

City of Santa Clara

The Center of What's Possible

MONTHLY FINANCIAL STATUS REPORT

April 2022

This report summarizes the City's financial performance for the month ended April 30, 2022. Financial analysis for the report is provided for the General Fund, select Special Revenue Funds, Enterprise Operating Funds, and Capital Improvement Funds. Financial information included in this report is unaudited.

General Fund

The General Fund is the major operating fund for the City and includes multiple programs, services, and activities for the residents and businesses of the City. The adopted budget for operating revenues and expenditures for fiscal year 2021/22 was \$289.3 million. The budget for revenues and expenditures was amended to \$271.5 million to reflect carryover appropriations from fiscal year 2020/21 and various budget amendments approved by the City Council through April 2022.

Through April, General Fund revenues are currently tracking to end the year at or slightly below budgeted levels. General Fund expenditures are tracking below budget and this trend is expected to continue as departments continue to control expenditures through various cost control measures. Overall, the General Fund is expected to end the year with additional ending fund balance.

Economic conditions have improved significantly since the start of the pandemic, with many indicators close to pre-pandemic levels. On a national level, the unemployment rate remained unchanged at 3.6% between March and April 2022. This rate was well below the record setting high of 14.7% in April 2020, and almost at the pre-pandemic unemployment rate of 3.5%. In April, the number of unemployed persons slightly decreased from 6.0 million in March 2022 to 5.9 million. This unemployment figure remains slightly above the pre-pandemic level of 5.7 million.¹

Chart 1. Unemployment rate, seasonally adjusted, April 2019 – April 2022

Chart 2. Nonfarm payroll employment, seasonally adjusted, April 2019 – April 2022

In the advance estimate for the first quarter of 2022, GDP decreased at an annual rate of 1.4%, following an increase of 6.9% in the fourth quarter of 2021.² This decline is the result of the resurgence

¹ <https://www.bls.gov/news.release/pdf/empsit.pdf>

² https://www.bea.gov/sites/default/files/2022-04/tech1q22_adv.pdf

of COVID-19 cases and decreases in government pandemic assistance. Additionally, issues stemming from supply chain and widespread inflation are also factors in the estimated decrease.

Real GDP: Percent change from preceding quarter

While conditions have improved, economic growth is expected to slow. With this economic slowdown, the level of GDP is projected to remain below the pre-pandemic trend through at least the end of 2024 per the June 2022 UCLA Anderson Forecast. On an annual basis, the UCLA Forecast projects GDP growth of 2.8% in 2022, 2.0% in 2023, and 1.9% in 2024. These growth rates are down from the March 2022 Forecast that predicted growth of 4.3%, 2.8%, and 2.3%, respectively, for the same years. The UCLA Forecast points to a number of economic impediments, such as the war in Ukraine, COVID-19 lockdowns in China, supply chain constraints and inflation, that are affecting economic growth. The Forecast also

Exhibit 3: Real GDP Levels, Billions, Seasonally Adjusted Annual Rates

Source: UCLA Anderson Forecast and U.S. Bureau of Economic Analysis
Notes: \$ Billions, chained 2012 prices

expects unemployment to begin rising in 2023 as the economy slows and inflation to remain high for the next two years.³

The June 2022 UCLA Anderson Forecast for California also calls for a shallower growth trend than before. Continued COVID-induced disruptions, supply chain issues, capacity constraints including tight labor markets, high energy prices, and financial capital issues will constrain growth. After the State's largest increase in the unemployment rate in April 2020, the California unemployment rate dropped to 4.6% in April 2022, down from the revised March 2022 level of 4.8%. With the continued addition of jobs, California has now regained 2.52 million jobs, or 91% of the 2.76 million jobs lost due to COVID-19 in March and April 2020. Fewer than one million Californians are unemployed for the first time since February 2020.⁴

The unadjusted unemployment rate in the San José-Sunnyvale-Santa Clara Metropolitan Statistical Area (MSA) was 2.2% in April 2022, down from the April 2021 level of 5.5% and the pre-pandemic February 2020 level of 2.6%. Between April 2021 and April 2022, employment in this region increased by 62,400 jobs, or 5.7%. The largest increases were in leisure and hospitality (up 24,500 jobs), professional and business services (up 12,600 jobs), and private educational and health services (up 6,500 jobs).⁵

Staff will continue to closely monitor the economic environment and the City's financial performance and provide updates through the Monthly Financial Reports.

General Fund Revenues

As of April 30, 2022, \$172.8 million or 76.2% of the General Fund estimated revenue (excluding transfers) was received. Based on the timing of payments, a higher percentage of revenues are collected in the second half of the fiscal year. Transfers and use of reserves of \$44.6 million have occurred as budgeted. Revenues are tracking slightly under the budgeted estimate but are higher when compared to collections last fiscal year (excluding transfers and various permits and charges for services that are now deposited into the new Building Development Services Fund).

(1) The Operating Transfer In - Fund Balances includes the carryover encumbrances of open purchase orders as of June 30, 2021 and mid year budget amendment from reserves.

General Fund Revenues

Sales Tax: The City of Santa Clara sales tax rate is 9.0%, of which the City receives 1.0%. As of April 30, 2022, \$37.2 million has been collected, which is down \$0.4 million from the prior year level and reflects actual payments for the first two quarters and estimated payments for a portion of the third quarter. Cash receipts were down 5.0% in the first quarter, up 14.8% in the second quarter, and up 4.5% in the third quarter; overall, receipts are up 4.6% through the first three quarters of FY 2021/22. The County pool was up 0.7% in the second quarter. The County pool, which includes internet sales, accounts for approximately 20% of the sales tax the City receives. Overall, annual Sales Tax growth of 3.6% is needed to meet the budgeted estimate of \$58.2 million. Based on collections to date, receipts are projected to slightly exceed the budget.

Property Tax: Through April, \$61.1 million has been received, or 85.4% of the budgeted property tax estimate. The majority of property tax revenue is collected in February and April each year. Based on information from the County of Santa Clara, property tax receipts are projected to end the year slightly above the Adopted Budget estimate of \$71.6 million.

Transient Occupancy Tax (TOT): TOT is calculated as a percentage of City hotel/motel room charges. The City's current TOT rate is 11.5% as of January 2022. Through April 30, 2022, approximately \$5.1 million has been received, which is significantly higher than receipts through the same period last fiscal year of \$1.6 million. However, receipts remain 61% below the pre-COVID 19 level of \$13.3 million received through April 2020. As businesses continue to reopen, it is anticipated that TOT will continue to increase compared to last fiscal year. To meet the budgeted estimate, collections will need to triple from just under \$3.0 million in FY 2020/21 to \$9.0 million in FY 2021/22. With the January 2022 rate increase, TOT receipts are projected to end the year at \$8.0 million - \$9.0 million.

Other Taxes: Includes franchise tax (\$3.1 million) and documentary transfer tax (\$1.8 million). The City has collected \$4.9 million through April, which is 23.4 % above receipts received through the same period last fiscal year. The strong growth in this category is driven by the documentary transfer tax performance, which is up 79% from the prior year. Franchise tax collections are slightly above collections from prior year levels by approximately 4.3%. Growth of 4.4% is needed to meet the budgeted estimate of \$6.1 million. Collections are projected to exceed the budgeted estimate.

Licenses & Permits: Includes business licenses, fire operation permits, and miscellaneous permits and fees. Effective FY 2021/22, building, electric, plumbing and mechanical permits have all been budgeted in the new Building Development Services Fund, which is reflected in the Special Revenue section of this report. Licenses and permits revenue collections total \$2.3 million, or 73.8% of the budget of \$3.2 million. Receipts are tracking slightly below estimated levels through April and may end the year below the budgeted estimate.

Fines & Penalties: Includes vehicle, parking, court fines, and miscellaneous penalty fines. The revenue of \$0.3 million collected in this category through April is tracking to end the year well below the

budgeted estimate of \$1.5 million largely due to the waiving of late fees on utility billing in response to COVID-19.

Intergovernmental: Includes motor vehicle fees, state homeowner tax relief, state mandated reimbursement and redistribution of land sale proceeds and ground leases from the Successor Agency. Through April 30, 2022, \$2.4 million has been received, which is higher than receipts through the same period last year and primarily reflects reimbursements for fire mutual aid services. The federal stimulus funds (\$26 million) have been moved to a separate American Rescue Plan Act Fund, which is reflected in this report.

Charges for Services: Includes various engineering fees, administrative fees, and community service revenue from various recreational activities. Through April, collections totaled approximately \$25.2 million or 84% of the budget. This reflects a 4.1% decrease compared to last year's collections through the same period of \$26.2 million. The decrease is mainly attributable to the plan check and sign fees now being recorded in the newly established Building Development Services Fund. This decrease is partially offset by higher collections in the planning and zoning fees, fire construction permits, and miscellaneous charges for services categories. Collections are tracking close to the budgeted estimate.

Silicon Valley Power Transfer: In accordance with the City's charter, Silicon Valley Power pays 5.0% of gross revenues to the General Fund. As of April 30, 2022, \$21.5 million has been received which is on par for this time of year. This collection level, however, is based on the budgeted estimate and will be trued up at the end of the fiscal year. Growth of less than 1% from the prior year is needed to meet the budgeted estimate of \$24.7 million.

Use of Money & Property: Includes realized investment income and rental income. Interest income and rent revenue collections totaled \$9.4 million, or 79.2% of the budget. This reflects a \$0.3 million increase from prior year collection levels, primarily due to higher rent collections.

Miscellaneous Revenues: Includes developer fees, donations, damage recovery, sale of surplus, and one-time miscellaneous revenues. Through April 30, 2022, collections of \$0.6 million have exceeded the budgeted estimate of \$0.2 million; however, are significantly lower than prior year collections of \$4.3 million as a result of a one-time payment in FY 2020/21.

Stadium Operation: Through April, charges for services collected through the Stadium totaled \$2.7 million, which is below par for this time of year. This is due in part to the timing of when the City receives reimbursements. Current year collections are approximately 29% higher than collections through the same period last year resulting from the reopening of Stadium for events.

General Fund Expenditures

As of April 30, 2022, \$206.8 million or 76.2% of the General Fund operating budget had been expended. Departmental expenditures totaled \$157.5 million, or 71.4% of the budget, which is below the par level of 83% of the budget. As part of the FY 2020/21 Budgetary Year-End Report, \$26 million of the Police and Fire Department's budgets was reallocated to the newly established ARPA Fund. Both the budget and associated expenditures have been shifted to the new fund. Fund Transfers of \$43.8 million have occurred as budgeted.

Several cost-control measures that were implemented in FY 2019/20 remain in place to generate expenditure savings to partially offset the drop in revenues associated with COVID-19. These measures include a hiring freeze and controls around overtime, as-needed staff, marketing, travel, technology and vehicle purchases. With these measures, expenditures are expected to end the year below budget.

CITY OF SANTA CLARA GENERAL FUND EXPENDITURES OVERVIEW AND COMPARISON BY FUNCTION

General Fund Expenditures

Below is an explanation of certain budget to actual expenditure variances through April by department.

Non-Departmental: Includes expenditures that are not attributable to a single department, but a function of the City in general. Expenditures totaled \$3.5 million, or 46.7% of the budget through April. These expenditures are well below the par level of 83%, which is due in part to the unexpended separation payout allocation of \$1.8 million. Expenditures are tracking slightly above the prior year level of \$3.2 million. This is a result of the reallocation of City memberships from the City Manager's Office to the Non-Departmental budget. Additionally, overtime and contractual services are higher than last fiscal year due to an increase in the permitting system licensing costs.

City Attorney: Through April, actual expenditures totaled approximately \$2.0 million, which is below par at 64% of the budget. This is mainly attributable to lower salary and as-needed spending. Spending is above the total expenditures through the same time last fiscal year by 7.7%. This is a result of the reallocation of contractual services from the Special Liability Insurance Fund to the City Attorney's Office operating budget. Additionally, higher separation payout expenditures occurred this fiscal year compared to last fiscal year.

City Clerk: Through April, actual expenditures were tracking below budget at \$1.1 million or approximately 65% of the budget. This reflects a decrease of 23.1% over last year's spending through the same period. The primary driver for the decrease in spending is the Granicus costs which are paid every other year.

City Council: Through April, expenditures were at 79.7% of budget, which is slightly below par. Compared to the same period through last fiscal year, this reflects a spending increase of approximately 9.5% which is a result of higher as-needed and separation payout expenditures compared to last fiscal year.

City Manager: The actual expenditures through April totaled \$4.1 million, or 65.6% of the budget, which is below par for this time of the year. Expenditures are consistent with the spending level through the same period last fiscal year. Separation payouts and as-needed expenditures are higher compared to last fiscal year. This increase is offset by lower advertising and contractual services expenditures.

Community Development Department: This department consists of three divisions: Planning, Building, and Housing and Community Services. Effective this fiscal year, the Building division of this department has been moved to the newly established Building Development Services Fund, which falls under the special revenue section of this report. Through April, departmental expenditures for the Planning and Housing and Community Services divisions totaled \$3.9 million, or approximately 70.3%, which is below the par level of 83%. This is a result of vacancies in the department as well as lower contractual services spending. Expenditures were also well below the spending through the same period last fiscal year due to the change in funding for the Building Division.

Finance Department: Through April, the Department's expenditures totaled \$13.4 million, or 73.3% of the budget, which is below par. This is mainly attributable to lower expenditures in the as-needed and contractual services categories. This expenditure level was slightly above the prior year level.

Fire Department: Through April, actual expenditures in the General Fund totaled \$38.4 million, or 75.4% of the budget, which is below par. These expenditures reflect a 21.2% decrease from expenditures through the same period last fiscal year. This is a result of the shifting of approximately \$11.2 million of eligible expenditures to the newly established ARPA Fund.

Overtime expenditures are tracking at 102.2% of the budget. While this overtime figure is high, it is important to note that overtime is used to backfill for vacant positions and the vacancy savings offset a portion of the overtime costs. Fire Department expenditures have also been impacted by mutual aid deployments to address wildland fires (Caldor, Dixie, River and Beckwourth complex fires), for which the City is reimbursed for its costs. As approved by City Council on April 19, 2022, \$1.8 million of wildland reimbursements was recognized and appropriated to the Fire Department (\$0.9 million was added to the Department's overtime budget, \$0.2 million was added to the non-personnel budget, while \$0.7 million transferred to the Vehicle Replacement Fund to cover costs for a fire engine replacement).

Library Department: Through April, actual expenditures totaled \$7.3 million, or 67% of the budget, which is below par, but approximately 5.8% higher than expenditure levels through the same period last fiscal year. COVID-19 precautions have continued to impact Library operations this year, resulting in lower expenditures. A phased reopening is in progress, but this schedule was delayed due to the increase in COVID-19 cases resulting from the latest Omicron variant.

Parks and Recreation Department: Through April, actual expenditures totaled approximately \$15 million, or 70% of the budget, which is below par, but is slightly higher than the prior year actuals of \$14.0 million. The department has resumed most activities that were previously impacted by COVID-19 restrictions. However, some programming continues to be impacted by staff vacancies.

Police Department: Through April, actual expenditures in the General Fund totaled \$46.9 million, or 72% of the budget, which is below par. Expenditures are significantly below the spending levels last fiscal year in the General Fund due to the ARPA funds received by the City. As mentioned above, eligible expenditures totaling \$14.7 million, have been shifted to the ARPA Fund.

Stadium Operation: Stadium operating expenditures are incurred first and billed on a reimbursement basis creating a timing difference in revenue recognition. Through April, stadium expenditures totaled \$5.5 million, or 77% of the budget. This is significantly higher than expenditures through the same period last year, as a direct result of the reopening of the Stadium for events.

Special Revenue Funds

The table below is a summary of revenues and expenditures of select Special Revenue Funds as of April 30, 2022. The amended budget for both reflects carryover appropriations from fiscal year 2021/22 in addition to budget amendments approved by the City Council through April 2022. Effective July 1, 2021, all Building Division revenues and expenditures are now budgeted and accounted for in the new Building Development Services Fund, which is included in the table below. Additionally, as approved by City Council on December 14, 2021 as part of the FY 2020/21 Budgetary Year-End Report, the ARPA Fund was established. Approximately \$14.9 million and \$11.3 million was moved from the Police Department and Fire Department, respectively, to the new ARPA Fund in order to separately track public safety expenditures eligible to be covered by these funds. The shift of public safety expenditures is reflected below. Revenues totaled approximately \$39.6 million, while expenditures totaled approximately \$50.8 million through the end of April. The high level of expenditures is primarily a result of the disbursements for housing projects in the Housing Successor Agency Fund. While the table below shows this fund is over budget, a budget amendment is included in this report to shift the loan disbursement budget from the Housing Authority Fund to the Housing Successor Agency Fund. Overall, both revenues and expenditures are tracking below par.

Governmental Capital Improvement Funds

The table below lists the total amended budget amounts for the Capital Improvement Funds, which consist of current year appropriations, prior year carryover balances in Governmental Capital Improvement Funds, and budget amendments approved through April 2022. As of April 30, 2022, these capital fund expenditures totaled \$22.8 million, or 17.2% of the amended budget. As part of the adoption of the FY 2021/22 and FY 2022/23 operating budget, some capital funds were carried over for projects that were not anticipated to be completed by June 30, 2021. Necessary additional adjustments to the capital carryover amounts were included as part of the Budgetary Year-End Report for FY 2020/21, approved at the December 14, 2021 Council meeting. These adjustments are reflected below.

The carryover of prior year budget amounts is necessary when services or projects are started but not completed at the end of the fiscal year. This is especially true for the Capital Improvement Program (CIP) that typically spans several years. The table below displays the expenditure budget for the General Government capital funds excluding transfers.

Enterprise Funds

The table below is a summary of revenues and expenses for the Enterprise Operating Funds as of April 30, 2022. Overall, revenues and expenditures are tracking below budgeted levels with revenues tracking at 77.2% of the budget and expenditures tracking at 78.4% of the budget.

Both revenues and expenditures are tracking above last fiscal year levels reflecting current activity levels. The increase in expenditures in the Electric Utility is primarily due to the higher debt retirement costs as well as higher resource costs related to transmission and wheeling (transportation of electric energy from within an electrical grid to an electrical load outside the grid boundaries). In the Solid Waste Utility Fund, expenditures are up primarily in the garbage collections, disposal and recycling accounts resulting from higher contractual services costs.

Water Recycling Fund	5,709,582	5,709,582	4,685,864	82.07%	5,098,936	(413,072)	-8.10%
TOTAL - Operating Appropriations	\$ 629,528,174	\$ 635,120,103	\$ 497,692,898	78.36%	\$ 417,148,880	\$ 80,544,018	19.31%

Revenues in the electric (which also includes the Electric Debt Service Fund), water, and sewer utility (which also includes the Sewer Debt Service Fund) and water recycling funds are primarily from customer service charges. The activity levels for these customer service charges also impact the resource and production costs on the expenditure side for these funds. The lower the revenue from customer service charges, the lower the expenditures in the resource and production category.

A summary of expenses in the Enterprise Capital Improvement Funds is detailed in the table below. Actuals through April 2022 totaled approximately \$82.7 million, or 30.4% of the amended budget. Expenditures in the Sewer Utility Capital Fund were significantly higher as a result of the Regional Wastewater Facility project, which is managed alongside the City of San José. Similar to the general government capital funds, capital funds were carried over into next fiscal year as part of the FY 2021/22 and FY 2022/23 budget adoption process for those projects that have not yet been completed. Adjustments to the capital carryover amounts based on actual year-end expenditures were included as part of the Budgetary Year-End Report for FY 2020/21, approved at the December 14, 2021 Council meeting. These adjustments are reflected below.

(1) Street Lighting fund is part of Electric Capital Improvement Funds

Fund Reserves

By policy, City Council established the City's General Contingency Reserve, under which reserves for Budget Stabilization and Capital Projects were established.

- Budget Stabilization Reserve is set aside for weathering economic downturns, emergency financial crisis, or disaster situations. The reserve target is equal to the expenditures of the City's General Fund operations for three months (90-day or 25% General Fund Adopted Operating Budget). In FY 2021/22, the City Council approved an exception to the policy to allow the Reserve to drop below the 25% level.
- Capital Projects Reserve earmarks funds for the Capital Improvement Program.

Other General Reserves and Enterprise Fund Reserves included in this report are highlighted as follows:

- Technology Fee Reserve is set aside to update and/or replace the City's aging technology and to ensure internal controls are in compliance with current business standard and legal requirements.
- Land Sale Reserve is net proceeds from the sale of City-owned land, with interest earned on these funds available to be appropriated for General Fund operating expenditures. This reserve is available for appropriation by City Council action.
- The Electric Utility Reserve assures sufficient operating cash is available to ensure debt service coverage.
- The Replacement and Improvement Reserve in the Water and Sewer Utility Funds is for future capital improvement.

The table below summarizes select reserve balances.

**CITY OF SANTA CLARA
RESERVE BALANCES
April 30, 2022**

DETAIL OF SELECTED FUND RESERVE BALANCES:

	GENERAL FUND	ELECTRIC	WATER
Budget Stabilization Reserve	\$ 53,615,817		
Capital Projects Reserve	8,712,039		
Land Sale Reserve	20,732,270		
Technology Fee Reserve	1,426,174		
Rate Stabilization Fund Reserve		\$ 44,898,011	
Cost Reduction Fund Reserve		112,838,357	
DVR Power Plant Contracts Reserve		78,163	
Replacement & Improvement			\$ 303,090
TOTALS	\$ 84,486,299	\$ 157,814,531	\$ 303,090

Note: The Capital Projects Reserve includes funding of \$3.2 million set aside for projects programmed in FY 2022/23 through FY 2024/25 in the prior CIP.

City of Santa Clara

Financial Status Report as of April 30, 2022

Long-Term Interfund Advances

The funds below have made advances/loans which are not expected to be repaid within the next year. The balances reflected in the table are through April 2022. The loan from the General Fund to Parks and Recreation Facilities reflects proceeds from the Land Sale Reserve for the purchase of property at the Reed and Grant Sports Park. This loan is anticipated to be repaid by 25% of future Mitigation Fee Act revenue until the loan is paid in full.

DETAIL OF LONG TERM INTERFUND ADVANCE BALANCES:

Fund Receiving Advance/Loan	Fund Making Advance/Loan	Type	Amount of Advance/Commitment
Cemetery	General Fund	Advance	\$ 7,961,149
Parks and Recreation Facilities	General Fund	Loan	8,761,865
TOTALS			\$ 16,723,014

Note: The write-off of the loan to the Cemetery Fund was approved by the City Council on June 7, 2022 as part of the February/March Monthly Financial Report.

Donations to the City of Santa Clara

Donations received by department during the month of April 2022 and for fiscal year 2021/22 are shown in the table below.

Department	Apr-22	Fiscal Year 2021/22 Year To Date	Designated Use
City Manager's Office	\$ -	\$ 190	Help Your Neighbor
