Considerations

- General Plan governs; El Camino Real Specific Plan pending
- Conforms with current General Plan land use, density, and height
- Because existing zoning is commercial, either PD Zoning or AB 3194 process necessary to implement General Plan
- Not subject to height limit (e.g., 2-story) or objective standards (e.g., open space, step back) to be established in Specific Plan and/or Zoning Code update
- Typical 3-story townhouse type development, similar to other projects on El Camino Real (existing and proposed)
- Provides 60 for-sale residential units, including 9 affordable units

The seal of the City of Santa Clara, California, is circular. It features a central illustration of a mission-style building with a red-tiled roof and a bell tower, set against a blue sky with clouds and green grass. The year "1852" is inscribed below the building. The outer ring of the seal contains the text "CITY OF SANTA CLARA CALIFORNIA" at the top and "THE MISSION CITY" at the bottom, separated by a dotted line.
