City of Santa Clara

The Center of What's Possible

April 30, 2019

Honorable Mayor, City Council and Residents of Santa Clara,

I am pleased to present the Proposed Biennial Operating Budget for fiscal years (FY) 2019/20 and 2020/21. The FY 2019/20 and 2020/21 Biennial Operating Budget is a carefully balanced budget that reflects the City Council priorities and continues to build on the foundation of financial sustainability. The recommendations included in this budget enhance delivery of public service, expand our capital assets and invest in the development of our talented employees. Last year, the City Council authorized a change to our budgeting practices from adopting a one-year budget to adopting a two-year budget, a process that alternates between an operating and capital budget. This year's budget focuses on our day-to-day operations, continuing to support highly-rated City services enjoyed by our residents.

Key refinements in the operating budget are particularly worthy of highlighting. Two years ago, in the FY 2019/20 and 2020/21 Forecast, the City originally faced a General Fund deficit of roughly \$13.8 million and \$24.0 million, respectively. Last fiscal year, prior to Council approval of the FY 2018/19 balanced budget, the City trimmed this to a General Fund deficit of approximately \$8.6 million with ongoing deficits forecasted in every year of the Ten-Year Financial Forecast. Continuing meticulous diligence from the prior year, staff reviewed and refined revenue and expenditure assumptions, most notably reflecting current CalPERS direction and methodology for payments. This resulted in a much improved, revised forecast presented to and accepted by the City Council in January and February 2019 at the City Council Operational and Strategic Priority Setting Sessions. This Ten-Year General Fund Financial Forecast serves as the starting point for planning and developing our Proposed Budget. In the forecast, on the revenue side, we have begun to assume a modest economic slowdown and we presented a recession scenario to the City Council earlier this year that shows our budget remains on edge, following a record economic expansion period of over a decade. On the expense side, departments reviewed and updated all contracted costs and submitted base budget requests based on current service levels. We have worked closely with our pension actuary, who presented to Council in December 2018 the latest issues and trends regarding CalPERS costs. This budget reflects these rising costs and establishes a new policy to regularly set aside reserves to pay down our liabilities. Discussed further in this document, this budget includes significant investments to our City Council priorities including sustainability and strategically managing our workforce.

As in the previous budget, we have included an allocation of \$100,000 for Community Grants to offset the cost of City fees and event costs, in support of the Council-approved Community Grants Policy (Policy). As directed by Council, staff will bring forward revisions of the Policy in the coming months based on Council input and the application of the Policy since last fall. Further, this budget continues to include a Council Contingency in the amount of \$100,000 for the City Council to expend on Council initiatives or unanticipated workload initiated by the Council that surfaces during the fiscal year and cannot be absorbed by the operating budget.

Lastly, the proposed budget includes key investments and the strategic net addition of 15.5 positions (8.9 positions in the General Fund) across every City Council Priority and several funds, such as:

- Expanding the existing Housing Division Manager's duties (and converting it to an Assistant to the City Manager, until properly classified, with a working title of Housing and Real Estate Development Officer) will result in formal oversight and coordination of the City's real estate portfolio, along with adding a Management Analyst and resources to establish a baseline real estate asset management system to address the City's needs.
- Adding a Sustainability Officer (Assistant to the City Manager, until properly classified), with the use of various enterprise funds, to advance the City Council's most recent added policy priority of Sustainability.
- Expanding our parks programming through the expected opening of the Reed and Grant Sports Complex through the addition of resources and two positions (Recreation Coordinator and Grounds Maintenance Worker II).
- Providing additional stadium oversight and public safety coordination, as described in various Stadium Authority reports and approved budget (Deputy City Manager).
- Mitigating future risk through the addition of a real estate focused Assistant City Attorney in FY 2020/21.
- Serving our electric utility customers through additional industrial development customer support, technical resources to manage capital projects, and engineering permit review staff (three Electric Program Managers and one Electric Utility Engineer).
- Increasing our strategic communications bandwidth and oversight of a website redesign through a Web and Digital Content Manager.
- Supporting our solid waste organic waste diversion programs to enhance sustainability through a Staff Analyst in Public Works.
- Reorganizing and focusing our housing programs through a Staff Aide in Community Development.
- Gaining Risk Management efficiencies by adding an Office Specialist III so our existing Risk Manager can focus on developing more robust risk management policies and procedures, managing insurance and claims, and ensuring legal compliance.
- Shoring up central services departments by adding a Senior Accounting Technician in Finance and an Office Specialist IV in Human Resources.

Further, this budget as well as Council action during FY 2018/19 adds positions in comparison to the FY 2018/19 Adopted Budget to close the most critical administrative gaps and gain oversight in key areas such as in our audit, risk, public records, and convention center and stadium management functions. To support and transparently focus our strategic planning efforts, many of these positions are now shown in a separate Non-Departmental Citywide Strategic Planning Function section in this document. Finally, this budget invests in our workforce through professional development, training and tuition reimbursement. As we look ahead, our fiscal outlook shows deficits in the beginning of the ten-year forecast period; it is important to add specific positions that invest in areas of process efficiencies where we already know that our service delivery model is inadequate, staff and paper intensive, costly and high-risk. Per Council direction from the January City Council Operational and Strategic Priority Setting Sessions, staff is developing revenue strategies for Council consideration to address ongoing deficits projected for Year three and beyond of the Ten-Year Financial Forecast, outside of this two-year recommended budget. Specifically, the City Council directed staff to explore increasing Transient Occupancy Tax (TOT) or implementing a new Utility Users Tax (UUT), or any other revenue streams, that generate needed General Fund resources to keep pace with service level needs. Additionally, staff will review and research an employee-based Business Tax, or other revenue generating options, and the possibility of issuing debt to replace aged infrastructure from new revenue sources. Consultant funding to complete community research for potential revenue strategies/tax measures, support the development of revenue options for Council consideration, informational community outreach and legal analysis is included in this budget document.

As part of the City Council Operational and Strategic Priority Setting Session, the City Council individually provided their priorities for the organization. A total of 48 referrals resulted from the two-day study session. Staff reviewed referrals with each department and included responses and costs associated with each funding proposal. These referrals are categorized as: funded in the current FY 2018/19 budget, funding included in this proposed budget, no fiscal impact, partially funded, not funded, and unknown. In short, in order for staff to advance the priorities that surfaced at the Session, at minimum staff would need an additional 14.25 FTEs, along with additional resources, and at a minimum cost of \$57 million. Given the narrow margin between revenue and expenditures, staff evaluated priorities that were already underway and easy to absorb or added resources where there was already an existing project (and immediate funding sources). Many of the resources included in this budget address several of the Council interests because they were already determined to be a priority or necessitated additional investment. However, due to the limited funding capacity at this time, many of the priorities from that session are not included in the budget. A detailed proposal investment is included later in this letter, aligned to the City Council Priorities, and a separate City Council agenda item will be dedicated to further discussion and reconciliation of these policy priorities for final determination of how to proceed with the various priorities.

Turnaround Initiative Fund

As stated at the City Council Operational and Strategic Priority Setting Session, there are a number of items that could be advanced with a short-term strategy to infuse resources while concurrently maintaining high workloads; however, we were cautious to state that not all initiatives lend themselves to this approach. A significant investment in one-time resources is included in this budget, dedicated to filling administrative gaps, gain efficiencies through technology or seek expertise through consultant support services. These small investments are intended to guide managers through specific operational issues faced from processes that are overdue for update, reevaluation and/or revision. They touch operations in almost every City department. This initiative includes:

- Funding to organize our affordable housing approach through an accessory dwelling unit pilot program, software to track affordable housing assets and consultant services to input the existing data into a new system and issuing a request for proposal for an administrator for the City's Affordable Rental Program;
- Records management platform and policy update in the City Clerk's Office;
- Update to citywide administrative policies (e.g., City Manager Directives, etc.) and legislative advocacy support in the City Manager's Office, enhancement of purchasing policies and records in the Finance Department;
- Evaluation of the City's pre-employment physical requirements of class specifications and Civil Service rules in the Human Resources Department;
- Workforce development transformation through Office 365 in the Information Technology Department;
- Fleet management consultant in the Public Works Department to assess fleet and bring about efficiencies while reducing costs;
- As-needed hours to support response to public records requests while concurrently implementing the technology to modernize our processes;
- Funding for Census 2020 to ensure an accurate population count and aggressively compete for federal funding from which we receive population-based revenues; and,
- Resources to explore new revenue strategies and conduct community research.

While many of these proposals are funded by one-time sources, they are intended to turnaround processes in a dynamic way, capturing efficiencies and modernizing old policies and practices. As workload and absence of resources has largely been the reason for not being able to advance these projects, significant discipline will be needed to not use the resources to add more workload, but rather to finish what was already directed and started.

Citywide Department Collaboration

Faced with increased service demands and insufficient resources, this budget proposes new cross-departmental collaborative structures rather than view resources within our department silos as has been past practice. For example, capacity in the City Clerk's Office was stretched through the removal of administrative functions from the elected City Clerk position, the deletion of vacant positions, and the reallocation of a position to the City Auditor's Office. In order to address the administrative staffing constraints, among the City Clerk, City Council, and City Manager's Office, we implemented a shared staffing approach to address the City Hall reception function and answering the City's main line while centralizing administrative functions between Offices rather than adding a new position. As explained prior, this budget also includes resources to coordinate real estate and property management functions between the Housing Division and the City Manager's Office.

We began this citywide collaborative approach as part of the adoption of the FY 2018/19 Budget; working in a constrained economic environment and through Council approval of the addition of a Risk Manager, Contracts Manager, and Public Records Manager, we have now begun to see the fruits of filling key positions supporting high risk areas. The positions were filled during the last few months and the incumbents were tasked to develop new citywide programs. The risk management function requires collaboration with the City Manager's Office, the City Attorney's Office, and all departments. Building on a more collaborative approach to departmental work, we recently hired contracts managers that work closely with departments to establish a citywide procurement and contracts management function. Public records staffing in the City Manager's Office, City Clerk's Office and the Police Department require combined work efforts to meet quick turnaround and address increasingly demanding legislation related to the release of records. Lastly, our effort to communicate key issues and responses through the media, led by our Director of Communications, requires the efforts of key resources in Information Technology, Police and Fire, and utilities. As we continue to look for new ways to deliver services and address administrative gaps, fostering a culture of collaboration is crucial to efficiently maximizing service delivery and providing excellent services to the community.

A Fresh Look

Consistent with the City Council pillar to enhance transparency, this budget was restructured to provide the Council and public with a better representation of City funds and spending. As part of this document, we transition from a transactional budget organized by fund to one that highlights department performance and service delivery. Service level changes included in the department sections discuss in detail the specific impact of each department request, how these requests align to departmental goals and objectives and ultimately show how our limited resources are spent to maximize and meet the City Council's strategic priorities. In this document, we present enhanced budget and fiscal policies; comprehensive budgetary financial statements that establish new reserves and incorporate fund balances; and summarize this information through new key graphs and charts. Comprehensively, this reset is part of a broader effort to set a foundation for long-term financial sustainability and future growth of our organization.

Guiding Framework

On January 31, 2019 and February 1, 2019, the City Council held two full-day sessions to review the state of the organization, advancements of policy priorities, and key data that provide direction on managing the City going forward. As part of those sessions, the City Council adopted key Council Strategic Pillars. The following Strategic Pillars were adopted:

1. Promote and Enhance Economic and Housing Development
2. Deliver and Enhance High Quality Efficient Services and Infrastructure
3. Enhance Community Sports and Recreational Assets
4. Enhance Community Engagement and Transparency

5. Ensure Compliance with Measure J and Manage Levi's Stadium
6. Manage Strategically Our Workforce Capacity and Resources (previously Maintain Adequate Staffing Levels)
7. Sustainability (new)

The City Council reviewed and adopted a set of Budget Principles. These Budget Principles were established to provide a framework for budget review and development; ensuring fiscal stability by considering both the short and long-term impacts of any funding decisions. The Budget Principles can be found in the ***Budget and Fiscal Policies*** section of this document.

As mentioned previously, this budget includes enhanced budget and fiscal policies which are highlighted in the ***Budget and Fiscal Policies*** section. These include the clarification of Appropriation Control based on language in the City Charter, establishes a policy for Interfund Loans, and cites other fiscal policies that govern our finances. In addition, consistent with the theme of fiscal sustainability, we recommend the establishment of reserves and reserve targets in select utility funds. A summary of the recommended reserve types is provided below:

- Operations and maintenance reserves with a target of funding 90-days of operations to cover unforeseen cost increases, revenue shortfalls, or protect against emergency financial crises or disaster situations.
- Construction reserves with a target of future year's capital funding requirement to support the utilities' capital improvement program (CIP) or fund unforeseen capital costs.
- Rate stabilization reserves with a target of 10% of operations to avoid wide swings in rates charged to utility customers.
- Pension stabilization reserves with targeted annual contributions of funding 1% of the City's unfunded pension liability annually to address the City's pension unfunded accrued liability.

Ten-Year Financial Forecast and Economic Outlook

The budget serves as a financial plan and operational guide that reflects the policies, goals and priorities of the City Council and community while at the same time focuses on maintaining long-term fiscal sustainability. While the fiscal outlook is not as grave as originally projected in the last Adopted Budget, it is still fragile with forecasted structural deficits within the Ten-Year Forecast and some legitimate risks that are not built into the forecast. For example, not reflected in the forecast are known factors that we have identified as risks, which may additionally adversely impact the forecast including, but not limited to the following risks:

- Decrease in Stadium Authority revenue (approximately \$3 million ongoing loss to the General Fund)
- Labor negotiations and expenditures beyond assumptions (unknown and TBD)
- CalPERS actuarial changes or any CalPERS reform actions (unknown and TBD)
- Downturn in economy / decline in revenues (unknown and TBD)
- Infrastructure operating budget impacts (unknown and TBD)
- State and federal legislative changes (unknown and TBD)
- Further refinement of major tax revenue projections (example: commercial cannabis deferred implementation, \$600,000 - \$2.4 million potential loss)
- Revenue and staffing impacts of development projects (unknown and TBD)

However, the budget continues to be fragile as there are indications for a potential economic slowdown in the near future and other factors that can impact our assumptions. We continue the approach of solving annual deficits with ongoing budget solutions as shown through the "net operating margin" model, on-going expenditure reductions or an increase in ongoing revenues are required in order to stabilize the City's fiscal

condition. We have built up our General Fund Budget Stabilization Reserve, demonstrating the incredible work that we have completed. This affords the City Council and staff time to work strategically, holistically and collaboratively on solutions. Our goal is to align expenditures with revenue growth which may require new revenue sources, service changes and/or reductions. It also requires the continued leadership and discipline that the City Council has practiced and the significant partnership that our bargaining units have provided in the best interest of the City.

Staff revised and presented the Ten-Year Financial Forecast for the City's General Fund to the City Council at the City Council Operational and Strategic Priority Setting sessions held in January and February 2019. The forecast presented shows a modest surplus of \$1.1 million in FY 2019/20 and \$0.1 million in FY 2020/21. It should be noted that budget proposals for basic needs (e.g., minimum wage compliance, state law compliance, etc.), included in this document and detailed later in the Council Priorities/Strategic Pillar section of this letter, are being recommended that will result in the elimination of the \$1.1 million surplus shown in the FY 2019/20 forecast.

FY 2020-2030 General Fund Ten-Year Financial Forecast Net Operating Margin - Ongoing Surplus/(Deficit) (\$ in millions)										
2019/20	2020/21	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30
\$1.1m	\$0.1m	(\$1.6m)	(\$0.5m)	\$0.7m	\$1.0m	\$1.5m	\$2.6m	\$2.9m	\$1.7m	\$2.6m
As a percentage of projected operating expenditures										
0.4%	0.0%	(0.6%)	(0.2%)	0.3%	0.3%	0.5%	0.8%	0.9%	0.5%	0.8%

Note: Does not assume known risk factors that will adversely impact these projections.

The forecast shows surpluses and deficits that are modest and highly sensitive to unexpected changes in forecasted revenue or expenditures. The forecast above assumes only a modest slowdown in the first few years. To the extent we experience a more severe recession, we will need to evaluate alternative methods of or reductions in delivering our services or explore more aggressive new revenue options. At the national level, the economy is in its tenth consecutive year of expansion with most economists predicting that we are at the peak of an economic expansion period. The Department of Commerce records show that the nation's Gross Domestic Product (GDP), the broadest measure of economic activity, has risen every quarter for almost five years. In addition to high consumer confidence and low unemployment, the national economy continues to remain strong.

At the regional level, job growth continues to be strong and unemployment rates have continued to remain low. The technology industry in our valley continues to be a major economic engine for the region, State and Nation. Employment data is one of the key data indicators for the health of the regional economy. The Employment Development Department reported California's unemployment rate rose past the 10% level in February 2009, reached a peak of 12.4% in early 2010, and began declining in late 2010. In the last year, the California unemployment rate declined from 5.2% in March 2017 to 4.3% in March 2018. Santa Clara County's and the City of Santa Clara's experience over the last year have been similar with March unemployment rates declining from 3.4% to 2.6% and 2.7% to 2.5%, respectively.

The strong labor market has also created some challenges including affordable housing, transportation, and maintaining a strong and competitive workforce. Rising interest rates put additional pressure on home affordability. In the City of Santa Clara, the median price for a detached single-family home dropped 5.2% in the 4th quarter of 2018 when compared to the same period in the prior year. Rising inventories at several chip manufacturers and reports of modest layoffs were both reported recently. We remain concerned that an economic slowdown in the region would present a significant impact to our forecasted budget. As such, building up reserves, finding more efficient ways of delivering service, and exploring new revenues where we are behind in comparison with similar cities will play an important role in the next few years. Overall, our

financial forecast remains on edge and we will continue to monitor our regional economy closely. With hard work, we have built up our reserves and continue to do so with this budget. Maintaining a strong financial foundation will require the continued leadership and discipline that the City Council has practiced and the significant partnership that our employee organizations have provided.

Budget Overview

The budget incorporates a balanced and responsible approach to meeting the City's short and long-term needs. The budget is an important document that serves as staff's recommendation and the City Council's direction for the work plan for the upcoming fiscal year. The FY 2019/20 Proposed Budget totals \$954.8 million. This budget figure includes adjustments for transfers, contributions and reserves to avoid double counting of the same funds (e.g. internal service funds are excluded). This budget rises to \$991.7 million for the FY 2020/21 Proposed Budget as a result of rising salaries and benefits costs and the timing of capital projects. The table below summarizes the total proposed budgets by fund group:

FY 2019/20 and FY 2020/21 Proposed Budget			
Fund Type	FY 2018/19 Adopted Budget	FY 2019/20 Proposed Budget	FY 2020/21 Proposed Budget
General Fund	250,102,186	262,299,910	268,914,009
Special Revenue Funds	13,578,142	29,248,422	13,773,302
Enterprise Funds	578,291,115	634,228,064	740,071,587
Internal Service Funds	17,492,612	35,767,831	35,264,608
Debt/Other*	-	24,536,674	26,857,773
Less (Transfers, Contributions, and Reserves)*	-	(159,862,575)	(238,995,086)
Subtotal Operating Budget	859,464,055	826,218,326	845,886,193
Capital Funds	83,992,645	128,559,518	145,841,775
Total Budget	943,456,700	954,777,844	991,727,968

* To provide more transparency, the budget for debt/other, transfers, contributions, and reserves is detailed starting in FY 2019/20. For the FY 2018/19 Adopted Budget figures, these were combined in the fund totals.

The FY 2019/20 and FY 2020/21 Proposed Budget is balanced and the appropriations recommended for departments are consistent with City Council's goals. In addition, the budget is based on the Budget Principles approved by City Council. Staff has carefully analyzed all department budget requests, taking into account the fiscal year projected resources, levels of service desired by Santa Clara residents and businesses, and City Council goals, principles and priorities.

Summary of Budgeted Positions

As mentioned previously, the Proposed Budgets include a net addition of 15.5 positions in order to address near-term and long-term administrative and programmatic gaps and is described in further detail below and in each department section of this document. The following table summarizes changes in the number of budgeted positions from the FY 2018/19 Adopted Budget.

Summary of Budget Position Changes (All Funds)	
FY 2018/19 Adopted Budget	1,111.25
Base Budget Changes (previously approved at City Council meetings)	6.00
FY 2019/20 Proposed Net Additional Positions	14.50
FY 2019/20 Budgeted Positions	1,131.75
FY 2020/21 Proposed Net Additional Positions	1.00
FY 2020/21 Budgeted Positions	1,132.75

The following table below summarizes the budgeted position changes by department. Base Budget changes reflect positions previously approved by the City Council at a separate City Council meeting. A detailed summary of Base Budget position changes can be found in the Department sections of this document.

Summary of Budgeted Positions by Department						
Department	FY 2018/19 Adopted	FY 2019/20 Net Base Changes	FY 2019/20 Net Proposed Changes	FY 2019/20 Proposed	Change	FY 2020/21 Proposed
Mayor and City Council	10.00			10.00		10.00
City Attorney	7.00			7.00	1.00	8.00
City Clerk	6.00	(1.00)		5.00		5.00
City Auditor	0.00	3.33		3.33		3.33
City Manager	13.00	(1.00)	1.00	13.00		13.00
Community Development	65.00		1.00	66.00		66.00
Electric Utility	189.00	4.00	4.00	197.00		197.00
Finance	61.00	(0.33)	0.75	61.42		61.42
Fire	167.25			167.25		167.25
Human Resources	15.00		0.75	15.75		15.75
Information Technology	7.00			7.00		7.00
Library	46.75			46.75		46.75
Parks and Recreation	80.75		2.00	82.75		82.75
Police	239.00			239.00		239.00
Public Works	127.50		1.00	128.50		128.50
Water and Sewer Utilities	73.00			73.00		73.00
Non-Departmental – Citywide Strategic Planning Function	4.00	1.00	4.00	9.00		9.00
Total	1,111.25	6.00	14.50	1,131.75	1.00	1,132.75

Investments in Our Council Priorities

With this budget, we continue to make significant investment aligned with City Council priorities. The resources allocated to each priority reflects funding that solve short-term needs and in some areas, is an initial start of addressing larger, long-term issues. A summary of service level change proposals are included below organized by City Council Strategic Pillar priorities.

Promote and Enhance Economic and Housing Development (\$754,000; \$624,000 ongoing/\$130,000 one-time)

- Real Estate Program Shared-Resources (\$305,000, 70% housing funds/30% General Fund) – adds one Assistant to the City Manager and one Management Analyst and deletes one Housing Division Manager in an effort to centralize real estate functions and develop a more robust real estate management function. Includes one-time resources to set up citywide real estate software application (\$90,000). This position will co-report to the City Manager's Office for real estate program functions and to Community Development for housing services.
- Pilot Accessory Dwelling Unit Incentive Program (\$200,000, housing funds) – initiates a loan program to encourage the development of Accessory Dwelling Units for income-qualified teachers and public service employees, to augment existing affordable housing units in Santa Clara.
- Affordable Rental Program Administrator (\$150,000, housing funds) – provides funding to administer the City's low- and moderate-income rental housing program.
- Housing Administrative Support (\$59,000, housing funds) – adds one Staff Aide I to assist with monitoring new and current housing programs.
- Housing Asset Management Software (\$40,000, housing funds) – consultant funding to assist with the implementation of housing software for tracking housing loans.

Deliver and Enhance High Quality Efficient Services and Infrastructure (\$7.9 million; \$7.9 million one-time)

- Capital Improvement Program Project Adjustments (\$3.7 million) – amends the FY 2019/20 Adopted CIP Budget to include resources for storm drain infrastructure, corporation yard renovations, water tank rehabilitation, advanced metering infrastructure, and civic center campus renovations.
- Silicon Valley Power (\$1.5 million) – funding for consultant services, conference and travel, remote property maintenance, advanced metering infrastructure and a van.
- Santa Clara Convention Visitors Bureau Subsidy Elimination (-\$1.5 million) – eliminates the current subsidy based on the transition to a new convention center operator and the proposed business model for destination marketing services as approved by Council.
- Information Technology Services (\$680,000) – resources to enhance cybersecurity, audio/visual services and Office 365 workforce transformation.
- Fire Engine Replacement (\$675,000) – funds the replacement of one reserve fire engine.
- Parks and Recreation programming (\$549,000, partially offset with program revenue) – funds additional outreach for special events, new therapeutic and north-side camps and programs, and reallocates program costs from previously unbudgeted funds to the General Fund.
- Public Works Consultant Support (\$393,000) – funds consultant to review and update fleet replacement and management policies, perform project design surveying, and to implement recent state legislation regarding traffic congestion to a vehicle mile traveled standard.
- City Auditor's Office Resources (\$357,000) – enhances audit services with funding for contractual services, conversion of one Office Records Specialist to Senior Performance Auditor, and training and conferences.
- Purchasing Policies and Procedures and Administrative Policies Update (\$330,000) – retains consultant services to update existing purchasing policies and procedures, citywide administrative policies and Civil Service rules.
- Silicon Valley Power Strategic Plan Implementation (\$250,000) – consultant services to develop a plan for implementation of the initiatives included in the adopted strategic plan.
- Revenue Strategies Consultant (\$200,000) – consultant funding to poll for potential revenue strategies/tax measures, support the development of revenue options for Council consideration, informational community outreach and legal analysis.
- Legislative Advocacy (\$150,000) – consultant services to support the City's legislative advocacy efforts as outlined in the Legislative Advocacy Position Policy.
- Fire Equipment and Programming (\$122,000) – funding for emergency response equipment, staffing software, and volunteer reserve programming.

- Census 2020 Outreach (\$100,000) – supports a more accurate census count to maximize our federal funding allocations.
- Pre-employment Consultant (\$70,000) – funding to complete a review of job physical requirements and pre-employment medical screening.
- Legal Management Software (\$50,000) – implements legal management software.
- Library Books (\$40,000) – funds purchase of eBooks and other library books.
- Santa Clara/Santa Cruz Counties Airport Community Roundtable (\$35,000) – costs related to an intergovernmental partnership with neighboring cities and counties.
- Community Garden Program Outreach (\$30,000) – funds marketing and communications efforts.
- Budget Office Workplan Support (\$30,000) – funds support for upcoming budget deliverables including the revision to the CIP budget format.
- Planning Commission Training, Education, and Conference (\$18,000) – funds planning commissioner education, training and conferences.
- City Council iPad Replacement (\$18,000) – replaces existing equipment in FY 2020/21.
- Permit System Support (\$7,000) – reallocates one Combination Inspector to one Senior Inspector to support the new permitting system.
- Northside Library Branch Additional Hours (\$5,000) – funds expanded hours on Monday, Tuesday and Sunday through the addition of one Librarian I and additional resources. Deletion of 1.0 Business Analyst partially offsets the cost of this proposal.

Enhance Community Sports and Recreational Assets (\$718,000; \$443,000 ongoing/\$275,000 one-time)

- Reed and Grant Sports Park (\$718,000, General Fund, Parks Capital Funds, partial program revenue) – funds two positions; furnishings, fixtures and equipment; and programming costs for the new Reed and Grant Sports Park projected to open in FY 2019/20.

Enhance Community Engagement and Transparency (\$382,000; \$112,000 ongoing/\$270,000 one-time)

- Document and Content Management Software Resources and Records Retention Policies Update (\$120,000) – updates records retention policies and provides funding to support the document and content management software implementation.
- City Clerk Initiatives and Voter Outreach (\$100,000) – funds voter outreach and education in an effort by the City Clerk to encourage voter participation.
- Lobbyist Ordinance Implementation (\$100,000) – funds lobbyist ordinance implementation and enforcement.
- Measure N Outreach and Engagement (\$50,000) – funds outreach and engagement for the potential upcoming district elections.
- Police Video Records Staffing (\$12,000) – adds a Police Records Specialist and deletes a vacant Staff Aide to address recent state legislation regarding public access to peace officer personnel records.

Ensure Compliance with Measure J and Manage Levi's Stadium (\$580,000; \$538,000 ongoing/\$42,000 one-time)

- Stadium Public Safety Deployment (\$365,000, 75% stadium reimbursed/25% General Fund) – adds one Stadium Oversight Manager (Deputy City Manager) to coordinate stadium functions including neighborhood impacts, multi-department deployment model, and other stadium event support issues.
- Public Safety Stadium Training (\$216,000, 100% stadium reimbursed) – funding for specialized training related to events at Levi's Stadium including firearms qualification, bicycle crowd control, sniper courses and incident command system training.

Manage Strategically Our Workforce Capacity and Resources (\$2.1 million; \$1.7 million ongoing/\$394,000 one-time)

- Silicon Valley Power Staffing (\$721,000) – adds two Electric Program Managers and one Electric Utility Engineer.
- Real Estate Attorney (\$294,000 in Year 2) – funds one Assistant City Attorney position to support real estate legal matters.
- Information Technology Services Cost-Benefit Analysis Consultant (\$200,000) – funding for a third-party review of the City's current contract for information technology services including an evaluation of audio and visual needs.
- Web and Digital Media Manager (\$194,000) – adds one Web and Digital Media Manager to oversee the redesign of the City's website and Inside Santa Clara newspaper and provide support to all departments regarding communications planning, media relations, and public outreach.
- Solid Waste Organic Waste Diversion Program (\$152,000, Solid Waste Fund) – funds one Staff Analyst to meet new state regulations regarding programs for organic waste diversion.
- Risk Management Program Resources (\$122,000) – adds one Office Specialist III to support the Risk Manager with administrative tasks in an effort to develop a more robust risk management program.
- Public Records Act Resources (\$120,000) – funding to assist with public records act requests until ongoing technology improvements are completed.
- Human Resources Administration (\$112,000) – adds an Office Specialist IV to provide administrative support to human resource operations.
- Housing Division Staffing (\$57,000) – adds one Staff Aide position to assist with monitoring existing and new housing programs.
- Tuition Reimbursement and Professional Development (\$54,000) – funds Working Scholars Program and offers educational benefits that improve employee skills and potential promotional opportunities.
- Firefighter Recruitment Pilot (\$20,000) – funds marketing and outreach resources to promote a diverse applicant pool for the upcoming firefighter academy.
- Public Works Engineering Staff (\$11,000) – deletes a vacant Associate Engineer and adds a Management Analyst position to perform analytical work currently performed by engineers.
- Certified Access Specialist Program (\$7,000) – funding to increase training for building inspectors to obtain accessibility certification.

Sustainability (\$670,000 ongoing)

- Sustainability Program (\$317,000 across various funds) – adds one Assistant to the City Manager to oversee strategies outlined in the Climate Action Plan with a focus on creating a more sustainable, healthy, and livable community; work with Silicon Valley Power to evaluate energy efficiency programs; ensure a reliable water supply, and coordinate with public works and community development regarding new building requirements.
- Silicon Valley Power Staffing (\$253,000) – adds one Electric Program Manager to support the utility's electric vehicle program.
- Multi-Family Energy Rehab Program (\$100,000, housing funds) – a pilot program for multifamily housing for projects achieving 15% whole building energy savings with gas, electric, and water measures.

Amendments to the FY 2019/20 Adopted Capital Budget

The City Council approved the FY 2018/19 and 2019/20 Biennial CIP Budget on June 12, 2018. This action approved a two-year capital budget and presented a five-year capital improvement plan. As the focus of this year's budget is operations, several budget amendments to the FY 2019/20 Adopted Capital Budget are recommended. Further detail can be found in the **Appendices** section of this document. Some of the key budget amendments are summarized below:

- Water and Sewer projects (\$4.2 million) – additional contributions for the San Jose/Santa Clara Regional Wastewater Facility, water tank rehabilitation and to develop a water infrastructure asset management program.
- Civic Center Campus Renovations – Multi-Department (\$1.0 million, General Fund) – funds renovations for finance, human resources and other departments to bring offices to modern standards and transition of a portion of the cafeteria for employee collaboration.
- Parks and Recreation projects (\$900,000) – funding to repair the roof at the recreation center at Bowers Park and construction of a restroom at Fairway Glen Park.
- Storm Sewer and Corporation Yard infrastructure (\$787,000) – funding for fiber optics to storm pumps, storm water retention basin remediation, and to repave the parking lot at the corporation yard.
- Silicon Valley Power Electric Utility projects (-\$12.8 million) – funding adjustments to several projects to reflect current project timelines and necessary project augmentations.
- Public Works Capital Projects Management – a new internal service fund to centralize Public Works staff costs in support of our capital programs.

In addition to the projects above, operations and maintenance costs are evaluated for all projects coming online. For projects coming online within the two-year operating budget window, funding proposals are included in this document to support operation of these capital projects upon completion. This budget includes resources for the Reed and Grant Sports Park and is discussed further in the ***Parks and Recreation*** section of this document.

Lastly, the carryover of unexpended capital project funds from FY 2018/19 to FY 2019/20 is necessary in order to continue or complete projects beyond the current fiscal year. As appropriations lapse annually on June 30th, recommendations to carryover funding will be brought forward under separate cover for City Council consideration as part of the budget adoption in June 2019.

Stadium Authority

The Stadium Authority exists as a public body, separate and distinct from the City, and is established to provide for development and operation of Levi's Stadium. It is structured so that the City will not be liable for debts or obligations of the Stadium Authority. The Stadium Authority's stand-alone Fiscal Year 2019/20 Operating, Debt and Capital Budget was adopted by the Stadium Authority Board on March 27, 2019 and can be found at "<http://santaclaraca.gov/government/stadium-authority>". This budget reflects the revenues and expenditures related to the support of the Stadium; expenditures related to the Stadium Authority can also be found in the ***General Fund Non-Departmental*** section of this document.

Next Steps

A joint study session of the City Council, Sports and Open Space Authority, and Housing Authority will be held on May 7, 2019, at which staff will present an overview of the Proposed FY 2019/20 and 2020/21 Biennial Operating Budget.

Additionally, as a separate report, the Council will be presented with a matrix that inventories the individual policy priorities of each Councilmember, as expressed during our January and February 2019 at the City Council Operational and Strategic Priority Setting Sessions and additional City Council referrals that came forward thereafter, as well as an assessment of staffing and resource needs to implement them. The Council will be able to discuss these priorities and determine which items to advance. For items that the Council desires to advance, a tradeoff discussion/action against other service delivery goals would be required given that there are no surplus funds available with the proposed budget and any changes would require defunding services or proposals.

The proposed operating budget is scheduled for formal adoption on June 4, 2019.

Summary

The City of Santa Clara has been known as innovative and forward-thinking with a tradition of effectiveness and providing excellent services to the community. Through hard work and fiscal discipline, this budget builds on the financial foundation we set by building up reserves and refining our Ten-Year Financial Forecast. Our services to the community remain high, but there is more work to accomplish. The City is challenged with growing its revenue streams to support on-going public services and service areas that the community and City Council have expressed as priorities. The next 18 months is critical for the City to establish a revenue growth strategy, while also controlling expenditure levels. One-time resources are dedicated in this budget for turnaround initiatives that touch almost every department in the City in order to update outdated policies and procedures. Departments took a collaborative approach to bring forward creative solutions such as centralizing administrative functions among the Mayor and Council, City Clerk, and City Manager offices. The City Council provided feedback on numerous referrals through the City Council Operational and Strategic Priority Setting Sessions; many of these referrals are funded, meeting the highest needs of our City and enhancing crucial city services within limited additional resources. We took a fresh look at the budget, increasing transparency, allocating budget proposals by Council pillars, reviewing and including funds previously unbudgeted, recommending budget and fiscal policies that establish key reserve targets, and developing a strategy to fund our long-term pension obligation on an ongoing basis.

Santa Clara continues to be at the forefront of a strong state-wide economic recovery led by the Bay Area region. Businesses in the City are creating jobs, the economy is active, and unemployment is low. As we continue in a record economic expansion, we need to take caution. Our revised Ten-Year Financial Forecast includes deficits starting in the third year. We will continue to pursue new revenue options including evaluation of our TOT and UUT, recommending increases where we are behind compared to neighboring cities. In parallel to pursuing additional revenue, I will continue to focus my efforts on streamlining City operations and exploring alternative service delivery options.

City departments worked together as a team with my Office and the Finance Department to prepare this fiscally responsible, balanced budget. The budget maintains the level of funding needed to continue the City's goal of excellent service to the Santa Clara community. The hard work and dedication of City's Department Heads and employees is greatly appreciated, along with the community participation and policy leadership of the City Council. The Proposed Fiscal Year 2019/20 and 2020/21 Biennial Operating Budget is consistent with the City's mission and appropriates the resources necessary to facilitate meeting the goals of the City Council.

In closing, I want to thank the City Council for our continued strong partnership in advancing strategic priorities that positions well the City of Santa Clara and our financial planning for coming years. I truly feel that we have made great strides in aligning the organization on a strategic path for success as demonstrated by our accomplishments during the last year. With this budget we have done a great job of balancing the needs of our community and the organization with a focus on our employees, our greatest asset.

Respectfully submitted,

Deanna J. Santana
City Manager

Angela Kraetsch
Director of Finance

Santa Clara at a Glance

The City of Santa Clara (City) has always reflected the progressive, bellwether nature of California. It is one of the oldest cities in the state, an agricultural powerhouse in the 1800s, and the birthplace of many of the technology innovations that created Silicon Valley in the 1900s. Today, it maintains its leading edge status as a community that is nationally recognized for its livability and a city that has a sustainable, bright future powered by the private investment of billions of dollars in new development and growth opportunities.

History

Santa Clara was incorporated in 1852 as a Charter City with a Council/Manager form of government although it existed as a community for hundreds of years prior to that as a village for Ohlone Indians and their ancestors. European explorers came to the area in the mid-1700s and settled it as a military and religious outpost. It is called the “Mission City” in reference to the Mission Santa Clara de Asis, which opened in 1777 as one of 21 Spanish missions established by Franciscan padres along El Camino Real in California.

Size

Santa Clara encompasses 18.41 square miles in the heart of Northern California’s Santa Clara County, also known as Silicon Valley, in recognition of the region’s leadership in technology innovations that changed the way the world lives, works, learns and plays. It is part of the burgeoning South Bay metropolitan area that includes the City of San José, the 10th largest city in the U.S., and the wider nine county San Francisco Bay Area that is the fastest growing region in the state.

Population¹

The 2018 population of the City of Santa Clara is estimated at 129,604 and is one of the most diverse in the nation with over 42.4% of residents born outside the U.S. Over half of the population is non-Caucasian. The City’s residents are also highly skilled and educated, with 57% of adults holding a bachelor degree or higher. The median age is 33.9 years and the median household income is reported at \$108,609.

Business¹

More than 12,751 licensed businesses are registered to conduct business in City of Santa Clara, ranging from entrepreneurial start-ups, to longstanding family owned firms, to the international headquarters of Fortune 500 corporations. Together these Santa Clara businesses represent an employment base of over 152,238. Almost half the land in the City of Santa Clara is zoned for commercial use and millions of square feet of new office and retail projects are under development or in planning stages, greatly expanding the City’s capacity to accommodate businesses that want to start, relocate or expand in a high energy, dynamic environment.

City Services

Santa Clara is a full service city with its own police and fire departments and energy, water and sewer utilities. Other core services include a nationally-ranked library, 38 parks and playgrounds nearly totaling 450 acres, award winning services and recreational programs for seniors and youth, neighborhood beautification, free citywide outdoor Wi-Fi, special events and support of history and art museums and other cultural and performing arts. In 2015, the City of Santa Clara was named the 7th most livable city in America because of its outstanding quality of life and opportunities for individual and business success.

Housing¹

There are 43,417 households in the City and housing stock continues to expand through new transit-oriented developments that offer lifestyle alternatives to the City's traditional single family neighborhoods and carefully preserved historic homes. The City is in the midst of a metropolitan area that is one of the highest priced housing markets in America. The median price to purchase a single family home is \$1,175,000 and to rent a one bedroom apartment is \$2,229. Santa Clara has invested millions of dollars in affordable housing projects that provide 1,479 units for low income seniors, families, homeless and disabled residents.

Transportation

In addition to its own 240 miles of City-owned roads and streets, Santa Clara is crisscrossed by State Highway 101 and two regional expressways. Public transit services in the City include buses, light rail, Caltrain and Amtrak. An extension of BART into the South Bay will terminate in Santa Clara, and the Norman Y. Mineta San José International Airport is on the border of the City. Santa Clara has also placed a priority on providing bike lanes and completing the San Tomas Aquino/Saratoga Creek Trail that will link with other trails in the South Bay.

Education¹

Public schools serving residents of Santa Clara are under the authority of independent school districts, but the City works closely with them to provide quality educational opportunities for grades K-12 and students attending Mission College for a two-year degree or professional development. Santa Clara University, the oldest institution of higher learning in California, is located in the historic Downtown Quad area of the City and enrolls 5,438 undergraduate students and 3,296 graduate students.

Infrastructure¹

Each year, the City makes significant investments in maintaining, expanding, and improving civic infrastructure for the benefit of residents and businesses. It offers the lowest combined water, sewer and electric rates in the nine Bay Area counties. Through the utility's Santa Clara Green Power program, the City of Santa Clara ranks 5th in the nation by the Environmental Protection Agency (EPA) among cities of any size for the amount of 100% green power usage by its customers. Over the past few years, the City's water storage and delivery system has been upgraded and it is one of the most successful purveyors of recycled water at about one billion gallons each year. The City is a partner in the San José-Santa Clara Regional Wastewater Facility and is investing \$300 million over the next 30 years to update the aging facility and expand capacity.

Economic Development

The City of Santa Clara welcomes business, and that strategic attitude is paying off with billions of dollars in private investment currently under construction or in the pipeline. As these projects come online, the City's economic base is broadened and diversified, ensuring greater fiscal stability in the future as well as increased revenues to the City's budget to replace the loss of Redevelopment Agency funding.

Development projects approved over the past fiscal year include Class A office space, data centers, housing, retail, and mixed use. Some of the largest projects include: approval of the Lawrence Station Area Specific Plan, which accommodates 3,500 residential units and 100,000 square feet of retail, plus approval of two development proposals within the plan area that allow over 1,000 residential units and approximately 40,000 square feet of retail; master plans and associated development approvals for expansions of Great America Theme Park and Santa Clara University; Mission Park Marketplace which includes a 175-room hotel and 24,000

square feet of retail; two data centers with a combined total of over 500,000 square feet; and a 230,000 square foot Class A office at 3200 Scott Boulevard. More information on new development projects can be found on the City's website SantaClaraCA.gov under the "Development Projects" link.

Santa Clara Compared to Other Cities in the Local Region

The following graphs compare per capita revenues, from key sources, and total budgeted expenditures for FY 2018/19, and total assets as of June 30, 2018¹, in the City of Santa Clara, to other cities in the local region. Sales tax and property tax are the top two revenue sources for the City. Expenditures are from all funds for operations and capital improvement projects. Additionally, Cities' Administration, defined as Council and its direct day-to-day support staff, including offices of City Manager, City Attorney, City Clerk² and City Auditor², budgeted expenditures and personnel are also quantified. Cities' budgets and assets in relation to its respective population and personnel, defined as Full Time Equivalent (FTE), are examined.

Source: City of Milpitas Conducted FY 2018/19 Survey

¹ Stated in Comprehensive Annual Financial Report (CAFR), as of June 30, 2018. Cities of Campbell, Cupertino, and San Leandro latest available CAFR is as of June 30, 2017.

² City Clerk and City Auditor are not their own independent departments consistently across jurisdictions in the local region.

Budget and Fiscal Policies

We present the relevant policies and practices that define specifically the way the City manages its budget, reserves, interfund loans, investments and debt with the goal of long-term fiscal sustainability. The City Council reviews and approves budgetary policies as part of the annual budget process. Investment and debt policy statements are referenced in this section; however, reviewed and approved by the City Council under separate cover.

Appropriation Control

The City Council is responsible for approving the appropriation of fiscal resources to cover estimated expenditures for each fiscal year. Expenditures are appropriated in each fund to departments, offices, and agencies for various goods and services described in the budget. The legal appropriation control is established at the department level in each fund. For select funds where expenditures are not allocated to a specific department, the appropriation control is established at the fund level. Transfers of funding between budgetary funds require City Council appropriation and approval. City Council approval is required for a budget amendment during the fiscal year which may include the use of reserves or fund balances, and approval of appropriations of grant monies. Per Article XIII, Section 1305 of the City Charter, appropriations lapse at the end of each fiscal year; therefore, unencumbered funds allocated for specific projects, donations, and grants require City Council appropriation for use in the following fiscal year.

Budgetary transfers between accounts or expenditure category may be done through Finance Department or City Manager's Office approval as long as they are conducted within the legal appropriation control limit set by the City Council.

Balanced Budget

The City Council considers General Fund budget decisions with long-term implications based on information from the Ten-Year Financial Forecast. One-time sources are used to cover one-time uses. The budget is structurally balanced when forecasted ongoing sources cover ongoing uses. Budgets shall be structurally balanced to the extent possible. Reserves should be considered to balance a budget only in the context of a plan to return to a structural balanced budget.

Budget Monitoring and Reporting

Financial reports on actual performance in relation to budget are prepared by the Finance Department through monthly financial statements. These reports are prepared and presented to the City Council, per City Charter requirements (Section 802) the City Manager shall be required to keep the City Council advised of the financial condition and future needs of the City. City Departments are responsible for reviewing these monthly financial reports and identifying potential budget problems and recommending corrections through budget amendments.

Long Term Financial Forecast

The Finance Department prepares a Ten-Year General Fund Financial Forecast which is incorporated into the budget planning process and presented to the City Council annually. This forecast is updated annually and considers current and future economic conditions, revenue projections, and spending scenarios based on the latest available assumptions. Capital improvement plans are created and published on a five-year basis to provide a long-term plan of the City's capital funding plan. Ten-year financial forecasts for the City's utilities are also provided as an addendum to the Ten-Year General Fund Financial Forecast.

Municipal Fees and Charges

User fees are reviewed and adjusted for on an annual basis with the goal of maximizing cost recovery. The City Council may consider and approve any fee that is below 100% cost recovery, requiring a General Fund subsidy if it is in the public's best interest. User fees are adopted by the City Council annually through the Municipal Fee Schedule. Utility fees and certain other fees and assessments can also be approved separate from the Municipal Fee Schedule. Parks and Recreation fees are established by the Parks and Recreation Director and published in the annual Activity Guide.

Capital Planning

The City Council reviews and adopts a two-year Capital Improvement Program Budget which includes a five-year capital improvement program. Per State Government Code Section 65401, the Planning Commission reviews the capital improvement program for conformance to the City's General Plan and proposes recommended considerations for the City Council. The Capital Improvement Program (CIP) is submitted by City departments and reviewed by the City Manager's Office and Public Works Department. The review process considers City priorities and identifies the most urgent projects for capital funding by program area, master plans or needs assessments which identify the most critical projects for repair and replacement. Public Works Department staff reviews project estimates and evaluates the current bidding environment. Project contingency reserves are established based on the type of project and the project estimate type (engineering or preliminary estimates). Operating and maintenance costs are identified for planning purposes when projects are completed and come online.

General Fund Reserves

The City Council allocates available resources to General Fund contingency reserves through various reserves designated for emergency use or restricted future uses. Restrictions are established by policy, or through legally segregated development-related fee reserves collected from users.

- Budget Stabilization Reserve (formerly the Working Capital Reserve) – is used as an allocation for weathering economic downturns, emergency financial crisis or disaster situations. The reserve target is equal to the cost of the City's General Fund operations for three months (90-day working capital reserve).
- Capital Projects Reserve – is used to support the City's CIP. The minimum target is \$5.0 million with a goal of having sufficient funds to fund capital projects included in the City's biennial capital budget and five-year CIP.
- Land Sale Reserve – this reserve allocates proceeds from the sale of City-owned land.
- Building Inspection Reserve – allocates user fees in the Community Development Department's Building Inspection Division. The funds from this reserve are used to fund inspection services or projects directly related to the Building Inspection Division activities. Funding can only be used to support user fee related activities when annual revenues are insufficient to cover annual expenditures. Individual user fees are included and approved under separate cover as part of the Municipal Fee Schedule.
- Advanced Planning Fee Reserve – this reserve allocates a portion of user fees for the update and amendment of the City's General Plan. Individual user fees are included and approved under separate cover as part of the Municipal Fee Schedule.

Utility Funds Reserves

The City conducts regular cost of service studies to evaluate rates and charges for each utility with projected needs and expenditures. As part of the most recent water and sewer cost of service study conducted in May 2018, several recommendations were made by the consultant to establish a reserve policy in order to cover shortfalls in operating revenues, maintain strong bond ratings, cover day-to-day operating costs, and ease the burden on ratepayers associated with large rate increases. The following reserves are recommended in the water, sewer and recycled water utilities:

- Operations and Maintenance Reserve – this reserve is used as an allocation for covering day-to-day expenses, cover unforeseen cost increases or revenue shortfalls, and protect against emergency financial crises or disaster situations. The reserve target is equal to the cost of the individual utility's operations for three months (90-day working capital reserve).
- Construction Reserve – this reserve is used to support each utility's CIP or fund unforeseen and unbudgeted capital costs. The target minimum goal is a balance of the following year's planned capital improvement program.
- Rate Stabilization Reserve – this reserve is used to absorb short-term revenue shortfalls and is designed to stabilize utility rates and is an effort to avoid wide swings in rates charged to utility customers over time. The target minimum goal is a balance of 10% of each utility's projected current year rate payer revenue.

In addition to the recommended reserves cited above, the City's Electric Utility Fund has established rate stabilization and cost reduction reserves. These reserves are intended to stabilize electric utility rates and set aside as a buffer for unforeseen expenditures or revenue shortfalls.

Other Reserves

The City may include additional reserves set aside for specific purposes based on legal, policy, or budgetary purposes. Some of these include reserves for historical preservation, pension costs, vehicle or fleet replacement, workers' compensation costs, or to fund potential future general liability claims against the City.

Interfund Loans and Advances

Interfund loans are loans from one City fund to another City fund for a specific purpose, with a requirement for repayment. Interfund loans should be short-term in nature and shall not be used to solve ongoing structural budget deficits. The department managing the borrowing fund should complete the interfund loan agreement. The agreement should include the amount requested, loan period, description of the loan and repayment terms. Interest shall accrue at the City's pooled investment rate at the time of the loan approval. A summary of outstanding interfund loans are also included in the City's Comprehensive Annual Financial Report and in the table below. In addition, advances from the General Fund have been approved by the City Council that may be paid back by other revenue sources. A detailed listing of outstanding loans and advances are included in the following table:

Receiving Fund	Originating Fund	Loan/Advance	Outstanding Amount (as of June 30, 2018)
Cemetery Fund	General Fund	Advance	5,657,176
Santa Clara Golf and Tennis Club Fund	General Fund	Advance	4,224,133
Parks and Recreation Capital Fund	General Fund (May 22, 2018, RTC 18-124)	Loan	10,227,098
Housing Successor Agency Fund	General Fund (Land Surplus Reserve) December, 13, 2016, Item # 15A	Advance	4,050,000
Total Interfund Loans and Advances			25,158,407

Detail of Outstanding Loans:

Receiving Fund	Originating Fund	Payback Source and Term	Interest Rate	Outstanding Amount (as of June 30, 2018)
Parks and Recreation Capital Fund	General Fund	25% of future Mitigation Fee Act revenue until the loan is paid in full	1.48%	10,227,098

Investment Policy

The City undertakes investment related activities that are made with prudence. On an annual basis, the City formalizes these activities in the Investment Policy Statement which is adopted by a resolution of the City Council (<http://santaclaraca.gov/home/showdocument?id=63746>). The policy is to invest public funds, including bond proceeds, reserves and other special City funds, in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the City and conforming to all state and local statutes governing the investment of public funds.

The City of Santa Clara Charter gives the Director of Finance the authority and responsibility to deposit and invest all City funds. It authorizes the Director of Finance to invest the City's idle cash in allowable investment vehicles with a maximum remaining maturity of five years at the time of purchase. The City Council may grant express authority either specifically or as part of an approved investment program to invest in vehicles with remaining maturity that exceeds the five-year restriction. Authority must be given to the Director of Finance at least three months prior to the investment. California Government Code also allows the City to invest in the same investment vehicles as authorized by the City Council. The Director of Finance establishes written depository and investment policy procedures for the operation of the investment program consistent with the City Investment Policy, establishes a process of independent review by an external auditor and provides monthly investment reports to the City Council.

Debt Policy

The City believes that debt is an equitable means of financing projects and represents an important source of meeting fiscal responsibilities. The City obtains and maintains long-term debt for large capital improvement projects. The Finance Department manages the City's debt with prudence, diligence, and attention to prevailing economic conditions and applicable laws. It manages issuance of debt, administers debt proceeds, prepares ongoing disclosure, handles debt and tax compliance, and makes debt service payments. City departments with debt-financed capital programs coordinate with the Finance Department in implementing and handling debt related transactions. Semiannual updates are prepared by the Finance Department on outstanding debt for the City of Santa Clara, its Agencies and Corporations. This report is presented as a standard management practice that provides a valuable overview of the current status of the City's long-term debt obligations. The current City Council approved debt policy can be found online at: (<http://santaclaraca.gov/home/showdocument?id=63748>).

Donation Policy

Donations may be offered in the form of cash, real or personal property. "Designated" donations are donations where the donor specifies intended use by a particular City department, location, or purpose. "Undesignated" donations are given to the City as a whole, for an unspecified use. Donations of any kind which might be perceived or interpreted as an attempt to influence actions of the City Council or City Administration will not be accepted. All donations are presented to the City Manager for compliance with the policy. As part of the annual budget process, for anticipated monetary donations, staff will bring forward for Council consideration a balanced appropriation for revenue and expenditures to facilitate the acceptance of donations throughout the fiscal year. Donations valued at \$100,000 or greater require City Council acceptance and appropriation of funds. Donations valued less than \$100,000 may be accepted with the monetary donations available to departments for expenditure as part of the adoption of the annual budget. A report of all donations received by the City is presented to City Council as part of the Monthly Financial Report. The appropriation of anticipated donations can be found in each respective City department and corresponding Source and Use of Funds Statement in this document.

Community Grants Policy

The budget includes an allocation of \$100,000 for Community Grants to offset the cost of City fees in support of the Council approved Community Grants Policy. Annually, and subject to availability of funds, the City Council shall establish grant appropriations as part of the approval of the budget. Community grants, subject to availability of funds, shall not exceed \$10,000 per applicant, per year. To receive grant funds, grant applications must be submitted at least 90 days before the planned event/activity being funded, regardless of the form of the grant, and will be evaluated by the City Manager's Office on a case-by-case and "first come-first served" basis, throughout the fiscal year. Applicants are encouraged to submit their applications at the beginning of the fiscal year, for events or activities occurring at any time during that fiscal year, to maximize opportunity for availability of funds. The City Manager's Office shall approve or deny an applicant's request based upon eligibility criteria, and subject to funding availability as approved by the City Council through the adoption of the annual budget. Grants for community events shall not be provided for waiver of or reimbursement for already discounted permit fees. Grants for attendance at youth state, national, or international competitions or performances shall be limited to costs of registration, hotel, transportation and food for participants and coaches/chaperones only. Due to short notice to advance to state, national, or international competitions, applicants shall submit an application within one week of advancing to such competitions. In all cases, the City reserves the right to reject any and all applications in the event the City Manager's Office identifies a potential conflict of interest or the appearance of a conflict of interest. Submission of an application in no way obligates the City to award a grant and the City reserves the right to reject any or all applications, wholly or in part, at any time, without penalty.

Stadium Authority Policy

The Stadium Authority exists as a public body, separate and distinct from the City, and is established to provide for development and operation of Levi's Stadium. It is structured so that the City will not be liable for debts or obligations of the Authority. The governing board duties and the fiscal policies that govern the Stadium Authority is included in the stand-alone Fiscal Year 2019/20 Operating, Debt, and Capital Budget that was adopted by the Stadium Authority Board on March 27, 2019. This can be found at "<http://santaclaraca.gov/government/stadium-authority>". This budget reflects the revenues and expenditures related to the support of the Stadium and can also be found in the General Fund Non-Department section of this document titled Stadium Operations.

Policy Development

Staff has established this Budget and Fiscal Policies section in an effort to improve governance, transparency, and establish policies to govern the budget. These policies will be reviewed annually and enhanced as capacity allows.

Budget Guide

The following information is presented to help the reader understand the way the City allocates budgets and accounts for the operations of the City. Explanations are presented in two categories: Budget Book Details and Fund Accounting.

Understanding the Budget

Budget Definition

The budget of the City is a detailed operating plan that identifies estimated costs and program benefits in relation to estimated revenues. The budget is prepared in accordance with Generally Accepted Accounting Principles (GAAP), except encumbrances which are recognized as expenditures when legal contracts or commitments are entered into. The budget for governmental funds has been prepared on a modified accrual basis, recognizing revenue when they are measurable and available to be used to finance expenditures in the fiscal year. Expenditures are recognized when they occur, regardless of when cash is received or disbursed. The budgets for proprietary funds are prepared on a full accrual basis, recognizing revenue and expenditure activity for the fiscal year for which the activity occurred. The budgetary accounting basis and the consolidated annual financial reports include the reconciliation between GAAP modified and/or full accrual accounting for the financial reports and the budgetary basis budget. All of the year-end financial reports are kept on the basis of modified or full accrual accounting. The budget includes the proposed services to be provided during the fiscal year and the associated appropriations to cover the costs of the proposed programs, projects, services and activities. These are funded by the estimated revenue and/or fund balance available to finance the proposed service levels.

Budget Process

The budget process is the mechanism through which policy decisions are made, implemented and controlled. The City Charter requires that the City establish a budgetary system for general operations and prohibits expending funds for which there is no legal appropriation. The City is required to adopt an annual operating budget on or before June 30 for the ensuing fiscal year that begins July 1.

The procedures to establish the budget are as follows:

1. In December, departments review their annual budget to determine what their base budget needs to be for the following year, in order to keep the City Council-approved level of service currently provided. Once these adjustments are identified, base budget requests are submitted to the Finance Department for review.
2. After receiving all base budget requests and corresponding back-up documentation to support the requests, the Finance Department meets with the City Manager's Office to review all department requests. Once these meetings take place, the base budget is established for each department.
3. The City Manager's Office, along with the Finance Department, coordinate a citywide presentation to kick off the budget process in January to provide a brief overview to departments of what is expected in their submissions as well as a timeline of due dates for service level change requests.

Budget Process

4. At the end of January, there is a City Council operating and strategic priority setting retreat. Any recommendations that come forward during this retreat are incorporated into service level change requests. During this retreat, the Ten-Year General Fund Financial Forecast is also presented to City Council for approval.
5. Departments submit to the Finance Department all service level change requests for the operating budget, as well as any critical needs for adjustments in their Capital Improvement Program budget. The Finance Department reviews all submissions, working with departments to resolve any questions or outstanding issues.
6. Budget meetings are held between the City Manager, the Finance Department, and the departments to review all service level change requests in both the operating and capital improvement program budgets. After these meetings have taken place, decisions are finalized based on the items presented, balancing each fund's budget and incorporating City Council priorities.
7. The City Manager submits to the City Council a proposed operating budget for the two following fiscal years, as well as any capital adjustments for the following fiscal year, commencing July 1.
8. Public hearings are conducted to obtain City Councilmembers' and residents' comments.
9. The budget is legally enacted through passage of a minute order.

From the effective date of the budget, the amounts stated therein as proposed expenditures/expenses, become appropriations to the applicable funds. In order to amend the budget during the year, departments must submit a Report to Council, explaining the need for the change and budget implications. Upon review and approval of the City Council, the budget may be amended. For the Operating Budget, the legal level of budgetary control is at the fund and department level. For funds that do not have an associated department, the legal level of budgetary control is at the fund level.

In addition to the biennial appropriated operating budget, every other year a Capital Improvement Program (CIP) Budget is adopted and a five-year capital needs plan is updated and accepted by the City Council for the City's anticipated capital projects to be funded over the next five years. For the CIP Budget, the legal level of budgetary control is at the project level.

Budget Book Details

The Operating Budget includes a **City Manager's Transmittal Letter** that provides an overview of the organization, the short- and long-term issues facing the City, City Council priorities and the changes to the budget as they align to strategic initiatives. The **City Profile and Organization Chart** section provides basic facts about the City, a detailed roster of elected officials including Boards and Commissions, the City's executive team, comparison of key revenue and expenditure data to other local cities and the City organization chart. The **Budget and Fiscal Policies** section provides detailed policy framework driving the development of the budget, including a glossary and acronym index. The **Budget Summary** details the total City budget across all funds, with adjusting entries reconciling to a total net City budget. **Graphs and Tables** are included detailing expected revenue, expenditures and budgeted positions. A **Debt Service** section summarizes the City's debt policy and outstanding obligations.

A new section detailing each City fund now includes funds previously unbudgeted. The **Statement of Sources and Uses** section details revenues, expenditures and fund balance position including prior year actual activity, current year budget and estimated revenue and expenditures, and two-proposed budget years. This section is organized by accounting fund type detailed later in this section.

Department sections detail each department mission and objectives broken into divisions and programs. A summary of accomplishments from the past year, objectives for the next two years and budget highlights are included. A table summarizing Dollars by Division and Program, Dollars by Fund and Dollars by Category provide multiple views of the budgeted dollars. Position budgets are developed initially in the fall of the preceding year with an interface of salary and benefits data with the Human Resources/Payroll system. These positions are reviewed and amended based on Council-approved service levels with allocations reflected by fund, division, and program. A summary of positions by division and program, by fund and by job classification are included in each department. Budget reconciliations are included in each department section. This section summarizes changes from the prior Adopted Budget, including one-time and ongoing changes to the Base Budget and recommended Service Level Changes. After the budget reconciliation are the service level change requests. This portion of the department section includes a description of the request, the dollar amount in each proposed year and any position change resulting from the request. Each service level change discusses the performance impact and notes the alignment to the City Council priorities represented in a strategic pillar.

Categories of Expenditures

Salaries - Includes regular salaries, overtime pay, vacation pay, holiday, separation payouts and premium pays such as out-of-class pay, night differential pay, hazard pay, evidence tech pay and paramedic pay. These costs are primarily driven by the number of positions budgeted within the program.

Benefits - Includes Medicare, social security, health allocation, other post-employment benefits (OPEB), and CalPERS retirement costs. Other benefits such as Voluntary Employee Beneficiary Association (VEBA), dental, life insurance, uniform allowance, meal allowance, employee assistance program, auto allowance, mobile phone allowance and professional development are included, if applicable.

Materials/Services/Supplies - Includes all expenditure items that the department has direct control over such as contract costs, supplies, equipment purchases and utility charges. For the second year of the Biennial Operating Budget, a 2% increase to costs has been applied to most line items.

Categories of Expenditures

Resource and Production - Consists mainly of costs related to the purchasing or generating of electricity, water, or recycled water as well as disposing of solid waste matter and sewage effluent for the respective City utilities.

Interfund Services - Includes two types of expenses. The first type is for charges that one department or fund charges to another for services provided, which includes charges calculated by the Indirect Cost Allocation Plan. An example would be charges that Public Works incurs to the General Fund Police Department to maintain police vehicles. The Indirect Cost Allocation Plan includes costs that are typically termed "citywide overhead". Most of these costs are those expenditures which provide support services or oversight to another department or fund citywide. These costs are allocated based on an allocation factor, such as employee count or budgeted expenditures, which is used as the basis for distributing costs to departments or funds receiving the support or benefit. Examples of such expenditures that are allocated are for services provided by the City Manager's Office, City Attorney's Office, Finance and Human Resources. These service costs are allocated to other departments or funds in the Full Cost Allocation Plan. This plan was recently updated by a third-party consultant and will be reviewed every two or three years and include modest increases between updates. The second type of allocated charge is citywide in nature, funded through the City's internal service funds. Citywide liability insurance costs and information technology costs are apportioned to departments or funds in the City.

Capital Outlay - Includes small capital expense purchases not budgeted within the Capital Improvement Projects budget. Most individual capital purchases with a cost of less than \$5,000 are expensed in this category.

Transfers to Other Funds - Includes all money moving to other funds. Transfers can be between the operating and capital improvement program budget to provide funding for capital projects or between different operating funds. Transfers to other funds are included in the department budget sections.

Debt Service – Funding provided to pay for the City's Debt Service obligations. These costs have been excluded from department budgets and detailed in a separate Debt Service section in the document.

Strategic Pillars

The following are the strategic pillars established by the City Council to provide a framework for this budget document. In each department section, service level changes and performance and workload measures aligned to one of the Council-approved pillars below:

Enhance Community Engagement and Transparency

Deliver and Enhance High Quality Efficient Services and Infrastructure

Manage Strategically Our Workforce Capacity and Resources

Promote and Enhance Economic and Housing Development

Sustainability

Enhance Community Sports and Recreational Assets

Ensure Compliance with Measure J and Manage Levi's Stadium

Performance and Workload Measures

In program budgeting, Performance and Workload Measures are used to measure the performance of the department. These measures align budget dollars allocated to provide services with City Council priorities through Strategic Pillars in an effort to drive budgetary decision making. These measures provide insight into how efficiently or effectively the City is providing services in each major program. They are the measures through which the value of services can be assessed by Council and the public. Workload measures provide insight into the volume of effort that is required to provide each service. Performance and Workload Measures tend to remain the same year after year to provide longitudinal data which allows trends to be evaluated. There are, however, some programs which do not have performance measures. These are in areas where quantifiable results are either not appropriate or where it would be too costly to gather the information. Additionally, there are programs where there are no results/budget for particular years, as noted by "N/A". This indicates that the measure was either: (1) new for the budget year, (2) the program is closed/closing for the budget year, or (3) the measure moved to another program due to a department reorganization of structure. All measures are tied to a strategic pillar, displayed by the icons in the Performance and Workload Measures tables. Performance and Workload Measures proposed for addition or deletion are noted on each measure.

Fund Accounting

The accounts of the City are organized and operated on the basis of funds, each of which is considered a separate accounting entity. Government resources are allocated to and accounted for in individual funds based upon the purposes for which the resources are to be spent. A general description of each follows:

Governmental Fund Types

Governmental funds are those through which most governmental functions of the City are financed. The following are the City's Governmental Fund Types:

General Fund - Used to account for the general operations of the City.

Special Revenue Funds - Used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specific purposes. Examples of Special Revenue Funds include the Downtown Parking Maintenance District Fund and the Housing Authority Fund.

Debt Service Funds - Used to account for the accumulation of financial resources to be used for the payment of principal and interest on General Government Operating and Capital long-term obligations, which are not accounted for in proprietary funds. These funds consist of the General 2010 Lease Agreement that refunded the 1997 Certificates of Participation ("COPS") issued for the Police Administration building and the 2013 COPS issued for the Central Park Library building.

Capital Projects Funds - Used to account for financial resources to be used for the acquisition or construction of General Government major capital facilities. Capital projects funds are organized by the following fund groups: Enterprise, Streets and Highways, General Government, and Authority funds. Further information on these fund groups and the capital improvements they support can be found in the adopted Capital Improvement Program Budget book.

Proprietary Fund Types

Proprietary funds are used to account for the City's ongoing organizations and activities which are similar to those often found in the private sector. Proprietary Fund Types include Enterprise Funds and Internal Service Funds and are described as follows:

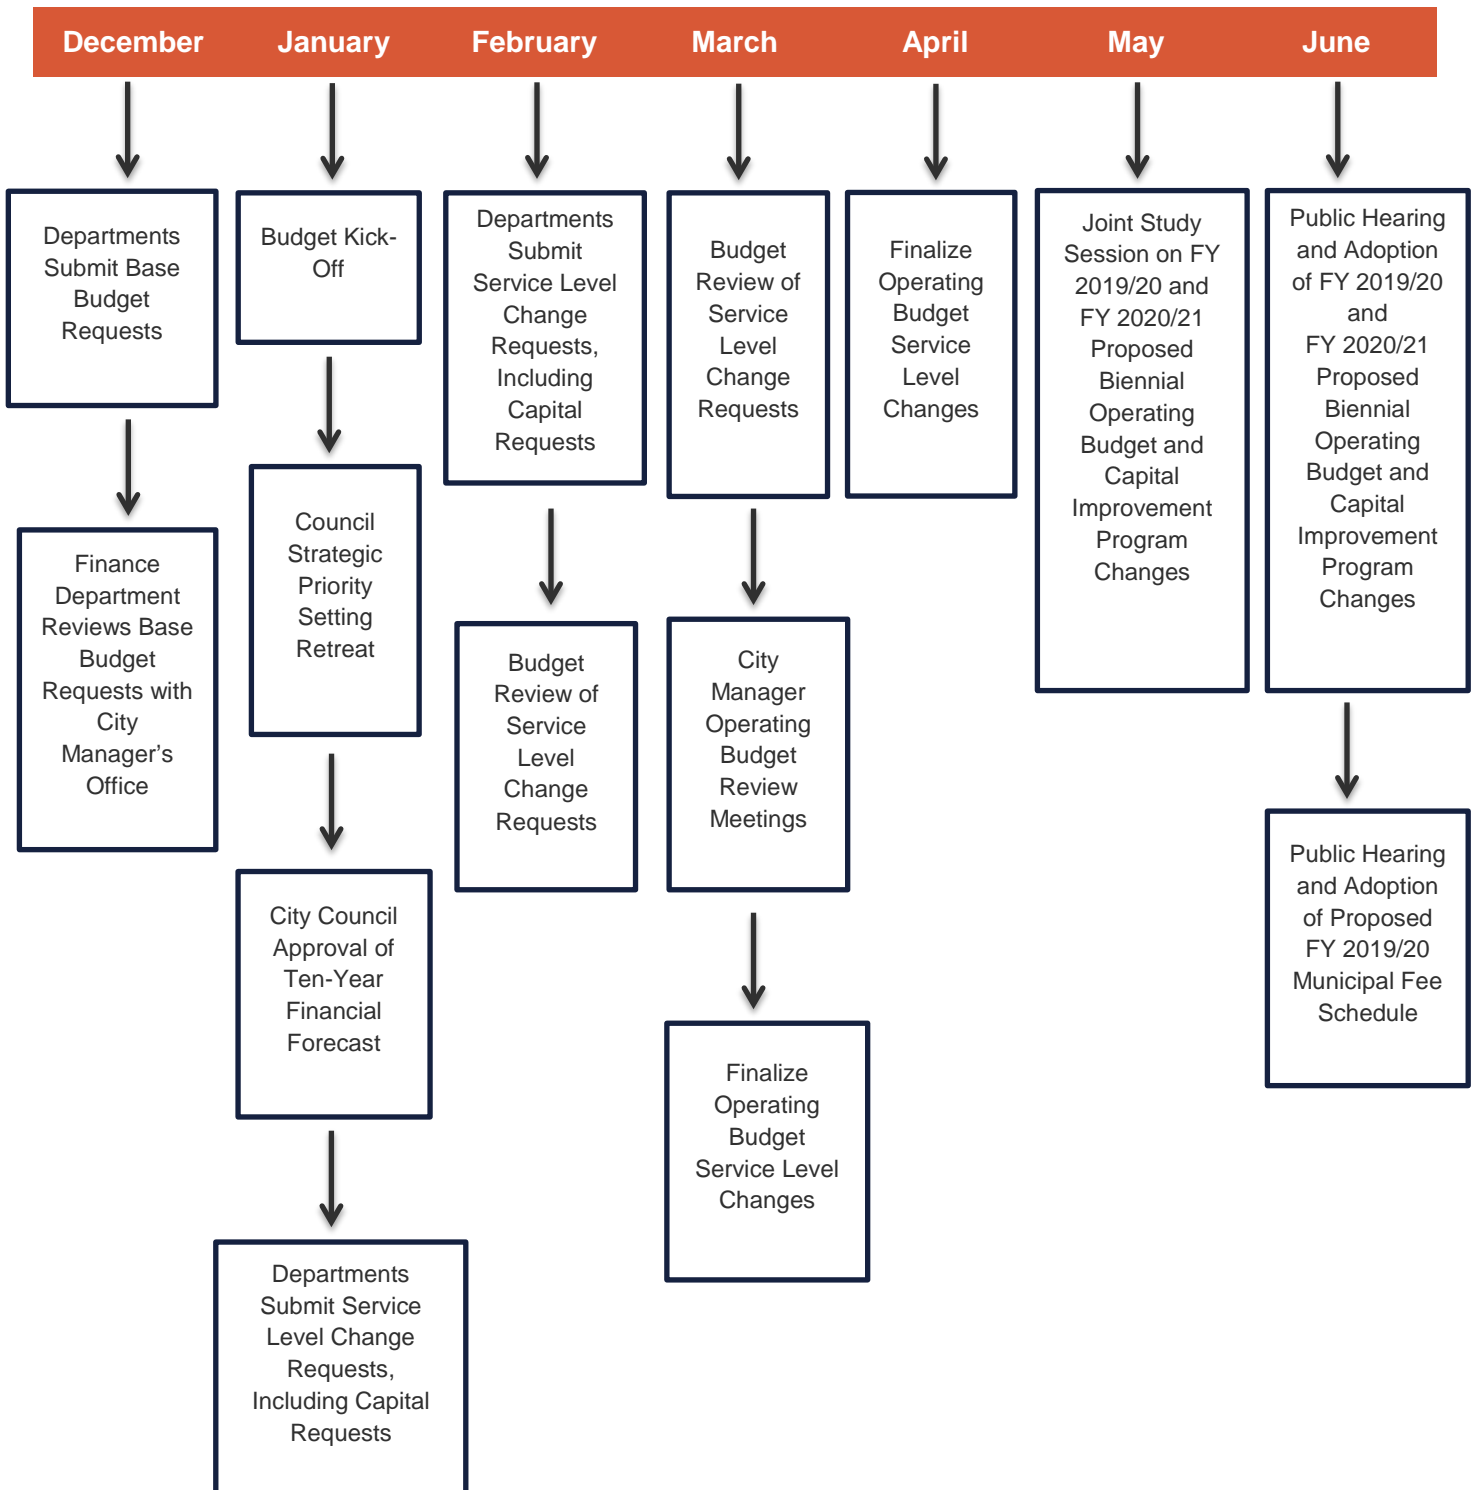

Enterprise Funds - Used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs and expenses, including depreciation, of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. Examples of Enterprise Funds include the Electric Utility Fund and the Water Utility Fund.

Internal Service Funds - Used to account for the financing of goods, services or facilities provided by one department or agency to other departments or agencies of the City, or to other governments, on a cost-reimbursement basis. Services provided include vehicle replacement, vehicle maintenance and operations, information technology, communications equipment, public works capital projects management, special liability insurance claims, workers' compensation insurance and claims, and unemployment insurance. Examples of Internal Service Funds include the Special Liability Fund and Workers' Compensation Fund.

While each department section provides for a budget breakdown by fund, this budget document also includes statements of sources and uses for all of the City's funds, categorized by the type of fund as described above. Each of these financial statements includes the 2017/18 actuals, 2018/19 Amended Budget, 2018/19 Estimate, and the 2019/20 and 2020/21 Proposed Budget. The 2018/19 Amended Budget is the adopted budget in addition to any budget amendments that were approved by City Council throughout the fiscal year, while the Estimate column shows what the expected revenue and expenditures will be for 2018/19. The Proposed Budget columns take into account the base budget plus all service level changes that are recommended in this document.

Budget Calendar

Budget Principles

The City Council reviewed and adopted a set of Budget Principles. These Budget Principles were established to provide a framework for budget review and development; ensuring fiscal stability by considering both the short and long-term impacts of any funding decisions. Below are the Budget Principles most relevant when reviewing and developing the operating budget of the City:

- Make decisions within the context of the City's Code of Ethics and Values, especially being Fiscally Responsible, Communicative, and Service-Oriented.
- Consider budget decisions with long-term implications taken into account using data from the Ten-Year Financial Forecast.
- Maximize service delivery within existing resources by balancing ongoing expenditure needs with ongoing revenues to avoid negative impacts on future budgets and maintain the City's high standards of fiscal integrity and financial management.
- Focus on projects and services that benefit the community as a whole.
- Pursue economic development objectives and strategies to foster new public and private investment within Santa Clara, and to create employment opportunities.
- Balance between compensation adjustments to retain and attract employees and funding for positions.
- Use one-time unrestricted revenues (e.g., annual General Fund surplus) for one-time uses such as increasing reserves, funding capital or Information Technology projects, paying off debt, and/or paying off unfunded pension or other post-employment benefits liabilities.
- In accordance with Council policy, continue to maintain the General Fund Budget Stabilization Reserve balance at or above the policy level of 25% of adopted budget expenditures for the long-term fiscal health of the City.
- Inform and communicate clearly and broadly to residents, businesses and employees of the City's fiscal position and budget schedule/hearings to promote active participation in the City Council's budget deliberations.
- With limited exceptions, establish fees based on full cost recovery where individuals/businesses rather than the community at-large are benefiting from City services. This preserves limited unrestricted resources for providing services that benefit the community as a whole.
- Focus on business process redesign in order to improve employee productivity and the quality, flexibility, and cost-effectiveness of service delivery (e.g., streamlining, simplifying, reorganizing functions, and reallocating resources).
- Explore expanding existing revenue sources and/or adding new revenue sources.
- Engage employees to contribute new and innovative ideas during the department budget development process.
- Use the General Plan as a primary long-term fiscal planning tool and link ability to provide City services to development policy decisions.

Glossary

The following explanations of glossary and terms are presented to aid in understanding the information included in this document:

Abatement - A complete or partial cancellation of a levy imposed by a government and usually applied to tax levies, special assessments and service charges.

Accounting System - The total structure of records and procedures which discover, record, classify, summarize and report information on the results of operations and the financial position of a government or any of its funds, fund types, balanced account groups, or organizational components.

Accrual Basis of Accounting - A method of accounting that recognizes the financial effect of transactions, events, and interfund activities when they occur, regardless of the timing of related cash flows.

Adopted Budget - The annual City budget as approved by City Council on or before June 30 for the fiscal year beginning July 1. This adopted budget establishes the legal authority for the expenditure of funds. This formal action by the City Council sets the spending path for the year.

Allocation - To divide or share out financial resources or expenditures for a specific purpose to particular funds or departments.

American Recovery and Reinvestment Act (ARRA) - An act established by the federal government in February 2009 whose intent is to create and save jobs, spur economic activity and focus on long term growth through the funding of various projects and initiatives.

Appropriation - A legal authorization granted by the City Council to make expenditures and to incur obligations for specific purposes. For purposes of the Capital Improvement Program (CIP) budget, appropriations are automatically renewed, for the life of the project, unless altered or revoked. For the operating budget, appropriations lapse at the end of the fiscal year to the extent they have not been expended or encumbered.

Appropriations Limit - The California State Constitution limits a city's appropriations growth rate to two factors: changes in population, and either the change in California per capita income or the change in the local assessment roll due to non-residential new construction.

Assessed Valuation - A valuation set upon real estate or other property by a government as a basis for levying taxes. In California, the assessed valuation subject to ad valorem tax levy is governed by Proposition 13 and AB8 (1978).

Assets - A probable future economic benefit obtained or controlled by a particular entity as a result of past transactions or events. This includes financial resources such as cash, receivables, inventory and plant and equipment, net of depreciation.

Audit - A formal examination of the City's accounts by an independent audit firm to determine whether the City's financial statements fairly present the City's financial position and results of operations in conformity with Generally Accepted Accounting Principles.

Authorized Positions - Regular positions authorized in the budget to be employed during the fiscal year.

Balanced Budget - The budget for a fund is balanced when total budgeted resources, including revenues, transfers in from other funds, and available fund balance from the previous year, meets or exceeds total budgeted uses of resources, including expenses and transfers out to other funds.

Base Budget - The ongoing expense level necessary to maintain service levels previously approved by the City Council.

Basis of Accounting - The timing of recognition, that is, when the effects of transactions or events are recognized for financial reporting or budgeting purposes. The three bases of accounting for governmental agencies are: (1) cash basis (when cash is received or paid), (2) accrual basis (when the underlying transaction or event takes place), and (3) modified accrual basis (revenues are recognized in the accounting period in which they become available and measurable and expenditures are recognized in the accounting period in which the fund liability occurred).

Beginning Fund Balance - The amount of prior year's unappropriated funds used to finance appropriated expenses in the current budget year.

Biennial Budget - A consolidated budget document presented on a biennial basis that includes the City's Operating Budget and CIP Budget. The Operating and Capital Budgets are presented in alternating years to the City Council for approval.

Bond - A city may raise capital by issuing a written promise to pay a specified sum of money, called the face value or principal amount, at a specified date or dates in the future, together with periodic interest at a specific rate.

Bond Rating - An evaluation of a bond issuer's credit quality and perceived ability to pay the principal and interest on time and in full. Three agencies regularly review city bonds and generate bond ratings: Moody's Investors Service, Standard and Poor's and Fitch Ratings.

Budget - A plan of financial operation embodying an estimate of proposed expenditures for a given period and the estimated financial resources available to finance them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year.

Budgetary Control - The control or management of a government or enterprise in accordance with an approved budget for the purpose of keeping expenses within the limitations of authorized appropriations.

Budget Public Hearing - A public meeting at which any member of the community may appear and be heard regarding any item in the proposed budget as presented by the City Manager to the City Council.

Budget Transmittal Letter - A general discussion of the budget as presented in writing by the City Manager to the City Council. The message contains an explanation of principal budget items and summaries found in the budget.

Capital Asset - Land, buildings, equipment, improvements to buildings, and infrastructure (i.e., roads, bridges and other immovable assets). The City's policy is to capitalize equipment with a cost exceeding \$5,000 and building, improvements and infrastructure with costs exceeding \$20,000. A capital asset is defined as an asset with a useful life extending beyond a single accounting period.

Capital Improvement - A permanent addition to the City's assets, including the design, construction or purchase of land, buildings, or facilities, or major renovations of same.

Capital Improvement Program (CIP) Budget - A plan of annual appropriation for capital improvements and various kinds of major facility maintenance. These projects are often multi-year in length, which requires funding beyond the two-year period in the biennial budget. The appropriations, therefore, do not lapse at the end of the fiscal year but continue until the project is completed or closed.

Capital Outlay - A budget category which includes all equipment having a unit cost of \$1,000 or more, and an estimated useful life of over one year or capital improvements costing less than a certain dollar amount. Capital Outlay is budgeted in the operating budget in the Other Operating Expenditure Category.

Charges for Services - Fees and charges levied by City departments for services rendered (example: utility charges to customers, recreation program fees, engineering fees, etc.).

Contingency - A budgetary reserve set aside for emergency or unanticipated expenditures, revenue shortfalls, and/or unknown expenditures. Generally used in the CIP budget.

Certificates of Participation (COPs) - This financing technique provides long-term financing through a lease, installment sale agreement or loan agreement. Certificates of Participation (COPs) allow the public to purchase participation in a stream of lease payments, installment payments or loan payments relating to the acquisition or construction of specific equipment, land or facilities. The lending agreement is secured by a lease on the acquired asset or other assets of the City.

Comprehensive Annual Financial Report (CAFR) - The official annual report of the City's financial condition at the conclusion of the fiscal year, June 30. The report is prepared to conform to Generally Accepted Accounting Principles (GAAP) for governmental units and provides a quantitative look at the operating success, financial health, and compliance of the City's reporting units.

Consumer Price Index (CPI) - A statistical measure of a weighted average of prices of a specified set of goods and services purchased by wage earners in urban areas.

Debt - Obligations of the City to repay, with or without interest, in installments and/or at a later date, some amount of money utilized resulting from the borrowing of money or from the purchase of goods and services. Debts of governments include bonds, notes and COPs.

Debt Financing - Issuance of bonds and other debt instruments to finance municipal improvements and services.

Debt Service - Payment of the principal and interest on an obligation resulting from the issuance of bonds, COPs or other debt instruments.

Deficit - An excess of expenditures or expenses over revenue (resources).

Department - An organizational unit comprised of divisions and/or programs. It is the basic unit of service responsibility encompassing a broad mandate of related activities. Department directors generally report directly to the City Manager's Office, for instance, Fire and Finance.

Depreciation - An allocation of the cost of fixed assets (buildings, plant or equipment) over the estimated useful life of the asset.

Designation - A portion of fund equity set aside by Council Action for a specific purpose.

Dissolution Act - Also known as Redevelopment Dissolution Act; on December 29, 2011 the California Supreme Court found the Dissolution Act (ABx1 26) constitutional in the California Redevelopment Association vs. Matosantos case. The Act continued the suspension and prohibition of most redevelopment activities in effect since late June 2011; dissolved RDAs as of February 1, 2012; created successor agencies and oversight boards; and established roles for the County-Auditor Controller, the Department of Finance and State Controller's Office in the dissolution process and satisfaction of enforceable obligations of former RDAs.

Division - An organizational unit within a City department. For instance, Fire Protection, Fire Prevention, and Fire Training.

Encumbrance - Obligations in the form of purchase orders, contracts or salary commitments which are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid.

Enterprise Fund - Used to account for operations: a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs and expenses, including depreciation or capital replacement, of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Environmental Impact Report (EIR) - An assessment of the likely influence a project might have on the environment.

Equity - The net assets of a fund (i.e. the assets less the liabilities on a fund balance sheet).

Expenditure - Actual cash disbursements for the cost of goods delivered or services rendered to the City in a Governmental Fund.

Expenditure Object Category (Expenditure Category) - Expenditure categories are a group of similar expenditure objects. The expenditure categories used in Santa Clara's Operating Budget, are (1) Salaries, (2) Benefits, (3) Materials/Services/Supplies, (4) Interfund Services, (5) Capital Outlay and (6) Debt Service. In some programs there are also (6) Resource and Production Costs and (7) Contribution In-Lieu of Taxes (CLT) and Franchise Fees.

Expense - The cost incurred from providing goods or services related to the City's operations in Proprietary Funds.

Fee - The payment for direct receipt of a public service by the party who benefits from the service.

Fiscal Year - The time period designated by the City signifying the beginning and ending period for recording financial transactions. Consistent with all cities and counties in the State of California, the City of Santa Clara has specified July 1 to June 30 as its fiscal year.

Franchise - A special privilege granted by a government, permitting the continued use of public property, such as city streets and usually involving the elements of a monopoly or regulation, for example cable TV, gas, refuse, and others.

Fund - An independent fiscal and accounting entity with a self-balancing set of accounts recording its assets, liabilities, fund equity, revenues and expenditures or expenses and other changes in residual fund equity or balances, segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, limitations or public policy.

Fund Balance - The amount of financial resources immediately available for use. Generally, this represents the difference between unrestricted current assets over current liabilities.

Fund Type - A category into which funds with similar characteristics are grouped. The fund types used in the City budget are General, Special Revenue, Capital Projects, Enterprise, Internal Service and Debt Service funds.

General Fund - The primary fund of the City used to account for all revenues and expenditures of the City not accounted for in another fund. Examples of departmental operations accounted for in the General Fund include the City Council, Police and Fire Departments, Library, Parks and Recreation, and others.

Generally Accepted Accounting Principles (GAAP) - Uniform minimum standards and guidelines for financial accounting and reporting that govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules and procedures necessary to define accepted accounting practice at a particular time. GAAP provide a standard by which to measure financial presentations. The primary authoritative body on the application of GAAP to State and local governments is the GASB (Governmental Accounting Standards Board).

Governmental Accounting - The composite activity of analyzing, recording, summarizing, reporting, and interpreting the financial transactions of governments.

Governmental Accounting Standards Board (GASB) - The authoritative accounting and financial reporting standard-setting body for government entities.

Governmental Fund - A fund type to account for tax-supported activities. There are four different types of governmental funds: the General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds.

Grant - Contributions of cash or other assets from another government entity to be used or expended for a specific purpose, activity or facility. An example is the Community Development Block Grant given by the federal government.

Housing Authority - The City of Santa Clara Housing Authority was established by Resolution 11-7827 on February 22, 2011 to ensure the provision of safe and sanitary housing for persons of low income.

Housing and Urban Development (HUD) - The Federal agency whose mission is to increase home ownership, support community development and increase access to affordable housing free from discrimination.

Indirect Cost Allocation Plan - The City uses an indirect cost allocation plan to ensure that enterprises and certain special revenue supported operations pay for themselves and are not subsidized by City taxpayers. General Fund supported central services costs such as payroll, accounting, data processing, personnel, city management and facilities maintenance are allocated to those funds benefiting from these services based on statistical data reflecting use of these support services.

Infrastructure - Facilities on which the continuance and growth of a community depend on such as roads, water lines, sewers, public buildings, parks and airports.

Interest and Rent - Interest income on investments and rental income received on property owned by the City.

Interfund Services - Services provided by one fund within the City for the benefit of another fund for which the fund that benefits is charged a fee (i.e., payroll services for the Electric Utility Department).

Interfund Transfers - With Council approval, resources may be transferred from one City fund to another. The purpose of the majority of transfers is to reimburse a fund that has made expenditures on behalf of another fund. Less often, a transfer may be made to open or close a fund.

Intergovernmental - Revenue received from other government entities (i.e., grants).

Internal Service Funds - These funds account for special activities and services performed by a designated department for other departments in the City on a cost reimbursement basis.

Legal Debt Limit - Per section 6.07 of the City Charter, bonded indebtedness of the City may not exceed 10% of the total assessed valuation of property within the City, exclusive of any indebtedness incurred for the purpose of water supply, sewers or storm drains.

Levi's Stadium - The stadium is located at 4900 Marie P. DeBartolo Way, Santa Clara and is the home of the San Francisco 49ers professional football team. It has a permanent seating capacity of approximately 68,500 seats with expansion to approximately 75,000 seats for larger events, such as an NFL Super Bowl. The stadium was built based on the City of Santa Clara approved Measure J, the Santa Clara Stadium Taxpayer Protection and Economic Progress Act, on June 8, 2010.

Levy - An amount of taxes, special assessments or service charges imposed by a government for the support of government activities.

Liability - Probable future sacrifices of economic benefits arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events. That is, a financial obligation or claim of financial resources of a specific fund to be liquidated at a future date.

Long-term Debt - Debt with a maturity of more than one year after the date of issue.

Mission - The overriding purpose of the department, division, or program.

Modified Accrual Basis of Accounting - Revenues are recognized in the accounting period in which they become available and measurable; expenditures are recognized in the accounting period in which the fund liability is incurred (if measurable), except for unmatured interest on general long-term debt and certain similar accrued obligations, which should be recognized when due.

Municipal Code - A compilation of City Council approved ordinances currently in effect. The Code defines City policy in various categories, for example, Civil Service rules, traffic regulations, sanitation and health standards, building regulations and planning and zoning regulations.

Object Category - See Expenditure Object Category.

Operating Budget - The portion of the budget that pertains to the City's daily operations and activities engaged in to provide services to the community. The operating budget contains appropriations for such expenditures as personnel (salaries, wages and benefits), supplies and materials, utilities, travel and fuel.

Ordinance - A formal legislative enactment by City Council. It has the full force and effect of law within City boundaries unless pre-empted by a higher form of law (State or federal). An ordinance has a higher legal standing than a resolution. Revenue raising measures, such as the imposition of taxes, special assessments and service charges are some examples of actions that would require the enactment of an ordinance.

Other Financing Sources - Changes in residual fund equity or balances not arising from revenues or expenditures/expenses. Includes governmental fund general long-term debt proceeds, amounts equal to the present value of minimum lease payments arising from capital leases, proceeds from the sale of general fixed assets and operating transfers in.

Performance Measures - This is a non-financial measurement of activity such as number of meters read, number of bills sent, number of customer service calls handled and response time to emergency calls. Performance-based budgeting incorporates performance measures into the budget process.

Program - A program is a specific service or activity that falls under departmental divisions. Programs provide for a lower level of detail regarding a Department's function. For instance, the Administration and Emergency Response programs are under the Fire Protection Division.

Property Tax - An ad valorem (based on value) tax on real property and tangible personal property levied by the local government on the property located within the City's jurisdiction. Property tax is determined by two factors: the assessed value of the property and the tax rate for the area in which the property is located.

Public Facilities Financing Corporation (PFFC) - The City of Santa Clara Public Facilities Financing Corporation (PFFC) was formed in 1997 for the purpose of issuing COPs to provide financing for the construction of major City facilities. Members of the City Council are also members of the PFFC Board. Debt service on the COPs is secured by lease payments made by the City's General Fund to the PFFC for the use of the constructed facilities for public purposes. In accordance with lease agreements, the PFFC assigns lease payments received from the City to the trustee for payment to the certificate holders.

Redevelopment Dissolution Act - See Dissolution Act.

Reimbursement - Repayments of amounts remitted on behalf of another party, or interfund transactions that constitute reimbursements to a fund for expenditures or expenses initially made from it but properly applied to another fund.

Reserve - An account used to earmark a portion of fund balance to indicate that it is not available for expenditure or legally segregated for a specific future use.

Resolution - A special or temporary legislative order of the City Council/Agency/Authority. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the City. A resolution requires less legal formality and has a lower legal status than an ordinance.

Revenue - Resources received by the government available for use in supporting services including such items as taxes, fees, permits, licenses, grants and interest.

Risk Management - An organized attempt to protect a government's assets against accidental loss in the most economical method. The City is exposed to various risks of losses related to torts, errors and omissions, general liability, injuries to employees and unemployment claims. Claims, expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated using actuarial methods or other estimating techniques. These losses include an estimate of claims that have been incurred but not reported.

Sales Tax - A tax imposed by the government on retailers at the point of sale for the privilege of selling tangible personal property. It is usually calculated as a percentage of the selling price and collected by the retailer from the consumer. The rate in the City of Santa Clara is 9.0%.

Silicon Valley Power (SVP) - The City's Electric Utility Department provides electricity to City residents and businesses under the name Silicon Valley Power.

Special Assessment - A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Special Revenue Fund - A fund in which revenue collected is restricted by the City, State or federal government as to how the city might spend its resources.

Sports and Open Space Authority (SOSA) - The City of Santa Clara Sports and Open Space Authority (SOSA) was created by the City Council in 1974 for the acquisition and development of open space within the City. The members of the City Council are also members of SOSA's Board of Directors and, as such, are authorized to transact business and exercise power to purchase, lease or otherwise obtain and dispose of real and personal property, to acquire, construct, maintain, repair, manage and operate real and personal property, including leasing to private operators for commercial purposes, surplus space which is not economical to use for open space planning.

Stadium Authority - The Stadium Authority was established by the City Council in 2011 to provide for the development and operation of Levi's Stadium. The Stadium Authority's governing board is the seven members of the City Council. The Stadium Authority will own, develop, construct, operate and maintain the Stadium, and have all powers granted to it by the City. The Stadium Authority is a separate and distinct legal entity, and the City is not liable for the debts or obligations of the Stadium Authority.

Successor Agency to the Former Redevelopment Agency of the City of Santa Clara - Pursuant to State legislation ABx1 26, the "Dissolution Act," the Redevelopment Agency (RDA) of the City of Santa Clara was dissolved effective February 1, 2012. The City has elected to become the Successor Agency for the RDA non-housing functions, responsible for paying off the former Redevelopment Agency's existing debts, disposing of the former Redevelopment Agency's properties and assets to help pay off debts, returning revenues to the local government entities that receive property taxes, and winding down the affairs of the former Redevelopment Agency. The City has also elected to retain the former Redevelopment Agency's housing functions, including retaining all of the housing assets, rights, power, duties, obligations and functions previously performed by the Redevelopment Agency in administering its Low and Moderate Income Housing Fund.

Subsidy - A grant by a government entity to another government entity to pay all or a portion of an activity of the government deemed advantageous to the public.

Surplus - An excess of revenue (resources) over expenditures or expenses.

Taxes - Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. The term does not include specific charges made against particular persons or property for permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges as, for example, water service charges.

Ten-Year Financial Plan - A strategic planning document showing the estimated results of operations and capital improvement project requirements over the next ten years. This plan is reviewed and accepted by Council and no appropriations result from that acceptance.

Transient Occupancy Tax (TOT) - A locally controlled tax imposed on travelers who stay in temporary lodging facilities for stays thirty days or less. The rate in the City of Santa Clara is currently 9.5%.

User Charges - The payment of a fee for direct receipt of a public service by the party benefiting from the service.

On June 5, 1990, the California electorate passed Proposition 111 which modified the method of adjusting the annual appropriations limit. Beginning with the 1990/91 Appropriations Limit, the City may choose from one of the following indices when determining the adjustment factor:

The annual growth in the City's population *or* the annual growth in the County's population as provided by the State Department of Finance.

and

The annual growth in the California Per Capita Income *or* the growth in the non-residential assessed valuation due to new construction within the City.

The 1990/91 Appropriations Limit was revised by applying the new growth factors to the appropriations limits for 1986/87 and each subsequent year. In computing the FY 2019/20 Appropriations Limit, the population growth of the County of Santa Clara and the annual growth in California Per Capita Income was used.

¹Price Factor and Population Factor for FY 2019/20 was not released as of the production of this document. These factors will be updated and the Appropriations Limit will be brought forward for City Council consideration on June 4, 2019.

Debt Service

Overview

Under the authority of the City Manager, the City executes debt instruments, oversees the accounting and reporting of debt, administers debt proceeds, manages continuing disclosure and debt compliance requirements, and makes debt service payments, while acting with prudence, diligence, and attention to prevailing economic conditions.

The City of Santa Clara uses debt financing as a tool to maintain its long-term financial stability by paying for certain expenditures over time. Debt financing is also a tool for managing cash flow when large, one-time outlays are required as in the case of constructing a new building or large-scale upgrades to infrastructure. This section provides a summary of the City's debt service for the ten-year forecast period. Included is the Computation of Legal Debt Margin, which calculates the City's debt limit as defined by the City Charter. Also included is a debt service schedule representing the currently outstanding debt of the City. The City does not currently have any outstanding general obligation debt.

Debt Policies

The Santa Clara City Charter, Section 1309, limits the allowable bonded indebtedness of the City at 15% of the total assessed valuation of property within the City, exclusive of revenue bonds or any indebtedness that has been or may be incurred for the purposes of acquiring, constructing, extending, or maintaining municipally owned utilities, for which purposes a further indebtedness may be incurred by the issuance of bonds, subject only to the provisions of the State constitution and the City Charter.

Section 1321 of the City Charter further provides for the issuance of revenue bonds when authorized at an election as provided therein. The City Charter also gives City Council the power to issue revenue bonds to finance the generation, production, transmission and distribution of electric energy, including the acquisition and/or construction of lands and facilities therefor, without authorization at an election.

The City's Debt Management Policy provides guidance for the issuance of bonds and other forms of indebtedness to finance land acquisition, construction, equipment, and other capital requirements of the City. While the issuance of debt is an appropriate method of financing capital projects and major equipment acquisitions, such issuance shall be carefully monitored.

The issuance of debt shall be closely aligned with the cash flow requirements of the projects being financed. Within the limitations of the City Charter, determining the amount of indebtedness the City can afford begins by assessing the sufficiency of future revenues. The amount of debt issued is based on the requirements of the approved Capital Improvement Program, subject to the condition that sufficient revenues are projected to be available to pay debt service. Factors such as debt service coverage requirements outlined in the bond indentures, the impact on the citizens (tax rates), and any impact on the bond ratings will be carefully considered. Different factors are considered for each type of credit. For example, electric, water or sewer bonds will take into consideration the impact on customer utility rates. Other factors such as providing debt capacity for future programs and existing and forecasted fund balances, including reserves, will also be taken into consideration.

The City believes that debt is an equitable means of financing projects and represents an important source of meeting fiscal responsibilities. The City obtains and maintains long-term debt for large capital improvement projects. The Finance Department manages the City's debt with prudence, diligence, and with attention to prevailing economic conditions and applicable laws. It manages issuance of debt, administers debt proceeds, prepares ongoing disclosure, handles debt and tax compliance, and makes debt service payments. City departments with debt-financed capital programs coordinate with the Finance Department in implementing and handling debt related transactions. Semiannual updates are prepared by the Finance Department on outstanding debt for the City of Santa Clara, its Agencies and Corporations. This report is presented as a standard management practice that provides a valuable overview of the current status of the City's long-term debt obligations. The current City Council approved debt policy can be found online at: <http://santaclaraca.gov/home/showdocument?id=63748>.

Long-Term Debt Planning

The City employs a comprehensive multi-year, long-term capital improvement planning program that is updated every two years. Debt management is a major component of the financial planning model which incorporates projected financing needs for infrastructure development that is consistent with the City's growth, while at the same time measuring and assessing the cost and timing of any debt issuance.

Issuer Credit Rating

The City seeks to obtain and maintain the highest possible credit ratings for all categories of short- and long-term debt. The City's bonds are rated favorably by major bond rating agencies, Fitch and Standard and Poor's (S&P). The City's Certificates of Participation are rated 'AA' by S&P. The City's Electric Revenue Bonds were upgraded by Fitch in December 2018 to 'AA-', while S&P maintains an 'A+' on the Electric Revenue Bonds. Maintaining high bond ratings has resulted in a broader market for the City's bonds and lower interest costs to the City.

Public Facilities Financing Corporation

The City of Santa Clara Public Facilities Financing Corporation (PFFC) was formed in 1997 for the purpose of issuing Certificates of Participation (COPs) to provide financing for the construction of major City facilities. Members of the City Council are also members of the PFFC Board. Debt service on COPs is secured by lease payments made by the City's General Fund to the PFFC for use of the constructed facilities for public purposes. In accordance with lease agreements, the PFFC assigns lease payments received from the City to the trustee for payment to the certificate holders.

Long-Term Debt Obligations

Certificates of Participation (COPs) are a debt instrument evidencing a pro-rata share in a specific pledged revenue source, usually lease payments. These lease payments are typically secured by an installment sale or leaseback agreement. Revenues are pledged to pay lease payments, and such lease payments are used to pay debt service on the COPs. The lessor typically assigns the lease and the payment to a trustee, which distributes the payments to certificate holders. These obligations do not constitute indebtedness under the State constitutional debt limitation, and are not subject to voter approval.

Lease Revenue Bonds are a lease obligation secured by a leaseback arrangement with a public entity, where general operating revenues are pledged to pay the lease payments, and in turn are used to pay debt service on the debt. These obligations do not constitute indebtedness under the State constitutional debt limitation, and are not subject to voter approval.

In connection with COPs and Lease Revenue Bonds, payments to be made under valid leases are payable only in the year in which use and occupancy of the leased property is available, and lease payments may not be accelerated. Lease financing requires the fair market rental value of the leased property to be equal to or greater than the required debt service or lease payment schedule. The governmental lessee is obligated to place in its annual budget the rentals that are due and payable during each fiscal year the lessee has use of the leased property.

Installment Sale Agreements are debt obligations secured by the assignment of installment payments required to be paid by the City from certain pledged revenues, such as revenues from an enterprise, in an amount sufficient to pay the installment payments, including interest. The City's outstanding Installment Sale Agreement is payable solely from the City's Sewer Utility and is not secured by any pledge of ad valorem taxes or General Fund revenues of the City. These obligations do not constitute indebtedness under the State constitutional debt limitation and are not subject to voter approval.

Revenue Bonds are obligations payable from revenues generated by an enterprise, such as electric, water, or wastewater utilities. The City's outstanding utility Revenue Bonds are payable solely from the City's Electric Utility and Sewer Utility Enterprise Funds and are not secured by any pledge of ad valorem taxes or General Fund revenues of the City.

Summary of FY 2019/20 and 2020/21 Debt Service

The Biennial Operating Budget includes \$24,531,174 in debt service for FY 2019/20 and \$26,852,273 in debt service for FY 2020/21. A ten-year debt service schedule is shown herein.

2010 City of Santa Clara Lease Agreement (Police Administration Building Project)

On July 13, 2010, the City entered into an agreement with the PFFC in order to provide funds to refund outstanding 1997 Certificates of Participation, which were originally issued to provide financing to build a new Police Administration building. The PFFC entered into a separate agreement with the assignee, Bank of America, N.A. Debt service on the Lease Agreement is secured by lease payments made by the City to the assignee for use of the Police Administration site. On March 22, 2012, Bank of America sold and transferred the Lease Agreement to Capital One Public Financing, LLC with no change to the terms, covenants, or conditions of the contract or the payment schedule. Lease payments are due semiannually beginning February 1, 2011 through February 1, 2022 and bear a coupon rate of 3.65%.

2013 Refunding Certificates of Participation (Central Park Library Project)

On March 28, 2013, the PFFC issued \$18.54 million of Refunding Certificates of Participation (2013 COPs) to provide funds to refund outstanding 2002A Certificates of Participation, which were originally issued to provide financing to build a new Central Park Library. The 2013 COPs mature annually beginning February 1, 2014 through February 1, 2032 and bear coupon rates ranging from 2.00% to 3.75%. Debt Service is secured by lease payments to be made by the City to the PFFC for use of the library site. The PFFC assigns the lease payments to the certificate owners.

Installment Sale Agreement, Series 2016 (Trimble Road Sewer Project)

On March 8, 2016, the City entered into a \$12,000,000 Installment Sale Agreement with the PFFC in order to provide funds for the Trimble Road Trunk Sanitary Sewer Improvement Project. The PFFC entered into a separate Assignment Agreement with DNT Asset Trust, a wholly owned subsidiary of JP Morgan Chase National Association (the "Agreement"), to assign its rights under the Installment Sale Agreement to DNT Asset Trust. The Agreement has an interest rate of 2.14% and semiannual payments are due beginning August 1, 2016 through February 1, 2031. Installment payments on the Agreement are secured by a pledge of net revenues of the Wastewater System.

Electric Revenue Refunding Bonds, Series 2011A

On March 22, 2011, Silicon Valley Power issued \$54.83 million of Electric Revenue Refunding Bonds, Series 2011A (Electric 2011A Bonds) to refinance \$49.66 million of outstanding Variable Rate Demand Subordinated Electric Revenue Bonds, Series 2008A. The Electric 2011A Bonds mature annually beginning on July 1, 2028 through July 1, 2032 and bear coupon rates ranging from 5.00% to 6.00%. Debt service on the Electric 2011A Bonds is secured by a pledge of net revenues of the Electric Utility Enterprise Fund.

Electric Revenue Refunding Bonds, Series 2013A

On April 24, 2013, Silicon Valley Power issued \$64.38 million of Electric Revenue Refunding Bonds, Series 2013A (Electric 2013A Bonds), to provide funds, together with other available moneys, to refinance outstanding Electric 2003A Bonds. The Electric 2013A Bonds mature annually beginning on July 1, 2014 through July 1, 2028 and bear coupon rates ranging from 3.00% to 5.00%. Debt service on the Electric 2013A Bonds is secured by a pledge of net revenues of the Electric Utility Enterprise Fund.

Bank of America Loan Agreement, Series 2014

On June 16, 2014, Silicon Valley Power (SVP) entered into a Tax-Exempt Multiple Draw Term Loan with Bank of America Preferred Funding Corporation (the “Electric 2014 Loan Agreement”) to fund the phase-shifting transformer project and the acquisition of property for future utility use. The loan is a tax-exempt multiple draw term loan that allows SVP to draw funds as needed. The first draw occurred on June 16, 2014 for approximately \$24.4 million, which includes \$15.8 million for the Phase Shifting Transformer engineering, equipment purchase, and initial construction activities and \$8.5 million for the land purchase. The second draw occurred on April 15, 2015 for \$6.0 million to cover the construction and commissioning of the Phase Shifting Transformer. The loan terms allow the City to capitalize interest of \$1,134,031 for up to two years with the initial loan payment due July 1, 2016. The loan carries an interest rate of 2.67% and the final payment is due on July 1, 2024. Debt service on the Electric 2014 Loan Agreement is secured by a pledge of net revenues of the Electric Utility Enterprise Fund on a basis subordinate to outstanding Electric Revenue Bonds.

Electric Revenue Refunding Bonds, Series 2018A

On December 18, 2018, Silicon Valley Power issued \$48.80 million of Electric Revenue Refunding Bonds, Series 2018A (Electric 2018A Bonds) to refinance \$54.58 million outstanding principal amount of Variable Rate Demand Electric Revenue Bonds, Series 2008B and terminate a related interest rate swap transaction. The Electric 2018A Bonds mature annually beginning on July 1, 2019 through July 1, 2027 and bear coupon rates of 5.00%. Debt service on the Electric 2018A Bonds is secured by a pledge of net revenues of the Electric Utility Enterprise Fund.

Regional Wastewater Facility

The City of Santa Clara (City) co-owns the Regional Wastewater Facility with the City of San José. The facility is being rebuilt, with the City’s portion of the costs budgeted as a separate project in the current Capital Improvement Program budget. The Water and Sewer Utilities Department oversees this project and as a result of updated cost estimates provided by the City of San José, anticipates issuing debt in FY 2019/20 and FY 2021/22 in the amounts of \$50.0 million and \$25.0 million, respectively, to account for a portion of project costs. These costs are reflected in the City’s Debt Service Schedule.

Note:

(1) Section 1309 of the City Charter of the City states: "Bonded Debt Limit. The bonded indebtedness of the City may not in the aggregate exceed the sum of fifteen percent (15%) of the total assessed valuation of property within the City, exclusive of revenue bonds or any indebtedness that has been or may hereafter be incurred for the purposes of acquiring, constructing, extending, or maintaining municipally owned utilities for which purposes a further indebtedness may be incurred by the issuance of bonds, subject only to the provisions of the State Constitution and this Charter."

General Fund

This page is intentionally left blank.

General Fund

The General Fund is the primary fund of the City that is used to account for all revenues and expenses that are not restricted by law or policy to be accounted for in another fund. The General Fund supports many of the most visible and essential City services including libraries, parks, police and fire protection. The General Fund also includes many departments that provide central services including the City Manager, City Attorney, City Clerk, Mayor and City Council, Finance and Human Resources offices and departments.

General Fund Sources

Overall, General Fund Sources total \$381.3 million in FY 2019/20 and \$376.3 million in FY 2020/21. For FY 2019/20, this total consists of \$249.9 million in revenue, \$2.1 million in transfers from other funds, and \$129.3 million in fund balance estimated to be carried over from FY 2018/19. As part of the budget process, all revenue line items are reviewed each year. Historical trends are taken into consideration and reveal that revenues received can vary greatly between years of economic expansion and contraction. As discussed previously, the City has experienced tremendous revenue growth over the past decade. Sources available to pay for the expenditures in the General Fund include the estimated revenue expected to be received in the fund and any transfers from other funds. Taxes, including property, sales and transient occupancy, along with charges for services make up a large part of the revenues received in the City's General Fund. Property tax, sales tax and transient occupancy tax provide funding for most general government services such as public safety, public works, parks and recreation, and library. These economically sensitive revenue sources are discussed further below.

Property Tax

Property tax is the largest revenue source for the City. Under Proposition 13, the assessed valuation of properties held by the same owner from year-to-year is adjusted each year by the lesser of 2.0% or the percent change in the October to October California Consumer Price Index (CCPI). For FY 2019/20, the adjustment factor based on CCPI is 2.0%.

Overall, property tax revenue for FY 2019/20 is projected at \$64.4 million, a 6.7% or \$4.1 million increase from the FY 2018/19 Adopted Budget of \$60.3 million. The property tax projection for FY 2020/21 is \$68.9 million, a 7.0% or \$4.5 million increase from the FY 2019/20 estimate. Assessed valuation growth on secured property is projected at 9.0% based on the continued rise in home values and the value of new construction projects being added to the tax rolls. It should be noted that the valuations for FY 2019/20 are set by the County in January 2019, and a tapering off of this growth is projected in FY 2020/21. Projections include new property taxes generated by major development projects under construction. The Property Tax projection is based on information provided to the City from our third party property tax consultant, historical trends, new development projects and data provided at quarterly meetings with the County of Santa Clara.

The City receives \$10.24 of every \$100 collected. The following chart represents the distribution of property tax dollars by jurisdiction.

Sales Tax

Sales tax is the General Fund's second largest revenue source, and one of its most volatile. The City's current sales tax rate is 9%, of which the City of Santa Clara receives 1%. The City's sales tax collections have fluctuated over the years due to local, regional and national economic cycles. The revenue projections for sales tax are \$58.2 million and \$56.8 million in FY 2019/20 and FY 2020/21, respectively. The FY 2019/20 estimate represents a slight increase of 2.9% or \$1.7 million more than the 2018/19 Adopted Budget of \$56.5 million, while there is a slight decline projected for sales tax revenue in year two of the proposed budget. This projection is provided by our third party sales tax consultant and reflects a modest slowdown in the economy. Recent legislation regarding the collection of internet sales tax is included in the revenue assumption.

For every dollar spent in Santa Clara on taxable purchases, 9% in sales tax or \$9.00 for each \$100 purchases goes to sales tax. Based on the purchase of \$100, the following graph shows where those dollars are distributed.

Transient Occupancy Tax

Transient Occupancy Tax (TOT) is calculated as a percentage of City hotel/motel room charges. The City's current TOT rate is 9.5%. This revenue stream is extremely sensitive to changes in economic conditions and can vary greatly from year-to-year based on occupancy and room rates.

TOT revenue is projected to total \$23.0 million in FY 2019/20 and expected to rise modestly in FY 2020/21, with a projection of approximately \$23.8 million. The 2019/20 TOT estimate is \$2.0 million higher than the 2018/19 Adopted Budget of \$21.0 million. High average rental room rates and occupancy rates have driven TOT revenue collections in the past several years reflecting the strong business demand for hotels. The assumptions included in the projections include hotels that are currently under construction or significantly completed. Additional hotels in the plan review process have not been factored into the tax projections.

General Fund Uses

Overall, General Fund Uses total \$381.3 million in FY 2019/20, a \$20.0 million decrease from the FY 2018/19 Budget of \$401.3 million. This decrease is entirely due to the timing of one-time capital transfers. Of this amount, \$246.8 million include operational expenditures; \$15.5 million are transfers to other funds and \$119.0 million represent fund balance and reserves. The following section analyzes the major General Fund expenditure categories.

As a public service organization, with the highest priority of quality delivery of our full range of services to our community, it is not a surprise that our employees are both our most valued asset and reflect the highest level of investment in the proposed budget. The FY 2019/20 Proposed Budget includes the addition of a net 20.50 positions when compared to the FY 2018/19 Adopted Budget. The General Fund net position count decreased by 16.51 positions. While 5.18 FTE were added in the General Fund, FTEs were also reallocated to two newly established internal service funds; the Information Technology Department's budget was moved to the Information Technology Services Fund, including its 7.0 positions, while a portion of the Department of Public Works' budget was reallocated to the Public Works Capital Projects Management Fund, including 14.69 positions. Further discussion of these funds can be found under the Internal Services Funds pages of this section.

Salaries and Benefits

The expenditures in this category account for full-time and part-time salaries, retirement, health, social security and other employer benefits costs. In the General Fund in the FY 2019/20 and FY 2020/21 Proposed Budgets are \$189.2 million and \$198.8 million, respectively. The 2019/20 Proposed Budget represents an increase of \$2.1 million or 1.1% from the FY 2018/19 Adopted Budget of \$187.1 million.

The City of Santa Clara participates in the California Public Employees' Retirement System (CalPERS) under two plans, the Miscellaneous and Safety retirement plans. Retirement costs in the General Fund are budgeted at \$27.5 million for Safety employees and \$17.4 million for Miscellaneous employees. It should be noted that the methodology to fund costs have changed starting in FY 2019/20. The unfunded accrued liability (UAL) portion of retirement costs is now calculated as a fixed dollar rather than a percentage of payroll. This change will align our budgeting practice with the true costs from CalPERS for these costs.

Material, Services, and Supplies

The materials, services, and supplies budget for FY 2019/20 is \$34.8 million, a decrease of \$3.3 million or 8.7% from the FY 2018/19 Adopted Budget. The FY 2020/21 Proposed Budget is \$30.6 million, a decrease of \$4.2 million or 12.2% from the FY 2019/20 Proposed Budget. The budget for this category in FY 2019/20 includes a portion of a developer loan for affordable housing in the amount of \$4.0 million. This increase is offset by the reallocation of the Information Technology Department's budget and a portion of the Department of Public Works budget to two new internal service funds. The decrease between FY 2019/20 and FY 2020/21 is a result of one-time resources being added in FY 2019/20 to address critical City needs. More detail on these changes can be found within each department section.

Interfund Services and Capital Outlay

The budget for these categories for FY 2019/20 and FY 2020/21 is \$22.8 million in each year. This represents a \$10.3 million increase from the 2018/19 Adopted Budget. The increase in these categories are related to the creation of two new internal service funds to allocate information technology and Public Works capital project management costs, as mentioned previously.

General Fund Reserves

The General Fund includes several reserves established by City Council policy or to segregate restricted revenues. More detail regarding reserve policies can be found in the Budget and Fiscal Policies section of this document.

Budget Stabilization Reserve

The Budget Stabilization Reserve (BSR) is set aside for weathering economic downturns, emergency financial crisis, or disaster situations. The reserve target is equal to the expenditures of the City's General Fund operations for three months (90 days or 25% of budgeted appropriations). The BSR reserve level for the end of FY 2019/20 is currently projected to be \$55.5 million. Per Council policy, the BSR goal of 25% of expenditure appropriations would mean the reserve should be set at \$61.7 million for FY 2019/20 and \$63.0 million for FY 2020/21. The projected reserve is approximately \$6.2 million below the Council goal. To make up the shortfall, as part of the closing of the FY 2018/19 budget, it is anticipated that there will be sufficient surplus funds available to allocate to the BSR in compliance with the reserve policy.

Capital Projects Reserve

The Capital Projects Reserve (CPR) earmarks funds for the Capital Improvement Program (CIP). The minimum target for this reserve is \$5.0 million. This reserve has a projected ending balance of \$14.7 million for FY 2019/20 and a balance of \$4.5 million for FY 2020/21. The expenditure of the Capital Projects Reserve in FY 2019/20 amounts to \$9.6 million. This amount takes the Adopted FY 2019/20 CIP use of the CPR in addition to FY 2019/20 budget amendments approved by the City Council throughout the year (through April 2019) and the CIP adjustments that are recommended in this document. Further information regarding the recommended adjustments to the CIP can be found in the Appendices section. It is estimated that the Capital Projects Reserve will be depleted by the end of FY 2022/23, if no additional action is taken by the City Council to replenish this fund. However, as with the Budget Stabilization Reserve, as part of closing the FY 2018/19 Budget, the City Council may allocate a portion of the General Fund surplus to the Capital Projects Reserve.

Land Sale Reserve

The City Council established the Land Sale Reserve from net proceeds from the sale of City-owned land, with interest earned on these funds being available to be appropriated for General Fund operating expenditures. The Land Sale Reserve has a projected beginning balance of \$21.1 million for FY 2019/20 and is available for appropriation by City Council action.

Building Inspection Reserve

The City Council established the Building Inspection Reserve to account for surplus funds generated from user fees in the Community Development Department's Building Inspection Division. Funds accumulated in the Building Inspection Reserve are used to fund Building Division costs in years when current year fees do not cover the full cost of services, and for projects directly related to the Building Division. The Building Inspection Reserve has a projected beginning balance of \$9.2 million for FY 2019/20.

Advanced Planning Fee Reserve

The advanced planning fee is collected as a portion of planning and building fees. This funding is set aside for future long range planning activities. Funding totals \$369,000 for FY 2019/20.

Other Reserves

By Council Policy, other reserves are set aside in the General Fund including the pension stabilization and historical preservation reserves.

Special Revenue Funds and Other Funds

This page is intentionally left blank.

Special Revenue Funds and Other Funds

Special Revenue Funds are established to account for specific revenue sources that are legally restricted or committed to particular purposes. The City of Santa Clara has various revenue sources that require separate Special Revenue Funds to be set up. The Other Funds relate to special assessments funds.

Certified Access Specialist (CASP) Certification and Training Fund (220)

Pursuant to Assembly Bill 1379, the City collects a \$4 fee from every business license issued to applicants, from which the City retains 90 percent of all application fees collected to be used to increase CASp training and certification and to facilitate compliance with construction-related accessibility requirements. The City transmits the remaining 10 percent to the State Architect for deposit in the Disability Access and Education Revolving Fund. As such, this fund tracks revenues received from the collection of fees and expenditures related to CASp training and certification.

City Affordable Housing Fund (165)

The City Affordable Housing Fund accounts for the City's Below-Market Price Purchase Program, which helps low- and moderate-income families achieve the goal of homeownership. This fund promotes and facilitates the construction and retention of affordable housing, fulfilling State mandates for the production of housing for all income levels. Revenues in the City Affordable Housing Fund is received from developer in-lieu fees, principal and interest repayments on housing loans, as well as interest income on pooled investments. The projected decrease in fund balance is a result of a developer loan in the amount of \$5,000,000 that will support the construction of 145 Affordable Housing units at 2904 Corvin Drive.

Community Activities Fund (084)

The Community Activities Fund accounts for fees and donations received from the community and the City for activities particularly focused on seniors. This fund will close in FY 2019/20 with balances transferring to the General Fund and the Public Donations Fund.

Community Facilities District No. 2019-1 (Lawrence Station) Fund (027)

A resolution was adopted by Council in March 2019, to form a new Community Facilities District Fund to finance maintenance of roadways, parks, parking spaces and enforcement, landscaped parkways and medians, trails, a highway overpass and a community clubhouse and garden to be located within the development at Lawrence Station.

Starting in FY 2019/20, operating costs will be funded by annual assessment revenues. The special taxes will be used to fund the authorized public services. The fund will also maintain additional funds necessary for expenses including replacements as facilities near end-of-service life (straight line depreciation of 15 years) in an operating and maintenance reserve of 20%. Initial assessment amount is \$344,374 and increases annually by Consumer Price Index (CPI).

Convention Center Maintenance District Fund (026)

This fund provides maintenance and landscaping to the common grounds of the Parking Districts located near the City's Convention Center. Funds are received by means of a Special Benefits Assessment levied against the property owners in the respective districts.

Downtown Parking Maintenance District Fund (025)

The purpose of the Downtown Parking Maintenance District is to maintain the grounds of the Franklin Square complex. The Franklin Square complex is bounded by Monroe Street to the west, Jackson Street to the east, Benton Street to the north, and Homestead Road to the south. Maintenance of the landscape infrastructure is paid for by the General Fund. Extraordinary repairs to the asphalt parking lot and concrete walkways are funded by property owner assessments that are capped at \$14,200 per year.

Endowment Care Fund (077)

This fund holds the non-expendable account of the fees collected from cemetery patrons. Interest earned from the cash maintained is contributed for the current maintenance of the cemetery.

Engineering Operating Grant Trust Fund (144)

This fund accounts for revenues received from other governmental agencies that are designated for specific uses in the Department of Public Works. Grants are appropriated as they are received by the Department of Public Works and approved by the City Council.

Expendable Trust Fund (079)

The Expendable Trust Fund accounts for assets held in a trustee capacity where the principal and income may be expended in the course of the fund's restricted/designated operations. Funds are appropriated as they are received by departments and approved by the City Council.

Fire Operating Grant Trust Fund (178)

This fund tracks revenues from other governmental agencies received by the Fire Department for fire safety and medical services activities. The grants are mostly provided by federal and County agencies. Grants are applied annually and are appropriated as they are received by the Fire Department and approved by the City Council.

Gas Tax Fund (121)

The Gas Tax Fund accounts for revenues and expenditures received from the State of California under Street and Highway Code Sections 2105, 2106, and 2107. Gas tax is imposed by the State as a per-gallon excise tax on gasoline and diesel fuel. Cities and counties receive an allocation from the State based on population and the proportion of registered vehicles. This funding is restricted for street maintenance, construction, and a limited amount for engineering.

Housing and Urban Development Fund (562)

The City of Santa Clara receives annual funds from the U.S. Department of Housing and Urban Development (HUD) to administer the Community Development Block Grant (CDBG) and HOME Investment Partnerships (HOME) programs. The CDBG program funds various nonprofit agencies and other city departments to implement services that benefit low- and moderate-income persons. The HOME program funds a wide range of activities including building, buying, and/or rehabilitating affordable housing for rent or homeownership or providing direct rental assistance to low-income people. Grantees are generally selected through a competitive process and provide such services as senior services, homeless outreach, housing rehabilitation, accessibility improvement and code enforcement. The City currently dedicates HOME funds for the Tenant-Based Rental Assistance (TBRA) program.

Housing Authority Fund (164)

The Santa Clara Housing Authority (SCHA) was established by the City Council to assume responsibility for managing and monitoring housing assets from the dissolution of the Redevelopment Agency (RDA). SCHA also assumes the responsibility for housing loans, which provide affordable housing and were made under various programs, for qualifying individuals and groups. The SCHA receives its main source of revenues from program income, which is used to support loan monitoring, administration, and other programs and projects of the Housing and Community Services Division of the Community Development Department. In FY 2019/20 and FY 2020/21, the Housing Authority Fund includes \$200,000 to support a new pilot program that provides low interest loans to homeowners for the construction of accessory dwelling units that will serve a select group of income qualified individuals such as teachers and public service employees.

Housing Successor Agency Fund (169)

All California Redevelopment Agencies (RDA) were dissolved on February 1, 2012. Following the dissolution, the City of Santa Clara was designated as the Housing Successor to the former RDA, responsible for paying off the former RDA's existing debts, disposing of the former RDA's properties and assets to help pay off debts, returning revenues to the local government entities that receive property taxes and winding down the affairs of the former Redevelopment Agency. The City has also elected to retain the former RDA's housing functions, including retaining all of the housing assets, rights, power, duties, obligations and functions previously performed by the RDA in administering its Low and Moderate Income Housing Fund.

The FY 2019/20 and FY 2020/21 budget will continue to support the administration of programs such as the Homeless Prevention Program and Tenant Based Rental Assistance Program and the management and monitoring of City assets.

Library Donations Trust Fund (072)

This fund accounts for donations that are received and accepted by the City of Santa Clara's Library Department. These donations are for designated uses. Donations are appropriated as they are received by the Library Department and approved by the City Council.

Library Operating Grant Trust Fund (112)

This fund accounts for revenues received from other governmental agencies that are designated for specific uses in the Library Department. Grants are appropriated as they are received by the Library Department and approved by the City Council.

Other City Departments Operating Grant Trust Fund (101)

The Other City Departments Operating Grant Trust Fund accounts for any financial award given by the federal, State, or other local government to the City for Citywide eligible operating programs. Grants that are designated for department-specific functions are deposited into the respective departments' operating grant trust fund. Grants are appropriated as they are received by departments and approved by the City Council.

Parks and Recreation Operating Grant Trust Fund (111)

The Senior Nutrition Program provides a congregate meal setting where seniors can improve their health through balanced meals and socialization and is funded through a grant from the Santa Clara County Social Services Agency's Senior Nutrition Program and CDGB funds. Seniors are encouraged to access the many services available at the Senior Center while on site, and are given the opportunity to engage in Health & Wellness programs at the Senior Center. Grants are appropriated as they are received by the Parks and Recreation Department and approved by the City Council.

Perpetual Care Fund (076)

This fund accounts for current fees collected from cemetery patrons for the future maintenance of the Mission City Memorial Park when the facility reaches full capacity. Interest earned from the cash maintained is contributed for the current maintenance of the cemetery.

Police Operating Grant Trust Fund (177)

This fund tracks revenues from other governmental agencies received by the Police Department for law enforcement activities. The grants are predominantly provided by the State with a smaller portion received from the federal government. Grants are appropriated as they are received by the Police Department and approved by the City Council.

Public Donations Fund (067)

The Public Donations Fund accounts for various donations the City receives from the public that are designated for specific uses. Per the City's Donation Policy, the City Manager is authorized to make funding available to departments for donations valued under \$100,000. Donations of \$100,000 or greater are appropriated as they are received by departments and approved by the City Council.

Public, Educational, and Governmental Fee Fund (221)

This fund accounts for the Public, Educational, and Governmental (PEG) fees the City receives from telecommunication companies, in accordance with the Cable Communications Act of 1984 and the Digital Infrastructure and Video Competition Act of 2006. PEG channels broadcast public meetings, news conferences and educational programming about City departments and programs as well as government-sponsored community events. PEG fees can be used for capital-related expenses including video production and streaming equipment as well as television monitoring technology and technical support. These funds can also be used for the renovation and construction of facilities such as Council chambers, public meeting rooms and recording spaces.

Recreation Programs Operations Fund (041)

The Recreation Programs Operations Fund accounts for supply fees collected by the Recreation Programs of the City that are used for the purchase of materials and supplies consumed in the recreation classes and activities from preschool to young adults. The fund also holds donations including for citywide special event particularly the Arts, Crafts and Wine Festival which will be transferred to the Public Donations Fund. The Recreation Programs Operations Fund will close in FY 2019/20 with balances transferring to the General Fund and the Public Donations Fund.

Road Maintenance and Rehabilitation (SB1) Fund (122)

The Road Repair and Accountability Act of 2017 (Senate Bill 1) is a significant investment in California's transportation system which was signed into law on April 28, 2017. The funding from this investment must be used to fix roads, freeways, and bridges in communities across California, putting more dollars towards transit and safety. The majority of this revenue is from the Road Maintenance and Rehabilitation Account (RMRA), where cities have to prioritize repairing their existing infrastructure before addressing other transportation needs.

Traffic Mitigation Fund (123)

The Traffic Mitigation Fee is levied to fund improvements or programs to mitigate the City's traffic problems that result from development projects.

The following section details the City of Santa Clara's Special Revenue Funds and Other Funds' Statements of Sources and Uses and their Proposed Budget for Fiscal Years 2019/20 and 2020/21.

Enterprise Funds

This page is intentionally left blank.

Enterprise Funds

Enterprise funds are used to finance and account for operations and activities performed by designated departments in the City or through third party agreements. The operating revenues and expenses result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. Principal operating revenues of the City's enterprise funds are charges to customers for services. Operating expenses for the City's enterprise funds include the costs of sales and services, administrative expenses and maintenance of capital assets.

Utility rate increases for FY 2019/20 is as follows:

Utility Service	FY 2018/19	FY 2019/20	% Change	Additional Information
Water Residential per HCF	\$5.98	\$ 6.25	4.5%	\$3.24 increase per month, on 12 units usage
Recycled Water Irrigation per HCF	\$3.58	\$3.76	5.0%	
Sewer Residential Single Family per month	\$42.91	\$44.29	3.2%	\$1.38 increase per month
Solid Waste 32 Gallon Cart	\$27.77	\$30.62	10.3%	Includes \$11.28 Clean Green collection per month
Electric Residential per KWH	\$0.120	\$0.122	2%	Effective January 1, 2019

Cemetery Fund (093)

This fund is managed by the Parks and Recreation Department and provides planning, development, operation, and maintenance of the City's two cemetery properties with one located on North Winchester Boulevard and one on Agnews Road. While there are charges for these services, the activities of this fund are primarily funded by transfers from the General Fund.

Convention Center Enterprise Fund (860)

This fund was established in 1984 to account for the operations of the City's Convention Center through third party agreements. The FY 2019/20 and FY 2020/21 Proposed Operating Budget for Convention Center activities will be presented under separate cover after the release of this document.

Electric Operating Grant Trust Fund (191)

City's Electric Utility Department, known as Silicon Valley Power (SVP), initially established this fund for the Public Benefits Program, which helps make homes and businesses more energy efficient. SVP is required to collect and spend 2.85% of its electric sales revenues on cost effective energy efficiency, new renewable generation, low-income energy programs, and new electric technologies research and development. Starting in FY 2019/20, new Electric Vehicle and Greenhouse Gas programs with restricted revenue requirements are added to this fund.

Electric Utility Fund (091)

This fund is managed by the Electric Utility Department, also known as Silicon Valley Power (SVP), and accounts for the operation of the City's electric utility service. The Department provides these services on a user charge basis to residences, businesses, and industrial customers, including large data centers.

Revenue sources in the Electric Utility Fund are dictated by the utility rate approved by the City, effective each January, based on SVP's ten-year forecast with their revenue and expenditure projections, and reserve requirements fulfilling debt service, capital improvement projects, rate stabilization, among other obligations. Electric rate increases have been relatively stable, so customers, both large and small, can plan for their uses. At the same time, for customers who have difficulty absorbing these increases, SVP continues to offer assistance to low-income customers and energy conservation programs and rebates to help customers reduce their electricity usage. SVP's rate increase for calendar year 2019 is 2%.

Almost 90% of revenues are generated by industrial customers. Load growth of energy sales is based on a combination of historical data and forward looking opportunities, especially from large key industrial customers. Additional revenues are generated through wholesale, capacity sales, and restricted revenue programs such as Green House Gas, Electric Vehicle, Renewable Energy Credits, and Low Carbon Fuel Standard.

Majority of expenses is due to cost of sales, such as energy resources purchases, cost of generating and delivering power to SVP customers, including transmission access charges that apply to all electric energy that SVP receives via the PG&E transmission system and gas transmission charges for delivering fuel to SVP's gas-fired power plants.

For FY 2019/20, the Fund has 10% of rate revenue in its Rate Stabilization Reserve, 25% of operating expenses in its Contingency Reserve, a Construction Reserve to cover capital improvement projects for the next fiscal year, a Pension Trust Reserve, and a Power Plant Special Reserve.

Sewer Utility Fund (094)

This fund is managed by the Water and Sewer Utilities Department and accounts for the maintenance of the City's sewer lines and related facilities. The Department provides these services on a user charge basis to residences and businesses.

Each operating budget cycle, the Department develops a ten-year forecast with their revenue and expenditure projections. Revenue sources in the Sewer Utility Fund are dictated by the utility rate approved by the City and the actual water usage by residences and businesses. A rate study is conducted by a third party consultant selected by the Water and Sewer Utilities Department; this information is then used to determine both revenue and expenditure projections in the forecast. In addition to the information provided in the rate study, revenue projections are based on historical data and anticipated activity. Anticipated expenditures also play a role in the development of the revenue projections. Expenditure projections are based on historical data and capital project needs approved in the City's Capital Improvement Program budget. Additionally, the City co-owns the Regional Wastewater Facility with the City of San José. Estimates are provided by the City of San José for Santa Clara's share of the facility rebuild, and these estimates are also used in determining the expenditure projections in the Sewer Utility Fund.

Solid Waste Fund (096)

This fund is managed by the Public Works Department and accounts for the administration of the City's garbage and rubbish collection service, including street sweeping, household hazardous waste, and Clean-Up Campaign services.

Water Recycling Fund (097)

This fund is managed by the Water and Sewer Utilities Department and accounts for the ongoing maintenance and operations of the City of Santa Clara's wastewater reclamation system. The Department provides these services on a user charge basis from the sale of non-potable water for irrigation and landscaping.

Each operating budget cycle, the Department develops a ten-year forecast with their revenue and expenditure projections. Revenue sources in the Water Recycling Program Fund are dictated by the utility rate approved by the City and the actual water usage by residences and businesses. A rate study is conducted by a third party consultant selected by the Water and Sewer Utilities Department; this information is then used to determine both revenue and expenditure projections in the forecast. In addition to the information provided in the rate study, revenue projections are based on historical data and anticipated activity. Anticipated expenditures also play a role in the development of the revenue projections. Expenditure projections are based on historical data and capital project needs approved in the City's Capital Improvement Program budget.

Water Utility Fund (092)

This fund is managed by the Water and Sewer Utilities Department and accounts for the operation of the City's water utility services. The Department provides these services on a user charge basis to residences and businesses.

Each operating budget cycle, the Department develops a ten-year forecast with their revenue and expenditure projections. Revenue sources in the Water Utility Fund are dictated by the utility rate approved by the City and the actual water usage by residences and businesses. A rate study is conducted by a third party consultant selected by the Water and Sewer Utilities Department; this information is then used to determine both revenue and expenditure projections in the forecast. In addition to the information provided in the rate study, revenue projections are based on historical data and anticipated activity. Anticipated expenditures also play a role in the development of the revenue projections. Expenditure projections are based on historical data and capital project needs approved in the City's Capital Improvement Program Budget.

The following section details the City of Santa Clara's Enterprise Funds' Statements of Sources and Uses and their Proposed Budget for Fiscal Years 2019/20 and 2020/21.

Internal Service Funds

This page is intentionally left blank.

Internal Service Funds

Internal Service Funds are used to finance and account for special activities and services performed by a designated department for other departments in the City on a cost reimbursement basis.

Communication Acquisitions Fund (048)

This fund is managed by the Police Department and accounts for the maintenance and replacement of communication equipment used by various City departments. The source of revenue for this fund is fees charged to the departments that require this type of maintenance and replacement.

Fleet Operations Fund (053)

This fund is managed by the Department of Public Works and accounts for the maintenance of City-owned vehicles and equipment used by all departments. The source of revenue for this fund is fees charged to the departments requiring vehicle maintenance.

Information Technology Services Fund (045)

This fund is newly established in FY 2019/20 and managed by the Information Technology Department. This fund accounts for citywide costs associated with computer and telephone equipment replacement as well as other services including new or upgraded software, additional licenses for new users, and general information technology services provided to all City departments. The source of revenue for this fund is fees charged to the departments that require information technology services.

Public Works Capital Projects Management Fund (044)

This fund is newly established in FY 2019/20 and managed by the Department of Public Works. This fund accounts for the Public Works staff time and non-personnel costs utilized to manage and work on specific capital improvement programs of the City. The source of revenue for this fund is fees charged to the departments requiring Public Works capital project services.

Special Liability Insurance Fund (082)

This fund accounts for liability exposures to the City, including general liability, auto liability, errors and omissions, and employment practices. The City's property coverage provides for property and boiler and machinery insurance for physical damage to buildings and other specific structures. The Special Liability Insurance Fund insures all City-owned property as well as property in the City's care, custody or control, and property the City is contractually obligated to insure. The source of revenue for this fund is fees charged to the departments citywide.

Workers' Compensation Fund (081)

This fund is managed by the Human Resources Department and accounts for the costs of premiums, claims administration, and claims expenses related to injuries or illnesses sustained by members of the City's workforce. The source of revenue for this fund is fees charged to departments citywide. Department allocations are determined using prior year actuals and the frequency and severity of claims. This fund also includes budget for an actuarial study for workers' compensation.

Unemployment Insurance Fund (087)

This fund is managed by the Human Resources Department and accounts for the cost of unemployment insurance claims. The source of revenue for this fund is fees charged to the departments citywide.

Vehicle Replacement Fund (050)

This fund is managed by the Department of Public Works and accounts for the lifecycle, replacement, procurement, up-fit, and disposal of all vehicles used by City departments. The source of revenue for this fund is fees charged to the departments requiring these services.

The following section details the City of Santa Clara's Internal Service Funds' Statements of Sources and Uses and their Proposed Budget for Fiscal Years 2019/20 and 2020/21.

Capital Improvement Program Funds

This page is intentionally left blank.

Capital Improvement Program Funds

Capital Improvement Program Funds are established to account for specific revenues and expenditures that are earmarked for major improvements to the City's infrastructure, replacements and upgrades to City assets, and improvements and upgrades to the City's utilities. The City of Santa Clara has various capital funds set up for different types of capital projects.

Cemetery Capital Fund (593)

The capital projects included in this fund are related to construction, engineering, repairs, and design of the two City-owned cemeteries.

Electric Utility Capital Fund (591)

This fund accounts for projects pertaining to system improvements, substation construction, and technology projects. Customer service charges, developer contributions, and transfers from other enterprise funds are the primary source of revenue for these projects.

Fire Department Capital Fund (536)

This fund tracks projects that include the replacement of firefighting equipment, emergency generators, and firehouse safety systems. Grants and donations as well as the General Fund provide the funding for these projects.

General Government Capital Fund (539)

This fund accounts for projects primarily related to the Convention Center and Information Technology projects, supported by revenues from developer contributions, grants, and transfers from the City's enterprise funds and the General Fund.

Library Department Capital Fund (537)

This fund tracks projects associated with the capital maintenance, construction, safety and appearance of library facilities, primarily funded by the General Fund.

Parks and Recreation Capital Fund (532)

This fund accounts for the projects associated with the acquisition, development, and capital improvement of neighborhood and community parks, recreation facilities, and open space to meet the needs of the City residents. Funding sources for these projects include developer contributions, grants and donations, parks mitigation fees and Quimby Act fees.

Public Buildings Capital Fund (538)

The projects in this fund are associated with repairs and capital maintenance for public buildings, including mechanical and electrical systems, primarily funded by the General Fund.

Recycled Water Capital Fund (597)

This fund tracks projects related to the installation of recycled water mains, including extensions to existing service and for new developments, supported by recycled water customer service charges.

Sewer Utility Capital Fund (594)

This fund tracks projects related to the construction and upkeep of the City's sewer system including sewer mains and the City of Santa Clara/San José wastewater treatment facility. These projects are funded through customer service charges, connection charges, debt financing, and the sewer conveyance fee.

Solid Waste Capital Fund (596)

The capital projects included in this fund are related to the construction of wells, well abandonments, erosion, maintenance of landfill gas, and miscellaneous landfill monitoring requirements. Funding sources for these projects include lease revenues and customer service charges.

Special Gas Tax Fund (521)

Capital projects in this fund related to ongoing street rehabilitation, resurfacing, and traffic signal infrastructure maintenance are supported by the City's gas tax allocation. As of FY 2018/19, this fund was combined with the Streets and Highways Fund. A special revenue fund in the City's operating budget was created for the gas tax revenue received from the State.

Storm Drain Capital Fund (535)

The projects in the Storm Drain Capital Fund contribute to the expansion, construction, and rehabilitation of the City's storm drain system. Primary funding sources include the General Fund and developer-funded storm drain charges.

Street Beautification Capital Fund (531)

Capital projects in this fund include replacement of trees and improvements to the landscape located within the median islands, parking strips, and other areas of right-of-way. As of FY 2018/19, this fund was combined with the Streets and Highways Fund.

Street Lighting Capital Fund (534)

This fund accounts for projects related to the replacement and installation of citywide street lighting to provide adequate lighting for streets, new developments, and parking lots. These projects are funded via customer service charges, developer contributions, and electric public benefits charges.

Streets and Highways Capital Fund (533)

This fund tracks the City's projects that are related to the maintenance of local transportation facilities, traffic infrastructure, street rehabilitation, sidewalk, curb, and gutter improvements. Primary funding sources for these types of projects include traffic mitigation fees, gas tax, and Road Maintenance and Rehabilitation Account proceeds. Projects from several capital funds: Special Gas Tax, Traffic Mitigation and Street Beautification have been consolidated into the Streets and Highways Fund as of FY 2018/19.

Traffic Mitigation Capital Fund (525)

Capital projects in the Traffic Mitigation Capital Fund include traffic signal enhancements, improvements, and major intersection improvements across the City to ease traffic congestion and improve traffic flow. The majority of the funding sources for these projects are traffic mitigation fees and developer contributions. As of FY 2018/19, this fund was combined with the Streets and Highways Fund. A special revenue fund in the City's operating budget was created for traffic mitigation fees.

Water Utility Capital Fund (592)

The projects in this fund pertain to the construction and upkeep of the water system including water mains, hydrants, wells and pumps, storage tanks, and the asset management system. Customer service charges and developer contributions are the primary sources for these projects.

The following section details the City of Santa Clara's Capital Improvement Program Funds' Statements of Sources and Uses and their Proposed Budget for FYs 2019/20 and 2020/21.

Other Agency Funds

The Sports and Open Space Authority of the City of Santa Clara (Authority) was created by the City Council in 1974 to establish a separate entity to acquire and develop open space within the City of Santa Clara. The validity of the Authority and its legal existence was established in 1975 by final judgment of the Santa Clara County Superior Court. The Santa Clara Golf and Tennis Club was developed by the Authority on City-owned land and operated under a management agreement with a private company and a private restaurant facility at the Golf and Tennis Club leased to a private operator. In 1997/98, the City Council set aside approximately 40 acres of the former golf course site to be preserved and maintained as open space, and in 1999 the Authority approved the sale of 4.3 acres of the former golf course property to the City's Redevelopment Agency to be disposed of as a site for development of affordable housing.

Santa Clara Golf and Tennis Club Fund (811)

This fund accounts for the operations of the City's public golf course.

Sports and Open Space Authority Fund (801)

This fund accounts for the acquisition and preservation of open space within the City and the development of local sports activities. The operating lease expired prior to FY 2017/18 and is currently on a month-to-month lease.

Sports and Open Space Authority Capital Fund (840)

This fund accounts for Authority's capital improvement program.

The following section details the Other Agency Funds' Statements of Sources and Uses and their Proposed Budget for Fiscal Years 2019/20 and 2020/21.

Mayor and City Council Offices

Department Mission

Establish City policies and ordinances to ensure the development and maintenance of a balanced and stable community for citizens, by servicing the community with resourceful, efficient, progressive and professional leadership

This page is intentionally left blank.

Mayor and City Council Offices Description

The City Council consists of a Mayor who is elected at large, and six Councilmembers (appointed to or elected by district, based on a Court order issued in the summer of 2018) and serves staggered four-year terms. The Council, as the legislative body, represents the citizens of Santa Clara and is empowered by the City Charter to formulate Citywide policy, enact local legislation, adopt budgets, and appoint the City Manager, City Attorney and City Auditor. The Council conducts City Council meetings and study sessions as required.

The Mayor and Councilmembers serve on county, regional, and State organizations representing the City's interests. The Mayor and Councilmembers also serve as Agency and Authority Board Members, Commissioners or Directors of the Bayshore North Project Enhancement Authority, Housing Authority, Industrial Development Agency, Joint Financing Authority, Public Facilities Financing Corporation, Sports and Open Space Authority and Stadium Authority.

Divisions and Services

The Mayor and Councilmembers are supported by the Mayor and City Council Offices staff. The Mayor and City Council Offices are organized under the Mayor and City Council Division.

Mayor and City Council Division Mission	Assist the Mayor and Councilmembers with implementation of established policies, goals and objectives.
Division Objectives	Assist Mayor and Councilmembers in scheduling appointments, making travel arrangements, and corresponding with legislators, constituents and members of the community.
	Assist with the coordination of meetings for several City committees and several area wide/outside agency committees.
	Provide Mayor and Councilmembers with requested information and coordinate concerns from members of the community in an effort to increase transparency and responsiveness.
	Provide general administrative support to the Mayor and Councilmembers.

Significant Accomplishments

- Supported the City Council with its policy priorities
- Maintained compliance with applicable requirements, e.g., calendar disclosures, public records requests, and other government transparency requirements
- Provided direct support to the Mayor and City Council on all administrative needs and research needs, including administrative support for intergovernmental assignments
- Responded to constituent concerns and inquiries within three business days
- Approved and processed proclamations in time for events
- Processed travel and reimbursement requests within two weeks of receiving complete documentation
- Responded to requests for Mayor and/or Council's appearance within two weeks of request

Mayor and City Council Travel

In accordance with the City's administrative policy on official travel by the Mayor and City Councilmembers, Council Policy 043, official travel is approved in advance annually with the Mayor and City Council Offices' Operating Budget. The following are the conferences, meetings and events that are scheduled for Mayor and Councilmembers' attendance:

Conference	FY 2019/20 Budget	FY 2020/21 Budget
National League of Cities Annual Conference	2,548	2,598
League of California Cities Annual Conference	14,406	14,756
League of California Cities New Members Academy	0	4,416
League of California Cities Workshops	2,000	2,000

City Attorney's Office

Department Mission

To provide timely legal services of only the highest quality to the City Council, policy makers and staff with a commitment to professionalism

This page is intentionally left blank.

City Attorney's Office Description

Section 908 of the City of Santa Clara Charter provides:

The responsibilities of the City Attorney's Office consist of the following: represent and advise the City Council and all City officers in all matters of law pertaining to their offices; represent and appear on behalf of the City and any City officer or employee in all legal actions or proceedings which the City or any such officer or employee, in or by reason of his/her official capacity is a party; provide the City Council with information and advice regarding ongoing litigation and legislation affecting the City; attend all meetings of the City Council and give advice or an opinion in writing whenever requested to do so by the City Council or officers of the City; staff board and commission meetings as necessary; approve the form of all bonds given to and all contracts made by the City, endorsing approval thereon in writing; review and approve all ordinances and resolutions and amendments thereof; prosecute cases for violation of the Charter and City ordinances; and assist and provide training on current issues in the law and City policy as needed.

The City Attorney's Office will continue to provide legal advice and support on matters initiated by the City Council, City Manager's Office and City departments, including review and negotiation of contracts, leases, licenses, policies and Public Records Act requests responses.

Divisions and Services

The City Attorney's Division is organized under the City Attorney's Office.

City Attorney Division Mission	Provide professional municipal legal services to the City Council, policy makers, boards, commissions and staff in their official capacities.
	Oversee and direct ongoing litigation; defend against claims filed against the City. Review, update, interpret, and enforce the City Code, particularly regarding quality of life issues and nuisance abatement; and, draft and recommend ordinances and amendments in response to City Council direction. Provide legal advice to the Mayor and Council about City policies, directives, ordinances and procedures.
Division Objectives	Collaborate with the City Manager to ensure legal compliance in the performance of City obligations and duties. Ensure California Environmental Quality Act (CEQA) and zoning compliance for all property development. Initiate prosecutions when necessary to protect residents, employees, and the environment. Work with the Human Resources Department regarding personnel and discipline matters.

Significant Accomplishments

- Successfully obtained favorable award in Stadium Rent Reset Arbitration and dismissal of the Stadium Management Agreement Declaratory Relief Action
- Successfully assisted in transitioning the City's method of elections from at-large to by-district for City Councilmembers only
- Assisted in the transition of Convention Center past practices to a professional management approach and untangling interest in Convention Center Complex land sale
- Assisted with managing and mitigating risk in agreements with developer, Related Santa Clara, LLC, regarding CityPlace agreements
- Successfully obtained judgment in Santa Clara's favor in CityPlace CEQA litigation and concluded settlement in Santana West CEQA litigation
- Successfully obtained unlawful detainer judgment in Santa Clara's favor and obtained dismissal of contract litigation (David's Restaurant)
- Drafted City ordinances, including: City Auditor Ordinance, Traffic Impact Fee Ordinance, Electric Scooter Moratorium Ordinance, Taxicab and Pedicab Ordinance, Massage Moratorium Ordinance, Cannabis Moratorium Ordinance
- Drafted ordinance and advised the Ad Hoc Advisory Districting Committee with regard to the June 2018 Charter Amendment
- Completed approximately 2,500 legal service requests, which included legal advice, review and negotiations of contracts, leases, licenses, and policies related to the day-to-day operations of the City of Santa Clara
- Completed negotiations, environmental review process and development entitlements for Tasman East, 575 Benton Street (Prometheus), and the acquisition of Franklin Street Easement

Significant Objectives

- Assist with implementing policy/ordinance regarding cultivation of recreational marijuana
- Assist with implementing revisions to massage business regulations
- Assist with Stadium issues:
 - Related to non-NFL events
 - Related to audit recommendations and implementation
- Assist with comprehensive Zoning Ordinance Update
- Assist with specific plans for Focus Areas (Tasman East, ECR, Downtown)
- Assist with negotiating a development agreement and environmental review for proposed Kylli Project (former Yahoo site)

Budget Highlights

- Increased funding for all City Attorneys to attend the League of California Cities - City Attorneys' Conference. The conference provides training on cutting-edge issues in municipal law, including comprehensive updates on litigation affecting cities.
- Addition of 1.0 Assistant City Attorney in FY 2020/21 to provide support for various real estate transactions

Program: 2411 – Program Administration					
This action provides funding for the City Attorney's Office to issue a Request for Proposal to procure a legal management software and a consultant to assist in the implementation of the software. This organizational tool would offer a comprehensive solution with the functionality to track legal deadlines, dockets, calendar and document management, court filings and documents related to specific legal matters.					
Performance Impact					
The City Attorney's Office seeks to leverage new technology that is conducive to increasing efficiency levels by eliminating manual processes in order to provide timely responses to external and internal customers. A legal management tool would also provide resources to the City Attorney's Office to plan and implement improvements for future needs through automation.					
Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure					

		FY 2019/20		FY 2020/21

Assistant City Attorney for Real Estate Legal Matters	1.00	0	0	0	293,868
Program: 2411 – Program Administration					
This action adds 1.0 Assistant City Attorney in FY 2020/21 to provide support for the City Attorney's Office in handling a range of real estate transactions on behalf of the City, including public/private development partnerships and the development and preservation of affordable housing. The City Attorney's Office in its current form is undergoing significant workloads related to development projects such as CityPlace Santa Clara, Kylli Mixed Use Project, Tasman East and El Camino Real, all of which require a considerable undertaking and is resource intensive to provide legal services. In addition, the Stadium Authority related issues and the Convention Center also require substantial time from the legal counsel to represent and advise.					
Performance Impact					
This action enhances the level of City services and helps to achieve timely legal services provided to the City Council, policy makers and staff.					
Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources					

Performance and Workload Measures

City Attorney Division							
Workload Measures							
	Strategic Pillar	2016/17 Actuals	2017/18 Actuals	2018/19 Target	2018/19 Estimate	2019/20 Target	2020/21 Target
Number of legal service requests reviewed within ten working days after receipt from the Department		1,793	2,489	1,800	1,800	1,800	1,800
Number of training sessions presented for City officials and staff		5	5	5	5	5	5
Number of ordinances and resolutions drafted or reviewed by CAO		85	144	100	100	100	100
Issue quarterly litigation status reports		4	4	4	4	4	4
Review, on a quarterly basis, the status of all workers' compensation claims and provide direction regarding litigation and claim review as needed to City staff and outside counsel		4	4	4	4	4	4
Prosecute cases for violations of City Code ¹		75	40	80	80	40	40

¹Estimates and targets in FY 2018/19 are higher than previous years' actuals due to full staffing levels to handle the case load. The City Attorney's Office anticipates a decline in FY 2019/20 and FY 2020/21 due to changes in enforcement policies and new regulations.

City Clerk's Office

Department Mission

Maintain accurate and up-to-date records of the proceedings and actions of the City Council, engage voters in the process of and conduct the municipal elections, keep informed on matters before the City Council, and provide information and assistance to the Council, staff and the public regarding City services and policies

This page is intentionally left blank.

City Clerk's Office Description

The Elected City Clerk duties are to (a) be the custodian of the seal of the City and (b) have charge of all City Elections.

The Assistant City Clerk oversees the day-to-day operations of the City Clerk's Office. The City Clerk's Office processes the agendas for and attends all meetings of the Council and Authorities Concurrent and Stadium Authority meetings, maintains accurate and up-to-date records of the proceedings of those meetings and makes those records open for public inspection. The City Clerk's Office processes and maintains copies of City contracts, ordinances, resolutions and other official documents. The City Clerk's Office maintains the Records Retention Center, and manages and complies with the records retention schedule. The City Clerk's Office administers municipal elections, campaign and disclosure laws, the Campaign Finance Ordinance, Regulation of Lobbying Activities program and the Calendars of Certain City Officials program. The City Clerk's Office also administers oaths of affirmation pertaining to the affairs and business of the City and also certifies copies of official records.

Divisions and Services

The City Clerk Division is organized under the City Clerk's Office.

City Clerk's Office Division Mission

Maintain and ensure that all official records and documents are accessible to the public; assure timely publication, posting and/or mailing of ordinances, resolutions, calendars of certain City Officials, lobbyist registration forms and semi-annual reports, and other notices; attend and keep an accurate record of Council meetings; engage voters in the process of and conduct the municipal elections; and respond to all requests for information efficiently and courteously.

Division Objectives

To continue to work with all City departments to ensure accuracy of the Records Retention Schedules with emphasis on electronic records and historical and vital records.

To continue to work with the Information Technology Department and the City Attorney's Office to ensure integrity and compliance with the Records Retention Program, including updating the Records Retention Schedules.

To continue the records management software training for City staff and work with departments to inventory and classify records.

To continue to track agreements for all City departments to ensure that active agreements are readily available and inactive agreements are retained according to retention schedules.

Significant Accomplishments

- Implemented the Special Election - June 2018 and implemented the first phase of the Electronic Public Records Act System
- Implemented and conducted the November 2018 General and Special Election
- Collaborated with the City Attorney's Office and introduced Hidden Political Donations (Dark Money) Ordinance
- Updated the Pathway to Citizenship webpage to allow more accessible information on applying for citizenship
- Increased Lobbyist Fees and created a new Client Fee for full cost recovery of the program
- Implemented Request for Proposal process and identified agenda and enterprise document management system vendors

Significant Objectives

- Work with the City Manager's Office and Information Technology Department to stabilize and improve current agenda and document management process by implementing new, contemporary agenda and enterprise document management systems. Implement and support an electronic agenda workflow process by providing best practices, support documentation, ongoing support and subject matter expertise
- Implement and support enhanced functionality for the enterprise document management system as a City-wide resource for records management, the use of forms, compatibility with mobile devices and other functionality as appropriate
- Identify and focus on key elements of the agenda and enterprise document management systems that will enhance productivity and increase transparency through the public meeting process and access to information. Continue to provide prompt and thorough responses to requests for public records and to assure that all official records and document are accessible to the public
- Assess, improve and administer good government reporting practices such as the open calendar policy, lobbyist registration ordinance, statements of economic interest and campaign disclosure statements
- Enhance community engagement programs such as citizen outreach, board and commission recruitment, neighborhood engagement and others as appropriate

Budget Highlights

- Through a multi-departmental approach, resources are added to support and expand staff's capacity to implement citywide systems and new initiatives

Program: 2312 – Public Information/Legislative Records Management

This action provides funding for the City Clerk's Office to ensure the proper implementation of the enterprise document management system, Laserfiche system, by both updating the City's records retention policies and backfilling with as-needed staff for certain city clerk administrative and agenda management functions. The need for an enhanced approach to records management practices is paramount in supporting the effort of the City Clerk's Office to improve current processes and practices. A contemporary enterprise document system and an updated records retention schedule will identify what information is important and valuable, which will better allow the City to identify and remove obsolete documents. Additionally, the system upgrade is necessary to facilitate the day-to-day operations of City departments and links with the agenda management system for public meetings; therefore, this upgrade will allow for enhanced productivity, improved public interface and increased transparency.

Performance Impact

In conjunction with the implementation of an enterprise document management system, the City Clerk's Office is in the process of launching major systems such as the Public Records Act tracking system and an electronic signature system, which require significant attention and adaptability from staff that impacts the day-to-day operations. Adding as-needed resources to support staff in this effort will help to address the operational constraints meanwhile allowing staff to direct focus on supporting a number of process improvements that enhance overall City operations.

Strategic Pillar:  Enhance Community Engagement and Transparency

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
City Clerk Initiatives and Voter Outreach Strategies	0.00	0	100,000	0	100,000

Program: 2314 – Elections

This action provides ongoing funding for the elected City Clerk to develop and implement strategies that will increase voter outreach and education, promote community engagement, and bolster voter participation while committing to an open and transparent government. In addition to implementing voter outreach strategies, funding is also available for the City Clerk to support and implement new City initiatives related to the recently approved ballot measure, which changed the method of elections from at-large to by-district voting for City Councilmembers, excluding the Mayor.

Performance Impact

Adding resources in the City Clerk's Office to support key initiatives reinforces the City's commitment in keeping the community informed and engaged through civic education and voter engagement. Furthermore, this proposal dedicates City resources to enhance election outreach and ensures voting is widely accessible.

Strategic Pillar:  Enhance Community Engagement and Transparency

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
"Regulating of Lobbying Activities" Ordinance Implementation and Enforcement	0.00	100,000	0	0	0

Program: 2313 – Political Reforms Act

In January 2016, the City Council adopted the "Regulating of Lobbying Activities" Ordinance to require persons, who are compensated for communicating with any City official in order to influence decisions of City government, to register as lobbyists with the City Clerk's Office. Following the adoption of the ordinance, the City initiated outreach and educational efforts to individuals and entities that might be subject to the new requirements. This action would provide resources in the City Clerk's Office to develop further guidance and procedures for the implementation and enforcement of the ordinance.

Performance Impact

It is the purpose and intent of the City to ensure that the citizens of Santa Clara have access to information about persons who influence or attempt to influence a City official with regard to legislative or administrative action of the City. Through this action, the City demonstrates its commitment to serve in the best interest of its citizens by continuing to provide an open and transparent government.

Strategic Pillar:  Enhance Community Engagement and Transparency

City Auditor's Office

Division Mission

To promote honest, efficient, effective and fully accountable city government through accurate, independent and objective audits

This page is intentionally left blank.

City Auditor's Office Description

The City Auditor's Office is an independent office that reports to the Audit Committee and City Council. The Office conducts performance audits and reviews of City departments, programs and services. This Office will also make recommendations to strengthen accountability, improve efficiencies and effectiveness of City programs, as well as business processes. The audits may assess internal controls over financial reporting and evaluate the adequacy of system of internal controls, and ensure compliance with applicable laws, rules, regulations, and City policies and procedures.

The Office prepares an annual audit work plan for the City Council's approval, and issues semi-annual audit status reports and annual follow-up reports on outstanding audit recommendations to the City Council for review.

The Office provides oversight of external auditors regarding the City's annual financial audit, single audit, and annual compliance review with the City's Investment Policy, performance audits and related financial audits. Furthermore, the City Auditor's Office is responsible for the of the Stadium Authority's annual financial audit.

Once established, the Office will administer the City's Fraud Hotline program and perform investigations for all material complaints received related to fraud, waste, and abuse.

Divisions and Services

The City Auditor's Office is organized under the Finance Department.

City Auditor Division Mission	The City Auditor's Office mission is to promote honest, efficient, effective and fully accountable city government through accurate, independent and objective audits.
	Establish performance audits within the organization to better understand how our programs are performing in comparison with neighboring jurisdictions.
Division Objectives	Conduct in-depth financial and performance audits.
	Oversee the City's performance management system. Audit and approve all bills, invoices, payrolls, demands or charges against the City before payment, as outlined in the City Charter.

Significant Accomplishments

- Completed the Annual Cash Disbursement review for the City of Santa Clara
- Completed the Political Action Committee's campaign disclosure audit
- Completed and presented the City's first Annual Audit Work Plan for FY 2018/19 (mid-year) and FY 2019/20 to the City Council for approval
- Implemented greater internal controls over the check stock issuance process to include a chain of custody
- Completed continuous oversight of the annual financial audit contracts for the City and Santa Clara Stadium Authority

Significant Objectives

- Continue to reintroduce an audit function and pre-audit work processes for the City in an effort to promote greater accountability
- Increase the economy, efficiency, effectiveness, and accountability of City government through audits and recommendations
- Maintain an effective follow-up process to monitor and evaluate the adequacy, effectiveness and timeliness of actions taken by management to address audit recommendations and report to the City Council on the actions taken
- Establish a whistleblower hotline for fraud, waste, abuse and related ethical issues
- Administer the whistleblower hotline and perform investigations for all material complaints
- Provide oversight of external auditors regarding the City and Santa Clara Stadium Authority's financial and performance audits

Budget Highlights

- The City Auditor function, previously overseen by the City Clerk's Office, was transitioned to the Finance Department as a separate City Auditor's Office in FY 2018/19. As part of the transition, the Assistant Finance Director assumed the role of the City Auditor. In addition, 1.0 Office Records Specialist from the City Clerk's Office, and 1.0 Accountant from the Accounting Services Division were reallocated to the City Auditor's Office. This budget includes the deletion of 1.0 Office Records Specialist position and addition of 1.0 Senior Performance Auditor position to support the audit function
- The increase in salaries and benefits reflect the reallocation of positions from various divisions to the City Auditor's Office
- Citywide contractual services funding has been included to support additional performance and financial audits

Programs:	3352 – City Auditor Administration 3353 – City Auditor Services				
This action adds funding to the City Auditor's Office to support the following: training/certification for staff, a fraud hotline, the check stock, audit contractual services, deletion of 1.0 Office Records Specialist and addition of 1.0 Senior Performance Auditor position. These resources will enable the City to expand and strengthen its auditing function by including the responsibilities to: (1) review the organization's management and utilization of resources and (2) identify causes of inefficiencies or uneconomical practices, including inadequacies in management information systems, internal and administrative procedures, organizational structure, uses of resources, allocation of personnel and purchasing policies.					
Performance Impact					
Sufficient resources in the City Auditor's Office will enable the City Auditor to develop and implement programs that support process improvements, ensure continued reliability and integrity and promote transparency for our citizens. The City Auditor's Office, through sound internal controls, will better assist the City Council, management, and staff to make informed decisions in serving as responsible stewards of public resources.					
Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

City Manager's Office

Department Mission

The City Manager's Office mission is, by the City Council's direction, to build and maintain a vibrant community through sound management principles, strong ethical practices and community participation, an effective City government organization, and efficient services in accordance with City Council policies, City Charter, City Code, and Administrative Policies

This page is intentionally left blank.

City Manager's Office Description

The City Manager's Office is responsible for providing direction and support to all City departments for day-to-day operations and strategic planning, and support to the City Council with its policy making. The City Manager's Office also provides general administration for the Sports and Open Space Authority, Housing Authority, and Successor Agency of the former Redevelopment Agency; ensures city-wide emergency preparedness; drives strategic planning and organizational development; oversees employee relations; directs the preparation of the budget in conformance with the Council's approved priorities and Budget Principles; and advises Council of the City's financial outlook. In addition, the City Manager's Office has direct responsibility for economic development, community outreach and engagement, property management, special projects, and legislative research and analysis.

Divisions and Services

The City Manager's Office is organized into two Divisions: City Council Support and Leadership and Management Services.

City Council Support Division Mission	Support the City Council with its policy decisions and assist with establishing and implementing goals, objectives, and planning strategies to maintain a thriving community with efficiently delivered City services.
Division Objectives	<p>Provide policy support for decision making by assisting Council in establishing policies and priorities, deciding on regional, State, and federal legislative positions, and executing its legislative responsibilities.</p> <p>Build intergovernmental relations and promote a strong, effective advocacy voice for legislation that will benefit the City.</p>
Leadership and Management Services Division Mission	Support the Santa Clara community through strategic planning, day-to-day oversight of operations, policy development, and fiscal planning. This Division also leads economic development, organizational development, community outreach and engagement, and the implementation of key policies and programs.
Division Objectives	<p>Implement Council direction while overseeing City operations and department resources, economic development, management of City-owned properties, and the development and implementation of key policy.</p> <p>Plan and execute highly complex, citywide projects while strategically developing a more effective and efficient organization.</p> <p>Enhance the City's community outreach and engagement efforts by updating the City's communications plan and informing residents and businesses about issues through press releases, Community Letters, the City Manager's Blog online, Inside Santa Clara (the City newspaper for residents and businesses), the City's website and social media channels.</p>

Significant Accomplishments

- Held a two-day Council Priority Setting Session to create a shared understanding and realistic assessment about the state of the organization and City Council's policy priorities
- Developed an initial set of revenue strategies to address General Fund deficits as projected in the 10-Year Financial Forecast
- Worked with the City Auditor to establish a functional audit program to support sound management, continuous improvement, and fiscal efficiency in the delivery of public service
- Led and implemented a citywide council districting process as well as held a Governance Study Session with the Council to discuss the transition to a new governance model
- Refined the Council Committee structure as presented to the Governance Committee at their April 23, 2018 meeting so that it better supports the City's Governance Structure, aligns to the Council's Strategic Pillars, and takes into account the organization's resource capacity
- Developed a streamlined legislative advocacy process that establishes clear guidelines for advancing City goals and positions through legislative review and advocacy at the regional, state, and federal levels of government
- Implemented legislative tracking tools such as Tentative Meeting Agenda Calendar (TMAC) as well as a Council Referral Tracking System to improve Council and Stadium Authority meeting management
- Advanced large land-use developments that add value to the City's long-term financial solutions, such as CityPlace, and completed the sale of Successor Agency property located at 4701 Great America Parkway, Santa Clara, CA
- Oversaw a robust and transparent Request for Proposal process to select an experienced firm, Spectra Venue Management, to manage and operate the Santa Clara Convention Center; and executed a five-year term management agreement with two five-year renewal options that includes clear reporting requirements and key performance indicators
- Led efforts to ensure that the Santa Clara Tourism Improvement District (TID) complies with the City's ordinance and continues to engage in activities that successfully attract travelers, tourists, cultural groups, and conventions to Santa Clara
- Updated and implemented the City's Smoking and Tobacco regulations to expand smoking restrictions in many public places and multi-unit residences and applied for the County of Santa Clara's Healthy Cities Program – Tobacco Free Communities Grant and was approved grant funding in the amount of \$30,751 to cover costs related to smoke-free multi-unit residences implementation efforts
- Launched the City's Community Grant Program which established a standardized process to award grants to qualifying non-profit community organizations, youth athletic groups or organizations, educational groups or organizations, or individuals, for events, activities and competitions that provide a public benefit for the City of Santa Clara and its residents
- Implemented "Friday in the Field" Initiative in which the City Manager dedicates a couple of Fridays per month to work side-by-side with staff throughout the City to learn about the various services offered to Santa Clara residents
- Coordinated with City departments to meet the service needs required to host the College Football National Championship at Levi's Stadium on January 7, 2019 including the activation of the emergency operations center (EOC) and training while ensuring that all expenses related to the event were fully reimbursed to the City
- Engaged in robust community outreach efforts on topics of interest to the Santa Clara communities, such as ongoing activities in the City, voting districts and the impacts of Levi's Stadium, through the online publication and distribution of the City Manager's bi-weekly blog, Letters to the Community, increased social media presence, numerous community meetings and online surveys (Open City Hall)
- Re-launched the City's customer relationship management (CRM) system, MySantaClara, to provide a more effective and user-friendly experience to Santa Clara residents, businesses and visitors

- Completed the Franklin Street and Washington Street Option Agreement for downtown redevelopment which is a key element of the future downtown redevelopment project and kicked off the development of the downtown specific plan
- Developed a prevailing wage program to ensure compliance with state law including new tracking software and an outside contractor to help ensure compliance, provide training and perform audits of public works projects
- Negotiated contract and secured State Department of Finance and Countywide Oversight Board approval of a \$150.3 million Purchase and Sale Agreement with Cedar Fair for the Successor Agency-owned Great America Theme Park parcel

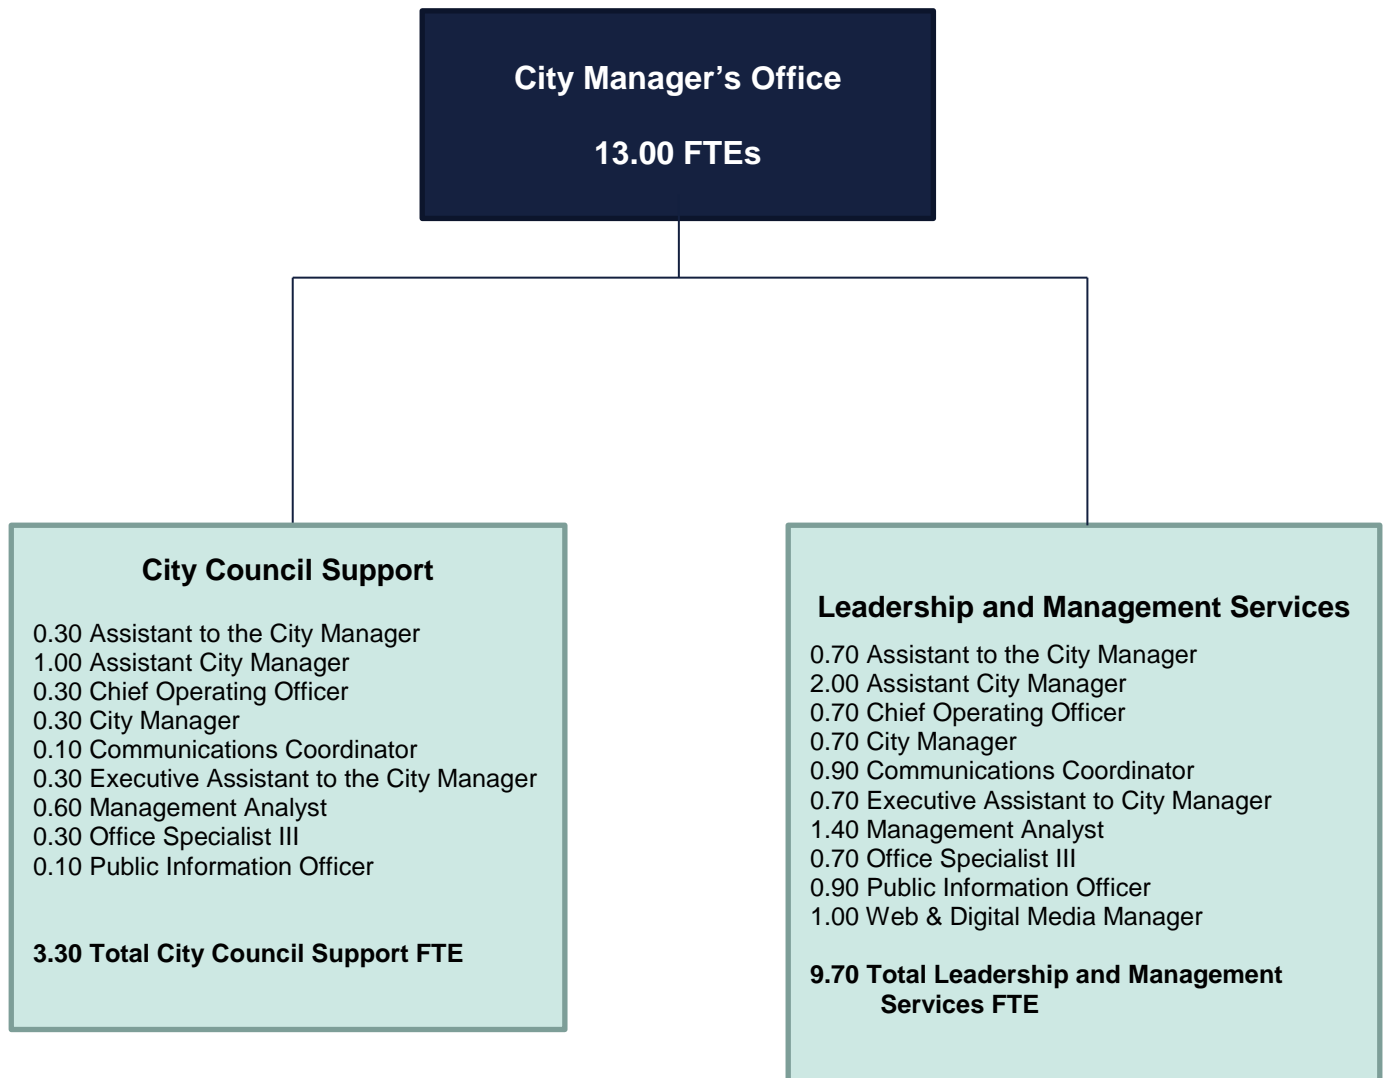

Significant Objectives

- Continue to support the City Council, the priority setting process, and regular, special and committee meetings
- Continue to provide leadership and professional management to the City government organization
- Continue to work with various stakeholders to advance the land use planning and development of Santa Clara's downtown
- Continue to mitigate deficits projected in the City's Ten-Year General Fund Financial Forecast through development of revenue strategies, implementation of alternative service delivery models and expenditure reductions
- Oversee and mitigate the impact of service level changes, if any, related to council districts and new developments
- Continue to support the City Council and departments with federal and state legislative priorities and goals
- Continue to build intergovernmental relations and promote a strong, effective advocacy voice for state and federal legislation that will benefit the City
- Work with Santa Clara/Santa Cruz Counties Airport Community Roundtable, coordinated by the Cities Association of Santa Clara County, to implement goals and measures that reduce aircraft noise
- Work with stakeholders to advance economic development efforts to promote Santa Clara tourism and businesses
- Continue to support the Santa Clara Convention Center with transitioning its new operator and advancing our mutual goals as articulated in the Management Agreement
- Re-launch the City's website to provide a more effective and user-friendly experience
- Engage in citywide outreach efforts for Census 2020 and coordinate with key stakeholders
- Provide strategic communications support to departments across the City with a focus on programs and projects related to Council priorities
- Continue to support City's deployment of improved public service deployment for public gatherings, including Levi's Stadium
- Continue to implement audit recommendations and support the City Auditor with completing audits
- Continue to support the community with administering various special events and the City's grants program
- Continue to lead and support the CityPlace development, as well as other significant development projects within the community

Budget Highlights

- Recommends a carefully balanced FY 2019/20 and 2020/21 Biennial Operating Budget that reflects the City Council priorities and continues to build on the foundation of financial sustainability
- Reorganizes the City Manager's Office budget structure into two new divisions: City Council Support and Leadership and Management Services aligned to a more traditional City Manager's Office model; the division of City Council Support includes the programs Policy Support for Decision Making and Intergovernmental Relations and Advocacy, and the division of Leadership and Management Services includes the programs Day-to-Day Operations, Strategic Planning, and Community Outreach and Engagement
- Adds 1.0 Web and Digital Media Manager to provide more strategic communications bandwidth and resources to adequately address Council priorities for proactive media relations and public outreach
- Includes one-time funding of \$200,000 for consultant services to update existing citywide administrative policies
- Includes an annual amount of \$35,000 for the City's participation in the Santa Clara/Santa Cruz Counties Airport Community Roundtable, coordinated by the Cities Association of Santa Clara County (the City's participation was originally approved by Council on July 17, 2018); while the original membership fee was supported by the City Council Contingency Fund, on-going membership fees will be included as a line item under the City Manager's Intergovernmental Relations & Advocacy Program where funding for citywide memberships resides
- Includes one-time funding of \$150,000 for consultant services to track and monitor proposed state and federal legislation that may impact the City

Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Update Administrative Policies (City Manager Directives)	0.00	200,000	0	0	0

Program: 1031 – Day-to-Day Operations

This one-time funding will enable the City Manager's Office to retain an experienced consultant to update existing citywide administrative policies to maintain compliance with State and federal guidelines, as well as legal requirements. These administrative policies are intended to develop a uniform method of implementing administrative policy. However, over 80% have not been updated in the last 15 years, regardless of state, federal or legal changes, meaning they may not be reflective of current regulations. Additionally, many of these administrative policies are not representative of best practices and should be updated to better demonstrate the City's high expectations.

Performance Impact

This addition will ensure compliance with State and federal regulations and provide up-to-date policies for the City.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Web and Digital Media Manager	1.00	0	194,224	0	205,878

Program: 1033 – Community Outreach and Engagement

This action will provide more strategic communications bandwidth and resources for adequately addressing Council priorities involving pro-active media relations and public outreach. The Web and Digital Media Manager would oversee the redesign of the City's website as well as the Inside Santa Clara newspaper. This position will also provide communications support to all departments regarding communications planning, media relations, and public outreach for City programs as well as establish public outreach campaigns for items such as new City initiatives and new developments.

Performance Impact

The addition of this position will greatly increase the Communication's Office's capacity for strategic communications and citywide support. Additionally, this position will address work demands, improve staff capacity constraints, support professional development and allow for better succession planning.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Legislative Advocacy	0.00	150,000	0	150,000	0

Program: 1022 – Intergovernmental Relations and Advocacy

This action adds one-time funding in FY 2019/20 and FY 2020/21 to support the City's legislative advocacy efforts as outlined in the Legislative Advocacy Position Policy. These efforts include tracking and monitoring legislation and promoting a strong, effective advocacy voice for regional, State, and federal legislation that will benefit the City.

Performance Impact

This funding will help the City act in accordance the Legislative Advocacy Position Policy and ensure the City stays up-to-date on current legislation affecting cities.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Census 2020 Outreach	0.00	100,000	0	0	0

Program: 1032 – Strategic Planning

This action adds one-time funding for additional outreach for Census 2020. The City of Santa Clara became a participant in the Census 2020 Complete Count Committee in preparation for the upcoming census. As a result of budget constraints, the U.S. Census Bureau will have reduced capacity for public outreach, bringing the number of anticipated Census field offices to approximately half of what was available for the 2010 Census. This funding will enable the City to increase its efforts related to community outreach for census participation. Participation is critical as census data is used to determine the distribution of federal funding. Limited participation could result in less funding for various services including affordable housing and transportation.

Performance Impact

This funding will allow for additional outreach to City residents and encourage participation in the 2020 Census, as the level of participation can significantly impact the federal funding distributed to the City.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Santa Clara/Santa Cruz Counties Airport Community Roundtable Membership	0.00	0	35,000	0	35,000
Program: 1022 – Intergovernmental Relations and Advocacy					
Per Council direction on July 17, 2018, the City joined the Santa Clara/Santa Cruz Counties Airport/Community Roundtable, which was coordinated by the Cities Association of Santa Clara County. This Roundtable offers the Council to participate in an intergovernmental partnership with neighboring cities and counties, serving as an aircraft noise mitigation entity.					
Performance Impact					
This roundtable will work together with airports and the FAA to address the growing concern of aircraft noise.					
Strategic Pillar:		Deliver and Enhance High Quality Efficient Services and Infrastructure

Community Development Department

Department Mission

To enhance the community's safety, welfare, quality of life and economic opportunities by providing advanced planning, development review, permitting and inspection services, as well as administration of programs related to affordable housing

This page is intentionally left blank.

Community Development Department Description

The Department consists of three divisions: Planning, Building, and Housing and Community Services. The Department's primary purpose is to guide the ongoing physical development of the community, which includes long range land use planning, review of new development proposals and construction to ensure that it conforms to the standards of the City and State and the provision of affordable housing within the City of Santa Clara. The Department acts as an advisor to the City's decision-makers in these areas and carries out the policies of the City Council. Santa Clara's policies and standards are contained in the General Plan, Zoning Ordinance, California Building Codes and adopted City Council policies. Plans for all new structures are reviewed and construction inspections are made to verify the safety and basic quality of work. Maintenance of the City's General Plan, proactive land use planning to meet the future needs of the community, and the delivery of high-quality professional services, including the enhancement and streamlining of the development permit process, and forging partnerships to provide housing services to lower income members of the community are primary objectives of the Department.

Divisions and Services

The Community Development Department is organized into three Divisions: Planning; Building; and Housing and Community Services.

Planning Division Mission	To enhance the community's safety, welfare, quality of life, and economic opportunities by providing advanced planning and development review services.
Division Objectives	Review proposed development projects for consistency with City policies, ensure compliance with the California Environmental Quality Act (CEQA), and confirm construction complies with development approvals.
	Continue streamlining the development process, and facilitate public access to information through new technologies and the internet.
	Prepare and implement long range plans; in coordination with consultants, update the Zoning Ordinance, prepare the Downtown Precise Plan and the El Camino Real, Patrick Henry Drive and Freedom Circle Specific Plans.
	Support the City's historic preservation efforts, provide code enforcement to respond to community concerns, implement and update the Climate Action Plan, and work with the Valley Transportation Authority (VTA) on planning for transit services.
	Provide support for CEQA/National Environmental Policy Act (NEPA) review of City capital, affordable housing, and other public projects.

Building Division Mission

To provide high quality and efficient services for the design, construction, use, occupancy, and maintenance of all buildings and structures in order to safeguard the public health, safety and general welfare in the built environment.

Division Objectives

Provide efficient and customer-friendly plan review and permitting services at the Permit Center and through the internet.

Provide effective field inspection services during construction and code enforcement services to respond to community concerns.

Continue streamlining the building permit process through new technologies and the internet. Begin permit system replacement efforts along with migration of existing data.

Continue to digitize documents to update the permitting database to enhance services.

Apply and implement new building codes and new State legislation.

Continue to coordinate plan checks and inspections statuses of the four development functions: Building, Fire Prevention, Planning and Public Works/Engineering.

Housing and Community Services Division Mission

The Housing and Community Services Division administers the City's federal Community Development Block Grant (CDBG) and HOME Investment Partnerships Act Program (HOME) entitlement grant programs. The federal entitlement grants are used to promote affordable housing, rehabilitate substandard housing, provide neighborhood improvements and remove barriers to the handicapped, and fund public services for low and moderate-income residents. Additionally, the Housing and Community Services Division administers the City's inclusionary housing program, which requires that a percentage of new development units be dedicated to low and moderate-income residents. Also, the Housing Division continues to manage its Redevelopment Agency legacy assets which include land and cash available for development, loans to first-time homebuyers, and other new affordable development projects.

Division Objectives

Complete an annual Consolidated Plan for utilizing federal funding received by the City. The plan identifies community development and affordable housing needs and determines activities to be implemented that will assist low- and moderate-income people.

Administer our two core federally funded programs: Tenant Based Rental Assistance (TBRA) and Neighborhood Conservation and Improvement Program (NCIP).

Complete in a timely fashion those budgeted capital improvement projects receiving funds from the federal CDBG Program and HOME Investment Partnership Act Program.

Achieve the community service goals required of City-funded public service agencies.

Encourage and finance the construction and maintenance of housing affordable to lower and moderate-income households utilizing the revenues from the following three housing funds: Housing Successor, City Affordable Housing and Housing Authority. Provide opportunities for affordable home ownership to moderate-income households. Implement the City's new inclusionary housing policy, which requires 15% of all new residential developments be set-aside for moderate income households.

Significant Accomplishments

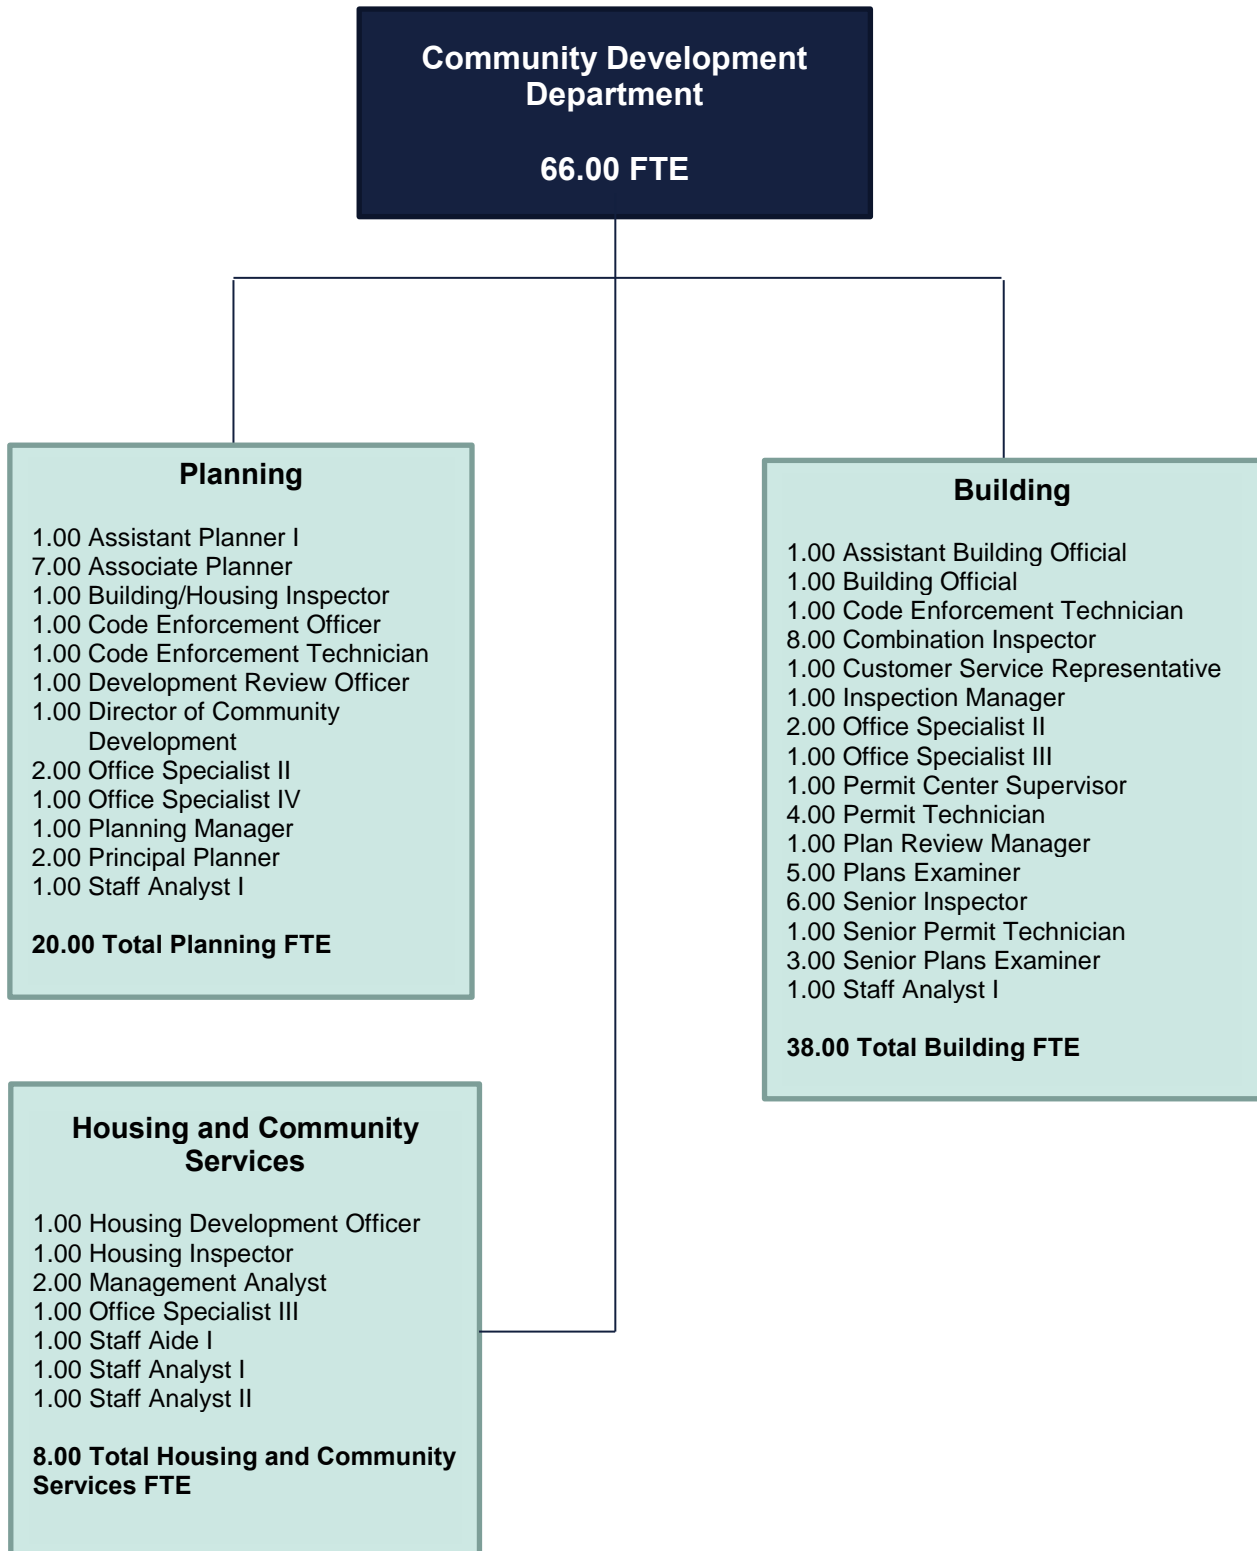

- Completed the Tasman East Specific Plan
- Adopted the Affordable Housing Ordinance and Impact fees to include a combination of inclusionary requirements for residential projects and impact fees for smaller projects and nonresidential projects; this provides a steady stream of affordable units and income to fund the provision of affordable housing projects across the City
- Implemented process improvements for scheduling of inspections; improved Building Permit review; inter-departmental coordination; and provided special handling for large and select tenant improvement projects
- Initiated update to the permit information system
- Performed plan reviews, issued permits and conducted inspections for numerous buildings and structures
- Building permit valuations projected for permit activities in FY 2018/19 show approximately \$1.3 billion in valuation attributed to 8,000 building permits and 33,000 field inspections
- Invested \$881,738 in the City's Neighborhood Conservation and Improvement Program (NCIP) and \$948,000 in the City's Tenant Based Rental Assistance Programs
- Assisted two families in purchasing Below Market Purchase (BMP) homes, 20,090 residents through public service programs and 20 homeless or at-risk Santa Clara residents through County Supportive Housing Partnership
- Negotiated and executed a Disposition and Development Agreement (DDAs) for the Agrihood Project
- Issued Request For Proposals for development of two City-owned parcels and entered into Exclusive Negotiating Agreements with developers of both sites

Significant Objectives

- Continue to engage with the Santa Clara community to inform and involve community members in both long-range and current land use planning activities
- Enhance economic development by meeting service demands; provide more timely development review and permit processing timeframes and inspections; keeping critical services in-house; providing consistency and continuity; and staying current with technology
- Complete significant advanced planning efforts, including the Zoning Ordinance update, Tasman East Area Plan, and El Camino Real Specific Plan, Patrick Henry Drive Specific Plan and Freedom Circle Specific Plan.
- Implement the permit system replacement to streamline permit processes with online, electronic access, and integration with a geographic information system (GIS)
- Implement the Inclusionary Housing Ordinance
- Work to expand the affordable housing pipeline, execute DDAs and loan closing for current pipeline
- Issue a Request For Proposals for asset management with third-party service provider

Budget Highlights

- Additional resources are included in the Housing and Community Services Division to facilitate the implementation of two new pilot programs: Multi-Family Energy Rehab Program and Accessory Dwelling Unit Incentive Program
- Collaborative Real Estate resources with the City Manager's Office Strategic Planning Function Division to centralize housing and citywide real estate activities
- Establishment of a new fund for the Certified Access Specialist (CASP) Certification and Training Program

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Pilot Accessory Dwelling Unit Incentive Program	0.00	0	200,000	0	200,000

Program: 5546 – Housing Authority

The Housing and Community Services Division is proposing to initiate a loan program to encourage the development of Accessory Dwelling Units (ADUs) in the City of Santa Clara. Funding for the program will be leveraged to create access to low interest loans for the construction of ADUs, which will augment existing affordable housing units in the City. The goal of this pilot program is to bridge the gap between increasing demands for affordable housing and rising housing costs by providing a financing tool for homeowners to construct ADUs that will serve a select group of income qualified individuals such as teachers and public service employees.

Performance Impact

This action yields a number of potential benefits to the community by increasing the supply of affordable housing at a lower per unit infrastructure cost and reducing financial barriers for interested homeowners to construct ADUs.

Strategic Pillar:

Promote and Enhance Economic and Housing Development

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Affordable Rental Program Administrator	0.00	0	150,000	0	150,000

Programs: 5547 – City Affordable Housing
5548 – Housing Successor Agency

In accordance with the City's Inclusionary Housing Ordinance, this action will provide funding for the Housing and Community Services Division to issue a Request for Proposal for an Affordable Rental Program Administrator to implement and administer the City's Affordable Housing Program. In 2017, the City of Santa Clara passed an Inclusionary Housing Ordinance that required residential rental projects of ten or more units to provide at least 15 percent of the units at affordable housing costs made available at affordable rental prices to extremely low, very low, low- and moderate-income households. These units will remain part of the Affordable Housing Rental Program for 55 years. Units created as a result of the inclusionary Housing Ordinance will have a higher degree of oversight by both staff and the program administrator. The initial entitlement, construction, lease-up, re-lease and annual compliance checks will all be governed by the program policies. The City will be looking to put new policies and procedures in place to locate and certify the eligibility of prospective tenants, as well as coordinating with project owners, developers and property management companies to ensure program compliance.

Performance Impact

The prospective Program Administrator will collaborate with staff to provide day-to-day management of the program and introduce new program operations materials needed to strengthen the City's ability to administer and maintain its Affordable Housing Rental Program. Additionally, the Program Administrator will introduce a technology solution that streamlines communication between the City, the administrator, existing and prospective tenants and property managers.

Strategic Pillar:

Promote and Enhance Economic and Housing Development

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Multi-Family Energy Rehab Program	0.00	0	100,000	0	100,000

Program: 5547 – City Affordable Housing

In collaboration with the Association for Energy Affordability, Inc. (AEA), the Housing and Community Services Division proposes a pilot program to be provided to multi-family housing in the City of Santa Clara for projects achieving 15 percent whole building energy savings with gas, electric and water measures. The City will determine pilot property eligibility, such as income eligibility, existing regulatory agreements, financing structures or ownership structures. The City will supplement the Bay Area Regional Energy Network's (BayRen) existing gas reduction incentive of \$375/unit with an electricity/water savings incentive up to \$750 per unit.

Performance Impact

This program would provide multi-family affordable properties in the City access to financing tools and resources to make energy efficiency more affordable. Additionally, the program would incentivize multi-family properties to develop options that accelerate energy efficiency measures.

Strategic Pillar:  Sustainability

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Housing Division Staffing	1.00	0	57,372	0	67,653

Programs: 5545 – Affordable Housing
5547 – City Affordable Housing
5548 – Housing Successor

This action adds resources to the Housing and Community Services Division through a Staff Aide I position to assist with monitoring existing and new programs. These programs include: Tenant Based Rental Housing Assistance Program, Neighborhood Conservation and Improvement Program, Public Service Grants Program, HUD Capital Improvements Program, Below Market Purchaser Program, Inclusionary Housing Program, New Construction and Land Development Program, and two pilot programs (Energy Efficient Multifamily Rehab Program and Accessory Dwelling Unit Incentive Program). This new position is part of a larger effort from the Community Development Department to reorganize the Housing and Community Services Division's organizational structure and reestablish proper workflows and responsibilities.

Performance Impact

This position would assume a range of responsibilities that require a high degree of confidentiality that include: administration of agreements; file and record keeping related to the City's loan programs; coordinating information exchange between the City, title companies, lenders, and purchasers; and serving as the Housing Representative for committees and task forces. As such, the added resource will enable the Housing and Community Services Division to enhance and implement new programs related to affordable housing that meet the diverse needs of the Santa Clara community.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Housing Asset Management Software Implementation	0.00	40,000	0	0	0

Programs: 5546 – Housing Authority
5547 – City Affordable Housing
5548 – Housing Successor

This action provides one-time funding for the Housing and Community Services Division to procure a consultant to assist with the implementation of the Mortgage Office software that will improve the ability of staff to track affordable housing assets. Additionally, a portion of the funding will be used to procure a HUD consultant for the monitoring and compliance self-audit.

Performance Impact

The software will improve operational efficiencies through automation of the loan servicing processes and ensure that the City is in compliance with State and federal regulations.

Strategic Pillar:

Promote and Enhance Economic and Housing Development

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Planning Commission Training, Education and Conference	0.00	0	18,000	0	18,000

Program: 5522 – Development Review

In an effort to improve the effectiveness of the City's Planning Commission, this action provides funding for the planning commissioners to attend more education and training events, membership with planning associations, networking opportunities, and subscriptions to publications that serve as a resource for the commissioners to keep current with zoning practices and legal issues.

Performance Impact

As an advisory board to the City Council in all matters pertaining to the physical development of the City, it is critical for the Planning Commission to be equipped with the necessary tools and resources to enable them to make sound recommendations that promote public interest and reflect the values of our community.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Permit Information System Implementation Support	0.00	0	7,410	0	8,171

Program: 5532 – Plan Review and Permit

This action provides resources to support the Building Division in leading a substantial implementation effort from an outdated land and permit management system to a new permitting information system. This new system is necessary to facilitate the daily operations of City departments and is a key tool to support public access to City processes as well as to support economic development efforts citywide. As such, the new platform is a highly customizable software which requires daily maintenance such as rigorous testing, quality control, acute trouble shooting and resolution and code and script writing. Through the deletion of 1.0 Combination Inspector and addition of 1.0 Senior Inspector, staffing resources will be aligned to ensure a successful and smooth implementation and manage ongoing system maintenance. The position will also serve to perform duties in other areas of the division such as inspection services in order to help provide more efficiency and improved customer turnaround times.

Performance Impact

Because the upgrade process requires customization of the software to implement the City's business practices, the incumbent will work with staff to comprehensively review permit procedures across multiple departments and utilize this opportunity to redesign those procedures to improve customer satisfaction, staff efficiency and overall service delivery.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Certified Access Specialist (CASp) Certification and Training Program	0.00	0	7,000	0	7,000

Program: 5533 – Field Inspection

This action provides additional funding to supplement the Certified Access Specialist program (CASp) in order to increase training and certification for the City's building inspectors to become certified access specialists. A certified access specialist is an individual who has been tested and certified by the State to assess accessibility. Pursuant to Assembly Bill 1379, the City collects a \$4 fee from every business license issued to applicants, to which the City retains 90 percent of all application fees collected to be used to increase CASp training and certification and to facilitate compliance with construction-related accessibility requirements. The City will then transmit to the State Architect the remaining 10 percent for deposit in the Disability Access and Education Revolving Fund.

Performance Impact

Building inspector CASps are instrumental in preventing accessibility violations in the City as they provide permitting and plan check services for new construction. Therefore, this proposal takes a proactive approach to address the needs of our community by providing resources to help establish that our inspectors are equipped with sufficient skills and knowledge to ensure that building plans they review comply with State and federal access laws.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Programs: 5522 – Development Review
5523 – Advanced Planning
5525 – Code Enforcement

The City's Planning Division is responsible for enhancing the community's safety, welfare, quality of life, and economic opportunities in an ever-changing, complex and dynamic environment. Towards this effort, this action will increase funding to strengthen staff's professional development in order to better equip our planners with the knowledge and skills necessary to successfully transform the Santa Clara community. These transformations to the City include but are not limited to: economic development and neighborhood revitalization, policies on land use and community design, transportation, housing, environmental resources and health and safety.

Performance Impact

Supported by additional educational and training opportunities, our City planners can provide higher quality services, through effective long-range planning, to the City of Santa Clara residents, business partners and visitors.

Programs: 5545 – Affordable Housing
5546 – Housing Authority
5547 – City Affordable Housing
5548 – Housing Successor

This action centralizes the City's real estate function through the addition of a City Real Estate Manager (1.0 Assistant to the City Manager) in the Non-Departmental section of this document, addition of a Management Analyst and deletion of a Housing Division Manager. The Community Development Department currently has one budgeted Housing Division Manager position that is responsible for the management of various federal and State rehabilitation programs and agency contract administration. The new Real Estate Manager position will perform the current duties of the Housing Division Manager and will also manage the City's real estate portfolio. In conjunction with this action, the new positions will be funded 70 percent by Housing's special revenue funds and 30 percent by the General Fund.

Performance Impact

The purpose of the Real Estate Program is to provide the City's management team and policy makers with a greater understanding of all City real estate assets and how these assets can be best utilized to benefit the City of Santa Clara community. Additionally, the program will enhance the overall management of the City's real asset portfolio through the development of asset growth strategies.

Electric Utility Silicon Valley Power

Department Mission

We are dedicated to our community, customers and employees. We provide safe, reliable, affordable and sustainable energy services with exceptional customer focus

This page is intentionally left blank.

Electric Utility Department – Silicon Valley Power (SVP) Description

Since 1896, Silicon Valley Power (SVP) has provided electricity for residents and businesses in Santa Clara. The Electric Department has a budgeted staff of 197 employees who provide such diverse services as operating, maintaining and dispatching electric service, engineering, system planning, administrative and financial management, marketing, customer services, power trading, outdoor Wi-Fi services and dark fiber leasing services, all of which work together to make SVP successful for the City and its residents.

Divisions and Services

SVP is organized into six Divisions: Administrative Services; Business Services; Customer Development and Project Management; Resource Planning and Engagement; Revenue and Resources; and Utility Operations.

Administrative Services Division Mission	Plan, develop, coordinate and support the administrative activities of the Department.
Division Objectives	<p>Develop plans utilizing the Strategic Plan to achieve goals and objectives of the City of Santa Clara.</p> <p>Develop staff training plans to meet the growth opportunities within the City.</p>
Business Services Division Mission	Sustain a culture of compliance and fiduciary responsibility for the benefit and safety of the community and the employees.
Division Objectives	<p>Secure required organizational resources.</p> <p>Maintain regulatory and legislative compliance and system security.</p> <p>Manage debt and maintain fiduciary controls to maintain financial health.</p>
Customer Development and Project Management Division Mission	Be an agile and trusted partner in connecting our customers and leveraging SVP fiber optic and technology assets. Focus on execution to complete new capital investments for increased infrastructure and substations.
Division Objectives	<p>Enhance our collaboration and connection with our customers and stakeholders.</p> <p>Enhance data driven decision making to innovate, design and develop plans to optimize and expand the utility's physical assets.</p> <p>Focus on our core work and capital investments projects to streamline processes, remove barriers and lower our costs.</p>

**Resource Planning and
Engagement Division
Mission**

Retain and attract customers to the Santa Clara electric system by supporting environmental improvement programs, customer services, and implementing a sound marketing and communication strategy to accomplish the goals of the City. Manage the adequacy and cost of fuel and electric resources in a competitive market.

Division Objectives

Assure adequate generation resources for reliable, economically-competitive services to all SVP customers and meet all State and federal reliability and environmental compliance requirements.

Optimize value of assets through power trading and scheduling and procure cost-competitive fuel resources for power production.

Actively seek understanding of customers' valuation of energy service needs and amend the marketing plan as necessary to meet the needs of a dynamic market place, including technologies responsive to customer needs.

Work with other public power agency partners to explore new generation and transmission resources to service growing sales and reduce SVP's risks and average costs.

**Revenue and
Resources Division
Mission**

Provide centralized location to receive revenue and monitor expenses for resource and production to procure energy.

Division Objectives

Manage all Joint Powers Authorities (JPA) costs.

Record and receive revenue.

**Utility Operations
Division Mission**

Provide safe and reliable electrical energy to the City of Santa Clara by maintaining and enhancing infrastructure to meet energy demands for our customers.

Division Objectives

Maintain continuous efforts to improve system reliability by targeting system improvements, through scheduled maintenance of equipment according to its useful life cycle, and ongoing inspections.

Strengthen the system through improved design, research of new technologies and systems, and implementation of new system and equipment.

Maintain safety at the highest priority and a culture of compliance with all regulatory requirements.

Significant Accomplishments

- Refunded 2008 B variable rate bonds with fixed rate bonds and successfully terminated swap agreement to de-risk SVP's debt portfolio
- Adopted SVP's Ten-Year Strategic Plan with thirty strategic initiatives
- Participated in JPA bond refunding and achieved significant savings on debt service for SVP over the next five years by approximately \$1 million annually
- Developed three new standardized electric rate schedules to replace individually negotiated Electric Service Agreements with the largest industrial customers
- Worked diligently with rating agencies on the 2018 Bond rating and accomplished rating upgrade to "AA-" from Fitch Ratings
- Maintained Northern American Electric Reliability Corporation (NERC) compliance requirements and finalized 2017 Audit requirements. Reviewed and updated seven compliance plans, based on audit findings, including: bucket truck/pole top rescue; job briefings; switching; grounding; confined space; and created a new Asbestos Operations and Maintenance Plan, Stormwater Pollution Prevention Plan, and Emergency Action Plan for Utilities Center
- Conducted safety trainings for Generation, Transmission and Distribution, Substations and Metering program personnel, including active shooter awareness trainings, dog bite prevention, mark and locate utility lines and right-of-way training
- Negotiated and completed two Special Facility Agreements (for customer substations) for new data center developments which will increase electrical demand for the utility
- Supported new developments and economic growth within the City with the following achievements: completed and released five new 12kV service connections; released and implemented applicant design process; released developer's work packages for over 1,800 residential units at various sites; and released 50 estimates for construction
- Implemented outbound call procedures to alert customers of planned and forced outages, with over 40 outbound call events. Coordinated communication for more than 20 planned outages, with over 20,000 customers notified for pole inspections and repairs
- Completed new fiber lease template and cost-of-service study for fiber lease rates to help simplify business terms and streamline service delivery to improve customer service
- Furthered sustainability footprint with the following achievements: received two new American Public Power Association (APPA) Demonstration of Energy and Efficiency Developments (DEED) research grants (food service plug in devices and ductless mini split heat pumps) and sponsored an APPA DEED Intern and two student research projects (micro grid and power quality issues); completed two Research and Development Projects with matching grant funds from the APPA DEED Grant program in FY 2017/18 (smart window covering) and one in FY 2018/19 (data center liquid cooling prototype); and launched two new third-party energy efficiency programs in FY 2018/19 targeted at hard to reach commercial customer segments (small-mid size companies for air conditioning programs and incentives for property managers whose tenants pay the utility bills)
- Implemented a data warehouse that aggregates and streamlines large amounts of pricing and energy related historical information in a single location to improve analysis and response time to market trends. Through Federal Energy Regulatory Commission (FERC), reached a settlement agreement with Pacific Gas and Electric Company (PG&E) on the terms and conditions of the City of Santa Clara and PG&E's interconnection agreement. The agreement defines the parameters of how we operate as an interconnected utility within PG&E's system and the California Independent System Operator (CAISO) controlled electric grid
- Completed power purchase agreement with Viento Loco Wind power resource with a 200MW capacity that aligns with SB100 renewable requirements

- Jointly submitted with PG&E a Final License Application (FLA) to FERC to obtain a 40 year license agreement to operate the Bucks Creek hydroelectric project that includes the City's Grizzly generation powerhouse
- Completed commissioning of Northern Receiving Station (NRS) 115 kV breaker and relay replacement to support the optimization of phase shifting transformer operation and increasing load capability of the SVP system
- Upgraded the Northwestern Substation by adding a third bank transformer to meet load expansion of an existing data center customer
- Increased power plant production at Donald Von Raesfield Power Plant (DVR) by 58% and Gianera by 130% over previous year and improved DVR's availability factor using Generation Availability Data System (GADS) (reporting metric) from 74% to 90%

Significant Objectives

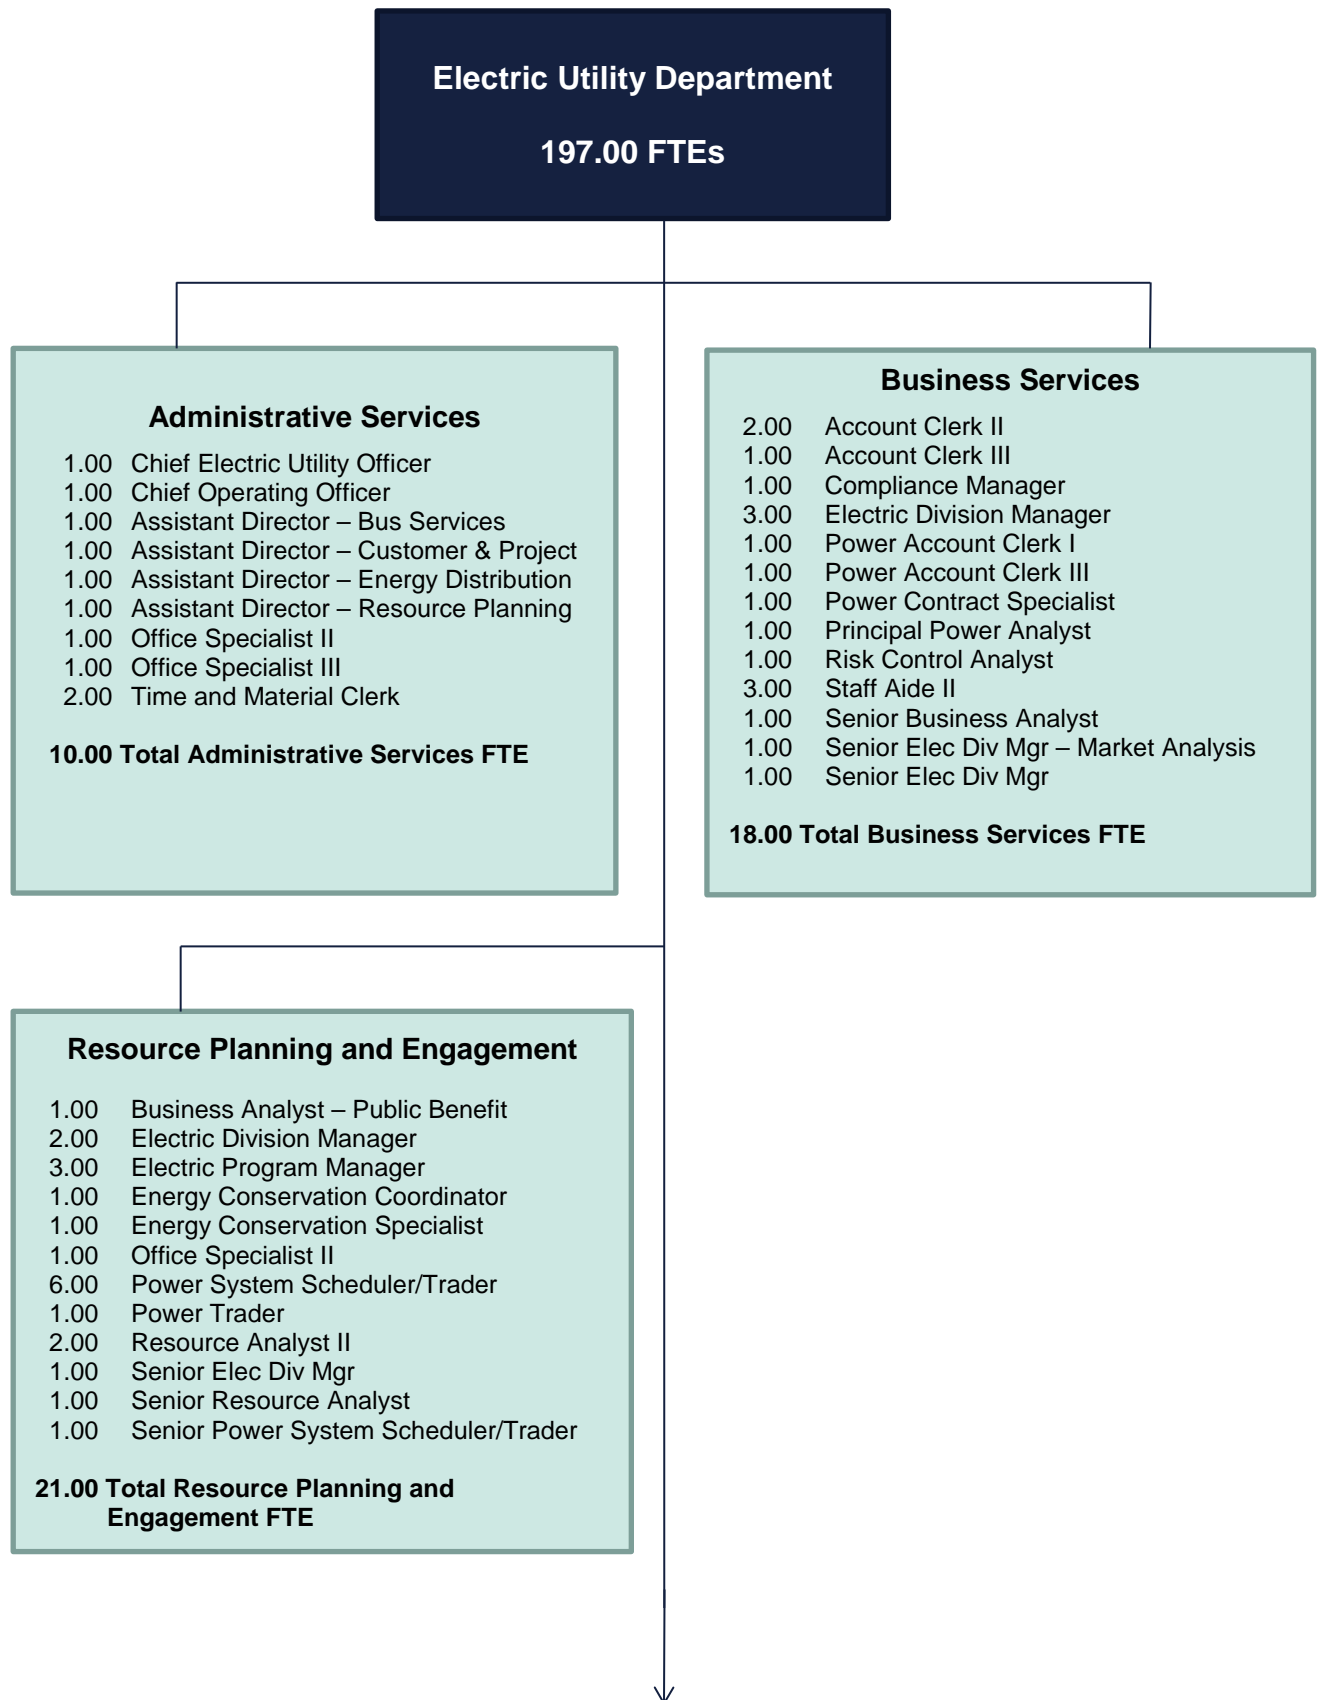

- Implement 13 near-term Strategic Plan initiatives and submit quarterly progress reporting on the Strategic Plan to the Council and community
- Provide leadership to support the department's resources by implementing staff development and succession planning to develop skills and enhance knowledge
- Initiate and administer the study for City of Santa Clara Civic Center Concept Plan and Utility Facility
- Manage the fiscal activities of SVP to include operating and capital budgets, rate analysis and design and debt management including: procurement, issuance, and annual bond disclosures. Maintain a continuous focus on customer service
- Minimize personal injuries and promote reliable operations through training, communications and application of Occupational Safety and Health Administration (OSHA), Environmental Protection Agency (EPA) and NERC regulations
- Ensure wholesale trading activities are in compliance with Council approved policy and regulations, minimize SVP's credit exposure, monitor counterparty credit risk and ensure compliance with CAISO tariff and regulations
- Engage and communicate with the public and internal staff utility programs, procedures, events and other relevant information to ensure trust and transparency in our utility
- Meet new and existing customer energy service demand and reliability needs; manage new and existing utility system assets to maximize customer reliability; and provide utility engineering support services to other divisions within SVP
- Provide energy efficiency education and programs to customers to help them reduce their energy use and lower their electric bills, promote renewable energy options, investigate emerging technologies and provide assistance to qualified low income customers to reduce the burden of their electric bills
- Participate and comply with the California Air Resources Board (CARB) Low Carbon Fuel Standard (LCFS) Program to develop, educate and foster the adoption of electrification as the transportation fuel
- Comply with Cap-and-Trade regulation requirements to spend proceeds from allocated allowances consistent with the goals of Assembly Bill 32 and provide benefits to retail ratepayers in the form of Green House Gas (GHG) reduction
- Meet state regulatory requirements for renewable resources and carbon reduction targets while keeping SVP cost competitive
- Complete installation of Advanced Meter Infrastructure (AMI) meters, perform scheduled maintenance of meters, substation assets and other connected field equipment

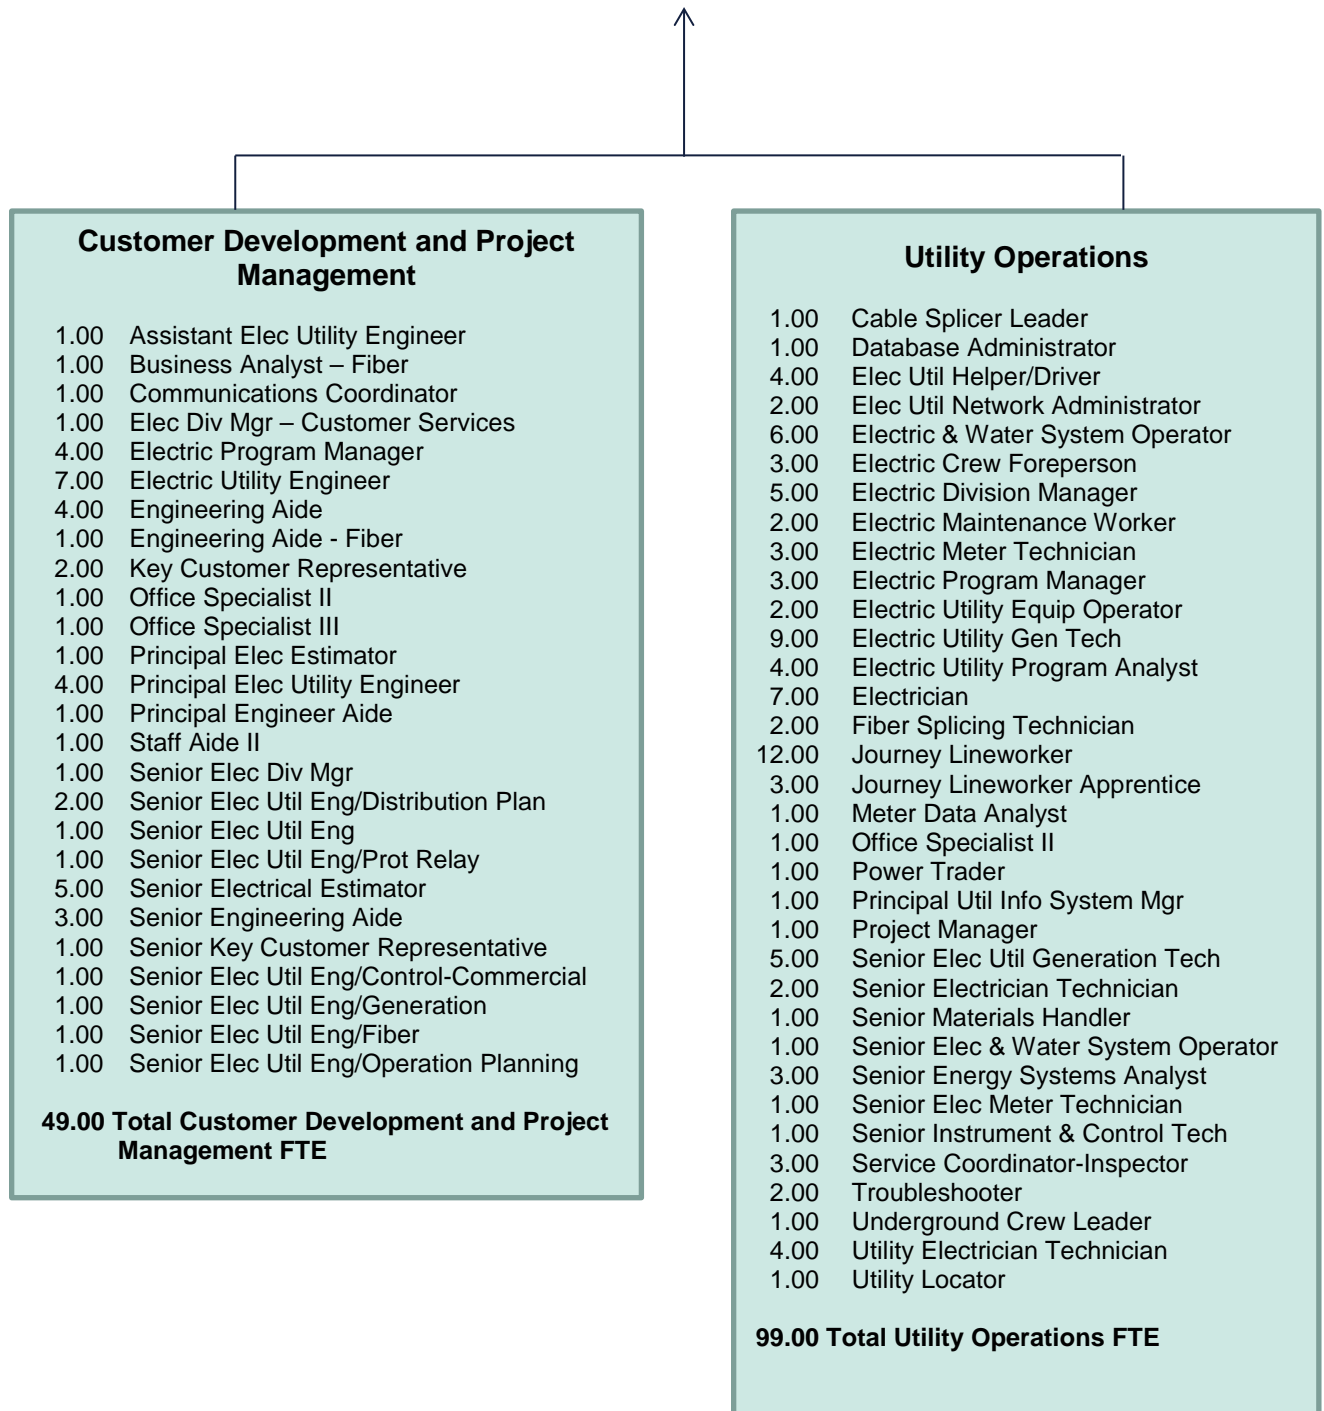

- Manage construction and maintenance of transmission and distribution equipment to provide safe and reliable service; provide connection for new customers; and provide emergency response to minimize grid outage time and replace aging infrastructure
- Implement the Wildfire Mitigation Plan for high fire areas and review vegetation management program (tree maintenance) for transmission and distribution power lines

Budget Highlights

- Offer new opportunities for multiple departments to attend conference, travel and trainings and meet sustainability goals
- Outside counsel support funding is included to respond to PG&E bankruptcy and potential re-organization and the increasing cyber and physical security threats on vital infrastructure
- Adds 1.0 Program Manager to lead the implementation of a cloud-based solution capital project management system citywide. This position will prevent fragmented implementation, and drive City integration with PeopleSoft financials
- Adds 1.0 Electric Utility Engineer to perform utility encroachment permit reviews in the public right of way and utility pole contact reviews for cable attachments on City electric utility wooden poles and new private 5G wireless technology deployed on City streetlights
- Adds 1.0 Program Manager to create and improve on electric vehicle transportation initiatives and related low carbon fuel standard compliance
- Support the replacement of an obsolete control system utilized at DVR power plant
- Perform additional major repairs during extended shut down period increasing the useful life of DVR power plant
- Replace and add fleet assets, including a new splicing bucket truck to support fiber infrastructure and replacing two vehicles with a single boom digger derrick line truck to support replacement and maintenance repairs for the transmission and distribution work group

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Silicon Valley Power Contractual Services	0.00	673,960	325,000	144,230	334,750
Programs:	1316 – Administrative Services 1324 – Electric Compliance 1351 – SVP Systems Support 1358 – Risk Management				

This action funds one-time business needs and supports ongoing operational initiatives. Legal services contracts for outside counsel in the Administrative Services Program will supplement existing legal staffing resources and alleviate legal review backlogs; and in the Risk Management Program funding would provide legal support to manage contractual impacts resulting from the PG&E bankruptcy. Management consulting contracts in the Electric Compliance Program would focus on mandated third-party review of fire mitigation plans. In the SVP Systems Support Program, funding would help to bring improvement to core distribution computing infrastructure, evaluation of technology services platforms and processes and GIS maintenance. In addition, this action includes funding for an energy consultant in the Risk Management Program to evaluate the impact of SVP's generation and transmission system and distribution due to proposed changes to CAISO Transmission Planning Process which SVP is a participant.

Performance Impact

Added outside resources, with respective areas of industry expertise, will manage risks and enhance business processes, while allowing internal resources to conduct their day-to-day operational functions without interruptions.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Silicon Valley Power Staffing Augmentation	3.00	0	720,534	0	768,248

Programs: 1313 – Key Accounts
1361 – SVP Engineering
1371 – Communications and Meter Technical Support

In an effort to enhance program operations this action funds the addition of four positions and deletes one position. For the Key Accounts Program, the addition of an Electric Program Manager is included to increase capacity to facilitate industrial customer development on new initiatives, increase speed to market and supervise key customer service representatives. For the SVP Engineering Program, a Program Manager is included to help implement a citywide capital projects management system and to lead the Department's computerized maintenance management system (CMMS); and the addition of an Electric Utility Engineer is included to perform encroachment permit and utility pole attachment reviews. Lastly, in the Communications and Meter Technical Support Program, the addition of a Meter Data Analyst and the deletion of a Staff Aide II position will better align the position with the duties of managing day-to-day operations of the Advanced Metering Infrastructure (AMI) system, tracking system performance trends, and coordinating system maintenance activities.

Performance Impact

These additional resources will help each program achieve its business objectives, including business development, customer service and gaining efficiencies through new system implementations.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Silicon Valley Power Staffing Augmentation	1.00	0	253,052	0	268,332

Program: 1319 – SVP Electric Vehicle Program

In an effort to enhance program operations this action funds one Electric Program Manager for the SVP Electric Vehicle Program. This position is to manage citywide electrification and implementation of EV blueprint, new EV rebate program in disadvantage areas and grant applications.

Performance Impact

This added position will help the program to achieve its business objectives and promote sustainability.

Strategic Pillar:  Sustainability

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Strategic Plan Implementation	0.00	250,000	0	0	0

Program: 1316 – Administrative Services

This action funds professional services to kick-off implementation of SVP's Strategic Plan. Initially, the work will focus on 30 strategic initiatives of the Plan and development of associated Key Performance Indicators (KPIs). These ten initiatives are actionable items within four operational disciplines, which are: Utility Performance Excellence, Customers and Stakeholders Engagement, Progress and Innovation Focus and Community and Environmental Stewardship. Additional future funding will be required and brought forward separately upon completion of the initial study, scoping, and prioritization of elements to meet the Strategic Plan goals.

Performance Impact

The Strategic Plan is formulated to maintain alignment between SVP's Mission, Vision, and Values through these initiatives. The Plan focuses on measuring outcomes, and actively managing performance, which will be proactively communicated to the community.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Fiber Splicing Vehicle	0.00	160,000	0	0	0

Program: 1371 – Communications and Meter Technical Support

This funds the purchase of a fiber optics splicing vehicle, which is a combination van and lift vehicle for installing and maintaining the City's fiber optics network. Currently, one vehicle is available for two positions. The use of a second vehicle would ensure each technician can be independently deployed concurrently. Technician work involves fusion splicing, testing on aerial substructure and customer premise-based jobs. Splicing and testing is critical to the maintenance of SVP communication functions at electric substations, data centers and 400 aerial WiFi radios. The demand for fiber splicing is robust, serving both external and internal customers. Currently, the technicians service 26 fiber lease customers for expansion and/or entry into over 47 data centers in the City Santa Clara and City departmental fiber optics infrastructure needs.

Performance Impact

This new vehicle will improve response time to field issues and fiber splicing projects.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Advanced Metering infrastructure (AMI) Operational Implementation	0.00	121,000	13,000	122,650	13,390

Programs: 1351 – SVP Systems Support
1361 – SVP Engineering
1371 – Communications and Meter Technical Support

This funds the transition of a ten-year, \$35 million smart meter project to a fully operational system, starting in FY 2019/20. AMI is a real-time, two-way wireless communication using advanced electric meters, with compatibility to incorporate water meter reading. Data reads are integrated with multiple systems in billing and operations for automated billing and outage detection. Operational funding, across three programs, includes one-time needs for replacements of media converters and switches, field transformers and meters and gatekeeper equipment, while ongoing funding is necessary for GPS equipment maintenance.

Performance Impact

Successful transition of AMI into operations will bring efficiency of data collection and processing, eliminate meter reading errors and reduce risks to meter reading staff.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Conference, Travel and Training Expenses	0.00	0	122,300	0	145,954
Programs:	1311 – Rates and Budget 1316 – Administrative Services 1324 – Electric Compliance Program 1356 – Resource Management 1361 – SVP Engineering 1371 – Communications and Meter Technical Support 1372 – Substation Maintenance 1376 – Transmission and Distribution				

This action funds multiple conferences, training and related travel expenses for seven SVP programs. In addition, a portion of the funding will be used to support energy organization conferences attended by City Councilmembers.

In accordance with the City's administrative policy on official travel by the Mayor and City Councilmembers, Council Policy 043, official travel is approved in advance annually in the operating budget. The following are the conferences, meetings and events that are scheduled for Mayor and Councilmembers' attendance:

Conference	FY 2019/20 Budget	FY 2020/21 Budget
APPA Legal and Regulatory Conference	2,000	2,000
APPA Legislative Rally	2,400	2,400
California Municipal Utilities Association (CMUA) Annual Conference	3,100	3,100
APPA National Conference	13,600	13,600
Northern California Power Agency (NCPA) Annual Conference	4,200	4,200
NCPA Strategic Issues Conference	2,400	2,400
NCPA/Northwest Public Power Association (NWPPCA) Federal Policy Conference	7,200	7,200
Total Conference Costs	34,900	34,900

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Conference, Travel and Training Expenses (<i>continued</i>)	0.00	0	122,300	0	145,954

For SVP, program objective specific conferences and training total \$87,400 for FY 2019/20 and \$111,054 for FY 2020/21.

Key events are itemized below:

Conference	FY 2019/20 Budget	FY 2020/21 Budget
<i>Rates and Budget</i>		
Rate Group Annual Meeting and other	5,200	5,257
<i>Administrative Services</i>		
APPA CEO Roundtable	1,500	1,500
<i>Electric Compliance</i>		
NCPA, NERC and Western Electric Coordination Council (WECC) conferences	37,200	37,836
<i>SVP Engineering</i>		
e-Builder Elevate Annual Conference	3,800	3,800
APPA, Electric Utility Consultants Incorporated (EUCI), NWPPA, and other conferences	30,200	31,384
<i>Communications and Meter Technical Support</i>		
Electric Utility Service Equipment Requirements Committee (EUSERC) Quarterly and Annual Meetings	0	20,600
<i>Substation Maintenance</i>		
Vendor-held training and conferences	7,800	7,800
Other training	700	1,877
<i>Transmission and Distribution</i>		
Electrical Superintendent Safety Committee training	1,000	1,000
Total Conference Costs	87,400	111,054

Performance Impact

Staff is trained with current technical and regulatory knowledge and is in compliance with mandated attendance.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Remote Property Maintenance	0.00	80,000	40,000	80,000	40,000
Program: 1361 – SVP Engineering					
Funds will improve structural conditions, fortify properties and contain vegetation at two remote sites, totaling over 12,000 acres. Benecia site currently has grazing leases. Improvements will be made to twelve structures, pond levees and access road repairs over both fiscal years. Loyalton site recently issued a Request For Proposal for grazing leases.					
Performance Impact					
Improvements at remote properties will enhance safety, mitigate potential liabilities as lessor and land owner, and protects City properties.					
Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

Finance Department

Department Mission

Leverage management, staff and technology to make Department services a highly valued component of City operations and to facilitate citywide efficiency and effectiveness, in compliance with laws, regulations and City policy

This page is intentionally left blank.

Finance Department Description

The Finance Department administers the financial affairs of the City, including City-owned public utilities. These functions include: budget administration and control; maintaining a general accounting system and the preparation of comprehensive annual financial reports; collection of taxes, fees, special assessments and utility charges; investment of City funds; procurement of supplies, materials, equipment, and services; operating the City Warehouse; issuance of bonds and debt management; internal auditing; and financial management of contracts, including leases.

Divisions and Services

The Finance Department is organized into six Divisions: Accounting; Administrative Services; Budget; City Auditor; Municipal Services; and Purchasing. Further discussion of the City Auditor's Office can be located in the City Auditor's Office section of this document.

Accounting Division Mission	Provide relevant, accurate, and timely transaction processing and financial reporting services in compliance with laws, regulations, City policies and professional standards.
Division Objectives	Continue to enhance and utilize the Finance/Human Resources Management System (FHRMS) in support of relevant, accurate and timely accounting processes.
	Continue training of Accounting staff and citywide end-users in FHRMS financial modules and process workflow.
	Identify areas for improvements and streamlining of accounting processes in support of work product efficiencies. Continue to utilize new technology enhancements to empower end users to access financial information.
Administrative Services Division Mission	Be a proactive participant in Citywide strategic planning and decision making adding value as a provider of financial advice, analysis, auditing, and investment and debt management.
Division Objectives	Manage the outstanding debt of the City and its agencies in compliance with established policies and bond covenants.
	Manage cash flow and invest cash in accordance with established policies and procedures. Prepare monthly reports for the City and its agencies.
	Monitor the financing needs of the City and its agencies. Manage negotiated and public-bid bond issuance.
	Manage special projects as assigned.
	Manage production of the City's annual financial reports, general-purpose financial statements and comprehensive annual financial report (CAFR).

Budget Division Mission	Be the primary source of financial analysis in the City's continuing effort to maintain and strengthen its fiscally responsible core value.
Division Objectives	Manage and produce the biennial operating and capital budgets.
	Manage and produce the Ten-Year Financial Forecast for the City and prepare periodic and annual revenue forecasts.
	Analyze and prepare estimated revenue and expenditure updates.
	Monitor and report the City's appropriations limit and general contingency reserves.
	Monitor the State budget and related legislative activities with economic implications.
	Develop strategies to balance the budget.
Municipal Services Division Mission	Assist and provide support for negotiations with employee bargaining groups.
	Provide customer service to our utility and business certificate customers, manage the activities of the Municipal Services division in accordance with the City's rules and regulations, code, and policies consistent with professional and ethical standards, and be proactive in developing and delivering currently available automated features and conveniences to our customers.
	Provide citizens with courteous, accurate and timely solutions to their inquiries and requests.
	Promote and enhance electronic payment offerings for customers.
	Continue upgrading the functionality and underlying business processes of the Utility Management Information System (UMIS).
	Promote and enhance on-line Business License enrollment and renewal.
Division Objectives	Provide citizens with safe, reliable self-service options for improved customer satisfaction.
	Process and oversee custody of all cash and checks received over the counter or in the mail.

Purchasing Division Mission

Support and facilitate the timely and efficient procurement of supplies, materials, equipment, and services required by City Departments while ensuring compliance to City Policies, applicable government regulations, and best practices in public sector procurement to obtain the lowest cost while maintaining appropriate internal controls. Oversees Central Warehouse operations to ensure that the City's electric and water utilities are stocked with parts to support their operations and process outgoing mail for the City.

Division Objectives

Provide internal customers and vendors with courteous, accurate and timely solutions to their inquiries and requests.

Negotiate and recommend execution of contracts or blanket purchase agreements for the purchase of supplies, materials and equipment.

Act to procure for the City the needed quality and quantity of supplies, materials and equipment at the least expense to the City.

Prepare and recommend to the City Manager rules governing the purchase of supplies, materials and equipment for the City.

Keep informed of current developments in the field of purchasing, prices, market conditions and new products.

Significant Accomplishments

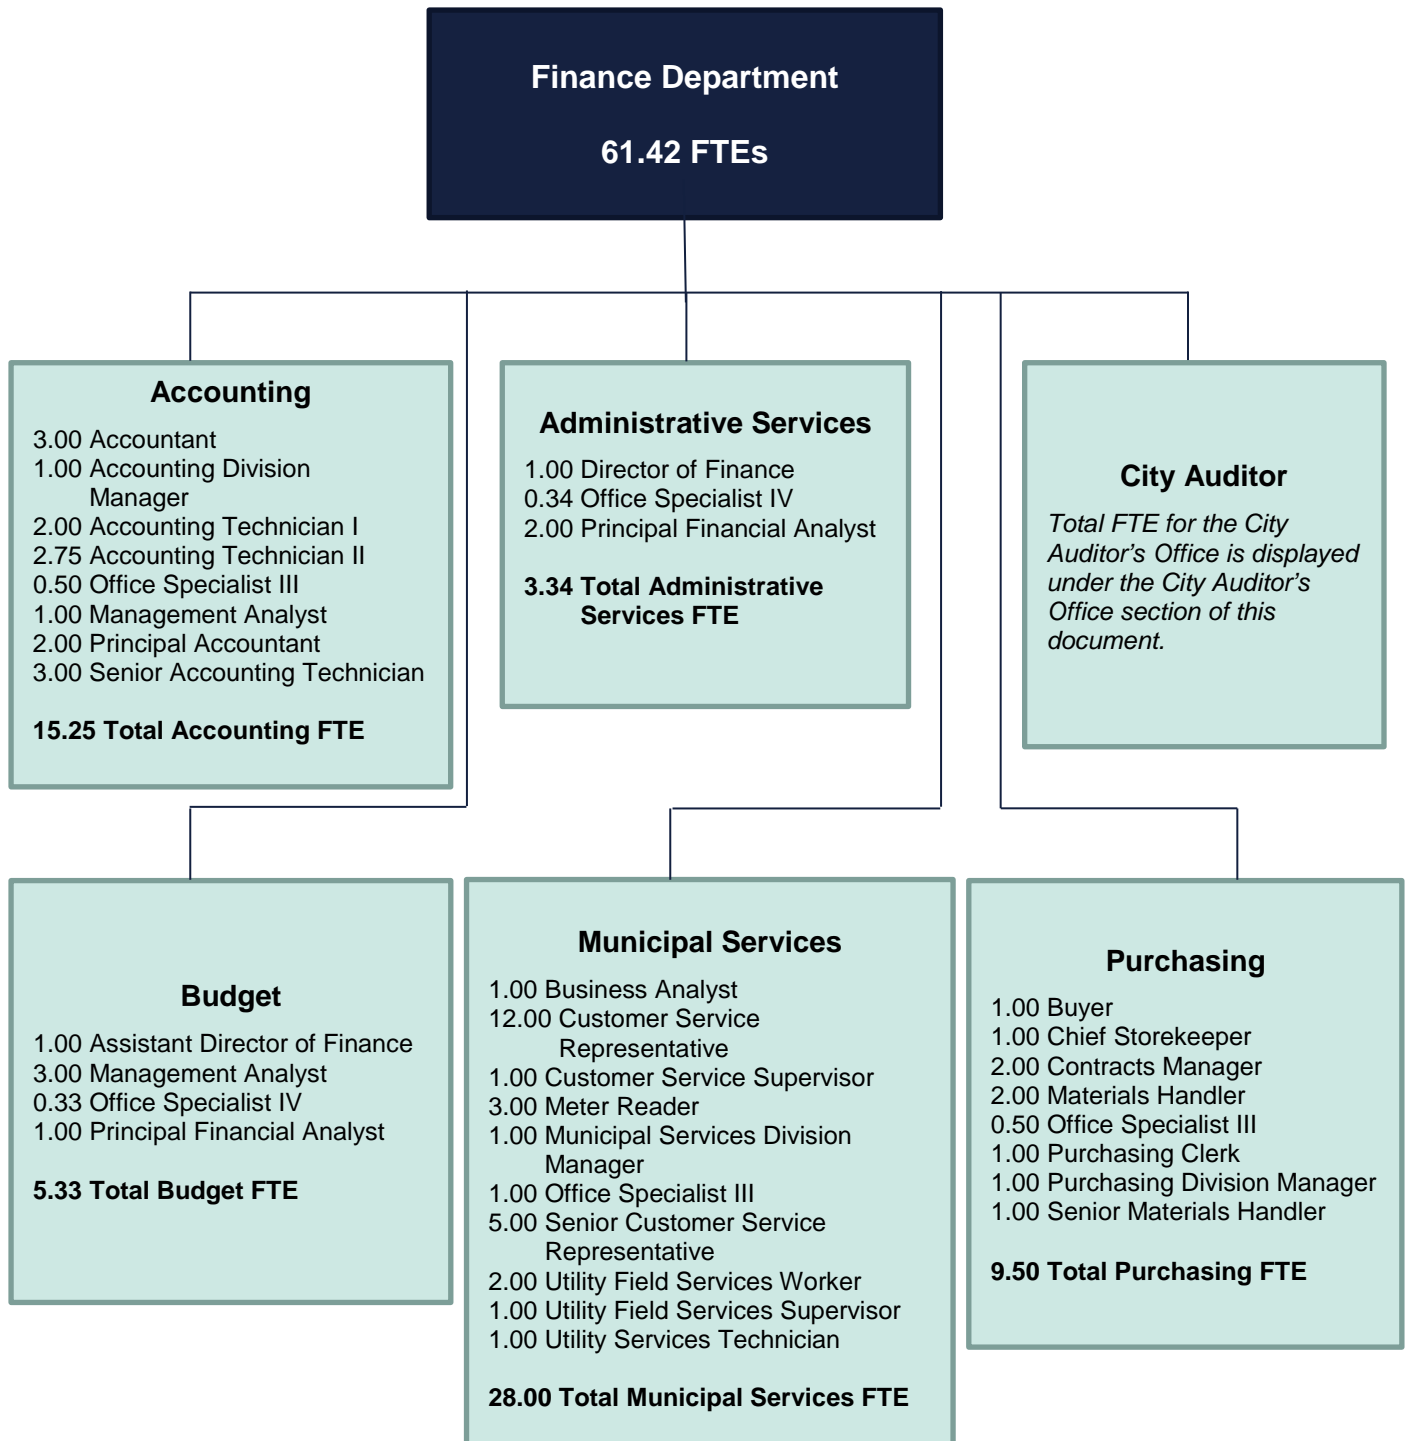

- Received the Government Finance Officers Association (GFOA) award for excellence in financial reporting for fiscal year 2017/18. This is the twenty-seventh consecutive year receiving the award
- Implemented an upgrade of the PeopleSoft payroll system providing enhanced security as well as process and reporting functions. Included in this upgrade are employee self-service capabilities to empower users to manage aspects of their own employee profile
- Created a Citywide Debt Management Policy, updated the City's Investment Policy, and updated the Convention Center Quarterly Reports to include additional financial information, metrics, and graphics
- Completed the first two-year Capital Improvement Program (CIP) Budget
- Transitioned from a five-year financial forecast to a ten-year forecast to ensure long-term economic stability and provide better transparency for residents to review and understand the City's fiscal outlook
- Established an Internal Audit function to promote a fully accountable city government and systematically improve governance processes
- Purchased and initiated implementation of an online bidding and surplus property sales management system

Significant Objectives

- Continue to enhance FHRMS products to deliver updated reporting and calculation features in the Accounting Division
- Conduct audits of external facilities; provide cashier training to staff in outside facilities
- Complete critical upgrades to UMIS including various software applications that support both meter reading and utility billing system(s). Begin work with utilities and stakeholders to identify needs and scope requirements to replace the Utility Billing System
- Develop and implement processes, administrative policies and procedures with the goal of streamlining and improving the procurement and contracting process
- Implement online budgeting software that connects stakeholders to the City's budget to promote transparency and accountability
- Continue to improve the City's budget development practices that connect to the City Council's priorities and policy direction
- Conduct citywide trainings on contract writing and best practices

Budget Highlights

- Substantially revised and developed FY 2019/20 and FY 2020/21 Biennial Operating Budget document
- Increased resources for the procurement and contract functions to support the development and implementation of new policies and procedures
- Additional support staffing resources for General Accounting related to fixed assets and capital improvement program

Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Purchasing Policies and Procedures Update	0.00	80,000	0	0	0

Program: 3343 – Purchasing

This action provides one-time funding for the Purchasing Division to procure a consultant to collaborate with staff on updating purchasing policies and procedures. The consultant would also assist with finalizing the revised purchasing code, optimizing the purchasing structure given current resources and expertise, developing administrative policies and procedures, and preparing citywide training materials. In addition, the preferable consultant would have experience with PeopleSoft in order to assist staff to optimize the software's functionality.

Performance Impact

An update to the purchasing policies and procedures provides an opportunity for the City to develop citywide sustainable procurement standards and to also implement several key procurement and contract management best practices.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Support for Budget Office Workplan	0.00	30,000	0	30,000	0

Program: 3315 – Budget and Financial Analysis

This action increases as-needed funding to provide support for upcoming budget deliverables. Future Budget Division workplan items include a revision to the Capital Improvement Program budget format, additional interfaces of budget to actual information between the City's financial and budget systems, deploying budget data to the internet through an interactive web interface, revising citywide performance measures and improving the budget monitoring program. In addition, further automation of manual internal processes is required in the Budget Division to maximize efficiencies.

Performance Impact

This action provides the Budget Division with sufficient resources to ensure continued process improvements and promotes transparency and accountability for the Santa Clara community.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
General Accounting Staffing	0.75	0	0	0	0

Program: 3322 – General Accounting

This action adds a Senior Accounting Technician position, which is funded by eliminating as-needed funding and 0.25 FTE of an Accounting Technician I position. The Senior Accounting Technician will be responsible for the critical accounting functions related to the City's Capital Improvement Projects as well as maintaining the City's fixed assets. Additionally, this position will also assume a number of various responsibilities related to the accounts receivable and payable functions.

Performance Impact

Adding a full-time staff to the Accounting Division will help address the continued capacity issues related to heavy workloads and streamline departmental processes to be more efficient.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Fire Department

Department Mission

As compassionate members of the community, the Santa Clara Fire Department protects and enhances the quality of life for the people we serve. We provide caring, customer-oriented service to protect life, property and the environment

This page is intentionally left blank.

Fire Department Description

The Fire Department responds with highly trained and well-equipped personnel to all types of emergency incidents, maintaining a citywide response time of less than six minutes to at least 90% of all high-level emergency calls. Response time is measured from the time of dispatch to the time of arrival, and includes a benchmark standard of two minutes turnout time and four minutes travel time.

The Fire Prevention/Hazardous Materials Division provides plan review and inspection services to maintain code compliance and ensure that all regulated, new construction in the City incorporates appropriate life safety standards. This division also investigates the origin and cause of fires and hazardous materials releases, conducts permit and business inspections, and provides public education on fire safety at various community events.

The Training Division conducts and evaluates a wide variety of activities from simulated emergency incidents to assessments and classes, to ensure Fire Department personnel are performing at the highest levels of the profession. Training also maintains documentation to support State and Federal certification programs, and develops and implements local and regional response/mitigation exercises focused on large-scale community events.

The Incremental Emergency Medical Services (EMS) Division provides first responder medical services (including Advanced Life Support) to all residents and visitors within the guidelines determined by the Santa Clara County EMS Authority.

The City's Office of Emergency Services (located in the Fire Department) provides emergency services training and coordination for the City in the event of a large-scale incident requiring Emergency Operations Center activation. This office is also responsible for emergency preparedness activities and disaster management plans.

Divisions and Services

The Fire Department is organized into four Divisions: Protection, Prevention/Hazardous Materials, Training, and Incremental Emergency Medical Services (EMS).

Protection Division Mission	To protect and enhance the quality of life of the people we serve by providing caring, customer-oriented emergency services to protect life, property and the environment.
	Maintain a citywide emergency response standard of six minutes from time of fire crew notification to arrival on scene, at least 90 percent of the time to all high-level emergency incidents.
	To have an effective response force (ERF) on scene in less than eight minutes from dispatch of alarm at least 90% of the time.
Division Objectives	Provide hazardous materials response to protect the community from hazards associated with uncontrolled release of hazardous and toxic materials, and respond to technical rescue emergencies efficiently and effectively.
	Provide Emergency Services Coordination in the City of Santa Clara Emergency Operations Center in the event of a large-scale incident requiring activation.
	Provide special event (Fire and EMS) services to Levi's Stadium and all other significant special events held in the City of Santa Clara.

Prevention/Hazardous Materials Division Mission	The mission of the Fire Prevention and Hazardous Materials Division is to protect life, property, and the environment through education, engineering, and enforcement.
Division Objectives	Provide plan review and field inspection services for the construction of buildings and life safety systems to ensure compliance with federal, State and local regulations.
	Conduct operational permit inspections to assess and mitigate potential fire and life safety hazards in businesses throughout the community.
	Investigate the origin and cause of fires and hazardous materials releases.
	Provide public education and outreach services as part of our Community Risk Reduction Program.
Training Division Mission	Deliver high quality education and training in public safety to the members of the Santa Clara Fire Department and to the employees and citizens of the City of Santa Clara.
Division Objectives	Provide annual, semi-annual and quarterly drills in the disciplines of firefighting, hazardous materials response, and rescue operations to members of the Fire Department to promote skill development and continuous improvement.
	Maintain records to support State and federal training certifications required for specific disciplines.
	Perform annual physical agility and protective equipment testing for compliance with State and federal regulations.
Incremental EMS Division Mission	Deliver quality emergency medical services to citizens and visitors of Santa Clara. This is currently achieved by staffing all ten fire stations with emergency medical technicians and eight of those stations (strategically located throughout the City) with paramedics.
Division Objectives	Provide first responder paramedic services to at least 90% of higher-priority medical incidents citywide within 7:59 minutes/seconds from fire crew notification (per County EMS Authority standard).
	Process medical certifications and licenses for all Fire Department personnel and monitor for compliance with State and local government regulations.
	Provide quality assurance/quality improvement processes for all treatment-based EMS delivery.
	Monitor and maintain custody and security of protected health information.
	Provide high quality EMS/EMT training to all Fire Department personnel and local stakeholders as needed.

Significant Accomplishments

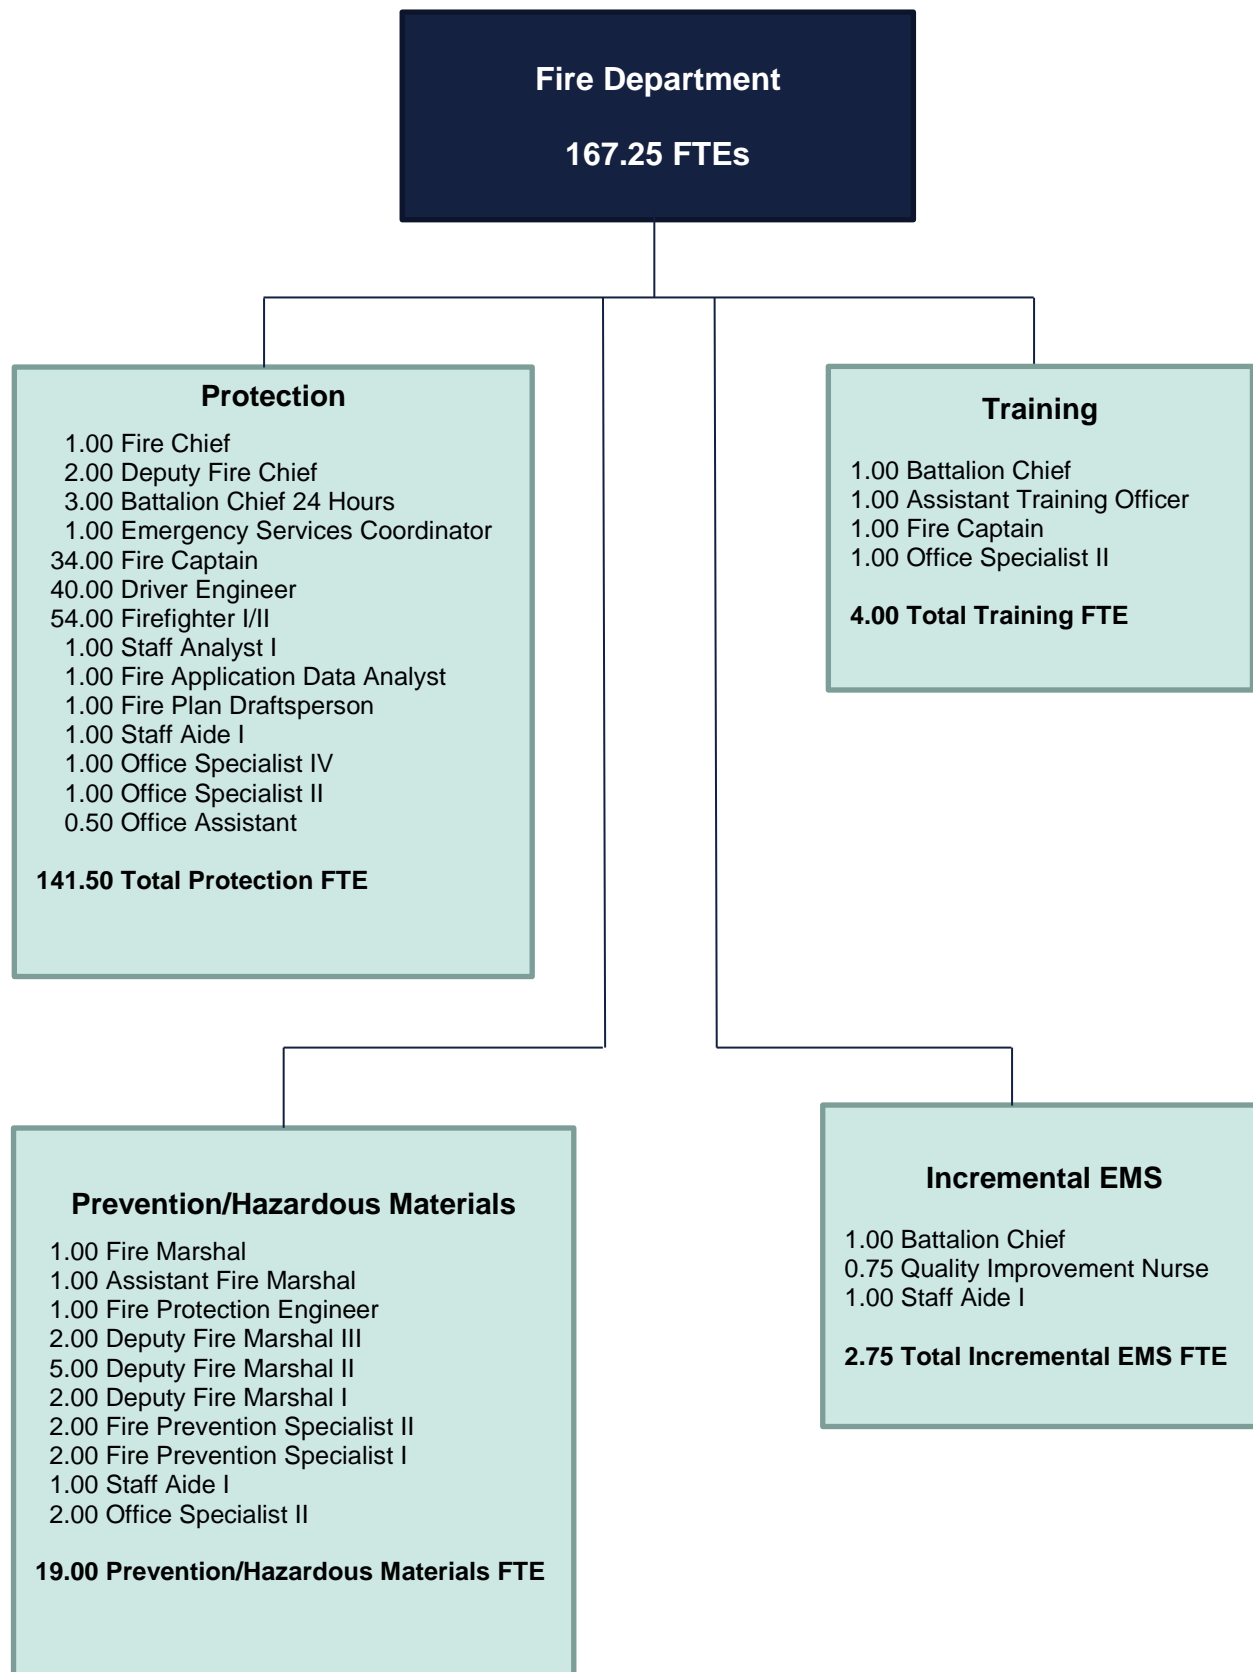

- On August 9, 2018, the Fire Department achieved accredited status from the Commission on Fire Accreditation International and the Center for Public Safety Excellence, becoming 1 of only 10 accredited municipal fire departments in California. This accreditation required development of a community-driven strategic plan for the Fire Department; a comprehensive self-assessment based on industry best practices; and completion of a Community Risk Assessment-Standards of Coverage (CRA-SOC) document that identifies potential hazards in the City and demonstrates how the Fire Department plans to mitigate them
- Provided fire and life safety education to K-6th grade students throughout the Santa Clara Unified School District, and piloted a new outcome-based education program called Firefighters in Safety Education (FISE) at two elementary schools. The FISE program is a 30-minute presentation on seven key fire safety skills, which uses pre-and-post tests to gather analytical data and validate the curriculum being taught
- Worked collaboratively with other City departments to streamline the approval process for training in acquired structures (buildings slated for demolition) resulting in improved training on fire ground strategy and tactics for all suppression personnel
- Exceeded our contractual requirements with the Santa Clara County Emergency Medical Services Authority by providing first responder paramedic services to 95% of higher-priority medical incidents citywide within 7:59 minutes/seconds from fire crew notification (standard is 90%)

Significant Objectives

- Launch a new recruitment strategy that includes more robust social media outreach, community engagement, and marketing to be more inclusive and increase the number of qualified applicants from the applicant pool
- Invest in employee health and wellness with the implementation of new programs that are intended to help reduce workplace stress, provide better support services, and maintain a healthy workforce
- Develop and implement an Unmanned Aerial Vehicle (UAV) program to be deployed for Fire Prevention, Fire Training and Fire Suppression activities. Evaluated all Fire Station facilities and prioritize a work plan to ensure the facilities are up-to-date and maintained
- Expand the FISE program to offer it to all public and private schools in the City of Santa Clara
- Hold promotional examinations for Fire Captain and Driver/Engineer and host a Recruit Academy for 10-12 new recruits

Budget Highlights

- Investing in technology and replacing aging and unserviceable firefighting and EMS equipment to increase the safety of our personnel and the community we serve
- Enhancing operating supplies and contractual services budgets to increase efficiency and effectiveness in our fire suppression, fire prevention and emergency medical services
- Establishing a new Office of Emergency Services within the Fire Department to support the emergency preparedness and disaster response needs of our City and the community it serves

7822 – Emergency Response

Programs: 7832 – Code Enforcement and Public Education

7861 – Paramedic Services

This action funds modern safety equipment and facilitates efficient electronic plan reviews. Three new Quick Attack Portable Monitors are necessary to fully equip fire engines with portable high gallon per minute hoses, which will improve high-volume flow from 10 to 2 minutes. Phased replacement of all thermal imagers over four fiscal years will upgrade technology and reduce the size for equipment used in smoke-filled fires. Ten video laryngoscopes are necessary to upgrade current equipment to fulfill County requirements. In addition, 18 defibrillator modems need replacement due to cellular carrier communications network changes from 3G to 4G for data transmission starting November 1, 2019. Lastly, eight large format monitors are necessary for four work stations to support the growing demand of electronic plan reviews, and improve efficiency and level of accuracy.

Performance Impact

The modernized equipment will ensure compliance to new safety standards and enhance efficiency of services.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Staffing Software Implementation	0.00	11,500	9,275	0	9,275

Program: 7821 – Administration

This funds the implementation of a staffing software solution for minimum staffing needs at the Fire Stations and its ongoing subscription costs. The initial implementation involves integration with the City's new Computer Aided Dispatch (CAD) system. The software allows automated daily minimum staffing, automated callback, remote employee access for scheduling time-off, among other critical staffing functions.

Performance Impact

This will increase the efficiency of safety responders, with on-scene accountability, as dispatchers have access to precise personnel assignment on each apparatus.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Firefighter Recruitment Pilot	0.00	20,000	0	10,000	0
Program: 7821 – Administration					
This two-year pilot increases recruitment efforts and outreach through video and social media in an effort to reach a more diverse pool of candidates. This program is coordinated with Human Resources Department and includes: development of video and photo advertisements fit for targeted social media campaigns, attendance at career fairs, and Girls' Camp contributions.					
Performance Impact					
This will increase and improve the diversity of new recruits in the Fire Department.					
Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources					

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Volunteer Reserve Program	0.00	4,000	11,000	0	11,000
Program: 7822 – Emergency Response					
This action funds a new mobile dispatch application, linked to the City's CAD, and dedicated annual funding for the volunteer reserve firefighters program. The volunteer reserve firefighters provide additional emergency scene support services and supplement the City's safety response force. At full capacity, the reserve can have up to 60 volunteers. Currently, the program has 21 volunteers on call.					
Performance Impact					
The active volunteers will have the latest technology to receive emergency dispatch calls with current routing, and maintain community engagement.					
Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure					

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
FireFlex Wellness Program Full Implementation	0.00	0	7,000	0	7,000

Program: 7822 – Emergency Response

This action funds the delivery of phases two and three of FireFlex Functional Movement, a behavioral health and wellness program for firefighters, piloted in December 2018. It is a program that addresses employee health and well-being on multiple levels, selected by the department's Peer Support and Health and Wellness Project Team, which piloted and launched successfully, a lighter version of the program as phase one.

Performance Impact

Increases the wellness of department personnel, and complies with accredited status components of: Commission on Fire Accreditation International, International Association of Fire Chiefs, and International Association of Firefighters Wellness Fitness Initiative.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Fire Academy Overtime and Supplies	0.00	0	0	95,016	0

Program: 7841 – Training - Fire

Fire Department's Training Program plans to hold a 16-week in-house academy in FY 2020/21 and will need overtime for class time and training-related supplies. Overtime hours will be incurred for both State Fire Training registered instructors and three assigned academy staff from the division, that are not on-duty, due to shifts conflicting with the 40-hour academy schedule. Supply costs include Class D uniforms, e-books, name tags, required safety equipment (glasses, gloves), and various other small items for each attendee during the academy. In addition, consumable materials such as dimensional lumber, plywood for Vent Prop and Live Burns, and vehicles for Auto Extrication are purchased as-needed throughout the 16 weeks. Forecast expenses are based on experience and data from the Department's previous in-house academy held in FY 2016/17.

Performance Impact

This in-house academy will support efforts to fully staff the Fire Department with highly trained, well prepared staffing.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Human Resources Department

Department Mission

To provide excellent customer service through efficient, cost effective administration of the City's workforce by recruiting, selecting and retaining the most qualified individuals and providing high quality benefits, compensation and services

This page is intentionally left blank.

Human Resources Department Description

The Human Resources (HR) Department is responsible for several areas: Benefits, Compensation, Recruitment, Testing, Classification, Relations and Labor Relations, Equal Employment Opportunity, Workers Compensation/Safety, and Employee Development.

The Department manages a variety of employee benefits, including health, dental, and retirement/retirement benefit programs, Flexible Spending Accounts, VEBA, Dental Reimbursement, Retiree Medical Reimbursement Programs and a City Employee Assistance Program. HR is enhancing a Wellness Program that currently consists of publishing a monthly newsletter; "Brown Bag Lunch Seminars"; and hosting an annual health fair including flu shots and a blood drive. HR coordinates "Take Our Children to Work Day" and Employee Recognition/Service Awards. With the help of subject matter experts, the Department also implemented all applicable aspects of the Affordable Care Act.

HR integrates job analyses into the selection process for each vacant position to ensure the accuracy of job specifications and the validity of examinations. HR coordinates with bargaining units on a citywide classification policy so that HR has a method to study positions while an incumbent is in a position. Considerable time, labor, and expense is involved with each recruitment, especially for public safety positions where the process includes large pools of applicants and written, performance, and oral exams in addition to polygraph, psychological, comprehensive medical exams, and background investigations.

The Director of Human Resources is delegated as the Municipal Employee Relations Officer (MERO). The Employee Relations function is a direct function of the City Manager's Office that is delegated to the Director of HR. Employee Relations includes negotiating with Bargaining Units and Labor Unions to create agreed upon Memoranda of Understanding (MOU's) for each of the 10 specific represented groups, as well as receives and reviews grievances filed by employees or unions. HR is also a board member to the Santa Clara County Leadership Academy with 17 participating local jurisdictions.

The City's Equal Employment Opportunity (EEO) Officer is responsible for oversight of equal employment opportunity laws. The EEO Officer reviews, investigates and/or oversees investigations of complaints filed by applicants or employees alleging discrimination or hostile work environment, including sexual harassment. The City has zero tolerance to discrimination and harassment. HR will continue to investigate and resolve grievances and discrimination complaints in accordance with federal and State laws, City policies, and in close coordination with the City Attorney's Office.

The City strives to work on best practices related to safety, including proper ergonomics. We encourage all departments to invest in their staff, specifically related to occupational safety.

HR provides State-mandated harassment prevention training for all regular City employees and we offer training programs in areas such as supervision, employment law and other areas of interest.

Divisions and Services

The Human Resources Department is organized into two Divisions: Employee Benefits and Records and Recruitment, Classification, and Staff Development.

Employee Benefits and Records Division Mission	Provide quality service to employees and retirees in the responsible, cost efficient development and administration of City compensation, benefits, and related programs.
	Administer current Memoranda of Understanding (MOU) with the City's ten bargaining groups. Represent the City in various labor relation issues and negotiate, in collaboration with internal and external counsel on wages, hours, and other terms and conditions of employment.
Division Objectives	Administer benefits for City employees.
	Manage employee relation matters for the City; advise and assist departments with grievance resolution, and disciplinary action.
	Strive to ensure equal employment opportunity and provide a work environment free of discrimination and harassment.
Recruitment, Classification, and Staff Development Division Mission	Manage benefit programs for employees, retiree medical reimbursement programs, and process retirements.
	Provide centralized hiring services by developing and administering City recruitment and selection processes; administer and update the City's Classification Plan; and promote the advancement of ethical and sound human resources policies and practices in accordance with Civil Service Rules and Regulations, federal and State guidelines and industry standards.
Division Objectives	Develop and implement valid selection examinations designed to select and promote the most qualified candidates.
	Ensure that positions are properly classified, described, and aligned to support the organizations' effectiveness and efficiency.
	Manage recruitment, assessment, and hiring processes to meet the City's staffing needs. Review, streamline, and update human resources policies and procedures to improve efficiency and reflect current employment laws and industry best practices, including creating a Policy for Classification/Reclassification studies.
	Develop electronic enhancements to the City's website, intranet, and citywide shared drive/CSI to make available to the public and employees employment information such as job opportunity announcements, job descriptions and salary and benefit data.
	Maintain City Volunteer Program for all departments utilizing an online volunteer application.

Significant Accomplishments

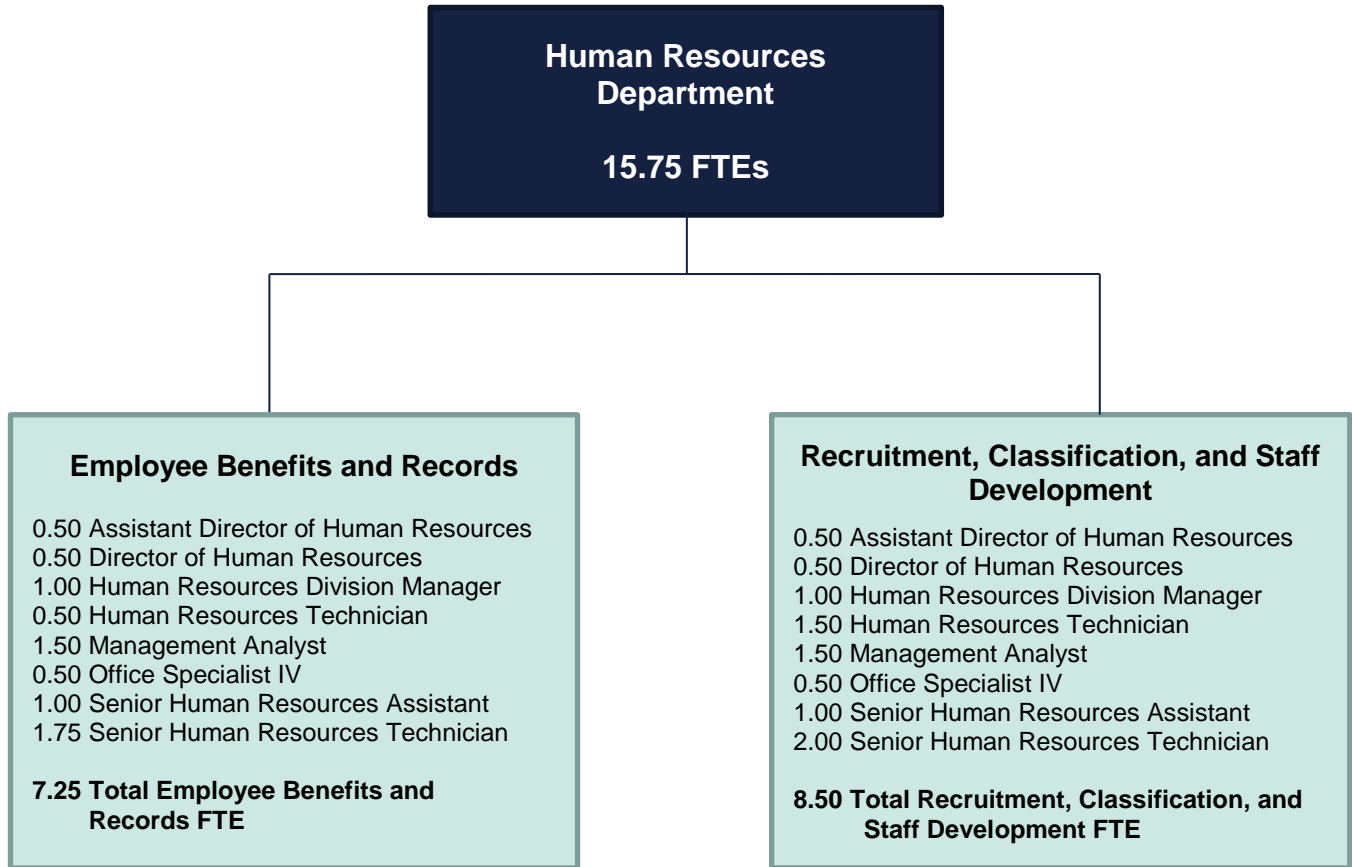

- Supported approximately 1,912 regular and as-needed employees in regards to benefits, wage adjustments, worker's compensation, leaves and retirements
- Coordinated annual employee events, including Employee Service Awards Luncheon, Take Your Children to Work Day and the Employee Health & Benefits Fair
- Successfully held seven employee development workshops in coordination with the City's employee assistance program, Managed Health Network
- Performed full-cycle recruitment, including classification studies, and appointed/promoted 172 regular employees

Significant Objectives

- Conduct recruitments and manage effective, efficient, and defensible hiring processes to attract and retain qualified employees
- Continue negotiations with Bargaining Units
- Develop additional supervisory training opportunities for current employees, including possibilities for Supervisory or Management interdepartmental temporary exchange program opportunities and train the trainer opportunities
- Maintain the Sexual Harassment Prevention State Mandated training for all City employees, including the training of Elected Officials and City Commission and Committee members
- Work closely with the Finance Department to analyze and implement best practices in implementation, control and audit of pay and benefit entries
- Review and update various citywide policies, including the Employer-Employee Relations Resolution, the Personnel and Salary Resolution, and various City Manager Directives and coordinate these updated policies with each bargaining unit for implementation

Budget Highlights

- An Office Specialist IV is included to address operational constraints in the Human Resources Department in order to meet day-to-day demands. The position will also be instrumental in supporting the Director and Assistant Director of Human Resources, allowing for capacity to direct focus on implementing strategic initiatives such as workforce development, recruitment and retention strategies
- Additional funding for operating supplies is included to support the Fire Academy recruitment anticipated to occur in early 2020 calendar year as well as increases for pre-employment physical costs for general recruitment activity at the citywide level
- A new consulting firm was selected to administer the City's Voluntary Employees Beneficiary Association (VEBA) Program. The firm is providing the City with its HealthInvest HRA solution that will deliver the best-in-class administration, recordkeeping, and participant and employer online and contact center services

Recruitment, Selection and Labor Relations Policies Update	0.00	120,000	0	0	0

Programs: 2521 – Selection – Classification
2525 – Recruitment, Staff Development and Labor Relations

This action will enable the Human Resources Department to implement key initiatives to update the recruitment and classification processes and procedures. These initiatives include a comprehensive review of pre-employment medical screening requirements and an update to the City's Civil Service rules and regulations. The pre-employment requirements study will ensure that the City's current job specifications match the requirements of the job and meet state and federal regulations. Additionally, an audit of the City's Civil Service rules and regulations is necessary to help facilitate the Human Resources Department to develop policies that are current and comply with the latest labor laws.

Performance Impact

This action creates opportunities for the Human Resources Department to reform and restructure citywide systems related to recruitment, selection and labor relations that will help the organization to achieve efficiencies and strengthen delivery of public services.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)

Programs: 2414 – Records – Compensation
2515 – Workers' Compensation and Safety
2521 – Selection – Classification
2525 – Recruitment, Staff Development and Labor Relations

The addition of 1.0 Office Specialist IV position improves the Human Resources Department's operational demands, addresses staff capacity constraints, contributes to the budget development and oversight processes including payroll reporting, benefits, recruitment and labor relations activities at the clerical level. This position simultaneously provides executive level administrative support to the Director and Assistant Director of Human Resources.

Performance Impact

This action enhances the Human Resources Department's capacity to develop and implement innovative programs that emphasize employee professional development, engagement and retention. Approval of this position supports the Human Resources Department's efforts to produce a highly-skilled workforce, which is key for the City of Santa Clara to provide high-quality services to our community.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Information Technology Department

Department Mission

The IT Department strives to provide superb affordable services and be the partner of choice for City information technology initiatives to improve the quality of life and strengthen the community through technology and innovation

This page is intentionally left blank.

Information Technology Department Description

The Information Technology (IT) Department provides a full range of IT services that include help desk, desk side support, data center and network management, application consulting and support, and project/program management capabilities.

Focus areas include:

- Supporting public information and civic engagement through the City's web and digital presence
- Supporting and enabling City departments to fulfill their information technology business requirements
- Enhancing the reliability, availability, and usability of the City's information technology resources
- Maintaining and enhancing the City's enterprise-wide technology infrastructure in support of City departments
- Protecting and strengthening the City network and information security capabilities
- Managing IT vendors to control costs, drive service excellence, and mitigate risks to gain increased value throughout the product lifecycle
- Maintaining a Project Management Office (PMO) to standardize and introduce economies of repetition in the execution of projects

Divisions and Services

The IT Department is organized into four Divisions: Enterprise Services; Infrastructure and Support; Contract Services; and Telecommunication Services.

Enterprise Services Division Mission	<p>To plan and implement information technology applications leveraging technology to enhance citywide and departmental capabilities. Maintain a high availability web presence providing local government information and quality on-line services to the residents and businesses of Santa Clara. Empower City employees to effectively serve the public using digital technologies.</p>
Division Objectives	<p>Provide application support for mission critical and business critical departmental applications. This includes business process improvements and vendor compliance updates. Maintain an Application Portfolio Management System and Enterprise Roadmap to provide for better planning. Work with department business owners to plan for application enhancements and upgrades to provide greater functionality and business value for critical systems.</p>
	<p>Manage the City's web content management system and provide timely updates to citizens through the use of the City's expanding digital presence via the web and mobile devices. Provide web design, development, and support for websites. Ensure equal access to the City website for people with disabilities by providing websites that comply with accessibility requirements.</p> <p>Acquire data and integrate new citywide geography information service (GIS) layers – i.e. utility easements, building footprints, edges of travelled ways, ADA compliant ramps, urban forest, City neighborhoods, and geospatial imagery. Through GIS data, provide trustworthy operational information, organized by location, and delivered in a timely manner to decision-makers for both tactical and strategic planning efficiency.</p>

Infrastructure and Support Division Mission	Provide a reliable and secure citywide computing infrastructure to enable departments to accomplish business goals and provide City services and information to the community.
Division Objectives	Maintain high-speed redundant core network between City Hall and remote facilities in order to provide necessary bandwidth, compute needs and storage capability in support of City's systems.
	Provide call center, deskside and infrastructure support to deliver services that ensure the reliability, continuity, and sustainability of networks, servers, and desktop systems.
	Ensure security and strengthen the reliability of the internal City systems and network.
Contract Services Division Mission	To provide superb professional, responsive, and cost effective information technology services to the City.
Division Objectives	Provide services to ensure the reliability, continuity, and sustainability of network, server, storage and desktop systems.
	Implement information technology best practices and drive operational improvements.
	Maintain, support, and enhance the City's enterprise-wide technology infrastructure in support of City departments.
	Provide enhanced support for business applications used within the City driven by a Structured Project Methodology and Project Management Office.
Telecommunication Services Division Mission	Provide support for general communications services for City staff, including telephone services, wireless communications and cable services. Manage the City's cable affairs, including the cable franchise, and liaison with citizens regarding cable services.
Division Objectives	Provide and maintain high quality telephone services to all City staff and departments. Assist in the planning and implementation of telecommunications services at City facilities.
	Review and process billing for all telecommunication services.
	Act as community liaison with Comcast and AT&T on various cable issues.
	Work with cable providers on the implementation of their projects to install various cable services throughout the City of Santa Clara.
	Provide cable franchise oversight and monitoring.

Significant Accomplishments

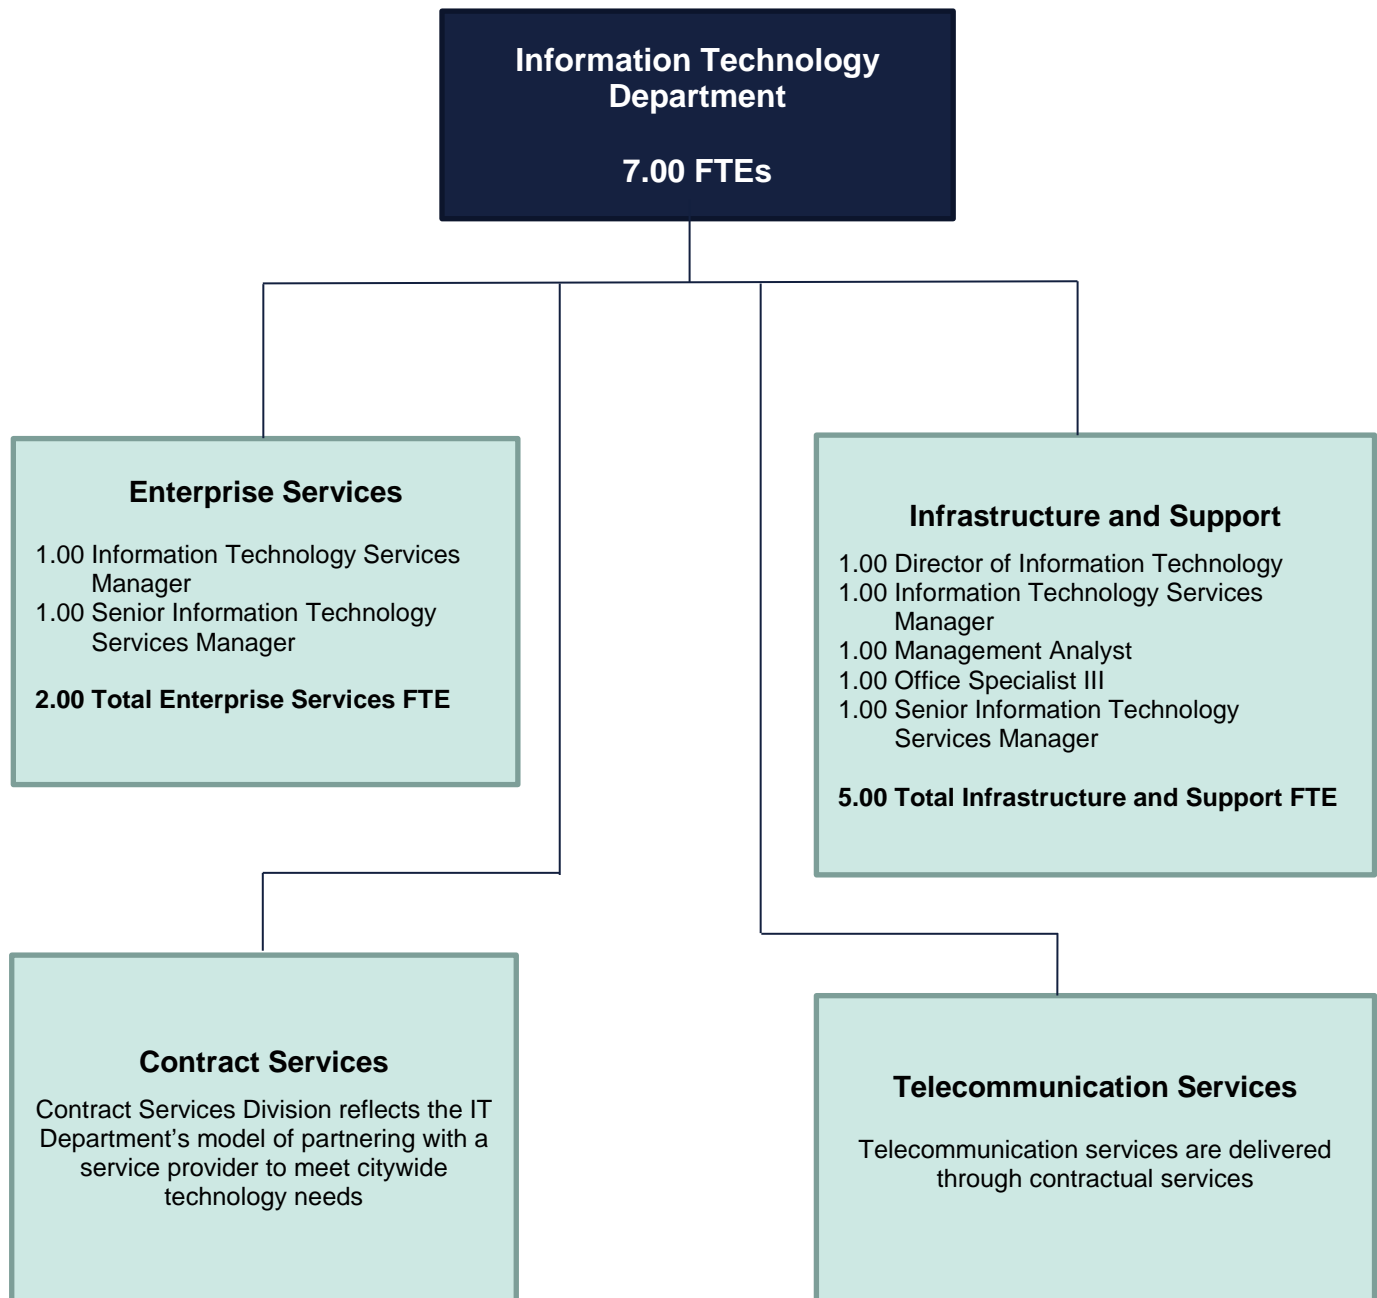

- Modernized Council agenda and streaming video systems. Upgraded the Council Chamber audio, video and broadcast equipment to replace obsolete technology in order to allow for future growth with HD broadcast capabilities. Through this upgrade, the IT Department worked with City Clerk staff to implement a new electronic voting system and integrated electronic agenda processing
- Upgraded PeopleSoft Enterprise Resource Planning (HR, Payroll, Financials, and Purchasing) System for compliance, self-service, and new functionality allowing for improved efficiencies, resource savings and better reporting
- Enterprise GIS services completed additional layers of base-map projects including underground electric easements, storm drain systems, parks asset inventory and irrigation systems. These additional layers of data will streamline business processes and automation enabling increased communication, coordination and operational effectiveness

Significant Objectives

- Technology Infrastructure: Architect and replace aging technology infrastructure in a strategic and phased manner in support of increased digital, mobile and cloud solutions for anytime, anywhere device access in a secure manner. Strengthen Emergency Operations Center and Public Safety network infrastructure for security and performance
- Cybersecurity and Risk Mitigation: Strengthen the City's cybersecurity posture by providing a proactive defense against threats via intrusion prevention/detection systems and security information and event management systems and response protocols
- Application Modernization: Support citywide and departmental system replacements – Utility Billing, Public Safety Computer Assisted Dispatch, Police Records Management, Permitting/Land Management, Records Management, Agenda Management, Video Streaming, Financials and HR Management System
- Enterprise GIS: Building on the existing enterprise GIS platform; work plan for the year includes projects to further citizen engagement, decision making, and effective infrastructure information lifecycle management

Budget Highlights

- Reallocation of Information Technology's budget from General Fund to an internal service fund
- Additional resources allocated for geography information services systems, resulting from the operationalizing of the capital improvement program project
- Creation of the Public, Educational, and Governmental (PEG) Fee Fund to track revenues that were formerly deposited into the General Government Capital Fund
- One-time funding to enhance the City's cybersecurity program, address the needs for audio and visual services, and continue workplace transformation with the implementation of Office 365

Program: 1921 – Infrastructure and Support

This action adds one-time funding for citywide IT and cybersecurity services. The City's current IT model outsources services through a third party contract, which includes personnel. This proposal provides funding for audio and visual engineer, cybersecurity specialist, and cybersecurity principal consulting services. The City has seen consistent needs for audio and visual services, which is a highly specialized field. While this funding addresses those needs on a one-time basis, the City is also adding one-time resources for a consultant to determine the most efficient method of providing these services citywide on an ongoing basis. Addressing cybersecurity needs has also been a City Council priority and these one-time funds will help assess system vulnerability removal and automation activities, and enhance the City's overall cybersecurity program. The Information Technology Department has identified various areas that can enhance cybersecurity, including the number of systems monitored through the City's security information and event management solution, researching management systems for privileged access and identity access, and increasing security and visibility with Cloud solution providers. The City currently has a risk assessment pending. Once the assessment results are provided, the IT Department will use these funds to address the highest priority items.

Performance Impact

This funding will address critical needs regarding audio and visual services and cybersecurity improvements, providing for better and more effective services citywide.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Office 365 Workforce Transformation	0.00	200,000	0	100,000	0

Program: 1921 – Infrastructure and Support

This action adds one-time funding to continue workplace transformation and productivity improvements available to the City through Office 365. As part of the Fiscal Year 2016/17 Adopted Capital Improvement Program Budget, funding was provided to upgrade all City desktops to Windows 10 and migrate to Office 365 cloud services and this project was completed in fiscal year 2018/19. This funding will provide for a consultant to identify business efficiencies for departments using newly upgraded Office 365 tools as well as citywide trainings for departments.

Performance Impact

This additional one-time funding will enable the City to use the new Office 365 tools to their fullest capacity, creating efficiencies amongst departments citywide.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Library Department

Department Mission

To provide relevant educational and recreational information, in both new and traditional formats, to our diverse community through free and equal access to ideas, customer-centered services, and the use of current technology

This page is intentionally left blank.

Library Department Description

The Library Department has positioned itself as a dynamic community hub, providing access to information, literacy resources, educational programming, and promotes civic engagement to the Santa Clara community. The Department serves the community through the following core services:

- **Collections** – Provide a relevant collection of books, movies, music, magazines and research tools for a diverse community with wide-ranging interests and needs
- **Technology and Information Access** – Introduce and provide access to technologies that support community innovation, employment opportunities, entrepreneurship and bridge the digital divide
- **Literacy and ESL** – Provide high quality adult and family literacy instruction and access to English as a Second Language
- **Programming** – The Library offers high impact programming that supports early literacy through storytimes and other pre-school age events. It engages teens and young adults. The Library provides cultural enrichment, promotes inclusion for new immigrants and through educational programming supports lifelong learning
- **Community Partnerships** – Build relationships with City departments, local educational institutions, as well as local businesses and non-profits in order to promote reading, literacy and community building
- **Facilities** – Buildings that are a source of civic pride, provide opportunity for placemaking, encourage community building and provide a clean, safe and welcoming place to study, learn and connect

Divisions and Services

The Library Department is organized into seven Divisions: Administration, Adult Services, Branch Services, Customer Services, Facilities, Technical and Technology Services and Youth Services.

Administration Division Mission	Plan, direct, organize, and manage the activities of the Library Department for the educational and recreation of the Santa Clara Community; provide staff support for the department's central and administrative services.
Division Objectives	<p>Promote implementation of technology upgrades and enhancements to provide responsive, patron-centric services to the Santa Clara community and establish partnerships with community organizations to support the Library and the City's goals.</p> <p>Collaborate with departments citywide to implement programs that support the City Council Priorities.</p> <p>Ensure clean, safe and welcoming facilities.</p>

Adult Services Division Mission

Provide information and readers advisory services through effective reference and information delivery systems; select, evaluate, and deselect Library materials for adults, including books, periodicals, audio-visual materials, and materials in electronic formats; provide special programs, collections, and services, such as the genealogy collection, classes and workshops on new technologies, and the delivery of library materials to homebound residents.

Division Objectives

Teach classes on use of online genealogical research tools and library historical resources.

Provide free literacy instruction to English-speaking adults and their families in the City of Santa Clara.

Offer new and returning popular, informative, cultural and technology related programming for the community, including English as a Second Language (ESL) conversation club and free citizenship workshops.

Manage adult book, movie and music collections that appeal to and represent our diverse community.

Cultivate community partnerships through presenting joint classes, programs, book discussions and workshops, both at the Library and offsite.

Branch Services Division Mission

Provides access to collections, programs and space to distinct neighborhoods and communities throughout the City.

Division Objectives

Provides relevant collections of books, movies and music that appeal to diverse users.

Clean and safe facilities that are the pride of their neighborhoods.

Creates community through popular, informative and cultural programming that engenders life-long learning.

Drives economic and entrepreneurial growth by offering free Wi-Fi, computers and group study rooms.

Provide Bookmobile service to outlying, underserved and corporate communities where they work, play, create, learn and live regardless of physical, economic, social and geographic barriers.

Customer Services Division Mission

Provide and manage procedures for the circulation of Library materials with an emphasis on customer-centered services, including circulation of materials, reserves, patron registration, shelf maintenance and collection of fines and fees. Provide and manage general patron advisory, referral and assistance.

Division Objectives

Checks in and out books, movies, music and audiobooks.

Assists customers with their library accounts, renewing items and collecting overdue fines and fees.

Processes Interlibrary Loan and Link+ requests for library patrons.

Sorts, shelves and files library materials.

Actively participates in programs and community outreach events.

Facilities Division Mission	Manage Library facilities which are safe, accessible and functional for all Library visitors.
Division Objectives	<p>Setup and maintain all public and staff computers and hardware, including workstations, laptops and printers throughout the library system.</p> <p>Implements new library software and upgrades to existing applications to keep them functioning and secure.</p> <p>Maintains security, cleaning and other facility contracts to provide a safe, comfortable, and welcoming space for customers and staff.</p> <p>Designs and supports technology-based programming.</p>
Technical and Technology Services Division Mission	Manage the acquisition, cataloging, processing and repair of all types of library materials and the organization of these materials into collections for the use of library customers.
Division Objectives	<p>Implement cost-savings benefits by purchasing pre-processed Library materials.</p> <p>Purchases and processes new library materials for delivery to customers in a timely fashion.</p> <p>Synchronize Library data with other City departments for procurement and maintaining data and statistics.</p> <p>Setup and maintain all public and staff computers and hardware, including workstations, laptops and printers throughout the library system.</p>
Youth Services Division Mission	Provide relevant materials, programming, and services to children, young adults, and their families and caregivers for the informational, cultural, educational and entertainment interest of Library users; provide the Santa Clara community with opportunities to serve the City and the Library through volunteer activities.
Division Objectives	<p>Support the role of parents as their child's first and most important teacher through collections, programs and resources; targeted to children age 0 to 5.</p> <p>Recognize and honor the cultures of our diverse community through programming multi-lingual storytimes and improved foreign language and bilingual books for children and their families.</p> <p>Provide engaging, meaningful volunteer opportunities for populations such as teens, seniors and adults who want to make a difference in their community.</p> <p>Publicize the Library's resources, services and programs to elementary, middle and high schools within the City of Santa Clara, and position the Library as a community educational partner.</p>

Significant Accomplishments

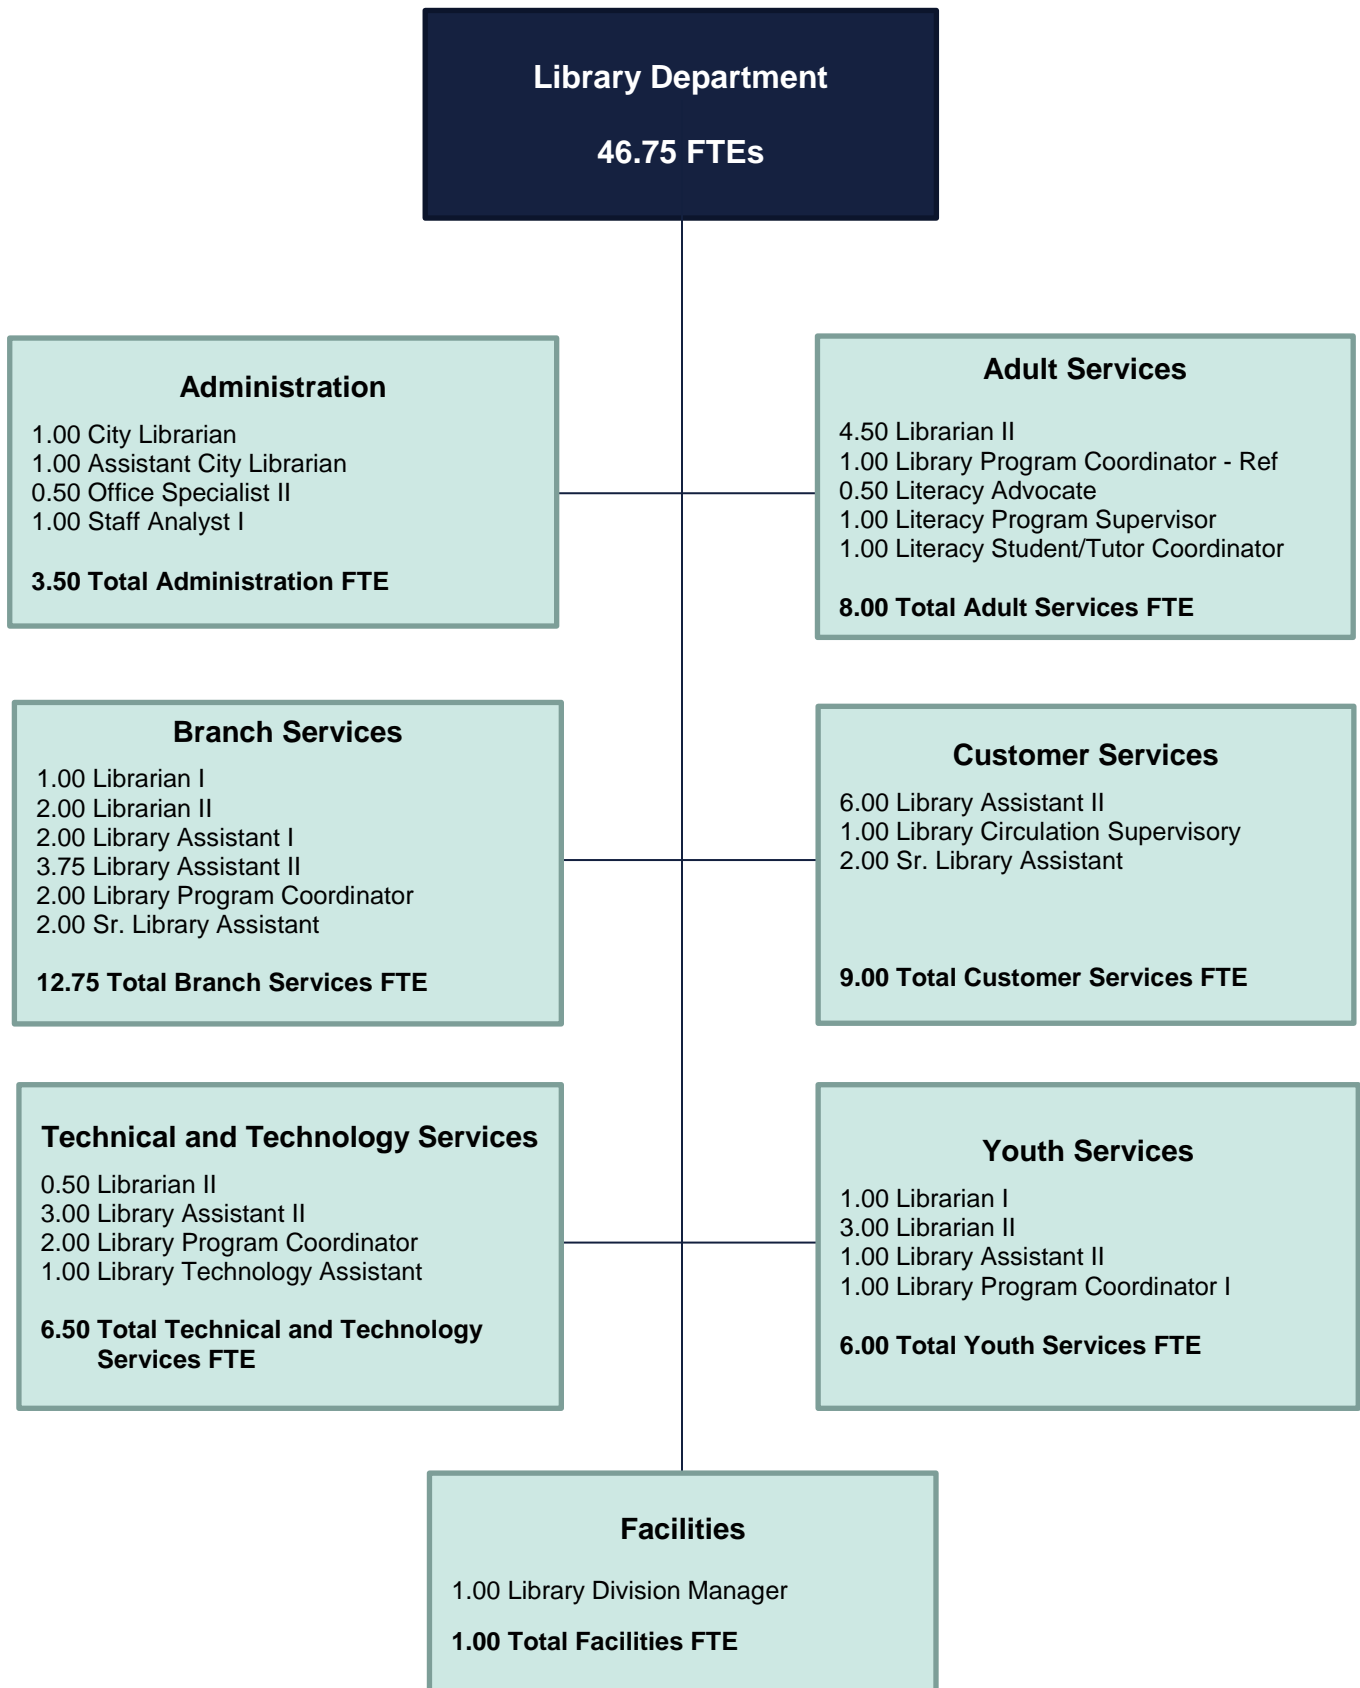

- Reopened the newly remodeled Mission Branch Library to provide robust library services, expanded hours and collections to the surrounding community and activated library and adjacent park space as a part of placemaking initiatives
- Improved access to public meeting space by converting underutilized staff space to publicly usable meeting rooms and innovation centers
- Updated our library catalog to provide more opportunities for library customers to find and discover materials
- Performed a community needs assessment to identify opportunities for serving diverse populations in Santa Clara
- Expanded Bookmobile service providing outreach to underserved areas of the community, visiting Title-I schools weekly and providing more access to library services for our seniors and new immigrants
- Addressed service gaps in the community by partnering with the Department of Motor Vehicles (DMV) and coordinating DMV Now Self-Service Terminal at Central Park Library

Significant Objectives

- Improve existing and create new meeting room spaces at Central Park Library
- Expand hours at Northside Branch Library
- Provide opportunities for staff development and engagement

Budget Highlights

- Expanded hours at Northside Branch Library, adding Sunday hours, from 1:00 pm to 5:00 pm, and expanding Monday and Tuesday hours from 11:00 am to 8:00 pm to 10:00 am to 9:00 pm. The additional hours will allow for a more predictable schedule, provide morning and evening hours that closely mirror Central Park Library and allow Library staff to better serve the community. The additional hours will also provide more access to meeting and study rooms that are in high demand. The addition of 1.0 Librarian and additional as-needed funding will be assigned to the Northside Branch Library to accommodate the expansion of hours. Additional maintenance will be required to manage the facility and keep it clean, safe and functioning at a high level. The deletion of 1.0 Business Analyst is included to offset this action
- Additional funding is allocated for each year to provide additional library materials on the Bookmobile and additional eBooks. Both collections have experienced substantial increases in usage. The added titles and copies will reduce wait times for high demand titles and provide more depth and breadth to our collection

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Additional Library Materials	0.00	40,000	0	40,000	0

Program: 1251 – Technical Services

This one-time funding provided for each year of the budget will increase the purchase of eBooks, other online resources as well as popular books in the libraries and Bookmobile.

Performance Impact

The number of materials available to library patrons and expanded web access to library resources will increase. This action improves the selection of popular adult, children and teen books to reduce waiting list times and provide additional selection for customers who visit libraries or the bookmobile at Santa Clara Schools and other locations.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Northside Library Branch Hours Expansion	0.00	0	4,684	0	3,944

Program: 1235 – Northside Branch
1251 – Library Technical Services

This action adds 1.0 Librarian I position and expands hours of operations at the Northside Library Branch on Mondays and Tuesdays from 10:00 am to 9:00 pm, which are an hour earlier and hour later than the current hours. In addition, the branch library will open on Sundays from 1:00 pm to 5:00 pm which are new library hours. In addition to the new position, as-needed funding (\$10,000) and additional maintenance costs (\$7,500) are included in this action. The cost savings from deleting a vacant Business Analyst position helps offset this library proposal. The Business Analyst position was originally created to provide technical support to Library Department systems. Many of those tasks were automated or can be absorbed by existing Librarian positions.

Performance Impact

This action addresses the City Council and the Board of Library Trustees request for expanded library hours. The Northside Branch Library will be able to support a growing population at the northeast section of the City and respond to patron requests for increased library access. Increased patron usages and materials checked out will result from the increased hours of operation. No performance and service level impact will result from the deletion of the Business Analyst position.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Parks and Recreation Department

Department Mission

Support a vibrant, active quality of life for all ages, abilities and interests of the Santa Clara community through excellent parks and recreational facilities, community services, programs and events.

Provide a congregate meals program to improve senior health and ability to live independently.

Provide planning, development, operation and maintenance of the City's two cemetery properties to support families before, during and after their time of need

This page is intentionally left blank.

Parks and Recreation Department Description

The Parks and Recreation Department provides planning, development, operation, maintenance and rehabilitation of the City's 26 neighborhood parks, five mini parks, one community park, three open space sites and 14 recreation facilities. Recreation facilities include Community Centers, neighborhood park buildings and ten joint use facilities, playgrounds, restrooms, picnic areas, turf, trees, vegetation and athletic fields. Service levels are set to promote the use of safe, clean and attractive facilities for enjoyment and quality of life for all ages and abilities. The Department assists the public with facility rentals, community services, cultural programs and special events, enhanced natural environments, as well as sports and aquatics opportunities. The Senior Nutrition Program provides a congregate meal setting where seniors can improve their health through balanced meals and socialization and is funded through a grant from the Santa Clara County Social Services Agency's Senior Nutrition Program and Community Development Block Grant (CDBG) funds. Seniors are encouraged to access the many services available at the senior center while on site, and are given the opportunity to engage in health and wellness programs at the senior center. The Parks and Recreation Department also provides planning, development, operation and maintenance of the City's two cemetery properties to support families before, during and after their time of need. The Cemetery Division maintains 33,000 interment sites in a peaceful public park and provides customer service in a professional and respectful manner while demonstrating sensitivity to our diverse community.

Divisions and Services

The Parks and Recreation Department is organized into five Divisions: Administration, Parks, Recreation, Cemetery and Senior Nutrition Program.

Administration Division Mission	Provide leadership, resource development and administrative support to Parks, Recreation, Cemetery and Senior Nutrition Program Divisions; plan and develop new parks and recreation facilities to support the City's programs, activities and special events; review new housing development plans for provision of new parkland dedication and recreation amenities.
Division Objectives	Plan and implement design, development, construction and maintenance of new parks; rehabilitation of older facilities and infrastructure, including public outreach and Parks Recreation Commission review and recommendations.
	Research and develop partnerships, sponsorships and grants from other private, corporate and other public agencies in order to supplement funding of facilities, projects, programs and other services.
	Provide leadership to four Commissions, plan and implement multiple citywide special events each year. Conduct plan reviews and prepare comments for new housing developers to optimize park and recreation amenities in new developments and to ensure compliance with City Code 17.35.

Parks Division Mission

Maintain and rehabilitate Santa Clara's Central Park (45.04 acres), 26 neighborhood parks (121.26 acres), open space (41.71 acres), five mini parks (2.59 acres), community centers/recreation, joint use facilities (71.52 acres) and neighborhood park buildings. These include playgrounds, restrooms, picnic areas, turf, trees, vegetation and athletic fields sports venues at defined levels of service that promote the use of safe, clean and attractive facilities for the enjoyment of the public.

Division Objectives

Provide administrative direction, updated training and technical support for Parks Division staff; contract operators of facilities and public users; plan for parks and facility maintenance rehabilitation needs, including volunteer projects to enhance natural habitat and urban forestry.

Maintain 11 clean, safe, attractive municipal swimming pools and supports facilities at five sites (International Swim Center, Mary Gomez, Warburton, Montague and Senior Center). Maintain and support the use of clean safe, fully functional, attractive Community Center, Senior Center, Youth Activity Center, Teen Center and six neighborhood park buildings. Maintain and support a community garden and natural areas. All facilities and grounds are maintained on a year-round schedule of turf care, facility maintenance, vegetation, tree care, litter control and graffiti removal.

Provide physical and logistical support for citywide special events for planning, mapping, set up, safety and cleanup; ensure that all City and Public Agency permit requirements are met for public events.

Recreation Division Mission

Provide recreation opportunities for all residents of Santa Clara at the Community Recreation Center, Youth Activity Center, Senior Center, Teen Center, Youth Soccer Park, City parks and athletic facilities and City pools.

Division Objectives

The Sports, Aquatics and Athletic Facilities Program offers competitive basketball and softball leagues for adults; coordinates use of the Youth Soccer Park and Santa Clara Unified School District (SCUSD) fields; and manages Santa Clara Tennis Center and Gymnastics. It partners with the field user groups for consistent use and policy implementation. The Aquatics Program offers a variety of summer swim lessons for all ages and abilities; safely supervises recreational swimming, aquatic fitness programming and year round access to lap swim for adults and seniors; and works with local partner organizations to coordinate shared use of aquatic facilities.

Youth Activity Center and Teen Center partners with the Junior Giants Program to offer summer day camp session, serves middle and high school youth with various afterschool programs, camps and activities, skate park and supports the Youth Commission.

The Cultural and Performing Arts Program provides a variety of dance, music and art programs that include recitals and performances; fine arts camp in the summer; group exercise for adults; and preschool enrichment programs. The Roberta Jones Junior Theater produces performances for the general public each year, including auditions and cast assignments; costume and set design; stage management; back stage and technical crew; ticket sales and house management; creative drama classes and summer camps.

The Senior Center offers a variety of health and wellness, arts and culture and special interest classes for disabled residents and individuals over 50 years of age. Therapeutic programs, with fitness and enrichment opportunities serves individuals special needs at the Senior Center.

**Senior Nutrition
Program Division
Mission**

To provide a congregate meals program to improve senior health and ability to live independently.

Division Objectives

Offer a Monday through Friday senior nutrition program.

Encourage participation in Senior Center Health and Wellness, resources, case management referrals, fitness and social activities at the Senior Center and other facilities to enhance quality of life.

Offer access to information about senior issues and current events.

**Cemetery Division
Mission**

The Mission City Memorial Park provides exemplary cemetery services in a well maintained, park-like setting with a customer oriented atmosphere. The Agnew Historic Cemetery maintains space for reflection and interprets historical artifacts.

Division Objectives

Mow and trim turf areas weekly; pruning and planting of trees as needed for safety and maintenance of existing canopy.

Maintain cemetery buildings daily, in keeping with City standards.

Maintain accurate documentation and use best practices and current technology to map and record all transactions and burials in the cemetery.

Develop in-ground and niche bank spaces to provide additional interment options for families in need.

Significant Accomplishments

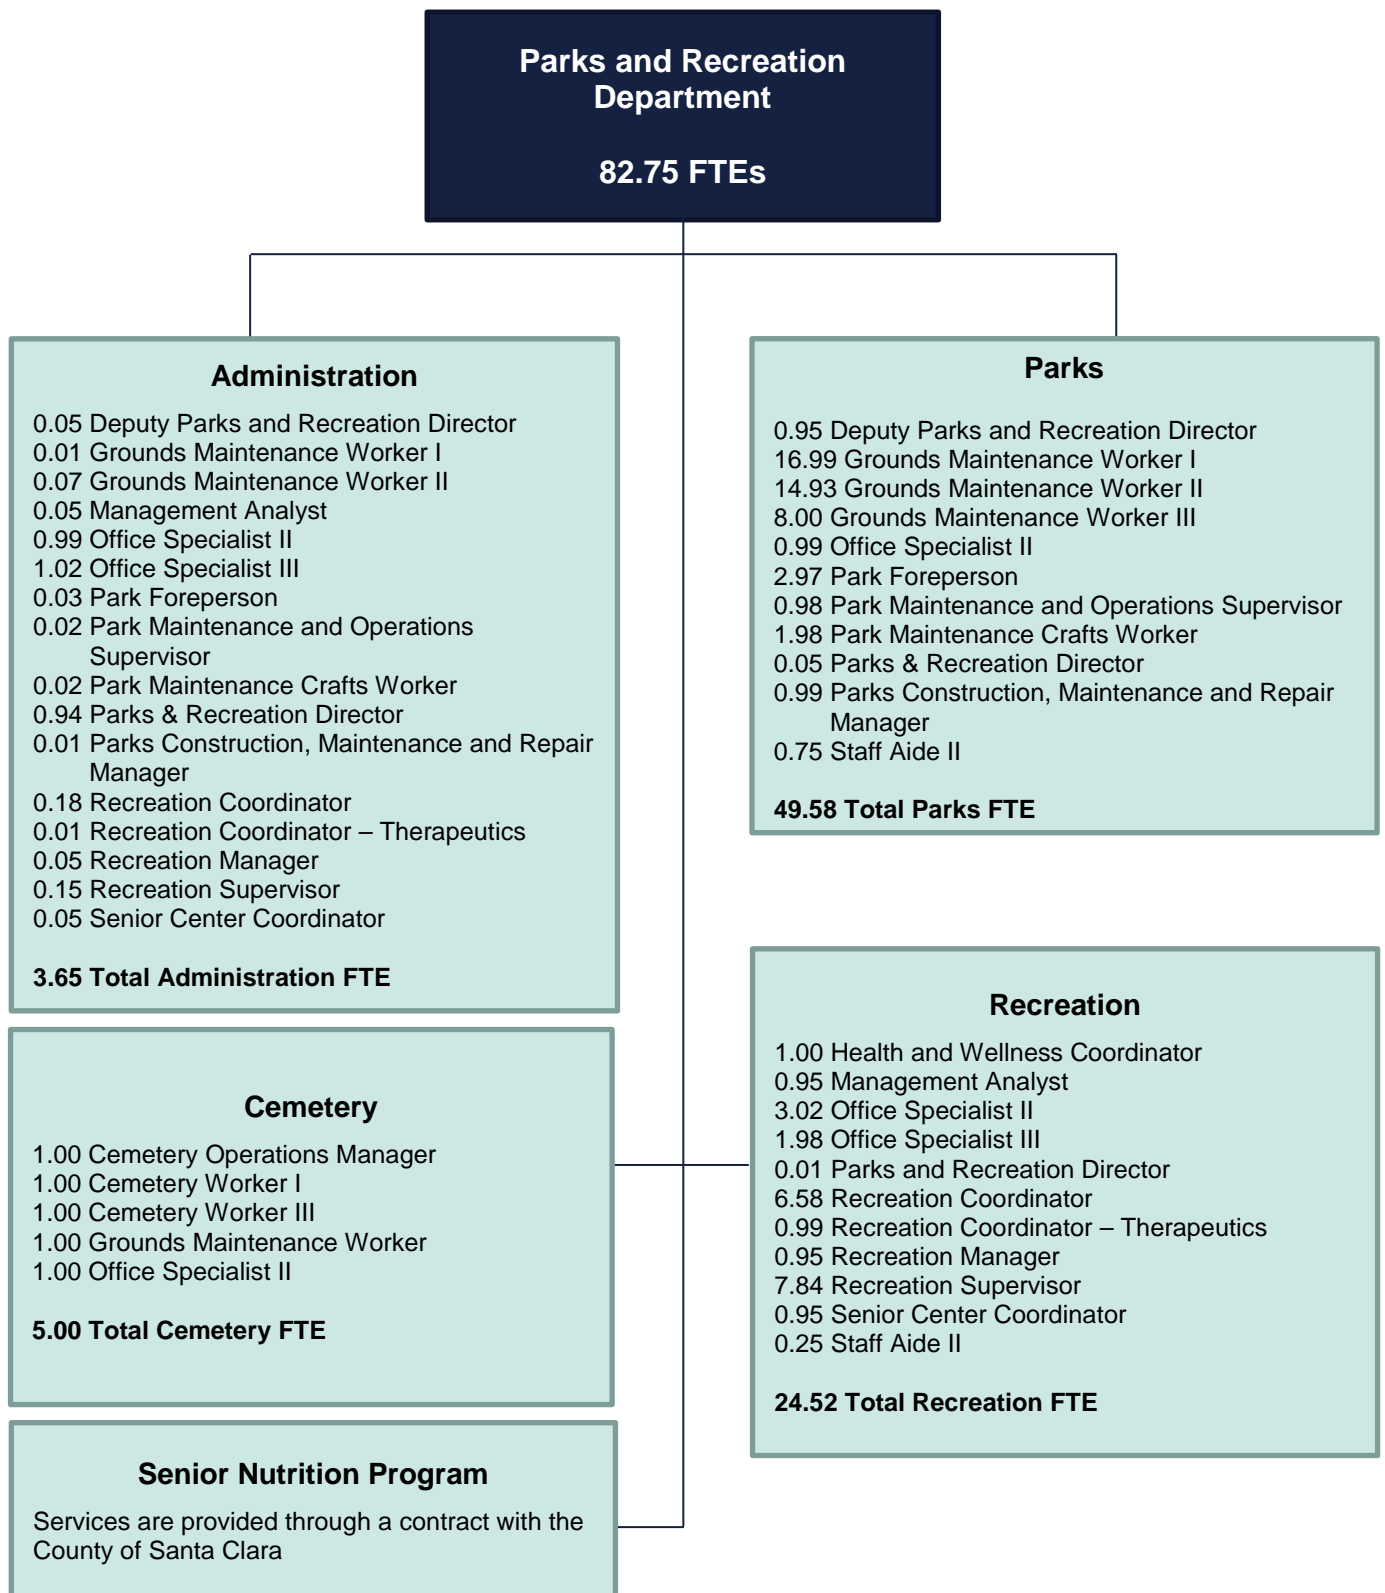

- Completed Parks and Recreation Facility Condition Assessment and Asset Inventory
- Completed Senior Needs Assessment and gap analysis
- Developed funding options and tested public opinions of funding sources for Community Recreation and Aquatics Center Project
- Completed community input and approved schematic design for park playgrounds for Bowers, Machado, Homeridge, and Agnews Parks and Fuller Street Sports Court
- Completed public input phase for Montague Park rehabilitation project and Central Park Masterplan
- Upgrade of the storage system for historic documents and map
- Published a public facing list of burials plots for genealogical research
- Provided approximately 15,800 seniors with nutritional meals in the Monday-Friday Senior Nutrition Program
- Grand opening of San Tomas and Monroe Neighborhood Park and Community Garden
- Hosted groundbreaking of Reed and Grant Streets Sports Park

Significant Objectives

- Continue to implement a public-facing electronic work order system for parks facilities
- Complete Park rehabilitation projects for Bowers, Machado, Homeridge and Agnews park playgrounds and Fuller Street Sports Court
- Explore options for supporting long-term health of cemetery maintenance endowment.
- Continue to provide approximately 15,800 nutritional meals to seniors in the Monday - Friday Senior Nutrition Program
- Explore options for supporting long-term health of cemetery maintenance endowment

Budget Highlights

- The Reed and Grant Streets Sports Park is scheduled to open in Spring 2020. In anticipation of the opening of the park, a full-time Recreation Coordinator and full-time Grounds Maintenance staff are included in this budget and will supervise the facility and develop programs to meet community needs. In addition, funding is included for equipment, program supplies and as-needed staff for the Reed and Grant Streets Sports Complex
- The Department is reallocating programs supply fees previously deposited into unbudgeted funds to the General Fund to increase transparency for those expenditures. Donation accounts, like Art and Wine Festival and Senior Case Management, will be included in the City's Public Donations Fund

Reed and Grant Sports Park	2.00	275,138	443,289	2,000	518,960
Program: 1132 – Parks					
1142 – Administration					
1146 – Recreation Facilities					

The City will open the 8.75 acre park in Spring 2020. The new park will require a one-time purchase of furniture, fixtures, equipment, supplies and a vehicle to enable full programming of the facility, maintain and groom the artificial turf at the park and to maintain the natural turf fields and landscaping. The business plan for the sports park includes the addition of a 1.0 Recreation Coordinator to manage the recreation programming at the new park. The recreation programming will focus on pre-school age programs in the mornings, noon-time will focus on adult drop-in programming and evenings and weekends will offer programs for all ages. This facility is expected to be open and staffed Monday-Friday from 9:00 am -10:00 pm. Facilities will open on weekends for rentals. To help offset the cost of the sports park, programming revenues are estimated to be \$86,900 and \$158,800 for the first two years. In addition, funding for as-needed staff (\$63,900 and \$122,700 for the first and second year of operations) to support the programming activities and additional funding for contractor agreements and supplies (\$27,200) are included in this action. The new facility will require a high level of maintenance due to the quantity of fields and the intensity and duration of expected usage. As a result, this action includes an additional 1.0 Grounds Maintenance Worker II position and increased maintenance expenses (\$15,000 annually). The park will also incur annual ongoing costs for utilities and supplies (\$81,580 and \$80,822). The FY 2019/20 budget is based on seven (7) months of programming while FY 2020/21 budget reflects a full year of programming.

Performance Impact

This action enables the City to expand its services by providing a new multi-purpose community recreation and sports facility to serve the growing population.

Strategic Pillar:

Enhance Community Sports and Recreational Assets

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Reallocate Unbudgeted Recreation Funds to the General Fund	0.00	0	495,565	18,000	493,175

Programs: 1143 – Youth Activity Center and Programs
 1144 – Senior Center and Therapeutic Recreation Programs
 1145 – Community Recreation Center and Programs
 1147 – Aquatics
 1171 – Citywide Special Events

The Department has historically deposited supply fees collected from Teen Activities and Senior Center programs into unbudgeted funds. In an effort to increase transparency and fully budget recreation program expenditures, this action reallocates expenditures and associated fee revenue to the General Fund for activities and programs including the Roberta Jones Junior Theatre, the Community Recreation Center and Gymnastics Center, Therapeutic Recreation Programs, Aquatics, Youth Activity Center Afterschool, Open Gym, Skate Park, Senior Center Travel program, Senior Center Drop-In programs and Teen Center. In addition, this action funds the City Halloween Party. Fees collected for classes during registration may equal or exceed program expenditures. Estimated fee revenue of \$499,620 is anticipated to offset this action.

Performance Impact

The result of this action will increase transparency for funds that were previously unbudgeted.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Therapeutic Recreation and North-Side Camps	0.00	0	40,600	0	40,600

Programs: 1143 – Youth Activity Center and Programs
 1144 – Senior Center and Therapeutic Recreation Programs

This action funds new two week-long summer camps and after-camp care for individuals with developmental disabilities. Campers will participate in team building, sports and fitness activities and crafts. As-needed funding (\$11,400) and related camp supplies (\$800) are expected to be partially offset by anticipated registration revenue (\$11,300). The therapeutics program is partially subsidized by revenue collected from other recreation classes. New full-day camps at the northern part of the City will include a weekly field trip, swim day at Montague Pool and games and activities throughout the day. Funding is included for program supplies (\$10,400) and as-needed staffing (\$18,000), partially offset by anticipated registration revenue of \$28,400 to cover program costs.

Performance Impact

New therapeutic camps will enable the City to continue fostering and promoting safe and healthy leisure activities for populations of individuals with disabilities in the Santa Clara community. New north-side camps allow the City to increase camp offerings in an underserved section of the City, specifically the residents of the Montague Park neighborhood.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Community Garden Program	0.00	30,000	0	0	0

Program: 1145 - Community Recreation Center and Programs

This action provides funds to augment the marketing and other operating expenses of the City's Community Garden outreach. Funds will be used to increase marketing and communication efforts in strategic locations throughout the city. Instructors will be hired to provide instructional programs for persons of low income and limited English literacy/proficiency. Funding is also provided for as-needed staffing and supplies and materials to host special events at the community garden or partner locations.

Performance Impact

A more robust Community Garden program will enable the City to highlight and provide sustainable living practices.

Strategic Pillar:		Deliver and Enhance High Quality Efficient Services and Infrastructure

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Citywide Special Events Marketing	0.00	0	13,200	0	13,200

Program: 1171 - Citywide Special Events

In FY 2017/18, the Department hired a new Recreation Supervisor to market department and citywide events. This action provides funds for advertising and promotional materials for marketing (\$7,200) citywide special events, offset by sponsorship revenue (\$11,500) for the ice rink and other citywide special events. In 2018, the Art and Wine Festival lost its long term, in-kind caterer sponsor. As a result, this action funds a caterer (\$6,000) in the hospitality area of the event until the Department can seek and find a new in-kind caterer sponsor.

Performance Impact

Through additional outreach for department and citywide special events, this action is expected to increase participation at department and citywide events.

Police Department

Department Mission

The mission of the Santa Clara Police Department is to always provide quality police service to the public. Working together, and in partnership with the community, we will identify and resolve problems utilizing all available resources. We will perform this service professionally and with integrity

This page is intentionally left blank.

Police Department Description

The Police Department provides law enforcement and other policing services to the City of Santa Clara.

The Administrative Services Division (Services) is made up of the Chief's Office, Property and Evidence, Professional Standards Unit (hiring), Internal Affairs, Training Unit, Communications Center, Community Services Unit and the Northside Substation. The Communications Center receives and processes emergency and non-emergency calls for the Police and Fire Departments (approximately 177,000 calls into the Center annually). The Community Services Unit has many functions: Neighborhood Watch, Crime Prevention, Nuisance Suppression Unit, Permits, School Services Officers, Drug Abuse Resistance Education (D.A.R.E.), Crossing Guards, Safety Patrol, and the Police Activities League (PAL). The Chief's Office manages local, State and federal grants, the Department's webpage and social media outlets, the community volunteer program, Citizens' Police Academy and various community outreach programs (e.g. Chat with the Chief, Coffee with a Cop, Leadership Santa Clara, Talk and Tour, Department Open House, etc.). This office also facilitates the newly established Chief's Advisory Committee.

The Field Operations Division (Patrol) is comprised of the "first responders" who respond to the vast majority of calls for service. The Division is made up of patrol teams, a motorcycle traffic unit, a traffic/hit-and-run investigator as well as community service officers to manage parking control and vehicle abatement.

The Investigations Division (Detective Bureau) is responsible for conducting follow-up investigations, particularly for major crimes. Detectives are assigned by type of crime, which includes homicide, assaults, robbery, theft, burglary, sexual assault, financial crimes, arson and juvenile crimes. The Investigations Division keeps track of and continues to pursue "cold cases." The Investigations Division houses the Department's Forensic Coordinator and Crime Analyst, and serves as the liaison to specialized task forces. The Records Unit is also part of the Investigations Division. The Records Unit is responsible for maintaining all crime reports (approximately 15,000 reports processed each year), produces statistical crime information to the Department of Justice and the Federal Bureau of Investigation, provides radio support to officers in the field, and prepares the release of information to the public. The Records Unit also performs customer service functions at the front desk at the Police Building and Northside Substation.

The Special Operations Division includes the Homeland Security and Special Events Unit. It serves as the liaison between the City and outside entities for special event permits (e.g. walk/run, parade, festival, etc.), provides security support for dignitary visits and demonstrations, and develops operational orders for law enforcement, traffic and neighborhood protection needs associated with Levi's Stadium, Santa Clara Convention Center, California's Great America and Santa Clara University. The Reserve Police Officer program compliments the work of the Department and is supported by this Division. This Division is the home to a number of specialized teams within the Department, such as the K-9 Unit, Hostage Negotiation Team and the Special Response Team (SWAT). This Division manages the Temporary Holding Facility at the Police Building and Levi's Stadium, as well as the Jail Service Officers.

Divisions and Services

The Police Department is organized into five Divisions: Administrative Services; Communication Acquisitions; Field Operations; Investigations; and Special Operations.

Administrative Services Division Mission

The Administrative Services Division (Services) is made up of the Chief's Office, Property and Evidence, Professional Standards Unit (hiring), Internal Affairs, Training Unit, Communications Center, the Community Services Unit, the Northside Substation and PAL.

The Communications Center receives and processes emergency and non-emergency calls for the Police and Fire Departments, as well as non-business hour response for other Departments throughout the City.

The Community Services Unit has many functions including: Neighborhood Watch, Crime Prevention, Nuisance Suppression Unit, Permits, School Services Officers, D.A.R.E., Crossing Guard, Safety Patrol, and PAL.

The Chief's Office manages local, State and federal grants, the Department's webpage and social media outlets, the community volunteer program, Citizens' Police Academy and various community outreach programs (e.g. Chat with the Chief, Coffee with a Cop, Leadership Santa Clara, Talk and Tour, Department Open House, etc.). This office also facilitates the newly established Chief's Advisory Committee.

In November, 2018, the Communications Center transitioned to a new Computer Aided Dispatch (CAD) system. In the first year of deployment, staff will continue its' training on system functions and mobile application integration.

The D.A.R.E. program will be entering its 20th year. This highly acclaimed program teaches children strategic skills for decision making, dealing with peer pressure and bullying. During the 2017/18 school year, our D.A.R.E. officers were in 22 schools, both public and private, serving approximately 1,750 students. Students in 7th grade also receive a D.A.R.E. refresher in middle school.

The Department continues to offer "Every 15 Minutes" in our high schools. This program educates students about the dangers of driving under the influence of alcohol and distracted driving.

The Police Activities League has nine program areas and serves approximately 1,100 youth annually. The programs include BMX, deep sea fishing, Explorers, judo, soccer, softball and wrestling. PAL also organizes "Shop with a PAL" which reaches 50 middle school students and a Christmas gift and meal delivery for approximately ten deserving families. PAL's annual Golf Tournament serves as a fundraiser for the previously mentioned programs.

The Professional Standards Unit (PSU) will continue to recruit and hire highly qualified and motivated individuals to serve the Santa Clara community in full-time and part-time sworn and civilian capacities.

Communication Acquisitions Division Mission

Replace amortized electronic equipment within the City.

Division Objectives

Provide continued funding for communications equipment replacement as necessary. All departments with radios are charged annually; at the end of 15 years replacement radios will be fully funded.

Field Operations Division Mission

The Field Operations Division (Patrol) is comprised of the “first responders” to provide immediate services to citizens, visitors and businesses within our City. The Division is made up of patrol teams, a motorcycle traffic unit, a traffic / hit-and-run investigator as well as community service officers to manage parking control and vehicle abatement.

Protect and serve with honesty, fairness, professionalism, and integrity. Maintain a community atmosphere that will provide our citizens with a quality of life that will enable them to enjoy our community to the fullest.

Division Objectives

The Traffic Enforcement Unit monitors traffic violations and enforces laws at identified problem areas and intersections.

With data from the Investigations Division, Field Operations personnel are being deployed by Public Safety Dispatchers to locations on specific days and times, using a matrix of factors, in an effort to prevent crime.

Field Operations personnel will continue to address alcohol related crimes and disturbances, particularly in the Santa Clara University footprint.

The Field Training program will continue to train all newly hired officers.

Investigations Division Mission

The Investigations Division will receive reports of crimes that have occurred in our community and will conduct follow-up investigations, utilizing statements, physical evidence, crime analysis and deductive reasoning to identify perpetrators of crime. Detectives are assigned by type of crime, which includes homicide, assaults, robbery, theft, burglary, sexual assault, financial crimes, arson and juvenile crimes. The Investigations Division keeps track of and continues to pursue “cold cases.” Subpoenas for trial witness are processed and delivered from this Division.

The Special Enforcement Team (SET) will continue to operate as a proactive unit dedicated to the suppression of crime in our community.

The Records Unit is responsible for maintaining all crime reports, produces statistical crime information to the Department of Justice and the Federal Bureau of Investigations, provides radio support to officers in the field, and prepares the release of information to the public. The Records Unit also performs customer service functions at the front desk at the Police Building and Northside Substation. New, the Records Unit will be charged with meeting the requirements set forth in SB1421 (beginning January 1, 2019) and AB748 (beginning July 1, 2019).

Division Objectives

Proactively serve the City's residents by combatting crime and identifying those responsible.

Continue to aggressively track and monitor registered sexual offenders and gang registrants.

Investigate and seek out criminals resulting in a high volume of prosecutable cases.

Fulfill Public Records Act requests in a timely manner. Beginning in 2019, the Records Unit will also be charged with meeting the requirements set forth in SB1421 (beginning January 1, 2019) and AB748 (beginning July 1, 2019).

Support local, State, and federal law enforcement partners.

Special Operations Division Mission

The Special Operations Division includes the Homeland Security and Special Events Unit. It serves as the liaison between the City and outside agencies for special event permits (e.g. walk/run, parade, festival, etc.), provides security support for dignitary visits and demonstrations, and develops operational orders for law enforcement, traffic and neighborhood protection needs associated with Levi's Stadium, Santa Clara Convention Center, California's Great America and Santa Clara University. This Division is the home to a number of specialized teams within the Department, such as the K-9 Unit, Hostage Negotiation Team and the Special Response Team (SWAT).

The Reserve Police Officer program compliments the work of the Department in many ways and is supported by this Division.

This Division manages the temporary holding facility at the police building and Levi's Stadium, as well as the jail service officers.

Division Objectives

Continue to staff all special events with highly trained and committed public safety personnel to ensure the safety of all attendees, control traffic and pedestrian movement and reduce the impact on surrounding residents and businesses.

Utilize technology to provide real-time updates during events to provide complete situational awareness and improve public safety capabilities.

Provide a safe environment for guests attending all events and venues within the City.

Maintain critical information sharing and partnerships with federal, State and local law enforcement agencies to ensure the safety and security of the community.

Significant Accomplishments

- The City's Communications Center went live with a new CAD system on November 5, 2018, allowing for more efficient business practices as a result of the new capabilities of CAD. This new system features:
 - Dynamic map with global position system (GPS) providing greater resource awareness to Public Safety Dispatchers and responding personnel (e.g. route mapping to include road closures/construction, knowledge of where patrol units are located – officer safety)
 - Enhanced call-handling
 - Ability to attach the closest police or fire resource to a call for service, as opposed to the previous beat or station structure, expected to deliver faster response times
 - Dispatcher and Officer capability to review previous police interactions with an individual or address prior to arrival
 - Ability to collect all related case details in one location (e.g. photos, etc.)
 - Enhanced data reporting and analysis for future decision making
 - Ability for mobile application integration with other current systems and future capabilities
 - CAD application on work phones which allows additional resources to be tracked via GPS and allows detectives to do more work in the field, increases work efficiency
 - Ability to capture more accurate resource status
 - Fire Department has tablet access to key premise information (e.g. water hook ups, lock combos etc.)
- For many years, the Mobile Data Computers (MDC) have had connectivity issues in police vehicles causing concern for officer safety and loss of job efficiency. As a secondary benefit of the CAD project, the Communications Operations Manager led a project to replace the MDC's with law-enforcement grade technology which included new hardware, mobile hot spots, an upgrade to mobile virtual private network (VPN) software, and enhanced CAD software. These upgrades have allowed officers to effectively complete more tasks on their mobile computers, which frees up air time on the fire and police radios and also reduces the number of tasks a dispatcher must complete
- Established a 15-member Chief's Advisory Committee (CAC) to advise the Police Chief on issues, matters and public policies which influence or impact the ongoing relationship between the Santa Clara Police Department (SCPD) and the community we serve. In the future, CAC members will also be asked to help increase public awareness on law enforcement matters. This initiative is a result of the Citizen Satisfaction Survey on Public Safety
- Secured grant funds to purchase front-line law enforcement equipment, conduct specialized operations, and offer officer training (e.g. evidence vehicle, use of force simulator)
- In 2018, SCPD partnered with Human Resources to hire 27 new employees and promote 12 individuals. During the same timeframe, 22 employees departed the organization (e.g. retirement, private sector, permanent injury, etc.). A three-year retirement projection was created to help the Department anticipate future staffing needs

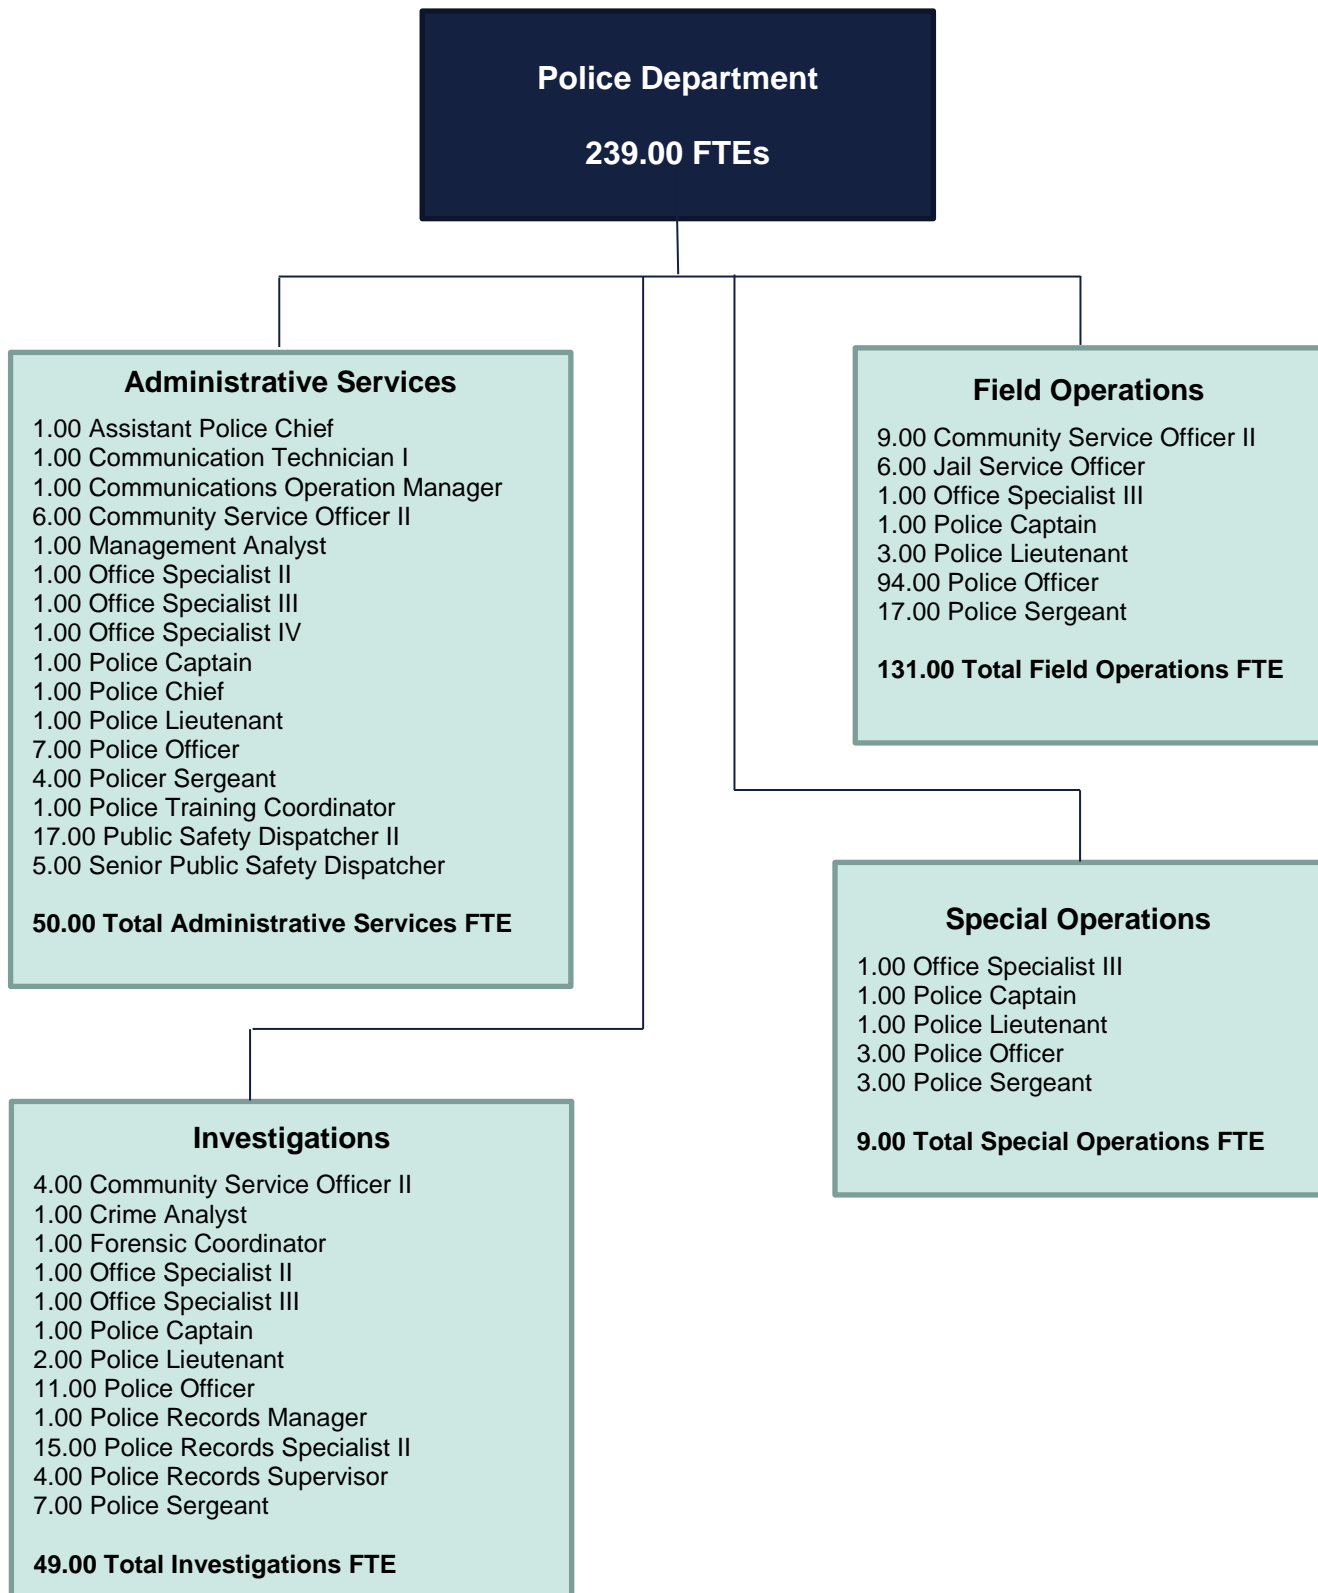

Significant Objectives

- Implement policing model for the regulation of recreational cannabis
- Acquire necessary technology and train staff to meet the new workload demands created as a result Senate Bill 1421 and Assembly Bill 748
- Manage the new permitting process and enforcement guidelines associated with the Massage Ordinance adopted by Council in November 2018
- Address a business and residential alarm permitting and management solution through a third-party
- Adopt a Lexipol public safety policy manual intended to provide comprehensive, defensible department policies written by legal and public safety professionals based on current government legislation and case decision
- Host a community open house on June 1 with tours, interactive displays and kid-friendly activities
- Address local (abandoned vehicles, recreational vehicle (RV) parking, neighborhood parking) and regional issues (property crimes, homelessness, traffic, mental illness) with law enforcement partners
- Continue to address short and long-term staffing needs to match community expectations, service philosophy, crime trends, calls for service, population, density and demand for citizen-police engagement

Budget Highlights

- Addition of 1.0 Police Records Specialist II and deletion of 1.0 Staff Aide I to address the workload impact of Senate Bill 1421 and Assembly Bill 748
- Funding to address a new agreement for a residential and business alarm management software system

Program: 7746 – Community Services Police

This action provides funding for the Police Department's new agreement with a residential and business alarm management software vendor. This software will streamline administrative tasks associated with the permitting process Police Department staff currently oversees. This agreement will be submitted for approval by City Council in June 2019.

Performance Impact

This action will provide for more efficient false alarm fee collection and oversight.

Strategic Pillar:

Promote and Enhance Economic and Housing Development

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Police Records Staffing	0.00	0	11,572	0	12,734

Program: 7734 – Investigations – Records

This action adds 1.0 Police Records Specialist II and deletes 1.0 Staff Aide I to address the increased workload for public records requests as a result of Senate Bill 1421 (SB1421) and Assembly Bill 748 (AB 748). Both bills provide the public more access to police records, such as audio or video recordings, photographic evidence, personnel files, and all investigative reports. With the increased access to this type of documentation, the Police Department requires a position to be dedicated to the coordination and collection of all related documents, while working with the City Attorney's Office to ensure compliance.

Performance Impact

This position will provide more capacity for the Police Department to fulfill public records requests and ensure compliance with State legislation.

Strategic Pillar:

Enhance Community Engagement and Transparency

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Public Safety Stadium Training Program	0.00	(46,500)	(33,500)	0	(34,500)

Program: 7761 – Special Operations

This action allocates funding from the Police Department to Non-Departmental for numerous specialized trainings related to events at Levi's Stadium, including firearms qualification, bicycle crowd control and operations, sniper courses, and incident command system training. These trainings are part of the Police Department's effort to create a standardized training program to ensure compliance with Police Officer Standards and Training (POST) requirements and to keep all staff working special events up-to-date with the latest policies and procedures. All trainings included in this program are fully reimbursed by the Stadium Authority and 49ers; therefore, there is no cost to the General Fund.

Performance Impact

These trainings will ensure that all special event officers working at the Stadium are up-to-date on the most recent procedures and trained to handle all situations arising at the Stadium in an appropriate manner, limiting any City risk.

Strategic Pillar:

Ensure Compliance with Measure J and Manage Levi's Stadium

Department of Public Works

Department Mission

The Department of Public Works is dedicated to providing the highest quality public works services to the residents of Santa Clara, the development community and our customers in a responsible and efficient manner

This page is intentionally left blank.

Department of Public Works Description

The Department of Public Works (DPW) constructs, maintains and improves various components of the City's infrastructure and provides quality, cost-effective, timely services to the residents and businesses of Santa Clara. DPW is responsible for a wide variety of programs throughout the City which include design, construction management, stormwater pollution prevention, inspection and maintenance of City streets, bridges, storm drain systems, traffic signal systems, building facilities, street trees, landscaping and the closed landfill. These responsibilities include the engineering aspects of the sanitary sewer system which is maintained by the Water and Sewer Utilities Department. The Department oversees the coordination and management support to the Convention Center Maintenance District, which consists of Hyatt Regency, Techmart, and the City, and maintains the grounds of the Franklin Square complex under the Downtown Parking Maintenance District. DPW manages solid waste contracts which provide services such as garbage, yard waste, recycling, street sweeping, household hazardous waste and the annual Clean-Up Campaign. Another significant component of DPW includes overseeing the procurement and maintenance of the City's fleet of vehicles and equipment. The Fleet Management program manages the lifecycle, replacement, procurement, up fit and disposal of all vehicles and equipment within the City. This program also supports the City's diverse fleet operations ensuring safe, cost-effective and sustainable maintenance, repair, fueling, replacement, and compliance of City-owned vehicles and equipment.

Divisions and Services

The Department focus areas include Engineering Services and Operation and Maintenance. Engineering is comprised of five divisions: Administration, Traffic, Design, Land and Property Development and Field Services. Operations and Maintenance is comprised of three divisions: Facility Services, Streets and Fleet Management. The Streets Division is further subdivided to operate in the following areas: Administration, Traffic Maintenance, Street Maintenance (streets and storm drains), Environmental Programs, Solid Waste, Landscape and Code Enforcement. The Facility Services Division manages the Convention Center Maintenance, the Street Division manages the Downtown Parking Maintenance District and the Fleet Management Division manages the Vehicle Replacement and Fleet Operations Funds.

Engineering - Administration Division Mission	Provide administrative support services which meet the needs of the division, departments and community.
Division Objectives	<p>Manage and oversee all Department activities, represent the Department at the City Council meetings and represent the City at various agency meetings.</p> <p>Develop and manage an efficient, cost effective department operating budget and capital improvement program (CIP) budget.</p> <p>Provide management and assistance in the development and delivery of the City's CIP.</p>

Engineering – Traffic Division Mission

Provide safe and efficient movement of pedestrian, bicycle, transit and vehicular traffic.

Division Objectives

Increase safety for pedestrians and bicyclists through implementation of new or improved facilities such as bike lanes and intersection improvements.

Enhance safety and reduce delays for all users of the City roadway system through implementation and installation of new innovative technologies.

Review, design and install traffic signals, traffic signal modifications and other traffic related infrastructure improvements as needed to maintain efficient roadway operations and safety.

Maintain and upgrade traffic facilities in an efficient and timely manner.

Apply for and process transportation grants to augment the City's finances for improving traffic, pedestrian and bicycle-related infrastructure.

Engineering – Design Division Mission

Provide high quality services to the community through efficient and effective delivery of capital improvement projects and management of the City's infrastructure.

Division Objectives

Manage infrastructure and the capital improvement project programming of pavement, storm drain and capacity improvements for the sanitary sewer system.

Provide capital project administration and management services to other City departments (Fire, Library, Parks and Recreation, Police and Water and Sewer Utility).

Coordinate with Federal Emergency Management Agency for Community Rating System (CRS) program to maintain City's Class 8 rating. This provides a reduction in flood insurance premiums for the property owners with flood insurance in the City of Santa Clara.

Maintain engineering design standard documents and maintain infrastructure record information such as as-builts and base maps.

Engineering – Land and Property Development Division Mission

Assist customers and the community by providing effective and efficient services during project development and public improvement design phases.

Division Objectives

Facilitate the issuance of timely reviews and permits in compliance with land use and development standards.

Provide developers and permittees with information related to fees, general engineering, City utilities, property lines and design standards.

Develop new procedures to streamline processes and use new technology to facilitate current procedures.

Engineering – Field Services Division Mission	<p>Serve clients and the community through effective and efficient construction management, construction inspection, materials testing, surveying and administration services of public improvement projects.</p>
Division Objectives	<p>Provide effective construction management, construction inspection, materials testing, surveying and administration services for capital improvement projects, such as pavement improvements, sanitary sewers, traffic signals, parks and curb ramps.</p>
	<p>Deliver effective construction inspection, material testing, surveying and administration services for private developments that involve the City's infrastructure.</p>
Facility Services Division Mission	<p>Perform cost effective repair and maintenance procedures which will ensure that City-owned buildings remain safe, attractive and energy efficient. Provide a safe, clean and well maintained public space in support of the Santa Clara Convention Center Maintenance District assuring a safe environment while enhancing the property value.</p>
Division Objectives	<p>Provide upkeep of the equipment, signs, landscaping, pavement and concrete curb, gutter and sidewalks.</p>
	<p>Perform maintenance and repair of equipment, structures and fixtures on all surface parking lots, service roads, pedestrian bridges and garage.</p>
	<p>Maintain public space around the Santa Clara Convention Center complex.</p>
Streets Division Mission	<p>Maintain streets, sidewalks, storm drain infrastructure, trees, and other landscape in the public right-of-way, beautify the City and minimize potential hazards. Provide high quality maintenance on all landscaping, roadways, sidewalks, fountains and exterior amenities with minimum impact to daily merchant operations. Implement reliable, cost-effective solid waste programs that maximize landfill diversion.</p>
Division Objectives	<p>Repair street potholes and sidewalk tripping hazards.</p>
	<p>Clean and maintain the storm drain collection system and implement the City's Urban Run-off Pollution Prevention Program.</p>
	<p>Maintain landscapes in the public right-of-way and remove graffiti.</p>
	<p>Prune City trees and plant new trees to replenish the City forest.</p>
	<p>Maintain traffic signs, striping, curb markings, and pavement messages.</p>
	<p>Repair damaged parking lots and walkways.</p>
	<p>Remove graffiti swiftly.</p>
	<p>Monitor street sweeping contractor.</p>
	<p>Manage the Solid Waste Program to assure that fees remain competitive with other agencies and are cost recovery.</p>
	<p>Provide excellent customer service to the City of Santa Clara in regards to all collection services.</p>
	<p>Identify any new regulatory changes that govern the collection and disposal of solid waste and establish plans to incorporate them so that the City is in compliance.</p>
	<p>Complete the annual Clean-Up Campaign swiftly and safely.</p>

Fleet Management Division Mission

Purchase and maintain fleet equipment cost-effectively by maximizing lifecycles and service availability. Manage the lifecycle, replacement, procurement, up fit and disposal of all vehicles and equipment within the City.

Implement the City's Green Fleet Policy.

Reduce the number of vehicles and equipment in the fleet by evaluating usage rates, removing under-utilized vehicles and unfunded retained assets.

Perform manufacturer's recommended preventative maintenance on fleet assets to increase reliability and reduce costs associated with repairs.

Division Objectives

Procure equipment and vehicles identified for replacement.

Collaborate with departments on replacement equipment and vehicles before each purchase.

Evaluate alternative fuel options before purchasing new vehicles or equipment.

Ensure purchases of vehicles and equipment meet the highest air quality standards set by California Air Resources Board.

Significant Accomplishments

- Facilitated significant development projects that included 575 Benton Street Residential/Mixed Use Project at El Camino Real and Benton Street, Lawrence Station Area Plan Toll Brothers Developments at Kifer Road/Lawrence Expressway/Central Expressway, and Data Centers at various locations through effective and efficient processing of site clearances, subdivision maps, land title documents, public improvement plan checks and development fee collections
- Completed construction and activation of traffic signals at Pruneridge Avenue/Cronin Drive and Scott Boulevard/Montgomery Avenue, and a High-Intensity Activated Crosswalk (HAWK) beacon at Scott Boulevard/Coronado Avenue
- Completed the following traffic Capital improvement projects: Agnew and De La Cruz Signal Timing, Lafayette Signal Timing, Homestead and Lick Mill Signal Timing and Safe Routes to School Infrastructure Improvements projects
- Completed construction of the following capital improvement projects: 2018 Pavement Surface Treatment, Fueling System Improvements at Fire Stations, Corporation Yards and Parks Service Center, San Tomas Expressway, Monroe Street Park, Community Garden, Mission Branch Library Remodel, Northside and Rabello Pump Stations Flow Meter and Force Main Appurtenances
- Provided effective construction management, construction inspection, surveying, materials testing and administration services for approximately 18 capital improvement projects and approximately 575 encroachment permits
- Completed design work for the following capital improvement program projects: Reed Street-Grant Street Sports Park, Fire Stations and Corp Yard Fuel System Improvement, Northside and Rabello Flow Meter and Force Main Appurtenances, Agnew Park Rehabilitation, 2019 Pavement Rehabilitation, Westside Retention Basin Pump Replacement and Police Department Chiller Replacement
- Initiated a Pavement Preservation Ordinance to better coordinate the City's pavement program and minimize trench cuts through newly paved or sealed streets
- Updated the City's Traffic Impact Fee Program and completed a Multimodal Improvement Plan for the City Place development project
- Conducted Community Rating System (CRS) five-year verification by the Federal Emergency Management Agency (FEMA)
- Maintained Tree City USA certification for the 32nd consecutive year
- Implemented paperless stormwater pollution prevention inspection process
- Installed 292 catch basin inlet full trash capture devices to achieve the State's 80% trashload reduction mandate by June 30, 2019
- Installed over 100 lane miles of traffic striping
- Incorporated Silicon Valley Power substation sites into the Department's landscape maintenance program
- Downtown Parking Maintenance District: seal and restripe both parking lots at Franklin Square (completed with the 2019 Pavement Rehabilitation project)
- Convention Center Maintenance District: sealed and restriped drive aisles and surface lot C (completed with the 2018 Pavement Rehabilitation project) and resurfaced non-slip coating in stairwells
- Successfully negotiated an amendment to the City's contract with Recology for collection of residential recyclables so the contract was aligned with the garbage contract that expires at the end of 2021
- Completed audits of non-exclusive franchise hauler quarterly franchise fee payments and compliance with mandatory commercial recycling and organics recycling requirements for FY 2016/17 and FY 2017/18
- Completed construction of the landfill gas flare replacement project
- Developed a Green Fleet Policy to assist with the purchase of new vehicles and to help manage the City's fleet
- Completed replacement of above ground diesel fuel tanks at Fire Stations 7, 8 and 9

- Installed Air Resources Board (ARB) compliant Phase II Vapor Recovery at three unleaded fuel sites
- Added Fire Stations 7, 8, and 9 to fuel management and fuel monitoring applications, eliminating the use of manual data entry for fuel transactions and monitoring
- Integrated the LCPTracker, a web based labor compliance monitoring system, to assist with monitoring State Prevailing Wage requirements

Significant Objectives

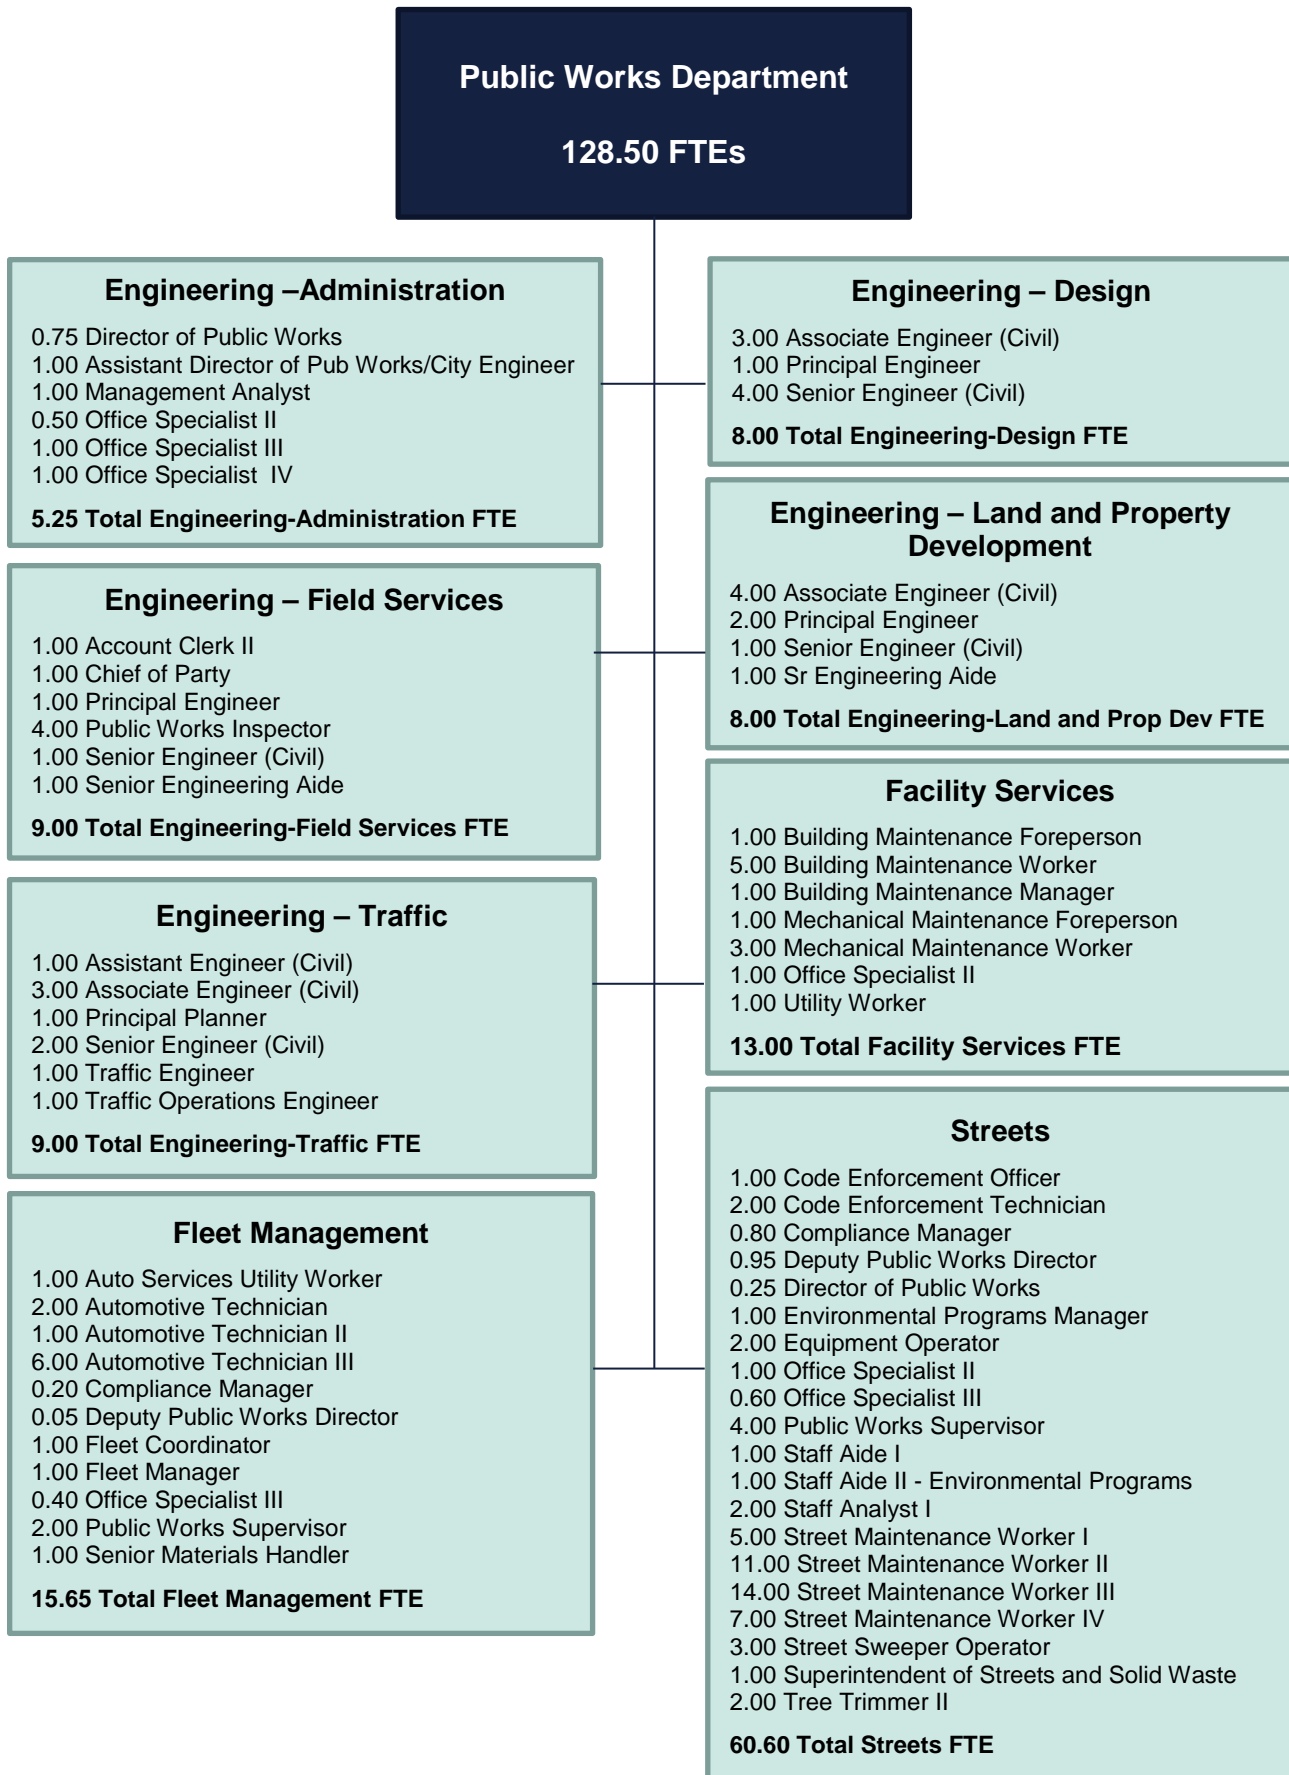

- Design: provide effective capital improvement project administration and development for projects, including Citywide Emergency Generators Replacement, Mission College Boulevard/Great America Parkway Intersection Improvements, Annual Street Pavement Rehabilitation Projects, Laurelwood Pump Station Improvement Project, Homeridge Park Playground Rehabilitation, Pruneridge-Lawrence Bicycle Lanes Improvements, Scott Boulevard Traffic Signal Timing and Interconnect, and various other sanitary sewer system, storm drain system, bridge and roadway improvement projects
- Field Services:
 - Provide effective construction management, construction inspection, surveying, materials testing and administration services for capital improvement projects and private development projects that construct City infrastructure
 - Provide on-time and on-schedule completion of projects for street rehabilitation, traffic signal, pedestrian-activated crosswalk beacon systems, sanitary sewer rehabilitation, and other capital projects
 - Provide construction inspection and coordination for private development-built City infrastructure, such as 575 Benton Street Mixed Use, 1525 Alviso Street Residential, 1890 El Camino Real Residential, 3200 Scott Boulevard Office, Camino Main Place (1480 Main), Catalina Residential (1375 – 1399 El Camino Real), City Place Santa Clara, Downtown Gateway (1313 Franklin Street), Gateway Cross (Coleman), Gateway Village (3700 El Camino Real), Lawrence Station - Kifer Road Multi-Family (Toll Brothers), Madison Place (1460 Monroe), Mission Park – Market Place, Santa Clara Square Residential, Santana Terrace Senior Apartments (100 N. Winchester), Summerhill Lawrence Station (3505 Kifer Rd.), Vantage Data Centers I and II and Westfield Valley Fair Expansion
- Land and Property Development:
 - Facilitate significant private development projects such as: Lawrence Station Area Plan at Kifer Road, Lawrence Expressway and Central Expressway, Tasman East Specific Area Plan at Lafayette Street, Calle del Mundo, Calle de Luna, and Calle del Sol, and City Place Santa Clara at Tasman Dr./Lafayette St./and Great America Parkway (on City's golf course) by providing effective and efficient processing of site clearances, subdivision maps, land title documents, public improvement plan checks and development fee collection
- Traffic:
 - Complete the following Traffic Engineering Projects: Update City's Bicycle Plan, Bowers Ave. Signal Timing, Benton Street Bike Lane Project, Lafayette Street Bike Lane Project, and City Creek Trail Expansion Master Plan
 - Develop parameters for a Bicycle and Scooter Share Program
- Facility Services:
 - Provide outstanding service to customers, which will include all types of requests such as janitorial repair needs and new infrastructure requirements with the objective to respond to every customer in a timely basis with quick turnaround on projects and repairs
- Solid Waste:
 - Conduct successor exclusive franchise agreement negotiations with current solid waste service providers for residential and commercial garbage, organics and recycling services to begin services in January 2022, which will include organics recycling services for all customers

- Identify opportunities for future mixed waste processing capacity and the potential of expanding the food scrap recycling program to commercial businesses
- Implement the next iteration of non-exclusive franchise agreements for collection, processing and disposal of solid waste generated at properties zoned for industrial use, requiring haulers to provide bundled service that includes garbage, organics recycling and commercial recycling to all customers served to achieve compliance with the State's and City's mandatory commercial recycling and organics recycling requirements
- Convention Center Maintenance District:
 - Continue improvements to the grounds, surfaces, and garage structure and further asphalt repairs and seal of parking lots (surface lots P, Q, R, S, and V to be completed summer 2019)
 - Landscape enhancements around Techmart and Convention Center that include repairing fountains
 - Seal and repair rust damage at rail footings on garage third floor and bridge to the Convention Center
 - Clean grease and oil from garage parking spaces
- Downtown Parking Maintenance District:
 - Provide reliable and effective street sweeping and grounds maintenance service at the Franklin Square
- Vehicle Replacement:
 - Hire a fleet consultant to perform evaluation and recommendations on fleet policies in relation to operations and the City Manager Directives, fleet size to ensure effective usage and optimal availability and vehicles that are not included in the current vehicle replacement schedule
- Fleet Operations:
 - Maintain preventative maintenance (PM) compliance with manufacturers recommended intervals
 - Analyze the Division's organizational structure and potential for outsourcing the parts operation

Budget Highlights

- The Public Works budget includes the addition of one new position and the realignment of one existing position in order to better meet service demands
- The Solid Waste Program includes an additional Staff Analyst I to administer programs and reports required by the Short Lived Climate Pollutant (SLCP) regulations
- A vacant Associate Engineer is deleted and a Management Analyst is added to support department with analysis and interpretation of data and other information to improve reporting, compliance and service delivery efficiencies
- The Public Works budget includes the services of consultants to support internal functions, comply with State requirements and help enhance operations such as surveying services, Traffic Engineering to implement the transition of a Level of Service (LOS) to a Vehicle Miles Traveled (VMT) analysis required for determination of CEQA impacts per SB 743 and a review of Fleet Management programs and policies
- Funding is included to replace a reserve fire engine
- The Department is establishing a new internal service fund Public Works Capital Projects Management Fund that accounts for capital project management and delivery of services performed by staff working on capital projects with costs allocated to specific capital improvement programs of the City

		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Replace Reserve Fire Engine	0.00	675,000	0	0	0

Program: 2111 – Fleet Acquisitions

This action funds the replacement of a 24-year old reserve fire engine and adds the apparatus to the replacement schedule managed by the Fleet Management Division. Funding of \$250,000 is provided from the Vehicle Replacement Fund and \$425,000 from the General Fund. Ongoing costs for the replacement fire engine are budgeted in the Fire Department.

Performance Impact

The replacement will provide the Fire Department with a newer fire engine which will increase the reliability of the fire engine fleet.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Surveying Services Consultant	0.00	265,000	0	197,000	0

Program: 4461 – Field Svcs-General Services

This action provides funding for project design surveying and support for two years while the full-time City employees assigned to perform these tasks can focus on increased construction engineering and administration support workload. Existing City resources will focus on the implementation of capital projects management software, and also to fully establish a labor compliance (prevailing wage) monitoring and enforcement program. In addition, the capital project construction workload has increased compared to prior fiscal years.

Performance Impact

Consultant funding will allow the department to focus on high priority projects that are expected to enhance the City's capital project management and improve project delivery.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Solid Waste Program Staffing	1.00	0	152,382	0	162,416

Program: 2931 – Solid Waste – Garbage Collection

The State adopted Senate Bill 1383, which requires the development of Short Lived Climate Pollutant (SLCP) regulations requiring jurisdictions to implement new organic waste diversion programs. The SLCP regulations will require the implementation of a variety of programs that enhance sustainability. The regulations that are being developed mandate jurisdictions to implement organic waste collection programs, an edible food recovery program, procurement of recovered organics and recycled content paper, an Ordinance in compliance with Cal Green Building Code standards, educational outreach on organic waste diversion programs, and inspection and enforcement programs. They mandate stringent annual data tracking and reporting requirements on all of the requirements. The addition of 1.0 Staff Analyst I position to the Solid Waste program is needed to manage these programs. The new staff will also help expand the City's Adopt-a-Spot community beautification program, grow the City's participation in the Countywide Green Business Program and administer new successor agreements for the solid waste collection services that will include organics waste diversion programs.

Performance Impact

Dedicated staff will ensure compliance with the SLCP regulations and the variety of City's Solid Waste programs that enhance sustainability.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Level of Service (LOS)-Vehicle Miles Traveled (VMT) Transition Traffic Consultant	0.00	65,000	0	65,000	0

Program: 4431 – Traffic – General Services

This action funds a consultant to work on Senate Bill 743 (SB743) requirements to transition from Level of Service (LOS) to Vehicle Miles Traveled (VMT) for traffic management standards. This will include developing new standards, process, policy, coordination with adjacent agencies and necessary public outreach as part of the transition. The State has given jurisdictions until June 2020 to develop and adopt procedures and policies regarding VMT analysis. The consultant will also work on coordination with the City of San José on development per the North San José Area Development Plan and their amendment in 2019. Lastly, the consultant will be to assist City staff in monitoring City of San José conformance with the Santana West Settlement Agreement and CityPlace Settlement Agreement.

Performance Impact

Funding ensures the compliance to the SB743 requirements and provides expertise that is not available within the department.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Fleet Management Consultant	0.00	62,500	0	0	0
Program: 2123 – Fleet Operations					
This action provides funding for a consultant to evaluate three areas of fleet operation including fleet policies, fleet size and any vehicles that are not included in the current replacement schedule. Policies and procedures of fleet management need updating to more efficiently deliver the City's vehicle operations.					
Performance Impact					
Updates to fleet policies and City Manager Directives, bringing forward recommendations to right-size the existing fleet and implementing fleet telematics and ride sharing is expected to reduce costs and enhance fleet operations.					
Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure					

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Engineering Administration Analytical Staffing	0.00	0	10,680	0	7,693
Program: 4411 – Engineering Administration					
This action deletes 1.0 Associate Engineer position and adds 1.0 Management Analyst who will assemble, analyze and interpret data and information related to the Department's operations and services. The Department does not have dedicated staff to do analytical work which is currently being provided by various engineering positions on an ad-hoc basis. This action centralizes the monitoring and reporting functions supporting the Public Works Department's various divisions including tracking and reporting for multiple restricted revenue sources such as impact fees, connection fees, utility fees and recently approved pavement rehabilitation monies from the County and State.					
Performance Impact					
The position increases the analytical function of the Public Works Department and ensures reporting and expenditure compliance of various restricted revenue sources. This position will perform analysis and interpret quantitative data and other information related to the department's operations resulting in improved service delivery and realizing operational efficiencies.

Water and Sewer Utilities Department

Department Mission

Provide customers with a dependable and healthy supply of both potable and recycled water; and collect, treat and dispose of wastewater in an efficient, cost-effective and environmentally safe manner. Deliver services with a focus on outstanding customer service

This page is intentionally left blank.

Water and Sewer Utilities Department Description

The Water and Sewer Utilities Department is a utility enterprise which provides planning, design, construction, maintenance and operation of the City's water distribution system, sewer collection system and recycled water system. The three utility funds, water, sewer and recycled water, operate independently and charge rates to recover the costs of providing these services to Santa Clara residents and businesses, including capital investment in City infrastructure and funding of needed reserves.

In 2018, the Water Utility produced and distributed 6 billion gallons of water to approximately 27,000 service connections. Of the total water supply, 47.0% is obtained from the City's own wells; 34.3% is treated water purchased from two wholesale potable water agencies; and 18.7% is from recycled water delivered through the South Bay Water Recycling system. The Department provides for the design, construction, distribution, metering and quality monitoring and system maintenance for both potable and recycled water. The Department provided for the collection and conveyance of wastewater for approximately 27,000 accounts and assessment, maintenance or repair for more than 277 miles of sewer mains as required. The Department constructs, operates and maintains the recycled water system within the Santa Clara city limits. This recycled water system distributes highly treated wastewater for non-potable use.

Other activities include:

- Design and construction of new recycled water pipelines by City forces
- Provide connection of water services for landscape irrigation of commercial and industrial sites, City parks and school fields
- Contract management for construction of new South Bay Recycled Water pipelines
- Coordinate planning efforts for the future expansions of recycled water systems in Santa Clara County (County)
- Maintain compliance with State regulations through development plan reviews and site inspections

The Sewer Utility operates and maintains a sanitary sewage collection system which collects and conveys wastewater to the jointly-owned San José-Santa Clara Regional Wastewater Facility (RWF) for treatment and disposal. The Sewer Utility maintains sewer pump stations and assists the Public Works Department in the operation and maintenance of the storm pump stations. Additional services are: property line clean-outs installed for access to maintain residential sewer laterals; maintain seven sanitary and twenty-one storm water pump stations to ensure reliable service; assist the industrial waste inspectors from the RWF with investigations of City industries; and implement Sanitary Sewer Management Plan as submitted to the State and Regional Water Quality Control Board.

Bonds are issued to mitigate rate increases while allowing for the repair and replacement of critical infrastructure. Proceeds from outstanding debt were being used to pay for repairs and rehabilitation of the Trimble Road Sanitary Sewer main trunk and will be repaid over the next 13 years.

Divisions and Services

The Water and Sewer Utilities Department is organized into five Divisions: Solar Utility; Water Construction, Maintenance, Operations; Water Engineering; Recycled Water Program; and Sewer.

Solar Utility Division Mission	Provide installation and maintenance of solar heating systems for commercial, residential and pool water heating.
Division Objectives	<p>Maintain more than 162 swimming pool systems.</p> <p>Maintain nine domestic solar hot water systems.</p>
Water Construction, Maintenance, Operations Division Mission	Operate and maintain the Water Utility in the most efficient manner and assure that the approved levels of service are met.
Division Objectives	<p>Increase reliability of the water system through the replacement of obsolete mains and appurtenances.</p> <p>Complete the design, construction, and installation of approximately 10,000 linear feet of water main.</p> <p>Construct, repair, and/or rehabilitate at least two water wells to continue to provide reliable water service.</p>
Water Engineering Division Mission	Provide Engineering services that improve and protect the water supply and distribution system while planning for future expansion and upgrades to infrastructure to ensure future reliability.
Division Objectives	<p>Continue to improve the seismic safety of water utility system.</p> <p>Continue the use of innovative technology to optimize the management of City water assets and appurtenances.</p> <p>Construct improvements to Santa Clara Valley Water District Turnout.</p> <p>Undertake engineering studies of the condition and reliability of water system assets.</p>

**Recycled Water
Program
Division Mission**

Provide for the safe, efficient and reliable distribution of sustainable and high quality recycled water which meets all requirements of State regulations and local codes. Deliver services in a cost effective and efficient manner with a focus on outstanding customer service.

Provide connection of water services for landscape irrigation of commercial and industrial sites, City parks and school fields.

Coordinate contract management for construction of new South Bay Recycled Water pipelines.

Division Objectives

Coordinate planning efforts for the future expansions of recycled water systems in the County, and coordinate and compile semi-annual site inspections as required by the State.

Maintain compliance with State regulations through development plan reviews and site inspections.

Design, construct and maintain recycled water pipelines.

**Sewer
Division Mission**

Collect, treat and dispose of wastewater in an efficient, cost-effective and environmentally safe manner. Provide for maintenance of storm water pump stations. Deliver services at approved levels in a cost effective and efficient manner with a focus on outstanding customer service.

Property line clean-outs installed for access to maintain residential sewer laterals.

Maintain seven sanitary and twenty-one storm water pump stations to ensure reliable service.

Division Objectives

Assist the industrial waste inspectors from the RWF with investigations of City industries.

Implement Sanitary Sewer Management Plan as submitted to the State and Regional Water Quality Control Board.

Clean, assess and repair sanitary sewer mains.

Significant Accomplishments

- Continued outreach, inspection, and code enforcement of Food Serving Establishments (FSEs) as part of the administration of Fats, Oils, and Grease (FOG) Program
- Ongoing Supervisory Control and Data Acquisition (SCADA) replacements and process control improvements
- Updated Water and Sewer Rate Study to inform customer service charges for new fiscal year
- Completed the assessment by closed circuit television (CCTV) of approximately 250,000 linear feet of sewer line
- Jet flushed approximately 112,000 linear feet of sewer main
- Completed the in-house design, construction and installation of over 10,000 linear feet of water main
- Completed hydraulic model for fire flows and fire service analyses as well as supply assessment and long term planning
- Major development plan review by engineering staff for Lawrence Station, Tasman East Specific Plan, City Place/Related and others
- Tested over 1,800 backflow devices as part of comprehensive cross-connection control program

Significant Objectives

- Complete the construction and installation of approximately 10,000 linear feet of water main
- Complete the rehabilitation of four City water distribution wells
- Utilize findings of Well Feasibility Study to begin the design process for two new water wells
- Complete the rehabilitation of three Serra Tanks, each with a capacity of over 4 million gallons
- Optimize the recycled water system while focusing on expansion opportunities with regional partners
- Continue to repair or rehabilitate the most severely impacted sewer mains, based on accepted rating criteria
- Clean and assess the condition of over 585,000 linear feet of sanitary sewer main
- Continue robust sampling and cross connection programs to ensure water quality meets State and federal standards

Budget Highlights

- Realignment of 1.0 Senior Civil Engineer and 1.0 Assistant Engineer from 1.0 Senior Water Utility Engineer and 1.0 Water and Sewer System Operator
- Additional resources added to the Water and Sewer Utilities Department's Tank Rehabilitation capital improvement program project
- One-time funding to implement additional Advanced Metering Infrastructure meters

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Tank Rehabilitation Capital Project Adjustment	0.00	1,420,000	0	2,420,000	0

Program: 1423 – Water Construction

This action increases the transfer from the Water Utility Operating Fund to the Water Utility Capital Fund, for the Tank Rehabilitation capital improvement program project, as a result of higher than anticipated design estimates. This transfer will provide funding for an agreement for engineering design services for the rehabilitation of three welded steel Serra water storage tanks. The scope of work includes the review of the existing site conditions and preparing plans and specifications for the tank rehabilitation to meet regulations and Occupational Safety and Health Administration (OSHA) code requirements.

Performance Impact

This funding will enable the Water and Sewer Utilities Department to ensure water storage tank compliance to all regulations and code requirements.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Advanced Metering Infrastructure Implementation	0.00	220,000	0	0	0

Program: 1423 – Water Construction

This action adds one-time funding for the Advanced Metering Infrastructure (AMI) implementation. These funds will enable the Water and Sewer Utilities Department to purchase additional AMI compliant meters in tougher to read routes. The Department will be coordinating with Silicon Valley Power (SVP) and Municipal Services to prioritize installation in these areas.

Performance Impact

This funding provides for more resources for AMI implementation so the City can gather data more efficiently.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Tuition Reimbursement Program	0.00	0	20,000	0	20,000

Program: 1411 – Water Engineering - Administration
1511 – Sewer – System Administration

This action provides funding for Water and Sewer Utilities Department employees participating in the City's Tuition Reimbursement Program. The City Manager's Office introduced the Working Scholars Program in February 2019. This program offers eligible employees with educational benefits in the form of reimbursements for educational courses which maintain and improve the employees' skills in their current positions and/or for potential promotional opportunities. Tuition reimbursement applies to education or training employees choose to take and complete on their own time. The course work must also improve the employee's skills and knowledge as required by the employee's present position; benefit the employee's professional development as a City employee; or enhance the employee's career development with the City of Santa Clara.

Performance Impact

The Tuition Reimbursement Program will help develop and expand current staff skills, resulting in a more knowledgeable and efficient workforce.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Realignment of Position Classifications	0.00	0	(4,776)	0	(5,456)

Program: 1411 – Water Engineering – Admin
1424 – Water System Operations

This action adds 1.0 Senior Civil Engineer and 1.0 Assistant Engineer and deletes 1.0 Senior Water Utility Engineer and 1.0 Water and Sewer System Operator. The two positions that are proposed to be deleted have made it difficult for the Water and Sewer Utilities Department to attract recruits due to the specialized nature of the title and classification. By using a more generalized classification, the Department expects to attract a larger applicant pool, and also address the critical need for additional engineering staff. The updated classifications provide more flexibility to the Department as well, allowing the positions to not only work on water specific projects, but sewer as well.

Performance Impact

The reclassifications of these two positions will enable the Department to address broader engineering needs across the divisions.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Non- Departmental

Department Mission

Provides transparency of expenses that are citywide in nature and oversight of general administration of initiatives, programs and activities

This page is intentionally left blank.

Non-Departmental Description

The Non-Departmental budget provides a way to report expenditures which are not attributable to a single department, but are citywide in nature or to break out specific operational costs. This budget also houses key positions with citywide functions and responsibilities.

Divisions and Services

Non-Departmental has three primary areas: Citywide Programs; Citywide Strategic Planning and Initiatives; and Stadium Operations. The Debt Service budget information is reflected in the Debt Service section of this document.

Citywide Programs Division Mission	Provides transparency for expenses which are not attributable to a single department, but are citywide in nature.
Division Objectives	Provide funding for community grants, utilities at citywide facilities, and transactions to fund the City's approved Capital Improvement Program (CIP).
Citywide Strategic Planning and Initiatives Division Mission	Provides oversight to and general administration of initiatives, programs and activities with citywide functions and responsibilities. These include the Santa Clara Stadium Authority and Santa Clara Convention Center, risk management, sustainability, real estate management and public records.
Division Objectives	Develop citywide programs and processes related to risk management, sustainability, real estate management, and public records that are consistent with best practices. Lead efforts related to the development of a new destination marketing organization (DMO) that will work closely with the Convention Center and the Tourism Improvement District (TID) to provide convention and visitor services in Santa Clara; while ensuring the alignment of marketing and booking goals between the Convention Center and TID.

Stadium Operations Division Mission

Provides general and administrative support to the Santa Clara Stadium Authority in its oversight and deployment of resources at Levi's Stadium events. Implements public safety plans during National Football League (NFL) games and non-NFL events held at Levi's Stadium to protect patrons and citizens in and around the stadium.

All General and Administrative, Police, Fire and Public Works Departments expenditures specific to the stadium are included in this division. In addition, the reimbursements from the Santa Clara Stadium Authority and the Forty-Niners Stadium Management Company, LLC (Stadium Manager) and other stadium related revenues such as ground and performance rent, are reported in this division, but displayed separately in the General Fund revenues section of this document.

Uphold Santa Clara Stadium Authority fiduciary responsibilities and debt obligations transparently.

Maintain a productive and functional business relationship with Forty-Niners SC Stadium Company, LLC as tenant of Levi's Stadium.

Division Objectives

Develop and implement oversight initiatives consistent with public entity organizations.

Provide support from the Police, Fire, and the Public Works Departments to maintain a safe environment in and around Levi's Stadium during NFL games and non-NFL events.

Significant Accomplishments

- Citywide activities and functions, formerly housed in the City Manager's Office, will be captured in this newly created Citywide Strategic Planning and Initiatives Division
- The Citywide functions assigned to this category are public records, management, risk management, Convention Center and Tourism Improvement District (TID) oversight, real estate/property management, sustainability program, Stadium deployment oversight and support, Public Safety Stadium Training Program, and support of specified citywide initiatives

Significant Objectives

- Continue to build and maintain a productive and functional business relationship with Forty-Niners SC Stadium Company, LLC as tenant of Levi's Stadium and Forty-Niners SC Management Company, LLC as operator of Levi's Stadium in accordance with the applicable agreements
- Continue to provide oversight of the management of the Convention Center and ensure alignment of marketing and booking goals between the Convention Center and TID
- Lead efforts in the development of a new destination marketing organization (DMO) or Convention-Visitor Bureau (CVB) that will work closely with the Convention Center and the TID to provide convention and visitor services in Santa Clara
- Develop a comprehensive real estate program to manage City-owned properties, promote economic development, and generate revenue for the General Fund
- Develop a comprehensive citywide sustainability program that oversees current sustainability initiatives and expands on sustainability efforts
- Develop a citywide risk management program (e.g. workplace risk, contractual risk, insurance requirements, etc.)
- Continue to invest in training City employees to ensure that they are prepared to deliver effective and efficient services to the Santa Clara community through various efforts, such as the Working Scholars program and Quarterly Management Meetings

Budget Highlights

- Addition of 1.0 Assistant to the City Manager to act as the City's Real Estate Manager responsible for centralizing and managing the City's real estate function. The Housing special revenue funds will fund 70% of this position, with the remaining 30% funded by the General Fund; additional funds for this program include one-time funding of \$40,000 for as-needed staff to conduct an inventory of City properties and \$50,000 for real estate software procurement
- Addition of 1.0 Deputy City Manager to oversee all Stadium-related functions and lead multi-department coordination for Stadium-related items; it is anticipated that 75% will be reimbursed by the Stadium and the remaining 25% will be funded by the General Fund
- Addition of 1.0 Assistant to the City Manager to act as the City's Sustainability Officer responsible for overseeing the implementation of Climate Action Plan (CAP) strategies; this position will also work closely with Silicon Valley Power, Water and Sewer Utilities, Public Works and Community Development Departments to oversee current sustainability efforts
- Addition of 1.0 Office Specialist III to provide dedicated support to the City's Risk Manager in the continued development of a citywide risk mitigation program
- Elimination of the Santa Clara Convention Center and Convention Visitors Bureau budget subsidy due to the City's termination of the Santa Clara Chamber of Commerce and Convention-Visitors Bureau (Chamber) Convention Center Management Agreement
- Addition of funding to provide specialized law enforcement training related to events at Levi's Stadium, creating a standardized training program, in compliance with Police Officer Standards and Training (POST) requirements; and all trainings are reimbursed by the Stadium
- Includes one-time funding of \$400,000 for third-party consultants to evaluate the City's revenue position and to perform a cost-benefit analysis of the City's current information technology services, and \$50,000 for outreach and engagement related to Measure N that asks voters whether the City should engage voters in a public process to amend the City Charter to change the method of election from at-large to by-district for City Councilmembers

- Summary of the Santa Clara Stadium Authority Budget¹:

Revenue	FY 2019/20 Proposed
NFL Ticket Surcharge	8,142,000
SBL Proceeds	25,416,000
Interest	938,000
Net Revenues from Non-NFL Events	5,796,000
Naming Rights	6,754,000
Sponsorship Revenue (STR)	345,000
Rent	24,762,000
Senior and Youth Program Fees	230,000
Non-NFL Event Ticket Surcharge	1,232,000
Total Revenue	73,615,000

Expenditures	FY 2019/20 Proposed
Stadium Operations	4,004,000
Engineering	2,054,000
Guest Services	825,000
Groundskeeping	177,000
Security	1,656,000
Insurance	2,956,000
Stadium Management Fee	232,000
SBL Sales and Service	2,221,000
Senior and Youth Program Fees (paid to City)	230,000
Ground Rent (paid to City)	355,000
Performance Rent (paid to City)	2,721,000
Discretionary Fund Expense	250,000
Utilities	1,551,000
Use of StadCo Tenant Improvements	182,000
Stadium Authority General and Administrative	2,480,000
Other Expenses	200,000
Transfers Out	51,183,000
Contribution to Operating Reserve	338,000
Total Expenditures	73,615,000

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Real Estate Management Resources	1.00	90,000	331,006	0	351,442

Program: 3631 – Citywide Strategic Programs and Initiatives

This action centralizes the City's real estate function through the addition of a City Real Estate Manager (1.0 Assistant to the City Manager), one-time funds for as-needed staff (\$40,000) to inventory the City's properties in a central database, and real estate software procurement (\$50,000). The City currently has a Housing Division Manager position in the Community Development Department that is responsible for the management of various federal and State programs, coordination of the City's participation in housing finance programs, and oversight of the housing rehabilitation programs and agency contract administration. The new Real Estate Manager position will perform the current duties of the Housing Division Manager and will also manage the City's real estate portfolio. In conjunction with this proposal, the Community Development Department includes an action to delete the Housing Division Manager position and add a Management Analyst to act as support staff to the Real Estate Manager. The Real Estate Manager will be funded 70% by Housing's special revenue funds and 30% by the General Fund. In addition, the Fiscal Year 2018/19 Adopted Operating Budget included funding to procure real estate management software as part of a citywide initiative. The City was unable to procure the software in Fiscal Year 2018/19 and will be carrying this amount over to Fiscal Year 2019/20 to acquire the needed software.

Performance Impact

The 1.0 Assistant to the City Manager position and the one-time funding provided will increase capacity for the City's real estate management function.

Strategic Pillar: Promote and Enhance Economic and Housing Development

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Stadium Management Oversight	1.00	0	363,109	0	375,188

Program: 3631 – Citywide Strategic Programs and Initiatives

This proposal adds 1.0 Deputy City Manager to oversee all Stadium-related functions. Currently, various City staff allocate portions of their time to the Stadium; however, because this staff is spread amongst nine departments, the tracking of time spent and services provided to the Stadium has been difficult. Adding the Deputy City Manager position will provide a dedicated resource to coordinate with the multiple departments that work on Stadium-related items and to more accurately report on the staff time spent as well as what services are being provided by each City department. In addition, this position will help to coordinate Police and Fire deployment for Stadium events. This position is expected to be reimbursed 75% by the Stadium, with the remaining 25% funded by the General Fund.

Performance Impact

The addition of this position will enable current staff working on Stadium-related items to shift their focus to their regular duties as well as centralize the City's Stadium function.

Strategic Pillar: Ensure Compliance with Measure J and Manage Levi's Stadium

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Sustainability Officer	1.00	0	315,498	0	334,945

Program: 3631 – Citywide Strategic Programs and Initiatives

This action adds 1.0 Assistant to the City Manager to act as the City's Sustainability Officer, consistent with the newly added sustainability strategic pillar approved by City Council. The City of Santa Clara approved a Climate Action Plan (CAP) in December 2013, which provides guidance on creating a more sustainable, healthy, and livable community. The Sustainability Officer position will help address and oversee the strategies that are outlined in the CAP and make improvements to the City's current plan. Additionally, this position will work with Silicon Valley Power to evaluate energy efficiency programs and the Water and Sewer Utilities Department to focus on having a sustainable water supply. The Sustainability Officer will also coordinate with the Public Works and Community Development Departments regarding using sustainable materials, reducing waste, addressing new building requirements and monitoring the Transportation Demand Management program. This position will be funded in the General Fund; however, reimbursed primarily through eligible utility funds and building inspection fees.

Performance Impact

The addition of this position will provide the City dedicated resources to not only manage the City's strategies to improve sustainability efforts, but to also enhance the sustainability program by coordinating with departments citywide.

Strategic Pillar:  Sustainability

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Risk Management Program Resources	1.00	0	120,126	0	129,825

Program: 3631 – Citywide Strategic Programs and Initiatives

This proposal adds 1.0 Office Specialist III to support the Risk Manager position approved in the FY 2018/19 Adopted Operating Budget. Currently, the Risk Manager does not have support staff dedicated to the risk function to assist with administrative tasks including updating insurance policy renewals, subrogation of claims and supporting the citywide risk management function. Providing this additional resource will enable the Risk Manager position to focus on higher level tasks such as establishing more robust risk management policies and procedures, managing insurance policies, ensuring compliance with federal, State, and local regulations, and reviewing contracts and making recommendations pertaining to risk transfer, indemnification, and insurance requirements.

Performance Impact

This position will provide more resources to create a stronger risk management program for the City.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Capital Improvement Program Project Adjustments	0.00	2,034,820	0	0	0

Programs: 1134 – Parks-Buildings
1317 – Customer Development and Project Management – Fiber Program
2951 – Parkways and Boulevards-Landscape
4443 – Design-Capital Projects
7822 – Protection – Emergency Response

This action increases the transfer from the Capital Projects Reserve to the Capital Improvement Program. Of this amount, \$650,000 will be transferred to the Storm Drain Fund for two existing projects: Fiber Development, Design, and Expansion and Westside Retention Basin Pump Replacement Project. An additional \$1,137,000 will be transferred to the Public Buildings Fund for the Street Corporation Yard Renovation as well as a new project for Civic Center Office/Cafeteria Renovations. Of the remaining amount, \$127,820 will be transferred to the Parks and Recreation Capital Fund for the new Bowers Roof Replacement Project and \$120,000 will be transferred to the Fire Capital Fund for Protective Equipment Replacement project.

Performance Impact

This additional funding being provided to various capital improvement program projects will address maintenance and repair needs as well as allow for projects to be completed without major delays.

Strategic Pillar:  Deliver and Enhance High Quality Efficient Services and Infrastructure

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Public Safety Stadium Training Program	0.00	88,600	207,100	0	214,200

Program: 3622 – Stadium – Police

This proposal allocates funding for numerous specialized trainings related to events at Levi's Stadium, including firearms qualification, bicycle crowd control and operations, sniper courses, and incident command system training. These trainings are part of the Police Department's effort to create a standardized training program to ensure compliance with Police Officer Standards and Training requirements and to keep all staff working special events up-to-date with the latest policies and procedures. All trainings included in this program are fully reimbursed by the Stadium; therefore, there is no cost to the General Fund.

Performance Impact

These trainings will ensure that all special event officers working at the Stadium are up-to-date on the most recent procedures and trained to handle all situations arising at the Stadium in an appropriate manner.

Strategic Pillar:  Ensure Compliance with Measure J and Manage Levi's Stadium

Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Revenue Strategies Consultant	0.00	200,000	0	0	0

Program: 3631 – Citywide Strategic Programs and Initiatives

This proposal adds one-time funding for the City to bring on a third-party consultant to support the City's General Fund revenue strategies. The City's General Fund relies heavily on revenue sources that are volatile, including sales tax and transient occupancy tax. In anticipation of rising pension and liability costs, it is prudent for the City to develop a strategic work plan for expanding current revenue sources and exploring new revenue opportunities. Per Council direction from the January City Council Operational and Strategic Priority Setting Sessions, staff is developing revenue strategies for Council consideration to address ongoing deficits projected for Year 3 and beyond of the Ten-Year Financial Forecast, outside of this two-year recommended budget. Specifically, the City Council directed staff to explore increasing Transient Occupancy Tax or implementing a new Utility Users Tax. Additionally, staff will review an employee-based Business Tax and the possibility of issuing debt to replace aged infrastructure from new revenue sources. Consultant funding to poll for potential revenue strategies/tax measures, support the development of revenue options for Council consideration, informational community outreach, and legal analysis is included in this budget document.

Performance Impact

This funding will allow for the City to explore different revenue opportunities, providing additional insight to revenue strategies to plan for the City's future needs.

Strategic Pillar:

Promote and Enhance Economic and Housing Development

		FY 2019/20		FY 2020/21	
Title	Positions	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Information Technology Services Cost-Benefit Analysis Consultant	0.00	200,000	0	0	0

Program: 3631 – Citywide Strategic Programs and Initiatives

This action adds one-time funding to bring on a third-party consultant to perform a cost-benefit analysis of the City's current contract for information technology (IT) services. The City currently operates under an outsourced model to provide IT services citywide. The consultant will provide the City with an evaluation of its current methodology and make recommendations to ensure that the City is operating under the most efficient and effective model for IT services. Additionally, the City has seen a consistent need for resources dedicated to audio and visual services, which is a highly specialized field. One-time funds have been recommended in the Information Technology Department's budget to add an audio and visual engineer to the current IT service contract; however, the consultant will also be analyzing the City's audio and visual needs to determine the best method of bringing on this type of resource.

Performance Impact

This consultant will help the City determine what the most efficient and effective model is to deliver information technology services, resulting in enhanced IT service citywide.

Strategic Pillar:

Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Public Records Act Resources	0.00	120,000	0	0	0

Program: 3631 – Citywide Strategic Programs and Initiatives

This action adds one-time funding for as-needed staff to assist with public records act requests until ongoing technology improvements can be completed. As part of the Fiscal Year 2018/19 Adopted Operating Budget, the City added 1.0 Public Records Manager position to oversee and coordinate with departments to gather documentation pertinent to any public records requests submitted to the City.

Performance Impact

This additional resource will provide the Public Records Manager with more capacity to work on providing citywide public records education and training and developing a citywide public records disclosure procedure.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Tuition Reimbursement Program	0.00	50,000	0	0	0

Program: 3611 – Citywide Programs

This action adds one-time funding to the City's Tuition Reimbursement Program to cover reimbursement requests from eligible employees who participate in the Working Scholars Program. The City Manager's Office introduced the Working Scholars Program in February 2019. This program offers eligible employees with educational benefits in the form of reimbursements for educational courses which maintain and improve the employees' skills in their current positions and/or for potential promotional opportunities. Tuition reimbursement applies to education or training employees choose to take and complete on their own time. The course work must also improve the employee's skills and knowledge as required by the employee's present position; benefit the employee's professional development as a City employee; or enhance the employee's career development with the City of Santa Clara.

Performance Impact

The Tuition Reimbursement Program will help develop and expand current staff skills, resulting in a more knowledgeable and efficient workforce.

Strategic Pillar:  Manage Strategically Our Workforce Capacity and Resources

Service Level Changes

		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Measure N Outreach and Engagement	0.00	50,000	0	0	0

Program: 3611 – Citywide Programs

This action adds one-time funding for outreach and engagement related to Measure N. The Advisory Ballot Measure (also known as Measure N) was presented to voters during the November 2018 ballot. The measure asked voters whether the City should engage voters in a public process to amend the City Charter to change the method of elections from at-large to by-district for City Councilmembers. This was approved by the voters and this funding will provide more community outreach and engagement for the potential upcoming elections for several districts whose current Councilmembers are up for election.

Performance Impact

This funding will provide City staff more opportunities to connect with the residents to ensure transparency of voter approved legislation.

Strategic Pillar:

Enhance Community Engagement and Transparency

Service Level Changes

Title	Positions	FY 2019/20		FY 2020/21	
		One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)	One-Time Expenditures (All Funds)	Ongoing Expenditures (All Funds)
Santa Clara Convention Center and Convention Visitors Bureau Subsidy Elimination	0.00	0	(1,490,246)	0	(1,520,051)

Program: 3611 – Citywide Programs

This proposal eliminates the Santa Clara Convention Center and Convention Visitors Bureau budget subsidy due to the reorganization of the governance structure for the Convention Center and the Convention-Visitors Bureau (CVB). The City of Santa Clara entered into two separate agreements with the Santa Clara Chamber of Commerce (Chamber) to 1) manage and operate the Santa Clara Convention Center (1984) and 2) operate a CVB to provide marketing and convention/visitor services (annual contract).

In May 2018, the City Council directed staff to conduct a financial and performance audit of the Convention Center and CVB. Based upon preliminary and final audit findings the City did not renew the annual CVB contract and terminated the 1984 Convention Center Management Agreement effective March 2019.

After issuing a Request for Proposal and awarding a new management and operations firm for the Convention Center, it is anticipated that Convention Center operations will be self-supported through the Convention Center Enterprise Fund. In addition, it is anticipated that the combination of funds available in the Convention Center Enterprise Fund and the Tourism Improvement District will be sufficient to fund future CVB activities, allowing for the complete elimination of the budget subsidy.

Performance Impact

The new governance structure together with the new Convention Center and (anticipated) CVB agreements within the Convention Center Enterprise Fund will provide better and more transparent and accountable management and operations services for convention and visitor activity in Santa Clara that align to the City's contract management practices.

Strategic Pillar:

Deliver and Enhance High Quality Efficient Services and Infrastructure

Performance and Workload Measures

Non-Departmental

Other Agencies

Sports and Open Space Authority

The Sports and Open Space Authority of the City of Santa Clara (Authority) was created by the City Council in 1974 to establish a separate entity to acquire and develop open space within the City of Santa Clara. The validity of the Authority and its legal existence was established in 1975 by final judgment of the Santa Clara County Superior Court. The Santa Clara Golf and Tennis Club (SCGTC) was developed by the Authority on City-owned land and operated under a management agreement with a private company and a private restaurant facility at the Golf and Tennis Club leased to a private operator. In 1997/98, the City Council set aside approximately 40 acres of the former golf course site to be preserved and maintained as open space, and in 1999 the Authority approved the sale of 4.3 acres of the former golf course property to the City's Redevelopment Agency to be disposed of as a site for development of affordable housing.

The Authority plans to terminate operations of SCGTC in late calendar year 2019 and the land will be redeveloped into a mixed-use commercial/residential project. Post closure maintenance costs can be found in Non-Departmental expenditures of this budget publication.

Outside Group Funding

The City considers funding non-profit community organizations to meet significant community needs or address concerns of Santa Clara residents. Funding in any case is made on an individual basis dependent upon City budget limitation, past performance and services provided.

Community Organization	Department	Description	FY 2019/20	FY 2020/21
Bill Wilson Center	Community Development	Provides family and individual counseling and youth crisis intervention at local schools and grief support services, including individual and group counseling	80,000	80,000
Catholic Charities Long Term Care Ombudsman	Community Development	Monitors quality of care to elderly and disabled residents of long-term care facilities	10,000	10,000
Championship Team Trust Fund	Parks and Recreation	Funding assistance for championship teams/ individuals and sports affiliated groups to travel to state, national and international competition representing the City of Santa Clara	36,000	36,000
Heart of the Valley	Community Development	Provides transportation for seniors and disabled persons who are unable to travel by bus or other public transportation, collect demographic information on new paratransit clients and to coordinate and train volunteers for service delivery	10,000	10,000
Live Oak Adult Day Services	Community Development	Provides adult day care for dependent and disabled seniors	15,000	15,000
Miss Santa Clara Pageant	Parks and Recreation	Provides an opportunity to receive an educational scholarship	12,000	12,000
Next Door Solutions	Community Development	Provides case management for residents at HomeSafe Santa Clara, a transitional housing program for victims of domestic violence	20,000	20,000
Project Sentinel – Fair Housing	Community Development	Addresses complaints and undertakes investigation of illegal housing	23,000	23,000
Project Sentinel – Rent Mediation	Community Development	Provides advice, referrals, counseling, and mediation services to tenants and landlords to resolve disputes regarding rental arrangements	77,000	77,000
Saint Justin Community Ministry	Community Development	Provides food assistance to low/moderate income residents	17,500	17,500
Santa Clara Ballet	Parks and Recreation	Provides cultural, music, dancing, entertainment and performances	10,000	10,000
Santa Clara Chorale	Parks and Recreation	Provides community choral performances	5,000	5,000

Community Organization	Department	Description	FY 2019/20	FY 2020/21
Santa Clara County Healthier Kids Foundation	Parks and Recreation	Provides funding for areas of program focus	70,000	70,000
Santa Clara Players	Parks and Recreation	Provides theatrical performances for the entertainment and enjoyment of the community	5,850	5,850
Santa Clara Senior Nutrition	Parks and Recreation	Provides daily delivery of meals to severely disabled and homebound seniors	24,000	24,000
Santa Clara Swim Club	Parks and Recreation	Host swim meets which bring national and international visitors to our city	20,000	20,000
Santa Clara Unified School District Closed School Site Maintenance	Parks and Recreation	Provides funding to maintain turf at Curtis and Monticello school sites in order to provide community use of the athletic fields	36,000	36,000
Santa Clara Unified School District Extended Day Care/Latch Key Care	Parks and Recreation	Provides after school care for 3rd-5th graders at Bracher, Hughes, Montague, Pomeroy, and Scott Lane Elementary Schools	108,450	108,450
Senior Adult Legal Assistance	Community Development	Provides free legal services for seniors that include advice and referrals, document writing and legal representation	15,000	15,000
Silicon Valley Independent Living	Community Development	Provide residents with disabilities education and training on all aspects of how to conduct a housing search to transition from homelessness, healthcare facilities or unstable housing to independent living	15,000	15,000
Triton Museum	Non-Departmental	Provides artistic exhibitions and educational programs	295,560	295,560
United Way Silicon Valley - 2-1-1 Phone System	Community Development	Non-emergency information and referral for health and human services	5,000	5,000
YWCA of Silicon Valley	Parks and Recreation	Provides counseling, shelter and legal services for battered spouses and their families	15,000	15,000
Total Outside Group Funding			925,360	925,360

Santa Clara City Council Priorities – FY 2019/20

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
No Additional Funding Required					
1		Meeting Management and Council Meeting protocols	Councilmember Watanabe	None	The City Manager has implemented self-imposed restrictions on the number of General Business/Public Hearing items per agenda, as well as we have noticed the meeting to address some items at 6 p.m. The Governance Committee can recommend additional action as part of its Council Policy review.
2		Actively review unfunded liabilities	Councilmember Chahal		Financial impact of unfunded liabilities regularly reported.
3		Analyze City's budget in comparison with like nearby cities	Councilmember Chahal	None	Comparison of administration costs per capita per FTE included in Proposed Budget
4		Hold back on Kylli project until staffing issues are addressed	Councilmember Davis	None (applicant has paid \$191,810 in fees to support review).	Development services as a whole has experienced a high volume of work that exceeds capacity of staff.
Funded with Existing Resources					
5		San Jose development impacts on Santa Clara (North San Jose and Stevens Creek)	Mayor Gillmor	None. Staff is currently tracking this issue and recently sent a letter on March 25, 2019.	City is currently monitoring the Settlement Agreements and an update was provided to Council in late Jan 2019. Staff work is underway for additional updates.
6		Options to increase staff and budget for IT (1)	Councilmember Davis	2 vacant IT Manager positions & additional contract services proposed. Vacancies are in current budget, so no additional cost impact. However, staff is proposing in the proposed 19/20 budget more additional consultant services to stabilize services.	Staff is proposing a review of the current consultant contracts to ensure that the use of public funds is also maximized through outsourcing IT services. This work will build off of prior reviews.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Funded with Existing Resources					
7		Fire Department drone use for new construction	Councilmember Davis	\$3,000 ongoing (additional funding that may be required in PD for video storage) Expanding current scope to incorporate use in construction inspections may impact departments outside FD. Development of an administrative drone policy by end of FY2019/20.	
8		Traffic Mitigation Fees from Developers	Councilmember Chahal	None	The Traffic Mitigation Fee was updated and increased late last year as approved by Council.
9		Intelligent traffic lights using IOT	Councilmember Chahal	None, work in progress. Staff actively pursuing grants for this work.	Current technologies include Bluetooth/Wi-Fi Traffic Monitoring, Changeable Message Signs, Emtrac GPS Fire Preemption Installation, Fiber Optic Network installation, and Adaptive Traffic Signals. Worked with Intel to implement Dedicated Short Range Communications (DSRC) radio with autonomous vehicles at a traffic signal.
10		Synchronize traffic signals and explore more efficient traffic measures	Councilmembers Chahal & Hardy	None, work in progress.	Current projects include Lick Mill, Homestead, Lafayette, Bowers and Agnew/DeLaCruz. Staff currently watches for and applies for grants to fund the retiming of signal systems.
11		Implementation of Traffic Signal Management Software region-wide to improve overall smooth movement of traffic	Councilmember Chahal	None, work in progress.	Staff is already implementing a project to update the City's Traffic Signal Management Software so it is compatible with neighboring jurisdictions. VTA has also been a partner in discussions and evaluation of the system. Staff has been working with other agencies to develop a minimum traffic signal controller technology to facilitate interoperability amongst all jurisdictions within the County.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Funded with Existing Resources					
12		Support affordable housing - innovative solutions and funding sources	Councilmember Chahal	No additional staffing required. New pilot program to support Accessory Dwelling Units will include dedication of funding from City's Housing funds. Focus will be for teachers and public service workers.	Current proposals to explore Accessory Dwelling Units (ADU's) and increase enforcement of affordable housing compliance. Monitoring of legislation per the Council approved Legislative Advocacy Position.
13		Shelter and resources for those experiencing homelessness - collaboration with outside agencies	Councilmember Watanabe	No additional staffing required. Current allocations (FY2018/19): CDBG - \$52,500 Tenant Based Rental Assistance Program (TBRA) - \$1,258,000 Homeless case management (County) - \$125,000 Total allocated - \$1,435,000	City currently provides funding to the County to provide case management services and to third party providers for rental assistance and other services.
14		Protect business district on El Camino	Councilmember Chahal	None, work in progress as part of El Camino Real Specific Plan.	
15		Garbage program - food waste	Councilmember Hardy	None, work in progress.	Pilot program is underway. City is currently in active negotiations with our current service provider, and the item is scheduled to be back at Council in late 2019.
16		Bike & scooter policy	Councilmember Hardy	Regulation will need to be 100% cost recovery.	Council approved a work plan for this item on 1/29/2019 which will require approximately 6-8 months with the following timeline: <ul style="list-style-type: none"> • Develop draft ordinance and regulations - 2 mos. • Community and operator outreach - 2 to 2.5 mos. • Bicycle and Pedestrian Advisory Committee - 1.5 mos. • Finalize and Council approval - 2 mos. • Council could direct a 6 month check in to assess the operations of the program and make additional changes, if warranted.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Funded with Existing Resources					
17		Update fee schedule and policy for use of Community Spaces by the public: cost, availability, and procedure for community rooms citywide	Mayor Gillmor Councilmembers Chahal & Hardy	Consultant (Matrix CG) under contract to recommend fee schedule updates; staffing resources to review and update citywide procedures. 1) Policy discussion by Council regarding fee schedule will impact community room fees and City's ability to recoup costs. 2) Staff will review and update procedures for community room use based on Council direction.	In coordination with departments, Finance is currently updating the Municipal Fee Schedule including the full cost for community room rental for Council consideration (currently scheduled for May 21, 2019). The Library is currently evaluating a web-based solution that will allow users to book Community Rooms on line. The \$3.5K cost is already covered in the Library budget. This system is only designed for use with the Library's reservations, not citywide. Once Council provides direction on the fee schedule, staff will work to address concerns regarding community room procedure.
18		Business tax on large corporations	Councilmember Chahal	Absorbed within current Revenue Strategy workload for future Council deliberations.	Finance indicates more analysis needed and Council will need to evaluate this proposal as part of its overall revenue strategy. The Business License Tax in Mountain View was passed by 69% in Nov. 2018. It will assign a progressive increase to the annual fee paid by businesses based on number of employees, with tiers ranging from 1 to 5,000. Qualified nonprofits and small businesses are exempt and the tax will go into effect starting on January 1, 2020 (larger companies will be phased in between 2020 and 2022). Estimated to generate approximately \$6 million annually, based on current Mountain View Business Licenses (https://www.mountainview.gov/civicax/filebank/blobdload.aspx?BlobID=27147).
Pending Proposed Budget					
19		Climate Action Plan	Councilmember Chahal	Supported by proposed Sustainability Manager	While the City has made progress of various sustainable activities, we have not had a dedicated resource to holistically advance this needed initiative. This Plan can be administered with the proposed position.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Pending Proposed Budget					
20		Cybersecurity	Mayor Gillmor Councilmember Davis	\$280,000 one-time in FY 2019/20; \$160,000 one-time in FY 2020/21 (1) Security resources from our ITO service provider to strengthen our security program and remediate vulnerabilities (\$180,000 in FY 2019/20/\$60,000 in FY 2020/21) (2) Tools, process and technology to increase cyber incident identification and response capabilities (\$100,000 each year) 1.25 FTE for contracted services (Unisys)	The City has a formal Cybersecurity program in place to secure the City's information assets from cyber breaches and attacks. Funding is requested for additional service provider resources and cybersecurity capabilities in support of our efforts to keep City data secure and user data private, and to expand system capabilities.
21		Billboard Advertising Agreement	Mayor Gillmor	Assign to proposed new position (Housing and Real Estate Development Officer) to review agreement and perform additional research regarding options. No current revenue generated by agreement. Proposal from current vendor (AllVision) projects revenues from \$7.6M to \$26.5M over a 25-year term, depending on the option chosen by the City.	Work assignment will consume capacity of proposed position. With the pending expiration of the existing contract, this matter will need to be referred to future position for advisement on next steps.
22		Involve procurement team in the City's ongoing contracts and the renewal process	Councilmember Chahal	\$80,000 one-time Consulting services to enhance purchasing policies and procedures and support citywide training	The City has a decentralized procurement model and additional resources would be needed to centralize procurement. Accordingly, City's Procurement team has established a matrixed citywide procurement function with existing resources and is currently developing a plan for Citywide procurement policies and structure. The strategy is to continue with training on procurement, contracts, and overall efficiencies. Staff already has implemented training, rehailed processes and contract templates, and it will continue.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Pending Proposed Budget					
23		Citywide staffing levels	Mayor Gillmor Councilmembers Watanabe & Davis	\$120,000 - Consulting Services: Approximately \$20-\$30K per recruitment (one-time) - 1 FTE Office Specialist IV \$112,000 (ongoing)	Within limited financial resources, the FY 2019/20 Proposed Budget includes the addition of critical staff resources and one-time funding for consultant resources (a total of 15.5FTE is included in the Proposed Budget including support for real estate, sustainability, Reed and Grant Sports Park, stadium oversight, Attorney's Office real estate, Silicon Valley Power, communications, solid waste, housing, risk management, finance and human resources).
24		Options to increase staff and budget for IT (2)	Councilmember Davis	\$200,000 one-time in FY 2019/20; \$200,000 one-time in FY 2020/21 - 1 FTE from our contracted service provider to support audio visual needs, project management, and e-discovery	Intended to provide additional support needed in the areas of AV technology, e-discovery and project management. The request for AV technology support will also provide training and assistance citywide for AV equipment use.
25		Increase hours at Northside Library	Mayor Gillmor	\$5,000 ongoing 1 FTE (Librarian offset by deletion of Business Analyst)	Current Library hours: Mon-Tues from 11am-8pm; Wed-Sat from 10am-6pm Proposed hours: Mon-Tues from 10am-9pm; Wed-Sat from 10am-6pm; Sun from 1pm-5pm Total \$148.5K, of which \$143.8K is self-solved, leaving a cost impact of \$4.7K (\$131.0K Salary & benefits; \$7.5K Janitorial & Operating Supplies costs; \$10K As-Needed Budget)
26		Restroom at Fairway Glen Park	Mayor Gillmor	\$900,000-Design, construction, and maintenance of a restroom. One-time: Landscape/Building Architect \$150,000. Capital construction costs \$750,000 to \$1.0 M Ongoing costs \$9,685/year increase in as-needed park labor to open, close, clean.	

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Pending Proposed Budget					
27		Add Sustainability Manager	Councilmember Chahal	\$311,000 ongoing General Fund: \$63,000 Enterprise Funds: \$248,000 1 FTE	Funded by multiple departments. Sustainability Manager will assist with water conservation, recycled water opportunities, sanitary sewer discharge, electricity, transportation, garbage and recycling, building requirements.
28		Real Estate Asset Management - potential FTE addition	Councilmember Davis	\$215,000 ongoing (housing funds) \$90,000 one-time No net new General Fund costs; Centralizes Real Estate functions, deletes existing Housing Division Manager and adds one Management Analyst. 1 FTE	Staff has accomplished this goal with minimal impact to the General Fund and by piloting a new staffing approach.
29		Targeted and proactive community outreach	Mayor Gillmor	\$194,000 ongoing Web and Digital Media Manager 1 FTE	Council has prioritized media and news responsiveness and community access to information. With current resources, we are unable to expand communications services beyond more frequent electronic communications. However, adding 1 FTE and a consultant, as referenced earlier, provide a real opportunity to achieve the level of service that the Council desires.
30		Effective marketing of City resources to support transition to new convention center operator and ongoing tourism in the City	Mayor Gillmor	Partially included in current contract with new operator; additional support is available through existing TID. Council approved an Assistant to the CM and PT Office Specialist for oversight and monitoring of these contracts. These are resources that can be used to advance this objective, but capacity will be limited in light of the priority to put in place oversight/contract management, and working with Spectra, TID, and Destination Marketing Organization (DMO) services. Currently, there are no staff assigned to marketing, nor are there any designated City resources.	The ED, Marketing & Communications Committee recently referred to the City Council for approval a request to add funds for a consultant service that supports these type of services. Further funding depends on the future decision related to the governance structure of a new Destination Marketing Organization.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Pending Proposed Budget					
31		Explore options for small dog parks at existing parks	Councilmember Chahal	\$100,000 one-time Costs for similar facilities will depend upon design, potentially CIP of \$75-\$100K per facility. We would need to revisit as part of the capital budget planning process next year.	As the City reviews park and playground rehabilitation of existing parks, staff is exploring the feasibility (size, shape, location, operation & maintenance issues, cost) and neighborhood support for off leash dog areas in neighborhood parks. To date, Machado and Homeridge Park schematic design updates have Council approved off leash areas but no funding, while Parks & Recreation Commission recommended Marsalli Park, as well as a proposal to convert natural grass to synthetic turf at Raymond G. Gamma Dog Park. Maintenance of natural turf areas require periodic closure and additional cost for maintenance. San Tomas & Monroe area is being evaluated for use of synthetic turf.
Partially Funded					
32		City Hall space needs	Vice Mayor Mahan Councilmembers Watanabe & Davis	Staff is proceeding with an RFQ to select a consultant to develop a city hall masterplan and new utility building. Although the initial steps can be done with current staff, the program will require 1-2 added FTE. Consultant costs will be determined as part of the RFQ. Funding available to support new utility building.	Advance the RFP for the masterplan for the Civic Center and for near term construction of a new utilities building. Staff will return to Council with a status report and required next steps to proceed.
33		Fully implement PeopleSoft modules to increase efficiency of our financial data and reporting	Councilmember Chahal	\$147,768 one-time 1.0 FTE Management Analyst equivalent As Needed position for 1 year. (Estimated Cost: Unclassified, Salary Only \$114,390 – \$147,768)	Finance Department currently has some funding available to begin project planning for PeopleSoft. Human Resources Department would use consulting services to implement and activate various functionality and modules in PeopleSoft. Existing staff would need to be reallocated to this project.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Not Funded at this Time					
34		Commencing public discussion and planning for "Central Park North"	Mayor Gillmor	\$300,000 one-time (pre-build) \$51M one-time (build) \$941,150 ongoing (post-build) Consultant costs for Outreach/survey, Landscape Architect, Geotechnical consultant, CEQA \$5 million from developer for improvements per the DDA. Project is unfunded.	Avg construction cost/acre is currently \$1.33 x 35 acres = \$46,550,000. Over 20-year, phased build-out with 5% escalation \$56,791,000. This amount may vary based on actual park amenities approved. Unfunded Capital: \$51M; Unfunded Operating: maintenance cost per acre is \$26,890 x 35 = \$941,150.
35		Increase Senior Center hours	Mayor Gillmor	\$108,600 ongoing 1 FTE and as-needed staff	Current Senior Center hours: M-Th 7am-7pm; F 7am-5pm; Sa 9am-12pm Proposed hours: M-Th 7am-7pm; F 7am-5pm; Sa 9am-5pm; Su 12-5pm \$108,600/year (estimate \$75,600 for additional as-needed employees, \$15,000 contractual services, \$10,000 utilities, janitorial \$8,000. FT Supervisor cost minimal/adsorbed.) While the Center may be open additional hours, some areas of the Center will only be open on a staff available basis (i.e. natatorium lifeguards).
36		Develop "Love Santa Clara" program designed to promote improving the quality of life for Santa Clara residents	Councilmember O'Neill	\$189,404 ongoing 1 FTE Program support: \$50,000 (materials, outreach, scheduling meetings) Management Analyst: \$107,712-\$139,404	Could be similar to Neighborhood Outreach Programs in other cities. To support development and coordination of this proposed program, additional staffing is required at a Management Analyst level or higher due to high level of engagement with the community. Initial programming budget of \$50,000 proposed to support community meetings, assessment of resident needs, and development of collateral or outreach materials.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Not Funded at this Time					
37		Pursue revenue opportunities for Silicon Valley Power	Mayor Gillmor	\$50,000 one-time Retain consultants to research, develop and support possible advertising solutions, including any legal issues that will be required to be analyzed regarding advertising on City property.	Staff will continue to pursue electric vehicle infrastructure as part of the City's sustainability pillar (recent actions include consideration of a multi-city partnership and working with a private operator to install chargers in the right-of-way). However, chargers have limited revenue opportunity in Santa Clara due to our load. Under the base case scenario, electrical vehicle load will be less than 1% of the whole system. Regarding potential advertising on EV chargers, the City does not own the chargers; they are privately owned and operated but buy electricity from the City. The City does not own advertising rights to existing chargers. Additionally, staff will prepare a UUT proposal for Council to consider.
38		Innovative recruitment strategies for miscellaneous and public safety staffing	Mayor Gillmor Councilmember Davis	\$222,768 one-time 1 FTE Management Analyst Equivalent As Needed (one year) - \$114,390 - \$147,768 Consulting Services: \$50K - \$75K initially to fully assess the recruitment and selection improvements recommended by Management Partners and develop and implement the improvements needed to be more effective and efficient.	After conducting interviews with various stakeholders, including HR staff and departments, Management Partners concluded that the recruitment and selection processes and systems need improvement. This includes implementation of technology improvements, e.g., NeoGov (full capabilities); implementation of an onboarding system for new hires, which includes an interface with PeopleSoft and the CalPERS system; review of current policies and practices and update to streamline the hiring process; redesign recruitments for unclassified positions to streamline and expedite the process; produce a recruitment video about the benefits and opportunities of working for the City of Santa Clara; and evaluate pre-placement medical exams for sedentary positions. Unfortunately, staffing resources are currently limited, and additional staffing and/or consultant services would be needed to begin the review and implementation of these improvements.
39		Transportation Demand Management (TDM) penalties and measures	Councilmember Chahal	\$150,000 one-time Consultant to help develop TDM monitoring program options for consideration including level of oversight, development of penalties, outreach to property owners, legal analysis, and staff required to manage and conduct program.	The development of different programs and options will require a significant work effort. Staff will need a consultant to help develop TDM monitoring program options for consideration including level of oversight, development of penalties, outreach to property owners, and legal analysis. In addition, the consultant will help analyze how many additional staff will be needed to manage and conduct the monitoring program.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Not Funded at this Time					
40		Review standards for data centers for Power Utility Efficiency (PUE)	Councilmember Chahal	\$253,052 ongoing 1 FTE Electric Program Manager	It is possible to create a planning standard. However, it would need some flexibility and not a one size fits all unless we are looking to discourage all but a single type of build in the City. This would be a significant work effort (compliance with the requirements) and staff believe that the benefit would be limited as Data Centers are already incentivized to have the most efficient PUE they are able to achieve (best technology) for a location because that is how they price themselves and win their own market share.
41		RV Parking Ordinance to protect neighborhoods	Councilmember Chahal	\$100,000 one-time Estimated consulting services - \$100,000 to assess current regulations, review areas of opportunity and conduct community outreach. If signage is required, costs would depend on location and frequency.	Due to limited staff capacity, a consultant would need to be retained to review current regulations, develop options, conduct community outreach, and make recommendations based on best practices. Currently, staff in the Police Department would be able to absorb administration and enforcement of an ordinance or parking program once it is developed. Police Department staff spend considerable amount of time responding to calls about RV's, which are difficult to enforce within current regulations. Additionally, RV's are parked on public streets for many reasons and do not always involve persons living in the vehicle. Could check with City of Berkley's new ordinance and their process.
Partially Unknown Funding					
42		San Jose-Santa Clara Regional Wastewater Facility - improved operations and transparency of expenditures	Mayor Gillmor	None. Staff is currently tracking this issue. Possible cost reductions with efficiencies and improved management of projects could reduce costs. There will be costs for litigation.	Water & Sewer Utilities staff has been working closely with San Jose and Tributary Agencies and has made strides in improving transparency related to operations, CIP projects, and expenditures along with collaboration and communication. Those efforts continue through our involvement with the Treatment Plant Advisory Committee and other ancillary meetings and outreach. Santa Clara is a party to the lawsuit as a co-owner of the treatment plant. The tributary agencies filed a lawsuit on March 23, 2018, and Santa Clara recently completed providing "Response to Plaintiffs for Production of Documents first set of requests for production discovery information". Discussion with CAO should occur regarding lawsuit strategies going forward. However, San Jose, Milpitas and Santa Clara have discussed the need for an audit regarding expenditures.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Partially Unknown Funding					
43		Outreach to large employers to provide free shuttles/commuter buses	Councilmember Chahal	Not currently staffed and requires additional resources to implement, including regional coordination for possible grants from regional transportation agency.	Regional examples: South SF free shuttle is about \$175,000/year (largely grant funded). Mountain View shuttle provided by Google - focuses on key City locations, runs 10am-6pm Mon-Sun. Not for commuters, focused on daily excursions.
44		Cannabis Policy options	Councilmember Hardy	None. Staff is currently tracking this issue and gathering additional information. Any policy advanced to the Council for commercial sales will be introduced with the City's staffing needs to enforce regulations.	Per Council direction from the February 19, 2019, Council meeting, staff is gathering more information regarding additional policy options for Council consideration.
45		Develop a Community Benefits policy to address expectations for new development in the City	Councilmember O'Neill	\$77,500/year for 2 years 0.5 FTE for 2 years Requires additional use of General Fund. Could incorporate into General Plan update in FY20-21	Community benefits differ from nexus based requirements in that they allow additional development capacity in exchange for additional benefits vs. mandatory contributions (e.g., Citywide affordability or parkland requirements, etc.) so a Citywide program would be different than what has been seen. This could be incorporated into the Specific Plans underway or we could launch a new Citywide policy effort. The latter would require additional staffing and we are already evaluating a community benefits framework for specific plans that are under development.
46		Maintenance and use of historic properties	Vice Mayor Mahan	\$156,452 ongoing 1.5 FTE Recreation Coordinator \$106,452 0.5 As-needed \$50,000 Unknown building maintenance costs - dependent on number and type of properties	DPW is involved with Maintenance of the Historic Homes but is not involved in leasing them out or making them available to the Public. Parks & Recreation could review feasibility of community programming and volunteer (docents) support.

	Pillar	Individual Board Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs
Partially Unknown Funding					
47		Develop options for housing support that alleviate the financial impact for potential recruits	Councilmember Davis	Below Market Purchase (BMP) Program currently available. Affordable Housing re: ADU pilot includes targeting teachers and public services workers. Additional FTE or consultant fees if new program is desired. Advertising current BMP to prospective recruits/employees would not have any cost associated.	The City currently operates Below Market Purchase (BMP) Program that assists low and moderate-income families to achieve the goal of home ownership. In fall of 2019, a new rental inclusionary policy was added, expanding the support system for those in need of housing in Santa Clara. City employees are eligible to participate if they qualify. One recommendation would be to promote this program to prospective and existing employees. Marketing material for this program could be developed and provided to candidates, provided to employees during the new hire orientation, and promoted through the HR Newsletter. In order to participate, applicants meet program requirements and guidelines (http://santaclaraca.gov/home/showdocument?id=62215). The number of produced BMP homes per year varies; there were 7 in 2018, but the average is between 5-10 per year. The wait list for our program with the Housing Trust averages 2,000 interested households, but after applicants complete the application process and are deemed eligible to apply to purchase a specific home in the program, the HT will have 2-3 applicants that qualify.
48		Protect neighborhoods from parking overflows from high-density housing	Councilmember Chahal	Additional FTEs dependent on number of areas with special parking requirements. Cost impact unknown - based on scope of requirements.	Proactive neighborhood outreach to establish neighborhood parking districts is not currently in the work program and would require additional staffing resources. Additional staffing would be required depending on the type of program selected. This would be for management of the program, and enforcements. The number of staff and cost would be based on the number of areas with special parking requirements.
Total Estimated Financial Impact:				\$56,586,694*	
Total Estimated One-Time Costs:				\$54,010,536*	
Total Estimated Ongoing Costs:				\$2,576,158	
Total Requested FTEs (does not include consulting services):				14.25	

*Includes unfunded estimate of \$51M for "Central Park North." Totals without this projected cost are \$3,100,536 estimated one- time costs and \$5,676,694 total estimated financial impact.

Santa Clara City Council Referral Update – FY 2019/20

Individual Board					
Pillar	Member Priority	Requested By	Cost + Staffing	Notes & Possible Trade-offs	
No Additional Funding Required					
1		Street Racing and Sideshows: take steps to make the 2004 Ordinance operative and increase enforcement within existing resources	City Council	Funding for a consultant to evaluate the ordinance and develop a strategic workplan can be funded through the existing FY 2018/19 budget	The consultant review will include policy and workplan development. Additional costs resulting from the consultant analysis may be required.
2		City Branding and Marketing	City Council	Funding for a Web and Digital Content Manager position is included in the FY 2019/20 Proposed Budget. In addition, funding for consultant services is available in the FY 2018/19 budget.	Further evaluation regarding changes to the existing City brand and digital content will be conducted upon approval and filling of the new position.

FY 2019/20 Capital Improvement Program (CIP) Budget Amendments

General Fund (001)			
Department	Source of Funds	Use of Funds	Explanation
Capital Projects Reserve		(2,034,820)	Decreases the Capital Projects Reserve to fund various capital improvement program project adjustments as detailed in this document.
Transfer to the Streets and Highways Capital Fund		1,578,562	Increases the transfer from the General Fund to the Streets and Highways Fund for the new PW Capital Projects Management appropriation.
Transfer to the Public Buildings Capital Fund		1,237,571	Increases the transfer to the Public Buildings Capital Fund for the Street Corporation Yard Renovation project (\$137,000) and the new Civic Center Campus Renovations (Multi-Department) project (\$1.0 million). This amount also includes a transfer for the new PW Capital Projects Management appropriation (\$100,571).
Transfer to the Storm Drain Capital Fund		550,506	Increases the transfer to the Storm Drain Fund for the Westside Retention Basin Pump Replacement project (\$320,000) and the new PW Capital Projects Management appropriation (\$230,506).
Transfer to the Electric Utility Capital Fund		330,000	Establishes a transfer from the General Fund Capital Project Reserve to the Electric Utility Capital Fund for the Fiber Development, Design, and Expansion project. This amount accounts for the Storm Drain program's portion of project costs.
Transfer to the Parks and Recreation Capital Fund		127,820	Increases the transfer to the Parks and Recreation CIP Fund for the new Bowers Roof Replacement project.
Transfer to the Fire Department Capital Fund		140,049	Increases the transfer to the Fire Department Capital Fund for the Protective Equipment Replacement project (\$120,000) and the new PW Capital Projects Management appropriation (\$20,049).
Transfer to the General Government Capital Fund		39,092	Establishes a transfer from the General Fund to the General Government Capital Fund for the new PW Capital Projects Management appropriation.
Transfer to the Library Department Capital Fund		10,633	Establishes a transfer from the General Fund to the Library Department Capital Fund for the new PW Capital Projects Management appropriation.
Ending Fund Balance		(1,979,413)	Decreases the ending fund balance to offset the transfer to various Capital Improvement Program funds for new PW Capital Projects Management appropriation. This funding is included and assumed as part of the Proposed Operating Budget.
Total General Fund			

Streets and Highways Capital Fund (533)			
Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund/PW Capital Projects Management Costs	1,578,562	1,578,562	Recognizes a transfer from General Fund and establishes a new PW Capital Projects Management Costs project. This appropriation accounts for the Public Works costs related to staff that provide support and services to projects within the Streets and Highways Capital Fund.
Total Streets and Highways Capital Fund	1,578,562	1,578,562	

Parks and Recreation Capital Fund (532)			
Project	Source of Funds	Use of Funds	Explanation
Restroom at Fairway Glen Park		900,000	Establishes a new Restroom at Fairway Glen project to fund design and construction costs to address community concerns at Fairway Glen Park.
PW Capital Projects Management Costs		806,595	Establishes a new PW Capital Projects Management Costs project. This appropriation accounts for the Public Works engineering and administration costs in managing projects within the Parks and Recreation CIP Fund. Of this amount, \$314,000 is offset using beginning fund balance, resulting from the reallocation of funds from existing FY 2018/19 projects. The remaining \$492,595 will be funding through ending fund balance.
Transfer from the General Fund/Bowers Roof Replacement	127,820	127,820	Recognizes a transfer from the General Fund Capital Projects Reserve and establishes a new Bowers Roof Replacement project.
Beginning Fund Balance	314,000		Increases the beginning fund balance to offset the PW Capital Projects Management Costs. This amount is a result of reallocation of funds from existing projects in FY 2018/19 (New Neighborhood Park & Community Garden - \$57,000, Playground Construction - \$57,000 and Youth Soccer Fields & Athletic Facilities Reed and Grant Street - \$200,000).
Ending Fund Balance		(1,392,595)	Decreases the ending fund balance to offset the actions recommended above.
Total Parks and Recreation Capital Fund	441,820	441,820	

FY 2019/20 Capital Improvement Program (CIP) Budget Amendments

Public Buildings Capital Fund (538)			
Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund - Capital Projects Reserve/Civic Center Campus Renovation (Multi-Department)	1,000,000	1,000,000	Recognizes a transfer from the General Fund Capital Projects Reserve and establishes a new Civic Center Campus Renovation (Multi-Department) project. This will fund major renovations to the cafeteria and several departments including, but not limited to, the Finance and Human Resources Department.
Transfer from the General Fund - Capital Projects Reserve/Street Corporation Yard Renovation	137,000	137,000	Recognizes a transfer from the General Fund Capital Projects Reserve and increases the Street Corporation Yard Renovation project for additional mechanical, electrical and utility work needed to meet building codes and current construction standards.
Transfer from the General Fund/PW Capital Projects Management Costs	100,571	100,571	Recognizes a transfer from the General Fund and establishes a new PW Capital Projects Management Costs project. This appropriation accounts for the Public Works costs related to staff that provide support and services to projects within the Public Buildings Capital Fund.
Total Public Buildings Capital Fund	1,237,571	1,237,571	
General Government Capital Fund (539)			
Project	Source of Funds	Use of Funds	Explanation
Ending Fund Balance - Public, Educational, and Governmental Fees		(1,039,457)	Reallocates all Public, Educational, and Governmental (PEG) fee revenue previously collected in the General Government Capital Fund to the newly created PEG Fee Fund in the operating budget.
Transfer to the Public, Educational, and Governmental Fee Fund		1,239,457	Establishes a transfer from this fund to the Public, Educational, and Governmental Fee Fund. The PEG Fund will track all revenue and expenditures related to PEG separately.
Institutional Telecommunications Networks and Broadcast Infrastructure		(200,000)	As part of the reallocation of all Public, Educational, and Governmental (PEG) fee revenue to the newly created PEG Fee Fund in the operating budget, this action eliminates the Institutional Telecommunications Networks and Broadcast Infrastructure project as these costs are now included in the new PEG Fee Fund.
Transfer from the General Fund/PW Capital Projects Management Costs	39,092	39,092	Recognizes a transfer from the General Fund and establishes a new PW Capital Projects Management Costs project. This appropriation accounts for the Public Works costs related to staff that provide support and services to projects within the General Government Capital Fund.
Total General Government Capital Fund	39,092	39,092	
Storm Drain Capital Fund (535)			
Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund/Westside Retention Basin Pump Replacement Project	320,000	620,000	Recognizes a transfer of \$320,000 from the General Fund and appropriates that funding to the Westside Retention Basin Pump Replacement project. Funding of \$300,000 is being reallocated from the Storm Water Retention Basic Remediation project. New cost estimates include replacing existing pumps with new pumps that were sized and designed to meet the required hydraulic capacity and work with existing electrical systems. This also includes the required structural work to meet building codes.
Storm Water Retention Basic Remediation		(300,000)	Reallocates funding from the Storm Water Retention Basic Remediation project to the Westside Retention Basin Pump Replacement project to align funding with higher priority projects.
Transfer from the General Fund/PW Capital Projects Management Costs	230,506	230,506	Recognizes a transfer from the General Fund and establishes a new PW Capital Projects Management Costs project. This appropriation accounts for the Public Works costs related to staff that provide support and services to projects within the Storm Drain Capital Fund.
Total Storm Drain Capital Fund	550,506	550,506	
Fire Department Capital Fund (536)			
Project	Source of Funds	Use of Funds	Explanation
Protective Equipment Replacement	120,000	120,000	Recognizes a transfer from the General Fund Capital Projects Reserve and appropriates that funding for the Protective Equipment Replacement project to fund additional equipment need as required by the International Association of Firefighters Memorandum of Understanding.
Transfer from the General Fund - PW Capital Projects Management Costs	20,049	20,049	Recognizes a transfer from the General Fund and establishes a new PW Capital Projects Management Costs project. This appropriation accounts for the Public Works costs related to staff that provide support and services to projects within the Fire Department Capital Fund.
Total Fire Department Capital Fund	140,049	140,049	

FY 2019/20 Capital Improvement Program (CIP) Budget Amendments

Library Department Capital Fund (537)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the General Fund/PW Capital Projects Management Costs	10,633	10,633	Recognizes a transfer from the General Fund and establishes a new PW Capital Projects Management Costs project. This appropriation accounts for the Public Works costs related to staff that provide support and services to projects within the Library Department Capital Fund.
Total Library Department Capital Fund	10,633	10,633	

Electric Utility Fund (091)

Department	Source of Funds	Use of Funds	Explanation
Transfer to the Electric Utility Capital Fund		535,000	Increases the transfer to the Electric Utility Capital Fund for the New Business Estimate Work and Yard Pavement projects as detailed later in this document.
Ending Fund Balance		(535,000)	Decreases the ending fund balance to offset the action recommended above.
Total Electric Utility Fund	-	-	

Electric Utility Capital Fund (591)

Project	Source of Funds	Use of Funds	Explanation
Silicon Valley Power Utility Center		(10,500,000)	Reallocates funding from fiscal year 2019/20 to fiscal year 2020/21.
Homestead Substation Rebuild		(2,800,000)	Reallocates funding from fiscal year 2019/20 to fiscal year 2020/21.
Developer Contributions/New Business Estimate Work	300,000	300,000	Recognizes additional developer contributions and increases funding for the New Business Estimate project due to change in workload.
Transfer from the Electric Utility Fund/Yard Pavement	235,000	235,000	Recognizes a transfer from the Electric Utility Operating Fund and increases funding for the Yard Pavement project.
Transfer from the General Fund/Fiber Development, Design, and Expansion	330,000	330,000	Recognizes a transfer from the General Fund for the Storm Division's portion of project costs. Overall decrease in project costs and return original transfer back to Electric Utility Operating Fund.
Ending Fund Balance		13,300,000	Increases the fund balance for fiscal year 2019/20 to account for funding being pushed out to fiscal year 2020/21.
Total Electric Utility Capital Fund	865,000	865,000	

Water Utility Fund (092)

Department	Source of Funds	Use of Funds	Explanation
Transfer to the Water Utility Capital Fund		1,420,000	Increases the transfer to the Water Utility Capital Fund for the Tank Rehabilitation project as detailed later in this document.
Ending Fund Balance		(1,420,000)	Decreases the ending fund balance to offset the action recommended above.
Total Water Utility Fund	-	-	

Water Utility Capital Fund (592)

Project	Source of Funds	Use of Funds	Explanation
Transfer from the Water Utility Fund/Tank Rehabilitation	1,420,000	1,420,000	Recognizes a transfer from the Water Utility Operating Fund and increases funding for the Tank Rehabilitation project. Additional funding is needed to account for the higher than anticipated design estimates associated with the rehabilitation of the three Serra water storage tanks.
Asset Management Program		750,000	Increases funding for the Asset Management Program to expand the project's scope to include a Master Plan. This will enable the Water and Sewer Utilities Department to understand the condition of existing infrastructure and assess capacity for growth. Once these items are determined, the Department will be able to prioritize critical needs and incorporate them in their fiscal plan.
Water Utility Fund Balance		(750,000)	Decreases the unrestricted fund balance to offset the action recommended above.
Total Water Utility Capital Fund	1,420,000	1,420,000	

Sewer Utility Fund (094)

Department	Source of Funds	Use of Funds	Explanation
Transfer to the Sewer Utility Capital Fund		(21,495,830)	Decreases the transfer to the Sewer Utility Capital Fund for the San José-Santa Clara Regional Wastewater Facility project as detailed later in this document.
Ending Fund Balance		21,495,830	Decreases the ending fund balance to offset the action recommended above.
Total Sewer Utility Fund	-	-	

FY 2019/20 Capital Improvement Program (CIP) Budget Amendments

Sewer Utility Debt Service Fund (494)			
Department	Source of Funds	Use of Funds	Explanation
Debt Proceeds/Transfer to the Sewer Utility Capital Fund	25,000,000	25,000,000	Recognizes a \$25.0 million increase in debt proceeds and increases the transfer to the Sewer Utility Capital Fund for the San José-Santa Clara Regional Wastewater Facility project as detailed later in this document.
Total Sewer Utility Debt Service Fund	25,000,000	25,000,000	
Sewer Utility Capital Fund (594)			
Project	Source of Funds	Use of Funds	Explanation
San José-Santa Clara Regional Wastewater Facility	(22,978,773)	2,021,227	Decreases the transfer from the Sewer Utility Fund (\$21,495,830) and the connection charges revenue (\$1,482,943). In the 2019/20 Adopted CIP, this project was originally funded with \$25.0 million from debt proceeds, \$21,495,830 from a transfer from the Water Utility Fund, and \$1.5 million from connection charges. As a result of updated cost estimates provided by the City of San José for Santa Clara's portion of project costs, the Water and Sewer Utilities Department is adjusting the project funding. While the transfer and connection charge revenue is being decreased, a separate action is recommended to increase the debt proceeds, as detailed below.
Transfer from the Sewer Debt Service - San José-Santa Clara Regional Wastewater Facility	25,000,000	-	Increases the transfer from the Sewer Debt Service Fund for the San José-Santa Clara Regional Wastewater Facility to reflect the updated cost estimates provided by the City of San José for Santa Clara's portion of project costs.
PW Capital Projects Management Costs		780,594	Establishes a new PW Capital Projects Management Costs project to account for the Public Works costs related to staff that provide support and services to projects within the Sewer Utility Capital Fund. This project is offset by ending fund balance. The total amount for Public Works costs is \$937,658; the remaining amount is already budgeted in the Sanitary Sewer Capacity Improvements project (\$71,393) and Sanitary Sewer System Improvements project (\$85,671).
Ending Fund Balance		(780,594)	Decreases the unrestricted fund balance to offset the action recommended above.
Total Sewer Utility Capital Fund	2,021,227	2,021,227
