NOW THEREFORE, BE IT FURTHER RESOLVED BY THE PLANNING COMMISSION OF

THE CITY OF SANTA CLARA AS FOLLOWS:

1. That the Planning Commission hereby finds that the above Recitals are true and correct

and by this reference makes them a part hereof.

2. That the Planning Commission hereby recommends that the City Council rezone the

Project Site, as shown on the attached Development Plans and conditioned as specified in the

attached Conditions of Approval, incorporated by this reference, from Community Commercial

(CT) to Planned Development (PD) to allow construction of a three-story, 58 unit townhome

development with private street, on-site resident and visitor parking, common landscaped areas,

and public and private site improvements on the Project Site.

3. Pursuant to SCCC Code Section 18.112.010, the Planning Commission determines that

the following findings exist in support of the rezoning:

A. The existing zoning is inappropriate or inequitable in that, the existing zoning for

the Project Site does not allow residential development and creation of housing opportunities to

meet existing population and employment growth. The Planned Development (PD) zoning

would allow residential development that more closely implements the General Plan's vision for

the El Camino Real Focus Area to provide a range of housing types in proximity to retail and

transit corridors that will support transit investments and reduce vehicle miles travelled, whereas

the existing Community Commercial (CC) zoning does not allow residential uses.

B. The proposed zone change will conserve property values, protect or improve the

existing character and stability of the area in question, and will promote the orderly and

beneficial development of such area in that the proposal redevelops a vacant, underutilized

property and visually improves the Project Site and surrounding neighborhood with physical and

financial investment in the construction of a modern and aesthetically pleasing residential

development with on-site parking, site improvements, landscaping, and streetscape

enhancements.

C. The proposed zone change is required by public necessity, public convenience,

or the general welfare of the City in that in that the proposed Project provides an opportunity to

locate medium density residential development in proximity to commercial uses and existing

and planned transit services that would transition in scale and intensity of use with existing and

planned land uses. The proposal would provide high quality ownership housing and contribute

to the City's diversified housing stock.

D. The proposed zone change would allow imaginative planning and design

concepts to be utilized that would otherwise be restricted in other zoning districts in that the

proposed zone change would allow the construction of a high quality, ownership residential

project that is compatible with neighboring low intensity residential development and planned

development within the El Camino Real Focus Area.

4. That based on the findings set forth in this resolution and the evidence in the City Staff

Report, MND and MMRP, the Planning Commission hereby recommends that the City Council

rezone the Project Site as set forth herein.

5. <u>Effective date</u>. This resolution shall become effective immediately.

I HEREBY CERTIFY THE FOREGOING TO BE A TRUE COPY OF A RESOLUTION PASSED
