COUNCIL PILLARS

Deliver and Enhance High Quality Efficient Services and Infrastructure, and Promote Sustainability and Environmental Protection

BACKGROUND

At the November 16, 2021 Council meeting, proposed Ordinance No. 2036 was introduced and passed for the purpose of publication. Pursuant to City Charter Sections 808 and 812, proposed Ordinance No. 2036 was published on December 1, 2021, and copies were posted in three public places. The Ordinance now comes to Council for final adoption.

DISCUSSION

The Department of Public Works led a collaboration with staff from the Parks & Recreation Department, Community Development Department, City Attorney’s Office and City Manager’s Office to modernize the existing ordinance to better protect existing trees and require planting of new trees to preserve the City’s urban forest. Staff surveyed ordinances from other municipalities, including the Cities of Cupertino, Mountain View, Sunnyvale, Palo Alto, Milpitas, and San Jose to develop a baseline understanding of tree protection standards throughout Santa Clara County.

The proposed ordinance would establish new regulations for the installation, maintenance, removal, and management of trees and plants in public places, provide protections for trees designated as

Heritage Trees and trees of certain species and/or size, and provide enforcement mechanisms for violations of those regulations and protections.

ENVIRONMENTAL REVIEW

The action being considered does not constitute a “project” within the meaning of the California Environmental Quality Act (“CEQA”) pursuant to CEQA Guidelines section 15378(b)(2) as a general policy making activity.

FISCAL IMPACT

There was no fiscal impact associated with this report.
