Convention Center Agreement

- **Chamber of Commerce started operating the Convention Center in 1984**
 - Never subject to a performance audit/contract provisions required
- **Lack of City oversight and contract management**
 - Contract management was assigned to several departments as a collateral assignment/no paper record-keeping for oversight
- **City did not uphold its fiduciary responsibility**
 - Allowed an environment to exist where City lost revenue. Multi-year subsidies could have been used for other City budget investments.

Audits Findings (Continued)

- **Misuse of government resources (personal gain, inappropriate bonuses/commissions, and political fundraising activities)**
 - Potential of violation of 501c (6) Tax exempt status due to full facility discounts to its members, self-dealing, and conflict of interest without a competitive bid
- **Conflict of interests by Chamber staff & Board members (self-dealing that went uncorrected/undisclosed until City asked)**
 - Potential violation of the California Fair Political Practices Commission laws by allowing the Santa Clara Chamber Political Action Committee to use the SCCC facilities free of rent

15

4th Quarter Report re SCCC/CVB

- **Unaudited report submitted for review and acceptance**
- **Lacks information from prior reports (e.g.: room rental nights, convention attendees, and estimated revenues for convention center rental and TOT)**
 - Chamber prematurely released employees without securing access to systems for the information although Council authorized 60 days of salary pay for transition/close-out services. Did not secure its contract compliance requirement to report on activity.
- **Concern about whether the Chamber is positioned to manage the City's public assets**

16

City Corrective Action Required

City's Role Re: Audit Findings

- Allowed a high-risk environment with respect to absence of contract administration including unmonitored access to City's financial systems, and lack of dedicated staff to support this enterprise
- No staffing to establish and maintain internal controls, regular oversight, and activities that require City Council action

City's Role Re: Audit Findings

- Contract management/oversight duties have been either not present or split among several staff members and departments as collateral assignments. City has not done well with record-keeping.
- Audit findings and TID non-compliance illustrate our own mismanagement due to lack of staffing and oversight

19

City's Role Re: Audit Findings

- Failure of policy discussion to net-subsidize Convention Center and CVB services or require full cost-recovery.
- City allowed several years of subsidies without making a policy decision on whether this was appropriate for public funds.

20

Corrective Actions

- Issue 180 day termination notice
- Cooperate with FPPC and IRS on potential violations found of FPPC law and 501c(6) exempt status
- Select a qualified Management Company for Convention and CVB Services through a competitive Request for Proposal process within the next six months
 - Chamber of Commerce is welcome to submit a bid

21

Corrective Actions (Continued)

- Incorporate best contract management practices in the new management agreement, using a professional consultants
- Add staff and contractual funding to administer RFP process, implement audit findings, close out/reconciliation work, and manage contract to improve and implement oversight and systems

22
