Why are playgrounds closed? The risks of covid to this age group don't justify continued closure. As parents supervise/ensure safety of their child we can be responsible for hand washing after a trip to the park. Our kids need this. The science supports it. Keeping parks off limits while other activities resumes seems cruel to our children with no basis for this action. Nearby cities have opened their parks. I'm asking Santa Clara to do the same.

I believe that the Brown act allows commissions and committees to add items to their agendas. There were complaints at the governance and ethics committee that Planning commission was putting too many demands on staff. When I joined the planning commission we had two meetings per month and we had architectural review committee. Last year we canceled many planning commission meetings and this year there are only 13 on next years schedule.
