APPENDIX 2

Cost Reimbursement Procedure

1. Additional defined terms:

- a) *Costs* means the reasonable amounts paid for the attorney and other City Attorney and County Counsel staff time for individuals employed by a Plaintiff Subdivision at the contractual rate, inclusive of benefits and overhead, together with amounts paid for court reporters, experts, copying, electronic research, travel, vendors, and the like, which were paid or incurred (i) prior to July 21, 2021 in litigation against any Opioid Defendant and/or (ii) in negotiating and drafting this CA Janssen Allocation Agreement. Costs does not include attorneys' fees, costs, or expenses incurred by private contingency fee counsel. No part of the CA Abatement Accounts Fund will be used to reimburse Costs.
- b) *First Claims Date* means October 1, 2023 or when all applications for reimbursement of Costs, in whole or in part, from funds available under Section X and Exhibit R of the Distributor Settlement Agreement or Section XI and Exhibit R of the Janssen Settlement Agreement, have been finally determined under the provisions of those agreements, whichever comes first.
- c) *Special Master* means a retired judicial officer or former public lawyer, not presently employed or retained by a Plaintiff Subdivision, who will aggregate, review, and determine the reasonable Costs to be awarded to each Plaintiff Subdivision that submits a claim for reimbursement of Costs. The Special Master will be selected by a majority vote of the votes cast by Plaintiff Subdivisions, with each such subdivision having one vote.
- d) *Plaintiff Subdivision Committee* means the committee of Plaintiff Subdivisions that will review and approve the invoices submitted by the Special Master reflecting his or her reasonable time and expenses.

2. Cost Reimbursement to Plaintiff Subdivision

- a) Purpose. Substantial resources have been expended to hold Opioid Defendants accountable for creating and profiting from the opioid crisis, and this effort has been a significant catalyst in creating a National Opioid Settlement with Distributors, Johnson & Johnson, and others.
- b) Claims Procedure.
 - i. If a Plaintiff Subdivision is eligible to seek reimbursement of Costs, in whole or in part, from funds available under Section X or Exhibit R of the Distributor Settlement Agreement or Section XI or Exhibit R of the Janssen Settlement Agreement, it must first make a timely application for reimbursement from such funds. To allow sufficient time for determination of those applications, no claim for

Costs to the CA Subdivision Fund under this Agreement may be made before the First Claims Date.

- ii. A Plaintiff Subdivision that wishes to be reimbursed from the CA Subdivision Fund must submit a claim to the Special Master no later than forty-five (45) days after the First Claims Date. The Special Master will then compile and redistribute the aggregated claim totals for each Plaintiff Subdivision via email to representatives of all the Plaintiff Subdivisions. A claim for attorney and staff time must list, for each attorney or staff member included in the claim, the following information: name, title, total hours claimed, hourly rate (including, if sought, benefits and share of overhead), and narrative summarizing the general nature of the work performed by the attorney or staff member. For reimbursement of “hard” costs, the subdivision may aggregate across a category (e.g., total for travel costs). It is the intention of the Plaintiff Subdivisions that submission of documents related to reimbursement of Costs does not waive any attorney-client privilege or exemptions to the California Public Records Act.
- iii. The Special Master may request, at his or her sole option, additional documents or details to assist in the final award of Costs.
- iv. The Special Master will review claims for reasonableness and will notify each Plaintiff Subdivision of the final determination of its claim, and will provide a list of all final awards to all Plaintiff Subdivisions by email or, upon request, via First Class U.S. Mail. Any Plaintiff Subdivision may ask the Special Master to reconsider any final award within twenty-one (21) days. The Special Master will make a final determination on any such reconsideration request within thirty (30) days of receipt.
- v. Any decision of the Special Master is final and binding, and will be considered under the California Arbitration Act, Code of Civil Procedure section 1280 et seq. as a final arbitration award. Nothing in this agreement is intended to expand the scope of judicial review of the final award for errors of fact or law, and the Parties agree that they may only seek to vacate the award if clear and convincing evidence demonstrates one of the factors set forth in Code of Civil Procedure, section 1286.2, subdivision (a). Plaintiff Subdivisions will have fourteen (14) days after all final awards are made, together with any final determination of a request for reconsideration, to seek review in the Superior Court of California, pursuant to Code of Civil Procedure, section 1285, where the State has filed its Consent Judgment.
- vi. The Special Master will prepare a report of Costs that includes his or her fees and expenses at least ninety (90) days before the Payment Date for each Annual Payment. The Special Master’s preparation of a report of Costs does not discharge a Plaintiff Subdivision’s reporting requirement under Section VI.B.2 of the Janssen Agreement.
- vii. A member of the Plaintiff Subdivision Committee, which is a CA Participating Subdivision, will submit to the Settlement Fund Administrator and Janssen a report

of the fees and expenses incurred by the Special Master pursuant to Section VI.B.2 of the Janssen Agreement.

c) Claims Priority and Limitation.

- i. The Special Master will submit invoices for compensation of reasonable fees and expenses to the Plaintiff Subdivision Committee no later than ninety (90) days prior to the Payment Date for each Annual Payment. The Plaintiff Subdivision Committee will promptly review and, if reasonable, approve the Special Master's invoice for compensation. The Plaintiff Subdivision Committee will submit approved invoices to the Settlement Fund Administrator for payment. The Special Master's approved invoices have priority and will be paid first from the CA Subdivision Fund before any award of Costs, subject to the limitation in Section 2.c.v below.
- ii. Final Awards of Costs that do not exceed seventy-five thousand dollars (\$75,000.00) will be paid next in priority after the Special Master's approved invoices.
- iii. Final Awards of Costs in excess of seventy-five thousand dollars (\$75,000.00) will be paid proportionally from the funds remaining in that year's Annual Payment.
- iv. Any claim for Costs that is not paid in full will be allocated against the next year's distribution from the CA Subdivision Fund, until all approved claims for Costs are paid in full.
- v. In no event will more than 50% of the total CA Subdivision Fund received in any year be used to pay Costs or the Special Master's approved invoices.
- vi. In no event shall more than \$28 million of the total CA Subdivision Funds paid pursuant to the Distributor Settlement Agreement and the Janssen Settlement Agreement be used to pay Costs.

d) Collateral Source Payments and Third-Party Settlement.

- i. In the event a Plaintiff Subdivision is awarded compensation, in whole or in part, by any source of funds created as a result of litigation against an Opioid Defendant for its reasonable Costs, it will reduce its claim for Costs from the CA Subdivision Fund by that amount. If a Plaintiff Subdivision has already received a final award of Costs from the CA Subdivision Fund, it will repay the fund up to the prior award of Costs via a payment to the Settlement Fund Administrator or notify the Settlement Fund Administrator that its allocation from the next and subsequent Annual Payments should be reduced accordingly. If the Plaintiff Subdivision is repaying any prior award of Costs, that repayment will occur as soon as is feasible after the Plaintiff Subdivision's receipt of Cost funds from the collateral source, but no more than 90 days after its receipt from the collateral source. The Settlement Fund Administrator will add any repaid Costs to the CA Subdivision Fund.

- ii. In the event a Plaintiff Subdivision reaches a monetary settlement or compromise against any Opioid Defendant outside of the National Opioid Settlement, the monetary portion of such settlement, net of fees paid to outside contingency fee counsel and of funds earmarked strictly for abatement, will be credited against its Costs and the subdivision will be ineligible to recover those credited Costs from the CA Subdivision Fund. Plaintiff Subdivisions negotiating monetary settlements or compromises against any Opioid Defendant outside of the National Opioid Settlement will negotiate for funds to repay any Costs it previously received from the CA Subdivision Fund or for Costs it otherwise might be eligible to claim from the CA Subdivision Fund. If such a settlement is paid after all final approved claims for Costs by all Plaintiff Subdivisions are satisfied in full, the settling subdivision will reimburse the CA Subdivision Fund in that amount by making payment to the Settlement Fund Administrator to add to the CA Subdivision Fund in a manner consistent with the repayments described in section 2.d.i above.

APPENDIX 3

CALIFORNIA-SUBDIVISION BACKSTOP AGREEMENT

On August 6, 2021, Judge Polster of the US District Court for the Northern District of Ohio issued an Order (the Order), docket number 3814, in In Re National Prescription Opiate Litigation, MDL 2804, addressing contingent attorney fee contracts between political subdivisions eligible to participate in the Janssen Settlement and their counsel.

In light of the Order, and at the request of [SUBDIVISION], the [SUBDIVISION], its counsel [COUNSEL], and the California Attorney General, on behalf of the State of California, are entering into this California-Subdivision Backstop Agreement (Backstop Agreement).

[SUBDIVISION] and [COUNSEL] intend this Backstop Agreement to constitute a State Back-Stop Agreement as that term is used in the Order and in Exhibit R (Agreement on Attorneys' Fees, Costs, and Expenses) of the Janssen Settlement Agreement.

Pursuant to this Backstop Agreement, [SUBDIVISION] may, subject to the limitations of the Janssen Settlement Agreement and CA Janssen Allocation Agreement, as well as any other limitations imposed by law, use funds that it receives from the Janssen Settlement CA Subdivision Fund to pay a contingent fee to [COUNSEL]. Any such payment from [SUBDIVISION] to [COUNSEL], together with any contingency fees that [COUNSEL] may receive from the national Attorney Fee Fund, will not exceed a total contingency fee of [PERCENTAGE NOT TO EXCEED 15%] of the total gross recovery of [SUBDIVISION] from the Distributors Settlement.

[COUNSEL] certify that they first sought fees and costs from the Attorney Fee Fund created under the Janssen Settlement Agreement before seeking or accepting payment under this backstop agreement. [COUNSEL] further certify that they are not seeking and will not accept payment under this backstop agreement of any litigation fees or costs that have been reimbursed through prior settlements or judgments.

The Attorney General is executing this agreement solely because the definition of "State Back-Stop Agreement" in Exhibit R of the Janssen Settlement Agreement requires such agreements to be between "a Settling State" and private counsel for a participating subdivision. Neither the California Attorney General nor the State of California have any obligations under this Backstop Agreement, and this Backstop Agreement does not require the payment of any state funds to [SUBDIVISION], [COUNSEL], or any other party.

REPORT TO COUNCIL

SUBJECT

Action to Waive Second Reading and Adopt Ordinance No. 2035 to add Chapter 8.26, Entitled Edible Food Recovery, to Implement Edible Food Recovery Programs and Require Certain Businesses to Arrange for the Donation of Edible Food That Would Otherwise Go to Waste

COUNCIL PILLAR

Promote Sustainability and Environmental Protection

BACKGROUND

At the November 16, 2021 Council meeting, proposed Ordinance No. 2035 was introduced and passed for the purpose of publication. Pursuant to City Charter Sections 808 and 812, proposed Ordinance No. 2035 was published on December 1, 2021, and copies were posted in three public places. The Ordinance now comes to Council for final adoption.

DISCUSSION

The proposed ordinance would implement Senate Bill 1383, the Short-Lived Climate Pollutant Reduction Act of 2016 by establishing requirements for commercial edible food generators and food recovery organizations and services and authorizing inspections and investigations to confirm compliance with those requirements; and providing enforcement mechanisms for violations of the same.

The proposed ordinance was developed through coordination between the Santa Clara County Recycling and Waste Reduction Commission, the Santa Clara County Departments of Environmental Health, Recycling and Waste Reduction, Social Services, and various other stakeholders. Every jurisdiction in the county will adopt the ordinance to better facilitate operations and compliance among businesses and food recovery organizations.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines section 15378(b)(2) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

There was no fiscal impact associated with the development of this report. As discussed above, each jurisdiction will be responsible for the commercial edible food generator inspection and enforcement component of the program. An inspection and enforcement plan has not yet been developed, but the cost will likely need to be incorporated into future solid waste rate increases.

COORDINATION

This report was coordinated with the City Attorney's Office, and City Clerk's Office.

PUBLIC CONTACT

A summary of proposed Ordinance No. 2035 was published to the Santa Clara Weekly on December 1, 2021, and copies were posted in three public places and made available for public inspection at the City Clerk's Office.

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>>.

REPORT TO COUNCIL

SUBJECT

Action to Waive Second Reading and Adopt Ordinance No. 2036 Amending Chapter 12.35 "Trees and Shrubs" of Title 12 Streets, Sidewalks and Public Places of the Code of the City of Santa Clara to Incorporate New Best Practices and Regulations to Preserve the Urban Forest

COUNCIL PILLARS

Deliver and Enhance High Quality Efficient Services and Infrastructure, and Promote Sustainability and Environmental Protection

BACKGROUND

At the November 16, 2021 Council meeting, proposed Ordinance No. 2036 was introduced and passed for the purpose of publication. Pursuant to City Charter Sections 808 and 812, proposed Ordinance No. 2036 was published on December 1, 2021, and copies were posted in three public places. The Ordinance now comes to Council for final adoption.

DISCUSSION

The Department of Public Works led a collaboration with staff from the Parks & Recreation Department, Community Development Department, City Attorney's Office and City Manager's Office to modernize the existing ordinance to better protect existing trees and require planting of new trees to preserve the City's urban forest. Staff surveyed ordinances from other municipalities, including the Cities of Cupertino, Mountain View, Sunnyvale, Palo Alto, Milpitas, and San Jose to develop a baseline understanding of tree protection standards throughout Santa Clara County.

The proposed ordinance would establish new regulations for the installation, maintenance, removal, and management of trees and plants in public places, provide protections for trees designated as Heritage Trees and trees of certain species and/or size, and provide enforcement mechanisms for violations of those regulations and protections.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(2) as a general policy making activity.

FISCAL IMPACT

There was no fiscal impact associated with this report.

COORDINATION

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. REPORT TO COUNCIL

SUBJECT

Action to Waive First Reading and Introduce Ordinance for the Regulation of Shared Mobility Devices (Bicycles and Motorized Scooters), and Adopt a Resolution to Establish Shared Mobility Permit and Impound Fees

COUNCIL PILLAR

Promote and Enhance Economic, Housing, and Transportation Development, Enhance Community Engagement and Transparency

EXECUTIVE SUMMARY

In early 2019, the City Council adopted a temporary moratorium on the operation of shared mobility devices (i.e., shared bicycles and scooters) in Santa Clara. The City Council also directed staff to return with a proposed permanent Shared Mobility Permit Program (Permit Program) to allow the City to properly regulate the use of shared mobility devices within the City. Staff developed and implemented a workplan for the establishment of a Permit Program as directed by the City Council and provided a detailed progress update on the development of regulations for a Permit Program at the June 4, 2019 City Council meeting. Additionally, at the June 24, 2019 Bicycle and Pedestrian Advisory Committee (BPAC) meeting, staff presented the proposed Permit Program and BPAC approved a recommendation that the City Council approve the Permit Program's draft Administrative Regulations (Administrative Regulations).

In July 2019, the City paused the development of the Permit Program based on pending Americans with Disabilities Act (ADA) litigation that had the potential to impact the proposed Permit Program and Administrative Regulations. Additionally, at the time staff was tracking two items of pending legislation (Assembly Bill 1112 and Assembly Bill 1286) that could affect the Permit Program.

In early 2021, staff restarted the development of the Permit Program as the relevant ADA litigation was resolved and Assembly Bill 1286 was approved by the Governor. Staff has updated the Administrative Regulations and has prepared a draft ordinance for City Council consideration to amend the City Code for regulation of shared mobility devices. Additionally, staff has also prepared a resolution related to annual shared mobility operator permits and impound fees.

BACKGROUND

In December 2018 and January 2019, the City Council discussed and acted on the operation of shared mobility devices in Santa Clara. The Council approved emergency and regular ordinances, which prohibited the operation of shared mobility devices in Santa Clara from December 20, 2018 to December 19, 2019. The City Council also directed staff to return with a proposed permanent Permit Program to allow the City to properly regulate the use of these new mobility options within City limits. Staff developed and implemented a workplan to help establish a Permit Program and provided a

detailed progress update at the June 4, 2019 City Council meeting. A summary of topics that received comments from Council is listed below:

- Outreach events
- Insurance coverage options for users
- Parking spaces for devices
- Data driven device placement
- Estimated staff time needed to ensure permit compliance
- Permit violations and permit revocation
- Information about first and last mile locations for users
- Council support for minimum number of devices per operator
- Regulation of scooters on private property
- Outreach to larger developers
- Research other funding sources to reduce 100% cost recovery operator fees

Based on feedback from that meeting, staff updated the Permit Program's Administrative Regulations and conducted additional outreach with the public, operators, and other stakeholders. On June 20, 2019, staff posted the updated Administrative Regulations to the City's website.

In addition, at the June 24, 2019 BPAC meeting, staff provided the BPAC with an update on the Permit Program and Administrative Regulations. After an extensive discussion focused on data-sharing and privacy rights under the Permit Program, the BPAC approved a recommendation that the City Council approve the Administrative Regulations with the following two amendments: 1) that the Administrative Regulations provide more clarity regarding which rules apply to bicycles, scooters, or both, and 2) that Operators not be allowed to share user data with third party vendors. Following the June 24, 2019 BPAC meeting, staff was preparing to return to City Council with a final proposed Permit Program and Administrative Regulations in August 2019.

In July 2019, staff was informed of ADA litigation that had the potential to impact the proposed Permit Program and Administrative Regulations. Additionally, there were two proposed State Assembly Bills (Assembly Bill 1112 and Assembly Bill 1286) that could affect the Program. Based on this, the City Attorney's Office recommended temporarily pausing the development of the Permit Program to allow the City sufficient time to determine how these new developments would impact the proposed Permit Program. On November 5, 2019, City Council adopted Ordinance 2010 to extend the City's temporary moratorium on shared mobility devices to December 19, 2020.

On September 18, 2020, Governor Gavin Newsom approved Assembly Bill 1286 (Muratsuchi), Shared mobility devices; agreements. AB 1286 requires that shared mobility service providers "enter into an agreement with, or obtain a permit from, the city or county with jurisdiction over the area of use." AB 1286 also requires the following: 1) providers must maintain a specified amount of commercial general liability insurance and 2) that a city that authorizes a shared mobility device provider to operate within its jurisdiction on or after January 1, 2021, to adopt operation, parking, and maintenance rules, as provided, regarding the use of the shared mobility devices in its jurisdiction before the provider may offer shared mobility devices for rent or use. Effectively, AB 1286 requires that after January 1, 2021, shared mobility service providers in Santa Clara will be required to obtain a permit from the City prior to operation. The permit would be subject to the future rules and

regulations adopted by Santa Clara.

On November 17, 2020, staff provided an informational report to the City Council (Attachment 1) with an update on the proposed Permit Program and highlighted recent changes in state law. Staff informed City Council of a plan to return with a proposed Permit Program and Administrative Regulations for review and consideration by the end of 2021.

DISCUSSION

During the past several months, staff spent considerable time reengaging with shared mobility operators and updating the proposed Administrative Regulations based on the following items:

1. Address feedback from the June 4, 2019 City Council discussion and the June 24, 2019 BPAC discussion on the proposed Permit Program.
2. Incorporate changes required based on recent State Law and the above-mentioned ADA litigation
3. Include any recent developments within the shared mobility operator industry (e.g., parking detection technology, etc.)
4. Ensure regulations are comparable with other cities that have similar programs. (San Jose, Oakland, San Francisco, and Sacramento)

Notable updates are included as Attachment 2.

The proposed Ordinance (Attachment 3) amends the City Code to include Chapter 10.35 and sets forth the requirements and procedures for permits issued for the operation of shared mobility devices in the City of Santa Clara. Regulations referenced as "Shared Mobility Permit Administrative Regulations" are issued by the City Manager or Designee under the authorization granted by Section 10.35.030 of the City Code. The Administrative Regulations (Attachment 4) are structured to bring consistency to the City's new Permit Program and to address topics that other cities have been experiencing where scooters or bike share has already been initiated.

Some of the key areas of the regulations are summarized in more detail below.

Permit Issuance: The City Manager may select up to three Operators based on proposals describing the plan to provide customer service, complete outreach and safety education, device technology, company experience and qualifications, and ability to comply with regulations. The permit application period will be from February 1 to March 31 each year (two-month period) and the Operators will be granted a one-year permit that is valid from July 1 to June 30 of the following year.

Shared Mobility Device Requirements: All shared mobility devices are required to comply with California State Law, California Vehicle Code, and industry standards. In addition, all shared mobility devices must display a permanent ID number, the Operator's business name, customer service phone number, and email address as well as be equipped with Global Positioning System (GPS) tracking technology.

Parking: Operators shall ensure that users are informed of State Laws and follow parking rules and limitations. Shared devices shall be parked upright and shall not obstruct public facilities, including sidewalks, light rail platforms, transit areas, on-street parking zones, curb ramps, entryways and driveways, vehicular lanes, bicycle lanes or associated buffers. Shared mobility devices shall be

parked so that a 48-inch clear space is provided on pedestrian rights-of-way. Once notified, Operators will have two hours to re-park improperly parked devices. In coordination with property owners, the City Manager may also designate "priority parking zones" that Operators should service.

Fleet Management and Balancing: Each Operator shall provide a minimum of 60 devices (bicycles, scooters, or both- whichever is applicable) to ensure service availability. The total size of the citywide device fleet shall not exceed 3,000 total devices consisting of 2,000 scooters and 1,000 bicycles. Any changes to the citywide maximum cap of 3,000 shared mobility devices will require approval from the City Council. Shared mobility devices must be re-parked/re-distributed daily to ensure compliance with the regulations and the Operator's plan of operation. Operators shall be required to use geofencing or equivalent technology to prevent operation in public parks. Each operator must also deploy 5 percent of their devices in the City's Equity Priority Community (formally called "Communities of Concern"). This is an area of the City defined by the Metropolitan Transportation Commission to have census tracts with a significant concentration of underserved populations, such as households with low incomes and people of color. The City's Bicycle Plan Update 2018 and Pedestrian Masterplan included a discussion on Santa Clara's Equity Priority Community and a map is included as Attachment 5. This area is in the central part of Santa Clara and is generally bounded by Highway 101 to the north and the Caltrain tracks to the south.

Customer Service: Operators will be required to provide 24-hour live customer service support through telephone. In addition, operations must provide additional options such as email, online forms, and text message. Operators will also need to provide status updates and follow up with the originator of the customer service issue, as appropriate. Once notified, Operators will have two hours to re-park any improperly placed devices. Operators will need to maintain a multilingual (English, Spanish and Chinese) website, call center and mobile app interface.

Maintenance: Operators must ensure that all shared mobility devices are clean, in good working order and are safe to operate. Any shared mobility device that is reported to be unsafe to operate shall be inspected in person by the Operator and removed within two hours after notification, if the issues cannot be remedied. In addition, Operators must maintain a record of all maintenance performed on each shared device and make such records available to the City upon request.

Education and Outreach: Education and outreach include requirements for the Operator to educate users about laws applicable to riding, operating, and parking shared mobility devices. Operators must submit an education and outreach plan for City review during the permit application process. Operators will also be required to notify users regarding applicable State laws via signage on the devices, through the website, and mobile application, including laws related to age, driver's license requirements, speeds, and riding.

Data Sharing: Operators shall provide the City access to an Application Programming Interface (API) offering data about trip activity that meets the requirements of the Mobile Data Specification (MDS) and General Bike Share Feed Specification (GBFS) format. In addition, Operators shall be required to provide records of maintenance activity, customer service inquiries, collision data from users and age of users. The data shall be provided to the City monthly. Operators shall provide a dashboard for the City to view shared mobility device data. Operators shall also survey users every six months to provide information to the City for future planning, including asking questions about what mode of transportation was replaced with the use of a shared mobility device.

Membership and Enrollment: California law requires that users of motorized scooters have a driver's license. Additionally, all shared mobility operators currently require users to be at least 18 years of age. Operators are also required to conduct outreach and implement technology-based measures to verify ages of members during enrollment via mobile app and/or website. In addition, Operators shall establish a low-income discount program.

Levi's Stadium and Other Special Events: The Administrative Regulations allow the City Manager to waive the citywide maximum cap for shared mobility devices in relation to major/special events in the City (i.e. events at Levi's Stadium or other large special event days at the Great America Theme Park). Operators must comply with the most current Transportation Management and Operations Plan (TMOP) for Levi's Stadium, provide sufficient on-site staff to support the Levi's Stadium and other special event days, and deploy geofencing or comparable technology to ensure proper use of shared devices as determined by the City. Operators will be required to prepare and submit a detailed operations plan for the use of shared mobility devices for these events to the City for review and approval. City staff will ensure coordination of these operation plans with affected property owners (i.e. parking lot operators, San Francisco 49ers, Great America staff).

Enforcement: Enforcement is designed to promote and achieve compliance with local law and program guidelines. Enforcement measures include:

- Any improperly parked devices that are not relocated or re-parked within two- hours may be impounded and taken to a City facility for storage at the Operator's expense. The Operator shall be required to pay the impound fee
- In addition to the impounding fee, the Operator shall be fined as follows for failure to remove the devices within two hours:
 - \$100 for the first violation
 - \$200 for the second violation
 - \$500 for the third and subsequent violations
- Failure to retrieve shared mobility devices from the City facility within two working days of notification of impoundment may lead to permit suspension or revocation.

Denial, Suspension, or Revocation of Operating Permit: An Operator's permit may be denied, suspended, or revoked at the discretion of the City Manager. The key metrics and process for denial, suspension, and revocation of the operating permit are:

- Number of parking violations and impoundments, defined as failure to resolve parking complaints within two hours of notice
- Failure to retrieve shared mobility devices from the City facility within two working days of impoundment notification. If suspended, Operators will be allowed an opportunity to provide a plan for corrective actions to comply with regulations. The minimum suspension period will be two weeks.

Permit Application and Permit Operator Fees: Staff prepared a Shared Mobility Fee Study (Attachment 6) to establish a relationship between estimated staff time and permit costs. The study assumes three Operators will apply for permits and operate in the City. The proposed shared mobility application fee of \$3,470 per Operator is based on cost recovery for staff time and effort to review the permit applications. The proposed annual permit fee is \$27,430 per Operator plus \$70 per device over 60. The base fee of \$27,430 per Operator is based on staff time and effort related to the

operation of a minimum 180 devices citywide (60 devices per Operator). Additional costs to administer the inclusion of Operator devices beyond the 60-device minimum will be recovered based on an additional per-device fee of \$70. The first 60 shared mobility devices deployed per Operator will not be subject to the per-device fee. At the maximum of 3,000 devices, the total cost to be recovered is \$291,000, or approximately \$97,000 per Operator.

Impound Fee: The Shared Mobility Fee Study (Attachment 6) demonstrates the relationship between the fee and the Police Department time and cost for the removal and storage of shared mobility devices. Based on this study, the Electric Scooter/Bike Removal and Storage Fee (Impound Fee) is proposed to be \$305 per device.

Performance Bond: Operators shall always maintain in effect, a valid performance bond in the amount of \$20,000 during the term of the annual permit, starting at the time of permit issuance. The performance bond may be used for any future public property repair and maintenance costs incurred due to the shared mobility devices, removal and storage of devices, staff time related to these activities, unpaid fines or any future costs incurred related to the shared mobility permits.

Permit Application: Operators shall be required to provide a description of the proposed plan of operations, a detailed plan for outreach and education events, and a plan to comply with the Administrative Regulations. The Operator would be required to provide information of the number and type of shared mobility devices, a map of the deployment area including parking locations, the Operators' experience and ability to comply with regulations in other jurisdictions, the applicant's regulation compliance program, and the Operators' ability to comply with local and State laws.

On October 25, 2021, staff provided an update to the BPAC on the Administrative Regulations. Staff presented the changes described above and BPAC discussed the program. After an extensive discussion, the BPAC approved a recommendation that the City Council approve the updated Administrative Regulations and emphasized that Operators are not allowed to share user data with third party vendors.

If the City Council approves staff recommendations, then the attached Resolution (Attachment 7) will create the Permit and Impound Fees in the City's Municipal Fee Schedule. Following Council approval, Operators may apply for a Shared Mobility Permit in February 2022. Staff will review applications and issue permits by June 2022 for an effective date of July 1; the permits will align with the City's fiscal year cycle (July 1 through June 30). Following permit issuance, the first education/outreach event will be organized prior to deployment of shared bicycles and scooters. The Permit Program will be monitored and evaluated by City staff continuously to determine the effectiveness of the Administrative Regulations. The ordinance provides the City's administration the flexibility to update the permit regulations, as needed.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines section 15378(b)(5) in that it is governmental organization or administrative activity that will not result in direct or indirect changes in the environment. Actions such as installation of bicycle racks or any other physical infrastructure for shared mobility devices will be analyzed as part of the development review or encroachment permit processes but are expected to be a categorical exemption pursuant to CEQA section 15301(c):

Existing Facilities.

FISCAL IMPACT

The cost to administer and manage the Permit Program is designed to be revenue neutral with 100 percent cost recovery through collected permit and impound fees. The annual estimated revenue assumes three Operators apply and receive permits to operate 1,000 shared mobility devices citywide. The application fee is projected to generate revenue of \$10,410 in FY 2021/22 to offset City costs. The annual permit fee is projected to generate revenue of approximately \$140,000 in FY 2022/23 as the permit will be effective from July 1, 2022 through June 30, 2023. This revenue estimate assumes 1,000 devices are deployed in the first year. While the proposed Permit Program allows a maximum of 3,000 shared mobility devices citywide, staff assumes that operators will deploy devices in a phased manner. At the maximum of 3,000 devices, the total cost to be recovered for the program, including the permit and application fee, is \$291,000, or approximately \$97,000 per Operator.

The adopted Fiscal Year 2021/22 operating budget for the existing Public Works Traffic Division staffing level will be used to process the applications in FY 2021/22 and to support any Permit Program work this fiscal year. A budget amendment to recognize the permit application fees may be brought forward later in the fiscal year based on actual receipts. The new Permit Program, effective July 1, 2022, is anticipated to require up to 1,100 hours of combined time from the existing staff in the Traffic Division. The revenues and associated costs for this Permit Program will be factored into the FY 2022/23 General Fund Operating Budget. Staff will be temporarily absorbing the additional work effort during the first year by reprioritizing projects and assignments. This will be monitored and depending on the success of the program, it is anticipated that additional staffing of 0.5 - 1.0 FTE's may be necessary to support it. Staff will return to Council as necessary for any additional positions required for the Permit Program.

COORDINATION

This report has been coordinated with the Finance Department and the City Attorney's Office. Staff also notified stakeholders (i.e. businesses, Valley Transportation Authority, Santa Clara University, etc.) of staff's proposed updates to the Permit Program and posted the Administrative Regulations on the City's website on October 20, 2021. In addition, at the October 25, 2021 BPAC meeting, staff provided the BPAC with an update on the City's proposed Permit Program and the Administrative Regulations.

REPORT TO COUNCIL

SUBJECT

Note and File Informational Report on a Proposed Shared Mobility Permit Program and Updates to State Law

COUNCIL PILLAR

Promote and Enhance Economic, Housing and Transportation Development and Enhance Community Engagement and Transparency

BACKGROUND

The purpose of this informational report is to provide the City Council with an update on the City's proposed Shared Mobility Permit Program (Program) and to highlight recent changes in state law that will affect the Program in Santa Clara. Shared mobility is a common term used to represent the shared use of a vehicle, motorcycle, scooter, bicycle, or other travel mode. For the purposes of the Program and this report, shared mobility refers to bicycle and scooter share.

In December 2018 and January 2019, the City Council discussed and took action on the operation of shared mobility devices in Santa Clara. The Council approved emergency and regular ordinances, which prohibited the operation of shared mobility programs in Santa Clara from December 20, 2018 to December 19, 2019. The City Council also directed staff to return with a proposed permanent shared mobility program to allow the City to properly regulate the use of these new mobility options within City limits.

Staff developed and implemented a workplan to help establish a Program and provided a detailed progress update at the June 4, 2019 City Council meeting. Based on feedback from that meeting, staff updated the draft Shared Mobility Permit Administrative Regulations (Administrative Regulations) and conducted additional outreach with the public, operators, and other stakeholders. On June 20, 2019, staff posted the updated draft Administrative Regulations to the City's website.

In addition, at the June 24, 2019 Bicycle and Pedestrian Advisory Committee (BPAC) meeting, staff provided the BPAC with an update on the Program and draft Administrative Regulations. After an extensive discussion focused on data-sharing and privacy rights under the Program, the BPAC approved a recommendation that the City Council approve the draft Administrative Regulations with the following two amendments: 1) that the Administrative Regulations provide more clarity regarding which rules apply to bicycles, scooters, or both, and 2) that Operators not be allowed to share user data with third party vendors. Following the June 24, 2019 BPAC meeting, staff was preparing to return to City Council with a final proposed Program and draft Administrative Regulations (Attachment 1) in August 2019.

Temporary Moratorium Extension: In July 2019, staff was informed of Americans with Disabilities Act (ADA) litigation that had the potential to impact the Program and draft Administrative Regulations. Additionally, there were two proposed State Assembly Bills (Assembly Bill 1112 and Assembly Bill 1286) that could affect the Program. Based on this, the City Attorney's Office recommended temporarily pausing the development of the Program to allow the City sufficient time to determine how these new developments would impact the Program.

On November 5, 2019, City Council adopted Ordinance 2010 to extend the City's temporary moratorium on shared mobility programs. The temporary moratorium is set to expire on December 19, 2020. Recent discussions with the City Attorney's Office indicate that potential risk regarding ADA litigation has been addressed and that Assembly Bill 1286 has been approved.

DISCUSSION

On September 18, 2020, Governor Gavin Newsom approved Assembly Bill 1286 (Muratsuchi), Shared mobility devices; agreements (Attachment 2). AB 1286 requires that shared mobility service providers "enter into an agreement with, or obtain a permit from, the city or county with jurisdiction over the area of use." AB 1286 also requires the following: 1) providers must maintain a specified amount of commercial general liability insurance and 2) that a city that authorizes a shared mobility device provider to operate within its jurisdiction on or after January 1, 2021, to adopt operation, parking, and maintenance rules, as provided, regarding the use of the shared mobility devices in its jurisdiction before the provider may offer shared mobility devices for rent or use. Effectively, AB 1286 requires that after January 1, 2021, shared mobility service providers in Santa Clara will be required to obtain a permit from the City prior to operation. The permit would be subject to the future rules and regulations adopted by Santa Clara.

As mentioned, the City's current temporary moratorium for operation of a shared mobility program is set to expire on December 19, 2020. Additionally, extension of the moratorium is not permitted beyond two years per California Government Code Section 65858. As AB 1286 effectively prohibits the operation of shared mobility programs until a permit is issued, the Department of Public Works and City Attorney's Office staff concluded that it is not necessary to pursue a permanent moratorium due to the limited number of days between December 19, 2020 and January 1, 2021.

In terms of next steps and based on City Council's previous direction to create a Program, staff will do the following:

1. Evaluate the latest draft of Shared Mobility Permit Administrative Regulations as changes may be needed based on changes to State Law, COVID-19 considerations, and interest by shared mobility program operators.
2. Reach out to potential shared mobility operators and coordinate on any new developments within the shared mobility industry (i.e. COVID considerations, etc.)
3. Continue to monitor and review proposed legislation related to shared mobility programs. Assembly Bill 1112 is currently being modified by the State legislature.
4. Update draft Administrative Regulations, if needed.

Staff anticipates that additional community (i.e. general public) and stakeholder (i.e. businesses, Santa Clara University) outreach may also be necessary. If there are substantial changes to the draft Administrative Regulations from 2019 an additional review by the City's Bicycle and Pedestrian

Advisory Committee may be necessary.

Ultimately, staff plans to return to City Council with a proposed Program and Administrative Regulations for review and consideration.

ENVIRONMENTAL REVIEW

This is an informational report only and no action is being taken by the City Council and no environmental review under the California Environmental Quality Act ("CEQA") is required.

FISCAL IMPACT

There is no cost to the City associated with this report other than administrative time and expense.

2. Assembly Bill 1286

Notable updates made to Administrative Regulations

- Outreach Events: Based on Operator feedback, remove requirement of four events and allow operators to propose a detailed plan for City review as a factor in Operator selection. Staff will also work with Operators to include rider education at outreach events.
- Insurance coverage options for users: While the permitted Operators will provide proof of insurance to operate on City facilities (such as streets and trails), the Administrative Regulations do not include a requirement that Operators require or provide insurance for shared bicycle and scooter users. California law requires a Class C driver's license to operate a motorized scooter. While the California Department of Motor Vehicles (DMV) requires licensed drivers to ensure their registered vehicles, there is no DMV requirement to obtain insurance for shared bicycles and scooters. Users should contact their motor vehicle insurance carriers to determine if they have insurance coverage for shared bicycles and scooters.
- Parking spaces for devices: Staff will work with Operators and adjacent property owners to determine if marked parking spaces for devices is feasible.
- Data driven placement: Data obtained from Operators will be used to assist with the planning and deployment of devices.
- Estimated Staff Time needed to ensure permit compliance: Staff prepared a detailed estimate of the projected staff time required to ensure permit compliance which is the basis for proposed permit fees.
- Permit Violations and Permit Revocation: Metrics to determine when an Operator's permit is subject to suspension and/or revocation are included.
- Information about first and last mile locations for users: Operator data will be provided to the City regarding first and last mile user trends.
- Council support for minimum number of devices per operator: At the June 4, 2019 Council meeting, Council showed support for a minimum number of devices to receive a permit. The Administrative Regulations requires each operator to deploy a minimum of 60 devices.
- Regulation of scooters on private property: The City has broad authority to regulate shared bicycles and scooters within City limits, which extends to private property. The City can issue citations for parking violations located on public streets and private property.
- Outreach to larger developers: Prior to deployment, staff will work with Operators on outreach to larger developers regarding placement/use of shared mobility devices to service these properties.
- Research other funding sources to reduce 100% cost recovery operator fees: Permit fees have been initially developed to capture 100 percent cost recovery for staff time. Currently, there are no other viable funding sources, except the City's General Fund, to reduce operator fees. Staff does not recommend a General Fund subsidy for the Permit Program at this time.
- Bicycle or Scooter Share Regulations: The Administrative Regulations have been updated to differentiate between regulations that apply to bicycles, scooters, or both.

- Selling of User Data: A provision prohibiting Operators from selling user data to third parties has been included.
- Performance Security: As detailed in the Administrative Regulations, performance security has been updated to reflect that it will be submitted to the City as a bond in-lieu of a cash deposit.
- Speedometers: In 2019, one of the proposed Operators had suggested that the City require the use of speedometers on shared mobility devices. State Law does not require speedometers for scooters or bikes with electric assist that ceases at 20 miles per hour. Only select Operators provide this specific technology and it has limited benefit since scooters have a maximum operating speed of 15 miles per hour per State law so this was not included as a requirement.
- Membership: Add a requirement that Operators provide a low-income discount program and deploy 5 percent of the fleet within the City's Equity Priority Community.
- Title: Staff updated the program title to "Shared Mobility Program," as opposed to "Bicycle and Scooter Share program." This title provides for a more generalized description of the services offered by Operators and will allow for other types of shared device programs to operate within the City, provided the Administrative Regulations are updated accordingly.
- Number of Operators: Limit to a maximum of three operators in the City.

The definitions set for in Chapter 10.35, and herein, shall govern the application and interpretation of these regulations.

Permit Requirements

The following requirements shall be incorporated into the Terms and Conditions of all Shared Mobility Device permits issued. By submitting an application, Operator agrees to comply with all requirements, unless a specific modification is noted in the application and approved by the City Manager in writing prior to issuance of permit.

Permit Issuance

1. Permit application period will be from February 1 to March 31 each year.
2. Permit will be valid for a one-year period, from July 1 to June 30.
3. The City Manager will review permit applications and issue permits by June 1.
4. Based on the content of the Permit Application, the City Manager may select up to three operators to grant permits based on criteria described in “Permit Application Contents” section.

Shared Mobility Device Requirements

1. All Shared Mobility Devices shall have, and clearly display, a unique, permanent identification number.
2. All Shared Mobility Devices shall be equipped with global positioning system (GPS) tracking or other similar means of continuously tracking locations of such Shared Mobility Devices.

Each Operator will be required to deploy “Geofencing” or other technology capable of preventing the use of Shared Mobility Devices or to limit the maximum speed of Shared Mobility Devices in designated areas of the City.

Parking

1. Operators will ensure that users of the Shared Mobility Devices including the Operator’s agents responsible for fleet management and rebalancing are informed of all applicable laws and regulations, and the following parking rules and limitations, and ensure that users comply with these limitations.
2. All Shared Mobility Devices shall be upright when parked.
3. All Shared Mobility Devices shall not be parked in such a manner as to block or obstruct access to public facilities included but not limited to the following:
 - Pedestrian Clear Zone area of the sidewalk (The “Pedestrian Clear Zone” area of the sidewalk or pedestrian path of travel is defined as the area within the 48 inches of clear space on the sidewalk or pedestrian path for pedestrian travel.)
 - Any fire hydrant, call box, or other emergency facility (minimum 36-inch clearance)

4. When a sidewalk includes a “furniture zone”, Shared Mobility Devices shall be parked within the furniture zone. When a sidewalk lacks a “furniture zone”, Shared Mobility Devices must not be parked in a way to deny meaningful access to City sidewalks and paths of travel for persons with disabilities. Towards this end, each Operator must give notice and training to the User and ensure that Shared Mobility Devices are parked so that (a) 48-inch clear spaces are provided on pedestrian rights-of-way, and (b) curb ramps, entryways, exits, and other accessible paths of travel are never blocked or

obstructed. "Furniture zone" shall refer to that section of the sidewalk between the curb and the pedestrian through zone in which street furniture and public amenities, such as lighting, benches, newspaper kiosks, utility poles, tree wells and bicycle racks are provided.

5. Any Shared Mobility Device that is parked incorrectly shall be reparked in a correct manner or shall be removed within two hours after Operator's customer service team receives notice of the report. The operator will be notified about parking violations directly through customer service communication via contact information provided on each Shared Mobility Device. In addition, City staff will forward notifications to operators during staffing hours that are received from the public, including but not limited to, through the City's My Santa Clara mobile application.
6. Operator must provide a feature within its mobile application that requires a user of a Shared Mobility Device to upload a photograph, or utilize other technology, to ensure the Shared Mobility Device is not obstructing the pedestrian pathway at the end of each ride.

12. Operator shall be responsible for installation and removal of all approved infrastructure, signing and striping.
13. The City Manager reserves the right to designate "priority parking areas" in coordination with property owners. The purpose of these priority parking areas is to provide parking at designated locations within or adjacent to commercial centers and other destinations.
 - Operators shall be responsible for the cost of installation and maintenance of any necessary infrastructure, including construction of the new designated shared parking areas. These costs shall be shared equally among the Operators.
 - For any priority parking area, all operators that are issued a Shared Mobility Device permit shall have a plan for deployment of Shared Mobility Devices at the designated shared parking areas. The designated shared parking areas may be located at any of the following locations:
 1. Related Project (future)
 2. AMC Mercado
 3. Santa Clara Square

Shared Mobility Fee Study

November 1, 2021

Background

This memo describes the methodology for determining the Shared Mobility Permit Fees including the permit application fee, annual permit fee and the per device fee. The calculation of fees assumes cost recovery for Public Works staff that will be working on the shared mobility permit program as described below.

Staff Rates

The cost recovery is based on fully burdened hourly costs for Principal Planner, , Senior Civil Engineer, and Associate Engineer (Civil). The City of Santa Clara Report on the Cost of Services (User Fee) Study in 2019 was updated using an annual consumer price index of 1.72% to provide hourly rates that were used to calculate the permit fees.

| Staff | Staff Rate |
|------------------------------|-------------------|
| Principal Planner | \$292.55 |
| Senior Civil Engineer | \$284.85 |
| Associate Engineer (Civil) | \$250.62 |
| Community Service Officer II | \$200.75 |
| Police Records Specialist II | \$208.34 |

Shared Mobility Device Permit Fees

Shared Mobility Device Permit, Application Fee

The shared mobility device permit application fee is based on cost recovery for staff time and effort to review the permit applications assuming that three (3) different operators apply for shared mobility permits. The total cost to review each permit application is \$3,466.94.

Therefore, the permit application fee per operator will be \$3,470. Details of staff time and cost are shown in Table 1.

Shared Mobility Device Permit, Annual Fee

The shared mobility device permit annual fee is based on cost recovery for the staff time and cost involved in annual administration of a minimum program. The cost assumes a minimum program consists of three (3) different operators and 180 shared mobility devices. This correlates to 60 shared mobility devices per Operator, which is the minimum number of shared mobility devices required by the program. Therefore, the annual fee is based on staff time and effort for the operation of 180 devices citywide. The staff time and effort include permit administration, public interaction, operator meetings to adjust the program, and data analysis. The total staff cost for 180 devices assuming three (3) different operators citywide is approximately \$82,288. Therefore, the annual permit fee per Operator shall be \$27,430. Details of staff time and cost are shown in Table 2.

Shared Mobility Device Permit, Device Fee

The shared mobility device permit, device fee is based on cost recovery for the staff time and cost involved in annual administration of a maximum program. The cost assumes a maximum program consists of three (3) different operators and 3,000 shared mobility devices. This correlates to 1,000 shared mobility devices per Operator, which is the maximum number of shared mobility devices required by the program. Therefore, the annual fee is based on staff time and effort for the operation of 3,000 devices citywide. The staff time and effort include permit administration, public interaction, operator meetings to adjust the program, and data analysis. The total staff cost for 3,000 devices assuming three (3) different operators citywide is approximately \$280,452. Details of staff time and cost are shown in Table 3. This cost includes the \$82,288 cost for a minimum program consisting of 180 devices. As shown above, the cost of the minimum program is being recovered using the shared mobility device permit annual fee of \$27,430. Therefore, the remaining cost to operate 2,820 devices is \$198,164, which is the cost difference between the maximum program and the minimum program shown in Table 2 and Table 3 (\$280,452-\$82,288) which. This cost was then distributed equally among the 2,820 devices to result in a per device fee of \$70. The first 60 shared mobility devices deployed per operator will not be subject to the per shared mobility device fee.

Shared Mobility Device Permit, Additional Device Fee

The shared mobility device permit, additional device fee is based on 50% of the cost of the shared mobility device permit, device fee. If an Operator is approved for less than 1,000 shared mobility devices, an Operator may apply to increase the number devices deployed in the City. The application must occur after December 1 of the permit operating period, which is approximately six (6) months after issuance of a permit. Therefore, the cost per device is anticipated to be 50 percent.

Shared Mobility Device Permit, Impoundment Fee

The shared mobility device permit impoundment fee is based on cost recovery for the staff time and cost involved in impounding one device. The cost assumes a total of 1.5 hours to collect the device from field, book the device into the City's system, log custody, give notice to Operators, and release a device. The total staff cost estimated to impound each device is \$305. Details of staff time and cost are shown in Table 4.

REPORT TO STADIUM AUTHORITY BOARD

SUBJECT

Action to Award Purchase Order to ECS Imaging, Inc. for Stadium Builder License Laserfiche Integration Support Services, Transact Office Supplies and Equipment Purchases, and Approve Expenses Incurred Between November 23-30, 2021

BOARD PILLAR

Ensure Compliance with Measure J and Manage Levi's Stadium

BACKGROUND

On October 8, 2019, the Stadium Authority Board (Board) approved Ordinance No. 2005 amending Chapter 17.30 of the City Code (Stadium Authority Procurement Policy), which rescinded the delegation to the Executive Director to enter into agreements without prior Board approval. As of the effective date of the Ordinance, November 8, 2019, all Stadium Authority agreements for services, supplies, materials, and equipment require the approval of the Stadium Authority Board.

The Executive Director is requesting authorization for the following:

1. Retroactive award of purchase order to ECS Imaging, Inc. (ECS) in an amount not to exceed \$10,238 for Stadium Builder License (SBL) Laserfiche integration support services;
2. Transact purchases for office supplies and equipment for Stadium Authority staff; and
3. Retroactive approval of office supplies and equipment expenses that were incurred between November 23-30, 2021.

DISCUSSION

On March 23, 2021, the Board approved the Stadium Authority FY 2021/22 Operating, Debt Service and Capital Budget (Budget). The General and Administrative Budget within the Stadium Authority FY 2021/22 Budget contains line items for Administrative Services and Other Expenses. Stadium Authority staff has obtained quotes for the following items pursuant to the appropriate Purchasing Sections under Chapters 2.105 and 17.30 of the Santa Clara City Code. Staff is following the City Code provisions listed below for consistency and to ensure that best practices in public sector procurement are being followed:

- 2.105.280 "Informal Bidding" where the award recommendation is determined by the lowest cost bidder.
- 2.105.280(b) Purchases less than \$15,000 do not require competitive bidding.

Board approval is requested for the following items:

SBL Laserfiche support services (\$10,238) - The Stadium Authority and Stadium Manager uses

Docusign to execute SBLs. As the City's existing Laserfiche vendor, ECS' services are required to integrate SBLs that were and continue to be executed in Docusign into the Laserfiche repository so that the files can be archived and searched for pertinent SBL data (e.g., SBL account number, SBL seat, etc.). The Stadium Authority previously awarded a purchase order to ECS for integration services for scanned SBLs and training services, as described in more detail under a February 16, 2021 Stadium Authority report (# 21-251). Stadium Authority documents are separated from City documents in the Laserfiche repository.

Staff obtained a quote from ECS for processing and integrating Docusign executed SBLs into Laserfiche and one year of as needed support services and recommends retroactive award of purchase order to ECS for an amount not to exceed \$10,238. For full disclosure, in order to expedite the SBL integration project, ECS has completed the integration work for the Stadium Authority which accounts for \$1,838 out of the total amount. The remaining purchase order amount (\$8,400) is for as needed support services related to processing and integrating new Docusign SBLs. The Stadium Authority FY 2021/22 Operating Budget includes \$150,000 for Administrative Services, which includes Laserfiche Repository and SBL Integration to Repository.

Office Supplies and Equipment for Stadium Authority Staff (\$4,530 plus subsequent monthly service, tax, shipping and environmental fees) - New and existing staff in the Executive Director's and Stadium Treasurer's Offices require the following office supplies and equipment, and received quotes from the following vendors:

- Laptop: \$1,385 plus tax, shipping and environmental fees from Dell
- Computer monitors: \$1,145 plus tax, shipping and environmental fees for 5 monitors from Dell for multiple staff
- Laptop docking stations: \$520 plus tax, shipping and environmental fees for two docking stations from Dell for multiple staff
- Wireless keyboard and mouse: \$60 plus tax, shipping and environmental fees from Dell
- Wireless ergonomic keyboard: \$60 plus tax from Amazon
- Wireless ergonomic mouse: \$20 plus tax from Amazon
- Headset: \$58 plus tax from Amazon
- HDMI cable: \$10 plus tax from Amazon
- Cell phone: \$1,200 plus shipping and subsequent monthly service fee (estimated at \$13/month)
- Office chair: \$530 plus tax and shipping from Herman Miller

Staff recommends purchase of the various office supplies and equipment through the vendors that staff obtained quotes from, totaling \$4,988 plus subsequent monthly service, tax, shipping and environmental fees. The Stadium Authority FY 2021/22 General and Administrative Budget includes \$20,000 for Other Expenses such as routine office expenses.

Incurring Office Supplies and Equipment Expenses

There is approximately \$2,647 (plus subsequent monthly service, tax, shipping, and environmental fees) worth of office supplies and equipment expenses that were incurred by the Stadium Authority between November 23-30, 2021 that require retroactive Board approval. The supplies and equipment were purchased to onboard new Stadium Authority staff. There are sufficient funds in the Stadium Authority FY 2021/22 General and Administration Budget to cover these costs.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

There are existing appropriations in the Stadium Authority FY 2020/21 Adopted Budget under General & Administration Budget to cover the costs of the Laserfiche integration and support services (\$10,238), office supplies and equipment for staff (\$4,988 plus subsequent monthly service, tax, shipping and environmental fees), and the costs incurred by the Stadium Authority for office supplies and equipment as detailed in Attachment 2 (\$2,647 plus subsequent monthly service, tax, shipping, and environmental fees) between November 23-30, 2021.

Together, this request totals \$17,873 plus subsequent monthly service, tax, shipping and environmental fees.

REPORT TO STADIUM AUTHORITY BOARD

SUBJECT

Action on the Santa Clara Stadium Authority Financial Status Report for Quarter Ending June 30, 2021

BOARD PILLARS

Ensure Compliance with Measure J and Manage Levi's Stadium
Enhance Community Engagement and Transparency

BACKGROUND

In Fiscal Year 2014/15 the Stadium Authority Board ("Board") requested that staff prepare quarterly Santa Clara Stadium Authority ("Stadium Authority") Financial Status Reports. These reports provide an update on the events held at Levi's Stadium, Stadium Authority finances, and the impact of Stadium Authority activity on the City of Santa Clara's ("City").

This report provides information covering the Stadium Authority's first (April 1, 2021 - June 30, 2021) quarter of the 2021/22 fiscal year.

The Adopted Stadium Authority Budget incorporates the estimated revenues and expenses for all Stadium Authority funds. The attached Financial Status Reports provide the budget to actual revenue and expense summaries for the operating, debt service, and capital funds. Analysis of the financial activity through the fiscal year measures the adherence to the budget and allows the Stadium Authority to monitor and project revenues and expenses. Any significant variances are explained in the reports.

Certain operating expense payments were withheld based on Board direction for the partial suspension of payments at the March 27, 2019 Stadium Authority Board meeting, based on the concern that public funds would be used to pay for expenses that were not legally procured, or compliant with prevailing wage law or self-dealing/ conflict of interest laws. At that meeting, the Board directed the Executive Director to only release public funds to ManagementCo when supporting documents have been submitted to show the expenses adhere to our agreements and State and local laws.

At the March 23, 2021 Stadium Authority Board meeting, the Executive Director was delegated authority to approve budget amendments of \$4.2 million to move funds from the Legal Contingency line item to Shared Expenses after the review of adequate documentations for costs based on Board direction. Subsequent to that direction, Stadium Authority staff met at Levi's Stadium on March 30, 2021 to review documentation for shared expenses. After follow-up meetings with the Stadium Manager, payments related to compensation that were reviewed and approved for monthly payment, totaling \$4.2 million for the fiscal year.

In addition, based on conversation at Stadium Manager-Stadium Authority Quarterly meeting, it was stated that the Utilities invoiced amounts were based on the budget, which did not factor utility costs to operate the vaccination site into consideration. Because the vaccination site is treated as an NFL sponsored event, these costs are not borne by the Stadium Authority based on the terms of the Stadium Lease Agreement. As the vaccination site was expected to operate for four to six months, the Stadium Authority requested that the portion estimated to be associated with the vaccination operations be credited back based on historical usage and per the lease requirements regarding expenses for NFL sponsored events. No additional information was provided by the Stadium Manager and the Stadium Authority continues to pay half of the invoiced amount until documentation showing a credit for the vaccination site utility usage is produced.

DISCUSSION

The attached financial status reports provide information covering the Stadium Authority's first (April 1, 2021 - June 30, 2021) quarter of the 2021/22 fiscal year. The reports summarize National Football League ("NFL") and non-NFL event activity at Levi's Stadium and describes the financial impact of these events on the Stadium Authority and City since FY 2014/15. The report also provides the budget to actual revenue and expense summaries for the operating, debt service, and capital funds. Analysis of the financial activity through the fiscal year measures the adherence to the budget and allows the Stadium Authority to monitor and project revenues and expenses. Any significant variances are explained in the report.

NFL Event Revenue and Expenses

There were no NFL games held in the first quarter of the 2021/22 Fiscal Year. Levi's® Stadium hosted the first 49ers pre-season game of the 2021 season on August 14, 2021, which will be included in the report for the second quarter.

Non-NFL Event Revenue and Expenses

There were no Non-NFL events held in the first quarter of the 2021/22 Fiscal Year. Non-NFL events are expected to resume in FY2021/22.

Stadium Builder Licenses ("SBLs")

SBLs account for 36% of the Stadium Authority's annual budgeted revenue in FY 2021/22. There is a total of 61,471 currently active SBLs which is 93% of the 66,066 total sellable SBL seats. The value of the active SBLs amount to \$538 million of which \$483.9 million has already been collected.

Stadium Authority Budgets

The detailed analysis of Stadium Authority budget to actual financials is provided in the attached Financial Status Reports. In summary, total operating revenues were \$6.8 million representing 10% of the overall budget for revenues and total operating expenses were \$3.2 million or 5% of the budget. The debt service fund was able to pay down \$14 million in debt, bringing total Stadium Authority debt down to \$282.8 million. Capital expenses were \$26 thousand representing <1% of the overall CIP budget.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(4) in that it is a

fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

FISCAL IMPACT

There is no fiscal impact to this report.

COORDINATION

This report was coordinated with the Stadium Manager per section 4.6 of the Management Agreement as well as the Stadium Authority Counsel's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. Introduction

This Santa Clara Stadium Authority ("Stadium Authority") Financial Status Report provides information covering the first quarter of the Stadium Authority's 2021/22 fiscal year (FY) which ended on June 30, 2021.

In addition to these quarterly reports, the Stadium Authority produces annual financial statements. The FY 2020/21 financial statements were audited by an external audit firm and presented to the Stadium Authority's Audit Committee on September 16, 2021 and the Stadium Authority Board ("Board") on September 28, 2021. Once presented to the Stadium Authority Board, the financial statements are published on the Stadium Authority's website.

The Stadium Authority also prepares a detailed budget prior to the beginning of each fiscal year. The FY 2021/22 budget was considered at a study session on March 9, 2021 and adopted by the Board on March 23, 2021.

Stadium Authority finances are structured so that the City of Santa Clara (City) is not liable for the debts or obligations of the Stadium Authority. All services provided by the City, including administrative and public safety, to the Forty Niners Stadium Management Company, LLC ("ManagementCo") or the Stadium Authority are fully reimbursed with Stadium Authority funds.

Methodology

Information provided in this report was based in part on documentation submitted by ManagementCo. Specifically, NFL and Non-NFL event statistics and financial information relating to Stadium Manager expenses are provided by ManagementCo. Stadium Authority staff is limited to a review of selected financial information submitted by ManagementCo, including some source documentation for Non-NFL events with attendance greater than 25,000, submitted 45 days after each event. More detailed documents are received over 90 days after the close of the fiscal year. For all other financial information, a full detailed review and/or audit of source documentation has not been completed by the Stadium Authority for this report.

The Stadium Authority has contracted with JS Held (formerly Hagen, Streiff, Newton, & Oshiro), a forensic accounting firm, to review and evaluate non-NFL event financial information from prior years, including source documentation. This report was discussed with the Board at the December 1, 2020 Stadium Authority Board meeting. The Stadium Authority is working with JS Held for the review of additional historical years.

The information provided reflects the best known and available at the time of the writing of this report and is subject to further revision when the full body of records becomes available and review is complete. Consequently, the Board's notation and filing of this report should not be considered an approval of the accuracy of the information in the report.

NFL Events

There were no NFL games held in the first quarter of the 2021/22 Fiscal Year. Levi's® Stadium hosted the first 49ers pre-season game of the 2021 season on August 14, 2021, which will be included in the report for the second quarter.

Non-NFL Events

This section provides annual and comparative data for Non-NFL Events categorized as events ranging from high school and college football games, international soccer matches, concerts, wedding fairs, and special events. Due to the pandemic, there were no Non-NFL Events held in the first quarter of the 2021/22 Fiscal Year. Non-NFL events are expected to resume later in FY2021/22; however, only smaller, non-ticketed events are currently scheduled.

Comparative data from all eight years of operations for the Non-NFL ticketed events and special events are shown in Table 1.

⁽²⁾ The first event at Levi's Stadium was in August 2014 (the second quarter of the 2014/15 Fiscal Year).

Discretionary Fund

The Discretionary Fund is funded by revenue equal to 50% of the Non-NFL Ticket Surcharge of \$4 per ticket. Table 2 shows the revenues and expenses in the Discretionary Fund since FY2014/15. The balance at the end of this reporting period was \$2.3 million.

Stadium Builder Licenses

The total principal value of currently active Stadium Builder Licenses (“SBLs”) is \$538 million and, as of June 30, 2021, 90% of the total principal value of all SBLs sold (i.e., \$483.9 million) had been collected.

SBL holders that finance their purchase pay an annual interest rate of 8.5% and payments are due by March 1st each year. The majority of SBL holders make their payments on time. For those that do not pay on time, SBL service staff, working for ManagementCo on the Stadium Authority’s behalf, contact the SBL holders and attempt to collect the full amounts owed. Ultimately, an SBL can be defaulted for non-payment. Once an SBL is defaulted, the SBL holder in default loses their right to buy season tickets as well as their priority rights to tickets to Non-NFL Events, and forfeits any money they had invested in the SBL. Defaulted SBLs are then available for resale.

There is a total of 61,471 currently active SBLs, or 93% of the 66,066 total sellable SBL seats. This is an increase of 1,103 from the total active SBLs at the end of the prior fiscal year (March 31, 2021). The main reasons for the increase are due to sale of new SBLs offset by the customer seat relocation program and default buy back. The customer seat relocation program allows customers to trade in their SBLs in return for others in a different location as long as the total face value of the new seats is equal to or greater than the original seats.

During the current reporting period, 1,125 SBLs were sold for a total face value of \$7.4 million. The customer seat relocation program resulted in an increase of \$1.7 million to the SBL face value, although the number of SBLs for this category decreased by 23. The reason for this is due to a relocation to a higher SBL Tier.

Additional details regarding currently active SBLs are noted in Table 3.

Santa Clara Stadium Authority Budget Status Reports

Operating Budget

With 25% of the fiscal year complete, total operating revenues for the first quarter of the 2021/22 Fiscal Year were \$6.8 million representing 10% of the overall budget for revenues. The primary reason that revenue is below 25% is because there are not currently any Non-NFL events being held at the Stadium due to the pandemic and therefore the Stadium Authority is not receiving any revenue related to event attendance. The revenue affected by the pandemic includes NFL Ticket Surcharge, Non-NFL Event revenue, Non-NFL Event Ticket Surcharge and Senior & Youth Fees. The Stadium Authority is still collecting SBL proceeds, sponsorship revenue, Naming Rights revenue and rent, all of which are expected to meet budget this fiscal year. The Naming Rights revenue is collected twice a year, in October and February, and will be included in the Quarter 3 report. The Stadium rent earned from StadCo totaled \$6.7 million in Quarter 1. The first receipt of SBL proceeds this fiscal year amounted to \$11.6 million and will be included in the Quarter 2 report.

Total operating expenses were \$3.2 million, or 5% of the annual budget. The primary reason that total expenses are below 25% is due to timing of the debt service transfer that takes place in Quarter 2.

Other expenditures to note include shared stadium manager expenses. In the prior fiscal year, operating expense payments, except for insurance, were withheld based on Board direction for the partial suspension of payments at the March 27, 2019 Stadium Authority Board meeting, based on the concern that public funds would be used to pay for expenses that were not legally procured, or compliant with prevailing wage laws or self-dealing/conflicts of interests laws. At that meeting, the Board directed the Executive Director to only release public funds to ManagementCo for the payment of shared stadium manager expenses when supporting documents have been submitted to show those expenses adhere to our agreements and State and local laws. Separate from that partial suspension of payments, the Stadium Authority continued to pay for utilities, insurance, naming rights commission and costs associated with SBL sales and services.

For the current fiscal year, the Stadium Authority's FY2021/22 budget was adopted on March 23, 2021 and included the Stadium Manager's recommended Shared Expense budget of \$8.1 million in a Legal Contingency line item. The expenses that were included in the Legal Contingency line are Stadium Operations, Engineering, Guest Services, Groundskeeping, Security and the Stadium Management Fee. However, the Executive Director was delegated authority to approve budget amendments of \$4.2 million to move funds from the Legal Contingency line item to Shared Expenses after the review of adequate documentations for costs based on Board direction. Subsequent to that direction, Stadium Authority staff met at Levi's Stadium on March 30, 2021 to review documentation for shared expenses. After follow-up meetings with the Stadium Manager, payments related to compensation that were reviewed and approved for monthly payment, totaling \$4.2 million for the fiscal year.

Shared Stadium Manager expenses were at 22% of the budget, or \$1.6 million of the \$7.4 million budgeted amount and SBL Sales & Service expenses were 16% of the budget, or \$540 thousand. Naming Rights Commission amounted to \$44 thousand and, lastly, Stadium Authority G&A costs were \$581 thousand or 11% of the budget.

The Stadium Authority pays for all utility costs from February 1st through July 31st and the tenant (StadCo) pays for utility costs from August 1st through January 31st (Tenant Season). However, based on conversation at Stadium Manager-Stadium Authority Quarterly meeting, it was stated that the Utilities invoiced amounts were based on the budget, which did not factor utility costs to operate the vaccination site into consideration. Because the vaccination site is treated as an NFL sponsored event, these costs are not borne by the Stadium Authority based on the terms of the Stadium Lease Agreement. As the vaccination site was expected to operate for four to six months, the Stadium Authority requested that the portion estimated to be associated with the vaccination operations be credited back based on historical usage and per the lease requirements regarding expenses for NFL sponsored events. No additional information was provided by the Stadium Manager and the Stadium Authority continues to pay half of the invoiced amount until documentation showing a credit for the vaccination site utility usage is produced. Utility costs are 23% of the budget for the year, or \$371 thousand.

The current budget includes an estimated \$600,000 loss projected by the Stadium Manager for Non-NFL Events. The Stadium Manager invoiced the Stadium Authority \$150 thousand in estimated Non-NFL Events Expenses in this quarter. The invoice is premature, and the Stadium Manager did not provide adequate supporting documentation for the estimated expenses so the Stadium Authority withheld payments to this expense item in the first quarter.

As of the end of first quarter of FY 2021/22, the Stadium Manager issued approximately \$1.1 million in Notices of Default to the Stadium Authority for the unpaid Utilities, Non-NFL Event expenses and Non-Compensation Shared Stadium Manager expenses. These claims are in litigation.

Additional details are shown in Table 4.

Debt Service Budget

The Stadium Authority's FY 2021/22 debt service revenue budget of \$483 thousand represents anticipated contributions from the Community Facilities District (CFD). The CFD levies and collects a special hotel tax on hotel rooms within the CFD. All collections from the special CFD hotel taxes are contributed to Stadium Authority to pay down the CFD advance. The CFD Advance is payable solely from amounts actually received by the Stadium Authority from the CFD. During the first quarter, \$158 thousand was contributed by the CFD. The CFD collections have declined due to the County health orders related to the COVID-19 pandemic.

Total Stadium Authority debt service expenses for the current reporting period were \$17.6 million, 46% of the budgeted amount. The debt service expenses for the CFD Advance, the Term A Loan, and the StadCo Subordinated Loan were \$421 thousand, \$16.9 million, and \$318 thousand, respectively.

As of June 30, 2021, the total outstanding amount of Stadium Authority debt had declined to \$282.8 million. This is a reduction in principal of \$14 million from the March 31, 2021 outstanding debt amount of \$296.8 million.

Additional details are shown in Tables 5 and 6 and Chart 1.

Capital Improvement Project Budget

There were no projects completed during the first quarter of the fiscal year. However, significant progress has been made towards public safety purchases. The Rope Rescue Gear project is in progress and will be reported as complete in the coming quarterly reports.

A total of \$26 thousand has been spent in FY 2021/22, which amounts to 0.5% of the budget. The main reasons that this is below budget are (1) there has been little activity on warranty work which makes up 10% of the CIP Budget, and (2) a number of projects are behind schedule due to ManagementCo's inability to demonstrate compliance with State procurement and prevailing wage laws. As a result, capital projects have stalled. We continue to raise this issue with ManagementCo to ensure the Stadium Authority asset is maintained in a sufficient manner, and we believe that ManagementCo is working towards completing these duties for this fiscal year.

Additional details are shown below in Table 7.

Public Safety and Administrative Cost Reimbursement

As described in earlier sections of this report, costs incurred by the City on NFL and non-NFL Events are tracked and billed to the Stadium Manager. Public safety costs incurred in support of NFL and non-NFL events occurring in FY2021/22 will be reimbursed in full to the City of Santa Clara.

In addition to public safety costs, administrative costs are also tracked and billed to the Stadium Authority. These include the cost of providing overall stadium management, financial, human resource, legal, and other services to the Stadium Authority. In the first quarter of FY 2020/21, a total of \$291 thousand of administrative costs were incurred by the General Fund, which have been reimbursed to the City.

Rents and Senior and Youth Fee

As noted above the City's General Fund did not collect any rents or Senior and Youth fees in the current reporting period.

Other Revenue Impacts

General Fund sales tax, property tax, and transient occupancy tax (TOT) collections have benefited from the direct and indirect economic activity related to stadium events.

Food and beverage concession sales and merchandise sales at Levi's® Stadium are taxable, resulting in sales tax revenue for the City. The last quarter of sales tax collections from Levi's® Stadium transactions generated \$11,176 for the City's General Fund. In addition to the direct sellers at the Stadium, other businesses in Santa Clara are benefiting

from the influx of people coming to attend one or more events at Levi's® Stadium, resulting in potentially more sales tax collections for the General Fund.

In accordance with State Law, StadCo must pay possessory interest property tax based on their lease of Levi's® Stadium from the Stadium Authority. This revenue is collected by the county and placed into the Redevelopment Property Tax Trust Fund (RPTTF). Amounts remaining in the RPTTF after paying any enforceable obligations of the Successor Agency are distributed to taxing entities in the same proportion as secured property taxes. The City's proportion is approximately 10%.

Many stadium events bring travelers to the region, resulting in hotel stays which generate TOT collections for the City's General Fund. Although it is impossible to say exactly what portion of the City's TOT collections is due to the stadium, it is clear that hotels both inside and outside the City have benefited, resulting in increases in TOT collections in Santa Clara and our neighboring cities.

Glossary

This section of the report provides details behind key terms that are used in the body of this report.

Discretionary Fund – The Amended and Restated Stadium Lease Agreement describes the Non-NFL Event ticket surcharge which is imposed by the Stadium Authority. All promoters or sponsors of ticketed Non-NFL Events are required to collect a Non-NFL ticket surcharge of \$4 per ticket on behalf of the Stadium Authority. One-half of these proceeds are used to cover Stadium Authority operating and maintenance costs. The other one-half of the proceeds are deposited in the Stadium Authority's discretionary fund. If at any time the discretionary fund balance exceeds \$1 million, then in consultation with the Stadium Manager, the Stadium Authority will determine if provision has been made for replacement and improvement of capital improvements contemplated under the public safety plan. If not, then funds will be reserved in the discretionary fund for such purposes. If adequate provision has been made for these items and the balance of the discretionary fund still exceeds \$1 million, then up to half of the amount over \$1 million can be transferred to the General Fund, in which event an equal amount will also be transferred from the discretionary fund to the Stadium Authority operating fund and will be included as revenue available to pay Stadium Authority expenses.

Ground Lease – The Ground Lease Agreement has an initial term of 40 years commencing on the date of substantial completion which was July 31, 2014. The amount of annual base ground rent that is payable by the Stadium Authority to the City is noted in the chart below.

| Lease Year | Fiscal Year | Annual Fixed Ground Rent |
|------------|-------------------|--------------------------|
| 1 | 2014/15 | \$ 180,000 |
| 2 | 2015/16 | \$ 215,000 |
| 3 | 2016/17 | \$ 250,000 |
| 4 | 2017/18 | \$ 285,000 |
| 5 | 2018/19 | \$ 320,000 |
| 6 | 2019/20 | \$ 355,000 |
| 7 | 2020/21 | \$ 390,000 |
| 8 | 2021/22 | \$ 425,000 |
| 9 | 2022/23 | \$ 460,000 |
| 10 | 2023/24 | \$ 495,000 |
| 11-15 | 2024/25 - 2028/29 | \$ 1,000,000 |
| 16-20 | 2029/30 - 2033/34 | \$ 1,100,000 |
| 21-25 | 2034/35 - 2038/39 | \$ 1,200,000 |
| 26-30 | 2039/40 - 2043/44 | \$ 1,300,000 |
| 31-35 | 2044/45 - 2048/49 | \$ 1,400,000 |
| 36-40 | 2049/50 - 2053/54 | \$ 1,500,000 |

Net Non-NFL Event Revenue – Net Non-NFL Event revenue is remitted by ManagmentCo to the Stadium Authority on a yearly basis. This is done annually because the final reconciliation of the Non-NFL Event revenues and expenses does not occur until after the conclusion of each fiscal year.

Beginning with FY 2018/19, the Stadium Authority budgeted the Non-NFL Event activity at gross, budgeting for revenue and expenses separately. In the prior fiscal years that activity was budgeted as a net amount.

NFL Ticket Surcharge – The Amended and Restated Non-Relocation Agreement states that the Team will collect a 10% NFL ticket surcharge on the price of admission to all NFL games on behalf of Stadium Authority.

Non-NFL Event Ticket Surcharge – The Stadium Lease Agreement requires that the promoter or sponsor of any Non-NFL Event collect a Non-NFL Event ticket surcharge of \$4 per ticket. The Lease Agreement sets aside one-half of the Non-NFL ticket surcharge for stadium operating and maintenance costs and one-half for discretionary expenses of the Stadium Authority.

Offsite Parking Fees – Parking lot operators who wish to operate a parking lot for sports or entertainment venues are required to go through the City's permitting process. If approved, per the City's Municipal Fee Schedule, these operators remit an offsite parking fee for each car that is parked for sports or entertainment events. This fee is designed to recover the public safety costs associated with these permitted offsite parking lots. Therefore, when invoicing for NFL or Non-NFL public safety costs for a particular event held at Levi's® Stadium, the offsite parking fee that is collected for said event partly offsets the total public safety costs owed for that event. In the City's FY 2021/22 (July 1, 2021 through June 30, 2022) the offsite parking fee is \$5.91.

Performance-Based Rent - The Amended and Restated Stadium Lease Agreement and the Ground Lease Agreement both describe the performance-based rent that is due to the City. (It is calculated as 50% of the net income from Non-NFL events less performance-based rent credits. The performance-based rent credits include 50% of the fixed ground rent for the current lease year.)

Public Safety Costs – For each NFL and Non-NFL Event held at Levi's® Stadium, a public safety plan is developed and implemented. Multiple City departments provide staffing, materials, and supplies to support the public safety plan. Services are provided through a combination of City staff, contracts with other agencies (California Highway Patrol, County Sheriff's Office, and City of Sunnyvale) and some vendor provided services.

The Amended and Restated Stadium Lease Agreement section 7.5 states that the tenant is responsible for reimbursing the City for the public safety costs attributed to NFL events at Levi's® Stadium. Additionally, Article 5 of the Stadium Management Agreement notes that the Stadium Manager is responsible for paying Non-NFL Event expenses on behalf of the Stadium Authority. Therefore, the cost of providing public safety services are tracked through the City's financial system and invoices are sent to the Stadium Manager. All of these costs are reimbursed to the City of Santa Clara.

Senior and Youth Program Fees – The Amended and Restated Stadium Lease Agreement requires that StadCo collect a Senior and Youth Program Fee of \$0.35 per NFL ticket sold on behalf of the Stadium Authority. Per section 8.2 of the Ground Lease Agreement between the City and the Stadium Authority, the Stadium Authority remits this fee to the City as additional rent to support senior and youth programs in the City.

Stadium Management Fee – The Stadium Manager receives an annual base management fee to manage Levi's® Stadium. The fee was \$400,000 in the first lease year and increases by 3% annually as detailed in the table below. This annual base management fee is split 50/50 between StadCo and the Stadium Authority since the Stadium Manager manages the stadium year-round for both entities. In addition to the base management fee, the Stadium Manager also receives a stadium marketing and booking fee (incentive fee) which is based on a percentage of the amount that the net income from Non-NFL Events exceeds the marketing and booking fee benchmark. The marketing and booking fee benchmark was \$5 million in the first lease year and also increases by 3% annually as detailed in the table below. The annual stadium management fee for each of the first ten lease years are noted in the chart below.

| Fiscal Year | Lease Year | Annual Base Stadium Management Fee (SCSA Share) | Stadium Marketing and Booking Fee Benchmark | Net Income from Non-NFL Events | Additional Stadium Marketing and Booking Fee | Total Stadium Management Fee |
|-------------|------------|---|---|--------------------------------|--|------------------------------|
| 2014/15 | 1 | \$ 200,000 | \$ 5,000,000 | \$ 5,207,553 | \$ 10,378 | \$ 210,378 |
| 2015/16 | 2 | 206,000 | 5,150,000 | 6,079,016 | 46,451 | 252,451 |

Subject: IMEX Conference

Dear Deanna,

I write to request SCSA approval for the Special Events Sales Team to attend IMEX America, a global conference for the events business community. By attending this conference, we plan to reconnect with past clients and obtain new leads both locally and nationally.

During our attendance at recent local sales events, we have learned that many of our industry partners will be attending this event as the industry begins to re-open and clients are eager to discuss event opportunities for 2022 and beyond.

IMEX America – Las Vegas (November 9 – 11, 2021)

IMEX America brings together a large cross-section of the global and US business events community, providing the traditional exhibition hall, networking events and educational courses along with the hosted buyer program. IMEX America is the first international event to open once the US travel ban lifts on November 8th. The special events, meetings and incentive industry is looking forward to returning to IMEX for a week of education, networking and reconnecting. As the industry begins to return to in-person events, sales conferences like IMEX are paramount to the rebuilding process and being able to meet with industry peers and buyers in person to understand new trends in events.

Education: With over 180 educational events provided for attendees, the conference provides an in-depth learning experience for industry professionals of all levels. Examples of some topics include: trends related to booking and executing events, understanding what clients are looking for in a post-pandemic recovery world, and how to manage new health and safety concerns. With an industry that changes based on health statistics and local/state guidelines, education is the first step towards understanding our business and how to remain flexible while also keeping health and safety as a top priority.

Networking: The opportunity to network with regional and national buyers, as well as

suppliers, is our number one reason for attending this event. Visiting tradeshow booths of local CVB partners and DMCs is vital to rebuilding partnerships and reintroducing Levi's Stadium Special Events. Many industry professionals on both the planning side as well as trusted suppliers (vendor partners) have moved companies and started new jobs, which opens the door to potential new business and access to new companies. After so many virtual meetings and events, being face to face with our business partners is important for future growth and development.

IMEX conference is one of the largest conferences in the meetings and events industry. While attending each year is important, this year's event promises to bring together an industry looking for peer support and provide an opportunity for suppliers to secure new business.

One of the many perks of this conference is there is no registration fee to attend the event. However, we would like to attend a few of the networking events and be able to host clients for one on one meetings. We are requesting approval to spend up to \$2,030 including the following: opening night reception (\$180), closing night reception (\$100), T&E (\$1,750). This expense would fall under the "Event Expenses/Advertising" line item in the non-NFL Event Marketing Budget, and we have ample room in the budget to cover this cost.

In order to capitalize on this opportunity, we will need to book travel and expenses immediately. Given the recent feedback from the SCSA on the desire to drive Non-NFL Event revenue, we would expect that this minor expense will be approved by the Board. Accordingly, we will proceed to book the flights now and respectfully request that you seek Board approval at your earliest opportunity.

Thanks for your attention to this matter.

Overview

The following provides an update on our business expense processes and reimbursement policies for business travel and other expenses.

The Business Expense Reimbursement Policy provides guidelines to reimburse staff for reasonable and necessary business expenses. All expense reports must be submitted through Concur. Please be timely in submitting your reimbursement request; reimbursements should be submitted within 60 days.

As a *general guideline*, an expense must meet the following criteria to qualify for reimbursement. The expense should be:

1. Necessary for the employee to perform their job and documented as such, and
2. Reasonable in cost – as always, common sense prevails

To streamline the process, employees will now book all airfare exclusively through Concur Travel. To assist with travel arrangements, we have added a dedicated travel resource who can assist with needs related to business travel. The travel service can be reached at Travel@49ers.com.

Employee expense reimbursements will no longer be accepted for air travel booked outside of the Concur Travel system. This update applies only to air travel and has no impact on hotel, auto, etc. As a reminder, **your supervisor with budget authority must pre-approve airfare and hotel reservations.**

Additionally, the importance of documenting a clear and concise business purpose for each expense line item cannot be overstated. The business purpose should be stated clearly and should relate directly to the employee's job responsibilities. This is necessary to help accounting determine the appropriate disposition of individual expense reimbursements. Failure to provide sufficient documentation will result in a delay in reimbursement. Below are general guidelines on the information that should be included when submitting expenses for reimbursement:

Business Purpose

When an expense report is submitted, you must provide a clear and detailed business purpose to support the expense.

Examples:

- Why was the expense incurred?
- What was purchased?
- What type of event does the business purpose relate to?
- When/where was the event?
- Please avoid using acronyms in the business purpose field.

The business purpose must be entered for each expense line on your Concur report. If there is not enough room, please continue your explanation in the Comments field. Incomplete information will delay reimbursement.

Travel Expenses

The Concur tool helps make managing business travel less time consuming. Concur will also help employees stay in compliance with the travel expense policies. As noted above, it is important for you to state a clear business purpose for all reimbursement requests.

Mileage: Mileage reimbursement is based on the maximum IRS standard mileage rate (56 cents per mile as of January 1, 2021) for use of a personal vehicle to travel from your normal place of work to another location for work (e.g., the airport for business travel). Current mileage rates can be found at <https://www.irs.gov/tax-professionals/standard-mileage-rates>.

- As a reminder, mileage from home to Levi's Stadium (i.e., normal commute) is not reimbursable per IRS guidelines. Mileage to and from a temporary place of work (meeting or conference) is reimbursable, less the mileage of the employee's normal commute.

Airfare, Hotel, Rental Cars: As noted above, airfare accommodations can only be booked through Concur via our travel partner, Direct Travel (Travel@49ers.com). Please work with Direct Travel or the individual in your department responsible for booking travel for assistance.

Airfare: Ensure that your Concur Profile is up to date with your legal name, address, DOB, and Travel Preference section filled out. Business purpose should be stated clearly as mentioned above. Some guidelines when booking airfare:

- The lowest coach/economy airfare with major carriers that works for the employee's travel schedule should be booked.
- Business Class and First-Class flights are not permitted. The only exception is if such travel is pre-approved by the President before purchase.
- Have flights booked as far in advance as possible to get reasonable fares.
- Any airfare of \$500 or more requires pre-approval by your supervisor with budget authority.
- Avoid booking flights and hotels based primarily on frequent flyer accounts if the cost is not reasonably close to comparable alternatives. Fees for airport clubs or frequent flyer programs are not reimbursable.
- Submit receipts for baggage fees, Wi-Fi, meals, etc.

Note: Airfare booked through Concur & Direct Travel will be paid by the Company directly. **The employee will not need to submit an expense report for airfare.**

Hotel: If needed, email Travel@49ers.com for booking assistance. The itemized hotel folio must be submitted; a hotel confirmation or other receipt showing payment is **not** considered to be sufficient documentation for reimbursement by the IRS.

- Hotel stays must be pre-approved by the budget manager. While high hotel costs are occasionally unavoidable (e.g., NFL-mandated meetings in NYC), as a general guideline, hotel stays for business travel should not exceed \$250 per night (plus taxes & fees). Attach supervisor email approval when submitting your expense report.
- Hotel stays can be booked via Concur. Unlike Concur's partnership with airlines through which the Company can pay airfare directly, hotels cannot be paid through Concur. Employees will pay for their own hotel stay and submit an expense report for reimbursement.
- Hotel stays for a conference in the Bay Area are generally not reimbursable.

- Other hotel expenses:
 - Parking – please self-park rather than valet whenever self-parking is available.
 - Room service – see *Meal Reimbursement* policy below.
 - Phone calls - reasonable phone charges are reimbursable if the employee has not been issued a company phone. Avoid excessive hotel long-distance charges.

Airport Transportation: In general, the mode of transportation used should be the most economical one suitable for the purpose of the trip.

- Mileage and economy parking will be reimbursed if parking at a Bay Area airport for business travel.
- Please use a shuttle, ride sharing service, or BART if the round-trip cost is less than economy parking at the airport.

Rental Cars:

- In general, the mode of transportation used should be the most economical one suitable for the purpose of the trip.
- When renting a car, employees should use the 49ers rental company accounts through Concur, unless these options are not available.
- As a general guideline, rentals should be mid-sized or full-sized cars. Please use your judgment and consider Lyft and Uber as alternative options.
- Employees booking rental cars through Concur can have the rental direct billed to the 49ers if using Hertz or Avis.
- If not booked through Concur, the employee will be responsible for the charges and will need to submit an expense report for reimbursement.
- Do not accept any insurance on rental vehicles – these charges will not be reimbursed.
- Please fill the vehicle with gas prior to returning it to avoid excessive “fill-up” charges added to the rental.
- Please reserve rental cars well in advance due to the high demand and lack of supply in the current market.

Meal Reimbursement:

- The employee in attendance who has the highest level of authority in a group should always pay for the expense (e.g., if a VP and a Director are at a business meal, the VP should pay).
- Staff meals are reimbursable up to a maximum of \$76 per full day (\$18 maximum for breakfast, \$22 maximum for lunch and \$36 maximum for dinner).
- Itemized receipts are required for reimbursement. Missing receipts will result in reimbursement delay.
- Overages for meals in certain high-cost cities will be reviewed on a case-by-case basis.
- Employees should note the business purpose of the meal, including the name/company of the person(s) in attendance, and submit the itemized receipt.

Business Entertainment

Business meals include reasonable amounts spent on food and other refreshments purchased in surroundings conducive to and including a business discussion with existing or prospective customers.

Entertainment expenses are reimbursable only if the entertainment will directly benefit Forty Niners Stadium Management Company or one of its clients (e.g. SCSA, StadCo, etc.), or if it directly precedes or follows a substantial and bona fide business discussion for the purposes of obtaining income or another business benefit.

Business entertainment expenses include, but are not limited to, such items as the cost of meals and beverages, and the cost of transportation directly related to the above.

If the employee is dining with others for business purposes, the meal and related expenses incurred are “entertainment,” not “meals.”

- “Entertainment” expenses require additional explanation on the expense reimbursement report.
- The expense report will include date, names of individuals, titles, and companies, as well as the business purpose (for example: “Lunch with SBL Customer prospect”. This will allow Accounting to charge the expense to the correct client.
- The most senior employee present should pay all business entertainment expenses.

Employees should always use their judgment and common sense when charging business meals and entertainment expenses.

Personal Travel Expenses

- As a reminder, airfare along with other personal travel expenses should not be booked on Concur or requested as a payroll deduction (AR1). Any such personal expenses (flights, hotel, meals, incidentals, etc.) should be paid directly by the employee (e.g., personal expenses incurred during hotel stay should be paid to hotel by employee via personal credit card). The only exception to the above is if personal expenses are pre-approved for payroll deduction via email by President AND the employee’s VP level manager. Personal expenses can also be pre-approved for payroll deduction by President AND ownership.

Team Outings/Offsite Events

- Team outings should be pre-approved by the budget manager and department VP prior to booking hotel and airfare.
- Expenses for the outing/event should follow the guidelines set above regarding hotel, airfare, meals, etc.

Employee Gifting

- Recognition for employees in the form of company gifts is administered through our Human Resources (HR) department. Expenses submitted for any “company” gifts that are not part of an HR initiative cannot be reimbursed. This includes gifts given in recognition of personal events or achievements unrelated to work (e.g., birthdays, weddings, baby showers) or in recognition of holidays (e.g., holiday gifts for employees are coordinated through HR).
- Please avoid using gift cards as incentives or employee gifts for work-related achievement. Gift cards and other non-cash gifts should be viewed as income and are taxable to the employee, even though they are not “cash.”

Office Equipment, FF&E

- Purchases of furniture, fixtures and equipment should be coordinated through your department VP and facilities (Bill Howell for SAP Performance Center or Stadium Operations for stadium purchases) and/or IT (computers and handheld devices).

Thank you for your assistance and cooperation. Please contact Esther Chi, Vice President, Controller or Chris Steele, Director, Accounting if you have any questions regarding the policy.

REPORT TO STADIUM AUTHORITY BOARD

SUBJECT

Report from the Stadium Authority Regarding Stadium Manager's Request for Retroactive Approval for Incurred Charges Related to the November 9-11, 2021 IMEX Conference

BOARD PILLAR

Ensure Compliance with Measure J and Manage Levi's Stadium

BACKGROUND

Through the Stadium Management Agreement, the Forty Niners Stadium Management Company (Stadium Manager) manages and operates Levi's Stadium on behalf of the Stadium Authority for Non-National Football League (Non-NFL) Events, like concerts, sporting events, and non-ticketed events. On behalf of the Stadium Authority, the Stadium Manager is responsible for the marketing and booking of Non-NFL events among other duties at Levi's Stadium.

The Stadium Manager is requesting retroactive approval for the following marketing activity:

- November 9-11, 2021 IMEX Conference in Las Vegas, NV: Authorization to incur charges up to \$2,030 for travel expenses and potential client entertainment (\$1,750), opening night reception (\$180), and closing night reception (\$100).

Per the Stadium Manager, the cost for this activity will be charged to the Stadium Authority FY 2021/22 Non-NFL Events budget (Catered Events), Event Expenses/Advertising line item.

DISCUSSION

Staff reviewed the Stadium Manager's email request (see corresponding report #21-1591) and asked the Stadium Manager to confirm that the travel and expense costs would follow their Business Expense Reimbursement Policy that was previously shared with the Stadium Authority. The Stadium Manager confirmed that they would.

As part of a previous request to incur charges for marketing-related conferences and meetings, the Stadium Manager explained that alcohol consumption is a part of the business marketing that they utilize to pursue Non-NFL events. While the use of public funds for alcohol consumption is generally not permitted by public agencies, the legislative body of the public agency can authorize this business expense. Therefore, there is an appropriate Board recommendation transmitted in this report to authorize the use of public funds to cover alcohol consumption as detailed in the documents submitted by the Stadium Manager. Further, the Stadium Authority should be covered for the risk or liability arising from auto accidents or other such losses occurring at any of these marketing events (including liability arising from consumption of alcohol) pursuant to the Indemnification Clause in Article 12 of the Management Agreement.

As the Stadium Manager's request pertains to marketing activities, staff also reviewed it against the Draft 2021 Marketing Plan. While the Draft 2021 Marketing Plan was not mutually agreed upon, it is the only document that the Stadium Authority has that outlines the Stadium Manager's planned marketing efforts. The requested marketing activity aligns to one of the key initiatives ("Utilize Marketing Budget to Regenerate Active Event Pipeline") the Stadium Manager identified in their Draft 2021 Marketing Plan. The Stadium Manager planned to prepare for the return to in-person events to build out new packages, create a strategic communications plan and reintroduce Levi's Stadium to local and national clients through a marketing campaign. It had planned to achieve this by utilizing a marketing budget to communicate its message through digital advertising, client/prospecting events, sales events/trade shows, and swag/gifts. The marketing activity which the Stadium Manager is requesting to incur charges for falls under the sales events/trade shows category.

Based on this review, staff recommends approval of the Stadium Manager's retroactive request to incur charges for travel expenses, potential client entertainment, and receptions, including alcohol, for the described conference. The Stadium Authority will require full supporting documentation before respectively releasing public funds upon procurement of travel expenses, client entertainment, and reception fees. This requirement is consistent with the Stadium Authority Board's March 27, 2019 direction to staff to stop payment of any additional invoices for services unless there is substantial documentation of services rendered which must also be in compliance with State law and City Code.

ENVIRONMENTAL REVIEW

The actions being considered do not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment or pursuant to CEQA Guidelines section 15378(b)(4) in that it is a fiscal activity that does not involve any commitment to any specific project which may result in a potential significant impact on the environment.

FISCAL IMPACT

The Stadium Authority FY 2021/22 Non-NFL Events budget (Catered Events) contains \$70,000 for Event Expenses/Advertising. There are sufficient funds to cover the Stadium Manager's request to incur up to \$2,030 for the IMEX conference.

This report has been coordinated with the Chief Assistant City Attorney and Stadium Treasurer's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov.

REPORT TO COUNCIL

SUBJECT

Information and Update on the Ad Hoc Committee on the Apology Letter Relating to the City's California Voting Rights Act Litigation (Deferred from November 9 and 16, 2021)

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

At the July 13, 2021 City Council meeting, Council acted on a written petition submitted by Councilmember Becker requesting a public apology to the residents of Santa Clara for the California Voting Rights Act (CVRA) lawsuit. A draft letter was submitted along with the written petition and is provided in Attachment 1. At this meeting a motion was made by Councilmember Jain, seconded by Councilmember Becker, that the Council (1) issue an apology for having consumed the City's treasury for fighting a CVRA lawsuit, (2) establish a publicly noticed meeting of an Ad-Hoc Committee comprised of Councilmember Becker and Councilmember Park, and (3) return to Council for ratification of the letter at a later time.

The Ad-Hoc Committee on the CVRA Apology Letter Relating to the City's California Voting Rights Act Litigation (Ad-Hoc Committee) held its first meeting on October 13, 2021.

DISCUSSION

The purpose of the Ad-Hoc Committee is to edit the draft apology letter submitted by Councilmember Becker and return to the full City Council with a revised letter for review and approval.

At the October 13th Ad-Hoc Committee meeting, Councilmembers Becker and Park expressed interest in expanding the scope of the Ad-Hoc Committee by increasing community outreach to encourage the community to provide input on the letter. Specifically, the Ad-Hoc Committee members requested the following via a motion:

1. Schedule another Ad-Hoc Committee meeting with full City staff support including livestreaming of the meeting as the City Council meetings are streamed and advertised.
2. Set the Ad-Hoc Committee meetings for 7:00 p.m.
3. Promote the Ad-Hoc Committee and the survey on social media.
4. Have the Task Force on Diversity, Equity and Inclusion provide input on the draft letter.
5. Host a community workshop.
6. Place a survey on the City's website seeking feedback on the draft apology letter with the following materials for reference:
 - a. The draft apology letter submitted by Councilmember Becker;
 - b. An un-biased background/history on the CVRA Lawsuit, which is to be developed and

- approved by the City Council; and
- c. The recent City of San Jose Resolution Apologizing to the Chinese Immigrants and their Descendants for Acts of Fundamental Injustice and Discrimination, Seeking Forgiveness and Committing to the Rectification of Past Policies and Misdeeds (Attachment 2),

The City Manager noted at the meeting that she would return to City Council to report out on the expanded scope of the Ad-Hoc Committee.

Regarding the background and history on the CVRA lawsuit, a report was submitted to Council at its June 8, 2021 meeting outlining the history (Attachment 3). At that meeting, Council directed the City Attorney to return to a Council meeting with an updated report on California Voter Rights Act (CVRA) litigation to include the Councilmember recommended historical events additions. On August 18, 2021, the City Attorney sent a memo (Attachment 4) to City Council noting that as of the date of the memo, aside from a copy of the 2011 letter to the City from Robert Rubin sent by Councilmember Becker, no other information was received; therefore, there was no additional information to include in a revised report. Therefore, the only CVRA history on file is the one provided in Attachment 3.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

There is no fiscal impact associated with this report other than administrative staff time.

COORDINATION

This report was coordinated between the City Attorney's Office and the City Manager's Office.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>>.

2. Review the provided history and background and provide feedback on what should be posted on the Open City Hall survey as a history.

ITEM # 11

To the people of the City of Santa Clara,

July 11, 2021

In 2011, the City of Santa Clara received a letter and was advised that its at-large by-seat election system was infringing on the voting rights of the City's Asian American citizens which at the time made up 39% of the city's residents. The City of Santa Clara is a minority-majority city, yet Santa Clara didn't have a single minority Council Member since the Charter was approved in 1952.

The Council dismissed the concerns of a demographer's analysis which concluded the city was in jeopardy of a costly California Voting Rights Act (CVRA) lawsuit.

For the next six years City continued to ignore legal advice that the City remained in jeopardy. In 2016 before the elections, the city tried to avoid the fact that Santa Clara had received a letter threatening a CVRA lawsuit.

In 2017, the lawsuit we feared was filed. Instead of acknowledging the wrongdoing that had been done to Santa Clara's Asian American residents, the City chose to fight the lawsuit, insisting that not having a minority Council Member didn't prove that minorities were disadvantaged by the at-large system.

In 2018 Santa Clara lost the lawsuit. The judge ordered Santa Clara to adapt to 6 districts to elect council members and faced \$3.1 million to be awarded to the plaintiff's attorneys and over \$700,000 in its own legal bills. In result the city appealed the verdict and didn't back down.

In the end the city lost the appeal and their argument. After 10 years, the city owed the plaintiffs' attorneys over \$4 million in legal fees and paid \$1.5 million to its own attorney. Since going to districts Santa Clara has elected three minorities to council.

The Santa Clara City Council past and present owes an apology to its minority-majority population for clinging to a system that prevented them from exercising their rights under the Constitution to elect representatives of their choice.

The Santa Clara City Council also owes an apology to all of its residents for wasting over \$5 million that could make a difference in the City's fiscal circumstances right now.

We humbly offer those apologies today, and hope that with the support and participation of all our community, we will live up to our democratic ideals and truly make Santa Clara the center of what's possible for all our residents.

Sincerely,

The Santa Clara City Council and the City of Santa Clara.

REPORT TO COUNCIL

SUBJECT

Report from the City Attorney on California Voter Rights Act (CVRA) Litigation (Continued from May 25, 2021)

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

The Council has requested a report on the City's expenditures with respect to defending the Yumori-Kaku v. City of Santa Clara litigation (CVRA litigation). Because the reasonableness of the expenditures cannot be assessed without a completely transparent disclosure of the events that occurred throughout the litigation, I have attached to this report a Chronology of the key dates that are tied to the expenditures of the City and of the plaintiffs, respectively.

In order to draw conclusions about when litigation costs could have been avoided in the course of a lawsuit, it is critical to understand the difference between lawsuits in which the City is a defendant and lawsuits in which the City is the plaintiff.

Most of the time that the City becomes a party to litigation, it is the result of another party filing a complaint against the City as a defendant. When this happens, the City cannot terminate the litigation unilaterally. It must either participate in the litigation through trial in an effort to obtain a verdict in its favor, or convince the plaintiffs to settle the case and dismiss the complaint against the City.

When the City takes the very rare step of suing another entity or person, it serves and files a complaint on a defendant. In such cases, the City can unilaterally terminate such litigations by simply filing a dismissal of the complaint. Usually, this step will only occur if there is some type of settlement with the defendant. This was **not** the case in the CVRA litigation. Therefore, once the plaintiffs sued the City, the City was not in control of terminating the litigation.

The CVRA was a lawsuit that was brought against the City as defendant. Thus, the plaintiffs had the upper hand as to when and how the litigation could be terminated. As will be explained in detail in this report, until February 2021 the CVRA plaintiffs never offered to dismiss their case or otherwise enter into a settlement that was acceptable to the City Council. Thus, despite two separate ballot measures proposed by the two Charter Review Committees to end the at-large by-seat voting system, plaintiffs opposed these solutions to end the litigation.

DISCUSSION

The City of Santa Clara has been addressing the issue of changing the way it elects its Council

members since as early as 2011 when it first received a letter from Robert Rubin, one of two lawyers in California who has extensively threatened litigation under the provisions of the California Voter Rights Act (CVRA). Attached to this report is a Chronology of the events regarding the City's efforts.

In reaction to the receipt of Mr. Rubin's 2011 letter, the Council empaneled the first of what would grow to be four Charter Review Committees to conduct a public process to consider ballot measures to amend the City Charter. Although there was sentiment to move away from the numbered seat system in the City Charter and explore a ranked-choice voting system, the 2011 Charter Review Committee ultimately did not propose charter amendment to put on the 2012 ballot.

The next consideration of changing the City Charter began in October of 2015 when, after a recommendation from the Ethics Committee, the City Council convened another Charter Review Committee to consider amendments. The 2015 Charter Review Committee recommended 4 charter amendments all of which passed, but did not recommend an amendment to change the City's system for electing council members. It is unclear what the impetus for the creation of this Committee was because there is no record of a letter from Mr. Rubin until October of 2016, just before the November 2016 election.

After the election, which failed to elect Asian American candidates in city-wide elections, Mr. Rubin inexplicably withdrew his threat to sue to prevent the seating of the white candidates who had opposed the minority candidates that lost.

The next Charter Review Committee to take on conducting a public process to consider amendments to the City Charter was created by the City Council on April 11, 2017.

The 2017 Charter Review Committee consider several different possible charter amendments. There was virtually no public input indicating a desire to keep the at-large by-seat election process. In a unanimous recommendation, the Charter Review Committee unanimously recommended Measure A which the City Council unanimously approved putting on the June 2018 ballot. Measure A would have created two council districts represented by 3 council members each to be elected using a ranked-choice system of voting.

In October 2017, Mr. Rubin sent another letter to the City Council demanding that City Council members be elected by a district system rather than the at-large system in the City Charter. Despite the fact that there was a clear indication that Santa Clarans were interested in moving away from the current numbered-seat city-wide Charter provisions for electing its council, in December 2017 Mr. Rubin, GDBH and the Asian Law Alliance filed a complaint against the City of Santa Clara demanding a judicial change to the City's at large election system and seeking attorney fees under the CVRA. The judge in the CVRA case, Superior Court Judge Thomas Kuhnle, bifurcated the litigation into two phases. The first phase was to determine liability, i.e. whether the City's at-large Charter provisions denied protected classes of voters of Asian ancestry from electing representatives of their choice. The liability phase of the trial proceeded in parallel with the campaign period for the June 5, 2018 election at which Measure A was on the ballot.

It was believed that if Measure A would have passed, there was a substantial possibility that Judge Kuhnle would decide that the CVRA lawsuit was moot because the charter provision at issue in the case would no longer be in effect. Indeed, Judge Kuhnle held off on finalizing his Statement of

Decision on the liability phase of the trial until June 6, 2018, the day after the election on Measure A. It also appeared that plaintiffs also believed that the passage of Measure A would have ended their lawsuit because during the campaign, their representatives reportedly urged a “no” vote “so that they would win the lawsuit.”

During the motions regarding the award of attorneys’ fees for the case, it was revealed that plaintiffs’ law firm expended approximately \$50,000 in unreported campaign in-kind services against the passage of Measure A. If the judge had declared the plaintiffs’ case moot by reason of the charter having been amended, the litigation would have ended, limiting both the City’s costs, as well as creating the very real possibility that the City would have not be obligated to pay plaintiffs’ fees and costs. In this case, the City’s costs might have been limited to the \$500K to 700K range.

After receiving the election results indicating that Measure A had not passed, the CVRA litigation proceeded to the “remedies” phase. Judge Kuhnle ordered the City to engage in a “districting” process that involved a series of public hearings that paralleled the provisions of the state Elections Code. Recognizing that there would not be sufficient time to adhere to the strict provisions of the Code, the judge’s order imposed a series of public hearings on a very tight time frame in July 2018 in order to have an order mandating district elections in time for the November 2018 election.

In compliance with the judge’s order the City Council convened a districting committee to draw up alternative maps for the judge to consider in creating a by-district voting system. Ultimately the court ordered the City to adopt the six-district map that the districting committee had recommended, and the 2018 and 2020 elections were held using this map.

On August 15, 2018, the City filed an appeal of Judge Kuhnle’s decision.

The Council also placed Measure N on the November 2018 elections. Measure N was an advisory measure that asked the voters the following question:

Shall the City of Santa Clara engage the voters in a public process to draft a Charter Amendment ballot measure to elect its Council Members, other than the Mayor, by district?

Measure N received a 70% yes vote. In response to the voters’ approval of Measure N, the City Council convened a Charter Review Committee to conduct robust public outreach to determine what type of district election system should be proposed for a Charter Amendment. The Charter Review Committee recommended that the Charter be amended to proceed with the six-district system for the 2020 election, but then transition to a three-district system with two council members to represent each district to be elected at alternating elections.

In January 2019 plaintiffs moved for an award of their fees and costs as prevailing parties in the litigation. The City moved to reduce their requested award of \$4.1 million. The City’s outside counsel spent approximately \$163K in successfully reducing the amount of the fees to \$3,164,955.61, producing a net savings of \$1,073,100.14.

Following the filing of the appeal, plaintiffs moved for a calendar preference in the Court of Appeal which issued an order stating the it would decide the case by March 10, 2020.

It was believed that if Measure C had passed, it would have rendered the appeal moot, ending the litigation. On February 1, 2019, Richard Konda sent a letter to the 49ers asking them to fund a campaign against Measure C. A copy of Mr. Konda's letter is attached to this report. Ultimately, Jed York spent almost \$700K to defeat Measure C, which would prevent the possibility of the Court of Appeal dismissing the case on the grounds of mootness. A dismissal of the case on the ground of mootness could have resulted in limiting the City's expenses to its own outside counsel expenses, as well as gaining substantial leverage in settling with the plaintiffs on the question of paying their costs.

Although the Court of Appeal had issued an order that it would rule on the appeal by March 10, 2020, it was not until November 2020 that it set December 17, 2020 as the date for oral argument.

The November 2020 election was held in accordance with the trial court order with four council members elected from districts under the court-ordered map.

The Court of Appeal held oral argument in the case on December 17, 2020 and issued its ruling on December 30, 2020. The Court upheld the trial court's decision that the City Charter sections providing for a city-wide numbered-seat election system for council elections to be in violation of the CVRA.

On February 12, 2021, the City paid plaintiffs' fees and costs in the amount of \$3,830,090.21 that had been awarded in Amended Judgment for the trial phase of the litigation.

On April 21, 2021, the City and plaintiffs entered into a settlement agreement requiring the City to pay the plaintiffs an additional amount of \$712,500 for their fees and costs on appeal. The settlement agreement requires the City to place a charter amendment on the June 2022 ballot to change its charter provisions from the city-wide system to a six- district system for the election of its council members.

Expenditures

The City's total expenditures to outside counsel in connection with the CVRA matter was approximately \$1.5 million. Those expenditures included approximately \$105K in prelitigation advice with respect to potential charter amendments (Measure A), \$750K in litigation costs through trial, \$163K in expenditures to reduce plaintiffs' attorneys fees award; \$12K in expenditures for advice associated with Measure C; \$430K in fees and costs on the appeal; and \$40K expended on post-appeal settlement efforts.

The total amount of payments to plaintiffs to satisfy the judgments that City Council agreed to was \$4,542,590.21. This included payment of \$3,830,090.21 in satisfaction of trial court judgment inclusive of fees and costs and interest, and an additional \$712,500 for plaintiffs' fees and costs on appeal.

CONCLUSION

Several false narratives advanced against the City Council's decision-making process in defending the CVRA lawsuit warrant correction:

- In defending against the litigation, the Council was motivated by its desire to defend the voters of Santa Clara against the claim that they had elected council members in a racially polarized manner under the at-large provisions of the City Charter. The Council was not attempting to preserve the at-large system in the Charter; it had consistently taken the position that it would ask the voters to amend the Charter to move away from an at-large system to a district-based system.
- Measures A, N and C are all evidence of the City Council's position that it was not seeking to preserve the Charter's at-large election system.
- The City Council was also committed to an inclusive public process in the form of convening two Charter Review Committees to hear from the public about what type of election system to transition to. The Council adopted the recommendations of each of the Committees as to how the Charter should be amended; the Council did not assert its political preferences over the Committee recommendations in placing these measures on the ballot.
- Finally, with the intervention of \$50K in opposition to Measure A, and \$700K in opposition to Measure C by outside parties in alignment with plaintiffs, one could easily draw the conclusion that it was plaintiffs, rather than the City Council, that achieved preservation of the Charter's at-large voting system. Ironically, plaintiffs now concede that a vote of the people is required to amend the Charter provisions in order to bring Santa Clara in alignment with the requirements of the CVRA.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>> or at the public information desk at any City of Santa Clara public library.

Mr. Rahul Chandhok
San Francisco 49ers
4900 Marie P DeBartolo Way
Santa Clara, CA 95054

Dear Mr. Chandhok:

First, we'd like to wish the team good luck tomorrow. What a great accomplishment to reach the Super Bowl this year. Congratulations.

My purpose in writing is to request the 49ers organization help to defeat Measure C in Santa Clara placed on the ballot for the March election. I write on behalf of Reverend Jethroe Moore II of the San Jose- Silicon Valley NAACP, Victor Garza of La Raza Roundtable and former State Assemblyman Paul Fong.

As a valued community organization in Santa Clara, we know the 49ers share our collective and steadfast belief that we can build strong and healthy communities when all of our voices are heard and represented. For that reason, we urge you to join us in our fight to defeat Measure C.

Measure C would amend the Santa Clara city charter to reduce City Council districts from six to three, with the consequence of disenfranchising minority and underserved communities. To be clear, if passed, Measure C would institutionalize anti-democratic elections in Santa Clara that would deny many in the community equal representation on the City Council—a fact that has been affirmed by the Santa Clara County Courts.

In 2018, the Santa Clara County Superior Court ruled that the city's at-large election system was a direct violation of the California Voting Rights Act. Furthermore, the Court mandated Santa Clara adopt a six-district election system that guarantees that members elected to the City Council live and reflect the needs of the communities they serve.

In nearly 40 years, Santa Clara has only elected one non-white City Council member. And that member was elected under the new system of six council districts. Santa Clara's economic and cultural vibrancy is enhanced by its rich diversity. There is no doubt that there is a better democracy and a better Santa Clara when that diversity is reflected and represented in local government.

Measure C is bad for democracy and bad for Santa Clara. Nevertheless, there are those who want to maintain the antiquated and illegal system of government for political power motives. These individuals are invested in the passage of Measure C. We simply cannot allow that to happen.

We hope that you will join us publicly and with resources to reach the voters in ensuring Measure C is defeated on March 3, 2020.

We look forward to discussing this further.

Sincerely,

Richard Konda

Thank you City Council and Mayor for supporting RJJT. I had a comment about the \$20 flat rate ticket fee: im not sure it is equitable to have such a high price (more than a movie ticket) for families to come see a community theatre show. I hope we can find a way to make theatre more affordable for all audience members and theatre participants in Santa Clara.

No cuts to public safety! If our city was really in such a bad way, we wouldn't still be trying to hire more positions in the City Manager's office. How do you justify hiring there, yet not in other departments? Give the residents the level of service they deserve in this city, a fully staffed police department and fire department.

The fact that this continues to be pushed and argued is quite ridiculous. The city and Green Waste are already in contract. This was already voted upon by council, and the city staff has moved forward based on that vote. THIS IS HOW A DEMOCRACY WORKS! If the current city council does not like the result, then they must wait until the current contract ends before a new negotiation can take place. Please stop this nonsense and move forward. This council is becoming an absolute embarrassment.

The waste fee increase will have a large impact on many families within the city and should be investigated further prior to signing a long term contract. I understand the state has put additional requirements on local entities to sort garbage. The trial wasn't received well but many did not understand why there was a change or that the impact of not complying with the new requirements would result in massive fee increases. Please work on alternatives before signing. SC needs to get creative!

Councilmember already apologized. And quite honestly this whole situation was blown completely out of proportion just because others told a certain councilmember he should be offended. As far as Mayor Gillmor is concerned, this had nothing to do with here and she should have never been dragged into this. It's time to move along already. Especially since other councilmembers shouldn't throw any stones at glass houses.

In response to my report to Council on the CVRA litigation on June 8, 2021, Council directed that I bring the report back to Council with additional information that several councilmembers thought should be included in a revised report. I requested that interested Councilmembers send me the information that they wanted me to put into the report. The following is an excerpt from the Council discussion:

REPORT TO COUNCIL

SUBJECT

Action on Formalization of the Bicycle and Pedestrian Advisory Committee (Deferred from November 9 and 16, 2021)

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

The Bicycle and Pedestrian Advisory Committee (BPAC) is an advisory body to the City Council on matters relative to modifying or expanding the City's recreational and commuter bikeway system. The BPAC's goal is to encourage recreational and commuter bicycling by promoting safe, convenient, well-designed facilities and by evaluating local bicycle-related projects. The purpose, membership, and policies/procedures were established through City Council's past approval of the BPAC's Policy Guidelines, with the most recent version being amended by City Council on March 25, 2014 (Attachment 1).

The Governance and Ethics Committee (Committee) provided direction to staff at the September 14, 2020 meeting to formalize policy guidelines for the BPAC. Although the City Council approved the formation of the BPAC and the BPAC Policy Guidelines, there is no City Code section specifically addressing it. The Committee requested that an ordinance be considered to amend the City Code to clearly set forth the composition of the membership and the scope of the BPAC's jurisdiction. The Committee directed staff to bring back a recommendation on formalizing the BPAC through a draft ordinance that reflected the input of both the BPAC and the Committee.

Over the course of the next six months staff engaged the BPAC on multiple occasions to provide a framework for the proposed ordinance and solicit feedback from members. These engagements took place on October 26, 2020, December 10, 2020, and January 25, 2021. During these meetings the proposed changes to the City Code were refined and the BPAC policy guidelines were updated to align with all other City Boards, Commissions, and Committees. The BPAC also formed a special Subcommittee to review the changes and provide further input and recommendations.

At the March 29, 2021 Governance and Ethics Committee meeting (Attachment 2), staff presented the updated draft City Code amendments, draft policy guideline revisions, and analysis of BPAC's requested changes. The Committee discussed several topics, including:

1. Removing qualified elector requirements for other boards and commissions;
2. Requiring members of BPAC to file Form 700;
3. Whether or not the Chair should be a Councilmember or a BPAC member;
4. Possibly creating a new BPAC Advisory Committee to specifically advise and discuss bicycle and pedestrian topics. The new advisory committee would not be members but would report to

- the BPAC. This would not require additional staff support;
5. Reducing the number of BPAC members and discussion about having representation in Council Districts; and
 6. Whether BPAC should continue to interview applicants to fill vacancies or if Council should interview and select similar to other Boards and Commissions.

DISCUSSION

In researching how to formalize the BPAC per the Committee's direction, staff has determined that several existing BPAC policies and procedures are different than other City Boards, Commissions, and Committees. Some of these differences include the BPAC application and interview process; how members are appointed; and the term of office. In order to formalize the BPAC to make it more consistent with other Boards and Commissions, changes are being proposed to the City Code (to be enacted by ordinance) and the BPAC Policy Guidelines to align with all other Boards, Commissions, and Committees. Table 1 below summarizes the existing and proposed BPAC procedures.

Table 1. Existing and Proposed BPAC Procedures

| Item | Existing BPAC Reference | Proposed BPAC Reference | Other Boards Commissions, Committees |
|-----------------------------------|---|--|--|
| Purpose and Membership | BPAC Policy Guidelines | City Code Chapter 2.120 | City Code Chapter 2.120 |
| Membership term and meeting rules | BPAC Policy Guidelines | City Charter | City Charter |
| Membership appointment | Public Works solicits applications, BPAC interviews applicants and recommends appointments to Council | City Clerk procedures and Council interviews and appoints applicants | City Clerk procedures and Council interviews and appoints applicants |

The draft City Code amendments relate to City Code Chapter 2.120 Boards and Commissions and will establish the existence, purpose, and membership of the BPAC. Including the BPAC within the City Code will make it consistent with how other Boards, Commissions, and Committees have been established. The draft revisions to the BPAC Policy Guidelines will modify procedures to follow membership terms and meeting rules established within the City Charter and to follow the City Clerk's procedures to appoint members.

At the March 29, 2021 Governance and Ethics Committee meeting, the Committee did not vote on the draft policy guidelines or draft City Code amendments, but did vote on the following:

- Member Eligibility - BPAC members be at least 18 years of age, live or work in the City, and do not have to be a qualified elector of the City.
- Membership - BPAC to consist of seven members instead of nine and phase in this change so no current member loses their position during the current term.
- Applications and Appointments - Council to consider whether to continue having BPAC interview applicants, vote for applicants, and make recommendations to Council; or whether Council should interview applicants and make selections similar to other Boards and

Commissions

- BPAC Chair - Council to consider whether to continue the practice of having a Councilmember Chair, or whether BPAC should elect their own Chair from the seven members.

Additional information on these changes, as well as a staff recommendation for each item, are provided below.

Member Eligibility

Both the BPAC and the Committee requested that the draft City Code amendment state that members shall be at least 18 years of age and live or work in the City. Therefore, unlike other Boards and Commissions, BPAC members would not have to be a qualified elector of the City. This requirement is in alignment with the Metropolitan Transportation Commission (MTC) Resolution requiring the City to create a BPAC and is similar to the current practice of the BPAC; however, the BPAC did recommend adding a new requirement that members be at least 18 years of age.

Upon review, allowing members who live or work in the City may capture more input from those who directly utilize City bicycle and pedestrian facilities, which provides additional perspectives and valuable input to the BPAC. Therefore, staff supports incorporating this request into the draft City Code amendment.

BPAC Membership

The Committee discussed options for reducing the number of BPAC members to either seven or five. Ultimately, the Committee voted to recommend reducing BPAC membership from nine members to seven. The Committee also recommended “grandfathering” in existing members until the expiration of current terms.

Upon reviewing the number of BPAC members in neighboring cities of similar size, staff confirmed the following: the cities of Milpitas and Mountain View have five members and the city of Sunnyvale has seven members. Based on this information staff supports incorporating this request to limit BPAC members to seven in the draft City Code amendment.

Applications and Appointments

The BPAC requested that they continue to review membership applications, interview applicants, vote for applicants, and make recommendations for appointments to Council. The Governance and Ethics Committee members discussed the appointment process but had no preference on whether the City Council or BPAC should interview applicants.

As shown in Table 1, the BPAC is the only City Board, Commission, or Committee that does not follow the City Clerk’s procedures and rules for member appointments. The intent of revising the BPAC Policy Guidelines is for BPAC to align more with other City Boards, Commissions, and Committees. In addition, this nuance proved to be a point of controversy amongst the group when the BPAC recently interviewed and voted for new members and potential conflict of interest issues were raised. Making the BPAC process consistent with the other boards and commissions will help to alleviate these types of issues in the future. Staff reviewed neighboring cities of similar size and the process for selecting members in Mountain View, Milpitas, and Sunnyvale involves the mayor and/or councilmembers interviewing and approving BPAC members.

Upon review, the establishment and purpose of BPAC is similar to other Boards, Commissions, and Committees. Staff recommends draft revisions to the BPAC Policy Guidelines that Council interview and select BPAC applicants to follow the City Clerk's procedures and rules for appointments to align with other Boards, Commissions, or Committees.

BPAC Chair

The BPAC requested to elect its own Chair, similar to how the Chair of the Planning Commission is appointed. Currently a Councilmember serves as Chair of the BPAC and this has proved helpful to frequently clarify the role of the BPAC to members, and to run meetings in an efficient, orderly manner. This has been very valuable in keeping meetings focused, managing the agenda, informing members of Council Policy, and reminding the BPAC members of their roles.

Since the current members of the BPAC were not interviewed by Council, staff does not support making this change now and feels that it is essential to have a Councilmember in the role of BPAC Chair to run meetings in an efficient and orderly manner. However, if Council approves the recommendation that Council should interview and select BPAC applicants, then staff recommends reconsidering BPAC's request to select its own Chair in July 2025. At that time, all the members of the BPAC will be comprised of those who were interviewed and selected by Council.

REPORT TO GOVERNANCE AND ETHICS COMMITTEE

SUBJECT

Review Formalization of the Bicycle and Pedestrian Advisory Committee

BACKGROUND

The Bicycle and Pedestrian Advisory Committee (BPAC) is an advisory body to the City Council on matters relative to modifying or expanding the City's recreational and commuter bikeway system. Its goal is to encourage recreational and commuter bicycling by promoting safe, convenient, well-designed facilities and by evaluating local bicycle-related projects. The BPAC's purpose, membership, and policies/procedures are established through City Council's past approval of the BPAC's Policy Guidelines (Attachment 1), with the most recent version being amended by City Council on March 25, 2014.

At the September 14, 2020 Governance and Ethics Committee (Committee) meeting, the Committee provided direction to staff regarding policy guidelines for the BPAC under Item 2 ("Discussion and Consideration of Approving a New Boards, Commission and Committee". Although the City Council approved the formation of the BPAC and the BPAC Policy Guidelines, there is no City Code section addressing the BPAC. The Committee discussed an option that an ordinance be considered to clearly set forth the composition of the membership of the BPAC and the scope of the BPAC's jurisdiction. The Committee directed staff to bring back a recommendation on formalizing the BPAC through an ordinance, that reflects the input of both the Committee and the BPAC, to the December 7, 2020 Committee meeting.

To formalize the BPAC through amendments to the City Code, staff prepared a report for the BPAC's consideration that included the proposed changes to the City Code (to later be enacted by ordinance) and updated the BPAC Policy Guidelines to align with all other boards, commissions, and committees. At the October 26, 2020 BPAC meeting, staff presented the report, draft City Code amendments and draft policy guidelines revisions. The BPAC members provided numerous comments as individuals, declined to vote to approve or modify staff's recommendations, and formed a special BPAC Subcommittee to review the changes. Staff reviewed and incorporated changes to reflect comments shared by multiple BPAC members from the October 26, 2020 BPAC meeting. This included the BPAC's purpose to oversee encouragement programs as well as the maintenance of the bicycle and pedestrian transportation systems.

At the December 7, 2020 Governance and Ethics Committee meeting (Attachment 2), staff provided an update to the Committee on formalizing the BPAC and recommended deferral of the item based on the upcoming BPAC subcommittee review of the proposed changes to the City Code and BPAC Policy Guidelines. The Committee accepted staff's recommendation for deferral and directed staff to return to the Committee in March 2021 for further updates.

At the December 10, 2020 BPAC meeting, BPAC Subcommittee members provided individual reports to staff and the full BPAC. The BPAC Subcommittee stated they did not come to a full agreement on all their proposed changes or comments.

DISCUSSION

In researching how to formalize the BPAC per the Committee's direction, staff has determined that several existing policies and procedures utilized by the BPAC are different than other boards, commissions, and committees. Some of these differences included the BPAC application/interview process, how members were appointed, and the term of office. In order to formalize the BPAC and make it more consistent with other Boards and Commissions changes are being proposed to the City Code (to later be enacted by ordinance) and the BPAC Policy Guidelines to align with all other boards, commissions, and committees. Below is a summary table (Table 1) for the existing and proposed procedures.

Table 1. Existing and Proposed BPAC Procedures

| Item | Existing BPAC Reference | Proposed BPAC Reference | Other Boards Commissions, Committees |
|------------------------------|--|--|---|
| Purpose | BPAC Policy Guidelines | City Code Chapter 2.120 | City Code Chapter 2.120 |
| Membership and meeting rules | BPAC Policy Guidelines | BPAC Policy Guidelines referencing City Charter Article X | City Charter Article X |
| Membership appointment | Public Works solicits applications and BPAC reviews applications, conducts interviews and makes recommendations for Council approval | BPAC Policy Guidelines referencing City Clerk procedures and Council interviews applicants | City Clerk procedures and Council interviews applicants |

At the January 25, 2021 BPAC meeting (Attachment 3), staff presented updated draft City Code amendments and draft policy guidelines revisions based on past discussions for final BPAC consideration.

The draft City Code amendments are related to City Code Chapter 2.120 and will establish the existence and purpose of the BPAC. Including the BPAC within the City Code will provide consistency with how other Boards, Commissions, and Committees have been established.

The draft revisions to the BPAC's Policy Guidelines will change procedures to follow rules established within City Charter Article X ("Appointive Boards and Commissions"), except for electing its own Chair, and to follow the City Clerk's procedures to appoint members.

The BPAC voted in support of the recommended draft City Code amendments and draft policy

guidelines revisions with four requested changes.

1. Member Eligibility - BPAC members to be at least 18 years of age, live or work in the City, and do not have to be a qualified elector of the City.
2. Applications and Appointments - the BPAC to review membership applications, interview applicants, vote for applicants, and make recommendations to Council
3. BPAC Chair - the BPAC to elect their own Chair instead of the Chair being a Councilmember
4. Meetings - the BPAC to have a minimum of 8 meetings, 12 preferred, each year

These four requests were discussed at the meeting and below is more information on the request as well as a staff recommendation for each item.

1. Member Eligibility - Staff reviewed the BPAC's request not to change member eligibility requirements which include living or working in the City and not having to be a qualified elector of the City. This is the current practice of the BPAC and has been in use since the committee's creation in 1991. It is also in alignment with the Metropolitan Transportation Commission (MTC), which requires the creation of a BPAC, and stipulates members may live or work in the City. However, the BPAC did recommend adding a new requirement that members be at least 18 years of age. Staff supports the change requested by the BPAC since members do not need to be qualified electors. Allowing members who live or work in the City may capture more input from those who directly utilize City bicycle and pedestrian facilities which provides additional perspectives and valuable input to the committee. Therefore, staff updated the draft City Code amendment and recommends incorporating this request.
2. Applications and Appointments - Staff reviewed the BPAC's request for the committee to review membership applications, interview applicants, vote for applicants, and make recommendations to Council. As shown in Table 1, the BPAC is the only City board, commission, or committee that does not follow the City Clerk's procedures and rules. The intent of revising the BPAC Policy Guidelines is for BPAC to align more with all other boards, commissions, and committees. In addition, this nuance proved to be a point of controversy amongst the group when the BPAC recently interviewed and voted for new members and conflict of interest issues were raised. Making the BPAC process consistent with the other boards and commissions will help to alleviate these types of issues in the future. Based on this information staff did not support the request and it is not included in the proposed revisions.
3. BPAC Chair - Staff reviewed the BPAC's request to elect its own Chair. Currently a Councilmember serves as Chair, helps clarify the role of the BPAC, and runs meetings in an orderly manner. This has proved to be very valuable in trying to keep meetings focused, manage the agenda, inform members of Council Policy, and remind the BPAC members of their roles. Since the current members of the BPAC interviewed themselves, staff feels that it is essential to have a Councilmember in the role of the BPAC Chair. However, if changes are implemented and the BPAC members are eventually composed of members interviewed and appointed by Council, this request could be reconsidered. Staff would only recommend reconsidering this request once all the members of the BPAC are comprised of members who were appointed by Council.

4. Meetings - Staff reviewed the BPAC's request to increase the number of meetings each year from five to a minimum of eight. This request has been made previously, but budget and staffing levels were unable to support the request. Typical meetings average a duration of five hours and require additional upfront work to set agendas, prepare reports, respond to comments and requests, and prepare minutes. Currently, the Public Works Traffic Division has staffing levels sufficient to support the five (5) meetings stated in the policy guidelines. Recently, 22% of the staffing budget was reduced to reach targeted budget savings and it is challenging for staff to support the five planned meetings. Additional meetings will result in a workload that will far exceed the capacity of available resources and would have a significant impact on workload resulting in delays to other duties, such as traffic inquiries/complaints, construction permits, land development applications, analysis, reports and capital projects. Based on this staff is unable to support the request.

Based on this information staff has updated the proposed changes to the City Code and BPAC Policy Guidelines and is recommending the Committee to recommend them for Council approval. See Attachment 4 (clean version with changes) and Attachment 5 (shown in track changes) for the recommended draft City Code amendments. See Attachment 6 (clean version with changes) and Attachment 7 (shown in track changes) for the recommended draft revisions to the BPAC Policy Guidelines.

REPORT TO GOVERNANCE AND ETHICS COMMITTEESUBJECT

Formalization of the Bicycle and Pedestrian Advisory Committee

BACKGROUND

At the September 14, 2020 Governance and Ethics Committee (Committee) meeting, the Committee provided direction to staff regarding policy guidelines for the Bicycle and Pedestrian Advisory Committee (BPAC) under Item 2 ("Discussion and Consideration of Approving a New Boards, Commission and Committee"). Although the City Council approved the formation of the BPAC and the BPAC Policy Guidelines (Attachment 1), there is no City Code section addressing the BPAC. The Committee discussed an option that an ordinance be considered to clearly set forth the composition of the membership of the BPAC and the scope of the BPAC's jurisdiction.

The Committee directed staff to bring back a recommendation on formalizing BPAC through an ordinance, that reflects the input of both the Committee and BPAC, to the December 7, 2020 Governance and Ethics Committee meeting.

DISCUSSION

The BPAC is an advisory body to the City Council on matters relative to modifying or expanding the City's recreational and commuter bikeway system. Its goal is to encourage recreational and commuter bicycling by promoting safe, convenient, well-designed facilities and by evaluating local bicycle-related projects. BPAC's purpose, membership, and policies/procedures are established through City Council's past approval of the BPAC's Policy Guidelines, with the most recent version being amended by City Council on March 25, 2014.

In researching how to formalize the BPAC per the Committee's direction, staff has determined that the existing policies and procedures utilized by BPAC are different than other boards, commissions, and committees. For example, BPAC appointments are made using applications administered by Public Works and then reviewed by BPAC members for the BPAC to make recommendations to City Council.

To formalize the BPAC through amendments to the City Code, staff prepared a report (Attachment 2) for BPAC consideration that included the proposed changes to the City Code (to later be enacted by ordinance) and updated BPAC Policy Guidelines to align with all other boards, commissions, and committees. Below is a summary table (Table 1) for the existing and proposed procedures.

Table 1. Existing and Proposed BPAC Procedures

20-991

Agenda Date: 12/7/2020

| Item | Existing BPAC Reference | Proposed BPAC Reference | Other Boards Commissions, Committees |
|------------------------------|--|---|---|
| Purpose | BPAC Policy Guidelines | City Code Chapter 2.120 | City Code Chapter 2.120 |

| Membership appointment | Public Works solicits applications and BPAC reviews applications, conducts interviews and makes recommendations for Council approval | Policy Guidelines referencing City Clerk procedures and Council interviews applicants | City Clerk procedures and Council interviews applicants |

At the October 26, 2020 BPAC meeting, staff presented the draft City Code amendments and draft policy guidelines revisions. The BPAC provided numerous comments (Attachment 3), declined to vote on staff's recommendations, and formed a special BPAC subcommittee to review the changes. The BPAC subcommittee formed for this Governance item and is scheduled to present their work at the upcoming December 10, 2020 BPAC meeting. It is noteworthy that BPAC has an Annual Work Plan and one of the workplan items for 2021 includes reviewing the BPAC bylaws.

Below is a summary of the proposed City Code amendments and BPAC Policy Guidelines revisions, the BPAC's comments from the October 26, 2020 meeting, and staff's responses to the comments to date.

Proposed City Code amendments relating to the BPAC

Staff had drafted City Code amendments relating to City Code Chapter 2.120 to establish the existence and purpose of BPAC. Including the BPAC within the City Code will provide consistency with how other Boards, Commissions, and Committees have been established.

At the October 26, 2020 BPAC meeting, staff presented the draft City Code amendments to the BPAC. BPAC members provided general comments as listed below:

1. Add "to advise staff in addition to Council."
2. Add "to advise council on maintenance of bicycle and pedestrian systems."
3. Add "to advise on bike and scooter share programs."
4. Add "aid in the development of bike/ped masterplans."
5. Add "transportation policies" to the policies that the BPAC considers when the BPAC review projects.
6. Add "Vision Zero, Climate Change, and Greenhouse gas policies to be included in the BPAC's roles and responsibilities."
7. Include "Communities of Concern" as a focus for BPAC's review of projects/programs.

Upon review and analysis of BPAC's comments, staff updated the draft City Code amendments to incorporate comments #2, #3, and #6. Staff does not propose to incorporate the other BPAC recommended changes as BPAC is not authorized to advise staff on work direction (#1), does not work directly on bike/ped masterplans or develop planning documents (#4), does not currently review projects for other transportation policies (i.e. such as Vehicle Miles Travelled or Level of Service) and instead focuses on Complete Streets Policy review (#5), and "Communities of Concern" have been factored into the prioritization of projects within the City's Bicycle Plan and Pedestrian Plan and further review is not warranted (#7). Incorporation of these suggestions would result in a governance issue with respect to how staff is directed to implement policy from the City Council, which would set precedent and also may conflict with future policy making. See Attachment 4 for the updated proposed City Code amendments based on staff's review of BPAC's comments from the October 26, 2020 BPAC meeting.

BPAC Policy Guidelines Revision

Staff drafted proposed revisions to the BPAC's Policy Guidelines to follow rules established within City Charter Article X ("Appointive Boards and Commissions") and to follow the City Clerk's procedures to appoint members. At the October 26, 2020 BPAC meeting, staff presented the proposed revisions to the BPAC Policy Guidelines to the BPAC. BPAC members provided general comments as listed below:

1. BPAC should be a Commission instead of a Committee
2. BPAC should elect the BPAC chair vs. the chair being a Councilmember

Upon review and analysis of the BPAC's comments, staff does not propose to incorporate BPAC's comments into the proposed revisions to the BPAC Policy Guidelines as the intent of updating the Policy Guidelines is not to change to a commission (#1) or elect its own Chair (#2). The intent is for BPAC to follow the same rules as other boards, commissions, and committees, such as:

- Membership terms are four years and start on July 1
- Action requires a vote of a majority of the entire membership
- Members must be a qualified elector (defined as a citizen eligible to vote)
- Appointments are made using applications administered by the City Clerk and interviews with Council members

See Attachment 5 for the proposed revisions to the BPAC Policy Guidelines.

BPAC Subcommittee related to Governance

At the October 26, 2020 BPAC meeting, the BPAC formed a subcommittee to review in more detail the proposed City Code amendments and Policy Guidelines revisions. The subcommittee will present its work at the upcoming December 10, 2020 BPAC meeting. The full BPAC and staff will receive and review the subcommittee report and staff will prepare and present a staff analysis at the January 25, 2021 BPAC meeting. The intent is for staff to thoroughly review the subcommittee report and take into consideration the Governance and Ethics Committee's comments from the December 7, 2020 meeting.

Agenda Date: 12/7/2020

Governance and Ethics Committee Alternatives

Section 1. Purpose

The purpose of the BPAC is to serve as an advisory body to the City Council on matters relative to modifying or expanding the City's public recreational and commuter bikeway and pedestrian walkway system. Its intent shall be to encourage recreational and commuter bicycling and walking in the City by promoting safe, convenient, well-designed facilities, and by evaluating local bicycle and pedestrian related projects.

Section 2. Membership

The BPAC is comprised of nine (9) regular members as appointed by the City Council. The Chairperson or alternate will be the Mayor or Councilperson designated by City Council and shall be considered a member. The remaining eight (8) members shall be citizens at large with a representative from the following groups strongly encouraged to be members: Santa Clara Unified School District and the Silicon Valley Bicycle Coalition. BPAC members must either reside or work in the City of Santa Clara.

Section 3. Term of Office and Removal

The term of office for BPAC members will be three years.

Members may be re-appointed but will be considered along with all other new applicants.

To allow for staggered terms, 2 members appointed by City Council in November of 2011 will have a term of office expiring on December 31, 2014, 3 members appointed in November of 2012 will have a term of office expiring on December 31, 2015, and 3 members appointed on November of 2013 will have a term of office expiring on December 31, 2016.

Any members of the BPAC may be removed from office by a majority vote of the City Council at a regularly scheduled Council meeting.

Section 4. Vacancies

Vacancies will be filled for the unexpired portion of the term, of the member being replaced, in the same manner as the original appointment.

Section 5. Meetings

The BPAC shall hold meetings on the third Wednesday in January, March, June, August and October at 4:00 p.m. at City Hall. The actual date of meeting can be changed or additional meetings can be approved by a quorum of the committee. All meetings shall be open to the public and notices and agendas shall be posted at City Hall as required by law.

Section 6. Quorum

Any five members shall constitute a quorum for voting on action items.

Section 7. Voting

Only the appointed BPAC members have voting authority. The committee shall determine the voting procedure for items prior to voting.

Section 8. Duties of BPAC to be Advisory Only

It is intended that the BPAC shall be an advisory committee to the City Council. Nothing herein contained shall be construed as a limitation on the power of the City Council or the administrative staff of the City in their supervision or authority over property or personnel, which are under their jurisdictions.

Section 9. Assistance of Staff

The City Manager of the City of Santa Clara shall provide the BPAC with information and staff assistance but the BPAC's requests may from time to time be prioritized subject to staff limitations. The City Manager has appointed the Director of Public Works and the Chief of Police or their designees to staff the BPAC.

Section 10. Code of Ethics and Values

The City of Santa Clara adopted a Code of Ethics and Values to provide clear, positive statements of ethical behavior reflecting the core values of the community. The actions and words of members of City's boards, commissions and committees should represent the community's values: ethical, professional, service-oriented, fiscally responsible, organized, communicative, collaborative, and progressive.

Section 11. Amendments

REPORT TO BICYCLE AND PEDESTRIAN ADVISORY COMMITTEE

SUBJECT

Governance Committee Findings (Liw)

BACKGROUND

At the September 14, 2020 Governance and Ethics Committee (Committee) meeting (item 20-313, Attachment 1), the Committee provided direction to staff to formalize the Bicycle and Pedestrian Advisory Committee (BPAC). As a result, the Committee recommended staff to coordinate with the BPAC to draft an ordinance to update the City Code and to also update the BPAC Policy Guidelines.

DISCUSSION

The City currently has several boards, commissions, and committees (Commissions). While the BPAC has policy guidelines that have been approved by the City Council, there is no reference to the BPAC within the City Code and Charter. In addition to providing language within the City Code related to BPAC, staff is proposing that the BPAC appoint members and fill vacancies using procedures established by the City Clerk's office to maintain consistency amongst the BPAC and Commissions.

Staff has drafted the proposed language below to update the City Code and the BPAC Policy Guidelines to align BPAC with other City commissions.

2.120.150 Bicycle and Pedestrian Advisory Committee

The Bicycle and Pedestrian Advisory Committee shall consist of nine members. Eight members shall not hold any paid office or employment in the City government and one member is a Council Member serving as Chair. The Bicycle and Pedestrian Advisory Committee shall have the following powers, functions, and duties:

- (a) Act in an advisory capacity to Council on matters pertaining to modifying or expanding the City's public recreational and commuter bikeway and pedestrian walkway system.
- (b) Recommend to Council on the priority of bicycle and pedestrian projects for which the City will seek funding under Article 3 of the Transportation Development Act, and other state, federal, and local funding programs.
- (c) Review and advise Council on comprehensive bicycle and pedestrian master plans.
- (d) Recommend roadway modification per the City's Complete Streets policy.
- (e) Support educational, recreational, and cultural activities for bicyclists and pedestrians

REPORT TO GOVERNANCE AND ETHICS COMMITTEE

SUBJECT

Discussion and Consideration of Approving a New Boards, Commission and Committee Policy

BACKGROUND

At the first quarterly Governance and Ethics Committee (Committee) meeting held on April 25, 2019, the Committee adopted its 2019 quarterly workplan, which included the review of the Boards, Commissions, and Committees policy regarding how business activities are conducted, and meeting attendance.

At the November 21, 2019 Governance and Ethics Committee meeting, the Committee deferred the Boards, Commissions, and Committees policy report to the first 2020 quarterly Governance and Ethics Committee meeting.

At the February 10, 2020, Governance and Ethics Committee meeting, the Committee reviewed a proposed new Boards, Commissions and Committees policy and provided feedback and directed staff to return on September 14, 2020 with a revised version.

Staff has attached the current City Council committees and outside agency committees approved on February 11, 2020, for reference (Attachment 1).

DISCUSSION

The current Boards and Commission policy was approved by Council on July 21, 1998. Staff is recommending it be repealed and replaced with the new version which is more in line with best practices and addresses the Committee's concerns related to absences, code of ethics, conduct, trainings and much more. A redline version is attached with the Committee's requested changes (Attachment 2).

In addition to the redline edits incorporated in the proposed policy, there were additional questions related to:

- Bicycle Pedestrian Advisory Committee (BPAC) membership
- Renaming of the Housing Rehabilitation Loan Committee
- Reinstatement of International Exchange Commission
- Violation of Code of Ethics by member and Council recourse to remove a member beyond absences

Summary of Bicycle and Pedestrian Advisory Committee (BPAC) History

The Citizens Committee on Bicycles was established in 1991. The Citizens Committee on Bicycles was comprised of 7 members (Chair - Councilmember, 1 member at large, 1 PTA representative, 1

SCUSD Administrator, 1 member representing Santa Clara Valley Bicycle Association, and 2 City Staff members [Traffic Engineering and Traffic Lieutenant from the Police Department]). The requirement to serve on the Committee was to either live or work in the City of Santa Clara. The City Council approved the BPAC structure found in their Guidelines (Attachment 3). It does not appear that the City has a City Code section addressing this Committee. If the Governance and Ethics Committee chooses, it may recommend to the City Council to enact an ordinance that clearly sets forth the composition of the membership of the Committee and the scope of the committee's jurisdiction.

Renaming the Housing Rehabilitation Loan Committee

At the February 10, 2020 Governance and Ethics Committee meeting, the Committee inquired about renaming the Housing Rehabilitation Loan Committee (HRLC) to a Commission and noted that a name change may be appropriate given the Council Committee restructuring that was approved by the Council in 2019. As background, on February 5, 2019, the City Council approved the broad restructuring of Committees, which removed the Councilmember position from the HRLC. At that time, staff noted that the HRLC's scope did not require a Council Committee to consider loan approvals since these approvals are administrative in nature and funding has already been approved by the City Council in the annual appropriation of the budget. As part of the proposed change, loan approvals would be strictly administrative and approved by an internal credit Committee, while the restructured and renamed commission (Housing Commission) would include advisory functions related to the administration of the City's Federal entitlement grants and programs, which include neighborhood enhancement, homeless programs, and public service grants. The HRLC is currently comprised of a three-member body of Santa Clara residents. Staff looks forward to adding those new items and reporting quarterly on the loan portfolio to the advisory functions of the HRLC.

In review of the legislative history for the HRLC, it does not appear that the City ever established a City Code section addressing this committee. The Governance and Ethics may recommend to the City Council to enact an ordinance that clearly sets forth the composition of the membership of the Committee and the scope of the committee's jurisdiction.

Reinstatement of International Exchange Commission

At the January 2020 City Council Priority Setting Session, the Council directed staff to evaluate the resources needed to reinstate the International Exchange Commission (IEC).

Staff began researching and assembling information to assist City Council in its decision to reinstate the IEC, which includes administrative, staffing and financial considerations. Due to the impact of the COVID-19 pandemic, international travel to and from our Sister and Friendship Cities for staff and delegations has ceased for the time being.

Currently, there is no timeline for the resumption of international travel; however, staff is prepared to reinstate the IEC in January 2021 when there will be more known information about international travel activity. To that end, Council appointment to the IEC will be integrated with the regular process used by the City Council to appoint members of the Council to boards, commissions, and regional organizations. Because reinstatement of the IEC will impact the powers, functions, and duties of the Cultural Commission, staff proposes bringing the information forward to the Governance and Ethics Committee for review and discussion prior to taking this to the City Council.

Removal of a Member beyond Absences

On February 10, 2020, the Governance and Ethics Committee inquired about what happens if a member was to violate codes of ethics and what the Council's recourse was for removal of members beyond absences.

The City Charter states in Section 1002 "Except as otherwise provided in this article, the members of each of such boards or commissions shall be appointed, and shall be subject to removal, by motion of the City Council adopted by at least four affirmative votes." The Council has not set forth the ground for Council to exercise their power. After review of what other jurisdictions have done to address removal of a member beyond absences, staff has provided below some reasons for Committee consideration.

Potential Reasons for Commission member Removal

The members of each board or commission may be subject to removal by motion of the City Council for the following reasons:

- Failure to maintain eligibility requirements
- Failure to complete required training
- Failure to adhere to Council policy governing board and commission member interaction with City Council, the public, staff, and/or other board or commission members
- Violation of Code of Ethics and Conduct

To provide due process, the Committee may choose to include in the policy a process whereby Council places commission member removal recommendations on a council meeting agenda, and/or at a hearing during an open council meeting.

In addition, there is currently a policy in place regarding complaints received about a commissioner, Policy and Procedure #032 (Attachment 4), found in the Boards and Commissions Handbook.

COORDINATION

Guide for Board, Commissions, and Committee Applicants

**City of
Santa Clara**
The Center of What's Possible

GUIDE FOR BOARD, COMMISSIONS AND COMMITTEE APPLICANTS

A Guide for Board, Commissions and Committee Applicants

The City Charter requires that all members of the Board, Commissions or Committee (referred to collectively as “Commissioners”) be residents and qualified electors in the City of Santa Clara (Section 1004). While membership on a Commission requires no definite qualifications, there are desirable characteristics which the City Council will be looking for as they review applications:

Familiarity with Community:

The City Council expects that all appointees have lived in Santa Clara for at least a year immediately prior to their appointment and are somewhat familiar with the physical, social and economic make-up of the City. Applicants should demonstrate an active interest and involvement in the community.

Familiarity with Major Issues:

While it will be assumed that applicants are familiar with the specific issues that are being addressed by the Commission for which they are applying, it is also expected that applicants are aware of far reaching issues that impact all sectors of City programs and services.

Knowledge of the Commission:

It is assumed that during the application process, applicants will become familiar with the responsibilities and role of the Commission in the City's policymaking structure.

Commitment to Serve:

It is fully expected that appointed Commissioners will serve their full term of office. While personal or professional circumstances might necessitate an unexpected resignation, applicants who are aware of any reasons why they may not be able to complete a full term or attend regularly scheduled meetings, should indicate this on their application. While time commitments will vary depending upon schedules and workload, Commissioners are expected to attend all scheduled meetings and in addition, may be expected to participate in study sessions or serve on subcommittees and attend Special Meetings, as necessary.

Relations with the Community:

The actions of Commissioners will reflect on the City of Santa Clara. Commissioners are expected to relate to the community with impartiality and courtesy, fostering government at its best.

Tips for Applying for a Commission

The application can be found online at www.santaclaraca.gov/commissions.

Type or Neatly Print your Application:

Staff must be able to read your application in order to process it efficiently.

Answer All Questions on the Application:

The City Council reviews your application to get an understanding of your background and experience, and what skills and talents you believe you could bring to a particular Commission. Do not forget to sign your application.

Attend one or two Meetings of the Commission for which you are Applying:

Find out what kinds of issues the Commission is currently facing and what issues may be coming in the future. Review the minutes of the Commission's meetings which are available online and in the City Clerk's Office.

Talk to Commissioners:

Contact the City Clerk's Office or visit the City's website at www.santaclaraca.gov/commissions for a roster of Commissioners. Commissioners can share with you their experience on the Commission, give you an estimate of the time commitment involved in serving, and share with you what they see as current and future issues for the Commission.

Talk to City Staff Liaisons to the Commission:

Listed on the above-mentioned roster is a City staff liaison who is assigned to work with a particular Commission. The City staff liaison is a good resource in learning more about the function and role of serving as a Commissioner. (City staff cannot recommend or lobby for any applicant for a Commission).

Find out City Council's Priorities and Interests:

Attend City Council meetings and review meeting minutes. Contact the City Clerk's Office for a schedule of meetings or visit www.santaclaraca.gov.

Review the Code of Ethics for Appointed and Elected Officials:

Included at the end of this Guide is a copy of the Code of Ethics. Review it and understand that if you are appointed to a Commission, you will be required to abide by it.

Prepare for the Interview:

Although we do not know what specific questions the City Council will ask, it is suggested that you clarify for yourself why you are applying for a specific Commission, understand the role and function of the Commission, and be familiar with the current issues it is examining.

Treat the Interview with the City Council like a Business Interview:

Professional business dress is appropriate. Understand that the City Council is not only considering what experience, skills and talents you bring to a Commission, but also how well you will represent the City.

Application Process/Appointments

When a vacancy on a Commission occurs, the City Manager's Office staff prepares a press release which is distributed to all local media, including the *Santa Clara Weekly*. The vacancy is announced during a scheduled City Council meeting, on the City's Municipal Cable Channel 15, on the City's website and through the City's social media channels. Copies of the announcement are sent to those individuals on the list of interested parties. Anyone may have their name added to the list of interested parties to be notified by contacting the City Clerk's Office or by filling out the interest form found at www.santaclaraca.gov/commissions.

Applications for vacancies are obtained online at www.santaclaraca.gov/commissions or from the City Clerk's Office at 1500 Warburton Avenue. Completed applications can be submitted online at www.santaclaraca.gov/commissions, via email to clerk@santaclaraca.gov or to the City Clerk's Office. The completed applications are forwarded to the City Council in the regular agenda packets for public review. The City Council interviews all applicants (except for the Youth Commission) at a date certain. The official appointment of Commissioners is made at a City Council meeting by at least four affirmative votes of the City Council. Applications will be kept confidential until placed on the Council agenda, at which time applications are made public in their entirety.

Youth Commission applications are distributed and available to middle school and high school students in the City of Santa Clara. The Staff Liaison will coordinate the interview process. A list of recommended applicants and alternates to the Youth Commission will be submitted to the City Council. The Council approves the final selection and appointment of Youth Commissioners.

Term of Office

Commissioners generally are appointed for a four-year term. The City Council may reappoint an existing member or fill the vacancy with a new applicant. The maximum time a Commissioner may serve is two consecutive full terms, except the Youth Commission who serve for a one-year term with a maximum of 4 years (4 terms). If an individual is appointed to fill a partial term he or she may still serve two additional full terms of office. After a lapse of at least two years, an individual is eligible to reapply to serve on the same Commission and the same application process would apply as for individuals who have never served. Individuals may apply to serve on a different Commission once their term of office expires for their current commitment (minutes of City Council meetings 12/1/59 and 10/17/78). The term of office officially begins when the new member takes the oath of office administered by the City Clerk and meets with the Staff Liaison to the Commission. There is no monetary compensation or benefits for Commissioners.

Disclosure Statements - Economic Conflicts of Interests

Disclosure statements must be filed by Planning Commissioners, Civil Service Commissioners and Housing Rehabilitation Loan Committee Members.

Commissioners of these three entities are required to file an Annual Statement of Economic Interests to disclose the investments and interest in real property held and income received each year. Newly appointed Commissioners to these groups must file an Assuming Office Statement that discloses any investments or interests in real property held by the Commissioners on the date he or she assumed office, and during the twelve (12) months prior to the date the office was assumed. All outgoing Commissioners to these groups must also file a Leaving Office Statement when he or she resigns or at the end of his or her term(s).

The City Clerk administers disclosure statements and maintains original file copies of all statements. These are available for public review in the City Clerk's Office. The statements of Planning Commissioners are forwarded to the Fair Political Practices Commission and copies are retained for public review in the City Clerk's Office.

No Contracts with the City:

Commissioners cannot have any contracts with the City. Penalties for violation of Government Code Section 1090 are severe: the contract is invalidated, the individual is disqualified for life from public office, and the individual can be charged with criminal action.

Purpose

How Commissioners Serve the Citizens of Santa Clara

“You make a living by what you get, but you make a life by what you give.”

Winston Churchill

Commissioners play a critical role in the City of Santa Clara. They serve as a conduit for citizen input - a way of gathering, analyzing and recommending options to the City Council which has the final responsibility for making policy decisions. City staff can provide professional and technical expertise and, of course, any citizen can come before the City Council to offer an opinion or make a suggestion. Commissioners provide another important avenue for determining the community's feelings about an issue. The individuals who serve on Commissions are among the most respected and appreciated volunteers in the community.

The formal descriptions of the roles and responsibilities of Commissioners, as set in the City Charter and City Code, are included in the back of this guide. Here is a brief summary of how Commissions serve the democratic process in the City of Santa Clara.

The Purpose of Commissions in Santa Clara is to:

- Hold public meetings and use other means to determine how the community feels about issues related to their respective fields.
- Recommend policies and procedures related to their respective fields to the City Council.
- Serve as an intermediary between the public, City staff, and the City Council by providing information, explanation, and support for different points of view.
- Exemplify the mission statement of City government in Santa Clara which is "to promote a living and working environment that allows for the best quality of life by serving the community with resourceful, efficient, progressive and professional leadership."

City Government Background Information

Putting Commissions into Context

"Those in high places are more than the administrators of government bureaus. They are more than the writers of law. They are the custodians of a nation's ideals, of the beliefs it cherishes, of its permanent hopes, of the faith which makes a nation out of a mere aggregation of individuals."

Walter Lippmann

The City of Santa Clara is a Charter City, incorporated in 1852 under the laws of the State of California. Santa Clara uses a Council-Manager form of government. The City Council serves as the legislative body, sets policies and procedures, and represents the citizens of Santa Clara. The City Manager, as the Chief Executive Officer appointed by the City Council, implements City Council policies and procedures. The City Attorney and the City Auditor are also appointed by the City Council while the City Clerk and the Chief of Police are full-time elected positions. The City Council also serves as the governing board for the Stadium Authority, Sports and Open Space Authority, and Housing Authority, with the City Manager, City Attorney, and City Clerk serving in comparable roles.

City Council

The Santa Clara City Council, the governing body of the City, is made up of six Council Members and a directly elected Mayor, who are elected in a non-partisan election and serve "at large," representing the whole City; not a particular district. The City Council is accountable to the citizens it serves. Elections are held in November of even calendar years except when special elections are held. City Council Members and the Mayor serve four-year terms and each may serve a maximum of two consecutive terms. Four council terms are up in one election; two other council terms and the Mayor's term are up two years later.

The City Council formulates policies, approves programs, appropriates funds and establishes local taxes and assessments. The decisions of the City Council are reached by a majority vote. The City Council enacts local laws (ordinances) and regulations for governing of the City. The local ordinances adopted by the City Council are in the City Code. Other City Council directives and policies are recorded in resolutions or council minutes.

The Santa Clara City Council generally meets twice per month, separately but concurrently with the Santa Clara Stadium Authority, Sports and Open Space Authority and City of Santa Clara Housing Authority. Meetings generally start in the evening at various times between 5:00 pm and 7:00 pm. Copies of the concurrent City Council agenda are available 72 hours before the meetings at the City Clerk's Office, Central Park Library, Mission Library Family Reading Center, Northside Branch Library and on the City's website www.santaclaraca.gov/commissions. Agenda packets, which contain the agenda and information on each agenda item, are available in the City Clerk's Office, on the City's website, and can also be viewed at all City libraries. Summaries of the actions from previous City Council meetings can also be found on the City's website.

Council meetings are broadcast live on Cable Channel 15, "Mission City TV." Council meetings are also streamed live on the City's website. Agendas and back-up reports can also be found on the City's website. Following the Council Meeting, a rebroadcast of the meeting will be

shown on Cable Channel 15 on Wednesday at 7:00 pm and Thursday at 1:00 pm. Call 1-408-615-2210 for broadcast information. DVD's of the meetings are placed at all three City Libraries for checkout by patrons. Council meeting highlights and other municipal announcements appear weekly on "Mission City TV."

City Manager

The City Manager is the chief executive officer and the head of the administrative branch of the City government. The City Manager is appointed by the City Council. The City Manager attends all City Council meetings, implements policies and procedures initiated by the City Council, prepares and administers the municipal budget, advises the City Council of future financial needs of the City, initiates and supervises business relationships, and directs the daily operations of City government. The use of City-owned property and economic development are handled through the City Manager's Office, as are community and media relations, special projects, research and contracts, emergency services, training and safety, redevelopment, special agency activities, and the overall general administration budget. The City Manager's Office also administers the franchise for cable systems within City boundaries and manages the City's government cable channel and video services. The City Manager is responsible for all City personnel and serves as a liaison to each commission. The City Manager also serves as the Executive Director of the Santa Clara Stadium Authority; City of Santa Clara Housing Authority; and Contract Administrator for the Sports and Open Space Authority.

City Attorney

The City Attorney is appointed by the City Council. The City Attorney advises the City Council and City officers (in their official capacity) in legal matters; attends all City Council meetings and some board/commissions/committee meetings; represents the City in legal actions and proceedings; and retains, supervises and monitors outside legal counsel. The office of the City Attorney also approves the form of all bonds and contracts made by the City; prepares/approves all ordinances, resolutions and amendments for the City; and prosecutes criminal cases for violation of the Charter and City ordinances. The members of the City Attorney's Office (attorneys and staff) maintain an attorney-client relationship with the City, its officers, agents and employees, so their official communications are protected as confidential attorney-client privilege.

City Clerk

The City Clerk is directly elected by the residents and serves as the City's elections official, implements Santa Clara's good-government community outreach programs, and protects the public record of City Council proceedings. The City Clerk conducts municipal elections for candidates and initiatives, as well as implements Fair Political Practices Commission statements of economic interest and campaign disclosure statements of candidates. The City Clerk implements many of the City's good government and community outreach efforts as they relate to elections, voter registration, board and commission recruitment, and citizenship outreach. The City Clerk attends all City Council meetings and is responsible for the recording, writing and maintenance of the records of City Council proceedings. The City Clerk publishes ordinances, resolutions, and other official City documents as well as stores and indexes official documents and City records for retrieval. The City Clerk is also the custodian of the Seal of the City, administers oaths, receives and records claims and official notices pertaining to the affairs and business of the City, and certifies copies of official records.

City Auditor

The City Auditor is one of three positions appointed by the City Council. The City Auditor audits and approves all bills, invoices, payrolls, demands, or charges against the City government. With the advice of the City Attorney, the City Auditor also advises the City Council as to the regularity, legality and correctness of any claims, demands or charges. Additionally, the City Auditor works closely with the City Manager and the Director of Finance for the effective administrative implementation of Council goals in conformity with City, County, State and Federal laws and regulations.

Santa Clara Stadium Authority

The Santa Clara Stadium Authority ("Stadium Authority") was created on February 22, 2011 with the approval of a Joint Powers Agreement between the City Council and the Redevelopment Agency [Resolution No. 11-7825 and 11-7 (RA)]. It was formed as a Joint Powers Authority to facilitate the development, ownership and operation of the Stadium and to fulfill the mandates of Measure J, "The Santa Clara Stadium Taxpayer Protection and Economic Progress Act." The Stadium Authority is structured so that the City will be liable for the debts or obligations of the Stadium Authority. The members of the City Council shall serve as Board Members on the Stadium Authority [Resolution No. 11-7 (STADIUM AUTHORITY) approved March 29, 2011]. The Stadium Authority generally meets on Tuesdays, separately but concurrently with City Council meeting in the City Hall Council Chambers at 1500 Warburton Avenue, Santa Clara, California. Call 1-408-615-2210 for additional information.

Sports and Open Space Authority (SOSA)

The Sports and Open Space Authority of the City of Santa Clara was created in 1974, establishing a separate agency to deal with the problems of acquisition and preservation of open space within the City and the development of local sports activities. Since its creation, the Sports and Open Space Authority has been involved in a number of successful projects for and on behalf of the City, including the Santa Clara Golf and Tennis Club, and the Ulistac Natural Area. The Sports and Open Space Authority meets on Tuesdays, separately but concurrently with the City Council meetings in the Council Chambers at City Hall, 1500 Warburton Avenue, Santa Clara, California. Call 1-408-615-2210 for additional information.

City of Santa Clara Housing Authority

The City of Santa Clara Housing Authority was created on February 22, 2011 by the City Council due to findings that unsanitary and/or unsafe inhabited dwelling accommodations existed and that there was a shortage of safe or sanitary dwelling accommodations in the City available to persons of low income at rentals they can afford by the City of Santa Clara on February 22, 2011 (Resolution No. 11-7827). The members of the City Council shall serve as Commissioners on the Housing Authority [Resolution No. 11-3 (HOUSING AUTHORITY) approved March 15, 2011]. The Housing Authority administers the Affordable Housing Fund to provide financing assistance for various programs and projects in the City of Santa Clara that provide affordable housing opportunities, projects and programs for very low, low and moderate income households. The Housing Authority generally meets on Tuesdays, separately but concurrently with the City Council meetings in the Council Chambers at City Hall, 1500 Warburton Avenue, Santa Clara, California. Call 1-408-615-2490 for additional information.

A COUNCIL OF TRUST PRINCIPLES, NORMS, STANDARDS AND BEST PRACTICES

At a Special Meeting on “Managing Change” held on Monday, July 29, 2002, the Council discussed managing change brought about by the implementation of *The Code of Ethics and Values*. The Council’s goal was to draft a set of norms to guide those running for elected office. By the end of the session, the Council had described “running for office and living our values” as looking like:

1. Following These Guiding Principles

- Look at the law and also at “the right thing to do.”
- Hold yourself and each other to the higher standard.
- Honor the common good. Represent community.
- Separate role as Council Member from role as candidate. Honor your role as a Council Member. Act as a member of the Council Team.
- Assume all are here for service of city.
- Think strategically. Educate.
- Communicate consistently that ethics is upfront in this campaign.

2. Using These Specific Norms and Standards

- Don’t jump to conclusions.
- Avoid finger- pointing.
- Stick to the issues.
- Tell the truth. Don’t mislead.
- Rely on facts and interpret them as fairly as you can.
- Avoid impression of representing city, overstating our contributions.
- Don’t assume you know someone else’s motive. Attribute positive motive of service to community.
- Treat others with respect. Golden Rule (“Treat others as you would want to be treated.” Alternately: “What you do not wish done to yourself, do not do to others.”)
- Respect the process.
- Respect City resources.

3. Adopting These Best Practices:

- Wait. Get Facts.
- Talk to each other. Go directly to the other person. Discuss.
- Arrive at ground-rules with your opponents beforehand, if at all possible.
- Communicate your ethics clearly ahead of time to your staff and workers.
- Make clear to all your supporters how you are running your campaign and what you will do if anyone distorts that or attacks an opponent in an unethical manner.
- Appoint and empower a staff conscience to help when time is short and stressed.
- Ask the ethics questions by habit: Use the decision-making tool, and especially ask: How does this decision advance the City’s values in best practice? What ethics reasons make this the right thing to do?
- Use ethics language to explain your decisions.
- Have something written stand “the test of time.”
- Maintain a sense of humor. Take the responsibility of the office seriously – don’t take yourself too seriously.
- Be able to look at yourself in the mirror at the end of the day...and set a high standard for what you want to see. The Council agreed that these practices would create behavior that they and others would trust, thus the “Council of Trust”.

Agenda Report

Agenda Date: 1/25/2021

REPORT TO BICYCLE AND PEDESTRIAN ADVISORY COMMITTEE

SUBJECT

Update on Governance Item/Revise BPAC Bylaws (Liw)

BACKGROUND

At the September 14, 2020 Governance and Ethics Committee meeting (Item 20-313), the Committee provided direction to staff to formalize the Bicycle and Pedestrian Advisory Committee (BPAC) and ensure that the BPAC is consistent with other boards, commissions, and committees (Commissions). In addition, in October 2019, member Kratz requested an annual work plan topic (Attachment 1) to discuss changes to the BPAC bylaws.

In response, staff prepared changes to amend the City Code and BPAC Policy guidelines. At the October 26, 2020 BPAC meeting, staff presented proposed changes to the City Code and BPAC Policy guidelines (Attachment 2) and BPAC members provided numerous comments. BPAC voted to table the item and form an adhoc subcommittee (Subcommittee) comprised of three BPAC members to review the proposed changes to the City Code and BPAC Policy guidelines and to draft changes and comments to present to staff and the full BPAC.

At the December 7, 2020 Governance and Ethics Committee meeting (Item 20-991, Attachment 3), staff provided an update to the Committee on formalizing the BPAC and requested deferral of the item based on the upcoming BPAC subcommittee review of the proposed changes to the City Code and BPAC Policy Guidelines. The Committee accepted staff's recommendation for deferral and directed staff to return to the Committee in March 2021 for further updates. At the December 10, 2020 BPAC meeting (Attachment 4), Subcommittee members provided individual reports to staff and the full BPAC. The Subcommittee stated they could not come to full agreement on all of their proposed changes or comments.

DISCUSSION

Staff reviewed and considered all of the BPAC comments from the October 26, 2020 and December 10, 2020 BPAC meetings and recommends further changes to formalize BPAC and ensure the BPAC is consistent with other Commissions. These changes include:

- City Code amendment with final changes (Attachment 5)
- BPAC Policy Guidelines amendment with final changes (Attachment 6)
- Compliance with Charter, Code, and Clerk rules for Commissions
 - Committee action must be supported by a majority (5 of 9)
 - Members must be qualified electors of the City, defined as a United States citizen, 18 years of age or older, and living within the city limits of Santa Clara. An appointee may not hold any paid office or employment in the City. The person does not need to be a registered voter.

- Members are limited to two consecutive terms
- Membership terms will expire in June instead of December
- Membership applications are to be administered by the City Clerk and applicants are to be interviewed and appointed by City Council

Below is a table summarizing the existing and proposed procedures for BPAC.

| Item | Existing | Proposed | Other Commissions |

REPORT TO COUNCIL

SUBJECT

Waive First Reading and take Action on the Introduction of Ordinance to Amend Chapter 2.120, Entitled Boards and Commissions, to Update Boards and Commission Members Qualifications (Deferred from November 9 and 16, 2021)

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

The Santa Clara City Charter and Santa Clara City Code currently require City Boards and Commission members, except for Youth Commission, to be qualified electors of the City. A “qualified elector” is a person registered to vote and is of at least eighteen years of age. The existing regulations prohibit a person from serving on a board or commission, if the person is not 18 years of age and a U.S. citizen. In order to allow greater participation by and inclusion of all residents within the City, the City Council directed staff to remove the requirement that Boards and Commission members be qualified electors of the City.

This issue has been raised on several occasions by the Governance Committee, as well as the City Council, to remove the residency requirement related to being a registered voter.

DISCUSSION

The proposed ordinance will also amend SCCC Section 2.120.010, to allow residents that are 18 years of age to serve as members of the City’s non-charter Boards, Commissions and Committees. This ordinance will eliminate the current requirement that all members of non-Charter Boards and Commissions be qualified electors of the City.

However, City Charter Commissions, which include Planning, Parks and Recreation, Civil Service, and Board of Library Trustees, will continue to require members to be a qualified electors of the City. The Charter Commission qualifications may only be revised by Charter amendment which will require a ballot measure.

The proposed ordinance also reflects the addition of Housing Commission to the list of Boards and Commissions in section 2.120.010. The creation of the Housing Commission was discussed earlier (RTC 21-1435). Should Council not approve the introduction of the ordinance adding the Housing Commission to Chapter 2.120, entitled Boards and Commissions, the reference to the commission will be removed prior to second reading.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a “project” within the meaning of the California

Environmental Quality Act (CEQA) pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

There is no fiscal impact with the adoption of this ordinance.

COORDINATION

This report was coordinated with the City Attorney's Office and City Clerk's Office

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>>.

REPORT TO COUNCIL

SUBJECT

Update on Sustainability Program and Provide Feedback on 2022 Program Focus Areas

COUNCIL PILLAR

Promote Sustainability and Environmental Protection

BACKGROUND

The need for sustainability and climate action was identified several decades ago. However, more recently the consequences of climate change have become increasingly severe with an observable impact on all sectors of our society. Additionally, local, regional, national and international momentum demonstrates a more widely accepted recognition that making bold commitments to sustainability and taking action that creates climate solutions is not only needed to support a livable planet but is also critical for the success of our society and our economy.

Regulations and policy targets around climate action, sustainability, and energy innovation include:

- 2006 Assembly Bill (AB) 32 - California Global Warming Solutions Act aimed at reducing Statewide GHG (greenhouse gas) emissions to 1990 levels by 2020.
 - California Executive Order (EO) B-30-15 targeted reductions in GHG emissions to 40 percent below 1990 levels by 2030.
 - 2016 SB 32 expanded on AB 32 by requiring further reduction of GHG emissions to 40 percent below 1990 levels by 2030 and 80 percent by 2050.
 - 2016 Senate Bill (SB) 1383 - Short Lived Climate Pollutants Strategy targeted organic Waste methane emission reductions establishing targets to achieve a 50 percent reduction in the level of the statewide disposal of organic waste from the 2014 level by 2020 and a 75 percent reduction by 2025.
 - 2018 California EO B-55-18 called for carbon neutrality by 2045.
 - 2018 SB 100 - accelerated the State's current Renewables Portfolio Standard program to 50% by 2025, 60% by 2030, and 100% by 2045.
- 2018 AB 1668 and SB 606 established guidelines for efficient water use and a framework for the implementation and oversight of the new standards.

More recently, the push to reduce carbon through more aggressive measures and support environmental equity has been proposed at the State and Federal levels with policy such as:

- 2020 State EO N-79-20 requiring that *all new cars and passenger trucks sold in California be zero-emission vehicles by 2035.*
- 2021 President Biden Sets 2030 Greenhouse Gas Pollution Reduction Target Aimed at Creating Good-Paying Union Jobs and Securing U.S. Leadership on Clean Energy Technologies.

While there is a steep climb ahead to meet sustainability and climate related regulations and targets, this challenge presents an opportunity to creatively integrate sustainability into City planning and operations and to implement measures today that protect our community's long-term health and social and economic vitality.

In February of 2019, the City of Santa Clara adopted sustainability as one of the City Council's seven strategic pillars. In 2020 the City established a new sustainability program to create more coordinated and impactful strategies and actions for addressing sustainability and climate issues. The City's sustainability program takes an integrative and multi-solving approach to achieve the ambitious goals set forth by State regulations and is committed to developing and implementing sustainability initiatives and incorporating equitable community involvement along the way.

Sustainability is of particular importance as the City addresses the overlapping challenges related to climate change, energy, transportation, waste management, water conservation, sustainable development, and overall sustainability in operations. The growing climate and sustainability regulatory mandates offer the City an opportunity to build upon past and current sustainability efforts while looking towards new and innovative approaches to create a Sustainable Santa Clara that actively contributes towards a resilient future.

DISCUSSION

Over the past year and a half, the sustainability program focused on initiatives across three sustainability areas established by the City Council in summer of 2020 - integration, innovation and collaboration and connection. Efforts included foundational work such as assessing existing sustainability efforts, building internal and community collaboration networks, and implementing targeted sustainability related programs and projects. Some of the sustainability program accomplishments over the past year include the following:

- Conducted an update to the City Climate Action Plan (CAP) with associated public engagement and outreach
- Adopted all-electric building electrification and EV (Electric Vehicle) charging reach codes with associated public engagement and outreach
- Expanded implementation of the Community Electric Vehicle Blueprint with 96 public EV charge connectors

REPORT TO COUNCIL

SUBJECT

Public Hearing: Adoption of a Resolution Granting Non-Exclusive Franchise Agreements for Hauling of Industrial Refuse and Recyclables and Approval of Related Budget Amendment (Five Affirmative Votes Required)

COUNCIL PILLAR

Deliver and Enhance High Quality Efficient Services and Infrastructure

BACKGROUND

Properties zoned for industrial use may contract for industrial refuse and recyclable collection by selecting a hauler with a franchise granted by the City through a non-exclusive franchise (NEF) agreement. NEF refuse haulers set their own rates, perform billing services, and enter into separate agreements with industrial customers to provide specified services. The City currently has 12 NEF agreements with the refuse haulers listed below. The NEF agreements will expire on December 31, 2021.

1. RD Mendes Enterprises dba Accurate Cleaning Systems
2. Eco Box Recycling, Inc.
3. Ferma Corporation
4. Waste Connections dba Green Team of San Jose
5. GW Debris Services
6. Lam Hauling
7. Mission Trail Waste Systems
8. Jonna Corporation, Inc. dba Premier Recycle Company
9. Recology South Bay
10. AWIM Management dba Republic Services
11. Toca Debris Box
12. Guadalupe Rubbish Disposal dba Waste Management

Under the NEF agreements, refuse haulers pay the City quarterly franchise fees of 12 percent of gross billings for all materials collected. In FY 2020/21, franchise fees totaled approximately \$2,090,000. Franchise fees are General Fund revenue and quarterly franchise fee payments are audited annually to ensure accuracy.

DISCUSSION

The process for granting a franchise (either exclusive or non-exclusive) to collect and dispose of refuse is contained in Chapter 8.25 of the Santa Clara City Code. The process generally consists of an application and a public hearing during a regular meeting of the City Council. At the public hearing, the Council considers the application and receives comments from any interested person. At

the conclusion of the public hearing, the Council shall decide whether to grant a franchise to the applicant(s).

Application Process

On September 7, 2021, the City posted a Request for Proposals (RFP) to solicit applications for new NEF agreements to haul industrial refuse and recyclables. On September 17, 2021 staff conducted pre-application meetings with refuse haulers to discuss the process for the next iteration of the NEF Agreements. By the close of the RFP on September 29, 2021, a total of 11 companies submitted complete applications to be considered for the term of January 1, 2022 through December 31, 2026. The applicants include:

1. EcoBox Recycling, Inc.
2. Ferma Greenbox, Inc.
3. GreenTeam of San Jose
4. GW Debris Services, LLC
5. Hernandez Dumpsters & Demolition, Inc.
6. Jonna Corporation, Inc. dba Premier Recycle Company
7. Mission Trail Waste Systems, Inc.
8. RD Mendes Enterprises, Inc. dba Accurate Cleaning Systems
9. Recology South Bay
10. Republic Services, Inc.
11. Toca Debris Box

Hauler Requirements

NEF refuse haulers are required to offer bundled services to customers with weekly service above two or more cubic yards collectively (garbage, recycling and organics), or deliver loads of garbage to a Materials Recovery Facility (MRF) for mixed waste processing to recover commercial recyclables and organics. The bundled service requirements enable the City to comply with mandatory commercial recycling requirements set forth in Assembly Bill (AB) 341 and mandatory commercial organics requirements set forth in Assembly Bill (AB) 1826 and Senate Bill (SB) 1383. The franchise fees will continue to be directed to the General Fund.

SB 1383 Compliance Fee

In addition to mandating the implementation of organic collection programs, SB 1383 also requires jurisdictions to implement edible food recovery programs and procure large quantities of recovered organic waste products (compost, mulch, fuel, and/or electricity) beginning January 1, 2022. The City needs to develop funding sources to generate the additional revenue necessary to comply with the new requirements.

NEF refuse haulers will be required to pay a new SB 1383 Compliance Fee (Compliance Fee) for services rendered beginning January 1, 2022. The Compliance Fee will be 2 percent of the haulers' total gross billings, which will help the City raise approximately \$308,000 per year. This revenue will help fund the SB 1383 mandated procurement of recovered organic waste products and edible food recovery requirements. The Compliance Fee revenue will be directed to the Solid Waste Fund. Residential and commercial cart and bin garbage customers will also have to contribute towards this Compliance Fee. This contribution is currently being evaluated; however, it is anticipated that future rates will need to be increased by approximately 1 - 2 percent to generate necessary funding to comply with the requirements.

Process for Granting NEF Agreements

The SCCC Chapter 8.25 specifies the process for granting NEF refuse collection contracts and states that the Council may notice and provide a public hearing to review an application for a refuse contract. Section 8.25.250 permits the Council to grant a refuse contract following the consideration of an application at a public hearing. At the close of the public hearing, the Council can approve the resolution and authorize the City Manager to execute agreements (Attachments 2 - 12) with the 11 applicants.

City Staff Review of Applications

Based on staff's review, all 11 of the applicants satisfy the application requirements for a non-exclusive franchise. A proposed resolution granting these franchises and NEF agreements for each applicant is attached to this report. (Attachment 1)

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(a) as it has not potential for resulting in either a direct physical change in the environment, or as a reasonably foreseeable indirect physical change in the environment.

FISCAL IMPACT

The NEF refuse haulers will pay the City an estimated \$2,154,000 in franchise fees in FY 2021/22. These franchise fees are General Fund revenue incorporated into the Biennial FY 2021/22 and FY 2022/23 Adopted Operating Budget.

Additionally, the new SB 1383 Compliance Fee to be paid by the NEF refuse haulers of 2 percent of the haulers' total gross billings will generate approximately \$154,000 in revenue in FY 2021/22, assuming a January 2022 implementation, and \$308,000 ongoing. These fees will be used to cover a portion of the increased costs associated with SB1383 compliance in the Solid Waste Fund. Ongoing annual revenue and expenditure increases associated with the SB 1383 requirements will be incorporated into the Biennial FY 2022/23 and FY 2023/24 Capital Budget process, and these increases are also expected to factor in additional revenues from residential and commercial cart and bin garbage customers that will also support the estimated annual costs of \$600,000.

The budget amendment below recognizes the Compliance Fee revenue from the NEF refuse haulers in the Solid Waste Fund and increases the Materials, Services, and Supplies expenditure to comply with SB 1383 as recommended in this memorandum.

| | Budget Amendment FY 2021/22 | | |
|-----------------------------------|--------------------------------|-------------------------|-------------|
| | Current | Increase/ (Decrease) | Revised |
| <u>Solid Waste Fund</u> | | | |
| <u>Revenues</u> | | | |
| Other Fees for Services | \$0 | \$154,000 | \$154,000 |
| <u>Expenditures</u> | | | |
| Materials, Services, and Supplies | \$1,852,364 | \$154,000 | \$2,006,364 |

Agenda Report

Agenda Date: 12/7/2021

REPORT TO COUNCIL

SUBJECT

Approve CalPERS' Annual Requirement of the 2022 Salary Plans for Classified and Unclassified Employees Pursuant to Current Labor Contracts base on Council's Former Approved Cost of Living Increases, Including the Classifications of City Manager, and Approval of a Second Amendment to the City Manager Employment Agreement to Memorialize the Past Two Years of 0% and 4.5% COLAs effective December 26, 2021

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

California Code Regulations Section 570.5 governs and requires the adoption of updated publicly available salary schedules/plan by the governing body. Section 9 of the Personnel and Salary Resolution requires Council approval of compensation plans for classified and unclassified positions. The proposed action satisfies these requirements for past actions approving cost of living increases effective December 26, 2021.

The Classified and Unclassified Salary Plans have been modified to reflect negotiated and pre-approved wage increases by City Council, for two bargaining units as part of their current Memorandum of Understanding (or MOUs). Classifications that are covered by the listed bargaining units shall receive an automatic wage increase as described below effective December 26, 2021, pursuant to the terms of their respective MOUs:

- City of Santa Clara Employees' Association (Unit 5/7/8): A wage increase of approximately 3.5%.
- Unclassified Miscellaneous Management (Unit 9): A wage increase of approximately 4.5%.

City of Santa Clara contracts with the California Public Employees' Retirement System (CalPERS) to provide retirement benefits for employees for classified and unclassified positions. When the City makes modifications to the salary schedules, or salary plan, for classified or unclassified positions, the Council must approve and adopt the publicly available salary schedules to comply with California Code of Regulations (CCR) section 570.5. Government Code section 20636(b)(1) and California Code of Regulations section 570.5 require that public salary schedules include specific information to be approved by the governing body whenever they are updated or revised. These changes are administrative in nature as the salary changes reflected in the updated salary plans have already been previously approved by Council.

This action is only focused on the approval of the required Salary Schedule for the purpose of

demonstrating compliance with CCR Section 570.5. The City Council has already approved the wage increases for both Classified and Unclassified employees, which are not subject to amendment or further Council action unless parties agree to any amendments.

Additionally, the City entered into an employment agreement with City Manager Santana on August 22, 2017 and that agreement provides for appropriate salary adjustments and that the City Manager is subject to cost of living adjustments applicable to Unit 9. These provisions were not altered by Amendment No. 1 to the employment agreement. The Council approved two years of 0% COLAs for the City Manager, along with a 4.5% effective December 26, 2021 and, therefore, the Second Amendment to the Employment Agreement needs to be completed to memorialize this Council approved action.

A similar action would have been required for the City Attorney, however, that position is currently vacant, and therefore no COLA adjustment for this position is included in this report.

DISCUSSION

Approval and Adoption of the Salary Plan for Classified and Unclassified Positions

The Classified and Unclassified Salary Plans have been modified to reflect negotiated wage increases for two bargaining groups. These changes are administrative in nature as the salary changes reflected in the updated salary plans have been previously approved by City Council. All classifications that are covered by the respective bargaining units shall receive an automatic increase effective the pay period beginning on December 26, 2021.

On December 16, 2020, the City Council approved the 2019-2023 Memorandum of Understanding (MOU) between the City and the City of Santa Clara Employees' Association (Unit 5/7/8). For the third year of the MOU, the MOU provides for a wage increase of approximately 3.5%, effective December 26, 2021.

On December 16, 2020, the City Council approved the 2019-2024 MOU between the City and the Miscellaneous Unclassified Management Employees (Unit 9). For the third year of the MOU, the MOU provides for a wage increase of approximately 4.5%, effective December 26, 2021.

Second Amendment to City Manager Employment Agreement

Section 3.2 of the City Manager's employment contract states she will be "subject to the cost of living adjustments for City Miscellaneous Unclassified Management Employees in Unit 9." Accordingly, the Unit MOU provides for a 4.5% adjustment and the City Manager will be entitled to that same adjustment effective December 26, 2021. However, if those adjustments exceed the amount set forth in Government Code sections 3511.1 and 3511.2 (referencing the Consumer Price Index), they will not be automatic and will require approval of the Council. Accordingly, the 4.5% Unit 9 adjustment does not exceed the CPI, as demonstrated below:

- Consumer Price Index for Urban Wage Earners and Clerical Workers, United States, which according to the Bureau of Labor Statistics is 5.9% over the past 12 months; and,

- Below the CPI of 4.9% for Urban Wage Earners and Clerical Workers, for the San Francisco-Oakland-Hayward, California area.

A second amendment to the City Manager's employment agreement is needed to reflect the two years of 0% of COLAs and to reflect a salary of \$468,673.97, which is approximately a 4.5% increase effective December 26, 2021.

Section 9 of the Personnel and Salary Resolution requires City Council approval of compensation plans for both classified and unclassified positions. California Code Regulations section 570.5 requires the adoption of updated publicly available salary schedules by the governing body. The attached Resolution attaches and approves the updated salary plan for the classification of City Manager.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a governmental organizational or administrative activity that will not result in direct or indirect changes in the environment.

FISCAL IMPACT

The general wage increases have a total annual cost (as shown in the table below) of approximately \$3.0 million (all funds), of which approximately \$1.6 million is in the General Fund and \$1.4 million is in other funds.

| Bargaining Unit | General Fund | All Funds |
|--|--------------|--------------|
| Employees' Association (Unit 5/7/8) | \$ 760,000 | \$ 1,374,000 |
| Misc. Unclassified Management (Unit 9) | \$ 814,000 | \$ 1,635,000 |
| TOTAL | \$ 1,574,000 | \$ 3,009,000 |

Since the Council already approved the COLA adjustments in 2020, the wage increases have already been budgeted and were appropriately reflected in the City's FY 2021/22 and FY 2022/23 Adopted Budget. As these COLA adjustments are scheduled to take place during the middle of the current fiscal year, the anticipated total fiscal impact for FY 2021/22 is approximately \$1.5 million, of which approximately \$787,000 is in the General Fund and \$718,000 is in other funds. No additional budget action is required.

COORDINATION

This report has been coordinated with the City Attorney's Office and the Finance Department.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any agenda report may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov or at the

RECOMMENDATION

1. Adopt a Resolution to approve the administrative changes based on former Council action for the annual filing of salary plans for various classified and unclassified positions to satisfy the requirements of California Code of Regulations Section 570.5 effective December 26, 2021; and
2. Adopt a Resolution approving the Second Amendment to the City Manager's Employment Agreement by and between the City of Santa Clara and Deanna J. Santana to memorialize two years of 0% cost of living adjustment and to adjust the City Manager's base salary to \$468,673.97 effective December 26, 2021.

REPORT TO COUNCIL

SUBJECT

Action on a Written Petition (Council Policy 030) Submitted by Jared Peters Requesting to Place an Agenda Item at a Future Council Meeting to Consider making a Policy Decision Regarding the City Assuming Responsibility of an Unstable and Dangerous Sound Wall in the Laurel Park East Neighborhood

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

Council Policy 030 - Adding an Item on the Agenda (Attachment 1) sets forth the procedure for written petitions. Any member of the public may submit a written request raising any issue or item within the subject matter jurisdiction of the Council. Per the policy, the written request will be submitted on the agenda, in the form substantially provided by the requestor, without any staff analysis, including fiscal review, legal review and policy review. If a simple majority of the City Council supports further study of the request, then a full staff analysis shall be prepared within thirty (30) days, unless otherwise directed by the City Council.

DISCUSSION

The City Clerk's Office received a Written Petition on November 15, 2021 requesting to place an agenda item at a future council meeting to consider the following: the residents bordering Plumridge Avenue in the Laurel Park East neighborhood are requesting that the City Council make a policy decision to staff recommendation and assume responsibility for the unstable and dangerous sound wall backing their properties. The sound wall is clearly part of the municipal roadway infrastructure and should be rightfully maintained by the City Street Department. See attachment 2.

Staff recently responded to Mr. Peters with the legal agreement provision that confirm the property owner's responsibilities. See attachment 3.

FISCAL IMPACT

There is no fiscal impact associated with considering the request to be placed on a future agenda except for staff time.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a administrative activity that will not result in direct or indirect physical changes to the environment.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any report to council may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>>.

ALTERNATIVES

1. Set a future Council meeting date to take action on the Written Petition received.
2. Take no action.
3. Any other City Council Action, as determined by the City Council.

Subject: Dangerous Concrete Municipal Sound Wall (2500-2700 Pruneridge Avenue)

Dear Councilmember Becker,

The Santa Clara Residents backing Pruneridge Avenue in the “Laurel Park East” development on Gamblin Drive need your assistance to navigate the City’s policies regarding a dilapidated and dangerous concrete Sound Wall bordering our neighborhood. In the past three years, without external causes, several 16-foot sections of the concrete sound wall have fallen “out of the blue” and crashed to the ground. Each one of these 16-foot sections weighs ~2.4 tons and there are over 800 linear feet of this precariously oriented sound wall along Pruneridge Avenue backing our properties (see photos attached).

At this point, the City’s Engineering Office has initially determined that the sound wall was built outside the developer dedicated right-of-way, and therefore the sound wall is the responsibility of the individual property owners. The City’s Engineering Office has taken this position without any historical knowledge of the original 1976 Sub-division Developer/City of Santa Clara Agreement which would have defined the municipal sound wall maintenance and responsibility.

Based on the following, the Gamblin Drive property owners backing Pruneridge Avenue disagree with the City’s current interpretation of responsibility and request that the City take action to reassess this determination and then remedy this dangerous situation.

- **Precedent** – The County of Santa Clara, on two separate occasions, has removed and repaired fallen or damaged sections of the connecting Precast Concrete Sound Wall (on Pruneridge Avenue); without assigning responsibility to the property owner.
- **Precedent** – The City of Santa Clara removed and disposed of a 16-foot section of the sound wall after it had fallen and replaced it with temporary fencing.
- **Ongoing Maintenance Responsibility** – The City of Santa Clara maintains the developer dedicated Pruneridge Avenue right-of-way landscaping, watering infrastructure, and re-paints the concrete sound wall to coverup graffiti.
- **Municipal Sound Wall vs. Residential Fence** – The Pruneridge Avenue Precast Concrete Sound Wall is seemingly part of the Pruneridge Avenue Municipal Roadway Infrastructure. The City of Santa Clara Planning Dept. approved the design and installation of an industrial precast concrete sound wall; impacted property owners would not have ability to replace or repair these types of structures. Also, the concrete panels have been installed without regard to the abutting property lines; meaning the individual 16-foot sections share adjacent property boundaries.

Myself and the following list of Laurel Park East residents whose properties abut the Pruneridge Avenue concrete sound wall seek assistance from the City of Santa Clara to resolve this problem. Your valued representation and involvement in addressing this matter is greatly appreciated.

Subject: Unstable Concrete Sound Wall (2500-2700 Pruneridge Avenue)

Dear Councilmember Becker,

Thank you for getting involved and advocating for a solution with the unstable sound wall bordering our neighborhood. Unfortunately, the response from City Staff regarding the maintenance and responsibility of the sound wall was a duplication of previous communications and fails to address relevant precedent established by both the City of Santa Clara and the County of Santa Clara.

Please allow me to reiterate these points in an attempt to get the City committed to remedy this situation before more sections of the sound wall fall and potentially injure someone.

1. The County of Santa Clara removed and replaced four sections of the concrete sound wall on Pruneridge Avenue (not San Tomas Expressway) that had fallen over or were deemed unstable. This portion of the replaced sound wall was on residential property, lots 59 & 60 and not in a dedicated easement. The County of Santa Clara did this without assigning responsibility to the property owner.
2. For the Laurel Park East Development in 1976, the City of Santa Clara approved the original design and installation of an industrial pre-cast concrete sound wall bordering the neighborhood. Even though this sound wall is located on residential property this type of infrastructure is clearly part of the Pruneridge Avenue municipal roadway and cannot be considered a residential fence that home owners could maintain by themselves. Additionally, the City of Santa Clara removed a fallen section of the wall, installing a temporary fence and the City also regularly paints the wall to remove graffiti.

Mr. Becker, we need your help to elevate a discussion above City Staff to remedy this dangerous situation. Is it possible to make this an Agenda Item for a future Council Meeting to move the discussion forward? Your valued representation and involvement in addressing this matter is greatly appreciated.

Best Regards,

Subject: Written Petition re: Violation of Santa Clara's Code of Ethics & Values

Pursuant to Council Policy 030, I hereby request that the following written petition be placed on the next City Council agenda:

During the Council and Authorities Concurrent Meeting on November 16, 2021, Councilmember Becker injured the good name of the City and undermined the effectiveness of the City Council as a whole on at least two separate occasions by openly retaliating against a member of the public following completion of two separate public comments which were presented during the appropriate public comment periods for the agendized items.

All members of the public should be treated with respect during and following completion of their public comments when presented during the appropriate public comment periods for agendized items.

Councilmember Becker violated Santa Clara's Code of Ethics & Values. Councilmember Becker's actions discourage other members of the public from participating and providing public comments during Council meetings. Public comments should be encouraged and welcomed by all Councilmembers and should not be followed by retaliation from Councilmembers.

As a reminder, here are the Goals of the Code of Ethics & Values:

- To make Santa Clara a better community, built on mutual respect and trust
- To promote and maintain the highest standards of personal and professional conduct among all involved in City government elected officials, City staff, volunteers, and members of the City's boards, commissions and committees

Councilmember Becker's behavior failed to achieve these shared goals and injured the good name of the City and undermined the effectiveness of the City Council as a whole.

Councilmember Becker's unacceptable behavior deserves consideration of admonition or censure pursuant to Council Policy 047.

I hereby request that the City Council place an item on a future agenda to consider admonition or censure of Councilmember Becker for his retaliation against a member of the public on at least two separate occasions during the Council and Authorities Concurrent Meeting on November 16, 2021. And further, that all City Councilmembers renew their commitment to adhere to Santa Clara's Code of Ethics & Values, and to encourage and welcome greater public participation.

Thank you.

Sincerely,
Travis L. Flora
District 5 Resident

REPORT TO COUNCIL

SUBJECT

Action on a Council Written Request (Council Policy 030) Submitted by Councilmember Jain Requesting to Place an Agenda Item at a Future Council Meeting to Consider a Neighborhood Stadium Relations Committee

COUNCIL PILLAR

Enhance Community Engagement and Transparency

BACKGROUND

Council Policy 030 - Adding an Item on the Agenda (Attachment 1) sets forth the procedure for written petitions. Any member of the public or Council may submit a written request raising any issue or item within the subject matter jurisdiction of the Council. Per the policy, the written request will be submitted on the agenda, in the form substantially provided by the requestor, without any staff analysis, including fiscal review, legal review and policy review. If a simple majority of the City Council supports further study of the request, then a full staff analysis shall be prepared within thirty (30) days, unless otherwise directed by the City Council.

DISCUSSION

The City Clerk's Office received a Council Written Request on November 24, 2021 requesting to place an agenda item at a future council meeting to consider a Neighborhood Stadium Relations Committee (Attachment 2).

As already mentioned on several occasions, staff capacity is much less than the existing workload and has grown over the past year even with approximately 26% less capacity citywide. While making no judgement on the merits of such request by Councilmember Jain, it is time for the Council to consider all of the legislative bodies that the City currently supports and recently added legislative bodies without additional staff resources. Capacity is finite and each additional legislative body requires significant workload. Accordingly, Attachment 3 provides a list of the City's 32 current Board, Commissions, Committees, Taskforces and Ad-Hoc bodies, many have been created over the past few years which include, but are not limited to:

1. Downtown Taskforce
2. Independent Exchange Commission
3. Diversity, Equity, and Inclusion Task force
4. Independent Redistricting Commission
5. Housing Commission
6. Ad-Hoc Homeless Taskforce
7. Ad-Hoc CVRA Apology Letter Committee

Given the reduced resources, as items are added to the workload, staff will need to address them as capacity becomes available, unless other Council-directed work priorities are removed or delayed. It is important to note that while resources were reduced, no City services, Council initiatives and/or workload was reduced/removed which further compounds the challenge of staff absorbing more directives.

FISCAL IMPACT

There is no fiscal impact associated with considering the request to be placed on a future agenda except for staff time.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) in that it is a administrative activity that will not result in direct or indirect physical changes to the environment.

PUBLIC CONTACT

Public contact was made by posting the Council agenda on the City's official-notice bulletin board outside City Hall Council Chambers. A complete agenda packet is available on the City's website and in the City Clerk's Office at least 72 hours prior to a Regular Meeting and 24 hours prior to a Special Meeting. A hard copy of any report to Council may be requested by contacting the City Clerk's Office at (408) 615-2220, email clerk@santaclaraca.gov <<mailto:clerk@santaclaraca.gov>>.

ALTERNATIVES

1. Set a future Council meeting date to take action on the Written Petition received.
2. Take no action.

WRITTEN REQUEST

I, Suds Jain, hereby request that the following item be placed on the City of Santa Clara Council and Authorities Concurrent meeting agenda:

NURC (Neighborhood University Relations Committee) is a committee of 3 Councilmembers which convenes approximately quarterly to resolve issues between neighbors and Santa Clara University. Issues discussed are often noise, litter and parking.

Noise, litter and parking along with traffic are the major concerns of neighbors of Levi's Stadium. It seems to me that we need a NSRC (Neighborhood Stadium Relations Committee) which would bring people together regularly to resolve issues related to Stadium Operations.

Such a committee was suggested in the Public Dialogue Consortium report included in the Council Packet for Nov 16th, 2021.

"Most residents approve of the City's communications efforts. But near neighbors in particular feel the Stadium has broken promises. There is a lack of trust which must be repaired .

. To rebuild this trust, Manco should take the steps necessary to improve transparency and communications

. A Community Advisory Committee structure to liaison with Manco was of interest to stakeholders and near-neighbors"

BACKGROUND AND DISCUSSION

During Council and Stadium Authority meetings, the City Council or Stadium Authority Board provide direction on policy issues or refer information requests to staff for follow-up.

Completion of the referrals may be communicated by various means such as: Report to Council, Information Memorandum provided through a Council Agenda, City Manager Biweekly Report/Blog, or a City Manager/Executive report out during a future Council meeting.

The Referrals list will be published in the Council agenda packet under the "City Manager/Executive Director Report" section of the Council Agenda. Reports will include both open and closed referrals.
