Slide #5 in the Schematic Design, for Play Zones, adds usage of Synthetic Turf for Existing Terrace seating. Synthetic Turf adds to plastic pollution in our Bay and ocean. There are natural turf alternatives developed for the West and for California. Plants breathe in carbon dioxide and oxygen out. Also Synthetic Turf does require maintenance. Dirt accumulates and weeds grow in Synthetics. Divots form. Microplastic bits flow to the Bay. Bird

poop lingers. Turf heats the air more than grass.

Agenda Item: eComments for 3.R 21-1245 Action on the Schematic Design of the New Public Neighborhood Park Located at 1205 Coleman Avenue (Gateway Crossings)

All "lawn" areas should use planted grass rather than Synthetic Turf. Synthetics pollute our Bay and ocean with micro-plastics. There are natural turf alternatives developed for the West and for California. Plants breathe in carbon dioxide and oxygen out. Also Synthetic Turf requires maintenance. Dirt accumulates and weeds grow in Synthetics. Divots form. Microplastic bits flow to the Bay. Bird poop and bacteria linger. Turf heats the air more than grass and is hotter. Our City should be green.
