Good Afternoon Daisy,

We are sorry that your microphone was not working during the Development Review Hearing. We assure you that the host did not stop the microphone function for you. In fact, you were promoted to panelist to have full capability to speak anytime by unmuting yourself.

Having said that, your concerns conveyed via email were fully reviewed. As it was explained at the meeting, this project (including the second floor balcony) was previously approved at the Development Hearing on May 13, 2020 and is currently undergoing construction after receiving the building permits. The only reason the project was scheduled again for the hearing was because they added additional 18 sq. ft. on the second floor than approved previously. There were no changes proposed to the previously approved second floor balcony and it was not up for reconsideration.

Thanks,

Dear Nimisha,

We joined the meeting but you cannot hear us on the phone because it says in the comment - "THE HOST STOPPED IT," meaning that you muted us and your microphone is off that's why you cannot hear us. We can hear everything you said but your microphone is off,

We were not able to speak up and express our concern,

The distance from the balcony looking out into our backyard has a very close proximity, it is not far from the neighbor,

You did NOT GIVE US THE CHANCE TO SPEAK UP, we were muted by the host, and your microphone was turned off. We tried several times to call back and to reconnect.

Dear Nimisha,

We live on 440 Collinwood Ct.

Attached are pictures taken from our backyard that impacts the view from the balcony on 3766 Eastwood circle,

We oppose the extension for adding a balcony from the second floor because it will compromise our PRIVACY and other houses within the close proximity of this property, Please stop the extension of adding a balcony because the view will be looking out directly into our backyard, - IT WILL GREATLY IMPACT OUR PRIVACY.

Please consider our privacy.

Thank you for your kind consideration.

Milo and Daisy
