**AGREEMENT FOR DESIGN PROFESSIONAL SERVICES  
BETWEEN THE  
CITY OF SANTA CLARA, CALIFORNIA,  
AND  
ITERIS, INC.  
FOR  
GREAT AMERICA PARKWAY AND TASMAN DRIVE TRAFFIC SIGNAL  
INTERCONNECT PROJECT**

**EXHIBIT A  
SCOPE OF SERVICES**

The Services to be performed for the City by the Consultant under this Agreement are set forth below.

**I. GENERAL**

This Scope of Services is anticipated as necessary to meet City's objectives as described under Section II, BACKGROUND AND PROJECT, and Section III, DESCRIPTION OF SERVICES of this document. Consultant and City agree that this Scope of Services incorporates Consultant's professional qualifications and experience and will meet the City's objectives.

Consultant will be expected to provide complete, professional, high-quality Services and products; to consult City personnel, and others who are involved with the project; and to provide the expertise, guidance, advice, and assistance in accomplishing the work.

**II. BACKGROUND AND PROJECT**

The GAP and Tasman Dr. Traffic Signal Interconnect Project (Project) proposes to replace the copper interconnect cables with fiber optic cables along Great America Parkway and Tasman Drive. The City's existing traffic signal interconnect network is comprised of both fiber optic cables and copper wires. Fiber optic cables are the newer standard for data transmission due to transmitting data at much faster rate. Currently, Great America Parkway and Tasman Drive are interconnected via copper cables. The traffic signals along these two major corridors are equipped with traffic monitoring cameras that stream high definition video back to the City's Traffic Management Center. Streaming video and other data from these traffic signals over copper wires results in noticeably slower streaming speeds and quality compared to other traffic signals in the City that are connected over fiber optic cables.

**III. DESCRIPTION OF SERVICES**

Consultant shall provide the services described herein. All work shall be done in

accordance with the Department of Transportation Standard Specifications and Details, City Standard Plans and Specifications, ADA Design Guidelines, latest building and fire codes, and other applicable codes and standards recommended by the Consultant. Below is an outline of required services; however, it is the responsibility of the consultant to independently assess the PROJECT and provide improvement recommendations to meet the goals for this PROJECT.

- A. Removal of approx. 24,000 feet of existing copper signal interconnect and replace with new fiber optic cable
- B. Fiber optic splices between new fiber optic cable and existing backbone cable
- C. 15 new fiber distribution units
- D. 15 new ethernet switches
- E. 13 new fiber optic splice closures
- F. Remove 7 existing pull boxes and replace with 24"x36" pull box
- G. 5 new 24"x36" pull box
- H. 10 new crosswalk sensors
- I. 4 new accessible pedestrian signals
- J. 11 new travel time antennas
- K. 3 new pan-tilt-zoom cameras

Plans for fiber optic work, travel time antennas, and PTZ cameras are anticipated to use 1"=40' scale. Plans for the 10 locations with crosswalk sensors are anticipated to require traffic signal modification plans using 1"=20' scale because the crosswalk sensors require new cables to all corners. The minimum requirements for the plans include:

- A. Field work collecting, confirming, and documenting all existing conditions that may impact project design
- B. Plans showing all existing traffic signal poles, pull boxes, conduits, and cabinets
- C. Plans showing all existing utility cabinets, covers, manholes, poles, and structures
- D. Plans showing all existing utility overhead wires, conduits, and pipes

Failure to submit payrolls to the DIR when mandated by the project parameters shall also result in the withholding of progress, retention and/or final payment.
7. No consultant or subconsultant may be listed on a bid proposal for a public works project unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].
