Project Description: Architectural Review of the proposed substantial demolition of an existing 1,662 sft one-story three-bedroom and two-bathroom house with an attached two-car garage, and new construction of a proposed 3,789 square-foot two-story 5 bedroom + office and four bathroom residence and conversion of an attached two car garage into a 495 square-foot one-bedroom accessory dwelling unit.

I am fine with the elevation and setbacks as shown in the picture and okay with this home extension plan.
