3. If the Goods also solely or as a combination include the sale of LYNGSOE Software, the terms of the LYNGSOE End User License set forth in Appendix 1 hereto shall equally apply in addition to the terms of the GTCS. In the event of any discrepancies between the LYNGSOE End User License and the GTCS, the terms of the LYNGSOE End User License shall prevail. If the Goods are "made to order" or similarly engineered and manufactured specifically for the Customer "Engineered Goods", the terms of the LYNGSOE Terms For Engineered Goods set forth in Appendix 2 hereto shall equally apply in addition to the terms of the GTCS. In the event of any discrepancies between the LYNGSOE Terms For Engineered Goods and the GTCS, the terms of the LYNGSOE Terms For Engineered Goods shall prevail for the purpose of the Engineered Goods only.
4. No deviation from these GTCS shall be binding unless agreed in writing between LYNGSOE and the Customer.
5. LYNGSOE shall be entitled to alter these GTCS upon 14 calendar days' written notice effective for all orders that LYNGSOE receives after the expiration of the notice period. However, LYNGSOE may alter agreed payment terms and credit limits at any time and for any reason without notice.
6. Any terms and conditions contained in or delivered with the Customer's order or other document shall not be binding.

APPENDIX 2

LYNGSOE TERMS FOR ENGINEERED GOODS

If the Goods referred to in the GTCS are “made to order” (“Engineered Goods”), the following conditions shall apply in addition to the applicable terms of the GTCS and any written agreement between the parties regarding such Engineered Goods.

1. TOOLS

Any auxiliary models, tools, models, moulds etc. (hereinafter referred to as "Tools") produced or manufactures by LYNGSOE whilst completing the contractually agreed work do not constitute an integral part of the work performance of developing and/or manufacturing the Engineered Goods and will remain the property of LYNGSOE to the extent such Tools do not rely in substantial part on Customer information and data. LYNGSOE will store the Tools for a period of 6 months following acceptance of the Engineered Goods by the Customer, without acknowledging any legal obligation in this respect.

2. ACCEPTANCE AND TESTS

Insofar as the Engineered Goods calls for an approval test, this test must be carried out without undue delay on the part of the Customer. Should the Customer fail to approve the Engineered Goods within 14 days of notice of completion and/or delivery, the Engineered Goods will be considered to have been duly approved and accepted, provided that during this period there has been no complaint of any defect which would impede acceptance. A partial approval test may, in accordance with the above-mentioned provisions, be requested for independent partial performances. This section in no way limits Customer's remedies in the event of any negligence on the part of LYNGSOE.

3. INVENTIONS

In the event of any inventions which might lead to industrial property rights arising because of the contractually agreed work for the Engineered Products, then the only Party entitled to register such intellectual property rights will be the Party whose employees or agents have made the invention. If, in the context of the contractually agreed work for the Engineered Products, inventions are made in which the employees or agents of more than one Party are involved (hereinafter referred to as “Joint Inventions”), then separate arrangements will be made in each individual case to decide who is to register any intellectual property rights and where.

Registration may also be made jointly; in which case each Party will bear the proportion of the costs commensurate with its share in the invention. In the event of Joint Inventions or joint property rights and/or copyrights, each Party is entitled, at any time, to waive its share in favor of the other Party. The Party waiving such rights will, in a timely manner, make any provisions and arrangements necessary to enable the other Party to protect its interests.
