My name is Alan Li, Product Manager of Newnex. I am upset about the CMU wall that the 3200 Scott Blvd project is going to build along Newnex borderline. Despite the safety threat it potentially creates, we were not able to use the parking spaces for more than 3 years due to the construction. Newnex had our parking lot renovated back in 2017, yet we still haven't got chance to use it until now. What's even worse is the brand new parking lot had already been severely damaged by this construction.

As a current Newnex employee. Since the beginning of the project in 2017, I have to park the car very far away from our building entrance with the concerns of safety and damages to our parking lot. It is very inconvenient every day, I heard about the wall they plan to build, I would lose the parking at the front of the building forever

because of it. I wish the city could do something about it, they need to fix our parking lot. We deserve our parking spaces and our rights to park safely.
