ADJOURNMENT:

The next regular scheduled meeting is on Wednesday, March 10, 2021 at 6:00 PM

The time limit within which to commence any lawsuit or legal challenge to any quasi-adjudicative decision made by the City is governed by Section 1094.6 of the Code of Civil Procedure, unless a shorter limitation period is specified by any other provision. Under Section 1094.6, any lawsuit or legal challenge to any quasi-adjudicative decision made by the City must be filed no later than the 90th day following the date on which such decision becomes final. Any lawsuit or legal challenge, which is not filed within that 90-day period, will be barred. If a person wishes to challenge the nature of the above section in court, they may be limited to raising only those issues they or someone else raised at the meeting described in this notice, or in written correspondence delivered to the City of Santa Clara, at or prior to the meeting. In addition, judicial challenge may be limited or barred where the interested party has not sought and exhausted all available administrative remedies.

If a member of the public submits a speaker card for any agenda items, their name will appear in the Minutes. If no speaker card is submitted, the Minutes will reflect "Public Speaker."

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 ("ADA"), the City of Santa Clara will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities, and will ensure that all existing facilities will be made accessible to the maximum extent feasible. The City of Santa Clara will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities including those with speech, hearing, or vision impairments so they can participate equally in the City's programs, services, and activities. The City of Santa Clara will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities.

Agendas and other written materials distributed during a public meeting that are public record will be made available by the City in an appropriate alternative format. Contact the City Clerk's Office at 1 408-615-2220 with your request for an alternative format copy of the agenda or other written materials.

Individuals who require an auxiliary aid or service for effective communication, or any other disability-related modification of policies or procedures, or other accommodation, in order to participate in a program, service, or activity of the City of Santa Clara, should contact the City's ADA Coordinator at 408-615-3000 as soon as possible but no later than 48 hours before the scheduled event.

PUBLIC HEARING

2. [20-1047](#) STUDY SESSION: Assembly Bill 992 (2020), an amendment to the Brown Act concerning social media

Assistant City Attorney Alexander Abbe provided a PowerPoint presentation regarding Assembly Bill 992 (2020), which amends the Brown Act to provide new guidelines for public officials when posting on social media. Commissioners asked clarifying questions as to what platforms are considered social media, specific items the bill applies to, and how to remedy accidental violations.

Assistant City Attorney Alexander Abbe clarified that this bill applies to all items that are in the Commissioners' subject matter jurisdiction, and not just what is agendized. The bill authorizes officials to post on social media about matters within their subject matter jurisdiction, but prohibits officials from making direct responses (including comments, "likes" and "emojis") to each others' posts. For violations of the new law, Mr. Abbe explained that as this is a part of the Brown Act, the traditional "cure" process for Brown Act violations would apply.

Mr. Abbe also cautioned the Commissioners to avoid posting about quasi-judicial matters (CUPs, variances, and subdivision maps), as this could constitute a due process violation. Posts regarding legislative acts, such as rezonings and General Plan Amendments, would not present due process concerns.

Public Speaker:

Jeff Houston, resident, expressed that the bill seemed similar to the existing prohibition on serial meetings contained in the Brown Act. **Mr. Abbe** responded that Mr. Houston was correct, that bill was similar; the main difference is that existing law requires a majority to participate before an illegal "serial meeting" is created. Under AB 992, it only takes two public officials to violate the Brown Act, with one posting on social media and the other responding to that post.

A motion was made by Commissioner Ikezi, seconded by Commissioner Biagini to close the public hearing.

Aye: 7 - Commissioner Ikezi, Commissioner Jain, Chair Saleme, Commissioner Becker, Vice Chair Biagini, Commissioner Cherukuru, and Commissioner Herro

3. 20-1058 STUDY SESSION: Patrick Henry Drive Specific Plan

Senior Planner Rebecca Bustos provided a Powerpoint presentation. **Ellie Fiore, MIG consultant**, was also present to answer questions.

Commissioners asked questions regarding the building heights, density, public transportation within the project area, geological analysis, and if a school was being built. **Chair Saleme** stated that he was glad to see a project in the early stages of development.

Senior Planner Rebecca Bustos explained that 22% of the project was dedicated parkland, that there is a bus line right outside of the project, the amount of retail space, and that VTA has been working closely with staff.

Planning Manager Reena Brilliont clarified that the project is still in the early development phase, that there are regular meetings held with the property owners regarding the plan of the neighborhood, and the purpose of in-lieu fees. She also expressed willingness to continue to explore incorporating a school into the plan by working in coordination with Santa Clara Unified School District.

Public Speakers (4):

Jeff Houston, resident, expressed support for the high-density development, for there to be a park space, and a school to be included in the plan.

Atisha Varshney, Rivermark resident, inquired if the City has a parks plan and expressed concern for the transit and parking in the proposed project.

Michal Healy, Director, Facility Development and Planning, Santa Clara Unified School District, stated that the district would have to check with each developer to buy land from and that there would not be enough space for a school given the retail space.

Harbir Bhatia, Cultural Commissioner, expressed concerns for the traffic measures, school, and integration to the rest of the City's assets.

A motion was made by Commissioner Jain, seconded by Chair Saleme to close public hearing.

Aye: 7 - Commissioner Ikezi, Commissioner Jain, Chair Saleme, Commissioner Becker, Vice Chair Biagini, Commissioner Cherukuru, and Commissioner Herro

REPORTS OF COMMISSION/BOARD LIAISON AND COMMITTEE:

1. Announcements/Other Items

Commissioner Jain announced that his research project would be featured on the television show NOVA which airs tonight.

PUBLIC HEARING

2. [21-1316](#) Public Hearing: Action on the Appeal of the Development Review Hearing Adoption of a Mitigated Negative Declaration and Architectural Approval of a Data Center Project Located at 1111 Comstock Street

Recommendation: Alternatives 1 and 2:

1. Adopt a resolution to deny the appeal and uphold the Development Review Hearing adoption of the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program.
2. Adopt a resolution to deny the appeal and uphold the Development Review Hearing approval of the data center project located at 1111 Comstock Street, subject to conditions.

Rebecca Bustos, Senior Planner provided a PowerPoint presentation.

Applicant Ted Mahl provided a Powerpoint presentation and clarified that generators are located inside the facility.

Appellant Kendra Hartmann of the law firm Adams Broadwell Joseph & Cardozo spoke on behalf of Santa Clara Citizens for Sensible Industry (SCCSI) and raised concerns regarding greenhouse gas emissions and emergency emissions from diesel-fueled backup generators. Ms. Hartmann alleged that the Mitigated Negative Declaration (MND) fails to comply with CEQA because it does not accurately disclose health impacts due to air quality from backup generators as well as greenhouse gas emissions. Ms. Hartman also alleged that the appeal fee was improperly charged.

Chris Sumter, Applicant, spoke noting that due to the timeline of the project, it may be significantly costly and detrimental to the project to make major changes to the design at this stage.

Michael Lisenbee, David J. Powers, spoke and provided clarification on how greenhouse gas emissions effect cumulative analysis and impacts.

Assistant City Attorney Alexander Abbe spoke and went through each of the substantive issues raised by the Appellant concerning the MND in her verbal testimony and in a letter sent by the Appellant in the early afternoon on the day of this meeting, and noted that the comments received largely overlapped comments brought up previously. Mr. Abbe also stated that this was not the venue to contest the filing fees charged.

Commissioners expressed disappointment on aesthetics of the design of the data center and concerns regarding the amount of data centers approved in the city thus far and the cumulative effects of noise.

Public Speakers:

Council Member Suds Jain spoke regarding the noise impacts of data centers due to cooling fans on roof of buildings and requested that the applicant speak to this issue. Applicant Ted Mahl clarified there are noise monitors on the cooling fans and generators and that there is a standard noise requirement for roof top equipment.

A motion was made by Commissioner Cherukuru, seconded by Commissioner Biagini to close public hearing.

Aye: 5 - Vice Chair Biagini, Commissioner Cherukuru, Commissioner Huang, Commissioner Ikezi, and Chair Saleme

Excused: 1 - Commissioner Herro

A motion was made by Commissioner Ikezi, seconded by Commissioner Cherukuru to approve Alternative 1.

Aye: 5 - Commissioner Ikezi, Chair Saleme, Vice Chair Biagini, Commissioner Cherukuru, and Commissioner Huang

Excused: 1 - Commissioner Herro

A motion was made by Commissioner Cherukuru, seconded by Commissioner Biagini to approve Alternative 2 with an additional condition regarding improved aesthetics to be approved by city staff with a friendly amendment made by Chair Saleme to incorporate more volumetric distinction and more change of color in upper floors to have a less massive data center.

Aye: 5 - Commissioner Ikezi, Chair Saleme, Vice Chair Biagini, Commissioner Cherukuru, and Commissioner Huang

Excused: 1 - Commissioner Herro

Meeting went into recess at 8:20 p.m. and reconvened at 8:25 p.m.

Agenda Date: 2/24/2021

REPORT TO PLANNING COMMISSION

SUBJECT

Study Session on the Draft El Camino Real Specific Plan

BACKGROUND

Over the past few years, the City has been developing a Specific Plan to implement the City's General Plan goals and policies for the El Camino Real corridor. The Specific Plan will provide detailed guidance for the development of future land uses including urban design elements to implement the City's General Plan vision for the transformation of the corridor from low intensity, automobile-oriented uses to a more urban, mixed-use environment supporting a significant residential population. This vision was established in 2010 with the adoption of the current General Plan, and several residential or mixed-use projects were subsequently developed along the corridor, but without a Specific Plan, they did not follow a cohesive set of design principles and the community was frustrated by their lack of input into the City's policies for the corridor. The City Council directed staff to initiate the preparation of the Specific Plan with a focus on community engagement in order to address these concerns.

Following a two-year community engagement process, a full draft of the Specific Plan was made available for review and comment on the City's El Camino Real website in May 2020. On September 30, 2020, a community open house was held via Zoom to review the Draft Plan with the Community and receive feedback. The Draft Environmental Impact Report (EIR) for the El Camino Real Specific Plan was made available for a 45 - day public comment period beginning on December 10, 2020, and which ended on Monday, January 25, 2021.

DISCUSSION

The planning frameworks are the impetus of the Specific Plan, are reflected throughout the elements of the Specific Plan, and include:

- Focus development at key activity nodes
- Respect the character of adjacent neighborhoods
- Create memorable public open spaces
- Enhance connectivity along and across the corridor
- Improve multimodal access and safety for all travel modes
- Promote a range of housing options

Land Use Plan

The Land Use Plan will guide future development and redevelopment activities within the area toward multi-modal supportive uses and improvements, including: an increase in housing density, new development that appropriately transitions to existing adjacent residential neighborhoods, and more intensive development and public improvements focused at key nodes, which will include a

concentration of retail, services, housing, and new public gathering areas.

The strategy of the land use framework is to focus more intensive development and public improvements at key nodes or “Activity Centers.” These Activity Centers are, in most cases, based on existing centers of commercial and pedestrian activity and are aligned with the major intersections along the corridor. The density of uses at Activity Centers, and regional traffic and visibility, will provide ideal conditions for vibrant regional-serving shopping destinations. Between the Activity Centers, the “in-between” areas are a less intensive mix of commercial and residential uses.

The Specific Plan build out projection represents an estimate of build out associated with the proposed land use plan through the horizon year of 2040, and would include the development of 6,200 housing units, compared with existing conditions, and a reduction of approximately 395,000 square feet of commercial space, when compared with the existing General Plan land use designations.

El Camino Real Right-of-Way

Currently El Camino Real largely functions as a major vehicular thoroughfare. The proposed Specific Plan outlines implementation strategies to transform the corridor into a true “Complete Street” with quality pedestrian, bicycle, and transit facilities.

To achieve a Complete Street, the design of the El Camino Real right-of-way would include narrower travel lanes and enhanced pedestrian facilities, including wider sidewalks, street trees, landscaped medians, and enhanced signage and lighting, as well as a continuous cycle track (separated/protected bikeway) and bus boarding islands without increasing overall right-of-way requirements. To achieve this right-of-way vision, at a minimum, the removal of on-street parking on El Camino Real is required as parcels redevelop.

Design Standards

The Specific Plan provides standards and guidelines to achieve the future vision for El Camino Real. These standards and guidelines will apply to all new development in the El Camino Real Specific Plan Area, as well as public improvements and extensive renovations to existing structures.

The standards, as drafted in the Plan, provide specific requirements for elements such as; height, intensity, and setbacks, and are organized by character area/land use designation. A key standard of the Specific Plan is providing new development that appropriately transitions in height and scale to existing neighborhoods. New development adjacent to residential neighborhoods would incorporate a range of transition strategies including a 45-Degree Daylight Plane for building volumes, increased building setbacks, and upper-story step backs.

Additionally, there have been recent changes to state law that affect the City’s authority to regulate housing projects. First, the “Housing Crisis Act” prohibits the City from reducing the residential density of a parcel below the density that existed on January 1, 2018, unless the City simultaneously upzones another parcel to accommodate the lost development potential. The draft Specific Plan will almost universally increase the maximum density along the corridor, with just a few exceptions. The few parcels that will decrease in density will be more than offset by this overall increase.

Next, the “Housing Accountability Act” (HAA) prohibits the City from imposing development standards and criteria on certain housing projects if those criteria do not qualify as “objective standards.” An

“objective standard” under the HAA involves no personal or subjective judgment by a public official and is uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant and public official prior to submittal. This requirement applies to 100% residential developments, as well as mixed-use developments where at least 2/3 of the square footage is residential. (Mixed-use developments with commercial space taking up more than 1/3 square footage could still be subject to subjective criteria.) Therefore, the Specific Plan standards are currently being modified to include objective standards that align with the new state laws. The intent and purpose of the standards will remain the same, but will be reworked in order to remove subjectivity from the approval process for applicable housing developments.

Finally, a number of other laws provide expedited processing for qualifying affordable projects. Since 2018, Chapter 17.40 of the City Code has required all housing developments of 10 or more units to provide at least 15% of the units at affordable prices or rents. For housing developments with 20% of the units affordable to lower income households, or 100% of the units affordable to moderate income households, the HAA requires the City to approve the development irrespective of any design considerations, whether objective or not. For housing developments with 50% of the units affordable to lower income households, SB 35 (2017) requires that such projects be approved administratively without any public hearing.

Next Steps

The remaining tasks in the Specific Plan work program include updating the Draft Plan to include objective standards, incorporate comments from the public, as well as, from other City departments and outside agencies as appropriate, responding to comments on the DEIR, and then presenting the Final EIR and Final Draft Plan to the Planning Commission (PC) for their recommendation and to the City Council (CC) for adoption.

ENVIRONMENTAL REVIEW

The action being considered is a study session only and does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(a), as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

An Draft Environmental Impact Report (EIR) has been prepared for the Specific Plan, and circulated for a 45-day review period beginning December 10, 2020 and concluding January 25, 2021. The EIR will be brought to the Planning Commission for consideration when the Specific Plan is brought forward for a recommendation on adoption.
