Jim,

Your field seating request has been conditionally approved, so long as the field seats **are the distances from the yellow-dotted line and field outlined on the application; and do not interfere with the path of the network TV carts or other sideline personnel moving along the sidelines. The NFL Football Operations department retains the authority to withdraw the approval at any point if it is determined that a field-level seating area is not in compliance with our policies or interferes with general game operations.**

This email will be added to your online application and serves as your approval from the League office.
