Subject: FW: Concerns about the 2200 Lawson expansion public hearing today

Hello Mr. Crabtree,

For the scheduled public hearing for 2200 Lawson project today, I have the following questions for you:

1. Is this expansion project that urgent so it is needed to be held with a very limited public participation even under the current COVID-19 outbreak?
2. I would like to participate the meeting and have my opinions heard but I do not know what the effective ways I should take to join.

Also on the Addendum to 2003 EIR and 2103 IS/MND which I feel that is the most relevant portions for neighbors are within 1000 feet of the subject located like Newnex. The document posted by the city website says:

“Pursuant to CEQA Guidelines Section 15164(c), this Addendum need not be circulated for public review, but will be included in the public record file for the Lawson Lane West Campus Expansion Project.”

It sounds like the Addendum goes without discussions. If so, why is it included as part of the preview documents for the meeting?

Please kindly take a look the email I just sent to the Planning Committee.

Thanks,

Best Regards,
Sam Liu

Subject: Concerns about the 2200 Lawson expansion public hearing today

Dear planning commissioners,

This is Sam Liu from Newnex Technology Corp. located at 3041 Olcott Street, which is within 1000 feet from the proposed expansion project. We strongly feel this public hearing should be cancelled and postponed to a date after May 3 which is the expected date the Shelter in Place order to be lifted. By doing that, it will ensure most of impacted neighbors can participate and have their options heard. Under the current arrangement, the participation of the hearing from public will be very limited and this will turn out not a true public hearing but more like a publicity, like doing a pre-arranged event, not serve the purpose for hearing impacted neighbors to express their concerns and to ensure their rights to be respected and protected.

Thanks,
Respectfully,
Sam Liu
