Hello Committee,

I'm writing this email to support the approval of this house remodel project, since it would make our community beautiful and it's

Recently, there are three more approval cases in this community within 200 feet distance. Two remodelings are completed and one is under construction. Having said that, it would be unfair treatment or injustice if the community and/or city do not approve for home owner to improve their property with well designed plan.

All other cities such as San Jose, Cupertino, Sunnyvale, and even California are encouraging resident to improve the house value and capacity for figuring out the house shortage issue.

Best regards

From Woonseong Kwon (Sycamore way resident)
