Reasons

Please state reasons why you want to become a member of this Board/Commission/Committee, including what specific objectives you would be working toward as a member of this advisory board:

I would like the opportunity to serve the Seniors in our community. I became more aware of this community's needs when I reached out for my daughter's Destination Imagination competition. The Seniors were feeling lonely and longing for connection and support. We organized cultural events to connect the youth and the seniors and brought some joy. I further volunteered in another old-age center and enjoyed it very much(before Covid).

With the learnings and personal growth from the above work. I am passionate about building programs that would connect our Seniors with Youth and bring mutual happiness. However, I am open to helping the Seniors with programs and projects that are much needed.

Additional Information

Any other information which you feel would be useful to the City Council in reviewing your application:

Also, feel that my age (50yrs) is just perfect to connect with seniors, understand their needs, relate them to my future expectations, and help the community with programs to support them.

Conflict of Interests

Are you associated with any Organization/Employment that might be deemed a conflict of interest in performing your duties if appointed to this position?

No

Abstaining from Votes

City policy directs all advisory body members not to vote on matters where there exists a potential conflict of interest. Would you be willing to abstain from voting if such a conflict arises?

Yes
