I like the bike lanes but I'm not happy with taking \$1 million from our general fund to give rebates to our residents when we are considering layoffs in our police department. I opposed the expensive garbage contract that is making us consider these rebates.

I support building low income housing, especially for families. It's unfortunate that despite saying there will be 120 units in 6 stories plus 1 floor of parking on 1.41 acres, there are no development plans. Will the top of the building be stepped back from neighboring houses to prevent overshadowing? Will there be enough parking? If so, this is a more important project than the others, excepting food and rental assistance. By the way, what do Benton residents think about class 2 bike lanes?

It's essential to relocate the County Courthouse, to enable the full six city-owned blocks to be redeveloped as a whole. We want a cohesive downtown redevelopment, starting with the six blocks which will become available once the leases come due in 2022. If the courthouse remains "as is," it will block the re-connection of Main St., which is essential to reestablishing the downtown area on the original grid.

I oppose wasting everybody's time on this odd effort. Though I support the idea of recreating a downtown for the City -and I'm listed as a supporter- I fail to see how removing the County Courthouse enhances the area. Funnily enough no one is demanding that the U.S. Post Office move. Both the Post Office and the Courthouse offer necessary governmental services and I would think that the City of Santa Clara would want to keep them both.
