Subject: Proposal for Continued Noise Monitoring System & Services for Levi's Stadium

Dear Mr. Padilla,

Wilson Ihrig is pleased to present this proposal to provide ongoing noise monitoring systems and services to the City of Santa Clara to help document noises in the neighborhoods near Levi's Stadium. Under our current contract, Wilson Ihrig procured and installed four monitoring stations from Seti-Media. Those systems have been operational since July 10, 2017, and the data they collect is available to the public via a link to Seti-Media's website on the City of Santa Clara's website. The Seti-Media website was tailored to this particular application in terms of the time intervals for which data are presented and a custom-made "jet filter" which can – at the user's options – remove jet airplane noise from the data graphs.

Our original contract provided for monitoring service through August 2018. This proposal provides for an additional two years of monitoring, through August 2020.

1 PROPOSED ONGOING SYSTEM AND SERVICES

The following scope of work is based on our experience with this project to date. Pricing is included for maintaining two, three, or four of the noise stations.

This proposal also includes budget allocation for Wilson Ihrig to advise the City on noise issues that arise near the stadium. This work would be billed on a time and materials basis, so the budget would only be expended if a need arises.

1.1 NOISE MONITORING SYSTEM RENT AND MAINTENANCE

Wilson Ihrig will provide single-point responsibility for maintaining and reviewing all noise monitors for proper working order. The monitoring stations will also be automatically self-checked regularly for proper functioning.

1.2 NOISE CONSULTATION

Wilson Ihrig has extensive experience dealing with noise and related issues from all manner of sources. During the monitoring period, we would be available to consult with the City on any issues that arise. Because the extent of the need for this is unknown at this time, a place-holder budget has been included. This work would be billed on a Time and Materials basis, as needed.

2 Proposed Budget

Below, we present the constituent costs for each of elements of this proposal, then, at the bottom, provide a summary table for the various combinations.

TASK	COST
Noise Monitoring Station Rent and Maintenance (costs one year, per station)	\$ 11,760
Noise Consultation (T&M, as needed)	\$ 10,000

Putting the constituent components together, the proposed all-inclusive budgets for two years and the number of stations indicated are as follows:

Two (2) Stations	\$ 57,040
Three (3) Stations	\$ 80,560
Four (4) Stations	\$ 104,080

Labor would be billed on a time and material basis in accordance with the following rate table:

Title	Rate

Associate Principal	\$210 / hour
Senior Consultant	\$175 / hour
Associate	\$150 / hour
