This project is located on the site of the city's most productive well. The city and residents can not afford to damage/destroy this well for a project. This project also did not follow the "surplus land act" and should be sent out to the community for a "visioning" prior to receiving a proposal from a developer. This project does not meet the station area plan and/or good transit center requirements. The community voiced severe concerns at the VTA held community meeting.

Agenda Item: eComments for A. 20-632 Adopt a Resolution in Affirming the City's Commitment to Stand in Solidarity with the Black Community

Here's a simple start for acting in solidarity rather than just talking about solidarity: Hire people. Just hire them. Of course I'm talking about African-Americans, but also Hispanics and other less represented citizens of Santa

Clara. Don't compare tiny pieces of resumes to other resumes. If an African-American has credentials, just hire him or her. Without hiring people, all of the talking in the world means zip.

The essence of racism and discrimination is embedded in the fabrication of American society. It's apart of our daily lives even if we cannot see it. To say it does not exist in the city of Santa Clara would be asinine. As an African-American resident of this city for the past 7 years, I have faced microaggressions in this city for what I've perceived is due to the color of my skin. Even the smallest act of racism whether consciously or unconsciously perpetrated cannot be tolerated.

The forming of a resident based anti-racism and discrimination human rights commission demonstrates that the City Council and City of Santa Clara do not condone any acts of racism, hatred, and bigotry within its jurisdiction. This action if approved by the residents and council will help ensure that all residents have their basic human rights protected regardless of their age, ethnic origin, language, religion, ethnicity, or any other status.

The Resolution lacks vision; The City has been unable to see solutions besides BB (buses, bikes). Solutions should include other modes of transport - electric 2-seat vehicles, electric scooters/bikes/skateboards, etc. - as well as appropriate roadway laws/lanes. Some workers need to carry tools (e.g. construction/house-cleaning) and their work places change. So buses or bikes won't work. As there is no farmers market near me, I drive to one and must carry 4-6 bags groceries. Imagination please!

Agenda Item: eComments for 6.U 20-516 Action to Authorize the City Manager to Execute Amendment No. 2 With Dillingham & Associates in the Amount of \$84,343 for Construction Support and Contingency for the Raymond G. Gamma Dog Park Improvements and Related Budget Amendment [Council Pillar: Enhance Community Sports, Recreation, and Arts Assets]

About Exhibit A, "turf improvements in the ... dog areas to reduce or remove existing berms and replace with natural turf or design a lower maintenance synthetic turf replacement," I urge the Council to reflect on the full cost of synthetic (plastic) turf, as it impacts water (SF Bay) and air (compounds released from plastic) quality, as well as public health (dogs & humans), and ask the Council to insist on "natural" (grass) turf. As dog owners we will drive our dog further for natural turf.
