresidential development under review or construction: 5,507,529 sf
 - Number of PRAs processed: 307

- Received and responded to 18,593 emails and 16,548 phone calls to Admin and Permit Tech teams
- Created virtual over-the-counter plan review process to help expedite plan review time for projects with smaller scopes.
- Created handouts and process to help guide the public and internal staff in understanding Reach Code All-Electric related regulations.
- Created Electronic Plan submittal guide to help with plan submittal quality and consistency.
- Staff put forth tremendous effort to do a comprehensive update for all customer handouts and guides on the Building Division website, ensuring the community has access to only the most current code regulations.

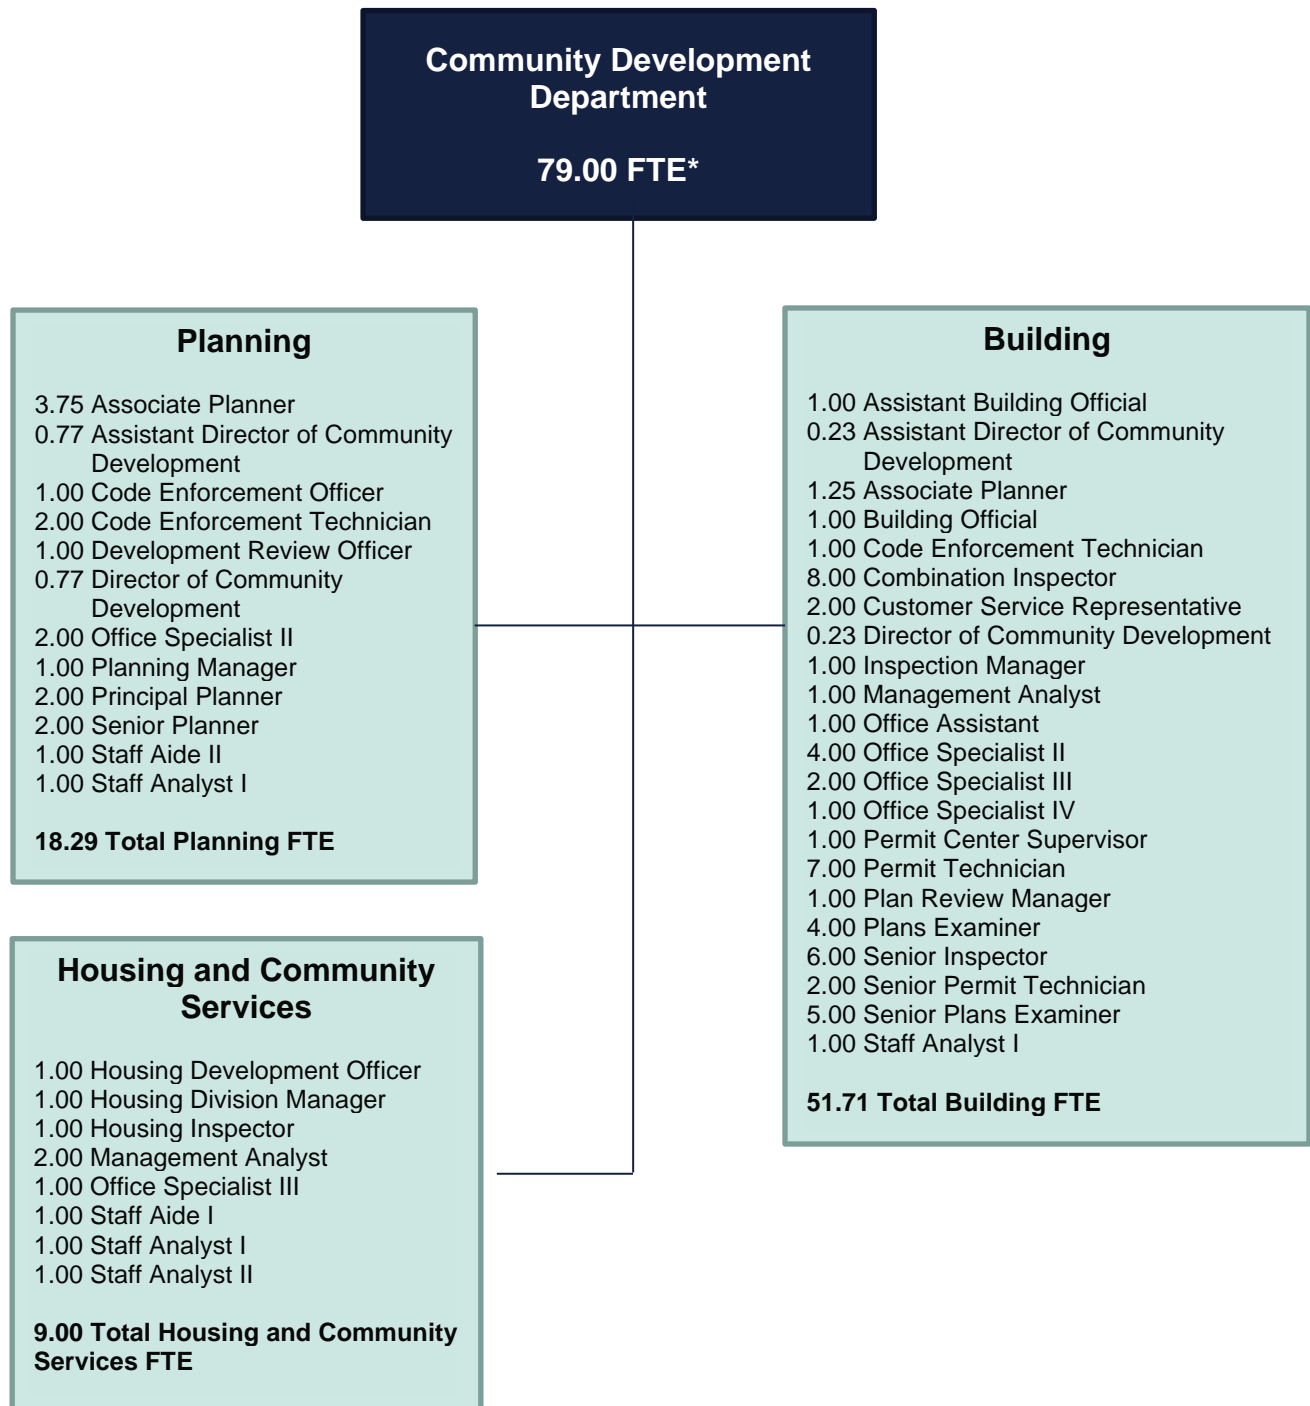

Significant Objectives

- Continue to engage with the Santa Clara community to inform and involve community members in both long-range and current land use planning activities.
- Enhance economic development by meeting service demands; providing more timely development review and permit processing timeframes and inspections; keeping critical services in-house; providing consistency and continuity; and staying current with technology.
- Complete significant advanced planning efforts, including the Zoning Ordinance update, Housing Element Update, Tasman East Area Plan Amendments, Downtown Precise Plan and Form-Based Zoning Code, El Camino Real Specific Plan revisions, and Santa Clara Station Area Specific Plan.
- Continue to implement the permit system replacement to streamline permit processes with online, electronic access, and integration with a geographic information system.
- Work to expand the affordable housing pipeline, execute Disposition and Development Agreements and loan closings for the current pipeline.
- Continue to administer the Below Market Rental Program (BMR) and Below Market Purchase Program (BMP).
- Develop and implement policies and programs to reduce displacement and homelessness .
- Continue to work towards full cost recovery model by increasing staff size to meet work volume.
- Develop and expand organizational structure by creating more attainable entry level positions in plan review and inspection programs which will also result in more balanced distribution of workload.
- Increase customer satisfaction levels by providing responses for Permit Center within one to two days.
- Increase customer satisfaction levels by providing appointments for inspections within one to two days.
- Complete release of 'Simple Permit' online services so customers can achieve permit issuance for routine construction activity in a more streamlined, expeditious manner.
- Provide more user-friendly online portal services by implementing OpenCities, a new website service which enables customers to navigate permit and fee processes much more easily and efficiently.
- Implement new customer relationship management software, QMatic, to provide customers with more visibility about Permit Center wait times, options for booking appointments as well as providing staff with accurate, reliable performance measure data about customer activity.
- Continue to improve upon data accuracy and reporting measures for state and county agencies by furthering knowledge and use of Accela Permit Information system's reporting capabilities while also continuing to provide assistance to other departments' requests for data.
- Create regular checks and balances to manage the budget, ensuring that staff size is proportionately aligned with available funds.
- Align the Division's consultant agreements by creating new agreements with updated terms and funding so effective

dates and end of term dates are in sync, which will result in easier, clearer tracking in contract management.

Budget Highlights

- The Proposed Budget includes the following budget actions to more appropriately align position funding to the work performed and to help address the General Fund shortfall:
 - Shift the funding source for 1.0 Senior Planner from the General Fund to the Advanced Planning Fee Reserve
 - Shift the funding source for 0.25 Associate Planner from the General Fund to the Building Development Services Fund
- Significant resources are recommended to support the Building Division to help address current pace of development activity in the City:
 - One-time funding of \$0.3 million for various software and hardware upgrades to enhance customer service and gain efficiencies for inspection staff
 - Addition of the following positions in FY 2024/25:
 - 1.0 Office Specialist II
 - 1.0 Office Specialist III
 - 1.0 Office Specialist IV
 - 1.0 Permit Technician

**The positions above represent all funded positions. This excludes the 1.0 Associate Planner and 0.75 Office Specialist II positions that were frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402). The positions also exclude 1.0 Senior Inspector that was originally funded by Related but is frozen beginning FY 2023/24 until funding is confirmed. The positions above also include the 4.0 positions recommended in FY 2024/25 as part of this Proposed Budget.*

Program: 5532 – Plan Review and Permit Services
5533 – Field Inspection

This proposal adds \$0.3 million in one-time funding for various software and hardware improvements and additions. The Building Division is planning to use this funding for improvements to the City's current online permitting portal. The Division submitted a survey to customers rating their experience using the online portal, resulting in an average customer rating of 5/10. This funding would allow for the Division to purchase a content management system or receive professional services to implement custom scripts to enhance the ease of use of the permitting online portal.

Additionally, the Division is seeking a queue management system. The Division continues to see increasing levels of demand, resulting in longer wait times when customers come into City Hall. A queue management system would allow for customers to join the queue virtually and come into City Hall when their time has arrived, providing much more flexibility for customers. The system would also integrate with the Division's current appointment booking portal and would enable a seamless, self-help web portal to schedule appointments, check-in for walk up services, and reschedule their place in the queue.

Funding is also planned to be used for new software and hardware for the Inspections team. Inspections are a critical service for residents and customers and providing the staff with modern technology and tools will create efficiencies and improve functionality.

The Building Division is also planning for a cloud-based Contact Center as a Service (CCaaS). The Building Division handles thousands of phone calls with only a handful of staff at any given time to provide the high-level customer service our community expects. With an influx of calls, it becomes difficult to answer the volume, provide consistent answers, and dive deep into trends and data that could enable better customer service. A CCaaS would allow for automation of call routing and provide customers with flexibility on how they prefer to be contacted.

Performance Impact

The Building Division has experienced an incredibly high level of activity in recent years and these various system enhancements would allow for an overall better customer experience, including more scheduling flexibility and better response times. This would also provide current staff with tools to be more efficient with inspection reporting.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Building Division Administrative Staffing	3.00	0	0	0	516,417

Program: 5532 – Plan Review and Permit Services

This proposal adds 1.0 Office Specialist II, 1.0 Office Specialist III and 1.0 Office Specialist IV to the administrative team within the Building Division in FY 2024/25. The administrative team is staffed with seven full time employees and eight as-needed employees. The Office Specialist IV is intended to act as a supervisor across the administrative team, with the Office Specialist III serving in a senior lead capacity to the team, with emphasis on training. The Office Specialist II will provide support across all administrative tasks including business correspondence, scheduling inspections, customer service, and payroll duties.

Performance Impact

The Department anticipates that adding these 3.0 positions will increase efficiencies across the administrative team and streamline processes.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Building Division Permit Center Staffing	1.00	0	0	0	177,819

Program: 5532 – Plan Review and Permit Services

This proposal adds 1.0 Permit Technician to the Permit Center within the Building Division in FY 2024/25. The Permit Center handles all permit application submittals and collection of fee revenue. Over the years, the Permit Center's activity level and workload have consistently increased and are continuing to increase. The Permit Center is currently staffed with nine full time positions. This staffing level has proven to be insufficient, given the higher activity levels and the changing expectations of the customers served. The Division's targeted response time is one to three business days for all services; however, the current turnaround time to process new applications and issue permits is one to two weeks. Currently, the Division is augmenting this workgroup to maintain reasonable processing and response times for the average of 700 emails and 500 phone calls received, in addition to the hundreds of permit applications and resubmittals are processed on a weekly basis.

Performance Impact

This position will provide the additional capacity needed for the Permit Center to maintain our processing and response time goals without pulling administrative staff from their important responsibilities.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Funding Shift of Associate Planner	0.00	0	0	0	0

Program: 5532 – Plan Review and Permit Services

This proposal shifts the funding of 0.25 FTE of an Associate Planner position from the General Fund to the Building Development Services Fund. Currently, the Building Division has 1.0 Associate Planner completing conformance review. As the workload continues to increase in the Building Division, the Department has determined that there is the need for additional capacity to complete these types of reviews. This funding shift is anticipated to result in General Fund savings of approximately \$56,004.

Performance Impact

This funding shift will increase support in the Building Division, which has faced high volumes of activity in the past several years.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Funding Shift of Senior Planner	0.00	0	0	0	0

Program: 5522 – Development Review
5523 – Advanced Planning

The Planning Division has 1.0 Senior Planner position that is funded by the General Fund. This proposal changes the funding source of this position to be fully funded by the Advanced Planning Fee Reserve. The change in funding source will result in approximately \$230,400 in General Fund savings. The change in funding for this position will result in less capacity in the general Planning program and more capacity in long-range planning.

Performance Impact

The Department expects this shift to result in increased processing and review times of Planning permit applications as well as longer response times to general inquiries. However, with this funding shift, the Department anticipates higher staff capacity to review and work on long-range planning projects, including various City Council requests.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Electric Utility Department

This page is intentionally left blank.

Electric Utility Department – Silicon Valley Power (SVP) Description

Since 1896, Silicon Valley Power (SVP) has provided electricity for residents and businesses in Santa Clara. The Electric Department has a budgeted staff of 222 employees who provide diverse services such as operating, maintaining and dispatching electric service including power plants, substations, transmission and distribution lines; engineering; system planning; administrative and financial management; marketing; customer services; power trading; outdoor Wi-Fi services; and dark fiber leasing services. All of these critical services work together to make SVP successful for the City and its businesses and residents.

Divisions and Services

Functionally, SVP is organized into four Divisions: Administrative & Business Services; Customer Development and Project Management; Resource Planning and Engagement; and Utility Operations. For budget tracking purposes, SVP has one additional division, Revenue and Resources. Beginning in FY 2023/24, the Administrative Services and the Business Services Divisions were combined into one division to better reflect the organizational structure.

Administrative & Business Services Division Mission	Plan, develop, coordinate and support the administrative activities of the Department and fiduciary responsibility for the benefit and safety of the community and the employees.
Division Objectives	Develop plans using the Strategic Plan to achieve goals and objectives of the City of Santa Clara.
	Develop staff training plans to meet the growth opportunities within the City.
	Manage budget, contracts, payments, debt and maintain fiduciary controls to maintain financial health.
Customer Development and Project Management Division Mission	Be an agile and trusted partner in connecting our customers and leveraging SVP fiber optic and technology assets. Focus on execution to complete new capital investments for increased infrastructure, substations and system capacity expansion.
Division Objectives	Enhance SVP's collaboration and connection with our customers and stakeholders leveraging transmission and distribution planning to facilitate electrification and decarbonization goals.
	Enhance data driven decision making to innovate, design and develop plans to optimize and expand the utility's physical assets. Maintain and update engineering design standards with GIS based maps and readily available digitized as-builts.
	Focus on our core work and electric utility capital improvement projects with program management to streamline processes, remove barriers and lower our costs.

Resource Planning and Engagement Division Mission	Retain and attract customers to the Santa Clara electric system by supporting environmental improvement programs, customer services, and implementing a sound marketing and communication strategy to accomplish the goals of the City. Manage the adequacy and cost of fuel and electric resources in a competitive market.
Division Objectives	<p>Ensure adequate generation resources for reliable, economically competitive services to all SVP customers and meet all State and federal reliability and environmental compliance requirements.</p> <p>Optimize value of assets through power trading and scheduling and procure cost-competitive fuel resources for power production.</p> <p>Actively seek understanding of customers' valuation of energy service needs and amend the marketing plan as necessary to meet the needs of a dynamic marketplace, including technologies responsive to customer needs.</p> <p>Work with other public power agency partners to explore new generation and transmission resources to service growing sales and reduce SVP's risks and average costs.</p>
Revenue and Resources Division Mission	Provide centralized location to receive revenue and monitor expenses for resource and production to procure energy.
Division Objectives	<p>Manage all Joint Powers Authorities (JPA) costs.</p> <p>Record and receive revenue.</p>
Utility Operations Division Mission	Provide safe and reliable electrical energy to the City of Santa Clara by maintaining and enhancing infrastructure to meet energy demands for our customers.
Division Objectives	<p>Maintain continuous efforts to improve system reliability by targeting system improvements, through scheduled maintenance of equipment according to its useful life cycle, and ongoing inspections.</p> <p>Strengthen the system through improved design, research of new technologies and systems, and implementation of new system and equipment.</p> <p>Maintain safety at the highest priority and a culture of compliance with all regulatory requirements.</p>

Significant Accomplishments

- Launched an energy education program for fourth graders in FY 2021/22, which served 8 schools and 15 classes (a total of 462 students enrolled in the first year).
- Launched a hands-on induction cooking demonstration and education program in partnership with Santa Clara Unified School District Adult Education Program. Offered one class per month with 80-100% enrollment in each class.
- Launched the online SVP Marketplace for energy efficient products and electric yard care equipment with instant rebates including higher incentives for income-qualified customers.
- Received the CMUA 2021 Resource Efficiency and Community Service Award for SVP's Energy Efficiency Grants for Small Businesses impacted by COVID-19.
- Enrolled five customers in the Demand Side Grid Stability program. These customers assist in stabilizing the grid by shedding load during high peak demand periods.
- Launched a new Large Customer Renewable Energy (LCRE) Program with two options. Option A - SVP procures renewables in excess of the Renewable Portfolio Standard requirements for the customer, and option B - Bringing the customers' owned renewables into SVP to feed the customer facilities. Completed the retirement of the residential Green Power program and initiated retirement of the commercial Green Power program.
- Developed a CIP Dashboard for new development projects to better manage and monitor capital project status.
- Completed 83.14 miles of new dark fiber connections to six electric sites, eight water and sewer sites, seven stormwater sites, one Santa Clara Unified School District site, and one smart park supporting the communications needs of key City services, and added 31.36 miles for external customers.
- Rolled out SVP Fiber standards and a fiber task template for new and rebuilt substations.
- Expanded the SVP Fiber network by adding a new data center connection point. This provided a new opportunity for SVP Fiber to better support dark fiber lease customers' business needs and attract new business.
- Expanded City-owned Electric Vehicle Supply Equipment (EVSE) infrastructure - installed Level 2 Electric Vehicle (EV) chargers for public and City fleet use.
- As part of fleet electrification program, replaced old combustion vehicles with all-electric vehicles for Police, Fire, Public Works, and other City departments. In FY 2021/22, 46 all-electric vehicles and electric forklifts were purchased.
- Continued the California Electric Vehicle Incentive Program (CALeVIP Program) with \$8 million dollars earmarked over 4 years: EV charger rebates for commercial & multifamily properties and technical assistance resulting in three (3) applications with 16 connectors installed and \$498,515 rebate funds issued, of which \$40,000 has gone to the disadvantaged community (DAC) identified areas in Santa Clara; two (2) projects have received a milestone payment and are still under construction with \$414,515 funds issued; twelve (12) applications have funds reserved (\$3,924,000).
- Launched new EV Charging Technical Assistance Program for multifamily and businesses customers and hosted three (3) educational webinars focused on EV charging for multifamily properties and EV charging for businesses.
- Transferred mandated funds for the California Clean Fuel Rewards (CCFR) resulting in 1,929 rebates totaling over \$1.8 million to customers between July 2021 through April 2023.
- Successfully completed 2021 and 2022 National Electric Reliability Company (NERC) annual paper audits (Self-Certifications).
- Managed utilities' response to COVID-19 by implementing recommended protocols, providing training and helped organized first round of vaccines for critical staff.
- Worked with SVP Safety Committee to create an online anonymous safety suggestion portal and created magnet QR codes to Hazardous Materials Safety Data Sheets for easier access by employees.
- Reduced downtime between system failures for replacement of gatekeeper, a device used to pull meter data from the field back into the Advanced Metering Infrastructure (AMI) system for billing purpose, from several days to less than a

day on average.

- Prevented an average of over 10,000 penetration attempts per hour throughout the year. Made early discovery of City information being made available on Darknet and notified appropriate authorities prior to major risk.
- Executed and commenced South Feather Water and Power Agency Power Purchase Agreement (PPA), Aquamarine Solar PPA; and Camp Far West PPA with a capacity 78.0MW, 75.0MW, and 6.8MW respectively to meet clean energy goals.
- Obtained a 50-year hydro license issued by Federal Energy Regulatory Commission (FERC) for the Bucks Creek project which includes the Grizzly Powerhouse.
- Created a curtailment-tracking tool for SVP's renewable resources, aiming to improve SVP's trading floor's management of contractual limits so that staff can make changes to bidding strategy if needed.
- Completed the SVP System Expansion Plan for CAISO Transmission Planning Process for FY 2023/24 to project SVP's load growth over the next decade for inclusion in the CAISO modeling.
- Established SVP Project Management Office to implement an integrated strategy for the planning, design, construction, and commissioning of the Kifer Receiving Station (KRS) and Scott Receiving Station (SRS), nine (9) substations, and related 60KV transmission line improvements in the next five years.
- Completed field audit of internal documentation of Bulk Electric System (BES) and 60kV assets in support of NERC FAC-008 program to better manage assets conditions and further increase system reliability.
- Completed communication upgrade between Orland Junction and Black Butte, resolving a long-standing leased line reliability issue and Phase 1 of substation control and communication system replacement.
- Completed digital scanning of 1,500 drawings for system expansion projects at Northern Receiving Station (NRS), SRS and KRS to facilitate engineers' review and increase efficiency.
- Completed PG&E projects including: CalTrain at KRS 115kV for the PG&E KRS-FMC line and Los Esteros Shunt Reactor 230kV Bus Differential Protection Upgrade.
- Completed Statement of Qualifications (SOQ's) for critical substation services including electric equipment repair, maintenance, and testing and electric utility engineering services to allow contracts with consultants to support communication, protection, and power quality engineering.
- Improved efficiency and effectiveness of the Job Hazard Analysis Program.
- Performed more than 35 switchgear major maintenance activities for customers.
- Implemented Lucy system for work order and centralized and digitized asset record management, facilitating availability of equipment operation/maintenance records for all stakeholders at any location and improving workflow efficiency, and equipment performance assessments.
- Implemented substation preventative programs including: on-line monitoring of Transformer Dissolved Gas Analysis (DGA) units, including real-time remote monitoring capability; quarterly Heating, Ventilation, and Air Conditioning (HVAC) maintenance program; monthly weed abatement program; and increased frequency of equipment health monitoring program.
- Integrated substation inventory into the City's inventory system, reducing the amount of time substation personnel spend on procuring proprietary substation inventory, and avoiding delays in repairs due to lead-time to procure product.
- Completed underground projects with multiple pad mount switches and transformers for Santa Clara Square and Lawrence Station ahead of customer schedule.
- Completed 124 estimates for new business; completed 18 estimates for the upgrade or installation of new conductors, transformers, and switches; completed 512 maintenance work orders for pole, crossarm, transformer, and switch repair or replacement to improve reliability.
- Phase 2 deployment of EV infrastructure has been constructed (35 connections) at primary City fleet locations including Parks Service Center, Utilities Operation Center, Public Works Corporation Yard and the Police Building.

Significant Objectives

- Complete SVP System Expansion Plan Report Transmission Planning Process FY2024/25 with discrete short- and long-term plans to meet 1,100 MW peak system demand to accommodate 20% increase in electric system load growth in the next ten years.
- Continue monthly engagement on the CAISO planning process so that direction is provided to Pacific Gas & Electric to develop and construct projects to increase bulk electric system transmission capacity to serve Santa Clara's electric load growth.
- Initiate SVP's 50 MW Kifer Battery Energy Storage System Project (BESS) located on City-owned property next to the DVR power plant. The project will provide multiple benefits in serving peak loads, increase the use of renewable energy and improve system resiliency. The project has a goal of commercial operation in mid-2025 and will include an Energy Storage and Lease Agreement.
- Proactively maintain SVP's fleet of turbines and generators according to Original Equipment Manufacturer (OEM) recommendations.
- Provide leadership to support the department's resources by implementing staff development and succession planning to develop skills and enhance knowledge.
- Provide construction and commissioning support of multiple substation construction projects.
- Develop communications design standards for use in Substations.
- Provide enhanced vegetation management and maintenance of transmission lines in the City of Santa Clara and remote locations, including Glenn and Tehama Counties.
- Test and perform preventative maintenance on 1,000 protection relays.
- Identify and execute replacement strategy for the JungleMUX SONET Multiplexer optical network.
- Continue to ensure wholesale trading activities comply with Council-approved policy and regulations, minimize SVP's credit exposure, monitor counterparty credit risk, and ensure compliance with CAISO tariff and regulations.
- Continue to provide energy efficiency education and programs to customers to help them reduce their energy use and lower their electric bills, promote renewable energy options, investigate emerging technologies, and provide assistance to qualified low-income customers to reduce the burden of their electric bills.
- Participate and comply with the California Air Resources Board (CARB) Low Carbon Fuel Standard (LCFS) Program to develop, educate, and foster the adoption of electrification as the transportation fuel.
- Meet state regulatory requirements for renewable resources and carbon reduction targets while keeping SVP cost competitive.

Budget Highlights

- Enhance substation maintenance to support the transition from time-based and reactive maintenance to preventative and predictive maintenance necessary to ensure the reliability of substations as the number of substations increase and related technology implementations advance.
- Augment funding for maintenance of underground systems and tree trimming directed at reducing power distribution system outages. In 2022, this activity resulted in a reduction in outages from 298 outages in 2021, to 135 outages in 2022. This funding will also provide for the purchase of additional inventory and the rental of additional equipment for distribution maintenance programs that will continue to support the reduction of equipment outages.
- Increase funding to support an enhanced preventative maintenance approach at the City's power plants. SVP will continue implementing best in class predictive and preventative maintenance practices throughout the generation fleet including identifying additional equipment for scheduled preventative overhaul. As a result of this enhanced maintenance approach, Generation has achieved a 50% reduction in backlogged work and improved the on-time completion of preventative maintenance activities from less than 20% in FY 2019/20 to over 90% consistently in FY

2020/21 and FY 2021/22. Maintaining in-town generation assets in peak operating condition both reduces costs to the utility and improves reliability during periods of peak demand.

- Add funding for an online training portal software application for Electric Utility Operations staff as a whole, and specifically to provide initial, onboarding, and continuing education requirements for system operators. In addition to delivering self-paced training to employees, this platform will be used to track and support Electric Utility Operations employee's task qualification, training cadence, and skill sets, ensuring that all compliance requirements related to system operations tasks are met by each employee resulting in a consistently trained and highly skilled workforce.
- Support a new customer program to procure Renewable Energy Certificates (RECs) primarily for large customers. This is voluntary program called Large Customer Renewable Energy Program (LCRE) which was approved by City Council on November 16, 2021. This action includes funding for Silicon Valley Power to procure renewable energy in excess of the current Renewable Portfolio Standard (RPS) requirements for customers that subscribe to the LCRE. SVP recovers the cost of the program on the customer's monthly utility bill.
- Expand the electric transportation acceleration initiatives to ensure Santa Clara is an EV Ready Community by 2030. This includes ongoing funding for the Fleet Advisory/Technical Assistance program and educational webinars that target multifamily housing, non-profits and small commercial customers.
- Implement Greenhouse Gas (GHG) programs that could include new solar installations, solar installations combined with battery storage, and solar projects combined with electric vehicle (EV) infrastructure for City facilities and neighborhood school locations. This includes continued program support for DC fast charging infrastructure in combination with potential of an award of \$500,000 through California Energy Commission's EnergIIZE grant funding for fleet infrastructure.

¹ In FY 2023/24, Administrative Services and Business Services Divisions were combined into one Division

² In FY 2023/24, Program 1311 Rates and Budget was renamed to Financial Services

³ In FY 2023/24, Program 1324 Electric Compliance was moved from the Business Services Division to the Utility Operations Division

⁴ In FY 2023/24, Program 1313 Key Accounts was moved from the Customer Development and Project Management to the Resource Planning & Engagement Division

⁵ In FY 2023/24, Program 1317 Fiber Program was moved from the Customer Development and Project Management to the Resource Planning & Engagement Division

⁶ In FY 2023/24, Program 1358 Risk Management was moved from the Business Services Division to the Resource Planning & Engagement Division and was renamed to "Risk Management and Settlements"

⁷ New Program in FY 2023/24

⁸ The Green Power Program was replaced with the Large Customer Renewable Energy (LCRE) Program beginning in January 2023 as described in RTC 21-1487

Total FY 2024/25 Proposed Budget	222.00	786,454,509

Service Level Changes

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Substation Maintenance and Outage Response & Repair	0.00	0	2,632,000	0	1,705,000

Program: 1372 – Substation Maintenance

This proposal includes ongoing funding to support the transition from time-based and reactive maintenance to preventative and predictive maintenance necessary to ensure the reliability of substations as the number of substations increase and related technology implementations advance.

This item includes resource augmentation for the routine testing and maintenance of protective relays that is necessary until an appropriate number of in-house relay technicians are hired. The additional resources will provide maintenance and original equipment manufacturer (OEM) support for a variety of real-time maintenance monitoring equipment and software installed for power transformers, circuit breakers, and switchgear; and unplanned critical substation equipment repair.

Performance Impact

Adding outside resources and contracts to support the transition of the substation maintenance program during the rapid substation expansion and technical evolution occurring currently will mitigate reliability and compliance risk by providing additional resources and expertise.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

Service Level Changes

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Augment Underground Maintenance and Tree Trimming Services	0.00	0	1,966,000	0	1,910,000

Program: 1376 – Transmission & Distribution

This proposal augments funding for maintenance of underground systems and tree trimming directed at reducing power distribution system outages. In 2022, this activity resulted in a reduction in outages from 298 outages in 2021, to 135 outages in 2022. This funding will provide for the purchase of additional inventory and the rental of additional equipment for distribution maintenance programs that will continue to support the reduction of equipment outages.

Tree-related outages decreased by nearly 50% from 2021 to 2022 (42 outages in 2021 compared to 20 in 2022). This was achieved through analysis and prioritization of systematic trimming and the application of additional resources for the removal of conflicts between tree and overhead distribution lines. This action is anticipated to continue with the following activities: patrolling all distribution circuits maintaining tree/circuit clearances over a 3-year cycle while including adequate resources applied to address emergent tree complaints.

Performance Impact

Adding additional outside resources, additional inventory, and additional equipment will support the downward trend in distribution system outages.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

Service Level Changes

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Generation Maintenance	0.00	0	732,000	0	796,000

Program: 1377 – Generation

This proposal increases funding to support an enhanced preventative maintenance approach at the City's power plants. SVP will continue implementing best in class predictive and preventative maintenance practices throughout the generation fleet including identifying additional equipment for scheduled preventative overhaul. As a result of this enhanced maintenance approach, Generation has achieved a 50% reduction in backlogged work and improved the on-time completion of preventative maintenance activities from less than 20% in FY 2019/20 to over 90% consistently in FY 2020/21 and FY 2021/22. Maintaining in-town generation assets in peak operating condition both reduces costs to the utility and improves reliability during periods of peak demand.

Costs of procuring power outside of the City and demand for power inside of the Santa Clara have increased significantly. These activities will increase the availability of SVP's generation fleet, reducing the amount of net market power purchases needed to support SVP's load.

Performance Impact

Increased proactive maintenance activities will ensure the reliability of equipment during critical peak months when SVP relies on City-owned generating assets the most. Increased use of predictive and preventative maintenance strategies will provide for additional long-term reliability improvements, as equipment is monitored and maintained based on data-driven decisions.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

Service Level Changes

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Managed Training Portal (Software Application)	0.00	0	290,000	0	290,000

Program: 1362 – Power System Control

This proposal includes funding for an online training portal for Electric Utility Operations staff as a whole, and specifically to provide initial, onboarding, and continuing education requirements for system operators. In addition to delivering self-paced training to employees, this platform will be used to track and support Electric Utility Operations employee's task qualification, training cadence, and skill sets. The platform will also be utilized to ensure that all compliance requirements related to system operations tasks are met per employee. Overall, this portal will facilitate the production of a consistently trained and highly skilled workforce.

Performance Impact

The utilization of this platform will ensure that SVP Utility Operations employees receive a well-managed, consistent, high level of training, conducive to the development of highly qualified and skilled employees.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure.

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Bundled Renewable Energy Certificates (RECs)	0.00	0	750,000	0	1,000,000

Program: 1315 – Large Customer Renewable Energy (LCRE) Program

This proposal includes funding for the voluntary bundled Large Customer Renewable Energy Program (LCRE) program which was approved by City Council on November 16, 2021. The current Green Power program will shift from an unbundled renewable energy credit (REC) program to a voluntary bundled Large Customer Renewable Energy Program (LCRE). This action includes funding for Silicon Valley Power to procure renewable energy in excess of the current Renewable Portfolio Standard (RPS) requirements for customers that subscribe to the LCRE. SVP recovers the cost of the program on the customer's monthly utility bill.

Performance Impact

This program provides a way for the customer to meet their sustainability goals when the Customer's goals are higher than the SVP's current RPS.

Strategic Pillar:  Promote Sustainability and Environmental Protection

Service Level Changes

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Electric Vehicle Programs and Rebates	0.00	0	1,828,000	0	1,728,200

Program: 1319 – SVP Electric Vehicle Program

This proposal includes funding to continue and expand the electric transportation acceleration initiatives to ensure Santa Clara is an EV Ready Community by 2030. This includes ongoing funding for the Fleet Advisory/Technical Assistance program and educational webinars that target multifamily housing, non-profits and small commercial customers. **Residential Program Expansion:** Understanding that not all community members want or have the ability to drive electric, SVP proposes to expand its programs beyond vehicle rebates and proposes to fund programs that support all modes of transportation via a Community Transit Program and an Electric Ride Share Program in partnership with VIA and the City of Cupertino. To support an innovative electric grid, SVP proposes a managed electric vehicle (EV) charging program and an EV Submeter Program. **Business Program Expansion:** SVP plans to continue to provide EV charging infrastructure technical assistance and proposes to expand this assistance by offering Fleet Advisory / Technical Assistance to commercial and industrial customers operating fleets in Santa Clara. SVP also plans to improve its existing multifamily, nonprofit and commercial EV charging rebate program by increasing rebate incentives for level 2 EV chargers and expanding eligible equipment to include level 1 and low-level 2 outlets. **Public Agency Program Expansion:** SVP plans to expand its support of public agencies and the school district by offering an EV School Bus Program and offering subsidized public charging for low-to-moderate income (LMI) customers via a new direct-install program.

Performance Impact

In conjunction with maintaining and expanding existing EV programs such as vehicle rebates, EV charging rebates, and EV charging technical assistance, this funding will expand potential third-party programs. Procuring third-party program administrators and consultants to support staff in this effort will help to address the operational constraints while allowing staff to direct focus on supporting a number of growing initiatives that enhance overall city operations and support the City's Climate Action Plan.

Strategic Pillar:

Promote Sustainability and Environmental Protection

Service Level Changes

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Greenhouse Gas Program Updates	0.00	0	2,650,000	0	3,950,000

Program: 1325 – Greenhouse Gas Program

This proposal includes funding to implement new programs that could include new solar installations, solar installations combined with battery storage, and solar projects combined with electric vehicle (EV) infrastructure for City facilities and neighborhood school locations. This funding includes continued program support for DC fast charging infrastructure in combination with potential of an award of \$500,000 through California Energy Commission’s EnergIIZE grant funding for fleet infrastructure. This funding also allows for the continued purchase of Zero Emission Vehicles to replace fossil fuel vehicles.

Performance Impact

The deployment of renewables and expanded deployment of EVs and EV charging result in quantifiable greenhouse gas (GHG) reductions.

Strategic Pillar:

Promote Sustainability and Environmental Protection

Finance Department

This page is intentionally left blank.

Finance Department Description

The Finance Department administers the financial affairs of the City, including City-owned public utilities. These functions include: budget administration and control; maintaining a general accounting system and the preparation of annual comprehensive financial reports; collection of taxes, fees, special assessments and utility charges; investment of City funds; procurement of supplies, materials, equipment, and services; operating the City Warehouse; issuance of bonds and debt management; and financial management of contracts, including leases.

Divisions and Services

The Finance Department is organized into five Divisions: Accounting; Administrative Services; Budget; Municipal Services; and Purchasing.

Accounting Division Mission	Provide relevant, accurate, and timely transaction processing and financial reporting services in compliance with laws, regulations, City policies and professional standards.
Division Objectives	<p>Continue to enhance and utilize the Finance/Human Resources Management System (FHRMS) in support of relevant, accurate and timely accounting processes.</p> <p>Continue training of Accounting staff and citywide end-users in FHRMS financial modules and process workflow.</p> <p>Identify areas for improvements and streamlining of accounting processes in support of work product efficiencies. Continue to utilize new technology enhancements to empower end users to access financial information.</p>
Administrative Services Division Mission	Be a proactive participant in Citywide strategic planning and decision-making, adding value as a provider of financial advice, analysis, and investment and debt management.
Division Objectives	<p>Manage the outstanding debt of the City and its agencies in compliance with established policies and bond covenants.</p> <p>Manage cash flow and invest cash in accordance with established policies and procedures. Prepare monthly reports for the City and its agencies.</p> <p>Monitor the financing needs of the City and its agencies. Manage negotiated and public-bid bond issuance.</p> <p>Manage special projects as assigned.</p> <p>Manage production of the City's annual financial reports, general-purpose financial statements and annual comprehensive financial report (ACFR).</p>

Budget Division Mission	Be the primary source of financial analysis in the City's continuing effort to maintain and strengthen its fiscally responsible core value.
Division Objectives	Manage and produce the biennial operating and capital budgets.
	Manage and produce the Ten-Year Financial Forecast for the City and prepare periodic and annual revenue forecasts.
	Analyze budget performance during the year and prepare Monthly Financial Reports.
	Monitor and report the City's appropriations limit and general contingency reserves.
	Monitor the State budget and related legislative activities with economic implications.
	Develop strategies to balance the budget.
	Assist and provide support for negotiations with employee bargaining groups.
Municipal Services Division Mission	Work collaboratively with departments on any necessary budget amendments during the year.
	Provide customer service to our utility and business certificate customers, manage the activities of the Municipal Services division in accordance with the City's rules and regulations, code, and policies consistent with professional and ethical standards, and be proactive in developing and delivering currently available automated features and conveniences to our customers.
	Provide customers with courteous, accurate and timely solutions to their inquiries and requests.
	Promote and enhance customer self-service options and electronic payment offerings for customers
	Continue upgrading the functionality and underlying business processes of the Utility Management Information System (UMIS).
	Promote and enhance on-line Business License enrollment and renewal.
	Provide customers with safe, reliable self-service options for improved customer satisfaction.
Division Objectives	Process and oversee custody of all cash and checks received over the counter or in the mail.

Purchasing Division Mission	Support and facilitate the timely and efficient procurement of supplies, materials, equipment, and services required by City Departments while ensuring compliance to City Policies, applicable government regulations, and best practices in public sector procurement to obtain the lowest cost while maintaining appropriate internal controls. Oversee Central Warehouse operations to ensure that the City's electric and water utilities are stocked with parts to support their operations and process outgoing mail for the City. Facilitate the disposition of surplus property to ensure a fair and transparent process is followed and maximum value is recovered.
Division Objectives	Provide internal customers and vendors with courteous, accurate and timely solutions to their inquiries and requests.
	Negotiate and recommend execution of contracts or blanket purchase agreements for the purchase of supplies, materials and equipment.
	Act to procure for the City the needed quality and quantity of supplies, materials and equipment at the least expense to the City.
	Prepare and recommend to the City Manager rules governing the purchase of supplies, materials, equipment, and services for the City.
	Keep informed of current developments in the field of purchasing, prices, market conditions and new products.
	Competitively procure inventory items for the Central Warehouse to ensure inventory is maintained at levels sufficient to support field operation requirements.

Significant Accomplishments

- Provided staff support and analysis for the Business Tax ballot measure that was approved by the voters in November 2022.
- Updated Chapter 2.105 of the Santa Clara City Code to increase bid thresholds to \$250,000 for materials and general services and increase the City Manager's signature authority to \$250,000 to reflect current practices as benchmarked against both federal and local agencies purchasing practices.
- Updated the City's Procurement Card Policy to improve the reconciliation process and audit procedures of the program to reduce risks associated with inappropriate or fraudulent use of P-Cards.
- Upgraded the Business Tax and License system enabling new E-Check payment option for Business Tax Customers.
- Upgraded Utility Customer Service Call Center software enabling Call Center staff to answer incoming calls remotely.
- Implemented new Utility Meter Reading Software/Hardware with enhanced security features utilizing a hosted platform.
- Enrolled City of Santa Clara in the State of California Low Income Household Water Assistance Program (LIHWAP)
- Supported the Emergency Operations Center including procurement and cost accounting functions. Reviewed FEMA requirements and accounted for citywide COVID-19 expenditures in order to maximize federal funding.
- Updated the City's Investment Policy to reflect the most recent allowable investment types mandated by the State.
- Transitioned banking and merchant services to a new service provider, JP Morgan Chase, to generate cost savings while enhancing customer experience and technology efficiencies.
- Introduced a Procurement Guide to provide clarity around processes to create faster procurement cycles to obtain goods and services.
- Expanded access to employee self-service capabilities to empower more users to manage aspects of their own employee profile online.
- Received the Government Finance Officers Association (GFOA) award for excellence in financial reporting for fiscal year 2021/22. This is the thirty-first consecutive year receiving the award.
- Implemented an online budget tool that connects stakeholders to the City's annual budget to promote transparency and accountability.
- Provided departmental trainings on the various phases of budget development.
- Received the Capital Budget Excellence Award for FY 2022/23 and FY 2023/24 and the Operating Budget Excellence Award for FY 2021/22 and FY 2022/23 from the California Society of Municipal Finance Officers (CSMFO) and the Distinguished Budget Presentation Award from the Government Finance Officers Association (GFOA) for the FY 2021/22 and FY 2022/23 Biennial Operating Budget.

Significant Objectives

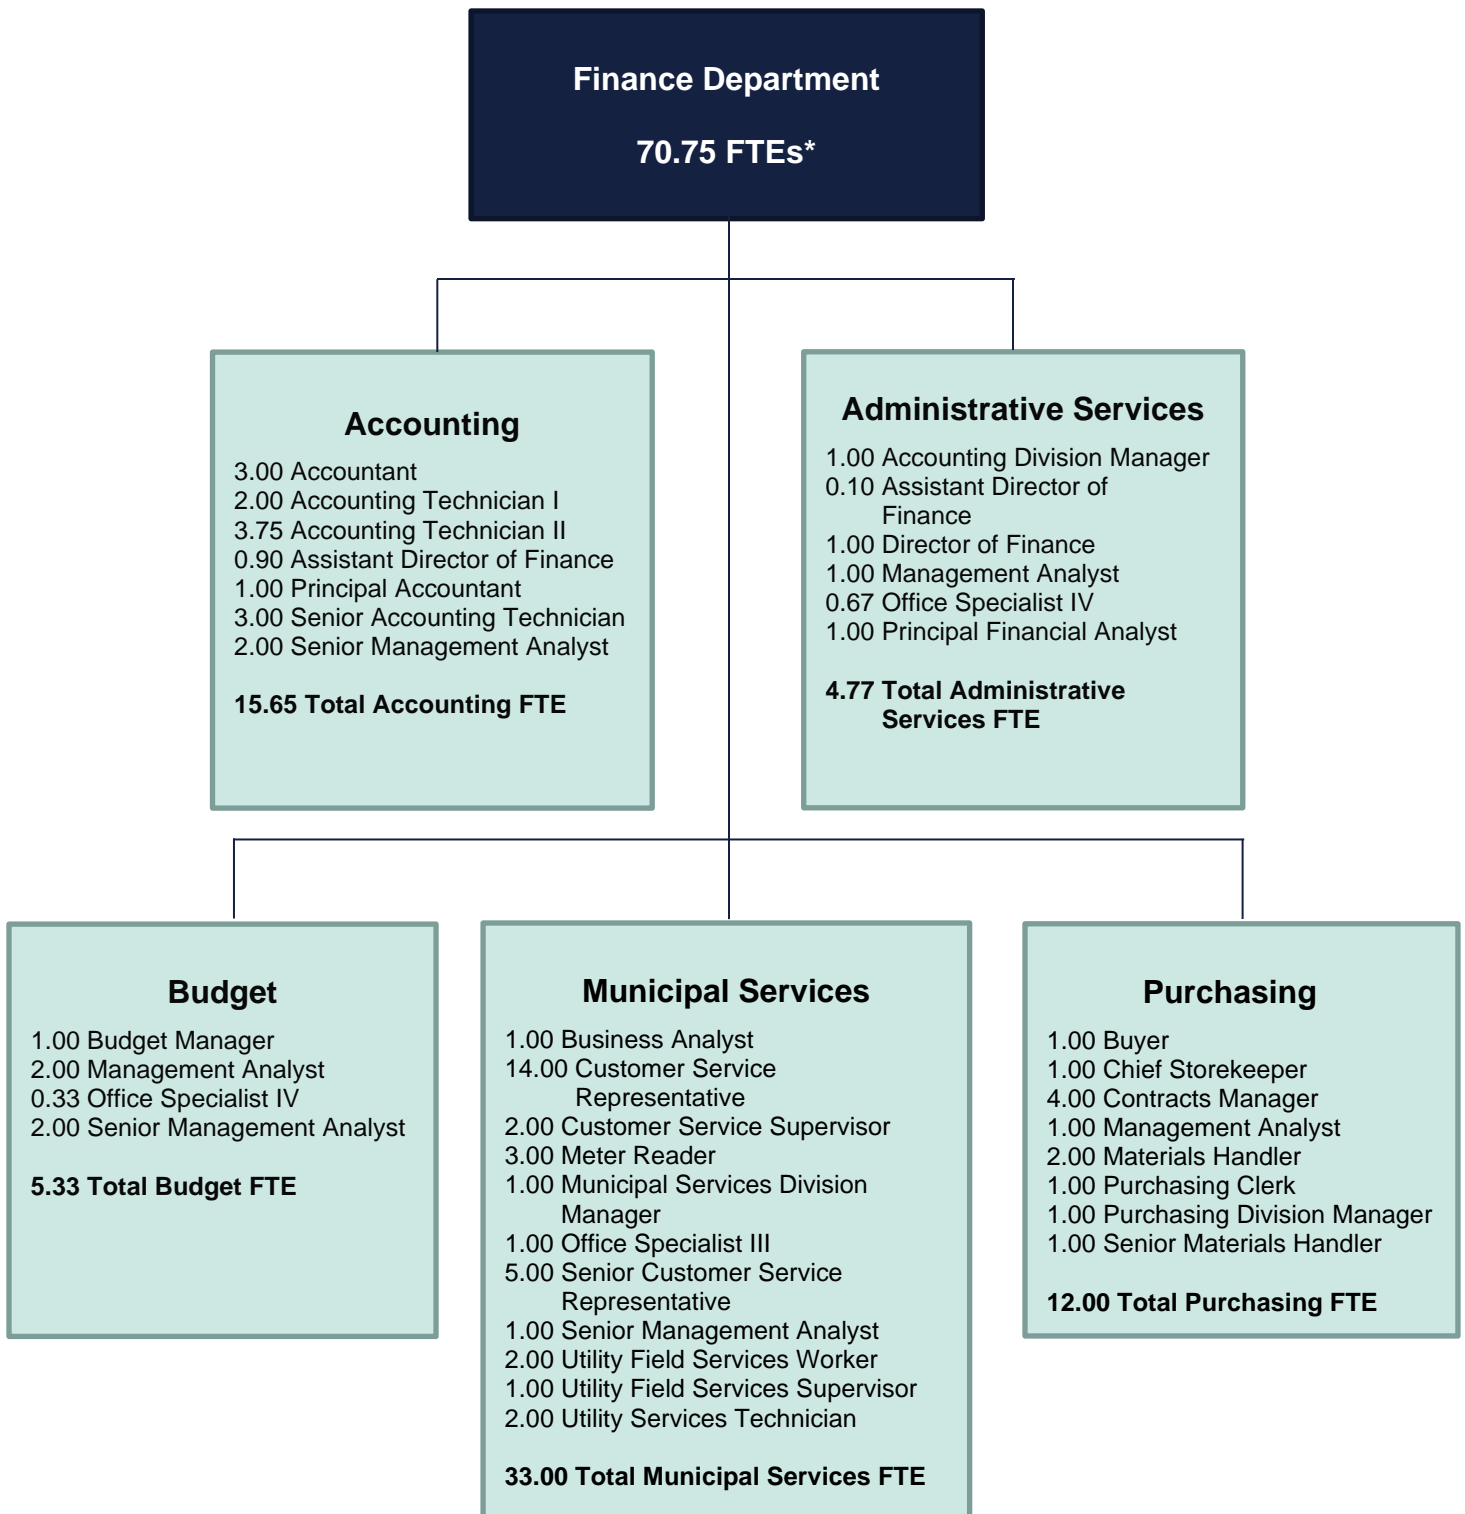

- Continue to upgrade the Finance and Human Resources Management System (FHRMS) products gain City-wide efficiencies, deliver updated reporting capabilities and features in the Accounting Division.
- Implement automation for payroll and timekeeping functions across the City and coordinate with the Human Resources Department on the automation of benefits administration.
- Update the accounts receivable and accounts payable modules in the FHRMS to provide decentralized entry and electronic approval workflows.
- Implement capital assets module in FHRMS to provide greater asset accountability.
- Conduct audits of external facilities; provide cashier training to staff in outside facilities.

- Replace end of life CORE Onestep Cashiering System.
- Implement a new online utility billing platform to enhance customers' reporting and payment capabilities.
- Implement new Business Tax Ordinance approved by voters in November 2022 and upgrade the software and customer self-service portal to support the new Business Tax Methodology.
- Develop and implement processes, administrative policies, and procedures with the goal of streamlining and improving the procurement and contracting process.
- Conduct citywide trainings on updated cash handling processes resulting from new technology.
- Continue to enhance the City's budget development practices that connect to the City Council's priorities and policy direction.
- Establish a series of on-demand purchasing training materials addressing a wide variety of topics related to procurement and contracting.
- Implement a new contracts management system to automate the process of tracking agreements.

Budget Highlights

- Reduces non-personnel funding for training and travel, printing of budget books, and supplies.

*The positions above represent all funded positions. This excludes the 1.0 Office Specialist III position that was frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402).

Program: 3315 – Budget & Financial Analysis
3322 – General Accounting
3343 – Purchasing

This proposal reduces the training and travel budgets for the Budget (\$10,000 – from \$11,096 to \$1,096) and the Accounting (\$3,000 – from \$4,813 to \$1,813) divisions. Staff would need to rely more heavily on online training opportunities versus in-person training. This reduction is expected to have minimal impacts given the shift to online training post COVID-19. This action also reduces the budget for printing budget books by \$2,000 (from \$6,208 to \$4,208). Departments have reduced the requests for printed books and are relying more heavily on the online versions. Budget will work with departments on scaling back the printed budget books. General supplies will also be reduced by \$4,000 in the Budget (\$1,000 – from \$3,247 to \$2,247), Accounting (\$1,000 – from \$17,891 to \$16,891), Purchasing (\$1,000 from \$10,912 to \$9,912), and the Municipal Services (\$43,905 to \$42,905) divisions.

Performance Impact

This proposal will have minimal impacts on service delivery.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure.

Fire Department

This page is intentionally left blank.

Fire Department Description

The Fire Department responds with highly trained and well-equipped personnel to all types of emergency incidents, maintaining a citywide response time of less than six minutes to at least 90% of all Code 3¹ emergency calls. Response time is measured from the time of dispatch to the time of arrival and includes two minutes turnout time and four minutes travel time

Divisions and Services

The Fire Department's mission is to protect and enhance the quality of life of the community. The Fire Department is organized into six divisions: Field Operations, Emergency Medical Services (EMS), Community Risk Reduction, Training, Administration, and Office of Emergency Services.

The Field Operations Division is comprised of first responders to provide emergency response to residents, visitors, and businesses within the community. The Division is made up of eight fire engines, two fire trucks, one Hazardous Materials response unit, one Rescue response unit, one Battalion Chief, and one Shift Training/Safety Officer, per shift.

The Emergency Medical Services (EMS) Division provides first responder medical services (including Advanced Life Support) to all residents and visitors within the guidelines determined by the Santa Clara County EMS Authority. Using existing fire station staffing, the division also supports limited ambulance transport while authorized under special circumstances approved by Santa Clara County Emergency Medical Services agency when the County's contractor is unable to arrive on scene and provide transport services within the contracted time. The division maintains paramedic and emergency medical technician (EMT) licensure and certifications, maintains emergency medical equipment caches, works closely with the County EMS Authority to ensure County protocols, ensures training and programs are deployed to personnel, and acts as the agency's Designated Infection Control Officer (DICO).

The Community Risk Reduction Division (CRRD) protects our community through coordinated efforts in community education and outreach, fire engineering plan review and inspection services to maintain code compliance for new construction, emergency planning, hazardous materials enforcement, code enforcement, fire and hazardous materials investigations, and vegetation management. The CRRD oversees the Certified Unified Program Agency (CUPA) program on behalf of the City of Santa Clara. The City has been certified by the Secretary of the California Environmental Protection Agency to enforce the six environmental-based code enforcement programs. The CRRD coordinates the Santa Clara County Fire Chief's Association, Youth Firesetter Prevention and Intervention Program (YFPIP). The program is a County of Santa Clara, Juvenile Court Division-recognized diversionary program that gives youth offenders throughout the County an opportunity for a second chance.

The Training Division conducts and evaluates a wide variety of activities from simulated emergency incidents to assessments and classes, to ensure Fire Department personnel are performing at the highest levels of the profession. The Division maintains documentation to support State and Federal certification programs and develops and implements local and regional response/mitigation exercises focused on large-scale community events. The Training Division also assists the Human Resources Department in developing and administering Fire Department promotional examinations.

The Administrative Division provides management, organization, and support for the various divisions of the Fire Department. The primary duties that fall under this division include budget development and management, recruitment, grant management, accounts payable and payroll processing, fire station maintenance, workers' compensation coordination, strategic management and planning, data management, emergency / non-emergency photography and data analysis. The division manages the department web page, social media outlets, federal and state grants, annual department open house, creation and management of department maps including pre-incident planning, as well as the development, management and implementation of department policies and procedures.

¹ Code 3: Immediate response using red lights and siren; Code 2: No red lights or siren—expedited response adhering to all regular traffic laws.

The City's Office of Emergency Services provides emergency services training and coordination for the City in large-scale incidents requiring Emergency Operations Center activation and is also responsible for the City's emergency preparedness activities, hazard mitigation and disaster management plans. The division coordinates with the County and the State for large scale emergency preparedness.

Field Operations Division Mission		To enhance the quality of life for the community by providing caring, community-oriented service to protect life, property, and the environment.
Division Objectives		Maintain a citywide emergency response standard to all Code 3 incidents of six minutes from time of fire crew notification to first unit's arrival on scene at least 90% of the time.
		Provide an effective response force (ERF) of 17 personnel on scene of a structure fire in less than ten minutes from dispatch of alarm, at least 90% of the time.
		Provide hazardous materials response to protect the community from hazards associated with uncontrolled release of hazardous and toxic materials and respond to technical rescue emergencies efficiently and effectively.
		Provide special event (Fire and EMS) services to Levi's Stadium and all other significant special events held in the City of Santa Clara.
Emergency Medical Services Division Mission		Deliver quality emergency medical services to citizens and visitors of Santa Clara. All Santa Clara Firefighters are certified EMTs, and all fire engines and fire trucks are staffed with at least one paramedic.
Division Objectives		Provide first responder paramedic services to at least 90% of Code 3 medical emergencies citywide within 7:59 minutes/seconds from fire crew notification (per County EMS Authority standard).
		Process medical certifications and licenses for all Fire Department personnel and monitor for compliance with State and local government regulations.
		Provide quality assurance/quality improvement processes for treatment-based EMS delivery.
		Monitor and maintain custody and security of protected health information.
		Provide high quality EMS/EMT training and equipment to all Fire Department personnel and local stakeholders, as needed.
		Manage fire department ambulance transportation of patients to hospitals on a limited basis while authorized under special circumstances approved by Santa Clara County Emergency Medical Services agency.

Community Risk Reduction Division Mission	To protect life, property, and the environment through education, engineering, enforcement, economic incentives, empowerment, and emergency response.	
	Utilize community-specific data to reduce risks and injuries through focused community education and outreach programs.	
	Perform a wide array of plan reviews and construction inspections from planning and building permits, to fire-life safety systems, hazardous materials, and special events structures.	
	Investigate intentionally set fires and unauthorized hazardous materials releases. Work collaboratively with the Santa Clara Police Department and the County District Attorney's Office on both criminal and civil prosecutions.	
	Ensure ongoing compliance through focused training in fire safety, emergency drills, state hazardous materials reporting, and many more areas.	
Division Objectives	Enforce the six environmental-based code enforcement programs as designed by California Environmental Protection Agency (CalEPA).	
	Manage the operational permits and conduct inspections of existing community businesses and facilities to ensure compliance with applicable fire, life safety, and environmental protection regulations.	
Training Division Mission	Deliver high quality education and training in public safety to the members of the Santa Clara Fire Department and to the employees and citizens of the City of Santa Clara.	
	Provide annual, semi-annual, and quarterly drills in the disciplines of firefighting, hazardous materials response, and rescue operations to members of the Fire Department to promote skill development and continuous improvement.	
	Maintain records to support State and federal training certifications required for specific disciplines.	
	Perform Respiratory Protection Program self-contained breathing apparatus (SCBA) and respirator fit testing to maintain compliance with State and federal regulations.	
	Coordinate and schedule public education programs, school site visits, station tours, and other public outreach activities.	
Division Objectives		

Administrative Division Mission	Provide management, organization and support for the various Fire Department divisions that are actively engaged in the protection of life and property.
Division Objectives	Provide the community with information on Fire Department programs and services.
	Establish the vision and mission of the Department and communicate to all Fire Department personnel.
	Provide administrative and managerial support to all Fire Department divisions.
	Coordinate with other departments in the City as needed to support City projects and programs.
Office of Emergency Services Division Mission	Create a biennial budget that meets department needs and supports Council goals and objectives.
	To prevent, prepare for, mitigate, respond to and recover from all hazards.
	Provide emergency services coordination in the City of Santa Clara Emergency Operations Center (EOC) in the event of a large-scale incident requiring activation.
	Maintain the EOC in “response-ready” condition to serve as the City’s hub for emergency management activities in support of large-scale emergencies or planned events.
Division Objectives	Engage in hazard mitigation activities with the goal of reducing or eliminating long-term risk to people and property from future disasters and identifying long-term solutions that reduce the impact of disasters in the future.

Significant Accomplishments

- Completed update to the Santa Clara Fire Department Strategic Plan, including internal and external stakeholder participation.
- Established department photography team to capture images of Fire Department emergency response and daily events and activities.
- Successfully completed firefighter recruitment campaign and firefighter recruitment process.
- Awarded the 2021 Assistance to Firefighters Grant for annual wellness exams for sworn personnel and new LUCAS automatic chest compression devices.
- Awarded the 2021 Staffing for Adequate Fire and Emergency Response (SAFER) grant that will allow for the hiring of 18 firefighters.
- Purchased Type 1 engine, utilizing Mutual Aid reimbursement funding, with expected delivery date of August 2023. The engine will replace a front-line apparatus that will be moved to the reserve apparatus fleet.
- Successful launch of the Accela platform for fire construction permitting and inspection, taking the Community Risk Reduction division (CRRD) into a fully digital permitting process.
- CRRD took over the management of the Santa Clara County Fire Chief's Association Youth Firesetter Prevention & Intervention Program.
- Record attendance and participation at the 2022 Firehouse Family Fair in honor of the National Fire Protection Association Fire Prevention Week each October.
- Awarded CUPA Forum Trust Grant for a mercury meter for the Hazardous Materials Response Team.
- Successfully promoted 17 Firefighters to Driver Engineer.
- Hosted a multi-agency State Fire Training Firefighter 1 and 2 Fire Academy, including seven recruits from Santa Clara.
- Deployed 11 new LUCAS automatic compression devices on the front-line engines, trucks and ambulance to assist responders to perform CPR more efficiently and effectively.
- Provided infrastructure and procedures to staff the fire department ambulance in order to maintain patient care while transporting the City's medical patients to local hospitals authorized under special circumstances approved by Santa Clara County Emergency Medical Services agency when the County's contractor is unable to arrive on scene and provide transport services within the contracted time.
- Partially activated Emergency Operations Center, supporting the City's response to the January 2023 Atmospheric River event and remained poised in monitor mode throughout the winter storm season.
- Provided the 6th Annual Prepare Santa Clara EOC functional exercise to EOC staff.
- Resumed EOC training activities after a pause during the COVID-19 pandemic.

Significant Objectives

- Improve workflow and efficiencies with administrative staffing.
- Ensure policy and procedures are current and up to date.
- Continue to advance Fire Department initiatives in Inclusion, Diversity and Equity through community outreach, firefighter recruitment and public relations.
- Manage hiring and reimbursement process for the SAFER grant award.
- Maintain CalOES Type 2 certification for Hazardous Materials and Urban Search and Rescue.
- Obtain and integrate a live, find, search canine into operations capabilities in partnership with California Task Force 3; fully funded by FEMA and the National Disaster Search Dog Foundation.
- Complete the HdL transition to Accela for operational permit inspections in order to have a single database for Fire development and annual operational permits, which will provide real-time data for inspectors and emergency responders.
- Explore the implementation of the National Fire Protection Association CRAIG 1300 system. The program is used to collect community incident data effectively, and better enable the Department to identify, assess and share local demographic, geographic, and economic needs in developing community risk reduction programs.
- Expand the Firefighters in Safety Education (FISE) program to provide more classes to public and private schools in the community.
- Integrate data system with State CERS Next Gen Project in 2025.
- Host a State Fire Training Firefighter 1 and 2 Fire Academy for Santa Clara Recruit Firefighters hired under the SAFER grant award.
- Improve Fire and Life Safety Inspection documentation for Field Operations personnel.
- Develop training to ensure personnel are prepared for evolving building trends in City, including high-rise emergency drills for all Field Operations personnel.
- Staff Fire Department ambulance with existing fire station personnel while Santa Clara County is operating under Standard Dispatch Order 3, giving fire agencies the authority to provide transportation within the County.
- Lead a citywide Multi-Jurisdictional Hazard Mitigation Plan update project, in collaboration with the County and jurisdictional partners and stakeholders, to enable the City to apply for hazard mitigation grants, complete mitigation projects, and maintain the Federal Emergency Management Agency's (FEMA) Community Rating System (CRS) points.
- Continue implementing a training program for City EOC staff with regular trainings such as the Annual Prepare Santa Clara full-scale or functional exercise.
- Adopt a suicide prevention policy compatible with the Santa Clara County Suicide Prevention Strategic Plan.
- Reinvigorate the Community Emergency Response Team (CERT) program after a pause during the COVID-19 emergency response.

Budget Highlights

- The Proposed Budget incorporates budget actions related to the three-year SAFER grant award that generates General Fund savings:
 - Reduce the overtime budget to account for minimum staffing overtime savings generated through the SAFER grant award.
 - Establish General Fund transfers to the Fire Operating Grant Trust Fund where the SAFER positions are budgeted to subsidize the remainder of the staffing costs that were not covered by the SAFER Grant.
 - Increase the materials/services/supplies budget to fund the costs of the Fire Academy and other onboarding costs related to the SAFER grant-funded positions.

*The positions above represent all funded positions. This excludes the 2.0 FTEs that were originally funded by Related but are frozen beginning FY 2023/24 based on discussions with Related: 1.0 Deputy Fire Marshal II and 1.0 Fire Protection Engineer.

Program: 7822 – Field Operations

This proposal reflects changes associated with the Staffing for Adequate Fire and Emergency Response (SAFER) grant, a three-year \$11.3 million grant. The grant will partially fund 18 firefighter positions, which includes unfreezing 12 positions and adding 6 new positions as approved by the City Council on February 7, 2023 (RTC 23-170), with the remaining position costs covered by the General Fund (\$626,000 in FY 2023/24 and \$770,000 in FY 2024/25). The positions will provide additional relief to help maintain daily minimum staffing of emergency response apparatus and reduce overtime due to absences caused by vacation, sick and disability leaves. The \$1.66 million net reduction in FY 2023/24 includes a \$1.88 million overtime budget reduction to reflect six months of overtime savings after the firefighter positions are fully onboarded and a one-time increase of \$221,000 in the materials, services and supplies budget for Fire Academy and other onboarding costs. The \$3.82 million net reduction in FY 2024/25 includes a \$3.84 overtime budget reduction to reflect a full year of overtime savings and a one-time budget increase of \$15,000 for training and certification costs.

Performance Impact

The additional staffing will provide the personnel needed to maintain the current daily staffing for emergency response throughout the City, while also reducing the number of personnel on overtime each day. In turn, the reduction in overtime to meet minimum daily staffing is expected to decrease the number of absences caused by sick and disability leaves for Field Operations personnel. The additional firefighters will also provide the opportunity to improve the department's overall emergency response by evaluating staffing models that will improve compliance with NFPA 1710 staffing standards.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Performance and Workload Measures

Field Operations Division							
Performance Measures							
	Strategic Pillar	2020/21 Actual	2021/22 Actual	2022/23 Target	2022/23 Estimate	2023/24 Target	2024/25 Target
Response time of first in unit in 90% of all Code 3 emergency calls ¹		4:36 min	5:39 min	6:00 min	04:50 min	6:00 min	6:00 min
Response time of Effective Response Force (ERF) ¹ of 17 personnel to a first alarm structure fire in 90% of emergency calls ²		08:09 min	10:33 min	10:00 min	09:14 min	10:00 min	10:00 min
Percentage of fires contained to room of origin		86%	63%	75%	63%	75%	75%
Workload Measures							
Fire and life safety inspections for regular businesses completed by Field Operations Division		229	2,763	4,000	2,500	2,800	2,900
Number of calls for service		8,853	9,603	9,000	10,698	9,000	9,000
Number of hours contributed by the Volunteer/Reserve Program		2,500	5,000	5,000	2,500	5,000	5,000

¹ Code 3: Immediate response using red lights and siren; Code 2: No red lights or siren—expedited response adhering to all regular traffic laws.

² The Effective Response Force for first alarm assignment to a structure fire is the number of firefighters, apparatus, and response times needed to perform the required critical tasks.

Human Resources Department

This page is intentionally left blank.

Human Resources Department Description

The Human Resources (HR) Department is responsible for several areas: Benefits, Recruitment, Classification and Compensation, Employee and Labor Relations, Equal Employment Opportunity, Workers Compensation/Safety, and Employee Development.

The Department manages a variety of employee benefits, including health, dental, vision and retirement benefit programs, life insurance, Flexible Spending Accounts, VEBA, Retiree Medical Reimbursement Program, and a City Employee Assistance Program. The Department is also responsible for providing state-mandated benefits for employees injured on the job.

HR integrates job analyses into the selection process for each vacant position to ensure the accuracy of job specifications and the validity of examinations. Considerable time, labor, and expense are involved with each recruitment, especially for public safety positions where the process includes large pools of applicants, written exams, performance exams, and oral exams in addition to polygraph, psychological, comprehensive medical exams, and background investigations.

The Director of Human Resources (HR) is delegated as the Municipal Employee Relations Officer (MERO). The Employee Relations function is a direct function of the City Manager's Office that is delegated to the Director of HR. Employee Relations includes negotiating with Bargaining Units and Labor Unions to negotiate successor Memoranda of Understanding (MOU's) for each of the 10 specific represented groups, as well as receiving and reviewing grievances filed by employees or unions.

The City's Equal Employment Opportunity (EEO) Officer is responsible for oversight of equal employment opportunity laws. The EEO Officer reviews, investigates and/or oversees investigations of complaints filed by applicants or employees alleging discrimination or hostile work environment, including sexual harassment. The City has zero tolerance policy on discrimination and harassment. HR will continue to investigate and resolve grievances and discrimination complaints in accordance with federal and State laws, City policies, and in close coordination with the City Attorney's Office.

The City strives to work on best practices related to safety, including proper ergonomics. We encourage all departments to invest in their staff, specifically related to occupational safety.

HR provides State-mandated harassment prevention training for all regular City employees and offers training programs in areas such as supervision, employment law, and other areas of interest.

Divisions and Services

The Human Resources Department is organized into two Divisions: 1) Employee Benefits and Records and 2) Recruitment, Classification, and Staff Development.

Employee Benefits and Records Division Mission	Provide quality service to employees and retirees in the responsible, cost efficient development and administration of City compensation, benefits, and related programs.
Division Objectives	Administer current Memoranda of Understanding (MOU) with the City's ten bargaining groups. Represent the City in various labor relation issues and negotiate, in collaboration with internal and external counsel, on wages, hours, and other terms and conditions of employment.
	Administer benefits for City employees.
	Manage employee relations matters for the City; advise and assist departments with grievance resolution and disciplinary action.
	Strive to ensure equal employment opportunity and provide a work environment free of discrimination and harassment.
	Manage benefit programs for employees, retiree medical reimbursement programs, and process retirements.
Recruitment, Classification, and Staff Development Division Mission	Provide centralized hiring services by developing and administering City recruitment and selection processes; administer and update the City's Classification Plan; and promote the advancement of ethical and sound human resources policies and practices in accordance with Civil Service Rules and Regulations, federal and State guidelines and industry standards.
	Develop and implement valid selection examinations designed to select and promote the most qualified candidates.
Division Objectives	Ensure that positions are properly classified, described, and aligned to support the organizations' effectiveness and efficiency.
	Manage recruitment, assessment, and hiring processes to meet the City's staffing needs. Review, streamline, and update human resources policies and procedures to improve efficiency and reflect current employment laws and industry best practices.
	Make available to the public and employees employment information such as job opportunity announcements, job descriptions and salary and benefit data.
	Provide training and development for employees City-wide to develop essential skills like analysis and reporting, leadership, customer service, and public presentations.
Division Objectives	Provide coordination and delivery of emergency services and recovery activities in response to the COVID-19 pandemic.

Significant Accomplishments

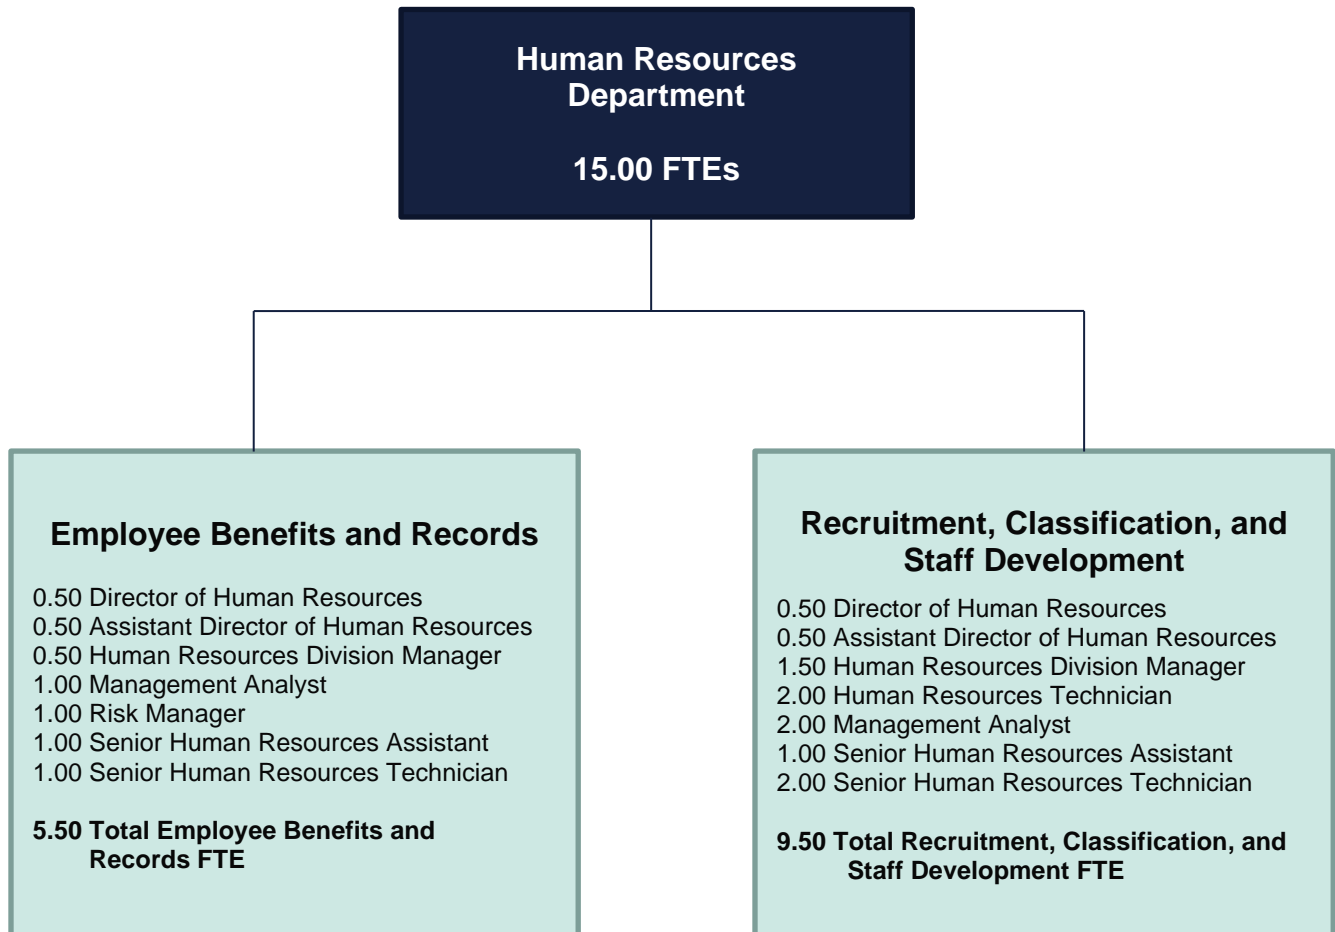

- Due to the COVID-19 pandemic, the Human Resources Department continued to promptly develop and implement various programs and policies including, but not limited to, COVID-19 safety training; leaves mandated by State and federal laws; FAQs; COVID-19 Prevention Program; management of all COVID-19 employee-related matters and cases, including mandated reporting requirements; and city-wide safety protocol measures in compliance with State and local orders. The HR Department was also the primary distributor of Personal Protective Equipment (PPE) to City Departments and staff.
- Created and converted Human Resources forms to fillable forms for efficiency.
- Transitioned from paper-copy to electronic employee personnel and benefits records, including moving to electronic submission of documents for the annual Benefits Open Enrollment, utilizing the City's Laserfische system.
- Since 2022, reached successor Memoranda of Understanding agreements with seven of the City's bargaining units, including side letter agreements with two bargaining units.
- Implemented a learning and training management system, Vector Solutions, which offers many courses of various topics, for employees city-wide.
- Provided supervisory and non-supervisory harassment/discrimination online mandated training.
- Supported approximately 1,625 regular and as-needed employees in regard to benefits, wage adjustments, workers' compensation, leaves and retirements.
- Performed full-cycle recruitment, including classification studies, and appointed/promoted 115 regular employees during the last two fiscal years.

Significant Objectives

- Conduct recruitments and manage effective, efficient, and defensible hiring processes to attract and retain qualified employees.
- Continue negotiations with Bargaining Units.
- Develop additional supervisory training opportunities for current employees.
- Maintain the Sexual Harassment Prevention State Mandated training for all City employees, including the training of Elected Officials and City Commission and Committee members.
- Work closely with the Finance Department to analyze and implement best practices in implementation, control, and audit of pay and benefit entries.
- Review and update various citywide policies, including the Employer-Employee Relations Resolution, the Personnel and Salary Resolution, and various City Manager Directives and coordinate these updated policies with each bargaining unit for implementation.

Budget Highlights

- The Proposed Budget includes the following budget reductions to help address the General Fund shortfall:
 - Eliminate 1.0 Office Specialist IV position in the Employee Records and Benefits Division
 - Freeze the City of Santa Clara Leadership Program for two-years
 - Eliminate non-personnel funding for Police pre-employment testing (funding is included in the Police Department budget)

Eliminate 1.0 Vacant Office Specialist IV	(1.00)	0	(136,017)	0	(145,243)

Program: 2514 – Records and Compensation

This action eliminates 1.0 vacant Office Specialist IV position in the Records and Compensation program. This position is primarily responsible for providing general office and administrative support, along with coordination of the Civil Service Commission and Salary Setting Commission.

Performance Impact

The general office and administrative support workload would be absorbed by other staff. The day-to-day office and clerical duties have been absorbed by all the existing staff. Staff has been cross trained on the various duties that have been reassigned. The support for the two Commissions is absorbed by Senior Human Resources Technicians and Human Resources Technicians on a rotational schedule, who have been cross trained to support coordination of both Commissions.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Freeze City of Santa Clara Leadership Academy for Two Years		(40,545)	0	(41,356)	0

Program: 2521 – Selection and Classification

Leadership Santa Clara is a four-month program that is available to City of Santa Clara residents and managed by the City of Santa Clara. The City holds an application period, in which primarily residents (35-50) and City employees (2-4) may apply and be selected to participate in the program. The focus of the program is preparing residents for leadership roles in the community. Topics include the following: Santa Clara's Past, Present and Future; Governance (federal, state, and local including City board and commissions); Public Services; Media's Impact on Silicon Valley; Business Climate; Transportation; Arts & Culture; Community Diversity; Environment; Health Care; Human/Community Services; and Volunteerism.

Due to the COVID-19 pandemic, this program was frozen in FY 2021/22 and FY 2022/23. Given the City's fiscal situation, this proposal continues to freeze the program for FY 2023/24 and FY 2024/25.

Performance Impact

There is no impact, as this program has been suspended for the last two fiscal years.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Eliminate Background Examination Funding		0	(38,000)	0	(38,760)

Program: 2521 – Selection and Classification

This action eliminates non-personnel funding of \$38,000 for Police background examinations. Candidates that move forward in the recruitment process and receive a conditional offer of employment are required to complete several examinations. The cost of these exams will be shifted to the Police Department, as they handle the background process. This is consistent with the Fire Department. The Human Resources Department separately pays for the cost of fingerprinting.

Performance Impact

There is no impact anticipated as a result of this reduction.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Information Technology Department

This page is intentionally left blank.

Information Technology Department Description

The Information Technology Department (ITD) strives to provide superb affordable services and be the partner of choice for City information technology initiatives to improve the quality of life and strengthen the community through technology and innovation.

The award-winning ITD provides a full range of IT services through its Enterprise Services, Infrastructure and Support, Telecommunication Services and Contract Services Divisions, providing help desk, desk side support, data center and network management, cybersecurity, application consulting and support, training, technology project/program management and Geographic Information Service (GIS) capabilities.

Focus areas include:

- Improve government services - efficient, effective, & transparent
- Enable self-service - anytime, anywhere, access to government digital citizen centric services, customer request management
- Enhance citizen engagement and community participation
- Assist City departments with their IT business requirements in support of delivering city services
- Maintain Project and Portfolio Management practices to ensure successful implementation of technology projects
- Maintain and strengthen the City's enterprise-wide technology infrastructure in support of City departments
- Protect and strengthen the City network and information security capabilities
- Cybersecurity risk mitigation & compliance
- Manage IT vendors to control costs, drive service excellence, and mitigate risks to gain increased value throughout the product lifecycle

Divisions and Services

The IT Department is organized into four Divisions: Enterprise Services; Infrastructure and Support; Contract Services; and Telecommunication Services.

Enterprise Services Division Mission

To plan and implement applications leveraging technology to enhance citywide and departmental capabilities. Maintain a high availability digital presence providing relevant information and quality on-line services to the residents and businesses of Santa Clara. Empower City employees to effectively serve the public using digital technologies.

Division Objectives

Provide application support for mission and business critical departmental applications. Manage business process improvements and vendor compliance updates. Maintain an Application Portfolio Management System and Enterprise Roadmap to provide for better planning. Work with department business owners to rationalize and modernize the current applications in line with City goals and objectives, plan for enhancements and upgrades to provide greater functionality and business value for city applications.

Manage the City's websites, providing timely updates to citizens through the use of the City's expanding digital presence. Ensure equal access to the City website for people with disabilities by providing websites that comply with accessibility requirements.

Provide enhanced support for business applications used within the City driven by a Structured Project Methodology and Project Management Office.

Through GIS data, provide trustworthy operational information, organized by location, and delivered in a timely manner to decision-makers for both tactical and strategic planning efficiency.

Infrastructure and Support Division Mission

Provide a reliable and secure citywide computing infrastructure to enable departments to accomplish business goals and provide City services and information to the community.

Division Objectives

Provide services to ensure the reliability, continuity, and sustainability of network, server, storage, and desktop systems.

Maintain, support, and enhance the City's enterprise-wide technology infrastructure in support of City departments.

Enable business continuity and delivery of essential services through remote workplace capabilities

Ensure security and strengthen the reliability of the internal City systems and network.

**Contract Services
Division Mission**

To provide superb professional, responsive, and cost-effective information technology services to the City.

Manage the City technology contracts to ensure the adherence to scope and deliverables.

Division Objectives

Implement information technology best practices and drive operational and continuous improvements with our technology providers.

Provide governance and oversight for the City technology vendors to ensure performance meets/exceeds contractual obligations. Ensure remediation plans are developed and adhered to as needed.

**Telecommunication
Services
Division Mission**

Provide support for general communications services for City staff, including telephony services, mobile, wireless communications, and cable services.

Provide and maintain high quality telephony and mobile services to all City staff and departments. Assist in the planning and implementation of telecommunications services at City facilities.

Division Objectives

Review and process billing for all telecommunication services.

Provide cable franchise oversight and monitoring.

Significant Accomplishments

- The City has a robust application portfolio of 160 line-of-business applications that are core to City operations and delivering services to the public. The Department implemented, upgraded, or replaced approximately 20 applications in 2022.
- Supported the Finance Department to transition the City's general banking to JPMorgan Chase.
- Implemented asset management for Storm Drain, Traffic Signs and Trees to improve reliability of assets, regulatory compliance, and decision-making capabilities.
- Deployed a mobile application for the public for the 40th Anniversary of the Santa Clara Art & Wine Festival.
- Deployed Speak Up Santa Clara enabling employees to report incidents about workplace issues.
- Continued expansion of the Document Management System and digitization of City records.
- Improved City Website Search functionality.
- Upgraded the VOIP telephone system for enhanced security and cost savings.
- Replaced the end-of-life Field Collection system (Utility Meter Reading) resulting in saving staff time, ease of access and flexibility.
- Enhanced Audio/Visual capabilities throughout the City for improved citizen engagement and collaboration.
- Enterprise GIS accomplishments include:
 - Overhaul of the Enterprise GIS Infrastructure.
 - City of Santa Clara's streets tree inventory mapping close to 18,000 trees.
 - Integration with Enterprise Asset Management for traffic signs, city trees and storm drains.
 - Mapping of recent Parks & Recreation facilities added to the City.
- Improved the maturity of the City's cybersecurity posture, safeguarding resident and City sensitive data.

Significant Objectives

- Application Modernization: Support citywide and departmental business process transformation, system replacements and upgrades – Utility Billing Customer Self Service Portal, Utility Billing Customer Information System, Records Management, Financials and HR Management System, Work Order Management.
- Implementation of updated Business License Tax system.
- Public Safety Dispatchers rely on the fire station alerting system to notify and alert fire stations. This project replaces a 20-year-old system that is end-of-life.
- Improve search experience on City websites.
- Enterprise GIS: work plan for the year includes projects to further citizen engagement, decision making, and effective infrastructure information lifecycle management. An integration with the sewer video inspection system is underway, an update of the Water & Sewer Block books as well as plans to update Parks & Recreation assets to bring them current and make parcel information available on InfoMap on the City website.
- Improve collaboration capabilities by leveraging technologies such as the Microsoft 365 platform to enable anytime, anywhere access to City systems and resources.
- Technology Infrastructure: Architect and replace aging technology infrastructure in a strategic and phased manner in support of increased digital, mobile and cloud solutions for anytime, anywhere device access in a secure manner.

- Enhance technology capabilities in the City Parks and Recreation facilities for improved user experience.
- Cybersecurity and Risk Mitigation: Strengthen the City's cybersecurity posture by providing a proactive defense against threats via intrusion prevention/detection systems and security information and event management systems and response protocols.
- Enhance Audio/Visual capabilities throughout the City for improved Civic engagement, collaboration and staff productivity.

Budget Highlights

- Ongoing budget reductions to help address the General Fund shortfall:
 - IT Services contract reductions related to the Cost-of-Living Adjustment.
 - Reduction in utilities expense to reflect efficiencies gained through telephone upgrades.

Reduction in Information Technology Services Contract (COLA)	0.00	0	(192,000)	0	(195,840)

Program: 1931 – Contract Services

The Information Technology Department contracts with Unisys to provide the City with various information technology services. This contract includes cost-of-living adjustments (COLA) based on the CPI; however, the contract also includes language allowing the City to revisit to COLA should the City be met with budget constraints. In the current environment, ITD has reached out to Unisys to discuss the annual COLA increase, which is estimated to be \$384,000. Unisys, in good faith, has agreed to waive 50% of the COLA, resulting in a General Fund reduction of approximately \$132,320 and other funds reduction of \$59,680.

Performance Impact

The Department does not anticipate any impact to service delivery.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Reduction in Telecommunications Utilities Budget	0.00	0	(100,000)	0	(102,000)

Program: 1941 – Telecom Services

This proposal reduces the Information Technology Department's telecom utilities budget by \$100,000, from \$526,436 to \$426,436. This reduction will result in \$71,000 in savings to the General Fund and \$29,000 in savings in all other funds.

Performance Impact

The Department anticipates no service level impacts as this reduction reflects savings that can be recognized with the optimization of the City's telephony program.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Library Department

This page is intentionally left blank.

Library Department Description

The Santa Clara City Library has positioned itself as a dynamic community hub, providing access to information, literacy resources, educational programming, and civic engagement opportunities for the Santa Clara community. The Library advances the Council's Priorities by delivering high quality, efficient services in the following core areas:

- **Collections** – Provides a relevant physical and digital collection of books, movies, music, magazines and research tools for a diverse community with wide-ranging interests and needs.
- **Technology and Information Access** – Introduces and provides access to technologies that support community innovation, employment opportunities, entrepreneurship and bridges the digital divide.
- **Literacy and English as a Second Language (ESL)** – Provides high quality adult and family literacy instruction and access to English as a Second Language support and resources.
- **Programming** – Delivers high impact programming that supports early literacy through story times and other pre-school age events. Offers teen and young adult activities that promote youth development and engagement. Provides cultural enrichment and promotes inclusion via outreach and programs for new immigrants. Supports community engagement, well-being, health and lifelong learning through educational programming and services such as State Park Passes for free check-out, free technology resources, local history and genealogy collection, and sustainable practices with the Seed Exchange Library and tool lending program.
- **Community Partnerships** – Pursues innovative partnerships with City departments, local educational institutions, local businesses and non-profits to enhance service delivery that promote reading, literacy and community building.
- **Facilities** – Maintains buildings that are a source of civic pride, provide opportunities for placemaking, encourages community engagement and provide a clean, safe and welcoming place to study, learn and connect.

Divisions and Services

The Library Department is organized into seven Divisions: Administration, Adult Services, Branch Services, Customer Services, Facilities, Technical and Technology Services and Youth Services.

Administration Division Mission	Plans, directs, organizes, and manages the Library Department educational and recreational activities for the Santa Clara community; provides staff support for the Department's central and administrative services.
Division Objectives	Manages the operational oversight of the Santa Clara City Library system including strategic planning, budgeting, personnel, facility management and community relations. Also provides support to the Library Board of Trustees and serves as liaison to the Santa Clara Library Foundation and Friends.
	Identifies and implements creative solutions to ensure access to technology to bridge the digital divide and enhance service delivery to library patrons.
	Establishes partnerships with community organizations to leverage resources and ensure a diverse portfolio of library programs and services.
	Collaborates with internal and external stakeholders in the implementation of programs that advance the City Council's Priorities through a strategic planning process.
	Provides strategic leadership on the development of new library facilities and necessary improvements to ensure clean, safe and welcoming facilities.

**Adult Services
Division Mission**

Provides information, research, and reader advisory services through effective reference and information delivery systems; select, evaluate, and deselect Library materials for adults, including books, periodicals, audio-visual materials, and materials in electronic formats; provide special programs, collections, and services, such as the local history genealogy collection, classes and workshops on new technologies, and the delivery of library materials to homebound residents.

Provides effective and efficient reference and reader advisory services for adults as well as technical assistance in the use of Library resources and technologies.

Division Objectives

Selects and curates the Library's extensive collection of print, media and digital resources as well as develops and implements programming for adults to support lifelong learning and community engagement.

Delivers programs and services that promote literacy including Career Online High School, the READ Santa Clara Program and English as a Second Language programs.

Maintains and supports the development of the City's local history and genealogy collection.

**Branch Services
Division Mission**

Provides access to collections, programs and space to distinct neighborhoods and communities throughout the City.

Provides relevant physical and digital collections of books, movies and music that appeal to diverse users.

Creates community through popular, informative and cultural programming that engenders lifelong learning.

Division Objectives

Drives economic and entrepreneurial growth by offering free Wi-Fi, computers and group study rooms.

Provides Bookmobile service to outlying, underserved and corporate communities where they work, play, create, learn and live regardless of physical, economic, social and geographic barriers.

Provides clean and safe facilities that enhance the neighborhood

Customer Services Division Mission	Provides and manages procedures for the circulation of Library materials with an emphasis on customer-centered services, including circulation of materials, reserves, patron registration, shelf maintenance and collection of fines and fees. Provide and manage general patron advisory, referral and assistance.
	Develops systems to ensure the timely and effective circulation of Library materials and resources.
	Acts as the initial point of contact for patron inquiries, aids in-person, delivers customer service via telephone and online on issues related to library accounts, circulation of materials and the availability of resources. Processes financial transactions related to patrons' use of materials.
	Coordinates the activities of the Interlibrary Loan and Link+ programs which allow patrons to secure materials from a consortium of academic and public libraries.
	Maintains the orderliness of the Library's collections by ensuring timely and efficient sorting, shelving and retrieval of materials for circulation.
Division Objectives	Provides logistical and operational support for special events and library programs.
Facilities Division Mission	Manages Library facilities to maintain safe, accessible and functional facilities for all Library visitors.
	Develops and manages contracts related to the safety and security of the Library's three physical locations: Central Library, Northside Branch Library and Mission Branch Library.
Division Objectives	Coordinates capital improvements and building maintenance activities with other departments.
	Facilitates the use of the Library's facilities by outside partners such as the Registrar of Voters and the County of Santa Clara for approved civic-related activities.
Technical and Technology Services Division Mission	Manages the acquisition, cataloging, processing, and repair of all types of library materials and the organization of these materials into collections for the use of library customers. Manages operations and systems which support Library services, provide access to Library collections, electronic resources, and information sources beyond the Library, by utilizing current technologies for the benefit of the community and the delivery of customer-centered services.
	Implements cost-savings benefits by purchasing pre-processed Library materials.
Division Objectives	Purchases and processes new library materials for delivery to customers in a timely fashion.
	Synchronizes Library data with other City departments for procurement and maintaining data and statistics.
	Sets up and maintains all public and staff computers and hardware, including workstations, laptops and printers throughout the Library system.
	Implements new library software and upgrades to existing applications to maintain functionality and security.
	Designs and supports technology-based programming.
	Designs, updates, and maintains content for Library website.

**Youth Services
Division Mission**

Provides relevant materials, programming, and services for children, young adults, and their families to support youth development and lifelong learning. Provides the Santa Clara community with opportunities to serve the City and the Library through volunteer activities.

Division Objectives

Supports the role of parents as their child's first and most important teacher through collections, programs, and resources; targeted to children ages 0 to 5.

Recognizes and honors Santa Clara's diverse community through programming multilingual story times and improved foreign language and bilingual collections for children and their families.

Provides equitable and high-quality programming, reference and reader's advisory services for all children and teens.

Publicizes the Library's resources, services and programs to elementary, middle and high schools within the City of Santa Clara, and positions the Library as a community educational partner.

Significant Accomplishments

- Held Comic Con 2022 at the Central Park Library Branch, hosting approximately 6,000 visitors and featuring multiple panels, cosplayers, games and contests; rated 4.68 out of 5 stars by attendees.
- Held 495 library programs across all age groups, with 26,351 people attending.
- Read Santa Clara provided 3,418 hours of free literacy instruction to 82 adult learners, enabling 77% of them to achieve the goals they had set as family members, workers, community members and lifelong learners.
- Implemented a new Homework Help Center with \$89,551 in grant funding from the California State Library. The program, Stronger Together: Teens Lead and Learn supported school children in Grades 2-6, while teens gained first job tutoring experience, with 12-15 families regularly seeking help.
- Published all Summer Reading program materials in both English and Spanish and distributed to all Santa Clara Unified School District students. A total of 2,884 participants read a total of 69,885 hours, with 99% of survey participants indicating they were encouraged to read more over the summer, and every participating child selecting a new book to take home at the end of the summer.
- Transitioned from mostly virtual programming during COVID-19 closures to in-person and hybrid programming in response to changing community needs, with many patrons cheering and clapping at the resuming of in-person programs and expressing how much they missed the library.
- Drew over 1,600 attendees for the Storytimes program every month.
- Provided Dial-a-Story 24/7 virtual programming, featuring weekly stories in English and Spanish, used 680 times since April 2022.
- Championed intellectual freedom and diversity, equity and inclusion in the community, both in collection development and programming, which included: hosting the traveling exhibit “Coming Out: 50 Years of Queer Resistance and Resilience in Silicon Valley;” creating a “We Welcome All” poster to display at all branches in nine languages; Ramadan story times and crafting activities; Pride story times and displays to celebrate Pride Month, Juneteenth, and Asian Pacific Heritage Month.
- Added \$100,000 worth of materials to the Chinese, Spanish, Hindi, Korean, Vietnamese and Persian collections.
- Created State Parks Pass collection used by the public nearly 700 times, pairable with hiking poles, bear canisters and hiking backpacks, to encourage community outdoor adventures.
- Reached out to local groups and seed sellers to support the Seed Share seed library, increasing the collection by over 15 varieties of flowers and vegetables, including seeds from Asian and Indian cuisines.
- Added a Lucky Day collection to the e-books platform, providing no wait for 231 of the most popular titles, which has been used over 1,900 times.
- Added 15 Early Literacy Kits designed to help children ages 3-5 prepare for Kindergarten readiness, which were checked out 76 times between September 2022 and March 2023.
- Developed a Technology Plan to upgrade existing technology, facilitate increased and improved public access, and plan for the next five years of anticipated technological needs and priorities.
- Obtained 90 updated public access computers to improve technological services to the public. Obtained 11 Chromebooks with hotspots for checkout. Replaced 30 public PC catalogs with Google Chromeboxes, providing both updated technology as well as \$16,000 in savings. Provided skilled Tech Help services in addition to upgraded technology, fostering digital equity in the community.
- Maintained and stabilized Open to the Public hours from 24 hours per week to 88 hours per week across all facilities and the Bookmobile.
- Obtained multiple grants with assistance from the Santa Clara City Library Foundation and Friends to support public programming, including the Kaiser ‘Healthy Me, Healthy You’ grant, the California State Library ‘Lunch at the Library’ grant to support outreach to community members seeking food assistance, \$91,766 in California Library Literacy

Services grant funding for Adult and Family Literacy, and \$55,500 in California Library Literacy Services funding for ESL programming to serve adults with very limited English-speaking skills.

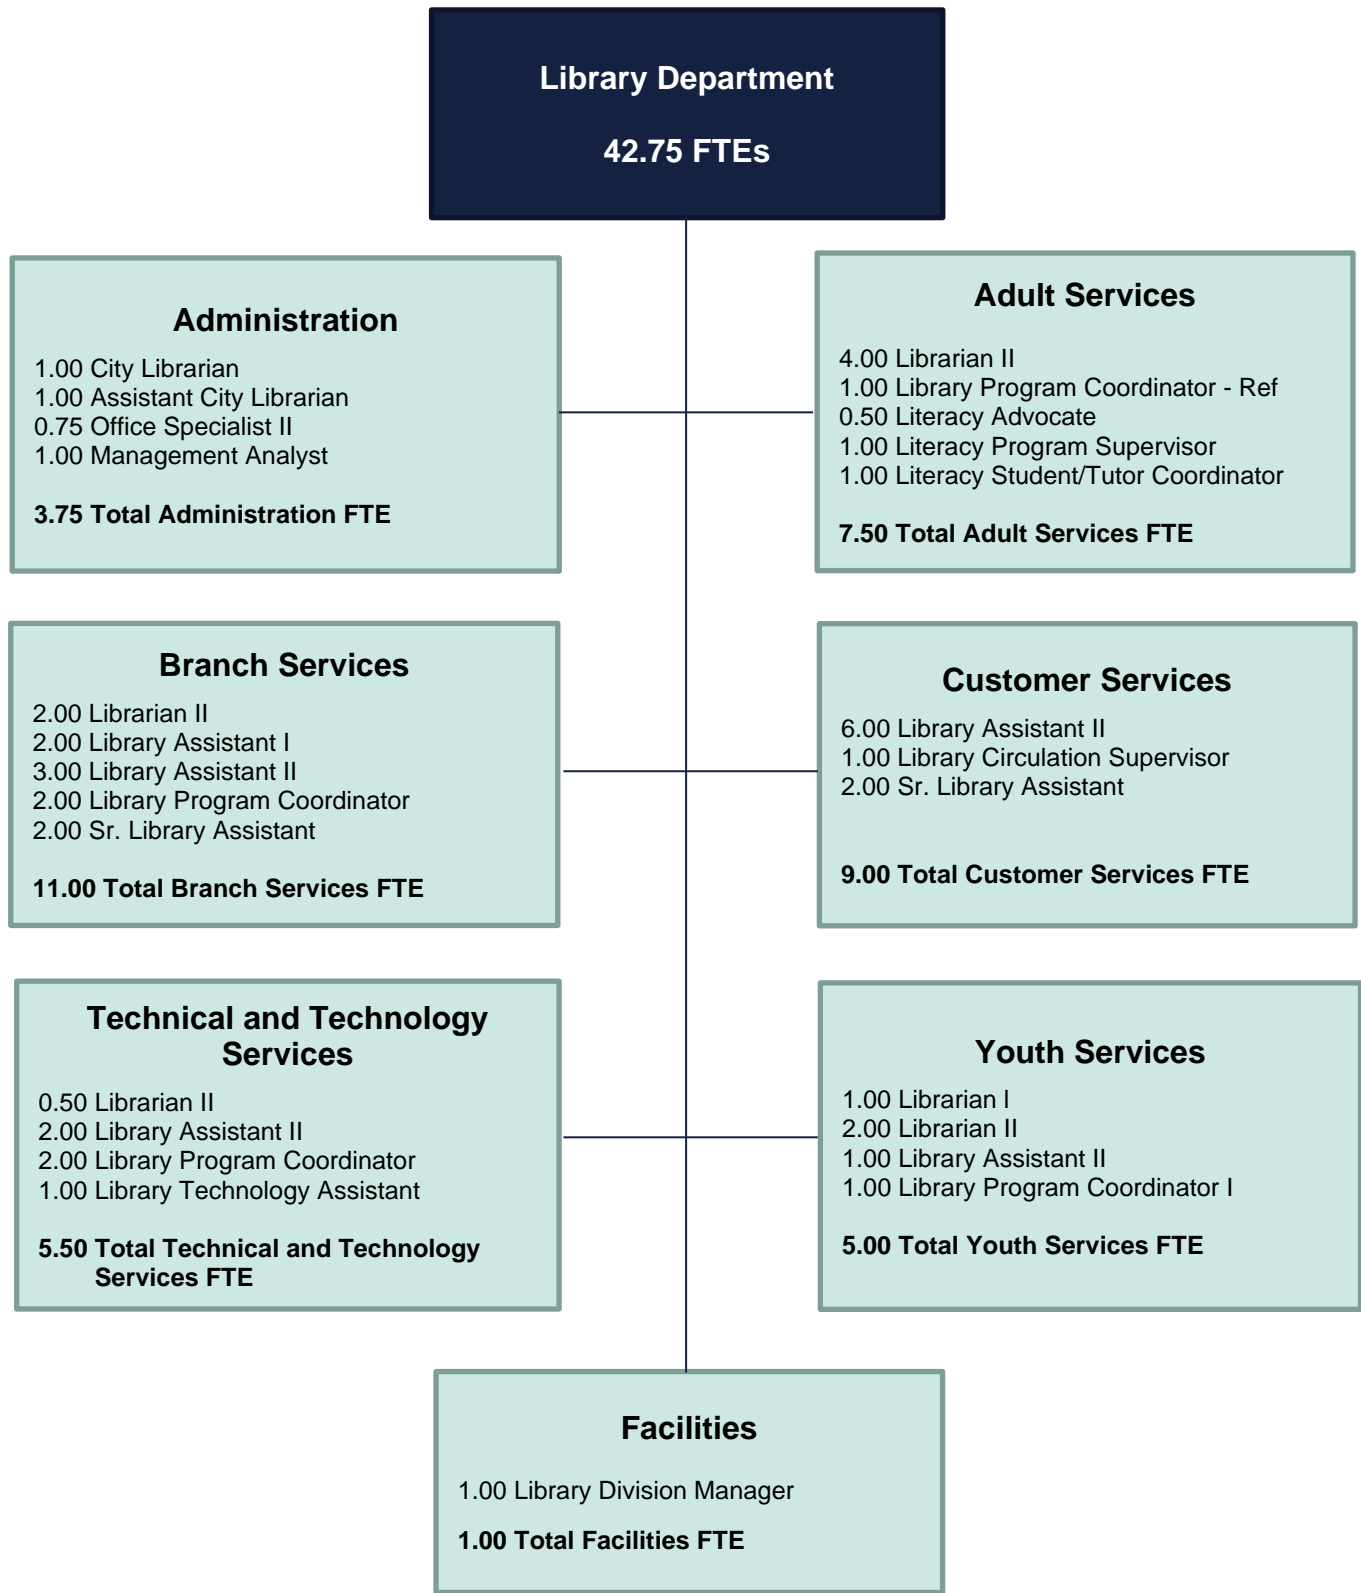

- Maintained regular Board of Library Trustees Meetings virtually and successfully transitioned to hybrid meetings.
- Partnered with St. Justin's School, collected approximately 3,700 pounds of food donations on behalf of Second Harvest Silicon Valley Food Bank.
- Served as a COVID testing site in Santa Clara, providing 19,266 COVID tests between August 2020 – October 2022.
- Coordinated with Stanford Blood Mobile for blood drives, collecting over 259 units of blood between 2020-2022.
- Served as the Number 1 out of 103 voting centers in Santa Clara County in 2022, with 1,908 votes processed in-person, and over 4,500 drop off ballots.

Significant Objectives

- Develop and implement a phased in approach to create a “new normal” for library services that balances access to critical library services with patron safety and employee wellness.
- Continue to support the City's respite services such as providing a Cooling and Warming Center and Blood Bank donation services.
- Re-establish Library's role as a service center for community engagement and outreach, using data analysis to strengthen opportunities for stronger Santa Clara resident use and participation.
- Evaluate the Library's current service delivery to accommodate lessons learned from the COVID-19 pandemic to maximize resources and improve services such as a rebalancing of physical and digital resources, continuation of hybrid in-person and virtual programming, opportunities for mobile service delivery and increased community collaborations to foster and support economy recovery efforts.
- Build the Library's capacity to serve by focusing on opportunities for staff recruitment, development, and engagement.
- Initiate Strategic Planning efforts to identify community-based goals for service and to align with City Council priorities.

Budget Highlights

- The Proposed Budget includes the following ongoing budget reductions to help address the General Fund deficit:
 - Reduce the printing, binding and books budget
 - Reduce the non-personnel budget for conference, travel and training; miscellaneous services, supplies and materials; and advertising and community promotion
 - Reduce the utilities budget
 - Eliminate the overtime budget

Program: 1251 – Library – Technical Services

This proposal reduces the printing, binding and books budget ongoing by \$250,000 (from \$758,930 to \$508,930). This budget provides for library collection materials (print, media, online) that are utilized by the community.

Performance Impact

This proposal will reduce the number of new items added to the collection, as well as replacements for collection items that become worn out from heavy use. Staff will purchase fewer copies of new and popular titles, and materials in other languages. The reduction of newly purchased bilingual collection items and materials in other languages impacts offerings to a subset of community members, including adults and families who are English language learners and refugees, many who currently participate in the Read Santa Clara literacy program. Library staff will reduce purchases for low-demand items, making referrals through the interlibrary loan LINK+ service and to neighboring community libraries. Staff will work with the Foundation and Friends to write grants and fundraise for materials.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Reduction of Overtime and Materials/Services/Supplies Budgets	0.00	0	(52,379)	0	(53,575)
Program:	1233 – Mission Library 1234 – Read Santa Clara 1235 – Northside Branch 1236 – Bookmobile & Mobile Library Services 1241 – Reference and Adult Collections 1245 – Customer Services 1251 – Technical Services 1271 – Facilities 1272 – Technology				

This proposal reduces funding for overtime, conferences and trainings, programming and cataloging supplies, office supplies, and advertising and community promotion supplies. This proposal eliminates the overtime budget of \$2,073 (from \$2,073 to \$0) and reduces the materials/services/supplies budget by \$50,306, ongoing. The materials/services/supplies budget reductions include a reduction of \$11,395 in the conference, travel & training budget (from \$19,429 to \$ 8,034), \$12,082 in the miscellaneous services & supplies budget (from \$12,082 to \$0), \$26,764 in the operating supplies budget (from \$79,855 to \$53,091), and \$65 in the advertising & community promotion budget (from \$65 to \$0).

Performance Impact

Staff will utilize other resources to offset the reductions including internal trainings, low-cost trainings, and shifting advertising and community promotion activity to more electronic and low-cost means such as social media platforms to minimize service level impacts. The reductions to operating and miscellaneous services and supplies budget will impact the materials available for distribution at library programs. The reduction in supplies for cataloging and processing materials, paired with the reduction in the printing, binding and books budget, will reduce new and replacement collection materials offered at the libraries.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Reduction of Utilities Budget	0.00	0	(50,000)	0	(51,450)
Program:	1233 – Mission Library 1235 – Northside Branch 1271 – Facilities				

This proposal reduces the utilities budget for library facilities on an ongoing basis. Current utilities funds are slightly inflated and can be reduced by \$50,000 with low anticipated impact as library hours and programming have reduced over the previous years due to COVID-19 and a decrease in the number of after-hours meeting reservations.

Performance Impact

There is little to no anticipated performance impact.

Parks & Recreation Department

This page is intentionally left blank.

Parks & Recreation Department Description

The Parks & Recreation Department provides planning, development, operation, maintenance, and rehabilitation of the City's twenty-nine (29) neighborhood parks, fourteen (14) mini parks, two (2) community parks, three (3) open space sites, ten (10) recreation buildings, four (4) trails, joint use facilities, and eleven (11) bodies of water at five sites. Facilities include community centers, neighborhood park buildings, community gardens, playgrounds, pools, restrooms, picnic areas, turf, trees, vegetation, athletic fields, and joint use facilities. Service levels are set to promote the use of safe, clean, and attractive facilities for enjoyment and quality of life for all ages and abilities. The Department assists the public with facility rentals, community services, cultural programs, special events, enhanced natural environments, fitness and wellness programs, as well as sports and aquatics opportunities. The Senior Nutrition Program provides a congregate meal setting where seniors can improve their health through balanced meals and socialization and is funded through a grant from the Santa Clara County Social Services Agency's Senior Nutrition Program and Community Development Block Grant (CDBG) funds. Seniors are encouraged to access the many services available at the senior center while on site and are given the opportunity to engage in health and wellness programs at the senior center. The Parks & Recreation Department also provides planning, development, operation and maintenance of the City's two cemetery properties to support families before, during and after their time of need. The Cemetery Division maintains 33,000 interment sites in a peaceful public park and provides customer service in a professional and respectful manner, while demonstrating sensitivity to our diverse community.

Divisions and Services

The Parks & Recreation Department is organized into five divisions: Administration, Parks, Recreation, Cemetery, and Senior Nutrition Program.

Administration Division Mission	Provide leadership, resource development and administrative support to Parks, Recreation, Cemetery, and Senior Nutrition Program Divisions; plan and develop new parks and recreation facilities to support the City's programs, activities and special events; review new housing development plans for provision of new parkland dedication and recreation amenities.
Division Objectives	Plan and implement design, development, construction, and maintenance of new parks; rehabilitation of older facilities and infrastructure, including public outreach and Parks & Recreation Commission review and recommendations.
	Research and develop partnerships, sponsorships, and grants from private, corporate, and other public agencies to supplement funding of facilities, projects, programs, and other services.
	Provide leadership to four Commissions (Parks & Recreation, Senior Advisory, Cultural, and Youth).
	Conduct plan reviews and prepare comments for new housing developers to optimize park and recreation amenities in new developments and to ensure compliance with City Code 17.35 (Park and Recreational Land).
	Activate Mass Care & Shelter Function of the Emergency Operations Center (Commodity Points of Distribution, Heating Center, Cooling Center), as needed.
	Plan and implement multiple citywide special events annually.
	Support the Park Impact Fee program. Initiate annual land valuation study used to update the fees in the municipal fee schedule, initiate City park projects, evaluate developer-initiated park projects and calculate park in lieu fees, ensure that all projects meet the needs of the community, facilitate community input.

Parks Division Mission

Maintain, acquire and rehabilitate Santa Clara's parks, community centers, playgrounds, pools, athletic facilities and neighborhood park buildings including restrooms, picnic areas, turf, trees, vegetation, athletic fields, pools, and sports venues at defined levels of service that promote the use of safe, clean, and attractive facilities for the enjoyment of the public.

Provide administrative direction, updated training, and technical support for Parks Division staff; contract operators of facilities and public users; plan for parks and facility maintenance rehabilitation needs, including volunteer projects to enhance natural habitat and urban forestry.

Division Objectives

Maintain nine clean, safe, attractive municipal swimming pools at four sites (International Swim Center, Mary Gomez, Warburton, and Senior Center). Maintain and support the use of clean, safe, fully functional, and attractive Community Recreation Center, Senior Center, Youth & Teen Center, Reed & Grant Sports Park and six neighborhood park buildings. Maintain and support community gardens and natural areas. All facilities and grounds are maintained on a year-round schedule of turf care, irrigation, facility maintenance, vegetation, tree care, litter control, and graffiti removal.

Provide physical and logistical support for citywide special events for planning, mapping, set up, safety and cleanup; ensure that all City and Public Agency permit requirements are met for public events.

Recreation Division Mission

Provide recreation opportunities for all residents of Santa Clara at the Community Recreation Center, Youth & Teen Center, Senior Center, Youth Soccer Park, Reed & Grant Sports Parks, City parks and athletic facilities and City pools.

Division Objectives

The Sports, Aquatics and Athletic Facilities Program coordinates use of the Youth Soccer Park, Reed & Grant Sports Park and some Santa Clara Unified School District (SCUSD) fields; and manages Santa Clara Tennis Center and Gymnastics Center. The Aquatics Program offers year-round access to lap swim for adults and seniors, aquatic fitness programming and a variety of summer swim lessons for all ages; safely supervises seasonal recreational swimming. It partners with the field and pool user groups for consistent use and policy implementation and coordinates with recreation vendors to offer developmental sports programs and adult sports leagues.

Youth & Teen Center offers drop-in afterschool programs for children in K-12 grade, teen volunteer and leadership development, seasonal programs, summer day camp session and serves middle and high school youth with specialized events and programs, including Skate Park programs.

The Performing Arts Program provides a variety of afterschool dance, music, art, creative drama and theater programs, including summer drama and arts camps, dance and musical recitals, performances and exhibitions. Coordinates City use of the Mission City Center for the Performing Arts.

The Senior Center offers a variety of health and wellness, fitness, arts and culture, and special interest classes and volunteer opportunities for individuals over 50 years of age, including programs in the fitness area and natatorium at the Senior Center.

The Enrichment program provides art and expression classes, recreation vendor programs, coordinates membership and sustainability/garden programs at the City's community gardens, and implements preschool enrichment programs, classes and summer camps.

Senior Nutrition Program Division Mission	Provide a congregate meals program to improve senior health and ability to live independently.
Division Objectives	<p>Offer a Monday through Friday senior nutrition program.</p> <p>Encourage participation in Health and Wellness Program, resources, case management referrals, fitness, and social activities at the Senior Center to enhance quality of life.</p> <p>Offer access to information about senior issues and current events.</p>
Cemetery Division Mission	The Mission City Memorial Park provides exemplary cemetery services in a well maintained, park-like setting with a customer-oriented atmosphere. The Agnew Historic Cemetery maintains space for reflection and interprets historical artifacts.
Division Objectives	<p>Mow and trim turf areas weekly; pruning and planting of trees as needed for safety and maintenance of existing canopy.</p> <p>Maintain cemetery buildings daily, in keeping with City standards.</p> <p>Coordinate interments and burials with people in their time of need.</p> <p>Maintain accurate documentation, use best practices and depending on the availability of resources, use current technology to map and record all transactions and burials in the cemetery.</p> <p>Develop in-ground and niche bank spaces to provide additional interment options for families in need.</p>

Significant Accomplishments

- Created and implemented a cost recovery policy for the Department.
- Began design of playgrounds at Warburton Park and Henry Schmidt Park.
- Initiated a Facility Condition Assessment Report.
- Initiated a Citywide Parks & Recreation Master Plan Study.
- Began rehabilitation of the Westwood Oaks Park playground.
- Began construction on the Montague Park Rehabilitation Project.
- Initiated the Integrated Goose Management Plan (IGMP) at Central Park.
- Initiated International Swim Center Forensic Engineering Study.
- Certified thirty-eight (38) Forklift Operators to be able to move and transport supplies and equipment.
- Certified three (3) International Society of Arboriculture (ISA) Certified Arborists for inspection, and care of City trees.
- Certified twenty-six (26) Green Gardeners for sustainable and responsible landscape design and care.
- Certified three (3) Qualified Water Efficient Landscapers for responsible use of irrigation.

Significant Objectives

- Develop a land acquisition program for parkland.
- Complete construction at Montague Park.
- Onboard Neuvo Community Buildings at Lawrence Station Area Plan.
- Develop Arts Center design at Patrick Henry Drive Precise Plan site.
- Begin Design of Community Park North in the Related Project.
- Complete construction of the Magical Bridge Playground in Central Park.
- Continue to provide approximately 15,800 nutritional meals to seniors in the Monday - Friday Senior Nutrition Program
- Continue to explore options for supporting long-term health of cemetery maintenance endowment

Budget Highlights

- Reduce the General Fund subsidy to the Cemetery Fund by \$100,000 in FY 2023/24 and FY 2024/25 due to recent cost-recovery fee increases to 100% cost recovery, or market rate, for residents and non-residents and an increase in marketing and outreach to the community which has yielded higher average services annually (this change is reflected in the Non-Departmental section of the budget). Cemetery revenues come from the components of burial, such as fees for interment rights, labor charges, and interest on the Cemetery endowment fund principal. Historically, the Cemetery operations have been subsidized by the General Fund by approximately 50%.
- Increase Facility Rental revenues by \$200,000 in FY 2023/24 and an additional \$25,000 starting in FY 2024/25 (this change is factored into the General Fund revenue estimates). The revenue increase is based on the new demand for commercial use reservations and non-profit youth sports field rentals, current revenue trends, and the anticipation of two new community rooms at Lawrence Station in FY 2024/25. The revenue trends reflect the application of the Parks & Recreation Cost-Recovery Policy and associated fee changes, additional marketing of field rentals for commercial use, and new fees for Santa Clara based youth sports organizations.

*The positions above represent all funded positions. This excludes the 1.0 Grounds Maintenance Worker I, 2.0 Grounds Maintenance Worker II and 1.0 Office Specialist II positions that were frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402).

Police Department

This page is intentionally left blank.

Police Department Description

The Police Department provides law enforcement and other policing services to the City of Santa Clara. The Police Department is organized into four Divisions: Administrative Services; Field Operations; Investigations; and Special Operations.

The Administrative Services Division (Services) is made up of the Chief's Office, Property and Evidence, Professional Standards Unit (Recruiting/Hiring, Internal Affairs, and the Training Unit), Communications Center, Records Unit, and the Community Services Unit.

The Records Unit is responsible for maintaining all crime reports, producing statistical crime information to the Department of Justice and the Federal Bureau of Investigations, providing radio support to officers in the field, and preparing the release of information to the public. The Records Unit also performs customer service functions at the front desk at the Police Building and Northside Substation.

The Communications Center receives and processes emergency and non-emergency calls for the City.

The Community Services Unit has many public facing functions, including acting as the liaison to private and public schools, Adult Crossing Guards, 5th Grade Safety Patrol, instruction related with crime trends (e.g., Run, Hide & Fight trainings).

The Professional Standards Unit handles recruiting, training, and internal affairs.

The Chief's Office manages local, State and federal grants, the Chief's Advisory Committee, the Diversity, Equity and Inclusion Police Subcommittee, and the Department's community engagement efforts (e.g., webpage, social media outlets, print media, Citizens' Police Academy, Chat with the Chief, Coffee with a Cop, Leadership Santa Clara, National Night Out, Talk and Tour, Department Open House, etc.). This office also facilitates major projects, the Department's budget, legislative advocacy positions, policy management, the community volunteer program, and responses to developer inquiries.

The Field Operations Division (Patrol) is comprised of first responders who respond to the vast majority of calls for service. The Division is made up of patrol teams, a motorcycle traffic unit, a traffic/hit-and-run investigator as well as community service officers to manage parking control and abandoned vehicle abatement.

The Community Response Team (CRT) is also part of the Field Operations Division. The CRT addresses quality of life issues in the City (e.g., homelessness, RV parking, mental health issues, drug activity, conflicts with neighbors, blights, abuse of the 911 system, referrals to programs, services and housing, etc.). The CRT is also the liaison to Santa Clara University and oversees the permits unit (e.g., food trucks, bingo, tow companies, and massage), facilitating inspections and investigations. The CRT includes Crisis Intervention Specialists to coordinate and support beneficial outcomes for vulnerable populations, such as the City's unhoused residents and the mentally ill.

The Investigations Division (Detective Bureau) is responsible for conducting follow-up investigations, particularly for major crimes. Detectives are assigned by type of crime, which includes homicide, assaults, robbery, theft, burglary, sexual assault, financial crimes, arson, and juvenile crimes. The Investigations Division keeps track of and continues to pursue "cold cases." The Investigations Division houses the Department's Forensic Coordinator and Crime Analyst and serves as the liaison to specialized task forces.

The Special Operations Division serves as the liaison between the City and outside entities for special event permits (e.g., walk/run, parade, festival, etc.), provides security support for dignitary visits and demonstrations, and develops operational orders for law enforcement, traffic and neighborhood protection needs associated with Levi's Stadium, Santa Clara Convention Center, California's Great America, and Santa Clara University. The Reserve Police Officer program complements the work of the Department and is supported by this Division. This Division is the home to a number of specialized teams within the Department, such as the K-9 Unit, Hostage Negotiation Team, and the Special Response Team (SRT). This Division manages the Temporary Holding Facility at the Police Building and Levi's Stadium, as well as the Jail Service Officers.

Divisions and Services

Administrative Services Division Mission

The Administrative Services Division (Services) is made up of the Chief's Office, Property and Evidence, Professional Standards Unit (Recruiting/Hiring, Internal Affairs, and the Training Unit), Communications Center, Records Unit, and the Community Services Unit.

The Communications Center receives, and processes emergency and non-emergency calls for the Police and Fire Departments, as well as non-business after hour response for other Departments throughout the City.

The Community Services Unit has many public facing functions: liaison to private and public schools, Adult Crossing Guards, 5th Grade Safety Patrol, instruction related with crime trends (e.g., Run, Hide & Fight trainings).

The Chief's Office manages local, State and federal grants, the Chief's Advisory Committee, the Diversity, Equity and Inclusion Police Subcommittee, and the Department's community engagement efforts (e.g., webpage, social media outlets, print media, Citizens' Police Academy, Chat with the Chief, Coffee with a Cop, Leadership Santa Clara, National Night Out, Talk and Tour, Department Open House, etc.). This office also facilitates major projects, the Department's budget, legislative advocacy positions, policy management, the community volunteer program, and responses to developer inquiries.

The Records Unit is also part of the Administrative Services Division. The Records Unit is responsible for maintaining all crime reports, producing statistical crime information to the Department of Justice and the Federal Bureau of Investigations, providing radio support to officers in the field, and preparing the release of information to the public. The Records Unit also performs customer service functions at the front desk at the Police Building and Northside Substation (should this facility reopen).

Division Objectives

This budget cycle, the Communications Center will update its Viper phone system and NICE phone recording system. Doing so, will also allow for enhancements to the city's Next Generation 911 (NG911) system. This highly reliable, secure system will have enhanced tools for more effective and efficient response, increased ability to interoperate or transfer all functionality in the event of a major disaster. With these upgrades, citizens in need of emergency assistance will be able to transmit photos, videos and other existing and future forms of broadband data and applications, in addition to voice, to Public Safety Dispatchers which can be passed along to first responders and incident commanders.

Communication
Acquisitions
Division Mission

Replace amortized electronic equipment within the City.

Division Objectives

Provide continued funding for communications equipment replacement as necessary. All departments with radios are charged annually; at the end of eight years, replacement radios are expected to be fully funded.

Make adjustments to the Fire Department's radios to address State Load channels prior to wildfire season.

Field Operations
Division Mission

Protect and serve with honesty, fairness, professionalism, and integrity. Maintain a community atmosphere that will provide our citizens with a quality of life that will enable them to enjoy our community to the fullest.

The Field Operations Division (Patrol) is comprised of the "first responders" who provide immediate services to residents, visitors, and businesses within our City. The Division is made up of patrol teams, a motorcycle traffic unit, a traffic/hit-and-run investigator as well as community service officers to manage parking control and abandoned vehicle abatement.

The Community Response Team (CRT) works towards goals of crime reduction and promoting community wellness, often among vulnerable populations. In 2020, SCPD established two Crisis Intervention Specialist positions as part of the CRT. The Specialists coordinate and support beneficial outcomes for persons with mental illness who have come to the attention of the Department. The CRT's function has many community benefits, including addressing long-term public safety issues, allowing patrol officers to focus on in-progress events, community engagement, and proactive police work.

The Traffic Enforcement Unit monitors traffic violations and enforces laws at identified problem areas and intersections.

With data from the Investigations Division, Field Operations personnel are being deployed by Public Safety Dispatchers to locations on specific days and times, using a matrix of factors, in an effort to prevent crime.

Division Objectives

Field Operations personnel will continue to address alcohol related crimes and disturbances, particularly in the Santa Clara University footprint.

Look ahead at training and equipment needs in the coming 18-36 months and develop a strategic plan that addresses those needs, factoring in the impacts of the recent and pending budget reductions as well as new legislative requirements.

- Enhance the use of FLOCK in identifying stolen vehicles
- Transition select fleet vehicles to zero emission electric vehicles

Investigations Division Mission

The Investigations Division receives reports of crimes that have occurred in our community and conducts follow-up investigations, utilizing statements, physical evidence, crime analysis, and deductive reasoning to identify perpetrators of crime. Detectives are assigned by type of crime, which includes homicide, assaults, robbery, theft, burglary, sexual assault, financial crimes, arson, and juvenile crimes. The Investigations Division keeps track of and continues to pursue “cold cases.” Subpoenas for trial witness are processed and delivered from this Division.

The Special Enforcement Team (SET) will continue to operate as a proactive unit dedicated to the suppression of crime in our community.

Division Objectives

Proactively serve the City's residents by combatting crime and identifying those responsible.

Continue to aggressively track and monitor registered sexual offenders and gang registrants.

Investigate and seek out criminals resulting in a high volume of prosecutable cases.

Special Operations Division Mission

The Special Operations Division includes the Homeland Security and Special Events Unit. It serves as the liaison between the City and outside agencies for special event permits (e.g., walk/run, parade, festival, etc.), provides security support for dignitary visits and demonstrations, and develops operational orders for law enforcement, traffic and neighborhood protection needs associated with Levi's Stadium, the Santa Clara Convention Center, California's Great America, and Santa Clara University. This Division is the home to a number of specialized teams within the Department, such as the K-9 Unit, Hostage Negotiation Team, and the Special Response Team (SRT).

The Reserve Police Officer program complements the work of the Department in many ways and is supported by this Division.

This Division manages the temporary holding facility at the police building and Levi's Stadium, as well as the jail service officers.

Division Objectives

Utilize technology to provide real-time updates during events to provide complete situational awareness and improve public safety capabilities.

Maintain critical information sharing and partnerships with federal, State and local law enforcement agencies to ensure the safety and security of the community.

Significant Accomplishments

- Developed a policy, conducted the required public meetings and gained City Council approval to comply with AB 481, which requires California law enforcement agencies to obtain approval of a Military Equipment Use Policy by their governing body prior to taking certain actions related to the funding, acquisition or use of military equipment.
- Implemented a two-year, 12-camera pilot program with automated license plate reader technology to aide in locating stolen vehicles.
- Upgraded the recording system within the 9-1-1 phone system.
- Transitioned the City's estimated 950 radios to encrypted channels to comply with Department of Justice mandates by December 31, 2021.
- Partnered with the Diversity, Equity and Inclusion Task Force in the review of department policies.
- Implemented a confidential database with crucial information about individuals with special needs that may be useful for responding public safety personnel.
- Provided the community with the opportunity to voluntarily participate in a Special Needs Awareness Program.
- Transitioned to a new Records Management System and converted from Uniform Crime Reporting Program to National Incident Based Reporting System by January 2022.
- Implemented AB 953, Racial and Identity Profiling Act, policy mandates by April 1, 2022.
- Facilitated a Study Session with City Council related to recreation vehicle parking in the City.
- Selected, trained and launched the Directed Aerial Response Team.
- Re-implemented the Resident Permit Parking program with a third-party vendor managing the virtual permit process.

Significant Objectives

- Conduct a ceremony for the naming of the Temporary Holding Facility in honor of Carla Munoz, who had a distinguished career with the Police Department and was the City's first ever Jail Service Officer.
- Restore programs, services and facilities to pre-pandemic levels, including but not limited to:
 - Parks patrol
 - School Resource Officer(s)
 - Traffic/motorcycle Unit
 - Northside Police Substation
 - Reconvene the Diversity, Equity and Inclusion Police subcommittee
- Continue to utilize the 15-member Chief's Advisory Committee to advise the Police Chief on issues, matters and public policies which influence or impact the ongoing relationship between the Police Department and the community.
- Develop a comprehensive, multi-phase strategy to recruit highly qualified, motivated applicants and facilitate the hiring of full-time and part-time employees in sworn and civilian professional capacities.
- Develop a policy, municipal fee schedule and corresponding checklist to accept Conceal Carry Weapon permits.
- Develop first AB 481 Annual Report and conduct the associated public meeting.
- Complete the upgrade to 9-1-1 phone system to include updated version of Next Generation 911 compatibility.
- Conduct the Hexagon Computer Aided Dispatch 9.4 version upgrade.
- Improve Public Safety Dispatcher applicant process by replacing Dispatch POST Testing with the CritiCall testing software.

- Migrate Communications Training Daily Observation Reports (DOR) from in-house Excel documents to LEFTA program.
- Install LAWNET/REDNET talk groups on Motorola Consoles.
- Coordinate with Hexagon and the Department of Justice regarding proposed changes by the Racial and Identity Profiling Act (RIPA) Board for additional data point collection by January 1, 2024.
- Explore replacement of radios (hand-pack).
- Implement Mark43 record management system.
- Evaluate the upgrade of equipment in the Communications Center that provides fire station alerting.
- Utilize one-time grant funds to seek out a mental health clinician to support the efforts of Crisis Intervention Specialists.
- Seek City Council guidance on the Bingo Ordinance in connection with State law.
- Recommend adjustments to the City Code in connection with Senate Bill 946 Sidewalk Vendors Soliciting.
- Amend the Police Department's Retention Schedule.
- Determine the future for the Northside Police Substation, potentially including a lease extension.
- Transition select fleet vehicles to zero emission electric vehicles.
- Work with law enforcement partners to address local (e.g., abandoned vehicles, recreational vehicle (RV) parking, neighborhood parking) and regional issues (e.g., property crimes, homelessness, traffic, mental illness, street racing).
- Develop a community engagement program utilizing the state-of-the-art use of force simulator to provide a realistic, yet safe, environment for education with induced stimuli.
- Staff the Gun Violence Prevention Task Force.
- Expand the Crisis Intervention Specialist program from two to four police officers to provide better coverage for 24/7, 365 operations.
- Develop a real-time Crime Center.
- Secure grant funds to purchase front-line law enforcement equipment, conduct specialized operations, and offer officer training (e.g., evidence vehicle, use of force simulator).
- Implement new ways to staff all special events with highly trained and committed public safety personnel to ensure the safety of all attendees, control traffic and pedestrian movement, and reduce the impact on surrounding residents and businesses.
- Proactively serve the City's residents by combatting crime and identifying those responsible.

Budget Highlights

- The Proposed Budget reflects the following:
 - No cuts to positions within the Department
 - Ongoing reduction in operating supplies to help address the General Fund shortfall

***The positions above represent all funded positions. This excludes the 4.0 Police Officer and 2.0 Police Sergeant positions that were frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402). This position count, however, includes positions that were restored with the \$1.7 million added to the Police Department budget on June 22, 2021. This funding restored 10.0 FTE to the Police Department, approved by the City Council on January 11, 2022 (Report to Council 22-1595).*

Total FY 2024/25 Proposed Budget	231.00	91,296,351

Service Level Changes

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Departmental Vacancy Factor Increase	0.00	(1,580,000)	0	(1,670,000)	0

Program: 7742 – Administration

This action increases the Police Department's budgeted vacancy factor (from 3% to 7%) to more closely reflect savings the Department has recognized in prior years. Over the last decade, the Police Department has experienced an average vacancy rate of over 7%, and the current vacancy rate is 12.5%. The higher vacancy rate would apply to the next two fiscal years but would revert to the 3% level on an ongoing basis as the City works to reduce the vacancy rate. While the Department has made efforts in recruitment, the vacancy rate has still remained high.

Performance Impact

The Department is currently operating at an approximate 12% vacancy factor; therefore, no service level impacts result from this proposal, and the budget allows for the pace of department hiring to continue as experienced before the pandemic.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Reduction in Operating Supplies	0.00	0	(90,000)	0	(90,000)

Program: 7745 – Department Support

This action reduces the Administrative Services Division operating supplies budget from \$189,425 to \$99,425. This reduction item is specifically for recruitment expenses and aligns more closely to historical spend.

Performance Impact

The Department does not anticipate any impact to recruitment or service delivery with this reduction.

¹ The Police Department transitioned from the Uniform Crime Reporting System to the National Incident Based Report System (NIBRS). With this transition, crime categories have changed, with NIBRS reporting crimes (e.g. fraud, counterfeiting, forgery) as separate categories, while the previous system reported them as one category. Due to this change in reporting, reasonable targets are not yet known.

Department of Public Works

This page is intentionally left blank.

Department of Public Works Description

The Department of Public Works (DPW) constructs, maintains and improves various components of the City's infrastructure and provides quality, cost-effective, timely services to the residents and businesses of Santa Clara. DPW is responsible for a wide variety of programs throughout the City which include design, construction management, stormwater pollution prevention, inspection and maintenance of City streets, bridges, traffic signal systems, building facilities, street trees, landscaping, sidewalks, and the closed landfill. These responsibilities include the engineering aspects of the sanitary sewer system, which is maintained by the Water and Sewer Utilities Department, and maintenance of storm drain pipelines and trash racks for pump stations which are maintained and operated by the Water and Sewer Utilities Department. The Department oversees the coordination and management support for the Convention Center Maintenance District, which consists of Hyatt Regency, Techmart, and the City, and maintains the grounds of the Franklin Square complex under the Downtown Parking Maintenance District. DPW manages solid waste contracts which provide services such as garbage, yard waste, recycling, street sweeping, household hazardous waste and the annual Clean-Up Campaign. Another significant component of DPW includes overseeing the procurement and maintenance of the City's fleet of vehicles and equipment. The Fleet Management program manages the lifecycle, replacement, procurement, upfit, and disposal of all vehicles and equipment within the City. This program also supports the City's diverse fleet operations, ensuring safe, cost-effective, and sustainable maintenance, repair, fueling, replacement, and compliance of City-owned vehicles and equipment.

Divisions and Services

The Department focus areas include Engineering Services and Operations and Maintenance. Engineering is comprised of five divisions: Administration, Traffic, Design, Land and Property Development, and Field Services. Operations and Maintenance is comprised of three divisions: Facility Services, Streets, and Fleet Management. The Streets Division is further subdivided to operate in the following areas: Administration, Traffic Maintenance, Street Maintenance (streets and storm drains), Environmental Programs, Solid Waste, Landscape, and Code Enforcement. The Facility Services Division manages the Convention Center Maintenance District, the Street Division manages the Downtown Parking Maintenance District, and the Fleet Management Division manages the Vehicle Replacement and Fleet Operations Funds.

Engineering - Administration Division Mission	Provide administrative support services which meet the needs of the division, departments, and community.
Division Objectives	<p>Manage and oversee all Department activities, represent the Department at the City Council meetings, and represent the City at various agency meetings.</p> <p>Develop and manage an efficient, cost effective department operating budget and capital improvement program (CIP) budget.</p> <p>Provide management and assistance in the development and delivery of the City's CIP.</p>

**Engineering – Traffic
Division Mission**

Provide safe and efficient movement of pedestrian, bicycle, transit, and vehicular traffic.

Enhance safety and mobility for pedestrians and bicyclists through implementation of new or improved facilities such as bike lanes, pedestrian beacons, and intersection improvements consistent with the City's Bicycle Plan and Pedestrian Master Plan.

Enhance safety, increase operational efficiency, and reduce delays for all users of the City roadway system through implementation of improvements, innovative technologies, and engineering designs.

Division Objectives

Maintain, operate, and upgrade traffic infrastructure in an efficient and timely manner.

Apply for and administer transportation grants to augment the City's finances for improving traffic, pedestrian, and bicycle-related infrastructure.

Review proposed private development projects for consistency with City transportation policies and the California Environmental Quality Act (CEQA).

Review, investigate, and respond to resident and business inquiries/complaints regarding City traffic and roadway parking operations.

**Engineering – Design
Division Mission**

Provide high quality services to the community through efficient and effective delivery of capital improvement projects and management of the City's infrastructure.

Manage infrastructure and the capital improvement project programming for pavement management, storm drain facilities, and capacity improvements for the sanitary sewer system.

Provide capital project administration, engineering, and management services for a variety of projects including transportation, roadways, pedestrian and bicycle, storm drains, sanitary sewers, buildings, libraries, and parks to implement the City's capital improvement program.

Division Objectives

Coordinate the Community Rating System (CRS) program with Federal Emergency Management Agency (FEMA) to maintain the City's Class 7 rating. This provides a reduction in flood insurance premiums for the property owners with flood insurance in the City of Santa Clara.

Maintain engineering design standard documents and maintain infrastructure record information such as as-builts and base maps.

**Engineering – Land
and Property
Development
Division Mission**

Assist customers and the community by providing effective and efficient services during project development and public improvement design phases.

Facilitate the issuance of timely reviews and permits for residents, developers, and utilities in compliance with land use and development standards.

Division Objectives

Provide developers, residents and permittees with information related to fees, general engineering, City utilities, property lines and design standards.

Develop new procedures to streamline processes and use new technology to facilitate current procedures.

Engineering – Field Services Division Mission	Serve all City departments and the community through effective and efficient construction management, construction inspection, materials testing, surveying, and administration services of public improvement projects.
Division Objectives	<p>Provide effective construction management, construction inspection, materials testing, surveying, and administration services for capital improvement projects, such as transportation, roadways, pedestrian and bicycle, sanitary sewers, storm drains, buildings, libraries, and parks.</p> <p>Deliver effective construction inspection, material testing, surveying and administration services for private developments that involve the City's infrastructure.</p>
Facility Services Division Mission	Perform cost effective repair and maintenance procedures to ensure City-owned buildings remain safe, attractive, and energy efficient. Provide a safe, clean, and well-maintained public space in support of the Santa Clara Convention Center Maintenance District ensuring a safe environment while enhancing the property value.
Division Objectives	<p>Maintain approximately 1,100,000 square feet of City-owned buildings in a safe, functional, and clean condition for all users. Oversee vendor contract to provide janitorial services to most City buildings and numerous service contracts to support the Facilities repairs and maintenance operations.</p> <p>Provide oversight of the Convention Center Maintenance District for the upkeep of equipment, signs, landscaping, pavement, concrete curb, gutter and sidewalks, service roads, pedestrian bridges, including the garage at the Santa Clara Convention Center complex and the Tasman Parking Garage.</p>
Streets Division Mission	Maintain streets, sidewalks, signs, markings, storm drain pipeline infrastructure, trees, and other landscape in the public right-of-way. Implement reliable, cost-effective solid waste programs that maximize landfill diversion.
Division Objectives	<p>Repair street potholes and sidewalk tripping hazards.</p> <p>Clean and maintain the storm drain collection system and implement the City's Urban Run-off Pollution Prevention Program.</p> <p>Maintain landscapes in the public right-of-way and remove graffiti.</p> <p>Prune City trees and plant new trees to replenish the City forest.</p> <p>Maintain traffic signs, striping, curb markings, and pavement messages.</p> <p>Repair damaged City-owned parking lots and walkways.</p> <p>Provide regular street sweeping services.</p> <p>Implement solid waste collection and disposal diversion programs to achieve cost recovery and maintain compliance with regulations.</p> <p>Manage solid waste collection contractors to ensure a high level of customer service and that agreement provisions are being followed.</p> <p>Complete the annual Clean-Up Campaign swiftly and safely.</p>

**Fleet Management
Division Mission**

Provide and maintain safe and reliable vehicles and equipment essential for the delivery of City services. Optimize fleet services through timely and cost-effective procurement, compliance, maintenance, fueling, and disposal services.

Division Objectives

Implement the City's Green Fleet Policy.

Monitor the City's fleet usage and remove under-utilized vehicles and unfunded retained assets from the fleet.

Perform manufacturer's recommended preventative maintenance on fleet assets to increase reliability and reduce costs associated with repairs.

Procure equipment and vehicles identified for replacement.

Collaborate with departments on replacement equipment and vehicles before each purchase.

Evaluate alternative fuel options before purchasing new vehicles or equipment.

Ensure purchases of vehicles and equipment meet the highest air quality standards set by California Air Resources Board.

Significant Accomplishments

Administration:

- Managed Council priorities and reprioritized department workload to accomplish tasks while maintaining significantly lower staffing levels from previous budget reductions to help resolve the City's budget deficit.
- Prepared numerous Council reports and presentations to support Council decision making and City priorities.
- Managed department budgets, staffing, work plans and performance measures to ensure work was being completed within approved budgets.
- Provided customer service support to residents to ensure all inquiries, work requests, and information requests were being addressed.
- Completed the FY 2021/22 & FY 2022/2023 Biennial Operating Budget and the FY 2022/23 & FY 2023/24 Biennial Capital Improvement Program Budget.
- Completed updates to the Municipal Fee Schedule for FY 2023/24.
- Coordinated and managed the distribution of any COVID-19 related safety supplies as requested (reusable and disposable face masks, hand sanitizer, sanitizing wipes, etc.).

Design:

- Completed design work for the following capital improvement program projects/studies: 2021 Annual Street Maintenance and Rehabilitation - Washington Street Storm Drain Improvement Project; 2022 Annual Street Maintenance and Rehabilitation; 2023 Annual Street Maintenance and Rehabilitation; Annual Curb Ramp Installation 2022; Annual Curb Ramp Installation 2023; Public Right-of-Way ADA Improvements Construction Contract Packages 1, 2, 3 & 4; High-Intensity Activated Beacon on Scott and Harrison; Lick Mill-East River Parkway Crosswalk Improvement, Santa Clara School Access Improvements; Public Parking Lot Pavement Condition Assessment; Lafayette Street Underpass at Subway Storm Drain Pump Station Evaluation; Sanitary Sewer Hydraulic Model support – Patrick Henry Specific Plan; Calabazas Creek Sanitary Sewer Deficiency Study/Evaluation; Northside & Rabello Pump Station Firm Capacity Evaluation; Sanitary Sewer Condition Assessment Repair Package 1; Sanitary Sewer I/I Evaluation, Citywide Data Center Sewer Discharge Study; Citywide Stationary Standby Emergency Generators Replacement - Phase 2; Fire Station 2 Training Tower Repair Assessment; Northside Branch Library Photovoltaics System Installation; Utility Corporation Yard Field Service Center Renovation; Raymond G. Gamma Dog Park Improvements; Harris-Lass Museum Repairs; Montague Park Rehabilitation; Fairway Glen Park Restroom Construction Project; Magical Bridge Play Ground Improvement; and Westwood Oak Playground Improvement Project.
- Managed, maintained, and provided Sanitary Sewer Hydraulic Modeling support services for approximately 20 Land Development Projects.
- Implementation of Pavement Moratorium requirements, prepared five-year pavement program with list of streets, coordinated the five-year program with all utilities in the City, and made the information available on City's website.
- FEMA's CRS program: Coordinated with relevant City departments during the annual recertification process and provided Elevation Certificate & Letter of Map Amendment (LOMA) assistance to permit center & planning staff on an ongoing/as needed basis.
- Effectively implemented and coordinated use of BidSync for Request for Proposals and Bids and online bid submittal.
- Provided core team support through active participation for the continued implementation of the City's CIP Management Database, e-Builder.

Field Services:

- Received a Project of the Year Award from the American Public Works Association for the Reed & Grant Sports Park Project.
- Received a Project of the Year Award from the American Public Works Association for the Raymond G. Gamma Dog Park Improvements Project.
- Completed coordination, inspection, and activation of traffic signals at Juliette Lane and Mission College Boulevard, Corvin Drive and Kifer Road, and Olcott Street and Scott Boulevard.
- Completed construction of the following capital improvement projects: Scott Boulevard Traffic Signal Interconnect & Coordination; Lick Mill - E. River Parkway Crosswalk Improvement; Bicycle Lane Improvement on Pruneridge Avenue at Lawrence; 2021 Annual Street Maintenance & Rehabilitation; Harris Lass Museum Repairs; Santa Clara Access School Improvement Project; Public Right-of-Way ADA Improvements Packages 1 & 2; 2022 Annual Street Maintenance and Rehabilitation Project; 2022 ADA Upgrade project; Montague Park Rehabilitation; Laurelwood Pump Station Rehabilitation Project; Mission Branch Library Gazebo Project; and Citywide Generator Project Phase 1.
- Provided effective construction management, construction inspection, surveying, materials testing, and administration services for approximately 51 capital improvement projects and approximately 948 encroachment permits.

Land and Property Development:

- Issued approximately 930 encroachment permits over the last two fiscal years. Major encroachment permits for some notable development projects include: 2323/2343 Calle Del Mundo (SummerHill Apartment - Tasman East Specific Area Plan); 2300 Calle Del Luna (Related - Tasman East Specific Area Plan); 2230 Calle De Luna (Holland - Tasman East Specific Area Plan); 2240 Calle de Luna/5123 Calle Del Sol (Ensemble - Tasman East Specific Area Plan); 3312 Kifer/2904 Corvin (Allied Housing - Lawrence Station Area Plan); 1205 Coleman Avenue (Hunter Storm – Gateway Crossings); 2780 El Camino Real – complete package (KB Homes - Moonlite Lanes Residential); 1200 Memorex (Data Center); 2905 Stender Way (Data Center); California High Speed Rail (SF-SJ) Environmental Impact Report/Environmental Impact Statement; Caltrans US 101 / De La Cruz Street Improvement; 2305 Mission College Blvd (Data Center); 737 Mathew (Data Center); 651 Walsh Avenue (Data Center); and 2330 Monroe Street (Apartments).
- Processed approximately 800 development site clearances for building permits and collected fees.
- Processed 10 subdivision maps and approximately 130 land title documents which includes processing, reviewing, approving, and recording the title documents.
- Continued to lead and support private development throughout the City including large developments such as Related Santa Clara, Tasman East, Patrick Henry Drive, Freedom Circle, Lawrence Station, etc.
- Provided dedicated support for the high-priority Related Santa Clara project by:
 - Leading, coordinating, and facilitating the relocation of third-party utilities to support the City's vacation of Centennial Boulevard and a portion of Stars and Stripes Drive.
 - Providing technical support for the City's approval of the Vesting Tentative Subdivision Map for the Development Area Plan (DAP)1 for the project.
 - Actively coordinating and providing technical review of the DAP 1 public improvement package for streets and utilities improvements.
 - Participating in weekly project coordination meetings with the Related Santa Clara team.
 - Providing project management and technical engineering support to the City Manager's Priority Project Manager for the project.

Traffic:

- Completed coordination, construction, and inspection of bicycle lane improvements on Monroe Street (Chromite Drive to San Tomas Expressway) and Lafayette Street (Calle de Luna to Agnew Road), Walsh Avenue (Bowers Road to San Tomas Expressway), The Alameda (Market Street to El Camino Real), Great America Way (Lafayette Street to Great America Parkway), Mission College Boulevard (Freedom Circle West to Montague Expressway), and Scott Boulevard (Central Expressway to Olcott Street).
- Completed a two-year community outreach and study process for the Pruneridge Avenue Complete Streets Plan. On August 30, 2022 City Council adopted the Pruneridge Avenue Complete Streets Plan and selected a preferred design concept for staff to pursue outside funding opportunities such as grants, etc.
- Obtained \$1.9 million of regional grant funding for Citywide Traffic Signal LED Lighting Upgrades; High Priority Curb Ramps; Bike Safety Equipment; Bike Corridor Planning Studies for Walsh Avenue, Monroe Street, and De La Cruz Boulevard; Mission College Class IV Bike Lane Implementation; Pruneridge Avenue Signal Timing; Vision Zero Study; and Multijurisdictional Intelligent Transportation Improvements.
- In partnership with the City of Cupertino, obtained \$8.5 million in State Transit and Intercity Rail Capital grant funding to expand Cupertino's on-demand shuttle program into Santa Clara over the next four years.
- In 2021, secured Federal Community Project funding of \$2.75 million for the De La Cruz Boulevard, Lick Mill Boulevard, and Scott Boulevard Bicycle Projects submitted by Congressman Ro Khanna.
- Received, investigated, and responded to 692 traffic requests from the public during FY 2021/22.
- Supported traffic operations for 11 events at Levi's Stadium in FY 2021/22.

Facility Services:

- Worked with Santa Clara County on obtaining a Historical Grant for the Harris Lass property improvements project.
- Processed approximately 1800 facility work orders for internal City customers and facilities with 95% satisfaction rate.
- Completed the Facility Capital Improvement Project for Harris Lass Historic House Tank House and Porch Repair.
- Worked closely with the City's Historical Advisor on a five-year plan to improve maintenance and repair on the Berryessa Adobe, Headen Inman, Jamison Brown, Morse Mansion, and Harris Lass Historic Properties.
- Provided core team support through active participation for the continued implementation of the City's safety monthly training program, Target Solutions which also included topics on annual specific training and stress related trainings.
- Provided oversight and management at Maintenance District #183 Santa Clara Convention Center Complex. Goals include Water Management and Turf Conversion in addition to working with Silicon Valley Power on eventual EV Charger Installation throughout the site.
- Supported garage operations at Tasman Garage to support Convention Center and Levi's Stadium Events.
- Supported Parks and Recreation Department with major repairs to their H.V.A.C. systems and fire alarm systems at Senior Center and Community Recreation Center in addition to assisting with the turnover of the Youth Activity Center to the Santa Clara Unified School District.
- Supported 35 critical City facilities with emergency generator preventative maintenance and monthly operational inspections.

Streets:

- Maintained Tree City USA certification for the 36th consecutive year and received the Growth Award for 2021.
- Removed turf and installed water-wise landscaping at the City Hall complex using Valley Water rebate funds.
- Completed and implemented enterprise asset management applications for City Street Trees, Parkways & Boulevards Trees, Sidewalk, Curb & Gutters, Storm Drain, and Traffic Divisions.

- Completed contamination minimization lid-flip audits within all exclusive franchise hauler routes as required by SB 1383.
- Updated the Santa Clara City Code chapters pertaining to Trees and Shrubs. Developed and implemented a grid system to schedule City trees for preventative maintenance pruning.
- Developed a compost give-away program for residents and businesses.
- Installed over 500 new full trash capture devices.
- Completed a solid waste rate study that equitably calculated each rate based on the cost of service.
- Completed the 2022 Cleanup Campaign on schedule and studied alternatives to current CUC format.
- Migrated stormwater related compliance inspections over to Accela.
- Completed audits of non-exclusive franchise hauler quarterly franchise fee payments and compliance with mandatory commercial recycling and organics recycling requirements.

Fleet Operations:

- Utilized renewable diesel exclusively in the City's diesel fleet in FY 2021/22.
- Obtained "Blue Seal of Excellence" recognition from National Institute of Automotive Service Excellence (ASE) in 2021 and 2022.
- Placed 28 new vehicles in service in FY 2021/22 of which 15 were Electric or Hybrid.
- Retired and sold at auction 31 fleet assets yielding approximately \$200,000 in revenue for FY 2021/22.
- Maintained approximately 760 fleet assets with a 90% Preventive Maintenance (PM) Compliance rate.
- Updated City Manager's Directive 45 for Vehicle and Equipment Accident Review.

Significant Objectives

Design:

- Provide Infrastructure Management Services for the storm drain system and pavement maintenance program, and engineering planning for the sanitary sewer system.
- Provide effective capital improvement project management for a wide variety of projects city-wide including: Annual Street Maintenance and Rehabilitation Program Management and related projects; Annual ADA Curb Ramps; Bassett and Laurelwood Bike Lanes; MCB/GAP Intersection Improvement Project; Monroe Street-Los Padres Boulevard Traffic Signal Modification; Lick Mill Boulevard Pedestrian Beacons Upgrade; GAP and Tasman Drive Traffic Signal Interconnect; Santa Clara Citywide ITS Project 2; Creek Trail Pavement Maintenance and Rehabilitation Project - Package 1; Miscellaneous Asphalt and Concrete Maintenance and Repairs Project - Package A; Bowers Avenue Storm Drain Pump Station Improvement; Storm Drain Slide Gate Rehabilitation; Sanitary Sewer Master Plan Update 2023; Annual Sanitary Sewer Repairs and Sanitary Sewer Capacity improvements; Stationary Standby Generator Replacement Phase 3; Utilities Corporation Yard Renovation; Bowers Park Building Improvements and Parking Lot Rehabilitation; Sarah E. Fox Memorial Mausoleum Roof Replacement; Central Park Master Plan - New Entrance, Access and Parking Improvements; Westwood Oaks Park Playground Rehabilitation; and Parks Service Center Roof Replacement.
- Provide Sanitary Sewer Hydraulic Modeling Support for Land Development Projects.

Field Services:

- Provide effective construction management, construction inspection, surveying, materials testing, and administration services for capital improvement projects and private development projects that construct City infrastructure.
- Provide on-time and on-schedule completion of projects for transportation, roadways, parks, buildings, traffic signals,

pedestrian-and bicycle improvements, sanitary sewer and storm drain rehabilitation, and other capital projects.

- Provide construction inspection and coordination for private development-built City infrastructure, such as: 575 Benton Street Mixed Use; 1850 El Camino Real Residential; 3200 Scott Boulevard Office; 3607 Kifer Road Office; Mission Park (2305 Mission College Boulevard); 1900 Warburton Avenue Residential; 1834 Worthington Circle- Agrihood Mix use Development; 641 Walsh Ave. Data Center; 3045 Stender Way Data Center; Stevens Creek Boulevard Office Campus (5403/5405 Stevens Creek Boulevard); Gateway Crossing (Coleman); Gateway Village (3700 El Camino Real); Lawrence Station - Kifer Road Multi-Family (Toll Brothers); Lawson Lane Office; Santa Clara Square Residential; Summerhill Lawrence Station (3505 Kifer Road); 3311 Kifer Road (Cahill Contractors); 1100 Memorex Drive - New Data Center; 3035 El Camino Real- Mixed use; Westfield Valley Fair Expansion; Tasman East – 2200 Calle De Luna Residential; Tasman East – 2300 Calle De Luna Mixed Use; 2302 Calle Del Mundo Mixed Use; 2343 Calle Del Mundo Residential; and 5123 Calle Del Sol Mixed Use Vantage Data Center II.

Land and Property Development:

- Facilitate significant private development projects by providing effective and efficient processing of site clearances, subdivision maps, land title documents, public improvement plan checks, and development fee collection. Some significant projects include Lawrence Station Area Plan at Kifer Road, Lawrence Expressway and Central Expressway; Tasman East Specific Area Plan at Lafayette Street, Calle del Mundo, Calle de Luna, and Calle del Sol; Related Santa Clara (formerly City Place) at Tasman Drive, Lafayette Street and Great America Parkway (on City's closed golf course); Patrick Henry Specific Plan at Patrick Henry Drive, Great America Parkway and Mission College Boulevard.
- Upcoming or in process notable development projects include: 2200 Calle Del Luna (Holland - Tasman East Specific Area Plan); 2232 Calle Del Mundo & 2225 Calle De Luna (Greystar – Tasman East Specific Area Plan); 2263/2273 Calle Del Mundo (Ensemble - Tasman East Specific Area Plan); 3517 Ryder Street (Westlake Urban – Lawrence Station Area Plan); 3335 Kifer Road Street (Allied Housing – Lawrence Station Area Plan); 2055 Lafayette Street (Data Center); 3710 El Camino Real (Gateway Village Phase 2); 2600 De La Cruz Boulevard (Data Center); 2805 Mission College Boulevard (Data Center); VTA – BART Phase II; Developments within the Lawrence Station Area Plan; Developments within the Tasman East Specific Area Plan; Developments within the Patrick Henry Drive Specific Area Plan; and Related Santa Clara (City Place – Related Project).

Traffic:

- Complete the following Traffic Engineering Projects: Creek Trail Expansion Master Plan; Traffic Signal Management Software Upgrade/Replacement and Adaptive Signal System; Traffic Pre-emptors; Changeable Message Signs; 15 miles per hour School Zones; and Travel Demand Model Update.
- Make significant progress on 2016 Measure B funded bike corridor planning studies for Walsh Avenue, Monroe Street, and De La Cruz Boulevard.
- Make significant progress on Federal Community Project funded bike corridor planning studies for De La Cruz Boulevard, Lick Mill Boulevard, and Scott Boulevard.
- Work collaboratively and make progress on the joint jurisdictional Stevens Creek Visioning Study with the City of San Jose, City of Cupertino, County of Santa Clara, and Valley Transportation Authority.
- Complete the Uncontrolled Crosswalks Project, Lick Mill Blvd Pedestrian Beacons Upgrade Project; Lafayette Class IV Bicycle Lanes Project, and Bassett/Laurelwood Bicycle Lane Project.
- Continue to operate an annual Shared Mobility Permit Program for the City.
- Launch and operate an on-demand shuttle program with the City of Cupertino.
- Begin work on a Vision Zero Study.
- Continue to implement recommendations in the approved Bicycle Plan Update and Pedestrian Master Plan.
- Continue to support the Community Development Department with traffic engineering and traffic impact analysis support (i.e., Level of Service and Vehicle Miles Travelled Analysis) for proposed development projects and specific and precise plans.

- Continue to make progress responding to traffic calming and traffic safety related public inquiries.

Facility Services:

- Provide outstanding service to customers, which includes all types of requests such as janitorial repair needs and new infrastructure requirements with the objective to respond to every customer in a timely manner on projects and repairs.
- Provide upkeep and repairs to the Tasman Parking Garage.
- Continue with regular maintenance and improvements to the Convention Center Maintenance District grounds, surfaces, and garage structure and begin planning and designing for parking lot repairs and maintenance. Provide building and mechanical maintenance services for all City buildings.
- Operate and maintain the City's elevators.
- Assist the City Manager's Office with maintenance at properties such as Morse Mansion, Gianera House, and Commerce & Peddlers Plaza.
- Maintain preventative maintenance compliance with manufacturers recommended intervals on Facilities equipment which includes replacement of air filters on a scheduled basis.

Streets:

- Update the Santa Clara City Code chapter pertaining Storm Drains.
- Maintain recently developed asset management systems for traffic signs and storm drain infrastructure.
- Enter into an agreement to purchase electricity derived from organic material to comply with SB 1383 procurement requirements. Inventory Landscape Maintenance Division assets to facilitate the future implementation of asset management system use to more effectively schedule and track maintenance activities.
- Ensure reliable garbage, yard trimmings, and residential recycling services.
- Enter into new agreements for landfill disposal and composting services.
- Continue to implement organic waste reduction programs to reduce methane emissions from landfills and comply with state legislation.

Fleet Operations:

- Maintain preventative maintenance compliance with manufacturers recommended intervals.
- Continue work with City departments engaged in fleet electrification activity by supporting electric vehicle (EV) acquisitions, expanding EV charging infrastructure, and seeking related funding opportunities.
- Continue to monitor and report evolving regulatory requirements for medium and heavy-duty fleets required by California Air Resources Board that impacts City compliance, services, and budgets.

Budget Highlights

The Public Works Budget includes the following changes:

- Position shifts of Environmental Program staff and Compliance Manager (shift partial positions to Solid Waste).
- Reduction of Vehicle Amortization and O&M to remove 17 underutilized vehicles/equipment.
- Sale of underutilized vehicles/equipment.
- Increase to the Storm Drain contractual services budget that is offset by revenues for development planning and building application review.

Public Works Department

119.50 FTEs*

Engineering –Administration

0.75 Director of Public Works

1.00 Transportation Manager

8.00 Total Engineering-Traffic FTE

Facility Services

1.00 Building Maintenance Manager
5.00 Building Maintenance Worker
3.00 Mechanical Maintenance Worker
1.00 Office Specialist II
2.00 Public Works Supervisor
1.00 Utility Worker

13.00 Total Facility Services FTE

**The positions above represent all funded positions. This excludes the 1.0 Associate Engineer, 1.0 Assistant Engineer (Civil), and 1.0 Automotive Technician positions that were frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402). This also excludes 5.0 vacant FTEs (1.0 Street Maintenance Worker IV, 3.0 Street Maintenance Worker III, and 1.0 Street Maintenance Worker I/II) that were frozen, as approved by the City Council on June 22, 2021 (Agenda Item 5.0 – Report to Council 21-526). Lastly, this excludes 4.0 FTEs that were originally funded by Related but are frozen beginning FY 2023/24 based on discussions with Related: 1.0 Associate Engineer (Civil), 1.0 Principal Engineer, 1.0 Public Works Inspector, and 1.0 Senior Engineer (Civil).*

¹ 1.0 Principal Engineer was approved for reclassification to 1.0 Principal Engineer/City Surveyor in RTC 19-750 on August 20, 2019. The FY 2021/22 Adopted Operating Book did not incorporate the reclassification so it is updated in this Proposed budget book.

² The FY 2022/23 Adopted Capital Budget Book added 1.0 Public Works Inspector for FY 2022/23 funded by Related which was previously frozen.

³ 1.0 Traffic Engineer was approved for reclassification to 1.0 Transportation Manager in RTC 20-219 on February 25, 2020. The FY 2021/22 Adopted Operating Book did not incorporate the reclassification so it is updated in this Proposed budget book.

* The positions above represent all funded positions. This excludes the 1.0 Associate Engineer, 1.0 Assistant Engineer (Civil), and 1.0 Automotive Technician positions that were frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402). This also excludes 5.0 vacant FTEs (1.0 Street Maintenance Worker IV, 3.0 Street Maintenance Worker III, and 1.0 Street Maintenance Worker I/II) that were frozen, as approved by the City Council on June 22, 2021 (Agenda Item 5.0 – Report to Council 21-526). Lastly, this excludes 4.0 FTEs that were originally funded by Related but are frozen beginning FY 2023/24 based on discussions with Related: 1.0 Associate Engineer (Civil), 1.0 Principal Engineer, 1.0 Public Works Inspector, and 1.0 Senior Engineer (Civil).

Service Level Changes

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Environmental Program Staff Allocation Shifts	0	0	0	0	0
Program:	2924 – Storm Drain – Non-Point Source 2931 – Solid Waste – Garbage Collection 2934 – Solid Waste – Residential Recycling				

This proposal updates position allocations of Environmental Program staff to reflect the amount of time currently spent between the Solid Waste and Urban Runoff Pollution Prevention Programs (URPPP). Both programs are funded by customer rates, although the URPPP is budgeted in the General Fund. This proposal will shift a net of 0.30 FTE into the Solid Waste Fund which is supported by customer refuse rates and result in ongoing savings to the General Fund of \$57,834.

Performance Impact

This proposal helps reduce costs to the General Fund, maintains services, and does not have an impact to the department performance.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

		FY 2023/24		FY 2024/25	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Compliance Manager Allocation Shift	0	0	0	0	0
Program:	2123 – Fleet Operations				
	2911 – Streets - Street Maintenance				
	2921 – Storm Drain – Storm System Maintenance				
	2924 – Storm Drain – Non-Point Source				
	2951 – Parkways & Blvds - Landscape				

This proposal shifts funding sources for the Compliance Manager position to better align with distribution of workload. The Compliance Manager will be shifting 0.15 FTE from the Fleet Management and General Fund into the Solid Waste Fund. The effect by fund is an ongoing savings of \$11,371 in the General Fund, ongoing savings of \$22,725 in the Fleet Management Fund, and an ongoing increase to the Solid Waste Fund in the amount of \$34,096. Of the ongoing savings of \$22,725 to the Fleet Maintenance and Operations Fund, \$15,262 is funded from the General Fund and the remaining amount is distributed across other funds which is built into the interfund services amount. The total net ongoing savings to the General Fund is \$26,633.

Performance Impact

This proposal helps reduce costs to the General Fund, maintains services, and does not have an impact to the department performance.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Streets Equipment Reduction of Vehicle Amortization and O&M	0	0	(113,764)	0	(116,867)

Program: 2123 – Fleet Operations
2111 – Fleet Acquisitions

This proposal removes 17 underutilized vehicles/equipment in the Streets division. One sedan will be shifted from the General Fund to the Solid Waste Fund. This proposal will reduce the General Fund equipment amortization and maintenance and operations costs by \$46,174 ongoing. An ongoing reduction of \$67,590 to the Fleet Maintenance and Operations Fund in Non-Personnel costs is included to account for the reduction of vehicles/equipment. Of this, \$45,391 is reduced from the General Fund funded portion and the remaining amount is distributed across other funds. The total net ongoing reduction to the General Fund is \$91,565. Both the vehicle amortization and maintenance and operations reductions are built into the interfund services allocations for all funds.

Performance Impact

This proposal helps reduce costs to the General Fund, maintains services, and does not have an impact to the department performance.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Title	Positions	FY 2023/24		FY 2024/25	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Transfer to the General Fund for the Sale of Underutilized Streets Vehicles	0	149,600	0	0	0

Program: 2111 – Fleet Acquisitions

This proposal transfers \$149,600 one-time from the Vehicle Replacement Fund to the General Fund for the sale of underutilized vehicles/equipment in the Streets division.

Performance Impact

This proposal maintains services and does not have an impact to the department performance.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Storm Drain Development Planning & Building Application Review	0	0	198,360	0	204,310
Program:	2924 – Storm Drain – Non-Point Source 2931 – Solid Waste – Garbage Collection 2951 – Parkways & Blvds - Landscape				

This proposal increases the contractual services budget, which is offset by revenues, for development planning and building application review. DPW no longer has the in-house expertise to review various planning and building application plans following the retirement of the previous Compliance Manager. The department has transitioned to using a consulting engineering firm to provide the necessary plan review services in the stormwater, solid waste and parkways and boulevards landscape areas. The cost will be funded by revised fees collected through the FY 2023/24 Municipal Fee Schedule.

Performance Impact

This proposal allows the department to continue providing development planning and building plan reviews.

Water and Sewer Utilities Department

This page is intentionally left blank.

Water and Sewer Utilities Department Description

The Water and Sewer Utilities Department provides planning, design, construction, maintenance, and operation of the City's water distribution system, sewer collection system, and recycled water system. The three utilities, water, sewer, and recycled water, operate independently and charge rates to recover the costs of providing these services to Santa Clara residents and businesses, including capital investment in City infrastructure and funding of needed reserves.

In 2022, the Water Utility produced and distributed 6 billion gallons of water to approximately 26,000 service connections, delivered through approximately 335 miles of water main. Of the total water supply 50.7% is obtained from the City's wells; 32.4% is treated water purchased from two wholesale potable water agencies; and 16.9% is from recycled water delivered through the South Bay Water Recycling system. The Department oversees:

- Design, construction, distribution, metering, quality monitoring, and system maintenance for both potable and recycled water
- Collection and conveyance of wastewater for approximately 26,000 accounts and assessment, maintenance, or repair for more than 288 miles of sewer mains as required
- Construction, operation, and maintenance of the recycled water system within the Santa Clara city limits. This recycled water system distributes highly treated wastewater for non-potable use

Other activities include:

- Promote water conservation and environmental sustainability through outreach to the community
- Contract management for the construction of new South Bay Recycled Water pipelines
- Coordinate planning efforts for the future expansions of recycled water systems in Santa Clara County (County)
- Maintain compliance with State regulations through development plan reviews and site inspections

The Sewer Utility operates and maintains a sanitary sewage collection system that collects and conveys wastewater to the jointly owned San José-Santa Clara Regional Wastewater Facility (RWF) for treatment and disposal. The Sewer Utility maintains sewer pump stations and assists the Department of Public Works in the operation and maintenance of the storm pump stations. Additional services are: property line clean-outs installed for access to maintain residential sewer laterals; maintain seven sanitary and twenty-one stormwater pump stations to ensure reliable service; assist the industrial waste inspectors from the RWF with investigations of City industries; and implement the Sanitary Sewer Management Plan as submitted to the State and Regional Water Quality Control Board.

Bonds are issued to mitigate rate increases while allowing for the repair and replacement of critical infrastructure. Proceeds from debt were used to pay for repairs and rehabilitation of the Trimble Road Sanitary Sewer main trunk and will be repaid over the next eight years.

Divisions and Services

The Water and Sewer Utilities Department is organized into five Divisions: Solar Utility; Water Construction, Maintenance, Operations; Water Engineering; Recycled Water Program; and Sewer.

Solar Utility Division Mission	Provide installation and maintenance of solar heating systems for commercial, residential, and pool water heating.
Division Objectives	Maintain more than 147 swimming pool systems. Maintain one domestic solar hot water system.
Water Construction, Maintenance, Operations Division Mission	Operate and maintain the Water Utility in the most efficient manner and ensure that the approved levels of service are met.
Division Objectives	Increase reliability of the water system through the replacement of mains and appurtenances at the end of their useful life. Complete the construction, and installation of approximately 10,000 linear feet of water main. Construct, repair, and/or rehabilitate at least two groundwater wells each budget cycle to continue to provide reliable water service.
Water Engineering, Compliance, Conservation Division Mission¹	Provide Engineering services that improve and protect the water supply and distribution system while planning for future expansion and upgrades to infrastructure to ensure future reliability.
Division Objectives	Continue to improve the seismic safety of the water utility system. Continue the use of innovative technology to optimize the management of City water assets and appurtenances. Support citywide development through plan check review and inspection. Undertake engineering studies of the condition and reliability of water system assets.

¹ Previously titled Water Engineering Division

Recycled Water Program Division Mission	Provide for the safe, efficient, and reliable distribution of sustainable and high-quality recycled water which meets all requirements of State regulations and local codes. Deliver services in a cost effective and efficient manner with a focus on outstanding customer service.
	Increase connection of recycled water services for landscape irrigation of commercial and industrial sites, City parks, and school fields.
Division Objectives	Increase the use of recycled water for approved uses.
	Coordinate planning efforts with South Bay Water Recycling (SBWR) for the future expansions of recycled water systems in the County, and coordinate and compile annual site inspections as required by the State.
	Maintain compliance with State regulations through development plan reviews and site inspections.
	Design, construct, and maintain recycled water pipelines.
Sewer Division Mission	Collect, treat, and dispose of wastewater in an efficient, cost-effective, and environmentally safe manner. Provide for maintenance of stormwater pump stations. Deliver services at approved levels in a cost effective and efficient manner with a focus on outstanding customer service.
	Install property line clean-outs for access for the provision of a courtesy service of maintaining lower laterals for residential sewer customers.
Division Objectives	Maintain seven sanitary sewer and twenty-one stormwater pump stations to ensure reliable service.
	Assist the pre-treatment program staff from the RWF with investigations of City industries.
	Implement Sewer System Management Plan (SSMP) as submitted to the State and Regional Water Quality Control Board.
	Clean, conduct condition assessment, and repair or rehabilitate sanitary sewer collection system.

Significant Accomplishments

- Continued outreach, inspection, and code enforcement of Food Serving Establishments (FSEs) as part of the administration of the Fats, Oils, and Grease (FOG) Program.
- Completed the annual Water and Sewer Rate Study to inform customer service charges for upcoming fiscal years and the Municipal Fee Schedule as well as the 10-year financial plan.
- Finalized amendments to cell tower leases at two Water and Sewer Utilities locations, with revenues to fund the low-income rate assistance program.
- Completed engineering and compliance plan check reviews to facilitate new development.
- Substantially completed Phase 1 and began Phase 2 of Supervisory Control and Data Acquisition (SCADA) replacements and process control improvements (over 40 sites).
- Substantially completed Phase 1 of work to receive approval of the O&M Plan and potable water design for the City Place Santa Clara development.
- Continued work on well rehabilitation and replacement to help ensure supply reliability.
- Completed amendments to the San Francisco Public Utilities Commission (SFPUC) Water Supply Agreement related to the minimum purchase contract.
- With Drought Emergency Declaration including Water Shortage Contingency Plan Stage 2, met conservation goals during historic drought.
- Achieved water conservation goals and mandates from Valley Water, SFPUC, and the State of California including developing rebate programs and working with City departments to reduce water use.
- Fully complied with all water quality regulations, protecting public health by enhancing potable water quality in the distribution system, including per-and polyfluoroalkyl substances (PFAS) monitoring and compliance.
- Replaced lead service line connections at approximately 70 residential locations in coordination with the State Division of Drinking Water (DDW).
- Completed \$10 million rehabilitation of Serra Tanks, refurbishing and seismically retrofitting the three 4 million-gallon reservoir tanks.
- Completed updates to the Water Service and Use Rules and Regulations.
- Completed hydraulic model for fire flows and fire service analyses to support new development.
- Completed water supply assessments (2901 Tasman Drive, Tasman East Specific Plan, 960 Central Expressway, Downtown Precise Plan, & Mission Point) to support water demand and supply planning for City specific plans and new development.
- Created new position of Utility Conservation\Efficiency Coordinator from existing vacancies to focus on implementation of water conservation-related programs.
- Completed emergency sewer repair at Great America Parkway, Union Pacific Railroad (UPRR), and Lafayette Street.
- Completed the assessment by closed-circuit television of approximately 270,000 linear feet and jet flushed approximately 360,000 linear feet of sewer main.
- Completed the annual in-house design, construction, and installation of approximately 7,000 linear feet of water main.
- Finalized Sewer Ordinance updates to comply with the City of San Jose Pretreatment Program.
- Completed the sewer condition assessment for the entire sewer collection system of approximately 288 miles, which took almost eight years to complete.

- Continued to develop recycled water supply and infrastructure improvements with South Bay Water Recycling, and increase recycled water use from new developments, including requiring extension of recycled water system by developers.
- Finalized repair of recycled water line.
- Connected Magical Bridge Playground at Central Park to recycled water
- In cooperation with regional partners (Valley Water, City of San Jose, SFPUC), completed Notice of Intent and Memorandum of Understanding for purified water expansion, including funding a feasibility study and a draft feasibility report.

Significant Objectives

- Complete update of Emergency Response Plan to coordinate response planning with regional partners and better mitigate known hazards by participating in the County Multi-Jurisdictional Hazard Mitigation Plan.
- Complete conversion of Sewer and Water AutoCAD (block book maps) to Geographical Information System (GIS) in coordination with Information Systems Department.
- Increase outreach regarding water conservation and overall environmental sustainability and work to lower per capita water use in the City.
- Complete annual updates to the Water, Sewer, and Recycled Water rates and 10-year financial plans for the three utilities.
- Conduct Automated Meter Infrastructure (AMI) pilot project.
- Continue efforts to seek alternative funding for infrastructure improvements, including the application for grant opportunities.
- Complete the in-house design, construction and installation of approximately 10,000 linear feet of water main annually.
- Complete substantial work on the Lead and Copper Revised Rule (LCRR) inventory of customer service lines by October 2024 to comply with regulatory requirements.
- Implement US Environmental Protection Agency UCMR5 program for potable water sampling, including PFAS monitoring
- Utilize findings of Well Feasibility Study to complete the construction process for two new water wells and complete the rehabilitation of four existing wells.
- Complete substantial work on the One Water Santa Clara – Sustainable Water Supply Master Plan that includes a utility wide asset management program and review of development impact fees.
- Continue comprehensive sampling and cross-connection programs to ensure water quality meets state and federal standards and utilize proactive operational controls to improve the water quality in the distribution system.
- Finalize approval from the State Division of Drinking Water for the Operation and Maintenance Plan for the Related Santa Clara project Phase 1.
- Complete the work on the Tier 2 Water Shortage Allocation Plan, being updated by Bay Area Water Supply and Conservation Agency (BAWSCA) for use during droughts as required by the SFPUC Water Supply Agreement.
- Complete updates to the Sewer System Management Plan (SSMP) to comply with revised Statewide Waste Discharge Requirements.
- Continue to repair or rehabilitate the most severely impacted sewer mains, based on accepted rating criteria.
- Clean and assess the condition of over 600,000 linear feet of sanitary sewer main during the budget cycle.
- In coordination with the Finance Department and financial consultants, finalize existing debt financing for the Regional Wastewater Facility CIP and analyze possible new borrowing, as necessary.

- Complete the approval of the Santa Clara University Campus Wide Plan for recycled water including conversion of three major buildings (FINN South Residence Hall, Athletic Excellence Center, STEM and the North Campus Franklin Pedestrian Mall) to recycled water.
- Optimize the recycled water system and increase the recycled water supply while focusing on expansion opportunities with regional partners.
- Continue alternative water supply planning with BAWSCA, SFPUC, and the City of San Jose, including completion of a purified water feasibility study and continued negotiations regarding making Santa Clara a permanent customer with SFPUC.

Budget Highlights

- The budget reflects updates to the City of Santa Clara's contribution to the Regional Wastewater Facility, co-owned with the City of San José, as well as revised revenues and costs to continue to effectively deliver water, recycled water, and sewer services.
- This budget also reflects the resources necessary to comply with regulations that affect all three utilities and changing climate conditions as well as the commitment of the Department and the City to long term sustainability, both environmental and fiscal.

Water and Sewer Utilities Department

73.00 FTEs

Sewer

0.50 Assistant Engineer (Civil)
0.35 Assistant Director of Water and
Sewer Utilities
1.00 Assistant Sanitary Sewer
Superintendent

Non-Departmental

This page is intentionally left blank.

Non-Departmental Description

The Non-Departmental budget provides a way to report expenditures that are not attributable to a single department, but rather, are citywide in nature such as inter-departmental transfers for capital projects and community grants. This budget also houses key positions with citywide functions and responsibilities.

Divisions and Services

Non-Departmental has three primary program areas: Citywide Programs; Citywide Strategic Planning and Initiatives; and Stadium Operations. The Debt Service budget information is reflected in the Debt Service section of this document.

Citywide Programs Division Mission	Provide strategic direction and management of community investments and citywide expenses not attributable to a single department.
	Coordinate the timely award and distribution of community grants to qualifying individuals, groups and community organizations for events, activities and competitions that provide a public benefit to the City of Santa Clara and its residents.
Division Objectives	Invest in the community's cultural, economic and social vitality in collaboration with community organizations and business partners
	Oversee the efficient and cost-effective management of utilities in Citywide facilities.
	Facilitate the accounting and efficient transfer of funding in support the City's Capital Improvement Program.

**Citywide Strategic
Planning and
Initiatives
Division Mission**

Provide strategic leadership and resolve complex administrative matters performing City-wide policy analysis, overseeing contract and venue management and leading community engagement processes.

Provide professional expertise and support to lead strategic planning and economic development initiatives

Division Objectives

Provide general and administrative oversight of and support to the Convention Center, the Santa Clara Tourism Improvement District (SCTID), and Silicon Valley/Santa Clara DMO, Inc. dba Discover Santa Clara®, Santa Clara's Destination Marketing Organization (DMO). As a critical economic development strategy, leads collaborative efforts with key stakeholders to implement a comprehensive tourism strategy focused on providing elevated destination, convention, and visitor services in Santa Clara; while ensuring alignment of marketing and booking goals between the Convention Center, SCTID and DMO which collectively enhance economic growth and city revenues.

Provide management of the City's real estate portfolio, promote economic development, and generate revenue for the General Fund.

Promote an organizational vision for sustainability through the development and oversight of current initiatives and the development of a comprehensive citywide sustainability program that advances local climate and sustainability targets and complies with State environmental regulations.

Stadium Operations Division Mission

Provide general and administrative support to the Santa Clara Stadium Authority in its oversight of Levi's Stadium and deployment of public safety resources at National Football League (NFL) games and non-NFL games held at Levi's Stadium to ensure safety and to minimize impacts to the surrounding residential and business community.

All General and Administrative, and Police, Fire, and Public Works Department expenditures related to the Stadium are included in this division.

The reimbursements from the Santa Clara Stadium Authority and the Forty-Niners Stadium Management Company, LLC (Stadium Manager) and other Stadium-related revenues such as ground and performance rent, are reported in this division but displayed separately in the General Fund revenues section of this document.

Ensure compliance with Measure J.

Maintain a productive and functional business relationship with Forty-Niners SC Stadium Company, LLC as the tenant of Levi's Stadium.

Develop and implement oversight initiatives consistent with public entity organizations.

Division Objectives

Provide support from the Police, Fire, and Public Works Departments and work collaboratively with the Stadium Manager to maintain a safe environment in and around Levi's Stadium during NFL games and Non-NFL events.

Uphold the Santa Clara Stadium Authority's fiduciary responsibilities and debt obligations.

Ensure that Levi's Stadium is maintained in good condition and operated as a quality NFL and multi-purpose public sports, exhibit, and entertainment facility by the Stadium Manager.

Significant Accomplishments

Citywide Projects

- On November 8, 2022, voters approved Measure G – No Tax Increase, Services Protection Measure, continuing the current practice of the transfer of the revenue generated from the city's 5% utility tax from the utilities budget to the General Fund. Measure G will protect essential services without raising taxes, anticipated to generate approximately \$30,000,000 annually to support City service such as police, fire, street repairs, parks, libraries, and senior services.
- On November 8, 2022, voters approved Measure H – Business License Update/Tax Equity Measure, increasing Santa Clara's 1992 business license tax on businesses to \$45 per employee and \$15 per rental unit on landlords. Measure H will generate approximately \$6,000,000 annually in unrestricted fund that will be used to maintain essential City services.
- Completed multi-year settlement agreement with San José for the North San Jose Area Development Policy resulting in an additional \$9 million for the City of Santa Clara.

Community Partnerships

- Worked collaboratively with Triton Museum to extend the term of its Lease and Operation Agreement for an additional five years to continue providing free public access to art exhibitions and educational programs.
- Worked collaboratively to provide in-kind support for the Parade of Champions (\$65K) and Showtime events (\$12K).
- Effectively administered funding to non-profit community organizations that provide services to the Santa Clara community. Since July 2022, seven grants have been awarded for a total of \$55,479.

Real Estate Management

- Executed approximately 45 leases and 15 Purchase Orders for operations and maintenance for Commerce and Peddlers Plaza.
- Coordinated with the Downtown Community Task Force for downtown city properties (over 35 task force meeting multi-year process).
- Started surplus land process for the property at 2319 Gianera Street (vacant single family home).
- Completed surplus land process for the Loyalton property.
- Renegotiated lease extension for Morse Mansion and initiated discussions regarding possible new vision.
- Started analysis to determine feasibility to relocate SVP offices to Commerce Plaza.
- Completed selection of a realtor to support the City on the sale of City property and other services.

Santa Clara Convention Center and Economic Development Strategy

- Completed the Santa Clara Tourism Improvement District conversion process to establish the District under the Property and Business Improvement District Law of 1994 which provides for a dedicated funding stream to support Destination Marketing Organization efforts and operations. This included the modernization of the assessment formula from \$1.00 per occupied room night to 1.5% of gross short-term room rental revenue for FY 2021/22 and 2.0% for FY 2022/23 and beyond.
- Worked collaboratively with the Destination Marketing Organization in the creation of a new destination brand and the successful trademark of Discover Santa Clara®.
- Contracted by the Destination Marketing Organization to provide fiscal sponsorship services in addition to professional staffing services to support the further development and implementation of the organization.

- Completed updates/renovations to the Santa Clara Convention Center including new paint and flooring/carpet, addition of new décor and furniture in common space areas; addition of the Vintage Valley Marketplace, a “grab and go” retail location; addition of new autonomous food offerings of ramen, warm baked goods, and smoothies; and pop-up Mashgin self-check-out markets.
- Completed the development and launch of a new online Santa Clara Convention Center Customer Satisfaction Survey Program in FY 2022/23.

Sustainability

- Adopted an update to the City Climate Action Plan (CAP) after over two years of community and stakeholder outreach that set targets of a 40% reduction in GHG emissions by 2030, an 80% reduction in GHG emissions by 2035 and carbon neutrality no later than 2045.
- Actively participated in regional climate collaboration efforts and policy development through partnerships such as the Santa Clara County Climate Collaborative, the Silicon Valley Urban Forest Alliance, Joint Ventures Silicon Valley, Santa Clara Valley Water, the Building Decarbonization Coalition, and other neighboring jurisdictions.
- Implemented new purchasing practices around required paper procurement to comply with SB 1383 organics mandate which requires jurisdictions (cities, counties, cities and counties, or special districts that provide solid waste collection services) to purchase paper that has a minimum of 30% post-consumer recycled-content (PCRC) paper products that are recyclable.
- Water Conservation:
 - Expanded water rebate offerings such as greywater and landscape conversion.
 - Launched a multi-pronged water conservation community outreach campaign to promote landscape conversion rebates and more, resulting in over 90,000 square feet of lawn conversions to water wise landscapes.
 - Continued various messaging campaigns focused on the drought and associated water conservation and water rebates.
- Electrification:
 - Implemented all-electric building electrification reach codes including robust EV charging across all building types.
 - Electrification outreach and rebates:
 - SVP partnered with the Santa Clara Unified School District to build out an induction cooking classroom and co-sponsored a twelve-part induction cooking class series to support kitchen electrification.
 - SVP launched a new Smart Panel Rebate program.
 - Added over 100 public EV charging connectors with an equity lens as SVP increases charging service to residents and visitors.
 - Implemented the City Fleet Electrification Program with the purchase of 46 all-electric vehicles as part of the vehicle replacement program and initiated a robust EV fleet charging infrastructure project.
- Clean Mobility:
 - Implemented e-bicycle and e-scooter share program through vendors Veo and Bird.
 - Partnered on the grant funded expansion of the zero emissions Via-Cupertino On-Demand Shuttle service to provide alternative and cleaner modes of transportation.
- Investing in a Sustainable Future:
 - Launched a new SVP Sustainable Futures Scholarship Program in partnership with Santa Clara University focused on building the future leaders in climate and sustainability.
 - Initiated discussions with Mission College to develop a SVP sustainability scholarship program modeled after SVP’s SCU scholarship, scaled, and fit to the community college landscape.

- Provided mentorship opportunities in sustainability to students from high school through university levels, including supporting a team of SCU fellows in their capstone projects and providing mentorship to SVP Sustainable Futures scholarship recipients in research projects that align with City climate action goals.

Stadium Operations

- Coordinated City services, including the deployment of public safety resources, to meet the service needs required to support NFL games for the 2021 and 2022 NFL Seasons and seven (7) major Non-NFL events, including Coldplay, Red Hot Chili Peppers, and Elton John concerts, held in 2022.

COVID-19 Response and Inclement Weather Relief Efforts

- Provided COVID-19 verbal updates to Council monthly beginning in July 2021 and updates every 60 days from April 2022 through January 2023.
- Terminated the local Proclamation of Emergency for COVID-19 on February 7, 2023.
- Deactivated the City's Emergency Operations Center (EOC) for COVID-19 response on February 2, 2023.
- Activated libraries and recreational facilities to provide care and shelter during inclement weather incidents.

Significant Objectives

Community Partnerships

- Effectively administer funding to non-profit community organizations that provide services to the Santa Clara community.

Santa Clara Convention Center and Economic Development Strategy

- Continue to provide strategic oversight of the management of the Convention Center and ensure alignment of marketing and booking goals between the Convention Center, Santa Clara Tourism Improvement District, and the Destination Marketing Organization.
- Continue to work closely with the Convention Center, the Santa Clara Tourism Improvement District and the Destination Marketing Organization (DMO) to evolve the tourism strategy and ongoing development of the DMO.
- Completion of Convention Center Capital Improvement Projects to update internal digital signage and renovations to the Main and Mission kitchens.
- Launch of the Levy's Teaching Kitchen at the Convention Center focused on workforce development and training opportunities for community members in the industry.
- Continue to lead and support the Related development, as well as other significant development projects within the community.

Stadium Operations

- Continue to build and maintain a productive and functional business relationship with Forty-Niners SC Stadium Company, LLC as the tenant of Levi's Stadium in accordance with the applicable agreements.
- Continue to work with the Stadium Manager to ensure safe events at Levi's Stadium with minimal impacts to the surrounding residential and business community.

Real Estate Management

- Continue to develop and implement a comprehensive real estate program to manage City-owned properties, promote economic development, and generate revenue for the General Fund.

Sustainability

- Work with the appropriate City departments to implement near term priorities identified in the 2022 approved City Climate Action Plan (CAP) Update to meet local goals and state regulatory targets.
- Continue to utilize regional partnerships to implement CAP priorities.
- Identify a CAP monitoring system across all departments including conducting an annual greenhouse gas inventory to measure and report progress on adopted targets.
- Ensure continued alignment of the City's CAP with other relevant plans including, but not limited to, Fleet Electrification Plan, SVP Electric Vehicle Blueprint, Bicycle Master Plan, the Santa Clara Urban Water Management Plan (UWMP), and any reach codes that are adopted and meets the goals of state regulatory requirements in the areas of water, solid waste, transportation, and energy.
- Continue to provide mentorship and career growth opportunities for students at the high school, college and university levels including scholarship recipients.
- Explore the development of a sustainability apprenticeship/green jobs program in partnership with local trades or existing apprenticeship programs with an emphasis on energy related careers.
- Continue to implement the City's Fleet Electrification Plan and community Electric Vehicle Charging Program.
- Launch City employee EV charging pilot program.
- Continue to implement and provide staff training on waste reduction best practices and policies within City operations to comply with SB 1383 Organics state mandate.
- Launch an SVP Sustainable Futures Scholarship Program in partnership with Mission College.

Budget Highlights

- The Proposed Budget reduces the golf course maintenance budget to help address the General Fund shortfall. The City's operating lease of the golf course expired, with operations ceasing in FY 2019/20. The former golf course will be developed as part of the Related Santa Clara project; however, the City is currently still responsible for the maintenance of the site until it is turned over completely to the developer. The City anticipates that the remaining funds will be sufficient to cover all maintenance expenses associated with the site.

Summary of the Santa Clara Stadium Authority Budget¹

Revenue	FY2023/24 Adopted
NFL Ticket Surcharge	12,178,000
SBL Proceeds	12,589,000
Interest	1,249,000
Net Revenues from Non-NFL Events	4,500,000
Naming Rights	7,602,000
Sponsorship Revenue (STR)	475,000
Rent	24,762,000
Senior and Youth Program Fees	234,000
Non-NFL Event Ticket Surcharge	1,296,000
Total Revenue	64,885,000

Expenditures	FY2023/24 Adopted
Stadium Operations	4,550,000
Engineering	2,694,000
Guest Services	645,000
Groundskeeping	650,000
Security	1,564,000
Insurance	3,327,000
Stadium Management Fee	354,000
SBL Sales and Service	2,333,000
Ground Rent (Paid to City)	495,000
Senior and Youth Program Fees (paid to City)	234,000
Discretionary Fund Expense	250,000
Utilities	1,391,000
Use of StadCo Tenant Improvements	108,000
Stadium Authority General and Administrative	3,272,000
Stadium Authority Legal Services	300,000
Naming Rights Commission	94,000
Other Expenses	734,000
Transfers Out	36,313,000
Legal Contingency	3,079,500
Total Expenditures	62,387,500

¹Santa Clara Stadium Authority budget was adopted on March 7, 2023 and can be found on the City's website at <https://www.santaclaraca.gov/home/showpublisheddocument/79851/638143129126830000>

Non-Departmental

5.70 FTEs*

Citywide Strategic Planning and Initiatives

0.70 Convention Center / Assistant to the City Manager
1.00 Stadium Oversight / Assistant to the City Manager
1.00 Sustainability Manager / Assistant to the City Manager
1.00 Development Project Manager
1.00 Emergency Services Officer
1.00 Management Analyst

5.70 Total Citywide Strategic Planning and Initiatives FTE

**The positions above represent all funded positions. This excludes the 1.0 Deputy City Manager and 1.0 Office Specialist III positions that were frozen, as approved by the City Council on March 9, 2021 (Agenda Item 5.0 – Report to Council 21-402). This position count also includes 1.0 Management Analyst position that was previously approved in the Stadium Authority Budget.*

		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Reduction in Golf Course Maintenance	0.00	0	(445,311)	0	(454,217)

Program: 3611 – Citywide Programs

This proposal reduces the Non-Departmental golf course maintenance budget from \$519,311 to \$74,000. The City's operating lease of the golf course expired, with operations ceasing in FY 2019/20. The former golf course will be developed as part of the Related Santa Clara project; however, the City is currently still responsible for the maintenance of the site until it is turned over completely to the developer. The City anticipates that the remaining funds will be sufficient to cover all maintenance expenses associated with the site.

Performance Impact

As the golf course ceased operations in FY 2019/20, there is no service delivery impact anticipated with this reduction.

Strategic Pillar:

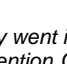

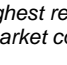

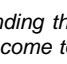

Manage Strategically Our Workforce Capacity and Resources

¹ Updates to the Convention Center Booking Strategy went into effect April 1, 2023. Adjustments were made to the booking windows as well as the event type criteria (number of room nights and total Convention Center spend). The adjusted booking windows now provide a greater emphasis on P1 – P3 groups and events to ensure there is room for the highest revenue producing groups for the DMO, hotels, Convention Center, Levy, and the City. Groups are evaluated based upon priority number, current market conditions, day-of-week pattern, type of group (i.e., industry), Center revenue, and needs of all parties on a case-by-case basis.

² Economic impact is the amount of additional spending that occurs in the community by visitors while attending events at a Convention Center. For example, when Convention Center event attendees come to Santa Clara, they create economic activity that ripples throughout the area: stay at hotels, eat at restaurants, buy at retail stores, visit attractions, etc.

³ Priority 1 (P1) event – Large multi-day convention and/or conference that utilizes all venue space at the Convention Center, utilizes significant venue services such as food and beverage, audio-visual and information technology, and draws a substantial number of out of town visitors that stay in multiple Santa Clara hotels. Based on projected combined building spend and peak hotel room nights booked, has an 18+ month booking window.

⁴ Priority 2 (P2) event – Primarily large multi-day convention and/or conference that utilizes most of the venue space at the Convention Center, utilizes venue services such as food and beverage, audio-visual and information technology, and draws out of town visitor that stay in multiple Santa Clara hotels. Based on projected combined building spend and peak hotel room nights booked, has a 13 – 18 month booking window.

⁵ Priority 3 (P3) event – Multiple or single day event that utilizes space at the Convention Center. Attendance and out of town visitors are less than for a P1 or P2. Examples of P3 events may include trade shows, consumer shows, smaller conventions/conferences, and sporting events. Based on projected combined building spend and peak hotel room nights booked, has a 0 – 13 month booking window.

⁶ Priority 4 (P4) event – Typically a one- or two-day event that utilizes space at the Convention Center. Attendees are primarily local. Special events (e.g. graduations), smaller meetings and/or smaller trade and consumer shows are examples of P4 events. Based on projected combined building spend and peak hotel room nights booked, has 0 -12 month booking window.

⁷ Priority 5 (P5) event – Usually a single day event. Examples of P5 events are banquets, galas, other social type events and meetings. Based on projected combined building spend and peak hotel room nights booked, has a 0 - 6 month booking window.

Performance and Workload Measures

Convention Center OVG360 Venue Management							
Performance Measures							
	Strategic Pillar	2020/21 Actual	2021/22 Actual	2022/23 Target	2022/23 Estimate	2023/24 Target	2024/25 Target
Community Benefit							
Percent of Convention Center employees that volunteer in the community		N/A	0%	60%	30%	60%	60%
Percent of small, local and M/WBE businesses/vendors		N/A	11%	20%	11%	20%	20%
Number of room nights consumed		N/A	16,249	14,755	16,000	26,591	32,738
Number of Prospects ⁸ (active)		N/A	240	220	220	220	220
Number of collaborative, community-based events hosted at the Center		N/A	0	2	1	2	2

⁸ A prospect is a potential customer who has been contacted and qualified by the sales team as having desirable criteria for an event in Santa Clara such as: size of event fits in the venue, there is a history of hotel needs that can be provided by Santa Clara hotels, and they have expressed interest in holding an event in Santa Clara.

Performance and Workload Measures

Convention Center Levy Premium Foodservice							
Performance Measures							
	Strategic Pillar	2020/21 Actual	2021/22 Actual	2022/23 Target	2022/23 Estimate	2023/24 Target	2024/25 Target
Customer Service Survey Results (overall satisfaction)		N/A	90%	90%	90%	90%	90%

Number of Prospects ¹² (active)		N/A	303	550	400	550	550

⁹ The listed targets are only associated with the projected number of P1 and P2 events for FY 2025/26.

¹⁰ The way that this indicator is calculated has been changed. While the goal is for Levy to have a zero waste operation, they will report on the percent of waste production. The goal would be see this percentage decrease year after year until they reach zero percent waste production.

¹¹ Levy worked with non-profit partners who were experiencing difficulty in finding students for the program. Levy is currently researching alternative avenues to recruit students for the program.

¹² A prospect is a potential customer who has been contacted and qualified by the sales team as having desirable criteria for an event in Santa Clara such as: size of event fits in the venue, there is a history of hotel needs that can be provided by Santa Clara hotels, and they have expressed interest in holding an event in Santa Clara.

Sports and Open Space Authority

The Sports and Open Space Authority of the City of Santa Clara (Authority) was created by the City Council in 1974 to establish a separate entity to acquire and develop open space within the City of Santa Clara. The validity of the Authority and its legal existence was established in 1975 by final judgment of the Santa Clara County Superior Court. The Santa Clara Golf and Tennis Club (SCGTC) was developed by the Authority on City-owned land and operated under a management agreement with a private company and a private restaurant facility at the Golf and Tennis Club leased to a private operator. In 1997/98, the City Council set aside approximately 40 acres of the former golf course site to be preserved and maintained as open space, and, in calendar year 1999, the Authority approved the sale of 4.3 acres of the former golf course property to the City's Redevelopment Agency to be disposed of as a site for development of affordable housing.

The Authority terminated operations of SCGTC in late calendar year 2019 and the land will be redeveloped into a mixed-use commercial/residential project. There is minimal funding budgeted in Fiscal Year 2023/24 and Fiscal Year 2024/25 for the Open Space Authority.

Outside Group Funding

The City considers funding non-profit community organizations to meet significant community needs or address concerns of Santa Clara residents. Funding in any case is made on an individual basis dependent upon City budget limitation, past performance and services provided.

Community Organization	Department	Description	FY 2023/24	FY 2024/25
Bill Wilson Center	Community Development	Provides family and individual counseling and youth crisis intervention at local schools and grief support services, including individual and group counseling	30,000	30,000
Catholic Charities Long Term Care Ombudsman	Community Development	Monitors quality of care to elderly and disabled residents of long-term care facilities	10,000	10,000
Firehouse Fun Run	Electric Utility	A Santa Clara community walk/run event established to support Santa Clara Unified School District and local Military Veterans	1,000	1,000
Health Trust – Meals on Wheels	Community Development	Provides seniors and adults with disabilities hot, nutritious meals five days a week	30,000	30,000
Heart of the Valley	Community Development	Provides transportation for seniors and disabled persons who are unable to travel by bus or other public transportation, collect demographic information on new paratransit clients and to coordinate and train volunteers for service delivery	30,000	15,000
HOPE Services – Educational Services	Community Development	Provides educational services to people with developmental disabilities	30,000	30,000
Live Oak Adult Day Services	Community Development	Provides adult day care for dependent and disabled seniors	15,000	15,000
Next Door Solutions	Community Development	Provides case management for residents at HomeSafe Santa Clara, a transitional housing program for victims of domestic violence	30,000	0
Parade of Champions (In-Kind Services)	Non-Departmental	Provides in-kind City resources for the parade to celebrate community champions including civic and community leaders	60,000	61,200
Project Sentinel – Rent Mediation	Community Development	Provides advice, referrals, counseling, and mediation services to tenants and landlords to resolve disputes regarding rental arrangements	67,803	67,803

Community Organization	Department	Description	FY 2023/24	FY 2024/25
Santa Clara Ballet	Non-Departmental	Provides cultural, music, dancing, entertainment and performances	10,000	10,000
Santa Clara Senior Nutrition	Parks and Recreation	Provides daily delivery of meals to severely disabled and homebound seniors	24,000	24,000
Santa Clara Sister Cities Association	Non-Departmental	Funding for the cultural exchange program for the City of Santa Clara's three sister cities, Coimbra, Portugal, Limerick, Ireland and Izumo, Japan	5,659	5,659
Santa Clara Swim Club	Parks and Recreation	Host swim meets which bring national and international visitors to our city	20,000	20,000
Santa Clara Unified School District STEAM Symposium	Electric Utility	Celebration by the Santa Clara Unified School District of Science, Technology, Engineering, Art and Math (STEAM) learning within and out of the classroom	5,000	5,000
Senior Adult Legal Assistance	Community Development	Provides free legal services for seniors that include advice and referrals, document writing and legal representation	30,000	30,000
Women's League – Showtime	Non-Departmental	Raises funds in support of the Senior Center Health and Wellness Program	20,000	20,000
State of the Valley Conference	Electric Utility	Silicon Valley's annual "town meeting" convenes stakeholders from the entire region to discuss the Valley's challenges and opportunities. The Silicon Valley Index is shared and discussed	30,000	30,000
Triton Museum	Non-Departmental	Provides artistic exhibitions and educational programs	295,927	296,054
United Way Silicon Valley – 2-1-1 Phone System	Community Development	Non-emergency information and referral for health and human services	5,000	5,000
Total Outside Group Funding			749,389	705,716

FY 2023/24 Capital Improvement Program Budget Amendments

Cemetery Capital Fund (593)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund / PW Capital Projects Management - Cemetery	(9,597)	(9,597)	Eliminates funding for the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also eliminated.
Total Cemetery Capital Fund	(9,597)	(9,597)	

City Affordable Housing Capital Fund (565)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	5,760,576	5,760,576	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Total City Affordable Housing Capital Fund	5,760,576	5,760,576	

Convention Center Capital Fund (865)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	(69,029)	(69,029)	Decreases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Total Convention Center Capital Fund	(69,029)	(69,029)	

Electric Utility Capital Fund (591)

Project	Source of Funds	Use of Funds	Explanation
Beginning Fund Balance - Unrestricted	10,622,092		Increases the Unrestricted Beginning Fund Balance to reflect the estimated FY 2022/23 Unrestricted Ending Fund Balance.

Electric Utility Capital Fund (591) (Cont'd.)

Project	Source of Funds	Use of Funds	Explanation
Other Revenue (Developer Contributions)	4,992,000		A net increase to Developer Contributions, including: decrease of \$225,000 for the Fiber Development, Design, and Expansion project, increase of \$3.35 million for the New Business Estimate Work project, increase of \$1.1 million for the Transmission and Distribution Capital Maintenance and Betterments project, increase of \$2.8 million for the Memorex Junction Substation project, and a decrease of \$2.0 million for the Transmission Loop 2 project.
Other Revenue (Load Development Fees)	16,865,000		A net increase to the Load Development Fee revenue to support capital projects based on revised capital project needs and funding shifts.
Transfer from the Electric Debt Service Fund	184,300,000		Establishes the transfer from the Electric Debt Service Fund to fund the SRS Rebuild and Replacement, KRS Rebuild and Replacement, NRS-KRS 115kV Line, and the NRS Transformer and Breaker Upgrades projects.
Transfer from the Electric Utility Fund	(27,924,239)		Reduces the transfer from the Electric Utility Fund to support capital projects based on revised capital project needs and funding shifts. This change has been incorporated in the base budget for the Electric Utility Fund.
Substation Physical Security Improvements		(33,223)	Eliminates the project budget for FY 2023/24 to remove associated salary project costs to align with update project timeline. This action is offset by a reduction to the transfer in from the electric utility fund - customer service charges.
Transmission and Distribution Capital Maintenance and Betterments		1,100,000	Increases the project budget to reflect requested work from a developer to perform infrastructure improvements near Fairview Substation. This project is developer funded and an offsetting action is included to increase developer contributions revenue.
Substation Capital Maintenance & Betterments		1,034,000	Increases the project budget to reflect substation capital improvements including a transformer rebuild, transformer control upgrades, switchgear monitoring, and dissolved gas analysis equipment. This increase is funded by a transfer in from the Electric Utility Fund, customer service charges.

Electric Utility Capital Fund (591) (Cont'd.)

Project	Source of Funds	Use of Funds	Explanation
NRS 230kv Spare Transformer		(15,000,000)	Eliminates the project budget to close out the project and consolidate it into the NRS Transformer and Breaker Upgrade Project, formerly the NRS Transformer Replacement project. The project scope will be incorporated into the NRS Transformer and Breaker Upgrades project.
Replace Balance of Plant Control System (DCS)		(2,025,000)	Decreases the project budget to align with updated project timeline. Funding will be reappropriated in future budget actions as needed.
Northwest Loop Capacity Upgrade		2,600,000	Increases the project budget to reflect an updated schedule and coordination of the design for several transmission projects. An increase to the Load Development Fee revenue is recommended to offset this increase.
NRS Breaker 392 Addition		(176,000)	Eliminates the project budget to close out the project and consolidate it into the NRS Transformer and Breaker Upgrade Project, formerly the NRS Transformer Replacement project. The project scope will be incorporated into the NRS Transformer and Breaker Upgrades project.
Memorex Junction Substation		2,767,000	Increases the project budget to align with the updated project schedule and substation agreement. This project is developer funded and an offsetting action is included to increase developer contributions revenue.
60KV Breaker Upgrades		(9,608,000)	Eliminates the project budget for FY 2023/24 to align with the most recent System Expansion Plan Study accepted by Council. Additional details can be found in the system expansion plan report for the California Independent System Operators Transmission Planning Process 2023/24 accepted by the City Council on November 15, 2022 in RTC 22-1172.
SRS Rebuild and Replacement		29,000,000	Increases the project budget to reflect updated costs primarily due to higher material costs. Funding for the increase will be provided by a transfer from the Electric Utility Debt Service Fund.

Electric Utility Capital Fund (591) (Cont'd.)

Project	Source of Funds	Use of Funds	Explanation
KRS Rebuild and Replacement		30,700,000	Increases the project budget to reflect updated costs primarily due to higher material costs. Funding for the increase will be provided by a transfer from the Electric Utility Debt Service Fund.
NRS Transformer and Breaker Upgrades - Formerly the NRS Transformer Replacement project		76,283,394	Increases the project budget to include the addition of two new transformers, 115kV and 60kV bus work, and breaker configuration upgrades at the Northern Receiving Station (NRS). Additional details can be found in the system expansion plan report for the California Independent System Operators Transmission Planning Process 2023/24 accepted by the City Council on November 15, 2022 in RTC 22-1172. This increase also consolidates the scope and budget of the NRS 230kv Spare Transformer and NRS Breaker 392 Addition projects. Funding for the increase will be provided by a transfer from the Electric Utility Debt Service Fund. This action also renames the project from "NRS Transformer Replacement" to "NRS Transformer and Breaker Upgrades".
NRS-KRS 115kV Line		29,258,000	Increases the project budget to reflect an updated schedule to align with design work and easement acquisitions. Funding for the increase will be provided by a transfer from the Electric Utility Debt Service Fund.
Transmission Loop 1 Formerly the Reconfigure Northwest & Center Loops project		3,500,000	Increases the project budget to reflect an updated schedule to align with design work. An increase to the Load Development Fee budget is recommended to offset this increase. This action also renames the project from "Reconfigure Northwest & Center Loops" to "Transmission Loop 1" as was stated in RTC 22-1172 approved by Council November 15, 2022.
Battery Energy Storage System		(58,246)	Decreases the project budget to remove associated salary project costs. This action is offset by a reduction to the transfer in from the electric utility fund - customer service charges.
Duane-Scott 115kV Reconductor		1,620,000	Establishes a new project to upgrade a 115kV transmission line as brought forward in the recent system expansion plan report for the California Independent System Operators Transmission Planning Process 2023/24 accepted by the City Council on November 15, 2022 in RTC 22-1172. An increase to the Load Development Fee budget is recommended to offset this increase.

Electric Utility Capital Fund (591) (Cont'd.)

Project	Source of Funds	Use of Funds	Explanation
South Loop Reconductor		18,610,000	Establishes a new project to upgrade a transmission line to serve additional customer loads as brought forward in the recent system expansion plan report for the California Independent System Operators Transmission Planning Process 2023/24 accepted by City Council on November 15, 2022 in RTC 22-1172. An increase to the Load Development Fee budget is recommended to offset this increase.
Unrestricted Ending Fund Balance		19,282,928	Increases the Unrestricted Ending Fund Balance to offset the actions above.
Total Electric Utility Capital Fund	188,854,853	188,854,853	

Fire Department Capital Fund (536)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund / PW Capital Projects Management - Fire	(1,683)	(1,683)	Eliminates funding for the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also eliminated.
Total Fire Department Capital Fund	(1,683)	(1,683)	

Library Department Capital Fund (537)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund / PW Capital Projects Management - Library	(9,187)	(9,187)	Eliminates funding for the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also eliminated.
Total Library Department Capital Fund	(9,187)	(9,187)	

Parks and Recreation Capital Fund (532)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance	17,060,294		Increases the Unrestricted Beginning Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.

Parks and Recreation Capital Fund (532) (Cont'd.)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund	258,941		Increases the Transfer from the General Fund to partially support the Public Works Capital Project Management allocation.
PW Capital Projects Management - Parks & Recreation		1,020,457	Updates the Public Works Capital Management allocation based on the recalculated project distribution.
Unrestricted Ending Fund Balance		16,298,778	Increases the Unrestricted Ending Fund Balance to offset the action above.
Total Parks and Recreation Capital Fund	17,319,235	17,319,235	

Patrick Henry Drive Infrastructure Improvement Fund (542)

Project	Source of Funds	Use of Funds	Explanation
Patrick Henry Infrastructure Impact Fee / Transfer to the General Fund - Capital Projects Reserve	69,205	69,205	Increases the Revenue estimate and establishes a transfer to the General Fund Capital Projects Reserve (CRR). In FY 2022/23, the CPR will advance funding to this fund for administration costs. This action repays the CPR for these costs in FY 2023/24.
Total Patrick Henry Drive Infrastructure Improvement Fund	69,205	69,205	

Public Buildings Capital Fund (538)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund / PW Capital Projects Management - Public Buildings	148,699	148,699	Updates the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also increased.
Transfer from the General Fund - Capital Projects Reserve / Stationary Standby Generators	(80,000)	(80,000)	Decreases the Stationary Standby Generators budget and the associated transfer from the General Fund Capital Projects Reserve as \$80,000 of funding was advanced from FY 2023/24 to FY 2022/23 as described in RTC 23-1463 approved by the City Council on February 21, 2023.
Total Public Buildings Capital Fund	68,699	68,699	

Recycled Water Capital Fund (597)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	(1,253,540)	(1,253,540)	Decreases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Total Recycled Water Capital Fund	(1,253,540)	(1,253,540)	

Related Santa Clara Developer Fund (540)

Project	Source of Funds	Use of Funds	Explanation
Developer Contributions	(2,073,178)		Decreases the developer contribution estimate from \$3,041,508 to \$968,330 to reflect changes to the project appropriations that will be reimbursed.
Related General Admin Project		(51,853)	Decreases the Related General Admin Project from \$370,183 to \$318,330 to reflect updated FY 2023/24 salary costs.
Related Permit Work Project		(2,021,325)	As part of the Developer Agreement with Related, 8.0 City positions were created to work on the Related Santa Clara project; however, these positions are now unfunded. Of these 8.0 unfunded positions, 7.0 are recommended to be frozen and 1.0 is recommended to be shifted to the Building Development Services Fund.
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	(3,000)	(3,000)	Decreases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Total Related Santa Clara Developer Fund	(2,076,178)	(2,076,178)	

Sewer Utility Capital Fund (594)

Project	Source of Funds	Use of Funds	Explanation
Beginning Fund Balance - Unrestricted	(9,344,249)		Decreases the Unrestricted Beginning Fund Balance from \$9,404,214 to \$59,965 to reflect the breakout of the restricted sewer conveyance fee portion of the fund balance that was previously accounted for in the unrestricted balance.
Beginning Fund Balance - Restricted Sewer Conveyance Fee	22,128,559		Increases the Restricted Beginning Fund Balance - Sewer Conveyance Fee from \$0 to \$22,128,559 to reflect the breakout of the restricted sewer conveyance fee portion of the fund balance that was previously accounted for in the unrestricted balance.

Sewer Utility Capital Fund (594) (Cont'd.)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the Sewer Utility Fund	(7,651,713)		Decreases the transfer from the Sewer Utility Fund from \$11,518,935 to \$3,867,222. This reflects a change in the funding source for the S.J. - S.C. Regional Wastewater Facility project from the Sewer Utility Fund to the Sewer Utility Debt Service Fund. This decrease also accounts for an advancement of funding for the Sanitary Sewer Capacity Improvements project from FY 2023/24 to FY 2022/23.
Transfer from the Sewer Utility Debt Service Fund	10,000,000		Establishes a transfer from the Sewer Utility Debt Service Fund for the S.J. - S.C. Regional Wastewater Facility project. The Water and Sewer Utilities Department intends to issue debt in FY 2023/24 in the amount of \$30.0 million to refinance the Series 2020 (Regional Wastewater Facility) Installment Sale Agreement of \$20.0 million principal outstanding and borrow an additional \$10.0 million of new debt for the Regional Wastewater Facility project.
S.J. - S.C. Regional Wastewater Facility		(2,551,713)	Decreases the S.J. - S.C. Regional Wastewater Facility project appropriation from \$14,968,166 to \$12,416,453. This reduction reflects the latest estimate from the City of San Jose, the co-owner of the Regional Wastewater Facility. A corresponding decrease to the transfer from the Sewer Utility Fund is also recommended to offset this reduction in the project appropriation.
Sanitary Sewer System Improvements		(2,000,000)	Eliminates the Sanitary Sewer System Improvements project appropriation in FY 2023/24 to reflect an advancement of this funding to FY 2022/23.
Sanitary Sewer Capacity Improvements		5,426	Updates the Public Works Capital Management allocation based on the recalculated project distribution.
Sanitary Sewer Hydraulic Modeling As Needed Support		3,120	Updates the Public Works Capital Management allocation based on the recalculated project distribution.
PW Capital Projects Management - Sewer		(347,704)	Updates the Public Works Capital Management allocation based on the recalculated project distribution.
Ending Fund Balance - Restricted Sewer Conveyance Fee		21,913,644	Increases the Restricted Beginning Fund Balance - Sewer Conveyance Fee from \$0 to \$22,913,644 to reflect the breakout of the restricted sewer conveyance fee portion of the fund balance that was previously accounted for in the unrestricted balance.

Sewer Utility Capital Fund (594) (Cont'd.)

Project	Source of Funds	Use of Funds	Explanation
Ending Fund Balance - Unrestricted		(1,890,176)	Decreases the Unrestricted Ending Fund Balance from \$2,310,477 to \$420,301 to reflect anticipated activity in FY 2023/24.
Total Sewer Utility Capital Fund	15,132,597	15,132,597	

Solid Waste Capital Fund (596)

Project	Source of Funds	Use of Funds	Explanation
Beginning Fund Balance - Landfill Corrective Action Costs	22,899		Increases the Ending Fund Balance - Landfill Corrective Action Costs Reserve to account for changes from the FY 2023/24 Adopted CIP budget.
Unrestricted Beginning Fund Balance	(260,134)		Decreases the Unrestricted Beginning Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Ending Fund Balance - Landfill Corrective Action Costs		29,619	Increases the Ending Fund Balance - Landfill Corrective Action Costs Reserve to align with updated estimates.
Unrestricted Ending Fund Balance		(266,854)	Decreases the Unrestricted Ending Fund Balance to offset the action above.
Total Solid Waste Capital Fund	(237,235)	(237,235)	

Storm Drain Capital Fund (535)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund / PW Capital Projects Management - Storm Drain	(117,185)	(117,185)	Updates the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also decreased.
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	40,244	40,244	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Total Storm Drain Capital Fund	(76,941)	(76,941)	

Street Lighting Capital Fund (534)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the Electric Utility Fund	(2,050,000)		Decreases the transfer of customer service funds from the Electric Utility Fund for the Street Lights Replacements - Great America Parkway project.
Great America Street Light Replacement		(2,050,000)	Decreases the project budget to align with updated project timeline. Funding will be reappropriated in future budget actions as needed.
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	48,629	48,629	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Total Street Lighting Capital Fund	(2,001,371)	(2,001,371)	

Streets and Highways Capital Fund (533)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund - Capital Projects Reserve / Street Tree Services	463,050	463,050	This proposal provides one-time funding for the third and final year of the implementation of the Modesto Ash tree removals plan. In FY 2021/22, funding was placed in this CIP to supplement the operating budget for maintaining City Street Trees. Funding will be used for programmed pruning, tree removals, tree planting and responding to emergency tree work. Of the requested amount, \$322,000 will be allocated for the multi-year tree mitigation plan that was approved by Council on February 23, 2021 which brought forth amendments for the City's tree service agreements to increase funding to move forward with the initial phases of the Modesto Ash risk mitigation measures. Additional funding was approved as a Budget Amendment in the form of a new Capital Improvement Project through the FY 2021/22 & 2022/23 Operating Budget process to continue implementing the risk mitigation measures identified in the Plan-It assessment. The remaining \$141,000 will be allocated for emergency tree work, which is utilized throughout the year for storm response and after hour tree calls, as well as for planting new replacement trees. In 2022 the City adopted the City of Santa Clara Municipal Code, Chapter 12.35 Trees and Shrubs stating "if a vacant site where a street tree was removed is suitable to support a new street tree, the site shall be replanted with a suitable tree species from the City tree list." To maintain the 1 to 1 removal planting ratio sufficient funding is required for planting.

Streets and Highways Capital Fund (533) (Cont'd.)

Project	Source of Funds	Use of Funds	Explanation
Other Agencies Revenue / Tasman Complete Streets Plan 2021 Improvements Phase 1 – North San Jose Settlement Project	1,500,000	1,500,000	Increases the estimate for Other Agencies Revenue and the Tasman Complete Streets Plan 2021 Improvements Phase 1 – North San Jose Settlement project in the amount of \$1.5 million to recognize payment from the City of San Jose for the Tasman Complete Streets Plan 2021 Improvements Phase 1 project as part of the North San Jose Settlement, approved by the City on June 28, 2022. This is the second installment of the total payment of \$9,330,000 from the City of San Jose according to the schedule outlined by the settlement. Previously, \$1.5 million has been collected. These funds are to be used for complete street improvements on Tasman Drive.
Transfer from the General Fund / PW Capital Projects Management - Streets and Highways	(223,770)	(223,770)	Updates the Public Works Capital Management allocation based on the recalculated project distribution. The Transfer from the General Fund that supports this cost is also decreased.
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	370,072	370,072	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Total Streets and Highways Capital Fund	2,109,352	2,109,352	

Tasman East Infrastructure Improvement Fund (541)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	3,592,564	3,592,564	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Total Tasman East Infrastructure Improvement Fund	3,592,564	3,592,564	

Water Utility Capital Fund (592)

Project	Source of Funds	Use of Funds	Explanation
Unrestricted Beginning Fund Balance / Unrestricted Ending Fund Balance	5,136,007	5,136,007	Increases the Unrestricted Beginning Fund Balance and Unrestricted Ending Fund Balance to account for changes from the FY 2023/24 Adopted CIP budget.
Total Water Utility Capital Fund	5,136,007	5,136,007

Recommended Revisions to the FY 2023/24 Operating and Capital Improvement Program Budget

Department	FY 2023/24 Source of Funds	FY 2023/24 Use of Funds	FY 2024/25 Source of Funds	FY 2024/25 Use of Funds	Explanation
General Fund (001)					
Beginning Fund Balance	1,022,000				Increases the beginning fund balance to use expenditure savings from FY 2022/23 to fund the budget actions below.
City Manager's Office - Management Review		100,000			Increases the FY 2023/24 City Manager's Office budget to add consultant funding to evaluate the organizational structure.
City Manager's Office - Small Business Assistance Carryover		330,000			On September 7, 2021, the City Council approved Report to Council 21-1134, which recognized funds from a settlement agreement with the Silicon Valley Chamber of Commerce and appropriated the funding for small business assistance. This action increases the FY 2023/24 City Manager's Office budget to reflect the carryover of the unspent funds. A separate action to use these funds to provide a one-time subsidy for small businesses with fewer than 49 employees is recommended separately as part of the June 27, 2023 City Council Agenda.
Library Department - Contractual Services Carryover		300,000			Increases the FY 2023/24 Library Department budget to reflect the carryover of unspent FY 2022/23 contractual services funds of \$250,000 for the Library Facilities Master Plan and \$50,000 of remaining funds for the Library Strategic Plan.
Human Resources Department - Recruitment/Hiring Program		50,000			Increases the FY 2023/24 Human Resources Department Budget to support recruitment/hiring efforts. This will fund various recruiting strategies to fill vacant positions by highlighting opportunities in the City of Santa Clara.

City of Santa Clara

Recommended Revisions to the FY 2023/24 Operating and Capital Improvement Program Budget

Department	FY 2023/24 Source of Funds	FY 2023/24 Use of Funds	FY 2024/25 Source of Funds	FY 2024/25 Use of Funds	Explanation
General Fund (001) (Cont'd.)					
Human Resources Department - City- Wide Training		30,000			Increases the FY 2023/24 Human Resources Department Budget to support city-wide training, such as customer service trainings, professional development trainings, and supervisor/leadership trainings.
Human Resources Department - Employee Recognition		12,000			Increases the FY 2023/24 Human Resources Department Budget to support employee recognition efforts.
Public Works Department - Development Fee Program Fund Consultant		100,000			Increases the FY 2023/24 Public Works Department Budget for consultant services to provide support in analyzing and creating a new Public Works Development Fee Program Fund.
Public Works Department - Storm Drain Environmental Compliance Fee Study		100,000			Increases the FY 2023/24 Public Works Department budget for consultant services to conduct a storm drain environmental compliance fee study.

City of Santa Clara

Recommended Revisions to the FY 2023/24 Operating and Capital Improvement Program Budget

Department	FY 2023/24 Source of Funds	FY 2023/24 Use of Funds	FY 2024/25 Source of Funds	FY 2024/25 Use of Funds	Explanation
City Affordable Housing Fund (165)					
Transfer from City Affordable Housing Capital Fund	1,600,000				This action recognizes a transfer from the City Affordable Housing Capital Fund to provide funding for the Homekey - Benton/Lawrence Operations. This funding is from the Santana West Settlement Agreement.
Transfer from Housing Authority Fund	3,524,369				This action recognizes a transfer from the Housing Authority Fund to provide funding for the Homekey - Benton/Lawrence Operations.
Homekey - Benton/Lawrence Operations		5,124,369			On May 2, 2023, the City Council directed staff to set aside funding of up to \$5.5 million to help fund operations of the Homekey Interim Housing Development. This action establishes the appropriation for the Homekey - Benton/Lawrence Operations funding. The remaining funding is anticipated to come from the City's annual entitlement of California Permanent Local Housing Allocation (PHLA) program funds, which is administered by the County.
	5,124,369	5,124,369	-	-	
City Affordable Housing Capital Fund (565)					
Transfer to City Affordable Housing Fund		1,600,000			This action establishes a transfer to the City Affordable Housing Fund to provide funding for the Homekey - Benton/Lawrence Operations. This funding is from the Santana West Settlement Agreement.

City of Santa Clara

Recommended Revisions to the FY 2023/24 Operating and Capital Improvement Program Budget

Department	FY 2023/24 Source of Funds	FY 2023/24 Use of Funds	FY 2024/25 Source of Funds	FY 2024/25 Use of Funds	Explanation
City Affordable Housing Capital Fund (565) (Cont'd.)					
1601 Civic Center Drive - Low Income Housing Project	-				This is a technical correction to the funding source of the 1601 Civic Center Drive - Low Income Housing Project. As approved by the City Council on September 1, 2020, \$1.6 million of the Santana West Settlement Agreement was to be allocated to the 1601 Civic Center Drive - Low Income Housing project. On May 2, 2023, the City Council directed staff to set aside funding of up to \$5.5 million to help fund operations of the Homekey Interim Housing Development. Staff recommends that the 1601 Civic Center project be funded from housing impact fees collected and the \$1.6 million settlement funding be reallocated to the Homekey development.
Unrestricted Ending Fund Balance - Housing Impact Fees		(1,600,000)			This action decreases the unrestricted ending fund balance to offset the action recommended above.
	-	-	-	-	
Developer Traffic Payments Fund (124)					
Other Revenue / Transfer to the Streets and Highways Capital Fund - Carryover Adjustments	1,108,500	1,108,500			This action carries over the Other Revenue estimate and Transfer to the Streets and Highways Fund of \$1,108,500 from FY 2022/23 for the regional traffic mitigation fees anticipated from Related Santa Clara for the Multimodal Improvement Plan Phase 1 and Multimodal Improvement Plan Phase 2 projects in the Streets and Highways Capital Fund as revenue has not yet been received for the projects.

Recommended Revisions to the FY 2023/24 Operating and Capital Improvement Program Budget

Department	FY 2023/24 Source of Funds	FY 2023/24 Use of Funds	FY 2024/25 Source of Funds	FY 2024/25 Use of Funds	Explanation
Housing and Urban Development Fund (562)					
NCIP - CDBG		(312,552)			On May 9, 2023, the City Council approved the FY 2023/24 Annual Action Plan and directed staff to incorporate all public comment into the final version prior to submission to Housing and Urban Development (HUD). This action incorporates all changes and aligns to the final version submitted to HUD.
Rehab - Affordable Rental Housing		378,222			On May 9, 2023, the City Council approved the FY 2023/24 Annual Action Plan and directed staff to incorporate all public comment into the final version prior to submission to Housing and Urban Development (HUD). This action incorporates all changes and aligns to the final version submitted to HUD.
Homeless Tenant Based Rental Assistance		183,412			On May 9, 2023, the City Council approved the FY 2023/24 Annual Action Plan and directed staff to incorporate all public comment into the final version prior to submission to Housing and Urban Development (HUD). This action incorporates all changes and aligns to the final version submitted to HUD.
Unrestricted Ending Fund Balance		(249,082)			This action decreases the unrestricted ending fund balance to offset the action recommended above.
	-	-	-	-	

City of Santa Clara

Recommended Revisions to the FY 2023/24 Operating and Capital Improvement Program Budget

Department	FY 2023/24 Source of Funds	FY 2023/24 Use of Funds	FY 2024/25 Source of Funds	FY 2024/25 Use of Funds	Explanation
Housing Authority Fund (164)					
Transfer to City Affordable Housing Fund		3,524,369			On May 2, 2023, the City Council directed staff to set aside funding of up to \$5.5 million to help fund operations of the Homekey Interim Housing Development. Of this amount being funded, \$3.5 million is recommended to be transferred to the City Affordable Housing Fund for this purpose.
Unrestricted Ending Fund Balance		(3,524,369)			This action decreases the unrestricted ending fund balance to offset the action recommended above.
	-	-	-	-	
Information Technology Services Fund (045)					
Beginning Fund Balance	475,533				Increases the beginning fund balance to use expenditure savings from FY 2022/23 to fund the adjustments below.
Information Technology - Replace Network Equipment Carryover		296,553			This action carries over the remaining balance for network equipment replacement. After a comprehensive procurement effort and Council approval, staff has been working with the vendor on finalizing the design. Two out of the three main segments of the design are complete and the vendor is working with staff on deploying those areas such as the new firewalls and Datacenter network.
Information Technology - IT Strategic Plan Carryover		100,000			This action carries over one-time funding for the IT strategic plan which is meant to develop effective use of technology to support Council goals and priorities as well as City services.

City of Santa Clara

Recommended Revisions to the FY 2023/24 Operating and Capital Improvement Program Budget

Department	FY 2023/24 Source of Funds	FY 2023/24 Use of Funds	FY 2024/25 Source of Funds	FY 2024/25 Use of Funds	Explanation
Information Technology Services Fund (045) (Cont'd.)					
Information Technology - Computer Replacement Carryover		50,000			This action carries over funding for computer replacement. The Department will be continuing to stretch the life of existing systems as much as possible while funding is built up for a more comprehensive computer replacement in the next couple of years.
Information Technology - County of Santa Clara Cost Sharing		6,000			This action adjusts the budget for a cost-sharing agreement with the County of Santa Clara for image mapping data acquisition. The Department anticipates this agreement's cost will increase in FY 2023/24 and this carryover is anticipated to cover the increase.
Information Technology - Microsoft Licensing Carryover		23,000			This action carries over the remaining balance for Microsoft Licensing to address the increasing number of licenses required throughout City departments.
	475,533	475,553	-	-	
Traffic Mitigation Fund (123)					
Other Revenue / Transfer to the Streets and Highways Capital Fund - Carryover Adjustments	221,500	221,500			This action carries over the Other Revenue estimate and Transfer to the Streets and Highways Fund of \$221,500 from FY 2022/23 for the traffic mitigation fees anticipated from Related Santa Clara for the Multimodal Improvement Plan Phase 1 and Multimodal Improvement Plan Phase 2 projects in the Streets and Highways Capital Fund as revenue has not yet been received for the projects.
	221,500	221,500	-	-	

City of Santa Clara

Recommended Revisions to the FY 2023/24 Operating and Capital Improvement Program Budget

Department	FY 2023/24 Source of Funds	FY 2023/24 Use of Funds	FY 2024/25 Source of Funds	FY 2024/25 Use of Funds	Explanation
Vehicle Replacement Fund (050)					
Beginning Fund Balance	(45,000)		(325,000)		Decreases the beginning fund balance to reflect the acceleration of vehicle purchases.
Capital Outlay		325,000		(325,000)	Increases the FY 2023/24 Capital Outlay budget to fund the replacement of an aerial truck for the Electric Utility Department. This vehicle is currently budgeted for replacement in FY 2024/25; however, funding is recommended to be advanced to FY 2023/24 in an effort to secure pricing and delivery schedule to minimize impacts of higher than normal inflation costs and extended lead times in delivery. Funding in FY 2024/25 is reduced to align with the advance replacement.
Capital Outlay		(45,000)			Decreases the Capital Outlay budget for an electric vehicle replacement for the Electric Utility Department. This vehicle was planned for replacement in FY 2023/24, however, in RTC 23-337 on May 23, 2023 Council approved funding to be advanced to FY 2022/23 to make use of existing contract pricing.
Unrestricted Ending Fund Balance		(325,000)			Adjusts the unrestricted fund balance to fund the action above.
	(45,000)	(45,000)	(325,000)	(325,000)	
Related Santa Clara Developer Fund (540)					
Developer Contributions / Related General Admin Project	9,252	9,252			Increases the developer contribution estimate and the Related General Admin Project to true up the salary costs associated with the project.
	9,252	9,252	-	-

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 5/9/23 Budget Study Session

1. Does the high SVP vacancy rate prevent us from executing projects? If SVP is an enterprise, can't we hire competitively?

Response: Yes, the vacancies can have an impact on projects and proactive maintenance. Holistically, recruitment has been prioritized, and outside recruiting firms/consultants have been brought on to assist in this effort. We are hiring aggressively, but the market is still very competitive. While the SVP vacancy rate is steady, since we have added more positions, the overall number of filled positions has increased.

2. Are we capped at 9.5% for the sales tax? How do transportation-related district taxes factor into that cap?

Response: A district sales tax is a revenue-generating option that requires voter approval. This option will be included as part of the separate discussion of potential ballot measures starting with the November 2024 ballot. The City's current sales tax rate is 9.125% and includes the base statewide rate of 7.25% (State: 6%, City: 1%, County Transportation: 0.25%) and district taxes of 1.875%.

The combined rate of all district taxes imposed in any county is capped at 2% unless particular district taxes are exempted. The chart below from the California Department and Tax and Fee Administration provides a breakdown of Santa Clara County's district taxes. There are two district taxes totaling 0.625% that are exempt from the 2% cap as noted below. The other four county district taxes that count towards the cap total 1.25%, **leaving 0.75% capacity available** for the City of Santa Clara for a maximum rate of 9.875%.

Legal Name	Rate	2% Cap	Operative Date	Sunset Date	ORD No.	AB/SB No.
Silicon Valley Transportation Solutions Tax	0.50%	Exempt	4/1/2017	3/31/2047	2016-01	SB 703 (2017)
2020 Peninsula Corridor Joint Powers Board Retail Transactions and Use Tax	0.125%	Exempt	7/1/2021	6/30/2051	Reso 2020-40	SB 797 (2017-2018)
Santa Clara County Transit District	0.50%	Included	10/1/1976	NONE	2, 2.1, 2.2	
Santa Clara Valley Transportation Authority	0.50%	Included	4/1/2006	3/31/2036	01.1	
Santa Clara VTA BART Operating and Maintenance Transactions and Use Tax	0.125%	Included	7/1/2012	6/30/2042	2011.01	
Santa Clara County Retail Transactions and Use Tax	0.125%	Included	4/1/2013	NONE	NS-7.13; NS-7.19	
Total Included Under 2% Cap	1.25%					
Total Available for City of Santa Clara	0.75%					

There are four cities within Santa Clara County that have approved district taxes: San José (0.25%), Milpitas (0.25%), Campbell (0.25%), and Los Gatos (0.125%).

3. How conservative are we with the growth assumptions from development in our forecast?

Response: Secured property tax growth of 4.5% to 6% annually is projected which is appropriately conservative. This requires growth from new development of approximately \$750 million - \$1 billion annually. New developments may also generate other revenues, such as sales tax and transfer from the City's utilities. The forecast assumes annual growth in these areas that is not tied to particular developments. It is difficult to determine the timing of these projects. From a finance perspective, we do not want to put ourselves in a position where we need to downsize because we

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 5/9/23 Budget Study Session

over-estimated the positive impacts from development. To the extent the City realizes these gains, the forecast will be revised.

4. Are we incorporating Airbnb-type rentals into our Transient Occupancy Tax (TOT)? How diligently are we going after illegal rentals?

Response: The City has a voluntary collection agreement (VCA) with Airbnb to collect TOT on our behalf. The City will also explore entering VCAs with other providers, such as VRBO. There are currently no zoning code requirements that regulate short term rentals from a land use perspective. As part of the Zoning Code Update process, outreach was conducted on the topic and new regulations will be proposed as part of the upcoming Zoning Code Update. As proposed, any short-term rental would be required to obtain an annual permit which would be administratively issued. The Zoning Code Update is scheduled for City Council consideration in October. This would be a policy level discussion. It is also notable that revenue generated from administrative permits would be set at a level to cover the costs of enforcement.

5. 76% of the General Fund Budget goes to Salaries and Benefits. How does that compare to other cities?

Response: There are variances with other cities depending on how and if they budget different services between the General Fund and other funds and variances in their operations (e.g., in-house services vs. contracting out services). The allocation of 70% to 80% of the General Fund budget to salaries and benefits is typical of most cities.

6. With a citywide 16.7% vacancy, does that mean we have around 191 vacancies of our 1149.25 positions?

Response: Yes, that is the correct assumption of roughly 190 vacancies. The goal is to stay ahead of the retirements and other separations from City employment to increase staffing capacity.

7. When does the Federal Grant for SAFER start? Is it when we hire the person or related to the fiscal year?

Response: The three-year grant period began in March 2023 and ends in March 2026. After the expiration of the grant, there would be a net cost to the City to continue funding the 18.0 firefighter positions. These positions provide relief staffing when there are absences rather than the use of overtime; however, the associated overtime savings are not sufficient to cover the staff costs. At the end of the grant period, a budget and policy discussion will be necessary to determine if and how many of the positions to continue and how those positions would be staffed. If the positions are continued beyond the grant period, additional funding not currently included in the Forecast will need to be allocated.

8. What are our options to obtain funding for the \$500 million in unfunded infrastructure need? What are ways we can fund CIP needs like a new swim center, aging fire stations and fire infrastructure, and Central Park North?

Response: Many cities have dedicated capital revenue streams, while the City of Santa Clara has a pay-as-you go approach for much of its infrastructure. A separate Council item will discuss these various funding options for potential ballot measures, starting with the November 2024 ballot.

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 5/9/23 Budget Study Session

9. **Why does the presentation (slide 15) show a reduction in sales tax of \$2 million dollars while the other slides show increased in sales tax?**

Response: Sales tax is expected to grow each year. The decrease in sales tax shown on Slide 15 is a comparison of the previous forecast to an updated forecast. Sales tax did not improve as much as we had previously assumed and actual receipts in FY 2021/22 were below expectations, which lowered the starting point for the updated forecast. Overall, sales tax is increasing, though not at the rate we previously assumed.

10. **Have we incorporated high inflation rates into the budget particularly as they are driving higher construction and labor costs?**

Response: The operating budget has assumptions around labor based on negotiated MOU agreements and the CIP amendments include adjustments to a few projects based on inflation and higher costs. In the upcoming FY 2024/25 and FY 2025/26 Capital Budget cycle, additional adjustments may be brought forward to address the high inflation and construction costs. Capital projects are estimated to also include a contingency to cover unforeseen increases in costs.

11. **How did we factor in the volatility of the CalPERS costs/return? What are the actuarial assumptions for the worst-case scenario and how can we plan for that?**

Response: Yes, we plan for the change in the performance in the two-year budget and the 10-year forecast. For FY 2023/24, the information provided by CalPERS is used for budget development as those figures (normal cost rates and unfunded actuarial liability (UAL) dollar amounts) represent the amounts the City will be charged in FY 2023/24. For FY 2024/25 and the remaining years of the forecast, information from the City's actuary is used to model the projected normal rates and UAL dollar amounts. The rates modeled by the actuary are more conservative and factor in the retirement plan losses experienced in FY 2021/22 and expected reduction of investment return assumptions based on CalPERS risk mitigation policies. The City also has a Pension Trust Reserve in the General Fund and Enterprise Funds, which we have increased as funding is available, to help cover the City's risk.

12. **How are counties and cities resolving the issue with online sales tax distribution? How does the city ensure we are getting our fair share?**

Response: Online sales and use tax can be allocated to the City where a product is sent from if the company has a physical presence in California (e.g., retail store, fulfillment center in California) or can be allocated through the County pool for out-of-state vendors selling in California (the County pool is allocated based on relative sales tax collected by jurisdictions). While the methodology makes it difficult in terms of transparency, the City works with its sales tax consultant to audit sales tax receipts to help ensure the City is receiving all of its revenue. Additionally, the League of California Cities has a subcommittee of City Managers that is working on a new paradigm for allocating sales tax given the move to on-line sales.

13. **Prioritize getting library and senior center hours to pre-COVID times. What needs to be done to accomplish that?**

Response: Planning for increased library and senior center hours are underway. The funding included in the budget is available to increase library and senior center hours, however, filling staff vacancies is ongoing. Recruitments for both full-time and as-needed positions are in progress. Assuming the successful completion of these recruitments, the Departments are developing a

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 5/9/23 Budget Study Session

phased-in implementation plan that would increase both Library and Senior Center hours. During Phase 1, the Senior Center will reopen with limited programming by July 1 with a goal of expanding operations to include Saturday hours. During Phase 2, the Library will seek to increase hours to six-days a week by the Fall. Additional time is needed for the Library Department to properly train new staff and develop the appropriate community programming.

14. What is the update on the On-Demand Shuttle program in collaboration with the City of Cupertino? What can we communicate with the residents?

Response: RTC 23-409 regarding the agreement with Cupertino on the joint on-demand shuttle service project is on the June 6, 2023 Agenda and provides details regarding this program. As described in that RTC, the planned expansion into Santa Clara would occur after completion of the funding agreement between Cupertino and Santa Clara. The RTC describes the phased expansion into Santa Clara, the fares and service hours, the service launch targets, and the funding agreement.

15. How can we explore public/private partnerships in restoring some of our services?

Response: Partnering with outside organizations is part of how we do business. For instance, the Parks & Recreation Department contracts with or establishes Memoranda of Understanding (MOU) with many service providers for special programs and services depending upon the community need and expertise. The Library Department partners with the Santa Clara City Library Foundation and Friends that raises money for all branches of the library to support programming and materials. If additional effort is desired, staff resources would be necessary to support this targeted effort and those resources would be determined based on the scope of that work.

16. While we are ready to hire, how can we explore opportunities for automation and efficiencies and the implementation of AI where we can?

Response: While the budget includes funding for technology, including ongoing improvements and realizing efficiencies, staff would need to explore AI technologies and how further efficiencies could be achieved. As efficiencies are considered, the process must conform with the Civil Service Rules for classified positions.

17. What is the streets capital project at the end of the presentation?

Response: Funding of \$463,050 is provided in the Street Tree Services capital project for the third and final year of the Modesto Ash tree removal. The trees were studied in a consultant report brought to council on February 23, 2021 and were considered a hazard to the city. This action is included in the CIP amendments (Streets and Highways Capital Fund) in the Appendix of the Proposed Budget.

18. What are measures for Council to consider that would augment the City's revenue? Can that be included in the next report we know what we need to discuss?

Response: City staff is researching several ideas for generating revenue and a separate Council item will be brought forward to discuss those ideas (e.g., general obligation bond, parcel tax, documentary transfer tax, district sales tax, utility tax). In the fall, staff will be seeking input on the specific revenues the City Council would like to explore further.

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 5/9/23 Budget Study Session

19. Have we considered removing positions that have had long time vacancies?

Response: Yes, we have used this method over the past three years in the evaluation of budget proposals to bring forward to address the General Fund shortfalls. The strategy now is to fill budgeted positions in order to improve services.

20. Are we adding officers to reopen the Northside substation?

Response: The Community Service Officer (CSO) assigned to the Northside substation was frozen in FY 2020/21 as a budget balancing action and was subsequently restored in FY 2021/22. The position has been approved to hire and the plan is to reopen the substation once hiring of staff is complete. A separate Council item (RTC 23-475) was approved at the May 23rd Council Agenda to extend the property lease to May 31, 2028.

21. How are we using \$1.1 million in reserves in FY 2023/24 and then replenishing it in FY 2024/25?

Response: Based on projected General Fund revenues and expenditures, the use of \$1.1 million of the Budget Balancing Reserve is needed in FY 2023/24 to balance the budget. In FY 2024/25, the reserve is able to be replenished due primarily to the phased implementation of the Transient Occupancy Tax increase as well as additional overtime savings in year two generated from the Fire Department's SAFER grant. In FY 2023/24, overtime savings from the SAFER grant is generated for only a portion of the year after the 18 firefighter positions complete the 5-month Fire Academy while the full year of savings is realized in FY 2024/25.

22. For the Lick Mill Boulevard Beacons project, how much longer are we carrying that forward? Because the costs seem to be increasing.

Response: City Council awarded the design contract in late summer 2022 to make improvements at several locations along Lick Mill Boulevard. This project is actively under design and the consultant is approximately 70% complete. The schedule anticipates bidding out the project for construction in fall 2023.

23. When we use one-time funds, such as ARPA, for ongoing costs are we just adding to future shortfalls? How do we avoid using one-time funds to fund ongoing costs?

Response: As part of the FY 2021/22 and FY 2022/23 operating budget adoption, Council approved the use of one-time stimulus funds to protect services and offset the significant loss revenue due to the COVID-19 restrictions. As a practice, one-time funds are best allocated to one-time expenses with ongoing funds used to cover ongoing expenses. However, there are certain circumstances that warrant the use of a combination of one-time and ongoing solutions to balance the budget. Severe disruptions, such as the pandemic or a deep recession, can quickly change the City's finances and it would cause major service upheavals to close the resulting budget gaps entirely with ongoing solutions. In these cases, a balanced approach can be used to allow time for the City's finances to normalize, determine the true ongoing impacts, and phase in any service impacts.

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 5/9/23 Budget Study Session

24. How much money can we save in third party partnerships if the swim club manages the pool? Additionally, would it be better if we replaced the pool instead of repairing it?

Response: Whether to provide aquatic services in-house, to contract with a third party or some combination thereof is a policy issue. In evaluating this issue, several factors need to be considered: 1) the programming to be provided; 2) the revenues to be generated; 3) the cost to provide services; 3) status of existing agreements; and 4) the fiscal responsibility for capital repair and maintenance costs which are the single most significant cost factor associated with Aquatics programming. While the City has historically partnered with local Swim Clubs for the provision of certain programs, the City has always retained responsibility for day-to-day operations of facilities as well as the costs associated with capital repair and maintenance. However, the City lacks a dedicated source of funding to maintain the City's various pools and the City continues to experience equipment failures that impact services. In an effort to answer the question whether to continue to repair existing facilities or replace, the City has initiated a formal process to hire a qualified consultant to perform a forensic study of the pools. This study will provide expert opinion as to whether existing facilities have reached, or surpassed, their useful life with recommendations as to the whether the facilities can continue to provide services in a safe environment in alignment with health and safety codes. It is anticipated that staff will return to the Council with a recommendation later in the calendar year.

25. How does the Police Department address other public safety issues, etc. unhoused people, mental health? Are we going to allocate any funding to that?

Response: The Police Community Response Team (CRT) deals with quality of life issues that can often be non-criminal/nuisance matters. The unit is currently comprised of four officers and a sergeant. The department is in the process of adding a licensed clinician from the county to the team to assist with emergency calls and long-term mental health cases. The clinician is funded by grant monies. The proposed budget for public safety has no reductions in services or positions; the department is also strongly considering adding additional officers to the unit as staffing improves.

26. Why did the Council budget increase by 30%?

Response: The Mayor and City Council budget increased due to the shift of 1.0 Assistant to the City Manager position from the City Manager's Office to the Mayor and City Council based on the work assignments.

27. What is the status of bringing back the D.A.R.E. program?

Response: The positions in the Police Department are funded in the budget to support drug prevention education. The program was initially paused due to COVID-19 restrictions and has not yet restarted due to staff vacancies. The department is in the early stages of developing a new program to get our officers back into the schools. Staffing permitting, the current plan would introduce a pilot program to include drug prevention education at a few schools in the next school year.

28. While programs like D.A.R.E. are paused, before resuming them, have we looked into replacing them with more effective programs instead? There was concern from residents about the effectiveness of the program.

Response: The Police Department has been evaluating the benefits and drawbacks of the existing program. For a number of reasons, staff has concluded that the nationally regulated curriculum is

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 5/9/23 Budget Study Session

not as effective within our community. The Police Department plans to retain the services of a curriculum development professional to facilitate a collaborative effort with the Santa Clara Unified School District (SCUSD) on developing a homegrown program with lessons and messages that center on our community values. At this time, the plan is to conduct a pilot program with a select number of SCUSD sites in the Spring of 2024, with an intended district-wide deployment beginning in the 2024/2025 school year.

29. Measure M passed a few years ago, but we never took advantage of it. Are we looking into any revenue from cannabis or using Measure M?

Response: The Proposed Budget does not assume any revenue from cannabis. On May 12, 2020, the City Council adopted Ordinance No. 2018, which prohibits all commercial cannabis activities with the City of Santa Clara. Any change to this ordinance is a policy discussion for the City Council that would take into consideration projected revenues and potential impacts on City services and public safety.

30. Do the City of Cupertino's online internet sales with Apple affect the City of Santa Clara?

Response: Some cities have agreements with specific companies to assign point-of-sale (POS) for sales tax purposes to that jurisdiction, resulting in that jurisdiction receiving the entire 1% local sales tax allocated to cities. A portion of the local 1% sales tax is then returned to those companies. The City of Santa Clara does not have any POS agreements. If POS agreements in other cities are dissolved or changed, this could potentially positively impact Santa Clara if it receives some of the sales tax previously allocated to a particular city. The impact of the Apple decision in Cupertino on City of Santa Clara sales tax is unknown at this time. Additional revenue from these sources will not be budgeted until there is data on actual performance.

31. Can we address the missing director for the Police Activities League (PAL) Organization?

Response: The PAL Director has historically been a Police Department position. While the assignment to this function is dependent on available filled staffing in the Police Department, there are concerns regarding the City staffing of this organization. Guidance from the City Attorney's Office will be sought regarding this structure.

32. Can we address being short-staffed in school site officers and community service officers for park patrols?

Response: School Resource Officers (SRO) provide dedicated service to all schools within the city. SROs are unique in that their interactions generally result in punitive results for students. The Police Department has not had SROs for several years – dating back well before COVID-19. As Police staffing continues to improve, we will look at statistics for uniformed response to schools and determine if it merits bringing back SROs.

Proactive park patrol had historically been a role filled by paid Police Reserve Officers. In FY 2020/21, the as-needed budget for park patrols was cut. Since then, the Police Department has used overtime funds to provide some park patrols when needed.

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 5/9/23 Budget Study Session

- 33. With the 12% vacancy rate in the Police Department, what is the plan to manage the vacancy rate as additional upcoming retirements occur? With the World Cup and Super Bowl events in Santa Clara, this is a concern.**

Response: The current hiring process will drop the Police Department's vacancy rate, but upcoming retirements will have an effect. The City will continue to prioritize recruitments and hiring to manage vacancies.

- 34. Can we continue to relook at Park fees charged to youth groups?**

Response: As referred in the April 18, 2023 Council meeting, a separate study session will be scheduled to further discuss this topic.

- 35. Can we work on receiving non-NFL event revenues for the General Fund?**

Response: The booking of events for the Stadium is managed through a management company, the Forty Niners Stadium Management Company, LLC (Management Co). Future Non-NFL Event revenues to the General Fund will be depended on the success of future events and the outcome of ongoing litigation.

- 36. Can get a budget summary for the public?**

Response: A Budget-in-Brief that summarizes the budget has been added to the City's website and is included as an attachment to the Budget Study Session RTC.

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 6/6/23 Budget Study Session

- 1. Confirm the budget provides for expanded library and senior center hours and provide the timeline for the expanded hours. How many positions are budgeted in the Library Department, and how many of the positions are in recruitment? How many positions are budgeted in the Parks and Recreation Department for the Senior Center, and how many positions are in recruitment?**

Response: Yes, the proposed budget includes funding to restore library and senior center hours. It is important to note, however, that as part of the City's cost containment strategy during COVID and in accordance with bargaining agreements, as-needed personnel in both Departments were significantly reduced. As such, while funding is available to support increased staffing in the budget, restoration of increased hours is contingent upon the City's ability to successfully recruit, hire and train personnel. The City has been actively recruiting for both full-time and as-needed staffing in anticipation that funding would be available in the proposed FY23/24 budget.

Within this context, the Departments have developed phased-in implementation plans that would increase both Library and Senior Center hours as follows:

Senior Center – The Senior Center has 4.04 budgeted (and filled positions) dedicated to the site with two additional positions that provide support as collateral duties. In addition, the Department of Parks and Recreation is allocated a lump sum amount to hire as-needed staffing. Given the nature of their programs that can require varying work schedules, the Department utilizes as-needed staffing to ensure flexibility to hire based on program need and the availability of part-time staffing. This enables the Department to offer programs at night and on the weekends as well as for seasonal periods throughout the year. The number of as-needed personnel varies based on program needs and time of the year.

Over the past year, the Senior Center has used approximately 10,000 as-needed hours. Approximately 18,000 as-needed hours would be available in the proposed FY 2023/24 budget for this program. Recruitment is underway for the as-needed positions to support this program.

The Senior Center is currently open 40 hours per week. Effective July 10, 2023, those hours would increase to 52 hours per week, contingent upon successful completion of hiring currently underway. The goal of the Department is to provide 56 hours of service per week at the Senior Center by the fall.

It is important to note that the approved FY 2021/22 and FY 2022/23 Adopted Operating Budget assumes six weeks of non-programmed time throughout the year to allow for maintenance, transitions between seasonal programming and cost savings.

To provide greater access to the natatorium, the number of days of service will also increase to five days by July 10th. An overview of the proposed expansion for both the Senior Center and the natatorium is as follows:

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 6/6/23 Budget Study Session

Facility	Current	July 10	Fall 2023
Senior Center	40 hours per week; Mon. – Fri.: 7 am - 3 pm	52 hours per week; Mon/Wed: 7 am – 7 pm Tues/Thurs/Fri: 7 am– 3 pm Sat.: 8:00 am– 12:00 pm	56 hours per week; Mon/Wed: 7 am – 7 pm Tues/Thurs: 7 am – 5 pm Friday: 7 am to 3 pm Sat.: 8:00 am – 12:00 pm
Natatorium	Mon /Wed 9am-12pm Tue/Thu 8am -12pm open swim	Mon/Wed: 9 am-12 pm; 4 pm-7 pm classes/open swim Tue/Thu 8 am-12 pm open swim Sat 8:30 am-11:30 am open swim	Mon/Wed: 9 am-12 pm; 4 pm-7 pm classes/open swim <i>Hours are subject to change due to staff availability-Check Senior Center News</i>

Library Department – The Library has 42.75 budgeted positions, of which 6.0 positions are vacant. Over the past year, the Library used approximately 13,000 as-needed hours to support daily operations. The FY 2023/24 as-needed budget for the Library would fund almost 26,000 as-needed hours. Recruitment is underway for the 6.0 vacant positions and as-needed staff.

The Library Department currently staffs three sites (Central Park Library, Mission Branch Library and Northside Library) as well as the Bookmobile. In an effort to both maximize the available staffing and ensure service across the system, the Department has been working to cross-train staff for assignment among the varying facilities. In this way, the Department will be able to assign staff based on program need and service demands across all facilities.

The total hours of operation across the three sites is currently 88 hours per week. If the Library is to offer additional days of service, the availability of as-needed staffing is essential. Like the Department of Parks and Recreation, the Library has also been actively recruiting and hiring both full-time and as-needed staffing in anticipation of the new fiscal year. However, the nature of Library work will require additional training and time to develop appropriate community programming. It is anticipated that the Library will be able to complete this effort over the summer and be in position to increase service to six days of operation/144 hours per week by early fall. Hours are an overall goal and subject to change due to staffing logistics and operational needs; the hours may vary per location but will be influenced by peak use.

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 6/6/23 Budget Study Session

The following chart provides an overview of the proposed implementation plan:

Facility	Current	Fall 2023
Central Park Library	32 hours per week; Mon/Fri/Sat: 10 am – 2 pm Tues/Thurs: 12 pm– 7 pm Wed: 12 pm – 6 pm	All locations: 48 hours per week*; Mon/Wed/Fri/Sat: 10 am – 6 pm Tues/Thurs: 11 am – 7 pm
Northside Branch Library	28 hours per week; Tues/Thurs: 12 pm – 7 pm Wed: 12 pm – 6 pm Fri/Sat: 10 am – 2 pm	
Mission Branch Library	28 hours per week; Mon/Wed: 9 am – 5 pm Tues: 12 pm– 7 pm Thurs: 12 pm – 5 pm	* Hours are subject to change due to staffing logistics and operational needs; the hours may vary per location but will be influenced by peak use.

2. Is there a possibility the City can implement an official volunteer program to allow for additional staffing capacity at the library or senior center?

Response: The City advertises volunteer opportunities within the community, including options for City services (e.g., Santa Clara Senior Center, Santa Clara Youth Activity Center) at <https://www.santaclaraca.gov/i-want-to/get-involved/volunteer/community-volunteer-opportunities>. Interested volunteers can find a volunteer application and liability form on the website. Volunteers work in conjunction with City staff to augment and support services. It is important to note that effective use of volunteers requires proper training, management and oversight by full-time staff. Based on the level of experience of the volunteers, this oversight can be significant. Until the full-time vacancies are filled, extensive use of volunteers will continue to be a challenge.

3. How many positions are budgeted in the Police Department? How many positions are in recruitment? What is the progress for hiring for the Northside Substation and the School Site Officers?

Response: There are a total of 221 positions budgeted in the Police Department. Of this amount, 28 positions are vacant, as of June 6, 2023. Recruitment is underway for several job classifications, including Police Officer (lateral and entry level), Dispatcher, Community Service Officer, Jail Service Officer, Records Specialist, Crime Analyst, and Office Specialist. There are 85 applicants on eligibility lists for these positions. The Department is currently backgrounding 12 applicants for open

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 6/6/23 Budget Study Session

positions. These backgrounds are extremely thorough and in full compliance with the State of California Commission on Peace Officer Standards and Training (POST). Backgrounds take between 4-6 months to complete. Due to the pandemic, some of the specialized assignments were diverted to regular patrol. As patrol becomes staffed up, recruitment and hiring has started for various specialized assignments.

The Community Service Officer (CSO) assigned to the Northside Substation and three other vacant CSO positions are approved to hire. With a healthy eligibility list from the Human Resources Department, the Police Department immediately started the background process for the top two CSO candidates. Unfortunately, only one candidate is moving forward, and the department is hopeful to hire that candidate. The Police Department has started reviewing additional candidates to put two more applicants into backgrounds. Please note that the Department has to balance the background load given the numerous classifications in recruitment. The Department anticipates completing the CSO hiring by the end of the calendar year/spring 2024. School Resource Officers (SRO) provide dedicated service to all schools within the city. SROs are unique in that their interactions generally result in punitive results for students. The police department has not had SROs for several years – dating back well before COVID-19. As Police staffing continues to improve, we will look at statistics for uniformed response to schools and determine if it merits bringing back SROs.

- 4. The budget increases the Police Department's vacancy rate based on the ten-year historical average. How are positions budgeted to account for this vacancy rate? What is the contingency should the Police Department hire for every position budgeted for?**

Response: Positions are budgeted based on their full costs (salaries and benefits). Generally, a vacancy factor (typically 3%) is applied to various departments to account for vacancies. For the Police Department, staff analyzed historical vacancy rates over the last decade which averaged over 7% as well as the current vacancy rate to increase the rate for FY 2023/24 and FY 2024/25 from the standard 3% to 7%. This vacancy rate allows for the Police Department to continue to recruit and hire at the same pace as it has been, without any impact to operations. If the Police Department's actual vacancy rate drops below the budgeted level of 7% and the department has a projected budget shortfall, the Finance Department will work with Police Department and the City Manager's Office to determine necessary budget actions (e.g., rebalancing by recognizing savings in other areas, any excess revenues or use of reserves) that will be brought forward for City Council approval.

- 5. What is the update for the DARE program alternative that the Police Department is working with the School District and when would it start?**

Response: While the Department is funded to provide educational programs for fifth grade students that promote healthy and responsible decision-making and builds positive relationships with law enforcement, staff has concluded that the nationally regulated curriculum that has been provided historically is not as effective within our community.

The Police Department is actively pursuing a modern solution that addresses complex social and psychological challenges that drive risky behavior. To accomplish this task, the department plans to contract with a curriculum designer who has experience in creating evidence-based programs. The designer will work with relevant stakeholders (e.g., police officers, school district personnel, mental health professionals, etc.) and best practices in education to gain valuable input to tailor an effective

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 6/6/23 Budget Study Session

program to meet the needs of the community. This approach will also provide us with flexibility now and in the future to adjust the curriculum as we see fit.

Once the curriculum has been developed and agreed upon, the curriculum designer will create a "class in a box" that will be used by police officers and pre-determined, professionally trained personnel to present a multi-week program for 5th grade students. The program will be designed to be engaging and interactive, with a focus on developing critical thinking and decision-making skills. The end product will include the course outline, lesson plan, slide deck, handout templates and any other needed materials.

In addition to providing educational content, the program will also focus on building positive relationships between students and law enforcement. A small contingent of our officers and staff will be selected to present the training to students in a positive and supportive way, as well as to serve as positive role models for young people.

The plan is to conduct a pilot program with a select number of SCUSD sites in the Spring of 2024, with an intended district-wide deployment beginning in the 2024/2025 school year.

6. The PAL program currently does not have a director. What does it mean to get the City Attorney's Office involved in this discussion?

Response: The PAL Director position has historically been filled by personnel from the Santa Clara Police Department. While personnel were re-directed during COVID, the vacancy in the PAL Director position has provided the opportunity to re-evaluate how the City might best support the growing administrative functions of PAL as an independent non-profit while maintaining the critical involvement of the Police Department in PAL programs. The City is sensitive to the need to ensure alignment with employment law and administrative requirements. To that end, the City Manager's office is working with the City Attorney's Office to develop an appropriate staffing plan with clear roles and responsibilities that maintains the integrity of law enforcement involvement while aligning to City employment requirements.

7. What happens to the 18 SAFER grant-funded firefighter positions after the three-year grant period ends?

Response: The three-year SAFER grant period ends in March 2026. After the expiration of the grant, there would be a net annual cost estimated at approximately \$0.6 million - \$1 million to continue funding the 18.0 firefighter positions. These positions provide relief staffing when there are absences rather than the use of overtime; however, the associated overtime savings are not sufficient to cover the staff costs. At the end of the grant period, a budget and policy discussion will be necessary to determine if and how many of the positions to continue and how those positions would be staffed. If the positions are continued beyond the grant period, additional funding not currently included in the Forecast will need to be allocated. The decision regarding these positions is expected to be brought forward as part of the FY 2025/26 and FY 2026/27 Proposed Budget process.

8. What are the one-time budget balancing actions in the budget?

Response: There are several one-time proposals recommended in the proposed budget. This includes the one-time reductions to the Fire Department overtime budget due to the three-year SAFER grant. The 18 firefighter positions funded by the grant will provide additional relief to backfill

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 6/6/23 Budget Study Session

positions and reduce overtime expenditures. There is also a proposal in the Police Department to recognize one-time savings due to vacancies. For this proposal, staff analyzed a ten-year history of the Police Department's vacancies and adjusted the vacancy factor to align to the historical average vacancy rate. This adjustment still allows for the Police Department to recruit and hire as they have been, without any impact and change to current operations.

9. What is the Human Resources Department doing to attract applicants for City positions? Are there sufficient resources allocated to the Department to complete these tasks?

Response: The Human Resources Department (HR) posts job openings on various platforms including the City's website, LinkedIn, etc. During the pandemic and the initial phase of budget cuts, the City let go of approximately 600 as-needed employees. With this sizable number of separations and the standard staff turnover, HR has a large volume of recruitments that take time. The Department is currently working on recruitments for approximately 115 regular full-time positions, and recruitments for approximately 100 part-time As-Needed (Temporary) positions. To address the increased workload and to ensure normal cycle times, the Department is staggering recruitments, conducting recruitments to fill multiple vacancies, and using recruiting firms for hard to fill management positions. While adding resources would decrease the cycle time, the Department is confident the current staffing level is able to handle the workload but will look into the possibility of adding resources.

10. The Capital Projects Reserve (CPR) balance is \$6.6 million. How do we address the growing infrastructure needs (from \$80 million to \$500 million)?

Response: Historically, the City has funded capital projects on a pay-as-you-go basis, which is not best practice or sustainable. Other cities have dedicated capital funding sources, such as parcel taxes, construction & conveyance taxes, or bonds. As discussed with Council, staff will be providing a study session in the fall on various revenue options. It is important to note that the size of the City's unfunded long-term maintenance and infrastructure needs may require both one-time and on-going revenue options.

As the City completes the year-end budget closeout, staff will identify any additional funding that may be set aside to support the Capital Project Reserve. It is anticipated that this will occur in the November/December 2023 timeframe.

11. What is the process to increase documentary transfer tax as well as bring forward a General Obligation (GO) Bond? Are we able to make sure the way the funds are collected are not regressive and harming most vulnerable communities?

Response: In the fall, staff will bring forward a study session on revenue measure options for consideration on the November 2024 ballot. Options will include both the documentary transfer tax as well as a general obligation bond together with other options such as a sales tax increase and parcel tax, for Council's consideration.

A documentary transfer tax is a tax applied to the transfers of real estate. Currently, the City's documentary transfer tax rate is set at the standard rate established by the California Documentary Transfer Tax Act. Charter cities, such as Santa Clara, can impose additional documentary transfer taxes. Other cities within the County, (such as Mountain View, Palo Alto, and San Jose), have increased their tax rate and have also adopted policies to designate this revenue collection for specific uses (e.g., capital infrastructure).

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 6/6/23 Budget Study Session

A general obligation is a bond issued by a local and/or state authority to raise funds for public projects that are in the welfare of the public such as the construction of roads and bridges, public parks, libraries, etc. The bond is guaranteed by both tax revenue and operating revenue.

Both an increase in the documentary transfer tax, as well as the issuance of a general obligation bond, would require voter approval and are typically only considered during a regularly scheduled general election. November 2024 would be the first such opportunity. As part of the 2023 fall study session on revenue measure options, staff will also be seeking approval from the City Council to retain consultant services to help formalize a community input process in advance of any call for an election. This process would be used to help inform the type of projects the revenue would support and the development of appropriate ballot measure language.

Neither the documentary transfer tax nor a GO Bond would be considered regressive taxes (a tax that is applied uniformly regardless of income in which low-and high-income earners pay the same dollar amount).

12. How can we look at the revenue opportunities strategically because we can only bring a couple of options to the public? Some are more or less realistic.

Response: The strategic approach to potential ballot measures will be critical in securing additional resources to meet the City's needs. This will include analyzing the following:

- Prioritization of City needs that can be addressed by potential measures (e.g., capital infrastructure needs)
- Amount of funding that can be generated and the proposed use of those funds/benefit to our community
- Who would pay the taxes/bonds and how would this impact residents/businesses, including the understanding of whether the taxes are regressive or progressive
- Likelihood of voter approval, including the support for different types of capital infrastructure improvements and the potential impact of bringing more than one measure at a time

If the City Council decides to pursue potential ballot measures, the City will retain the services of a consultant to assist with community surveying and outreach to better position the City for success.

13. How is Transient Occupancy Tax (TOT) performing? Has activity recovered from the pandemic impacts?

Response: While TOT collections continue to improve, activity has not yet reached pre-pandemic levels. TOT receipts are tracking at approximately 90% of pre-pandemic levels; however, this is due in part to the TOT rate increase that went into effect in January 2022. Factoring out the rate increase, TOT activity is tracking at approximately 75% of pre-pandemic levels. The reported occupancy rate is currently approximately 67%.

14. There are concerns regarding the Fee Schedule's public facility rentals. When are those fees going to be discussed?

Response: The direction from Council at its April 18th meeting was to have a future session to discuss fees for non-profits and sports leagues. Given the concerns expressed by Council, staff is

FY 2023/24 and FY 2024/25 Proposed Operating Budget Responses to Questions from the 6/6/23 Budget Study Session

recommending that the Department of Parks and Recreation re-engage its third-party consultant to re-evaluate the fees in relation to the Parks Recreation Cost Recovery Policy adopted by the City Council. In doing so, it is recommended that staff conduct additional outreach with affected stakeholders to discuss the goals for the Cost Recovery Policy and develop alternatives to the current fee structure. Given current workload, it is recommended that this work be conducted after the summer season with a goal of reporting the findings and recommendations to the City Council by December 2023/January 2024.

15. With Santa Clara being a growing city, what studies should be done to keep pace with the growth by developing City infrastructures and expanding operations (e.g., increase in City staffing to address growing residential and business needs)?

Response: When there are significant developments, there are studies on the anticipated impacts to infrastructure as well as City services such as public safety, libraries and parks and recreation; the Project Clearance Committee (PCC) reviews each project for compliance with various codes and regulations and the PCC issues conditions of approval to address these impacts. New developments may also require different resources, such as new fire apparatus that meet different needs. The City also has an adopted 2010-2035 General Plan that lays out broad goals and specific policies on land use, community design, circulation, housing, public facilities, open space, recreation, conservation, noise, seismic and safety, and historic preservation. One of the major strategies of the General Plan is to maintain the City's fiscal health and quality services (Chapter 4.6). To continue to maintain the City's fiscal health, the progressive approach for the General Plan provides the framework for measured growth to ensure adequate services and infrastructure.

In addition, various studies are conducted regularly to determine future City infrastructure and assure operational needs are planned for and met. In the utilities, both SVP and Water and Sewer determine the need for future growth and continually plan based upon planning activity and communications with large developers. SVP has a Council-approved growth plan that forecasts future needs that guides resources with anticipated load capacity. Corresponding impact fees were recently updated to fund elements of the SVP growth plan. The Water Utility is developing the One Water Santa Clara–Sustainable Water Supply Master Plan that will provide a roadmap for implementing real world strategies to secure and maintain current and future water supplies while developing new supplies with key programs focused on potable reuse, recycled water and conservation. Additionally, as part of the Master Plan an Asset Management Program will be developed to ensure existing infrastructure replacements support both Water delivery and Sewer conveyance systems. Public Works Department in collaboration with Water & Sewer Utilities is working on Sanitary Sewer Master Plan update to evaluate the capacity of the conveyance system to handle future wastewater flows. The Department of Parks & Recreation is conducting a Parks & Recreation Master Plan and a five-year update of its Facility Condition Assessment. The Library Department has a Library Strategic Plan underway. A water and sewer asset management plan and an update to the Parks infrastructure report conducted in 2017 are also funded and planned.

Lastly, impact fees or the shifting of responsibility to developers under various long-term agreements (Community Facility Districts, Construction & Maintenance Agreements) in the area of parks construction, infrastructure and lifecycle maintenance, traffic, and affordable housing are all geared to offset limited General Funds resources as the City grows. An initial study exploring additional impact fees was completed several years ago which included the potential for impact fees for Fire, a new City Hall, arts, among other areas. The City will continue to evaluate future

**FY 2023/24 and FY 2024/25 Proposed Operating Budget
Responses to Questions from the 6/6/23 Budget Study Session**

studies and impact fees, as well as pursue additional revenue opportunities, to ensure planning and funding is identified to accommodate future City growth.

Budget-in-Brief

**City of
Santa Clara**
The Center of What's Possible

City of Santa Clara Budget-in-Brief

FY 2023/24 and FY 2024/25

Proposed Biennial Operating Budget

To Our Santa Clara Residents:

The Proposed Biennial Operating Budget for fiscal years (FY) 2023/24 and 2024/25 continues the biennial budget process that alternates between an operating and capital budget. This year's budget focuses on our day-to-day operations that support vital City services. Amendments to the FY 2023/24 capital budget are also included.

As part of the budget deliberation process, two City Council study sessions are scheduled for **May 9, 2023** and **June 6, 2023** before the public hearing and planned budget adoption on **June 27, 2023**.

Over the past few years, there have been significant financial challenges stemming from COVID-19. This necessitated General Fund budget balancing actions starting in FY 2020/21 and continued over the past three years. A combination of strategies has been used to address the budget deficits, including the use of one-time reserves and federal stimulus funds, new revenues, and expenditure reductions. This multi-pronged approach has balanced the competing goals of aligning ongoing revenues and expenditures and minimizing the service delivery impacts to the community. It has also allowed time for General Fund revenues to recover. This strategy has positioned the City well for the FY 2023/24 and FY 2024/25 Proposed Budget that solves a smaller projected General Fund deficit.

The City's financial position has significantly improved since the adoption of the FY 2022/23 budget. The latest Ten-Year General Fund Forecast shows smaller deficits of \$8.0 million and \$8.9 million in FY 2023/24 and FY 2024/25. This is well below the \$27 million deficit projected in June 2022 and reflects stronger revenue growth. While the financial picture is much better, it is important to note that significant economic uncertainty and the risk of a recession persist.

Based on the improved financial position, this budget preserves services with fewer reductions necessary. The expenditure reductions limit direct service impacts, with the goal of stabilizing the services residents access on a regular basis as the organization continues to recover from the COVID-19 service disruptions. As part of this recovery, the City continues to fill vacant positions, which will result in an overall improvement to the services the City provides with the funding included in this budget.

City of Santa Clara Budget-in-Brief

FY 2023/24 and FY 2024/25

Proposed Biennial Operating Budget

Property Tax

When you pay your property tax bill to the County, the City of Santa Clara General Fund receives \$10.17 for every \$100 collected. The City anticipates receiving \$85.9 million in FY 2023/24 and \$89.6 million in FY 2024/25.

Per \$100 Collected

Sales Tax

Sales tax revenue in the City of Santa Clara comes from multiple sources. Office equipment, new vehicles, restaurants, wholesale building materials, lights, and department stores were the City's leading economic sales categories in the fourth quarter of 2022, making up almost 56% of sales tax collections.

Sales Tax Generators

Where Your Sales Tax Goes

For every dollar you spend in Santa Clara on taxable purchases, you pay **9.125%** in sales tax or **\$9.125** for each **\$100** purchased.

Cities throughout the State receive a portion of the sales tax collected based on sales made within their respective city. For every \$100 purchase you make within the City of Santa Clara, which is subject to sales tax, the City receives \$1.00. The City anticipates receiving \$60.5 million in FY 2023/24 and \$62.4 million in FY 2024/25.

California statewide sales tax rate is 7.25%, of which the City of Santa Clara receives 1.00%. The total countywide sales tax rate 9.125%. Santa Clara County has the following six voter-approved add-on tax measures:

- 0.125% for County Retail Sales Transactions and Use
- 0.125% for VTA BART
- 0.125% for Peninsula Corridor Joint Powers Board (Caltrain)
- 0.500% for Silicon Valley Transportation Solutions Tax
- 0.500% for Santa Clara County Transit District (SCCT)
- 0.500% for Santa Clara County Valley Transportation Authority (SCVT)

Based on Purchase of \$100 Sales Tax Paid is \$9.125

City of Santa Clara Budget-in-Brief

FY 2023/24 and FY 2024/25

Proposed Biennial Operating Budget

Budget Highlights by Strategic Pillar

Promote and Enhance Economic, Housing and Transportation Development

- The FY 2023/24 budget includes over \$2.0 million of CDBG funds for various public service activities (e.g. family therapy advocacy, educational services, senior adult legal assistance, meals to seniors and adults with disabilities) along with funding for capital projects for affordable housing and public facility improvements. One-time funding from the HOME American Rescue Plan is programmed to provide additional funding for Tenant-Based Rental Assistance and homelessness outreach.
- In FY 2023/24, the Convention Center is projected to have 220 events, with approximately 246,196 in attendance, which reflects over 100% growth in attendance when compared to FY 2022/23 projected attendance.
- Launch and operate a grant-funded on-demand shuttle program with the City of Cupertino.
- Complete several transportation projects, begin work on Vision Zero Study, and continue responding to traffic calming and traffic safety-related public inquiries.

Promote Sustainability and Environmental Protection

- Add Electric Utility funding to support the Large Customer Renewable Energy Program and various initiatives to expedite Greenhouse Gas emission reduction (e.g., new solar installations, and solar combined with electric vehicle (EV) infrastructure for City facilities and neighborhood school locations).
- Optimize the recycled water system and increase supply while focusing on expansion opportunities with regional partners.
- Continue outreach regarding water conservation and overall environmental sustainability.

Manage Strategically Our Workforce Capacity and Resources

- Generate one-time savings from aligning the Police Department's vacancy factor to historical vacancy rates, which will allow for the pace of department hiring to continue as experienced before the pandemic, with no service delivery impacts expected.
- Temporarily reduce the Fire Department's overtime budget as a result of the Department's receipt of the three-year Staffing for Adequate Fire and Emergency Response grant.
- Freeze 3.0 vacant positions in the City Manager's Office, City Attorney's Office, and City Auditor's Office and eliminate 1.0 vacant position in the Human Resources Department.
- Reduce funding for library books and materials; partner with Foundation and Friends to fundraise for materials.

City of Santa Clara Budget-in-Brief

FY 2023/24 and FY 2024/25

Proposed Biennial Operating Budget

Budget Highlights by Strategic Pillar

Deliver and Enhance High-Quality Efficient Services and Infrastructure

- Add positions and other resources in the Community Development Department to support the high volume of development activity funded via development fees.
- Add funding for increased substation maintenance and outage response and repair to ensure reliability of substations in the Electric Utility Department.
- Align resources with expected activity in the City utilities, including adjustments to account for resource and production costs, operating and maintenance costs, and planned debt issuances in FY 2023/24.

Enhance Community Engagement and Transparency

- Library will initiate strategic planning efforts to identify community-based goals for service and align with City Council priorities.
- Community Development Department will continue to engage with the community to inform and involve community members in both long-range and current land use planning activities.
- The FY 2023/24 Stadium Authority Adopted Budget includes funding for the Neighborhood Stadium Relations Committee.

Ensure Compliance with Measure J and Manage Levi's Stadium

- The Stadium Authority's stand-alone Fiscal Year 2023/24 Operating, Debt and Capital Budget was adopted by the Stadium Authority Board on March 7, 2023.
- The \$81.3 million budget provides the necessary funding to administer the duties of the Stadium Authority, including support for operating the Stadium for Non-NFL events through a management company, advancement of the FY 2023/24 work plan, payment of debt service obligations, and maintenance of a five-year capital plan.

Enhance Community Sports and Recreational and Arts Assets

- Rehabilitate and expand park facilities, amenities and playgrounds for all ages and abilities at Warburton Park, Henry Schmidt Park, Westwood Oaks Park playground, Montague Park and Central Park Magical Bridge Playground.
- Acquire, develop and open new buildings at Lawrence Station Area (Nuevo Community Buildings) and a community arts center at Patrick Henry Drive Specific Plan Area.

City of Santa Clara Budget-in-Brief

FY 2023/24 and FY 2024/25

Proposed Biennial Operating Budget

General Fund Budget Balancing Strategy

The budget balancing strategy for FY 2023/24 and FY 2024/25 incorporates a combination of increased revenues, one-time and ongoing expenditure reductions, and use of reserves to address the General Fund shortfall of \$8.0 million in FY 2023/24 and \$8.9 million in FY 2024/25 as shown below. This table also includes an ongoing shortfall figure that reflects the average of the projected shortfalls in years three through five of the Ten-Year General Fund Forecast along with the ongoing balancing actions.

- **Revenue Solutions** - phase in the remaining voter-approved Transient Occupancy Tax increase in FY 2023/24 (1 percent in January 2024) and in FY 2024/25 (1 percent in January 2025), which would increase the rate from 11.5% to 13.5%; incorporate fee adjustments approved by the City Council on April 18, 2023 as part of the adoption of the FY 2023/24 Municipal Fee Schedule.
- **Expenditure Reductions** – one-time expenditure savings in the Fire and Police Departments with no service delivery impacts; other departmental reductions limit direct service impacts, and the 4.0 position reductions are in strategic support areas (City Attorney's Office, City Manager's Office, City Auditor's Office, and the Human Resources Department)
- **Use of Reserves** - uses \$1.1 million of the Budget Balancing Reserve in FY 2023/24 and replenishes the amount in FY 2024/25.

The proposed balancing strategy addresses approximately half of the budget deficit with ongoing solutions. After the biennial budget period, the use of additional budget balancing solutions are expected to be brought forward depending on the fiscal situation at that time.

FY 2023/24 and FY 2024/25 Proposed Biennial Operating Budget General Fund Balancing (\$ in millions)

REPORT TO COUNCIL

SUBJECT

Action Establishing the City's Fiscal Year 2023/24 Appropriations Limit of \$628,493,798 Pursuant to Article XIIIB of the California State Constitution.

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

Annually, the City of Santa Clara (City) is required to calculate the expenditure appropriation limit from tax proceeds to determine compliance with Propositions 4 (Gann Initiative) and 111 (Spending Limitation Act of 1990). On November 6, 1979, the California electorate passed Proposition 4, which created Article XIIIB of the State Constitution placing limits on the amount of revenue that can be spent by governmental agencies. This constitutional amendment, also known as the Gann Initiative, placed limits on the growth of expenditures for publicly funded programs by restricting the amount of revenue that the City can appropriate in any fiscal year. Not all revenues are restricted by the limit, only those that are categorized as proceeds of taxes.

The City's limit has been based on actual appropriations during FY 1978/79, increased annually by an adjustment factor. On June 5, 1990, the California electorate approved Proposition 111, which modified the method of adjusting the annual appropriations limit. Beginning with the FY 1990/91 appropriations limit, the City may choose from the following indices when arriving at an adjustment factor:

1. The annual growth in the City's population or the annual growth in the County's population as provided by the State Department of Finance; and
2. The annual growth in the California Per Capita Income or the growth in the non-residential assessed valuation due to new construction within the City.

DISCUSSION

The City is responsible for dividing citywide revenues between tax and non-tax revenue and applying the formula to the cumulative appropriation limit. For FY 2023/24, the appropriations limit was computed using the annual population growth of the City of Santa Clara (1.54%) and the annual growth in the California Per Capita Income (4.44%). Applying these adjustment factors, the appropriations limit for the City of Santa Clara in FY 2023/24 is \$628,493,798 (Schedule 1). As a result, this calculation limits the City from receiving more than \$628,493,798 in tax-based revenues in FY 2023/24. An analysis of the revenues generated from tax proceeds minus any exempted expenditures (such as debt service, capital outlay and federal mandates) resulted in total revenue subject to the appropriation limit of \$217,487,082 or 34.6% of the limit. The City's appropriations subject to the limit are \$411,006,716 below the FY 2023/24 appropriations limit. Therefore, the City is

in compliance with Article XIII B of the California Constitution.

Schedule 1 provides the history of the City's appropriations limits as adopted by the Council for FY 2014/15 through FY 2022/23 and the appropriations limit recommended for adoption for FY 2023/24.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to section 15378(b)(4) of Title 14 of the California Code of Regulations in that it is a fiscal activity that does not involve commitment to a specific project which may result in potential significant impacts on the environment.

FISCAL IMPACT

There is no fiscal impact to this report. By adopting the Resolution establishing the appropriations limit for FY 2023/24 the City will be in compliance with Propositions 4 and 111.

COORDINATION

This report has been coordinated with the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

RECOMMENDATION

Adopt a Resolution Establishing the City's Fiscal Year 2023/24 Appropriations Limit of \$628,493,798 Pursuant to Article XIII B of the California State Constitution.

2016/17	363,345,984	1.1108	1.0179	1.1307	410,840,550	156,954,895	38.20%
2015/16	341,156,650	1.0531	1.0113	1.0650	363,345,984	133,461,118	36.73%
2014/15	327,531,346	1.0262	1.0150	1.0416	341,156,650	123,316,251	36.15%

On June 5, 1990, the California electorate passed Proposition 111 which modified the method of adjusting the annual appropriations limit. Beginning with the 1990/91 Appropriations Limit, the City may choose from one of the following indices when determining the adjustment factor:

The annual growth in the City's population *or* the annual growth in the County's population as provided by the State Department of Finance.

and

The annual growth in the California Per Capita Income *or* the growth in the non-residential assessed valuation due to new construction within the City.

The 1990/91 Appropriations Limit was revised by applying the new growth factors to the appropriations limits for 1986/87 and each subsequent year. In computing the FY 2023/24 Appropriations Limit, the population growth of the City of Santa Clara and the annual growth in California Per Capita Income was used.

RESOLUTION NO. _____

**A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA
ESTABLISHING FISCAL YEAR 2023/24 APPROPRIATIONS LIMIT
PURSUANT TO ARTICLE XIIIB OF THE CALIFORNIA STATE
CONSTITUTION AS IMPLEMENTED BY TITLE 1, DIVISION 9
(ENTITLED "EXPENDITURE LIMITATIONS" – SECTION 7900 ET
SEQ.) OF THE CALIFORNIA GOVERNMENT CODE**

WHEREAS, Proposition 4, commonly known as the Gann Initiative, was adopted by voters on November 6, 1979;

WHEREAS, the Proposition created Article XIIIB of the California State Constitution placing limits on the amount of revenue which can be spent by all public entities;

WHEREAS, the limit based on the Proposition 4 formula is updated annually using growth data supplied by the State Department of Finance; and,

WHEREAS, the appropriation limit is required to be adopted by the governing body of each public entity.

**NOW THEREFORE, BE IT FURTHER RESOLVED BY THE CITY COUNCIL OF THE CITY OF
SANTA CLARA AS FOLLOWS:**

1. Appropriations Limit. The appropriations limit for fiscal year 2023/24 is Six Hundred Twenty-Eight Million Four Hundred Ninety-Three Thousand Seven Hundred and Ninety-Eight Dollars (\$628,493,798).
2. Calculation Factors. Pursuant to Section 8 of Article XIIIB of the California Constitution, for fiscal year 2023/24 the change in the cost of living shall be measured by the percentage change in California per capita personal income or the growth in the non-residential assessed valuation due to new construction within the City of Santa Clara and the change in population shall be measured by the annual growth in the County of Santa Clara or the City of Santa Clara's population as provided by the State Department of Finance, whichever is higher.
3. Factors for 2023/24. For purposes of computing the appropriations limit for fiscal year 2023/24, the annual growth in the California Per Capita Income is 4.44% and the annual percent

change in City of Santa Clara's population as provided by the State Department of Finance is 1.54%.

4. Notice of Action to be Taken. Pursuant to Government Code Section 7910, no judicial action or proceeding to attack, review, set aside, void, or annul the action of the City Council in establishing the appropriations limit for fiscal year 2023/24 shall be brought unless such action or proceeding shall have been commenced within forty-five (45) days of the date of adoption of this resolution.

5. Effective date. This resolution shall become effective immediately.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED AND ADOPTED BY THE CITY OF SANTA CLARA, CALIFORNIA, AT A REGULAR MEETING THEREOF HELD ON THE 27th DAY OF JUNE, 2023, BY THE FOLLOWING VOTE:

Agenda Date: 6/27/2023

REPORT TO CITY COUNCIL

SUBJECT

Public Hearing: Action on Amendment to the City of Santa Clara General Plan-Re-Adoption of the 2023-2031 Housing Element with Revisions

COUNCIL PILLAR

Promote and Enhance Economic, Housing and Transportation Development

BACKGROUND

The Housing Element, one of the required elements of the City's General Plan, includes policies and programs intended to help the City meet the housing needs of all current and future Santa Clara residents. State law requires that local jurisdictions update their Housing Element every eight years and that the Housing Element be reviewed by the State Department of Housing and Community Development (HCD). Housing Elements are then certified by HCD if found to be in substantial compliance with State Housing law.

For Bay Area towns, cities, and counties, the statutory due date for submittal of an adopted Housing Element, covering the years 2023-2031 (6th housing cycle), was January 31, 2023. Consistent with this deadline, on January 31, 2023, the City Council adopted Santa Clara's 2023-2031 (6th Cycle) Housing Element and submitted it to HCD for their 60-day review. On March 28, 2023, the City received HCD's findings/comment letter (Attachment 1). HCD determined that the City's Adopted Housing Element addresses many statutory requirements but identified additional revisions that in their view were necessary for HCD to certify the City's Housing Element as fully compliant with State Housing Element law. Staff met with HCD on April 20, 2023 to discuss those comments and on June 2, 2023 to discuss staff's draft revisions to the adopted Housing Element to address those comments.

State leadership continues to identify efforts to address the State's housing crisis as a top priority for both legislative and administrative efforts. As a result, the State has significantly increased the requirements placed upon each jurisdiction as they update their local Housing Elements and added more stringent State oversight for the review and approval of each Housing Element.

The lack of a certified Housing Element can reduce the ability of a local jurisdiction to regulate new housing development and reduce access to State funds for as long as the jurisdiction remains out of compliance.

City staff has been diligently working with HCD and the City's consultant (MIG, Inc.) to complete revisions necessary to receive HCD's certification.

State (HCD) Review

On March 28, 2023, the City received HCD's findings/comment letter (Attachment 1) on the City's Adopted Housing Element. HCD identified revisions necessary to receive HCD's certification of compliance in the following areas:

- A. Housing Needs, Resources, and Constraints
- B. Housing Programs
- D. Quantified Objectives
- E. Public Participation
- F. Consistency with General Plan

The draft Housing Element prepared for re-adoption addresses the topics raised by HCD as discussed in the Planning Commission staff report (Attachment #3).

DISCUSSION

The Planning Commission hearing on this item took place on June 14, 2023 (continued from May 24, 2023). Staff provided a presentation (Attachment 2) highlighting the changes made to the Housing Element in response to comments from HCD, including:

- additional programs in the Housing Plan that will help to provide a variety of housing types through a streamlined, by-right process;
- deletion of a number of occupied sites proposed in the first draft that may be unlikely to convert to housing during the 6th cycle;
- added sites along the El Camino Real to maintain an adequate buffer for the sites inventory; and
- more in-depth analysis of how the Housing Element complies with the requirement to Affirmatively Further Fair Housing (AFFH), with data showing that more than 80% of the City's proposed sites are in High or the Highest Resource areas of the City.

The Commission commended staff on the additional work on the Housing Element and asked how the impacts to transportation had been analyzed for the new sites along El Camino, and whether the Valley Transportation Authority (VTA) had been coordinated with regarding additional bus service. Staff responded that the impacts of the land use changes to El Camino Real were analyzed in the 2010 General Plan EIR, and that the proposed rezoning of these sites would result in residential densities consistent with that analysis. Staff also confirmed that the City had coordinated with VTA during the 2010 General Plan Update process, and that VTA would continue to be a partner in the City's ongoing work on the El Camino Real Specific Plan.

Two members of the Carpenters' Union spoke in favor of adding a policy to the Housing Element to promote hiring local labor, hiring from or contributing to apprenticeship programs, and providing a living wage. The two representatives added that apprenticeship programs, including programs for Veterans, can pull people out of poverty, and that the Carpenters' Union offers health care benefits to their members.

Commissioner Biagini made a motion (Bouza seconding) to recommend City Council adoption of the updated Housing Element, with the addition of policy language to the Housing Element to encourage developers and contractors to evaluate hiring local labor, hiring from or contributing to apprenticeship programs, increasing resources for labor compliance, and providing a living wage. The Commission voted unanimously (7-0-0) in favor the motion. The Planning Commission recommendation was

added as Alternative 2 to this report. Alternative 3 was added to provide more specificity than Alternative 2 regarding the City's involvement with developers and contractors in their decision to utilize local labor and associated programs.

ENVIRONMENTAL REVIEW

The City prepared an Addendum to the 2010-2035 General Plan Environmental Impact Report (Attachment 6) for the 6th Cycle (2023-2031) Housing Element, which concluded that there is no substantial change to the General Plan that would require major revisions to the previous EIR; that there is no substantial change in circumstances as a result of modifications to the General Plan that would cause new or substantially more severe significant impacts; and, that there is no new information of substantial importance that identifies new or more intense significant impacts than those identified in the General Plan EIR.

At their public hearing on January 26, 2023, the Planning Commission adopted Resolution No. 23-004 recommending the City Council adopt the Addendum to the General Plan EIR, for adoption of the 6th Cycle Housing Element.

With the adoption of Resolution No. 23-9188 (Attachment 4) at a public hearing on January 31, 2023, the City Council approved the Addendum to the General Plan EIR for adoption of the 6th Cycle Housing Element. Although the proposed action is to make additional revisions to the Housing Element and General Plan, there are no new policies proposed that would generate new or substantially more significant environmental impacts; moreover, the revised inventory identifies slightly fewer sites than in the January element, and so any impacts are likely to be slightly reduced. As such, the General Plan EIR and Addendum remain sufficient for the environmental analysis of the proposed Housing Element.

FISCAL IMPACT

There is no fiscal impact associated with this report. On January 25, 2022, the City Council approved a consultant agreement with MIG, Inc. to update the City's Housing Element and accepted \$499,150 in reimbursable grant funding from the State's Local Early Action Planning (LEAP) grant program. Of this grant funding, \$289,868 will be used to fund MIGs work and the remaining \$209,282 will be used to fund City staff expenses. All grant funds must be expended on or before December 31, 2023.

Adoption of the Housing Element, as drafted, includes new and revised City programs to implement the Housing Element goals and policies in conformance with State requirements. The potential implementation of these programs will require future City Council review, including and analysis of their potential fiscal impacts.

COORDINATION

This report was coordinated with the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Commission agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov

[<mailto:clerk@santaclaraca.gov>](mailto:clerk@santaclaraca.gov) or at the public information desk at any City of Santa Clara public library.

On April 20, 2023, pursuant to Government Code Section 65352(a), the City mailed referral letters to tribes and outside agencies advising them of the City's intent to take action on a General Plan Amendment to adopt revisions to the 2023-2031 Housing Element. The referral letters also included notice of the proposed Planning Commission and City Council hearings.

On May 10, 2023, pursuant to Government Code Sections 65353 and 65355, a notice of public hearing was published in *The Weekly*, a newspaper of general circulation, regarding the Planning Commission and City Council public hearings.

On May 18, 2023, a GovDelivery bulletin was emailed to the City's 1,875 Housing Element Update topic subscribers to let them know of the continuance of the Planning Commission and City Council hearings from May 24, 2023 and June 6, 2023, respectively, with the updated hearing schedule (also posted on the Housing Element Update page).

On June 7, 2023, a GovDelivery bulletin was emailed to the City's 1,899 Housing Element Update topic subscribers to let them know the availability of the draft revisions to the Adopted Housing Element on the Housing Element Update page.

ALTERNATIVES

1. Adopt a Resolution to amend the General Plan by re-adopting the Housing Element for the 2023-2031 Cycle.
2. Adopt a Resolution to amend the General Plan by re-adopting the Housing Element for the 2023-2031 Cycle with the incorporation of language in the Housing Element to encourage developers and contractors to evaluate hiring local labor, hiring from or contributing to apprenticeship programs and providing a living wage.
3. Adopt a Resolution to amend the General Plan by re-adopting the Housing Element for the 2023-2031 Cycle with the incorporation of language in the Housing Element to engage with developers regarding the benefits of hiring local labor, hiring from or contributing to apprenticeship programs, increasing resources for labor compliance, and providing living wages.

RECOMMENDATION

Alternative: 1

1. Adopt a Resolution to amend the General Plan by re-adopting the Housing Element for the 2023-2031 Cycle.

March 28, 2023

Andrew Crabtree, Director
Community Development Department
City of Santa Clara
1500 Warburton Clara
Santa Clara, CA 95050

Dear Andrew Crabtree:

RE: City of Santa Clara's 6th Cycle (2023-2031) Adopted Housing Element

Thank you for submitting the City of Santa Clara's (City) housing element that was adopted on January 31, 2023 and received for review on February 1, 2023. Pursuant to Government Code section 65585, subdivision (h), the California Department of Housing and Community Development (HCD) is reporting the results of its review. In addition, HCD considered comments from Housing Action Coalition pursuant to Government Code section 65585, subdivision (c).

The adopted element addresses some statutory requirements; however, revisions will be necessary to substantially comply with State Housing Element Law (Article 10.6 of the Gov. Code). The enclosed Appendix describes the revisions needed to comply with State Housing Element Law.

For your information, pursuant to Assembly Bill 1398 (Chapter 358, Statutes of 2021), if a local government fails to adopt a compliant housing element within 120 days of the statutory deadline (January 31, 2023), then any rezoning to make prior identified sites available or accommodate the regional housing needs allocation (RHNA) shall be completed no later than one year from the statutory deadline pursuant to Government Code sections 65583, subdivision (c) and 65583.2, subdivision (c). Otherwise, the local government's housing element will no longer comply with State Housing Element Law, and HCD may revoke its finding of substantial compliance pursuant to Government Code section 65585, subdivision (i). Please be aware, if the City fails to adopt a compliant housing element within one year from the statutory deadline, the element cannot be found in substantial compliance until these rezones are completed.

Several federal, state, and regional funding programs consider housing element compliance as an eligibility or ranking criteria. For example, the CalTrans Senate Bill (SB) 1 Sustainable Communities grant; the Strategic Growth Council and HCD's Affordable Housing and Sustainable Communities programs; and HCD's Permanent

Local Housing Allocation consider housing element compliance and/or annual reporting requirements pursuant to Government Code section 65400. With a compliant housing element, the City will meet housing element requirements for these and other funding sources.

For your information, some general plan element updates are triggered by housing element adoption. HCD reminds the City to consider timing provisions and welcomes the opportunity to provide assistance. For information, please see the Technical Advisories issued by the Governor's Office of Planning and Research at:

<https://www.opr.ca.gov/planning/general-plan/guidelines.html>.

We are committed to assisting the City in addressing all statutory requirements of State Housing Element Law. If you have any questions or need additional technical assistance, please contact Jose Armando Jauregui, of our staff, at jose.jauregui@hcd.ca.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Paul McDougall", with a stylized flourish at the end.

Paul McDougall
Senior Program Manager

Enclosure

APPENDIX CITY OF SANTA CLARA

The following changes are necessary to bring the City's housing element into compliance with Article 10.6 of the Government Code. Accompanying each recommended change, we cite the supporting section of the Government Code.

Housing element technical assistance information is available on HCD's website at <https://www.hcd.ca.gov/planning-and-community-development/hcd-memos>. Among other resources, the housing element section contains HCD's latest technical assistance tool, *Building Blocks for Effective Housing Elements (Building Blocks)*, available at <https://www.hcd.ca.gov/planning-and-community-development/housing-elements/building-blocks> and includes the Government Code addressing State Housing Element Law and other resources.

A. Housing Needs, Resources, and Constraints

1. *Affirmatively further[ing] fair housing in accordance with Chapter 15 (commencing with Section 8899.50) of Division 1 of Title 2...shall include an assessment of fair housing in the jurisdiction. (Gov. Code, § 65583, subd. (c)(10)(A).)*

Local Data and Knowledge and Other Relevant Factors: The element generally was not revised to address this requirement. The element must include local data, knowledge, and other relevant factors to discuss and analyze any unique attributes about the City related to fair housing issues. The element should complement federal, state, and regional data with local data and knowledge where appropriate to capture emerging trends and issues, including utilizing knowledge from local and regional advocates and service providers. Please see HCD's prior review for additional information.

Identified Sites and Affirmatively Furthering Fair Housing (AFFH): While the element generally identifies the number of units in the northeast region, it generally does not address this requirement. A full analysis should address the identified sites, including pipeline project, to accommodate the regional housing need allocation (RHNA) with respect to location (e.g., neighborhoods, planning areas, census tracts), the number of sites and units by all income groups and how that affects the existing patterns for all components of the assessment of fair housing (e.g., segregation and integration, access to opportunity). The element should also discuss whether the distribution of sites improves or exacerbates conditions such as isolating the RHNA by income group or not dispersing the RHNA by income throughout the City. If sites exacerbate conditions, the element should identify further program actions that will be taken to promote equitable quality of life throughout the community (e.g., housing mobility, new opportunities in higher resource or income areas, anti-displacement, and place-based community revitalization strategies).

Contributing Factors to Fair Housing Issues: Based on a complete analysis, the element should re-assess and prioritize contributing factors to fair housing issues.

2. *Include an analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected needs for all income levels, including extremely low-income households. (Gov. Code, § 65583, subd. (a)(1).)*

Analyze any special housing needs such as elderly; persons with disabilities, including a developmental disability; large families; farmworkers; families with female heads of households; and families and persons in need of emergency shelter. (Gov. Code, § 65583, subd. (a)(7).)

Include an analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition. (Gov. Code, § 65583, subd. (a)(2).)

Extremely Low-Income (ELI) Households: The element now generally describes the effectiveness of strategies, and the magnitude of the housing need for ELI housing needs. However, as noted in the prior review, the element should analyze the housing needs of ELI households, including tenure and overpayment, and add or modify programs as appropriate. This is particularly important given the disproportionate housing needs of ELI households.

Special Housing Needs: The element was revised with minimal analysis on special housing needs, it must include additional analysis to address the finding. For a complete analysis of each population group, the element should discuss challenges faced by the population, the existing resources to meet those needs (availability senior housing units, number of large units, number of deed restricted units, etc.), an assessment of any gaps in resources, and proposed policies, programs, and funding to help address those gaps.

In addition, while the element now quantifies persons with disability by type, it still must quantify elderly households by tenure and permanent and seasonal farmworkers using USDA agricultural census data.

3. *An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level, and an analysis of the relationship of zoning and public facilities and services to these sites. (Gov. Code, § 65583, subd. (a)(3).)*

Progress in Meeting the RHNA: The element now demonstrates the anticipated affordability of approved, under construction and proposed developments through mechanisms such as affordable housing agreements and mentions approved projects are anticipated to be completed on or after June 30, 2022. However, the element must still address the availability of approved and proposed projects in the planning period and should include a program to monitor availability and take alternative action, if necessary, especially given the noted uncertainty associated with proposed projects (p. 13.6-5). Please see HCDs prior review for additional information.

In addition, the element was not revised to address the realistic capacity of the large several specific plans that were identified. As noted in HCDs prior review, the element

should discuss planned built out horizons, necessary steps to make sites available and any impediments to the availability of sites for development in the planning period.

Parcel Inventory: The element was revised to add the general plan designation of identified sites but should still describe existing uses as noted in the prior review. Specifically, the description of existing use is generic and must include sufficient detail to facilitate an analysis of the potential for addition development on nonvacant sites. For example, many sites describe existing uses as commercial or industrial. Instead, the inventory could describe the existing use through factors such as age and condition of the existing structure expressed developer interest, low improvement to land value ratio, and other relevant factors.

Suitability of Nonvacant Sites: The element generally was not revised to address this requirement and demonstrate the potential for redevelopment of nonvacant sites. Further, the element should respond to the various site suitability issues described by comments received as part of this review. Please see HCD's prior review for additional information.

In addition, as noted in the prior review, if the housing element relies upon nonvacant sites to accommodate more than 50 percent of the RHNA for lower-income households, the housing element must demonstrate that the existing use is not an impediment to additional residential development in the planning period. (Gov. Code, § 65583.2, subd. (g)(2).) Absent findings (e.g., adoption resolution) based on substantial evidence, the existing uses will be presumed to impede additional residential development and will not be utilized toward demonstrating adequate sites to accommodate the RHNA. Based on a cursory review, the City's current Resolution Number 23-9189 does not appear to make the appropriate findings to demonstrate uses will likely discontinue in the planning period and any future re-adoption must address this requirement, if necessary.

Availability of Infrastructure: The element discusses infrastructure management plans and indicates infrastructure capacity is not a constraint on development but should also clearly state whether there is sufficient existing or planned total capacity to accommodate the RHNA. In addition, the element states the City has specific procedures to grant priority for water and sewer service to developments with units affordable to lower-income households, but then explains if a provision is not part of the regulatory framework the City will commit to adopting a procedure within the next year with no program provided. The element should clearly state whether a written procedure is available and, if not, add a program to establish a procedure by a specified date.

Electronic Sites Inventory: For your information, pursuant to Government Code section 65583.3, the City must submit an electronic sites inventory with its adopted housing element. The City must utilize standards, forms, and definitions adopted by HCD. While the City has submitted an electronic sites inventory, if any changes occur, the City should submit the revised inventory to HCD as part of any future re-adoption submittal.

Zoning for a Variety of Housing Types (Emergency Shelters): The element now clarifies emergency shelters are currently permitted in the ML (Light Industrial) zone and are proposed to be permitted in several zones. However, the element was not revised to address HCD's prior finding regarding various requirements such as non-discretionary

review, suitability of sites, development standards and constraints. Please see HCD's prior review for additional information.

In addition, please be aware Chapter 654, Statutes of 2022 (AB 2339), adds specificity on how cities and counties plan for emergency shelters and ensure sufficient and suitable capacity. Future submittals of the housing element may need to address these statutory requirements. For additional information and timing requirements, please see HCD's memo at <https://www.hcd.ca.gov/sites/default/files/docs/planning-and-community/ab2339-notice.pdf>.

4. *An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, and local processing and permit procedures... (Gov. Code, § 65583, subd. (a)(5).)*

Land Use Controls: The element was generally not revised to address HCDs prior findings regarding heights and lot coverages as constraints. Please see HCD's prior review for additional information.

In addition, Action 3 (Affordable Housing Incentives and Facilitation) and Action 9 (Zoning Ordinance) should go beyond reviewing parking standards and make specific commitment to reduce or revise parking requirements and ensure parking requirements do not constrain development.

Fees and Exaction: While the element now quantifies the fees for a large multifamily development, it was not revised to address this finding of listing all pertinent fees as part of the cumulative fees analysis. Please see HCD's prior review for additional information.

Local Processing and Permit Procedures: The element now explains objective standards are used to demonstrate compliance with approval findings for architectural review. However, the element was not revised to address findings regarding the City's planned development (PD) process. While the element now includes Action 9 (Zoning Ordinance) to reduce reliance on the PD process, it should include an analysis as described in HCD's prior review to better formulate the appropriate programmatic response. Please see HCD's prior review for additional information.

Housing for Persons with Disabilities (Reasonable Accommodation): The element now discusses the City's obligation to provide reasonable accommodation in zoning and land use but otherwise, provides no analysis to address HCD's findings. For example, the element does not list or evaluate approval findings. Please see HCD's prior review for additional information.

Inclusionary Housing: While the element describes the broader inclusionary housing policy framework, it must also provide an analysis on the relationship between the inclusionary requirement and State Density Bonus Law (SDBL). For example, the element should

describe how meeting the inclusionary requirement may be used toward eligibility for benefits under SDBL.

In addition, housing element outreach conduct identified that the 100 percent area median income affordability requirement was no longer feasible for residents. In response, the City commits to “assessing the feasibility” in Action 2 (Affordable Housing Ordinance). The City should go above “assessing feasibility” of the current affordable housing ordinance and make specific commitments to also revise the City affordability requirements after the feasibility study has been conducted and include annual outreach as parts of this efforts.

5. *Analyze existing assisted housing developments that are eligible to change to non-low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of use restrictions. (Gov. Code, § 65583, subd. (a)(9) through 65583(a)(9)(D)).*

HCDs prior review found the element should evaluate the risk of conversion; estimate and compare total costs; identify public and private non-profits. In response, the City adds cost comparison of units at-risk; however, the City still must include analysis on the risk of conversion and identify qualified entities.

In addition, Action 5 (Preservation of Assisted Rental Housing) now includes general commitment to work with property owners “when possible”. However, the Action should make specific commitments to monitor at-risk units annually, coordinate with qualified entities annually, prioritize available funding to assist property owners and tenants at risk of conversion.

B. Housing Programs

1. *Include a program which sets forth a schedule of actions during the planning period, each with a timeline for implementation, which may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the Housing Element... (Gov. Code, § 65583, subd. (c)).*

Programs must demonstrate that they will have a beneficial impact within the planning period. Beneficial impact means specific commitment to deliverables, measurable metrics or objectives, definitive deadlines, dates, or benchmarks for implementation. Deliverables should occur early in the planning period to ensure actual housing outcomes. However, the following programs must be revised to include specific commitments and definitive timeline as follows:

- *Action 1 (Provision of a Variety of Housing Types):* The City should commit to identifying housing opportunities and pursuing funds at least annually to support ELI households and persons with disabilities.

- *Action 3 (Affordable Housing Incentives and Facilitation)*: The Program was revised to include timing; however, language such as “explore “should be removed or modified with commitment to actual housing outcomes.
 - *Action 4 (Maintenance of Housing Stock)*: The Program now commits to conducting outreach to determine interest and feasibility but should include subsequent actions toward actual housing outcomes such as funding activities.
 - *Action 11 (Impact Fees)*: Timelines identified should be revised to reflect implementation during the eight-year planning period.
 - *Action 15 (Homeownership for First-Time Buyers)*: The Program should add discrete timing for action implementation for outcomes (e.g., 2025).
 - *Action 16 (Fair Housing programs)*: Action items identified should be revised to include timelines.
2. *Identify actions that will be taken to make sites available during the planning period with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city’s or county’s share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Government Code section 65584.09. Sites shall be identified as needed to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing. (Gov. Code, § 65583, subd. (c)(1).)*

As noted in Finding A3, the element does not include a complete site analysis; therefore, the adequacy of sites and zoning were not established. Based on the results of a complete sites inventory and analysis, the City may need to add or revise programs to address a shortfall of sites or zoning available to encourage a variety of housing types.

In addition, the element includes Actions 1 (Variety of Housing Types) and 9 (Zoning Ordinance) to amend zoning to allow a variety of housing types, including SROs, employee housing, emergency shelters, low barrier navigation centers and by-right permanent supportive housing. However, the element should be revised to include at least parameters or certainty for the outcome of these commitments such as comply with state law citing government code or describing requirements (e.g., permit without discretionary action). In addition, the actions should commit to amending zoning for emergency shelters as described on page 13.5-10 and remove ambiguous and non-committal language such as “as necessary”.

3. *Address and, where appropriate and legally possible, remove governmental and nongovernmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities. (Gov. Code, § 65583, subd. (c)(3).)*

As noted in Finding A4, the element requires a complete analysis of potential governmental constraints. Depending upon the results of that analysis, the City may need to revise or add programs and address and remove or mitigate any identified constraints.

In addition, Action 9 (Zoning Ordinance) was not revised to address all HCDs prior findings. Specifically, the City now acknowledges group homes of seven or more; however, it must commit to amend zoning for a variety of housing types in Action 1 by a specific date and clarify that zoning and permit procedures will be amended to permit these housing types in all zones allowing residential use with objective standards to facilitate approval certainty similar to other residential uses.

4. *Promote and affirmatively further fair housing opportunities and promote housing throughout the community or communities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability, and other characteristics... (Gov. Code, § 65583, subd. (c)(5).)*

As noted in Finding A1, the element must include a complete analysis of AFFH. Based on the outcomes of that analysis, the element must add or modify programs. Additionally, the element included Table 13.3-20 (p. 13.3-72) identifying AFFH actions the City could take to address fair housing issues. For example, the Table notes the City could increase housing choice voucher (HCV) mobility and acquire properties for affordable housing. However, beyond promoting HCVs and exploring property acquisitions, the actions do not include specific commitments to addressing fair housing issues. Goals and actions must specifically respond to the analysis and to the identified and prioritized contributing factors to fair housing issues and must be significant and meaningful enough to overcome identified patterns and trends. Actions must have specific commitment, metrics, milestones, and geographic targeting and, as appropriate, must address housing mobility enhancement, new housing choices and affordability in higher opportunity and income areas, concentrated areas of affluence and place-based strategies toward community revitalization and displacement protection.

5. *Develop a plan that incentivizes and promotes the creation of accessory dwelling units that can be offered at affordable rent, as defined in Section 50053 of the Health and Safety Code, for very low, low-, or moderate-income households. For purposes of this paragraph, “accessory dwelling units” has the same meaning as “accessory dwelling unit” as defined in paragraph (4) of subdivision (i) of Section 65852.2. (Gov. Code, § 65583, subd. (c)(7).)*

Action 1 (Provision of a Variety of Housing Types) now commits to establish incentives to promote accessory dwelling units (ADU) as well as monitoring the production of ADUs. However, the Action should also monitor affordability, specify when a plan will be presented to the City Council and specify when an alternative strategy will be implemented (e.g., within six months). In addition, the Action should clarify that rezoning may be necessary as part of alternative actions.

D. Quantified Objectives

Establish the number of housing units, by income level, that can be constructed, rehabilitated, and conserved over a five-year time frame. (Gov. Code, § 65583, subd. (b)(1 & 2).)

The element was revised to include minimal ELI objectives added for rehabilitation and conservation while also reducing overall conservation and rehabilitation objectives. The City must revise overall conservation and rehabilitation objectives to target meaningful outcomes in the planning period. As noted in HCD's previous review, conservation units should not be limited to only units at-risk and should include other activities the City has undertaken to rehabilitate and conserve housing. Please see HCD's prior review for additional information.

E. Public Participation

Local governments shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the Housing Element, and the element shall describe this effort. (Gov. Code, § 65583, subd.(c)(9).)

While the City made effort to include the public through workshops and surveys, and summarized public comments received and identified how public concerns were addressed. However, HCD received comments on this review that should be addressed, including considering and incorporating comments as appropriate. Example of issues include errantly listing small sites as aggregated sites, calculations of residential capacity and existing uses that impeded additional development in the planning period.

Public participation in the development, adoption and implementation of the housing element is essential to effective housing planning. Throughout the housing element process, the City should continue to engage the community, including organizations that represent lower-income and special needs households, by making information regularly available and considering and incorporating comments where appropriate. Please be aware, any revisions to the element must be posted on the local government's website and to email a link to all individuals and organizations that have previously requested notices relating to the local government's housing element at least seven days before submitting to HCD.

F. Consistency with General Plan

The Housing Element shall describe the means by which consistency will be achieved with other general plan elements and community goals. (Gov. Code, § 65583, subd. (c)(7).)

While the element states it has been prepared to maintain internal consistency, it still should discuss how consistency will be maintained throughout the entire planning period. For example, the element could describe internal consistency will be maintained as part of the annual progress report pursuant to Government Code section 65400 or as general plan amendments occur.

Housing Element

Background

- One of required elements of General Plan
- Updated every 8 years. Reviewed by HCD and certified if found to be in substantial compliance
- Prior 5th Cycle Housing Element: adopted December 9, 2014; certified by HCD February 13, 2015; ended January 31, 2023
- City Council Adopted 6th Cycle Housing Element January 31, 2023
- HCD 60-day review
- March 28, 2023, the City received HCD's findings/comment letter

2

2

Housing Element

HCD Findings (March 28, 2023)

HCD identified revisions necessary to receive HCD's certification of compliance in the following areas:

- A. Housing Needs, Resources, and Constraints
- B. Housing Programs
- C. Quantified Objectives
- D. Public Participation
- E. Consistency with General Plan

3

3

Housing Element

Re-Adoption / Certification Process

- April 20, 2023 – staff met with HCD staff to review comments
- April-June – Staff and consultants prepared revised Housing Element
- June 2, 2023 – staff met with HCD staff to review City's response
- June 14, 2023 – Planning Commission hearing
- June 27, 2023 – City Council adoption hearing
- July-August – HCD Review

4

4

Housing Element

Sites to Meet the RHNA (Sites Inventory)

- HCD asked City to respond to public comments received on proposed Sites to meet the City's Regional Housing Needs Assessment (RHNA)
- Public comments focused on likelihood of residential use of properties within Specific Plan areas within Housing Element timeframe
- Staff response includes:
 - additional information (e.g., communication with property owners to verify their willingness to redevelop) and
 - additional possible sites

Agenda Report

23-602

Agenda Date: 6/14/2023

REPORT TO PLANNING COMMISSION

SUBJECT

Amendment to the City of Santa Clara General Plan and Re-Adoption of the 2023-2031 Housing Element with Revisions

COUNCIL PILLAR

Promote and Enhance Economic, Housing and Transportation Development

BACKGROUND

The Housing Element, one of the required elements of the City's General Plan, includes policies and programs intended to help the City meet the housing needs of all current and future Santa Clara residents. State law requires that local jurisdictions update their Housing Element every eight years and that the Housing Element be reviewed by the State Department of Housing and Community Development (HCD). Housing Elements are then certified by HCD if found to be in substantial compliance with State Housing law.

For Bay Area towns, cities, and counties, the statutory due date for submittal of an adopted Housing Element, covering the years 2023-2031 (6th housing cycle), was January 31, 2023. Consistent with this deadline, on January 31, 2023, the City Council adopted Santa Clara's 2023-2031 (6th Cycle) Housing Element and submitted it to HCD for their 60-day review. On March 28, 2023, the City received HCD's findings/comment letter (Attachment 1). HCD determined that the City's Adopted Housing Element addresses many statutory requirements but identified additional revisions that in their view were necessary for HCD to certify the City's Housing Element as fully compliant with State Housing Element law. Staff met with HCD on April 20, 2023 to discuss those comments and on June 2, 2023 to discuss staff's draft revisions to the adopted Housing Element to address those comments.

State leadership continues to identify efforts to address the State's housing crisis as a top priority for both legislative and administrative efforts. As a result, the State has significantly increased the requirements placed upon each jurisdiction as they update their local Housing Elements and added more stringent State oversight for the review and approval of each Housing Element.

As of June 1, 2023, only 21 jurisdictions in the 109 jurisdiction Association of Bay Area Governments (ABAG) region have an adopted 6th Cycle housing element that has been found by HCD to be in compliance with State Housing Element law (i.e., certified). In Santa Clara County, 10 of 16 jurisdictions, including Santa Clara, have submitted adopted housing elements to HCD. Of those adopted housing elements, four are under review by HCD (Gilroy, Los Altos, Los Altos Hills, Saratoga). For three others, HCD reviewed the elements and then requested additional revisions (Monte Sereno, Morgan Hill, Santa Clara). HCD found another three to be in compliance (Campbell, Milpitas, Mountain View).

Not having a certified Housing Element can negatively impact a local jurisdiction's discretion to regulate new housing development and reduce access to State funds for as long as the jurisdiction lacks certification.

City staff is diligently working with HCD and the City's consultant (MIG, Inc.) to complete revisions necessary to receive HCD's certification.

State (HCD) Review

On March 28, 2023, the City received HCD's findings/comment letter (Attachment 1) on the City's Adopted Housing Element. HCD identified revisions necessary to receive HCD's certification of compliance in the following areas:

- A. Housing Needs, Resources, and Constraints
- B. Housing Programs
- D. Quantified Objectives
- E. Public Participation
- F. Consistency with General Plan

DISCUSSION

Staff is now bringing forward a revised draft of the City's General Plan Housing Element for Planning Commission recommendation prior to City Council action. Planning Commission and City Council hearings are required for an Amendment to the City's General Plan. These hearings allow the Planning Commission and City Council to review the proposed changes to the Housing Element made in response to the HCD findings/comment letter.

To facilitate review of the revisions to the Adopted Housing Element to address HCD's comments, the Planning Commission, City Council, and HCD will be provided with a clean and redlined version of the Revised Housing Element (Attachments 2 and 3), a matrix showing each HCD comment and the City's responses/revisions (Attachment 4), as well as a summary of proposed amendments (Attachment 5) organized by Housing Element chapter/appendix with references to HCD's numbered comments.

Attachment 4 provides a detailed list of the City's responses/revisions to HCD's comments on the adopted Housing Element organized by the above topic areas. HCD's comments from their March 28, 2023 letter are listed in the left column and the City's response/revisions are summarized in the right column of the matrix. In cases where HCD's current comments reference their earlier comment letter, notes in brackets have been added with the date of the earlier comment letter and the referenced comment number (e.g., [11/18/22 B.1.c]).

The redlined version of the Revised Housing Element (Attachment 3) shows all proposed changes to the adopted Housing Element.

The following is a discussion of several key revisions between the adopted and draft revised Housing Element, including changes to the Sites to Meet the RHNA (Sites Inventory), revisions to policies to Affirmatively Further Fair Housing (AFFH), and revisions to the Housing Needs, Constraints, Housing Resources, and Housing Plan sections. Notably these sections include several new work program activities for the City to undertake as follow-up actions to the Housing Element certification.

Sites to Meet the RHNA (Sites Inventory)

HCD asked the City to respond to public comments received on the proposed Sites to meet the City's Regional Housing Needs Assessment (RHNA). The public comments focused on the likelihood of redevelopment for residential use of several properties located within the City's recently adopted Specific Plan areas within the timeframe of the current Housing Element cycle. The staff response includes additional information (e.g., communication with property owners to verify their willingness to redevelop for residential use) as well as the identification of additional possible sites that could be used to meet the City's RHNA. In some cases, the projected residential densities for specific parcels were recalculated based upon recent actual development data.

The two tables below show the sites identified to meet the City's RHNA as adopted and revised, with the proposed revisions listed below to address HCD comments regarding the sites inventory - progress in meeting the RHNA (A.3.a), realistic capacity (A.3.b), and suitability of nonvacant sites to accommodate lower income RHNA (A.3.d/e).

Sites to Meet the RHNA - As Adopted in the Housing Element (January 31, 2023)

Site/Credit Type	Units in Affordability Category				Total Capacity
	VLI	LI	Mod.	Above Mo	
RHNA	2,872	1,653	1,981	5,126	11,632
Pending & Approved Projects	389	361	857	10,339	11,946
<i>Tasman East SP</i>	-	-	531	3,919	4,459
<i>Patrick Henry Drive SP</i>	75	75	75	1,288	1,516
<i>Lawrence Station Area Plan</i>	-	5	57	635	697
<i>Freedom Circle Focus Area</i>	54	54	54	914	1,075
<i>Other</i>	261	228	141	3,569	4,199
ADU Projection	102	102	102	34	340
Available Specific Plan Sites	2,888	2,143	2,465	314	7,810
<i>Tasman East Focus Area SP</i>	214	156	458	295	1,123
<i>Patrick Henry Drive SP</i>	1,829	1,360	1,360	-	4,549
<i>Lawrence Station Area Plan</i>	845	627	647	19	2,138
				-	
Total	3,379	2,606	3,424	10,687	22,096
<i>Surplus Units</i>	507	953	1,443	5,561	10,464
<i>Surplus (% Above RHNA)</i>	18%	58%	73%	108%	73%

During the public review process, the City received a number of comments regarding the suitability of certain parcels in the Tasman East Specific Plan, Patrick Henry Drive Specific Plan, and Lawrence Station Area Plan. For some of these sites, the City is providing additional evidence in support of site suitability in the adoption resolution; for some other sites, the City has removed them from the revised sites inventory (see Chapter 6 Housing Resources, Realistic Capacity and Suitability of Non-Vacant Sites section). To address this reduction in the capacity of sites, to accommodate sufficient VLI units to meet the RHNA with an adequate buffer, other sites currently designated for residential development in the City's General Plan along the El Camino Real corridor were added to the sites

inventory. For these sites to qualify, they will be rezoned as part of the Zoning Code Update to facilitate development aligned with their current General Plan designations. Additionally, pursuant to the Housing Element statutes, any sites added to the inventory along El Camino Real that were listed in both of the last two housing elements will be required to provide a minimum of 20% of the dwelling units at affordable levels.

The changes described below are summarized in Attachment 5, captured in the revised Appendix B Sites Inventory and will be included in a revised Electronic Sites Inventory to be submitted to HCD as part of the re-adoption submittal.

Sites to Meet the RHNA - As Revised / Proposed for Adoption

Site/Credit Type	Units in Affordability Category				Total Capacity
	VLI	LI	Mod.	Above Mo	
RHNA	2,872	1,653	1,981	5,126	11,632

<i>Lawrence Station Area Plan</i>	<i>144</i>	<i>106</i>	<i>126</i>	<i>19</i>	<i>395</i>
El Camino Real Rezoning Sites	497	378	366	-	1,242
Total	3,388	2,803	2,879	10,571	19,642
<i>Surplus Units</i>	<i>516</i>	<i>1,150</i>	<i>898</i>	<i>5,445</i>	<i>8,010</i>
<i>Surplus (% Above RHNA)</i>	<i>18%</i>	<i>70%</i>	<i>45%</i>	<i>106%</i>	<i>69%</i>

The above table, which tabulates the total number of housing units in the City's Sites Inventory after making the changes summarized in Attachment 5, demonstrates that there is sufficient capacity to accommodate the City's RHNA with an adequate buffer (15-30% recommended) at all income levels.

Affirmatively Furthering Fair Housing (AFFH)

Chapter 3 AFFH includes substantial revisions and re-organization, summarized in Attachment 5, to address the identified HCD AFFH related comments. Generally, HCD was requesting that the City provide additional data if possible and analysis and conclusions related to the housing condition of various demographic groups within Santa Clara. This included information on Race/Ethnicity, Persons with Disabilities, Overcrowded Households and expanded geographic analysis of the location of lower income households throughout the City.

HCD also commented that the City should demonstrate how units are distributed based on the HCD/Tax Credit Allocation Committee (TCAC) Opportunity Map Areas (Highest, High, Moderate, Low Resource Areas). AFFH goals and best practices place housing units in areas of amenities and opportunity, such as High and Highest Resource Areas. A new section of the draft Housing Element includes AFFH analysis of the sites inventory. This analysis calls out that 82% of housing growth in Santa Clara will be in the City's Highest or High Resources Areas with 101% of the City's Very Low Income units (over 100% because the City has more units than Very Low Income required from the RHNA) in the High or Highest Resource Areas and 147% of Low Income units in High or Highest Resource areas.

Housing Needs

Chapter 4 Housing Needs was revised to include additional data and analysis to address the HCD housing needs related comments such as data on households experiencing a rent cost-burden, challenges facing special needs populations such as the elderly, and additional information about services available to the homeless.

Constraints

Chapter 5 was revised to include additional data, clarifications, and analysis to address the HCD constraints related comments, such as infrastructure limitations that could affect new housing development, zoning code sections that will be changed to streamline the development of emergency shelters and clarification of the City's land use entitlement procedures.

Housing Resources

Chapter 6, Housing Resources, was revised in response to the following HCD comments seeking verification of the City's pipeline housing production data and clarification of the City's methodology to calculate residential capacity.

Housing Plan

Chapter 2, Housing Plan, was revised to reflect the additional analysis of data and local knowledge and discussion added to other chapters (Chapter 3, AFFH, Chapter 4 Housing Needs, Chapter 5 Constraints, and Chapter 6 Housing Resources). Chapter 2 was also revised to address HCD's Housing Plan related comments. These revisions include the addition of several follow-up monitoring and data collection activities to be undertaken by the City, as well as planned changes to the Zoning Ordinance and other ongoing activities. For example, the City is being asked to create an inventory and track the condition of Naturally Occurring Affordable Housing (NOAH) housing units, which are units not covered by a legal agreement to restrict their affordability, but which are rented on the market at rates comparable to an affordable project because of the conditions of the property.

HCD's comment letter also stated the City should demonstrate that programs will have a beneficial impact within the Housing Element cycle. The Housing Plan actions and objectives were revised to strengthen the City's commitment to accomplishing those programs within more defined timelines.

ENVIRONMENTAL REVIEW

The City prepared an Addendum to the 2010-2035 General Plan Environmental Impact Report (Attachment 6) for the 6th Cycle (2023-2031) Housing Element, which concluded that there is no substantial change to the General Plan that would require major revisions to the previous EIR; that there is no substantial change in circumstances as a result of modifications to the General Plan that would cause new or substantially more severe significant impacts; and, that there is no new

information of substantial importance that identifies new or more intense significant impacts than those identified in the General Plan EIR.

At their public hearing on January 26, 2023, the Planning Commission adopted Resolution No. 23-004 recommending the City Council adopt the Addendum to the General Plan EIR, for adoption of the 6th Cycle Housing Element.

With the adoption of Resolution No. 23-9188 (Attachment 7) at a public hearing on January 31, 2023, the City Council approved the Addendum to the General Plan EIR for adoption of the 6th Cycle Housing Element. Although the proposed action is to make additional revisions to the Housing Element and General Plan, there are no new policies proposed that would generate new or substantially more significant environmental impacts; moreover, the revised inventory identifies slightly fewer sites than in the January element, and so any impacts are likely to be slightly reduced. As such, the General Plan EIR and Addendum remain sufficient for the environmental analysis of the proposed Housing Element.

FISCAL IMPACT

There is no fiscal impact associated with this report. On January 25, 2022, the City Council approved a consultant agreement with MIG, Inc. to update the City's Housing Element and accepted \$499,150 in reimbursable grant funding from the State's Local Early Action Planning (LEAP) grant program. Of this grant funding, \$289,868 will be used to fund MIG's work and the remaining \$209,282 will be used to fund City staff expenses. All grant funds must be expended on or before December 31, 2023.

Adoption of the Housing Element, as drafted, includes new and revised City programs to implement the Housing Element goals and policies in conformance with State requirements. The potential implementation of these programs will require future City Council review, including and analysis of their potential fiscal impacts.

COORDINATION

This report was coordinated with the City Attorney's Office.

PUBLIC CONTACT

Public contact was made by posting the Commission agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the public information desk at any City of Santa Clara public library.

On April 20, 2023, pursuant to Government Code Section 65352(a), the City mailed referral letters to tribes and outside agencies advising them of the City's intent to take action on a General Plan Amendment to adopt revisions to the 2023-2031 Housing Element. The referral letters also included notice of the proposed Planning Commission and City Council hearings.

On May 10, 2023, pursuant to Govern Code Sections 65353 and 65355, a notice of public hearing was published in *The Weekly*, a newspaper of general circulation, regarding the Planning

Commission and City Council public hearings.

On May 18, 2023, a GovDelivery bulletin was emailed to the City's 1,875 Housing Element Update topic subscribers to let them know of the continuance of the Planning Commission and City Council hearings from May 24, 2023 and June 6, 2023, respectively, with the updated hearing schedule (also posted on the Housing Element Update page).

On June 7, 2023, a GovDelivery bulletin was emailed to the City's 1,899 Housing Element Update topic subscribers to let them know the availability of the draft revisions to the Adopted Housing Element on the Housing Element Update page.

RESOLUTION NO. 23-9188

A RESOLUTION OF THE CITY OF SANTA CLARA, CALIFORNIA, TO ADOPT AN ADDENDUM TO THE GENERAL PLAN ENVIRONMENTAL IMPACT REPORT, FOR ADOPTION OF THE 6TH CYCLE HOUSING ELEMENT (2023-2031)

BE IT RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

WHEREAS, the California legislature has found that “California has a housing supply and affordability crisis of historic proportions. The consequences of failing to effectively and aggressively confront this crisis are hurting millions of Californians, robbing future generations of the chance to call California home, stifling economic opportunities for workers and businesses, worsening poverty and homelessness, and undermining the state’s environmental and climate objectives.” (Gov. Code Section 65589.5.); and

WHEREAS, the legislature has further found that “Among the consequences of those actions are discrimination against low-income and minority households, lack of housing to support employment growth, imbalance in jobs and housing, reduced mobility, urban sprawl, excessive commuting, and air quality deterioration.” (Gov. Code Section 65589.5.); and

WHEREAS, the legislature recently adopted the Housing Crisis Act of 2019 (SB 330) which states that “In 2018, California ranked 49th out of the 50 states in housing units per capita... California needs an estimated 180,000 additional homes annually to keep up with population growth, and the Governor has called for 3.5 million new homes to be built over 7 years”; and

WHEREAS, State Housing Element Law (Government Code Sections 65580 et seq.) requires that the City Council adopt a Housing Element for the eight-year period 2023-2031 to accommodate the City of Santa Clara (City) regional housing need allocation (RHNA) of 11,632 housing units, comprised of 2,872 very-low income units, 1,653 low-income units, 1,981 moderate-income units, and 5,126 above moderate-income units; and

WHEREAS, to comply with State Housing Element Law, the City of Santa Clara has prepared its Housing Element Update for the years 2023-2031 (the Housing Element); and

WHEREAS, as provided in Government Code Section 65350 et. seq., the Housing Element constitutes a General Plan Amendment; and

WHEREAS, the Project approvals will include a resolution approving the Addendum to the General Plan EIR; and a resolution approving the General Plan Amendment (collectively, the “Approvals”);

WHEREAS, the City has prepared an Addendum to the 2010-2035 General Plan Environmental Impact Report adopted by the City Council on November 16, 2010, and to the environmental review documents that were prepared for subsequent amendments to the General Plan that affected housing development in the City, including but not limited to the December 2013 Climate Action Plan Negative Declaration; the February 2016 Mission Town Center EIR; the 2016 Related Santa Clara EIR; the November 2016 Lawrence Station Area Plan EIR; the July 2018 575 Benton Project Addendum; the July 2019 Gateway Crossings EIR; the March 2022 Patrick Henry Drive Specific Plan EIR; the June 2022 Climate Action Plan Addendum; and the June 2022 Freedom Circle Future Focus Area EIR (collectively, the “Subsequent Documents”), all of which provide environmental clearance for all of the units in the 6th cycle Housing Sites Inventory;

WHEREAS, a notice of the public hearing on the proposed General Plan Amendment was published in the Santa Clara Weekly, a newspaper of general circulation for the City, on December 11, 2022, for the January 11, 2023 Planning Commission Meeting and the January 31, 2023 City Council meeting; and

WHEREAS, on January 11, 2023, the Planning Commission opened the public hearing to consider the proposed General Plan Amendment, and then continued the hearing to January 23, 2023; and

WHEREAS, on January 20, 2023, the City published a revised draft Housing Element with the changes required by HCD (see Housing Element Exhibit A – HCD Comments and Responses) and requested public comment on the draft; and

WHEREAS, on January 23, 2023, the Planning Commission resumed the previously-opened public hearing to consider the proposed General Plan Amendment, and then subsequently continued the hearing to January 26, 2023; and

WHEREAS, the Planning Commission reviewed the Addendum to the General Plan EIR, in accordance with the requirements of CEQA, along with the City Staff report pertaining to the Project, and all evidence received at a duly noticed public hearing on January 26, 2023. All these documents and evidence are incorporated herein by reference into this Resolution; and

WHEREAS, the Planning Commission recommended that the City Council approve the Addendum to the General Plan EIR, in accordance with CEQA for the Project; and

WHEREAS, on January 31, 2023, the City Council conducted a public hearing, at which time all interested persons were given an opportunity to give testimony and provide evidence in support of and in opposition to the proposed Addendum to the General Plan EIR.

NOW THEREFORE, BE IT FURTHER RESOLVED BY THE CITY OF SANTA CLARA AS FOLLOWS:

1. That the City Council hereby finds that the above Recitals are true and correct and by this reference makes them a part hereof.
2. That the City Council hereby finds that the Addendum to the General Plan EIR has been completed in compliance with CEQA.
3. That the City Council hereby finds that the Addendum to the General Plan EIR has been presented to the Council, which reviewed and considered the information and analysis contained therein, and that the Addendum represents the independent judgment of the Council.
4. That the City Council hereby finds that the proposed General Plan Amendments do not involve substantial changes to the General Plan that would require major revisions to the previous EIR or Subsequent Documents.
5. That the City Council hereby finds that there is no substantial change in circumstances as a result of modifications to the General Plan that would require major revisions to the previous EIR and Subsequent Documents or cause new or substantially more severe significant impacts.

//

//

6. That the City Council hereby finds that there is no new information of substantial importance that identifies new or more intense significant impacts than those identified in the General Plan EIR and Subsequent Documents.

7. Based on the findings set forth in this Resolution and the evidence in the City Staff Report, the City Council approves the Addendum to the General Plan EIR, in accordance with CEQA for the Project.

3. Effective date. This resolution shall become effective immediately.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED AND ADOPTED BY THE CITY OF SANTA CLARA, CALIFORNIA, AT A REGULAR MEETING THEREOF HELD ON THE 31ST DAY OF JANUARY 2023, BY THE FOLLOWING VOTE:

AYES:	COUNCILORS:	Becker, Chahal, Hardy, Jain, Watanabe, and Mayor Gillmor

Chapter 13.1

Introduction

Background and Purpose

The City of Santa Clara continues to be a desirable place to live and in recent years the City has adopted new policies and provided funding to achieve more affordable housing opportunities in the community, as well as preparing long range plans to add new high-density, amenity rich neighborhoods that provide a variety of affordability options.

The historic agricultural nature of Santa Clara was forever changed with the invention of the semiconductor chip in the 1950's. Since then, the growth of the technology industry has fueled job growth and propelled Santa Clara to the current population of about 127,000 residents.¹ Santa Clara's population is expected to grow by about 26 percent to 159,500 by 2040. The composition of the housing stock in Santa Clara has shifted, with more multi-family units being built than single family homes. This trend likely reflects the limited availability of land for development, the high cost of homeownership, and the growing number of young adults moving to this job rich area.

Demand for home ownership continues to exceed the supply and prices are increasingly out of reach even for moderate income households. As of 2019, 43 percent of homes were owner households and 57 percent were renter households, reflective of the high cost of home ownership in the area. Housing supply in general is tight with the vacancy rate of renter occupied homes only at 4.8 percent and owner homes at less than one percent.
