Subject: Cit Council Comment 3.0 19-759 for today

3.0 19-759 Action to Authorize the City Manager to Negotiate and Execute Change Orders for the Raymond G. Gamma Dog Park, Increase Change Order Authority for the Reed & Grant Streets Sports Park Project and Related Budget Amendment

It appears staff is asking Council to apply more Quimby Act monies to the dog park and the soccer park because both venues serve the entire city. There is already a dog park a half mile from this site. The Youth Soccer Park on the Northside was built to benefit the entire city.

The biggest percentage of Quimby Act benefits has been awarded in close proximity to the "Old Quad/Downtown/University" area— these projects and the Buchser School District tennis courts.

Please spread park and open space community benefits more broadly throughout the community for all people who live in Santa Clara.

Thank you, Clysta Seney
