

**AMENDMENT NO. 2  
TO THE AGREEMENT FOR DESIGN PROFESSIONAL SERVICES  
BETWEEN THE  
CITY OF SANTA CLARA, CALIFORNIA,  
AND  
BELLECCI & ASSOCIATES, INC.**

**PREAMBLE**

This agreement ("Amendment No. 2") is entered into between the City of Santa Clara, California, a chartered California municipal corporation (City) and Bellecci & Associates, Inc. a California corporation, (CONTRACTOR). City and CONTRACTOR may be referred to individually as a "Party" or collectively as the "Parties" or the "Parties to this Agreement."

**RECITALS**

- A. The Parties previously entered into an agreement dated June 19, 2019 entitled "Agreement for Design Services between the City of Santa Clara, California, and Bellecci & Associates, Inc." to provide engineering design services for the demolition of buildings at the City's remote property located in Benicia, California (Benicia Project); and
- B. The Parties entered into Amendment No. 1 on November 19, 2019 to provide engineering design services for a demolition project located on City's remote property near Loyalton, California (Loyalton Demolition Project)
- C. The Parties desire to enter into this Amendment No 2 to include project and Construction Management (CM) services for the Benicia Project as well as services for the Loyalton Property including evaluating the fence (Loyalton Fence Project), preparing specifications for site remediation after the 2020 fire (Loyalton Remediation Project), prepare a construction cost estimate, and perform CM services for the Loyalton Fence Project and the Loyalton Remediation Project;
- D. The Agreement and both amendments are collectively referred to herein as the "Agreement as Amended"; and

NOW, THEREFORE, the Parties agree as follows:

**AMENDMENT TERMS AND CONDITIONS**

- 1. Section 6 of the Agreement as Amended, entitled "Compensation and Payment" is amended to read as follows:

In consideration for CONTRACTOR's complete performance of Services, City shall pay CONTRACTOR for all materials provided and Services rendered by CONTRACTOR in accordance with Exhibit B - Amended July 15, 2021, entitled "Compensation and Fee Schedule." The maximum compensation of this Agreement is Three Hundred Fifty-Six Thousand Twenty One Dollars (\$356,021), subject to budget appropriations, which includes all payments that may be authorized for Services and for expenses, supplies, materials and equipment required to perform the

Services. All work performed or materials provided in excess of the maximum compensation shall be at CONTRACTOR's expense. CONTRACTOR shall not be entitled to any payment above the maximum compensation unless authorized through a written amendment to this Agreement in advance of work being performed.

2. Exhibit A – Scope of Services is amended to read as set forth in Exhibit A – Scope of Services Amended September 1, 2021.
3. Exhibit B – Schedule of Fees is amended to read as set forth in Exhibit B – Compensation and Fee Schedule Amended September 1, 2021.
4. Exhibit D – Labor Compliance Addendum attached and incorporated into this Agreement.

Except as set forth herein, all other terms and conditions of the Agreement as Amended shall remain in full force and effect. In case of a conflict in the terms of the Agreement as Amended and this Amendment No. 2, the provisions of this Amendment No. 2 shall control.

The Parties acknowledge and accept the terms and conditions of this Amendment No. 2 as evidenced by the following signatures of their duly authorized representatives.

**CITY OF SANTA CLARA, CALIFORNIA**

**AMENDMENT NO. 2  
TO THE AGREEMENT FOR DESIGN PROFESSIONAL SERVICES  
BETWEEN THE  
CITY OF SANTA CLARA, CALIFORNIA AND BELLECCI & ASSOCIATES, INC.**

**EXHIBIT A – SCOPE OF SERVICE  
AMENDED SEPTEMBER 1, 2021**

The Services to be performed for the City by the CONTRACTOR under this Agreement are more fully described in this Exhibit A. CONTRACTOR will furnish labor, equipment and materials to perform the following work in accordance with industry standards and in compliance with all federal, state and local laws and regulations.

**1. Benicia Project**

1.1. Project Description: The City of Santa Clara, Silicon Valley Power (SVP) is undertaking improvement work located on the City's off-site property at 2313 Lopes Road, Benicia, CA, known as the "Benicia Ranch".

1.1.1. The Benicia property (Benicia Property) is owned and maintained by the City for the purpose of future energy production. The Benicia Property was used as a dairy before the City acquired it.

1.1.2. Benicia Project will include existing structure demolition and site utility lateral stub out improvements. The following structures will be demolished on the Benicia Property:

1.1.2.1. Caretakers Dwelling Demolition: The Caretakers Dwelling structure (a 2500 SF single-family home and basement) is to be demolished. The Caretaker Dwelling is assumed to be of no historical value.

1.1.2.2. Milk House and Garage Demolition: The Property contains two (2) structures that have reached the end of their service life and must be demolished. The first structure is an old cattle milking parlor that has developed a large vertical crack in its cement/cinder block walls that are visible in the front and back making the structure structurally unsound. The second structure is a detached garage that has a cracked foundation. The Milking Parlor acts as a hub for the electrical distribution for the Property.

1.1.2.3. A project schedule for the Benicia Project is attached as Exhibit A-1.

**1.2. Benicia Project – Preliminary Design – Completed June 2020**

Services to be performed

1.2.1. Preparation of demolition plans including selection of a utility shed for this hub to be relocated.

- 1.2.1.1. Services include one field site visit by an Engineer, including travel
- 1.2.1.2. Deliverables:
  - 1.2.1.2.1. Demolition plans
  - 1.2.1.2.2. Utility shed plans
  - 1.2.1.2.3. Existing structural conditions narrative
- 1.2.2. 2' Well Evaluation –subcontracted to Luhdorff & Scalmanini (LSCE) - Completed May 2020
  - 1.2.2.1. LSCE will evaluate the condition, yield, and water quality of the subject well at Benicia Ranch. It is assumed that the pump is operational and that power is available to run the pump. LSCE will review available State of California Water Well Drillers Completion Reports to determine the construction details of the well.
  - 1.2.2.2. LSCE will perform visual inspection of the well head, discharge assembly, well seal, and well pad.
  - 1.2.2.3. LSCE will perform a minimum two-hour pump test. During the test, water levels and flowrate will be collected. Water levels will be plotted on a hydrograph and used to calculate yield and 24-hour specific capacity.
  - 1.2.2.4. LSCE will collect and submit water samples for Title 22 general physical, general mineral, and drinking water metals analysis.
  - 1.2.2.5. The home inspection report says there is no power to the well. Based on this, LSCE will provide temporary power via a generator and install temporary wiring to turn on the pump in order to make a condition evaluation.
  - 1.2.2.6. Deliverable: LSCE will submit a PDF report detailing the findings and results of the well evaluation and the fitness of the well for domestic supply. The report will also include recommendations of well repair or modification as warranted.
- 1.2.3. Electrical Engineering- subcontracted to Pezzoni Electrical Consultants (Pezzoni) - Complete May 2020
  - Pezzoni will perform the following:
    - 1.2.3.1. Engineering design of existing load and PG&E service relocation at the Benicia Ranch.
    - 1.2.3.2. Field verification of existing electrical as built conditions.
    - 1.2.3.3. Review of the existing building load connected to the system.

- 1.2.3.4. Preparation of demolition drawings for the existing electrical system based on the site visit findings.
- 1.2.3.5. Completion of design for relocation of PG&E Service.
- 1.2.3.6. Completion of PG&E application.
- 1.2.3.7. Design of site layout plan and PG&E load requirement sheet.
- 1.2.3.8. Design of new Service Panel for existing load re-connection.
- 1.2.3.9. Deliverables:
  - 1.2.3.9.1. Drawings submittal in PDF format, 90%
  - 1.2.3.9.2. Stamped drawings submittal in PDF format, 100%
- 1.2.3.10. Assumptions, Clarifications and Exclusions:
  - 1.2.3.10.1. One (1) site visit is included.
  - 1.2.3.10.2. Bellecci & Associates to provide AutoCAD (ACAD) backgrounds.
  - 1.2.3.10.3. Arc Flash, Short Circuit and Relay Coordination are not included in the scope of the Benicia Project.
  - 1.2.3.10.4. PG&E relocation fees is not included in the scope of work.
  - 1.2.3.10.5. Detail design of the site loads is not included in the scope of work.
- 1.2.4. Asbestos Evaluation – Complete [November 2019] subcontracted to Van Brundt
  - 1.2.4.1. Services:
    - 1.2.4.1.1. Van Brundt will provide a building inspection, sampling and report and laboratory testing and evaluation to determine if abatement work will be required prior to any demolition work being performed.
    - 1.2.4.1.2. Van Brundt tests and samples will include forty (40) Polarized Light Microscopy (PLM) / Lead samples, bulk four (4) Polychlorinated Biphenyls (PCB) samples and five (5) bulk concrete samples).
  - 1.2.4.2. Deliverable(s): Van Brundt will provide the following:
    - 1.2.4.2.1. Written inspection report identifying sample locations and hazardous materials that could impact the planned work. The report will detail

inspection findings, list hazardous materials present, and provide required actions to abate, remove, or stabilize the materials. Attachments to this report will include laboratory reports, Chain of Custody (COC), and sample location plans.

- 1.2.4.2.2. ACAD abatement drawings and a bid information sheet. ACAD drawings will show where hazardous materials are recommended or required for removal and will be used for Demolition Contractor bidding purposes.
- 1.2.4.2.3. Based on the inspection finding Van Brundt will also generate a hazardous materials cost estimate and man-power loaded schedule for the abatement for budgetary and scheduling purposes.
- 1.2.4.2.4. Abatement Project Design and Drawings
- 1.2.4.2.5. Cost Estimates and Schedules
- 1.2.4.2.6. Abatement Bidding Assistance
- 1.2.4.2.7. Oversight and Air Monitoring during Abatement (includes two [2] Transmission Electron Microscopy (TEM) area air samples per shift)
- 1.2.4.2.8. Clearance Air Monitoring (includes three [3] TEM samples per contained work area)

**1.2.5. Civil Engineering/Base Mapping/Project Management Completed January 2021**

Bellecci & Associates. Bellecci will provide the following services:

- 1.2.5.1. Aerial base map
- 1.2.5.2. Project management of the design team
- 1.2.5.3. Regular Project meetings (either in-person or by conference call)
- 1.2.5.4. Overall site layout plan and cover sheet
- 1.2.5.5. Combined technical specifications
- 1.2.5.6. Project schedule updates at each submittal
- 1.2.5.7. Combined construction cost estimates
- 1.2.5.8. Grading and backfill requirements at demolished buildings for positive surface drainage. Wet utilities stubs plan

- 1.2.5.9. Demolition plans. The following information will be noted on the final design:
  - 1.2.5.9.1. At least 50%, or more if required by local law, of the waste generated through the demolition process must be diverted from landfills and recycled, either in the project or offsite.
  - 1.2.5.9.2. All debris and waste generated through the demolition process shall be removed from the Property unless recycled for use in the Benicia Project.
  - 1.2.5.9.3. A presentation of the plan set to SVP personnel before Bid set
  - 1.2.5.9.4. Coordinate with SVP and sub consultants to research permits required and provide a list of the known permits
- 1.2.5.10. Erosion Control plans: Specifications for Storm Water Pollution Prevention Plan (SWPPP) to be completed by CONTRACTOR

1.2.6. After the initial submittal to the Solano County Planning Department, the Planning Department will generate a comment letter addressed to the design team that is typically several pages of conditions of approval. The conditions of approval may include items of work not anticipated in the contract scope of work, such as: off-site improvements, added engineering studies (traffic, drainage, etc.), and added exhibits. It is understood and agreed by both parties that all of items which may be requested by the permitting agency on a land development project cannot be anticipated during the proposal phase of the project. The scope of work prepared contains the items of work that would be typically required for a residential building project on a large rural parcel, and with enough detail that the plans can be stamped by the California Licensed engineer on the design. In the event that unanticipated additional work items are required, an Amendment to this Agreement shall be required in advance of starting work.

## **2. Loyalton Demolition Project:**

2.1. Loyalton Demolition Project Description: SVP is undertaking a demolition project located on the City's remote property at 407 Dutchman Road, Chilcoat, CA (Loyalton Demolition Project).

2.1.1. The project location and project limits are shown in Exhibit A - 2 Attached (Figure 1 and Figure 2)

- 2.1.2. The property is owned by City and maintained by SVP. This Project will include existing structure demolition and stubbing out existing utilities.
  - 2.1.3. A project schedule for the Loylton Project is attached as Exhibit A-3.
- 2.2. Loylton Demolition Project – Preliminary Engineering – Completed [January 2020]**
- Services to be performed
- 2.2.1. Project Management**
    - 2.2.1.1. Upon contract authorization, CONTRACTOR will be responsible for managing design team staff.
    - 2.2.1.2. The key project management tasks that will be implemented by CONTRACTOR include establishing and updating the project schedule, monitoring the project budget, scheduling with key parties, and sub consultant coordination.
    - 2.2.1.3. CONTRACTOR will review available reference material and background information for the project site from the City.
  - 2.2.2. Field Visit by Civil Engineer**
    - 2.2.2.1. CONTRACTOR will spend one and a half days, including travel time, to visit the site, assess the site conditions, collect photographs of the interiors and exteriors of the buildings, approximately measure the building exteriors, and record field notes.
    - 2.2.2.2. Prior to the site visit, SVP will provide the key to the locked gate. CONTRACTOR shall assure that the entry gate remains locked during the site visit.
    - 2.2.2.3. The field engineer will note access obstructions such as low water crossings, low hanging trees, and other features that can affect the Demolition Contractor's ability to perform the work efficiently.
    - 2.2.2.4. The data collected from the field visit will be used to prepare the project base map as described below.
  - 2.2.3. Base Mapping**
    - 2.2.3.1. CONTRACTOR will prepare a project base map to serve as an ACAD base drawing for conceptual design and subsequent construction documents.
    - 2.2.3.2. The base map will be a combination of an on-line aerial photograph adjusted with linework in ACAD based on the field review measurements and photographs collected.

- 2.2.3.3. The gravel/earthen access road which is approximately 2 miles will be on the cover sheet at 200 scale or as appropriate to fit on the sheet.
- 2.2.3.4. The entrance and gate will be enlarged in Google maps and shown on a separate enlargement along with some site photos of the entrance.
- 2.2.3.5. No field measurements or aerial mapping are included for the approach road to the property, as the Demolition Contractor is required to make a site visit as part of the bidding process.
- 2.2.3.6. No topographic surveys are included.
- 2.2.3.7. Deliverable(s): Base Map in a PDF format
- 2.2.4. Asbestos Evaluation/ Report subcontracted to Ezgo Environmental Services (EES)- Completed September 2020**
  - 2.2.4.1. EES (a firm with a Certified Asbestos Consultant in California) will provide an inspection report, sampling, laboratory testing, analysis, location maps, and a field evaluation to determine if abatement work will be required prior to the demolition work being performed by the Demolition Contractor during construction.
  - 2.2.4.2. Tests and samples will include 25 asbestos samples, 10 lead samples, and four (4) PCB samples with corresponding analysis. EES will also perform PLM point counting for asbestos samples less than 1 %, if necessary. A hazardous materials checklist will also be included.
  - 2.2.4.3. EES has identified that twenty-five (25) asbestos bulk samples, ten (10) lead bulk samples and four (4) PCB bulk samples and point counting of asbestos samples less than 1%, adequate for the size of the Loyaltan Project. EES has identified that an environmental assessment report in .PDF format consisting of an asbestos inspection, lead inspection, PCB inspection and household hazardous materials evaluation will be adequate prior to demolition of the structures on-site.
  - 2.2.4.4. Deliverable(s): Report in a PDF format
  - 2.2.4.5. Asbestos Plans and Cost Estimate – EES
    - 2.2.4.5.1. Should hazardous materials be found on-site EES will prepare an abatement scope for a licensed Demolition Contractor to remove these materials (whether they are building materials or loose hazardous household materials on the

subject site) prior to demolition activities being performed.

2.2.4.5.2. EES will prepare drawings to show where hazardous materials are required or recommended to be removed for bidding purposes. EES will also prepare a cost estimate for the abatement and disposal of any hazardous materials.

2.2.4.5.3. Deliverable(s): Electronic files in a PDF and Excel spreadsheet format

**2.2.5. Draft Plans & Technical Specifications – Completed March 2020:**

CONTRACTOR will prepare a demolition plan for the structures within the limits shown on Figure 2.

- 2.2.5.1. The structures to be demolished will be outlined and field measured with approximate dimensions. Each structure shown on the plan will be numbered with an approximate exterior square footage.
- 2.2.5.2. Specifications will include photographs of the interior and exterior of the buildings (two or four photos per page as appropriate).
- 2.2.5.3. The plans or specifications will include a photograph index of the location of the photos included in the specifications.
- 2.2.5.4. Photos of the access road and gate on the main road will also be shown so that bidders are aware of the site ingress and egress conditions.
- 2.2.5.5. The plans and specifications shall include requirements in regards to disposal of recyclable materials from demolition as required by SVP.
- 2.2.5.6. Included on the plans will be construction notes for: erosion control, site access and traffic control, mobilization, tree trimming (if needed), lump sum building demolition, lump sum asbestos abatement as described in the report, backfilling of excavated foundations, grading, and other items required to complete the demolition project.
- 2.2.5.7. The plans are prepared with the assumption that the bidders are required to visit the site as part of the bidding process, and the bidders will be permitted to review the structures as part of the bid. Therefore, detailed floor plans are not needed. If record drawings are available of the structures, they will be included in the plans, along with a description.

- 2.2.5.8. The plans will show a standard detail for backfill of voids and holes after the completion of the excavation.
- 2.2.5.9. The plans will include storm water protection devices which the Demolition Contractor will implement during construction. These measures will be the minimum required storm water protection that will be required for the Demolition Contractor's prepared Water Pollution Control plan.
- 2.2.5.10. A construction cost estimate will be prepared for the items shown on the plans. The cost estimate will include approximately 10-15 lump sum items to breakdown the work required by the Demolition Contractor. Examples of items to be included on the cost estimate include erosion control, site access and traffic control, mobilization, tree trimming (if needed), lump sum building demolition, lump sum asbestos abatement as described in the report, backfilling of excavated foundations, grading, and other items required to complete the demolition project.
- 2.2.5.11. Deliverable(s): Electronic files in a PDF and/or MS Word format and/or Excel spreadsheet format Final Plans, Technical Specifications & Estimate (PS&E).
- 2.2.5.12. CONTRACTOR will revise PS&E based on comments from City. CONTRACTOR will update the cost estimate and technical specifications based on comments from the City. CONTRACTOR will issue Final Bid Drawings stamped and signed by a Professional Engineer.
- 2.2.6. Assumption: There are not required submittals to the local County and City Planning or Building Department. The scope of work prepared contains the items of work that would be typically required for a residential building demolition project on a large rural parcel, and with enough detail that the plans can be stamped by the California Licensed engineer on the design.
- 2.2.7. Deliverable(s): Electronic files in a PDF and/or MS Word format.

### **3. Loyalton Fence Project**

Contractor shall perform the following services:

#### **3.1. Preliminary Aerial and Estimate**

- 3.1.1. Project Management and Coordination for all phases of the project is included.
- 3.1.2. Preliminary Aerial: CONTRACTOR will coordinate with an aerial mapping firm to schedule and initiate aerial mapping flyover. CONTRACTOR will provide aerial flyover timelines to SVP.

- 3.1.2.1. The aerial mapping flight is estimated to be 167 images in 9 flight lines with a ground sample distance (GSD) of between 6 and 10 cm. Sampling varies due to terrain differences. Ground will be sampled using a digital image sensor. Airborne Global Positioning System (GPS) will be collected for each image, and processed to State Plane coordinates, or other agreed upon datum or units. Images and flight lines will be tied together using the process of aerotriangulation. There will be no ground control applied to aerotriangulation. Positioning will be based on the GPS and USGS only.
- 3.1.2.2. Orthophotos will be processed with the following expectations:
  - 3.1.2.2.1. Relative positioning (objects in relation to one another) is expected to be less than +/- 5 feet.
  - 3.1.2.2.2. Absolute accuracy (objects shown in imagery in relation to their actual position on the ground) is unknown. Based on past experience, absolute accuracy is expected to be less than +/- 15 feet.
- 3.1.2.3. Approximately 150 tile mosaics will be output at 0.25' pixel resolution in location format, and cover 2500'x2500' on the ground.
- 3.1.2.4. Expectation of image resolution is as follows: With a GSD of 0.25' buildings, roads, streams and trees are expected to be clearly visible. Wood fences should be visible along with any that are laying on the ground. Wire fences may be visible but they are easily interpolated and often cast a shadow. Breaks in wire fences may not be discernible. Snow present on the ground may affect some or all of these items.
- 3.1.3. Review Aerial and Estimate Gaps: CONTRACTOR will review the jpeg files and assess the gaps. CONTRACTOR to use the images to identify the approximate coordinates of the fence gaps. The fence gap coordinates will have a range of accuracy of +/- 10' depending on the field conditions. Using the coordinates from of the fence gaps, the CONTRACTOR will create a list of fence gap lengths.
- 3.1.4. EES Site Walk and Fence Review: EES will review the plans and provide fence replacement comments related to the fire damage. EES to visit the site and spot review a sample segment of the fence that is one mile in length and that is accessible by vehicle or walking, with collection of photos.
- 3.1.5. Draft Cost Estimate, Images, and Memorandum: CONTRACTOR will deliver a technical memorandum which includes: links to project images, spreadsheet of gaps based on the drone imagery,

- preliminary construction cost estimate of fence replacement, and a one-page description of the field work performed.
- 3.1.6. Communications with adjacent property owners: CONTRACTOR will contact adjacent property owners to request funding participation in the fence replacement project.
- 3.1.6.1. SVP will provide contact information for the adjacent property owners.
  - 3.1.6.2. CONTRACTOR will send an introductory letter to each property owner, and follow-up with a telephone meeting request to each property owner.
  - 3.1.6.3. CONTRACTOR will document contacts and feedback received by electronic mail and/or telephone meetings.
  - 3.1.6.4. CONTRACTOR will perform labor services up to the amount in Task 3.1.6 in Exhibit B-3 to coordinate with the adjacent properties.
- 3.1.7. Review/Analyze potential funding sources for fire remediation cost recovery: CONTRACTOR will review/analyze and/or research potential for cost sharing and/or reimbursement options due to fire damage for the site. CONTRACTOR will document all contacts relative to potential reimbursement and their prospective cost-sharing opportunity. CONTRACTOR will perform labor services up to the amount on the budget spreadsheet in effort to identify funding sources for fire remediation.

### **3.2. Loylton Fence Project - Bid Documents**

Contractor shall perform the following services:

- 3.2.1. Annotate aerial photos with fence replacement notes: Annotate the fence aerial from Task 3.1 for Contractor bidding. The plans scale will be determined during the design process.
  - 3.2.1.1. The intent of the plans view is to provide the fence and/or corral contractors with notes for access points, dirt roads, and fences to be replaced.
  - 3.2.1.2. Since the base mapping is an aerial photo, the plans will not be a traditional 24" x 36" ACAD drawing, but will be a digital photo with notes added to each rectangular section in PDF format. The photograph will have an overview key map.
- 3.2.2. Prepare fence details for bidding (Structural Engineer). The fence detail will include the post and footing, or direct bury, along with the fence wire.

- 3.2.3. Prepare specifications: Prepare technical specifications for fencing, access, mobilization, fence removal, and other items related to the construction notes and details shown on the plans.
- 3.2.4. Refine construction cost estimate: Construction cost estimate will be refined from Task 3.1.
- 3.2.5. Draft Submittal: Submit draft plan, specifications and estimate to the Sierra and Lassen Counties in digital format.
- 3.2.6. Minor revisions to plans, specifications, and estimate: Make minor revisions and resubmit in digital format for City bid process.

**4. Loyalton Remediation Project – Bid Documents**

Contractor will perform the following services:

- 4.1. Revise Plans from Loyalton Demolition Project: CONTRACTOR will revise the site demolition plans prepared as part of Section 2.2.5 to reflect 407 Dutchman Road house and structure site fire damage.
  - 4.1.1. Changes to the plans will reflect removal and editing of construction notes on the previous house demolition plans, since the house was burned to the ground.
  - 4.1.2. Plans will include notes regarding the backfilling of the flooded existing basement, and backfilling the open drainage basin on site.
- 4.2. Site visit, mark-ups, and plan review by EES: Site Visit by EES to identify the trees to be removed. Tree locations will be marked on the plan for the approximate location and size. EES to review the plans for conformance to the asbestos report.
- 4.3. Revise Specifications: Revise specifications to reflect the 407 Dutchman Road site conditions due to the recent fires, per the site photographs collected in October 2020 by EES.
- 4.4. Revise Construction Cost Estimate for Loyalton Remediation Project.
- 4.5. Draft Submittal: Draft plan submittal to City in PDF format for City review.
- 4.6. Minor revisions to plans, specifications, and estimate: Prepare minor plan revisions and submit stamped plans and specifications for bidding.

**5. Engineering Support Services During Construction – Benicia Project**

- 5.1. CONTRACTOR will provide construction support services as needed on a time and materials basis up to the amount included in Exhibit B-3.
- 5.2. Civil Engineering Support Service:
  - 5.2.1. Civil engineering support requirements are expected to be minor.
  - 5.2.2. Services will be provided on a time & materials basis up to the budget included this Agreement and are anticipated not to exceed eight (8) hours.

- 5.2.3. CONTRACTOR will tracked and report hours against the task budget to SVP. CONTRACTOR shall not perform work that will exceed the contract budget.
- 5.3. Engineering Construction Support Services:
  - 5.3.1. Engineering Construction Support Services include:
    - 5.3.1.1. Bulletins/ Supplemental Instructions;
    - 5.3.1.2. Review Contractor's submittals, including shop drawings, data for general compliance with construction documents;
    - 5.3.1.3. Review of test reports, special inspection reports, and design verification reports as required by building officials;
    - 5.3.1.4. Visits to the site by Engineer's Project Representative at mutually-agreed intervals appropriate to the stage of the work or as otherwise agreed by SVP and CONTRACTOR in order for CONTRACTOR to become generally familiar with the progress and quality of the work completed and to determine, in general, if the work, when completed, will be in accordance with Contract Documents.
  - 5.3.2. Examples of Deliverables:
    - 5.3.2.1. Review Contractor's submittals, including Shop Drawings and product data for general compliance with Construction Documents as required.
    - 5.3.2.2. Respond to Contractor's Requests for Information (RFI).
    - 5.3.2.3. Punchlist Visit and Report.
  - 5.3.3. Estimates: Services are estimated not to exceed 32 hours of services, which is typical for a small demolition project in a rural setting.
- 5.4. CONTRACTOR claims any and all responsibility for the CONTRACTOR's work product and quality of work.
- 5.5. Excluded Services materials testing and inspection services are excluded and, if needed shall be contracted directly by SVP.

## **6. Construction Management (CM) Services**

- 6.1. The intent of the project CM support is to provide as-needed CM and inspection of the subject property in regard to the Benicia Project, Loyaltan Fence Project, and Loyaltan Site Remediation Project as prepared by the CONTRACTOR / Engineer (Bellecci and Associates).
- 6.2. Project Management and Coordination for all phases of the project is included.
- 6.3. CONTRACTOR will perform the following services:

- 6.3.1. Pre-Construction Phase: Provide Project Management support during the pre-construction stages of the project including:
  - 6.3.1.1. Pre-bid meeting: Attend the mandatory pre-bid meeting, in-person or virtual as required by SVP.
  - 6.3.1.2. Pre-construction meeting: Attend a virtual pre-construction meeting.
  - 6.3.1.3. Construction submittal review and coordination: Review and coordination of Construction Submittals and Requests for Information (RFI).
  - 6.3.1.4. Review Contractor site documentation (photos or videos, etc.) for Demolition Contractor, Fence Contractor, or Site Remediation Contractor as applicable.
- 6.3.2. Construction Phase.
  - 6.3.2.1. Public Notification Coordination and Public Relations: Public relations including notification and coordination with adjacent property owners and other agencies as required including responding to questions from adjacent property owners, other agencies, and other stakeholders.
  - 6.3.2.2. Construction Meetings and Project Coordination: Conduct construction meetings and project coordination with the following assumptions:
    - 6.3.2.2.1. Benicia Project - assume six (6) virtual meetings,
    - 6.3.2.2.2. Loyalton Fence Project – assume four (4) virtual meetings,
    - 6.3.2.2.3. Loyalton Site Remediation Project – assume five (5) virtual meetings,
  - 6.3.2.3. Construction Support: Construction support including weekly report, RFI, change orders, partial and final payment verification.
  - 6.3.2.4. Construction Inspection with the following assumptions:
    - 6.3.2.4.1. Benicia Project – assume full time inspector for approximately 30 working days and includes attendance at on-site weekly meetings.
    - 6.3.2.4.2. Loyalton Fence Project – assume inspection for five (5) select working days, eight (8) hours travel time, and five (5) hours at site plus per diem and includes virtual meetings as requested by City,
    - 6.3.2.4.3. Loyalton Site Remediation Project – assume inspection for five (5) select working days, eight

(8) hours travel time, five (5) hours at site plus per diem, and eight (8) weeks project duration and includes virtual meetings as requested by City.

6.3.2.5. Additional CM Services – Loyalton Remediation Project:

EES Field Review and Recommendations: EES to perform a field review as the fire damage assessment consultant and the asbestos consultant. EES to provide written recommendations

6.3.2.6. Additional CM Services – Loyalton Fence Project

6.3.2.6.1. Aerial photogrammetry (#2): CONTRACTOR will perform aerial photography to verify completion of fencing. The aerial photogrammetry will be similar to the means and methods described in Section 3.1. The intent of the mapping is to confirm the fencing was installed.

6.3.2.6.2. In addition to the aerial mapping, CONTRACTOR will provide photographic evidence of the fence work completion at intervals to be identified on the plans.

6.3.2.6.3. Review aerial image to confirm the fence and corral work is completed. The accuracy of the fence completion review will depend on the quality of the aerial image.

6.3.2.6.4. Submit aerial imagery of the final completion of the fence replacement. The deliverable of the drone imagery will be similar to the files provided in Section 3.1.2.

6.3.2.6.5. EES to visit the site to review a one-mile representative segment of fencing prior to the completion of construction. The review of the fencing is from the perspective of a fire damage assessment. EES will respond to questions from CONTRACTOR during construction phase.

6.3.3. Hazmat Site Review Coordination Benicia

6.3.3.1. Provide project administration and documentation.

6.3.3.2. HazMat testing coordination and review including project administration and documentation.

6.3.3.3. HazMat remediation support.

6.3.3.4. Certified payroll review

6.3.4. Post-Construction Support including:

- 6.3.4.1. Project construction, site (final) inspection and punch list inspection.
- 6.3.4.2. Project close-out documentation.
- 6.3.4.3. Oversight of record drawing preparation including red-lined record drawings.
- 6.3.4.4. Final reports and transmittal of all project files and record drawings including close-out report including photographs, final construction costs, as-built mark-ups.

6.4. DELIVERABLES: CONTRACTOR will

- 6.4.1. Deliver weekly inspection reports to SVP,
- 6.4.2. Answer RFIs and respond to submittals,
- 6.4.3. Submit a final close-out report, including, but not limited to photographs, final construction cost, and as-build mark-ups.

6.5. Assumptions:

- 6.5.1. Cost estimate assumes authorization prior to wet-rainy or winter weather conditions. Additional costs associated with weather shall be approved, in writing, in advance. In the event that such additional costs will result in total costs exceeding the amount in Section 6 of the Agreement, an amendment to this Agreement must be executed before such work is started.
- 6.5.2. CONTRACTOR will start work in this section following the Notice to Proceed (NTP) from SVP to the Demolition Contractor.
- 6.5.3. No materials testing and/or surveying is included.
- 6.5.4. Cost estimate is based upon final plans as prepared by CONTRACTOR and site accessibility.

6.6. SVP will provide an entrance/permission letter or other type of authorization from SVP including any authorization required from adjacent property owners and any current lock codes to enter each property.

7. Bellecci is the responsible licensed engineer of record for this proposal: Daniel Leary PE (C48394) or James M. Schaaf, PE (CA 42898).

8. The level of effort, hours expended, not exceed the number of hours and costs in Exhibit B.

8.1. In the event that additional hours are required that exceed the amounts detailed in Exhibit B, CONTRACTOR shall provide justification to the City. City and Contractor shall reasonably negotiate an Amendment to this Agreement as needed to address any additional costs. An Amendment to this Agreement is required before any work that will result in costs exceeding the amount in Section 6 of the Agreement as Amended.

8.2. Miscellaneous Expenses allowance is included for items such as, but not limited to mileage, prints, and postage.

**AMENDMENT NO. 2  
TO THE AGREEMENT FOR DESIGN PROFESSIONAL SERVICES  
BETWEEN THE  
CITY OF SANTA CLARA, CALIFORNIA AND BELLECCI & ASSOCIATES, INC.  
EXHIBIT B – COMPENSATION AND FEE SCHEDULE  
AMENDED SEPTEMBER 1, 2021**

1. Services shall be provided according to the rates in Exhibit B-1 - Time and Materials Hourly Rate Schedule incorporated herein by reference. Services performed prior to this Amendment shall be invoiced at the rates in place at the time of the service.
2. Labor rates outlined in Attachment B-1 may be requested by CONTRACTOR to adjust no greater than annually after January 1, 2022 subject to reasonable notice and justification to the City. City approval or denial of the adjusted rates will be provided in writing (e-mail acceptable).
3. Cost Estimates:
  - 3.1. CONTRACTOR shall manage projects within the cost estimates in the Exhibits listed below and incorporated by reference.
    - 3.1.1. Exhibit B – 2 Cost Estimate - Benicia Ranch Demolition & Utility Services Project Final Design - Construction Documents and Construction Support.
    - 3.1.2. Exhibit B – 3 Cost Estimate - Loyalton Demolition Project - Final Design - Construction Documents- and Construction Support.
    - 3.1.3. Exhibit B – 4 Cost Estimate Prepare Specifications and Cost Estimates for Loyalton Fence Project and Loyalton Remediation Project Construction Management for Loyalton Fence Project, Loyalton Remediation Project and Benicia Project.
  - 3.2. CONTRACTOR shall notify City as soon as practical if there is a risk that cost estimates will be exceeded and shall not perform work that will result in costs exceeding the estimate without executed amendment to this Agreement.
  - 3.3. Subject to written approval of the City, CONTRACTOR may transition costs between categories within each cost estimate but only to the extent that these transitions leave sufficient funding to complete the projects identified in each cost estimate.
4. Authorization for Work:
  - 4.1. In the event that Contractor is requested to perform additional work not included in the scope of this Agreement or if a task exceeds the Budget outlined in Exhibit's B-2 – B-4, Contractor shall submit a proposal for such additional work.
  - 4.2. If remaining contingency funds are available in the Agreement to complete the project quoted, Contractor may perform such additional work upon written authorization of the City (e-mail acceptable).

- 4.3. If insufficient contingency funds are available to complete proposed work, an Amendment to this Agreement shall be executed in advance of starting work. No products or services that will commit or authorize funds in excess of the contingency funds outlined in will be provided unless both Parties execute an Amendment to this Agreement.

## 5. Reimbursable Expenses

### 5.1. Pass-Through Costs:

- 5.1.1. In some cases, CONTRACTOR may pass-through costs such as, but not limited to, subcontracted activities or materials.
- 5.1.2. Such Pass-Through Costs shall be included in any quotes for services.
- 5.1.3. When these Pass-Through Costs occur, CONTRACTOR may invoice City for these costs and may include a markup of up to ten percent (10%).
- 5.1.4. CONTRACTOR shall provide supporting documentation such as invoices or receipts for all Pass-Through costs.

### 5.2. Reimbursement of expenses is subject to the following conditions.

- 5.2.1. Expenses shall be reimbursable only to the extent that CONTRACTOR submits sufficient documentation to the City that the expenses were directly incurred in providing the requested services and that such costs are not already included in the fee or hourly rate.
- 5.2.2. Travel-related expenses (mileage, lodging, meals, etc.).
- 5.2.3. Unless approved in writing (e-mail acceptable) in advance, meals, lodging, and related Per Diem shall not exceed the rates outlined by United States General Services Administration (GSA).
- 5.2.4. <https://www.gsa.gov/travel-resources>
- 5.2.5. The City shall not reimburse local travel (within Santa Clara County).

## 6. Payment Provisions

- 6.1. Monthly Invoices. On a monthly basis, CONTRACTOR shall prepare an invoice which includes an itemization of time and materials spent on a services included in this Agreement for the preceding month.
- 6.2. All monthly invoices shall include a written itemization of the authorized expenses incurred, if any, with a detail listing the cost and source of such expenses and when they were incurred in a format that will permit City to verify rates are the same as those authorized in the Agreement.
- 6.3. CONTRACTOR shall maintain documentation of such time and costs for City inspection for a period of three (3) years from the date of termination of this Agreement.

- 6.4. Upon receipt of an approved itemized written invoice from CONTRACTOR including submittal of certified payroll using LCP Tracker where applicable, City shall process CONTRACTOR's invoice for services performed and authorized costs incurred during that billing period.

**AMENDMENT NO. 2  
TO THE AGREEMENT FOR DESIGN PROFESSIONAL SERVICES  
BETWEEN THE  
CITY OF SANTA CLARA, CALIFORNIA AND BELLECCI & ASSOCIATES, INC.  
EXHIBIT D**

**LABOR COMPLIANCE ADDENDUM**

This Agreement is subject to the requirements of California Labor Code section 1720 et seq. requiring the payment of prevailing wages, the training of apprentices, and compliance with other applicable requirements.

**A. PREVAILING WAGE REQUIREMENTS**

1. CONTRACTOR shall be obligated to pay not less than the General Prevailing Wage Rate, which can be found at [www.dir.ca.gov](http://www.dir.ca.gov), which shall be available to any interested party upon request. CONTRACTOR is also required to have a copy of the applicable wage determination posted and/or available at each job site.
2. Specifically, contractors are reminded of the need for compliance with Labor Code Section 1774-1775 (the payment of prevailing wages and documentation of such), Section 1776 (the keeping and submission of accurate certified payrolls) and 1777.5 in the employment of apprentices on public works projects. Further, overtime must be paid for work in excess of 8 hours per day or 40 hours per week pursuant to Labor Code Section 1811-1813.
3. Special prevailing wage rates generally apply to work performed on weekends, holidays and for certain shift work. Depending on the location of the project and the amount of travel incurred by workers on the project, certain travel and subsistence payments may also be required. Contractors and subcontractors are on notice that information about such special rates, holidays, premium pay, shift work and travel and subsistence requirements can be found at [www.dir.ca.gov](http://www.dir.ca.gov).
4. Only bona fide apprentices actively enrolled in a California Division of Apprenticeship Standards approved program may be employed on the project as an apprentice and receive the applicable apprenticeship prevailing wage rates. Apprentices who are not properly supervised and employed in the appropriate ratio shall be paid the full journeyman wages for the classification of work performed.
5. As a condition to receiving progress payments, final payment and payment of retention on any and all projects on which the payment of prevailing wages is required, CONTRACTOR agrees to present to City, along with its request for payment, all applicable and necessary certified payrolls (for itself and all applicable subcontractors) for the time period covering such payment request. Such payrolls shall be submitted through the LCP Tracker system. The term

“certified payroll” shall include all required documentation to comply with the mandates set forth in Labor Code Section 1720 et seq, as well as any additional documentation requested by the City or its designee including, but not limited to: certified payroll, fringe benefit statements and backup documentation such as monthly benefit statements, employee timecards, copies of wage statements and cancelled checks, proof of training contributions (CAC2 if applicable), and apprenticeship forms such as DAS-140 and DAS-142.

6. In addition to submitting the certified payrolls and related documentation to City, CONTRACTOR and all subcontractors shall be required to submit certified payroll records and related documents electronically to the California Department of Industrial Relations. Failure to submit payrolls to the DIR when mandated by the project parameters shall also result in the withholding of progress, retention and/or final payment.
7. No contractor or subcontractor may be listed on a bid proposal for a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].
8. No contractor or subcontractor may be awarded a contract for public work on a public works project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5. Contractors MUST be a registered “public works contractor” with the DIR AT THE TIME OF BID. Where the prime contract is less than \$15,000 for maintenance work or less than \$25,000 for construction alternation, demolition or repair work, registration is not required.
9. All contractors/subcontractors and related construction services subject to prevailing wage, including but not limited to: trucking, surveying and inspection work must be registered with the Department of Industrial Relations as a “public works contractor”. Those who fail to register and maintain their status as a public works contractor shall not be permitted to perform work on the project.
10. Should any contractor or subcontractors not be a registered public works contractor and perform work on the project, CONTRACTOR agrees to fully indemnify the City for any fines assessed by the California Department of Industrial Relations against the City for such violation, including all staff costs and attorney’s fee relating to such fine.
11. This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

## **B. AUDIT RIGHTS**

All records or documents required to be kept pursuant to this Agreement to verify compliance with this Addendum shall be made available for audit at no cost to City, at any time during regular business hours, upon written request by

the City Attorney, City Auditor, City Manager, or a designated representative of any of these officers. Copies of such records or documents shall be provided to City for audit at City Hall when it is practical to do so. Otherwise, unless an alternative is mutually agreed upon, the records or documents shall be made available at Contractor's address indicated for receipt of notices in this Agreement.

### **C. ENFORCEMENT**

1. City shall withhold any portion of a payment; including the entire payment amount, until certified payroll forms and related documentation are properly submitted, reviewed and found to be in full compliance. In the event that certified payroll forms do not comply with the requirements of Labor Code Section 1720 et seq., City may continue to hold sufficient funds to cover estimated wages and penalties under the Agreement.
2. Based on State funding sources, this project may be subject to special labor compliance requirements of Proposition 84.
3. The City is not obligated to make any payment due to CONTRACTOR until CONTRACTOR has performed all of its obligations under these provisions. This provision means that City can withhold all or part of a payment to CONTRACTOR until all required documentation is submitted. Any payment by the City despite CONTRACTOR's failure to fully perform its obligations under these provisions shall not be deemed to be a waiver of any other term or condition contained in this Agreement or a waiver of the right to withhold payment for any subsequent breach of this Addendum.
4. City or the California Department of Industrial Relations may impose penalties upon contractors and subcontractors for failure to comply with prevailing wage requirements. These penalties are up to \$200 per day per worker for each wage violation identified; \$100 per day per worker for failure to provide the required paperwork and documentation requested within a 10-day window; and \$25 per day per worker for any overtime violation.
