MEETING DISCLOSURES

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Santa Clara, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

If a member of the public submits a speaker card for any agenda items, their name will appear in the Minutes. If no speaker card is submitted, the Minutes will reflect "Public Speaker."

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 ("ADA"), the City of Santa Clara will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities, and will ensure that all existing facilities will be made accessible to the maximum extent feasible. The City of Santa Clara will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities including those with speech, hearing, or vision impairments so they can participate equally in the City's programs, services, and activities. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

Agenda Report

Agenda Date: 3/2/2026

REPORT TO NEIGHBORHOOD UNIVERSITY RELATIONS COMMITTEE

SUBJECT

Updates from October 20, 2025 NURC meeting

BACKGROUND

On the October 20, 2025 Neighborhood University Relations Committee (NURC) meeting, members of the public and Committee members raised questions which were not able to be fully addressed at the meeting.

The topics raised included:

- Questions about setting up a public email address for the NURC
- Questions about traffic and pedestrian safety in the neighborhood surrounding the Santa Clara University
- Questions regarding how the Police Department equips Officers to handle public complaints
- Questions regarding how the Police Department enforces parking, with specific areas of concern including Alviso Street, Benton Street, Fremont Street, Harrison Street, and the neighborhood streets adjacent to Santa Clara University overall
- Questions regarding how Santa Clara University approaches off-campus housing and handles conduct by students who live off campus.

DISCUSSION

Staff has compiled responses below to the questions that were raised. The responses that referred to questions about the Police Department and Santa Clara University will be provided in presentations at the March 2, 2026 NURC meeting.

Public Inquiry Email Address to Support NURC Communication

The Committee discussed establishing a public inquiry email address to support communication between the community and the NURC. Staff worked with the IT department to create this dedicated email address, which is now active and posted on the NURC webpage. As of now, inquiries sent to this address will be received by staff, who will review and direct relevant messages to the appropriate committee members for follow-up. Staff is working with IT to incorporate the NURC members so they are also recipients of the email inquiries. In the event the address changes from what was recently established, the email address will be shared at the next NURC meeting.

Neighborhood Traffic and Pedestrian Safety

A question was posed regarding if the City has reviewed the Benton Street & Alviso Street intersection, which has been shared previously as an area needing safety upgrades. The Public

Works Traffic Division has reviewed this intersection and recommends pedestrian safety enhancements. Public Works will collaborate with Santa Clara University on this directly. It potentially will need a funding contribution from the University.

A question was posed regarding the review of the Poplar Street & Alviso Street intersection, including consideration of a 4-way stop, and speed bumps due to ongoing concerns about speeding. The Public Works Traffic Division has confirmed that they are in the process of collecting traffic data for the evaluation. Public Works believes the concerns were raised about Poplar Street specifically; however they welcome any additional clarification if there were speeding concerns related to Alviso Street as well.

A question was raised regarding the evaluation of red curb painting at all neighborhood intersections off Alviso Street to prevent vehicles from parking too close to corners and obstructing visibility. Public Works Traffic Division has shared that the Statewide Daylighting law (AB413) is applicable and those intersections immediately adjacent to SCU have been addressed with red curb at locations with marked crosswalks and higher pedestrian activity. Regarding Alviso Street in particular, Public Works Traffic Division has noted that there is substantial red curb that already exists but they will confirm compliance distance requirements with AB413. Since Alviso is a long corridor, any insight from the community on particular segment(s) or intersections of concerns would be useful. The Public Works Traffic Division has also shared that AB 413 restrictions apply regardless of the presence of red curb markings or "No Parking" signs. Staff will coordinate with the Police Department (PD) on enforcement, and residents are encouraged to contact the PD Communications Center at (408) 615-5580 to report real-time violations.

There was a question regarding existing crosswalk conditions and potential safety improvements in the area. As this was a broad request, and more precise feedback is specifically requested and can be shared at the March 2, 2026 NURC meeting or afterwards with staff. As noted above, Public Works Traffic Division has been working to assess and identify improvements for Benton Street/Alviso Street intersection.

Police Department Training and Parking Enforcement

The Police Department will provide information at the March 2, 2026 NURC meeting within their presentation on general updates that address the questions raised about how training is provided to officers to address community complaints as well as how parking surrounding the university is enforced.

Santa Clara University information on off-campus housing and student behavior SCU will provide a presentation at the March 2, 2026 NURC meeting during agenda item on updates by PD, CDD, and SCU, to share background on SCU off-campus student housing and student behavior expectations.

SUBJECT

Future Neighborhood University Relations Committee Work Plan Items

BACKGROUND

The Neighborhood University Relations Committee (NURC) was formed in 2006 and was envisioned as a forum for on-going communication and problem solving among the three appointed Councilmembers, who were the only official Committee members. Neighborhood residents, property owners, Santa Clara University officials and students, and city staff regularly attended NURC meetings.

On April 8, 2025 the City Council took action to restructure the NURC to achieve a more inclusive Committee reflecting the diverse interests and promoting collaboration within the various interest groups and stakeholders in the community. The Committee is now comprised of seven members: two City Councilmembers; two members of Santa Clara University staff; one Santa Clara University student; one Old Quad resident; and one property owner/landlord representative.

The newly formed NURC held its first meeting on October 20, 2025.

DISCUSSION

To establish and pace the expected agenda items and workload for 2026, the Committee will review potential work plan topics at the next meeting on May 18, 2026.

As included as Attachment 1, community member, Mark Kelsey, sent two email communications with suggested work plan topics. Staff is requesting that Committee members email proposed work plan topics to staff by Friday, April 17, 2026.

Once received, potential work plan topics will be analyzed by staff. Staff will share the timeframe for agendaizing potential topics and if certain topics will require additional resources. As many topics need the support and collaboration of Santa Clara University, their input will also be incorporated. At the May 18, 2026 meeting, the Committee will provide input on which work plan topics they would like to prioritize. Topics that require additional resources will also be identified and those may not be able to be addressed in the near term.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

Subject: NURC—March 2, 2025 Agenda
Date: Friday, January 9, 2026 11:31:52 AM

Members of the Neighborhood University Relations Committee (NURC),

The upcoming March 2 NURC meeting is an opportunity to establish the newly structured NURC as an effective forum for our neighborhoods around SCU. NURC can do so by creating an Agenda for the meeting that provides an opportunity for discussion and recommendations by the committee members on issues that are most significant. Here are my suggestions for topics for the NURC Agenda.

- SCU Use Permit Review—the committee should review the current SCU Use Permit and seek to understand how well it addresses current and future situations. The committee can make recommendations for updating the Use Permit as needed.
- Development of plans to manage increasing SCU off campus housing demand. The committee should review the growth of SCU in recent years and review future growth plans of SCU as this is the underlying factor driving increased housing demand by students, staff and faculty of SCU. SCU has stated that it enrolled its largest first year class ever in 2025 and plans to enroll larger classes going forward.
- Development of voluntary standards and agreements for owners and property managers based on the model developed by SCU for their Neighborhood Units. This would include lease provisions with expected student tenant responsibilities and behaviors, expected adherence to city codes and ordinances, and property maintenance expectations. It would also include provisions for partnerships with SCU Neighborhood Ambassadors for support for both landlords and student residents. The committee can invite involvement and participation by all owners and property managers in the SCU area.
- Review of parking issues in the SCU area--Increased housing demand brings with it increased parking demand. Street parking is becoming problematic and the increased parking congestion brings pedestrian and traffic safety concerns. The committee should review whether the current city parking restrictions in the blocks immediately around SCU serve the purposes intended, and review current parking enforcement provided in this area. The area might be better served with a collaboration with SCU to manage parking and parking fees on campus and off campus together.
- Recommendations for prioritizing city resources by identifying and focusing on the smaller areas with the most issues. Based on data from SCPD, Code Enforcement and

SCU, the committee could identify and focus on smaller areas with the most issues to be addressed. For example it may be useful to focus on the blocks encompassed by Poplar St, Alviso St, Washington St and Santa Clara St. The houses in this area appear to be the source of many issues and complaints.

I am available to discuss any of these ideas. I have copied the Board of the Old Quad Residents Association for their information and input. I look forward to productive discussions at the upcoming NURC meeting.

Reena—would you forward this email to the members of NURC for whom I don't have contact information—Shea Mulqueeney and Shantung “Jennifer” Zheng.

Respectfully,

Mark Kelsey

Subject: Request for Agenda Item for NURC March 2, 2026 Meeting
Date: Tuesday, February 17, 2026 1:21:14 PM
Attachments: [SCPD Handout 2024-2025.pdf](#)

NURC members,

City staff regularly addresses code violations in the SCU area. In spite of their ongoing efforts, multiple properties on Bellomy Street and Washington Street continue to have repeated code violations. I want to highlight specific code violations that continue to occur regularly-- trash accumulation and trash bins and dumpsters left out in the street. Code Enforcement has issued multiple and repeated warnings and citations to properties with these repeat code violations but the issues continue. The usual escalation for this issue is the requirement for the property to convert to "push-pull service". However even this has not proved effective as the driveways of these properties are consistently blocked with parked cars so that push-pull service cannot be implemented.

Code Enforcement needs additional authority to address these issues. SCPD has a progressive escalation process with increasing fines eventually escalating to "blue-tag" or public nuisance status for the property. Code Enforcement needs a similar process and similar authority.

I am asking NURC to add this issue to the agenda of the March 2, 2026 NURC meeting so that the committee can review this issue and make a recommendation to the City Council to provide additional authority to Code Enforcement to address continued violations. This additional authority should include a minimum fine of \$1000 with escalating fines to "blue tag" status. Blue tag status should require minimum and ongoing fines of \$5000 per instance for failure to correct the violations, and with blue tag status to be in effect for a minimum of 1 year.

I also ask that NURC to include in this agenda item a review of the fine schedule for SCPD citations (copy attached) and recommend an increase of the minimum fine to \$1000 with escalating fines to "blue tag" status. Blue tag status should require minimum and ongoing fines of \$5000 per instance for additional citations.

Properties in this area often have monthly rents exceeding \$10,000. The fine schedule for violations of code and ordinances needs to be significant relative to the income produced by these rental properties.

Thank you for your consideration.

Mark Kelsey

****ATTENTION RESIDENTS****

As is the case in any residential neighborhood, the residents and property owners have a vested interest in the appearance and tranquility of the area in order to maintain their peace, safety, and quality of life. In order to apply a standard in such issues, the following statutes are provided to address the most frequent violations.

Observance of these statutes will help to ensure a safe and peaceful environment for the entire community. Adherence will also allow us to avoid the expense and resource expenditure of enforcement action. Violations of these statutes may lead to fines (up to \$1000 per violation per day for some offenses) or criminal prosecution. Many of these fines also include a progressive/graduating schedule, which increases with subsequent offenses.
